THE STATE FLOWER OF IOWA

The Wild Rose was officially designated as the flower of the state by the twenty-sixth general assembly in extraordinary session. The resolution was adopted May 7, 1897.

No particular species of the Wild Rose was designated by the general assembly, but it is supposed that the legislators had in mind the "Wild Prairie Rose," or *Rosa Pratincola*, as it is the most common and most widely distributed species in the state.

THE STATE BIRD OF IOWA

The forty-fifth general assembly, by a concurrent resolution adopted March 22, 1933, designated the Eastern Goldfinch, *Spinus tristis tristis* as the official bird of Iowa.

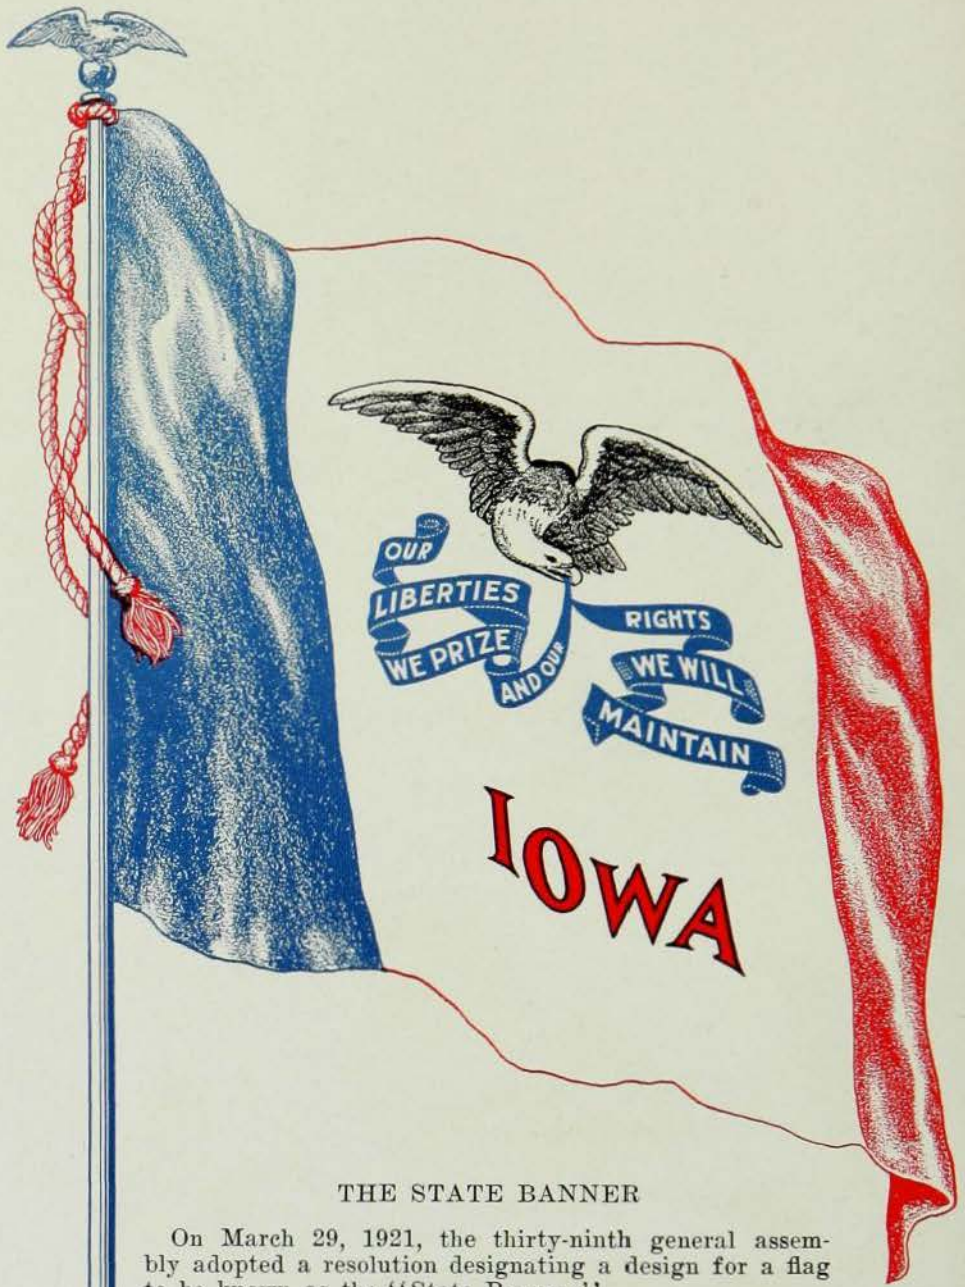

The Goldfinch is generally designated as a wild canary. The male is a bright yellow with black wings, tail and the top of its head. The female is similarly marked, but not so brilliant. These birds are rather common in the southern part of the state, but less numerous in the northern part.

THE STATE BANNER

On March 29, 1921, the thirty-ninth general assembly adopted a resolution designating a design for a flag to be known as the "State Banner."

The banner was designed by the "Iowa Society of the Daughters of the American Revolution," and consists of three vertical stripes of blue, white and red, with the blue stripe nearest the staff and the white stripe in the center depicting a spreading eagle bearing in its beak blue streamers on which is inscribed in white letters the state motto, "Our liberties we prize and our rights we will maintain." The word "Iowa" in red letters is just below the streamers.

THE HISTORY OF IOWA*

A Brief Summary

The Land

MILLIONS of years ago an ocean covered what is now the Mississippi valley. As the waters receded, sand and clay were deposited upon the remains of the shell-covered animals which had lived in this sea and under pressure of successive layers the sand became sandstone and the clay turned into shale, while the animal deposits became limestone. Lead ore accumulated in the vicinity of Dubuque.

Later the climate became tropical and giant trees and ferns grew in the swamps. Their remains were, in turn, covered by clay or sand and became coal. In some places beds of gypsum were left as the water evaporated, forming a soft, gray rock now used for plaster or stucco.

In the centuries which followed, at least five great ice sheets covered the whole or some parts of Iowa. As each one melted, it left a layer of powdered rock, sprinkled with flinty boulders. In the intervals between the glaciers, plants grew and their remains mingled with the glacial deposits to make the deep, rich soil of Iowa.

The Indians of Iowa

The earliest remains of human life in Iowa are found in the rock-shelters and mounds of pre-historic Indians. Thousand of these mounds once existed in Iowa and hundreds may still be seen, especially in northeastern Iowa. When white men first saw the Iowa country several tribes of Indians hunted, fished, and fought here. These Indians usually lived in small temporary villages on the river terraces and their homes were tepees or wickiups made of bark or skin and nearby were the gardens where the women raised small patches of corn, beans, and pumpkins. Their weapons were bows and arrows; their implements were made of stone or bone.

When the white traders came among them, the Indians learned to sell their furs and buy guns, powder, traps, knives, blankets, calico, cooking utensils, mirrors, paint, tobacco, and whisky, but they soon discovered that settlers followed the traders and that the settlers wanted their lands.

By 1832 the van of white settlement had reached the east bank of the Mississippi river and the Sauk and Fox Indians were ordered to leave their cornfields on Rock river and cross the Mississippi. Black Hawk, a famous chief of that period, claimed that the treaty (1804) giving up the land in Illinois had been illegally signed and he and his band resisted the removal. They were defeated and compelled to surrender not only their lands in Illinois but a strip west of the Mississippi river, known as the Black Hawk purchase. The title to the land west of the river passed to the Federal government on June 1, 1833.

This was the beginning of the end for the Indians in Iowa. Keokuk's Reserve on the Iowa river was sold in 1836, and a year later an additional strip of land was added to the Black Hawk purchase. The Sauk and Fox Indians, by a treaty signed in 1842, were compelled to cede about one-third of the area of Iowa, agreeing to withdraw across the Missouri river in 1845. The Pottawattamie Indians had been given (by a treaty of 1833) lands in southwestern Iowa, but in 1846 they were moved to Kansas. The Winnebago Indians had been settled in what was called the "neutral ground," a narrow strip of land in northeastern Iowa ceded (1830) as a buffer strip by the Sioux and the Sauk and Fox. In accordance with a treaty signed in 1846, the Winnebagoes were moved to Minnesota. The Sioux retained their hunting grounds in the north and northwest until 1851 when they too were forced to cede their Iowa lands to the government.

Two later incidents connect the Indians with Iowa. In the summer of 1856, a number of white families settled in the region around the Okoboji lakes and Spirit lake. The following spring a band of Sioux Indians, wandering through the region, killed more than thirty of the settlers and carried off three women and a girl as prisoners.

About the same time some Sauk and Fox Indians came back to their beloved Iowa. The Iowa legislature passed a law (1856) permitting a band of these homesick Indians to remain in Tama county, and in 1857, with the assistance of Governor James W. Grimes, they bought eighty acres of land. There are now about 400 of these Indians, mostly Foxes, and they own nearly four thousand acres of land along the Iowa river. They have been made citizens and, if otherwise qualified, may vote.

Exploration

The first white men to see Iowa were Father Marquette and Louis Joliet who, with five boatmen, came down the Mississippi river in June, 1673. At some spot along the shore, probably near the mouth of the Iowa river, the party landed and Marquette and Joliet visited a nearby village of Illinois Indians. During the next century a number of white soldiers and traders came through the Iowa country.

In 1788 (five years after the close of the Revolution) Julien Dubuque, a French-Canadian trader, crossed the Mississippi river to the lead mines in the vicinity of Dubuque and established his home there. Eight years later (1796) he received from the Spanish governor a grant of land, including the lead mines, which he named the "Mines of Spain." Dubuque remained at the mines until his death in 1810. A man named Basil Giard also secured a grant of some 5,680 acres in Clayton county, and in 1799 Louis Honoré Tesson was granted about 6,000 acres in what is now Lee county, where he planted the first apple orchard in Iowa.

All of these grants were obtained from the Spanish government, for France had ceded the western half of Louisiana to Spain in 1762. Napoleon, however, compelled Spain to recede Louisiana to France in 1800. In the meantime American merchants quarreled with the Spanish officials over the commerce down the Mississippi and President Jefferson decided to buy the port of New Orleans. To the surprise of the Americans, Napoleon offered to sell the whole of Louisiana, since he felt he could not defend it against the English, and in 1803 the United States bought Louisiana, including Iowa, for \$15,000,000.

President Jefferson sent Meriwether Lewis and William Clark with a party to explore the new purchase. Sergeant Charles Floyd, one of the explorers, who died near the present site of Sioux City (August 20, 1804), was the first white man known to have died on Iowa soil. In 1805 Lieutenant Zebulon M. Pike led an expedition up the Mississippi river. Major Stephen H. Long (1819, 1820), Henry R. Schoolcraft (1820, 1832), William H. Keating (1823), and Colonel Stephen Watts Kearny (1820, 1824, 1835), were other explorers of Iowaland.

Settlement

Little by little traders, miners, and farmers edged into Iowa. Settlements were not permitted in the Indian country, but a number of white families were allowed to settle in the "half-breed tract," the triangle in southeastern Iowa at the junction of the Mississippi and Des Moines rivers which had been given to the half breeds (in 1824) by the Sauk and Fox. To the north, the lead mines of Dubuque tempted white men to cross the river as early as 1829, but United States troops drove them back across the river until after June 1, 1833, when the Black Hawk purchase became part of the public domain. When the government surveys began in 1836, there were more than ten thousand white settlers in Iowa. The first land offices were opened at Dubuque and Burlington in 1838. The land was sold by the government for \$1.25 an acre. To protect their claims before the land was offered for sale settlers often formed "claim associations."

The early pioneers of Iowa came chiefly from eastern and southeastern states, but there were also many settlers who came directly from Europe. Most of the immigrants who settled in Iowa soon learned the English language, became American citizens, and were soon assimilated with the general population. By 1847 there were 116,454 people in Iowa and in 1860 the population was 674,913, of which 106,081 were foreign born. In 1930 the population of Iowa was 2,470,939.

There have been some interesting group settlements in Iowa. In 1846 several thousand Mormons crossed the state on their way from Nauvoo, Illinois, to Utah. They established a number of permanent camps and some of them remained in southern Iowa. One of their settlements was Kanessville, later Council Bluffs. Ten years later some 1,300 Mormons pushed handcarts from Iowa City westward on their way to Salt Lake City. Hollanders came to Pella in 1847, and English to Le Mars thirty years later. Germans, Irish, Scandanavians, and Czechoslovakians (Bohemians) added to the immigrant total.

There were also a number of communistic settlements in Iowa. One of these was made (1855) by members of the Amana society (now a joint stock company), which owns about twenty-six thousand acres of land, chiefly in Iowa county. The members, numbering about 1,500, live in seven villages. Some French people who called themselves Icarians organized a communistic settlement at Nauvoo, Illinois, in 1849, and ten years later moved to Adams county, Iowa, near Corning, where they built a village called Icaria. After several divisions and withdrawals, the Icarian community was finally dissolved in 1895.

The History of Government in Iowa

The beginning of settlements, of course, brought up the question of government. Soon after the United States bought Louisiana (in 1803), the northern part, including Iowa, was included in the District of Louisiana and attached to the Territory of Indiana. Later the Iowa country was made a part of the Territory of Louisiana and still later (1812) it was included in the Territory of Missouri. When Missouri was admitted as a state (1821), the part of the Louisiana purchase north of Missouri was left without governmental organization until 1834, when it was attached to the Territory of Michigan. Two years later the western part of Michigan territory was organized as the Territory of Wisconsin. Through its connection with Indiana, Michigan, and Wisconsin, the Iowa country inherited much of the spirit of the Northwest Ordinance.

How and when was Iowa named? In 1835 a party of dragoons made a march up the Des Moines river, starting from Fort Des Moines (No. 1), near the mouth of the Des Moines river. Among the officers of this expedition was Lieut. Albert M. Lea. The next year he wrote a book in which he referred to the part of Wisconsin territory west of the Mississippi as the Iowa district. The name, he said, was derived from the Iowa river.

When congress decided to create a new territory west of the Mississippi river, the name suggested by Lea's book was adopted and a bill creating the Territory of Iowa was approved on June 12, 1838. It went into effect on July 4th. Robert Lucas, who had been governor of Ohio, was appointed governor of Iowa. The first election was held on September 10, 1838.

The act creating the Territory of Iowa named Burlington as the temporary capital, but left the choice of the permanent seat of government to the legislature. After much discussion, it was finally decided to lay out a new capital city in Johnson county and name it Iowa City. The cornerstone of the capitol building was laid on July 4, 1840, and the legislature held its first session in the new capitol (now the old capitol) in the fall of 1842.

As the white settlers increased in numbers, men began to talk of statehood, but it was not until 1844 that the first constitution was drafted and it was twice rejected by the voters. A second constitution was approved (in 1846) and on December 28, 1846, President Polk signed the bill admitting Iowa into the union. The first state election was held on August 20, 1846,

and Ansel Briggs was the first governor elected. In 1857 a new constitution was adopted and the capital was moved to Des Moines.

The Iowa constitution gave the suffrage to white male citizens over twenty-one, but in 1868 an amendment extended this right to colored men. Women vote in Iowa by virtue of the nineteenth amendment to the United States Constitution (1920). As electors women became eligible to serve on juries and to hold all offices except those in the general assembly. In 1926 a constitutional amendment removed this sex qualification for membership in the legislature.

The legislature of Michigan (in 1834) created two counties in the Iowa area—Dubuque and Des Moines. Lyon and Osceola counties, the last of the ninety-nine counties to be organized, elected their first officers in 1871. Burlington and Fort Madison, chartered by the legislature of Wisconsin (January, 1838) were the first incorporated municipalities in Iowa.

Military History

Although there are accounts of a few battles between Indian tribes, the soil of Iowa has been unusually free from bloodshed. Only one battle between whites and Indians (between French soldiers and the Sauk and Fox Indians in 1735) and one massacre of whites by the Indians (at Spirit Lake in 1857) are recorded. The first fort built in Iowa was Fort Madison erected on the site of the present city of Fort Madison in 1808. It was abandoned and destroyed in 1813 during the War of 1812.

During the period when the Indians were being crowded out of Iowa and the white settlers were coming in, a number of temporary forts or posts were established. Among these were the first Fort Des Moines on the west bank of the Mississippi river near the mouth of the Des Moines (1834); Fort Atkinson, in the "neutral ground" (1840); and the second Fort Des Moines, at the junction of the Des Moines and Raccoon rivers (1843).

The interest of Iowans in the Mexican war is indicated by the names given to Iowa counties—Mills, Guthrie, Butler, Taylor, Hardin, Ringgold, Yell, Risley, Buena Vista, Cerro Gordo, and Palo Alto. Yell and Risley counties were later united to form Webster county. During the Civil war, Iowa furnished forty-eight regiments of infantry, nine regiments of cavalry, and four batteries of artillery, nearly 80,000 men (men who reenlisted are counted twice in this figure), of whom more than 12,000 lost their lives. In the Spanish-American war in 1898, Iowa sent four regiments of infantry, two batteries of artillery, a signal corps unit, and a company of colored soldiers.

More than 113,000 Iowa men served in the army, navy, or marine corps during the World war, and more than two thousand Iowa men were killed or died of disease. Fort Des Moines (No. 3), established near Des Moines in 1901, was used for an officers' training camp and later for a hospital. Thousands of men were trained at Camp Dodge, a new cantonment established near the capital.

Transportation and Communication

The pioneers of Iowa traveled by ox-wagon, on horseback, or on foot; or, if they did not use their own conveyances, they went by stagecoach or river boat. Some attempts were made to build plank roads, but Iowans soon transferred their interest to railroad building.

The first railroad to enter Iowa was the Mississippi and Missouri in 1855. The cost of this railroad was approximately the same as that of present day paving, about \$26,000 a mile. The first railroad bridge across the Mississippi was opened at Davenport in 1856. The Union Pacific bridge across the Missouri river at Council Bluffs was completed in 1873. The first automobiles were brought into Iowa at the close of the nineteenth century and about 1920 Iowa began the program of paving its main highways. By the close of 1936 more than 4,500 miles of primary roads had been paved, 3,130 miles had been graveled, and 470 miles had bituminous surfacing.

The twentieth century brought experiments with air transportation but it was not until after the World war that the airplane was accepted as one of the important means of transporting passengers, mail, and express. The first regular transcontinental mail service across Iowa began in 1924 although mail had been carried as early as 1914.

Two post offices, the first in Iowa, were established on April 19, 1836. The one at Augusta is still in operation. The first newspaper published in Iowa was the *Dubuque Visitor*, which made its initial appearance on May 11, 1836. The first daily paper in Iowa appeared in 1851, also at Dubuque.

As early as 1848, a telegraph line was in use between Bloomington (now Muscatine) and Burlington. Most of the early telegraph lines in Iowa were built by the sale of stock to public spirited citizens most of whom lost their money. In 1852 the rate from New York to Iowa City was \$1.75 for ten words. The first telephone line entered Iowa about 1877.

At the close of the World war radio came into use as a means of communication. WSUI at the State University of Iowa, furnishing regular programs in 1919, claims to be the oldest broadcasting station west of the Mississippi river.

Schools and Churches

The Iowa pioneers believed in schools. In 1830, Berryman Jennings taught the first school in Iowa in the "half-breed tract," at what is now Galland in Lee county. The first act concerning public schools adopted by the legislature of Iowa territory was approved on January 1, 1839. The educational system of Iowa, elementary schools and high schools with the state university as the cap sheaf, was outlined in a bill approved on March 12, 1858. The public schools in Iowa have always been coeducational.

The Iowa pioneers, however, were not satisfied with elementary schools; they soon established academies, seminaries, and colleges. Iowa Wesleyan college dates back to the opening of the Mount Pleasant Collegiate institute in 1844. Grinnell college continues the existence of Iowa college which first opened its doors to students in 1848. In 1847 the State University of Iowa was established at Iowa City. The State Historical Society of Iowa, established by law in 1857, is also located at Iowa City. It has published a large number of books, pamphlets, and periodicals dealing with the history of Iowa. The State College of Agriculture and Mechanic Arts was opened at Ames in 1868. A state normal school, now the State Teachers college, hold its first session at Cedar Falls in 1876.

The first church building in Iowa was erected at Dubuque by the Methodists in 1834. This was of logs and cost \$255. The Catholics built a church there the following year. One of the events which permanently influenced Iowa history was the coming of the "Iowa Band" in 1843, a group of Congregational and Presbyterian ministers from New England. Revivals and camp meetings were popular among the pioneers, but on the whole, the religious history of Iowa has been characterized by a combination of religious fervor, good judgment, tolerance, and emphasis on education.

Social Problems

The first case to come before the supreme court of the Territory of Iowa involved the right of a master to return a slave, a negro named Ralph, to Missouri. The court decided that slavery could not exist in Iowa and Ralph was set free. In the years preceding the Civil war, there was, however, much dispute in Iowa as to the return of fugitive slaves. Many settlers, especially the Quakers and the people from New England, were opposed to slavery, and some of them organized as a part of the underground railroad and assisted fugitive slaves across the state. John Brown visited Iowa several times and some of his men spent the winter of 1857-1858 at a Quaker settlement named Springdale in Cedar county.

The first temperance society in Iowa was organized in 1838 at Fort Madison. The first statewide prohibitory law was adopted by a popular vote in April, 1855, but in 1857 this was amended to provide a license system. In

1870 a form of county local option was adopted and in 1882 a constitutional prohibitory amendment was added to the state constitution, only to be declared invalid by the state supreme court in January, 1883. Statutory prohibition was then adopted in 1884, but difficulties of enforcement led to the adoption (in 1894) of the mulct law (repealed in 1915). Beginning on January 1, 1916, Iowa had statewide prohibition, but in 1933 the general assembly authorized the sale of beer and a year later provided state stores for the sale of intoxicating liquors.

The first state institution established by Iowa was the penitentiary located at Fort Madison in 1839. An additional penitentiary, now known as the men's reformatory, was opened at Anamosa in 1873, and a women's reformatory at Rockwell City in 1918. The training school for boys, now located at Eldora, received its first inmates in 1868 and the training school for girls, located at Mitchellville, was opened in 1873.

The Civil war made necessary some provision for the care of the orphan children of soldiers. Three homes for such orphans (at Glenwood, Cedar Falls, and Davenport) were established in Iowa, but only the institution at Davenport is now in operation. A state juvenile home was opened at Toledo in 1920.

The care of persons who are defective mentally has been met in Iowa by the establishment of seven institutions. The first hospital for the insane was located at Mt. Pleasant and received its first patients in March, 1861. Similar institutions have since been opened by the state at Independence, Clarinda, and Cherokee. An institution for feeble-minded children (now including some adults) was opened at Glenwood in 1876 in the buildings formerly occupied by the soldiers' orphans' home. An institution for the care of epileptics was opened at Woodward in 1917. A psychopathic hospital was established at Iowa City in 1921.

Iowa Industries

The earliest industry in Iowa was the fur trade, but agriculture was the chief occupation of the pioneers. Indeed it was the rich farming land which attracted most of the settlers to Iowa. This predominance of agriculture has continued and in 1930 approximately half of those listed as gainfully employed (not counting the farmers' wives) were connected with agriculture. Gradually horses took the place of oxen as draft animals and of late years tractors have tended to displace horses. Reapers, binders, hayloaders, and other labor-saving machinery took the place of man-power. Beginning even before the Civil war, a marked improvement has been made in the breeds of cattle, horses, hogs, and sheep, and in the strains of corn, wheat, and oats. Partly because of the ravages of the chinch bugs on the wheat fields, corn soon took the lead on Iowa farms and as a rule is marketed in the form of cattle and hogs. Agricultural societies were authorized in 1838 and county fairs were held as early as 1841. The first state fair was held at Fairfield in 1854. Since 1885, the state fairs have been held at Des Moines.

Flour, cornmeal, and lumber were necessities on the frontier and mills were soon built on many streams, the gristmills alone numbering about 600. An oatmeal mill (now the Quaker Oats plant) was established at Cedar Rapids in 1873. Pork packing began in Iowa as early as 1840. In 1877 a packing plant (now the John Morrell & Co.) was opened at Ottumwa and about the same time plants were opened at Sioux City. In normal times the packing plants of Iowa now slaughter approximately four and one-half million hogs. The first creamery in Iowa was established at Spring Branch (near Manchester) in 1872 and early in the nineties the manufacture of pearl buttons was begun at Muscatine. A washing machine factory, begun at Newton in 1900, has developed into one of the state's leading industries.

Money was scarce in early Iowa and much of it was in the form of private and state bank notes of doubtful value. In 1846 it was estimated that there was in Iowa only \$183,426 in gold, silver, and bank notes. The first bank in Iowa (the Miners' Bank of Dubuque) was chartered by the legislature of Wisconsin in 1836. The first constitution of Iowa prohibited banks of issue

(all banks at that time expected to issue bank notes) but the constitution of 1857 authorized the establishment of a state bank and the incorporation of other banks. The state bank went out of existence in 1865 because the national bank act made it unprofitable for banks organized under state laws to issue bank notes. The First National bank at Davenport was the first national bank in the United States.

THE GOVERNMENT OF IOWA*

THE government of the state of Iowa is based upon a constitution adopted by the people and upon statute laws enacted from time to time by the general assembly. Iowa has had two state constitutions, the first approved in 1846, the second one in 1857. The present constitution has been amended a number of times.

The Electorate

All men and women who have lived in Iowa for six months and in the county in which they claim a residence for sixty days are entitled to vote if they are citizens of the United States and are twenty-one years of age or over. Persons convicted of infamous crimes and those declared idiotic or insane are, however, disfranchised. The right of women to vote in Iowa is based upon the nineteenth amendment to the United States constitution.

The regular elections for national, state, district, and county officers are held on the Tuesday following the first Monday of November of the even-numbered years. Candidates, with a few exceptions, are nominated at the primary election held on the first Monday in June preceding the general election. Provision is also made for nominations by petition or convention. Political parties must use the primary for nominating candidates, but in case no candidate receives the necessary thirty-five per cent at the primary, a convention may nominate.

The Legislative Department

The legislative authority of the state of Iowa is vested by the constitution in a general assembly which consists of a senate and a house of representatives. The terms of both senators and representatives begin on the first day of January following their election. Regular sessions are held biennially, commencing on the second Monday of January of the odd-numbered years. Special sessions of the general assembly may be called by the proclamation of the governor.

The house of representatives consists of one hundred and eight members, elected for two years. Each of the ninety-nine counties is entitled to one representative and each of the nine counties having the largest population elects one additional representative. Any person who has resided in the state one year and has the qualifications of a voter is eligible for election as a representative. Women were admitted to the general assembly by an amendment to the state constitution adopted in 1926. The house of representatives elects a speaker and other officers.

The senate consists of fifty members, elected by districts for a term of four years. A senatorial district contains from one to five counties, according to population, and elects one senator. According to the constitution approximately one-half the senators are to be elected at each alternate biennial election, but due to changes in the districts, the terms of twenty-one senators now expire at the end of each alternate legislative biennium and those of twenty-nine in the intervening years. Senators must be twenty-five years of age and have the other qualifications required of representatives.

The Executive Department

The constitution of Iowa makes provision for a governor, lieutenant governor, secretary of state, auditor of state, and treasurer of state, who are elected for terms of two years at the regular biennial elections in the even-numbered years. In addition, the general assembly has made provision for a secretary of agriculture, elected for two years, and a board of railroad commissioners of three members and a superintendent of public instruction, chosen for four years.

*Prepared for the Iowa Official Register by the State Historical Society of Iowa under the direction of Benj. F. Shambaugh, Superintendent.

The supreme executive power of the state is vested in the governor. It is his duty to see that the laws are enforced, to supervise the official business of the state, to make recommendations to the general assembly, and to appoint various officers and boards. He has the power to call special sessions of the legislature and to veto acts passed by the general assembly, but a majority of two-thirds of each house may pass a bill over his veto. To qualify as governor, a person must have been a citizen of the United States and a resident of the state for at least two years and must be thirty years of age or over at the date of election.

The lieutenant governor succeeds the governor in case of his death, resignation, or disability. His chief function is to act as president of the senate.

In addition to the executive officers mentioned, all of whom are elected, there are a number of appointive officers, including the comptroller, the superintendent of banking, the insurance commissioner, the labor commissioner, the adjutant general, the commissioner of public health, the industrial commissioner, and the fire marshal, all appointed by the governor, usually with the approval of the senate. The governor also appoints, with the approval of the senate, the members of a number of administrative boards, including the state board of education, the board of control of state institutions, the state board of assessment and review, the board of parole, the state board of conservation, the liquor control commission, and state highway commission, and the unemployment compensation commission.

The executive council is an ex officio board made up of the governor, secretary of state, auditor, treasurer, and secretary of agriculture. The state printing board has three ex officio members—the secretary of state, auditor, and attorney general—and two members appointed by the governor. This board appoints the superintendent of printing.

The Judicial Department

The judicial department of the state of Iowa is vested by the constitution in a supreme court, district courts, and such other inferior courts as the general assembly shall provide.

The supreme court at present consists of nine justices, elected for terms of six years, approximately one-third being elected at each regular biennial election. The senior in time of service is chief justice for six months until each judge has served in that capacity. The supreme court appoints a reporter of the supreme court who is also the code editor, and a clerk. Both appointments are for four years.

The constitution also provides for an attorney general who is elected at the regular biennial election for a term of two years. He represents the state in legal matters, gives advice to state officers, and has, in addition, some administrative functions.

The state of Iowa is divided by law into twenty-one judicial districts, composed of from one to nine counties. Each district elects from two to six judges, there being at present seventy district judges in the state. One of the district judges presides over the district court sessions in each county. A county attorney and a clerk of the court are elected by the voters in each county.

The general assembly has provided also for other inferior courts. Each township is authorized to elect two justices of the peace who hear cases involving minor offenses and hold preliminary hearings on more serious charges. Municipal courts, superior courts, police courts, and mayors' courts are authorized in cities and towns under various restrictions. Municipal courts are optional in cities having a population of five thousand or more and superior courts in cities with four thousand or over. Both municipal and superior court judges are elected for four year terms.

If a city of the first class has neither a municipal nor a superior court, the council shall appoint a police judge in commissioned governed and city manager cities and may provide for the election of a police judge in such cities under the general law. In all municipalities having none of these special courts, the mayor acts as the police judge.

Jury trials are the rule for trials of serious cases, but under certain conditions may be waived or denied. Petit juries consist of twelve persons who must be "electors," except in some courts of restricted jurisdiction where the number of jurors may be six persons.

Local Government in Iowa

The state of Iowa is divided into ninety-nine counties, the boundaries of which may not be changed unless the change is approved by the voters of each county concerned. A board of supervisors consisting of three, five, or seven members is the chief administrative agency in the county. They appoint a county engineer. In addition, an auditor, who is the clerk of the board of supervisors, a sheriff, county attorney, recorder, treasurer, coroner, and clerk of the district court are elected biennially by the voters. A county superintendent of schools is chosen every three years by a convention composed of representatives of the school districts.

The Iowa county is a quasi-political corporation which collects municipal, school, county, and state taxes, enforces state laws, has charge of poor relief and certain other welfare activities, and shares with the state highway commission the management of the roads and bridges in the county. Townships, which in earlier days were effective units of local government within the counties, have lost almost all their functions, except for the assessment of property for taxation by the township assessor, and the election of justices of the peace in which many townships default.

The laws of Iowa also authorize the incorporation of cities and towns. These municipalities derive their authority from the general assembly and have only the powers specifically granted to them. Four cities and towns are governed by special charters granted before the adoption of the present constitution which forbids such acts of incorporation. Seven cities have the commission form of government; three have adopted the city manager plan by popular election; and a few others have a city manager by ordinance. Members of the commission are elected by the voters. The city manager in cities adopting that plan by a popular vote is appointed by a commission.

All other municipalities are under the general law. They are classified according to population into cities of the first class, having over 15,000 population; cities of the second class, having from 2,000 to 15,000 population; and towns having less than 2,000 population. All these municipalities have the mayor-council form of government, both the mayor and the members of the council being elected by the voters for two-year terms. A treasurer, assessor, and park commissioners, and in some cities a police, superior, or municipal court judge, are also elected.

The council is the law-making body in municipal government and it is also the chief administrative agency. The mayor presides over the council, although he is not a member, and has the power to veto acts of the council subject to a two-thirds majority vote over his veto. He supervises municipal activities and in cities and towns which do not have a municipal, superior, or police court, he serves as police judge. He also appoints certain officers, including the marshal or chief of police, the city health officer, and members of the police and fire board. The city solicitor and clerk, and in some cases the engineer and members of the zoning board of adjustment are chosen by the council.

Taxation

Taxation is probably the most important governmental power. The present tax system in Iowa is based largely on property, sales, income, and corporation taxes, although there are taxes on inheritances, poll taxes, and sales or license taxes on gasoline, cigarettes, beer, and chain stores.

Property is assessed by township assessors elected by the people, subject to revision by local boards of review and by the state board of assessment and review. The various mill levies for state, county, school, and municipal purposes are computed by the county auditor on the assessed valuation and the tax money is paid to the county treasurer who distributes it to the proper fund. Levies for county, school, and municipal purposes are, in most cases, limited by state law.

HOW IOWA LAWS ARE MADE*

THE state laws of Iowa are made by the general assembly which consists of two houses—the senate and the house of representatives. Members of the senate (50 in number) are elected by the people for terms of four years, approximately half being elected at each biennial election; representatives (108 in number) are elected for two year terms.

In general the procedure of “making” a law involves: (1) a demand for legislation; (2) the drafting of a bill which presents the desired legislation in a form to be presented to the general assembly; (3) the passage of this bill by the two branches of the general assembly; and (4) the approval of the act by the governor.

A demand for new laws or for the amendment or repeal of statutes already enacted is usually due to changes in economic conditions or to the development of new social standards or attitudes. Laws are often proposed with the intent of improving administrative procedure. There may be an almost general agreement that certain changes should be made but more often public opinion is indifferent or uncertain until a bill is drafted and debate begins. Occasionally the question of the adoption of a proposed law becomes a campaign issue. In any case, proposed changes are usually sponsored and supported by interested groups, societies, organizations, or institutions. The motive may be an entirely unselfish interest in the public welfare or it may, on the other hand, be a desire for some advantage to individuals or groups to be benefited.

Before it is presented to the general assembly, the proposed legislation must be put in the form of a bill (in a few cases joint resolutions are used). This bill may be drafted by the senator or representative who introduces it, by a group of members, by a senate or house committee, or by a committee or commission appointed by the governor or general assembly to study some problem, or it may be formulated by persons outside the general assembly. In any case the bill must be formally presented to one house or the other by a member, a group of members, or a committee of that house. No member of the general assembly is, however, required to introduce a bill when requested to do so and no one who is not a member of the general assembly may introduce a bill, not even the governor or lieutenant governor. Formerly even a member had to secure the consent of his house before he could introduce a bill; now such consent is taken for granted. In some cases identical bills, called companion bills, are introduced in both houses.

Bills, says the constitution of Iowa, may originate in either house, and may be amended, altered, or rejected by the other, and every bill having passed both houses shall be signed by the speaker of the house and the president of the senate. Furthermore the Iowa constitution provides that a bill may not become a law unless it receives the affirmative vote of a majority of all the members elected to each branch of the legislature (each house voting separately). This means that at least 26 senators and 55 representatives must vote for a bill if it is to pass. The constitution also provides that the vote on the passage of a bill must be taken immediately after the “last reading.” This vote shall be by yeas and nays and shall be recorded on the journal—the official record kept by each house.

The two houses make their own rules of procedure, subject to the constitutional provisions, and whenever a parliamentary situation is not covered by a rule, the procedure is governed by “Roberts’ Rules of Order,” as provided by statute. In the senate the usual order of business is: (1) correction of the journal; (2) presentation of petitions and memorials; (3) introduction of bills; (4) resolutions; (5) communications on the president’s table; (6) reports of standing committees; (7) reports of select committees; (8) unfinished business; (9) third reading of bills; (10) reports for indefinite postponement; and (11) general order of business. The order of business in the house, after the correction of the journal, is: (1) unfinished

business; (2) presentation of petitions and remonstrances; (3) reports of committees; (4) resolutions laid over; (5) introduction of bills; (6) resolutions; (7) messages and communications on the speaker's table; (8) bills and resolutions read a second time; (9) bills on their passage; and (10) reports in the possession of the house.

Much of the work in the Iowa general assembly is done in the committees. The number of members on these committees varies, but the political party in control of a house almost invariably has a majority of the members of each committee and the chairman, at least in the case of the important committees, usually belongs to the dominant party. The votes in committees are not recorded and are not made public. The number of committees varies from time to time. In the Forty-seventh General Assembly the senate had forty-two standing committees and the house fifty-three. Additional committees may be created by resolutions. For the purpose of informal debate and to avoid a record vote on a measure until an agreement has been reached, the house or senate occasionally votes to act as a committee of the whole.

Suppose we visit the state capitol at Des Moines during a session of the general assembly. (It meets in regular session on the second Monday in January of each odd numbered year.) The senate sits in the south wing of the second floor; opposite it, across the rotunda, is the house of representatives. Just before the senate is called to order, we may see a secretary take typed copies of a bill to the desk of one of the senators. He looks them over, then beckons a page, and sends the papers to the desk of the presiding officer—the lieutenant governor, who serves as president of the senate. There the bill is numbered by the secretary of the senate in the order of its presentation and becomes, for example, "Senate File 92." At the next regular order of business for the introduction of bills, a copy is handed to a clerk who reads aloud its number, its title, and the name of the senator who presented it. The president then calls for the second reading. Again the clerk reads by title only. These two readings are purely perfunctory—what is left of the practice of reading each bill aloud at least three times in the early days of representative government when bills were not typed or printed for the use of legislators. (The senators know they will soon have a printed copy of the bill.)

After this formality the president refers the bill, now known as "Senate File 92," to one of the senate committees. The original copy of "Senate File 92" is enclosed in a paper wrapper (the senate and house use different colors for these) on which are blanks for recording the various actions taken on the bill. In the senate this record is kept by the secretary (in the house by the chief clerk). When the bill goes to the committee, the secretary gives the original copy to the chairman of the committee, taking a receipt for it.

A copy of the bill is then sent to the printer and on the following day, a printed copy of "Senate File 92" will be on the desk of each senator. Such copies are kept in a loose-leaf file furnished to each legislator. At the upper right hand corner of the printed copy is the number (Senate File 92) and the name of the senator who introduced it. On the left are the committee to which the bill was referred and the date of introduction. Below are the words "A bill for an act" followed by a brief statement indicating its purpose and content—usually referred to as the title of the bill. According to the Iowa constitution every act shall embrace but one subject, and matters properly connected therewith, and any subject included in a law which is not "expressed" in the title is null and void. The title is, therefore, an important part of a bill, although it is not legally a part of the law after it is enacted.

Some bills (now comparatively few) contain preambles, usually short explanations of the conditions which, in the opinion of the person who drafted the bill, explain why the proposed law is needed. Then comes the enacting clause prescribed by the constitution for the enactment of legislation—"Be it enacted by the General Assembly of the State of Iowa"—followed by the main part of the bill—the proposed law. This part of a bill is usually

divided into sections and all lines are numbered by section to facilitate the designation of changes made by amendments.

After the original bill has been handed to the proper committee chairman and the printed copies are on the desks of the senators, nothing may be heard of "Senate File 92" for several days or weeks. Indeed, bills frequently remain in the hands of a committee until adjournment, never getting any consideration on the floor. While the committee considers "Senate File 92," other senators may file motions to amend it, but these will not be discussed until the bill itself is up for action.

The Enactment of a Law

Any number of complications may develop during the consideration of a bill, but let us assume that "Senate File 92" is enacted into law in the simplest manner possible. Suppose the committee (perhaps the committee on highways) has eleven members. A majority of this committee, we will say, decides that the bill should be passed. At the proper time the chairman of the committee on highways makes the report, recommending that "the bill do pass." "Senate File 92" is then placed on the senate calendar (a list giving the order in which bills are to be considered) and when its turn comes (or it is called up by special arrangement) it is before the senate for debate and finally for the decisive vote.

In the old days a bill was engrossed—rewritten to incorporate any changes made—and was then given a final reading from the engrossed copy. In both the house and senate the rules now provide that a bill is to be considered engrossed when it is ordered to its third reading, unless there is an affirmative vote for its engrossment. At the present time both engrossment and the third, or final, reading are more or less vague formalities. Occasionally a clerk does read a bill, but for the most part printing and typing have displaced the voice of the clerk. According to the constitution the vote on a bill must follow immediately after the last reading, but the rules provide that certain corrections may be made. On the final vote the names of the senators are called in alphabetical order and each one votes "aye" or "no" as his name is called.

The vote on "Senate File 92" is, we will assume, favorable—26 to 21, with 3 senators absent—and the bill has passed the senate. The secretary signs it and endorses on the record the date of passage. "Senate File 92" is now ready for consideration by the house to which it is sent by a messenger. Here it is not renumbered, but as "Senate File 92" it is given to the chief clerk, and at the proper time it is read twice by title and referred by the speaker of the house to a committee. Let us assume that this committee also reports favorably on "Senate File 92" and it comes before the house for a final vote. An electric voting device, operated from the desks of the representatives, is used to record the votes, a red light opposite a member's name indicating "no," while a green light shows that the member favors the measure. Let us assume that the lights indicate a favorable vote of 60 to 40 (with 8 absent or not voting) and "Senate File 92" has passed the house without change.

The act is then enrolled—copied in its final form—by the enrolling clerk of the senate (this being a senate bill) and the enrolled act is examined by a joint committee on enrolled bills. When it is reported correctly enrolled, "Senate File 92" is signed by the president of the senate and the speaker of the house. In the enrolled bill the words "A bill for" are omitted so the introduction now reads only "An act" etc. The enrollment of a bill is very important in case of dispute over the meaning of a law, since the supreme court, at least until very recently, considered the enrolled bill as conclusive evidence of legislative action.

After "Senate File 92" is correctly enrolled and signed by the two presiding officers, it is sent to the governor's office for his signature. If he approves it, he signs it and notifies the senate—the house in which it originated. Thus does the bill become part of the law of Iowa. The official copy of "Senate File 92" is then sent to the office of the secretary of

state to await publication. Under ordinary procedure the law enacted from "Senate File 92" would go into effect on the following July 4th, but many bills now have publication clauses which provide that the act shall go into effect immediately following its publication in two designated newspapers. In any case "Senate File 92" will appear in a printed volume of the laws enacted at that session and will soon lose its identity in a new chapter number, later perhaps to become a section or sections of the Code.

The procedure in the case of a house bill would have been similar except that the order of consideration by the two houses would have been reversed. Few bills, however, have careers so simple or so favorable. Only about one-third of the bills introduced at any recent session of the Iowa general assembly are enacted into law, and many of those passed are amended and revised almost beyond recognition. What happens to all these bills as they are ground through the legislative mill?

Amendments

A bill may be amended in either house. Let us suppose that the committee on highways, to which "Senate File 92" is referred, believes that certain changes should be made in the original bill before it is adopted and so recommends in its report. Amendments may also be made on the floor of the senate. Such amendments may be incorporated in "Senate File 92" by a majority vote of those present (providing there is a quorum), but the bill on its final vote must have a constitutional majority—at least 26 in the senate (55 in the house).

After "Senate File 92" (as amended by the senate) goes to the house, it may be passed as it came from the senate or it may be amended in the house before it is passed. If the house amends the bill it must be returned to the senate where a vote is taken as to whether the senate will concur in the house amendment or amendments. If the motion to concur prevails, "Senate File 92" as amended is again placed upon its passage. If adopted it is enrolled, signed, and submitted to the governor.

The senate may, however, refuse to concur in the house amendment. In this case "Senate File 92" would be sent back to the house where a motion to recede from the amendment or a motion to insist on the amendment might be made, a motion to recede taking precedence over a motion to insist. If the house votes to recede from its amendment by the required constitutional majority, the bill is passed, is enrolled in the senate, signed, and sent to the governor. A vote to insist on an amendment, defeated by a constitutional majority, is equivalent to a vote to recede.

If the house votes to insist on its amendment, it requests a conference committee, made up of four members from each house (unless otherwise specified), appointed by the presiding officers. This conference committee is really two committees acting as one for the members from each house vote separately and a majority of each group must agree to amendments proposed. It attempts to formulate some compromise on the disputed amendment or amendments acceptable to a majority in both the senate and the house.

Since the supreme court ruled (in the case involving the salary reduction act adopted in 1933) that the adoption of the report of a conference committee does not satisfy the constitutional requirement that both houses must adopt an act in exactly the same form, the general assembly has prescribed a definite rule of procedure. A report of a conference committee may be adopted or rejected, but it can not be changed. If it is rejected in either house, a new committee may be appointed or the bill may be dropped. When the report of the conference committee is approved, the bill as amended by this report is again put on its passage, but neither debate nor amendment are permitted. If the vote in both houses is favorable, the bill is adopted.

The senate may, however, decide to make an amendment to the house amendment and such a motion, if made, takes precedence over a motion to concur. If this compromise amendment is adopted by the required con-

stitutional majority, the bill goes back to the house where the amendment may be agreed to and the bill passed. If the house refuses to agree to the compromise amendment and the senate still refuses to accept the house amendment or to recede from its compromise amendment, a conference committee is necessary. These complications merely illustrate the tangle which may develop over the enactment of disputed legislation. Motions to lay on the table or to postpone indefinitely may not be used in respect to motions to recede or to insist on amendments or motions to amend bills which have passed both houses.

Defeat

A majority of the bills introduced in the Iowa general assembly are, however, neither adopted as introduced nor passed after amendment: they fail of enactment in one way or another. Many of these bills are never reported out by the committees to which they are referred. Bills are seldom called from committees and a majority of a committee may, therefore, hold a bill indefinitely and thus prevent a vote. Sometimes the chairman does not even call for a committee vote on a bill. Since the speaker of the house and the president of the senate appoint the committees and committee chairmen and also refer bills to these committees, it is evident that these officers can do much to help or hinder the passage of a bill by referring it to a favorable or unfavorable committee.

If a committee does decide to report a bill it may do so with various recommendations—that it pass, that it be amended and passed, that it do not pass, or that it be indefinitely postponed. Usually, however, a committee prefers to hold a bill it does not want passed. When a bill is reported out from a committee it is put on the calendar—the list of bills to be acted on by the house or senate as the case may be. Although it might be expected that bills will receive consideration in turn, it frequently happens that some are left on the calendar throughout the session and thus fail of enactment. A few bills are withdrawn by their sponsors. Others are voted on but fail to receive a constitutional majority in one house or the other. Many bills are indefinitely postponed—a decision which, under the present rules of the house prevents further consideration and in both houses is equivalent to an outright rejection. An amendment striking out the enacting clause may also be adopted. Without its enacting clause a bill can not become law. In case of disagreement between the two houses, action on a bill may be suspended and the act fail of adoption even though it has (in different forms) passed both houses. Bills not otherwise disposed of by the house or senate are often referred to the sifting committee and die there.

The Sifting Committee

Toward the end of the session it is customary for both houses to appoint a "sifting" committee, to which are referred all bills not yet acted upon, except appropriation bills and certain other measures specified by the resolution providing for the committee.

At present, sifting committees are created by the rules of the house and senate and whenever the members of either house agree that such a committee should begin to function, the members of that committee are appointed by the speaker of the house and the president of the senate, as the case may be. Although measures referred to a sifting committee may be recalled by the house or senate, such action is seldom taken and the sifting committee has a decisive influence as to which bills are passed, amended, or defeated in the final days of the session. Occasionally the work of sifting out the bills to be acted upon is given to some other committee.

Tie Votes

The Iowa constitution requires that all laws passed by the general assembly must receive the affirmative vote of a majority of those elected

to each house. A tie in the case of the final vote on a bill in either the senate or the house would, therefore, defeat the measure and it would do no good to break the tie. In deciding many other questions, however, a tie vote may occur and the right to decide such a tie may be important.

The president of the senate is not a member and he votes only in case of a tie. He can thus decide votes on which the senate is equally divided, except in the case of a final vote on an act, on which a majority vote is required. The speaker of the house, being a member of the body over which he presides, may vote in all cases where the yeas and nays are called for, his name being called last. In other cases the speaker votes only when the house is equally divided or to make a tie. If his vote makes a tie, the motion is lost.

Reconsideration

Even after action is taken on a bill, some one who voted on the prevailing side (perhaps with this in mind) may move that the vote be reconsidered. Motions to reconsider a vote must be made on the day of the vote or the next legislative day and must have a constitutional majority in order to pass. To clinch a vote on a measure, a motion to reconsider the vote is often made, with the additional provision that the motion to reconsider be laid on the table. The rules of the Iowa senate specifically require a two-thirds vote to take a motion from the table and in the house the same rule applies because that body uses "Roberts' Rules of Order" to cover this particular procedure.

Resolutions

In Iowa proposed legislation which relates to the general policy of the state, ratification of amendments to the United States constitution, and some other similar matters, is put in the form of joint resolutions, which begin "Be it resolved by the general assembly of the state of Iowa." The rules of the Iowa general assembly make the procedure in handling joint resolutions in the senate and the house exactly the same as for bills. Joint resolutions proposing amendments to the state constitution and those ratifying amendments to the United States constitution do not require the signature of the governor, although they are usually signed by him.

Most of the legislation in the Iowa general assembly is presented in the form of bills. The average number of bills presented in the senate and house of the forty-second, forty-third, forty-fourth, and forty-fifth general assemblies was 973 per session; the average number of joint resolutions introduced per session was 16.

The senate or the house of representatives may adopt a simple resolution by a majority vote of those present. Such resolutions are used only to express some sentiment or to take care of routine matters which concern that one house only. Matters which primarily concern the organization of the general assembly, such as fixing the date of recess or adjournment, or expressing the sentiment of the legislature, are frequently presented in the form of concurrent resolutions. These resolutions are not laws. They may be adopted by a majority vote of those present and voting, but do not require a constitutional majority, and are not sent to the governor.

The Governor's Part in Law-Making

The governor is the chief executive officer of the state, but he has also a considerable share in the responsibility of making the laws. The increasing complexity of government and the increased importance of administrative functions have emphasized the importance of political leadership. This leadership is one of the duties of the governor and in his message to the general assembly and by his advice he may do much to secure the legislation he approves or prevent the adoption of what he considers undesirable laws.

An act which has passed both houses of the general assembly and has been properly enrolled and signed by the presiding officers of the two houses it still not law; it must go to the governor. The constitution prescribes the governor's duties in this matter. If he approves a bill sent to him by the general assembly, he signs it and thereby makes it a law.

If the governor does not approve an act, he may return it to the house in which it originated with a message stating his objections—that is veto it. In Iowa the governor may not approve one part of a bill and veto an objectionable section.

Whenever the governor vetoes a bill and returns it to the house in which it originated, his objections are entered on the journal and the bill is re-considered. If, after such reconsideration in both houses, the bill receives a two-thirds majority vote—34 in the senate and 72 in the house—it becomes a law without the governor's approval. If the necessary two-thirds majority can not be secured, a vetoed bill fails to become law. The general assembly of the state of Iowa has not so far passed a bill over the governor's veto.

Any bill kept by the governor longer than three days (Sundays excepted) without his signature becomes a law automatically unless the general assembly adjourns before the three days elapse and thus prevents the return of the bill. All bills submitted to the governor during the last three days must be deposited by him in the office of the secretary of state, with his signature, if he approves them, and with his objections, if he does not approve them. Such bills, if not signed by the governor, do not become law.

The Attorney General

Although the attorney general has no part in making laws, he is the official legal adviser of state officials and is frequently called upon for an opinion as to whether certain acts are constitutional. Sometimes he is asked for his opinion during the formulation and passage of a law; more often he is consulted after the law has been adopted. In either case the opinion of the attorney general is advisory and his ruling that a law is unconstitutional or otherwise invalid does not of itself render the law inoperative.

Judicial Decisions and Interpretations

After laws have been adopted and are on the statute books, they must meet at least four possible challenges: they must not contain provisions contrary to the constitution of the United States or the constitution of Iowa; they must not conflict with laws and treaties of the United States; and they must have been legally enacted. The supreme court of Iowa may declare an Iowa law invalid for any of these reasons. In Iowa the state supreme court does not render advisory opinions and decisions are given only on cases brought before the court. Federal courts may decide cases involving the United States constitution and United States laws and treaties and other cases involving the state of Iowa and another state or the citizens of another state, a citizen of Iowa and a citizen of another state, or a citizen of Iowa and any other state. Usually the United States court follows the state supreme court in deciding whether or not a law conflicts with the state constitution.

In deciding whether or not Iowa laws have been legally adopted, the Iowa supreme court has until recently relied to a large extent on the enrolled bill signed by the presiding officers of both houses. In the decision made in 1934 concerning the salary reduction act the state court, however, went back of the enrolled bill and decided that the senate and house had not taken a final vote on exactly the same bill and that the law was, therefore, invalid.

Comparatively few laws are declared null and void by the courts, but there is constant demand for interpretation of laws. Just what does a law

mean? How is it to be applied to a certain case? Does it conflict with another statute and if so which one is to be followed? All these questions are constantly asked in the courts. Indeed a large part of the litigation in this state, as in other states, is an attempt to interpret the meaning of laws and to determine how they are to be applied.

It is impossible, in a short sketch of this kind, to give all the details of the making of laws. For a detailed study of law-making in Iowa, the reader is referred to *Statute Law-Making in Iowa*, published in 1916 by the State Historical Society of Iowa as Volume III of the Iowa Applied History Series.

THE STATE CAPITOL

THE capitol building was dedicated in January, 1884. On the main floor are located the supreme court rooms, the offices of the governor, secretary of state, auditor of state, treasurer of state, secretary of agriculture, attorney general, and superintendent of public instruction.

The offices on the first floor or basement floor of the state house are: adjutant general, custodian, G. A. R., motor vehicle department, real estate, post office, comptroller, banking department, cigarette tax department, mine inspectors, secretary of the executive council, state veterinarian, and the state fair board.

The house and senate chambers are on the second floor, as well as two departments of the state library, the printing board, pharmacy commission, and code editor.

On the balcony or third floor are located the bureau of investigation, department of vocational education, department of health engineer, barber examiners, cosmetology examiners, chiropractor examiners, nurses' examining board, and the telephone exchange.

Other Buildings

Departments of the state government are located in other buildings outside the main capitol building. In the old Amos Hiatt high school building southeast of the main building are located the board of control, commerce commission, state architect, bonus board, commerce counsel, commission for the blind, and the graves registration bureau.

In the state historical building on the north side of Grand avenue are located the offices of the library commission and the state librarian, the historical department and the curator, newspaper collection, historical library, general library, medical library, and the archives department.

Just north of the state house, across Grand avenue, is the document storage building, where official reports and documents are stored. The shipping and mailing department of the printing board is also located in this building.

At the rear is the heating plant and the carpenter shop, and just to the north of these is the printing board warehouse, the paint shop, and garages.

Just east of the warehouse and facing on Des Moines street is the old governors' mansion, containing the offices of the board of health.

Just west of the garage and facing on Des Moines street is a building known as "The flats," where the offices of the board of education and the industrial commission are located.

In the old Bryant school building west of the state house on Grand avenue are located the bureau of labor, bureau of re-employment, fire marshal, state chemist and horticultural society.

Historical Building

The historical, memorial and art building is 260 by 110 feet in size and was commenced in 1899, at first as a home for the Aldrich collection of historical matter. It is occupied by the historical department, two departments of the state library, and the library commission.

The historical department has a large library of history and genealogy, a famous collection of autographs and photographs, many valuable historical relics, and antiquities, a vast natural history museum, a gallery of portraits of distinguished Iowa persons, a Civil war collection, portraits and information regarding Iowa boys who died in the World war, the public archives, and Iowa newspaper collection.

Decorations in Capitol Building

Over the main stairway at the east end is the large painting entitled "Westward," the work of Edwin H. Blasfield of New York, and this was placed at a cost of \$10,000. It is regarded as one of the notable American

decorative pictures. It shows a pioneer group traveling from the eastern fields of plenty to the far away lands of the west to make new homes.

Above the large picture are six mosaics, designed by Frederick Dielman of New York, and were made in Venice. The colors are worked out in colored stone pieces and are indestructible. The subjects represented are Defense, Charities, the Executive, the Legislative, the Judiciary, and Education. These cost the state \$10,000. They are among the finest and largest in America.

The largest reproduced or enlarged photograph in the world hangs in the south corridor of the main floor. This picture of the 168th infantry assembled on the capitol grounds upon its return from the World war, is twenty-six feet long and six feet high.

The twelve statues high within the rotunda represent History, Science, Law, Fame, Art, Industry, Peace, Commerce, Agriculture, Victory, Truth, Justice.

The eight lunettes, or half-moon shaped paintings surrounding the rotunda, are the work of Kenyon Cox, famous American artist, who was paid \$8,000 for the same. They are entitled by the artist: Hunting, Herding, Agriculture, The Forge, Commerce, Education, Science, Art. They are allegorical and indicate the progress of civilization.

Monuments and Memorials

The soldiers' and sailors' monument, erected by authority of an act of the twenty-fourth general assembly, approved April 7, 1892, is 145 feet high and cost \$150,000. It was designed by Harriet A. Ketcham, of Mount Pleasant.

The Allison memorial, near by, was constructed in honor of the late Senator W. B. Allison, of Dubuque, and is a fine work of art.

The battle flags of Iowa regiments in the Civil war and in the Spanish-American war are preserved in niches in the rotunda of the capitol.

The monument west of the capitol on Ninth street represents "the Pioneers." It is cast in bronze.

The old guns located on the grounds were taken in the Spanish-American war. The bronze gun in front of the historical building was taken from a Spanish gun ship.

Just east of the state house is a monument honoring the Iowa citizens who served in the army, navy or marine corps during the China relief expedition, the war with Spain or the Philippine insurrection.

At the southeast corner of the grounds, near the flag pole, is a tablet which marks the grave of Wilson Alexander Scott, who gave to the state the land upon which the capitol now stands. The tablet bears the following inscription:

WILSON ALEXANDER SCOTT

BORN IN CRAWFORD COUNTY, INDIANA, NOVEMBER 20, 1818,

HE ACQUIRED SOME FIVE HUNDRED ACRES OF LAND HEREABOUTS

AND SETTLED ON THE SITE IN 1846.

The Treasurer of State is a constitutional official. The public revenues of the state are received and disbursed by the treasury department; a record being maintained showing the sources of all income, the funds to which such income applies, the date received and the amount received. Disbursements are made only upon warrants issued as certified by the state comptroller. A record is kept of each warrant paid, showing date of issuance, date of payment, to whom paid and against which fund such warrant is drawn.

When remittance of state revenue is made by bank draft, check or money order, such items are deposited for collection in a bank or banks in the state which have previously been duly designated and approved as depositories for state funds.

The treasurer of state, with the consent and approval of the executive council, may designate banks in the state of Iowa as depositories of state funds in amounts not exceeding the limits fixed by said council. Each bank so designated shall pay interest at the rate adjusted by the treasurer of state with the approval of the executive council, but in no event shall such rate of interest be adjusted below 1 per cent per annum on 90 per cent of the collected daily balances, payable by the bank at the end of each month.

Chapter 82, section 61.3, acts of the forty-fifth general assembly, extraordinary session, abolished the state levy on general property, and provided that on January 1, 1935, and quarterly thereafter, the board of assessment and review shall set aside and cause to be paid into the general fund of the state from the amount collected from the sales, income, and corporation taxes, a sum of not to exceed \$1,500,000.00 quarterly, which together with other state revenues expendable for such purpose, to pay all items of general expense of the state government for the current calendar year as authorized and appropriated for by the general assembly; the soldiers bonus tax fund collected by the county treasurers is drawn into the state treasury only at such times and in such amounts as is necessary to pay interest and bonds as they become due.

The treasurer of state shall maintain in the state treasury a cash balance sufficient to pay the anticipated expenditures by the highway commission for the ensuing month. When necessary to restore the cash balance in the state treasury, he shall draw against the motor vehicle funds collected by the treasurers of each county of the state in proportion to the amounts in their

possession respectively, a sum sufficient in the aggregate to restore said cash balance. Such drafts shall be honored by the treasurer of each county upon presentation.

Acts of the forty-fifth general assembly, extraordinary session, require the treasurer of state to collect from distributors a license fee of three cents per gallon on all gasoline used in the state of Iowa, except federal and state owned cars and equipment. Provision was made for the refund of the license fee paid when the gasoline was used for certain purposes. Five-ninths of the proceeds is distributed to the primary road fund, and four-ninths to the secondary road funds of the several counties of the state.

The state stamp tax, on all cigarettes, cigarette papers, wrappers and tubes sold within the state; also under the supervision of the state treasurer, is a source of revenue of no small importance; said revenue all being applied to the general fund of the state.

An important department in the office of the treasurer of state is the inheritance tax department, the administration of which pertains to the collection of inheritance taxes on estates and the revenues from which source aggregates a considerable amount.

An act of the forty-sixth general assembly provides for the issuance of permits for the manufacture and sale of and taxation of certain non-intoxicating liquor, with the provision that such fees and taxes be collected by the treasurer of state. All license fees and taxes collected by the treasurer of state shall accrue to the "state sinking fund for public deposits." This act also provides for the creation of the state permit board, composed of the treasurer of state, who is the chairman, the secretary of state and the auditor of state, whose duties shall be to review the action of any governing body in any case where a hearing has been had relative to the cancellation or revocation of a permit issued under the provisions of this chapter.

The state treasurer is the custodian of the permanent endowment fund of the State Agricultural College, which fund aggregates \$664,000.00 invested in first mortgage loans upon real estate in Iowa.

The treasurer of state also handles funds diverted under the public fund deposit guarantee acts of the forty-first general assembly, reimbursing losses of public funds which may be sustained on deposits in banks placed in receivership for liquidation.

The treasurer of state is *ex officio* treasurer of the unemployment compensation commission.

All accounts of the treasury department are audited daily by the auditor of state and examined quarterly under the direction of the governor.

DEPARTMENT OF AGRICULTURE

(Office located on main floor of capitol building)

Term expires December 31, 1938

DR. THOMAS L. CURRAN, Ottumwa, *Secretary*

Salary, \$5,000 annually

The Iowa Department of Agriculture was created by the fortieth general assembly in 1923 by consolidating several bureaus and commissions under one executive head designated as the Secretary of Agriculture. The secretary was made an elective officer and a member of the executive council.

The objects of the department are set out in the code as follows:

“1. To encourage, promote, and advance the interests of agriculture, including horticulture, live stock industry, dairying, cheese making, poultry raising, bee keeping, forestry, production of wool and other kindred and allied industries.

“2. To promote and devise methods of conducting said industries with the view of increasing production and facilitating an adequate distribution of the same at the least cost to the producer.

"3. To administer efficiently and impartially the inspection service of the state as is now or may hereafter be placed under its supervision."

Until very recent years the department gave most of its attention to the third object listed above. It could more properly have been known as a department of standards and inspection as most attention was given to enforcement of some thirty laws relating to processing and sale of food products and a few other commodities.

The trend of the department's activities now is toward a more balanced program including formation of agriculture policy and certain services to the agricultural interests of the state. One example is the administration of the unbonded warehouse act by the department under which more than sixty million dollars were loaned on sealed corn in cooperation with the federal government.

The work of the department may best be explained by setting forth the activities of the several divisions as follows:

Dairy and Food Division

John A. Feeney, Davenport, is chief of the dairy and food division and has general supervision over 32 field inspectors. These inspectors enforce the sanitary laws, weights and measures law and the labeling laws as they relate to handling, processing and sale of food. They also enforce laws relating to manufacture, processing, storage and sale of such products as live stock feed, fertilizers, gasoline, oil and paint. Others among the 31 laws enforced by the division include the grading of cream, candling of eggs and the sale of farm seeds. Mr. Feeney is assisted in his work by C. S. Bogle, chief inspector, who has direct supervision over the field inspectors.

Animal Industry Division

Dr. H. A. Seidell, Fort Dodge, chief of the division, is responsible for enforcement of laws relating to live stock disease control in the state. He is aided by a staff of nine district veterinarians.

Laws enforced by the division include those relating to the movement of livestock, T. B. eradication, Bang's disease control, hog cholera law, veterinary practice act, live stock auction sales, stallion registration and those laws governing plants for the disposal of dead animals.

State Chemist

Harry Irwin, Melcher, is state chemist. He and his four assistants have the important work of making all laboratory tests of official samples collected by the field inspectors.

State Entomologist

Dr. Carl J. Drake, Ames, by virtue of his office as head of the entomology department of Iowa State College, is also charged with the responsibility of inspecting all nursery stock sold in the state, issues quarantine regulations to prevent importation of crop pests and diseases in the state and has charge of all crop pest control work such as chinch bugs, grasshoppers and army worms.

Division of Agricultural Statistics

Leslie M. Carl is head of the division of agricultural statistics created by the forty-seventh general assembly. This division, cooperating with the United States bureau of agricultural economics, is directed to gather, compile, and publish statistical information concerning the condition and progress of crops, the production of crops, livestock, livestock products, poultry and other such related agricultural statistics, as will generally promote knowledge of the agricultural industry in the state of Iowa.

Weather Division

C. D. Reed, Des Moines, is director of the weather division. This division is operated in cooperation with the federal government in that the director's salary is paid from federal funds. Gathering and disseminating of weather statistics and phenological data are the chief functions of the weather division.

Miscellaneous Division

Homer Hush, Essex, is assistant secretary of agriculture. In addition to the preceding divisions of the department of agriculture, there are several other miscellaneous sections under the general supervision of the assistant secretary. These include the agricultural warehouse section under which farm grains are sealed and stored on the farm, farmers' institutes, short courses and poultry shows and the six affiliated societies of the department known as the Iowa state dairy association, Iowa horticultural society, Iowa horse and mule breeders association, Iowa beef producers association, Iowa corn and small grain growers association and Iowa swine breeders association.

The superintendent of public instruction, under the first constitution, from 1847 to 1857, was a constitutional rather than a statutory state officer. Under the regime of the state board of education, provided for by the new or present constitution, the office of superintendent of public instruction was abolished December 24, 1858. When the state board of education was itself abolished by the legislature in 1864, the office of superintendent of public instruction was restored as an elective state office and since that time, except for the four-year period from 1914 to 1918, when the superintendent of public instruction was appointed by the governor with the approval of two-thirds of the senate, the office has remained as an elective state office, under the provisions of section 515, C. '35.

The superintendent of public instruction is charged by section 3831 with general supervision and control over the public schools of the state, including rural, graded, high schools, and public junior colleges. In addition to the foregoing duties, the superintendent of public instruction under section 3858, C. '35, is president *ex officio* of the state board of educational examiners which has charge of the certification of teachers. Section 3838, C. '35, designates the superintendent of public instruction chairman *ex officio* of the state board for vocational education which promotes a program of vocational education and rehabilitation.

BOARD OF EDUCATIONAL EXAMINERS

(Office located in office of Superintendent of Public Instruction)

*Appointed by the Governor. Terms of four years.*AGNES SAMUELSON, Superintendent of Public Instruction, *ex officio*, President.

O. R. LATHAM, President, Iowa State Teachers College, Cedar Falls, term expires June 30, 1941.

JOHN S. NOLLEN, President, Grinnell College, Grinnell, term expires June 30, 1941.

F. N. OLRY, County Superintendent of Schools, Denison, term expires June 30, 1941.

ARTHUR DEAMER, City Superintendent of Schools, Cedar Rapids, term expires June 30, 1941.

Secretary, VIOLA H. SCHELL, Des Moines.

Chief Clerk, ESTHER E. TRONSTROM, Mapleton.

The state board of educational examiners was instituted by the nineteenth general assembly in 1882. Section 3858, C. '35, provides that the membership of the board of educational examiners shall consist of the superintendent of public instruction, who is president and executive officer of the board and four additional members appointed by the governor for a term of four years including: the president of one of the three state institutions of higher learning; the president of one of the privately endowed institutions of higher learning in the state that maintain teacher training courses; a county superintendent of schools; and a city superintendent of schools.

Section 3858-e1, C. '35, charges the board with authority to administer the statutes pertaining to the granting of all teachers' certificates except those which have to do with high school normal training. In that function it fixes the standards for teacher training courses; accredits colleges which offer teacher training courses for teachers' certificates; evaluates certificates of other states, and determines what recognition can be given them in Iowa.

STATE BOARD FOR VOCATIONAL EDUCATION

(Office located on third floor of capitol building)

Members of Board (ex officio)

AGNES SAMUELSON, Superintendent of Public Instruction, Chairman, Des Moines.

GEORGE T. BAKER, President State Board of Education, Davenport.

MILTON PEACO, Labor Commissioner, Clinton.

Director, Forest E. Moore, Des Moines.

Supervisor, agricultural education, George F. Ekstrom, Des Moines.

Supervisor, homemaking education, Mary Farris, Des Moines.

Supervisor, trade and industrial education, Harry W. Carmichael, Des Moines.

Supervisor, vocational rehabilitation, Willis W. Grant, Des Moines.

The state board for vocational education was established by the thirty-seventh general assembly in an act accepting the terms of the national vocational education act commonly known as the Smith-Hughes Law.

Vocational education, as organized under the provisions of the national and state vocational education acts, includes education and training of less than college grade, the specific purpose of which is to equip boys, girls, men and women for the effective pursuit of occupations. Such training prepares those of regular school age for employment which they propose to follow. It helps those who are already employed to acquire the new skill and knowledge which progress demands of their occupations and consequently to do better work and to take advantage of opportunities for promotion. Vocational education is offered in three major fields; namely, agricultural, trade and industrial and homemaking education. Instruction in each of these three occupational fields may be offered to three age groups of individuals: the regular high school student, the student who attends school part of the time and works part of the time, and the adult worker.

In general, vocational schools and classes are organized in accordance with the needs of the persons to be trained. Usually the classes are held in local public school buildings. Under certain conditions, and when better facilities for vocational training exist elsewhere, instruction may be offered in places other than regular school buildings. However, under all circumstances the vocational work is under public supervision and control and is maintained as a

definite part of the educational program of the state. The state board for vocational education reimburses local school districts from federal funds for salaries paid to the teachers of vocational classes.

The state board for vocational education also cooperates with the proper authorities at Iowa State College at Ames in preparing teachers of the above subjects.

The state board of vocational education also cooperates with the federal government in maintaining vocational rehabilitation programs for physically disabled persons. The thirty-ninth general assembly passed an act accepting the provisions of the national rehabilitation act and designated the state board for vocational education, which had been previously created in the state's acceptance of the Smith-Hughes Act, as the state's administrative and cooperative agency. Under certain rules and regulations the rehabilitation service provides for the vocational training and placement of physically handicapped persons 16 years of age or over with the exception of those coming directly under the training program maintained by the federal government for persons disabled as a result of enlisted service in the army or navy.

In 1878, the seventeenth general assembly created a board of railroad commissioners consisting of three members to be appointed by the governor and confirmed by the executive council. In 1888, the twenty-second general assembly passed a law making the commissioners elective. In 1937, the forty-seventh general assembly, by house file 133, changed the name from "board of railroad commissioners" to "Iowa state commerce commission."

The powers and duties of the Iowa state commerce commission are: To generally supervise all railroads in the state, both steam and electric, except street railroads; to inquire into any neglect or violation of the laws of the state by any railroad corporation doing business therein; to make examinations and inspections of the physical condition, conduct and management of such railroads and report their condition to said companies; to stop and prevent railroad companies, under certain circumstances, from running or passing their trains over unsafe bridges; to adjudge changes in station houses, rolling stock and rates of fare; to pass on necessity for spur tracks to be constructed and maintained not exceeding three miles in length to an existing industry under

terms and conditions approved by the commission as set out by law; to make reasonable rules for the crossing of steam and interurban railways and to require, when necessary, interlocking switches at railroad crossings; to make report on first Monday in December in each year to the governor of its doings for the preceding year, accompanied with appropriate suggestions and recommendations; to receive, tabulate and report upon the annual reports filed with it by railroad companies; to examine any of the books, papers or documents of any such corporation; to examine under oath employees of such corporation; to issue subpoenas, administer oaths and compel the attendance of witnesses; to make and fix maximum schedules of freight rates for such corporations, such schedules to be deemed reasonable until disproved; to examine into rates in force, upon complaint that the rate charged by a railroad company, or that the maximum rates fixed by the commission are unreasonably high or discriminating, and to fix the rate again, which must not be higher than any rate established by law, such decision of the commission is prima facie evidence that the rate so made is a reasonable minimum rate; to bring suits to enforce its orders; to inquire into the management of the business of such carriers and to obtain from them full and complete information necessary to enable the commissioners to carry out the objects of the law; to hear, investigate and determine all complaints alleging unreasonable rates; unjust discrimination, undue preference, violation of the long and short haul clause, or other infractions of the commission law, and make proper orders thereupon; to establish joint through rates, upon application, over two or more connecting lines; and to have the same authority over express companies as the act confers concerning railroads.

Before a railroad company may appropriate coal, coke or oil received for shipment, it must first secure the written consent of the commerce commission.

Before any railway company may condemn lands for additional depot grounds, or for straightening or relocating track, the permission of the commission must be obtained. Interlocking switches may be placed at grade railroad crossings or draw bridges, thus obviating the necessity of stopping trains before passing over such grade crossings or draw bridges, but before the interlocking switch may be used consent of the commission must be obtained.

The thirty-fifth general assembly gave to the commission the power to grant to individuals or corporations "engaged in the manufacture, sale, or distribution for sale of electric current for light, power, or heating purposes, the right within the state, except in cities and towns, to erect and maintain poles, wires, towers, fixtures and other necessary construction for the purpose of conducting electricity for lighting, power and heating purposes, over, along and across any public land, highways or streams or the lands of any person or persons, and to acquire the necessary interests in real estate therefor." It also provided that transmission lines proceeding under the provisions of the law should be subject to "such reasonable regulations as the commission may from time to time prescribe."

The commission is directed by an act of the thirty-ninth general assembly to "undertake and carry forward such investigation and preparation as shall be necessary to properly represent the interests of the state in connection with the valuation of the property of common carriers now being conducted by the interstate commerce commission."

An act of the forty-sixth general assembly provides that operators of grain elevators must be licensed in order to receive grain for storage. It also makes provisions for using warehouse receipts issued by the warehouseman on his own products and on products for others as collateral for financing loans. The act also provides for storage of other agricultural products in warehouses of types different to that of grain elevators which covers such products as wool, canned goods, sugar, etc.

The fortieth general assembly conferred on the commission the power to issue certificates authorizing motor carriers to operate over the public highways of the state, upon a showing that the proposed service would promote "the public convenience" and authorized the board to prescribe rules and regulations for the operation of motor vehicles used by such carriers "for the

protection and safety of the public." The forty-first general assembly revised the laws on this subject, but left their administration with the railroad commission.

The forty-third general assembly provided for the supervision or regulation by the commission of persons operating motor trucks principally used for the public transportation of freight for compensation, not operating over regular routes nor between fixed termini. It also provided that the cost of regulating truck operators and motor carriers and the maintenance of the motor carrier department be paid from fees and taxes collected from such carriers.

Under the act of the forty-third general assembly before an airport is acquired by any city or town plans and specifications must be approved by the board.

The forty-fourth general assembly provided that pipe lines shall be subject to regulation by the board under a permit issued by the board.

COMMERCE COUNSEL

The thirty-fourth general assembly created the office of commerce counsel, to be appointed by the Iowa state commerce commission for a term of four years, subject to confirmation by senate. The law provides that the counsel may appoint assistants, subject to the approval of the commissioners.

The duties of the office briefly are as follows: legal advisor of state commerce commissioners; investigate and present matters with reference to interstate rates to board, prosecute same before said board, or before any court to which same may be taken; investigate on his own motion, or at request of board, all matters involving interstate rates in which the people of Iowa are interested, and present same to interstate commerce commission and prosecute same to final determination; act as attorney for and represent board in all courts of this state or of the United States, in which the validity of any order of said board is in issue; to institute and prosecute in any of the courts any and all suits necessary to proper enforcement of any rule or order of said Iowa state commerce commission or make defense therein wherever said rule or order may be called in question.

Appointed by the Governor. Term during pleasure of the Governor

C. B. MURTAGH, Algona

The office of State Comptroller was created by senate file 470, an act of the forty-fifth general assembly known as the "Budget and Financial Control Act." It is now chapter 7-E1 of the code. The office of state comptroller is under the general direction, supervision and control of the governor. He is appointed by the governor, with the approval of two-thirds of the senate, and shall hold office at his pleasure. He is required to give a surety bond in such penalty as may be fixed by the governor, but in an amount not less than twenty-five thousand dollars conditioned upon the faithful discharge of his duties.

Local Budget

Chapter twenty-four (24) of the code known as the "Local Budget Law" was amended by senate file 89, acts of the forty-seventh general assembly, by creating a state board of appeal composed of the state comptroller, auditor of state and treasurer of state with authority to review certain budgets of proposed expenditures and tax levies. The law was further amended by substituting "State Board" wherever the word "Comptroller" appears in chapter twenty-four (24).

The state board, through the office of state comptroller, is charged with the duty of administering the local budget law. It involves a certain amount of supervision over the preparation of the budgets of local subdivisions and in planning and adjusting their expenditures according to their needs and funds available. The state comptroller (state board) is authorized to approve the transfer of funds of local taxing districts upon a showing of necessity. These duties necessarily require many conferences with public officials.

Public Contracts and Bonds

Under this law the state comptroller is called upon to decide questions relating to public contracts and bonds and to advise public officials regarding expenditures of public money for improvements and financing same by the issuance of bonds when necessary. When appeals are filed with him by the requisite number of taxpayers, his approval is necessary before the local board can proceed with the proposed improvement or bond issue.

The state comptroller is a member of the state appeal board, which body handles appeals of taxpayers in connection with certain improvements by the state government.

The state board of assessment and review was created by act of the forty-third general assembly in 1929 for the purpose of bringing about a more equitable assessment of property in the state of Iowa, and with the idea in mind that gross unfairness existed in the apportionment of the tax burden to the taxpayers.

It was given very broad general powers, its duties as fixed by law not only including a supervision of the assessment of all property in the state but also that of studying and investigating all matters pertaining to the improvement of the state's revenue system.

The board was organized on July 15th, of 1929, and has been functioning since that time.

Under the law this board exercises general supervision of the tax laws, of boards of supervisors and other officers and boards in matters pertaining to assessment and taxation; it has power to order re-assessments, to prescribe and promulgate books and forms; to confer with, advise and direct those obligated by law to make levies and assessments as to their duties under the law; to require information from taxing districts as to assessment of property and collection of taxes; to hold public hearings with safeguards as to evidence there produced; to cause depositions to be taken within or without the state; to investigate the work and methods of local boards of review, boards of supervisors and other officers in tax matters; to require boards of review to make such orders as this board determines are just and necessary; to direct and order any board to raise or lower the valuation of property, real or personal; to direct the county boards of equalization to raise or lower the valuation of any class or classes of property; to examine into alleged evasion or violation of the law for assessment and taxation; to ascertain wherein existing laws are defective or are improperly or negligently administered, and cause remedial proceedings to be instituted in such cases; to make a summary of the tax situation in the state; to formulate and recommend legislation for the better administration of the fiscal laws so as to secure just and equal taxation; to recommend such additions and changes in the present system of taxation that in its judgment is for the best interests of the state and will eliminate the necessity of any millage levy for state purposes; to transmit biennially to the governor and to each member and member-elect of the legislature, thirty days before the meeting of the legislature, the report of the board, covering the subject of assessment and taxation, the result of the investigation of the board, its recommendations for improvement in the system of taxation in the state, together with such measures as may be formulated for the consideration of the legislature; to publish the revenue laws of the state and distribute them as prescribed; to procure information pertaining to the discovery of property subject to taxation; to call upon any state department for technical advice and data which may be of value in connection with the work of assessment and taxation; to certify to the auditor of state on January first of each year the aggregate

of each state tax for each county for said years; all former powers and duties of the state executive council as a board of review, as to valuations, levies and assessments, and determination of tax rates for state purposes are now vested in the state board of assessment and review, as are the former principal powers and duties of the auditor of state with relation to the assessment and collection of taxes.

Assessment of Utilities

Another highly important duty delegated to this board since its original grant of powers by the legislature has to do with the listing and assessment of privately owned utilities. This board is now required to list and assess for tax purposes privately owned property of:

Water works, gas works and pipe lines	Telegraph and telephone lines
Electric light and power companies	Railway companies
Cable or electric railways	Sleeping and dining cars
Elevated street railways	Freight and equipment companies
Horse cars, etc.	Express companies
Electric transmission lines	

Tax Revision Act

The special session of the forty-fifth general assembly enacted a law which had for its declared purpose the equalization and replacement in part of the tax on property.

Section 2 of the act provides as follows:

"Purpose or object. This act shall be known as the 'property relief act,' and shall have for its purpose the direct replacement of taxes already levied or to be levied on property to the extent of the net revenue obtained from the taxes imposed herein, which shall be apportioned back to the credit of individual taxpayers on the basis of the assessed valuation of taxable property as provided in division VI of this act."

The law provides for a personal net income tax, a business tax on corporations, and for a tax on the gross receipts from retail sales, and further provides for the collection of such taxes, the distribution and use of the revenues derived therefrom, and the administration of the law.

The forty-seventh general assembly re-enacted the "retail sales tax act," and in addition passed what is known as the "personal property use tax act," and also an income tax on earnings of non-residents. The board is charged with the administration of all these laws.

Chain Store Tax

The forty-sixth general assembly passed what is known as the "Chain store tax act of 1935," which places graduated unit tax upon all systems of chain stores operated in the state, and also imposed a graduated tax upon the gross income of chain stores operated within the state. This law became effective on July 1, 1935. The graduated gross income tax is no longer in force, having been held unconstitutional by the supreme court of the United States.

The chain store tax now in effect is administered by this board.

IOWA STATE HIGHWAY COMMISSION

(Offices at Ames, Iowa)

Commissioners are appointed by the Governor, terms four years.

I. H. KNUDSON, Jewell, Republican, term expires July 1, 1939.
 HARRY GREENE, Avoca, Republican, term expires July 1, 1939.
 C. L. MCKINNON, New London, Democrat, term expires July 1, 1939.
 A. A. HURST, Maquoketa, Democrat, term expires July 1, 1941.
 GUS A. OLSON, Whiting, Democrat, term expires July 1, 1941.

The first law creating a state highway commission in Iowa was adopted by the general assembly in 1904. That law simply stated that the Iowa State College should act as a state highway commission. Acting under said law, the state board of education appointed Dean Anson Marston of the engineering division, and Dean Chas. F. Curtiss of the agricultural department, of Iowa State College, as the directors of the commission. Mr. Thomas H. MacDonald, now chief of the U. S. bureau of public roads, was appointed by the directors as secretary and engineer for the commission. The duties of the commission at that time were to make investigations and studies of highway conditions and to advise with local authorities with respect to highway improvements.

This organization continued until 1913, when the thirty-fifth general assembly passed an act creating a state highway commission of three members and separated said commission from the Iowa State College.

In 1927 the general assembly passed an act which now appears as chapter 238 of the code of 1935 creating a state highway commission of five members, all to be appointed by the governor, not more than three of whom could be from the same political party.

The law of 1927 placed the primary road system under the direct control and supervision of the state highway commission. Mr. Thomas H. MacDonald, who became secretary and engineer of the highway commission in 1904, was designated as chief engineer of the highway commission in 1913 and continued in that capacity until 1919, when he resigned and Mr. F. R. White, present chief engineer of the state highway commission, was appointed to that position.

The highway commission's duties are three-fold:

First: Construction and maintenance of primary roads.

Second: General supervision of secondary roads.

Third: Engineering assistance to other departments.

The commission has entire charge of and responsibility for all construction and maintenance work on the primary road system. It prepares the necessary surveys, plans and specifications for primary road improvements, lets the necessary contracts and supervises the construction work. It has charge, for the state of Iowa, of the expenditure of all federal aid road funds allotted to this state.

All maintenance work on the primary roads is under the supervision of the commission.

The secondary roads (county and township roads) are under the supervision of the county boards of supervisors in their respective counties. However, the law places on the highway commission certain duties and responsibilities in connection with such secondary road work. Changes in or modifications of the county trunk road system must be approved by the commission. Secondary road construction programs proposed by the county boards must receive the commission's approval. Plans prepared by the county engineers for secondary road improvements, must be submitted to the state highway commission for approval. Contracts awarded by the boards of supervisors for secondary road work involving a cost of \$2,000 or more per mile, or more than \$5,000 in the aggregate, or more than \$2,000 for any one bridge or culvert, must be approved by the state highway commission, before becoming effective. In case two adjacent counties are unable to agree on any county line road or bridge construction or maintenance matter, either board may appeal to the highway commission to determine said controversy.

The commission, on request, renders engineering assistance to various other state departments. This includes the making of surveys and preparation of plans and general supervision of construction and maintenance of public highways upon or adjacent to lands belonging to the state at the various educational, charitable, and penal institutions and at the state parks, engineering assistance to the executive council on street improvements upon and adjacent to the capitol grounds, assistance to the national guard on projects in connection with the national guard camp, and various other technical matters which may come before such other state departments.

 Superintendent of Securities, W. H. Bailey, Sheldon.

The office of Commissioner of Insurance, as the executive head of the insurance department of Iowa, was created by chapter 146 of the laws of the thirty-fifth general assembly (1913) and the first commissioner took office July 1, 1914. Previous to that time, the supervision of insurance had been under the direction of the auditor of state.

The commissioner of insurance has general control, supervision and direction over all insurance business transacted in the state, and is charged with the responsibility of enforcing all the laws of the state relating to insurance. He

collects all license fees and premium taxes due the state from insurance companies. In the year ending July 1, 1936, the commissioner collected and turned over to the treasurer of state for the general funds a total of \$1,745,177.12.

Under the law, all securities in which the reserves of Iowa life insurance companies are invested are required to be deposited with the commissioner and complete records are kept showing each item on deposit at all times. The amount of approved securities representing these and other incidental deposits in the hands of the commissioner on June 18, 1937, amounted to \$485,032,072.54.

The commissioner supervises all transactions relating to the organization, reorganization, liquidation and dissolution of domestic insurance corporations. He supervises the sale in the state of all stock or other evidences of interest either by domestic or foreign insurance companies. He is the statutory receiver in the event of liquidation of any Iowa insurance company.

All foreign companies, as well as all local companies, must, before engaging in the insurance business in this state, obtain a certificate of authority from the commissioner of insurance. These certificates expire annually on April 1st, and action is taken on their renewals after analysis of complete financial statements filed covering the condition of the company as of the previous year end. All insurance agents must likewise obtain individual licenses to solicit business. In 1936, there were 763 insurance companies authorized in the state, and approximately 60,000 individual agents' licenses were issued.

The commissioner conducts examination of all domestic insurance organizations at least every two years. He also may make an examination of any foreign insurance company authorized or seeking to be authorized to do business within the state. All policy forms used by any company within the state are required to be approved by the department.

The commissioner is a member of the National Association of Insurance Commissioners composed of the insurance supervising officials of each of the various states and meets with and cooperates with this organization in the many matters that arise involving the common interests of the separate states in insurance matters.

All employers, with a few exceptions, must provide insurance, or assume responsibility for compensation benefits, based on 60 per cent of the average weekly wage, and a limited liability for medical expense. The minimum is \$6 per week and the maximum \$15 per week. Provision is made for arbitration and review, and appeals may go to the courts. State and other public employes are included. There are two divisions created under this act. They are the unemployment compensation division, whose duties are to collect the contributions, keep the records, pay the benefits, and the employment service division, whose duties are to find employment for persons who become unemployed. Only employers of eight or more persons are required to come under the provisions of this act, but employers of less than eight persons may come under the act upon application to the commission.

Employers are required to pay contributions on their wage payrolls as follows: For the year 1936, .9 of one per cent, for the year 1937, 1.8 per cent, and for the years 1938-1941 inclusive, 2.7 per cent. Benefits will be paid to eligible persons who have been employed by the employers covered by this act and who have become either totally or partially unemployed as defined in the act. The amount of benefits paid to any person will depend upon the credit their account has received from wages paid to them during the benefit period, which is eight calendar quarters. When a person becomes unemployed he shall report to the employment service agency in his county and shall make application for work, and shall also make application for benefits provided for in this act. If no suitable work is found for him after a waiting period of two weeks, he will receive weekly benefits for a period of fifteen weeks provided his account has been credited with a sufficient amount.

The law directs that the manuscript of every report or document, book, booklet, bulletin or anything to be printed shall be transmitted to the superintendent of printing as soon as it is ready for printing, and he shall edit, revise, condense and arrange the same for printing. He has the custody of and attends to the distribution and sale of codes, session laws, supreme court reports and public documents; supervises the compilation and publication of the session laws, the legislative bill index, and the official register. Preventable Diseases—Epidemiology

Preventable diseases are by their very nature of vital concern to the community and the state. Reports of various infectious diseases are received daily

from physicians and health officers throughout the state. These reports are surveyed and tabulated so as to make possible a study by weeks and months of the current prevalence of disease as compared with the preceding year or period of years. Field investigations are made upon request of local health officers or other officials, to determine the nature and extent of outbreaks, and to assist in control measures. The department through articles, reports, literature, talks, correspondence and graphic presentations aims to inform the public about disease prevention.

Activities of this department include a division of tuberculosis under the direction of a physician with special training and experience and nurses who have specialized in the study of tuberculosis. Staff members cooperate with the attending physicians and health officers in the reporting of cases and in the conduct of special surveys and the various measures to prevent the spread of tuberculosis.

Every effort is being put forth in cooperation of physicians, so as to obtain complete reports of cases of venereal diseases. This work is carried out under the direction of physicians with special training and experience. Control measures include provisions for care of the indigent patient with particular reference to followup work and investigation of sources of infection.

A serum center has been established which makes possible the preparation of convalescent serum for the control and prevention of such diseases as measles, scarlet fever and infantile paralysis.

Sanitation, Public Health Engineering and Industrial Hygiene

The activities of the division include supervision of construction and operation of public and semi-public water supplies, sewerage, sewage disposal, garbage disposal and swimming pools; the control of pollution of streams and lakes by domestic and industrial wastes; general administration of the housing law and state plumbing code; the promotion of sanitary production and handling of milk; the study of occupational disease hazard among industrial workers; the promotion of better rural sanitation; the investigation of tourist and summer camps; the investigation of major nuisances; and the general supervision of district and county personnel engaged in public health engineering activities.

Child Health and Health Education

One of the most important activities of a health department is to present information on health subjects to the public and to stimulate the community to meet the needs of the whole child in such a manner that the greatest good will come to the greatest number. An advisory service is offered to lay organizations. This service includes guidance, direction and even supervision in planning and outlining health programs and the preparation of study course outlines.

Public Health Nursing

The department maintains a division of public health nursing and provides a whole-time supervisory service for public health nurses and an advisory service for boards employing nurses and for associations or committees interested in public health nursing.

The public health nurse:

1. Helps to secure early medical diagnosis and treatment for the sick.
2. Renders or secures nursing care of the sick, teaches through demonstration and supervises care given by relatives and attendants.
3. Assists the family to carry out medical, sanitary and social procedures for the prevention of disease and the promotion of health.
4. Helps to secure adjustment of social conditions which affect health.
5. Influences the community to develop public health facilities through participating in appropriate channels of community education for the promotion of a sound, adequate community health program. Shares in community action leading to betterment of health conditions.

Vital Statistics

The division is charged with the collecting, recording and filing reports of births, deaths, marriages and divorces. Statistical studies and analyses of these records are made and the results of these studies are released for the information of the public. The division supervises the work of the local registrars of vital statistics and cooperates closely with the bureau of census, department of commerce, Washington, D. C.

Law Enforcement

The work of the division of law enforcement is under the direct supervision of our attorney, who is immediately responsible for the enforcement of laws pertaining to all matters affecting the following professions under title VIII of the code: medicine and surgery, podiatry, osteopathy, chiropractic, dentistry, optometry, embalming, barbering and cosmetology.

The division provides an advisory service to the lay public, as well as to the members of professional groups, in matters relating to legal phases of public health.

Examinations, Licensure and Registration

This division is under the direct supervision of a lay-director who is not licensed to practice any of the professions. The division keeps a permanent record of all applications, examinations, licenses, reciprocal licenses and renewal of licenses of the various professions under title VIII of the code of Iowa, 1935 (except the practice of pharmacy, osteopathy, chiropractic and nursing). IOWA SCHOOL FOR THE BLIND—VINTON

Francis Eber Palmer, Superintendent

The aim and purpose of the Iowa School for the Blind is purely educational. The course of study includes not only the subjects leading up to and required for admission to the colleges and the university of the state, but also subjects that aim to prepare the students for some of the occupations in which it has been demonstrated that the blind are usually successful. After a pupil of this school reaches the high school department, he is given some latitude in the choice of courses of study. Both literary and industrial work is required of all students, besides some music.

IOWA SCHOOL FOR THE DEAF—COUNCIL BLUFFS

Lloyd E. Berg, Superintendent

The Iowa School for the Deaf was founded in 1855, and was first located at Iowa City and then moved to Council Bluffs in 1870. In 1902 a fire completely destroyed the main building which housed the executive quarters and dormitories for pupils. A substantial fireproof structure now stands in its place where sufficient room is provided for 325 pupils. A separate building to accommodate seventy-five pupils is also provided, wherein only oral instruction is employed. Approximately ninety per cent of all pupils are taught by the oral method which employs for the purpose, speech, lip-reading and writing. The course of study is extensive and provides not only an elementary education for the deaf children of the state but also a secondary, the high school department, covering a full four years course, being on the accredited list of the North Central Association, the only school for the deaf in the country so accredited.

A well equipped vocational department is maintained for the purpose of teaching trades. Students become skilled workmen and graduates, with remarkably few exceptions, are self-supporting, useful citizens of the state.

IOWA STATE LIBRARY

(Office located in Historical building)

The Governor, Secretary of State, Superintendent of Public Instruction and Judges of the Supreme Court comprise the Board of Trustees.

The State Librarian is elected by the board of trustees for a term of six years.

Prior to this, the territory of Iowa was provided with a librarian and library by an act and appropriation by congress and also by an act of the territorial legislature approved January 4, 1840.

The state library consists of four departments.

I.

The general library, which is a collection of books covering literature, philosophy, science, history, general works, religion, sociology, philology, useful arts, and fine arts. This consists of approximately 90,000 volumes, as of June, 1937. It is a reference library, as distinguished from circulating library, and is located in the east wing of the Historical building.

II.

The library of sociology and economics consists as of June, 1937, of philosophy, science, history, general works, religion, sociology, philology, useful state capitol, where it is available for the use of the officers of the state, and the members of the general assembly. It is much used by the members of the legislature during the legislative season. It is also a reference library.

III.

The law library consists of 125,000 volumes and 10,000 documents, as of June, 1937. This collection of books comprehends a vast body of law books in the English language. It is said to rank third among the law libraries of the United States. This division of the state library is located in the west wing of the state capitol building; the south end of the room being used for the library of sociology and economics.

IV.

The medical library consists, as of June, 1937, of approximately 20,016 volumes. It is located on the second floor of the east wing of the Historical building and contains all the modern texts on medicine and surgery, and a very comprehensive file of medical publications, very much up to date. This library serves all the schools of doctors and medicine and surgery; also, veterinarians and dentists. Members of the legal profession consult it on medico-legal questions. The information contained in this library is constantly moving in and out to the advantage of the groups served by it.

All these divisions of the state library in addition to the books which they contain, have a vast number of pamphlets, magazines and the like. Much research work is done by the respective library staffs on request of interested parties, and elaborate bibliographies are made for workers and investigators. Requests come from all parts of the state for these services.

The medical department circulates among nurses, club women, medical students, pharmacy students and all such groups, a large number of books, bibliographies and magazines.

The library commission also collects and publishes statistics of libraries in the state for guidance and information of trustees and others and furnishes blanks for keeping records and making reports to the commission, as required by law.

The library commission also issues the Iowa Library Quarterly, devoted to library purposes and news of the state, and also publishes selected lists, leaflets, and aids of various kinds.

The second activity of the commission is the traveling library from which books are loaned to schools, communities without public libraries, small libraries to supplement their own collections, clubs, other organizations, and individuals. Much reference help is given to study clubs in preparing their programs. Books for the blind, picture collections, and stereoscopic views are also loaned from the traveling library.

In 1935, 115,647 books were loaned from the traveling library. Most of these books are loaned for three months and the use of the traveling books is therefore much larger than the figures indicate.

Its functions are "to collect, preserve, organize, arrange and classify, works of art, books, maps, charts, public documents, manuscripts, newspapers, and other objects and materials illustrative of the natural and political history of the territory and state and of the central west, and of the traditions and history of the Indian tribes and prior occupants of the region, and publish such matter and display such material as may be of value and interest to the public." The department publishes the Annals of Iowa, a quarterly, historical magazine of eighty pages.

It also "collects memorials and mementoes of the pioneers of Iowa and soldiers of all our wars." (Section 4525, code of Iowa, 1935.) The de-

partment has a splendid collection of Civil war, Spanish-American war and World war materials, one entire room being given to those of the World war.

It maintains a library made up of books and pamphlets pertaining to the history of the state, general western history, publications of Iowa authors, war histories, works relating to North American Indians, county histories, and every kind of material that deals with local, state or western history. Its works in genealogy make it one of the best libraries in this field in the United States.

Portraits of distinguished Iowans constitute the portrait gallery.

The museum display includes many fine specimens of mammals and birds, including moose, buffalo, elk, as well as a fine display of eagles, wild turkeys, etc. A section of the museum is devoted to Indian relics and handiwork. Another section is devoted to the collection of war materials including weapons, medals, citations, battle flags. A splendid collection of rocks, etc., illustrates Iowa's geological column.

The department conducts pupils accompanied by teachers through the building in specific courses that are illustrated by museum specimens covering Indian life and pioneer life. It, of course, complies with the course of study for Iowa schools.

It also maintains collections of mounted specimens of common birds for the benefit of the Iowa schools who are willing to apply for and pay transportation on these collections.

The newspaper collection is fairly complete. Since its inception it has taken two newspapers from each county. Special effort has been made to collect Iowa newspapers for dates earlier than 1892.

The public archives material is derived from the state departments, boards, bureaus, etc., and dates from 1881 down to the ten-year period of its removal.

The private archives consist of manuscripts, letters and papers of many of Iowa's great men.

The public archives are consulted by approximately 12,000 people a year for matters pertaining to their own history, such as births, marriages, etc.

Thousands of inquiries are received annually from people over the state asking for information dealing with rock specimens, animal remains, fossils, mineral resources, and historic data of all kinds dealing with the state and middle west.

The department is open every day in the year.

The Iowa state fair as an institution has existed since the first fair was held at Fairfield October 25, 26 and 27, 1854, but it remained for the fortieth general assembly in 1923 and the extra session thereof to set out the Iowa state fair board as a separate and distinct department.

Previous to 1923 the fair was operated under the state department of agriculture. The fortieth general assembly, however, created a new department of agriculture, consolidating therewith a number of other departments and at the extra session the law was passed creating the state fair board, effective October 28, 1924.

The law provides for a state agricultural convention to be held at the state capitol in Des Moines on the second Wednesday in December of each year. The delegates to this convention are the officers and members of the state fair board; the president, secretary or accredited delegate of each of the county and district fairs; the president or accredited representative of the following organizations: each farmers' institute organized according to law and receiving aid; the state horticultural society; the Iowa state dairy association; the Iowa beef producers' association, and the Iowa corn and small grain growers' association. In counties where no fair is held the board of supervisors may appoint a delegate.

The convention elects a president and a vice president for a term of one year, and a director from each congressional district, whose term expires the day following the convention, for a term of two years. The terms of the directors representing the first, fourth, fifth, seventh and eighth congressional districts expire December 13, 1936, and the terms of the directors from the second, third, sixth and ninth congressional districts expire December 12, 1937. The secretary and treasurer are elected annually by the state fair board. The law fixes the compensation of the president, vice president and directors at ten dollars (\$10) per day and expenses while in attendance at board and committee meetings. The law also fixes the maximum amount to be paid the treasurer at \$250 and the secretary at \$5,000 annually.

By statute the state fair board is made the custodian of the state fair grounds and the board of managers of the annual state fair. The state makes no regular appropriations for the operating expenses of the state fair. The law specifically provides that all operating expense, maintenance, etc., shall be paid out of the receipts of the state fair unless there is a special appropriation providing for same. The law also provides that the state will not be liable for any debt incurred by the board. The state has appropriated since 1902, \$990,500 for buildings, \$93,013 for additional land, \$14,000 for sanitary sewer system, and \$28,280 for paving and sewer assessments against the grounds. In the same period \$478,700 has been appropriated for insurance premiums and maintenance of grounds and buildings.

During this same thirty-five year period there has been expended from the fair receipts, \$1,080,524 for buildings and other improvements, \$236,900 for insurance premiums and maintenance of the grounds and buildings, and the entire operating expense of the fair amounting to \$6,915,304.

The inventory taken November 30, 1936, shows the present value of the grounds and buildings to be worth \$2,220,664. This inventory takes into consideration the original cost of all permanent buildings and other improvements with the usual annual depreciation. It is safe to say that the replacement value of buildings and other improvements would be more than double the amount carried in the inventory.

The title to the state fair grounds and all property is held in the name of the state of Iowa and all deeds and abstracts are on file in the state comptroller's office.

It is the duty of the geological survey to furnish information to the public on such subjects as the mineral resources of Iowa, the geological formations present in the state and what uses may be made of them, the possibilities of investment in enterprises that involve geological materials, and any other questions that have to do with geology. In order to be able to give useful and intelligent answers to such questions as these, the survey has made preliminary examinations of the coal beds of the state and of the strata associated with them. Additional and more detailed studies of the coal measures are now being made. Studies have been made of the rock resources of Iowa, the gypsum, the clays and shales and the sands and gravels, both of the bed-rock and of the overlying loose materials. The possibilities of cement manufacture have been examined, also the deposit of iron ore at Waukon. The ground water resources of the state have been constantly studied since the organization of the survey over forty years ago. During the years 1934-1935 the survey had direct supervision of extensive field and laboratory investigations for the emergency relief administration and state planning board on underground water and subsurface geology of Iowa. The possibility of finding oil and gas in the Iowa strata has always been kept in mind, and close attention is given to all wells drilled as oil or gas prospects. The survey has always sounded a note of caution in pointing out the extreme hazard of investing funds in oil prospecting in the state.

The survey has published, as the result of its geological work, 35 large volumes, most of which are called annual reports. In addition, seven bulletins have been issued on the botany and biology of the state.

ORGANIZATION

The supreme court consists of nine judges, elected by the people, five of whom constitute a quorum for the transaction of business, but one alone may adjourn from day to day, or to a particular day, or until the next term.

Through a provision passed by the forty-fourth general assembly, the senior in time of service is chief justice for six months instead of a year as formerly and so on in rotation until all judges shall have been chief justice.

JURISDICTION

The supreme court has appellate jurisdiction over all judgments and decisions of all courts of record, except as otherwise provided by law.

APPEALS FROM ORDERS.—An appeal may also be taken to the supreme court from:

1. An order made affecting a substantial right in an action, when such order, in effect, determines the action and prevents a judgment from which an appeal might be taken.

2. A final order made in special actions affecting a substantial right therein, or made on a summary application in an action after judgment.

3. An order which grants or refuses, continues or modifies, a provisional remedy; grants or refuses, dissolves or refuses to dissolve, an injunction or attachment, grants or refuses a new trial; sustains or overrules a demurrer in a law action; or sustains or overrules a motion to dismiss in an equitable action.

4. An intermediate order involving the merits or materially affecting the final decision.

5. An order or judgment on habeas corpus.

If any of the above orders or judgments are made or rendered by a judge, the same are reviewable, the same as if made by a court.

The supreme court has power to issue all writs and processes necessary to secure justice to parties, and to enforce its appellate jurisdiction, and it may exercise supervisory control over all inferior judicial tribunals.

It may enforce its mandates upon inferior courts and officers by fine and imprisonment, which imprisonment may continue until mandates are obeyed.

CLERK OF THE SUPREME COURT

(Office located on the main floor of capitol building)

Term of incumbent ends January 1, 1939.

BURGESS W. GARRETT, of Leon.

Richard E. Reichmann, Deputy, Des Moines.

The office of the clerk of the supreme court is a part of the judicial branch of the state government. The law provides that the clerk of the supreme court shall have an office at the seat of government, that he shall file all printed matter and papers of all kinds appertaining to pending matters and cases, issue writs, orders and executions to carry out orders of the court.

The clerk shall announce by mail to one attorney on each side any ruling made or decision rendered, as soon as filed, and permit no original opinion filed to be removed by anyone except the reporter of the supreme court.

The clerk of the supreme court is required to be present in the court room when the court sits for the hearing and submission of cases, and keep a record of the cases submitted in the order of their submission. When a case is called for submission the clerk distributes to the respective members of the court a set of the pleadings in such case.

The clerk receives and files all applications for admission to the bar except those applying to be admitted on motion, prepares the lists of applicants for the bar examinations for the use of the board of law examiners, issues certificates to all successful applicants and keeps a record of the same. Collects and accounts for all fees incident to admission to the bar. Each applicant pays to the clerk an examination fee of \$5.00. Attorneys from other states admitted on motion pay the clerk a fee of \$10.00. Out of the fees so collected the clerk pays the board of law examiners their per diem on certificate of the attorney general.

REPORTER OF THE SUPREME COURT AND EDITOR OF THE CODE

(Office located on second floor of capitol building)

Term four years. Appointed by the supreme court.

ULYSSES G. WHITNEY, Sioux City; term expires January 1, 1939.

Nancy M. Conlee, Keokuk, Deputy.

It is the duty of the reporter of the supreme court and code editor to cause to be printed the official volumes of the opinions of the supreme court, with proper syllabi for each opinion; also to edit and compile the code and cause the same to be published immediately following each even-numbered session of the general assembly; also to prepare and cause to be published, biennially, annotations to the code; also to submit to each general assembly bills for the codification, amendment, and revision of such portions of the law as may be conflicting, redundant, or ambiguous.

THE DISTRICT COURT OF IOWA

There are at the present time seventy judges of the district court of the state of Iowa. The state is divided into twenty-one judicial districts and each district is entitled to from one to six judges, the number being fixed by statute. The judges are elected for terms of four years. Each judge appoints a shorthand reporter.

The district court shall have general and exclusive jurisdiction of all actions, proceedings and remedies, both civil and criminal, except in cases where exclusive or concurrent jurisdiction is or may hereafter be conferred upon some other court or tribunal by the constitution and laws of the state, and shall have and exercise all the powers usually possessed and exercised by courts of record. It shall also possess and exercise jurisdiction in all appeals and writs of error taken in civil and criminal actions and special proceedings authorized to be taken from all inferior courts, tribunals, boards or officers, under any provisions of the laws of this state, and shall have a general supervision thereof, in all matters, to prevent and correct abuses, where no other remedy is provided.

The district court of each county shall have original and exclusive jurisdiction to probate the wills of, and to grant administration upon the estates of, all persons who at the time of their death were residents of the county, and non-residents of the state who die leaving property within the county subject to administration, or whose property is afterwards brought into the county.

To appoint guardians of the persons and property of all persons resident in the county subject to guardianship.

To appoint guardians of the property of all such persons non-residents of the state who have property within the county subject to guardianship or whose property is afterwards brought into the county.

It shall have jurisdiction in all matters in relation to the appointment of executors and trustees, and the management and disposition of the property of and settlement of such estates; *provided*, that where jurisdiction has heretofore been acquired, the same shall be retained until such estate is closed.

The district court shall succeed to and exercise full authority and jurisdiction over the records of the circuit court, and may enforce all judgments, decrees and orders thereof in the same manner and to the same extent as it may exercise like jurisdiction and authority over its own records, and for the purpose of the issuance of process, and of any and all other acts necessary to the due and efficient enforcement of the orders, judgments and decrees of the circuit court, the records thereof shall be deemed records of the district court.

Transcripts and process from the judgments, decrees and records of the circuit court shall be issued by the clerk of the district court and under the seal of his office.

All civil townships in which said city or any part thereof is located shall constitute the municipal court district and its jurisdiction is coextensive with the territorial limits of the county in which the court is located.

The salary of municipal court judges is \$3,000 in cities with population less than 30,000, \$3,400 with population between 30,000 and less than 75,000, \$3,600 with population 75,000 or over. JURISDICTION.—Municipal courts are courts of record and have concurrent jurisdiction with the district court in all civil matters, where the amount in controversy does not exceed one thousand dollars, except in probate matters, actions for divorce, alimony, separate maintenance, those directly affecting the title to real estate, and juvenile proceedings unless otherwise authorized.

In all criminal matters the court shall exercise the jurisdiction conferred on district courts for the trial of misdemeanors, justice of the peace courts, mayor's courts, and police courts, except that the mayor's court of any incorporated city or town within such municipal court district other than the city in which said court is established shall have exclusive jurisdiction of prosecutions for violations of city ordinances.

In all matters of which the municipal court has jurisdiction, it has the same powers in reference to injunctions, writs, orders and other proceedings in and out of court as are possessed by the district court and the judges thereof.

THE LEGISLATIVE DEPARTMENT

The legislative department of the state of Iowa is vested in a general assembly, which consists of a senate and house of representatives.

The senate consists of fifty members. Senators are elected for terms of four years; twenty-one senators being elected at one general election and twenty-nine at the next.

The house of representatives consists at present of one hundred and eight members who are elected for a term of two years.

Sessions of the general assembly are held biennially in the odd-numbered years, and they commence on the second Monday of January.

The compensation of the members of the general assembly is \$1,000 for the session. This is in accordance with an act of the thirty-fourth general assembly which went into effect July 4, 1911. They were also allowed five cents a mile from their homes to the capital and return for traveling expenses. Members are permitted to draw such stationery as they need during the session, the cost to the state for the supplies varying from \$1.50 to \$14.00 per member. No allowance is permitted for postage.

The lieutenant governor is the presiding officer of the senate. His pay is twice that of a member, being \$2,000 for the session of the general assembly.

The speaker of the house is chosen by the members from among their own membership. His pay is twice that of a member, being \$2,000 for the session.

The lieutenant governor appoints all committees in the senate and the speaker of the house all committees in the house.

In the regular proceedings of the general assembly motions made by members are not seconded but are put directly by the presiding officer, the formality of a second being waived.

Sessions in both branches of the general assembly are opened by prayer. No regular chaplains are employed, but ministers from Des Moines and elsewhere over the state are assigned dates for these services and are allowed \$5 for each opening prayer.

Bills passed are copied (enrolled) by the enrolling clerk of the branch of the general assembly where the bill originates; they are then signed by the president of the senate and speaker of the house in presence of these respective bodies, in open session; then by the governor, if meeting with his approval, and then are filed with the secretary of state. Following adjournment they are printed under the direction of the superintendent of printing.

DEMOCRATIC STATE CONVENTION

The regular democratic state convention was held in Des Moines July 23, 1936. Governor Clyde L. Herring of Des Moines was chairman and Mrs. Mary S. Kelleher was secretary.

It was the duty of the convention to nominate a candidate for United States senator to fill a vacancy caused by the death of Senator Murphy and a candidate for attorney general because no candidate for this office received thirty-five per cent of the vote cast.

David J. Murphy of Dubuque, Guy M. Gillette of Cherokee, E. G. Dunn of Mason City, M. R. Stansell of Osceola, S. J. Galvin of Hampton and E. W. McManus of Keokuk were nominated from the floor as candidates for United States senator. Guy M. Gillette was the choice of the convention.

Claire E. Hamilton of Winterset, William Matt D. Cooney of Dubuque, Joseph E. Campbell of Charles City and John H. Mitchell were nominated as candidates for attorney general. John H. Mitchell was the choice of the convention.

Following is the platform adopted by the convention:

We, the democrats of Iowa, in convention assembled, resident in the heart of the richest agricultural and industrial section in the union, resolve:

We are committed to the principle enunciated in the American creed of liberty:

"All men are created equal, and that they are endowed by their creator with certain inalienable rights, that among these are life, liberty and the pursuit of happiness."

We hold that under the institutions and framework of our government that the divisions thereof, to-wit, legislative, executive and judicial, are clothed with powers and the right of the free exercise thereof, within their proper spheres; independent of control, each of the other; and that whenever the right to act has been denied to one by either of such branches, the power lies with the people to declare the future policy of governmental administration.

NATIONAL ADMINISTRATION.—We dedicate our support to the continuation of the ideals of the Roosevelt administration; and we pledge continued co-operation with that administration to the end that all the people of this state may enjoy the opportunities and privileges of better government and continued prosperity.

We gratefully acknowledge the assistance given by the federal government to the people of Iowa during the period of depression and drought.

We indorse the national democratic platform and pledge our party to its fulfillment.

STATE ADMINISTRATION.—This convention commends the successful democratic administration of the state of Iowa during the past three and one-half years.

Working in close co-operation with the federal government, that administration, under the most trying circumstances, and in the face of bitter partisan opposition, has fulfilled its pledges and has rendered a service of which the people of this state are justly proud:

1. The credit of the great state has been restored, the budget balanced, and a surplus accumulated, all without depriving the people of the proper services and benefits of government, and our children of the opportunity for education.
2. It has rehabilitated the banking and financial institutions and has restored public confidence in them.
3. It has provided legislation that has taken from the aged the fear of poverty and dependence.
4. It has given to agriculture sympathetic aid and assistance.
5. It has made thoughtful provision for labor and has at all times assisted in the solution of its problems.

TAXATION.—We recognize that to preserve the proper functions and institutions of government taxes must be levied, and we believe it the duty of government to make such taxes just and equitable. We therefore favor the continuation of the three-point tax law, and recommend that the proceeds therefrom be used as follows:

1. Sufficient sums shall be set aside which, with such federal funds as may be available, shall be adequate to pay to every eligible applicant the full pension payments intended under the Iowa old age assistance act.
2. The balance shall be allocated to replace property taxes and to effect an equitable distribution of the tax burden, provided, that resident farm and city home owners shall be given every preference legally possible in such allocation, to the end that the ownership of homes by Iowa citizenry shall be encouraged and fostered.

AGRICULTURE.—The democratic party is the first and only party to translate words into action in behalf of agriculture.

We commend the national democratic administration for having provided the farmers of America with the first workable and effective program for their protection.

We commend the state democratic administration for its prompt responses to every appeal for justified aid and assistance to the farmer and for the splendid manner in which it has co-operated with the federal government in making the agricultural program effective in Iowa.

Let it be remembered that the farmers of America, through their duly authorized leaders and spokesman, formulated and administered with governmental authority, this farm program.

We pledge the democratic party of Iowa to the continued support of the national farm leadership in the operation and administration of any program adopted for Iowa farmers.

We commend the members of the Iowa farm debt advisory committees, the members of the corn loan committees, the members of the corn-hog committees, and all others who have rendered assistance, much of it without compensation, to the many agricultural activities.

We pledge to the farmers of Iowa that we will, without regard to partisan politics, continue to place all such matters and programs in the hands of farmers.

And we pledge ourselves to such state legislation as may be required to make effective their efforts.

LABOR.—We take justifiable pride that the democratic party is responsible for creating the office of the secretary of labor in the president's cabinet.

Our present national administration has shown a sympathetic and practical understanding of the problems of the laboring people by the enactment of laws designed to give to labor broader opportunities and greater security in employment and we heartily indorse its actions, and the provisions of the national democratic platform relating to labor.

We approve the national labor relations act which gives to labor the right

to organize free from intimidation or coercion by employers, and to bargain collectively through representatives of its own choosing.

We favor appropriate state legislation for a furtherance of this program.

RURAL ELECTRIFICATION.—We favor the encouragement of, and assistance to, the rural electrification program to the end that electricity, at a fair price, will be available in every farm home in Iowa.

RELIEF.—We definitely commit ourselves to whatever assistance is necessary properly to protect all our citizens from hunger, misery, and want.

SOCIAL SECURITY.—Under the leadership of our democratic president, more progress has been made in social security than in all the preceeding years of our national life. The democrats of Iowa pledge themselves to any reasonable state legislation to further this humanitarian program.

FARM TO MARKET ROADS.—We favor continued construction of farm-to-market roads to the end that every community will be served by an adequate all-weather system.

HOME-OWNED STORES.—We favor legislation that will protect the independent home-owned merchant from unfair competition.

HIGHWAY SAFETY.—We favor a continuation of our efficient and effective highway patrol and pledge ourselves to more adequately safeguard life and property on our highways.

IOWA INDUSTRY.—We favor a program for encouraging Iowa industries by giving preference to the products of our factories. We believe that state government can aid the expansion of industry, thereby greatly increasing employment, and to that end we pledge our support.

VETERANS.—We commend the present democratic administration for its friendly and understanding attitude toward war veterans and favor continued fair treatment, with particular attention to enactment of constructive legislation for the benefit of disabled and distressed veterans and their dependents.

COAL.—Mine operators, who are complying with the labor laws of this state and paying living wages to our citizens, are entitled to favorable consideration.

We favor giving preference to Iowa coal when public moneys are expended therefore.

FARM TENANCY.—We urge the leadership of the democratic party to turn its attention toward increasing the number of owner-operated farms through the aid of lower interest rates and a revised policy of land purchase and resale.

MORTGAGE MORATORIUM.—Because of the effects of the devastating drought, we favor an extension of mortgage moratorium acts and the continuation of the farm debt advisory council operating as an Iowa state institution under the management of public spirited citizens in the various counties who are interested in retaining farm and home ownership for Iowa citizens.

SCHOOLS.—We commend the present democratic administration on the maintenance of the high standard Iowa school system, with no curtailment of its curriculum, and we favor adherence to, and the continuation of, that policy for the benefit of the children of Iowa.

CONCLUSION.—The performance of pledges is imperative in the successful operation of government. We do not retreat from the principles of party responsibility.

We pledge again that we will economize, consolidate gains made, and by legislation remove any defects that may exist, to the end that our advancements may apply more equitably and justly and provide for a continuation of the prosperity and well-being of all the people.

During the recent years of republican control the state of Iowa sank to the lowest level in its history. Faith and credit were destroyed, farmers were destitute, and misery, want and poverty stalked the land.

Today, the people of Iowa are again hopeful, proud, and confident of the future. We point with pride to the accomplishment of the democratic administration and

call upon all citizens regardless of previous political affiliation to join with us in the onward march of our great commonwealth.

RESOLUTIONS.—Resolution offered in memoriam of the late Senator Louis Murphy.

We, the democrats in convention assembled, pause for the moment in respect of the memory of our esteemed senator from Iowa.

We know that the Divine Maker in His wisdom has seen fit at this moment to remove him from our midst. His passing is a loss to state and nation.

Louis Murphy was always the advocate of justice, equality and fraternity among men. May his work go on in the spirit of democracy and the principles of his life and character be emblazoned in the annals and achievements of our party.

To his beloved ones, we extend our sympathy and with reverence for his memory, we bespeak him a high place among the illustrious departed.

Resolution offered in memoriam of the late B. M. Jacobsen, Congressman, Clinton, Iowa.

The Master of our Destinies has seen fit to take from our midst our loyal friend and fellow democrat, B. M. Jacobsen of Clinton.

His life epitomizes the advantages of a great democracy. Born on foreign soil, he became an illustrious member of our great state. He was a faithful servant of the people, and may we in doing honor to his memory ever remember those principles; the underlying ideals of democracy, freedom, justice and equality of opportunity.

May this convention in its deliberations pay respect to his memory and extend sympathy to his beloved.

REPUBLICAN STATE CONVENTION

The republican regular state convention was held in Des Moines July 10, 1936. Joseph R. Frailey of Fort Madison was chairman and Mrs. Blanche Allbee of Marshalltown was secretary.

It was the duty of the convention to nominate candidates for secretary of state, attorney general and railroad commissioner because of the failure of any candidates for these offices to receive thirty-five per cent of the votes cast in the primary. Following was the choice of the convention for nominees for these offices: Mrs. Henry Wood of Merville for secretary of state; Harold E. Davidson of Clarinda for attorney general and George L. McCaughan of Ankeny for railroad commissioner.

Following is the platform adopted by the convention:

PREAMBLE.—We, the republicans of Iowa, a typical prairie state, in convention assembled with a full realization of the importance of the problems now confronting the American people, do solemnly pledge our wholehearted and loyal support to the furtherance and the carrying out of the following principles; and the acceptance by a candidate of a place on the republican ticket for any office

in this state, either high or low, shall carry with it a pledge of loyalty to the principles and program hereinafter set forth.

CONSTITUTION AND GOVERNMENT.—The liberties of the American people are being violated. The American system of constitutional and local self-government is being destroyed. The authority of the Supreme Court of the United States is being questioned. The American system of free government, private competition and equality of opportunities are being denied.

We therefore renew our declaration of faith in the government founded by the framers of the constitution, and assert our conviction that the legislative, executive and judicial branches of the government must be maintained at all hazards.

We declare our faith in the wisdom, power and integrity of the Supreme Court which has in these trying hours of our national history unflinchingly upheld our principles of government and denied to the New Dealers the attempt to centralize all power and authority in the president and his numerous commissioners. We denounce any and all public officials who solemnly take the oath of office to support and defend the constitution of the United States, and then openly and expressly seek to tear it down by the enactment of laws known to be contrary to its provisions.

LAW ENFORCEMENT.—Disclosure of graft and corruption in high places and deliberate flouting of moral and social laws under the present state administration, and by its members, has brought humiliation and shame to the state of Iowa. The party responsible for this condition is no longer entitled to the confidence and support of the electorate. We pledge the people of Iowa to rid the state of such maladministration of public affairs and to put in authority officials who will enforce the law impartially and efficiently.

SOCIAL SECURITY.—We favor a fair and honest plan to provide old-age pensions to all elderly persons in need, without prejudice or discrimination, making use of such federal aid as may be available; an active program for the care and training of our blind and our cripples to the end that they may be helped to lead as useful and happy lives as possible; furtherance of the provisions of our statutes for the care of widows and children, and the revision of the federal social security act to eliminate provisions which are unsound and unworkable. We particularly deplore the attempt to build up large sums in so-called reserves to be used for political and partisan purposes when they should be used for the alleviation of human distress.

RELIEF.—We demand that the administration of relief be returned to the local authorities as provided by the law of Iowa.

We do emphatically condemn the criminal waste of public funds by Washington Bureaucrats for political and frivolous purposes under the guise of relief. We further emphatically condemn the injection into the relief problem of partisan politics and coercion directed toward the beneficiaries of such relief.

We believe that moneys and supplies provided for the relief of those suffering from poverty through the lack of employment should be distributed according to the need of the sufferers and not through favoritism or patronage therefore.

TAXATION.—We denounce the reckless, heedless and unwarranted extravagance of the democratic administration, both state and national. In all known history of the world no nation in time of peace has piled up such billions of deficit.

The republican party pledges that it will place our financial house both state and nation in order and that we will eliminate all unnecessary functions of government, all superfluous bureaus and employees.

We demand a budget annually balanced as to both ordinary and extraordinary expenditures and that governmental credit be maintained on a sound basis.

We set as our definite goal, a reduction of 25 per cent in Iowa taxes, and if the people of the state will give us a republican governor and a republican legislature, we will attain that objective.

We deplore the need of the sales tax in Iowa, and urge its discontinuance as soon as possible.

We declare that such taxes are justified only and should be devoted exclusively to relief of the distressed and as a mandatory replacement of direct property tax upon our homesteads the benefits to be equitably apportioned to the farm and city homesteads, to the end that all taxes collected from the people of Iowa may be retained for their benefits.

AGRICULTURE.—We heartily endorse the agriculture policies given expression in the 1936 national republican platform, and we wish to especially emphasize the following portions of the said platform:

1. That an agricultural policy be pursued for the protection and restoration of the land resources, designed to bring about such a balance between soil-building and soil-depleting crops as will permanently insure productivity, with reasonable benefits to cooperating farmers on family-type farms, but so regulated as to eliminate the New Deal's destructive policy toward the dairy and live stock industries.

2. To extend experimental aid to farmers developing new crops suited to our soil and climate.

3. To promote the industrial use of farm products by applied science.

4. To protect the American farmer against the importation of all live stock, dairy, and agricultural products, substitutes therefor, and derivatives therefrom, which will depress American farm prices.

5. To provide effective quarantine against imported live stock, dairy and other farm products from countries which do not impose health and sanitary regulations fully equal to those required by our own producers.

6. To provide for ample farm credit at rates as low as those enjoyed by other industries, including commodity live stock loans, and preference in land loans to the farmer acquiring or refinancing a farm as a home.

7. To provide for decentralized, nonpartisan control of the farm credit administration and the election by national farm loan associations of at least one-half of each board of directors of the Federal Land Banks and thereby remove these institutions from politics.

8. To provide in the case of agricultural products of which there are exportable surpluses, the payment of reasonable benefits upon the domestically consumed portion of such crops in order to make the tariff effective. These payments are to be limited to the production level of the family-type farm.

9. To encourage and further develop cooperative marketing.

10. To furnish government assistance in disposing of surpluses in foreign trade by bargaining for foreign markets selectively by countries both as to exports and imports. We strenuously oppose so-called reciprocal treaties which trade off the American farmer.

11. To give every reasonable assistance to producers in areas suffering from temporary disaster, so that they may regain and maintain a self-supporting status.

Iowa deploras the attitude of the administration in calling crop loans at a time when the nation is confronted by a famine.

FARM TO MARKET ROADS.—We realize to the fullest extent the importance and necessity of all weather roads for the convenience of the farming industry.

We pledge ourselves to the rapid improvement of the secondary road system so that the farmers now living on dirt roads may enjoy the benefits of all weather roads for which they are now paying and to which they are justly entitled.

IOWA INDUSTRIES.—We believe that the industrial activities of Iowa should be furthered in every way reasonably possible and that the use of products manufactured, mined, or produced in Iowa, should be encouraged and fostered.

LABOR.—The attitude of the Roosevelt New Deal administration toward labor has been one of opportunism with the desire to attract labor by glittering promises and magnificent but unconstitutional gestures for the purpose of perpetuating itself in power, while its policies are such as to ultimately make of labor a mere pawn of a socialized and regimented state with no rights except those that a dictator may choose to give.

We believe in the right of labor to organize and bargain collectively, and we favor extension of the principles of voluntary arbitration and conciliation.

We favor proper protection of women employees as set out in the national platform, and are opposed to the exploitation of child labor.

We believe that employment in the United States belongs to citizens of the United States, and not to aliens, and that immigration should be strictly limited.

CONSERVATION.—The republican party solemnly promises that the money raised for the fish and game fund will be expended for the purposes of the protection and propagation of wild life, the preservation of the state's natural resources and the practical application of true conservation rather than the maintenance of political jobs.

VETERANS.—We pledge the continuance of the all time exclusively republican policy of friendliness to the service men of all wars.

CONCLUSION.—We commend the homely virtues of initiative, courage, industry and thrift exemplified in both private and public life by Hon. Alfred M. Landon, republican nominee for president. We endorse most earnestly our candidate for vice president, Colonel Frank Knox, a man eminently qualified for that high office.

We commend our senatorial, congressional and state nominees to the people of Iowa as men and women of high moral standing well versed in public affairs, honest and sincere in their desire to provide the people of Iowa with a public service never excelled in the history of this state.

In the present crisis when the very foundation of our free government is in danger, we invite all the people regardless of former political affiliations to unite with us to the end that personal liberty and the right to use and control property honestly acquired may be preserved.

FARMER-LABOR STATE CONVENTION

The regular farmer-labor state convention was held in Des Moines, July 11, 1936. Gus Erickson of Des Moines was chairman. Following is the platform adopted by the convention:

PREAMBLE.—After more than six years of a so-called depression—in reality a period of chaos, of starving and suffering in America—we, the members of the farmer-labor party of Iowa, in state convention assembled, hereby reaffirm our stand heretofore taken against the present obsolete system of competition, aggrandizement of property and aggregation of wealth in favor of and in behalf of a system based upon co-operation and service, which is a co-operative commonwealth, through and by which the great mass of people of this state and the American nation shall reach a higher and better plane of living.

We denounce the economy of planned scarcity and insist that there is no over-production so long as millions are hungry, in rags and poorly housed. We declare that American production must be geared up to the consuming power of the people and not down to the purchasing capacity of their now-empty pocket-books. We stand for an expansion of production in a co-operative way to meet the needs of all of the people rather than a curtailed production to the end that an ever-diminishing few may profit.

The farmer-labor party of Iowa declares itself unalterably opposed to the Liberty League, the American Chamber of Commerce, or any other kindred organizations that wish to establish a fascist or property dictatorship in the midst of the most abundant natural resources which should be enjoyed by all for their happiness and benefit.

The farmer-labor party therefore declares its unalterable opposition to any aggregation of wealth in the hands of the few, and on its ultimate object and aim stands firm in its determination that a system based upon co-operation and service, which is a co-operative commonwealth, shall and must of necessity be established if civilization is to be maintained in these United States of America.

The farmer-labor party, however, believes that the establishment of a system based upon co-operation and service in this nation should and ought of right be achieved by pacific means at the ballot boxes, and that while this ultimate aim is being achieved there must of necessity be a provision for the period of transition from the present autocracy of wealth in the hands of the few to the co-operative era for all.

The farmer-labor party of Iowa, therefore, adopts as its platform for the coming campaign and the next biennium the following proposals for the period of transition:

AGRICULTURE.—Both the farmer and the consumer have suffered from excessive profits in the distribution of farm products. First, we would attack this problem by eliminating speculation in farm products through publicly owned or co-operatively owned exchanges, where the price of farm products is set. Second, we favor the co-operative marketing of farm products, and especially the organization of consumers' co-operatives.

The destruction of food products while people are in need is wrong and stupid. Curtailed production is asinine when offset by increased importation.

The government, both state and federal, must assist the farmer in an orderly marketing of his products.

No farmer should lose his farm because of economic conditions over which he has no control. We support moratorium legislation. We favor refinancing farm mortgages on a plan identical or similar with the original Frazier-Lemke bill. We insist that the farmer is entitled to as much assistance in the form of federal credit and low interest as are the railroads and banks and insurance companies.

We favor the same rights to organization for farmers as we favor for workers.

We hold that the state department of agriculture and markets must be made responsive to the needs and to the will of organized farmers.

We favor a tax reform program based on ability to pay which will lighten the tax burden upon the farmer.

We pledge ourselves to the foregoing program and to the other parts of this platform to assist the farmer in getting the cost of production to which he is entitled.

We stand for a graduated land and property tax that will exempt and safeguard the homestead of the farmer and the cottage of the laboring man from confiscation through taxation.

PEACE AND WAR.—1. We are unalterably opposed and favor a constitutional amendment prohibiting any future government of this country again permitting any armed forces to go outside the boundaries of the United States.

2. We favor government ownership and operation of plants for the manufacture of armaments and munitions of war.

HOUSING.—We favor the immediate establishment of a federal and/or state government housing program, and particularly that the federal government loan money for long time loans at extremely low rates of interest to home builders building houses of \$3,000 or less.

CIVIL RIGHTS.—We pledge ourselves to work against all legislation which seeks to repress the civil liberties of the people of Iowa, such as teachers' loyalty oath bills, compulsory flag salute laws or legislation to deny the ballot to minority parties. We stand for the abolition of compulsory military training in the tax supported schools and colleges. We advocate the repeal of the Iowa criminal syndicalism act.

We are unalterably opposed to all legal and social discrimination against the foreign born, and racial and religious minorities.

EDUCATION.—We believe that the support of our schools should be a responsibility of the state as a whole, making educational advantages for the children of the state as nearly equal as possible. Teachers of the schools of Iowa should be placed under civil service with an adequate salary, and that all people who train and qualify for teachers should be legally placed upon a teaching staff with secure tenure during good behavior.

TAXATION.—We are unalterably opposed to and favor immediate repeal of the general sales tax.

We favor an improved and increased chain store tax.

We advocate a corporate excess tax law and an increase therein.

We advocate an income tax on large corporations excepting bona fide co-operative organizations.

We favor a steeply graduated income tax on all net incomes in excess of \$5,000.

BANKING.—We demand that congress exercise the exclusive and constitutional power to coin money and regulate the value thereof.

We advocate nationalization of banking with government monopoly of money and credit, operated without profit.

Until we attain nationalization of banking, we advocate the establishment of a central state bank of deposit to be owned wholly by the state of Iowa.

INDUSTRIES.—As the only adequate means of preventing the concentration of wealth in the hands of a few, we favor an extension of the American principle of public ownership such as has been exercised over roads, schools, libraries, fire and police protection, postal service and national defense. We demand an extension of this principle of public or co-operative ownership to natural resources, banks, public utilities, packing plants, transportation and communication systems and monopolized industries so that America may cease to be a land of increasing tenants and paupers.

LABOR.—We advocate for the protection of labor the immediate passage of legislation that will provide a decent standard of living and eliminate child labor in industry.

We favor a strong law providing for the right to organize and bargain collectively through genuine labor unions, and are unalterably opposed to strike thugs and strike breakers and the use of the militia and police as strike breakers.

SOCIAL SECURITY.—Section 1. We demand that the inalienable right of every person to security against unemployment and incapacitation be immediately and definitely established through a security act as embodied in the provisions of the Frazier-Lundeen bill.

Sec. 2. Inasmuch as our aged people have had a large part in developing the resources of our country and creating the wealth thereof; and inasmuch as machine power will continue to replace man power so that there will probably never again be sufficient jobs, under our present system, to require the steady employment of all our laboring men at a living wage; therefore, we favor legislation that will retire our aged people from all gainful employment (thus creating jobs for younger men) on a pension adequate to provide comfort and leisure in their declining years; that will also require the young and middle aged, during their years of service, to systematically create a revolving retirement fund for their old age. We believe that the O. A. R. P., Ltd., more commonly known as the Townsend Recovery Plan, will not only provide such security for the aged, but also, by the compulsory spending of the pension money within thirty days from receipt thereof, will establish and maintain a purchasing power in the hands of the masses which will put millions of the now idle men to work in the various industries to produce the goods purchased by the recipients of the pension money, thus aiding materially in the creating and maintenance of a permanent prosperity as well as an adequate security for the aged. We plan and pledge our full co-operation and faithful effort to secure its enactment into federal law.

INITIATIVE, REFERENDUM AND RECALL.—We favor a change in the Iowa primary laws from the system of direct primary vote to the system of preferential voting; also we favor the adoption of the initiative, referendum and recall.

GENERAL.—We advocate any and all such laws as will aid in the organization of the consumers' co-operatives, co-operative credit unions, co-operative banking, and co-operative service organizations, including co-operative enterprises for rural and city health and housing and rural electrification.

We favor that all appointive employes in this state be brought under a civil service law.

We strongly advocate and demand that the state of Iowa shall accept its responsibility to the unemployed and discontinue the dole and gift system, and in lieu of the dole we advocate the opening of the closed shops and factories and the employment of the unemployed in connection with the opening of such shops, together with a huge public works program.

We are unalterably opposed to the existence or further establishment of state bureaus or state jobs for the purpose of paying political debts.

EXPLANATION OF ELECTION STATISTICS

Election statistics in this book are more in detail than are the official returns to the secretary of state. The official returns do not include the vote by precincts. The vote by precincts is furnished for this book by the county auditors direct to the superintendent of printing. These precinct returns appear as submitted by the county auditors, and all compilations of state and county returns in this volume are based thereon. This produces harmony within this volume, but there may be differences between the total of the vote shown in this volume and the vote recorded in the office of the secretary of state for the reason that there may be occasional errors in making these two separate and different reports.

THE DECLARATION OF INDEPENDENCE¹

When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.—We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed.—That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shown, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.—Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.—He has refused his Assent to Laws, the most wholesome and necessary for the public good.—He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.—He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.—He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.—He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.—He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the mean time exposed to all the dangers of invasion from without, and convulsions within.—He has endeavored to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migration hither, and raising the conditions of new Appropriations of Lands.—He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary powers.—He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.—He has erected a multitude of New Offices, and sent hither swarms of Officers to harrass our people, and eat out their substance.—He has kept among us, in times of peace, Standing Armies, without the Consent of our legislatures.—He has affected to render the Military independent of and superior to the Civil power.—He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by

¹ The Declaration of Independence was adopted by the Continental Congress on July 4, 1776. The text as here presented was copied verbatim from *Documents Illustrative of the Formation of the Union of the American States*, published by the United States government in 1927, which in turn printed it from the engrossed copy of the original manuscript in the Library of Congress.

our laws; giving his Assent to their Acts of pretended Legislation:—For quartering large bodies of armed troops among us:—For protecting them, by a mock Trial, from punishment for any Murders which they should commit on the Inhabitants of these States:—For cutting off our Trade with all parts of the world:—For imposing Taxes on us without our Consent:—For depriving us in many cases, of the benefits of Trial by Jury:—For transporting us beyond Seas to be tried for pretended offences:—For abolishing the free System of English Laws in a neighbouring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:—For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments:—For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.—He has abdicated Government here, by declaring us out of his Protection and waging War against us.—He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people.—He is at this time transporting large Armies of foreign Mercenaries to compleat the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.—He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.—He has excited domestic Insurrections amongst us, and has endeavoured to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions. In every stage of these Oppressions We have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury. A Prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people. Nor have We been wanting in attentions to our Brittish brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to dissavow these usurpations, which, would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.—

WE, THEREFORE, the REPRESENTATIVES of the UNITED STATES OF AMERICA, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by Authority of the good People of these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be FREE AND INDEPENDENT STATES; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do.—And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.

¹ The Constitution of the United States was adopted by a convention of delegates from the thirteen States on September 17, 1787, and transmitted to the Congress of the Confederation which in turn submitted it to the States for ratification on September 28, 1787. It was ratified by the required nine States by June 21, 1788, and went into effect on March 4, 1789.

The text of the Constitution and the first nineteen amendments are taken from *Documents Illustrative of the Formation of the Union of the American States*, published by the United States government in 1927. Compiled, edited, and documented by Benj. F. Shambaugh and Ruth A. Gallaher of the State Historical Society of Iowa. Words, phrases, and sections which have been rendered inoperative by amendment appear in *italics*. The material added to the Constitution by amendment is enclosed within brackets. Besides being indicated in their proper place in the text, the amendments are also printed in full following the Constitution.

THE CONSTITUTION OF THE STATE OF IOWA

INTRODUCTION

Iowa was organized as a separate Territory by an act of Congress approved on June 12, 1838, but it was not until 1844 that steps were taken to secure admission into the Union. A constitutional convention met at Iowa City in October, 1844. The Constitution drafted by this convention was twice submitted to the voters of the Territory of Iowa and twice rejected by them, largely because of dissatisfaction with the boundaries of the proposed State.

A second constitutional convention met at Iowa City in May, 1846. The Constitution drafted by this convention was ratified by a majority of 456 votes at an election held on August 3, 1846, and Iowa was admitted as a State on December 28, 1846.

The Constitution of 1846, however, contained a number of provisions which were found to be unsatisfactory in practice. One of these was the prohibition of banking institutions. As a result of this dissatisfaction, the legislature in 1855 provided for an election on the question of calling a convention to revise or amend the Constitution of 1846. The vote was 32,390 for a convention and 14,162 against a convention. Delegates were elected on November 4, 1856, and the convention met at Iowa City on January 19, 1857.

The delegates drafted a new constitution which was submitted to the people at an election held on August 3, 1857, and ratified by a vote of 40,311 to 38,681. This Constitution went into effect by proclamation of the governor on September 3, 1857.

The Constitution of 1857 has, since that time, remained the fundamental law of the State of Iowa; but it has been amended a number of times.

THE CONSTITUTION¹

WE, THE PEOPLE OF THE STATE OF IOWA, grateful to the Supreme Being for the blessings hitherto enjoyed, and feeling our dependence on Him for a continuation of those blessings, do ordain and establish a free and independent government, by the name of the STATE OF IOWA, the boundaries whereof shall be as follows:

Beginning in the middle of the main channel of the Mississippi River, at a point due East of the middle of the mouth of the main channel of the Des Moines River, thence up the middle of the main channel of the said Des Moines River, to a point on said river where the Northern boundary line of the State of Missouri—as established by the constitution of that State—adopted June 12th, 1820—crosses the said middle of the main channel of the said Des Moines River; thence Westwardly along the said Northern boundary line of the State of Missouri, as established at the time aforesaid, until an extension of said line intersects the middle of main channel of the Missouri River; thence up the middle of the main channel of the said Missouri River to a point opposite the middle of the main channel of the Big Sioux River, according to Nicollett's Map; thence up the main channel of the said Big Sioux River, according to the said map, until it is intersected by the parallel of forty-three degrees and thirty minutes North latitude; thence East along said parallel of forty three degrees and thirty minutes until said parallel intersects the middle of the main channel of the Mississippi River; thence down the middle of the main channel of said Mississippi River to the place of beginning.

¹The text of the Constitution was taken directly from the original manuscript copy preserved in the office of the Secretary of State. Compiled, edited, and documented by Benjamin F. Shambaugh and Ruth A. Gallaher, of the State Historical Society of Iowa. All words, phrases, and sections which have been eliminated from the Constitution or rendered inoperative by amendment appear in *italics*. Material added to the Constitution by amendment is enclosed within brackets. Besides being indicated in their proper place in the text, the amendments are also printed in full in chronological order following the Constitution.
