WARDEN'S REPORT.

OFFICE OF THE WARDEN OF THE
PENITENTIARY OF THE STATE,
Ft. Madison, Iowa, June 30, 1883. }

To His Excellency, Gov. BUREN R. SHERMAN:

DEAR SIR—I herewith submit my third biennial report of the affairs of this institution for the time commencing October 1, 1881, and ending June 30, 1883, being three months less than two years; the Nineteenth General Assembly having changed the closing of the biennial period from September 30 to June 30, preceding the meeting of the General Assembly. There has been no change in the officers of the prison since my last report, with the exception of deputy warden. Capt. Hale having tendered his resignation, to take effect September 1, 1882, J. Townsend was appointed to fill the vacancy. On the 1st day of October, 1881, there were in confinement 341 convicts, and on June 30, 1883, 378. During the time included in this report there have been received, 361; discharged by expiration of sentence, 267; by order of court, 19; pardoned, 35; sent to asylum for insane, 4; died, 3; average number in confinement, 375½. The health of the prisoners, as will be seen by the report of my efficient surgeon, Dr. A. W. Hoffmeister, has been excellent, but three deaths having occurred, and only 1 7-10 per cent disabled from work by disease, including the number wounded while working in the shops.

Our female convicts (three) were, by your order, transferred to the additional penitentiary at Anamosa, which was, I think, a wise step, as by this means they are kept at one place with a matron in charge. At no time during the past term have the contracts been full; yet I have been able to support the prison from the earnings, and pay a small amount over to the State; but owing to the high prices of all kinds of provisions it has only been by the strictest economy that we

have been able to keep within the limits of the law. To illustrate: during the preceding term pork cost an average of \$12 per barrel, this term \$18; beans last term cost \$1.50 per bushel, this term \$2.50; beef contracted last term \$5.00 and \$5.25, this term \$6.65 and \$6.75; everything else in proportion, except the one article of coffee. Last term the average cost for sustenance per convict per month was \$6.99, this term \$8.25, a difference of \$1.26, making a total of \$9,831.32, which amount, under the prices of preceding term, could have been paid into the State treasury, in addition to the amount I have been able to pay in. By reference to the financial exhibit of my clerk, M. T. Butterfield, it will be seen that the total receipts for general support from convict labor and all other sources, from October 1, 1881, to June 30, 1883, were \$79,334.78:

Expenses of general support.....	\$64,927.47
Paid in State treasury.....	2,054.27
Balance on hand (notes, \$10,830.71; cash, \$1,522.33).....	12,353.04
Total.....	\$79,334.78

The contractors give their notes each month for the convict labor of preceding month, which notes have three months to run, without interest, and there is due from contractors, in addition to the above showing, for the month of June, the following amounts:

Huiskamp Bros.....	\$ 972.83
Iowa Farming Tool Co.....	1,443.00
Fort Madison Chair Co.....	1,073.46
Total.....	\$3,489.29

making, with the balance of notes and cash on hand, as shown above, the sum of \$15,842.33, available and to become available in the future for general support. There are also on hand and paid for out of support fund, provisions, materials for clothing, bedding, etc., amounting to \$4,356.86. In every instance where the law provides for advertising for supplies, the letter of the statute has been complied with; supplies throughout have been purchased at the lowest possible figures; all bills discounted and paid on delivery of goods. The clothing worn by the prisoners, as well as a portion of the turn-out suits, have been made in the State shop by convicts not able to work on the contracts, thus utilizing the entire labor of the prison and saving quite a sum to the State.

A full and interesting report of the chaplain, Rev. W. C. Gunn, is hereto annexed; also copies of all contracts for convict labor. The Iowa Farming Tool Company pay fifty cents per day for each convict; Huiskamp Bros., manufacturers of boots and shoes, pay forty-three and one-third cents until July 15, 1883, and forty-five cents thereafter; the Fort Madison Chair Company paid forty-three cents until October 1, 1882, and since that time forty-five cents.

The business of the contractors has been gradually extending, and in order to meet the demand for goods and fill their orders have been compelled to erect buildings outside the walls and employ free labor.

IMPROVEMENTS.

By reference to chapter 87, of the laws of the Nineteenth General Assembly, it will be seen that the following appropriations were made for the benefit of this institution:

For general repairs and contingent.....	\$ 5,000
For transportation of discharged convicts.....	2,000
For fixtures in wash-house and bath-room.....	1,000
For repairing old and erecting new water-works.....	4,400
For new fire-hose.....	400
For furniture for warden's house.....	250
For new wagon.....	60
For purchase of new suits for surgeon and hospital steward.....	80
For steam-heating apparatus.....	3,000

There has been expended for general repairs \$4,101.56. Many of the shops required new floors, and the calls upon this fund are numerous.

The law requires that upon the discharge of a convict his fare shall be paid to the place from which he was sent, or an equal distance in any other direction. There has been expended for this purpose \$1,611.10.

WASH-HOUSE AND BATH-ROOM.

At the time of my last report the wash-house was in process of erection; it has been completed and contains, besides the wash-room, engine and boiler-room, store and dry-room; being a building two stories above basement, the latter being built of stone, balance of brick, forty (40) by eighty (80) feet. In the basement, forty by thirty feet, fifteen feet from floor to ceiling, is the boiler; the roof is of

iron, and the entire cost has not exceeded the appropriation, although the original plan only contemplated one story above the basement. In the wash-room have been placed twenty-five bathing apartments, with tubs and pipes for hot and cold water, making the most comfortable and complete bathing arrangement that I ever found in any prison, east or west.

WATER-WORKS.

A new reservoir has been completed near the old one, capable of holding 6,296 barrels, pipe purchased and laid from the river at a point east of and above the Fort Madison Lumber Co.'s mill, and above the mouth of the prison sewer. A No. 9 Dean pump has been bought and will soon be on the ground, and a brick pump house, with iron roof, built, and, although a considerable amount has necessarily been expended to keep the old works in running order, yet the entire cost will be within the appropriation. The amount already expended is \$4,037.31.

Seven hundred feet of fine hose, with reel and fixtures, were purchased at a cost of \$400.00. A wagon was bought for \$58.00, and \$80.00 expended for suits for surgeon and hospital steward to replace those lost by them in small-pox case.

STEAM HEATING.

The Eighteenth General Assembly appropriated \$6,000.00 for steam heating apparatus, and the last assembly \$3,000.00 for the same purpose. Of these amounts, \$8,205.89 have been expended. The warden's house, clerk's office, turnkey's office, cell-room, wash-house, dry-room and shoe shops are now heated by steam; we find this a great improvement in every respect; cheaper, healthier and more comfortable. The boiler capacity is sufficient and intended to heat the entire prison; it will require \$3,000.00 to complete the work. The buildings inside the walls are of brick and substantially fire proof, with the exception of shops 13 and 14, known as "the iron clad;" it is an old frame building, and should be replaced with a two-story brick, at an estimated cost of \$3,000.00.

The appropriation made by the Nineteenth General Assembly for transportation of convicts will have been exhausted before the meet-

ing of the Twentieth Assembly; there will be needed for this purpose \$2,200.00. The repairs and contingent appropriation will also be exhausted, and we will need \$5,000.00 for this purpose. Up to the present time the bedsteads in use in each cell are cheap wooden affairs, a regular harbor for bugs, requiring constant care and labor to keep them out. These bedsteads have now become old and dilapidated, and I would earnestly recommend an appropriation of \$1,500.00 to replace them with iron ones, which I think will not only be economical, but greatly conduce to the comfort of the inmates. I would also ask an appropriation of \$375.00 to purchase porcelain-lined cell buckets, to replace the old wooden ones now in use.

In each of my preceding reports I have called attention to the indebtedness contracted by Ex-Warden Dr. S. H. Craig, amounting to some \$16,000.00, about \$500.00 of which is due convicts. Many of these convicts have been discharged, but in each instance have received certificates from me, or my clerk, stating the amount due them, as shown by the books of Dr. Craig. As to the balance of indebtedness, it is nearly all due to parties who, in good faith, furnished provisions for the prison. A bill was introduced in the last General Assembly, providing for the payment of this debt, and passed the Senate without a dissent, but was delayed in the House until too late for action by that body before adjournment. Judgments have been obtained in the District Court of Lee county by nearly all the parties interested. Justice certainly demands that this indebtedness be paid.

VISITORS' FUND.

During my administration there has been received from visitors the handsome sum of \$2,481.18, of which \$967.60 was in the past 21 months. We have added to our library 975 volumes, and replaced 600; also, have purchased 400 singing books for use in church and Sunday school, 100 bibles and 100 dictionaries, making in all about 2,200 books, and we have on hand belonging to this fund a cash balance of \$375.75. The Eighteenth General Assembly made an appropriation of \$300.00 for "prison library," but I concluded the gate fund

was sufficient for the purpose, and have never drawn any part of the appropriation.

Respectfully submitted,

E. C. McMILLAN,
Warden.

Subscribed and sworn to by E. C. McMillan, before me, this 4th day of July, A. D. 1883.

[SEAL.]

M. T. BUTTERFIELD,
Notary Public.

APPENDIX.

CONTRACTS FOR CONVICT LABOR.

SHOE CONTRACT.

By articles of agreement entered into this 22d day of November, A. D. 1881, between E. C. McMillan, Warden of the Iowa Penitentiary and in behalf of the State of Iowa, of the first part, and Henry C. Huiskamp and Herman J. Huiskamp, of Keokuk, Iowa, of the second part:

WHEREAS, certain proposals have heretofore been made by the party of the second part, for the convict labor hereinafter mentioned; which proposals have been accepted by the parties of the first part, for, and in the name of the State of Iowa. Now, therefore, it is agreed:

First—That the party of the first part doth hereby let and hire to the party of the second part for the term of eight and one half ($8\frac{1}{2}$) years from July 15, 1883, the labor and services of ninety (90) able bodied convicts now or hereafter to be confined in the Iowa State Penitentiary, at Fort Madison, Iowa, to be employed by said party of the second part, at the following trades and occupations, to-wit:

Manufacturing all kinds of boots, shoes, boot and shoe paces, horse collars and saddlery goods. Nothing in this agreement shall prevent the Warden from employing a limited number of convicts in shoe making and tailoring for the use of the convicts.

Second—It is agreed by the party of the first part that for the use of said labor and storage of materials during the terms of this lease, the party of the second part shall use the following shops, which shall be kept in good repair by the State, to-wit: shops number ten (10), number eleven (11), number twelve (12), number thirteen (13), and number fourteen (14).

Third—It is agreed and understood that for said labor the party of the second part shall pay at the rate of forty-five (45) cents per day for each convict.

Fourth—The said party of the second part, shall have the privilege of going to and from said shops, at all proper times to instruct the convicts in the manufacture of said articles, and take in and out materials and manufactured articles. Said party may also employ suitable persons to perform whatever is authorized to be done by this article, and generally to superintend the work under this contract. Said contractors and employes being whilst within the walls of said prison yard subject to all the rules and regulations now or hereafter established by the proper State authorities.

Fifth—The convicts so to be employed shall be able bodied men, by which term is meant those who are capable of performing a reasonable day's work, and in case of any disagreement between the party of the second part and the Warden of the Penitentiary in regard to the physical ability of any convict, the same shall be conclusively determined by the physician of the penitentiary.

Sixth—The convicts shall be guarded and kept in good discipline at the expense of the State; but the State of Iowa shall in no case be liable to the party of the second part for any loss by fire or other casualties.

Seventh—It is further agreed that the shops shall be properly warmed by the party of the first part, and the fixtures thereof shall be made reasonably secure against fire.

Eighth—The party of the first part further agrees to furnish the party of the second part with sufficient water for the use of this contract. The party of the first part further agrees to furnish five lumpers or runners, for the purpose of cleaning shops, making and taking care of fires, bringing water and performing the necessary running for this contract; and it is hereby agreed that when said lumpers are not engaged in discharging the above mentioned duties they shall be subject to the order of the party of the second part.

Ninth—In estimating the per diem as aforesaid to be paid for each convict, the usual term for estimating a day's work, to-wit: ten hours average through the year shall be computed.

Tenth—It is further agreed that after the Warden shall have selected such number of the convicts as he may deem necessary for cooking, cleaning, sanitary and other purposes pertaining to the care

of the prison, and also for shoemaking and tailoring as specified in articles, the remaining convicts shall be apportioned by the Warden among the contractors according to the number to which each is entitled, reference being had to the skill and value of convicts in the several trades carried on by the different contractors. The State shall not be liable for any deficit under this contract, provided the State shall not transfer convicts to the additional penitentiary so as to diminish the number actually employed under this contract below the maximum at the time of such transfer.

Eleventh—If at any time the convicts assigned to the party of the second part within the number hereinbefore specified shall remain idle for the want of any materials or tools, or for any fault of the party of the second part, the party of the second part shall still be liable to pay said sum of (45) forty-five cents per day for each convict so employed.

Twelfth—No charge is to be made for such time as a convict may be employed in learning to read and write, or when he does not from sickness or other causes beyond the control of said party of the second part, perform his ordinary labors.

Thirteenth—In the case of loss of the shops hereinbefore specified, or material damaged to the same by fire or other casualty, by reason of which they cannot be occupied, then the party of the second part shall not be liable to pay for any labor of the convicts during the time for which the State shall not furnish other or rebuild said shops, nor shall the State of Iowa be liable for any damages for such unemployed labor until such shops can, within reasonable diligence, be rebuilt.

Fourteenth—It is further agreed that the State of Iowa shall not carry on any of the trades hereinbefore specified within the walls of said prison, nor contract or lease convict labor for the same during the continuance of this lease, without the consent of the party of the second part.

Fifteenth—All machinery, tools and implements are to be furnished by the party of the second part for the use of the hands employed on this contract.

Sixteenth—All manufactured articles shall be removed from the shops as soon as practicable when finished, and no article shall be stored in the shop in a partial or unfinished condition an unreasonable length of time. The Warden shall have full power to remove, at

the expense of the party of the second part, all articles stored or kept in the shops in violation of this provision, and also all shavings or other rubbish that will endanger the safety of the buildings.

Seventeenth—The time of the convicts herein leased shall be kept by the Warden of the prison or his deputy, and his books shall be presumptive evidence of the correctness thereof; and in written statement shall be given to the party of the second part, or his foreman, each day.

Eighteenth—The party of the second part shall account to the Warden of the Penitentiary on the first Monday in each month for the labor of the convicts under this contract for the preceding month, and shall execute his promissory note for the amount due which shall be made payable to the State of Iowa, and the sureties shall be liable on their bond for the amount of said note or notes, as upon an original undertaking by them and each of them. Said notes shall be payable three months after date, and bear interest at the rate of six per cent per annum after maturity.

Nineteenth—It is further agreed that in case the party of the second part shall refuse to make settlement as aforesaid, or in case any note or notes given for convict labor as aforesaid shall remain unpaid thirty days after the same shall become due, then the party of the second part shall, at the option of the party of the first part, forfeit all rights and privileges under this agreement, and the State may resume absolute control over the labor of said convicts, and re-let the same as though this contract had not been executed.

Twentieth—It is further agreed that no tinkering shall be permitted in the shops by officers, foremen or convicts, nor shall any material or tools be carried from the shops to convicts' cells for said purpose.

Twenty-first—It is further agreed that the party of the second part shall have assigned to them so far as practicable, convicts skilled in the work to be done under this contract, and no convict shall be assigned to this contract whose term of servitude shall be less than one year when so assigned. No convict shall be transferred from this contract to another without the consent of the Warden and the contractors, except as provided in Article ten (10).

Twenty-second—It is further agreed that this contract shall not be assigned by said party of the second part without the consent of the Warden, with the approval of the Executive Council.

Twenty-third—It is further agreed that this contract may be ter-

minated at the option of the said party of the second part by giving five months notice thereof in writing to said Warden and the Executive Council; *Provided*, that such termination shall take effect only on payment of all sums and amounts due from the party of the second part, by virtue of this contract.

In witness whereof, the said parties have hereunto set their hands, this 26th day of November, 1881.

E. C. McMILLAN, *Warden*.

STATE OF IOWA, }
OFFICE OF THE SECRETARY OF STATE. }

I, J. A. T. Hull, Secretary of State, of the State of Iowa hereby certify that the papers hereto attached, contain a true copy of contract by and between the State of Iowa and Herman J. Huiskamp and Henry C. Huiskamp, entered into on the 26th day of November, 1881, as shown by the original contract on file in this office.

In testimony whereof I have hereunto set my hand and affixed the Great Seal of the State of Iowa. Done at Des Moines this 28th day of March, A. D. 1883.

J. A. T. HULL,

Secretary of State.

CONTRACT WITH THE IOWA FARMING TOOL CO.

By articles of agreement entered into this twenty-fourth day of July, 1880, between E. C. McMillan, Warden of the Iowa Penitentiary at Fort Madison, Iowa, and acting for the State of Iowa of the first part, and the Iowa Farming Tool Company of Fort Madison, Iowa, party of the second part.

WHEREAS, Certain proposals have been made by the party of the second part for the convict labor hereinafter mentioned, which proposals have been accepted by the party of the first part for and in the name of the State of Iowa; now, therefore, be it agreed.

First—That the party of the first part doth hereby let and hire to the party of the second part for the term of ten years from the first day of April, 1881, the labor and services of (75) seventy-five convicts. Also for the term of nine years and six months from the first day of April, 1881, the labor and services of (40) forty additional convicts, all of said (115) one hundred and fifteen convicts now or hereafter to be confined in the Iowa Penitentiary at Fort Madison, Iowa (if so many there may be under the specifications hereafter contained), to be employed by said party of the second part in manufacturing agricultural implements.

Second—It is agreed by the party of the first part that for the use of said labor during the term of this lease or any part thereof, the party of the second part shall use the following shops now situated in said prison yard, viz.: Shops numbers (3) three, (4) four, (5) five, (6) six, (7) seven, (8) eight, and (9) nine, together with the yard room and fixtures thereon standing north of same (except the eastern division of the west dry kiln) also the north (1) three fourths of cellar under shop number (1) one, also grounds outside of prison walls, commencing at the southeast corner of prison land (corner of Fourth and Olive streets) running east (100) one hundred feet, thence north (300) three hundred feet, thence west (100) one hundred feet, thence south (300) three hundred feet, to place of beginning.

It is further agreed and understood that for said labor the party of the second part shall pay at the rate of (50) fifty cents per day until the expiration of this contract for each convict actually employed.

Third—The party of the first part further agrees that the said Iowa Farming Tool Company shall have the privilege of going to and from said shops at all times to instruct said convicts in the manufacture of said articles, and carry in and out all materials and manufactured articles, or they may employ to do the same such person or persons as the Warden of the Penitentiary may approve, said contractors and employes being, whilst within the walls of said prison yard, subject to all the rules and regulations now or hereafter established by the proper State authorities.

Fourth—It is further agreed that the party of the second part shall

have assigned it as far as practicable convicts skilled in the work to be done under this contract, and shall not be bound to take under this contract any convict whose term of service is less than one year from the time he is assigned, and no convict shall be transferred from this contract to another without the assent of the Warden and contractor.

Fifth—The convicts so to be employed shall be men who are capable of performing a reasonable day's work. In case of any disagreement between the Warden of the Penitentiary and the party of the second part in regard to the physical ability of any convict, the same shall be conclusively determined by the physician of the Penitentiary.

Sixth—The convicts shall be guarded and kept in good discipline at the expense of the State, but the State of Iowa shall in no case be liable to the party of the second part for any loss by fire or other casualties.

Seventh—It is further agreed that the party of the first part shall furnish water for shops and for the use of this contract, also several runners, whose duty it shall be to build fires, clean shops, and do the necessary running for this contract, and when not engaged in necessary shop duties shall be subject to the control of the contractors.

Eighth—It is further agreed that said shops shall be warmed at the expense of the party of the first part, and the fixtures for heating said shops shall be made reasonably secure against fire.

Ninth—In estimating the per diem as aforesaid to be paid for each convict, the usual time for estimating a day's work, viz.: (10) ten hours average through the year shall be computed.

Tenth—It is further agreed that if at any time the number of prisoners in the Penitentiary shall not be sufficient to supply the full number specified on this and other prison accounts now or hereafter let by authority of the State—also cooking, cleaning, and other necessary matters which in the judgment of the Warden it may be for the interest of the State to employ them—the number of able-bodied convicts not so employed by the Warden shall be apportioned according to the number contracted to each contractor, reference also being had to the skill and value of convicts in the several trades carried on by the different contractors.

Eleventh—If at any time the convicts assigned to the party of the second part (within the number hereinbefore specified) shall remain

idle for the want of any material or tools, or for any fault of the party of the second part, the party of the second part shall be liable to pay for the same as if same labor were employed.

Twelfth—No charge shall be made by the State for such time as a convict may be employed in learning to read or write, or does not from sickness or other cause beyond the control of the party of the second part perform his ordinary labor.

Thirteenth—In case of the loss of the shops hereinbefore specified, or material damage to the same by fire or other casualty, by reason of which they cannot be occupied, then the party of the second part shall not be liable to pay for any labor of the convicts during the time for which the State shall not furnish another or rebuild said shops. Nor shall the State of Iowa be liable for any damages for such unemployed labor until said shops can with reasonable diligence be rebuilt.

Fourteenth—It is further agreed that the State of Iowa shall not carry on any of the trades hereinbefore mentioned within the walls of said prison, or contract, nor lease convict labor for the same during the continuance of this lease without the consent of the party of the second part.

Fifteenth—All tools and implements are to be furnished by the party of the second part for the use of the hands so employed by them.

Sixteenth—All manufactured articles shall be removed from the shops soon as finished, and no articles shall be stored in the shops in a partial or unfinished condition an unreasonable length of time. The Warden shall have full power to remove at the expense of the party of the second part all articles stored or kept in shops in violation of this provision, and also all shavings and other rubbish that will endanger the safety of the buildings.

Seventeenth—The time of the convicts herein leased shall be kept by the Warden of the prison or his deputy, and his books shall be presumptive evidence of the correctness thereof, and a written statement shall be given to the party of the second part, or their foreman, each day.

Eighteenth—The party of the second part shall account with the Warden of the Penitentiary on the second Monday of each month for the labor of the convicts under this contract for the preceding month, and shall execute their promissory note for the amount due,

which shall be made payable to the State of Iowa, and the sureties shall be liable on their bond for the amount of said note or notes as upon an original undertaking by them and each of them. The said notes shall be payable three months after date, and bear interest at the rate of (6) six per cent per annum after maturity.

Nineteenth—It is further agreed that in case the party of the second part shall refuse to make settlement as aforesaid, or in case any note or notes given for convict labor as aforesaid shall remain unpaid after the same shall become due, and after specific written demand thereof, the party of the second part shall, at the election of the Executive Council of the State of Iowa, forfeit all rights and privileges under this agreement, and the State of Iowa shall have the right to resume absolute control over the labor of said convicts and re-let the same as though this contract had not been executed.

Twentieth—It is further agreed that no tinkering shall be permitted in the shops by officers, foremen or convicts, nor shall any material or tools be carried from the shops to the convicts' cells for said purpose.

Twenty-first—It is further agreed that this contract shall not be assigned by said party of the second part without the consent of the Warden with the approval of the Executive Council.

Twenty-second—It is hereby agreed that this contract may be terminated at the option of said party of the second part by giving five months' notice thereof in writing to said Warden and the Executive Council, provided that such termination shall take effect only on payment of all sums and amounts due from the party of the second part by virtue of this contract.

In witness whereof the said parties have hereunto set their hands this twenty-fourth day of July, 1880.

E. C. McMILLAN, Warden.

IOWA FARMING TOOL COMPANY.

GEORGE W. BEMIS.

CONTRACT WITH FORT MADISON CHAIR COMPANY,
APRIL 2, 1880.

By articles of agreement entered into this 12th day of April, A. D. 1880, between E. C. McMillan, Warden of the Iowa Penitentiary at Ft. Madison, Iowa, and acting for the State of Iowa, party of the first part, and the Fort Madison Chair Company of Fort Madison, Iowa, party of the second part.

WHEREAS, Certain proposals have been made by the party of the second part for the convict labor hereinafter mentioned, which proposals have been accepted by the party of the first part for and in the name of the State of Iowa; now, therefore, be it agreed:

First—That the party of the first part doth hereby let and hire to the party of the second part for the term of nine years from the first day of May, 1880, the labor and service of fifty convicts; also, for the term of ten years from the first day of May, 1880, the labor and services of fifty additional convicts, all of said one hundred convicts now or hereafter to be confined in the Iowa State Penitentiary at Fort Madison, Iowa (if so many there may be under the specifications hereinafter contained), to be employed by said party of the second part, at the following trades and occupations, viz.: manufacturing chair furniture and coffins.

Second—It is agreed by the party of the first part, that for the use of labor during the term of this lease or any part thereof, the party of the second part shall use the following shops, now situated in said prison yard, viz.: numbers one, two, sixteen and fifteen, the latter containing two rooms and the addition to the south end of shop number fifteen, formerly used as a cook-room. All the ground to the width of twelve feet on the west side of shop number one, at present occupied by the said Fort Madison Chair Company, and containing two dry-kilns and boiler-house, built and owned by them. The east half of the west dry-kiln situated north of shop number seven, one-quarter of cellar under shop number one, at south end of same, and now partly occupied by the party of the second part for foundations to engine, etc. About twenty-eight hundred square feet of the cellar under shop number fifteen, commencing at the north wall of the cellar and extending the full width of the cellar to the south wall (the already existing division wall) and grounds outside the prison walls, commencing sixty feet north of the northeast corner of the grounds,

leased to the Iowa Farming Tool Company, running east one hundred feet, north one hundred and thirty feet, thence west one hundred feet, thence south one hundred and thirty-five feet to place of beginning.

It is further agreed and understood that for said labor the party of the second part shall pay at the rate of forty-three (43) cents per day until October first (Oct. 1st), 1882, and at the rate of forty-five (45) cents per day after October 1, 1882, until the expiration of this contract for each convict actually employed.

Third—The party of the first part further agrees that the said Fort Madison Chair Company shall have the privilege of going to and from said shops at all times to instruct said convicts in said trades, and carry in and out all materials and manufactured articles, or they may employ to do the same such person or persons as the Warden of the Penitentiary may approve; said contractors and employes being, whilst within the walls of said prison yard, subject to all the rules and regulations now or hereafter established by the proper State authorities.

Fourth—It is further agreed that the party of the second part shall have assigned it as far as practicable convicts skilled in the work to be done under this contract, and no convict whose term of service is less than one year, shall be assigned on this contract.

Fifth—The convicts so to be employed shall be men who are capable of performing a reasonable day's work. In case of any disagreement between the Warden of the Penitentiary and the party of the second part in regard to the physical ability of any convict, the same shall be conclusively determined by the physician of the Penitentiary.

Sixth—The convicts shall be guarded and kept in good discipline at the expense of the State, but the State of Iowa shall in no case be responsible to the party of the second part for any loss by fire or other casualties.

Seventh—It is further agreed that the party of the first part shall furnish water for shops and for the use of this contract, also, six runners whose duty it shall be to build fires, clean shops, and do the necessary running for this contract, and when not engaged in necessary shop duties shall be subject to the control of the contractors.

Eighth—It is further agreed that said shops shall be warmed at

the expense of the party of the first part, and the fixtures for heating said shops shall be made reasonably secure as to fire.

Ninth—In estimating the per diem as aforesaid to be paid for each convict, the usual time for estimating a day's work, viz.: ten hours average through the year shall be computed.

Tenth—It is further agreed, that if at any time the number of prisoners in the Penitentiary should not be sufficient to supply the full number specified on this and other prison contracts now or hereafter let by authority of the State—also, cooking, cleaning, and other matters necessary, which, in the judgment of the Warden it may be for the interest of the State to employ them—the number of able-bodied convicts not so employed by the Warden shall be apportioned according to the number contracted, to each contractor, reference also being had to the skill and value of convicts in the several trades carried on by the different contractors.

Eleventh—If at any time the convicts assigned to the party of the second part (within the number herein before specified) shall remain idle for the want of any material or tools, or for any fault of the party of the second part, the party of the second part shall be liable to pay for the same as if said labor were employed.

Twelfth—No charge shall be made by the State for such time as a convict may be employed in learning to read and write, or does not from sickness or other cause beyond the control of the party of the second part perform his ordinary labor.

Thirteenth—In case of the loss of the shops herein before specified, or material damage to the same by fire or other casualty, by reason of which they cannot be occupied, then the party of the second part shall not be liable to pay for any labor of the convicts during the time for which the State shall not furnish another or rebuild said shops. Nor shall the State of Iowa be liable for any damages for such unemployed labor until said shops can with reasonable diligence be rebuilt.

Fourteenth—It is further agreed that the State of Iowa shall not carry on any of the trades herein before mentioned within the walls of said prison on contract, nor lease convict labor for the same during the continuance of this lease without the consent of the party of the second part.

Fifteenth—All tools and implements are to be furnished by the

party of the second part for the use of the hands so employed by them.

Sixteenth—All manufactured articles shall be removed from the shops as soon as finished, and no articles shall be stored in the shops in a partial or unfinished condition an unreasonable length of time. The Warden shall have full power to remove, at the expense of the party of the second part, all articles stored or kept in shops in violation of this provision, and also all shavings and other rubbish that will endanger the safety of the buildings.

Seventeenth—The time of the convicts herein leased shall be kept by the Warden of the prison or his deputy, and his books shall be presumptive evidence of the correctness thereof, and a written statement shall be given to the party of the second part or their foreman each day.

Eighteenth—The party of the second part shall account with the Warden of the Penitentiary on the second Monday of each month for the labor of the convicts under this contract for the preceding month, and shall execute their promissory note for the amount due, which shall be made payable to the State of Iowa, and the sureties shall be liable on their bonds for the amount of said note or notes as upon an original undertaking by them and each of them. The said notes shall be payable three months after date and bear interest at the rate of six per cent per annum at maturity.

Nineteenth—It is further agreed that in case the party of the second part shall refuse to make settlement as aforesaid, or in the case any note or notes given for convict labor as aforesaid shall remain unpaid after the same shall become due, and after specific written demand thereof, the party of the second part shall, at the election of the Executive Council of the State of Iowa, forfeit all rights and privileges under this agreement, and the State of Iowa shall have the right to resume absolute control over the labor of said convicts, and re-let the same as though this contract had not been executed.

Twentieth—It is further agreed that no tinkering shall be permitted in the shops by officers, foremen, or convicts, nor shall any material or tool be carried from the shop to the convict's cell for said purpose.

Twenty-first—It is further agreed that this contract shall not be assigned by said party of the second part without the consent of the Warden with the approval of the Executive Council.

Twenty-second—It is hereby agreed that when this contract is signed by the Warden and approved by the Executive Council, all prior contracts with said Fort Madison Chair Co. shall be void and of no effect.

In witness whereof the said parties have hereunto set their hands this 12th day of April, A. D. 1880.

COPY OF ADDITIONAL CONTRACT FORT MADISON CHAIR
COMPANY, NOVEMBER 2, 1878.

It is hereby understood and agreed by and between E. C. McMillan, Warden of the Iowa Penitentiary at Fort Madison, Iowa, and acting for the State of Iowa, party of the first part, and the Fort Madison Chair Co., of Fort Madison, Iowa, party of the second part, as follows, viz.:

First—The State of Iowa hereby lets and hires to the party of the second part the labor and services of twenty (20) able-bodied convicts, now or hereafter confined in the Penitentiary at Fort Madison, Iowa, in addition to the convicts already contracted for, making ninety-five (95) in all.

Second—The rate per day (of 10 hours) per man, and time and

terms of payment for same shall be the same as under the already existing contract between the above parties and all its stipulations, provisions and conditions, shall apply to this contract, except in so far as they are herein modified.

Third—The party of the second part hereby agrees to resign their rights to shop number eleven (11) which they possess under the already existing contract so soon as the State shall give them in lieu thereof, on this contract, an equal number of superficial feet on the floor of the room now used as a dining-room.

Fourth—The State hereby agrees to furnish to the party of the second part the remainder of the present dining-room not mentioned above and in addition thereto the two rooms now used as kitchens; also, about 2,800 square feet of the cellar room below, commencing at the north wall of the cellar and extending the full width of the room; south wall, to the already existing division wall.

Fifth—The State hereby agrees to furnish one (1) lumper free of charge on this contract.

Sixth—This contract shall be in force so soon as the State shall occupy the new dining-room now in process of erection. And it shall expire four (4) years from the first day of October, 1878.

FINANCIAL REPORT.

E. C. McMILLAN, *Warden of the Penitentiary of the State:*

SIR—I herewith present to you in detail my third biennial report of the finances of this institution, commencing October 1, 1881, and ending June 30, 1883. Also a statement of various kinds of provisions on hand, with cost of same, paid for out of general support fund, with an inventory of all property on hand, and the customary prison statistics.

Very respectfully,

M. T. BUTTERFIELD,
Clerk.

CHAPLAIN'S REPORT.

To E. C. McMILLAN, Warden Iowa Penitentiary:

DEAR SIR—In conformity with the statute, I herewith present to you my third biennial report as Chaplain and Teacher. I believe it will accord with your personal observation when I say that I have left nothing undone to meet and faithfully carry out the onerous and responsible duties devolving upon me. With fidelity and honor, I have to the utmost of my ability, devoted all my time and energies to promote the spiritual and temporal welfare of the unfortunate men committed to our charge, and to the best interests of the State.

SABBATH SERVICES.

Each Sabbath immediately after breakfast the chapel exercises have been held, in which all the prisoners are usually in attendance. Believing, as I do, that there is no salvation or reformation out of Christ, my sole and untiring efforts have been given to instil in the heart and understanding that living and undying principle which, through the Holy Spirit, fills the soul with love, and joy and peace, and that the only pledge and security each has is in becoming a humble, consistent and obedient follower of our Lord Jesus Christ.

The crowning triumph of the preached word is to be seen in the social meeting just following the sermon at which a large number of prisoners remain and take an active part. Here we find satisfactory and conclusive evidence that the gospel of Jesus Christ is a dispensation of mercy, and that loyalty to its divine precepts imparts the grace and joy of that salvation which the Savior purchased with his own

precious blood. The question is frequently asked: How about those who profess religion? Are they sincere? Do they continue to adorn their profession by well regulated lives? Here are the facts—judge for yourselves: Out of one hundred and twenty-five who professed conversion during my first year's labors, one hundred and twenty-three (after nearly four years' time) are now active members of Christian churches; one of the other two is an inmate of a penitentiary in an adjoining State, and the other a fugitive from justice.

THE SABBATH SCHOOL.

Since my last report, Hon. J. M. Beck, who, since the organization of the school, was its successful superintendent, resigned. Mr. E. A. Gibbs, a most conscientious and earnest worker, was immediately elected to fill the place. He is ably assisted by Samuel Doyles, Esq., and a large number of ladies and gentlemen from the city as teachers. A very large proportion of the prisoners are regularly in attendance, and it is rare that each class is not provided with a competent and desirable teacher. The divine truths of the Holy Scriptures are here made a specialty, and many are led and encouraged to investigate for themselves God's promises to fallen man, making the acceptance of the divine truth a matter of conviction and deliberate adoption. Since Mrs. Deputy Hale has left us her place as organist has been supplied by Mrs. W. C. Gunn, assisted by other ladies.

THE SICK AND DYING.

I make it my duty to give much attention to the sick, and, by every consoling influence I can command, to cheer their painful and lonely hours. To those who have been taken from us by death, I have, in their expiring moments, extended every Christian consolation and comfort to prepare them for the realms of immortality. A Christian burial is given to all who die here.

THE LIBRARY.

On my assuming the chaplaincy there were in the library all told fifteen hundred volumes. Since then, with no other funds except what was realized from the admission of visitors (or gate funds) our library has been increased from time to time, until it now contains two thou-

sand three hundred and seventy-five volumes of such books as are suitable to the tastes and capacities of all the prisoners, besides some six hundred volumes to replace those worn and unfit for use. And in addition to all this, we have been able, from the same funds, to furnish the chapel with a fine and excellent organ; four hundred hymn books, and one hundred large Bibles. It is gratifying to see the eager demand for books among the prisoners. A very large amount of spiritual and intellectual information is disseminated in this manner; say nothing of the many hours that otherwise would be almost unendurable thus pleasantly and profitably passed away. Books are given to all who may desire them twice a week—Tuesdays and Saturdays. A large number of prisoners subscribe for weekly papers, both religious and secular. Thanks are due many friends for supplying us with such papers and magazines as can properly be admitted into the cells; among many others, Rev. W. D. A. Mathews, of Onarga, Illinois.

THE SCHOOL.

During the greater part of each year evening school has been held, in which I have acted as teacher. When we come to look over the entire prison and see the many young boys, with noble impulses and blessed with intellects of untold capacity, and contemplate their being here for crime, we are driven to the inevitable conclusion that many of them are here for the want of proper training, and the wisdom of the law-makers is to be commended in making the school so important a factor in their future reformation. Intelligent, humane, and successful prison reformers have recognized the value of educational training as a helper in their reformatory efforts. In the Crofton system schools for teaching convicts are deemed an efficient auxiliary in managing the prisons and reforming their inmates. I am more than satisfied with the results of my labors in this department of my duties, and with the marked improvement of all who have attended, and especially delighted with the signal success of some.

CAUSES OF CRIME.

Without moralizing upon the many influences that tend to draw our youths from the paths of rectitude, I must, to be just to myself and honest to the parents of the children of our commonwealth, say, that

that after nearly five years experience and close observation, I come to this conclusion: the want of proper home influence in childhood. I mean by that those who never had a home; those who lost parents, one or both while young. Those whose homes were dens of vice. Those who ran away from home at the time when their characters were being formed, and those who were over-indulged in their homes. The early training of children to habits of industry, economy and virtue, is almost left to chance. The making of home agreeable, and its surroundings calculated to inspire the boy with an attachment for it, seldom enters the serious consideration of many parents, and the result is the absence of the boy from home, wandering from its sacred threshold at night; falling into bad company, and drifting into the haunts of intemperance and vice; and finally to the penitentiary.

DISCHARGED PRISONERS.

I most earnestly call your attention to the unenviable situation of the large number of men discharged from this prison each year—without friends, or means, or influence; what is to be come of them? what are they to do? and how are they to be employed? Many of the other States have prison aid associations, and are thus doing excellent work in finding employment for their discharged prisoners; we must, if we would save ours. I have been indefatigable in my efforts to find employment for discharged prisoners and to urge the philanthropic people of the State to extend to these men the hand of charity and the encouraging motives of confidence, and I rejoice to say that my efforts have not been in vain, for we found good homes for upward of four hundred. But for many I have been unable to accomplish what their merits and exemplary conduct here would justly entitle them at the hands of a charitable and Christian people.

ENCOURAGING INFLUENCES.

I have been greatly encouraged and sustained in my work by the unselfish devotion and unceasing vigilance of yourself, your deputy and others; the excellent sanitary condition which the prison is in at all times—the good wholesome food furnished in abundance—the cleanliness of person and clothing, the homelike and cheerfulness of the prison yard—the lights and reading privileges of each evening—

the Holy Bible furnished for and kept by each prisoner who may desire it in his cell—the facility furnished our organist by which she can be present at all our religious meetings, for all of which, please accept thanks.

Yours very respectfully,

W. C. GUNN,

Chaplain and Teacher.

PHYSICIAN'S REPORT.

HOSPITAL, IOWA STATE PENITENTIARY, }
FORT MADISON, July 1, 1883. }

To E. C. McMILLAN, *Warden*:

In presenting to you my tabulated report for the twenty-one months commencing Oct. 21, 1881, and ending June 30, 1883, I have not much to add. It will speak for itself.

The responsible duties connected with the surgeons'hip of this institution have been made very pleasant to me by the co-operation of you and your officers, and also by the contractors, to promote and keep the physical health of the convicts.

They are supplied with an abundance of clean and healthy food, of great variety; all needed medicines, instruments and appliances are furnished them, and strict attention is given to cleanliness and hygiene.

The result is most flattering, and a credit to the institution and its manager.

Only three deaths have occurred during the twenty-one months. One (Murry) died of consumption and bleeding from the lungs; the second, a life convict (Fetter) after thirteen years imprisonment, died also of consumption; and the third came here sick and broken down, and died after one month's imprisonment, of pneumonia.

The tables will show the comparative short duration of diseases in comparison with the same outside of the prison, and also will show that by an average number of 376 convicts during the 21 months, only one and seven tenths per cent were disabled from work by disease, and these, too, including the large number of wounded and injured by machinery and otherwise.

Sir, I congratulate you on this splendid result, and beg you will ac-

cept my thanks for the good will and kindness you have shown me, and the aid you have rendered me in the performance of my duties.

Very respectfully,

AUG. W. HOFFMEISTER,

Physician and Surgeon to Iowa State Penitentiary.
