Brainfuse JobNow/VetNow Front Line Staff Training

Online Nov. 8 and Nov. 16

Directors, please forward this email to your front line staff and encourage them to attend an upcoming online training session on Brainfuse JobNow and VetNow.

Brainfuse's training webinar for the JobNow/VetNow program will cover all the features available to patrons of Iowa libraries. This training includes demonstrations of the Live Career Help and Veterans' Assistance services, asynchronous expert help services like the Resume Lab and Send Question center, the extensive library of career resources and helpful veteran programs and information in healthcare, housing, education, and more. We will also demonstrate Brainfuse's account features, available to patrons who elect to register an optional, free Brainfuse JobNow/VetNow account when accessing the services. Time will be allotted at the end of the demonstration for audience questions.

There are two training dates and times available; you only need to attend one. The training will be recorded and available to watch for those who cannot attend live. Click the links below to register in IA Learns.

- [November 8 | 1:30 - 2:00 p.m.](#)
- [November 16 | 10:30 - 11:30 a.m.](#)
