The undersigned cannot close this Report without renewing the suggestion made in the Report to the 10th General Assembly, in reference to the importance of the collection of the Criminal Statistics of our State.

An extraordinary effort was made to induce the Clerks of the District Court in the several counties, to make the Report contemplated in Section 349 of the Code, but failed to bring out a full Report. It seems to me that this matter is of so much importance that it demands the special attention of the General Assembly. Would it not be wise to refer this matter to the several District Attorneys, requiring them to collect all facts appertaining to criminal prosecutions, and present them to the Attorney General, to be by him properly collated and reported to the General Assembly. This seems to me to be the natural way in which to collect and report all facts connected with Criminal Prosecutions.

Respectfully submitted.

JAMES WRIGHT,
Secretary of State.
