IOWA LOTTERY TIMELINE OF EVENTS

Gov. Terry Branstad signs the Lottery Bill into law on April 18, 1985.

1985

April 18, 1985 - Gov. Terry Branstad signs into law legislation authorizing a lottery in Iowa.

June 1, 1985 - Ed Stanek is named Lottery Commissioner.

Aug. 22, 1985 - Sales begin with a kickoff celebration at the Iowa State Fair just 111 days after the signing of the lottery legislation. A network of more than 3,000 retailers was assembled. A staff of 112 was hired, quickly oriented and trained. Five regional offices and a central headquarters were located, equipped and staffed. Advertising strategies were mapped out, tickets and promotional materials were printed and distributed and accounting systems and communication links were established.

August 1985 - As the Iowa Lottery begins business, the lottery adopts a green logo with four shooting stars bracketing the words "Iowa Lottery" in the center. The shooting stars represented lottery luck and celebration and were aspirational in terms of the vital difference lottery proceeds would make in the state.

November 1985 - Iowans purchase more than 28.1 million scratch tickets by the end of the first game, "Scratch, Match and Win," on Nov. 1, 1985. More than 6.4 million tickets were sold in the first week of play.

November 1985 - Players could submit five nonwinning tickets purchased during October for a chance to win \$100,000 in a televised "Halloween Bonus Drawing." Betty Freeman of Marengo won the drawing conducted on Nov. 1.

Nov. 14, 1985 - Bill Watson of Council Bluffs becomes the first winner of the lottery's "Wheel Spin" game, claiming a prize of more than \$4 million.

1986

April 4, 1986 - The first scratch game with an Iowa theme, "Hog Wild," is introduced. The game honored Iowa's standing as the nation's largest pork producer.

April 30, 1986 - The Iowa Lottery introduces its first lotto game, a game where players chose six numbers out of 30. It was called "Iowa LOTTO" and the introduction was marked by kickoff events in Des Moines and four other cities across the state. The legislation that enacted the lottery mandated that a lotto game be in place by May 1, 1986.

June 7, 1986 - George and Virginia Hielen of Council Bluffs become the first Iowa LOTTO jackpot winners, splitting a prize of nearly \$2.48 million with their son.

July 1, 1986 - The lottery concludes its first fiscal year. Sales goals were met (\$85.7 million), efficiency was higher than expected and proceeds topped \$27 million to the state.

Oct. 1, 1986 - The lottery experiences its first scratch game sellout when 7-11-21 proves so popular that its tickets run out. The lottery had to start its next game, "Autumn Gold," a week early.

Lottery Commissioner Ed Stanek gives a large check to Bill Watson, the first winner of the lottery's "Wheel Spin" game on Nov. 14, 1985.

1987

Jan. 7, 1987 - The lottery introduces its first scratch “stub” game, “Hula Moola,” which offered an all-expenses paid trip to Hawaii as one of its prizes. Players had to save the stubs from the end of the game ticket with letters that spelled “vacation” to win the trip.

Jan. 25, 1987 - Iowa LOTTO switches to a six of 36 matrix, from a six of 30 matrix. This change in format allowed the lottery to not only offer larger jackpot prizes, but to increase the size of the other prizes as well.

Sept. 16, 1987 - The Multi-State Lottery Association (MUSL) is established and headquartered in Urbandale; Iowa is a founding member.

Sept. 30, 1987 - The Iowa LOTTO game changes to two drawings per week.

Oct. 12, 1987 - The Iowa Lottery becomes the first in the nation to begin selling pull-tab tickets. The first pull-tab game, “Supreme Cherry Bell,” sold for 50 cents in seven test-market counties. Pull-tab sales expanded statewide later in the year.

1988

Feb. 11, 1988 - The LOTTO*AMERICA™ game begins sales with a seven of 40 matrix. The game was offered by seven different lotteries (Iowa, Kansas, Missouri, Oregon, Rhode Island, Washington D.C. and West Virginia) to produce jackpots much larger than could be produced by any of those lotteries alone.

Feb. 20, 1988 - John Dean Flanery of Guthrie Center is the first Iowan to win a LOTTO*AMERICA™ jackpot. He claimed a \$3 million prize.

July 7, 1988 - The lottery teams up with Coca-Cola™ for “Jukebox Jackpot,” a game that gave players the best chances of winning of any scratch game sold by the Iowa Lottery up to that time. A stub feature on the ticket gave players a chance to win a discount on the price of Coca-Cola products.

Aug. 27, 1988 - Madonna Swartz of Cumming is the second Iowan to win a LOTTO*AMERICA™ jackpot. She claimed a \$7.24 million prize.

Oct. 27, 1988 - Patty Cripps of Marshalltown wins the top prize of \$100,000 during the “\$1,000,000 Win-a-Thon.” Before the end of the event, more than 1,000 others also won prizes ranging from \$500 to \$50,000.

Dec. 3, 1988 - Iowa has its third LOTTO*AMERICA™ jackpot winner. The \$13.62 million prize was claimed under the VanDeBoe-Elsinga Separate Ownership Agreement of Norwalk.

Dec. 14, 1988 - The State Historical Building is dedicated in front of a standing-room-only crowd. With revenues generated from the sale of lottery products, more than one-fifth of the \$25 million construction project was financed by the Iowa Lottery.

1989

Jan. 25, 1989 - Beatrice Jones of Davenport wins the \$100,000 top prize on the lottery’s “Night of 1,000

Winners” TV special. Contestant Elizabeth Serrano of Davenport won \$50,000; Liz Ellsworth of Delmar won \$10,000 and at-home contestant, Sandy Lorch of Burr Oak, won \$25,000. Another 1,000 Iowans won \$100 each. The contest drew approximately 1 million entries.

Feb. 5, 1989 - The LOTTO*AMERICA™ game changes its matrix to six of 54 with two plays for \$1.

March 28, 1989 - The live, 30-minute TV show “Winning Season” is held. Eight contestants were split into two teams of four and participated in a live “baseball” game. The winning team got \$200,000 to be split up evenly and the other team won \$100,000. Players entered by mailing in five nonwinning scratch tickets. Nearly 865,000 entries were received.

May 31, 1989 - The first of a series of 12 one-minute TV specials airs, during which 12 Pontiac Grand Prix™ were given away. Additionally, 240 lucky winners won \$500 prizes and 60 won pairs of tickets to the Ruan Greater Des Moines Grand Prix race. Players entered the contest by mail-

ing in five nonwinning scratch tickets.

July 19, 1989 - The Iowa LOTTO game switches to a matrix of six of 39, from six of 36, in order to provide larger jackpots and more generous prizes at other levels.

July 31, 1989 - To celebrate its fourth anniversary, the lottery’s first scratch game, “Scratch, Match and Win,” is reintroduced. From July 31 to Aug. 29, 1989, Scratch, Match and Win tickets were sold at the special price of four for \$2.75.

Oct. 5, 1989 - To further celebrate the lottery’s fourth anniversary, a special 30-minute “Wheel Spin Show” is telecast Oct. 5, 1989. Five people were drawn to appear on the show and spin the wheel with one at-home partner drawn to participate. One thousand entries were also drawn to win \$250. Lottery players entered the drawing by mailing in five nonwinning scratch tickets.

Oct. 30, 1989 - The lottery introduces Cash Bonus, a \$1.25 scratch game featuring a special stub. Scratching the stub revealed five letters. Twice weekly from Nov. 8 through Dec. 30, 1989, five letters were drawn. Players who matched all five letters in exact order won a \$25,000 prize. Four winners matched the letters drawn to collect the prize.

Nov. 13, 1989 - For the first time, the Iowa Lottery sells tickets that were guaranteed to win. The \$5 Holiday Cards offered festive holiday messages and at least a \$2 prize.

1990

Jan. 27, 1990 - Iowa has its fourth LOTTO*AMERICA™ jackpot winner. The \$7.28 million prize was claimed by the Halvo Trust of Vermillion, S.D.

Jan. 30, 1990 - Halftime of the Iowa vs. UNI men’s college basketball game has an added element of excitement as one lucky Iowa Lottery player won a \$50,000 prize. Other prizes awarded were \$5,000, \$10,000, \$15,000 and \$25,000.

March 15, 1990 - “Wild Card™” is added to Iowa LOTTO. For an extra \$1 per play, the computer would randomly pick one card from a deck of 52 to accompany the set of six numbers the player chose. If the card drawn matched the player’s, they won a prize.

March 21, 1990 - Allen and Roice Earles of Maquoketa become the fifth and largest LOTTO*AMERICA™ jackpot winners in Iowa, claiming a \$19.64 million prize.

Sept. 29, 1990 - Cleda Troop of Burlington is the grand prize winner of \$250,000 in the lottery’s “Dream House” drawing. The scratch game, “Dream House,” began on May 14, 1990, and just over a million “entry” tickets were printed. Players mailed in more than 600,000 of the entry tickets.

1991

Feb. 7, 1991 - The “Daily Deal™” game begins. The card game was played Monday through Saturday. With overall odds of 1 in 3.65, Daily Deal™ combined the odds of a scratch game with the excitement of a lotto game. Players could win the top prize of \$4,000 by matching four cards and won a free play for matching just one card.

August 1991 - The first of approximately 1,200 pull-tab vending machines are placed in retail locations throughout the state. Most of the machines are equipped to handle six games.

1992

Jan. 26, 1992 - The lottery starts a new game called “Iowa’s \$100,000 Cash Game.” Players pick five numbers from a field of 35. This game replaced Daily Deal™.

April 19, 1992 - The jackpot lotto game “Powerball®” is introduced. Powerball replaced LOTTO*AMERICA™ in Iowa and 14 other states. Jackpots started at a guaranteed \$2 million and

grew from there. Players picked five numbers from a pool of one to 45, and then one more, called the Powerball, from a pool of one to 45.

Aug. 15, 1992 - Total Iowa Lottery sales pass the \$1 billion mark.

Nov. 16, 1992 - The lottery introduces “Bingo,” its first \$2 scratch game. Played just like the regular bingo game, customers responded and weekly sales for Bingo checked in at nearly \$700,000.

Dec. 23, 1992 - Ed Brown of Washington splits a \$10.4 million jackpot with a Missouri woman in the Powerball® drawing, becoming Iowa’s first Powerball winner. He claimed his prize on Jan. 7, 1993.

1993

April 14, 1993 - The Reimers Wagoner Trust of Omaha, Neb., claims a prize of more than \$4.57 million playing Iowa LOTTO.

July 1993 - The Iowa Lottery reports that pull-tab sales for fiscal year 1993 soared to \$36.9 million compared to \$21 million in the previous fiscal year.

Oct. 31, 1993 - “Lucky Day™” replaces Iowa LOTTO.

Ed Brown smiles as he and his wife, Mary, receive a big check on Jan. 7, 1993.

1994

January 1994 - The Iowa Lottery sends its first mailing to members of its “Birthday Club.” This group is now known as the “Iowa Lottery VIP Club™” and information to members is distributed electronically.

March 31, 1994 - The minimum purchasing age for lottery tickets in Iowa, which had been 18 since the lottery’s start in 1985, is raised to 21 as part of the legislation involving several gaming issues.

April 27, 1994 - A record Lucky Day™ jackpot of \$10.525 million is claimed by “Lucky Trust One” members Phil Points of Council Bluffs and Ron Eureka and Karl Gray, both of Omaha, Neb.

August 1994 - As it begins its 10th year in business, the Iowa Lottery transitions to a new logo. The new look maintained the shooting stars from the lottery's original logo from 1985, but circled them around the words "Iowa Lottery." The new logo had green letters, yellow stars and red streaks of light behind them.

Oct. 1, 1994 - "Super Cash Lotto™" replaces Lucky Day™ and returns players to a more familiar lotto format. Super Cash Lotto players picked six numbers from a pool of 42, and customers received two plays, or two chances to win, for \$1. It was called Super Cash Lotto because the jackpot was paid in one lump sum.

Oct. 2, 1994 - A program to place 500 scratch-ticket vending machines across the state begins. The machines were placed primarily in grocery stores and other high-traffic retail locations. Players liked the machines because they could choose from eight different games without having to wait in line for a clerk. Retailers liked the machines because they cut down on the labor costs involved with selling scratch tickets.

November 1994 - The lottery starts a new validation system that allows players to take winning tickets to any retail location. Scratch tickets were printed with a bar code and retail locations were equipped with bar code readers to check tickets to ensure they were winners. With the new system, sales increased and players were able to cash tickets more easily. Security for tickets was also increased.

1995

March 6, 1995 - The lottery introduces "Easy Street," its third \$5 scratch game. The game offered a top prize of \$1,000 a week for 20 years.

July 1995 - Angel Boley of Des Moines becomes the first winner of an automobile in the lottery's "Cash 'N Cars" scratch game. She picked a new blue Ford Mustang® convertible. Nine other automobiles were offered during the game.

1996

February 1996 - The lottery celebrates leap year and its accompanying extra day in February with a special promotion for Iowa's \$100,000 Cash Game players. The special was called "Xtra Day, Xtra Play" and gave players a full week's worth of six plays for only \$5.

Feb. 1, 1996 - The Iowa Lottery's website debuts at www.ialottery.com.

Feb. 26, 1996 - The lottery begins the \$2 "Mustang® Money" scratch game. The game offered 30 Ford Mustang® coupes as prizes.

May 11, 1996 - Bill Winter of Ankeny wins the largest-ever Super Cash Lotto™ jackpot. The prize was more than \$2.3 million.

June 15, 1996 - The Iowa Lottery introduces "Dream Draw," a raffle game featuring prize packages like Winnebagos™, fishing packages, cars, motorcycles and other "dream" prizes.

Sept. 16, 1996 - A new multi-state game, "Daily Millions," debuts. The daily game featured a top prize of \$1 million.

1997

Jan. 16, 1997 - "Sittin' Pretty," a promotion offering Daily Millions players a chance to win a 1996 Collector's Edition Corvette™, kicks off.

Feb. 8, 1997 - A rural postal carrier from Osage becomes Iowa's first \$1 million "Daily Millions" winner. Robert Marreel planned to continue working his postal route.

March 15, 1997 - Instant-scratch ticket sales pass the \$1 billion mark.

June 19, 1997 - The Iowa Lottery introduces its first 4-inch by 4-inch scratch ticket. "Double Blackjack" gave players 10 chances to win on every ticket. The \$2 game offered a top prize of \$21,000.

July 9, 1997 - Robert Farnsworth of Cedar Rapids parlays 28 combinations of six numbers into a \$959,311 Super Cash Lotto™ payoff. Not only did Farnsworth match the six numbers to claim the game's jackpot, but he also matched five numbers 12 times and matched four numbers 15 times.

Oct. 1, 1997 - A new retailer commission program goes into effect. The "Gold Star" program allows retailers to earn up to 7 percent in commissions on the sale of instant-scratch tickets.

Nov. 2, 1997 - Several changes in the Powerball® game are announced. First, players are allowed to choose whether they want to take the jackpot prize in annuitized payments over 25 years or in one lump-sum payment. Second, some of the other prizes became larger. Additionally, the jackpot minimum moved to \$10 million rather than \$5 million. Also, the game became a five of 49 matrix for the white balls and one of 42 for the Powerball.

1998

March 7, 1998 - Lynda Robison of Dysart wins a new Chevrolet Blazer™ SUV in the lottery's "Five-to-Drive" promotion. Players were invited to send five nonwinning scratch tickets in for a drawing where 10 were selected to participate in an event at Southridge Mall in Des Moines.

March 30, 1998 - The lottery introduces the "Cash 4 Life" game to replace "Daily Millions". The game offered a grand prize of \$1,000 a week for life.

June 25, 1998 - The "Harley-Davidson®" scratch game is introduced. The game offered \$10,000 cash prizes with a special bonus - some tickets featured an entry for a chance to win one of three Harley-Davidson® motorcycles and more than 3,000 other Harley-Davidson® prizes.

July 13, 1998 - "Pick 3," the lotto game popularized in numerous other lottery states, is introduced to replace Super Cash Lotto™. Iowa used an innovative, money-saving approach by utilizing the Illinois Lottery's evening Pick 3 numbers. The drawings were broadcast in most local cable TV venues on WGN-TV, Chicago. This agreement continued until April 2014.

Sept. 25, 1998 - Rita Fichter of Tabor wins the Iowa Lottery's first "Cash 4 Life" grand prize of \$1,000 a week for life.

Dec. 26, 1998 - "Super Cash Sweepstakes," a 60-minute TV special designed to give away money left from the end of the Super Cash Lotto™ game, is aired statewide. Elaine Voss of West Union won the \$100,000 top prize.

1999

Feb. 10, 1999 - Timothy E. Schultz of Des Moines wins the \$28 million Powerball® jackpot. He claimed his prize on March 8, 1999.

April 17, 1999 - Wayne Richter of New Hampton wins a 1999 Ford Explorer™ in the "Cruise into Spring" second-chance promotion held at Westdale Mall in Cedar Rapids. Other participants won cruises and cash.

July 12, 1999 - Due to revisions in the federal tax code, the Iowa Lottery updates its rules to allow Powerball® jackpot winners up to 60 days from the time they claim the prize to choose whether they wish to accept their

prize in a cash lump sum or in 25 annual payments.

September 1999 - The Iowa Lottery launches a series of under-age compliance education seminars designed to help retailers recognize how to avoid selling age-sensitive products (including lottery tickets) to under-age customers. The lottery coordinated with members of state and local agencies in Iowa to conduct the seminars over three months in communities throughout the state. The program was called the “Underage Retail Orientation Campaign” (UROC).

March 17, 2014 - The first \$100,000 top prize is won in the new joint Iowa and Minnesota lotto game All or Nothing™. In the March 17 evening drawing, a ticket sold in Minnesota matched no numbers to win the first top prize in the new game.

April 4, 2014 - The lottery partners with the Iowa Tourism Office for a new game and promotion featuring expert collectibles picker and TV personality Mike Wolfe. The "Mike's Picks" instant-scratch game with cash prizes of up to \$50,000 and a promotion by the same name offering trip packages and Iowa products as prizes debuts. Iowa Lottery players entered their nonwinning tickets from the game into the Mike's Picks promotion for a chance to win a trip to Nashville, Tenn. or LeClaire and products from Iowa companies. Iowa Lottery players made nearly 57,000 entries in the promotion. Seven Iowa Lottery players won trip packages and 12 others won an assortment of products from Iowa companies in the promotion's drawings, which were held July 1, 2014.

April 16, 2014 - The Iowa Lottery implements new drawing procedures in its Pick 3 and Pick 4 games, providing results that are unique to Iowa for the first time since the games' introduction. In the years since Pick 3 was introduced in 1998 and Pick 4 was added in 2003, the Iowa Lottery had shared drawing results in those games with the Illinois Lottery. These drawing procedures were in place through June 30, 2016.

May 2-3, 2014 - Six lottery players from across the state meet pro football greats as winners in the Iowa Lottery's "Hall of Fame" Powerball® promotion. Lottery officials conducted the Hall of Fame promotion drawing on Feb. 11, 2014, selecting the winners of six trip packages, each for four people, to the Pro Football Hall of Fame's 50th Anniversary Fan Festival in Cleveland, Ohio. The winners were: Joe Grochala of Des Moines; Carrie Haigh of Des Moines; Dennis Jantzen of Mount Pleasant; Ed Matney of Sioux City; Bethene Miller of Le Mars; and Lacy Pond of Villisca. Each winner also received a \$1,000 prize as part of a winners-only prize event during the festival. Iowa Lottery players made more than 38,000 entries in the promotion, which ran from Nov. 8, 2013, through Feb. 10, 2014.

May 5, 2014 - The Iowa Lottery sees its first \$100,000 winner in the All or Nothing™ lotto game. In the May 5 midday All or Nothing™ drawing, a ticket sold at a supermarket in Clive, matched all 12 numbers drawn to win the top prize in the lotto game that debuted in January 2014. Jimmy Cheng of Urbandale claimed the ticket on May 12, 2014. All or Nothing™ was played in both Iowa and Minnesota. Minnesota had the game's first \$100,000 top prize winner on March 17, 2014.

July 7, 2014 - The Iowa Lottery launches its "Sun Time Fun Time" promotion. The promotion offered players the chance to win boats, camping gear and cash prizes valued at more than \$50,000. Players entered the promotion on the lottery's website with nonwinning tickets from four different instant-scratch games: "5X," "10X," "15X" and "20X." The drawings for the promotion's 13 winners were held on Sept. 2, 2014.

July 29, 2014 - The Iowa Lottery announces its results for Fiscal Year 2014, noting that annual sales, proceeds to state causes and prizes to players each rank among the Top 4 in the lottery's 29-year history. Annual lottery sales from lotto, instant-scratch and pull-tab games totaled more than \$314 million, marking the third year in a row that the total has topped the \$300 million mark. Proceeds to state causes totaled nearly \$74 million, the fourth-highest amount for the lottery since its start in 1985. Prizes to players totaled \$186.9 million in FY 2014, the second-highest total in the lottery's history.

Aug. 7, 2014 - The Iowa Lottery is the opening-day sponsor of the 2014 Iowa State Fair. The lottery handed out coupons for free plays to fair-goers at four of the fair's main admission gates and held contests to give away concert tickets.

Duane Hanson of Osage claims a \$2 million Powerball® prize from the Aug. 27, 2014 drawing.

Aug. 28, 2014 - Duane Hanson of Osage claims a \$2 million Powerball® prize from the drawing on Aug. 27, 2014. Hanson was one of five Iowa Lottery players to claim a prize of at least \$1 million in 2014.

Oct. 6, 2014 - The Iowa Lottery launches its annual holiday promotion, dubbed "12 Weeks of WinnerTime." The promotion offered players the chance to win weekly \$1,000 cash prizes. The number of cash prizes offered increased each week of the 12-week promotion, from one winner during the first week of the promotion, to 12 winners during the last week of the promotion. Players entered the weekly drawings on the lottery's website with nonwinning tickets from 10 different holiday instant-scratch games. The drawings for the promotion's winners were held weekly. Seventy-eight players were awarded \$1,000 throughout the promotion.

Oct. 9, 2014 - Iowa Lottery CEO Terry Rich is selected by his peers to lead the North American Association of State and Provincial Lotteries (NASPL) as its presi-

dent for 2014-2015.

Oct. 19, 2014 - MONOPOLY MILLIONAIRES' CLUB™ sales begin in Iowa. This \$5 national lotto game offered players three ways to become a millionaire on one ticket: by winning the game's Top Prize in a weekly drawing; by winning one of many \$1 million Millionaires' Club prizes awarded in a second drawing when someone wins the Top Prize; and an opportunity to win \$1 million as a TV game show contestant via a Web code drawing.

Oct. 31, 2014 - For the first time in the Iowa Lottery's 29-year history, a ticket wins \$100,000 for not matching a single number in one of its drawings. In the All or Nothing™ midday drawing on Oct. 31, a ticket sold at a gas station in Iowa City did not match a single number and won the game's \$100,000 top prize. Paul Jagnow of Iowa City claimed this ticket on Nov. 3, 2014.

Dec. 2, 2014 - Eight lucky Iowa Lottery players win trip packages to Las Vegas in January 2015 for the chance to appear on the MONOPOLY MILLIONAIRES' CLUB™ lottery TV game show. The players were selected in a drawing by the Iowa Lottery after submitting their MONOPOLY MILLIONAIRES' CLUB lottery game tickets at www.playmmc.com.

Dec. 15, 2014 - Lotteries nationwide announce that sales in the MONOPOLY MILLIONAIRES' CLUB™ lottery game will be suspended indefinitely following the Dec. 26, 2014, drawing. Sales in the game came in below industry projections, leading the Texas Lottery Commission to suspend sales of the game in that state following the Dec. 12, 2014 drawing. Three days later, lotteries participating in the game then made the decision to end all sales in its current format on Dec. 26, 2014.

Paul Jagnow of Iowa City wins a \$100,000 prize for not matching a single number in the All or Nothing midday drawing on Oct. 31, 2014.

Dec. 29-31, 2014 - The Iowa Lottery moves its headquarters from 2323 Grand Ave. in Des Moines to 13001 University Ave. in Clive. The lottery's Clive location opened for business at noon Dec. 31, 2014.

2015

Jan. 13, 2015 - Eight more lucky Iowa Lottery players win trip packages to Las Vegas in February 2015 for the

chance to appear on the MONOPOLY MILLIONAIRES' CLUB™ lottery TV game show. The players were selected in a second round of drawings by the Iowa Lottery after submitting their MONOPOLY MILLIONAIRES' CLUB lottery game tickets at www.playmmc.com.

Jan. 15, 2015 - The Iowa Division of Criminal Investigation announces that charges have been filed in the case of the Hot Lotto® jackpot won in December 2010 in Des Moines. Eddie Tipton, the former security director for the Multi-State Lottery Association (a vendor of the Iowa Lottery) was charged with two counts of fraud, which are Class D Felonies.

Feb. 9, 2015 - The Iowa Lottery launches its "Win With Friends" promotion. The promotion offered players the chance to win a \$2,500 prize for themselves, and \$500 prizes for five of their friends. Players entered the drawing through March 30, 2015, on the lottery's website with nonwinning tickets from four different "Did I Win?" scratch games. The drawings to determine the promotion's winners were held March 31, 2015. Fifteen players won \$2,500 prizes in the promotion and a total of 75 prizes of \$500 were awarded to those winners' designated friends.

February 2015 - Iowa Lottery players buy nearly \$4.7 million in Powerball® tickets for the Feb. 11 jackpot drawing. Strong sales nationwide pushed that jackpot to \$564.1 million annuity, or \$381.1 million cash option. The monster jackpot, which at the time was the third-largest prize in Powerball history, was split by three tickets purchased in North Carolina, Texas and Puerto Rico.

April 2015 - The lottery begins offering "pop-up" contests to members of its VIP Club. These random monthly contests offer prizes such as concert tickets, tickets to sporting events, cash or lottery tickets. VIP Club members enter these contests by clicking on an "Enter" button that appears in a special contest email.

May 4, 2015 - The Iowa Lottery debuts on Pinterest and Instagram as part of its 30th anniversary celebration.

May 4, 2015 - Iowa Lottery celebrates its 30th anniversary with a new scratch ticket and promotion, both called "30 Somethings." In a nod to today's emphasis on "green" products, tickets in the 30 Somethings game were printed on paper stock made from 60 percent recycled fibers (35 percent post-consumer). The tickets resembled brown sack paper traditionally used for things like grocery bags or lunch sacks. Nonwinning tickets in the 30 Somethings game could be entered in a Play It Again® promotion that offered 91 prizes, including a grand prize of \$30,000. There were promotion winners every 30 days between May 4 and July 30, 2015, and the promotion concluded with the grand-prize drawing on Aug. 3, 2015.

July 2015 - The lottery rolls out a refreshed tag line to remind players to sign all lottery tickets before having them checked or cashed. The new tag line, "Sign It...Make It Yours!" replaces the "Sign It. It's Yours." message the lottery had been using since March 2008.

July 1, 2015 - The lottery's proposal to stabilize proceeds to the Iowa Veterans Trust Fund becomes law. The new code language, which took effect July 1, 2015, changed the method by which the lottery raises money for the IVTF. Previously, the proceeds from the sale of two scratch games and two pull-tab games each year were dedicated to the IVTF. As of July 1, 2015, the lottery will dedicate \$2.5 million in lottery proceeds to the cause each year. A portion of proceeds from the sale of all lottery games will now be dedicated to the IVTF.

July 20, 2015 - A Polk County jury finds Eddie Tipton, former security director for the Multi-State Lottery Association, guilty of two counts of fraud for his involvement in the 2010 unclaimed Hot Lotto® jackpot case.

July 30, 2015 - The Iowa Lottery announces its results for Fiscal Year 2015, noting that annual sales, proceeds to state causes and prizes to players each ranking among the Top 4 in the lottery's 30-year history. Annual lottery sales from lotto, instant-scratch and pull-tab games totaled nearly \$325 million, marking the fourth year in a row that the total has topped the \$300 million mark. Proceeds to state

causes totaled \$74.5 million, the fourth-highest amount for the lottery since its start in 1985. Prizes to players totaled \$197 million in FY 2015, the second-highest total in the lottery's history, and nearly a \$10 million increase from the previous year. Sales of instant-scratch tickets, the first product introduced by the lottery and always one of its top-selling items, set a yearly record at nearly \$212 million.

Sept. 9, 2015 - A Polk County judge sentences Eddie Tipton, former security director for the Multi-State Lottery Association, to 10 years in prison for his involvement in the 2010 unclaimed Hot Lotto® jackpot case.

Oct. 4, 2015 - The Powerball® game is enhanced. The revamped game still costs \$2 per play, but offers better overall odds of winning, bigger prizes at some levels in the game, and adds a 10X Power Play® multiplier feature when the jackpot is \$150 million or less. The game's prize for matching four white balls and the Powerball is increased from \$10,000 to \$50,000. The Power Play® option, which still costs an extra \$1, now includes 2X, 3X, 4X, 5X and 10X when the jackpot is \$150 million or less, and only the first four multipliers when the jackpot is more than that.

Oct. 5, 2015 - The Iowa Lottery launches its annual holiday promotion, dubbed "Holiday Hoopla." Through Jan. 4, 2016, players had the chance to win weekly \$500 cash prizes as well as a pair of tickets to one session of the men's college basketball tournament March 17 and 19, 2016 in Des Moines. The number of cash prizes offered increased with each drawing period of the 12-week promotion, from one winner in the first drawing to 12 winners during the last week of the promotion. Four pairs of basketball tournament tickets also were up for grabs during each drawing. Players entered the drawings on the lottery's website with nonwinning tickets from 11 different holiday instant-scratch games. Seventy-eight players won \$500 in the promotion, and 48 players won a pair of college basketball tournament tickets.

Mike Hartman of Winfield and Betty Downs of Burlington both claimed \$1 million Mega Millions® prizes on Nov. 22, 2015.

Nov. 23, 2015 - Betty Downs of Burlington and Mike Hartman of Winfield both claim separate \$1 million Mega Millions® prizes about an hour apart on the same day. Downs won her prize in the Nov. 10, 2015, drawing on a ticket she bought at River Mart, 2107 Agency St. in Burlington, while Hartman hit big with a ticket he bought for the Nov. 20, 2015 drawing at the Countrestore, 2455 120th St. in Winfield. Downs and Hartman were the fifth and sixth players, respectively, to claim \$1 million prizes in 2015.

Nov. 24, 2015 - Lucky clovers sprout at the Iowa Lottery. The clovers make up the Art in State Buildings project that is part of the lottery's purchase and renovation of its headquarters in Clive. The metal sculptures were proposed and developed by Des Moines artists TJ Moberg and Dennis Reynolds. The lottery art project includes 15 metal clovers ranging in size from 12 inches up to 5 feet in diameter. Moberg and Reynolds selected a variety of materials and finishes to bring additional depth of meaning to the project. For example, one of the clovers has five

leaves that represent the five branches of the U.S. military and is printed with the logo for the Iowa Veterans Trust Fund, which receives a portion of lottery proceeds each year. One clover was cut out of the top of a school bus, complete with some of the lights from the bus. It represents education, one of the largest recipients of money from the state General Fund, which receives a portion of lottery proceeds each year. Another clover is made from a repurposed fan to represent recycling while another is made from pieces of a corn crib to represent Iowa's agricultural industry.

2016

Jan. 13, 2016 - Iowa Lottery players buy more than \$12 million in Powerball® tickets for the Jan. 13 world-record jackpot drawing. Strong sales nationwide pushed that jackpot to nearly \$1.6 billion annuity, or \$983.5 million cash option. The world-record jackpot, which topped the previous U.S. record of \$656 million in March 2012, was split by three tickets purchased in California, Florida and Tennessee.

Jan. 13, 2016, drawing.

Jan. 16, 2016 - Fueled by strong Powerball® ticket sales, Iowa Lottery sales total nearly \$19.5 million during the week of Jan. 10-16, 2016, which beat the lottery's previous sales record of nearly \$17.2 million, set just a week earlier.

Jan. 24, 2016 - Sales start in Iowa for a new lotto game, Lucky for Life®. Iowa becomes the 18th lottery to join the game, which offers drawings twice a week on Monday and Thursday evenings. Lucky for Life is a \$2 game and offers 10 ways to win, including a top prize of \$1,000 a day for life, and a second prize of \$25,000 a year for life.

Feb. 16, 2016 - The lottery releases its financial figures for the month of January, showing that the lottery set records for its highest monthly sales, highest monthly proceeds to state causes and highest monthly prizes to players since its start in 1985. With the world-record Powerball® jackpot drawing occurring in January 2016, total monthly sales hit \$54.1 million, topping the previous monthly sales record of \$42.2 million set in February, 2006. Monthly lottery proceeds to state causes also were a record, totalling \$17.3 million. The previous monthly proceeds total of \$11.6 million had stood since February 2006. Prizes to players also set a record for the month, totalling \$30.2 million. That surpassed the previous record of \$20.3 million set in March 2013.

March 29, 2016 - Roy King of Sioux City becomes Iowa's first winner of \$25,000 a year for life in the Lucky for Life® game. King's winning ticket, which he bought at a local supermarket, matched the first five numbers, but missed the Lucky Ball in the March 28, 2016, drawing to win the game's second prize of \$25,000 a year for life. The game's top prize is \$1,000 a day for life for matching all six numbers drawn.

May 2, 2016 - The lottery releases its "Ghostbusters™" scratch ticket, based on the Columbia Pictures® 1984 and 2016 box office movies.

May 13, 2016 - The lottery launches a Ghostbusters™ summer promotion based around a Ghostbusters-themed scratch game that hit stores May 2, 2016. The Iowa Lottery was the first in the U.S. to team up with Wizard World® Comic Con and announced its Ghostbusters™ promotion at the Des Moines installment of the fan convention that celebrates comic books, science fiction and pop culture. Players entered the promotion using nonwinning tickets in the Ghostbusters™ game. There were three drawing dates during the 90-day Play It Again promotion, with each drawing featuring different prizes. The first drawing was held on June 14, 2016 and awarded 10 prize packages to the Wizard World® Comic Con convention Aug. 18-21 in Chicago. Each package, valued at \$1,700 included a three-night stay for two at the Hyatt Regency O'Hare in Chicago, two VIP Experience tickets to the four-day Comic Con event, \$500 spending cash and Ghostbusters™ merchandise. The second drawing on July 14, 2016 awarded 10 home movie prize packages. Each package, valued at nearly \$1,500 included a Sony® 40-inch HDTV with Wi-Fi®; Sony® sound bar with wireless subwoofer; Sony Blu-ray Disc™ player; \$150 movie gift card; \$150 spending cash for food and beverages; and Ghostbusters™ merchandise. The promotion's third drawing and grand-prize drawings were held on Aug. 16. The third drawing awarded 10 prizes of \$1,000 and the grand-prize drawing awarded one prize of \$5,000.

July 1, 2016 - As it enters its fourth decade in business, the Iowa Lottery introduces its fourth logo. The new look maintains the shooting star that has been central to the lottery's identity since its start, but abbreviates the lottery's name in a nod to today's shortened communications style and streamlines the colors of the logo to blue and white.

July 26, 2016 - Fiscal year 2016 goes into the books as the best year in the Iowa Lottery's history, with some unique circumstances producing records across the board, including record sales, proceeds to state causes, prizes to players and retailer commissions. The lottery generated a record \$88 million in proceeds to state causes. Annual sales were a record \$366.9 million, topping the \$300 million mark for the fifth year in a row. Prizes to players totaled a record \$221.8 million, while lottery sales commissions to retailers totaled \$24.6 million, also a record. Record sales of instant-scratch games and huge lotto sales spurred

by January's world-record Powerball jackpot led the way in the lottery's FY 2016 performance. Scratch ticket sales hit an annual record of \$233.7 million, topping the previous record of nearly \$212 million that had been set in FY 2015.

Sept. 1, 2016 - Kevin Reynolds of Bettendorf becomes Iowa's second winner of \$25,000 a year for life in the Lucky for Life® game. He matched the first five numbers, but missed the Lucky Ball in the Aug. 29, 2016 drawing. Reynolds, who chose the annuity option, works in the produce department of the Davenport Hy-Vee from which he purchased his winning ticket.

Oct. 7, 2016 - Jeff Tomlinson Jr. of Coralville claims a \$1 million Powerball® prize from the drawing on Oct. 5, 2016, becoming the fifth player in Iowa to win at least \$1 million in 2016.

November 2016 - A campaign to replace approximately 300 pull-tab vending machines in retail locations throughout the state begins. Most of the new machines are equipped to sell 10 games.

Nov. 13, 2016 - Iowa becomes the 14th U.S. lottery to offer scratchless scratch tickets. The new product, called InstaPlay, combines features from instant-scratch and lotto games, and gives players a new option with no numbers to pick, playslips to fill out or wait for a drawing. InstaPlay tickets are "scratchless" because they have no latex covering that needs to be removed to determine the prize won. And rather than having supplies of tickets printed in advance like those in traditional scratch and pull-tab games, InstaPlay tickets are printed on demand from the lottery terminal, as in lotto games like Powerball® and Mega Millions®. The first InstaPlay games offered by the Iowa Lottery included: Lucky Gems InstaPlay, a \$1 game; Cash Spectacular InstaPlay, a \$5 game; and Cherry Twist Progressive InstaPlay, a \$2 game that offers a progressive jackpot. New InstaPlay games are continually added over time.

Nov. 16, 2016 - The first progressive jackpot in an InstaPlay game is won just two days after the product made its Iowa debut. The winning ticket for a \$3,086.15 jackpot was purchased at Casey's, 2150 E. Army Post Road in Des Moines.

2017

Feb. 5, 2017 - The Iowa Lottery launches its Power Cruise™ promotion along with 23 other U.S. lotteries. Players could enter Powerball® tickets online between Feb. 5 and March 29, 2017, for a shot at 25 Caribbean cruise package packages (each valued at more than \$4,800) sailing to Key West, Fla. and Cozumel, Mexico in January 2018. The winners were selected in six weekly drawings starting Feb. 22 and ending March 31, 2017.

March 6, 2017 - Ticket sales begin in the Iowa Lottery's first-ever \$30 scratch game, "Ultimate Riches." The game offers top prizes of \$300,000.

March 17, 2017 - Karl Krumbholz of Cedar Rapids celebrates St. Patrick's Day by claiming a \$2 million Powerball® prize from the game's drawing two days earlier.

April 19, 2017 - The Powerball® game turns 25 years old. Powerball tickets began sales on April 19, 1992, in Iowa and 14 other states, with the first drawing on April 22, 1992.

April 27, 2017 - Jeff Wolf of Iowa City claims a \$2 million Powerball® prize from the drawing on July 16, 2016.

May 8, 2017 - The lottery launches a Frogger summer promotion based around a Frogger-themed scratch game that hit stores May 1, 2017. Players entered the promotion using nonwinning tickets in the Frogger game. There were seven drawings held between May and August 2017 that awarded cash and merchandise prizes to 35 total winners. A grand prize drawing for an arcade game was held on Aug. 16, 2017.

May 12, 2017 - The Iowa Lottery launches a new mobile app for both Apple and Android devices. The new app, called Iowa Lottery's LotteryPlus, allows users to check the outcome of Iowa Lottery tickets and get the latest details about the lottery's games and promotions.

June 12, 2017 - A comprehensive plea agreement is reached with Eddie Tipton, Tommy Tipton, Robert Rhodes and authorities in Iowa, Wisconsin, Colorado, Oklahoma and Kansas related to the long-running jackpot investigation.

June 29, 2017 - Eddie Tipton and Tommy Tipton plead guilty in Polk County District Court in the long-running lottery jackpot investigation.

June 30, 2017 - After a nearly 3 1/2-year run, the final drawing in the All or Nothing™ game is held. This joint game was offered by both the Iowa and Minnesota lotteries, started in January 2014 and offered players the chance to win \$100,000 by matching all or none of the 12 numbers selected in given drawing. Sales in the game gradually declined over time, prompting lottery officials to end the game.

July 1, 2017 - New drawings times are implemented in the Iowa Lottery's Pick 3 and Pick 4 games, giving players longer to buy tickets each evening. The midday drawings in these games moved from 12:50 p.m. to 12:20 p.m. daily, and the evening drawings in these games moved from 8:50 p.m. to 10 p.m. As part of this change, the Iowa Lottery entered into an agreement with the Hoosier (Indiana) Lottery to share drawing results in these games.

Aug. 3, 2017 - The Iowa Lottery announces that the final drawing in the Hot Lotto® game will be Oct. 28, 2017. The lotteries that sell the game jointly decided to end the game after a 15-year run. While the game initially sold well and the game was updated a few times through the years to offer new features, its sales had tapered off over time.

Aug. 9, 2017 - For the first time ever, the jackpots in Powerball® and Mega Millions® topped the \$300 million mark at the same time. A \$393 million Mega Millions jackpot was won on Aug. 11, 2017 in Illinois. The Powerball jackpot continued to roll until the Aug. 23, 2017, drawing, when it reached \$758.7 million and was won on a single ticket purchased in Massachusetts.

Aug. 14, 2017 - Vicki Dixon of Allen, Texas, claims a \$1 million Powerball® prize from the drawing on Aug. 9, 2017.

Aug. 22, 2017 - Eddie Tipton, the man at the center of the long-running lottery jackpot investigation case, receives a 25-year maximum prison sentence.

Aug. 23, 2017 - Iowa Lottery players buy more than \$4.7 million in Powerball® tickets for the \$758.7 million jackpot drawing, which was won by a single ticket purchased in Massachusetts. In Iowa, more than 85,000 tickets won prizes ranging from \$4 up to \$50,000.

Sept. 12, 2017 - The first touch-screen, self-service lottery kiosk is installed at a grocery store in West Des Moines. A total of 115 of the new kiosks were installed statewide in high-traffic, large-footprint retail locations. The machines allow players to use cash to purchase scratch, lotto and InstaPlay tickets as well as check the results of these tickets. With touch-screen capabilities, players are able to customize their ticket selections, including picking their own numbers and purchasing tickets for advance drawings.

Sept. 26, 2017 - The Iowa Lottery notifies the public about inadvertently releasing the Social Security numbers of some of its prize winners from calendar year 2011. The release occurred as the lottery was responding to a journalist's open-records request for a list of all Iowa Lottery winners of \$600 or more since the Iowa Lottery's start in 1985. That information inadvertently included 2,967 unique Social Security numbers of the winners of Iowa Lottery prizes of \$600 or more in calendar year 2011. This information was posted on a website for about 10 days until the error was discovered and the sensitive information was removed. The lottery offered those impacted access to a credit-monitoring service.

Sept. 26, 2017 - The Iowa Lottery announces that the Mega Millions® game will be revamped following the Oct. 27 drawing and a new \$1 game with a retro name will begin in November. Tickets in the revamped Mega Millions game will now cost \$2 per play, the game's jackpots will start at \$40 million rather than \$15 million, and the top prize will grow by at least \$5 million between drawings when it is not won. Players in \$2 Mega Millions will choose five numbers from a pool of 70 and another number, called the Mega Ball, from a pool of 25. A few weeks after

the Mega Millions changes took effect, a new \$1 lotto game debuted in Iowa and multiple other states: Lotto America®. The name is a throwback to the first multi-state lotto game that became known for big jackpots in the United States. Iowa was a founding member of the original Lotto America, which began back in 1988 and made headlines around the world at the time for its jackpots before ultimately being replaced by Powerball® in 1992. Today's version of Lotto America features jackpots that start at \$2 million and drawings twice per week.

Oct. 2, 2017 - The Iowa Lottery launches its annual holiday promotion, dubbed "Secret Santa." The promotion ran through Dec. 28 with 48 players winning prizes between \$800 and \$3,000. A \$10,000 grand prize winner was randomly selected from all the eligible entries on Dec. 29. It was the first Iowa Lottery promotion that players could enter by scanning eligible nonwinning holiday scratch tickets using the lottery's "Iowa Lottery LotteryPlus" mobile app for both Google and Apple devices.

Oct. 3, 2017 - Charles Svatos of Iowa City claims a prize of \$25,000 a year for life in the lottery's "Lucky for Life" game. Svatos opted for the lump-sum option of \$390,000. Svatos' story made national headlines for winning a "for life" prize at the age of 92.

Oct. 28, 2017 - After a 15-year run, the final drawing in the Hot Lotto® game is held. Sales in the game gradually declined over time, prompting lottery officials to end the game. Since the game ended without the jackpot being won, the money in the Hot Lotto prize pool was rolled forward into the new Lotto America® game.

Nov. 4, 2017 - A Powerball® ticket sold at Casey's, 701 32nd Ave. in Council Bluffs, wins a \$1 million prize. Karen Harger of Glenwood claimed the prize on Dec. 19, and said she simply hadn't checked her tickets for several weeks, so she didn't know she had won.

Nov. 12, 2017 - Sales begin in Lotto America®, a new \$1 multi-state lotto game. The game's first drawing was held on Nov. 15 and the jackpot was \$15 million annuity due to a rollover of leftover prize money from the Hot Lotto® game, which ended on Oct. 28.

2018

Jan. 3, 2018 - A \$5 scratch game called "Tiny Home, Big Wins!" begins sales, the same day that a promotion by the same name starts. Tickets in the scratch game feature an image of a tiny home in a woodland setting and offer players the chance to win prizes from \$5 up to \$50,000. Players who don't win an instant prize can use nonwinning tickets in the game to enter the promotion, which featured seven prize drawings, or about one a month. The first six drawings each offered 20 prizes of \$500 Home Depot® gift cards. The promotion's grand-prize drawing on Aug. 31 was for a \$60,000 gift certificate from Wind River Tiny Homes of Chattanooga, Tenn., for a custom-built tiny home, and two \$500 Home Depot gift cards.

Jan. 4, 2018 - The Powerball® and Mega Millions® jackpots simultaneously top the \$400 million mark for the first time. CURRENT LOTTERY PRODUCTS SOLD IN IOWA

Powerball®

IOWA

Powerball®, which launched on April 19, 1992, is one of the world's best-known lotto games. It offers big jackpots and the chance to win lots of other prizes, too. Players choose 5 out of 69 numbers for the white balls; then choose 1 out of 26 numbers for the Powerball. Players have nine ways to win.

The largest Powerball jackpot to date was won on Jan. 13, 2016. That world-record jackpot of nearly \$1.6 billion was split by three winners in California, Florida and Tennessee. The largest Powerball jackpot won in

Iowa came in October 2018. Lerynne West of Redfield claimed a \$343.9 million Powerball prize, splitting the \$687.8 million jackpot with a ticket sold in New York City. To date, nine Powerball jackpots have been won in Iowa.

Mega Millions®

The Mega Millions® game began on Aug. 31, 1996, as the "Big Game." In May 2002, the multi-state game was redesigned and given the new name of Mega Millions.

The largest Mega Millions jackpot to date was won on March 30, 2012. That \$1.537 billion jackpot was won by a ticket sold in South Carolina. A Mega Millions jackpot has not yet been won in Iowa.

On Jan. 31, 2010, 23 state lotteries, including the Iowa Lottery, began selling Mega Millions tickets in a historic cross-selling agreement between the Mega Millions and Powerball groups.

In October 2017, Mega Millions became a \$2 game. Players now choose five balls from a pool of 70 and another number, called the Mega Ball, from a separate pool of 25.

Lotto America®

Lotto America®, which debuted in November 2017, offers Powerball®-style play, but with easier odds and jackpots starting at \$2 million. Players pick 5 out of 52 numbers for the white balls; then choose 1 out of 10 numbers for the Star Ball®. Players have nine ways to win.

The largest Lotto America jackpot to date was won on March 4, 2018. That \$22.8 million prize was won by a ticket sold in Minnesota. The largest Lotto America jackpot won to date in Iowa came in May 2018 when Chuck Anderson of Davenport won a \$4.38 million prize.

The game's name is a throwback to the first multi-state lotto game that became known for big jackpots in the United States. Iowa was a founding member of the original version of Lotto America, which began in 1988 and paved the way for Powerball and other big jackpot games.

Lucky for Life®

Lucky for Life® is a lotto game with a twist on big lotto prizes. Both the top prize and second prize in this game are paid for a lifetime! The game's top prize is \$1,000 a day for life, and the game's second prize is \$25,000 a year for life.

The minimum payment period for the top two prizes is 20 years. For both, players have the choice of a cash option as an alternative to the annuitized payment option.

In Iowa, five players have won prizes of \$25,000 a year for life, although the state has not yet had a top-prize winner.

In Lucky for Life, players choose any five numbers they want between 1 and 48, and then pick one "Lucky Ball" number between 1 and 18. In addition to the top and second prizes, there are eight other ways to win a prize. Lucky for Life debuted in Iowa on Jan. 24, 2016.

Pick 3

Pick 3 is a daily game that leaves most all the choices up to the player. Players can pick their own three numbers in drawings twice a day and choose how to play them.

Players choose a set of three numbers, each from zero through nine. Play options can be a straight (match all numbers in the exact order as drawn), a box (match all three numbers in any order), a straight/box (match either exact and/or any order), front pair (match the first two numbers in the exact order as drawn) or back pair (match the last two numbers in the exact order as drawn).

The game's evening drawing was launched in July 1998. A midday drawing Monday through Saturday was added in September 2003. A Sunday midday drawing was added in July 2010.

Pick 4

Pick 4 is a daily game much like Pick 3, but players pick their own four numbers for each drawing and choose how to play them.

In Pick 4, players choose a set of four numbers from zero through nine. Play options can be a straight (match all numbers in the exact order as drawn), a box (match all four numbers in any order), a straight/box (match either exact and/or any order), front pair (match the first two numbers in the exact order as drawn) or back pair (match the last two numbers in the exact order as drawn).

Both the Pick 4 midday and evening draws were launched in September 2003. A Sunday midday drawing was added in July 2010.

InstaPlay

InstaPlay tickets are “scratchless scratch tickets” printed on demand from the lottery terminal, just like tickets in lotto games like Powerball® and Mega Millions®. InstaPlay tickets are “scratchless” because they have no scratch-off covering that needs to be removed to determine the prize won. The play style of InstaPlay tickets is similar to that of scratch tickets, with symbols and numbers that need to match in order to win a prize.

In November 2016, Iowa became the 14th U.S. lottery to offer this product, which goes by a few different names across the country.

Game Details:

- Prices for InstaPlay games range from \$1 to \$20 and tickets are available at any Iowa Lottery retailer.
- Similar to scratch games, InstaPlay tickets are played by matching symbols and numbers to win a prize.
- Top prizes vary by purchase price and game type. Progressive InstaPlay games offer jackpots that grow with each ticket sold statewide.
- InstaPlay prizes are valid for 90 days.

Pull-tabs

The Iowa Lottery first sold pull-tabs on an experimental basis in seven counties in October 1987. Later that year, pull-tabs were introduced statewide.

Most pull-tabs are sold in convenience stores and restaurants/bars. Tickets are dispensed from vending machines.

Game Details:

- Prices for pull-tab games range from 25 cents to \$5.
- Players play a ticket by pulling open paper tabs the ticket to reveal symbols underneath. Symbols must match identically the winning combination shown on the ticket front to win the corresponding prize.
- Top prizes vary by purchase price.
- Pull-tabs must be redeemed at the same location they were purchased within 90 days of the announced end of the game.

Scratch Games

The Iowa Lottery’s first product was a scratch ticket called “Scratch, Match & Win” that debuted in August 1985. Iowans purchased more than 28.1 million tickets by the end of that game. By the end of fiscal year 1986, Iowa had seen five different scratch tickets.

Today the Iowa Lottery offers new scratch games almost every month, and has about 30 scratch games available at a time.

Game Details:

- Scratch games range in price from \$1 to \$30.
- Top prizes vary by purchase price. For example, a player may be able to win a \$1,000 top prize on a \$1 ticket and a \$300,000 top prize on a \$30 ticket.
- Games are played by scratching off a security coating on the ticket to reveal numbers or symbols representing prizes.
- Scratch tickets are valid for 90 days after the announced end of the game.

FREQUENTLY ASKED QUESTIONS

Jackpots

Q. When a player wins a Powerball®, Mega Millions®, or Lotto America® jackpot or Lucky for Life® top prize, what's the difference between taking the annuity or lump-sum payout?

A. An annuity is paid out over several years whereas a lump-sum payout is a single cash payment. When a jackpot is won, each state participating in the game forwards its share of the proceeds to make the jackpot payment. The annuity option includes the amount in interest that would be generated over time and is therefore a larger amount than the lump-sum option. If the winner chooses the annuity option, the lottery invests the money available from the sale of tickets for that drawing. Payments are made over a number of years, with the total that the winner receives equalling the advertised annuity jackpot amount. That total includes the initial amount invested plus the interest generated through the years. If the winner chooses the lump-sum option, the one-time payment that is made includes only the money on hand from the sale of tickets for the drawing. There is no interest money available because the winner chose to receive the winnings up front. The “rest of the money” in that instance doesn't exist. Here in Iowa, you have 60 days from the time that you claim your jackpot prize to decide how you want to receive it.

Q. Which Iowa Lottery games offer an annuity option?

A. Powerball®, Mega Millions®, Lucky for Life® and Lotto America® offer the option of paying the jackpot/top prize out in a lump sum or an annuity payment. Pick 3 and Pick 4 only offer cash payouts. Some scratch games also offer the annuity option, but that list changes over time.

Q. Which is better to take, the annuity or lump-sum payout?

A. This depends on the individual's specific circumstances and needs. The lottery suggests the winner contact a trusted financial or legal advisor prior to making this decision. The winner has 60 days from the date the prize is claimed to decide.

Q. What happens to an annuity prize if the winner dies?

A. Once the money is won, it always belongs to the winner. Iowa law provides that if the winner should die, the money would go to the winner's estate. The lottery will make future payments as determined by the estate or the court.

Q. Has anyone ever considered capping jackpots when they get high?

A. The Iowa Lottery offers big jackpot games like Powerball® and Mega Millions® because they appeal to so many players. The lottery's sales history shows sales grow as the jackpot grows. Regular players continue to play and new players get into the game. By capping the jackpot, the lottery would never get the attention of those players who like to play for really big money like the \$1.59 billion Powerball jackpot in January 2016 and the \$1.54 billion Mega Millions jackpot in October 2018.

Q. If a jackpot prize is not claimed, what happens to the unclaimed money?

A. Unclaimed Powerball®, Mega Millions® and Lotto America® jackpots, and the Lucky for Life® top prize goes back to the states in the proportion of sales for that draw. Here in Iowa, unclaimed prize money goes into the prize pools for future games and promotions, so players in Iowa have another chance at the cash. Every year, many smaller prizes do go unclaimed, so the lottery urges everyone to check their tickets!

Q. If a player has already won a jackpot, can they keep playing to win another?

A. Yes, players can keep playing even after they've won a jackpot.

Q. How long does it take a player to collect a jackpot after they turn in the ticket?

A. In Powerball®, Mega Millions® and Lotto America® about two weeks after a player brings in the winning ticket, the lottery can cut the winner the first check. (It takes that amount of time for the rest of the states in the game to send money to the winning state.) For all other games, players can get their money the same day they bring their winning ticket to the lottery. Generally about 30 minutes after players walk in the door, they walk out with a check!

Q. Are lottery prizes transferable and if so, how does a person go about notifying the lottery that they are to be the new recipient of these payments?

FREQUENTLY ASKED QUESTIONS CONTINUED...

A. Prize winners who live in Iowa may be able to assign winnings through the court system. The lottery will make payments according to the court order.

Q. How long do the top prize and second prize in the Lucky for Life® game really last?

A. The top prize of \$1,000 a day for life and the second prize of \$25,000 a year for life are really FOR LIFE, meaning they last as long as you do. You win the game's top prize of \$1,000 a day for life by matching all six winning numbers in one of its drawings. The game's second prize level of \$25,000 a year for life comes from matching the first five numbers but missing the Lucky Ball. So, what does "for life" mean? It really does mean for life, but there are some qualifiers to that answer. The MINIMUM payment period for the games' top two prize levels is 20 years. So if you were to win one of those prizes at 55, but die at 70, you (and your estate) would still receive 20 years worth of payments. But let's say you win the game's top prize when you're 35, you choose the annuity option and you live to be 85. In that instance, the payments continue that entire time, for 50 years. There is a lump-sum option for the top two prizes, should you want cash up front. The lump-sum option for the top prize is \$5.75 million while the lump-sum option for the second prize is \$390,000.

Proceeds

Q. How are lottery proceeds in Iowa used?

A. Today, lottery proceeds have three direct purposes in Iowa. They provide support for our state's veterans and their families through the Iowa Veterans Trust Fund; support through the Iowa Public Safety Survivor Benefits Fund for the family members of Iowa peace officers and fire fighters who die in the line of duty; and help for a variety of significant projects through the state General Fund.

Q. Can nonprofit organizations here in Iowa apply for funding from the lottery?

A. All lottery profits in Iowa are dedicated to state causes here in Iowa, with appropriation decisions made by the Legislature and approved by the governor. It would require legislation to earmark funds for any particular cause.

Q. Doesn't the lottery help education?

A. The majority of Iowa Lottery proceeds each year goes into the state General Fund, and the largest recipient of money through the General Fund is education. So while lottery proceeds are not dedicated directly to education, we do provide support through the General Fund. When the Iowa Lottery started in 1985, its proceeds went to an economic development program called the Iowa Plan. Then for a time, lottery profits went to environmental and cultural causes. A portion of lottery proceeds have also been dedicated through the years to The Iowa Gambling Prevention and Treatment Program. Today, lottery proceeds have four main purposes in Iowa. They provide support for our state's veterans and their families through the Iowa Veterans Trust Fund; support through the Iowa Public Safety Survivor Benefits Fund for the family members of Iowa peace officers and fire fighters who die in the line of duty; help for a variety of significant projects through the state General Fund; and backing for the Vision Iowa program, which was implemented to create tourism destinations and community attractions in the state and build and repair schools.

Drawings

Q. What are the drawing times for Powerball®, Mega Millions®, Lotto America®, Pick 3, Pick 4, and Lucky for Life®?

A. Lucky for Life drawings are held Mondays and Thursdays at 9:38 p.m. Mega Millions drawings are held Tuesdays and Fridays at 10 p.m. Powerball drawings are held Wednesdays and Saturdays at 9:59 p.m. Lotto America drawings take place at approximately 10 p.m. on Wednesdays and Saturdays. Pick 3 and Pick 4 midday drawings are held every day at approximately 12:20 p.m. Pick 3 and Pick 4 evening drawings are held every day at approximately 10 p.m.

Q. When players miss the Powerball® drawing on TV, how can they check their numbers?

A. Players can get winning numbers in a number of ways. They can log on to the Iowa Lottery website at www.ialottery.com. Players also can choose to receive daily emails of the latest winning numbers, call the lottery's winning numbers hotline at 515-323-4633, check the lottery's "LotteryPlus" mobile app or check with their local lottery retailer. Also, most newspapers carry results. If players would like to see video of the actual drawing, they

can log on to the Powerball® website at www.powerball.com, the Mega Millions® website at www.megamillions.com or the Lucky for Life® website at www.luckyforlife.us.

Q. Where can a player go to see the results of the last Powerball® drawing that took place?

A. After a drawing, the Iowa Lottery's website lists the winning numbers, the number of winning tickets sold in Iowa in each category, the jackpot amount and whether it was won or continued to grow.

Q. Why don't some television stations air the results from lottery drawings?

A. We make our drawings available to stations, and many do choose to air them as a public service to their viewers. But that is a decision made by each station.

Q. How can the public attend a lottery drawing?

A. If members of the public would like to attend a lottery game or promotion drawing, they must contact lottery security at least 24 hours in advance of the drawing.

Q. How often are the drawing balls changed in the machines for Powerball® and are those balls used for any other games?

A. The balls used for the Powerball® drawing are changed if they show enough wear to warrant the change. In other words, there is no set time. There are actually four sets of balls of each color (four red, four white) and the sets used for a particular drawing are randomly chosen before the drawing occurs. The balls are only used for Powerball and they are weighed and X-rayed on a periodic schedule. The balls are always locked in a vault with the drawing machines and are only used under the supervision of an independent auditor.

Q. How many states are involved in Powerball® and Mega Millions®? What about Lucky for Life® and Lotto America®?

A. There are 48 lotteries that sell Powerball® tickets and 47 that sell Mega Millions®. There are 25 lotteries that sell tickets in the Lucky for Life game and 13 lotteries that sell Lotto America tickets.

Buying Tickets

Q. What are the sales cutoff times for Iowa's lotto games?

A. It depends. For Powerball®, Mega Millions®, and Lotto America® the cutoff time is 8:59 p.m. on the day of the drawing. For the Pick 3 and Pick 4 midday drawings, the sales cutoff time is noon the day of the drawing. For Pick 3 and Pick 4 evening drawings, the sales cutoff time is 9:40 p.m. the day of the drawing. For Lucky for Life® the sales cutoff time is 8:30 p.m. on the day of the drawing.

Q. Why is there a sales cutoff time?

A. All lottery games involve a high level of security controls that take time to administer before a drawing can occur. Officials must ensure that proper procedures are followed. The Iowa Lottery wants its games to be completely fair and honest. A number of measures ensure that every ticket issued in a lottery game has the same chance of winning.

Q. What's the difference between a player choosing the easy-pick option versus picking their own numbers? Which option has more winners?

A. When a player asks for an easy pick, the lotto terminal randomly picks the required numbers for that particular game. The terminal then issues the play. The software does not check with any central system before issuing a play, so another player could have the same numbers. About 90 percent of all plays are easy picks and because winners follow sales, about 90 percent of winners come from easy picks. That does not mean that easy picks are luckier, as every play has the same odds of winning. It simply means that more easy pick plays are being made.

Q. How old does a person have to be to purchase an Iowa Lottery ticket?

A. A player must be at least 21 years old to purchase lottery tickets in Iowa. It is legal for those under 21 to play lottery games and claim prizes, however a parent or guardian must also sign the ticket for any claimant who is a minor.

FREQUENTLY ASKED QUESTIONS CONTINUED...

Q. Can debit or credit cards be used to purchase lottery tickets in a retail store?

A. Lottery players can use debit cards to purchase lottery products. However, state law prohibits the use of a credit card to make a lottery purchase. A debit transaction is always tied to available funds, so as long as the card says DEBIT on the front, it is OK to use it for a lottery transaction. If it is a CREDIT card, it is illegal to use it for the purchase of lottery tickets.

Q. Can debit cards be used to purchase Iowa Lottery tickets on the Internet?

A. Tickets cannot be purchased on the Internet in Iowa.

Q. Can lottery tickets be purchased at casinos in Iowa?

A. Some casinos and horse-racing facilities in Iowa can sell lottery tickets, just like any other retail establishment. There are multiple casinos in the state that sell lottery products.

Q. Does a person have to be a legal citizen to win?

A. There are no conditions placed on buying and winning on a lottery ticket, except that a player must be at least 21 years old to purchase a ticket in Iowa. If a claimant does not have a Social Security number, additional tax may be withheld.

Claiming Prizes

Q. How long does a player have to claim a prize?

A. The claim period varies by game. Scratch tickets are valid for 90 days after the announced end of the game. InstaPlay prizes must be claimed within 90 days from the date of purchase. Pull-tab ticket prizes must be claimed at the place where the ticket was sold, also within 90 days of the announced end of the game. Powerball®, Mega Millions®, Lotto America®, and Lucky for Life® tickets are valid for 365 days from the date of the drawing. Pick 3 and Pick 4 (both midday and evening) tickets are valid for 90 days from the date of the drawing.

Q. How are large lottery prizes claimed? Does the winner have to go to Des Moines?

A. Subject to cash availability, retailers are asked to cash prizes up to \$600, but it is ultimately at the discretion of each retailer. For prizes more than \$600 -- with the exception of jackpots -- players can mail their signed winning ticket with a winner claim form to the lottery at: Iowa Lottery, 13001 University Ave. Clive, IA 50325-8225. Players may also cash winning tickets at any of the lottery's regional offices located in Cedar Rapids, Mason City and Storm Lake. Addresses for these locations are available on page 4 of this book. Our regional offices can pay prizes up to and including \$250,000. However, all prizes of more than \$250,000 must be claimed at the Iowa Lottery headquarters office in Clive. Powerball®, Mega Millions® and Lotto America® jackpot prizes, the top prize and second prize in Lucky for Life® and some special merchandise or vehicle prizes also must be claimed in person at the headquarters office.

Q. Can players claim a prize as a group? Can each player in a group receive an individual check?

A. Prizes can be paid to players who play as a group. A check can be written to an entity such as a trust or to a single individual. If an individual claims the prize on behalf of a group, they must indicate this on the [winner claim form](#). In addition, that person must submit a [Federal Form 5754](#), listing all the winners of the prize with their address and tax identification information, when claiming the prize. This ensures that the prize and tax withheld is correctly allocated to each group member. The lottery suggests that the back of the ticket should not be signed until the group has determined how the ticket will be submitted on the winner claim form.

Q. Is the lottery required to withhold money an individual may owe to the state?

A. Yes. The lottery is required by law to withhold income offsets, or amounts that may be owed to various government agencies, from prize payments. Winners receive any balance remaining after application of the offset(s).

Q. When does the Iowa Lottery deduct state and federal tax from a player's prize?

A. The Iowa Lottery does not withhold tax for prizes of \$600 or less. By law, a 5 percent state withholding tax is applied to lottery prizes of more than \$600. If a player wins more than \$5,000, an additional 24 percent federal withholding tax will be withheld when the prize is claimed.

Q. What tax information is provided to the winner?

A. All winners of more than \$600 will receive a Federal Form W2-G from the Iowa Lottery. This form will show the prize won and all tax withheld. This information should be filed with the winner's income tax form. The tax withheld will be a credit towards taxes owed; winners may get some of it back, or may have to pay more, depending on their income. For prizes won in a particular calendar year, Form W2-G will be mailed out no later than Jan. 31 of the following year. If a player won a prize greater than \$600 and moved since they claimed the prize, they should contact the Iowa Lottery at (515) 725-7900 with their updated address information to ensure the W2-G is sent to the correct address.

Q. Can I claim a lottery prize from another state in Iowa?

A. No. Lottery prizes must be claimed from the state where the ticket was purchased.

Miscellaneous

Q. How many people are employed by the lottery? Are they able to play the lottery?

A. There are 115 lottery employees. Many of the employees are in sales and they call on the lottery's approximately 2,400 retailers statewide. Lottery employees cannot play or win prizes on any Iowa Lottery product.

Q. Who comes up with the ideas for new lottery games?

A. The Iowa Lottery uses a number of sources for new games including players, retailers, and staff. The Iowa Lottery also closely monitors games put out by other lotteries around the country. An ad agency is contracted to help write and produce television and radio spots to support its new games, but most of the game development is done internally.

Q. Who makes the rules on how much money a player wins for picking two, three, four or five numbers correctly in the lottery's various lotto games?

A. The Iowa Lottery sets the prize structure for Pick 3 and Pick 4. With Powerball®, Mega Millions®, Lotto AmericaSM and Lucky for Life® the prize structure is set by all of the lotteries participating in those games.

Q. During what times of the year are lottery sales higher?

A. We say that you can tell the seasons by lottery sales. Each year, there is a cycle: Lottery sales are strong in the fall and winter and through early spring. In late spring and throughout the summer, lottery sales dip a bit and then come back up in the fall. Why? In the late spring and summer, people aren't in their regular routines. They're on vacation, they're traveling and they're outside having fun. People buy lottery tickets when they're running errands as part of their regular routines and that gets interrupted a bit during the spring and summer. But it always comes back when we head into fall.

Q. What about the argument that, "No one from here ever wins!"

A. That is a myth that's based upon the area you're from, no matter where that is. Here's an example: We were talking one day with the folks from the DC Lottery in the District of Columbia and we were telling them about the grumbling we'll sometimes hear that "no one from here ever wins." They started laughing and said what they hear is that "it's always those people from Iowa who win." We think the root of the situation is that people will never be truly satisfied unless they're the ones who win. In reality, people can and do win lottery prizes every day. In Fiscal Year 2020, Iowa Lottery players took home more than \$236 million in lottery prizes.

Q. What about the argument that only poor people play the lottery?

A. Let's look at that by the numbers. Iowa Lottery players bought more than \$372 million in lottery tickets in the latest financial year. It simply doesn't hold that if only poor people play the lottery, they had more than \$372 million to spend. It also doesn't make sense from a business-model perspective -- you simply wouldn't develop a plan around a customer base that can't afford your product. The reality is that Iowa Lottery players are from a broad cross-section of society. They're male and female, young and old, from urban and rural areas. They choose to spend some of their entertainment dollars playing the lottery, just like they choose to spend some of those dollars going to the movies, dining out and attending concerts.

Q. What about people who say that only players from big cities win?

A. It's our job at the Iowa Lottery to have integrity in our games and ensure that winners are determined by nothing other than pure, random chance. You want to know when you play the lottery that you have the same

fair chance of winning as anyone else. Now, it is true that more people live in bigger cities, which means more people are buying lottery tickets there and winning prizes. Another way of putting that is, if 5 percent of lottery tickets are sold in a particular area, you expect to find about 5 percent of overall winners there, and that's been the case with the Iowa Lottery. Everyone has the same chance of winning, but there will be more winners in places where more tickets are being sold.

Q. What about people who are addicted to gambling?

A. That's an issue we take very seriously at the Iowa Lottery, and we have a strong track record in that regard. A small percentage of those admitted to treatment through the Iowa Gambling Treatment Program say the lottery was their primary form of wagering. We're working hard to make sure people understand that help is available for those who have a gambling problem or are concerned about the effects that gambling may have on a loved one. The Iowa Office of Problem Gambling Treatment and Prevention provides treatment, counseling and outreach programs for those concerned about gambling. It also runs the 1-800-BETSOFF helpline that's available 24 hours a day, 7 days a week. The Iowa Lottery is committed to responsible play. Each year, the lottery provides information about 1-800-BETSOFF in several ways. The lottery includes messages about the helpline on its tickets, brochures and point-of-sale materials and also includes that information in its publications. The lottery also provided millions of dollars to the Iowa Gambling Treatment Fund during the years that fund was in existence.

GLOSSARY OF LOTTERY TERMS

Any Order—Refers to numbers in any order in the Pick 3 and Pick 4 game. For example, if a player selects 1-2-3 in any order (2-3-1, 1-3-2, etc.) the player would win, no matter what order the numbers were drawn in.

Drawings—Refers to drawings where winning numbers or winning entries are drawn. Lucky for Life® drawings are held Mondays and Thursdays at 9:38 p.m. Mega Millions® drawings are held every Tuesday and Friday night at 10 p.m. Powerball® drawings are held every Wednesday and Saturday night at 9:59 p.m. Lotto AmericaSM drawings are held every Wednesday and Saturday night at approximately 10 p.m. Pick 3 and Pick 4 drawings are held twice each day at approximately 12:20 p.m. and 10 p.m.

Easy Pick—Refers to the practice of having the computer pick the numbers on a ticket in a lotto game instead of the player picking them.

Exact Order—Refers to the consecutive order played in the Pick 3 and Pick 4 game. If a player selects 1-2-3, they would win only if those numbers were drawn in that exact order.

Lotto Games—Refers to games purchased from lottery terminals at retail locations. Currently, the Iowa Lottery offers Powerball®, Mega Millions®, Lotto America®, Pick 3, Pick 4 and Lucky for Life®.

Multi-Draw Option—Used when a player wishes to play the same numbers in a lotto game for consecutive drawings.

Multi-State Lottery Association—A lottery vendor based in Urbandale that conducts several drawings on behalf of the Iowa Lottery.

Play Slip—Used when a player wants to pick their own numbers in a lotto game.

Pull-tab Games—Instant games played by pulling the tabs on the back of the ticket to reveal the game. Players win by matching symbols and know the amount of the prize won by checking the prize legend on the ticket. Prizes are paid instantly at the same location where the ticket was purchased or at a lottery office.

Scratch Games—Games played by scratching off a security coating on a ticket. The player then identifies if they've won a prize.

Unclaimed Prize—A prize for which no one has come forward with a valid winning ticket. View a list of current unclaimed lotto prizes of \$600 or more at: www.ialottery.com/Pages/Games/Unclaimed.aspx.

Validated Ticket—A ticket that the lottery or a lottery retailer has verified as a winner through the lottery's sales and validation system.
