REPORT OF THE AUDITOR OF STATE

STATE OF IOWA

OFFICE OF AUDITOR OF STATE.

DES MOINES, NOVEMBER 1, 1910.

TO HIS EXCELLENCY, B. F. CARROLL, *Governor of Iowa.*

Sir: In compliance with the provisions of section 122 of the Code, and Chapter 5, Acts of the Thirty-first General Assembly, I have the honor to present herewith my report of the fiscal affairs of the state for the biennial period from July 1, 1908, to July 1, 1910.

It is with especial gratification that I hand you this report, because of the remarkably prosperous condition in which the State business is now shown to be. I find that, as a result of care and economies in legislation and administration, the past biennial period has seen an increase in the balance in the hands of the State Treasurer belonging to the general state revenue, of \$359,726.18. The State enters the new biennial period with a reduction of the tax levy and with prospects good for a still further reduction another year. It is, however, to be borne in mind that new necessities will develop from year to year demanding the expenditure of funds for institutions and administration. But, in general, it may be fairly presumed that our equipment of state institutions is nearly completed. From this time on they will grow to meet increased demands, rather than be built from their beginnings. The foundations are laid, and well laid. It thus seems reasonable to hope that, with a continuation of the care and economy that have marked every department of the government during your excellency's administration, we will be able to still further reduce the burdens of government in the near future and that the reduction may be (unless for providential misfortune) permanent.

REVENUE AND TAXATION.

During the year just closed, it is estimated that only 53.8 per cent of the total state revenue was raised by direct taxation. The remainder, or 46.2 per cent of all funds raised for the state govern-

ment came from fees and taxes from corporations, Federal aid to Soldiers' Home, payments by counties for the maintenance of their insane or other unfortunates, in state institutions, insurance and collateral inheritance tax, and a few minor items. It is an interesting, and perhaps significant, fact that the proportion of revenue collected in the form of direct taxes is growing smaller. Thus, during the period ending June 30, 1899, 76.4 per cent of the total revenue was raised by direct taxation, and only 23.6 per cent by the various indirect methods to which reference has been made.

By direct taxation is meant the revenue raised by the levy under authority of the legislature. The reduction of direct taxation is the result of legislation making more general the taxation and fees of incorporations and collateral inheritances. This indirect taxation includes fees for filing articles of incorporation, taxation and fees of insurance companies, fees for notarial commissions, pharmacy certificates, bank, municipal and insurance examination fees and a few other like items.

The receipts from all sources paid into the general revenue of the state for the biennial period ending June 30, 1908, were \$7,247,048.00, and the receipts for the biennial period ending June 30, 1910 amount to \$8,388,280.93, which shows an increase in receipts of \$1,141,202.93.

At the close of the former period, after deduction of all outstanding warrants, there was a balance in the treasury of \$437,602.11. At the close of the fiscal period ending June 30, 1910, after like deduction was made, the balance was \$956,914.05, showing an increase of \$519,311.94.

ESTIMATED RECEIPTS AND EXPENDITURES.

A condensed statement of the estimated receipts and expenditures for the biennial period from July 1, 1911, to July 1, 1913, may not, improperly be given in this connection. The detailed estimates will be found in Statements No. 4 and 5.

ESTIMATED RECEIPTS.

Amount on hand July 1, 1910.....	\$ 1,003,915.00
Receipts from July 1, 1910, to July 1, 1911.....	4,240,000.00
Receipts from July 1, 1911 to July 1, 1913.....	8,300,000.00
Total	\$13,543,915.00

ESTIMATED EXPENDITURES.

Estimated expenditures from July 1, 1910, to July 1, 1911....	\$ 4,140,000.00
Estimated expenditures from July 1, 1911, to July 1, 1913....	6,798,000.00
Receipts from Hunter's licenses not available for general revenue purposes	306,000.00
Cash balance in Treasury July 1, 1913, necessary to meet obligations to second payment of tax October 1, 1913....	800,000.00
Amount available for extraordinary appropriations by the Thirty-fourth General Assembly	1,499,915.00
Total	\$13,543,915.00

ESTIMATED RECEIPTS.

Statement No. 4 shows my estimate of the general revenue receipts for the biennial period ending June 30, 1913, to be \$8,300,000.00, which is based upon a levy sufficient to produce \$2,300,000 per year from taxation and such receipts from other sources as the past and future seem to justify. I believe this estimate is conservative, but do not think it would be safe to anticipate more.

Adding the above amount to the cash in the hands of the State Treasurer, making no deduction for outstanding warrants on the first day of July, 1910, namely, \$1,003,915.00, together with the estimated receipts from July 1 1910, to July 1, 1911, namely, \$4,240,000.00, makes the total available resources of the state from July 1, 1910, to July 1, 1913, \$13,543,915.00.

ESTIMATED EXPENDITURES.

Statement No. 5 shows my estimate of the ordinary expenditures of the state for the biennial period ending June 30, 1913, based upon the present general laws and the expenditures during the last fiscal period, and amounts to \$6,798,000.00. This does not include any special or extraordinary appropriations which may be made by the thirty-fourth general assembly. The estimated expenditures, as shown above, together with the estimated expenditures of the present year, that is, from July 1, 1910, to July 1, 1911, namely \$4,140,000.00, makes the total estimated expenditures from July 1, 1910, to July 1, 1913, to be \$10,938,000.00. To this, however, should be added \$306,000.00 of receipts from hunters' licenses, which is not available for general revenue purposes, and also \$800,000.00 as a necessary balance to be left in the treasury on July 1, 1913, to meet state's obligations to second payment of taxes, Octo-

ber 1, 1913, making a total of \$12,044,000.00, which deducted from the total estimated resources of \$13,543,915.00, leaves a net prospective surplus for the purposes of extraordinary appropriations by the Thirty-fourth General Assembly in round numbers \$1,500,000.00, providing, of course, that the legislature deems it wise to authorize a levy so high as that estimated in the table of receipts.

HUNTERS' LICENSE.

I also desire to call your attention to the accumulation of a large surplus in the Hunters' License Fund which, under the present law, can only be expended upon order of the Fish and Game Warden for expenses in his department. Some legislation is therefore necessary providing either for a greater expenditure in the Fish and Game Warden's department, or a disposal of this surplus in some other way.

PERMANENT SCHOOL FUND.

The Permanent School Fund of the state at the present time amounts to \$4,788,817.56, having increased during the biennial period just closed, from escheat estates and sales of school land, \$8,388.10. This fund is easily kept at interest at the statutory rate, and we have many more calls for same than we are able to supply. But, upon recent investigation, we find that little attention has been, and now is being, paid to the law governing the foreclosure of school fund mortgages and the re-sale of property. In almost all cases, sheriff's deeds are made to the counties in place of to the state, as should be; then, in case of re-sale, the Boards of Supervisors attempt to convey the same to the purchaser, which conveyance is of no value whatever, as the only legal title which can be secured to school land, either by original sale or re-sale, is a patent from the Governor. This disregard of the law has, therefore, led to much litigation and trouble in securing legalizing acts by the General Assembly to perfect titles. Legislation providing for the checking of these accounts, at least once a year, is necessary to remedy this evil.

AGRICULTURAL COLLEGE ENDOWMENT FUND.

At present there is no requirement that payments of interest on the Agricultural College Endowment Fund shall be reported to the Auditor of State. This interest is paid to the Treasurer of State, and accounted for by him alone. Having no record of these pay-

ments in his own office, the Auditor of State accepts the Treasurer's record in making his quarterly check of the Treasury. As the general policy is to preserve a complete parallel between the accounts of the Treasurer of State and those of the Auditor, so that one may be checked by the other, this one omission in itself throws the entire system out of gear. It would be well, therefore, to have these interest payments reported to the Auditor of State in the same manner that receipts from other sources are reported, thus making the accounts of both offices cover every receipt of money by the treasury.

NON-RESIDENT INSANE.

The number of insane persons who have no legal settlement in the state, or whose legal settlement is unknown, and who for that reason are supported by the state, is becoming exceedingly large. During the last biennial period this class of patients cost the state \$101,844.00. Some legislation is necessary to remedy this evil. The local authorities in the county should be compelled by law to inquire more particularly into the fact of the person's legal residence before committing such person to the hospital; and, in case the legal residence of such patient cannot be ascertained by the local authorities, a personal investigation should be made by a representative, either from the office of the Auditor of State, or the Board of Control.

FINANCIAL STATISTICS FROM COUNTIES.

In Statement No. 44 will be found statistics from financial reports from county auditors, as provided in Chapter 33, Acts of the Thirty-third General Assembly. In preparing this table, we have endeavored to follow the suggestions of the authors of the law requiring this report, and to furnish the information most frequently called for by members of the General Assembly and others, and to assist county Boards of Supervisors and other county officials (by way of comparison) in securing a greater degree of uniformity in conducting the financial affairs of their counties, as most items of receipts and expenditures are common to all.

In this connection, we desire to express to the county auditors of the state our thanks for the cheerful and prompt manner in which they responded to our request for this information, notwithstanding the many arduous duties imposed upon them by each General Assembly, without any provision for additional compensation.

PUBLICATION OF THE BIENNIAL REPORT.

The law for publication of reports now requires that the biennial report of the Auditor of State and the bank report shall be bound in a single volume.

For reasons of both economy and convenience, this should be changed, so that the Biennial Report could be published in one volume, and the Bank Report in another.

The present volume, containing both reports in one cover, is large, unwieldy and expensive. The great majority of persons desiring one report do not want both, and there is an unwarranted extravagance in sending both. Moreover, the Bank Report, if published separately, could be given to the public earlier in the year, when it would have much greater value; while at present it cannot be published until the Biennial Report is completed, at a necessarily late date.

It is therefore recommended that the Bank Report be published in a separate volume, yearly, as soon after January first as it can be completed.

MUNICIPAL DEPARTMENT.

The Municipal Accounting Department was created by the Thirty-first General Assembly in the year 1906, but owing to the delay in adopting the system of books and blanks recommended by the commission who had the matter in charge, the actual advantages of the department were not marked until the close of the year 1908. The biennial period just closed has, however, shown a decided improvement in the method of accounting. This is especially true of the municipalities undergoing examinations by the department examiners, and I am pleased to announce that in most cases I have received hearty co-operation from the reporting officers of the cities and towns, and the department examiners have also reported that they have been very courteously treated by the respective city officials in their examination work, and the checking has gone forward with dispatch.

It appears to be the prevailing opinion among the various city officials that the annual report blanks as originally adopted are so complicated that it is very difficult to make an intelligent report. In this connection I take pleasure in stating that I am causing a revision of the blanks to be made, and expect to simplify them materially.

The law relating to the biennial examination of all cities in the state having a population of 5,000 or more has been fully complied with, and the records of each of these 25 municipalities have been carefully audited, as have also several smaller cities upon request of the proper officials, or upon petitions as provided by Chap. 34, Sec. 6, Laws 1906.

STATE EXAMINATION OF COUNTY ACCOUNTS.

I have referred with interest to the statements contained in your annual report dated Oct. 24, 1906, and in your biennial report dated Nov. 1, 1908, to Hon. Albert B. Cummins, Governor of Iowa, in which you recommend the law governing the examination of cities be extended so as to include the examination of county accounts, especially the accounts with the state, and assign reasons for the support of your petition. As you have studied the subject so thoroughly as indicated by your citations, it remains for me but to endorse your recommendations and suggest that you include a like recommendation in your message to the next, or Thirty-fourth General Assembly, to the end that examiners may be appointed, and thereby effect a more satisfactory method of adjusting accounts with the state.

INSURANCE.

I will not comment at length on matters pertaining to insurance at this time, as the annual insurance reports published by my department give a detailed condition of the various insurance companies and associations operating under authority from the Auditor of State. The data relating to insurance, and prescribed by law to appear in my Biennial Report, will be found herein.

BUILDING AND LOAN ASSOCIATIONS.

Four domestic and forty-five domestic-local building and loan associations are now reporting to this department. Of the four domestic associations, at least two are closing out as rapidly as circumstances will permit. Since my last report, the following named associations have wound up their business and gone out of existence:

Iowa Building and Loan Association, Des Moines.

Perry Building and Loan Association, Perry.

During the same period the following associations have been organized:

Marshalltown Savings and Loan Association, Marshalltown.

Merchants & Mechanics Loan, Building and Savings Association, Davenport.

Muscatine Building and Loan Association, Muscatine.

BANKS.

At the close of the biennial period, ending June 30, 1910, there were 663 savings banks, 272 state banks, and 15 trust companies reporting to this department, with a combined capital of \$32,478,800.00; combined deposits of \$246,921,202.29; showing an increase in capital over June 30, 1908, of \$3,784,500.00, and an increase in deposits of \$48,993,898.40.

There have been organized during the biennial period ending June 30, 1910, 20 state banks, 3 trust companies, and 100 savings banks; ten state banks and 2 savings banks have renewed their charters; 6 state banks, 3 trust companies, and 16 savings banks have gone out of business by liquidation; a net gain of 98 banks and trust companies during the biennial period. There have been no failures since November, 1907.

Respectfully submitted,

JOHN L. BLEAKLY,
Auditor of State.

STATEMENT NO. 5.

Estimated expenditures for the fiscal period beginning July 1, 1911, and ending June 30, 1913, being such only as are contemplated by existing laws and exclusive of any extraordinary appropriations that may be made by the Thirty-fourth General Assembly. Where the term "general law" is used opposite an estimate, it indicates that there is a standing appropriation for that purpose in the law, and no further appropriation will be necessary. The estimates are made to pay salaries and expenses up to July 1, 1913. All estimates for clerks' fund, Governor's contingent fund, and Railroad Commissioners' expense fund are made in accordance with Joint Resolution No. 6 passed by the Thirty-third General Assembly, together with a few slight additions.

STATEMENT NO. 28.

AMOUNT DUE FROM REVENUE TO SCHOOL FUND.

The revenue fund has become responsible to the school fund for the following bonds.

Bond No. 3, issued to the permanent school fund of the state for losses to the school fund, under section 2, chapter 134, laws 1864, dated November 1, 1871, interest payable on the first days of January and July in each year, at 6 per cent for.....	\$ 8,558.14
Bond No. 4, issued to the permanent school fund of the state for losses to the school fund, under section 2, chapter 134, laws of 1864, dated January 5, 1876, interest payable on the first days of January and July in each year, at 6 per cent for.....	2,379.04
Total	\$ 10,937.18

SUMMARY.

Showing the total amount of the permanent school fund, and how it was invested June 30, 1910, as shown by the books in this office, as follows:

Amount held by the several counties.....	\$ 4,777,880.38
Amount in state bonds drawing 6 per cent interest.....	10,937.18
Total	\$ 4,788,817.56

The above may be considered the entire available interest-bearing school fund of the state. In addition to this there are as described in statement No. 26 lots and lands bought in by the state for use of the school fund on foreclosure of mortgages belonging to the Eads' loans, and not yet resold, estimated in previous reports to be worth \$3,895; this is not available and is not included in the foregoing summary. Neither are the notes and mortgages shown on preceding page included, because they are practically worthless.

There has been an increase in the permanent school fund, from the sale of school lands since last report, of \$8,440.00, from resales \$975.00, and from escheat estates \$1,858.10. Total \$11,273.10.

STATEMENT NO. 29.

Real estate and notes belonging to general revenue.

District township of Saylorville, school order (10 per cent).....	\$ 77.70
Russell & Harper, two notes of \$100 each (10 per cent).....	200.00
Will Kent, note (10 per cent).....	700.00
Total	\$ 977.70

The school order and two notes of Russell & Harper are in the hands of the attorney general for collection. The Kent note is on file and is considered worthless.

STATEMENT NO. 30.

Note—Telegraph and telephone companies were assessed by the executive council by virtue of sections 1330 and 1331 of the Code up to and including the assessment of 1899 and their taxes were paid into the state treasury direct, the levy being 3-13 per cent, that having been the average rate of taxation in the state for all purposes. Beginning with the assessment of 1900, the value of both telegraph and telephone and express companies' property was certified to the various county auditors by the auditor of state, the same having been valued by the executive council, in accordance with chapters 42 and 45 of the laws of the Twenty-eighth General Assembly. The values as certified are placed on the tax lists of the various counties and the taxes collected by the county treasurer, the same as taxes on all other classes of property; beginning with the assessment of 1900 and each even numeral year thereafter new buildings erected the year prior are added to real estate.
