PAIN-KILLER ALMANAC AND THE FAMILY RECEIPT BOOK FOR 1868

Editor's Historical Introduction

This is the tenth in the series of century-old almanacs reproduced by off-set process from the outstanding collection housed in the library of the State Historical Society of Iowa. The *Pain-Killer Almanac* is representative of almost a score of patent medicine almanacs in the Society's collection, the front covers of eight of which appear on the inside and outside back cover of this reproduction. The popularity and longevity of these patent medicine almanacs in Iowa is attested by the fact that in our library several represent runs of from ten to forty years. Milton Drake compiled a list of fifty different 19th Century patent medicine almanacs for James H. Young's *The Toadstool Millionaires* (Princeton University Press, 1961). A number of those listed continued publication well down into the 20th Century.

The first free patent medicine almanac was issued in Buffalo in 1843 for Bristol's "wondrous panacea" Sarsaparilla. Almanacs such as Bristol's, Sloan's, Jayne's, and Ayer's were printed by the millions. The *Ayer's Almanac* appeared concurrently in fifteen different language editions and was distributed well into the 20th Century. It was Ayer's proud boast that its Sarsaparilla was "the only one of all the advertised Sarsaparillas which the World's Fair officials would allow to be exhibited at the great Columbian Exposition."

Many of the almanacs owned by the Society were distributed by such local concerns as Jackson Drug Company in Keosauqua and J. Stong in Kilbourn. These almanacs usually advertised the products of one patent medicine company. Eastman & Westcott of Iowa City, on the other hand, distributed *The Family Medical Almanac for 1858* which advertised Dr. Wistar's Balsam of Wild Cherry, Dr. Guyssott's Extract of Yellow Dock and Sarsaparilla, Dr. Osgood's India Chologogue, I. V. Hardy's Eyebalm, Mexican Mustang Liniment, Wells' German Condition Powders, McAlister's All-Healing Ointment or World Salve, and the only "sure and safe" remedy for dyspepsia — Oxygenated Bitters.

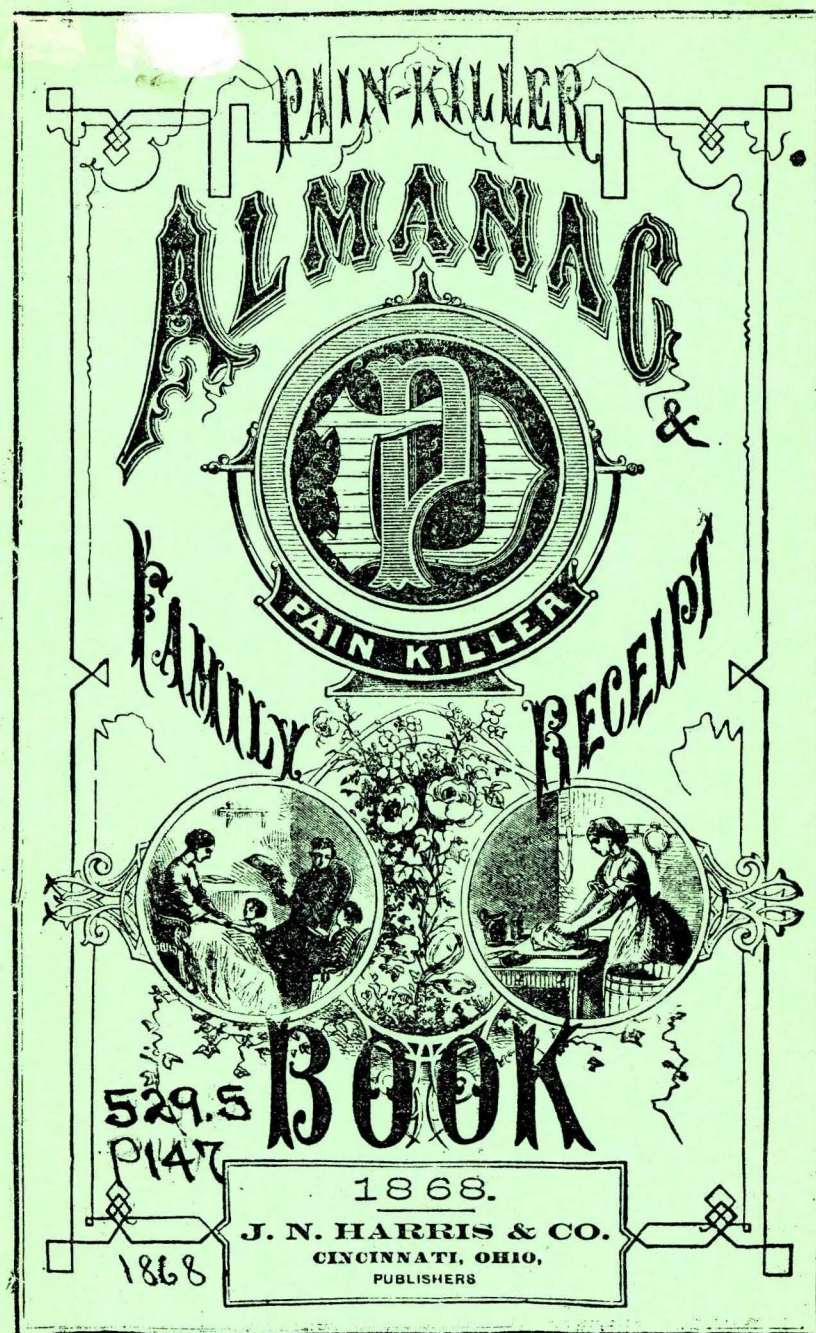

The ten almanacs issued by the State Historical Society since 1960 are:

- 1960 *Fisher's Improved House-Keepers Almanac for 1860.*
- 1961 *The Tribune Almanac for 1861.*
- 1962 *The Tribune Almanac for 1862.*
- 1963 *The Iowa State Almanac and Statistical Register for 1860.*
- 1964 *Farmer's Northwestern Almanac for 1864.*
- 1965 *The American Educational Series and Almanac for 1867.*
- 1966 *The Methodist Almanac for 1866.*
- 1966 *The Housekeepers Almanac, for the Year 1866.*
- 1967 *The Tribune Almanac for 1867.*
- 1968 *Pain-Killer Almanac & Family Receipt Book for 1868.*

The Society has for sale single copies of the above listed almanacs at fifty cents each. It also has for sale a loose-leaf notebook, bound in brown buckram and stamped in gold, manufactured expressly to hold the above almanacs and make them readily available for reference. These ten almanacs contain a wealth of information relating to Iowa and American history — political party platforms and election returns, religion and education, agriculture and industry, transportation and communication, the Civil War and Reconstruction, indeed every phase and aspect of human life reminiscent of the 1860's. When combined, these almanacs present to the reader an amazing amount of data not available to the average historical researcher. Until the supply is exhausted, sets of 10 of these almanacs may be purchased for \$4.00. The set of 10 almanacs (in the handsome gold-stamped buckram binder) will also be sent on receipt of \$6.00. The latter is attractive for its beauty and utility and will afford many hours of pleasure and profit to the interested reader.

Most respectfully, J. N. HARRIS & CO.

If you would be a good judge, hear both sides.

Not or deserve honor and not have it than have it and not deserve it.

Example teaches more than words.

DIRECTIONS FOR THE USE OF THE PAIN KILLER.

The Great Family Medicine of the Age.

USED INTERNALLY AND EXTERNALLY.

For Coughs.—Mix one teaspoonful of the Pain Killer with three tablespoonfuls of molasses, and take two or three teaspoonfuls of the mixture every half hour, till relief is obtained; bathing the throat and upper portion of the chest (and sides, if sore from coughing) freely with the Pain Killer, and inhale it from the hand.

For a Cold.—Take one teaspoonful of the Pain Killer in a cup of hot water, well sweetened with molasses. It is better to take this dose just before going to bed. A little milk added will make it more palatable. Bathe the chest freely with the medicine, and inhale it from the hand. Repeat the dose every twelve or twenty-four hours till relieved.

For Fever and Ague.—Take three teaspoonfuls of the Pain Killer in about half a pint of hot water, well sweetened with molasses, as the attack is coming on, bathing freely the chest, back, and bowels with the medicine at the same time. Repeat the dose in twenty minutes if the first does not stop the chill. Should it produce vomiting (and it probably will, if the stomach is very foul), take a little Pain Killer in cold water sweetened with sugar after each spasm. Perseverance in the above treatment has cured many severe and obstinate cases of this disease.

For Asthma and Phthisis.—Same as for Cough, repeating the dose every fifteen minutes till relief is obtained. Also, wet a flannel with Pain Killer, and lay it on the throat and chest.

For Dyspepsia.—Take one teaspoonful of the Pain Killer in sugar and water, immediately after each meal. Let your diet be nourishing, but taken at regular intervals; being careful not to overload the stomach at any time, nor to eat too soon after severe exercise.

For Liver Complaint.—Take a teaspoonful of the Pain Killer, in sugar and water, three times a day, bathing the side and between the shoulders with the medicine at least twice a day, rubbing it in well. Sokehard, steeped in cold water, will be found useful, as a common beverage, while taking the Pain Killer for this disease.

Acid Stomach, Headache, Heartburn, and Indigestion. to be treated the same as Dyspepsia. Bathing the head freely in Pain Killer will usually relieve the most severe attacks of Headache.

For Canker in the Mouth, Throat, and Stomach.—For a wash for the mouth and a gargle for the throat, make a strong mixture of the Pain Killer in milk and water, sweetened with loaf sugar; and take, three times a day, a teaspoonful of the Pain Killer mixed with a gill of milk and water, sweetened with loaf sugar.

For Diphtheria.—On the first appearance of the symptoms of this dreaded disease, make a gargle, using two teaspoonfuls of Pain Killer to a half pint of water, and gargle the throat every fifteen minutes, bathing with the medicine about the throat and neck. Accompany this treatment with an occasional dose of the Pain Killer in sugar and water. If promptly applied, will invariably give relief.

For Canker Rash.—Take a teaspoonful of the Pain Killer in hot water, sweetened with molasses, three times a day, every other day, and a dose of Castor Oil on the alternate days.

For Kidney Complaints.—Take a teaspoonful of the Pain Killer in a gill of new milk and molasses, equal parts, three times a day, bathing the body with the medicine freely wherever you find distress. If troubled with a retention of urine, take a pill of white turpentine every day, in addition to the above, till relieved.

For Piles.—Take a teaspoonful of the Pain Killer in milk and molasses, three or four times a day, anointing the parts affected with an ointment made of a teaspoonful of the Pain Killer in a tucup filled with equal parts of sweet cream and sweet oil. This ointment can be made milder or stronger, as circumstances may require, by using less or more Pain Killer in the above-named quantity of cream and oil, always using it as strong as can be borne.

For Sick Headache and Sea-Sickness.—Take a teaspoonful of the Pain Killer in hot water, sweetened with loaf sugar, every hour, till relieved.

For Cramp and Pain in the Stomach.—Take a teaspoonful of the Pain Killer in hot sweetened water, every half hour, till relieved; bathing the stomach and bowels freely with the medicine at the same time.

Painters' Colic, Diarrhoea, Summer Complaint, and Cholera Morbus. to be treated the same as Cramp and Pain in the Stomach; the dose to be repeated more or less frequently as the violence of the attack may require, bathing the stomach and bowels freely with the medicine, laid on warm with flannel. Keep the flannel moist with the medicine. The Pain Killer may be often given with Castor Oil, in such cases, with good effect.

The Pain Killer gives universal satisfaction.

It is well to know how to be silent till it is time to speak.

Keep the Pain Killer always at hand.

For Dysentery.—Take a teaspoonful of Pain Killer, well mixed with a gill of hot milk and molasses, or with a tablespoonful of Castor Oil, at the same time bathing the bowels, as in Diarrhoea.

For Cholera Infantum.—To a child under twelve months, give from ten to twenty drops in warm milk and water, sweetened with loaf sugar, every hour, bathing the stomach in a mixture made of a teaspoonful of Pain Killer in a half gill of milk and water, warm. If the child be between one and two years old, use for a bath equal parts of Pain Killer and milk and water, increasing the dose accordingly. For a child over two years, use the Pain Killer clear, for a bath, increasing the dose to half a teaspoonful.

For Cholera.—Take a teaspoonful of the medicine in hot water, sweetened with sugar. Bathe the stomach and bowels freely with the Pain Killer at the same time. If the attack be severe, and attended with cramps and diarrhoea, repeat the dose every fifteen minutes, using hot fomentations to the bowels. In extreme cases, the dose may be increased to a tablespoonful.

. In Cholera Infantum, as well as in Asiatic Cholera, the Pain Killer may be given with Castor Oil, in about equal proportions, with the most favorable effect.

For Scalds and Burns.—Keep the parts wet with the Pain Killer till the pain ceases. To heal the wound, use the salve prepared for Ringworms and Old Sores.

For Frost-Bites and Chilblains.—Bathe freely in Pain Killer several times a day.

For Sprains and Bruises.—Rub the Pain Killer well into the wounded parts, taking the medicine internally at the same time.

For Whitlows, Felons, and Boils.—Keep the part affected covered with a cloth kept moist with Pain Killer, till the pain is relieved. Take the medicine internally at the same time.

For Ringworms and old Sores.—Bathe in the Pain Killer, and then apply a salve made of equal parts of rosin, beeswax, and sweet oil, mixed by simmering on a slow fire. Take half a teaspoonful in molasses and water, three times a day, during the treatment.

For Rheumatism and Neuralgic Affections.—Bathe the parts affected freely with the Pain Killer, well rubbed in, till the pain is relieved.

For Pain in the Side, Back, and Loins.—Treat the same as Rheumatism.

For Stings of Insects, Scorpions, Centipedes, and the Bites of Poisonous Insects.—Keep the wounded parts covered with a cloth well moistened with Pain Killer till relieved. It is well to take the medicine internally also.

For the Bites of Venomous Reptiles.—Take the medicine freely internally, in doses sufficient to keep the system well stimulated, while the wound is kept wet with the Pain Killer. The bite of the rattlesnake has frequently been cured simply by bathing the wounded part so far as the swelling extended.

The Bites and Scratches of dogs and cats are readily cured by bathing in the Pain Killer.

Wounds by Fish Hooks, or the Fins of Fish, may be cured in the same way.

Dr. Sweet says it takes out the soreness in case of bone-setting, faster than any thing he has ever used for that purpose.

Mothers will find it invaluable in the nursery, and it should always be kept at hand in case of accident. For pain in the breasts, take a little Pain Killer in sweetened milk and water, bathing the breasts with it clear at the same time. If the milk-passages are clogged, from cold or other causes, bathing in the Pain Killer will give immediate relief.

The above directions are the result of many years' experience, and the medicine seldom fails to effect a cure where used accordingly.

BEWARE OF ALL IMITATIONS.

The genuine is put up only in panel bottles, with labels finely engraved on steel, the name being also blown in the bottles, and sold by all Medicine-Dealers.

Strike to elevate yourselves, but never by pulling others down.

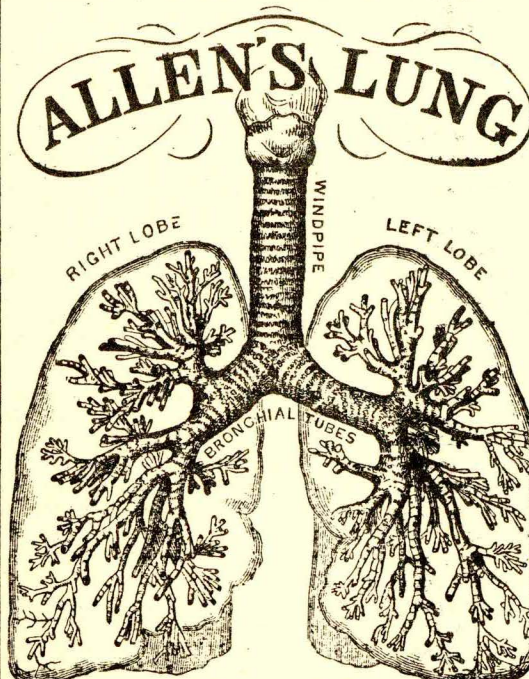

PAIN KILLER. This remedy is well known to be one of the very best ever offered to the public. It is all that it is represented to be. The testimonials in its favor reaching back for a series of years, and the experience of a long test, incontestably prove it to be one of the most reliable specifics of the age. — *Old North State.*

Answers our Expectations. P. E. I. Monitor.

Pain Killer is a favorite with all classes.

ECLIPSES.

In the year 1868 there will be two Eclipses, both of the sun:
I.—AN ANNULAR ECLIPSE OF THE SUN, Feb. 23. Invisible in the United States, but visible in South America, from Patagonia to the southern shore of the Gulf of Mexico; also in the Pacific Ocean, Europe, and Africa. Eclipse begins on the Earth, Feb. 23, at 6 11. 9 m., in the morning, (Washington mean time,) in long. 78° 9' west from Greenwich, and in lat. 12° 50' south. Eclipse ends on the Earth, 23d, at 17 minutes past noon, (Wash. m. t.) in long. 351° 13' west from Greenwich, and in lat. 18° 2' north.
II.—A TOTAL ECLIPSE OF THE SUN, Aug. 18. Invisible on this continent. Visible in the Eastern Hemisphere, viz.: Africa, Asia, Australia, etc.
A TRANSIT OF MERCURY over the Sun's disk, Nov. 4. Invisible in the United States.
The Moon's Phases in this Almanac are calculated for the meridian of Washington to the nearest minute. Her risings, settings, and southings are given for the respective places approximately.

Allen's Lung Balsam causes the phlegm and matter to rise without irritating those delicate organs, the Lungs, and without producing constipation of the bowels. It also gives strength to the system, stops night-sweats, and changes all thesecretions, and purifies the blood.

Dr. A. L. Scovill says: "I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung Complaints, I believe it to be a certain cure; and if every family would keep it by them, ready to administer upon the first appearance of disease of the Lungs, there would be very few cases of Consumption."

Dr. Lloyd, of Ohio, surgeon in the army during the war, from exposure contracted consumption. He says: "I have no hesitancy in stating that it was by the use of your LUNG BALSAM that I am now alive and enjoying health."

Dr. Fletcher, of Missouri, says: "I recommend your BALSAM in preference to any other medicine for Coughs, and it gives satisfaction."

BALSAM.

THE RENOWNED COUGH AND LUNG REMEDY,
For the Cure of Consumption and all diseases that lead to it.

READ WHAT DR. DORAN SAYS.

RUSHESLYVANIA, LOGAN Co., O., Aug. 14, 1867.
MESSRS. J. N. HARRIS & Co.: In reply to the question asked by your traveling agent, as to how your Medicines are selling here, I will say that I have been dealing in proprietary medicines for the last fourteen years, and have never before found preparations that would equal your "PAIN KILLER" and "ALLEN'S LUNG BALSAM." They not only sell very rapidly, but give the most perfect satisfaction in every case that has come to my knowledge. In my practice I very seldom prescribe a patent medicine, but with your "PAIN KILLER" and "LUNG BALSAM," having entire confidence in them, and knowing that they possess valuable medicinal properties, I FREELY USE THEM IN MY DAILY PRACTICE. Especially have I used the "ALLEN'S LUNG BALSAM," and with the most unbounded success. As an expectorant it is most certainly far ahead of any similar preparations I have ever yet known. The "PAIN KILLER" is the most standard medicine I have for sale, and many families in this vicinity would as soon think of being out of beef or bread as without a bottle of "PAIN KILLER" in the house. Yours truly, ISAAC A. DORAN, M. D.

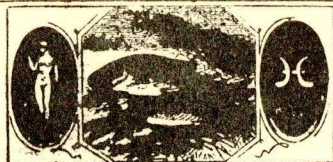

Be rich, but of your wealth make no parade.

Miller & Kopp, of Nova, Ohio, write that Allen's Lung Balsam has performed some remarkable cures there.

"Greenbacks" redeemed at all times at our office in Allen's Lung Balsam.

Truth is simple, requiring neither study nor art.

David J. Hanline writes from Greenland, West Va., Feb. 14, 1867, that his wife was sorely afflicted with what they supposed to be consumption; that the disease was very deeply seated on her lungs. She has used four bottles of ALLEN'S LUNG BALSAM. The cold chills have left her since she commenced using this balsam; the pain in the right lung has stopped, and she raises the phlegm easy; is much better and has but little pain in her breast.

We copy the above letter to show that every case of lung disease, however severe, yields quickly when Allen's Lung Balsam is faithfully used.

For Dyspepsia, use the Pain Killer.

Consumption is cured by Allen's Lung Balsam.

CAUSES OF DISEASE OF THE PULMONARY ORGANS.

The first illness is generally caused by exposure to cold, wet feet, sitting in a draught while in a state of perspiration, coming from hot and crowded churches, or other places, in thin dress, or by some imprudent change of or wearing damp clothes, stockings, or any other cause tending to check suddenly the perspiration. The result produces inflammation of the lining membrane of the lungs or throat, and this inflammation causes phlegm or matter, which, instead of being carried off through the skin, nature tries to throw off by expectoration. In many cases she is unable to do so without assistance, and the most valuable assistant is Allen's Lung Balsam. "Procrastination is the thief of time." There is no doubt but that thousands of persons die every year whose lives might have been saved by the use of Allen's Lung Balsam.

CROUP.

This disease is caused by the formation of a false membrane lining the wind-pipe, and obstructing the passage of the air, and is known by the shrill, croup-sounding cough and rattling in the throat. This membrane must be removed by expectoration. Take a double dose of the BALSAM every ten or fifteen minutes, which will reduce it (generally) without fail, after taking a few doses. The Balsam will and has saved the lives of thousands of children attacked with Croup, where it has been taken in season.

MOTHERS, have you delicate, weakly children, who are always taking cold and subject to Croup? Remember, there never was a case of Croup which did not originate in a Cold! And when your child goes to bed wheezing and coughing, you know not that, before morning, Croup may not set in, and ere you can get a physician, your dear child may be beyond the reach of help. We beseech you, therefore, as you value the lives of your children, keep this medicine by you in the house.

CONSUMPTION.

Pulmonary Consumption is caused most generally by a neglected cold, or other disease of the lungs, attended with cough, which has become chronic, and leads to the formation of Sores or Tubercles on the Lungs. The patient generally becomes greatly prostrated by expectoration of phlegm, which is thick and yellow, and sometimes frothy and white. The disease is often attended with difficulty of breathing or oppression, pains or soreness in the chest, night sweats, and cold chills. Sometimes the bowels are constipated, and at others attended with diarrhea and swelling of the limbs.

BRONCHITIS, or what is sometimes called MINISTERS' SORE THROAT.

Bronchitis is attended with irritation of the bronchial tubes, which convey the air we breathe into the lungs. It arises from a cold settled in the throat, and from severe use of the voice. The irritation from this latter cause commences in the larynx and glottis, which are the organs of the voice, and extending downward, produces sore throat, hoarseness, coughing and spitting or expectoration of matter, sometimes mixed with blood. It is dangerous from its tendency to spread down to the lungs, and becoming settled into fatal Consumption.

ASTHMA, OR PHTHISIC.

This is a paroxysmal affection of the respiratory organs, characterized by great difficulty of breathing, tightness across the breast, and a sense of impending suffocation. The paroxysm generally comes on at night during sleep, and sometimes the symptoms acquire a most appalling degree of violence. After a few hours, however, the patient generally raises a considerable quantity of tough phlegm, which relieves him greatly. During the ensuing day he will experience but little uneasiness or oppression in the chest; but in a night or two all these distressing symptoms will return. In this way the disease proceeds, with remission by day, and violent exacerbations at night, recurring at uncertain intervals, unless it is effectually subdued.

The Afflicted should heed good advice.

Clergymen should use Allen's Lung Balsam for Bronchial troubles.

Children subject to Croup, should take Allen's Lung Balsam often.

A successful remedy for Consumption is Allen's Lung Balsam.

Pain Killer. - An indispensable article in the Medicine Chest. - N. Y. Dispensary.

PAIN KILLER has long been considered a standard and valuable medicine. We have tried it, and found it a most excellent article for sea-sickness; in fact we should recommend it as the best travelling companion you can have. — *Sunbeam, Boston.*

Pain Killer is excellent for Sprains and Bruises.

The Pain Killer of Perry Davis & Son we can confidently recommend. — *Canada Baptist.*

Ambition sets one's life forward into the uncertain future; contentment makes him live in the present.

DOCTOR M'LANE'S CELEBRATED LIVER PILLS,

FOR THE CURE OF:

HEPATITIS OR LIVER COMPLAINT,

Dyspepsia and Sick Headache.

In offering to the public DR. M'LANE'S CELEBRATED LIVER PILL, as a remedy for *Liver and Bilious Complaints*, we presume no apology will be needed. The great prevalence of *Liver Complaint and Bilious Diseases of all kinds*, throughout the United States, and particularly in the West and South, where, in the majority of cases, the patient is not within the reach of a regular physician, require that some remedy should be provided, that would not in the least impair the constitution, and yet be safe and effectual. That such is the true character of DR. M'LANE'S LIVER PILLS, there can be no doubt. The great success which has invariably attended their use, will, we think, be sufficient to convince the most incredulous. It has been our sincere wish, that these pills should be fairly and fully tested, and stand or fall by the effects produced. That they have been so tested, and that the result has been in every respect favorable, we call thousands to witness who have experienced their beneficial effects.

DR. M'LANE'S LIVER PILLS are not held forth or recommended (like most of the popular medicines of the day) as universal cure-alls, but simply for LIVER COMPLAINTS, and those symptoms connected with a deranged state of that organ.

DISEASES OF THE LIVER.

The Liver is much more frequently the seat of disease than is generally supposed. The function it is designed to perform, and on the regular execution of which depends not only the general health of the body, but the powers of the stomach, bowels, brain, and the whole nervous system, shows its vast and vital importance to human health. When the Liver is seriously diseased, it in fact not only deranges the vital functions of the body, but exercises a powerful influence over the mind and its operations, which can not easily be described. It has so close a connection with other diseases, and manifests itself by so great a variety of symptoms, of a most doubtful character, that it misleads more physicians, even of great eminence, than any other vital organ. The intimate connection which exists between the liver and the brain, and the great dominion which I am persuaded it exercises over the passions of mankind, convince me that many unfortunate beings have committed acts of deep and criminal atrocity, or become what fools term hypochondriacs, from the simple fact of a diseased state of the liver. I have long been convinced that more than one half of the complaints which occur in this country, are considered as having their seat in a diseased state of the liver. I will enumerate some of them: *Indigestion, stoppage of the menses, deranged state of the bowels, irritable and vindictive feelings and passions, from trifling and inadequate causes, of which we afterward feel ashamed; last, though not least, more than three-fourths of the diseases enumerated under the head of CONSUMPTION, have their seat in a diseased liver.* This is truly a frightful catalogue.

Symptoms of a Diseased Liver.—Pain in the right side, under the edge of the ribs, increase on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder-blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness, the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes attendant. The patient complains of weariness and debility; he is easily startled; his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred when few of them existed, yet examination of the body, after death, has shown the liver to have been extensively deranged.

Ague and Fever.—Dr. M'Lane's Liver Pills, in cases of *Ague and Fever*, when taken with Quinine, is productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a fair trial.

DIRECTIONS.

Take two or three pills on going to bed, every second or third night. If they do not purge two or three times by next morning, take one or two more; but a slight breakfast should invariably follow their use.

The Liver Pills may be used where purging simply is necessary. As an antibilious purgative, they are inferior to none, and in doses of two or three, they give astonishing relief in Sick Headache; also, in slight derangements of the stomach.

PREPARED ONLY BY

FLEMING BROTHERS, PITTSBURGH, PENN.,

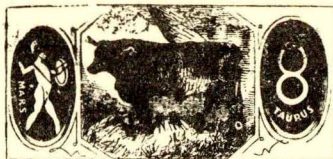

Sole Proprietors of Dr. McLANE'S Liver Pills and Vermifuge.

SOLD BY DEALERS EVERY-WHERE.

The Proprietors will forward per mail, to any part of the United States, one box Liver Pills or one vial Vermifuge, on receipt of 40 cts. in Government Stamps.

Whatever may be the prejudices entertained against many patent medicines, we can ourselves bear testimony to the efficacy of the "Pain Killer." We have seen its magic effect in soothing the severest pain, in a great many cases, and know it to be a good article. And, even where it may not prove infallible, it possesses the rare virtue of doing no injury. — Cincinnati Dispatch.

Short reckonings make long friends.

"Pain Killer" is the trade-mark of Perry Davis & Son.

A GOOD MEDICINAL TONIC.

DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS,
THE CELEBRATED BOSTON REMEDY

For Dyspepsia, Liver Complaint, Jaundice, Fever and Ague, General Debility, and all diseases arising from a disordered Stomach, Liver, or Bowels,

SUCH AS

Acidity of the Stomach, Indigestion, Heartburn, Loss of Appetite, Costiveness, Blind and Bleeding Piles, Disgust of Food, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Dimness of Vision, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, or Limbs, and in places where a TONIC is necessary.

For many years the Sherry Wine Bitters have been sold, and held by the people in great estimation in the New England States, and New England people in the West generally well know their value.

From Minnesota, Wisconsin, Michigan, and all the Western and North-western States, the demand is unprecedented for any similar preparation, and when once used in a family, they become a standard remedy, and always kept at hand.

The SHERRY WINE BITTERS are used and recommended by many of the leading physicians of the country, and all physicians who once test their merits pronounce them valuable.

As a Remedy against Fever and Ague they work like a Charm.

We receive daily evidence of their good effects. It would scarcely be possible to devise any Bitters, or even a series of them, that could do so much good for mankind as Dr. S. O. Richardson's Sherry Wine Bitters. The benefit they have distributed among the million can be traced in numberless instances. They are certainly the Bitters of our own times.

READ THE FOLLOWING EXTRACTS FROM LETTERS.

GEO. WILLIAMS, Druggist, Hockingport, Athens Co., Ohio, says: "The sale of Dr. Richardson's Sherry Wine Bitters is increasing, and they give good satisfaction to all who use them."

DR. D. K. GALLEHERS writes from Van Wert, Ohio: "I most respectfully recommend it to the notice of Dyspeptic persons, and all persons who require a stimulating medicine."

There is no better Stimulant to build up a Debilitated Person.

RICHARD WALKER, Logansville, Wisconsin, writes: "My son was taken with the Typhoid Fever last November, and reduced to the point of death. After the Fever left him, all the usual remedies were administered to him, but his debility was so great we were certain he was going to die. He was so emaciated as to be nothing but skin and bones, and his mind was so affected by the condition of his body that he was out of his head for more than three months. In fact, he was upon the very brink of death, a most pitiable object."

"I had taken one bottle of DR. RICHARDSON'S SHERRY WINE BITTERS, that I had got of your agents, Drs. Mackey and Ramsey, at Reedsburg, and the happy thought occurred to me that, having done myself so much good, they might help my son. I gave him very small doses at first, and finding they immediately benefited him, I continued giving them until he took six bottles, and I now take the greatest pleasure in stating to you that my son is not only perfectly well, but in much better health than he has been for the past five years."

Read what A. Ross, Druggist, New Castle, Penn., says of DR. RICHARDSON'S BITTERS.

"I have been selling your SHERRY WINE BITTERS for some time past, and have found them to give general satisfaction. In every instance where they have been bought as a tonic to strengthen the stomach, increase the appetite, and impart vigor to the system, they have given as much satisfaction as any preparation of the kind that I ever sold. If called upon, I could mention a number of cases, and give the names of those who have been greatly benefited by their use."

If your sleep is disturbed by coughing, use Allen's Lung Balsam.

PAIN KILLER is one of the few articles that are just what they pretend to be. — Brunswick Telegraph.

Society, like silk, must be viewed in all its situations, or its colors will deceive us.

If you are troubled with Costiveness, use Sherry Wine Bitters.

If you are debilitated, and wish to get and feel well, try the Sherry Wine Bitters.

Pain Killer will cure Cholera Morbus.

PAIN KILLER.—Known almost universally to be a good remedy for burns and other pains of the body; and is valuable, not only for colds in winter, but for various summer complaints.—*Christian Advocate*.

He is poor whose expenses exceed his income.

Pain Killer cures Neuralgia.

From the "Providence Journal."

The following correspondence will show something of the estimation in which *The Pain Killer* is held on the shores of the Mediterranean. It is not surprising that a medicine that receives such testimonials as this from abroad, should find well sustained and increasing appreciation at home.

U. S. CONSULATE, Tunis, Dec. 27, 1865.

TO THE PROPRIETORS OF "THE PAIN KILLER," Providence, R.I.

Gentlemen,—The enclosed note has just been received from my friend Tulin, late Consul-General of Norway and Sweden, and of Prussia, in this place. No comment is needed.

Truly Yours, AMOS PERRY.

GENOA, Italy, Dec. 16, 1865.

Dear Sir,—Accept my thanks for this third supply of Davis' Pain Killer. This medicine has often relieved me of serious indisposition; and I would not on any account consent to be without it, both for myself and my family.

I have recommended it to my late colleagues and friends in Tunis and Genoa; and, at my request, one of the druggists of this city has sent an order to New York to meet the demand in this place. Yours Truly, G. A. TULIN,

Ex-Consul General of Sweden and Norway, and of Prussia and Tunis.

To Hon. AMOS PERRY, U. S. Consul-General at Tunis.

Rice Biscuits.—Two tablespoonfuls of rice flour, three of wheat flour, two of powdered sugar, a piece of butter the size of a walnut to be rubbed into the flour, as much boiling milk as will scald the mixture. Beat with the rolling pin till short; roll out very thin, and cut into rounds as large as the top of a tumbler. Bake in a very slow oven.

After many years trial of Davis' "Pain Killer," during which time we have scarcely been without it, we advise that every family should provide themselves with so effectual and speedy a pain killer.—*Amherst (N.S.) Gazette*.

Roast Meats.—In baking meat, no matter what kind, always put in some broth. The top of an oven is always the warmest. To prevent from burning, grease a paper with butter, and put on the top of the article baking. This will keep the top of the meat or bread as moist as the bottom. The paper prevents the steam from rising. You need only to baste the paper occasionally. Some meats require less time to bake than others. Pork and veal, to be healthy, should always be overdone.

DYSPEPSIA can be cured by the use of *The Pain Killer*. This is the most wonderful and valuable medicine ever known for this disease: its action upon the system is entirely different from any other preparation ever known. The patient, while taking this medicine, may eat any thing the appetite craves.

Orange Sirup for Jelly.—Squeeze twenty four oranges, and strain them from the pulp; add a little of the peel finely cut, one and a half pounds crushed white sugar to each pint of juice; let it come to a high boil, then skim it, strain it, and bottle for use; it must be well corked. To a pint of the sirup, put an ounce of isinglass dissolved in a wineglass of water.

FISHERMEN, so often exposed to injury by having their skin pierced with hooks, and fins of fish, can be relieved by bathing with *Pain Killer* as soon as the accident occurs: in this way the anguish is soon abated. Bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble.

Atlantic Cable—Laid in 1866—Length 1866 miles.

The green turf is the poor man's carpet, and God wears the colors.

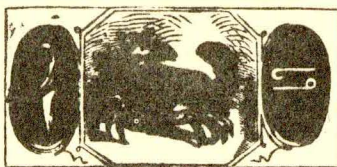

The Pain Killer has the verdict of the people in its favor.

Mothers should keep Allen's Lung Balm at hand for use in cases of Croup.

It is always in your power to make a friend by smiling; what folly to make enemies by frowning!

Pain Killer will cure your Cold or Cough.

Travellers are always liable to sudden attacks of Dysentery and Cholera Morbus, and the "PAIN KILLER" may always be relied upon in all such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses and a gill of hot water, stir well together and drink hot. Repeat the dose every hour until relieved.

Education is the apprenticeship of Life.

He is a worthless being who lives only for himself.

ASIATIC CHOLERA. THE STRONGEST PROOF OF INTRINSIC MERIT.

Dear Sirs, — I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send to us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the Pain Killer, using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assure us that eight out of every ten to whom it was prescribed recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear sirs, gratefully and faithfully yours.

J. M. JOHNSON, Missionary at Swatow, China.

MANHATTAN, KANSAS, April 17, 1866.

Gents, — I want to say a word about the Pain Killer. I consider it a very valuable medicine, and always keep it on hand. I have travelled a good deal since I have been in Kansas, and never without taking it with me. In my practice I used it freely for the Asiatic Cholera, in 1849 and in 1855, with better success than any other medicine.

Truly Yours, A. HUNTING, M.D.

White Bread. — After all that has been said and written about good light, and the decided aversion that every one has to poor bread, — heavy, dark, and sour, or soggy, — it is surprising to see how many families never have a loaf of light bread, except what they buy at the baker's. If mothers realized how much irritability among their children arises from indigestion caused by heavy bread, they would certainly make it a point to have light bread at any cost of time and trouble to learn. We assure our readers that the following receipt, accurately followed, will produce light, sweet bread.

Sift four quarts of flour into a pan. Put into another pan or bowl a handful of Indian meal, a little salt, and a bit of butter, or tablespoonful of nice lard. On this, pour two quarts of boiling water. Stir it, and pour the mixture on to the flour in the other pan, boiling hot. Add some cold water to make it soft enough to mold out, and then work it well with the hands, kneading it up lightly, not jamming and pounding it down hard in the pan. Let it rise overnight, if in winter, near the stove. In the morning, work it up lightly into four good loaves, and let it set half an hour rising in the pans; then bake it two hours if the heat is moderate, but less if it is a very quick heat.

"Didn't you tell me you could hold the plough?" said the farmer to an Irishman he had taken on trial. "Be aisy, now," says Pat. "How could I hold it, an' two horses pullin' it away? Just stop the craytures, and I'll hold it for ye."

CHOLERA. . . I regret to say that the cholera has prevailed here of late to a fearful extent. For the last three weeks, from ten to fifty or sixty fatal cases each day have been reported. I should add that the Pain Killer, sent recently from the Mission House, has been used with considerable success during this epidemic. If taken in season, it is generally effectual in checking the disease.

REV. CHARLES HARDING, Shalapore, India.

The Pain Killer is good for Scalds and Burns.

Few ply us for our misfortunes; thousands hint us for our success.

Every medicine should be a bottle of Pain Killer to resort to in case of accident.

It is easy to look down on others; to look down on ourselves is the difficulty. — Lander.

Each bottle of Pain Killer is wrapped with full directions for its use.

Allen's Lung Balsam cures when other remedies fail.

The people should not forget that DAVIS'S "PAIN KILLER" is as good a medicine as they can keep by them to ward off the cholera, by taking it as soon as any of the symptoms are felt. Every family should keep it by them. It is sold by druggists, grocers, and dealers in family medicines generally.

Never sign writing till you have read it.

For Fever and Ague try Sherry Wine Bitters.

EVERY PERSON WANTS THE
BEST AND CHEAPEST BITTERS.

The bottles are smaller to carry home, and when you get there, you can add a quart of pure water to a bottle of the Bitters, which will give the largest quantity, and still remain the strongest and best Bitters offered for sale.

WHAT EVERY BODY ALSO WANTS
IS A SURE REMEDY

For the many Diseases and Debilities that Man is subjected to.

If you are attacked with Fever and Ague, and desire at once to rid yourself of the disease; and if you can find a sure remedy, and one that is pleasant and agreeable to the taste, that is what you would prefer. That pleasant and sure remedy is

DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS.

If you are debilitated and require a Strengthening Remedy, you have it in the
SHERRY WINE BITTERS!

If your Bowels are deranged, the regulator is the

SHERRY WINE BITTERS!

If you lose your appetite, by which you will soon become feeble and prostrated, the

SHERRY WINE BITTERS

is your remedy, when every other remedy fails. These Bitters will remain your friend in affliction, and restore you to health.

They are prepared by an educated physician, and their merits are in the preparation itself, and not in newspaper puffing, on which very many preparations are sold. The Sherry Wine Bitters are put up in bottles holding a pint.

DAVIS O'CONNELL, M. D., Chemical Inspector for Hamilton Co., O., inspects the Bitters. He says: "I have inspected an article designated Dr. Richardson's Sherry Wine Bitters, sold by J. N. Harris & Co., No 7 College Building, Walnut Street, Cincinnati, Ohio, and find said Bitters free from deleterious impurities. Said article is a concentrated vegetable tincture, containing tonic, astringent, and demulcent properties."

HARRIS, AMES & CO., writes from Connecticut, as follows: "We are well acquainted with the character and reputation of Dr. S. O. Richardson's Sherry Wine Bitters in the New England States. We have sold them extensively for the last twenty-five years, and they are certainly the best and deservedly the most popular article in that line we know of before the public. As a Tonic for the promotion of health and strength, we have seen no article more highly esteemed."

JOHN FISHER, writes from Liverpool, Ohio: "I am glad to have it in my power to state the relief I have lately received from the use of Dr. Richardson's Sherry Wine Bitters. I was for some time afflicted with indigestion and pain in my stomach, accompanied with a severe, stubborn cough, and symptoms somewhat discouraging; was unable to enjoy any comfortable rest day or night, and by the use of about two bottles of your Sherry Wine Bitters I was entirely relieved. Its action was very soothing and certain. I am satisfied that it is a valuable medicine, and ought to be kept in every family."

Dr. WM. M. KERR, Rogersville, Ind., recommends the Bitters to his patients, where other remedies have failed to cure, and they have given satisfaction.

JOSEPH STUMP, Delaware, Ind., writes in the highest praise of the Bitters; his wife used them by the advice of her physician. They cured her permanently of the palpitation of the heart, by which she had suffered much and long. RICHARDSON'S SHERRY WINE BITTERS cured her.

CLARK & PORTER, Ashland, Ohio, writes: "We think it a preparation of much value. We want to keep it always on hand."

JEFF COLE, Coolville, Ohio, writes: "The Sherry Wine Bitters gives good satisfaction; the demands for it are increasing."

EVERY FAMILY SHOULD KEEP THEM AS A FAMILY MEDICINE.

Don't use cough remedies which contain opium.

Boys and girls, save your pennies and deposit in a savings bank.

Why is Pain Killer in such demand in cholera times? Ans. Because it cures.

A woman's heart is like a violin. — It requires a bow to play on it.

Should you be troubled with lung difficulty, use Allen's Lung Balsam.

For all kinds of summer complaints, use the "Pain Killer."

The late Rev. Dr. Granger repeatedly expressed his belief that he owed his life to the timely use of the "Pain Killer." During his visit to the Missions in Burmah, he had a severe attack of the cholera, and was immediately relieved by the use of the "Pain Killer."

A man's manners not unfrequently indicate his morals.

The remembrance of a well spent-life is sweet.

CHOLERA. — *How to cure it.* — At the commencement of the diarrhoea, which always precedes an attack of the cholera, take a teaspoonful of the Pain Killer in sugar and water (warm if convenient), and then bathe freely the stomach and bowels with the Pain Killer clear. Should the diarrhoea or cramps continue, repeat the dose every ten or fifteen minutes till the patient is relieved. In extreme cases, two or more teaspoonfuls may be given at a dose.

Plain Muffins. — One pint quite warm water, seven large tablespoonfuls yeast, one egg, salt, flour enough to make a batter. It must be beaten a good while. Rise in the morning if for tea, at night if for breakfast.

Baked Indian Pudding. — One quart of milk scalded; while boiling, stir in a cupful of Indian meal; sweeten with molasses; two eggs well beaten; salt, spice, butter. Bake half an hour.

FUNGCHOW, CHINA, Aug. 23, 1866.

Dear Sirs, — During a long residence in China, I have used your invaluable Pain Killer, both in my own family and among the Chinese, and have found it a most excellent medicine. In the summer of 1862 and '63, while residing in Shanghai, I found it an almost certain cure for cholera, if used in time. Indeed, using it in a great many instances, I do not remember failing in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have been obliged to fall upon my own resources in cases of sickness. The Chinese come to us in great numbers for medicine and advice. Though without medical knowledge ourselves, the few simple remedies which we can command are so much in advance even of their physicians, that we have almost daily applications. We allow them to come, because it brings us in contact with them, and opens a door for usefulness. In Diarrhoea, Colic, Vomiting, Cholera, Coughs, &c., your Pain Killer has been my chief medicine.

Yours, very truly, Rev. T. P. CRAWFORD.

Baking Ham. — Most people boil ham. It is much better baked, if baked right. Soak for an hour in clean water, and wipe dry; next spread it all over with thin butter, and then put it in a deep dish with sticks under it, to keep it out of the gravy. When it is fully done, take off the skin and matters crusted on the flesh side, and set it away to cool. You will find it very delicious, but too rich for dyspeptics.

Read the following letter from Rev. R. Telford, Missionary in China, now visiting his home in Pennsylvania.

WASHINGTON, PA., June 25, 1866.

Dear Sirs, — During a residence of some ten years as a missionary in Siam and China, I found your Pain Killer a most valuable remedy for that fearful scourge, the Cholera.

In administering the medicine, I found it most effectual to give a teaspoonful of Pain Killer in a gill of hot water sweetened with sugar; then, after about fifteen minutes, begin to give a tablespoonful of the same mixture every fifteen minutes until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with Pain Killer clear, and rub the limbs briskly. Of those who had the Cholera, and took this medicine faithfully in the way stated above, eight out of ten recovered.

Truly Yours, R. TELFORD.

Pain Killer cures Canker in the mouth.

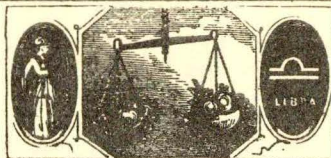

Asiatic Cholera — its origin in the East; its remedy the Pain Killer.

A little wrong done to another is a great injury done to ourselves.

Consumptives should never despair of cure till they have tried Allen's Lung Balm.

"Pain Killer" is the best remedy for Fever and Ague.

At this season of the year, when cholera, cholera-morbus, dysentery, and other kindred complaints are sure to prevail, everybody should be liberally supplied with Perry Davis's Vegetable "Pain Killer." Persons leaving home, whether it be for a day's excursion, or a trip to Europe, should be in a condition to place their hands on it at a moment's warning.

Virtue is like a rich stone, best plain set. — Bacon.

DOCTOR M'LANE'S
CELEBRATED

AMERICAN WORM SPECIFIC OR VERMIFUGE.

No diseases to which the human body is liable, are better entitled to the attention of the philanthropist, than those consequent on the irritation produced by worms in the stomach and bowels. When the sufferer is an adult, the cause is very frequently overlooked; and, consequently, the proper remedy is not applied. But when the patient is an infant, if the disease is not entirely neglected, it is still too frequently ascribed, in whole or part, to some other cause. It ought here to be particularly remarked, that although but few worms may exist in a child, and howsoever quiescent they may have been previously, no sooner is the constitution invaded by any of the numerous train of diseases to which infancy is exposed, than it is fearfully augmented by their irritation. Hence it too frequently happens that a disease otherwise easily managed by proper remedies, when aggravated by that cause, bids defiance to treatment judicious in other respects, but which entirely fails in consequence of worms being overlooked. And even in cases of greater violence, if a potent and prompt remedy were possessed, so that they could be expelled without loss of time, which is so precious in such cases, the disease might be attacked, by proper remedies, even-handed and with success.

SYMPTOMS WHICH CAN NOT BE MISTAKEN.

The countenance is pale and leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure semicircle runs along the lower eyelid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccup; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, etc.

Whenever the above symptoms are found to exist, DR. M'LANE'S VERMIFUGE

MAY BE DEPENDED UPON TO EFFECT A CURE.

The universal success which has attended the administration of this Preparation has been such as to warrant us in pledging ourselves to the public to RETURN THE MONEY in every instance where it should prove ineffectual: "Providing the symptoms attending the sickness of the child or adult should warrant the supposition of worms being the cause." In all cases the Medicine to be given IN STRICT ACCORDANCE WITH THE DIRECTIONS.

We pledge ourselves to the public, that Dr. M'Lane's Vermifuge DOES NOT CONTAIN MERCURY in any form; and that it is an innocent preparation, not capable of doing the slightest injury to the most tender infant.

Give a child from two to ten years old, a tea-spoonful in as much sweetened water every morning, fasting; if it purges through the day, well; but if not, repeat it again in the evening. Over ten, give a little more; under two, give less. To a full-grown person, give two tea-spoonfuls.

BEWARE OF COUNTERFEITS and Articles purporting to be Dr. M'Lane's. The great popularity of DR. M'LANE'S GENUINE PREPARATIONS, has induced unprincipled persons to attempt palming upon the public counterfeit and inferior articles. In consequence of which, the proprietors have been forced to adopt every possible guard against fraud. Purchasers will please pay attention to the following marks of genuineness.

1st. The external wrapper is a fine Steel Engraving, with the signatures of O. M'LANE and FLEMING BROS.

2d. The Directions are printed on fine paper, with a water-mark, as follows: "Dr. M'Lane's Celebrated Vermifuge and Liver Pills, Fleming Bros., Proprietors." This water-mark can be seen by holding up the paper to the light.

The Liver Pills have the name stamped on the lid of the box, in red wax.

PREPARED ONLY BY

FLEMING BROTHERS, PITTSBURGH, PENN.,

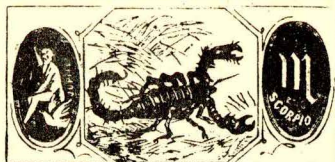

Sole Proprietors of DR. McLANE'S Liver Pills and Vermifuge.

SOLD BY DEALERS EVERY-WHERE.

The Proprietors will forward per mail, to any part of the United States, one box Liver Pills or one vial Vermifuge, on receipt of 40 cts. in Government Stamps.

The "Pain Killer" makes friends of all its acquaintances.

The "Pain Killer" has won for itself a reputation unsurpassed in the history of medical preparations. It is as well known in the trading ports of India and Australia as in New York and Boston; and its continually increasing demand, where it has been longest known, is one of its strongest recommendations and best advertisements.

Art may err, but Nature cannot miss.—Dryden.

A Sure Cure for Sting of Poisonous Reptiles—Pain Killer.

FEMALES AND CONSUMPTION: A REMEDY, A CURE. Do not delay the use of ALLEN'S LUNG BALSAM, When first Attacked by a Cough.

In no one instance has it come to our knowledge that Allen's Lung Balsam has not given permanent relief or a positive cure.

The following letters, or extracts from letters, which we have received, will show the gratitude expressed by those using the Balsam, after all other prescriptions and medicines had failed:

Mrs. ANNIE G. BIRLEY, Piqua, Ohio, had been a long time afflicted with all the symptoms of consumption. She writes us:—I was bedfast when I commenced taking Allen's Lung Balsam. My cough is better, and it has given me great relief. I think it is fast curing me, and I am most thankful for it."

Mrs. EMILY QUAINANCE, of Bucyrus, Ohio, had been three years sick, following the advice of different physicians, but got no relief. She says:—"My husband, finding one of your Almanacs, where the Balsam is so highly recommended, I was induced to give it a trial, although I had been given up to die, by four physicians. After using the first bottle, I was able to get up and go about the house, and after using two and a half bottles, I was entirely cured, and am now enjoying the best of health; and all this I owe to the merits of Allen's Lung Balsam, and I most cheerfully recommend and urge all who may be similarly afflicted to use it, without delay. Words can not express the gratitude I feel toward you for the benefit I have received from the use of your Balsam."

Miss C. L. KEYES, of Grand Rapids, Michigan, writes:—"One year ago I was taken with inflammation of the lungs, which ended in congestion. I was induced to try Allen's Lung Balsam. I am now enjoying comparative good health, for which I am indebted to the sterling merits of your Balsam. If others afflicted as I was, will use Allen's Lung Balsam, and receive the benefit I have, they will always bless you."

Miss AMANDA V. JONES, of Amboy, Hillsdale Co., Mich., writes:—"Allen's Lung Balsam is a great medicine; it has proved so to me. Words can not express my joy and thanks to you. I think if all who are troubled with cough and lung complaints would use Allen's Lung Balsam, there would not be so many deaths from consumption. I urge all suffering from pulmonary complaints to use it."

Mrs. MARIA B. HODGES, of Cincinnati, Ohio, writes:—"I have been afflicted with a violent cough for a long time, which troubled me night and day. My sleep was broken, and I found no relief until I used ALLEN'S LUNG BALSAM, which acted like a charm, by raising the matter and phlegm, and curing the cough at once. It has been the means of making me feel like a new being. I would recommend all to use it who are afflicted with diseased lungs, and they will not be disappointed in its use."

Mr. ISRAEL HALLSED, of Newton, Ohio, referring to the cure of his daughter, says:—"I feel it my duty to let you know the extraordinary healing properties of Allen's Lung Balsam, not only for your own sake, but for those who are suffering with consumption, that they may know that there is one remedy which will cure after the physicians have failed. My daughter was attacked with Bronchitis, which became so firmly settled upon her lungs, that after trying three different physicians for eighteen months, they all failed to cure her. At this crisis, we procured Allen's Lung Balsam, by which, after the use of three bottles, she was restored to health; and it has now been some six months since, and she has had no return of the disease. We feel grateful to the inventor of the remedy which has restored our daughter to health, and saved her life."

THIS BALSAM IS PLEASANT TO TAKE. TRY IT.

What is the best Expectorant? Answer, Allen's Lung Balsam.

Ministers' Throat Affections are cured by Allen's Lung Balsam.

"Health, like wealth, is not valued until it is lost. Wealth without health is splendid poverty."

Bowel complaints are quickly conquered with the "Pain Killer."

Although there have been many medical preparations brought before the public since the first introduction of the "Pain Killer," and large amounts expended in their introduction, the "Pain Killer" has continued to steadily advance in the estimation of the world, as the best family medicine ever introduced.

Genius finds its own road, and carries its own lamp.

When there is love in the heart, there are rainbows in the eyes which cover every black cloud with gorgeous hues.

Keep good principles, and they will keep you.

Baked Fish.—After washing, a shad is wiped dry, inside and outside, next buttered, salted, and peppered, with bread crumbs, a little chopped parsnip, and the juice of half a lemon squeezed on the outside; then place in a bakepan and put in the oven.

Halibut, haddock, cod, or other fish, do the same way. Eat with cream of flour, butter, &c.

All Fresh Fish should be dried thoroughly with a clean cloth before putting into the fat, and should be rolled well in sifted Indian meal. Perch and trout, however, are improved by being dipped in a mixture of beaten egg and bread-crumbs. The fat in which fish is fried should not be poured into the dish when the fish is served up.

We copy the following interesting letter from Dr. Harris to the Middlebury, Vt., Register, Nov. 20, 1866:

MR. EDITOR,—It is only to subserve the interests of humanity that I request a short space in your valuable paper to inform the public what Allen's Lung Balsam is sure to do. Two years ago I was attacked with a severe cold; it settled in my throat, and so affected the organs of speech that I could not speak aloud for six weeks. I got through the winter coughing nights almost incessantly, with cold night sweats, increased irritation which extended into the Bronchial tubes and kept me coughing all summer. I was at Shoreham on a professional visit the past October, when the "good Samaritan" came along introducing Allen's Lung Balsam. I procured a bottle and took it according to directions and found immediate relief. I have now taken two bottles which has entirely cured me. For the last two years or during the time of my affliction, I was in a state of constipation which the Balsam has most effectually regulated. No family should be without this valuable medicine. I see by the Western papers that the physicians of Cincinnati (where the medicine is manufactured), are introducing it into their practice, and I have no doubt it will soon become a classical remedial agent for the cure of all diseases of the throat, Bronchial tubes, and the lungs.

NATH'L HARRIS, M. D., Middlebury, Vt.

Jelly Cake.—To three well-beaten eggs, add one cup of powdered sugar, one of flour; stir well, and add one teaspoonful of cream of tartar, half a teaspoonful of saleratus dissolved in three teaspoonfuls of water. Bake in two piepans, spread as even as possible. Have ready a towel, and as soon as done, turn the cake on it, bottom side up, then spread evenly with jelly, roll up quickly, and wrap in a towel.

Letter from Dr. S. R. Borom, Druggist.

He has had great success in curing himself of BRONCHITIS, with Allen's Lung Balsam.

BELLVILLE, WASHINGTON CO., PENN., Feb. 22, 1867.

GENTLEMEN,—I here give you and the world my opinion as regards the wonderful virtues of Allen's Lung Balsam, in cases of Bronchitis, Coughs, &c. I have tested it to my entire satisfaction in bronchial affections, and pronounce it without a rival. It cured me when all other remedies failed. To all those desiring a good lung remedy, I can recommend it as being far superior to any of the many remedies offered for sale. A fair trial will convince any one of the truth of this statement. I remain, Yours truly, S. R. BOROM.

Pain Killer cures Liver Complaint.

"A failure in a good cause is better than a triumph in a bad one."—Doree.

If you are troubled with asthma, Allen's Lung Balsam will relieve you.

Pain Killer can be bought of your druggist or grocer.

The "Pain Killer" cures diphtheria.

Mrs. Elizabeth Wilson writes from Hamburg, Ill., Jan. 1, 1867, that her husband has had the lingering consumption for five years. Having heard of the merits of *Allen's Lung Balsam*, she procured one bottle, and it done him great good. She writes us for a few bottles, being confident that it will cure her husband. Such is the report from all sections.

A straight line is the shortest in morals as well as in geometry.

Nothing is profitable which is dishonest.

BRONCHITIS CURED.

Dr. Harris's Advice How to Use the Balsam.

Dr. N. Harris, of Middlebury, Vt., writes a second letter, Dec. 18, 1866, and says, "it cured me of my malady in such a thorough manner that I felt an irrepressible desire that others who were afflicted with any of the incipient stages of Consumption might avail themselves of its benefits. A friend at Louisville, Ky., was dangerously ill with Bronchitis, and I wrote him what the Balsam had done for me, and advised him to make a trial of it. If I do not tire your patience, I would suggest as to administering the Balsam. All those to whom it does not produce sickness at the stomach, may take the Balsam oftener and in much larger portions, it being perfectly harmless; large quantities taken into the stomach is sure to cure CONSTIPATION every time; it does not act as a cathartic, does not disturb the patient in his diet or business. All persons of a sedentary habit should never be without this Balsam. A large portion of the female population of our country are constantly suffering from constipation of the bowels, caused by their sedentary mode of living, all of which this Balsam will regulate.

I have the honor to be, very respectfully, your obedient servant,

NATHANIEL HARRIS, M. D.

Garden Walks. — As many persons have at this time large heaps of coal ashes, they can dispose of them in no way to better advantage than by hauling them into garden alleys. Remove from four to six inches of dirt; and having screened the ashes, or separated the cinders, first apply the coarse stuff, then oyster shells, if you have any on hand, small stones, glass, or pieces of bricks, and top-dress with the ashes. Roll it, and you will have one of the best walks ever seen in a garden. The ashes become very hard, and are never wet, winter or summer. If the weather gives the water the least chance to get away. In summer, in five minutes after a shower, there will be scarcely enough moisture to dampen the sole of your shoes. If there is not sufficient ashes for all the walks, commence with the principal ones, and in a couple of years the garden will be complete. Then, each spring after, give them a slight top-dressing of ashes, which will about consume your annual stock.

Further Evidence.

MILTON, JEFFERSON CO., WIS., Nov. 30, 1866.

Sirs: * * * I have tried Allen's Lung Balsam, and it has been a great help to me. The bronchial tubes of my throat were badly affected, causing a continual tickling sensation, which kept me coughing constantly. As soon as I could get it, I obtained some of Allen's Lung Balsam, and it has cured me entirely. I remain, with respect,

V. ROWE.

Molasses Candy. — One quart of West-India molasses, half a pound of brown sugar, the juice of one lemon. Put the molasses in a kettle with the sugar, boil it over a slow, steady fire till it is done, which you can easily tell by dropping a little in cold water: if done it will be crisp, if not, it will be stringy. A good way to judge if it is boiled enough is to let it boil till it stops bubbling. Stir it very frequently, and just before it is taken off the fire add the lemon-juice. Butter a shallow tin pan, and pour it in to get cold.

Pain Killer is the cure for all summer complaints.

IOWA STATE TRAVELING LIBRARY

Allen's Lung Balsam contains no Opium.

ALL PERSONS WHO ARE AFFLICTED WITH CONSUMPTION,

Or any of its Early Stages, such as a
COUGH, COLD, OR BRONCHITIS,

WE OFFER A SURE REMEDY, AND GIVE YOU EVIDENCE FOR
PROOF THAT CAN NOT BE DISPUTED.

WE WILL ALSO WARRANT THE REMEDY TO GIVE SATISFACTION,
Or the Money will be Refunded.

MR. SAMUEL LEWIS, an old and esteemed resident of Cincinnati for many years, writes us as follows:—"On the 22d of November last, I sent you a statement of the great benefit that I had received from Allen's Lung Balsam, at which time I was not altogether cured, but now I am happy to say I have recovered my health. Previous to using the Balsam, I was exceedingly low; my friends thought I could not possibly get well. I would cough for hours at a time, and would raise large quantities of phlegm, mixed with corrupted matter.

I would recommend all those afflicted with the last stages of consumption, to give this Balsam a trial. In truth, I may say it has saved my life."

JOHN F. BLAIR, writes us from Yellow Springs, Ohio:—"I am taking the Lung Balsam, and am receiving great benefit from it. My disease is very obstinate, and the weather has been very unfavorable; but still I think the medicine will cure me. My cough is now quite loose, and does not trouble me half as much as it did. What I raise is a thick yellow matter. I thank you a thousand times for the medicine. May God's blessings rest with you, is my prayer and the prayer of my family."

The cure of JAMES CALDWELL, of Delhi, Ohio, was marvelous; an extract from his letter reads as follows:—"My physicians and friends considered my case as entirely hopeless; that I could not live. At this crisis I commenced to use ALLEN'S LUNG BALSAM, which was strongly recommended to me for the cure of Consumption. To the astonishment of all, I began to recover almost immediately, and in less than three months' time I gained sixty pounds. I owe all to the use of ALLEN'S LUNG BALSAM. I now enjoy good health."

GODFREY H. PETERS, of Newport, Ky., for many years a resident of Cincinnati, writes. We give only an extract of his letter:—"For thirteen years I have been afflicted with a severe and racking Cough, attended with much pain in my breast and lungs. I commenced the use of ALLEN'S LUNG BALSAM about the first of February, and it gave me immediate relief, causing easy expectoration, and entirely curing the pain in my breast and lungs. I am now sixty-three years old, and have suffered much and have used many remedies. Not only my cough but my general health is better than it has been for years, and there is no remedy that I could recommend to my friends for the relief and cure of all Lung diseases in preference to ALLEN'S LUNG BALSAM."

Allen's Lung Balsam is Good. Try it.

Keep the Pain Killer always on hand.

For pains in the chest, side, or back, apply the Pain Killer.

Light Tea Buns.—Take half a teaspoonful of tartaric acid, and the same quantity of bicarbonate of soda, and rub them well into a pound of flour, through a hair sieve, if leisure permit. Then work into the flour two ounces of butter, and add two ounces of crushed and sifted lump-sugar, also a quarter of a pound of currants or raisins, and (if liked) a few caraway-seeds. Having mixed all these ingredients well together, make a hole in the middle, and pour in half a pint of cold new milk. One egg, well beaten, mixed with the milk, is a great improvement, though your buns will do without any. Mix quickly, and set your dough with a fork on baking tins. The buns will take about twenty minutes to bake. From these ingredients, you ought to produce a dozen.

Cure of a Bad Case of Asthma.

PLEASANT HILL, MIAMI CO., OHIO, March 27, 1867.

SIRS,—I feel thankful to you for Allen's Lung Balsam, from which, through the blessing of God, I feel that I have received great benefit. I have taken dozens of bottles of, first, "Ayer's Pectoral," then of Jayne's Expectorant, and of Hall's Balsam, and never before did I receive such prompt and immediate relief as I have from Allen's Lung Balsam. When I took cold, I would have such difficult breathing I could not lie down for six weeks at a time. I had to sit in a chair day and night, getting rest only by leaning forward, resting my elbows on my knees. I have taken cold twice since I received the Balsam, and had difficult breathing, but the Balsam relieved me in twenty-four to thirty-six hours, so that I breathe as easily as ever. I have used about half the bottle sent me, and I believe that, if it is God's will that I should be cured, your Balsam will cure me, and that I will once more be blessed with health and strength. With a thankful heart for the Balsam, and for God's blessings, I remain Yours, with much respect,

JESS. M. COATS.

MR. JOHN M. BURKHOLDER, a neighbor of Mr. Coats, and a man of responsible position, certifies to the truth of Mr. Coats's statement; says he lives a near neighbor, and visited him almost every day for five months, and that there is a great change in his disease since he has been taking Allen's Lung Balsam.

What can be stronger proof of the merits of Allen's Lung Balsam than the foregoing evidence?

HOW SHALL THE BED BE PLACED.—The late Dr. Julius Von dem Fischweiler, of Magdeburg, asserts in his will that his age, 109, is entirely to be ascribed to the constant habit of sleeping with his head towards the north. Persons who find themselves restless and unable to sleep at night would do well to adopt this plan, as it is undoubtedly a great conducive to health.

The Daily Star, published at New London, Connecticut, under date of Nov. 22, 1866, says:

"We have the best reason to believe that Allen's Lung Balsam is the best preparation for the lungs before the public. Many of its cures are indeed wonderful. It has saved many from an early grave. It is a pure article, and is prepared by the highest medical authority. In Cincinnati, where it originated, the physicians depend almost entirely upon it in their practice. No one who has trouble with the lungs or throat can afford to refuse it a fair trial. There is not a case that it will not do good, and in many effect a complete cure."

The creation of beauty is art. — Emerson.

Whooping-cough cured speedily by Allen's Lung Balsam.

Every Sufferer should carry a bottle of Pain Killer with him.

If you would know the value of Pain Killer for Cholera, ask the missionary.

Any feeling that takes a man away from his home, is a traitor to the household.

What should people behind the times be fed on? Ans. — Ketchup.

ALLEN'S LUNG BALSAM

Is the Remedy to Cure all Lung Difficulties. It should be thoroughly tested before using any other Balsam.

IT WILL CURE WHEN ALL OTHERS FAIL.

Directions Accompany each Bottle.

EXTRACTS FROM DRUGGISTS' LETTERS.

LEXINGTON, MO., May 23, 1866.

DEAR SIR, — I have made ALLEN'S LUNG BALSAM pretty well known in our city and county, and have sold about all the four dozen bottles sent me in March last; and I find that persons who try the Balsam once, come back again for more, as it gives them satisfaction; and I recommend it in preference to any other medicine for COUGHS or COLDS. Please send me six dozen bottles as soon as possible.

I am yours, &c.,

THOMAS J. FLETCHER, Druggist.

L. B. BOWIE, Druggist, Uniontown, Fayette Co., Penn., writes, April 4, 1866: "Allen's Lung Balsam has performed some remarkable cures about here. I recommend it with confidence in all diseases of the Throat and Lungs."

STERLING BROS., Druggists, write from Carrollton, O., Jan. 27, 1866: "Send us six doz. Allen's Lung Balsam. It gives better satisfaction than any other medicine we sell."

DANIEL ZIMMERMAN, Druggist, of Lynneville, Ind., has the past year sold many dozens of Allen's Lung Balsam. He says he has "many remedies good for an ordinary cold, but for all obstinate cases of cough or lung fever Allen's Lung Balsam is the remedy, and the sure one."

JOSEPH BROTHERRSON, Druggist, writes from Sharon, Ill., and says, "Allen's Lung Balsam takes well, and in no case have I known it to fail."

MR. W. A. PETERSON, Ovid, Mich., informs us that he had been attended by physicians without much relief. They pronounced his case consumption. Getting no permanent relief, he commenced using Allen's Lung Balsam, and in two weeks was entirely relieved. This is only one of the many cases of consumption which baffled the skill of the doctors, but yielded by the intrinsic merits of Allen's Lung Balsam.

C. W. N. STEPHENS, Druggist, writes from Walkerton, Mich., March 4, 1867, ordering Balsam, and says, "It sells well, and gives good satisfaction to all."

J. S. MCKENNY & Co. write from Chatfield, Minn., Nov. 20, 1866, saying, "Allen's Lung Balsam is having an unprecedented sale in this locality, and has taken the place of every other Cough or Lung remedy; and is pronounced good by all."

R. L. TANNER, Druggist, at Springfield, Tenn., writes us, Feb. 10, 1867, that Mr. Richard Jones, of that place, has used six bottles of Allen's Lung Balsam, which cured him of a disease that five doctors had pronounced Consumption, and incurable. He had been afflicted for several years. He further writes that the Balsam is selling with good success.

WM. T. SNOW, Druggist, Worthington, Ohio, writes his willing testimony to the great merits of Allen's Lung Balsam. It has proved beneficial in every case where I have sold it. It has a reputation in this vicinity beyond all other cough medicines, and large increasing demand for it.

POTTEE & GAULT, Druggists, write from Fredericktown, Ohio, July 19, 1867, "I believe Allen's Lung Balsam to be the best cough medicine made."

Never despair: try Allen's Lung Balsam, and try again.

It is not easy to strengthen in the oak the crook that grew in the sapling.

Allen's Lung Balsam is the favored Cough Remedy.

ALLEN'S LUNG BALSAM

IS THE REMEDY THAT CAN SHOW

More Genuine Evidence of Merits than any other Balsam or Cough or Lung Remedy offered to the Public.

Mrs. AMY KENNEDY, writes from Painsville, Ohio, that she was twenty-four years afflicted with Asthma and Bronchitis; Doctors fail to cure:

"In taking up one of your Almanacs, I read of the wonderful cures by the use of Allen's Lung Balsam. I was suffering much at the time with Asthma and Bronchitis. I thought I would try a bottle of it. I did so, and was relieved in a few days, so that I could sit up. I am sixty-five years of age. It is now twenty-four years since I have been so afflicted, and I have been doctored by many different physicians; have also taken a number of bottles of Jayne's Expecto-rant; and I have never taken any thing that has done me so much good as your Lung Balsam. I can not express the gratitude I feel. I have not felt as well for many years. I am so much better that I wanted you to know it; and I thank you many times for the benefit your medicine has been to me."

DAVID KLINGENSMITH, of Ellsworth, Pierce Co., Wis., writes us March 24, 1864. He says that he was sick for three years with a hard, dry cough, and, at times, a pain in his side and breast, until last November. "I was taken with severe pains in my breast. I called a doctor, who told me it was Consumption, and there was no relief for me, and I must die—that my right lung was entirely gone. I laid for a month in despair, thinking that I must leave my little family in this wicked world without care and support. I used five bottles of Jayne's Expecto-rant and got no relief, until in February I happened to get one of your Almanacs, and read of the merits of ALLEN'S LUNG BALSAM. I sent to Red Wing, Minn., and got two bottles of it, and through its happy effect I was brought to my feet again."

WM. N. ANGEL, Druggist, at Grand Haven, Mich., writes: "The subscriber was taken last October with a violent Asthma, induced, as my physician avers, by compounding drugs, particularly Ipecac. My coughing was violent, and seemed to increase despite the remedies advised and taken. I saw by your Almanac that ALLEN'S LUNG BALSAM had been used with success in this disease, and on receipt of the BALSAM, about four weeks since, commenced taking it. Three days' use brought me very sensible relief. I have nearly finished one bottle, and consider myself almost cured. I have no hesitation in recommending it to our customers for any difficulty of the Lungs."

MR. ROBERT LAWRENCE, of Newport, Kentucky, whose daughter was far gone with consumption writes, after referring to her sickness, as follows:—"Her physician having failed to give any permanent relief, said that he could not do any thing more for her, that she must soon die. At this time I procured ALLEN'S LUNG BALSAM, which caused her to raise large quantities of matter and phlegm. When this was expectorated, her appetite and strength gained rapidly, and her cough in a short time ceased; and now she is a most extraordinary trophy of the medical properties of ALLEN'S LUNG BALSAM."

MR. S. R. TAYLOR, of Worthington, Ohio, writes:—"I bear willing testimony to the sterling merits of Allen's Lung Balsam for all Pulmonary troubles. I have had a very distressing cough, and it gave me immediate relief and permanent benefit. I have had a severe attack of Pleurisy, and by its aid was relieved and cured. I am satisfied that all that is necessary to convince any one of its merits, would only be to make a trial of it; and I cheerfully recommend it to all whose condition demands any thing of this nature, asking for it an impartial trial."

ALLEN'S LUNG BALSAM

SOLD BY ALL MEDICINE DEALERS.

It is better to do well than to say well.

It is well to have a Good Medicine always at hand.

If other Cough Remedies fail to cure, try Allen's Lung Balsam.

Remember the Pain Killer is for both internal and external use.

Pain Killer will cure Chilblains.

Testimonials from Foreign Countries.

The following letter was written to Mr. Ranney, our Agent at Rangoon, Burmah, by Capt. Lewis, of the English Army.

MY DEAR MR. RANNEY — I have but a very small quantity of Perry Davis' "Pain Killer;" and I regret to say that I have been obliged to refuse aid to my people, who are continually applying to me for it.

When writing to your friends, you may make use of my name, if it will be of any avail. In my circuit this year, through my division, I believe I saved hundreds of the lives of my people, when the cholera was raging, by following the advice of Mrs. Ingalls. I happened to meet this good lady at Khattish, and I never shall forget her words, "One teaspoonful of the Pain Killer, and one teaspoonful of Castor Oil will act like a charm." From Kattiah I passed on to Yandoon, and met Lieutenants — and —, on the topographical survey. When speaking of this medicine, they laughed at me. This was on a Saturday night. They were dining with me in my tent. On the following morning, the latter (Lieut. Pearson) wrote to me that one of his Lascars had been taken during the night with cholera, and asked for some "Pain Killer." I sent him a bottle, and directed him to administer it as prescribed by Mrs. Ingalls. I went to dine with them in the evening, and on inquiring after the patient I found he was quite well.

Truly yours,

W. H. LEWIS,
TWANTAI, Burmah.

GENTS, — Let me assure you that we prize your Pain Killer very highly. For the first two or three years of our residence in India, we were ignorant of its valuable properties and did not use it, but now would hardly feel safe to be without it for a single day. Only a few nights since, Mrs. Van Meter was stung by a scorpion, and intense pain was instantaneous throughout the arm, and soon a numbness of the fingers followed. By the continuous application of the "Pain Killer" for an hour or more, and at intervals during the night, the alarming symptoms were subdued, and in the morning only a slight soreness was felt in the finger.

I gave it in a severe case of fever and ague, according to directions, and it acted like a charm, breaking it up at once. The Karens have great confidence in it.

Truly yours, REV. H. L. VAN METER, Missionary,
BASSEIN, Burmah.

GENTS, — Your valuable Pain Killer has gained a high reputation among all classes in this province, and there is a great demand for it here. Some who praise it highly have requested me to write to you for a supply. * * * If, therefore, you will send me 600 bottles, you will confer a great favor on me, and especially upon the Karens. I will pay you through the Treasurer of our Society.

Sincerely yours,

REV. J. S. BEECHER, Missionary, BASSEIN, Burmah.

Tomato Catsup. — Pour boiling water on the tomatoes, let them stand till you can rub off the skin, then cover them with salt, and let them stand twenty-four hours. Then strain them, and to two quarts put three ounces of cloves, two ounces of pepper, two nutmegs. Boil half an hour, then add a pint of wine.

Order and method render all things easy.

Beauty — a flower without fragrance when no quality of the heart accompanies it.

Want of punctuality is a species of falsehood.

Rev. Mr. Hibbard, writing from Burmah to his father, says, "I have used Perry Davis' Pain Killer, for Cough, Colds, Summer Complaints, Burns, and for the sting of scorpions, with uniform success. We always keep it where we can put hand on it in the dark, if need be."

Rev. A. W. Curtis says: "By its use, I entirely cured a felon in a few days."

INTEREST. — The following are believed to be the most practical, and the most easily remembered methods of computing Interest.

To find the interest on any amount for a given number of days, at six per cent., multiply the amount by the number of days, and divide the product by 60; the quotient will show the interest in cents.

Example. — What is the interest on \$1,780.79 for twenty-three days?

1780.79	Subtract one-third for 4 per cent.
23	" one-sixth " 5 "
60)40958.17	Add one-sixth " 7 "
	" one-third " 8 "
\$6.82	" one-half " 9 "
	" two-thirds " 10 "

The interest on \$100 at 7 3-10 per cent. is 2 cents a day.

To find the interest on any amount for a given number of days, at 7 3-10 per cent., multiply the amount by 2, and that product by the number of days. The result will give the amount of interest in cents.

Example. — To find the interest on \$3,220 for seventy-five days:

3220
2
6440
75
\$48.30

PAIN KILLER. — The testimonials borne to the efficacy of this valuable medicine are sufficient to warrant its introduction into every house. Our own opinion is that no family should be without a bottle of it for a single hour. In flesh wounds, aches, pains, sores, &c., it is the most effectual remedy we know of. A bottle will last for a very long time, and its low price places it within the reach of all. Our readers will remember that the Messrs. Davis have opened a house in Montreal, whence Canadian orders are supplied. — *News, St. Johns, C.E.*

REV. J. E. CLOUGH, Missionary at Ongole, Southern India, writes: "We esteem your Pain Killer very highly for scorpion stings, cholera, &c., and cannot very well get along without it."

REV. I. D. COLBURN, Missionary at Tavoy, Burmah, writes: "I shall be happy to assist in extending a knowledge of a remedy so speedy and effectual."

REV. M. H. BIXBY, Missionary to the Shans, writes: — "Your Pain Killer cures more of the ailments of the natives here than any other medicine. — There is a great call for it," &c.

A Nice and cheap Fruit Cake. — Six cupfuls of good dried apples soaked over night; in the morning, chop them; slightly simmer two hours in two cupfuls of molasses. When cold, add half a pound of raisins chopped, two eggs, one cupful of sugar, one cupful of butter, one and a half spoonfuls of soda, one cupful of sweet milk, flour to make a thick batter; add nutmeg, cloves, cinnamon, allspice.

Pain Killer. Dr. Hall recommends it as excellent for Rheumatism.

Good company and good conversation are the very shew of virtue.

VALUABLE MEDICINE.—The sale of that remarkable and truly valuable preparation, *Perry Davis' Pain Killer*, is constantly and rapidly increasing. During the past year, the demand for this great remedy has been altogether unprecedented. Scarcely a week passes by during which we do not hear of some remarkable cure having been performed within the circle of our acquaintance, by the use of *Perry Davis' Pain Killer*. — *Providence General Advertiser*.

French Rolls.—Rub an ounce of butter into a pound of flour; mix one egg beaten, a little yeast that is not bitter, and as much milk as will make a dough of a middling stiffness. Beat it well, but do not knead; let it rise, and bake on tins.

Potatoes for Breakfast.—Take the mashed potatoes left from dinner the day before, mix them smooth with a little hot milk and butter, put them by spoonfuls into an iron biscuit-pan, previously heated, and brown them in a hot oven. They are very light and nice.

NORTHAMPTON, March 11, 1867.

Dear Sirs,—I wish to add to your numerous testimonials. Last September, while at work cutting sole-leather with a die and a heavy iron mallet, I made a mis-strike, and the mallet came down with its whole force on my thumb, splitting it from the first joint entirely open, and laying the bone bare. I supposed I had ruined my thumb forever; but I thought of your *Pain Killer*, as I had often heard of its healing qualities. I went about a half a mile, and obtained a small bottle. I saturated a little cotton batting, first winding a waxed thread around the wound, and applied the *Pain Killer*, saturating the bandage two or three times a day. In five minutes the pain ceased, and in a week it entirely healed up; and I will say that I have never seen any thing for healing qualities that equalled it; and I would earnestly recommend it to the public as a pain killer and a healer.

Yours truly, R. T. CLAFLIN.

To Preserve Pineapples.—Peel a pineapple rather thickly, so that no black spots may be left, and cut it into slices of a quarter of an inch in thickness. Make a syrup with half a pound of the best lump-sugar to half a pint of water. When this is made, put the slices of fruit into it, and let them boil together for ten minutes; then carefully remove the slices with a spoon, put them into a jar, pour the sirup over them, and let them stand for two days. At the end of this time, drain the sirup off, add to it another quarter of a pound of sugar, and boil it up again, without the fruit, pouring it over it, when done, as before. Repeat this operation once again at the end of two more days, again adding a quarter of a pound of sugar to the sirup; and when cold the preserve will be ready for use. It will keep for a long time, if the air be carefully excluded, by laying a bladder over the top of the jar.

At this season, when coughs and colds are so prevalent, an effectual remedy, and one easily obtained, is *Perry Davis' Vegetable "Pain Killer."* It is no new nostrum, vended by unknown agents, but has stood the test of more than twenty years; and those who use the article, internally or externally, will connect with it grateful recollections of its worthy inventor. — *Hastings Chronicle, C. W.*

PAIN KILLER.—We have tested this medicine, and assure our readers that it not only possesses all the virtues claimed for it, but in many instances surpasses any other remedy we have ever known — *Herald of Gospel Liberty*.

See that your supply of *Pain Killer* is not out.

Pain Killer is equally applicable and efficacious to young as old.

The *Pain Killer*, as an internal remedy, has no equal. In cases of Cholera, Summer Complaints, Dyspepsia, Dysentery, Asthma, it cures in one night, by taking it internally, and bathing with it freely. Its action is like magic, when externally applied to bad Sores, Burns, Scalds, and Sprains. For the Sick Headache and Toothache, don't fail to try it. In short, it is a *Pain Killer*.

Boiled Leg of Lamb.—Trim off all the loose fat, cut off the shank, wash and wipe it dry; dredge it with flour, and tie it in a clean cloth; put it in boiling water enough to cover it. The water should be salted in the proportion of two teaspoonfuls of salt to a quart of water. Let it boil from two to three hours according to its size. Serve it with drawn butter or rich parsley sauce, whichever may be preferred, and vegetables of any kind which may be in season.

Dear Sirs,—I have had occasion to use the *Pain Killer* very frequently during my residence in *Burmah*, and have found it a very useful medicine. I did not think I could visit the jungles without it. In case of Colic, Diarrhoea, and Cholera, the *Pain Killer* gives speedy relief, and for many other ailments I have found it beneficial. It is popular in *Burmah*, among the natives as well as Europeans. I always carry it with me for my own benefit, and the good of the people where I go. Sincerely yours, REV. M. H. BIXBY.

Sponge Cake.—Take sixteen eggs; separate the whites from the yolks; beat them very lightly; sift into the yolks one pound of flour, adding a few drops of essence of almond or lemon to flavor with; then add one pound and a quarter of pulverized loaf sugar; beat this well with a knife; then add the whites whipped to a stiff froth. Have ready the pans, and bake.

Dr. Scott, editor of "The Lebanon Star," a prominent physician, says, "The well-known remedy, *Pain Killer*, which has acquired a world-wide reputation, for the cure of sudden Colds, Coughs, Weak Stomach, General Debility, Nursing Sore Mouth, Cankered Mouth or Throat, Liver-complaint, Dyspepsia, Cramp and Pain in the Stomach, Bowel-complaint, Painters' Colic, Asiatic Cholera, Diarrhoea, and Dysentery, has lost none of its good name by repeated trial, but continues to occupy a prominent position in every family."

Apple Pudding.—Pare and stew three pints of apples; mash them, and add four eggs, a quarter of a pound of butter, sugar and nutmeg, a grated lemon. Bake it on short crust.

Orange Jelly.—Boil two ounces of isinglass in a pint and a half of water; add half a pound of fine loaf-sugar, the juice of three sweet, three bitter oranges, and three lemons; strain through a jelly bag, and mould it. Some people prefer a wineglassful of rum added, but that may be omitted.

(From the Portland Monthly.)

SUMMER COMPLAINT AND DYSENTERY.

Bowel-complaints seem just now to be the prevailing element; and any medicine that is everywhere acceptable, and that is reliable, is a very desirable acquisition. From what we have seen, heard, and experienced, we believe *Davis' Pain Killer* is this desideratum.

The quickest way I ever saw a dysentery cured was by taking one spoonful of the *Pain Killer* in one gill of milk and molasses, stirred well together, and drank hot, at the same time bathing the bowels freely with the medicine. Let the dose be repeated every hour, until the patient is relieved.

Pain Killer will cure Diphtheria.

Life is a great poem, and religion, love, and music, are the sweetest of its strains.

Every man is a volume, if you know how to read him.

Sloth makes all things difficult, but industry all things easy.

READ NOW SOME ENGLISH TESTIMONIALS.

GREEN'S SAILORS' HOME, POPLAR ST., LONDON, ENG.

I take this method of making known the perfect cure I have obtained from the use of your valuable medicine, the Pain Killer. I was urged by a friend to try it, and procured a bottle of Dr. Kernot, apothecary.

I had been afflicted three years with Neuralgia and violent spasms of the stomach, which caused a constant rejection of food. The doctors at Westminster Hospital gave up my case in despair. Then I tried your Pain Killer, which gave me immediate relief from pain and sickness; and I regained my strength, and am now able to follow my usual occupation of sailor. One bottle cured me.

Yours respectfully,

CHARLES POWELL.

Sir,—I desire to bear willing testimony to the wonderful efficacy of that American remedy called "Pain Killer," which I believe has no equal in this country. I have been afflicted with heart disease, and could find no relief till I got the *Pain Killer*, which soon made a cure. I am quite willing to answer any inquiries about my case.

Yours, etc.,

FANNY SILVERS.

DUDLEY (WORCESTERSHIRE), ENGLAND.

Plum Pudding.—One cup of bread crumbs, one of butter (small), one of sugar, one of milk, one of raisins, half a cup of wine, four eggs, salt, nutmeg, cinnamon, clove, allspice, mace. Bake one hour and a half.

Tapioca Cream.—Three tablespoons tapioca, cover with water, and soak four hours; pour off the water, put in one quart of milk; over the fire, when it boils, in the yolks of three eggs and a little salt; stir till it begins to thicken. Add a frosting of the three eggs, and spread over the top. Flavor with vanilla.

Sandy Lind Cake.—One cup of sweet milk, two cups of sugar, four of flour, two tablespoons of butter, four eggs, two teaspoons cream of tartar, one of soda, or three teaspoons powdered yeast; extract of lemon, or a little nutmeg; lemon is to be preferred.

Gentlemen,—I can with confidence recommend your excellent medicine, the Pain Killer, for Rheumatism, Indigestion, and also Toothache, having proved its efficacy in the above complaints. Yours, &c.,

REUBEN MITCHELL.

BRIDGEMAN'S PLACE, BOLTON.

Gentlemen,—I have very great pleasure in recommending your medicine the Pain Killer. I was suffering severely a few weeks since with Bronchitis, and could scarcely swallow any food, so inflamed was my throat. I was advised by a friend to try your Pain Killer, and, after taking a few doses of it, was completely cured.

Yours respectfully,

T. WILKINSON.

BOLTON, ENG.

P. S.—I have recommended the medicine to several of my friends; and, in every instance, it has had the desired effect.

Apple Charlotte.—Put one quart pared and cored apples, half tablespoonful of sugar, half gill of water, a small piece of cinnamon, in a small porcelain-lined kettle; cook, and then strain through a colander; line a tin mould with bread crumbs, using melted butter to stick them on; put bread crumbs on top, after putting in the apple; bake it, and it will turn out of the mould; sauce of sugar, butter, nutmeg, mixed.

Pain Killer cures Diarrhoea and all Bowel Affections.

Make no haste to be rich, if you would prosper.

THE EYE OF THE NEEDLE.—The Scriptural simile, that it is harder for a rich man to enter the kingdom of heaven than for a camel to go through the eye of a needle, which has puzzled many a learned and unlearned head, is clearly explained by a modern traveller.

In the East, all walled cities have a small gate along side of the great gate, which is called, in the figurative language of that region, "the eye of the needle." When it is understood that the large gates are closed at night, and that a traveller arrived afterwards must enter through the "eye of the needle," through which he can take his camel, if he desires to do so, only by divesting him of his burden, and causing him to kneel down, the metaphor is clear, simple, and beautiful.

WE ASK PUBLIC ATTENTION TO THIS LONG-TESTED AND UNRIVALLED FAMILY MEDICINE.

The *Pain Killer* is, by universal consent, allowed to have won for itself a reputation unsurpassed in the history of medicinal preparations. Its instantaneous effect in the entire eradication and extinction of Pain, in all its various forms incidental to the human family, and the unsolicited written and verbal testimony of the masses in its favor, have been, and are, its own best advertisement.

For evidence in favor of the *Pain Killer* for Ministers' Sore Throat or Bronchitis, read the following:

Gents,—The *Pain Killer* has been a constant occupant of our house for over two years, and a portion of the time it has been the only medicine under our roof. Hardly ever do I have my children complain of being sick, without having them ask in the same sentence for *Pain Killer*.

For several years before I became acquainted with the *Pain Killer*, I had suffered a great deal from an affection in my throat, thought by some physicians to be Bronchitis, by others to be what is called Ministers' Sore Throat. At one time it was so severe that I was obliged to give up preaching. Within a few months after I had become acquainted with the *Pain Killer*, I had another attack from that distressing complaint. I tried my new-found medicine; and, to my astonishment and delight, I found it produced a wonderfully soothing effect. In a short time I was wholly relieved. Since that time, I have had a number of attacks of the same nature, and the *Pain Killer* has always afforded me relief. About one year since, my wife became subject to severe suffering from Rheumatism: our resort, as usual, was to the *Pain Killer*, which would always relieve her.

I have not time now to say more, as I could with a hearty good-will, and always have done in praise of the *Pain Killer*. If this hastily-written letter in commendation of Perry Davis' valuable medicine will be of any service you are at liberty to do with it as you please.

Very truly yours,

EDGAR CADY, OWATONNA, Minn.,
Missionary of the A. B. Home Mission Society.

Rumbled Eggs.—Beat up three eggs with two ounces of fresh butter, or well-washed salt-butter; add a teaspoonful of cream or new milk. Put all in a saucepan, and keep stirring it over the fire for nearly five minutes, until it rises up like soufflé, when it should be immediately dished on buttered toast.

Chicken Soup.—Cut up the fowl; cut each joint, and let it boil one hour; then stir in thickening, pepper, salt, and parsley enough to season; put in a few dumplings; let it boil up fifteen minutes, and serve.

Pain Killer cures Rheumatic Pains in the Joints and Limbs.

Pain Killer is spoken of in terms of high commendation by both druggist and physician. — *Phila. Eagle.*

Pain Killer is sold wherever the English language is spoken.

Virtue is real honor, whereas all other distinctions are merely titular.

Good nature is a glow-worm that sheds light even in the darkest place.

Pain Killer is our trade-mark.

PERRY DAVIS' PAIN KILLER. — This medicine has become an article of commerce, — which no medicine ever became before. *Pain Killer* is as much an item in every bill of goods sent to country merchants as tea, coffee, or sugar. This speaks volumes in its favor. — *Glens' Falls Messenger*.

Rev. H. L. Van Meter, writing from Burmah, says, "The *Pain Killer* has become an almost indispensable article in my family."

Hundreds of missionaries give similar testimony to its virtues.

Rev. J. G. Stearns writes, "I consider it the best remedy for Dyspepsia I ever knew."

Rev. Jabez Swan says, "I have used it for years in my family, and consider it an invaluable remedy."

Grammar in Rhyme. — We advise every little grammarian, just entering on the study, to commit to memory the following lines, and then they never need mistake a part of speech. The author, whoever he is, deserves immortality. With but one exception, — "Thirty days hath September," — it is the most poetical effusion we ever met with: —

1. Three little words you often see,
Are articles, *a, an* and *the*.
2. A Noun's the name of any thing,
As *school* or *garden*, *hoop* or *swing*.
3. Adjectives tell the kind of Noun,
As *great*, *small*, *pretty*, *white*, or *brown*.
4. Instead of Nouns the Pronouns stand —
Her head, *his* face, *your* arm, *my* hand.
5. Verbs tell of something to be done —
To *read*, *count*, *sing*, *laugh*, *jump*, or *run*.
6. How things are done the Adverbs tell,
As *slowly*, *quickly*, *ill*, or *well*.
7. Conjunctions join the words together,
As *men* and *women*, *wind* or *weather*.
8. The Preposition stands before
A Noun, as *of* or *through* a door.
9. The Interjection shows surprise,
As, *Ah!* how pretty, — *Oh!* how wise.
The whole are called Nine Parts of Speech,
Which reading, writing, speaking, teach.

THE PAIN KILLER, so justly celebrated, was introduced to the public several years ago, and now enjoys a popularity unequalled by any other medicine. For the cure of Diphtheria, Dysentery, Cholera-morbus, Rheumatism, Coughs and Colds, Scalds, Burns, &c., it is without an equal. — *Daily Plain-dealer* (Cleveland, Ohio).

"The Salem Observer" says, "It is a medicine every household should have at hand in case of accident or sudden attack of disease."

"The New-York Independent" says, "We have used it, and it proves to be all it professes."

Perry Davis' Pain Killer needs no recommendation. It is widely and favorably known throughout the land. — *Commercial* (Newbern, N.C.).

Deep rivers move in silence; shallow brooks are noisy.

Allen's Lung Balsam is confidently recommended as a cure for consumption.

He who labors for mankind, without a care for himself, has already begun his immortality.

Always treat Horses with kindness.

GOOD FOR MAN OR BEAST!

COLIC IN HORSES CURED.

The virtues of the Pain Killer are not alone confined to the use of the human race. It is used with equal success for Horses, either internally or externally; for Galls, Sores, or Sprains, nothing is better; and for Colic, it is considered by those who have had much experience, the only sure remedy.

We have many letters of recommendation on this subject, but have only space here for the following:

Messrs. J. N. HARRIS & CO.: *Gent.* — This is to certify that I have given the Pain Killer to horses for Colic, and found it the best remedy I ever tried. It gives them ease quicker than any other remedy I ever used. I give for a dose half of a 25-cent bottle, put in a pint bottle of warm water, and drench them with it. I have always cured the worst cases without delay. Yours, truly, JOHN PORTER, Proprietor of Ripley Hotel.

And again the Pain Killer proves its capacity.

Stockdale Jackman writes: I feel it a duty that I owe the public to inform them of a successful experiment that I lately made with your Pain Killer. I had a very valuable horse, which was violently attacked with Colic, and appeared to be in great agony. I made use of every remedy I had ever heard of, but all to no purpose. I gave him up to die, and, in fact, he was so far gone that he lay and could not raise up his head, or hold it up when lifted. A thought struck me that I would give him a dose of Pain Killer. I poured four or five spoonfuls in a pint of milk, and gave it to him, and in twenty minutes as much more, and in half an hour he was on his feet, and, about as much longer, was perfectly restored and put in harness.

Messrs. J. N. HARRIS & CO., Cincinnati, O.: *Gentlemen* — Having had frequent occasion to use Perry Davis' Pain Killer for Colic in horses, and seeing it used by others, I can say that I regard it as the best preparation extant, when tried in time, or in the first stages of that very prevalent complaint. I recommend all persons who have, or use horses, to have it constantly on hand for cases of emergency.

For the human family, both as an internal and external remedy, the Pain Killer is so favorably known that it is almost useless to call attention to it.

Very truly yours, S. STEWART, Druggist.

The following letter received from Dr. Deal, who is a Veterinary Surgeon of great skill: BOWERSVILLE, HARRISON Co., O., May, 1860.

Messrs. J. N. HARRIS & CO., Cincinnati: I have given Perry Davis' Pain Killer in many cases of colic, cramp and dysentery in horses, and never knew it to fail to cure in a single instance. I look upon it as a certain remedy.

For Colds, Sprains, Scratches, etc., there is no better Liniment---Try it.

GOOD FOR MAN OR BEAST.

WALTER CURTIS, Esq., an old and very reliable farmer, residing on his farm near Chester, Meigs Co., Ohio writes, July 20, 1859:

"Your Pain Killer, for Colic or Bots in Horses, is an infallible cure. And for all Oramps, Pain, Colic, Burns, etc., we find it, in our house, a never-failing Balm."

DIRECTIONS.

We would advise the Pain Killer, for horses with colic, to be given mixed with milk, or warm water and molasses, say a pint of either to about a small 25-cent bottle of the Pain Killer. If the horse has bots, it is best to give the molasses. One, two, and sometimes three doses may be required, but not often more than one, to cure. It is sold by all dealers in medicine throughout the United States.

IT SHOULD BE KEPT AT HAND IN ALL LIVERY STABLES.

IT WILL CURE COLIC IN HORSES.

If you have Painters' Colic, try the Pain Killer.

For BOTS—Drench with Pain Killer and Molasses and Warm Water.

Every Farmer and Livery Stable should keep Pain Killer by them.

Dr. Richardson's Sherry Wine Bitters cures Dyspepsia.

SOME OTHER BITTERS ARE GOOD.
BUT
DR. S. Q. RICHARDSON'S
SHERRY WINE BITTERS
ARE THE BEST.

No medicine—not even Perry Davis' Pain Killer—was ever received with more praise from the afflicted, than Dr. Richardson's Sherry Wine Bitters. The proprietor, being a regularly educated physician, gives the doctors faith in his Bitters, causing them to test their merits. They find in them just what they want in their practice, and the consequence is, they recommend them in cases of General Debility, Dyspepsia, Fever and Ague, etc. We might name, as reference, many among our most prominent citizens who use it, and recommend it to their friends. We say to all those afflicted, lose no time in obtaining a bottle; it is pleasant to take, reduced about two-thirds with water; and by taking it even one day, its good effects will be noticed by a returning appetite. By taking it in time, you need have no fear of Fever and Ague, as it will renovate and strengthen the entire system.

WILL THOSE REQUIRING A STIMULANT TRY IT?

W. E. FRAZER, JR., writes from Fayette City, Penn.:—"Dr. Richardson's Sherry Wine Bitters gives entire satisfaction; they not only sell readily, but do much good."

E. S. DAVIS, P. M. and Druggist, at Williamsport, Ohio, writes:—"I would say to you, that as far as the Sherry Wine Bitters have been tried here, they have rendered entire satisfaction. I had occasion to use them myself, having taken a deep cold, become prostrated with a loss of appetite, and by the use of one bottle of the Bitters was completely restored. I can recommend it with great assurance of its merits, and I think as it becomes known it will take the lead of all other bitters now before the public. As far as I have had occasion to use it, I find it very valuable."

WM. EAKIN, P. M. and Merchant, at New Galilee, Penn., writes:—"Dr. Richardson's Sherry Wine Bitters sells well here, and gives general satisfaction. Those who have used it, pronounce it a capital medicine."

JAMES L. LEEPER, M.D., Druggist, at Navarre, Ohio, writes:—"Dr. Richardson's Sherry Wine Bitters are all sold; they are in good demand and highly praised by sufferers from indigestion, dyspepsia, and liver complaint."

TRIPP & M'MURKY, Druggists, at Bolivar, Ohio, write:—"Dr. Richardson's Sherry Wine Bitters have rendered full satisfaction in all cases of indigestion. They have also cured several cases of chronic Intermittent Fever and Ague."

THOMAS STANFORD, Druggist, at Blountsville, Ind., writes:—"After hearing a statement of my case and experience with the Bitters, you will not think me enthusiastic when I say that I attribute my present good health, even life itself, to the merits of your truly invaluable medicine. Some three years since I was attacked with great nervous debility, which was soon followed by palpitation of the heart, of the most severe and prostrating character. At the expiration of six months, I was reduced to a mere skeleton, and was satisfied that if relief did not soon come, I must pass away. Two physicians attended me a good portion of the time, but their efforts to afford relief were of no avail. Finally one of them suggested a trial of the "Sherry Wine Bitters," and, to my great satisfaction, their effects upon me were most beneficial from the start. After using about a dozen bottles I was completely restored, and am now in robust health. You may expect good sales by me, as I can recommend them on their merits."

Dr. S. Q. RICHARDSON'S SHERRY WINE BITTERS is a medicinal tonic that most persons require during the summer season.

ANOTHER GOOD REMEDY TO HAVE AT HOME.

Every body knows that camphor, capsicum, and landanum are good antidotes for the CHOLERA. All these good articles are a part of the ingredients of DAVIS' PAIN KILLER. We would, therefore, advise every family to keep the Pain Killer by them. No better remedy can be kept in every house. In case of an attack of Diarrhea, Dysentery, Cholera Morbus, or Cramp Colic, IT WILL CURE.

Be up with the times and use Pain Killer.

Allen's Lung Balm does not effect the blood. It contains no Opium.

"Perry Davis." A more noble and good man never lived.

THE REMEDY LOOKED FOR.
IT WILL CURE
ULCERATED SORES, TETTER, ERYSIPELAS, SCROFULA, ITCH,
SALT-RHEUM, ETC.
IT IS FOUND IN
DR. WEAVER'S SYRUP AND CERATE.

Some of the Diseases for which these Medicines have proved an effectual cure.

SCROFULA, in all its forms, which is sometimes known by swelling of the glands about the neck, and other parts of the body, small bunches under the skin, blotches and pimples on the face and body; in children, a pale, puny, and sickly appearance, etc.

ERYSIPELAS, known by a prickling, tingling sensation of the skin, with great heat, itching and sometimes swelling, especially after heating the blood; often settling in some part of the body or limbs, and forming painful and inflamed ulcers, which will be very difficult to heal, and which will often reopen after they have healed.

SALT RHEUM, known by dry, chapped, cracked, and bleeding hands; eruptions on various parts of the body; at times appears in the form of little pimples, which fill with a watery substance, soon dry up, and form thin, scaly scabs, often resembling wheat bran; at other times run into chronic sores, all of which are attended with great pain, heat, and itching.

CANKER will be known by sores in the mouth, sometimes a metallic taste, with dry cough, irritation and heat about the stomach and throat, with occasionally a very red tongue and mouth.

VENEREAL TAINTS in the system, or disagreeable results of a long-continued and improper use of mercury, frequently show themselves in swellings and pain along the shin-bones, coming on more in the afternoon and forepart of the night; pains in the bones and other parts of the body; eruptions; affections of the mouth and throat, etc.

Dr. Weaver's preparations are purely vegetable, and free from every deleterious substance. These medicines, the results of long research, close application, and practical experience, are singularly efficacious.

Although originally designed for humors exclusively, it has been found that many of the most desperate chronic diseases, most of which result from humors, have yielded to the power of this valuable medicine.

It is truly stated that "this class of diseases has been too long neglected by the profession. Little has been written about them, because none have ever thoroughly investigated them, or known but little in regard to them, only as they have constantly scourged our race. The study of these alone opens a wide range for thought, for experience, and practice; and into this field Dr. Weaver has resolutely entered, with no other design than, if possible, to rid the land of this prolific source of untimely death."

The cure of Mr. S. W. WORKMAN, of Shelbyville, Indiana, was truly marvelous. He was taken sick in 1852. An extract from his letter will give his condition when he commenced using Dr. Weaver's preparations. He says in his letter of March, 1864: "The doctor that was called to me commenced giving calomel, until it eat holes in my mouth. Then he attempted to drive it from my system, and drove it to my legs, and failing to cure me, there he left me. My legs and feet became much swollen, and between my feet and knees the flesh broke open, and they were a sorry sight. I tried doctor after doctor. Some of them called it erysipelas; others, dropsy in the legs; while others said it was the effects of mercury, and they were right; but all they gave me did me no good. I was, some of the time, able to be around a little, but for ten long years I was in this condition, and suffered more than a thousand deaths. About fifteen months since, one of my friends recommended me to try your SYRUP and CERATE. I did so, but could see but little benefit for some six weeks, when, all at once, I began to notice a remarkable change in the looks of my legs and in my general feelings. This was after I had used the first bottle of SYRUP. I then got six bottles more, and have used them. I have tried thousands of medicines, but never saw any thing possess the virtues of WEAVER'S SYRUP and CERATE for curing Ulcerated Sores. Many of my friends and neighbors who knew my affliction are inquiring to know what cured me; and I tell all who are thus afflicted to test the valuable merits of DR. WEAVER'S SYRUP and CERATE."

JOHN P. PLATT, of Plainfield, Coshocton County, Ohio, writes that the Syrup and Cerate cured him of "Scrofulous White Swelling." The following will show his condition when he commenced using Dr. Weaver's Medicines: "I tried various remedies and had two of the best physicians in the country to attend on me, and they failed to give me any relief. I was so reduced that I was confined to my bed for over four months. The nerves and muscles of my left leg were so contracted and drawn up that I could not walk. I had six running ulcers on my leg, from which I took, from time to time, about twenty pieces of bone, some of them from a half to one inch long. I was reduced to almost a skeleton, and my friends had given up almost all hope of my recovery."

JAMES W. MILLER, Wyandot, Bureau County, Illinois, writes, July 24, 1866, that one BOTTLE SYRUP CURED HIM OF Erysipelas. He was afflicted for two years in his legs and hands, some of the time so severely he could not use them.

Mrs. H. C. KENYON, Manchester, Iowa, cured of Scrofula, or swollen bunches on her neck, after being treated by several physicians, who pronounced a surgical operation necessary.

PHILIP W. KOHLER, Esq., of Hopewell Academy, Missouri, says he has known WEAVER'S SYRUP and CERATE TO CURE THE SCROFULA WHEN JAYNE'S AND AYRES' MEDICINES HAD FAILED.

From the New England Religious Herald, Hartford, Conn.

Of all the medicines advertised at the present day, we know of none which more effectually answers the purposes for which it is designed, than this of Dr. Weaver's. We have tried it in our own family with decidedly favorable results, and have known and heard of many persons who have used this Medicine, and have been entirely restored. We most cheerfully recommend it as a safe, salutary, and valuable medicine.

By all means keep Allen's Lung Balm at hand.

"Eggs of Euro's Serpents." The greenhorns who are sucked dry by gamblers.

"Never say die," but persevere in using Dr. Weaver's Syrup and Cerate.

The Great Blood Purifier, Dr. Weaver's Syrup.

ADVICE OF A GOOD DOCTOR.

DR. S. A. WEAVER

Graduated at the Albany College of Medicine, and afterward made the treatment of BLOOD and SKIN DISEASES his study and practice.

His great success was in the cure of SALT RHEUM, ERYSIPELAS, SCROFULA, TETTER, ULCERATED SORES, SCALD HEAD, and all the diseases that are the result of impure blood. People suffering from these diseases can be cured by persevering in the use of Dr. Weaver's Remedies. The Syrup will purify the blood and drive the disease to the surface of the skin, when, by applying the Cerate, a cure is sure.

OLD PERSONS who have been for years afflicted with *Ulcerated or Running Sores on their Legs*, will be positively cured by using DR. WEAVER'S SYRUP and CERATE.

Read the pamphlet which accompanies the Syrup; you will there see letters from many old people who have been cured after years of suffering.

Read the opinion of one of the Ohio Medical Faculty.

MONROEVILLE, HURON Co., O.
DR. S. A. WEAVER: Having had occasion to recommend your Canker and Salt-rheum Syrup in some eight or ten cases of Cutaneous Eruptions and Scrofulous Complaints, I take this method of saying to you that I think it a most excellent and efficacious remedy for the above and similar complaints, and would solicit all engaged in the healing art to give it a trial, as I do consider this class of diseases one which, as a profession, we are not well prepared to meet.
I am yours,
T. M. COOK, M. D.

ULCERATED SORES CURED.

One of the most remarkable cures is that of the wife of Mr. George Passmore, of Benville, Jennings Co., Indiana. Mr. Passmore writes us April 18, 1867, describing the case, suffering, treatment, and final cure. She was first attacked, in 1859, by two hard spots appearing on her legs between the ankle and knee. She used many liniments, then called their physician, who treated her three years and over. The swellings became running sores; itching pimples, much inflamed, causing such a burning, stinging, and itching sensation, that she got no rest, night or day, until she commenced the use of DR. WEAVER'S SYRUP AND CERATE. At first it made the itching increase, because it works on the blood, and drives the disease to the skin, then the use of CERATE heals and cures. Mrs. Passmore says in two weeks the smarting and itching ceased, and she was entirely cured; and all cost but about five dollars. Mr. Passmore would willingly give those similarly afflicted full details of the cure, if they will address him. His wife is now SEVENTY-TWO YEARS OLD, and enjoying good health.

EVERY PERSON SHOULD READ THE FOLLOWING LETTER

From HON. EX-JUDGE LOOMIS, of New London, Ct. He says:

... I could only get about with great difficulty, and not at all without the use of crutches. At length the matter which was discharged formed a crust, or scab, upon the surface, and both legs presented an appearance which induced some of my friends to fear that mortification had already begun.

I consulted a physician, who gave me remedies, with directions how to use them, adding that my age and the severity of the complaint rendered a cure extremely doubtful. Nothing, however, seemed to make any favorable impression upon the disease. At this stage, a council of physicians was called to examine the case. All considered it a severe and doubtful one, and, from their conversation, left the impression upon my friends that it never would be cured. Still they gave me some remedies, which I attempted to use, but my legs appeared to grow worse. My daughter urged me to make a trial of your preparations, and having heard of some remarkable cures on others, I resolved to make a trial, and accordingly procured the Syrup, which I took a few days, and then began to apply the Cerate. A change immediately took place for the better, and continued constantly to amend, until, by the use of two bottles of Syrup and about three boxes of Cerate, all my former symptoms disappeared, and my legs are as smooth and perfect as any other man's seventy-eight years of age. At the time I commenced using your Medicines I stopped all others, and owe my cure to your invaluable preparations alone.
JOEL LOOMIS.

GENTLEMEN.—In the year 1850 I was attacked with Tetters, or some kindred disease, on both my legs, which extended until from my knees to my feet was one raw sore. I consulted and obtained medicines and prescriptions from nearly all the physicians in this vicinity, but obtained no relief. Your agent at this place recommended me to try the Syrup and Cerate, which I fortunately did, and am now a sound and well man from its use.

With great gratitude, I remain yours truly,

JOHN WINBAUGHT.

Mr. Winbaught being a well-known citizen of Ashland County, Ohio, makes this information reliable.

IT NEVER FAILS. TRY IT.

Sore Teats of Cows cured with Weaver's Cerate.

Purify the Blood and Disease will not remain.

THE SURE BLOOD PURIFIER!

DR. WEAVER'S

CANKER AND SALT RHEUM SYRUP,

Canker Cure, and Cerate.

It is an indisputable fact that the above medicines are the infallible remedies now before the public for Cutaneous Eruptions, Salt Rheum, Erysipelas, Sore Legs, Ulcers, Old Fever Sores, Scald Head, Scrofulous Eruptions, and every kind of Disease arising from an impure state of the blood.

The Most Effective Blood Purifier of the Nineteenth Century.

Great New England Remedy!

THOUSANDS AND TEN TIMES TEN THOUSANDS OF BOTTLES have been sold in the New England States, where it has been known and extensively used for the last twenty years, and GREAT MULTITUDES have and do testify to its powerful efficacy and usefulness in purifying the BLOOD.

Cases that the most eminent physicians have despaired of relieving immediately yielded to their curative powers, and when used in accordance with the printed directions, which accompany each bottle, the Syrup and Cerate combined eradicates any of the above-named diseases, and leaves the sufferer without a blemish. The medicines are too well known to require any thing more than a plain statement of facts. The joyful intelligence is reaching us daily from East, West, North, and South, of the wonderful cures they are performing.

Among those who thus testify, are many of the most prominent citizens of New England. If you still have doubts, and require more tangible evidence, you are requested to communicate with the parties named below, to whom we have liberty to refer.

The Rev. Samuel Henry, of Palmer, Mass., says: "They have done me more good than all the other medicines I have ever used for Erysipelas."

Capt. William Vail, of the steamer Granite State, says: "They have cured my little daughter of Salt Rheum and Scald Head of six years' standing. She was literally covered with sores, and is now perfectly cured by the use of the Syrup and Cerate."

Dr. A. J. Johnson, of North Wardsboro, Vt., says: "A Scrofulous disease of the hip joint and Scald Head in the same child, have been cured by the Syrup and Cerate."

Rev. August Bolles, says: "It has cured the Salt Rheum in my leg."
J. Hatfield Frazer, Esq., Editor of the Somerset Whig, Somerville, N. J., says: "My mother has been completely cured of a severe case of Tetters of long standing, that had defied the skill of the best physicians."

IT IS WELL KNOWN IN THE WEST.

Mrs. E. TUCKER, of Leavenworth, Ind., writes that she was for twenty years afflicted with Salt Rheum, and after spending a small fortune to doctors and for other remedies, "I was induced to try Weaver's Syrup and Cerate; and three bottles entirely cured me."

LYMAN ANDREWS, of Delaware Co., Ohio, says, he was afflicted with Erysipelas in the eyes, which was very severe. One bottle of Syrup has made such an effect on him, that he cheerfully recommends it to all who are afflicted.

THOMAS J. STEPHENS, Fountain Springs, West Va., writes, that he is using the Syrup and Cerate for a sore leg, and deriving great benefit therefrom.

ELIAS LATHAM, Esq., of Orient, Long Island, N. Y., says: "I hardly know how to express my gratitude to you and your medicines. I have been afflicted for more than thirty years with Salt Rheum in its worst form. I tried to find relief from various medicines. I tried several physicians in New York, Brooklyn, and Greenport. I have dieted and taken medicines enough to float a pretty large boat, but they did me no good. I have taken your medicines one year, and am now able to work and sleep without an ache or a pain, and my neighbors say I am the sprightliest man on the Island."

Omelette.—Six eggs make a good-sized omelette; break them into a bowl; beat them up with a fork, with a tea-spoonful of salt, pepper, some chopped parsley, and a little melted butter; pour the mixture into a hot pan, in which a piece of butter, the size of an English walnut, has been melted; cook gradually, turning up the edges, and roll it over just before placing it on the dish; ham chopped fine, instead of parsley, makes "Ham Omelette."

Asiatic Cholera will not exist if Pain Killer is used.

Chilblains, or Frosted Feet, cured with Dr. Weaver's Cerate.

With impure blood, the whole body will show disease.

Clergymen can cure Throat Affections with Allen's Lung Balsam.

To cure Children's Sore or Scald Head, cleanse the scalp first, then apply Weaver's Cerate.

Just as soon be without bread as without "Pain Killer."

THERE IS NO DISEASE OF THE BLOOD OR SKIN

That will not yield to the merits of

DR. WEAVER'S SYRUP AND CERATE.

IT CURES ALL ULCERATED SORES!

LET THE AFFLICTED READ THE FOLLOWING LETTERS.

BUTLERVILLE, WARREN Co., O., January 25, 1864.
DR. S. A. WEAVER—Sir: I would say, for the interest and good of community, that DR. WEAVER'S CERATE is the best salve ever introduced in this neighborhood. It has been applied in the worst cases of Erysipelas, and has cured one case, which I will mention, which had been under the treatment of different doctors for several years. The CERATE was applied, and the use of three bottles of it accomplished a complete cure.
Yours respectfully,
H. L. RUNYAN.

Cure of Erysipelas. Information that you can rely upon.

LEAVENWORTH, IND., July 18, 1862.
MESSRS. J. N. HARRIS & Co.—Gentlemen: We take pleasure in informing you what Dr. Weaver's Syrup has done in our family. A little daughter of our Mr. Henry Jenkins, Sr., was badly afflicted with Erysipelas, and the Syrup and Cerate having already gained a great reputation in this locality, induced us to try it; and with pleasure we state that after using the Syrup and Cerate one week, she was ENTIRELY CURED. We will take pleasure in giving the facts of the above-named cure, and others in this vicinity, to any person who may call on us. For this class of diseases, we regard the Syrup and Cerate with favor.
HENRY JENKINS & SON, Wholesale and Retail Druggists.

THE CANKER AND SALT-RHEUM SYRUP is an article differing entirely from Sarsaparilla and Dock Syrup, or any other preparation ever offered to the public. It can be positively relied on for the effectual cure of Scrofulous Humors, Erysipelas, Salt-rheum, Canker in the Mouth, Stomach, or Bowels, Female Weaknesses, and all humors arising from an impure state of the blood: in a word, it is a complete renovator, eradicating disease, and restoring to healthy action every part of the system.

THE CERATE, in all cases of humors, and especially for Salt-rheum and Erysipelas, is a valuable accompaniment to the Syrup, as it will effectually destroy all vestige of humor from the surface of the body, which will be driven out by the use of the Syrup. It is one of the most valuable external applications ever known for Burns, Scalds, Scald Head, Old Sores, Piles, Barber's Itch, and all other eruptions on the skin, and far surpasses all other external applications. For Chills and Frosted Feet it is a positive cure.

A visit to the manufactory and laboratory of Dr. Weaver's Medicines will convince any one, even in these times of general depression in business of all kinds in the community, of the high appreciation of these Medicines by the public, and their increasing demand wherever they have been introduced. May the pure streams of healing ever flow deeply and widely from this "Fountain of Health."

PETER SMITH, Esq., of Wisconsin, father of O. C. Smith, publisher of "The Expositor," at Viroqua, Wisconsin, writes us full particulars of a cure the Syrup and Cerate had performed on him of aggravating sores on the top of both his feet, which had prevented him from wearing boots for twenty-three years. He had submitted to the treatment of many skillful physicians without the least benefit; but Weaver's Syrup, taken internally, and the Cerate applied to the sore feet, soon effected a cure. Mr. Smith extols the Medicines highly.

JOHN B. VOWELL, Druggist at Washington, Pa., writes us that the Syrup and Cerate has cured one of his customers of a SORE LEG OF FIVE YEARS' STANDING. Two of the best doctors had attended him, but done no good. Mr. Vowell desires us to publish this cure for the benefit of others so afflicted.

JOSEPH STEVENSON, Post-master, Decatur, Brown County, O., writes the Syrup and Cerate cured him of sore legs of four years' standing. One of his neighbors, who was for twenty-five years suffering, and told that amputation was the only cure, followed Mr. Stevenson's advice, and was cured with Syrup and Cerate. He says:

"Both of us are ready to testify to the truth of my statements, and I heartily recommend to all persons so afflicted to give Dr. Weaver's valuable SYRUP and CERATE a fair trial."

"I remain, with respect, your obedient servant."
JOSEPH STEVENSON, Post-master."

LOUD IS THE PRAISE IN FAVOR OF A VALUABLE MEDICINE.

For the sting of insects apply "Pain Killer."

To be honest is the first step to greatness.

ERUPTIONS OF THE SKIN AND ALL IMPURITIES OF THE BLOOD CAN BE CURED WITH

DR. WEAVER'S SYRUP AND CERATE.

"ALMOST DISCOURAGED."

Such expressions are very common among those afflicted with Canker, Salt Rheum, Scrofula, Erysipelas, Ulcerated Sores, etc. They have used nearly every thing that has been recommended for a cure of these troublesome and often fatal complaints, but are no better. Health gradually failed, hope abandoned them, and they look with distrust on all medicines advertised. But there is one medicine known as Dr. Weaver's Canker and Salt Rheum Syrup, which is different from any you have tried. It is not a quick medicine. Dr. Weaver was a physician of high standing and extensive practice, and an honorable man, and his medicines may be relied upon as the best in the world for humors.

S. W. Richey, Druggist, New Paris, Ohio, writes, referring to Dr. Weaver's Medicines:

I have been selling them for five years past, and they do all that is said of them, and that is more than most puffed medicines will do. All they require is a trial for what they are recommended, and they will effect a cure.

ERIE, PENNSYLVANIA.
Gents: Having sold several dozen of Dr. Weaver's Syrup and Cerate, and carefully learned the results that follow its use, I am well satisfied that it is an excellent preparation for those diseases and humors for which it is recommended.
Yours, etc., J. S. CARTER, Druggist.

NURSING SORE MOUTH.

Every one knows that this disease is very distressing and difficult to cure, but we assure those who are afflicted with it that there is now a positive cure for this disease, by using Dr. S. A. WEAVER'S CANKER AND SALT RHEUM SYRUP, together with his invaluable CANKER CURE. These are a full and positive cure for this disease. If necessary, we can refer all who are in any way skeptical to many in our midst who have used them, and have been perfectly cured.

TETTER ON THE HANDS CURED.

HAMILTON, OHIO.
This is to certify that my wife has been afflicted with Tetter on her hands for several years, and all the remedies which she made use of failed, until she commenced using Dr. Weaver's Salt Rheum Cerate, which she has found to be the best remedy she has ever used and would recommend it to all similarly afflicted.
PETER JACOBS,
Wholesale and Retail Druggist.

A. C. Vanderburg, Druggist, at Lowell, Michigan, writes: "They give good satisfaction and prove to be valuable."

DR. WEAVER'S CERATE CURES PILES.

ROSEBUSH, Washington Co., Ind.
Messrs. J. N. HARRIS & Co.—Sirs: I was attacked with the BLIND PILES, and after consulting our family physician, and getting no benefit, I was induced to try Dr. Weaver's Cerate, and am happy to say that, by strictly following the directions, it effected a PERMANENT CURE by using one bottle.

EVERY DAY brings cheering evidence, proving DR. WEAVER'S CERATE to be a specific for all diseases of the skin.
Yours respectfully, C. W. LOGAN.

SORE EYES CURED.

HAMILTON, O.
I have been afflicted with sore and weak eyes for the last five years. On the recommendation of a friend, I was induced to use Dr. Weaver's Cerate, and have derived great advantage from its use.
JOHN. H. FALCONER.

J. N. HARRIS & Co.—Dear Sirs: My son has, for a number of years, been troubled with Salt Rheum—an eruption on the skin. His head has DEFIED the SKILL of his PHYSICIAN. A friend having recommended Dr. Weaver's Salt Rheum Syrup and Cerate, I was induced to purchase a bottle of your agent, Mr. F. B. Nason, and found its effect wonderful, the second bottle having driven it entirely from his head. It is by far the best medicine I have ever seen, and I cheerfully recommend it to all in like manner afflicted.
CALVIN PAUL.

Mr. Paul gave me the above letter. He says the medicine is by far the best thing he has ever seen. Both SYRUP and CERATE are highly spoken of by every one who has used them.

MEDFORD, STEELE Co., MINN. I am yours, truly, F. B. NASON, Druggist.

Mothers, use Weaver's Cerate to cure Sore Nipples.

Dr. Weaver's Syrup and Cerate, judiciously used, will prevent all humors and eruptions of the skin.

To cough at night prevents rest. Instead, use Allen's Lung Balm.

Dr. Weaver's Syrup and Cerate are honest preparations.

The best Expectoant remedy known is Allen's Lung Balm.

THE INFALLIBLE

HAIR RESTORATIVE.

THIS IS NO HAIR DYE.

REASONS WHY THE EUREKA SHOULD BE USED.

It will cleanse the scalp, and thereby promote the growth of the hair.
If the hair is dry, stiff and lifeless, it will give it a softness, and lively and youthful appearance.
If the hair is becoming thin, weak and falling off, it will restore its strength and beauty.
If the hair is gray, or becoming so, it will restore it to its original color, without staining scalp or hands.
It is free from all impurities or poisonous drugs.
It is no hair dye, but an infallible restorative, and will do all that is promised, when used by the directions.
A few applications of this Compound will change brash, dry and wiry hair to the most beautiful

SILKEN TRESSES.

If the hair is falling off, or becoming gray, the use of the EUREKA will surely arrest its decay, and cause to assume in a short time ALL ITS FORMER BEAUTY. It completely eradicates Scurf and Dandruff, and kills Hair-eaters, so destructive to the roots of the hair,

And Cures all Diseases or Humors of the Scalp.

AS A HAIR DRESSING, THE EUREKA IS UNEQUALED BY ANY OTHER HAIR PREPARATION IN THE WORLD!

Hear what Dr. Van Zandt (one of the oldest and best physicians, and most celebrated oculist in the State) says in regard to the Eureka:

St. Louis, December 17, 1864.

Mr. Fisher has submitted to my inspection the recipe for making his Hair Restorative, and, after a careful examination of the different ingredients which enter into its preparation, I have no hesitation in pronouncing it (physically speaking) a most happy compound, and especially suited to the requirements of Nature, and the design of its inventor. Therefore, it can not prove otherwise than one of the most valuable preparations of the kind now in use for changing the color of the hair, and restoring the scalp from a diseased to a healthy condition.

I have examined and conversed with persons using the Eureka, and find that it does all that is proposed in cleansing, keeping the hair from falling out, and restoring it when gray.

WM. VAN ZANDT, M. D.

From the St. Louis Republican, December 13, 1863.

EUREKA.—It is not often that a professional gentleman, of the reputation of Dr. Van Zandt, indorses so fully the value of a preparation for the restoration of the color of the hair, or any other particular object. This he does, however, in the card published to-day by Mr. B. Fisher, and to which gray heads are referred.

BARNUM'S HOTEL, St. Louis, Mo., June 1, 1864.

Mr. Fisher: Dear Sir—I have used one bottle of your Eureka Hair Restorative, and to my full satisfaction. It does all that you claim for it, having restored my gray hair to its original color.

THERON BARNUM, Late of Barnum's Hotel.

The Agent might produce hundreds of other certificates from gentlemen and ladies, that have used the Eureka, but thinks the above all-sufficient.

NOTICE TO MOTHERS!

DR. SEABROOK'S INFANT SOOTHING SYRUP.

We have, by purchase of the original receipt, become Sole Proprietors of this Celebrated Medicine. We ask you to give it a trial, with an assurance that you will in future discard all those nauseous and destructive stuffs, such as Bateman's Drops, Godfrey's Cordial, Dewee's Mixture, etc., combinations of a past and anti-progressive age, when it was thought that the more disgusting the mixture, the better the medicine.

Use in the future only SEABROOK'S, a combination quite up with the advancement of the age. Pleasant to take, harmless in its action, efficient and reliable in all cases. Invaluable in the following diseases:

*Summer Complaint, Irregularities of the Bowels,
Restiveness, Teething, &c.*

GIVES HEALTH TO THE CHILD AND REST TO THE MOTHER.

We could furnish any quantity of certificates bearing evidence of its superior qualities, but prefer that our medicine should stand on its own merits, which it will do upon trial. Sold by Druggists generally. JAMES RUDDLE & CO.,
Proprietors, Louisville, Ky.

PURIFY YOUR BLOOD.

HURLEY'S SARSAPARILLA.

Of all the remedies that have been discovered during the present age, for the "thousand ills that flesh is heir to," few equal this wonderful preparation. Only ten years have elapsed since the discoverer, who spent a decade in studying experiments and perfecting it, first introduced it to the public; and it is already recognized, by the most eminent physicians in all parts of the country, to be the most surprising and effective remedy, for certain diseases, of which they have knowledge. This is the pure and genuine extract of the root, and will, on trial, be found to effect a certain and perfect cure of the following complaints and diseases:

Affections of the Bones, Habitual Costiveness, Debility, Diseases of the Kidneys, Dyspepsia, Erysipelas, Female Irregularities, Fistula, all Skin Diseases, Liver Complaint, Indigestion, Piles, Pulmonary Diseases, Syphilis, Scrofula or King's Evil. Sold by Druggists generally.

HURLEY'S AGUE TONIC.

PERFECTLY RELIABLE.

The remedy for Chills and Fever, or Ague and Fever, is HURLEY'S AGUE TONIC. There have been thousands cured by using it who had tried the usual remedies without benefit; but in no case has HURLEY'S AGUE TONIC failed to effect a cure. All who have used it cheerfully tell their afflicted friends of it, as a sure and certain cure for Chills and Fever. Any one suffering from the Chills would consult their own interest by sending to the drug store and buying a bottle. It is pleasant to take, compared with others, and will be certain to cure all cases of Fever and Ague, or Chills and Fever. Sold by Druggists generally.

JAMES RUDDLE & CO., Proprietors,
LOUISVILLE, KY.

Every druggist and country merchant should have it in store, especially in districts subject to the Chills and Fever, or Ague and Fever.

**SOMETHING CHILDREN CRY FOR,
AND SURE DESTRUCTION TO WORMS, IS
HURLEY'S POPULAR WORM CANDY.**

As this is really a **SPECIFIC FOR WORMS**, and the best and most palatable form to give to children, it is not surprising that it is fast taking the place of all other preparations for worms, it being perfectly tasteless, and any child will take it.
Sold by Druggists generally. **JAMES RUDDLE & CO., Proprietors.**

HURLEY'S STOMACHIC BITTERS

*For Debility,
Loss of Appetite, Indigestion,
Weakness, Dyspepsia,
Want of Action of the Liver,
or Disordered Stomach.*

There are no Bitters that can compare with these, in removing these distressing complaints. For sale at any Drug Store.
JAMES RUDDLE & CO., Proprietors, Louisville, Ky.

BETTISON'S ENGLISH HORSE LINIMENT

Has proven itself one of the best Liniments made, for **SPRAINS, BRUISES, etc.**, in all cases when tried, for either *man or beast*, and will do all we claim for it. Try a bottle, and we are satisfied you will never afterward use any other.
JAMES RUDDLE & CO., Proprietors, Louisville, Ky.

**DR. SEABROOK'S
ELIXIR OF PYROPHOSPHATE OF IRON AND CALISAYA.**

This elegant combination possesses all the best **TONIC** properties of Peruvian Bark and Iron, without the disagreeable taste and bad effects of either, separately or in other preparations, of these valuable medicines. It should be taken in all cases when a gentle tonic impression is required—after convalescence from **FEVERS** or other debilitating diseases, or in those distressing **IRREGULARITIES** peculiar to females. No female should be without it, if liable to such diseases; for nothing can well take its place. Sold by Druggists generally.
JAMES RUDDLE & CO., Proprietors, Louisville, Ky.

NO FAMILY,

Especially in the Southern and Western States, should be without these really valuable medicines.

ASK FOR THEM, AND TAKE NO OTHERS.

Every good Druggist should have them, and if those in your neighborhood have not got them, get them to order for you.
We do not publish the many certificates in our possession; we ask you to give the medicines a fair trial, and are satisfied that you will grant all that we claim for them. Our remedies speak for themselves.

**JAMES RUDDLE & CO., Proprietors,
LOUISVILLE, KY.**

J. N. HARRIS, & CO., Wholesale Agents, Cincinnati, Ohio.**

Pain Killer cures the Toothache.

A GREAT LUNG MEDICINE.

The variety of cough medicines which have been, and are, prepared and advertised to the world, it would be impossible for us to enumerate. Doubtless many of them are good, many more indifferent or worthless, and some perhaps positively dangerous or injurious. There is one medicine, however, for the cure of affections of the lungs, which is in the hands of proprietors of the highest character and responsibility, which has been very largely used and tested, and which we wish to recommend to the public for the reason that we can do it in all truth and sincerity, believing as we do, that it is not, and never has been, surpassed for excellence and thorough efficiency.

That medicine is "**ALLEN'S LUNG BALSAM.**" Its proprietors are **J. N. Harris & Co.**, a firm widely known and very greatly esteemed, composed of gentlemen of the highest character and responsibility, whose enterprise and intelligence are every way noteworthy. This medicine is beyond all question a complete cure for affections of the lungs, even when of a very serious and threatening character. One physician goes so far as to state publicly, over his own signature, that he has a perfect conviction that deep-seated pulmonary consumption has been cured by the use of **ALLEN'S LUNG BALSAM**; and there are an abundance of most respectable and reliable testimonials in the possession of its proprietors, that it has in numerous instances effectually cured very severe coughs of long standing, accompanied with cold chills, night sweats, and diarrhoea, — the system of the sufferer being, in some cases, very much prostrated.

We do not hesitate to say, from our knowledge of the virtue of this Balsam, and from the entire confidence we have in the character of its proprietors, and the statement of certain citizens who have repeatedly used the medicine, that it is really one of the greatest and best things ever yet discovered for the cure of the particular maladies for which it is designed; for it is not pretended that it is a cure for every thing, and its proprietors have never represented it as such. We will only add, let every one who has a cough or an affection of the lungs, get a bottle of "**ALLEN'S LUNG BALSAM**," and give it a fair trial. Having done this, they will be convinced of its extraordinary merits. — *Advertiser, Providence, R.I.*

SUPERIOR DRESSING FOR CHICKEN SALAD. — Beat the yolks of 6 eggs very light, pour over them a teacup of boiling vinegar, and return to the saucepan, stirring it constantly for a few minutes; then set it away to cool. Rub a large tablespoonful of mustard with 6 spoonfuls of oil; grate in half a potato; add a teaspoonful of salt and a little pepper; harden the whites by boiling the eggs; chop them up, and scatter among the salad; then stir all together, and pour over just before serving.

SALAD DRESSING. — Beat three eggs, add one gill of vinegar, one gill of water; place it over the fire, stirring it gently; when it begins to thicken, stir in a piece of butter the size of a shellbark, one teaspoonful of salt, and one of white sugar, and a very little black pepper. Set it in a cool place until wanted for use.

To Remove Mildew from Linen. — This can be done by mixing with soft soap, a little powdered starch, half the quantity of salt, and the juice of a lemon, and applying it to the mildew stain with a paint-brush on both sides of the linen. The stained article should then be left out on the grass day and night until the spot be removed.

The greatest treasure of life is contentment.

A man is rich or poor according to what he is, not according to what he has.

The stain on linen from the use of the Pain Killer is easily removed by washing it in alcohol.

What Medicine is found in every house? Ans. Pain Killer.
