TABLE OF CONTENTS

PART I.

CHAPTER I.

GENERAL OBSERVATIONS.

	Page
Changes in population	1
Appointment of officers	2
Chief executive officers	3, 5
Improvements and purchases	6
Soldiers' Home	6
Soldiers' Orphans' Home	6
College for the Blind	7
School for the Deaf	7
Institution for Feeble-minded Children	7
State Sanatorium for the Treatment of Tuberculosis	8
Industrial School for Boys	8
Industrial School for Girls	9
Mt. Pleasant State Hospital	11
Independence State Hospital	12
Clarinda State Hospital	12
Cherokee State Hospital	13
State Hospital for Inebriates	13
State Penitentiary	14
The Reformatory	14
Land	14

CHAPTER II.

FARMS AND GARDENS.

Silos	16
Tiling and fencing	16
Railway switches	17
Tuberculosis in herds	17

CHAPTER III.

WATER SUPPLY.

College for the Blind	18
School for the Deaf	18
Institution for Feeble-minded Children	18
State Sanatorium for the Treatment of Tuberculosis	19
Mt. Pleasant State Hospital	19
Independence State Hospital	19
Clarinda State Hospital	19
State Hospital for Inebriates	20
State Penitentiary	20

CHAPTER IV.

FIRE PROTECTION AND LOSSES BY FIRE AND STORM.

Page

Additions to equipment 21
Equipment needed 21
Losses 21
Value of property subject to losses 22
Schedule of values and losses 22

CHAPTER V.

INSANE AND EPILEPTIC.

Insane, increase in number 23
Epilepsy, discussions of 23
Number of epileptics 24
Colony for epileptics 24

CHAPTER VI.

TUBERCULOSIS AND THE STATE SANATORIUM.

Campaign against tuberculosis 26
Department for crippled children 26
Advanced cases 26
Reporting cases to State Board of Health 27
Educational work 27
Appropriations and expenditures 28
Number of tubercular patients in Iowa 28

CHAPTER VII.

HEALTH OF INMATES AND EMPLOYES.

General statement 30
Soldiers' Home 30
Soldiers' Orphans' Home 30
College for the Blind 30
School for the Deaf 31
Institution for Feeble-minded Children 31
State Sanatorium for the Treatment of Tuberculosis 31
Industrial School for Boys 32
Industrial School for Girls 32
State Hospitals 32
Mt. Pleasant State Hospital 32
Independence State Hospital 33
Clarinda State Hospital 33
Cherokee State Hospital 33
State Hospital for Inebriates 33
State Penitentiary 34
The Reformatory 34

CHAPTER VIII.

LEGISLATION RECOMMENDED.

Roads and highways—

Chapter 93, acts 33d G. A., indefinite 35
Roads, streets and bridges 35

Industrial reformatory for females—

Reason for not opening 36
Amendment by law 36

Liability of nonresident patients in state hospitals 36
Transfers of inmates of industrial schools 37
Prison schools 37

Page

Paroling of patients from State Hospital for Inebriates 38
Expenses of agents to other states 39

Placing children—

From Soldiers' Orphans' Home 39
From industrial schools 41

State agents, increase of appropriation for 41
Librarian of state institutions, appropriations for 42

Increase of support funds—

College for the Blind 42
Institution for Feeble-minded Children 42
Industrial schools 43
Reformatory 44
State Hospitals (for insane) 43
State Penitentiary 44

Support of wardens 45
Wages of guards 45

CHAPTER IX.

APPROPRIATIONS.

For land and buildings for a colony for epileptics 46
For land for state institutions 46
For Soldiers' Home 46
For Soldiers' Orphans' Home 46
For College for the Blind 46
For School for the Deaf 46
For Institution for Feeble-minded Children 47
For State Sanatorium for the Treatment of Tuberculosis 47
For Industrial School for Boys 47
For Industrial School for Girls 48
For Mt. Pleasant State Hospital 48
For Independence State Hospital 49
For Cherokee State Hospital 49
For Clarinda State Hospital 49
For State Hospital for Inebriates 49
For State Penitentiary 50
For Reformatory 50
Recapitulation 50

CHAPTER X.

VISITATIONS OF INSTITUTIONS.

When and by whom made 51

CHAPTER XI.

Salaries and wages paid and positions held by the members, officers and employes of the board of control and by the officers and employes of the several state institutions subject to the control of the board 56

PART II.

We present in Part II. of this report statistical tables prepared under our direction by F. I. Herriott, Ph. D., Professor of Economics and Political Science in Drake University at Des Moines, Iowa.

DIVISION 1—INSTITUTIONAL POPULATION

CHAPTER I.

AGGREGATE INSTITUTIONAL POPULATION.

PART I.

CHAPTER I.

GENERAL OBSERVATIONS.

The number of state institutions under our control is fifteen, the same as at the date of our last report.

The average daily population of the several institutions since June 30, 1903, is shown by the following table:

Institutions	1903 1905	1905 1906	1906 1908	1908 1910	Change in Last Period	
					Increase	Decrease
Soldiers' Home	725	794	838	819		19
Soldiers' Orphans' Home	481	479	497	530	33	
College for the Blind	156	160	151.9	145		7
School for the Deaf	247	247	244	238		6
Institution for Feeble-minded Children	950	1,016	1,039	1,152	113	
State Sanatorium for the Treatment of Tuberculosis			27	76	49	
Industrial School for Boys	499	472	440	386		54
Industrial School for Girls	208	218	219	196		23
Mt. Pleasant State Hospital	925	988	1,048	1,032		16
(Mt. Pleasant) Hospital for Inebriates	45	57	23	17		6
Independence State Hospital	968	1,045	1,115	1,152	37	
(Independence) Hospital for Inebriates	27	20				
Clarinda State Hospital	931	965	1,034	1,962	28	
Cherokee State Hospital	666	761	825	875	50	
(Cherokee) Hospital for Inebriates	23	21				
State Hospital for Inebriates		175	129	121		8
State Penitentiary	496	526	443	487	44	
The Reformatory	383	368	354	437	83	

It will be noticed that the table shows an aggregate gain of 437 in the average daily population and an aggregate loss of 139 or a net average daily gain of 248 for the period.

The large gain by the Institution for Feeble-minded Children is due to the opening of the new custodial building for boys which afforded room for the additional number. The large increase in the average daily population of the penitentiary and reformatory seems to call for explanation. We find on examination of the records that it is due to a lengthening of the average term of imprisonment of the prisoners under the indeterminate sentence act. That became

operative April 3, 1907, but its effect upon the average term of imprisonment was not appreciable until the last biennium, and its full effect is not yet known for the reason that a large number of prisoners still in the penitentiary and reformatory are serving fixed terms.

As tending to show that the increase in population is due to the cause stated, we submit the following statement, showing the movement of population in the institutions at Ft. Madison and Anamosa from July 1, 1899, to June 30, 1910, including both dates:

	1899-1901	1901-1903	1903-1905	1905-1906
Received	853	897	763	436
Released	1,019	903	682	462

	1906-1908	1908-1910
Received	843	803
Released	930	615

The average number of prisoners received during each year of these periods was 416 and the average number released was 419. It also appears that the average number received during each year of the last biennium was 401 or 15 fewer than the average for eleven years, and that the average number released during each year of the last period was 307 or 116 fewer than the average for the eleven years.

The increase in the average number of inmates in three of the hospitals was not unusual and not unexpected. Indeed, it is the smallest total increase for a biennial period known for many years. The decrease in the population of the industrial schools is largely accounted for by the activity of the state agents and is desirable.

APPOINTMENTS.

MEMBERS OF THE BOARD OF CONTROL OF STATE INSTITUTIONS.

Early in the autumn of 1909 Hon. John T. Hamilton resigned as a member of the Board and retired September 30, 1909, after a service of nearly three and a half years. He was succeeded by Hon. John F. Wade, who entered upon the duties of the office on the first day of October. In March, 1910, Hon. John Cownie resigned, and on the 5th day of April retired after a service of twelve years. He was succeeded by Dr. Murdoch Bannister, who entered upon the duties of the office on the 6th day of April.

HEADS OF INSTITUTIONS.

In June, 1909, Dr. C. F. Applegate was appointed to succeed himself as superintendent of the Mt. Pleasant State Hospital, and on the first day of July following entered upon his third term of four years.

On the 12th day of July, 1909, F. P. Fitzgerald retired by resignation from the superintendency of the Industrial School for Girls after a service of more than nine years. He was succeeded on the 15th day of that month by Miss Hattie R. Garrison.

In May, 1909, J. E. Vance tendered his resignation as superintendent of the College for the Blind and retired on the 20th day of August following. He was succeeded on that day by George D. Eaton.

In December, 1909, Col. C. C. Horton was reappointed commandant of the Iowa Soldiers' Home and on the first day of January of this year entered upon his fourth term.

In February, 1910, Dr. M. N. Voldeng was appointed to succeed himself as superintendent of the Cherokee State Hospital and on the first day of March entered upon his third term.

In June, 1910, Dr. W. P. Crumbacker was appointed to succeed himself as superintendent of the Independence State Hospital and on the first day of July, 1910, entered upon his third term.

In August, 1910, Henry W. Rothert was appointed superintendent of the School for the Deaf to succeed himself, and on the first day of September, 1910, entered upon his twenty-second year of service.

In August, 1910, Dr. H. S. Miner tendered his resignation as superintendent of the State Hospital for Inebriates at Knoxville and on the last day of September retired and was succeeded on the next day by Dr. George Donohoe.

In September, 1910, Dr. Max E. Witte was appointed superintendent of the Clarinda State Hospital to succeed himself and in October entered upon his fourth term.

STATE AGENTS AND INSPECTOR.

In April, 1909, Miss Clare Lunbeck resigned her position as state agent for the Iowa Soldiers' Orphans' Home and the Industrial School for Girls, the resignation taking effect on the first day of the next July. Chapter 172 of the acts of the thirty-third general assembly provided for the appointment of an additional state agent, thus

authorizing three. J. T. Harnett was already acting as state agent for the Industrial School for Boys, and on the 19th day of July, 1909, Miss Charlotta Goff was appointed state agent for the Iowa Soldiers' Orphans' Home and Miss Katherine A. Hummer was appointed state agent for the Industrial School for Girls. These appointments were for indefinite terms which may be terminated at any time. Miss Goff commenced her work on the 24th day of July and Miss Hummer on the first day of August, 1909.

Mr. I. P. Bowdish resigned his position as state inspector of county and private institutions in which insane persons are kept, homes for friendless children and detention homes and left the service of the state in January, 1909. In March, 1909, J. E. Corwin was appointed inspector to succeed Mr. Bowdish for a short term and in January, 1910, was appointed for an indefinite term.

CHIEF EXECUTIVE OFFICERS.

The following table shows the heads of the various state institutions under our control, their titles and the dates on which their several terms will expire:

Names	Titles	Institutions	Terms Expire	
C. C. Horton	Commandant	Soldiers' Home	December	31, 1913
F. J. Sessions	Superintendent	Soldiers' Orphans' Home	June	30, 1912
George D. Eaton	Superintendent	College for the Blind	August	19, 1913
Henry W. Rothert	Superintendent	School for the Deaf	August	31, 1914
George Mogridge	Superintendent	Institution for Feeble-minded Children	June	30, 1911
H. E. Kirschner	Superintendent	Industrial School for Boys	January	31, 1912
W. L. Kuser	Superintendent	Industrial School for Girls	August	31, 1911
Hattie R. Garrison	Superintendent	State Sanatorium for the Treatment of Tuberculosis	July	14, 1913
C. F. Applegate	Superintendent	Mt. Pleasant State Hospital	June	30, 1913
W. P. Crumbacker	Superintendent	Independence State Hospital	June	30, 1914
Max E. Witte	Superintendent	Clarinda State Hospital	September	30, 1914
M. N. Voldeng	Superintendent	Cherokee State Hospital	February	28, 1914
George Donohoe	Superintendent	State Hospital for Inebriates	September	30, 1914
J. C. Sanders	Warden	State Penitentiary	March	31, 1912
Marquis Barr	Warden	The Reformatory	October	31, 1910

The other officers are:

J. T. Harnett	State Agent	Industrial School for Boys	Term indefinite
Miss Katherine A. Hummer	State Agent	Industrial School for Girls	Term indefinite
Miss Charlotta Goff	State Agent	Soldiers' Orphans' Home	Term indefinite
J. E. Corwin	Inspecting Officer		Term indefinite

SOLDIERS' HOME.

Contracts authorized by the last general assembly have been made for converting the old men's building into a dormitory for married men and their wives, for fitting up and furnishing a part of the old quartermaster's building for a dormitory for men, for repairing the main building and for a new tool house and root cellar. The work required by the contracts is now substantially completed, new beds have been purchased as authorized and new furniture procured. A suite of rooms for a morgue has been completed in the basement of the hospital and a long felt want thus supplied.

During the last biennial period an opportunity to purchase for the sum of $10,000 a tract containing eleven acres of land bounded on three sides by land owned by the state and on the fourth by the Iowa River was offered the state. The ground was covered by a fine grove of native trees and fruit trees and on it were a good dwelling house, a cottage and a barn and other outbuildings. This had been desired by those interested in the Home for many years but there had never been an opportunity to purchase it before. It could be reached only by passing over land owned by the state. The owner had an offer for the property from a person who designed in case he secured it to build upon it a considerable number of dwelling houses, but gave the state the first opportunity to purchase it. In view of the location of the tract the proposed use of the tract if sold to the person referred to was regarded as a serious menace to the Home and we decided to authorize the purchase of the property. This was done and the dwelling house was fitted up and is occupied by the commandant. The cottage was moved a short distance and prepared for the family of an employe.

SOLDIERS' ORPHANS' HOME.

The improvements authorized by the thirty-third general assembly have been made. The beds and mattresses were purchased and installed, dormitory floors have been relaid, the chapel decorated and the wagon shed built.

The long standing question of the proper disposal of sewage has been settled by the making of a connection with the city sewer, and the hog house for which the thirty-first general assembly made an appropriation has been constructed. In addition a concrete root cellar with a floor 30x70 feet in size and 7 feet high at the lowest point inside, with a vestibule 6 feet by 7 feet 6 inches, has been constructed. This root cellar is of the type of those heretofore constructed for the state institutions at Cherokee, Clarinda and Ft. Madison and found to be economical and satisfactory. Two silos have also been constructed.

COLLEGE FOR THE BLIND.

The sum of $12,000 was appropriated by the thirty-third general assembly to be used with certain available balances for the construction of a gymnasium. A contract was entered into last April for the construction of a building 40x60 feet in size with foundations of concrete and walls of brick, two stories high, with a basement 8 feet high. In the basement is a swimming pool 28x30 feet in size and from 2 feet 6 inches to 5 feet 6 inches deep. The main floor is to be equipped with apparatus suitable for the use of the blind. A running track is to be provided in the gallery which surrounds the main room. The contract price for the building was $12,900.50 and for the heating and plumbing $1,342.00, and in addition specified sums per foot for certain water pipe and conduit connections and further sums for fitting and labor for boiler room connections. The apparatus has not yet been purchased but it is hoped to have the building completed, equipped and ready for use before next January.

SCHOOL FOR THE DEAF.

The largest and most important appropriation for this institution was the sum of $2,000 for completing and furnishing an assembly hall. The building designed for this purpose was the old brick boiler room. The work has been completed and the building is now ready for use. The other improvements for which there were appropriations have been made or are being made. However, a considerable part of the fencing remains to be done.

An extension of the street railway system of Council Bluffs has been completed to the institution grounds and convenient service is now had to the school. A branch of the line has also been extended to the institution coal house, and so soon as certain connections with other lines are made cars of coal will be delivered on track at the coal house of the school.

A silo has been constructed.

INSTITUTION FOR FEEBLE-MINDED CHILDREN.

The wing of the new custodial building has been completed at a cost of $42,900.09 and is now occupied.

A railway switch has been constructed and is now in use and is proving to be a great convenience. Settlement for the cost of construction has not yet been made with the railway company.

Most of the appropriations for beds, bedding and furniture have been expended for the purposes for which made and also the larger part of the appropriations for paint and painting.

Settling reservoirs have been constructed as described in the chapter on water supply.

A silo has also been constructed.

STATE SANITORIUM FOR THE TREATMENT OF TUBERCULOSIS.

A cottage for the superintendent has been constructed which with plumbing and connections cost $5,315.

Six cottages have been constructed with the appropriations made for that purpose, and the institution now has capacity for the care and treatment of 120 patients.

A building 61½x118 feet in size on the ground, having a basement and two stories above it, has been constructed for employes. It also contains the office of the steward, some storerooms and a cold storage plant, including a 4-ton ice machine with a capacity for making one-half ton of ice each twelve hours.

The cost of the cottages was $11,887.90, of the employes' building $18,000, and of the refrigerating plant $1,920. These sums do not include furniture and furnishings. In addition the plumbing and heating cost $7,735 and electric wiring and fixtures cost $962.

An addition has been made to the power plant in which the engines, generators and most of the pumps are placed. A new tubular boiler having a capacity of 110 H. P. and costing $890, exclusive of connections and setting has been installed. A new direct connected generating unit which includes a 125 H. P. engine and a 75 K. W. generator has been purchased and installed at a cost of $2,622 and several small poultry houses have been built.

INDUSTRIAL SCHOOL FOR BOYS.

The work of constructing the tunnel to connect the heating and water plant with the various buildings of the school has progressed steadily since June, 1909. The work done since that time is as follows: 4,973 cubic yards of earth have been excavated and hauled to places where it was needed and there used for grading, 2,459 linear feet of tunnel 5½x6½ feet in the clear in size have been completed and 18,710 square feet of concrete sidewalks have been laid on the tunnel.

The number of cubic yards of concrete used was 1,795. The pipe put in place in the tunnel was as follows: 450 feet of 10-inch, 400 feet of 8-inch, 150 feet of 7-inch, 400 feet of 6-inch, 2,084 feet of 4-inch, 200 feet of 3½-inch, 150 feet 2½-inch, 2,890 feet of 2-inch, 500 feet of 1¼-inch, 2,028 feet of 1-inch and 140 feet of ¾-inch. The larger part of this pipe was taken out of the ground from depths varying from 4 to 14 feet, where it was placed in boxes when the system of heating the cottages with steam was installed. In order to remove this pipe, 1,750 cubic yards of earth were excavated and the trenches thus made were refilled after the pipes were removed.

About 800 feet of the tunnels contemplated when the appropriation for tunnels was made are yet to be constructed and in addition a tunnel about 300 feet in length is needed to connect the power plant with the industrial shops.

A horse barn 38x105½ feet in size with walls 20 feet 6 inches high at the sides above grade line has been completed except the concrete floors.

A granary 40x50 feet in size with a capacity for 8,000 bushels of grain has been constructed.

Three hundred seventy rods of fence have been made.

All of this work in addition to that required for carrying on the large farm and garden, for the stock and for domestic purposes has been done by the boys of the school under the supervision of their officers. The work done during the last two years has been so great in amount that it was thought inadvisable to attempt to construct the greenhouse for which an appropriation was made.

The appropriations for the cow barn and fire station are not sufficiently large to provide the necessary buildings.

Help has not been available to complete the tile draining of the farm.

One tubular steam boiler of 100 H. P. has been purchased at a cost of $900 and is in place. It will be set and connected during the winter.

Contracts for the construction of a hospital building and for the plumbing and heating have been awarded and the building is now being constructed.

INDUSTRIAL SCHOOL FOR GIRLS.

Most of the improvements for which appropriations were provided by the thirty-third general assembly have been made. Nine

thousand twenty-six square feet of concrete sidewalks were constructed, a hot water tank and connections were installed, three pianos were purchased and a fine piano was given to Larrabee cottage by Ex-Governor and Mrs. Larrabee. The finishing of the basement of Larrabee cottage and the construction of a greenhouse are under contract to be completed before December 15th for the aggregate sum of $3,384.

In several of the cottages for girls are dormitories of considerable size which can be converted into single rooms for the inmates. It is very desirable that this be done and an appropriation for the purpose is asked.

On the 11th day of March, 1910, about 25 inmates of the school, chiefly of cottage No. 2, broke from restraint, defied and threatened their officers, smashed windows and destroyed considerable property. They were quieted for a time, but in the evening left the school in a body and came to Des Moines. Nearly all were returned the next morning and all but one within two or three days. That one became very ill and during several weeks was treated in Des Moines in a private house, admission to the hospitals having been refused.

None of the girls were punished except by being restrained in their rooms for a few days.

Four days after the first outbreak another occurred. That was in cottage No. 6. Members of the Board went to the institution as soon as possible after the affair was reported. It was then evident that the mild treatment used at the first outbreak would not control the inmates. They were in a very turbulent condition and there was danger of further outbreak and in all the cottages. Unless more drastic measures should be resorted to it was certain the inmates would soon be beyond control. It was therefore decided to send eight of the ringleaders to the county jail and that was done. Each girl was sentenced to a term of ten days. However by means of pardons from the Governor we secured the release of all of them before any had served the full term.

In causing the eight girls to be sent to jail we followed the precedent established in the latter part of 1899 when on the occasion of a similar outbreak Governor Larrabee, Judge Kinne and Mr. Cownie, then constituting the Board, caused to be sent from the school to the county jail in Des Moines, as we are advised, nearly seventy girls for terms of five or six weeks. But we caused the commitment of the eight girls with great reluctance and only because the school was wholly without adequate means of its own to control the girls. It had only two isolation rooms similar to ordinary bedrooms where girls who had violated the rules of the school could be secluded for a time, but those rooms were not strong enough nor large enough to meet the emergency which was upon us, and had they been it would not have been advisable to place so many girls in them. Therefore we determined to provide means for dealing with similar outbreaks should they occur in the future and thus save the girls who might be concerned from the stigma of jail sentences and from the demoralization which would inevitably follow their transportation to and from the jail, from serving jail sentences and from the contaminating influences to which they would be subjected while in jail. Therefore we caused to be constructed in a light, well-ventilated and large room ten cells made of wood with gratings for doors and woven wire for ceilings. Provision was also made for sleeping.

Before the cells were completed we adopted rules for their management, designed to prevent their use except in case of extreme necessity and to secure the safety and well-being of all who might be placed in them by a watch constantly on duty. None of the cells have been used and we hope that the fact of their existence will prevent all necessity for their use. Should occasion to use them arise, however, no harm will come to the girls imprisoned, and they will be released as soon as the necessity for the imprisonment shall have passed.

The cost in money of the outbreak cannot be accurately stated. The cost of returning escapes and for police service and guards was $269.75 and of caring for the sick girl in Des Moines $216.10. The injury to property caused by the rioting and escapes amounted to $200 or more. The various items of expense not included in this estimate but which resulted from the outbreaks, including the time of officers and employes, would make the total damage not less than $1,000. For the cells, lumber and other material on hand was used in part. New material, labor and locks cost about $175.

MT. PLEASANT STATE HOSPITAL.

The appropriations made for this institution have been used for the purposes for which intended excepting that for an open air pavilion. That was not used because found to be inadequate. A generating unit in all respects similar to that installed in several state institutions during the preceding biennium, that is a Corliss engine

of 304 H. P. and a direct connected generator of 200 K. W. capacity, a battery of water tube boilers and an ice making and refrigerating plant have been installed. Hydrotherapeutic apparatus has also been purchased and is in use. The engine cost $3,776, the generator cost $4,250, the boilers cost $5,000 and the hydrotherapeutic apparatus cost $2,689.05.

The brick ice house has been converted into a cold storge building at a cost of $3,290 and a 20-ton Vilter machine having a capacity for making 2½ tons of ice in twelve hours has been purchased and installed at a cost of $7,650 and a cooling tower erected at a cost of $551. This plant is now operating satisfactorily.

A silo has been constructed.

INDEPENDENCE STATE HOSPITAL.

A portion of special appropriations for this institution has been used for constructing a smokestack and installing two new boilers. The foundation of the smokestack is of concrete, the pedestal brick and the upper part of radial blocks. It is 165 feet high above grade line and cost $5,835. The boilers are of the water tube Stirling type and cost installed and connected $6,154.79. Each has a capacity of 230 H. P.

A railway track has been constructed from the main line of the Rock Island railway to the institution coal house but no settlement for its construction has yet been made with the railway company. In order to secure the right of way for a track without litigation it was found necessary to purchase a 40-acre tract of land for which $5,000 were paid as elsewhere stated. In addition to the right of way this tract furnished a much needed addition to the institution farm and is so located as to be convenient for use. It will also enable the state to extend and perfect its drainage system.

The new infirmary building has been completed and is ready for use. It gives to the hospital a valuable addition to its facilities for taking proper care of patients.

CLARINDA STATE HOSPITAL.

The chief improvements authorized for this institution were new boilers and stokers and the rewiring of certain attic wards. Two water tube boilers of the Stirling type, each having a capacity of 315 H. P. were installed and equipped with underfeed automatic stokers. The cost of the boilers was $7,855.54 and of the stokers $2,300.

The rewiring is under contract and should be completed within a few months.

Two silos have been constructed.

CHEROKEE STATE HOSPITAL.

An excellent fire station and a concrete root cellar have been completed and painting has been done. The fire station, exclusive of connections, cost $3,573, the root cellar was constructed chiefly by patients with sand and gravel obtained on the state farm. The cost was small except for concrete and some iron and wood work.

The new infirmary building has been completed and is now occupied.

A tract of seven acres of land on which were a house, barn, grove and fences has been purchased. Its location in front of the hospital buildings and adjoining the grounds of the state made it important if not absolutely necessary for the state to control it and control could be acquired only through ownership. The house furnishes a desirable residence near the institution for one of its officers and the barn and grounds furnish needed accommodation for sheep.

A track from the main line of the Illinois Central railroad to the institution coal house is greatly needed and if it can be secured as now seems probable at a cost not exceeding $25,000 it would be a good investment. The institution teams haul large quantities of coal when they can be spared from farm work, but for the hauling of coal which the hospital teams cannot take care of about $3,000 are paid annually. Not only would this charge be saved by a railway track to the coal house but the teams could be used when available for the lighter work of hauling fertilizers from the town to the hospital lands to the great advantage of the state.

STATE HOSPITAL FOR INEBRIATES.

Few improvements of importance were made at this institution during the last biennial period. However a root cellar and tool house combined were built and a water purifying plant was installed. In January, 1909, a contract was entered into with a water softener company to install one of its machines to have a capactiy of purifying 2,000 gallons per hour at a cost not exceeding nine cents per thousand gallons. The machine was completed in the early part of that year at a cost of $1,200, exclusive of the cost of the small house at the top of the tank made to shelter the machinery and protect the water. The results thus far have been satisfactory. The

water which in its natural state is hard and unfit to use in boilers and laundry is made quite soft. In this condition it causes no deposits of scale forming material in the boilers and requires no boiler compound. It is also good for the laundry and causes a material reduction in quantities of soap and other material required for the water in its natural state and is much better for the clothing. We are satisfied that the investment is in the interest of economy.

Two silos were recently constructed.

STATE PENITENTIARY.

Work on the new cell house has been continued since our last report although progress has been slower than we had hoped it would be. This was caused by delay in receiving the required stone. The outer walls are now nearly completed and arrangements are being made for the construction of the roof. The grading down of the hill to ensure the safety of the new north wall of the prison has been continued and the larger part is now completed. There have been expended on account of the new cell house since our last report was made sums aggregating $31,353.27. This does not include the labor of prisoners.

THE REFORMATORY.

Two new tubular boilers each having a capacity of 125 H. P. have been purchased at a cost of $1,900 and have been installed.

The printing and binding department has been improved by the addition of new machinery and supplies and is now doing a large amount of excellent work. Young men are learning valuable trades and several have gone from the reformatory to important and lucrative positions.

The new cell house is now substantially completed and will be occupied within a few weeks.

LAND.

The thirty-third general assembly made an appropriation of $50,000 for the purchase of land under our direction. This was expended as follows:

Institutions.	No. of Acres	Price.
School for the Deaf	61.39	$ 7,673.75
Institution for Feeble-minded Children	200	19,210.25

Independence State Hospital	40	*3,291.85
Cherokee State Hospital	7	3,600.00
State Penitentiary	210.5	16,224.15
		$50,000.00

In addition eleven acres were purchased for the Soldiers' Home.

*The 40 acres for the Independence State Hospital were purchased in part for right of way for the railway switch and part payment made from the switch fund.

The number of acres now owned by the state for its several institutions under our control is as follows:

Soldiers' Home	156
Soldiers' Orphans' Home	298.97
College for the Blind	41
School for the Deaf	212
Institution for Feeble-minded Children	865.04
State Sanatorium for the Treatment of Tuberculosis	274.7
Industrial School for Boys	840
Industrial School for Girls	175
Mt. Pleasant State Hospital	986
Independence State Hospital	1,268.98
Clarinda State Hospital	859.89
Cherokee State Hospital	997.28
State Hospital for Inebriates	190.85
State Penitentiary	238.5
The Reformatory	257
Total	7,661.21

The plan adopted by the thirty-third general assembly of appropriating a bulk sum for the purchase of land available for various institutions proved to be very satisfactory as it enabled us to secure several much needed tracts at reasonable prices.

CHAPTER II.

FARMS AND GARDENS.

The high state of cultivation reported in former reports continued through the last biennial period. The crops in general were never better than in the year 1909, especially fruit and gardens, as the report further on will show. The gardens, orchards and dairies yield the most profitable products of the state farms; in fact they are indispensable.

In the year 1910 the garden products were not so good as in the year 1909 on account of the dry weather, especially potatoes, which were almost a failure on all except four or five of the farms, and on those there was only about half a crop. Fruit was a total failure, except some strawberries at three or four of the institutions. The farm crops were excellent, better than any in the vicinity where the farms are located, showing the effect of good cultivation.

On account of the shortage of hay we erected two silos at the Soldiers' Orphans' Home at Davenport, costing $897.43, one at the Mt. Pleasant State Hospital costing $427.06, two at the Clarinda State Hospital costing $1,022.46, one at the Institution for Feebleminded Children at Glenwood costing $489.56, and one at the School for the Deaf at Council Bluffs costing $496.10. Each is 16 feet in diameter by 38 feet high. We also erected two at the State Hospital for Inebriates at Knoxville, each 12x32 feet, the cost of the two being $466.07. All were built of vitrified, hollow brick, with cement roofs, and thus are permanent and fireproof. We should build more as soon as we can secure the money.

The appropriations made for tile draining have been expended with good results, but we have only commenced on some of the farms. We sincerely hope that the legislature will be liberal in this work. All realize that with the high price of land we cannot afford to have any land unproductive for want of drainage. On some of the farms it is expensive to secure an outlet and it may be necessary to buy some land to get a proper outlet. Where the land can be used to good advantage this would be a good plan.

The appropriations made for fences have been expended. The work done has greatly improved the appearance as well as the usefulness of the farms. More appropriations are needed. Nearly all of the work has been done by the general farm help with the assistance of some of the inmates, therefore practically all of the money was expended for material. A number of the institutions make cement posts during the winter months, using basements for the purpose. They use old wire and old pipe for reenforcement, the only cost being for cement and sand.

The appropriations made for railway switches were among the best investments the state could possibly have made. With the high prices of horses and labor it is very expensive to haul coal. As has been reported in former years, where we have no switches farm horses are in a run-down condition when spring comes after hauling coal all winter in all kinds of weather and over all kinds of roads. When we realize that in some institutions fifty to sixty tons of coal are used per day in the worst weather, we can see the necessity for railway switches, and as heretofore we have had to pay quite large sums for demurrage on account of not being able to unload promptly.

As was reported in former reports, a great many of the cows belonging to the state were condemned and slaughtered at the suggestion of the state veterinarian after reacting to the tuberculin test. We are pleased to report that most of the herds owned by the state are free from infection. We are rearranging our cow barns, taking out all wooden floors and stanchions, putting in cement floors, mangers, galvanized iron stalls and stanchions, and rearranging the ventilation, and when the changes are completed we think the state barns will be as sanitary as they can be made. We are asking appropriations for some cows for some of the institutions. It is almost impossible to get along without milk in a hospital. The lack of milk is felt severely, especially at Independence, where the herd was practically destroyed and very little realized from them. It is especially hard on this institution because they have a large amount of pasture land that is not drained and cannot be used for farming to any advantage.

CHAPTER III.

WATER SUPPLY.

But few additions have been made to the water systems of the various institutions since our last report.

VINTON.

The College for the Blind obtains its supply of water from the city of Vinton. The city wells have not been able to furnish water of a desirable quality at all times during the last two years, and with the completion of the gymnasium, including the swimming pool, a greater supply than that now used will be needed. It is believed that a supply of water, good for many if not all purposes, can be obtained by drilling comparatively shallow wells at the institution, and an appropriation for that purpose is asked.

COUNCIL BLUFFS.

The School for the Deaf obtains its supply of water from two wells. One completed in the year 1889 was drilled to a depth of 1112 feet and is three inches in diameter. The other was completed in the same year to a depth of 800 feet and is four inches in diameter. These wells furnished an ample supply of water for several years, but their capacity has been decreasing steadily for several years and is now barely sufficient for the needs of the institution. A further diminution is imminent and would be a serious detriment to the school. Whether the flow can be increased by removing deposits from the wells or whether new wells are needed is not known and cannot be ascertained without actual trial and considerable expense. We are asking an appropriation for cleaning the existing wells or, if necessary, for drilling another.

GLENWOOD.

The water system of the Institution for Feeble-minded Children has been improved since our last report by the addition of two settling reservoirs, each having a capacity of 165,000 gallons. The

cost of these reservoirs was $7,400.40. Water is pumped into one of them and permitted to stand for several hours until the larger part of the iron held in suspension is precipitated. The water is then used. It has been found that the water is much improved by this treatment, although it is not yet wholly satisfactory.

OAKDALE.

Since our last report was made a well has been completed at the State Sanatorium for the Treatment of Tuberculosis at a cost of $680.98 and equipped with suitable pumping apparatus at a cost of $223.15. It is 360 feet deep and is cased from the top to a depth of 140 feet with 6-inch standard pipe. From the bottom of that pipe the well is cased to a depth of 292 feet with 4½-inch pipe. The well below that depth is in rock. It can supply 22,000 gallons of good water each twenty-four hours.

As a reserve supply is indispensable a contract has been awarded for a second well which has already been drilled and cased to a considerable depth.

MT. PLEASANT.

The Mt. Pleasant State Hospital has a large reservoir which furnishes water of fairly good quality for boilers and laundry and ice for cold storage purposes. The full capacity of the reservoir is not available, however, for the reason that rats have made leaks and dirt has washed in, partly filling it. An appropriation is asked for cleaning the reservoir and stopping leaks. A considerable quantity of concrete work will no doubt be required to stop the leaks and prevent further burrowing.

INDEPENDENCE.

The supply of water furnished the Independence State Hospital at times during the last two years has been poor in quality and deficient in quantity, although an increased rate is now charged for it. Our experience at this institution has convinced us that the water needed by it will not be obtained in sufficient quantities and at a reasonable cost until it has its own supply. We are therefore asking an appropriation for drilling and equipping a well.

CLARINDA.

The water supply of the Clarinda State Hospital became short during the last biennial period. It was obtained from bored wells 6 inches in diameter and 78 feet deep. The water in these wells

sunk until the working barrels of the pumps were barely submerged and a water famine was threatened. Another well (No. 5) was therefore drilled in another locality, and found to have an ample supply of water and has been equipped. The water level in the other wells has since raised, and the new well is now held in reserve. It is 58 feet deep, 6 inches in diameter and is equipped with a pump operated by electricity. The cost of the well with pump and connections was $828.62 and of the combined pump house and pavilion for patients $264.42.

KNOXVILLE.

The only addition to the water system of the State Hospital for Inebriates is the water softener described in the chapter entitled "General Observations."

FT. MADISON.

One of the wells which supplied the State Penitentiary with water having failed a new one was drilled to a depth of 102 feet at a cost of $102 and cased with material of the state. The water is raised by means of an air lift.

CHAPTER IV.

FIRE PROTECTION AND LOSSES BY FIRE AND STORM.

But few additions have been made since our last report to the equipment of the state institutions under our control for protection against fire, but we note some of them as follows:

An excellent brick fire station has been constructed at the Cherokee State Hospital for housing the ladder truck, ladders, hose carts and hose. It cost $3,573.

At the Sanatorium for the Treatment of Tuberculosis at Oakdale a fire protection system has been installed as follows: An Underwriter's duplex fire pump having a capacity of 500 gallons per minute. It is connected with the water reservoir by a 7-inch suction pipe 100 feet in length. Connected with the fire pump are 1,474 feet of 6-inch and 1,224 feet of 4-inch cast iron water mains. There are also 13 fire hydrants, a hose cart, 300 feet of 2½-inch fire hose and 10 hand fire extinguishers. The cost of the fire pump was $600, of the water mains laid and 13 hydrants $3,226.92, of the hose cart $90, of fire hose $330 and of extinguishers $120.

NEEDED.

A fire station at the Industrial School for Boys at Eldora is needed. The appropriation of $1,500 heretofore made to build it has been found to be insufficient and an additional sum is asked.

LOSSES.

The value of the property used by the charitable, penal and educational institutions of the state on the first day of July, A. D. 1910, was as follows:

Subject to loss by fire—

Buildings, including fixtures	$ 9,659,492.70
Personal property	1,627,636.06
Total	$11,287,128.76

Subject to loss by storm—

Buildings, including fixtures	$11,098,947.57
Personal property	1,687,095.56
Total	$12,786,043.13

The losses during the biennial period ending June 30, 1910, were as follows:

Clarinda State Hospital—	
Jan. 4, 1910, fire—Willowdale cottage destroyed	$ 2,328.50
Industrial School for Boys—	
Nov. 3, 1908, fire—horse and cow barn destroyed	10,000.00
Industrial School for Girls—	
Jan. 2, 1909, wind—greenhouse injured	200.00
State Sanatorium for the Treatment of Tuberculosis—	
February, 1910, fire—west pavilion injured	60.00
Independence State Hospital—	
May 13, 1909, fire—cow barn and machinery destroyed	5,200.00
Penitentiary—	
July 31, 1908, fire—chair shop injured	500.00
Feb. 19, 1910, fire—warden's residence injured	3,000.00
Total	$21,288.50

It will be noticed that the losses were by fire except the loss of $200 by wind at Mitchellville. The fire at the Clarinda State Hospital is supposed to have resulted from a defective chimney, that at the State Sanatorium from the electric wiring, that at the Independence State Hospital from lightning and the first one at the Penitentiary from spontaneous combustion. The cause of the fire at the Industrial School for Boys and the second one at the Penitentiary are unknown.

The attached table shows that the property of the state used by the institutions named in the table, on the 30th day of June, A. D. 1910, subject to loss by fire was $11,287,128.76 and that subject to loss by storm was $12,786,043.13.

CHAPTER V.

INSANE AND EPILEPTIC.

From June 30, 1908, to June 30, 1910, the number of insane in the four state hospitals increased by 74, the number in county homes increased by 67, while those in private institutions decreased by 9. This makes a total net increase of 132 during the period—that is to say there were 132 more insane under state, county and private care on June 30, 1910, than on June 30, 1908—an average increase of 66 per year. During the preceding period the average increase was 86 per year. The lessened ratio of increase is gratifying. In view of the fact that the population of the state has shown a slight decrease it would seem that there should be no increase in the insane population but it must be remembered that when families leave the state they seldom take the insane members of their families with them. This coupled with the fact that an increasing number of the aged, suffering from senile dementia, are sent to the institutions accounts in part for the increase.

A constant endeavor is made to improve the means of cure in the four state hospitals, and while hydrotherapeutic measures have been used in the past in all the hospitals in three of them improved hydrotherapeutic apparatus has been installed, which greatly facilitates the work.

General epilepsy is a disease produced by various and widely differing causes. Among the causes are epilepsy in the parents, injuries to the head during birth or afterward, the abuse of alcohol by the parents, mental shock and vicious habits. It is characterized by sudden attacks of unconsciousness often accompanied by violent convulsions and followed by periods of sleep or mental depression, and sometimes by manifestations of acute insanity when the patient may kill or injure himself or others. After recovery from these states of depression or insanity the patient may be quite normal until the next attack. The disease produces a gradual mental

deterioration and finally ends in a chronic demented condition. While epilepsy usually shortens the span of life yet its victim may live for many years and even attain old age. In some cases the disease does not cause disability from productive labor, in other cases partial disability results and in others the disease causes so great mental enfeeblement as to produce complete disability. The disease works a progressive mental degeneration so that those of the first or second class are apt to drift into the third class.

A large number of epileptics, especially those who are sane at times and at other times insane, are at present cared for in our hospitals for the insane or in the Institution for Feeble-minded Children at Glenwood, and some in the department for the criminal insane at Anamosa. The state had in its charge on the 30th of June, 1910, 551 epileptics as against 509 on June 30, 1908, an increase of 8.2 per cent in two years. During the past five years the epileptics in the state institutions have increased 17 per cent.

It is needless to state that the epileptics are out of place in a hospital for the insane because during a large portion of the time an epileptic is not insane and is annoyed by the insane patients. On the other hand the epileptics become irritable and quarrelsome by reason of their malady and disturb the insane. Their violent convulsions are often terrifying to the sane and must have a very bad effect upon the insane. The diet required by the epileptic is very different from that needed for the insane and it is found very difficult where both are in the same institution to furnish certain articles to one class and withhold them from the other.

In October, 1910, we addressed a letter to each registered physician in Iowa asking for certain information concerning epilepsy. We asked for the number of epileptics within the knowledge of each physician, the age, sex, the duration of the disease, whether capable of earning a living, whether financially independent, and whether the subject would probably enter a colony for epileptics if one were established by the state. We also asked for the name and address of each so that no case should be numbered twice in case more than one physician reported the same case. We asked each physician to reply whether he had any epileptics under his care or not.

The total number of letters sent out was 3,454. Of this number 1,311 replied, reporting 1,140 different cases. Of the number reported 637 were males and 503 females; 580 were financially independent, 56 were doubtful, and 504 were not financially independent; 581 were capable of earning a living, 97 were doubtful and 462 were not capable of earning a living; 775 would not enter a colony for epileptics at present, 228 were doubtful and 137 would enter such a colony. It is safe to assume that one-half of the 228 doubtful cases, or 114, would enter a colony. Adding this number to 137 we have 251 who would probably enter such a colony.

Assuming that the physicians who failed to answer the letters had about the same proportion of epileptics under their charge as those who did answer and as thirteen-thirty-fourths of the physicians answered and reported 1,300 cases we are justified in arriving at the conclusion that there are 3,400 cases of epilepsy at present in Iowa outside of state institutions. This added to the 551 cases in the institutions makes a total of 3,951 cases. It is estimated that there are at least two epileptics in each one thousand people in the United States. The population of Iowa is 2,224,000. Calculating at the rate of two per thousand we would have 4,448 epileptics or slightly more than our replies would indicate.

Assuming that thirteen-thirty-fourths of the cases who would enter a colony were reported we find that 251 is thirteen-thirty-fourths of 656, or the total number who would probably enter the institution. This added to the 551 already under state care makes a total of 1,207, who should be in a colony for epileptics. Nine states, Massachusetts, New York, New Jersey, Pennsylvania, Ohio, Indiana, Kansas, and Texas already have such an institution and Connecticut has one in process of erection.

Such a colony should be on a large farm as these people do best when working in the open air. Large buildings are not desirable, but there should be a number of small detached cottages which will admit of the proper classification of the epileptics. We believe the establishment of an epileptic colony will produce good results by segregating the epileptics so that they may not reproduce the disease, by relieving the hospitals for the insane of a class of patients who are especially troublesome to them, by furnishing a suitable refuge for this unfortunate class, and lastly by curing some of the early cases. The percentage of cures is small—not over five per cent, but even this small percentage of cures is a great reward.

CHAPTER VI.

TUBERCULOSIS AND THE STATE SANATORIUM.

During the biennial period ending June 30, 1910, the campaign against tuberculosis has been pushed as vigorously as the means at the command of the Board would permit. At the Sanatorium for the Treatment of Tuberculosis at Oakdale the results in the incipient cases have been very gratifying, but incipient cases are seldom sent to the Sanatorium. Of the incipient and moderately advanced cases the records show that 77 per cent have been discharged with the disease arrested or much improved. Of those discharged with the disease arrested a large proportion have developed no further symptoms since discharge and are apparently cured. The cured and improved patients who have been in the sanatorium are exerting a good influence in the communities in which they live. They have been taught the rules of right-living, and the diffusion of this knowledge checks the development not only of tuberculosis but of other disease as well.

The institution is doing good work but its scope should be enlarged. A great many applications for the admission of crippled children are sent in and are refused. There should be in connection with the institution a department for children with tuberculosis of the joints and bones or glands. The proximity of the institution to Iowa City would permit these children to be cared for at the sanatorium and operated upon if necessary by the surgeons of the medical department of the State University. Such a department would add but little to the expense of running the institution. It would restore many a poor child to health and give to the state in future years a useful citizen instead of a cripple.

There is no provision made by the state or by the several counties of the state where the advanced cases of tuberculosis can be properly cared for. As a great many of these sufferers are indigent and need public help there should be some refuge provided for

them. It is to be hoped that the more populous counties of the state will avail themselves of the provision of the county hospital law known as the "Munger Law," passed by the thirty-third general assembly, and erect hospitals with departments where these cases can be treated. In case this is not done the state should make provision for the advanced cases.

A law should be passed by the general assembly providing for the reporting of all cases of tuberculosis to the State Board of Health. If this were done each consumptive and also the members of his or her household could be supplied with information and could be required to observe rules which would protect the members of the household from danger of contracting the disease and also enhance the sufferer's chances of recovery.

EDUCATIONAL WORK.

During the biennial period 435 lectures or addresses have been delivered by State Lecturer Rev. A. E. Kepford. The attendance has been very gratifying. The total has amounted to about 104,530, or about one person in every twenty-one of the population of the state. About one-half of these people were addressed at farmer's institutes, teachers' institutes, high schools, gatherings at colleges and universities, gatherings of the pupils of the seventh and eighth grades of public schools, and at chautauquas. The other half were in audiences of the general public. An endeavor has been made to reach all classes and especially the student bodies of the state. These lectures deal with the causes, prevention and home treatment of tuberculosis.

In addition to the lecture work a press bureau has been maintained and a monthly news letter on tuberculosis has been issued to the newspapers of the state. About 400 weekly and daily papers have been supplied with this material and have generally given it publication. Many of the editors have in addition contributed valuable editorials. It is difficult to estimate the number who read these newspaper articles each month but it is probably not far from one-half the reading population of the state. The combined circulation of these papers is 1, 432,726. There have also been distributed 222,500 pamphlets dealing with the causes, prevention and treatment of tuberculosis.

Mr. Kepford has conducted an exhibit each year on the State Fair grounds. These exhibits have been largely attended and have been potent factors for the dissemination of knowledge on this import-

ant subject. He has also conducted similar exhibits at various county fairs in the state.

Dr. J. W. Kime has been employed by the Board to lecture on the subject of tuberculosis before the various county medical societies. He has lectured once in every county in the state and twice in seventy-seven counties. The average attendance has been fourteen physicians. The first lecture was on the early "Symptomatology and the Pathology of Tuberculosis," and the second on the "Home Treatment of Tuberculosis." A copy of the last was sent to every physician in Iowa. The lectures have been productive of much good in stimulating active interest in the subject among physicians. An effort is now being made through Dr. Kime to interest the physicians of the state to lecture to the people in their respective counties.

The appropriation of $5,000 per year set aside by chapter 147 of the acts of the thirty-second general assembly has been expended as follows:

Appropriation, June 30, 1908, to June 30, 1910.....		$10,000.00
Rev. A. E. Kepford's salary, two years.....$	3,425.00	
Rev. A. E. Kepford's traveling expense, expense of producing and distributing literature and miscellaneous expense	3,100.08	
Dr. J. W. Kime's salary, at $15 per lecture.....	2,580.00	
Dr. J. W. Kime's traveling expense and miscellaneous expense	894.92	
	$10,000.00	$10,000.00

We think that this campaign of education should be continued and ask that the appropriation be increased.

During the month of September, 1906, a letter was mailed by us to 3,532 physicians—all the physicians at that time registered in Iowa, asking for the number of patients within their knowledge afflicted with tuberculosis. Of these 2,436 physicians replied and 4,569 cases were reported. Figuring on the basis that twenty-four-thirty-fifths of the physicians reported and that those who did not report knew of as many cases in proportion to their number as those who did report the Board estimated at that time that there were about 6,660 known cases of tuberculosis in the state.

In October, 1910, we sent out similar letters, this time to 3,454 physicians, the number at present in the directory. We received replies from 1,316, reporting a total of 1,330 cases. Estimating on this basis we find that there are now 3,488 cases of tuberculosis in

Iowa. We also asked the physicians to state whether the patients observed the proper precautions so as not to infect others and were gratified to receive replies indicating that of the cases reported 815 cases or 61 per cent observed the proper precautions.

While this method of obtaining statistics is not absolutely accurate and is open to criticism there seems to be no doubt that there is a falling off in the disease, and there is an absolute assurance that the dissemination of knowledge is already showing results in checking the spread of tuberculosis.

CHAPTER VII.

HEALTH OF INMATES AND EMPLOYES.

A statement showing the health of the inmates and employes of our state institutions cannot fail to be of vital interest. In reading this statement, it must be borne in mind that the population of the state at large presents a considerable proportion at all times afflicted with illness of one kind or another and also a considerable mortality rate, the deaths being approximately ten to each thousand of the total population each year.

MARSHALLTOWN.

At the Soldiers' Home, with a population of 1,075, there were 209 deaths. Thirty-two died on furlough and a large number of those who died came to the home sick and died within a few days of admission. It must be remembered that the members of the home are elderly men and women, their average age being close to seventy years. The home possesses one of the best and most perfectly appointed hospitals in the state, in which all possible is done to minister to the health and comfort of these old heroes in their declining years.

DAVENPORT.

The general health at the Soldiers' Orphans' Home has been remarkably good. Of the 900 children admitted and an average population of 543, only six have died during the two years. Diphtheria and resulting complications caused four deaths. One death was caused by pneumonia and one boy ran away and was killed on the railroad. We are asking the general assembly for an appropriation sufficient to build a small modern hospital at this institution.

VINTON.

At the College for the Blind the general health was good up to the spring of 1910, at which time typhoid fever made its appearance among the pupils. This was probably caused by contamination

of the city water supply, due to a breakdown. We are sorry to record that three of our pupils died of the fever. Diphtheria also broke out and there were a number of cases, but all recovered. This past summer every room has been fumigated and cleaned, and the water supply is in good condition. We think the danger of infection is reduced to a minimum. The number of pupils enrolled was 198, the average number in attendance 146.

COUNCIL BLUFFS.

At the School for the Deaf, with an average population of 239, the general health has been remarkably good. One child died of pneumonia. The school has a well equipped hospital with a trained nurse in constant attendance, so that any case of contagious disease that might develop could be promptly isolated and receive the best of care.

GLENWOOD.

At the Institution for Feeble-minded Children, with an average population of 1,152 and a total of 1,426 children who have been inmates during the biennium, we have had ninety-eight deaths. Considering the fact that a large per cent of the population possess a low degree of vitality, the average health has been good and the death rate not large. In August, 1908, an epidemic of whooping cough was introduced. One death resulted. Two employes suffered an attack of measles and each recovered. The disease was promptly checked. Typhoid fever appeared twice, once in an inmate and once in an employe. In each case the disease could be traced to an origin outside the institution. Diphtheria has been twice introduced, there being seven cases altogether. The disease was promptly stamped out in each case and no fatalities resulted. There were a number of cases of mumps, all making good recoveries. Scarlet fever was introduced in October, 1909, and there were fifty-three cases before it was exterminated. Only one death resulted. Tuberculosis is always present with this class of patients. There were twenty-two deaths from this cause during the biennium. Epilepsy caused thirty-eight deaths out of an epileptic population of 255.

OAKDALE.

At the State Sanatorium for the Treatment of Tuberculosis every one of the patients admitted being ill on admission, a comparison of their health with the general health of the community would be out of place. However, we wish to state that no epidemic diseases

have broken out. Twenty-one patients developed appendicitis, due probably to the liberal diet and predisposition to the disease by their tubercular condition. Of the 506 patients admitted only three died. Three hundred were discharged with the disease arrested or much improved—certainly a very good showing considering the destructive disease with which they are afflicted.

ELDORA.

The health of the boys in the Industrial School for Boys has also been remarkably good, there being no deaths during the biennial period among 652 boys who have been in the school, with an average population of 386. Four cases of diphtheria occurred and were successfully treated and the disease promptly stamped out. One hundred forty-three cases of la grippe, 122 cases of tonsilitis and sixteen cases of mumps comprise the other infectious diseases which appeared, but none were present at the end of the biennial period.

MITCHELLVILLE.

In the Industrial School for Girls, with an average population of 197 and with a total of 314 girls who have been inmates of the institution during the past two years, no contagious diseases have developed. There has been only one very serious illness, a case of erysipelas in a girl who had escaped. This case was cared for by the institution outside of the school and made a good recovery. There have been no deaths.

STATE HOSPITALS.

The four hospitals for the insane deal with a class of patients in whom the mortality is necessarily high. Many of them are sent to us merely on account of the mental breakdown due to advanced years, but every effort has been made which our facilities permit to safeguard their health. Tuberculosis is in large measure a preventable disease, and yet it claims a considerable number of the inmates of these four institutions each year. It is for this reason that we are asking funds to erect cottages for the segregation and proper treatment of the tubercular insane in each of the four hospitals.

MT. PLEASANT.

At the Mt. Pleasant State Hospital the average population was 1,051. Twenty deaths occurred from tuberculosis, six from typhoid fever. The total death loss was 178, of which general paresis claimed seventeen.

INDEPENDENCE.

At the Independence State Hospital, with an average population of 1,176, the total deaths amounted to 191. In this institution we have had twenty-nine cases of typhoid fever, twenty of whom were inmates and nine employes. Five patients died. All the employes recovered of the fever but one died a few months later of tuberculosis. The water used at the institution is derived from the city supply at Independence, and although patients and employes are cautioned not to drink it unless it has been boiled they sometimes disregard the order. During the two years thirty-seven inmates have died of tuberculosis, or 19 per cent of all deaths.

CLARINDA.

At the Clarinda State Hospital there were a very few cases of typhoid fever but in each case the patients had used water other than the regular institution supply which is considered excellent. One death resulted from typhoid. Tuberculosis caused thirteen deaths, pneumonia four. The average population is 1,062 and the total deaths 200. Over two-thirds of these were cases of dementia, senility and paresis, the last disease causing twenty-seven. None were preventable.

CHEROKEE.

At the Cherokee State Hospital, with an average population of 875 and out of a total population of 1,232, there were 175 deaths. A severe epidemic of influenza accompanied by facial erysipelas broke out in the spring of 1910, but this has been subdued. Tubercular patients are on the increase; twenty-eight have died of pulmonary tuberculosis and three of tubercular nephritis. However, all patients were examined for evidence of tuberculosis on admission and of 384 admissions sixty-three patients had tuberculosis. In view of the large accessions of tubercular patients the institution is in especial need of facilities for caring for the disease.

KNOXVILLE.

The State Hospital for Inebriates, with an average population of 120 and a total of 1,209 men treated, shows only one case of typhoid fever and no contagious disease. There were eight deaths, but in no case could the management have prevented the cause of the disease from which death resulted. One death was due to delirium tremens, one to acute alcoholism and cerebral congestion, two to acute alcoholism, one to acute intoxication, one to cancer, one to

shock from strangulated hernia, and one to paralysis agitans. All were in men over forty years of age.

FT. MADISON.

At the Penitentiary the general health has been very good. The average population was 487, the total number enrolled 795. No epidemic disease has made its appearance. There were only four deaths, one a suicide due to eating soap, one due to syphilis and two due to heart disease—none of which could have been prevented.

ANAMOSA.

The Reformatory has had an average population of 437.5 and has had 828 inmates. No typhoid fever or other epidemic disease has made its appearance except a slight epidemic of la grippe from which there were thirteen deaths. Six deaths have occurred during the two years, three being caused by pulmonary tuberculosis, one from glandular tuberculosis and two from epilepsy. Both of the epileptics were in the insane department.

CHAPTER VIII.

LEGISLATION RECOMMENDED.

Chapter 93 of the acts of the thirty-third general assembly provides: "That all roads and highways within and adjacent to lands belonging to the state shall constitute a separate road district under the control and supervision of a supervisor appointed by said board of control." It also refers to road and road poll taxes "collected from those who are liable to the payment of the same within said road district." We were uncertain as to our duties under that statute and in August, 1909, asked the attorney general for his interpretation of its scope and effect. His opinion was that we ought not to act under it for the reason that it did not prescribe the methods nor provide the means for carrying it into effect, and left the procedure thereunder a matter for conjecture.

The act is indefinite as to our jurisdiction. It is broad enough in terms to include all lands owned by the state without regard to their location or use. It is indefinite as to the formation of road districts, including the fixing of boundaries, the collection of road and road poll taxes, the terms of office and qualifications of the road supervisors and settlements with them.

The act if made effective and restricted to lands owned by the state for the use of the fifteen state institutions under our control would apply to 14 miles and 281 rods of public roads bounded on both sides by state lands, and to 18 miles and 161 rods of public roads bounded on one side only by state lands, or to a total of 33 miles and 122 rods of roads. There are in those roads 21 bridges having an aggregate length of 573 feet, exclusive of approaches. Some of those bridges are high and of considerable length. One is 88 feet long and several are between forty and fifty feet in length. There are also numerous culverts not included in the foregoing.

If the act be made to apply to streets of cities and towns it will include within its scope 1 mile and 243 rods of streets bounded on

both sides by land owned by the state and 3 miles and 133 rods of streets so bounded on one side, or a total of 5 miles and 56 rods of streets. These streets include 7 bridges having an aggregate length of 315 feet, one of which is 78 feet, another 76 feet and a third 52 feet long.

The duties of supervision and the expense in money and labor of making and maintaining the roads and bridges contemplated by the act, even if restricted to lands outside of cities and towns, would be enormous. We recommend if it is to be retained that it be so amended as to make clear to what it applies and the duties to be performed under it.

INDUSTRIAL REFORMATORY FOR FEMALES.

The twenty-eighth general assembly (1900) in terms established a reformatory for females at Anamosa. The law in regard to it is found in section 2713-a to section 2713-n, inclusive, of code supplement, 1907. The reformatory has never been opened for reasons stated in pp. 63-65 of our second biennial report. These are in substance that the act applies only to girls under sixteen years of age and that adequate financial provision had not been made to open and maintain the reformatory.

The further reason may now be stated that there is no place in the Reformatory at Anamosa in which a reformatory for girls can be maintained. The building for women in which the act contemplated that the reformatory for females should be established is now fully occupied by women prisoners. They cannot be cared for elsewhere in the Reformatory.

We are of the opinion that an industrial institution of the character of that contemplated by the act in question should be established, but urge that its scope should be broadened to include young women, that it should be provided with ample funds for its operation and that a new location and buildings should be provided for its use. We recommend that this be done.

LIABILITY OF NONRESIDENT INSANE FOR THEIR MAINTENANCE IN STATE HOSPITALS.

Under the law of this state as announced in State vs. Calligan, 128 Iowa, 536, a nonresident cannot be made liable for his care and treatment in a state hospital. The state is compelled to care for many insane of that class, and some of them have property in this state or elsewhere. In a recent case a nonresident patient was sent to California, which was the state of her legal settlement, and the

expenses of so doing were paid by this state, although there was money in the hands of a guardian of her property in this state which could have been used had it been legal to do so.

We recommend that nonresidents be made liable for their own support in state hospitals of this state and that relatives liable for their support, if poor persons, also be made liable.

TRANSFERS FROM INDUSTRIAL SCHOOLS.

The industrial schools frequently have inmates who are incorrigible and a menace to discipline. The law provides that such persons may be returned to the counties from which they came, but where this is done it happens frequently that the persons so returned are released at once by the county authorities and the danger of being so returned and punished has but little effect on the conduct of the incorrigibles. Provisions for sending incorrigible boys from the school at Eldora to the Reformatory and incorrigible girls from the school at Mitchellville to the industrial reformatory for females when it is opened would have a very beneficial effect upon the conduct of those inmates apt to give the most trouble. We recommend legislation to that end.

As a further aid to discipline we also recommend that the maximum age at which girls can be committed to the industrial school at Mitchellville be reduced two years, thus restricting commitments of girls to those under sixteen years.

PRISON SCHOOLS.

The law in regard to schools in the Reformatory and Penitentiary is meager and indefinite. Section 5671 of the code in defining the duties of the chaplain provides that if any of the convicts "be illiterate the chaplain shall give them instruction in the ordinary branches of learning." Section 5718-11, code supplement, 1907, provides that the inmates of the Reformatory shall be employed only on state account, and that such "employment shall be conducive to the teaching of useful trades and callings, so far as practicable, and the intellectual and moral development of the inmates."

The provision first quoted has always been construed to authorize the maintenance of night schools for the instruction of prisoners deficient in the branches of an elementary education in English. The provision last quoted is from the act establishing a reformatory for young men and taken in connection with the general scope

and purpose of the act has been construed by us to authorize the maintenance of a day school in the Reformatory. Accordingly such a school was established in October, A. D. 1909, and has since been maintained. It is in charge of a principal employed for the purpose at a salary of $100 per month. He is assisted by the necessary number of assistants selected from the prisoners. The school has an attendance of about one hundred pupils, each of whom spends half of each school day in school and the remainder at work. In addition a night school is carried on.

No day school is maintained in the Penitentiary at Ft. Madison but the night school is large, filling all the rooms available for the purpose. It is managed by the chaplain, with assistants selected from the prisoners.

All of the schools are doing excellent work, but it is not possible for the chaplain at either institution to render all the service required. This is especially true at the Reformatory where all the time of a competent person to act as principal is necessary during the school year.

We therefore recommend such changes in the law as are necessary to place the authority to maintain the schools beyond question, and we further recommend that the warden with our approval be permitted to relieve the chaplain at the Reformatory from a part or all of the duties of an instructor as shall seem best.

PAROLING OF PATIENTS COMMITTED TO THE STATE HOSPITAL FOR INEBRIATES.

The law for the management of the State Hospital for Inebriates provides but three methods for the release of patients, as follows: (1) By expiration of the term of commitment; (2) By discharge when not hopeful cases for treatment; (3) By parole when the superintendent believes the patient to be cured. Releases are usually made on the ground last named, but it is believed that the terms of the statute are not sufficiently elastic to permit the securing of the best results. A superintendent who is unable to state that he believes a patient to be "cured" may be of the opinion that if not cured he is so nearly cured that he should be given a trial outside the hospital if placed under the supervision of some reliable person who will become responsible for his conduct.

We recommend such a change in the law as will permit the paroling of patients under the conditions stated and require monthly reports from the persons to whom patients are paroled.

EXPENSES OF AGENTS TO OTHER STATES.

Section 2727-a5, code supplement, 1907, provides that no expenditure for traveling expenses to other states shall be made by any officer or agent of this Board or of any state institution subject to this Board unless authority to make the trip be granted at a meeting of the Board by a resolution in writing, approved by the governor. It frequently happens that it is necessary to send officers or agents into another state to take nonresident insane patients to their places of legal settlement, to recover children who have escaped from some of the state institutions and to visit children who have been placed in homes in other states. It is also desirable in some cases to go into other states to place children, especially from the Soldiers' Orphans' Home.

It is not certain that the procedure required by the section referred to is essential in all the cases named to authorize the making of trips at the expense of the state, but it is certainly necessary in some of them, and when necessary it is exceedingly inconvenient and sometimes involves serious delays, where haste is necessary, to take the various steps set out in the statute. We recommend that the law be so changed as to permit the trips indicated to be made at the expense of the state on our authority alone.

THE PLACING OF CHILDREN.

SOLDIERS' ORPHANS' HOME.

This institution receives destitute children of soldiers, sailors and marines who are residents of the state, soldiers' orphans under fifteen years of age who are destitute or unable to care for themselves and other destitute children of such age. The language of the statute is somewhat indefinite, but has been construed to authorize the admission of all children destitute or unable to care for themselves, who are residents of this state and who are orphans, or whose parents reside in this state and are unable to care for their children, the residence in this state in all cases having been continuous for not less than one year. The statute has also been construed to apply to children of soldiers, sailors and marines whether the fathers served in times of peace or war.

The proceedings ordinarily resorted to for sending children to the home are informal and the truth as to the financial condition of the parents and children is not always ascertained. The belief seems to be quite widely entertained by parents, judges, boards of supervisors and others interested that if a parent cannot give a child as good care as it would receive in the home that fact is sufficient ground for sending it to the home, although the persons responsible for them are financially able to maintain them elsewhere. Many parents seem to regard the home as a free boarding school to which their children may be sent when it is inconvenient to provide a home for them. The result is that a considerable number of children who are in fact not indigent within the meaning of the law are received in the home, and there is no power in the home to prevent this abuse. Since the juvenile court act took effect there has been a large increase in the number of inmates of the home.

Another cause of the increase was the change of the law which required the state to pay one-half the cost of maintaining children whose fathers were not soldiers, sailors or marines. Some counties arrange with parents or others responsible for the support of children to pay so much of the cost as will be charged to the counties and then send the children to the home, thus placing so much of the burden of their support as is to be at public charge on the state. This is an abuse which in our opinion should be prevented by law.

On the first day of this month the inmates numbered 580. The home has accomodations for but 500, and it is necessary to reduce the number to about 500 or to provide additional room for them. We believe the better policy is to reduce the number by discouraging the sending of children to the home when it is not necessary to do so and by placing more of them in private homes after they are received. This can be accomplished by giving to those in charge of the home full power to place in homes other than those of their parents all children sent to the home. If this power be given it will be used only in cases in which there is little prospect that the parents will furnish a suitable home, but it would tend to deter parents not indigent from causing their children to be sent to the home, and would greatly facilitate the placing of children who were neglected by their parents or whose parents are unfit to be entrusted with their care.

INDUSTRIAL SCHOOLS.

Something of what has been said about placing children sent to the Soldiers' Orphans' Home applies to those committed to the industrial schools at Eldora and Mitchellville. The law now permits the officers in control of the schools to place their inmates in the homes of strangers when their own homes, or the associations or environments of those homes are bad. But it is sometimes difficult to obtain legal proof of the real character of such homes although there may be no doubt in the minds of the officers that the homes are unfit for children.

We recommend that the law be so amended as to provide that the sending of children to the Soldiers' Orphans' Home and the commitment of boys and girls to the industrial schools shall make them wards of the state and authorize the proper officers to place them in private homes or retain them in the institution as shall seem to be for their best interests.

STATE AGENTS.

There are three state agents doing excellent work in placing in homes or finding employment for inmates of the Soldiers' Orphans' Home and the industrial schools. Each receives a salary of $75 per month and his necessary expenses while traveling in his work, and laundry service and board in the institution he represents when engaged there. Their salaries aggregate $2,700 each year. Their traveling expenses for the biennium ending June 30, 1908, averaged $619.11 per year for each agent and for the last biennium $611.19 per year. The aggregate of salaries and expenses for the last period was $8,426.35 or an average of $4,213.17 per year. There were but two agents, however, during the first year of the period and none served all of the second year. Had three agents served all of the period the cost to the state would have been about $1,800 greater than it was. In that case the total average for each year would have been about $4,535.

We must anticipate some increase in the traveling and other expenses as the number of inmates on parole who require visitation increases, and we are of the opinion that provision should be made for salaries and expenses to the amount of $5,000 each year. The annual allowance now is but $4,000. This was fixed by the last general assembly and would have been wholly insufficient for the period except for the fact that there was a considerable balance

of previous appropriations available for this work. We recommend that the annual appropriation be increased to $5,000.

LIBRARIAN OF STATE INSTITUTIONS.

For some years a librarian of state institutions was employed to supervise the library of each institution under our control, to instruct institution librarians and organize library service, to study the needs of the different classes of inmates of the various state institutions, to select books best suited to their needs and to interest inmates in the libraries.

We found the service rendered by this librarian to be of great value to the state and to the inmates of our institutions. There was less waste in the purchase of books, better selections were made, and their circulation among and use by the inmates was of incalculable benefit. The value of such an officer has been recognized elsewhere, and the plan first adopted in this state has been taken up by other states. The method of payment we found it necessary to adopt was not satisfactory to the librarian and she resigned the position to accept a better position in another state.

We earnestly recommend that an annual appropriation of $1,500 be made to pay the salary and necessary traveling expenses of a librarian for this work.

INCREASE OF SUPPORT FUND.

For several years it has been found impossible to carry on several of our state institutions and achieve the best results which can be attained with the support funds available for the purpose.

COLLEGE FOR THE BLIND.

The per capita allowance for the support of the College for the Blind is $22 per month for each pupil. This was sufficient while the average number of pupils was 180 or more as in former years, but the number has now fallen to 125, or so low that it is necessary to increase the monthly per capita allowance or to fix a minimum monthly allowance. We recommend the latter course and that the allowance be fixed at $4,000 for nine months of each year.

INSTITUTION FOR FEEBLE-MINDED CHILDREN.

The per capita allowance for the support of the Institution for Feeble-minded Children was fixed at $10 per month in 1882 and in addition an annual allowance of $11,000 was made. The annual

allowance was increased to $22,000 in 1890. In the year 1898 the per capita allowance was increased to $12 per month, but the annual allowance was discontinued. In addition the cost of clothing and transportation of inmates is refunded to the state. There has been no change in the allowance for support since 1898 and it is now found to be insufficient on account of the increase in wages and supplies.

We recommend an increase of the monthly per capita allowance to $13.

INDUSTRIAL SCHOOLS.

The support funds of the industrial schools have been increased from time to time and are now made up of a monthly per capita allowance of $13 for the boys at Eldora and $16 for the girls at Mitchellville. These sums would be sufficient with a population sufficiently large, but the minimum sum of $5,500 now allowed for the school at Eldora and $3,000 for the school at Mitchellville are not sufficient, and the inmate population at each school is too small to secure more.

We therefore recommend that the minimum allowance be fixed at $6,500 per month for the Industrial School for Boys and at $4,000 for the Industrial School for Girls.

STATE HOSPITALS FOR INSANE.

The monthly per capita allowance for each patient in the state hospitals for the insane is $12. That allowance, with such supplies as are obtained from the farm, garden and dairy, is designed to provide clothing for the patients and food, fuel and all other supplies for the patients and a large number of officers and employes, and all salaries and wages.

Prior to the enactment of the code of 1873 the hospital trustees were authorized to fix the weekly charge for patients, without limit as to amount. That code fixed the maximum weekly allowance which could be made by the trustees for each patient at $3.20—substantially $13.73 per month. Chapter 84 of the acts of the seventeenth general assembly (1878) fixed the maximum monthly per capita allowance at $16, section 2291 of the code of 1907 fixed it at $14 and chapter 54 of the acts of the twenty-seventh general assembly (1898) fixed it at $12, and that is the sum now allowed by law. It is our understanding that the maximum amount allowed has always been required. The allowance now made is the smallest per capita in the history of the state.

It is a well known fact that prices of nearly all articles used in the hospitals, including food supplies, clothing and fuel, and also wages have materially advanced since the period of low prices in 1898, and it is probable the advance is equal to 40 per cent of the prices of that time. But the support fund has remained the same per capita. That has been supplemented by the products of the farms, gardens and dairies, but the increase from the additional acreage has not been much greater than the increase in the number of patients.

None of the patients have suffered from lack of nutritious food, although better dietaries would have been to the advantage of the patients. Improvement should be made in clothing, furnishings and various supplies, and there should be a decided improvement in the average efficiency of officers and employes. Although the hospitals have been fortunate in securing and retaining the services of many officers and employes who are entirely satisfactory, it is growing more difficult each year to secure and retain satisfactory employes. The wages of common unskilled laborers are frequently more than the state is able to pay attendants of patients, and we lose great numbers of our most efficient employes, including physicians and others, who are tempted elsewhere by more liberal compensation.

The lack of adequate support has become a very serious matter and relief by means of larger support funds is urgently needed. We recommend an increase of the monthly per capita allowance to $15 for the Mt. Pleasant and Clarinda State Hospitals and to $16 for the Independence and Cherokee State Hospitals. We ask larger allowances for the two hospitals last named for the reason that on account of their greater distance from the coal fields, and the colder climate to which they are subjected, the annual cost of fuel, food for the Independence and Cherokee State Hospitals. We ask larger and clothing are greater per capita than for the other hospitals.

PENITENTIARY AND REFORMATORY.

The per capita allowance for the support of the prisoners in the Penitentiary at Fort Madison has been unchanged since the year 1882 when it was fixed at $9 per month. The per capita allowance for the Penitentiary—now Reformatory Department—at Anamosa was fixed at $9 per month in 1882 and raised to $9.50 in 1897 and has been unchanged since that date. It is insufficient for some of the reasons which apply to the support funds of the hospitals for the

insane. We recommend an increase of the per capita allowance of $2 per month for each institution.

SUPPORT FOR WARDENS.

The wardens of the Penitentiary and Reformatory are allowed salaries of $2,000 per year and are furnished with dwelling houses, fuel, light and prisoners for domestic service. Their dwellings are adjacent to the prisons and the demands upon their hospitality by officials and others visiting the institutions are large and burdensome. Unlike most of the other heads of institutions of the state the wardens are not furnished supplies for their tables. We recommend that the provisions of law in regard to such supplies which apply to most other heads of institutions be applied to the wardens.

WAGES OF GUARDS.

The wages allowed the guards at the Penitentiary and Reformatory vary from $50 to $65 per month, without board or other perquisites. This is less than most of the states adjoining Iowa pay for similar service and in our opinion is not enough. We recommend a substantial increase for the various classes of guards.

CHAPTER IX.

APPROPRIATIONS.

The following appropriations are asked:

GENERAL.

For land and part of buildings and other improvements for an epileptic colony	$200,000.00
For land for state institutions	50,000.00

SOLDIERS' HOME.

For painting	$2,000.00
For stokers	6,000.00
Total	$8,000.00

SOLDIERS' ORPHANS' HOME.

For books and periodicals	$ 500.00
For dental work	400.00
For fencing	1,000.00
For hospital, connections and equipment	25,000.00
For primary school building and connections	14,000.00
For contingent and repair	4,000.00
Total	$ 44,900.00

COLLEGE FOR THE BLIND.

For cottage for superintendent and connections	$ 6,000.00
For domestic science apparatus	500.00
For extraordinary repairs	4,000.00
For oculist fund	400.00
For well and equipment	1,000.00
For contingent and repair	2,000.00
Total	$ 13,900.00

SCHOOL FOR THE DEAF.

For books, periodicals and binding	$ 500.00
For equipment for industrial departments	500.00
For extending and repairing greenhouse	850.00
For grading, walks and improvement of grounds	1,500.00
For improving basement of main building	1,000.00
For improving water supply	2,000.00
For mechanical stokers	5,000.00
For painting interior	2,500.00
For vacuum system	1,000.00
For contingent and repair	3,500.00
Total	$ 18,350.00

INSTITUTION FOR FEEBLE-MINDED CHILDREN.

For automatic stokers	$ 8,000.00
For beds and bedding	4,000.00
For cottage for girls	85,000.00
For cow and hay barn and silo	8,000.00
For equipment for fire department	500.00
For furniture and furnishings	3,000.00
For grading and walks	1,000.00
For industrial building	8,000.00
For kitchen and dining-room for boys—custodial division	10,000.00
For laundry building	25,000.00
For paints and painting	2,000.00
For plumbing	3,000.00
For porches for administration building	2,000.00
For contingent and repair	10,000.00
Total	$169,500.00

STATE SANATORIUM FOR THE TREATMENT OF TUBERCULOSIS.

For bathing and toilet facilities (additional) for pavilions	$ 600.00
For books and periodicals	200.00
For concrete sidewalks	500.00
For cottages (three) for married employes	5,000.00
For cow barn and silos	5,000.00
For fences	800.00
For furniture and furnishings	1,000.00
For improvement of grounds	1,000.00
For improvement of sewage disposal plants	2,000.00
For kitchen equipment	200.00
For laboratory apparatus	200.00
For laundry and hose cart building	4,500.00
For lectures and amusements	200.00
For painting	500.00
For piggery	1,000.00
For reservoir (additional)	1,000.00
For static machine and apparatus	600.00
For storage room (additional) for coal	2,000.00
For tiling	500.00
For tunnel and pipe connections	3,000.00
For vegetable cellar	1,500.00
For contingent and repair	2,000.00
Total	$ 33,300.00

INDUSTRIAL SCHOOL FOR BOYS.

For agricultural implements	$ 500.00
For beds and bedding	1,500.00
For books and periodicals	400.00
For carpets and rugs	1,000.00
For chaplain	300.00
For coal house	2,500.00
For cottage for superintendent	6,500.00
For cow barn (additional)	2,500.00
For dental work	700.00
For engine and generator	2,500.00
For extension of smokestack	1,000.00
For extension of water system	700.00
For fencing	500.00
For fire station (additional)	1,000.00
For furniture and furnishings	1,000.00

INDUSTRIAL SCHOOL FOR BOYS—CONTINUED.

For heating, plumbing and equipping hospital	$ 5,000.00
For kitchen equipment	600.00
For lectures and amusements	400.00
For live stock	1,500.00
For musical instruments and supplies	300.00
For painting	2,500.00
For railway switch	20,000.00
For repairing cottages	2,500.00
For root cellar	800.00
For silo, ensilage cutter and power	1,200.00
For traveling expense on account of placing boys paroled and returning boys who have violated their paroles	600.00
For wagons and other vehicles	1,000.00
For contingent and repair	5,000.00
Total	$ 64,000.00

INDUSTRIAL SCHOOL FOR GIRLS.

For books and periodicals	$ 250.00
For changing dormitories to small rooms	1,200.00
For chaplain	150.00
For cisterns (three)	400.00
For concrete walks	250.00
For enlarging and repairing cold storage	1,500.00
For fencing	1,000.00
For furniture and furnishings	1,000.00
For painting	2,500.00
For pipe covering	500.00
For rebuilding farm cottage	1,200.00
For silo and cutter	700.00
For supplies for plumbing and heating	1,000.00
For tiling land	1,000.00
For contingent and repair	3,000.00
Total	$ 15,650.00

MT. PLEASANT STATE HOSPITAL.

For automatic stokers	$ 7,500.00
For cleaning and repairing reservoir	2,000.00
For cottages (two) for tubercular patients (additional)	50,000.00
For cows	1,000.00
For drain tile	1,500.00
For equipment for recreation hall	1,000.00
For fencing	1,000.00
For furniture and furnishings	5,000.00
For furniture for pathological laboratory	500.00
For horses, mules, wagons and farm implements	2,500.00
For kitchen equipment	1,000.00
For library	1,000.00
For laundry machinery	1,000.00
For painting	3,000.00
For remodeling cow barn	1,000.00
For root cellar and implement house	2,000.00
For silo	500.00
For street paving and walks	2,500.00
For street sprinkler	250.00
For supplies for greenhouse and improvement of grounds	1,000.00
For ventilation of men's infirmary	1,500.00
For contingent and repair	12,000.00
Total	$ 98,750.00

INDEPENDENCE STATE HOSPITAL.

For addition to coal house	$ 3,000.00
For automatic stokers	7,500.00
For carpets and furniture	3,000.00
For cottages (two) for tubercular patients	50,000.00
For draining land	3,000.00
For engineers' workshop	4,000.00
For farm implements and machinery	1,000.00
For fencing	1,500.00
For greenhouse (additional)	1,500.00
For home for attendants	50,000.00
For live stock	7,500.00
For painting and decorating	2,000.00
For tunnel to Farmers' Lodge and Grove Hall	5,000.00
For ventilation of Farmers' Lodge and Grove Hall	5,000.00
For water supply	12,000.00
For wells (two) for drinking water and equipment	500.00
For wood shaping machine and drill press with appurtenances	500.00
For contingent and repair	12,000.00
Total	$169,000.00

CLARINDA STATE HOSPITAL.

For cottages (two) for tubercular patients	$ 50,000.00
For electric rewiring	4,000.00
For farm cottage for men	20,000.00
For horses and mules	1,000.00
For plumbing and fixtures	1,500.00
For painting	2,000.00
For contingent and repair	10,000.00
Total	$ 88,500.00

CHEROKEE STATE HOSPITAL.

For addition to mangle room and dry closets for same	$ 3,000.00
For automatic stokers	7,500.00
For boilers (two) and connections	6,000.00
For books, newspapers, and periodicals	500.00
For carpets, rugs and bedding	1,000.00
For cottages (two) for tubercular patients	50,000.00
For dry kiln	1,200.00
For farm implements and machinery	500.00
For fencing	300.00
For floors	500.00
For horses and mules	1,500.00
For kitchen utensils	200.00
For painting	2,000.00
For railroad switch	25,000.00
For silos and cutter	1,200.00
For storehouse and equipment	6,500.00
For contingent and repair	10,000.00
Total	$116,900.00

STATE HOSPITAL FOR INEBRIATES.

For coal house	$ 4,000.00
For water reservoir	1,000.00
For contingent and repair	3,000.00
Total	$ 8,000.00

STATE PENITENTIARY.

For cell house, cell bank and connections	$ 60,000.00
For fencing	1,000.00
For greenhouse	1,200.00
For live stock	2,000.00
For paving Oriental Street	3,000.00
For re-roofing shops	5,000.00
For warden's house fund	250.00
For contingent and repair	5,000.00
Total	$ 77,450.00

THE REFORMATORY.

For addition to schoolroom	$ 2,000.00
For boiler and equipment	1,250.00
For carpenter's shop and dry kiln	5,000.00
For carriage and carriage team	700.00
For derrick supplies	500.00
For freight on stone	800.00
For house for deputy warden	4,000.00
For machinery and supplies for printing office	1,500.00
For musical instruments—from library fund	500.00
For piano—from library fund	500.00
For salaries of foremen and instructors	15,000.00
For tools for shops and quarry	600.00
For transportation of discharged inmates	1,500.00
For warden's house fund	250.00
For contingent and repair	5,000.00
Total	$ 39,100.00

RECAPITULATION.

Land, part of buildings and other improvements	$ 200,000.00
Land for state institutions	50,000.00
Soldiers' Home	8,000.00
Soldiers' Orphans' Home	44,900.00
College for the Blind	13,900.00
School for the Deaf	18,350.00
Institution for Feeble-minded Children	169,500.00
State Sanatorium for the Treatment of Tuberculosis	33,300.00
Industrial School for Boys	64,000.00
Industrial School for Girls	15,650.00
Mt. Pleasant State Hospital	98,750.00
Independence State Hospital	169,000.00
Clarinda State Hospital	88,500.00
Cherokee State Hospital	116,900.00
State Hospital for Inebriates	8,000.00
State Penitentiary	77,450.00
The Reformatory	39,100.00
Total	$ 1,215,300.00

CHAPTER X.

VISITATION OF INSTITUTIONS.

The following statement shows the visits made to different state institutions during the biennial period ending June 30, 1910, and the persons by whom made:

SOLDIERS' HOME.

Year	When Made	By Whom Made
1908	October 2	Robinson, Hamilton.
1909	January 1	Robinson.
	May 25	Cownie, Robinson, Hamilton.
	August 20	Robinson.
	October 14	Robinson, Wade.
	December 4	Robinson.
1910	February 22	Cownie, Robinson.
	March 2	Cownie.
	May 6	Robinson, Wade, Bannister.

SOLDIERS' ORPHANS' HOME.

1908	July 23-24	Robinson.
	September 18	Cownie.
	October 20-21	Cownie, Robinson, Hamilton.
1909	April 15-16	Cownie, Robinson, Hamilton.
	November 7-8	Cownie, Robinson, Wade.
1910	January 31	Cownie.
	February 1	Cownie.
	February 16	Cownie.
	March 2-3	Robinson.
	March 15-17	Cownie.
	June 3-4	Robinson, Wade, Bannister.

COLLEGE FOR THE BLIND.

1908	October 23	Cownie, Robinson, Hamilton.
1909	February 23	Cownie, Hamilton.
	May 19	Cownie, Robinson, Hamilton.
	October 29	Cownie, Robinson, Wade.
1910	June 1	Robinson, Wade, Bannister.

SCHOOL FOR THE DEAF.

1908	August 16	Robinson.
	September 29	Hamilton.
	November 20-21	Cownie, Robinson, Hamilton.
1909	January 29	Cownie.
	March 24	Robinson.
	April 23-24	Cownie, Robinson, Hamilton.
	May 12-13	Robinson.
	July 29-30	Robinson.
	August 24	Robinson.
	September 9-10	Robinson.
	October 23	Cownie.
	November 22-23	Robinson.
1910	April 18-19	Robinson, Wade, Bannister.
	June 29	Bannister.

INSTITUTION FOR FEEBLE-MINDED CHILDREN.

Year	When Made	By Whom Made
1908	August 17-18	Robinson.
	September 27-28	Hamilton.
	November 19-20	Cownie, Robinson, Hamilton.
	December 12	Cownie.
1909	January 31	Cownie.
	March 24	Robinson.
	April 22-23	Cownie, Robinson, Hamilton.
	May 11-12	Robinson.
	June 21	Cownie.
	July 29	Robinson.
	August 25	Robinson.
	September 9	Robinson.
	October 22	Cownie.
	November 21-22	Robinson, Wade.
1910	January 11	Cownie.
	February 18	Cownie.
	April 19-20	Robinson.
	June 28	Bannister.

STATE SANATORIUM FOR THE TREATMENT OF TUBERCULOSIS.

1908	July 23	Hamilton.
	August 11	Cownie.
	August 24	Cownie.
	September 7	Cownie, Robinson, Hamilton.
	September 17	Cownie.
	October 8	Hamilton.
	October 20	Cownie, Robinson, Hamilton.
	October 26	Cownie, Hamilton.
	November 3	Hamilton.
	November 25	Hamilton.
1909	January 19	Hamilton.
	January 22	Hamilton.
	January 29	Robinson.
	February 22	Cownie.
	March 23	Hamilton.
	April 11	Hamilton.
	April 13	Cownie.
	April 15	Cownie.
	May 8	Cownie, Robinson, Hamilton.
	June 9	Cownie.
	July 20	Cownie.
	August 6	Hamilton.
	September 16	Hamilton.
	September 30	Robinson.
	October 11	Cownie.
	October 30	Cownie, Robinson, Wade.
	November 30	Wade.
	December 22	Wade.
1910	January 27	Wade.
	February 1	Cownie.
	February 3	Cownie.
	February 24	Robinson.
	April 2	Cownie.
	April 11	Wade, Bannister.
	June 4	Robinson, Wade, Bannister.

INDUSTRIAL SCHOOL FOR BOYS.

1908	October 1	Robinson, Hamilton.
	December 31	Robinson.
1909	May 24	Cownie, Robinson, Hamilton.
	August 19	Robinson.
	October 13	Cownie, Robinson, Wade.
	December 3	Robinson.
1910	March 1	Cownie.
	May 5	Robinson, Wade, Bannister.

INDUSRTIAL SCHOOL FOR GIRLS.

Year	When Made	By Whom Made
1908	September 25	Cownie.
	November 8	Cownie.
	December 4	Cownie, Robinson, Hamilton.
1909	April 30	Cownie, Robinson, Hamilton.
	May 1	Cownie, Robinson, Hamilton.
	May 7	Cownie.
	May 8	Cownie.
	May 10	Cownie.
	May 11	Cownie.
	May 12	Cownie.
	May 30	Cownie.
	May 31	Cownie.
	June 3	Cownie.
	June 4	Cownie.
	June 5	Cownie.
	June 13	Cownie.
	June 22	Cownie.
	June 24	Cownie.
	June 26	Cownie.
	July 14	Cownie, Robinson, Hamilton.
	July 15	Hamilton.
	July 20	Robinson, Hamilton.
	July 23	Cownie, Robinson.
	August 3	Cownie.
	August 9	Cownie.
	August 11	Cownie.
	August 19	Cownie.
	September 13	Cownie.
	September 21	Cownie.
	October 2	Cownie, Robinson, Wade.
	October 17	Cownie.
	December 11	Cownie.
	December 16	Robinson.
	December 17	Cownie.
1910	January 12	Robinson.
	January 19	Cownie.
	February 19	Robinson.
	March 11	Robinson, Wade.
	March 15	Robinson, Wade.
	March 24	Robinson, Wade.
	April 8	Robinson.
	April 10	Robinson, Bannister.
	April 15	Robinson, Wade, Bannister.

MT. PLEASANT STATE HOSPITAL.

1908	July 28-29	Robinson.
	August 29-31	Hamilton.
	September 20-21	Cownie.
	October 28-30	Robinson.
	November 28-29	Cownie, Robinson, Hamilton.
	December 12-14	Robinson.
1909	January 24-25	Hamilton.
	February 20-21	Robinson.
	March 25-26	Treat.
	April 18-19	Cownie, Robinson, Hamilton.
	May 29-30	Treat.
	June 17-18	Cownie.
	July 23-24	Hamilton.
	August 23-24	Hamilton.
	September 16-17	Robinson.
	October 19-20	Robinson.
	November 16-17	Robinson, Wade.
	December 20-22	Cownie.
1910	January 24-25	Wade.
	February 17-18	Robinson.
	March 11-12	Cownie.
	April 23-24	Robinson, Wade, Bannister.
	May 26-27	Bannister.
	June 24-25	Bannister.

INDEPENDENCE STATE HOSPITAL.

Year	When Made	By Whom Made
1908	July 27-28	Hamilton.
	August 9-10	Cownie, Hamilton.
	August 13	Cownie.

CHAPTER XI.

The name and salary of each officer and employe of the Board of Control and the name and salary of each officer and employe in the several institutions subject to its control and as shown by the pay roll of June, 1910, are shown in the following schedule.

The asterisk opposite a name indicates that the person named served only a part of the month and the amounts given are the salaries allowed for the full month.

As the College for the Blind has no sessions in June the salaries given are for the month of May.

In addition to the officers and employes of this Board named, we have had for some three months since July, 1910, F. I. Herriott, Statistician, for the preparation of this report at a salary of $150.00 per month, and his assistant at a salary of $50.00 per month.

Name	Occupation	Monthly Salary
Members of the Board.

Totals		5,088	2,785	7,873	5,313	2,147	7,460	10,401	4,932	15,333	5,051	1,931	6,982	5,350	3,001	8,351	5,541	3,184	8,725

*The population under supervision but not in residence, such as escapes and paroles, are not included. Escaped and paroled patients returned to the institution, however, are included among those received, and patients escaped or paroled are included among those discharged.

†The population is dismissed for summer vacations. New and old scholars are not distinguished in receipts and discharges. There was, in fact, a considerable population reported at the School for the Deaf, but it has not been included above for the reason that it was then in the process of distribution throughout the state under care of institution officers.

TABLE NO. 2.—AGGREGATE INSTITUTIONAL POPULATION.

N. B.—Except one, the following sums were deducted by the accountant of the Board of Control as transfers to restore sums to accounts incorrectly drawn upon. The amount for Knoxville was an unexpended balance not needed and therefore deducted from the available funds of that institution. In the table above they are included in disbursements, but in tables following they are excluded.

a The twenty-second general assembly, chapter 121, amended by the twenty-third general assembly, chapter 58, in addition to per capita, granted the sum of $1,050.00 per month for salaries and wages. Prior to May 16, 1890, the sum of $6,000.00 per annum was allowed for this item.

b The twenty-sixth general assembly, code section 2608, granted $13,000.00 per annum for salaries and wages of officers and employes, to take effect October 1, 1897. This was amended by the twenty-seventh general assembly, chapter 72, fixing the per capita allowance at $14.00 per month, to take effect July 1, 1898. This allowance now includes salaries and wages, the $13,000.00 per annum appropriation mentioned above having been repealed.

c The twenty-ninth general assembly, chapter 113, granted $10.00 additional for "each officer and employe not a member of the home."

* One year only.

* The nineteenth general assembly, chapter 166, section 2, in addition to the per capita allowance, granted $10,000 per annum for the support of the college and to meet ordinary expenses.

† The twenty-seventh general assembly, chapter 82, made a reduction July 1, 1898, and continued the appropriation of $10,000 per annum.

‡ The amounts given in this column do not agree with published reports of institution as the salaries of the secretary and treasurer of the board of trustees are here deducted; the same are included under total expenditures.

§ The twenty-ninth general assembly, chapter 121, changed the allowance from a quarterly to a monthly per capita for nine months of each year.

** One year only.

* The nineteenth general assembly, chapter 105, section 1, in addition to per capita allowance, granted $21,000 to pay salaries of officers and teachers. See laws of twentieth general assembly, chapter 105, requisition for vacation quarter based on average number of pupils in attendance the last previous quarter.

† The laws of the twenty-seventh general assembly, chapter 83, section 1, include salaries and wages, appropriations in note "a" having been reduced to $18,000; per capita allowance granted only for the nine months of the school year.

‡ Includes salary paid treasurer of board of trustees.

§ The twenty-ninth general assembly, chapter 122, changed the allowance per capita from a quarterly to a monthly sum limited to nine months of each year.

** One year only.

*** In case the average population falls below 275 for any month a minimum of $6,050.00 is allowed. Chapter 177, acts of the thirty-third general assembly.

* Opened October 10, 1902. Discontinued after January, 1906. The sums given represent merely the amounts allowed by law, but they do not include all expenditures as the inebriates were under the care of the officers charged with the care of the insane. The salary assignments are arbitrary, viz: 20 per cent. of the per capita support granted.
** Eight months only.
† One-half year only.

‡One year only.

**The institution at Anamosa by the provisions of chapter 192, acts of the thirty-second general assembly (Supplement 1907, section 5718-a4) ceased to be a penitentiary and became a reformatory.

*Covers but a portion of the period.

†The sums given for the hospitals for inebriates represent only a portion of the true cost of the inebriate population as the main portion of the expense of supervision is paid out of the funds allowed the officers of the state hospitals.

***Institution discontinued April 30, 1900.
