		\$44,305.42	\$44,305.42

In the above account it will be seen that there is now in the State treasury \$32,105.42 not invested in bonds as required by law. Your attention is called to section 3, chapter 71, Acts of the Eleventh General Assembly of the State of Iowa as follows:

SECTION 3. The money arising from the sale of said lands shall be paid into the State Treasury, which shall be invested by the State Treasurer in the bonds of the State of Iowa, or United States Registered bonds, as directed by the Act of Congress granting said lands. And the moneys arising from the interest on said lands, shall be paid over to the Trustees of the Iowa State Agricultural College and Farm, to be loaned by said Board of Trustees, on good and sufficient security, until needed to defray the expenses of the College.

The bonds above mentioned command a *premium* of from *six* to *twenty* per cent. for the payment of which no provision has been made; the law appropriating the *interest* for the purpose of defraying the expenses of the College, and no portion of the *principal* can be used in paying any expense or premiums in the purchase of bonds. In support of the above conclusions, your attention is called to that portion of the Act of Congress entitled "An Act donating public

lands to the several States and Territories which may provide Colleges for the benefit of Agriculture and Mechanic Arts," approved July 2, 1862, which grant was accepted by the General Assembly of the State of Iowa, September 11, 1862, which relates to the permanent investment of all moneys derived from the sale of lands as follows:

SECTION 3. *And be it further enacted*, That all the expense of management, superintendence, and taxes from date of selection of said lands previous to their sales and all expenses incurred in the management and disbursement of the moneys, which may be received therefrom, shall be paid by the State to which they may belong, out of the treasury of said State, so that the entire proceeds of the sales of said lands shall be applied without any diminution whatever to the purposes hereinafter mentioned.

SECTION 4. *And be it further enacted*, That all moneys derived from the sale of lands aforesaid by the States to which the lands are apportioned, and from the sale of land-scrip hereinbefore provided for, shall be invested in stock of the United States, or of the States, or some other safe stocks, yielding not less than five per centum, upon the par value of said stocks; and that the money so invested shall constitute a perpetual fund, the capital of which shall remain forever undiminished, (except so far as may be provided in section fifth of this act,) and the interest of which shall be inviolably appropriated by each State, which may take and claim the benefit of this act, to the endowment, support and maintenance of at least one college, where the leading object shall be, without excluding other scientific and classical studies, and including military tactics, to teach such branches of learning as are related to agriculture and the mechanic arts, in such manner as the Legislatures of the States may respectively prescribe, in order to promote the liberal and practical education of the industrial classes in the several pursuits and professions of life.

SECTION 5. *And be it further enacted*, That the grant of land and land-scrip hereby authorized shall be made on the following conditions to which, as well as the conditions hereinbefore contained, the previous assent of the several States shall be signified by legislative acts:

*First.* If any portion of the fund invested as provided by the foregoing section, or any portion of the interest thereon, shall, by any action or contingency, be diminished or lost, it shall be replaced by the State to which it belongs, so that the capital of the fund shall remain forever undiminished; and the annual interest shall be regularly applied without diminution to the purposes mentioned in the fourth section of this act, except that a sum not exceeding ten per centum upon the amount received by any State under the provisions of this act, may be expended for the purchase of lands for sites or experimental farms, whenever authorized by the respective legislatures of said States.

*Second.* No portion of said fund, nor the interest thereon, shall be applied directly or indirectly, under any pretense whatever, to the purchase, erection, preservation or repair of any building or buildings.

It will be seen from the above that the State Agricultural College Endowment Fund is a *perpetual* fund, and shall remain forever *undiminished*; that it shall be invested in "stocks of the United States, or of the States, or other safe stocks yielding not less than five per centum;" while section 3, chapter 71, Acts of the Eleventh General Assembly of the State of Iowa, requires the State Treasurer to invest said fund in bonds of the State of Iowa, or United States registered bonds. As no provision has been made for the payment of any premium or other expense in the purchase of bonds, I have not been able to invest said fund as required by law. In as few words as possible, I have directed your attention to the law, and also, to the fact that \$32,105.42 lies idle in the State treasury, (which sum will, probably, be largely increased during the next two years,) leaving you to suggest what mode of relief, in your judgment, will be for the best interest of the State and College.

Your attention is directed to the Swamp Land Indemnity Fund, as shown above. The law requires that the amount paid by the State to the agents appointed by the Governor to make a settlement with the Commissioners of the General Land Office shall be divided *pro rata* among the several counties, according to the amount in value of the money and lands secured to such county. See section 12, chapter 160, acts of the Ninth General Assembly of the State of Iowa as follows:

SEC. 12. The agent, or agents, appointed by the Governor under the provisions of this act, shall receive as a full compensation for the services rendered, and expenses incurred by virtue of said appointment, the sum of four dollars per day, which said compensation shall be paid by the State; but the amount so paid shall be divided *pro rata* among the several counties, according to the amount in value of the money and lands secured to such county by the provisions of this act, the land to be valued at \$1.25 per acre, and the amount so found due by each county to the State, shall be paid before such county shall receive its share of the money and lands which may be obtained under the provisions of this act.

I found that it had been the custom of my predecessors to retain two per centum of the Swamp Land Indemnity Fund paid into the State treasury by the General Government, to reimburse the State for the amounts paid State agents, and I have retained the same per centum on the amounts so received, as the above account will show. The per centum so retained now amounts to \$4,303.04, and lies idle in the treasury for want of authority to transfer to the fund where it rightly belongs. The agents were paid out of the General Revenue fund, and the State Treasurer should be authorized to transfer said per centum from the Swamp Land Indemnity fund to General Revenue. The amount due Monona county, \$4,629.63, still remains in the treasury, together with the per centum, \$4,303.04, makes the balance as shown above.
