WARDEN'S REPORT.

OFFICE OF THE WARDEN OF THE
PENITENTIARY OF THE STATE,
Fort Madison, Iowa, June 30, 1885. }

To his Excellency, BUREN R. SHERMAN, Governor of Iowa:

DEAR SIR—I have the honor to herewith submit my report of this Institution for the biennial period, from July 1, 1883 to June 30, 1885, inclusive. That portion of this report covering the time intervening between the date of my predecessor's last report and the date of my taking charge being made up from the books and records of the Institution turned over to me by him.

I took charge of the Penitentiary April 1, 1884, and receipted to my predecessor, Hon. E. C. McMillan, for the convicts then in confinement, and the property belonging to the State as shown by inventory hereto annexed, and appointed the following officers: J. Townsend, Deputy Warden; J. G. Berstler, Clerk, Dr. A. W. Hoffmeister, Physician, and Rev. W. C. Gunn, Chaplain, all of whom are still with me. These gentlemen have discharged the duties of their respective offices in the most satisfactory manner, and I call your attention to their very full and complete report to me herewith submitted. In the appointment of guards I have exercised great care in the selection of men possessing the requisite qualifications of intelligence, good judgment, unflinching courage and good physical ability, combined with power of self-control, and a keen sense of justice and humanity that will at times secure fair and just treatment of the prisoners placed under their charge, and at the same time keep them under their discipline. The statistical and financial tables carefully prepared by my clerk and deputy, together with the report of Dr. Hoffmeister, and Chaplain Gunn, constitute an exhibit of the operations of the Iowa Penitentiary for the past two years. In the discharge of my duty as Warden, I have given close attention to every department of the prison.

In the matter of purchase of supplies I have taken the advantage of the market, and have bought at the lowest cash prices, and the fact that I have always had the money to pay for every thing at the time of purchase, together with the prevailing low prices on almost every article consumed in the prison has enabled me to make a financial showing that upon comparison will be found to be the best in the history of the Iowa Penitentiary, while the supply of food, clothing, bedding and all other articles necessary for the use of the convicts has been abundant and of uniform good quality, and while the food supply has been increased by the addition of articles never before included in the bill of fare for daily consumption, still a reference to the financial exhibit shows the following gratifying results:

Expense of general support.....	\$ 69,935.53
Paid into State treasury.....	18,479.14
Balance on hand—note, \$11,624.51; cash, \$880.58	12,505.09
Total.....	\$ 100,919.76

As the contractors give their notes each month for the convict labor of the pending month, which notes have three months to run without interest, there is due from contractors in addition to the above, showing for the month of June, 1885, the following amount:

Huiskamp Brothers.....	\$ 1,098.90
Iowa Farming Tool Co.....	1,552.50
Fort Madison Chair Co.....	1,231.65
Total.....	\$ 3,883.05

Making a total amount of \$16,388.13 available, and to become available in the near future for general support. There is also on hand provisions and other supplies paid for out of support fund, the cash value of which is \$3,811.59.

By reference to chapter 141, Laws of the Twentieth General Assembly it will be seen that the following appropriations were made for the use of this Institution:

To complete steam-heating apparatus	\$ 3,000.00
To transport convicts and furniture for Warden's house.....	2,200.00
To contingent fund and repairs.....	5,000.00
To procure iron bed-steads	1,500.00
To purchase porcelain-lined cell-buckets.....	375.00
Total.....	\$ 12,075.00

Of the foregoing appropriations there has been expended the following amounts:

To complete steam-heating, the sum of.....	\$ 2,341.18
For transportation of convicts.....	1,014.39
For furniture.....	205.72
For repairs	2,004.38
For iron bed-steads.....	1,392.75
For porcelain-lined cell-buckets	300.00
Total	\$ 7,258.42

The unexpended balance of the funds for transportation of convicts and repairs will all be needed before appropriations for the coming biennial period will be available. A portion of the unexpended balance for the completion of steam-heating will also be needed, while the amount expended for iron bed-steads and cell-buckets was sufficient for those purposes. Many needed repairs were being made at the close of the biennial period, and the demands upon this fund are constant, hence the amount unexpended does not represent a surplus, as the entire fund will have been exhausted in much needed repairs during the coming fall and winter. In asking for an increase in the appropriation for repair fund I wish to call attention to the fact that most of the buildings in the Penitentiary are old, and repairs which will become absolutely necessary within the next two years will require the full amount of my estimate for this purpose. The expenditure of funds as above shown have been strictly for the purposes for which they were appropriated. There was also appropriated by the last General Assembly the sum of two thousand dollars to the Iowa Prisoner's Aid Association, one thousand (\$1,000.00) dollars of the appropriation to be placed in the hands of each of the wardens of the penitentiaries of the State, to be paid out by them on the order of the president and secretary of said Association, the wardens to keep vouchers for the payment of the same. Of this sum I have drawn and paid out on the order of the president and secretary of said Association the sum of five hundred and eighty-five and fifty one-hundredths dollars (\$585.50).

In submitting my estimates for the necessary appropriations for this Institution for the biennial period ending June 30, 1887, I shall make no estimate for permanent improvements except for putting in an electric plant similar to that now in use at the Anamosa Penitentiary, which is a much needed improvement both as a measure of

economy and safety. The old gas works so long in use in the prison are located so near the other buildings as to greatly increase the hazard from fire, and the risk from explosion is also great. The gas receiver is so old and worn that it cannot longer be repaired so as to make it safe, and its capacity is not sufficient for properly lighting the prison. If we were to continue the manufacture of gas in the prison an appropriation to rebuild the retort stand, construct a new receiver and repair the old works would be necessary, and the amount sufficient for this purpose would go far toward putting in the electric plant. I most earnestly urge the appropriation for this purpose. In view of the fact that we have the necessary steam power used for heating purposes which could be utilized for the electric light, it would be cheaper than gas and much safer. I recommend the following appropriations for the use of this Institution:

For transportation of convicts.....	\$ 2,200.00
For contingent fund and repairs	7,500.00
For electric light plant.....	7,500.00
Total.....	\$ 17,200.00

The sanitary condition of the prison is excellent. The report of Dr. Hoffmeister, the prison physician, shows a very light mortality list and speaks well not only for the healthfulness of the prison but the skill and ability of its physician, whose salary is grossly inadequate to the service rendered and ought to be increased. The salaries of the clerk and guards are also in my judgment inadequate to the service they render to the State. The position of clerk is a very responsible one, requiring a skilled accountant, and the present salary is barely sufficient to enable him to support his family by the exercise of close economy. I have elsewhere in this report described the kind of man it takes to make a good prison guard. The men employed in that capacity in this prison are with very few exceptions men who have families and who are living in rented houses and it takes their entire salary to pay their rent and living expenses. Their pay ought to be sufficient to leave them something of a margin over an economical living in consideration of the fact that nearly all of them are past middle life and have heretofore done gallant service for their country on the battle-field. I have at all times fully sustained my excellent deputy in maintaining the strict discipline so necessary in an institution of this kind, and I am happy to be able to say that this

has been fully accomplished without the exercise of what could justly be called inhumanity in the infliction of punishment for the violation of prison rules, and the internal management of the prison may well be compared to that of a well regulated household. I found upon taking charge of this prison three contracts for prison labor on file in the Warden's office, entered into by my predecessor and the executive council on the part of the State, copies of which are given in the appendix to this report. It will be seen that these contracts have several years to run and my duty is to see that they are strictly complied with both on the part of the State and the contractors. When the General Assembly comes to consider the question, whatever information I can give in regard to the practical working of prison labor under these contracts will be most cheerfully given.

In conclusion, I wish to thank your excellency and all the members of the executive council for the cordial support given me in the discharge of my official duties.

Very respectfully,

G. W. CROSLY,

Warden.

APPENDIX.

CONTRACT FOR CONVICT LABOR.

SHOE CONTRACT.

By articles of agreement entered into this 22d day of November, A. D. 1881, between E. C. McMillan, Warden of the Iowa Penitentiary and in behalf of the State of Iowa, of the first part, and Henry C. Huiskamp and Herman J. Huiskamp, of Keokuk, Iowa, of the second part:

WHEREAS, certain proposals have heretofore been made by the party of the second part, for the convict labor hereinafter mentioned; which proposals have been accepted by the parties of the first part, for, and in the name of the State of Iowa. Now, therefore, it is agreed:

First—That the party of the first part doth hereby let and hire to the party of the second part for the term of eight and one half ($8\frac{1}{2}$) years from July 15, 1883, the labor and services of ninety (90) able bodied convicts now or hereafter to be confined in the Iowa State Penitentiary, at Fort Madison, Iowa, to be employed by said party of the second part, at the following trades and occupations, to-wit:

Manufacturing all kinds of boots, shoes, boot and shoe pacs, horse collars and saddlery goods. Nothing in this agreement shall prevent the Warden from employing a limited number of convicts in shoe making and tailoring for the use of the convicts.

Second—It is agreed by the party of the first part that for the use of said labor and storage of materials during the terms of this lease, the party of the second part shall use the following shops, which shall be kept in good repair by the State, to-wit: shop number ten

(10), number eleven (11), number twelve (12), number thirteen (13), and number fourteen (14).

Third—It is agreed and understood that for said labor the party of the second part shall pay at the rate of forty-five (45) cents per day for each convict.

Fourth—The said party of the second part, shall have the privilege of going to and from said shops, at all proper times to instruct the convicts in the manufacture of said articles, and take in and out materials and manufactured articles. Said party may also employ suitable persons to perform whatever is authorized to be done by this article, and generally to superintend the work under this contract. Said contractors and employes being whilst within the walls of said prison yard subject to all the rules and regulations now or hereafter established by the proper State authorities.

Fifth—The convicts so to be employed shall be able bodied men, by which term is meant those who are capable of performing a reasonable day's work, and in case of any disagreement between the party of the second part and the Warden of the Penitentiary in regard to the physical ability of any convict, the same shall be conclusively determined by the physician of the Penitentiary.

Sixth—The convicts shall be guarded and kept in good discipline at the expense of the State; but the State of Iowa shall in no case be liable to the party of the second part for any loss by fire or other casualties.

Seventh—It is further agreed that the shops shall be properly warmed by the party of the first part, and the fixtures thereof shall be made reasonably secure against fire.

Eighth—The party of the first part further agrees to furnish the party of the second part with sufficient water for the use of this contract. The party of the first part further agrees to furnish five lumpers or runners, for the purpose of cleaning shops, making and taking care of fires, bringing water and performing the necessary running for this contract; and it is hereby agreed that when said lumpers are not engaged in discharging the above mentioned duties they shall be subject to the order of the party of the second part.

Ninth—In estimating the per diem as aforesaid to be paid for each convict, the usual term for estimating a day's work, to-wit: ten hours average through the year shall be computed.

Tenth—It is further agreed that after the Warden shall have selected such number of the convicts as he may deem necessary for

cooking, cleaning, sanitary and other purposes pertaining to the care of the prison, and also for shoemaking and tailoring as specified in articles, the remaining convicts shall be apportioned by the Warden among the contractors according to the number to which each is entitled, reference being had to the skill and value of convicts in the several trades carried on by the different contractors. The State shall not be liable for any deficit under this contract, provided the State shall not transfer convicts to the Additional Penitentiary so as to diminish the number actually employed under this contract below the maximum at the time of such transfer.

Eleventh—If at any time the convicts assigned to the party of the second part within the number hereinbefore specified shall remain idle for the want of any materials or tools, or for any fault of the party of the second part, the party of the second part shall still be liable to pay said sum of (45) forty-five cents per day for each convict so employed.

Twelfth—No charge is to be made for such time as a convict may be employed in learning to read and write, or when he does not from sickness or other causes beyond the control of said party of the second part, perform his ordinary labors.

Thirteenth—In the case of loss of the shops hereinbefore specified, or material damaged to the same by fire or other casualty, by reason of which they cannot be occupied, then the party of the second part shall not be liable to pay for any labor of the convicts during the time for which the State shall not furnish other or rebuild said shops, nor shall the State of Iowa be liable for any damages for such unemployed labor until such shops can, within reasonable diligence, be rebuilt.

Fourteenth—It is further agreed that the State of Iowa shall not carry on any of the trades hereinbefore specified within the walls of said prison, nor contract or lease convict labor for the same during the continuance of this lease, without the consent of the party of the second part.

Fifteenth—All machinery, tools and implements are to be furnished by the party of the second part for the use of the hands employed on this contract.

Sixteenth—All manufactured articles shall be removed from the shops as soon as practicable when finished, and no article shall be stored in the shop in a partial or unfinished condition an unreasonable length of time. The Warden shall have full power to remove, at

the expense of the party of the second part, all articles stored or kept in the shops in violation of this provision, and also all shavings or other rubbish that will endanger the safety of the buildings.

Seventeenth—The time of the convicts herein leased shall be kept by the Warden of the prison or his deputy, and his books shall be presumptive evidence of the correctness thereof; and in written statement shall be given to the party of the second part, or his foreman, each day.

Eighteenth—The party of the second part shall account to the Warden of the Penitentiary on the first Monday in each month for the labor of the convicts under this contract for the preceding month, and shall execute his promissory note for the amount due which shall be made payable to the State of Iowa, and the sureties shall be liable on their bond for the amount of said note or notes, as upon an original undertaking by them and each of them. Said notes shall be payable three months after date, and bear interest at the rate of six per cent per annum after maturity.

Nineteenth—It is further agreed that in case the party of the second part shall refuse to make settlement as aforesaid, or in case any note or notes given for convict labor as aforesaid shall remain unpaid thirty days after the same shall become due, then the party of the second part shall, at the option of the party of the first part, forfeit all rights and privileges under this agreement, and the State may resume absolute control over the labor of said convicts, and re-let the same as though this contract had not been executed.

Twentieth—It is further agreed that no tinkering shall be permitted in the shops by officers, foremen or convicts, nor shall any material or tools be carried from the shops to convicts' cells for said purpose.

Twenty-first—It is further agreed that the party of the second part shall have assigned to them so far as practicable, convicts skilled in the work to be done under this contract, and no convict shall be assigned to this contract whose term of servitude shall be less than one year when so assigned. No convict shall be transferred from this contract to another without the consent of the Warden and the contractors, except as provided in article ten (10).

Twenty-second—It is further agreed that this contract shall not be assigned by said party of the second part without the consent of the Warden, with the approval of the Executive Council.

Twenty-third—It is further agreed that this contract may be ter-

minated at the option of the said party of the second part by giving five months notice thereof in writing to said Warden and the Executive Council; *Provided*, that such termination shall take effect only on payment of all sums and amounts due from the party of the second part, by virtue of this contract.

In witness whereof, the said parties have hereunto set their hands, this 26th day of November, 1881.

I, J. A. T. Hull, Secretary of State, of the State of Iowa, hereby certify that the papers hereto attached, contain a true copy of contract by and between the State of Iowa and Herman J. Huiskamp and Henry C. Huiskamp, entered into on the 26th day of November, 1881, as shown by the original contract on file in this office.

In testimony whereof I have hereunto set my hand and affixed the Great Seal of the State of Iowa. Done at Des Moines this 28th day of March, A. D. 1883.

J. A. T. HULL,

Secretary of State.

CONTRACT WITH THE IOWA FARMING TOOL CO.

By articles of agreement entered into this twenty-fourth day of July, 1880, between E. C. McMillan, Warden of the Iowa Penitentiary at Fort Madison, Iowa, and acting for the State of Iowa of the first part, and the Iowa Farming Tool Company at Fort Madison, Iowa, party of the second part.

WHEREAS, Certain proposals have been made by the party of the second part for the convict labor hereinafter mentioned, which proposals have been accepted by the party of the first part for and in the name of the State of Iowa; now, therefore, be it agreed:

First—That the party of the first part doth hereby let and hire to the party of the second part for the term of ten years from the first day of April, 1881, the labor and services of (75) seventy-five convicts. Also for the term of nine years and six months from the first day of April, 1881, the labor and services of (40) forty additional convicts, all of said (115) one hundred and fifteen convicts now or hereafter to be confined in the Iowa Penitentiary at Fort Madison, Iowa (if so many there may be under the specifications hereafter contained), to be employed by said party of the second part in manufacturing agricultural implements.

Second—It is agreed by the party of the first part that for the use of said labor during the term of this lease or any part thereof, the party of the second part shall use the following shops now situated in said prison yard, viz.: Shops numbers (3) three, (4) four, (5) five, (6) six, (7) seven, (8) eight, and (9) nine, together with the yard room and fixtures thereon standing north of same (except the eastern division of the west dry kiln) also the north ($\frac{3}{4}$) three fourths of cellar under shop number (1) one, also grounds outside of prison walls, commencing at the southeast corner of prison land (corner of Fourth and Olive streets) running east (100) one hundred feet, thence north (300) three hundred feet, thence west (100) one hundred feet, thence south (300) three hundred feet, to place of beginning.

It is further agreed and understood that for said labor the party of

the second part shall pay at the rate of (50) fifty cents per day until the expiration of this contract for each convict actually employed.

Third—The party of the first part further agrees that the said Iowa Farming Tool Company shall have the privilege of going to and from said shops at all times to instruct said convicts in the manufacture of said articles, and carry in and out all materials and manufactured articles, or they may employ to do the same such person or persons as the Warden of the Penitentiary may approve, said contractors and employes being, whilst within the walls of said prison yard, subject to all the rules and regulations now or hereafter established by the proper State authorities.

Fourth—It is further agreed that the party of the second part shall have assigned it as far as practicable convicts skilled in the work to be done under this contract, and shall not be bound to take under this contract any convict whose term of service is less than one year from the time he is assigned, and no convict shall be transferred from this contract to another without the assent of the Warden and contractor.

Fifth—The convicts so to be employed shall be men who are capable of performing a reasonable day's work. In case of any disagreement between the Warden of the Penitentiary and the party of the second part in regard to the physical ability of any convict, the same shall be conclusively determined by the physician of the Penitentiary.

Sixth—The convicts shall be guarded and kept in good discipline at the expense of the State, but the State of Iowa shall in no case be liable to the party of the second part for any loss by fire or other casualties.

Seventh—It is further agreed that the party of the first part shall furnish water for shops and for the use of this contract, also several runners, whose duty it shall be to build fires, clean shops, and do the necessary running for this contract, and when not engaged in necessary shop duties shall be subject to the control of the contractors.

Eighth—It is further agreed that said shops shall be warmed at the expense of the party of the first part, and the fixtures for heating said shops shall be made reasonably secure against fire.

Ninth—In estimating the per diem as aforesaid to be paid for each convict, the usual time for estimating a day's work, viz.: (10) ten hours average through the year shall be computed.

Tenth—It is further agreed that if at any time the number of prisoners in the Penitentiary shall not be sufficient to supply the full number specified on this and other prison accounts now or hereafter let by authority of the State—also cooking, cleaning, and other necessary matters which in the judgment of the Warden it may be for the interest of the State to employ them—the number of able-bodied convicts not so employed by the Warden shall be apportioned according to the number contracted to each contractor, reference also being had to the skill and value of convicts in the several trades carried on by the different contractors.

Eleventh—If at any time the convicts assigned to the party of the second part (within the number hereinbefore specified) shall remain idle for the want of any material or tools, or for any fault of the party of the second part, the party of the second part shall be liable to pay for the same as if same labor were employed.

Twelfth—No charge shall be made by the State for such time as a convict may be employed in learning to read or write, or does not, from sickness or other cause beyond the control of the party of the second part, perform his ordinary labor.

Thirteenth—In case of the loss of the shops hereinbefore specified, or material damage to the same by fire or other casualty, by reason of which they cannot be occupied, then the party of the second part shall not be liable to pay for any labor of the convicts during the time for which the State shall not furnish another or rebuild said shops. Nor shall the State of Iowa be liable for any damages for such unemployed labor until said shops can with reasonable diligence be rebuilt.

Fourteenth—It is further agreed that the State of Iowa shall not carry on any of the trades hereinbefore mentioned within the walls of said prison, or contract, nor lease convict labor for the same during the continuance of this lease without the consent of the party of the second part.

Fifteenth—All tools and implements are to be furnished by the party of the second part for the use of the hands so employed by them.

Sixteenth—All manufactured articles shall be removed from the shops soon as finished, and no articles shall be stored in the shops in a partial or unfinished condition an unreasonable length of time. The Warden shall have full power to remove, at the expense of the

party of the second part, all articles stored or kept in shops in violation of this provision, and also all shavings and other rubbish that will endanger the safety of the buildings.

Seventeenth—The time of the convicts herein leased shall be kept by the Warden of the prison or his deputy, and his books shall be presumptive evidence of the correctness thereof, and a written statement shall be given to the party of the second part, or their foreman, each day.

Eighteenth—The party of the second part shall account with the Warden of the Penitentiary on the second Monday of each month for the labor of the convicts under this contract for the preceding month, and shall execute their promissory note for the amount due, which shall be made payable to the State of Iowa, and the sureties shall be liable on their bond for the amount of said note or notes as upon an original undertaking by them and each of them. The said notes shall be payable three months after date, and bear interest at the rate of (6) six per cent per annum after maturity.

Nineteenth—It is further agreed that in case the party of the second part shall refuse to make settlement as aforesaid, or in case any note or notes given for convict labor as aforesaid shall remain unpaid after the same shall become due, and after specific written demand thereof, the party of the second part shall, at the election of the Executive Council of the State of Iowa, forfeit all rights and privileges under this agreement, and the State of Iowa shall have the right to resume absolute control over the labor of said convicts and re-let the same as though this contract had not been executed.

Twentieth—It is further agreed that no tinkering shall be permitted in the shops by officers, foremen or convicts, nor shall any material or tools be carried from the shops to the convict's cell for said purpose.

Twenty-first—It is further agreed that this contract shall not be assigned by said party of the second part without the consent of the Warden with the approval of the Executive Council.

Twenty-second—It is hereby agreed that this contract may be terminated at the option of said party of the second part by giving five months' notice thereof in writing to said Warden and the Executive Council, provided that such termination shall take effect only on payment of all sums and amounts due from the party of the second part by virtue of this contract.

In witness whereof the said parties have hereunto set their hands this twenty-fourth day of July, 1880.

GEORGE W. BEMIS.

CONTRACT WITH FORT MADISON CHAIR COMPANY, APRIL 2, 1880.

By articles of agreement entered into this 12th day of April A. D. 1880, between E. C. McMillan, Warden of the Iowa Penitentiary at Ft. Madison, Iowa, and acting for the State of Iowa, party of the first part, and the Fort Madison Chair Company of Fort Madison, Iowa, party of the second part.

WHEREAS, Certain proposals have been made by the party of the second part for the convict labor hereinafter mentioned, which proposals have been accepted by the party of the first part for and in the name of the State of Iowa; now, therefore, be it agreed:

First—That the party of the first part doth hereby let and hire to the party of the second part for the term of nine years from the first day of May, 1880, the labor and service of fifty convicts; also, for the term of ten years from the first day of May, 1880, the labor and services of fifty additional convicts, all of said one hundred convicts now or hereafter to be confined in the Iowa State Penitentiary at Fort Madison, Iowa (if so many there may be under the specifications hereinafter contained), to be employed by said party of the second part, at the following trades and occupations, viz.: manufacturing chair furniture and coffins.

Second—It is agreed by the party of the first part, that for the use of labor during the term of this lease or any part thereof, the party of the second part shall use the following shops, now situated in said prison yard, viz.: numbers one, two, sixteen and fifteen, the latter containing two rooms and the addition to the south end of shop num-

ber fifteen, formerly used as a cook room. All the ground to the width of twelve feet on the west side of shop number one, at present occupied by the said Fort Madison Chair Company, and containing two dry-kilns and boiler house, built and owned by them. The east half of the west dry-kiln situated north of shop number seven, one-quarter of cellar under shop number one, at south end of same, and now partly occupied by the party of the second part for foundations to engine, etc. About twenty-eight hundred square feet of the cellar under shop number fifteen, commencing at the north wall of the cellar and extending the full width of the cellar to the south wall (the already existing division wall) and grounds outside the prison walls, commencing sixty feet north of the northeast corner of the grounds, leased to the Iowa Farming Tool Company, running east one hundred feet, north one hundred and thirty feet, thence west one hundred feet, thence south one hundred and thirty-five feet to place of beginning.

It is further agreed and understood that for said labor the party of the second part shall pay at the rate of forty-three (43) cents per day until October first (Oct. 1st), 1882, and at the rate of forty-five (45) cents per day after October 1, 1882, until the expiration of this contract for each convict actually employed.

Third—The party of the first part further agrees that the said Fort Madison Chair Company shall have the privilege of going to and from said shops at all times to instruct said convicts in said trades, and carry in and out all materials and manufactured articles; or they may employ to do the same such person or persons as the Warden of the Penitentiary may approve; said contractors and employes being, whilst within the walls of said prison yard, subject to all the rules and regulations now or hereafter established by the proper State authorities.

Fourth—It is further agreed that the party of the second part shall have assigned to it, as far as practicable, convicts skilled in the work to be done under this contract, and no convict whose term of service is less than one year shall be assigned on this contract.

Fifth—The convicts so to be employed shall be men who are capable of performing a reasonable day's work. In case of any disagreement between the Warden of the Penitentiary and the party of the second part in regard to the physical ability of any convict, the same shall be conclusively determined by the physician of the Penitentiary.

Sixth—The convicts shall be guarded and kept in good discipline at the expense of the State, but the State of Iowa shall in no case be responsible to the party of the second part for any loss by fire or other casualties.

Seventh—It is further agreed that the party of the first part shall furnish water for shops and for the use of this contract; also, six runners, whose duty it shall be to build fires, clean shops, and do the necessary running for this contract, and when not engaged in necessary shop duties shall be subject to the control of the contractors.

Eighth—It is further agreed that said shops shall be warmed at the expense of the party of the first part, and the fixtures for heating said shops shall be made reasonably secure as to fire.

Ninth—In estimating the per diem as aforesaid to be paid for each convict, the usual time for estimating a day's work, viz.: ten hours average through the year shall be computed.

Tenth—It is further agreed that if at any time the number of prisoners in the Penitentiary should not be sufficient to supply the full number specified on this and other prison contracts now or hereafter let by authority of the State; also, cooking, cleaning, and other matters necessary, which, in the judgment of the Warden it may be for the interest of the State to employ them—the number of able-bodied convicts not so employed by the Warden shall be apportioned according to the number contracted to each contractor, reference also being had to the skill and value of convicts in the several trades carried on by the different contractors.

Eleventh—If at any time the convicts assigned to the party of the second part (within the number hereinbefore specified) shall remain idle for the want of any material or tools, or for any fault of the party of the second part, the party of the second part shall be liable to pay for the same as if said labor were employed.

Twelfth—No charge shall be made by the State for such time as a convict may be employed in learning to read and write, or does not, from sickness or other cause beyond the control of the party of the second part, perform his ordinary labor.

Thirteenth—In case of the loss of the shops hereinbefore specified; or material damage to the same by fire or other casualty, by reason of which they cannot be occupied, then the party of the second part shall not be liable to pay for any labor of the convicts during the time for which the State shall not furnish another or rebuild said shops. Nor shall the State of Iowa be liable for any damages for

such unemployed labor until said shops can with reasonable diligence be rebuilt.

Fourteenth—It is further agreed that the State of Iowa shall not carry on any of the trades hereinbefore mentioned within the walls of said prison on contract, nor lease convict labor for the same during the continuance of this lease without the consent of the party of the second part.

Fifteenth—All tools and implements are to be furnished by the party of the second part for the use of the hands so employed by them.

Sixteenth—All manufactured articles shall be removed from the shops as soon as finished, and no articles shall be stored in the shops in a partial or unfinished condition an unreasonable length of time. The Warden shall have full power to remove, at the expense of the party of the second part, all articles stored or kept in shops in violation of this provision, and also all shavings and other rubbish that will endanger the safety of the buildings.

Seventeenth—The time of the convicts herein leased shall be kept by the Warden of the prison or his deputy, and his books shall be presumptive evidence of the correctness thereof, and a written statement shall be given to the party of the second part or their foreman each day.

Eighteenth—The party of the second part shall account with the Warden of the Penitentiary on the second Monday of each month for the labor of the convicts under this contract for the preceding month, and shall execute their promissory note for the amount due, which shall be made payable to the State of Iowa, and the sureties shall be liable on their bonds for the amount of said note or notes as upon an original undertaking by them and each of them. The said notes shall be payable three months after date and bear interest at the rate of six per cent per annum at maturity.

Nineteenth—It is further agreed that in case the party of the second part shall refuse to make settlement as aforesaid, or in case any note or notes given for convict labor as aforesaid shall remain unpaid after the same shall become due, and after specific written demand thereof, the party of the second part shall, at the election of the Executive Council of the State of Iowa, forfeit all rights and privileges under this agreement, and the State of Iowa shall have the right to resume absolute control over the labor of said convicts, and re-let the same as though this contract had not been executed.

Twentieth—It is further agreed that no tinkering shall be permitted in the shops by officers, foremen, or convicts, nor shall any material or tool be carried from the shop to the convict's cell for said purpose.

Twenty-first—It is further agreed that this contract shall not be assigned by said party of the second part without the consent of the Warden with the approval of the Executive Council.

Twenty-second—It is hereby agreed that when this contract is signed by the Warden and approved by the Executive Council, all prior contracts with said Fort Madison Chair Co. shall be void and of no effect.

In witness whereof the said parties have hereunto set their hands this 12th day of April, A. D. 1880.

E. C. McMILLAN, *Warden.*

FORT MADISON CHAIR CO.,

BY JOSIAH A. SMITH, *President.*

J. M. JOHNSON, *Vice-President.*

W. E. HARRISON, *Superintendent.*

JOHN H. KINSLEY, *Secretary.*

The above contract to take effect on the — day of May, A. D. 1880, is approved and confirmed by the Executive Council this twenty-first day of April, 1880.

JOHN H. GEAR.

J. A. T. HULL, *Secretary of State.*

COPY OF ADDITIONAL CONTRACT FORT MADISON CHAIR COMPANY, NOVEMBER 2, 1878.

It is hereby understood and agreed by and between E. C. McMILLAN, Warden of the Iowa Penitentiary at Fort Madison, Iowa, and acting for the State of Iowa, party of the first part, and the Fort Madison Chair Co., of Fort Madison, Iowa, party of the second part, as follows, viz.:

First—The State of Iowa hereby lets and hires to the party of the second part the labor and services of twenty (20) able-bodied convicts, now or hereafter confined in the Penitentiary at Fort Madison, Iowa, in addition to the convicts already contracted for, making ninety-five (95) in all.

Second—The rate per day (of 10 hours) per man, and time and terms of payment for same shall be the same as under the already existing contract between the above parties and all its stipulations, provisions and conditions, shall apply to this contract, except in so far as they are herein modified.

Third—The party of the second part hereby agrees to resign their rights to shop number eleven (11) which they possess under the already existing contract so soon as the State shall give them in lieu thereof, on this contract, an equal number of superficial feet on the floor of the room now used as a dining-room.

Fourth—The State hereby agrees to furnish to the party of the second part the remainder of the present dining-room not mentioned above and in addition thereto the rooms now used as kitchens; also, about 2,800 square feet of the cellar room below, commencing at the north wall of the cellar and extending the full width of the room; south wall, to the already existing division wall.

Fifth—The State hereby agrees to furnish one (1) lumper free of charge on this contract.

Sixth—This contract shall be in force so soon as the State shall occupy the new dining-room now in process of erection. And it shall expire four (4) years from the first day of October, 1878.

E. C. McMILLAN, *Warden*.

FORT MADISON CHAIR CO.

J. M. JOHNSON, *Superintendent*.

W. E. HARRISON, *Secretary*.

JOSIAH A. SMITH, *President*.

2 stone China chamber sets.....	Old.
2 spring mattresses.....	Old.
4 wire mattresses.....	Good.
3 husk mattresses.....	Old.
2 wool mattresses.....	Good.
1 hard coal burner.....	Old.

DEPUTY WARDEN'S REPORT.

HON. G. W. CROSLY, *Warden Iowa Penitentiary:*

DEAR SIR—I herewith respectfully submit the following prison statistics compiled from the records in my office, viz.: Table No. 1, abstract from convict register giving names, age, nativity, county where convicted and for what crime, date of conviction and term of sentence of all convicts confined in the Iowa Penitentiary at the close of the biennial period.

Table No. 2, statement showing the number of commitments and discharges for the biennial period, with statement of habits, religious education, occupation, etc., before conviction.

Table No. 3, statement showing the number of convicts serving life sentences in confinement at the close of the biennial period.

Table No. 4, statement showing total daily average work done on contract and in the different departments of the Iowa Penitentiary for the biennial period.

LABOR OF PRISONERS.

The Iowa Farming Tool Co. contract for one hundred and fifteen (115) men who are employed in manufacturing farming implements, principally pitch forks, rakes, hoes, etc.

The Fort Madison Chair Co. contract for one hundred (100) men, employed in manufacturing wood and cane seated chairs.

Huiskamp Brothers have the shoe contract, and contract for ninety (90) men, employed solely in manufacturing boots and shoes, thus making the total number of men contracted for three hundred and five (305). In addition the State furnishes the different contracts eighteen (18) men employed as runners or lumpers, to do all necessary errands of the different work shops. Seven (7) are employed on the tool, six (6) on the chair, and five (5) on the shoe contract, making the whole number employed on contract work three hundred and twenty-one (321). The remaining number are employed in the various departments on State work, as shown in Table No. 4 accompanying this report.

DISCIPLINE.

The enforcement of prison discipline is one of the most difficult as it is obviously the most important duty of my office. To put into practical operation a mode of discipline based upon human principles and to trust with impartial fairness men who differ so greatly in mental, moral and physical capacity; to use firmness instead of severity and patience instead of passion, requires a high degree of self-control on the part of the officer intrusted with this duty. The changes in the rules of discipline inaugurated and sanctioned by you have made their enforcement more easy and pleasant for me and more effective with the prisoners. Willing obedience and general good conduct is the record of a large majority of the prisoners, while aggravated violations of the rules are of rare occurrence. As a very important factor contributing to this excellent state of discipline I call your attention to the intelligence, faithfulness and fidelity with which the guards and employes have discharged their duties.

In conclusion I wish to thank you for the confidence you have reposed in me, and for the able assistance and cordial support you have given me in the discharge of my duty.

Very respectfully yours,

J. TOWNSEND,

Deputy Warden.

TABLE No. 1.

REGISTER OF CONVICTS IN PRISON JUNE 30, 1885.

NAME.	Age.	WHERE BORN.	COUNTY SENT FROM.	CRIME.	WHEN COMMITTED.	Years.	Months.	Days.

PHYSICIAN'S REPORT.

HOSPITAL IOWA STATE PENITENTIARY, }
FORT MADISON, July 1, 1885. }

COL. G. W. CROSLLEY, *Warden*:

SIR—In submitting to you my biennial report I can not do better than refer you to the accompanying tables. They show the number of cases of disease and injuries for each and every month; also the number of days' labor lost thereby, or in other words the number of days the prisoners were disabled through sickness or injury from their usual day's work.

It should be taken into consideration that many men committed to the Penitentiary come there broken down in mind and body through a previous life of vice and crime, and also that a great number of the prisoners are disinclined to work and would shirk work by any means. It is easily to be seen that such will try the sick dodge. It is more easy to treat disease when diagnosed than it is to always diagnose a real disease from a pretended one, or to decide whether a man is sick or only pretending, and the ways and means of disciplin are many. As long as I am in doubt I give him the benefit of the doubt, which is the reason that you find so many cases under the head of unclassified. Under this head also comes other cases that can not be called strictly disease or injuries. For example, a man has worked true and faithfully for a long time at one kind of work, he gets worn out and needs a few days rest; nobody will relieve

him of his work unless it is so recommended by the physician. Such men I always cheerfully grant the required rest. Such cases, and others similar, help to swell the number of "unsuccessful" cases. Were it not for these and the former reasons the unclassified would be reduced one-half or most likely two-thirds, and with it the total number would be reduced. Notwithstanding all these unfavorable conditions, the tables make a good showing in respect to the health of nearly four hundred prisoners, kept here in close confinement as good, and I think much better than the average of any four hundred workingmen outside of the prison, and speaks more than words can for the good management of this Institution. In the year ending June 30, 1884, there were 950 different cases of disease and injury, with 2,740 days labor lost thereby, and a daily average of 387 prisoners, or a daily average of 2 60.100 new cases, with 7 40.100 days labor lost by 387 men, or 67.100 per cent new cases, and 1 67.100 per cent daily labor lost. Subtracting the 161 cases of wounds and injuries and the 619 days lost, we have only 2 16.100 daily new cases, or 55.100 per cent (a little more than one-half of one per cent), and 5 78.100 or 1 47.100 per cent days labor lost. During the year ending June 30, 1885, we had 686 different cases of sickness, wounds and injuries, with 2,125 days lost, and a daily average of 397 prisoners, or a daily average of 1 89.100 new cases, with 5 79.100 days lost, or 48.100 per cent new cases, and 1 46.100 per cent days lost. Subtracting the 143 cases of wounds and injuries, and the 530 days lost, we have only 543 cases of sick, with 1,595 days lost, or a daily average of 1 89.100 cases, and 4 36.100 days lost, or 38.100 per cent cases of sickness and 1 10.100 per cent days lost. There is no chronic case of diarrhœa, dysentery, malaria, or rheumatism, though the list shows that we had our share of the above named diseases in the acute form. We have sent, during the two years included in this report, eleven (11) prisoners as insane, to the asylum, as the penitentiary is certainly no place for such unfortunates. Seemingly this is a large number, but in fact only a yearly per centage of 1 40.100, and taking into consideration that many prisons come here with imperfect mental developments or mentally depressed and broken down with remorse, one can only wonder the percentage is not greater. The following is the list of deaths occurring during the period:

1. W. Martin, age 22 years, formerly a laborer, committed November 7th, 1881, died June 2, 1884, of consumption.

2. Wm. Maurice, age 34 years, stone cutter, committed December 18, 1883, died June 21, 1884, of consumption.

3. Fred Uhlin, age 17 years, farmer; committed January 30th, 1884, died October 21, 1884, of pluro-pneumonia, and hydrops pericardium.

4. Frank Cooper, (colored) age 27 years, hotel waiter, committed December 10th, 1883, died April 22, 1885, of miliary tubercles and thrombus of heart and aorta.

5. Wm. Wilson, age 43 years, farmer, committed January 31, 1882, died May 26, 1885, of consumption.

Showing a death rate for the year ending June 30, 1884, of 5 2.10 per 1,000; and for the year ending June 30th, 1885, of 7 55.100 per 1,000.

The above statistics show plainly that the dictetic and hygienic conditions are necessarily good. During the last year many improvements have been made, the greatest and most important, I consider the removal, on the 26th day of July, 1884, of the hospital out of a damp, badly ventilated and insufficient room, into a spacious, light, airy and well-ventilated one adjoining the chapel. Other numerous improvements in drainage and sewerage with the usual vigilance in in the strictest cleanliness in shops, yard and cell room; the erection of bath rooms, healthy, nourishing, perfectly cooked and clean food have already shown their good work in reducing the sick rate of the last year by 19.100 per cent compared with the previous year, and leaving us well prepared to meet any epidemic, should such visit this vicinity or prison.

The hospital department is well supplied with all needed medicines of the best quality, and the sick are well provided with everything their care and comfort needs, and above their needs your esteemed lady has personally administered delicacies to the suffering and whispered words of encouragement in their ears that made them forget their suffering for the time being.

Now, sir, let me thank you for the good will and for the confidence you have shown me under all circumstances, and for the promptness you have attended to my requisitions and suggestions. My duties require much patience and judgment and are attended with great responsibility, more so here than in private practice, and your confidence and the friendly feeling of your Deputy for me and the valuable aid I receive from him and your gentlemanly guards, on whose information I have so frequently to rely, encourage me, make my du-

ties more pleasant and help me forget that all the services of the physician and surgeon to the penitentiary are, financially rated, only worth \$50.00 per month.

Respectfully submitted by

AUG. W. HOFFMEISTER, M. D.,

Physician and Surgeon to Iowa State Penitentiary

CHAPLAIN'S REPORT.

HON. G. W. CROSLY, *Warden Iowa Penitentiary:*

DEAR SIR—In conformity with the statute, I herewith present you my fourth biennial report as Chaplain and Teacher. It was remarked by the late Dr. Wines, who was truly the prisoner's friend, "that of all reformatory agencies religion is the first in importance because it is the most powerful in its action upon the heart and life." In the spirit of the sentiment I have prosecuted my work, and with a good degree of success.

SABBATH SERVICES.

Each Sabbath morning immediately after breakfast, the chapel exercises have been held, in which all the prisoners are usually in attendance. Our regular service occupies about an hour, always followed by a prayer and conference meeting, lasting generally from twenty to thirty minutes. The question is frequently asked what effect, if any, have these services upon the attendants. As to the possibility of reformation there can be but one opinion in the light of christian civilization and experience. It is possible for any and every man to reform. The fact that a man is restrained by law of his liberties for a certain period of time is, as a rule, positive evidence that something is seriously wrong with him morally and that he needs reforming. But how is it to be done? Not by particular system of physical work, although there can be a relation between work and reform; neither can a man be reformed through his limbs, muscles or digestive organs. These cannot change the thoughts and desires of the heart; they cannot go to that secret place where rest the forces which build up the man and determine character. Reforming is transforming. It is making the bad thing good; it is the upbuilding of a man with

right thoughts and desires, until he is a man, just as food builds the depleted system. This upbuilding of lost manhood and debased conscience can not take place in my judgment outside of an honest and sincere acceptance and appropriation of the principles of the gospel of Christ. When thus appropriated the man becomes transformed. The law of the spirit of life in Christ Jesus will make him free from the law of sin and he will rise by a new and spiritual power into a new and contrasted life.

THE SABBATH SCHOOL.

The Sabbath School convenes at two o'clock P. M., Mr. E. A. Gibbs as superintendent, and Samuel Doyle assistant. They are both worthy christian men. We use the International lessons. The demand for teachers for so large a school is faithfully responded to by about twenty ladies and gentlemen from the city. The order, attention and interest manifested in the study of the lesson is especially gratifying to the teachers and profitable to the scholars. Mrs. W. C. Gunn is still our organist.

HOLIDAYS.

Each holiday is an oasis in prison life. The chapel on such days is beautifully and appropriately decorated by Mrs. G. W. Crosley. Suitable services are held; and last but not least a sumptuous feast provided for dinners.

THE BIBLE IN THE CELL.

The Bible with which each cell is furnished is by many regularly read, while some commit large portions of it to memory. Thus not a few of those who, when received, were to a great extent ignorant of the way of life and salvation, gain a more perfect knowledge.

PASTORAL LABORS.

I converse personally from cell to cell with every inmate weekly. In these visitations I find those possessing teachable dispositions, natural good sense, patience under sufferings, hearts easily softened by kindness, and an ardent desire after truth. Material in short capable of being wrought by properly directed efforts and under the divine blessing into the best form of Christian citizenship.

HOSPITAL.

With very few exceptions I visit the hospital daily, imparting words of comfort and cheer to the sick and afflicted. Lately we hold appropriate services each Sabbath morning.

DEATHS.

I have no sympathy with the law that permits a medical association to demand the body of persons who may die in such an institution as this, simply because their friends may live at too great a distance, or be too poor to claim the remains for burial. I am glad that the few who have died here received a Christian burial.

LIBRARY.

Our library is in good condition; it has lately been increased one thousand volumes, besides replacing the books already worn. It numbers at present three thousand two hundred and thirty-five volumes. A new catalogue of two thousand copies has recently been published. Books are distributed every week on Tuesdays and Saturdays. It is most gratifying to see the eager demand for them by the prisoners, especially books of religious, historical and scientific character. Of necessity a large amount of valuable information is thus disseminated, to say nothing of the many hours that otherwise would be almost unendurable, thus pleasantly and profitably passed away. Geographies, arithmetics, copy-books, readers, spelling-books, dictionaries, and grammars are furnished to all who desire and make proper use of them. Besides the books issued there are also admitted the weekly and daily newspapers and magazines, paid for by the prisoners or sent them by their friends. Thanks are due to many for papers and magazines sent, and especially to Rev. W. D. A. Matthews, of Onarga, Ill.

SCHOOL.

Ignorance enters largely into the list of factors leading to and producing criminality, hence the wisdom of our law makers is to be recommended in making the school so important a factor in their future reformation. I am more than satisfied with the results of my labors in this department of my duties and with the marked improvement of all who attend.

DISCHARGED PRISONERS.

I am most happy to say that the object for which I have so earnestly labored for more than six years has finally been accomplished. We have now a Prisoners' Aid Association regularly organized and at work. The Society, in due time, will make its own report.

SOURCES OF ENCOURAGEMENT.

First. A continual revival of religion.

Second. That all who leave this prison are not reformed. That re-convictions should occur we must expect and do expect. That the percentage of re-committants are very small is encouraging. That the few who return only give color to the misjudgment of the many who do so well.

Third. I have been greatly encouraged and sustained in my work by your own and your families' uniform attendance and assistance in the public worship, by the unselfish devotion and unnecessary vigilance by yourself, your deputy and others, the excellent sanitary conditions which the prison is in at all times, the good wholesome food furnished in abundance, the cleanliness of person and clothing, the homelike and cheerfulness of the prison yard, the lights and reading privileges of each evening, the holy bible furnished for and kept by each prisoner who may desire it in his cell, for all of which please accept thanks.

Yours very respectfully,

W. C. GUNN,
Chaplain and Teacher.
