THE BIENNIAL REPORT OF THE IOWA BOARD OF PHARMACY

This report covers the period from June 30, 1922, to July 1, 1924. This is the banner report of this department since its organization in 1880.

The receipts for this period were \$86,996.00, which is an increase of \$7,207.00 over our last report in 1922, and \$12,878.50 over the report of 1920.

The largest increase came from the Itinerant Vendor fees, which was \$7,400.00 over the preceding report.

The members of the board still feel that their time is too limited to serve in their official capacity, the best interests of the state.

Economy in the matter of a few extra days in their time, might mean a much larger loss to the state in revenue, as well as violators going unpunished.

The members have been active in their territory, and we believe there has been less complaint sent to the office of the secretary during the past two years, than has been received in any like period.

In this report we have recorded the names and addresses of all our registered pharmacists now in good standing.

The total number being 4,274.
