GENTLEMEN:—Through your kindness and partiality, I have been selected to discharge the duties connected with the high and important station of Speaker of the House. And whilst I acknowledge, with

feelings of gratitude, the distinguished honor conferred upon me, allow me to say, that I cannot but feel, that I shall fall far below the expectations of those whose kindness has placed me here.

Called for the first time in my life to preside over the deliberations of a body of this kind, and with but a limited experience in legislative proceedings, I cannot promise you, neither I trust will you expect, that familiarity with points of order, or that readiness in the despatch of business, which is so necessary to facilitate your deliberations, and so well calculated to render easy and pleasant the discharge of your duties. Of this much, however, gentlemen, I can assure you, that in my intercourse with you, in the relation which I now sustain, it shall be my endeavor so to act as to promote unanimity of feeling, and the great end for which we have assembled together,—the welfare and prosperity of our growing Territory.

Gathered together, as we are, from every portion of the Territory, and representing, as we do, different local interests, it is but natural to expect, that amid the clash of conflicting claims, occasional storms will arise, but I trust, should such be the case, that they will but serve to purify our mental vision, and enable us to look beyond the interest of our own immediate neighborhood, to the still more commanding interest of all.

Laws should be made to operate equally not partially—the common good of the Territory should be studied in all our proceedings, and upon this altar should we be willing at all times to offer up our sectional feelings and sectional interests. Let us remember too, that the legislation of our infancy is to tell upon our riper years, and it is important that we should so legislate that when this young and rising Territory comes to take her stand among the States our glorious Union, she may be fully prepared for as brilliant a career as that of those which have preceded her. Let her commence her race unclogged—with her energies untrammelled, and it will require no prophet to tell her future destiny.

There is, gentlemen, a high responsibility resting upon us. Let us manfully meet it—that when we come to leave these seats and mingle again with our constituents, we may meet them with a consciousness of having discharged our duty.

Again, gentlemen, allow me to return my thanks for the honor conferred upon me, and again allow me to assure you, that it will be my study in all things to render myself worthy of your confidence.

Messrs. Wallace, Patterson and Christie, a committee from the the Council, were announced, who informed the House that the Council was temporarily organized and ready to proceed to business.

The House proceeded to the election of Chief Clerk and upon counting the ballots it appeared that,

A communication, in writing, was then received from the Governor, by Mr. Burr, Secretary of the Territory, which was read by the Clerk, and is as follows:

IOWA CITY, December 4th, 1843.

Fellow citizens of the Council and of the House of Representatives:

Since the termination of the last session of the Legislative Assembly, it has pleased the Almighty Power, in whose hands we are, to vouchsafe to the people of this Territory as great a degree of exemption from disease as has fallen to the lot of any portion of our extensive country; and although, in some localities, recent emigration and the exposure incident to a want of comfortable houses for a short time, have produced bilious diseases, in a mitigated form, still it may be asserted with perfect truth, that no portion of the country, watered by the tributaries of the Mississippi, has in its early settlement been more favored in the health of its inhabitants than Iowa, and while a bounteous providence has blessed us with abundance we have cause to felicitate ourselves that, the peace and personal security of our citizens have been undisturbed and unmolested in a degree which many older communities cannot boast of.

Heretofore we have been prosperous, and well protected under the

fostering care of the General Government, and if in some respects our commerce has not been as liberally provided for and promoted, as we had a right to expect, and as an enlightened policy would have dictated, it is gratifying to know that the omission affects in common with us, an interest so extensive and a population so numerous—now fully represented in the councils of the nation—that the period cannot be remote, at which this subject will be pressed upon the government with a power which will not be easily resisted. And we may promise ourselves too, that at an early day we shall be permitted to add some additional weight to the already numerous representation in Congress from the great valley of the Mississippi, in demanding the efficient action of that enlightened body in promoting the vast and rapidly increasing agriculture and commerce of the western States and Territories.

These interests have been too long permitted to languish and suffer from obstructions to the safe navigation of our rivers, which the government could, and ought to have caused to be removed, and although our former attempts to attract the attention of Congress to the subject have been unsuccessful, we owe it to ourselves to renew our efforts, and especially at this time to insist earnestly upon a full consideration of our claims to relief from the severe losses and heavy impositions under which we labour, from causes so easily removed by the power to which it belongs to redress the grievance; a new Congress has now assembled, and for the first time for ten years the people of the new States are represented in proportion to their numbers, we may therefore reasonably hope for a more favorable consideration of those interests which have heretofore seemed to be too far from tide water to attract the degree of attention which their importance merit.

Our population has now, it is confidently believed, attained a numerical strength which entitles us to a participation with the States of the Union in the government of its affairs, and to the benefits of local legislation, subject to no restraints but such as are imposed by the constitution of the United States, and as we may choose to impose in the formation of a State constitution. I therefore consider it my duty, respectfully to recommend, that you make provision by law for ascertaining the wishes of your constituents in relation to this important matter; and that you apply to Congress to fix and establish, during its present session, a boundary for the proposed State, and to sanction the calling of a convention, and make provision for our reception into the Union so soon as we shall be prepared to demand it. The establishment of a boundary for us by Congress, will prevent the intervention of any difficulty or delay in our admission into the Union, which might result from our assuming limits which that body might not be disposed to concede to us.

Early in the month of May last, the confederated tribes of the Sac and Fox Indians, in conformity to their treaty with the United States of the 11th October, 1842, removed to the west of the temporary boundary established by that treaty, which has since been ascertained by actual survey and marked, under the direction of the government.

The removal of these tribes has opened an extensive and very valuable portion of our territory to settlement, and the tide of emigration which immediately rushed into it, and has continued to flow ever since, shows that its value and importance are justly appreciated.

The increase of population west of the old Indian boundary, will render it necessary that provision be made by law for attaching some of the counties formed by the act of the last session, to the judicial districts, and placing them in all respects upon an equal footing with the counties previously organized.

In the month of July last the President directed a negotiation to be opened with the Winnebago Indians, with a view to their removal from the tract of country known as the Neutral Ground, where their vicious habits had rendered them offensive and dangerous to the adjacent white inhabitants; but every effort to induce them to remove, proved unavailing, and I fear their obstinacy and almost universal intemperance, acted upon and encouraged by interested advisers among the whites, whom they look upon as their friends, will induce them to continue to resist the benevolent wish of the Government to provide a residence for them more remote from white population, and where the facilities they now enjoy for indulging in their besetting sin of habitual drunkenness, would not be afforded them, until their conduct will produce a necessity for compelling them to take a position less annoying and dangerous to our citizens, and less destructive to themselves. In the mean time, the War Department has caused such instructions to be given to the officer in command of the United States troops at Fort Atkinson, as it is hoped will in a great measure protect our citizens residing near the Neutral Ground against further aggressions from these besotted people.

It is proper to state in this connection, that the intemperate habits of these Indians can be clearly traced to a depraved and lawless portion of our citizens, who, in defiance of the laws of the United States and of the Territory, and in total contempt of every principle of morality continue to supply them with whiskey in such quantities as to keep a large portion of them in a state of almost uninterrupted intoxication. The laws prohibiting this offence, impose only pecuniary penalties for a breach of them, and the frauds and extortion practised upon the Indians by the offenders, enable them, in case of conviction, to pay the penalties imposed, and still prosecute their infamous traffic with a large profit. The fact is well known to these lawless people that their practices not only endanger their own lives, but the lives and property of their unoffending fellow citizens and cause the butchery and destruction of their Indian victims to an extent not generally known to others; but these evils produce no compunctions with them, and I earnestly recommend to you the revision and amendment of the existing laws in relation to this crime, with a view to the infliction of more exemplary punishment for its commission, and if possible to ensure a more effectual execution of whatever provisions now exist or which you may deem necessary to enact for its prevention and punishment.

The work on the public buildings at this place has been limited during the past season by the means placed at the disposal of the Territorial Agent, and its further prosecution will depend upon such provision as you may deem it expedient to make for that purpose.

The payment of the unsatisfied debts against the Territory, incurred under legislative authority on account of the public buildings, ought to be provided for and met, with as much promptitude as practicable.

Last spring the Warden of the Penitentiary communicated to me a plan of operations which he proposed to adopt for the advancement of the work on the buildings and enclosures then in progress, and which were indispensable to the secure keeping and accommodation of the convicts; his proposition embraced what I deemed the most profitable employment of the labor of the convicts, with the least expenditure for which it was practicable to attain the object of such an enlargement of the accommodations of the institution as the increase of the number of convicts demanded. The plan proposed met my my decided approbation, and as the Warden proposed to incur the risk of a legislative provision for such advances as its execution might require, I assured him of my hearty concurrence in any measure which the legislature might think proper to adopt for his indemnification, and I learn from a report which he has made me, that he has very successfully prosecuted the work he contemplated, with an expense even less than he had estimated; adding greatly to the comfort and security of the convicts, and placing the institution upon such a footing, as will with proper management enable us to avoid to the necessity of future appropriations for its support. The Wardens Official Report will explain to you more at large the nature and extent of the work he has caused to be done and the expenditure he has incurred; and I respectfully recommend that provision be made by law for reimbursing him.

We have still to regret that our repeated appeals to Congress for the means of completing this work, so necessary to the due execution of our criminal laws, have been attended with but little success, but in the relation in which we stand to the General Government, our claim for such aid, is to my mind so undeniably just and proper, that I cannot refrain from recommending that it be again presented and urged upon the attention of that body.

In my former communications to the Legislative Assembly, I have represented the almost universal neglect of the officers of the militia to perform their duties, and especially that their failure to report the number and equipments of their respective commands, as required by law, puts it out of the power of the War Department of the General Government to furnish us with the arms to which we would be entitled upon making proper returns. No change has taken place in this respect, and if the means of putting arms into the hands of our militia is deemed important to the safety of our extensive and exposed frontier, I would again recommend the adoption of such measures as will enable us to obtain them. The causes which render hopeless any effort to enforce the performance of the official duties of our militia offi-

eers, by military means, are stated at length in my last annual message, to which I beg leave respectfully to refer you.

The law authorizing the organization of township schools, seems to be entirely overlooked by those to whom the duty is committed, and it is mortifying to see how little interest the important subject of education excites among us, even the school lands, or sixteenth section, in every township, are found in most cases, to be wholly neglected, and in many to have been converted to individual use, or to have been trespassed upon and pillaged to their great injury. The value of this provision for education cannot be too highly appreciated, and I earnestly recommend that the County Commissioners in every organized county be not only permitted, but *compelled* in every instance where the school lands are found in the unauthorized occupancy of individuals, to obtain possession of them by such legal means as may be necessary for that purpose, or at their discretion, to permit the occupants to become tenants, paying a moderate rent in making improvements on the land or otherwise, and covenanting to commit no waste, and to surrender the possession to them or their successors in office, at the expiration of the term agreed upon, and that where the lands are not occupied, the County Commissioners be required to protect them against trespassers and to cause them to be settled and improved whenever it may be practicable to do so.

Notwithstanding the restrictions imposed by Congress upon the expenditure of the appropriations for the support of the Territorial Governments, I find that the pay and mileage of the members of the Legislative Assembly of this Territory, the pay of its officers, printing and other incidental and miscellaneous expense of the last session, amount to about five thousand dollars more than the appropriations made by Congress for those objects. This is the more to be regretted because the territorial treasury does not afford the means of paying the deficiency, and the persons to whom it is payable are left to the doubtful contingency of their claims being paid at the United States Treasury, and may be compelled to wait a further appropriation by Congress to satisfy them; to avoid a recurrence of such a state of things, I would respectfully recommend that your appropriations of the fund allowed by Congress for legislative purposes, be made as specific as possible, and in no case permitted to exceed the fund from which they are to be paid. Despatch in the discharge of your legislative duties and economy in the expenditure of the money appropriated for the expenses of your session, may enable you to leave a considerable amount of that fund unexpended, which, on your representation, Congress would probably permit to be applied to the payment of the deficiency of last year.

I beg you, gentlemen, to be assured that it will give me pleasure to co-operate with you in the adoption of such measures as may tend to promote the happiness and prosperity of our fellow-citizens.

I am, very respectfully,

Your obedient servant,

JOHN CHAMBERS.

The Committee find, that by the 21st section of an act organizing a Board of County Commissioners in each county, approved, February 15th, 1843, the Clerk of the Board of County Commissioners shall have the power to appoint a Deputy, whose acts he shall be responsible for, and to administer all oaths necessary in the discharge of the duties of his office.

This, your Committee think, is sufficient, as it is an office not possessed of any Judicial powers whatever.

Your Committee are further of the opinion, that a law authorizing them to take the acknowledgment of Deeds, would be at once unnecessary, unprecedented, and inexpedient.

It would be unnecessary, because there are Judicial officers already empowered sufficient for the acknowledgment of Deeds—unprecedented, because it is a power not usually granted to officers not possessed of Judicial powers—and inexpedient, because there is no legitimate officer having the power, either by law, or common consent, of certifying to his official character, and that his certificate is in due form.

Your Committee, therefore recommend the adoption of the following resolution:

Resolved, That it is inexpedient to pass a law, extending the power of the Clerks of the Boards of County Commissioners, in regard to administering oaths, and empowering them to take the acknowledgement of Deeds.

The Speaker stated, that when the letter of instructions from certain citizens of Des Moines county, was presented on yesterday, it was his opinion, at the time, that inasmuch as it was directed to the Representatives from Des Moines county only, and not the House, it was not in order for it to be received—upon further reflection, although not fully satisfied that his decision was incorrect, he thought it proper and right to reverse that decision for the following reasons.

1st. Because there is some analogy between the present case, and the case of the reception, by Congress, of instructions directed to members from particular states, by the Legislatures of the same.

2nd. And mainly because, the Speaker conceives it the safer course in cases of this kind, to leave the question of reception with the House.

Mr. Grimes, from the Committee on the Judiciary, to which was referred sundry petitions of persons praying to be divorced, made the following report:

The Committee on the Judiciary, to whom was referred the petitions of James Baxly, H. D. Britton, John Bishop, Albert Clemente, William Wetherbee, William L. Smith, Joshua Bell, William Williams, and John Prugh, praying to be divorced from their wives, and of Temperance Avery, praying to be divorced from her husband, Warren Avery, has had the same under consideration, and respectfully beg leave to report:

Your Committee has bestowed all the attention upon the prayers of the respective petitioners, which the delicacy and magnitude of the interests involved demanded, and other engagements would allow.

The enquiry which first naturally presented itself, was—Has this Legislature the power to grant divorces, admitting the necessary facts to be in evidence. And after mature consideration, we have unanimously come to the conclusion that it possesses no such power. In view of the number of petitioners, the course of past legislation, and the natural effects of precedents upon the action of future legislatures, your Committee has deemed it both proper and expedient to state

briefly to the House, the reasons that have led them to this conclusion.

All jurists unite in the opinion, that marriage is a civil contract, entered into for the happiness of the parties, and for the re-production of their species. It may be consummated, and perhaps generally is, with religious ceremonies, and by some denominations of christians, regarded as a divine ordinance, but it is nevertheless, in the eye of the law, a civil compact between the parties, conferring mutual rights and responsibilities which cannot be divested but by a judicial investigation and decision. The commentators upon the law abound in authorities upon this point, and as a doubt has been expressed by some members as to its correctness, your Committee will quote the language of some of the most popular and generally read authors.

Blackstone, in the 1st vol. 444th page of his Commentaries, holds the following language: "Our law considers marriage in no other light than as a civil contract—and taking it in this civil light, the law treats it as it does all other contracts, allowing it to be good and valid in all cases where the parties, at the time of making it, were in the first place willing to contract—secondly, able to contract, and lastly, actually did contract in the proper forms and solemnities required by law." Bacon terms it "a compact between a man and woman for the procreation and education of children." 5 Bacon's abr. 288.

It is, says Judge Reeve, in his work on the domestic relations, "a mere civil transaction, to be solemnized in such manner as the Legislature may direct." Reeve's Domestic Relations, 196.

It is defined in Rutherford's Institutes to be "a contract between a man and woman, in which, by their mutual consent, each acquires a right in the person and property of the other for the purpose of their mutual happiness, and for the production and education of children." Rutherford Just. 214.

Justice Story, in his Conflict of laws, is equally explicit upon this point, and indeed there seems to be but the one opinion among all the authors your Committee have had an opportunity of examining. See, on this subject, Story's Conflict of laws 100, 2 Kentslom 86, Walker's Introduction 232, 323, Hilliard's Elements of Law, 14.

But aside from the authorities cited, marriage cannot be regarded otherwise than as a contract upon general reasoning. It must be so from the very definition of the word contract. It is defined to be "a transaction between two or more persons, in which each party comes under an obligation to the other, and each reciprocally acquires a right to whatever is promised by the other." Justice Washington, in Dartm. College vs. Woodward 4, Wheat. 518, Powell on Contr. 6. It is a compact between two or more proper parties; contract based upon a consideration and consent. Fletcher vs. Peck, 6 Branch, 136. Marriage has all the essential ingredients of a contract of the highest grade—the proper parties—their consent, and a part execution. It has always been held to be a sufficient consideration for a contract—it vests in the husband a right to all the goods and chattles, and choses in action of the wife, and entitles him to the rents and occupation of her

lands. He becomes responsible for all her debts and contracts. He has a right to her person and companionship—and she is entitled to her support during his lifetime, and to dower in his real estate upon his decease. These are rights and responsibilities, created by law and the consent of the parties, which vest absolutely upon entering into the marriage compact.

Can this contract be extinguished by a Legislative enactment? Your Committee think not. First, because it would impair the obligation of the contract, and thus violate the 10th Sect. of the 1st article of the Constitution of the United States. Secondly, because it would interfere with and affect a private contract and engagement, and thus violate the 2d article of the Ordinance of 1787, the benefits of which are extended to the people of this Territory.

What is it to affect or impair the obligation of a contract within the meaning of the clauses in the Constitution and Ordinance before referred to?

This question has been satisfactorily answered by the highest tribunal in our land, upon more than one occasion. In *Green vs. Bidder*, 8 Wheat. Rep. 1, the Supreme Court of the United States say, "that any deviation from the terms of the contract by postponing or accelerating the period of the performance which it prescribes, imposing conditions not expressed in the contract, or dispensing with the performance of those which are, however minute or immaterial in their effect upon the contract of the parties impairs its obligation." It is not necessary that the terms of the contract should be specifically agreed upon, and stated by the parties for, says Justice Story in *Dartmouth College vs. Woodward*, "the constitution did intend to preserve all the obligatory force of contracts, *which they have by the general principles of law*—4 Wheaton, Rep. 518. The same doctrine has been held by the same Court in *Fletcher vs. Peck*, 6 Branch Rep. 135; *New Jersey vs. Wilson*, 7 branch 164; *Bronson vs. Kenzie* Peter's Rep., by the Supreme Court of New York, in 7 John Rep. 477.

"Any law," says Judge Story "which enlarges, abridges or in any manner changes the intention of the parties resulting from the contract, necessarily impairs it. The manner or degree in which this change is affected, can in no respect influence the conclusion, for whether the law effects the validity, the construction, *the duration*, the *discharge* or the evidence of the contract, it impairs its obligation; *a fortiori*, a law which makes the contract *wholly invalid*, or *extinguishes* it, is a law impairing it."—3 Story's Com. 341.

Now an entire dissolution of marriage surely affects the *duration* of the marriage contract. It renders it in the words of the authors before cited "wholly invalid and extinguished." It has ceased, not upon the terms and by the means contemplated at the time of its consummation, but by the interference of the legislative authorities.

Thirdly, a legislative divorce, would be an attempt to exercise a judicial power, vested exclusively in the judicial tribunals by the organic law of this Territory.

In the argument of the celebrated case just cited, of the *Connee vs. Woodward*, it was asserted, and pressed as an argument by the counsel for the defendant that legislatures could grant divorces. In answer to this Justice Story remarks "as to the case of the contract of marriage which the argument supposes not to be within the reach of the prohibitory clause, because it is matter of civil institution, I profess not to feel the weight of the reason assigned for the execution. * * *

A *general* law regulating divorces from the contract of marriage, like a law regulating remedies in other cases of breaches of contracts is not necessarily a law impairing the obligation of such a contract. * * *

But if the argument means to assert, that the legislative power to dissolve such a contract without any breach on either side, against the wishes of the parties, *and without any judicial inquiry to ascertain a breach*, I certainly am not prepared to admit such a power, or that its exercise would not entrench upon the prohibition of the constitution. If, under the faith of existing laws a contract of marriage be duly solemnized, or a marriage settlement made, (and marriage is always in law a valuable consideration for a contract) it is not easy to perceive why a dissolution of its obligations may not fall within the prohibition, as any other contract for a valuable consideration. A man has just as good a right to his wife as to the property acquired under a marriage contract. He has a legal right to her society and her fortune, and to divert such right without his default and against his will, would be as flagrant a violation of justice as the confiscation of his own estate." Says Chancellor Kent "the question of divorce involves investigations which are properly of a judicial nature, and the jurisdiction over divorces ought to be confined exclusively to the judicial tribunals, under the limitations to be preserved by law."—2 Kent's Com. 105.

From this it must be inferred that a legislative divorce would not only violate the contract, but would be an encroachment upon the prerogatives of the judiciary, in whom, with us, all judicial power is vested. The duty and right of the legislature is to declare what the law should be, and their action is always presumed to precede the action upon which that law should operate. Their acts are always presumed to affect and operate upon conduct *in futuro*. The judiciary decide upon acts that have been committed, and are governed in their judgments by the law in force at the time of their commission. By granting a divorce, the legislature decides that one of the parties has failed to fulfil his contract; they pronounce a judgment upon a past contract which operates *in presenti*, without first deciding what shall be the causes for divorce or giving notice to the opposite party. Can this be other than an attempt to exercise judicial power? Would it not impair and affect the obligation of the contract, and violate the first principles of national right and justice?

Precedent is urged as authority for granting divorces. It is said that the most usual way in some States, and in others, the only way to obtain divorces is by legislative enactment, your Committee admit the fact stated, but deny the authority deduced from it. The Councils

and Legislatures of the American colonies, whilst under the dominion of Great Britain, were like the British Parliament, omnipotent so far as their legislation regulated or related to their municipal affairs, subject only to the ratification of the King and his Council. They exercised a judicial as well as a legislative authority, and now in most, if not in all, of the New England States Legislature is known both in the Statute book, and in common parlance as the "*general court*." At the formation of the constitution, each State surrendered some of its power, as for example the right to pass *ex post facto* laws, and laws impairing the obligation of contracts, but each retained all the attributes of sovereignty and omnipotence that were not expressly surrendered or vested in the General Government. Among the rights retained by the States was the power to establish such judicial tribunals as might be deemed necessary, to invest in them their jurisdiction and to regulate the internal policy of the State generally. Each State might confer jurisdiction of divorces and alimony upon such courts or persons as might be thought proper. In Massachusetts it is by the Constitution conferred upon the Government and Council, in some States upon the courts of chancery, and in others cognizance of them is retained by the legislature, but not until there has been a judicial investigation, as your Committee apprehends.

Fourthly. The petitioners have not brought themselves within the jurisdiction of any Territorial tribunal. We are aware that there is a very great conflict in the law in relation to this subject of jurisdiction, but so far as the cases of the petitioners are concerned there can be no doubt. The English courts have invariably held that the *lex loci contractus* prevailed in relation to marriage, and that a divorce could only be obtained from their courts and for the causes allowable by their laws. The decisions are numerous that an English marriage cannot be dissolved by a foreign Court. Ferguson on Marr. and Div. 183, 290. See cases cited in note to Story's conflict of laws, 180. In several of the United States, it has been decided that the *lex domicilii* governs, and that divorces can be obtained in foreign countries and States. But it seems to be an inflexible rule, that the parties must be residing in such foreign country with what the law terms the *animus remanendi*. The case of Jackson vs. Jackson, 1 Johns' Rep. 424, seems to be conclusive on this point.—There the marriage was solemnized in Conn.; the husband went to Vt. and obtained a divorce against his wife, who never resided there; it was held that the divorce was void, as a fraud upon the law of Conn. where the parties were married. It was further held, that there could be no jurisdiction over the case in Vt., both parties not being within the State.

It is well settled law that where a party obtains a divorce in a State to which he had removed for the express purpose of obtaining it, it is void. Jackson vs. Jackson, 1 Johns' Rep. 424; Hanover vs. Turner, 14 Mass. Rep. 227. So, also, a divorce was held to be null and void, obtained in another State by the husband when the wife resided out

of the State, and had no notice of the proceedings. *Bardon vs. Fitch*, 15 Johns' Rep. 121.

Now, admit that the Legislature can in some cases rightfully dissolve a marriage, and apply those principles of law to the cases before us, admit the facts alleged in the petitions are true and have been satisfactorily proved, could the petitioners then obtain divorces? Not one of them has shown notice to the party complained of, actual or constructive, not one has ever alleged that he is a citizen of the Territory, and all have shown that their marriages were solemnized in foreign States, and that all the delinquents but one are non-residents. No one can doubt but that a divorce obtained under such circumstances from either a Court or a Legislature, would be wholly nugatory and void. It would be a violation of the first principles of justice as well as law.

For the sake of showing the impropriety and futility of granting these divorces even if we had the power, your committee have admitted what does not really exist. No facts are in evidence before the committee or the House, nothing, but a bare statement purporting to come from one of the parties without even the sanction of a judicial oath, and for the want of evidence, if for no other reason, they ought not to be granted.

Fifthly. But there are, if possible, more weighty objections still—objections founded upon the utter inexpediency and futility of legislative action to dissolve the marriage tie. Every one who reflects for a moment, must concede that this is the most inappropriate place conceivable to bestow that care and attention which the importance of the subject demands. The functions of this body are purely legislative and not judicial. It is convened for the purpose of declaring what the law shall be and not whether it has been violated. It is limited in its session to a time, scarcely long enough for the proper discharge of our legitimate legislative duties. It is composed of two bodies and 39 members; none of whom profess to be able to examine the multifarious facts and legal questions which necessarily grow out of applications for divorce. We have none of the appliances and instruments of Courts of Justice to enable us to ascertain in a proper manner the true state of the facts—the truth or falsity of the statements of either party—or to settle questions of conflicting and contradictory evidence. We cannot know, nor inform ourselves of the respective relations, rights and duties of the parties—what was the condition of them when they became united—what property either of them then possessed—what settlements, if any, were made or what contracts were entered into in consideration of marriage.

We cannot know or ascertain their present condition—what amount of property either party may be possessed of—what is the number and what the wants of their children, nor can we determine in what manner the children should be disposed of and provided for, or what provision in the nature of alimony ought to be made for the wife or which

of the parties is the suitable person to have the custody of the children, and the care of their education.

Such are some of the questions which must be decided and settled in cases of divorce. Such are some of the relations, rights and duties which we are asked to investigate and dispose of—questions which we are utterly incapacitated by our constitutional organization, properly to scrutinize and understand.

With no light but the partial, highly-colored and perhaps unfounded complaints of one of the parties, and no guide but *ex parte* testimony obtained perchance by fraud or corrupted by bribes, shall we assume upon ourselves to put an end to the most solemn of all earthly compacts—that which lies as the very foundation of all order and of all civilized institutions?

Shall we thus blindly and brutally sever the tenderest of all ties—break up and destroy whole families—turn the tender wife from the protection of him in whom she had garnered up all her hopes of happiness, and from whom she has an undoubted right to claim protection, support and a home? Shall we unhouse the offspring of every discontented parent and turn them upon the charity of the world, to grow up in ignorance and vice? Every friend of humanity answers no. Yet we hazard nothing in saying that such consequences may have ensued in every divorce heretofore granted by this body, and that such consequences may always ensue upon a legislative divorce.

Your committee think they hazard nothing in expressing the opinion that in nineteen out of twenty of the applications made for divorces, the whole difficulty has arisen from some trivial misunderstanding between the parties—some difference of tastes—some incompatibility of temper or some frivolous quarrel originating in passion and kept alive by stubbornness. The remedy of such should be sought only in the reformation of their own manners and conduct. Let them pursue the path of duty, exercising that meekness, patience and kindness, which our holy religion inculcates, and which they have at the altar solemnly pledged to each other, and we apprehend that they will never have occasion to apply to any tribunal for a divorce.

Your committee are far from believing that there are no good grounds for a divorce from the bonds of matrimony. We believe there are, and do not question but that a judicial tribunal would decree one to some of the applicants upon the proper testimony being made.—But we do believe that they should be granted only for the most substantial reasons; for we believe that nothing tends so strongly to corrupt the public morals—to undermine parental authority and to debase and vitiate conjugal affection as a loose system of granting divorces. Passion, interest and caprice will suggest daily motives for a dissolution of marriage, and the most tender and sacred of all human institutions will be degraded into a transient connexion of profit and pleasure. The enjoyment and transmission of property will be rendered insecure and in time the whole social and moral fabric of society subverted. We believe that christianity and the best interests of so-

ciety require that the connexion between husband and wife should be considered, as far as possible, indissoluble. We believe that where there are substantial causes for a divorce, it should be sought only from a judicial tribunal, where the parties interested can have an opportunity of appearing and being heard, and that it should then be granted only after the severest investigation and scrutiny.

We believe it particularly important that a correct tone of public sentiment should prevail upon this subject. As yet, with us precedent has not acquired the force of law. Society and law are somewhat in a chaotic state. They will soon take form, and their comeliness in no inconsiderable measure will depend upon the action of this Legislature. If it be once understood that the Legislature of this Territory after mature consideration has concluded that it is both legal and expedient to annul marriage contracts by legislation, the consequences will be baneful to the political as well as the social and moral condition of the people. Our legislature will become a kind of marital pool of Siloam where all the ills of matrimony will be washed away, where the lame and halt from all the States will seek relief from those bonds which they have voluntarily contracted, whenever that relief would be denied them at home, and thus not only a fraud be practiced and encouraged upon the other party and the laws of that State, but the time of the Legislature unprofitably squandered. Therefore,

Resolved, That the Legislative Assembly of this Territory is not invested with the power to grant divorces from the bonds of matrimony.

Resolved, That in the opinion of this House, admitting such power to exist, any special legislative action upon the subject of divorces would be highly inexpedient and improper.

Resolved, That the petitioners have leave to withdraw their petitions.

Mr. Hebard from the Committee on Enrolled Bills reported "an act to legalize the acts of Isaac Parsons, Coroner of Louisa county, and also an acting Justice of the peace of Jefferson Township in said county," as correctly enrolled.

Mr. Thompson from the Committee on the Judiciary, who were

instructed to enquire into the Expediency of so amending the present law of this Territory as to limit and confine Jurisdiction of Justices of the peace, and constables to the respective Townships in which they were or may hereafter be elected, made the following report.

By the sixteenth section of the first article of "an act to provide for the election of Justices of the Peace, to prescribe their powers and duties and to regulate their proceedings," approved Feb. 9th 1843, it is declared that, "the jurisdiction of Justices of the peace shall be co-extensive with their respective counties." And by the eighteenth section of the second article of the same Act it is declared that, "the authority of constables to serve process issued by Justices of the Peace, shall be co-extensive with the county in which they are elected." To these provisions there is no restriction, in the territorial extent of their jurisdiction, whatever. So whenever a Justice of the Peace gets an action brought before him, his jurisdiction is immediately extended to the county; and having a right to send his process into any part of the County, the Constable (or any Constable of the same County) has a right, and is compelled to go there and serve it.

It is true, that by the thirty first section of the first Article, it is directed that actions cognizable before a Justice of the Peace, instituted by *summons* or *warrant*, shall be brought before some Justice of the Township either, first—wherein the Defendant resides; or second—wherein the Plaintiff resides, or third—wherein the Defendant may be found. But this amounts to nothing more, when taken in connection with the former provisions, than a direction, that actions instituted in a certain manner, shall be brought, or located, in a certain specified part of the County; without any limitation or restriction of the jurisdiction previously granted.

If the direction contained in the thirty-first section, had not been given, it is plain that a creditor would have been permitted to sue his Debtor before any Justice in the County. It is equally plain that the places where the Creditor would most naturally and probably bring his suit, are the same specified in this direction, admitting this direction never to have been given. Indeed it is hard to conceive motives to induce a creditor, actuated by a laudable zeal to secure and facilitate the collection of his debts, to sue his debtor in any other than some of the places specified. The law, then in effect, remains precisely as the sixteenth section left it—extending the jurisdiction of Justices of the Peace and Constables virtually to the entire County.

Your Committee are of opinion therefore, that the thirty first section of the first Article, containing said direction ought to be repealed and assign this additional reason. The proceeding direction applies to actions instituted by Warrant as well as those by summons. Now it is evident that while this restriction to the three particular places specified, leaves the creditor free to institute his suit by summons in the places most natural and probable, it precludes him from instituting an action by Warrant in any other than the places specified.

And it is equally evident that circumstances might, and do frequent-

ly occur, rendering it absolutely necessary that a warrant should be issued by a Justice of the Peace, and served by a Constable on the debtor without reference to his residing in the same Township with the Plaintiff or Defendant, or where the Defendant might chance to be found.

But, while your Committee are of opinion that the jurisdiction of Justices of the Peace and Constables in all actions instituted by warrants should extend to the entire County, they are equally of opinion that in all actions instituted by summons, their jurisdiction ought to be restricted to their Townships or precincts.

Your Committee are aware that there are objections made to this, by those who have large amounts of Debts standing out, and sometimes by incumbents of these offices who reside in the principal Towns and villages of our Territory. This is very natural. The objection of the former assumes that it is extremely hard for them, after having been kind enough to trust a man, to be necessitated to go to his own township to institute a suit against him. This is answered, first, by the fact that men in business rarely trust without first having ascertained whether they can collect without suing, and generally whether they can or not, they sell the accommodation at an allowance sufficient to indemnify them for collecting, and

Secondly, by the fact that so far from its being a hardship to the creditor, it is conceived to be to his real interest and advantage. The grand object of suing, is to facilitate and secure the payment of debts. It appears to your committee quite obvious, that a debtor sued in his own Township—in the immediate vicinity of his neighbors and friends, would be much more likely to secure the debt by taking the stay of execution or otherwise, than if sued in some other Township, remote from his friends and the means of security.

And a Judgement procured in the Township where the debtor resides, would be more promptly and efficiently executed than one obtained elsewhere; because, the officers charged with the execution, are necessarily more cognizant with the pecuniary circumstances of the debtor, and could watch for and obtain the means of satisfying it with greater certainty, than those of other Townships and other parts of the County. These considerations we think at least neutralize the objection.

The objections made by incumbents of office proceed entirely from selfishness without even the poor semblance of justice. We shall therefore not attempt an answer.

But, the principal reason that your Committee urge in favor of the proposed restriction, is, that any greater extension of Jurisdiction operates as a peculiar and unnecessary oppression to the unfortunate debtor.

It is true that this class of individuals is more numerous than that of creditors. Their rights are as dear to them as are those of the creditors to him—and they are as much to be shielded from oppression, as the creditor himself.

In a majority of cases, individuals permit themselves to be sued for what they owe, only from misfortune and necessity. And in most cases when individuals have been sued in other townships than the one in which they reside, the costs have been accumulated to double the amount of the debt sued for, and to more than quadruple their amount had the suit been instituted in the Township where the debtor resided. And this from necessity. For an officer who is not bound to the debtor by any of the ties that bind one resident of a Township to another—One neighbor to another, will seldom take much pains to put it in the power of the debtor to come forward without process, and pay the debt or confess judgement and save costs.

They will much more seldom remit any costs that may have accrued, which is frequently done in cases of great hardship brought in the debtor's Township, both by officers and witnesses, and with but very little hardship or inconvenience to themselves. But when officers have to travel all over the county in order to serve process; and when witnesses have to be dragged from one side of the county to the other, they must, they will be paid.

Your Committee think, that all costs unnecessarily accumulated and expended, are that much clear loss to the community.

Therefore they are of opinion, that the law, as it now stands, is unjust to the creditor, oppressive to the debtor, and contrary to good policy;—it should be altered, so as to confine the jurisdiction of Justices of the Peace and Constables, in all actions commenced by summons only, to their respective Township, and to extend their jurisdiction in all actions commenced by warrants to the entire county; and for that purpose beg leave to report the following entitled bill:

No. 19, H. R. File, "A Bill to confine the jurisdiction of Justices of the Peace and Constables, in certain cases, to their own Townships, and amendatory of an act entitled An Act to provide for the election of Justices of the Peace, to prescribe their powers and duties, and to regulate their proceedings," approved Feb. 9th, 1843.

A Bill to amend an act entitled An Act defining the powers and duties of the Supreme Court.

Mr. Brophy, from the Committee on Incorporations, to whom was referred the petition of citizens of Scott county, praying an amendment

of the Charter of the Scott County Hydraulic Company, made a report adverse to the prayer of said petitioners, which was read as follows:

Your committee find that during the last session of the Legislature a law was passed, approved 24th January 1843, by which Antoine Le Clair, George L. Davenport, and others associated with them, were created a body corporate and politic by the name and style of the Scott Co. Hydraulic Company. The object of this incorporation as appears from an inspection of the act itself, is professedly to create near the town of Davenport, in Scott County, a water power sufficient for milling and manufacturing purposes. The Law gives to the corporation the privilege of taking the waters of the Mississippi from some point on the Upper or Rock Island Rapids, in said County, in such quantity as the company shall deem meet. And convey them to, or near Davenport, and there to erect mills, factories, &c. The privileges thereby granted, are in terms exclusive. That the company shall have power to take from the Mississippi River, sufficient water for the purpose &c. The company is the sole and exclusive Judge as to the amount of water necessary for their purpose &c. They may judge, that all the surplus water of the Mississippi, over and above what may be necessary for the purpose of navigation will only be sufficient. It must follow then as a matter of course, that if any other company or individual had the common right of using the water at the same time and point, the privileges hereby granted would be worthless, because, that other company or individuals might deem the whole surplus water only sufficient for their or his purpose. Hence from the necessity of the case, as well as from the terms of the grant, the privileges thereby vested in this corporation are to the exclusion of the rights and privileges of all and every other person. The rights and privileges thus conferred are made private property, in other words, the company shall have power to sell, lease, rent, or otherwise dispose of the water power precisely as individuals could, or might dispose of their private property. The company may also purchase and hold real estate to any amount deemed by the company necessary to the successful prosecution of their enterprise. The whole subject is left entirely and exclusively at the discretion of the corporation, with the single exception of the amount of the capital stock being limited. The annual profits may indeed exceed that amount. Yet the only power retained by the Legislature over this corporate body, is to alter or repeal the charter at pleasure. This power and control, the bill under consideration proposes to take away, or abrogate. In other words, to take away from the Legislature all power and control over this institution the moment ten thousand dollars are subscribed and paid in, upon the performance of that condition within the time prescribed, the corporate body is immediately and as completely placed beyond Legislative control as if existing in some foreign nation. It is worthy of serious consideration whether Institutions of this character should at any time be tolerated in Governments instituted like ours, but the question expands into almost in-

conceivable magnitude, when it is proposed to cut loose such an institution from all Legislative supervision. The theory of corporations in monarchical governments is, that a portion of the rights, prerogatives and privileges of the crown are vested in an association of individuals for certain purposes. Hence the subject of Monarchs can with perfect propriety advocate the doctrines of incorporations, because the rights accumulated in the crown are distributed among the people. Every philanthropist should rejoice when rights and prerogatives are wrested from the Monarch and given to the subject. The charter of King John, more generally known as the Magna Charta is of this character. The Barons of England wrested that great charter of human liberty from the hands of that weak and vacillating monarch at the point of the sword. And even Americans look upon that act as one of the most glorious achievements in the annals of English History. Why do we look upon that charter with so much admiration. Surely, not because it confers peculiar privileges upon the mass of the people; for history informs us that the Barons were the immediate gainers by that revolution, whilst the mass of the people were still held in bondage, yet it was a mighty stride in the march of liberty, because it wrested power from the crown, and distributed it among the subjects. So in every other struggle and revolution in England, they have all been favorable to liberty; because they have all tended to secure to the people greater rights and privileges, and consequently more enlarged liberty.

In this country the theory of corporations is entirely different.— Here it is taking the rights, powers and privileges of the people, and vesting them exclusively in one or more individuals. Hence, every incorporation must be to the prejudice of the great mass of the community. The same reasons therefore that would induce an Englishman to advocate corporate institutions, should stimulate every American and particularly every American Legislator, to scrutinize with the utmost care all acts purporting to confer upon companies and associations of individuals, rights and privileges exclusive in their character; if the above principles be correct, what will be their application to the case under consideration. The 8th section of the charter provides that the company shall have power to take from the Mississippi River, "sufficient water for their purpose at such point on the Upper or Rock Island Rapids, in Scott County, as they may deem proper," &c. It is doubtless known to all, that these rapids are about sixteen miles from the head thereof to Davenport. It is at the discretion of this company to take the water out at any point along the rapids; they may determine to take out the water at the head of the Rapids. This company has therefore the exclusive privilege of the use and enjoyment of that immense water power—equal to any in North America. The enquiry naturally arises, what is the consideration of this immense grant. It will be observed that the only consideration is that ten thousand dollars shall be subscribed and paid in. This whole vast power which be-

longs to the mass of the people, is bartered away for the insignificant consideration of having ten thousand dollars paid into the corporation. No obligation rests upon the company to subscribe, or pay another dollar, beyond the sum specified, or to do a single act in furtherance of the ostensible object of the charter. And yet those interested have the assurance to ask this body to place this great interest beyond all Legislative control. It is respectfully asked whether this honorable body is prepared thus to trifle with the rights of their constituents. Are these rights and privileges of so insignificant a consideration that they may be thus thrown away upon an irresponsible and soulless corporation. If so, then indeed was American Liberty, purchased at a price infinitely beyond its worth.

Again this charter provides that the company shall have the power to purchase and hold in their corporate name any grounds for the purpose of carrying out the objects of the incorporation. Suppose the company should conclude to take the water out at the head of the rapid's they may purchase and hold all such lands along the route as they may deem necessary to convey the water to the point of destination. And surely a quarter section running along the route would not be deemed unreasonable. Take that as the standard then, the company may hold along the route sixteen miles, exclusive of the land necessary to their mills &c., about five thousand acres of land. This however is but a moiety of the lands and real estate they may hold. It is respectfully submitted, whether it is either the part of prudence or policy to confer such vast privileges upon a corporation, that corporation too entirely and absolutely beyond the power and control of the Legislature.

There is another view of this subject. From the most authentic information, the Rock Island Rapids can never be improved for purposes of navigation by enlarging or deepening the channel, except at a vast expense. The whole West—and especially Iowa Territory, is deeply interested in the removal of the obstructions to the navigation of the Mississippi River. If these Rapids cannot be made navigable by enlarging the channel, in what manner can the navigation over these Rapids be effected. In no other way than by cutting a canal along the west bank of the river. Now look at the predicament in which the whole community is involved. This corporation for the consideration above stated, have secured the exclusive privilege of constructing a canal along this whole route. They have also, the privilege of purchasing the land along the whole distance. It will, therefore be perceived, that the improvement of the Rapids by canalling around them is impossible, unless the Government complies with the terms of this corporation; and all, because this body had the improvidence to place the whole matter beyond the control of all Legislative action. Taking the most probable view of the whole subject, it cannot be regarded but with great suspicion.

In conclusion, the minority of your Committee would say, that it cannot recommend the passage of this Bill in any form, or terms in

which it can be proposed. But on the contrary, it would most respectfully recommend that a bill be introduced to repeal the charter absolutely.

If, however, this honorable body should take a different view of the subject, it is still urged, that the control of the Legislature over this subject should not, under any consideration whatever, be relinquished.

The undersigned, member of the Select Committee, to which was referred sundry petitions from the citizens of Dubuque, Delaware, and Clayton counties, in relation to the Miners' Bank of Dubuque, would respectfully report,

That he has carefully examined said petitions, and find 559 names attached thereto, out of which number, there are some not naturalized, some under age, some living in the State of Illinois, some in Jackson, and some in Jones counties; many of the names on said petitions are entirely unknown to your Committee; and it is impossible for him to decide, whether they reside in one of the above named counties, or in some foreign State or Territory.

Your Committee would state, that according to the returns of last

election, the representative district, (which he, in part, has the honor to represent,) gave 835 votes; and while your Committee is at all times willing to acknowledge the right of the people to instruct their representative, and the bounden duty of the representative to obey, he would call your attention to the following petitions:

*To the Honorable the Legislative Assembly of the Territory of Iowa,
December, 1843.*

Your petitioners would respectfully represent, That if the Miners' Bank of Dubuque shall resume, and pay all her liabilities in specie, as they may be presented, and provide ample means for doing a perfectly safe business, it will tend greatly to the prosperity of the Territory.

They pray, that the Bank may be required to resume specie payment upon all her liabilities, in a limited time; and also, to provide ample means to do a business perfectly safe to the community, to be ascertained in such way as you, in your wisdom, may provide; or, in default thereof, her Charter may be declared forfeited.

Your Committee would further state, that he feels himself instructed by a large and respectable portion of the citizens of his district to support any measure which will compel the Miners' Bank to resume specie payment in a given number of days, and at the same time to place her in such a condition that she will be compelled to do a perfectly fair and safe business for the people; and at the same time, your Committee feels confident that it is impossible for the Legislature to place this Bank in any condition whatever, where the people's rights will be secured, only by compelling her to mortgage real estate to the full amount of all that she may, or has by law, a right to issue, or otherwise to repeal the Charter.

Which was read a first time.

Mr. Wilson, from the Committee to which was referred the petition of sundry ministers and citizens, praying the passage of a law, granting licensed Ministers the privilege of passing all Ferries and Bridges, free of toll, reported, that they had carefully considered the same, and are fully aware that the class of men for whom this privilege is sought are worthy, intelligent, and eminently useful members of the body politic, that liberty only is safe in that country where the altars of religion are watched and guarded by holy men. Your Committee are also of opinion, that ministers of the gospel among us, though the most worthy, receive the least remuneration for their labor and sacrifices.

But while your Committee hold these opinions, they conceive it would be impolitic to grant the prayer of the petitioners, and would most respectfully offer the following reasons for not granting the said prayer.

First: the wide door it would open for fraud and imposition—for nothing more would be necessary for any person to procure a passage, toll free, over rivers or bridges, than to forge a license, if he see proper so to do, and palm himself off as a preacher of the gospel.

Second: Useful and pious ministers, where they are known, will rarely be charged toll or ferriage; and where they are not known, their respective denominations generally provide that the expense is not burdensome to them.

In view of these considerations, your Committee recommend that the petitioners have leave to withdraw their petition, and that the Committee be discharged from any further consideration of the subject.

The report of the Committee was concurred in.

Mr. Baker, from the Select Committee, to which was referred No. 46, H. R. File, reported a substitute therefor, entitled

No. 30, H. R. File, "A Bill to enable settlers on the Public Lands to recover value for their improvements."

Mr. Nowlin being in the Chair, officiating as Speaker, decided that inasmuch as the bill had gone to the Council, it was not within the control of the House; therefore the motion was out of order.

From which decision Mr. Grimes took an appeal; and, after debate, The question was put, Shall the decision of the Chair stand as the judgment of the House?

And passed in the affirmative. Yeas 16, Nays 7.

The Yeas and Nays being demanded by two members,

Those who voted in the affirmative are,

Messrs. Baker, Brierly, Borland, Brophy, Culbertson, Foley, Hackleman, Johnson, McCleary, Roberts, Rogers, Smyth, Thompson, Walworth, Wright, and Carleton, (Speaker.)

The Committee on Territorial Affairs, to whom was referred the petition of Malcolm Murray, late of the firm of Murray and Sanxay, praying for interest upon Territorial scrip, report that they have investigated the matter and find that during the years of '39 and '40, the twenty thousand dollars, appropriated by Congress, for the erection of the Capitol at Iowa City, together with all the monies received from the sales of the said years, were expended; they further find that during the session of the Legislature of '40 and '41 a loan was authorized to be effected by the Territorial Agent, not exceeding in amount the sum of twenty thousand dollars, for the further prosecution of the work—that the Territorial Agent failing to affect a loan to the full amount authorized by the Legislature, resorted to the expedient of issuing Territorial Scrip—that the firm of Murray and Sanxay, anxious to render the object of the Territorial Agent effective, and believing that the Legislature would throw no impediment in the way of the speedy redemption of the Scrip, readily received the same, in all their business transactions, the same as cash. In this, however, they were disappointed, for the Legislature, at the session of '41 and '42, repealed the law authorizing the loan, and directed the subsequent sale of lots to be made for work and labor on the Capitol. Through these means the ability of the Agent to redeem the scrip was entirely destroyed, and the firm of Murray and Sanxay was left, according to the Report of the Territorial Agent, with a large amount in their hands. By that Report it appears that the average amount in their possession during the year of '42 was about two thousand dollars, and that for the year '43, about one thousand five hundred dollars.

Your Committee would further state, that there is still the sum of thirteen hundred and sixty five dollars unredeemed, and for which the Territorial Agent gave the said Murray and Sanxay a certificate of indebtedness.

Your Committee, in view of all the circumstances, think the prayer of the petition ought to be granted, and have therefore directed me to report the following entitled bill.

The Judiciary Committee, to whom was referred the petition of Thomas Hare, praying the Legislature to enact a law, legalizing his marriage with Eliza Jane Willis, which was solemnized on the 8th day of October, 1843, by an ordained minister of the gospel, who had not produced to the Clerk of the District Court credentials of his having been a regularly ordained minister, nor received a license to solemnize marriages within this Territory as required by law, have had the same under consideration, and have directed me to report, That such an act of the Legislature is unnecessary; that according to the petitioner's representation, the minister was, in all other respects than having obtained a license therefor, qualified to solemnize marriages.

In the absence of all other objections, said marriage is strictly legal and obligatory on the parties and the issue thereof. The objection goes only to the conduct of the minister, who is prohibited under a penalty, from solemnizing marriages without first having obtained such license. If he has failed to comply with the law, he alone is guilty, not the parties or their offspring.

Resolved, That the petitioner have leave to withdraw his petition.

The report was concurred in.

Mr. Johnson, from the Committee on Public Buildings, submitted the following report:

The Committee on Public Buildings, to whom was referred the report of the Territorial Agent, beg leave, most respectfully, to report—

That your Committee are of opinion, that in order to pay the debt due by the Territory to the Miners' Bank of Dubuque, it would be expedient to authorize the Territorial Agent, to sell a sufficient number of the unsold lots to pay said debt, at two-thirds of the minimum price

of said lots, or to offer to said Bank any of said unsold lots that any authorized agent might select on the same terms: provided said agent should select a sufficient number of lots to pay the whole debt.

Your Committee would further recommend that the proceeds of the sales of those lots that have been sold for labor and materials for the Capitol, be so applied as to finish that portion of the work which will suffer most injury by remaining unfinished; and in view of the present embarrassed condition of the finances of the Territory, believing that little or no progress can be made in the public buildings during the coming season, your Committee would most respectfully recommend a reduction of the salary of the Territorial Agent, and therefore beg leave to report the following entitled bill. The petitions of sundry citizens of New London township in Henry county, asking the Legislative Assembly to take into consideration, the unnecessary width of the public Roads and Highways, asking that they may be reduced sixty feet.

Reported, that upon an examination of an act, for opening and regulating Roads and Highways, approved Feb. 1st, 1843,

They find the first section provides that, all county roads shall be sixty feet in width, and by the presentation of a petition to the County Commissioners, they may determine on a less number of feet.

Mr. Rogers, from the Committee on Territorial Affairs, submitted the following report.

The Committee on Territorial Affairs, to whom was referred a resolution, instructing them to inquire into the expediency of memorializing Congress, in relation to an amendment of the act of Congress, passed September 4th, 1841, providing for a distribution of the proceeds of the sales of the public lands, and for granting pre-emption rights to settlers thereon, so that persons settling on the public lands

before the survey of the same, may be entitled to all the rights and privileges of said law—have had the subject under consideration, and ask leave to report—

That, by the provisions of said act of Congress, a settler upon the public lands, prior to their survey, cannot be entitled to a pre-emption right thereto. In consequence of which, a settler on such lands is liable to lose them by a subsequent intrusion of another person, after the first occupant has greatly increased their value by cultivation and improvement. That by the removal of the Sac and Fox Indians, in May last, from lands purchased of them by the Government of the United States in the preceding year, a large addition of unoccupied country within the limits of the Territorial Government, offered to the emigrant from foreign shores and from neighboring States, a very desirable field for agricultural industry, and for securing to himself and family subsistence and domestic comfort. The country thus opened to occupancy, comprises about 6,000,000 acres, and a large portion of it was immediately occupied by an industrious and hardy population, your Committee have not the means of stating accurately their numbers. It is supposed that they may amount to some 20,000. They went on to the lands prior to their survey, and expended their labor and money in making improvements. Your Committee think that justice to these individuals demands, that they should be entitled to pre-emption rights, and that the peace and prosperity of the Territory would be greatly promoted by extending to them the means now enjoyed of acquiring title to surveyed lands.

They therefore respectfully recommend the adoption of the following entitled memorial.

No. 84, H. R. File, "A Memorial to Congress, relative to granting the right of pre-emption to unsurveyed lands.

Mr. Baker from the Select Committee to whom was referred,

Mr. Robb, from the Committee on Finance, submitted a report in relation to the Finances of the Territory, as follows.

The Committee of Finance, to whom was referred a resolution directing said Committee to enquire into, and report the amount of indebtedness of this Territory, beg leave to report.

That your Committee have not been able to ascertain to their own satisfaction, the precise amount of indebtedness of the Territory. We have, however, learned the painful truth, that our Territory is, in proportion to her means of payment, largely indebted. Your Committee are of the opinion that the first organization of a Territorial Treasury, and the appointment of a Territorial Auditor, was an unfortunate step in our early history, and has, together with the legislation that accompanied that act, been the fruitful mother of the greater part of our Territorial debt. We had an Auditor and a Treasurer, and we must of necessity give them employment, at least a sufficient quantity of it to frame an excuse for giving them a salary; and to pay that salary, a Territorial tax must be laid; and the door for taxation being once open, former legislatures, whether wisely or not your Committee will not determine, ordained that the costs of criminal prosecutions, in many cases where the United States failed, should be taxed to the Territory; this was, we believe, repealed one or two years ago; there is, however, a provision still in existence, by which the Terri-

tory may be taxed with the costs of prosecution when a criminal is convicted. This has been a fruitful source of debt. At the end of every criminal prosecution, it is very common for some attorney of the county where the prosecution was had, to move the court that the costs be taxed to the Territory, which is usually done; so that there is a reasonable prospect of Iowa following the example of the States in the way of contracting debts; and is about to commence the world with the equivocal blessing of being largely in debt. Your Committee present the following as a part only, of the debts, as there are some debts owed by the Territory, that your Committee could only learn that they were *debts*, without being able to learn the exact amount.

Amount as reported by the Auditor	\$13,154 25
Debt to Dubuque Bank	6,000 00
Debt to Malcolm Murray	1,445 00
Debt for the penitentiary	3,187 62
Balance due Hughes & Williams for printing	2,830 00
Balance due William Crum for printing	924 50
Balance due Wilson & Keesecker	750 00

Making a grand total of \$28,291 37

There are other items and some of them large, that your Committee cannot give the amount of precisely, and therefore will not attempt anything further than to state the names of the creditors as far as they have come to the knowledge of your Committee. John B. Russell is a creditor of the Territory, for printing done for the last Legislature, but to what amount your Committee can only give report, which is said to be about \$750; also a debt of a small amount, say \$200, to Alfred Sanders of Davenport. Now to meet this debt, there is but \$3,773 90 which is due to the Territorial Treasury from the several counties of this Territory, in relation to which, the Auditor holds the following language: "the undersigned feels well convinced that but little, if any of it will ever be made available to the Territory, unless some new mode should be adopted different from the present system of collecting and paying over the Territorial Revenue."

Your Committee would respectfully recommend that some provision be made in the present revenue bill for the speedy and prompt collection of the out-standing Territorial Revenue; and that a special Territorial tax be laid for the liquidation of the present Territorial debt. And your Committee would further suggest the propriety of abolishing all Territorial offices except those provided and paid for by the Government of the United States, at least after the present debt shall have been paid.

Also, the following entitled bill:

No. 111, H. R. File, "A Bill to provide for the payment of costs in certain cases."

Which was read as follows:

The Select Committee to which was referred the Memorial of George Andrews, ask leave to submit the following report:

Your Committee are satisfied from an examination of the case that the memorialist purchased the lots described in his memorial, under

an impression that the mineral spring, adjacent to said lots was public property, and that this impression was made on his mind, by the map or plat of Iowa City, exhibited in the office of the Territorial Agent, on which, said spring was marked as a reserve. Your Committee are also satisfied from an examination of other persons who resided in Iowa City at the date of the sale, that the opinion was general at that time that said spring was public property, and that this opinion was created by the map or plat above referred to. It seems however, that another and older plat was on record, which was not exhibited in the office, and which represented said spring as it really is, private property. Your Committee are satisfied that owing to this impression, the memorialist was induced to give more for said lots than their appraised value, and that his prayer for relief is reasonable and ought to be granted; and ask leave to report the following entitled bill.

No. 132, H. R. File, "A Bill to perfect the collection of taxes in Louisa county."

Which was read a first time.

On motion of Mr. McCleary,

The 42d rule was suspended, and the bill read a second time, and ordered to be engrossed and read a third time to-morrow.

Mr. Brierly from the Select Committee, to which the subject was referred, reported without amendment.

No. 115, H. R. file, "A Bill to organize the county of Jasper," accompanied by the following report.

Which was read.

The Committee, to whom was referred the petitions of the citizens of the county of Lee, asking for a division of said county, together with the remonstrance against the same, beg leave to report.

That they have had the same under consideration, and after carefully comparing and examining the same, find that there are twelve hundred and fifty for a division, and one thousand and eighty-one remonstrating against it—which leaves a majority, taking them all as they appear on their face, of a hundred and sixty-nine for a division of said county.

There are many names, no doubt, on both the petitions and remonstrances, which are spurious, and are unknown to your Committee; but your Committee feel justified in stating, that they are well acquainted with a large majority of all the person's names that appear on the petitions for a division; whilst a large majority on the remonstrance are unknown to your Committee. Your Committee, however, have taken the pains for the purpose of placing this matter fully and fairly before the Legislature, in order to ascertain what number of names appear on both petitions; they have not been able to find but one hundred, sixty of which have since signed the petitions for division, and request their names to be taken off the remonstrance.

Your Committee will state, in relation to the persons which have signed both the petition and remonstrance, that the remonstrance appears to have circulated about the first of January, and that they were influenced to sign the remonstrance through misrepresentation; but soon as the matter was understood, they signed the petition for a division since they signed the remonstrance against it. The petition which

more person's names appear on, is dated the twenty-fourth day of January. So it appears evident that those remonstrances were brought to the Legislature before the petition was circulated. Your Committee have received instructions from these persons, in relation to their wishes on this subject. We are informed, directly by them, that they are in favor of a division, and they wish their names taken from the remonstrance and placed on the petitions for division. Therefore, your Committee feel themselves, in duty, bound to take the last act of those persons; in doing this, it swells the majority for a division to two hundred and nine. There can be no doubt but what there are some on both which are spurious. But any attempts to strike off one and not the other, would be unjust. It appears evident that the petitions and remonstrances are about equal in point of illegal signers; consequently, the attempt to strike off those names which might be thought spurious, would not change the majority in the slightest degree; there are some aliens on both of them, which your Committee have seen fit to leave on, inasmuch as many of them are among the most worthy portion of the citizens of that county; and many have filed their intentions to become naturalized. In fact, your Committee have been unable, as yet to find any law which would debar them of the right of petition. Upon examination of the Assessment Roll which was brought, your Committee are constrained to say, though with reluctance, that the Assessor of that county must have been negligent and careless as to the duties involved upon him, from this fact, the chairman of your Committee lives in the same neighborhood that the Assessor does, and he has been able to find that there are a great many persons in that immediate neighborhood whose names do not appear on that roll, who are lawful voters; it also appears that there have been many names inserted in the Roll since the assessment took place. All the names that appear to have been inserted as above, are signed with blue ink, and in a different hand wright. One remarkable feature in this Roll is, that all these townships which have remonstrated against division, are filled in as above stated, and all that went in favor of division are not filled in at all. They have also found, upon a careful examination, that, taking the roll as it stands, and make it a criterion to be governed by, there is still a majority of one hundred in favor of a division, and a clear majority, including those filled in with blue ink. It is well known that there is a great effort making to defeat the division of that county, and that these persons are endeavoring to throw every obstacle in the way for the purpose of thwarting the designs of the petitioners.

Your Committee regret that this question has been brought before the Legislature this present session, and did vain hope that all petitions would be withheld; but under the circumstances which are now before your Committee, they feel, in duty, bound to use all honorable means to divide the county; and from the facts that are now before us, it is evident that that county will never be in peace until it does take place; and if it should fail at this session, it is evident the matter will be agitated again, and will and must take place in the end.

Mr. Walworth, from the Committee on Engrossed Bills, reported, that they had examined Nos. 117, 121, 122, 123, 124, and 125, and found the same correctly engrossed.

Mr. Walworth, from the Committee on Engrossed Bills, reported Nos. 75, 91, 94, and 132, H. R. File, as correctly engrossed.

Mr. Hackleman, from the minority of the Select Committee, to whom was referred the petition and remonstrance of the citizens of Lee county, relative to the division of said county, made a report, which was read as follows:

The minority of the Committee, to whom was referred the petitions and remonstrances of the citizens of Lee county, in relation to the division of said county, beg leave to report:

That they, in connection with the majority of the Committee, have had the same under consideration, and after a careful and laborious examination of the same, with all the lights that could be had on the subject, have come to conclusions altogether different from those of the majority report.

We agree with the majority that the whole number of names appearing on the petitions for division of said county, is twelve hundred and fifty; but none of these were sworn to as legal voters. It also appeared by the affidavit of Gen. Brown, attached to one of the remonstrances, that fifty-six of those who had signed this petition for division, afterwards signed the *remonstrance against division*, and authorized their names to be taken from said petition; from the affidavit of Joseph Morrison attached to another of these remonstrances, it appeared that *twenty-two other* persons who had signed the *petition for division*, signed the remonstrance against a division, and authorized *their* names to be taken from the petition for division; from the affidavit of Thomas Fitzpatrick, it appeared that four other persons, who had signed the petition for division, signed the remonstrance against division, and authorized *their* names to be taken from the petition for division. It was agreed to by the parties who appeared before the Committee both for and against division, that there were the names of fifty-eight other persons on the petitions for division, whose names had been *signed twice*, or who *were unnaturalized aliens*, or *illegal* voters from other causes; there were also twenty-eight other names on said petitions for division, which were objected to as not being legal voters; suppose that one-half of these twenty-eight were not legal voters, and the number which should be taken from the petitions for division, would be one hundred and fifty-four—leaving on the petitions for division one thousand and ninety names.

The minority of the Committee do not agree with the majority as to the number of names found on the remonstrances as stated in the majority report; we found the number of names on the remonstrances, as admitted by the opposite party, to be eleven hundred and twelve, while the majority report puts down the number at only one thousand and eighty-one. All those on the remonstrances, except a very small number, about which there appears to be no dispute, were sworn to as legal voters of Lee county, and as having signed said remonstrances after having the contents made known to them. Twenty only of the signers, whose names appear on these remonstrances, were objected to, and only *one* of these was shown to be illegal; although an opportunity was given to those who objected, and they were called upon to show

the fact; but suppose eleven of these twenty were not legal voters, and it leaves on the *remonstrances against a division*, eleven hundred and one names, being a majority of *five* opposed to a division. The majority state in their report, that some seventy persons who signed the remonstrance against division, and who had been induced so to do by misrepresentations, afterwards signed the petitions for division, and requested their names to be taken from the remonstrances, the report further states, that your Committee have received instructions from those persons in relation to their wishes on this subject, and have been directly informed by them that they are in favor of a division of the county of Lee, and wish their names taken from the remonstrances. The undersigned, composing part of your Committee, were present at the investigations and deliberations of this Committee, but neither *saw* nor *heard* any evidence *whatever* to establish the fact, that any *persons whatever* had been induced to sign the remonstrances against division by misrepresentations, or that any persons who had signed said remonstrances had afterwards signed the petitions for division; or that any persons whatever, who had signed said remonstrances, had *authorized* or *requested* their names to be taken therefrom. We have therefore come to the conclusion, that there is a clear majority of the petitioners from Lee county, opposed to a division of said county; and we are strengthened in this conclusion from the fact that the Assessment Roll of said county, properly certified by the Collector, shows less than two thousand taxable polls in the county; besides, it is said there are some hundred or more legal voters who have signed a petition for re-location of the county seat by a vote of the people, whose names do not appear on either the petition for division, or the remonstrance against it. Into this matter we did not think it necessary to examine, as there is a majority opposed to a division without it.

The Assessment Roll, the majority seem to think, looks suspicious, but we could perceive *no grounds* for such suspicions.

But if there were actually a small majority of the people of Lee county in favor of a division, we do not think the Legislature should divide it, as the county is now none too large, and the precedent would be a dangerous one. If that county should be divided, because it may be thought by some there is a mere majority for division, each of the counties formed by this division, may ask next session, by mere majorities, and so, *ad infinitum*, until we have every township in the Territory organized into a county; and all this from the fact of considering the division of a county as a local matter under control of the delegation of any particular county, who may feel themselves instructed by *doubtful* majorities, to go for division in order to gratify contending parties, who wish additional county seats.

The Committee would also recommend the adoption of the following resolution:

Resolved, That the bill to divide the county of Lee be indefinitely postponed.

On motion of Mr. Robb,

Ordered, That said report and resolution do lie upon the table.

Mr. Foley, from the Select Committee appointed for that purpose, reported

The undersigned, one of the Select Committee, to whom was referred the petition of 123 citizens of Linn county, praying that the eighth Electoral District, composed of the counties of Cedar, Jones, and Linn, may be so divided that the counties of Cedar and Jones shall form one Representative District, and the county of Linn shall form the other Representative District, and together shall elect one member to the Council, begs leave to make the following report:

That in his opinion, it is inexpedient to grant the prayer of the petitioners for the following reasons, to wit:

The mutual arrangements heretofore have been such, that each of the counties have had a member of the Council or House resident therein, and that by a division, such would not be the case; but either the counties of Cedar and Jones would have one member to the House and the member to the Council, thus having three-fourths of the representation, although only half the population, and the county of Linn but one-fourth, to which she has submitted for the two last years, or the county of Linn would have the member to the Council and one to the House—thus having three-fourths of the resident representation, and giving the counties of Cedar and Jones but one representative, thus depriving one of the counties of a resident representative—a thing which none of said counties have ever heretofore been without.

The undersigned, therefore, believes that the present arrangement is much better, and more satisfactory, than any change this House could make; and as he did not come here to represent a part of said District, but the whole; and although a resident of Linn county, yet he cannot agree to anything that would deprive the counties of Cedar and Jones each to a member in the Legislative Assembly.

It was also well known that he was personally opposed to a division of the district, but gave them assurances that if a majority would ask for it, he would endeavor to obtain such division, although he believed it would not be to their advantage. No such instructions being given, and the separation being asked for by only a very small portion of the citizens of one of the three counties, he is persuaded that the citizens of the district do not desire such division.

He is also aware, that very many are positively opposed to any interference with our present arrangement.

For these reasons, together with the probability that we may, ere long, become a State, and have a different apportionment, he would respectfully solicit this House not to divide said District.

ROBERT SMYTH.

Mr. Mitchell, from the Select Committee to which was referred No. 145, H. R. File, "A Bill to amend an act entitled an act, concerning Grand and Petit Jurors, approved, Jan. 4th. 1839."

The Committee on Township and County Boundaries, to which was referred the petition of 60 citizens of Dubuque, Delaware, and Jones, praying for the formation of a new county out of said counties, as also the remonstrance of 88 citizens of said counties against the prayer of the petitioners, have directed me to make the following report:

Your Committee having taken the subject under consideration, and bestowed that attention to it which its importance required, have agreed that the prayer of the petitioners ought not to be granted.

Your Committee, while on this subject, avail themselves of this opportunity to state, that it is their firm belief, that where old counties are laid out, their lines well defined and established, Seats of Justice permanently located, lots laid out and sold at a high rate, under the guarantee of public faith, and the proceeds expended for public uses or in the Treasury, that without some well known public grievance, and that generally expressed, those land-marks in our institutions should not be disturbed for trivial or fancied causes; nor can your Committee refrain from expressing it as their firm opinion, that once break in on any of the established counties in this Territory, and the whole will be disturbed from north to south, for the same restless spirit, once fostered and encouraged, will, like a contagion, spread from one end of our Territory to the other.

With these views, your Committee have directed me to offer the following resolution:

Resolved, That it is inexpedient and impolitic to grant the prayer of the petitioners, and they have leave to withdraw the same, and that your Committee ask leave to be discharged from the further consideration of the subject.

Mr. Brophy, from the Committee to whom was referred the petition of sundry citizens of Clinton county, asking a law to be passed modifying or altering the law now in existence for the collection of debts, so as to prevent the collection of all sums under one hundred dollars, have had the same under consideration, and ask leave to make the following report:

Your Committee cheerfully subscribe to the reasoning and principles advanced by your petitioners. After giving the request of your petitioners all the consideration that their experience and time would allow. Though novel it may appear to some of our modern theorists, we sincerely believe, and honestly think, that the request of your petitioners is entitled to the consideration, if not of the present, of some future Legislature.

A portion of your Committee having had some experience since their residence in the western country, and an opportunity of fully testing the binding and irresistible influence of the law of honor, in the total absence of civil law, your Committee are fully persuaded that the law of honor is more cheerfully obeyed and adhered to than all the compulsory acts to make men honest, of ancient or modern times. Consequently, some other than the present mode, ought to be tried to accomplish what it fails to do, of rendering equal justice to all, with the least expense.

In the language of your petitioners, your Committee believe that the less law and litigation, the more prosperous the people would be, and by granting the prayer of your petitioners, it would certainly put an end to those petty law-suits that grow out of vexed and aggravated neighborhood broils, which have the most blighting influence on society, very frequently severing the social compact, and dissolving the holy bands of love, harmony, and neighborly feeling—as necessary to the happiness of the human family, and binding together society, as food is to the preservation of physical life.

Your Committee could refer to many arguments in favor of the petitioners' request, but leave much that might be said, to others more capable and more thoroughly imbued with the spirit of philanthropy.

Suffice it to say, that wherever circumstances have thrown individuals together, and from necessity they had to be governed by the law of honor, and compelled to repose confidence in each other—a reciprocity of interest has been created and fostered, which has ever been attended with the happiest results.

Your Committee are willing to admit, that the doctrine may appear strange to those who never gave it a thought, and its advocates are likely to receive, in reply to their suggestions the appellation of fool or monomaniac, or some such epithet, characteristic of some modern skeptics. But is it not more natural to obey the dictates of honor and honesty, than to obey the crude mandates of an arbitrary code which we too often throw around us as a shield to save us from the censure of an insulted and enraged community?

Your Committee also believe, that if all laws for the collection of debts were entirely dispensed with, it would have a salutary influence on the morals, consequently on the character of the American people.

Your Committee would ask the skeptical to put the question to their own breasts, and give an impartial decision, and say which of the two codes they would rather obey.

The answer is at once in the mouth of every person governed in the least degree by the dictates of a sane conscience.

In the absence of legal authority, your Committee have not a doubt in saying, and do so without fear of successful contradiction, that the law of honor is more binding, and nine cases out of ten will be lived up to where the civil code would be disregarded with impunity. The immoral tendency of our present system of collecting debts under our statutory provisions, is obvious to the most casual observer—the false swearing—the time spent attending courts, and the enormous expense in a pecuniary point of view, that go to support an idle and office-seeking gentry, who are ever ready to bellow loudly for the rights of the dear people, when there are favors to be disposed of, their demagogical ends accomplished, they hypocritically go to work to stir up broils and law-suits, tending to subvert the best interests of a free people—stabbing at the vitals of the social system, and immolating the moral code on the altar of depravity, and embittered and useless litigation. The matter of contention very often being a mere cypher, consequently more disgraceful to our citizens, and an insult to the intelligence of the age;—the suggestion of the petitioners is worthy of a trial, and if it should not work well, we can return to the old and distrusting practice of compulsion.

The policy proposed would have a tendency to elevate the poor and honorable to a level with the wealthy, and if the rich man violated his promises, the poor man would, in public estimation, be his superior, as integrity, not property, would be the test of merit. It would make that moral distinction in community so necessary to the well-being of society—it would destroy and forever put to rest the delusions of the credit system, and restore to the whole American people that happiness so long sought for in vain.

Your Committee, on mature deliberation, would recommend that the request of the petitioners be not granted at this session of the Legislature, thinking it, perhaps, premature; and as it is a matter in which the interests of the whole Territory are involved, they fear the people are not prepared for such a radical change.

Your Committee would recommend this subject to the consideration of the inhabitants of Iowa, and wish it to be considered as among the unfinished business of the House, and deserving the early notice of the next Legislature.

The report was laid on the table.

Ordered, That the House do now adjourn *sine die*.

Whereupon, the Speaker arose and addressed the House as follows:

GENTLEMEN:—The hour of our separation has at length arrived, and with it crowds upon the full heart pleasant memories and joyful anticipations. The scenes through which we have passed, and the prospect that lies before us, receive an additional lustre from the gloom which surrounds the present moment. Standing, as it were, upon a point of time, which connects the cherished associations of our sojourn here, as members of this body, with all the endearments of home and friends, we feel, on the one hand, how deep, how lasting are the friendships we have formed, and on the other, how strongly are entwined our affections around those, whose "eyes will mark our coming, and grow brighter when we come." It is in an hour like this, that man exhibits the noblest feelings of his nature, feelings which constitute the life-blood of the social system, and the poetry of life's eventful history. Yea, gentlemen, it is an hour when heart mingles with heart by sympathy, an hour sacred to friendship, and here upon its altar, at this moment, when we are about to separate, never again, perhaps, to meet this side the grave, I trust we are willing to offer up any bitterness which may have been engendered, during our intercourse with each other. To refuse to do so, aye, even to cherish its memory, when every thing connected with the present is so well calculated to soften and subdue the heart, would be treason against our nature. That heart-burnings should have grown out of the conflict of mind and of interest exhibited upon this floor, it is but natural to expect, but my own feelings at the present assure me, that their memory has faded away with the occasion that gave them birth, and now in calling up the recollections of the past, we remember only as in the reminiscences of childhood, the instances of kindness and of forbearance, which have been manifested the one towards the other.

In the discharge of the arduous duties which have devolved upon me, as Speaker of this House, allow me to say, that I have at all times aimed at right, and I am assured by the flattering testimonial which you have borne to my conduct, that I have to some extent been suc-

cessful. Agitated as the country now is, by party feeling and party excitement, I have endeavored in the position which I have occupied to you, to forget that I stood identified with either one of the great parties of the Union, and so to administer the rules of order as to secure harmony in your deliberations, and despatch in your business. And it affords me pleasure, Gentlemen, to say, that amid all the difficulties which surrounded the station I have occupied, I have experienced nothing at your hands, but kindness and forbearance, and the impression which your conduct has made upon my mind, will never fade, as long as memory continues faithful to the treasures entrusted to her care.

The true character of the work which you have accomplished, can only be known when its effects upon the great interests of our Territory, are fully ascertained. That you have aimed at their advancement, I cannot doubt—that you have been successful, must be determined by coming events. Every year is throwing greater responsibilities, upon those who are called upon to occupy this Hall as Legislators. As our population increases, and as we advance in the improvements of the age, new interests spring into existence, which are to be cherished and protected, jealousies are awakened, which are to be assuaged, and schemes of improvement projected, which are to be encouraged.

Under no circumstances, is the task of a Legislator an easy one, but it is rendered doubly difficult, when he is called upon to meet and adjust the conflicting interests of a country rapidly advancing in population, and in all the elements of wealth and greatness. The present session has fully demonstrated the truth of this statement. Difficult, however, as may have been the scenes through which you have passed,—conflicting as may have been the interests you have been called upon to adjust, you have met them in a becoming spirit, and if the greatest amount of good has not been secured to the greatest number, it has not been for the want of zeal and untiring industry in behalf of those, whose interests you have represented.

But, Gentlemen, I will not detain you longer in this moment of deep anxiety, when the full heart beats high, with the anticipation of mingling again with family and with friends. May your anticipations be realized, and in after years may it be a source of gratification and delight to you, to recur to the scenes in which you have been actors here.

And in the discharge of the last act of duty, by declaring the House adjourned *sine die*, I bid you all an affectionate farewell.

APPENDIX.

TERRITORIAL AGENT'S REPORT.

OFFICE OF TERRITORIAL AGENT,
Iowa City, Dec. 1, 1843. }

To the Honorable,

The Council and House of Representatives:

In obedience to law, I herewith respectfully submit my annual report, as Territorial Agent.

Under the provisions of the act defining the duties of Territorial Agent, approved the 13th day of February, 1843, I laid off the Promenade, the Lumber Yard, and the Quarry reserve, into out-lots, and caused a regular plat thereof to be made out and certified to, by the County Surveyor, and had the same recorded by the County Recorder.

Previous to the public sales on the first Monday in May, I took to my assistance, William L. Gilbert and Stephen B. Gardner, Commissioners appointed and commissioned by the Governor for that purpose, and proceeded to re-value the unsold and forfeited lots, at the minimum of eighty dollars, as prescribed in the above recited act.

There were remaining, unsold on the first day of May last, three hundred and fifty-three city lots, and two out-lots of the original survey. In the new addition, there were ten out-lots added to the plat, also fourteen forfeited lots, together with the Governor's Square, making three hundred and seventy-eight city lots and out-lots, all of which were offered at public sale, on the first Monday of May last. At the public sale, and up to the date of this report, there have been sold twenty-five lots and out-lots, leaving three hundred and fifty-three lots remaining unsold.

Total amount of unsold lots, on the first day
of May last,

\$30,900

Sales of 1843,

2,618

Amount of unsold lots,

\$28,282

Notes remaining in the office, and in the hands

of Attorneys for collection on the 1st Dec., 1842,		\$12,452 57
Sales of 1843,		2,618 00
		<hr/>
		\$15,070 57
Notes remaining in this office,	\$5,199 38	
Notes in the hands of Attorneys for collection,	2,402 44	
Disbursements for 1843,	7,180 11	
	<hr/>	\$14,781 93
		<hr/>
Excess of receipts over disbursements,		<u>288 64</u>

In compliance with law, I have finished the north gable-end and chimneys of the Capitol, and prepared two additional rooms for occupation the present season.

I have also delivered on the Public Square, near the Capitol, dimension stone for steps, and flagging for the front portico, which was as far as I could proceed the present season with the limited means within my control.

There has been no considerable demand for lots this season. The heavy sales made in 1842, in addition to the sales made the three preceding years, have supplied the demand for lots. The mechanics and laborers of this place constitute a numerous and enterprising class of citizens, who have purchased lots for work on the Capitol, and who stand ready to accommodate those who desire to purchase, upon more favorable terms than the Territorial lots are offered.

Under these circumstances, candor compels me to say, that the operations on the Capitol must be partially suspended for a limited time, unless funds can be raised from some other source than from the sales of city lots.

The sales and collections hereafter made, should be applied to the payment of the outstanding demands against this office. These demands, including the debt due the Dubuque Bank, may be estimated at nine thousand dollars.

The outstanding Scrip, of the issue of 1841, has been taken in, and for the balance, held by Murray & Sanxay, I gave them a certificate, certifying the amount, and that its redemption was authorized by law. This certificate was given on the nineteenth day of August, for one thousand three hundred and sixty-five dollars; and I recommend that legal interest be allowed thereon, from the date thereof until paid. This will enable the holders to negotiate it in business. Murray and Sanxay claim interest on the amount of Scrip held by them during the years 1842 and '43. The average amount for 1842 may be estimated at two thousand dollars, and for 1843 at one thousand five hundred dollars, up to the date of the certificate referred to—say nine months. Should this claim be allowed to them, it cannot set a precedent for similar demands for interest on the new issue of 1842, as it clearly sets forth Iowa City lots as the basis for its redemption.

Among the claims outstanding against this office, is one in favor of Shawk & Co., Lock manufacturers at Cincinnati. This company has an agency in this City, and has been in the habit of keeping a supply of locks for sale, but not having the kind wanted for the State House, their agent solicited the bill, which was furnished to *him*, and in October 1842, the shipment was made on the steam-boat Boston, which was sunk on her passage to St. Louis. The box containing those locks was reclaimed by the wreckers and sold at St. Louis, one fourth for the benefit of the owners. Shawk & Co., through their agent, demand payment from the Territory for the bill, and as I am at a loss to determine the legality of this claim, or whether the Territory is bound, in good faith, to pay it, I submit the subject for the consideration of the Legislature.

In settling the account of Chauncey Swan, late Acting Commissioner, I find him charged with the appropriation made by Congress for the Capitol at Iowa City,		\$20,000 00
Sales of Iowa City lots in the years 1839 and '40,		35,051 75
And also several miscellaneous receipts,		1,308 00
		<hr/>
		\$56,359 75
Notes handed over to Jesse Williams, his successor in office,	\$18,283 75	
Vouchers filed in this office,	35, 227 34	
Miscellaneous credits,	645 82	
Salary account, embracing several incidental charges,	2, 520 19	
	<hr/>	\$56, 677 10
Leaving a balance due Chauncey Swan of,		<hr/>
		\$317 35
I find the receipts of Jesse Williams, late Territorial Agent, to be		\$19,892 24
Scrip of 1840, redeemed in 1842 and 1843,		4,385 41
		<hr/>
		\$24,277 65
Disbursements of 1841,	\$23,485 69	
Salary account,	758 33	
	<hr/>	\$24,244 02
Leaving a balance in favor of the Territory, of		<hr/>
		\$33 63

This account, although balanced, cannot be considered as settled.—Should there be any further receipts of Scrip at this office of the issue of 1841, it will be charged to the account.

As it may be some time before the Capitol will be finished, the most judicious application should be made of the balance of notes remaining

in this office, which have accrued from the sales of 1842 and 1843, under the law authorising the sales to be made for work and materials on the Capitol, and which cannot be collected in any other way, so long as the parties hold themselves in readiness to fulfil their contracts when called upon.

In addition to these notes, there will be a demand for lots, to be paid in work, which could not otherwise be sold sufficient to complete the steps and flagging of the east front portico. These porticos were not constructed of the best materials, and especially the one on the west front, which is now so far injured as to render it necessary to rebuild it. The east front portico having been constructed of better materials, is not materially injured, and may be saved from loss by adding the steps and flagging to it the ensuing season.

The temporary roof upon the dome is not sufficient to protect the building, and should be covered with shingles, and the gable ends securely boarded up. It is also necessary for the security of the foundation of the Capitol, that a fill should be made, extending from the south-east corner, and that there should be a regular grade made, sufficient to cause the water to pass off freely from all parts of the building.

All of which is respectfully submitted.

JOHN M. COLMAN,
Territorial Agent.

To the Honorable,

The Council and House of Representatives of the Territory of Iowa.

GENTLEMEN:—In compliance with the eighth section of an act of the Legislative Assembly of the Territory of Iowa, entitled "An Act providing for the appointment and duties of Auditor of Public Accounts and regulating the duties of Territorial Treasurer, I herewith submit to you the following Report:

I regret that from the fact of many of the County Officers throughout the Territory, having failed in the discharge of their respective duties relative to the Territorial Revenue, and the transmission of documents appertaining to this office, I am not prepared to exhibit the situation and condition of the revenue department of the Territory,

in that light and with that degree of accuracy and certainty which is at all times so much to be desired.

In consequence of my predecessor not having heretofore submitted regular annual reports, I have no data from which to commence this report other than the foundation and organization of this office; I shall therefore (so far as I have the means within my control) endeavor to exhibit a statement of all of the Warrants issued and the amount that has been cancelled from the 12th day of March, A. D. 1840, up to this date, also the liabilities and resources of the Territory so far as can be ascertained from the books and papers in my possession.

It will be perceived from the foregoing statement that the amount of Territorial taxes has not been regularly transmitted to this office from some of the counties for several years past, although the proper officers in such counties have been repeatedly solicited from this office to send up the amounts of former assessments, and for the present year but few of the assessments have as yet been received.

With regard to the outstanding revenue due from the several counties, the undersigned feels well convinced, that but little, if any of it, will ever be made available to the Territory, unless some new mode should be adopted different from the present system of collecting and paying over the Territorial Revenue. In view of this, the undersigned would respectfully suggest the necessity of so amending the revenue law as to make it the duty of the Clerk of the Board of County Commissioners to forward to this office copies of the assessment rolls at the same time that they are delivered to the Collectors, and that the Collectors be directed to pay over the Territorial funds to the Territorial Treasurer, and to take his receipt therefor, and furnish to this office annually a list of the delinquents, verified by affidavit, and that there be such clauses incorporated into said law as will afford the means of coercing the several county officers into the discharge of their respective duties relative to the Territorial Revenue. Such amendments the undersigned feels assured would have a salutary effect in putting a stop to the present system of appropriating the Territorial funds to individual and county purposes.

All of which is respectfully submitted by

WILLIAM L. GILBERT,

Auditor of Public Accounts

2. He shall preserve order and decorum, and speak to points of order in preference to other members, rising from his seat for that purpose; and shall decide questions of order, subject to an appeal to the House by any two members.
3. He shall rise to put a question, but may state it sitting.
4. Questions shall be distinctly put in this form to wit: "As many as are of opinion that [as the question may be] say AYE"—and, after the affirmative voice is expressed, "As many as are of the contrary opinion say No." If the Speaker doubts, or a division be called for, the House shall divide. Those in the affirmative of the question shall first rise from their seats, and afterwards those in the negative.
5. The Speaker shall have a right to name any member to perform the duties of the Chair, but such substitution shall not extend beyond an adjournment.
6. All Committees shall be appointed by the Speaker, unless otherwise specially directed by the House.
7. In all cases where the House is equally divided, the Speaker shall give the casting vote, and shall also vote on a call of the Ayes and Noes.
8. All acts, addresses, and joint resolutions shall be signed by the Speaker; and all writs, warrants, and subpoenas issued by order of the House, shall be under his hand and seal, attested by the clerk.

If there be no appeal, the decision of the chair shall be submitted to; if the decision be in favor of the member called to order, he is at liberty to proceed, if otherwise, he shall not be permitted to proceed without leave of the House, and if the case require it, he shall be liable to the censure of the House.

13. When two or more members happen to rise at once, the Speaker shall name the member who is first to speak.

14. No member shall speak more than twice on the same question, without leave of the House, nor more than once until every member choosing to speak shall have spoken.

15. Whilst the Speaker is putting any question or addressing the House, none shall walk out of or across the House, or when a member is speaking shall entertain private discourse, nor whilst a member is speaking, shall pass between him and the chair.

19. When a motion is made and seconded, it shall be stated by the Speaker, or, being in writing it shall be handed to the chair and read aloud by the clerk before debated.

20. Every motion shall be reduced to writing if the Speaker or any member desire it.

21. After a motion is stated by the Speaker or read by the clerk, it shall be deemed to be in the possession of the House, but may be withdrawn by leave of the House.

A motion to strike out the enacting words of a bill, shall have precedence of a motion to amend, and, if carried, shall be considered equivalent to its rejection.

23. When a resolution shall be offered, or a motion made, to refer any subject, and different Committees shall be proposed, the question shall be taken in the following order:

The Committee of the Whole House; a standing Committee; a Select Committee.

24. A motion to adjourn shall be always in order excepting when a member is speaking, or the House voting; that, and the motion to lie on the table, shall be decided without debate.

25. The previous question shall be in this form; "Shall the main question be now put?" It shall only be admitted when demanded by a majority of the members present; and until it is decided, shall preclude all amendment and further debate upon the main question.

26. On a previous question there shall be no debate.

27. When a question is postponed indefinitely, it shall not be acted upon again during the session.

28. Any member may call for a division of the question, which shall be divided if it comprehends questions so distinct that one being taken away, the rest may stand entire for the discussion of the House; a motion to strike out being lost shall preclude neither amendment nor a motion to strike out and insert.

29. Motions and reports may be committed at the pleasure of the House.

30. No motion or proposition on a subject different from that under consideration, shall be admitted under color of amendment.

31. When a motion has been once made and carried in the affirmative or negative, it shall be in order for any member in the majority to move for the reconsideration thereof on the same or succeeding day, and such motion shall take precedence of all other questions except a motion to adjourn.

32. Petitions, memorials, and other papers addressed to the House,

shall be presented by the Speaker, or by a member in his place, a brief statement of the contents thereof, shall verbally be made by the introducer, and shall not be debated or decided on the day of their being first read, unless where the House shall direct otherwise, but shall lie on the table to be taken up in the order they were read.

33. A proposition requesting information from the Governor, Secretary, or any other Territorial officer, shall lie on the table one day for consideration unless otherwise ordered by unanimous consent of the House; and all such propositions shall be taken up for consideration in the order they were presented, immediately after reports are called for from select Committees, and when adopted, the clerk shall cause the same to be delivered.

34. Any five members, if the Speaker be in the chair, shall be authorized to compel the attendance of absent members.

35. Upon calls of the House, or in taking the Ayes and Noes on any question, the names of the members shall be called alphabetically.

36. No member shall absent himself from the service of the House without leave, unless he is sick or unable to attend.

37. Upon a call of the House the names of the members shall be called over by the Clerk, and the absentees noted, after which the names of the absentees shall again be called over and the Sergeant-at-Arms shall be directed by the Speaker to compel their attendance.

38. No Committee shall sit during the sitting of the House without special leave.

39. Fourteen members including the Speaker shall constitute a quorum and upon the demand of and two members the ayes and noes shall be ordered.

40. The hour to which this house shall stand adjourned from day to day shall be 10 o'clock, A. M., and 2 o'clock, P. M., unless otherwise ordered by the House.

Of Bills.

41. Every bill shall be introduced by motion for leave, or by an order of the House on the report of a Committee. One days' notice at least shall be given of the motion to bring in a bill.

42. Every bill shall receive three several readings in the House previous to its passage; and all bills shall be despatched in the order they were introduced, unless where the House shall direct otherwise, but no bill shall be twice read on the same day without special order of the House.

43. The first reading of a bill shall be for information; and if opposition be made to it, the question shall be, "Shall this bill be rejected?" If no opposition be made, or if the question to reject be negatived, the bill shall go to its second reading without a question.

44. Upon a second reading of a bill, the Speaker shall state that it is ready for commitment, or engrossment; and if committed, then the

question shall be whether to a Select or Standing Committee, or to a Committee of the Whole House. If to a Committee of the Whole House, the House shall determine on what day; but if the bill be ordered to be engrossed, the House shall appoint the day when it shall be read a third time.

45. After a bill has been committed and reported back, it shall be considered on its second reading after the amendments of the Committee have been read.

46. After commitment and report thereof to the House, or at any time before its passage, a bill may be recommitted.

47. All bills ordered to be engrossed shall be executed in a fair round hand.

48. No amendment by way of rider shall be received to any bill on its third reading.

49. When a bill shall pass, it shall be certified by the Clerk, noting the day of its passage at the foot thereof.

Of Committee of the Whole House.

50. In forming Committees of the Whole House, the Speaker shall leave his chair, and a chairman to preside in Committee shall be appointed by the Speaker.

51. Upon bills committed to Committee of the Whole House, the bill shall be first read throughout by the Clerk or Chairman, and then again read and debated by clauses, leaving the preamble to be last considered; after report, the bill shall again be subject to be debated and amended by clauses, before a question to engross it be taken.

52. All amendments made to an original motion in Committee shall be incorporated with the motion, and so reported.

53. All amendments made to a report committed to a Committee of the Whole House, shall be noted and reported as in case of bills.

54. All questions, whether in Committee or in the House, shall be propounded in the order which they were moved, except that in filling up blanks, the largest sum and longest time shall be first put.

55. The rules of the House shall be observed in Committee of the Whole House, so far as they are applicable.

56. No standing rule, or order of the House, shall be rescinded or changed, without one day's notice being given of the motion therefor, nor shall any rule be suspended except by a vote of at least two-thirds of the members present, nor shall the order of business, as established by the rules of the House be postponed or changed; except by a vote of at least two-thirds of the members present.

57. It shall be in order for the Committee on Enrolled Bills to report at any time.

58. No Bill, Memorial, or Joint Resolution shall be printed unless ordered by the House.

59. When any matter is referred to a Standing Committee, by motion of any member, it shall be the duty of the Chairman of such Stand-

ing Committee to notify such member of their time of sitting upon such matter so referred; and said member shall be permitted to confer with such Committee during their consideration of such matter.

JOINT RULES OF BOTH HOUSES.

1. In every case of an amendment of a bill agreed to in one House, and dissented to in the other, if either House shall request a conference and appoint a Committee for that purpose, and the other House shall also appoint a Committee to confer, such Committee to confer, such Committee shall, at convenient hour, to be agreed on by their Chairman, meet and state to each other, verbally or in writing, as either shall choose, the reason of their respective Houses, for and against the amendment, and confer freely thereon.

2. When a message shall be sent from the Council to the House of Representatives, it shall be announced at the door of the House by the door-keeper, and shall be respectfully communicated to the Chair, by the person with whom it may be sent.

3. The same ceremony shall be observed when a message shall be sent from the House of Representatives to the Council.

4. Messages shall be sent by such persons as a sense of propriety in each House may determine to be proper.

5. After a bill shall have passed both Houses, it shall be duly enrolled by the Clerk of the House or of the Council, as the bill may have originated in the one or the other House, before it shall be presented to the Governor.

6. When bills are enrolled, they shall be examined by a Joint Committee of two from the Council and two from the House of Representatives appointed as a Standing Committee for that purpose; who shall carefully compare the enrollment with the engrossed bills as passed in the two Houses, and correcting any errors that may be discovered in the enrolled bills, make their report forthwith to the House in which the bill originated.

7. After examination and report, each bill shall be signed in the respective Houses; first by the Speaker of the House of Representatives, then by the President of the Council.

8. After a bill shall have been thus signed in each House, it shall be presented by the said Committee to the Governor for his approbation, it being first endorsed on the back of the roll, certifying in which House the same originated, which endorsement shall be signed by the Secretary of the House, in which the same did originate, and shall be entered on the Journal of each House; the said Committee shall report

the day of presentation to the Governor, which shall also be entered on the Journal of each House.

9. All orders, resolutions and votes, which are to be presented to the Governor, for his approbation, shall also, in the same manner, be previously enrolled, examined and signed; and shall be presented in the same manner, and by the same Committee, as provided in cases of bills.

10. When a bill or resolution, which shall have been passed in one House, is rejected in the other, notice thereof is to be given to the House in which the same may have passed.

11. When a bill or resolution, which has been passed in one House, is rejected in the other, it is not to be brought in during the same session, without a notice of five days, and leave of two-thirds of the House in which it shall be renewed.

12. Each House shall transmit to the other all papers on which any bill or resolution may be founded.

13. After each House shall have adhered to their disagreements, a bill or resolution is lost.

14. When bills which may have passed one House, are ordered to be printed in the other, a greater number of copies shall not be printed than may be necessary for the use of the House making the order.

15. All Messages, Reports, or other documents, presented to either House for general information, and ordered to be printed by such House, shall, when printed, be for the use of both Houses.

It shall be the duty of the Chief Clerk of the House, or the Secretary of the Council, when any such document is ordered to be printed in their respective Houses forthwith, to communicate such order to the other, so that the same order may not be made in both Houses.
