HIGH SCHOOL STATISTICS.

FROM CITIES AND TOWNS OF OVER 1,000 BY THE CENSUS OF 1900.

Table with columns: NAME OF SCHOOL, 1901-1902 (Enrollment entire year, Graduated), 1902-1903 (Enrollment Oct. 10, 1902, In graduating class), Years in course, Years in latin, No. fitting for col., NAME OF PRINCIPAL.

\*P. O. Des Moines.

†Number fitting for college or other higher institutions.

NOTE—In comparing the number of students enrolled this year with the number enrolled last year, just bear in mind that for 1901-1902 the enrollment is given for the entire year; and that for 1902-1903 the enrollment is given at the beginning of the year. This will explain why the number of students is, in many schools, less than it was last year. The difference is quite noticeable in the reports from some of the large towns and cities because a large class is promoted to the high school at the middle of the year.
