About the Report

The Department of Education's Division of Community Colleges and Workforce Preparation has prepared this report per the requirements in Iowa Code section 260I for the statewide Gap Tuition Program. This report was coordinated by the Department with the assistance of Iowa's 15 community colleges.

Acknowledgments

The staff and administration of the Division of Community Colleges and Workforce Preparation wish to acknowledge and thank the 15 community college presidents and their staff for their timely submission of data for this report. The figures noted in this report were obtained from each of Iowa's 15 community colleges.

Gap Program Completers	9
Program Outcomes	11

Introduction

The Gap Tuition Program was established to provide funding to community colleges for need-based tuition assistance to applicants for the completion of continuing education certificate training programs for in-demand occupations.

One component of eligibility for Gap tuition assistance is based on financial need. Criteria to be assessed in determining financial need shall include, but is not limited to, the applicant's:

- family income for the 12 months prior to the date of application;
- family size and
- county of residence.

An applicant must also have a demonstrated capacity to achieve the following outcomes in order to be eligible for Gap tuition assistance:

- complete an eligible certificate program.
- enter a postsecondary certificate, diploma, or degree program for credit.
- gain full-time employment.
- maintain full-time employment over time.

Only an applicant eligible to work in the United States shall be approved for tuition assistance under this program. A person will not be approved for tuition assistance under this program for more than one eligible certificate program. Individuals earning incomes at or below 250 percent of the federal poverty level, as defined by the most recently revised poverty income guidelines published by the United States Department of Health and Human Services, shall be eligible to receive assistance under this program. (Note: Poverty level benchmark increased from 200 percent to 250 percent in fiscal year 2014 [FY14]). Applicants for the program can be found eligible for partial or total tuition assistance.

Eligible Costs

Costs eligible for coverage under the Gap Tuition Program shall include, but are not limited to:

- tuition;
- direct training costs;
- required books and equipment;
- fees including, but not limited to, industry testing services and background check testing services and
- program support services.

Staffing and support costs are capped at 20 percent of allocated funds for Iowa's two smallest community colleges, 10 percent for the two largest community colleges and 15 percent for the remaining community colleges in Iowa.

Eligible Programs

Assistance can be provided to persons in eligible programs that meet the following criteria:

1. The program is not offered for credit, but is aligned with a certificate, diploma or degree for credit, and does any of the following:
 - Offers a state, national, or locally recognized certificate.
 - Offers preparation for a professional examination or licensure.
 - Provides endorsement for an existing credential or license.
 - Represents recognized skill standards defined by an industrial sector.
 - Offers a similar credential or training.
2. The program offers training or a credential in an in-demand occupation. In-demand occupation includes the following industries:
 - Information technology
 - Healthcare
 - Advanced manufacturing
 - Transportation and logistics
3. The program may offer training in any other industry designated as in-demand by a regional advisory board.

A complete list of approved programs can be found on the Iowa Department of Education [website](#).

Process

An applicant for tuition assistance under the Gap Tuition Program is required to complete an initial assessment, administered by the community college receiving the application, to determine the applicant's readiness to complete an eligible certificate program. As part of this process, all applicants are required to complete a National Career Readiness Certificate (NCRC). An applicant is then required to meet with a member of the college staff to discuss the related industry, any applicable occupational research and any applicable training related to the eligible certificate program. The discussion includes an evaluation of the applicant's capabilities, needs, family situation, work history, educational background, attitude and motivation, employment skills, vocational potential and employment barriers. The discussion also includes potential start dates, support needs and other requirements for an eligible certificate program.

A participant in an eligible certificate program who receives Gap tuition assistance will be required to do all of the following:

- maintain regular contact with staff members from the certificate program to document the applicant's progress in the program;
- sign a release form to provide relevant information to community college faculty or case managers;
- discuss with staff members from the certificate program any issues that may impact the ability to complete the certificate program, obtain employment, or maintain employment over time;
- meet with staff members from the certificate program to develop a job search plan;
- attend all required courses regularly.

Reallocation of Funds

Please note that in April of the FY 20 reporting year, the decision was made to reallocate a portion of funds from colleges with a surplus to those who indicated the need for additional funding. This reallocation was approved by the Iowa Association of Community College Presidents. Ultimately, North Iowa Area Community College, Iowa Valley Community College District, Iowa Western Community College, Southwestern Iowa Community College and Southeastern Iowa Community College sent back a total of \$149,000, which was redistributed to Hawkeye Community College, Kirkwood Community College and Des Moines Area Community College (\$32,000, \$37,000, and \$80,000, respectively). Accrued program interest of \$5,939 was also distributed to those who had received the redistribution of funds this year. See Table 4 for additional detail.

Analysis

In FY 2020, the community colleges received a state appropriation of \$2,000,000 to implement the Gap Tuition Program. Colleges continued to make significant progress in the implementation of their Gap tuition assistance funds.

In addition to the annual appropriation there was \$238,243 of funding carried forward from FY19 into FY20, totaling \$2,238,243. Of the total available funds, colleges spent \$1,770,866 (79.1 percent) on tuition and books, equipment, fees and testing and program staff. Colleges will carry forward an estimated total of \$467,376 into FY21. It should be noted that a portion of the funds carried forward may already be apportioned to active students who are currently participating in or waiting to participate in an approved training program (see Table 1 for additional detail).

Breaking down the expenditures from FY20, \$1,439,820 was spent on tuition and required books for approved participants; \$28,714 was spent on equipment and \$90,554 was spent on fees, assessments and testing. In addition, \$211,778 was spent on staff support and services. Table 4 contains expenditure details by college.

An internal and external audit was performed in November, 2017 with business offices of each community college to confirm all annual allocations, expenses and carry forwards. The business offices of each community college continued to verify the quarterly numbers for this reporting year.

There were 2,012 individuals who completed an application to be considered for tuition assistance under the Gap Tuition Program, up slightly from last year. Of these applicants, 898 were approved to participate in a program. At the time of reporting, 610 individuals had completed the training program in which they enrolled. The remaining individuals were either actively participating or waiting to participate in a Gap-approved program (see Tables 1 and 2 for details).

CHART 2: TOTAL GAP TUITION ASSISTANCE PROGRAM FUNDS AND EXPENDITURES, FY14 - FY20

Approved Programs and Enrollment

There are currently 461 approved noncredit programs in which participants of the Gap Tuition Assistance Program may enroll. The programs with the highest enrollment include certified nursing assistant (CNA) with 309 participants and truck and bus driver/commercial vehicle operator and instructor with 301 participants; making up 53.3 percent of the total overall enrollment (Table 6).

TABLE 6: TOP GAP TUITION ASSISTANCE PROGRAM ENROLLMENT, FY20

CIP Code	CIP Title	Number Enrolled
49.0205	Truck and Bus Driver/Commercial Vehicle Operator and Instructor	301

Enrollment numbers can include duplicates depending upon program requirements for course work

CIP - Classification Instructional Program

Gap Program Completers

There were 469 Gap program completers reported in FY20. Table 7 shows the top Gap program completions. The commercial driver's license (CDL)/Transportation programs had the highest number of completers with 130, followed by the Certified nursing assistant (CNA) program with 106 completers and welding technology had the third highest number of completers with 42 participants. It is important to note, however, that each training program has individual requirements for completion which may cause completion to be pushed into subsequent years.

TABLE 7: TOP GAP PROGRAM COMPLETERS FY 20

CIP Code	CIP Title	Number of Completers

Total		469

The Gap Tuition Assistance Program is used to help students afford training toward a high demand, noncredit program that will lead to a job that employers in a region need to fill. Additionally, many of Iowa's regional employers desire industry certifications to assess whether individuals possesses the skills and knowledge required for successful performance in particular job roles. Employers want to hire the best qualified individual who will make a positive contribution to their company. Gap-approved programs assist by providing specific certifications in various fields of expertise, which demonstrates that the candidates:

- have met standards that have been established and verified by a third-party organization, and
- are dedicated to maintaining quality and competency in their work on a regular basis.

Certification demonstrates to the employer and to the public that there is a commitment to the profession and fosters a collaborative environment between employer and employee.

Table 8 below shows the number of students who completed training and third-party credentials during a fiscal year but it is noteworthy to state that not all programs begin and end in the same year so some students will complete the year following enrollment while others will complete in the same fiscal year.

TABLE 8: GAP PROGRAM COMPLETION AND THIRD PARTY CREDENTIAL SUMMARY

Fiscal Year	Completed Training	Did Not Complete	Completion Rate	Third Party Credentials
FY 2013	411	76	84.4%	—
FY 2014	998	167	85.7%	500
FY 2015	715	183	82.7%	329
FY 2016	1,050	180	85.4%	658
FY 2017	694	185	79.9%	516
FY 2018	880	363	70.7%	613
FY 2019	816	363	56.0%	521
FY 2020	610	288	67.9%	415

Third party credentialing is endorsed by a third party or a state or federal regulatory agency leading to employment. (Examples include, but are not limited to: AWS, DOT, DIA, NIMS, and Microsoft). These are for initial certification only, not classes for recertification or re-licensure. Third party credentials would not include any locally awarded credential, as this is already being counted as a Gap completion of an approved Gap noncredit training program. Third party credentialing is for established industry standards. The NCRC credential should not be included in this count.

Program Outcomes

Community colleges are no longer required to collect basic employment statistics on program completers because data are now matched to the unemployment insurance (UI) wage record database following completion, and reported annually. This data, though for the previous year, are reliable and can be longitudinally analyzed for employment outcomes. Student records are matched to employer wage records and enrollment records for the year following completion (on a quarterly basis) to identify if they became newly employed, retained employment or continued their education in a credit-bearing program (Table 8).

Of the 1,061 participants who completed a Gap-approved program for the academic year 2017-2018 (AY18), 321 participants were employed in the same industry prior to and following their training but show an average increase in wages of 17.5 percent by the second quarter following completion of their program. Another 337 participants were employed in a different industry following their completion and had an average wage increase of 63.9 percent. Additionally, there were 180 participants who were previously unemployed, but following earned an average quarterly wage of \$6,222.37 the second quarter following completion.

TABLE 9: GAP PARTICIPANT EMPLOYMENT STATUS SUMMARY BY COLLEGE, AY 2018 COHORT

College	Retained Employment	New Employment	Unemployed Following Training	Total All	New Employment Percentage	Overall Employment (less Continued Education)

* Employment based on program completers who responded to survey attempts. Actual employment rates may vary slightly. Employment and New Employment rate methodology changed this year due to new MIS reporting data inputs.

$$\text{Overall Employment Rate} = \frac{\text{New Employment} + \text{Retained Employment}}{\text{Total Employment} - \text{Continued Education}}$$

$$\text{New Employment Rate} = \frac{\text{New Employment}}{\text{Total Employment} + \text{Unemployed}}$$

COMMUNITY COLLEGES & WORKFORCE PREPARATION

PROSPERITY THROUGH EDUCATION

The Division of Community Colleges and Workforce Preparation within the Iowa Department of Education administers a variety of diverse programs that enhance Iowa's educational system and help to prepare a skilled and knowledgeable workforce. Divided between two bureaus — the Bureau of Community Colleges and the Bureau of Career and Technical Education — the division is committed to providing and supporting opportunities for lifelong learning. In addition to working with Iowa's 15 public community colleges on state accreditation, program approval, equity review, and data reporting, guidance is also provided in the areas of career and technical education, workforce training and economic development, adult education and literacy, military education, the state mandated OWI education program, the GAP Tuition and PACE programs, Senior Year Plus, the National Crosswalk Service Center, and the Statewide Intermediary Network program.
