ELECTION OF SPEAKER

Vermeer of Marion presented the name of the Honorable Robert W. Naden of Hamilton County as candidate for Speaker of the House of Representatives of the Sixtieth General Assembly, preceding such nomination with the following remarks:

It is my privilege to place in nomination for Speaker of the House for the Sixtieth General Assembly, the name of the Honorable Robert W. Naden of Hamilton County.

Mr. Naden is now serving his fifth consecutive term in the Iowa House of Representatives. During his previous sessions he has served on many of the major committees with distinction, and during the Fifty-ninth General Assembly, he served as majority floor leader, demonstrating his ability of leadership.

As Speaker of the House, we can be sure that he will be firm and fair in conducting the business to come before this session.

Cunningham of Story seconded the nomination of Robert W. Naden for Speaker of the House, preceded by the following remarks:

I would like to second the nomination of Robert Naden, the gentleman from Hamilton, as the Speaker of the House for the Sixtieth General Assembly. I am sure all of us who have been associated with Bob Naden in several previous sessions know him to be a man of good judgment, a dedicated legislator whose leadership, I am sure, will be both acceptable and effective.

Eveland of Boone seconded the nomination and moved that the Chief Clerk be authorized to cast the votes of all the members of the House of Representatives of the Sixtieth General Assembly for the Honorable Robert W. Naden as Speaker of the House.

In accordance with the foregoing motion, the Chief Clerk cast the votes of all the members of the House of Representatives for the Honorable Robert W. Naden as Speaker of the House of Representatives of the Sixtieth General Assembly. The Honorable Robert W. Naden of Hamilton, having received all of the votes cast for the office of Speaker of the House of Representatives of the Sixtieth General Assembly, was declared duly elected to that office.

Kreager of Jasper moved that a committee of two be named to escort the Speaker to the chair.

Motion prevailed and the following committee was named: Kreager of Jasper and Scherle of Mills.

PRESENTATION OF SPEAKER

The Honorable Robert W. Naden was escorted to the Speaker's station and, upon being sworn, assumed the chair. Temporary Speaker Nelson presented Speaker-elect Naden with the gavel and congratulated him on his unanimous election. Speaker Naden thanked the House for the honor bestowed upon him and offered the following remarks:

CHAIRMAN NELSON, MEMBERS AND OFFICERS OF THIS HONORABLE BODY, AND LADIES AND GENTLEMEN:

I want to thank you for the honor that you have given me in electing me to the position of Speaker of the House of Representatives. I pledge to you that I will try to carry out the duties in a manner of fairness to all.

In talking with you individually, I have found a determined desire to attack the problems that lie before us and to come up with equitable solutions during the next hundred or so days.

In very few instances will the problems be solved easily. In our great State of Iowa, we have opposing views on nearly every topic of social conversation, let alone on the vital problems confronting us here. But, I'm confident that the Sixtieth General Assembly will provide the answers to many of these problems, including—

First—The raising of sufficient revenue to provide substantial property tax relief. Our best method of insuring growth for our state is to provide the tax structure and climate for the expansion of our free enterprise system. In order to have an expanding economy, we must make it possible for the merchant, the farmer, the professions, all of our business ventures to

seek a profit. These ventures must be profitable in order to provide even better salaries and wages for our people, and to provide for the investment capital needed for expansion. Substantial property tax relief is not only a desire but a must if we are to have this climate for growth in Iowa.

Second—We must help our local schools meet the challenge of providing a sound education for our youth. I believe that, to do this, we must provide a more substantial portion of the cost of education without further disrupting local authority.

Third—We must continue to provide adequate appropriations for education at the college and university level.

Fourth—We must provide funds to implement the Kerr-Mills Medical Aid for those persons in need of this assistance.

Fifth—We must continue to accept our responsibility of providing adequate institutions for our mental health, blind, deaf and handicap programs.

Sixth—We must all accept the responsibility of providing the proper laws and support for the various services rendered by our several departments, commissions and boards.

It is with a desire to assist you in meeting these and our many other problems that I accept the responsibilities that go with the honor of serving as your presiding officer.

It is my privilege to place in nomination the name of the Honorable Marvin W. Smith from O'Brien County as the Republican nominee for Speaker pro tempore. Mr. Smith has proven himself as a fine, capable legislator and the placing of his name in nomination for Speaker pro tempore is a real compliment to the Sixtieth General Assembly. I move that a unanimous ballot be cast for the Honorable Marvin W. Smith of O'Brien County for Speaker pro tempore of the Sixtieth General Assembly.

Edgington of Franklin seconded the nomination of Mr. Smith as Speaker pro tempore of the House of Representatives preceding his nomination with the following remarks:

It gives me great pleasure to second the nomination of Representative Marvin Smith as Speaker pro tempore of the House of Representatives. I have served three sessions of the legislature with him and regard him very highly, as a capable leader and legislator, and know he will do everything possible to have a very smooth running session.

Smith of O'Brien as Speaker pro tempore of the House.

orable Marvin W. Smith as Speaker pro tempore of the House of Representatives of the Sixtieth General Assembly. The Honorable Marvin W. Smith of O'Brien County, having received all of the votes cast for the office of Speaker pro tempore of the House of Representatives of the Sixtieth General Assembly, was declared duly elected to that office.

Hagie of Wright moved that a committee of two be appointed to escort the Speaker pro tempore to the chair.

Motion prevailed and the following committee was appointed: Hagie of Wright and Johnson of Audubon.

Mr. Smith was escorted to the chair and, after taking the oath of office, offered the following remarks:

MR. SPEAKER, MEMBERS OF THE SIXTIETH GENERAL ASSEMBLY AND FRIENDS: I would like to express my appreciation for the privilege afforded me for service in this General Assembly.

I feel we have a great challenge before us in meeting the problems confronting this session. Very essential to solving these problems is the matter of cooperation. First I should like to ask for cooperation for your Speaker and floor leaders who will be helping you formulate your program of action. You will need cooperation among your membership.

In the last copy of an Iowa professional magazine there appears an article dealing with the image of the Iowa legislature collectively and individually. I doubt that if in this session with its bi-partisan nature the members of either party can afford the luxury of statements or actions which will damage the public image of this legislature before the public has an opportunity to judge us. This past week a member of the Nebraska unicameral was asked over a TV program why there was dissension among certain quarters over committee appointments, his answer was, "We have thirty or so committees and forty-three members which is not enough to go around." In this respect our problem is greater because we have about the same number of committees and one hundred and eight members.

Last winter it was my privilege while traveling in the South to visit a number of state capitals, which has become somewhat of a hobby. Some of these states had called special sessions to consider or rather re-consider reapportionment. Most of them had adjourned without accomplishing their task, so of course it left bitterness and dissension. I learned from my visit that one party rule does not bring harmony, and as our Chief Clerk, Bill Kendrick, said when he returned from a like visit, "I came home with a greater respect for the decorum and business-like atmosphere in the Iowa legislature."

The Civil War era probably produced the greatest governmental problems in our nation's history, and by the hand of Providence also produced one of the nation's greatest leaders to guide us through the period. Not only did he have a nation divided against itself, but a Congress likewise divided and critical of its president. In his inaugural address to that Congress just one hundred years ago, Lincoln commenced by saying "With malice toward none—with charity toward all, with firmness in the right as God gives us to see the right, let us strive to finish the work we are in."

After a century this still seems to me to be good advice to Congress and all legislative bodies in our land. If we resolve to decrease our output of malice, increase our amount of charity to others and depend on the Al-

mighty to show us the right and to support the right with firmness, we will improve the image of the Iowa legislature and also improve the image of the State of Iowa.

COMMUNICATION FROM SECRETARY OF STATE

The following is a matter of record in the Chief Clerk's office:

IN THE MATTER OF THE ELECTION CONTEST FOR THE
OFFICE OF STATE REPRESENTATIVE OF LEE COUNTY, IOWA
State of Iowa
SECRETARY OF STATE
Des Moines

January 14, 1963.

Speaker, House of Representatives,
Sixtieth General Assembly of Iowa.

Dear Mr. Speaker:

Pursuant to the provisions of Section 59.5, Code of Iowa, 1962, I transmit herewith an envelope received in the office of Secretary of State on January 11, 1963, which has marked thereon the following:

"In the Matter of the Election
Contest in Lee County, Iowa
ADRIAN BRINCK,

Contestant
CHARLES O. FRAZIER,
Incumbent

STATEMENT OF CONTESTANT

CONTENTS: Statement of Contest".

Respectfully submitted,
MELVIN D. SYNHORST, *Secretary of State.*

BEFORE THE HOUSE OF REPRESENTATIVES OF THE SIXTIETH GENERAL ASSEMBLY OF IOWA

In the Matter of the Election
Contest in Lee County, Iowa.
ADRIAN BRINCK,

Contestant,
CHARLES O. FRAZIER,
Incumbent.

STATEMENT OF CONTESTANT

Comes now Adrian Brinck, contestant in the above entitled matter, and respectfully states to the Special Election Contest Committee:

I

That the contestant was a candidate for the office of State Representative in the general election held November 6, 1962, in Lee County, Iowa.

II

That in the semi-official returns of said election on November 6th, 1962, as returned to the County Auditor, the contestant was shown to have received 6,939 votes; that the incumbent was shown by said semi-official return, as returned to the County Auditor, to have received 6,829 votes; that on November 12th, 1962, the Board of Canvassers in said county in canvassing said election and in declaring the results thereof, shows the contestant to have received 6,671 votes and the incumbent to have received 6,678 votes; and by reason of said canvass declared the incumbent the winner of said election contest.

III

That the Board of Canvassers were guilty of mistake, and misconduct, in the procedure and conduct of the canvass of said votes and in declaring Charles O. Frazier the winner of said election contest in that:

a) Said Election Board permitted the judges and clerks of said election board in the Third Precinct to re-open the election materials of said precinct and in permitting the judges and clerks of said Election Board to recompute, recheck and re-certify their returns.

b) In permitting the judges and clerks of the Election Board in said precinct to have access to the poll books used in said election for the purpose of changing the tallies entered therein and the results shown thereby.

c) In that the Board of Canvassers were in error in failing to suspend the canvass of said election and set aside said election in the Third Precinct in Fort Madison and failing to order a new election therein as required by Section 50.8 of the 1962 Code of Iowa, in that it appeared from the records of the judges and clerks of said Election Board of said precinct that the ballots cast for all offices exceeded the number of voters in the poll list.

d) That all of the foregoing affected the results of said election.

IV

In addition thereto, illegal votes were received and legal votes rejected at the polls in various precincts sufficient to change the result of said election in that there were errors made in counting so-called "straight ballots" and in counting ballots with so-called "switch-overs."

V

That this Contestant on the 27th day of November, 1962, served notice of intent to contest said election on the incumbent, Charles O. Frazier, as shown by his statement and return of service thereon, which is attached hereto and made a part hereof.

That the errors above stated and the errors in receiving, counting, certifying and canvassing the votes in said election for the office of State Representative from Lee County, Iowa, were, and are, sufficient, when

corrected to change the result of the election to said office and would show this contestant to be elected to said office.

Respectfully submitted,
s/ J. FRANCIS PHELAN,
Attorney for Contestant,
516 Seventh Street,
Fort Madison, Iowa.
Phone DR 2-2532.

2. That the Board of Canvassers in counting the votes and in declaring the result of the election made substantial errors which would affect the result of said election.

That the Board of Canvassers committed error in failing to suspend canvass and set aside the election in said 3rd precinct in Fort Madison and order a new election therein as required by Section 50.8 of the 1962 Code of Iowa since it appeared from the records of said precinct that the ballots cast for all offices exceeded the number of voters in poll lists, which error affected the result of the election.

STATE OF THE STATE MESSAGE

By Governor Norman A. Erbe
Tuesday, January 15, 1963

LIEUTENANT GOVERNOR MOOTY, SPEAKER NADEN, MEMBERS OF THE SIXTIETH GENERAL ASSEMBLY, LADIES AND GENTLEMEN:

State government is big business, in fact the biggest in Iowa today. Its functions reach into the lives of every one of our citizens, and by the same token its sustaining revenues are found through a tolling of each of our taxpayers.

Because of these omniscient effects of state government, coupled with the ever important ramifications of revenues as they relate to our overall economic well being, it is good that periodically we review those accomplishments of the recent past and in turn set goals for the future of Iowa.

Although I will not be acting as your Chief Executive in the next two years, you may rest assured that as a citizen of Iowa I will have intense interest in your discussions and decisions. You have my every good wish for success.

I am pleased to report to you today on some of the accomplishments of this administration. Efficiency and economy coupled with a progressive spirit has been the watchword. Administrative costs during these two years have risen only 4 percent compared to an appreciably higher gain in our state's economic level.

All Iowans can look with pride upon work of the Fifty-ninth General Assembly which with no increase in taxes accomplished the following:

- (1) Increased state aid to schools 25 percent.
- (2) Increased the agricultural land tax credit 7 percent.
- (3) Increased the appropriations for the Board of Regents 14 percent plus \$20.8 million for new buildings and improvements at those institutions.
- (4) Granted the Conservation Commission \$2.1 million to develop recreational areas and improve state parks along the Missouri and Mississippi Rivers.
- (5) Increased the state's mental hospitals funds 11 percent.

Also, in a far-sighted move that brought national attention to Iowa, the legislature passed a reapportionment amendment and redistricted the Iowa Senate for the first time in 60 years.

In June of 1962 the citizens of Iowa established a milestone in progressive government by ratifying the Judicial Reform Bill which had been submitted to them by the Fifty-ninth General Assembly, thereby causing the selection of judges to be placed on a basis of qualifications only.

Iowa cities are now permitted to participate in the federal housing programs because of legislation passed last session.

Also the Fifty-ninth General Assembly changed the formula for distribution of road use tax funds, increasing the share of this fund for cities and towns by 62½ percent.

These examples of progress and stewardship of government are but a few for which all of us—legislators, citizens, and taxpayers—can share a genuine feeling of a job well done.

I would also like to review with you today some of the activities of various areas of state government during these last two years.

FINANCES

The State Tax Commission reports that it estimates a healthy 7 percent increase in revenue for the biennium ending June 30, 1963, as compared to that ending June 30, 1961. This is due in part to the vigorous economy of our state permitting a steady growth, coupled with greatly improved administrative and collection practices. Significant among these improved methods has been the adoption of data processing procedures which enables significant advances in accounting methods, permits firm control of department budget procedures, makes available to the legislature up-to-the-minute accurate fiscal information and allows closer auditing of the tax rolls. Also, the information exchange agreement with the Federal government premised on data processing equipment promises to bring increased revenues through greater knowledge of tax accounts. It is estimated that on June 30, 1963, there will be in the State Treasury an unencumbered balance of \$20,998,000.00.

Along with added revenues the State's economic position improves through greater efficiency in our various departments. Consolidation of services in the Treasurer's office, Comptroller's office, and Tax Commission will mean better administration and increased benefits to the citizens of Iowa.

Since being placed under an appropriated budget on July 1, 1961, and since streamlining its operations, the Iowa Liquor Control Commission has reported a net profit of well over a million dollars more than that of the previous fiscal year.

EDUCATION

As a result of your appropriation of the last session, the Board of Regents institutions have launched the greatest building program in history. These funds will provide for the future needs of our young people as they reach college age. Salary increases, strengthening of existing programs in

teaching of the deaf and sightless as well as outstanding progress in the discovery and teaching of new knowledge at our universities all have contributed to keeping our institutions of higher learning among the leaders in the nation.

Through your passage of enabling legislation during the Fifty-ninth General Assembly our secondary school students are receiving the benefits of a fine program of technical education.

Iowa proudly maintains its position of leadership in the percentage of literacy among its people. This has been possible through the years because of your continuing interest in all phases of education and the help of numerous study committees and dedicated educators and teachers throughout our state.

ECONOMIC DEVELOPMENT

During my administration the Iowa Development Commission has made great strides in a progressive new approach to development of *all* areas of the economy of our state. Coordination of efforts and cooperation with our universities, engineering schools, research activities within and without the state as well as a continuing program of working with existing industries and attracting new ones has brought a greater fulfillment of the broad scope of duties assigned to that agency by your body. We all know the work of this vitally important state agency has but scratched the surface of the wonderful potential for developing and promoting the innumerable advantages of our great State of Iowa.

HEALTH AND WELFARE

Iowa, as you know, now ranks first in the per capita number of people over the age of 65. Your body wisely authorized the implementation of the Kerr-Mills program during your last session and now that you have the cost experience from other states to guide you, it is essential that funding for this vitally important program be provided during this session.

In my frequent attendance at mental health meetings throughout the country I pridefully noted the top comparative status of Iowa in our programs for treatment as distinguished from custodial care of the mentally ill. At the present time we have the largest number of psychiatrists staffing our institutions in the history of our state and we have a nationally envied mental health program of which we can justly boast.

Assisting in the interest and development of our program for mental health has been a dedicated Governor's Committee on Mental Health whose members have given unstintingly of their time and effort to present their views to the Board of Control and to your body.

HIGHWAYS

My service in state government started eight years ago as attorney for the Highway Commission. I have carried with me down through these years a deep and abiding respect for the outstanding work of the dedicated employees of that Commission as well as a lasting interest in their work. During these last two years a new program of curb removal was added to the existing fine work of highway construction and maintenance. One hundred six miles of curb have been removed from our highways and the balance of 274 miles of curbed highways is scheduled for correction during 1963. Work on the interstate system and realignment of other major traffic arteries is progressing as fast as funding will permit.

AGRICULTURE

Iowa has of course maintained its national superiority in the field of agricultural production with our abundant resources of Grade-A land and

most important our outstanding farmers who make this great utilization of our soil possible. Our best efforts of production have been and must continue to be coordinated with the marketing of these products and a greater use of the products we raise. The marketing division of the Department of Agriculture and the Governor's Committee on Agricultural Products Utilization have done outstanding work in their areas to insure the continuance of our great agricultural economy in Iowa.

MILITARY AFFAIRS AND CIVIL DEFENSE

Since the adjournment of the Fifty-ninth General Assembly a portion of our national guardsmen and reserve forces were called into active military service. I am proud to report to you that while visiting them at their duty stations I heard nothing but the highest praise of their state of training and representation of the people of the State of Iowa while on active duty. Nine months ago the military, in a coordinated operation, prevented possible loss of life and great property damage in their work at the time of the spring thaws following the unprecedented snow cover. Reorganization of the national guard is being accomplished from a realistic standpoint making maximum use of the armories in this state as well as the training background of its members.

The Civil Defense Administration has moved into high gear with aggressive organizational work throughout the state, a program of identification and marking of public shelters, and a physical move of its headquarters to the sub-basement of the State Office Building.

Time does not permit me to share with you all of the examples of progress and fine stewardship accomplished by the state departments and agencies during these last two years. I would, however, like to invite your attention to the fact that during this two-year period recognition ceremonies were held for long-time employees of the State of Iowa and at that time certificates were presented to 1,282 employees with service of over 25 years in length. This fact is indeed a fine example of dedicated public service by long-time employees who are the strong backbone for efficiency in carrying out our state programs.

I would next like to discuss with you some legislative proposals which I am convinced are in the best interests of Iowa's great future:

1. The members of the Executive Council should be appointed by the Governor, enabling a working cabinet of responsibility for the administration. The attorney general should be appointed by the Supreme Court for a fixed term of years.
2. The terms of the Governor and Lieutenant Governor should be fixed at four years enabling the Executive to propose his programs and see them through.
3. Legislation authorizing staff, office and supplies for a Governor-elect between election and inauguration should be adopted.
4. There should be annual sessions of the General Assembly with the additional session restricted to budgetary and fiscal matters. As I am sure you all know there is insufficient time during our biennial session to properly provide for the state's legislative and fiscal matters.
5. Mandatory revaluation of property on a common basis in the state should be directed by the legislature so that the state aid programs have a sound and fair basis for distribution.
6. The three-man boards in the Tax Commission, Commerce Commission, Liquor Commission, Board of Social Welfare and Board of Control should be replaced by a single administrator responsible to the Chief Executive. Since, as has historically been true, the Governor

has the responsibility for their programs, he should have the authority which will permit him to be responsible for them.

7. A utility commission with a single head should replace the Commerce Commission, transferring the warehouse inspection duties to the Department of Agriculture and adding the significant duties of utility regulation.
8. A fair employment practice measure should be adopted to eliminate prejudices which exist because of race, creed or color.
9. A permanent continuing commission on local government should be established to provide greater liaison between the state and lesser political subdivisions, to assist in discharging the responsibility of the state to local government and to provide continuous attention to state-local matters for the future of the State of Iowa.
10. A permanent code revision office should be established to assist the legislature in analysis of our laws, eliminating some and correcting inconsistent laws.
11. The report of the Little Hoover Commission should be carefully reviewed and its recommendations for the consolidation of state agencies and departments under cabinet heads should be implemented.

These are but a few illustrative changes which would provide a solid and sound basis for the growth and promise which is surely ours in Iowa if we have but the foresight to provide and prepare for the great future which lies ahead.

In the broad areas of interest for consideration and resolution by this Sixtieth General Assembly there are, it seems to me, three which are of vital importance to the future of our state:

1. Education including the state aid programs for our secondary schools and the appropriations including capital authorization for the Board of Regents.
2. The Social Services of the state including the welfare programs, the care of our retarded and mentally ill citizens as well as attention given to unemployment, retraining, and minority groups in our labor market.
3. The expansion of Iowa agriculture and Iowa industry through research and development and promotion of our state so that we may continue to maintain a strong economy.

All of these are of vital concern to the individual citizens of our state and each of them are looking to you for solutions in these areas of interest during this session of the legislature. I am confident that your work during this session will be the most productive in decades of Iowa legislative history.

As I leave you now I want you to know that my finest memories will be those of my associations with you and the dedicated state employees with whom I have had the privilege of serving. My wife, Jackie, our daughters, and myself are pleased to make Iowa our continued home since we love our state very much.

My best wishes go to Governor-elect Hughes, the officers and employees of our state, the members of the legislature and citizens everywhere. God bless each of you. Goodbye.

REPORT OF THE BUDGET AND FINANCIAL
CONTROL COMMITTEE

TO THE PRESIDENT OF THE SENATE, THE SPEAKER OF THE HOUSE OF REPRESENTATIVES, AND THE MEMBERS OF THE SIXTIETH GENERAL ASSEMBLY OF THE STATE OF IOWA:

The Budget and Financial Control Committee of the Fifty-ninth General Assembly herewith submits the following report and recommendations.

The Committee made annual visits to the institutions under the Board of Regents, the Board of Control, and also visited many of the projects under the State Conservation Commission. The General Assembly gave this Committee the duty of releasing funds appropriated by the legislature for capital expenditures when, in this Committee's judgment, it was for the best interests of the State of Iowa, and to carry out the intents and purposes of the legislature. In our best judgment, such a policy has been followed in making every allocation or release of funds.

We recommend for the consideration of the Sixtieth General Assembly the following subjects:

ADMINISTRATION

Auditor

Put Auditor's per diem men on salary plus expenses.

Data Processing

Set data processing up as separate agency, consolidating all data processing into one agency, and with a confidential status.

Executive Council

Amend Chapters 19.7 and 19.29 so that council cannot pass resolutions for operating expense, with the understanding that realistic appropriation be made to the Executive Council.

Highway Commission

Put Highway Commission administration in the appropriation act.

Judiciary

Continue work on pre-sentencing.

Further co-ordination of Judiciary, Board of Parole, Board of Control and Social Welfare.

Printing Board

Eliminate printing of Academy of Science out of state funds.

Public Instruction, Department of

Create an appointive board of State Department of Public Instruction.

Public Safety

Point system, as now being used, be reviewed.

Notification of expiration of license be reinstated.

Supreme Court

Combine office of Clerk of the Supreme Court and Reporter of the Supreme Court.

Tax Commission

Recommend that the Tax Commission work toward end of equalization of assessment, and if strengthening legislation is needed, submit same to Sixtieth General Assembly.

Abolish the Tax Commission Revolving Fund.

Abuses of exemptions on real and personal property are acute and the legislature should study ways of curbing this.

CONTROL, BOARD OF

Recommend that the Sixtieth General Assembly appropriate funds to complete purchase of Riverview Farm.

Take care of extreme cases regardless of county quota.

LEGISLATURE**Rules Committee**

Study procedure of handling all proposed committee bills, with particular attention focused toward making legislative members and public aware of the particular bills before they are voted out of committee.

Legislative Service Agencies

Review should be made to determine whether there should be a consolidation of Legislative Research Bureau and Code Editor, or any other legislative services.

REGENTS, BOARD OF

In an effort to reduce the time involved in committee hearings and to increase their effectiveness, and to improve communications, we invite the Board of Regents to install their audio-visual aids and devices in a legislative committee room, in order to demonstrate the value of such procedures.

GENERAL**Architects**

We suggest that a type of procedure should be used to choose architects for future capital improvements, as is used in industry.

Invitations should be issued by the respective agency to architects, not limited to those from Iowa, for architectural proposals, including preliminary planning, engineering fees, drawings costs and uniformity of design. Particular effort should be made to get architects well known in the particular field of building for which state monies have been appropriated. Choice of the architect should be based on excellence of proposed design.

Car Pool

Have car pool, or a few state cars spotted at Capitol, Harvester Building and State Office Building; supervised by Car Dispatcher.

Psychiatrists

Recommend that a study be made with regard to training of all psychiatrists being done at the University of Iowa.

The work of the Committee has been expedited by the excellent cooperation from the various boards and state departments.

The Fifty-ninth General Assembly appropriated \$1,250,000.00 to the Budget and Financial Control Committee for release in accordance with

the provisions of Chapter 51, Acts of the Fifty-ninth General Assembly.

On December 31, 1962, the sum of \$832,294.08 remained in this fund.

Respectfully submitted,

On the Part of the Senate.

SENATOR JOHN D. SHOEMAN, *Chairman.*

SENATOR GEORGE O'MALLEY.

SENATOR GEORGE L. SCOTT.

SENATOR ANDREW FROMMELT.

SENATOR CLIFFORD M. VANCE.

INAUGURAL MESSAGE TO THE SIXTIETH GENERAL ASSEMBLY
By Honorable Harold E. Hughes, Governor of Iowa
Joint Session, January 17, 1963

MR. PRESIDENT, MR. SPEAKER, MR. CHIEF JUSTICE, SENATORS AND REPRESENTATIVES, STATE OFFICIALS, DISTINGUISHED GUESTS, LADIES AND GENTLEMEN:

Let me say at the outset that I am deeply appreciative of the warm reception I have been accorded here today. As I look about this historic chamber and reflect on the years of distinguished service to the state represented by the personages in attendance—the members of the assembly, the high officials of the judiciary and the executive branch—I am awed as well as profoundly honored to be addressing you for the first time in the capacity of the chief executive of this great state.

As we meet, the question uppermost in the minds of the citizens we represent is whether or not you of the legislature, with a very substantial Republican majority, and I, the Democratic governor, can work together to develop a constructive legislative program for the good of the state.

As I see it, we have no choice—if we are to keep faith with our oaths of office. Our constitution states that "all political power is inherent in the people." The people of Iowa elected a Democratic governor. They

elected a large Republican majority in both houses of the Assembly. They expect us to do our jobs regardless of party labels.

I have read statements by the distinguished leaders of the House and Senate and have received personal assurances from numerous individual legislators indicating a willingness to cooperate toward constructive goals in the public interest. I accept these statements in good faith—and I hereby pledge to the members of the General Assembly and to all of the people of Iowa that I, myself, will allow neither personal prejudice nor divisive partisanship to deter me from any reasonable effort to work with the majority and minority parties in the legislature for a program that will keep faith with the will of the people as expressed on last November 6.

Throughout the legislative session, the schedule of my office will be set up to assign first priority to conferences with members of the Assembly at such times as the legislative leaders, committees or individual members may desire to meet with me. In short, the door of my office will be open to you at all times; our facilities will be at your service; and I will meet you at any and all times in an atmosphere of good will and cooperation.

We have recently been through an arduous political campaign. In a campaign, it is fitting and proper that we should emphasize our opposing points of view, as candidates and as political parties, so that the voters may make an informed choice at the polls.

Yet, now that the campaign is over and we proceed to the constructive tasks of legislation and administration, it is worth noting that the differences that divide us as partisans are small by comparison with the common ground that unites us as fellow Iowans. We all want a better, more progressive, more prosperous Iowa. To attain it, we must seek both unity and continuity in government.

Governor Erbe has been most gracious and cooperative in assisting me to effect an orderly transition in administrations. I am very grateful, indeed. In the same spirit, I can assure you that I do not intend to set aside any constructive accomplishments of his years in office simply because of a change in administration.

Although gallantry is not precisely my long suit, I would like to extend a special greeting to the ladies whose presence adorns this session of the Assembly. Your being here attests to the increasing importance of women in the public life of our state and your talents, I am sure, will contribute greatly to the constructive accomplishments of this session.

While it is not leap year, I think it is also my duty to call the attention of the unmarried ladies throughout Iowa to the unusual supply of eligible bachelors among the members of the Sixtieth General Assembly. After all, the shoring up of our population growth is an important element in the economic development of the state.

In addition to submitting to you certain specific recommendations for legislation in this message, I would like to communicate to you, in the interests of better understanding, something of my basic intentions with reference to the new administration. These intentions reflect a broad philosophy of government which, I hope, will fall—at least in part—in the area of the common ground to which I referred earlier.

When I first commenced work for the state government, following my election to the Commerce Commission in 1956, I experienced a frustration that I am sure many others have experienced before me. I could see any number of changes that needed to be made to improve the operation of the commission—ordinary, common sense improvements that any qualified business executive would regard as self-evident.

But at every suggestion of change, I was told that "it couldn't be done."

It most cases, the reason given was that the proposed move was out of harmony with long-standing custom, law or legislative intent.

So, in exasperation, I said to my staff: "Your job is not to look for reasons that we *can't* effect these administrative changes that make sense and are clearly in the public interest. Your job is to help get them done—unless they are actually prohibited by law." And we did get the job done—so far as I know without violation of the law or damage to legislative intent.

The point I am making is that the hand of the past lies heavy upon many of the departments of state government. Because certain basic improvements have not been made through the years, it is assumed that they can't be made. The tendency is to wait for new legislation or full-scale governmental reorganization before making necessary administrative improvements.

Elsewhere in this message, I will make reference to certain needs for reorganization of the state government. But in the meantime, I want to point out that I consider it the administration's duty to get the best performance possible out of the existing machinery of government, to cut through inertia and red tape, and to effect sensible changes and modernizations that will result in greater efficiency and economy.

In short, the keynote of our approach will be to realize as fully as possible the potential that exists in the present framework of government and to use with initiative and prudence the authority that our constitution and statutes have placed in the hands of the executive.

ECONOMIC DEVELOPMENT

In the past decade there has been a steady, encouraging progress in the state's economic development. Yet, every thinking citizen knows in his heart that we haven't fulfilled the rich potential for growth in Iowa.

According to predictions of the Census Bureau, Iowa's population will increase by only 5 percent between 1960 and 1970, compared with an expected nationwide gain of more than 19 percent. In other words, 46 of the 50 states will grow faster than ours. I believe it is within our power to change the pattern of these forecasts.

We have tended to place our faith in methods and gimmicks, in get-rich-quick schemes for developing our state, and too little faith in basic community improvement and over-all planning.

We have failed to grasp the fact that Iowa is essentially one big community—rural and urban people, industry and agriculture, labor and management, with all of its components depending upon one another for their well-being.

What is good for agriculture is good for the entire state; along the same line, the growth of industry affects the well-being of all of our citizens. Progressive cities—with good streets and parks and schools—enhance the advantages of rural living. Well-kept, prosperous farms, good county government and roads are a blessing to urban citizens. To create jobs, we need bold and venturesome capital. To make industry and business flourish, we need a steady, dependable labor supply. We all depend on one another. We need to plan together and work together to prosper together.

To achieve these objectives will require the concerted leadership of the best talent in both political parties. Among the specific recommendations I would make concerning Iowa's economic growth are these.

First, I propose a substantial strengthening of the Iowa Development Commission along the general lines recommended by the Citizens Committee for Industrial Growth in Iowa.

Second, I ask the General Assembly to give serious consideration to

legislation for financing industrial development, including legislation to permit communities to issue revenue bonds for industrial sites and buildings.

Third, I recommend that the moneys and credits tax be reviewed thoroughly to eliminate features which are considered inequitable, illogical and a deterrent to the state's industrial growth.

Finally, we need to further bold new programs of research. We need a stepping up of scientific research to develop new uses for agricultural products. And there is an equal need for economic research and analysis—studies of raw materials, products, by-products, adaptation studies for industry, income studies, manpower surveys and many more.

The facilities of our great universities should be utilized to the fullest extent in a new all-out emphasis on research in Iowa.

PUBLIC SCHOOL EDUCATION

School district reorganization in Iowa has shown significant and commendable progress in recent years. However, the fact remains that only 10 states have more school districts than Iowa. It is clear, therefore, that efforts toward further school reorganization must be continued.

In my budget message, I will recommend an increase in state aid to local school districts. I would like to make it clear that I oppose any distribution plan which penalizes local districts for the support of their schools or rewards them for non-support.

In principle, I favor the so-called "foundation plan" which would establish a permanent formula for distributing general and supplemental aid and would insure an adequate sum to educate each public school pupil in the state. However, if, in the face of current revenue demands, the legislature considers it impracticable to institute the "foundation plan" at this time, I would recommend that steps be taken to set the stage for enactment of the plan in the next session.

HIGHER EDUCATION

One of the gravest responsibilities of the Sixtieth General Assembly is to provide wisely for our institutions of higher learning so that Iowa can attract and retain the highest caliber educators in these institutions, in order that they can keep up with the need for modern equipment and research facilities, and to enable them to meet the need for additional classrooms to accommodate expected increases in enrollments.

I am convinced that the time has come when we should face the long-recognized need for a long-range program of capital improvements for these institutions. I will give my unqualified support to any sound plan of financing, such as revenue or general obligation bond issue, which have been suggested in the past.

The frenzied public demands for crash programs in education, following the launching of the first Sputnik, have not abated. But thoughtful citizens realize that the vital need for strengthening our educational system on all fronts is greater than ever.

GOVERNMENT REORGANIZATION

In general, I am in support of most of the recommendations made in 1950 by the Governmental Reorganization Commission commonly known as the Little Hoover Commission, and the Commission on Economic and Social Trends of 1958.

Among the recommendations of these forward-looking commissions, I would particularly point out the advocacy of four-year terms for elective

state officials and the recommendation for item veto of legislation by the governor—especially in appropriations bills.

I recommend the immediate establishment of a non-political civil service for the state government so that we may attract and retain the able, competent and efficient personnel so desperately needed in public service.

However, I do not favor the substitution of one-man directorships for present commission, such as the Conservation and Commerce Commissions.

CONSERVATION

There is no department of state government in which I have a greater personal interest than Conservation. While I have no major legislative recommendations to offer in this field at the present time, I feel that the organization of the Conservation Department can be substantially strengthened.

I am principally concerned that the state conservation program should be brought more closely in line with the needs and desires of the people of Iowa.

One legislative recommendation I would like to make is that hunting and fishing licenses be provided without cost to Iowans who are 65 or over.

HIGHWAYS

The enactment of a new formula for the allocation of the road use tax by the Fifty-ninth General Assembly was a significant step forward toward the equitable distribution of these funds. I do not recommend a change in the allocations at this time.

A great deal of light was cast upon our over-all highway program by the reports of the Iowa Highway Study Committee to the Fifty-ninth Assembly. It is my recommendation that the continuation of the committee be authorized by this session of the Assembly.

I support the League of Iowa Municipalities proposal that requirements in the present road use tax law relating to arterial streets be eliminated for communities of less than 5,000 people.

Certain organizational changes should be made in the present framework of the Highway Commission, but I believe that this can be accomplished on the administrative level without the need for additional legislation.

The emphasis of the new administration will be on the continuation and acceleration of highway construction on a needs or sufficiency basis.

APPORTIONMENT

With all due respect to the sincere people who believe that the Shaff plan is "at least a step in the right direction," I believe that the Sixtieth General Assembly should reject this bill and meet the responsibility of developing a sound and equitable plan of legislative reapportionment.

Although the Shaff plan clearly falls short of providing equality of representation, my objections are not wholly on this basis. In my opinion, this proposal—which would place the Senate or small house on population and the larger house on area—sets up an unwise, "upside-down" bicameral system under which one house would frequently stalemate the other on important issues in the public interest.

IPERS

I am fully in accord with the proposal of the Iowa Public Employees Association for an increase in benefits under the Iowa Public Employees Retirement System.

LIQUOR CONTROL

It is well-known, I think, that I favor legislation to legalize the sale of liquor by the drink. My principal reason for taking this stand is that I believe it would be a more enforceable system of liquor control and would eliminate the illegal key clubs which I consider a Number One source of crime and youth delinquency in the state.

I have indicated that the new administration will exert its best effort to enforce the law, whatever it may be. In recent weeks, many local law enforcement authorities and businessmen have made a conscientious effort to bring their communities in line with the liquor laws for the first time in a number of years. I think we all owe them a debt of gratitude for their voluntary actions. In justice to those people who are now abiding by the law, the state agents will be alerted to enforce the law against those who have not complied.

It is clear that the present law, in addition to being difficult to enforce, is not desired by the majority of our citizens. I sincerely hope that the Sixtieth General Assembly will adopt a system of liquor by the drink under strict licensure and control. I have no doubt that such a change will result in better law enforcement, a more temperate use of alcoholic beverages, and the elimination of the atmosphere of official hypocrisy that has prevailed with respect to our liquor laws.

UTILITY REGULATION

I recommend the creation of a state agency within the framework of the present Commerce Commission to regulate public utilities in the State of Iowa for the protection of both utility companies and consumers. If such an agency is to function usefully, it must be given adequate staff and adequate enforcement powers. I want to make it entirely clear that I will oppose any regulatory agency that does not fully protect the citizen-consumers in matters relating to utility rates and services.

BRUCELLOSIS CONTROL

I give my unqualified support to the proposed legislation for brucellosis control through mandatory testing of Iowa farm animals. Iowa lags far behind most other states in this field. Iowa farmers suffer severe financial losses from this disease, and transmission of the infection to human beings constitutes a serious health problem in our state.

FREEDOM OF INFORMATION

It will be the policy of the new administration to direct that meetings of state agencies shall be open to the press and to the public.

KERR-MILLS

The Fifty-ninth Assembly enacted legislation authorizing Iowa's participation in the Kerr-Mills program of medical aid to the aging. However, no appropriation was made to fund this program.

It is my recommendation that the Sixtieth General Assembly should appropriate adequate funds to implement the Kerr-Mills program and I will make provision for this in my budget message.

PUBLIC DEFENDER

It is my conviction that justice requires adequate defense for all accused persons regardless of their ability to pay. Voluntary legal aid societies in many of Iowa's counties have done a praiseworthy job in this direction. However, in order to insure capable defense of every defendant, I would

recommend that the Sixtieth General Assembly give consideration to the establishment of a public defender system in Iowa.

SCHOOL BUS TRANSPORTATION

Under section 285 of the Iowa Code, children attending private schools are denied transportation on public school buses, despite the fact that their parents pay taxes for public schools. It is my recommendation that this section be repealed to allow all children to ride on public school buses.

COMMISSION ON ALCOHOLISM

In 1958, a citizens committee on alcoholism was created by Governor Loveless to counteract the disease which afflicts an estimated 50,000 Iowans. The Fifty-ninth General Assembly followed up this action by creating an Alcoholism Study Commission. It is recommended that chapter 123A of the Code be clarified to furnish funds directly to the commission for a state-wide research, treatment and education program to combat this major problem in our society.

ABOLITION OF CAPITAL PUNISHMENT

In the field of criminology, statistics indicate that through the years capital punishment has failed as a deterrent to capital crimes. In my opinion, the hanging of a human being inflicts severe spiritual damage upon all of the citizens of our state. I therefore strongly recommend the abolition of the death penalty in Iowa criminal law.

COMMISSION ON HUMAN RELATIONS

In both the Loveless and Erbe administrations, the Governor's Commission on Human Relations made a valuable contribution toward the prevention of discrimination, based on race, creed, national origin or economic status.

It is my recommendation that a permanent Commission on Human Relations be established by the legislature.

HUMAN RESOURCES

The energy of the new administration will be directed at all times towards the vitalization of the great human resource programs of the state—mental health, care and education of the retarded, and programs for the handicapped, the aged and the needy.

It is my profound conviction that good welfare and rehabilitation programs justify their existence while half-hearted programs in these areas are a waste of the taxpayers' money.

One of our major objectives will be to strengthen the mental health program in Iowa in every way possible. The current proposal for providing a security hospital for the criminally insane has my full support.

I am a firm believer in the concept of providing the best psychiatric care for the mentally ill. While humanity is our primary motivation in this area, the record of the past decade shows unmistakably that the populations of mental hospitals are reduced by modern psychiatric treatment and rehabilitation techniques. In addition to restoring human beings to happy and productive lives, this results in substantial savings to the taxpayers.

Enlightened programs for the rehabilitation of prisoners in our penal institutions and offenders who have been discharged or paroled and efforts towards the prevention of youth delinquency are plainly in the public interest and will receive the continuing attention of the new administration.

Iowa is one of the leaders in the nation in its programs for orientation

of the blind and other programs for the handicapped. These worthwhile activities should be encouraged in every way possible.

LABOR

Considering the importance of nonagricultural workers in the Iowa economy, the attention of the General Assembly is respectfully directed to the following laws affecting labor, which, in my opinion, require modification:

1. The Employment Security Act should be amended to provide increased benefits; the waiting period should be eliminated; and the scope of coverage of the act should be increased.
2. The Workmen's Compensation Act should be modified to raise the benefits, to eliminate limitations on the provisions for medical and hospital care, and to broaden the occupational disease provision to cover any disease caused by a person's employment.
3. The Right to Work Law should be amended to abolish the statutory prohibition of "union shop" contracts between employers and employees.
4. A Fair Employment Practices Act, similar to the one that is presently in existence in the State of Kansas, should be enacted.
5. The Labor Commissioner should be given the rule-making powers that other departments have so that he can enforce safety in industrial plants.
6. A prevailing wage law covering public works contracts should be enacted.

PUBLIC SAFETY

The department of public safety, as you know, is a vast department consisting of nearly a dozen divisions, including several concerned with traffic safety, the division of criminal investigation and the division of the fire marshal. At this point, I am more interested in strengthening the administration of this department and coordinating its multifold activities than in seeking new legislation. In general, I am interested in a total approach to our problems of law enforcement—stressing prevention and education across the board along with enforcement itself.

Of major concern to all Iowans is the staggering toll of highway accidents and fatalities. In general, I believe that our highway safety program demands steady, consistent, and completely strict law enforcement, rather than crash programs. The recent innovations by the present safety commissioner, including the use of unmarked patrol cars, I think should be given a thorough trial. In the meantime, I feel that every effort should be made to build up the morale of the Highway Patrol, to provide it firm and unwavering guidance, and to keep the patrol cars on the highways 24 hours a day. I believe safety education should be re-emphasized as an important service of the public safety department.

The basic emphasis on prevention over punishment should extend to criminal investigation activities and the division of the fire marshal. I think a great potential lies in the effort to gain continuity in our law enforcement and corrections system, and believe that the surface has not been scratched in developing co-ordination between state and local authorities concerned with crime and punishment.

CITIZEN COMMITTEES

In the Loveless administration, unprecedented use was made of citizen committees that served as valuable working adjuncts of the government. Governor Erbe also made good use of certain committees of this type. In the new administration, such committees as those on mental health, penal affairs, and the aging, to name but a few, will be recommissioned and used to the best advantage.

HOME RULE

The citizens of Iowa are a proud and self-reliant breed. The motto our state flag bears: "Our liberties we prize and our rights we will maintain" is more than a decoration. It is a way of life of our people.

It is my profound conviction that the people of Iowa believe in government close to the people—in the right and capacity of local citizens to govern themselves in affairs of local concern.

Yet, in the past century, we have departed, little by little, from this mainstream democratic concept into a cumbersome legal relationship between the state and local government that deprives local jurisdictions of their prerogatives of self-determination in local matters.

The dominance of the state over local government in matters of general application is accepted as valid and consistent with our democratic traditions. But the mongrel doctrine that cities and towns are "creatures of the state" and that they and other jurisdictions of local government cannot function on even the most trivial level without the express or plainly implied authority of state law, is entirely inconsistent with the democratic traditions of our republic.

In the meantime, our biennial legislative sessions, heavily burdened with matters of important and statewide concern, must direct their attention, each session, to scores of proposals of purely local significance—simply because silence in the statutes is prohibition, under the present system, for local government to act.

I consider it high time that the necessary measures be taken to change the obsolescent and undemocratic relationship between state and local government, as some 30 other states have already done.

I therefore throw my full support behind the proposal for home rule as a sensible method of state control over municipalities in Iowa—and the extension of this grant to other local jurisdictions, if they desire it. It is clearly understood that the legislation calling for the broad grant of home rule will be set up in such a manner that the state is in full control in matters of general application, leaving only local matters to the discretion of local jurisdictions. Such constitutional provisions as the 5 per cent debt limit and other general statutes that the legislature has enacted or shall see fit to enact would still be in full force. But the inalienable right of local communities to make the decisions of local self-government should be reaffirmed without further delay.

I concur in principle with the League of Iowa Municipalities' recommendation that a continuing commission on state and local government relations be established by the Assembly to furnish the legislature and the administration insight into the problems of local government operation under state law. Such a commission could, for example, have provided this Assembly with valuable background on local law enforcement problems that would have been helpful in the consideration of proposals for liquor control legislation that will come before this session.

I would hope that the Assembly will give high priority to legislation that will permit state banks to pay interest on current operating funds deposited with them by municipalities, counties and school boards.

This would provide local governments with millions of dollars in interest each year, and would furnish property tax relief in the most direct manner without raising taxes.

The problems of every legislative session are vast and complex, but I believe it is generally recognized that the matters before you ladies and gentlemen of the Sixtieth General Assembly are unusually momentous by comparison with most sessions of the past. It is not without reason that

people refer to this as "the money session." We are all aware that the state surplus is down to a minimum and that additional revenues must be raised to sustain the present level of government operation and to provide the state aid for property tax relief to which we are all committed. In my budget message, two weeks hence, I will transmit to you my detailed views concerning the financial needs of the next biennium and suggested revenue measures to meet those needs.

In the meantime, I want to convey to you my respect for the magnitude of the job that lies before you. The constitution assigns to the governor certain important roles in the legislative process, but the major burden of responsibility and the ultimate authority rests with you ladies and gentlemen of the General Assembly. Whatever our differences may be, I want you to know that I have faith in the integrity of your purpose, the quality of your dedication, and in your ability to get the job done.

In the past two months, I have been conducting the departmental budget hearings and acquainting myself as rapidly as possible with the activities of the various departments of the state government. I must say that I have come to realize—more clearly than ever before—the vast range of our state government's operation.

The scope of government covers the entire spectrum of human life, and all of its different departments and agencies have vitally important services to fulfill. Such departments as public health, public instruction, the tax commission, social welfare, board of control, public safety and the board of regents—to name only a few—are immense complexes within themselves.

As I see it, the responsibility of the new administration is to take a total approach—rather than to concentrate on a few areas and neglect the others. In government, the sins of omission are often greater than the sins of commission. It seems to me that people have a right to expect their governor to give his best efforts to all the diverse fields encompassed by the government ranging from fiscal operation to the great human resource programs of health, education and welfare. To this end, I pledge the full effort of the new administration.

We live in a conservative state, as we all recognize, but in my opinion, it is a conservatism of prudence, rather than of fear and inertia. It has been said there are times to watch and wait and there are times for action.

It seems to me that the needs of this hour call for decisive action on the part of all of us entrusted with the responsibilities of government. I am convinced that our people want action in the fields of tax reform, apportionment, law enforcement, education and rehabilitation, and in the restoration of self-government to local jurisdictions.

Such action requires people in government who are willing to put their political futures on the block—because they believe in something.

It is sometimes said that the knack of skillful government is to hang back, do as little as possible, and make no mistakes. I hope there is another way—for between you and me, this prospect does not invite my soul.

Frankly, I expect to experiment and make some mistakes—whether it be in installing new programs in departments or hiring a band. But I can assure you that this new administration will not stop moving—towards the goals to which we have pledged ourselves with the people of Iowa.

I have said it before and I say it again now that our basic problem is psychological and spiritual—rather than technical. It is fundamentally a matter of attitude, rather than method.

As a people, we in Iowa have within our power the capacity to do virtu-

ally anything we make up our minds to do. We have the resources, both human and material, to accomplish giant goals.

What are we afraid of, then? What are we waiting for?

The time has come to set aside old prejudices, face our problems squarely, and work together to fulfill our state's immeasurable potential.

Ladies and gentlemen, it is the devout hope of the new administration that we can together provide the citizens of Iowa with a progressive, prudent, pay-as-you-go program of government in the biennium ahead.

To this end, I pledge you my unreserved cooperation and wish you God-speed in the crucial task of enacting wise legislation to assure the future of our beloved state.

The following benediction was offered by the Reverend W. E. Shoemaker, pastor of the Methodist Church, Hampton, Iowa:

O God, our Father, history and experience have given us so many evidences of Thy guidance to governments and individuals that we should not doubt Thy power or Thy willingness to direct us. In this faith we pray for Thy guidance and Thy blessing upon Governor Harold Hughes of this state. Give him the spirit of wisdom, humility, goodness and truth, so that his heart and endeavors may be ruled by law and order, justice and goodwill.

Thou art aware of the yearnings of our hearts as we also offer our prayers for the Lieutenant Governor, this entire legislative body and all others in authority and responsibility. Lord, you know the problems these people have to face. Give them the bifocals of understanding to see the need of the hour and also the far-reaching implications of every act. We pray with a sense of deepest urgency that no eyes may be blinded by immature judgment or prejudicial concern. Help all to see that it is better to fail in a morally right cause that will ultimately succeed than to succeed in an immoral cause that will ultimately fail.

May the pure light of Thy spirit be an X-ray penetrating through every interest, through personality and political party, leaving in clear outline the skeleton of true values and right judgment unto which all noble law and administration must adhere. Grant that all actions may be weighed by the standards of justice and righteousness, logic and morality.

O Lord, grant guidance when we do not know what to do, but when we know what we ought to do and do it not, be merciful.

May Thy will be done in the days ahead and may Thy program be carried out for the good of this state and all mankind.

This we pray in Jesus' name. Amen.

COMMUNICATION FROM THE CHIEF CLERK

The following report was filed by the Honorable T. G. Garfield, Chief Justice of the Supreme Court of Iowa:

IN THE MATTER OF THE RULES OF CIVIL PROCEDURE	}	REPORT OF THE SUPREME COURT OF THE STATE OF IOWA
---	---	---

TO THE SIXTIETH GENERAL ASSEMBLY OF THE STATE OF IOWA:

In accordance with sections 684.18 and 684.19, Code of Iowa, 1962, the Supreme Court of Iowa has prescribed and herewith reports to you rules of practice and procedure in the nature of amendments to the following designated Rules of Civil Procedure.

Rule 94 is revised to read:

94. *Judicial notice—statutes.* Matters of which judicial notice is taken, including statutes of Iowa, need not be stated in any pleading. A pleading asserting any statute of another state, territory or jurisdiction of the United States, or a right derived therefrom, shall refer to such statute by plain designation and if such reference is made the court shall judicially notice such statute.

Comment: This change is to assure judicial notice of Iowa statutes without reference thereto in a pleading.

Rule 149. *Reading and signing.*

Rule 149(a) is revised to read:

(a) No oral deposition reported and transcribed by an official court reporter or certified shorthand reporter of Iowa need be submitted to, read or signed by the deponent.

Comment: The addition of certified shorthand reporters is to increase the number of those available for taking oral depositions.

Rule 174 is revised to read:

174. *Jury fees.* If trial is by a jury after change pursuant to Rule 167 the court shall certify the amount of county expenses incurred for meals, lodging, mileage and fees of jurors and the county where the action was brought shall pay the county where it was tried the difference between the sum so certified and the jury fee taxable as a part of the costs in the action.

Comment: This change is to permit a more reasonable reimbursement for jury expenses in civil cases transferred to another county under R. C. P. 167.

The Comment which follows each of the foregoing rules does not form a part of the rule but explains the reason for the change which has been made.

Respectfully submitted,

THE SUPREME COURT OF IOWA,

By s/ T. G. GARFIELD, *Chief Justice.*

Des Moines, Iowa,
January 24, 1963.

ACKNOWLEDGMENT

COMMUNICATION FROM THE SPEAKER

The following resolution by the City Council of the City of Des Moines is on file:

RESOLUTION WITH RESPECT TO THE REVISION OF THE IOWA LIQUOR CONTROL ACT

Whereas, the Legislature of our State during the 1933 session enacted with the approval of the Governor a law known as the Iowa Liquor Control Act, and

Whereas, said Act since its enactment has been a part of the statutory law of our State without substantial amendment, except minor changes, and

Whereas, said Iowa Liquor Control Act was designed to promote temperance and bring about effective control of the trafficking in the unlawful sale of intoxicating liquors, and

Whereas, the county attorneys, sheriffs, police and other peace officers generally sought with diligence to enforce said Act for a number of years, at the end of which time such enforcement deteriorated as a result of an alarmingly high percentage of acquittals by juries, obviously reflecting the unpopularity of said law, particularly in the border counties of our State, surrounded as it is by states where liquor by the drink laws have obtained for many years, and

Whereas, such lack of enforcement has become general in at least a majority of the 99 counties of Iowa, and in numerous counties a flagrant disregard for the aforementioned Act exists which will eventually breed disrespect for all restrictive laws, and

Whereas, the Legislature during the Fifty-seventh General Assembly amended the Beer Law which led to the establishment of so-called "key clubs", and while such law was passed in good faith by the members of our General Assembly, it now appears that a vast majority of such establishments, while masquerading as bona fide clubs, are in fact glorified saloons where intoxicants can be purchased by any patron irrespective of membership, and this has further compounded the problem of liquor law enforcement, and

Whereas, the places where liquors are unlawfully sold are not subject to the imposition of taxes on such sales beyond those imposed on legitimate business enterprises, Now, Therefore,

Be It Resolved, by the City Council of the City of Des Moines, Iowa, in regular session assembled on this 17th day of December, A. D., 1962, in the firm belief that the views expressed in this Resolution are in conformity with the will of the majority of the electors of our City and State, that we hereby petition the 1963 General Assembly to cause to be enacted a revision of the present liquor laws to the end that such laws may become realistic and thus subject to enforcement.

Be It Further Resolved, that it is the view of the City Council of Des Moines, Iowa, and which we believe to be representative of the opinion of the citizens of our City and State, that the present package sales of liquor in state-operated stores under the management of the Liquor Commission be retained, but that sales of liquor by the drink, under strict control in duly licensed establishments and subject to a tax substantially in excess of the present sales tax, be made a part of the suggested revision.

Be It Further Resolved, that a copy of this Resolution be promptly transmitted by the City Clerk to the Speaker of the House of Representatives and the Lieutenant Governor of the 1963 General Assembly when said Assembly shall have been convened.

Moved by Grothe to adopt.

This message, comprising Part I of the budget, sets forth the present financial condition of the state treasury and the proposed fiscal program for the biennium beginning July 1, 1963.

Additional materials which have been made available to you set forth in detail the current and estimated balance in the general fund of the State of Iowa at the end of the present biennium and the ensuing biennium, my recommendations for appropriations, and the suggested sources of revenue. The complete budget, showing a detailed breakdown by departments and by all funds, will be transmitted to you within the next few days.

I would like to thank the many state boards and department heads for the information they so conscientiously furnished during the budget hearings last November and December. I am also indebted to the Budget and Financial Control Committee, other interested members of the General Assembly and the Legislative Fiscal Director for their able and patient assistance. It was out of the information provided by these helpful sources that this recommended budget was shaped.

Possibly never before in our history have we been so keenly aware of the close relationship between state and local governments. We cannot divorce the needs of state government from those of our cities, towns and counties and arrive at a true picture. The approach we make in state financing to school districts directly affects the quality of education in all localities of the state.

Local taxing districts in the year 1962 collected over \$400 million in taxes. This amount, plus the approximate state budget of \$200 million for 1962, means that the total tax paid annually for state and local purposes exceeds \$600 million for operations. It should be apparent that the closest possible co-ordination should be sought between state programs and local programs in order to insure sound government operation at the lowest possible cost.

In my inaugural message, I recommended the establishment by the Assembly of a continuing commission on state and local government relations. I think that better communication between the jurisdictions of government would unquestionably lead to higher level of over-all efficiency and economy. After all, it is the total tax load borne by each citizen that counts—whether the taxes be state or local. We pride ourselves on the fact that our state government is debt-free and levies no property tax of consequence, but this pride is scarcely justified if we are at the same time shifting a disproportionate load of taxes on to local jurisdictions.

Our objective must be to hold our combined state and local tax loads at the lowest possible level and at the most equitable distribution.

A budget that is not realistic is not worth the paper upon which it is

written. In the budget I am submitting to you today I have tried to face the facts realistically in four general areas.

1. In the first place, as your revenue study committee and other authorities have pointed out, there is a need for additional funds to meet the increased costs of administration of the vast programs of the state government. We have no surplus to draw from for this budget.

2. For the sake of efficiency and economy as well, we need to attract and retain the highest level of personnel in the administrative branch of government.

3. In order to meet the need for more revenue and to guarantee a sound financial base at all times, we need corrective legislation and new tax sources.

4. Considering the interdependence of various components of our state—agriculture, industry, and rural and urban citizens we have an obligation to treat all of these components fairly.

By facing the facts in these four areas, we have shaped a budget that I believe to be sound, realistic, and equitable.

GENERAL

The total expenditures from the General Fund set forth in this budget for each year of the ensuing biennium are \$230 million. This amount includes \$121 million for state aids to local schools and governments, including local educational aids, homestead credits and welfare programs.

For state institutions of higher learning, state hospitals and correctional institutions, public safety and the administrative departments, \$99 million. \$10 million represents the expenditures on an annual basis for building and capital programs.

Briefly, I will discuss the major items in this proposed budget.

EDUCATION

I am recommending a substantial increase in the area of local and higher education. In principle, I strongly support the plans of the so-called "foundation program," which insures equal educational opportunities for our youth, with the state assuming part of its costs. However, in practice during these next two years, because of unequal property tax assessments on which state aids can be based, it may not be feasible to go to the complete plan. Adequate legislation is needed to insure equal property tax assessments in future bienniums before the foundation program is put into effect.

However, to insure immediate local property tax relief, I am recommending that the agricultural land credits be increased by \$4.5 million, which will enable the state to pay approximately 50 percent of the county claims. Also, I am recommending, for each year of the biennium, a \$15 million increase in supplemental and general school aids, which will pay supplemental aids in full instead of the present 50 percent level, and will substantially increase general aids. These two items alone represent more than a 50 percent increase in state aids to local taxing districts.

Further, I am recommending a 13 percent increase in the appropriation for the Board of Regents institutions for operating expenses, which will increase their appropriation from \$41.5 million to \$46.9 million.

We all know that the costs of education comprise a major part of our tax revenue needs. Yet, from personal contact with citizens in all walks of life and from all parts of the state, I am convinced that our people are not willing to settle for anything less than first-class education for our children and youth.

BOARD OF CONTROL

Total annual appropriations of \$22.6 million are recommended for operating expenses of the institutions under the jurisdiction of the State Board of Control. This represents an increase of slightly less than a million dollars and is considered adequate to meet the projected needs of the vital programs of mental health, training of the retarded, rehabilitation of the delinquent and other activities carried on by this major department of the state government.

It should be noted that progressive programs of psychiatric care and rehabilitation reduce the population of our institutions and result in substantial savings to the taxpayers. Continued emphasis on such programs as outpatient treatment of mental patients should also have a beneficial effect in lowering institutional costs in the years ahead.

PUBLIC SAFETY

For the Department of Public Safety, which consists of nearly a dozen divisions, including Traffic Safety and Criminal Investigation. I recommend \$5.3 million for each year of the biennium. The proposed increase in appropriation for this department, as for various other important departments, is not as great as I would like, but on the basis of the information available, it will enable the department to carry on its present program of safety and law enforcement with some increased emphasis on prevention and education and on increased co-ordination with the activities of local law enforcement officials.

ADMINISTRATIVE DEPARTMENTS

For the administrative departments of the state, I recommend an appropriation of \$11.2 million. This increase is due primarily to the realistic budgeting of the State Tax Commission by the elimination of their Revolving Account, and the budgeting of the Executive Council on an actual need basis.

However, throughout this budget, and particularly in the administrative departments, I am proposing salary increases for key personnel.

As we all know, the quality of government we get is largely determined by the quality of the people who serve in government. To the best public servants, government service is something more than just a job. Nonetheless, we can't expect to retain competent people in government unless we offer reasonably competitive incentives to keep them.

To this end, I recommended in my inaugural message a system of state civil service and the adoption of the I. P. E. R. S. proposal that will provide additional pension benefits for public employees throughout the state.

As in any private business, one of the most urgent needs of the state government is to attract and hold persons of first-rate ability in the key policy-making positions. Without imaginative leadership in these spots, without qualified management, our best laid plans for good government will come to naught. As in private enterprise, we need to get responsible people in key positions and to pin-point their responsibilities. I have, therefore, recommended substantial increases in the salaries of state elective officials, commissioners and board members. I am sure this will pay off in terms of economies in operation and improved services. The suggested increases will bring the salary levels to a point more comparable to private industry and other governmental levels.

During the past year, the Executive Council liberalized the longevity benefits to career state employees, an action which I heartily endorse. This, in essence, provides for step increases for all employees at 5-, 10-, 15- and 20-year levels. The longevity benefits, plus the proposed liberalizing of re-

tirement benefits under the Iowa Public Employees' Retirement System, represent substantial gains for state employees.

I might add that another factor in the increase of administrative cost results from the increase in judicial pay as called for in the referendum by the people during 1962.

HOMESTEAD CREDIT

I am recommending an approximate 30 percent increase in the homestead credit—or an estimated \$9 million per year. This will permit the state to increase the longstanding base of 25 mills on \$2,500 valuation to a new and more realistic maximum millage of 32 mills on the same \$2,500 valuation. This is a direct relief provision for home owners and is the *first* such additional relief these property owners have had in many years.

SOCIAL WELFARE

My budget provides for an increase of \$2.7 million per year in social welfare. The major portion of this increase is \$2 million per year for the implementation of the Kerr-Mills bill. This amount, although somewhat less than the original estimates, will be adequate to get the program of medical aid to the aged under way.

CAPITAL IMPROVEMENTS

I am recommending \$10 million for each year of the biennium, or a total of \$20 million for capital additions. Of this amount, \$6.7 million would go to the state institutions under the Board of Regents, and \$2.2 million to the Board of Control institutions. An additional million dollars would be allocated between the Fair Board for their needed electrical generators, the National Guard for armory construction, Buildings and Grounds for gold leaf on the Capitol dome and the Department of Public Safety for new transistor radio equipment.

SUMMARY

The total askings by the departments, agencies and boards, including standing appropriations, at the hearings for this budget exceeded \$266 million. My recommendation is in the amount of \$230 million—which is \$36 million below the current askings and approximately the same amount over the Fifty-ninth General Assembly appropriation.

In the face of rising costs—and with no state surplus funds to draw from—it was obvious from the beginning, in the preparation of this budget, that substantial additional revenues would be required to meet the increased costs of government operation and to provide property tax relief. This budget represents a diligent effort to meet these needs realistically while controlling operating expenses at a prudent level.

Additional state programs and increased state aid cannot be met from the current tax basis. Accordingly, we are submitting with this message legislation which will increase revenues and which will equalize the tax load between the several economic groups comprising the Iowa taxpayers.

In the present tax structure, which includes general sales, income and excise taxes, our estimated revenues are computed on the historic growth of 2 to 4 percent per year. This percentage increase of normal growth will provide approximately \$18.7 million. In addition to this growth test factor, I am proposing these specific changes:

INDIVIDUAL INCOME TAXES

I recommend the following changes be made in the individual income tax structure for the next biennium.

First, that a withholding system be enacted effective July 1, 1963, so as

to ease the method of payment on the taxpayers of Iowa and to increase the administrative efficiency for the Tax Commission in the collection of the income tax. By making the effective date July 1, 1963, approximately one-half of the taxpayer's total tax bill for the year 1963, payable in the Spring of 1964, will be paid.

From the years 1964 and subsequent, the taxpayer's total tax bill will be approximately met by his withholding tax, and refunds will be made if the withholding is excessive.

Considering the experience of other states, I feel that the enactment of withholding tax legislation—implemented by data processing equipment and sound administrative policy—will make possible the collection of income taxes from some who are not now filing and will thus better equalize the tax load.

Second, I recommend that the rate be increased from the so-called present 75 percent rate to the 100 percent rate as the original income tax law provided. In conjunction with this change, I would also recommend that another bracket be added for incomes over \$5,000 at the 100 percent rate of 6 percent. Our income tax rates have not been changed for years, and in my opinion, are not now realistic with the income level for Iowa citizens.

Concluding my recommendations on income tax, the following revenues will be derived:

From withholding effective July 1, 1963, a "windfall" in the first year of the biennium of \$16.1 million.

Income tax collections of non-filers as a result of withholding—\$2.4 million for each year of the biennium.

Adding an additional bracket on incomes over \$5,000—\$3 million each year of the biennium.

Increasing the rate to so-called 100 percent—approximately \$14.8 million in each year of the biennium.

CORPORATION INCOME TAX

I recommend the following corrective measures for corporation income tax for all taxes due in 1964 and subsequent years.

First, let me say that there are compelling reasons in favor of the so-called three factor formula, which formula provides that a corporation income tax payable to the state is computed from the basis of property held in Iowa, payroll paid in Iowa, and income. Consideration should be given in the future to this method of taxing corporations which has been adopted by many other states and which is recognized generally as a fair method of equalizing corporate incomes between states. However, due to the complexities in enacting such legislation and because of its relation with the whole unequalized tax structure in Iowa, including property taxes, I recommend a practical alternate—eliminating the deduction of Federal income taxes in computing the income subject to Iowa tax. Again, Iowa is one of the few states which allows its corporations to deduct the Federal tax in total, in arriving at the taxable income to Iowa.

Also I recommend as a more realistic figure the rate of 4 percent on corporate income instead of the present 3 percent.

The present Iowa corporation income tax collects about \$4.5 million. I believe that these two recommended changes, which will increase the revenue from corporation income tax by approximately \$5.5 million, will more equitably tax corporations in their relationship to the individual income tax rates and our present sales tax structure.

SALES TAX

I recommend the following minor change for administrative purposes in the field of sales tax and its collections:

First, the present sales tax rate of 2 percent should be applied to hotels and motels, which is common among most states and which would raise the revenue by nearly \$1 million dollars per year.

Also, monthly sales tax reports and payments should be made to the Tax Commission by retailers who collect more than \$300 per month. This latter recommendation can be done efficiently with the use of modern equipment and forms which will not increase the burden upon the retailers for book-keeping. It can be done in the form of deposit with the Tax Commission much in the same manner as the Federal monthly deposit of withholding and social security taxes. This would have the effect of leveling out the collections for the state and also would substantially eliminate many of the collection problems now encountered by the Tax Commission. The monthly reporting of sales tax will provide in the first year of the biennium about \$5.4 million.

LIQUOR TAX

Throughout the campaign and in my inaugural address, I have recommended legalizing liquor by the drink in Iowa under a system of strict licensure and control. Every survey that has been taken in the past year indicates that an overwhelming majority of the citizens of Iowa desire such a change in the present liquor law. This is not a partisan matter and the legislation implementing it should incorporate the important points of licensing, enforcement, liability and responsibility clauses, and provision for rehabilitation.

The prospective added revenue to the state from a system of legalized liquor by the drink is submitted in this budget at a figure so conservative that I think no reasonable person could question it. I have every reason to believe that revenue from this source would be substantially greater than the \$2.5 million a year indicated. There would also be an increase in revenues to local government which would be property tax relief of the most direct kind. However, since this is a highly controversial matter with many indeterminate factors involved, I thought it well to set the revenue estimate at the very minimum.

This will also serve to emphasize the point I have made repeatedly in the past—that law enforcement, rather than revenue, is the principal reason that our liquor control law should be changed.

GENERAL FUND BALANCE

The estimated unencumbered balance at June 30, 1963, is \$21 million. Based on estimates made by the comptroller for the ensuing biennium, the balance at June 30, 1965, will be at approximately this same figure.

There has been wide divergence of opinion in the past few years with reference to what constitutes a "safe" minimum balance in the state general fund. With all due respect to opposing views, it will be the objective of this administration to maintain a minimum working balance of not less than \$21 million in the state general fund. My study of the state financial picture in the past two months has confirmed my opinion that a balance of this amount is needed to assure efficiency of fiscal operation and to meet such emergencies as may occur.

SUMMARY

I present to you today a balanced budget—one in which the receipts slightly exceed the proposed appropriations and which totals approximately \$230 million. I believe the citizens of Iowa want this type of balanced budget which is realistic in its spendings and which provides the revenue to carry out these askings. It will be noted that the proposed budget incorporates both tax increases and tax equalizations.

It is always easier to provide revenue by raising those existing taxes that are comparatively easy to collect than to attempt tax equalizations. It is also easier to concentrate exclusively on taxes that provide large amounts of revenue in one piece—rather than to put together a multiple-tax program composed of items that are comparatively small individually but are substantial in the aggregate.

In this reference, it will be noted that I have not recommended a general sales tax increase. I would be less than realistic, however, if I were not aware that there is considerable sentiment in this Assembly, and about the state, for using an increase in the sales tax rate as a means of revenue to relieve property taxes.

In general I do not favor taxes that are regressive and hidden. I lean toward those taxes that are levied in accordance with ability to pay and that leave the taxpayer at the end of the year with a clear understanding of what he has paid in taxes.

I am aware, however, that this session is faced with unusually weighty revenue problems by comparison with recent sessions, and I am also aware that both political parties are strictly pledged to providing appreciable local property tax relief—not in the distant future but in the course of this session. Unquestionably we all have a mandate from the people along these lines.

I therefore repeat the statement I made during my campaign that I would not necessarily close the door on a sales tax increase if, in the considered judgment of this Assembly, it is absolutely necessary to provide the substantial local property tax relief to which we are all committed.

I would not, however, be receptive to a one or two-shot tax program that failed to take advantage of new revenue potentials which offer opportunities for sensible, equitable and long overdue tax equalization.

I think I should make it clear that I am strongly opposed to proposals for a flat tax on adjusted gross income. While such a tax would raise substantial revenue, it would be manifestly unfair to a large percentage of taxpayers in this state who are least able to bear a heavy tax load. An income tax that is based on a single rate, regardless of ability to pay, and that fails to take into consideration such factors as a taxpayer's dependents and medical expenses, would approach the ultimate in regressive and unfair taxation, as I view it.

In addressing this Assembly on budgetary matters, it seems to me that I would be remiss in my duty if I did not call attention once again to the potentials for economy that lie in reorganizing and modernizing a number of areas of the state government. Several excellent studies have been made along these lines in the past 20 years by legislative committees and other authoritative groups. Outstanding among these have been the report made in 1950 by the Governmental Reorganization Commission of the legislature, commonly known as the Little Hoover Commission and the Governor's Commission on Economic and Social Trends of 1958. It is worth noting that Democratic Governor Loveless and Republican Governor Erbe were in substantial agreement on a number of proposals for reorganization contained in these reports.

The point I am making—which is in the nature of a general suggestion rather than a specific recommendation—is this: While receptiveness to change is an accepted fact in the business world, there is an overwhelmingly negative attitude towards change in government. I am suggesting that organizational improvements that streamline government operation and pinpoint responsibility are as desirable in government as they are in private enterprise. I would respectfully recommend that the Governmental Affairs Committee of the Senate and the Consolidation and Coordination of State

Government Committee of the House give serious consideration to bi-partisan proposals for basic government reorganizations that perennially come before the Assembly.

In his State of the State Message shortly before his retirement from the governorship, Governor Erbe generously and wisely recommended that legislation authorizing staff, office and supplies for a Governor-elect between election and inauguration should be adopted.

In the interests of good government and bi-partisan fair play, I sincerely subscribe to this recommendation.

Furthermore, I would like to recommend that in setting up the bi-partisan revenue study committee for the next biennium, it should be indicated by the Assembly that the findings of this legislative study group—at least so far as the state's revenue needs—should be made public prior to the general election.

I hope I will not be misunderstood. I do not make this recommendation in criticism of the Fifty-ninth Assembly's revenue study committee or the majority party. We are dealing here with system and long-established custom, applicable to both political parties. I simply believe that the system should be changed in the public interest.

The most realistic possible view of the revenue needs of the state should be public information for the electorate—since the fiscal policy of candidates and parties is a sound and fundamental issue on which elections should be decided.

My recommendations in the fields of revenues and expenditures in this budget are generally consistent with the stands I took during the recent campaign. Yet, it is obvious that some information was made available to me after the election that was not available prior to it. It would seem to me that it would be consistent with our democratic traditions and free elections to make the best available data concerning revenue needs available to both parties, both candidates and to the general public prior to the election—and I respectfully recommend that this be done.

I want you to know, ladies and gentlemen, that I have the greatest respect for the momentous problems that loom before this session in the areas of appropriations and ways and means. I have noted with admiration the business-like procedures of this session and the capacity for hard work you have already shown. In dealing with the citizen pocket book, it is certain that however fairly and wisely you legislate, you will not please everyone. This is the third certainty in life—to go with the other two certainties of death and taxes.

I am deeply grateful to you for the extraordinary courtesy and co-operation you have extended to a chief executive rich with the experience of two weeks in office. Many of you have paid me personal visits in my office; and I sincerely hope that you will feel free to do this at all times. The door is open at all hours to you and I am even investigating the possibility of building a fire in the fireplace. Those wiser in government than I tell me that any administration can profit by having a fire built under it from time to time.

In summary, let me state that the budget I have presented to you today does provide for property tax relief in the form of increases in agricultural land tax credits for the rural citizen, additional homestead credit for the urban citizen, and additional school aids for the benefit of all. Needless to say, this is only a step in the right direction. Looking to the future, we must provide the room and the resources for future property tax relief—in the face of the realization that local property taxes are increasing at the present time at the rate of from 15 to 20 million dollars per year.

We live in a great state—the greatest of all, in my book—a state with

unlimited assets and great traditions. Not the least of our traditions is that of fiscal soundness in our state government. And not the least of our responsibilities is to preserve this heritage.

Sound financial policy is the backbone of our agricultural and industrial economy. It is an attraction to new industry and a firm foundation for general economic growth. By comparison with other states, Iowa has no financial problems. Certainly we have a problem of financing.

We face this problem together—with the heavier burden of it falling upon you of the General Assembly at this time. I pledge to you my complete co-operation in our common goal of arriving at financial legislation that will benefit all of our people and will assure the continuation of sound fiscal policies in Iowa.

The following messages were received from the Senate:

MR. SPEAKER: I am directed to inform your honorable body that the Senate has passed the following bill in which the concurrence of the House is asked:

Senate File 70, a bill for an act relating to the Iowa Public Employees Retirement System.

Also: That the Senate has adopted the following concurrent resolution in which the concurrence of the House is asked:

Senate Concurrent Resolution 8, a concurrent resolution designating October 15 in each year as "Poetry Day."

CARROLL A. LANE, *Secretary*.

SENATE CONCURRENT RESOLUTION 8

By Main

Whereas, in the rush of modern civilization, we frequently give too little attention to the cultural values and ideas which should be a part of our daily lives; and

Whereas, people of all ages have universally turned to poetic expression as a means for expressing the thoughts and hopes of their generations; and

Whereas, much of this poetry has come down to us in the twentieth century as a cultural heritage of inestimable value, passed down from the folklore, patriotism, and religion of the past, giving tone and character to the culture of today; and

Whereas, the poetry and culture of this generation will give similar impetus and strength to the lives of coming generations; and

Whereas, many of the states of the union already have adopted and set aside October 15 of each year as "Poetry Day"; and

Whereas, in recognition of poetry in the cultural life of this state and nation, it is fitting that the General Assembly should set apart a day especially in honor of those poets of the past and present who have done and are doing so much to enrich the lives of all persons; now, therefore;

Be It Resolved by the Senate, the House Concurring, that the day of October 15 in each year is designated and set aside as "Poetry Day" in the State of Iowa in recognition of the cultural and human values of poetry and poetic expression; and

Be It Further Resolved, that the Governor of the State of Iowa issue an annual proclamation to that effect, and urge all religious, educational, patriotic, and cultural agencies and organizations to make proper and suitable observance of this day each year.

Laid over under Rule 25.

-------	------	--------

The bill having received a constitutional majority was declared to have passed the House and the title was agreed to.

Stanley of Muscatine asked and received unanimous consent that the following opinion by the Attorney General, pertaining to Senate Joint Resolution 1, be printed in the House Journal:

February 5, 1963.

Honorable David Stanley,
State Representative,
LOCAL.

Dear Mr. Stanley:

In answer to your oral request of this date proposing the following question:

"Does S. J. R. 1 effectuate a 58 member Senate and 99 member House beginning with the Sixty-second General Assembly which would be elected in the year 1966 and a continuation of the present apportionment through the Sixty-first General Assembly?"

I submit the following:

The substance of this question was generally considered in part (2) of our opinion to Senator David O. Shaff dated January 29, 1963, to which reference is herewith made and answered in the affirmative.

The effect of the proposed amendment is to replace present sections 6, 34, 35, 36 and 37 of the Iowa Constitution and the plan of apportionment contained therein with a new plan of apportionment encompassed in proposed sections 6, 34, 35, 36 and 37. It is a basic rule of constitutional law that all the words and language in a constitution or provision thereof should be construed together and its meaning and intent ascertained from a consideration of the instrument as a whole. Accordingly, if a literal interpretation of the language used in a constitutional provision would give it an effect in contravention of the real purpose and intent of the instrument as deduced from a consideration of all its parts, such intent must prevail over the literal meaning. 16 C. J. S., Section 23.

Further, it is a general rule that the most radical change in form does not destroy an existing government until after ratification and after the means are furnished of giving full effect to the new government superseding it under new or altered constitutional provisions. 11 Am Jur., Section 38.

I am of the opinion, therefore, that the present status of the General Assembly is preserved until the necessary legislative implementation is enacted in compliance with all the provisions of the proposed amendment.

Very truly yours,
s/ EVAN HULTMAN,
Attorney General.
s/ OSCAR STRAUSS,
First Assistant Attorney General.

Be It Resolved by the General Assembly of the State of Iowa:

Section 1. The following amendment to the Constitution of the State of Iowa is hereby proposed.

“Section six (6) of Article three (III), section thirty-four (34) of Article three (III) and the 1904 and 1928 amendments thereto, sections thirty-five (35) and thirty-six (36) of Article three (III) and the 1904 amendment to each such section, and section thirty-seven (37) of Article three (III) are hereby repealed and the following proposed in lieu thereof:

“Section 6. The senate shall consist of fifty-eight (58) senators, one (1) senator elected from each senatorial district. For each redistricting, changed senatorial districts shall be so classified by lot by the redistricting authority so that as nearly as possible one-half of the senators shall be elected every two (2) years.

“If a senatorial district is unchanged or is reduced in size and no new territory is added to it, and the incumbent senator resides in the district of reduced size or the unchanged district, he shall be permitted to complete the term for which he was elected, and the senatorial district shall remain in the same class of districts.

“The redistricting authority shall provide in its redistricting statement, law, or court order for the cutting short of terms of senators, where necessary. Any senator whose term is cut short by a redistricting shall not be compensated for the uncompleted part of his term.

“Section 34. The house of representatives shall consist of ninety-nine (99) members, one (1) elected from each county as county lines existed on January 1, 1961.

“Section 35. Senatorial districts shall meet the following requirements:

“1. Each shall have a population, as shown by the most recent decennial United States census, equal to that of every other district, a deviation of no more than ten (10) percent from the population unit (the state population divided by fifty-eight (58)) being allowed.

“2. Each shall consist of compact and contiguous territory; areas joined only at the point of a corner shall not be regarded as contiguous.

"3. So far as practicable, a county shall not be divided unless it is entitled to more than one (1) district, and senatorial district lines shall conform to township and voting district boundaries.

"Section 36. In 1965 and in the year ending in three (3) of each decade thereafter, the senatorial districts shall be redistricted.

"By November fifteen (15) in 1964 and in the year ending in two (2) of each decade thereafter, a ten (10) member redistricting commission shall be appointed to redistrict senatorial districts. The state central committee of the two (2) political parties casting the largest number of votes for governor in the last preceding election shall each appoint five (5) qualified voters. If a party fails to submit such names to the secretary of state by November fifteen (15), the supreme court shall promptly appoint the members from such party. Compensation for members of the commission shall be established by law.

"By February one (1) of the year following its appointment, the redistricting commission shall file with the secretary of state a statement of its action, including the boundaries and classification of senatorial districts. To be valid, this statement must be signed by seven (7) members. The general assembly may amend this statement or enact a substitute, but such action must be taken by May one (1) of such year.

"If the redistricting commission does not file its redistricting statement by February one (1) of the year following its appointment, the general assembly shall redistrict the senatorial districts in a single legislative enactment by May one (1) of such year.

"If the commission and the general assembly fail to redistrict within the time allotted, the supreme court shall redistrict by October one (1) of such year. The action of the court shall be entered and certified to the secretary of state by court order, which shall be final.

"Before June one (1) of such year, any ten (10) members of the general assembly may petition the supreme court to determine whether the redistricting of the commission or the general assembly substantially complies with the redistricting provisions of the constitution. If the redistricting substantially complies, the court shall so notify the secretary of state, and the decision shall be final. If the court determines that the redistricting does not substantially comply, it shall redistrict as provided in the preceding paragraph of this section.

"Section 37. Redistricting shall take effect beginning for the nomination and election of senators for the next regular session of the general assembly following the adoption of the redistricting statement, law, or court order. When a congressional or senatorial district shall be composed of two (2) or more counties, it shall not be entirely

separated by any county belonging to another district, and no county shall be divided in forming a congressional district."

Sec. 2. The foregoing amendment to the Constitution of the State of Iowa has been adopted and agreed to by the Fifty-ninth (59th) General Assembly, and having been referred by such Assembly to the Legislature to be chosen in the next general election, being the Sixtieth (60th) General Assembly, and having been duly published in accordance with and in compliance with the direction of the Fifty-ninth (59th) General Assembly, it is now adopted and agreed to by the Sixtieth (60th) General Assembly in this Joint Resolution, and shall be submitted to the people at a special election to be held for that purpose on the first Tuesday in December in the year nineteen hundred sixty-three (1963) in accordance with the directions of Article X of the Constitution of Iowa. The submission at said special election shall in all respects be governed and conducted as prescribed by law and the Constitution of Iowa for the submission of a constitutional amendment at a general election.

The resolution having received a constitutional majority was declared to have passed the House and the title was agreed to.

EXPLANATION OF VOTE

The negative vote I registered on S. J. R. 1 was not a negative vote on reapportionment, but instead it was an affirmative vote for fair reapportionment. In my opinion the provision of S. J. R. 1 is regressive reapportionment, as people would actually receive less consideration. True, the Senate is supposed to give more consideration to the people, but it is taken away by staggered terms and by the fact the new House—controlled by only 24 percent of the population—has control over setting the alleged population House's districts, as it must concur along with the Senate and could block or compromise any plan. Not only is a staggered term House less responsive to public opinion, but the thing is wide open to gerrymandering.

REPPERT of Polk.

The bill having received a constitutional majority was declared to have passed the House and the title was agreed to.

Hougen of Black Hawk submitted the following report of the contest committee:

REPORT OF CONTEST COMMITTEE

(Brinck vs. Frazier)

MR. SPEAKER: Your committee, to whom was referred the matter of the election of the contest of Adrian Brinck, contestant, and Charles O. Frazier, incumbent, for State Representative from Lee County, Iowa, respectfully submits the following report.

The committee on election contest was organized on Tuesday, January 22, 1963. Mr. Hougen, chairman, read the record and explained the factors involved in the contest. After discussion, it appeared desirable to refer the matter to the Attorney General before proceeding further. The meeting was adjourned at the call of the chairman.

The committee on the contest of Brinck vs. Frazier met in the Speaker's Room February 6, 1963, at 8:30 a.m. All members of the committee were present. The chairman of the committee presented an Attorney General's opinion dated February 5, 1963, covering the matter, and a certification by E. F. McDonough, Auditor of Lee County, regarding the canvassing of the votes by the canvassing board of Lee County, which certification is a statement of fact regarding the correction of errors by the election board of the third ward of Fort Madison, Lee County, Iowa.

The statement of contest was reviewed together with the Attorney General's opinion and the law applicable to the contest, and the following facts were established:

The contest committee finds that the local canvassing board permitted the third ward election board of Fort Madison, Iowa, at their request to reconvene and re-tally the votes for all candidates, and to recertify the returns. There is no evidence that any change was made in votes cast, nor were the ballots handled in any but a proper manner. The canvassing board then canvassed the votes for Lee County, and found the incumbent elected to the office of State Representative by seven votes.

The statement of the contestant admits the correctness of the foregoing findings.

The contestant has failed to present any evidence of fraud, or counting of illegal votes which would effect the results of the election, as required by law to void the election.

The contest committee further finds that no more votes were counted than were cast, and that the contestant therefore was not entitled to request a new election in said ward as provided by Section 50.8 of the Code.

The committee further finds that the contestant made no request for a recount of votes, nor did he present any evidence to justify a recount and that statutory time for so requesting expired prior to the convening of the General Assembly.

In view of the foregoing findings, and pursuant to the Attorney General's opinion which is made a part of this record, the contest committee concluded that it has no jurisdiction to entertain this contest.

After further discussion, the contest committee recessed until 3:00 p.m., February 6, 1963. The contest committee reconvened in Room 28 on February 6 at 3:00 p.m. All members present. After further discussion and further review of the facts and the law, a motion was made by Ossian of Montgomery and seconded by Winkelman of Calhoun that we file our report setting out the findings of our committee and recommend that the House of Representatives dismiss the contest for the seat of State Representative Charles O. Frazier. After discussion, the vote was taken showing three ayes and two nays. The committee then adjourned.

The committee therefore finds that it does not have jurisdiction in view of the foregoing record and Attorney General's opinion filed herewith.

We therefore recommend that the contest of Adrian Brinck be dismissed, and that Charles O. Frazier be declared to be duly elected as a member of the House of Representatives from Lee County, Iowa, and that the seating which took place on January 14, 1963, be confirmed.

Respectfully submitted,
CHESTER O. HOUGEN, *Chairman.*
IVAN WELLS.
WM. P. WINKELMAN.
CONRAD OSSIAN.
ALVIN P. MEYER.

February 5, 1963.

Honorable Chester Hougen,
State Representative,
Local.

RE: Brinck-Frazier contest before the
Sixtieth General Assembly

Dear Mr. Hougen:

This will acknowledge receipt of yours of January 22, 1963, in which you submitted a question concerning the election contest between Adrian Brinck, contestant, and Charles O. Frazier, incumbent. The question involves the sufficiency of the records submitted and jurisdiction of a committee of the House of Representatives to determine the election contest.

The following allegations appeared in Mr. Brinck's statement of contest:

"III

"That the Board of Canvassers were guilty of mistake, and misconduct, in the procedure and conduct of the canvass of said votes and in declaring Charles O. Frazier the winner of said election contest in that:

"a) Said election board permitted the judges and clerks of said election board in the Third Precinct to re-open the election materials of said precinct and in permitting the judges and clerks of said election board to recompute, recheck and re-certify their returns.

"b) In permitting the judge and clerks of the election board in said precinct to have access to the poll books used in said election for the purpose of changing the tallies entered therein and the results shown thereby.

"c) In that the Board of Canvassers were in error in failing to suspend the canvass of said election and set aside election in the Third Precinct in Fort Madison and failing to order a new election therein as required by Section 50.8 of the 1962 Code of Iowa, in that it appeared from the records of the judges and clerk of said election board of said precinct that the ballots cast for all officers exceeded the number of voters in the poll list.

"d) That all of the foregoing affected the results of said election.

"IV

"In addition thereto, illegal votes were received and legal votes were rejected at the polls in various precincts sufficient to change the result of said election in that there were errors made in counting so-called 'straight ballots' and in counting ballots with so-called 'switch-overs'."

The allegations in paragraph IV do not confer jurisdiction on the committee for the reason that the contestant was bound to submit a list showing the reception of illegal votes or the rejection of legal votes to the House as provided for in Sections 59.1 and 62.8, Code of Iowa, 1962. Failure in this regard and the ground stated therein results in the conclusion that no jurisdiction exists in the committee to entertain this contest. 57 House Journal 124, In the Election Contest of Woolridge v. Robinson.

Paragraph III further indicates that the allegations of the contestant even if taken as true do not afford a basis for relief as a matter of law. Parts (a) and (b) alleging that the judge and clerks were allowed to re-open the election material of the precinct and to recompute, recheck and recertify returns, merely states facts which, if true, do not show acts of mistake or misconduct, but to the contrary, are required acts of the Board of Canvassers. It has been held that such procedure is proper in an effort to indicate the true intent of the electorate. *Rummel v. Dealy*, 112 Iowa 503, 84 N.W. 526 (1900); See also 52 OAG 157.

If it should be found that the claimed error was, in fact, corrected by the Board of Canvassers through the conduct complained about above, and that the results of the election were not changed thereby—the committee should find that there was no error in not suspending the canvass and ordering a new election. Section 50.8, 1962 Code of Iowa.

Very truly yours,

EVAN HULTMAN, *Attorney General*.

EXPLANATION OF VOTE

I voted against House File 157 because of the increased cost of issuance of new license plates every year. This costs the state upwards of over a

half million dollars per year. I favor the elimination of yearly license plates and the issuance of a permanent license number to be the individual's permanent license number on each car. This would also eliminate added expense incurred at the office of the County Treasurer in issuing new plates during December and January and spread the registration throughout the year. I urge this matter be given serious consideration in the future.

HAGEDORN of Clay.

President Mooty presented to the joint convention the Honorable Kenneth Benda who presented Mr. James E. Powers, National Commander of The American Legion, preceded with the following remarks: GOVERNOR HUGHES, LIEUTENANT GOVERNOR MOOTY, LEGISLATORS, LADIES AND GENTLEMEN:

It gives me great personal pleasure to introduce to you the man who has been chosen by his fellow American Legionnaires to lead the world's largest veterans' organization.

The National Commander of The American Legion does not occupy any official position in the affairs of state. As leader of an organization of some two and three-quarter million veterans of World War I, World War II, and the Korean conflict, he is a man whose advice and counsel on matters of national government are widely sought and highly valued.

The man who accepts the position of National American Legion Commander is, without question, a true and dedicated patriot devoted to the ideals upon which this republic was founded. If he were not this type of individual, his fellow Legionnaires would never have elected him to represent them.

Born and reared in Georgia, a veteran of World War II, our speaker is a man with firm convictions that the American way of life and our form of government are the best ever devised by man under the guidance of God.

I am pleased and proud to present to you the gentleman from Georgia, Mr. James E. Powers, National Commander of The American Legion.

Mr. James E. Powers, National Commander of The American Legion, addressed the joint convention as follows:

On behalf of The American Legionnaires of this great state, and Legionnaires everywhere, I am deeply grateful for the honor you have accorded the Legion in taking time from your crowded schedules, and a moment away from the weighty problems of state government, to permit me to speak briefly with you today.

It is gratifying to me to know that I can appear in the legislative halls of any of the fifty states and, on behalf of the leaders and members of The American Legion in any given state, say a sincere and heartfelt "thank you" for the many services that every state legislature has rendered to the veteran population, and to all of its citizens.

From years of personnel experience with groups such as this, I know that your compensation for the long and tedious hours which you devote to making your communities and your state better places in which to live must come from beyond the mere monetary rewards which you receive.

You must be motivated by a sincere desire to serve, and in this respect I assure you that you find kindred spirits among The American Legionnaires of this state.

The Legion, by virtue of its Constitution, is non-political in nature, but we do not surrender our interest in public affairs, nor any of the rights and responsibilities of adult citizenship because of our organizational membership. Quite the contrary—our interest is heightened and our sense of citizenship responsibility sharpened because we are American Legionnaires.

We know that many of the accomplishments of The Legion over the years would have been utterly impossible without the excellent working relationships which exist between The Legion and the Congress of the United States and the several state legislatures.

We believe that you, our chosen representatives at all levels of government, want to hear from us and from all of your constituents, for we believe that you want to serve the will of the people, and unless that will is made known to you—you are without guidance.

Therefore, there exists the mutual responsibility between those who serve, and those whom we serve, to keep the channels of communication open and to use those channels.

The American Legion never has been guilty of failure to express its wishes, and when and if that day should arrive I believe we will have outlived our usefulness as an organization, and as individuals we shall have forfeited one of man's most priceless possessions—the right of self-government. We do not propose to let that happen.

When The American Legion proposes, or lends its support to, any given piece of legislation, it is only after careful consideration of all aspects of the problem, with the final decision based upon whether or not we believe the measure to be for the good of the nation, and germane to the programs and in keeping with the policies of The American Legion.

While the vast majority of the Legion's legislative program is carried on at the national level, it involves many matters of concern to both state and local governmental units. When you consider that some 643 resolutions came before our 1962 National Convention, and that the 1962-63 program of the Legion evolved primarily from Convention action, you know that some of those must involve state and local legislation, and action.

The Civil Defense program is an example of specifics in this field, for while you look to the federal government for advice and guidance, the actual implementation of the program is a matter to be decided by each state and local community. Perpetuation of high school R. O. T. C. programs also falls into this category, barring a change in policy at the national level.

These are but isolated examples of the broad and complex program of legislation which The Legion seeks to advance, and which we know would be impossible of achievement in the absence of a fine working relationship with our lawmakers.

Again, may we thank you for the splendid cooperation you always have

given to us, and we are confident that we may serve together in this same spirit of cooperation in the years ahead.

The American Legion was paid high tribute during our 1962 Convention by the distinguished soldier-statesman General Lucius D. Clay, who said, if the United States "had followed more closely the views and recommendations of The American Legion with respect to foreign policy over the years, our position in the world would be stronger than it is."

We trust that the same accolade holds true with respect to domestic affairs, for our objective always is service to God and country, and to our fellow man—and we know that yours is the same.

President Mooty thanked Mr. Powers for taking time from his busy schedule to appear before the joint convention.

The committee previously appointed came forward and escorted Governor Harold E. Hughes, Mr. James E. Powers, Mr. Don Birkett and Mr. John Moore from the House chamber.

The color guard retired the colors.

Mowry of Marshall moved that the joint convention be now dissolved.

The motion prevailed.

The House reconvened, Speaker Naden in the chair.

The bill having received a constitutional majority was declared to have passed the House and the title was agreed to.

EXPLANATION OF VOTE

My negative vote on House File 10 was not a vote of confidence in the drunk driver. It was a vote for the constitutional guarantees that were the basic, fundamental reasons for the forming of our American democracy. The proposals in House File 10, in my opinion, are erosions of the Bill of Rights and the Constitution. The principles of this bill could lead to far-reaching further erosion. Some future legislature using House File 10 as a guide might pass a bill that says when one signs a deed he has given his implied consent to a search of his home at any time without a search warrant.

REPPERT of Polk.

Sersland of Winneshiek read the following poem composed by him:

It was way back east in New York State,
On a cold wintry March day morn,
In the year A.D., 1923,
A baby boy was born.

He was fair and very lovely,
His parent's pride and joy,
And he was christened William J.,
This charming little boy.

He made good marks when he went to school
At St. Mary's Academy;
Then in the Coast Guard did his bit,
And served his country honorably.

Then he went to school to learn some more
In Texas, way out west,
And rose to a position of honor
In Dallas, where he did his best.

Eventually, he came to Iowa
And married the girl of his dreams,
And became a prosperous farmer,
Active in politics, too, it seems.

Was elected Representative
From the southwest county of Mills;
He serves on important committees,
And studies the difficult bills.

Only one thing has marred the bright pleasure
Of this man, so young in his prime—
Somebody, somehow, switched the figures
And listed him old 'ere his time!

And so since today is his birthday,
This error I'd publicly fix—
Admit he's just today turning forty,
While 'tis I who am really fifty-six!

PERSONAL PRIVILEGE

Kreager of Jasper rose on a point of personal privilege and read the following poem as a tribute to the Newton Cardinals, winners of the 1963 boys state basketball tournament. The team was coached by Lewis "Buzz" Levick and was undefeated in twenty-six games.

If basketball is what you like,
Then listen to this story
About the Newton Cardinals,
Who brought us fame and glory.

Last week they came to this town,
These lads, all tall and true,
Unbeaten and undaunted,
But ranked—just No. 2.

They started out against Dubuque
And found it wasn't easy.
But then came mighty Regis,
A team to make men queasy.

They told their coach, "We've waited long,
The crown is just in sight."
And Regis—*mighty* Regis,
Bowed out on Friday night.

Abe Lincoln, Council Bluffs, was next.
And its *ours*—sweet victory.
Hats off to the Cards—we're proud you see
Of *NEWTON*, State Champs for '63.

SENATE CONCURRENT RESOLUTION 13

By Rigler

Whereas, both houses of the legislature see fit to open their day's work with prayer, and it is unseemly that they should work during the time in which is commemorated the passion and death of the Lord to whom they dedicate their daily efforts;

Whereas, many members will absent themselves from the legislative halls during that time to attend services in their respective churches;

Therefore, Be It Resolved by the Senate, the House Concurring: That a special recess be held on Good Friday afternoon, April 12, 1963, during the hours of twelve to three o'clock, out of reverence to the passion and death of our Lord.

Laid over under Rule 25.

President Mooty presented to the joint convention Senator Robert R. Rigler, Majority Leader of the Iowa Senate, who on behalf of the Senate welcomed the Pioneer Lawmakers.

MR. PRESIDENT, MR. SPEAKER, DISTINGUISHED PIONEERS, FELLOW LEGISLATORS:

It is truly an honor for me to have the privilege of welcoming you, on behalf of the Iowa Senate, to this traditional meeting. Though I can make no claim to being a pioneer yet, this occasion holds special significance for me. Just ten years ago this day my wife and I came to the State House to make our first visit to the Legislature. We were disappointed to learn that we could not see any floor debate because of the Pioneer Lawmakers joint session. We decided to come over to the House and see what was going on. We sat on that bench in the corner to my far right. We heard the most fluent orator I had ever heard; I learned later his name was Congressman Burton Sweet of Waverly. The thing which I most remember about his address was how he stressed that in his mind's eye he could recall certain of his former legislative colleagues, just where they sat in this chamber, some of their characteristics, virtues and even a few frailties. This man, his message, these impressive chambers inspired me. From that day on I was a candidate for the State Senate.

I am reminded of a quotation I had to learn many years ago in English Literature. "The old order changeth, yielding place to new. And God fills himself in many ways, lest one good custom should corrupt the world." Your presence here reminds us that change is constantly taking place. We have new issues, new problems, even new philosophies. We have new faces in the same old seats, seats we sometimes come to regard as our personal possession and not belonging to the people of our great state.

While the old order does change, we are reminded on this occasion that there are certain fundamental truths which can never change. Truths such as integrity, personal responsibility, thrift, honor, liberty and freedom.

You pioneers practiced these virtues. May we never forget them. You left us a rich tradition and heritage. May your presence here remind us and our successors to think and act nobly, so that Iowans in the years to come can proudly hail us as Pioneer Lawmakers.

President Mooty presented to the joint convention the Honorable Raymond Eveland, Minority Leader of the Iowa House of Representatives, who on behalf of the House of Representatives welcomed the Pioneer Lawmakers with these remarks:

MR. PRESIDENT, MR. SPEAKER, PIONEER LAWMAKERS AND LEGISLATORS:

It is indeed a pleasure to welcome you, the Pioneers of Iowa Lawmaking.

The word "pioneer" to all Americans is descriptive of courage, foresight, vision and leadership.

The courage and foresight of Iowa lawmakers of yesteryear has made possible great places of higher learning, which may be attended by all, regardless of class, color or creed. You have obtained good schools for the young people of Iowa, and paved Iowa out of the mud. You made possible great state institutions for the care and rehabilitation of the many unfortunate people.

It would be well for all of us present lawmakers, in our sometimes frustrating deliberations, to realize that these achievements did not come without tireless effort and foresight of you who served before us. We only hope that when we are Pioneer Lawmakers, we will be as highly regarded as you are. Thank you.

President Mooty presented the Honorable Stanley L. Hart, President of the Pioneer Lawmakers, and said:

I am pleased to present to you at this time a very good friend of mine who holds an enviable record in the Iowa Senate, where he served with distinction for eighteen years. During this time he was selected three times by his colleagues to serve as their President pro tem. It is my great pleasure to present Senator Stanley Hart of Keokuk.

The Honorable Stanley Hart presented to the joint convention the Honorable Leo Elthon, Senator of Worth and former Lieutenant Governor and Governor of Iowa, who addressed the joint convention as follows:

MR. PRESIDENT, MR. SPEAKER, PIONEER LAWMAKERS, MEMBERS OF THE SENATE, MEMBERS OF THE HOUSE, MEMBERS OF THE PRESS, STATE EMPLOYEES AND VISITORS:

After serving as a member of the Senate for 20 years, as Lieutenant Governor for four years, and after being your Governor for 52 days and now again, a member of the Iowa Senate, I appear before you in the humility of one who knows the caliber of you who have and now faithfully do your part in promoting the public welfare and in advancing the best interests of this great State of Iowa.

It is only those who have had this relationship with you who really know your sincerity and your devotion to the welfare of our great state.

At times in your service for the State of Iowa, you have been greatly disappointed and maybe somewhat chagrined. Many times you have plead your heart out for a bill, seemingly won all the arguments, but failed to get the majority vote. Other times when your bill was debated and amended, you could not support it on passage. All that was left of your bill was the file number. I remember one time I was going to be sure and get a certain bill passed. So, I got 30 sponsors for the measure. It only takes 26 votes in the Senate to pass a bill—but the bill lost. When you do get a bill passed sometimes, you wonder who the father really is. However, I am sure that your memories like mine are very pleasant and you wouldn't take a million for them. Especially, the memories of good fellowship—of friends and of foes the same. As the years go by, we forget who was for and who was against but remember only who was there.

This is as it should be for we all did what we thought was best.

Iowa is now well along on its second century of statehood. On December 28, 1846, it joined the other states and became the twenty-ninth state of the union and was admitted as a free state. In the first year of its state-

hood, the state motto was adopted: "Our Liberties We Prize and Our Rights We Will Maintain." Iowa has been faithful to this ideal.

The Indians named our land "Iowa" which means "beautiful land." On the east, the Father of Waters flows southward into the great ocean and on the west, the "Mighty Mo" goes in the same general direction, joining the Mississippi in our sister state which borders us on the south. To the north, we have Minnesota, the "land of 10,000 lakes." Within these borders live nearly 3,000,000 people.

These people, and a great people they are, are by ancestry, Indians, Swedes, Norwegians, Danes, Dutch, German, English, Irish, Scotch, Italians, Greeks, Hebrews, Negroes and in fact, their ancestors came from every corner of the globe. Here in Iowa, they have all been welcome and have been accepted without any question as to their ancestry, their political belief, or their creed. Today, we pride ourselves in our tolerance for each and every group.

Here, within our borders, we have developed the greatest agriculture economy in the world, producing more of the necessities of life than are produced in any like area. We supply many times the amount needed for our people and supply these commodities to all parts of the nation and the world.

Besides being the top agricultural state of the union, we are now growing in industry. Many new manufacturing plants have been established in the last few years. Iowa has an abundant supply of labor force. The newest interest in developing industry in Iowa is beginning to produce results. It is very evident that Iowa can become a powerful industrial area.

In appraising Iowa, we do not forget our educational advantages. We have three state educational institutions that rate well in our nation and are continuing to graduate men and women who are in much demand over the nation. We have graduated and I am sure shall continue to graduate those who lead in their fields of science, law, education, business, agriculture, engineering, and religion. Our secondary schools have made wonderful advancement in the last years. We have a high average of intelligence in our people. Besides all of these public schools, there are many church schools that are doing a wonderful job in preparing young men and women to face the problems of life.

Because of its geographical location in the heartland of the nation, we are the crossroads. Through Iowa flows much of the transcontinental transportation. Our rivers carry much of the barge freight. The railroads traverse our state carrying merchandise from north to south and from east to west.

We have a superb system of surfaced highways upon which trucks carry the products of the west coast to the east and from the St. Lawrence Waterway to the south and west. Through Iowa flows much of the commerce of the nation.

Our natural resources are immense, some of which are yet to be developed. And in this development, we shall certainly conserve them for those who follow us. Our water resources and our conservation projects must be handled in such a way that the coming generations will benefit by our prudent use and development of them.

We are one state in a union of 50. We certainly have obligations to the nation and to the rest of the states, and to the world. However, as I stated earlier, our state motto is "Our Liberties We Prize and Our Rights We Will Maintain." When we think of the things that have made Iowa great and of the problems that we, the State of Iowa, and the nation face, we cannot but have some misgivings as to what the future holds for us. It seems to me

we should at this time review the basic principles upon which our nation and our state have so gloriously prospered.

In the first place, we are a republic and under our bill of rights, we are guaranteed certain inalienable rights, among which is the right to own and hold property. Together with this particular right, we have an obligation to support our government. In other words, for the right to own property, the holding of this property carries with it the obligation to pay taxes. But the "power to tax is the power to destroy." When property taxes become so great, that it is no longer prudent to hold and to have property, then "the power to tax has become the power to destroy."

At this point, I want to commend those who have gone on before us, those who have had a part in developing this great state of ours. Those who so wisely forbid in our state constitution the contracting of a state debt of over \$250,000.00 without providing means for the repayment thereof. This policy has been faithfully adhered to down through the years.

We are now faced with a serious situation calling upon us who are now trusted with the destiny of our state for a solution. Our state is still financially sound for which we are thankful. But in this last year, we have spent \$10,000,000.00 more than sound finances should allow. Very seldom in the history of our state has this happened.

We only need to look at some of the states around us to see what course a state takes, if this matter is not quickly righted. Or let us look at the Federal Government that has increased its debt from four billion to over 300 billion in our lifetime. When any division of government like any business fails to balance its finances, it soon is in trouble and can only end in bankruptcy unless the remedy comes sure and quickly.

We here in Iowa have only a small voice in the affairs of our nation, but those we have sent to Washington, by and large, have used their voice against this dangerous trend and are to be commended for it. But we the people of Iowa, and especially those holding positions in the legislature, have a responsibility under our constitution to see that the finances of Iowa are put in order.

I was brought up to believe that one should never spend monies that belong to someone else. To do so certainly can only bring disaster. The people of Iowa are opposed to any increase in taxes. And most certainly, they are opposed to any increase in property tax. There have been several bills introduced in this session that would take some of the tax burden from property. But in order to do this, there has to be a shift of taxes to some other source. It is impossible to find a source that will be acceptable to all the people and bring the kind of revenue to the state treasury that we need for the purpose of replacement of property tax and for the reasonable needs of our state.

When a candidate for the Iowa Senate, I told my people that I would vote against any increased appropriations unless there was a substantial reduction in property taxes. I have not changed my mind. With cattle prices and hog prices as much at \$5.00 per cwt. less than they were a year ago, we cannot expect the farmer who has paid a large share of the taxes in Iowa to be very happy about any increase in taxes, especially property taxes. And I might add that most people in Iowa are farm minded and directly prosper as the farmer prospers. This is the most important question that faces this session of the legislature and will have to be resolved either in more taxes or less spending.

The time is here, in fact, long past due, when those who believe in the principles upon which our republic was founded, to insist that those principles be re-stated with clarity and force. And that the individual again be given a chance to provide for himself.

Some of us believe that a function of government is to help make an opportunity for each of us to provide for himself and his family. There are others who believe that the government should simply provide for us. The one philosophy tends toward socialism. The other toward individualism and private enterprise.

Those who want socialism are for more government both state and federal, and they seem to believe that the day in which a young man can start with only a will to do and be a success is past. This, of course, is far from the truth.

There never was a time when there was more opportunity for one who is willing to work, save and advance himself.

In this connection, this trend toward socialism or stateism, or call it what you may, in each advancing stage penalizes the individual with more taxes, more rules, more regulation, less freedom, less opportunity, and less money for himself to use for the necessities of life.

It seems that we should have learned before this, that the price for financial security furnished by the government, whether it be state or federal, comes in exchange for the loss of liberty and freedom.

Our whole economy and most individuals in it groan with the load of taxes that are extracted by this process. But as the load gets heavier, we expect more help financially and the government obliges and we get another round of taxes.

Now, they speak of a tax cut when we are already billions off balance and, at the same time, want to pass out more doles and more so-called security, all in the name of expanding our economy.

How long can you fool the people? How long can you pile up a national debt? How much can you reduce the value of the dollar?

The strength of our republic and the position that it has held among the nations was because of its wealth, its productivity, its liberty, and the rights of the individual. As these factors diminish, so our position deteriorates and we become a socialistic nation, unable to retain the respect and admiration of the rest of the world.

I believe every man should have an opportunity to do and to dare, but I also believe that the government owes no man a living. We are fast becoming a nation of security minded people. A security provided by someone else.

Those of us who believe in providing our own security by hard work, careful spending, and prudent investment are becoming the minority. It is for us to expound the virtues and the principles of our republic and of the capitalistic system that made us the the greatest nation of all time.

I shall not leave this platform without expressing my faith in the ability and the desire of the legislature to solve this problem and the other problems which are before them.

I also want to praise you who are here today and have served the state in the same capacity. For you too stood up to the problems of your day and honorably and ably solved them.

There seems to be a tendency in our state as in all states, and the nation too, to continually expand the importance of government in our lives. There is no doubt that we need government, but I am reminded of the statement made by one of our peers, "the government that governs least governs best." And again, let me repeat our state motto, "Our Liberties We Prize and Our Rights We Will Maintain." Only a few years ago, the state built a fine office building, and by the way, Senator Stanley Hart was the prime promoter and builder of this fine building. We expected at that time that this structure would be sufficient to hold the departments of state. And it should. But now, we find it is overflowing and if the tendency toward more

government is not curtailed, we will need another just like it only bigger. I believe it is time to quit creating more departments, commissions, and services. I think we should re-appraise the situation and reduce state government if at all possible. Therein lies the solution of tax reduction. This is the road to the realization of what is best for Iowa. This is the fulfillment of our state motto, "Our Liberties We Prize and Our Rights We Will Maintain."

Goodbye and God bless you—

Mowry of Marshall moved that the joint convention be now dissolved.

The motion prevailed.

The House reconvened, Speaker Naden in the chair.

AMENDMENTS FILED

1 Amend Senate File 1 by striking all after the enacting
2 clause and inserting in lieu thereof the following:
3 Section 1. Section three hundred six A point one
4 (306A.1), Code 1962, is hereby amended by adding the following
5 paragraph at the end thereof:
6 "It is hereby further declared to be the policy of the
7 state that all owners or occupants of land abutting any public
8 highway or street which shall have been in use as a public
9 highway or street prior to its designation or establishment
10 as a controlled-access facility, shall have the right of free
11 and convenient access to such highway or street. No action
12 heretofore or hereafter taken by any highway authority shall
13 in any way limit or divest, by adverse possession or otherwise,
14 such right of free and convenient access, except that such
15 right of access shall be subject to reasonable regulations
16 and restrictions now or hereafter established pursuant to this
17 chapter. However, this paragraph shall not apply if and to
18 the extent that such right of access or the right to regulate,
19 limit, restrict, or prohibit such access has been heretofore
20 acquired or shall hereafter be acquired by any city, town, or
21 highway authority under the provisions of section three hundred
22 six A point five (306A.5) of this chapter or by gift, devise,
23 purchase, condemnation, or contract."

1 Amend Senate File 11 as follows:
2 1. Amend section 1 by striking from lines fourteen (14) and
3 fifteen (15) the words "telephone companies having less than
4 two thousand (2,000) stations,".
5 2. Amend by striking all of section 3 and substituting
6 therefor the following:
7 "Sec. 3. Every public utility shall furnish reasonably
8 adequate service at rates and charges in accordance with
9 tariffs filed with the commission. Whenever there is filed
10 with the commission by any person or body politic, or filed
11 by the commission upon its own motion, a written complaint
12 requesting the commission to determine the reasonableness of
13 the rates, charges, schedules, service, regulations, or
14 anything done or omitted to be done by any public utility
15 subject to this Act, in contravention of the provisions thereof,
16 such written complaint thus made shall be forwarded by the
17 commission to such public utility, which shall be called upon
18 to satisfy the complaint or to answer the same in writing
19 within a reasonable time to be specified by the commission.
20 If such public utility shall not satisfy the commission with
21 respect to the complaint within the time specified and there
22 shall appear to be any reasonable ground for investigating
23 said complaint, it shall be the duty of the commission to
24 promptly initiate a formal proceeding. Such a formal proceeding

25 may be initiated at any time by the commission on its own
 26 motion. Whenever such a proceeding has been initiated upon
 27 application or motion, the commission shall set the case for
 28 hearing and give such notice thereof as it deems appropriate.
 29 Whenever the commission, after a hearing had after reasonable
 30 notice, finds any public utility's rates, charges, schedules,
 31 service or regulations are unjust, unreasonable, discriminatory
 32 or otherwise in violation of any provision of law, the
 33 commission shall determine just, reasonable and non-discriminatory
 34 rates, charges, schedules, service or regulations to be
 35 thereafter observed and enforced."

36 3. Amend section 7 by striking from line two (2) "person
 37 or body politic".

38 4. Amend section 8 by inserting in line three (3) after the
 39 word "light", the word "gas,".

 41 and inserting in lieu thereof the following:

42 "2. Every public utility engaged directly or indirectly
 43 in any other business than that of production, transmission
 44 or furnishing of heat, light, water, gas or power or the
 45 conveyance of telephone messages shall keep separate
 46 accounts to show all profits or losses resulting from such
 47 other business. Such profit or loss shall not be taken into
 48 consideration by the commission in arriving at any rate to be
 49 charged for service by any such public utility."

50 6. Further amend by adding a new section 26, as follows:

51 "Sec. 26. Nothing contained in this Act shall be construed
 52 to require the approval of the commission for the establishment
 53 and erection of municipally or cooperatively owned generating

COMMITTEE ON PUBLIC UTILITIES,
 RAYMOND FISHER, *Chairman*.

1 Amend Senate File 11 as follows:

2 1. Strike all of section 23 after the word "Act" in
 3 line 10 and insert the following in lieu thereof:

4 "and excepting that:

5 (1) If an area has been or shall be included, as a
 6 result of incorporation, annexation or otherwise, within
 7 the boundaries of a city or town, and if a public utility
 8 has been or shall be granted a franchise for electric service
 9 by such city or town, any other public utility furnishing
 10 electric service or operating electric facilities in such
 11 area prior to such inclusion shall, subject to the pro-
 12 visions of this Act, have the right to continue the fur-
 13 nishing of electric service and to construct, maintain and

14 operate electric facilities in such area, and to utilize
15 public lands and thoroughfares therein for such purpose.
16 However, such non-franchised utility shall comply with
17 lawful safety requirements as to the manner of construction
18 and maintenance of electric facilities in such city or town;
19 shall comply with all rates, terms and conditions of the
20 franchise granted, renewed, amended or extended by such
21 city or town from time to time, insofar as such compliance
22 shall be practicable; and shall pay property taxes to such
23 city or town on the same basis as required for the franchised
24 utility.

25 (2) However, such non-franchised utility shall not
26 extend service to any additional point of delivery within
27 such city or town if the commission after notice and hearing,
28 with due consideration of any unnecessary duplication of
29 facilities, shall determine that such extension is not in
30 the public interest.

31 (3) The commission may terminate the right of such
32 non-franchised utility to furnish electric service and to
33 construct, maintain and operate electric facilities in such
34 area if, after notice and hearing, it shall find that such
35 non-franchised utility has materially failed to comply with
36 the rates, terms and conditions of the franchise granted,
37 renewed, amended or extended by such city or town from
38 time to time, and that the same could practicably have
39 been complied with; or that the service furnished by the
40 non-franchised utility in such area is inadequate; or
41 that such termination is required in the public interest.
42 Upon such termination the franchised utility shall promptly
43 purchase the electric facilities of such non-franchised
44 utility within such area. The non-franchised utility shall
45 continue to furnish electric service until such facilities
46 are transferred to the franchised utility, and thereafter
47 the franchised utility shall furnish such service without
48 interruption. The franchised utility shall promptly pay
49 to the non-franchised utility the fair and reasonable value
50 of such facilities. If possible, such payment shall be
51 made by exchange of other electric facilities outside such
52 city or town on the basis of substantial equality of present
53 revenues from the respective facilities. In the event the
54 public utilities involved are unable to agree as to the
55 terms of such payment or exchange, then upon application of
56 either utility the commission shall, after notice and hearing,
57 determine fair and reasonable terms for such exchange, or
58 in the event no appropriate facilities can be exchanged
59 the commission shall fix and determine the fair and reasonable
60 value of such facilities within such area, and the commission
61 shall fix the date for such payment or exchange and transfer.

62 (4) However, if a city or town shall provide electric
63 service to its citizens through a municipally owned and
64 operated electric system, such municipally owned and operated
65 electric system shall be entitled to serve all the area
66 which shall be included, as a result of incorporation, annex-
67 ation or otherwise, within the boundaries of such city or
68 town. The municipally owned utility shall promptly purchase

69 the electric facilities of any other public utility serving
70 any part of the area of such city or town. Such other
71 utility shall continue to furnish electric service until
72 such facilities are transferred to the municipally owned
73 utility, and thereafter the municipally owned utility shall
74 furnish such service without interruption. The municipally
75 owned utility shall promptly pay to such other utility the
76 fair and reasonable value of such facilities. If possible,
77 such payment shall be made by exchange of other electric
78 facilities outside such city or town on the basis of sub-
79 stantial equality of present revenues from the respective
80 facilities. In the event the public utilities involved
81 are unable to agree as to the terms of such payment or
82 exchange, the procedure provided in the preceding subsection
83 shall be applicable.

84 (5) No termination or purchase under the provisions
85 of this section shall apply to or affect facilities for
86 production, generation or high voltage transmission of
87 electricity, including high voltage transformers."

88 2. Add the following new sections after section 23:

89 "Sec. 24. The services of public utilities and the
90 commission's regulation thereof shall be subject to the
91 following provisions:

92 (1) No public utility shall construct or extend electric
93 facilities or furnish or offer to furnish electric service
94 to the point of delivery at the consumer's usable voltage
95 on any premises which are already receiving electric service
96 from another public utility.

97 (2) No public utility shall construct or extend electric
98 facilities or furnish or offer to furnish electric service to
99 a prospective customer not presently being served unless its
100 existing electric service facilities are nearer the proposed
101 point of delivery at the consumer's usable voltage than the
102 electric service facilities of any other utility.

103 (3) Notwithstanding the provisions of subsections (1)
104 and (2) of this section, any public utility may extend
105 electric service to its own property and facilities or to
106 another public utility for resale, or to a consumer or
107 prospective consumer in case the public utility closest to
108 or presently serving the delivery point consents thereto in
109 writing or the commission after notice and hearing finds
110 that such other electric service is necessary to serve
111 adequately the requirements of the consumer."

112 "Sec. 25. All laws and parts of laws inconsistent with
113 this Act are hereby repealed."

HOUSE FILE 48 VETOED

The following communication was received by the Chief Clerk:

STATE OF IOWA
Office of the Governor
Des Moines

Harold E. Hughes
Governor

March 29, 1963.

The Honorable Robert W. Naden,
Speaker of the House of Representatives,
Sixtieth General Assembly,
State House,
Des Moines, Iowa.

Honorable Members of the House of Representatives:

House File 48, an act relating to the licensing and the annual inspection of county homes, is hereby disapproved and returned to the House of Representatives in accordance with Article III, Section 16, Constitution of the State of Iowa. House File 48 is disapproved for the following reasons:

This act would exempt the 83 county homes in Iowa from the licensing requirements that now apply to county homes and to all private nursing and custodial homes.

The county homes, therefore, would not be required to meet the minimum standards for health, safety and trained personnel now set by the State Department of Health and the State Fire Marshal.

I do not believe that such an act would be in the best interests of the 6,000 persons now living in county homes, of the taxpayers of the counties that have county homes or of the 17,000 persons now being cared for in private nursing and custodial homes throughout Iowa.

The minimum standards set by the Department of Health are reasonable and I can see no reason why county homes should not be required to meet them: At present, 739 private nursing and custodial homes—including 680 proprietary taxpaying facilities and 59 nonprofit institutions—are able to operate under them. Sixty-nine of these are in some stage of contemplated construction.

It is clear that the present laws, which were enacted after the tragic Council Bluffs nursing home fire in 1957, have neither retarded the growth of Iowa nursing homes nor made their operation impossible.

The Department of Health has not been overzealous in its enforcement of the nursing home laws. Only 7 of 83 county homes have been licensed. The department has been mindful of the fact that it would not be in the best interests of the elderly of our state to insist upon strict compliance at an early date at the risk of forcing the closing of several county homes. We should now move toward greater compliance rather than abandon all efforts to upgrade the standards at our county homes.

The enactment of this bill, I fear, would have a bad psychological effect on the enforcement of the entire nursing home act. What are the operators of private nursing homes to think when the state government demands that their homes abide by certain standards? It would seem that the county homes should set examples of good practice and full compliance. I fear the incentive for trying to comply with standards will be undermined and the entire program will degenerate to a pure regulatory program rather than a program designed to upgrade care through education, technical guidance and encouragement to nursing home operators for self-improvements. The county home, which once housed primarily the indigents has changed its function in recent years.

Today the majority of its patients are the aged mentally ill. Many of these are persons with incurable, yet non-violent, mental illnesses who have been returned from state mental hospitals to be cared for in county nursing homes at a saving to the county taxpayers. These people are old, poor, sick and often without family or friends. They are among the most helpless members of our society. I do not feel the state should withdraw its protection from them or lessen its concern for them.

Very truly yours,
s/HAROLD E. HUGHES,
Governor.

- 10 Section 1. Definitions. The following definitions shall
- 11 apply to this chapter:
- 12 1. "Mobile home" means any vehicle without motive power
- 13 used or so manufactured or constructed as to permit its being
- 14 used as a conveyance upon the public streets and highways and

15 so designed, constructed, reconstructed, or added to by attached

19 used or so manufactured or constructed as to permit its being
20 used as a conveyance upon the public streets and highways and
21 so designed to permit the vehicle to be used as a place for
22 human habitation by one or more persons but such vehicle shall
23 not exceed eight (8) feet in width nor be longer than twenty-
24 six (26) feet which includes that part of the vehicle designed
25 for use as a trailer hitch, which is customarily or ordinarily
26 used for vacation or other recreational purposes and not used
27 as a place of permanent habitation.

28 3. "Mobile home park" means any site, lot, field, or tract
29 of land upon which two or more mobile homes are or may be
30 harbored, and served by common water supply, common sewage
31 system or other common sanitary facilities, either free of charge
32 or for revenue purposes, and shall include any building, structure,
33 tent, vehicle, or enclosure used or intended for use as part of
34 the equipment of such mobile home park. Any mobile home park
35 located in more than one municipality shall be dealt with as two
36 separate mobile home parks.

37 The term "mobile home park" shall not be construed to include
38 facilities provided for mobile homes on the state, county, and
39 county 4-H fair grounds during the times that such fairs are
40 held, nor mobile homes temporarily maintained by any individual,
41 educational institution, or company on their own premises and
42 used exclusively to house their own labor or students. This
43 provision shall not be construed to interfere in any way with the
44 enforcement of sanitation regulations by the local board of health
45 having jurisdiction.

46 Any mobile home park owned and operated by any municipality
47 or political subdivision of this state shall meet all the provi-
48 sions of this chapter. Any mobile home park owned and operated
49 by any agency or department of this state shall meet all the
50 provisions of this chapter except section seven (7) of this Act.

51 4. "Department" shall mean, for the purposes of this chapter,
52 the state department of health.

53 Sec. 2. The department shall have authority to prescribe
54 reasonable rules and regulations for the administration and en-
55 forcement of this chapter. All rules and regulations shall be
56 filed and entered by the department in its office in an index,
57 permanent book, or record, with the effective date thereof suitably
58 indicated, and such book or document shall be a public document.
59 Whenever a new rule or regulation is adopted by the department, a
60 copy of the same shall be provided to each licensee hereunder.
61 All rules and regulations issued shall be in conformity with the
62 provisions of chapter seventeen A (17A) of the Code.

63 Sec. 3. No person, agency, firm, or corporation shall con-
64 struct, expand, remodel, or make alterations to the sanitary
65 facilities and appurtenances thereto, in a mobile home park with-
66 in this state without first obtaining a permit therefor from the
67 department. The application for such permit, accompanied by
68 appropriate plans and specifications, shall be made to the depart-
69 ment in such manner as may be prescribed by the regulations of the

70 department; provided that, when such mobile home park is located
71 within a municipality, the application and the plans and speci-

73 shall forward the same to the department when the proposed facili-
74 ties have been found to comply with local ordinances, codes, and
75 other local regulatory measures, applicable thereto and not in
76 conflict with this chapter.

77 When the application has been approved, the department shall
78 issue a permit to the applicant to construct or to make altera-
79 tions to the sanitary facilities and appurtenances thereto accord-
80 ing to the plans and specifications presented with the approved
81 application. No approval of plans and specifications nor issuance
82 of a permit to construct or to make alterations to the sani-
83 tary facilities and appurtenances thereto by the department
84 shall be contrued as having been approved for other than sanita-
85 tion. Such a permit does not relieve the applicant from securing
86 building, plumbing, and similar permits in municipalities having
87 pertinent codes or ordinances.

88 Construction or alteration of the sanitary facilities and
89 appurtenances thereto of a mobile home park shall not be started
90 until the permit has been duly issued; and such construction and
91 alteration shall be performed in accordance with the plans and
92 specifications providing the basis for issuing the permit.

93 Sec. 4. No person, firm, agency, or corporation shall establish,
94 maintain, conduct, or operate a mobile home park within this state
95 without first obtaining a license therefor from the department.
96 Such license shall be issued for the period to expire at mid-
97 night on June 30 of each year. All effective licenses that
98 would otherwise expire December 31, 1963, shall be automatically
99 extended until June 30, 1964.

100 The license for each existing mobile home park that is operated
101 and maintained shall be renewed annually. The application for
102 such renewal of license shall be submitted to the department on
103 or before June 30 of each year. On July 1 of each year a penalty
104 of five percent of the annual license fee shall be added to all
105 license fees not paid by that date, and five percent of the annual
106 license fee shall be added to such fees on the first of each
107 month thereafter until paid; provided that in no case shall the
108 penalty be less than one dollar.

109 Sec. 5. The application for a license, or renewal of a license,
110 to operate a mobile home park shall be made to the department, at
111 such office and in such manner as may be prescribed by regulations
112 of the department; provided that, when such mobile home park is
113 located within a municipality, the application shall be filed with
114 the local board of health which shall forward the same to the de-
115 partment when the park facilities have been found to comply with
116 local ordinances, codes, and other local regulatory measures
117 applicable thereto.

118 Sec. 6. The application for such license, or renewal of
119 license, shall be in writing and upon such form as the department
120 may by regulation provide, and shall include the following in-
121 formation:

122 1. The full name and address of the applicant or applicants,
123 or names and addresses of the partners if the applicant is a part-
124 nership, or the names and addresses of the officers if the appli-

125 cant is a corporation, and the present or last occupation of the
126 applicant at the time of the filing of the application.

127 2. A legal description of the site, lot, field, or tract of
128 land upon which it is proposed to operate and maintain a mobile
129 home park.

130 3. The existing facilities on and about such site, lot, field,
131 or tract of land for the maintaining of a sanitary community

140 Sec. 7. The annual license fee, which shall be submitted with
141 the application for a license, or renewal of license, to operate
142 a mobile home park, shall be thirty dollars for each park with
143 facilities for twenty or less mobile homes, and shall be thirty
144 dollars, plus five dollars for each additional twenty or fraction
145 thereof in excess of twenty, in each park with facilities for
146 twenty-one or more mobile homes. In the event a mobile home park
147 has facilities for three or less mobile homes, the annual license
148 fee shall be fifteen dollars.

149 If an applicant for a license to operate a mobile home park
150 desires to operate the mobile home park only during the period
151 between May 1 and October 1, he shall pay only one-half of the
152 annual license fee as specified above.

153 All annual license fees collected by the department under this
154 section shall be placed in a special fund by the treasurer of
155 state and the state comptroller, to be known as the "state mobile
156 home park fund," to be used by the department to assist in the
157 administration and the enforcement of this chapter. Said fund
158 shall be subject at all times to the warrant of the state comp-
159 troller, drawn upon the written requisition of the commissioner of
160 public health, for the payment of expenses necessary to administer
161 and to enforce this chapter. Any remainder in said fund at the
162 end of each fiscal year shall be paid into the general fund of
163 the state.

164 Sec. 8. The department shall furnish all necessary forms to
165 be executed in making application for all permits and licenses
166 under this chapter.

167 Sec. 9. When the application for a license, or renewal of
168 a license, to operate a mobile home park is received by the
169 department, it shall promptly cause the mobile home park and
170 appurtenances thereto to be inspected. When such inspection and
171 report have been made and the department finds that all require-
172 ments of this chapter and such conditions of health and sanitation
173 as the department may require have been met by the applicant, the
174 department shall forthwith issue a license in the name of the state.
175 Any applicant may operate as a mobile home park until his ap-
176 plication for a license is disapproved by the department, and
177 such disapproval is accepted by the applicant or affirmed by
178 the courts.

179 Sec. 10. When the department has approved an application for

180 a permit to construct, or to make alterations to the sanitary
181 facilities and appurtenances thereto, in a mobile home park, or
182 a license to operate the same, it shall retain the original
183 application, plans, and specifications, and keep a file thereof.
184 One copy of each permit or license shall be returned to the
185 applicant or his agent, and one copy of each to the local board
186 of health having jurisdiction over the park site.

187 It shall be the duty of the department to notify, or cause to
188 be notified, the treasurer of each municipality of the issuance
189 of each mobile home park license to any park located within the
190 jurisdiction of such municipality.

191 Sec. 11. If the applicant for a permit to construct, or to
192 make alterations in the sanitary facilities and appurtenances
193 thereto, in a mobile home park, or a license to operate the same,
194 is denied by the department, it shall so state in writing, giving
195 the reason for denying the application. If the objection can
196 be corrected, the applicant may amend his application and re-
197 submit it for approval, and if denied, the applicant may within
198 thirty days appeal from the decision of the department to the
199 district court of the county in which said mobile home park is
200 located, and the case shall be tried in equity.

201 Sec. 12. The department shall have the power to delegate to
202 local boards of health the duties of inspection and regulation
203 of mobile home parks located within the jurisdiction of such local
204 boards of health, where, in the opinion of the department, such
205 delegation can best effectuate the provisions of this chapter.
206 When duties are so delegated, fifty percent of the annual license
207 fee collected therefrom shall be turned over to the treasurer
208 of the jurisdiction involved upon the written requisition of
209 the commissioner of public health to the comptroller.

210 Sec. 13. Any license granted hereunder shall be subject to
211 revocation or suspension by the department or local boards of
212 health. The department shall first serve or cause to be served
213 a written notice specifying a way or ways in which said licensee
214 has failed to comply with this chapter, or any special rules or
215 regulations promulgated by the department pertaining thereto.
216 The notice shall direct the licensee to remove or abate such
217 nuisance, insanitary or objectionable condition specified in the
218 notice within five days, or within such reasonable period of time
219 or extended period of time as may be reasonably allowed by the
220 complaining officer. If the licensee fails to comply with the
221 terms and conditions of the notices, within the time specified or
222 such extended period of time, it shall be the duty of the county
223 attorney of the county in which such violation occurred to start
224 a civil action to remove or abate such nuisance, insanitary,
225 unhealthful, or objectionable condition as complained of, in a
226 court of proper jurisdiction of the city or county, in the name
227 of the state of Iowa, and if found guilty an order may be entered
228 by the court to revoke or suspend such license.

229 Sec. 14. Any person constructing, enlarging, or making alter-
230 ations to the sanitary facilities in any mobile home park with-
231 out a permit, or operating a mobile home park without a license,
232 or violating any other provision of this chapter shall be fined
233 not less than one hundred dollars nor more than five hundred
234 dollars, or be imprisoned in the county jail for not more than

235 thirty days.

236 Sec. 15. The licenses and fees provided for in this chapter
237 shall be in addition to any licenses and fees provided for in
238 chapter three hundred twenty-one (321) of the Code.

239 Sec. 16. There shall be a semiannual tax on each mobile home
240 paid to the county treasurer, which shall be computed as follows:

241 1. Multiply the number of square feet of floor space each
242 mobile home contains when parked and in use by seven and one-
243 half cents. In computing floor space the exterior measurements
244 of the mobile home shall be used, as shown on the certificate of
245 registration and title, plus any enclosed additions made thereto
246 but not including any area occupied by any hitching device.

247 2. The amount thus computed shall be the semiannual fee for
248 all mobile homes for the first five (5) years after the year of
249 manufacture.

250 3. For the sixth through ninth years after the year of manu-
251 facture the semiannual fee shall be ninety (90) percent of the
252 fee computed according to subsection one (1) of this section.

253 4. For all mobile homes ten (10) or more years after the year
254 of manufacture the semiannual fee shall be eighty (80) percent
255 of the fee computed according to subsection one (1) of this
256 section.

257 Sec. 17. Travel trailers and the inventory of dealers or
258 manufacturers of mobile homes, new or used, shall not be subject
259 to the mobile home tax. Mobile homes coming into Iowa
260 from out of state shall be liable for the tax, computed pro rata
261 to the nearest whole month, for the time such mobile home is
262 actually situated in Iowa.

263 Sec. 18. The tax levied herein shall be due and payable to
264 the county treasurer semiannually in advance of January 1 and
265 July 1 in each year; and shall be delinquent February 1 and Au-
266 gust 1 in each year, after which a penalty of five (5) percent
267 shall be added each month until paid. A mobile home parked and
268 put to use at any time between the taxation dates specified herein
269 shall be immediately subject to the taxes levied herein for the
270 remaining months or days of the tax period. Said tax shall be
271 due and payable immediately, and delinquent thirty (30) days
272 after said parking and subject to the same penalties herein
273 set out.

274 Each mobile home park licensee is hereby required to keep an
275 accurate and complete record of the number of units of mobile
276 homes harbored in his park, listing the owner's name, year and
277 make of the unit and whether there is a current registration
278 plate, and to report such information on or before the tenth day
279 of each month to the county treasurer. The records of such
280 licensee shall be open to inspection by a duly authorized repre-
281 sentative of any law-enforcement agency. Any property owner,
282 manager or tenant shall report to the assessor any and all
283 mobile homes parked upon any property owned, managed, or rented
284 by him.

285 The county treasurer shall report the name of any owner of a
286 mobile home and the year, make, and serial number of each unit
287 on which there is no current registration plate to the Iowa
288 department of public safety. The motor vehicle division shall
289 be the enforcement agency for enforcement of registration pro-

290 visions.

291 The tax and registration fee shall be a lien on the vehicle
292 senior to any other lien there may be upon it. The mobile
293 home and automobile bearing current registration plates issued
294 by any other state than the State of Iowa occupying space with-
295 in a licensed mobile home park for an accumulated period not to
296 exceed ninety days in any twelve month period shall not be sub-
297 ject to Iowa tax. However, when one or more persons occupying a
298 mobile home bearing a foreign registration are employed within the
299 State of Iowa, there shall be no exemption from Iowa registration
300 and tax herein levied. This tax shall be in lieu of all other taxes
301 general or local.

302 Sec. 19. This tax shall be credited to the school fund of the
303 district wherein the mobile home is located.

304 Sec. 20. No mobile home shall be assessed for property tax
305 nor be eligible for homestead tax credit or military service tax
306 credit unless:

307 1. The mobile home owner intends to convert his mobile home
308 to real estate and does so by:

310 tion on real estate owned by him. Encumbered mobile homes shall
311 not be converted to real property.

312 b. Destruction or modification of the vehicular frame ren-
313 dering it impossible to reconvert the real property thus created
314 to a mobile home.

315 2. After converting a mobile home to real estate, the owner
316 shall notify the assessor who shall inspect the new premises
317 for compliance with the provisions of this section and if the
318 mobile home is properly converted, the assessor shall then col-
319 lect the mobile home vehicle title, registration, and license
320 plates from the owner and enter the property upon the tax rolls.

321 Sec. 21. Section four hundred forty-one point seventeen

324 "Check all mobile homes for proper vehicle registration and
325 for accuracy of the measurements of the mobile homes and report
326 all violations of the registration laws to the county attorney
327 and county treasurer. If a mobile home has been converted to
328 real estate the registration certificate, license plates, and
329 title shall be collected and returned to the county treasurer
330 for cancellation. If the registration fee and license fees for
331 prior years have not been paid, the assessor shall collect the
332 registration fee and license fees for the year last past, if
333 applicable, as a condition of conversion. It shall be the
334 further duty of the assessor to make sufficiently frequent
335 inspections and checks within his entire jurisdiction of all
336 mobile homes and mobile home parks and travel trailers and make
337 all the required and needed reports to carry out the intents

SENATE AMENDMENT CONSIDERED

Carstensen of Clinton called up for consideration House File 17, a bill for an act relating to rules of administrative agencies, and the following Senate amendment:

Amend House File 17 as follows:

1. Strike all of lines 1 through 3 after the enacting clause and insert in lieu thereof the following:

"Chapter seventeen A (17A), Code 1962, is hereby amended by striking all of sections seventeen A point one (17A.1) through seventeen A point ten (17A.10), inclusive, and sections one (1) through twelve (12) of this Act are enacted in lieu thereof:"

2. Strike all of sections 2, 3 and 4 and insert in lieu thereof the following:

"Sec. 2. There is hereby created a bipartisan legislative committee of six (6) members which shall be designated the departmental rules review committee. The committee shall be composed of three (3) members of the senate to be appointed by the president of the senate and three (3) members of the house to be appointed by the speaker of the house. Members shall be appointed prior to the adjournment of each regular biennial session and shall serve for two-year terms beginning May 1 after the convening of the general assembly in regular session; provided, however, that members shall serve until their successors are appointed. Vacancies on the committee shall be filled by the original appointing authority. A vacancy shall exist whenever a committee member ceases to be a member of the general assembly.

"Sec. 3. The committee shall choose a chairman from its members and prescribe its rules of procedure. Regular meetings of the committee shall be held at the seat of government on the second Tuesday in July and on the second Tuesday of each second month thereafter during the interim between regular sessions to review all proposed departmental rules and make recommendations to the department proposing each such rule. The chairman may call special meetings at any time and at any place in the state

and cause notice thereof to be published in two (2) newspapers of general circulation in the area affected by the rule. All said meetings, regular or special, shall be open to the public and any interested person may be heard and present evidence. If any agency shall conduct public hearings in regard to any rules such agency shall notify the members of the departmental rules review committee ten (10) days prior to such meeting.

"Sec. 4. Members of the committee shall receive a per diem of thirty (30) dollars per day for each day in attendance and shall be reimbursed for the actual necessary expenses incurred by them in the discharge of their duties. All such expenses and the expense of publication shall be provided for by the budget and financial control committee from the contingent fund provided for the budget and financial control committee.

"Sec. 5. Any agency empowered by statute to make rules shall submit a copy of each proposed rule, or amendment thereto, citing their authority and the statute the rule is intended to implement and in the style and form prescribed by the code editor, to the attorney general who shall within thirty (30) days after receiving such copy give to the agency in writing his opinion on the form and legality of the proposed rule. Unless within the aforesaid thirty-day period the attorney general renders his opinion upholding the form and legality of the proposed rule, the proposed rule shall have no further force or effect.

"Sec. 6. Every agency shall, after receiving a favorable opinion from the attorney general on a proposed rule, submit six (6) copies of the proposed rule, together with a copy of the attorney general's opinion, to the chairman of the departmental rules review committee. If the committee finds objection to such rule, it shall report such finding to the department proposing such rule together with its suggestion of how the objectionable part may be removed. The agency shall receive a report from said committee prior to filing the proposed rule with the secretary of state.

"Sec. 7. Four (4) copies of all rules proposed, each with a copy of the attorney general's opinion attached thereto, shall be filed with the secretary of state. Temporary rules shall become effective upon such filing. Other rules, unless otherwise provided for, shall not become effective until thirty (30) days after such filing, but a later effective date may be specified in the rule. The secretary of state shall endorse upon the copies of rules so filed the date of filing and the date of the attorney general's opinion and index one (1) copy in the files of his office, transmit one (1) copy to the code editor, and transmit two (2) copies to the chairman of the departmental rules review committee.

"Sec. 8. All rules hereafter filed as provided in section seven (7) of this Act, with the committee's report attached thereto, shall be referred by the chairman of the departmental rules review committee to the speaker of the house and the president of the senate of the next regular session of the general assembly who shall refer rules to the appropriate committees of the general assembly.

"If the committee, to which a departmental rule has been referred, finds objection to such rule, it may report such finding to the general assembly together with its suggestion for the general assembly to proceed by law to overcome the objection. Any committee of the general assembly may at any time consider any departmental rule previously filed and, if it finds such rule objectionable proceed as above.

"Nothing contained herein shall adversely affect the substantive rights of any person arising out of any rule adopted by any agency, including the right to review by the courts. Reporting or referral of rules to the general assembly or inaction by the general assembly on rules reported or referred

shall not be construed as approval or enactment of the rules by the general assembly."

3. Strike all of section 15 after the word "striking" in line 2 and insert in lieu thereof the following: "from lines three (3), four (4) and five (5) the words 'take effect, unless otherwise designated in the order, after publication' and insert in lieu thereof the words 'be published'."

4. Insert the following new section after section 26:

"In all cases where departmental rules have been filed by the administrative agencies pursuant to the provisions of section seventeen A point two (17A.2) of the Code the effect given such rules by such filing shall not have the force and effect of legislative enactment, anything in section seventeen A point two (17A.2) of the Code to the contrary notwithstanding, and they shall be subject to action thereon by any subsequent general assembly."
