

or operate, or be engaged in operating, furnishing or leasing cars, as defined and described in section one of this act, whether formed or organized under the laws of this state, or any other state or territory, or any foreign country.

CLASSIFICATION.

Sec. 2076. All railroads of the state shall be classified in accordance with the gross amount of their several annual earnings within the state, per mile, for the preceding year, as follows: Class "A" shall include those whose gross annual earnings per mile shall be four thousand dollars or more; class "B" shall include those whose gross annual earnings per mile shall be three thousand dollars or any sum in excess thereof less than four thousand dollars; class "C" shall include those whose gross annual earnings per mile shall be less than three thousand dollars. In determining the classification of any railroad, the entire railroad property owned, or operated by any company shall be considered as a single railroad, and the aggregate gross earnings of the entire railroad within the state shall be divided by the entire mileage owned or operated within the state to ascertain the gross earnings per mile of such railroad. (82 G. A., ch. 102, "1.)

Sec. 2077. All railroad corporations according to their classification as herein prescribed shall be limited to compensations per mile for the transportation of any person with ordinary baggage not exceeding one hundred and fifty pounds in weight as follows: Class "A," two cents; class "B," two and one-half cents; class "C," three cents; and for children twelve years of age or under one-half the rate above prescribed, provided, however, that every railroad corporation shall be entitled to charge a fare of not to exceed ten (10) cents for the transportation of each passenger with ordinary baggage for any distance not exceeding five miles. A charge of ten cents may be added to the fare of any passenger when the same is paid upon the cars, if a ticket might have been procured within a reasonable time before the departure of the train, except in those cases where a minimum of ten (10) cents is charged for a distance of less than five miles as above provided. (82 G. A., ch. 102, "2.)

Amendment, Section 1. Class "C" Railroads. That section twenty hundred and seventy-seven (2077) of the supplement to the code, 1913, be amended by adding thereto the following: "That all steam railroads operating wholly within this state, and not to exceed twenty-five (25) miles in length, shall be included in and classified as class 'C' railroads." (87 G. A., ch. 827.)

Sec. 2078. The executive council shall at its regular meeting on the second Monday in July in each year classify the different railways, as provided by section two thousand and seventy-six (2076) of the code, from information as to gross earnings obtained from the annual reports of railways made to the executive council for assessment and taxation, if it shall be satisfied of the correctness of same, or from information obtained by said executive council from any other source, and, when there shall be any change in classification, shall issue a certificate to any corporation or corporations, affected by such change, certifying the class to which they are respectively assigned; any change of rate by any corporation pursuant to any change of classification shall take effect and be in force from and after the date of such certificate. (80 G. A., ch. 75.)

This table shows the aggregate taxable value and the average taxable value per mile of the railroad property on the first Monday in March of the second year of the "gross earnings," shown in connection with each year's assessment, for the years ending December last preceding.

Note.—The taxes paid are always paid on the last day of the year, two years prior to the date that the taxes are reported to the executive council of the state, and the mileage reported on the tax returns in 1906, 1907, 1908, 1909, 1910, 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, and 1922.

*As finally determined by the Federal Court.

IOWA METHOD OF ACCOUNTING
LAWS

Rules and regulations adopted May 12, 1902, by the Executive Council of the State of Iowa, in pursuance of an act of the General Assembly of the State of Iowa, entitled "An act relating to the reports to be made by railway companies to the Executive Council to aid in the assessment of railway property for taxation and providing for a uniform system in making said reports," approved April 12, 1902.

I. WITH RESPECT TO GROSS EARNINGS.

(1) Every railway company, subject to taxation in this state, shall keep a permanent account or record showing the earnings of its property in this state as distinguished from its earnings in any other state or territory in which it may carry on business.

(2) Where the shipment, carriage, or other business is carried or done by the reporting company wholly within this state, the said account or record shall contain the full earnings of the company thereon.

(3) Where the shipment, carriage, or other business is carried or done by the reporting company partly within this state and partly without the state, the said account or record shall contain that proportion of the full earnings upon such shipment, carriage, or other business which the haul or carriage in this state bears to the entire haul or carriage.

(4) The division provided for in rule three shall be made by actual computation, not by estimate.

II. WITH RESPECT TO NET EARNINGS.

(1) The general rule to be hereafter observed is that whatever expense is incurred to preserve the property in the physical condition existing when the material, building structure, or equipment replaced, renewed, or repaired was originally put in use and to operate it, is to be deducted from the gross earnings in order to ascertain the net earnings, and all matters not specifically provided for shall be so determined. For convenience the terms "maintenance" and "operation" as used in these rules to describe the items which may be so deducted, and the term "betterment" the items which cannot be deducted.

(2) The cost of reducing grades and curves of original ballast, of side-tracks, shortening the line and the like, is not "maintenance," but "betterment," provided that the superstructure in the case of reducing grades and curves shall be treated as though renewed upon the old line to the extent of the length of the old line.

(3) In the renewal of rails the added weight at cost price shall be charged to "betterment," the remainder to "maintenance."

(4) In renewal of permanent structures, such as bridges, culverts, crossings, station houses, offices, elevators, and the like, the cost of duplicating the old structure shall be charged to "maintenance," the remainder to "betterment."

(5) The entire cost of additional track or right of way shall be charged to "betterment."

(6) In renewal of rolling stock it shall be ascertained what the engine or car renewed or one of like efficiency would cost, and such amount shall be charged to "maintenance" and any excess to "betterment."

(7) The value of all materials, rails, ties, structures, equipment and the like displaced by new material, rails, ties, structures, equipment and the like shall be applied to reduce the cost of maintenance.

(8) The cost of maintenance and operation of the entire system, as well as in the State of Iowa, shall be ascertained as herein provided and shall be reported.

(9) Expenditures for maintenance and operation relating solely to lines in Iowa shall be charged to cost of maintenance and operation in this state; all other expenditures for such purposes shall be equitably divided and the basis of the division shall be stated in the report.

(10) Neither interest or taxes shall be charged to "maintenance" or "operation."

LAWS

Governing the Assessment and Taxation of a Railway Property.

GENERAL PROVISIONS

(Code of Iowa)

Section 1308. All other property, real or personal, is subject to taxation in the manner prescribed. * * *

Sec. 1305. All property subject to taxation shall be valued at its actual value, which shall be entered opposite each item, and shall be assessed at twenty-five per cent of such actual value. Such assessed value shall be taken and considered as the taxable value of such property, upon which the levy shall be made. Actual value of property as used in this chapter shall mean its value in the market in the ordinary course of trade. This section shall not apply to special charter cities. (Code, '97.) (27 G.A., ch. 36, § 1.) (31 G.A., ch. 23, § 2.)

See 2033-b. The words railway, railway company, railway corporation, railroad, railroad company and railroad corporation, as used in the code and acts of the general assembly, now in force or hereafter enacted, are hereby declared to apply to and include all interurban railways and all companies or corporations constructing, owning or operating such interurban street railways and all provisions of the code and acts of the general assembly, now in force or hereafter enacted, affecting railways, railway companies, railway corporations, railroads, railroad companies and railroad corporations, are hereby declared to affect and apply in full force and effect to all interurban railways, and to all interurban railway companies or railroad corporations constructing, owning or operating such interurban railways.

RAILROAD ASSESSMENT BY THE EXECUTIVE COUNCIL

Section 1334. On the second Monday in July in each year, the executive council shall assess all property of each railway corporation in the state, excepting the lands, lots, and other real estate belonging thereto not used in the operation of any railway, and excepting railway bridges across the Mississippi and Missouri rivers, and excepting grain elevators; and for the purpose of making such assessment its president, vice-president, general manager, general superintendent, receiver or such other officer as the council may designate, shall, on or before the first day of April in each year, furnish it a verified statement, showing in detail, for the year ended December 31st next preceding.

1. The whole number of miles of railway owned, operated or leased by such corporation or company within and without the State;

2. The whole number of miles of railway owned, operated or leased within the State, including double tracks and side-tracks, the mileage of the main line and branch lines to be stated separately, and showing the number of miles in each county.

3. Each railway or other corporation required by law to report to the executive council under the provisions of the law as it appears in section thirteen hundred thirty-four (1334) of the supplement to the code, shall, on or before the first day of April, 1965, make to the executive council, a detailed statement showing the amount of real estate owned or used by it on December 31, 1964, for railway purposes, in each county in the state in which said real estate is situated, and including the right of way, roadbed, bridges, culverts, depot grounds, station buildings, yards, section and tool houses, roundhouses, machine and repair shops, water tanks, turn tables, gravel beds and stone quarries and for all other purposes with the estimated value thereof in such manner as may be required by the executive council. Only one such detailed statement by any corporation shall be necessary, and when received by the council it shall become the record of railway lands of such corporations, and be deemed as annually thereafter reported for valuation and assessment by the executive council. On or before

the 1st day of April of each subsequent year such corporation shall in like manner, report all real estate acquired for any of the railway purposes above named during the preceding calendar year; and also a list of any real estate, previously reported, disposed of during the same period, which disposition shall be noted by the council in an appropriate column opposite to the description of said tract in the original report of the same in the record of railway land.

2a. The executive council shall by some convenient method of binding, arrange the statements required to be made under the provisions of the preceding sections so as to form a consolidated list of all real estate reported to it as being owned or used for railway purposes within the State of Iowa, which list shall be known as the record of railway lands;

4. A full and complete statement of the cost and actual present value of all buildings of every description owned by said railway company within the state not otherwise assessed;

5. The total number of ties per mile used on all its tracks within the state;

6. The weight of rails per yard in main line, double tracks and side-tracks;

7. The number of miles of telegraph lines used and owned within the state;

8. The total number of engines, and passenger, chair, dining, official, express, mail, baggage, freight and other cars, including handcars and boarding cars, used in constructing and repairing such railway, in use on its whole line, and the sleeping cars owned by it and the number of each class on its line within the state, each class to be valued separately;

9. Any and all other movable property owned by said railway within the state, classified and scheduled in such manner as may be required by said council;

10. The gross earnings of the entire road and the gross earnings in this state. (see sec. 1340-a, following);

11. The operating expenses of the entire road and the operating expenses within this state;

12. The net earnings of the entire road and the net earnings within this state.

Sec. 1335. There shall not be included in said operating expenses any payments for interest or discount, or construction of new tracks except needed sidings for raising or lowering tracks above or below crossings at grade in cities or towns, for new equipment except replacements, for reducing any bonded or permanent debt, nor for any other item of operating expenses not fairly and reasonably chargeable as such in railway accounts. The council may demand, in writing, detailed explanatory and amended statements of any of the items mentioned in the preceding section, or any other item deemed by it important, to be furnished it by such railway corporation within thirty days from such demand, in such form as it may designate, which shall be verified, as required for the original statement. The returns, both original and amended, shall show such other facts as the council in writing, shall require.

Sec. 1336. The said property shall be valued at its actual value, and the assessments shall be made upon the taxable value of the entire railway, within the state, except as otherwise provided, and shall include the right of way, roadbed, bridges, culverts, rolling stock, depots, station grounds, shops, buildings, gravel beds and all other property, real and personal exclusively used in the operation of such railway. In assessing said railway and its equipment, said council shall take into consideration the gross earnings per mile for the year ending January 1st, preceding, and any and all matters necessary to enable said council to make a just and equitable assessment of said railway property. If a part of any railway is without this state, then, in estimating the value of its rolling stock and movable property, they shall take into consideration the proportion which the business of that part of the railway lying within the state bears to the business of the railway without the state.

Sec. 1337. On or before the third Monday in August of each year the council shall transmit to the county auditor of each county through and into which any railroad may extend, a statement showing the length of the main track within the county and the assessed value per mile of the same, as fixed by a ratable distribution per mile of the assessed valuation of the whole property.

Sec. 1338. At the first meeting of the board of supervisors held after said statement is received by the county auditor, it shall cause the same to be entered on its minute book and make and enter therein an order stating the length of the

main track and the assessed value of each railway lying in each city, town, township, or lesser taxing district in its county, through or into which said railway extends, as fixed by the council, which shall constitute the taxable value of said property for taxing purposes; and the taxes on said property, when collected by the county treasurer, shall be disposed of as other taxes. The county auditor shall transmit a copy of said order to the council or trustees of the city, town or township.

Sec. 1339. All such railway property shall be taxable upon said assessment at the same rates, by the same officers and for the same purposes as the property of individuals within such counties, cities, towns, townships and lesser taxing districts.

Sec. 1337-a. That every railroad company owning or operating a line of railroad within this state, shall on or before the first day of August, A. D. 1862, place on file in the office of the county auditor of each county in the state, into which any part of the lines of said company lies, a plat of the lines of said companies within said county, showing the length of their said lines and the area of the land owned or occupied, by said companies in each government subdivision of land, not included within the platted portion of any town or city, within each of said counties, and the length of the said lines within the platted portion of cities and towns. Companies having on file such plats of part or all of their lines, in any of said counties, shall be required to file plats only of that part of their lines, not fully shown as above required on the plats now on file. On the first day of January of each year hereafter, like plats shall be filed of all new lines or extensions of existing lines built or completed within the calendar year preceding. (29 G. A., ch. 60, * 1.)

Sec. 1337-b. In the event of the failure or refusal of any railroad company to file the plats required under the provisions of section one of this act, at the time or according to the conditions named, then the county auditor may cause the same to be prepared by the county surveyor and the cost thereof shall, in the first place be audited and paid by the board of supervisors out of the county fund, and the amount thereof shall be by the said board levied as a special tax against said company and the property of said company which shall be collected as county taxes and when collected be paid into the county fund. (29 G. A., ch. 60, * 2.)

SLEEPING AND DINING CARS.

Sec. 1340. In addition to the matters required to be contained in the statement made by the company for the purposes of taxation, such statement shall show the number of sleeping and dining cars not owned by such corporation, but used by it in operating its railway in this state during each month of the year for which the return is made, the value of each car so used, and also the number of miles each month said cars have been run or operated on such railway within the state, and the total number of miles said cars have been run or operated each month within and without the state. Such statement shall show the average daily sleeping car and dining car service or wheelage operated on each part or division of the line or system within the state, designating the points on the line where variations occur, with the mileage of that part having the same daily service or wheelage.

Sec. 1341. The council shall, at the time of the assessment of other railway property for taxation, assess for taxation the average number of cars so used by such corporation each month, and the assessed value of said cars shall bear the same proportion to the entire value thereof that the monthly average number of miles such cars have been run or operated within the state shall bear to the monthly average number of miles such cars have been used or operated within and without the state, such valuation shall be in the same ratio as that of the property of individuals and shall be added to the assessed valuation of the corporation, fixed under the preceding sections.

Sec. 1340-a. Gross earnings. That for the purpose of making reports to the executive council, the gross earnings of railway companies, owning or operating a line or lines of railway partly within this state, and partly within another state, or other states, or territory, or territories, upon their line or lines within this state, shall be ascertained and reported by said railway companies as fol-

lows, to wit: The aggregate of the earnings upon business originating and terminating within this state, upon business originating in this state and terminating elsewhere; upon business originating elsewhere and terminating in this state, and upon business neither originating or terminating in this state but carried on or done over the line or lines in this state or over some part thereof, shall be reported; and with respect to all such interstate business the earnings in this state for the purpose of report shall be actually computed upon the basis of the length of the haul or carriage in this state as compared with the length of haul or carriage elsewhere. It being hereby declared that for the purpose of making reports looking to the assessment of railway property for taxation the gross earnings or business done or carried partly within this state and partly in another state, or other states, or territories, shall be that proportion of the entire earnings of such business that the haul or carriage in this state bears to the entire haul or carriage. (29 G. A., ch. 61, * 2.)

Sec. 1340-b. Rules. The executive council shall have the power to prescribe such rules and regulations with respect to the keeping of accounts by the railway companies doing business in this state as will insure the accurate division of earnings as aforesaid, and uniformity in reporting the same to the executive council. (29 G. A., ch. 61, * 2.)

Sec. 1340-c. Net Earnings. The executive council shall have the power to prescribe a method for all railway companies doing business in this state, together with the rules and regulations for the ascertainment of the net earnings of the railway lines in this state, to the end that all such railway companies, in ascertaining and making report of net earnings, shall proceed upon the same basis and in uniform manner. (29 G. A., ch. 61, * 3.)

Sec. 1340-d. The reports herein provided for are not in lieu of, but in addition to, the reports provided for by law, and they shall be made at the time and as a part of the reports already received. (29 G. A., ch. 61, * 4.)

Sec. 1340-e. The rules, regulations, methods, and requirements herein provided to be made by the executive council shall be made and communicated in writing or print to the several railway companies within thirty days from and after the passage and taking effect of this act, and shall be and become binding upon said railway companies from the time they are so communicated; provided, however, that the said executive council shall have the power to prescribe supplemental or additional rules, regulations, and requirements at any time, and communicate them to the several railway companies in the manner aforesaid, and with respect to such additional or supplemental rules, regulations, and requirements, they shall be and become binding upon the said railway companies within thirty days after they are so communicated. (29 G. A., ch. 61, * 5.)

Sec. 1340-f. If any railway company shall fail or refuse to obey or conform to the rules, regulations, method, and requirements so made or prescribed by the executive council under the provisions of this act or to make the reports as herein provided for, the executive council shall proceed and assess the property of such railway company so failing or refusing, according to the best information obtainable, and shall then add to the taxable valuation of such railway companies, twenty-five per centum thereof, which valuation and penalty shall be separately shown, and together shall constitute the assessment for that year. (29 G. A., ch. 61, * 6.)

Sec. 1342. Real Property of Railways. Lands, lots, and other real estate belonging to any railway company, not used exclusively in the operation of the several roads, and all railway bridges across the Mississippi and Missouri rivers, and grain elevators, shall be subject to assessment and taxation on the same basis as property of individuals in the several counties where situated. (C. '73, * 88.)

EQUIPMENT AND FREIGHT LINE COMPANIES

Sec. 1342-a. Every company engaged in the business of operating cars, not otherwise listed for taxation or taxed in Iowa, for the transportation of freight, whether such freight be owned by such company or any other person or company, over any railway line or lines, in whole or in part within this state, such line or lines, not being owned, leased or operated by any such company, whether such cars be termed box, flat, coal, ore, tank, stock, gondola, furniture or

refrigerator cars, or by some other name, shall be deemed to be a freight line company. Every company engaged in the business of furnishing or leasing cars of whatsoever kind or description to be used in the operation of any railway or lines, wholly or partially within this state; such line or lines being owned, leased or operated by such company, and such cars not being otherwise listed for taxation in Iowa shall be deemed to be an equipment company.

Sec. 1342-b. Every freight line and every equipment company, as designated in the preceding section, doing business, or owning cars which are operated in this state, shall, annually, on or before the first Monday in June, in each year, commencing with the year 1932, make out and deliver to the executive council a statement, verified by oath of an officer or agent of such company making such statement, with reference to the first day of January next preceding showing:

First—The name of the company.

Second—The nature of the company, whether a person or persons, an association, co-partnership, corporation, or syndicate, and under the laws of what state or country organized.

Third—The location of its principal office or place of business.

Fourth—The name and postoffice address of the president, secretary, auditor, treasurer and superintendent or general manager.

Fifth—The name and postoffice address of the chief officer or managing agent of the company in Iowa.

Sixth—The aggregate number of miles traveled within the state of Iowa by its cars during the preceding calendar year.

Seventh—The average number of miles traveled by the cars of each class of its cars during the preceding calendar year. The number of cars necessary for the mileage traveled within the state of Iowa, under the circumstances that ordinarily attend the use of such cars and where different classes of cars are used by said company, as to the matters embraced in this and the preceding paragraph, it shall furnish the required information as to each class of said cars in the form prescribed by blanks to be furnished by the executive council.

Eighth—The actual cash value on the first day of January next preceding of the said number of cars necessary to provide for the mileage to be reported as required by paragraph six of this section.

Ninth—The real estate, personal property, structure, machinery, fixtures and appliances owned by said company, subject to local taxation within the state, and the location and the actual value thereof in the county, township or district where the same is assessed for local taxation.

Sec. 1342-c. Upon the filing of such statements the executive council shall examine each of them, and if he (they) shall deem the same insufficient, or if they fail to fully set out the matters required to be reported, it shall require such officer or agent to make such other and further statements as to such matters as he (they) may deem proper. In case of the failure or refusal of any company to make and deliver to the executive council any statement or statements required by this act, such company shall forfeit and pay to the state of Iowa one hundred dollars each day such report is delayed beyond the first Monday of June, to be sued and recovered in any proper form or action, in the name of the state of Iowa, and such penalty when collected shall be paid into the general fund of the state.

Sec. 1342-d. Upon the meeting of the executive council on the second Monday in July each year; it shall value and assess as the property of said company within this state, the cars of the said company, necessary, under the circumstances ordinarily attending the use of such cars, for the mileage to be reported under paragraphs six and seven of Section two of this act, after examining such statements and after ascertaining the actual values of said property of such company therefrom, and from such other information as it may have or obtain. For that purpose the executive council may require such company by its agents or officers, to appear before said council with such books, papers, or additional statements as the council may require, and may compel the attendance of witnesses in case said council shall deem it necessary to enable it to ascertain the actual value of such property. From the entire actual value of the property within the state so ascertained there shall be deducted by the said council the actual value of all cars locally assessed, and one-fourth of the residue of such

actual value so ascertained, shall be by the executive council assessed to said company.

Sec. 1342-e. The council shall also at said meeting determine the rate of tax to be levied and collected upon said assessments, which shall be equal, as nearly as may be, to the average rate of taxes, state, county, municipal and local, levied throughout the state during the previous year, which rate shall be ascertained from the records and files in the auditor's office, and said tax shall be in full of all taxes except on real estate, personal property locally assessed, and special assessments, and shall become due and payable at the state treasury on the first day of February following the levy thereof, and if not so paid, the state treasurer shall collect the same by distress and sale of any property belonging to such company in the state in the same manner as is required of county treasurers in like cases; and the order of the executive council in such cases shall be sufficient authority therefor.

Sec. 1342-f. The word "company" as used in this act, shall be deemed and construed to mean any person, co-partnership, association, corporation, or syndicate that may own or operate, or be engaged in operating, furnishing or leasing cars, as defined and described in section one of this act, whether formed or organized under the laws of this state, or any other state or territory, or any foreign country.

CLASSIFICATION.

Sec. 2976. All railroads of the state shall be classified in accordance with the gross amount of their several annual earnings within the state, per mile, for the preceding year, as follows: Class "A" shall include those whose gross annual earnings per mile shall be four thousand dollars or more; class "B" shall include those whose gross annual earnings per mile shall be three thousand dollars or any sum in excess thereof less than four thousand dollars; class "C" shall include those whose gross annual earnings per mile shall be less than three thousand dollars. In determining the classification of any railroad, the entire property owned, or operated by any company shall be considered as a single railroad, and the aggregate gross earnings of the entire railroad within the state shall be divided by the entire mileage owned or operated within the state to ascertain the gross earnings per mile of such railroad. (22 G. A., ch. 102, * 1.)

Sec. 2977. All railroad corporations according to their classification as herein prescribed shall be limited to compensations per mile for the transportation of any person with ordinary baggage not exceeding one hundred and fifty pounds in weight as follows: Class "A," two cents; class "B," two and one-half cents; class "C," three cents; and for children twelve years of age or under one-half the rate above prescribed, provided, however, that every railroad corporation shall be entitled to charge a fare of not to exceed ten (10) cents for the transportation of each passenger with ordinary baggage for any distance not exceeding five miles. A charge of ten cents may be added to the fare of any passenger when the same is paid upon cars, if a ticket might have been procured within a reasonable time before the departure of the train, except in those cases where a minimum of ten (10) cents is charged for a distance of less than five miles as above provided. (22 G. A., ch. 102, * 2.)

Amendment. Section 1. Class "C" Railroads. That section twenty hundred and seventy-seven (2977) of the supplement to the code, 1912, be amended by adding thereto the following: "That all steam railroads operating wholly within this state, and not to exceed twenty-five (25) miles in length, shall be included in and classified as class "C" railroads." (27 G. A., ch. 237.)

Sec. 2978. The executive council shall at its regular meeting on the second Monday in July in each year classify the different railways, as provided by section two thousand and seventy-six (2076) of the code, from information as to gross earnings obtained from the annual reports of railways made to the executive council for assessment and taxation, if it shall be satisfied of the correctness of same, or from information obtained by said executive council from any other source, and when there shall be any change in classification, shall issue a certificate to any corporation or corporations, affected by such change, certifying the class to which they are respectively assigned; any change of rate by any corporation pursuant to any change of classification shall take effect and be in force from and after the date of such certificate. (26 G. A., ch. 76.)
