16 Section 1. There is hereby levied a tax of one percent on the

19 "Adjusted gross income" shall mean the income as computed for
20 federal income tax purposes under the Internal Revenue Code of
21 1954. Return of said tax shall be made to the state tax commission
22 by every person, as defined in section four hundred twenty-two point

32 wages paid to regular employees whether or not employed on a

34 federal income tax from such employee under the Internal Revenue
35 Code of 1954. Persons whose employment is of a casual nature
36 shall be exempt from the withholding of the tax. The tax so
37 withheld shall be reported to the state tax commission in a manner
38 to be determined by the commission.

39 Sec. 3. 1. Each employer withholding taxes from the salaries
40 or wages of employees shall, at the end of each calendar year,
41 furnish to his employees a statement of the amount so withheld.
42 The commission shall provide the form for such statement. Each

43 employee in making a return of the tax required by this Act may
44 include in his return such statement of tax on salaries and wages
45 withheld as evidence of payment of the tax herein imposed on that
46 portion of his adjusted gross income that consists of salaries or
47 wages and receive credit therefor.

48 2. Every individual, corporation, trust, fiduciary, partnership,
49 or association not domiciled in Iowa, having income from the sale

52 subdivision or unit of the state or in combination with the federal
53 government operated within the state of Iowa, shall pay a tax in

56 such payment shall be in accordance with section four hundred
57 twenty-two point twenty-five (422.25) of the Code.

58 Sec. 4. 1. Every insurance company doing business in the state
59 of Iowa shall pay one percent of its gross premiums or assessments
60 received from policyholders in the state of Iowa and shall remit

62 as hereinafter provided.

63 2. All building and loan associations located in Iowa or
64 doing business in Iowa, all title insurance and trust companies,
65 state, national, private, cooperative and savings banks and credit
66 unions shall pay five percent of the adjusted gross income as
67 defined by the Internal Revenue Code of 1954.

68 3. All credit associations, loan companies, and all other
69 types of lending agencies not otherwise specified herein, shall pay
70 to the state of Iowa, together with their annual report filed with
71 the department to which such report is submitted, one percent of all
72 interest or finance charges, carrying charges, or other lending
73 charges made for the loan, pursuant to or preceding the negotiation
74 of the loan.

75 4. Each such lending agency described herein which is not
76 required by law to make an annual report to a state agency or
77 department charged with their regulation shall report to the
78 state tax commission all income described herein and submit the
79 tax hereby established with such report in accordance with
80 subsection four of section four hundred twenty-two point four (422.4)
81 and section four hundred twenty-two point twenty-five (422.25) of
82 the Code.

83 Sec. 5. Taxpayers having a tax year ending on or before
84 July 1, 1964, shall reduce their adjusted gross income for that
85 reporting year in the same proportion that the number of months
86 elapsing before July 1, 1963, bears to the total number of months
87 in such tax year for the purpose of computing the tax imposed hereby.

88 Sec. 6. There is hereby imposed a tax of ten percent upon
89 the redemption value of all trading stamps used or acquired for use
90 in connection with the conduct of any retail business within the
91 state of Iowa. Each person, firm, or corporation conducting a
92 retail business within the state of Iowa shall, at the time of
93 making his or its quarterly sales tax return, report the redemption
94 value of all trading stamps acquired and the name and address of
95 the supplier thereof, for the preceding quarter. The commission
96 shall thereupon assess the amount of tax due thereon and collect
97 same from such supplier. In the event such supplier is not within
98 the jurisdictional area of authority of the tax commission, the

99 tax shall be collected from the retailer.

100 Sec. 7. The treasurer of state shall establish a public
101 school fund from the revenue derived from this Act as such revenue
102 is received from the various departments authorized to receive
103 funds from this Act. The department of public instruction shall
104 supply to the comptroller on the first day of July, commencing
105 the first day of July in 1964 and each year thereafter, the number
106 of students in each school district on a daily attendance basis,
107 certified by each school district, which shall be the basis for
108 the comptroller to prorate the funds to each school district.
109 The comptroller shall issue such funds to the county treasurer
110 by the fifteenth day of the second month following such certification.
111 Such funds shall be used to augment the fund for instructional
112 and administrative salaries of the public school education system
113 for the purpose of reducing the school millage levy in the
114 ensuing year.

115 Sec. 8. Every school district shall use the 1962-1963 school
116 year as a base in determining the per pupil cost for instruction
117 for its percentage allocation. No school district shall increase
118 its overall cost of instruction more than two percent per year over
119 the 1962-1963 school year cost. Any school district increasing
120 the cost of instruction more than two percent in one school year
121 shall automatically forfeit its right to any increase over its
122 previous year allocation for the succeeding four years.

123 Sec. 9. When two or more school districts are merged
124 through reorganization, or merged as provided by law, the
125 aggregate allocation shall be the basis for their portion of the
126 fund. Should the occasion arise when no base is available, such
127 school district shall present such factors as may be required to
128 the state board of public instruction, the state tax commission
129 and the treasurer of state, which conjunctively shall determine
130 the base for such district.

131 Sec. 10. If any provisions of this Act or the application
132 thereof to any person or circumstances is held to be invalid,
133 such invalidity shall not affect other provisions or applications
134 of the Act which can be given effect without the invalid
135 provisions or application, and to this end the provisions of this
136 Act are declared to be severable.

BILL SIGNED BY THE GOVERNOR

A communication was received from the Governor announcing that on April 3, 1963, he approved Senate File 230.

COMMUNICATION FROM THE GOVERNOR

April 3, 1963.

The Honorable W. L. Mooty,
Lieutenant Governor,
President of the Senate,
Sixtieth General Assembly,
State Capitol,
Des Moines, Iowa.
Dear Sir:

Senate File 1, an Act relating to controlled access highways, is hereby disapproved and returned to Senate in accordance with Article II, Section 16, Constitution of the State of Iowa.

A chief executive does not move lightly to disapprove a measure that has been passed by two successive sessions of the General Assembly. Obviously this legislation has the support of many thoughtful and sincere persons—both in and outside of the legislature. Obviously it reflects the fact that the State Highway Commission's policies relating to access control have been subject to serious criticism and that there has been substantial justification for this criticism.

However, after careful study, I have disapproved this bill because I am convinced it is in the public interest to do so. The implications of the bill are far from clear—and this fact in itself makes its desirability as legislation questionable. Moreover, after hearing the arguments on both sides, evaluating the facts and reading the legal citations, I became convinced that enactment of this legislation, whatever its intentions and justifications might be, would seriously jeopardize the future of our highway program in Iowa. Believing this, I had no choice but to exercise the veto.

Perhaps no single piece of legislation in the past two legislative sessions has aroused such strong feelings both for and against it in the General Assembly. The facts on both sides have been distorted at times by the emotions aroused and the controversy has been magnified in the news headlines. It has been more difficult than it should have been for anyone to arrive at an objective and dispassionate evaluation of the facts.

I want to make it entirely clear that some of the members of the Assembly whom I respect the most have supported this legislation. They have supported it because they feel that the Highway Commission's access control policies have impaired property rights along the highways and that the commission staff has been dictatorial at times in carrying out these policies.

Bluntly, I believe that the legislature's criticism is in certain important respects sound and justified. I simply do not believe that this bill is the proper answer. I am convinced that it goes too far.

In 1955, the Iowa Legislature wrote into the law of our state that access control "is necessary for the immediate preservation of the public peace, health and safety, and for the promotion of the general welfare." This act would repeal that declaration and would state in its place that "all owners or occupants of land abutting any street or highway have the right of free and convenient access" to such street or highway from such land.

The term "free and convenient access" is unquestionably one which would have to be defined by the courts, but this and other provisions of the bill raise a definite question as to whether the state highway authorities could prevent a property owner from building an unlimited number of driveways onto a road without excessive expenditure of state funds. A property owner certainly should not be denied access from his property to a road, but the authority to restrict the owner to reasonable access has been held to be legally sound and in the public interest.

The Supreme Court of Iowa has declared that owners of the land adjacent to the Interstate Highway System and other controlled access highways established on new locations have no right of direct access to the new road where none existed before. Senate File 1 would seem to create vested access rights along such new highways where there was no access before the road was built. It would be necessary for the state, at considerable expense, to acquire these newly created access interests along miles of the Interstate System and other important segments of our highway system in order to prevent congested development and cross traffic that would retard traffic movement and increase driving hazards. I have been informed that the Federal Government, under a long standing policy, would not participate in the cost of such acquisition.

There have been various estimates as to what this bill would cost the taxpayers of Iowa, and undoubtedly some of these estimates have been high. But there is no question in my mind that the cost would be substantial, running into millions of dollars. It is self-evident that state funds used to pay for created access interests could not be used for new highway construction or for improvements in existing highways. The expenditures would thus benefit a minority of property owners at the expense of the general public.

I believe that the deficiencies and grievances at which this act is aimed can be remedied by proper administration of our present laws. Last October, the Highway Commission revised its access control policies and attempted to correct those practices that were repugnant to the general public. Highway officials more recently have expressed a willingness to remedy any further deficiencies that are found to exist.

In conclusion, I want to clearly recognize the fact that the main intention of Senate File 1 is to protect the rights of individual owners along our highways. I am completely in accord with this goal. I simply feel that this bill has other, unintentional implications that conflict with the interests of the general public.

This does not mean that I would oppose legislation that would carry out this main objective without other results. Furthermore, I want to assure the General Assembly that I will clearly instruct the new Highway Commission which will take office July 1 to do everything possible at the administrative level to insure that property owners along our highways are not deprived of their actual access rights without just compensation.

Yours very truly,

/s/ HAROLD E. HUGHES,
Governor

123 services rendered by transportation agencies including railroads,
124 truck lines, air lines, bus lines, and commercial haulers. This
125 Act shall also apply to that portion of services of this character

128 such services upon that portion of the transportation performed
129 within the state of Iowa.

130 Sec. 4. Persons rendering, performing, or selling services

163 the sales of services taxable under this Act. The tax imposed
164 by this Act shall be in addition to all licenses and taxes im-

POINT OF PERSONAL PRIVILEGE

This is an explanation of my reasons for the amendments and the motion to reconsider on Senate File 11.

It has long been my contention that the passage of a proper and all-encompassing utility regulation bill would be desirable and in the public interest. However, Senate File 11, as amended and passed by the House, falls far short of being the type of legislation which will allow equitable uniform and consistent regulation of rates, services and usage of the public property in the interests of the consuming and rate paying public. In fact, Senate File 11 does not accomplish any greater regulation of rates and services to the consuming public than is already available under our statutes on a local or home-rule basis. It merely transfers the regulatory functions from the cities and towns to the State Commerce Commission.

The greatest void, however, exists in the complete failure of the bill to make all utilities subject to regulation. As it presently stands, a few investor-owned utilities are subjected to regulation, but vast areas of the state along with their many thousands of consumers, both electric and telephone, are deprived of the same equitable, uniform and consistent treatment.

In the course of debate on this measure, several amendments were defeated which, had they been adopted, would have eliminated the many exemptions from regulation that were present in the Senate version and are still present in the bill as amended and passed by the House.

80 The tax provided for by this division shall be computed on
81 income tax forms designed by the state tax commission.

82 The state comptroller shall at the end of each month return
83 such tax funds to the basic school tax unit of origin. The
84 treasurer shall deposit such sums in the basic school tax equal-
85 ization fund and distribute same to the school districts on a per

87 within the basic school tax unit. For the tax payable in 1964
88 on net income for 1963, or any fiscal year ending in 1963, the

90 be as determined by section seven (7) of this Act.

103 four hundred twenty-two point twenty-nine (422.29), and four
104 hundred twenty-two point thirty (422.30), of the Code as far as
105 applicable shall apply to all individuals taxable under this Act."

106 Sec. 5. Section four hundred twenty-two point one (422.1),
107 Code 1962, is hereby amended by adding the following new division:
108 "Basic school tax on earnings".

109 Sec. 6. Section four hundred twenty-two point thirteen
110 (422.13), Code 1962, is hereby amended by striking all of sub-
111 sections one (1) and two (2) and substituting in lieu thereof the
112 following:

113 "Every individual having a net income as defined in this chap-
114 ter, for the tax year from sources taxable under this chapter of
115 six hundred (600) dollars or over shall make and sign a return
116 unless in the case of husband and wife, said income is included
117 in a single joint return. All returns shall be properly identi-
118 fied by residence of the taxpayer in his basic school tax unit.

119 Sec. 7. After the school districts receive allocations be-
120 ginning July 1, 1964, from the basic school tax equalization fund

121 there shall be no further increase in property taxes in the basic
122 school tax unit except as herein otherwise provided, until such
123 time that a sum equal to fifty percent of the combined total
124 operating budgets of the school districts in the unit shall be
125 received from the school tax on earnings of residents of the basic
126 school tax unit. Each year after the school districts budgets are
127 prepared and totaled the county auditor shall estimate the per-
128 centage of basic school tax on earnings which together with the
129 property tax levy will be needed to meet eighty percent of the
130 average per pupil cost of the combined budgets for the next school
131 year and certify said percentage to the state tax commission.

132 The funds to be so distributed from the basic school tax
133 equalization fund shall originate from the basic school tax on
134 property and the basic school tax on earnings and shall be cal-
135 culated at a levy on earnings and property within the basic
136 school tax unit which shall be required to meet eighty percent
137 of the average cost per pupil in average daily attendance in all
138 the schools in the basic school tax unit.

139 If operating budget requirements in any school district exceed
140 the anticipated income from the basic school tax equalization
141 fund figured on a per pupil basis, then such additional funds may
142 be raised by a special increase in property taxes in the school
143 district affected subject to prior approval of the board of such
144 school district.

145 Any funds required by a local school district to retire bonded
146 indebtedness and interest thereof shall be raised by taxes within
147 such district on the property of such district.

148 Sec. 8. The state department of public instruction shall,
149 from information obtained from the operation of this Act, devise
150 a method for the distribution of state equalization aid. Such
151 distribution shall be under a foundation plan formula and shall
152 provide sufficient funds to assure each child in the public ele-
153 mentary and secondary schools of the state an amount of financial
154 support equal to the state average per pupil cost or a reasonable
155 percentage thereof.

156 The need for state aid shall be determined by using a distri-
157 bution formula which will give equal weight to the assessed val-
158 uation of property and the taxable personal earnings as defined in
159 this Act when apportioned to each child in average daily school
160 attendance of the ninety-nine (99) basic school tax units in this
161 state.

162 Sec. 9. During the period beginning July 1, 1964 to July 1,
163 1965 all funds appropriated for state aid distribution under pro-
164 visions of chapters two hundred eighty-five (285), two hundred
165 eighty-six (286), and two hundred eighty-six A (286A) of the Code
166 shall be transferred to the state school tax equalization fund.
167 Such funds shall be distributed to the several basic school tax
168 units upon approval of the state superintendent of public in-
169 struction following a foundation plan concept as defined in
170 section eight (8) of this Act.

171 During the period beginning July 1, 1964 to July 1, 1965 the
172 provisions of chapters two hundred eighty-five (285), two hundred
173 eighty-six (286), and two hundred eighty-six A (286A) of the Code
174 shall be suspended and be inoperative. During such time the
175 state department of public instruction shall prepare and recommend

176 to the general assembly a proposal for the distribution of state
177 equalization funds beginning July 1, 1966.

178 Sec. 10. In each basic school tax unit there shall be created
179 as of July 4, 1963, a board of not less than three members, known
180 as the basic school board which shall be composed of the presi-
181 dents of the local school boards representing high school districts.
182 If the number of local school boards is an even number then the
183 school district with the greater number of pupils in average
184 daily attendance shall have two members on the basic unit school
185 board. In the event there is only one school district within the
186 basic school tax unit, the basic unit school board shall be com-
187 prised of the president, secretary and one other member of the
188 local board elected from the membership of such local board. The
189 board shall meet on call of the chairman and its duties shall be:

190 1. They may employ a full-time secretary who shall meet the
191 qualifications of subsection one (1) of section two hundred sixty
192 point nine (260.9) of the Code, and whose salary shall be in-
193 cluded in the basic school tax unit budget. They may also
194 employ personnel to provide the special services provided by law
195 to the local school districts. They shall also have the right to
196 join in co-operative agreements with another basic school board
197 or boards for the purpose of providing additional educational
198 services which such boards may jointly deem to be in the best
199 interests of the citizens of their respective basic school tax
200 units. However, any joint programs so agreed upon by the re-
201 spective boards shall be subject to majority approval of the
202 eligible voters of the affected basic school tax units if the
203 cost of such program shall exceed one percent of the combined
204 operating budgets of the schools in such basic school tax units.
205 Said costs shall be added to the basic school tax unit budget.

206 2. To consider the budgets of the individual schools as
207 approved by the local board and to make additional recommenda-
208 tions as they see fit. Approval of the local budget shall be
209 subject to a majority vote of the basic school board prior to a
210 unit-wide budget hearing.

211 3. To arrange for a unit-wide budget hearing to be held at the
212 county seat of the basic school tax unit.

213 4. To approve any and all proposed building programs in any of
214 the school districts within the basic school tax unit. In no
215 case shall approval be given to any additional school building in
216 a local school district which has a nonapproved rating from the
217 state department of public instruction. Nothing in these duties
218 shall be construed so as to remove any powers of the state de-
219 partment to serve in an advisory or consultant capacity with re-
220 gard to proposed building programs. Any payment for bonds or
221 buildings shall not be included in the budgets contemplated by
222 this Act.

223 After completion of the organization of the basic school board
224 the county school system and county board of education and office
225 of county superintendent shall be abolished. The duties of such
226 county board provided anywhere in the statutes shall be performed
227 by the basic school board and the duties of the county superin-
228 tendent shall be performed by the secretary of such basic school
229 board.

230 Sec. 11. Section two hundred fifty-seven point eighteen

231 (257.18), Code 1962, is amended by striking all of subsection
232 thirteen (13).

233 Sec. 12. Section two hundred fifty-seven point eighteen
234 (257.18), Code 1962, is amended by adding the following sub-
235 section:

236 Classify all schools according to the standards which the state
237 board of public instruction has approved as "fully approved",
238 "partially approved", "conditionally approved" or "nonapproved".
239 Such classification shall clearly evaluate the school on the
240 basis of basic curriculum, electives, special services, operat-
241 ing costs and adequacy of instruction materials and physical
242 plant. It shall contain written comments evaluating the quality
243 as well as the scope of the total educational effort in the
244 school. A written evaluation shall also be made in those schools
245 rated other than fully approved as to the possibility of develop-
246 ing a reasonably adequate educational program. The classifica-
247 tion shall be indicated on a proper certificate and posted in a
248 conspicuous place in each school. The local board of directors
249 shall make public the classification and the supporting material
250 and recommendation on which the classification is based. A
251 summary report and the classification shall be published along
252 with the publication of the budget.

253 Sec. 13. The state department of public instruction shall make
254 uniform rules and regulations and prepare adequate forms so that
255 each school board in the state will be able to make a uniform
256 report of the use of all school funds, showing the percentage of
257 total funds used for various school purposes. Such report shall
258 be complete and follow sound cost-accounting principles so the
259 residents of the local district will be able to know what, if any,
260 expenditures they consider unnecessary in their local school and
261 thereby be able to evaluate the program and curriculum which they
262 wish to have offered in their school. This report shall be made
263 available to the public each year in advance of consideration of
264 the budget for the next year.

265 Sec. 14. Section four hundred twenty-two point thirty-three

269 returns made upon income earned during the calendar year 1963, or
270 as to any returns made for a fiscal year beginning after
271 January 1, 1963. Revenue derived from this section shall be
272 placed in the general fund of the state.

273 Sec. 15. During the period from July 4, 1963 to July 1, 1964
274 the nonhigh-school districts in the state may merge with high
275 school districts by concurrent action of the boards and a majority
276 consent of the resident voters of the districts. Any proposed
277 mergers which would cross the basic school tax unit boundaries
278 shall require prior approval of the state board of public in-
279 struction. Such decision of the state board shall be final as to
280 the desirability of such reorganization. During such period from
281 July 4, 1963 to July 1, 1964 the provisions of chapter two hundred
282 seventy-five (275) of the Code shall be suspended and inoperative.
283 Any nonhigh-school district not within a high-school district by
284 July 1, 1964 shall be attached by the basic school board to a
285 high-school district within the basic school tax unit. During the

286 period July 1, 1964 to July 1, 1965, high-school districts within
287 the basic school tax units may merge by concurrent action of the
288 boards and the consent of a majority of the voters of the districts
289 involved.

SENATE CONCURRENT RESOLUTION 21

By Shaff, Schroeder, Benda, Long, Turner, Fisher,

Vance, Dodds, Lodwick and Van Eaton

Whereas, there is under the present Federal law mandatory requirements that the Interstate Commerce Commission regulate the minimum rates on transportation of freight by rail, and

Whereas, greater reliance should be placed on the forces of competition and less reliance on the restraints of regulation relative to the matter of rates, and

Whereas, although our nation enjoys one of the most highly developed and diversified transportation systems in the world, it has been handicapped by many regulatory laws which are restrictive and which have failed to keep pace with advancing technology, and

Whereas, the law should provide equality of competitive opportunity for all modes of transportation.

Therefore, Be It Resolved by the Senate, the House Concurring: That the Congress of the United States be encouraged in its efforts to lift the restrictions by regulation, on rate making in the transportation industry by favorable consideration of legislation now pending before the Congress, to make more consistent and comprehensive the framework of equal competitive opportunity.

9 Sec. 2. Exclusion of redeemable device used by manufacturer
10 or packer or publication. "Trading stamp" does not include any
11 redeemable device used by the manufacturer or packer of an arti-

18 Sec. 3. Exclusion of coupon redeemable only by merchant.
19 "Trading stamp" does not include any coupon, caused to be pre-

21 his customers, which coupon, ticket, certificate, card, or other
22 similar device is redeemable only by such merchant for or in con-
23 nection with the purchase of specific articles of merchandise
24 carried in his stock.

25 Sec. 4. Legislative declaration: redeemable devices excluded

31 protect the people of Iowa against improper activities of irre-
32 sponsible trading stamp companies.

33 Sec. 5. Definitions.

52 provisions of this Act, which is responsible for the redemption
53 of the stamp.

70 to engage in the business or act in the capacity of a trading
71 stamp company without having a license obtained under the provi-
72 sions of this Act.

73 Nothing contained in this Act shall prohibit any person who

81 Sec. 11. Duty of merchant to give stamps on purchaser's re-
82 quest. Any person who advertises the giving of trading stamps,
83 or who gives trading stamps, with the sale of any merchandise
84 shall give such stamps, if the purchaser requests them, with the
85 sale of all items of merchandise offered for sale at his place of
86 business, unless such person advertises that he does not give
87 trading stamps on certain items of merchandise and designates
88 such items in the advertisement or posts a list of such items in
89 a conspicuous place in his place of business.

90 Sec. 12. Absence of duty to give stamps when prohibited by
91 statute or regulation. Nothing contained in this Act shall be
92 construed as requiring the giving of trading stamps with any ar-
93 ticle when the giving of such stamps or any premium with the par-
94 ticular article is specifically prohibited by statute of this
95 state or rule or regulation adopted pursuant thereto.

97 Every person in this state or any person doing business in this
98 state as a trading stamp company who shall sell or furnish any
99 trading stamps, whether in connection with an advertising plan or
100 otherwise, which entitle a purchaser to procure any merchandise,
101 service, cash or other things of value free of charge upon the
102 production of any number of such trading stamps, shall, before
103 selling or furnishing said trading stamps, obtain a separate an-
104 nual license from the secretary of state and shall pay a separate
105 annual license fee of ten (10) percent of their net earnings,
106 with a minimum of five thousand (5000) dollars.

130 public accountant or by an independent public accountant.

131 Sec. 15. Bond. No person doing business as a trading stamp
132 company shall distribute trading stamps in this state or shall
133 redeem trading stamps hereafter issued therein until it has filed
134 a bond with the secretary of state, payable to the secretary of
135 state, which bond must be duly executed by the company and a
136 corporate surety qualified and approved by the insurance commis-

138 conditioned upon the payment and the performance by the company
139 of its obligation to redeem trading stamps issued by retailers
140 in this state, when they are duly presented for redemption by the
141 rightful holders.

142 The principal sum of the bond should be as follows: if the
143 company has not previously done business as a trading stamp com-
144 pany in this state, fifty thousand (50,000) dollars; if the com-
145 pany's gross income from such business in this state during its
146 last fiscal year was not in excess of one hundred thousand

160 and shall be credited to the general fund.

161 Sec. 18. Rules and regulations. The secretary of state may,
162 in accordance with the provisions of this Act, adopt, amend, or
163 repeal such rules and regulations as are reasonably necessary for
164 carrying out the provisions of this Act.

165 Sec. 19. Notice of intention to suspend or close redemption
166 of trading stamps. No person doing business as a trading stamp
167 company shall close or suspend the redemption of trading stamps

188 extent that they directly or indirectly regulate trading stamp
189 companies or directly or indirectly regulate or prohibit the dis-
190 tribution or redemption of trading stamps as herein defined, are
191 hereby declared to be of no force or effect in the interpretation
192 or enforcement of the matters covered in this Act.

193 Sec. 22. Severability. If any sentence, clause, provision,

16 cease and desist from the acts, practices or omissions so
17 found to be in violation of the Act. Any such order shall
18 become final upon the expiration of thirty (30) days after

RILEY of Linn.

1 Amend Senate File 404 by striking all after the enacting
2 clause and inserting in lieu thereof the following:

3 Section 1. For the purpose of this Act:

4 1. "Dairy product" means milk, skim milk, cream, sour cream,
5 ice cream, ice cream mix, ice milk, ice milk mix, cottage cheese,
6 frozen desserts, reconstituted milk, minimal milk fat products,
7 and any additive variant of any dairy product but shall not mean
8 or include butter, condensed, evaporated or powdered milk or
9 cheese.

10 2. "Department" means the state department of agriculture.

11 3. "Person" means any individual, corporation, cooperative,
12 association, partnership or other business unit.

13 4. "Processor" means any person engaged in the business of
14 processing or packaging dairy products.

15 5. "Distributor" means any person engaged in the business of
16 selling at wholesale or at retail any dairy products.

17 6. "Cost to the processor or distributor" as applied to dairy
18 products shall mean that portion of all of the costs of such
19 processor or of such distributor which, under a system of cost
20 accounting in accordance with sound accounting principles and
21 reasonably adapted to the business of such processor or distribu-
22 tor, is fairly allocable to such dairy product on the sale
23 thereof to the customers or to a particular class of customers of
24 such processor or such distributor. Such cost shall include the
25 price paid for raw materials used in such dairy products plus
26 that part of the cost of doing business of such processor or
27 distributor that is attributable to such dairy products, which
28 shall include labor, salaries, rent, interest, depreciation,
29 power, supplies, maintenance of equipment, selling costs,
30 advertising, transportation and delivery costs, credit losses,
31 taxes, insurance and all overhead expenses of the processor or
32 distributor.

33 7. "Cost to the retailer" means the invoice price paid by the
34 retailer plus that portion of the retailer's cost of doing
35 business which, under a system of cost accounting in accordance
36 with sound accounting principles and reasonably adapted to the
37 business of such retailer, is fairly allocable to any dairy
38 product on the sale thereof to the customers of the retailer.
39 Such cost shall include labor, salaries, rent, interest, depre-
40 ciation, power, supplies, maintenance of equipment, selling
41 costs, advertising, transportation and delivery costs, credit
42 losses, taxes, insurance and all overhead expenses of the
43 retailer. In the absence of specific evidence to the contrary,
44 the cost of doing business shall be presumed to be ten percent
45 (10%) of the invoice price, and this cost shall be calculated to
46 the nearest half cent per sales unit.

47 8. "Sale" and "sell" mean and include any commercial transfer
48 for consideration, exchange, barter, gift, offer for sale and
49 distribution in any manner or by any means whatsoever.

50 9. "Retailer" means any person within this state engaged in
51 the business of operating any retail establishment or institu-
52 tion, including but not limited to hospitals, schools, hotels,
53 restaurants, grocery stores, drug stores and automatic vending
54 machines where dairy products are consumed or sold to customers.

55 10. "Injuring competition" shall mean substantially to lessen
56 competition or tend to create a monopoly or to injure, destroy or
57 prevent competition in the sale of dairy products in this state:
58 Provided, that nothing contained in this Act shall prevent
59 differentials which make only due allowance for differences in
60 the cost of manufacture, sale or delivery resulting from the
61 differing methods or quantities in which dairy products are sold
62 or delivered: And provided further, that nothing contained in
63 this Act shall prevent a seller from selling at a price made in

64 good faith to meet an equally low price of a competitor.

65 Sec. 2. No processor, distributor, or retailer shall for the
66 purpose or with the effect of injuring competition advertise,
67 offer to sell or sell within the State of Iowa any dairy product
68 for less than the cost thereof to such processor, distributor or
69 retailer, provided, however, that the department may authorize
70 sales for less than cost of damaged goods, when the product is no
71 longer fit for human consumption, or to liquidate stocks pursuant
72 to court process or for other purposes which it deems consistent
73 with the objectives of this Act.

74 Sec. 3. No processor, distributor, or retailer shall for the
75 purpose or with the effect of injuring competition offer to sell
76 or sell any dairy product with any other commodity or service at
77 a combined price which is less than the aggregate of the cost of
78 the dairy product plus the price at which the other commodity or
79 service is customarily offered for sale separately by such
80 processor, distributor or retailer at or about the same time as
81 the combined sale or proposed combined sale.

82 Sec. 4. No processor or distributor shall for the purpose or
83 with the effect of injuring competition give or offer to give any
84 retailer and no retailer shall accept any unearned rebate,
85 unearned discount, free services, advertising allowances, pay for
86 advertising space used jointly, donation, free merchandise, rent
87 on space used by the retailer for storing or displaying the
88 processor's or distributor's merchandise, financial aid, free
89 equipment, or any other thing of value. This shall not prevent
90 bona fide sales of equipment, furniture or fixtures to a retailer
91 for not less than ten percent (10%) above seller's cost or
92 invoice price for cash or on the unconditional written promise of
93 such retailer to pay for the same in a period not to exceed
94 thirty-six (36) months and at an interest rate of not less than
95 six percent (6%).

96 Sec. 5. No processor, distributor or retailer shall, for the
97 purpose or with the effect of injuring competition, discriminate
98 in price in the sale of any dairy product between sections,
99 localities, communities, cities, or towns of this state: Provided
100 that nothing herein contained shall prevent a difference in price
101 which reflects only the difference in the cost of raw materials,
102 delivery costs, or the actual cost of transportation. When
103 different prices are charged by a processor or distributor to
104 purchasers located in different sections, localities, communi-
105 ties, cities or towns in this state and such differing prices are
106 given to meet competition and are below the cost of the dairy
107 product to such processor or distributor, the processor or
108 distributor shall send to the department on the same day by
109 certified or registered mail a written report containing such
110 information as the department may require which shall include the
111 circumstances of such sale, the price given, the price met and
112 the name and address of the competitor offering the price met.
113 When in any other case different prices are charged by a
114 processor or distributor to purchasers located in different
115 sections, localities, communities, cities or towns in this state,
116 such processor or distributor shall, within ten (10) days after
117 receiving a written demand from the department, send by certified
118 or registered mail to the department on appropriate forms pro-
119 vided by the department, the reasons for such difference in

120 price. If such price differential is given because of differ-
121 ences in such costs then the processor or distributor's report
122 to the department shall contain specific statistics computed
123 according to sound accounting practices showing the cost justi-
124 fication for such price differential, or if such price differen-
125 tial is given to meet competition, then the processor or
126 distributor's report to the department shall state the circum-
127 stances of such sale, the price given, the price met, and the
128 name and address of the competitor offering the price met.

129 Sec. 6. In any case in which a complaint is made in writing
130 to the department by a person claiming to be injured because of a
131 violation of the provisions of this Act, the department shall
132 forthwith cause an investigation to be made of the complaint.
133 If in the judgment of the department investigation reveals that
134 there is probable cause for the complaint, the department may
135 call upon the attorney general or the county attorney of the
136 county in which the violation occurs who shall institute an
137 injunction action to enjoin violations of this Act, in which case
138 it is the duty of the attorney general or county attorney to
139 institute and prosecute such injunctive action, or the department
140 may take further action as provided in section eight (8) hereof.

141 Sec. 7. The department is authorized and directed to
142 promulgate such reasonable rules and regulations as may be
143 necessary to administer and enforce the provisions of this Act or
144 to properly execute any of the powers specifically conferred by
145 this Act. The department is authorized and empowered to hold
146 hearings, administer oaths and to issue subpoenas for persons and
147 pertinent records. In case of failure or refusal to obey a
148 subpoena issued to any person, any district court, upon applica-
149 tion by the department, may issue an order requiring the person
150 to appear before the department, there to produce evidence or
151 give testimony touching the matter under investigation.

152 Sec. 8. Whenever the department has reason to believe that
153 any person required to obtain a license under section one hundred
154 seventy point two (170.2) of the Code has violated any of
155 the provisions of this Act or any rules or regulations adopted
156 thereunder, or whenever proper evidence has been presented to the
157 department that any person is violating such provisions, the
158 department may enter an order requiring such person to appear
159 before the department and show cause why an order should not be
160 entered by the department requiring such person to cease and
161 desist from the violations charged. Such order shall set forth
162 the alleged violations, fix the time and the place of the hearing
163 and provide for notice thereof which shall be given not less than
164 twenty (20) days before the date of such hearing. After hearing
165 by the department or if the person charged with such violation
166 fails to appear at the time of said hearing, if the department
167 finds such person to have violated the provisions of this Act, it
168 shall enter an order requiring such person to cease and desist
169 from the acts, practices or omissions so found to be in violation
170 of this Act. Any such order shall become final upon the expira-
171 tion of thirty (30) days after the entry if no appeal is taken
172 therefrom. If any such person shall fail to or refuse to comply
173 with any such final order of the department, the department may
174 institute a proceeding for the suspension of such license held by

175 such licensee. Written notice of the institution of such pro-
176 ceeding by the department stating the charges and grounds upon
177 which the license is sought to be suspended and fixing the time
178 and place at which a hearing will be held to determine whether to
179 suspend said license shall be served upon such licensee by
180 certified mail not less than twenty-five (25) days before the
181 date of such hearing. Any person whose license is sought to be
182 suspended shall have full rights to counsel and to produce
183 witnesses in his behalf at such hearing. If after hearing the
184 department shall find that such licensee has failed to comply
185 with any final order of the department entered pursuant to this
186 section eight (8) of this Act for a period of twenty (20) days from
187 the date of the service upon such licensee of the notice of hearing
188 in the proceeding to suspend such license of such person, the
189 department may suspend such license for a period not exceeding
190 six (6) months.

191 If a person charged with a violation of this Act is aggrieved
192 by any order entered by the department, such person may take an
193 appeal therefrom by serving a notice of appeal upon the depart-
194 ment and by filing said notice of appeal with the clerk of the
195 district court of Polk county, Iowa. Upon appeal being taken,
196 the department shall immediately make and certify to the district
197 court a transcript of all papers, records and proceedings in
198 connection with the matter including, unless there is a stipula-
199 tion to the contrary, a transcript of all testimony, all exhibits
200 or copies thereof and all orders and findings entered by the
201 department in the matter. The findings of fact of the depart-
202 ment, if supported by substantial evidence on the record
203 considered as a whole, shall be binding on appeal. The court may
204 dismiss the appeal, modify or vacate the order complained of in
205 whole or in part or remand the matter to the department for
206 further proceedings as justice may require.

207 The department, with or without hearing, upon finding of
208 good cause, may modify or set aside any order entered by it.
209 The department may at any time file a petition in the district
210 court of the county in which is located the principal place of
211 business within this state of the person subject to any cease and
212 desist order issued by the department for an appropriate order of
213 court enforcing the provisions of any final order of the depart-
214 ment.

215 Sec. 9. Any person who suffers pecuniary loss because of a
216 violation of this Act may recover in the district court of this
217 state from the violator treble damages for loss caused by such
218 violation, together with his costs and reasonable attorney fees.

219 Sec. 10. It is hereby declared to be the legislative intent
220 that if this Act cannot take effect in its entirety because of
221 the decision of any court holding unconstitutional any part,
222 sentence or clause thereof, the remaining provisions of the Act
223 shall be given full force and effect as completely as if the part
224 held unconstitutional had not been included herein.

SENATE CONCURRENT RESOLUTION 20

By Committee on Agriculture

Whereas, federal meat inspection is mandatory on all meat involved in interstate commerce.

Whereas, federal inspection covers an estimated 80-85 percent of all meat slaughtered in the United States.

Whereas, federal inspectors condemn as unfit for human consumption approximately one million pounds per day.

Whereas, the division of animal industry estimates 75-80 percent of all animals slaughtered in Iowa are slaughtered under federal inspection. In addition, a few cities have their own service. The rest of the meat has no inspection. It would appear that Iowa exceeds the national average for percent uninspected meat.

Whereas, federal inspectors cover most of the large plants, thus state inspection of the remainder would be comparatively more costly unless federal assistance was received.

Whereas, state inspection should be co-ordinated with existing federal and city services.

Whereas, the large number of smaller locker plants in Iowa make efficient inspection more difficult, and this might be handled by exempting some low-volume plants or by authorizing local veterinarians to perform the inspection, and

Whereas, no one, at present, feels qualified to draw up a bill that will provide adequate inspection, too little is known of the problems involved, therefore it seems the first step must be a study prepared for the Sixty-first General Assembly; now, therefore

Be It Resolved by the Senate, the House Concurring, that the legislative research bureau be directed to study the problem of co-ordination of state, federal and city meat inspection in conjunction with the staff of the state department of agriculture, cause a proper bill to be prepared and report, with the cost of such proposals, to the Sixty-first General Assembly.

Laid over under Rule 25.

SENATE CONCURRENT RESOLUTION 22

By Governmental Affairs

Whereas, there has been agreed, by the librarians of several states in convention assembled, a compact which if adopted by the participating states will make the most efficient use of library equipment to the greatest number of users, now therefore:

Be It Resolved by the Senate, the House Concurring, that the General Assembly agrees to the following Interstate Library Compact:

The contracting states agree that:

ARTICLE I—PURPOSE

Because the desire for the services provided by public libraries transcends governmental boundaries and can be provided most effectively by giving such services to communities of people regardless of jurisdictional lines, it is the policy of the states who are parties to this compact to co-operate and share their responsibilities in providing joint and co-operative library services in areas where the distribution of population makes the provision of library service on an interstate basis the most effective way to provide adequate and efficient services.

ARTICLE II—PROCEDURE

The appropriate officials and agencies of the party states or any of their political subdivisions may, on behalf of said states or political subdivisions, enter into agreements for the co-operative or joint conduct of library services when they shall find that the executions of agreements to that end as provided herein will facilitate library services.

ARTICLE III—CONTENT

Any such agreement for the co-operative or joint establishment, operation or use of library services, facilities, personnel, equipment, materials or other items not excluded because of failure to enumerate shall, as among the parties of the agreement: (1) detail the specific nature of the services, facilities, properties or personnel to which it is applicable; (2) provide for the allocation of costs and other financial responsibilities; (3) specify the respective rights, duties, obligations and liabilities; (4) stipulate the terms and conditions for duration, renewal, termination, abrogation, disposal of joint or common property, if any, and all other matters which may be appropriate to the proper effectuation and performance of said agreement.

ARTICLE IV—CONFLICT OF LAWS

Nothing in this compact or in any agreement entered into hereunder shall be construed to supersede, alter, or otherwise impair any obligation imposed on any public library by otherwise applicable laws.

ARTICLE V—ADMINISTRATOR

Each state shall designate a compact administrator with whom copies of all agreements to which his state or any subdivision thereof is party shall be filed. The administrator shall have such powers as may be conferred upon him by the laws of his state and may consult and co-operate with the compact administrators of other party states and take such steps as may effectuate the purposes of this compact.

ARTICLE VI—EFFECTIVE DATE

This compact shall become operative immediately upon its enactment by any state or between it and any other contiguous state or states so enacting.

ARTICLE VII—RENUNCIATION

This compact shall continue in force and remain binding upon each party state until six months after any such state has given notice of repeal by the legislature. Such withdrawal shall not be construed to relieve any party to an agreement authorized by Articles II and III of the compact from the obligation of that agreement prior to the end of its stipulated period of duration.

Laid over under Rule 25.

SENATE FILE 127 RETURNED TO SENATE

Mowry of Marshall asked and received unanimous consent that Senate File 127 be returned to the Senate for further consideration.

(1) Trading stamp. "Trading stamp" means any stamp or similar device issued in connection with the retail sale of merchandise or service, as a cash discount or for any other marketing purpose, whether issued in connection with an advertising plan, which entitle the rightful holder, on its due presentation for redemption, to receive merchandise, service or cash, or any other thing of value.

(2) Exclusion of redeemable device used by manufacturer or packer or publication. "Trading stamp" does not include any redeemable device used by the manufacturer or packer of an article, in advertising or selling it, or any redeemable device issued and redeemed by a newspaper, magazine, or other publication. The term "manufacturer" or "packer" as used in this section means any vendor of an article of merchandise which is put

up by him in an original package and which is sold under his or its trade name, brand or mark.

(3) Exclusion of coupon redeemable only by merchant. "Trading stamp" does not include any coupon, caused to be prepared by the merchant using the same and distributed by him to his customers, which coupon, ticket, certificate, card, or other similar device is redeemable only by such merchant for or in connection with the purchase of specific articles of merchandise carried in his stock.

(4) Legislative declaration: redeemable devices excluded from definition of "trading stamp" as not employed in practices which must be regulated. The legislature finds and declares that the devices described in sections two (2) and three (3) of this Act are classes of articles that are not employed in connection with practices which must be regulated as provided in this Act to protect the people of Iowa against improper activities of irresponsible trading stamp companies.

(5) Definitions.

a. "Trading stamp company." "Trading stamp company" means any person engaged in any manner in distributing trading stamps for retail issuance by others or in redeeming trading stamps for retailers.

b. "Person." "Person" means any individual, partnership, corporation, association, or other organization.

c. "Commissioner." "Commissioner" means the secretary of state.

d. "Issue." "Issue" includes use, distribute, give away, sell, furnish, and license such use, distribution, gift, sale, or furnishing.

e. "Merchant." "Merchant" includes retailer, person dealing in services, or person in a similar capacity.

(6) Prohibition against issuance of trading stamp not containing licensee's name and stamp's redeemable value. It is unlawful for any person to issue any trading stamp unless such stamp shall have imprinted thereon:

(7) Holder's option to have stamp redeemed either in merchandise or in cash. Any trading stamp company shall redeem upon presentation, any trading stamp which it has issued either in goods, wares, merchandise, other things of value, or in cash, good and lawful money of the United States, at the option of the holder thereof. Trading stamps shall only be presented for redemption in cash in an amount aggregating not less than one (1) dollar.

(8) Prohibition against issuance or redemption of trading stamp without company's consent. It is unlawful for any person to willfully issue or redeem any trading stamp without the consent of the trading stamp company which issued such stamps.

Nothing contained in this Act shall prohibit any person who was licensed as a trading stamp company under the provision of this Act, but who ceased to possess such a license, from redeeming the trading stamps issued pursuant to such license.

(10) Right to redeem stamps issued before Act's effective date. Nothing in this Act shall prevent any person from redeeming, pursuant to contract, any trading stamps issued on or before the effective date of this Act.

(11) Duty of merchant to give stamps on purchaser's request. Any

person who advertises the giving of trading stamps, or who gives trading stamps, with the sale of any merchandise shall give such stamps, if the purchaser requests them, with the sale of all items of merchandise offered for sale at his place of business, unless such person advertises that he does not give trading stamps on certain items of merchandise and designates such items in the advertisement or posts a list of such items in a conspicuous place in his place of business.

(12) Absence of duty to give stamps when prohibited by statutes or regulation. Nothing contained in this Act shall be construed as requiring the giving of trading stamps with any article when the giving of such stamps or any premium with the particular article is specifically prohibited by statute of this state or rule or regulation adopted pursuant thereto.

(13) License required to sell or furnish trading stamps. Every person in this state or any person doing business in this state as a trading stamp company who shall sell or furnish any trading stamps, whether in connection with an advertising plan or otherwise, which entitle a purchaser to procure any merchandise, service, cash or other things of value free of charge upon the production of any number of such trading stamps, shall, before selling or furnishing said trading stamps, obtain a separate annual license from the secretary of state and shall pay a separate annual license fee of ten (10) percent of the portion of its net earnings attributable to the State of Iowa, as determined under reasonable rules and regulations established by the state tax commission, but in any event such annual license fee shall not be less than one hundred (100) dollars.

Upon such payment being made to the secretary of state and upon proof of the filing of a bond as hereinafter provided in section fifteen (15) of this Act, the secretary of state shall issue a license to the person to sell or furnish trading stamps for a period of one (1) year.

(14) Form of application and necessary information. An application for a license to do business as a trading stamp company, upon a form provided by the issuing agency, shall be accompanied by representative samples of its trading stamps, coupons, tickets, certificates, cards or other similar devices, collection books, redemption catalogs, distribution and redemption agreement, and said person shall furnish the following information:

- f. The addresses of the places where its stamps are redeemable located either within or without the state.

g. A short form of its balance sheet as at the end of its last fiscal year prior to such filing certified by a certified public accountant or by an independent public accountant.

(15) Bond. No person doing business as a trading stamp company shall distribute trading stamps in this state or shall redeem trading stamps hereafter issued therein until it has filed a bond with the secretary of state, payable to the secretary of state, which bond must be duly executed by the company and a corporate surety qualified and approved by the insurance commission of the State of Iowa to do business in this state, which is conditioned upon the payment and the performance by the company of its obligation to redeem trading stamps issued by retailers in this state, when they are duly presented for redemption by the rightful holders.

The principal sum of the bond should be as follows: if the company has not previously done business as a trading stamp company in this state, fifty thousand (50,000) dollars; if the company's gross income from such business in this state during its last fiscal year was not in excess of one hundred thousand (100,000) dollars, ten thousand (10,000) dollars; for each additional one hundred thousand (100,000) dollars of gross income from such business in this state or fraction thereof, an additional ten thousand (10,000) dollars.

(16) Automatic suspension of license on noncompliance with section 15. In the event that any trading stamp company should cease to comply with the provisions of section fifteen (15) of this Act, the license and all rights, powers, and privileges conferred by it to the company shall be automatically suspended.

(17) Disposition and crediting of receipts. All fees and penalties and all receipts of any kind and nature received under the provisions of this Act shall be paid into the state treasury and shall be credited to the general fund.

(18) Rules and regulations. The secretary of state may, in accordance with the provisions of this Act, adopt, amend, or repeal such rules and regulations as are reasonably necessary for carrying out the provisions of this Act.

(19) Notice of intention to suspend or close redemption of trading stamps. No person doing business as a trading stamp company shall close or suspend redemption of trading stamps without filing with the secretary of state at least ninety (90) days prior thereto a written notice of its intention to do so and concurrently mailing a copy of such notice to each retailer within the state which has at any time theretofore within one (1) year issued trading stamps which the person, firm, association, or corporation is obligated to redeem. The written notice provided for herein shall be given by means of certified mail directed to the secretary of state and the ninety (90) days herein mentioned shall begin to run on the date such notice is received by the secretary of state.

(20) Penalty for violation. Any person violating any provision of this Act or who is guilty of doing business as a trading stamp company without a license shall be punished by a fine of not more than ten thousand (10,000) dollars. The district court in any county where said violation shall occur, on the complaint of the secretary of state or of any interested person, shall have jurisdiction to restrain and enjoin the violation of any of the provisions of this Act.

(21) Other laws regulating trading stamp companies. Other laws and parts of laws now effective in this state, to the extent that they directly or indirectly regulate trading stamp companies or directly or indirectly regulate or prohibit the distribution or redemption of trading stamps as herein defined, are hereby declared to be of no force or effect in the interpretation or enforcement of the matters covered in this Act.

(22) Severability. If any sentence, clause, provision, or section of this Act shall be held unconstitutional, such decision shall not affect the validity or the constitutionality of any other sentence, clause, provision, or section herein contained and it shall be conclusively presumed that the legislature would have enacted the remainder of this Act without the sentence, clause, provision, or section so held unconstitutional.

Shaw of Floyd offered the following amendment 8 of the committee of the whole and moved its adoption:

8. Amend House File 550 by adding thereto the following new sections:

(1) Trading stamp. "Trading stamp" means any stamp or similar device issued in connection with the retail sale of merchandise or service, as a cash discount or for any other marketing purpose, whether issued in connection with an advertising plan, which entitles the rightful holder, on its due presentation for redemption, to receive merchandise, service or cash, or any other thing of value.

(2) Exclusion of redeemable device used by manufacturer or packer or publication. "Trading stamp" does not include any redeemable device used by the manufacturer or packer of an article, in advertising or selling it, or any redeemable device issued and redeemed by a newspaper, magazine, or other publication. The term "manufacturer" or "packer" as used in this section means any vendor of an article of merchandise which is put up by him in an original package and which is sold under his or its trade name, brand or mark.

(3) Exclusion of coupon redeemable only by merchant. "Trading stamp" does not include any coupon, caused to be prepared by the merchant using

the same and distributed by him to his customers, which coupon, ticket, certificate, card, or other similar device is redeemable only by such merchant for or in connection with the purchase of specific articles of merchandise carried in his stock.

(4) Legislative declaration: redeemable devices excluded from definition of "trading stamp" as not employed in practices which must be regulated. The legislature finds and declares that the devices described in sections two (2) and three (3) of this Act are classes of articles that are not employed in connection with practices which must be regulated as provided in this Act to protect the people of Iowa against improper activities of irresponsible trading stamp companies.

(5) Definitions.

a. "Trading stamp company." "Trading stamp company" means any person engaged in any manner in distributing trading stamps for retail issuance by others or in redeeming trading stamps for retailers.

b. "Person." "Person" means any individual, partnership, corporation, association, or other organization.

c. "Commissioner." "Commissioner" means the secretary of state.

d. "Issue." "Issue" includes use, distribute, give away, sell, furnish, and license such use, distribution, gift, sale, or furnishing.

e. "Merchant." "Merchant" includes retailer, person dealing in services, or person in a similar capacity.

(6) Prohibition against issuance of trading stamp not containing licensee's name and stamp's redeemable value. It is unlawful for any person to issue any trading stamp unless such stamp shall have imprinted thereon:

a. The name of a trading stamp company licensed under the provisions of this Act, which is responsible for the redemption of the stamp.

b. The redeemable value thereof in cents, mills, or fraction of cents.

(7) Holder's option to have stamp redeemed either in merchandise or in cash. Any trading stamp company shall redeem upon presentation, any trading stamp which it has issued either in goods, wares, merchandise, other things of value, or in cash, good and lawful money of the United States, at the option of the holder thereof. Trading stamps shall only be presented for redemption in cash in an amount aggregating not less than one (1) dollar.

(8) Prohibition against issuance or redemption of trading stamp without company's consent. It is unlawful for any person to willfully issue or redeem any trading stamp without the consent of the trading stamp company which issued such stamps.

(9) Requirement of license: right of person ceasing to possess license to redeem stamps. It is unlawful for any person to engage in the business or act in the capacity of a trading stamp company without having a license obtained under the provisions of this Act.

Nothing contained in this Act shall prohibit any person who was licensed as a trading stamp company under the provision of this Act, but who ceased to possess such a license, from redeeming the trading stamps issued pursuant to such license.

(10) Right to redeem stamps issued before Act's effective date. Nothing in this Act shall prevent any person from redeeming, pursuant to contract, any trading stamps issued on or before the effective date of this Act.

(11) Duty of merchant to give stamps on purchaser's request. Any person who advertises the giving of trading stamps, or who gives trading stamps, with the sale of any merchandise shall give such stamps, if the purchaser requests them, with the sale of all items of merchandise offered for sale at his place of business, unless such person advertises that he does

not give trading stamps on certain items of merchandise and designates such items in the advertisement or posts a list of such items in a conspicuous place in his place of business.

(12) Absence of duty to give stamps when prohibited by statute or regulation. Nothing contained in this Act shall be construed as requiring the giving of trading stamps with any article when the giving of such stamps or any premium with the particular article is specifically prohibited by statute of this state or rule or regulation adopted pursuant thereto.

(13) License required to sell or furnish trading stamps. Every person in this state or any person doing business in this state as a trading stamp company who shall sell or furnish any trading stamps, whether in connection with an advertising plan or otherwise, which entitle a purchaser to procure any merchandise, service, cash or other things of value free of charge upon the production of any number of such trading stamps, shall, before selling or furnishing said trading stamps, obtain a separate annual license from the secretary of state and shall pay a separate annual license fee of ten (10) percent of the portion of its net earnings attributable to the State of Iowa, as determined under reasonable rules and regulations established by the state tax commission, but in any event such annual license fee shall not be less than one hundred (100) dollars.

Upon such payment being made to the secretary of state and upon proof of the filing of a bond as hereinafter provided in section fifteen (15) of this Act, the secretary of state shall issue a license to the person to sell or furnish trading stamps for a period of one (1) year.

(14) Form of application and necessary information. An application for a license to do business as a trading stamp company, upon a form provided by the issuing agency, shall be accompanied by representative samples of its trading stamps, coupons, tickets, certificates, cards or other similar devices, collection books, redemption catalogs, distribution and redemption agreement, and said person shall furnish the following information:

- a. The name and principal address of the company.
- b. The state of its incorporation or origin.
- c. The names and addresses of its principal officers, partners, or proprietors.
- d. The address of its principal office in this state.
- e. The name and address of its principal officer, employee, or agent in this state.
- f. The addresses of the places where its stamps are redeemable located either within or without the state.
- g. A short form of its balance sheet as at the end of its last fiscal year prior to such filing certified by a certified public accountant or by an independent public accountant.

(15) Bond. No person doing business as a trading stamp company shall distribute trading stamps in this state or shall redeem trading stamps hereafter issued therein until it has filed a bond with the secretary of state, payable to the secretary of state, which bond must be duly executed by the company and a corporate surety qualified and approved by the insurance commission of the State of Iowa to do business in this state, which is conditioned upon the payment and the performance by the company of its obligation to redeem trading stamps issued by retailers in this state, when they are duly presented for redemption by the rightful holders.

The principal sum of the bond should be as follows: if the company has not previously done business as a trading stamp company in this state, fifty thousand (50,000) dollars; if the company's gross income from such business in this state during its last fiscal year was not in excess of one

hundred thousand (100,000) dollars, ten thousand (10,000) dollars; for each additional one hundred thousand (100,000) dollars of gross income from such business in this state or fraction thereof, an additional ten thousand (10,000) dollars.

(16) Automatic suspension of license on noncompliance with section 15. In the event that any trading stamp company should cease to comply with the provisions of section fifteen (15) of this Act, the license and all rights, powers, and privileges conferred by it to the company shall be automatically suspended.

(17) Disposition and crediting of receipts. All fees and penalties and all receipts of any kind and nature received under the provisions of this Act shall be paid into the state treasury and shall be credited to the general fund.

(18) Rules and regulations. The secretary of state may, in accordance with the provisions of this Act, adopt, amend, or repeal such rules and regulations as are reasonably necessary for carrying out the provisions of this Act.

(19) Notice of intention to suspend or close redemption of trading stamps. No person doing business as a trading stamp company shall close or suspend the redemption of trading stamps without filing with the secretary of state at least ninety (90) days prior thereto a written notice of its intention to do so and concurrently mailing a copy of such notice to each retailer within the state which has at any time theretofore within one (1) year issued trading stamps which the person, firm, association, or corporation is obligated to redeem. The written notice provided for herein shall be given by means of certified mail directed to the secretary of state and the ninety (90) days herein mentioned shall begin to run on the date such notice is received by the secretary of state.

(20) Penalty for violation. Any person violating any provisions of this Act or who is guilty of doing business as a trading stamp company without a license shall be punished by a fine of not more than ten thousand (10,000) dollars. The district court in any county where said violation shall occur, on the complaint of the secretary of state or of any interested person, shall have jurisdiction to restrain and enjoin the violation of any of the provisions of this Act.

(21) Other laws regulating trading stamp companies. Other laws and parts of laws now effective in this state, to the extent that they directly or indirectly regulate trading stamp companies or directly or indirectly regulate or prohibit the distribution or redemption of trading stamps as herein defined, are hereby declared to be of no force or effect in the interpretation or enforcement of the matters covered in this Act.

(22) Severability. If any sentence, clause, provision, or section of this Act shall be held unconstitutional, such decision shall not affect the validity or the constitutionality of any other sentence, clause, provision, or section herein contained and it shall be conclusively presumed that the legislature would have enacted the remainder of this Act without the sentence, clause, provision, or section so held unconstitutional.

EXPLANATION OF VOTE ON HOUSE FILE 550

In lieu of an opportunity to explain on the House floor my opinions on this proposition, I offer the following as an explanation of my vote.

I feel that there isn't justification to raise the sales and use tax 50 per cent, or to pass any major revenue bill before the needs are known. Passing the major revenue measure before acting on the appropriations will tend to reduce the consideration of needs of the state programs. Instead, it could lead to an irresponsible procedure of percentage increase without regard for the needs or worth of the various state programs.

HOWARD C. REPPERT.

On motion by Mowry of Marshall, the House recessed until 2:30 p.m.

AFTERNOON SESSION

The House reconvened, Speaker Naden in the chair.

REQUEST TO BE RECORDED AS VOTING

Had I been able to be present on Thursday, April 18, 1963, I would have voted aye on the following bills: Senate File 380 and House Files 149, 452, 196, 386, 222 and 550 as amended.

GEORGE L. PAUL.

EXPLANATION OF VOTE ON HOUSE FILE 550

Fiscal irresponsibility was drastically displayed by the majority party of the Iowa House when they, in caucus, April 18, decided to end debate on the tax measure and push through the sales tax increase without consideration of any amendments.

They raised the minimum millage for general, supplemental and agriculture land credit aid from 15 to 17 mills.

I offered my amendment to open end the appropriation for agricultural land credit and pay it in full. This would aid school reorganization and indirectly benefit taxpayers in general by equalizing school millage levies between urban and rural areas, through reorganization of city and rural school districts. They displayed their lack of faith and future foresight.

I withdrew my amendment at the request of the majority floor leader, unaware at the time I offered it that the Republican caucus had decided not to accept it.

If my amendment is offered now, in an appropriation bill, it will be interpreted by the press and other urban people as a big tax grab by the farmers, WHICH IT IS NOT, as agriculture is now bearing an unfair burden of the cost of education.

If the farmers do not obtain this kind of relief this session, when we increase the tax so drastically, we will never obtain it.

If the rural people of Iowa do not recognize the fiscal irresponsibility of the Republican party in this instance, and other similar cases, such as the Shaff reorganization plan, the future outlook for Iowa agriculture, which is basic in Iowa, is bleak indeed.

Some day, I hope not too late, the people of Iowa will send enough members of the minority party to the statehouse to make the majority party responsive to the desires of the people rather than political expediency.

HAGEDORN of Clay.

4 beverages and law enforcement with respect to alcoholic
5 beverages."

6 2. Insert the following new sections after section 31:

7 "Sec. 32. The General Assembly hereby determines and declares
8 that the provisions of sections thirty-two (32) through forty-
9 five (45) of this Act are necessary in order to control alcoholic
10 beverages and aid the enforcement of laws prohibiting operation
11 of a motor vehicle while in an intoxicated condition.

12 Sec. 33. As used in sections thirty-two (32) through forty-
13 five (45) of this Act the words "peace officer" mean:

14 1. Members of the highway patrol.

15 2. Police officers under civil service as provided in chapter
16 three hundred sixty-five (365) of the Code.

17 3. Sheriffs.

18 4. Regular deputy sheriffs who have had formal police
19 training.

20 Sec. 34. Any person who operates a motor vehicle in this
21 state upon a public highway, under such circumstances as to give
22 reasonable grounds to believe the person to have been operating
23 a motor vehicle while in an intoxicated condition, shall be
24 deemed to have given consent to the withdrawal from his body of
25 specimens of his blood, breath, saliva, or urine, and to a
26 chemical test or tests thereof, for the purpose of determining
27 the alcoholic content of his blood, subject to the provisions
28 hereinafter set out. The withdrawal of such body substances,
29 and the test or tests thereof, shall be administered at the
30 written request of a peace officer having reasonable grounds to
31 believe the person to have been operating a motor vehicle upon a
32 public highway of this state while in an intoxicated condition,
33 and only after the peace officer has placed such person under
34 arrest for the offense of operating a motor vehicle while in an
35 intoxicated condition. If such person requests that a specimen
36 of his blood not be withdrawn, then a specimen of his breath,
37 saliva, or urine shall be withdrawn at the written request of
38 such peace officer; provided, however, that if such person
39 refuses to submit to any chemical testing, no test shall be
40 given, and the provisions of section thirty-eight (38) of this
41 Act shall apply. However, if such peace officer fails to provide
42 such test within two (2) hours after such arrest, no test shall
43 be required, and there shall be no revocation under the

44 provisions of section thirty-eight (38) of this Act.

45 Sec. 35. Only a licensed physician, or a medical technologist
46 or registered nurse designated by a licensed physician as his
47 representative, acting at the written request of a peace officer
48 may withdraw such body substances for the purpose of determining
49 the alcoholic content of the person's blood. Only new,
50 originally factory wrapped, disposable syringes and needles, kept
51 under strictly sanitary and sterile conditions shall be used for
52 drawing blood. Such person may have an independent chemical test
53 or tests administered in addition to any administered at the
54 direction of a peace officer. The failure or inability of the
55 person to obtain an independent chemical test or tests shall not
56 preclude the admission in evidence of the results of the test or
57 tests taken at the direction of the peace officer. Upon the
58 request of the person who is tested, the results of the test or
59 tests taken at the direction of the peace officer shall be made
60 available to him.

61 Sec. 36. Any person who is dead, unconscious or who is
62 otherwise in a condition rendering him incapable of consent or
63 refusal shall be deemed not to have withdrawn the consent
64 provided by section thirty-four (34) of this Act, and the test
65 may be given; provided that a licensed physician shall certify
66 in advance of such test that such person is dead, unconscious or
67 otherwise in a condition rendering him incapable of consent or
68 refusal. In such case such condition shall obviate the require-
69 ments of arrest and advice pursuant to section thirty-seven (37)
70 of this Act.

71 Sec. 37. A peace officer shall advise any person who is
72 requested to take any chemical test that a refusal to submit to
73 such test will result in revocation of the person's license or
74 privilege to operate a motor vehicle; provided, however, that
75 this requirement shall not apply in the case of any person
76 referred to in section thirty-six (36).

77 Sec. 38. If a person under arrest refuses to submit to the
78 chemical testing, no test shall be given, but the commissioner,
79 upon the receipt of a sworn report of the peace officer that he
80 had reasonable grounds to believe the arrested person to have
81 been operating a motor vehicle upon a public highway of this
82 state while in an intoxicated condition and that the person had
83 refused to submit to the chemical testing, shall revoke his
84 license or permit to drive and any nonresident operating
85 privilege for a period of not less than one hundred twenty (120)
86 days nor more than one (1) year; or if the person is a resident
87 without a license or permit to operate a motor vehicle in this
88 state, the commissioner shall deny to the person the issuance of
89 a license or permit within one year from the date of the alleged
90 violation, subject to review as hereinafter provided. The effec-
91 tive date of any such revocation shall be twenty (20) days after
92 the commissioner has mailed notice of such revocation to such
93 person by registered or certified mail.

94 Sec. 39. Upon the written request of a person whose privilege
95 to drive has been revoked or denied, the commissioner shall grant
96 the person an opportunity to be heard within ten days after the
97 receipt of the request, but the request must be made within
98 thirty days after the effective date of revocation or denial.

99 The hearing shall be before the commissioner or his authorized
100 agent, in the county wherein the alleged events occurred for
101 which the person was arrested, unless the commissioner or his
102 authorized agent and the person agree that the hearing may be
103 held in some other county. The hearing shall be recorded and its
104 scope shall cover the issues of whether a peace officer had
105 reasonable grounds to believe the person to have been operating
106 a motor vehicle upon a public highway of this state while in an
107 intoxicated condition, whether the person was placed under arrest
108 and whether he refused to submit to the test or tests. The
109 commissioner or his authorized agent shall order that the
110 revocation or denial be either rescinded or sustained.

111 Sec. 40. If the revocation or denial is sustained the
112 person whose license, permit to drive, or nonresident operating
113 privilege has been revoked or denied, may file a petition within
114 thirty days after the determination by the commissioner or his
115 authorized agent for a hearing of the matter in the district
116 court in the county wherein the alleged events occurred for which
117 he was arrested or in the county in which the administrative
118 hearing was held. It shall be the duty of the court to set the
119 matter for hearing, and the petitioner shall give twenty days
120 notice thereof to the commissioner. Within fifteen days after
121 receipt of the notice, the commissioner shall file in the office
122 of the clerk of the district court to which the appeal is taken
123 a certified transcript of the testimony and all other proceedings.
124 It shall constitute the record on which the commissioner made
125 his determination. The court thereafter shall hear the matter
126 de novo and shall affirm or vacate the decision of the commission-
127 er or his authorized agent. The person or the commissioner
128 may appeal to the supreme court in accordance with the Iowa Rules
129 of Civil Procedure.

130 Sec. 41. Upon the trial of any civil or criminal action or
131 proceeding arising out of acts alleged to have been committed by
132 any person while operating a motor vehicle upon a public highway
133 of this state while in an intoxicated condition, evidence of the
134 amount of alcohol in the person's blood at the time of the act
135 alleged as shown by a chemical analysis of his blood, breath,
136 saliva or urine is admissible.

137 Sec. 42. If the person under arrest refuses to submit to the
138 test or tests, proof of refusal shall be admissible in any civil
139 or criminal action or proceeding arising out of acts alleged to
140 have been committed while the person was operating a motor
141 vehicle upon a public highway of this state while in an
142 intoxicated condition.

143 Sec. 43. The provisions of this Act shall not be construed
144 as limiting the introduction of any other competent evidence
145 bearing on the question of whether the person was in an
146 intoxicated condition.

147 Sec. 44. When it has been finally determined under the
148 procedures of this Act that a nonresident's privilege to operate
149 a motor vehicle in this state has been revoked or denied, the
150 department of public safety shall give information in writing of
151 the action taken to the official in charge of traffic control or
152 public safety of the state of the person's residence and of any
153 state in which he has a license.

154 Sec. 45. Sections thirty-two (32) through forty-five (45) of
155 this Act may be cited as the Uniform Chemical Test for
156 Intoxication Act."

BUSINESS PENDING

The House resumed consideration of Senate File 404, a bill for an act relating to the marketing of dairy products.

Lange of Sac offered the following amendment filed by him:

Amend Senate File 404 by striking all after the enacting clause and inserting in lieu thereof the following:

Section 1. For the purpose of this Act:

1. "Dairy product" means milk, skim milk, cream, sour cream, ice cream, ice cream mix, ice milk, ice milk mix, cottage cheese, frozen desserts, reconstituted milk, minimal milk fat products, and any additive variant of any dairy product but shall not mean or include butter, condensed, evaporated or powdered milk or cheese.

2. "Department" means the state department of agriculture.

3. "Person" means any individual, corporation, cooperative, association, partnership or other business unit.

4. "Processor" means any person engaged in the business of processing or packaging dairy products.

5. "Distributor" means any person engaged in the business of selling at wholesale or at retail any dairy products.

6. "Cost to the processor or distributor" as applied to dairy products shall mean that portion of all of the costs of such processor or of such distributor

which, under a system of cost accounting in accordance with sound accounting principles and reasonably adapted to the business of such processor or distributor, is fairly allocable to such dairy product on the sale thereof to the customers or to a particular class of customers of such processor or such distributor. Such cost shall include the price paid for raw materials used in such dairy products plus that part of the cost of doing business of such processor or distributor that is attributable to such dairy products, which shall include labor, salaries, rent, interest, depreciation, power, supplies, maintenance of equipment, selling costs, advertising, transportation and delivery costs, credit losses, taxes, insurance and all overhead expenses of the processor or distributor.

7. "Cost to the retailer" means the invoice price paid by the retailer plus that portion of the retailer's cost of doing business which, under a system of cost accounting in accordance with sound accounting principles and reasonably adapted to the business of such retailer, is fairly allocable to any dairy product on the sale thereof to the customers of the retailer. Such cost shall include labor, salaries, rent, interest, depreciation, power, supplies, maintenance of equipment, selling costs, advertising, transportation and delivery costs, credit losses, taxes, insurance and all overhead expenses of the retailer. In the absence of specific evidence to the contrary, the cost of doing business shall be presumed to be ten percent (10%) of the invoice price, and this cost shall be calculated to the nearest half cent per sales unit.

8. "Sale" and "sell" mean and include any commercial transfer for consideration, exchange, barter, gift, offer for sale and distribution in any manner or by any means whatsoever.

9. "Retailer" means any person within this state engaged in the business of operating any retail establishment or institution, including but not limited to hospitals, schools, hotels, restaurants, grocery stores, drug stores and automatic vending machines where dairy products are consumed or sold to customers.

10. "Injuring competition" shall mean substantially to lessen competition or tend to create a monopoly or to injure, destroy or prevent competition in the sale of dairy products in this state: Provided, that nothing contained in this Act shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale or delivery resulting from the differing methods or quantities in which dairy products are sold or delivered: And provided further, that nothing contained in this Act shall prevent a seller from selling at a price made in good faith to meet an equally low price of a competitor.

Sec. 2. No processor, distributor, or retailer shall for the purpose or with the effect of injuring competition advertise, offer to sell or sell within the State of Iowa any dairy product for less than the cost thereof to such processor, distributor or retailer, provided, however, that the department may authorize sales for less than cost of damaged goods, when the product is no longer fit for human consumption, or to liquidate stocks pursuant to court process or for other purposes which it deems consistent with the objectives of this Act.

Sec. 3. No processor, distributor, or retailer shall for the purpose or with the effect of injuring competition offer to sell or sell any dairy product with any other commodity or service at a combined price which is less than the aggregate of the cost of the dairy product plus the price at which the other commodity or service is customarily offered for sale separately by such processor, distributor or retailer at or about the same time as the combined sale or proposed combined sale.

Sec. 4. No processor or distributor shall for the purpose or with the

effect of injuring competition give or offer to give any retailer and no retailer shall accept any unearned rebate, unearned discount, free services, advertising allowances, pay for advertising space used jointly, donation, free merchandise, rent on space used by the retailer for storing or displaying the processor's or distributor's merchandise, financial aid, free equipment, or any other thing of value. This shall not prevent bona fide sales of equipment, furniture or fixtures to a retailer for not less than ten percent (10%) above seller's cost or invoice price for cash or on the unconditional written promise of such retailer to pay for the same in a period not to exceed thirty-six (36) months and at an interest rate of not less than six percent (6%).

Sec. 5. No processor, distributor or retailer shall, for the purpose or with the effect of injuring competition, discriminate in price in the sale of any dairy product between sections, localities, communities, cities, or towns of this state: Provided that nothing herein contained shall prevent a difference in price which reflects only the difference in the cost of raw materials, delivery costs, or the actual cost of transportation. When different prices are charged by a processor or distributor to purchasers located in different sections, localities, communities, cities or towns in this state and such differing prices are given to meet competition and are below the cost of the dairy product to such processor or distributor, the processor or distributor shall send to the department on the same day by certified or registered mail a written report containing such information as the department may require which shall include the circumstances of such sale, the price given, the price met and the name and address of the competitor offering the price met. When in any other case different prices are charged by a processor or distributor to purchasers located in different sections, localities, communities, cities or towns in this state, such processor or distributor shall, within ten (10) days after receiving a written demand from the department, send by certified or registered mail to the department on appropriate forms provided by the department, the reasons for such difference in price. If such price differential is given because of differences in such costs then the processor or distributor's report to the department shall contain specific statistics computed according to sound accounting practices showing the cost justification for such price differential, or if such price differential is given to meet competition, then the processor or distributor's report to the department shall state the circumstances of such sale, the price given, the price met, and the name and address of the competitor offering the price met.

Sec. 6. In any case in which a complaint is made in writing to the department by a person claiming to be injured because of a violation of the provisions of this Act, the department shall forthwith cause an investigation to be made of the complaint. If in the judgment of the department investigation reveals that there is probable cause for the complaint, the department may call upon the attorney general or the county attorney of the county in which the violation occurs who shall institute an injunction action to enjoin violations of this Act, in which case it is the duty of the attorney general or county attorney to institute and prosecute such injunctive action, or the department may take further action as provided in section eight (8) hereof.

Sec. 7. The department is authorized and directed to promulgate such reasonable rules and regulations as may be necessary to administer and enforce the provisions of this Act or to properly execute any of the powers specifically conferred by this Act. The department is authorized and empowered to hold hearings, administer oaths and to issue subpoenas for per-

sons and pertinent records. In case of failure or refusal to obey a subpoena issued to any person, any district court, upon application by the department, may issue an order requiring the person to appear before the department, there to produce evidence or give testimony touching the matter under investigation.

Sec. 8. Whenever the department has reason to believe that any person required to obtain a license under section one hundred seventy point two (170.2) of the Code has violated any of the provisions of this Act or any rules or regulations adopted thereunder, or whenever proper evidence has been presented to the department that any person is violating such provisions, the department may enter an order requiring such person to appear before the department and show cause why an order should not be entered by the department requiring such person to cease and desist from the violations charged. Such order shall set forth the alleged violations, fix the time and the place of hearing and provide for notice thereof which shall be given not less than twenty (20) days before the date of such hearing. After hearing by the department or if the person charged with such violation fails to appear at the time of said hearing, if the department finds such person to have violated the provisions of this Act, it shall enter an order requiring such person to cease and desist from the acts, practices or omissions so found to be in violation of this Act. Any such order shall become final upon the expiration of thirty (30) days after the entry if no appeal is taken therefrom. If any such person shall fail to or refuse to comply with any such final order of the department, the department may institute a proceeding for the suspension of such license held by such licensee. Written notice of the institution of such proceeding by the department stating the charges and grounds upon which the license is sought to be suspended and fixing the time and place at which a hearing will be held to determine whether to suspend said license shall be served upon such licensee by certified mail not less than twenty-five (25) days before the date of such hearing. Any person whose license is sought to be suspended shall have the full rights to counsel and to produce witnesses in his behalf at such hearing. If after hearing the department shall find that such licensee has failed to comply with any final order of the department entered pursuant to this section eight (8) of this Act for a period of twenty (20) days from the date of the service upon such licensee of the notice of hearing in the proceeding to suspend such license of such person, the department may suspend such license for a period not exceeding six (6) months.

If a person charged with a violation of this Act is aggrieved by any order entered by the department, such person may take an appeal therefrom by serving a notice of appeal upon the department and by filing said notice of appeal with the clerk of the district court of Polk County, Iowa. Upon appeal being taken, the department shall immediately make and certify to the district court a transcript of all papers, records and proceedings in connection with the matter including, unless there is a stipulation to the contrary, a transcript of all testimony, all exhibits or copies thereof and all orders and findings entered by the department in the matter. The findings of fact of the department, if supported by substantial evidence on the record considered as a whole, shall be binding on appeal. The court may dismiss the appeal, modify or vacate the order complained of in whole or in part or remand the matter to the department for further proceedings as justice may require.

The department, with or without hearing, upon finding of good cause, may modify or set aside any order entered by it. The department may at any time file a petition in the district court of the county in which is located the

principal place of business within this state of the person subject to any cease and desist order issued by the department for an appropriate order of court enforcing the provisions of any final order of the department.

Sec. 9. Any person who suffers pecuniary loss because of a violation of this Act may recover in the district court of this state from the violator treble damages for loss caused by such violation, together with his costs and reasonable attorney fees.

Sec. 10. It is hereby declared to be the legislative intent that if this Act cannot take effect in its entirety because of the decision of any court holding unconstitutional any part, sentence or clause thereof, the remaining provisions of the Act shall be given full force and effect as completely as if the part held unconstitutional had not been included herein.

The court may dismiss the appeal, modify or vacate the order complained of in whole or in part or remand the matter to the department for further proceedings as justice may require.

"The department, with or without hearing, upon a finding of good cause, may modify or set aside any order entered by it. The department may at any time file a petition in the district court of the county in which is located the principal place of business within this state of the person subject to any cease and desist order issued by the department for an appropriate order of court enforcing the provisions of any final order of the department."; and

CARROLL A. LANE, *Secretary*.

SENATE CONCURRENT RESOLUTION 23

By Long

Whereas, the United States Congress by a series of amendments to the Social Security Act during the period 1956-1962 has extended and broadened the Social Security Act to provide disability and other benefits for work-connected injuries and diseases; and

Whereas, the workmen's compensation laws were designed to be the basic and exclusive method and remedy providing benefits for work-connected injuries and diseases, and their administration has for over fifty years been the function of the several Industrial Accident Boards and Commissions, based on the accepted principle that benefits for work-connected injuries and diseases be tailored to fit social and economic conditions at the local level; and

Whereas, the extension of the Social Security Act to provide benefits for work-connected injuries and diseases has resulted in duplication of benefits; and

Whereas, legislation resulting in further intrusion into the field of work-connected injuries and diseases will constitute a severe threat to the survival of the state-administered workmen's compensation programs; now, therefore,

Be It Resolved by the Senate, the House Concurring, That the General Assembly of the State of Iowa is opposed to any legislation by the United States Congress which would infringe on the right of this state to enact and administer its own workmen's compensation laws, and to further federal encroachment into the field of state-administered workmen's compensation programs, and strongly urges that the United States Congress again affirm that the workmen's compensation system is the basic program for compensating work-connected injuries and diseases.

Be It Further Resolved, That the Secretary of the Senate is directed to forward a copy of this resolution to each member of the Iowa delegation in the Congress of the United States.

Laid over under Rule 25.

SENATE CONCURRENT RESOLUTION 24

By Nolan and Long

Designed to express the collective will of the Legislators of the State of Iowa that a program of education in the history, dogmas, and tenets of International Communism be undertaken in the schools and colleges of this state, so that the youth of Iowa may better understand the threat of International Communism to our American way of life, and thus, be better prepared to assume positions of leadership in the ideological struggle of the cold war.

Whereas, the totalitarianism of aggressive world Communism constantly threatens the peace of the world and the continued existence of the United States of America as a free republic; and

Whereas, it is becoming increasingly apparent that if we as a nation are to successfully combat and defeat the Communist conspiracy at home and abroad and perpetuate and strengthen our American way of life, it is essential that every American citizen must know and understand the fundamental theories and basic principles of our American constitutional, social, economic and political systems, and by way of contrast, the strategy, tactics, nature, effects, logistics, purposes and principles of Communism as it actually operates in the world today; and

Whereas, the Legislature of the State of Iowa finds it to be a fact that:

(a) The political ideology commonly known and referred to as communism is in conflict and contrary to the principle of individual freedom under law, as epitomized in the Constitution of the United States, and those of its several states;

(b) The exploitation and manipulation of youth and student groups throughout the world by the forces of international communism are a major challenge which free world forces must meet and defeat.

(c) The best method of meeting this challenge is to insure that our leaders of tomorrow, the youth of this State and of this Nation, are thoroughly and completely familiar with the history and doctrines of the American political, social, and economic institutions in contradistinction to the history, doctrines, objectives, and techniques of international communism; and

(d) That a sound, comprehensive, and universal program of education in the field of Americanism vs. Communism in the schools and colleges of this state and of this nation is essential to this end.

Now, Therefore, Be It Resolved that the State Board of Public Instruction, the State Board of Regents, and the governing bodies of all public and private high schools and colleges in the State of Iowa, for the purposes aforesaid, are urged to:

(1) Place additional emphasis on present instruction on the history of the United States and of the State of Iowa, on the Constitution of the United States and of that of the State of Iowa, and on the rights and responsibilities of American citizenship; and to

(2) Establish a course or unit of instruction in the history, doctrines, objectives, and techniques of international communism, or to enrich the present curriculum with instruction in these subjects at appropriate points so as to insure that the graduates of our schools and colleges will have a mature appreciation of the international communist movement and its threat to the American way of life.

Be It Further Resolved that the State Board of Public Instruction and the State Board of Regents are urged to take such steps as may be necessary, and in the manner prescribed by law, to survey the current teacher education programs being offered in Iowa, and to provide such additional programs as may be necessary to qualify our teachers to provide objective, meaningful, and comprehensive instruction on the history, doctrines, objectives, and techniques of international communism.

Be It Further Resolved that a copy of this resolution be mailed to each newspaper, radio and television station in the State of Iowa, The State Superintendent of Public Instruction and each member of the State Board of Public Instruction, the State Board of Regents, the President of each college or university in the State of Iowa, each county and city school superintendent, each member of every county or city school board, to the governing authorities of every private secondary school in the State of Iowa, to the President and Vice President of the United States, to each member of the Congress of the United States, to each judge of the Supreme Court and every district court of the State of Iowa, to the Governor, the Lieutenant Governor, Attorney General and chief educational official of each State of the Union, to each and every Federal Court and to the principal of each high school in the State of Iowa.

145 effective date of this Act only with the written permission of the
146 superintendent and upon his finding that the businesses are not
147 so interrelated or so conducted as to lead to violations of this

166 loan, which interest may be computed and included in the face
167 amount of a note.

168 3. To charge a service charge in lieu of all other loan fees
169 of three per cent (3%) of the cash which the borrower actually
170 receives, provided that there shall be no service charge on

172 or any part of a new loan used to discharge a prior loan within
173 six (6) months.

184 benefits in excess of each scheduled periodic installment and
185 aggregate benefits shall not exceed the amount of the note.
186 Property insurance shall bear a reasonable relation to value

189 insurance as a condition to the granting of a loan.

190 6. To collect the actual fees paid to public officials in
191 connection with the loan.

192 Sec. 16. Every licensee shall:

193 1. Give a statement to each borrower showing the amount of
194 the loan, the interest charge, the service charge and the schedule
195 of payments.

196 2. Give receipts for all cash payments.

197 3. Permit prepayment of a loan at any time, in whole or in

200 4. Pay an annual license fee to the superintendent of one
201 hundred fifty dollars (\$150.00) on or before December 15th
202 preceding the year of license. If not so paid, the license shall

213 Sec. 18. No licensee shall publish, disseminate or distribute

216 under this Act. Violations of the provisions of this section
217 shall be punishable as provided in section seven hundred thirteen
218 point twenty-four (713.24). Any statement indicating the amount
219 of the installment or the total charge in dollars required for any
220 loan shall also state the percentage rate per year computed on
221 declining balances of the original principal amount to which the
222 total charge would be equivalent if the loan were repaid according
223 to the contract. The percentage rate stated may be closely
224 approximate rather than exact if the statement so indicates.

225 Sec. 19. Engaging in such business without a license shall
226 be punishable as a misdemeanor. Any licensee or any officer,
227 director or agent of a licensee who shall knowingly and willfully
228 violate any provisions of this Act, shall be guilty of a misdemeanor
229 and upon conviction thereof shall be punished by a fine of not

Steele of Cherokee offered the following amendment filed by the committee on judiciary 1 and moved its adoption:

Amend House File 86 as follows:

1. Amend section 1 by striking from line seven (7) after the word "and" the word "to".

2. Strike section 2 and insert in lieu thereof the following:

"Sec. 2. Section one hundred seventeen point twenty-eight (117.28), Code 1962, is hereby amended by striking the last sentence thereof and inserting in lieu thereof the following:

"The commission shall issue a new license for the next ensuing year to any licensee who applies for a new license on forms prescribed by the commission and pays the the annual fee therefor on or before December 31 in the year for which he is licensed. The commission in its discretion, when good cause therefor is shown, may issue a new license even if such application and fee are received after such date."

3. Amend section 3 by striking all of lines four (4) through twenty-four (24), inclusive, and inserting in lieu thereof the following:

"If a judgment of conviction of a felony under the laws of the United States or any state of the United States shall be rendered against any licensee under this chapter, his license shall automatically be revoked without necessity of any action by the commission. The licensee shall immediately notify the commission in writing of any such judgment of conviction and shall immediately surrender his license to the commission. If he fails to do so, the commission may at any time demand and require the immediate surrender of his license. The requirements of section one hundred seventeen point thirty-five (117.35) of the Code shall not apply to any revocation of a license under the provisions of this paragraph. Any person whose license shall have been revoked because of a judgment of conviction of a felony shall be ineligible to apply to the commission for a new license within two (2) years after the date on which his license is surrendered to the commission, or within two (2) years after release from a penal institution to which he is committed for such felony, or within two (2) years after discharge from parole or probation, whichever occurs last.

Any person whose license shall have been revoked because of a judgment of conviction of a felony may apply only for a salesman's license, and the commission shall not issue a broker's license to such person. However, if such person shall have been pardoned by the President of the United States or the governor of a state of the United States, then such person may apply for a broker's license and the commission shall process the application and may issue or deny a broker's license as provided in this chapter. If the judgment of conviction is reversed or nullified by any court having jurisdiction to do so, the commission shall set aside such revocation and shall issue a new license to such person, but the commission in its discretion may take action as provided in this section."

4. Strike section 4 and insert in lieu thereof the following:

"Sec. 4. Section one hundred seventeen point thirty-five (117.35), Code 1962, is hereby amended by adding the following paragraph at the end thereof:

"Any licensee under this chapter may voluntarily surrender his license to the commission, and upon such surrender the license shall be deemed revoked. Such surrender of the license shall constitute a waiver of notice and hearing."

5. Add the following new section:

"Sec. 5. Section one hundred seventeen point forty-one (117.41), Code 1962, is hereby amended by inserting the following in line seven (7) after the word "license": "and any new license which may have been issued after the commencement of proceedings under this chapter".

SENATE FILE 434 VETOED

The following communication is on file in the office of the Chief Clerk:

OFFICE OF THE GOVERNOR
Des Moines

HAROLD E. HUGHES
Governor

April 29, 1963.

The Honorable W. L. Mooty,
Lieutenant Governor,
President of the Senate,
Sixtieth General Assembly,
State House,
Des Moines, Iowa.

Honorable Members of the Senate:

Senate File 434, an Act relating to the confirmation of appointments by the Senate and eligibility of rejected nominees to interim appointments, is hereby disapproved and returned to the Senate in accordance with Article III, Section 16, Constitution of the State of Iowa.

The motives behind the passage of this bill are obvious. In the Senate, the bill was passed by a straight, party-line vote, all Republicans voting for its passage and one Republican member stating frankly that his motives in voting for the bill were "purely political." In the House of Representatives 68 of the 69 members voting for the bill were Republicans. No Republicans in the Genral Assembly voted against the bill. We cannot ignore the fact that, at the present time, a majority of the members of the Legislature are Republicans while the Governor is a member of the Democratic party.

Now, I believe it is a tribute to the fairness of the Senators this session that they have seen fit to confirm 33 of the 35 appointments I have sent to them for consideration. It has not been unusual in past sessions for the Iowa Senate to reject some appointments made by a Governor of the minority party. Nor has it been unusual for a Governor of the minority party to give interim appointments to persons rejected by the Senate. However, this bill was passed only after I had announced my intention to extend interim appointments to the only two appointees of my administration who have been rejected by the Iowa Senate. Both of these appointees are men in whom I have a high degree of confidence and they were refused confirmation for reasons unknown to me.

I do not believe a bill that would make such a far-reaching change in the structure of our government should be considered in a partisan atmosphere. I do not feel it is in the best interests of good state government to further hamper future Governors and future Senators in their endeavors to find qualified individuals to fill crucial state positions.

It is entirely possible that this bill could prevent many capable and qualified people from serving our state in future years. In 1957, two of the Governor's appointees who were twice rejected by the Senate were given interim appointments. They served so well that they won Senate confirmation two years later. The Senate this session confirmed the appointment of a man whom it rejected in 1959 and who, as an interim appointee, served with such dedication and competence that he won the praise of men of both political parties. If the law proposed in Senate File 434 has been in effect six years ago, our state would not have benefited from the services of these people. The Iowa Senate would not have had the opportunity to reconsider its previous judgment of these three persons on the basis of ability and dedication shown during interim appointments.

I would be inclined to be less critical of the legislation proposed in Senate File 434 if appointments of the Governor were debated and decided by the Iowa Senate in open session where the reasons and the votes for or against confirmation would have to stand the test of public scrutiny. The United States Senate has not debated and voted upon a Cabinet appointment in secret session since 1929. In that time, only one Presidential Cabinet appointment has been rejected. As long as the Iowa Senate does not choose to make public its reasons for rejection of an appointee, however, I feel that interim appointments of persons who may have been rejected are both justified and necessary in the interests of good government for the State of Iowa.

This bill, Senate File 434, could lead to future deadlocks between Governors and Senates of differing political parties or political philosophies. It would permit a Senate to hamstring a Governor by rejecting all his appointments. It would, in my opinion, be an invasion by the Legislative branch of

government upon the prerogatives of the Executive branch. It would enable a Senate to dictate to a Governor which persons he would have to appoint in order to get his appointments confirmed.

Both the Legislative and Executive branches of government must be strengthened in the years ahead to meet the problems and challenges of our changing and complex society. This strengthening must take place within the delicate system of checks and balances provided by the framers of the Constitution of the State of Iowa.

Senate File 434 is not a means to any of these ends.

Very sincerely,

HAROLD E. HUGHES,
Governor.

JOURNAL OF THE HOUSE

HALL OF THE HOUSE OF REPRESENTATIVES,
DES MOINES, IOWA, TUESDAY, APRIL 30, 1963.

The House met pursuant to adjournment, Speaker Naden in the chair.

Reverend Harold Vaughn, pastor of Danville Methodist Church, Danville, Iowa, repeated the following prayer given by the Honorable William S. Lynes at the opening of the session on February 10, 1953. The Honorable William S. Lynes passed away at 4:30 a.m. this morning.

Our kind Heavenly Father, we come humbly before Thee this morning, acknowledging our sins of commission and omission. We thank Thee for Thy Divine protection and inspiration, and pray that we may be inspired to follow Thy Divine will in all of our actions. Help us to subdue our selfish impulses, and to consider fairly and impartially all of these changes in our laws with which we are occupied. Help us to keep before us, all of the time, the good of all of the people rather than our own selfish interest. And finally, when our work on earth is finished, receive us all with the saved and sanctified of this earth. In Jesus' name and for His sake. Amen.

Vermeer of Marion requested that a copy of the Journal of April 30 be sent to Mrs. William S. Lynes.

CONSIDERATION OF BILLS UNFINISHED BUSINESS

The House resumed consideration of Senate File 19, a bill for an act to provide for establishment of water recreational areas and facilities normally associated therewith, and the following amendment filed by Stanley of Muscatine:

Amend Senate File 19 as follows:

1. Section 10, line three (3), by striking the words "as to location".
2. Section 12, by striking the last sentence.
3. By inserting the following new section after section 12:

"Sec. 13. Public access and use. Any lake in the water recreational area, together with at least twenty-five (25) percent of the water frontage of

the water recreational area and all land which adjoins and lies within one hundred (100) yards from any point of such twenty-five (25) percent of the water frontage shall be permanently subject to and available for public access and use. The municipality or corporation shall grant to the State of Iowa a perpetual easement for such public access and use, and such easement shall not be impaired or destroyed in whole or in part by nonuse. Before a permit is granted as provided in section 12 of this Act, the state conservation commission and the municipality or corporation shall agree on the location and description of such water frontage and land to be permanently subject to and available for public access and use, and such location and description shall be stated in the permit. However, in lieu of the foregoing procedure, the state conservation commission and the municipality or corporation may agree that the state conservation commission may select such water frontage and land after the permit is granted, and the permit shall so state. At any time the state conservation commission, with the written consent of the municipality or corporation, may designate any additional land within the water recreational area to be permanently subject to and available for public access and use; and the municipality or corporation shall grant to the State of Iowa a perpetual easement for such public access and use, which easement shall not be impaired or destroyed in whole or in part by nonuse. Such lake, water frontage and land shall be under the jurisdiction of the state conservation commission for all purposes, and shall be subject to all applicable provisions of chapters one hundred six (106), one hundred seven (107) and one hundred eleven (111) of the Code. However, the state conservation commission may enter into agreements from time to time with one or more municipalities or corporations for the management, development, improvement, care and maintenance of such lake, water frontage and land."

4. By striking section 16 and inserting in lieu thereof the following:

"Sec. 16. Whenever a permit has been granted as provided in section 12 of this Act and the state conservation commission finds that the municipality or corporation owning such permit cannot acquire at a reasonable cost any necessary land or interest therein, the state conservation commission may condemn such land or interest therein as provided in chapter four hundred seventy-two (472) of the Code. However, such condemnation shall be limited to land and interests therein which will be permanently subject to and available for public access and use, as provided in section 13 of this Act, or which will be required for a dam or other facilities necessary for the water recreational area. All costs of such condemnation, including the award and compensation for such land or interest therein, shall be paid by such municipality or corporation. The state conservation commission may permit such municipality or corporation to use such land or interest therein for the purposes of this Act, upon such terms, conditions and restrictions as the state conservation commission shall determine to be just and proper and in the public interest. Title to such land or interest therein shall remain in the State of Iowa."

5. By adding the following new section after section 17:

"Except as otherwise provided herein, no municipality, corporation, firm or person shall establish a water recreational area of the kind contemplated by this Act except in accordance with this Act. However, this Act shall not apply to a body of water wholly on the lands of a single owner or a group of joint owners, which does not have any connection with any public waters and which includes less than ten surface acres. This Act shall not apply to a water recreational area established by a municipality entirely within its boundaries or to a water recreational area established by one or more county conservation boards. This Act shall not be deemed to require a

permit for any water recreational area existing on the effective date of this Act."

CONFERENCE COMMITTEE REPORT ON HOUSE FILE 17

TO THE PRESIDENT OF THE SENATE AND THE SPEAKER OF THE HOUSE OF REPRESENTATIVES:

We, the undersigned members of the conference committee appointed to consider the differences between the Senate and the House on House File 17, a bill for an act relating to rules of administrative agencies, beg leave to report and to make the following recommendations:

1. That the Senate amendments to House File 17 be stricken.

2. That House File 17, as passed by the House, be amended as follows:

a. By striking from the second line after the enacting clause the words and figures "through eight (8)" and inserting in lieu thereof the words and figures "through fifteen (15)".

b. By striking all of sections two (2), three (3), and four (4) and inserting in lieu thereof the following:

Sec. 2. There is hereby created a bipartisan legislative committee of six (6) members which shall be designated the departmental rules review committee. The committee shall be composed of three (3) members of the senate to be appointed by the president of the senate and three (3) members of the house to be appointed by the speaker of the house. Members shall be appointed prior to the adjournment of each regular biennial session and shall serve for two-year terms beginning May 1 after the convening of the general assembly in regular session; provided, however, that members shall serve until their successors are appointed. Vacancies on the committee shall be filled by the original appointing authority. A vacancy shall exist whenever a committee member ceases to be a member of the general assembly.

Sec. 3. The committee shall choose a chairman from its members and prescribe its rules of procedure. Regular meetings of the committee shall be held at the seat of government on the second Tuesday in July and on the second Tuesday of each second month thereafter during the interim between regular sessions to review all proposed departmental rules and make recommendations to the department proposing each such rule. The chairman may call special meetings at any time and at any place in the state and cause notice thereof to be published in a newspaper of general circulation in the area affected by the rule. All said meetings, regular or special, shall be open to the public and any interested person may be heard and present evidence. If any agency shall conduct a public hearing in regard to any rule such agency shall notify the members of the departmental rules review committee ten (10) days prior to such hearing.

Sec. 4. Members of the committee shall receive a per diem of thirty (30) dollars per day for each day in attendance and shall be reimbursed for the actual necessary expenses incurred by them in the discharge of their duties. All such expenses and expense of publication shall be provided for by the budget and financial control committee from the contingent fund provided for the budget and financial control committee.

Sec. 5. Any agency empowered by law to make rules shall submit a copy of each proposed rule, in the style and form prescribed by the code editor, to the attorney general, and shall submit six (6) copies of such proposed rule to the chairman of the departmental rules review committee.

Sec. 6. Within sixty (60) days after receiving such copy of a proposed rule, the attorney general shall give to the agency in writing his advisory opinion on the form and legality of the proposed rule. If the attorney general fails to render an opinion within sixty (60) days after receiving such copy, the agency may proceed as if an opinion had been given.

Sec. 7. If the departmental rules review committee finds objection to a proposed rule, it shall report such finding to the agency proposing the rule together with its recommendations on how the objectionable part may be corrected. If the committee finds no objection to a proposed rule, it may at any time report such finding to the agency, but shall not be required to do so. If the committee does not report any finding to the agency within sixty (60) days after receiving such copies, the agency may proceed as if a finding had been reported.

Sec. 8. Four (4) copies of all proposed rules shall be filed with the secretary of state. There shall be attached to each such a copy of any proposed rule, (a) a copy of the attorney general's opinion rendered pursuant to this Act or a statement that the proposed rule was submitted to the attorney general on a stated date and that the attorney general did not render an opinion thereon within sixty (60) days after such date, and (b) a copy

of the finding of the departmental rules review committee rendered pursuant to this Act or a statement that six (6) copies of the proposed rule were submitted to the chairman of the departmental rules review committee on a stated date and that the committee did not report any finding to the agency within sixty (60) days after receiving such copies. Temporary rules shall become effective upon filing. Other rules, unless otherwise provided for, shall not become effective until thirty (30) days after such filing, but a later effective date may be specified in the rule. The secretary of state shall endorse upon the copies of rules so filed the date of filing and the date of the attorney general's opinion and index one (1) copy in the files of his office, transmit one (1) copy to the code editor, and transmit two (2) copies to the chairman of the departmental rules review committee.

Sec. 9. If any agency amends, supplements, or revises a proposed rule at the request of or pursuant to the recommendation of the attorney general or the departmental rules review committee, such amendment, supplement, or revision shall be part of the proposed rule but shall be clearly described in an attachment to the proposed rule as filed with the secretary of state. Any other amendment, supplement, or modification of a proposed rule shall be regarded as a new proposed rule and shall be subject to the procedure provided in this Act.

Sec. 10. All rules hereafter filed as provided in section eight (8) of this Act shall be referred by the chairman of the departmental rules review committee to the speaker of the house and the president of the senate of the next regular session of the general assembly, who shall refer rules to the appropriate committees of the general assembly.

If the committee to which a departmental rule has been referred, finds objection to such rule, it may report such finding to the general assembly together with its suggestion for the general assembly to proceed by law to overcome the objection. Any committee of the general assembly may at any time consider any departmental rule previously filed and, if it finds such rule objectionable, proceed as above.

Sec. 11. Nothing contained in this Act shall adversely affect the substantive rights of any person arising out of or affected by any rules adopted by any agency, including the right to review by the courts. Reporting, referral, and filing of rules pursuant to this Act, any action or inaction by the departmental rules review committee on any rule, and any inaction by the general assembly on any rule, shall not be construed as approval or enactment of any rule by the general assembly.

c. By inserting the following new section preceding the publication clause:

In all cases where any administrative agency has reported or filed any rule, regulation, or amendment pursuant to sections seventeen A point two (17A.2) or seventeen A point three (17A.3), Code 1962, such reporting or filing and any inaction by the general assembly shall not be construed as approval or enactment of any rule, regulation, or amendment by the general assembly, anything in section seventeen A point two (17A.2), Code 1962, to the contrary notwithstanding.

d. By renumbering the sections to conform to these amendments.

SENATE CONCURRENT RESOLUTION 29

By Rigler and Frommelt

Whereas, various meetings pertaining to the operation of legislative services are held between sessions of the legislature, and

Now, Therefore, Be It Resolved by the Senate, the House Concurring: That the actual expenses of such representatives and such committee members in attending the above-described sessions or committee meetings should file expense accounts, subject to the approval of the President of the Senate and the Speaker of the House, and the State Comptroller is hereby authorized and directed to issue warrants in payment of same upon requisition signed by the President of the Senate, Speaker of the House and the budget and financial control committee as provided for in sections two point twenty (2.20) and two point twenty-two (2.22), Code 1962.

Be It Further Resolved: That a copy of all expenditures in accordance with this concurrent resolution be published in the Senate and House Journals during the first week of the next legislative session.

Grassley of Butler offered the following amendment filed by Grassley, et al.:

Amend Senate File 437 as follows:

1. Strike the title and insert the following in lieu thereof:

"An Act relating to the control, sale, and use of alcoholic beverages and law enforcement with respect to alcoholic beverages."

2. Insert the following new sections after section 31:

"Sec. 32. The General Assembly hereby determines and declares that the provisions of sections thirty-two (32) through forty-five (45) of this Act are necessary in order to control alcoholic beverages and aid the enforcement of laws prohibiting operation of a motor vehicle while in an intoxicated condition.

Sec. 33. As used in sections thirty-two (32) through forty-five (45) of this Act the words "peace officer" mean:

1. Members of the highway patrol.

2. Police officers under civil service as provided in chapter three hundred sixty-five (365) of the Code.

3. Sheriffs.

4. Regular deputy sheriffs who have had formal police training.

Sec. 34. Any person who operates a motor vehicle in this state upon a public highway, under such circumstances as to give reasonable grounds to believe the person to have been operating a motor vehicle while in an intoxicated condition, shall be deemed to have given consent to the withdrawal from his body of specimens of his blood, breath, saliva, or urine, and to a chemical test or tests thereof, for the purpose of determining the alcoholic content of his blood, subject to the provisions hereinafter set out. The withdrawal of such body substances, and the test or tests thereof, shall be administered at the written request of a peace officer having reasonable grounds to believe the person to have been operating a motor vehicle upon a public highway of this state while in an intoxicated condition, and only after the peace officer has placed such person under arrest for the offense of operating a motor vehicle while in an intoxicated condition. If such person requests that a specimen of his blood not be withdrawn, then a specimen of his breath, saliva, or urine shall be withdrawn at the written request of such peace officer; provided, however, that if such person refuses to submit to any chemical testing, no test shall be given, and the provisions of section thirty-eight (38) of this Act shall apply. However, if such peace officer fails to provide such test within two (2) hours after such arrest, no test shall be required, and there shall be no revocation under the provisions of section thirty-eight (38) of this Act.

Sec. 35. Only a licensed physician, or a medical technologist or registered nurse designated by a licensed physician as his representative, acting at the written request of a peace officer may withdraw such body substances for the purpose of determining the alcoholic content of the person's blood. Only new, originally factory wrapped, disposable syringes and needles, kept under strictly sanitary and sterile conditions, shall be used for drawing blood. Such person may have an independent chemical test or tests administered in addition to any administered at the direction of a peace officer. The failure or inability of the person to obtain an independent chemical test or tests shall not preclude the admission in evidence of the results of the test or tests taken at the direction of the peace officer. Upon the request of the person who is tested, the results of the test or tests taken at the direction of the peace officer shall be made available to him.

Sec. 36. Any person who is dead, unconscious or who is otherwise in a condition rendering him incapable of consent or refusal shall be deemed not to have withdrawn the consent provided by section thirty-four (34) of this Act, and the test may be given; provided that a licensed physician shall certify in advance of such test that such person is dead, unconscious or otherwise in a condition rendering him incapable of consent or refusal. In such case such condition shall obviate the requirements of arrest and advice pursuant to section thirty-seven (37) of this Act.

Sec. 37. A peace officer shall advise any person who is requested to take any chemical test that a refusal to submit to such test will result in revocation of the person's license or privilege to operate a motor vehicle; provided, however, that this requirement shall not apply in the case of any person referred to in section thirty-six (36).

Sec. 38. If a person under arrest refuses to submit to the chemical testing, no test shall be given, but the commissioner, upon the receipt of a sworn report of the peace officer that he had reasonable grounds to believe the arrested person to have been operating a motor vehicle upon a public highway of this state while in an intoxicated condition and that the person had refused to submit to the chemical testing, shall revoke his license or permit to drive and any nonresident operating privilege for a period of not less than one hundred twenty (120) days nor more than one (1) year; or if the person is a resident without a license or permit to operate a motor vehicle in this state, the commissioner shall deny to the person the issuance of a license or permit within one year from the date of the alleged violation, subject to review as hereinafter provided. The effective date of any such revocation shall be twenty (20) days after the commissioner has mailed notice of such revocation to such person by registered or certified mail.

Sec. 39. Upon the written request of a person whose privilege to drive has been revoked or denied, the commissioner shall grant the person an opportunity to be heard within ten days after the receipt of the request, but the request must be made within thirty days after the effective date of revocation or denial. The hearing shall be before the commissioner or his authorized agent, in the county wherein the alleged events occurred for which the person was arrested, unless the commissioner or his authorized agent and the person agree that the hearing may be held in some other county. The hearing shall be recorded and its scope shall cover the issues of whether a peace officer had reasonable grounds to believe the person to have been operating a motor vehicle upon a public highway of this state while in an intoxicated condition, whether the person was placed under arrest and whether he refused to submit to the test or tests. The commissioner or his authorized agent shall order that the revocation or denial be either rescinded or sustained.

Sec. 40. If the revocation or denial is sustained the person whose license, permit to drive, or nonresident operating privilege has been revoked or denied, may file a petition within thirty days after the determination by the commissioner or his authorized agent for a hearing of the matter in the district court in the county wherein the alleged events occurred for which he was arrested or in the county in which the administrative hearing was held. It shall be the duty of the court to set the matter for hearing, and the petitioner shall give twenty days notice thereof to the commissioner. Within fifteen days after receipt of the notice, the commissioner shall file in the office of the clerk of the district court to which the appeal is taken a certified transcript of the testimony and all other proceedings. It shall constitute the record on which the commissioner made his determination. The court thereafter shall hear the matter de novo and shall affirm or vacate the decision of the commissioner or his authorized agent. The person or the commissioner may appeal to the supreme court in accordance with the Iowa Rules of Civil Procedure.

Sec. 41. Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person while operating a motor vehicle upon a public highway of this state while in an intoxicated condition, evidence of the amount of alcohol in the person's blood at the time of the act alleged as shown by a chemical analysis of his blood, breath, saliva or urine is admissible.

Sec. 42. If the person under arrest refuses to submit to the test or tests, proof of refusal shall be admissible in any civil or criminal action or proceeding arising out of acts alleged to have been committed while the person was operating a motor vehicle upon a public highway of this state while in an intoxicated condition.

Sec. 43. The provisions of this Act shall not be construed as limiting the introduction of any other competent evidence bearing on the question of whether the person was in an intoxicated condition.

Sec. 44. When it has been finally determined under the procedures of this Act that a nonresident's privilege to operate a motor vehicle in this state has been revoked or denied, the department of public safety shall give information in writing of the action taken to the official in charge of traffic control or public safety of the state of the person's residence and of any state in which he has a license.

Sec. 45. Section thirty-two (32) through forty-five (45) of this Act may be cited as the Uniform Chemical Test for Intoxication Act."

HOUSE CONCURRENT RESOLUTION 20

By Eveland of Boone (Doran)

Whereas, the 94th Aero Squadron, American Expeditionary Forces, Air Service, whose emblem was the "Hat in the Ring," served in France in World War I; and

Whereas, Captain Eddie Rickenbacker, "Ace of Aces," headed the 94th Aero Squadron in France; and

Whereas, Sergeant E. C. Forney served in France as an aerial mechanic in France in World War I; and

Whereas, Sergeant Forney removed and mailed home a "Hat in the Ring" insignia from a junked combat plane flown by Captain Rickenbacker; and

Whereas, on or about August 13, 1943, E. C. Forney brought the insignia to the state historical department and left it with the department with the understanding that the insignia was to be placed there under loan; and

Whereas, the state historical department recognized this understanding by securing to the corner of the emblem a slip of paper stating: "Property of E. C. Forney, Pilot Mound, Iowa"; and

Whereas, E. C. Forney in 1956 requested that the emblem be returned to him for transfer to the United States air force museum at Wright-Patterson Air Force Base in Ohio where the emblem would bring enjoyment to a greater number of people; and

Whereas, even though the insignia is clearly marked "Property of E. C. Forney, Pilot Mound, Iowa," the Iowa state historical department refuses to give up the emblem saying that a ruling of the American Association of Museums provides that nothing will be returned after ten years have elapsed; now therefore

Be It Resolved by the House, the Senate Concurring, That the board of trustees of the Iowa state department of history and archives direct the state curator to return the "Hat in the Ring" emblem to its rightful owner, Mr. E. C. Forney.

Laid over under Rule 25.

HOUSE CONCURRENT RESOLUTION 20 FAILED TO BE ADOPTED

Eveland of Boone called up for consideration the following House Concurrent Resolution 20 filed May 2:

HOUSE CONCURRENT RESOLUTION 20

Whereas, the 94th Aero Squadron, American Expeditionary Forces, Air Service, whose emblem was the "Hat in the Ring," served in France in World War I; and

Whereas, Captain Eddie Rickenbacker, "Ace of Aces," headed the 94th Aero Squadron in France; and

Whereas, Sergeant E. C. Forney served in France as an aerial mechanic in France in World War I; and

Whereas, Sergeant Forney removed and mailed home a "Hat in the Ring" insignia from a junked combat plane flown by Captain Rickenbacker; and

Whereas, on or about August 13, 1943, E. C. Forney brought the insignia to the state historical department and left it with the department with the understanding that the insignia was to be placed there under loan; and

Whereas, the state historical department recognized this understanding by securing to the corner of the emblem a slip of paper stating: "Property of E. C. Forney, Pilot Mound, Iowa"; and

Whereas, E. C. Forney in 1956 requested that the emblem be returned to him for transfer to the United States air force museum at Wright-Patterson Air Force Base in Ohio where the emblem would bring enjoyment to a greater number of people; and

Whereas, even though the insignia is clearly marked "Property of E. C. Forney, Pilot Mound, Iowa," the Iowa state historical department refuses to give up the emblem saying that a ruling of the American Association of Museums provides that nothing will be returned after ten years have elapsed; now therefore

Be It Resolved by the House, the Senate Concurring, That the board of trustees of the Iowa state department of history and archives direct the state curator to return the "Hat in the Ring" emblem to its rightful owner, Mr. E. C. Forney.

Eveland of Boone offered the following amendment to the resolution and moved its adoption:

Amend House Concurrent Resolution 20, line 27, by striking everything after the word "curator" and inserting in lieu thereof the following: to send the "Hat in the Ring" emblem to the U. S. Air Force Museum at Wright-Patterson Air Force base in the name of Mr. E. C. Forney and the State of Iowa.

Amendment to the resolution adopted.

Section 1. Section one hundred ninety-six point three (196.3), Code 1962, is hereby amended by striking lines sixteen (16), seventeen (17) and eighteen (18) and inserting in lieu thereof the following:

"Eggs" defined by the United States standards and grades of eggs as "loss eggs" and "inedible eggs" shall be deemed unfit for human food. In addition thereto, filthy eggs shall also be deemed unfit for human food and shall be defined as meaning an egg shell twenty-five (25) percent or more

of which is covered with adhering manure, blood, egg white or yolk, or any other foreign materials causing putrefaction by any one or any combination of substances.

Sec. 2. Section one hundred ninety-six point four (196.4), Code 1962, is hereby repealed and the following enacted in lieu thereof:

"Every buyer, dealer, processor, broker, commission agent, and hatchery engaged in the business of buying, selling, handling, receiving, or dealing in eggs from the producer shall obtain a license from the department for each establishment at which said business is conducted. In addition thereto, the department shall also require, before the issuance of any such license, the posting of a surety bond, one condition of which shall be to guarantee payment to the producer or producers. Such bond shall also contain a ninety-day cancellation provision. This bond may be executed by any surety company licensed to do business in this state, and the amount of such bond shall be based on the size of the dealer and processor fee required under this section, in accordance with the following schedule:

Dealer and Processor Fee	Amount of Surety Bond Required

\$25.00	\$3,000.00

\$50.00	\$5,000.00

In lieu of the surety bond herein set forth, the department may accept a cash bond or certified fund.

All such establishments shall maintain records of all purchases made under the provisions of this chapter for a period of at least twelve (12) months.

Sec. 4. Upon any action taken on the surety bond of any licensee, the department may require the filing of a new bond, and upon failure to file same within a period of ten days thereafter, the department shall suspend or revoke the license.

If in any such action on the bond the amount of indebtedness to a producer or producers shall be less than the amount of the posted bond, or cash bond, or certified fund, as the case may be, then such creditors shall receive payment of such indebtedness in full; and if such indebtedness is greater than the amount of such bond, or cash bond, or certified fund, as the case may be, then such creditors shall receive payment of a prorated share on an equal basis.

10 when the owner is any educational institution and the mobile
11 home is used solely for student housing or when the owner is
12 the State of Iowa or a subdivision thereof, the owner shall be
13 exempt from the tax provided herein. The semiannual tax shall
14 be computed as follows:

15 1. Multiply the number of square feet of floor space each
16 mobile home contains when parked and in use by seven and one-
17 half cents. In computing floor space the exterior measurements
18 of the mobile home shall be used as shown on the certificate of
19 registration and title, but not including any area occupied by
20 any hitching device.

21 2. The amount thus computed shall be the semiannual tax for
22 all mobile homes for the first five years after the year of
23 manufacture.

24 3. For the sixth through ninth years after the year of manu-
25 facture the semiannual tax shall be ninety percent of the tax

28 of manufacture the semiannual tax shall be eighty percent of
29 the tax computed according to subsection one (1) of this section.

30 5. The semiannual tax shall be figured to the nearest whole
31 dollar.

32 Sec. 2. There shall be exempted from the semiannual tax the
33 manufacturer's and dealer's inventory of mobile homes not in
34 use as a place of human habitation. All travel trailers shall
35 be exempt from this tax. Mobile homes and travel trailers in
36 the inventory of manufacturers and dealers shall be exempt from
37 personal property tax. Mobile homes coming into Iowa from out
38 of state shall be liable for the tax computed pro rata to the
39 nearest whole month, for the time such mobile home is actually
40 situated in Iowa.

41 Sec. 3. The semiannual tax provided herein shall be due and
42 payable to the county treasurer semiannually on January 1 and
43 July 1 in each year; and shall be delinquent February 1 and
44 August 1 in each year, after which a penalty of five percent
45 shall be added each month until paid. A mobile home parked
46 and put to use at any time after January 1 or July 1 shall be
47 immediately subject to the said taxes prorated for the remaining

48 months or days of the tax period. Said tax shall be due and payable immediately, and delinquent thirty days after said parking and subject to the same penalties herein set out.

51 Each mobile home park licensee is hereby required to keep an accurate and complete record of the number of units of mobile homes harbored in his park, listing the owner's name, year and make of the unit and whether there is a current registration plate, and to report such information on or before the tenth day of each month to the county treasurer. The records of such licensee shall be open to inspection by a duly authorized representative of any law-enforcement agency. Any property owner, manager or tenant shall report to the assessor any and all mobile homes parked upon any property owned, managed, or rented by him.

However, when one or more persons occupying a mobile home bearing a foreign registration are employed, there shall be no exemption from Iowa registration and tax herein provided. This tax shall be in lieu of all other taxes general or local.

78 Sec. 4. The tax and any penalties provided by section three (3) herein shall be allocated to the school fund of the district wherein the mobile home is located.

81 Sec. 5. No mobile home shall be assessed for property tax nor be eligible for homestead tax credit or military service tax credit unless:

84 1. The mobile home owner intends to convert his mobile home to real estate and does so by:

110 following new subsection:

111 Measure the exterior length and exterior width of all mobile
112 homes except those for which said measurements are contained in
113 the manufacturer's and importer's certificate of origin, and
114 report said information to the county treasurer. In the calen-
115 dar year 1963, said duty shall be performed between September 1
116 and November 30. Check all mobile homes and travel trailers
117 for violations of registration and for inaccuracy of measurements
118 as necessary or upon written request of the county treasurer
119 and report such findings immediately to the county treasurer.
120 If a mobile home has been converted to real estate the registra-
121 tion certificate, registration plates, and title shall be col-
122 lected and returned to the county treasurer for cancellation.
123 If the registration fees and any taxes due for prior years have
124 not been paid, the assessor shall collect the unpaid registration
125 fees and taxes due as a condition of conversion. It shall be
126 the further duty of the assessor to make sufficiently frequent

SENATE FILE 463 REFERRED

The Speaker announced that Senate File 463 is referred to the sifting committee.

Loss of Kossuth asked and received unanimous consent that the following report be printed in the House Journal:

REPORT OF SUB-COMMITTEE OF JUDICIARY 1 ON HOUSE FILE 263

This report of your sub-committee is made after several hearings were had, and after the members have made personal inspection and investigation of the region in and around the City of Carter Lake, Iowa.

Our first meeting was with the sponsors of House File 263—and at their request. The second was with representatives from the State Conservation Commission, at their request. The third was held at the request of the city officials and citizens of Carter Lake. All of these hearings were in Des Moines.

The members of the sub-committee decided to visit Carter Lake and that part of the Missouri River which lies between the cities of Carter Lake and Council Bluffs. We did this on April 18 and 19 and at which time and place we made a very thorough investigation which is reported fully later in this report.

Because the sub-committee had a written appeal from all of the elected County Officers and the Superintendent of Schools of Pottawattamie County,

asking us to except the City of Carter Lake in any ceding of territory to the State of Nebraska, and a petition signed by nearly eleven hundred residents of the City of Carter Lake, requesting us to make such an exception, and furnishing us a full page of pertinent information about their city as a basis for their desire not to lose their citizenship in our state, the members of the sub-committee felt it incumbent that they investigate, observe and learn as to these matters, quite completely, in order to make an informative report to the main committee, and for use in arriving at the recommendations they would make to said committee.

The sub-committee finds that as a result of the straightening and controlling of the channel of the Missouri river, with the exception of Carter Lake, Iowa, this left a considerable amount of property of Iowa within the State of Nebraska, and property of Nebraska in the State of Iowa. The proponents of House File 263 complain that ownership of property along the entire Iowa-Nebraska border cannot be determined, that titles are confusing and that taxes are uncollectable. This is difficult for the sub-committee to understand, for while it is not within the province of the committee to determine titles, an arbitrary changing of the main channel of the river certainly would have no effect on titles to property where individual ownership previously existed. The only land to which title would seem questionable would be that to which ownership had not previously been established, which in all probability would only be swamp or waste land prior to the straightening of the channel. If private ownership was not previously established to this property, it undoubtedly belonged to the respective states. The respective states, by statute in all probability can exchange titles to such waste lands. Whether or not adjoining land owners acquired title to any such land would be legal questions, and the sub-committee fails to see how changing state lines by House File 263 would assist in determining titles to such land. Nevertheless, it is definitely desirable to change the state boundary to the center of the new channel of the Missouri river as straightened and stabilized by the Army Engineers except for Carter Lake, Iowa.

In passing however, the subcommittee makes this observation. The proponents of House File 263 have alleged that changing of the boundary lines to the states is desired in order to enable the Conservation Commission in Iowa to develop these lands which would change state status. The sub-committee fails to follow this reasoning. Ownership of land definitely established prior to changing of the channel would not be affected by changing state statutes, and the Conservation Commission could only acquire title to such land by purchase or condemnation. The right of the Conservation Commission of Iowa to develop such areas which were swamp or waste lands prior to the straightening and stabilizing of the Missouri river is indeed questionable because of the legal questions pointed out above. At least no one has pointed out to the sub-committee that this question has been legally determined. Since this is immaterial to the duty of the sub-committee in determining the desirability of passing House File 263, no legal opinion has been sought.

The sub-committee, as previously stated, recommends passage of House File 263 to change the Iowa-Nebraska boundary except for Carter Lake, Iowa. The balance of this report will therefore be confined to Carter Lake. The findings herein are based on the hearings and investigations of the sub-committee which included a personal visit to Carter Lake, Iowa and surrounding area.

The boundaries of Carter Lake, Iowa, were definitely established by the case of Nebraska vs. Iowa, 143 U. S. 359, and the decree entered in 145

U. S. 519 (a copy of the opinion and decree of the court are attached at the end hereof, and as a part of this report). There is no question about the boundary or titles in Carter Lake, Iowa.

In 1877, during a great flood, the Missouri River cut across a bend in its former course, placing approximately 1300 acres on its westerly side. About the year 1890 the State of Nebraska brought suit against the State of Iowa, in the Federal Courts, claiming that said land was now within the State of Nebraska. The land in question is that now occupied by the City of Carter Lake. The matter was litigated clear to the Supreme Court of the United States. Iowa defended its claim to this land with vigor, being represented by the then attorney-general, J. Y. Stone, a prominent and able lawyer from Council Bluffs, J. J. Stewart, and Honorable Smith McPherson of Red Oak, the latter later becoming Attorney-General of Iowa and then Judge of the United States District Court for the Southern District of Iowa.

On February 29, 1892 the litigation resulted in a decree from the United States Supreme Court favorable to the State of Iowa, ordering a survey to be made to locate the boundary at the middle of the former bed of the stream, and in a supplemental decree said survey, set out by metes and bounds, was fixed as the boundary between the two states, and which boundary remains to this day. The sub-committee was told that the new river channel, made back there 75 years ago, has remained in substantially the same course, even tho there has been many changes by said river above and below that reach of the river. The fact of the permanency of this course of the river between Council Bluffs and Carter Lake, is evidenced by the existence of the Illinois Central railway bridge which crosses said channel just north of Carter Lake and the Douglas Street and Union Pacific bridges which are just to the south. All of said bridges have been located there for most of these years since the changed route of the river.

Carter Lake is an incorporated city in the State of Iowa, one of only three on the entire western border of the state. It is governed by a Mayor and Council form of government. It has a substantial administration and utility building. It also has an impressive police department. Fire protection appears adequate. Its territory is approximately 1300 acres. Its present population is approximately three thousand, including 842 enrolled elementary school children, and 167 high school children.

It has its own water system, and complete gas and electric distribution system. Gas and electricity are purchased from utility companies. It has a complete sewage system which shortly will be diverted into a big sewage outlet which crosses Carter Lake in cooperation with Omaha. The city has many blocks of paved streets, sidewalks, and has a considerable amount of good road equipment. All streets are in good repair. A progressive program of extending pavement is established.

SCHOOLS. Carter Lake has an assessed valuation of three and one-half million dollars. It has an outstanding elementary grade school consisting of 28 class rooms and a gymnasium and stage. An addition was added three years ago, and another in the fall of 1962. This accommodated 842 students from kindergarten to and including the eighth grade. The school is attractively finished and well equipped. The quality of instruction and school work, given special consideration by the committee, was very impressive. A former director of the Omaha Symphony is instrument instructor, and the Arts instructor was formerly employed by Hallmark.

The 167 high school students attend Council Bluffs High School on a tuition basis, and are transported by bus.

A Y.M.C.A. tract of 35 acres is presently being developed. This summer the Y will inaugurate a five day camp for three weeks, inviting youngsters to participate in baseball, archery and other outdoor sports. Funds are now being raised to build a lodge as the second step of the program. A swimming pool and tennis court will complete the project.

CHURCHES. Carter Lake has three established churches. One is new, and another congregation is building a new church which will be completed in about thirty days. They consist of Lutheran, Presbyterian and All Denominational Congregations. The Catholics attend church a short distance outside of Carter Lake.

INDUSTRY. Carter Lake has some substantial industries. Paxton Vierling is one of the outstanding steel fabricators in the country. It moved all of its operations from Omaha to Carter Lake, and has an up-to-date modern plant and new office and other buildings. Eighty-five people are employed in the plant steadily the year around besides a large office force. Union Carbide has its only plant in Carter Lake, having closed its Omaha and Kansas City plants. Great Lakes Gas Company has a huge storage farm in Carter Lake. There are other impressive businesses, including a large truck terminal and out-door theatre. Other businesses are listed as follows:

Carter Lake—a fine body of water conducive to all types of water sports and recreation.

Much has been said about the fact that Carter Lake does not have a grocery store. It is common knowledge that small or ordinary stores cannot compete with modern supermarkets. A large supermarket is situated just across the street on the opposite boundary of Carter Lake which is more than adequate to serve the area, although they do a tremendous business. Omaha of course is blessed with supermarkets as well as department and other merchandising stores. Carter Lake is only about six blocks from the Omaha business district. Council Bluffs residents do a substantial amount of their shopping in Omaha notwithstanding several times the distance to travel through congested traffic. It appears that the criticism regarding no grocery stores is simply not well founded.

RESIDENCES. Carter Lake has approximately nine hundred residences. Hundreds are new, attractive and immaculately kept and maintained, with paved streets and sidewalks. These are largely in the thirteen to fifteen-thousand dollar class. Some are much more impressive, one costing approximately \$75,000.00. Several new developments are in progress. Building ordinances are very strict, and require paving, sidewalk, sewage and utility installations for development construction. The older residences are all substantial and well-kept. There are absolutely no shacks or slum-type dwellings in Carter Lake.

CLUBS AND TAVERNS. Carter Lake has two key clubs, one presently closed, operated like most key clubs in Iowa, and are no different than any other key club authorized by the Fifty-seventh General Assembly. It has only one beer tavern, which is well-kept.

EAST OMAHA. There has been a great amount of reporting regarding the unsanitary, slum-like conditions, roudiness, unlawfulness, etc., of Carter Lake. This is a vicious distortion of the truth. It is intentional, prejudicial, capricious and self-serving on the part of Omaha and its news media, and is wholly unjustified. Its police department and record substantiates that.

Most of the criticism seems to be a smoke screen, first to discredit Carter Lake in the eyes of the citizens of Iowa so that Iowa would give it to Nebraska, and secondly to cover up Omaha's criminal records and slum areas. One of the most unbelievable slum areas, and certainly by far the worst witnessed by any member of the sub-committee, exists just across the street from Carter Lake. This is East Omaha, which was incorporated into the city of Omaha about six years ago. For the past twenty years,

under Nebraska law, Omaha has a building ordinance covering East Omaha. Notwithstanding this fact, and also that one of the assurances for becoming a part of Omaha, is that Omaha would clean up the place. Six sloppy beer joints exist just across from Carter Lake or near it. The Committee was advised not to go into them at night. Likewise, it was advised not to take pictures of the area or residences for fear of personal harm. East Omaha has an exceptionally high criminal record.

The streets are unkept since the city of Omaha took over East Omaha, the county having done so before. There are practically no sidewalks, grass or yards for that matter. Some are reputed to have earthen floors. The whole area is filled with junk cars and other rubbish. In fact, it is virtually a used car dump. There are a few individuals that have risen above these conditions, built modern homes and make an attempt to keep them up respectably. But Carter Lake is blamed for this blighted area. Omaha does nothing for these people or to improve the area, although they have had six years since taking it into the city, and twenty years of building ordinance control. Carter Lake people are fearful that if they were absorbed by Omaha, which would happen if it became a part of Nebraska, Carter Lake would degenerate into the same type area.

The sub-committee found that the city is protected from any flooding from the Missouri River by a dyke constructed and maintained by a levee district created under the drainage laws of Iowa, and which levee district contains all of the lands in the city, and the assessments are against all of the real property within the City of Carter Lake. This levee is a substantial and adequate one, of the same size and design as that protecting Council Bluffs and Omaha, and meets all of the specifications promulgated by the Corps of Engineers, United States Army.

The economy of the city and its inhabitants is good. The municipal finances are in good shape, its bonds sell readily and there are no defaults in their payment. The people, mostly home-owners and gainfully employed, show no evidence of distress, unemployment or poverty. In fact our investigation shows that there are only six A.D.C. cases and one old age pensioner in the city's population.

Two observations are offered by the sub-committee for whatever value they may afford to a thorough consideration of this bill, to wit:

(1) From the lands that would be ceded to Iowa, under this bill, the choicest portion, the De Sota bend cut-off, has been acquired by the United States, and a Federal game preserve has been established thereon. This Federal project covers approximately one thousand acres, includes a very sizeable lake, is being improved for public recreational purposes by the construction of roads, concessions and other proper improvements, all supervised by a Federal custodian. This has been done by the Federal Government, even though the land in the preserve is in two states. Iowa and its residents, as well as those from Nebraska and other states will have the recreational advantages of this project, but the State of Iowa would not be able to acquire it or control it.

(2) In January of this year there was filed with the Chief Clerk of the House and the Secretary of the Senate of Iowa, a resolution designated as "Legislative Resolution 19 of the Seventy-second Session of the Legislature of Nebraska" which states, in effect, that the Nebraska legislature will take no action to ratify a compact between these two states unless the Iowa legislature fixes the new boundary as the middle of the Missouri River with no exceptions.

Inasmuch as our sub-committee is not of the mind to recommend passage of House File 263 without excepting the City of Carter Lake, and the

resolution of the Nebraska legislature forecloses us against such an exception, this sub-committee can only recommend that the bill do not pass.

Furthermore it is the consensus of the committee that the people of Carter Lake, Iowa, should not be denied their Iowa citizenship without a substantial will on their part determined by election. Also, the County of Pottawattamie should have a voice as to whether or not they wish to relinquish a part of their county as it has existed since Iowa became a state. Carter Lake, Iowa, is a substantial part of Pottawattamie County and its population.

After on-sight investigation, it appears to the committee that two other considerations might well be given to the solution of this problem.

First, that the Army Engineers should give consideration to straightening the river from a point just north of the Council Bluffs-Omaha bridge, at the end of Broadway street where it meets Douglas street in Omaha, to a point north-northwesterly through the western portion of Carter Lake which was the former river channel, centering in a north-northwesterly direction, following what apparently was once the river channel until it meets the present channel of the river. It appears that this would be a relatively inexpensive operation. This would run through unimproved property for all practical purposes. According to Army Engineering records, the cost of straightening out the channel south of the Broadway-Douglas street bridge to the Bellevue bridge was \$469,800.00 per mile, and from the Broadway-Douglas street bridge north to the Mormon bridge was \$542,000.00. This is the area where a new channel could be cut, from all indication, at no greater cost. This compares with the total cost of straightening the river along the Iowa border of \$815,000.00 per mile. Such a straightening of the channel would be a distance of approximately two miles as compared with the present channel of about five miles, or a saving of three miles in the river channel.

Another matter which might be given serious consideration is the location of the new Interstate bridge between Council Bluffs and Omaha, for which public hearings are being held within thirty days. It appears to the committee that the bridge could well be located a few hundred feet north of the proposed location, thus connecting Council Bluffs and Carter Lake, considerably more economically as it would not require destruction of several story commercial buildings in Omaha.

NEBRASKA v. IOWA.

ORIGINAL.

No. 4. Original. Argued January 29, 1892.—Decided February 29, 1892. When grants of land border on running water, and the banks are changed by the gradual process known as accretion, the riparian owner's boundary line still remains the stream; but when the boundary stream suddenly abandons its old bed and seeks a new course by the process known as avulsion, the boundary remains as it was, in the centre of the old channel; and this rule applies to a State where a river forms one of its boundary lines.

The law of accretion controls on the Missouri River, as elsewhere; but the change in the course of that river in 1877 between Omaha and Council Bluffs does not come within the law of accretion, but within that of avulsion.

The court stated the case as follows:

This is an original suit brought in this court by the State of Nebraska against the State of Iowa, the object of which is to have the boundary line between the two States determined. Iowa was admitted into the

Union in 1846, and its western boundary as defined by the act of admission was the middle of the main channel of the Missouri River. Nebraska was admitted in 1867, and its eastern boundary was likewise the middle of the channel of the Missouri River. Between 1851 and 1877, in the vicinity of Omaha, there were marked changes in the course of this channel, so that in the latter year it occupied a very different bed from that through which it flowed in the former year. Out of these changes has come this litigation, the respective States claiming jurisdiction over the same tract of land. To the bill filed by the State of Nebraska the State of Iowa answered, alleging that this disputed ground was part of its territory, and also filed a cross-bill, praying affirmative relief, establishing its jurisdiction thereof, to which cross-bill the State of Nebraska answered. Replications were duly filed and proofs taken.

Mr. J. M. Woolworth for the State of Nebraska. Mr. C. J. Greene and the Attorney General of that State were with him on the brief, in which were cited *Jefferis v. East Omaha Land Co.*, 134 U. S. 178; 8 Opinions Attorneys General, 177; *Indiana v. Kentucky*, 136 U. S. 479.

Mr. Smith McPherson for the State of Iowa. The Attorney General of that State and Mr. J. J. Stewart were with him on the brief, in which were cited *St. Louis v. Rutz*, 138 U. S. 226; *Mulry v. Norton*, 100 N. Y. 424.

Mr. Justice Brewer delivered the opinion of the court.

It is settled law, that when grants of land border on running water, and the banks are changed by that gradual process known as accretion, the riparian owner's boundary line still remains the stream, although, during the years, by this accretion, the actual area of his possessions may vary. In *New Orleans v. United States*, 10 Pet. 662, 717, this court said: "The question is well settled at common law, that the person whose land is bounded by a stream of water which changes its course gradually by alluvial formations, shall still hold by the same boundary, including the accumulated soil. No other rule can be applied on just principles. Every proprietor whose land is thus bounded is subject to loss by the same means which may add to his territory; and, as he is without remedy for his loss in this way, he cannot be held accountable for his gain." (See also *Jones v. Soulard*, 24 How. 41; *Banks v. Ogden*, 2 Wall. 57; *Saulet v. Shepherd*, 4 Wall. 502; *St. Clair County v. Lovingsston*, 23 Wall. 46; *Jefferis v. East Omaha Land Co.*, 134 U. S. 178.)

It is equally well settled, that where a stream, which is a boundary, from any cause suddenly abandons its old and seeks a new bed, such change of channel works no change of boundary; and that the boundary remains as it was, in the centre of the old channel, although no water may be flowing therein. This sudden and rapid change of channel is termed, in the law, avulsion. In *Gould on Waters*, sec. 159, it is said: "But if the change is violent and visible, and arises from a known cause, such as a freshet, or a cut through which a new channel is formed, the original thread of the stream continues to mark the limits of the two estates." 2 Bl. Com. 262; *Angell on Water Courses*, § 60; *Trustees of Hopkins' Academy v. Dickinson*, 9 Cush. 544; *Buttenuth v. St. Louis Bridge Co.*, 123 Illinois, 535; *Hagan v. Campbell*, 8 Porter (Ala.) 9; *Murry v. Sermon*, 1 Hawks (N. C.) 56.

These propositions, which are universally recognized as correct where the boundaries of private property touch on streams, are in like manner recognized where the boundaries between States or nations are, by prescription or treaty, found in running water. Accretion, no matter to which side

it adds ground, leaves the boundary still the centre of the channel. Avulsion has no effect on boundary, but leaves it in the centre of the old channel. In volume 8, *Opinions of Attorneys General*, 175, 177, this matter received exhaustive consideration. A dispute arose between our government and Mexico, in consequence of changes in the Rio Bravo. The matter having been referred to Attorney General Cushing, he replied at length. We quote largely from that opinion. After stating the case, he proceeds:

"With such conditions, whatever changes happen to either bank of the river by accretion on the one or degradation of the other, that is, by the gradual, and, as it were, insensible accession or abstraction of mere particles, the river as it runs continues to be the boundary. One country may, in process of time, lose a little of its territory, and the other gain a little, but the territorial relations cannot be reversed by such imperceptible mutations in the course of the river. The general aspect of things remains unchanged. And the convenience of allowing the river to retain its previous function, notwithstanding such insensible changes in its course, or in either of its banks, outweighs the inconveniences, even to the injured party involved in a detriment, which, happening gradually, is inappreciable in the successive moments of its progression.

"But, on the other hand, if, deserting its original bed, the river forces for itself a new channel in another direction, then the nation, through whose territory the river thus breaks its way, suffers injury by the loss of territory greater than the benefit of retaining the natural river boundary, and that boundary remains in the middle of the deserted river bed. For, in truth, just as a stone pillar constitutes a boundary, not because it is a stone, but because of the place in which it stands, so a river is made the limit of nations, not because it is running water bearing a certain geographical name, but because it is water flowing in a given channel, and within given banks, which are the real international boundary.

"Such is the received rule of the law of nations on this point, as laid down by all the writers of authority. (See ex. gr. Puffend. *Jus. Nat. lib. iv*, cap. 7, s. ii; Gundling, *Jus. Nat.* p. 248; Wolff, *Jus. Gentium*, s. 106-109; Vattel, *Droit des Gens*, liv. i, chap. 22, s. 268, 270; Stypmanni, *Jus. Marit.* cap. v. n. 476-552; Rayneval, *Droit de la Nature*, tom. i, p. 307; Merlin, *Répertoire*, ss. voc. alluv.)"

Further reference is made in the opinion to the following authorities:

"Don Antonio Riquelme states the doctrine as follows:

"'When a river changes its course, directing its currents through the territory of one of the two coterminous States, the bed which it leaves dry remains the property of the State (or States) to which the river belonged, that being retained as the limit between the two nations, and the river enters so far into the exclusive dominion of the nation through whose territory it takes the new course. Nations must, of necessity, submit their rights to these great alterations which nature predisposes and consummates. . . . But, when the change is not total, but progressive only, that is to say, when the river does not abandon either State, but only gradually shifts its course by accretions, then it continues still to be the boundary, and the augmentation of territory, which one country gains at the expense of the other, is to be held by it as a new acquisition of property.' (*Derecho Internacional*, tom. i, p. 83.)

"Don Andres Bello and Don José Maria de Pando both enunciate the doctrine in exactly the same words, namely:

"'When a river or lake divides two territories, whether it belong in common to the conterminous riparian States, or they possess it by halves, or

one of them occupies it exclusively, the rights, which either has in the lake or river, do not undergo any change by reason of alluvion. The lands insensibly invaded by the water are lost by one of the riparian States, and those which the water abandons on the opposite bank increase the domain of the other State. But if, by any natural accident, the water, which separated the two States, enters of a sudden into the territory of the other, it will thenceforth belong to the State whose soil it occupies, and the land, including the abandoned river-channel or bed, will incur no change of master.' (Bello, *Derecho Internacional*, p. 38; Pando, *Derecho Internacional*, p. 99.)

"Almeda refers to the same point, briefly, but in decisive terms. He says:

"'As the river belongs to the two nations, so, also, the river-bed, if by chance it becomes dry, is divided between them as proprietors. When the river changes its course, throwing itself on one of two conterminous states, it then comes to belong to the state through whose territory it runs, all community of right in it so far ceasing.' *Derecho Publico*, tom. i. p. 199.

"Leaving authorities of this class, then, let us come to those which discuss the question in its relation to private rights, and as a doctrine of municipal jurisprudence.

"The doctrine is transmitted to us from the laws of Rome. (Justinian, *Inst. lib. ii, tot. i, s. 20-24*; *Dig. lib. xii, tit. i, l. 7*. See J. Voet *ad Pandect. tom. i, p. 606, 607*. Heinec, *Recit. lib. ii, tit. 2, s. 358-369*; Struvii *Syn-tag. ex. 41, c. 33-25*; Bowyers's *Civil Law*, ch. 14.)

"Don Alfonso transferred it from the civil law to the *Partidas*. (*Partida iii, tit. 28, l. 31*.) Thus it came to be, as it still remains, an established element of the laws of Spain and of Mexico. (Alvarez, *Instituciones*, lib. ii, tit. i, s. 6; Asso, *Instituciones*, p. 101; Gomez de la Serna, *Elementos*, lib. ii, tit. 4, sec 3, no. 2; Escriche, *Dic. s. vocc. accession natural, alluvion, avulsion*; *Febrero Mexicano*, tom. 1. p. 161; *Sala Mexicano*, ed. 1845, tom. ii, p. 62.)

"The same doctrine, starting from the same point of departure, made its way through the channel of Bracton, into the laws of England, and thence to the United States. (Bracton *de Legg. Angliae*, lib. 2, cap. 2, fol. 9; *Blacks. Comm. vol. ii, p. 262*; Woolrych on *Waters*, p. 34; Angell on *Water Courses*, ch. 2; *Lynch v. Allen*, 4 De. & Bat. N. C. R. p. 62; *Murry v. Sermon*, 1 Hawks, N. C. R. p. 56; *The King v. Lord Scarborough*, 3 B. & C. p. 91; *S. C. 2 Bligh*, N. S. p. 147.

"Such, beyond all possible controversy, is the public law of modern Europe and America, and such, also, is the municipal law both of the Mexican Republic and the United States."

Vattel states the rule thus (Book 1, c. 22, secs. 268, 269, 270):

"If a territory which terminates on a river has no other boundary than that river, it is one of those territories that have natural or indeterminate bounds (*territoria arcifinia*), and it enjoys the right of alluvion; that is to say, every gradual increase of soil, every addition which the current of the river may make to its bank on that side, is an addition to that territory, stands in the same predicament with it, and belongs to the same owner. For, if I take possession of a piece of land, declaring that I will have for its boundary the river which washes its side—or if it is given to me upon that footing, I thus acquired beforehand the right of alluvion; and, consequently, I alone may appropriate to myself whatever additions the current of the river may insensibly make to my land. I say 'insensibly,' because, in the very uncommon case called *avulsion*, when the violence of the

stream separates a considerable part from one piece of land and joins it to another, but in such manner that it can still be identified, the property of the soil so removed naturally continues vested in its former owner. The civil laws have thus provided against and decided this case, when it happens between individual and individual; they ought to unite equity with the welfare of the state, and the care of preventing litigations.

"In case of doubt, every territory terminating on a river is presumed to have no other boundary than the river itself; because nothing is more natural than to take a river for a boundary, when a settlement is made; and wherever there is a doubt, that is always to be presumed which is most natural and most probable.

"As soon as it is determined that a river constitutes the boundary line between two territories, whether it remains common to the inhabitants on each of its banks, or whether each shares half of it, or, finally, whether it belongs entirely to one of them, their rights, with respect to the river, are in nowise changed by the alluvion. If, therefore, it happens that, by a natural effect of the current, one of the two territories receives an increase, while the river gradually encroaches on the opposite bank, the river still remains the natural boundary of the two territories, and, notwithstanding the progressive changes in its course, each retains over it the same rights which it possessed before; so that, if, for instance, it be divided in the middle between the owners of the opposite banks, that middle, thought it changes its place, will continue to be the line of separation between the two neighbors. The one loses, it is true, while the other gains; but nature alone produces this change; she destroys the land of the one, while she forms new land for the other. The case cannot be otherwise determined, since they have taken the river alone for their limits.

"But if, instead of a gradual and progressive change of its bed, the river, by an accident merely natural, turns entirely out of its course and runs into one of the two neighboring States, the bed which it has abandoned becomes thenceforward their boundary, and remains the property of the former owner of the river, (sec. 267.) the river itself is, as it were, annihilated in all that part while it is reproduced in its new bed, and there belongs only to the State in which it flows."

The result of these authorities puts it beyond doubt that accretion on an ordinary river would leave the boundary between two States the varying centre of the channel, and that avulsion would establish a fixed boundary, to wit: the centre of the abandoned channel. It is contended, however, that the doctrine of accretion has no application to the Missouri River, on account of the rapid and great changes constantly going on in respect to its banks; but the contrary has already been decided by this court in *Jefferis v. Land Company*, 134 U. S. 178, 189. A question between individuals, growing out of changes in the very place now in controversy, was then before this court; and in the opinion, after referring to the general rule, it was observed: "It is contended by the defendant that this well settled rule is not applicable to land which borders on the Missouri River, because of the peculiar character of that stream and of the soil through which it flows, the course of the river being tortuous, the current rapid, and the soil a soft, sandy loam, not protected from the action of water either by rocks or the roots of trees; the effect being that the river cuts away its banks, sometimes in a large body, and makes for itself a new course, while the earth thus removed is almost simultaneously deposited elsewhere, and new land is formed almost as rapidly as the former bank was carried away. But it has been held by this court that the general law of accretion is applicable to land on the Mississippi River; and, that being so, although

the changes on the Missouri River are greater and more rapid than on the Mississippi, the difference does not constitute such a difference in principle as to render inapplicable to the Missouri River the general rule of law." It is true that that case came here on demurrer to a bill, and it was alleged in the bill that the land was formed by "imperceptible degrees," and that the process of accretion "went on so slowly that it could not be observed in its progress; but, at intervals of not less than three or more months, it could be discerned by the eye that additions greater or less had been made to the shore." The state of facts disclosed by this averment was held not to take the case out of law concerning accretion, and, after referring to some English authorities, it was said: "The doctrine of the English cases is, that accretion is an addition to land coterminous with the water, which is formed so slowly that its progress cannot be perceived, and does not admit of the view that in order to be accretion the formation must be one not discernible by comparison at two distant points of time." And then was quoted from the opinion in *St. Clair v. Lovington*, 23 Wall. 46, these words: "The test as to what is gradual and imperceptible in the sense of the rule is, that though the witnesses may see from time to time that progress has been made, they could not perceive it while the process was going on."

The case before us is presented on testimony, and not on allegation. But what are the facts apparent from that testimony? The Missouri River is a winding stream, coursing through a valley of varying width, the substratum of whose soil, a deposit of distant centuries, is largely of quicksand. In building the bridge of the Union Pacific Railway Company across the Missouri River, in the vicinity of the tracts in controversy, the builders went down to the solid rock, sixty-five feet below the surface, and there found a pine log a foot and a half in diameter—of course, a deposit made in the long ago. The current is rapid, far above the average of ordinary rivers; and by reason of the snows in the mountains there are two well known rises in the volume of its waters, known as the April and June rises. The large volume of water pouring down at the time of these rises, with the rapidity of its current, has great and rapid action upon the loose soil of its banks. Whenever it impinges with direct attack upon the bank at a bend of the stream, and that bank is of the loose sand obtaining in the valley of the Missouri, it is not strange that the abrasion and washing away is rapid and great. Frequently, where above the loose substratum of sand there is a deposit of comparatively solid soil, the washing out of the underlying sand causes an instantaneous fall of quite a length and breadth of the superstratum of soil into the river; so that it may, in one sense of the term, be said that the diminution of the banks is not gradual and imperceptible, but sudden and visible. Notwithstanding this, two things must be borne in mind, familiar to all dwellers on the banks of the Missouri River, and disclosed by the testimony: that, while there may be an instantaneous and obvious dropping into the river of quite a portion of its banks, such portion is not carried down the stream as a solid and compact mass, but disintegrates and separates into particles of earth borne onward by the flowing water, and giving to the stream that color which, in the history of the country, has made it known as the "muddy" Missouri; and, also, that while the disappearance, by reason of this process, of a mass of bank may be sudden and obvious, there is no transfer of such a solid body of earth to the opposite shore, or anything like an instantaneous and visible creation of a bank on that shore. The accretion, whatever may be the fact in respect to the diminution, is always gradual and by the imperceptible deposit of floating particles of earth. There is, except in such

cases of avulsion as may be noticed hereafter, in all matters of increase of bank, always a mere gradual and imperceptible process. There is no heaping up at an instant, and while the eye rests upon the stream, of acres or rods on the forming side of the river. No engineering skill is sufficient to say where the earth in the bank washed away and disintegrating into the river finds its rest and abiding place. The falling bank has passed into the floating mass of earth and water, and the particles of earth may rest one or fifty miles below, and upon either shore. There is, no matter how rapid the process of subtraction or addition, no detachment of earth from the one side and deposit of the same upon the other. The only thing which distinguishes this river from other streams, in the matter of accretion, is in the rapidity of the change caused by the velocity of the current; and this in itself, in the very nature of things, works no change in the principle underlying the rule of law in respect thereto.

Our conclusions are that, notwithstanding the rapidity of the changes in the course of the channel, and the washing from the one side and on to the other, the law of accretion controls on the Missouri River, as elsewhere; and that not only in respect to the rights of individual land owners, but also in respect to the boundary lines between States. The boundary, therefore, between Iowa and Nebraska is a varying line, so far as affected by these changes of diminution and accretion in the mere washing of the waters of the stream.

It appears, however, from the testimony, that in 1877 the river above Omaha, which had pursued a course in the nature of an ox-bow, suddenly cut through the neck of the bow and made for itself a new channel. This does not come within the law of accretion, but of that of avulsion. By this selection of a new channel the boundary was not changed, and it remained as it was prior to the avulsion, the centre line of the old channel; and that, unless the waters of the river returned to their former bed, became a fixed and unvarying boundary, no matter what might be the changes of the river in its new channel.

We think we have by these observations indicated as clearly as is possible the boundary between the two States, and upon these principles the parties may agree to a designation of such boundary, and such designation will pass into a final decree. If no agreement is possible, then the court will appoint a commission to survey and report in accordance with the views herein expressed.

The costs of this suit will be divided between the two States, because the matter involved is one of those governmental questions in which each party has a real and vital, and yet not a litigious, interest.

NEBRASKA v. IOWA.

ORIGINAL.

No. 4. Original. Argued January 29, 1892.—Decree entered May 16, 1892. This case was decided February 29, 1892, 143 U. S. 359, and the decree withheld in order to enable the parties to agree to the designation of the boundary between the two States. Such agreement having been reached a decree is now entered accordingly.

This case is reported in volume 143 U. S. pages 359 to 370. No decree was entered, the court observing (page 370): "We think we have by these observations, indicated as clearly as is possible the boundary between the two States, and upon these principles the parties may agree to a designation of such boundary, and such designation will pass into a final decree. If no agreement is possible, then the court will appoint a commission to

survey and report in accordance with the views herein expressed." The parties having come to such an agreement, the court on the 16th of May, 1892, entered the following decree.

Mr. J. N. Woolworth for the State of Nebraska.

Mr. J. Y. Stone, Attorney General of the State, Mr. J. J. Stewart and Mr. Smith McPherson for the State of Iowa.

Decree.

This cause came on to be heard upon the pleadings and proofs, and was argued by counsel, and thereupon, the parties having agreed upon a designation of the boundary in accordance with the principles set forth in the opinion of this court, filed on February 29, 1892, it is ordered, adjudged and decreed as follows:

That the boundary between the State of Nebraska and the State of Iowa, between the north line of sections twenty-two (22) and twenty-three (23), in township seventy-five (75) north of range forty-four (44) west of the fifth principal meridian, according to the surveys of the public lands in the State of Iowa, and the middle, east and west lines of section twenty-eight (28) in said township and range, is, and is hereby established in the middle of the main channel of the Missouri River, save and excepting the part of the said boundary described as follows:

Commencing at a point on the south line of section twenty (20), in township seventy-five (75) north, range forty-four (44) west of the fifth principal meridian, produced eight hundred and sixty-one and one-half ($861\frac{1}{2}$) feet west of the southeast corner of said section, and running thence northwesterly to a point on the south line of lot four (4) of section ten (10), in township fifteen (15) north of range thirteen (13) east of the sixth principal meridian, twenty-two hundred and seventy-five (2275) feet east of the southwest corner of the northwest quarter of the southeast quarter of said section ten (10); thence northerly to a point on the north line of lot four (4) aforesaid, two thousand and sixty-eight (2068) feet east of the centre line of said section ten (10); thence north to a point on the north line of section ten (10), two thousand and sixty-eight (2068) feet east of the quarter section corner on the north line of said section; thence northerly to a point three hundred and twelve (312) feet west of the southeast corner of lot one (1), in section three (3), township fifteen (15) north, range thirteen (13) east aforesaid; thence northerly to a point on the section line between section two (2) and three (3), three hundred and fifty-eight (358) feet south of the quarter section corner on said line; thence northeasterly to the centre of the southeast quarter of the northwest quarter of section two (2) aforesaid; thence east to the centre of the west half of lot five (5), otherwise described as the southwest quarter of the northwest quarter of section one (1), in township fifteen (15), range thirteen (13) aforesaid; thence southeasterly to a point on the south line of lot five (5) aforesaid, fifteen hundred and forty (1540) feet west of the centre of section one (1), last aforesaid; thence south two thousand and fifty (2050) feet to a point fifteen hundred and forty (1540) feet west of the north and south open line through said section one (1); thence southwesterly to the southwest corner of the northeast quarter of the southwest quarter of section twenty-one (21), in township seventy-five (75) north, range forty-four (44) west of the fifth principal meridian; thence southeasterly to a point six hundred and sixty (660) feet south of the northeast corner of the northwest quarter of the northeast quarter of section twenty-eight (28), in township seventy-five (75) north, range forty-four (44) west, aforesaid; and said line produced to the centre of the channel of the Missouri River.

Commencing again at the point of beginning first named, namely, a point on the south line of section twenty (20), in township seventy-five (75) north, range forty-four (44) west of the fifth principal meridian, produced eight hundred and sixty-one and one-half (861½) feet west of the southeast corner of said section, and running thence southeasterly to a point six hundred and sixty (660) feet east of the southwest corner of the northwest quarter of the northwest quarter of section twenty-eight (28), in township seventy-five (75) north, range forty-four (44) west of the fifth principal meridian, and said line produced to the centre of the channel of the Missouri River.

The territory lying on the west of said line from the point last aforesaid, to the section line between sections two (2) and three (3), in township fifteen (15) north, range thirteen (13) east of the sixth principal meridian, according to the government surveys in Nebraska, and also the territory lying north of the above-described line, to where it intersects the middle, east and west line of section one (1), in said township and range, and the territory lying east of the above-described line from the point last aforesaid to the Missouri, are in the State of Nebraska, and the lands included between and within the above-described line are in the State of Iowa.

It is further ordered that the costs of this suit be paid by the parties equally.

So ordered.

PRESENTATION OF GIFTS

Dietz of Scott rose on a point of personal privilege and asked and received unanimous consent that the Honorable Marvin Smith, the

Honorable John Mowry, the Honorable Raymond Eveland and the Honorable John Camp be escorted to the rostrum by members of the House previously designated, for special recognition of appreciation, and that the Honorable Samuel Robinson also appear at the Speaker's station.

The Honorable Samuel Robinson presented to Speaker Robert Naden a wrist watch inscribed from the Sixtieth General Assembly, and said:

MR. SPEAKER: We are now approaching an occasion that comes at the close of every legislative session when we will be returning to our individual communities. The selection of a Speaker is one of our important duties and if any of us have had any doubts or misgivings as to whether our present Speaker would equal the standard set by his predecessors, I am sure, Robert, that your administration of the responsibilities assumed has been fair and unbiased. It is a special privilege, therefore, for me this morning to present to you this gift from the members of the House (including members of the Third House), of our admiration and of our appreciation of a job well done. Congratulations, Robert, we are proud of you.

Speaker Robert Naden said:

Thank you for this beautiful gift, and I want to take this opportunity to express my appreciation of the splendid cooperation I have received from each of you this session. I want to thank you for this and to commend each of you for the way in which you have accepted the responsibilities of state government during the Sixtieth General Assembly. I believe that it will be long remembered for being one of the most effective and fruitful sessions in Iowa history.

I want to also take a moment at this time to not only thank Bill, Sue, Mary and Burl, but also the entire staff in the back room, the Sergeant-at-Arms staff, the bill room employees, and the telephone room girls, for a job well done.

Another group that I think we are universally proud of is the group with the red jackets, the Pages. These young ladies and gentlemen have done a splendid job and we thank each of you and hope that your experiences here will give you a continued interest in your government at all levels.

I also wish to recognize the representatives of the various organizations and associations who have been interested in the legislation presented to the General Assembly for consideration. They have been cooperative, fair, and have greatly added to the knowledge needed for a just appraisal of proposed legislation.

I think that the newspaper, radio and television coverage of this session has been the best ever and has led to a well informed public and with the possible exception of committee activity and billboard legislation, the coverage has been largely unbiased! We thank you for your excellent services.

I hope that we can leave here by noon today and come back Monday morning with a determination to finish the job that we have started. It would be penny-wise and pound-foolish to quit just short of doing a complete job. We still have some very major legislation to be adequately handled before we close the Sixtieth General Assembly.

I have sincerely enjoyed this session and I am sure that serving as your presiding officer will be among my fondest memories.

In behalf of all the members of the House, the Honorable Charles

Grassley presented to the Honorable Marvin Smith, Speaker pro tempore, a transistor radio; the Honorable Hillman Sersland presented to the Honorable John Mowry, Majority Floor Leader, a walnut humidior and walnut ash tray; the Honorable Katherine Falvey presented to the Honorable Ray Eveland, Minority Floor Leader, a transistor clock-radio; the Honorable Carl Hirsch presented to the Honorable John Camp, Assistant Majority Floor Leader, a piece of luggage; the Honorable Riley Dietz presented to William R. Kendrick, Chief Clerk, a brief case and to Burl Beam, Assistant Chief Clerk, a pair of cuff links.

The House leaders expressed their appreciation for the mementos and thanked the members of the House, the staff and everyone connected with the Sixtieth General Assembly for their cooperation.

Hagedorn of Clay asked and received unanimous consent that the following poem be printed in the House Journal:

THE BAR

(Written by a life convict in Joliet prison)

A bar to heaven, a door to hell;
Whoever named it, named it well
A bar to manliness and wealth
A door to want and broken health.

A bar to honor, pride and fame;
A door to grief and sin and shame
A bar to hope, a bar to prayer,
A door to darkness and despair.

A bar to honored, useful life;
A door to brawling senseless strife
A bar to all that's true and brave;
A door to every drunkard's grave.

A bar to joys that home imparts
A door to tears and aching hearts
A bar to heaven, a door to hell
Whoever named it, named it well.

EXPLANATION OF VOTES ON SENATE FILES 465 AND 466

Both Senate File 465 and 466 contain provisions relating to powers given to the budget and financial control committee which, in my judgment, clearly violate the Constitution of the State of Iowa. At my request the Attorney General has checked the provisions and has verbally stated to me that they constitute an unconstitutional encroachment of the Legislative branch of government on the Executive branch. He has further promised a written opinion on this matter which no doubt will be shortly forthcoming.

Because I have taken an oath to support the Constitution of the State of

Iowa, I introduced amendments to both bills which would have had the effect of removing the unconstitutional provisions. These amendments were defeated on the floor of the House by substantial majorities. I voted for both bills on final passage in order to make certain that the Board of Control institutions would be assured of receiving their appropriations.

In retrospect I feel that my "aye" votes were in error. If a bill contains any unconstitutional provision I feel morally bound to vote against it, regardless of how much I favor other provisions in the bill. Under no circumstances can I violate my oath of office—even if only a minor provision is involved. That I did so unthinkingly on the two bills mentioned above is a source of deep regret to me.

ELY of Linn.

At 11:00 a.m. the House recessed until the fall of the gavel.

AFTERNOON SESSION

The House reconvened at 2:00 p.m.

'9. The amount of any overpayment of the individual income tax liability of the employee taxpayer or other person which may result from the withholding and payment of withheld tax by the employer or withholding agent to the commission under subsections one (1) or two (2) hereof, as compared to the individual income tax liability of the employee taxpayer or other person properly and correctly determined under the provisions of section four hundred twenty-two point four (422.4), to and including section four hundred twenty-two point thirteen (422.13), Code 1962, may be credited against any income tax or installment thereof then due the State of Iowa and any balance of two dollars (\$2.00) or more shall be refunded to the employee taxpayer or other person with interest at six percent (6%) per annum, such interest to begin to accrue one hundred eighty (180) days after the due dates of the return. "The term "withholding agent" means any individual, fiduciary, corporation, partnership or association in whatever capacity acting and including all officers and employees of the State of Iowa, or any municipal corporation of the State of Iowa and of any school district or school board of the state, or of any political subdivision of the State of Iowa that is obligated to pay or has control of paying or does pay to any resident or nonresident of the State of Iowa or his agent any income that is subject to the Iowa income tax in the hands of such resident or nonresident."

5. In the event a withholding agent fails to withhold and/or pay over to the commission any amount required to be withheld under subsections one (1) or two (2) of this section, such amount may be assessed against such employer or withholding agent in the same manner as prescribed for the assessment of income tax under the provisions of chapter four hundred twenty-two (422), Code 1962.

'9. The amount of any overpayment of the individual income tax liability of the employee taxpayer or other person which may result from the withholding and payment of withheld tax by the employer or withholding agent to the commission under subsections one (1) or two (2) hereof, as compared to the individual income tax liability of the employee taxpayer or other person properly and correctly determined under the provisions of section four hundred twenty-two point four (422.4), to and including section four hundred twenty-two point thirteen (422.13), Code 1962, may be credited against any income tax or installment thereof then due the State of Iowa and any balance of two dollars (\$2.00) or more shall be refunded to the employee taxpayer or other person with interest at six percent (6%) per annum, such interest to begin to accrue one hundred eighty (180) days after the due dates of the return. Amounts less than two dollars (\$2.00) shall be refunded to the taxpayer only upon written application, and only if such application is filed within twelve (12) months after the due date of the return. Refunds provided for by this subsection shall be paid by the state treasurer by means of warrants drawn by the comptroller at the direction of an authorized employee of the state tax commission, without requiring the taxpayer to file a claim for such refund. '10. a. Any person or corporation required under the provisions of this Act to furnish a statement required by this Act who willfully furnishes a false or fraudulent statement, or who willfully fails to furnish such statement shall, for each such failure be subject to a civil penalty of one hundred dollars (\$100.00), such penalty to be in addition to any criminal penalty otherwise provided for by the Code 1962.

b. Any employer or withholding agent required under the provisions of this Act to withhold taxes on wages or other taxable Iowa income who fails to withhold such taxes, or to make the required returns or who fails to remit to the commission the amounts withheld, shall be liable for the amount of such taxes which should have been withheld and paid and in addition shall be subject to a civil penalty, equal to five percent (5%) of the amount which should have been withheld and/or paid over to the commission, for each month or fraction thereof during which such failure continues, not to exceed twenty-five percent (25%) in the aggregate. Interest at the rate of six percent (6%) per annum shall be added to the

amount of the tax required to be withheld and paid to the tax commission.

c. If the employer, being a domestic or foreign corporation, required under the provisions of this section to withhold on wages or other taxable Iowa income fails to withhold the amounts required to be withheld, make the required returns or remit to the state tax commission the amounts withheld, the commission may certify such fact or facts to the secretary of state, who shall thereupon cancel the articles of incorporation or certificate of authority (as the case may be) of such corporation and the rights of such corporations to carry on business in the State of Iowa shall thereupon cease. '11. a. Every individual or married couple filing a joint return, shall make a declaration of estimated tax if his or their Iowa income tax attributable to income other than wages subject to withholding can reasonably be expected to amount to fifty dollars (\$50.00) or more for the taxable year, except that in the case of farmers the provisions of the Internal Revenue Code of 1954, as amended through December 31, 1962, with respect to declarations shall apply.

The declaration provided for herein shall be filed at such time and in such form as the state tax commission may require by regulations, and the estimated tax shall be paid in four (4) equal installments, the first installment to be paid at the time of filing the declaration, except that at the election of the individual, or married couple filing jointly, any installment of the estimated tax may be paid prior to the date prescribed for its payment.

b. In the case of individuals or married couples filing jointly the total balance of the tax payable after credits for taxes paid through withholding, as provided in subsection one (1) or two (2) of this section, or through declaration and payment of estimated tax, as provided in subsection eleven (11) of this section, shall be due and payable on or before April 15, following the close of the calendar year, or if the return should be made on the basis of a fiscal year, then on or before the fifteenth (15th) day of the fourth (4th) month following the close of such fiscal year.

c. The declaration provided for in this section may be amended during the taxable year under regulations prescribed by the state tax commission.

d. If a taxpayer is unable to make his own declaration, the declaration may be made by duly authorized agent or by the guardian or other person charged with the care of the person or property of such taxpayer.

EXPLANATION OF VOTE

My vote for the Vermeer amendment pertaining to the withholding of personal income taxes should not be interpreted as one of favoring this provision. I violently oppose the withholding system because it places an undue burden on employers and because it cushions and insulates the taxpayer to governmental spending. I voted for the withholding system because it appears that the only way we will achieve property tax replacement this session is to accept withholding for gubernatorial approval of the sales tax increase.

GRASSLEY of Butler.

91 obtained a license issued by the commission under rules adopted
92 by the commission. The fee for licenses required by this section
93 shall be two (2) dollars per annum.

94 The commission shall not issue a license to any individual of
95 questionable moral character.

96 8. The fee for a race meet license shall be:

97 a. One thousand (1,000) dollars for a horse race meet.

98 b. Seven hundred fifty (750) dollars for a race meet of ani-
99 mals other than horses.

100 9. Every person shall provide a bond in favor of the state
101 before a race meet license is issued. The bond shall be in such
102 sum as the commission shall fix and said bond shall be with a
103 surety or sureties as approved by the commission. The bond shall
104 be conditioned upon the person faithfully making the payments
105 provided for by this amendment, keeping books and records, and
106 making reports as provided for by this amendment, and conducting
107 its race meets in conformity with this amendment and the rules
108 and regulations prescribed by the commission.

109 10. The commission may, for good cause after hearing, revoke
110 a race meet or other license granted under this amendment. The
111 commission may summarily revoke any license if the licensee shall:

112 a. By any means whatever grant, assign, transfer, turn over,
113 or attempt to grant, assign, transfer, or turn over to any person
114 the operation or management of any race meet for which a license
115 is granted or the operation of the certificate system of wagering
116 used at such race meet.

117 b. In any manner permit any person other than the licensee to
118 have any share, percentage, or proportion of the money received
119 for admissions to the race meet or received from the operation of
120 the certificate system of wagering at any race meet held under
121 the license.

122 The performance or attempt to perform any act above listed as
123 grounds for summary revocation of the license of the licensee
124 shall be a felony. The attempt by any person to induce a licen-
125 see to perform any of the acts above listed as grounds for sum-
126 mary revocation of a race meet license shall be a felony.

127 Upon conviction of such felony, the person shall be fined not
128 to exceed ten thousand (10,000) dollars and imprisoned in the
129 state penitentiary not to exceed ten (10) years or both such fine

130 and imprisonment.

131 11. Within the enclosure of any race track where there
132 is held a race meet licensed and conducted under this amendment,
133 but not elsewhere, the certificate system of wagering on the re-
134 sults of the respective races may be used and conducted by the
135 licensee in connection with such race meet. Under said system,
136 the licensee is hereby expressly authorized to receive wagers of
137 money from any person present at such race meet on any animal in
138 a race selected by such person to run first in such race. The
139 person so wagering shall acquire an interest in the total money so
140 wagered on all animals in such race as first winners, in propor-
141 tion to the amount of money wagered on him. The licensee shall
142 issue to each person so wagering, a certificate on which shall be
143 shown the number of the race, the amount wagered, and the number
144 or name of the animal selected by such person as first winner. As
145 each race is run, the licensee shall be authorized to deduct from
146 the total sum wagered on all animals as first winners fifteen (15)
147 percent of the said total plus the odd cents of the redistribu-
148 tion over the next lowest multiple of ten (10), which sum shall
149 be subject to the tax provided for by this amendment, and the
150 balance remaining on hand shall be paid out to the holders of
151 certificates on the winning animal in the proportion that the
152 amount wagered by each certificate holder bears to the total
153 amount wagered on all animals in said race to run first.

154 The licensee may likewise receive such wagers on animals se-
155 lected to run second, third, or both, or in such combinations as
156 the commission may authorize; but the method, procedure, and the
157 authority and right of the licensee, as well as the deduction
158 allowed to the licensee, shall be as specified in this amendment
159 with respect to wagers upon animals selected to run first. There
160 shall be no wagering except under the certificate system pro-
161 vided for by this amendment.

162 12. Any person who knowingly permits a minor to make a
163 wager under the certificate system shall be guilty of a misde-
164 meanor and upon conviction shall be fined not to exceed three
165 hundred (300) dollars for each offense or imprisoned not to ex-
166 ceed six (6) months or both such fine and imprisonment.

167 13. There is hereby imposed upon each race meet licensee
168 the following taxes which shall be in addition to all other taxes
169 levied by the state or any political subdivision thereof:

170 a. The sum of fifteen (15) cents upon a ticket of admission
171 for each person entering the grounds or enclosure where the race
172 meet is held. If tickets are sold for more than one (1) day,
173 then the sum of fifteen (15) cents shall be paid for each person
174 using such ticket on each day that such ticket is used.

175 If free passes or complimentary tickets of admission are is-
176 sued to persons other than actual and necessary officials and em-
177 ployees of the licensee, who under rules of the commission may be
178 issued tax free passes, the licensee shall pay the tax of the
179 above rate for all such passes.

180 b. A sum equal to ten (10) percent of the gross amount of all
181 certificate system wagering for each day of racing.

182 The taxes imposed by this section shall be paid to the commis-
183 sion within ten (10) days of the close of each race meet.

184 14. Out of the funds received under section thirteen (13) of
185 this amendment, the expenses of the commissioners, the compensation
186 of the secretary, assistants, and employees and their reasonable
187 expenses, and the other reasonable expenses of the commission,
188 including suitable furniture, equipment, supplies, and office ex-
189 pense, shall first be paid. The commission shall retain in its
190 hands the further sum of five thousand (5,000) dollars as a per-
191 manent fund out of which to pay its current expenses. No sums
192 shall be paid out by the commission until the same are regularly
193 audited and allowed, and the allowance thereof recorded in the
194 minutes of its meetings, and a voucher therefor is signed by the
195 chairman and secretary of the commission. All remaining sums
196 shall be paid to the treasurer of state. Said sums shall be used
197 for appropriations as provided in section one hundred seventy-
198 three point sixteen (173.16) of the Code and state aid to county
199 and district fair societies as provided in sections one hundred
200 seventy-four point nine (174.9) through one hundred seventy-four
201 point twelve (174.12) of the Code. All unexpended funds shall be
202 deposited in the general fund of the state.

203 15. Every licensee under this amendment shall so keep books
204 and records as to clearly show the total number of admissions to
205 races conducted by the licensee on each racing day, including the
206 number of admissions upon free passes or complimentary tickets,
207 and the amount received daily from admission fees, and the total
208 amount of money wagered under the race meet, and shall furnish to
209 the commission such reports and information as the commission may
210 require. At the end of each race meet, the licensee shall give
211 to the commission a complete report and audit showing all ex-
212 penses and disbursements. The commission shall designate a repre-
213 sentative to attend every licensed race meet. Such representa-
214 tive shall have full access to all places within the enclosure
215 of such race meet and shall supervise and check the admissions
216 thereto. The compensation of such representative shall be fixed
217 by the commission and paid by the licensee.

218 16. The commission shall make an annual report to the governor
219 on or before the third Monday in December each year, including
220 therein an account of its actions, its receipts and disbursements
221 under the provisions of this amendment, the practical results
222 attained thereunder, and any recommendations for legislation
223 which the commission may deem advisable.

224 17. No racing under this amendment shall be permitted on
225 Sunday. No license shall be granted for racing on more than one
226 (1) race track in any one (1) county, except that the commission
227 may, in its discretion, grant a license to any county agricul-
228 tural society to conduct racing during its county fair even
229 though a license may have been issued for racing on another
230 track in such county.

231 18. Every licensee shall hold on each racing day at least
232 one (1) race limited to horses foaled in Iowa, but if sufficient
233 competition cannot be had among that class of horses on any day,
234 another race for said day may be substituted. Three (3) percent
235 of the first money of every purse won by a horse foaled in Iowa
236 shall be paid to the breeder of such horse.

237 19. It shall be unlawful for any person to use or permit to
238 be used a narcotic of any kind to stimulate or retard any horse

that is to run in a race in this state to which the provisions of this amendment apply, or for a person having control of such horse and knowledge of such stimulation or retardation to allow it to run in any such race. The owners of such horse, their agents or employees shall permit any member of the commission or any person appointed by the commission for that purpose to make such tests as the commission deems proper in order to determine whether any animal has been so stimulated or retarded. The findings of the commission that a horse has been stimulated or retarded by a narcotic or narcotics shall be prima facie evidence of a violation of this section.

20. No part of this amendment shall be construed to apply to horse racing or horse-race meetings at any state or county fair or elsewhere unless the certificate system of wagering is used or intended to be used in connection therewith.

21. Any unlicensed person holding or conducting any race or race meet in connection with which the certificate system of wagering is used or to be used, or any person holding or conducting races or race meets in connection with which any wagering is permitted otherwise than in the manner specified by this amendment, or any person violating any of the provisions of this amendment or any of the rules and regulations prescribed by the commission, shall upon conviction be fined not to exceed five thousand (5,000) dollars or imprisoned not more than one (1) year or both such fine and imprisonment.

22. The certificate system of wagering on the results of race meets when conducted within the race track enclosure at licensed race meets shall not be held or construed to be unlawful, any other statutes of the state to the contrary notwithstanding.

23. Chapter seven hundred twenty-six (726), Code 1962, is hereby amended by adding the following new section:

"This chapter shall not apply to the certificate system of wagering on race meets conducted under a license issued by the state racing commission."

24. Chapter ninety-nine (99), Code 1962, is hereby amended by adding thereto the following new section:

"The provisions of this chapter shall not apply to the maintenance of a certificate system of wagering on race meets conducted by licensees of the state racing commission."

25. Chapter ninety-nine A (99A), Code 1962, is hereby amended by adding thereto the following new section:

"The provisions of this chapter shall not apply to the maintenance of a certificate system of wagering on race meets conducted by licensees of the state racing commission."

26. Section five hundred thirty-seven point four (537.4), Code 1962, is hereby amended by adding thereto the following:

"The provisions of this section shall not apply to wagers made under a certificate system of wagering on race meets when such system is maintained by a person licensed by the state racing commission to maintain such system."

27. If any provision of this amendment or the application thereof to any taxpayer shall be invalid, such invalidity shall not affect the provisions or application of this amendment which can be given effect without the invalid provisions or application,

294 and to this end the provisions of the amendment are declared
295 severable.
296 Further amend by adding in line 217 after the word "revenue"
297 the words "and to provide for license racing and race meetings at
298 which pari-mutuel or certificate method of wagering on the results
299 of such races shall be permitted."

Vermeer of Marion offered the following division 14 of the Vermeer, et al., amendment.

Amend the Senate amendment to House File 550 by striking lines one hundred forty-three (143) through one hundred seventy-one (171) and inserting in lieu thereof the following as section eleven (11):

"Sec. 11. There is hereby appropriated from the general fund for each year of the biennium to a 'property tax credit fund', which is hereby created, the sum of thirty million dollars (\$30,000,000), or as much thereof as may be available, as computed by the comptroller, from (1) the total of the excess, if any, by which the unencumbered general fund balance exceeds sixteen million dollars (\$16,000,000) at the close of the preceding year, plus (2) the excess, if any, of estimated revenues for the ensuing year after providing for all other appropriations, including the apportionment of biennial appropriations between each year of the biennium. This property tax credit fund distribution shall be allocated each year to the several counties in the same proportion that the assessed valuation of real and personal property in that county for the preceding tax year bears to the total taxable real and personal property in the state for the preceding tax year. Not later than October 1 in the year 1963, and annually thereafter, the state comptroller shall certify to the county auditor of each county in the state the amount of money that will be allocated to that county the following year. The county auditor shall thereupon enter a credit against the tax bill of each taxpayer in said county, being the tax bill of the current year due and payable the following year, and the amount of said credit shall be in the same proportion to the total amount so certified to the county auditor by the state comptroller as the assessed valuation of such taxpayer's taxable real and personal property for the current tax year bears to the total assessed valuation of taxable real and personal property in that county for the current tax year. The amount of money so credited to the taxpayers of the county shall be distributed by the county treasurer to the several taxing districts of said county upon the receipts in the following year of the comptroller's warrant drawn on the property tax credit fund, the same as though the amount thereof had been paid to the treasurer of said county by the taxpayers of said taxing district."

Any vacancy in the membership shall be filled by appointment from the representative body to which the retiring member of the committee belongs, as the case may be."

SENATE CONCURRENT RESOLUTION 37

By Flatt and Elvers

Whereas, because of the voluminous accumulation of official records of the State of Iowa, it became necessary a number of years ago to purchase a building for the temporary storage of official records, and

Whereas, such building is known as the state archives building and is located at 513 East Thirteenth Street in Des Moines, Polk County, Iowa, and

Whereas, such building was originally a church and has been remodeled to accommodate record storage and microfilming, and

Whereas, said building is unsuited for the proper storage of official and important state records by reason of having a wooden inner structure and inadequate ventilation so as to present a fire hazard to said records, and also the large volume of records accumulating has nearly exhausted available storage space in said building, and

Whereas, it is necessary to make some provision for the adequate storage of state records, and it is important to the future welfare of the State of Iowa that such records be safely kept and stored, now therefore,

Be It Resolved by the Senate, the House Concurring, That the capitol planning commission, as provided for in chapter eighteen A (18A) of the Code, is hereby directed to study during the 1963-65 biennium the need for, feasibility, and cost of establishing a state record center for the safe storage of official records of the State of Iowa. Said commission shall determine what in its judgment would be the best method of acquiring and providing space for the storage of official records of the state, and shall make a report in writing of its findings and recommendations to the Sixty-first General Assembly.

Laid over under Rule 25.

The bill having received a constitutional majority was declared to have passed the House and the title as amended was agreed to.

EXPLANATION OF VOTE ON HOUSE FILE 550

This proposal is not property tax relief—at least, not the kind that people can afford. The earmarking is fiscal irresponsibility—nothing but sugar coating for political expediency. This bill appropriates about fifty-eight million dollars and provides revenue measures of about forty million dollars. The result, obviously, is that a good share of the alleged property tax relief promised will never materialize. Also, it forces the people to pay eighteen months' income tax in a one year period—an undue hardship.

REPPERT of Polk.

MESSAGES FROM THE SENATE

The following messages were received from the Senate:

MR. SPEAKER: I am directed to inform your honorable body that the Senate has passed the following bill in which the concurrence of the Senate was asked:

House File 554, a bill for an act to provide for the regulation of the practice of nursing.

Also: That the Senate has concurred in the House amendment to and passed Senate File 430, a bill for an act relating to the exploration for and development, conservation, production, transportation and storage of natural gas and oil.

Also: That the Senate has passed the following bill in which the concurrence of the House is asked:

Senate File 488, a bill for an act authorizing expenditures by the state highway commission from the primary road fund, farm-to-market road fund and urban road fund and relating to salaries of highway commission members.

Also: That the Senate has adopted the following concurrent resolution in which the concurrence of the House is asked:

Senate Concurrent Resolution 36, a concurrent resolution providing that the Iowa Development Commission and the Universities and Colleges investigate the establishment of industrial complexes in various locations throughout state.

SENATE CONCURRENT RESOLUTION 36

By Beneke, Walker, Rigler, Wearin and Doran

Whereas, a number of Universities and Colleges located within the State of Iowa are interested in research projects of great importance to national defense and industry; and

Whereas, many industries and our national government find it to be expedient and beneficial to locate industrial complexes near the University and College research centers; and

Whereas, both the educational institutions and the industries can be mutually benefited by immediate exchange of theory, on one hand, and practical application, on the other; and

Whereas, the establishment of such industrial complexes would encourage industrial development in our great state and further, encourage and enable our Iowa-trained scientists and other specialists to take industrial positions here in Iowa rather than take the fruits of their education to our sister states;

Now, Therefore, Be It Resolved by the Senate, the House Concurring: That, the Iowa Development Commission and the Universities and Colleges in the State of Iowa investigate and encourage the establishment of industrial complexes in various locations throughout the state.

Laid over under Rule 25.

21 Sec. 5. The state assessor shall serve until a successor is
22 duly appointed except as otherwise provided herein. He may be
23 removed from office by the appointment of a successor by the
24 governor with consent of two-thirds (2/3) of the senate in

55 assessor may determine, and may assist and advise the state
56 assessor in forming rules and regulations, making decisions and

84 have been provided for by the general assembly, the comptroller
85 shall determine what portion of the appropriations made to the
86 state tax commission shall be transferred to the state assessor.
87 This shall be in addition to appropriations made by the general
88 assembly for the state assessor and his deputies as provided in
89 section eight (8) of this Act.

90 Sec. 10. All powers, duties and control over assessed valua-
91 tions of all property in the state are hereby transferred from

SENATE CONCURRENT RESOLUTION 35

By Committee on Claims

Whereas, it is deemed desirable that claims submitted to the joint claims committee of the Sixtieth General Assembly and rejected thereby should be submitted to the Senate and House thereof for final action and determination as the act of the General Assembly.

COMMUNICATION

The following communication is on file in the office of the Chief Clerk:

May 8, 1963.

Legislative Research Committee,
State House,
Des Moines 19, Iowa.
Gentlemen:

We, the undersigned members of the Sixtieth Iowa General Assembly, request that the Legislative Research Committee and Bureau study problems of social welfare as identified with the aid to dependent children program. It is requested that a legislative advisory committee as authorized under Sections 2.55 and 2.56, Code of Iowa (1962), be formed to work with the Legislative Research Bureau on the aid to dependent children study.

We request that the Legislative Research Committee and Bureau and the legislative advisory committee give special emphasis to the following areas in conducting the aid to dependent children study.

1. The present aid to dependent children program in Iowa.

2. Aid to dependent children programs in other states, particularly trends in caseloads resulting from administration and enforcement of state programs.

3. Determine if other states have attempted to rehabilitate selected cases of ADC recipients with the goal of reducing the caseload as well as returning the individual to society in an earning capacity. A complete report and evaluation of existing programs should be secured from each state which has undertaken rehabilitation services.

4. Make a thorough review of the Iowa State Department of Social Welfare in order that the administration of the aid to dependent children program may be related to the total effort of the Iowa Department.

For the purpose of legitimately reducing the aid to dependent children caseload and returning self-respect to recipients, the legislative advisory committee is directed to assess the valuation of the ADC program in Iowa and other states and recommend a program of rehabilitation in an attempt to improve the Iowa program.

The findings of the aid to dependent children study should be made available to members of the Iowa General Assembly by December 1, 1964. Any recommendations made by the legislative advisory committee should be supported by bills.

Respectfully submitted,

EXPLANATION OF VOTE ON HOUSE FILE 550

Although House File 550 as amended by the Senate and further amended by the House contains attractive features, such as substantial increases in general aid to education, special education, supplementary aid to education and vocational education, agricultural land credits and repeal of the moneys and credits tax, it is my belief that these were not worth the price of passage. The price consists of earmarking of state revenues, which is personally repugnant to me on general principles, inequitable allocation of the funds to the prejudice of city taxpayers and the withholding tax, particularly, that feature of it demanded by Governor Hughes which would result in double payment of personal income taxes during the first eighteen months. This feature, which the Governor fondly refers to as a "windfall", is certainly not that for either the laboring man or anyone else that pays income taxes. In the last analysis, I voted against the so-called property tax relief because, "There ain't no such thing as a free lunch" and the price of this particular lunch is set too high.

TOM RILEY.

EXPLANATION OF VOTE

A number of the appropriations bills contain unconstitutional delegations of power to the budget and financial control committee which has compelled me to vote against such bills although I favored the appropriations. My view in regard to the constitutional issue is based upon formal opinion of the Honorable Evan Hultman, Attorney General of Iowa.

LAWRENCE CARSTENSEN.

30 dent of the senate and five (5) of such members shall be appointed
31 from the house of representatives by the speaker thereof. Two (2)
32 of the members from each house shall be the majority and minority
33 leaders thereof. In selecting the other three (3) from each house,
34 one of which shall be a member of the minority party, emphasis
35 shall be placed on experience with the more important committees
36 but there shall be no requirement of service on any particular
37 committee. Vacancies on the council shall be filled in the same
38 manner as original appointments.

39 2. The purposes and functions of the legislative council shall
40 be:

41 (1) To study and consider matters of legislative concern
42 between sessions of the general assembly.

43 (2) To provide a research service for the general assembly and
44 for committees and members of the general assembly.

46 service for the general assembly.

47 3. The legislative council shall have the necessary authority
48 to carry out its responsibilities, including the following powers
49 and duties:

50 (1) To make surveys and studies, to review state laws, to hold
51 hearings, and to compile data and information on any research re-
52 quest which may be referred to it or on such other matters as in
53 its judgment should be considered.

54 (2) To select its officers and prescribe its rules of pro-
55 cedure.

56 (3) To appoint subcommittees to supervise or assist with
57 research, or for any other proper purpose, and to establish
58 policies and rules for the appointment, powers, duties, and

59 activities of such subcommittees. Subcommittees may include
60 members of the legislative council and other members of the
61 general assembly. In appointing subcommittees, it shall be the
62 policy of the legislative council to encourage participation by

65 the standing committees concerned with the matters being researched.

66 (4) To establish policies for the activities of the legis-

88 shall give priority to such requests in this order: requests by
89 the general assembly, by either house, by interim committees, by
90 standing committees, and by fifteen (15) or more members. Any
91 member of the general assembly may request spot research or other
92 minor research or code revision study. If the legislative council
93 determines that any request for research or code revision study
94 made by an individual member or fewer than fifteen (15) members
95 would involve major research or code revision study, such research
96 or code revision study shall not be undertaken until requested
97 as provided in this section. The legislative council on its own
98 initiative may undertake research or code revision studies.
99 Research reports shall not contain recommendations.

100 5. There is hereby created the office of director of the
101 legislative council. He shall be appointed by and shall be under
102 the direction and control of the legislative council. He shall
103 serve at the pleasure of the council and his compensation shall be
104 fixed by the council.

105 The legislative council's staff shall be composed of two divisions:
106 a division of research and a division of codification and bill
107 drafting. Both shall be under the general supervision of the
108 director, who shall employ the employees of the legislative
109 council, including a code editor, in such positions and at such
110 salaries as authorized by the legislative council. All employees,
111 including the director, shall be chosen on a nonpolitical basis.
112 The director shall assign all employees to duties in either or both
113 divisions in order to make the most efficient use of their services.

114 6. The legislative council or the director may call upon any
115 department, agency or office in the state, or any political sub-
116 division of the state, for such information and assistance as may
117 be needed in the performance of the duties of the legislative
118 council. Such information and assistance shall be furnished insofar
119 as the same shall be within the resources and authority of such
120 departments, agencies, offices and political subdivisions.

121 7. The responsibilities of the division of codification and
122 bill drafting shall be under the immediate supervision of a code
123 editor, who shall have the following powers and duties, subject
124 to the general supervision of the director and the legislative
125 council:

126 (1) He shall provide a bill-drafting service for members of
127 the general assembly and committees during sessions and in the
128 interim between sessions.

129 (2) He may, through the council, submit such recommendations
130 as he deems proper to each general assembly for the purpose of
131 amending, revising, and codifying such portions of the law as
132 may be conflicting, redundant, or ambiguous.

133 (3) He shall edit and compile the Code after each odd-numbered
134 session of the general assembly so that the same may be printed
135 as herein provided.

136 (4) He shall prepare the manuscript copy, and cause to be
137 printed by the superintendent of printing in each year in which
138 the Code is published, a volume which shall contain the permanent
139 rules and regulations of general application, promulgated by each
140 state board, commission, bureau, division or department, other than
141 a court, having state-wide jurisdiction and authority to make such
142 rules. The code editor may omit from said volume all rules and
143 regulations applying to professional and regulatory examining and
144 licensing provisions and any rules and regulations of limited
145 application. The code editor shall make reference in the volume
146 as to where said omitted rules and regulations may be obtained.

147 This volume shall be known as the Iowa departmental rules, and
148 any rule printed therein may be cited as I.D.R., giving
149 the year of publication and the page where the particular rule,
150 by number, may be found.

151 The code editor shall provide cumulative semiannual supplements
152 for insertion in the latest published volume and a place shall be
153 provided in the binding of said volume for insertion of such
154 supplements.

155 (5) He shall prepare the manuscript copy of all laws, acts and
156 joint resolutions passed at each session of the general assembly,
157 and arrange the same in chapters with comprehensive index and in
158 such manner that each chapter will show the number of the house
159 or senate file, and cause the same to be printed by the superin-
160 tendent of printing. In so doing, the code editor shall have the
161 right to the possession of the enrolled acts and shall have sole
162 charge of the editing and proofreading notwithstanding the pro-
163 visions of section sixteen point three (16.3) of the Code.

164 (6) He shall prepare and cause to be published every two
165 years a volume which shall by proper annotations show the con-
166 struction placed by the supreme court of this state and the

RECONSIDERATION OF SENATE FILE 461

Scherle of Mills called up for consideration his motion to recon-

sider the vote on Senate File 461, a bill for an act relating to the regulation and taxation of travel trailers, filed May 17.

Gittins of Pottawattamie moved to reconsider the vote by which Senate File 461 passed the House, which motion prevailed.

Gittins of Pottawattamie moved that the vote by which Senate File 461 was placed on its last reading be reconsidered, which motion prevailed.

Gittins of Pottawattamie offered the following amendment filed by Gittins, et al.:

Amend Senate File 461 by striking all after the enacting clause and inserting in lieu thereof the following:

Section one hundred thirty-five D point nine (135D.9), one hundred thirty-five D point ten (135D.10) and one hundred thirty-five D point twenty-one (135D.21), Code 1962, are hereby repealed and sections one (1) to five (5), inclusive, hereof enacted in lieu thereof.

Section 1. The owner of each mobile home shall pay to the county treasurer a semiannual tax as herein provided. However, when the owner is any educational institution and the mobile home is used solely for student housing or when the owner is the State of Iowa or a subdivision thereof, the owner shall be exempt from the tax provided herein. The semiannual tax shall be computed as follows:

1. Multiply the number of square feet of floor space each mobile home contains when parked and in use by seven and one-half cents. In computing floor space the exterior measurements of the mobile home shall be used as shown on the certificate of registration and title, but not including any area occupied by any hitching device.

2. The amount thus computed shall be the semiannual tax for all mobile homes for the first five years after the year of manufacture.

3. For the sixth through ninth years after the year of manufacture the semiannual tax shall be ninety percent of the tax computed according to subsection one (1) of this section.

4. For all mobile homes ten or more years after the year of manufacture the semiannual tax shall be eighty percent of the tax computed according to subsection one (1) of this section.

5. The semiannual tax shall be figured to the nearest whole dollar.

Sec. 2. There shall be exempted from the semiannual tax the manufacturer's and dealer's inventory of mobile homes not in use as a place of human habitation. All travel trailers shall be exempt from this tax. Mobile homes and travel trailers in the inventory of manufacturers and dealers shall be exempt from personal property tax. Mobile homes coming into Iowa from out of state shall be liable for the tax computed pro rata to the nearest whole month, for the time such mobile home is actually situated in Iowa.

Sec. 3. The semiannual tax provided herein shall be due and payable to the county treasurer semiannually on January 1 and July 1 in each year; and shall be delinquent February 1 and August 1 in each year, after which a penalty of five percent shall be added each month until paid. A mobile home parked and put to use at any time after January 1 or July 1 shall be immediately subject to the said taxes prorated for the remaining months or days of the tax period. Said tax shall be due and payable immediately, and delinquent thirty days after said parking and subject to the same penalties herein set out.

Each mobile home park licensee is hereby required to keep an accurate and complete record of the number of units of mobile homes harbored in his park, listing the owner's name, year and make of the unit and whether there is a current registration plate, and to report such information on or before the tenth day of each month to the county treasurer. The records of such licensee shall be open to inspection by a duly authorized representative of any law-enforcement agency. Any property owner, manager or tenant shall report to the assessor any and all mobile homes parked upon any property owned, managed, or rented by him.

The county treasurer shall report the name of any owner of a mobile home and the year, make, and serial number of each unit on which there is no current registration plate to the Iowa department of public safety. The motor vehicle registration division shall be the enforcement agency for enforcement of registration provisions.

The tax and registration fee shall be a lien on the vehicle senior to any other lien there may be upon it. The mobile home and automobile bearing current registration plates issued by any other state than the State of Iowa and remaining within this state for an accumulated period not to exceed ninety days in any twelve-month period shall not be subject to Iowa tax. However, when one or more persons occupying a mobile home bearing a foreign registration are employed, there shall be no exemption from Iowa registration and tax herein provided. This tax shall be in lieu of all other taxes general or local.

Sec. 4. The tax and any penalties provided by section three (3) herein shall be allocated to the school fund of the district wherein the mobile home is located.

Sec. 5. No mobile home shall be assessed for property tax nor be eligible for homestead tax credit or military service tax credit unless:

1. The mobile home owner intends to convert his mobile home to real estate and does so by:

a. Attaching his unencumbered mobile home to a permanent foundation on real estate owned by him. Encumbered mobile homes shall not be converted to real property.

b. Destruction or modification of the vehicular frame rendering it impossible to reconvert the real property thus created to a mobile home.

2. After converting a mobile home to real estate, the owner shall notify the assessor who shall inspect the new premises for compliance with the provisions of this section and if the mobile home is properly converted, the assessor shall then collect the mobile home vehicle title, registration, and license plates from the owner and enter the property upon the tax rolls.

Sec. 6. Section one hundred thirty-five D point one (135D.1), Code 1962, is amended by striking subsection one (1) and inserting in lieu thereof the following:

1. "Mobile home" means any vehicle without motive power used or so manufactured or constructed as to permit its being used as a conveyance upon the public streets and highways and so designed, constructed, or reconstructed as will permit the vehicle to be used as a place for human habitation by one or more persons; but shall also include any such vehicle with motive power not registered as a motor vehicle in Iowa.

Sec. 7. Section four hundred forty-one point seventeen (441.17), Code 1962, is hereby amended by adding thereto the following new subsection:

Measure the exterior length and exterior width of all mobile homes except those for which said measurements are contained in the manufacturer's and importer's certificate of origin, and report said information to the county treasurer. In the calendar year 1963, said duty shall be performed

between September 1 and November 30. Check all mobile homes and travel trailers for violations of registration and for inaccuracy of measurements as necessary or upon written request of the county treasurer and report such findings immediately to the county treasurer. If a mobile home has been converted to real estate the registration certificate, registration plates, and title shall be collected and returned to the county treasurer for cancellation. If the registration fees and any taxes due for prior years have not been paid, the assessor shall collect the unpaid registration fees and taxes due as a condition of conversion. It shall be the further duty of the assessor to make sufficiently frequent inspections and checks within his entire jurisdiction of all mobile homes and mobile home parks and travel trailers and make all the required and needed reports to carry out the intents and purposes of this section.

Sec. 8. Section three hundred twenty-one point one (321.1), Code 1962, is amended by striking subsection sixty-eight (68) and inserting in lieu thereof the following:

"Mobile home" means any vehicle without motive power used or so manufactured or constructed as to permit its being used as a conveyance upon the public streets and highways and so designed, constructed, or reconstructed as will permit the vehicle to be used as a place for human habitation by one or more persons.

"Travel trailer" or "camping trailer" means a vehicle without motive power used or so manufactured or constructed as to permit its being used as a conveyance upon the public streets and highways and so designed to permit the vehicle to be used as a place of human habitation by one or more persons. Said vehicle may be up to eight feet in width and any length provided its gross weight does not exceed forty-five hundred pounds which shall be the manufacturer's shipping or actual weight of the vehicle fully equipped, or any weight provided its overall length does not exceed twenty-eight feet. Such vehicle shall be customarily or ordinarily used for vacation or recreational purposes and not used as a place of permanent habitation. If any such vehicle is used in this state as a place of human habitation for more than ninety days in any twelve-month period it shall be classed as a mobile home regardless of the size and weight limitations herein provided.

Sec. 9. Section three hundred twenty-one point one hundred twenty-three (321.123), Code 1962, is amended by striking subsection three (3) and inserting in lieu thereof the following:

3. Mobile homes, regardless of whether or not they are used on the highways, except those in a dealer's or a manufacturer's stock not used as a place for human habitation, a semiannual fee of two and one-half dollars which shall not be prorated or refunded. The semiannual tax provided in chapter one hundred thirty-five D (135D) of the Code shall be paid at the same time that the registration fee is paid and the issuance of the registration certificate and plate herein provided shall be subject thereto. However, when the owner is any educational institution and the mobile home is used solely for student housing or when the owner is the State of Iowa or a subdivision thereof, the owner shall be exempt from the provisions of this chapter.

Travel trailers and camping trailers, regardless of whether or not they are used on the highways, except those in manufacturer's or dealer's stock, an annual fee of fifteen cents per square foot of floor space computed in the exterior measurements, but excluding any area occupied by any trailer hitch as provided by and certified to by the owner, which amount shall not

be prorated or refunded; except the annual fee for travel trailers or camping trailers, when registered in Iowa for the first time, shall be prorated on a monthly basis. The registrant of a travel trailer or camping trailer shall be issued a "travel trailer" plate. It is further provided the annual fee thus computed shall be limited to seventy-five percent of the full fee after the sixth registration.

If a mobile home, travel trailer or camping trailer, shall have been registered under the provisions of this chapter at any time during a calendar year, said mobile home, travel trailer or camping trailer, shall not be subject to a personal property tax for said year.

Sec. 10. Section three hundred twenty-one point forty-five (321.45), subsection one (1), Code 1962, is hereby amended by adding thereto the following:

For each new mobile home, travel trailer and camping trailer said manufacturer's or importer's certificate shall also contain thereon the exterior length and exterior width of said vehicle not including any area occupied by any hitching device, and the manufacturer's shipping weight.

Sec. 11. Sections one (1) to six (6), inclusive, and sections eight (8) and nine (9) of this Act shall become effective as of January 1, 1964.

Gittins of Pottawattamie offered the following amendment to the amendment and moved its adoption:

Amend the Gittins, et al., amendment to Senate File 461 of May 8, 1963, by adding thereto the following amendment:

EXPLANATION OF VOTES

A number of appropriation bills contain a provision that the budget and financial control committee is authorized to pass on the expenditures of funds appropriated by the full legislature. This power extended to the committee carries with it the power to deny expenditures, a power clearly ruled unconstitutional by the Attorney General in an opinion dated May 13, 1963.

To each of the bills carrying the provision I filed amendments to delete this unlawful power. Routinely and by wide margins the amendments were defeated. To the defense of my colleagues who voted to defeat them charity impells me to state that they must have been ignorant of knowledge of the opinion referred to above, for what legislator would openly flaunt the supreme law of the state in open violation of his oath of office? The seriousness of their action has generally not been recognized. But ignorance of the law is hardly a valid excuse for violating it. The same thinking

applies to the argument that the provision has been a part of many appropriation bills in the past. "We've always done it that way" is hardly a valid excuse for disregard of the law, once a ruling has been made on it by the chief legal and law enforcement officer of the state.

I deeply regretted having had to vote against appropriations for causes dear to my heart, such as those for the support of our state institutions of higher learning, but I could not do so without violating my sworn duty to uphold and defend the constitution of the state I so deeply love and respect.

'Every individual taxpayer subject to filing an Iowa income tax return shall make a separate accounting, on his tax return, of interest and dividends received during the tax year and forward to the tax commission, as a surtax, two (2) percent of the amount thereof. The provisions of this section shall not include the first two hundred (200) dollars of such interest and dividends for every individual taxpayer nor interest and dividends received on United States government securities, bank stock, insurance and annuity contracts, or on bonds or certificates issued by any municipality, board, commission or agency of the state, school district, drainage or levee district, river-front improvement commission or county within the State of Iowa. The amount of said surtax shall be paid at the same time and in the same manner as income taxes due on the tax return. The deductions provided for in section four hundred twenty-two point twelve (422.12) of the Code shall not be available against the surtax.

There is hereby created a permanent fund in the office of the treasurer of the state to be known as the Moneys and Credits Tax Replacement Fund and for the purpose of establishing and replenishing said fund for each fiscal year beginning July 1, 1964, there is appropriated thereto from funds in the general fund not otherwise appropriated an amount equal to the tax imposed upon moneys and credits computed at the rate of five (5) mills as placed upon the various county tax lists for the year 1963. The county auditor of each county shall certify the amounts of such taxes, computed at the rate of five (5) mills, imposed in his county for the year 1963 and deliver such certification to the state comptroller who shall draw warrants on the moneys and credits tax replacement fund in the amounts of such certifications, payable to the county treasurers of the various counties and mail said warrants to the county auditors. The proceeds shall be apportioned within the counties according to section four hundred twenty-nine point three (429.3), Code 1962.

"Sec. 10. Section four hundred twenty-six point one (426.1), Code 1962, is amended by striking from line nine (9) the word 'eleven' and inserting in lieu thereof the word 'twenty'.

"Sec. 11. There is hereby appropriated from the general fund annually for each year of the ensuing biennium to the department of public instruction, in addition to all other appropriations, the sum of eleven million dollars (\$11,000,000.00) for general state aid to the school districts as provided by chapter two hundred eighty-six A (286A) of the Code; provided, however, that no school districts shall receive financial aid under the provisions of said chapter of the Code in the event a school tax levy for the general fund of at least fifteen (15) mills was not made in such district for the preceding year.

"Sec. 12. There is hereby appropriated from the general fund annually for each year of the ensuing biennium to the department of public instruc-

tion, in addition to all other appropriations, the sum of one million dollars (\$1,000,000.00) for supplementary aid as provided by chapter two hundred eighty-six (286) of the Code.

"Sec. 13. There is hereby appropriated from the general fund annually for each year of the ensuing biennium to the department of public instruction, in addition to all other appropriations, the sum of one million dollars (\$1,000,000.00) for aid to handicapped children through special education as provided in chapter two hundred eighty-one (281), Code 1962, and the sum of five hundred thousand dollars (\$500,000.00) for vocational education aid as provided in chapter two hundred fifty-eight (258), Code 1962.

"Sec. 14. There is hereby appropriated from the general fund for each year of the biennium to a 'property tax credit fund', which is hereby created, the sum of twenty-four million dollars (\$24,000,000.00), or as much thereof as may be available, as computed by the comptroller, from (1) the total of the excess, if any, by which the unencumbered general fund balance exceeds sixteen million dollars (\$16,000,000.00) at the close of the preceding year, plus (2) the excess, if any, of estimated revenues for the ensuing year after providing for all other appropriations, including the apportionment of biennial appropriations between each year of the biennium. This property tax credit fund distribution shall be allocated each year to the several counties in the same proportion that the assessed valuation of real and personal property in that county for the preceding tax year bears to the total taxable real and personal property in the state for the preceding tax year. Not later than October 1 in the year 1963, and annually thereafter, the state comptroller shall certify to the county auditor of each county in the state the amount of money that will be allocated to that county the following year. The county auditor shall thereupon enter a credit against the tax bill of each taxpayer in said county, being the tax bill of the current year due and payable the following year, and the amount of said credit shall be in the same proportion to the total amount so certified to the county auditor by the state comptroller as the assessed valuation of such taxpayer's taxable real and personal property for the current tax year bears to the total assessed valuation of taxable real and personal property in that county for the current tax year. The amount of money so credited to the taxpayers of the county shall be distributed by the county treasurer to the several taxing districts of said county upon the receipts in the following year of the comptroller's warrant drawn on the property tax credit fund, the same as though the amount thereof had been paid to the treasurer of said county by the taxpayers of said taxing district.

"Sec. 15. The increase in tax provided for in sections two (2) and four (4) of this Act shall not apply to tangible personal property such as building materials, supplies and equipment, but not the constructors' own tools or equipment, used in the performance of a building or construction contract executed prior to the effective date of this Act.

"Sec. 16. If any provisions of this Act or the application of such provision to any person or circumstances shall be held invalid, the remainder of this Act or the application of such provisions to persons or circumstances other than those to which it is held invalid shall not be affected thereby.

"Sec. 17. This Act, being deemed of immediate importance shall be in full force and effect July 1, 1963, after its passage and publication in The Clinton Herald, a newspaper published at Clinton, Iowa, and in the Grinnell Herald-Register, a newspaper published at Grinnell, Iowa."

2. Amend the title by striking all after the word "Act" and inserting in lieu thereof the following: "relating to taxation, and an increase in sales and use taxes, corporation income tax, and taxing sleeping rooms and the repeal of moneys and credits tax and personal property tax and to levy a

STATEMENT OF LEGISLATIVE INTENT

It was our understanding and intent when we wrote the Den Herder-Worthington amendment to Senate File 437 that the result of the local option election should be binding on all areas and issuing authorities within the county which had voted. We also believe that those who voted for our amendment intended this to be the interpretation.

SAGA OF THE SIXTIETH GENERAL ASSEMBLY

A ballad by Paul Knowles

Let me tell the Saga of the Sixtieth G. A.
We started legislating on a January day.
We passed on Reapportionment, the old utility bill
We lived on steak and chicken just to do the people's will.

We gave them the needle, the factory packaged needle
and we gave them a good liquor bill.
We didn't pass a sales tax, an income
or a gross tax cause we thought that was the people's will.
So here's a bouquet to those who okayed a tax—
I mean the one on booze
So now lookout for the needle, the factory packaged needle,
IF you start to drink as you choose.

So long—Knowles of Scott
God bless you

98 being familiar with all the facts relating to the particular
99 property. Such market value shall be fair and reasonable based
100 on market value of similar classes of property.

101 "In the event market value of the property being assessed
102 cannot be established in the foregoing manner, then the assessor
103 may consider its productive and earning capacity, if any, indus-
104 trial conditions, cost, depreciation and replacement value, the
105 amount of insurance carried, obsolescence, and all other factors
106 which would determine the fair and reasonable market value of
107 the property; and upon adoption of uniform rules and regulations
108 by the state assessor for the valuation of such properties, said
109 valuation on such properties shall be determined in accordance
110 therewith for assessment purposes to assure uniformity.

111 "The property valued in the foregoing manner shall be assessed
112 as provided in section two (2) of this amendment.

120 listed on the tax list as provided in section four hundred forty-

121 three point two (443.2) of the Code as market value.

137 of review or appeal to the district court, the assessor shall
138 show cause why such protest or grounds of appeal shall not pre-
139 vail, and shall be substantiated by comparable and equal assess-
140 ments of other property or by such other information as may be
141 applicable to justify the assessment."

142 Sec. 15. Section four hundred forty-one point forty-five
143 (441.45), Code 1962, is hereby repealed and the following is
144 enacted in lieu thereof:

145 "The county assessor of each county and each city assessor
146 shall, on or before the third Monday in June, each year, make
147 out, certify to and transmit to the county auditor of their
148 county, an abstract of the assessed valuations of real and per-
149 sonal property, including moneys and credits, in his county or
150 city, as the case may be, which abstract shall be made on forms
151 to be prescribed by the state tax commission, and shall show data
152 or figures that may be required by law, and such other information,
153 as will be of use to and required by the commission in its capa-
154 city as such and constituting the state board of review, for its
155 consideration of the assessed valuation of real and personal
156 property in all counties of the state. The county auditor of
157 each county shall, upon receipt of the abstract from the county
158 assessor and from the city assessor, if there be such in the
159 county, proceed to make out, certify to and transmit to the state
160 tax commission on or before the first Monday in July, each year,
161 an abstract of the assessed valuations of real and personal prop-
162 erty, including moneys and credits, and showing totals for the
163 entire county, same to be based on the abstract certified by and
164 received from the assessors, and shall include such
165 other data or figures as may be required on such abstract by law,
166 or as may be required by the state tax commission for the use of
167 the commission in its capacity as such and constituting the state
168 board of review, as provided for in section four hundred forty-
169 one point forty-six (441.46) of the Code. The abstract for the
170 entire county shall be made on forms prescribed by the state tax
171 commission. In addition, the county auditor of each county shall
172 on or before August 1, each year, make out, certify to and trans-
173 mit to the state tax commission, a statement of the value of
174 property, real and personal, on which military service tax exemp-
175 tions were applied for and allowed by the county board of super-

visors in the same year of the abstract herein referred to, such certification as to military service tax exemptions to be made on forms prescribed and furnished by the state tax commission.

"In any case where a local board of review continues in session beyond June 1, in any year, under provisions of section four hundred forty-one point thirty-three (441.33) of the Code, the abstract shall be made out by the county assessor or the city assessor, as the case may be, certified to and transmitted to the county auditor within fifteen (15) days from the date of the final adjournment of said board of review, and the county auditor shall, upon receipt of the abstract from the county assessor, and from the city assessor, if there be such in the county, proceed to make out, certify to and transmit to the state tax commission the abstract for the entire county within fifteen (15) days from the date the assessor filed the abstract for his jurisdiction with the county auditor. Where the county board of review and the city board of review in any county both had extensions of time to be in session, the county auditor shall transmit the abstract for the entire county to the commission within fifteen (15) days from the date the last assessor's abstract is received by the auditor. The assessors and county auditors shall file the completed abstracts within the time specified herein to enable the state board of review to proceed promptly with its equalization work.

Sec. 16. Section four hundred forty-one point forty-eight (441.48), Code 1962, is hereby repealed and the following enacted in lieu thereof:

"The state board of review shall give ten (10) days notice by United States certified mail of its intention to add to or deduct from the valuation on any kind or class of property any proposed percentages, such notice to be sent to the county auditor of the county, or the city clerk of the city, as the case may be, whose valuation is proposed to be either raised or lowered, and said notice shall state the time and place that a hearing will be had before the state board of review on the tentative adjustment, such date to be no less than ten (10) days from the date of the notice. The county may appear by any of the members of the county conference board, the county assessor, the county auditor, members of the local board of review and the county attorney, and any city with a city assessor may appear by any member of its city conference board, the city assessor, the county auditor, members of the local board of review and the city and county attorney. Any protest to the tentative adjustment shall be made in writing and shall contain a statement of the reasons being urged why the adjustment should not be carried out. The state board of review shall hold an adjourned meeting and take final action with respect to all the valuations of property in all the counties and in all cities having a city assessor and shall promptly notify the county auditor of its final action."

Sec. 17. Section four hundred forty-one point forty-nine (441.49), Code 1962, is hereby repealed and the following enacted in lieu thereof:

"In any year where the state board of review finds it impossible to complete its equalization work by September 15 of that year, it shall order the adjusted valuations spread for the

231 first time in the year following. Upon receipt of the certifica-
232 tion from the state tax commission each year showing the final
233 action of the commission respecting the valuations on property,
234 the county auditor of the county shall thereupon add to or deduct
235 from the valuation of each kind or class of property in his
236 county the required percentage shown in the certification of the
237 commission, and shall reject all fractions of fifty (50) cents or
238 less in the result and count all over fifty (50) cents as one (1)
239 dollar. The adjusted valuations shall then be taken and considered
240 as the taxable value of the property upon which the levy shall be
241 made. The county auditor shall comply with the state tax
242 commission's directive or certification in the matter."

243 Sec. 18. Chapter four hundred twenty-one (421), Code 1962,
244 is hereby amended by adding thereto the following new section:

245 "Notwithstanding any other provisions of law, the assessed
246 valuation of property for purposes of levying of taxes as provided
247 by section four hundred twenty-one point seventeen (421.17) of
248 the Code shall not exceed the valuation to be listed and used as
249 a basis for distribution of any and all state funds for school
250 or other purposes which are based on assessed valuations.

251 "If any board of supervisors, city or town council, or school
252 board desires to increase its assessed valuations in excess of
253 that as determined by section four hundred twenty-one point
254 seventeen (421.17) of the Code, the question shall be submitted
255 to a vote of the people of the taxing district affected at any
256 regular election or any special election called for this purpose.
257 The question shall state the amount of the proposed rate of
258 assessed valuations as compared with the market or actual value
259 as provided by section four hundred forty-one point twenty-one
260 (441.21) of the Code and the percentage of increase above the
261 rate of assessed valuations as determined by section four hundred
262 forty-one point seventeen (441.17) of the Code. The assessed
263 valuations may be increased in excess of that as determined by
264 section four hundred twenty-one point seventeen (421.17) of the
265 Code for purposes of raising additional taxes or increasing
266 valuations for bonding purposes providing sixty (60) percent of
267 the voters voting at such election vote for such increase.
268 Neither this provision nor the provisions of section four hundred
269 twenty-one point seventeen (421.17) of the Code shall place any
270 limitation on or affect the validity of any bonds issued prior
271 hereto, or any levies for the taxable years 1963 or 1964."

STATE OF IOWA
Office of the Governor
Des Moines

HAROLD E. HUGHES
Governor

The Honorable Robert W. Naden,
Speaker of the House,

May 18, 1963.

House of Representatives,
Sixtieth General Assembly.

HONORABLE MEMBERS OF THE GENERAL ASSEMBLY:

I hereby acknowledge receipt of your official notification that the Sixtieth General Assembly stands ready to adjourn sine die, pursuant to Senate Concurrent Resolution 18.

This session of the Iowa General Assembly has been the longest regular session in our state's history. It also has been one of the hardest working sessions. In many areas, it has been most productive.

I want to take this opportunity to pay tribute to the devotion you have shown to your duties throughout this session. Although I feel there is a considerable amount of unfinished business remaining, you have a great many achievements to show for your labors.

You are to be commended for your action in passing a liquor control act the majority of Iowans favor, can respect and will obey. Many of you had to stand up against great pressure from segments of your constituencies to vote for what you thought was best for Iowa. You showed genuine statesmanship and your state, in years to come, will be thankful to you.

The enactment of legislation providing for state regulation of public utilities marks the culmination of 50 years of effort by the progressive forces in Iowa to legislate for the protection of the utility consumer.

Iowa will substantially benefit from legislation calling for mandatory testing of farm animals for brucellosis.

By authorizing an appropriation for a program of medical assistance to the aged you have made possible some relief from suffering for a large class of persons we have shamefully neglected for so many years—our elderly citizens who are not receiving Old Age Assistance payments.

The enactment of legislation permitting the investment of the operating funds of local governments represents a triumph of the public interest over narrow private interest. It will provide property tax relief of the most direct kind.

I hope the passage of legislation making discriminatory hiring practices unlawful will go far toward making available equal job opportunities for all Iowans.

Your action in allowing Iowa to join the growing ranks of states which have ratified the proposed Twenty-fourth Amendment to the U. S. Constitution was of national significance and was a necessary step toward securing equal voting rights for all qualified adults in our land.

The act to permit local communities to issue revenue bonds for industrial sites and buildings should make a significant contribution toward the economic development of Iowa.

The cities and towns of Iowa have been granted a measure of home rule that will free them from the shackles of state government while protecting the interests of local citizens. It is my hope that future Assemblies will complete this action by approving a home rule amendment to our State Constitution.

You have provided adequately for the needs of higher education, mental health and correctional institutions. Your action in increasing the benefits under the Iowa Public Employees Retirement System will lead to more just rewards for the faithful service of our governmental employees and to greater incentives for qualified persons to enter the profession of teaching.

However, I would be less than candid if I did not point out that I was disappointed at the Assembly's action—or failure to act—in a number of other vital areas.

No action was taken to protect our Interstate Highways from future encroachment by billboards.

A bill to abolish the death penalty was not allowed to come to a vote in the Iowa Senate even after it was passed by the Iowa House of Representatives.

With all due respect to many sincere legislators who felt the Shaff Plan was at least a step in the right direction, I do not feel that it meets the minimum requirements for a sound and equitable plan of legislative reapportionment.

It is a matter of deep regret to me that the Assembly did not see fit to provide adequate funds for some of our welfare programs, most notably the program for Aid to Dependent Children. Another serious omission, I feel, was the failure to enact improved legislation to protect the safety of our working men and women. It is also regrettable that the Assembly has failed to provide the reorganization our antiquated state government structure needs if it is to deal with the problems and challenges that economic and social change are bringing to Iowa.

This session has ended without an answer to the difficult problem of tax revenues and property tax relief. I know that a good many Legislators, as well as your Governor, did everything they felt was possible in a spirit of compromise to reach a solution. History will probably show that it was better to have no major tax bill at all than one which was inequitable.

One of the most serious omissions, in my view, was the Assembly's failure to enact legislation to equalize property assessments for taxation throughout the state. Such a measure is essential before any over-all solution to local property tax problems can be reached.

You have differed often among yourselves during this session. A majority of your membership has sometimes differed with me. But this is the sign of a healthy democratic system and is no cause for alarm.

I want to thank you for the many courtesies you have shown me during this session and give you the assurance, as you depart, that my office will be open to you in the months ahead any time you wish to discuss with me ways in which Iowa can be made a better state in which to live.

Very truly yours,
HAROLD E. HUGHES,
Governor.

STATEMENT BY THE SPEAKER

In reviewing the accomplishments of the Sixtieth General Assembly, I feel that the tremendous efforts of the individual members have paid off in results and benefits for the entire state. Every major problem was clearly studied and acted upon, sometimes enacted, other times rejected, but almost universally for the good of the people of our state.

Our greatest regret was probably in the area of fiscal problems at the local budget level, but I don't believe that the time spent in trying to work out property tax relief was in any way a waste of time. I believe that the numerous methods of raising the funds served to place additional emphasis on the problem.

However, it should be pointed out, with emphasis, that without increased state aid to the local school districts, or direct property tax relief in any other form, that increased local expenditures will be borne by property tax payers. At the present rate of increase, we can expect a fifty million dollar increase in local taxes during the next two years. This will place even greater significance on local budget hearings.

About one-third of the increase will be absorbed through growth in valuations in the communities, but the other two-thirds of the increase will be

represented in about a six mill average increase in millage rates over the next two years.

It is apparent to me that the time has come to overhaul our tax structure in Iowa. By doing this, we should divide the school costs between real property and income in the local community. This program coupled with the elimination of our tax exemptions in our present laws would unleash great opportunities for providing the industrial and business growth our state needs in order to provide jobs for the thousands of our youth leaving our state each year.

The broadening of the tax base for the local schools would enable us to eliminate the personal property tax across the board. This would include the monies and credits tax, the tax on personal household goods and the tax on farm, business and industrial inventories.

Contrary to the Governor's program of withholding tax, increased corporation taxes, and a surtax on interest and dividends, which would act as a drag on the economy of Iowa, this program would be instrumental in providing the investment capital and along with it the job opportunities so sorely needed in our state.

I sincerely hope that a committee under the legislative research committee will further pursue this study and will be in a position to recommend the broad changes needed to the the Sixty-first General Assembly in 1965.

GOVERNOR'S VETO MESSAGES ON HOUSE FILES

March 29, 1963.

The Honorable Robert W. Naden,
Speaker of the House of Representatives,
Sixtieth General Assembly,
State House,
Des Moines, Iowa.

Honorable Members of the House of Representatives:

House File 48, an act relating to the licensing and the annual inspection of county homes, is hereby disapproved and returned to the House of Representatives in accordance with Article III, Section 16, Constitution of the State of Iowa. House File 48 is disapproved for the following reasons:

This act would exempt the 83 county homes in Iowa from the licensing requirements that now apply to county homes and to all private nursing and custodial homes.

The county homes, therefore, would not be required to meet the minimum standards for health, safety and trained personnel now set by the State Department of Health and the State Fire Marshal.

I do not believe that such an act would be in the best interests of the 6,000 persons now living in county homes, of the taxpayers of the counties that have county homes or of the 17,000 persons now being cared for in private nursing and custodial homes throughout Iowa.

The minimum standards set by the Department of Health are reasonable and I can see no reason why county homes should not be required to meet them. At present, 739 private nursing and custodial homes—including 680 proprietary taxpaying facilities and 59 nonprofit institutions—are able to operate under them. Sixty-nine of these are in some stage of contemplated construction.

It is clear that the present laws, which were enacted after the tragic Council Bluffs nursing home fire in 1957, have neither retarded the growth of Iowa nursing homes nor made their operation impossible.

The Department of Health has not been overzealous in its enforcement of the nursing home laws. Only 7 of the 83 county homes have been licensed. The department has been mindful of the fact that it would not be in the best interests of the elderly of our state to insist upon strict compliance at an early date at the risk of forcing the closing of several county homes. We should now move toward greater compliance rather than abandon all efforts to upgrade the standards at our county homes.

The enactment of this bill, I fear, would have a bad psychological effect on the enforcement of the entire nursing home act. What are the operators of private nursing homes to think when the state government demands that their homes abide by certain standards? It would seem that the county homes should set examples of good practice and full compliance. I fear the incentive for trying to comply with standards will be undermined and the entire program will degenerate to a pure regulatory program rather than a program designed to upgrade care through education, technical guidance and encouragement to nursing home operators for self-improvements. The county home, which once housed primarily the indigents has changed its function in recent years.

Today the majority of its patients are the aged mentally ill. Many of these are persons with incurable, yet non-violent, mental illnesses who have been returned from state mental hospitals to be cared for in county nursing homes at a saving to the county taxpayers. These people are old, poor,

sick and often without family or friends. They are among the most helpless members of our society. I do not feel the state should withdraw its protection from them or lessen its concern for them.

Very truly yours,
s/ HAROLD E. HUGHES,
Governor.

June 17, 1963.

The Honorable Melvin D. Synhorst,
Secretary of State,
State House,
Local.

Dear Sir:

House File 156, an act relating to the imposition of the use tax and the retail sales tax and relating to exemptions therefrom, is hereby disapproved and, in accordance with Article III, section 16, Constitution of the State of Iowa, transmitted to the Secretary of State.

I cannot quarrel with the apparent intent of this measure to stimulate the sale of farm implements, automobiles and household appliances in Iowa. But the Sixtieth General Assembly, failing to agree on any major tax bill, has provided an extremely tight budget with which to operate the state government during the next two years.

The State Tax Commission has advised me that at the outset House File 156 would cost our state treasury an estimated \$1,730,000 annually.

The State Comptroller has cautioned that so great a revenue loss—or even half that figure—during the coming biennium might well deplete the state general fund balance beyond the danger point. I cannot in good conscience lend my approval to any action which appears likely to jeopardize the fiscal position of our state government.

It is with regret, therefore, that I must disapprove this bill.

Very sincerely,
s/ HAROLD E. HUGHES,
Governor.

GOVERNOR'S VETO MESSAGES ON SENATE FILES

April 3, 1963.

The Honorable W. L. Mooty,
Lieutenant Governor,
President of the Senate,
Sixtieth General Assembly,
State Capitol,
Des Moines, Iowa.

Dear Sir:

Senate File 1, an Act relating to controlled access highways, is hereby disapproved and returned to Senate in accordance with Article II, Section 16, Constitution of the State of Iowa.

A chief executive does not move lightly to disapprove a measure that has been passed by two successive sessions of the General Assembly. Obviously this legislation has the support of many thoughtful and sincere persons—both in and outside of the legislature. Obviously it reflects the fact that the State Highway Commission's policies relating to access control have been subject to serious criticism and that there has been substantial justification for this criticism.

However, after careful study, I have disapproved this bill because I am convinced it is in the public interest to do so. The implications of the bill are far from clear—and this fact in itself makes its desirability as legislation questionable. Moreover, after hearing the arguments on both sides, evaluating the facts and reading the legal citations, I became convinced that enactment of this legislation, whatever its intentions and justifications might be, would seriously jeopardize the future of our highway program in Iowa. Believing this, I had no choice but to exercise the veto.

Perhaps no single piece of legislation in the past two legislative sessions has aroused such strong feelings both for and against it in the General Assembly. The facts on both sides have been distorted at times by the emotions aroused and the controversy has been magnified in the news headlines. It has been more difficult than it should have been for anyone to arrive at an objective and dispassionate evaluation of the facts.

I want to make it entirely clear that some of the members of the Assembly whom I respect the most have supported this legislation. They have supported it because they feel that the Highway Commission's access control policies have impaired property rights along the highways and that the commission staff has been dictatorial at times in carrying out these policies.

Bluntly, I believe that the legislature's criticism is in certain important respects sound and justified. I simply do not believe that this bill is the proper answer. I am convinced that it goes too far.

In 1955, the Iowa Legislature wrote into the law of our state that access control "is necessary for the immediate preservation of the public peace, health and safety, and for the promotion of the general welfare." This act would repeal that declaration and would state in its place that "all owners or occupants of land abutting any street or highway have the right of free and convenient access" to such street or highway from such land.

The term "free and convenient access" is unquestionably one which would have to be defined by the courts, but this and other provisions of the bill raise a definite question as to whether the state highway authorities could prevent a property owner from building an unlimited number of driveways onto a road without excessive expenditures of state funds. A

property owner certainly should not be denied access from his property to a road, but the authority to restrict the owner to a reasonable access has been held to be legally sound and in the public interest.

The Supreme Court of Iowa has declared that owners of the land adjacent to the Interstate Highway System and other controlled access highways established on new locations have no right of direct access to the new road where none existed before. Senate File 1 would seem to create vested access rights along such new highways where there was no access before the road was built. It would be necessary for the state, at considerable expense, to acquire these newly created access interests along miles of the Interstate System and other important segments of our highway system in order to prevent congested development and cross traffic that would retard traffic movement and increase driving hazards. I have been informed that the Federal Government, under a long standing policy, would not participate in the cost of such acquisition.

There have been various estimates as to what this bill would cost the taxpayers of Iowa, and undoubtedly some of these estimates have been high. But there is no question in my mind that the cost would be substantial, running into millions of dollars. It is self-evident that state funds used to pay for created access interests could not be used for new highway construction or for improvements in existing highways. The expenditures would thus benefit a minority of property owners at the expense of the general public.

I believe that the deficiencies and grievances at which this act is aimed can be remedied by proper administration of our present laws. Last October, the Highway Commission revised its access control policies and attempted to correct those practices that were repugnant to the general public. Highway officials more recently have expressed a willingness to remedy any further deficiencies that are found to exist.

In conclusion, I want to clearly recognize the fact that the main intention of Senate File 1 is to protect the rights of individual owners along our highways. I am completely in accord with this goal. I simply feel that this bill has other, unintentional implications that conflict with the interests of the general public.

This does not mean that I would oppose legislation that would carry out this main objective without other results. Furthermore, I want to assure the General Assembly that I will clearly instruct the new Highway Commission which will take office July 1 to do everything possible at the administrative level to insure that property owners along our highways are not deprived of their actual access rights without just compensation.

Your very truly,

s/ HAROLD E. HUGHES,
Governor.

April 29, 1963.

The Honorable W. L. Mooty,
Lieutenant Governor,
President of the Senate,
Sixtieth General Assembly,
State House,
Des Moines, Iowa.

Honorable Members of the Senate:

Senate File 434, an Act relating to the confirmation of appointments by the Senate and eligibility of rejected nominees to interim appointments, is hereby disapproved and returned to the Senate in accordance with Article III, Section 16, Constitution of the State of Iowa.

The motives behind the passage of this are obvious. In the Senate, the bill was passed by a straight, party-line vote, all Republicans voting for its passage and one Republican member stating frankly that his motives in voting for the bill were "purely political." In the House of Representatives 68 of the 69 members voting for the bill were Republicans. No Republicans in the General Assembly voted against the bill. We cannot ignore the fact that, at the present time, a majority of the members of the Legislature are Republicans while the Governor is a member of the Democratic party.

Now, I believe it is a tribute to the fairness of the Senators this session that they have seen fit to confirm 33 of the 35 appointments I have sent to them for consideration. It has not been unusual in past sessions for the Iowa Senate to reject some appointments made by a Governor of the minority party. Nor has it been unusual for a Governor of the minority party to give interim appointments to persons rejected by the Senate. However, this bill was passed only after I had announced my intention to extend interim appointments to the only two appointees of my administration who have been rejected by the Iowa Senate. Both of these appointees are men in whom I have a high degree of confidence and they were refused confirmation for reasons unknown to me.

I do not believe a bill that would make such a far-reaching change in the structure of our government should be considered in a partisan atmosphere. I do not feel it is in the best interests of good state government to further hamper future Governors and future Senators in their endeavors to find qualified individuals to fill crucial state positions.

It is entirely possible that this bill could prevent many capable and qualified people from serving our state in future years. In 1957, two of the Governor's appointees who were twice rejected by the Senate were given interim appointments. They served so well that they won Senate confirmation two years later. The Senate this session confirmed the appointment of a man whom it rejected in 1959 and who, as an interim appointee, served with such dedication and competence that he won the praise of men of both political parties. If the law proposed in Senate File 434 had been in effect six years ago, our state would not have benefited from the services of these people. The Iowa Senate would not have had the opportunity to reconsider its previous judgment of these three persons on the basis of ability and dedication shown during interim appointments.

I would be inclined to be less critical of the legislation proposed in Senate File 434 if appointments of the Governor were debated and decided by the Iowa Senate in open session where the reasons and the votes for or against confirmation would have to stand the test of public scrutiny. The United States Senate has not debated and voted upon a Cabinet appointment in secret session since 1929. In that time, only one Presidential Cabinet

appointment has been rejected. As long as the Iowa Senate does not choose to make public its reasons for rejection of an appointee, however, I feel that interim appointments of persons who may have been rejected are both justified and necessary in the interests of good government for the State of Iowa.

This bill, Senate File 434, could lead to future deadlocks between Governors and Senates of differing political parties or political philosophies. It would permit a Senate to hamstring a Governor by rejecting all his appointments. It would, in my opinion, be an invasion by the Legislative branch of government upon the prerogatives of the Executive branch. It would enable a Senate to dictate to a Governor which persons he would have to appoint in order to get his appointments confirmed.

Both the Legislative and Executive branches of government must be strengthened in the years ahead to meet the problems and challenges of our changing and complex society. This strengthening must take place within the delicate system of checks and balances provided by the framers of the Constitution of the State of Iowa.

Senate File 434 is not a means to any of these ends.

Very sincerely,

s/ HAROLD E. HUGHES,
Governor.
