ORGANIC LAW OF IOWA.

ADMISSION OF IOWA INTO THE UNION.

CONSTITUTION OF IOWA.

DECLARATION OF INDEPENDENCE.

IN CONGRESS, JULY 4, 1776.

THE UNANIMOUS DECLARATION OF THE THIRTEEN UNITED STATES OF AMERICA.

[Adopted by the Continental Congress July 2, and authenticated and proclaimed July 4, 1776.]

WHEN in the course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident: that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty and the pursuit of happiness; that, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or abolish it, and to institute a new government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and, accordingly, all experience hath shown that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security. Such has been the patient sufferance of these colonies, and such is now the necessity which constrains them to alter their former systems of government. The history of the present king of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute tyranny over these states. To prove this, let facts be submitted to a candid world:

He has refused his assent to laws the most wholesome and necessary for the public good.

He has forbidden his governors to pass laws of immediate and pressing importance, unless suspended in their operation till his assent should be obtained, and, when so suspended, he has utterly neglected to attend to them.

He has refused to pass other laws for the accommodation of large districts of people, unless those people would relinquish the right of representation in the legislature—a right inestimable to them, and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the repository of their public records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved representative houses repeatedly for opposing, with manly firmness, his invasions on the rights of the people.

He has refused, for a long time after such dissolutions, to cause others to be elected; whereby the legislative powers, incapable of annihilation, have returned to the people at large for their exercise; the state remaining, in the mean time, exposed to all the dangers of invasion from without, and convulsions within.

He has endeavored to prevent the population of these states; for that purpose obstructing the laws for naturalization of foreigners: refusing to pass others to encourage their migration hither, and raising the conditions of new appropriations of lands.

He has obstructed the administration of justice by refusing his assent to laws for establishing judiciary powers.

He has made judges dependent on his will alone for the tenure of their offices and the amount and payment of their salaries.

He has erected a multitude of new offices, and sent hither swarms of officers to harass our people and eat out their substance.

He has kept among us, in times of peace, standing armies, without the consent of our legislatures.

He has affected to render the military independent of, and superior to, the civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitution and unacknowledged by our laws, giving his assent to their acts of pretended legislation—

For quartering large bodies of armed troops among us;

For protecting them, by a mock trial, from punishment for any murders which they should commit on the inhabitants of these states;

For cutting off our trade with all parts of the world;

For imposing taxes on us without our consent;

For depriving us, in many cases, of the benefits of trial by jury;

For transporting us beyond seas, to be tried for pretended offenses;

For abolishing the free system of English laws in a neighboring province; establishing therein an arbitrary government, and enlarging its boundaries, so as to render it at once an example and fit instrument for introducing the same absolute rule into these colonies;

For taking away our charters, abolishing our most valuable laws, and altering fundamentally the forms of our governments;

For suspending our own legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated government here by declaring us out of his protection and waging war against us.

He has plundered our seas, ravaged our coasts, burnt our towns, and destroyed the lives of our people.

He is, at this time, transporting large armies of foreign mercenaries to complete the works of death, desolation and tyranny, already begun, with circumstances of cruelty and perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the head of a civilized nation.

He has constrained our fellow-citizens, taken captive on the high seas, to bear arms against their country, to become the executioners of their friends and brethren, or to fall themselves by their hands.

He has excited domestic insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers the merciless Indian savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these oppressions we have petitioned for redress, in the most humble terms; our repeated petitions have been answered only by repeated injury. A prince whose character is thus marked by every act which may define a tyrant is unfit to be the ruler of a free people.

Nor have we been wanting in attentions to our British brethren. We have warned them, from time to time, of attempts, by their legislature, to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity; and we have conjured them, by the ties of our common kindred, to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They, too, have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity which denounces our separation, and hold them, as we hold the rest of mankind, enemies in war, in peace friends.

We, therefore, the representatives of the United States of America, in general congress assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the name and by the authority of the good people of these colonies, solemnly publish and declare, that these united colonies are, and of right ought to be, free and independent states; that they are absolved from all allegiance to the British crown, and that all political connection between them and the state of Great Britain is, and ought to be, totally dissolved; and that, as free and independent states, they have full power to levy war, conclude peace, contract alliances, establish commerce, and do all other acts and things which independent states may of right do. And for the support of this declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, our fortunes, and our sacred honor.

TO ALL TO WHOM THESE PRESENTS SHALL COME, WE THE UNDERSIGNED, DELEGATES OF THE STATES AFFIXED TO OUR NAMES, SEND GREETING:

Whereas the delegates of the United States of America in congress assembled did, on the fifteenth day of November, in the year of our Lord one thousand seven hundred and seventy-seven, and in the second year of the independence of America, agree to certain articles of confederation and perpetual union between the states of New Hampshire, Massachusetts Bay, Rhode Island and Providence Plantations, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North Carolina, South Carolina and Georgia, in the words following, viz:

ARTICLES OF CONFEDERATION AND PERPETUAL UNION, BETWEEN THE STATES OF NEW HAMPSHIRE, MASSACHUSETTS BAY, RHODE ISLAND AND PROVIDENCE PLANTATIONS, CONNECTICUT, NEW YORK, NEW JERSEY, PENNSYLVANIA, DELAWARE, MARYLAND, VIRGINIA, NORTH CAROLINA, SOUTH CAROLINA AND GEORGIA:—

ARTICLE 1. The style of this confederacy shall be "THE UNITED STATES OF AMERICA."

ART. 2. Each state retains its sovereignty, freedom and independence, and every power, jurisdiction and right which is not by this confederation expressly delegated to the United States, in congress assembled.

ART. 3. The said states hereby severally enter into a firm league of friendship with each other for their common defense, the security of their liberties, and their mutual and general welfare, binding themselves to assist each other against all force offered to or attacks made upon them, or any of them, on account of religion, sovereignty, trade, or any other pretense whatever.

ART. 4. The better to secure and perpetuate mutual friendship and intercourse among the people of the different states in this union, the free inhabitants of each of these states, paupers, vagabonds and fugitives from justice excepted, shall be entitled to all privileges and immunities of free citizens in the several states; and the people of each state shall have free ingress and regress to and from any other state, and shall enjoy therein all the privileges of trade and commerce, subject to the same duties, impositions and restrictions as the inhabitants thereof respectively: *provided* that such restrictions shall not extend so far as to prevent the removal of property imported into any state to any other state of which the owner is an inhabitant: *provided, also*, that no imposition, duties or restriction, shall be laid by any state on the property of the United States, or either of them.

If any person guilty of or charged with treason, felony or other high misdemeanor in any state shall flee from justice, and be found in any of the United States, he shall upon demand of the governor or executive power of the state from which he fled, be delivered up and removed to the state having jurisdiction of his offense.

Full faith and credit shall be given in each of these states to the records, acts and judicial proceedings of the courts and magistrates of every other state.

ART. 5. For the more convenient management of the general interests of the United States, delegates shall be annually appointed, in such manner as the legislature of each state shall direct, to meet in congress on the first Monday in November, in every year, with a power reserved to each state to recall its delegates, or any of them, at any time within the year, and to send others in their stead for the remainder of the year.

No state shall be represented in congress by less than two, nor by more than seven, members; and no person shall be capable of being a delegate for more than three years in any term of six years; nor shall any person, being a delegate, be capable of holding any office under the United States for which he, or another for his benefit, receives any salary, fees or emolument of any kind.

Each state shall maintain its own delegates in a meeting of the states, and while they act as members of the committee of these states.

In determining questions in the United States in congress assembled, each state shall have one vote.

Freedom of speech and debate in congress shall not be impeached or questioned in any court or place out of congress, and the members of congress shall be protected in their persons from arrests and imprisonments, during the time of their going to and from and attendance on congress, except for treason, felony or breach of the peace.

ART. 6. No state, without the consent of the United States in congress assembled, shall send any embassy to, or receive any embassy from, or enter into any conference, agreement, alliance or treaty with, any king, prince or state; nor shall any person holding any office of profit or trust under the United States, or any of them, accept of any present, emolument, office or title of any kind whatever, from any king, prince or foreign state; nor shall the United States in congress assembled, or any of them, grant any title of nobility.

No two or more states shall enter into any treaty, confederation, or alliance whatever between them, without the consent of the United States in congress assembled, specifying accurately the purposes for which the same is to be entered into, and how long it shall continue.

No state shall lay any imposts or duties which may interfere with any stipulations in treaties, entered into by the United States in congress assembled, with any king, prince or state, in pursuance of any treaties already proposed by congress, to the courts of France and Spain.

No vessels of war shall be kept up in time of peace by any state, except such number only as shall be deemed necessary by the United States, in congress assembled, for the defense of such state, or its trade, nor shall any body of forces be kept up by any state, in time of peace, except such number only as in the judgment of the United States, in congress assembled, shall be deemed requisite to garrison the forts necessary for the defense of such state, but every state shall always keep up a well regulated and disciplined militia, sufficiently armed and accoutred, and shall provide and constantly have ready for use, in public stores, a due number of field-pieces and tents, and a proper quantity of arms, ammunition and camp-equipage.

No state shall engage in any war, without the consent of the United States in congress assembled, unless such state be actually invaded by enemies, or shall have received certain advice of a resolution being formed by some nation of Indians to invade such state, and the danger is so imminent as not to admit of a delay, till the United States, in congress assembled, can be consulted; nor shall any state grant commissions to any ships or vessels of war, nor letters of marque or reprisal, except it be after a declaration of war by the United States in congress assembled, and then only against the kingdom or state, and the subjects thereof, against which war has been so declared, and under such regulations as shall be established by the United States in congress assembled, unless such state be infested by pirates, in which case vessels of war may be fitted out for that occasion, and kept so long as the danger shall continue, or until the United States, in congress assembled, shall determine otherwise.

ART. 7. When land forces are raised by any state for the common defense, all officers of or under the rank of colonel shall be appointed by the legislature of each state, respectively, by whom such forces shall be raised, or in such manner as such state shall direct, and all vacancies shall be filled up by the state which first made the appointment.

ART. 8 All charges of war, and all other expenses that shall be incurred for the common defense or general welfare, and allowed by the United States in congress assembled, shall be defrayed out of a common treasury, which shall be supplied by the several states, in proportion to the value of all land within each state, granted to, or surveyed for, any person, as such land and the buildings and improvements thereon shall be estimated, according to such mode as the United States in congress assembled shall, from time to time, direct and appoint.

The taxes for paying that proportion shall be laid and levied by the authority and direction of the legislatures of the several states, within the time agreed upon by the United States in congress assembled.

ART. 9. The United States, in congress assembled, shall have the sole and exclusive right and power of determining on peace and war, except in the cases mentioned in the sixth article; of sending and receiving ambassadors, entering into treaties and alliances, *provided* that no treaty of commerce shall be made whereby the legislative power of the respective states shall be restrained from imposing such imposts and duties on foreigners as their own people are subjected to, or from prohibiting the exportation or importation of any species of goods or commodities whatsoever; of establishing rules for deciding, in all cases, what captures on land or water shall be legal, and in what manner prizes taken by land or naval forces in the service of the United States shall be divided or appropriated; of granting letters of marque and reprisal in times of peace; appointing courts for the trial of piracies and felonies committed on the high seas, and establishing courts for receiving and determining finally appeals in all cases of capture; *provided* that no member of congress shall be appointed a judge of any of the said courts.

The United States, in congress assembled, shall also be the last resort on appeal in all disputes and differences now subsisting, or that hereafter may arise, between two or more states concerning boundary, jurisdiction, or any other cause whatever, which authority shall always be exercised in the manner following: Whenever the legislature or executive authority or lawful agent of any state in controversy with another shall present a petition to congress, stating the matter in question, and praying for a hearing, notice thereof shall be given by order of congress to the legislative or executive authority of the other state in controversy, and a day assigned for the appearance of the parties by their lawful agents, who shall then be directed to appoint, by joint consent, commissioners or judges to constitute a court for hearing and determining of the matter in question; but, if they cannot agree, congress shall name three persons out of each of the United States, and from the list of such persons each party shall alternately strike out one, the petitioners beginning, until the number shall be reduced to thirteen; and from that number not less than seven nor more than nine names, as congress shall direct, shall, in the presence of congress, be drawn out by lot; and the persons whose names shall be so drawn, or any five of them, shall be commissioners or judges to hear and finally determine the controversy, so always as a major part of the judges who shall hear the cause shall agree in the determination; and if either party shall neglect to attend at the day appointed without showing reasons which congress shall judge sufficient; or, being present shall refuse to strike, the congress shall proceed to nominate three persons out of each state, and the secretary of congress shall strike in behalf of such party absent or refusing; and the judgment and sentence of

the court to be appointed in the manner before prescribed shall be final and conclusive; and if any of the parties shall refuse to submit to the authority of such court, or to appear or defend their claim or cause, the court shall nevertheless proceed to pronounce sentence, or judgment which shall in like manner be final and decisive; the judgment or sentence and other proceedings being in either case transmitted to congress, and lodged among the acts of congress, for the security of the parties concerned: *provided* that every commissioner, before he sits in judgment, shall take an oath, to be administered by one of the judges of the supreme or superior court of the state where the cause shall be tried, "well and truly to hear and determine the matter in question, according to the best of his judgment, without favor, affection or hope of reward:" *provided, also*, that no state shall be deprived of territory for the benefit of the United States.

All controversies concerning the private right of soil, claimed under different grants of two or more states whose jurisdictions, as they may respect such lands, and the states which passed such grants, are adjusted, the said grants or either of them being at the same time claimed to have originated antecedent to such settlement of jurisdiction, shall, on the petition of either party to the congress of the United States, be finally determined, as near as may be, in the same manner as is before prescribed for deciding disputes respecting territorial jurisdiction between different states.

The United States in congress assembled, shall also have the sole and exclusive right and power of regulating the alloy and value of coin struck by their own authority, or by that of the respective states, fixing the standard of weights and measures throughout the United States; regulating the trade and managing all affairs with the Indians, not members of any of the states: *provided*, that the legislative right of any state, within its own limits, be not infringed or violated; establishing and regulating post offices from one state to another, throughout all the United States, and exacting such postage on the papers passing through the same as may be requisite to defray the expenses of the said office; appointing all officers of the land forces in the service of the United States, excepting regimental officers; appointing all the officers of the naval forces, and commissioning all officers whatever in the service of the United States; making rules for the government and regulation of the said land and naval forces, and directing their operations.

The United States, in congress assembled, shall have authority to appoint a committee, to sit in the recess of congress, to be denominated "A Committee of the States," and to consist of one delegate from each state; and to appoint such other committees and civil officers as may be necessary for managing the general affairs of the United States under their direction; to appoint one of their number to preside: *provided* that no person be allowed to serve in the office of president more than one year in any term of three years; to ascertain the necessary sums of money to be raised for the service of the United States, and to appropriate and apply the same for defraying the public expenses; to borrow money or emit bills on the credit of the United States, transmitting every half year to the respective states an account of the sums of money so borrowed or emitted; to build and equip a navy; to agree upon the number of land forces, and to make requisitions from each state for its quota, in proportion to the number of white inhabitants in such state, which requisition shall be binding; and thereupon the legislature of each state shall appoint the regimental officers, raise the men, and clothe, arm and equip them, in a soldier-like manner, at the expense of the United States; and the officers and men, so clothed, armed and equipped, shall march to the place appointed, and within the time agreed on, by the United States, in congress assembled; but if the United States, in congress assembled, shall, on consid-

eration of circumstances, judge proper that any state should not raise men, or should raise a smaller number than its quota, and that any other state should raise a greater number of men than the quota thereof, such extra number shall be raised, officered, clothed, armed and equipped in the same manner as the quota of such state, unless the legislature of such state shall judge that such extra number cannot be safely spared out of the same, in which case they shall raise, officer, clothe, arm and equip as many of such extra number as they judge can be safely spared, and the officers and men, so clothed, armed and equipped, shall march to the place appointed, and within the time agreed on, by the United States, in congress assembled.

The United States, in congress assembled, shall never engage in a war, nor grant letters of marque and reprisal in time of peace, nor enter into any treaties or alliances, nor coin money, nor regulate the value thereof, nor ascertain the sums and expenses necessary for the defense and welfare of the United States, or any of them, nor emit bills, nor borrow money on the credit of the United States, nor appropriate money, nor agree upon the number of vessels of war to be built or purchased, or the number of land or sea forces to be raised, nor appoint a commander-in-chief of the army or navy, unless nine states assent to the same, nor shall a question on any other point, except for adjourning from day to day, be determined, unless by the votes of a majority of the United States, in congress assembled.

The congress of the United States shall have power to adjourn to any time within the year, and to any place within the United States, so that no period of adjournment be for a longer duration than the space of six months, and shall publish the journal of their proceedings monthly, except such parts thereof relating to treaties, alliances or military operations as in their judgment require secrecy; and the yeas and nays of the delegates of each state, on any question, shall be entered on the journal, when it is desired by any delegate; and the delegates of a state, or any of them, at his or their request, shall be furnished with a transcript of the said journal, except such parts as are above excepted, to lay before the legislatures of the several states.

ART. 10. The committee of the states, or any nine of them, shall be authorized to execute, in the recess of congress, such of the powers of congress as the United States, in congress assembled, by the consent of nine states, shall, from time to time, think expedient to vest them with: *provided* that no power be delegated to the said committee, for the exercise of which, by the articles of confederation, the voice of nine states, in the congress of the United States assembled, is requisite.

ART. 11. Canada, acceding to this confederation and joining in the measures of the United states, shall be admitted into and entitled to all the advantages of this union; but no other colony shall be admitted into the same, unless such admission be agreed to by nine states.

ART. 12. All bills of credit emitted, moneys borrowed and debts contracted by or under the authority of congress, before the assembling of the United States in pursuance of the present confederation, shall be deemed and considered as a charge against the United States, for payment and satisfaction whereof the said United States and the public faith are hereby solemnly pledged.

ART. 13. Every state shall abide by the determinations of the United States, in congress assembled, on all questions which by this confederation are submitted to them. And the articles of this confederation shall be inviolably observed by every state, and the union shall be perpetual; nor shall any alteration at any time hereafter be made in any of them, unless such alteration be agreed to in a congress of the United States, and be afterwards confirmed by the legislatures of every state.

And whereas it hath pleased the great Governor of the world to incline the hearts of the legislatures we respectfully represent in congress to approve of, and to authorize us to ratify, the said articles of confederation and perpetual union, Know ye, that we, the undersigned delegates, by virtue of the power and authority to us given for that purpose, do, by these presents, in the name and in behalf of our respective constituents, fully and entirely ratify and confirm each and every of the said articles of confederation and perpetual union, and all and singular the matters and things therein contained. And we do further solemnly plight and engage the faith of our respective constituents that they shall abide by the determinations of the United States, in congress assembled, on all questions which by the said confederation are submitted to them; and that the articles thereof shall be inviolably observed by the states we respectively represent, and that the union shall be perpetual. In witness whereof, we have hereunto set our hands, in congress.

ARTICLE I.

SECTION 1. All legislative powers herein granted shall be vested in a congress of the United States, which shall consist of a senate and house of representatives.

SEC. 2. (1)* The house of representatives shall be composed of members chosen every second year by the people of the several states; and the electors in each state shall have the qualifications requisite for electors of the most numerous branch of the state legislature.

(2) No person shall be a representative who shall not have attained to the age of twenty-five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that state in which he shall be chosen.

(3) [Representative and direct taxes shall be apportioned among the several states which may be included within this union according to their respective num-

bers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all other persons.]* The actual enumeration shall be made within three years after the first meeting of the congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of representatives shall not exceed one for every thirty thousand, but each state shall have at least one representative, and, until such enumeration shall be made, the state of New Hampshire shall be entitled to choose three, Massachusetts eight, Rhode Island and Providence Plantations one, Connecticut five, New York six, New Jersey four, Pennsylvania eight, Delaware one, Maryland six, Virginia ten, North Carolina five, South Carolina five, and Georgia three.

(4) When vacancies happen in the representation from any state, the executive authority thereof shall issue writs of election to fill such vacancies.

(5) The house of representatives shall choose their speaker and other officers; and shall have the sole power of impeachment.

SEC. 3. (1) The senate of the United States shall be composed of two senators from each state, chosen by the legislature thereof for six years; and each senator shall have one vote.

(2) Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and if vacancies happen, by resignation or otherwise, during the recess of the legislature of any state, the executive thereof may make temporary appointments until the next meeting of the legislature, which shall then fill such vacancies.

(3) No person shall be a senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that state for which he shall be chosen.

(4) The vice-president of the United States shall be president of the senate, but shall have no vote, unless they be equally divided.

(5) The senate shall choose their other officers, and also a president *pro tempore*, in the absence of the vice-president, or when he shall exercise the office of president of the United States.

(6) The senate shall have the sole power to try all impeachments. When sitting for that purpose they shall be on oath or affirmation. When the president of the United States is tried, the chief justice shall preside; and no person shall be convicted without the concurrence of two-thirds of the members present.

(7) Judgment in cases of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust or profit under the United States; but the party convicted shall nevertheless be liable and subject to indictment, trial, judgment and punishment, according to law.

SEC. 4. (1) The times, places and manner of holding elections for senators and representatives shall be prescribed in each state by the legislature thereof, but the congress may at any time by law make or alter such regulations, except as to the places of choosing senators.

(2) The congress shall assemble at least once in every year, and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.

* The foregoing clause included in brackets is amended by sec. 2 of the 14th amendment, *post*.

SEC. 5. (1) Each house shall be the judge of the elections, returns and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members, in such manner and under such penalties as each house may provide.

(2) Each house may determine the rules of its proceedings, punish its members for disorderly behavior, and, with the concurrence of two-thirds, expel a member.

(3) Each house shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgment require secrecy; and the yeas and nays of the members of either house on any question shall, at the desire of one-fifth of those present, be entered on the journal.

(4) Neither house, during the session of congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two houses shall be sitting.

SEC. 6. (1) The senators and representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the treasury of the United States. They shall in all cases, except treason, felony and breach of the peace, be privileged from arrest during their attendance at the sessions of their respective houses, and in going to and returning from the same; and for any speech or debate in either house they shall not be questioned in any other place.

(2) No senator or representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States, which shall have been created, or the emoluments whereof shall have been increased, during such time; and no person holding any office under the United States shall be a member of either house during his continuance in office.

SEC. 7. (1) All bills for raising revenue shall originate in the house of representatives, but the senate may propose or concur with amendments, as on other bills.

(2) Every bill which shall have passed the house of representatives and the senate, shall, before it becomes a law, be presented to the president of the United States; if he approve he shall sign it, but if not he shall return it, with his objections, to that house in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it. If after such reconsideration two-thirds of that house shall agree to pass the bill, it shall be sent, together with the objections, to the other house, by which it shall likewise be reconsidered, and, if approved by two-thirds of that house, it shall become a law. But in all such cases the votes of both houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each house, respectively. If any bill shall not be returned by the president within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law, in like manner as if he had signed it, unless the congress by their adjournment prevent its return, in which case it shall not be a law.

(3) Every order, resolution or vote to which the concurrence of the senate and house of representatives may be necessary (except on a question of adjournment) shall be presented to the president of the United States, and, before the same shall take effect, shall be approved by him, or, being disapproved by him, shall be repassed by two-thirds of the senate and house of representatives, according to the rules and limitations prescribed in the case of a bill.

SEC. 8. The congress shall have power:—

(1) To lay and collect taxes, duties, imposts and excises, to pay the debts and

provide for the common defense and general welfare of the United States; but all duties, imposts and excises shall be uniform throughout the United States;

(2) To borrow money on the credit of the United States;

(3) To regulate commerce with foreign nations, and among the several states, and with the Indian tribes;

(4) To establish an uniform rule of naturalization, and uniform laws on the subject of bankruptcies throughout the United States;

(9) To constitute tribunals inferior to the supreme court;

(10) To define and punish piracies and felonies committed on the high seas, and offenses against the law of nations;

(11) To declare war, grant letters of marque and reprisal, and make rules concerning captures on land and water;

(12) To raise and support armies; but no appropriation of money to that use shall be for a longer term than two years;

(13) To provide and maintain a navy,

(14) To make rules for the government and regulation of the land and naval forces,

(15) To provide for calling forth the militia to execute the laws of the union, suppress insurrections and repel invasions;

(16) To provide for organizing, arming and disciplining the militia, and for governing such part of them as may be employed in the service of the United States; reserving to the states, respectively, the appointment of the officers and the authority of training the militia according to the discipline prescribed by congress;

(17) To exercise exclusive legislation, in all cases whatsoever, over such district (not exceeding ten miles square) as may, by cession of particular states and the acceptance of congress, become the seat of the government of the United States, and to exercise like authority over all places purchased by the consent of legislature of the state in which the same shall be, for the erection of forts, magazines, arsenals, dock yards and other needful buildings; and--

(18) To make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested by this constitution in the government of the United States, or in any department or officer thereof.

SEC. 9. (1) The migration or importation of such persons as any of the states now existing shall think proper to admit shall not be prohibited by the congress prior to the year one thousand eight hundred and eight, but a tax or duty may be imposed on such importation, not exceeding ten dollars for each person.

(2) The privilege of the writ of *habeas corpus* shall not be suspended, unless when, in cases of rebellion or invasion, the public safety may require it.

(3) No bill of attainder or *ex post facto* law shall be passed.

(4) No capitation or other direct tax shall be laid, unless in proportion to the census or enumeration hereinbefore directed to be taken.

(5) No tax or duty shall be laid on articles exported from any state.

(6) No preference shall be given by any regulation of commerce or revenue to

the ports of one state over those of another; nor shall vessels bound to or from one state be obliged to enter, clear or pay duties in another.

(7) No money shall be drawn from the treasury but in consequence of appropriations made by law, and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time.

(8) No title of nobility shall be granted by the United States; and no person holding any office of profit or trust under them shall, without the consent of the congress, accept of any present, emolument, office or title, of any kind whatever, from any king, prince or foreign state.

SEC. 10. (1) No state shall enter into any treaty, alliance or confederation; grant letters of marque and reprisal; coin money; emit bills of credit; make any thing but gold and silver coin a tender in payment of debts; pass any bill of attainder, *ex post facto* law, or law impairing the obligation of contracts, or grant any title of nobility.

(2) No state shall, without the consent of the congress, lay any imposts or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws; and the net produce of all duties and imposts, laid by any state on imports or exports, shall be for the use of the treasury of the United States; and all such laws shall be subject to the revision and control of the congress.

(3) No state shall, without the consent of congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into any agreement or compact with another state, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.

ARTICLE II.

SECTION I. (1) The executive power shall be vested in a president of the United States of America. He shall hold his office during the term of four years, and, together with the vice-president chosen for the same term, be elected as follows:

(2) Each state shall appoint, in such manner as the legislature thereof may direct, a number of electors, equal to the whole number of senators and representatives to which the state may be entitled in the congress; but no senator or representative, or person holding an office of trust or profit under the United States, shall be appointed an elector.

The electors shall meet in their respective states and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same state with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each; which list they shall sign and certify, and transmit sealed to the seat of the government of the United States, directed to the president of the senate. The president of the senate shall, in the presence of the senate and house of representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the president, if such number be a majority of the whole number of electors appointed; and if there be more than one who have such majority, and have an equal number of votes, then the house of representatives shall immediately choose, by ballot, one of them for president; and if no person have a majority, then, from the five highest on the list, the said house shall, in like manner, choose the president. But in choosing the president, the votes shall be taken by states, the representation from each state having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the states, and a majority of all the states shall be necessary to a choice. In every case, after the choice of the president, the person having the greatest number of votes of the electors shall be the vice-president. But if there

should remain two or more who have equal votes, the senate shall choose from them, by ballot, the vice-president.

[The foregoing clause has been superseded and annulled by the twelfth amendment, *post.*]

(3) The congress may determine the time of choosing the electors, and the day on which they shall give their votes; which day shall be the same throughout the United States.

(4) No person except a natural born citizen, or a citizen of the United States at the time of the adoption of this constitution, shall be eligible to the office of president; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years, and been fourteen years a resident within the United States.

(5). In case of the removal of the president from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the vice-president, and the congress may by law provide for the case of removal, death, resignation or inability, both of the president and vice-president, declaring what officer shall then act as president, and such officer shall act accordingly until the disability be removed or a president shall be elected.

(6) The president shall, at stated times, receive for his services a compensation, which shall neither be increased nor diminished during the period for which he shall have been elected, and he shall not receive within that period any other emolument from the United States or any of them

(7) Before he enter on the execution of his office, he shall take the following oath or affirmation:

"I do solemnly swear (or affirm) that I will faithfully execute the office of president of the United States; and will, to the best of my ability, preserve, protect, and defend the constitution of the United States."

SEC. 2. (1) The president shall be commander-in-chief of the army and navy of the United States, and of the militia of the several states when called into the actual service of the United States; he may require the opinion in writing of the principal officer in each of the executive departments, upon any subject relating to the duties of their respective offices; and he shall have power to grant reprieves and pardons for offenses against the United States, except in cases of impeachment.

(2) He shall have power, by and with the advice and consent of the senate, to make treaties, provided two-thirds of the senators present concur; and he shall nominate, and by and with the advice and consent of the senate shall appoint, ambassadors, other public ministers and consuls, judges of the supreme court, and all other officers of the United States, whose appointments are not herein otherwise provided for and which shall be established by law. But the congress may, by law, vest the appointment of such inferior officers as they think proper in the president alone, in the courts of law, or in the heads of departments.

(3) The president shall have power to fill up all vacancies that may happen during the recess of the senate, by granting commissions, which shall expire at the end of their next session.

SEC. 3. He shall from time to time give to the congress information of the state of the Union, and recommend to their consideration such measures as he shall judge necessary and expedient. He may, on extraordinary occasions, convene both houses, or either of them; and, in case of disagreement between them with respect to the time of adjournment, he may adjourn them to such time as he shall think proper. He shall receive ambassadors and other public ministers. He shall take care that the laws be faithfully executed; and shall commission all the officers of the United States.

SEC. 4. The president, vice-president, and all civil officers of the United States, shall be removed from office on impeachment for, and conviction of, treason, bribery, or other high crimes and misdemeanors.

ARTICLE III.

SECTION 1. The judicial power of the United States shall be vested in one supreme court, and in such inferior courts as the congress may, from time to time, ordain and establish. The judges, both of the supreme and inferior courts, shall hold their offices during good behavior; and shall, at stated times, receive for their services a compensation, which shall not be diminished during their continuance in office.

SEC. 2. (1) The judicial power shall extend to all cases in law and equity arising under this constitution, the laws of the United States, and treaties made, or which shall be made, under their authority; to all cases affecting ambassadors, other public ministers and consuls; to all cases of admiralty and maritime jurisdiction; to controversies to which the United States shall be a party; to controversies between two or more states, between a state and citizens of another state, between citizens of different states, between citizens of the same state claiming lands under grants of different states, and between a state, or the citizens thereof, and foreign states, citizens or subjects.

(2) In all cases affecting ambassadors, other public ministers and consuls, and those in which a state shall be a party, the supreme court shall have original jurisdiction. In all the other cases, before mentioned, the supreme court shall have appellate jurisdiction, both as to law and fact, with such exceptions and under such regulations as the congress shall make.

(3) The trial of all crimes, except in cases of impeachment, shall be by jury; and such trial shall be held in the state where the said crimes shall have been committed; but when not committed within any state, the trial shall be at such place or places as the congress may by law have directed.

SEC. 3. (1) Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.

(2) The congress shall have power to declare the punishment of treason, but no attainder of treason shall work corruption of blood, or forfeiture, except during the life of the person attainted.

ARTICLE IV.

SECTION 1. Full faith and credit shall be given in each state to the public acts, records and judicial proceedings of every other state. And the congress may, by general laws, prescribe the manner in which such acts, records and proceedings shall be proved, and the effect thereof.

SEC. 2. (1) The citizens of each state shall be entitled to all privileges and immunities of citizens in the several states.

(2) A person charged in any state with treason, felony or other crime, who shall flee from justice and be found in another state, shall, on demand of the executive authority of the state from which he fled, be delivered up, to be removed to the state having jurisdiction of the crime.

(3) No person held to service or labor in one state, under the laws thereof, escaping into another, shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due.

SEC. 3. (1) New states may be admitted by the congress into this Union; but no new state shall be formed or erected within the jurisdiction of any other state, nor any state be formed by the junction of two or more states, or parts of states, without the consent of the legislatures of the states concerned, as well as of the congress.

(2) The congress shall have power to dispose of, and make all needful rules and regulations respecting, the territory or other property belonging to the United States; and nothing in this constitution shall be so construed as to prejudice any claims of the United States or of any particular state.

SEC. 4. The United States shall guarantee to every state in this Union a republican form of government, and shall protect each of them against invasion; and, on application of the legislature, or of the executive (when the legislature cannot be convened), against domestic violence.

ARTICLE V.

The congress, whenever two-thirds of both houses shall deem it necessary, shall propose amendments to this constitution, or, on the application of the legislatures of two-thirds of the several states, shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes, as part of this constitution, when ratified by the legislatures of three-fourths of the several states, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the congress: *provided* that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the ninth section of the first article; and that no state, without its consent, shall be deprived of its equal suffrage in the senate.

ARTICLE VI.

(1) All debts contracted and engagements entered into before the adoption of this constitution shall be as valid against the United States under this constitution as under the confederation.

(2) This constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land; and the judges in every state shall be bound thereby, anything in the constitution or laws of any state to the contrary notwithstanding.

(3) The senators and representatives before mentioned, and the members of the several state legislatures, and all executive and judicial officers, both of the United States and of the several states, shall be bound by oath or affirmation to support this constitution; but no religious test shall ever be required as a qualification to any office or public trust under the United States.

ARTICLE VII.

The ratification of the conventions of nine states shall be sufficient for the establishment of this constitution between the states so ratifying the same.

Done in convention, by the unanimous consent of the states present, the seventeenth day of September, in the year of our Lord one thousand seven hundred and eighty-seven, and of the independence of the United States of America the twelfth. In witness whereof, we have hereunto subscribed our names.

And, after the said third day of July next, all power and authority of the government of Wisconsin, in and over the territory hereby constituted, shall cease; *provided*, that nothing in this act contained shall be construed to impair the rights of person or property now appertaining to any Indians within the said territory, so long as such rights shall remain unextinguished by treaty between the United States and such Indians, or to impair the obligations of any treaty now existing between the United States and such Indians, or to impair or anyway to affect the the authority of the government of the United States to make any regulations respecting such Indians, their lands, property or other rights, by treaty, or law, or otherwise, which it would have been competent to the government to make if this act had never been passed; *provided*, that nothing in this act contained shall be construed to inhibit the government of the United States from dividing the territory hereby established into one or more other territories, in such manner and at such times as Congress shall, in its discretion, deem convenient and proper, or from attaching any portion of said territory to any other state or territory of the United States.

SEC. 2. *And be it further enacted,* That the executive power and authority in and over the said territory of Iowa shall be vested in a governor, who shall hold his office for three years, unless sooner removed by the president of the United States. SEC. 6. *And be it further enacted*, That the legislative power of the territory shall extend to all rightful subjects of legislation; but no law shall be passed interfering with the primary disposal of the soil; no tax shall be imposed upon the property of the United States; nor shall the lands or other property of non-residents be taxed higher than the lands or other property of residents. All the laws of the governor and legislative assembly shall be submitted to, and, if disapproved by, the Congress of the United States, the same shall be null and of no effect.

SEC. 7. *And be it further enacted*, That all township officers, and all county officers except judicial officers, justices of the peace, sheriffs and clerks of courts shall be elected by the people in such manner as is now prescribed by the laws of the territory of Wisconsin, or as may, after the first election, be provided by the governor and legislative assembly of Iowa territory. The governor shall nominate, and, by and with the advice and consent of the legislative council, shall appoint all judicial officers, justices of the peace, sheriffs, and all militia officers, except those of the staff, and all civil officers not herein provided for. Vacancies occurring in the recess of the Council shall be filled by appointments from the governor, which shall expire at the end of the next session of the legislative assembly; but the said governor may appoint, in the first instance, the aforesaid officers, who shall hold their offices until the end of the next session of the said legislative assembly.

SEC. 8. *And be it further enacted*, That no member of the legislative assembly shall hold, or be appointed to, any office created, or the salary or emoluments of which shall have been increased, whilst he was a member, during the term for which he shall have been elected, and for one year after the expiration of such term; and no person holding a commission or appointment under the United States, or any of its officers except as a militia officer, shall be a member of the said Council or House of Representatives, or shall hold any office under the government of the said territory.

And writs of error and appeals from the final decision of the said supreme court shall be allowed and taken to the supreme court of the United States, in the same manner and under the same regulations as from the circuit courts of the United States, where the value of the property or the amount in controversy, to be ascertained by the oath or affirmation of either party, shall exceed \$1,000. And each of the said district courts shall have and exercise the same jurisdiction in all cases arising under the constitution and laws of the United States as is vested in the circuit and district courts of the United States. And writs of error and appeals from the final decisions of the said courts, in all such cases, shall be made to the supreme court of the territory, in the same manner as in other cases. The said clerk shall receive in all such cases the same fees which the clerks of the district courts of Wisconsin territory now receive for similar services.

SEC. 10. *And be it further enacted,* That there shall be an attorney for the said territory appointed, who shall continue in office for four years, unless sooner removed by the president, and who shall receive the same fees and salary as the attorney of the United States for the present territory of Wisconsin. There shall also be a marshal for the territory appointed, who shall hold his office for four years, unless sooner removed by the president, who shall execute all process issuing from the said courts when exercising their jurisdiction as circuit and district courts of the United States. He shall perform the same duties, be subject to the same regulations and penalties, and be entitled to the same fees as the marshal of the district court of the United States for the present territory of Wisconsin; and shall, in addition, be paid the sum of \$200 annually as a compensation for extra services.

SEC. 11. *And be it further enacted,* That the governor, secretary, chief justice and associate judges, attorney and marshal shall be nominated, and, by and with the advice and consent of the Senate, appointed, by the president of the United States. The governor and secretary, to be appointed as aforesaid, shall, before they act as such, respectively take an oath or affirmation before some judge or justice of the peace in the existing territory of Wisconsin, duly commissioned and qualified to administer an oath or affirmation, or before the chief justice or some associate justice of the supreme court of the United States, to support the constitution of the United States, and for the faithful discharge of the duties of their respective offices; which said oaths, when so taken, shall be certified by the person before whom the same shall have been taken, and such certificate shall be received and recorded by the said secretary among the executive proceedings. And, afterwards, the chief justice and associate judges, and all other civil officers in said territory, before they act as such, shall take a like oath or affirmation, before said governor, or secretary, or some judge or justice of the territory, who may be duly commissioned and qualified, which said oath or affirmation shall be certified and transmitted, by the person taking the same, to the secretary, to be by him recorded as aforesaid; and, afterwards, the like oath or affirmation shall be taken, certified and recorded in such manner and form as may be prescribed by law. The governor shall receive an annual salary of \$1,500 as governor, and \$1,000 as superintendent of Indian affairs. The said chief judge and associate justices shall each receive an annual salary of \$1,500. The secretary shall receive an annual salary of \$1,200. The said salaries shall be paid quarter-yearly, at the treasury of the United States

The members of the legislative assembly shall be entitled to receive three dollars each, per day, during their attendance at the session thereof, and three dollars each for every twenty miles travel in going to and returning from the said sessions, estimated according to the nearest usually traveled route. There shall be appropriated annually the sum of \$350 to be expended by the governor to defray the contingent expenses of the territory; and there shall also be appropriated annually a sum sufficient, to be expended by the secretary of the territory, and upon an estimate to be made by the secretary of the treasury of the United States, to defray the expenses of the legislative assembly, the printing of the laws, and other incidental expenses; and the secretary of the territory shall annually account to the secretary of the treasury of the United States for the manner in which the aforesaid sum shall have been expended.

SEC. 12. *And be it further enacted*, That the inhabitants of the said territory shall be entitled to all the rights, privileges and immunities heretofore granted and secured to the territory of Wisconsin, and to its inhabitants; and the existing laws of the territory of Wisconsin shall be extended over said territory, so far as the same be not incompatible with the provisions of this act, subject, nevertheless, to be altered, modified or repealed by the governor and legislative assembly of the said territory of Iowa; and, further, the laws of the United States are hereby extended over and shall be in force in said territory, so far as the same, or any provisions thereof, may be applicable.

SEC. 13. *And be it further enacted*, That the legislative assembly of the territory of Iowa shall hold its session at such time and place in said territory as the governor thereof shall appoint and direct; and at said session, or as soon thereafter as may by them be deemed expedient, the said governor and legislative assembly shall proceed to locate and establish the seat of government for said territory, at such place as they may deem eligible, which place, however, shall thereafter be subject to be changed by the governor and legislative assembly. And the sum of \$20,000 out of any money in the treasury not otherwise appropriated, is hereby granted to the said territory of Iowa, which shall be applied by the governor and legislative assembly thereof to defray the expenses of erecting public buildings at the seat of government.

SEC. 14. *And be it further enacted*, That a delegate to the House of Representatives of the United States, to serve for the term of two years, may be elected by the voters qualified to elect members of the legislative assembly, who shall be entitled to the same rights and privileges as have been granted to the delegates from the several territories of the United States to the said House of Representatives. The first election shall be held at such time and place or places, and be conducted in such manner, as the governor shall appoint and direct. The person having the greatest number of votes shall be declared by the governor to be duly elected, and a certificate thereof shall be given to the person so elected.

SEC. 15. *And be it further enacted*, That all suits, process and proceedings, and all indictments and informations, which shall be undetermined on the third day of July next, in the district courts of Wisconsin territory, west of the Mississippi river, shall be transferred to be heard, tried, prosecuted and determined in the district courts hereby established, which may include the said counties.

SEC. 16. *And be it further enacted*, That all justices of the peace, constables, sheriffs, and all other executive and judicial officers, who shall be in office on the third day of July next in that portion of the present territory of Wisconsin which will then, by this act, become the territory of Iowa, shall be, and are hereby authorized and required to continue to exercise and perform the duties of their respective offices, as officers of the territory of Iowa, temporarily, and until they

or others shall be duly appointed to fill their places by the territorial government of Iowa, in the manner herein directed; *provided*, that no officer shall hold or continue in office by virtue of this provision over twelve months from the said third day of July next.

SEC. 17. *And be it further enacted*, That all causes which shall have been or may be removed from the courts held by the present territory of Wisconsin, in the counties west of the Mississippi river, by appeal or otherwise, into the supreme court for the territory of Wisconsin, and which shall be undetermined therein on the third day of July next, shall be certified by the clerk of the said supreme court, and transferred to the supreme court of said territory of Iowa, there to be proceeded in to final determination, in the same manner that they might have been in the said supreme court of the territory of Wisconsin.

SEC. 18. *And be it further enacted*, That the sum of \$5,000 be, and the same is hereby, appropriated, out of any money in the treasury not otherwise appropriated, to be expended by and under the direction of the governor of said territory of Iowa in the purchase of a library, to be kept at the seat of government, for the accommodation of the governor, legislative assembly, judges, secretary, marshal and attorney of said territory, and such other persons as the governor and legislative assembly shall direct.

SEC. 19. *And be it further enacted*, That from and after the day named in this act for the organization of the territory of Iowa, the term of the members of the Council and House of Representatives of the territory of Wisconsin shall be deemed to have expired, and an entirely new organization of the Council and House of Representatives of the territory of Wisconsin, as constituted by this act, shall take place as follows: As soon as practicable, after the passage of this act, the governor of the territory of Wisconsin shall apportion the thirteen members of the Council, and twenty-six members of the House of Representatives, among the several counties or districts comprised within said territory, according to their population, as nearly as may be (Indians excepted). The first election shall be held at such time as the governor shall appoint and direct, and shall be conducted, and returns thereof made, in all respects according to the provisions of the laws of said territory, and the governor shall declare the person having the greatest number of votes to be elected, and shall order a new election, when there is a tie between two or more persons voted for, to supply the vacancy made by such tie. The persons thus elected shall meet at Madison, the seat of government, on such day as he shall appoint, but thereafter the apportioning of the representation in the several counties to the council and House of Representatives according to population, the day of their election, and the day for the commencement of the session of the legislative assembly, shall be prescribed by law.

SEC. 20. *And be it further enacted*, That temporarily, and until otherwise provided by law of the legislative assembly, the governor of the territory of Iowa may define the judicial districts of said territory, and assign the judges who may be appointed for said territory to the several districts, and also appoint the time for holding courts in the several counties in each district, by proclamation issued by him; but the legislative assembly, at their first or any subsequent session, may organize, alter or modify such judicial districts, and assign the judges, and alter the time of holding the courts, or any of them.

ADMISSION OF IOWA INTO THE UNION.

AN ACT FOR THE ADMISSION OF THE STATES OF IOWA AND FLORIDA INTO THE UNION.

[Approved March 3, 1845]

WHEREAS, The people of the territory of Iowa did, on the seventh day of October, eighteen hundred and forty-four, by a convention of delegates called and assembled for that purpose, form for themselves a constitution and state government; and, whereas, the people of the territory of Florida did, in like manner, by their delegates, on the eleventh day of January, eighteen hundred and thirty-nine, form for themselves a constitution and state government, both of which said constitutions are republican; and said conventions having asked the admission of their respective territories into the union as states, on equal footing with the original states:

SECTION 1. *Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled,* That the states of Iowa and Florida be, and the same are hereby, declared to be states of the United States of America, and are hereby admitted into the union on equal footing with the original states, in all respects whatsoever.

SEC. 2. *And be it further enacted,* That the following shall be the boundaries of the said state of Iowa, to-wit: beginning at the mouth of the Des Moines river, at the middle of the Mississippi, thence by the middle of the channel of that river to a parallel of latitude passing through the mouth of the Mankato or Blue-earth river, thence west along the said parallel of latitude to a point where it is intersected by a meridian line, seventeen degrees and thirty minutes west of the meridian of Washington city, thence due south to the northern boundary line of the state of Missouri, thence eastwardly following that boundary to the point at which the same intersects the Des Moines river, thence by the middle of the channel of that river to the place of beginning.

SEC. 3. *And be it further enacted,* That the said state of Iowa shall have concurrent jurisdiction on the river Mississippi, and every other river bordering on the said state of Iowa, so far as the said rivers shall form a common boundary to said state and any other state or states now or hereafter to be formed or bounded by the same; such rivers to be common to both; and that the said river Mississippi, and the navigable waters leading into the same, shall be common highways, and forever free, as well to the inhabitants of said state as to all other citizens of the United States, without any tax, duty, impost or toll therefor, imposed by the said state of Iowa.

SEC. 4. *And be it further enacted,* That it is made and declared to be a fundamental condition of the admission of said state of Iowa into the union, that so much of this act as relates to the said state of Iowa shall be assented to by a majority of the qualified electors at their township elections, in the manner and at the time prescribed in the sixth section of the thirteenth article of the constitution

adopted at Iowa City the first day of November, *Anno Domini* eighteen hundred and forty-four, or by the legislature of said state. And, so soon as such assent shall be given, the president of the United States shall announce the same by proclamation; and therefrom, without further proceedings on the part of Congress, the admission of the said state of Iowa into the union, on an equal footing in all respects whatever with the original states, shall be considered as complete.

SEC. 5. *And be it further enacted*, That said state of Florida shall embrace the territories of East and West Florida, which, by the treaty of amity, settlement and limits between the United States and Spain, on the twenty-second day of February, eighteen hundred and nineteen, were ceded to the United States.

SEC. 6. *And be it further enacted*, That, until the next census and apportionment shall be made, each of said states of Iowa and Florida shall be entitled to one representative in the House of Representatives of the United States.

SEC. 7. *And be it further enacted*, That said states of Iowa and Florida are admitted into the union on the express condition that they shall never interfere with the primary disposal of the public lands lying within them, nor levy any tax on the same whilst remaining the property of the United States; *provided*, that the ordinance of the convention that formed the constitution of Iowa, and which is appended to the said constitution, shall not be deemed or taken to have any effect or validity, or to be recognized as in any manner obligatory upon the government of the United States.

AN ACT SUPPLEMENTAL TO THE ACT FOR THE ADMISSION OF THE STATES OF IOWA AND FLORIDA INTO THE UNION.

[Approved March 3, 1845.]

SECTION 1. *Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled*, That the laws of the United States, which are not locally inapplicable, shall have the same force and effect within the state of Iowa as elsewhere within the United States.

SEC. 2. *And be it further enacted*, That the said state shall be one district, and be called the district of Iowa; and a district court shall be held therein, to consist of one judge, who shall reside in the said district, and be called a district judge. He shall hold, at the seat of government of the said state, two sessions of the said district court annually, on the first Monday in January, and he shall, in all things, have and exercise the same jurisdiction and powers which were by law given to the judge of the Kentucky district, under an act entitled, "An act to establish the judicial courts of the United States." He shall appoint a clerk for the said district, who shall reside and keep the records of the said court at the place of holding the same; and shall receive, for the services performed by him, the same fees to which the clerk of the Kentucky district is by law entitled for similar services.

SEC. 3. *And be it further enacted*, That there shall be allowed to the judge of the said district court the annual compensation of \$1,500, to commence from the date of his appointment, to be paid quarterly at the treasury of the United States.

SEC. 4. *And be it further enacted*, That there shall be appointed in the said district a person learned in the law to act as attorney for the United States; who shall, in addition to his stated fees, be paid annually by the United States \$200, as a full compensation for all extra services; the said payments to be made quarterly, at the treasury of the United States.

SEC. 5. *And be it further enacted*, That a marshal shall be appointed for the said district, who shall perform the same duties, be subject to the same regulations and penalties, and be entitled to the same fees, as are prescribed and allowed to marshals in other districts; and shall, moreover, be entitled to the sum of \$200 annually as a compensation for all extra services.

SEC. 6. *And be it further enacted*, That, in lieu of the propositions submitted to the Congress of the United States by an ordinance passed on the first day of November, eighteen hundred and forty-four, by the convention of delegates at Iowa City, assembled for the purpose of making a constitution for the State of Iowa, which are hereby rejected, the following propositions be, and the same are hereby, offered to the legislature of the State of Iowa, for their acceptance or rejection; which, if accepted, under the authority conferred on the said legislature, by the convention which framed the constitution of the said state, shall be obligatory upon the United States.

4. That all salt springs within the state, not exceeding twelve in number, with six sections of land adjoining, or as contiguous as may be to each, shall be granted to the said state for its use; the same to be selected by the legislature thereof within one year after the admission of said state, and the same, when so selected to be used on such terms, conditions and regulations as the legislature of the state shall direct; *provided*, that no salt spring, the right whereof is now vested in any individual or individuals, or which may hereafter be confirmed or adjudged to any individual or individuals, shall, by this section, be granted to said state, *and provided*, also, that the General Assembly shall never lease or sell the same, at any one time, for a longer period than ten years' without the consent of Congress.

5. That five per cent. of the net proceeds of sales of public lands lying within the said state, which have been or shall be sold by Congress, from and after the admission of said state, after deducting all the expenses incident to the same, shall be appropriated for making public roads and canals within the said state, as the legislature may direct; *provided* that the five foregoing propositions herein offered are on the condition that the legislature of the said state, by virtue of the powers conferred upon it by the convention which framed the constitution of the said state, shall provide by an ordinance, irrevocable without the consent of the United States, that the said state shall never interfere with the primary disposal of the soil within the same by the United States, nor with any regulations Congress may find necessary for securing the title in such soil to the *bona fide* purchasers thereof; and that no tax shall be imposed upon lands the property of the United States; and that in

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following shall be, and they are hereby, declared to be the boundaries of the State of Iowa, in lieu of those prescribed by the second section of the act of the third of March eighteen hundred and forty-five, entitled "An Act for the Admission of the States of Iowa and Florida into the Union," viz: Beginning in the middle of the main channel of the Mississippi river, at a point due east of the middle of the mouth of the main channel of the Des Moines river; thence up the middle of the main channel of the said Des Moines river, to a point on said river where the northern boundary line of the State of Missouri, as established by the constitution of that state, adopted June twelfth, eighteen hundred and twenty, crosses the said middle of the main channel of the said Des Moines river; thence, westwardly, along the said northern boundary line of the State of Missouri, as established at the time aforesaid, until an extension of said line intersects the middle of the main channel of the Missouri river; thence, up the middle of the main channel of the said Missouri river, to a point opposite the middle of the main channel of the Big Sioux river, according to Nicollet's map; thence, up the main channel of the said Big Sioux river, according to said map, until it is intersected by the parallel of forty-three degrees and thirty minutes north latitude; thence east along said parallel of forty-three degrees and thirty minutes, until said parallel intersects the middle of the main channel of the Mississippi river; thence, down the middle of the main channel of said Mississippi river, to the place of beginning.

SEC. 2. *And be it further enacted,* That the question which has heretofore been the subject-matter of controversy and dispute between the state of Missouri and the territory of Iowa, respecting the precise location of the northern boundary line of the state of Missouri, shall be, and the same is hereby, referred to the supreme court of the United States for adjudication and settlement, in accordance with the act of the legislature of Missouri, approved March twenty-five, eighteen hundred and forty-five, and the memorial of the council and House of Representatives of the territory of Iowa, approved January seventeenth, eighteen hundred and forty-six, by which both parties have agreed to "the commencement and speedy determination of such suit as may be necessary to procure a final decision by the supreme court of the United States upon the true location of the northern boundary of that state;" and the said supreme court is hereby invested with all the

power and authority necessary to the performance of the duty imposed by this section.

SEC. 3. *And be it further enacted*, That, until the next census and apportionment shall be made, the state of Iowa shall be entitled to two representatives in the House of Representatives of the United States.

SEC. 4. *And be it further enacted*, That so much of the act of the third of March, eighteen hundred and forty-five, entitled "An act for the admission of the states of Iowa and Florida into the union," relating to the said state of Iowa, as is inconsistent with the provisions of this act, be, and the same is hereby, repealed.

If any bill shall not be returned within three days after it shall have been presented to him (Sunday excepted), the same shall be a law in like manner as if he had signed it, unless the general assembly, by adjournment, prevent such return. Any bill submitted to the governor for his approval during the last three days of a session of the general assembly, shall be deposited by him in the office of the secretary of state within thirty days after the adjournment, with his approval, if approved by him, and with his objections, if he disapproves thereof.

Extra compensation. SEC. 31. No extra compensation shall be made to any officer, public agent, or contractor, after the service shall have been rendered, or the contract entered into; nor shall any money be paid on any claim, the subject-matter of which shall not have been provided for by pre-existing laws, and no public money or property shall be appropriated for local or private purposes, unless such appropriation, compensation, or claim be allowed by two-thirds of the members elected to each branch of the general assembly.

The state shall be divided into eleven judicial districts; and after the year eighteen hundred and sixty, the general assembly may reorganize the judicial districts, and increase or diminish the number of districts, or the number of judges of the said court, and may increase the number of judges of the supreme court; but such increase or diminution shall not be more than one district, or one judge of either court, at any one session; and no reorganization of the districts, or diminution of the judges, shall have the effect of removing a judge from office. Such reorganization of the districts, or any change in the boundaries thereof, or any increase or diminution of the number of judges, shall take place every four years thereafter, if necessary, and at no other time.

[AMENDMENT.] At any regular session of the general assembly, the state may be divided into the necessary judicial districts for district court purposes, or the said districts may be reorganized and the number of the districts and the judges of said courts increased or diminished; but no reorganization of the districts or diminution of the judges shall have the effect of removing a judge from office.

[By proper legislative action (19 G. A., Joint Res. No. 12, and 20 G. A., Joint Res. No. 13) the foregoing was submitted to the electors at the general election in 1884 as a proposed amendment to the constitution, and was by them adopted.]

[By proper legislative action (19 G. A., Joint Res. No. 12, and 20 G. A., Joint Res. No. 13) a proposition to substitute the foregoing for the original section was submitted to the electors at the general election in 1884, and by them adopted. The original section was as follows:

SEC. 13. The qualified electors of each judicial district shall, at the time of the election of the district judge, elect a district attorney, who shall be a resident of the district for which he is elected, and who shall hold his office for the term of four years, and until his successor shall have been elected and qualified.]

Carrying into effect. SEC. 14. It shall be the duty of the general assembly to provide for the carrying into effect of this article and to provide for a general system of practice in all the courts of this state.

The grand jury. [SEC. 15.] The grand jury may consist of any number of members not less than five, nor more than fifteen, as the general assembly may by law provide, or the general assembly may provide for holding persons to answer for any criminal offense without the intervention of the grand jury.

[By proper legislative action (19 G. A., Joint Res. No. 12 and 20 G. A., Joint Res. No. 13) the foregoing was submitted to the electors at the general election in 1884 as a proposed amendment to the constitution, and was by them adopted.]

Limitation. SEC. 2. The state may contract debts to supply casual deficits or failures in revenues; or to meet expenses not otherwise provided for; but the aggregate amount of such debts, direct and contingent, whether contracted by virtue of one or more acts of the general assembly, or at different periods of time, shall never exceed the sum of \$250,000; and the money arising from the creation of such debts shall be applied to the purpose for which it was obtained, or to repay the debts so contracted, and to no other purpose whatever.

Question of incurring debt submitted. SEC. 5. Except the debts hereinbefore specified in this article, no debt shall be hereafter contracted by, or on behalf of this state, unless such debt shall be authorized by some law for some single work or object, to be distinctly specified therein; and such law shall impose and provide for the collection of a direct annual tax, sufficient to pay the interest on such debt, as it falls due, and also to pay and discharge the principal of such debt, within twenty years from the time of the contracting thereof; but no such law shall take effect until at a general election it shall have been submitted to the people, and have received a majority of all the votes cast for and against it at such election; and all money raised by authority of such law, shall be applied only to the specific object therein stated, or to the payment of the debt created thereby; and such law shall be published in at least one newspaper in each county, if one is published therein, throughout the state, for three months preceding the election at which it is submitted to the people.

Legislature may repeal. SEC. 6. The legislature may, at any time, after the approval of such law by the people, if no debt shall have been contracted in pursuance thereof, repeal the same; and may at any time forbid the contracting of any further debt, or liability, under such law; but the tax imposed by such law, in proportion to the debt or liability which may have been contracted in pursuance thereof, shall remain in force and be irrepealable, and be annually collected, until the principal and interest are fully paid.

IOWA STATE LIBRARY.

BOARD OF TRUSTEES (EX-OFFICIO.)

HON. ALBERT B. CUMMINS, Governor, President of the Board.

 HON. SILAS M. WEAVER,

} Judges of the Supreme Court.

JOHNSON BRIGHAM, State Librarian.

The Iowa state library is an outgrowth of the library of the territory of Iowa, founded by congress in 1838, Theodore S. Parvin, librarian. In 1846 the state assumed control, but not until 1872 was the state library organized, with an ex-officio board of trustees and a state librarian.

The library then aggregated 14,500 volumes. In 1884 the library was removed from the old capitol to the new.

The library accession list on the first of January, 1902, included 71,543 volumes, exclusive of the volumes belonging to the traveling library department, 7,895 in number. The grand total of volumes accessioned in the state library, exclusive of the volumes accessioned in the historical department is 79,438.

The consolidation of the miscellaneous portion of the state library and the historical department, to which reference was made in last year's Official Register, was legally effected on the first day of January, 1901. The consolidated board consists, as before, of the governor, the secretary of state, the state superintendent and the members of the supreme court. The only difference made by the law in the board management of affairs is that before the consolidation the nine members of the board served in a dual capacity, managing the affairs of the state library and the affairs of the historical department separately, whereas now they serve the state as a single board, managing the two departments above named, and the law department, which was created by the consolidation act, as so many parts of the state library.

The actual transfer of miscellaneous books from the state library proper to the historical building was limited by the library board to historical collections and periodicals, maps, books pertaining to the War of the Rebellion, works on genealogy, the collection of books by Iowa authors, and a duplicate set of government documents. The transfer of the remaining books of the miscellaneous department was deferred until the completion of the historical building, there being no adequate room or facilities in the new building for all the books in that department. The transfer of a larger number of books than those above mentioned would have compelled a division of the library force which would have greatly inconvenienced the curator of the historical department, and would have crippled the regular state library force, especially at times when the supreme court and the general assembly draw heavily on the resources of the library. The full and complete realization of the purpose of the Twenty-eighth General Assembly as embodied in the consolidation law cannot be attained until the historical building is completed. That purpose, briefly stated, is to build up a great law and document library in the state capitol and an extensive historical and general library in the historical building, both libraries under one board management and supervision.

The traveling library department, having an annual appropriation of \$2,000, now has ninety-five libraries of fifty books each, and 3,145 volumes for special use, making a total of 7,895 volumes in that department. The special loan branch of the department, created about four years ago, has been found to meet the wants of clubs, scholars and students, and has been adopted as a most important part of Iowa's traveling library system. Through the hearty co-operation of State Superintendent Barrett, the traveling libraries, special and general, have, during the past year, been utilized by many rural high schools and graded schools, and with the best results, the books of the state serving to supplement the temporary weakness of many of the school libraries as newly organized under the school library law

CHARLES ALDRICH, A. M., *Curator.*

As now organized, this department dates from the first day of July, 1892. Its chief purpose is the collection of historical data relating to our own state and the territory of the middle west of which it originally formed a part. So far as literature is concerned special efforts are made to collect Iowa newspapers from the earliest dates to the present time; works of state and general western and national history and genealogy; works on the slavery question and the war for the union; histories of all our wars from the earliest times; reports upon the census of both state and nation; works relating to the North American Indians; county histories; earlier and later maps; Iowa pamphlets; biographies of our notable men and women, printed or in manuscript; written or printed documents relating to early settlers and settlements; reports, catalogues and broadsides relating to the churches, educational and benevolent institutions of the state; in short, every species of data which can throw light upon local, state or western history.

The department publishes *The Annals of Iowa*, an illustrated quarterly historical magazine of eighty pages, which will enter upon its tenth year with the number for April, 1902. This is made up of original contributions in history and biography. By direction of the trustees it is sent free to every organized library in our state. Its price to subscribers is \$1 per year.

In addition to *The Annals*, the Historical Department is to be credited with the following publications, viz.: Five biennial reports; "John Brown and Other Sketches," by Hon. Irving B. Richman, late United States Consul-General to Switzerland; The First Census (two pamphlets) of the counties of Dubuque and De Moine, taken in July, 1836,—edited by Dr. Benjamin F. Shambaugh, of the State University of Iowa, and "The Laws of Iowa, 1838-9." The last work (634 pp. octavo) is a verbatim reprint of the original publication. It is expected that the department will publish during the year 1902, "A history of the Iowa Constitution," by Dr. Shambaugh, and the hitherto unpublished Journals of the Council and House of Representatives of the extra session of 1840.

The department has secured forty-seven fine oil portraits of distinguished Iowans, the most of which are now on exhibition in the art gallery of the new historical building. As works of art many of these possess high value. Several more are promised in the near future.

Up to November 1, 1901, the collections of the department included the following:

Bound volumes of newspapers.....	2,704
Newspapers and periodicals coming to the department.....	402
Total number of books and pamphlets in the library.....	10,207

Also a large collection of autograph letters, manuscripts and portraits of notable people in all parts of the world.

The Museum includes seven large autograph cases; a collection of recent, aboriginal and prehistoric pottery—some of the most interesting specimens of which were found in our own state; a large collection of stone implements, among

which is an Iowa axe weighing 31¼ pounds—one of the largest ever discovered—with hundreds of flints; two large cases of birds—mostly specimens found within our state; many Iowa mammals; four large aquariums stocked with a collection of Iowa fishes; a case of Indian baskets, bead work, implements and weapons, the most of which were manufactured by the Musquakie Indians of Tama county; a collection of arms—cannon, mortars, swivel guns, rifles, muskets, carbines, swords and pistols—in use during the Civil, Spanish and Philippine wars; the Larrabee case with its highly interesting and historically valuable contents; with single items of more or less importance.

A large portion of the articles in this museum possess historic value, aside from their popular interest. It is estimated that over 50,000 people visited the Museum and Art Gallery in 1901. In this way the people are realizing a return for the taxes they pay for the support of the department. Not the least gratifying result of the years of work devoted to this department is the great measure of appreciation which has been accorded to it by people in every part of Iowa.

The corner-stone of the new building, authorized by act of the Twenty-sixth General Assembly, was laid by Gov. Leslie M. Shaw, with appropriate ceremonies, May 17, 1899, and thereafter the work of construction was pushed as rapidly as possible to completion. All the collections of the Historical Department—including the Museum—previously located in the southeast corner of the capitol building, in three of the basement rooms were transferred to their new quarters in January, 1900. The work of permanently arranging these collections has since been proceeding as rapidly as the conditions of the building and the reception of furniture would permit. The edifice is a fine and commodious one, and thoroughly equipped with modern appliances.

The Iowa Library Commission, created by the Twenty-eighth General Assembly, came into being on the first day of July, 1900. A meeting of the commission was held July 10, 1900, for the purpose of organization and consultation. The secretary of the commission, then chosen, entered upon the duties of her office October 1, 1900. From that date to the present time her services have been constantly in demand, and in several instances additional assistance has been necessary to perform the details of local work laid out by the secretary. In the first nine months of her service—covering the first year of the commission's existence—the secretary responded to twenty-eight calls from cities and towns in Iowa, in a few instances remaining a week or more at one place. The demands made upon her time and experience cover a wide range of activities, among which are the following: Planning for the submission of a library tax to a popular vote; aiding boards of trustees and librarians in organizing libraries for a business-like administration; assisting in the classifying, shelf-listing and cataloguing of books; addressing women's clubs, teachers' meetings, public meetings, etc.; conferring with library trustees and city councils in the consideration of plans for new libraries, with special reference to best working interior arrangement, etc. By correspondence also much information

has been given librarians and boards as to details of library economy, the selection and classification of books, etc. The commission has also contributed much to the development of the traveling library department of the state library. It has organized a magazine clearing house which receives free gifts of magazines and turns them over free to libraries as they are needed to supply or complete sets of the standard periodicals. Through its secretary's labors and the co-operation of the regents of the state university, the commission organized a six weeks summer school of library instruction at Iowa City in 1901, and is arranging for another session during the summer of 1902. The commission also publishes a quarterly periodical edited by its secretary, entitled The Iowa Library Commission Bulletin. The Bulletin has proven of timely service to Iowa librarians, containing much library information, general and technical, and valuable contributions from experienced and prominent librarians. The commission, now in the midst of its second year, is daily demonstrating its usefulness and the wisdom of the legislature in creating it. The fact that since its creation more than \$500,000 have been contributed and pledged to libraries in Iowa of itself attests the vitality of the library movement in the state, and is one of the many evidences of the need of the library commission to assist in giving direction to the movement.

BOARD OF VOTING MACHINE COMMISSIONERS.

Appointed by the Governor. Term five years. Compensation not to exceed \$1,500.

TERMS EXPIRE.

Sylvester B. Osborn, Tabor	July 3, 1905
Henry M. Belvel, Des Moines	July 3, 1905
William Blake, Strawberry Point.....	July 3, 1905

The voting machine commission was created by the act of the Twenty-eighth General Assembly, providing for the use of voting machines at all state, county, city, town and township elections. By this act the governor was authorized to appoint three commissioners, not more than two of whom should be from the same political party. The commissioners are appointed for the term of five years, subject to removal at the pleasure of the governor.

Individuals or corporations owning or interested in any voting machine may call upon the commissioners to examine the said voting machine. After such examination the commissioners are to report the result to the secretary of state, giving the capacity of such machine to register the vote of the people, its accuracy and efficiency, and its mechanical perfections or imperfections. This report is to be filed in the office of the secretary of state, and it must state the opinion of the commissioners, whether the kind of machine so examined can be safely used by the voters. Should the report state that the machine can be so used, it shall be deemed approved by the commissioners, and machines of its kind may be adopted and used at the various elections held in the state. For making such examination and report, each commissioner is to receive the sum of \$150 for his compensation, and expenses, but no commissioner is to receive an amount in excess of \$1,500 and reasonable expenses in any one year. The fees for examination are to be paid by the individual or corporation owning or interested in the voting machine examined.

The act makes the following provisions as to the construction of the machine approved:

"A voting machine approved by the State Board of Voting Machine Commissioners, must be so constructed as to provide facilities for voting for the candidates

of at least seven different parties or organizations, must permit a voter to vote for any person for any office, although not nominated as a candidate by any party or organization, and must permit voting in absolute secrecy. It must also be so constructed as to prevent voting for more than one person for the same office, except where the voter is lawfully entitled to vote for more than one person for that office; and it must afford him an opportunity to vote for any or all persons for that office as he is by law entitled to vote for, and no more, at the same time preventing his voting for the same person twice. It may also be provided with one ballot in each party column or row containing only the words, 'presidential electors' preceded by the party name, and a vote for such ballot shall operate as a vote for all candidates of such party for presidential electors. Such machine shall be so constructed as to accurately account for every vote cast upon it."

BOARD OF CONTROL OF STATE INSTITUTIONS.

MEMBERS.

TERMS EXPIRE.

L. G. KINNE, <i>Chairman</i> , Des Moines.....	April 5, 1902
JOHN COWNIE, <i>South Amana</i>	April 5, 1904
GIFFORD S. ROBINSON, <i>Sioux City</i>	April 5, 1906

F. S. TREAT, *Secretary*, Des Moines.

HENRY F. LIEBBER, *Architect*, Des Moines.

The Board of Control of State Institutions was created under the provisions of chapter 118, laws of the Twenty-seventh General Assembly, with full power to manage, control and govern, subject only to the limitations contained in the act, the following named institutions:

The Iowa Soldiers' Home, at Marshalltown.

Hospital for the Insane, at Independence.

Hospital for the Insane, at Mt. Pleasant.

Hospital for the Insane at Clarinda.

Hospital for the Insane, at Cherokee (in course of construction).

College for the Blind at Vinton.

School for the Deaf at Council Bluffs.

Institution for Feeble-Minded Children, at Glenwood.

Iowa Soldiers' Orphans' Home at Davenport.

Industrial Home for the Blind, at Knoxville.

Industrial School for Boys, at Eldora.

Industrial School for Girls, at Mitchellville.

Industrial Reformatory for Females, at Anamosa.

Penitentiary, at Anamosa.

Penitentiary, at Ft. Madison.

The board is also required to investigate thoroughly the reports and doings of the regents of the State University, the trustees of the State Normal School, and the State College of Agriculture and Mechanic Arts, and the books and records of said institutions.

Prior to July 1, 1898, the foregoing institutions, except the penitentiaries, were in charge of separate boards, each of which had its officers, and each had a secretary and treasurer.

The Board of Control was organized on April 6, 1898, and took full control, as provided by statute, on July 1, 1898, of the institutions heretofore named. At that time the various boards of trustees and commissioners ceased to exist.

The Board publishes quarterly a bulletin of over a hundred pages, devoted to the scientific investigation of the treatment of insanity and epilepsy, and the feeble-minded, and information embodying the experience of soldiers' homes, charitable, reformatory and penal institutions in this and other countries, it being

the intention of the board to keep in touch with the best thought and judgment of the age.

As provided by law, under the direction of the board, the institutions under its control are supplied with goods for their support on competitive bids, thus procuring proper supplies at the lowest market prices. An opportunity to bid is afforded anyone who indicates a desire to the board.

The board visits and inspects each institution under its control at least twice each year, and oftener if necessary. Some member of the board visits and thoroughly inspects each hospital for the insane once each month.

The Iowa Experiment Station was established in accordance with an act of congress, approved March 2, 1887, for the purpose of aiding "in acquiring and diffusing among the people of the United States useful and practical information on subjects connected with agriculture, and to promote scientific investigation and experiments respecting the principles and applications of agricultural science," under direction of the land grant colleges in each state and territory established by the act of 1862, creating such colleges. This act appropriated to each state and territory, for the purpose of agricultural investigation, the sum of \$15,000 annually, and the experiment stations were thus established as a department of the land grant colleges. They are subject to the regulations of the United States department of agriculture, and are regularly inspected by officers of that department. The results of these investigations and experiments in agriculture, including live stock and all related branches, are published in bulletins issued by the experiment stations quarterly or oftener, and distributed free to all residents of the respective states who apply for them. The work of the Iowa Experiment Station along these lines has proved extremely popular and met with favor in all parts of the state and nation, and many foreign countries as well. The reports of some of its experiments have been republished entire by foreign governments, and the demand for bulletins is so large that applications outside of the state can no longer be supplied. These bulletins are free to farmers and citizens of Iowa.

HISTORICAL—The State Normal School was established in 1876, its province is the special education and training of public school teachers. It opened its first session September 6, 1876, with a faculty of five members. It enrolled the first year 155 students. At present the school has fifty members in the faculty, and the year 1900-1901 enrolled 2,017 teacher grade students and 356 pupils in the model or training school. The school is in no sense a duplicate of other educational institutions, as it devotes itself exclusively to educating teachers, and sends out annually 700 different persons to work in the state, 200 of them being graduates of some one of its several courses.

COURSES OF STUDY—The courses of study are conformed to the statute requirements for state certificates and state diplomas, giving considerable choice of subjects in language and science, so far as the amount to be taken is required. These courses are named English, Latin or science, according to the attention given these several lines. These courses are of such character as to enable students to continue courses in the colleges and the universities after graduation without loss of time, excepting such time as the professional work in teaching has required.

A course in primary teacher training, a course in physical culture, and a course in professional studies for college graduates are also provided. Every line of preparation essential to public school teaching is provided. Opportunities to get instruction in all varieties of musical study are abundantly provided, as glee clubs, a choral society, a band, an orchestra and a mandolin and guitar club are constantly maintained.

CONDITIONS OF ADMISSION—

1. Regular courses, the minimum scholarship required for a county certificate. High school graduate courses, completion of a four-year course.
2. Age, at least 16 years.
3. Intention to teach in Iowa.

EXPENSES—A fee of \$5 for a term of twelve weeks. Graduation fee, \$2.

SUMMER TERM—To meet the demands of a large class of teachers throughout the state who are unable to attend the regular terms of the normal school, a summer term has been established during the last biennial period.

The attendance at this term in 1898 was 339, and in 1899, 471. It is expected that this term will be made one of the regular terms of the school in the future. For the benefit of the six weeks' term now in operation, a tuition fee of \$10 is charged.

The United States government pays to the state of Iowa the sum of \$100 per year for each inmate of the Soldiers' home, which amount is used as a part of the support fund of the institution.

Persons who have property or means for their support, or who draw a pension sufficient therefor, will not be admitted to the home; and if, after admission, an inmate of the home shall receive a pension or other means sufficient for his support, or shall recover his health so as to enable him to support himself, he will be discharged from the home.

Regular appropriation by the state is \$14 per month for each member.

IOWA SOLDIERS' ORPHANS' HOME—DAVENPORT.

Superintendent—M. T. GASS.
Physician—WILLIAM L. ALLEN, M. D.
Steward—HENRY KRLOGG.

There is in connection with this institution a school building, pleasant, commodious and well lighted, and it is the policy of the board to have the course of instruction of a high standard. A kindergarten is operated in connection for the very young pupils.

The age limit beyond which children are not kept in the home is 16 years for girls and 16 years for boys. Less than 20 per cent remain to the age limit.

A library of well selected juvenile literature is a source of pleasure and profitable entertainment to the children, as from necessity the pastimes and pleasures of the children are otherwise somewhat circumscribed; we feel that they should be well supplied with good books and reading matter of suitable character for their improvement and enjoyment.

It is the aim to provide the children with plenty of good comfortable clothing, and to have them taught to take good care of the same. Their clothing is all manufactured at the home, the large girls assisting in its manufacture. The table is

supplied with a good variety of plain, wholesome food and a reasonable amount of luxuries, and when the funds of the different appropriations fail the support fund has to make up the deficiency, which necessarily causes a reduction of the luxuries from the table that are so much enjoyed by the children.

The home is supported by a regular appropriation of \$10 per month for each inmate, and the actual transportation charges of inmates to and from the institution. Each county is liable to the state for the support of its children, except soldiers' orphans, who are cared for at the expense of the state.

COLLEGE FOR THE BLIND—VINTON.

Superintendent.—T. F. McCUNE.

Physician.—C. C. GRIFFEN, M. D.

Occulist.—LEE WALLACE DEAN, M. D.

Steward.—JOHN COOK.

Matron.—MAR ROBERTSON.

There is a regular annual appropriation for this institution of \$10,000 with which to pay teachers and meet contingent expenses, and a further appropriation for support of \$35 per quarter for each pupil.

The school term begins on the first Wednesday in September and usually ends about the third week in June. It is desirable that the students enter at the first and remain until the close. They may, however, be admitted at any time, and they are at liberty to go home whenever their parents send for them.

The department of music is supplied with thirty five pianos, one pipe organ, several cabinet organs and a sufficient number of violins, guitars, bass viols and brass instruments. Every student capable of receiving it is given a complete course in this department.

In the industrial department the girls are required to learn knitting, crocheting, fancy work, hand and machine sewing; the boys, netting, broom making, mattress making and cane seating. Those of either sex who so desire may learn carpet weaving.

These advantages are free to every person, either blind or of defective vision, and of suitable school age and capacity, in the state. All that the friends are expected to do is to pay the traveling expenses and furnish clothing. If they are unable to clothe the pupil the necessary clothing will be furnished here and the bill sent to the county from which the pupil comes.

SCHOOL FOR THE DEAF—COUNCIL BLUFFS.

Superintendent.—HENRY W. ROTHERT.

Principal.—E. E. CLIPPINGER.

Physician.—A. P. HANCHETT, M. D.

Steward.—JOHN F. SCHULTZ.

Matron.—MRS. M. E. POOLE.

There is a regular appropriation for this institution of \$18,000 for the payment of officers' and teachers' salaries, and \$35 per quarter for each pupil as a support fund.

This institution is free to all too deaf to be educated in the common schools, sound in mind and free from immoral habits and from contagious and offensive diseases. No charge for board or tuition.

The session of the school begins the 1st day of October and continues until the last day of June of each year. Pupils should come promptly at the beginning and remain until the end of the session.

IOWA INSTITUTION FOR FEEBLE-MINDED CHILDREN—GLENWOOD.

Superintendent—F. M. POWELL, M. D.

Physician and Assistant Superintendent—GEORGE MOGRIDGE, M. D.

Assistant Physician—O. C. WILLHITE, M. D.

Steward—H. L. BISSEL.

Matron—M. E. WILBUR.

There is a regular appropriation for this institution of \$12 per month for each inmate.

The purposes or objects of the institution are to provide special methods of training for that class of children deficient in mind or marked with such peculiarities as to deprive them of the benefits and privileges provided for children with normal faculties. The object is to make each child as nearly self-supporting as practicable, and to approach as nearly as possible the movements and actions of normal people. It further aims to provide a home for those who are not susceptible of mental culture, relying wholly on others to supply their simple wants.

INDUSTRIAL SCHOOL FOR BOYS—ELDORA.

Superintendent—B. J. MILES.

Steward—H. B. HUMPHRIES.

Physician—W. E. WHITNEY, M. D.

Matron—H. BELLE ANDERSON.

INDUSTRIAL SCHOOL FOR GIRLS—MITCHELLVILLE.

Superintendent—F. P. FITZGERALD.

Physician—MYRTA KNOWLES.

Matron—SENA B. WOODS,

Storekeeper—MAY WESTON.

There is appropriated for the support of these schools the sum of \$9 monthly for each boy and \$12 monthly for each girl inmate.

The object of the institution is the reformation of juvenile delinquents. It is not a prison. It is a compulsory educational institution. It is a school where wayward and criminal boys and girls are brought under the influence of Christian instructors, and taught by example, as well as precept, the better ways of life. It is a training school, where the moral, intellectual and industrial education of the child is carried on, at one and the same time.

Any boy or girl, over 7 and under 16 years of age, who has become criminal, vagrant, or incorrigible, may be committed to this school by any court of record. Any boy or girl may be discharged, or paroled from the school, at any time after one year's training, upon satisfactory evidence of reformation.

All expenses of the hospitals, except for special purposes, are paid from the sum so named, and the amount is charged to the counties from which patients are sent. The amount allowed for the Mt. NATIONAL PLATFORM.

The republicans of the United States, through their chosen representatives, met in national convention, looking back upon an unsurpassed record of achievement and looking forward into a great field of duty and opportunity; and, appealing to the judgment of their countrymen, make these declarations:

PREAMBLE.

The expectation in which the American people, turning from the democratic party, intrusted power four years ago to a republican chief magistrate and a republican congress, has been met and satisfied. When the people then assembled at the polls, after a term of democratic legislation and administration, business was dead, industry paralyzed, and the national credit disastrously impaired. The country's capital was hidden away and its labor distressed and unemployed. The democrats had no other plan with which to improve the ruinous conditions, which they had themselves produced, than to coin silver at the ratio of 16 to 1.

PLEDGES FILLED.

The republican party, denouncing this plan as sure to produce conditions even worse than those from which relief was sought, promised to restore prosperity by means of two legislative measures—a protective tariff and a law making gold the standard of value.

The people, by great majorities, issued to the republican party a commission to enact these laws. This commission has been executed, and the republican promise is redeemed.

Prosperity more general and more abundant than we have ever known has followed these enactments. There is no longer controversy as to the value of any government obligations. Every American dollar is a gold dollar or its assured equivalent, and American credit stands higher than that of any nation. Capital is fully employed, and everywhere labor is profitably occupied. No single fact can more strikingly tell the story of what republican government means to the country than this—that, while during the whole period of 107 years, from 1790 to 1897, there was an excess of exports over imports of only \$383,028,497, there has been, in the short three years of the present republican administration an excess of exports over imports in the enormous sum of \$1,483,537,094.

TRIUMPH IN WAR.

And while the American people, sustained by this republican legislation, have been achieving these splendid triumphs in their business and commerce, they have conducted, and in victory concluded, a war for liberty and human rights. No thought of national aggrandizement tarnished the high purpose with which American standards were unfurled.

It was a war unsought and patiently resisted, but when it came the American government was ready. Its fleets were cleared for action. Its armies were in the field, and the quick and signal triumph of its forces on land and sea bore equal tribute to the courage of American soldiers and sailors and to the skill and foresight of republican statesmanship. To ten millions of the human race there was given "a new birth of freedom," and to the American people a new and noble responsibility.

TRUE TO M'KINLEY.

We indorse the administration of William McKinley. Its acts have been established in wisdom and in patriotism, and at home and abroad it has distinctly elevated and extended the influence of the American nation.

Walking untried paths and facing unforeseen responsibilities, President McKinley has been in every situation the true American patriot and the upright statesman, clear in vision, strong in judgment, firm in action, always inspiring, and deserving the confidence of his countrymen.

In asking the American people to endorse this republican record and to renew their commission to the republican party, we remind them of the fact that the menace to their prosperity has always resided in democratic principles and no less in the general incapacity of the democratic party to conduct public affairs.

The prime essential of business prosperity is public confidence in the good sense of the government and in its ability to deal intelligently with each new problem of administration and legislation. That confidence the democratic party has never earned. It is hopelessly inadequate, and the country's prosperity when democratic success at the polls is announced halts and ceases in mere anticipation of democratic failures and blunders.

GOLD STANDARD.

We renew our allegiance to the principles of the gold standard and declare our confidence in the wisdom of the legislation of the Fifty-sixth Congress by which the parity of all our money and the stability of our currency on a gold basis have been secured.

We recognize that interest rates are a potent factor in production and business activity, and for the purpose of further equalizing and of further lowering the rates of interest we favor such monetary legislation as will enable the varying needs of the season and of all sections to be promptly met, in order that trade may be evenly sustained, labor steadily employed and commerce enlarged.

The volume of money in circulation was never so great per capita as it is today. We declare our steadfast opposition to the free and unlimited coinage of silver. No measure to that end could be considered which was without the support of the leading commercial countries of the world. However firmly republican legislation may seem to have secured the country against the peril of base and discredited currency, the election of a democratic president could not fail to impair the country's credit and to bring once more into question the intention of the American people to maintain upon the gold standard the parity of their money circulation. The democratic party must be convinced that the American people will never tolerate the Chicago platform.

AGAINST TRUSTS.

We recognize the necessity and propriety of the honest co-operation of capital to meet new business conditions, and especially to extend our rapidly increasing foreign trade, but we condemn all conspiracies and combinations intended to restrict business, to create monopolies, to limit production or to control prices, and favor such legislation as will effectually restrain and prevent all such abuses, protect and promote competition and secure the rights of producers, laborers and all who are engaged in industry and commerce.

PROTECTION.

We renew our faith in the policy of protection to American labor. In that policy our industries have been established, diversified and maintained. By protecting the home market, the competition has been stimulated and production cheapened. Opportunity to the inventive genius of our people has been secured and wages in every department of labor maintained at high rates, higher now than ever before, always distinguishing our working people in their better conditions of life from those of any competing country.

Enjoying the blessings of American common schools, secure in the right of self-government and protected in the occupancy of their own markets, their constantly increasing knowledge and skill have enabled them finally to enter the markets of the world. We favor the associated policy of reciprocity, so directed as to open our markets on favorable terms for what we do not ourselves produce, in return for free foreign markets

FOR LABOR.

In the further interest of American workmen we favor a more effective restriction of the immigration of cheap labor from foreign lands, the extension of opportunities of education for working children, the raising of the age limit for child labor, the protection of free labor as against contract convict labor, and an effective system of labor insurance.

MERCHANT MARINE.

Our present dependence upon foreign shipping for nine-tenths of our foreign carrying is a great loss to the industry of this country. It is also a serious danger to our trade, for its sudden withdrawal in the event of European war would seriously cripple our expanding foreign commerce. The national defense and naval efficiency of this country, moreover, supply a compelling reason for legislation which will enable us to recover our former place among the trade carrying fleets of the world.

PENSIONS

The nation owes a debt of profound gratitude to the soldiers and sailors who have fought its battles, and it is the government's duty to provide for the survivors and for the widows and orphans of those who have fallen in the country's wars.

The pension laws, founded in this sentiment, should be liberal and should be liberally administered and preference should be given, wherever practicable, with respect to employment in the public service to soldiers and sailors and to their widows and orphans.

CIVIL SERVICE.

We commend the policy of the republican party in maintaining the efficiency of the civil service. The administration has acted wisely in its effort to secure for public service in Cuba, Porto Rico, Hawaii, and the Philippine islands only those whose fitness has been determined by training and experience. We believe that employment in the public service in these territories should be confined as far as practicable to their inhabitants.

It was the plain purpose of the fifteenth amendment to the constitution to prevent discrimination on account of race or color in regulating the elective franchise. Devices of state governments, whether by statutory or constitutional enactment, to avoid the purpose of this amendment are revolutionary and should be condemned.

Public movements looking to a permanent improvement of the roads and highways of the country meet with our cordial approval, and we recommend this subject to the earnest consideration of the people and of the legislatures of the several states.

We favor the extension of the rural free delivery service wherever its extension may be justified.

In further pursuance of the constant policy of the republican party to provide free homes on the public domain, we recommend adequate national legislation to reclaim the arid lands of the United States, reserving control of the distribution of water for irrigation to the respective states and territories.

We favor home rule for and the early admission to statehood of the territories of New Mexico, Arizona and Oklahoma.

WAR TAXES.

The Dingley act, amended to provide sufficient revenue for the conduct of the war, has so well performed its work that it has been possible to reduce the war debt in the sum of \$40,000,000. So ample are the government's revenues, and so great is the public confidence in the integrity of its obligations, that its newly funded two per cent bonds sell at a premium. The country is now justified in expecting, and it will be the policy of the republican party to bring about a reduction of the war taxes.

ISTHMIAN CANAL.

We favor the construction, ownership, control and protection of an isthmiian canal by the government of the United States. New markets are necessary for the

increasing surplus of our farm products. Every effort should be made to open and obtain new markets, especially in the Orient, and the administration is warmly to be commended for its successful effort to commit all trading and colonizing nations to the policy of the open door in China.

In the interest of our expanding commerce we recommend that congress create a department of commerce and industry in the charge of a secretary with a seat in the cabinet.

The United States consular system should be reorganized under the supervision of this new department upon such a basis of appointment and tenure as will render it still more serviceable to the nation's increasing trade.

The American government must protect the person and property of every citizen wherever they are wrongfully violated or placed in peril.

We congratulate the women of America upon their splendid record of public service in the Volunteer Aid association, and as nurses in camp and hospital during the recent campaigns of our armies in the Eastern and Western Indies, and we appreciate their faithful co-operation in all works of education and industry.

FOREIGN POLICY.

President McKinley has conducted the foreign affairs of the United States with distinguished credit to the American people. In releasing us from the vexatious conditions of an European alliance for the government of Samoa, his course is especially to be commended. By securing to our undivided control the most important island of the Samoan group and the best harbor in the Southern Pacific, every American interest has been safeguarded.

We approve the annexation of the Hawaiian Islands to the United States.

We commend the part taken by our government in the peace conference at the Hague.

BOER WAR.

We assert our steadfast adherence to the policy announced in the Monroe doctrine. The provisions of the Hague convention were wisely regarded when President McKinley tendered his friendly offices in the interest of peace between Great Britain and the South African republic.

While the American government must continue the policy prescribed by Washington, affirmed by every succeeding president and imposed upon us by the Hague treaty, of non-intervention in European controversies, the American people earnestly hope that a way may soon be found, honorably alike to both contending parties, to determine the strife between them.

PHILIPPINES.

In accepting by the treaty of Paris the just responsibility of our victories in the Spanish war, the president and the senate won the undoubted approval of the American people. No other course was possible than to destroy Spain's sovereignty throughout the Western Indies and in the Philippine islands.

That course created our responsibility before the world and with the unorganized population whom our intervention had freed from Spain, to provide for the maintenance of law and order, and for the establishment of good government, and for the performance of international obligations.

Our authority could not be less than responsibility, and wherever sovereign rights were extended it became the high duty of the government to maintain its authority, to put down armed insurrection, and to confer the blessings of liberty and civilization upon all the rescued peoples.

The largest measure of self-government consistent with their welfare and our duties shall be secured to them by law.

PLEDGE TO CUBA.

To Cuba independence and self-government were assured in the same voice by which war was declared, and to the letter this pledge should be performed.

The Republican party upon its history and upon its declaration of its principles and policies confidently invokes the considerate and approving judgment of the American people.

National convention, Kansas City, July 4, 1900.

Temporary Chairman—GOV. CHARLES THOMAS, of Colorado.

Permanent Chairman—HON. J. D. RICHARDSON, of Tennessee.

NATIONAL PLATFORM.

We, the representatives of the democratic party of the United States, assembled in national convention, on the anniversary of the adoption of the Declaration of Independence, do reaffirm our faith in that immortal proclamation of the inalienable rights of man and our allegiance to the Constitution framed in harmony therewith by the fathers of the republic. We hold with the United States supreme court, that the Declaration of Independence is the spirit of our government, of which the constitution is the form and letter.

We declare again that all governments instituted among men derive their just powers from the consent of the governed; that any government not based upon the

consent of the governed is a tyranny, and that to impose upon any people a government of force is to substitute the methods of imperialism for those of a republic. We hold that the Constitution follows the flag, and denounce the doctrine that an executive or congress, deriving their existence and their powers from the Constitution, can exercise lawful authority beyond it, or in violation of it.

We assert that no nation can long endure half republic and half empire, and we warn the American people that imperialism abroad, will lead quickly and inevitably to despotism at home

PORTO RICO LAW DENOUNCED.

Believing in these fundamental principles, we denounce the Porto Rico law, enacted by a republican congress against the protest and opposition of the democratic minority, as a bold and open violation of the nation's organic law, and a flagrant breach of the national good faith.

It imposes upon the people of Porto Rico a government without their consent, and taxation without representation. It dishonors the American people by repudiating a solemn pledge made in their behalf by the commanding general of our army, which the Porto Ricans welcomed to a peaceful and unresisted occupation of their land. It doomed to poverty and distress a people whose helplessness appeals with peculiar force to our justice and magnanimity.

In this, the first act of its imperialistic program, the republican party seeks to commit the United States to a colonial policy, inconsistent with republican institutions, and condemned by the supreme court in numerous decisions.

PLEDGES TO THE CUBANS.

We demand the prompt and honest fulfillment of our pledge to the Cuban people and the world that the United States has no disposition nor intention to exercise sovereignty, jurisdiction, or control over the Island of Cuba, except for its pacification. The war ended nearly two years ago, profound peace reigns over all the island, and still the administration keeps the government of the island from its people, while republican carpet-bag officials plunder its revenues and exploit the colonial theory, to the disgrace of the American people.

THE PHILIPPINE QUESTION.

We condemn and denounce the Philippine policy of the present administration. It has involved the republic in unnecessary war, sacrificed the lives of many of our noblest sons, and placed the United States, previously known and applauded throughout the world as the champion of freedom, in the false and un-American position of crushing with military force the efforts of our former allies to achieve liberty and self-government. The Filipinos can not become citizens without endangering our civilization; they cannot become subjects without imperiling our form of government and we are not willing to surrender our civilization or to convert the republic into an empire; we favor an immediate declaration of the nation's purpose to give to the Filipinos, first, a stable form of government; second, independence; and, third, protection from outside interference, such as has been given for nearly a century to the republics of Central and Southern America.

The greedy commercialism which dictated the Philippine policy of the republican administration attempts to justify it with the plea that it will pay, but even this sordid and unworthy plea fails when brought to the test of facts. The war of criminal aggression against the Filipinos, entailing an annual expense of many millions, has already cost more than any possible profit that could accrue from the

entire Philippine trade for years to come. Furthermore, when trade is extended at the expense of liberty the price is always too high.

We are not opposed to territorial expansion when it takes in desirable territory which can be erected into states in the Union and whose people are willing and fit to become American citizens.

We favor trade expansion by every peaceful and legitimate means. But we are unalterably opposed to the seizing or purchasing of distant islands to be governed outside the constitution and whose people can never become citizens.

We are in favor of extending the republic's influence among the nations, but believe that influence should be extended, not by force and violence, but through the persuasive power of a high and honorable example.

The importance of other questions now pending before the American people is in no wise diminished, and the democratic party takes no backward step from its position on them, but the burning issue of imperialism growing out of the Spanish war involves the very existence of the republic and the destruction of our free institutions. We regard it as the paramount issue of the campaign.

THE MONROE DOCTRINE.

The declaration in the republican platform adopted at the Philadelphia convention, held in June 1900, that the republican party "steadfastly adheres to the policy announced in the Monroe doctrine" is manifestly insincere and deceptive. This profession is contradicted by the avowed policy of that party in opposition to the spirit of the Monroe doctrine to acquire and hold sovereignty over large areas of territory and large numbers of people in the eastern hemisphere. We insist on the strict maintenance of the Monroe doctrine and in all its integrity, both in letter and in spirit, as necessary to prevent the extension of European authority on this continent and as essential to our supremacy in American affairs. At the same time we declare that no American people shall ever be held by force in unwilling subjection to European authorities.

OPPOSITION TO MILITARISM.

We oppose militarism. It means conquest abroad and intimidation and oppression at home. It means the strong arm which has ever been fatal to free institutions. It is what millions of our citizens have fled from in Europe. It will impose upon our peace-loving people a large standing army and unnecessary burden of taxation and a constant menace to their liberties.

A small standing army with a well disciplined state militia are amply sufficient in times of peace. This republic has no place for a vast military service and conscription.

When the nation is in danger the volunteer soldier is his country's best defender. The national guard in the United States should ever be cherished in the patriotic hearts of a free people. Such organizations are ever an element of strength and safety.

For the first time in our history and co-eval with the Phillipine conquest has there been a wholesale departure from our time honored and approved system of volunteer organization. We denounce it as un-American, un-Democratic and un-Republican, and as a subversion of the ancient and fixed principles of a free people.

TRUSTS DENOUNCED.

Private monopolies are indefensible and intolerable. They destroy competition, control the price of all materials and of the finished product, thus robbing both producer and consumer. They lessen the employment of labor and arbitrarily

fix the terms and conditions thereof, and deprive individual energy and small capital of their opportunity for betterment. They are the most efficient means yet devised for appropriating the fruits of industry to the benefit of the few at the expense of the many, and unless their insatiate greed is checked, all wealth will be aggregated in a few hands and the republic destroyed.

The dishonest paltering with the trust evil by the Republican party in state and national platforms is conclusive proof of the truth of the charge that trusts are the legitimate product of Republican policies, that they are fostered by Republican laws, and that they are protected by the Republican administration in return for the campaign subscriptions and political support.

We pledge the Democratic party to an increasing warfare in nation, state and city against private monopoly in every form. Existing laws against trusts must be enforced, and more stringent ones must be enacted, providing for publicity as to the affairs of corporations engaged in interstate commerce, and requiring all corporations to show, before doing business outside the state of their origin, that they have no water in their stock, and that they have not attempted and are not attempting to monopolize any branch of business or the production of any articles of merchandise, and the whole constitutional power of congress over inter-state commerce, the mails and all modes of inter-state communication shall be exercised by the enactment of comprehensive laws upon the subject of trusts.

Tariff laws should be amended by putting the products of trusts upon the free list to prevent monopoly under the plea of protection.

The failure of the present republican administration, with an absolute control over all the branches of the national government, to enact any legislation designed to prevent or even curtail the absorbing power of trusts and illegal combinations, or to enforce the anti-trust laws already on the statute books, proves the insincerity of the high-sounding phrases of the republican platform.

Corporations should be protected in all their rights, and their legitimate interests should be respected, but any attempt by corporations to interfere with the public affairs of the people or to control the sovereignty which creates them should be forbidden under such penalties as will make such attempts impossible.

We condemn the Dingley tariff law as a trust-breeding measure, skillfully devised to give the few favors which they do not deserve, and to place upon the many burdens which they should not bear.

INTERSTATE COMMERCE LAW.

We favor such an enlargement of the scope of the interstate commerce law as will enable the commission to protect individuals and communities from discriminations and the public from unjust and unfair transportation rates.

DECLARATION FOR 16 TO 1.

We reaffirm and indorse the principles of the national democratic platform adopted at Chicago in 1896, and reiterate the demand of that platform for an American financial system, made by the American people for themselves, which shall restore and maintain a bimetallic level, and as a part of such system the immediate restoration of the free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation.

CURRENCY LAW DENOUNCED.

We denounce the currency bill enacted at the last session of congress as a step forward in the republican policy which aims to discredit the sovereign right of the

national government to issue all money, whether coin or paper, and to bestow upon national banks the power to issue and control the volume of paper money for their own benefit.

A permanent national bank currency, secured by government bonds, must have a permanent debt to rest upon, and if the bank currency is to increase with population and business the debt must also increase. The republican currency scheme is therefore a scheme for fastening upon the taxpayers a perpetual and growing debt for the benefit of the banks.

We are opposed to this private corporation paper circulated as money, but without legal-tender qualities, and demand the retirement of the national bank notes as fast as government paper or silver certificates can be substituted for them.

SENATORS ELECTED BY THE PEOPLE.

We favor an amendment to the federal constitution providing for the election of United States senators by direct vote of the people, and we favor direct legislation wherever practicable.

GOVERNMENT BY INJUNCTION.

We are opposed to the government by injunction; we denounce the blacklist, and favor arbitration as a means of settling disputes between corporations and employes.

DEPARTMENT OF LABOR.

In the interest of American labor and the uplifting of the workingmen, as the cornerstone of the prosperity of our country, we recommend that congress create a department of labor, in charge of a secretary, with a seat in the cabinet, believing that the elevation of the American laborer will bring with it increased production and increased prosperity to our country at home and to our commerce abroad.

PENSIONS.

We are proud of the courage and fidelity of the American soldiers and sailors in all our wars; we favor liberal pensions to them and their dependents, and we reiterate the position taken in the Chicago platform in 1896, that the fact of enlistment and service shall be deemed conclusive evidence against disease and disability before enlistment.

NICARAGUA CANAL.

We favor the immediate construction, ownership and control of the Nicaragua canal by the United States, and we denounce the insincerity of the plank in the national republican platform for an Isthmian canal in face of the failure of the republican majority to pass the bill pending in congress.

We condemn the Hay-Pauncefote treaty as a surrender of American rights and interests and not to be tolerated by the American people.

STATEHOOD FOR THE TERRITORIES.

We denounce the failure of the Republican party to carry out its pledges, to grant statehood to the territories of Arizona, New Mexico and Oklahoma, and we promise the people of those territories immediate statehood and home rule during their condition as territories, and we favor home rule and a territorial form of government for Alaska and Porto Rico.

ARID LANDS.

We favor an intelligent system of improving the arid lands of the west, storing the waters for purposes of irrigation, and the holding of such lands for actual settlers.

CHINESE EXCLUSION LAW.

We favor the continuance and strict enforcement of the Chinese exclusion law and its application to the same classes of all Asiatic races.

ALLIANCE WITH ENGLAND.

Jefferson said: "Peace, commerce, and honest friendship with all nations entangling alliances with none."

We approve this wholesome doctrine and earnestly protest against the Republican departure which has involved us in so-called politics, including the diplomacy of Europe and the intrigue and land-grabbing of Asia, and we especially condemn the ill-concealed Republican alliance with England, which must mean discrimination against other friendly nations, and which has already stifled the nation's voice while liberty is being strangled in Africa.

SYMPATHY FOR THE BOERS.

Believing in the principles of self-government, and rejecting, as did our forefathers, the claim of monarchy, we view with indignation the purpose of England to overwhelm with force the South African republics. Speaking, as we do, for the entire American nation except its Republican officeholders, and for all free men everywhere, we extend our sympathy to the heroic burghers in their unequal struggle to maintain their liberty and independence.

REPUBLICAN APPROPRIATIONS.

We denounce the lavish appropriations of recent Republican congresses, which have kept taxes high, and which threaten the perpetuation of the oppressive war levies.

SHIP-SUBSIDY BILL.

We oppose the accumulation of a surplus to be squandered in such bare-faced frauds upon the taxpayers as the shipping subsidy bill, which under the false pretense of prospering American shipbuilding, would put unearned millions into the pockets of favorite contributors to the Republican campaign fund.

REPEAL OF THE WAR TAXES.

We favor the reduction and speedy repeal of the war taxes, and a return to the time-honored democratic policy of strict economy in governmental expenditures.

CONCLUDING PLEA TO THE PEOPLE.

Believing that our most cherished institutions are in great peril, that the very existence of our constitutional republic is at stake, and that the decision now to be rendered will determine whether or not our children are to enjoy those blessed privileges of free government which have made the United States great, prosperous, and honored, we earnestly ask for the foregoing declaration of principles the hearty support of the liberty-loving American people, regardless of previous party affiliations.

National convention, Chicago, June 27, 1900.

Temporary and Permanent Chairman—Hon. Samuel J. Dickey, of Michigan.

NATIONAL PLATFORM.

PREAMBLE.

The national prohibition party, in convention represented, at Chicago, June 27 and 28, 1900, acknowledge almighty God as the supreme source of all just government. Realizing that this republic was founded upon Christian principles, and can endure only as it embodies justness and righteousness, and asserting that all authority should seek the best good of all the governed, to this end wisely prohibiting what is wrong and permitting only what is right, hereby records and proclaims:

DEFINITION OF PARTY AND ARRAIGNMENT OF PARTIES.

1. We accept and assert the definition given by Edmund Burke, that "a party is a body of men joined together for the purpose of promoting, by their joint endeavor, the national interest upon some particular principle upon which they are all agreed" We declare that there is no principle now advocated by any other party which could be made a fact in government with such beneficent moral and

material results as the principle of prohibition, applied to the beverage liquor traffic; that the national interest could be promoted in no other way so surely and widely as by its adoption and assertion through a national policy, and the co-operation therein of every state, forbidding the manufacture, sale, exportation, importation and transportation of intoxicating liquors for beverage purposes; that we stand for this as the only principle proposed by any party anywhere for the settlement of a question greater and graver than any other before the American people, and involving more profoundly than any other their moral future and financial welfare; and that all the patriotic citizenship of this country, agreed upon this principle, however much disagreement there may be as to minor considerations and issues, should stand together at the ballot-box from this time forward until prohibition is the established policy of the United States, with a party in power to enforce it and to insure its moral and material benefits.

We insist that such a party, agreed upon this principle and policy, having sober leadership, without any obligation for success to the saloon vote and to those demoralizing political combinations of men and money now allied therewith and suppliant thereto, could successfully cope with all other and lesser problems of government, in legislative halls and in the executive chair, and that it is useless for any party to make declarations in its platform as to any questions concerning which there may be serious differences of opinion in its own membership, and as to which, because of such differences, the party could legislate only on a basis of mutual concessions when coming into power.

We submit that the democratic and republican parties are alike insincere in their assumed hostility to trusts and monopolies. They dare not and do not attack the most dangerous of them all, the liquor power. So long as the saloon debauchee, the citizen and breeds the purchasable voter, money will continue to buy its way to power. Break down this traffic, elevate manhood, and a sober citizenship will find a way to control dangerous combinations of capital.

We propose as a first step in the financial problems of the nation to save more than a billion of dollars every year, now annually expended to support the liquor traffic and to demoralize our people. When that is accomplished, conditions will have so improved that with a clearer atmosphere the country can address itself to the questions as to the kind and quantity of currency needed.

THE ISSUE PRESENTED.

2. We reaffirm as true indisputably the declaration of William Windom, when secretary of the treasury in the cabinet of President Arthur, that "Considered socially, financially, politically or morally, the licensed liquor traffic is or ought to be the overwhelming issue in American politics," and that "the destruction of this iniquity stands next on the calendar of the world's progress." We hold that the existence of our party presents this issue squarely to the American people, and lays upon them the responsibility of choice between liquor parties, dominated by distillers and brewers, with their policy of saloon perpetuation, breeding waste, wickedness, woe, pauperism, taxation, corruption and crime, and our one party of patriotic and moral principle, with a policy which defends it from dominations by corrupt bosses and which insures it forever against the blighting control of saloon politics.

We face with sorrow, shame and fear, the awful fact that this liquor traffic has a grip on our government, municipal, state and national, through the revenue system and saloon sovereignty, which no other party dares to dispute; a grip which dominates the party now in power, from caucus to congress, from policeman to president, from the rum shop to the white house; a grip which compels the chief executive to

consent that law shall be nullified in behalf of the brewer, that the canteen shall curse our army and spread intemperance across the seas, and that our flag shall wave as the symbol of partnership at home and abroad, between this government and the men who defy and defile it for their unholy gain.

THE PRESIDENT ARRAIGNED.

3. We charge upon President McKinley, who was elected to his high office by appeals to Christian sentiment and patriotism almost unprecedented and by a combination of moral influences never before seen in this country, that, by his conspicuous example as a wine-drinker at public banquets and as a wine-serving host in the white house, he has done more to encourage the liquor business, to demoralize the temperance habits of young men, and to bring Christian practices and requirements into disrepute, than any other president this republic has ever had. We further charge upon President McKinley responsibility for the army canteen, with all its dire brood of disease, immorality, sin and death, in this country, in Cuba, in Porto Rico and the Philipines; and we insist that by his attitude concerning the canteen, and his apparent contempt for the vast number of petitions and petitioners protesting against it, he has outraged and insulted the moral sentiment of this country, in such a manner and to such a degree, as calls for its righteous uprising and his indignant and effective rebuke.

We challenge denial of the fact that our chief executive, as commander-in-chief of the military forces of the United States, at any time prior to or since March 2, 1899, could have closed every army saloon, called a canteen, by executive order, as President Hayes in effect did before him, and should have closed them, for the same reasons which actuated President Hays; we assert that the act of congress, passed March 2, 1899, forbidding the sale of liquor, "in any post-exchange or canteen," by any "officer or private soldier" or by "any other person on any premises used for military purposes in the United states," was and is as explicit an act of prohibition as the English language can frame; we declare our solemn belief that the attorney-general of the United States in his interpretation of that law, and the secretary of war in his acceptance of that interpretation and his refusal to enforce the law, were and are guilty of treasonable nullification thereof, and that President McKinley, through his assent to and indorsement of such interpretation and refusal, on the part of officials appointed by and responsible to him, shares responsibility in their guilt; and we record our conviction that a new and serious peril confronts our country, in the fact that its president, at the behest of the beer power, dare and does abrogate a law of congress, through subordinates removable at will by him and whose acts become his, and thus virtually confesses that laws are to be administered, or to be nullified in the interest of a law-defying business, by an administration under mortgage to such business for support.

FOREIGN LIQUOR POLICY CONDEMNED.

4. We deplore the fact that an administration of this republic, claiming the right and power to carry our flag across seas, and to conquer and to annex new territory, should admit its lack of power to prohibit the American saloon on subjugated soil, or should openly confess itself subject to liquor sovereignty under that flag. We are humiliated, exasperated, and grieved, by the evidence painfully abundant, that this administration's policy of expansion is bearing so rapidly its first fruits of drunkenness, insanity and crime under the hot-house sun of the tropics; and when the president of the first Philippine commission says "It was unfortunate that we introduced and established the saloon there to corrupt the natives and to exhibit the vices of our race," we charge the inhumanity and unchristianity of this act upon the

administration of William McKinley, and upon the party which elected and would perpetuate the same.

5. We declare that the only policy which the government of the United States can of right uphold as to the liquor traffic, under the National Constitution, upon any territory under the military or civil control of that government, is the policy of prohibition; that "to establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity," as the Constitution provides, the liquor traffic must neither be sanctioned nor tolerated, and that the revenue policy, which makes our government a partner with distillers and brewers and bar-keepers, is a disgrace to our civilization, an outrage upon humanity, and a crime against God.

We condemn the present administration at Washington because it has repealed the prohibitory laws in Alaska, and has given over the partly civilized tribes there to be the prey of the American grog shop; and because it has entered upon a license policy in our new possessions by incorporating the same in the recent act of congress in the code of laws of the government of the Hawaiian islands.

We call general attention to the fearful fact that exportation of liquors from the United States to the Philippine islands increased from \$337 in 1898, to \$467, 193 in the first ten months of the fiscal year ending June 30, 1900; and that while our exportation of liquors to Cuba never reached \$30,000 a year previous to American occupation of that island, our exports of such liquors to Cuba during the fiscal year of 1899, reached the sum of \$629,855.

CALL TO MORAL AND CHRISTIAN CITIZENSHIP.

6. One great religious body (the baptist) having truly declared of the liquor traffic "that it has no defensible right to exist, that it can never be reformed, and that it stands condemned by its unrighteous fruits as a thing un-Christian, un-American, and perilous utterly to every interest in life;" another great religious body (the methodist) having as truly asserted and reiterated that "no political party has a right to expect, nor should receive, the votes of Christian men so long as it stands committed to the license system, or refuses to put itself on record in an attitude of open hostility to the saloon;" other great religious bodies having made similar deliverances, in language plain and unequivocal, as to the liquor traffic and the duty of Christian citizenship in opposition thereto; and the fact being plain and undeniable that the democratic party stands for license, the saloon, and the canteen, while the republican party, in policy and administration, stands for the canteen, the saloon, and revenue therefrom, we declare ourselves justified in expecting that Christian voters everywhere shall cease their complicity with the liquor curse by refusing to uphold a liquor party, and shall unite themselves with the only party which upholds the prohibition policy, and which for nearly thirty years has been the faithful defender of the church, the state, the home and the school, against the saloon, its expanders and perpetuators, their actual and persistent foes.

We insist that no differences of belief, as to any other question or concern of government, should stand in the way of such a union of moral and Christian citizenship as we hereby invite, for the speedy settlement of this paramount moral, industrial, financial and political issue, which our party presents; and we refrain from declaring ourselves upon all minor matters, as to which differences of opinion may exist, that hereby we may offer to the American people a platform so broad that all can stand upon it who desire to see sober citizenship actually sovereign over the allied hosts of evil, sin and crime, in a government of the people, by the people and for the people.

We declare that there are but two parties, to-day, concerning the liquor traffic—perpetuationists and prohibitionists; and that patriotism, Christianity and every

interest of genuine and of pure democracy, besides the loyal demands of our common humanity, require the speedy union, in one solid phalanx at the ballot box, of all who oppose the liquor traffic's perpetuation, and who covet endurance for this republic.

Permanent Chairman.—Col. W. L. Peek, of Georgia.

NATIONAL PLATFORM.

The peoples' party of the United States, assembled in national convention this 10th of May, 1900, affirming our unshaken belief in the cardinal tenets of the peoples' party as set forth in the Omaha platform, and pledging ourselves anew to continued advocacy of those grand principles of human liberty until right shall triumph over might and love over greed, do adopt and proclaim this declaration of faith:

1. We demand the initiative and referendum and the imperative mandate for such changes of existing fundamental and statute law as will enable the people in their sovereign capacity to propose and compel the enactment of such laws as they desire, to reject such as they deem injurious to their interests and to recall unfaithful public servants.

2. We demand the public ownership and operation of those means of communication, transportation and production which the people may elect, such as railroads, telegraph and telephone lines, coal mines, etc.

3. The land, including all natural sources of wealth, is a heritage of the people and should not be monopolized for speculative purposes, and alien ownership of land should be prohibited. All land now held by railroads and other corporations in excess of their actual needs and all lands now owned by aliens should be reclaimed by the government and held for actual settlers only.

4. A scientific and absolute paper money, based upon the entire wealth and population of the nation, not redeemable in any specific commodity, but made a full legal tender for all debts and receivable for all taxes and public dues, and issued by the government only, without the intervention of banks, and in sufficient quantity to meet the demands of commerce, is the best currency that can be devised, but until such a financial system is secured, which we shall press for adoption, we favor the free and unlimited coinage of both silver and gold at the legal ratio of 16 to 1.

5. We demand the levy and collection of a graduated tax on incomes and inheritances and a constitutional amendment to secure the same if necessary.

6. We demand the election of president, vice-president, federal judges and United States senators by direct vote of the people.

7. We are opposed to trusts, and declare the contention between the old parties on the monopoly question is a sham battle, and that no solution of this mighty problem is possible without the adoption of the principles of public ownership of public utilities.

SOCIALIST LABOR PARTY, 1900.

NATIONAL TICKET.

For President,
JOSEPH F. MALLONEY,
of Massachusetts.

For Vice-President,
VALENTINE REMMEL,
of Pennsylvania.

Presidential Electors:

At Large.—F. Traulson, of Pottawattamie county.

B. Curland, of Polk county.

National convention, New York, June 2, 1900.

Temporary Chairman—HON. THOMAS CURRAN, of Rhode Island.

Permanent Chairman—HON. DANIEL DELEON, of New York.

NATIONAL PLATFORM.

The socialist labor party of the United States, in convention assembled, reasserts the inalienable right of all men to life, liberty, and the pursuit of happiness.

With the founders of the American republic we hold that the purpose of government is to secure every citizen in the enjoyment of this right; but in the light of our social conditions we hold furthermore, that no such right can be exercised under a system of economic inequality, essentially destructive of life, of liberty and of happiness.

With the founders of this republic we hold that the true theory of politics is that the machinery of government must be owned and controlled by the whole people; but in the light of our industrial development we hold, furthermore, that the true theory of economics is that the machinery of production must likewise belong to the people in common.

To the obvious fact that our despotic system of economics is the direct opposite of our democratic system of politics, can plainly be traced the existence of a privileged class, the corruption of government by that class, the alienation of public property, public franchises and public functions to that class, and the abject dependence of the mightiest of nations upon that class.

Again, through the perversion of democracy to the ends of plutocracy, labor is robbed of the wealth which it alone produces, is denied the means of self-employment, and, by compulsory idleness in wage slavery, is even deprived of the necessities of life.

Human power and natural forces are thus wasted, that the plutocracy may rule.

Ignorance and misery, with all their concomitant evils, are perpetuated, that the people may be kept in bondage.

Science and invention are diverted from their humane purpose to the enslavement of women and children.

Against such a system the socialist labor party once more enters its protest. Once more it reiterates its fundamental declaration that private property in the natural sources of production and in the instruments of labor is the obvious cause of all economic servitude and political dependence.

The time is fast coming when, in the natural course of social evolution, this system, through the destructive action of its failures and crises on the one hand, and the constructive tendencies of its trusts and other capitalistic combinations on the other hand, shall have worked out its own downfall.

We, therefore, call upon the wage workers of the United States, and upon all other honest citizens, to organize under the banner of the socialist labor party into a class-conscious body, aware of its rights and determined to conquer them by taking possession of the public powers; so that, held together by an indomitable spirit of solidarity under the most trying conditions of the present class struggle, we may put a summary end to that barbarous struggle by the abolition of classes, the restoration of the land and of all the means of production, transportation and distribution to the people as a collective body, and the substitution of the co-operative commonwealth for the present state of planless production, industrial war and social disorder; a commonwealth in which every worker shall have the free exercise and full benefit of his faculties, multiplied by all the modern factors of civilization.

NATIONAL PLATFORM.

We the united christian party, in national convention assembled in the city of Rock Island, Ill., May 1 and 2, 1900, acknowledging Almighty God as the source of all power and authority, the Lord Jesus Christ as the sovereign ruler of nations and the bible as the standard by which to decide moral issues in our political life, do make the following declaration:

We believe the time to have arrived when the eternal principles of justice, mercy and love, as exemplified in the life and teachings of Jesus Christ, should be embodied in the constitution of our nation and applied in concrete form to every function of our government.

We maintain that this statement is in harmony with the fundamental principles of our national common law, our christian usages and customs, the declaration of the supreme court of the United States that "This is a christian nation," and the accepted principle in judicial decisions that no law should contravene the divine law.

We depreciate certain immoral laws which have grown out of the failure of our nation to recognize these principles, notably such as require the desecration of the christian Sabbath, authorize unscriptural marriage and divorce, and license the manufacture and sale of intoxicating liquors as a beverage.

The execution of these immoral laws above mentioned we hold to be neither loyalty to our country nor honoring to God; therefore, it shall be our purpose to administer the government, so far as it shall be entrusted to us by the suffrages of the people, in accordance with the principles herein set forth, and, until amended, our oath of office shall be to the constitution and laws as herein explained, and to no other, and we look to Him who has all power in heaven and in earth to vindicate our purpose in seeking His glory and the welfare of our beloved land.

As an expression of consent or allegiance on the part of the governed in harmony with the above statements, we declare for the adoption and use of the system of legislation known as the "initiative and referendum," together with "proportionate representation" and the "imperative mandate."

We hold that all men and women are created free and with equal rights, and declare for the establishment of such political, industrial and social conditions as shall guarantee to every person civic equality, the full fruits of his or her honest toil and opportunity for the righteous enjoyment of the same; and we especially condemn mob violence and outrages against any individual or class of individuals in our country.

We declare against war and for the arbitration of all national and international disputes.

We hold that the legalized liquor traffic is the crowning infamy of civilization, and we declare for the immediate abolition of the manufacture and sale of intoxicating liquors as a beverage.

We are gratified to note the wide spread agitation of the cigarette question, and declare ourselves in favor of the enactment of laws prohibiting the sale of cigarettes or tobacco in any form to minors.

We declare for the daily reading of the bible in the public schools and institutions of learning under control of the state.

We declare for the government ownership of public utilities.

We declare for the election of the president and vice-president and United States senators by the direct vote of the people.

We declare for such amendment of the United States constitution as shall be necessary to give the principles herein set forth an undeniable legal basis in the fundamental law of our land.

We invite into the united christian party every honest man and woman who believes in Christ and His golden rule and standard of righteousness. We say especially to the sons of toil: Jesus, the carpenter's son, is your true friend. In His name and through the practice of His principles you may obtain your rights, long withheld and long outraged. You have the votes necessary to enthrone Him. His love and principles, politically applied, will lift you up and give you true civic liberty forever.

NATIONAL PLATFORM.

The social democratic party of America declares that life, liberty and happiness depend upon equal political and economic rights.

In our economic development an industrial revolution has taken place, the individual tool of former years having become the social tool of the present. The individual tool was owned by the worker who employed himself and was master of his product. The social tool, the machine, is owned by the capitalist and the worker is dependent upon him for employment. The capitalist thus becomes the master of the worker and is able to appropriate to himself a large share of the product of his labor.

Capitalism, the private ownership of the means of production, is responsible for the insecurity of subsistence, the poverty, misery and degradation of the ever-growing majority of our people; but the same economic forces which have produced and now intensify the capitalistic system will necessitate the adoption of socialism, the collective ownership of the means of production for the common good and welfare.

The present system of social production and private ownership is rapidly converting society into two antagonistic classes—*i. e.*, the capitalist class and the propertyless class. The middle class, once the most powerful of this great nation, is disappearing in the mill of competition. The issue is now between the two classes first named. Our political liberty is now of little value to the masses unless used to acquire economic liberty.

Independent political action and the trade union movement are the chief emancipating factors of the working class, the one representing its political, the other its economic wing, and both must co-operate to abolish the capitalist system.

Therefore the social democratic party of America declares its object to be:

1. The organization of the working class into a political party to conquer the public powers now controlled by the capitalists.
2. The abolition of wage-slavery by the establishment of a national system of co-operative industry, based upon the social or common ownership of the means of production and distribution, to be administered by society in the common interest of all its members, and the complete emancipation of the socially useful classes from the domination of capitalism.

The working class and all those in sympathy with their historic mission to realize a higher civilization should sever connection with all capitalist and reform parties and unite with the social democratic party of America.

The control of political power by the social democratic party will be tantamount to the abolition of all class rule.

The solidarity of labor connecting the millions of class-conscious fellow-workers throughout the civilized world will lead to international socialism, the brotherhood of man.

As steps in that direction we make the following demands:

1. Revision of our federal constitution, in order to remove the obstacles to complete control of government by the people irrespective of sex.
2. The public ownership of all industries controlled by monopolies, trusts and combines.
3. The public ownership of all railroads, telegraphs and telephones; all means of transportation, and communication; all waterworks, gas and electric plants, and other public utilities.
4. The public ownership of all gold, silver, copper, lead, iron, coal, and other mines, and all oil and gas wells.

5. The reduction of the hours of labor in proportion to the increasing facilities of production.

6. The inauguration of a system of public works and improvements for the employment of the unemployed, the public credit to be utilized for that purpose.

7. Useful inventions to be free, the inventor to be remunerated by the public.

8. Labor legislation to be national, instead of local, and international when possible.

9. National insurance of working people against accidents, lack of employment and want in old age.

10. Equal civil and political rights, for men and women, and the abolition of all laws discriminating against women.

11. The adoption of the initiative and referendum, proportional representation, and the right of recall of representatives by the voters.

12. Abolition of war and the introduction of international arbitration.

Permanent Chairman—H. W. BYERS, Harlan.

THE PLATFORM.

Resolved, By the republicans of Iowa in convention assembled:

That we express our gratification over the endorsement given to the administration of President McKinley by the decisive majority of last year, and rejoice in the manifold benefits resulting to the country from his re-election. It has inspired new confidence in the business world, established authority and order in our new possessions and strengthened the position of this country before the world.

That we congratulate the people of the country upon the enjoyment of a state of prosperity that blesses every class and community. Our products, after providing for the comfort of our people to a degree known in no other land, overflow into all markets and create trade balances that are the amazement of the world. The results of growing wealth and a wise financial policy are seen in the reduction of interest rates and the expansion of industry, while the demand for labor in every field is imperative, and the only workers out of employment are those seeking to better their condition.

That we view with satisfaction and approval the work of the Fifty-sixth Congress, its action for the reduction of taxation and its constructive legislation giving effect to the party declarations of 1896 and 1900. We would emphasize our endorsement of its action in more firmly establishing our monetary system upon a gold basis and in providing for civil government in Porto Rico and the Philippines, and for the relinquishment of our authority in Cuba. The policy of this government towards these islands has followed inevitably upon our expulsion of the authority of Spain. It has been dictated by the conditions present, has been consistent with the spirit and within the provisions of the constitution and the paramount consideration has been to secure the lasting welfare of these people whose fortunes and destinies have become in large degree dependent upon us. The fact that our authority there is the result of a war waged not for our aggrandizement, but in the name of humanity, must forever govern and inspire our relations to them.

That we are earnestly opposed to all legislation designed to accomplish the disfranchisement of citizens upon lines of race, color or station in life, and condemn the measures adopted by the Democratic party in certain states of the Union to accomplish that end.

That we stand by the historic policy of the Republican party in giving protection to home industries, and point for its ample vindication to the extraordinary rapidity which our national resources have been developed and our industrial and financial independence secured. We favor such changes in the tariff from time to time as becomes advisable through the progress of our industries and their changing relations to the commerce of the world. We indorse the policy of reciprocity as the natural complement of protection, and urge its development as necessary to the realization of our highest commercial possibilities.

That we assert the sovereignty of the people over all corporations and aggregations of capital and the right residing in the people to enforce such regulations, restrictions or prohibitions upon corporate management as will protect the individual and society from abuse of the power which great combinations of capital yield. We favor such amendment of the inter-state commerce act as will more fully carry out its prohibition of discrimination in rate making, and any modification of the tariff schedules that may be required to prevent their affording shelter to monopoly.

That the republican party will seek faithfully to guard the interests of all the people, to develop the resources of this country for the common welfare, to levy the necessary taxation without bias or favor, and to secure that just recognition of the rights of every individual under which all find security and prosperity together.

That we voice the pride of Iowa in the prestige won for the state by its senators and representatives in congress. The character of the delegation, the important positions held upon the standing committees, the long and distinguished careers of the older members, have acquired for the state an influence in the legislation of the country greatly to be prized. We take special pride in the elevation of an Iowa member to the post of speaker of the house of representatives, and the discharge of the duties of that high office by David B. Henderson to the satisfaction of the whole country. We hold in highest esteem the ability, services and influence of our distinguished senators, William B. Allison and Jonathan P. Dolliver, indorse the records they have made, and heartily favor their re-election at the hands of the general assembly to be chosen this fall.

We indorse with pride the administration of the affairs of Iowa during forty years of almost uninterrupted republican rule. It is a record of capable and faithful management which will bear comparison with the government of any other state. We particularly commend and indorse the administration of Governor Shaw. It

has been eminently practical and successful, while his discussion before the people of the great questions of national politics has made him justly a leader of national influence and renown. He will leave the executive chair having reflected honor upon the state and bearing the confidence and regard of the people.

The state convention met at Des Moines, August 21, 1901.

Temporary Chairman—E. M. SHARON, Davenport.

Permanent Chairman—JOHN T. REDMOND, Cedar Rapids.

PLATFORM.

We, the democrats of Iowa, in convention assembled, hereby reaffirm the principles of the democratic national platform adopted at Kansas City July 4, 1900, and without surrendering our convictions or abating our loyalty to our national policies, we believe this campaign to be particularly one that should be confined to state issues.

Resolved, That the fundamental principle of democracy, "equal rights to all and special privileges to none," applies in full force to the subject of taxation. The democratic party believes that the burdens of taxation should be born equally by all taxable property. We pledge our members of the general assembly to formulate and urge the adoption of such a law as will compel the burdens of taxation to rest on corporate and individual property alike, without favor to, or exemption of, any interests.

We demand economy in the administration of state affairs, the repeal of the mulct law, the enactment of a local option law, the abolition of the offices of state printer and state binder and the contracting for supplies for the state with the lowest responsible bidder.

We cordially invite all honest men of the state to unite with us in securing the enactment of these principles into law.

For Railroad Commissioner,

The state convention met at Des Moines, May 21-22, 1901.

Temporary and Permanent Chairman.—REV. JOHN A. EARLE, Waterloo.

PLATFORM.

The Prohibition party of Iowa in convention assembled, May 21-22, 1901, reverently acknowledge God as the author of civil government and Jesus Christ as the rightful ruler of the nations of the earth, and that His law is the magna charta of human liberty, to which all legislation should conform.

1. We believe that it is the first duty of the State to forever prohibit the manufacture and sale of intoxicating liquors as a beverage, because the liquor traffic is the most frightful source of ignorance, poverty, political corruption and crime in existence. We demand its absolute overthrow. And we believe that the work can be accomplished only by a political party crystalized around this doctrine and committed to its enforcement, as recent events throughout the country have testified.

2. We unqualifiedly commend the Congress of the United States for the passage of the anti-cafe law, but we are humiliated and outraged by the evident concerted action on the part of the subsidized press and certain army officers to overthrow the will of the people and nullify the righteous measures. We demand the retention and enforcement of this law.

3. We heartily reaffirm our former position in favor of equal suffrage. The work of the rum power is to destroy the home, the throne of womanhood, she, being the most defenceless sufferer from this evil, will have in the ballot a weapon of defence most feared by the enemy and most helpful to good government.

4. Since "mulct" means fine or penalty paid in advance for the commission of crime, therefore we reaffirm our positive disapproval of the "Martin Mulct Law,"

and urge its repeal and the speedy re-submission of a prohibitory constitutional amendment to the popular vote of the people.

5. The highest judicial authorities in this land have declared ours to be a Christian nation. Human needs, as well as divine law, demand one day of rest in the seven for the toilers, and freedom of conscience in religious worship for all.

Temporary and Permanent Chairman—JOHN BENNETT, Sioux City.

PLATFORM.

The socialist party of Iowa in convention assembled hereby ratify and endorse the action of the unity convention of socialists held at Indianapolis, July 29, 1901.

In accordance with the provisions thereof, we declare our allegiance to the principles of international socialism. We believe socialism to be a scientific solution of the labor problem and that it will provide an ethical construction of society, whereby equal and exact justice will be meted out to every individual. We declare our unalterable opposition to competition for bread and to the capitalistic control of the means of production and distribution. And to secure a system whereby want, misery and poverty shall be forever eliminated, we pledge ourselves to the final and complete overthrow of the competitive and capitalistic system and the substitution therefor of the co-operative commonwealth and the collective ownership of all the means of production and distribution. This is our construction of socialism. Anything more is unnecessary. Anything less would fail of the accomplishment of our purpose. Our movement is revolutionary only in principles and ethics. Our methods are peaceful and our appeal is to the reason and conscience.

We recommend to the voters of Iowa the study of our national platform as a plain statement of the general and specific demands of our party.

The state convention met at Des Moines, August 23, 1901.
Temporary and Permanent Chairman—A. MACUMBER, Ord.

PLATFORM.

We, the populists of Iowa, in convention assembled in Des Moines, August 23, 1901, do hereby give our unqualified endorsement to that first great declaration of principals promulgated by our party, the Omaha platform, and also to each subsequent national platform.

Today we see the formation of gigantic trusts to which the people are compelled to pay enormous tribute, while these heartless organizations are using every advantage gained by their financial power, aided by subsidized press and official favor, to crush beneath their iron heel the laboring classes of our country. We see a favored few privileged to issue their notes of indebtedness and loan them to the people at interest to take the place of a sound and stable currency issued by the government. We see the railroad companies combining to further increase their extortions from the people, and to increase their power and authority over their employes, as well as their influence over the legislative, judicial and executive departments of state and national governments. We see at the instance of corporations the formation of most corrupt and debauching political rings and combines in nation, states and cities, who usurp the power of the people to rob the people by using the franchises granted them to gather from the masses contributions to their corrupting funds. And all these evil conditions we realize to be the result of the present policy of our national, state and city governments of conferring the sovereignty of the people upon private individuals that they may fill public functions for their own private

gain; therefore, as a remedy, we demand that they quit granting public franchises to individuals or corporations.

3. We extend our sympathy to all people struggling to establish more representative forms of government, and we condemn the concerted action of the present administration with the administration of England in trying to crush out young republics and establish in their stead crown colonies and imperial rule.

4. We especially endorse that system of government known as direct legislation.

5. On state issues we demand the equal taxation of all property whether corporate or private, and we further demand that no person be compelled to pay taxes on property over and above the equity carried in such property.

6. Instead of the present system of having the state printing done by a state official who makes unreasonable profits, or of abolishing the office and letting out the work by contract to the lowest bidder, we favor direct state supervision to the end that unearned profits may be eliminated and the laborers performing the work be given the full amount paid therefor.

DANISH WEST INDIES.

The treaty for the purchase of these islands from Denmark by the United States was signed in Washington January 24, 1902, by Secretary of State John Hay, acting for the United States, and Minister C. Brun, acting for Denmark. The treaty was transmitted to the United States Senate January 27, and was ratified by the Senate February 17. The treaty provides for a purchase price of \$5,000,000. As soon as the appropriation of this sum is made by congress, and the exchange of the ratifications of the treaty takes place between the two governments, the islands will become a part of the territory of the United States.

The Danish West Indies form a part of the group of Virgin Islands lying east of Porto Rico and consist of three main Islands, St. Thomas, capital Charlotte Amalia; St. Croix or Santa Cruz, capital Christianstadt; St. John, capital Christiansburg, and several adjacent rocky islets or keys. The climate is healthy, the temperature is equable, ranging from 66° to 82° throughout the year. The total area of the islands is 138 square miles, St. Croix, 74; St. Thomas, 27; St. John, 21, and the islets making up the balance.

The population of St. Thomas in 1890 was 12,019, of St. Croix, 19,783, and of St. John, 984. The inhabitants are mostly negroes and mulattoes. The small Caucasian element is composed of many nationalities, the Danish, however, being the most numerous. English is the language in general use.

St. Thomas owes its principal importance, which is wholly commercial and naval, to its location in the path of commerce between Europe and the West Indies, Central America and Mexico, and between the United States and Brazil, and also to the excellent harbor of Charlotte Amalia on the South coast. The harbor is equipped with three coaling docks, a large iron floating dock and machine shops for ship repairing. The products of this island are market vegetables and cattle.

St. Croix, on the other hand, is purely an agricultural island. The staple products are sugar cane and rum. The soil is exceptionally rich and fertile.

St. John has an excellent harbor on the east coast, but as the island does not lie in the regular path of trade, it is seldom used. The inhabitants produce little beyond their own needs and the exports consequently amount to but little.

The total value of the trade of the islands was, in 1898, \$2,189,720, of which the exports amounted to \$595,382, imports, \$1,594,338.

TABLE NO. 3—DENSITY OF POPULATION OF STATES AND TERRITORIES AT EACH CENSUS
1790 TO 1900.

The density of population is obtained by dividing the population of each state and territory and of the United States by its total land area in square miles at each census. In computing density of population for the United States, the areas and population of Alaska and Hawaii in 1890, of Alaska in 1890 and of Indian Territory in 1860, 1870, and 1880 are not considered. The area of Indian reservations, outside of Indian Territory, is included in the area of the states and territories in which they are severally situated, and in that of the United States, prior to 1890, although the population of these Indian reservations was not ascertained, and, for this reason, can not be considered in figuring density of population at the censuses prior to 1890.]

GENERAL SUMMARY.

The total population returned at the Twelfth Census of the United States, taken as of June 1, 1900, as shown by table 1, is 76,303,387, including not only persons enumerated in the several states and organized territories but, in addition, those enumerated at military and naval stations abroad (including naval vessels), and in Alaska, Hawaii, Indian Territory and Indian reservations. The population for the equivalent areas in 1890, with which this number should be compared, represents a total of 63,069,756, including 447,506 persons specially enumerated * but not included as a part of the population (62,622,250) covered by the general report at that census. Table 4 presents a summary of the population according to sex, general nativity, and color at each of the two census periods named, giving comparative figures in each case for the entire area of enumeration in 1900.

The distribution of the population at the Twelfth Census, according to the several elements of which it is composed, is clearly epitomized in the above table. It shows, first, the aggregate numbers comprising each class in 1900 as compared with 1890; second, the percentage which each element constitutes of the total population at each census period, and third, the absolute and proportional increase of the several elements since 1890.

*Alaska, 32,052; Hawaii (Hawaiian census of December 28, 1890), 89,990; Indian Territory, 180,182; Indian reservations, etc., 145,282.

From table 4 it appears, with respect to sex, that the males number 39,059,242 and constitute 51.2 per cent of the total population in 1900, while the females number 37,244,145 and constitute 48.8 per cent. From the percentages given in the above table there has been, apparently, no change in the proportion of the sexes in 1900 as compared with 1890, but, as a matter of fact, there is a slightly larger proportion of females now than there was ten years ago, the percentage decimals if extended to the hundredths place showing for females 48.81 per cent in 1900 as compared with 48.76 per cent in 1890 and for males 51.18 in 1900 as against 51.23 in 1890.

There is a difference in favor of males at the present census of 1,815,097 as compared with an excess of males for the equivalent area in 1890 of 1,560,370, these figures showing, also, that the females have gained relatively with regard to the males since 1890.

There has been an increase in total population of 13,233,631, or 21 per cent, since 1890. This increase is made up of 6,744,179 males and 6,489,452 females, representing an increase in males of 20.9 per cent and an increase in females of 21.1 per cent.

Considered with respect to general nativity, there are, according to the figures of the present census, 65,843,302 native born persons, and 10,460,085 foreign born persons, the latter element constituting 13.7 per cent of the total population in 1900. The equivalent area had in 1890 a total of 9,308,091 foreign born persons, representing 14.8 per cent of the entire population enumerated ten years ago.

The foreign born element of our population has increased since 1890 only 12.4 per cent as against an increase in native born population of 22.5 per cent. The foreign born show an absolute increase during the decade of 1,151,994, while the native born have increased in ten years 12,081,637.

Analyzing the results according to color and race, it is seen that the population in 1900 is made up of 66,990,802 white persons and 9,312,585 colored persons, the latter figure comprising 8,840,789 persons of negro descent, 119,050 Chinese, 85,986 Japanese and 266,760 Indians. The corresponding figures for 1890 showed a total of 55,166,184 white persons, 7,488,788 persons of negro descent, 126,778 Chinese, 14,399 Japanese, and 273,607 Indians, the total colored element in 1890 comprising, in all, 7,903,572 persons.

The colored element constitutes 12.2 per cent of the total population in 1900 as against 12.5 per cent in 1890, the negro element alone representing of the total population 11.6 per cent in 1900 and 11.9 per cent in 1890. These figures show a loss, therefore, of three-tenths of 1 per cent in the proportion of persons of negro descent in 1900 as compared with 1890, and a corresponding increase in that for the whites.

The white population shows an increase since 1890 of 11,824,618, or 21.4 per cent, while the colored element as a whole shows an increase during the same period of 1,409,013 or 17.8 per cent.

There has been an increase during the past ten years in persons of negro descent of 1,352,001, or 18.1 per cent, and in Japanese of 71,587, or 497.2 per cent. The Chinese, on the other hand, show a loss since 1890 of 7,728, or 6.1 per cent, while the Indians have decreased from 273,607 in 1890 to 266,760 in 1900, equivalent to a loss of 2.5 per cent.

The aggregate of 66,990,802 white persons in 1900 is made up of 56,740,739 native white persons, constituting 74.4 per cent of the total population, and 10,250,063 foreign white persons, constituting 13.4 per cent of the total population. Native white persons in 1900 are in turn subdivided into 41,053,417 persons of native parentage and 15,687,322 persons of foreign parentage, constituting, respectively, 53.8 per cent and 20.6 per cent of the total population. Comparing the percentages

for these same elements in 1890 and 1900 it appears that native white persons constitute a somewhat larger proportion of the total population in 1900 than in 1890, due to a relative increase of 2.3 per cent in the proportion for native white persons of foreign parentage and a relative decrease of nine-tenths of 1 per cent in the proportion for native white persons of native parentage.

The native white element of our population as a whole has increased 23.3 per cent since 1890, while the foreign white element has increased only 12.2 per cent. The native white element of foreign parentage has increased during the past ten years relatively twice as fast as the native whites of native parentage, or 18.9 per cent for those of native parentage as compared with 36.2 per cent for those of foreign parentage.

NATIVE AND FOREIGN BORN POPULATION

The whole number of persons of native birth in 1900, as shown by table 4, is 65,843,302 as compared with a total in 1890 of 53,761,665, the figures in each case comprehending the entire area of enumeration in 1900. The foreign born, on the same basis, now number 10,460,085 as against a total for the same area in 1890 of 9,308,091.

The figures representing the native and foreign born elements in 1890 are made up as follows:

AREAS.	Native born.	Foreign born.
States and territories (general enumeration).....	53,372,703	9,249,547
Alaska (specially enumerated).....	15,381	16,671
Hawaii (census of December 28, 1890).....	48,117	41,873
Indian Territory (specially enumerated).....	180,180
Indian reservations (specially enumerated).....	145,282
Total	53,761,665	9,308,091

All natives of Alaska born previous to its acquisition in 1867 were classed in 1890 as foreign born, but at the census of 1900 all natives of Alaska, irrespective of age, are classed as native born.

The number of native and foreign born in Hawaii in 1890 was determined from the Hawaiian census report for that year as follows: Native born—natives, 34,436; half-castes, 6,186; Hawaiian born foreigners, 7,495; total, 48,117. Foreign born—Americans, 1,928; British, 1,344; Germans, 1,034; French, 70; Portugese, 8,602; Norwegians, 227; Chinese, 15,301; Japanese, 12,360; Polynesians, 588; other nationalities, 419; total, 41,873.

The 325,464 Indians and other persons reported as living in the Indian Territory and on Indian reservations in 1890 were not classified at that census according to whether they were native or foreign born, but as they were undoubtedly very nearly all of native birth, they have been so considered for the purposes of this discussion.

Comparing the general results presented in table 4, there has been an increase during the decade in native born of 12,081,637, or 22.5 per cent, and in foreign born of 1,151,994, or 12.4 per cent. The population as a whole increased during the same period 21 per cent. The increase in foreign born since 1890 has been small as compared with the increase of the native element, and a glance at the figures presented in table 6 for the several states and territories makes it apparent that, aside from the increases shown by a few of the north central and western states and territories, practically all the increase in the foreign born element is confined to the North Atlantic states. The full purport of this change in the distribution of this element

of our population throughout the country, especially as compared with the conditions which prevailed during the preceding decade, is not seen until the results are presented in the geographical order of the states and territories, as indicated by following table No. 5.

Leaving out of consideration the foreign born in Alaska and Hawaii in 1890, 1900 and those enumerated in 1900 at military and naval stations abroad and, therefore, not credited to any state or territory, there remains a total of 10,341,276 foreign born persons in 1900 as compared with 9,249,547 in 1890 and 6,679,943 in 1880. The distribution of the foreign born element by geographical divisions at the last three census periods was as follows:

TABLE No. 5.

FOREIGN BORN POPULATION BY GEOGRAPHICAL DIVISIONS IN 1880, 1890 AND 1900.

GEOGRAPHICAL DIVISIONS.	1900.	1890.	1880.	INCREASE FROM 1890 TO 1900.	INCREASE FROM 1880 TO 1890.

The United States.	10,341,276	9,249,547	6,679,943	11.8	38.5

According to this summary, the foreign born element in the United States proper has increased during the last ten years only 1,091,729, or 11.8 per cent, as against an increase from 1880 to 1890 of 2,569,624, or 38.5 per cent.

The proportional loss in the increase of the foreign born is even more apparent when the results of the several geographical divisions during the past two decades are compared. The figures of increase for the last ten years show that the North Atlantic division is the only section of the country in which the foreign born have the same proportional increase as the native element of the population, the percentages of increase in this division during the decade being 22.5 for the foreign born and 20.5 for the native born. There was an increase, however, in the foreign born in this division from 1880 to 1890 of 38.1 per cent, showing that in this division even there has been a very material falling off in the persons of foreign birth.

Of the whole number of foreign born in the United States proper in 1890, considerably more than two-fifths were found in the North Central division, the foreign born in this division having increased from 2,916,829 in 1880, to 4,060,114 in 1890, representing an increase in ten years of 1,143,285, or 39.2 per cent. There has been an increase in foreign born during the last ten years in this division of only 98,360, or 2.4 per cent, and if the increase for this division is considered by states, it is seen that there has been an increase in three states only, namely, Illinois, 124,400; Minnesota, 37,962; and North Dakota, 31,630. The total increase of the foreign born in these three states since 1890 amounts to 193,992, against which there was a decrease in foreign born in the remaining states of this division of 95,632, making the net increase for the division as a whole 98,360.

There has been an increase of not quite 10 per cent in persons of foreign birth in the western division during the past ten years as against an increase of more than 50 per cent during the preceding decade. In 1880 there were practically half a mil-

Non (500,062) foreign born persons in this division, and this had been increased in 1890 to 770,910, representing an increase in ten years of 270,848, or 54.2 per cent. During the past ten years, however, there has been an increase of foreign born in this division of only 75,411, equivalent to 9.8 per cent, making a total for 1900 of 846,321. With the exception of Nevada, which has decreased in both native and foreign born, there has been a gain since 1890 in foreign born in each state and territory comprising the Western division, but the proportional increases for Utah and California are nominal only, being 1.3 per cent for the former and .3 of one per cent for the latter. The largest numerical increases in the foreign born in this division during the past ten years are 23,971 for Montana, equivalent to an increase of 55.6 per cent, and 21,359 for Washington, equivalent to an increase of 23.7 per cent.

In the South Atlantic division the foreign born increased 7,505, or 3.6 per cent, from 1890 to 1900, as against an increase from 1880 to 1890 of 34,267, or 19.7 per cent. In Maryland and South Carolina there has been a positive loss in foreign born since 1890, the loss in Maryland representing 362 persons as compared with an increase for the preceding decade of 11,490. There was also an increase of foreign born in Florida from 1880 to 1890 of 13,023, but during the past ten years this element in that state has been increased by 900 only, making the foreign born now number 23,832 as against 22,932 in 1890.

In the South Central division the foreign born have increased 11.1 per cent since 1890 as compared with an increase during the preceding ten years of 17.3 per cent. There has been a large numerical increase in the foreign born during the last ten years in Texas and Oklahoma, and a considerable decline in their number in Kentucky and Tennessee during the same period. The foreign born in Texas now number 179,357 as against 152,956 in 1890, and those in Oklahoma 15,680 as against 2,740 ten years ago, the latter territory having been opened to settlement in May, 1890, just prior to the census enumeration.

The concentration in the northeasterly states of the increase in the foreign born during the last decade is emphasized when its distribution by geographical divisions is expressed in percentages, as follows:

GEOGRAPHICAL DIVISIONS.	1890 to 1900.	1880 to 1890.
	<i>Per cent.</i> 100.0	<i>Per cent.</i> 100.0
The United States.....

South Atlantic division.....	0.7	1.3
North Central division.....	9.0	44.5
South Central division.....	3.3	1.9
Western division.....	6.9	10.5

From this table of percentages it appears that, of the total increase in foreign born from 1880 to 1890, 44.5 per cent was in the North Central division and 41.8 per cent was in the North Atlantic division, whereas for the decade ending in 1900 only 9 per cent of the increase in the foreign born is found to be in the North Central division as compared with 80.1 per cent in the North Atlantic division. This concentration in the latter division of four-fifths of the increase in the foreign born element since 1890 is due to a very decided change in the character of the immigration in recent years—a change which began to be apparent at the census of 1890, but has progressed since at a very rapid rate, as shown by the following summary of the immigration figures from 1821 to the present time:

*Estimated for year ending June 30, 1897.

This table shows, first of all, that even up to 1890 the natives of Germany, Ireland, Great Britain, Canada and Newfoundland, and Norway and Sweden practically dominated the immigration to this country, these five classes combined having contributed very nearly 13,000,000 (12,711,311) out of a total of 15,427,657 immigrants to June 30, 1890. From 1891 to 1900, however, they have contributed out of a total of 3,687,564 immigrants only 1,489,695, or a little more than two-fifths as against very nearly three-fourths for the ten-year period ending in 1890, more than four-fifths for that ending in 1880, and fully nine-tenths of those ending in 1870 and 1860, respectively.

It also shows that this decline in the proportion represented by the heretofore dominant factors of our immigration has been in part offset by a very material increase during the past ten years in the proportion of immigrants arriving from Austria-Hungary (including Bohemia), Italy, Russia, and what was formerly Poland, countries from which prior to 1880 no considerable amount of immigration had been received. Since 1880 they have come into the country very rapidly, so that, although they constituted only about 1 per cent of all the immigrants during the ten years ending in 1870 and only 6.4 per cent of those who arrived during the decennial period ending in 1880, they represented more than one-sixth of the total number of immigrants from 1881 to 1890 and fully one-half of all from 1891 to 1900. In fact, for the decade just closed, each of these three classes of immigrants constitutes a larger proportion of all the immigrants than is shown for any of the countries from which the bulk of the immigration formerly came. Germany, which contributed more than one-third of all the immigrants for the ten-year periods ending in 1860 and 1870 and more than one-fourth of all the arrivals during the next two periods, has furnished barely one-seventh of the immigrants during the past ten years, while Ireland, which contributed more than two-fifths of all the immigrants from 1821 to 1850, more than one-third of those from 1851 to 1860, and very nearly one-fifth of those from 1861 to 1870, has furnished but a little more than one-tenth of the total number for the decade ending in 1900. Besides the change in the character of the more recent immigration, there has been a considerable diminution in the number of immigrants since 1890, or practically 1,500,000 less immigrants from 1891 to 1900 than from 1881 to 1890. These two reasons will account largely for the large proportion of the increase in the foreign born during the decade shown for the northeastern states as compared with the relatively small increases shown for the other sections of the country in which the decline in the older foreign elements has not been offset to any great extent by the introduction of the newer classes of immigrants.

Of the entire population in 1900 the native born constitute 86.3 per cent and the foreign born 13.7 per cent. This is not as large a proportion of foreign born as in 1890, when this element constituted 14.8 per cent of the total population as against 85.2 per cent for the native born.

In the United States proper the largest proportion of foreign born is found in North Dakota, this element constituting 35.4 per cent of the entire population of that state in 1900 as compared with 42.7 per cent in 1890, the total population at the latter census including Indians and other persons specially enumerated. The next largest percentages of foreign born in 1900 are 31.4 for Rhode Island, 30.2 for Massachusetts, 28.9 for Minnesota, 27.6 for Montana, 26.2 for Connecticut, and 26.1 for New York. These are all the states that have, approximately, one-fourth at least of their population of foreign birth, but there are, also, nine other states which have between 20 and 25 per cent of foreign born, namely, Wisconsin, California, Nevada, New Jersey, Michigan, South Dakota, Washington, New Hampshire, and Illinois.

The other extreme is found in the south, where the percentages of foreign born vary from two-tenths of 1 per cent in North Carolina to 7.9 per cent in Maryland, but very nearly all the states in this section have considerably less than 5 per cent of foreign born within their borders.

In Hawaii there is a very large foreign element, representing very nearly three-fifths (58.9 per cent) of the total population in 1900, but in Alaska not quite one-fifth (19.9 per cent) of the population in 1900 is of foreign birth.

MALE AND FEMALE POPULATION.

The whole number of males for the entire area of enumeration in 1900 is 39,059,242, and the whole number of females, 37,244,145. These figures are to be compared with a total for 1890 at 32,315,063 males and 30,754,693 females made up as follows:

AREAS.	Males.	Females.
States and territories (general enumeration)	32,667,880	30,554,370
Alaska (specially enumerated)	19,248	12,804
Hawaii (census of December 28, 1890)	58,714	31,276
Indian Territory (specially enumerated)	96,586	83,596
Indian reservations (specially enumerated)	72,635	72,047
Totals	32,315,063	30,754,693

In the ten years from 1890 to 1900 the males have increased 6,744,179, or 20.9 per cent, while the females have increased 6,489,452, or 21.1 per cent. The females have increased, therefore, during the ten years at a slightly greater rate than the males, the increase in the population as a whole for the same period being 21 per cent.

No direct comparison can be made with the results for the preceding decade, as the census of 1880 did not comprehend the same area of enumeration covered by the last two censuses. The figures for the present census when compared with those for 1890 show, however, that the greater rate of increase in females during the decade is due to an increase in their proportion in the north central and western sections of the country. The males predominate in these sections, especially in the western states and territories, but owing to the change in the character of the immigration since 1890 and the presence in these sections of a greater proportion of the older classes of immigrants, there has been a much greater increase in females than in males, so that in these states the females represent a considerably larger proportion of the total population in 1900 than they did in 1890. In all the states comprising the North Atlantic section of the country, and in most of the states of the South Atlantic section, the males show a slightly increased proportion in 1900 as compared with 1890, these being the older states of the Union in which the conditions with respect to sex are much more nearly normal than in the other sections of the country.

For the entire area of enumeration in 1900 the males constitute 51.2 per cent and the females 48.8 per cent of the total population, or substantially the same proportions shown for the equivalent areas in 1890. In the North Atlantic and South Atlantic divisions, considered as a whole, there is an equal proportion of males and females in 1900, but at the census of 1890 there was, in each case, a slightly larger proportion of females. In each of the three remaining divisions of states and territories the males represent a larger proportion of the total population than the females, and in the Western division the percentage in favor of the males is very large, or 56.2 for males as against 43.8 for females. In all the states and territories of this division the males constitute a large proportion of the total population, and this is particularly the case in Montana, Wyoming, and Nevada, where they represent more than 60 per cent of the entire population.

There is a very large proportion of males in both Alaska and Hawaii in 1900, the percentage of males in the former territory being 72.1 and in the latter, 69.1.

For the United States in its entirety, the males exceed the females in 1900 by 1,815,097, distributed by general nativity and color as follows:

GENERAL NATIVITY. AND COLOR.	Total.	Males.	Females.	EXCESS OF MALES	
				Number.	Per cent.
Native white—native parents.	41,053,417	20,934,099	20,119,318	814,781	44.9
Native white—foreign parents.	15,687,322	7,869,089	7,818,233	50,856	2.8
Foreign white	10,250,063	5,545,833	4,704,230	841,603	46.4
Negro	8,840,789	4,393,221	4,447,568	*54,347	*3.0
Chinese	119,050	111,054	7,996	103,058	5.7

Indian	266,760	134,560	132,200	2,360	0.1
Aggregate	76,303,387	39,059,242	37,244,145	1,815,097	100.0

* Excess of females.

Of the 1,815,097 males in excess, the foreign whites number 841,603, or 46.4 per cent, and the native whites of native parentage 814,781, or 44.9 per cent, these two elements combined representing more than nine-tenths of the entire excess. The only element of the population in which there is not a preponderance of males is that of persons of negro descent, which shows, for the country as a whole, an excess of 54,347 females.

Considering the excess of males (or females) with reference to the proportion which it bears to the whole number of persons comprising each element of the population, the following percentages are obtained:

GENERAL NATIVITY AND COLOR.	Total number.	EXCESS OF MALES.	
		Number.	Per cent of total number.
Native white—native parents	41,053,417	814,781	2.0
Native white—foreign parents	15,687,322	50,856	0.3
Foreign white	10,250,063	841,603	8.2
Negro	8,840,789	*54,347	*0.6
Chinese	119,050	103,058	86.6
Japanese	85,986	56,786	66.0
Indian	266,760	2,360	0.9
Aggregate	76,303,387	1,815,097	2.4

* Excess of females.

From this summary it appears that the excess of males constitutes 2 per cent of all the native whites of native parentage, 8.2 per cent of all the foreign whites, 86.6 per cent of all the Chinese, and 66 per cent of all the Japanese, while for the remaining elements the excess of males (or females) constitutes less than 1 per cent in each case.

WHITE AND NEGRO POPULATION.

The foregoing tables show that the population of the entire area of enumeration in 1900 is composed of 66,990,802 white persons, 8,840,789 persons of negro descent, 119,050 Chinese, 85,936 Japanese, and 266,760 Indians, representing, in the aggregate, 76,303,387 persons. The 63,669,756 persons reported for the equivalent area in 1890 comprised 55,166,184 white persons, 7,488,788 persons of negro descent, 126,778 Chinese, 14,399 Japanese, and 273,607 Indians.

From table 8 it is seen that persons of negro descent in 1890 numbered 7,488,788 as against a total in 1900, for the entire area of enumeration, of 8,840,789. This is an increase during the decade of 1,352,001, or 18.1 per cent. The whites have increased during the same period 11,824,618, or 21.4 per cent. These figures, representing the increase in the white and negro population since 1890, are distributed in table 9 by states and territories arranged geographically for convenience of comparison.

‡ Decrease.

Table 9 shows that persons of negro descent have not increased since 1890 relatively as fast as the whites, the percentages of increase being, as previously stated, 21.4 for the whites and 18.1 for persons of negro descent, when the entire area of enumeration in 1900 is considered. If an examination is made of the relative increases of these two elements in the South Atlantic and South Central divisions, in which nearly nine-tenths of all the persons of negro descent are found, the same conditions are apparent. In the South Atlantic division there has been an increase in the white population since 1890 of 19.9 per cent as compared with an increase in the negro population of 14.3 per cent, while in the South Central division the whites have increased during the same period 29.1 per cent and the negro element 19.9 per cent. If the comparison in these two divisions is extended to the several elements of the white population, it is seen that among the foreign whites there has not been as rapid a rate of increase as among persons of negro descent, but that among the native whites, both of native and foreign parentage, the relative increase during the decade has been much greater. The percentages of increase in each element since 1890 in each of these two divisions are as follows:

SOUTH ATLANTIC DIVISION.—Native whites of native parentage, 20.5; native whites of foreign parentage, 20.9; foreign whites, 3.2; persons of negro descent, 14.3.

SOUTH CENTRAL DIVISION.—Native whites of native parentage, 29.2, native whites of foreign parentage, 39.5; foreign whites, 11; person of negro descent, 19.9.

The combined population of these two divisions in 1900 represents a total of 24,523,527 persons, of whom the native whites of native parentage constitute 14,862,032, or 60.6 per cent, and persons of negro descent, 7,922,969, or 32.3 per cent, leaving only 1,738,526, or 7.1 per cent, for the remaining elements of the population, as shown by the following summary:

The increase in persons of negro descent should be compared more properly, therefore, with that for native whites of native parentage, and this is done for the states and territories comprising these two divisions in table 10.

As shown by table 2, there has been an increase in native white persons of native parentage since 1890, for the entire area of enumeration in 1900, of 18.9 per cent as against an increase of 18.1 per cent for persons of negro descent. In the South Atlantic division as a whole, native white persons of native parentage have increased during the past ten years 20.5 per cent and persons of negro descent 14.3 per cent. The latter element has increased at a more rapid rate than the first named element in West Virginia and Florida and at substantially the same rate in Delaware, but in the remainder of this division the element of native parentage shows the larger percentages of increase. In West Virginia there has been an increase since 1890 of 33.1 per cent in the negro element as against an increase of 25.9 per cent in the native whites of native parentage, while in Florida the percentages of increase are 38.8 for the former and 33 for the latter. In Delaware and Georgia the two elements have increased at very nearly the same rate, but in the remaining states and in the District of Columbia the percentages of increase are largely in favor of the white element of native parentage.

In the South Central division the native white persons of native parentage have increased 29.2 per cent and persons of negro descent 19.9 per cent, when the division is considered in its entirety, but in Alabama, Mississippi, Oklahoma, and Arkansas the rates of increase for the negro element are slightly larger than those for the native whites of native parentage, or 21.9 as against 20.1 for Alabama, 22.2 as against 19 for Mississippi, 18.7 as against 14.9 for Arkansas, and 533.4 as against 470.4 for Oklahoma. The native white element of native parentage has increased since 1890 relatively three times as fast as the negro element in Kentucky, more than twice as fast in Louisiana, and not quite one and one-half times as fast in Texas.

Of the entire population returned in 1900, the white element constitutes 87.8 per cent and the colored element 12.2 per cent, the negro element by itself constituting 11.6 per cent. Ten years ago the negro element represented a slightly larger proportion of the population, or 11.9 per cent. In the two divisions comprising the southern states and territories, considered as a whole, persons of negro descent now constitute a somewhat less proportion of the total population than in 1890, but in certain of these states and territories in which this element has increased during the decade at a more rapid rate than the whites, they constitute a slightly larger percentage of the population in 1900 than they did in 1890, namely, West Virginia and Florida, in the South Atlantic division, and Alabama, Mississippi, Oklahoma, and Arkansas, in the South Central division.

In South Carolina and Mississippi the negro element predominates, there being in 1900 in South Carolina 782,321 persons of negro descent and 557,807 white persons, and in Mississippi 907,630 of the former and 641,200 of the latter element. Of the entire population of South Carolina, the negro element constitutes 58.4 per cent in 1900 as against 59.9 per cent in 1890, while that of Mississippi the same element constitutes 58.5 per cent as against 57.6 per cent in 1890. Ten years ago the negroes were in the majority in Louisiana, when they represented practically half of the population, but at the present census they number 650,804 and constitute only 47.1 per cent of the population of that state. There are now 729,612 white persons in Louisiana and they constitute 52.8 per cent of the whole population as against 49.9 per cent in 1890.

For the entire area of enumeration in 1900 there are 13,197 negroes to each 100,000 whites as compared with 13,575 in 1890. The North Atlantic division is the only one of the five grand divisions which shows a larger proportion of negroes relatively to the whites in 1900 as compared with ten years ago, but in this division the relative proportion is small at each census, or 1,866 in 1900 and 1,576 in 1890.

In the South Atlantic division there are 55,607 negroes to each 100,000 whites in 1900 as against 58,344 in 1890, and in the South Central division 42,726 in 1900 as against 46,017 in 1890.

The largest proportions of negroes to whites in 1900 are found in Mississippi and South Carolina, or a little more than 140,000 negroes to each 100,000 whites in each case. The relative proportion has fallen in South Carolina from 149,117 in 1890 to 140,249 in 1900, but in Mississippi it has increased in ten years from 136,287 to 141,552, this being the largest proportion shown by any state or territory in 1900. In Louisiana there were ten years ago 100,143 negroes to each 100,000 whites, but the census of 1900 shows a decrease in the relative proportion to 89,199. Alabama has increased its relative proportion in ten years from 81,381 to 82,636, and there has been a similar increase from 73,875 to 77,600 in Florida, from 37,755 to 38,838 in Arkansas, from 4,772 to 5,124 in Oklahoma, and from 4,478 to 4,753 in West Virginia.

‡ Specially enumerated in 1890

‡‡ Includes persons of mixed parentage (descendants of native Indians and Russians), as follows: 1900, 2,499; 1890, 1,823; 1880, 1,756.

CHINESE, JAPANESE AND INDIAN POPULATION.

The returns of the Twelfth Census show a total of 119,050 Chinese, including 3,116 in Alaska, 25,767 in Hawaii, and 304 at military and naval stations abroad. In the United States proper there are, therefore, 89,863 Chinese as against 107,488 in 1890, including in the latter number 13 specially enumerated in Indian Territory ten years ago.

Of the 89,863 Chinese in the United States proper, 67,729, or 75.4 per cent, are contained in the western division of states and territories as against 96,844, or 90.1 per cent, in 1890. This is a loss since 1890 of 29,115 Chinese, or 30.1 per cent, in the western division, the number in California alone having been reduced from 72,472 in 1890 to 45,753 in 1900. There has, however, been a slight gain since 1890 in the number of Chinese in Arizona, Oregon and Washington.

The states and territories outside of the western division show as a whole a gain since 1890 of 11,490 Chinese, making a net loss for the United States proper of 17,625, or 16.4 per cent.

There has been an increase in Chinese since 1890 in all of the geographical divisions, except the western, as shown by the following summary:

GEOGRAPHICAL DIVISIONS.	NUMBER OF CHINESE.	
	1900.	1890.
North Atlantic division.....	14,693	6,177
South Atlantic division.....	1,791	669
North Central division.....	3,608	2,351
South Central division.....	1,982	1,447
Western division.....	67,729	96,844
Total.....	89,863	107,488

There has been a large increase since 1890 in the number of Japanese in the United States, the figures of the present census showing a total for the United States proper of 24,326 as against only 2,039 in 1890. There is also a large Japanese element in Hawaii, numbering 61,111 in 1900 as against 12,360 in 1890, and besides these the census shows 265 Japanese in Alaska and 284 Japanese enumerated at military and naval stations abroad, making a total of 85,986 Japanese for the entire area of enumeration in 1900.

The Japanese in the United States proper are concentrated in the Western division of states and territories, as shown by the following summary:

GEOGRAPHICAL DIVISIONS.	NUMBER OF JAPANESE.	
	1900.	1890.
North Atlantic division.....	535	247
South Atlantic division.....	29	55
North Central division.....	349	117
South Central division.....	37	61
Western division.....	23,376	1,559
Total.....	24,326	2,039

Of the 23,376 Japanese in the Western division in 1900, 10,151 are in California, 5,617 in Washington, 2,501 in Oregon, 2,441 in Montana, and 1,291 in Idaho, leaving only 1,375 for the remaining states and territories in this division.

The whole number of Indians, taxed and not taxed, in the United States in 1900, including those enumerated in Alaska and at military and naval stations abroad, is 266,760, of whom 137,242 are taxed and 129,518 are not taxed. For the same area in 1890 there were returned 273,607 Indians, comprising 84,160 Indians taxed and 189,447 Indians not taxed.

The native Indian tribes of Alaska number 29,536 in 1900 as against a return of 25,354 in 1890, showing a gain during the ten years of 4,182, or 16.5 per cent. In the United States proper the Indians number 237,195 as compared with a total in 1890 of 248,253, representing a loss during the decade of 11,057, or 4.5 per cent. The distribution of the Indians in the United States proper in 1890 and 1900 is shown by geographical divisions in the following summary:

GEOGRAPHICAL DIVISIONS.	NUMBER OF INDIANS.	
	1900.	1890.
North Atlantic division	8,559	8,654
South Atlantic division	6,585	2,359
North Central division	57,366	63,024
South Central division	68,164	69,438
Western division	96,522	104,778
Total	237,196	248,253

With the exception of the South Atlantic division the above summary shows a loss in the number of Indians in each geographical division since 1890. The apparent gain in the South Atlantic division is due to the inclusion as Indians in 1900 of the Croatans in North Carolina, who were largely enumerated in 1890 as whites.

PERSONS OF SCHOOL AGE.

The designation "persons of school age" includes, for census purposes, all persons from 5 to 20 years of age, inclusive, although there is but little uniformity in the age limits prescribed by the several states and territories.

The whole number of persons of school age, that is, from 5 to 20 years of age, inclusive, in 1900 is 26,110,788. These figures include, however, 217,523 persons of school age reported in Alaska, Hawaii, Indian Territory, and on Indian reservations situated in certain of the states and territories, areas specially enumerated in 1890 but for which no separate tabulation of those of school age was made at that census. In order to determine the increase in this class of persons from 1890 to 1900, it is necessary, therefore, to exclude the above number of persons reported in 1900 for the areas specially enumerated in 1890, as shown by the following summary:

† Decrease.

‡ Not separately stated in 1890.

From this summary it appears that, exclusive of certain areas specially enumerated in 1890, there are 25,893,265 persons of school age in 1900 as compared with 22,447,392 such persons in 1890, representing an increase during the decade of 3,445,873, or 15.4 per cent. There has been an increase since 1890 in native born persons of school age of 3,585,765, or 17 per cent, and a decrease in foreign born persons of school age of 139,891, or 10.4 per cent. Considering the increase with respect to color, it appears that native white persons of school age who are of native parentage have increased during the ten years 2,170,926, or 17.2 per cent, and native white persons of school age who are of foreign parentage, 1,057,751, or 19.9 per cent. Foreign white persons of school age show a decrease since 1890 of 139,102, or 10.4 per cent, while colored persons of school age have increased during the same period 356,298, or 11.1 per cent, the colored element including not only persons of negro descent, but also Chinese, Japanese, and Indians.

Of the whole number of persons of school age for the entire area of enumeration in 1900, 24,897,130, or 95.4 per cent, are native born and 1,213,658, or 4.6 per cent are foreign born.

For the United States in its entirety persons of school age in 1900 are distributed according to color, as shown by table 1, as follows: Native white of native parents, 14,908,983, or 57.1 per cent; native white of foreign parents, 6,384,967, or 24.4 per cent; foreign white, 1,196,261, or 4.6 per cent; and colored 3,620,577, or 13.9 per cent. Comparing the above percentages with similar results for 1890, it appears that there has been a relative increase among persons of school age of 1.7 per cent for native white persons, a decrease of 1.4 per cent for foreign white persons, and a decrease of three-tenths of 1 per cent for colored persons, the last element comprehending all persons of negro descent and also Chinese, Japanese, and Indians

MALES OF MILITIA AGE.

The natural militia ages are from 18 to 44 years, inclusive, and the number of males between these ages in each state and territory in 1900 is presented in detail by general nativity and color in table 5. This table gives, for the entire area of enumeration in 1900, a total of 16,360,363 males of militia age, including 183,849 males of this class reported in Alaska, Hawaii, Indian Territory, and on Indian reservations situated in certain of the states and territories, areas specially enumerated in 1890 but for which no separate tabulation of males of militia age was made at that census. In order to determine the increase in this class of males from 1890 to 1900 it is necessary, therefore, to exclude the above number of males reported in 1900 for the areas specially enumerated in 1890, as shown by the following summary:

* Not separately stated in 1890.

The foregoing summary shows that, exclusive of certain areas specially enumerated in 1890, there has been an increase in males of militia age since 1890 of 2,946,346, or 22.3 per cent. Native born males of militia age have increased during the ten years 24.9 per cent as against a corresponding increase in the same element of the general population of 22.4 per cent. Similarly, foreign born males of militia age show an increase of 12.5 per cent as against an increase in the foreign born population as a whole of 11.9 per cent; or, in other words, males of militia age have increased since 1890 at a somewhat more rapid rate than the population as a whole.

Considering the increase in males of a militia age with respect to color, the same conditions are apparent when compared with the increase in the general population, with the exception of native white males of militia age who are of native parentage. For this element there has been an increase since 1890 of only 18 per cent as against an increase of 18.5 per cent of the entire number of native white persons of native parentage. Native white males of militia age who are of foreign parentage have increased 43.8 per cent during the decade as against an increase for this entire element of the population of 36.1 per cent. Similarly, there has been an increase in foreign white males of militia age of 13.3 per cent as against an increase of 12.1 per cent for all foreign white persons, and an increase of 24.7 per cent for colored males of militia age as against an increase of 18.8 per cent for all colored persons.

Of all the males of militia age in 1900, 80.3 per cent are native born and 19.7 per cent foreign born. Compared with similar results for 1890 these figures show that there is a less proportion of foreign born males of militia age in 1900 and a corresponding increase in the proportion of native born males of militia age. In all the New England states, however, and also in New York New Jersey Pennsylvania, Delaware, and West Virginia there is a larger proportion of foreign born among the males of militia age in 1900 than there was ten years ago. In the remaining states and territories of the United States proper foreign born males of militia age constitute a less proportion of the whole number of such persons in 1900 than they did in 1890, due principally, as explained heretofore, to the change in the character of the immigration since 1890 and the concentration in the more easterly states of practically four-fifths of all the increase in the entire body of foreign born since 1890.

As shown by table No. 6, not quite one-half, or 49.3 per cent, of all the males of militia age in 1900 are native white of native parentage, as compared with 51.2 per cent in 1890. There has also been a loss in the proportion of foreign white males of militia age in 1900 as compared with 1890, the loss in the two elements named being offset by a corresponding increase in the proportion of colored males of militia age and native white males of militia age who are of foreign parentage.

MALES OF VOTING AGE.

The number of males of voting age, that is, all males 21 years of age and over, in each state and territory in 1900 is presented in detail by general nativity and color in table 7. This table shows that, for the entire area of enumeration in 1900, there are 21,329,819 males of voting age, including 226,837 such males reported in Alaska, Hawaii, Indian Territory, and on Indian reservations situated in certain of the states and territories, areas specially enumerated in 1890 but for which no separate tabulation of males of voting age was made at that census. In order to determine the increase in this class of males from 1890 to 1900 it is necessary, therefore, to exclude the above number of males reported in 1900 for the areas specially enumerated in 1890, as shown by the following summary:

* Not separately stated in 1890.

From this summary it appears that, exclusive of the areas specially enumerated in 1890, there has been an increase in males of voting age during the past ten years of 4,162,671, or 24.6 per cent, as compared with an increase in the general population of 20.7 per cent for the same area, and of 21 per cent for the entire area of enumeration in 1900. Native born males of voting age have increased 27.7 per cent and foreign born males of voting age 15.5 per cent since 1890 as against an increase in native born population of 22.4 per cent and in foreign born population of 11.9 per cent. There has been a very large increase, during the decade in native white males of voting age who are of foreign parentage, or an increase of 60.8 per cent, as compared with an increase of only 36.1 per cent for all native white persons of foreign parentage. In each of the other elements of the population the males of voting age show larger percentages of increase than for each element as a whole, as follows: Native white of native parents—all persons, 18.5 per cent; males of voting age, 19.6 per cent. Foreign white—all persons, 12.1 per cent; males of voting age, 15.8 per cent. Colored—all persons, 18.8 per cent; males of voting age, 26.1 per cent.

For the entire area of enumeration in 1900, native born males of voting age constitute 76.1 per cent and foreign born males of voting age 23.9 per cent as compared with 74.3 per cent and 25.7 per cent, respectively, in 1890. There is a somewhat larger proportion of foreign born males of voting age in 1900, as compared with 1890, in Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, and New Jersey, the largest relative increases being found in New Hampshire and Connecticut. All the remaining states and territories in the United States proper show a decrease in the proportion of foreign born males of voting age in 1900, as

compared with the preceding census, the largest relative decreases being found in Arizona, Nevada, California, Idaho, Wisconsin, Minnesota, Utah, and North Dakota. These differences in the proportions shown now, as compared with ten years ago, are due, to the change in the character of the immigration since 1890 and to the fact that practically all the increase in foreign born since 1890 is found in the northeastern section of the country.

Males of voting age, are distributed by general nativity and color, for the entire area, of enumeration in 1900, as follows: Native white—native parents, 49.9 per cent; native white—foreign parents, 16.2 per cent; foreign white, 23.1 per cent; colored, 10.8 per cent. These percentages, when compared with similar percentages for 1890, show a relative increase of 3.5 per cent for the native white of foreign parents and five-tenths of 1 per cent for the colored, and a relative decrease of 2.1 per cent for the native white of native parents and 1.9 per cent for the foreign white. Native white males of voting age who are of foreign parentage show a relative increase in their proportion in 1900, as compared with 1890, throughout the entire country, while colored males of voting age have increased relatively, with few exceptions, throughout the northern and western sections of the country, the most noticeable exception among the latter element being in California, owing principally to the large decrease in the Chinese population. In many of the southern states and territories, however, the colored element of voting age shows a decreased proportion, and this decrease is especially noticeable in Virginia, North Carolina, South Carolina, and Louisiana, states in which the colored element is composed mainly of persons of negro descent. Foreign white males of voting age show an increased proportion, as compared with ten years ago, in all the New England states except Vermont and in New Jersey, but this element has decreased relatively in all of the remaining states and territories, the decrease as a whole being from 25 per cent 1890 to 23.1 per cent in 1900, as already stated. Among the native white males of voting age who are of native parentage there has been a decrease since 1890 in their proportion in all the northern and western states, with the exception of Nevada, Idaho, and California, but in many of the southern states and territories there has been a slight relative increase among this element.

The percentages of literate and illiterate males of voting age, in the aggregate and for each of the several elements, together with the number of males in each class, are deducted from the foregoing tables, for the entire area of enumeration in 1900, as follows:

The above summary shows that of the 21,329,819 males of voting age in 1900 19,003,524, or 89.1 per cent, are literate and 2,326,295, or 10.9 per cent, are illiterate. There is a very large percentage of illiterates among each of the several classes of colored males of voting age and a considerable proportion also among foreign white males of voting age. Of the two classes of native white males of voting age much the larger proportion of illiterates is found among those of native parentage 5.8 per cent of this class of voters being illiterate as compared with 2 per cent to native white males of voting age who are of foreign parentage.

For the entire area of enumeration in 1900, there are 5,102,534 foreign born males of voting age, representing 48.8 per cent of the total foreign born population (10,460,085) returned at the present census. Excluding from this number potential voters of foreign birth 96,051 such persons reported in 1900 for the area specially enumerated in 1890, and also for military and naval stations abroad, there remains a total for the United States proper of 5,006,483, which number can be compared directly with the 4,348,459 foreign born males of voting age reported for the same area in 1890. From these figures it appears, therefore, that there has been an increase since 1890 in potential voters of foreign birth of 658,024, or 15.1 per cent as compared with an increase in the total foreign born population of 11.7 per cent.

The following summary shows the number and percentage of foreign born males of voting age at the last two censuses who have been naturalized, who have taken out first naturalization papers or who are aliens.

Aggregate.....	5,102,534	100.0	5,006,483	100.0	4,348,459	100.0

Considering the figures for the entire area of enumeration in 1900, as shown by the above summary, it appears that of the 5,102,534 foreign born males of voting age 56.1 per cent are naturalized, 8.2 per cent have taken out first naturalization papers, 21 per cent have taken no steps toward naturalization, that is, are aliens, and 14.7 per cent have made no return with respect to citizenship. These percentages do not differ particularly from those for foreign born males of voting age in the United States proper (third and fourth columns of summary), but if the latter figures are compared with the percentages given for 1890, it is seen that there is in 1900 a somewhat less proportion of naturalized males of voting age and of aliens, a larger proportion of those who have filed their first naturalization papers, and a considerably larger proportion of those for whom no information as to citizenship has been returned than in 1890.

Foreign born males of voting age in 1900 are distributed by states and territories according to citizenship and literacy, in table 12, and from the figures therein pre-

sented is derived the percentage of foreign born males of voting age in 1900 who are naturalized or who have taken out first naturalization papers, in comparison with similar percentages for 1890, based upon the figures in the printed report for that census, as previously explained.

There is a large percentage of illiterates among the alien element of the foreign born population of voting age, representing, for the entire area of enumeration in 1900, 28.1 per cent of the whole number of aliens. The largest percentage of illiterate aliens is found in Louisiana where they constitute fully one-half of all the aliens reported for that state. There is very nearly the same proportion of illiteracy among aliens in West Virginia, or 49.4 per cent, and this is also true with respect to New Mexico, Arizona and Texas, where the illiterate aliens constitute of the whole number of aliens 47.1 per cent, 46.2 per cent, and 44.8 per cent, respectively.

Among the naturalized males of voting age the illiterates constitute, for the entire area of enumeration in 1900, only 6.3 per cent, but in many of the states and territories there is a very considerable percentage of illiterates among this class of potential voters, the largest percentages shown being 20.2 in Vermont, 18.4 in New Mexico, 18.1 in Hawaii, 15.9 in New Hampshire, and 15.5 in Maine.

Foreign born males of voting age who have taken out first naturalization papers show, for the entire area of enumeration in 1900, very nearly twice as large a proportion of illiterates as that for naturalized males of voting age, but a very much less proportion than that reported for the alien element of voting age, or 11.8 per cent as compared with 6.3 per cent for the former, and 28.1 per cent for the latter element. The percentages of illiterates for this class of potential voters vary considerably in the several states and territories comprising the United States proper, ranging from as high as 36.6 per cent in Texas, to as low as 4.3 per cent in Oregon, Hawaii shows even a larger percentage than Texas, or 45.8.

According to the returns of the Twelfth Census there are, for the entire area of enumeration in 1900, 21,329,819 males of voting age, as already stated. If this number of potential voters is compared with the total population in 1900, it is seen that there are, on the average, 3.6 persons to each potential voter. This average varies, however, for the several elements of the population, according to the proportion (or percentage) of potential voters among the whole number of persons in each case, as shown by the following summary:

*Includes persons in the military and naval service of the United States (including civilian employes, etc.) stationed abroad, not credited to any state or territory.

The preceding table shows that in the North Atlantic and North Central divisions there is not a wide variation in the ratio of potential voters to total population in the several states comprising these two divisions, the average number of persons to each potential voter ranging from 3.1 to 3.5 in the first named division and from 3.4 to 3.6 in the last named division.

In the South Central division, aside from Oklahoma, there is no great variation in the ratios, but, with the exception of Oklahoma, the ratios are very much higher than those indicated for the northeastern and north central sections of the country, ranging from 4 to 4.4 persons to each potential voter.

In the South Atlantic division there is a wide range in the ratios, varying from 3.3 for the District of Columbia to as high as 4.7 for South Carolina, the average for the division as a whole being 4.2 persons.

There is even a more marked variation in the ratios in the Western division of states and territories, or from 2.4 in Montana, Wyoming, and Nevada to 4.1 in Utah, the average for the division as a whole being 2.8 persons.

In Alaska and Hawaii there are on the average less than 2 persons to each potential voter, or 1.7 and 1.9, respectively.

It is apparent, therefore, from these varying ratios of potential voters to population that there is no fixed ratio which can be used in determining the population of different areas, but that this is a matter which depends largely upon the constitution of the population, the ratio being larger or smaller according to the pre-dominance of the several elements of which it is composed.

AGRICULTURAL INDUSTRIES OF IOWA.

UNITED STATES CENSUS, 1900.

INTRODUCTION.

A "farm", as defined by the Twelfth Census, includes all the land, under one management, used for raising crops and pasturing live stock, with the wood lots, swamps, meadows, etc., connected therewith. It includes also the house in which the farmer resides and all other buildings used by him in connection with his farming operations.

The farms of Iowa, June 1, 1900, numbered 228,622, and had a value of \$1,497,554,790. Of this amount \$240,802,810, or 16.1 per cent, represents the value of buildings, and \$1,256,751,980, or 83.9 per cent, the value of the land and of improvements other than buildings. On the same date the value of farm implements and machinery was \$57,960,660, and of livestock, \$278,830,096. These values added to that of farms give \$1,834,345,546, the "total value of farm property."

The products derived from domestic animals, poultry and bees, including animals sold and slaughtered on farms, are referred to in this bulletin as "animal products." The total value of all such products, together with the value of all crops, is termed "total value of farm products." This value for 1899 was \$365,411,528, of which amount \$169,858,981, or 46.5 per cent represents the value of animal products, and \$195,552,547, or 53.5 per cent, the value of crops, including forest products. The "total value of farm products" for 1899 exceeds that for 1889 by \$206,063,684, or 129.3 per cent.

The "gross farm income" is obtained by deducting from the total value of farm products the value of the products fed to live stock on the farms of the producers. In 1899, the reported value of products fed was \$102,023,040, leaving \$263,388,488 as the gross farm income for that year. The percentage which this amount is of the "total value of farm property" is referred to as the "percentage of income upon investment." For Iowa, in 1899, it was 14.4 per cent. As no reports of expenditures for taxes, interest, insurance, feed for stock, and similar items have been obtained by any census, no statement of net farm income can be given.

GENERAL STATISTICS.

Iowa has a total land surface of 55,475 square miles, or 35,504,000 acres of which 34,574,337 acres, or 97.4 per cent are included in farms.

The State lies within the Mississippi and Missouri drainage basins and slopes generally from the Northwest to the South and East. There is very little woodland and almost the entire area is available for cultivation.

The soil, which is a dark, heavy drift loam from 2 to 5 feet in depth, is very fertile, well drained and easily cultivated. Iowa is especially well adapted to stock raising, and in 1900 stood first among the states of the Union in total value of domestic animals.

NUMBER AND SIZE OF FARMS.

The following table gives by decades since 1850, the number of farms, the total and average acreage, and the per cent of farm land improved.

1850	14,825	2,736,664	824,682	1,911,382	184.8	30.1

The number of farms reported June 1, 1900, was fifteen times as great as the number reported in 1850, and was 26,719, or 13.2 per cent. greater than in 1890. The total acreage in farms has steadily increased, and since 1870 at a more rapid rate than the number of farms, hence the increase in the average size of farms from 133.6 acres to 151.2 acres since that time. The improved acreage has increased faster relatively than the total farm area, the per cent of farm land improved having increased steadily and rapidly throughout the half century.

FARM PROPERTY AND PRODUCTS.

Table 2 presents a summary of the principal statistics relating to farm property and products for each census year, beginning with 1850.

*For year preceding that designated.

†Values for 1870 were reported in depreciated currency. To reduce to specie basis of the other figures they must be diminished one-fifth.

‡Includes betterments and additions to live stock.

The value of farm property in 1900 was nearly nine times as great as in 1850, the gain in the last decade being \$733,662,967, or 66.7 per cent. Of this amount \$639,973,768, or 87.2 per cent, represents the gain in value of land, improvements and buildings, \$21,295,345, or 2.9 per cent, that in implements and machinery, and \$72,393,854, or 9.9 per cent, that in live stock.

The value of the products of 1899 exceeded that of 1889 by \$206,063,684, or 129.3 per cent. A portion of this increase, however, is doubtless the result of a more detailed enumeration in 1900 than heretofore.

The surface, soil, drainage, and other natural features of the counties of Iowa are so similar that no striking differences are shown in the table. The northwestern counties have the largest average size of farms, exceeding 200 acres in a few instances, but the percentage of farm land improved does not vary to any extent. The average values of farms range from \$4,000 to \$10,000, being determined more by transportation facilities and the nearness of markets than by natural advantages.

The average expenditure for labor was highest in the northwestern counties, where the average size of farms is greatest and in the counties containing the largest cities. The amounts expended for fertilizers were small, averaging little more than one dollar per farm, and in no county exceeding five cents per acre.

But two counties, Grundy and Shelby, have fewer farms than in 1890, and in both cases the decreases are slight. Grundy is the only county reporting a smaller farm acreage than ten years before, but several counties report smaller improved acreages. These decreases are due largely to the stricter definition of the term "improved" by the Twelfth Census than by preceding censuses. Increases are shown for all counties in the values of the various forms of farm property, except for the value of live stock in Des Moines and Tama counties.

FARM TENURE.

Table 4 gives a comparative exhibit of farm tenure for 1880, 1890, and 1900. In Table 5 the tenure of farms for 1900 is given by race of farmer, the farms operated by owners being subdivided into four groups designated as "owners," "part owners," "owners and tenants," and "managers." These terms denote respectively: (1) Farms operated by individuals who own all the land they cultivate; (2) farms operated by individuals who own a part of the land and rent the remainder from others; (3) farms operated under the joint direction and by the united labor of two or more individuals, one owning the farm, or a part of it, and the other or others owning no part, but receiving for supervision or labor a share of the products; and (4) operated by individuals who receive for their supervision and other services a fixed salary from the owners.

The farms operated by tenants are divided into groups designated as farms operated by "cash tenants," and farms operated by "share tenants." These groups comprise, respectively: (1) Farms operated by individuals who pay a cash rental or a stated amount of labor or farm produce; (2) farms operated by individuals who pay as rental a share of the products.

The facts epitomized in the foregoing tables, to be seen in their true relation to the agricultural conditions and changes on Iowa farms in the the past twenty years, must be considered in connection with the occupation tables. Those tables are now available for 1880 and 1890, but not for 1900. In 1880 the total number of males engaged in agriculture was 302,171, while in 1890 it was 313,484. In 1880, 88,045 of the total number were employed at common labor for wages, while in 1890, but 73,753 were so employed. In connection with each 1,000 farms, there were in 1880, 1,630 males employed in some capacity. Of that number approximately 762 operated farms as owners; 238 as tenants; 470 worked as common wage laborers; and 160 were employed for wages at special occupations, such as gardening, floriculture, etc. Ten years later for each 1,000 farms, 1,500 males were employed, of whom 720 operated farms as owners; 280 as tenants; 360 were employed as common wage laborers, and 140 in special occupations.

In showing the relative changes in ten years in the four classes of farming population, the following comparative statement is presented: Of every 1,000 males in agriculture in 1880, there were substantially 468 operating farms as owners; 146 as tenants; 288 worked as common wage laborers; and 98 were employed at special occupations for wages. In 1890, there were 480 owners; 187 tenants; 240 common wage laborers; and 93 engaged in special occupations. The classes operating farms as owners, or as tenants, both increased in number faster than the total number of males engaged in agriculture, while those toiling for wages failed to increase in that proportion.

The total farming population varies from decade to decade approximately with the number of males engaged in agriculture. The figures given above indicate that in the decade from 1880 to 1890 the number of farm owners increased 2.6 per cent faster, and the number of tenants 28.1 per cent faster than the total farming population, while the number of common wage laborers in 1890 was only 83.3 per cent as

great, and the number of laborers engaged in special occupations but 94.9 per cent as great as they would have been had they increased as fast as the population. In each of the four classes mentioned there was a movement that assisted in raising the average social and economic status of the farming population. Whether caused by the rise of farm laborers to ownership or tenancy, as appears probable from the figures reviewed, or by additions to the classes of owners and tenants through immigration, this elevation is a beneficent change in all its aspects.

The occupation tables for 1900 are not yet prepared, but if the changes in rural population are reliable indices of the movements in the farming population proper, the changes noted above for the decade from 1880 to 1890 are continued with but slight modification in the last decade, and the average status of people toiling on Iowa farms has been raised even more than shown by the foregoing comparisons.

In connection with the changes noted above, attention is called to the specific changes in farm tenure shown in Tables 4 and 5.

The number of farms operated by owners has increased 7,700, or 5.5 per cent, since 1880, while the total number of farms has increased 23.3 per cent, resulting in a decrease in the per cent of farms operated by owners. The total number of tenant-operated farms has increased 80.5 per cent. Aside from this increase, there has been another remarkable change. The number of cash tenants is over five times as great as in 1880, while the number of share tenants has decreased 1.5 per cent in the same time. In 1880, 80.9 per cent of all tenants were share tenants; in 1890, 56.0 per cent; and in 1900, 44.2 per cent. This change is believed to be the result of a growing sentiment on the part of both landlord and tenant in favor of the cash payment system, and indicates greater independence and financial responsibility on the part of the tenant class as a whole. This belief is supported by the fact that in the most intensively cultivated regions the greater part of the tenants are cash tenants. In Cherokee county, 67.3 per cent, and in Grundy county, 68.5 per cent of all tenants pay cash rentals, while in Van Buren and Winnebago counties the corresponding percentages are only 41.8 and 44.2.

No previous census has reported the number of farms operated by "part owners," "owners and tenants," or "managers," but it is believed that the number of farms conducted by the last named class is constantly increasing.

OWNERSHIP OF RENTED FARMS.

The ownership of 75,434 of the 79,736 rented farms in Iowa was ascertained by the enumerators; that of 4,302 was unreported. The titles to the 75,434 farms are vested in 63,020 owners, an average of about 120 farms to every 100 owners. Of the 63,020 owners, 54,895 possess 1 farm each; 6,022, 2 each; 2,045, from 3 to 9 each; 54, from 10 to 25 each; and 4 possess 28, 36, 43, and 48 farms, respectively.

Of the 63,020 owners, 58,352, possessing 60,871 farms, reside in Iowa. The owners of 54,728 of these farms live in the counties in which their farms are located. Of the non-resident owners 296, residing in North Atlantic states, own 433 farms; 54, in South Atlantic states, 67; 3,527, in North Central states, 4,172; 162 in South Central states, 181; 583, in Western states, 654; and 46 in foreign countries, 56. The total value of these 5,563 farms owned by non-residents is \$39,062,462 an average of \$7,022 per farm.

* Including twenty-seven Indians.

The value of the farm property of the colored farmers is \$821,877. Of this amount, \$783,377 represents the farm property of negroes, and \$38,500 that of Indians. Farms operated by owners have the smallest average area, 143.2 while those

operated by managers have the largest, 315 6. Many of the latter are adjuncts of public institutions, while others are conducted by wealthy individuals in connection with their summer homes. Such farms, as a rule, are favorably located and highly improved, and the average values of the various forms of farm property, shown in Table 7, are much larger for this class than for any other class of farms grouped by tenure. The ratio which the gross income of these farms bears to the total value of their farm property is, however, smaller than for the other groups. This is due to the high average valuation of land and buildings, and to the fact that many of these farms are not cultivated primarily for profit.

The group of farms containing from 100 to 174 acres each, comprises the largest percentage of total farm acreage and also the largest percentage of the total value of farm property. In this group the average values of the various forms of farm property approach nearest to the average of the state. Excepting slight variations in the average value of buildings on small farms, the average value of the several forms of farm property advance with the size of the farm. For farms of less than 3 acres the average value of buildings exceeds that of land and improvements, as this class includes most of the florists' establishments and city dairies.

The average gross incomes per acre for the various groups are as follows: Farms under 3 acres, \$152.21; 3 to 9 acres, \$39.46; 10 to 19 acres, \$20.99; 20 to 49 acres, \$11.01; 50 to 99 acres, \$8.66; 100 to 174 acres, \$7.74; 175 to 259 acres, \$7.43; 260 to 499 acres, \$6.89; 500 to 999 acres, \$6.71; and 1,000 acres and over, \$5.60. In considering the relatively high gross income per acre for farms of less than 3 acres, it should be borne in mind that the income of the florists' establishments, nurseries, and city dairies, of which this group is largely composed, are determined, not so much by the acreage of land used, as by the amount of capital invested in buildings, implements, and live stock, and the amounts expended for labor and fertilizer.

FARMS CLASSIFIED BY PRINCIPAL SOURCE OF INCOME.

Tables 10 and 11 present the leading features of the statistics relating to farms classified by principal source of income. If the value of the hay and grain raised on any farm exceeds that of any other crop and constitutes at least 40 per cent of the value of the products not fed to live stock, the farm is designated as a "hay and grain farm." If vegetables are the leading crop, constituting 40 per cent of the value of products, the farm is designated a "vegetable farm." The farms of

the other groups are classified in accordance with the same general principle. "Miscellaneous" farms are those whose operators do not derive their principal income from any one class of farm products. Farms with no income in 1899 are classified according to the agricultural operations upon other farms in the same locality.

For the several classes of farms the average values per acre of products not fed to live stock are as follows: For farms deriving their principal income from flower, and plants, \$507.30; nursery products, \$99.89; vegetables \$16.46; fruit, \$16.15; sugar, \$8.86; tobacco, \$8.55 live stock, \$8.20; hay and grain, \$6.59; dairy produce, \$6.25; and miscellaneous products, \$6.23.

The wide variations shown in the averages and percentages of gross income are largely due to the fact that in computing gross income no deduction is made for expenditures. For florists' establishments, nurseries, and market gardens the average expenditure for such items as labor and fertilizers represents a far larger percentage of the gross income than in the case of "hay and grain," "live stock," or "miscellaneous farms." Were it possible to present the average net incomes, the variations shown would be comparatively slight.

The absence of income in the first group is due, in part, to the inability of the enumerators to secure complete reports for certain farms where changes in ownership or tenancy had occurred shortly prior to the date of enumeration. The persons in charge of such farms June 1, 1900, could not always give definite information concerning the products of the preceding year. The same statement is also true of some of the farms with reported incomes of less than \$100. To this extent the reports fall short of giving a complete exhibit of farm income in 1899. Other farms with small reported incomes are doubtless the suburban homes of retired farmers, and of city merchants and professional men, who derive their principal incomes from other than agricultural pursuits.

LIVE STOCK.

At the request of the various live stock associations of the country, a new classification of domestic animals was adopted for the census of 1900. Neat cattle are grouped by age, in accordance with their present and prospective relations to the dairy industry and the supply of meat products. Horses and mules are classified by age, and neat cattle and sheep by age and sex. The new classification permits a very close comparison with the figures published in previous census reports.

Table 14 presents a summary of live stock statistics.

The total value of all live stock on farms, June 1, 1900, was \$278,830,096, of which 34.5 per cent represents the value of neat cattle other than dairy cows; 27.9 per cent, the value of horses; 16.6 per cent, the value of dairy cows; 15.7 per cent, that of swine; 2.3 per cent, that of poultry; 1.5 per cent, that of sheep and goats; and 1.5 per cent, that of all other live stock.

The prices of neat cattle are high, but not higher than the excellent grade of stock kept throughout the state will warrant.

No reports were secured of the value of live stock not on farms, but it is probable that such animals have higher average values than those on farms. Allowing the same average values, however, the total value of domestic animals not on farms is \$12,695,273, or 4.6 per cent of the total value of farm live stock. Exclusive of poultry and bees not on farms, the value of live stock in the state is approximately \$291,525,400.

CHANGES IN LIVE STOCK KEPT ON FARMS.

The following table shows the changes since 1850 in the numbers of the most important domestic animals.

* Lambs not included.

The number of dairy cows increased rapidly and steadily in the forty years preceding 1890, but the table shows a decrease of 5.0 per cent in the last decade. It is probable that this decrease is only apparent, as many of the 461,031 "cows and heifers not kept for milk" were doubtless milch cows dry at the time of enumeration, or were cows milked at some time during the year, though not "kept for milk" primarily. An increase in the last decade of 48,910,829 gallons, or 10.0 per cent, in the quantity of milk produced, supports the view that the more strict definition of the term "dairy cows" by the Twelfth Census than by preceding censuses is largely responsible for the apparent decrease.

Better conveniences for feeding stock and increased and improved facilities for packing and shipping meats, have given a great impetus to the raising of beef cattle in the central and middle western states. The table shows that the number of other neat cattle in Iowa in 1900 was over forty times as great as in 1850, and 16.1 per cent greater than in 1890. The small rate of gain in the last decade is probably due to the fact that the unusually high prices prevailing for several months just preceding the enumeration led many farmers to reduce their herds and flocks to an unusual extent.

The number of horses increased steadily during the period covered by the table, the rate of gain for the last decade being 6.1 per cent. The number of mules and asses decreased slightly in the decade 1880-1890, but increased 38.3 per cent in the last decade, making the number of mules and asses 1900 4.1 per cent of the number of horses.

The increase in the number of horses and mules since 1890 has not kept pace with the increase in the acreage of land under cultivation. The larger average acreage now cultivated by the aid of a single working animal marks the introduction, in the last decade, of better breeds of horses and of more labor-saving machinery.

With the exception of a decrease in the decade 1870-1880, the number of sheep increased steadily during the half century. The rate of gain since 1890 was 20.2 per cent. The number of swine increased 17.6 per cent in the last decade.

In comparing the poultry report of 1900 (see Table 14) with that of the Eleventh Census, it should be borne in mind that in 1900 the enumerators were instructed not to report fowls less than three months old, while in 1890 no such limitation was made. This fact explains to a great extent the apparent decrease in the number of

all fowls. An increase of 43.4 per cent in the quantity of eggs produced is evidence that more fowls were kept in 1900 than ten years before. Compared with the figures for 1890, the present census shows decreases in the number of fowls as follows: Turkeys, 54.9 per cent; geese, 14.6 per cent; ducks, 10.8 per cent; chickens, 6.4 per cent.

ANIMAL PRODUCTS.

Table 16 is a summarized exhibit of the products of animal industry.

Of the value of animal products in 1899, 71.5 per cent represents the value of animals sold and animals slaughtered on farms; 16.2 per cent, that of dairy products; 11.5 per cent, that of poultry raised and eggs produced; and 0.8 per cent, that of wool, mohair, honey, and wax.

DAIRY PRODUCTS.

The production of milk in 1899 was 10.0 per cent greater than in 1889. Decreases in the last decade of 15.2 per cent in the quantity of butter and 70.5 per cent in the quantity of cheese made on farms are due in part to the transfer of these industries from the farm to the creamery, and in part to the growing demand for milk and cream in cities.

Of the \$27,516,870 given in table 16 as the value of all dairy products in 1889, \$8,697,868, or 31.6 per cent, represents the value of such products consumed on farms, and \$18,819,002, or 68.4 per cent, the amount realized from sales. Of the latter amount, \$12,275,844 was derived from the sale of 214,338,442 gallons of milk; \$1,349,938 from 3,323,073 gallons of cream; \$5,167,031 from 33,266,912 pounds of butter; and \$25,189 from 238,003 pounds of cheese.

POULTRY AND EGGS.

The total value of the products of the poultry industry in 1899 was \$19,508,526, of which amount, 48.7 per cent represents the value of fowls raised, and 51.3 per cent the value of eggs produced. The increase in the number of eggs produced from 1890 to 1900 was 43.4 per cent.

WOOL.

The quantity of wool produced increased 89.3 per cent in the last decade, the western counties reporting the greatest gains. The average weight of fleeces in 1880 was 6.5 pounds; in 1890, 7.3 pounds; and in 1900, 7.0 pounds.

HONEY AND WAX.

The quantity of honey reported in 1900 was but 37.3 per cent as great as that reported ten years before. The quantity of wax produced decreased 26.8 per cent.

ANIMALS SOLD AND SLAUGHTERED.

The total value of animals sold and slaughtered on farms in 1899 was \$121,527,461, or 33.3 per cent of the value of all farm products, and 46.1 per cent of the gross farm income. Sales of live animals were reported by 192,097 farmers, or 84.6 per cent of the total number reporting live stock. The average value per farm of live animals sold was \$594 84, and of animals slaughtered, \$45, 16.

HORSES AND DAIRY COWS ON SPECIFIED CLASSES OF FARMS.

Table 17 presents, for the leading groups of farms, the number of farms reporting horses and dairy cows, the total number of these animals and the average number per farm. In computing the averages presented, only those farms which report the kind of stock under consideration are included.

Of the total value of crops in 1899, corn contributed 49.7 per cent; oats, 17.0 per cent; other cereals, 8.9 per cent; hay and forage, 15.4 per cent; vegetables, including potatoes, sweet potatoes and onions, 3.8 per cent; forest products, 1.7 per cent; orchard products, small fruits, and grapes, 1.5 per cent; and all other products, 2.0 per cent.

The acreage devoted to corn was 44.2 per cent of the total area devoted to crops and yielded 49.7 per cent of the total receipts. Oats occupied 21.2 per cent of the total acreage, and yielded 17.0 per cent of the total receipts. Hay and for

age occupied 21.0 per cent of the total area, and yielded 15.4 per cent of the total receipts.

The average yield per acre of hay and forage was 1.5 tons, and the average values were \$4.38 per ton and \$6.47 per acre. The average values per acre of other crops were as follows: Flowers and plants, \$2,288.62; nursery products, \$213.11; onions, \$148.19; small fruits, \$91.00; tobacco, \$63.70; sweet potatoes, \$47.98; miscellaneous vegetables, \$40.88; grapes, \$32.12; peanuts, \$23.43; broom corn, \$22.81; potatoes, \$22.01; dry beans and dry peas, \$15.76; flaxseed, \$10.91; orchard fruits, \$10.27; cereals, \$8.74; and Kaffir corn, \$8.36. The crops yielding the greatest returns were grown upon very highly improved land. Their production required a relatively large amount of labor and large expenditures for fertilisers.

CEREALS.

Table 19 is an exhibit of the changes in cereal production since 1849.

Of the total land surface of Iowa, 47.7 per cent, or nearly one-half, was devoted to cereals in 1899. Corn alone covered over one-fourth of the total area. The total area devoted to cereals in 1899 was 16,920,029 acres; in 1889, 12,560,890 acres; and in 1879, 11,492,795 acres. Of the total acreage in cereals in 1899, corn occupied 57.9 per cent; oats, 27.8 per cent; wheat 10.0 per cent; barley, 3.7 per cent; rye, 0.5 per cent; and buckwheat, 0.1 per cent.

The rates of increase in the last decade were: corn, 29.2 per cent; oats, 25.1 per cent; barley, 21.0 per cent; while the area devoted to wheat more than doubled. Decreases are shown in the acreages devoted to buckwheat and rye, neither of which receive much attention.

Corn was reported in 1900 by 212,298 farmers, or 92.9 per cent of the total number, who devoted to the crop an average of 46.2 acres. It was grown most extensively in the central and southwestern counties. Oats and barley are reported in largest quantities in northern counties, and wheat in northern and northwestern counties.

The acreage given for cereals does not include 86,994 acres of grain cut green for hay, nor 178,409 acres devoted to corn, non-saccharine sorghum, and similar crops grown for forage or ensilage.

HAY AND FORAGE.

In 1900, 187,122 farmers, or 81.8 per cent of the total number, reported hay or forage crops. Excluding corn stalks and corn strippings, they obtained an average yield of 1.5 tons per acre. The acreage in hay and forage in 1899 was 11.3 per cent less than ten years before.

In 1899 the acreages and yields of the various kinds of hay and forage were as follows: Wild, salt and prairie grasses, 1,223,135 acres and 1,638,182 tons; millet and Hungarian grasses, 161,777 acres and 321,732 tons; alfalfa or lucern, 2,298 acres and 6,252 tons; clover, 148,720 acres and 229,326 tons; other tame and cultivated grasses, 2,838,095 acres and 3,823,133 tons, grains cut green for hay, 86,944 acres and 156,061 tons; forage crops, 178,409 acres and 425,483 tons; corn stalks and corn strippings 161,875 acres and 251,702 tons.

In Table 18 the production of corn stalks and corn strippings is included, but not the acreage, as the forage secured was only an incidental product of the land on which it was raised.

VEGETABLES.

The value of all vegetables grown in the state in 1899, including potatoes, sweet potatoes, and onions, was \$7,508,854. Of this amount 51.5 per cent represents the value of potatoes. This important crop was reported by 176,488 farmers, or 77.2 per cent of the total number in the state. There was a slight increase in acreage during the last decade, but a decrease in production.

Aside from the land devoted to potatoes and onions, 81,502 acres were used in the growing of miscellaneous vegetables. The products of 48,238 acres of this area were not reported in detail. Of the remaining 33,294 acres, concerning which detailed reports were received, 17,856 acres were devoted to sweet corn; 5,440 acres, to watermelons; 3,437 acres, to cabbages; 2,712 acres, to tomatoes; 1,316 acres, to cucumbers; 1,224 acres, to muskmelons; and 1,309 acres, to other vegetables.

ORCHARD FRUITS.

The changes in orchard fruits since 1890 are shown in the following table.

TABLE No. 20.

ORCHARD TREES AND FRUITS: 1890 AND 1900.

Plums and prunes..	1,402,217	260,600	186,312	50,878

The total number of fruit trees in the state more than doubled in the last decade, having increased from 4,197,913 to 9,590,132. In 1890 86.7 per cent of all trees were

apple trees, and in 1900 but 71.6 per cent, indicating that, while the number of these trees increased 83.7 per cent the number of other varieties increased more rapidly. The number of plum and prune trees reported in 1900 was nearly five times as great as in 1890, and the number of peach and pear trees each increased over six fold.

In addition to the trees shown in table 20, unclassified orchard trees to the number of 46,512 are reported, with a yield of 12,232 bushels of fruit. The value of orchard products given in table 18 includes the value of 9,704 barrels of cider, 3,872 barrels of vinegar, and 79,740 pounds of dried and evaporated fruits.

The quantity of fruit produced in any given year is determined largely by the nature of the season, hence comparisons between the crops of 1889 and 1899 have little significance.

GRAPES.

Grapes were grown by 29,389 farmers, who obtained, in 1899, 7,403,900 centals of fruit from 2,072,101 vines. The total value of the grapes grown, including the value of 76,301 gallons of wine made on farms, was \$166,360. Pottawattamie, Des Moines, and Polk are the leading counties in the cultivation of grapes, reporting in 1900 more than one-third of the vines of the state.

SMALL FRUITS.

The total area used in the cultivation of small fruits in 1889 was 9,653 acres, distributed among 62,260 farms. The value of the fruits grown was \$878,447, an average of \$91.00 per acre. Of the total area, 3,394 acres were devoted to raspberries and Logan berries, the total production of which was 3,604,210 quarts, grown principally in the southern counties. The acreage and production of other berries were as follows: Strawberries, 2,335 acres and 3,164,320 quarts; blackberries and dewberries, 1,719 acres and 1,966,070 quarts; currents, 1,017 acres and 1,226,560 quarts; gooseberries, 777 acres and 975,890 quarts; cranberries, 1 acre and 1,952 quarts; and other berries, 410 acres and 388,130 quarts.

FLORICULTURE.

Flowers and plants were grown in 1899 by 172 farmers, of whom but ninety-seven derived their principal income from that source. The total value of the flowers and plants grown in the state was \$320,407, of which \$307,583 represents the value of those reported by the commercial florists. The value of the farm property of the florists was \$656,435, of which \$279,660 represents the value of 669 acres of land; \$143,830, that of buildings and other improvements; \$18,090, that of implements and machinery; and \$4,855, that of live stock. They expended \$65,129 for labor, and \$1,929 for fertilizers.

LAND UNDER GLASS.

The ninety-seven florist's establishments have 1,139,364 square feet of glass surface, which is equivalent to 854,523 square feet of land under glass. In addition to the florists there are 451 farmers who reported an aggregate of 581,737 square feet of land under glass, making the total for the state, 1,436,260 square feet. The counties having large areas under glass are Dubuque, Polk, Pottawattamie, Scott and Woodbury.

NURSERIES.

While nursery stock valued at \$619,092 was raised in 1899 by 218 farmers, but 104, reporting nursery products valued at \$591,531, derived their principal income from this source. The farms of the commercial nurserymen were worth \$8,2401, of which \$631,590 was invested in land, and \$180,900 in buildings and other improve-

ments. They owned implements and machinery worth \$27,063, and live stock valued at \$27,235. In the cultivation of 6,285 acres of land, they expended \$125,205 for labor, and \$3,145 for fertilizers.

LABOR AND FERTILIZERS.

The total expenditure for labor on farms in 1899, including the value of board furnished, was \$16,375,670, an average of \$72 per farm. The average was highest on the most intensively cultivated farms, having been \$1,204 for nurseries; \$671 for florists establishments; \$84 for fruit farms; \$81 for live stock farms; \$75 for sugar farms; \$74 for vegetable farms; \$60 for hay and grain farms; and \$59 for dairy farms. "Managers" expended on an average, \$311; "owners," \$72; "cash tenants," \$60, and "share tenants," \$56. White farmers expended \$72 per farm, and colored farmers, \$33.

Fertilizers purchased in 1899, cost \$337,190, an average of \$1.47 per farm, and a total increase of \$250,347, or nearly three-fold, since 1890. The average expenditure was greatest for nurseries, amounting to \$30. For sugar farms the average was \$22; for florists' establishments, \$20; for vegetable farms, \$6; for fruit farms \$4; and for hay and grain, live stock, and dairy farms, \$1.

THE SAC AND FOX INDIAN RESERVATION.

The Sac and Fox Indian reservation, located in Tama county, contains an area of 2,965 acres; it is a reservation in name only, as the land is owned in fee by the Indians, and is held in trust for them by the secretary of the interior.

The inhabitants of this reservation number in all 385, and are among the most conservative and nonprogressive Indians in the United States. They have lived in the midst of civilization for nearly half a century, yet only within the last decade have they made any decided advancement. A class among them, more industrious than the rest, till the soil and are making considerable progress in agriculture, as is manifested by their recent extensive purchases of modern farming implements and machinery, and of a better grade of horses.

The principal crops grown are corn, wheat and oats. Most farmers have small gardens in which potatoes, pumpkins, sweet corn, and beans are raised; pumpkins and sweet corn being dried for use during the winter months. A few cut the wild grass, and also raise small quantities of tame hay. A comparative table of the crops grown in 1889 and 1899 shows a marked advancement in the ten years.

* Report of Indian Commissioner, 1889.

Their first crop of wheat was harvested in 1896. In 1899 the twenty-six Indian farmers cultivated for all purposes from five to thirty acres each, the largest area operated by one farmer being forty-eight acres. These small tracts are not owned by the individual Indians, but each farmer's right of occupation is recognized by the tribe as long as he continues to cultivate his land.

The live stock of the reservation consists principally of ponies and work horses, most of the tribe being opposed to raising cattle and swine. Only one Indian owns any cattle, those reported on the reservation being the property of two white renters. A number of the Indians have chickens and a few possess turkeys.

In addition to the 18,429 active establishments in the state during the census year, with a capital of \$104,343,592, shown in Table 2, there were seventy-seven idle establishments, with a capital stock of \$1,293,220.

* Decrease.

Although agriculture is the leading pursuit of Iowa, manufacturing and mechanical industries have had a steady and significant growth during the last half century.

The population of the state in 1850 was 192,214, and in 1900, 2,231,468, an increase in the fifty years of 2,039,254, or 1,060.9 per cent. The average number of wage-earners employed in manufacturing establishments increased from 1707 in 1850 to 58,553 in 1900, an increase of 3,330.2 per cent in the fifty years, and embraced, in the latter year, 2.6 per cent of the entire population, as compared with nine-tenths of one per cent in 1850. In the thirty years since 1870, however, the difference in the rate of growth of the wage-earning class as compared with that of the total population has been much less pronounced, the population having increased 86.9 per cent and the wage-earners 133.9 per cent. It is furthermore noticeable that the gain, during this period, in per cent of average number of wage-earners over population, is limited to the decade ending in 1890. Probably the best indication of the importance of the wage-earning class is afforded by the greatest number employed at any one time during the year. In 1900 this was 85,932, or 3.9 per cent of the total population of the state. During the decade from 1860 to 1870 the value of the products increased 233.1 per cent. The values for 1870, however, were expressed in a currency which was at a discount in gold and should be reduced about one-fifth for purposes of comparison with other census years.

Iowa has good transportation facilities, and an abundance of coal. Its manufacturing enterprises are evenly distributed over the state, and are diversified in character. No one portion or particular city of the state can lay claim to a dominant interest in manufactures or a monopoly of any one of its leading industries. The southern and eastern portions were settled first and still have the denser population, yet in the northwestern portion is located the leading manufacturing city.

Table 2 divides the industries of the state between the hand trades and the manufactures proper. This table also gives the statistics for educational, eleemosynary, and penal institutions, and establishments with a product of less than \$500; these were not reported at previous censuses, and are, therefore, omitted from the other tables and their use confined to Table 2.

During the recent years there has been a marked change in the character of the industries of the state. In the early period of settlement the principal products manufactured were lumber, flour, leather, and woolen goods, all of which, with the exception of flour, have since declined, while slaughtering and the factory manufacture of butter and cheese have taken their places in the list of leading industries. In the discussion of Table 3, the industries are ranked with reference to the value of products.

Table 3 shows that wholesale slaughtering and meat packing is the most important industry in the state. The twenty-seven establishments reported for this industry gave employment to 2,887 wage-earners, or 4.9 per cent of the wage-earners employed in the state, and the products were valued at \$25,695,044, or 15.6 per cent of the total value of the products of the state. In 1890 there were twenty-nine establishments reported, with 2,575 wage-earners, and products valued at \$23,425,576. The increase in the value of products during the decade was 9.7 per cent.

The factory manufacture of butter, cheese, and condensed milk ranks second in importance, with 907 establishments for 1900, 1,133 wage-earners, and products valued at \$15,846,077. In 1890 there were 497 establishments engaged in this industry, with 2,355 wage-earners, and products valued at \$10,545,182. The increase in the value of products during the decade was 50.3 per cent.

Flour and grist milling holds the third place among the manufacturing industries of the state. There were 703 establishments engaged in this industry in 1900, with 1,285 wage-earners, and products valued at \$13,823,083. In 1890 there were 441 establishments, 1,248 wage-earners, and products valued at \$11,833,737. The increase in the value of products during the decade was 16.8 per cent.

There were 264 establishments engaged in the manufacture of lumber and timber products in 1900, with 2,793 wage-earners, and products valued at \$8,677,058. In 1890, 143 establishments were reported, with 6,879 wage-earners, and products valued at \$12,059,302. The decrease in the value of products during the decade was 28 per cent. This decline in the lumber and timber industry is very significant, if quality and quantity of product be considered. In the earlier decades the lumber companies operated along the banks of the rivers, cutting only the larger trees, and culling from an extended area of the finer woods. As a result, the present lumber supply is gained largely from trees of smaller diameter, which formerly would have been rejected. Walnut and oak have almost entirely disappeared, while logs of all kind must be conveyed considerable distances to ship or raft.

Allied to the lumber and timber industry is the manufacture of planing mill products, including sash, doors, and blinds. There were sixty-five establishments engaged in this industry in 1900, with 2,372 wage-earners, and products valued at \$5,295,546. In 1890 there were forty-six establishments, 1,983 wage-earners, and products valued at \$3,588,856. There has been an increase of 47.6 per cent in the value of products during the decade.

There were fifty-eight establishments engaged in car construction and repairs by steam railroad companies in 1900, with 5,497 wage-earners, and products valued at \$6,221,378. In 1890 there were forty-one establishments, 3,812 wage-earners, and products valued at \$4,473,089. The increase in the value of products during the decade was 39.1 per cent. In the number of wage-earners and amount paid in wages, this industry ranks first among the manufacturing industries of the state. The location of the state is such that it is a highway for the transfer of commodities between the east and west while extensive transportation facilities are necessary to place its own products on the market. As a result of these conditions, extensive car construction and repair shops have been located at Burlington, Davenport, Boone, Belle Plaine, Waterloo, Oelwein, and other cities.

There were 1,025 establishments engaged in printing and publishing in 1900, with 4,248 wage-earners, and products valued at \$6,145,563. In 1890 there were 699 establishments, 3,296 wage-earners, and products valued at \$4,551,548. The increase in the value of the products during the decade was 35 per cent.

There were 190 foundries and machine shops in the state in 1900, with 2,372 wage-earners, and products valued at \$4,460,914, while in 1890, 126 such establishments were reported, with 2,142 wage-earners, and products valued at \$3,432,360. There has been an increase of 30 per cent in the value of products during the decade.

There were 211 establishments engaged in the manufacture of carriages and wagons in 1900, with 1,692 wage-earners, and products valued at \$3,931,067. In 1890 there were 294 establishments, 1,602 wage-earners, and products valued at \$3,168,545. The value of products increased 24.1 per cent during the decade.

There were sixteen establishments engaged in the manufacture of food preparations in 1900, with 609 wage-earners, and products valued at \$3,604,031. In 1890 there were eight establishments, with 147 wage-earners, and products valued at \$900,811. The value of products increased 300.1 per cent during the decade.

In 1900, 316 establishments were reported as engaged in the manufacture of clay products, with 2,220 wage-earners, and products valued at \$2,224,920. In 1890 there were 289 establishments, 2,788 wage-earners, and products valued at \$1,775,165. The value of products increased 25.3 per cent during the decade.

An industry of recent origin, peculiar to Iowa, is the manufacture of pearl buttons from the shells of the native fresh-water mussel. The statistics of this industry appear in Table 6, under the classification "buttons." There were fifty-three establishments reported in 1900, with 1,402 wage-earners, and products valued at \$866,538. The leading center of the industry is Muscatine, which, in 1898, had five completely organized plants and twenty-eight saw works; but almost every town on the Mississippi, from Sabula to Fort Madison, a distance of 167 miles, is provided with plants, Davenport and Clinton being secondary centers. The industry has been pursued also at Cedar Rapids, Vinton, and Charles City, on the Cedar River, at Coralville, on the Iowa River, and at West Liberty, What Cheer, and Oskaloosa. The credit for introducing the industry into the state is given to Mr. J. F. Boepple, who learned the trade in his native city of Hamburg, Germany. Assured of the excellence of the mussels in the Mississippi and the rivers of Iowa, he located his factory at Muscatine in 1891. The success of the industry was at once assured; by 1898 no less than 1,000 persons were engaged in the mussel fishery between Ft. Madison and Sabula. The fear that the mussel beds will soon be exhausted seems well founded. The beds opposite Muscatine and New Boston are already worked out. No attention is paid to the spawning season of the principal species; multitudes of small mussels that can not be utilized are left upon the banks or ice to die, although, even when proper care is taken, it requires from ten to eighteen years to grow serviceable shell. At present, however, the industry is in a fairly prosperous condition, and the Mississippi river buttons are sold in every state in the Union, as well as in Canada and England. Only a portion of the product sold, however, is finished in Iowa or the adjoining section of Illinois. Several of the larger button factories of the East have "saw works" located here, which cut out the rough blanks and ship them east for final manufacture. In a few cases the rough shells have been shipped.
