SECOND BIENNIAL REPORT

OF THE

COMMISSIONERS OF PHARMACY

FOR THE

STATE OF IOWA,

WITH

ABSTRACT OF STATE PHARMACY REGISTER.

DECEMBER, 1883.

PRINTED BY ORDER OF THE GENERAL ASSEMBLY.

DES MOINES:
GEO. E. ROBERTS, STATE PRINTER.
1884.

IOWA COMMISSION OF PHARMACY,
OFFICE OF THE SECRETARY,
DES MOINES, IOWA, December, 1883.

To his Excellency, BUREN R. SHERMAN, *Governor:*

SIR—I have the honor to submit to you the second biennial report of the Commissioners of Pharmacy for the State of Iowa, comprising a brief account of their transactions from the date of their last report, October 31, 1881, to October 31, 1883, with a few observations and suggestions on the Pharmacy law, and a Corrected Abstract of the State Pharmacy Register, to December 31, 1883.

Very respectfully,

C. A. WEAVER,
Secretary of the State Board of Pharmacy.

BIENNIAL REPORT.

SYNOPSIS OF BOARD MINUTES

For two years, from October 31, 1881, to October 31, 1883.

The first occurrence of note after the last biennial report was on the amendment to the Pharmacy Law by the Nineteenth General Assembly, when new forms and regulations were formulated and adopted in accordance with the amendment, the law as amended published, and a copy sent to each registered Pharmacist in the State.

At a meeting of the Commission, May 9, 1882, Regulations number eight, nine and ten were adopted and ordered published. After receiving and approving the Secretary and Treasurer's report for the year ending May 8, 1882, the Commission adjourned *sine die.*

Commissioner Schafer's first term having expired, but having been re-appointed for another term by you, the new Board, consisting now of R. W. Crawford, Ft. Dodge; C. A. Weaver, Des Moines, and George H. Schafer, Ft. Madison, met on same day and organized by electing R. W. Crawford, President; George H. Schafer, Vice-President, and C. A. Weaver, Secretary and Treasurer. C. A. Weaver declining to serve, G. H. Schafer acted as Secretary *pro tem.* until July, 1882, when the office was moved to Des Moines, and Commissioner Weaver took charge of the office as Secretary and Treasurer.

February 26, 1883, Revocation Order number three, was issued, as follows :

DES MOINES, IOWA, February 26, 1883.

Whereas, certified copies of court records showing final judgment of convictions against R. D. Townley, of Allerton, Wayne county, Iowa, for repeated violations of the State Pharmacy law have been presented to us, and written notice served on said Townley to this day show cause, if any, why his name should not be stricken from the State Pharmacy Register. We find that no good or sufficient reason has been shown why we should not strike his name from the Register, and therefore order and direct the Secre-

tary of the Commission of Pharmacy to strike the name of the said R. D. Townley from the State Pharmacy Register, and report the revocation of his certificate, number 251, to the public.

R. W. CRAWFORD,
GEORGE H. SCHAFER,
C. A. WEAVER,
Commissioners of Pharmacy for the State of Iowa.

The order was duly executed, and a copy of the order mailed to R. D. Townley on the 28th day of February, 1883.

March 7, 1883, Revocation Order number four was issued as follows:

DES MOINES, IOWA, March 7, 1883.

Whereas, certified copies of court records showing final judgment against A. H. Keller, of Corydon, Wayne county, Iowa, for repeated violations of the State Pharmacy law have been presented to us, and written notice served on said A. H. Keller to this day show cause, if any, why his name should not be stricken from the State Pharmacy Register, we find that no good or sufficient reason has been shown why we should not strike his name from the register, and therefore order and direct the Secretary of the Commission of Pharmacy to strike the name of said A. H. Keller from the State Pharmacy Register, and report the revocation of his certificate, number 385, to the public.

R. W. CRAWFORD,
GEORGE H. SCHAFER,
C. A. WEAVER,
Commissioners of Pharmacy for the State of Iowa.

Order was duly executed, and a copy of the order mailed to A. H. Keller.

On the same day, James Fitzgerald, of Emmetsburg, Iowa, having been previously notified, appeared with his attorneys to show cause why his certificate should not be revoked. After presenting written petitions and affidavits of citizens of Emmetsburg, and written objections by his attorneys, his case was considered until the next day, March 8, 1883, when the case was deferred for further consideration, and the Secretary of the Commission instructed to notify the prosecution in the case to file additional evidence as authority or basis for revoking his certificate.

The cases of Oscar Rodgers, of Corydon, Wayne county, and of E. H. Armstrong, Wayne county, because of insufficient evidence, were deferred for further consideration.

In the case of David Thorp, of Van Wert, Decatur county, notice having failed to reach him because of his having removed from Van Wert, final action was also deferred.

Regulation number 11 was adopted and ordered published.

At the annual meeting, June 7, 1883, the case of James Fitzgerald, of Emmetsburg, was again brought up. No additional evidence having been received, Commissioner Crawford was directed to go to Emmetsburg and investigate the matter personally.

After receiving and approving the report of the Secretary and Treasurer for the year ending June 7, 1883, Commission adjourned *sine die.*

Commissioner Weaver's first term having expired, but having been re-appointed by you for another term, the new Board, consisting now of R. W. Crawford, George H. Schafer and C. A. Weaver, met on the same day and organized by electing R. W. Crawford, President, George H. Schafer, Vice-President, and C. A. Weaver, Secretary and Treasurer, for ensuing year.

October 10, 1883, the Board met for the purpose of hearing additional testimony in the case of James Fitzgerald, of Emmetsburg, James Fitzgerald being present in response to a summons to appear to show cause why his certificate should not be revoked. Commissioner Crawford then submitted, in writing, on oath, what he had learned and seen in his investigation while at Emmetsburg. After reading the charges to James Fitzgerald, he plead guilty to having sold liquor to more than one person as a beverage, and that he kept liquors in his back room, in a place or cupboard like a regular bar in a saloon. He having plead guilty in addition to court records of conviction, his certificate number 1760 was ordered revoked, and his name stricken from the State Pharmacy Register, as per order number five.

The case of L. Wells, of Des Moines, Iowa, was then taken up for further hearing, he having been notified to show cause, on or before September 3, 1883, why his certificate should not be revoked, his answer up to that time not being deemed satisfactory. His certificate, number 43, was ordered to be revoked, but on his presenting additional answers, the order was suspended for the consideration of these additional answers. But no good and sufficient reason appearing to these additional answers, the former order was affirmed, and his name ordered to be stricken from the State Pharmacy Register, the order to take effect this day, October 10, 1883, as per order number six.

COMPLAINTS ON VIOLATIONS OF THE LAW.

Of the complaints made to the Commissioners for alleged violations of the Pharmacy law, most of them have been anonymous communications, to which in most cases no attention has been given; but all complaints emanating from a source where reliable parties have been willing to subscribe their names, or make complaints in person, the Commissioners have endeavored to investigate, and have righted, as far as possible, all irregularities; and whenever deemed necessary, a member of the Commission has been sent to investigate the alleged violations.

Delays seeming unnecessary to some aggrieved individuals have caused some mutterings, but the Commissioners have carefully endeavored not to in any instance over-step the authority vested in them, and, without a precedent, have been compelled to take the initiative all through, feeling their way. Some of our acts have caused litigation, and required the employment of legal counsel — in fact, protracted and expensive litigation—but we are glad to state that in all cases our acts have been sustained.

The basis of our action in cases of revocation of certificates of registration has been upon properly certified copies of court records.

In some instances the court has disclaimed its duty under the law to prosecute violators, seeking to throw it entirely upon the Pharmacy Commission, which has no jurisdiction as a court.

MANNER OF CONDUCTING EXAMINATIONS.

For a time after the organization of the Pharmacy Commission printed schedules were sent out to notaries public, to be answered under oath by applicants. In some instances this mode was unsatisfactory, and it has been entirely abandoned.

The examinations are now held at the residence of either Commissioner, on stated days, or before the full Board at such time and places as the Commission may appoint.

The Board also have an assistant Conductor of Examinations in writing, at Council Bluffs, Dubuque and Sioux City All examinations made by these assistants are submitted to each Commissioner for his approval or rejection. If not entirely satisfactory, the applicant is required to appear before either one of the Commissioners in

person, and verify his former examination by another or supplementary examination.

The question has been many times asked members of the Commission, "How much do you make out of the receipts for fees and dues?" sometimes inferring there is a bonanza in it. In answer, we invite a careful and critical examination of our subjoined report of receipts and expenditures. Also to the following, which will give something of an idea of the labor required for each examination.

The party desiring registration usually writes some member of the Commission to that effect. In reply, the applicant is furnished a copy of the law, and a blank for formal application, which requires testimonials of sobriety and good moral character, the credence of which we investigate, if unknown, when the applicant presents himself for examination. The number of interrogatories usually propounded to each applicant at each examination is one hundred or more, to answer which about five hours is usually required. It requires about two hours for each Commissioner to make his estimate on an examination, after which the papers are forwarded to another Commissioner, and so on to the third. If the applicant is found to be sufficiently qualified, in the judgment of the majority of the Commissioners, the Secretary enters his name upon the register in form, and notifies the applicant. His certificate must then go the rounds for the signature of each Commissioner. If the applicant is unsuccessful in his first examination, he is also notified, and has the privilege to again present himself for re-examination within one year without a fee. The Secretary has also to visit the Secretary of State's office, and there make duplicate register. It is safe to state that each examination requires about ten hours' labor, and if the applicant is re-examined, about twenty hours.

Every few months new examination interrogatories must be prepared, which requires time, care and expense. Most all of our examinations are required in writing, as each examination must be approved by a majority of the Board; hence, an oral examination cannot be given except at least two Commissioners be present. In giving oral examinations more than one applicant cannot be examined at the same time; hence, but little can be accomplished in a day in this manner.

During the past two years a very small number of serious or fatal errors have been made in dispensing. Generally the younger class

of druggists of three and four years' experience have made rapid proficiency, which is indicated by the comparative superiority of their examinations over those of like experience three years ago. Quite a large number have aspired to enter the drug business, and have proven themselves incompetent; these have been prevented.

A large majority (more than nine-tenths) of the registered pharmacists endorse and uphold the law; in fact, the good results are abundant evidence of the necessity, efficacy and practicability in many respects.

Section 12, of chapter 75, wisely provides that "this act shall not apply to physicians putting up their own prescriptions," and no place is there any legal enactment defining who are and who are not physicians. Any one who puts up a shingle, styling himself a physician, regardless of professional ability, is, under the law, allowed the same rights as the most learned and proficient medical practitioner.

The professions of the physician and the pharmacist are closely allied, in that the objects of both are adjuncts to health—the former being to diagnose diseases and prescribe; the latter to prepare and dispense the remedy. The legislative enactments of some sister States have cut off many self-styled medical practitioners, who have sought a field within our borders. The influx of these, together with those formerly among us, make a large number, many of whom have sought to enter the vocation of the pharmacist, thus placing us in a position to better observe the lack of professional ability, and indicates more forcibly to us than perhaps any others the necessity of judicious legal enactments regulating the practice of medicine, and to protect the commonwealth from the dangers of indiscriminate practice.

Referring to section 10, relating to itinerant vendors, we have to report that no money or license fee has been collected for the reason that section 12 contains an exemption clause that said act "shall not apply to the sale of proprietary medicines manufactured in the State and when same are sold and distributed by agents from an established place of business"; the words, "*manufactured in the State*," being deemed unconstitutional as in conflict with the Constitution of the United States on inter-State commerce, and based on a decision of the Iowa Supreme Court in a case from Marshalltown.

The expunging of the words, "manufactured in the State," would, in our opinion, cure the defect, and we believe the reduction of the

license fee to fifty dollars would yield a more certain revenue, as the incentive to evade the payment of the same would be correspondingly lessened.

Owing to the fact that we have been unable to impose the license on itinerants, their vocation has been greatly increased, people have been defrauded in the hope of receiving a balm for their ailments from these silver-tongued, irresponsible, oscillating vendors who palm off their worthless nostrums.

Many complaints have been made to us concerning these, and asking us to impose the license, but we are powerless.

SECTION SEVEN, RELATING TO ADULTERATIONS

and the responsibilities of registered pharmacists for the quality of all drugs, chemicals, and medicine sold or dispensed by them, we consider one of the best provisions of the law, and we are pleased to report that no instance of violation of this section has been reported to us during the past two years.

SECTIONS EIGHT AND NINE.

The liquor sections of the pharmacy law, owing to their close association with the irrepressible question of how to control the sale of liquors for legitimate purposes, has given us much trouble and arduous labor, especially so since the enactment of the following amendment to section 8 and the general liquor law, during the last three days of the Nineteenth General Assembly:

A Bill for an Act to amend section 8, chapter 75, of the laws of the Eighteenth General Assembly, and for an act to repeal section 1527, and to amend section 1529 and section 1537, of the Code of 1873, in relation to the sale of intoxicating liquors.

Be it enacted by the General Assembly of the State of Iowa:

SECTION 1. That section eight (8), chapter seventy-five (75), of the laws of the Eighteenth General Assembly of the State of Iowa, be and it is hereby, amended, by striking out all after the word "provided," in the fifth (5th) line of said section, and inserting in lieu thereof the following: "That all provisions of chapter six (6), title eleven (11), of the Code of 1873, and of any laws that may be hereafter made, amendatory or in addition thereto, regulating the sale of intoxicating liquors for mechanical, culinary, medicinal, or sacramental purposes, shall be applicable to persons selling liquor under this act, or the act to which this is amendatory; *Provided further*, that any registered pharmacist, who shall be convicted of any violation of said

chapter six (6), title eleven (11), of the Code, or of chapter seventy-five (75), of the laws of the Eighteenth General Assembly, or any law hereafter made or amendatory thereto, shall have his name stricken from the register by the Commissioners of Pharmacy."

SEC. 2. That section fifteen hundred and twenty-seven (1527), of the Code of 1873 be, and the same is hereby, repealed.

SEC. 3. That section fifteen hundred and twenty-nine (1529), of the Code of Iowa be, and the same is hereby, amended, by striking out the words "upon the presentation of such certificate and bond to the county auditor," and inserting in lieu thereof the following words, to-wit: "Upon application for permit, and filing the proper bond with the county auditor."

SEC. 4. That section fifteen hundred and thirty-seven (1537), of the Code of Iowa be, and the same is hereby, amended, by striking out the following words, to-wit: "No person having a permit to sell intoxicating liquors under this chapter, shall sell the same at a greater profit than thirty-three per cent on the cost of the same, including freights and."

SEC. 5. All acts, or parts of acts, in conflict with this act, are hereby repealed.

This being returned by you to the Secretary of State within the thirty days prescribed by the Constitution, without your signature, though without your objections or veto, has been published in the back part of session laws unpaged and unchaptered, and as such has been declared by the Attorney-General as a valid law, and the following instructions given our Board to guide them in their official acts relating thereto:

FIRST OPINION BY THE ATTORNEY-GENERAL.

OFFICE OF ATTORNEY-GENERAL,
DES MOINES, Iowa, May 23, 1882.

SIR—I have considered your question whether the measure originated in the House of Representatives, and known as substitute for House Files 161, 166 and 196, has become a law and will be in force after July 4 next. This bill passed both the House and the Senate on the last day of the late General Assembly, receiving the constitutional majority in each House and being duly signed by the Lieutenant-Governor and the Speaker of the House. The evidence shows that it passed into the Governor's hands March 17, the day of adjournment. It has thereon the following certificate:

STATE OF IOWA,
Office of Secretary of State.

I hereby certify that this act was deposited in this office, April 15, 1882, without approval of the Governor and without any objections filed by him.

J. A. T. HULL,
Secretary of State.

An interpretation of section 16, article 3, of the Constitution determines the question. It provides: "Every bill which shall have passed the General Assembly shall, before it becomes a law, be presented to the Governor. If he approve he shall sign it; but, if not, he shall return it with his objections to the House in which it originated. * * * * If any bill shall not be returned within three days after it shall have been presented to him (Sunday excepted) the same shall be a law in like manner as if he had signed it unless the General Assembly by adjournment prevent such return. Any bill submitted to the Governor for his approval during the last three days of a session of the General Assembly shall be deposited by him in the office of the Secretary of State within thirty days after the adjournment, with his approval, if approved by him, and with his objections, if he disapprove thereof."

It will be observed that the Governor neither approved nor made objections to the bill in writing. But he did deposit within the thirty days in the office of the Secretary of State. If he did not intend that it should become a law, why did he do that and why is the bill now of record in that office? In the absence of objections it seems to me that this shows the purpose of the Governor to have been to give approval to the bill. Otherwise, why did he not retain it? And why take it from his own office to that of the Secretary of State? But again it will not do to give interpretations to one part of the section disregarding all others. Suppose the bill had passed the General Assembly more than three days prior to adjournment? This section of the Constitution says: "If he approve he shall sign it, but if not he shall return it with his objections." But in the event he does neither? The answer is, "the same shall be a law in like manner as if he had signed it." And so I claim in this case. He neither signed nor objected thereto and the words, "the same shall be a law in like manner as if he had signed it," it seems to me applies to a bill sent to the Governor within the last three days of a session as well as to a bill sent to him more than three days before the adjournment, provided he returns it to the Secretary of State. I think the bill is a valid statute and as such will be in force on and after July 4, 1882. In addition to the language of the Constitution, I have received considerable light from the following authorities to which I invite a careful perusal if you wish to investigate the question further:

Cooley's Constitutional Limitations pages 152–154; *People v. Hatch*, 19 Ill., 283; *Turlton v. Peggs*, 18 Ind., 24–27; *People v. Bowen*, 30 Bab., 28–35.

Yours very truly,

SMITH MCPHERSON,
Attorney-General.

TO GEO. H. SCHAFER,
Commissioner of Pharmacy.

COMMENTS.

The material part of the citation from Cooley on the Constitutional Limitations, referred to by the Attorney-General, consists in the assertion of the principle that the Governor is a component part of the Legislature. Cooley refers to *Fowler v. Pierce*, 2 Cal., 165, in which the court held that notwithstanding an act purported to have been approved by the Governor before the actual adjournment, it was competent to show by parol evidence that the actual approval was not until next day. The California court relied on *People v. Purdy*, 2 Hill, 31, in which it is asserted that the court can go behind the statute to inquire if the law under review had been legally passed.

People vs. Hatch, 19 Illinois, is considered the leading case. A representative apportionment bill had been passed, which the Governor approved by mistake. His private secretary returned the bill to the Legislature as approved, in the usual routine of his work. Subsequently the Governor was made aware of his unintentional action, and he immediately prepared a veto which he sent to the Speaker of the House and also erased his signature from the bill itself. It was held that the bill had not become a law. It had never passed out of the Governor's possession, after it was received by him, until after he had erased his signature and approval, and the court was of the opinion that it did not pass from his control until it had become a law by the lapse of ten days under the Constitution or by his depositing it with his approval in the office of the Secretary of State. Depositing it with the Secretary affected the bill in no wise—that it was a mere executed courtesy. But had the Governor returned the bill to the House with a message of approval he would have lost his option of control thereof.

The present bill or law, whichever it may turn out to be, is not the one which the Pharmacy Commission and the friends of temperance sought to have enacted. It is stated that the original bill was satisfactory both to reputable apothecaries and temperance people, but that the law as passed is weaker in several particulars than the one for which it is substituted.

A prominent temperance man was asked what he thought would be the effect of the law if it stands the scrutiny of the courts. His opinion was that it afforded a means in those counties where the license theory is in the ascendant to open saloons whether the Constitutional amendment prevails or not. In other words, that auditors of lax views would issue permits to persons who would comply with the *forms of law* in everything except doing a legitimate apothecary business.

The public will watch for the outcome with much interest, for the courts will thereby be called upon to settle the law on two questions at once.

SECOND OPINION BY THE ATTORNEY-GENERAL.

FORT MADISON, IOWA, August 5, 1882.

HON. SMITH MCPHERSON, *Attorney-General for State of Iowa:*

SIR—Herewith find letter from a registered pharmacist which puts some of the many questions asked in regard to right of druggist without permit to sell liquor on physician's prescription.

We have hundreds of letters asking if they have a right to sell when a prescription contains medicine in combination with liquor, and many other questions, all of which are pending your reply to my letter of May 13th, and July 7th. The question also presents itself to those who are able to give bond, how are they able to keep an account of each ounce of liquor sold by them in prescription or consumed in the thousand and one processes of their intricate business and be able to make their monthly report to auditor agree with their receipts—it may safely be asserted it is impossible to carry out the requirements of the law in detail—hence would ask if in your opinion it would be legal to report the difference each month in one entry as "*used in the laboratory for manufacture of tinctures, etc.*" Those few druggists in the State who have applied for permit, run against this stumbling block and declare the law impracticable, some have withdrawn their application and will probably refuse to sell for any purpose whatever or place themselves on their careful use and sale as involuntary violators of a law they cannot see how they can possibly comply with, if no more detailed and modified instructions are given. * * * * *

Yours very truly,

GEO. H. SCHAFER.

ATTORNEY-GENERAL'S OFFICE,
RED OAK, IOWA, August 7, 1882.

SIR—Yours of the 5th at hand. The great difficulty is as to whether a bill that passed both houses of the last General Assembly, but not signed by the Governor, is a law or not. I have heretofore said to you in an opinion that I believed the bill to be a law. There are doubts about it, and

some of the best lawyers in the State maintain that it is not a law. But I, as a law officer of the State, should be very certain before holding it not to be a law, and assist in breaking it down. Therefore I must insist that it is a law, and assist in trying to enforce it, leaving it to parties who think otherwise to carry it to the courts.

Under the Pharmacy law of 1880, it was generally believed, and I so believed, that a druggist could sell liquors for *medicinal* purposes without a permit. Some lawyers contended that the penalties of the liquor law, as found in Code, were repealed. But the Supreme Court, in *State against Mercer*, held otherwise.

So that it is absolutely beyond question, that for a druggist to sell liquors for any purpose other than for medicinal purposes, he must first obtain a permit from the board of supervisors. Whether he must have a permit to sell for medicinal purposes without a permit, depends entirely upon the question whether the bill not signed by the Governor is a law or not. I shall hold, until the courts decide otherwise, that it is a law. If it is a law, then a druggist cannot sell for any purpose, whether for medicinal or other purposes, without first getting a permit; and it makes no difference whether the liquor is obtained on a physician's prescription or not, the druggist in that case must have a permit. However, if a prescription is filled containing liquor, but is so medicated as to destroy its use as a beverage or intoxicant, there can be no liability, whether the party selling has a permit or not. A permit for such sales has never been required under our laws; and this is so whether such compounds are sold by virtue of physicians' prescriptions or not.

As to the difficulties in keeping an account of liquors used for tinctures, etc., does not involve any legal question. Excepting for the liquors lost by waste, leakage, evaporation and shortage, there can be, it seems to me, an account kept for all sales, as well as those used for tinctures, compounds, etc. But these difficulties are not for me to solve. I am unable to understand how any entry can be made not strictly true, and I cannot understand how objection can be made to any entry that is truthful.

Yours truly,

S. McPHERSON,
Attorney-General.

GEO. H. SHAFER, ESQ.,
Member Board of Pharmacy.

The enunciation of this interpretation of same by the highest legal adviser of State officers, enjoined upon us to so conduct our official acts as would conform to this opinion until the constitutionality of same could be adjudicated by the courts and our duties otherwise defined. The publication of these views caused much controversy among the legal fraternity and much commotion among the registered pharmacists throughout the State who confidently believed that

the apparent hasty action of this sweeping legislation would be negatived by your veto; especially so when a few days after the General Assembly had adjourned the Supreme Court rendered the following decisions which confirmed the claims of legitimate pharmacists, and clearly showed that the aforesaid amendment to section 8 was not only wholly unnecessary, but tended to vitiate the good that had already been accomplished, and which was under such favorable progress in this exceedingly difficult labor of reform.

SUPREME COURT DECISIONS.

STATE OF IOWA v. KNOWLES.*

Where, in a prosecution of a registered pharmacist for selling liquors as a beverage, the agreed facts showed that the defendant had sold a pint of whisky to a stranger upon the simple statement of such person that he was accustomed to taking it and wanted it for medicine, *held*, that a judgment of conviction would not be disturbed.

A justice of the peace has jurisdiction of a prosecution, under the pharmacy act of 1880, for the sale of liquors as a beverage.

Appeal from Poweshiek District Court.

An information was filed before a justice of the peace charging that the defendant sold to W. Cullison intoxicating liquor. The defendant was convicted by the justice, and appealed to the District Court, where he was again convicted, and appeals to this court.

John F. Lacey and *T. C. Reed*, for appellant.

Smith McPherson, for the State.

SEEVERS, C. J.—The trial was had before the District Court, without the intervention of a jury, upon an agreed statement of facts. No objection was made to the manner the case was tried in the District Court. The principal error relied on in substance is that the court erred in finding the defendant guilty under the facts agreed upon. The stipulation is as follows: "(1.) The defendant is a physician and registered pharmacist, and runs and keeps a drug store at Searsboro, in said county. (2.) That on or about the 18th day of May, 1881, one William Cullison, a stranger to the defendant, called at defendant's drug store and asked if they had whisky. The defendant said they had. Cullison then said he wanted a pint. The defendant told him he was not allowed to sell it except for medicine. Culli-

*Filed March 22, 1882.

son replied that he needed it for medicine; that he was accustomed to taking it, and wanted it for medicine. The defendant then sold him one pint of whisky, and he signed his name on a book kept by the defendant, showing that he got a pint of whisky for medicine. Said Cullison had no prescription from any physician. The defendant did not examine him or prescribe whisky for him, but simply sold it to him on his statement that he wanted it for medicine, in response to the defendant's statement that he could not sell it except for medicine. The only question is whether such a sale is in violation of law, or whether the pharmacy law authorizes or makes such sales lawful. The State claims it was merely an evasion of the law, or an attempt at evasion of the law, for the suppression of the unlawful sale of intoxicating liquors. The defendant claims that under the pharmacy law he has the right to sell whisky to any one who calls for it and says it is for medicine, unless he has reason to know that it is wanted for an improper purpose."

In 1880 the General Assembly passed an act to "regulate the practice of pharmacy and the sale of medicine and poisons." Miller's Code, 950. It provides that registered pharmacists and "apothecaries * * shall have the right to keep and sell, under such restrictions as herein provided, all medicines and poisons authorized by the National, American, or United States dispensatory and pharmacopœia, as of recognized medicinal utility." It is, however, further provided it shall not be "lawful for any licensed or registered druggist or pharmacist to retail or sell or give away any alcoholic liquors or compounds as a beverage."

Previous to, and at the time of, the passage of the foregoing act, the sale of intoxicating liquors was absolutely prohibited, except by a person duly licensed for that purpose. Code, §§ 1523, 1526, 1540. It is insisted the act of 1880 repeals, or is so in conflict with, the foregoing sections, that the same, as to druggists, cannot be enforced; and that druggists now have the right to sell intoxicating liquor to any person who purchases the same for and as medicine; the argument being that the several dispensatories mentioned in the statute recognize such liquors as being of "medicinal utility," and therefore express power is conferred on druggists to sell the same. CONCEDING THIS TO BE SO, IT IS EQUALLY CERTAIN DRUGGISTS CANNOT SELL INTOXICATING LIQUORS AS A BEVERAGE. This being so, we turn to the agreed statement of facts, and therefrom conclude this was left a debatable or unsettled question, to be determined by the jury, or rather, in this case, by the court. Certain facts are agreed upon, which, it may be said, tend to show the liquor was sold as medicine; but the ultimate fact, whether sold as a beverage or medicine, is not agreed upon, but left open, to be determined from the evidence; that is, facts agreed on.

We incline to think it is true liquors might be prescribed by a physician and yet the circumstances surrounding the transaction might be such as to warrant the jury in concluding the liquor was sold as a beverage. Conceding a person may prescribe for himself and lawfully determine he should take intoxicating liquors as medicine, and that a druggist in such case may

lawfully sell such liquor, it does not follow that it is always so prescribed or sold. It is undoubtedly true, the claim that it is taken and sold as medicine may be a subterfuge, and that, while in form sold as medicine, IT WAS, IN FACT, A BEVERAGE, AND SO UNDERSTOOD BY BOTH BUYER AND SELLER THE DRUGGIST MUST ACT IN GOOD FAITH, and the mere fact that a person says he wants intoxicating liquors as medicine will not exonerate the druggist if the circumstances are such as to warrant the court or jury in concluding that, in truth and in fact, it was sold as a beverage. We have no means of knowing upon what ground the court below proceeded; but we are of the opinion that, under the agreed facts, the court could well have found the liquor was sold in fact as a beverage, and, therefore, under the settled practice, we cannot interfere with such finding,

It is urged the act of 1880 prescribes that the penalty for a violation of its provisions may be a fine of $100, and for "repeated violations" the name of the offender shall be stricken from the register. It is urged that a justice cannot fine an offender in a greater sum than $100, and, therefore, because of the additional penalty, the justice of the peace did not have jurisdiction of this prosecution. We think this is unsound, because the justice did not have power to strike the name of the defendant from the register. Besides, this offense is the first violation of the act committed by the defendant.

AFFIRMED.

STATE OF IOWA VS. H. W. MERCER, APPELLANT.*

Appeal from Madison Circuit Court.

The defendant was indicted for, and convicted of, the crime of nuisance. In the indictment it was charged that the defendant, on the first day of January, 1879, and on other days between that time and the finding of the indictment, erected and used in the county of Madison a building, with the intent therein to sell intoxicating liquors contrary to law, and did then and there keep and sell intoxicating liquors contrary to law.

In the indictment the defendant pleaded guilty as charged, and judgment was rendered that he pay $300. Afterward the defendant moved an arrest of judgment and for a new trial upon the following grounds: That the judgment is contrary to law; that the facts stated in the indictment do not constitute a crime; that upon the whole record, no legal judgment can be pronounced; that the defendant could show, if allowed a new trial, that there were no sales by him of intoxicating liquors to any one of the witnesses whose names are endorsed on the indictment until after the FIRST DAY OF APRIL, 1880; and the defendant did not know that he could so prove until after the sentence was pronounced upon him: and, finally, that the fine is

* April 21, 1882.

unreasonable and oppressive. The court overruled the motion, and from its order overruling the same the defendant appeals.*

A. W. Wilkinson, for Appellant.

Smith McPherson, Attorney-General for the State.

ADAMS, J.—The defendant contends that the law under which the indictment was found, Title 11, Chapter 6, of the Code, was repealed in part by Chapter 75, of the Eighteenth General Assembly, Miller's Code, page 950.

The act referred to is entitled "An Act to regulate the practice of pharmacy and the sale of medicines and poisons." It allows the sale by registered apothecaries of intoxicating liquors authorized by the National, American or United States Dispensatory or Pharmacopœia as of recognized medical utility, but only for the legitimate and actual necessities of medicine. It provides a penalty for a violation of the provisions of the act by the sale of intoxicating liquors, somewhat different from the penalty provided in Title 11, Chapter 6, of the Code, for a violation of the provisions thereof by a sale of intoxicating liquors.

In our opinion, Title 11, Chapter 6, of the Code was not repealed, except, possibly, so far AS WAS NECESSARY TO ALLOW SALES BY REGISTERED APOTHCARIES OF INTOXICATING LIQUORS FOR MEDICINE.

Nor do we think that it was necessary that the indictment should charge that the defendant was not a registered apothecary. It charged that the defendant sold intoxicating liquor contrary to law. Whether, if the defendant had pleaded not guilty, it would have been incumbent upon the State to prove that the defendant was not a registered apothecary, we do not determine. Judgment having been rendered upon a plea of guilty, we see no ground for setting it aside.

Nor do we think that we should be justified in reducing the judgment. The presumption must be in favor of the correctness of the action of the court below, and no fact or circumstance is shown to us tending to impeach it.

AFFIRMED.

The above case disproves the incorrect idea promulated by a district judge, that the pharmacy law of 1880 had entirely repealed Title 11, Chapter 6, of the Code, and to this judge's misinterpretation of the law and extraordinary instructions to the grand jury, thus practically nullifying the law in his district, do we attribute the animus of representatives from said district, who pressed the amendment to section 8 as a remedy which, in the light of to-day, may appear to them as most unwise and injudicious. However, as a further showing of the efficiency of the law as originally enacted, we refer to our first biennial report, and we append the following decision of Judge Given, which case was a virtual test of the constitutionality of the law and the jurisdiction of our Board.

Isaac F. Hildreth, plaintiff, *vs.* R. W. Crawford *et al.*, Commissioners of Pharmacy for the State of Iowa, defendants. In the Circuit Court of Polk county, June, 1882. No. 6272, law.

OPINION.

By the Court. A writ of *certiorari* was granted on petition of the plaintiff, requiring the defendants to certify fully to the court a transcript of their proceedings against the plaintiff. From the return it appears that the Commissioners, having received a certified copy of the indictment and proceedings thereon, resulting in conviction of plaintiff for violation of the laws relating to the selling of intoxicating liquors, they issued a notice to the plaintiff to appear and show cause why his certificate of registration should not be revoked. The plaintiff appeared in person and by counsel, and filed a protest to the jurisdiction of the Commissioners, which was overruled. Thereupon he filed an answer and an application for continuance. The Commissioners held the application for continuance insufficient because not sworn to and not showing of diligence.

The plaintiff thereupon filed a motion for dismissal, which was overruled, whereupon the plaintiff was notified of all the matters contained in the transcript for the District Court, and given an opportunity to introduce evidence, which he failed to do, whereupon the Commissioners found from the transcript that he had been guilty of and convicted for a violation of the law regulating the sale of intoxicating liquors, and that he had frequently sold intoxicating liquors in violation of law, and "said conviction being a final one," they directed the Secretary to strike the name of said Isaac F. Hildreth from the Iowa State Pharmacy register.

The plaintiff demurs to the return of the Commissioners, because—

1. Said defendants had *no jurisdiction* of said proceedings against him, or in any or for any cause to revoke his said license, or to cause his name to be stricken from the register of pharmacists.

2. Said proceedings were *judicial* in their nature and in their character, and defendants had no power under the law, or by reason of anything stated, whereby to make said order.

3. The *court*, before which said trial and proceedings are alleged to have been had, alone had jurisdiction to order plaintiff's name to be stricken from said register.

4. Said return does not state facts sufficient to establish a defense to these proceedings.

It is claimed, in support of the demurrer, that the act "regulating the practice of pharmacy and the selling of medicines and poisons" is unconstitutional in this: That the act embraces more than one subject-matter; that it invests the Board with judicial powers, and with authority to deprive persons of liberty and property without due process of law.

Our Supreme Court has said, in determining whether an act embraces more than one subject, "that the unity of object is to be looked for in the

ultimate end, not in the detail or steps leading to the end." The practice of pharmacy and sale of medicines and poisons is the object to be attained, and the end to be obtained is the regulation thereof.

Without multiplying words or citing authorities, I may say that it is very clear that the act is not in contravention of Section 29, Article 3, of our Constitution. The only discretionary power vested in the Board is in the examination of applicants for registry as pharmacists. In addition to this the act enjoins upon them the duty of keeping the registry.

Penalties are expressed in Sections 7, 8, and 9 of the act. For adulterating drugs, Section 7 prescribes a penalty not exceeding one hundred dollars, and in addition thereto the pharmacist's name shall be stricken from the register. Section 8 authorizes the registered apothecary to keep and sell medicines and poisons authorized by the National, American, or United States Dispensatory and Pharamacopœia, as of recognized utility.

Intoxicating liquors; being recognized as of medicinal utility, it is further provided, "that nothing herein contained shall be construed so as to shield an apothecary or pharmacist who violates or in anywise abuses this trust for the legitimate and actual necessities of medicine, from the utmost rigor of the law relating to the selling of intoxicating liquors, and in addition thereto, his name shall be stricken from the register."

Section 9, after prescribing the manner in which poisons may be retailed, provide: "Nor shall it be lawful for any licensed or registered druggist or pharmacist to retail or sell or give away any alcoholic liquors or compounds as a beverage, and any violation of the provisions of this section shall make the owner or principal in said store or pharmacy, liable to a fine of not less than twenty-five dollars, and not more than one hundred dollars, to be collected in the usual manner, and in addition thereto, for repeated violations of this section, his name shall be stricken from the register."

The power of imposing either or all of these penalties is vested in courts of competent jurisdiction, and not in the Commissioners of Pharmacy. They have no power to try and determine the guilt of a party under either of these sections, nor to impose the penalty of striking his name from the register. The language of the statute in each instance is, "His name shall be stricken from the register." His conviction in a court of competent jurisdiction alone determines whether his name shall be stricken from the register or not, and when so convicted, it only remains for the Commissioners to perform the clerical act of striking it.

They do not exercise judicial powers nor were there any proceedings before them depriving the plaintiff of liberty or property. The provision by which he was deprived of the right to exercise the profession of pharmacist was in the district court of Decatur county, and a proceeding wherein his rights was measured by "due process of law."

Waiving any question as to the right to demur in such case, I hold that the law, in the respects complained of, is *constitutional*, and that the proceedings of the Commissioners, as shown in the transcript, are in accordance with the law.

The *demurrer* is overruled.

We would ask your especial attention to the clause restricting the powers of our Board in regard to revocation of certificates of registration by limiting same to orders of courts of competent jurisdiction which we believe to be the most practicable, wise and proper. This opinion was based on the original act, but since July 4, 1882, we have this doubtful amendment to section 8, which although not for us to question, we have complied with as best we could in accordance with the opinion of the attorney-general, but we deem it incumbent on us to direct your attention to the difficulties involved in our assuming additional duties and expense, for which the State has made no adequate provision, and for which the Executive Department of the State has felt unwarranted by law, to provide; we refer particularly to the necessary expense of the Attorney-General in a case whereby our action in execution of the law was contested in the courts and maintained by them.

As an index of the disposition of our Board to carry out the provisions of this amendment, we quote from a Board ruling in relation to a case of a registered pharmacist, who was notified to show cause, if any, why we should not strike his name from the State Pharmacy register:

"Under the present law and rulings it is not our duty to hold court, grant continuances and listen to attorney's legal technicalities. We are as a Commission not obliged to undertake such duties. A Commissioner is expected to make short work of cases, according to their best knowledge and belief, under such regulations as are approved by the Attorney General. I think it sufficient and best, in the complicated case before us, to have a commission personally investigate this pharmacist's mode of conducting his store, which, as alleged by petition of many citizens of his place, is being conducted as a saloon; and have said Commissioner make his report thereon under oath, and on this, with certified copies of court records showing conviction, base our action and make our decision in the case."

And in another quotation of an opinion on the objection and answer filed by a registered pharmacist's attorneys:

"*To make my decision on points raised conform to the Attorney-General's opinion* on the validity of the amendment to section 8 by the last legislature, I must hold that the argument of the attorneys does not now hold good, and does not affect our rights to revoke registration on a *single conviction* of any violation of said chapter 6, title 11, of the Code, or of the Pharmacy law of 1882. Under these laws of the Nineteenth General Assembly I will feel authorized to revoke any registered pharmacist's registration on a single conviction, and shall so hold in all cases where I am satis-

fied said conviction was regular and no appeal taken. If parties feel aggrieved at this action, let them test the validity of this amendment, then we will know positively how to act hereafter; but the more I think of it, the firmer is my conviction that we must let the courts correct us, or the next General Assembly correct the law,"

As an expression of the sentiments of the Iowa State Pharmaceutical Association, and their sincerity to secure proper legislation on this pharmico-liquor question, we here append the following memorial, which was unanimously adopted and signed by all members in attendance at their annual meeting, February 15, 1882:

SESSIONS OF THE IOWA STATE PHARMACEUTICAL ASSOCIATION,
EXPOSITION BUILDING, DES MOINES, February 15, 1882.

To the General Assembly of the State of Iowa:

Your petitioners would respectfully represent to your honorable body that our association, now numbering five hundred members, which is one-fourth of the registered pharmacists of the State, is the representative association of the druggists and pharmacists of Iowa.

One of the first incentives to form this Association two years ago was to ask your honorable body to enact a pharmacy law that would protect an honorable profession from the evils growing out of the indiscriminate sale of intoxicating liquors by so-called druggists, under the permit system of the general law in regard to the sale of liquors for medicinal, sacramental, culinary and mechanical purposes, by which system our profession was being degraded to that of a liquor dealer. To remove this unjust imputation, we petitioned the Eighteenth General Assembly to enact a law that would confine the sale of liquors in drug stores exclusively for medicine, providing, as per section 8 of the law enacted, that "nothing herein contained shall be construed so as to shield an apothecary or pharmacist who violates or in any wise abuses this trust for the legitimate and actual necessities of medicine, from the utmost rigor of the law relating to the sale of intoxicating liquors, and *in addition thereto* his name shall be stricken from the register," thus preventing the further abuse of the liquor traffic under the guise of a druggist.

Owing, however, to some disreputable druggists violating the law before the same could be enforced, or before the law could be properly understood, a disposition prevails in some minds to condemn the pharmacy law before giving it a test, or that consideration its importance and sincerity demands. Acting in good faith on the suggest-

ions of the Commissioners of Pharmacy to amend the law so that no one can question the force and intent of the law, we unanimously recommend your honorable body to so amend the law as to make its language unequivocal; and, to the attainment of these laudable purposes and perfection of this new law, respectfully ask your committees, to whom this may be referred, to hear our Committee on Legislation in relation thereto, and we sincerely trust that you will give the same your favorable consideration.

Respectfully submitted.

As a further showing of the wide-spread interest and importance of this question to the public at large we annex a few only of the various comments on same:

COMMENTS OF THE IOWA STATE PHARMACEUTICAL ASSOCIATION'S COMMITTEE ON LEGISLATION, AUGUST 30, 1882.

Owing to the many constructions put upon the substitute amendment to section 8 of the pharmacy law, and the unsettled opinions still existing, we deem it best, at this time, to reserve a full expression of opinion until the meeting of the association, when the same can be fully discussed and the sense of the whole fraternity expressed. Until this amendment is repealed, or declared invalid by the courts, we cannot do otherwise than advise as faithful compliance with same as possible, and simply offer the following facts and comments that same may be correctly understood, and in hope that out of the present conflict of opinion some good may result, that will enable us as a fraternity, pledged to preserve the respectability of our profession, either to refuse to sell liquors for any purpose whatever, or to be able to sell what little may be necessary for the actual necessities of medicine, *without* the excessive requirements and approbium so often attached to a permit dealer, who also sells liquors for "culinary, mechanical and sacramental purposes." The pharmacy law, now being better understood, is regarded by *all true temperance people* as

A WHOLESOME LAW.

It has, during the past two years, weeded out forty per cent of the so-called druggists who were, previous to 1880, using the drug business as a cover to sell intoxicating liquors. Every principle claimed for this law has been affirmed by the courts *since the legislature*

adjourned, thus rendering this substitute wholly *unnecessary*, as repeatedly and earnestly stated to the few representatives who so persistently advocated the enactment of the substitute; their convictions or prejudices being based on their particular locality, where this new law, like the old, may have been violated, and the new law not enforced because it was not understood. These representatives seemed unprepared to credit the druggists of *other localities* with better motives; they evidently could not conceive why the practical druggist was advancing

BETTER TEMPERANCE MEASURES

than their own and so they rushed their substitute along at a time when its faults could not be shown up by discussion,—pressing it on the Senate on the last day of the session as an urgent necessity, when it could not receive the consideration it would otherwise have received had its effects been known. But now that it is upon us, and as its provisions are even

LESS RESTRICTIVE

but *more obnoxious*, than the old liquor law, which the pharmacy law of 1880 improved so far as it related to druggists, it behooves all registered pharmacists to be more vigilant than ever not to again incur the reproach from which we feel we were being freed by the beneficent effects of the pharmacy law; and being so

MANIFESTLY IN THE RIGHT,

with two years' practical experience and Supreme Court decisions back of us, we look forward with confidence to an early session of the legislature to remedy existing hardships, which we deem it best to comply with as near as practicable, hoping in the meantime, that no spirit of malicious persecution will be tolerated by any judge or jury in the State, especially not previous to the expectant interdictory legislation on the present irrepressible question of how best to regulate the sale of liquors for those purposes not prohibited by the Constitution. In this the Iowa State Pharmaceutical Association can point with pride to the practical methods for regulating its sale for medicinal purposes to section 8 of the pharmacy law, in force from March 22, 1880, to July 4, 1882, and to the practical and complete enforcement of this wholesome law by the Iowa Commission of Pharmacy in every properly formulated complaint—the courts having sus-

tained the action of the Commissioners and affirmed the principles involved in every contested case. The association can also point with pride to the unanimity with which they memorialized the Legislature, February 15, 1882, to continue to restrict the sales of liquors by registered pharmacists to *medicinal purposes*, under the efficient penalty of revocation of registration for violations, thereby indicating their desire to be free from all responsibilities or profits incident to the sale of liquors for purposes other than the actual necessities of medicine, and claiming

NO EXEMPTION

from laws regulating the ordinary traffic of some for a profit.

These principles and facts should be strenuously inculcated on the minds of the public and members of the General Assembly, and the practical operation of same shown up at home, where deliberate convictions are formed that will result in wise legislation. At the last session of the legislature our cause and principles received most faithful advocacy by the members appointed, who worked through the entire session without pay for time or labor. It is a matter of satisfaction to them, that, notwithstanding the substitute passed, they feel that the general disposition of senators and representatives was reasonable; and we have no doubt a majority of the whole Assembly would, in any other day and circumstances, have refused to sanction this bill, as many, no doubt, have since had cause to regret their action, the result of which must now be endured until it can be cured, either by themselves or by the courts. We believe, however, it reflects the sentiments of our fraternity to patiently await the voice of the people through their representatives, and to this purposes respectfully ask the

PRESS OF THE STATE

to give such publicity of information given as will advance the cause of right. And we trust that every registered pharmacist will keep himself, his citizens, and the Committee on Legislation, thoroughly informed of the situation.

L. H. Bush, *Chairman*, Des Moines,
Geo. H. Schaffer, Fort Madison,
J. P. Morey, Storm Lake,
Committee on Legislation.

FURTHER COMMENTS.

The repeal of the liquor clause of the eighth section of the pharmacy bill, and the enactment in lieu thereof the permit act of the last General Assembly, has caused the misunderstanding and dissatisfaction among druggists all over the State. Under the original pharmacy law, druggists were authorized to sell spirituous liquors as legitimately as medicine. Under the amendment known as the Permit Act of the last legislature, druggists may not only sell liquors for medicines, but also for culinary, sacramental and mechanical purposes. A large number of the druggists have no desire to keep and sell liquors for the three last mentioned purposes, and many of them will not do so. But the amended act of last winter compels them to enter upon this general sale, or else not to sell for medicinal use. Thus the amendment forces upon us a measure that is seriously obnoxious to very many druggists of Iowa, who, rather than take out permits for this wholesale traffic in liquor, will not sell it even for medicine. One of the primary objects of the pharmacy law was to rid our profession and business of the stigma of being classed as liquor dealers, grog shops, etc. The pharmacy law most effectually did this. At the same time, druggists who wished to do so could obtain permits to sell for the several purposes prescribed by the permit law; but comparatively few druggists of the State availed themselves of that privilege. The amendment of the last legislature only affects those who wished to deal in liquors only as a medicine, and who do not wish to sell it for other purposes; and to require them not to dispense it at all, or else sell it for other purposes they do not wish to connect with their business or engage in, is a very great injury to them, if not an insult. Had not the legislature attached the permit system to section eight of the pharmacy law, then those druggists who wanted permits could have still availed themselves of it; at the same time those who do not wish to engage so generally in the liquor business could still have dispensed it for medicinal purposes only. Therefore, it is only those druggists who are affected by the amendment that do not intend to enter upon the general sale of intoxicating liquors. Unless the legislature persists in forcing this class of druggists to the duty of selling liquors for purposes they do not wish to engage in, the amendment will be repealed at the earliest possible opportunity.

Those druggists who are seriously opposed to selling liquors for any other purpose than that prescribed by the highest medical authority, make no issue with those who sell it for other purposes; there may be local causes or personal reasons for this privilege. But we make the protest loud and emphatic against coercing others into such sales in opposition to their views and opinions as business men.

It is a mooted question whether the amendment referred to is a binding constitutional law, for the reason that the Governor did not approve it. The Attorney-General has given it as his opinion that it is of force and valid. Opposed to this view a very large number of the legal profession claim that it is not a constitutional law, and is not binding. This question will have to be decided by the courts, and whatever that decision may be, it is our duty to submit to with respect. But it is unreasonable to believe that the legislature will continue an act that will deprive so many druggists of a legitimate business strictly pertaining to their profession, because they are conscientiously opposed to extending the sale of intoxicating liquors to purposes not in harmony with their views and opinions of a legitimate drug business. And we conclude that this class will refuse to take out permits, and will solidly and unitedly test the constitutionality of the amendment; while those who entertain different views and opinions will avail themselves of the amendment.

A SPECIMEN INQUIRY.

——, IOWA, August 4, 1882.

GEO. H. SHAFFER—*Dear Sir:*

Can you tell me just where a violation of Iowa State law begins in the sale of medicinal compounds containing alcohol or other intoxicating liquors, by a druggist who has no permit? All tinctures come under this description; many liniments also; and we are frequently asked to fill prescriptions containing more or less of the forbidden liquors, in regard to which I can get no satisfactory information as to whether they can be lgally filled or not. Where is the line to be drawn?

In connection with this matter I may say, that while I favor prohibition of the sale of intoxicating liquors *as a beverage* (in so far as it can be made practically effective at least), yet I think the liquor section of the pharmacy law, in its present shape, a very unreasonable enactment. The people of Iowa certainly do not wish to prohibit the sale of these liquors for legitimate use. If they did, we would not have the provision for granting permits. Yet in many small towns and villages it does practically do so, or make them obtainable only through a violation of the law by some one. Many honest druggists will not apply for permits; indeed, no self-respecting

man wants to go around among his friends, like a suspected criminal, begging them to give perpetual bonds for his good conduct, in about the amount that would probably be required were he indicted for *manslaughter*. Were it not for the desire of the druggist (a commendable desire, surely), to be able to supply everything in his line that his customers required for legitimate use, and the necessity of competing with those who do obtain permits, or sell without them, I think we might presume that not one *straight* druggist in ten would apply for them. In large towns and other places where the filling of prescriptions is an important item, many may be found to swallow the dose, but it will be always unwillingly, and under a strong temptation to ignore its conditions whenever it is so, and with a decided disgust toward those who make it necessary. In other places, where the pressure is not so great, permits will not be applied for at all; and in these places liquor for any purpose will not be obtainable except through a violation of the law. And it is worthy of note here that the temptation to violation increases with the feeling of the parties that the restrictions are unreasonable.

The principal objections to the permit system, to my mind, are three. First—the bonds required, which are insulting in themselves (placing the applicant in the position of a person under suspicion), and unreasonable in amount. Second—the monthly reports, which are very troublesome; and, Third—the severity of the penalty, in connection with the fact that the seller is made responsible for errors of judgment in himself and assistants, as well as for willful violations.

Probably few people realize the difficulty of keeping clear of mistakes. The seller has to deal with all sorts of people—honest and dishonest, truthful and lying; with those acting in good faith, and those seeking only to mislead; with all these he must deal, careful as far as possible to give offense to none, yet must question all, and perhaps cross-question many, sifting the honest from the dishonest, and accommodating some while refusing others. All this must be done *unerringly*, else he is under the penalty of the law, with his only hope lying in concealment. (Note the penalty.) Where there provisions for supplying the demand elsewhere, so that the druggist could let himself out altogether, it would not be so trying. But *there is none*. Any one, except grocery keepers and such, can obtain a permit on the same conditions as a druggist, if he seeks it; but no one seeks or wants it, and the druggist, consequently, is the only person to whom his customers look for a supply of their need, and he has to suffer a large share of their indignation if he cannot supply them.

And now, what are we to do about it? How can we expect soonest to obtain a remedy?

I believe, were the matter fully understood by the public, and did druggists unanimously abide strictly by the law, while refusing to submit to the degrading conditions on which permits are granted, the remedy would come with the first opportunity. There would surely be some more satisfactory provision made for supplying the legitimate demand. At present we are

under suspicion, and hence the difficulty. Whether or not such suspicion is just, would be fruitless inquiry. The need now is its removal, and the shortest or only road to this is to remove all grounds for it. If we observe the law to the letter, and unanimously do so, the public will soon find it out—find out, too, what the law is. And if the conditions on which they invite us to supply them with such medicines are unreasonable, and we tell them we will not accept them, *their* necessities will lead them to seek a remedy. If we refuse to accept the place of persons under suspicion, we will command respect; and if we simply carry out the law as they make it, they will make it so they will not inconvenience themselves too much.

Please excuse the length of this. I don't know how far you may be in sympathy with it, but have thought it well, considering your position and the practical nature of the subject, that you should know how druggists generally regard it, and have endeavored to express my views briefly and plainly. To my question at the commencement of this I would like a reply, if it will not be trespassing too much on your time, and enclose stamp so as *not to encroach on your purse also.*

***

SPECIMEN OPINIONS.

A prominent official says:

I do not think the substitute passed last winter is what is needed. I trust that the Governor will deem it best to call an extra session; if he does, all the legislation upon this question will no doubt be so changed as to protec the druggist legitimately selling liquors, and wipe out those selling illegitimately.

Another official and jurist says:

Substitute for House files Nos. 161, 166 and 196 destroys all the legal restrictions of the pharmacy law (so far as it relates to the sale of intoxicating liquors). Under it any party who can give bond, and whose moral character cannot be affirmatively shown to be bad, can sell liquor for four purposes, to-wit: medicinal, mechanical, culinary and sacramental purposes. While, under the law as it before stood, a registered pharmacist could only sell for medicinal purposes, as shown by decision of the Supreme Court. found in the *Northwestern Reporter*, for April. It is the freest whisky law ever enacted in Iowa, and much less restrictive than any well regulated license law.

A registered pharmacist writes:

I am heartily opposed to amendment to section 8, for the reason that it places druggists on about the same plane with saloon-keepers. Or, in other words, it presupposes that drug stores are grog shops. While it is true that, under the former law, some few druggists may have used it as a subterfuge for the illegal sale of liquors, the *major part did not.* And, as the law then

stood, *the penalty was so severe*, taking away their registration, that it surely was sufficient protection for the temperance people, backed up, as it was, by the Supreme Court, in the Searsboro case. The druggists of the State must enter a protest and have the present law modified at the next session.

From the Des Moines *Register*, June 28th, 1882:

The old pharmacy law which has been so much decried as relieving the druggists from all responsibility for illegal sale of liquors, is proving to be the best kind of law we ever had. The Supreme Court has already held that it did not repeal the old intoxication law, except so far as to allow a druggist to sell liquor for medicine, but it holds that he is not protected by a man's mere saying that he wants liquor for medicinal uses. The druggist must act in good faith, and if he does not he is liable to the same penalties that a soloon-keeper suffers. And now Judge Given has made a ruling in the case of Dr. Hildreth, an account of which appears on our local page, in which he holds that where a druggist violates the law relating to intoxicating liquors, he, as a legal consequence of conviction, forfeits his certificate of registration as a druggist, and can no longer do business as a druggist in the State. This is a wholesome law. It not only punishes whisky sellers, but it makes an end of them, dismissing them from the business under cover of which they violated the law. The law is so stringent that though a man has no regard for the law itself, he will have too much regard for his business interests to incur the severe penalty of wrong-doing. It may be of added interest now to the State to know that the law regulating the sale of liquors by drug stores is much more severe than the law that Kansas has for the same purpose.

Regarding the new law, the Cedar Rapids *Republican* says:

This new law places so many restrictions on druggists, and makes them so liable to prosecution, even when they are not knowingly guilty of violating the statutes, that they hardly feel like taking the risk of handling liquors at all. Action similar to this is being taken by the pharmacists all over the State.

A Vinton paper says:

You shouldn't blame your druggist if he refuses to sell you spirituous or vinous liquors, even under a physician's prescription. There isn't a druggist in Vinton who can sell a drop of such liquors, whether for medicinal, mechanical, culinary, or sacramental purposes, not even to answer the most pressing necessity, without laying himself liable to a fine and loss of his registry as a pharmacist. Not a druggist in Vinton or in Benton county has a permit from the Board of Supervisors to sell, without which none can be lawfully sold for any purpose whatever. Do not blame them if they refuse.

From the Marshall *Times-Republican:*

The druggists of Cedar Rapids and Iowa City have united with those of Howard and Winneshiek counties in declaring that after the amendment becomes operative they will not sell any liquor for any purpose whatever, until the legislature shall make a distinction between a pharmacist selling liquor for actual necessities as a medicine, and the dram shop. The restrictions thrown around druggists by the amended pharmacy law are so exacting, and the penalties for violation so heavy, that for those who desire to strictly observe the law there is too great risk to run. Those who care not how they sell will, of course, take the risk. An experienced druggist gives it as his opinion it would be impossible to sell liquor under the pharmacy law for a year without becoming liable, for purchasers who get liquor in that way are generally those to whom a simple lie or even a false oath are no impediments. However conscientious and careful a druggist might be he would certainly be taken in sometime. It is not impossible, therefore, that the druggists of the State will combine in the decision not to sell liquors to any one for any purpose.

The Chicago *Journal* says:

The druggists are evidently not pleased with the pharmacy law. The general opinion among them is that they cannot sell intoxicating liquors on the prescription of a physician, and that they must obtain a permit to sell for medicinal, mechanical and culinary purposes, precisely as before the pharmacy law was passed. This was not what was intended by the pharmacists. It was designed to give reputable druggists holding certificates from the State Board of Pharmacy the right to sell for medical purposes, and violations to work forfeiture of certificate and perpetual disbarment as a druggist. This would place the drug business in the hands of reputable and professional men, and break up the practice of drug store saloons. But it seems that a man has only to get a permit from the county supervisors to sell liquors, put in a few drugs, and a back door, to have a drug store saloon as before. A large number of druggists are putting away all liquors, and will not keep them for any purpose.

From Chicago *Druggist*, July, 1882:

PHARMACO-LIQUOR LEGISLATION.

Iowa, two years since, succeeded in getting what was unquestionably a valuable law on the subject, but the reaction came in due time by the passage, last spring, of the substitute bill recently published in these columns. This law is a long step backward, and imposes conditions more odious than did the State liquor law from which relief was originally sought. State legislatures are not in a mood at present to deal rationally with even the most reasonable requests from pharmacists on this subject. A further illustration of this was afforded by the last Illinois legislature in its vicious treatment of the "liquor section" of the pharmacy bill.

From the *American Pharmacist*, New York, July 8th:

The Iowa legislature passed, just before its adjournment, what was generally known as a "substitute bill," to amend certain provisions of the pharmacy law of the State. The principal point in the bill, as passed, is that registered pharmacists will be obliged to obtain a permit from the board of supervisors of their county before they can sell liquors for medicinal purposes. Having obtained such permit, however, the law allows them also to sell for "mechanical, culinary and sacramental purposes," thus apparently opening pretty widely the door for surreptitious illegitimate sales. As, however, the law also provides that to obtain a permit a bond of $3,000 must be filed with the county auditor and application made through him for a permit, and that the druggist will also be required to make a monthly report to the county auditor of purchases, sales, etc., it would seem that the community was sufficiently protected against the turning of drug-stores into bar-rooms. The law, we understand, is causing considerable comment in the State, and there has been some question as whether it has really become a law. It seems that it was passed by the legislature during the last three days of the session, and was returned by the Governor to the Secretary of State within the time prescribed by the constitution, without his signature and without objections, thus leaving a doubt in many legal minds as to whether it would become a law or not; but the Attorney-General has, however, given his opinion that it has become a law, it will, therefore, be in effect on and after July 4, 1882, and must be so accepted unless the Supreme Court decides otherwise. From private advices we learn that the druggists memorialized the legislature asking to have their right to sell liquors restricted to the sale for medicinal purposes only, and it was a Legislature which was elected as and supposed to be strictly "prohibition," which passed the anomalous law from which we have quoted. In this the pharmacists showed themselves—as usual—far in advance of, rather than behind, public opinion, proving that the sentiment of the profession is unanimously against the selling of liquors in drug stores except for purely medicinal purposes.

From the *American Pharmacist*, August 19, 1882:

We gave, in the *American Pharmacist*, some weeks ago (Vol. II, No. 2, p. 30,) a synopsis of the objectionable section of the amended pharmacy law of Iowa, concerning the operation of which there was some doubt. It now appears, however, that the law is published with the other laws of 1882, and it will doubtless be enforced. There is a deep-seated feeling among the druggists of the State that this law is onerous and unjust, and this feeling seems to extend to others outside of the business. As the law now is, no druggist can sell any intoxicating liquors for medicinal, mechanical, culinary or sacramental purposes, without first filing a bond of $3,000, and being obliged to attend to the detail of registering the name of the applicant for liquor, and such other minor matters as the old law called for. In addition to this, by any violation of the law, the druggist so violating is obliged to

give up his pharmacist's certificate, and cannot continue his business. The Dubuque *Herald*, of the 11th inst., attacks the law most vigorously. It says that while some druggists in the State may have hitherto sold liquor in violation of the law, the fact "does not prove that all druggists have been selling liquor in violation of the law. It would indeed be a sad commentary on some of the most respected men of the communities of the State to put them down as open or covert violators of a plain statutory provision." And it adds that "meetings have been held in quite a number of towns, and the dealers in drugs have pledged themselves not to sell liquor for any purpose whatever, or, in other words, they refuse to put up the three thousand dollar bond. In this event they hold a pretty strong balance of power. No matter what the exigencies of the case, no matter at what hour of the day or night there is need of liquor, it cannot be obtained from the drug stores of those who propose to fight the law with this array of negative forces. These druggists in the inland towns say that their sales of liquor, presuming of course that they are selling in accordance with the law, have not been sufficient to warrant them in going to the trouble of giving such a bond when they stand such a certain show of being subjected to annoyance in conforming to the same. They say that if any man feels disposed to do them injury, he can easily procure the services of some sneak, who will go through with all the required formula, obtain his liquor, and then show by his disposition of it that he did not buy it for any of the purposes for which it can be sold. The druggist would then be brought before the grand jury, an indictment found, and he would be subjected to perhaps a long and expensive law suit in order that he might be able to prove that he sold the liquor with the belief that the man wanted it for legitimate purposes. Even though innocent he might be defeated, his bond forfeited, and his gold, red or green seal certificate taken from him. Hence the druggists say that on this account, and upon other points, they do not propose to subject themselves to the annoyance and positive danger which the law will put them in, but they will refuse to sell any liquor whatever. Looking at it from an entirely unbiased position, it would seem that the druggists should have some reasonable way provided by which they could sell liquor for medicinal, culinary, sacramental and mechanical purposes, the same as they are allowed to sell any other drug. In case they violate the law in any way, they should be prosecuted. But it would seem that as liquor is such an important article in medicine and surgery, it ought not to classed differently from other drugs. As the matter looks now, it seems as though the druggists had their patrons and the public in a very tight place. There will be an earnest effort made for an amendment or a repeal of the obnoxious sections of the law, and it is thought that this action of the dealers will have a large influence in effecting the change."

The foregoing has been purposely condensed to receive the attention which it deserves, and prove to all reasonable minds that this doubtful amendment to the Pharmacy Law, which seeks to entail on

an honorable and highly respected profession the serious burden of selling liquors for purposes *other than* that required for *medicine*, SHOULD BE CORRECTED, and the original section eight re-enacted and properly amended if need be.

THE IOWA COLLEGE OF PHARMACY.

The same reasons that led to the enactment of the Pharmacy law have led to the establishment, in Des Moines, of the Iowa College of Pharmacy, which, like the law, has been supported entirely without expense to the State, and its workings have given like satisfaction and evidence to the people what its capabilities are for the welfare of the Commonwealth.

In commending this college to your consideration, we would say that it would be a just and wise provision to create for same a department of Pharmacy in the State University, where the objects of the constitution, to cultivate the higher education of the arts and sciences, could be more extended and its benefits to the public be more effectually demonstrated.

SECRETARY'S REPORT.

From last biennial report, October 31, 1881, to October 31, 1883.

AS PER LAST BIENNIAL REPORT.

Number of applicants who had failed on first examination and entitled to re-examination	58
Applicants whose papers were then in course of procedure	28
Number of new applicants received and examined during the two years	552
Total	638
Number of new applicants passed on first examination	366
Number passed on re-examination	92
Number registered as graduates	6
Total number receiving certificates during two years	464
Number who failed on first examination and entitled to re-examination	73
Number lapsed and number rejected on re-examination	91
Number applicants whose papers are now in course of procedure	10
Total	638

TREASURER'S REPORT.

From last biennial report, October 31, 1881, to October 31, 1883.

RECEIPTS FROM OCTOBER 31, 1881, TO OCTOBER 31, 1883.

From 552 applications for examination	$2,760.00
From 6 applications as graduates	12.00
From 40 duplicate certificates	40.00
From 358 changes of locality	179.00
From 1874 renewals for 1882	1,874.00
From 1748 renewals for 1883, to date	1,748.00
Total from all sources to date	$6,613.00

Deduct expenses for two years—

Paid for postage stamps	$ 294.04	
Paid for stationery	78.50	
Paid for clerk hire	1,127.11	
Paid for traveling expenses of Commissioners when on Commission work only	301.95	
Paid for printing	136.50	
Paid for telegrams, express charges and miscellaneous expenses	93.70	$2,031.80
Amount net receipts apportioned to commissioners.		$4,581.20

FOR YEAR 1882.

R. W. Crawford	$ 848.31
Geo. H. Schafer	848.31
C. A. Weaver	848.31
Total	$2,544.93

FOR YEAR 1883.

R. W. Crawford	$ 678.76
Geo. H. Schafer	678.76
C. A. Weaver	678.75
Total	$2,036.27

The Secretary's and Treasurer's reports are necessarily condensed, for if given in detail, as per original reports, would be too voluminous for publication, but they would better show the amount of work the Commissioners have to perform during the year. The Secretary's office alone has answered and mailed over nine thousand letters and postal cards during the last two years, as the expenses for postage will verify, and while many correspondents enclose stamp for replies (a very good example for more to follow).

In conclusion, would again ask your attention to the suggested amendments to sections 8 and 9 and 10 and 12, and would further suggest that the law should be amended, more fully defining the powers and duties of the Commissioners of Pharmacy. Believing the law is for the benefit and protection of the whole populace, it should be made a State institution, with its revenues turned into the State treasury and its Commissioners paid a fair salary and legitimate contingent expenses.

All of which, with the subjoined Regulations and Abstract of Register, is respectfully submitted to your Excellency, and thus indirectly to the Legislature and the citizens of Iowa.

Very respectfully,

C. A. WEAVER,
Secretary.

By order of

R. W. CRAWFORD,
GEO. H. SCHAFER,
C. A. WEAVER,
Commissioners of Pharmacy.

PHARMACY REGULATIONS.

REGULATION No. 7.

In all cases where registered pharmacists have two certificates of registration, the last certificate issuedwill supersede the former, and renewals will be required on it only.

Adopted May 6, 1882.

REGULATION No. 8.

The Commission of Pharmacy, to save time and expense to applicants for examination, have heretofore sent schedules of questions under sealed instructions to notaries, to be answered by applicants under oath, but owing to some complaints for supposed improper means used to secure registration, the Commission will, after June 1st, 1882, require examinations to be made before the Commissioners, or either one of the Commissioners, at their respective places of residence, have therefore adopted regular stated days, which will be. until further notice, the first and third Tuesday of each month.

Applicants, however, who reside in parts of the State remote from the residence of a Commissioner, and who find it more convenient to go to Council Bluffs, Sioux City or Dubuque, may apply for examinations to be conducted at these places by a duly authorized person. These places being established for the time and purpose of saving expense to such applicants, it will be incumbent on them to pay such person a reasonable fee to conduct the seme.

The Commissioners prefer, when practicable, to have applicants appear before them where the regular fee of $5 only is required.

In all cases where applicants elect to go to Dubuque, Sioux City, or Council Bluffs, they must first file with the Secretary, as per address on blanks, properly executed applications, accompanied by the regular fee.

In cases where applicants appear before a Commissioner, they must have previously obtained blank applications, and present the same with testimonials of sober habits and good moral character.

Blank applications can be obtained from either of the Commissioners.

Adopted May 8, 1882.

REGULATION No. 9.

When the Commissioners of Pharmacy have cause for believing any improper aid was made use of by registered pharmacists, who passed examination on answers subscribed to under oath before notaries public, acting under official instructions, they will summon such registered pharmacists before either one of the Commissioners, or the Board of Commissioners, for a supplementary examination to verify the papers upon which such decision of their competency was based; and if they fail to reasonably verify such original examination when notified, the Commissioners will cancel their certificates and will strike their names from the register. And all persons registered "without examination," upon false representation, or by fraudulent means, will be stricken from the register whenever the Board receive notice of conviction, as per section 11 of the Pharmacy law.

Adopted, May 8, 1882.

REGULATION No. 10.

Changes in the Pharmacy law have made some new regulations necessary, and rendered some heretofore made unnecessary. Therefore, all former regulations in conflict with the above are null and void.

Adopted May 8, 1882.

REGULATION No. 11.

In all cases hereafter brought before the Commission of Pharmacy for the purpose of revoking certificates of registration, as provided in sections 7, 8 and 9, of the Pharmacy law, when said cases are based on court records, the prosecution will be required to file with the Secretary of this Board certified copies of same, showing final judgment of conviction under the law relating to the adulteration of drugs, chemicals or medicinal preparations, as provided in section 7; or to the law relating to the sale of intoxicating liquors, as provided in section 8 or 9; or to the law relating to the retailing of poisons, as provided in section 9 of the Pharmacy law; and that the convicted parties be identified by giving the number of their certificate; whereupon written notice will be served on the convicted registered pharmacist to show cause in writing, if any, why his or her name should not be stricken from the State Pharmacy register.

R. W. CRAWFORD, Fort Dodge,
C. A. WEAVER, Des Moines,
GEORGE H. SCHAFER, Fort Madison,
Commissioners of Pharmacy.

Approved:

SMITH MCPHERSON,
Attorney General.
