J

LETTER OF TRANSMITTAL

Honorable John Hammill, Governor, and the General Assembly  
of Iowa:

In compliance with the provisions of Section 3285 of the Code  
of 1927, the Board of Control of State Institutions has the honor  
to present herewith the Seventeenth Biennial Report for the period  
ending June 30, 1930.

Respectfully submitted,

A. M. McCOLL, Chairman,  
C. M. ROBERTS,  
O. H. MICHAEL,

Board of Control of State Institutions, Des Moines, Iowa, De-  
cember 24, 1930.

BOARD OF CONTROL OF STATE INSTITUTIONS

State House, Des Moines, Iowa

MEMBERS AND OFFICERS OF THE BOARD

A. M. McCOLL, Chairman..... Woodward  
C. M. ROBERTS..... Independence  
O. H. MICHAEL..... Ottumwa  
E. J. HINES, Secretary..... Des Moines

*Office Force*

H. L. SHROPSHIRE..... Purchasing Agent  
ROSALYN BRIEN..... Assistant Purchasing Agent  
R. R. BOVEY..... Chief Accountant  
J. F. BURKE..... Assistant Accountant  
MILDRED RUFFNER..... Assistant Accountant  
H. J. LIEBBE..... Architect  
ANDREW OLSON..... Assistant Architect  
EDWIN ELLIS..... Draftsman  
JAMES E. MILLER..... Draftsman  
MABEL BRISTOL..... Statistician  
GRACE BURLINGHAM..... Estimate Clerk  
CLARISSA GIBSON..... Assistant Estimate Clerk  
CELIA HAYES..... Parole Clerk  
ELIZABETH GEER..... File Clerk  
LUELLA HAYES..... Stenographer

LIST OF INSTITUTIONS UNDER THE CONTROL OF THE BOARD OF  
CONTROL OF STATE INSTITUTIONS

Soldiers' Home .....	Marshalltown
B. C. Whitehill, Commandant	
Soldiers' Orphans' Home .....	Davenport
R. E. Zerwekh, Superintendent	
Juvenile Home .....	Toledo
Mary E. Dugan, Superintendent	
Institution for Feeble-minded Children .....	Glenwood
George Mogridge, M. D., Superintendent	
State Sanatorium for the Treatment of Tuberculosis .....	Oakdale
J. A. Edwards, M. D., Superintendent	
Training School for Boys .....	Eldora
O. S. Von Krog, Superintendent	
Training School for Girls .....	Mitchellville
Ray M. Hanchett, Superintendent	
Mount Pleasant State Hospital (for insane) .....	Mount Pleasant
M. C. Mackin, M. D., Superintendent	
Independence State Hospital (for insane) .....	Independence
R. A. Stewart, M. D., Superintendent	
Clarinda State Hospital (for insane) .....	Clarinda
Max E. Witte, M. D., Superintendent	
Cherokee State Hospital (for insane) .....	Cherokee
George Donohoe, M. D., Superintendent	
Hospital for Epileptics and School for Feeble-minded .....	Woodward
M. N. Voldeng, M. D., Superintendent	
State Penitentiary .....	Fort Madison
T. P. Hollowell, Warden	
Men's Reformatory .....	Anamosa
J. N. Baumel, Warden	
Women's Reformatory .....	Rockwell City
E. Pauline Johnston, Superintendent	

REPORT OF BOARD OF CONTROL OF STATE  
INSTITUTIONS

GENERAL STATEMENT

The personnel of the board remains the same with the exception that O. H. Michael of Ottumwa was appointed for the term of six years beginning July 1, 1929.

APPOINTMENTS BY THE BOARD

R. A. Stewart, M. D., was reappointed superintendent of the Independence State Hospital for a term of four years, beginning July 1, 1930.

E. Pauline Johnston was reappointed superintendent of the Women's Reformatory at Rockwell City, for a term of four years beginning May 1, 1930.

J. A. Edwards, M. D., was appointed superintendent of the State Sanatorium at Oakdale, July 1, 1930, to succeed H. V. Scarborough, resigned, for the unexpired term ending February 1, 1932.

Mary E. Dugan was appointed superintendent of the Juvenile Home at Toledo for a term of four years beginning September 1, 1928.

Lillian E. Kittoe was appointed state agent to succeed Olive M. Hastings, July 15, 1928.

Carrie M. French was appointed state agent to succeed Mary E. Dugan, September 1, 1928.

Helen M. Needles was appointed state agent to succeed Hattie M. Aldridge, December 1, 1928.

Elizabeth Kauffman was appointed as an additional state agent, July 1, 1929.

Edna Morgan was appointed state agent to succeed Lelia E. Cagley, December 1, 1929.

Maude DeWitt was appointed state agent to succeed Julia H. Watson, deceased, January 1, 1930.

Hollis L. Miles was appointed state agent to succeed F. M. Hoeye, deceased, January 23, 1930.

Ila Fay Atkinson was appointed state agent to succeed Edna Morgan, February 1, 1930.

Edna M. Shutt was appointed state agent to succeed Elizabeth Kauffman, June 16, 1930.

The population in residence at each institution on June 30, 1930, was as follows:

Institutions	Male	Female	Total
Soldiers' Home	193	178	371
Soldiers' Orphans' Home	373	216	589
Juvenile Home	150	101	251
Institution for Feeble-minded Children	518	838	1,356
State Sanatorium	140	181	321
Training School for Boys	516		516
Training School for Girls		197	197
Mount Pleasant State Hospital (Insane)	724	663	1,387
Mount Pleasant State Hospital (Inebriate)	33	4	37
Independence State Hospital (Insane)	769	672	1,441
Independence State Hospital (Inebriate)	19	2	21
Clarinda State Hospital (Insane)	782	643	1,425
Clarinda State Hospital (Inebriate)	9	1	10
Cherokee State Hospital (Insane)	770	628	1,398
Cherokee State Hospital (Inebriate)	1	1	2
Hospital for Epileptics and School for Feeble-minded (Epileptic)	303	195	498
Hospital for Epileptics and School for Feeble-minded (Feeble-minded)	210	106	316
State Penitentiary	1,293		1,293
Men's Reformatory	1,293		1,293
Women's Reformatory		102	102
	8,228	4,818	13,046

The following table gives the average population of each institution for the biennial period just ended; also a statement of the amounts expended for salaries, support and maintenance, together with the amounts paid from special funds for new buildings and equipment:

Institutions	Average Population	Salaries Support and Maintenance	Special Funds
Soldiers' Home	418	\$ 494,441.04	\$ 6,451.61
Soldiers' Orphans' Home	543	376,040.59	51,107.63
Juvenile Home	256	221,176.83	90,280.23
Institution for Feeble-minded Children	1,599	834,656.90	
State Sanatorium	312	515,242.05	29,314.00
Training School for Boys	486	384,202.85	56,224.41
Training School for Girls	184	200,308.09	4,796.76
Mount Pleasant State Hospital	1,389	714,830.27	188,103.53
Independence State Hospital	1,436	790,830.80	37,732.73
Clarinda State Hospital	1,418	747,349.64	9,113.40
Cherokee State Hospital	1,357	732,405.62	35,218.46
Hospital for Epileptics and School for Feeble-minded	897	655,528.53	15,527.76
State Penitentiary	1,164	870,140.53	1,327,617.29
Men's Reformatory	1,142	777,125.54	909,426.66
Women's Reformatory	101	132,521.21	9,899.35
	12,592	\$8,416,300.40	\$ 2,765,515.55

## INSTITUTION EXECUTIVE OFFICERS

Names	Titles	Institutions	Terms Expire
B. C. Whitehill	Commandant	Soldiers' Home	Mar. 31, 1932
H. E. Zerwekh	Superintendent	Soldiers' Orphans' Home	Mar. 31, 1932
Mary E. Dugan	Superintendent	Juvenile Home	Aug. 31, 1932
J. A. Edwards	Superintendent	State Sanatorium	Jan. 31, 1932
George Mogridge	Superintendent	Institution for Feeble-minded Children	June 30, 1931
O. S. Von Krog	Superintendent	Training School for Boys	Aug. 31, 1931
Ray M. Hanchett	Superintendent	Training School for Girls	Mar. 31, 1931
M. C. Mackin	Superintendent	Mount Pleasant State Hospital	Mar. 31, 1932
R. A. Stewart	Superintendent	Independence State Hospital	June 30, 1934
Max E. Witte	Superintendent	Clarinda State Hospital	Sept. 30, 1934
George Donohoe	Superintendent	Cherokee State Hospital	Feb. 28, 1931
M. N. Yoldens	Superintendent	Hospital for Epileptics and School for Feeble-minded	Feb. 28, 1931
T. F. Hollowell	Warden	State Penitentiary	April 30, 1932
J. N. Baumel	Warden	Men's Reformatory	Dec. 31, 1931
E. Pauline Johnston	Superintendent	Women's Reformatory	April 30, 1934
The other officers are:			
Mae Habenicht, M. D.	Superintendent	Bureau of Child Welfare	July 1, 1931
Is Fay Atkinson	State Agent	Bureau of Child Welfare	Term indefinite
Maude DeWitt	State Agent	Bureau of Child Welfare	Term indefinite
Carrie M. French	State Agent	Bureau of Child Welfare	Term indefinite
Elma B. Huestis	State Agent	Bureau of Child Welfare	Term indefinite
Lillian E. Kittoe	State Agent	Bureau of Child Welfare	Term indefinite
Edna M. Shutt	State Agent	Bureau of Child Welfare	Term indefinite
Grace B. Paddock	State Agent	Training School for Girls	Term indefinite
T. H. Stone	State Agent	Training School for Boys	Term indefinite
H. L. Miles	State Agent	Training School for Boys	Term indefinite
C. E. Ramsey	Inspector	County homes, etc.	Term indefinite

In our last report we told of the crowded conditions existing in our institutions at the close of the biennial period. The situation is much worse now than at that time. Appropriations were made by the last general assembly for new buildings at Woodward, at Toledo, and a new cell house at Anamosa. These buildings are now under construction, but when completed they will only accommodate the overflow and the waiting lists.

At the present time, in our institutions we are caring for about four per cent more people, above the capacity of the institutions. The last census report for this state shows quite an increase in population, and with this increase more people will be needing institutional care. Unless additional buildings are erected at practically all of the institutions, we will not be able to receive them.

During the past year it has been necessary for county officials to make reservations in advance, and in many instances wait several months before patients could be received. The situation has become serious. The budget director and the general assembly should give very special attention to the requests for new buildings to relieve these crowded conditions.

was constructed during the period, and the new buildings will help greatly in relieving the congested conditions which existed prior to their opening.

Other improvements and repairs include the replacing of the iron smokestack on the power plant, with one of brick.

The main building has been remodeled and made into a dining room for children and employees.

A new bake oven, electrically equipped, has been installed making it possible to furnish the children with fresh baked food daily.

A new cold storage plant 7x9 feet provides ample space for milk, vegetables, fruit and meat.

A small greenhouse was purchased at a low cost which enables the gardener to start flowers and plants early for spring planting. The acreage for garden space has been enlarged and the surplus vegetables canned for winter use.

During the past year, a number of prisoners from the State Penitentiary have been employed at the Home, in landscaping and beautifying the grounds.

#### INSTITUTION FOR FEEBLEMINDED CHILDREN, GLENWOOD

At the Institution for Feeble-minded Children nearly all of the buildings were constructed many years ago, and naturally it is necessary to spend a considerable amount of money each year in repairing and painting buildings, also in replacing machinery and equipment.

During the past two years it was necessary to expend \$1,612.00 for repairs to laundry equipment.

In the engineer's department, \$10,619.00 was used for a new pump at the main plant, re-boring Corliss engine and new piston shaft, and the re-laying of many steam and water lines.

In repairing buildings, it was necessary to purchase lumber, cement and gravel amounting to approximately \$11,000.00. Paint and glass purchased cost \$2,385.00, making a total of \$25,395.00 for repairs in two years for an institution caring for an average of 1,600 people.

#### STATE SANATORIUM, OAKDALE

The State Sanatorium for the treatment of tuberculosis, like all of the other institutions, is filled to capacity with patients, and a great many applicants waiting for admission.

The diet kitchen authorized by the forty-third general assembly has been completed and equipped. This improvement was greatly

needed in connection with the preparation of food for the patients. Practically all of the patients cared for in this institution require a special diet which varies considerably according to the condition of the patient.

The new heating line from the power house to the hospital building has also been completed and is now in use. Both of these appropriations were not available until July 1, 1930. However, by consent of the governor and the budget director, we were permitted to use the amounts for these purposes from the special emergency fund, returning the money to this fund from the appropriations as soon as the funds could be used for this purpose.

Appropriations for the greenhouse, replacing heating and water connections and coal bunkers, were not used during the period. This work will be carried on to completion this year. A new poultry house is in the process of construction and will aid materially in furnishing fowl for the use of the institution. An irrigating system has been placed in the garden to insure a more plentiful supply of vegetables.

Other minor repairs have been made to buildings at the institution, the thought being to keep the buildings in the best state of repair with the money available for this purpose.

#### TRAINING SCHOOL FOR BOYS, ELDORA

The population at the Training School for Boys has increased considerably, the increase averaging approximately 75 more than during the last period.

The new cottage authorized by the forty-second general assembly has been completed and is now occupied. A new engine and generator have been installed in the power plant. For repairs to buildings and equipment which included some new machinery, \$24,973.77 was expended.

There are wonderful possibilities for an institution of this kind in training boys in certain lines of trade, to make them useful citizens when they are released.

#### TRAINING SCHOOL FOR GIRLS, MITCHELLVILLE

The new sewage disposal plant authorized for the Training School for Girls, was completed sometime ago and is now in operation. This was a much needed improvement. During the period a number of necessary minor repairs were made to buildings and equipment which consisted of a new unit being added to the present greenhouse, the dairy barn was enlarged to care for the increase

was constructed during the period, and the new buildings will help greatly in relieving the congested conditions which existed prior to their opening.

Other improvements and repairs include the replacing of the iron smokestack on the power plant, with one of brick.

The main building has been remodeled and made into a dining room for children and employees.

A new bake oven, electrically equipped, has been installed making it possible to furnish the children with fresh baked food daily.

A new cold storage plant 7x9 feet provides ample space for milk, vegetables, fruit and meat.

A small greenhouse was purchased at a low cost which enables the gardener to start flowers and plants early for spring planting. The acreage for garden space has been enlarged and the surplus vegetables canned for winter use.

During the past year, a number of prisoners from the State Penitentiary have been employed at the Home, in landscaping and beautifying the grounds.

#### INSTITUTION FOR FEEBLEMINDED CHILDREN, GLENWOOD

At the Institution for Feeble-minded Children nearly all of the buildings were constructed many years ago, and naturally it is necessary to spend a considerable amount of money each year in repairing and painting buildings, also in replacing machinery and equipment.

During the past two years it was necessary to expend \$1,612.00 for repairs to laundry equipment.

In the engineer's department, \$10,619.00 was used for a new pump at the main plant, re-boring Corliss engine and new piston shaft, and the re-laying of many steam and water lines.

In repairing buildings, it was necessary to purchase lumber, cement and gravel amounting to approximately \$11,000.00. Paint and glass purchased cost \$2,385.00, making a total of \$25,395.00 for repairs in two years for an institution caring for an average of 1,600 people.

#### STATE SANATORIUM, OAKDALE

The State Sanatorium for the treatment of tuberculosis, like all of the other institutions, is filled to capacity with patients, and a great many applicants waiting for admission.

The diet kitchen authorized by the forty-third general assembly has been completed and equipped. This improvement was greatly

needed in connection with the preparation of food for the patients. Practically all of the patients cared for in this institution require a special diet which varies considerably according to the condition of the patient.

The new heating line from the power house to the hospital building has also been completed and is now in use. Both of these appropriations were not available until July 1, 1930. However, by consent of the governor and the budget director, we were permitted to use the amounts for these purposes from the special emergency fund, returning the money to this fund from the appropriations as soon as the funds could be used for this purpose.

Appropriations for the greenhouse, replacing heating and water connections and coal bunkers, were not used during the period. This work will be carried on to completion this year. A new poultry house is in the process of construction and will aid materially in furnishing fowl for the use of the institution. An irrigating system has been placed in the garden to insure a more plentiful supply of vegetables.

Other minor repairs have been made to buildings at the institution, the thought being to keep the buildings in the best state of repair with the money available for this purpose.

#### TRAINING SCHOOL FOR BOYS, ELDORA

The population at the Training School for Boys has increased considerably, the increase averaging approximately 75 more than during the last period.

The new cottage authorized by the forty-second general assembly has been completed and is now occupied. A new engine and generator have been installed in the power plant. For repairs to buildings and equipment which included some new machinery, \$24,973.77 was expended.

There are wonderful possibilities for an institution of this kind in training boys in certain lines of trade, to make them useful citizens when they are released.

#### TRAINING SCHOOL FOR GIRLS, MITCHELLVILLE

The new sewage disposal plant authorized for the Training School for Girls, was completed sometime ago and is now in operation. This was a much needed improvement. During the period a number of necessary minor repairs were made to buildings and equipment which consisted of a new unit being added to the present greenhouse, the dairy barn was enlarged to care for the increase

in the number of cattle, and some improvements were made to the horse barn. All farm buildings were repainted during the period.

A new cement walk and curb around the campus was laid, replacing the old cinder paths that had been in use for many years. The drives between the curbs will be filled with crushed rock and cinders in the near future. Two of the cottages have been redecorated, the roof on the main building at the power plant was raised and a new water softener has been installed.

All of the above improvements were paid for from the support fund except the sewage disposal plant for which there was an appropriation of \$8,000.00.

#### MOUNT PLEASANT STATE HOSPITAL, MOUNT PLEASANT

During the period, no new buildings have been erected at the Mount Pleasant State Hospital, although considerable repair work was necessary to properly maintain the institution. The total amount spent for this purpose amounted to \$12,327.89, which included the purchase of lumber, paint, oil, and other building material.

The amount used for repairs to machinery and equipment was \$26,488.99.

It was also necessary to purchase new equipment as follows: fire pump, ice machine compressor, air compressor, vacuum pump and water heater, which equipment was all placed at the time the power plant was remodeled for which we had an additional special appropriation of \$20,000.00.

The water supply for which the forty-second and forty-third general assemblies made special appropriations totaling \$150,000.00 has been completed, thus insuring the institution a full and adequate supply of water at all times. The hard water which has been used for many years caused considerable repairs on hot and cold water mains, making it necessary to replace thousands of feet of new pipe and fittings. Much of the old pipe when removed was almost completely filled with sediment.

#### INDEPENDENCE STATE HOSPITAL, INDEPENDENCE

Repairs to buildings and equipment at the Independence State Hospital for the period, include the relining, bracing and repainting of the ice house; and a number of minor repairs to the cold storage plant and slaughter house.

A new lumber shed has been built and equipped, plastering has been repaired and ten wards have been redecorated in the main

hospital building. A modern milk room has been constructed in the new dairy barn, equipped with a cherry tumbler cooler, aerator and frigidaire cooling plant. Necessary repairs have been made to other farm buildings.

It is our aim at all of the institutions to keep everything in good repair, as it not only improves the appearance but also extends the life of the buildings.

The new sewage disposal plant authorized by the forty-third general assembly has been completed and is now in operation. The new cold storage plant has been installed. This was greatly needed and will aid materially in caring for meat, fruit and vegetables.

Remodeling of the old dairy barn and the construction of a new root cellar are now in progress and will be completed and ready for use in the near future.

#### CLARINDA STATE HOSPITAL, CLARINDA

At the Clarinda State Hospital necessary material was purchased for use in rebuilding the horse barn at the Willowdale farm. The old building was entirely too small to meet the requirements.

In making the electric change-over, \$12,736.00 was used, in changing the electric current from direct current to alternating.

The additional land purchased by the last general assembly has been tilled at a cost of \$11,315.39. This improvement was necessary to insure crops. The last two seasons were almost complete failures due to wet weather.

The old dairy was moved and rebuilt on another location.

Two new silos were erected in connection with this building.

A considerable amount of the work was performed by patients under competent instruction.

#### CHEROKEE STATE HOSPITAL, CHEROKEE

At the Cherokee State Hospital, the addition to dairy barn, authorized by the forty-second general assembly has been completed at a cost of \$7,949.74. This improvement was greatly needed to care for the large herd of Holsteins.

Work has commenced on the remodeling of the main kitchen. This work will not be fully completed for some time.

The new hog house was built at a cost of \$10,863.99 and will be of great help in the operation of the farm.

Repairs to buildings for the period amounted to \$15,513.46.

\$25,009.83 was expended for repairs to machinery and the replacement of equipment.

Work will be started soon on the new laundry building and equipment, replacement of dumb waiter and remodeling of the old laundry building for a storeroom. This work will be carried out to completion as rapidly as possible.

The engine and generator authorized will also be installed in the near future.

#### HOSPITAL FOR EPILEPTICS AND SCHOOL FOR FEEBLEMINDED, WOODWARD

Construction work has been commenced on the new administration and school building, also on the new cottage at the Hospital for Epileptics and School for Feeble-minded, and when completed will aid greatly in relieving the overcrowded condition and also permit the superintendent to receive at least a part of the large number on the waiting list for admission.

Other improvements at this institution were not numerous but quite costly and consisted of a new tunnel connection with Oak Hall. The old tunnel was so small that it was impossible for workmen to get into it to make the necessary repairs. In making this improvement, all institution help was used. The expense for material and equipment was approximately \$8,600.00.

It was also necessary to purchase a new chlorinator for use in connection with the water supply.

Three farm houses located on the institution grounds were repaired and are now used by employees.

Work has started on the addition to the dairy barn and is fast nearing completion.

#### STATE PENITENTIARY, FORT MADISON

The population at the State Penitentiary, as at all of the other institutions, has increased greatly during the biennial period. From sixty to seventy-five men are now sleeping in the corridors, which we must admit is rather a serious situation. Commitments seem to be on the increase and when sentence has been pronounced there is nothing else to do but receive them at the penitentiary, regardless of the crowded condition.

A new cell block is being erected from the industry fund, which will care for approximately fifty men. When completed this will not care for more than the number of men now sleeping outside of cells. With new admissions being received daily something

should be done to remedy this condition. Some work has been done in changing the prison wall to give more yard space but because of other more urgent work, it has not been completed.

Work has started on the new dairy barn and will be carried on to completion as rapidly as possible.

All of the special improvements authorized by the forty-third general assembly, so far as completed, have been paid for from the industry fund. The money was used for the purchase of materials, as all of the work, with the exception of that of the foreman, has been done by prisoners.

#### MEN'S REFORMATORY, ANAMOSA

Many needed improvements have been made at the Men's Reformatory during the period. The new dairy barn for which special appropriations were made, has been completed and equipped. It is modern in every detail and a great help in handling the large dairy herd.

The modernization of the old cell house, while not fully completed, will bring this building up to the standard of present day sanitation. The new roof and gutter placed on the hospital for the criminal insane, was a much needed improvement and places this building in good condition. The new addition to the office in the administration building is completed and gives the clerical force two large, well-lighted working rooms that should and will add greatly to the efficiency of that department.

Construction work on the new cell house was started some time ago. This work is all being done by prisoners under competent foremen. The appropriation made for this improvement, however, will not be sufficient and it will be necessary to ask for an additional amount of money to complete and equip this building. The institution has enough men sleeping in the corridors of the main cell houses to fill this building when it is completed and ready for occupancy.

A full and complete report of the industries at the reformatory will be found elsewhere in this report. Practically all of the improvements made at this institution during the period, were paid for from earnings of the industries.

#### WOMEN'S REFORMATORY, ROCKWELL CITY

At the Women's Reformatory, the walls in cottages one, two and three; also the industrial and administration buildings were repaired and placed in first class condition.

The smokestack was repaired and repainted and a number of the windows in the different buildings were equipped with weather stripping.

A number of other repairs were made to buildings and equipment including the replacement of some machinery.

The total amount expended for such repairs and replacements, however, will not exceed \$7,000.00.

### PRISON INDUSTRIES

To keep men contented and in the right state of mind, especially prisoners confined in penal institutions, they must be kept busily engaged at some useful occupation. To attain this end the board of control has endeavored to establish industries that would not only be profitable to the state, but instruct the men along different lines that would be beneficial to them when released, and at the same time pay them a fair wage for their services.

Since our last report we have established several new industries. The principal one covers the weaving of cloth used in blankets, for toweling, ticking and many other similar items for use at all institutions, and gives employment to approximately 100 men, and as this industry is enlarged more men will be employed.

Equipment has been purchased and installed for the manufacture of all hose and underwear used at institutions. We are also making numerous sanitary supplies such as disinfectants, deodorizers, cleaning powder, insecticides, floor wax and many other items under the state use system.

All of the industries are in a prosperous condition and constant efforts are being made by the board of control to increase the state use system, whenever it is possible to do so.

During the two years, 1,484 prisoners were employed in the 24 industries at the State Penitentiary, the Men's Reformatory and the Women's Reformatory. The total sales from these industries was \$2,586,551.96. The prisoners were paid \$298,272.43, and the net profit to the state for the period was \$495,293.36.

### STATEMENT OF PROFITS, SALES, WAGES PAID PRISONERS AND PRISONERS EMPLOYED IN THE INDUSTRIAL DEPARTMENTS DURING THE BIENNIAL PERIOD ENDING JUNE 30, 1930

Departments	Prisoners Employed	Sales	Wages Paid Prisoners	Net Profit
Men's Reformatory				
Apron factory	422	\$ 258,633.81	\$ 99,803.28	\$ 141,156.71
Auto license and road markers	48	217,373.48	4,923.45	54,135.28
Tailoring	50	153,791.01	4,984.53	14,033.06
Printing and binding	43	38,865.38	3,298.84	8,159.46

## INSTITUTION FARMS

Farms operated at the fifteen state institutions during the past two years realized a total profit of \$522,016.18 from land owned by the state of 12,568 acres valued at \$2,781,648.20; also 3,335 acres of additional land rented.

Milk, eggs, meat, vegetables and fruit received from the farms reduces the cost of supporting the state institutions and at the same time, provides the inmates with healthy outside work.

An additional acreage of alfalfa, clover and soy beans has been added at a number of the institutions during the past two years.

Limestone from the state quarries has been used on the land at a number of the state farms.

## STATE CUSTODIAL FARM, CLIVE

The State Farm at Clive of 781 acres is operated in connection with the Men's Reformatory. Farm work, stock raising, and a dairy herd of 119 thoroughbred Holstein cows furnishes work for 20 prisoners. The milk is sold, and hogs are raised, fattened and sold.

The total amount of products from the farms, orchards and gardens since the last report is as follows:

Farm products (includes milk, \$443,352.84).....	\$ 816,107.06
Poultry yards .....	26,293.36
Live stock sold.....	226,898.82

DAIRY HERDS

Eight years ago the average milk produced per cow in the institution herds was 8,555 pounds. The last fiscal year the average per cow was increased to 11,610 pounds for 869 head.

One of the herds made what is believed to be the highest average production of any state owned herd in the country—14,478 pounds of milk from 57 cows. Also a large number of thoroughbred bulls, cows and heifers are sold each year.

Since our last report we have erected a creamery at the state farm at Clive, it being our purpose to furnish all of the institutions under the board of control with as much butter as we can produce. This plant has not been in operation long enough for us to give a detailed account of its operation.

We also produce nearly all of the cheese used at our institutions, at the Men's Reformatory, Anamosa.

COAL

The institutions under the board of control consumed approximately 125,000 tons of coal during each year of the biennial period, which called for an expenditure of funds greater than for any other single commodity purchased for institution use.

At our institutions it has been fully demonstrated that Iowa coal is very satisfactory for steam and power purposes and is equal if not superior to other coals purchased outside of the state.

It has been the policy of the board to purchase Iowa coal exclusively and this has been done in practically every instance except for institutions located near the Illinois coal fields, where the freight rate makes it impossible for the Iowa operators to compete.

In requesting bids, in each instance we require an analysis of the coal to be furnished. In making the awards the analyses are given careful consideration and we aim to purchase coal of the best quality and most suited for the different power plants to be served.

In making our purchases we aim to give each operator and dealer an opportunity to bid. At the same time in making the awards we aim to buy the best grade of coal at the lowest possible price. We try as far as possible in making the awards to divide the tonnage used, among the various districts where coal is mined, with the thought in mind of assisting as far as possible in keeping the

Iowa mines in operation the year round and in this way aid the men throughout the state who are engaged in this occupation.

Approximately \$500,000.00 is expended each year for coal delivered at the various institutions under our control. Of this amount \$200,000.00 covers freight charges. In other words it costs almost as much to deliver the coal at the institutions as the coal costs at the mine. It seems that the freight charges are excessive on coal. However, the rate is fixed and must be paid by the consumer.

The following table shows the quantity and value of coal purchased at the institutions during the biennial period ending June 30, 1930:

	Tons	Value
Iowa coal .....	229,572.00	\$ 814,056.17
Illinois .....	25,861.37	87,023.91
Miscellaneous coal .....	159.05	1,360.33
<b>Totals .....</b>	<b>255,592.42</b>	<b>\$ 902,440.41</b>

#### STATE ROADS

The following is a table showing the total expenditures of funds for maintenance of state roads at state institutions under the direction of the board of control, for the biennial period ending June 30, 1930:

Location	Mileage Maintained	Amount
Soldiers' Home .....	.65	.....
Soldiers' Orphans' Home.....	2.25	.....
Juvenile Home .....	1.70	.....
Institution for Feeble-minded Children...	3.50	\$ 954.93
State Sanatorium .....	2.00	1,374.39
Training School for Boys.....	2.50	273.18
Training School for Girls.....	1.35	.....
Mount Pleasant State Hospital.....	3.35	716.10
Independence State Hospital.....	6.75	5,082.49
Clarinda State Hospital.....	4.50	.....
Cherokee State Hospital.....	3.50	5,923.04
Hospital for Epileptics and School for Feeble-minded .....	6.00	5,416.58
State Penitentiary .....	3.25	1,625.04
Men's Reformatory .....	4.25	3,835.36
State Farm, Clive.....	2.75	1,068.80
Women's Reformatory .....	1.00	.....
<b>Totals .....</b>	<b>49.30</b>	<b>\$ 26,269.91</b>

#### COAL ROYALTIES

The coal royalties collected during the first year of the biennial period on coal mined under state lands at the fair grounds were \$3,608.99. The coal in the vein under state property having been exhausted, there were no royalties collected after June, 1929.

The total amount of royalties collected since the opening of the mine in 1919 is \$39,212.56. This has been turned over to the general revenue fund of the state.

#### PURCHASE OF SUPPLIES

Soon after its organization, the board of control established a purchasing department and inaugurated a systematic method of purchasing the supplies required by the various institutions.

This method of combined purchasing of all the supplies required for all of the institutions at one time and in one lot has effected a vast saving over the old method of haphazard purchasing in small quantities by the individual institutions who many times purchased their requirements locally, without inviting competition.

It might be of interest to note the yearly requirements on some of the larger items purchased by the board of control through its purchasing department, as follows:

Coal.....	242,000 tons
Sugar.....	750,000 lbs.
Flour.....	14,000 bbls.
Beef.....	1,150,000 lbs.
Pork products.....	520,000 lbs.
Coffee.....	180,000 lbs.
Beans, navy.....	100,000 lbs.
Rice.....	66,000 lbs.
Dried fruit.....	300,000 lbs.
Paper.....	3,000 reams
Canned goods.....	11,500 doz.
Worsted suiting.....	7,500 yds.
Sheeting.....	60,000 yds.
Blue denim.....	40,000 yds.
Shirting.....	60,000 yds.
Outing flannel.....	20,000 yds.
Auto plate steel.....	1,000,000 lbs.
Road marker steel.....	300,000 lbs.

The items of yard goods and steel cover raw material, the purchase of which was necessary for use in various industries established in compliance with the law. These industries are referred to in detail elsewhere in this report.

The different commodities purchased through this department

aggregate about \$3,000,000.00 annually, approximately 80 per cent of this business goes to Iowa dealers, jobbers and manufacturers.

It has been the policy of the board of control to favor Iowa concerns whenever and wherever possible to do so, and on an equal basis, Iowa firms are always awarded the business. It is not always possible, however, to procure the merchandise required within the state, in which case the purchase is necessarily made outside.

The quality of the goods purchased for the various institutions, we believe, is above the average purchased by other states. It has always been our policy, and we have found it to be a matter of economy, to purchase a good standard quality of merchandise rather than an inferior quality at a price.

We believe investigation will substantiate the statement that the inmates of the penal and charitable institutions of Iowa are as well clothed and fed as those of any other state in the Union.

#### BUREAU OF CHILD WELFARE

The Bureau of Child Welfare under the Board of Control of State Institutions was established as an expression of the desire of the people of Iowa to give assistance to children outside of state institutions and to help check conditions in communities which make for the breakdown of wholesome family life and the normal development of children into useful, self-supporting, happy citizens. To this end the bureau should give to individuals and local organizations constructive advice, and act as a clearing house of information to interested persons, organizations and public officials as to the best methods of developing social welfare work.

A constructive welfare program will decrease the large number of dependent and delinquent children coming to the county and state institutions for care, and decrease our mounting taxation. A wall of defense must be built to meet the growing tide of dependency and delinquency and crime.

In our ninety-nine counties less than one-third have organized welfare work and still fewer counties have a probation office. Many of these serve without salary and the majority of these are untrained for their important job of preventing children from becoming delinquent and assisting them to reconstruct their lives after becoming delinquent through carefully supervised probation.

The bureau serves the two state homes as a placing agency employing six state agents who act in the capacity of home-finders. They also do child placing and supervise all children placed in the

state. Since each agent has over two hundred children in her district, the difficulty of keeping in touch with each child sufficiently to supervise it is appreciated. A great deal of time also must be spent in finding new homes and interviewing interested people.

A study of juvenile courts and probation in the state was conducted under the National Probation Association. The report of this study is printed and available for those interested in welfare problems.

## REPORT OF CHILDREN UNDER SUPERVISION

Children under state supervision.....	7,151
Children in state institutions.....	841
Children in private institutions.....	1,005
Children in foster homes.....	5,225
State children in foster homes.....	1,225
Other children in foster homes.....	About 4,000
Juvenile court cases—87 counties.....	1,810
Unmarried mother cases for 1928.....	710

The above report reveals the gaps in our preventive social welfare program and where the weak spots are in our present day civilization.

The law providing for the license of children's boarding homes had never operated because of lack of personnel and sufficient budget but because of many outstanding cases of abuse of children living in boarding homes, it was deemed necessary to inspect such homes and issue licenses to those approved. We can only hope to call attention to the situation and decrease the number of bad boarding homes until provision is made to carry out the intent of this law.

Our welfare program should be extended to include the unmarried mother and her child.

No adoptive decree should be issued without first securing the approval of the Child Welfare Bureau.

Each county in the state should have the service of a welfare worker and a probation officer—they may be the same.

Vocational guidance and vocational education should be given every child who for any reason cannot receive the regular academic training our schools offer.

Nineteen child placing agencies are licensed under the bureau. Six maternity homes are licensed, four of which are licensed to do child placing also.

Twenty-six boarding homes are licensed in the state all but three of which are private homes giving home care.

## STATE AGENTS

The readjustment of the juvenile wards of the state from institution life back into normal home life is a most important work and for this purpose the board of control employs nine state agents. Six agents care for the work at the Soldiers' Orphans' Home and the Juvenile Home, two at the Training School for Boys and one at the Training School for Girls.

## INSPECTOR OF COUNTY HOMES AND PRIVATE INSTITUTIONS

All county and private institutions where insane persons are cared for, and private institutions for neglected, dependent and delinquent children, are subject to inspection semi-annually by the inspector under the board of control. The inspector reports to the board of control any irregularities that exist in connection with the sanitary conditions maintained in county homes and private institutions, and the care and treatment of the patients and children confined therein.

The changes as recommended by the inspector in his reports have in nearly every instance been complied with by the various boards of supervisors throughout the state, and the county officials have been very willing at all times to comply with requests for changes which would better conditions for the patients and children they have under their care and supervision.

The inspector visits sixty-eight county homes and five private institutions where insane persons are kept, and thirty-four homes where friendless girls and children are cared for.

## STATE INSTITUTIONS UNDER THE CONTROL AND MANAGEMENT OF THE BOARD OF CONTROL OF STATE INSTITUTIONS, THE EXECUTIVE OFFICERS OF EACH AND THE PROCEDURE WITH REFERENCE TO ADMISSIONS, PAROLES AND DISCHARGES

*Soldiers' Home, Marshalltown, B. C. Whitehill, Commandant.*

This home is for the care of soldiers and their wives. For admission apply directly to the commandant for application blanks. The applicant (unless he enlisted from Iowa) must have resided in the state three years continuously previous to the date of making application.

*Soldiers' Orphans' Home, Davenport, R. E. Zerwekh, Superintendent.*

Children may be admitted by court commitment or by order of the board of supervisors of the county where the children have residence. This home is intended particularly for the care of soldiers' orphans, although other orphaned and destitute children are received and cared for. All children are subject to placement and those who are not returned to their homes or the homes of relatives or friends are placed as soon as suitable homes can be found for them by the state agents, where they remain under the agent's supervision until they are twenty-one years of age. All

applications for admission are subject to the approval of the board of control.

*State Juvenile Home, Toledo, Mary E. Dugan, Superintendent.*

This institution is for dependent, neglected, delinquent, or destitute children, and admission is by court commitment or upon application to the board of supervisors of the county where the child resides. All applications must be approved by the board of control. Children are received between the ages of four and eighteen years and are subject to placement when suitable homes are found for them by the state agents, under whose supervision the children remain until they are discharged or are adopted by persons with whom they have been placed.

*Institution for Feeble-minded Children, Glenwood, George Mogridge, M. D., Superintendent.*

Admission to this institution may be either voluntary, by parents, guardian, or county attorney, or by petition presented to the district or juvenile court in the county where such persons reside. Releases or paroles are granted upon application to the board of control when such releases or paroles are recommended by the superintendent in charge of the institution. There are no restrictions as to the age of persons admitted to the institution.

*State Sanatorium for the Treatment of Tuberculosis, Oakdale, J. A. Edwards, M. D., Superintendent.*

Application for admission should be made to the superintendent of the sanatorium, who will furnish proper blanks. When the blanks are received the applicant should carefully fill them in, especially the blank calling for the report of the family or attending physician, and return the blanks to the superintendent. Upon receipt of the application blanks, if approved for admission, the superintendent will advise the applicant when he can be received.

*Training School for Boys, Eldora, O. S. Von Krog, Superintendent.*  
*Training School for Girls, Mitchellville, Ray M. Hanchett, Superintendent.*

Commitments to the training schools are made by the juvenile or district courts. Boys and girls are received between the ages of ten and eighteen years. When they have completed their training they are placed in homes on parole, where they remain under the supervision of state agents until they are discharged or returned to the school. A recent change in the law provides for notice to the county attorney in the county where commitment was made, thirty days prior to the date of final discharge.

*Mount Pleasant State Hospital, Mount Pleasant, M. C. Mackin, M. D., Superintendent.*

*Independence State Hospital, Independence, R. A. Stewart, M. D., Superintendent.*

*Clarinda State Hospital, Clarinda, Max E. Witte, M. D., Superintendent.*

*Cherokee State Hospital, Cherokee, George Donohoe, M. D., Superintendent.*

Commitments to the hospitals for the insane are made by the commissioners of insanity of the county where the patient resides. The commission has three members. The law requires that the clerk of the district court of the county be one member, the other two members being appointed by the district judge, one of whom must be a practicing attorney and the other a physician.

Paroles are granted by the board of control upon recommendation of the superintendent of the hospital with the consent of the commissioners of insanity, and are for a period of one year at which time if the patient has not been returned to the hospital, he is discharged or the parole is extended for a longer period.

When application is made for the discharge of a patient while on parole the patient must return to the hospital to be examined or may be examined by the commissioners of insanity or by any reputable physician. If examined by the commissioners of insanity, or physician, a statement of their findings must be sent to the superintendent of the hospital, and upon receipt of same by the superintendent, if favorable, he discharges the patient as cured or not cured, as the case may be.

*Hospital for Epileptics and School for Feeble-minded, Woodward, M. N. Voldeng, M. D., Superintendent.*

Procedure with reference to commitment and release of feeble-minded in this institution is the same as at Glenwood.

All persons wishing to be admitted for treatment of epilepsy must have resided in this state at least one year preceding the date of application for admission. Admission may be either through court commitment or voluntary. If voluntary, application blanks should be obtained from the superintendent by the party who desires to make application.

Applications for paroles are granted by the board of control upon recommendation of the superintendent and with the consent of the commissioners of insanity of the county from which such

person was committed. Patients are discharged from the institution the same as from hospitals for the insane.

*State Penitentiary, Fort Madison, T. P. Hollowell, Warden.*

*Men's Reformatory, Anamosa, J. N. Baumel, Warden.*

*Women's Reformatory, Rockwell City, E. Pauline Johnston, Superintendent.*

When persons convicted of crime are sentenced by judges of the various courts, men between the ages of eighteen and thirty are usually sent to the Men's Reformatory. At this institution, there is also a building for criminal insane. Persons sentenced to death or to life imprisonment, and the older class of criminals are committed to the State Penitentiary.

All females over eighteen years of age, and married females under eighteen years of age, who are convicted in the district court of offenses punishable by imprisonment in excess of thirty days, shall, if imprisonment be imposed, be committed to the Women's Reformatory. Any unmarried female over ten and under eighteen years of age convicted of an offense punishable by life imprisonment may be committed either to the Training School for Girls or to the Women's Reformatory.

### OFFICERS, EMPLOYEES AND WAGES

The name and salary of each officer and employee of the Board of Control of State Institutions as shown by the pay roll of June 30, 1930, are as follows:

Name	Occupation	Monthly Salary
<b>Members of Board:</b>		
A. M. McColl	Chairman	\$ 333.33
C. M. Roberts	Member	333.33
O. H. Michael	Member	333.33
E. J. Hines	Secretary	250.00
<b>Employees:</b>		
H. J. Lebbe	Architect	300.00
R. B. Bovey	Chief Accountant	298.31
J. F. Burke	Assistant Accountant	183.31
Bernice Skyles	Assistant Accountant	150.00
H. L. Shropshire	Purchasing Agent	229.16
Rosalyn Brien	Assistant Purchasing Agent	110.00
Grace Burlington	Estimate Clerk	133.33
Carlisa Gibson	Assistant Estimate Clerk	110.00
Mabel Bristol	Statistician	133.33
Celia Hayes	Parole Clerk	125.00
Elizabeth Geer	File Clerk	125.00
Luella Hayes	Stenographer	100.00
Lella Moorman	Stenographer	100.00
Esther Swanson	Stenographer	100.00
Florence Walker	Stenographer	100.00
