

News & Updates

Equipment Upgrades Completed for Healthcare Network

Recently, ICN engineered and implemented site upgrades to 191 locations of either physical hardware or virtual connections to Iowa hospitals and clinics statewide. These locations are connected to the Iowa Rural Health Telecommunications Program, which is the healthcare network managed by the Iowa Hospital Association.

Breaking Down the Complexity of DDoS Attacks

DDoS attacks continue to increase in frequency and evolve in complexity. Read about the different types of attacks and the steps that ICN performs to mitigate threats for our customers in this Q&A with ICN's CIO Ryan Mulhall.

Topics include:

1. Are there different types of DDoS attacks?
2. Describe the ICN mitigation steps for DDoS attacks?
3. What should a customer do to prevent an attack?
4. How have DDoS attacks changed over the years?
