IOWA PUBLICATIONS

REPORT OF THE

STATE DOCUMENT DEPARTMENT

FOR THE

Biennial Period Ending June 30, 1918

ORA WILLIAMS, State Document Editor

Published by
THE STATE OF IOWA
DES MOINES

LETTER OF TRANSMITTAL.

HON. WM. L. HARDING, *Governor.*

Sir: I have the honor to submit herewith, in accordance with law, my report covering the period from July 1, 1916, to June 30, 1918.

ORA WILLIAMS,
State Document Editor.

Des Moines, October 1, 1918.

STATE DOCUMENT DEPARTMENT.

Document Editor.....ORA WILLIAMS
Secretary and Stenographer.....MISS CLARA ZIMMERMAN
Document Clerk and Accountant.....JOSEPH FRANCIS
Assistant Clerk and Janitor.....JACOB RUSSELL

The accompanying list of documents published by the State of Iowa, which are under the control of the department, indicates also the reserve number in each case, and where the number on hand is below the reserve the publications can only be secured through permission of the Executive Council upon request of the document editor.

All publications that are available for public distribution are sent post free to applicants. The publications of the Geological Survey and the Soldiers' Roster are sold by the departments in charge. Communications regarding the others should be addressed to the State Document Editor.

IOWA PUBLICATIONS

REPORT OF THE DOCUMENT EDITOR.

In printing and publication, as in other activities of the state for the public good or necessity, there is expansion from year to year, and the supervision of this work, including editing of copy from a score of sources and the distribution of the product, becomes increasingly important. During the biennium there has been a lessening of the resistance to progress, and the inertia of precedents is being gradually overcome, so that the immediate problem is that of working out a system by which the department can be made most useful.

The first report was largely preliminary and covered chiefly the troublous times of the first year after the general assembly had adopted the policy of centralizing the work that had been scattered about among many departments. The new system was inaugurated July 1, 1915. The present report relates to the first full two-year period of operation, following the first year, June 30, 1916, to July 1, 1918. There has been no change in the personnel of the department force. The document editor was reappointed and the appointment was confirmed by the senate without reference to a committee. The department continues to have the sincere co-operation of state officials and others, especially all whose experience inclines them to efficiency in the public service, and many points of friction have been eliminated by a better understanding of the intent of the legislature and the purposes of the department and evidence of good results that have been accomplished.

In the report two years ago a table was given showing the cost of printing, including engraving and paper stock, of all the books where a proper comparison could be made of an edition since the work has received editorial supervision and the last previous edition not supervised. The list can now be extended to include in all, forty-seven publications, the cost of which was \$64,341.09. The cost of the last previous editions of the same books was \$97,966.81. The difference in favor of editorial supervision is \$33,625.72, and the list includes probably little more than half the books for which copy was approved.

The Iowa documents, or more properly the legislative documents, which includes all those annual and biennial reports of officials

transmitted through the governor to the general assembly for guidance of that body and for general information, have been in the past much delayed, so that many of the reports are not available at all for the general assembly to which they are addressed. The last set was delayed until more than a year after the adjournment of the legislature. The Iowa documents now in preparation, all due by the time the 38th general assembly meets, will be ready before the close of the session unless some unexpected delays occur in securing the reports. As illustrating the result of careful supervision the appended table shows the number of pages in each volume of the complete set for the 35th general assembly, 1915, and the 36th general assembly, 1917, all of the latter having passed through the document department before going to the printing house:

Number of Volume	1915	1917
Volume One	1,724	1,512
Volume Two	1,766	1,624
Volume Three	1,806	1,600
Volume Four	1,444	1,760
Volume Five	1,344	1,278
Volume Six	1,514	1,581
Volume Seven	1,632	None
Total	11,230	9,355

The Iowa documents for 1915 made seven volumes; for 1917 they were bound up in six volumes with a reduction in total number of pages of 1,875. The reduction in cost of binding alone was \$1,020. The set for 1919, now under way, will make but five volumes and the number of pages probably will be reduced in each one.

THE STATE'S PRINTING OUTLAY.

The cost of printing can only be shown approximately. The total of warrants drawn by the state auditor in favor of the state printer and the state binder in recent fiscal years is as follows:

	State Printer	State Binder	Printing and Binding
For biennium 1911-12.....	\$ 93,757.48	\$48,658.76	\$142,416.24
For biennium 1913-14.....	116,484.25	55,765.87	172,250.12
Year 1915	70,175.96	21,466.32	91,642.28
Year 1916	41,561.91	28,028.38	69,590.91
Total for biennium 1915-16.....	\$111,737.87	\$49,494.70	\$161,232.57
Year 1917	\$54,615.82	\$18,074.46	\$ 72,690.28
Year 1918	37,871.96	23,485.47	61,357.43
Total for biennium 1917-18.....	\$92,487.88	\$41,489.93	\$133,977.81

The expenditure for printing for each quarter of the three years since the consolidation of the department, divided also as to the three classes of printing, is shown below:

PRINTING OUTLAY BY YEARS AND QUARTERS.

	Printing	Binding	Engraving	Total
Third quarter, 1915.....	\$13,637.77	\$ 5,539.56	\$ 594.07	\$19,771.40
Fourth quarter, 1915.....	10,953.98	9,578.48	1,561.96	22,094.42
First quarter, 1916.....	8,993.75	6,092.27	85.00	15,171.02
Second quarter, 1916.....	7,211.65	4,096.58	11,308.23
Total	\$40,797.15	\$25,306.89	\$2,241.03	\$68,345.07
Third quarter, 1916.....	\$11,299.05	\$ 2,975.61	\$1,684.62	\$15,959.28
Fourth quarter, 1916.....	9,668.36	5,960.98	42.36	15,671.70
First quarter, 1917.....	14,747.70	4,080.48	235.65	19,063.83
Second quarter, 1917.....	22,539.30	6,421.07	468.41	29,428.78
Total	\$58,254.41	\$19,438.14	\$2,431.04	\$80,123.59
Third quarter, 1917.....	\$ 9,411.28	\$ 6,365.94	\$1,154.43	\$16,931.65
Fourth quarter, 1917.....	14,632.39	8,068.09	276.22	23,026.70
First quarter, 1918.....	6,831.27	5,181.96	129.66	12,142.89
Second quarter, 1918.....	3,695.55	2,628.18	316.31	6,640.04
Total	\$34,620.49	\$22,244.17	\$1,876.62	\$58,741.28

This does not represent all the cost of printing to the state, since some of the boards, commissions and officials have printing done by private contractors, and some portions of printing such as engraving and lithographing are not done by the state printer. The total of bills for printing, which includes engraving, checked and approved by the department for the biennial period 1917-18, was \$138,864.87, the difference between this and the amount paid the state printer and state binder representing that which was done by outside firms. Prior to the going into effect of the law providing for a document editor, the department checked only the work of the state printer and state binder, but the new law three years ago enlarged the duty of the department to include "all reports, documents and publications received from the state binder or those having such printing and binding in charge" and to everything published "by the state or at state expense." Under this it was held by the state officials that all bills of every kind relating to printing, no matter by whom the work was done, should pass through the department for approval as to their correctness, and because of this fact the more recent figures more nearly represent all the printing "by the state or at state expense" than the figures for prior years. But it does not include even now that part of the work done by boards or commissions away from the state capital, nor that part done at state institutions.

COMPARISON OF DEPARTMENTS.

The following shows the bills for all printing, audited by the department as required by law, in each of the past three fiscal years, as shown by the records of the department, with the division as between officers or boards:

PRINTING OUTLAY BY DEPARTMENTS.

Department	1915-16	1916-17	1917-18
Academy of Science	\$ 869.06	\$ 908.96	\$ 835.18
Adjutant General	654.58	450.47	954.06
Adjutant General-Custodian		11.07	31.25
Agricultural Department	1,724.88	3,329.37	3,240.51
Attorney General	1,631.29	2,202.32	1,848.50
Auditor of State	4,652.58	4,419.46	2,987.76
Banking Department			544.40
Bee Inspection	197.96	220.92	21.50
Board of Control	15.30	472.60	1,195.88
Dairy Association			23.56
Dairy and Food Department	1,247.39	1,291.24	1,175.15
Dental Examining Board		10.75	61.46
Document Department	72.10	2,088.89	1,354.60
Education, Board of	206.78	1,515.01	76.11
Education, Department of	8,778.69	4,716.72	2,949.44
Educational Examiners, Board of	434.64	413.33	310.84
Entomologist, State			10.00
Executive Council	2,916.33	9,542.40	1,181.95
Fire Marshal	492.87	295.51	299.06
Fish and Game Warden		207.77	
General Assembly, 36th	4,092.83		
General Assembly, 37th		21,279.25	2,974.47
Geological Survey	69.43	1,911.11	1,706.16
Governor	95.58	631.35	192.85
Health, Board of	1,170.48	51.10	766.15
Highway Commission	867.35	3,213.84	456.70
Historical Department	59.04	67.23	98.46
Historical Society		23.54	
Horticultural Society	1,745.06	157.33	2,074.38
Insurance Department	6,114.08	3,731.28	5,162.28
Labor Bureau	393.37	1,473.06	341.26
Library Commission	396.20	588.64	238.05
Library, State	235.15	682.84	277.05
Mine Examiners, Board of		21.60	21.00
Mine Inspectors	83.21	524.98	73.18
Oil Inspector	85.03	102.18	58.67
Parole Board	199.45	629.13	549.89
Pharmacy Board	330.82	422.92	219.17
Railroad Commission	2,966.61	4,177.79	2,296.21
Secretary of State	21,423.84	4,900.56	19,510.78
Supreme Court		7.25	
Supreme Court, Clerk	826.09	859.42	830.72
Supreme Court, Code Commission	1,729.79		
Supreme Court, Reporter	3.00	3.50	
Treasurer of State	87.71	556.50	255.81
Veterinary Department	377.14	262.57	112.80
Weather and Crop Service	950.99	1,065.78	1,073.02
Workmen's Compensation Service	137.64	602.55	373.34
Totals	\$68,345.07	\$80,123.59	\$58,741.28
Total for biennium			\$138,864.87

EDITING AND APPROVAL OF MANUSCRIPT.

The volume of manuscript coming to the table of the document editor for approval is much larger than one unfamiliar with the work would anticipate, but greater care is now being exercised to have the copy more nearly ready for the printer. As indicated in the first report, the law left details largely to those who have the duty of enforcement of the law, and after many conferences a workable plan was adopted which is giving general satisfaction and to which all are conforming with a few exceptions. The department has to deal with about forty different departments. Below is given a list of the approvals on copy for various publications in the three years, with number of copies ordered in each kind of binding:

PUBLICATIONS ORDERED, 1915-16.

Date of Approval of Copy, Number of Copies Ordered Printed, and Number of Pages as Printed.

Note.—The monthly Weather Bulletin and the Library Quarterly are issued under a general approval order.

The state now has on hand many thousands of volumes of reports in storage in the warehouse of the document department and this is property the value of which it would be impossible to estimate. Some of these books were printed fifty years or more ago. Many of them are very scarce. The increasing number of public libraries in the state presents a new problem in connection therewith, as the way to make these reports useful is to have them placed in public libraries. Nobody knows the extent to which the library movement will finally expand, and therefore it cannot be known how much of a reserve supply of public documents the state should provide. On the recommendation of the document editor the reserve for the Iowa legislative documents has been increased so that at least 300 sets are kept for future distribution and this distribution may extend through the entire century. The origin of much wastefulness in the publication department of the state lay in the arbitrary clauses of the law which required the printing of far too many copies of some reports and not a sufficient number of others. Under the present system there is elasticity obtained through the authority of the department to fix the number of each document, report or thing printed. But the department does not have all the facilities needed to properly safeguard the permanent printed records of the state.

In view of this growing problem of the reserve supply and of the increased labor of shipping and handling all publications, it is proper to add to the recommendations of the first report one relating to the satisfactory housing of the department. When plans are adopted for any new office building, the legislature should provide for something to take the place of the present document warehouse and shipping department which will be abandoned under the plans already approved for the extension of the capitol grounds. The present warehouse is even now inadequate. When an office building is authorized the plans should include sufficient space therein for at least twice the room now available and for very much better shipping facilities. The system already in operation contemplates that all the storage and sending out of printed matter for every department of the state government shall be done at one place, and an enormous saving has already been effected in labor, material and postage by this system. The law also provides for only one reserve supply of documents, whereas the wasteful custom had grown up of each department trying to maintain a reserve. Room should also be pro-

vided in connection therewith for the storage of all stock and material which the state may purchase for printing. The present storage building should remain until a new one is completed.

NEW CONTRACT LAW.

There is still need, as there was two years ago, for revision of the general printing law of the state, especially as to provisions for time of making reports, the number of copies to be printed, the material to be included, and the authority for issue of irregular publications. By act of the thirty-seventh general assembly a new law went into force July 4, 1917, establishing a new board for the state, the board of public printing and binding, the members thereof being the governor, the secretary of state, the treasurer of state and the auditor of state, with the document editor as secretary and executive officer. The board has the duty of letting contracts for everything pertaining to the printing and publications of the state, and the prices fixed in these contracts will supersede the statutory prices that are subject to the control of the general assembly. There is no doubt this system will prove economical. The duties of the state printer and the state binder with regard to general supervision of the work for the state are transferred to the document editor, in addition to his general duty of supervisor, this change to take place with the close of the year 1918. It is obvious that some additional legislation will be needed to properly equip the document department for the new business, and as the new law was rather hastily prepared it is certain that amendments will be required. Some features of the law as it now stands will operate to hamper rather than help public business. The board should have greater freedom of action and larger responsibility, and to this end much of the utterly unworkable detail of the law should be taken out. Now that this board has been created, the plan should be to concentrate under its supervision everything pertaining to the publication department, and while this seems to have been the intent of the legislative body, it is probable that the law has only partly accomplished the purpose.

LOOKING FORWARD.

As heretofore suggested, the usefulness of the department is to be measured by improvement in the quality of the product more than in any incidental reduction of aggregate cost. As compared with other states the volume of the publication output of Iowa is modest indeed, and the chief aim of the department has been to

make sure that the waste is reduced to the minimum and that the state receives full value for its printing expenditure. The next code revision should include a liberalizing and unifying of the printing law so that the reform knife could go even deeper where needed and there could be useful extension of the publication activities of the state under proper safeguards. The need for this is shown in the recurring embarrassment with regard to information sought by earnest inquirers about Iowa affairs. The department was almost helpless in an effort to supply a newly organized consulate of a foreign nation with desired books treating of Iowa as a place for business and home making. The need of schools and libraries for material relating to Iowa—historical, descriptive, statistical—is growing, and at times the demand coming to the department is almost exasperating because of the meager supply. Millions of people now know something of Iowa who a few years ago never heard the name. They are asking questions. They ought to be answered. A larger number than ever before of Iowa people are wanting to know about their own state and their wants can only be supplied through the printed page.

Of the valuable material gathered from time to time but a small proportion has been analyzed or tabulated so as to make it useful and much of it is buried under a mass of rubbish, or in other words, the state leaves half finished the work of gathering and disseminating useful information. The finishing work should be provided. It is time to move in this direction in simple recognition of the inevitable changes wrought in the world-relation of nations and of peoples, the new neighborliness of long-time strangers, and the world-wide disclosure incident to the war of Iowa's wonderful resourcefulness.
