Johnson of Mitchell nominated Hon. Paul E. Stillman of Greene as candidate for Speaker, preceding such nomination by the following remarks:

I have the honor and pleasure of presenting for your consideration at this time a candidate for the highest position within your gift, the presiding officer of this House, a position which is freighted with responsibilities to every member, the entire constituency of every member and to the good name and exalted fame of our beloved state. I am sure that I express by unanimous consent the voice of the members of the Thirty-second and Thirty-third to him and to us their unanimous congratulations and their unbounded confidence in his honor, his character and his ability.

I find words a poor vehicle to convey my feelings. I am not a Speaker, never have been a "Speaker," and never expect to become a speaker. I feel, however, that he possesses a happy combination of the essential faculties of a forceful and impartial moderator. His commanding presence dominates without awe. His dignity reigns without repelling. He wears his learning and wisdom without the ostentation of cap and gown. His judicial temperament and sense of fairness and justice attach without an armor of form or ceremony, and above all, his whole-souled, conscientious, friendly, unpretentious and pleasing personality warm us without depreciating our high estimate of his characteristics of quality. What more can I say? He has left his printing office and consequently, the devil, behind him.

I take pleasure indeed in presenting for the position of Speaker one who embodies every element in the title to membership in this forum—The Gentleman from Greene—Honorable Paul E. Stillman of Jefferson, and I move his election.

Upon being sworn and assuming the Chair, Speaker Stillman made the following remarks:

I shall either be a great deal more than a man, or else a great deal less than a man, were I insensible to the great kindness which you have shown toward me. To the majority, by whose votes I anticipated that I might be elevated to this position, I was prepared to be, and am profoundly grateful, as to the minority, whose unexpected courtesy has made my election unanimous, I feel myself within the grip of a surprised gratitude so keen as to leave me without words to express myself.

Toward all of you my heart overflows with appreciation and good will, and I am conscious of no greater ambition than a desire to preside fairly, honestly and impartially over your deliberations, a servant of each of you and of the rules of the House.

We are met here as the representatives of more than two million people, whose intelligence is surpassed by none on earth. A people among whom honesty and steadfastness of purpose has become a fixed habit, among whom Christianity is the common law and rule of life, accepted with fervency by many; with a respect akin to reverence by all; a people who have coined industry into an asset; who have converted character into capital; whose prosperity and happiness is a standard toward which all men strive. We are here as the successors of a long line of General Assemblies whose record has been above reproach; we take the places of men who have left no taint of disgrace upon the character and reputation of our state—men against whom, even in these days of open faithlessness or whispered dishonor in legislative halls, the finger of shame has never been leveled. I felicitate you upon your election to the position of high honor or responsibility you now hold by the franchises of such a people; I congratulate you upon being the heirs and legatees of legislative traditions so stainless and so noble.

Our duty to our state and to ourselves involves the most serious and earnest work of which we are capable. It is inevitable that we shall differ widely and honestly on many questions, but such differences are the refining process out of which wise legislation is evolved, provided we box our compass by a frankness of opinion and of speech which is tempered by tolerance; by a spirit of progress which is not freakish or extreme; by a conservatism which is not blind to the vision of better standards and higher ideals.

Again, and finally, I thank you. Every effort that I make to express my gratitude only serves to deepen my sense of obligation to you. And so, without further trespass upon your time, I beg to inquire, what is the pleasure of the House?

Adams, Allen of Jefferson, Ames, Balkema, Balluff, Bascom, Bauman, Beebe, Bennett, Black, Boettger, Brady, Brockway, Brown of Decatur, Brown of Wright, Bruce, Bybee, Byerly, Campbell of Ida, Chapman, Chase, Clarkson, Cousins, Cowles, Crist, Crow, Cunningham, Dabney, Daniels, Dawson, Dewey, Dixon, Downey, Dunlap, Dunnegan, Edmunds, Ellis, Enger, Escher, Felt, Finlayson, Fitchpatrick, Fletcher, Fourt, Francis, Fry, Fulton, Garrett, Gates, George, Gilbert, Gilliland, Goodykoontz, Greene, Griggs, Grout, Halgrims, Hamilton, Harding, Harvey, Hayes, Hazen, Hickenlooper, Hogan, Hoyt, Huff, Hunt, Hunter, Huntley, Hutchins, Jacobs, Jacobson, Jewell, Johnson, Klay, Krebill, Kull, Larrabee of Fayette, Larrabee of Webster, Leach, Legel, Lenocker,

Those absent were:

Allen of Pocahontas, Beans, Bowman, Campbell of Webster, Collin, DeWolf, Fraley, Hammill, Koontz, Kulp, Mattes, Miller of Bremer, Moore, Proudfoot, Spaulding—15.

President Clarke declared a majority of the General Assembly present at the joint convention.

Saunders of Pottawattamie moved that a committee of two from the House and one from the Senate be appointed to notify the Governor that the joint convention was in session.

Motion prevailed.

The President appointed Senator Saunders of Pottawattamie on the part of the Senate, and Representative Bybee of Marion and Harvey of Osceola on the part of the House, as members of such committee.

The committee waited upon the Governor and escorted him to the Speaker's desk.

The President of the joint convention then presented Governor Carroll, who read his message, as per previous invitation.

THIRTY-FOURTH GENERAL ASSEMBLY—JANUARY, 1911.

BIENNIAL MESSAGE OF THE GOVERNOR.

To the Senate and House of Representatives of the Thirty-fourth General Assembly:

In compliance with the provisions of Article 4, Section 12 of the Constitution requiring the Governor to "Communicate, by message, to the General Assembly, at every regular session, the condition of the State, and recommending such matters as he shall deem expedient," I present to you the following:

From the biennial report of the Auditor of State you will observe that there was in the State Treasury, July 1, 1910, \$1,003,915 to the credit of the general fund. The estimated receipts from that date to July 1, 1913, amount to \$12,540,000, making a total of \$13,543,915. The

estimated expenditures, for general purposes, from July 1, 1910, to July 1, 1913, are \$10,938,000, leaving a balance of \$2,605,915. From this should be deducted \$306,000, hunter's license, not available for general purposes, and \$800,000 needed to meet current expenses from July 1, 1913, to October 1, 1913, during which time the State's income is very meagre. Deducting these two amounts leaves a net balance of \$1,499,915 available for extraordinary appropriations during the biennial period ending June 30, 1913. More than this amount it would not be safe for you to appropriate.

By reason of the policy of economy practiced by the last session of the General Assembly and because of the increased income from sources other than by taxation the Executive Council has been able to make a reduction of one-tenth of a mill in the levy for general State purposes made in 1909 and a like reduction in 1910 so that the levy is now three and three-tenths mills, instead of three and five-tenths, as it had previously been. I scarcely need say to you that the levy for the next two years will depend entirely upon the extent of the appropriations made by you and the means which you provide for raising revenue from sources other than by taxation. I trust that you will keep well within the figures above quoted.

HOW TO AMEND THE LAWS.

In my inaugural address of two years ago I called attention to the fact that by reason of our methods of amending the laws many ambiguities exist and in some instances it is almost if not entirely impossible to know what is the law. I am thoroughly convinced that when a section of the law is to be amended it would be much better to repeal the section and re-enact it as it would appear when amended. By so doing the Legislature would know when passing upon an amendment just what was being done and the section would stand as an entirety. I feel assured that if you will take the pains to follow some amendments through the session-laws and the supplement, you will not hesitate to adopt the method suggested by me and which is in vogue in many of the states.

CONTROVERTED QUESTIONS.

Recently a question has arisen between the Executive Council and the Secretary of State upon the one hand, and certain building and loan associations upon the other as to the amount of fees to be paid and the methods of extending articles of incorporation of such association. It is the contention of those representing the associations that to pay the fees held by the Secretary of State to be due makes it impossible for them to incorporate. It is the desire of all concerned that you revise the building and loan laws so as to make them specific as to matters herein referred to and remove any unjust or unnecessary burdens that may be imposed upon the associations by present statutes.

A controversy has also arisen between those in charge of the Oil Inspection Department and certain railway corporations as to whether the oil used by such corporations must be inspected and the usual fee be paid for the inspection. It is the desire of your officials that you make the law relating to the inspection so clear that there can be no room for controversy.

Our laws relating to the amount of fees to be paid by foreign corporations desiring to do business in this State seem to be of questionable validity and also appear to impose unjust burdens upon corporations, a portion only of whose capital is employed in the State. I recommend a careful review of these statutes by you to the end that they may be brought clearly within the decisions of the courts and that they may also be made fair and just if they be lacking in either of these respects.

Some doubt has arisen in the minds of members of the Executive Council as to whether or not the law relating to the State Board of Education contemplates that the Finance Committee shall reside in Des Moines, and also, as to the employment of a field man for the institutions under the provisions of Section 11 of the Act creating the Board; and with regard to some of the printing to be done for the institutions. It is the wish of the Council that you should make the law definite as to each of these matters.

EVIDENCE AS TO POPULATION.

I wish to call your attention to the fact that if it is your desire that the Federal Census of 1910 be accepted as evidence of population it will be necessary for you to amend the law so as to make provision therefor. The old law, Section 176 of the Code, provided for publishing in the official register the population of counties, cities and towns as shown by the last census, either State or Federal, and Section 177 provided that wherever in the code the population of any county, city, or town was referred to it should be determined by the publication above mentioned. The Thirtieth General Assembly repealed and re-enacted this law omitting any reference to the Federal Census or any provision for publication through the official register, so that it appears that the census report of 1905 must be relied upon and taken as evidence in questions as to population until another census is taken by the State in 1915.

That this is a matter of much importance you will readily observe for the reason that the salaries of certain county and township officials as well as the allowance and compensation for deputies and also the determination of the sufficiency of general consent petitions under the mulct law are in many instances determined by population.

COLLATERAL INHERITANCE TAX.

I am advised by those enjoined with the duty of enforcing the collateral inheritance tax law that it needs to be re-written to the end that it may be made more specific and that ambiguities that now exist may be removed. It is quite defective in some of its provisions, especially as to the collection of interest, and as to bringing suit against those who inherit under a will and who decline or fail to pay the tax in the manner and time provided by law.

The income to the State from collateral inheritance has increased quite perceptibly. The income for the last biennial period, ending June 30th, 1910, being \$447,179.40, while for the previous biennial period it was only \$341,359.93, making a net increase of \$105,819.47.

DIRECT INHERITANCE TAX.

I believe that the time has arrived when the question of a direct inheritance tax should demand your most serious consideration. It is not a new thing in the affairs of states. Some of the older and more conservative Commonwealths, as well as many of the newer ones, have laws providing for the taxing of estates descending to direct heirs. In applying the law larger estates should be taxed at the greater rate and the per cent of tax exacted should increase with the size of the inheritance and with the remoteness in relationship of the deceased to the one who inherits. I recommend the enactment of a direct inheritance tax law not only as a means of raising revenue; but because I believe it to be correct in principle. Already twenty states, viz.: California, Colorado, Connecticut, Idaho, Illinois, Louisiana, Massachusetts, Michigan, Minnesota, Montana, Nebraska, New York, North Carolina, Oregon, South Dakota, Utah, Washington, West Virginia, Wisconsin and Wyoming have adopted direct inheritance tax laws. Each and all of these states, like our own, have a collateral inheritance law also. It cannot therefore be said that our State is either too old or too young to have such a law, or that the existence of any other statute should interfere.

INCOME TAX.

At a later date I will transmit to your honorable body a certified copy of a joint resolution passed by the first session of the Sixty-first Congress proposing an amendment to the Constitution of the United States empowering Congress to enact a law to tax incomes.

Without here raising the question as to the wisdom of such a law, I wish to express it as my personal opinion that Congress should have power to enact such a law if it so desires and I therefore recommend favorable action upon the resolution by you.

For your benefit and instruction I herewith recite the entire contents of the document embodying the resolution as signed by the officers of the two Houses of Congress:

*SIXTY-FIRST CONGRESS OF THE UNITED STATES OF AMERICA—
At the First Session.*

Begun and held at the City of Washington on Monday, the Fifteenth day of March, one thousand nine hundred and nine.

A TAX COMMISSION.

I wish to call attention to the fact that the tax laws of the State are very inequitable, and, in some respects, unjust. It has now been fourteen years since there has been a general revision of our revenue laws. Many changes in conditions have arisen in that time and many new methods of taxation have been adopted in other states which are worthy of consideration.

A tax ferret law, the taxing of moneys and credits; a filing fee upon mortgages, based upon the amount and time to run, and many other features of taxation are attracting much attention.

Our method of distribution of values are open to criticism, especially is this true as to telegraph, telephone and railway terminal property. Many of these questions are of such magnitude and importance that I do not believe that they can be properly dealt with during the time of an ordinary session of your honorable body. I therefore recommend that a commission be provided to study carefully all the phases of the taxing question, prepare an entire new revenue code and submit it to the next session of the General Assembly.

I wish in this connection to say that, in my opinion, the state loses a large sum of money every year by reason of failing to receive from the various counties its share of interest on delinquent taxes and of taxes that have been declared unavailable but are afterwards collected. I gave a great deal of thought and consideration to these matters while I was Auditor of State, and then recommended that provision be made for checking the accounts between the state and the counties, and the present Auditor, in his biennial reports, makes like recommendation. I am convinced that the state will receive many times more than the amount expended in making the checking if such a system is established. It has been stated by an accountant who has been checking the books of various

counties that in a single instance he found the county owing the state nearly three thousand dollars on the accounts above mentioned.

PROVIDENTIAL CONTINGENT FUND.

The last session of the General Assembly appropriated \$50,000 as a providential contingent fund to be expended by order of the Executive Council in the restoration or repairs of property of the State destroyed or damaged by providential causes. But \$3,409.58 of this fund have thus far been expended, all of which went to repair damages caused by fire to the warden's house at the penitentiary at Fort Madison. Since the State carries no insurance upon its property I recommend that at least such an amount as was provided by the last session of the Legislature be placed at the disposal of the Executive Council to meet such losses as may occur to the State's property during the next biennial period.

ENLARGE CAPITOL GROUNDS.

There seems to be no question but that in the course of time the State will of necessity be compelled to acquire additional ground in the vicinity of the State House for the erection of buildings. While it would be very desirable that a number of blocks of ground be acquired both with a view to locating other buildings and for the purpose of beautifying the State's property I am convinced that even if nothing more be done there should be a reasonable allowance placed at the disposal of the Executive Council for the purchase of lots facing the State House grounds. During the last year opportunities for making such purchases have been afforded, but there being no funds available the property was purchased by private parties.

COMMITTEE ROOMS OCCUPIED.

During the last biennial period several commissions which were created have been without permanent quarters. The Executive Council has found it necessary either to domicile these commissions in committee rooms or to rent quarters outside of the State buildings. We believed it to be expedient and that it would meet with your approval if committee rooms were occupied, so that we have placed the State Board of Education in the Speaker's room, the Soldiers' Roster force, the Conservation and Waterways Commission and the Chief Oil Inspector in committee rooms. A number of departments and offices are located by the Legislature either by resolution or by statute so that the Council has not absolute freedom in readjusting or rearranging the location of various departments. I believe that your body should either take these matters entirely into its own hands or should turn it all over to the Executive Council.

We have not yet moved the State Board of Education from the Speaker's rooms, because we have no quarters other than committee rooms in which to lodge it and we felt it advisable to wait until we might know your pleasure and convenience as to where we might locate this department during your session.

GRANITE STEPS TO THE CAPITOL BUILDING.

I desire to call your attention to the fact that the steps leading up to the State House both upon the north and upon the west are in a very bad state of deterioration and that they should be replaced with granite steps as soon as in your judgment it can conveniently be done.

Judging from the cost of the steps at the east front the cost of granite steps at the north would likely be about \$5,000 and on the west about \$9,000. If the steps at but one entrance can be replaced during the coming biennial period I suggest that those at the north be replaced first.

HISTORICAL BUILDING.

I am pleased to be able to report that the Historical Building, for which generous appropriations have been made by several sessions of the General Assembly, is practically completed and that it is now occupied by all of the departments intended for its occupancy. The building and its contents do great credit to the State and it is a popular resort, not only with our own people, but with those of other states who visit our Capital City.

GEOLOGICAL SURVEY.

With full appreciation of the value of the work of the Geological Department I am compelled to say, that in part at least, the Board is so constituted as not to be able to have that opportunity to observe and know as much about the department as should be known by a managing body.

The Board as now constituted consists of the Governor, the Auditor of State, the President of the State University, the President of the Agricultural College and the President of the Iowa Academy of Science. In my judgment better work could be done and in a more satisfactory way if the department were connected with the Geological Department of the State University and the management and control were passed over to the State Board of Education and its finance committee.

DRAINAGE, CONSERVATION AND WATERWAYS COMMISSION.

The Thirty-third session of the General Assembly created a commission to study into and investigate the subject of drainage, waterways, conservation of resources, etc., which commission has without compensation spent a great deal of time considering and investigating the subjects above mentioned. Mr. A. C. Miller, chairman of the commission, devoted much time and attention to the work and has added much enthusiasm to the general interest that has been taken in these matters during the last two years. In the published report made by the commission the various subjects included in the scope of its work are thoroughly discussed and many valuable recommendations are made, all of which will be brought to your attention by supplying each of you with copies of the printed report.

LAKES DRAINED.

The Executive Council has authorized the drainage of but two lakes since January, 1909, viz.: Bancroft Lake in Kossuth County and Wall Lake in Wright County. The lands within the meandered lines of some lakes authorized to be drained during the administration of my predecessor have been sold and the drainage taxes assessed against others have been paid. It has not been the policy of the Council to permit the drainage of any lakes that can be maintained as clear bodies of water, but has permitted such as cannot be so maintained to be included in drainage districts and the lands have either been sold or the taxes assessed against the same for drainage purposes have been paid by the State.

MINING LAWS.

The many mining disasters that have occurred within the last year have made it highly important that our laws be made so as to most effectually guard against the danger incident to that very hazardous occupation.

Fortunately our State has not been visited by any great calamity among those who work under the ground. There seems to be a feeling, however, that our mining code should be carefully gone over and changed in some particulars. The question as to the use of carbide lamps has attracted considerable attention. I therefore recommend a careful consideration of all the laws relating to mines and mining to the end that the lives of the men, as well as the property and interests of the operators or owners, be properly protected.

ARBITRATION.

Some states have enacted laws providing for the arbitration of disputes arising between employers and employed, and apparently with good results. I do not understand that compliance with the finding of a Board of Arbitration with reference to such matters could be enforced but the public is entitled to know the facts relating to matters of controversy which usually involve the public welfare and it is hardly likely that either party to a dispute could long maintain itself against the finding of a competent and unbiased tribunal. I therefore recommend that you give careful consideration to the question of establishing such a body in this State.

In this connection I desire to call attention to the fact that efforts will be made at this session of your body to have enacted a law with reference to compensation of workmen injured in hazardous occupations. While not fully advised with reference thereto, it is my understanding that such a law is desired both by the employer and the employed, so that the conditions under which and the amount of damages that may be recovered in so far as is possible may be determined in advance. It is desired also in order that expensive litigation and excessive costs of insurance may be avoided as well as for various other reasons. This is an important subject to the industrial interests of the State and it merits careful consideration.

AGRICULTURAL SOCIETY.

From the appropriation made therefor by the Thirty-third session of the General Assembly together with funds of the society, there has been erected a splendid and commodious steel and concrete amphitheatre upon the ground of the State Agricultural Society. It has added greatly to the convenience of those visiting the Fair and has brought increased interest and attendance. Many other improvements have been made, such as the construction of more than 70,000 square feet of cement walk, adding two new units or buildings, one to the horse barn and one to the cow barn, and adopting a general and permanent plan for the development of the grounds and locating new buildings. About \$175,000 have been spent in various improvements at the Fair Grounds since your last session, nearly \$75,000 of which came from the funds of the Society. The State Fair has become to be a great means of education to our people along all the lines of the exhibits, and its benefits and influences are felt in all parts of the State. It stands easily in the front rank of all the State Fairs.

HORTICULTURAL INTERESTS.

I have believed and still believe that the horticultural interests of the State have been and are being grossly neglected. The fruit crop failure of the last year should not prove a discouragement. It is believed by many that by proper care and the use of smudges much of the crop of last year might have been saved.

We need to have our people better educated along the lines of caring for and protecting our fruit interests. The horticultural people of the State are asking to have some one employed as a field man to spend his time among the fruit growers informing and enlightening them as to the best means of growing and caring for orchards. Whether this is the best means to employ in educating our people in fruit growing, I cannot say, but I recommend that you give every reasonable encouragement to this important interest.

DAIRY EXPERIMENT AND EXTENSION WORK.

The last session of the Legislature made an appropriation of \$10,000 for the State Dairy Association to use in promoting the dairy interests of the State. I believe that very much good has been accomplished by the use of this fund and I recommend that a like amount be appropriated for the same purpose, for the next biennial period, to be expended either through the same channels as provided by the last Assembly or through other equally effective means.

There seems to be an increased demand for short course, institute and agricultural extension and agricultural experiment station work. While realizing that enthusiasts in these lines may become extremists, I am, nevertheless, convinced that if judiciously handled appropriations for these purposes may be made immensely profitable, and I recommend liberality with reference thereto. Our farmers are beginning to appreciate the value of scientific methods.

I wish, however, to suggest that the State Board of Education through its Finance Committee has undertaken to equitably determine about what appropriation is needed for agricultural extension work, for engineering extension work, for the agricultural experiment station and for good roads. These are all matters of great moment and should receive the most favorable consideration.

The State Food and Dairy Commissioner has constant calls for field work; especially does he feel the almost universal demand for better means of requiring compliance with proper methods of sanitation, so that you will be asked to enact a law, conferring upon him additional authority with reference thereto, and I recommend the same for your careful consideration.

HOG CHOLERA SERUM.

The sum of eight thousand dollars was appropriated by the last session of the Legislature for the establishment of a plant for the manufacture of hog cholera serum. The operation and management of the plant was placed under the control of the State Veterinary Surgeon, who, under the advice of the Executive Council, leased 114 acres of ground north of the State Fair Grounds and thereon has located the plant. The entire amount of the appropriation has been used up, but the law provides that the proceeds of the sale of the serum may be used in connection with the operation of the plant. Up to January 1st \$2,534 worth of serum had been sold. So far as can be learned the serum method of treating the disease of cholera has proven successful. There is every reason to believe that the plant for the manufacture of serum is going to prove to be of great value to the State.

SOLDIERS' ROSTER.

A recent session of the General Assembly provided for the printing of a Soldiers' Roster and that the volumes when ready for distribution should be sold at cost, the Executive Council to determine what the actual cost had been. There has been practically no demand for the books, only 119 having been sold. Four volumes are now in print and have been distributed as the law provides. Much of the material of the two remaining volumes is ready for the printer. It will perhaps require an additional appropriation of \$800 to \$1,000 to complete the work.

It is quite evident that the number of copies originally provided for was far in excess of any probable demand and it would seem that the present number of 3,000 is more than will ever be called for unless they are distributed free of cost or at greatly reduced price. I believe that with reasonable restrictions these books should be distributed as other public documents, rather than to allow them to pile up in the State's storage rooms.

THE SOLDIERS' HOME.

The State has undertaken to make the declining years of the soldiers of the Civil War peaceful and happy by providing a home for those who by reason of health and financial circumstances may need assistance. I shall not go into details as to the Home, but trust that you will provide every means both as to quarters, equipment and supplies necessary to make the remainder of life for these heroes both comfortable and enjoyable.

THE NATIONAL GUARD.

I am pleased to be able to report to you that the National Guard of the State is in most excellent condition. In my judgment its efficiency has never been so great as at the present time. The four regiments have been organized into a brigade and most excellent work is being done. Three of our regiments attended the maneuvers at Sparta, Wisconsin, last August and received the highest commendation from those in command. At the rifle contest at Camp Perry, Ohio, our team ranked higher than that of any other state and was only led by two of the teams of the Government service. General Logan deserves great credit for the high standing and efficiency to which he has brought the Guard. I have not found it necessary at any time during my administration to call upon the Guard to keep the peace or to protect life or property.

The Adjutant General in his report filed with me, makes recommendation as to the distribution of the soldier's roster, as to relieving from taxation stocks or bonds issued in aid of erecting Armories, and as to an appropriation for the erection of an arsenal and armory, all of which I wish to call to your attention.

SHILOH MONUMENT.

Since the adjournment of the last session of the Legislature the National Park at Shiloh, Tennessee, was visited by a cyclone, the exact date of which was October 14, 1909, which threw down and greatly damaged the Iowa monument recently erected there. I visited the park in person in order to determine the extent of the damage so that steps might, at once, be taken to repair and re-erect the monument. It was my purpose to ask the Executive Council to use sufficient of its providential contingent fund to restore the monument, but in taking the matter up with the Secretary of War he advised me that in as much as the monument when dedicated had been turned over to the Government he would ask Congress to make an appropriation sufficient to restore it. This took the matter out of our hands and we waited for Congressional action. The appropriation was made but with the understanding that the State would reimburse the Nation for whatever amount of money is required to re-erect the structure. I therefore recommend and ask that you appropriate and put at the disposal of the Executive Council sufficient funds to meet the above requirements. It was deemed advisable that the State have a representative to see to or assist in supervising the restoration of the

monument and I designated Colonel E. E. Soper of Emmetsburg, who was chairman of the Iowa Shiloh Commission which had charge of the erection of the monument, to represent the State. There being no provision of law for meeting his expenses in connection with the work of re-erection I recommend that the appropriation be made sufficient to cover that also.

PUBLIC SCHOOL SYSTEM.

In the biennial report of the Superintendent of Public Instruction you will find a very full and able discussion of many questions relating to the office of the Superintendent, to the school laws of the State, and to our public school system. I shall not go into details with reference to any of these questions but refer you to the report which contains a great amount of information and many valuable suggestions. The school problem of our State is one of the very important matters which you will have to deal with and I earnestly urge upon you the necessity for giving it more than usual attention.

STATE BOARD OF EDUCATION.

It is not my purpose to deal at length with the State Board of Education nor the institutions under its control. I am glad to be able to say that the Board and its Finance Committee have worked together in harmony for the best interests of the institutions and that, in my opinion, the work has been planned along practical and successful lines. In the Board's published report you will find a review of what has been done and also suggestions as to future plans and needs of the various schools under control of the Board. The suggestions as to continuing the millage tax; the readjustment of salaries; the application of business methods, etc., deserve especially attention.

The decrease in attendance at the State University has been the occasion of much comment. I have made some inquiry into the cause of this decrease and find that two reasons are assigned. It is claimed by many that the existence of saloons in Iowa City is responsible for the loss of students, while others attribute it to the more stringent requirements for admittance to the school. It is your duty to ascertain the cause and unless it is something which tends to the betterment of the institution you should not hesitate to remove it.

BANKS.

There is little, if anything, pertaining to banks and banking that needs to be called to your attention.

The banks of the State, in general, seem to be in a very flourishing condition. There have been no failures of State or savings banks during the last two years. The Auditor's biennial report shows that there were nine hundred and fifty State and savings banks and trust companies, carrying deposits of nearly \$247,000,000 reporting to the department at the end of the biennial period ending June 30, 1910. Fifteen or more

have been added to the list since that date. The laws relating to the taxing of banks have been rendered somewhat chaotic by reason of some decisions of the courts, but that should be considered with other matters of taxation.

INSURANCE.

The insurance laws of the State have been so recently considered by a commission and acted upon by the Legislature that I do not deem it necessary to call particular attention to them at this time. Our companies are extending and enlarging their business and the magnitude and the importance of the insurance interests of the State are constantly growing. There has been considerable demand for a fire marshal to be provided for the State at large, as is done by some of our adjoining states, and I have been inclined to look with favor upon the establishment of such an office, but must confess that I have not had sufficient opportunity to fully satisfy myself with reference to the matter. It is, however, worthy of your consideration.

REORGANIZE SOME DEPARTMENTS.

The last session of the Legislature devoted considerable time to the question of the reorganization and consolidation of some departments of the State Government. This is a subject that I believe can be profitably dealt with by you. In my opinion much space could be saved and better service rendered by combining a number of the minor departments, but in any event some of them need reorganizing.

Why should there be a Board of Health, a Board of Medical Examiners, a Nurses Department, and an Embalming Department, a Department of Optometry, and a Department of Vital Statistics, with separate allowances for maintaining most or all of them I cannot understand. These should be brought closer together and the Executive Head of all of them should be the man in charge of the office, which in this instance would be the man now denominated the Secretary of the Board of Health. He should be clothed with much of the power now lodged with the various boards and with him should be entrusted the duty and responsibility of enforcing the laws and rules pertaining to public health. Where an epidemic or a question pertaining to the health of a community needs investigating, he should have authority to call to his assistance physicians of the community where the trouble exists. If the Board of Health is to be continued it should be largely in an advisory capacity, but in any event the members should be paid a fixed compensation instead of a per diem and expenses. The per diem system always has been and always will be a source of abuse.

The last session of the Assembly made an allowance of nine hundred dollars for extra clerk hire in the office of the Secretary of the Board of Health. By means of increased work in that office this allowance has all been used up and it is necessary in order that the work may be properly carried on, that you at once make another appropriation of nine hundred dollars for the use of that department.

What has been said as to the Board of Health applies in some respects to the Pharmacy Commission, especially as to the necessity for the man in charge of the office being the Executive Head of the department. This board, too, should be made largely advisory and to assist in examinations. The members should be placed upon a salary instead of a per diem. I do not know that any question has arisen as to irregularities or over charges by any of the present members of the board, but the system is wrong, has been greatly abused in the past, and may be in the future if continued.

The bill introduced at the last session of the Legislature by Representative Moore, now the Secretary of the commission, was, in the main, if not in detail, a good measure and is worthy of consideration at this session.

The Board of Veterinary Medical Examiners should be made an adjunct to the State Veterinary Surgeon's Department and that official should have full charge and control of all matters now lodged with the board, except that he should have assistance in conducting examinations. That there should be a separate and distinct department with an office to be carted about the State every time a change is made in the officials of the department does not conform to good business principles.

The per diem method of compensation applies to several departments and many employees. Where the work to be done is sufficiently established for you to determine the time needed to perform it, or where it can be determined what salary should be paid to any official or employee, a fixed amount should be substituted for the per diem, and if some better method could be provided for determining the expense allowance of those entitled to charge their expenses to the State it would be desirable that a change be made.

DOCUMENTS AND PRINTING.

I wish again to call your attention to the fact that a careful inquiry should be made into the number of documents now being printed, so as to ascertain whether there are not many more of some kinds being provided than there is a real demand for. I am in receipt of a communication from the Secretary of State in which he says: "The storage rooms for documents is rapidly becoming filled. Large numbers of Soldiers' Roster have been packed in boxes and stored in the paper warehouse. The accumulation of these and other documents will soon fill all storage rooms at my disposal unless some method for more rapid distribution is provided by the General Assembly." I believe that the State might be saved a considerable sum of money by reducing the number of some documents and by cutting out duplicated matter appearing in different reports.

In my opinion the time has come when you should give the most serious consideration to placing all State printing and binding in the hands of the Executive Council. With the enlarged facilities of the various establishments of the State for doing the work there seems to be very little need for continuing the offices of State Printer and State Binder. The Council can very readily handle this work through the office of the Secretary who now has charge of the paper and other stock

used and must keep a constant check upon the same, while the office of the Secretary of State must check all the work done. The abolition of the offices of printer and binder might necessitate the employment of a competent man to aid in looking after the work of printing and binding, but even then it would, in my opinion, prove a great saving to the State and the work would be turned out much more promptly.

PUBLIC UTILITIES COMMISSION.

Two years ago I recommended to the General Assembly the creation of a Public Utilities Commission, or the enlargement of the powers of the Railway Commission so as to give it control of public utilities. I then suggested that the membership of the Railway Commission, if clothed with the powers referred to, be increased to five and that the added members be appointed by the Governor, and as the term of the present members expire their successors be appointed. I desire now to renew that recommendation and to say that, in my opinion, a commission clothed with such power and authority as is given by the laws of the State of New York or Wisconsin would prove of great benefit to the State. Added reasons are apparent almost daily why we need such a commission. No more striking example could be found anywhere than here in our Capital City. Two years ago when the Legislature had a public utilities measure under consideration one of the officials of this city is reported to have given out an interview in which he bewailed the fact that after fifteen years of effort and just at a time when the city officials had the street railway question solved, the Legislature proposed to step in and spoil the whole plan. The Legislature did nothing. You are familiar with the street car controversy and know about how near it appears to be solved. Neither the commissioners, the committee from the business men's organization, nor the citizens who are willing to spend time and money have been able to bring about a settlement. In the meantime the public suffers the inconvenience and the railway company the uncertainty of an unsettled controversy. What is needed is an unprejudiced and an unbiased commission removed from local and political influences and clothed with the power and authority of the State to deal not only with the question that has been a bone of contention here in Des Moines, but to deal with the many problems constantly arising in the various cities of the State.

Then, too, the question of the regulation and control of the water power of the State should be lodged with the proposed commission. This is an important matter and one which has been very much neglected.

Nowhere does there seem to be lodged power and authority to regulate rates and character of service of telegraph and telephone companies, nor to control consolidations and physical connections of telephone property. This power should be lodged with the commission herein proposed.

That the establishment of a commission will be opposed by some corporations and by some city officials is not to be doubted. Even the press of this city which claims to favor legislation of an advanced character and to stand for progressive ideas, was most active in opposition to this most

progressive of all measures considered by the Legislature two years ago. But these things should not deter you from doing that which will inure to the best interests of the people of the cities of the State and of the State at large.

The Railway Commission, through its report, calls attention to the fact that its powers are limited as to determining what shall constitute a proper highway or farm crossing, as to railroads crossing each other and as to matters of ordinary drainage, or at least the law is indefinite. It asks for a specific declaration as to its powers with reference to these matters and I recommend that the request be granted. I wish also, to call your attention to the commission's decision of industrial rates, express rates, long and short haul and to the regulation of rates, service, etc., of telegraph and telephone companies.

WATERED STOCK.

The Thirty-second session of the General Assembly enacted a law to prevent the issuing of watered stock. It provides that no stock shall be issued by any corporation except for cash, unless the consent of the Executive Council is first obtained, and that no stock shall be issued unless the par value is paid in cash, or its equivalent. As to incorporating an ordinary going business the law does not seem to have worked any particular hardship, but as to promoting new corporations and especially electric railways, it evidently has proven a hindrance. The particular cause of the trouble seems to be that the law does not take into account the expense incurred before arriving at the time to issue stock nor does it take into consideration any depreciation in the sale of bonds. It is the claim of those interested in railway building that they cannot meet the requirements of the statute, and, consequently, railway construction, in this State, is practically at a standstill. It is possible that if other states and the Federal Government were to enact laws similar to our own it might, to some extent, relieve the situation, or at least this State would be placed upon an equality with other states, but until such laws are passed we seem destined to suffer a decided disadvantage.

I have called your attention to this matter in order that you may be determined whether any relief can be had without defeating the real purpose of the law and if none can be had so that you may decide whether the law shall continue unchanged to wait the hope of action by other states and by Congress.

PRIMARY ELECTION LAW.

One of the important matters that should receive the attention of your honorable body is that of the primary election law. It ought to be so amended as to make it absolutely fair and, so far as possible, free from opportunities for abuse. Irregularities in the name of reform are no more excusable than under any other circumstances. If charges that have been made are true there can be no question but that many delegates to the last Republican State Convention won their seats by sharp political practice either upon the part of themselves or of others. I am not

referring to any particular faction. There ought not to be any ground for such charges and a law that makes such things possible should either be amended so as to guard against them or should be removed from the statute books.

It has been freely stated that in many instances lists of primary delegates were made up by parties who were not residents of the precincts and who had no interest in the delegates chosen except to be able to secure or control their votes.

Much complaint has also been made as to methods pursued in the selection of committeemen and with regard to the printing of pasters and marking them before they were handed to the voter. The paster has always been, and, in my opinion always will be, a source of abuse. Its use should be abandoned and the names of all delegates and committeemen should be filed with the county auditor and printed upon the ballot. The same care should be exercised with regard to these matters as is exercised as to candidates for office.

The primary law conveys the idea that party lines and party organizations are to be recognized and respected. It not only makes no adequate provision for enforcing party affiliations but it affords easy opportunity for an utter disregard thereof. There can be no valid reason assigned why the law should recognize the right of any party to have its ticket printed upon the official ballot to be voted at the general election unless party lines are to be respected and maintained in the naming of candidates.

The claim that the voters of one party interfering with the naming of candidates of another party is more than mere suspicion. This is clearly shown by an analysis of the vote of Polk County at the general election in 1908 and at the primary in 1910. In 1908 President Taft received 12,555 votes and Mr. Bryan received 7,924 votes. At the primary in June, 1910, the two Republican candidates for Governor received 12,982 votes and all of the Democratic candidates for Governor received only 775 votes. In other words, 427 more Republicans voted in the primaries in Polk County last June than voted at the preceding presidential election, and 7,149 Democrats staid away from the polls or for every Republican who staid away a Democrat voted in the Republican primary. Is there any one who believes that the number of Republicans who voted at the last June primary was one hundred three and four-tenths per cent of those voting at the preceding presidential election, while the Democratic vote at the primary was less than nine and eight-tenths per cent of the presidential vote of that party?

I do not believe that any man will contend that such a policy is either in the interests of good political morals or party integrity. It can have but one ultimate result and that is the splitting of the majority party into hostile factions and the disintegration of the minority party. I believe it to be your duty to so amend the law as to obviate this abuse.

Two years ago I called the attention of the Legislature to the fact that the alphabetical arrangement of names upon the ballot apparently gave an advantage to the candidates whose name came first. The Thirty-third session of the General Assembly so amended the law as to provide

that names should be rotated upon the ballot. This doubtless had the effect of equalizing the advantages and disadvantages of the old system, but it emphasized the fact that as to candidates with which the people cannot acquaint themselves they vote with apparent blindness. This is shown by the fact that at the last primary in forty-four counties the candidate for Railway Commissioner whose name came first carried the county. In seventeen other counties the reason that the candidate whose name came first did not carry the county seems to have been due to the location of other candidates. As to the office of Superintendent of Public Instruction fifty-eight counties gave their largest vote to the candidate whose name headed the list and twenty-two other counties seem to have been effected by location of candidates. As to the office of Clerk of the Supreme Court seventy-six counties favored the candidate whose name came first upon the ballot while for the office of Supreme Court Reporter eighty-nine counties gave a majority of votes to the candidate whose name came first and in the remaining ten counties it is quite clear that seven others were effected by location, two by the fact that the candidate resided in them. It will thus be seen that for what might be termed minor State offices candidates are being nominated almost by chance and not by deliberation based upon knowledge and judgment as to fitness for the position sought. Can it be said that such results are consistent with the highest type of official service?

These results have led many to conclude that it would be wise to so amend the law as to exempt from its provision all State officers except Governor and Lieutenant Governor. There is much argument in favor of this suggestion and when divested of mere sentiment, there is not much against it.

One of the inconsistencies of the law is that we require candidates for State offices to go before the people at a primary but we select delegates to the State Convention, which may be called upon to nominate candidates for State offices, through a county convention. Were I writing a primary law I should provide that the delegates to the State Convention should be elected at a direct primary, would forbid the use of proxies and would then nominate candidates for State offices by convention, composed of the men whom the people had selected.

I am not in favor of the repeal of the primary law, but I am in favor of such amendments as will make it fair and just. That wide spread opposition exists as to the entire system there can be no room for dispute, but whether this opposition shall cease and the law become a permanent part of the statutes of our State depends upon whether it shall be freed from its many abuses and objectionable features.

Since there can be no doubt but that when the time comes for the selection of delegates to the National Convention of 1912 a question will be raised as to whether the delegates selected at the recent primaries shall constitute the county conventions to name delegates to the State Conventions which are to select delegates to the National Conventions. I deem it expedient to call your attention to the fact that much difference of opinion exists with reference thereto. Those who hold that the primary delegates chosen last year will constitute the county convention, base their conclusions upon the language of Section 1087-a25 of the Supplement to the

Code as amended, which reads: "The term of office of such delegates shall begin on the day following the final canvass of the votes by the Board of Supervisors, and shall continue for two years and until their successors are elected." While those who hold the opposite view base their conclusions upon the fact that nowhere is there any reference in the primary to anything regarding delegates to a National Convention or to the convention itself, and they further argue, that these are not subjects of legislation for the reason that the National Conventions and committees of each party determine for themselves how conventions shall be constituted and how the delegates thereto shall be chosen. Personally, I have never believed that the primary law applies in any respect to delegates to National Conventions or to anything pertaining to the selection of such delegates. I call this matter to your attention not for the purpose of making recommendation, but simply that you may determine what, if any, consideration you may care to give it.

INSTITUTIONS UNDER MANAGEMENT OF THE BOARD OF CONTROL.

The institutions under the management of the Board of Control demand your most careful consideration. You will find in the report of the board, recently made public, a comprehensive review and discussion of the affairs and necessities of the various institutions and I earnestly request that you make a careful study of this report.

Some of the suggestions made by the board, as well as some not referred to in the report, I desire to call to your attention. Especially would I impress upon you the necessity for a careful study of the chapter devoted to insane and epileptics. The report shows that we now have in our hospitals for insane and our institution for feeble minded children five hundred fifty-one epileptics and that there are perhaps from two to four thousand outside of any institution. It is estimated that twelve to fifteen hundred of these people might be formed into a colony and cared for by the State. That it is very desirable that those now in institutions for the insane and the feeble minded should be removed therefrom is well established and is necessary because of the crowded conditions there existing, as well as for other reasons.

I believe the time has come when our State should begin to make preparations for the care of its epileptics and I therefore recommend that steps looking to that end be taken by you. I wish also to suggest in this connection that any arrangement for the location of such a colony should, in my opinion, provide that it be located near the center of the State and where it would be easily accessible by railroad.

Under the law the superintendents or managing officers of all the institutions, except those of the penitentiary and reformatory, have the supplies for their tables provided at the expense of the State. Whatever may have caused this discrimination originally, it is now grossly unjust and should not exist. It is expected that the Board of Control and the Board of Parole, as well as other officers, when visiting these institutions will stop with the wardens. If this is done the warden must, from his own funds, bear the expense. Because of this fact the Board of Parole, at

least, has recognized the impropriety of stopping with the warden and lodges at hotels. Many demands are made upon the wardens' hospitalities which he cannot afford to meet. I recommend that the same rule which applies to furnishing the tables of the superintendents of the various institutions of the State be extended to the wardens.

There are some conditions existing at our industrial schools which in my opinion should be changed. One of the worst features which I have observed is the existence of what is known as the dormitory system, whereby a large number of girls or boys, possibly as many as thirty to fifty, in some instances, are housed in one room during the night time, and without any attendant except possibly an occasional visit by the night watch. I am advised that the reason that no attendants for night time are provided is due to lack of sufficient allowance to employ them.

I am told by those in charge of the institutions that crime and vice result from these unobserved associations. Some of our more recently erected buildings have been constructed upon the dormitory plan. I recommend that those at the Mitchellville institution be changed to the individual room plan at as early a date as is possible, and that until such time as the changes can be made, night attendants be provided for the dormitories and that attendants for the dormitories be permanently arranged for at the Eldora institution. There are reasons why the dormitory system is best at the boys' school which does not obtain as to the school for girls, but there should at all times be a watch over the boys in the night time. The reasons are quite obvious and are of such importance as to demand early consideration.

I would suggest also that as an aid to better discipline, and for the protection of the boys and girls, a method whereby the more incorrigible and vicious can be transferred from the Eldora and Mitchellville institutions to the institution at Anamosa be adopted.

In other words, I would recommend a thorough system of gradation, so far as is possible, according to age and also to conduct and habits, extending through our industrial schools and to the reformatory, keeping always in mind the fact that where it can be done it is best to put children into private families or homes.

I want also to call your attention to the advisability of reducing the maximum age limit for admittance. I believe it to be the judgment of the Board of Control and of those in charge of the Mitchellville institution that it was a mistake to advance the age at which girls should be admitted to that institution to eighteen years, and I recommend that you look carefully into this matter and satisfy yourselves as to what is best and correct the mistakes if you believe it to be a mistake.

I have given a good deal of thought and consideration to the hospital for inebriates at Knoxville, and believe it to be my duty to say to you that the results accomplished there are far from being satisfactory. I have doubted very much the wisdom of continuing the institution, and yet I am not ready to recommend that it be abolished unless provision is made for caring for some of the inmates elsewhere. I am, however, convinced that as between continuing the institution as it has been run and abolishing it and using the building and grounds for some

other state purpose, it would be wise to abolish it. It has not been an entire failure, but it has not succeeded to that degree that would justify its continuance under present methods. I have discussed the condition existing with the present superintendent who took charge the first of last October, and with members of the Board of Control, and I believe we pretty generally agree that some radical changes should be made.

At present there is great lack of ability upon the part of the superintendent to enforce regulations and to inaugurate and enforce methods which he believes to be necessary to accomplish the purpose for which the institution was created. There is absolutely no means of restraining a large part of the men. If they want to run away there is nothing to prevent them from doing so. During the last biennial period two hundred and twenty-nine men escaped, and it appears that since the institution was established, January, 1906, out of a total number of two thousand one hundred five new commitments nearly seven hundred have escaped and perhaps only about two hundred twenty-five were returned.

There is practically nothing with which to employ the time of the men, except during the farming season, and then comparatively little, so that one hundred and fifty or more who are capable of doing work and who ought to be made to work are constant loafers at the state's expense. One of the first needs of the institution is to equip it with means of furnishing employment for every man who is able to work and then clothe the superintendent with authority to require him to work. Make it an institution of correction and reformation and let every man who is sent there understand that he goes there to be disciplined and to remain until he is capable of properly conducting himself at home. This would necessitate the establishment of proper means for restraining the men, provisions for enforcing the conditions and paroles, and general enlargement of the powers of the superintendent and others in authority, but in my opinion nothing short of this will justify the continuance of the institution.

Some of the persons sent there need medical attention, perhaps when first committed most all of them do, so that it would be necessary to maintain a hospital, but a large per cent of the inmates, after the first few days or weeks, at most, are abundantly able to work and need to be thoroughly disciplined. Nothing would have a more lasting or beneficial effect upon such individuals than a few months of labor. In other words, the institution should partake both of the nature of a hospital and a reformatory. It is impossible to determine what per cent of those committed to the institution are cured. The present management does not seem to regard the published figures as being reliable, and the means of securing information are not sufficient to enable a correct conclusion to be reached.

I am recommending further along in this message the creation of a committee to which I believe this entire matter should be referred. The superintendent and the members of the Board of Control should then be asked to come before the committee, and this whole subject should be gone into carefully and thoroughly.

There has been considerable demand, ever since the establishment of the Board of Control, to have the schools for the blind and deaf classed with the educational institutions. In view of the recent establishment of a State Board of Education with a finance committee which devotes all of its time to the institutions and also because of the enormous amount of work devolving upon the Board of Control, I am strongly impressed with the idea that it would be wise to transfer these schools to the care of the State Board of Education.

I have discussed the advisability of this transfer both with the Board of Control and the finance committee of the State Board of Education, and while the former would, perhaps, not recommend the transfer, it does not oppose it, and the latter body is ready and willing to accept the control of the two schools referred to if the transfer is deemed by you to be advisable.

GENERAL OBSERVATIONS.

There are a few general observations which I desire to make as to matters pertaining to the Board of Control and its affairs. First, let me say that when the board was created the law provided that the term of office of the members should expire in April of the year in which the sessions of the legislature were held. At that time the sessions were held in the even numbered years. When they were changed to the odd numbered years and no change was made in the terms of the members of the board, it left them to expire one year after the adjournment of the legislative session. I recommended a restoration of the original custom except that it would perhaps be better to make the term expire at the end of the fiscal year, June 30, instead of in April. In order to accomplish this, I would recommend that the present term of each member of the board be extended one year, so that they, too, will expire in the odd numbered years, 1913, 1915, etc.

It is my opinion also that the law as to confirmation should be changed so as to provide that only a majority of the Senate, instead of two-thirds, might be required.

Under the present method seventeen members of the Senate can defeat the will of the remaining thirty-three members and of the Executive, which belittles rather than dignifies the importance of confirmation.

I believe that greater good and more satisfactory results would be obtained if a recess committee were provided for, which committee would have authority to visit, inspect and investigate all of the state institutions between sessions of the legislature and be ready to report when the General Assembly convenes, than to continue the present junket system. I would require the Board of Control to make up its report and file its estimates in such time that the committee could thoroughly study and investigate them before the legislature convenes. It might be wise also to permit the committee to visit the institutions of other states for the purpose of making comparison and gaining information.

I believe, too, that a study of the cause and prevention of insanity, epilepsy, criminality, etc., should be entered upon scientifically by some competent and properly constituted body or committee with a view to preventing as well as caring for or curing diseases and diseased.

Before leaving this subject I want to recommend a thorough and careful review and study of the laws governing the Board of Control and of the methods in vogue. It would seem that in some instances the Board has regarded the provisions of the law as scarcely workable and has adopted methods not easily reconciled with the statute. Especially does this appear to be true as to the manner of purchasing goods and awarding contracts. If the law is not easy of application or is defective, it should be amended, but if not so amended it should be strictly complied with. One of the things complained of to me is that of a lack of publicity of information as to prices paid for goods and the sources from which purchased, the board having held that this information should be kept from the public, assigning as a reason that by so doing it has been able to get concessions by way of prices. While this may be true, it can scarcely be denied that such a course might also be used as a cloak for wrong doing, and it would be difficult to assign any very good reason why the state should expect to receive any better prices than individuals or firms who handle an equal amount of goods or wares. I believe that the plan which is safest and least open to criticism is to let the public know what its officials are doing, and this can best be done by a reasonable amount of publicity, or at least by furnishing information on request.

In my opinion some of the institutions have an unnecessary amount of money invested in supplies, other than provisions. In some instances numerous articles are found in the storerooms that apparently will not be needed for many months or even years. While the amount of money thus tied up may not be large, it, nevertheless, would seem to me to be wise for the Board of Control to require the steward of each institution to furnish a complete inventory of everything on hand, if such information is not already in the board's possession, and where a surplus of anything is found to exist and will not be needed within a reasonable time, transfer it to some other institution where needed, giving proper credit therefor.

During the last session of the legislature a special committee from the House to investigate the hospitals for insane was created. In view of the general tendency in that direction, as well as by reason of the unusual amount of criticism and comment during the last year, there is little doubt but there will be a disposition to inquire more closely into institution matters this session than previously. If any investigation is undertaken it should be by an unprejudiced and unbiased committee, whose purpose should be to ascertain the real condition of affairs for the betterment of the institutions themselves. Then, too, there are many matters which the board will want to present which have a bearing on its work generally as relates to a number of institutions under its control. The House has various committees on the different institutions under the management of the Board of Control, but the Senate has not. I there-

fore suggest that a committee of small membership from each house be appointed to consider Board of Control matters; that the committees be empowered to act jointly and to hear all matters which the board may wish to present to it, and may also inquire into or investigate any board or institution affairs that it may deem proper. Such a committee, if provided for, should be named in the same manner as other regular committees, so that the presiding officers can exercise the greatest freedom in determining who are proper parties to serve upon such a committee.

BOARD OF PAROLE AND INCREASE IN PRISON POPULATION.

A study of the report of the Board of Control and of the Board of Parole will disclose the fact that our prison population has increased quite materially since the establishment of the latter board. The average number of prisoners at Fort Madison for the last biennial period was 487, as against 443 for the preceding period, and at Anamosa it was 437, as against 354, or an average increase in the two institutions of 127.

The number of prisoners received at the two institutions during the last biennial period was only 803, as against 843 for the preceding period. It seems quite clear, then, that the increased average daily number of prisoners in the two institutions is not due to increase in crime, but to the lengthening of the time of service occasioned by the operation of the new law creating the Board of Parole and providing for an indeterminate sentence. No doubt this lengthening of term of service applies in greater degree to those having previously served in prison than to first term men, but as to this there are no figures obtainable. I am in full sympathy with the Board of Parole and indeterminate law, but I would so amend it as to lodge more discretion with the board and afford better opportunity for observing the conduct of paroled men so that greater clemency might safely be extended.

At present the Board is only allowed compensation for not to exceed one hundred days in each year. I believe the time has arrived when the members of the Board should be put upon a salary and their entire time should be required in the performance of their official duties. If this be done, in addition to having much more time to devote to the work now done by the Board, I believe that the members could also look after the paroled men, both as to securing employment and observing their conduct, thus obviating the necessity for a parole agent.

Furthermore, I would repeal that provision of the law requiring applications for pardon or parole of prisoners who have been found guilty of murder in the first degree to be submitted to the legislature, leaving the Governor to act independently, or I would confer the power now lodged with the legislature upon the Board of Parole, as I believe that every one of you who has ever served upon the committee of pardons will bear me out in the statement that within the short time of your sessions and the time you have to devote to investigations and hearings it is wholly impossible for you to so acquaint yourselves with the facts and circumstances as to be able to intelligently pass upon applications. Then,

too, applications from this class of prisoners must wait until the meetings of the legislature, thereby giving only three months in two years for considering such cases, whereas, the Board could hear them at any time.

I think, also, that there are some classes of crimes where the maximum limit of punishment might be thrown off and leave it to the discretion of the Board as to the length of service. I am strongly in favor of exercising a great degree of clemency with first offenders, where the family history and all the circumstances are well and favorably known, but I am likewise a believer in severe punishment for the habitual criminal. Possibly the following is a suggestion which you will not be prepared to receive, and I may be called an extremist in suggesting it, but I believe the time is coming when neither courts nor legislatures will concern themselves with the length of time of service of criminals, except as to those guilty of murder. Legislatures will determine the character of crimes for which criminals shall be committed to a prison. Courts will determine the question of guilt, and Boards of Parole and Pardon will determine how long the convicted should be incarcerated. In other words, the Board of Parole will become a branch of the court. This I believe to be the ultimate and proper sphere of a Board of Parole, when the system reaches a degree of greater development and perfection.

The work of establishing a reformatory at Anamosa has only been fairly begun. While I have no desire to criticise what has been done, there is no question but that it should be extended. Men who are sent out from the institution ought to be able to take up some regular line of work, and the fact that they are not able to do so makes it difficult for employment to be found for many of them, and where men are not able to secure employment there is much greater danger that they will go wrong. Our institution is much behind those of some other states in respect to the training given the men at the reformatory, and I do not deem it necessary to more than call your attention to this matter.

The question of providing a means whereby a part of the earnings of each prisoner may be used for the support of those dependent upon him is of vital importance, as many women and children are left as objects of charity and often to suffer severely by reason of having no one to assist in their support. Where there is no one dependent upon the prisoner the fund might be allowed to accumulate and be turned over to him at the time of his release to assist him in getting started. I, however, seriously question the wisdom of turning money over to a prisoner to be used upon himself while in prison.

The Board of Parole has recently made public its first printed report of its doings and transactions, and I respectfully direct your attention to it, as it will furnish much valuable information.

PARDONS, PAROLE, ETC.

As soon as the report can be put into published form there will be laid before you in detail information with reference to pardons, suspensions, restorations, commutations and remissions covering the period of my ad-

ministration, but for your present information I will say that fourteen pardons have been granted by me, one of which was upon recommendation of the Thirty-third General Assembly and nine upon recommendation of the Board of Parole. I have paroled from the penitentiary and reformatory twenty-six persons, one of which was upon recommendation of the Board of Control and nineteen upon recommendation of the Board of Parole. Seventy jail sentences have been suspended by me. I have restored to citizenship, upon recommendation of the Board of Parole, seventy-nine persons, and upon my own initiative thirty-four, making a total of one hundred and thirteen. I have revoked the parole of six persons who had been released from the penitentiary and reformatory, and have, likewise, revoked the suspension of sentence of four individuals who had been released from county jails. One prisoner has had his sentence commuted by me upon my own initiative and six upon recommendation of the Board of Parole. I have remitted twenty-two fines and two forfeitures.

BETTER HIGHWAYS.

The question of better roads has received more than usual attention during the last year. Many meetings have been held in various parts of the state and great interest has been taken in the matter of road building. Many of the highways of the state have become models of dirt roads, and with constant attention I believe can be kept so most of the year. Especial consideration has been given to what is known as the River-to-River Road, connecting Council Bluffs with Davenport and following generally the line of the Rock Island Railroad, and to the transcontinental road between Council Bluffs and Clinton and following the general course of the Northwestern Railroad. And now it is proposed to establish a route through the southern part of the state to be known as the Blue Grass Road, and connecting Council Bluffs with Fort Madison. Also one in the north part of the state, to be called the Hawkeye Route, connecting Dubuque and Sioux City. Perhaps the best and most scientifically constructed highway to be found in the state is that connecting Montezuma, Malcolm, Brooklyn and Grinnell, in Poweshiek county. It is built by contract out of the one-mill levy extended by the Board of Supervisors.

I believe that some legislation is needed with regard to highway construction and maintenance. I would clothe the Board of Supervisors with power to employ a competent engineer to work under the direction of the Board. I would abolish the office of county surveyor and have the duties now devolving upon him performed by the engineer. As a special fund to be used for dragging the roads, I would set aside one-quarter or one-third of the taxes collected for road purposes and to be expended by the trustees, and would forbid its use for any other purpose than that of dragging. Then it should be provided that the work of road building should be done before the fall of the year, when to work the roads, except to drag them, means to put them in condition often almost impassable during the winter and spring months.

One of the just sources of criticism regarding the expenditure of road funds is that too much of the money collected for road purposes is invested in heavy and costly machinery which is unnecessary in the care

of the roads. Some such machinery is needed, but too much is simply a waste of funds. I urge upon you careful consideration of the question of better highways. I do not, however, recommend an increase in the levy for road purposes, but the adoption of means whereby better results can be had from the income from the present levy.

If hundreds of miles of roads can be put in shape and kept up on the present levy, why cannot many thousands of miles be so kept if proper attention and care is exercised?

The question of state aid in the building of highways has been a subject of much discussion. I am not opposed to state aid, but it is well to consider where the money to be offered by the state is to come from. Some people discuss the question of state aid as though the state had unlimited means, derived elsewhere than from the taxpayers. At present more than fifty-three per cent of all the money expended by the state comes from the three and three-tenths mills levy for state purposes. It scarcely needs to be suggested that to offer any considerable amount in aid of road building would mean an increase in the levy for state purposes unless there are other means provided for raising the funds. A few years ago, when the primary election law was enacted, it contained a provision that the state should pay one-half of the expense of holding the primary. It only required one election to show the people that the money the state paid to the counties it first collected from them. The law was repealed at the first session of the legislature following its enactment. If the people of the counties want to contribute to the state in order that the state may turn the funds back to them by aiding in the construction of highways, I do not object, but I only wish to recommend such use of the funds now provided for as will, in my judgment, bring about better and more satisfactory results.

It is well here, also, I think, to say that the use of wide-tired wagons has proven a great aid to the keeping of highways in better condition. It has been suggested that after a given time none but wide-tired wagons be permitted for hauling heavy loads along the public roads. This is a suggestion that is worthy of your consideration.

I believe that the road laws of the state should be re-written in order that they may be simplified and brought together in one continuous enactment.

FISH AND GAME.

The last session of the General Assembly enacted a law providing that all persons desiring to pursue the pastime of hunting in the state should procure from a county auditor of some county of the state a license, for which an annual fee of one dollar should be paid. The fees derived from the sale of the licenses were to be forwarded to the treasurer of the state and were to constitute a fund to be known as the "Fish and Game Protection Fund," which should be used for the protection and propagation of fish and game and for the care and preservation of the lakes. An unexpectedly large amount of money was received in this fund, which for the first year amounted to \$107,798, and since July 1, 1910, \$68,293 has been received. There were in the treasury January 1st of this year \$121,823.21 to the credit of this fund.

The remainder of the fund collected has been expended in maintaining the Fish and Game Department, in the employment of deputies, in the care and preservation of the lakes, and in the protection and propagation of fish and game.

I am advised by the State Fish and Game Warden that since the fund above referred to was created he has had placed in the lakes of the state more than 300,000 game fish of adult size, and has seined from ponds and bayous of the state and placed in the streams more than 1,000,000 fish of varying sizes; that he has bought and had distributed over the state for hatching 6,500 ring-necked pheasant eggs and has bought and placed with farmers and others for breeding purposes 1,800 pheasants; that he has established in the state two small game farms, one in Pottawattamie county and one in Blackhawk county, and that he has contracts for delivery between December 15th last and the 1st day of March 10,000 Hungarian partridges, which are to be distributed over the state.

It is his purpose to continue his efforts until, if it is possible, the state may be thoroughly stocked with game birds of the varieties above named and the lakes and streams of the state may be well supplied with fish.

LAW OBSERVANCE.

Two years ago, when I delivered my inaugural address, conditions in the state were such that it seemed not only appropriate, but necessary, that I emphasize the necessity for better observance of the laws of the state, especially the laws relating to the sale of intoxicating liquors.

The General Assembly then in session enacted a number of statutes the purpose of which was to secure a better observance of law and also better and cleaner official service. While there has been much criticism of this legislation, there is no doubt but that it has resulted in bringing about better service upon the part of otherwise lax officials and has secured a better observance of laws in general. In my opinion the liquor laws of the state are better enforced today than they have been at any time in recent years.

THE DEATH OF SENATOR DOLLIVER.

The state was greatly shocked at the news of the death of Senator Dolliver, which occurred on the evening of the 15th day of October last, at his home in Fort Dodge. At the time of his death he was representing our state as its senior member in the United States Senate, and his death caused a vacancy which I have filled by the appointment of Hon. Lafayette Young. As you are aware, his appointment lasts only until your honorable body fills the vacancy or adjourns without filling it.

There has been much talk about the legislature's withholding action on the matter of electing a senator and providing for a special primary, so that the people may express their preference with reference thereto. The law clothes you with all the authority necessary to act and enjoins upon you the responsibility of filling the vacancy, and I trust that you will do so in due time.

REFERENCE DEPARTMENT.

I have found the reference department, under the supervision of Mr. A. J. Small, of the Law Library, to be of great value in the study of new laws and in securing current information upon any subjects pertaining to the affairs of the different states, and especially legislation proposed or enacted by them. I desire to in this manner commend the work that has been done and to recommend that provision be made for its continuance and extension.

Stipe of Page offered the following Concurrent Resolution, asked unanimous consent for immediate consideration, and moved its adoption:

CONCURRENT RESOLUTION.

WHEREAS, The great majority of the people of the State of Iowa want the World's Panama Exposition held in New Orleans, for several reasons:

First. Because of New Orleans' convenience to them. The average time required for the people of Iowa to reach the city of New Orleans is thirty-six hours, while the time for Iowa people to reach San Francisco is four days; the average distance from Iowa to New Orleans is 1,045 miles, while from Iowa to San Francisco it is 1,892 miles; the average railroad fare from Iowa to New Orleans is \$24.85, while the average fare to San Francisco from Iowa is \$52.85.

Second. Because an exposition in New Orleans will be of great value to the entire Mississippi Valley by directing attention to the necessity of developing our inland waterways, so as to bring to shipside, at the lowest possible rates, the products of this great valley. This will be of inestimable value to the Lakes-to-the-Gulf Deep Waterways movement. Instead of aiding the Mississippi Valley and its projects, an exposition in San Francisco will draw people and capital therefrom to the Coast.

Third. Because an exposition in New Orleans, the natural gateway for trade with Latin America, will operate to greatly improve our commercial relations with the twenty republics to the south of us. Their total foreign trade for 1909 was \$2,127,301,000. Of this our exports were only \$220,276,000, or about 10 per cent. The other 90 per cent went to England, Germany and other foreign countries. That trade belongs to us, and a very large percentage of it to the Mississippi Valley. An exposition in New Orleans, 2,000 miles closer to all of Latin America than San Francisco, will do far more to secure that trade than will a Pacific Coast fair.

Fourth. Because 75 per cent of the people of this country can go to an exposition in New Orleans, spend four to seven days, and get back home

in less time than would be required for the round trip to San Francisco, and at one-fourth the expense. In other words, because an exposition in New Orleans would be of and for the people, and one in San Francisco would be a "rich man's show." Therefore, be it

Resolved, by the House of Representatives, the Senate concurring, That we endorse the city of New Orleans as the logical point, and ask our United States Senators and Representatives in Congress to vote for the location of the World's Panama Exposition in the city of New Orleans, Louisiana.

Miller of Bremer moved to amend by striking out the words, "New Orleans, La.," wherever it may occur therein, and inserting in lieu thereof the words, "San Francisco, Cal."

Zeller of Madison moved that action on resolution and amendment be postponed to Thursday of next week.

Motion to postpone lost.

Motion prevailed and resolution was adopted.

Inaugural address.

GOVERNOR B. F. CARROLL'S INAUGURAL ADDRESS.

Members of the Thirty-fourth session of the General Assembly, January, 1911:

In assuming, for a second time, the duties of Chief Executive of our State, I want to acknowledge with gratefulness the continued confidence that has been reposed in me and the honor that has again been conferred.

In the two years lying before us I shall put forth every possible effort to so conduct the affairs of the state as to merit the consideration that has been so generously extended by the suffrage of our people.

A few days ago I transmitted to you a message in which I discussed at length many subjects pertaining to the affairs of the state and made a number of suggestions as to matters of legislation. In this address I shall deal more particularly with the growth and development of the state and with those questions which relate to the doings and actions of the people as a whole, rather than to their officials and to the General Assembly.

FIFTY YEARS OF DEVELOPMENT.

I have witnessed fifty years of development of our splendid Commonwealth. It is true that during the first years of the fifty I was not of that age to give particular attention to the growth of the state, but my field of observations grew with my years until recently it has been my privilege to see and study it from every side and from every corner.

In the half century that has passed I have seen much of the cultivated portion of the state emerge from the prairie grass and from the forests and have seen its methods and customs arise from the most crude and primitive to the most advanced and enlightened. From the little old diamond plow, the mowing scythe and the cradle, the pepperbox threshing machine, the ox cart and the linch pin wagon, we have come along to the use of the two row cultivator, the self binder, the threshing machine that cuts the bands, feeds itself and stacks the straw, and to the automobile as a means of conveyance. We have converted the sod house of Northwest Iowa and the log hut with its stick chimney and puncheon floor of the wooded sections, into the splendid and magnificent city and country homes of all parts of the state. We have elevated labor and broadened the field of activity for the business man. We have dignified and ennobled every profession known to our state and, above all, we have established a splendid and noble citizenship not excelled anywhere. All of this has come about in little more than a generation, and to my mind the possibilities of the future are as promising as the fulfillment of the past has been marvelous. The credit for all of this and the prospect for the future we owe, in a large measure, to that generation of sturdy men and women who came into our state during the first half of the last century and who were the real pioneers of that day and age.

Well do I remember the stories of early life in southeast Iowa as told by those settlers and with what anxiety and earnestness those commonplace people struggled with the hardships and privations of pioneer days. That which was the experience of southeastern Iowa was later the experience of the northwest and of almost all parts of the state. My memory reaches back to the closing days of that period when we had no means of reaching the outside world except by team and wagon and when we were almost an Empire shut up within ourselves. When the wheat and corn upon which the family subsisted were ground into flour or meal with the little water mills standing along the local streams, and when the clothing that covered the family was clipped as wool from the back of the sheep, carded by hand, spun into yarn by the women of the family, woven into cloth and made into clothing by the same hands. When the shoes which protected the feet from the cold of those severe winters were

made upon the cobbler's bench, during the evening hours, by the father or the large brothers of the family. Not a small part of the meat upon which the family subsisted consisted of small game, turkeys and deer, killed in the fields and forests.

Those pioneers were men and women of courage and determination and they were preparing this fertile Empire, which we call Iowa, for a great and glorious Commonwealth and whether they hailed from the timbered sections of the south and east or from the bleak prairies of the north and west they were building and planning for the future, and who is there now to rise up and and say that the work of that generation was not wisely and grandly done?

SIXTY-FOUR YEARS A STATE.

We are now in the sixty-fifth year of our statehood. During that time nineteen different individuals have occupied the position with which you have honored me for a second time. Eighteen of these men came from states other than Iowa. New England has furnished us six executives, viz.: Grimes, from New Hampshire; Merrill, from Maine; Briggs and Shaw, from Vermont; Hempstead and Larrabee, from Connecticut. Maryland gave us Kirkwood; Illinois, Drake; Ohio, Lowe and Garst; Pennsylvania, Carpenter, Newbold and Cummins, while New York was the birthplace of Stone, Gear, Sherman, Boies and Jackson. These men have done much to bring our state up to the high standing which it now enjoys in the sisterhood of states.

Some of them came to Iowa when it was yet a territory and assisted in laying the foundation upon which the Government of the Commonwealth is builded. They were members of the early assemblies and of the constitutional conventions. At that time the population and wealth of the state was largely confined to the eastern portion, but its settled territory extended quite rapidly. Our progress has been almost constant and our development very marked. Lands which cost the Federal Government from three to eight cents per acre are now worth as much as \$200 per acre. We have grown in population from about 96,000 in 1846 to nearly 2,225,000 in 1910. We have converted our forests and prairies, almost 55,000 square miles in area, into as many square miles of cultivated and productive land. We furnished nearly 70,000 Civil War soldiers and our full quota of Mexican and Spanish-American War volunteers. We have increased the production of our greatest staple, corn, from 1,400,000 bushels in 1846 to nearly 355,000,000 bushels in 1910. We have established in the state 1,656 banks and banking institutions with deposits approaching \$400,000,000. Our insurance interests are scarcely second to those of any of the older states. We have builded and are operating more than 10,000 miles of railroad. The value of our crops for the last year exceeded \$362,000,000. While the total value of farm products, including live stock, exceeds, \$800,000,000. We have given to the nation the greatest agricultural state in the union.

LOSS IN POPULATION.

We have been hearing a great deal about the loss of population. What signifies the loss of 7,000 people out of a total number of two and one quarter millions? It takes three decimal places to find the figure representing the per cent of decrease.

Accepting the figures showing the population as being correct, and yet there is a perfectly rational explanation for the decrease which does not in any manner reflect upon the state or its material interests. Let me say in this connection that the national census of 1900 shows the population of the state to have been 2,231,858, while the state census of 1905 shows only 2,210,050, or a loss of 21,808. The census of 1910 places the figures representing the total population at 2,224,771, which shows a gain of 14,721 during the last five years. During the ten year period, however, there is shown to be a loss of 7,082. The number of farms in the state as shown by the 1900 census was 228,622 and by the recent census 216,807, or a decrease of 11,815. It certainly cannot be said that any land has actually been lost to the state, but it must mean that more than 11,800 farms have been consolidated with other farms and it is reasonable to assume that the families previously occupying the farms thus lost, being farmers' families, have, in general, sought homes elsewhere than in Iowa.

The average number of people to each farm, as shown by the census of 1900, was a little more than five and one-half, which, applied to the decrease in the number of farms, would mean a loss of more than 65,000 of the farming population of the state. There are many things which may have had to do with this change in population, but to my mind by far the most potent influence has been the very rapid advance in the high priced farms and go elsewhere to buy cheaper lands. Then, too, there is little doubt but that the young man just starting for himself and the man of small means have taken their families and gone where a quarter or a half section of land could be bought for less than an eighty acre tract can be bought for here in Iowa.

The same census enumeration which credits us with a decrease in population has done us the kindness to furnish other figures that present a very different picture and tell a very different story. For example, the recent census shows that the value of Iowa farm lands from 1900 to 1910 increased in round numbers from \$1,256,000,000 to \$2,800,000,000, or about 123 per cent. The value of buildings alone increased nearly 89 per cent. The value of farm implements and machinery increased nearly 65 per cent. The expenditures for labor increased from \$16,376,000 to \$24,732,000, or 51 per cent. Can any one study these figures and those that I have heretofore quoted and conclude that there is anything seriously the matter with Iowa?

LOSS IN SCHOOL POPULATION.

I do not feel so deeply concerned about the loss of a few thousand people from our general population as I do about the loss in school population. From 1900 to 1910, as shown by the annual school enumeration, the school population of the state decreased from 731,154 to 677,204, showing

a loss of 54,150 persons of school age in ten years, being almost seven and one-half per cent decrease. This would indicate that in the main our loss in population consists of the younger men and women who are the parents of children less than twenty-one years of age. The result is that the attendance in our public schools, especially in the country schools, has been constantly decreasing.

In 1908 there were 1,752 schools in the state with an enrollment of ten pupils or less, while the report for 1910 shows 2,071 such schools. If this rate of decrease in attendance keeps up for a few years what is to become of the country school? We are confronted with no more serious problem than that of the rural schools. Some people have attributed our loss in population to our country schools and their methods. It would seem to me a much more reasonable criticism to attribute the condition of the country schools to the loss in population. Restore the old time number of pupils to the rural school districts and the solution to the school question will be greatly simplified.

During the last ten years the average size of the farms in Iowa have increased from 151.2 acres to 156.3 acres, or about 3.4 per cent, while the per cent. During the same period the decrease in school population has decrease in general population has been only about three-tenths of one been almost seven and one-half per cent. As previously shown much of the loss in school population is confined to the country districts, which indicates, not only a movement from the state, but from the country toward the cities and towns. This is a condition not peculiar to Iowa alone, but has been the experience of other of the older and more densely populated states, some of whose farms have been practically abandoned.

KEEP THE BOY ON THE IOWA FARM.

The slogan "Keep the boy on the farm" should be changed to "Keep the boy on the Iowa farm." It is likewise important that we encourage the girls to remain on the farms. Proper credit has never been given to the girls and women for the part they have taken in the development of the state. The women of Iowa have met every requirement that could be expected of wives, mothers and daughters. Every inducement should be held out both to the girl and to the boy who show a disposition to interest themselves in those things pertaining to country life to get them to stay upon the farm. It is not, however, every farmer's boy who would make a good farmer nor every girl who would make a good farmer's wife any more than it is every merchant's son who would make a good merchant or every lawyer's son who would make a good attorney. It used to be thought that if a boy did not show an aptitude for anything else he would make a good farmer, but the day of such way of thinking has passed. It requires brains and energy to make a good farmer, just as it does to succeed at any other line of business. The boy who can succeed at farming will find no more honorable or profitable occupation.

How can we encourage people to remain upon the farm? By making farm life more attractive. The farm home should be the equal in all respects to the town or city home and with the independent systems of light, heat and water it is possible to so equip the country home as to make it the equal of any other.

I have been delighted, as I have gone about the state, to see the marked development along the lines above suggested. The figures previously quoted showing an increase of nearly 89 per cent in the value of buildings in ten years means that we are building better farm as well as town structures.

The improvement of our highways so as to bring the country home into closer relation to city and town life would, in my opinion, prove a potent factor in lessening the tendency to abandon the country. In this too we are making progress.

We have reached the period in our country's development when farm life means more than the raising of horses, cattle and hogs. It means all that and it also means the development of the highest type of American manhood and womanhood. Nowhere in all the realm of professional or business life do we find more successful men and women than those who came from the farm. The atmosphere surrounding the country home means the development of strong minds and bodies. What is it, then, that causes a constant stream of young people, as well as those of older years, to leave the farm and seek employment in the cities and towns? While there may be many answers to the question, it seems to me that there are a few very potent and obvious reasons, among them being better wages obtainable, the shorter hours of labor, employment usually throughout the year, better social advantages and the fact that the high price of lands makes it difficult for the man of small means to equip himself with land, machinery, etc., necessary to engage in farming upon his own account.

This again furnishes a reason why our state has lost in population. The young man seeking employment other than farming, failing to find it in this state, goes elsewhere where manufacturing is engaged in more extensively, or where the kind of employment he desires may be found. This loss can only be overcome by the establishment of such industries as will keep our young men in our midst.

To check the drift of people from the country to the cities and towns, will, in my judgment, require a revival of social life in our rural communities. Many of the old time social features of the country have disappeared and a sufficient substitute therefor has not been found. The natural result is for the people to seek places of entertainment and amusement in the nearby city or town, and eventually these things draw them away from the country.

OTHER REASONS.

It seems to me that I have suggested some, at least, of the more apparent reasons for the loss of much of the population that annually leaves our state and is not wholly offset by people coming from elsewhere, as well as having touched upon the real causes of the drift from the country to the cities and towns. There are, not doubt, many other reasons for changes in population such as a desire for different climate, opportunities for speculation in lines of business not common to our state, a desire to engage in fruit and other farming such as is done in the irrigated

sections as well as because of the natural tendency toward changing about from place to place. Some one has quite aptly suggested that there are three classes of people required in the development of every new country. First comes the pioneer, who often does little more than to blaze the way and moves on. A second class comes in and takes his place and brings the country up to a fair stage of development; and then gives way to the third class, who become the permanent occupants of the country. It is the first and second classes, or the pioneer and the near pioneer, that we have been losing. It is only the natural order of things and it means that we have reached this third or highest stage of development.

I shall not say that there is no merit in the suggestion that our political strife has had an unwholesome effect upon the state. While these things may not have driven any one from among us, I do not apprehend that they have in any way encouraged people to locate here. No business man ever seeks a battle ground, either bloody or bloodless, upon which to make an investment, at least not until the battle is ended, and certain it is, that capital is not going to flow readily to a state where uncertainties exist as to the conditions under which it may be invested and handled. Neither do I believe it to be any encouragement to our business interests to have our state better known away from home by reason of its political and factional feuds than for its broad acres and immense crops. The terms "progressive" and "standpats" as used in this state to represent discordant elements, have never induced one man or one woman to locate in the state. There is evidence upon every hand and from almost every county that these bitter factional alignments have had their influence upon local business conditions of the various communities. Men have been known for these reasons to change their places of banking, of purchasing goods and of transacting business in general. Even the harmonious and united efforts of business men's organizations have been interfered with because of intense factional feeling. The man who suggested that these things have had a bearing upon the population of the state had much ground upon which to base his conclusion.

Nothing better could come to our state than that there should be an end of these matters. Give the business interests of the state precedence over the ambitions of men and let the people join in a united effort to promote the material welfare of the Commonwealth.

I do not wish to be misunderstood. Where we need new laws, and we do need some, let us have them, and let us have a chance to test their efficiency by requiring that they be observed. No wiser suggestion has been made recently than the suggestion by President Taft, that we halt in our efforts to legislate long enough to secure compliance with laws already enacted so that we may know just what additional legislation is needed. Constant agitation means constant disturbance of business conditions. I sometimes fear that we have been spending too much time inculcating in the minds of the people a feeling of distrust of all public officials and a further idea that nothing can be accomplished except by legislation, state or national. That man is a benefactor who can catch the ear of the people long enough to call their attention to the many things which they can do for themselves.

ADVERTISE AND EDUCATE.

Much has been said recently about advertising the possibilities of our state. I doubt not that much good could be accomplished by judiciously publishing to the country at large the advantages and possibilities of our Commonwealth. While I believe in advertising, I believe also in a thorough system of education, here among our own people. I do not speak these words in any spirit of criticism, because we have been making such marked progress in recent years that in the face of the most severe criticism that one would be warranted in making he feels more like stopping to commend than to find fault, and yet with all this we do not fully realize the possibilities of our state. Our own people do not yet appreciate the almost unlimited resources of our soil when properly handled. We are still tending in the wrong direction, in this, at least, that our farms are increasing in size. Many men make money off of large farms, and there can be no criticism of that, but what we need to learn is more intensified farming. Produce more upon fewer acres. Our farms are capable of furnishing profitable returns for many more people than now occupy them if we will only farm closer. Ground which now yields thirty to forty bushels of corn per acre should be made to yield double that amount. This is no reckless statement and it needs only the application of proper efforts in order to demonstrate the fact. Upon a test, lands in our state have been made to yield more than one hundred and fifty bushels of corn to the acre, which is almost four times the highest average yield for any one year. Wheat has turned out in some instances more than fifty bushels to the acre during the last year and oats has gone from eighty to ninety bushels. These things are the best advertisements that our state could have when they are generally understood. If the average yield of corn could be brought up to fifty bushels per acre, it would be a gain of about twenty-five per cent over last year's crop, or a gain in value of more than \$32,000,000.

We need to have better attention given to reclaiming lands lying along our streams and which, when brought into cultivation, constitute the most productive soil to be found anywhere in the state. This can be done, and in some parts of the state, is being done by straightening the streams and tiling out the ground. The most valuable small farms to be found in the state are the farms that have been thus reclaimed. What was formerly known as the "Duck pond" country of northwest Iowa is fast becoming the most fertile and productive part of the state, through the means of drainage. From the best figures obtainable, it would seem we have already expended more than \$105,000,000 for drainage purposes throughout the state. We have laid approximately 40,000,000 rods, or about 124,000 miles of tile, enough to encircle the globe almost five times. Most of this has been laid since the enactment of our present drainage laws. It is estimated that it will be necessary to expend about \$150,000,000 more to complete the work of drainage in the state. This will mean, when done, that from six to seven dollars per acre for every acre of land in Iowa has been spent for drainage purposes. The increase yield in crops of a very few years will many times compensate for this expenditure of

money. This large increase in the productive capacity of the farms needs to be supplemented by like extension of other interests.

No greater need is felt than the necessity of the establishment of more manufacturies within our midst. Already we have a great many manufacturing industries of a very high character, but there is room and much need for many more. The cement interests of our state are of immense importance and promise great success. We have the largest brick and tile factories in the world and these are supplemented by many smaller ones located in various parts of the state. Our gypsum interests are growing in importance. We have one sugar plant that turns out about one-fifteenth of the amount of sugar used in the state. And the managers of the factory inform me that they would have no difficulty in securing beets enough in the territory where the plant is located to supply three or four such factories. Why might not we be producing not only the remainder of what we consume, but be supplying other places where the growing of sugar beets is not a success? Here is a splendid opportunity for investment of capital. We are extensively engaged in manufacturing machinery used in dairying and in a more limited way in general agricultural pursuits, but there are many lines along which we are far behind states no better located or favored for such things than we are here in Iowa.

Many millions of dollars have gone from us in the last few years to buy automobiles. Why not recognize the fact that the automobile has come to stay and proceed to manufacture them at home more extensively than we are doing at present. We have been helping to make the cities of other states rich by buying their products as well as by furnishing them men and means for carrying on their business.

The use of silos has become so general that there can be no longer any question but that they are to be a permanent thing with us and there is no reason why the silo as well as the machines for preparing ensilage should not be manufactured here in Iowa. All that is needed along these lines is to get the attention of our people directed toward these various interests. We will then have enlarged our demand for labor and for the use of capital, both of which have been going elsewhere to find employment. I believe that our people are beginning to realize the importance of these matters as they have not done heretofore and that we are upon the eve of larger developments along these lines.

LITERARY.

One of the real sources of pride to every citizen of our Commonwealth who stands for higher and better things in the affairs of the state is the fact that while our population is made up of the representatives of almost every nation of the globe, our census of 1905 shows that 98½ per cent of all of the people over five years of age living within the borders of our state can read and write, and of those who have passed school age only one per cent but what can read and write. No where in all of the states of the union is there to be found a more intelligent, thrifty and prosperous people. We are blessed with a large number of small cities,

but are not burdened with any over grown places where the undesirable element accumulates. With the apparently equal advantages that obtain as to the various parts of the state and the well balanced population, we may reasonably expect the interests of the entire Commonwealth to move along in about the same manner. Let the possibilities and opportunities of our state be fully realized and known and the question of population will take care of itself. We have not the cheap lands that other states have to offer. People have been passing by us and going where lands were much lower, but when quality and opportunity are taken into consideration there is no place that offers anything better than Iowa. It takes more money to handle a proposition here than in some of the newer sections of the country, but there is nothing safer and more certain of satisfactory returns than here in our own state. We lost our greatest number of people between 1900 and 1905, when our land values were advancing most rapidly. We will gain back what we then lost and add many more when the relative values of lands are better understood, and when our owners of small farms learn that it pays better to farm Iowa lands closer and better than it does to sell here and go elsewhere for the purpose of getting a larger number of acres of less productive soil.

We need to continue to educate our people in matters of agriculture, the care and cultivation of the soil, the selection of seed, the rotation of crops and the value of animal husbandry. These are our great and natural sources of wealth. I think it will be admitted that we have been making very marked improvements along all the lines I have mentioned, but the work should be continued. I think, however, that some, especially those who have so strongly urged the teaching of agriculture in the rural schools, overlooked the fact that a great school of instruction is carried on throughout the state from one year's end until the next. Thousands of agricultural papers and journals of a high order are sent into the farmers' homes every week, and through them are constantly presented the most advanced and up to date methods and ideas. In addition to this there were eighty-four counties that held short courses and farmers' institute sessions last year. The state also contributed during the same period to the holding of ninety-five county fairs or agricultural societies. Then, too, the farmers themselves are working out many of the problems of successful farm life. Along with the questions of agriculture should come renewed interest in horticulture. Large sums of money were made off of the fruit crop of 1909 and very much more could have been realized if our people had been educated in the matter of caring for, preparing and marketing and in disposing of their crop. We are lacking in this respect much more than in matters of agriculture. Why should we not apply the same methods here to protect our fruit crop that are resorted to elsewhere. We have this year, in Fremont county, an example of the value of smudging. Mr. C. E. Mincer of Hamburg had an apple crop of more than 8,000 bushels, which, according to his own judgment and that of other capable horticulturalists, he saved by smudging, the cost of which was about seven cents per bushel. You who know the market price of apples can readily determine the profit which he realized.

We need also to continue to educate our people in the matter of stock raising and especially in dairying. The one and one-half million of milch cows which we now have should be increased to three or four millions and much greater care should be exercised in the selection of dairy cows so as to eliminate those which do not yield enough butter fat to make their keeping profitable. In my opinion the enlargement of the dairy interests of the state would prove a more profitable and lasting benefit than almost any other kind of farming. It is not only a profitable industry, but dairy farming conserves the productive quality of the soil.

Corn and hogs have brought great wealth to the state, but many other lines of agricultural pursuits are equally profitable.

The poultry industry, while in the main engaged in as an incident to farming, is worthy of much greater attention. The census of 1905 shows that we had, at that time, more than 22,000,000 chickens in the state and that the value of the eggs produced was nearly \$11,000,000.

This review of the various branches of agricultural pursuits might be continued indefinitely, but we need something besides agriculture even here in this great state of fertile fields and fine farms. Here we have coal and capital. Our people are able to consume and do consume the best of everything placed upon the market. We ought to be manufacturing more of the things we consume.

I do not claim originality for the saying "more business and less politics," but I have been advocating it wherever I have gone for many months, and the state will have taken a long stride forward when that spirit shall be caught up from one border of the Commonwealth to the other. Would it not be a good time to revive the Indian meaning of the word "Iowa," viz., "This is the place," and let it be understood to mean the place for business, the place for profitable investments, the place where pauperism is reduced to the minimum. The place where illiteracy is scarcely known, the place of good homes, the place where the most valuable and productive farms in all the world are to be found. These things will not only attract but hold the best people in all the earth.

Time and your patience preclude the propriety of a further continuance of this discussion, but I want in closing, to send a message from the good people of Iowa to those of her sister states and welcome them to this great Commonwealth whose richness of soil, whose character of citizenship and whose opportunities for successful business enterprise are equal to those of any other state in the union. Here poverty is at a minimum and plenty is in abundance. Last year we produced enough corn to equal almost one hundred and sixty bushels for every man, woman and child in the state; enough eggs to have furnished every individual in the state an egg for breakfast every day in the year and to have had a surplus of sixteen million dozen left over; enough butter to have equalled more than two hundred and thirty pounds per year for each family of five persons. In other words, we could have furnished during the single year 1910 for every man, woman and child in the United States practically four bushels of corn, one dozen eggs and a roll of butter.

Though we do not claim superiority as a small grain producing state we nevertheless produced enough wheat last year to have furnished four

and one-half bushels to each individual in our state; enough barley to have furnished seven and three-tenths bushels per capita and oats equal to seventy bushels per capita.

Should we endeavor to load the horses, cattle, hogs, sheep, goats and mules of the state into ordinary size stock cars, eighteen cars to the train, running forty trains per day from this city to Chicago over any one of the trunk lines connecting the two places, start the first train at this hour and continuing every day in the year, the last train would not be moved before the first day of next January.

I shall not portray to you the picture of the Iowa corn crop loaded onto a wagon train moving around the globe, as has been so often done, but will state that last year's crop would require such a train to be more than sixty-five thousand miles in length, or equal to two and two-thirds times the circumference of the earth. Should we today load our corn crop of last year into wagons each holding forty bushels, hitch them behind teams and start them by the state house, double file, allowing forty feet to each team and wagon and travel forty miles a day every day in the year until the entire procession had passed, the last team would not have passed before the regular time for the adjournment of the next session of your honorable body in 1913.

Such is the condition of our state the loss of a few thousand of whose population has attracted so much attention throughout the United States. I take no stock in the suggestion that those people who have gone from among us represent our undesirable population. Many of them are the sons and daughters, the brothers and sisters of the best people in our commonwealth. If you will go to the states to the west you will find that we have sent them the best class of citizens to be found within their borders and that there they are helping to bring those states up to the high standard that we have attained to here in our beloved and beautiful Iowa.

Senator Gilliland moved that United States Senator Lafayette Young be invited to address the Joint Convention.

Motion prevailed and the Senator responded.

ADDRESS OF LAFAYETTE YOUNG BEFORE THE IOWA GENERAL
ASSEMBLY IN JOINT CONVENTION AT THE INAUGURATION
OF GOVERNOR CARROLL AND LIEUTENANT
GOVERNOR CLARKE.

*Mr. President and Gentlemen of the Thirty-fourth General Assembly,
and Ladies:*

I have never been more surprised than by this proceeding. I fear that the Senator from Mills took counsel with his enthusiasm and friend-

I have been interested in Governor Carroll's inaugural address. It contains facts in regard to Iowa which should be widely printed and circulated. Every commercial body in the State should regard this address as a booster document. What he has said about Iowa we can all endorse. But he has gone to infinite labor to place the information in most entertaining and attractive form. This State has only begun. We need more factories, more shops, better agricultural work. We need everything that is inviting. We need contentment and joy. Above all things, we need enthusiasm for the State.

When I am away from home I tell people that our principal occupations in Iowa pertain to agriculture and education. These are the essentials. Agriculture furnishes food which sustains life. Education develops the mind and the soul, making them capable of enjoyment. The world looks brighter through educated eyes. Education will bring appreciation of the comforts one has.

Recently I became absorbed with the idea that we should be educating farmers and mechanics. In doing this we do good two ways. We elevate the man and we add security to the government. We also add dignity to labor. I have sometimes thought the idleness is a greater curse than drunkenness. Every man who slugs another in a dark alley does it to get money without work. Every man who commits forgery does it because he wants to obtain money with which to carry on riotous living without working for the same. Therefore, when we are teaching industry, we are teaching patriotism. When we are teaching boys to work and to love it, we are saving them from a life of crime. Work is a blessing, any way it is considered. Blackstone tells us that property rights began when the aborigine first had a blanket of his own. From that beginning of property came individualism. From that humble start we have the Anglo-Saxon home, the fireside, and children. Any departure from labor, any return to idleness must necessarily be a return to vice. The dignity of labor can be taught in groups better than individually. I find, as a large employer of labor, difficulty in securing apprentices because there are so many boys who have never been taught to work with their coats off and their sleeves up—some of them think they could never become used to wearing an apron. Put these same boys in schools where trades are taught, associate them with others who wear aprons, and who have their sleeves up, and they will forget all about their false pride and will become enthusiastic in their work. Whenever a boy forgets his false pride and learns that all manual labor is honorable, and has enship rather than his judgment. However, since the invitation is extended. I am pleased to respond.

thusiasm in his work, his future is secure and he can be counted upon as a good citizen. We have 91,000,000 people now, and we can't afford idleness. The trade school will make the shop look good. The enthusiasm of association with their fellows will inspire them. They will work with ambition and with hope. The responsibility of citizenship increases with the development of the country, and every man must be concerned about the moral welfare of the people. Every man must be concerned about the future of the boys. Every few years the republic passes into new hands. We ought to have some way to produce patriots without war. We ought to have some way of inspiring a love of country aside from the battlefield. I am growing more and more to be interested in agricultural and industrial education. I deplore idleness. Idleness is a pronounced present-day tendency. There can be no happiness without work, no good homes without it, no patriotism without it. Hence, I am interested in Iowa and Iowa citizenship because we are part of the great republic. I am grateful for the opportunity to say these few words. This is not a partisan occasion. It is patriotic. Here we can talk of a love for the State without a violation of good taste. The love of country should always be superior to any devotion to party or faction. If a man loves the flag and the State, it is easy to discover that he will love his fellow-men. I wish you all health during your stay in Des Moines. Iowa has always had good legislatures. Iowa has not had corruption. We have no occasion to blush when the name of Iowa is spoken anywhere at any time. Hoping I have not violated the canons of good taste, and knowing that I could not after accepting your unanimous invitation, I will now take my seat.

The minutes of the Joint Session were read and approved.

Senator Francis of Dickinson moved that the remarks of Senator Young be printed in the Journal.

Motion prevailed.

PROPOSED BUDGET

FOR THE

BIENNIAL PERIOD, JULY 1, 1911, TO JUNE 30, 1913,

OF THE

IOWA STATE TEACHERS' COLLEGE.

PREPARED BY

HOMER H. SEERLY, PRESIDENT.

August 1, 1910.

Financial Statement Condensed—Showing present support, necessary expenditures, present demand and actual needs of the Iowa State Teachers' College for the biennial period beginning July 1, 1911, and ending June 30, 1913:

I. Teachers' Fund.

	EXPENSE	INCOME
1. Permanent fund now granted annually.....		\$ 87,500.00
2. From student fees.....		10,300.00
3. Additional appropriation needed annually....		22,000.00
4. Salaries of teachers, 1910-11.....	\$104,020.00	
5. Necessary advances and adjustments of salaries	7,480.00	

6. Necessary new teachers:

1. Supervisor of advanced training.....	1,800.00	
2. Professor of commercial work.....	1,500.00	
3. Instructor in commercial work.....	1,000.00	
4. Instructor in domestic science.....	1,000.00	
5. Additional professor of education.....	1,800.00	
6. Instructor in history and economics....	1,200.00	
	<hr/>	
	\$119,800.00	\$119,800.00

NOTE.—The salaries of the superior teachers are of such a basis that an actual increase is essential if Iowa is to compete successfully with other states. Talent such as this College needs when new teachers are to be appointed to fill vacancies or to add to the force of a department is not now obtainable at the scale of salaries paid. There must be considerable advance in salaries all along the line if the work is to be kept at the right standard.

II. *Contingent Fund.*

	EXPENSE	INCOME
1. Permanent fund now granted annually.....		\$ 40,000.00
2. From student fees.....		5,000.00
3. Estimated receipts from contracts with school districts		5,000.00
4. Estimated material sold.....		1,000.00
5. Additional appropriations requested annually		8,000.00
6. Salaries of employes.....	\$ 26,330.00	
7. Increase present salaries.....	1,500.00	
8. New employes	3,670.00	
9. Fuel, estimated	8,000.00	
10. Department supplies, estimated.....	6,000.00	
11. Office expenses, postage, printing, telegraph, telephone, etc.	2,000.00	
12. Quarterly Bulletin, estimated.....	2,500.00	
13. Water, estimated	1,500.00	
14. Superintendent's department—express, freight, special labor and unclassified items.....	5,500.00	
15. Electric light	2,000.00	
	<hr/>	<hr/>
	\$ 59,000.00	\$ 59,000.00

NOTE.—This statement estimates two additional janitors for the library and one additional clerk and stenographer in the office. It also provides for a night engineer, with the intention of opening the library evenings until 10 o'clock. The estimates are all made on a minimum basis and cannot suffer reduction without degrading the service now had.

III. *Summer Term Fund.*

(On the basis of six weeks' term, with fees of \$5 paid by each student enrolled.)

	EXPENSE	INCOME
1. Permanent fund now granted annually.....		\$ 8,000.00
2. Additional appropriation needed annually for next two years on present basis.....		3,000.00
3. Estimated fees paid by students.....		6,000.00
4. Salaries of teachers.....	\$ 15,000.00	
5. Lectures	500.00	
6. Additional teachers	1,500.00	
	<hr/>	<hr/>
	\$ 17,000.00	\$ 17,000.00

NOTE.—Even on this estimate too much dependence is made from year to year upon the expected fees that will be paid by students. Any unexpected condition that would either prevent or interfere with the summer session attendance would place the College in debt, with no funds to meet the contracted obligations. In fact, this term ought to be a free session to the active public school teachers and the money necessary to support such a session should be entirely appropriated. This would mean an appropriation of at least \$25,000 a year, as the attendance would naturally increase.

IV. *Summer Term Fund.*

	EXPENSE	INCOME
On the basis of a session of at least ten weeks, free enrollment being granted to actual teachers		\$ 40,000.00
1. Teachers for such session, estimated.....	\$ 30,000.00	
2. Other expenses	10,000.00	
	<hr/>	<hr/>
	\$ 40,000.00	\$ 40,000.00

V. *Library Fund.*

	EXPENSE	INCOME
1. Appropriation requested for the biennial period		\$ 10,000.00
2. For library books and materials.....	\$ 10,000.00	

VI. *Librarian Salary Fund.*

	EXPENSE	INCOME
1. Appropriation requested for the biennial period		\$ 14,000.00
2. For library salaries.....	\$ 14,000.00	

NOTE.—This estimate is based upon the intention to open the library during the hours from 7:30 a. m. to 10 p. m. if the Board approves the plan and provides the necessary additional assistants needed. It is estimated that three additional assistant librarians will need to be employed, their distribution of time being approximately six and one-half hours per individual.

VII. *Pipe Organ Fund.*

	EXPENSE	INCOME
1. Appropriation requested to pay part purchase cost of pipe organ.....		\$ 5,000.00
2. Necessary expenditure to get such an organ as the school's work demands.....	\$ 10,000.00	
3. Shortage to be made by contributions and lecture fees		5,000.00
	<hr/> \$ 10,000.00	<hr/> \$ 10,000.00

VIII. *Nurse and Hospital Support Fund.*

	EXPENSE	INCOME
1. Appropriation requested for biennial period...		\$ 2,500.00
2. Expense of maintaining such department, \$2.250 per year	\$ 4,500.00	
3. Fees from students, estimated, \$750 per year..		1,500.00
4. Hospital bills paid.....		500.00
	<hr/> \$ 4,500.00	<hr/> \$ 4,500.00

NOTE.—This estimate is based upon the experience of the year 1909-1910. It is necessary to add equipment to the present outfit and to be able to provide domestic help and additional nurses in all cases where the numbers increase beyond the average of three patients. The income from fees does not increase proportionately with the number of patients.

IX. *Fire Protection Fund.*

	EXPENSE	INCOME
1. Appropriation asked		\$ 5,000.00
2. Expenditures necessary	\$ 5,000.00	

NOTE.—The college buildings do not have adequate fire protection. The fire pressure now given by the Cedar Falls water system does not exceed 50 pounds. This is not enough to protect the roofs of several of the buildings in case of emergency, fire from accident or from lightning, and in case of the disablement of the city pumping engine the college would be at great inconvenience and possible loss.

I am of the opinion that a standpipe ought to be erected upon the grounds in the center of the quadrangle and that a pump should be installed in addition to the power house that must be constructed and the proper attachments be made so the college can use its deep well. Provision for protection is essential where such a large investment exists as the State has at the college.

X. *Lecture and Entertainment Fund.*

	EXPENSE	INCOME
1. Appropriation asked annually.....		\$ 3,000.00
2. Lectures, concerts and other instruction for the students outside of faculty instruction.....	\$ 3,000.00	
	<hr/> \$ 3,000.00	<hr/> \$ 3,000.00

NOTE.—The custom for past few years has been to sell a lecture ticket for the season at \$2 to such students as cared to purchase them. This has deprived many deserving students of the privilege to hear the best lec-

turers, the best concerts and the best entertainments that have been procured by the college because of their inability to meet the necessary expenses and yet purchase these additional tickets for admission. These privileges are a necessary part of the work expected of every good college, and no student that enrolls should be refused permission to attend because of not having the means to do so. As a rule, teacher students are in moderate circumstances, and the college should provide these things as a part of the course of study.

SUMMARY OF APPROPRIATIONS REQUESTED.

I. *Permanent Funds.*

1. Teachers' fund, annually.....	\$22,000.00
2. Contingent fund, annually.....	10,000.00
3. Summer term fund, annually.....	3,000.00
<hr/>	
Total annual support.....	\$35,000.00

NOTES.

1. If the summer term is opened free of tuition for six weeks the appropriation would need to be about \$18,000 a year.

2. If the summer term is opened all the summer free of tuition, making a term of about twelve weeks, the appropriation would need to be about \$40,000 a year.

3. If tuitions are removed for the regular sessions it would require an additional appropriation of about \$25,000 annually to properly conduct the college.

II. *Temporary Funds.*

1. Library Fund, two years.....	\$10,000.00
2. Librarian Salary Fund, two years.....	14,000.00

NOTE.—Same as past period, except increase asked in salary fund to enlarge service in the new library.

3. Pipe Organ Fund, special.....	5,000.00
4. Nurse and Hospital Fund, two years.....	2,500.00
5. Fire Protection Fund, special.....	5,000.00
6. Lecture and Entertainment Fund.....	3,000.00

Total.....	\$39,500.00

The support funds are drawn quarterly at the *end* of the quarter. The balances are therefore necessarily large at the beginning of each quarter.

The law requires that the sales of departments and hospital receipts shall be reported separately. The following are the receipts and expenditures for these accounts during the biennial period:

The proceeds of these sales are reappropriated to the departments. They constitute a revolving fund, which, as it comes and goes, results simply in a change in the farm department assets.

Joint Resolution proposing to amend the Constitution so as to provide for the initiative and referendum within this state.

Be It Resolved by the General Assembly of the State of Iowa:

That the following amendment to the Constitution of the State of Iowa be, and the same is, hereby proposed:

There shall be submitted to the qualified electors of the State of Iowa the following constitutional amendment, which, when ratified by a majority of those voting thereon, shall be valid as a part of the Constitution:

Section 1. That Section One (1) of Article III of the Constitution of the State of Iowa be so amended as to read as follows:

The legislative authority of the State shall be vested in the General Assembly, consisting of a Senate and House of Representatives, both to be elected by the people, but the people reserve to themselves the power to propose laws and amendments to the Constitution and to enact or reject the same at the polls, independent of the General Assembly, and also reserve at their own option the right to approve or reject at the polls any act, item, section or part of any act of the General Assembly. The first power hereby reserved by the people is the initiative, and at least eight per cent of the legal voters shall be required to propose any measure by petition, and every such petition shall include the full text of the measure so proposed; initiative petitions for state legislation and amendments to the Constitution shall be addressed to and filed with the Secretary of State at least four months before the election at which they are to be voted upon.

The second power hereby reserved is the referendum, and it may be ordered, except as to laws necessary for the immediate preservation of the public peace, health or safety, and except as to appropriations for the support and maintenance of the department of state and state institutions, which shall be declared an emergency act by a vote of three-fourths of all members elected to each body of the legislature, against any act, section or part of any act of the General Assembly, either by petition signed by five per cent of the legal voters or by the General Assembly. Referendum petitions shall be addressed to and filed with the Secretary of State not more than ninety days after the final adjournment of the session of the General Assembly that passed the bill on which the referendum is demanded. The filing of a referendum petition against any item, section or part of any act, shall not delay the remainder of the act from becoming operative. The vote power of the Governor shall not extend to measures initiated by, or referred to by, the people. All elections on measures referred to the people of the state shall be held at the biennial regular general election, and all such measures shall become a law or a part of the Constitution when approved by a majority of the votes cast thereon, and not otherwise, and shall take effect from and after the date of the official declaration of the vote thereon by

proclamation of the Governor, but not later than thirty days after the vote has been canvassed. This section shall not be construed to deprive the General Assembly of the right to enact any measure. The whole number of votes cast for the Secretary of State at the regular general election last preceding the filing of any petition for the initiative or referendum shall be the basis on which the number of legal voters necessary to sign such petition shall be counted. The Secretary of State shall submit all measures initiated by or referred to the people for adoption or rejection at the polls, in compliance herewith. The petition shall consist of sheets having such general form printed or written at the top thereof, as shall be designated or prescribed by the Secretary of State; such petitions shall be signed by the qualified electors, in their own proper persons only, to which shall be attached the residence address of such person and the date of signing the same. To each of such petitions, which may consist of one or more sheets, shall be attached an affidavit of some qualified elector, that each signature thereon is the signature of the person whose name it purports to be, and that to the best of the knowledge and belief of the affiant each of the persons signing said petition was, at the time of signing, a qualified elector. Such petition so verified shall be prima facie evidence that the signatures thereon are genuine and true, and that the persons signing the same are qualified electors. The text of all measures to be submitted shall be published as constitutional amendments are published, unless otherwise provided by law, and in submitting the same and in all matter pertaining to the form of all petitions the Secretary of State and all other officers shall be guided by the general laws, and the act submitting this amendment, until legislation shall be especially provided for. The style of all laws adopted by the people through the initiative shall be, "Be it Enacted by the People of the State of Iowa." The initiative and referendum powers reserved to the people by this section are hereby further reserved to the legal voters of every city, town and municipality as to all local, special and municipal legislation of every character in and for their respective municipalities. The manner of exercising said powers shall be prescribed by general laws, except that cities, towns and municipalities may provide for the manner of exercising the initiative and referendum powers as to their municipal legislation. Not more than ten per cent of the legal voters may be required to order the referendum, nor more than fifteen per cent to propose any measure by the initiative in any city, town or municipality. This section of the Constitution shall be, in all respects, self-executive.

Section 1-a. Report adopted.

Dixon of Sac, from the Committee on Contested Elections, submitted the following report:

H. S. BOOMGAARDEN, *Contestant*.

VS.

OLAF OLSON, *Incumbent*.

} REPORT OF COMMITTEE.

MR. SPEAKER—Your Committee on Contested Election, consisting of Dixon of Sac, Dawson of Cherokee, Bascom of Dickinson, Byerly of Jones and Leach of Henry, appointed by the House to consider the contest pending in the case of H. S. Boomgaarden, contestant, vs. Olaf Olson, incumbent, respectfully submit the following report to the House:

The first meeting of your committee was held on January 11th and the matter of arranging for a meeting of the committee with the contestant and the incumbent, and the request of the contestant to have subpoenas issued for witnesses H. G. Eggert and E. J. Reigle, were referred to the chairman of the committee, with authority to arrange for the first formal meeting and to have subpoenas issued for the witnesses above named.

Your committee, by the authority of the Speaker and the Chief Clerk of the House, issued subpoenas for the appearance of E. J. Reigle, County Auditor of Lyon County, and also to produce and bring with him for the

trial of this case all ballots cast and poll books used at the last general election in Lyon County, Iowa, held November 8, 1910. And a subpoena for H. G. Eggert, after which the committee adjourned to meet again on call of the chairman.

Now, to-wit, on the 18th day of January, 1911, this cause came on for hearing before the committee, all the members of the committee being present. The contestant appeared in person and by his attorney, S. D. Riniker, and the incumbent appeared in person and by his attorney, J. M. Parsons. The notice of contest and petition of contestant was read to the committee and the answer of incumbent in reply thereto was read to the committee. The contestant in his petition, which is filed herewith and made a part of this report, marked Exhibit A, claims that he is qualified to hold the office of Representative for the Ninety-ninth District of Iowa, consisting of the County of Lyon; that the election held on the 8th of November, 1910, in said county and district, wherein the contestant, Boomgaarden, received 1,274 votes, and the incumbent, Olson, received 1,275 votes, as shown by the official count of the Board of Supervisors, and the incumbent was declared by the said County Board of Canvassers to be elected by a majority of one vote. That the contestant, Boomgaarden, hereby avers, alleges and charges the Board of Canvassers, to-wit, the judges and clerks of election, in each and every precinct in said county committed errors and mistakes in the said ballots cast in said precincts and in declaring the result of the vote in said precinct, and counted and recorded a number of votes for incumbent that should have been counted for the contestant, the exact number of votes so erroneously counted for the incumbent that were cast for contestant being to the contestant unknown. But the contestant alleges that if the said errors and mistakes were corrected and the votes so cast in said precincts that were erroneously counted for the incumbent were counted for the contestant, the said contestant would have received more votes in each and every precinct than were declared by said canvassing board and clerks of election. And the results of election with reference to said office would be changed thereby and the contestant would have been declared elected for said office instead of the incumbent. That the judges and clerks of said election in each precinct counted votes that were in truth and in fact not cast for any candidate for Representative. That said judges and clerks of election counted votes for the incumbent that were represented by ballots that were illegal and should not have been counted for either candidate. That said judges and clerks of election counted a sufficient number of votes for the incumbent which were not legally cast for the incumbent, and a sufficient number of votes for the incumbent which were legally cast for the contestant, and a sufficient number of votes for the incumbent that were represented on ballots that should have been wholly rejected as illegal, to have changed the results of election. That the contestant was legally elected Representative for the Ninety-ninth District of Iowa, consisting of Lyon County, by a substantial majority over the incumbent if said errors and mistakes on the part of the Board of Canvassers had not been committed and if all legal votes cast

for the contestant had been counted for the contestant and all illegal votes counted for the incumbent had been rejected by the Board of Canvassers.

The incumbent, Olaf Olson, in his answer to the petition of contestant, which said answer is filed herewith and made a part of this report, and marked Exhibit B, alleges that in each of the said voting precincts in Lyon County, Iowa, which compose the Ninety-ninth District, the judges and clerks of election in each and every precinct committed errors and mistakes in counting the ballots cast in said precinct, and in declaring the result of the votes cast in said precinct in this: that they counted votes for the contestant that should have been counted for the incumbent, the exact number of votes so erroneously counted for the contestant that should have been counted for the incumbent being to the incumbent unknown; but the incumbent alleges that if said errors and mistakes were corrected and votes so cast in said precincts so erroneously counted for the contestant were counted for the incumbent, the incumbent would have received more votes in each and every precinct than were declared by said canvassing board and clerks of election, and as a result, the plurality of the incumbent would have been greater than was declared by the canvassing board and said judges and clerks of election. That said judges and clerks of election in each of said precincts aforesaid counted votes for the contestant that were represented by ballots that were illegal and should not have been counted for either candidate on account of identifying marks and should have been wholly rejected. The incumbent alleges that he received more legal votes cast in said election for said office, and that the incumbent received a greater number of said votes cast for said office than said contestant at said election, and that a re-count of all the ballots cast at said election in each of the precincts of said county would show that said Olaf Olson, incumbent, was, at said election held in said precincts, duly elected to the office of Representative for the Ninety-ninth District of Iowa, by a greater majority than was given him by the declared result of said election; and that said incumbent is entitled to hold said office for the term beginning January 1, 1911, and ending January 1, 1913.

H. G. Eggert, being first produced on behalf of contestant, testified as shown by Exhibit C of the report which is attached to the report and made a part hereof.

E. J. Reigle, being next produced on behalf of the incumbent, was duly sworn and testified as follows, as shown by exhibit C, attached to and made a part of this report.

The incumbent objected to the proceedings in evidence of any of the ballots or sacks containing same, for the reason that the evidence kept showed that they could be tampered with.

The contestant objected to bringing the ballots cast in Elgin Township in evidence and to evidence containing the ballots cast in Midland Township and all of the ballots cast at the last general election in Lyon County, for either the contestant or the incumbent.

The incumbent objected to the return of Dale Township on the ground that the evidence produced shows that the seal of one had been entirely broken.

The incumbent also objected to the returns from Liberal Township on the same grounds. And to the returns from Richland Township on the same grounds. Also to the returns from Doon, precinct No. 2, on the same grounds. And to the returns from precinct No. 1, Doon Township, on the same grounds. The copy of these objections is attached to this report and made a part of Exhibit C.

At the close of the testimony for the contestant and the incumbent, a motion was made and carried unanimously that the committee count all of the ballots cast at the last general election in Lyon County for the office of representative. By agreement of all parties the attorneys for the contestant and the incumbent proceeded to count all of the ballots cast at the last general election in Lyon County for representative, one member of the committee being present and presiding at said counting, with the clerk of the committee acting as tally clerk.

At the close of the counting of the ballots by the attorneys as aforesaid, the following stipulation was agreed to and filed in this case, copy of which is attached to this report and marked Exhibit D. Said agreement being as follows:

"It is agreed by and between the parties to this contest, that the contestant and the incumbent as citizens of the United States, citizens of the State of Iowa, residents of Lyon County, are now and were at the time of the election of 1910, qualified to be elected as representative from the said county representing the 99th District in the General Assembly of the State of Iowa.

"Second—In counting the votes it is found and conceded by counsel and parties that there were 1,076 votes cast for the contestant at the election in question and 959 votes cast for the incumbent and to which neither party objects. That at said election there were ballots cast in which cross marks were placed in squares before blank lines in which no name of any candidate was printed following the square, and of these ballots, 146 were cast for the contestant and 252 for the incumbent.

"Third—That at said election, there were names in some instances written on the ballots on blank lines and no crosses were made in the squares before such names. That of said votes, 7 were cast for the contestant and 8 for the incumbent.

"Fourth—That the total remaining votes cast in said county were 102, of which the contestant claims that 43 were cast for him and the incumbent claims that 59 were cast for him. The contestant objects to counting the 59 ballots claimed for the incumbent or any part of them, and the incumbent objects to counting the 43 disputed ballots claimed by the contestant, or any part of them."

And now, to-wit, on the 20th day of January, the members of the full committee proceeded to take up and count the 102 disputed ballots. That after an examination by the committee and attorneys for the parties of the 102 disputed ballots, it was agreed by the attorneys and all parties that

25 of said disputed ballots should be counted for Boomgaarden and 30 for Olson, and were so counted by the committee. That of the 47 disputed ballots remaining, each of these 47 ballots was carefully examined by each member of the committee and a roll call and vote was taken on each separate ballot with the result that the committee rejected 6 of the 47 remaining disputed ballots, as not being counted for either party, and of the 41 remaining disputed ballots, after a careful canvass and count as aforesaid, 18 were counted for Boomgaarden and 23 for Olson.

Adding the foregoing ballots together, your committee finds that 1,272 votes were cast for H. S. Boomgaarden, contestant and 1,272 votes were cast for Olaf Olson, incumbent, for representative from the 99th District to the General Assembly at the last general election held in said county on November 8th, 1910. That roll call and vote was taken on each ballot and copy of said roll call is attached to this report, marked Exhibit E, and made a part of same.

And afterward, to-wit, written arguments were filed and read to the committee, by both the contestant and the incumbent which written arguments are made a part of this report and attached hereto and marked Exhibit F and Exhibit G.

And afterward, to-wit, at a meeting of the committee held on January 25th, at which meeting four members were present, motion was made that the incumbent be entitled to a seat as representative from Lyon county. Said motion being put, was lost.

And now, to-wit, on this 31st day of January, the matter coming up for hearing by the committee, your committee finds that while the packages which contained the ballots cast at the last general election in Lyon county showed some of the seals broken, your committee finds from the evidence submitted that the returns so kept have not been tampered with. That the contestant, H. S. Boomgaarden, and the incumbent, Olaf Olson, are each citizens of the United States, citizens of the State of Iowa, residents of Lyon County, and are now and were at the time of the election of 1910, qualified to be elected as representative from said county, representing the 99th district in the General Assembly of the State of Iowa. That at said election the contestant, H. S. Boomgaarden, and the incumbent, Olaf Olson, each received 1,272 votes. That there was no election of a Representative for the Ninety-ninth District comprising the County of Lyon, in the State of Iowa, at the last general election held November 8, 1910. That by reason of there being no election of a Representative from said district to the General Assembly, a vacancy exists in the office of Representative from the Ninety-ninth District, consisting of Lyon County, in the State of Iowa. And your committee recommends that the proper steps be taken to fill said vacancy as required by law.

A complete record of the entire proceedings before your committee is attached to this report and made a part of same. All of which is respectfully submitted.

W. J. DIXON,
Chairman.

} MINORITY RECOMMENDATIONS.

MR. SPEAKER—The undersigned members of your committee, appointed to consider the above entitled contested case, beg leave to report that we dissent from the majority report of the committee, and as reasons therefor submit the following:

First. That the committee in the counting of the ballots cast by the voters of Lyon County for the office of Representative of the General Assembly exercised a rule of the greatest leniency and latitude, so as to give expression in every way to the intent of the voter; that in accordance with said rule the committee counted every vote cast in Lyon County where it was apparent that the intent of the voter was to vote for the contestant herein, H. S. Boomgaarden; that no ballot where the voter voted for the said contestant was rejected by the Committee; that your committee by a divided vote rejected six (6) votes where it was clearly apparent that the intent of the voter was to cast his ballot for the incumbent herein, Olaf Olson; that if the same rule were applied throughout the count, the six votes rejected should have been counted for the incumbent herein.

Second. The undersigned members of your committee report that ballot marked Exhibit 59 was counted for the contestant and that the same should have been rejected for the reason that it contained an identification mark to disqualify the ballot, and that the application of the same rule that applied to the rejected Olson ballot should have rejected this one.

Third. That Exhibit No. 60, being a ballot counted for the contestant should have been rejected if the same rule was applied that was applied to the rejected Olson ballots, for the reason that said ballot contained identification marks sufficient to disqualify same.

Fourth. That Exhibit No. 80, being a ballot counted by the committee for the contestant, should have been rejected, if the same rule that applied to the rejected Olson ballots was applied to this one, for the reason that said ballot contained identification marks sufficient to disqualify same.

Fifth. That Exhibit No. 28, same being a rejected Olson ballot, should have been counted for incumbent, for the reason that the intent of the voter, as expressed on said ballot, was to vote for said incumbent and similar ballots were counted for both contestant and incumbent.

Sixth. Exhibit No. 47, being a rejected Olson ballot, should have been counted for incumbent for the reason that the voter intended to vote for said incumbent and the erasure on said ballot was no different in principle than many other ballots that were counted for both incumbent and contestant.

Seventh. Exhibit No. 70, being a rejected Olson ballot, should have been counted for incumbent herein, for the reason that the intent of the voter as shown by said ballot was to vote for said incumbent and similar ballots were counted for both contestant and incumbent; that this particular ballot was evidently cast by an old or infirm voter, and that there was a similarity of marks throughout the ballots; that the intent of the voter in said ballot was clearly apparent and the mark was not such a one as to constitute an identification mark under the statutes and it should have been counted for the incumbent herein.

Eighth. Exhibit No. 71, being a rejected Olson ballot, clearly should have been counted for the reason that said ballot comes within the provisions of Section Eleven Hundred Nineteen (1119), Supplement to the Code, 1907; that in said ballot the voter voted alone for the incumbent herein for representative, and said ballot should have been counted for him.

Ninth. Exhibit No. 76, the same being a rejected Olson ballot, was a perfectly marked ballot, excepting that the voter wrote the name Krueger on the lower part of the ballot. If the rule of intention of the voter should govern, as was applied generally in the counting of the votes, the same should have been counted for incumbent.

Tenth. That by reason of the facts recited in the foregoing eight (8) paragraphs, the undersigned committee members believe that the incum-

bent should be declared to be the legally elected member of this House from Lyon county, by a majority of (8) votes; that if the same rule applied uniformly to the ballots cast for said office, the incumbent herein should be declared elected by such majority.

Eleventh. The undersigned members state further that they believe the presumption should be to sustain the count of the election board and of the official canvass of the board of supervisors of Lyon county, and that the burden to overcome the certificate of election should rest upon the contestant; that in order to make the vote between the parties a tie, it was necessary to reject six (6) ballots that were cast for Olson, wherein the intent of the voter was clear; that the burden should be upon the contestant if he seeks to unseat a sitting member, to show that he has received a clear majority of all the ballots cast for that office.

WHEREFORE: The undersigned members of your committee respectfully dissent from the views of the majority that there is a vacancy, and state that the incumbent herein has received a clear majority of all the votes cast by the voters of Lyon County for said office and his certificate should be sustained and he be permitted to retain his seat; and we respectfully recommend to the members of the House that the said Olaf Olson be declared the legally elected representative from Lyon county, and we ask that this report be submitted for the majority report filed herein.

Shankland of Polk, from the Committee on Contested Elections, submitted the following report:

F. P. SPENCER, *Contestant*,

VS.

ALPHONSO V. PENN, *Incumbent*.

} REPORT OF COMMITTEE.

MR. SPEAKER—Your special committee, consisting of Shankland of Polk, Finlayson of Grundy, Taylor of Union, Bauman of Van Buren, and Hogan of Cass, to hear and report upon the contest brought by Hon. F. P. Spencer against the Hon. Alphonso V. Penn, involving the question of who has been elected to the office of representative in the Thirty-fourth General Assembly of Iowa, from the Tenth Representative District of Iowa, beg leave to submit the following as its report thereon:

The papers filed in said contest, to wit: The notice of contest, declaration of contest, and the answer to the declaration of contest, were placed in the possession of this committee by the chief clerk of the house.

The committee proceeded to inspect all the papers and filings in said contest to determine if the contest had been brought in accordance with the provisions of law relating to such cases, and to determine what issues were presented by the declaration of contest and the answer thereto. Your committee determined and report that the notice of said contest had been duly served upon the said incumbent in the manner and within the

time provided by law; that the declaration of contest filed by said F. P. Spencer was filed in pursuance of said notice of contest, and came within the provisions of the law relating to the filing of such papers. Your committee further reports that the declaration of contest in effect alleged that the said contestant had received more votes than the incumbent in the last general election for the office of representative in the Thirty-fourth General Assembly of Iowa, from the tenth representative district, but, that all of the votes duly and legally cast for said contestants were not counted for him as cast by reason of errors, mistakes and erroneous interpretations of the law; and alleged further that more votes were counted as cast for the incumbent in said office than were in fact cast for him or should have been counted for him according to law, and that by reason thereof the said contestant ought to have been declared elected instead of the incumbent. The declaration of contest did not allege any fraud on the part of election officials in said district, nor on the part of any person, but so far as the declaration of contest itself shows, it raised purely questions of fact.

The incumbent in his answer denied the material allegations of the declarations of contest and denied that the contestant had received more votes than the incumbent at said election, and denied that more votes had been counted for the incumbent than were received by him and that he was duly and legally declared elected to said office as provided by law, and that he was rightfully elected to said office and entitled to all the rights, privileges and emoluments thereof.

Your committee reports further that it is the unanimous opinion of the committee that the contest was brought in the utmost good faith, that the contestant believed that he had good grounds for bringing the contest; that the incumbent was declared elected by a plurality of three votes.

Your committee reports further that both parties to the contest appeared in person before your committee and by their attorneys, the Hon. W. H. Byers, as attorney for the contestant, and the Hon. Jerry B. Sullivan, as attorney for incumbent.

The contestant stated to the committee that he expected to support his contentions and the allegations of his declaration by a re-count of the ballots cast at said election for the office of representative, as aforesaid, and asked the committee to cause the county auditor of Fremont County to be subpoenaed as a witness and to require the said County Auditor to have and produce as evidence in the contest in behalf of contestant all of the ballots cast at said election in said district, and all books, tally sheets, etc. connected with said election.

The incumbent interposed no objection to the said request of the contestant. The incumbent also requested the committee to cause certain citizens of Fremont County to be subpoenaed as witnesses in his behalf in said contest.

Thereupon the committee by unanimous action requested the Speaker and Chief Clerk of the House to issue subpoenas for the said County Auditor, Mr. Frank B. Jenkins, of Sidney, Ia., which subpoena is marked exhibit "A," is attached to this report and made a part hereof; and the

committee also requested the Speaker and the Chief Clerk of the House to issue subpoenas for the persons designated by the incumbent, viz: W. H. Norcutt, L. T. Webster, M. M. Thornton, L. E. Holloway, E. J. Anderson, E. H. Harrison and J. S. Adams, which subpoena is marked exhibit "B" is attached hereto and made a part of this report. Said subpoenas were by the committee placed in the hands of the Sheriff of Fremont County for service, and were by him duly served upon the persons named therein as by law provided.

That on the day fixed for the appearance of said witnesses, to-wit, the 26th day of January, 1911, at the hour of 2 o'clock p. m., the said witnesses duly made their appearance before the committee. The contestant appeared in person, and by his attorney, the Hon. W. H. Byers. The incumbent appeared in person and by his attorney, the Hon. Jerry B. Sullivan, and thereupon the contest proceeded to final hearing.

The attorney for contestant examined the county auditor for the purpose of laying the foundation for the introduction of the ballots and books referred to as evidence in behalf of contestant.

The incumbent produced and examined as witnesses the said J. S. Adams, W. H. Norcutt, M. M. Thornton, L. E. Holloway, E. J. Anderson, L. T. Webster and E. H. Harrison, for the purpose of negating the admissibility of said ballots, papers, etc., as evidence.

At the conclusion of the examination of said witnesses of both sides of the contest, the contestant offered said ballots, books and tally sheets already referred to as evidence in support of the declaration of said contest, filed by said contestant. Thereupon the committee opened the sacks containing the ballots and counted each and every ballot cast at the last general election in Fremont County; and after hearing the testimony offered in the case, and a thorough and complete examination of all the ballots cast in Fremont County, the committee finds that the allegations contained in contestant's declaration of contest were not sustained; and that upon a re-count of said ballots it was found that the incumbent, Alphonso V. Penn, had been duly elected as Representative from the Tenth Representative District of Iowa.

Thereupon the committee voted to dismiss the contest and find against the contestant, and find and determine the incumbent, the Hon. Alphonso V. Penn, duly elected to the office of Representative in the Thirty-fourth General Assembly of Iowa from the Tenth Representative District, and that he was duly declared elected and entitled to his seat in said Assembly. The said notice of contest, the declaration of contest and the answer to the declaration of contest are herewith returned and filed with the Clerk of this House.

Your committee therefore recommends that the House of Representatives adopt this report and that it declare the incumbent, the Hon. Alphonso V. Penn, the duly elected Representative in the Thirty-fourth

General Assembly of Iowa from the Tenth Representative District.

All of which is most respectfully submitted.

Penn, as compensation for the services and expenses of his attorney in relation to this contest, the sum of \$100.00.

and Forty-six (2746) of the Code, and Twenty-seven Hundred and Fifty (2750) of the Supplement to the Code, 1907, at which election all voters residing in the proposed consolidated district shall be entitled to vote by ballot for or against such separate organization. When it is proposed to include in such district a city, or town or village, the voters residing upon the territory outside the incorporated limits of such city, town or village shall vote separately upon the proposition for the creating of such new district. The judges of said election shall provide separate ballot boxes in which shall be deposited the votes cast by the voters from their respective territory, and if a majority of the votes cast by the electors residing either within or without the limits of such city, town or village is against the proposition to form a consolidated independent corporation, then the proposed corporation shall not be formed. If a majority of the votes so cast in each territory shall be in favor of such independent organization, the organization of the proposed consolidated independent school corporation shall be completed by the election of a board of directors for said school corporation, as provided in Section Twenty-seven Hundred and Ninety-five (2795) of the Code, and when so organized shall not be reduced to less than sixteen sections, unless dissolved as provided by this act. No school corporation from which territory is taken to form such a consolidated independent corporation shall, after the change, contain less than four government sections, which territory shall be contiguous and so situated as to form a suitable corporation.

(b) The organization of the school board in consolidated independent school corporations shall be effected on or before the first day of July, following their election, and, when completed, all taxes previously certified shall be void so far as the property within the limits of the consolidated independent school corporation is concerned, and the board of said consolidated independent school corporation shall at a regular meeting or a special meeting called for the purpose, at any time prior to the third Monday in August of each year, levy for the general fund of said school the amount of all necessary taxes for all school purposes, which including the amount received from the semi-annual apportionment, shall not exceed thirty-two (32) dollars for each person of school age, the amount so levied to be certified by them to the county board of supervisors on or before the first Monday of September, in each year, and the board of supervisors shall levy said tax at the same time, and in the same manner that other school taxes are required to be levied.

(c) It shall be the duty of the school board of any consolidated independent school corporation and school township maintaining a central school to provide suitable transportation to and from school, for every child of school age living within said district, and outside the limits of any city, town or village, but the board shall not be required to cause the vehicle of transportation to leave the public highway to receive or discharge occupants thereof. The board shall from time to time, by resolution regularly adopted, number and designate the route to be traveled by each conveyance in transporting children to and from school. The school may require that children living an unreasonable distance from

school shall be transported by the parent, or guardian, a distance of not to exceed two miles, to connect with any vehicle of transportation to and from school; or may, in the discretion of the board, contract with an adjoining school corporation for the instruction of any child living an unreasonable distance from school, and they shall allow a reasonable amount of compensation for the transportation of children to and from the point where they are taken over, or discharged from the vehicle used to convey them to and from school, or for transporting to an adjoining district. In determining what an unreasonable distance would be, consideration shall be given to the number and age of the children, the condition of the roads, and the number of miles to be traveled in going to and from school. The board shall have the right on account of inclemency of the weather to suspend the transportation of any route upon any day, or days, when in the judgment of the said board it would be a hardship on the children, or when the roads to be traveled are unfit or impassable.

(e) It shall be the duty of the school board of any consolidated independent district to provide a suitable school building within such district, and shall at any regular meeting or at a special meeting called for that purpose submit the question of levying a tax for the building of any school building suitable for the needs of the district, or for the repairing of any school building where the cost of such repairs exceed the sum of two thousand (\$2,000) dollars to the qualified voters of said district, and all moneys received from such source to be placed in the school house fund of said corporation and to be used for such purposes only. In locating said building they shall take into consideration the geographical position, number and convenience of the scholars, and may submit the question of location to the voters of the district at any regular meeting or special meeting called for that purpose; providing, that whenever a city, town or village containing a school population of twenty-five (25) or more, is included within any consolidated independent district, then said building shall be located within the incorporated limits of said city, town or village, on such a site as the school board may determine.

The electors residing upon the territory outside of the corporate limits of any city, town or village within such district shall vote separately. If a majority of the votes cast by the electors in either territory shall be in favor of dissolving said school corporation, then the same shall be dissolved and the organization of the new district, or districts, completed by the election of a board of directors, as provided in Section Two Thousand Seven Hundred Ninety-five (2795) of the Supplement to the Code, 1907. In any consolidated independent district within the limits of which no city, town or village exists a majority of all the votes cast at such election shall be required to dissolve such school corporation. The assets and liabilities of any such school corporation thus dissolved shall be equitably divided as provided in Section Two Thousand Eight Hundred Two (2802) of the Supplement to the Code, 1907.

(g) Any person driving, managing or in charge of any vehicle used in transporting children to and from school, in any consolidated independent school corporation, who shall be found guilty of violating any of the rules and regulations adopted by the board of said school, for the guidance of any person in charge of such conveyance, shall be guilty of a misdemeanor, and for the first offense shall be fined not less than five dollars (\$5.00) or more than ten dollars (\$10.00), and for a subsequent offense shall be fined not less than twenty-five dollars (\$25.00) or more than fifty dollars (\$50.00), and shall be dismissed from the service.

The commissioner shall with the approval of the Executive Council appoint a state chemist, who shall be an expert analytical, food and pharmaceutical chemist, who shall be the official chemist of the dairy and food department. He shall devote his whole time to the duties of such office. He shall receive a salary of twenty-five hundred dollars per year, to be paid in the same manner as the salaries of other state officers. Every such license shall expire July 4th next after its issue; shall be given only to a person owning or leasing the vehicle or place from which sales are to be made, and shall not be transferable. No license shall be issued for less than one dollar. Each license shall be numbered and shall contain the name, residence and place of business of the licensee and the number of vehicles and places to be used. The name of the dairy or the name of the person, firm or corporation to whom the license is issued shall appear on both sides of each vehicle, in letters not less than two inches in height and there shall be such contrast between the color of the letters and the background as shall render the letters plainly legible. Every sale from a vehicle not so inscribed shall be deemed a violation of this act. But nothing herein shall be constructed as requiring persons keeping not more than two cows, to procure such license unless such person shall sell milk or cream from a store or vehicle.

The commissioner may withhold a license from any applicant therefor whom he may deem unworthy and he may revoke any license issued by him to any person who has violated the terms thereof, or who has failed to comply with any requirements of this chapter, or refused or failed to obey his lawful request or direction, and every conviction of the license for an offense punishable under this chapter shall be sufficient for such revocation.

Sec. 4. If any person shall sell, exchange, or expose for sale or exchange or deliver or bring to another, for domestic or potable use, or to be converted into any product of human food, any unclean, impure, unhealthy, adulterated unwholesome or skimmed milk, or milk which has been held back what is commonly known as strippings, or milk

taken from an animal having disease, sickness, ulcers, abscess or running sore, or which has been taken from the animal within fifteen days before or five days after parturition; or if any person shall purchase, to be converted into any product of human food, any unclean, unhealthy, adulterated or unwholesome milk or cream, or shall manufacture any such milk or cream into any product of human food, or if any person having cows for the purpose of producing milk or cream for sale, shall stable them in any unhealthy place or in crowded manner, or shall knowingly feed them food which produces impure, unwholesome milk, or shall feed them distilled glucose or brewery waste in any state of fermentation, or upon any substance in a state of putrefaction or rottenness or of an unhealthy nature, or shall sell or offer for sale cream which has been taken from milk the sale of which is prohibited or who shall sell or offer for sale as cream, an article, which shall contain less than the amount of butter fat as prescribed in this chapter; or if any person shall sell or offer for sale any cheese manufactured from skimmed milk, or from milk that is partially skimmed, without the same being plainly branded, stamped or marked on the side or top of both cheese and package, in a durable manner, in the English language, the words "skimmed milk cheese," the letters of the words not to be less than one inch in height and one-half inch in width, he shall be fined as provided in Section Nine hereof, and be liable for double damages to the person or persons upon whom such frauds shall be committed.

Sec. 5. No person shall offer or expose for sale or sell any skimmed milk or partially skimmed milk unless each receptacle and carrying can containing the same shall be kept plainly marked on the same with the words "skimmed milk" in the English language in letters not less than one inch in height.

Sec. 6. For the purpose of this chapter, the addition of water or any other substance or thing to cream or whole milk or skimmed milk or partially skimmed milk is hereby declared an adulteration, and milk which is obtained from animals fed upon wastes as defined in this chapter, or upon any substance of any unhealthy nature, is hereby declared to be impure and unwholesome, and milk which is proved by any reliable method of test or analysis to contain less than twelve per cent, of milk solids to the one hundred pounds of milk, or less than three pounds of milk fat to one hundred pounds of milk, shall be regarded as skimmed or partially skimmed milk. Milk is the fresh, clean, lacteal secretion obtained by the complete milking of one or more healthy cows properly fed and kept excluding that obtained within fifteen days before, and five days after calving and contains no less than twelve per cent of milk solids and not less than three per cent of milk fat. Cream is the portion of milk, rich in milk fat, which rises to the surface of milk standing, or is separated from it by a centrifugal force, is fresh and clean, and contains not less than sixteen per cent of milk fat.

Sec. 7. It shall be unlawful for any person, firm or corporation by himself, or as the officer, servant, agent or employee of any person, firm or corporation to falsely manipulate or under-read or over-read the Babcock test or any other contrivance used for the purpose of determining the amount of milk fat in milk or cream, or to make any false determination of any test or contrivance used for the purpose of determining the amount of milk fat in any dairy products. For the purpose of this act the writing of a check or payment of money for cream or milk at any given test shall constitute prima facie evidence that such test was made.

Sec. 8. No person shall operate a milk or cream testing apparatus duly approved by the State Dairy and Food Commissioner, to determine the percentage of milk fat in milk or cream for the purpose of purchasing the same either for himself or another without first securing a license from the Dairy and Food Commissioner of this state, or from his duly appointed agent or representative, authorizing such person to so operate such tester.

Any person desiring to secure such license shall make application therefor on a blank to be prepared and provided by the Dairy and Food Commissioner, and such applicant before being issued such license may be required to pass a satisfactory examination in person and prove by actual demonstration that he is competent and qualified to properly use such tester and make an accurate test with the same.

Such license shall be valid until May 31st next after its issue and a fee of two and one-half dollars shall be paid by the licensee to the State Dairy and Food Commissioner before such license shall be issued, licenses issued to operators of the Babcock or other approved test under this act shall take effect and be in force from and after May 31, 1911. The Dairy and Food Commissioner shall have authority to revoke any license issued under this act.

The testing of each lot of milk or cream by any such unlicensed person shall constitute a separate offense, provided that any licensed person may for valid reasons appoint a substitute for a period not to exceed six days, subject to the approval of the Dairy and Food Commissioner. The fees collected under the provisions of this act shall be paid into the state treasury by the Dairy and Food Commissioner.

Sec. 9. Any person violating any of the provisions of this act shall be guilty of a misdemeanor, and upon conviction therefor shall be punished by a fine of not less than twenty-five or more than one hundred dollars or by imprisonment for not less than thirty days in the county jail.

Sec. 10. The State Food and Dairy Commissioner, shall, by this act, become the State Dairy and Food Commissioner, and wherever the title Food and Dairy Commissioner appears in the statutes of the State of Iowa, it shall be construed to mean State Dairy and Food Commissioner. He shall on and after taking effect of this act have all the powers and allowances and shall be charged with all the duties now imposed by law upon the State Food and Dairy Commissioner.

Sec. 11. All acts and parts of acts in conflict herewith are hereby repealed.

Sec. 12. This act being deemed of immediate importance, shall take effect and be in force from and after its publication in the Register and Leader and Des Moines Capital, newspapers published in Des Moines, Iowa; and when so amended the bill be referred to the Committee on Appropriations.

Goodykoontz of Boone presented the following report, and moved its adoption:

WILLIAM H. DENT, <i>Contestant</i> ,	}	REPORT OF COMMITTEE.
vs.		
HENRY N. NEWELL, <i>Incumbent</i> .		

MR. SPEAKER—Your Special Committee, consisting of Goodykoontz of Boone, Jacobs of Calhoun, Huff of Hardin, Escher of Shelby, and Ritter

of Des Moines, to whom was referred the matter of the above contest to hear and report upon the same, involving the question of who has been elected to the office of Representative in the Eightieth (80th) Representative District of Iowa, beg leave to submit the following as its report thereon:

That on the tenth day of January there was delivered to the Chairman of this Committee, notice of contest, declaration of contest, and the answer to the declaration of contest, and shortly thereafter the said Committee was organized, proceeded to examine the papers in said matter, and finds that the said papers, filed herein, were in accordance with the provisions of the law relating to such cases and were filed and notice of contest served within the time provided by law;

That the statement of contest filed by the contestant, William H. Dent, in effect alleged that in each of the voting precincts in the said Representative District of Iowa a large number of ballots, and enough to change the result of said election, were received, counted, canvassed and returned by the Judges and Clerks of Election for and in favor of said Henry N. Newell, incumbent, which in fact should have been rejected by reason of defective markings, and the same ought not to have been returned by said officers as having been cast for the said Henry N. Newell for said office;

Further, that within said district a large number of lawful ballots were cast for the said William H. Dent for said office of Representative, and enough of same to change the result of said election, which were not counted, canvassed and returned by the Judges and Clerks of said election as cast for the said William H. Dent in their returns made by them to the Board of Supervisors of Plymouth County, Iowa;

That the said statement of contest was under oath in the manner required by law;

That in the answer of incumbent, filed herein, said incumbent alleges in effect a denial of the allegations made in contestant's statement of contest, and the incumbent affirmatively alleges that in each of the voting precincts within the said Representative District a large number of ballots in said election were received, counted, canvassed and returned by the Judges and Clerks of Election for and in favor of the said William H. Dent, contestant, which, by reason of defective markings, ought to have been rejected by the Judges and Clerks of said election, and, by reason of said defective and identifying marks, ought not to have been returned by said officers as having been cast for the said William H. Dent for the said office.

Further, incumbent affirmatively alleges that in each of the voting precincts within the said Representative District a large number of lawful ballots were cast for the said Henry N. Newell for said office of Representative which were not counted, canvassed and returned by the Judges and Clerks of said election as cast for the said Henry N. Newell in the returns made by them respectively to the said Board of Supervisors, and which were not canvassed or counted by said Board or considered in declaring the result of said election.

Your committee, on February 6th, by agreement of parties and at the instance of the contestant, caused to be subpoenaed R. E. Smith, Deputy Auditor of Plymouth County, Iowa, with all ballots cast at the general election, 1910, in said county, all poll books returned from the various voting precincts in said county subsequent to said election, and the election book preserved by the County Auditor for the official records of said county;

That at the said hearing on February 6th, at 1:00 P. M., in Room No. 14, the members of said Committee were all present except Charles Escher. The contestant was represented by J. M. Parsons as his attorney, and the incumbent was present in person, and was also represented by F. M. Roseberry, his attorney. It was agreed by the parties at said time that the poll books, ballots and election book, produced by the said Deputy County Auditor, be used without further identification, and expressly agreed by said parties that there was no question as to the proper preservation of the ballots. Thereupon said parties, in the presence of the Committee, except Charles Escher, proceeded to re-count the ballots cast in the Third Ward in the City of LeMars, Iowa, at the 1910 general election, and, upon said re-count it was agreed that the incumbent, Henry N. Newell, received one hundred three (103) undisputed votes, and that the contestant, William H. Dent, received one hundred ninety-three (193) undisputed votes, and that four (4) disputed ballots were offered by the contestant to which the incumbent objected; and that said meeting was adjourned subject to the call of the Chairman.

That the Chairman called a meeting of said Special Committee at 1:00 P. M., February 7th, in Room No. 14, at which all members were present; that at said time the four (4) disputed ballots were identified as Exhibits A, B, C, and D, and upon vote of the Committee, Exhibits A and C were accepted and counted for William H. Dent, and Exhibits B and D were rejected; .

That contestant, having rested his case after the recount of the ballots of said Third Ward, in the City of LeMars, Iowa, it appears to the said Committee that there were cast for the parties hereto, outside of the said ward, in the voting precincts of said county, ballots as follows:

For Henry N. Newell.....	1848
For William H. Dent.....	1735

That including the said Third Ward in which a re-count was made, it appears that nineteen hundred fifty-one (1951) ballots have been cast for the said Henry N. Newell, and for the said William H. Dent, contestant, nineteen hundred thirty (1930) ballots have been cast, which leaves a majority in favor of said Henry N. Newell of twenty-one (21).

Thereupon Huff of Hardin, seconded by Ritter of Des Moines, offered a resolution that inasmuch as the incumbent, Henry N. Newell, appears to have received a majority of twenty-one (21) over said contestant, William H. Dent, that said Henry N. Newell has been duly and legally elected to the office of Representative from the Eightieth (80th) Representative District of Iowa, and he is entitled to retain his seat as such Representative.

Thereupon Huff of Hardin moved the adoption of said resolution, which motion was duly seconded and the same was carried by the unanimous vote of said Committee.

Your Committee further finds, unanimously, that this contest was brought by the contestant in the utmost good faith, and that the contestant, William H. Dent, had good grounds for instituting the contest;

WHEREFORE your Committee recommends that the said Henry N. Newell be declared rightfully elected to the office of Representative from the Eightieth (80th) Representative District of Iowa, comprising of Plymouth County, and duly entitled to all the rights, privileges and emoluments of said office;

That the said notice of contest, declaration of contest, and answer to declaration of contest and subpoena issued and served are herewith returned and filed with the Clerk of this House.

All of which is respectfully submitted.

W. W. GOODYKOONTZ,
JOHN W. JACOBS,
HERBERT A. HUFF,
CHAS. ESCHER, JR.,
HENRY RITTER,

Committee.

Motion prevailed and Henry N. Newell was declared the legally elected representative from the 80th district of Iowa.

Goodykoontz of Boone, from the Committee on Contested Elections, submitted the following supplemental report:

WILLIAM H. DENT, *Contestant*, }
vs. }
HENRY N. NEWELL, *Incumbent*. }

SUPPLEMENTAL REPORT OF COMMITTEE.

Your Special Committee appointed to hear and report upon the contest brought by William H. Dent vs. Henry N. Newell, respectfully submits the following supplemental report. That the expense incurred in said contest was as follows:

R. E. Smith, Deputy Auditor of Plymouth, County, Iowa, four (4) days attendance and mileage....	\$25.00
Cash paid out by R. E. Smith for express, drayage and expense in transporting the ballots to Des Moines and return.....	15.65
Peter Arendt, Sheriff, subpoenaing witness.....	.40
Total	\$41.05

Your Committee further believes the parties to this contest, to-wit, William H. Dent, Contestant, and Henry N. Newell, Incumbent, should be each allowed the sum of \$100.00 to defray the expense of attorney fees necessarily expended by each of said parties in the matter of this contest.

That the contest was occasioned by a serious mistake in the counting of the ballots in the Third Ward of the City of LeMars, Iowa; that on recount herein both of the above named parties received a substantial increase in the number of votes cast for them at the last general election, 1910, as shown by the report of the Committee herein filed.

WHEREFORE your Special Committee recommend that the foregoing fees, expenses, etc., be paid to the persons named and in the amounts above shown.

Most respectfully submitted.

(Signed)

W. W. GOODYKOONTZ,

J. W. JACOBS,

HERBERT A. HUFF,

CHAS. ESCHER,

HENRY RITTER,

Special Contest Committee.

The Speaker named as such committee:

Miller of Dubuque presented the following Resolution:

CONCURRENT RESOLUTION.

WHEREAS, On January 31st, 1902, the following order was issued by President Roosevelt, and is still in force:

"All officers and employees of the United States, of every description, serving in or under any of the executive departments, and whether so serving in or out of Washington, are hereby forbidden, either directly or indirectly, individually or through associations, to solicit an increase of pay or to influence or attempt to influence in their own interest any legislation whatever, either before Congress or its committees, or in any way save through the heads of the departments in or under which they serve, on penalty of dismissal from the Government service."

Believing the above order to be thoroughly incompatible with the spirit of American institutions, in that it deprives more than 300,000 American citizens of two of the most sacred rights of American citizenship, namely, the right of free speech and the right of petition to Congress; therefore,

Be It Resolved by the House, the Senate Concurring:

That we, the members of the Iowa State Legislature, assembled in legislative session, emphatically protest against the continuance of such order, and respectfully urge Congress to enact a law prohibiting the issuing of similar orders.

The proper officers of this body are hereby instructed to forward copies of these resolutions to the Clerk of the House of Representatives at Washington, D. C., and another copy to the Clerk of the United States Senate, with the request that they be laid before each of the above named bodies.

HOUSE JOINT RESOLUTION NO. 4.

Proposing to amend the Constitution so as to provide for the initiative and referendum within the state.

Be It Resolved by the General Assembly of the State of Iowa:

That, the following amendment to the constitution of the State of Iowa be, and the same is hereby proposed:

There shall be submitted to the qualified electors of the State of Iowa the following constitutional amendment, which, when ratified by a majority of those voting thereon shall be valid as a part of the Constitution.

Section 1. That Section One (1) of Article Three (III) of the Constitution of the state of Iowa be so amended as to read as follows: The legislative authority of the state shall be vested in the General Assembly

consisting of a Senate and House of Representatives, both to be elected by the people, but the people reserve to themselves the power to propose laws and amendments to the Constitution and to enact or reject the same at the polls independent of the General Assembly, and also reserve at their own option the right to approve or reject at the polls, any act, item, section or part of any act of the General Assembly. The first power hereby reserved by the people is the initiative, and at least eight per cent of the legal voters shall be required to propose any measure by petition and every such petition shall include the full text of the measure so proposed. Initiative petitions for state legislation and amendments to the Constitution shall be addressed to and filed with the secretary of state at least four months before the election at which they are to be voted upon.

The second power hereby reserved is the referendum, and it may be ordered, except as to laws necessary for the immediate preservation of the public peace, health or safety, and except as to appropriations for the support and maintenance of the department of state and state institutions, which shall be declared an emergency act by a vote of three-fourths of all members elected to each body of the legislature, against any act, section or part of any act of the General Assembly, either by petition signed by five per cent of the legal voters or by the General Assembly. Referendum petitions shall be addressed to and filed with the secretary of state not more than ninety days after the final adjournment of the session of the General Assembly that passed the bill on which the referendum is demanded. The filing of a referendum petition against any item, section or part of any act, shall not delay the remainder of the act from becoming operative. The veto power of the governor shall not extend to measures initiated by, or referred to, by the people. All elections on measures referred to the people of the state shall be held at the biennial regular general election, and all such measures shall become a law or a part of the Constitution when approved by a majority of the votes cast thereon, and not otherwise, and shall take effect from and after the date of the official declaration of the vote thereon by proclamation of the governor, but not later than thirty days after the vote has been canvassed. This section shall not be construed to deprive the General Assembly of the right to enact any measure. The whole number of votes cast for the secretary of state at the regular general election last preceding the filing of any petition for the initiative or referendum shall be the basis on which the number of legal voters necessary to sign such petition shall be counted. The secretary of state shall submit all measures initiated by, or referred to the people for adoption or rejection at the polls in compliance herewith. The petition shall consist of sheets having such general form printed or written at the top thereof, as shall be designated or prescribed by the secretary of state; such petitions shall be signed by qualified electors, in their own proper persons only, to which shall be attached the resident address of such person and the date of signing the same. To each of such petitions, which may consist of one or more sheets, shall be attached an affidavit of some qualified elector that each signature thereon is the signature of the person

whose name it purports to be, and that to the best of the knowledge and belief of the affiant, each of the persons signing said petition, was, at the time of signing, a qualified elector. Such petition so verified shall be prima facie evidence that the signatures thereon are genuine and true, and that the persons signing the same are qualified electors. The text of all measures to be submitted shall be published as constitutional amendments are published, unless otherwise provided by law, and in submitting the same and in all matters pertaining to the form of all petitions, the secretary of state and all other officers shall be guided by the general laws, and the act submitting this amendment, until legislation shall be especially provided for. The style of all laws adopted by the people through the initiative shall be, "Be it Enacted by the People of the State of Iowa." The initiative and referendum powers reserved to the people by this section are hereby further reserved to the legal voters of every city, town and municipality as to all local, special and municipal legislation of every character in and for their respective municipalities. The manner of exercising said powers shall be prescribed by general laws, except that cities, towns and municipalities may provide for the manner of exercising the initiative and referendum powers as to their municipal legislation. Not more than ten per cent of the legal voters may be required to order the referendum, nor more than fifteen per cent to propose any measure by the initiative in any city, town or municipality. This section of the Constitution shall be, in all respects, self-executive.

Section 1-a. Each elector voting at said election and desirous of voting for or against this amendment shall deposit in the ballot box a ticket whereon shall be printed or written the words, "For the amendment to Section One (1) of Article Three (3) of the Constitution, providing for the initiative and referendum," and "Against the amendment to Section One (1) of Article Three (3) of the Constitution, providing for the initiative and referendum," and shall indicate his or her approval or rejection of the proposition by placing a cross (x) after one of such sentences. Be it Enacted by the General Assembly of the State of Iowa:

Section 1. There is hereby created the office of State Fire Marshal. The incumbent of this office shall be required to give bond in the penal sum of five thousand dollars (\$5,000.00) conditioned for the faithful performance of the duties of his office; he shall be appointed by the Governor by and with the consent of the Senate in each odd-numbered year, between the 15th day of January and the 1st day of February. The office shall be at the State Capitol in the city of Des Moines. The state fire marshal may be removed for cause at any time by the Governor. The state fire marshal is hereby empowered to appoint a deputy fire marshal and one assistant deputy fire marshal, and such office assistants as may be necessary, for the proper and efficient conduct of his office. The duties of these deputies shall be to assist the state fire marshal in his work. Such appointees may be removed for cause by the state fire marshal at any time.

Sec. 3. In the event of a vacancy of state fire marshal, or during his absence or disability, his deputy shall perform the duties of the office of state fire marshal.

Sec. 4. The state fire marshal may, in addition to the provisions of Section Two (2), appoint any person, or persons, as state inspector, or inspectors, who may be known to him to be competent and skilled in

the inspection of buildings and their contents. Such person, or persons, shall have all the powers of a deputy fire marshal to enter and inspect buildings, including their contents and occupancies, as provided in Section Nine (9) hereof, and it shall be the duty of such inspector to report to the fire marshal any faulty or dangerous condition found. Such state inspector, or inspectors, shall be duly commissioned and shall receive such compensation as provided for in Section Fifteen (15) of this act.

Sec. 5. The state fire marshal and the chief of the fire department of every city, town or village in which a fire department is established, and the mayor of every incorporated town, or village in which no fire department exists, and the township clerk of every organized township, outside the limits of any organized city, town or village, shall investigate the cause, origin and circumstances of every fire occurring in such city, town or village, or township by which property has been destroyed, or damaged, and shall especially make investigation as to whether such fire was the result of carelessness or design. Such investigation shall be begun within two days, not including Sunday, of the occurrence of such fire, and the state fire marshal shall have the right to supervise and direct such investigation whenever he deems it expedient or necessary. The officer making investigation of fires occurring in cities, villages, towns or townships shall forthwith notify said fire marshal, and shall within one week of the occurrence of the fire furnish to the said fire marshal a written statement of all facts relating to the cause and origin of the fire and such other information as may be called for by the blanks provided by said fire marshal.

Sec. 6. The state fire marshal shall keep in his office a record of all fires occurring in the state, showing the sound value of the property, and amount of insurance thereon, the total amount of insurance collected, and the total amount of loss to the property owner, together with all the facts, statistics, circumstances, including the origin of the fire, which may be determined by the investigation provided by this act. Such records shall at all times be open to public inspection and such portions of it as the auditor of state may deem necessary shall be transcribed and forwarded to the auditor of state within fifteen (15) days from the first of January of each year.

Sec. 7. The state fire marshal shall, when in his opinion further investigation is necessary, take or cause to be taken the testimony under oath of all persons supposed to have knowledge of any facts, or to have means of knowledge in relation to the matter in which an examination is herein required to be made, and shall cause the same to be reduced to writing. If the state fire marshal shall be of the opinion that there is evidence sufficient to charge any person with the crime of arson, or with the attempt to commit the crime of arson, or of conspiracy to defraud, or criminal conduct in connection with such fire, he shall cause such person to be arrested and charged with offense, or either of them, and shall furnish to the proper prosecuting attorney all such evidence, together with the names of wit-

nesses and all of the information obtained by same, including a copy of all matter and testimony taken in the case, and shall report to the auditor of state as often as shall be required, his proceedings and the progress made at all prosecutions under this act and the result of all cases which are finally disposed of.

False swearing in any matter or proceeding aforesaid shall be deemed perjury and shall be punished as such. Any witness who refuses to be sworn, or refuses to testify, or who disobeys any lawful order of said state fire marshal, or deputy state fire marshal, or who fails to produce any books, papers or documents touching any matter under examination, or who is guilty of any contentious conduct after being summoned by them, or either of them to appear before them or either of them to give testimony in relation to any matter or subject under investigation as aforesaid, shall be guilty of a misdemeanor, and it shall be the duty of the state fire marshal or deputy state fire marshal, or either of them to make or compel said person, or persons, so refusing to comply with the summons or orders of said state fire marshal, or deputy state fire marshal, before any justice of the peace, police magistrate, or any court of record in the county in which said investigation is being had, and upon the filing of such complaint for such cause, shall proceed in the same manner as other criminal cases. Any person convicted of the violation of any of the provisions of this act shall be deemed guilty of a misdemeanor and shall be fined in a sum not exceeding one hundred (100) dollars or imprisoned not to exceed thirty days, or both, in the discretion of the court; provided, however, any person so convicted shall have the right of appeal.

Sec. 9. Said state fire marshal and his deputies, or either of them, shall have the right and authority at all times of day or night in the performance of the duties imposed by the provisions of this act, to enter upon, or examine any buildings or premises where any fire has occurred, and other buildings or premises adjoining or near the same. All investigations held by or under the direction of said state fire marshal may in his discretion be private, and persons other than those required to be present by the provisions of this act may be excluded from the place where such investigation is held, and witnesses may be kept separate and apart from each other and not allowed to communicate with each other until they have been examined.

without any complaint, shall have a right at all reasonable hours, for the purpose of examination, to enter into and upon all buildings and premises within their jurisdiction. Whenever any of said officers shall find any buildings or structure, which by want of proper repair or by reason of age and dilapidated condition, or for any cause, is especially liable to fire, and is so situated as to endanger other buildings or property therein, and whenever any such official shall find in any building or upon any premises combustible or explosive matter or inflammable conditions dangerous to the safety of certain buildings or premises, they shall order the same to be removed or remedied and such order shall be forthwith complied with by the owner or occupant of said building or premises, providing, however, that if said occupant or owner shall deem himself aggrieved by such order he may within forty-eight (48) hours appeal to the state fire marshal, and the cause of complaint shall be at once investigated under the direction of the latter, and unless by his authority the order is rejected such order shall remain in force and be forthwith complied with by said owner or occupant. Any owner or occupant of buildings or premises failing to comply with the order of the authorities above specified shall be punished by a fine of not less than ten (10) dollars nor more than fifty (50) dollars for each day's neglect; such penalty to be sued in the name of the State of Iowa upon complaint of the fire marshal, deputy fire marshal or county attorney, or of any officer named herein in the county in which such building or buildings shall be situated, before any justice of the peace or any court of record; right of appeal shall be granted, and such penalty, when recovered, shall be paid into the county treasury of the county wherein such recovery is had; provided, however, that in municipalities having building inspection and limit ordinances, nothing herein shall be construed to effect such local regulations, but the jurisdiction of the state fire marshal shall be concurrent with that of the municipal authorities.

Sec. 11. It shall be the duty of the state fire marshal and his deputies to require teachers of public and private schools to have one fire drill each month, and to keep all doors and exits unlocked during school hours. deputies, clerks and assistants and incur such other expense as may be necessary in the performance of the duties of the office, not to exceed, including salaries, the sum of twenty-five thousand dollars (\$25,000) or as much thereof as may be necessary to carry out the provisions of this act.

Sec. 13. The state fire marshal shall not engage in any other business and he or one of his deputies shall at all times be at the office of the state fire marshal, ready for such duties as are required by this act.

Sec. 14. The state fire marshal shall submit annually, as early as consistent with full and accurate preparation, and not later than the fifteenth (15) of January of each year a detailed report of his official actions to the auditor of state.

Sec. 15. There shall be paid to the chiefs of the fire department, and to mayors of incorporated villages, who do not receive compensation for their services as such chiefs and mayors, and to the township clerk of every organized township who are by this act required to report fires to the state fire marshal, the sum of fifty (50) cents for each fire so reported to the satisfaction of the state fire marshal, and in addition thereto mileage at the rate of fifteen (15) cents per mile to reach mile traveled to the place of fire. Said allowance shall be paid by the state fire marshal out of any funds appropriated for the use of the office of said state fire marshal.

By Dunlap of Clinton, House File No. 331, a bill for an act legalizing and curing the acts and proceedings of the incorporated town of Charlotte and the town council of said incorporated town, in the county of Clinton and state of Iowa, in relation to the establishment, erection, maintenance, and extension of a system of waterworks in said town, and the issuance of warrants of said town in payment therefor and authorizing the town council of said town to issue bonds for the purpose of taking up and paying its floating indebtedness represented by said warrants.

Whereas, the qualified electors of the incorporated town, of Charlotte, in the County of Clinton and State of Iowa, did, on the 6th day of April, 1908, at a special election held for such purpose, vote in favor of the establishment and erection of a system of waterworks in said town, and the issuing of bonds in the sum of five thousand (\$5,000.00) dollars for the purpose of defraying the costs thereof, and;

Whereas, The town council of said town, in pursuance of said election, established, erected, and is maintaining a system of waterworks within and for said town, and;

Whereas, The indebtedness of said town, created for the establishment, erection and maintenance of said system of waterworks, exceeded the amount authorized, and;

Whereas, the said town council failed to, or was unable to issue bonds in the payment of said indebtedness, and;

Whereas, the said town council issued, in addition to the five thousand (\$5,000.00) dollars in bonds as above authorized, the warrants of said town in payment of the indebtedness created and incurred by reason of the erection, establishment, and maintenance of said waterworks system, and;

Whereas, The said town has used its general revenues for the purpose of paying interest on and taking up a portion of the warrants issued in payment for said waterworks system, and has issued warrants against its general fund in payment for the establishment, erection, and maintenance of said waterworks system, and;

Whereas, A large number of said warrants so issued are outstanding and unpaid, and;

Whereas, Doubts have arisen as to the legality of the acts and proceedings of said town in issuing the warrants in payment for the establishment, erection and maintenance of said waterworks system, and;

Whereas, The amount of said indebtedness has never exceeded the limit prescribed by Section Three, Article Eleven, of the Constitution of the State of Iowa, and;

Whereas, It is the desire of the said incorporated town, and the citizens thereof, that the acts and proceedings of said incorporated town, and the said town council, in relation to the establishment, erection and maintenance of said waterworks system and the indebtedness created and incurred therefor, and the warrants issued in payment of said indebtedness shall be cured and legalized.

Be it Enacted by the General Assembly of the State of Iowa:

Section 1. That all the acts of the incorporated town of Charlotte, in the County of Clinton and State of Iowa, and of the town council of said incorporated town of Charlotte, relating to the establishment, erection and maintenance and extension of a waterworks system within said incorporated town, and relating to, the indebtedness created and incurred therefor, and relating to the issuance of the warrants of said town in payment of said indebtedness, be, and the same are, hereby cured and legalized, and the said indebtedness, and the outstanding warrants of said town are hereby legalized and established as a valid and binding indebtedness of said town, with the same force and effect as though the same had been legal and valid at the time of the incurring of said indebtedness and the issuance of said warrants.

Sec. 2. That the said incorporated town of Charlotte and the town council of said town be, and they are, hereby authorized to issue the bonds of said town for the purpose of liquidating and taking up the floating indebtedness of said town represented by the warrants issued by said town in payment of the establishment, erection, and maintenance of said waterworks system.

Sec. 3. That the said incorporated town of Charlotte, and the town council of said incorporated town, be, and they are, hereby authorized to provide for the payment of said bonds and interest thereon in the same manner as is provided by the statutes of Iowa in relation to the payment of bonds and interest thereon, issued for the construction of waterworks.

Sec. 4. Nothing in this act shall be in any way construed so as to effect pending litigation.

Sec. 5. This act being deemed of importance, shall take effect and be in force from and after its publication in the Register and Leader, a newspaper published at Des Moines, Iowa, and the Charlotte Record, a newspaper published at Charlotte, Clinton County, Iowa, as provided by law without expense to the state.

Read first and second time and referred to Committee on Judiciary.

By Dabney of Davis, House File No. 332, a bill for an act to appropriate the sum of one hundred sixty-four and 22-100 dollars for the use and benefit of Mrs. Ellen Clarke Moore, on account of compensation due her husband, Captain Samuel A. Moore, late of Davis County, Iowa, deceased, for military service performed

by him as captain of Company D, Forty-fifth Regiment, Iowa volunteers, Infantry, in the month of May, A. D. Eighteen Hundred and Sixty-four.

Read first and second time and referred to Committee on Claims.

By Huff of Hardin, House File No. 333, a bill for an act to require the payment of attorney's fees by common carriers in cases of suits for delay in delivering freight, of injury to or loss of freight in transit.

Read first and second time and referred to Committee on Railroads and Transportation.

By Ritter of Des Moines House File 334, a bill for an act to legalize certain warrants of the city of Burlington.

Whereas, The City of Burlington, hitherto during the year 1909 A. D., did contract for grading, paving and for grading divers streets and for the construction of divers sewers, and;

Whereas, The City of Burlington levied assessments against the owners of property benefited by said paving, grading and sewers, in proportion to the benefits conferred, and;

Whereas, Said assessments were not equal in amount to the price which said city of Burlington had contracted should be paid for said paving, grading and sewers, and;

Whereas, Said city of Burlington became liable and indebted to the contractors who constructed said paving, grading and sewers, for the difference between the contract price and the total amount of assessments levied against the owners of property benefited by said paving, grading and sewers; and,

Whereas, The difference between said contract price and said total amount of special assessments was One Hundred and Twenty-two Thousand Dollars (\$122,000.00); and,

Whereas, The city of Burlington did issue warrants in the sum of One Hundred and Twenty-two Thousand Dollars (\$122,000.00) to said contractors to evidence said indebtedness representing the difference between the contract price and the amount of special assessments levied against owners of benefited property; and

Whereas, Said contractors completed their work on aforementioned paving, grading and sewers in full compliance with specifications and have fully performed all their promises in said contracts; and,

Whereas, The city of Burlington has been and now is enjoying the use and benefit of the aforementioned street improvements, which were and are well worth the total price the city contracted should be paid; and,

Whereas, Doubts have been raised questioning the legality of the warrants issued to pay the City's share of the contract price of the aforementioned warrants on the ground that they were issued in excess of the statutory limit of indebtedness, now therefore

Be it Enacted by the General Assembly of the State of Iowa.

Section 1. *Acts of Council Legalized.* That the acts of the city council of the City of Burlington in issuing warrants in the sum of One Hundred and Twenty-two Thousand Dollars (\$122,000.00) during the year of 1909 A. Mr. Whitney moved that the minority recommendations be substituted for the majority report.

The following communication was received from the governor:
To the House of Representatives of the Thirty-third General Assembly:

Being of the opinion that I ought not to give my approval to House File No. 1, relating to the nomination of candidates for the office of Senator in the Congress of the United States and of the canvass of the vote for Senator in the Congress of the United States and providing for nomination for such office in case of vacancy, and commonly known as the Oregon plan, in compliance with the provisions of Section 16 of Article 3 of the Constitution, I herewith return the same to your Honorable Body unsigned.

There are many reasons why, in my opinion, this bill should not become a law, among which are the following:

When the Constitution of the United States was framed it was agreed that it should not become binding until ratified by nine of the thirteen states, and it then became binding as to all states having ratified it. According to its provisions it cannot be amended except the amendment be proposed by Congress upon a vote of two-thirds of both houses thereof, or upon application to Congress by the legislatures of two-thirds of the states calling for a convention to propose amendments, and in either case amendments so proposed shall not be adopted until ratified by the legislatures or conventions of three-fourths of the states. It was clearly intended that nothing should be added to nor any changes made in the constitution except in the manner above specified. It is equally clear that it never was intended that any state should directly or indirectly take itself from under any of the provisions of the constitution except by consent of three-fourths of the states and that whatever provisions apply to one state should apply alike to all and be observed by all. In other words, every state interested in the adoption of the constitution and every one that has since come under it, obligated itself to be bound and agreed to be bound by each and every provision thereof. This was a solemn and binding compact entered into for the mutual benefit of all the states and which no state has any right either moral or legal to violate. The state of Iowa has no more right to alter, change, modify or in any way limit or restrict the constitutional method of electing senators in Congress without the consent and authority from other states, as provided by the constitution, than Illinois or New York has to circumvent any other provision of the constitution.

Our state constitution provides that before it shall be amended the proposed amendment shall be agreed to by a majority vote of the members elected to both houses of the legislature. It shall then be published for three months preceding the next general election and shall thereafter be referred to the succeeding session of the General Assembly and must receive the affirmative vote of a majority of the members of each house. It shall then be submitted to the voters of the state to be passed upon by them and must receive a majority of the votes cast before it becomes a law.

It will therefore be seen that there exists both with the state and the nation as with all governments and all organizations governed and regulated by constitutions and laws, an invariable rule that constitutions, being a promulgation of the fundamental principles upon which government is founded, shall not be open to amendment or modification so easily or so readily as statutes may be amended. Hence the more exacting requirements and the limitation as to time within which amendments may be adopted, in the state requiring more than two years, and in the nation an indefinite period which by reason of other restrictions must necessarily be of considerable duration. The purpose of these limitations was doubtless to prevent any hasty or ill advised changes in the fundamental laws of the state or of the nation, to render them more secure by reason of these requirements and to afford sufficient time for careful and mature deliberation and consideration of suggested amendments.

The proposed law, in effect, seeks to abrogate a provision of the constitution of the United States without pursuing the course provided in the constitution for its amendment or modification and without regard to any action upon the part of other states.

It is therefore a direct disregard of the compact or agreement entered into between the states.

It further seeks to subvert that provision of the constitution with reference to the election of senators in the Congress of the United States by the legislatures, is virtually compelling the members of the General Assembly to surrender that prerogative, which, if accomplished, is a practical nullification of an important provision of the constitution.

Instead of a two-thirds vote of both houses of Congress and a ratification by the legislature of three-fourths of the state, which are required to amend the constitution of the United States, it is here proposed to indirectly abrogate a constitutional limitation by the enactment of a law, to pass which requires only a mere majority vote of the members elected to each house of the legislature, and without even having obtained an expression from the people, thereby placing the constitution upon no firmer foundation than mere statutory enactments.

Such procedure cannot help but lessen the respect of the people for the constitution itself and for its most solemn and binding obligations. When legislatures and public officials will thus trifle with and lightly consider the fundamental law of the land how can the private citizens be expected to hold it inviolate?

The constitution of our state requires every senator and every representative in the General Assembly to take the following oath: "I do solemnly swear (or affirm), that I will support the constitution of the United States, and the constitution of the State of Iowa, and that I will faithfully discharge the duties of Senator (or representative), according to the best of my ability."

The proposed law, if its purpose is accomplished, would compel every man who occupies a seat in your Honorable Body to violate the spirit of

this oath, if indeed he does not wholly disregard the obligation, by substituting the supposed will of the people for his own best judgment or ability. No matter what means may have been resorted to by senatorial candidates, even if it should be shown beyond question that corruption and vote buying or any other unlawful or reprehensible methods had been employed in securing a majority of the votes, still the legislator who has signed a statement to always abide the results of election is honor bound to do so. Where a legislature, without any charge of corruption upon its own part, had elected an individual to the Senate of the United States how could the senate investigate or inquire into charges of corruption practised by him in connection with this so-called Oregon plan, which neither the constitution nor the statutes of the United States require or recognize as a part of the plan of electing senators in Congress?

If this proposed law gains favor throughout the states of the Union may we not reasonably expect that other means will be devised for circumventing other provisions of the constitution and that sooner or later the whole fabric of our fundamental law will be open to attacks? Already some of the friends of this measure are advocating the election of President and Vice-president of the United States by a direct vote of the people. How long will it be before an effort will be made to require the candidates for presidential electors to surrender their constitutional and statutory rights to vote for the candidates of their party and to agree to vote for the presidential candidate who receives the largest popular vote?

It has been suggested that the proposed law simply confers upon the people of the state the right to elect United States Senators by a direct vote. That question is no wise involved in this plan and every one knows that if it were, the measure would be clearly unconstitutional. The effort to make it appear that the enactment of this measure into law is equivalent to conferring upon the people the right to name senators is only for the purpose of trying to give standing and credibility to an otherwise indefensible attempt to get around a requirement of the constitution, to justify virtual nullification and an invasion of the rights and duties of the members of the General Assembly.

It requires but little power of discernment to see the difference between the two plans. Were the constitution so amended as to provide for the election of Senators by a direct vote of the people the legislature would thereby be entirely relieved of all responsibility or connection therewith. The election of candidates for legislative positions would not be involved and there could be no charge of an attempt to evade the constitution, all of which as well as other serious objections exist as to the plan in question. The proposed measure is so clearly antagonistic to the spirit of the constitution that its most enthusiastic supporters make no claims to being able to require compliance with it except through coercion and intimidation.

It is claimed by the friends of the measure that it is a mere matter of choice with the legislative candidate whether he makes any declaration

at all or whether he shall agree to be bound or decline to be bound by the popular vote for senator. It is quite clear to many of you that the conditions in your district are such that not to declare yourselves would mean certain defeat and to sign either statement would give little if any better promise of election. A choice under such circumstances would have little of volition connected with it. It would be made not with a desire to comply with the spirit of the proposed law but with reference to what would most likely insure success at the polls. Doubtless a large majority of legislative candidates would decline to make any statement whatever except for fear as to results if they should refuse. A law which creates such a condition is not only morally wrong but in this instance is in contravention of both the statutes and the constitution of the United States.

The entire measure constitutes an effort to indirectly accomplish something which cannot be done directly, and is therefore an attempt to evade the constitution. The question which we must determine is whether we as citizens of a great commonwealth and a great republic will insist upon strict conformity to and compliance with the provisions of the constitution, or whether we will encourage the enactment of laws that seek to circumvent some of its positions.

Because of the above reasons, and because I believe that the solemn oaths taken by members of the legislature should be respected and held inviolate, and because I believe that the constitution in all its parts should be immune from practical nullification, subversion or evasion, and that its provisions should be held sacred until modified or amended according to its own terms and requirements, and because I believe that states, as well as public officials and private citizens, should conform to and observe the spirit, as well as the substance, of the constitution, and because I believe the enactment of such laws as the measure in question is a practical undermining of the constitution and a danger and a menace to our form of government, and because I believe that the effect of such legislation will be to lessen the respect of the people in general for the fundamental law of the land, I herewith return House File No. 1, without my approval.

Respectfully submitted,

B. F. CARROLL,
Governor.

February 21, 1911, Des Moines, Iowa.

The following communication was received from the Board of Railroad Commissioners:

OFFICE OF THE BOARD OF RAILROAD COMMISSIONERS.

Des Moines, Iowa, February 22, 1911.

WHEREAS, Since the first of July of last year fifteen cases involving Iowa interstate rates have been instituted by this Board before the Interstate Commerce Commission; and not one exhibit has been prepared and nothing whatever has been done by this or any other department of the State in preparation for the prosecution of said cases, although they have been pending for more than six months; and some of them affect hundreds of towns and thousands of commodities.

The responsibility of taking the initiative for Iowa interests relative to interstate rates is a comparatively new duty cast upon this Board, and there is not one stenographer, rate clerk, or other assistant, who can be taken from the duties they are now performing for the Commission to help in the preparation of exhibits for the said cases.

There are no funds allowed this Commission which can be used in the preparation of exhibits, briefs, documents, traveling expenses, employment of help, or purchase of books, or any other facilities absolutely necessary for the proper preparation for the prosecution of said cases. At the present time the contingent expense fund of this Board is completely exhausted; there is a balance of only \$14.87 in the rate investigation fund, and we have no money to pay expenses already incurred in the purchase of the transcript, filing briefs, and presentation of oral argument in the advanced rate cases recently concluded at Washington, D. C., before the Interstate Commerce Commission, affecting over 200 commodities from Iowa points; and

WHEREAS, Approximately 85 per cent of the freight rates paid by Iowa is on interstate business, consequently these duties relative to interstate rates are of vast importance to Iowa industries, and they should be properly performed:

Therefore, Be it resolved, that we strongly urge upon the present General Assembly that the State should either furnish us at once all necessary facilities for the preparation and prosecution of cases before the Interstate Commerce Commission involving interstate rates affecting Iowa industries, or else we should be relieved from such responsibility. Either we should not be required to perform this task now required of us by law, or else we should have adequate facilities to perform that task.

And be it resolved that a copy of these resolutions be sent at once to the Governor of the State, to the Speaker of the House, and to the president of the Senate of the General Assembly now in session, with the request that this memorial shall be placed before the members of the said General Asseembly.

N. S. KETCHUM,
D. J. PALMER,
CLIFFORD THORNE,
Commissioners.

ATTEST: Dwight N. Lewis,
Secretary.

Referred to Committee on Appropriations.

Sec. 16. Registration provided for in Section Fifteen shall be renewed annually in the same manner and on the payment of the same fee as provided in Section Fifteen (15) for original registration, such renewal to take effect on the first day of January of each year. The

Sec. 17. The provisions of this section, however, shall be operative as to a motor vehicle owned by a non-resident of this state only to the extent that under the laws of the foreign country, state, territory or federal district of his residence like exemptions and privileges are granted to motor vehicles duly registered under the laws of and owned by the residents of this state.

Sec. 18. Every motor vehicle, operated or driven upon the public highways of this state, shall be provided with adequate brakes in good working order and sufficient to control such motor vehicle at all times when the same is in use, and a suitable and adequate bell, horn or other device for signalling, and shall, during the period from one-half hour after sunset to one-half hour before sunrise, display at least two lighted lamps on the front and one on the rear of such motor vehicle, which rear lamp shall also display a red light visible from the rear; provided that each motor cycle and each motor bicycle shall be required to display but one lighted lamp in the front of such motor cycle or motor bicycle. The rays of such rear lamp shall shine upon the number plate carried on the rear of such vehicle in such manner as to render the numerals thereon visible for at least fifty feet in the direction from which the motor vehicle is proceeding. The light or lights of the front lamps shall be visible at least five hundred feet in the direction in which the motor vehicle is proceeding.

Sec. 19. A person operating or driving a motor vehicle shall, on signal by raising the hand, from a person driving, leading, or riding a horse or horses, or other draft animals, bring such motor vehicle immediately to a stop, and if travelling in the opposite direction, remain stationary so long as may be reasonable to allow such horses or animals to pass, and if travelling in the same direction, use reasonable caution in thereafter passing such horse or animal; provided that, in case such motor vehicle is so signalled to do, such person shall cause the motor of such vehicle to cease running so long as shall be reasonably necessary to prevent accident and insure the safety of others. In approaching or passing a car of a street railway which has been stopped to allow passengers to alight or embark, the operator of every motor vehicle shall slow down, and if it be necessary for the safety of the public he shall bring said vehicle to a full stop. Upon approaching a pedestrian who is upon the travelled part of any

highway and not upon a sidewalk, and upon approaching a branch or intersecting highway or curve or a corner or other place in a highway where the operator's view is obstructed for a distance of two hundred feet or less, every person operating a motor vehicle shall slow down and give a timely signal with his bell or horn or other device for signalling.

Sec. 20. Every person operating a motor vehicle on the public highways of this state shall drive the same in a careful and prudent manner, and at a rate of speed so as not to endanger the property of another, or the life or limb of any person; provided that a rate of speed in excess of twenty-five miles an hour for a distance of one-fourth of a mile shall be presumptive evidence of driving at a rate of speed which is not careful and prudent.

Sec. 21. Except as herein otherwise provided, local authorities shall have no power to pass, enforce, or maintain any ordinance, rule or regulation requiring from any owner to whom this act is applicable, any fee, license or permit for the use of the public highways, or excluding any such owner from the free use of such public highways, excepting such driveways, speedways or roads as have been expressly set apart by law for the exclusive use of horses and light carriages or in any other way regulating motor vehicles or their speed upon or use of the public highways; and no ordinance, rule or regulation contrary or in any wise inconsistent with the provisions of this act, now in force or hereinafter enacted, shall have any effect; provided, however, that the power given to local authorities to regulate vehicles offered for hire, and processions, assemblages or parades in the streets or public places and all ordinances, rules and regulations which may have been or which may be enacted in pursuance of such powers shall remain in full force and effect, and provided further, that local authorities may set aside for a given time a specified public highway for speed contests or races, to be conducted under proper restrictions for the safety of the public; and provided further, that local authorities may exclude motor vehicles from any cemetery or grounds used for the burial of the dead, and may by general rule, ordinance or regulation exclude motor vehicles used solely for commercial purposes from any park or part of a park system where such general rule, ordinance or regulation is applicable equally and generally to all other vehicles used for the same purpose; provided further, that the local authorities of cities and towns may limit by ordinance, rule or regulation the speed of motor vehicles on the public highways, such speed limitations not to be in any case less than one mile in six minutes, and the maintenance of a greater rate of speed for one-eighth of a mile shall be presumptive evidence of driving at a rate of speed which is not careful and prudent, and on further condition that each city or town shall have placed conspicuously on each main public highway where the city or town line crosses the same, and on every main highway where the rate of speed changes, signs of sufficient size to be easily readable by a person using the highway, bearing the words "City of _____," "Town of _____;" Slow down

—miles." (the rate being inserted,) and also an arrow pointing in the direction where the speed is to be reduced or changed, and also on further condition that such ordinance, rule or regulation shall fix the punishment for violation thereof, which punishment shall, during the existence of such ordinance, rule or regulation, supercede those specified in section twenty-three.

Sec. 22. The violation of any of the provisions of sections from Three to Fifteen both inclusive, of this act shall constitute a misdemeanor punishable by a fine not exceeding fifty dollars.

Sec. 23. The violation of any of the provisions of Section Twenty of this act shall constitute a misdemeanor punishable by a fine not exceeding one hundred dollars.

Sec. 24. Whoever operates a motor vehicle while in an intoxicated condition shall be guilty of a misdemeanor. Sec. 6. The Clerk of the District Court shall cause a copy of the information and minutes of evidence to be delivered to the accused, or to his attorney, at or prior to the time of arraignment.

Sec. 7. If the information is filed at the instance of a private prosecutor, the County Attorney may endorse such fact upon the information and sign such endorsement, and, in such case, the costs may be taxed in the same manner and under the same limitations as in case of indictments.

Sec. 8. An amended or substituted information may be filed at any time prior to the commencement of the trial, but, should it appear to the court that the accused should have additional time to prepare for trial on account of amendments, a continuance shall be granted accordingly. Amendments filed during the trial shall be limited to and governed by the provisions for amending indictments during trial.

Sec. 9. The information shall be drawn and construed, in matter of substance, as indictments are required to be drawn and construed. All provisions of law applying to prosecutions on indictments and relating to the issuance of warrants, the corrections of the name of the accused, the issuing of process, the giving of bail, arraignments, pleadings, trials, change of place of trials, return of verdicts, the taking of exceptions, new trials, arrest of judgments, the entering of judgments and the execution thereof, appeals, except as modified or otherwise provided for in this chapter, and all other proceedings in cases of indictments, whether in the court of original or appellate jurisdiction shall in the same manner and to the same extent, as near as may be, apply to informations and all prosecutions and proceedings thereon.

Sec. 11. Wherever the word County Attorney appears in this chapter, the same shall be construed to mean County Attorney or the Assistant County Attorney.

Sec. 12. The time in which criminal prosecutions may be commenced by information shall be the same as in cases of prosecutions by indictment, which time shall be computed from the date of the filing of the initial information.

Sec. 13. A motion to set aside the information may be made on one or more of the following grounds:

1. When it is not endorsed "A True Information," and the endorsement signed by the County Attorney.
2. When the minutes of evidence have not been filed with the Information.
3. When the names of the witnesses named in such minutes of evidence are not endorsed on the Information.
4. When the Information has not been verified or filed in the manner herein required.
5. When the accused has not, prior to the filing of the Information, been held to the Grand Jury for the offense charged, or the Information has not been approved, as required.

Such motion must be made before a plea is entered by the accused. If not so made, the objection shall be deemed waived. If either of the objections specified in the fifth paragraph above is shown to be true, the court shall sustain said motion. If either of the objections specified in the first four paragraphs above are shown to be true, the court shall sustain said motion, unless the defects are corrected within such time as the court may order. Affidavits and oral and documentary evidence may be received upon the hearing of such motion.

Sec. 14. An accused prosecuted on information may, in vacation, be arraigned by any Judge of the District Court, and, in vacation, be required to plead to the information before any such judge, but arraignments can be made and pleas required, in vacation, only before such judge sitting in chambers at the usual place of holding court in the county in which the information was filed, or to which the cause may be sent on change of venue. The proceedings with reference to arraignments and the taking of pleas, in vacation, shall be signed by the judge and filed with the Clerk and entered at length in the records of the court with the same force and effect as if made and entered in term time.

Sec. 15. Judgments may be rendered in vacation on written pleas of guilt of the offense charged, or of any degree or grade thereof, or of any offense included therein, with the same force and effect as though rendered in term time, which written plea of guilt, together with the judge's entry of judgment in reference thereto, shall be forthwith filed with the Clerk and entered at length in the records of said court, and, after such entry, be executed as in case of judgments on indictments, but judgments in vacation can only be rendered by a Judge of the District Court sitting in chambers at the usual place of holding court in the county where the information was filed, or to which the cause has been transferred on change of venue.

Sec. 16. Whenever an accused shall be held to answer to the Grand Jury for an offense and shall give bail, such bail shall be construed as conditioned to answer to any indictment for said offense returned by the Grand Jury, to which the accused is legally held to answer, and to any information charging said offense filed by the County Attorney.

Sec. 2. That all of the persons before named elected as aforesaid as officers and councilmen of the said town are hereby declared to have been duly and legally elected and to be now legally acting as such, and the terms of office of said officers and councilmen, and each of them, shall continue as hereinafter provided.

That thereafter all of the town officers and councilmen of the town of Floyd shall be elected or appointed biennially as now provided by law.

Sec. 4. That nothing in the Act shall affect any pending litigation.

Sec. 5. This act, being deemed of immediate importance, shall be in force and effect from and after its publication in the Des Moines Register and Leader, a newspaper published at Des Moines, Iowa, and the Charles City Daily Intelligencer, a newspaper published at Charles City, Iowa; said publication to be without expense to the State.

House File No. 415, a bill for an act for the purpose of having a patent issued in the name of O. D. McGeorge for a certain tract of land.

Be it Enacted by the General Assembly of the State of Iowa:

Whereas, on the 17th day of December, 1883, one W. J. Romick borrowed from the permanent school fund of Cass County, the sum of Three

Hundred Fifty Dollars, and to secure the payment thereof executed with his wife, to Cass County, Iowa, for the benefit of the School Fund of said county, a first mortgage on the Northwest quarter of the Southwest quarter of Section 25, Twp. 77 North, Range 34, West 5th. P. M. Cass County, Iowa, securing a promissory note, with interest coupons attached, for said amount, due December 17th, 1888, with interest thereon at the rate of eight per cent. per annum, payable annually, and

Whereas, on the 19th day of March, 1884, said W. J. Romick borrowed from the permanent school fund of said Cass County, the further sum of Four Hundred Dollars, and to secure the payment thereof executed, with his wife, a mortgage to said county for the benefit of the school fund thereof, on the Southwest quarter of the Southwest quarter of said Section 25, securing a promissory note, with interest coupons attached, for said sum of Four Hundred Dollars, due March 19th, 1889, with interest thereon at the rate of eight per cent. per annum, payable annually, thus making a total sum so borrowed from said fund of Seven Hundred Fifty Dollars; and

Whereas, said mortgagors having defaulted in the payment of the interest on both of said loans, for nearly two years, said mortgages were foreclosed, as required by law, in the District Court of Iowa, in and for Cass County, by decree entered therein in Equity Cause No. 2755, on the 2nd day of March, 1888; and

Whereas, thereafter all of said premises, to-wit: the West half of the Southwest quarter of Section 25, Township 77 North, Range 34 West 5th P. M., Cass County, Iowa, were sold under execution issued on said judgment and decree, to said Cass County, Iowa, for the benefit of the School Fund of said county, for the full amount of principal and interest then due on both of said loans, together with the costs of said foreclosure proceedings, and a Certificate of Purchase issued by the sheriff of said county to said purchaser; and

Whereas, still later, there being no redemption made from said sale, a Sheriff's Deed of said premises was in due form of law executed to said Cass County, Iowa, for the benefit of the School Fund of said county, on the 29th day of April, 1890; and

Whereas, subsequent to said sale under execution, the permanent school fund of said county was duly credited in full for the aggregate principal and interest then due on said loans, thereby making said school fund whole in all respects, and preserving the same from any and all loss; and

Whereas, thereafter, and on the 13th day of January, 1891, said Cass County, through its board of supervisors, and upon the assumption that the title to said tract was absolutely in said county, resold said premises to Alva H. Cooper and J. D. Cooper, and executed a deed thereof to said purchasers; and

Whereas, since said last-named sale and conveyance, the following successive good-faith sales and conveyances of said premises have been made,

viz: Said Alva H. Cooper and J. D. Cooper, both unmarried, sold and conveyed the same to John Herren; the said John Herren and wife conveyed the same to Charles Roland; the said Charles Roland and wife sold and conveyed the same to Henrietta B. Romick; the said Henrietta B. Romick, a widow, sold and conveyed the same to G. W. Lattig; the said G. W. Lattig, unmarried, sold and conveyed the same to Ella S. Kell; the said Ella S. Kell and husband sold and conveyed the same to A. O. McQuown; the said A. O. McQuown and wife sold and conveyed the same to George N. Thompson; the said George N. Thompson and wife sold and conveyed the same to H. L. Bell; the said H. L. Bell and wife sold and conveyed the same to Thomas Hopley; the said Thomas Hopley, unmarried, sold and conveyed the same to Henry E. Bartley, and the said Henry E. Bartley and wife sold and conveyed the same to O. D. McGeorge, who is the present owner in fee of said real estate; and

Whereas, doubts have now arisen as to the legality of said sale and conveyance by said Cass County to said Alva H. Cooper and J. D. Cooper, and as to whether, under the school fund laws of this state at that time, the title to said premises should not have been regarded as vesting in the State of Iowa, under said Sheriff's Deed, thereby necessitating a re-sale of said premises in the same manner as other school lands belonging to the State; now

Therefore, in order to clear the apparent cloud resting upon said premises and the title thereto,

Be it Enacted by the General Assembly of the State of Iowa:

Section 1. That the title to the West half of the Southwest quarter of Section 25, Township 77 North, Range 34 West, 5th P. M., Cass County, Iowa, does hereby pass from the State of Iowa, to said O. D. McGeorge, and that the same shall vest absolutely in him.

Sec. 2. That the governor of the state, and the secretary of the state, are hereby authorized and directed to issue to the said O. D. McGeorge a patent for the said lands described in Section one hereof, and deliver same to the said O. D. McGeorge.

Sec. 3. This act being deemed of immediate importance, shall be in effect and force from and after its publication in the Des Moines Capital, a newspaper published at Des Moines, Iowa, and in the Atlantic Daily Telegraph, a newspaper published at Atlantic, Iowa, said publications to be made without expense to the state.

O'Connor of Chickasaw raised the point of order that there is no showing in the record that the motion and second to reconsider were made by members voting with the majority as provided in Rule 32.

Point of order not sustained.

Dawson of Cherokee demanded roll call, seconded by Zeller of Madison.

On the question "Shall the House reconsider?"

The ayes were:

Bascom, Bauman, Beans, Beebe, Bowman, Brady, Brockway, Bybee, Campbell of Ida, Collin, Cousins, Crist, Cunningham, Daniels, Dawson, Dewey, Dixon, Edmunds, Enger, Felt, Finlayson, Fry, Fulton, George, Goodykoontz, Grout, Halgrims, Hayes, Hickenlooper, Hogan, Huff, Hunt, Hutchins, Jacobs, Jacobson, Johnson, Klay, Kulp, Larrabee, Linnan, Lounsberry, McCleery, Milton, Newell, Patterson, Perkins, Pickford, Robbins, Russell, Schee, Shankland, Sherman, Skinner, Smith of Adams, Smith of Decatur, Stephenson, Stoddard, Van Camp, Whitney, Zeller, Mr. Speaker—61.

Schee of O'Brien moved that the consideration of the report of the committee and of the bill be postponed until March 24th.

O'Connor of Chickasaw raised the point of order that there was no bill before the House for consideration and there could be no motion to defer action on the bill until the report of the committee had been adopted.

The Chair held that the consideration of the report brought the bill back officially into the possession of the House, and that

until the report was acted upon, the report and bill belonged together. The point of order was not sustained.

Klay of Sioux moved as an amendment that the matter be considered at this time.

Roll call was demanded by Klay of Sioux.

Seconded by Dawson of Cherokee.

On the question "Shall the amendment be adopted?"

The ayes were:

Bascom, Bauman, Beans, Beebe, Bowman, Brady, Brockway, Bruce, Bybee, Campbell of Ida, Campbell of Webster, Collin, Cousins, Crist, Cunningham, Daniels, Dawson, Dewey, Dixon, Edmunds, Enger, Felt, Finlayson, Fourt, Fletcher, Fry, Fulton, George, Goodykoontz, Grout, Halgrims, Hayes, Hickenlooper, Hogan, Huff, Hunt, Hutchins, Jacobs, Jacobson, Johnson, Klay, Kulp, Larrabee, Linnan, Lounsberry, McCleery, Milton, Moore, Newell, Patterson, Pickford, Robbins, Russell, Schee, Sherman, Skinner, Smith of Adams, Smith of Decatur, Speer, Stephenson, Stoddard, Townsend, Van Camp, Whitney, Zeller, Mr. Speaker—66.

Amendment adopted.

Motion as amended adopted.

Klay of Sioux moved that the report of the committee be rejected and the bill be placed on the calendar in the usual order.

Jacobs of Calhoun moved that the report of the committee and the bill be re-referred to the Committee on Suppression of Intemperance.

Klay of Sioux raised the point of order that the motion was out of order, inasmuch as the House had voted to take action on the report at this time.

The Chair held that the point of order was not well taken for the reason that a motion to re-refer the report contemplated action on the report.

Klay of Sioux moved to amend the motion by placing the bill on its passage in the regular order on the calendar.

Jacobs of Calhoun raised the point of order that the motion to re-refer took precedence and was not subject to amendment.

Chair ruled that a motion to re-refer took precedence over a motion to place on its passage and was only amendable in respect to the committee to which reference should be made.

Harding of Woodbury moved that the report of the committee be laid on the table.

Seconded by O'Connor of Chickasaw.

Roll call was demanded by Klay of Sioux, seconded by Dawson of Cherokee.

On the question "Shall the report lay on the table?"

The ayes were:

Black, Boettger, Byerly, Downey, Dunlap, Ellis, Escher, Fletcher, Fraley, Gilbert, Greene, Griggs, Hamilton, Harding, Harvey, Hazen, Koontz, Krebill, Kull, Leach, McCullough, Miller of Dubuque, O'Connor, Odendahl, Olson, Ritter, Rowles, Sater, Schee, Taylor, White, Mr. Speaker—32.

Absent or not voting.

Brown, Dabney, Huntley, Lenocker, Murtagh, Penn, Shane—7.

So the motion was lost.

Moore of Linn raised the point of order that the entire proceedings in reference to the reconsideration of House File No. 136 were out of order, because a bill which had been indefinitely postponed could not again be taken up during the session.

The Chair held that the report of the committee for indefinite postponement had not been finally adopted by the House for the reason that the motion to reconsider was filed within the time specified in the Rules, and that therefore the point of order was not sustained.

On the question, "Shall the report of the committee and the bill be re-referred?"

The ayes were:

Bascom, Beans, Black, Boettger, Brown, Bybee, Byerly, Campbell of Webster, Dabney, Downey, Dunlap, Edmunds, Ellis, Escher, Fraley, Gilbert, Greene, Griggs, Hamilton, Harding, Jacobs, Johnson, Koontz, Kull, Leach, Lenocker, McCullough, Miller of Bremer, Miller of Dubuque, Milton, Moore, Murtagh, O'Connor, Odendahl, Olson, Penn, Ripley, Ritter, Rowles, Sater, Stipe, Taylor, Townsend, White, Whitney—45.

The nays were:

Absent or not voting:

Bauman Huntley, Smith of Dectaur—3.

So the motion was lost.

Klay of Sioux demanded a roll call on the motion that the report of the committee be rejected and the bill be placed on the calendar in the usual order.

Seconded by Dawson of Cherokee.

Schee of O'Brien asked a division of the question and the Chair ruled that the question was one which could be properly divided, and that the first vote would be taken on the motion to reject the report of the committee.

On the question, "Shall the House reject the report of the committee?"

The ayes were:

AFTERNOON SESSION.

House reconvened, Speaker Stillman in the Chair.

House resumed consideration of House File No. 136.

The Speaker stated that the question before the House was "Shall House File No. 136 be placed upon the calendar?"

Moore of Linn raised the point of order that it required a suspension of the rules and a two-thirds vote to place the bill on the Calendar.

The Chair held that the point of order was not well taken and that a majority was competent to place the bill on the calendar.

O'Connor of Chickasaw raised the point of order that a motion to place the bill on the Calendar was not in order.

The Chair held that it is the duty of the Clerk, without instructions, to place the bill upon the Calendar and that the motion to that effect is unnecessary, therefore the point of order was sustained.

Harding of Woodbury moved that the bill be committed to the Judiciary committee.

Klay of Sioux raised the point of order that because the House had voted down the motion to refer this bill to a committee, the motion was out of order.

The Chair held that although the House might vote down a motion to refer the bill to the Committee on Suppression of Intemperance, it might still vote to refer it to the Committee on Judiciary, and therefore overruled the point of order.

Kay of Sioux demanded a roll call.

Moore of Linn asked for a ruling of the chair as to the vote necessary to make the bill a Special Order.

The Chair ruled that this action involved a suspension of the regular order of business and would require a two-thirds vote.

Moore of Linn demanded a roll call.

Seconded by Klay of Sioux.

On question "Shall House File No. 136 be made a Special Order for March 16th, at 10:30 o'clock A. M.?"

Whereas, the council of the City of Osceola, Iowa, in April, 1910, duly adopted by the required vote, a preliminary resolution providing for the paving and curbing of certain streets in said city, including portions of Washington and Webster streets, and

Whereas, a time was fixed for the final consideration of such resolution, and the proper notices were then given as provided by law, and

Whereas, said resolution was considered and portions of Washington and Webster streets, together with other streets, were ordered paved and curbed, and, the cost ordered assessed against abutting property as provided by law, and,

Whereas, said council did at a later date let a contract for the construction of said paving and curbing, and,

Whereas, said paving and curbing has been done honestly and well, and at a large expense, and with the full belief that all of the requirements of the law had been complied with, and that the paving and curbing had been constructed strictly in accordance with said resolution and contract and the laws of Iowa, and,

Whereas, in paving and curbing the portions of Washington and Webster streets between Main street and the tracks of the Keokuk and Western Railroad Company, now the Chicago, Burlington & Quincy Railroad Company, the established grade has been varied from and the paving and curbing as laid and constructed does not conform with the estab-

Whereas, doubts have arisen in regard to the regularity and legality of constructing the paving and curbing on a grade different from the established grade of said city, and,

Whereas, it appears that the city of Osceola, and its council, acted in the utmost good faith, and under the belief that all its acts were legal, therefore,

Be it Enacted by the General Assembly of the State of Iowa:

Section 1. That the acts of the council of the city of Osceola, Iowa, in permitting and causing the paving and curbing on Washington and Webster streets in said city, to be laid and constructed at and on a different grade, from the established grade of the city of Osceola, be and are hereby legalized, and the assessments made by the city council of said city on January 30th, 1911, against the real estate and property along and abutting on Washington and Webster streets for such paving, curbing and street improvements are all legalized and validated, so as to be and have the same force and effect as though constructed and laid on the established grade, and every provision of the laws of the state had been strictly followed.
