### LETTER OF TRANSMITTAL

Honorable N. E. Kendall, Governor,

Sir: As provided by law, I have the honor to submit for your consideration the Annual Report of the Department of Banking showing the condition of State and Savings Banks and Trust Companies under this Department, for the period from June 30, 1921, to June 30, 1922.

Respectfully submitted,  
W. J. MURRAY,  
Superintendent of Banking.

Des Moines, Iowa, September 1, 1922.

## REPORT OF BANKING DEPARTMENT

---

### REPORT OF BANKING DEPARTMENT

#### NEW BANKS

The number of banks organized during the period from June 30, 1921, to June 30, 1922, was twelve (12). It is quite apparent, as shown by the records of the Banking Department, that it is unwise to permit the organizers of new banks, who are very frequently inspired by selfish interests, to be the sole judges of the advisability of opening banks. Organizers of banks invest a comparatively small amount of money, while the main part of the funds on which the bank is operated is furnished by the people, in the form of deposits. Under the present law the Superintendent of Banking may not refuse to grant a charter for a bank on the grounds that, in his opinion, the people's money would not be safe therein.

Nor, under the present law, can the Superintendent of Banking refuse a charter, providing the other conditions have been met, even though in his opinion the community may be so well served by the existing banks that a new institution could not get enough business to prosper.

It is our opinion, therefore, that approval of the issuance of a charter should be in the hands of a board whose decision should be final, this board to be known as the "Charter Board for Banks," and to consist of three members, namely, the Governor, the Attorney General and the Superintendent of Banking; and that no bank should be permitted to organize without the approval of this Board.

#### ASSESSMENT

For the protection of depositors, the law provides that all stockholders are subject to a one hundred per cent (100%) assessment. In order to make this effective every initial purchaser of stock should be required to certify under oath that he has property not exempt to double the amount of stock purchased, and no transfer should be legal unless the same were true of the purchaser.

Those taking as collateral the capital stock of banks under state supervision should be liable for assessment on the same in case of failure of the owner of the stock to pay the assessment when levied. This would prevent a man with small means from acquiring control and the accompanying inability to pay an assessment.

## CAPITAL

We are pleased to report that existing banks have increased their capital by \$361,000.00 during the past year.

The minimum capital permitted for an organized bank in Iowa is \$10,000.00. Since the capital invested is intended as a margin of protection to depositors against loss in case of liquidation of a bank, it is the opinion of this department that no charter should be issued for less than \$25,000 capital.

We believe that no bank should be permitted to receive deposits for more than twenty times the amount of its capital, instead of twenty times its capital and surplus, as the surplus under the present law is not subject to assessment in case of insolvency of the bank.

## DEPOSITS

Bank deposits in Iowa have had a gradual growth, as shown by the following figures:

June 30, 1914	\$314,000,000.00
June 30, 1918	496,000,000.00
June 30, 1921	549,000,000.00
June 30, 1922	556,000,000.00

## FEES

The law establishing the fee for the examination of banks should, we believe, place a rate of three cents on each \$1,000.00 of assets above \$25,000.00, instead of two cents as at present. Under the existing law more than a proportionate share of the expense of the Banking Department is borne by the smaller banks. Since there is a minimum fee of \$25.00 for each bank examined, the large banks are examined at a loss.

## RECEIVERSHIP

The Banking Department has no jurisdiction over banks after they are placed in the hands of a receiver. In some states the receiver is under the direction of the Banking Department. In California, where this is true, the expense of receivership is thus much reduced, the work is speeded up and gratifying results are shown in the annual reports of the Banking Department.

We believe that the Iowa law should provide for this change.

## BONDING OFFICERS

In view of the fact that our banks have been made depositories of so many valuable papers, including United States Bonds in substan-

tial sums, we deem it essential that the law require the active officers of each bank to be bonded by a surety company in an amount which shall be approved by the Superintendent of Banking, the premium to be paid by the bank.
