INSURANCE DEPARTMENT OF IOWA, DES MOINES

HON. N. E. KENDALL, *Governor of Iowa*.

Sir: As required by law, I have the honor to transmit herewith Volume II of the fifty-fifth annual report of the Insurance Department of Iowa, covering the transactions of life insurance companies, assessment life associations and fraternal beneficiary societies authorized to transact business in Iowa, and as shown by their annual statements filed with the Department for the period ending December 31, 1923.

The life insurance business during the year 1923 has made remarkable progress. The gain of insurance in force of legal reserve companies licensed to do business in Iowa as shown by this report is practically twice the gain of insurance in force during the year 1922. That the Iowa companies have shared in this gain is shown by the fact that the insurance of Iowa companies in force in other states is in excess of the insurance in force of Non-Iowa companies in Iowa. At the close of the year 1923 the securities on deposit with this department were \$187,480,759.77. This represents a gain over the previous year of \$17,688,324.05 and is practically twice the amount on deposit in 1918.

RECOMMENDATIONS

The provision regarding securities purchased by insurance companies should be changed so that no loan could be made by companies, to other companies or organizations with the same officers and directors. The Commissioner should be given authority to employ appraisers to make physical examinations of the real estate owned by the companies and that securing the loans held by the companies. It has been evident in some instances that proper appraisals have not been offered by the companies, and a law giving the department the opportunity, when deemed advisable, to make such appraisals would tend to make the companies more careful in the selection of loans.

Many changes should be made regarding the regulation of fraternal societies and admission of such societies to this state. No society should be admitted to this state in the future unless all of its business is based on adequate rates, with reserves not less than the National Fraternal Congress Table at 4% full preliminary term plan. In case loan or cash values or other non-forfeiture options are offered the rates should be based on a table not less than the American Experience 4% full preliminary term. The

plan of policies which fraternals may offer should be limited to Whole Life Policies, Limited Pay Life, Term and Continuous Premium Endowment policies providing for maturity at an age not less than 65. All fraternal certificates should be filed with and approved by the Insurance Commissioner before issued by the societies. All changes in by-laws or articles of incorporation should be approved by the Commissioner before being put into effect by the society.

The provisions regarding valuation of policies by legal reserve companies should be brought up to date in order to cover the various forms of policies now issued by insurance companies. The American Experience Table at 3½% with modifications similar to the Illinois Standard Basis should be prescribed as the minimum valuation basis. In case of group policies with rates fixed for a period not longer than five years, the American Men's Table at 3½% may be safely specified.

A law should be enacted concerning receivership in the case of insolvent companies. Provisions should be made that the head of the Insurance Department under the direction of the court should be the receiver in all cases where one is necessary. This would insure a receiver who is familiar with insurance matters and result in greatly lessened expenses and more efficient handling of insolvent companies.

The present statutes should be amended conferring upon the Commissioner of Insurance the power to remove officers and directors of insurance companies for mismanagement, by proper proceedings in court.

A company should not be permitted to reduce its capital stock without permission of three-fourths of the stockholders of the company. This action should be under the supervision of and with the approval of the Insurance Commissioner.

A great many other sections of life insurance law should be amended and revised to meet the new conditions. There are many nominal changes which might be made to clarify the existing law and more clearly define the procedure to be followed by those who conduct the insurance business.

Respectfully submitted,

Commissioner of Insurance.

EXAMINATION OF ASSOCIATIONS TO TWENTY-EIGHT

Insurance companies, both mutual and stock, are required to file annually a statement of assets and liabilities, and to pay into an insurance fund of monies collected by the company for the payment of death losses.

EXAMINATION COMMENTS

AMERICAN LIFE INSURANCE COMPANY OF DES MOINES, IOWA

The business of this company was reinsured by the American Life Insurance Company of Detroit, Michigan, effective August 1, 1921. This contract was approved by the Insurance Departments of Michigan and Iowa. At that time practically all of the assets of the American Life of Des Moines and all of its liabilities, excepting liabilities to stockholders, were taken over by the American Life of Detroit. The American Life of Des Moines, however, on account of conditions which arose, continued to write new business in a few states. The Des Moines company operated in the states of Washington and North Dakota until December 31, 1922, when the business then outstanding was reinsured by the Detroit Company and the writing of new business discontinued in all states except Washington.

On September 30, 1923 the business of the Des Moines Company was taken over by the Detroit Company and no new business thereafter was written by the Des Moines Company. On December 31, 1922, the Detroit Company reinsured business amounting to \$904,269.90 of the Des Moines Company and on September 30, 1923, \$100,300.00 of the Des Moines Company business was taken over.

BANKERS LIFE COMPANY, DES MOINES, IOWA

The report covers the period of January 1, 1921, to January 1, 1923. Extensive test checks were made of all income. All disbursements for certain selected months were checked in detail and a careful inspection made of the other disbursements.

This company was incorporated in October, 1911, as a mutual, legal reserve level premium, life insurance company, being a reorganization of the Bankers Life Association, an assessment life association. The Articles of Incorporation of the Bankers Life Company provide that the funds of the Association shall be kept separate and distinct on its books and shall be designated as the Guarantee Fund, the Benefit Fund, the Reserve Fund and the Contingent Fund. The Guarantee Fund consists of the deposits pledged by each member of the Association for the prompt payment of assessments. The Benefit Fund consists of all moneys collected for the payment of losses occasioned by the deaths of members of the Association. The Reserve Fund consists of all guarantee deposits forfeited by lapsed members, and the interest accruing from all funds of the Association of whatever nature; all gains, discounts and margins realized on the sale of Bonds and Mortgages and on Real Estate taken under foreclosure

or otherwise and all unused surplus arising from the Contingent Fund and all other sources. This reserve is set apart as an emergency fund for the purpose of providing for death losses in excess of one per cent per annum of the membership of the Association, and for the further purpose of temporary advances for the payment of death losses when the Benefit Fund is exhausted. The Contingent Fund consists of all moneys collected for the purpose of defraying the expenses connected with the transaction of the business of the Association.

These funds are being handled in strict accordance with the company's Articles of Incorporation. The Benefit Fund has shown no balance since 1918 as collections have been insufficient to pay the losses. This deficiency has been met by drawing on the Reserve Fund.

The Company has an adequate system of account and the books and records are handled in an efficient and satisfactory manner. A very substantial increase was made in the amount of insurance in force and a corresponding increase in the Company's surplus funds.

The Company has responded liberally in its dealings with both assessment certificate holders and policyholders, and recognizes its legal and moral obligations.

CEDAR RAPIDS LIFE INSURANCE COMPANY,
CEDAR RAPIDS, IOWA

The examination covers the period of May 1, 1921, to June 30, 1923. Assets were verified and liabilities determined as of the latter date. A statement prepared gives the admitted assets as \$1,874,758.15; liabilities as \$1,668,820.91, and the surplus, including \$100,000.00 of stock capital, as \$205,937.24.

The company's investments meet the statutory requirements. It is conservatively managed and has had a favorable growth. Death claims are paid promptly and in accordance with the policy contract.

CENTRAL LIFE ASSURANCE SOCIETY OF THE U. S. (MUTUAL)
DES MOINES, IOWA

The examination covered the two year period of June 30, 1921, to June 30, 1923. Items of income and disbursements during that period were carefully checked. Assets were verified and liabilities determined as of the latter date.

The Company makes a physical allocation on its books, between the participating and non-participating departments consisting of all items which may be traced directly to a policy, such as premium income, actual and expected mortality, interest required to maintain the reserve, surrendered and lapsed policies, total and permanent disability benefits and additional accidental death benefits, agents commissions, taxes on premiums, etc. All other items of income, disbursements, assets and liabilities which could not be directly allocated to one or the other departments are apportioned on a percentage basis. The examiners gave special attention to the various percentages used by

the company in making the division between the two Departments. The methods employed in arriving at the percentages seem fair and equitable to both Departments and it is evident that the Company has exercised due care in making the calculations.

The Company now issues the usual line of annual dividend participating insurance including child's endowment and insurance on joint lives. All policy forms now in use have been approved by the Iowa Insurance Department.

Dividends are paid on the first policy year but are contingent upon the payment of the second year's premium. The second and subsequent annual dividends are due at the end of the policy year and are not contingent on the payment of the next year's premium.

The company's deferred dividend liability is computed on the individual policies in the correct manner which method was adopted in 1921. In arriving at the amount allocated to each policy in 1921, proper account was taken of annual dividends paid to policies in a similar class since date of issue and the tontine additions were distributed with the idea of grading the amounts according to age and length of time insured. Since 1921 there has been an annual distribution made for all deferred dividend policies. The amount allotted to each policy is carried forward at 5 1/4% interest and the dividend paid to corresponding annual dividend policies is credited to the policy. The tontine addition arising from the forfeitures through lapse, surrender or death before the end of the deferred period is also allotted to each policy on a percentage basis depending on the total previous credit to each policy.

In accordance with its contract of reinsurance with the Central Life Assurance Society of the U. S. (Stock), the company has disbursed the following amounts to the stockholders of that company: Feb. 15, 1921: \$209,052.33; Feb. 15, 1922: \$239,912.52; Feb. 15, 1923: \$239,215.04.

The financial statement prepared by the examiners as of June 30, 1923, give the surplus of the company as \$1,251,430.59.

It has had a very satisfactory growth, and as of the date of the examination, Sept. 30, 1923, it had in force insurance in the amount of \$26,721,848. A statement prepared by the examiners as of that date showed the company had a surplus of \$45,593.21.

HAWKEYE LIFE INSURANCE COMPANY
DES MOINES, IOWA

Under the Company's original plan of operation the first 4000 policies issued were to be in the amount of \$5000 each on condition that the applicant subscribed for fifty shares of its stock at the rate of \$2.00 per share, or \$100.00. The Company would take the applicant's note for \$100.00 bearing interest at the rate of 5% which was to be paid for out of dividends earned by the policy.

The first 100,000 shares of stock—par value, \$1.00 per share—were paid for at \$1.50 per share by a syndicate, the stock issued to the members of the syndicate in the proportion of their individual contributions thereto, and held in trust by the Bankers Trust Company as trustee. As the policyholders' subscription notes were paid, the stock was to be transferred to them from the shares in the names of the syndicate holders. Of the \$100 paid on each such note \$75.00 was to be retained by the syndicate and \$25.00 was to be paid into the surplus of the company.

A statute enacted by the 39th General Assembly prohibited the sale of stock in connection with insurance which became effective, with respect to companies already operating, on the expiration of the 1921 certificate of authority. Therefore, in the case of the Hawkeye Life, such sales could not be made after March 31, 1922. The number of policies sold on this plan was 2011, of which 1419 were in force on March 31, 1923. Of the 592 terminations, 12 were death and 580 were lapses. In case of lapse of these policies, the stock subscription is cancelled and the stock resold. No action has yet been taken to establish the price at which such sale should be made and to the date of this examination none of the stock has been offered for sale. In case of death the beneficiary may purchase the stock by paying the note and in all cases to date the stock has actually been so purchased.

The original authorized capital of the Company was 200,000 shares of \$1.00 par value, but by the adoption of an amendment to the Articles of Incorporation, August 18, 1922, it was reduced to \$100,600, which was the amount actually paid up at that time.

All business in force is participating. In accordance with the terms of the charter membership contracts, dividends to this class of policies shall be payable as follows: From the dividend apportioned for the second policy year, 60% shall be paid in cash and 40% carried to the unassigned surplus of the company; for the third year 70% cash and 30% to surplus; for the fourth year, 80% cash and 20% to surplus; for the fifth year 90% cash and 10% surplus; and after the fifth year the full amount of the yearly dividends shall be payable to the

policyholder. That portion of the annual dividends payable to the insured in conformity with the above schedule is to be applied to the payment of principal and interest of stock subscription notes until these are fully paid.
