## Introduction and Explanatory Notes

The 1990-91 edition of the *Iowa Public Library Statistics* includes data from individual libraries, state totals and averages, and analysis by region, by size and by county. An expanded section of graphical studies is included in this edition. The county study has been modified to provide an actual per capita study of income, holdings and circulation for municipal libraries, county libraries, and each county as a whole. Map studies are included in the county study. Surveys from 501 libraries are included in this publication. Collection development indicators are included in the data for individual libraries and by region. Turnover rate is listed under Circulation; % withdrawn is listed under Holdings; and % added is listed under Acquisitions in this edition of the *Iowa Public Library Statistics*.

Iowa statistics have been reviewed and certified by the Federal State Cooperative System, the national Public Library statistics project. Iowa is one of 4 states which received the Francis Keppel award for timeliness and quality of Public Library data from the National Commission on Library and Information Science and the National Center for Education Statistics. As Iowa's FSCS Data Coordinator, I was elected to the Steering Committee of FSCS in December of 1991. I appreciate the cooperation and commitment to quality library statistics demonstrated by individual libraries and the Regional Libraries. Together, we have made Iowa a leader in Public Library statistics.

## County Study, Introduction

The maps on this page represent a county by county study of Total Income, Total Circulation and Total Holdings for 1990-91. Totals by city, totals for rural areas, and per capita calculations are listed in the County Study section which follows. The County Study tables give data for Income, Holdings and Circulation.

County populations are taken from the 1990 U.S. Census. Cities which have a significant percentage of their population in two counties have been listed in both counties. For the cities of Cascade, Edgewood, Gilmore City, and Stuart, data for holdings, income and circulation have been calculated on a percentage of population basis.

### County Study, Mapped Data

A graphical presentation of Total Hours, MLS Librarians and Reference Transactions on a county by county basis. Most residents of a county have access to library service through their city library or through formal or informal contracts. All Iowa counties contract for library service for rural residents.

**Total Hours Open per Week** is based on the total open hours of the main libraries, branch libraries, and bookmobiles in each county. Hours for deposit collections are not included. No county in Iowa has fewer than 24 total open hours per week.

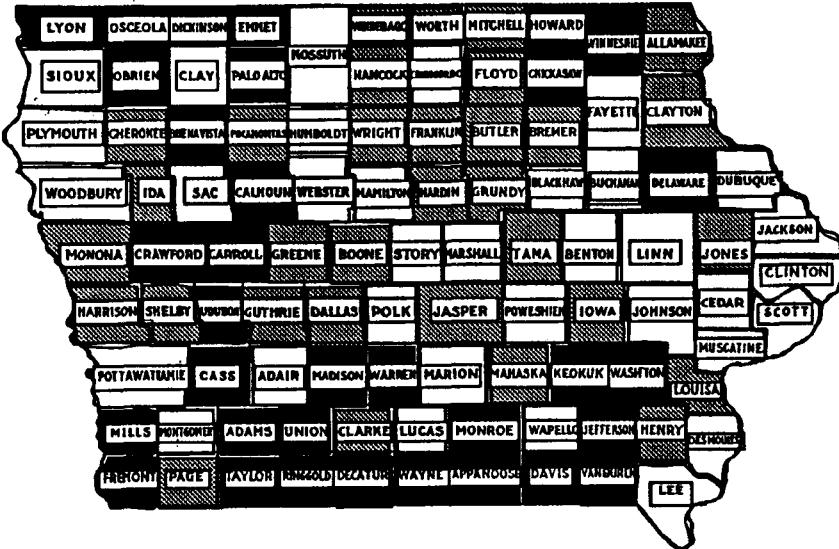

**MLS Librarians** refers to librarians with the Masters of Library Science degree (ALA accredited). Approximately 18% of Librarians in Iowa Public Libraries have the MLS.

**Reference Transactions** are given on a per week basis. Iowa citizens are also able to use the resources of libraries outside their own county through Open Access, the Iowa reciprocal borrowing program.
