

Effective with the December 2020 Report.

Beginning July 2020, changes were made to this report to provide more complete and accurate information about the households and individuals in Iowa receiving Family Investment Program (FIP) benefits. FIP is funded with state and federal funds from the Temporary Assistance for Needy Families (TANF) block grant.

Categories for households and individuals have changed. Previously, categories were limited to Regular FIP and 2-Parent FIP. The Regular FIP category included families with only one parent in the household as well as families where needy children were living with a non-parent relative. The new report identifies and counts these Caretaker cases and individuals separate from One-Parent FIP cases and individuals.

The timing for the report also changed. Previously produced at the end of the report month, the report missed cases that were closed for any number of reasons when the report was created, only to shortly re-open. The report also missed applications processed in the month after application, but issuing payment for the prior month of application. Now the report is produced mid-month after the report month. As a result, it may appear that caseloads have increased. Instead, the new report provides more complete and accurate counts by including cases missed by the old report.

Note that data for the corresponding month from the prior year was also categorized as described above allowing for an equivalent comparison to the current report month.

UPDATE: Effective with the December 2020 Family Investment Program Monthly Participation Report (A-1) the Child Support recovery figures will no longer be included on these reports. Child Support data will be included on the upcoming DHS Dashboard site.
