# Air Quality News

## Environmental Services

### Updated Information Available for Air Advisory Group

An advisory group meeting was held on August 19 to discuss requiring electronic submittals for air emissions inventory reporting, air permit applications and other air quality documents. In follow up to the meeting, DNR has revised the draft rule language based on suggestions received during the meeting and developed information on DNR's costs associated with paper application data entry.

The informal comment period on the revised draft rule proposal affecting air construction and Title V permit applications, and air emissions inventory reporting, has been extended to September 17.

Go to the [Public Participation](#) website under Workgroups—Air Electronic Submittals Advisory Group, to find the updated draft rule and paper application data entry cost information.

Please contact Christine Paulson at [Christine.Paulson@dnr.iowa.gov](mailto:Christine.Paulson@dnr.iowa.gov) to provide informal comments on the documents.

DNR's Air Quality News listserve is targeted to the regulated public and consultants to deliver timely regulatory news, program updates, and technical guidance to your email. If you have difficulty, please contact DNR's Wendy Walker at 515-725-9570.
