JOURNAL OF THE HOUSE

First Calendar Day—First Session Day

HALL OF THE HOUSE OF REPRESENTATIVES,
DES MOINES, IOWA, MONDAY, JANUARY 12, 1970.

Pursuant to law and Senate Concurrent Resolution 47, duly adopted May 23, 1969, the House of Representatives of the Sixty-third General Assembly of Iowa of the Second Regular Session convened at 10:00 a.m., Monday, January 12, 1970.

The House was called to order by the Honorable William H. Harbor, Speaker of the House.

Prayer was offered by the Reverend Delbert V. Terry, Emerson, Iowa, pastor of the United Methodist Church, Nishna Valley Parish, as follows:

"Almighty God our Father: We approach you on this occasion of great importance with a feeling of excitement and anticipation, yet also with a sense of the overwhelming responsibility that rests on these men and women elected to serve the people of this state.

"Our prayer to you, O God, is that your divine wisdom will be displayed in both the words and actions of this Assembly. May the general welfare of all the people be the primary concern as they engage in their arduous and oft-times thankless task.

"Give them the strength and the courage, O Lord, to face squarely the needs of their constituents and to work with diligence and dignity to insure that the laws they enact do not serve the interests of a select few but provide for the betterment of all your children. We ask this humbly, yet confidently, in the name of your Son, Jesus Christ. Amen."

REMARKS BY SPEAKER

As Speaker, I want to welcome all of you back to the second regular session of the Sixty-third General Assembly. This statement must be qualified for there are two entering upon their first exposure to legislative activities. To both Representative Duitscher and Representative Logemann is extended a hand of welcome and cooperation and with it is the assurance that all one hundred twenty-two other members will strive in every way to make your experience both fruitful and satisfying.

Then, too, we have another new member who, although not an official member of our body, undoubtedly will exert considerable influence. Welcome to our midst Mrs. Gannon. To both you and Bill is extended most hearty congratulations and a prayer for many years of happiness. Of course, cigars and candy are expected at the front desk.

In a way, the two new official Representatives are sharing a new experience with the rest of us. This is the first of annual sessions in even, or election, years. Not having been held before, we all are feeling our way, so to speak, but with complete cooperation, it will be most productive in what are the best interests of our beloved state.

This being an election year, Iowans in all parts of the state will be watching us to see if their approval of annual sessions was well founded. In order to show that the electorates' confidence was put in good hands, each of us present must pledge his cooperation and self-discipline so that only the most pressing of public interest issues occupy our time in committee and on the floor. To be otherwise could only mean a prolonged session with worthwhile accomplishments being overshadowed by our own verbosity.

You may be assured that considerable thought and research has been given as to how the session can be made most meaningful, but at the same time kept to a minimum of time.

This being the first day of this session, it seems advisable to set out certain guidelines under which we will be operating:

1. The interpretation and usage of a "point of personal privilege," "privilege of the house," and "question of privilege," have, by precedent strayed from their true meaning to a point where almost any subject matter could be discussed under the guise of a privilege. The Chair intends to return them to their true literal meaning as found in Mason's Manual of Legislative Procedure.

However, to be consistent and fair, and so that everyone has an opportunity to use the privileges and to be sure when this can be done, a specific time will be provided each day for this purpose.

As of now, this time will be fifteen minutes before noon recess and fifteen minutes before adjournment in the afternoon.

2. A thorough search of all authorities discloses no allowance for the yielding of time from one member to another. Thus, strict compliance to this interpretation will be observed by the Chair.

These positions are no attempt to suppress free and open discussion; however, I am sure that most will agree there were times in the first

session when an abnormal amount of time was utilized on seemingly simple propositions. This I intend to minimize.

However, with your individual and collective cooperation, we will be able to point with pride to our accomplishments.

Using this legislative hall by any of us for purposes other than what is intended can only reflect on the entire body.

This can be a productive session, one that can be the model for those that will follow.

You have my assurance of cooperation. My office is open to you. Use it and me. Thank you.

STATE OF THE STATE MESSAGE

by

THE HONORABLE ROBERT D. RAY
GOVERNOR OF IOWA

Delivered before a Joint Session
of the Sixty-Third General Assembly

Second Session
January 12, 1970

Mr. President, Mr. Speaker, Mr. Chief Justice, Senators and Representatives, State Officials, Distinguished Guests, Ladies and Gentlemen:

I congratulate you on being trail-blazers of history.

You enter this second session having done a great amount of homework during the interim which should aid you in your deliberations and action to accomplish that which is necessary in a short session.

It is fitting that this innovation of annual sessions should occur at the beginning of a new decade. Our minds boggle at grasping the changes in human life which have taken place just in the last 10 years, and they

would boggle more if they could foresee the changes which will take place in the next decade of even swifter accelerating transformation.

The increase in population in the next 30 years will equal that of the last 970 years. Iowa is not itself a victim of this population proliferation, but Iowa and Iowans cannot escape its many unsettling—and even potentially devastating—consequences. This nation's leading scientists, meeting in Boston over the year-end, passed a resolution calling for concentration in the Seventies on problems of violence, armaments, war, pollution, hunger, malnutrition, and the quality of life.

Some have called this new decade "the last, best chance for a new age." Ecologist Dr. Barry Commoner recently said, "the time has come . . . to forge a great alliance in this nation. . . . The obligation which our technological society forces upon all of us—young and old, black and white, right and left, scientist and citizen alike—is to discover how humanity can survive the new power which science has given it." Commoner is confident that this obligation can be met, if only humanity grasps the truth of Pogo's classic remark: "We have met the enemy and they are us." Commoner sees the environmental crisis as a great opportunity. "From it we may yet learn that the proper use of science is not to conquer nature, but to live in it."

Since government is simply people working together to solve problems which they cannot solve individually or in smaller groups, the warnings raised by Commoner and a host of others become a pressing concern for all of us, particularly those of us charged with the conduct of public affairs. We have a joint responsibility to help guide this commonwealth and its people wisely into the seventies. Most of the work of every legislative session—like most of the work of every Governor—is, inevitably, hard and grinding detailed attention to the nuts-and-bolts of public administration. But we can bring a new dimension and a fresh gleam to those nuts-and-bolts—both for ourselves and our constituents—if we frame them in the context of our broader purposes, our deeper commitments.

This is the true significance of the new state symbol and its accompanying theme: "Iowa—A Place to Grow." The artistically simple design graphically illustrates Iowa's attunement to the world in which we live in this final generation of the Twentieth Century. The symbol is our outward manifestation of an inward determination to achieve real progress by creating positive and progressive attitudes throughout the state.

I have not intended nor attempted to embody in this message to you today all activities of this past year or matters that will or should come before you during this session.

Against that backdrop, let me discuss with you briefly some of the specifics of state government.

FINANCES

One year ago I presented to you a balanced biennial budget. In order to mount constructive programs essential for the welfare of our Iowa people, the budget we provided substantially increased appropriations in education, public safety, social services—including coverage of a \$2.5 million Medicaid deficit—and in reality increased financing for all services and aid provided by the state. This includes additional support for education at the local level, which was increased from \$130 million to \$163 million. More than 50 percent of state dollars goes to education, and more than 60 percent of all general revenue of this state is returned to the local level.

While the surplus at the end of the biennium will be thin, we are operating within our means, and we did not raise taxes. I am as insistent

today as I was a year ago that we not have a general tax increase, and I am confident that the recent revenue and expenditure figures released by the State Comptroller's Office support my position that this can be accomplished.

Some adjustments within departmental budgets have been necessary within this biennium, as has always been the case in any previous state budget. These adjustments are being handled regularly by my office, through the State Comptroller. Also, it may be necessary to submit some readjustments to you in the form of amendments to current appropriations.

I stand firm that there shall be no general tax increase, and I will not approve one this session. Within our present tax structure, however, we continue to press for additional revenue and funds from sources not anticipated a year ago.

For example, revenues can be affected by changes in the federal income tax law, federal revenue sharing should it become a reality, and at the state level, from efficiency measures generated as a result of the Governor's Economy Committee recommendations.

I have instructed the State Comptroller's Office to keep you, as well as me, apprised of our financial posture. If additional funds become available, my first two priorities are: first, additional assistance to old age recipients; and second, aid to cities and towns for water pollution control facilities. Any change in appropriations that I might submit to you will, as has been my practice, be accompanied by a method by which it can be funded.

BETTER GOVERNMENT

American experience in the Sixties—some of it traumatic and tragic—carried the clear message that government must be made more responsive to the will of the people. Converting this facile phrase into reality is not simple.

People must have an access to government—a feeling that there is a place in the awesome and seemingly impersonal structure of government where they can go to voice their complaints, to receive answers to their questions and results from their pleas.

We must not forget that government exists to benefit, not alienate, its owners, and I, therefore, repeat my request for an Ombudsman.

Also, if we are to continue mounting the constructive programs essential for the improved health, education and welfare of Iowa people—and if we are to do so without taxing ourselves into oblivion—a reform of state government operations is absolutely essential. Such reform will result not only in dollar savings, but also in viable and improved governmental services kept constantly responsive to the changing needs of the state.

We cannot any longer afford to use new and higher taxes as a deceptively simple substitute for the harder, but more rewarding, discipline of making certain that our dollars produce maximum returns in program benefits.

I cannot praise too highly the contributions of the leading business citizens who comprised the Governor's Economy Committee. Iowa businesses donated 60 of their most talented executives and sufficient funds to form the committee, which has worked with our many departments of government in an exhaustive study to determine better, more efficient ways to operate. The committee has already released four reports which show how the state can benefit by streamlining and updating operations of the Iowa Liquor Control Commission, the Iowa Highway Patrol, the Iowa Motor Vehicle Registration Division and the State Agriculture Department. I will submit legislative proposals to you to implement the suggestions made in these four reports. The committee's complete report—containing changes to be brought about by legislative and executive action—is being

put into final form now. Because of the large number of legislative recommendations in the final report, it will be impossible for you to consider all the suggestions this session, but to the extent feasible, we will propose legislation to implement this report during this session.

I can also report again in the interests of efficiency, that state officials are working out a pilot program to improve the budgeting system for higher education. If this proves successful, we will implement a system of program budgeting throughout state government. Our goal is greater budgetary relevance, reliability and realism.

I now ask, in the interests of better government for all our citizens, the following legislative actions be taken:

1. Enactment of the recommendations of the Governor's Economy Committee in these areas:
 - a. The restructuring of the Iowa Liquor Control Commission and related suggestions which can result in savings and additional revenue to the state of nearly \$2 million annually.
 - b. The issuing of license plates for a period of five years and related recommendations dealing with the Motor Vehicle Registration Division and the Iowa Highway Patrol, both in the Department of Public Safety, which show potential savings for the state of \$2.2 million a year and annual net revenue increases of \$1.1 million.
 - c. The shifting, among other changes, of the Department of Agriculture's Marketing Division to other agencies of government, which can result in a more concentrated agricultural marketing effort and in savings and net income increases.
2. An increase in benefits for employees under the Iowa Public Employees Retirement System (IPERS).
3. An incentive awards program for state employees.
4. Four-year terms for all elective state officials.

LOCAL GOVERNMENT

In 1968, Iowans changed our State Constitution to provide home rule for cities and towns. I believe this action on the part of our people vividly illustrates their desire to have more freedom of action in their local governments.

Consistent with the principles of home rule, I support:

1. The Municipal Statutes Study Committee created by this legislature in its work to make our state laws relating to municipal affairs in tune with home rule.
2. Giving cities and towns the authority to levy optional local taxes, subject to a vote of the people.
3. Sharing with cities and towns the cost of sewage treatment facilities in order to participate fully in the federal appropriation for this purpose.
4. Clarifying and strengthening the functions and services of the office created last session to assist counties and communities and to call this office the Department of Local Affairs.
5. Inaugurating a state-sponsored community development program to assist and challenge every community to improve itself during the Seventies—its appearance, its pride, its quality of living, its use of human resources.
6. I favor, what I understand will be one of your first orders of business, the correction of the county salary bill to accomplish for our county officers what you originally intended last session.

LAW ENFORCEMENT, PUBLIC SAFETY AND THE COURTS

The Crime Commission was created as a separate entity of state government during the last legislative session, and since that time notable progress has been made.

Eighty-two County Crime Commissions are now active or in the process of formation, 29 local planning projects are underway, and all local action projects are achieving significant results.

The Commission is working on improvements in these areas: the apprehension of suspects, partly through consolidation of police radio facilities; the computerization of identification; up-grading of police investigative procedures; action to speed criminal justice and the financial support of the criminal code revision; cooperation and coordination among the state highway patrol, county sheriffs and local police, and the establishment of state crime laboratory facilities.

In this connection, I would recommend the following:

1. That the analysis of our criminal penalty laws and the drafting of the revisions, including any revisions of the sex offender statutes, should be completed as rapidly as possible.
2. That enabling legislation for the establishment of the crime laboratory be passed.

In my Inaugural Address I stated we must constantly seek ways to upgrade our judicial system, and I recommended an integrated court system. We must provide a court system that functions justly and efficiently—one that commands the respect of our citizens. I, therefore, again urge you to provide a unified trial court system.

Good news is the fact that Iowa suffered 90 fewer traffic deaths in 1969 than the year before. I called for, and you enacted, legislation strengthening the laws affecting drunken drivers. There was an increase of 400 OMVI arrests last year and a 60 percent increase in convictions is predicted.

In this connection I would like to publicly commend the Highway Patrol for the outstanding service it is giving the citizens of Iowa. I would also like to recommend the following:

1. That the Highway Patrol budget be adjusted in order to reduce the attrition rate of veteran patrolmen in accordance with recommendations of the Governor's Economy Committee.
2. That photographs on drivers' licenses be required, and that voluntary identification cards for non-drivers be made available.
3. That the restriction of limiting the hiring of chiefs of police only within their own city be lifted.

It is with pride that I today announce word from Washington, D. C., that not only has Iowa's highway safety plan been the first approved in the Middle West by federal authorities, they have also rated it as outstanding.

Increasingly, Iowa is following enlightened practices in the confinement and treatment of adult violators of the law. An essential part of this program should be to provide necessary, more adequate, and modern correctional facilities.

I urge the Legislature to take the necessary steps to employ the imaginative idea of providing an area system of jails which I enthusiastically support.

TRANSPORTATION

Safe, modern, convenient transportation systems are essential for the state's continued economic growth and the well-being of our citizens.

I ask that the Legislature start planning for a needed consolidated De-

partment of Transportation.

I urge you to clear the air on truck reciprocity, but to keep in mind Iowa cannot afford the loss in revenue created by the recent reversion to fleet miles within the compact. If this matter cannot be resolved at the state level, I will support preemptive federal legislation which, however undesirable, in philosophy, may ultimately offer the only viable solution of an interstate problem that has reached a staggering level of complexity.

Legislation providing for the functional classification of highways should be adopted during this session.

The transportation of dangerous and lethal phosgene gas across our state created a hazard to our citizens, particularly in light of the deteriorating condition of unregulated railroad rolling stock, tracks and roadbeds. As a result, attention nationally, as well as in Iowa, was focused on the need for uniform rail safety regulations.

The Iowa Commerce Commission and I are encouraging the legislation in Congress to provide regulations for railroad safety.

Depending upon the outcome of this legislation, the Commerce Commission could well submit a state railroad regulation proposal to this Legislature.

EDUCATION

The Governor's Educational Advisory Committee, comprised of 30 laymen from throughout the state, is hard at work analyzing, evaluating and examining the entire spectrum of Iowa schooling.

A first statewide conference on education was held in October, 1969, when critical areas were identified for the committee and 450 other interested persons by an array of more than 50 distinguished speakers. The Advisory Committee is now considering a range of subjects which includes school financing, administration, organization, goals, curricula, personnel, students, equipment, and physical facilities, including the possibility of a college in Western Iowa. Its findings will form the foundation of an improved educational policy, which will greatly aid the Legislature and the Governor in determining educational priorities.

My faith in advocating tuition grants for needy students to attend Iowa's private colleges and universities is justified by the fact that during the present academic year no fewer than 1,913 Iowans received tuition grant awards.

Besides enabling these worthy young people to engage in higher education, the project has helped to instill new life into Iowa's invaluable private institutions of higher education.

HEALTH AND WELFARE

Let me mention to you several accomplishments in this broad category of Health and Welfare.

1. Work Incentive Program—This program is designed—as you know—to move people from welfare rolls to payrolls. It is estimated that 3,000 families receiving Aid to Dependent Children will be enrolled in the Work Incentive Program by 1971, based on the present rate of involvement. In this 11-state, two-region area, Iowa has the highest percentage of training slots now filled—680 out of 700—with the lowest cost per enrollee, and—most importantly—Iowa has the highest retention rate among enrollees. Moreover, we rank nationally in the top one-third of this program, even though some states have been involved in it for two or more years. Thus far, we can point to 105 persons who have completed the course, are off the rolls, and fully employed; and another 28, being now partly self-supporting, thereby reducing their welfare payments.

2. Rubella—Because the vaccine for German measles was not available earlier, the federal government did not provide sufficient funds for a mass immunization program as has been the practice in the past.

When the vaccine did become available, I was determined to prevent the predicted epidemic of 1970-71, and requested an appropriation of \$100,000 from the Executive Council's contingency fund to launch an immediate statewide program.

Through the combined efforts of government, volunteer groups and individuals throughout this state, this program is on schedule and we will complete a statewide immunization program that will prevent untold misery and human suffering.

3. Alcoholism—The new program on alcoholism and the new \$1 million you accepted in the Governor's budget is achieving significant results. From July 1, 1969, to New Year's Day of this year, records show 900 alcoholics have received hospital treatment; 1,900 were given rehabilitation help in 16 local service centers and 350 benefited from board and residential care in seven half-way houses throughout the state.
4. Drug Abuse—The Legislature in its wisdom revised the law during the last session to provide more reasonable penalties for first offender users of Marijuana. This represented an important step forward in dealing more rationally with the drug abuse problem in our state.

Because of the growing magnitude of this problem, we have begun an all-out attack against drug abuse and drug dependency in this state. We must concentrate on the pursuit and conviction of peddlers and pushers and embark on a comprehensive educational program to reach all of our citizens, particularly our young people so that they will be aware of the harmful and deleterious effects.

In another area, recognizing the importance of the family as the basic foundation for a healthy society, it is my belief that problems between members of family units can best be dealt with through a family court division of our district court system which I urge you to create.

I also urge that you adopt needed divorce reform measures in this connection.

While this biennial budget provides increases for the infirm, the aged, the disabled and the dependent, the results of the Medicaid cutback, that developed before this administration, forced an increase in the number of old age assistance recipients. I have insisted, nonetheless, that there be no cut in their benefits. In addition, as I have already mentioned, an increase to these citizens has my priority should funds be available.

ECONOMIC DEVELOPMENT

Thanks to your assistance, the Iowa Development Commission has been remodeled and is now functioning productively.

In our drive for balanced economic growth in Iowa, the IDC is promoting strongly "Iowa . . . a place to grow," a place to grow in agriculture, in business and industry, in communities throughout the state, both small and large.

1. Agriculture—With pride I tell you Iowa is a leading agricultural state in this nation, unequalled by any in many crop, livestock, dairy and poultry production areas.

We are emphasizing improved marketing programs for our agricultural industry, and recently the IDC held a highly successful farm marketing workshop.

The market for Iowa's agricultural products is unlimited, and improved and increased promotional activities can benefit the farmers and our entire economy.

2. Labor—No state can boast of higher quality work or better or more productive workers than can we in Iowa. Little action was taken on the items listed under the category of labor in my Inaugural Address.

It is imperative you take action to increase benefits under Workmen's Compensation for injured employees and their families.

Also, employees have a right to be protected from losing wages that they have earned. This can be done without penalizing legitimate and reputable businesses.

I repeat my expressed support of collective bargaining rights for public employees.

3. Business and Industry—In order to evade a continued exodus of talented Iowans we must continuously seek new jobs and job opportunities in our state. Indications are that the elimination of the new construction tax is an encouragement. Our most recent report from the IDC discloses 11,000 new jobs created in Iowa in 1969, compared with 7,000 the previous year.

4. Tourism—Already four times as many people visit Iowa's parks as visit Yellowstone National Park each year. Add to this our lakes, our historical points of interest, and now our new lakes, and the discovery of the Bertrand and the fantastic underground caverns and our tourism potential is skyrocketing. To take full advantage of this growing potential we recently held a highly successful statewide Governor's Conference on Tourism.

BETTER LIVING

No problem will be greater for the rest of this century than the protection of man's environment from mindless destruction. Therefore, you will not be surprised that I have asked our newly appointed Health Commissioner, Dr. Arnold Reeve, to make pollution control his first order of business. I would beef up our fight against pollution by the consolidation of the Water and Air Pollution Control Commissions into a State Environmental Quality Commission.

I am pleased that you are setting up a special standing committee in each house to deal with our environmental problems. Your immediate action indicates that the people of Iowa and you are concerned.

I have been impressed with expressions by your leaders that this session will be concerned with people. I trust this will include the protection of the consumer, and I highly recommend it for your consideration.

In this regard I also ask that you provide by law protection for the land owner whose land, or easement thereon, is sought by outsiders through use of eminent domain.

YOUTH

In this broad category, I proudly report that the 1969 Governor's Summer Youth Opportunity Program involved 22 projects, employed more than 1,100 disadvantaged youth, and the money with which you supported the program was matched by federal and local funds. The summer's success of this program we initiated last year will extend into many more communities and reach many more of our young people this coming summer.

Besides providing another example of inter-governmental cooperation joined with voluntary citizen participation, the Summer Youth Opportunity Program illustrates our commitment to youth—which must rank alongside our commitments to environmental protection and the relief of human suffering as the most basic of all our obligations. In that context, it is important that any so-called voter reform bill must not in any way disenfranchise any qualified voter or deprive anyone from voting at his place of residence.

Once again I call upon you to speedily complete action to lower the minimum voting age to 19 years. The Senate has already expressed itself in this regard telling young people that they are welcome in our political processes. Participation is a far better teacher of realism than alienation. It would be a pity if we refuse our young men and women who want to turn toward electoral politics. Beyond all other challenges, you and I must meet the challenge of beckoning Iowa's young to plunge headlong into the mainstream of public affairs, for we shall desperately need their vigor, their enthusiasm and their idealism in the testing years which lie ahead. I call upon you to join with me in answering affirmatively the offer of Iowa youth, as recently voiced by Karen Ann Conner, who wrote—in a letter to an editor:

“You have given us a heritage. We, in turn, offer a dream. Let us work together to make them a reality. This is my challenge, and this is my hope.”

So said a young Iowa lady, speaking for her generation. I answer her—on behalf of all of us—that we shall work with her—we shall work with all who will join together to make these dreams for a better world a reality and to build in Iowa and America a society worthy of the heritage which we prize beyond all price.

McCartney of Floyd moved that the joint convention be now dissolved.

Motion prevailed.

The House reconvened, Speaker Harbor in the chair.

ANNOUNCEMENT BY THE CHIEF CLERK

There is on file in the office of the Chief Clerk, a report entitled "Study of the Feasibility of the Use of Existing Facilities in Polk County and Elsewhere in the State for Training in Family Practice", filed in accordance with chapter 48, section 1, Laws of the Sixty-third General Assembly.

HOUSE CONCURRENT RESOLUTION 103

By McIntyre

A Concurrent Resolution rescinding Senate Concurrent Resolution 18 as passed by the Sixty-third General Assembly of Iowa, first session, 1969, proposing an amendment to the Constitution of the United States and making application to the Congress of the United States to call a convention

for the purpose of proposing an amendment to the Constitution of the United States.

Be It Resolved by the House of Representatives, the Senate Concurring, of the Sixty-third General Assembly of Iowa, second session, that this General Assembly respectfully withdraws the request it made to the Congress of the United States to propose the following article as an amendment to the Constitution of the United States, or, in the alternative, to call a convention for the purpose of proposing the following article as an amendment to the Constitution of the United States:

“Article - - -

“Section 1. The people of a state may apportion one house of a bicameral legislature using population, geography, and political subdivisions as factors, giving each factor such weight as they deem appropriate or giving reasonable weight to the same factors in apportioning a unicameral legislature, if in either case such plan of apportionment has been submitted to a vote of the people in accordance with law and with the provisions of this Constitution and has been approved by a majority of those voting on that issue. When a plan of apportionment based on factors of population, geography, and political subdivisions is submitted to a vote of the people under this section there shall also be submitted, at the same election, an alternative plan of apportionment based upon substantial equality of population in both houses of the bicameral legislature.

Sec. 2. Any plan of apportionment which has been approved under this article shall be resubmitted to a vote of the people, or another plan may be submitted under the provisions of section one, at the November general election held two years following each year in which there is commenced any enumeration provided for in section two of Article I, and upon approval by a majority of those voting thereon, such plan of apportionment shall continue in effect until changed in accordance with law and with the provisions of this Constitution.

Sec. 3. Nothing in this Constitution shall prevent a state from apportioning membership of governing bodies of its subordinate units using population, geography, and political subdivisions as factors, giving each factor such weight as the state deems appropriate.”

Be It Further Resolved, That the Congress of the United States is respectfully requested to submit said amendment in such manner that it shall be valid as part of the Constitution when ratified by the legislatures of three-fourths of the several states within seven years of its submission to the states by the Congress, provided that each such legislature shall be apportioned on the basis of substantial equality of population in accordance with the most recent enumeration provided for in section two of Article I of the Constitution of the United States.

Be It Further Resolved, That a duly attested copy of this resolution be immediately transmitted to the Secretary of the Senate of the United States, the Clerk of the House of Representatives of the United States, and each member of the Congress from this state.

Laid over under Rule 25.

I. STATE BOARD OF TAX REVIEW.

- A. Review of Decisions of the State Board of Tax Review in Adversary Proceedings.

The predecessor Board in its report to the 63rd G.A., First Session, under its heading "Reviewing the Director of Revenue's Decisions or Orders" made recommendations as follows:

- "1. Substitute the 'State Board of Tax Review' for the 'Director' in Sections 422.29 and 422.55 of the Iowa Code.
- "2. Authorize the Board to have the same general powers contained in Section 422.63 and to provide for hearing examiners.
- "3. Give the Director of Revenue the authority to appeal to the District Court from decisions of the State Board of Tax Review."

Recommendation (1) is implemented by H.F. 465 now on file with the 63rd G. A., but not passed. If H.F. 465 is adopted the effect would be for all appeals of decisions of the Director of Revenue in Income Tax and Sales and Use Tax cases to be first appealed to the State Board where under present law taxpayers have an alternative of appealing to the District Court. This Board does not concur with the philosophy of H.F. 465, and believes that the taxpayer should have the right to appeal a decision of the Director of Revenue either to the District Court or to this Board. However, the

Board does believe that once a forum has been selected the right to appeal to the other is waived except for the subsequent right of review of the decision of the State Board by the Court by writ of certiorari. The Director of Revenue should have the same right to seek review of the decisions of the Board in adversary proceedings, but the Board does not believe that the Director should have the right to appeal de novo the decisions of the Board as recommended in (3) above. Perhaps in view of rule R.C.P., 306 the right of review of decisions of the Board by certiorari now exists, but the Board feels it would be helpful if this right was authorized by law.

The recommendations under this heading could be accomplished by amendment to Section 421.1 of the Code as amended by Chapter 342, Section 1 of the Acts of the 62nd G. A.

B. Jurisdiction of the Board to Hear Appeals in Certain Cases.

Chapter 342, Section 1 of the Acts of the 62nd G. A., which created the State Board of Tax Review authorized it to "review the record evidence and the decisions of, and any orders or directives issued by, the Director of Revenue for assessment and collection of taxes by the Department or an order to reassess or to raise assessments to any local assessor. . . .".

1. Question has arisen whether decisions and orders of the Director on claims for refund can be appealed to the Board, and this should be clarified. It occurs to the Board that the Legislature did not intend to limit the jurisdiction to cases involving collection and assessment only, and that cases involving claimed overpayment of taxes should equally merit the Board's consideration.
2. Because the language of the statute is confined to orders to local assessors, question has arisen as to whether the Board has authority to review orders of the Director to County Auditors, for example, equalization orders under Section 441.47, et seq. On this question the Board has ruled in the negative, as has also the District Court in and for Polk County. In view of H. F. 784, Chapter 255, Section 3 of the laws of the 63rd G. A., First Session, providing for the State Board of Tax Review to approve the Director's equalization rules the Board feels that for it to review equalization orders of the Director could result in substantial conflict and that it should not have such authority.

II. INCOME TAX.

A. Allocation of Deductions.

The Board recognizes that under the Iowa income tax law inequities exist in the allocation of deductions in situations involving income exempt from the Iowa income tax. One inequity was discussed in the report to the Legislature by the predecessors of this Board under their heading "Tax Exempt Income and Related Deductions", in which it was explained that interest paid on funds borrowed to purchase securities, the income from which is not subject to federal income tax but is subject to Iowa income tax, is not deductible for Iowa income tax purposes, but that interest attributable to the purchase of securities exempt under the Iowa law is deductible. This is true both for individuals and corporations. Similar inequalities exist in the deduction of federal income tax and itemized deductions in that no allocation between exempt and non-exempt income is required. The problem has been enlarged by

Chapter 243, Section 4, of the laws of the 63rd G. A., First Session, wherein certain military pay is excluded from Iowa taxable income without a corresponding disallowance of the deduction of federal income tax attributable to the excluded income.

Correction of these inequities could result in an increase in revenue without the creation of a new tax. H. F. 188 attempts to accomplish this as to interest and dividends, but the Board believes that a better solution would be to eliminate all deductions not attributable or allocable to income taxable by the State of Iowa, and recommends enactment of such a measure.

B. Tax Reform Bill of 1969.

Because of the enactment by Congress of the Tax Reform Bill of 1969 (H. R. 13270) Sections 422.4 (17), 422.16(11a) and 422.32(4) of the Code should be amended so as to refer to such act.

Since the Tax Reform Bill of 1969 has been so recently enacted, its full impact on the income tax laws of Iowa is still being studied by the Department of Revenue, and the Board may make further recommendations with respect to this act.

III. OTHER TAX MATTERS.

A. Taxation of National Banks.

Because of the enactment by Congress of HR 7491 the State will be able to tax national banks in the same manner as state banks are taxed. This change in the law will make the adoption of Senate File 389 unnecessary. It appears that no new state legislation is needed to allow taxation of all banks uniformly, but if further study reveals to the contrary, further report and recommendations will be made.

IV. REPORT TO THE 63RD G. A., FIRST SESSION.

Some of the subjects appearing in the previous report have been discussed elsewhere in this report. With reference to the remaining recommendations in the previous report this Board comments as follows:

A. "Administrative Recommendations".

This Board has not been confronted with some of the problems discussed under this heading by the previous Board, and others have been or are in the process of being corrected. Therefore, this Board does not concur in these recommendations.

B. "Conflicting Terminology". (Income Tax)

The Board feels that the recommendation under this heading has merit and urges that the conflict explained under this heading be corrected. The predecessor Board further recommended ". . . that the Legislature give consideration to seeking the assistance of a group of people familiar with the practical applications of the tax laws in order to remove these potential areas of misunderstanding". This is another way of asking for a special study commission. This Board has no objection to this if the legislature wants to expend the funds such a study would require, but does not recommend it. We feel that such a function is properly the responsibility of the Department of Revenue and of this Board.

A recodification of the Iowa income tax law would be worthwhile and the Board will seek it, but such a measure will not be submitted this legislative session. In the meantime enactment of corrective measures as recommended in this report would be appropriate.

C. "Refunds and Additional Assessments Subsequent to Internal Revenue Service Tax Adjustments". (Income Tax)

Under this heading the predecessor Board explains another area of conflict in the Iowa income tax law resulting in unfairness both to taxpayers and the State. It is the opinion of this Board that the point is well taken, and recommends enactment of H. F. 193 (already passed by the House) and H. F. 447.

D. "Pyramiding Tax on Intangible Personal Property Used in Processing Products for Resale". (Sales and Use Tax)

Since the enactment of Chapter 247, Laws of the 63rd General Assembly, First Session, we no longer deem this to be a problem.

E. "Gas Tax Refund".

1. The predecessor Board recommended that the law of Iowa pertaining to the refund of gasoline tax where authorized, be amended so as to provide for claims for refund on an annual basis rather than every three months, and that such refund be reported as a credit on income tax returns. This Board concurs in said recommendation. Such a procedure is now being used by the Internal Revenue Service, and we see no reason why Iowa cannot do the same. It should result in substantial reduction of administrative costs in the Department of Revenue.

2. It has been brought to the attention of the Board that there is no limitation on the time within which a claim for refund of gasoline tax on excess purchases by interstate truckers can be filed under Chapter 324 of the Code, and the Board recommends that a ninety day limitation be established.

F. "Service Tax".

As a result of the repeal of the Service Tax on new construction, the problem defined under this heading has been reduced considerably. To the extent that a problem still exists with repair type services, it occurs to this Board that the same could be corrected by departmental rule.

V. RECOMMENDATIONS ON PENDING BILLS.

The only pending bill pertaining to the revenue laws of the State of Iowa which has not been discussed elsewhere in this report is H. F. 448. At the present time the State of Iowa pays a recording fee on Iowa tax liens at the time of filing and at the time of release. The Internal Revenue Service pays no fee at any time in connection with the filing or release of federal tax liens. This bill would require payment by both the Internal Revenue Service and the State of Iowa at the time of filing of a release of lien.

If enacted this bill would reduce the filing fees paid by the Iowa Department of Revenue and would cause recording fees to be paid by the United States. This would reduce the expenses of the Iowa Department of Revenue and at the same time result in an increase in fees collected by County Recorders and we recommend passage.

VI. CONCLUSION.

Except for the adoption of legislation to conform the Iowa income tax law with the Tax Reform Bill of 1969, which we feel is imperative, the Board does not attempt to establish an order of priority on its recommendations, but deems all of them important to the betterment of

the revenue system of the State of Iowa and urges their adoption.

The Board stands ready to be of assistance to appropriate committees of the Legislature in any way it can, and requests that it be advised concerning any additional revenue legislation which may be proposed. The Board urges that the Legislature use every restraint possible to avoid the use of tax laws, other than the use of graduated tax rates, to effect changes in economic conditions of various segments and classes of our society.

Respectfully submitted,
EDWIN A. HICKLIN, Chairman
LARO L. PEIRCE, Member

HOUSE CONCURRENT RESOLUTION 105

By Priebe, Radl, Logue and Camp

Whereas, a great amount of publicity has been generated over the issue of transferring the school for the blind located at Vinton, Iowa from the jurisdiction of the board of regents to the commission for the blind; and

Whereas, such publicity is resulting in the establishment of a controversy which may generate ill feelings and arguments which will detract from the fine progress which both the board of regents and the commission for the blind have accomplished for blind persons; and

Whereas, it appears that those persons who would be most affected by a change of administration for the school for the blind at Vinton, Iowa, share divergent views as to the merits of changing such administration; and

Whereas, it is a more reasonable procedure to study the issues of changing said administration without undue haste and during times when related issues will not affect the basic issue of doing that which is in the best interests of blind persons; *Now Therefore*,

Be It Resolved by the House, the Senate Concurring, That the legislative council be urged to establish a study committee for the purpose of weighing the merits of transferring the administration of the school for the blind and that all persons with opposing viewpoints be requested to appear before such study committee to discuss the merits of such proposal; and

Be It Further Resolved, That a report of the study accompanied by any recommended legislation be made to the first session of the Sixty-fourth General Assembly.

The joint resolution having received a constitutional majority was declared to have been adopted and agreed to by the House.

EXPLANATION OF VOTE ON SENATE JOINT RESOLUTION 7

Although I am in favor of lowering the voting age in Iowa, I voted "no" on final passage of Senate Joint Resolution 7 because it contains a provision for all rights of majority as well as lowering the voting age. There is no question in my mind that these two items are two distinct and different proposals. I therefore consider the inclusion of both of them in one

proposed amendment to be highly irresponsible to the people in Iowa. The voters of Iowa deserve the opportunity to vote on each of these questions separately. I consider Senate Joint Resolution 7 in its final form to be more than slightly hypocritical in that it is designed to invite defeat in a referendum.

Respectfully submitted,
WILLIAM J. GANNON

155 if deemed necessary, requiring immediate discontinuance of
156 operation. Such order shall be effective immediately and shall
157 apply only to the vending machine, commissary or product in-
158 volved. Any operator to whom such order is issued shall comply
159 therewith, but upon petition to the department, shall be afforded
160 a hearing as soon as possible. When necessary corrective action
161 has been taken and upon receipt of a written request from the
162 operator, the department shall make a reinspection to determine
163 whether operations may be resumed.

164 Sec. 9. When the department discovers a violation of any pro-
165 vision of this Act, or any applicable rule and regulation of
166 the department, or when the department denies a license to any
167 applicant, it shall notify the operator concerned either by the
168 inspection report form or by other written notice. The form or
169 notice shall describe the condition found and the violation,
170 provide a specific and reasonable period of time for the cor-
171 rection of the condition, and state that an opportunity for a
172 hearing will be provided, if a written request for such hearing
173 is filed with the department within ten days of receipt
174 of the notice. The department may also advise the operator in
175 writing that unless the violations are corrected within the
176 specified period of time, any permit issued under the pro-
177 visions of this Act may be suspended or revoked.

178 After an opportunity for a hearing, an operator's permit
179 may be suspended temporarily or may be revoked upon serious
180 or repeated violations or for interference with the depart-
181 ment in the performance of its duties.

182 Any operator whose permit has been suspended may make
183 application for the reinstatement of the permit. Within ten
184 days after the receipt of a written application and a
185 statement signed by the operator to the effect that in his
186 opinion the condition which constituted a violation has been
187 corrected, the department shall make a reinspection. If the
188 condition has been corrected, the permit shall be reinstated.

189 Sec. 10. If a hearing has been requested, the operator
190 shall be given an opportunity for a prompt and fair hearing
191 before the department. At any time at or prior to the hear-
192 ing the department may rescind the notice of the denial,
193 suspension or revocation upon being satisfied that the reasons
194 for the denial, suspension or revocation have been or will be
195 removed. On the basis of any such hearing, or upon default
196 of the operator, the determination involved may be affirmed,
197 modified, or set aside by the department. A copy of such
198 decision shall be sent by certified mail, or served personally
199 upon the operator. The decision shall become final thirty
200 days after it is so mailed or served, unless the operator,
201 within such thirty-day period, appeals the decision to the
202 court.

203 The procedure governing hearings authorized by this section
204 shall be in accordance with the rules promulgated by said
205 department. A full and complete record shall be kept of all
206 hearings, and all testimony shall be reported but need not be
207 transcribed unless the decision is appealed. A copy of the
208 transcript may be obtained by an interested party upon payment
209 of the cost of preparing such copy. Witnesses may be subpoenaed
210 by either party and shall be allowed fees at a rate prescribed
211 by the aforesaid rules.

212 Any operator who is dissatisfied with the decision of the
213 department as a result of a hearing, may appeal the decision
214 within thirty days after the mailing or serving of notice
215 of the decision by filing a notice of appeal in the district
216 court of the county where the vending machine or commissary
217 is located, and by serving a copy of said notice of appeal
218 upon the department. The department shall within thirty days
219 certify and file with the court a copy of the record and
220 decision, including the transcript of the hearings on which
221 the decision is based. The trial before the court shall be
222 de novo and all legal evidence pertaining to the matter of
223 whether or not such license shall be denied, suspended, or
224 revoked, may be submitted, including new or additional evi-
225 dence not submitted to the department, and the court shall
226 have power to affirm, modify, or reverse the decision.

227 Sec. 11. The department shall promulgate rules and regu-
228 lations governing the sanitation of vended foods and beverages,
229 vending machines, machine locations, and commissaries, which
230 shall conform to The Vending of Food and Beverages—A
231 Sanitation Ordinance and Code—1965—Recommendations of the

232 Public Health Service, as amended. The department may promul-
233 gate other rules and regulations necessary for administering
234 the provisions of this Act. All rules and regulations are
235 subject to the provisions of chapter seventeen A (17A) of the
236 Code.

237 Sec. 12. Vending machines licensed under this Act dispens-
238 ing only packaged ice milk or cream, shall not be required to be
239 licensed with a retail milk dealer license under section one
240 hundred ninety-two point one (192.1) of the Code.

241 Sec. 13. Vending machine commissaries licensed under this
242 Act shall not require the food establishment license or the
243 restaurant license required by section one hundred seventy
244 point two (170.2) of the Code.

245 Sec. 14. Any person who violates any provision of this Act
246 is guilty of a public offense punishable by a fine of not more
247 than one hundred dollars. In addition, a person may be
248 enjoined from continuing a violation of this Act. Each
249 violation of this Act shall constitute a separate offense.

250 2. By striking from the title, page one (1), line one
251 (1), the words "vending of foods and beverages" and insert-
252 ing in lieu thereof the words "licensing of vending machine
253 operators and providing penalties for violations."

MOTION TO RECONSIDER

MR. SPEAKER: I move to reconsider the vote by which House File 803 passed the House.

RADL of Linn

HOUSE CONCURRENT RESOLUTION 106

By Franklin, Blouin, Voorhees, Jesse, Alt, Ewell, Koch, Anderson, Van Drie, Baker, Nolting, Lawson, Schwartz, Roorda, Perkins, McCartney, Gannon, Kennedy of Chickasaw, Huff and Pelton

Whereas, a great amount of publicity was generated by both major political parties during the last presidential campaign with reference to fair employment and the inclusion of minorities into the economic mainstream, and

Whereas, the religious and business communities of Iowa have now moved toward adopting and implementing employment practices to include ALL people into the economic mainstream of Iowa, and

Whereas, there are facts and figures that show certain departments of state government are doing little, if anything, to implement fair and equal employment opportunity, and

Whereas, state government should be a leader and example of fair and equal treatment to ALL citizens, *Now, Therefore*,

Be It Resolved by the House, the Senate Concurring, that the Legislative Council be urged to establish a study committee for the purpose of a thor-

ough investigation of the employment practices of the Department of Public Instruction, Department of Public Safety, Employment Security Commission, Highway Department and the Board of Regents.

Be It Further Resolved, that a report of the study and specific recommendations be made to the first session of the Sixty-fourth General Assembly.

Laid over under Rule 25.

HOUSE CONCURRENT RESOLUTION 107

By Gannon

Whereas, the General Assembly has previously indicated its support for the establishment of a Western Iowa University and

Whereas, the Executive Council is now faced with the decision to purchase land for such institution and,

Whereas, questions concerning the advisability of establishment of such institution continue to exist, and

Whereas, the financial condition of the State is bleak including a projected unencumbered balance at the end of this biennium of less than two million dollars and,

Whereas, there is no foreseeable appropriation for buildings for a Western Iowa University: *Now, Therefore*,

Be It Resolved by the House, the Senate Concurring, That the Executive Council is hereby requested not to approve purchase of land for a Western Iowa University at this time.

Be It Further Resolved, that no land be acquired by any means for the purpose of a Western Iowa University until money has been appropriated for building or acquiring capital improvements.

Laid over under Rule 25.

COMMUNICATION FROM THE GOVERNOR

House File 506 Vetoed

January 29, 1970

The Honorable William H. Harbor
 Speaker of The House
 Sixty-third General Assembly
 State Capitol
 Local

Honorable Members of the House:

House File 506, the bill relating to salaries of bailiffs and clerks of the municipal court, is hereby disapproved and returned to the House in accordance with Article III, Section 16, Constitution of the State of Iowa.

Reluctantly I return this bill to your honorable body. On the face of it, this bill is not without merit. Municipal court bailiffs and clerks perform an essential public service in the fourteen cities where those offices exist, and some of them may well deserve the salary increases which the bill provides.

However, this action represents piecemeal legislation at the state level affecting the salaries of local officials. In my opinion, House File 506 is inappropriate at this time in view of the pending court reform bill which fixes the responsibility for setting such salaries at the local level.

I believe this would be more in keeping with the general philosophy of Home Rule, adopted by a vote of the people at the 1968 General Election.

Sincerely,
 ROBERT D. RAY
 Governor

COMMUNICATION FROM THE GOVERNOR

January 30, 1970

The Honorable William H. Harbor
 Speaker of the House
 Sixty-third General Assembly
 State Capitol
 Local

Honorable Members of the House:

I respectfully request the Sixty-third General Assembly withdraw from consideration both the bill to transfer the Iowa Braille and Sight-Saving School from the Board of Regents to the Commission for the Blind, and the concurrent resolution proposing a legislative study of the entire issue.

I have asked that my complete statement concerning this matter be distributed to you. Attached thereto are statements by Mr. Kenneth Jernigan, director of the Commission for the Blind, and Mr. Stanley Redeker, chairman of the Board of Regents.

As I point out in my statement, I believe the course of action that I have suggested is essential in view of the emotions currently surrounding this issue, and I respectfully ask your concurrence.

Sincerely,
 ROBERT D. RAY
 Governor

STATEMENT BY GOVERNOR ROBERT D. RAY
 CONCERNING THE VINTON SCHOOL

January 30, 1970

Today I am asking the Sixty-third General Assembly to withdraw from consideration both the bill which would transfer the Iowa Braille and Sight-Saving School from the Board of Regents to the Commission for the Blind, and the concurrent resolution proposing a legislative study of the entire issue.

I have conferred on this matter with the Chairman of the Commission for the Blind, the Director of the Commission for the Blind, the Chairman of the Board of Regents, and the Superintendent of the Braille and Sight-Saving School. All of them concur in my recommendation, and all have assured me that they will cooperate wholeheartedly to establish and maintain close, harmonious working relations between the Commission and the Vinton School.

To assure the implementation of this agreement I shall promptly constitute the Director and Chairman of the Commission, the Chairman of the Regents, the Superintendent of the School and one of my staff as an ad hoc working committee to devise, develop and carry out specific arrangements for cooperative activity in all areas of mutual responsibility by both the Blind Commission and the School.

As Governor, I intend to bring an immediate halt to the vitriolic and, in my opinion, extremely damaging statements which have erupted on both sides of the jurisdictional dispute. The words of bitterness have been harmful to all Iowa but, as unfortunately is often the case, those whose interests are at stake have suffered the most.

The essence of the American spirit is that "something human is dearer . . . than all the wealth of the universe," as some wise man said a long time ago. This is the motivating force in all our public and private efforts in

education, social services, and the whole spectrum of rehabilitation activities.

From time to time individuals and groups most zealous in their dedication to this ideal may be caught up by an emotional tide which can sweep away all of the progress which they have painstakingly and slowly achieved. When that kind of tragedy threatens, people of good will—especially those in positions of responsibility—have an obligation to stem the tide, quiet the emotions, and safeguard the useful works which are menaced.

We stand in that position today with reference to our sightless and partly sighted fellow Iowans. Their welfare is jeopardized by what might be termed a domestic relations problem between the Commission and the School.

Yet the objectives of both are the same; to free the blind and partly blind from imprisonment in physical darkness, and to make them full participants with the rest of us in the world of opportunity and achievement.

Because of my pride that Iowa has accomplished so much in its aid to the visually handicapped, and my determination that gains shall continue to be made, I have given this problem much time and thought.

I have great respect for and confidence in Kenneth Jernigan, Director of the Commission for the Blind, certainly one of the most gifted public servants that Iowa has ever had in any field. Just now completing twelve years here, Mr. Jernigan has brought Iowa national recognition as a trail-blazing pioneer in successful work for the blind. I subscribe wholeheartedly to his philosophy that blindness—and other handicaps—need not mean helplessness, and that the blind—with suitable training and opportunity—can become fully functioning human beings in any endeavor. This is much more than theory; Mr. Jernigan has proven it in practice; the achievements of Iowa's blind also attest to its effectiveness.

I have visited, and tried to acquaint myself with the operation of, the Braille and Sight-Saving School at Vinton.

The school is relatively small, with fewer than 200 pupils from kindergarten through high school. It is operated on the residential plan, but about one-half of the students go home most weekends, and no charge is made for board, room, tuition, laundry or educational supplies, all of which are financed by state appropriation. For the past quarter-century there has been an instructional program at Vinton for the partly sighted as well as the blind, and each year some graduates, under the sponsorship and guidance of the Commission, go on to vocational schools or colleges.

The Vinton School has for years enjoyed the advantages of stability and prestige under the Board of Regents, and I am confident that we can, with Dr. Frank Rocce's new program and leadership, achieve outstanding results there. The present friction has developed in part from the rapid growth in size, scope and acceptance which the Commission has enjoyed since 1958, and especially since the Rehabilitation Center was opened in the former Des Moines Y.M.C.A. Building at Fourth and Keo. Basically, however, the friction has been generated by a difference in philosophical emphasis between the Commission and the School. Any philosophical difference has been unhappily increased—in my judgment—by the difficulty, if not the total breakdown, of communication between enthusiastic supporters of both groups.

The loyalty of both sides to their respective viewpoints is attested by the large volume of both oral and written expressions which have come to me and members of the General Assembly since legislation was proposed to transfer the School to the Commission for the Blind. This issue has aroused enormous emotional intensity because it touches three areas in which human

beings are properly most sensitive: (1) education, (2) youth, and (3) the handicapped.

I am convinced that the best interests of education, youth and the handicapped require us now to return to the first principle that "something human" must not be lost in a rising crescendo of angry voices. Heated passions must not be permitted to jeopardize the great gains which have been won by Iowa's sightless and partly sighted. Their welfare—and, hence, the welfare of the whole state—can now be most wisely served by lowering voices, suspending argument, and getting on with the programs which suffer from current conflict.

**STATEMENT BY KENNETH JERNIGAN,
DIRECTOR, IOWA COMMISSION OF THE BLIND**

January 30, 1970

After consulting with the members of the Board of the Commission for the Blind, I am authorized to make the following statement:

As you know, we of the Commission have felt for some time that the best interests of the blind of Iowa would be served by a transfer of the administration of the Iowa Braille and Sight-Saving School from the Board of Regents to the Commission for the Blind. We believe that proposal was constructive and philosophically sound.

In our estimation this would have resulted in a more coordinated program for the blind and the visually handicapped in Iowa. It is recognized, we believe, that the rehabilitation, library and other programs of the Commission have been successful, and that the state has been able to point to them with pride.

Our only interest in this matter from the very outset has been the promotion of the well-being of the blind children and adults of the state.

Yet we agree with Governor Ray that so much emotion has been generated on both sides of the question, and so much misinformation has resulted, that instead of helping those we wish to serve, an opposite condition is developing.

Even though we think that sufficient legislative support exists to pass the bill, we believe placing the School under the Commission in the present atmosphere would neither be constructive or wise.

Under the circumstances we consider this issue closed. We would hope that the Iowa Association of the Blind and others who have supported the transfer will also now consider it closed.

We hail the Governor's proposal to work out any problems through rational communication and reasonable negotiation, and we pledge ourselves to work with the Governor's ad hoc committee in a spirit of cooperation and understanding.

**STATEMENT BY STANLEY F. REDEKER,
PRESIDENT OF THE BOARD OF REGENTS**

January 30, 1970

We are pleased that Governor Ray has taken these most appropriate steps to encourage a close and harmonious working relationship between the Iowa Commission for the Blind and the Iowa Braille and Sight-Saving School.

We give every assurance that we will cooperate fully in achieving a standard of excellence that will be of major benefit to all Iowans.

We are hopeful that the General Assembly will concur with the Gover-

nor's recommendations. Their prompt action in support of this approach will allow us to begin immediately on this very important joint endeavor.

Section 1.

1. "Snowmobile" means any self-propelled vehicle weighing less than one thousand pounds which utilizes wheels with pneumatic tires and is designed to operate on land or water or is equipped with sled-type runners or skis, an endless belt-type tread, or any combination thereof and is designed for travel upon snow, land, or ice.

2. "Commission" means the state conservation commission.

Sec. 2. The commission is hereby vested with the power to adopt rules and regulations for the:

1. Registration of snowmobiles,

2. Use of snowmobiles insofar as game and fish resources are affected, and

3. Use of snowmobiles on public lands under the jurisdiction of the commission.

The commissioner of public safety may adopt rules and regulations not inconsistent herewith regulating the use of snowmobiles on streets and highways, except that cities and towns may regulate their use on streets under the jurisdiction of cities and towns within their respective corporate limits.

Sec. 3. Every snowmobile used on public streets, highways, land, or ice of this state shall be currently registered and numbered. No person shall operate, maintain, or give permission for the operation or maintenance of any such snowmobile on such land or ice unless the snowmobile is numbered in accordance with this Act, or in accordance with applicable federal laws, or in accordance with an approved numbering system of another state, and unless the identifying number set forth in the registration is displayed on each side of the forward half of such snowmobile.

Sec. 4. The owner of each snowmobile required to be numbered shall register it every year with the county recorder of the county in which the owner resides or, if the owner is a nonresident, he shall register it in the county in which such snowmobile is principally used. The commission shall have supervisory responsibility over the registration of all snowmobiles and shall provide each county recorder with registration forms and certificates and shall allocate identification numbers to each county.

The owner of such snowmobile shall file an application for registration with the appropriate county recorder on forms provided by the commission. The application shall be completed and signed by the owner of the snowmobile and shall be accompanied by a fee of six dollars and a writing fee of fifty cents. Proof of payment of Iowa sales or use tax must accompany all applications for registration. Upon receipt of the application in approved form accompanied by the required fees, the county recorder shall enter the same upon his records and shall issue to the applicant a pocket-size registration certificate. The certificate shall be executed in triplicate, one copy to be delivered to the owner, one copy to the commission, and one copy to be retained on file by the county recorder. The registration certificate shall bear the number awarded to such snowmobile and the name and address of the owner. The registration certificate shall be carried either in the snowmobile or on the person of the operator of such machine when in use.

Sec. 5. A plate or decal containing the identification numbers or letters shall be furnished by the conservation commission.

The owner shall cause the identification number to be attached to each side of the forward half of the snowmobile in such manner as may be prescribed by the rules and regulations of the commission and shall be maintained in legible condition at all times.

Sec. 6. Every registration certificate and number issued

shall expire at midnight April thirtieth, unless sooner terminated or discontinued in accordance with the provisions of this chapter. After the first day of January each year, any unregistered snowmobile and renewals of registration may be so registered for the subsequent year beginning May first.

After the first day of January any unregistered snowmobile may be registered for the remainder of the current registration period and for the subsequent registration period in one transaction. The fee shall be three dollars for the remainder of the current period, in addition to the registration fee of six dollars for the subsequent year beginning May first, and a writing fee of fifty cents. Registration certificates and numbers may be renewed upon application of the owner in the same manner as provided for in securing the original registration.

If the application for registration for the subsequent year is not made before May first of each year, the applicant shall be charged a penalty of one dollar for each six month's delinquency, or any portion thereof.

Whenever any person, after registering a snowmobile, moves from the address shown on the registration certificate, he shall, within ten days, notify the county recorder in writing of such fact.

Registrations may be transferred when a snowmobile is sold by filing an application for such transfer with the county recorder of the county wherein the snowmobile is registered. The county recorder shall collect a transfer fee of one dollar and an additional twenty-five cents as a writing fee.

Duplicate registrations may be issued upon application therefor and the payment of the same fees collected for the transfer of registrations.

Sec. 7. All fees collected from the registration of snowmobiles shall be forwarded by the county recorder to the commission for remission to the treasurer of state, who shall place such money in the state conservation fund. The fees collected shall be appropriated by the general assembly to the commission solely for their use.

Sec. 8. No registration shall be required for the following described snowmobiles:

5. The headlight and tail light shall be lighted during the operation on a public highway from thirty minutes after sunset to thirty minutes before sunrise.

6. A snowmobile shall not be operated on or across a public highway by a person under sixteen years of age.

The operator shall file with the commission a report of the accident, within forty-eight hours, containing such information as the commission may require.

Sec. 11. A snowmobile shall not be operated without suitable and effective muffling devices except when being operated or used in an organized race or exhibition.

HOUSE CONCURRENT RESOLUTION 109

By Committee on Environmental Preservation

Whereas, the general public has become increasingly conscious of the hazards of pesticide misuse; and

Whereas, reported accidental pesticide poisonings particularly of domestic livestock have increased considerably in recent years in Iowa; and

Whereas, unmarked granular pesticides can be easily mistaken for feed nutrient supplements and are repeatedly found to be the cause of the accidental livestock poisonings; and

Whereas, color coding or distinctive marking of granular pesticides is a recommended method of reducing the unconscious misuse of granular pesticides; and

Whereas, uniform nationwide regulations for the color coding or other distinctive marking of granular pesticides would be effective, economical, and convenient to the general public and the pesticide industry; *Now, Therefore,*

Be It Resolved by the House, the Senate Concurring, That the General Assembly of the State of Iowa urges the Congress of the United States

to take appropriate action to establish uniform regulations of color coding or other distinctive markings of granular pesticides; and

Be It Further Resolved, That copies of this resolution be transmitted to the Speaker of the United States House of Representatives, to the President of the United States Senate, and to each member of the Iowa delegation to the Congress of the United States.

Laid over under Rule 25.

**CONSIDERATION OF BILLS
REGULAR CALENDAR**

House File 720, a bill for an act relating to the crimes of eavesdropping and wiretapping, prescribing penalties and rights of civil actions relating to eavesdropping and wiretapping offenses, and providing for the use of eavesdropping or wiretapping devices by certain law-enforcement officers, with report of committee recommending passage, was taken up for consideration.

Fischer of Grundy offered the following amendment filed by him:

Amend House File 720 as follows:

By striking everything after the enacting clause and inserting in lieu thereof the following:

Section 1. As used in this Act:

1. "Wire communication" means any communication made in whole or in part through the use of facilities for the transmission of communications by the aid of wire, cable, or other like connection between the point of origin and the point of reception furnished or operated by any person engaged as a common carrier in providing or operating such facilities for the transmission of intrastate, interstate, or foreign communications.

2. "Oral communication" means any oral communication uttered by a person exhibiting an expectation that such communication is not subject to interception under circumstances justifying such expectation.

3. "Intercept" means the aural acquisition of the contents of any wire or oral communication through the use of any electronic, mechanical or other device.

4. "Person" means any official, employee, or agent of the United States or any state or political subdivision thereof, and any individual, partnership, association, joint stock company, trust, or corporation.

5. "Investigative or law-enforcement officer" means any officer of the state or political subdivision thereof, who is empowered by the law of this state to conduct investigations of or to make arrests for offenses referred to in section two (2) of this Act, and any attorney charged by law to prosecute such offenses.

6. "Contents" when used with respect to any wire or oral communication, includes any information concerning the identity of the parties to such communication or the existence, substance, purport, or meaning of that communication.

7. "Aggrieved person" means a person who was a party to

any intercepted wire or oral communication or a person against whom the interception was directed.

8. "State" means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and any territory or possession of the United States.

Sec. 2. The attorney general of this state or the county attorney of any county of this state is hereby authorized to make application to a judge of the district court for an order authorizing or approving the interception of wire or oral communications, and such judge may grant in conformity with section four (4) of this Act an order authorizing, or approving the interception of wire or oral communications by investigative or law enforcement officers having responsibility for the investigation of the offense as to which the application is made, when such interception may provide or has provided evidence of the commission of the offense of murder, kidnaping, gambling, robbery, bribery, extortion, prostitution or dealing in narcotic drugs, marijuana or other dangerous drugs, or any other crime dangerous to life, limb or property, and punishable by imprisonment for more than one year, or any conspiracy to commit any of the foregoing offenses.

Sec. 3. 1. Any investigative or law-enforcement officer who, by any means authorized by this Act or chapter one hundred nineteen (119), title eighteen (18) of the United States code as heretofore or hereafter amended, has obtained knowledge of the contents of any wire or oral communication, or evidence derived therefrom, may disclose such contents to another investigative or law-enforcement officer to the extent that such disclosure is appropriate to the proper performance of the official duties of the officer making or receiving the disclosure.

2. Any investigative or law-enforcement officer, who by any means authorized by this Act or chapter one hundred nineteen (119), title eighteen (18) of the United States code as heretofore or hereafter amended, has obtained knowledge of the contents of any wire or oral communication or evidence derived therefrom may use such contents to the extent such use is appropriate to the proper performance of his official duties.

3. Any person who has received, by any means authorized by this Act or chapter one hundred nineteen (119), title eighteen (18) of the United States code as heretofore or hereafter amended, or by a like statute of any other state, any information concerning a wire or oral communication, or evidence derived therefrom intercepted in accordance with the provisions of this Act may disclose the contents of that communication or such derivative evidence while giving testimony under oath or affirmation in any proceeding in any court or before any grand jury in this state, or in any court of the United States or of any state, or if any federal or state grand-jury proceeding.

4. No otherwise privileged wire or oral communication intercepted in accordance with, or in violation of, the pro-

visions of this Act or chapter one hundred nineteen (119), title eighteen (18) of the United States code as heretofore or hereafter amended, shall lose its privileged character.

5. When an investigative or law-enforcement officer, while engaged in intercepting wire or oral communications in the manner authorized, intercepts wire or oral communications relating to offenses other than those specified in the order of authorization or approval, the contents thereof, and evidence derived therefrom, may be disclosed or used as provided in subsections one (1) and two (2) of this section. Such contents and any evidence derived therefrom may be used under subsection three (3) of this section when authorized or approved by a judge of the district court where such judge finds on subsequent application, made as soon as practicable, that the contents were otherwise intercepted in accordance with the provisions of this Act, or chapter one hundred nineteen (119), title eighteen (18) of the United States code, as heretofore or hereafter amended, or by a like statute.

Sec. 4. 1. Each application for an order authorizing or approving the interception of a wire or oral communication shall be made in writing upon oath or affirmation to a judge of the district court and shall state the applicant's authority to make such application. Each application shall include the following information:

a. The identity of the investigative or law-enforcement officer requesting the application, and the prosecuting official authorizing the application.

b. A full and complete statement of the facts and circumstances relied upon by the applicant, to justify his belief that an order should be issued, including (1) details as to the particular offense that has been, is being, or is about to be committed, (2) a particular description of the nature and location of the facilities from which or the place where the communication is to be intercepted, (3) a particular description of the type of communications sought to be intercepted, (4) the identity of the person, if known, committing the offense and whose communications are to be intercepted.

c. A full and complete statement as to whether or not other investigative procedures have been attempted and failed or why they reasonably appear to be unlikely to succeed if attempted or to be too dangerous.

d. A statement of the period of time for which the interception is required to be maintained. If the nature of the investigation is such that the authorization for interception should not automatically terminate when the described type of communication has been obtained, a particular description of facts establishing probable cause to believe that additional communications of the same type will occur thereafter.

e. A full and complete statement of the facts concerning all previous applications known to the individual authorizing and making the application, made to any judge for

authorization to intercept, or for approval of interceptions of, wire or oral communications involving any of the same persons, facilities, or places specified in the application, and the action taken by the judge on each such application; and

f. Where the application is for the extension of an order, a statement setting forth the results thus far obtained from the interception, or a reasonable explanation of the failure to obtain such results.

2. The judge may require the applicant to furnish additional testimony or documentary evidence under oath or affirmation in support of the application. Oral testimony shall be reduced to writing.

3. Upon such application the judge may enter an ex parte order, as requested or as modified, authorizing or approving interception of wire or oral communications, if the judge determines on the basis of the facts submitted by the applicant that:

a. There is probable cause for belief that an individual is committing, has committed, or is about to commit a particular offense enumerated in section two (2) of this Act.

b. There is probable cause for belief that particular communications concerning that offense will be obtained through such interception.

c. Normal investigative procedures have been attempted and have failed or reasonably appear to be unlikely to succeed if attempted or appear to be too dangerous.

d. There is probable cause for belief that the facilities from which, or the place where, the wire or oral communications are to be intercepted are being used, or are about to be used, in connection with the commission of such offense, or are leased to, listed in the name of, or commonly used by such person.

4. Each order authorizing or approving the interception of any wire or oral communication shall specify:

a. The identity of the person, if known, whose communications are to be intercepted.

b. The nature and location of the communications facilities as to which, or the place where, authority to intercept is granted, and the means by which such interceptions shall be made.

c. A particular description of the type of communication sought to be intercepted, and a statement of the particular offense to which it relates.

d. The identity of the agency authorized to intercept the communications, and of the person authorizing the application; and

e. The period of time during which such interception is authorized, including a statement as to whether or not the interception shall automatically terminate when the described communication has been first obtained.

5. No order entered under this section may authorize or approve the interception of any wire or oral communication for any period longer than is necessary to achieve the objective of the authorization, nor in any event longer than thirty

days. Extensions of an order may be granted, but only upon application for an extension made in accordance with subsection one (1) of this section and the court making the findings required by subsection three (3) of this section. The period of extension shall be no longer than the authorizing judge deems necessary to achieve the purposes for which it was granted and in no event longer than thirty days. Every order and extension thereof shall contain a provision that the authorization to intercept shall be executed as soon as practicable, shall be conducted in such a way as to minimize the interception of communications not otherwise subject to interception under this Act, and shall terminate upon attainment of the authorized objective, or in any event in thirty days.

6. Whenever an order authorizing interception is entered pursuant to this Act, the order may require reports to be made to the judge who issues the order showing what progress has been made toward achievement of the authorized objective and the need for continued interception. Such reports shall be made at such intervals as the judge may require.

7. a. The contents of any wire or oral communication intercepted by any means authorized by this Act shall, if possible, be recorded on tape or wire or other comparable device. The recording of the contents of any wire or oral communication under this subsection shall be stored and maintained in such way as will protect the recording from editing or other alterations. Immediately upon the expiration of the period of the order, the extensions thereof, such recordings shall be made available to the judge issuing such order and sealed under his directions. Custody of the recordings shall be wherever the judge orders and they shall not be destroyed for a period of ten years. Duplicate recordings may be made for use or disclosure pursuant to the provisions of subsections one (1) and two (2) of section three (3) of this Act for investigations. The presence of the seal provided for by this subsection, or a satisfactory explanation for the absence thereof, shall be a prerequisite for the use or disclosure of the contents of any wire or oral communication or evidence derived therefrom under subsection three (3) of section three (3) of this Act.

b. Applications made and orders granted under this Act shall be sealed by the judge. Custody of the applications and orders shall be wherever the judge directs. Such applications and orders shall be disclosed only upon a showing of good cause before a judge of competent jurisdiction and shall not be destroyed for a period of ten years.

c. Any violation of the provisions of this subsection may be punished as contempt of court.

8. Within a reasonable time but not later than ninety days after the filing of an application for an order of approval under this Act which is denied or the termination of the period of an order or extensions thereof, the issuing or denying judge shall cause to be served, on the persons named in the order or the application, and such other parties to intercepted communications as the judge may determine in his discretion that is in the

interest of the justice, an inventory which shall include notice of all of the following:

- a. The fact of the entry of the order or the application.
- b. The date of the entry and the period of authorized, approved or disapproved interception, or the denial of the application.
- c. The fact that during the period wire or oral communications were or were not intercepted.

The judge, upon the filing of a motion may, in his discretion, make available to such person or his counsel for inspection such portions of the intercepted communications, applications, and orders as the judge determines to be in the interest of justice. On an ex parte showing of good cause to a judge of competent jurisdiction the serving of the inventory required by this subsection may be postponed.

9. The contents of any intercepted wire or oral communication or evidence derived therefrom shall not be received in evidence or otherwise disclosed in any trial, hearing, or other proceeding in any court of this state unless each party, not less than ten days before the trial, hearing, or proceeding, has been furnished with a copy of the court order, and accompanying application, under which the interception was authorized or approved. This ten-day period may be waived by the judge if he finds that it was not possible to furnish the party with the above information ten days before the trial, hearing, or proceeding and that the party will not be prejudiced by the delay in receiving such information.

10. a. Any aggrieved person in any trial, hearing, or proceeding in or before any court, department, officer, agency, regulatory body, or other authority of this state, or a political subdivision thereof, may move to suppress the contents of any intercepted wire or oral communication, or evidence derived therefrom, on the grounds that (1) the communication was unlawfully intercepted; (2) the order of authorization or approval under which it was intercepted is insufficient on its face; or (3) the interception was not made in conformity with the order of authorization or approval. Such motion shall be made before the trial, hearing, or proceeding unless there was no opportunity to make such motion or the person was not aware of the grounds of the motion. If the motion is granted, the contents of the intercepted wire or oral communication, or evidence derived therefrom, shall be treated as having been obtained in violation of this Act. The judge, upon the filing of such motion by the aggrieved person, may in his discretion make available to the aggrieved person or his counsel for inspection such portions of the intercepted communication or evidence derived therefrom as the judge determines to be in the interest of justice.

b. In addition to any other right to appear, the state shall have the right to appeal:

- (1) From an order granting a motion to suppress made under paragraph a of this subsection if the attorney general

or prosecuting attorney shall certify to the judge or other official granting such motion that the appeal is not taken for purposes of delay. Such appeal shall be taken within thirty days after the date the order of suppression was entered and shall be diligently prosecuted as in the case of other interlocutory appeals or under such rules as the supreme court may adopt.

(2) From an order denying an application for an order of authorization or approval, and such an appeal shall be ex parte and shall be in camera in preference to all other pending appeals in accordance with rules promulgated by the supreme court.

Sec. 5. A good-faith reliance on a court order issued under the provisions of this Act shall constitute a complete defense to any civil or criminal action brought for violation of this Act.

Sec. 6. In January of each year, the attorney general of this state and the prosecuting attorney of each county shall report to the administrative office of the United States courts such information as is required to be filed by title eighteen (18) U.S.C. section two thousand five hundred nineteen (2519), as heretofore or hereafter amended. A duplicate copy of such reports shall be filed, at the same time, with the chief justice of the supreme court.

Sec. 7. It shall not be unlawful:

1. For a person acting under color of law to intercept a wire or oral communication, where such person is a party to the communication or one of the parties to the communication has given prior consent to such interception; or

2. For a person not acting under color of law to intercept a wire or oral communication where such person is a party to the communication or where one of the parties to the communication has given prior consent to such interception unless such communication is intercepted for the purpose of committing any criminal, tortious or other injurious act.

3. For an operator of a switchboard, or an officer, employee, or agent of any communication common carrier, whose facilities are used in the transmission of a wire communication, to intercept, disclose, or use that communication in the normal course of his employment while engaged in any activity which is a necessary incident to the rendition of his service or to the protection of the rights or property of the carrier of such communication; however, said communication common carriers shall not utilize service observing or random monitoring except for mechanical or service quality control checks.

Sec. 8. Section seven hundred sixteen point seven (716.7), Code 1966, is hereby amended by inserting in line seventeen (17), before the word 'tap' the words 'and unlawfully'.

Sec. 9. If any portion or subsection of this Act or the application thereof to any person or circumstance is invalid, such invalidity shall not affect other sections or applications of the Act which can be given effect without the in-

valid section or application, and to this end the provisions of this Act are declared to be severable.

EXPLANATION OF VOTE
(House File 720)

I voted in opposition to House File 720 because I believe that the proposed legislation is wrong in principle and contrary to our underlying system of law. Quoting from Justice Holmes, I would reiterate that "wire tapping is a dirty business. . . . I think it less an evil that some should escape than that the government should play an ignoble part". It is my belief that no state nor government is wise enough nor good enough to be trusted with unlimited power.

Section 1.

1. "Snowmobile" means any self-propelled vehicle weighing less than one thousand pounds which utilizes wheels with pneumatic tires and is designed to operate on land or water or is equipped with sled-type runners or skis, an endless belt-type tread, or any combination thereof and is designed for travel upon snow, land, or ice.

2. "Commission" means the state conservation commission.

Sec. 2. The commission is hereby vested with the power to adopt rules and regulations for the:

1. Registration of snowmobiles,
2. Use of snowmobiles insofar as game and fish resources are affected, and
3. Use of snowmobiles on public lands under the jurisdiction of the commission.

The commissioner of public safety may adopt rules and regulations not inconsistent herewith regulating the use of snowmobiles on streets and highways, except that cities and towns may regulate their use on streets under the jurisdiction of cities and towns within their respective corporate limits.

Sec. 3. Every snowmobile used on public streets, highways, land, or ice of this state shall be currently registered and numbered. No person shall operate, maintain, or give permission for the operation or maintenance of any such snowmobile on such land or ice unless the snowmobile is numbered in accordance with this Act, or in accordance with applicable federal laws, or in accordance with an approved numbering system of another state, and unless the identifying number set forth in the registration is displayed on each side of the forward half of such snowmobile.

Sec. 4. The owner of each snowmobile required to be numbered shall register it every year with the county recorder of the county in which the owner resides or, if the owner is a nonresident, he shall register it in the county in which such snowmobile is principally used. The commission shall have supervisory responsibility over the registration of all snowmobiles and shall provide each county recorder with registration forms and certificates and shall allocate identification numbers to each county.

The owner of such snowmobile shall file an application for registration with the appropriate county recorder on forms provided by the commission. The application shall be completed and signed by the owner of the snowmobile and shall be accompanied by a fee of six dollars and a writing fee of fifty cents. Proof of payment of Iowa sales or use tax must accompany all applications for registration. Upon receipt of the application in approved form accompanied by the required fees, the county recorder shall enter the same upon his records and shall issue to the applicant a pocket-size registration certificate. The certificate shall be executed in triplicate, one copy to be delivered to the owner, one copy to the commission, and one copy to be retained on file by the county recorder. The registration certificate shall bear the number awarded to such snowmobile and the name and address of the owner. The registration certificate shall be carried either

in the snowmobile or on the person of the operator of such machine when in use.

Sec. 5. A plate or decal containing the identification numbers or letters shall be furnished by the conservation commission.

The owner shall cause the identification number to be attached to each side of the forward half of the snowmobile in such manner as may be prescribed by the rules and regulations of the commission and shall be maintained in legible condition at all times.

Sec. 6. Every registration certificate and number issued shall expire at midnight April thirtieth, unless sooner terminated or discontinued in accordance with the provisions of this chapter. After the first day of January each year, any unregistered snowmobile and renewals of registration may be so registered for the subsequent year beginning May first.

After the first day of January any unregistered snowmobile may be registered for the remainder of the current registration period and for the subsequent registration period in one transaction. The fee shall be three dollars for the remainder of the current period, in addition to the registration fee of six dollars for the subsequent year beginning May first, and a writing fee of fifty cents. Registration certificates and numbers may be renewed upon application of the owner in the same manner as provided for in securing the original registration.

If the application for registration for the subsequent year is not made before May first of each year, the applicant shall be charged a penalty of one dollar for each six month's delinquency, or any portion thereof.

Whenever any person, after registering a snowmobile, moves from the address shown on the registration certificate, he shall, within ten days, notify the county recorder in writing of such fact.

Registrations may be transferred when a snowmobile is sold by filing an application for such transfer with the county recorder of the county wherein the snowmobile is registered. The county recorder shall collect a transfer fee of one dollar and an additional twenty-five cents as a writing fee.

Duplicate registrations may be issued upon application therefor and the payment of the same fees collected for the transfer of registrations.

Sec. 7. All fees collected from the registration of snowmobiles shall be forwarded by the county recorder to the commission for remission to the treasurer of state, who shall place such money in the state conservation fund. The fees collected shall be appropriated by the general assembly to the commission solely for their use.

Sec. 8. No registration shall be required for the following described snowmobiles:

1. Snowmobiles owned and used by the United States, another state or a political subdivision thereof.
2. Snowmobiles registered in a country other than the United States temporarily used within this state.
3. Snowmobiles covered by a valid license of another

c. The driver yields the right of way to all oncoming traffic which constitutes an immediate hazard; and

d. In crossing a divided highway, the crossing is made only at an intersection of such highway with another public street or highway.

b. On that portion of county roads that have not been plowed during the snow season and not maintained or utilized for the operation of conventional motor vehicles.

c. On highways in an emergency during the period of time when and at locations where snow upon the roadway renders travel by conventional motor vehicles impractical.

5. The headlight and tail light shall be lighted during the operation on a public highway from thirty minutes after sunset to thirty minutes before sunrise.

6. A snowmobile shall not be operated on or across a public highway by a person under sixteen years of age.

Sec. 10. Whenever any snowmobile is involved in an accident resulting in injury or death to anyone or property

damage amounting to fifty dollars or more, either the operator or someone acting for him shall immediately notify the county sheriff or another law enforcement agency in the state. The operator shall file with the commission a report of the accident, within forty-eight hours, containing such information as the commission may require.

Sec. 11. A snowmobile shall not be operated without suitable and effective muffling devices except when being operated or used in an organized race or exhibition.

Sec. 12. Every snowmobile shall be equipped with at least one head lamp and one tail lamp, and with brakes which conform to standards prescribed by the commissioner of public safety.

HOUSE CONCURRENT RESOLUTION 110

By Baker

Whereas, it is the responsibility and obligation of the Iowa conservation commission to provide the best possible conditions and sources of recreational and sports activities for the citizens of Iowa; and

Whereas, the establishment of migratory waterfowl seasons and limits of migratory waterfowl that may be taken within federal guidelines is one of the responsibilities of the Iowa conservation commission; and

Whereas, it is to the benefit of the citizens of Iowa that more consideration be given to the time of year when flights of ducks and geese cross the state; and

Whereas, it appears that other states establish migratory waterfowl seasons that provide greater hunting opportunities to the citizens of those states and result in the taking of migratory waterfowl that might be taken by Iowa hunters if a more reasonable waterfowl season were established in Iowa; *Now, Therefore*,

Be It Resolved by the House, the Senate Concurring, That the Iowa Conservation Commission be directed to establish the earliest possible dates for the hunting of geese and ducks allowable under the federal migratory waterfowl regulations.

FINAL REPORT OF THE STATE PRINTING STUDY COMMITTEE

In accordance with Senate Concurrent Resolution 42 of the First Session of the Sixty-third General Assembly, a study of state printing and printing costs was conducted by the Budget and Financial Control Committee, Mr. J. C. Moore, Superintendent of Printing, and Mr. Marvin R. Selden, Jr., State Comptroller.

The chairman of the Budget and Financial Control Committee, Representative Elmer H. Den Herder, appointed a subcommittee of the Budget and Financial Control Committee to work with the State Comptroller and the

Superintendent of Printing on the study of state printing and printing costs. The subcommittee consisted of Senator Charles F. Balloun, Chairman, Senator C. Joseph Coleman, Representative Ray C. Cunningham and Representative Keith H. Dunton.

The first meeting was held on July 8, 1969, in Des Moines. Various phases of state printing were discussed with the Superintendent of Printing. The main points brought out during the discussion were:

1. The Printing Board can print publications more efficiently than the individual departments can print them.
2. Some departments which must sell copies of material at cost will print an excess number of copies merely to reduce the cost per item.
3. The Printing Board has no control over departmental printing which is authorized by the Code.
4. The Printing Board has control only over state departments in Des Moines. The Printing Board does let contracts for out-of-city departments and many of them voluntarily use the Printing Board's services.

Because of the shortage of material available for study, additional information regarding departmental printing procedures was obtained. A questionnaire was prepared and sent to each department requesting the Code section containing its printing authority, its policy of distribution, with whom the authority rests for approval of publications, quantity of publications and who determines the equipment to be used for the most economical operation. The responses to these questionnaires are on file in the Legislative Fiscal Director's office.

Following the meeting, the committee toured the Printing Board's centralized printing plant in the Grimes Office Building.

The second meeting was held October 13, 1969, at Iowa State University in Ames. This meeting dealt primarily with the printing operations at the three state universities. Representatives of the University of Iowa, Iowa State University and the University of Northern Iowa attended the meeting. Also attending the meeting was a representative of the Board of Regents' office in Des Moines.

Iowa State University has established copy centers on the campus in an attempt to reduce printing costs and the number of convenience copiers. The University of Iowa has a large number of convenience copiers and two copy centers. However, they are currently studying Iowa State University's printing setup with the idea of possibly reducing the number of convenience copiers and establishing more copy centers. Representatives from the University of Northern Iowa stated that they have only three convenience copiers on campus which they feel are being adequately controlled.

Specific printing and duplicating procedures of the institutions were discussed along with possibilities of increased efficiency and additional economy in printing and duplicating.

During the meeting there was confusion concerning the definition of the word "printing." Specifically, the question was raised as to the difference between printing and duplicating. In Section fifteen point seven (15.7), Code 1966, the definition of "printing" is not adequate and should be revised. The word "duplication" should also be defined in the Code.

After the meeting, the committee visited one of Iowa State University's copy centers and their centralized printing plant. The committee was very impressed with the magnitude and efficiency of Iowa State University's printing operation.

The third meeting was held November 25, 1969, in Des Moines. Various recommendations concerning state printing were discussed and a list of

recommendations was compiled and approved for presentation to the Budget and Financial Control Committee.

In a meeting held December 9, 1969, in Des Moines, it was agreed that the list of recommendations be drafted into legislation for introduction to the Second Session of the Sixty-third General Assembly.

1. The definition of "printing" in section fifteen point seven (15.7), Code 1966, should be revised. It is inadequate and out-of-date. A section should also be added defining convenience copying and duplicating.

2. Section fifteen point twenty-nine (15.29), Code 1966, should be amended by striking from line ten (10) the word "one" and inserting in lieu thereof the word "two". This would increase the dollar limit of printing over which Printing Board approval is required from \$1,000 to \$2,000.

3. All convenience office copiers and reproduction units in Des Moines should be placed under the jurisdiction of the State Printing Board. The Board may lease or purchase such duplicating machines as are necessary for each of the departments with funds from the State Printing Board revolving fund and assess the costs of operating such duplicating machines to the appropriate department.

4. The fiscal portion of the biennial reports made by various state departments and agencies should be standardized.

5. Section seventeen point twenty-seven (17.27), Code 1966, should be amended by striking from line fourteen (14) the words "fifty cents" and inserting in lieu thereof the words "one dollar". This would increase the fifty cent limit on publications that must be sold to one dollar.

It was also agreed that a concurrent resolution be drafted for introduction to the Second Session of the Sixty-third General Assembly establishing a printing review committee. The committee, composed of the Superintendent of Printing, the Director of the Iowa Development Commission, the Director of the Office of Planning and Programming and a representative of the Budget and Financial Control Committee, shall review all printing which is required by law to determine the need for such printing and to establish the need for the quantity printed. This committee shall report their findings to the Budget and Financial Control Committee. The Budget and Financial Control Committee shall review these findings and prepare recommended legislation for introduction to the First Session of the Sixty-fourth General Assembly.

The financial relationship could not be determined between the non-profit publishing houses at Ames and Iowa City and the effect they have on the Regent's appropriation requests. Therefore, a letter was sent to the Office of Planning and Programming and the State Comptroller requesting that they make this a part of their Regent's Budget Revision Study.

Respectfully submitted,
ELMER H. DEN HERDER, Chairman
Budget and Financial Control Committee
MARVIN R. SELDEN, JR.
State Comptroller
J. C. MOORE
Superintendent of Printing

Report adopted.

BILL SIGNED BY THE SPEAKER

The Speaker of the House announced that, as Speaker of the House, he had signed in the presence of the House the following bill: Senate File 1088.

EXPLANATION OF VOTE

(House File 1154)

I voted no on House File 1154 because I believe that by extending the terms of certain supervisors we have established a constitutionally defective system of supervisor representation. Under the Iowa State Supreme Court's mandate, the First Session of the 63rd General Assembly enacted a county supervisor reapportionment plan which was designed to effect equal representation within a reasonably prompt period of time. House File 1154 negates that action. I find it all the more objectionable because it was brought about through the lobbying efforts of those supervisors who are particularly interested in perpetuating themselves in office.

ROBERT E. NEWTON

REPORT OF THE BUDGET AND
FINANCIAL CONTROL COMMITTEE TO THE
SIXTY-THIRD GENERAL ASSEMBLY (SECOND SESSION)

To the President of the Senate, the Speaker of the House of Representatives, and the Members of the Sixty-third General Assembly of the State of Iowa:

The Budget and Financial Control Committee of the Sixty-third General Assembly composed of the following members: Senator Balloun, Senator Coleman, Senator Flatt, Senator Gaudineer, Senator Messerly, Representative Cunningham, Representative Den Herder, Representative Dunton,

Representative Ossian and Representative Radl, held their organizational meeting on June 18, 1969. Representative Den Herder was elected Chairman, Senator Messerly, Vice Chairman and Representative Dunton, Secretary.

During the interim, the committee visited all of the institutions under the Department of Social Services, including the Maximum Security Hospital at Oakdale and the Yellow River Forest Camp, the three universities governed by the Board of Regents, the School for the Deaf at Council Bluffs and the School for the Blind at Vinton. Also, the committee met with the Iowa State Highway Commission and the Merit Employment Commission.

BOARD OF REGENTS

Due to the sizable increase in fees at the three regents institutions following the first session of the Sixty-third General Assembly, the committee, pursuant to and in accordance with provisions of section 2.43 of the Code of Iowa, 1966, deemed it necessary to conduct a study of the regents institutions. Chairman Den Herder appointed a subcommittee consisting of Senator Joseph B. Flatt, Chairman, Senator Francis L. Messerly, Senator Lee H. Gaudineer, Jr., Representative Richard M. Radl, and Representative Conrad Ossian, to implement this study. Consultants knowledgeable in the field of education were interviewed and the subcommittee, with the approval of the full committee, retained Mr. Alfred Baxter, President of Baxter, McDonald and Company, as an advisor to prepare a design for studies and staffing of post-secondary education.

The Budget and Financial Control Committee has adopted the report of Mr. Alfred Baxter and herewith advises the General Assembly of the roles of the General Assembly respecting higher education as set out in the report:

The General Assembly should become and remain informed respecting six major topics of higher education for which it has policy responsibilities. In some cases, these responsibilities are exclusive, or nearly so; other responsibilities are shared with the Governor, the governing boards, and with academic administrators, facilities, and students. The list is intended to be complete with respect to those groups of major policy decisions which the General Assembly must make. Decisions, of course, may often have the form of acquiescence to proposals formulated outside the legislature.

1. The determination of who shall be served. While the exact form and composition of entrance requirements and the methods of their administration are technical educational matters, the level of stringency of admissions requirements is a matter of broad public concern, since it determines the number of students who will have the opportunity even to enter college in Iowa. Current freshman admission requirements for residents are set (roughly) at the upper half of high school graduating classes.

The General Assembly should also be aware of different admission requirements applied to particular schools or colleges within individual universities.

2. The general terms and conditions of entry. Costs, as well as academic attainments are a practical barrier to college entry. Accordingly, the General Assembly should be concerned with the distribution of colleges (since location affects, among other things, the private costs of commuting or living away from home), with tuition and fee level, and with the availability

and distribution policies affecting student financial aids, part-time employment opportunities, and loans.

3. The breadth of program offerings and the number of students who complete various curricula. A strong community requires a wide variety of special skills and broad base of common knowledge among its citizens. The community benefits further from research and public service activities of colleges and universities. Accordingly, it is among the responsibilities of the General Assembly to review the breadth, diversity and quality of instructional and other programs available in Iowa. For the purposes of such general reviews, the offerings of the independent colleges and universities are as relevant as those of the public institutions.

In addition to information on the availability of various institutional programs, the General Assembly should be informed of the numbers of students who complete formal programs in engineering, teacher training, fine arts, etc. Information on the subsequent careers of those who do and who do not complete formal schooling is also relevant in evaluating the individual, social, and economic consequences of differing amounts of higher education.

4. The level, derivation, and allocation of state financial support. In reaching the determinations embodied in appropriation and revenue bills, the General Assembly should have available not only information on educational plans and current activities but also information on the full spectrum of funds available to public institutions and on the functional relationships implicit in multiple-source, multi-year fundings. Technically, expert, multi-year revenue projections should also be available to the General Assembly.

5. Provisions for the planning, governance, and coordination of higher education. By statute or other means, the General Assembly must determine how and by what instruments education will be managed, planned for, and coordinated. Existing provisions should be reviewed periodically with respect to the several procedures employed. The General Assembly should include in such reviews the character, timing and effectiveness of its own participation in educational planning, budgeting, and policy review.

6. Continuing review of efficiency and equity questions. Legislative Oversight. Even the best run organizations may benefit from external review and from external encouragement for internal examinations of practices and procedures. Among the General Assembly's responsibilities and opportunities for service is the conduct and/or stimulation of reviews of the ways in which educational resources are mustered and applied in the light of the purposes and products of individual programs. The terms and conditions of faculty employment, for example, is a topic with both efficiency and equity implications.

While there is no inherent limitation on the level of detail at which the General Assembly might legally focus its interest, the current scarcity of legislative staff resources and the breadth of other legislative responsibilities suggest that isolated matters of operational detail will provide low yields to review and examination.

The consultant's report recommended that five groups of cooperative studies be initiated under legislative sponsorship and funding:

1. The development of a post-secondary education information system.
2. Special legislative studies on desirable institutional size, student attrition rates, entrance requirements, etc.
3. Revision of the Planning and Budgetary Format and Procedures,

4. Studies on alternative organizational structures for the coordination of post-secondary education.

5. Consideration of how the General Assembly might improve its procedures and staffing with respect to post-secondary educational policy issues.

That portion of the consultant's report known as Sequence 3, Redesign of Planning and Budgetary Format and Procedures has been adopted by the committee and transferred for operational purposes to the Governor's Office. The budget revision program, under joint sponsorship by the Governor and the Budget and Financial Control Committee, will be conducted under the supervision of the Comptroller, the Director of the Office of Planning and Programming and Clayton Ringenberg, Assistant to the Governor. Representative Den Herder has been appointed to sit with this policy committee in its deliberations. This sequence of tasks is devoted to a review of current planning and budgetary procedures and to consideration of possible changes in the format, contents, and scheduling of higher educational budgets as they are presented to the Governor and the General Assembly for review and action. The program will produce specific recommendations to the General Assembly in February, 1970, for possible implementation in the next budget cycle.

Much of the content and many of the objectives of the recommended study groups 1 and 2 will be served as part of the development of revised budget procedures. Such service is not automatic, however, nor is it certain that the specific policy needs of the General Assembly will be fully met without continuing legislative sponsorship and participation at a technical level in the budget revision program.

Accordingly, the Budget and Financial Control Committee recommends that the General Assembly endorse the committee's general approval of the rationale and objectives of the Baxter, McDonald Report.

DEPARTMENT OF SOCIAL SERVICES

As a result of the visits to the institutions governed by the Department of Social Services, the interim committee feels compelled to make the following recommendations to the General Assembly regarding these institutions:

1. The General Assembly should take an in-depth look at the long-range planning for capital improvements and the methods of rehabilitation and vocational instruction at the institutions under the Department of Social Services. Because this committee has observed apparent philosophical differences in certain areas of Department of Social Services and specifically in its system of correctional administration, this committee recommends that the Department of Social Services be required to submit a long-range plan (five-year minimum) outlining their program for capital improvements and rehabilitation.

2. Farming operations at the Social Services institutions have experienced financial difficulties due to the fact that money spent for operations or purchase of new equipment must be expended from the institution appropriation, while any income from the farm is deposited directly to the general fund of the state. Legislation should be considered which would allow the institutions to use farm income for the express purpose of farm operations only, any amounts of farm income over and above that needed for said farm operations is to revert to the general fund.

MERIT EMPLOYMENT COMMISSION

In view of consistent complaints concerning merit employment from the institutions under the Department of Social Services, the Budget and Financial Control Committee scheduled a meeting with the Merit Employment Commission, their director and members of the staff. After hearing testimony from the Commission and the State Comptroller, the committee recommends that the General Assembly review the Merit System bill in view of clarifying the delineation of duties, particularly in the field of approval of job classifications.

The Budget and Financial Control Committee also wishes to point out to the General Assembly that as of November 11, 1969, the date of the committee's meeting with the Commission, 1400 employees or about 7½ percent had appealed either their pay scale or job classification. A check with the Acting Director on December 31, 1969, indicated that outstanding appeals had been reduced to approximately 250.

Information from the State Comptroller is that prospective professional employees are being classified as consultants for one day for the purpose of transporting prospective professional employees into the State of Iowa and paying their expenses. It is recommended that the General Assembly consider legislation authorizing departments, with the approval of the Comptroller and the Executive Council, to pay travel expenses of prospective professional employees.

GOVERNMENTAL REORGANIZATION

Chairman Den Herder appointed a subcommittee on Governmental Reorganization to continue the work of the subcommittee of the previous interim. Members of the subcommittee were Senator Gaudineer, Chairman, Senator Balloun, Representative Dunton and Representative Ossian.

A public hearing was held regarding Senate File 585 as passed by the Senate during the first session of the Sixty-third General Assembly. Testimony was given witnessing the need for a State Crime Laboratory. Further testimony indicated that there is competition for the site, Iowa City versus Des Moines. This testimony has been given to the Standing Committee on State Government with the recommendation that this bill receive high priority in deliberations during the second session of the Sixty-third General Assembly.

OTHER RECOMMENDATIONS

The Budget and Financial Control Committee recommends that legislation be considered by the General Assembly which would give the Governor authority to lower the salary of a statutory position as much as twenty-five percent (25%) when an appointment is being made to fill a vacancy.

Concerning the hiring of personnel, the Budget and Financial Control Committee urges that when a position is open in state government, that every effort be made to fill the position with a person residing in Iowa or a native Iowan who has left the state after receiving his formal training.

It has been called to the attention of the interim committee that County Treasurers in some cases are experiencing delays in the payment of taxes because the penalty of three fourths of one percent per month on delayed taxes is equivalent to current interest rates. The committee therefore recommends that legislation be considered which would raise the rate of penalty on unpaid taxes to one percent per month.

IOWA STATE HIGHWAY COMMISSION

During its visit to the Highway Commission offices in Ames on July 21, 1969, the Budget and Financial Control Committee received information on the following subjects:

1. Budget as approved by the Sixty-third General Assembly.
2. Miles of highway turned back to the counties during the last year.
3. The merit system as it affected Highway Commission employees.
4. Traffic weigh stations built from funds appropriated by the Sixty-second General Assembly.
5. Criteria used by the Highway Commission to build or rebuild highways.
6. Movement by the Commission of district construction offices.
7. Sale of excess land by the Commission.
8. Status of the toll bridge program.
9. Assessment of penalties against trucking companies by the Commission.

The members of the Budget and Financial Control Committee unanimously agree to be available to work with any of the standing committees during the second session of the Sixty-third General Assembly to relate to them the information gathered in visits to the various state departments, institutions, commissions or agencies.

ADOPTION OF SENATE CONCURRENT RESOLUTION 107

Den Herder of Sioux asked and received unanimous consent to take up for immediate consideration Senate Concurrent Resolution 107 and moved its adoption:

SENATE CONCURRENT RESOLUTION 107

By DeKoster and Gaudineer

Whereas, the federal government has extended the time for filing a 1969 federal income tax return, in the case of farmers who elect to file a final return in lieu of a declaration of estimated tax, to March 1, 1970; and

Whereas, section four hundred twenty-two point sixteen (422.16), subsection eleven (11), Code 1966, now provides that the exceptions provided in the Internal Revenue Code of 1954 with respect to declarations of estimated tax by farmers shall apply in Iowa; and

Whereas, the General Assembly has not yet provided by statute that references to the Internal Revenue Code of 1954 shall mean the Internal Revenue Code of 1954, as amended to January 1, 1970, although Senate File 1182, which makes such provision, has been introduced by the Senate committee on ways and means; and

Whereas, it is the intent of the General Assembly to conform Iowa in-

come tax procedure as nearly as practicable to federal income tax procedure;

LEAVE OF ABSENCE

Leave of absence was granted as follows:

Kreamer of Polk for the afternoon on request of Middleswart of Warren.

LINCOLN'S BIRTHDAY OBSERVANCE

Speaker Harbor presented Representative W. E. Darrington of Harrison County who addressed the House as follows:

Mr. Speaker, Honorable Members of the House, Ladies and Gentlemen:

On this 12th day of February, 1970, or the 161st birthday of Abraham Lincoln, and in the words of the great biographer and historian on Lincoln, the late Carl Sandburg: "I stand before you with a feeling of Humility rather than Pride."

This is the third time I have been so honored, but always with Humility, and to quote Lincoln the first year he was in the Illinois legislature: "Our legislature is composed of a very respectable and talented body of men; and it gladdens the heart of this patriot, to behold that talent nobly exerting itself."

When I was a freshman here, about twenty years ago, I got acquainted with a good legislator and a great student of Lincoln who is now serving as the Congressman from the First District of Iowa, the Honorable Fred Schwengel. He and I used to walk to and from the State House, and I wish to say when you walk with Fred Schwengel you walk. Most of the time I was walking with my hands in my pockets, but he would have an armful of books, often books on Lincoln, and I am going to blame Fred Schwengel for some of that rubbing off on me. Mr. Schwengel used to do the job I am now attempting to do, and I remember on one occasion he came back from Washington for this day.

Mr. Schwengel told me a couple of years ago that he had succeeded in locating the coat that Lincoln was wearing the night he was shot on April 14, 1865. This coat had been handed down through the Lincoln family and Mr. Schwengel headed a committee to contact these people. They saw the

coat and were satisfied that it was the real thing and they, also, saw the bullet hole in the coat. They propositioned them to buy the coat but their askings were very high. Sometime later at a meeting in Washington, D. C., someone made a suggestion that if a certain sum of money was offered to those people they thought they would take it, but the question was, where do we get the money?

That problem was quickly solved when a citizen of Iowa, who was not a member of the committee, spoke up and said he would give that amount of money if they could get the coat. This was accomplished, and I am happy to report to you that that great coat is now in good hands in Washington, D. C.

Shortly before the battle of Gettysburg in 1863, according to the report of a guest in the White House at that time, low tones were heard coming from his private room near President Lincoln's sleeping quarters, although the hour was far past midnight. The door was partly open and the guest saw Lincoln kneeling in prayer and heard these words: "Oh Thou God that heard Solomon in the night when he prayed for wisdom, hear me. I cannot lead our people without Thy support; I cannot guide the affairs of this nation without Thy help—Oh God who didn't hear Solomon when he prayed for guidance, hear me and save this nation."

The White House guest added in his report of the incident: "I think from that time on, the clouds which long had lain threatening over the affairs of our government began to roll away; the skies were brighter; the smile of Heaven was upon our President; God heard his prayer and sent deliverance. The key to Lincoln's eternal position in history was the depth of his spiritual feeling."

Lincoln once remarked to Senator Morrill of Maine: "I do not know but that God has created some one man great enough to comprehend the whole of this stupendous crisis from beginning to end, and endowed him with sufficient wisdom to manage and direct it. I confess I do not fully understand and foresee it all. But, I am placed where I am obliged, to the best of my poor ability, to deal with it. And that being the case, I can only go just as fast as I can see how to go."

If America is to remain a great power, it must return to faith in God, as did our forefathers. In addition to our dedicated Lincoln, among others, there was George Washington, who said, "Our people know it is impossible to rightly govern without God and the Bible"; Patrick Henry, "The Bible is worth all other books which have been written"; Andrew Jackson, "That book (the Bible) is the rock on which this Republic rests"; William Penn, "Men who are not governed by God will be ruled by tyrants." What about Cuba, Russia, Czechoslovakia, Poland, East Germany, China and North Vietnam?

"Honors did not change him, and pride could not corrupt him. He was a stranger to affectation. He was a humane man, a man of emotion well controlled; a man of sentiment and deep feeling. No one who has lived among us, has been so much a brother to every man, however lowly born or unfortunately circumstanced. He was a lowly man who never asserted himself as superior to his fellows. Yet he could rise in the dignity of his manhood to a majesty that has not been surpassed by any rules of any people under any form of government."—Charles Evans Hughes, 1909.

I wish to turn back the pages of time to the spring of 1959, I believe it was, when I was Speaker pro tempore of this House. I had the honor and good fortune to dedicate the site where the monument to the memory of Abraham Lincoln and his son Tad now stands. For the benefit of those who

were not here at that time, over \$25,000 was donated by members of this body, church organizations, Boy Scout groups, Des Moines policemen, in fact, people from all walks of life. I, too, have a sizeable investment in it, and I am very proud of it. In February of 1967, after a snowstorm, George Mills, whom we all know, was inspired by a picture of Lincoln and his son Tad with the State House in the background. He wrote these words and I quote:

COME IN, ABE

On the hill sits a man,
His boy by his side,
They're reading a book
That's twelve inches wide.

*Ab - ra - ham Lin - coln,
Out there in the snow!
Come in where it's warm,
It's starting to blow.*

Old Abe is intent,
There's nowhere a sound,
Young Tad is so still
Up high off the ground.

*Ab - ra - ham Lin - coln,
Out there in the cold!
It's cozy indoors,
A coffee we'll hold.*

Tad's head is all white,
There's chill in his face;
He doesn't complain,
Little boys know their place.

*Ab - ra - ham Lin - coln,
There's ice in that wind!
Why wait there and freeze?
You are an old friend.*

In summertime last
They stayed in the rain,
They read on and on
'Mid thunder's refrain.

*Ab - ra - ham Lin - coln,
The blizzard is here!
The fireplace glows,
Come, share our good cheer.*

The rain from the sky
And the rays of the sun
Are kinder to them
Than winter's rough run.

*Ab - ra - ham Lin - coln,
Out there in the storm!
Your joints must be stiff
From sitting so long.*

But they didn't hear
As we should have known
Old Abe and his youngster
Are just made of stone.

*Ab - ra - ham Lin - coln,
Out there in the snow!
Come in where it's warm,
It's starting to blow.*

In closing, I hope that that great monument of memory will inspire the hearts of future generations to exemplify in their daily lives the philosophy of one of the world's greatest men, Abraham Lincoln.

The bill having received a constitutional majority was declared to have passed the House and the title was agreed to.

House File 491, a bill for an act to authorize the establishment of rural water districts, to prescribe the procedure therefor, and relating to the purpose and manner of operation of such districts, with report of committee recommending passage, was taken up for consideration.

Bergman of Lyon-Osceola offered the following amendment filed by Bergman, Varley and Den Herder:

Amend House File 491 by striking everything after the enacting clause and inserting in lieu thereof the following:

Section 1. As used in this Act, unless the context otherwise requires:

1. "District" means a rural water district incorporated and organized pursuant to the provisions of this Act.
2. "Board" means the board of directors of a district, and "director" means a member of such board of directors.
3. "Member" means any owner of land which is located within a district, or the occupant thereof or other person acting for the owner with the owner's written consent.
4. "Participating member" means a member who has subscribed to and paid the established fee for at least one benefit unit in a district, in the manner provided by this Act.
5. "Supervisors" means the board of supervisors of any county, or the joint boards of supervisors of any two or more counties, in which a district has been incorporated and organized or is proposed to be incorporated and organized.
6. "Auditor" means the county auditor of any county in which a district has been incorporated and organized or is proposed to be incorporated and organized or, in the case of a district or proposed district lying in two or more counties, the auditor of the county having the largest district acreage.
7. "Council" means the Iowa natural resources council.

Sec. 2. A petition may at any time be filed with the auditor requesting the supervisors to incorporate and organize a district encompassing an area, not then included in any other district, in any county or any two or more adjacent counties for the purpose of providing an adequate supply of water for domestic purposes to residents of the area who are not served by the water mains of any city or town water system and who cannot feasibly obtain adequate supplies of water from wells on their own premises. The petition shall be signed by the owners of at least fifty percent of all land lying within the outside perimeter of the area designated for inclusion in the proposed district, and shall state:

1. The location of the area so designated, describing such area by section, or fraction thereof, and by township and range.

2. The reasons a district is needed.

Sec. 3. When a petition for incorporation and organization of a district is filed with the auditor, he shall so inform the supervisors who shall fix a time for a hearing thereon, not less than fifteen nor more than thirty days after the filing of the petition. The auditor shall prepare a notice as hereinafter required, which shall at least seven days before the date fixed for the hearing on the petition:

1. Be published in a newspaper of general circulation in the area to be incorporated.
2. Be transmitted, together with a copy of the original petition, to the council.

Sec. 4. The notice prepared by the auditor pursuant to section three (3) of this Act shall set forth:

1. The location of the land designated by the petitioners for incorporation in the proposed district, as described by the original petition.

2. The time and place fixed by the supervisors for the hearing on the petition.

3. That all owners or occupants of land within the boundaries described may appear and be heard.

4. That the proposed district, if incorporated, shall have no power or authority to levy any taxes whatsoever.

Sec. 5. At the hearing on the petition, any owner or occupant of land within the boundaries of the area described in the petition may appear, in person or by his designated representative, and any representative of the council may also appear, in favor of or in opposition to the incorporation and organization of the proposed district. Such appearances may also be filed in writing prior to the time set for the hearing.

Sec. 6. After the hearing, the supervisors may strike off any part of the territory that testimony shows will not be benefited by the creation of the district. If the supervisors do not find that the district is necessary, they shall dismiss the petition.

If the supervisors find that required notice of the hearing has been given and that such district is reasonably necessary for the public health, convenience, fire protection, and comfort of the residents, they shall make an order establishing the district as a body politic, describing its boundary, and designating it by name or number. The order shall be published in the same newspaper which published the notice of hearing. The supervisors shall prepare and preserve a complete record of the hearing on the petition and their findings and action thereon.

Sec. 7. As a part of the order incorporating the district, the supervisors shall fix the time and place at which the members shall meet to select from their number a board of directors. Selection of the initial board shall be not later than thirty days after the hearing. The number of directors on the board, not to exceed nine, shall be determined by a majority vote of those members present. Any member elected a director who fails to become a participating member, within thirty days after entry

in the minutes of the board of a declaration of availability of benefit units for subscription, shall forfeit his office.

Sec. 8. Within thirty days after election of the original board, proposed bylaws shall be submitted for adoption at a special meeting of members of the district, written notice of which shall be mailed to each member. Members present at the special meeting may adopt or amend any of the proposed bylaws, and may propose and adopt alternative or additional bylaws. The bylaws may subsequently be amended at any annual or special meeting of the participating members of the district. However, the bylaws of each district shall provide:

1. For an annual meeting of participating members between January first and March first of each year following the year of incorporation of the district, and for the mailing of written notice of the time and place of each annual meeting to each participating member and publication of such notice in a newspaper of general circulation in the district not less than ten nor more than thirty days prior to each meeting.

2. That each participating member of the district shall be entitled to a single vote at all annual and special meetings of the district, regardless of the number of benefit units to which he has subscribed.

Sec. 9. The initial board of each district shall divide its members by lot into three classes of as nearly equal size as possible. The terms of the directors in the first, second, and third classes shall expire on the dates of the annual meetings in the first, second, and third years, respectively, following the year in which the district is incorporated, or as soon thereafter as their respective successors are elected and have qualified. At the annual meeting in each year after the year in which the district is incorporated, a director shall be elected to succeed each director whose term of office expires on that date, and each director so elected shall hold office for a term of three years and until his successor is elected and has qualified. Vacancies shall be filled by appointment by the remaining directors, for the unexpired term.

Sec. 10. The board shall meet annually on the same day as, and immediately following, the annual meeting of participating members, and may meet at such other times as it may determine, or upon the call of the chairman or any two directors. At the first meeting of the initial board following its election, and at each succeeding annual board meeting, the board shall elect a chairman, vice chairman, secretary, and treasurer for the ensuing year.

Sec. 11. The board shall be the governing body of the district, and shall:

1. Adopt rules, regulations, and rate schedules in conformity with the provisions of this Act and the bylaws of the district as necessary for the conduct of the business of the district.

2. Maintain at its office a record of the district's proceedings, rules and regulations, and any decisions and orders made pursuant to the provisions of this Act, and furnish copies thereof to the supervisors or the council upon request.

3. Employ, appoint, or retain attorneys, engineers, other professional and technical employees, and such other personnel as necessary, and require and approve bonds of district employees.

4. Prior to each annual meeting of participating members:

a. Prepare an estimated budget for the coming year, and adjust water rates if necessary in order to produce the revenue required to fund the estimated budget, and make a report thereon at the annual meeting.

b. Have an audit made of the district's records and accounts, and make copies of the audit report available to all participating members attending the annual meeting and to any other participating member who so requests.

5. Have authority to acquire by gift, lease, purchase, grant, or by eminent domain proceedings, any property, real or personal, in fee or a lesser interest needed to achieve the purposes for which the district was incorporated and to sell and convey property owned, but no longer needed, by the district.

6. Have authority to construct, operate, maintain, repair, and when necessary to enlarge or extend, such ponds, reservoirs, pipelines, wells, check dams, pumping installations, or other facilities for the storage, transportation, or utilization of water, and such appurtenant structures and equipment, as may be necessary or convenient to carry out the purposes for which the district was incorporated. A district may purchase its water supply from any source.

7. Have power to borrow from, cooperate with and enter into such agreements as deemed necessary with any agency of the federal government, and to accept financial or other aid from any agency of the federal government. To evidence any indebtedness the obligations may be one or more bonds or notes and the obligations may be sold at private sale.

8. Have power to finance up to ninety percent of the cost of the construction or purchase of any project necessary to carry out the purposes for which the district is incorporated, provided the balance of the cost of construction or purchase is acquired by subscription, donation, gift, or otherwise than through the medium of loans, or to refinance up to ninety percent of the original cost of any such project, and to evidence such financing by issuance of revenue bonds or notes which shall mature in a period not to exceed forty years from date of issuance, shall bear interest, or combined interest and insurance charges, at a rate not to exceed six percent per annum, shall be payable only from revenue derived from sale of water by the district, and shall never become or be construed to be a debt against the state of Iowa or any of its political subdivisions other than the district issuing the bonds. A statutory mortgage lien shall exist upon the water system and appurtenances and extensions so acquired in favor of the holders of the bonds and notes.

Sec. 12. As soon as reasonably possible after incorporation of a district, the board shall file with the supervisors and the council copies of the plans and specifications for, and estimates of the cost of, any improvements authorized by this Act which the board proposes to construct or acquire.

The board shall determine a reasonable fee which each member shall pay for the privilege of utilizing the district's facilities which shall be known as a benefit unit. Benefit units may be classified. The board, by publication in a newspaper of general circulation in the district, shall generally describe the planned improvements, the area to be served and the fee members will be required to pay for each service connected to the water system.

Sec. 13. If the capacity of the district's facilities permits, the district may sell water by contract to any city or town, other district, or other person, public or private, not within the boundaries of a district.

Sec. 14.

1. Owners of land outside any district which can economically be served by the facilities of the district may petition to be attached to the district. The petition therefor shall be filed with the auditor, and the auditor and supervisors shall proceed thereon, in substantially the same manner as is provided by this Act for filing of a petition for incorporation and organization of a district.

2. All or any part of an incorporated city or town may be included in the boundaries of any existing water district or water district being newly organized, provided the governing body of such city or town by resolution or ordinance gives, or has given, its consent.

3. Boards of any two or more districts may by concurrent action and by approval of the supervisors merge their districts into one. In case of merger the members of the boards of the merged districts may serve out the terms for which they were elected. The resulting district shall take over all the assets and legal liabilities of the water districts joining in the merger. Obligations of any district secured by the revenue of the systems operated by the district shall continue to be retired, or a sinking fund for such purpose created from revenue from the system operated over the same area by the resulting district in accordance with the laws under which the obligations were issued, until all obligations of the old district have been retired.

Sec. 15. No district shall have any power to levy any taxes. Neither the facilities constructed or otherwise acquired by any district, including but not limited to ponds, reservoirs, pipelines, wells, check dams, and pumping installations, the revenues obtained by the district from the sale of water, nor the revenue bonds or interest therefrom issued by any district shall be taxable in any manner by the state of Iowa or any of its political subdivisions.

Sec. 16. If it becomes apparent that certain lands included within a district cannot economically or adequately be served by the facilities of the district, the owners of such lands may file with the auditor a petition to the supervisors requesting that those lands be detached from the district. The petition shall:

1. Describe by section, or fraction thereof, and by town-

ship and range, the lands which it is proposed to detach from the district.

2. State that such lands cannot economically or adequately be served by the facilities of the district, and that it is not feasible for the district to enlarge or extend its facilities so as to economically and adequately serve such lands.

3. Be signed by the owners of all the lands which it is desired to detach from the district.

Sec. 17. A petition may be filed with the auditor requesting the supervisors to dissolve an inactive district. The petition shall:

1. State that the district owns no property of any kind exclusive of records, maps, plans, and files, and that all of its debts and obligations have been fully paid.

2. State that the board has not held a meeting for more than one year prior to the date of filing of the petition, that the district is not functioning, and will probably continue to be inoperative.

3. Be signed by three-fourths of the members of the district.

Sec. 18. Upon the filing with the auditor of a petition under either section sixteen (16) or section seventeen (17) of this Act, the auditor shall so inform the supervisors who shall fix a time for consideration of the petition. The supervisors may, but shall not be required to, hold a hearing thereon. After consideration of the petition, and after the hearing if one is held, the supervisors shall ascertain whether:

1. The petition meets all of the requirements prescribed by this Act for such petition.

2. It appears from all information available to the supervisors that each allegation included in the petition is factual.

If the supervisors' finding on each of the foregoing points is positive, it shall declare the lands described in the petition detached from the district, or declare the district dissolved, as the case may be. The supervisors shall notify the secretary of the district of its action, and the secretary shall amend the records of the district to show that the land described in the petition has been detached from the district, or shall within thirty days deliver to the auditor all records, maps, plans, and files of the district dissolved, as the case may be.

Sec. 19. Nothing in this Act shall be construed to exempt any district from the requirements of any other statute, whether enacted prior to or subsequent to the effective date of this Act, under which the district is required to obtain the permission or approval of, or to notify, the council, the Iowa commerce commission, or any other agency of this state or of any of its political subdivisions prior to proceeding with construction, acquisition, operation, enlargement, extension, or alteration of any works or facilities which the district is authorized to undertake pursuant to this Act.

Sec. 20. A nonprofit corporation incorporated under the laws of the state of Iowa for the specific purpose of operating a rural water system may petition the supervisors for incorporation of a district, in the manner provided by sec-

tion two (2) of this Act. The signatures of the corporation's officers on the petition shall suffice in lieu of signatures of owners of fifty percent of the land in the proposed district, provided the corporation presents evidence satisfactory to the supervisors that a sufficient number of members of the proposed district will subscribe to benefit units to make its operation feasible. The procedure for hearing and determination of disposition of the petition shall be as provided by this Act. In any district incorporated upon the petition of a nonprofit corporation, the officers and board of directors of the corporation shall be the officers and board of the district. The applicable laws of the state and the articles of incorporation and bylaws of the corporation shall control the initial size and initial term of office of such officers and board, in lieu of sections seven (7), nine (9), and ten (10) of this Act. At the first annual meeting of the participating members and board of directors, the district shall bring its operation and structure in compliance with section seven (7) through section ten (10) of this Act.

HOUSE CONCURRENT RESOLUTION 113

By Mendenhall, Middleswart, Battles and Priebe:

Whereas, The discovery of Coldwater Cave has excited the imagination of many people in Iowa with its unique resources which were previously unknown, and its complete geological formations, some of which cannot be found elsewhere in the state, and

Whereas, The people of Iowa should be given an opportunity to view the spectacular formations and living forms, and to experience the vivid aesthetic exhilarations which the cave offers, and

Whereas, For the present the state preserves advisory board believes the cave should remain inviolate except to research personnel until a proper and scientific study of this phenomenon can be completed, and

Whereas, Premature commercial exploitation of Coldwater Cave may mean an irreplaceable scientific loss to mankind by unintentional damage to scientific and geological properties by unscientific personnel, and

Whereas, The cave can be a priceless scientific laboratory and a tremendous educational resource for Iowa and the nation, and it is very timely to insure that qualified personnel explore the cave to determine its scientific and recreational value; *Now; Therefore*,

Be It Resolved by the House, the Senate Concurring, That the General Assembly recognize its immediate opportunity and take action for the preservation and exploration of this cave; and

Be It Further Resolved, That the General Assembly direct and authorize the Iowa conservation commission to negotiate with the landowners for the purpose of reaching an agreement as to the price that might be involved in the purchase of any necessary property rights, the amount of land involved in the total development of the Coldwater Cave project, the methods for gaining entrance to the Coldwater Cave, the proper research

to be undertaken by the Iowa geological survey in order to properly control, supervise, and coordinate activities in regard to Coldwater Cave in order to develop it as a public facility; and

Be It Further Resolved, That after negotiation and research, a report be made to the General Assembly as soon as possible so that proper funding of the project may be provided as authorized by the General Assembly.

Laid over under Rule 25.

HOUSE CONCURRENT RESOLUTION 114

By Lawson

Whereas, a modern means of planning for the orderly development of cities and neighboring areas is a technique called "metropolitan planning", and

Whereas, metropolitan planning has brought outstanding benefits to a number of areas in the United States where problems had previously been extreme, and

Whereas, present lack of land use legislation leads to inequitable tax assessment in areas lying close to cities, as well as inviting "urban sprawl", and

Whereas, corrective legislation would be needed to and make possible the flexible and efficient operation allowed by metropolitan planning for urban, suburban and nearby areas; now therefore,

Be It Resolved by the House, the Senate Concurring, That the legislative council is asked to create a study committee as provided by law, which committee shall include members of the appropriate standing committees of the Senate and the House of Representatives, to conduct during the 1970-1971 legislative interim a comprehensive study of the results of metropolitan legislation in other states, of the steps required to permit metropolitan districting in Iowa, and to develop appropriate proposed legislation,

with attention to current bonding requirements, for presentation to the first regular session of the Sixty-fourth General Assembly in January, 1971.

Laid over under Rule 25.

The board of supervisors of each county shall appoint a county medical examiner who shall take office on January 2, 1971, and each two years thereafter, and serve for a term of two years and until his successor has been appointed and qualifies. County medical examiners holding office upon the effective date of this Act shall continue in office until their successors are appointed and qualified. Vacancies for any unexpired term shall be filled by the board of supervisors.

Sec. 5. Each county medical examiner shall be licensed in Iowa as a doctor of medicine and surgery, as a doctor of osteopathic medicine and surgery, or as an osteopathic physician. He shall be appointed by the board of supervisors from lists of two or more names submitted by the medical society and the osteopathic society of the county in which he is a resident. If names are not submitted by either society, the board of supervisors may appoint any licensed physician, osteopathic physician and surgeon, or osteopathic physician of the county. If such qualified physician of the county will not serve, the board of supervisors may appoint a physician from another county. If a county medical examiner is unable to serve in any particular case or for any period of time, he shall promptly notify the chairman of the board of supervisors who shall then designate some other qualified physician to serve in his place.

Sec. 6. The county medical examiner shall take an oath of office as prescribed by Article eleven (XI), section five (5), of the Constitution of Iowa and shall post bond with the county auditor in an amount to be fixed by the board of supervisors.

Sec. 7. The board of supervisors of each county may provide such laboratory facilities, deputy medical examiners, and other professional, technical, and clerical assistance as may be required by the county medical examiner in the performance of the duties imposed by this Act. However, such requirements shall be subject to prior approval by the state medical examiner.

Sec. 8. The death of any person shall be reported to the county medical examiner or state medical examiner by the physician in attendance, by any law enforcement officer having knowledge of such death, by the embalmer, or by any other person present, if the deceased shall have died in the manner specified in section ten (10) of this Act. The appropriate medical examiner shall notify the proper law enforcement officers and take charge of the body. The county medical examiner shall also make inquiries regarding the cause and manner of death, reduce his findings to writing, promptly make a full report thereof to the state medical examiner on forms prescribed for such purpose, and deliver a copy of said report to the county attorney of his county. For each such preliminary investigation, including the making of the required reports, the county medical examiner shall receive a fee as set by the board of supervisors, plus his actual expenses, to be paid by the county for which the service was performed.

Sec. 9. Every person who knows of the existence of a body where death occurred in the manner specified in section ten (10) of this Act, shall notify the county or state medical examiner or the proper law enforcement officer thereof as soon as possible, unless such person shall have good reason to believe that such notice has already been given. Any person who shall fail to give such notice to a medical examiner shall be guilty of a public offense, and upon conviction thereof shall be punished by a fine of not more than five hundred dollars or a sentence in the county jail of not more than six months, or by both such fine and imprisonment.

Sec. 10. The state medical examiner shall investigate or cause the county medical examiner to investigate human deaths where determination of the cause of death is in the public interest. Deaths affected with the public interest shall include, but not necessarily be limited to, all deaths known or suspected to be of the following types:

1. Violent deaths, including homicidal, suicidal, or accidental deaths.
2. Deaths caused by thermal, chemical, electrical, or radiation injury.
3. Deaths caused by criminal abortion including those self-inflicted, or by rape, carnal knowledge, or crimes against nature.
4. Deaths related to disease thought to be virulent or contagious, which might constitute a public hazard.
5. Deaths that have occurred unexpectedly, or from unexplained causes.
6. Deaths of persons confined in any prison, jail, or correctional institution.
7. Deaths of persons where a physician was not in attendance at any time at least thirty-six hours preceding death, with the exception of prediagnosed terminal or bedfast cases for which the time period shall be extended to twenty days.
8. Deaths of persons where the bodies are not claimed by relatives or friends.
9. Deaths of all persons wherein the identity of the deceased is unknown.

Sec. 11. The county medical examiner shall investigate each death occurring in the manner specified in section ten (10) of this Act, and report each case to the state medical examiner. The county medical examiner shall conduct such investigation as may be required by the state medical examiner and shall determine whether or not the public interest requires an autopsy or other special investigation. In his determination of the need for an autopsy, the county medical examiner may consider the requests for an autopsy made by private persons or public officials, except that the state medical examiner or the county attorney of the county where the death occurred may require an autopsy.

Sec. 12. A complete record of the findings of a person making an autopsy shall be promptly made and filed in the office of the state medical examiner and the county attorney for the county where death occurred and the county attorney

of the county wherein any injury contributing to or causing death was sustained.

Sec. 13. When any death occurs in the manner specified in section ten (10) of this Act, the body shall not be disturbed or removed from the position in which it is found by any person without authorization from the county medical examiner or the state medical examiner, except for the purpose of preserving such body from loss or destruction, or permitting the passage of traffic on a highway, railroad, or airport, or if the failure to immediately remove such body might endanger life, safety, or health. It shall be unlawful for any person to move, disturb, or conceal a body in violation of this Act.

Sec. 14. Reports of investigations made by the state medical examiner or his designee or by a county medical examiner or his designee, and the records and reports of autopsies made as provided in this Act, shall be received as evidence in any court or other proceedings, except that statements by witnesses or other persons and conclusions on extraneous matters included within the report are not hereby made admissible. The persons preparing a report or record given in evidence hereunder may be subpoenaed as a witness in any civil or criminal case by any party to the cause. Copies of records, photographs, laboratory findings, and records in the office of the state medical examiner or any medical examiner, when duly attested to by the state medical examiner or one of his staff, or the medical examiner in whose office the same are, shall be received as evidence in any court or other proceedings for any purpose for which the original could be received without proof of the official character of the person whose name is signed thereto.

Sec. 15. If there is no person entitled by law to any property or money found on a deceased person, it shall be deposited with the clerk of the district court to be held until disposed of according to law.

Sec. 16. After an investigation has been completed, including an autopsy if one is made, the body shall be delivered to the relatives or friends of the deceased person for burial. No medical examiner shall use influence in favor of any particular funeral director. If no person claims a body, it shall be disposed of as provided in chapter one hundred forty-two (142) of the Code.

Sec. 17. It shall be unlawful to embalm a body when the embalmer has any reason to believe death occurred in a manner specified in section ten (10) of this Act, or when there is evidence sufficient to arouse suspicion of crime in connection with the cause of death of the deceased, or where it is the duty of a medical examiner to view the body and investigate the death of the deceased person, until the permission of a county medical examiner has been obtained. Whenever feasible, the body shall be released to the funeral director for embalming within twenty-four hours of death.

It shall be unlawful to cremate, bury, or send out of the state the body of a deceased person when death occurred in a manner specified in section ten (10) of this Act, until a medi-

cal examiner shall certify in writing that he has viewed the body and has made personal inquiry into the cause and manner of death and that all necessary autopsy or postmortem examinations have been completed.

A fee as set by the board of supervisors shall be paid the county medical examiner for an examination certificate by the person making application therefor, and a copy of such certificate shall be promptly filed by the medical examiner in his office. The certificate of the county medical examiner shall not be required in cases of stillborn infants if a physician was present at the stillbirth and the cause of stillbirth, as certified by the physician according to the provisions of chapters one hundred forty-one (141) and one hundred forty-four (144) of the Code, is not such as to require an investigation by a medical examiner.

Any person violating any of the provisions of this section shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be fined not more than one thousand dollars or imprisoned in the county jail not more than one year, or by both such fine and imprisonment.

Sec. 18. In any case of sudden, violent, or suspicious death after which the body is buried without any investigation or autopsy, the county medical examiner shall, upon being advised of such facts, notify the county attorney. The county attorney shall thereupon apply for a court order requiring the body to be exhumed, in accordance with chapter one hundred forty-one (141) of the Code. Upon receipt of the court order, an autopsy shall be performed by a medical examiner or by a pathologist designated by him and the facts disclosed by such autopsy communicated to the court ordering the disinterment for such action as may be proper.

Sec. 19. The commissioner of public safety may accept federal or private funds or grants to aid in the establishment or operation of the state criminalistics laboratory, and the board of regents may accept federal or private funds or grants to aid in the establishment of the position of state medical examiner.

Sec. 20. The governor shall by executive order provide for the transfer of any appropriate laboratory facilities, equipment, and technical personnel of the state to the state criminalistics laboratory if such transfer will more effectively and efficiently aid the investigation of crime.

Sec. 21. Chapter three hundred thirty-nine (339), Code 1966, is hereby repealed.

PIERSON of Mahaska

1 Amend the House state government committee amendment
2 to Senate File 665, filed March 3, 1970, by adding the following section:

3 "The provisions of this section shall apply only for
4 the purpose of voting, registration for voting, and the
5 election laws of this state. Said section shall apply in
6 all determinations of residence for the purpose of voting
7 or registration for voting, whether the pertinent facts ex-
8 isted or arose before or after the effective date of this
9 Act.

10 "1. A person's residence is the place where he maintains
11 his home with the intent to remain there permanently or for
12 an indefinite or undeterminable period of time, and with no
13 intent to remove his home from that place at any fixed or
14 determinable time or upon the happening of any specific
15 event. If he does not have the required intent with regard

38 in such place before he began such activity or acquired
39 such purpose.

40 "5. The presumption stated in subsection four (4)
41 of this section may be overcome by clear and convincing
42 evidence. The burden of proof shall be on the person
43 attempting to overcome the presumption.

44 "6. The fact that a person is uncertain as to the
45 place of his future residence shall not be regarded as

49 for the purpose of distribution of funds under sections
50 one hundred twenty-three point fifty (123.50) and three

Freeman of Buena Vista offered the following amendment filed by Freeman, et al., and moved its adoption:

Amend House File 595 as follows:

By striking from page 1, lines 5 through 14, inclusive, and inserting in lieu thereof the following:

Purchases of real estate as provided by law may be made by a

state department on written contracts providing for payment over a period of years but the obligations thereon shall not constitute a debt or charge against the State of Iowa nor against the funds of the department for which said purchases are made. Purchase payments may be made from appropriated capital funds, or from other funds lawfully available for that purpose and allocated therefor by the department, or from any combination of the foregoing, but not from appropriated operating funds. All state-appropriated capital funds used for any one purchase contract shall be taken entirely from a single capital appropriation and shall be set aside for that purpose. In event of default, the only remedy of the seller shall be against the property itself and the rents and profits thereof, and in no event shall any deficiency judgment be entered or enforced against the State or Iowa or the department for which the purchase was made.

CONSIDERATION OF BILLS

SPECIAL ORDER

(Senate File 585)

The hour of 9:30 a.m. having arrived, the Speaker announced the special order of business for the consideration of **Senate File 585**, a bill for an act relating to a state crime laboratory, a state medical examiner, county medical examiners, and the investigation of unnatural deaths.

Camp of Clinton offered the following amendment filed by the mittee on state government:

Amend Senate File 585 as passed by the Senate as follows:

1. By striking all after the enacting clause and inserting in lieu thereof the following:

Section 1. There is hereby created under the control, direction and supervision of the commissioner of public safety a state criminalistics laboratory. The commissioner shall appoint a director of the state criminalistics laboratory and determine the placement of such laboratory within the department. The laboratory shall conduct analyses, comparative studies, toxicology studies, and other studies normally performed by criminalistics laboratories. The laboratory may also assist in autopsies when requested by any medical examiner and in criminal investigations when requested by a peace officer.

Sec. 2. There is hereby created the position of state medical examiner. The state medical examiner shall possess a degree of doctor of medicine from an approved medical school, be licensed to practice medicine in the State of Iowa, and possess special training in the medical specialty of forensic pathology. The state medical examiner shall be appointed by the governor from a list of qualified persons submitted by the board of regents, the attorney general, and the commissioner of public safety. The term of office of the state medical examiner is six years. The state medical examiner may be a faculty member of the college of medicine or the college of law at the university of Iowa, and any of his assistants or staff may be members of the faculty or staff of the college of medicine or the college of law at the university of Iowa. The board of regents shall fix the compensation of the state medical examiner and his assistants or staff.

Sec. 3. The duties of the state medical examiner shall be:

1. To provide assistance, consultation, and training to county medical examiners and law enforcement officials.
2. To keep complete records of all relevant information concerning deaths or crimes requiring investigation.
3. To promulgate rules and regulations pursuant to chapter seventeen A (17A) of the Code regarding the transfer of items for analysis or investigation to laboratories; the manner and techniques to be employed while conducting autopsies; the nature, character, and extent of investigations to be made in cases of homicide or suspected homicide necessary to allow a medical examiner to render a full and complete analysis and report; the format and matters to be contained in all reports rendered by medical examiners; and all other things necessary to carry out this Act. All county medical examiners and peace officers shall be subject to such rules and regulations.

Sec. 4. The board of supervisors of each county shall appoint a county medical examiner who shall take office on January 2, 1971, and each two years thereafter, and serve for

a term of two years and until his successor has been appointed and qualifies. County medical examiners holding office upon the effective date of this Act shall continue in office until their successors are appointed and qualified. Vacancies for any unexpired term shall be filled by the board of supervisors.

Sec. 5. Each county medical examiner shall be licensed in Iowa as a doctor of medicine and surgery, as a doctor of osteopathic medicine and surgery, or as an osteopathic physician. He shall be appointed by the board of supervisors from lists of two or more names submitted by the medical society and the osteopathic society of the county in which he is a resident. If names are not submitted by either society, the board of supervisors may appoint any licensed physician, osteopathic physician and surgeon, or osteopathic physician of the county. If such qualified physician of the county will not serve, the board of supervisors may appoint a physician from another county. If a county medical examiner is unable to serve in any particular case or for any period of time, he shall promptly notify the chairman of the board of supervisors who shall then designate some other qualified physician to serve in his place.

Sec. 6. The county medical examiner shall take an oath of office as prescribed by Article eleven (XI), section five (5), of the Constitution of Iowa and shall post bond with the county auditor in an amount to be fixed by the board of supervisors.

Sec. 7. The board of supervisors of each county may provide such laboratory facilities, deputy medical examiners, and other professional, technical, and clerical assistance as may be required by the county medical examiner in the performance of the duties imposed by this Act. However, such requirements shall be subject to prior approval by the state medical examiner.

Sec. 8. The death of any person shall be reported to the county medical examiner or state medical examiner by the physician in attendance, by any law enforcement officer having knowledge of such death, by the embalmer, or by any other person present, if the deceased shall have died in the manner specified in section ten (10) of this Act. The appropriate medical examiner shall notify the proper law enforcement officers and take charge of the body. The county medical examiner shall also make inquiries regarding the cause and manner of death, reduce his findings to writing, promptly make a full report thereof to the state medical examiner on forms prescribed for such purpose, and deliver a copy of said report to the county attorney of his county. For each such preliminary investigation, including the making of the required reports, the county medical examiner shall receive a fee as set by the board of supervisors, plus his actual expenses, to be paid by the county for which the service was performed.

Sec. 9. Every person who knows of the existence of a body where death occurred in the manner specified in section ten (10) of this Act, shall notify the county or state medical examiner or the proper law enforcement officer thereof as soon as possible, unless such person shall have good reason to believe that such notice has already been given. Any per-

son who shall fail to give such notice to a medical examiner shall be guilty of a public offense, and upon conviction thereof shall be punished by a fine of not more than five hundred dollars or a sentence in the county jail of not more than six months, or by both such fine and imprisonment.

Sec. 10. The state medical examiner shall investigate or cause the county medical examiner to investigate human deaths where determination of the cause of death is in the public interest. Deaths affected with the public interest shall include, but not necessarily be limited to, all deaths known or suspected to be of the following types:

1. Violent deaths, including homicidal, suicidal, or accidental deaths.
2. Deaths caused by thermal, chemical, electrical, or radial injury.
3. Deaths caused by criminal abortion including those self-inflicted, or by rape, carnal knowledge, or crimes against nature.
4. Deaths related to disease thought to be virulent or contagious, which might constitute a public hazard.
5. Deaths that have occurred unexpectedly, or from unexplained causes.
6. Deaths of persons confined in any prison, jail, or correctional institution.
7. Deaths of persons where a physician was not in attendance at any time at least thirty-six hours preceding death, with the exception of prediagnosed terminal or bedfast cases for which the time period shall be extended to twenty days.
8. Deaths of persons where the bodies are not claimed by relatives or friends.
9. Deaths of all persons wherein the identity of the deceased is unknown.

Sec. 11. The county medical examiner shall investigate each death occurring in the manner specified in section ten (10) of this Act, and report each case to the state medical examiner. The county medical examiner shall conduct such investigation as may be required by the state medical examiner and shall determine whether or not the public interest requires an autopsy or other special investigation. In his determination of the need for an autopsy, the county medical examiner may consider the requests for an autopsy made by private persons or public officials, except that the state medical examiner or the county attorney of the county where the death occurred may require an autopsy.

Sec. 12. A complete record of the findings of a person making an autopsy shall be promptly made and filed in the office of the state medical examiner and the county attorney for the county where death occurred and the county attorney of the county wherein any injury contributing to or causing death was sustained.

Sec. 13. When any death occurs in the manner specified in section ten (10) of this Act, the body shall not be disturbed or removed from the position in which it is found by any person without authorization from the county medical ex-

aminer or the state medical examiner, except for the purpose of preserving such body from loss or destruction, or permitting the passage of traffic on a highway, railroad, or airport, or if the failure to immediately remove such body might endanger life, safety, or health. It shall be unlawful for any person to move, disturb, or conceal a body in violation of this Act.

Sec. 14. Reports of investigations made by the state medical examiner or his designee or by a county medical examiner or his designee, and the records and reports of autopsies made as provided in this Act, shall be received as evidence in any court or other proceedings, except that statements by witnesses or other persons and conclusions on extraneous matters included within the report are not hereby made admissible. The persons preparing a report or record given in evidence hereunder may be subpoenaed as a witness in any civil or criminal case by any party to the cause. Copies of records, photographs, laboratory findings, and records in the office of the state medical examiner or any medical examiner, when duly attested to by the state medical examiner or one of his staff, or the medical examiner in whose office the same are, shall be received as evidence in any court or other proceedings for any purpose for which the original could be received without proof of the official character of the person whose name is signed thereto.

Sec. 15. If there is no person entitled by law to any property or money found on a deceased person, it shall be deposited with the clerk of the district court to be held until disposed of according to law.

Sec. 16. After an investigation has been completed, including an autopsy if one is made, the body shall be delivered to the relatives or friends of the deceased person for burial. No medical examiner shall use influence in favor of any particular funeral director. If no person claims a body, it shall be disposed of as provided in chapter one hundred forty-two (142) of the Code.

Sec. 17. It shall be unlawful to embalm a body when the embalmer has any reason to believe death occurred in a manner specified in section ten (10) of this Act, or when there is evidence sufficient to arouse suspicion of crime in connection with the cause of death of the deceased, or where it is the duty of a medical examiner to view the body and investigate the death of the deceased person, until the permission of a county medical examiner has been obtained. Whenever feasible, the body shall be released to the funeral director for embalming within twenty-four hours of death.

It shall be unlawful to cremate, bury, or send out of the state the body of a deceased person when death occurred in a manner specified in section ten (10) of this Act, until a medical examiner shall certify in writing that he has viewed the body and has made personal inquiry into the cause and manner of death and that all necessary autopsy or postmortem examinations have been completed.

A fee as set by the board of supervisors shall be paid the

county medical examiner for an examination certificate by the person making application therefor, and a copy of such certificate shall be promptly filed by the medical examiner in his office. The certificate of the county medical examiner shall not be required in cases of stillborn infants if a physician was present at the stillbirth and the cause of stillbirth, as certified by the physician according to the provisions of chapters one hundred forty-one (141) and one hundred forty-four (144) of the Code, is not such as to require an investigation by a medical examiner.

Any person violating any of the provisions of this section shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be fined not more than one thousand dollars or imprisoned in the county jail not more than one year, or by both such fine and imprisonment.

Sec. 18. In any case of sudden, violent, or suspicious death after which the body is buried without any investigation or autopsy, the county medical examiner shall, upon being advised of such facts, notify the county attorney. The county attorney shall thereupon apply for a court order requiring the body to be exhumed, in accordance with chapter one hundred forty-one (141) of the Code. Upon receipt of the court order, an autopsy shall be performed by a medical examiner or by a pathologist designated by him and the facts disclosed by such autopsy communicated to the court ordering the disinterment for such action as may be proper.

Sec. 19. The commissioner of public safety may accept federal or private funds or grants to aid in the establishment or operation of the state criminalistics laboratory, and the board of regents may accept federal or private funds or grants to aid in the establishment of the position of state medical examiner.

Sec. 20. The governor shall by executive order provide for the transfer of any appropriate laboratory facilities, equipment, and technical personnel of the state to the state criminalistics laboratory if such transfer will more effectively and efficiently aid the investigation of crime.

Sec. 21. Chapter three hundred thirty-nine (339), Code 1966, is hereby repealed.

Amend House File 1233 by striking all after the enacting clause and inserting in lieu thereof the following:

Chapter one hundred eighty-one (181), Code 1966, is hereby amended by adding thereto the following new sections:

Section 1. As used in this chapter, unless the context requires otherwise:

1. "First purchaser" means any person who buys cattle or veal calves for slaughter, in the first instance.
2. "Producer" means every person who raises cattle or veal calves for slaughter or who feeds cattle or veal calves for slaughter or both.

Sec. 2. The executive committee shall engage in research and education programs directed toward better and more efficient production, marketing, and utilization of cattle and veal calves and products made therefrom; provide methods and means including, but not limited to, public relations and other promotion techniques for the maintenance of present markets; make donations to nonprofit organizations working toward the purposes of this section; assist in development of new or larger markets both domestic and foreign for cattle and veal calves and products made therefrom, and work toward prevention, modification, or elimination of trade barriers which obstruct the free flow of such cattle and veal calves and products made therefrom to market.

Sec. 3. The executive committee shall have power to authorize its agents to enter upon the premises of any purchaser charged by this chapter with remitting to the committee the excise tax, and to cause to be examined by such agent or agents, all books, records, documents, and other instruments bearing upon the amount of such excise tax; provided however, that the executive committee must first have reasonable grounds to believe that all such excise taxes have not been remitted or fully accounted for, as herein provided.

The executive committee is authorized to enter into arrangements with persons purchasing cattle and veal calves for slaughter outside of Iowa on the basis provided Section 4 hereof, for remitting the excise tax by such buyers.

Sec. 4. For four years from and after the first day of October, 1970, there is hereby levied and imposed an excise

tax of ten cents (10c) per head on all cattle and five cents (5c) per head on all veal calves sold for slaughter which tax shall be due at or before the time such cattle or calves are first sold for purposes of slaughter, and shall be paid at such time or times as the executive committee may, by rule or regulation, prescribe, as herein-after provided, but not later than the last day of the month following the end of the prior reporting period, established by the executive committee, in which such cattle or veal calves are sold in commercial channels.

The tax shall be levied and assessed on any producer selling cattle and veal calves for slaughter, at the time of delivery of the same for sale and shall be deducted by the first purchaser from the price paid to the seller at the time of sale. The first purchaser, at the time of sale, shall make and deliver to the producer separate invoices for each purchase showing the name and address of the producer and first purchaser, the number and kind of cattle and veal calves sold and the date of the sale.

Sec. 5. Any person from whom the excise tax herein is collected may, by written application filed with the executive committee within sixty days after its collection from him, have said amount remitted to him by the executive committee.

Sec. 6. All excise taxes imposed and levied under this chapter shall be paid to and collected by the executive committee and deposited with the treasurer of state in a separate cattle and veal calf fund which is hereby created. From the moneys collected in accordance with the provisions of this Act, the executive committee shall first pay the costs of referendums held pursuant hereto; the costs of collection of such excise tax, and expenses of officers provided for in section one hundred eighty-one point five (181.5) of the Code. At least twenty percent of the funds remaining thereafter shall be remitted to the national livestock and meat board and the beef industry council thereof, and at least ten percent of the remaining funds shall be remitted to the Iowa beef cattle producers association in such proportions as the committee may determine, for use by them in a manner not inconsistent with Section 2 of this Act. The remaining moneys received, with approval of a majority of the executive committee, shall be expended as found necessary to carry out the provisions and purposes of this Act. The cattle and veal calf fund shall be subject at all times to warrants by the state comptroller, drawn upon the written requisition of the chairman of the executive committee and attested to by its secretary, for the payment of all expenditures of the committee, which shall, at no time, exceed the amount deposited to the credit of such fund.

Sec. 7. Ninety (90) days prior to the termination of the initial assessment period provided for herein, or any extension thereof, the secretary of agriculture shall cause notice to be published in accordance herewith of a referendum to be conducted on the question of whether

the excise tax provided for herein should be extended for an additional four-year period.

Notice of any such referendum shall be given by the secretary by publishing the same for a period of not less than five (5) days in a newspaper of general circulation in the state and in such other newspapers as the secretary may prescribe. The notice of referendum shall set forth the period for voting and the voting places for the referendum and the amount of the deduction pursuant to Section 4 of this Act. No referendum shall be commenced prior to five days after the last day of such period of publication.

Sec. 8. Each producer upon signing a statement certifying that he is a bona fide producer, as defined in this Act, shall be entitled to one vote. At the close of the referendum period, the secretary shall count and tabulate the ballots filed during the referendum period. If from such tabulation the secretary finds that a majority of the total number of producers voting favor the assessment, the excise tax provided for in Section 4 shall be levied and imposed for an additional four years from the end of the previous taxing period.

The ballots thus cast shall constitute complete and conclusive evidence for use in any finding made by the secretary under the provisions of this Act. The secretary may prescribe such additional procedures as may be necessary to conduct a referendum.

No assessment levied pursuant to this chapter shall continue after forty-eight months from its initiation, unless it is extended for additional periods of four years by referendum.

In the event of the failure of any referendum provided for herein to pass, a subsequent referendum may be called by the secretary upon petition to him therefor by at least one hundred producers within one hundred eighty days after the secretary's determination that the prior referendum has failed. In the event of failure to make such petition within said period, or, the second consecutive failure of a referendum to pass, no further referendum shall be conducted and the levy and assessment herein created shall terminate and be of no further force or effect.

Sec. 9. If any extension referendum fails to carry, moneys remaining in the cattle and veal calf fund shall continue to be expended in accordance with the provisions of this Act until exhausted.

Sec. 10. Any person who shall violate or assist in the violation of any of the provisions of this Act shall be deemed guilty of a misdemeanor.

CARROLL A. LANE, Secretary

HOUSE CONCURRENT RESOLUTION 118

By Tapscott, Tieden and Dunton

Whereas, there are approximately one hundred sixty-seven thousand disabled or handicapped persons in the State of Iowa; and

Whereas, eleven thousand persons in Iowa are estimated to be handicapped by mental illness, more than forty thousand by mental retardation, twenty-five thousand by cardiac and circulatory disorders, thirty-five thousand by physical deformities, paralysis, or amputations, and others suffer impairment of vision, hearing, speech, ability to breathe, or other bodily functions; and

Whereas, neglected disability causes "crisis people" who must be dealt with by institutions, welfare assistance, and many costly programs at a time when it is often too late for maximum benefit or too late to avoid tragedy; and

Whereas, making vocational rehabilitation opportunities available to all handicapped persons before the "crisis" of discouragement and dependency occurs results in the saving of life, personal resources, and the public funds, and is the economical way to deal with the problems of disability, in contrast with the traditional methods of support and remedial activity instituted after individual initiative has been lost and the deteriorating effects of idleness and dependency have left their imprint; and

Whereas, homes or housing located near rehabilitation centers and facilities providing both temporary and permanent housing to the handicapped, particularly those receiving vocational rehabilitation and training, financed and operated by the state, in substantially the same manner as is presently being done by the Commission for the Blind in Des Moines, would greatly benefit the persons being assisted by such rehabilitation centers and facilities; *Now, Therefore*,

Be It Resolved by the House, the Senate Concurring, That the Legislative Council be authorized to conduct, during the 1970-1971 legislative interim, a study of the feasibility of establishing a home or homes for the handicapped that would be financed and operated by the state, the laws relating thereto, and the need for additional legislation to aid in coping with the problems of handicapped people.

Be It Further Resolved, That the Legislative Council establish a committee to assist with the study for establishing programs providing homes for the handicapped.

Be It Further Resolved, That a report of the study findings and recommendations, accompanied by bills incorporating such recommendations, be submitted to the Legislative Council and the 1971 session of the General Assembly.

Laid over under Rule 25.

AMENDMENTS FILED

1 Amend House File 635, on page 1, by striking everything
2 after the enacting clause and by inserting in lieu thereof the
3 following:

4 Section 1. As used in this Act, unless the context in-
5 dicates a contrary intent:

6 1. "Landlord" means the owner, or his agent, of a rental
7 dwelling.

8 2. "Rental dwelling" means any dwelling which is rented
9 or leased by its owner or his agent.

10 3. "Local board of health" means a county, city, or dis-
11 trict board of health.

12 4. "Municipality" means a city or county.

13 Sec. 2. The commissioner of public health shall adopt by
14 rule minimum requirements for the ventilation, lighting, sewer-
15 age, drainage, plumbing, heating, water supply, fire protection,
16 health conditions, occupancy, egress, or maintenance of all
17 rental dwellings. All rules adopted shall be subject to the
18 provisions of chapter seventeen A (17A) of the Code. Nothing
19 contained herein shall invalidate existing ordinances of any
20 municipality or the rules and regulations of any local board of
21 health imposing requirements higher than the minimum requirements
22 adopted by the commissioner of public health, nor prevent any
23 municipality from enacting and enforcing ordinances, or any
24 local board of health from adopting and enforcing rules and
25 regulations imposing requirements higher than the minimum re-
26 quirements adopted by the commissioner of public health, nor
27 prevent any municipality or local board of health from prescrib-
28 ing for the enforcement of such ordinances and regulations,
29 remedies and penalties in addition to those prescribed in this
30 Act. Any condition of a rental dwelling which violates the
31 minimum requirements adopted by the commissioner of public
32 health, the housing ordinances of the applicable municipality,
33 or the rules and regulations of the applicable local board of
34 health shall render such dwelling unfit for human habitation.

35 Sec. 3. Any person aggrieved by the condition of a rental

36 dwelling may file a complaint, signed or unsigned, with the
37 local board of health having jurisdiction where such dwelling
38 is located. Within ten days after the receipt of such com-
39 plaint, the local board of health or its authorized agent shall
40 investigate the complaint and determine if such dwelling is fit
41 for human habitation. A copy of the complaint and the results
42 of the investigation shall be filed with the commissioner of
43 public health.

44 Sec. 4. If it is determined that the rental dwelling com-
45 plained of is not fit for human habitation, the local board of
46 health shall certify such determination and file a copy of such
47 certification with the clerk of the district court of the county
48 in which the rental dwelling is located. The certification
49 shall be held by such clerk as a permanent record. The local
50 board of health shall notify, in writing, the landlord and
51 tenant of the determination stating the basis upon which the
52 determination was made. Immediately upon receipt of such noti-
53 fication the tenant's duty to pay and the landlord's right to
54 collect rent shall be suspended. All rental payments which
55 thereafter become due shall be deposited in an escrow account
56 in a bank or trust company under the direction of the local
57 board of health, and may be paid over to the landlord when the
58 dwelling is certified by the local board of health as fit for
59 human habitation at any time within six months of the date on
60 which the rental dwelling was certified as unfit for human
61 habitation. The landlord may request an inspection for a re-
62 determination of compliance with applicable requirements at any
63 time after he becomes aware of the certification of unfitness.

64 Sec. 5. The landlord or complainant may appeal the deter-
65 mination or redetermination of the local board of health to the
66 district or municipal court for a de novo hearing on the matter
67 of habitability, which hearing shall be by proper judicial pro-
68 ceedings. The decision of the court in such hearing shall be
69 binding upon the parties thereto.

70 Sec. 6. If, at the end of the six-month period in which
71 the rent payments are held in escrow, the rental dwelling has
72 not been certified as fit for human habitation, all moneys de-
73 posited in escrow shall be returned to the tenant or other de-
74 positor, and the tenant shall vacate the premises without in-
75 curring any liability for such vacation or nonpayment of rent.
76 The rental dwelling shall be conspicuously posted as unfit for
77 human habitation by the local board of health, and shall not be
78 inhabited thereafter until a certificate of fitness for human
79 habitation has been issued.

80 Sec. 7. If the landlord manifests a good-faith intent in
81 correcting the discrepancies which caused the rental dwelling
82 to be certified as unfit for human habitation, the funds de-
83 posited in escrow may be released as needed to pay for the nec-
84 essary material and labor expenses incurred in making such cor-
85 rections.

86 Escrow funds may also be used to pay for utility services
87 furnished the rental dwelling for which the landlord is obligated,
88 but which he refuses or is unable to pay.

89 Sec. 8. During the period in which rent payments are de-

90 posited in escrow no tenant making such deposits, or causing
91 them to be made, shall be evicted from the rental dwelling for
92 any reason.

93 Sec. 9. Upon certification that the rental dwelling in
94 question is fit for human habitation and release of the escrow
95 funds to the landlord, the tenant shall be given at least ninety
96 days written notice of any intention of the landlord or his
97 successor to consider the term of the lease expired, or that
98 the lease will not be renewed at the termination of the lease

HOUSE CONCURRENT RESOLUTION 119

By Rodgers, Mayberry, Crosier, Jesse, McCormick, Newton,

Stroburg, Tapscott and Kennedy of Dubuque

A Concurrent Resolution to provide for a comprehensive study of election laws.

Whereas, the election laws of this state have not been adequately studied and revised for many years with a view towards providing an integrated and understandable code of elections laws; and

Whereas, it is agreed by many knowledgeable persons that provisions of the election laws such as those relating to voter registration, campaign expenses, election contests, and other specific provisions may be inadequate for present day practices; and

Whereas, election districts have undergone changes resulting from apportionment laws being enacted in order to comply with supreme court decisions, with the result that such election districts now cross county lines and very few changes have been made in election laws to reflect such fact; and

Whereas, the impact of election law reform may have an effect on the

financial resources of political subdivisions and their offices which effect should be carefully considered and studied; and

Whereas, there appears to be a definite consensus of agreement by the chairmen of the Republican and Democratic state central committees as to the need for an election law study and reform; and

Whereas, there appears little doubt as to the need for the enactment of a modern election law code; *Now, Therefore*,

Be It Resolved by the House, the Senate Concurring, That the legislative council is hereby authorized to create an election law study committee which shall undertake an in-depth study of all laws affecting elections in the State of Iowa for the purpose of updating, changing, and revising said laws and creating a comprehensive, integrated, and understandable code of laws meeting the demands of present day standards.

Be It Further Resolved, That the study committee shall consist of sixteen members as follows:

1. Four members of the House of Representatives appointed by the legislative council, two of said members representing the Republican party and two representing the Democratic party.

2. Four members of the Senate appointed by the legislative council, two of said members representing the Republican party and two representing the Democratic party.

3. Eight public members, four to be appointed by the chairman of the Republican state central committee and four to be appointed by the chairman of the Democratic state central committee, each chairman to select one county auditor and one city clerk and two members-at-large.

Be It Further Resolved, That legislative members shall be paid a per diem of forty dollars for each day spent in carrying out their duties and actual and necessary expenses, and all other members of the election law study committee shall receive actual and necessary expenses for carrying out their duties.

Be It Further Resolved, That the election law study committee shall submit a final report to the second regular session of the Sixty-fourth General Assembly which shall be accompanied by bill drafts designed to carry out the recommendations of the study committee. The election law study committee shall make periodic progress reports to the legislative council, and shall make a progress report to the first regular session of the Sixty-fourth General Assembly, which may be accompanied by any bill drafts designed to carry out recommendations which may be prepared at such time. The legislative service bureau shall aid the election law study committee within the limitations that may be specified by the legislative council.

Be It Resolved by the House of Representatives, that the Ethics Committee of the House be immediately convened; and

Be It Further Resolved, that said committee provide a complete investigation of alleged pressure on the part of one or more members of the Iowa Bankers Association.

Cunningham of Story, from the committee on cities and towns, submitted the following report:

MR. SPEAKER: Your committee on cities and towns, to whom was referred House File 246, a bill for an act authorizing cities and towns to impose income, sales and motor vehicle taxes, begs leave to report it has had the same under consideration and has instructed me to report the same back to the House with the recommendation that the same be amended as follows, and when so amended the bill do pass:

Amend House File 246 as follows:

1. By striking everything after the enacting clause and inserting in lieu thereof the following:

Section 1. Any city or town as defined in the Code may impose local taxes authorized by this Act after approval by the electorate.

Upon its own motion, or upon receipt of a petition signed by qualified electors within the city or town equal in number to at least ten percent of the number of votes cast at the last preceding regular municipal election, requesting that an election be held on the question of imposing one or more of the authorized taxes, the city or town council shall submit to the electors of the city or town, at a special election called for that purpose, the question of whether one or more of the authorized taxes shall be imposed. If a majority of those voting favors the imposition of one or more taxes, the council shall impose those taxes by ordinance, according to the provisions of this Act.

If less than a majority of those voting favors the imposition of one or more of the authorized taxes, the council shall not attempt to impose the tax voted upon unfavorably or a similar tax and shall not join in any attempt to impose the tax voted upon unfavorably or a similar tax under sections two (2) or three (3) of this Act within one year following the election.

The special election shall not be held within thirty days of any general election. Prior to the special election, the city or town council shall publish notice of the election once each week for three consecutive weeks in a newspaper of general circulation serving the city or town.

Local taxes shall become effective January first following a favorable election, except that a local sales and use tax may become effective either January first or July first following the election. An ordinance imposing an authorized local tax shall remain effective for a minimum period of four years, and for all succeeding years until repealed. An ordinance imposing an authorized local income, earnings, or sales and use tax shall adopt by reference the applicable provisions of the appropriate sections of chapter four hundred twenty-two (422) of the Code including subsequent amendments to the chapter, so that local tax administration will conform as nearly as possible to state tax administration. Local officials shall confer with the director of revenue and obtain his assistance in drafting the ordinance imposing a local income, earnings, or sales and use tax, and shall confer with the commissioner of public safety and obtain his assistance in drafting the ordinance imposing a local vehicle tax.

The local income, earnings, and sales and use taxes provided for in this Act shall be administered by either the city or town imposing the tax or the Iowa department of revenue. Immediately after such a local tax is voted upon favorably, the city or town council shall meet with the director of the department of revenue and determine which governmental agency can most economically and efficiently administer the particular levy. Any dispute between the city or town and the department of revenue shall be resolved by a final determination in the matter by the state board of tax review on appeal by either of the parties.

The director of revenue or the city or town shall provide appropriate forms, or provide on the regular state tax forms,

for reporting local income, earnings, and sales and use tax liability, and shall administer the provisions of a local income, earnings, or sales and use tax as nearly as possible in conjunction with the administration of state tax laws. Due dates for payment of the taxes shall conform to current due dates for similar state taxes.

Sec. 2. The council of any city or town may agree with the council of one or more other cities or towns to impose an authorized local tax jointly, and the joint tax shall be submitted to the electors of each city and town at a special election called for that purpose and subject to the same requirements as the special election provided in section one (1) of this Act. If a majority of the total of those voting in all of the cities and towns favors the imposition of one or more taxes, the council of each city and town shall provide for the imposition of the taxes, according to the provisions of this Act. If less than a majority of the total of those voting in all of the cities and towns favors the imposition of one or more taxes, no attempt shall be made to impose the tax or taxes voted upon unfavorably or a similar joint tax within one year following the election, but cities and towns may proceed at any time under the provisions of sections one (1) or three (3) of this Act. If two or more cities or towns impose a tax jointly, the treasurer of state or proper local official if the tax is administered locally shall credit the receipts to a joint account, and shall remit to each city or town a pro rata share of the joint account, based upon population figures taken at the last federal decennial census.

Sec. 3. The council of one or more cities or towns with a total population of fifty percent or more of the population of any county, may, with the approval of a majority of the board of supervisors, require the board of supervisors to submit to the electors of the county, at a special election called for that purpose and subject to the same requirements as the special election provided in section one (1) of this Act, the question of whether one or more of the local taxes authorized by this Act shall be imposed countywide. If a majority of those voting in the entire county favors the imposition of one or more taxes, the board of supervisors and the council of every city or town within the county shall provide for the imposition of the taxes, according to the provisions of this Act. If less than a majority of those voting in the entire county favors the imposition of one or more taxes, no attempt shall be made to impose the tax or taxes voted upon unfavorably or a similar countywide tax within one year following the election, but cities and towns may proceed at any time under the provisions of sections one (1) or two (2) of this Act. If a local tax is imposed countywide, the treasurer of state or the appropriate local official if the tax is administered locally shall credit the receipts to a joint account, and shall remit to each city or town in the county, and to the board of supervisors, a pro rata share of the joint account, based upon population in each city and town, and population in the county outside of cities and towns from figures taken at the last federal decennial

census. The share remitted to the board of supervisors may be used for any lawful county government purpose.

Sec. 4. For purposes of this Act, definitions in sections four hundred twenty-two point three (422.3), four hundred twenty-two point four (422.4), four hundred twenty-two point thirty-two (422.32), and four hundred twenty-two point forty-two (422.42) of the Code shall apply where applicable except that:

1. "Resident taxpayer" means an individual taxpayer whose principal place of residence on December thirty-first of the tax year is in the city or town imposing the tax.

2. "City or town" and "city and town" means county, where appropriate in the case of a countywide tax.

Sec. 5. An annual local income tax may be imposed on every resident taxpayer at the rate of ten percent of his computed state income tax for the tax year.

Sec. 6. A local earnings tax may be imposed on every resident and individual nonresident taxpayer, at the rate of two percent of the taxpayer's Iowa taxable income derived from work performed and services rendered within the limits of the city or town. Any city or town imposing an earnings tax shall give a credit for any local income tax paid by the taxpayer on the same income which is subject to the earnings tax.

Sec. 7. Local income and earnings taxes shall be subject to all applicable provisions of divisions one (I), two (II), and three (III) of chapter four hundred twenty-two (422) of the Code, and particularly to those provisions relating to withholding of tax at source, declaration of estimated tax due, remittances of withholding and estimated tax, application of interest and penalties, and procedures for hearing and appeal.

Sec. 8. A local sales and use tax at a rate of one percent may be imposed on the gross receipts from the sale or use of tangible personal property subject to the state sales tax. A local sales and use tax shall be imposed on the same basis as the state sales and use tax and shall not be imposed on any tangible personal property not taxed by the state. A local sales and use tax shall apply only within the territorial limits of the city or town imposing it and shall be collected by all persons required to collect state sales and use taxes.

The amount subject to any local sales and use tax shall not include the amount of the state sales and use tax.

Sec. 9. Local sales and use taxes shall be subject to all applicable provisions of division four (IV) of chapter four hundred twenty-two (422) of the Code. No sales and use tax permit, other than the state sales and use tax permits, shall be required.

Sec. 10. If it is determined that the department of revenue shall administer a local income, earnings, or sales and use tax, the director, in consultation with local officials, shall collect and account for all such local taxes, crediting local tax receipts to a local tax fund hereby established in the office of the treasurer of state. The treasurer of state shall remit quarterly to the cities and towns which have im-

posed a local tax their share of the balance in the local tax fund. Local tax receipts shall be deposited to the credit of the city or town treasurer and may be expended for any lawful municipal purpose.

Sec. 11. A local vehicle tax at a rate of five dollars per axle, as defined in section three hundred twenty-one point four hundred sixty-three (321.463) of the Code, may be imposed on every vehicle which is required to be registered by the state, and is either registered to a resident taxpayer, or registered to any taxpayer, and usually kept, garaged, or stored during the night and on weekends and holidays within the limits of the city or town.

For the purpose of the tax authorized by this section, "vehicle" means any self-propelled vehicle subject to registration under section three hundred twenty-one point eighteen (321.18) of the Code.

Sec. 12. A local vehicle tax shall be paid to the county treasurer or to the motor vehicle department under the commissioner of public safety, at the time of application for registration of the vehicle under the provisions of sections three hundred twenty-one point twenty (321.20), three hundred twenty-one point twenty-three (321.23), three hundred twenty-one point twenty-five (321.25), three hundred twenty-one point forty (321.40), three hundred twenty-one point forty-six (321.46), or three hundred twenty-one point forty-seven (321.47) of the Code. A corporation or fiduciary applying for registration of a vehicle shall be required to state where the vehicle is usually kept, garaged, or stored during the night and on weekends and holidays. No state registration certificate shall be issued to the owner of a vehicle on which a local vehicle tax is due, until the local vehicle tax is paid.

Payment of a local vehicle tax shall be evidenced by a stamp on the state registration certificate and by issuance of a sticker, decal, or tag. The commissioner of public safety shall prescribe by regulation the form of the sticker, decal, or tag, a reasonable method of prorating local vehicle taxes on vehicles originally registered for part of a year only, and a reasonable method for refunding part of local vehicle taxes when a refund of a state registration fee is due under section three hundred twenty-one point one hundred twenty-six (321.126) of the Code.

Unpaid local vehicle taxes shall be a lien upon the vehicle on which they are due. Penalties for late payment which are comparable to the penalties for late payment of state registration fees shall be imposed by the ordinance imposing a local vehicle tax. Willful violation of a local vehicle tax ordinance shall be a public offense punishable by a fine of not more than one hundred dollars.

Sec. 13. The commissioner of public safety shall be notified and a certified copy of the ordinance imposing a local vehicle tax shall be filed with the commissioner as soon as possible after a favorable election. The commissioner shall inform the appropriate county treasurers and in cooperation with them shall collect and account for all local vehicle taxes,

crediting local vehicle tax receipts to a local vehicle tax fund hereby established in the office of the treasurer of state. The treasurer of state shall remit annually at the beginning of each fiscal year to the cities and towns which have imposed a local vehicle tax their share of the balance in the local vehicle tax fund. Local vehicle tax receipts shall be deposited to the credit of the city or town treasurer and may be expended for any lawful municipal purpose.

Sec. 14. Section three hundred twenty-one point thirty (321.30), Code 1966, is hereby amended by adding the following subsection:

"If any local vehicle taxes due have not been paid."
