## MEMORANDUM OF LEGISLATIVE INTENT

House File 13 (Senate File 26) has been unanimously passed by the members of both the House of Representatives and the Senate and has been signed by the Governor of Iowa. It establishes a new chapter in the Code of Iowa to govern the operation of county mutual insurance associations.
House File 13 was voluntarily offered by the county mutual insurance associations of Iowa, and its passage was supported by them, even though the new chapter imposes upon them the following limitations and requirements:
(1) A tax of two percent of gross premiums received during 1965 and thereafter.
(2) Licensing and qualification of agents.
(3) Limitation of the classes of property which may be insured.
(4) Periodic examination by the Insurance Department of Iowa.

The purpose of this memorandum is to record the intention of the and to make it understood:
(1) That there was no intention to impose upon county mutual insurance
associations any regulatory authority by the Insurance Department of Iowa
or by any other agency of the State of Iowa beyond that expressly stipulated
in House File 13;
(2) That House File 13 was in no sense intended to deprive county mutual insurance associations of their right to conduct their business according to well established principles of community service;
(3) That there was no intention to prescribe their methods of underwriting, their methods of rating or the provisions of their policy contracts.

## HOUSE CONCURRENT RESOLUTION 32 <br> By Doderer of Johnson, Smith of O'Brien, Hutchins of Benton and Gaudineer of Polk

Whereas, county jails are public institutions which with the operation thereof are of vital importance to the welfare and safety of the public and to the individuals confined therein, and

Whereas, many county jails are utilized to confine hardened criminal offenders, some of whom represent a serious threat to society, even though the jails lack even minimum security provisions which further threatens the public safety and welfare, and

Whereas, county jails are in many instances also used to confine nondangerous, youthful offenders and delinquent children who cannot be effectively segregated from the more hardened criminal offenders even though the confining of such youth is contrary to statute and good detaining practices, and

Whereas, most county jails do not provide twenty-four hour supervision of prisoners which further presents a serious threat to the physical and moral safety of youthful offenders and delinquent children, and

Whereas, most county jails do not and cannot provide constructive recreation, counseling, guidance, and other necessary services for prisoners, resulting in prisoners in county jails customarily being forced to remain in debilitating and dehumanizing idleness, and

Whereas, not only are constructive rehabilitation programs virtually nonexistent for adult offenders, but such programs are not provided for minor offenders or when provided, not designed to prevent minor offenders from becoming serious offenders, and

Whereas, there have been numerous examples during the past few years of escapes from county jails in Iowa and of prisoners being exploited and abused by other prisoners in county jails; now therefore,

Be It Resolved by the House, the Senate Concurring, that the Iowa Legislative Research Bureau be directed to conduct, during the 1965-1967 legislative biennium, a study of county jails in Iowa to determine if the public safety is being adequately protected in local communities and areas of the state, if the physical and moral well-being of prisoners, with particular reference to delinquent children, is being adequately provided for in the jails, if the present system of jails at the county level is adequate to serve and rehabilitate all persons confined therein, and such other related areas as the committee hereafter established deems necessary.

Be It Further Resolved, that the Legislative Research Committee establish a committee in accordance with sections two point fifty-five (2.55) and two point fifty-six (2.56) of the Code to assist the Bureau with the study and that the Legislative Research Bureau and the committee assisting be directed to report the findings of the study and committee recommendations, accompanied by bills incorporating such recommendations, to the Sixty-second General Assembly prior to January 1, 1967.

The term "crossing" means every place where the public is permitted to cross the railway, and includes grade, overhead and underground crossings, viaducts, and bridges."
2. "Each railway company shall prior to May fifteenth of each year submit a written report concerning the condition of each street improvement or highway crossing it is required to maintain. Be It Resolved by the General Assembly of the State of Iowa:
Section 1. The following amendment to the Constitution of the State of Iowa is hereby proposed.

Section six (6) of Article three (III), section thirty-four (34) of Article three (III) and the 1904 and 1928 amendments thereto, sections thirty-five (35) and thirty-six (36) of Article three (III) and the 1904 amendment to each such section, and section thirty-seven (37) of Article three (III) are hereby repealed and the following adopted in lieu thereof:
"Section 6. The number of senators shall total not more than one-half $(1 / 2)$ the membership of the house of representatives. Senators shall be classified so that as nearly as possible one-half ( $1 / 2$ ) of the members of the senate shall be elected every two (2) years.
"Section 34. The senate shall be composed of not more than fifty (50) and the house of representatives of not more than one hundred ( 100 ) members. Senators and representatives shall be elected from districts established by law. Each district so established shall be of compact and contiguous territory. The state shall be apportioned into senatorial and representative districts on the basis of population. The general assembly may provide by law for factors in addition to population, not in conflict with the constitution of the United States, which may be considered in the apportioning of senatorial disricts. No law so adopted shall permit the establishment of senatorial districts whereby a majority of the members of the senate shall represent less than forty (40) percent of the population of the state as shown by the most recent United States decennial census.
"Section 35. The general assembly shall in 1971 and in each year immediately following the United States decennial census determine
the number of senators and representatives to be elected to the general assembly and establish senatorial and representative districts. The general assembly shall complete the apportionment prior to September 1 of the year so required. If the apportionment fails to become law prior to September 15 of such year, the supreme court shall cause the state to be apportioned into senatorial and representative districts to comply with the requirements of the constitution prior to December 31 of such year. The reapportioning authority shall, where necessary in establishing senatorial districts, shorten the term of any senator prior to completion of the term. $$

By Jackson of Black Hawk, Bremmer, Hausheer and Kluever
Whereas, the State of Iowa is presently in the midst of an enrollment increase at institutions of higher learning due to the post-war increase in children, and

Whereas, the demand on these institutions is increasing due to the acceleration of technology, thus necessitating more education, and

Whereas, the present Board of Regents institutions cannot absorb the anticipated increase in enrollment without limit, and

Whereas, Southwestern Iowa at present is largely lacking in higher education facilities, public or private, and

Whereas, the Education Programs Study Committee of the Sixtieth General Assembly subscribed to the deficiency and recommended consideration be given to this area, therefore,

Be It Resolved by the House, the Senate Concurring, That the Sixty-first General Assembly requests the Legislative Research Bureau, in conjunction with the Board of Regents, to study the higher education needs in Southwestern Iowa and submit a detailed report substantiating their findings to the Sixty-second General Assembly.

## SENATE CONCURRENT RESOLUTION 42

## By Ely, Stephens, Lucken and Hansen

Whereas, county jails are public institutions which with the operation thereof are of vital importance to the welfare and safety of the public and to the individuals confined therein, and

Whereas, many county jails are utilized to confine hardened criminal offenders, some of whom represent a serious threat to society, even though the jails lack even minimum security provisions which further threatens the public safety and welfare, and

Whereas, county jails are in many instances also used to confine nondangerous, youthful offenders and delinquent children who cannot be effectively segregated from the more hardened criminal offenders even though the confining of such youth is contrary to statute and good detaining practices, and

Whereas, most county jails do not provide twenty-four hour supervision of prisoners which further presents a serious threat to the physical and moral safety of youthful offenders and delinquent children, and

Whereas, most county jails do not and cannot provide constructive recreation, counseling, guidance, and other necessary services for prisoners, resulting in prisoners in county jails customarily being forced to remain in debilitating and dehumanizing idleness, and

Whereas, not only are constructive rehabilitation programs virtually nonexistent for adult offenders, but such programs are not provided for minor offenders or when provided, not designed to prevent minor offenders from becoming serious offenders, and

Whereas, there have been numerous examples during the past few years of escapes from county jails in Iowa and of prisoners being exploited and abused by other prisoners in county jails; now therefore,

Be It Resolved by the Senate, the House Concurring: That the Iowa Legislature Research Bureau be requested to conduct, during the 1965-1967 legislative biennium, a study of county jails in Iowa to determine if the public safety is being adequately protected in local communities and areas of the state, if the physical and moral well-being of prisoners, with particular reference to delinquent children, is being adequately provided for in the jails, if the present system of jails at the county level is adequate to serve and rehabilitate all persons confined therein, and such other related areas as the committee hereafter established deems necessary.
Be It Further Resolved, That the Legislative Research Committee is hereby requested to establish a committee in accordance with sections two point fifty-five (2.55) and two point fifty-six (2.56) of the Code to assist the Bureau with the study and that the Legislative Research Bureau and the committee assisting be directed to report the findings of the study and
committee recommendations, accompanied by bills incorporating such recommendations, to the Sixty-second General Assembly prior to January 1, 1967.

The bill having received a constitutional majority was declared to have passed the House and the title was agreed to.

Gillette of Story moved to reconsider the vote by which Senate File 550 passed the House and that the motion to reconsider be laid on the table, which motion prevailed.

## EXPLANATION OF VOTE

I wanted to vote "aye" for Senate File 550 but my reasons for voting "nay" on Senate File 550 were because:

1. Of the levy of a tax up to three-fourths mill for construction and maintenance of the school; and
2. Of the levy of a tax up to three-fourths mill for the school's operation; and
3. Of the possibility of county boards of education merging before the decision for a vocational school is made which would result in a possibility
of my counties being denied a vote on the question of whether they want to be a part of a vocational school.

DOUGHERTY of Lucas-Monroe.

## MESSAGE FROM THE SENATE

## CONFERENCE COMMITTEE APPOINTED

The Speaker announced the appointment of the following conferees on the part of the House for the consideration of House File 658: Stevenson of Howard-Mitchell, Chairman; Nelson of Cherokee, Radl of Linn and Oehlsen of Hardin.

## EXPLANATION OF VOTE ON SENATE FILE 550

My vote of "nay" on Senate File 550 was made for the following reasons:

1. It opens up our area for considerable tax millage without the consent of the people.
2. It takes away the local control of the people to too large an extent.
3. I do not care to have the responsibility of this rise in taxes. If the people of my county and area are to be taxed to this extent, I feel it should be submitted to their vote.
I am very much in favor of vocational schools and I supported the original House bill. I will endeavor to cooperate with the vocational program as set out in Senate File 550 to the best of my ability.

Murphy of Carroll.

## EXPLANATION OF VOTE

I would like to state my reasons for changing by vote from "nay" to "aye" on Senate File 550: While I cannot accept the concept of "post high school education" supported by property tax, my belief in the value and importance of vocational schools outweighs this reservation; that together with the knowledge that other legislatures to follow may correct this inequity.

Wolcotr of Cerro Gordo.

## HOUSE CONCURRENT RESOLUTION 34

By Radl
Whereas, the design concepts of the educational industry have not changed over the years from the original one (1) classroom-one (1) teacher pattern, and

Whereas, the enormous population growth in the state has placed a tremendous mechanical and financial burden upon our public school system, and

Whereas, a great and growing student population is fast resulting in the need for more classrooms than the public can afford, in the need for more qualified teachers than the state can produce, and in more financial waste in public education than the state can safely tolerate, and

Whereas, great technological advances in all phases of our lives have taken place over the past twenty (20) years including the broad field of education; now therefore,

Be It Resolved by the House, the Senate Concurring, That the Legislative Research Bureau be requested to conduct, during the 1965-1967 legislative biennium, a study of modern programmed learning, the process whereby the teaching machine takes the student along step by step without the intervention of a teacher, which shall include all the combined modern educational techniques which correlate the use of teaching machines, closed circuit television, tape recordings, and other modern educational aids with the object of determining the practicability and economics of such automatic learning and the possibility of incorporating the automated educational environment into Iowa public school systems.

Be It Further Resolved, That the Legislative Research Committee give consideration to establishing a committee in accordance with section two point fifty-five (2.55) of the Code to assist the Bureau with the study. Any committee so established should be authorized to extend its inquiry to include the broad field of educators, researchers, automated educational facilities now in existence including those in the armed forces, and manufacturers of automated teaching equipment.

Be It Further Resolved, That the Legislative Research Bureau and any committee which may be established to assist the Bureau be directed to report the findings of the study and any committee recommendations, accompanied by bills incorporating such recommendations, to the Sixty-second General Assembly prior to January 1, 1967.

## LEAVE OF ABSENCE

Ossian of Adams-Montgomery presented to the House the Honorable John Mowry, a former member of the House in the Fifty-sixth and Sixtieth Extra General Assemblies.
Dougherty of Lucas-Monroe presented to the House Dean Pickerell of Albia, a senior in the Community High School.

## INTRODUCTION OF BILL

House File 717, by ways and means committee, a bill for an act relating to the business tax on corporations.

Read first time and placed on the calendar.

## EXPLANATION OF VOTE

I voted for Senate File 600 only because I think the withholding principle is sound. I did not approve of collecting two years' tax in one year. I was further in doubt when I heard, or thought I heard, the Governor, on a 6:30 p.m. broadcast over KRNT, say that he did not plan a double taxation but could not stop a legislative prerogative! I had understood it was not only his bill, but he personally dictated its use for capital improvements. As compared to the "nuisance tax" bills on the agenda, I still choose this bill as the lesser of two evils.

Hutchins of Benton.

The application shall include plans or sketches showing size, location, seating capacity, other physical facilities, and proposed dates and types of races to be conducted. Applicants shall also name officers and furnish any other pertinent information requested by the commission.

Permits shall be issued for the fiscal year July 1 to June 30 inclusive, shall be nontransferable, and shall be renewed upon application for successive periods of one (1) year unless the commission deems that good cause exists for not renewing any such permit. Any permit heretofore granted to hold a race meet shall be renewed upon application of the permittee yearly for the same dates allotted to such permittee during the preceding year or for such other dates as such permittee shall request, but not less than the total number of days allotted during the preceding year.

The decision shall be served promptly in person or by registered mail on all parties or their attorneys. Upon appeal, the district court shall determine the matters de novo not more than ten (10) days after the date of filing the appeal. Pending determination of the appeal, the decision and order of the commission shall remain in full force and effect and may not be superseded.

Sec. 23. The commission shall issue permits to no more than two (2) commercial race tracks and shall allow no more than two (2) such tracks to be built within the state. After two (2) such tracks have been in operation for two (2) years, the commission shall call a publicly announced meeting with any interested parties to discuss the advisability of permitting the construction of additional racing facilities within the state.

Sec. 26. When two (2) or more applications by qualified applicants are filed with the commission seeking racing permits and seeking to conduct the same kind of racing on the same day or days in the same county, a conflict shall be deemed to exist, except when:

1. Applications for permits are for a state or county fair meet.
2. Applications for permits to conduct horse racing, harness racing, or dog racing on any same day that may be included in an application for a permit to conduct any other kind of racing shall not be construed to create a conflict.

Sec. 27. In the event of a conflict, the qualified applicants shall attempt to resolve such conflict by an agreement in writing in which agreement each such applicant shall receive and be allocated dates in such manner as shall eliminate such conflict. Such agreement shall be filed with the commission on or before the thirtieth (30th) day of June following the filing of such applications.

Sec. 28. In the event no agreement is reached, the commission after ten (10) days written notice to the qualified applicants shall conduct a hearing. The commission shall make a finding as to the relative value for racing meet purposes of the days available for racing meets of the kind applied for and shall, in racing permits issued to each such applicant, allocate said days consecutively and in a fair and impartial manner.

Sec. 29. No horse or dog shall take part in any race conducted under the provisions of this Act unless satisfactorily identified and registered by an association recognized by the commission.

Sec. 30. There shall not be more than one hundred thirty (130) days of horse racing, ninety (90) days harness racing, and one hundred fifty (150) days of dog racing in any fiscal year in the state until in the judgment of the commission the need exists, county and state fair associations not using the pari-mutuel system of wagering excepted. The commission may allot more days in certain areas than in others when in their judgment the need exists.

Sec. 31. The commission may require by the terms of any permit issued that the permittee offer such number of races during any racing meet as the commission shall determine, but in no event more than one (1) race each calendar week, which shall be exclusively devoted to horses or dogs bred in this state or to horses or dogs owned by bona fide residents of this State. In the event that any such race shall not be filled, a substitute race may be provided.

Sec. 32. For the purpose of this Act, a meet may consist of a number of continuous days of racing or of one (1) or more days of racing per week over a period of months. A meet may be split into two (2) periods if the first (1st) period includes any day in the first (1st) week in July of the fiscal year, for which the permit is granted and the second (2nd) period includes any day in the last week in June of the same fiscal year. Racing shall be permissible in either the daytime or nighttime except that harness racing shall be conducted at night. The application for a permit shall state the exact days on which racing shall be held.

Sec. 35. The commission shall be the judge of whether a race meet at a state or county fair is being operated in accordance with the provisions of this Act. A race meet held in connection with a state or county fair and conducted by an individual, corporation, or association other than the properly authorized state or county
fair association shall come under the general provisions of this Act the same as if the race meet were conducted on privately owned track.

Sec. 36. The commission may allow a permittee in addition to the days specified in the permit not to exceed three (3) racing days during any one (1) meet which days shall be known as charity days. From the total handled in the pari-mutuel pool on charity days, the permittee shall deduct the fees owed to the state and an amount equal to the purses and cost of conducting racing on such days, and shall donate the balance to nonprofit organizations and corporations engaged in charitable, benevolent, and other like work selected by the permittee and approved by the commission.

Sec. 37. State and county officials and members of the press may be given tax free passes to any and all race tracks. On the judgment of track management, the track may issue tax free passes to the public to further the interest in racing. Suitable seating facilities near the finish line may be furnished by the track free of charge for the governor and state officials for the viewing and inspection of the races. The commission may grant a permittee the right to move his operation from one (1) area to another when in their judgment the need exists and the best interest of racing, the public, and the state shall be served.

Sec. 38. No minor under the age of fifteen (15) shall be allowed to attend a race track during the hours when wagering is in progress, except when accompanied by parent or guardian, and then only with the approval of the commission, track stewards, or track management.

Sec. 39. The commission shall prescribe rules and regulations governing wagering on races under the system known as the parimutuel method of wagering. Wagering shall be conducted by a permittee only by the pari-mutuel method and only within the enclosure and on the dates for which racing shall be authorized by the commission.

Sec. 40. During the period of any permit for dog racing, a permittee shall receive nine (9) percent of the gross amount of money handled in a pari-mutuel pool, plus the odd cents by which the amount payable on each dollar wagered exceeds a multiple of ten (10) cents. The state shall receive six (6) percent of all money handled in the pari-mutuel pool operated by the permittee to be paid to the commission at the close of the business day on Thursday of every week during and immediately after any race meet or season. Failure to make such weekly remittance by the permittee shall result in an assessment by the commission against the permittee of a fine of one (1) percent of the amount due weekly.

Sec. 41. During the period of a permit for horse racing or harness racing a permittee shall receive eleven (11) percent of the gross amount not to exceed one hundred thousand $(100,000)$ dollars of the daily pari-mutuel pool, and nine (9) percent of the gross amount exceeding one hundred thousand $(100,000)$ dollars of the daily pari-mutuel pool, plus the odd cents by which the amount payable on each dollar wagered exceeds a multiple of ten (10) cents. The state shall receive four (4) percent of the gross amount not to exceed one hundred thousand $(100,000)$ dollars of the daily pari-mutuel pool, and six (6) percent of the gross amount exceeding one hundred thousand $(100,000)$ dollars of the

Sec. 42. Commissions on the proceeds from the sale of parimutuel tickets and certificates may be retained by the permittee but such commission shall in no event and in any enclosure exceed fifteen (15) percent of the total gross pari-mutuel sales and the odd cents of all redistributions over the next lowest multiple of ten (10).

Sec. 43. The state fair board and any county fair association may apply to the commission for one (1) race meet each year and the commission shall set the number of days and the dates of each meetings. A race meet conducted under the provisions of this section shall be operated in such manner that all profits accrue to the state fair board or to the board of supervisors for the benefit of the county fair association, as the case may be, which profits shall not exceed fifteen (15) percent of the total amount of money handled in the pari-mutuel pool plus the odd cents by which the amount payable on each dollar wagered exceeds a multiple of ten (10) cents. All race meets conducted by county fair associations under the provisions of this section, and any race meet conducted by the state fair board in connection with a state fair, shall be exempt from the payment to the state of the percentage of the parimutuel pool prescribed by sections forty (40) and forty-one (41) of this Act.

Sec. 44. Each permittee shall return forty-five (45) percent of his share of the money handled in a pari-mutuel pool in purses. The permittee shall hold money on uncashed mutuel tickets for a period of ninety (90) days after the last day of a race meet. If not claimed during that period, the money shall be turned over to the state general fund.

Sec. 45. Any person within the enclosure of a race meet held pursuant to the provisions of this Act may wager on the result of a race held at the meet by contributing money to a pari-mutuel pool operated by the permittee as provided by this Act. The wagering shall not be unlawful but a permittee shall not knowingly permit a person under twenty-one (21) years of age to be a patron of the pari-mutuel system of wagering. The permittee shall require any person who appears to be under the age of twenty-one (21) years to furnish evidence that he is twenty-one (21) years of age or older, before permitting him to wager.

Sec. 46. All forms of wagering or betting on the results of a race, except as provided by this Act, whether conducted in this state or elsewhere, shall be illegal. Any person directly or indirectly involved in bookmaking or in wagering or betting other than by the pari-mutuel system of wagering shall be guilty of a misdemeanor, punishable by a fine of not less than one hundred (100) dollars nor more than one thousand $(1,000)$ dollars or by imprisonment for a period of not more than six (6) months, or both.

Sec. 47. All revenues derived from permits and licenses required by this Act shall be paid to the state treasurer who shall credit five (5) percent thereof to a fund known as the Iowa county fairs fund and seven and one-half ( $71 / 2$ ) percent to a fund known as the livestock and agriculture fund.

Sec. 48. The Iowa county fairs fund shall be under the juris-
diction of the Iowa racing commission and shall be distributed by the commission in such proportion as the commission deems necessary to the board of supervisors of each county conducting a county fair for the promotion of county fairs and race meets. All expenditures from the Iowa county fairs fund shall be made upon claims approved by the commission.

Sec. 49. The livestock and agriculture fund shall be under the control of the governor and shall be used for the purpose of promoting the livestock and agricultural resources of the state. All expenditures from the livestock and agriculture fund shall be made upon claims approved by the governor.

Sec. 50. To promote and improve the breeding of horses and dogs within the state, five (5) percent of the first (1st) money of every purse won by a horse or dog bred in this state shall be paid by the state to the owner of the dam of the animal at the time the animal was foaled or whelped. Such amount shall be paid within thirty (30) days after the close of the race meet. All claims or disputes as to the dam of a horse or dog bred in this state shall be determined by the permittee, subject to review by the commission, and the decision of the commission shall be final and conclusive. For the purpose of this section, a horse or dog bred in this state shall mean a horse foaled or a dog whelped in this state.

Sec. 51. Within the enclosure where any horse or dog races are held and where the permittee has been issued a permit to use the pari-mutuel method or system of wagering on such races, the same shall be lawful but only within the enclosure where such races are held.

Sec. 52. The sale to patrons present on the grounds of parimutuel tickets or certificates on said races or the use of the pari-mutuel system shall not be construed to be either betting, gambling, or pool selling and shall be authorized under the conditions provided by law.

Sec. 53. Existing statutes of this state against bookmaking, pool selling, or other methods of wagering on the racing of horses or dogs shall not be repealed but shall hereby be expressly continued in effect, with the exception that the operation of the pari-mutuel method or system in connection with the racing of horses and dogs, when used as provided by law shall be lawful. Amend House File 31 by striking all after the enacting clause and inserting in lieu thereof the following:
"Section 1. Section ninety-seven A point one (97A.1), Code 1962, is hereby amended by adding the following subsection:
'"Pension compensation" shall mean the member's average final compensation adjusted in the ratio of the earnable compensation payable on each July one (1) to an active member having the same or equivalent rank or position as was held by the retired or deceased member at the time of retirement or death to the earnable compensation of such member at his retirement or death.'
"Sec. 2. Section ninety-seven A point six (97A.6), Code 1962, is amended by adding the following subsection:
'Pensions payable under this section shall be adjusted as follows:
"a. As of the first of July of each year, the monthly pensions authorized in this section payable to each retired member and to each beneficiary, except children, of a deceased member shall be recomputed. The formula authorized in this section which was used to compute the retired member's or beneficiary's pension at the time of retirement or death including all amendments to the formula which may be adopted subsequent to the member's retirement or death, shall be used in the recomputation, except the pension compensation shall be used in lieu of the average final compensation which the retired or deceased member was receiving at the time of retirement or death. The adjusted monthly pension shall be the amount payable at the member's retirement or death adjusted by 45 percent of the difference between the recomputed pension and the amount payable at the member's retirement or death. At no time shall the monthly pension or payment to the beneficiary be less than the amount which was paid at the time of the member's retirement or death.
"b. As of the first of July of each year, the monthly pension payable to each surviving child in accordance with subsections eight (8), nine (9), and thirteen (13) of this section shall be adjusted to equal six (6) percent of the monthly salary payable on such July first to an active member having the rank of senior patrolman of the Iowa highway safety patrol. If the monthly pension so computed is less than the amounts provided in subsections eight (8), nine (9), and thirteen (13) of this section, the amounts provided for in said subsection shall be payable.
"c. All monthly pensions adjusted as provided in this subsection shall be payable beginning on July one (1) of the year in which the adjustment is made and shall continue in effect until the next following July one (1) at which time the monthly pensions shall again be recomputed and all monthly pensions adjusted in accordance with the recomputations.
"d. The adjustment of pensions required by this subsection shall recognize the retired or deceased member's position on the salary scale within his rank at the time of his retirement or death. In the event that the rank or position held by the retired or deceased member at the time of retirement or death is subsequently abolished, adjustments in the pensions of the member or of the member's spouse or children shall be computed by the board of trustees as though such rank or position had not been
abolished and salary increases had been granted to such rank or position on the same basis as increases granted to other ranks and positions in the department."

## SENATE CONCURRENT RESOLUTION 38

By DeKoster and Mills
Concurrent Resolution petitioning the Congress of the United States to call a convention for proposing an amendment to the Constitution of the United States, unless Congress shall sooner have submitted such an amendment, to provide for the election of the President and Vice President in a manner fair and just to the people of the United States.

Whereas, under the Constitution of the United States Presidential and Vice Presidential Electors in the several states are now elected on a statewide basis, each state being entitled to as many electors as it has senators and representatives in Congress; and

Whereas, the Presidential and Vice Presidential Electors who receive the plurality of the popular vote in a particular state become entitled to cast the total number of electoral votes allocated to that state irrespective of how many votes may have been cast for other Elector candidates; and

Whereas, this method of electing the President and Vice President is unfair and unjust in that it does not reflect the minority votes cast; and

Whereas, the need for a change has been recognized by members of Congress on numerous occasions through the introduction of various proposals for amending the Constitution;

Now, Therefore, Be It Resolved by the Senate, the House of Representatives Concurring: That application is hereby made to Congress under Article V of the Constitution of the United States for the calling of a Convention to propose an Article of Amendment to the Constitution providing for a fair and just division of the electoral votes within the States in the election of the President and Vice President; and

Be It Further Resolved: That if and when Congress shall have proposed such an Article of Amendment this application for a Convention shall be deemed withdrawn and shall be no longer of any force and effect; and

Be It Further Resolved: That the proper Officer of this State be and he hereby is directed to transmit copies of this application to the Senate and House of Representatives of the United States and to the several members of said bodies representing this State therein; also to transmit copies thereof to the Legisalture of all other States of the United States.

The bill having received a constitutional majority was declared to have passed the House and the title was agreed to.
Gregerson of Pottawattamie moved to reconsider the vote by which Senate File 184 passed the House and that the motion to reconsider be laid on the table, which motion prevailed.

## EXPLANATION OF VOTE

I voted against Senate File 184 because of subsection seven (7), section seven (7), which requires the conipletion of the course in cosmetology in fourteen (14) months. This will work a hardship on many students who are unable to finish the course in this length of time, due to emergencies. Also section 9 appropriates an indefinite amount, and therefore, would appear to be an unconstitutional appropriation.

## MESSAGE FROM THE SENATE

The following message was received from the Senate:
Mr. Speaker: I am directed to inform your honorable body that the Senate has amended and passed the following bill in which the concurrence of the Senate was asked:

House File 668, a bill for an act relating to sales tax. Robert G. Moore, Secretary.

## SENATE AMENDMENT CONSIDERED

Rasmussen of Polk called up for consideration House File 668, a bill for an act relating to sales tax, amended by the Senate, as follows:

Amend House File 668 by striking all after the enacting clause and inserting in lieu thereof the following:
"Section 1. Section four hundred twenty-two point forty-three (422.43), Code 1962, is hereby amended by inserting the following new paragraph after the third (3rd) paragraph thereof:
'There is hereby imposed, beginning July 1, 1965, a like rate of tax upon the gross receipts from the renting of any and all rooms, apartments, or sleeping quarters in any hotel, motel, inn, public lodging house, rooming house, or tourist court, or in any place where sleeping accommodations are furnished to transient guests for rent, whether with or without meals. "Renting" and "rent" include any kind of direct or indirect charge for such rooms, apartments, sleeping quarters, or the use thereof. For the purposes of this division, such renting is regarded as a sale of tangible personal property at retail. However, such tax shall not apply to the gross receipts from the renting of a room, apartment, or sleeping qaurters while rented by the same person for a period of more than thirty-one (31) consecutive days. Such tax shall not apply to the gross receipts from the renting of accommodations which are neither rented for, equipped as, nor used as sleeping quarters and which are used only for other purposes such as a ballroom, banquet room, reception room, meeting room, or office space.'"

Rasmussen of Polk offered the following amendment to the Senate amendment filed June 3 and moved its adoption:

REPORT OF JOINT JUDICIARY SUBCOMMITTEE APPOINTED TO INVESTIGATE AND PREPARE LEGISLATION REGARDING THE IOWA-NEBRASKA BOUNDARY SETTLEMENT

The Joint Judiciary Subcommittee appointed to negotiate a boundary settlement between Iowa and Nebraska was comprised of Senators James M. McNally, Chairman, Joseph Coleman and Representatives Donald V. Doyle and Lloyd Jackson. The committee met three times, thoroughly studied the problem and now makes the following report:
A. The committee first contacted the U. S. Army Corps of Engineers office in Omaha, Nebraska, met with Harold Sorenson, Chief of the Channel Stablization Section and R. L. Brown, Head of the Rivers and Harbors Section of the Drafting Branch of that office, and as a result of said meeting made the following determinations.

1. The Army Corps of Engineers has technical data available from which an absolute line described as: "the center of the design channel of the Missouri River" can be absolutely established. This line can be established in reference to control points fixed by the Corps of Engineers on both sides of the Missouri River. This line can be proved, and established for all time, with certain mylar maps now in the possession of the Corps of Engineers.
2. It was determined that in order to eliminate possibilities of error in locating this line, a survey should be conducted by both states to connect the center line of the design channel to the section corners on both sides of the Missouri River. The committee recommends that such a survey be made and that funds be appropriated by the General Assembly for that purpose.
B. Through its negotiations with the Nebraska Legislative Committee comprised of Senators George Gerdes, J. W. Burbach and C. F. Moulton, who were accompanied by Attorney General Clarence Meyer, the following conditions to a boundary settlement were encountered.
3. The Nebraska delegation indicated that the State of Iowa must determine the precise lands it would claim as proprietor at any time in the future, and that if the State of Iowa did not indicate their willingness to waive prospective claims against individual landowners, that a boundary settlement could not be effected at this time.
4. It was indicated by the Nebraska delegation that the U. S. Supreme Court case now pending between the State of Iowa and the State of Nebraska would have to be disposed of before a final agreement could be reached.
The committee concluded that the above conditions could not be agreed to by the State of Iowa at this time, but that the committee should be continued in existence, and that further negotiations should be pursued.

Respectfully submitted,
James M. McNally, Chairman.
C. Joseph Coleman.

Donald V. Doxle.
Lloyd Jackson.

Mr. Speaker: I am directed to inform your honorable body that the Senate has adopted the following concurrent resolution in which the concurrence of the House is asked:

Senate Concurrent Resolution 41, a resolution proposing that a study committee on the drainage laws of the State of Iowa report to the next session of the legislature the results of their study.

Robert G. Moore, Secretary.
Cochran of Webster asked and received unanimous consent to suspend the rules for the immediate consideration of Senate Concurrent Resolution 41.

## SENATE CONCURRENT RESOLUTION 41 <br> By Murray, Floy and Beneke

Whereas, the present drainage laws of the state are recognized by those who are working therewith as antiquated and in need of modernization, and

Whereas, the General Assembly has had numerous requests from attorneys and boards of supervisors who are directly involved in working with the laws for the revision of the present drainage loss, and

Whereas, there are a large number of drainage districts in the state which are involved in court litigation due to the lack of clarity of the present laws, and
Whereas, bills have been introduced into the General Assembly to amend sections of the drainage laws but which will not accomplish the revision necessary, and
Whereas, additional study is mandatory to determine the type and extent of revision which is needed involving the drainage laws of the state; now therefore,
Be It Resolved by the Senate, the House Concurring: That the Iowa Legislative Research Bureau be requested to conduct, during the 1965-1967 legislative biennium, a study of the drainage laws of the State of Iowa to determine the need for and extent of revising such laws.
Be It Further Resolved: That the Legislative Research Committee establish a committee in accordance with sections two point fifty-five (2.55) and two point fifty-six (2.56) of the Code to assist the Bureau with the study. The Research Committee is further requested to appoint two (2) attorneys familiar with the drainage laws of the state recommended by the Iowa State Bar Association; two (2) engineers familiar with the drainage laws of the State of Iowa recommended by the Iowa Engineering So-
ciety; two (2) members of the county boards of supervisors recommended by the Iowa County Officers Association; two (2) farm landowners or tenants; and one (1) member representing cities and towns recommended by the League of Iowa Municipalities who shall serve in an advisory capacity to the committee established under sections two point fifty-five (2.55) and two point fifty-six (2.56) of the Code.
Be It Further Resolved: That the Legislative Research Bureau and the committee assisting the Bureau be requested to report the findings of the study and committee recommendations, accompanied by bills incorporating such recommendations, to the Sixty-second General Assembly prior to January 1, 1967.

Cochran of Webster moved the adoption of Senate Concurrent Resolution 41.

## STATE OF IOWA <br> OFFICE OF THE GOVERNOR

Harold E. Hughes
Des Moines
Governor
June 4, 1965.
The Honorable Vince Steffen, Speaker of the House of Representatives, Sixty-first General Assembly, State Capitol, Des Moines, Iowa.

Honorable Members of the General Assembly:
Having been informed that the Sixty-first General Assembly stands ready to adjourn, I want to convey to you my thoughts concerning your contributions to the future of our state.

This session of the Iowa General Assembly, lasting one hundred fortyfive days, has been the longest regular session in the state's history. In due time, it will also, in my opinion, be rated as the most productive session in this century.

I know that severe criticism has been leveled at you for the length of the session. I can assure you, however, that in the long run a legislative session is rated by its record of achievement and not by the number of days it lasted.

Contemporary reactions are inclined to lack depth and perspective. It will require months and quite possibly years before the historic value of the work you did during those one hundred forty-five days is adequately recognized.

No Iowa legislature in this century has had the courage to tackle such a broad range of important and difficult public-interest problems as you have undertaken. With the elimination of secrecy in the legislature, the doors were flung open, and tough, controversial legislative proposals that were avoided by the lawmakers were met head-on by this session. State government reorganization, capital punishment, billboard control, daylight saving time, water pollution, the union shop and the school bus issue-it didn't make any difference how controversial the issue might be, you were willing to face it.

This demonstration of legislative courage, in itself, is an immense contribution to good government in Iowa. Future sessions will be inclined to follow this example of responsiveness to the public will and it is unlikely that they will ever fall back into the narrow, secretive, regimented patterns of the legislatures of the past.
No chief executive has ever lived to see all phases of his legislative recommendations enacted by the Assembly. This is undoubtedly as it should be. However, I would be less than grateful if I did not take note of the considerable number of my recommendations that you did implement. In my inaugural and budget messages, I outlined a program of recommended legislative action far more extensive than most chief executives have seen fit to suggest in the past. I did this because I felt the state had a vital need for such a comprehensive program of legislative action. The fact that you enacted a major percentage of the proposals I submitted and gave fair and full consideration on the floor of the legislature to most of those that were not adopted, makes me very appreciative, indeed.

The sheer volume of the constructive legislation you adopted during this session makes it impossible for me to enumerate every individual enactment that merits attention. I would, however, like to point out certain areas of legislation in which I feel you made especially outstanding contributions to the well-being of our people and to the future growth and progress of our state.
(1) Your first major action of this session-the elimination of secrecy from the legislative processes-was, in my opinion, the most significant reform in state government in our time, with the exception of reapportionment.
(2) One of the major breakthroughs for progress in this session was your adoption of a common-sense, forward-looking program of state government reorganization-including such reforms as four-year terms for future governors and lieutenant governors, annual sessions, and provision for appointment of state officials at the executive council level.
For more than a generation, these same reforms have been recommended by the thoughtful political leaders of both parties, by impartial experts in government, and by a series of distinguished study committees of which the so-called "Little Hoover Commission" in the 1950's is perhaps the best known.
This program of state government reorganization, if carried forward by the next session, has the potential of greatly increasing efficiency and economy in state government and of bringing our state government operation into phase with modern organizational procedures in private enterprise.
(3) I can think of no responsibility of government more crucial to our future than education. In my opinion, the legislation you passed in this area constitutes the most comprehensive and progressive educational program in modern Iowa history from the standpoint of our public schools and our institutions of higher learning, as well. The passage of legislation to set up a system of area vocational-technical training schools in Iowa was in itself a milestone in the progress of our state.
(4) One of the major problems confronting you at the opening of this session was the need for decisive legislative action to counteract the tragic rise of accidents on our highways resulting from the present-day traffic explosion. You met this problem forthrightly by enacting the most extensive and powerful public safety program in our time, including such vital
measures as the increase in the Highway Patrol, temporary driving permits, seat belt legislation and the provision of $\$ 10$ million additional funds to make our primary highways safer to drive on.
(5) You passed outstanding legislation in this session relating to local government-including constitutional home rule for cities and towns, an intergovernmental co-operation act of far-reaching potentialities, the municipal conflict of interest law and pay raises for local officials.
(6) One of the signal contributions of this session was the enactment of long-needed reforms in public health-including reorganization of the State Board of Health, more adequate appropriations for the State Department of Health, and the anti-water pollution act and rabies control.
(7) Despite the defeat of legislation to modernize our outmoded labormanagement relations laws in Iowa, including the proposed repeal of the statutory prohibition of union shop contracts, substantial gains were made in this session for Iowa's working men and women. Among these are a good industrial safety law, and increases in workmen's compensation and unemployment compensation benefits.
(8) The Sixty-first General Assembly made significant contributions to the field of public welfare, including provision for the long-needed maximum security hospital for mentally disordered offenders, legislation to permit the establishment of an alcoholic treatment facility at Oakdale, the juvenile court law, generally favorable appropriations to the state's welfare programs, and the establishment of a state Commission on the Aging.
(9) History was made in the area of civil rights by this Assembly by such constructive actions as the establishment of the state's first statutory civil rights commission, the passage of a public defender law, and provision for treatment for individuals receiving second and third OMVI convictions.
(10) While there were wide and in some cases irreconcilable differences of opinion on revenue and appropriations matters, you did enact a workable, pay-as-you-go fiscal program for state government, including major reforms, such as state withholding, and substantial state refunds to local districts, including increased agricultural land tax credits and school aid:
(11) One of the imperatives of this session was to adopt measures to sustain and strengthen Iowa's remarkable gains in industrial development and general business conditions of the past three years. You members of the Assembly responded to this need by substantially strengthening the Iowa Development Commission's program, by authorizing the establishment of an area vocational-educational training system, by the adoption of the uniform commercial code, and by the repeal of five mills of the monies and credits tax on individuals and estates.
(12) In addition to the areas mentioned, you enacted a wide range of significant public-interest legislation that does not fit in any specific category, including the abolition of capital puninshment, billboard control on the interstate system, consumer fraud protection, uniform daylight saving time, and the sensible change in the date of the primary elections.
(13) I heartily approve of the action taken during this session in the area of vitally needed capital improvements-the appropriation for the new state office building so that important state agencies will not have to be housed in scattered and costly rental quarters; the implementation of our capital improvement plans; and the capital appropriations to our state institutions.
(14) Last, but by no means the least, I commend you for your constructive action in the all-important area of legislative reapportionment. The resolution setting up general guide-lines for future apportionment is, in my opinion, sound constitutional law that will enable us to have fair and workable apportionment in the years ahead. The temporary plan adopted will do the job adequately in the intervening years until the constitutional amendment goes into effect.
As you know, I strongly favored ratification of the constitutional measure for subdistricting passed by the Sixtieth General Assembly. However, subdistricting is provided for in the permanent reapportionment formula.
In conclusion, I would like to invite your attention to the critical articles that have been running in several national publications such as the National Civic Review, Newsweek and the Reader's Digest on what is referred to as "our horse and buggy state legislatures."
Among the main recommendations made in these articles for reorganizing and modernizing the structure of our state legislatures are: (1) Annual sessions in order to handle efficiently the vastly increased legislative workloads of growing states, (2) Increased pay for legislators, (3) More adequate office space and facilities, and (4) Improved legislative research facilities.
It is a credit to the Sixty-first General Assembly that you have taken some action relating to all four of these points. It is my hope that the next session will give special additional attention to the fourth point-the expansion and strengthening of our legislative research facilities.
To each of you members of the Sixty-first General Assembly, I want to express my appreciation once again for the constructive work you have done in this session and for the personal courtesies you have accorded me. I wish you health and happiness in the years ahead.

Very truly yours,
harold E. Hughes, Governor.

## REMARKS BY THE SPEAKER

Speaker Steffen made the following remarks:
We have arrived at the final hour of a memorable General Assemblythe Sixty-first.
The pathway to this ending has been long, and oftentimes difficult. Would that it could have been shorter, and easier, and more direct. But the road to demanding goals is seldom simply constructed.
A legislative process that is of prime importance to the refinement and implementation of a bill is the committee system. The reduction in the number of committees this session has oiled considerably the wheels of the legislative machinery.
The accomplishments of the Sixty-first General Assembly, both quantitative and qualitative, are indeed significant. To enumerate them, in toto, Would be redundant. There are, however, select issues which merit recognition at this time.
The first act of this General Assembly was to eliminate secrecy in voting by all legislative committees. This has removed the cloak and dagger atmosphere which pervaded these halls for numberless years. The open committee has been the salient principle by which issues, previously buried, have been afforded a hearing in this very chamber.

The death penalty, long considered effete in view of the tenets of enlighted penology and modern law-enforcement, has been abolished.
Highway improvement, through an additional levy of one cent per gallon of gasoline; school reorganization and standards; civil rights; governmental reorganization; billboard regulation; substantial reduction of the moneys and credits tax; prohibition of strikebreakers; alcoholic treatment facilities; reapportionment-these bills of significance and many more have been enacted into law during our tenure in office.
This listing, far from being comprehensive, is representative, however, of the sincere and extensive efforts made by the legislators to effect legislation that will benefit the entire state.
To say that we have been successful is not entirely, if at all, our prerogative, for no man is a judge of his own case: the constituents will render the verdict-and with some degree of finality. Nevertheless, with impartiality and sobriety, it can be fairly stated that this was a memorable General Assembly in continuing and augmenting a vital and progressive Iowa.

We have labored with zeal, yet something remains undone. The paramount issue yet to be resolved is that of comprehensive tax reform. The question of taxes touches every facet of life today. Our present, outmoded posture, a product of piecemeal legislation, should pass into oblivion with the culmination of the next Assembly. Indeed, this will not be too soon.
In conclusion, I thank the members of the House for their courtesy and cooperation during these last months, and I wish each of you well in the future.

## governor's' veto messages on senate files

June 30, 1965.
The Honorable Gary L. Cameron,
Secretary of State,
State House,
Local.

Dear Mr. Cameron:

Senate File 335 of the Sixty-first General Assembly, an act relating to permits for the operation of vehicles and loads of excess length, height, width and weight, and relating to the delegation of powers to the State Highway Commission, county boards of supervisors and city and town councils to issue special permits for the movement of oversize and/or overweight vehicles on state highways, county roads and municipal streets, is hereby disapproved and, in accordance with Article III, Section 16, Constitution of the State of Iowa, transmitted to the Secretary of State.

In my analysis of this legislation, I did not question that the General Assembly had acted in good faith to assist a major Iown industry by clarifying and streamlining regulatory procedures in connection with a frequently occurring problem in transport on our streets and highways. It was my impression that those who supported this legislation were aware that it constituted an important delegation of authority but felt that if given jurisdiction in this area, state and local governmental authorities would act judiciously and with the public interest uppermost in their minds in granting such permits. In this respect, it seemed that the bill in question was in line with the home rule concept of allocating responsibility in government.

Nevertheless, I felt that the legislation went too far in its delegation of authority. The protection of human lives on our highways and the preservation of our highway system-including the state highways, the county roads and the city streets-is a matter of state-wide, not purely local concern. I therefore feel that the legislature should not delegate its authority to set standards and guidelines in this area.
Finally, I had severe doubts as to whether or not this legislation represented an unconstitutional delegation of authority. I therefore asked the Attorney General for an opinion on the constitutionality of Senate File 335 and the related measure, Senate File 641.
The Attorney General has delivered an opinion, dated June 29, 1965, holding that "the legislature has unconstitutionally delegated broad legislative powers to the highway commission and local authorities in Senate File 335 as they have omitted standards or basic rules by which the highway commission or appropriate local authorities may proceed in considering the issuance or withholding of a permit. Further, the statute is invalid for the reason that there is a delegation of absolute and arbitrary discretion as to whether a permit will be withheld or granted. There is an omission of guidelines in this area and the result can be that, under identical circumstances, a permit can either be granted in one instance or withheld in another. This situation would result in having the legislative power vested in administrative personnel, who are removed from the elective power of the people."

With full respect for the good intention of the General Assembly in
adopting Senate File 335, I feel for the above reasons that it is my responsibility to disapprove this bill.

Very sincerely, s/ Harold E. Hughes, Governor.

The Honorable Gary L. Cameron, Secretary of State, State House, Local.

Dear Mr. Cameron:
Senate File 641 of the Sixty-first General Assembly, an act relating to the width and weight of vehicles operated on the interstate system, is hereby disapproved and, in accordance with Article III, Section 16, Constitution of the State of Iowa, transmitted to the Secretary of State.

The General Assembly's sole reason for adopting Senate File 641 was to amend Senate File 335, which I have disapproved this date. Therefore, no useful purpose could be served by allowing Senate File 641 to become law.

Very sincerely,
s/ Harold E. Hughes, Governor.

July 1, 1965.
The Honorable Gary L. Cameron, Secretary of State, State House, Local.

Dear Mr. Cameron:
Senate File 546 of the Sixty-first General Assembly, an act to amend chapter four hundred forty-one (441), Code 1962, relating to assessment and valuation of property, and setting a reasonable time schedule, is hereby disapproved and, in accordance with Article III, Section 16, Constitution of the State of Iowa, transmitted to the Secretary of State.

This legislation originally was introduced at the request of the State Tax Commission and the Comptroller's office. It was designed to expedite the transmission to the state government of information concerning property tax assessments in each county. It was passed by the Assembly without a dissenting vote. However, in the process, the bill was amended with the intent of changing the final date for filing applications for homestead tax credit and military service tax exemption from the present July 1 each year to June 1.

Both the State Tax Commission and the Comptroller's office have advised me that they do not feel the bill in its final form would accomplish the purpose for which it was requested-namely, more efficient administration.

It is apparent that moving the deadline for filing for homestead credit from July 1 to June 1 would cause some difficulty at the local level, because a great many property owners move from one taxing district to another during the month of June and because a person purchasing another home between June 1 and July 1 could lose his homestead credit for an entire year even though he met the six-month residency requirement. Furthermore, the bill, as amended, could cause some confusion in administration, because all references to July 1 as the final filing date for military service tax exemption were not removed.

Therefore, despite the good intentions of the Assembly in adopting it, I feel it would be inadvisable to permit this measure to become law at this time.

Very sincerely,
s/ Harold E. Hughes, Governor.

## DORA A. VAUGHN

Mr. Speaker: Your committee, appointed to prepare a suitable resolution commorating the life, character and public service of the late Honorable Dora A. Vaughn, begs leave to submit the following memorial:

Dora A. Vaughn was born July 14, 1872, at Newark, Ohio, and passed away at Mount Ayr, Iowa, on June 5, 1963 at the age of 90 years 10 months and 22 days.

Mr. Vaughn was born on a farm in Fairfield County, Ohio, and moved with his parents and sister to Ringgold County, Iowa when he was ten years old. He received his education in the schools of the county and attended the old Shenandoah College for one term.

He married Susie E. Hutchinson of Benton, Iowa in January, 1901, and to them eight children were born, seven of whom are living.

From early manhood he was engaged in general farming, livestock breeding and feeding. He held a number of township and other offices of trust, was a member of all of the branches of the I.O.O.F. and Order of the Modern Woodmen.

Mr. Vaughn, a Republican, served in the Forty-second, Forty-second Extra, and Forty-third sessions of the Iowa General Assembly as a state representative from Ringgold County.

Surviving Mr. Vaughn are his three sons and four daughters, Perry E. Vaughn of Independence, Iowa; Orlo D. Vaughn of Kellerton, Iowa; Merle L. Vaughn of Cedar Falls, Iowa; Mrs. Lela Campbell of Benton, Iowa; Mrs. Ethel Hansen of Des Moines, Iowa; and Mrs. Viona Snyder of West Des Moines, Iowa; and Mrs. Bernice Fletchall of Grimes, Iowa, ten grandchildren and ten great grandchildren.

Therefore, Be It Resolved by the House of Representatives of the Sixtyfirst General Assembly of Iowa: That in the passing of the Honorable Dora A. Vaughn the state has lost an honored citizen and a faithful and useful public servant, and the House by this resolution would express its appreciation of his service and tender its sympathy to the remaining members of his family.

Be It Further Resolved: That a copy of this resolution be spread upon the Journal of the House and that the Chief Clerk be directed to forward an enrolled copy to the members of the family of the deceased.
