Note—By provisions of Chapter 149, Laws of the Sixth General Assembly, the Auditor of State was given charge of the insurance business of the State, and from July 4, 1857, the date said act became effective, served as ex-officio Commissioner of Insurance, until July 1, 1914, when Chapter 146, Laws of the Thirty-fift General Assembly became effective, creating the office of Commissioner of Insurance and separating the insurance department from the office of the auditor of State. Under the provisions of this statute, the Commissioner of Insurance is appointed by the Governor for a term of four years, confirmed by the senate, and receives an annual salary of \$3,000. The term of the incumbent expires February 1, 1919.

\*Suspended March 19, 1885. Jonathan Cattell appointed to fill vacancy. Reinstated January 23, 1886. Suspended again April 13, 1886. Charles Beardsley appointed to fill vacancy. Re-instated July 14, 1886.

# INSURANCE DEPARTMENT OF IOWA

May 1, 1916.

To HIS EXCELLENCY,

GEORGE W. CLARKE, GOVERNOR.

Sir: I have the honor to submit herewith, as provided by law, Volume III of the Forty-seventh Annual Report of the Insurance Department of Iowa, covering the business of life insurance transacted in the state by authorized companies, societies and associations for the year ending December 31, 1915.

Eurory N. English

Commissioner of Insurance.

## COMMISSIONER'S REPORT

This volume is compiled in compliance with the provisions of sections 1781, 1790 and 1830 of the code, requiring an annual report of the general conduct and condition of the life insurance companies, associations and fraternal beneficiary societies transacting business in this state, together with a separate abstract as to each, and of all returns and statements made to the Insurance Department by them.

The 1915 reports of life organizations supervised show a most satisfactory condition with substantial growth in volume of insurance written. The domestic organizations are enjoying a healthy growth and large additions were made to the reserve deposits of many of the life companies.

For convenience the statistics and statements of the accident departments of life companies will be found in Volume II of the 1916 report, which relates to casualty and miscellaneous business.

With the close of 1915 a total of one hundred and eleven life companies, assessment life associations and fraternal beneficiary societies reported to this department, classified as follows:

LIFE COMPANIES.		
Iowa Companies		63
ASSESSMENT LIFE ASSOCIATIONS.		
Iowa Associations	3 2	5
FRATERNAL SOCIETIES.		
Iowa Societies	12 31	43
Total	1	111

#### IOWA BUSINESS TRANSACTED.

The aggregate business transacted in Iowa by these companies, associations and societies, during the year 1915, as shown in detail in statistical section of this report is as follows:

ANNUAL REPORT-INSURANCE DEPARTMENT

#### RELOCATION OF DEPARTMENT

Section 1683-r1 of the law separating the Insurance Department from the State Auditor's Office directed the Executive Council to "provide the Insurance Department of Iowa with suitable quarters at the seat of government and furnish said Department with furniture, books, supplies, printing and stationery necessary to carry out the provisions of this act."

No action of the Executive Council making such provision was had prior to the transfer of the Department by the Auditor to the Commissioner of Insurance on July 1, 1914. Therefore, from that date until August 2, 1915, the Department remained in the same rooms in the Capitol Building with the Auditor of State, that being the location to which it was assigned with the Auditor when the Capitol was first occupied and which it thereafter continuously occupied.

On July 26, 1915, the Executive Council assigned for permanent quarters of the Department the rooms of the south side of the main east corridor of the Capitol Building, known as rooms 18 and 19, heretofore occupied by the State Horticultural Society and the Custodian. Provision was made for cutting a door into and equipping a large vault in connection with the rooms assigned for safe keeping of securities on deposit and the Department records. To afford opportunity for moving of the departments involved in the exchange of rooms, the Insurance Department, with exception of securities, was removed from its previous location on August 2, 1915, to the reception room of the Governor's suite, which was occupied until August 23, 1915, when the Department was installed in the new location and on March 1, 1916, the securities were moved to the newly completed and equipped safety vault.

## RESERVE SECURITIES ON DEPOSIT.

The Iowa statutes require every domestic company, association and society writing life insurance to maintain on deposit in the Insurance Department, approved interest-bearing securities in an amount at least equal to the reserve value of all policies in force. The total amount of securities representing reserve valuations and capital stock has rapidly increased in recent years. At the several dates given, the total deposits with the Department were as follows:

January	4, 1909\$32,881,310	.33
July 1.	1914 56,790,095	.38
	1915 62,789,643	
May 1,	1916 69,080,612	.60

### LIFE AGENTS LICENSED.

The number of life insurance agent's licenses issued by the Department for the 1915 insurance year ending April 1, 1916, was as follows:

Iowa Sto	ck Companies	1,828
Other tha	an Iowa Stock Companies	3,977
Assessme	nt Associations (Life and Accident)	1,022
Tot	tal Life Companies	6,827
Tot	tal Fire Companies	31,366
To	tal Casualty Companies	6,123
To	tal Agents Licensed	44,316

## FRATERNAL POLICY LOANS ILLEGAL.

The Articles of Incorporation or By-Laws of some Fraternal Beneficiary Societies authorized to transact an insurance business in Iowa, provide for loan values upon certificates or policies issued. This is clearly without authority of law, as under the provisions of Section 1839-1 of the Code, setting forth forms of investment permitted for any funds held in trust by fraternal beneficiary societies for the purpose of the fulfillment of certificates or contracts, no provision is included for investment in policy loans.

A ruling, therefore, was made and the societies notified by the Commissioner that any such loans negotiated upon certificates or policy contracts are without authority of law and cannot be accepted by the Department as a security for deposit representing any portion of the reserve or accumulated funds of a fraternal beneficiary society.

It was further held that any society having provision in its certificates or policy contracts or By-Laws permitting or authorizing such form of investment of its funds, shall, at the first special or regular meeting of the Grand or Supreme body of said organization, comply with the provisions of the statute by amendment of its By-Laws and contracts, eliminating the provision for loans of this character.

## FRATERNAL VALUATIONS.

Sections 1839-j and 1832 of the Code require that certificates of fraternal beneficiary associations and societies operating in this state upon N. F. C. rates shall be valued in the same manner as provided for legal reserve companies by provisions of Section 1774, except that such valuation shall be based upon the National Fraternal Congress Table of Mortality and four per cent interest. In defining the application of this statute the Commissioner issued the following ruling:

"The legal reserve on all business classified in a group paying N. F. C. rates will require a reserve liability equal to the accumulated amount of the unused portions of the net premiums on the basis of 100 per cent mortality. Where payments are made monthly, the net annual premium shall be the total collection for benefit purposes for one year, which in no event shall be less than twelve times the benefit portion of the monthly payment.

"Under this ruling the reserve may be computed by the employment of the u and k accumulation factors. However, the most satisfactory method of calculating and reporting the reserve value would be by the employment of the U and K accumulation factors. The former would give the accumulated value of the contributions and the latter the accumulated value of the claims, the difference representing the reserve liability.

"The Department requires schedules showing the amount of business in force and corresponding net premiums by year of issue (or entry into N. C. F. group) by age and by kind of policy, with extensions showing accumulated value of the contributions and accumulated value of the claims, to be filed with the Annual Statement."

In promulgating the ruling it was clearly stated that it was not the purpose of the Commissioner to have an apportionment made of any accumulated surplus under a re-adjustment or re-rating of members, the object of this valuation simply being to obtain an exhibit which will show whether the contribution rates as applied to the members would produce a surplus or a deficiency in actual operation under the assumptions of mortality and interest employed in the valuation and the computation of rates.

The information obtained through a valuation made in accordance with this ruling is of great advantage to the Department and of singular importance to societies.

Where contribution rates are deducted from the mortality table and at the rate of interest employed in the valuation, and are applied at attained age, there is no difference in the results of the retrospective and the prospective valuation. Made under such conditions the retrospective valuation report is of less relative importance than where the rates are not equal to the tabular premium for any reason, whether it be due to concession granted in giving a rate less than the rate for the attained age at the date of readjustment, or because the rate had been arbitrarily fixed at a lower amount than the tabular rate. In the latter one, of course, the reserve values accumulated by the employment either of the u and k columns or the employment of the U and K accumulation factors will be less than the required reserve shown under the prospective method of valuation where the benefits and future contributions are valued.

The reason the use of the U and K factors is preferred is because of the comparative value of the exhibit in that it brings out the fact of an accumulation of surplus and the amount thereof or the creating of deficiencies and the facility and accuracy of the determination of the particular members who created a deficiency or accumulated a surplus on the assumption of mortality and interest used in the computation of the contribution rates paid by the members.

Thus the Retrospective Valuation of inadequate rate certificates definitely discloses the exact status of every member in respect of his contribution and the cost of his protection and shows whether or not his current contribution is sufficient to cover his current share of claims.

The laws of a majority of the states require that an improvement in condition be shown by the valuation made as of December 31, 1920, and the valuation made as of December 31, 1917, is to be taken as the basis of comparison. The Iowa law does not require an improvement but, being in possession of the information obtained from the Retrospective Valuations, which are being arranged and tabulated, the Commissioner of Insurance will be in position to deal in a constructive manner with a Society which is going backward.

#### GROUP INSURANCE.

The generally prevailing practice of issuing group life insurance policies without requiring the customary medical examination is clearly contrary to the laws of Iowa.

Life policies, otherwise conforming to the laws of the state, are held by the Department to come within the provisions of the law when issuance of same is based upon a satisfactory medical examination of individual applicants, as provided in Section 1783-b of the Code.

#### EXAMINATIONS.

During the year 1915 the Department made examinations of the following Iowa organizations which transact a life insurance business in one form or another:

<sup>\*</sup>Re-incorporated as a level premium stock life insurance company, February 10, 1915.

Following are brief comments upon the reports on the different examinations. The individual reports filed are voluminous in many instances and it is impractical to herein refer to other than a few outstanding facts brought out in the examiners' reports.

#### MERCHANTS LIFE ASSOCIATION.

The report on the examination showed the financial condition of the Association as of February 20, 1915, which was the date when the institution ceased to do business on the assessment plan and began to operate as a level premium company under its amended Articles of Incorporation.

The following are excerpts from the financial statement prepared by the examiner as of February 20, 1915:

Ledger assets .			,	v.	60	.,		. ,		* *								\$1,279,071.78
Admitted assets		, ,		,	,											60		1,231,216.39
Total liabilities	-				Į.										ļ			475.455.17

The report recites that the policy of the association in settlement of claims is characterized by promptness and liberality and no advantage has been taken of the restrictive clauses in the certificates relative to habits or occupation.

The transformation before indicated, was accomplished by virtue of authority granted assessment associations by Section 1738-b, Chaper 7, Title IX of the Code of Iowa, and on February 22, 1915, the Department issued to the Merchants Life Insurance Company a certificate of authority to transact business as a legal reserve, level premium life insurance company, with a paid up capital of \$100,000.

In the plan of reorganization adopted the interests of both old and new policy holders were safe-guarded in a manner that preserved their equitable relations, in the greatest possible degree, without the demands of one class encroaching upon the rights of the other. The two cardinal principles on which the transformation was based are as follows:

- (1) That the funds of the association at the time of transformation together with accretions shall be set apart for the sole benefit and use of the certificate holder, as provided by the Articles in force previous to the transformation.
- (2) That the mortality shall be distributed over the whole of the membership, old and new.

The advisability of the step taken is unquestioned from the fundamental fact that insurance based upon the assessment plan without creation of a legal reserve is subject to certain increase in rates as the age of the membership increases.

## PROVIDENT LIFE INSURANCE COMPANY.

This was the first examination which the Department has made of this company which was organized in 1913 and commenced business on August 6th of that year. The examination covered the period since organization and the report showed the financial condition as of March 31, 1915. The examiner's report showed that: The paid-up capital was \$100,000,00.

The premium paid for the stock was \$100,000.00.

The total expense of organization was \$15,284.27, being equivalent to 7.6% of the total stock.

Only non-participating insurance is written.

The	amount of insurance in force was	\$1,738,500.00
The	admitted assets amounted to	185,196,59
The	surplus amounted to	61 064 50

It is apparent that the company made a very satisfactory record during the first twenty months of its existence.

## GERMAN-AMERICAN LIFE INSURANCE COMPANY.

The report of the examiners exhibited condition of the company as of December 31, 1914, and, among other facts, showed that:

The company operates on the level premium plan without capital stock.

The amount of assessment business in force was \$1,377.884.00.

The amount of level premium business in force was \$1,619,132.00. All death claims had been paid in full.

The writing of new business was still being conducted by an agency company which holds a contract providing for the payment of perpetual renewals.

#### BROTHERHOOD OF AMERICAN YEOMEN

The examination was completed in June, 1915, and covered the transactions between May 1, 1912, and May 1, 1915. The report calls attention to some provisions of the by-laws that are undesirable; commends the system of books and records; reports the claim settlements to have been equitable and prompt; reports the income in the benefit fund to have been less than the claims paid therefrom and calls attention to the inadequate rates now charged; and concludes by calling attention to the splendid growth made by the society.

#### ANCIENT ORDER OF UNITED WORKMEN.

The report on this examination showed the condition of the society on June 30, 1915. Since January 1, 1912, all new business issued has been on level rates based on the A. O. U. W. (5) Table of Mortality and interest at four per cent. The rates so computed are not less than those required by Section 1839-j, Chapter 9, Title IX of the Code as minimum for new associations.

The amount of protection in force in the level rate division was \$8.597,054.00, on which the mid-year reserve was \$302,811.00. It is shown by the examiner that in respect of this class only ten assessments per year had in practice been levied, that number having been sufficient to provide for the payment of claims, to maintain reserves according to the aforesaid standard and to accumulate a 12% surplus for the additional protection of the members of this class.

xix

There was \$14,003,000 of protection remaining in force on the old Step Rate Plan in which the rates are inadequate after ages 53 or 54. Commenting on this group the examiner said, "The mortality in respect of this class is increasing and indications are that an extra assessment will need to be levied soon."

In March, 1915, the society reinsured the membership of the Supreme Lodge Beneficiary Jurisdiction, A. O. U. W. of Meadowville, Pa. This group was composed of about thirteen hundred members who were the remnant of various Grand Lodge Jurisdictions which had gone out of business. Under the contract of re-insurance these members were admitted into level rate class on terms that cannot work any hardship on the members already in that class.

The society was commended for its fair dealing in the settlement of claims.

#### STANDARD LIFE INSURANCE COMPANY.

The examination covered the period from December 31, 1912, to June 30, 1915. The report showed a very satisfactory general and financial condition on the last named date. Among other things the report cited that:

The company operates on the level premium plan without capital;

Operations are confined exclusively to Iowa;

The insurance in force was \$5,104,355.00 (a gain of 30% during the period under examination):

The unassigned funds were \$48,411.87 (an increase of 139% during the period).

The concluding paragraph of the examiner's report says, "Analysis of the progress made during this period indicates that it is the policy of the company to build substantially, volume of business being a secondary consideration."

#### REGISTER LIFE INSURANCE COMPANY.

The report on this examination showed the company to be in excellent financial condition, as of July 31, 1915. The company confines its writing of new insurance to Iowa alone.

Practically all of the \$11,228,178.00 of insurance in force is on the annual dividend plan. It is the only Iowa company issuing contracts on a 3% interest basis. Its policies are valued on the full preliminary term basis and surrender values, equal to the entire reserve, are granted beginning at the end of the second policy year.

The company still enjoys the reputation of furnishing insurance at an exceptionally low net cost. The surplus of the company was \$67,432.63.

The company has always operated on the level premium plan as a mutual company, and it has been the theory of the managers that all of the earnings except what would leave a reasonable surplus, should be returned to policy holders as premium refunds.

## WESTERN BOHEMIAN FRATERNAL ASSOCIATION.

This is a fraternal beneficiary society, the benefits of which are restricted to persons commanding the Bohemian-Slavic language. The contribution rates paid by members are about two-thirds as large as the National Fraternal Congress Table and four per cent interest rates.

During the eighteen years the society has been in existence it has compromised but one claim and has never drawn upon its Reserve Fund which amounted to \$414,248.25 on July 3, 1915. On that date there was \$44,573.34 remaining in the Mortuary Fund.

The protection in force amounted to \$17,205,250.00, the records indicating a remarkably low lapse rate for many years. The business of the society is managed with extraordinary economy.

## CEDAR RAPIDS LIFE INSURANCE COMPANY.

The company was reported in excellent financial condition on July 31, 1915, on which date it had:

Insurance	amoun	ting	to	 	 \$	4,870,405.00
Admitted	assets	of		 	 	409,473.03
Unassigne	d funds	of		 	 	29.082.10

During the two-year period covered by the examination the company's insurance increased 46 1/4 %; its surplus 76 1/4 %, and the net reserve 72 1-3%.

The company had been organized nine years at the time of the examination. It has an authorized capital of \$100,000.00, one-half of which has been paid in. Both participating annual dividend and non-participating business is written.

#### FRATERNAL BANKERS RESERVE SOCIETY.

This fraternal beneficiary society began business in 1901, charging low rates until the beginning of 1909 when it adopted contribution rates based on the National Fraternal Congress Table of Mortality and four per cent interest.

The society never attained a large membership and the class paying the new rates was built up largely by transfer of members from the old class.

The report calls attention to the serious situation confronting the society in consequence of the increasing lapse rates caused by the levy of double assessments on the old class members during the early part of 1915.

Note.—In April, 1916, a contract was entered into by which the members of the Fraternal Bankers Reserve Society were reinsured by the Fraternal Aid Union, a fraternal beneficiary society chartered under the laws of the state of Kansas.

MUTUAL BENEFIT DEPARTMENT ORDER OF RAILWAY CON-DUCTORS OF AMERICA.

The Order of Railway Conductors of America is a labor organization, the Mutual Benefit Department of which was established in 1870. As the name implies the order is composed entirely of railway conductors. Every person who joins the Order must become a member of the Mutual Benefit or Insurance Department, unless he is ineligible by reason of age or disability.

The membership was approximately 45,000, carrying insurance for \$85,000,000.00.

The examination closed as of August 31, 1915, on which date the balances in the several funds were:

Mortuary	Fund			œ.		6	۵.								. ,			\$	915,253.65
Reserve	Fund :			×	e.			8					-	8	3				1,401,524.54
Expense	Fund .	-	. ,	é							 4			60		+.			33,580.23
Tota	1																	8	2 350 358 49

Since 1898 the Mortuary Fund has been maintained by the levy of fifteen assessments a year of one dollar per thousand.

The Reserve Fund is maintained by an assessment of one dollar per year per thousand for a period of twenty years and from interest on Reserve Fund investments.

#### IOWA LEGION OF HONOR.

The report on the examination was dated October 14, 1915, and calls attention to the fact that the society was organized in 1873 and had always confined its activities respecting organization to its home state; that in 1895 it had protection outstanding amounting to over twelve millions while on July 31, 1915, the amount had been reduced to \$1.370,250; that because of insufficient rates unpaid claims had accumulated during the preceding four years until on July 31, 1915, the total unpaid claims amounted to \$154,949.80; that there was but \$714.81 in the Benefit Fund out of which to pay the accumulated claims; that the total assets were less than eight thousand dollars included in which were the funds belonging to the so-called adequate rate class established in the year 1912; that the requisite reserve had not been maintained on account of such certificates as had been issued on the basis of scientific tables and that the funds of the different classes had been erroneously intermingled to the advantage of the old class members.

The conclusion of the examiners was:

- (1) That the liability on account of unpaid claims could not be reduced by extra assessments, no matter how many might be levied.
  - (2) That the claim liability would continue to increase.
- (3) That the establishment of the so-called adequate rate classes had been too late to give the society a new lease on life.
- (4) That the action necessary to prevent any increase in the unfortunately long list of unpaid claims ought to be taken immediately.

On October 28, 1915, the Commissioner of Insurance suspended the certificate of the society, directed the president and secretary to hold its affairs statu quo and the treasurer to pay out no funds without authority from the Department.

The society was given notice, as by law provided, of date of hearing when its representatives might appear and show cause, if any there be, why the report should not be filed of record in the Department, the certificate of authority revoked, the proceedings reported to the Attorney General and application made for a receiver.

After the hearing the report was formally filed and in Pebruary 10, 1916, the certificate of authority of the society revoked and the proceedings reported to the Attorney General, who immediately instituted action making application for a receiver, who was appointed in person of Fred W. Hann, of Cedar Rapids, by Judge Smith of the District Court in and for Linn County, Iowa.

On April 4, 1916, the court "authorized, empowered and directed" the receiver "to enter into a contract of re-insurance with the Independent Order of Puritans," located at Pittsburgh, Pa., and upon the due execution of said contract, said receiver was "ordered and directed to pay to the said Independent Order of Puritans, or its representatives, the amount received by said receiver in the month of March, 1916, by way of assessments from the members of Classes B and C."

The court further "ordered and directed that the said Independent Order of Puritans shall within a reasonable time comply with such orders as may be required by the Commissioner of Insurance for the state of Iowa." A copy of the re-insurance contract has not been filed in this Department and its terms are not known to the Commissioner.

The Independent Order of Puritans never having been authorized to transact an insurance business in this state and enjoying no legal right so to do, the foregoing order of the court might be construed as admitting the society to this state. It was, therefore, decided that the formalities of the law ought to be observed before recognition of any right to operate even in limited way in Iowa.

On April 12, 1916, a letter was addressed to the Independent Order of Puritans suggesting the propriety of forwarding formal application for admission to this state. After voluminous correspondence such application was received on June 19, 1916. On June 27, 1916, the application was denied in a letter from the Commissioner of Insurance which recited in detail various objections and concluded as follows:

"From the facts before me I am forced to conclude that financially the Independent Order of Puritans is weak; that its future responsibility is extremely uncertain; and that I cannot grant it the authority to issue certificates of protection to residents of the state."

The reinsurance of members of classes B and C of the Iowa Legion of Honor in a society not admitted to Iowa and without compliance with the provisions of Section 1839-g of the Code, has the effect of transferring those members to a society wholly removed from the jurisdiction of Iowa courts.

## FEES FOR EXAMINATIONS.
