Broom-making.

ASHBEL C. FERREBY,

Mattress and Basket.

C. C. GRIFFIN, M. D.,

Physician.

TRUSTEES' REPORT.

To THE HONORABLE, THE GENERAL ASSEMBLY OF THE STATE OF IOWA:

THE undersigned Trustees respectfully submit the following as their report of the management of the "Iowa College for the Blind," for the biennial term ending the 30th day of September, A. D. 1881.

The surplus on hands at the last report has enabled your Trustees, by the exercise of rigid economy, to meet the current expenses of the institution, notwithstanding the reduction made by the "Eighteenth General Assembly" in the appropriations for the running expenses of the College. Without said surplus, great embarrassment, if not the closing of the institution, would have ensued.

The school is well organized, with a full corps of competent officers and teachers. The pupils in the several departments have made commendable progress during the period covered by this report.

The College buildings and grounds have received careful attention; and, with the exception of the roof on the main building and the fence in front, are now in good condition and repair. The fence in front of the College buildings is in a very dilapidated condition, and we think it should be replaced by a neat and substantial iron fence. A suitable foundation is already in position for such a structure.

The official reports of the Principal and Treasurer are herewith submitted, to which your attention is invited, as showing in detail the educational and financial condition of the institution.

Upon the advice of a competent boiler inspector, your Trustees replaced the three steam boilers on hands at the last report by two larger boilers of much greater heating capacity, and capable of being run with considerably less fuel. These boilers were in use the past winter and gave complete satisfaction.

We respectfully call the attention of your honorable body to the necessity of an increase in the general appropriation for the running expenses of the College.

We deem it impossible to carry on and properly maintain the present efficiency and standing of the College upon the low appropriations now fixed by statute; and we respectfully ask that the amount appropriated be not less than forty dollars per quarter for each pupil in the institution; and that in addition thereto, suitable appropriations be made by your honorable body for the purpose of meeting the contingent expenses of the College, and for the purpose of making needed additions to the College library, and providing necessary apparatus for the use of the several departments of the institution.

The State has liberally supported the College from its organization to the present, and we solicit your honorable body to carefully consider the needs of the institution and to make such liberal appropriations for its use as will enable your Trustees not only to maintain its present standing but to increase its efficiency and usefulness.

Respectfully submitted.

JACOB SPRINGER, *President.*
 SAMUEL H. WATSON, *Treasurer.*
 M. H. WESTBROOK.
 J. F. WHITE.
 C. O. HARRINGTON.
 W. H. LEAVITT.

REPORT OF THE PRINCIPAL.

To His Excellency, JOHN H. GEAR, Governor of Iowa:

IN compliance with the law of the State, I herewith submit the "Fifteenth Biennial Report" of the Iowa College for the Blind for the biennial term ending September 30, 1881.

In the following tables you will find the names, age at admission, sex, residence, place of nativity, cause of blindness, and date of admittance of the pupils in attendance during the period embraced in this report.

STATISTICS OF PUPILS ENROLLED.

| NAME. | Age.* | RESIDENCE-COUNTY. | NATIVITY. | CAUSE OF BLINDNESS. | HOW LONG BLIND AT ADMISSION. | DATE OF ADMISSION. |

COURSE OF INSTRUCTION.

The following gives the course of instruction and the classification of pupils:

FIRST PRIMARY.

| | |
|---------------|------------|
| Raised Print. | Spelling. |
| Arithmetic. | Geography. |

SECOND PRIMARY.

| | |
|----------------------|-------------|
| Reading Raised Print | Arithmetic. |
| New York Point. | Geography. |
| Spelling. | History. |

INTERMEDIATE.

| | |
|-----------------------|-------------|
| Reading Raised Print. | Arithmetic. |
| Spelling. | Geography. |
| U. S. History. | |

JUNIOR DEPARTMENT.

FIRST YEAR.

| | |
|-------------|------------|
| Penmanship. | Geography. |
| Arithmetic. | Grammar. |

SECOND YEAR.

| | |
|-------------|-----------------------|
| Penmanship. | Analysis and Parsing. |
| Arithmetic. | General History. |

THIRD YEAR.

| | |
|-------------|---------------------|
| Penmanship. | Natural Philosophy. |
| Arithmetic. | General History. |

SENIOR DEPARTMENT.

FIRST YEAR.

| | |
|-----------|-------------|
| Algebra. | Physiology. |
| Rhetoric. | Zoology. |

SECOND YEAR.

| | |
|----------------------|-------------------|
| Algebra. | Chemistry. |
| Moral Philosophy. | Civil Government. |
| American Literature. | |

THIRD YEAR.

| | |
|---------------------|----------|
| Geometry. | Geology. |
| Mental Philosophy. | Logic. |
| English Literature. | |

CLASSIFICATION.

THIRD SENIOR CLASS.

The health of the pupils, with few exceptions, has been good. As a general rule they have been orderly in their conduct, diligent in their studies, and have made rapid progress.

Special attention has been given to imparting instruction in the various branches of the work department, and the pupils have shown great aptness to learn.

The branches taught in this department are sewing, both hand and machine, knitting, crocheting, bead-work, cane-seating, mattress and broom-making. They have all been prosecuted with considerable success both to the pupils and the institution.

We have had three deaths during this biennial period: Maryetta Rath, died August 14, 1880; Mamie Walters, died November 7, 1880; and Alice Brewer, died May 1, 1881.

The buildings are in good condition, with the exception of the roof

on the main building. The slate with which it is laid are too large, and consequently too great a surface is exposed to the weather. The result is, the high winds produce a constant vibration until the slate break and slide out of their place, making a leak in the roof. Severe hail-storms are also very damaging.

The attendance of pupils has not been as large as could be desired. There are many more in the State who should be in the institution, but for various reasons they are not. The county superintendents of common schools, whose duty it is to report annually to the Superintendent of the institution all the blind in their respective counties, seem to take but little interest in the matter; and from this, our only source of information, we gain but little knowledge of the blind throughout the State.

Another difficulty with which we have to contend, is the name with which the institution is branded. The public press in the State, when they speak of the institution at all, speak of it as the "Blind Asylum." To many this name is very odious, and they cannot think of placing their children in an asylum. This is not an asylum in any sense, even though it is supported from the public treasury of the State. It is a school for the education of the blind, and not an asylum for their support. On this point, let me quote from the report of the Commissioner of Education at Washington, D. C. He says:

"The institutions for the blind, as well as those for deaf-mutes, are justly included among educational, rather than charitable establishments. It is no argument against them that they receive their support from the public treasury. Public schools are also supported by taxes upon the people. Colleges and universities are largely aided by State appropriations or national grants, and by the munificent charities of individual friends. No dependence upon charity comes from accepting the instruction offered in schools for the blind, any more than attending the public schools or the principal colleges. This sensitiveness about being the objects of charity, prejudice against committing children to institutions wrongly supposed to be asylums, and ignorance of the existence and privileges of these schools restrict the attendance upon them."

Is there no way by which the odium of asylum can be removed, and a knowledge of the true character and design of the institution given to every citizen of the State, and especially to those who have blind children growing up without education?

In regard to the manner of reporting the blind in the State to the institution, we would suggest a change in the law. Instead of laying the burden upon the county superintendents, let assessors of the cities

and townships throughout the State be charged with the duty of reporting the blind in their respective districts to the auditor of the county to which they belong, and let the county auditor be required to report annually to the Superintendent of the institution.

The work of conducting the interests of the institution for the biennial period has been very trying, owing to the reduced appropriations. You will see from the Treasurer's report that our expenses for this period have been \$50,183.15, and we have drawn from the State treasury for the same period, \$41,020. The present appropriations might be sufficient if we had one hundred and fifty pupils, but with our present number they are wholly inadequate.

The number of pupils could be increased with but little addition to the expenses; and the increase in pupils would augment our funds.

In view of the high price of all kinds of provisions, it is the judgment of our Board of Trustees that the annual appropriation should be raised to at least \$10,000; and the pupilage restored to its former figures, \$40 per quarter for each pupil.

Accompanying this report you will find an itemized monthly statement of all our expenditures for the biennial term; and also an inventory of the property in and about the institution.

Respectfully submitted,

ROBERT CAROTHERS, *Principal.*

ACKNOWLEDGMENTS.

The following newspapers have been sent to the institution gratuitously during the whole or part of the last two years, for which the thanks of the principal, teachers, and pupils are tendered to the proprietors, with the hope that the favor may be continued:

TREASURER'S REPORT.

SPECIAL APPROPRIATIONS.

SPECIAL APPROPRIATIONS OF THE SIXTEENTH GENERAL ASSEMBLY.

Balance on hand from last report:

| | |
|---|-----------|
| For furniture, bedding, and furnishing goods..... | \$ 114.13 |
| For library and apparatus..... | 50.21 |
| For musical instruments..... | 2.59 |

Total balance.....\$ 166.93

SPECIAL APPROPRIATIONS OF THE SEVENTEENTH GENERAL ASSEMBLY.

Balance on hand from last report:

| | |
|---|-----------|
| For mattresses, bedsteads, bedding, and chairs..... | \$ 387.78 |
| For contingent expenses..... | 7.15 |
| For constructing sewer..... | 154.74 |
| For repair of fence, etc..... | 400.00 |

Total balance.....\$ 949.67

EXPENDITURES.

Of the balance on hand of the appropriations of the *Sixteenth General Assembly* we have expended, as shown by the following statement, for furniture, carpets, etc., \$114.13, leaving no balance.

For library and apparatus, \$50.21, leaving no balance.

For musical instruments, \$2.59, leaving no balance.

Of the appropriations of the *Seventeenth General Assembly*, we have expended:

For bedsteads, mattresses, bedding, etc., for pupils, \$339.38, leaving a balance of \$48.40 on hand.

For contingent expenses, \$7.15, leaving no balance.

For repairs on fence, etc., \$349.51, leaving a balance of \$50.49.

The balance from the sewer appropriation, \$154.74, has been refunded to the State Treasurer.

Of the appropriations of the *Eighteenth General Assembly*, we have expended as follows:

For boilers, \$1,000, leaving no balance.

For cow-barn and hog-house, \$1,000, leaving no balance.

For plastering, \$490.90, leaving a balance of \$9.10.

For musical instruments, \$223.84, leaving a balance of \$276.16.

SAML. H. WATSON, *Treasurer.*
