### **IWD announces new location for the Denison IowaWORKS office**

DES MOINES - Today, Iowa Workforce Development announced the Carroll IowaWORKS office will relocate to a new facility at 504 Hwy 39 North in Denison. The Denison IowaWORKS center will officially open on Jan. 2, 2021. IWD had previously announced that the IowaWORKS office in Carroll would relocate to Denison in order to provide job resources to both Carroll and Denison communities.

“After working with local leaders, legislators and the workforce development board to plan the relocation, we couldn’t be more excited for the facility to open its doors and connect Crawford County residents with employment services,” said Director Beth Townsend, Iowa Workforce Development. “The new location will expand services to more lowans and connect them with new opportunities.”

The decision to relocate the IowaWORKS office to Denison was made in December 2019 after local leaders and IWD officials evaluated the need for an IowaWORKS facility in Denison. An expansion office will be available to Carroll residents at a later date.

“The Denison IowaWORKS center will be a one-stop shop for job seekers and employers in the Denison community,” said Michael Witt, IowaWORKS Division Administrator. “Our team looks forward to working with lowans to help them build the skills they are looking for or help reach their employment goals.”

Job seekers, employers, and community groups are encouraged to contact their nearest IowaWORKS center, or visit [IowaWORKS.gov](http://IowaWORKS.gov) to learn more about the employment services available to lowans.
