2. A school district income surtax rate approved by the voters, or as much of it as may be necessary, shall continue to be in effect in that school district until the school board finds that the surtax or a part of it is unnecessary, or until the amount of the surtax is altered by another election. If a school board wishes to increase the district costs so that they cannot be met by the combination of maximum millage, state aid, miscellaneous income, and the approved school district income surtax, the school board may hold another

election to submit the question of whether to increase the surtax rate for the district, and may increase the rate only if an increase is approved by a majority of those voting.

3. At least once every five years, if a school district income surtax is found to be necessary, the school board shall submit to the voters of the school district, at a regular or special school election held not later than September fifteenth, the question of whether to continue imposition of the established rate of school district income surtax or of a lesser rate as necessary. If a majority of those voting does not approve the proposed school district income surtax rate, the school board shall reduce its general fund budget to an amount which does not exceed its maximum district cost.

**Sec. 16. STATUTES APPLICABLE.** The director of revenue shall administer any school district income surtax imposed under this division, and all the provisions of sections four hundred twenty-two point two (422.20), four hundred twenty-two point twenty-two (422.22) through four hundred twenty-two point thirty-one (422.31), inclusive, four hundred twenty-two point sixty-eight (422.68), and four hundred twenty-two point seventy-two (422.72) through four hundred twenty-two point seventy-five (422.75), inclusive, of the Code, shall apply in respect to administration of the school district income surtax.

**Sec. 17. FORM AND TIME OF RETURN.** The school district income surtax shall be made a part of the Iowa individual income tax return subject to the conditions and restrictions set forth in section four hundred twenty-two point twenty-one (422.21) of the Code.

**Sec. 18. DEPOSIT OF SCHOOL DISTRICT INCOME SURTAX.** The director of revenue shall deposit all moneys received as school district income surtax to the credit of each district from which the moneys are received, in a "school district income surtax fund" which is established in the office of the treasurer of state.

**Sec. 19. SCHOOL DISTRICT INCOME SURTAX CERTIFICATION.** On or before October twentieth each year, the director of revenue shall make an accounting of the school district income surtax collected under this division applicable to tax returns for the last preceding calendar year, or for fiscal year taxpayers, on the last day of their tax year ending during that calendar year and after the date of the election approving the surtax, from taxpayers in each school district in the state which has imposed a surtax, and shall certify to the state comptroller and the state department of public instruction the amount of total school district income surtax credited from the taxpayers of each school district. Additional returns in process, if any, at the time of certification shall be completed and the additional amount of school district income surtax reported to the state comptroller for distribution back

to the school district with the first installment of the following school year.

**Sec. 20. SCHOOL DISTRICT INCOME SURTAX DISTRIBUTION.** The state comptroller shall draw warrants in payment of the amount of surtax payable to each of the school districts in two installments to be paid on approximately the first day of December and the first day of February, and shall cause the warrants to be delivered to the respective school districts.

**Sec. 21. MAXIMUM MILLAGE REDUCTION.** If the functioning of the state school foundation program established by this division causes a reduction in any school district, for the school year beginning July 1, 1972, of more than ten percent of the district's total general fund millage for the school year beginning July 1, 1970, the reduction for the school year beginning July 1, 1972 is limited to that ten percent, and the reduction for each of the school years beginning July 1, 1973, and July 1, 1974, is limited to ten percent of the preceding year's millage. However, if this limitation results in a district millage levy which raises more than the district needs to meet the lesser of its actual or maximum district cost, the ten percent limitation does not apply, and the district may reduce its millage as much as can be done without entitling the district to state school foundation aid. The state comptroller shall compute any maximum millage reduction required by this section, and shall notify the school boards accordingly.

**Sec. 22. TENTATIVE BUDGET.** Not later than December first for each ensuing fiscal year, the board of directors of each school district shall set a tentative budget in dollars of the amount the district may spend on each program in the system as defined by the school budget review committee and in the forms prescribed by the committee. This prospectus of program and allotted dollars as approved by the board shall guide the superintendent when preparing the proposed budget for that year. These limitations submitted by the board of directors to the superintendent of schools for the district shall be promptly forwarded to the committee.

**Sec. 23. RULES AND REGULATIONS.** The superintendent of public instruction, after consultation with the state comptroller, may adopt rules and regulations and definitions of terms as necessary and proper for the administration of this division.

**Sec. 24. LOCAL BUDGET LAW.** Provisions of chapter twenty-four (24) of the Code remain applicable to school budgets.

**Sec. 25. ESTIMATES OF MISCELLANEOUS AIDS.** No later than September first of each year, the department of public instruction shall certify to the state comptroller the amounts of any state aids other than the amounts provided in this division that will be received by each school district in the state. In the event any estimate

of state aids in any school budget certified to the auditor as provided by section twenty-four point seventeen (24.17) of the Code is more or less than the amount of state aids certified to the state comptroller by the department of public instruction as provided by this section, the state comptroller shall certify to the county auditors the final millage for each school district.

**Sec. 26. APPROPRIATIONS.** There is hereby appropriated each year from the general fund of the state an amount necessary to pay the state school foundation aid.

All state aids paid under this division, unless otherwise stated, shall be paid in installments due on or about September fifteenth, December fifteenth, March fifteenth, and May fifteenth of each year, and the installments shall be as nearly equal as possible as determined by the state comptroller, taking into consideration the relative budget and cash position of the state resources.

All moneys received by a school district from the state under the provisions of this division shall be deposited in the general fund of the school district, and may be used for any school general fund purpose.

**Sec. 27.** There is hereby appropriated from the general fund of the state to the department of public instruction for the year beginning July 1, 1972, and ending June 30, 1973, one million six hundred thousand (1,600,000) dollars, or so much thereof as may be necessary for reimbursing public school districts and county or joint county school systems for expenditures incurred in accordance with the provisions of section two hundred fifty-seven point twenty-six (257.26) of the Code.

Claims for reimbursement for the period beginning July 1, 1971, and ending June 30, 1972, shall be made by July 30, 1972, to the department of public instruction, clearly detailing the expenditures incurred, and in a form prescribed by the department.

As a condition to receiving reimbursement under this section, a school district shall show by affidavit of an officer of the school board that the amount of reimbursement claimed by the school district does not exceed one-half of the actual costs incurred by the district under section two hundred fifty-seven point twenty-six (257.26) of the Code, and does not include the portion of those costs for which the district received state school foundation aid. The claims for reimbursement shall be certified by the department of public instruction to the state comptroller on or before August 31, 1972. On or before September 15, 1972, the state comptroller shall draw warrants on the fund created by this section, payable to the school districts which have established claims. In the event that the amount appropriated is insufficient to pay in full the total

amounts certified to the state comptroller, he shall prorate the fund and notify each school district of its pro rata percentage on or before September 15, 1972.

Sec. 28. Section two hundred eighty-one point nine (281.9), Code 1971, is amended by adding the following new paragraph:

"This section applies to all existing programs to July 1, 1973, and to the continuation of such existing programs after July 1, 1973."

Sec. 29. Chapter two hundred eighty-one (281), Code 1971, is amended by adding the following new section:

"A school district, county board of education, or joint county board of education that provides special education as required by this chapter shall, prior to March 1, 1972, and each March first thereafter, apply to the department of public instruction, upon forms prescribed by the department, for qualification to receive reimbursement pursuant to this chapter. During the following fiscal year the department shall approve each application and qualification if the district, county board of education, or joint county board establishes all of the following:

1. That there are sufficient students within the area who are in need of the instruction.
2. That the applying unit is the unit that can best and most efficiently provide for the instruction without duplicating services otherwise provided, as opposed to another available educational unit.
3. That the unit has qualified teachers available.
4. That the instruction is a natural and normal progression of a planned course or courses of instruction, and that this progressive growth factor is not out of proportion to the ability of the educational unit to pay for the courses of instruction.
5. That all reimbursement sought is for actual delivery of special education services and not for administrative costs.
6. Other factors as the department may require.

There is hereby appropriated out of the general fund of the state to the department of public instruction beginning July 1, 1973, a sum sufficient to pay all approved applications for reimbursement pursuant to this chapter and this section, to the extent that the approved applications are for expanded special education programs beyond those programs provided for the fiscal year commencing July 1, 1971, or January 1, 1972, but only to the extent that the expanded programs would have qualified for state reimbursement pursuant to this chapter, as interpreted by the rules and regulations of the state department of public instruction effective on July 1, 1970."

Sec. 30. Section two hundred ninety-eight point one (298.1), Code 1971, is amended as follows:

298.1 SCHOOL TAXES. The board of each school corporation shall estimate the amount of the proposed expenditures and proposed receipts for the general

school purposes at a time and in a manner to effectuate the provisions of [chapter 442] sections 1 through 29, inclusive, of this Act. Compliance with chapter 24 shall be observed.

[Prior to compliance with section 24.9, the superintendent of the county school systems shall call a joint meeting of school superintendents and school board members for all of the local districts within the county basic school tax unit. The time and place for such joint meetings shall be set by the superintendent of the county school system.]

[The purpose of the joint meeting shall be for a review of the budgets of the several school districts within the county basic school tax units, and for the discussion of common problems within the county basic unit.]

Sec. 31. Section four hundred twenty-two point sixty-five (422.65), Code 1971, is amended as follows:

[1. Fifty percent to the basic school tax equalization fund of the basic school tax unit from which the tax is collected, to be distributed in the same manner as other funds in the basic school tax equalization fund.]

[2. Thirty] 1. *Sixty* percent to the general fund of the city or town from which the tax is collected.

[3. Twenty] 2. *Forty* percent to the general fund of the county from which the tax is collected.

If the financial institution maintains one or more offices for the transaction of business, other than its principal office, a portion of its franchise tax shall be allocated to each office, based upon a reasonable measure of the business activity of each office. The director of revenue shall prescribe, for each type of financial institution, a method of measuring the business activity of each office. Financial institutions shall furnish all necessary information for this purpose at the request of the director.

Quarterly, the director of revenue shall certify to the treasurer of state the amounts to be paid to each [basic school tax unit,] city, town, and county from the franchise tax fund. All moneys received from the franchise tax are hereby appropriated according to the provisions of this section.

Sec. 32. Section four hundred thirty A point three (430A.3), Code 1971, is amended as follows:

430A.3 LEVY. There is hereby imposed upon capital employed in the business of making loans or investments

within the state of Iowa, as determined under the provisions of this chapter, a tax of five mills on each dollar of such capital; such tax to be considered a tax upon moneys and credits of such corporations which shall be levied by the board of supervisors, and placed upon the tax list and collected by the county treasurer. The amount collected in each taxing district in cities and towns shall be apportioned twenty percent to the county general fund, thirty percent to the city or town general fund, and fifty percent to the [basic school tax equalization fund] *general fund of the state*, and the amount collected in each taxing district outside of cities and towns shall be apportioned fifty percent to the county general fund and fifty percent to the [basic school tax equalization fund] *general fund of the state*. The term "loans" as used herein shall mean the lending of money to members of the general public upon other than real estate security. The term "investments" as used herein shall mean the discounting, purchasing, or otherwise acquiring notes, mortgages, sales contracts, debentures, or any other evidences of indebtedness, based upon other than real estate security when such investments are made in connection with loans made to members of the general public in the state of Iowa or in the courts of any operations having as their effect the financing of business transactions within the state of Iowa resulting in the incurring of any indebtedness based upon security other than real estate security.

## SECOND CONFERENCE COMMITTEE REPORT ADOPTED

(House File 654)

Stromer of Hancock, District 8, called up for consideration the second conference committee report on **House File 654**, a bill for an act relating to state aid for schools, school district property taxes, imposing a school district income tax, providing administration by the director of revenue, adopting provisions relating to the state individual income tax, relating to the corporate income tax, and providing aid to cities, towns and counties from sales tax receipts, as follows:

### REPORT OF SECOND CONFERENCE COMMITTEE ON HOUSE FILE 654

We, the undersigned members of the second conference committee appointed to consider the difference between the Senate and the House of Representatives on House File 654, a bill for an act relating to state aid for schools, school district property taxes, imposing a school district income tax, providing administration by the director of revenue, adopting provisions relating to the state individual income tax, relating to the corporate income tax, and providing aid to cities, towns and counties from sales tax receipts, respectfully submit the following recommendations:

1. That the Senate recede from its amendment to the bill as amended and passed by the House.
2. That House File 654, as amended, passed, and reprinted by the House, be amended by striking everything after the enacting clause and inserting in lieu thereof the following:

#### DIVISION I

Section 1. STATE SCHOOL FOUNDATION PROGRAM. This division establishes a state school foundation program.

For the school year beginning July 1, 1972, and each succeeding school year, each school district in the state is entitled to receive state school foundation aid, which shall be an amount per pupil in fall enrollment equal to the difference between the amount per pupil in fall enrollment of foundation property tax plus miscellaneous income in the district, and the state foundation base or the district cost per pupil, whichever is less. However, if the amount so determined for any district is less than two hundred dollars per pupil in fall enrollment, the district is entitled to receive not less than two hundred dollars per pupil in fall enrollment except when a district's total general fund millage rate for the school year beginning July 1, 1972, or any succeeding school year, is reduced to ninety percent of the district's total general fund millage rate for the school year beginning July 1, 1970. In this case the district is entitled to receive only that portion of the two hundred dollars per pupil necessary to retain that ten percent reduction.

**Sec. 2. FOUNDATION PROPERTY TAX.** Each school district shall cause to be levied each year beginning in 1972, for the school general fund, a foundation property tax of twenty mills per dollar of assessed valuation on all taxable property in the district. For the purpose of this division, a school district is defined as a school corporation organized under chapter two hundred seventy-four (274) of the Code. Each county auditor shall certify to each school district within the county and to the state comptroller, not later than October first each year, the assessed valuation of taxable property for the current year in each school district within the county.

**Sec. 3. STATE FOUNDATION BASE.** The state foundation base for the school year beginning July 1, 1972, is seventy percent of the state cost per pupil. For each succeeding school year the state foundation base shall be increased by the amount of one percent of the state cost per pupil, up to a maximum of eighty percent of the state cost per pupil. The district foundation base is the larger of the state foundation base or the amount per pupil in fall enrollment which the district will receive from foundation property tax, miscellaneous income, and state school foundation aid.

**Sec. 4. FALL ENROLLMENT.** Fall enrollment shall be determined by adding the resident pupils who are enrolled on the second Friday of September of each year in public elementary and secondary schools of the district, and in special education classes for which tuition is paid by the district whether the special education class is conducted by a county board of education or another school district.

Shared-time and part-time pupils of school age shall be counted in the proportion that the time for which they are enrolled or receive instruction for the school year bears to the time that full-time pupils carrying

a normal course schedule, at the same grade level, in the same school district, for the same school year, are enrolled and receive instruction.

Each school district shall certify its fall enrollment to the state department of public instruction by September twenty-fifth of each year, and the information shall be promptly forwarded to the state comptroller.

**Sec. 5. MISCELLANEOUS INCOME.** Miscellaneous income is all revenues of a school district general fund budget, exclusive of federal aid provided under title twenty (20), chapter thirteen (13), of the United States Code, the foundation property tax, the state school foundation aid, guaranteed state aid, the additional school district property tax levy, any supplemental aid distributed by the school budget review committee and any school district income surtax imposed in the district.

**Sec. 6. DISTRICT COST.** As used in this division, "district cost" means the total expenditures or anticipated expenditures of a district which are payable from the school general fund, exclusive of federal aid provided under title twenty (20), chapter thirteen (13), of the United States Code.

**Sec. 7. ALLOWABLE GROWTH.** Each year the state comptroller shall compute the state percent of growth by adding the percents of increase for the second and third years of the most recent three-year period for which accurate figures are available, for each of the following sources of revenue, and dividing the total by four:

1. State general fund revenues, adjusted for changes in rates or basis.
2. Statewide assessed valuation of taxable property, adjusted for statewide changes in assessment practices.

Each year the state comptroller shall compute the dollar equivalent of the state percent of growth by multiplying the state cost per pupil for the preceding school year by the current state percent of growth, except that this dollar equivalent is limited to a maximum amount of forty-six dollars for the school year beginning on July 1, 1972, forty-eight dollars for the school year beginning on July 1, 1973, and fifty-one dollars for the school year beginning on July 1, 1974. As used in this division, "allowable growth" means the dollar equivalent of the state percent of growth.

**Sec. 8. STATE COST PER PUPIL.** The state cost per pupil for the school year beginning July 1, 1971, is nine hundred twenty dollars. The state cost per pupil for the school year beginning on July 1, 1972, and for each succeeding school year is the previous year's state cost per pupil plus the allowable growth. If the state percent of growth is zero or less, the state cost per pupil shall be the same as the previous year's state cost per pupil.

**Sec. 9. MAXIMUM GENERAL FUND BUDGET AND ADDITIONAL SCHOOL DISTRICT PROPERTY TAX LEVY.**

1. The state comptroller shall determine the additional school district property tax levy for each school district, which is in addition to the foundation property tax levy, as follows:

a. The district cost per pupil in fall enrollment for the current school year ending June thirtieth each year, plus the allowable growth, determines the district cost per pupil for the school year beginning July first each year. However, if the district cost per pupil in fall enrollment for the current school year ending June thirtieth each year exceeds one hundred ten percent of the state cost per pupil, the school budget review committee shall review the proposed budget and establish the amount of allowable growth for that district, not to exceed the limitations in section seven (7) of this division.

b. The district cost per pupil multiplied by the estimated fall enrollment for the school year beginning July first each year, determines the maximum district cost for each district. A school district may not exceed its maximum district cost unless additional millage is authorized or supplemental state aid is distributed to the district by the school budget review committee as provided in section thirteen (13), subsection five (5), of this division, or unless an additional amount is raised by a school district income surtax approved by the voters.

c. The district foundation base multiplied by the number of pupils in fall enrollment, and the product subtracted from the lesser of the actual or maximum district cost for the school year beginning July first each year, determines the amount to be raised by the additional school district property tax levy, subject to the maximum millage provided in section ten (10) of this division, any additional millage authorized by the school budget review committee under section thirteen (13), subsection five (5), paragraph a, of this division, or the maximum millage reduction provided in section twenty-one (21) of this division.

2. No later than December first of each year, the state comptroller shall notify the county auditor of each county the amount, both in dollars and mills, of the additional property tax levy in each school district in the county. Each county auditor shall spread the additional property tax levy for each school district over all taxable property in the district.

3. a. A county board of education or joint county board of education shall not certify for the fiscal year commencing July 1, 1972, or the fiscal year commencing January 1, 1973, or any succeeding fiscal year, an amount of money to be raised by property taxes for the general fund budget in excess of the amount

of money raised by property taxes for general fund expenditures for its last preceding fiscal year, plus an amount determined by multiplying the state percent of growth determined under section seven (7) of this division by the amount raised by property taxes for the general fund budget for its last preceding fiscal year.

b. In addition to the amounts provided in paragraph a of this subsection, a county board of education or joint county board of education may certify and receive moneys to expand special education programs for the fiscal year commencing July 1, 1972, or January 1, 1973 or any succeeding year. However, this exception applies only to those special education programs or courses which would have qualified for state reimbursement pursuant to chapter two hundred eighty-one (281) of the Code, as interpreted by the rules and regulations of the state department of public instruction effective on July 1, 1970.

c. If, for any school year, responsibility for a special education pupil is transferred from a school district to a county or joint county board of education, or from a county or joint county board of education to a school district, the moneys budgeted for that pupil shall be transferred to the district or board which accepts responsibility for the pupil, or a proportionate amount shall be transferred if the change is made during the school year.

Sec. 10. **MAXIMUM MILLAGE LEVY.** For the purpose of determining the maximum millage levy in a school district, the state comptroller shall determine the sum of the foundation property tax levy and the additional property tax levy, in mills. When this total millage rate exceeds the district general fund levy in mills for the school year which began July 1, 1970, he shall adjust the district general fund millage levy to a rate equal to the millage levy for the school year beginning July 1, 1970, unless additional millage is approved by the school budget review committee, as provided in section thirteen (13), subsection five (5), paragraph a, of this division.

Sec. 11. **GUARANTEED STATE AID.** For the school year beginning July 1, 1972, and for the next four succeeding school years, the state shall provide specific funds, called guaranteed state aid, to any school district in which the maximum millage, excluding any additional millage approved by the school budget review committee, plus the district's miscellaneous income and state school foundation aid, does not meet the actual or maximum district cost, whichever is less.

There is hereby appropriated from the general fund of the state to the department of public instruction moneys sufficient to pay the guaranteed state aid provided in this section. The state comptroller shall pay this aid no later than May fifteenth of each year,

beginning in 1973 for the school year beginning July 1, 1972.

**Sec. 12. SCHOOL BUDGET REVIEW COMMITTEE.** A school budget review committee is established, consisting of the superintendent of public instruction, the state comptroller, and three members appointed by the governor to represent the public and to serve three-year staggered terms. Those serving on the effective date of this division as public members of the school budget review committee established under prior law shall continue to serve out their unexpired terms as members of the committee established under this section. The committee shall meet and hold hearings each year and shall continue in session until it has reviewed budgets of school districts, as provided in section thirteen (13) of this division. It may call in school board members and employees as necessary for the hearings. Legislators shall be notified of hearings concerning school districts in their constituencies.

The committee shall adopt its own rules of procedure. The superintendent of public instruction shall serve as chairman, and the state comptroller shall serve as secretary. The committee members representing the public are entitled to receive a per diem equal to the per diem of members of the board of public instruction, and their necessary travel and other expenses while engaged in their official duties. Expense payments shall be made from appropriations to the department of public instruction.

**Sec. 13. DUTIES OF THE COMMITTEE.**

1. The school budget review committee may recommend the revision of any rules, regulations, directives, or forms relating to school district budgeting and accounting, confer with local school boards or their representatives and make recommendations relating to any budgeting or accounting matters, and may direct the superintendent of public instruction or the state comptroller to make studies and investigations of school costs in any school district.

2. The committee shall report to each session of the general assembly, which report shall include any recommended changes in laws relating to school districts, and shall specify the number of hearings held annually the reasons for the committee's recommendations, and other information as the committee deems advisable.

3. The committee shall review the proposed or certified budget of any school district if the district cost per pupil in estimated fall enrollment has increased over the district cost per pupil in fall enrollment for the previous year by more than the allowable growth of the district.

4. The committee may review the proposed or certified budget of any school district as follows:

a. If the budget shows district costs per pupil in estimated fall enrollment of more than the state cost per pupil.

b. If in the judgment of the committee, the budget

shows the district cost to be unreasonably high in relation to the comparative cost factors of similar districts, even if the district cost per pupil in estimated fall enrollment does not exceed the state cost per pupil.

5. The committee may authorize a school budget in excess of limitations provided in sections nine (9) and ten (10) of this division as follows:

a. If a nonpublic school within a district closes wholly or in part, the committee may authorize an increase in the school general fund millage beyond the maximum permitted under section ten (10) of this division, but only to the extent necessary to cover the cost of absorbing the former nonpublic school pupils into the public school system. The school board shall establish the amount of necessary increased cost to the satisfaction of the school budget review committee before an increase in millage is authorized.

b. Additional supplemental state aid may be paid to any district from any discretionary funds appropriated specifically to the committee for this purpose.

6. If the committee does not authorize a school district's budget, it shall state its recommendations in terms of a specific reduction in the district cost, and in terms of a projected reduction in the millage rate of the school district, and shall notify the school board of its recommendations through the state comptroller.

7. The committee, when making recommendations relating to school budgets, shall consider each district's circumstances and facts which are unique and unusual, including but not limited to any unusual increases or decreases in enrollments, natural disasters, unusual transportation problems, and initial staffing problems.

8. Failure by any school district to provide information or appear before the committee as requested for the accomplishment of review or hearing shall constitute justification for the committee to instruct the state comptroller to withhold any state aid to that district until the committee's inquiries are satisfied completely.

9. The school budget review committee may call in any county board of education for the purpose of reviewing its budget as it relates to the individual districts within the county.

**Sec. 14. ELECTION TO EXCEED MAXIMUM DISTRICT COST.**  
If a school board wishes to exceed its maximum district cost, as determined under section nine (9) of this division, it shall first submit its proposed budget to the school budget review committee. The committee may approve the proposed budget or may make other recommendations, but if the board decides that the district should exceed its maximum district cost, and the committee has not authorized an additional millage

or supplemental state aid as provided in section thirteen (13), subsection five (5), of this division, the board shall submit to the voters of the school district, at a regular or special school election held not later than September fifteenth, the question of whether the proposed budget shall be approved, and financed by a school district income surtax of a specified rate, or whether the district shall be limited to its maximum district cost.

If a majority of those voting approves the proposed budget and the specified school district income surtax rate, the surtax, determined as provided in section fifteen (15) of this division, may be imposed by resolution of the school board.

If the proposed budget and surtax does not receive approval by a majority of those voting, the school board shall reduce its general fund budget to an amount which does not exceed its maximum district cost.

The school board shall certify the result of an election required under this section to the county auditor, the school budget review committee, and the director of revenue, within ten days following the election. If a school district income surtax is approved, the school board shall publish notice of the surtax rate, as provided in chapter six hundred eighteen (618) of the Code.

#### Sec. 15. SCHOOL DISTRICT INCOME SURTAX.

1. If a school district income surtax is proposed by a school board, the state comptroller shall determine the rate of school district income surtax as follows:

a. Determine the excess amount needed.

b. Determine the total amount of state individual income tax as shown on the individual tax returns of persons residing in the school district on December thirty-first of the last preceding calendar year for which accurate figures are available or on the last day of a taxpayer's fiscal year ending within that calendar year. The director of revenue shall report this amount to the state comptroller as requested.

c. Divide the total amount of state individual income tax determined into the excess amount needed. The quotient is the school district income surtax rate which shall be imposed on the state individual income tax for the calendar year during which the school year begins, or for a taxpayer's fiscal year ending during that calendar year but after the date of the election approving the budget, and for subsequent years as provided in subsections two (2) and three (3) of this section, and shall be imposed on all individuals residing in the school district on December thirty-first of each calendar year, or on the last day of their fiscal year. As used in this section, "state individual tax" means the tax computed under section four hundred twenty-two point five (422.5) of the Code, less the deductions allowed in section four hundred twenty-two

point twelve (422.12) of the Code.

2. A school district income surtax rate approved by the voters, or as much of it as may be necessary, shall continue to be in effect in that school district until the school board finds that the surtax or a part of it is unnecessary, or until the amount of the surtax is altered by another election. If a school board wishes to increase the district costs so that they cannot be met by the combination of maximum millage, state aid, miscellaneous income, and the approved school district income surtax, the school board may hold another election to submit the question of whether to increase the surtax rate for the district, and may increase the rate only if an increase is approved by a majority of those voting.

3. At least once every five years, if a school district income surtax is found to be necessary, the school board shall submit to the voters of the school district, at a regular or special school election held not later than September fifteenth, the question of whether to continue imposition of the established rate of school district income surtax or of a lesser rate as necessary. If a majority of those voting does not approve the proposed school district income surtax rate, the school board shall reduce its general fund budget to an amount which does not exceed its maximum district cost.

Sec. 16. **STATUTES APPLICABLE.** The director of revenue shall administer any school district income surtax imposed under this division, and all the provisions of sections four hundred twenty-two point twenty (422.20), four hundred twenty-two point twenty-two (422.22) through four hundred twenty-two point thirty-one (422.31), inclusive, four hundred twenty two point sixty-eight (422.68), and four hundred twenty-two point seventy-two (422.72) through four hundred twenty-two point seventy-five (422.75), inclusive, of the Code, shall apply in respect to administration of the school district income surtax.

Sec. 17. **FORM AND TIME OF RETURN.** The school district income surtax shall be made a part of the Iowa individual income tax return subject to the conditions and restrictions set forth in section four hundred twenty-two point twenty-one (422.21) of the Code.

Sec. 18. **DEPOSIT OF SCHOOL DISTRICT INCOME SURTAX.** The director of revenue shall deposit all moneys received as school district income surtax to the credit of each district from which the moneys are received, in a "school district income surtax fund" which is established in the office of the treasurer of state.

Sec. 19. **SCHOOL DISTRICT INCOME SURTAX CERTIFICATION.** On or before October twentieth each year, the director of revenue shall make an accounting of the school district income surtax collected under this division

applicable to tax returns for the last preceding calendar year, or for fiscal year taxpayers, on the last day of their tax year ending during that calendar year and after the date of the election approving the surtax, from taxpayers in each school district in the state which has imposed a surtax, and shall certify to the state comptroller and the state department of public instruction the amount of total school district income surtax credited from the taxpayers of each school district. Additional returns in process, if any, at the time of certification shall be completed and the additional amount of school district income surtax reported to the state comptroller for distribution back to the school district with the first installment of the following school year.

**Sec. 20. SCHOOL DISTRICT INCOME SURTAX DISTRIBUTION.**

The state comptroller shall draw warrants in payment of the amount of surtax payable to each of the school districts in two installments to be paid on approximately the first day of December and the first day of February, and shall cause the warrants to be delivered to the respective school districts.

**Sec. 21. MAXIMUM MILLAGE REDUCTION.** If the functioning of the state school foundation program established by this division causes a reduction in any school district, for the school year beginning July 1, 1972, of more than ten percent of the district's total general fund millage for the school year beginning July 1, 1970, the reduction for the school year beginning July 1, 1972 is limited to that ten percent, and the reduction for each of the school years beginning July 1, 1973, and July 1, 1974, is limited to ten percent of the preceding year's millage. However, if this limitation results in a district millage levy which raises more than the district needs to meet the lesser of its actual or maximum district cost, the ten percent limitation does not apply, and the district may reduce its millage as much as can be done without entitling the district to state school foundation aid. The state comptroller shall compute any maximum millage reduction required by this section, and shall notify the school boards accordingly.

**Sec. 22. TENTATIVE BUDGET.** Not later than December first for each ensuing fiscal year, the board of directors of each school district shall set a tentative budget in dollars of the amount the district may spend on each program in the system as defined by the school budget review committee and in the forms prescribed by the committee. This prospectus of program and allotted dollars as approved by the board shall guide the superintendent when preparing the proposed budget for that year. These limitations submitted by the board of directors to the superintendent of schools for the district shall be promptly forwarded to the committee.

Sec. 23. RULES AND REGULATIONS. The superintendent of public instruction, after consultation with the state comptroller, may adopt rules and regulations and definitions of terms as necessary and proper for the administration of this division.

Sec. 24. LOCAL BUDGET LAW. Provisions of chapter twenty-four (24) of the Code remain applicable to school budgets.

Sec. 25. ESTIMATES OF MISCELLANEOUS AIDS. No later than September first of each year, the department of public instruction shall certify to the state comptroller the amounts of any state aids other than the amounts provided in this division that will be received by each school district in the state. In the event any estimate of state aids in any school budget certified to the auditor as provided by section twenty-four point seventeen (24.17) of the Code is more or less than the amount of state aids certified to the state comptroller by the department of public instruction as provided by this section, the state comptroller shall certify to the county auditors the final millage for each school district.

Sec. 26. APPROPRIATIONS. There is hereby appropriated each year from the general fund of the state an amount necessary to pay the state school foundation aid.

All state aids paid under this division, unless otherwise stated, shall be paid in installments due on or about September fifteenth, December fifteenth, March fifteenth, and May fifteenth of each year, and the installments shall be as nearly equal as possible as determined by the state comptroller, taking into consideration the relative budget and cash position of the state resources.

All moneys received by a school district from the state under the provisions of this division shall be deposited in the general fund of the school district, and may be used for any school general fund purpose.

Sec. 27. There is hereby appropriated from the general fund of the state to the department of public instruction for the year beginning July 1, 1972, and ending June 30, 1973, one million six hundred thousand (1,600,000) dollars, or so much thereof as may be necessary for reimbursing public school districts and county or joint county school systems for expenditures incurred in accordance with the provisions of section two hundred fifty-seven point twenty-six (257.26) of the Code.

Claims for reimbursement for the period beginning July 1, 1971, and ending June 30, 1972, shall be made by July 30, 1972, to the department of public instruction, clearly detailing the expenditures incurred, and in a form prescribed by the department.

As a condition to receiving reimbursement under this section, a school district shall show by affidavit of

an officer of the school board that the amount of reimbursement claimed by the school district does not exceed one-half of the actual costs incurred by the district under section two hundred fifty-seven point twenty-six (257.26) of the Code, and does not include the portion of those costs for which the district received state school foundation aid. The claims for reimbursement shall be certified by the department of public instruction to the state comptroller on or before August 31, 1972. On or before September 15, 1972, the state comptroller shall draw warrants on the fund created by this section, payable to the school districts which have established claims. In the event that the amount appropriated is insufficient to pay in full the total amounts certified to the state comptroller, he shall prorate the fund and notify each school district of its pro rata percentage on or before September 15, 1972.

Sec. 28. Section two hundred eighty-one point nine (281.9), Code 1971, is amended by adding the following new paragraph:

"This section applies to all existing programs to July 1, 1973, and to the continuation of such existing programs after July 1, 1973."

Sec. 29. Chapter two hundred eighty-one (281), Code 1971, is amended by adding the following new section:

"A school district, county board of education, or joint county board of education that provides special education as required by this chapter shall, prior to March 1, 1972, and each March first thereafter, apply to the department of public instruction, upon forms prescribed by the department, for qualification to receive reimbursement pursuant to this chapter. During the following fiscal year the department shall approve each application and qualification if the district, county board of education, or joint county board establishes all of the following:

1. That there are sufficient students within the area who are in need of the instruction.
2. That the applying unit is the unit that can best and most efficiently provide for the instruction without duplicating services otherwise provided, as opposed to another available educational unit.
3. That the unit has qualified teachers available.
4. That the instruction is a natural and normal progression of a planned course or courses of instruction, and that this progressive growth factor is not out of proportion to the ability of the educational unit to pay for the courses of instruction.
5. That all reimbursement sought is for actual delivery of special education services and not for administrative costs.
6. Other factors as the department may require.

There is hereby appropriated out of the general fund of the state to the department of public instruction

beginning July 1, 1973, a sum sufficient to pay all approved applications for reimbursement pursuant to this chapter and this section, to the extent that the approved applications are for expanded special education programs beyond those programs provided for the fiscal year commencing July 1, 1971, or January 1, 1972, but only to the extent that the expanded programs would have qualified for state reimbursement pursuant to this chapter, as interpreted by the rules and regulations of the state department of public instruction effective on July 1, 1970."

Sec. 30. Section two hundred ninety-eight point one (298.1), Code 1971, is amended as follows:

298.1 SCHOOL TAXES. The board of each school corporation shall estimate the amount of the proposed expenditures and proposed receipts for the general school purposes at a time and in a manner to effectuate the provisions of [chapter 442] *sections 1 through 29, inclusive, of this Act*. Compliance with chapter 24 shall be observed.

[Prior to compliance with section 24.9, the superintendent of the county school systems shall call a joint meeting of school superintendents and school board members for all of the local districts within the county basic school tax unit. The time and place for such joint meetings shall be set by the superintendent of the county school system.]

[The purpose of the joint meeting shall be for a review of the budgets of the several school districts within the county basic school tax units, and for the discussion of common problems within the county basic unit.]

Sec. 31. Section four hundred twenty-two point sixty-five (422.65), Code 1971, is amended as follows:

422.65 ALLOCATION OF REVENUE. [Ten] *Fifty-five percent* of the total moneys received from the franchise tax shall be deposited in the state general fund. The remaining moneys received from the franchise tax shall be deposited in a franchise tax fund hereby established in the office of the treasurer of state, and shall be paid quarterly on warrants by the state comptroller, after certification by the director of revenue, as follows:

[1. Fifty percent to the basic school tax equalization fund of the basic school tax unit from which the tax is collected, to be distributed in the same manner as other funds in the basic school tax equalization fund.]

[2. Thirty] 1. *Sixty* percent to the general fund of the city or town from which the tax is collected.

[3. Twenty] 2. *Forty* percent to the general fund of the county from which the tax is collected.

If the financial institution maintains one or more offices for the transaction of business, other than its principal office, a portion of its franchise tax shall be allocated to each office, based upon a reasonable measure of the business activity of each

office. The director of revenue shall prescribe, for each type of financial institution, a method of measuring the business activity of each office. Financial institutions shall furnish all necessary information for this purpose at the request of the director.

Quarterly, the director of revenue shall certify to the treasurer of state the amounts to be paid to each [basic school tax unit,] city, town, and county from the franchise tax fund. All moneys received from the franchise tax are hereby appropriated according to the provisions of this section. *This section is applicable to all funds collected on or after July 1, 1970.*

Sec. 32. Effective January 1, 1972, section four hundred thirty A point three (430A.33), Code 1971, is amended as follows:

430A.3 LEVY. There is hereby imposed upon capital employed in the business of making loans or investments within the state of Iowa, as determined under the provisions of this chapter, a tax of five mills on each dollar of such capital; such tax to be considered a tax upon moneys and credits of such corporations which shall be levied by the board of supervisors, and placed upon the tax list and collected by the county treasurer. The amount collected in each taxing district in cities and towns shall be apportioned twenty percent to the county general fund, thirty percent to the city or town general fund, and fifty percent to the [basic school tax equalization fund] *general fund of the state*, and the amount collected in each taxing district outside of cities and towns shall be apportioned fifty percent to the county general fund and fifty percent to the [basic school tax equalization fund] *general fund of the state*. The term "loans" as used herein shall mean the lending of money to members of the general public upon other than real estate security. The term "investments" as used herein shall mean the discounting, purchasing, or otherwise acquiring notes, mortgages, sales contracts, debentures, or any other evidences of indebtedness, based upon other than real estate security when such investments are made in connection with loans made to members of the general public in the state of Iowa or in the courts of any operations having as their effect the financing of business transactions within the state of Iowa resulting in the incurring of any indebtedness based upon security other than real estate security.

Sec. 33. Effective July 1, 1972, chapter four hundred forty-two (442), Code 1971, is repealed. ## HOUSE CONCURRENT RESOLUTION 42

By Gluba

*Whereas*, cable television is presently not adequately regulated by Iowa laws; and

*Whereas*, the potential effect of cable television upon local governments and the people of Iowa has not been carefully studied and considered and because the potential effects for cable television such as the effect on existing business entities, use by schools and law enforcement agencies, and other uses must be considered when granting a cable television franchise; and

*Whereas*, many cities and towns are presently considering granting franchises for cable television without adequate study and the establishment of state guidelines relating to the uses of cable television and the legal implications relating the length of franchises, adequate tax revenues, conflicts of interest, the possibility of the establishment of monopolies; and

*Whereas*, it is necessary that guidelines be established for local governments in order that the total concept and impact of cable television may be adequately considered and local governments may negotiate cable television franchises for the best interests of the public; *Now Therefore*,

*Be It Resolved by the House of Representatives, the Senate Concurring*, That the legislative council is authorized to create a study committee composed of members of the two houses of the General Assembly representing the two political parties and such citizen members as may be deemed desirable, to study the total concept of cable television; and

*Be It Further Resolved*, in making such study the committee consider, but not be limited to, consideration of length of franchises, tax revenues, concessions in negotiating franchises, effect on existing business including monopolistic effects, local applications of cable television, conflicts of interest, uses by schools, law enforcement agencies, and other agencies, state regulation, and any other considerations deemed advisable; and

*Be It Further Resolved*, That the study committee make periodic reports to the legislative council and shall submit a final report which shall contain recommendations for suggested guidelines for the use of local governments in granting franchises, including necessary bill drafts to implement its recommendations, to the legislative council. Copies of the report approved by the legislative council shall be submitted to the General Assembly meeting in the year 1972.

By Lamborn and Gaudineer

*Whereas*, large numbers of resolutions have been introduced in both the Senate and the House of Representatives calling for interim studies of numerous state functions; and

*Now, Therefore, Be It Resolved by the Senate, the House Concurring:* That all resolutions calling for interim studies by the Legislative Council and by the Legislative Service Bureau which have not been adopted in both houses be delivered to the President pro tempore, on the part of the Senate,

and the Speaker of the House, on the part of the House, for consideration by the Legislative Council, which shall determine priorities and authorize such studies as may be feasible within the limits of the staff, time and funds available.

By Small

*Whereas* the general assembly is providing funds for the development and participation by the state of Iowa and its political subdivisions in a computerized network which will provide for the collection and rapid retrieval of information; and

*Whereas*, the new applications and capabilities of the computer and the possible abuses of such applications and capabilities should be considered and statutory guidelines for use of computers should be established in order to protect the privacy and security of innocent persons, *Now Therefore*,

*Be It Resolved by the House of Representatives, the Senate Concurring*, That the legislative council is authorized to appoint a study committee consisting of legislators of both houses and political parties of the General Assembly to conduct a study during the legislative interim relating to the applications, capabilities, use, abuse and control of computer information for the purpose of establishing legislative guidelines designed to protect the privacy and security of innocent persons; and

## EXPLANATION OF VOTE

(Senate File 565)

I voted "no" to Senate File 565 because all counties could now levy additional property tax of 2 mills or a total of 6½ mills. Because of the Senate amendment that allowed this and the House retained it, I cannot in good conscience accept or vote for a bill that would allow more property tax increases, particularly in view of the struggle this body experienced on House File 654 to lower property tax.

COMMUNICATION FROM THE CHIEF CLERK  
DES MOINES REGISTER AND TRIBUNE

June 15, 1971

To Bill Kendrick, Chief Clerk of the House

Dear Iowa State Representatives:

A sincere thank you for the most generous sentiments expressed in Senate Concurrent Resolution 44.

The enrolled resolution arrived in the mail today, June 15, which is my birthday. A most wonderful birthday greeting!

The last two months are the first since 1928 that I have not been fully active as a newsman reporting the Iowa scene.

I came to the legislature as a young reporter. More than a generation of my years are stashed away in the corners of the House and Senate chambers. They were very interesting, difficult and yet very rewarding years. It has been a tremendous privilege to have devoted more than half a lifetime to reporting your activities. The Iowa Legislature is the heartbeat of a great state and a warm people.

I am not disclosing what birthday this is for me. That is confidential information which may be kept secret under exceptions authorized by Senate File 536 of the laws of the Sixty-second General Assembly. But I must admit that the morning mail also brought a notice for me to pay my insurance premiums due under social security's Medicare program!

Cordially,

MARIE and GEORGE MILLS

15 Assembly, First Session, is amended as follows:  
16 No election precinct shall have a total population in excess

19 civil township outside the corporate limits of any or all cities  
20 and towns located wholly or partially within the boundaries of  
21 such township, is divided into two or more election precincts, the  
22 populations of each such precinct shall be as nearly equal as

32 the requirement that each precinct shall be contained wholly within  
33 an existing legislative district shall take precedence. The board

35 section no earlier than July first and not later than December  
36 thirty-first of each year immediately following a year in which  
37 the federal decennial census is taken, unless the general assembly

 48 shall follow the boundaries of areas for which official population

 52 in excess of three thousand *five hundred*, as shown by the most  
 53 recent federal decennial census, except that:

54 1. If in any area of the city it is not possible to devise  
 55 a contiguous precinct having a population of less than three thousand  
 56 *five hundred* by the most recent federal decennial census, because  
 57 one or more of the smallest population units for which census data  
 58 are available are composed of noncontiguous territory, the city  
 59 council may utilize other reliable and documented indicators of  
 60 population distribution in establishing precincts within that area.

61 Sec. .... Section forty-nine point six (49.6), Code 1971, as  
 62 amended by House File one hundred nineteen (119), section three (3),  
 63 of the Sixty-fourth General Assembly, First Session, is amended as

By Den Herder, Roorda, Fisher of Greene,  
Schmeiser, Strand and Priebe

*Whereas*, reliance on property taxes for city, county and school financing continues; and

*Whereas*, personal property continues to be a significant part of the total property base for purposes of taxation; and

*Whereas*, the burden of taxation arising from the ownership of personal property seems to fall in a grossly inequitable manner upon certain of our taxpayers; *Now Therefore*

*Be It Resolved by the House of Representatives, the Senate Concurring*, That the legislative council be authorized to create a study committee consisting of six legislative members, three from the Senate, and three from the House of Representatives, representing the two political parties, for the

purpose of studying the inequities in the taxes on personal property and for the purpose of recommending changes that would make these taxes more equitable and consistent in their application; and

*Be It Further Resolved*, That the study committee make periodic reports to the legislative council and shall submit a final report, including necessary bill drafts to implement its recommendations, to the legislative council. Copies of the report approved by the legislative council shall be submitted to the General Assembly meeting in the year 1972.

## GOVERNOR'S ITEM VETO MESSAGE

June 16, 1971

The Honorable Roger W. Jepsen:  
Lieutenant Governor of Iowa  
State Capitol  
Local

Dear Governor Jepsen:

I have on this date signed and transmitted to the Secretary of State's Office Senate File 543, an appropriation bill, with the exception of item 2, designated as section 2 of the said bill which I disapprove.

Pursuant to Amendment 4 of the 1968 Amendments to the Constitution of the State of Iowa, I hereby return to the Senate item 2, designated as

section 2 of Senate File 543, being an item of this appropriation bill.

This said item that I am unable to approve reads as follows:

"Sec. 2. Plans and specifications for improvements for which funds are appropriated by this Act or previous Acts of the general assembly shall be submitted by the department of social services to the budget and financial control committee for approval, except that items commonly known as change orders need not be submitted to the budget and financial control committee unless such change orders increase the total cost of that particular project."

I have disapproved this section because it violates the constitutional separation of the legislative and the executive branches of government. If the budget and financial control committee performed its duties under this section and exercised the powers given to it, the committee would be acting in an executive capacity or using delegated legislative powers. In either situation, they would be acting unconstitutionally. (1963 OAG 44, June 14, 1963)

We have been operating under a system whereby the executive council approves plans and specifications for improvements for which funds are appropriated by the General Assembly. This is a reasonable and working arrangement with the responsibility resting not only with the departments affected by the appropriation, but also with elected officials in the executive branch of government. These are people whose positions are fulltime and who provide interim safeguards for the system of state government.

Therefore, I am returning this item of Senate File 543 to the Senate where this appropriation bill originated pursuant to Amendment 4 of the 1968 Amendments to the Constitution of the State of Iowa.

Very truly yours,

ROBERT D. RAY  
Governor

## HOUSE CONCURRENT RESOLUTION 49

By Welden

*Whereas*, the members of the general assembly believe that all state employees should be entitled to receive uniform treatment in the establishment of pay scales and fringe benefits; and

*Whereas*, it appears that some groups of state employees have in the past and may in the immediate future receive salaries and fringe benefits that may exceed the benefits received by other groups of state employees; and

*Whereas*, because of the limited time available to the general assembly it does not appear possible to develop plans for salary scales and fringe benefits that will be uniform and equitable for every group of state employees,  
*Now Therefore*,

*Be It Resolved by the House of Representatives, the Senate Concurring*, That the Iowa merit employment commission and the director of the Iowa merit employment department are directed to develop a proposed plan that will provide a uniform system of pay scales and fringe benefits for all state employees. The inclusion of additional salary payments for extended length of service shall be considered and included in the report.

*Be It Further Resolved*, That the Iowa merit employment commission and the director of the employment department shall submit periodic reports of their progress and any problems they may encounter to the legislative council during the interim between the first and second sessions of the Sixty-fourth General Assembly and a final report of a proposed plan to the committees on appropriations not later than February 1, 1972.

Laid over under Rule 25.

## HOUSE RESOLUTION 10

By Camp, Skinner, Kinley and Bennett

*Whereas*, roof mounted signals for automobiles known as "life lites" have been developed by a resident of Des Moines and may presently be purchased; and

*Whereas*, automobiles equipped with life lites possess greater flashing illumination than automobiles without such signals; and

*Whereas*, it appears that the use by automobiles of life lites will help to improve Iowa's safety record and reduce the accident rate; *Now Therefore*, *Be It Resolved by the House of Representatives*, That the department of public safety is hereby encouraged to conduct a study to determine the extent of the usefulness and safety aspects of the life lite and the feasibility of the installation of the life lite on all automobiles.

*Be It Further Resolved*, That the department of public safety is hereby encouraged to apply for federal funds in cooperation with the manufacturer of life lite to finance the study.

## Office for Planning and Programming

Clerk of the House  
House of Representatives  
State Capitol  
Des Moines, Iowa 50319

Dear Sir:

Attached is a copy of our first Report on Federal Grants-in-Aid in Iowa, Fiscal Year 1970, as required by Chapter 7A, Code of Iowa.

This has been a difficult assignment and our first attempt to explain the level of federal funding that comes into Iowa as well as the amounts to state agencies and to each of Iowa's 99 counties. However, your comments and suggestions would be appreciated as we wish to make this information as useful to you as possible.

Our goal is to continue to refine our processes of federal grants review and fund information management as we proceed in July to computerize federal grants-in-aid information.

We hope this report will serve as a valuable tool in the ongoing resource allocation process.

Sincerely,

LEROY H. PETERSEN

#### GOVERNOR'S ITEM VETO MESSAGE

(Senate File 561, Item 2, Section 2)

June 19, 1971

Honorable Melvin D. Synhorst  
Secretary of State  
State Capitol  
Local

Dear Mr. Synhorst:

I hereby transmit Senate File 561, an act to appropriate from the General Fund of the State to the Iowa State Fair Board for capital improvements.

Senate File 561 is approved June 19, 1971 with the following exception: I am unable to approve Item 2 designated as Section 2 in the Act which reads as follows:

"Plans and specifications for improvements for which funds are appropriated by this Act shall be submitted by the State Fair Board to the budget and financial control committee, except that items commonly known as change orders need not be submitted to such committee unless such change orders increase the total cost of that particular project."

I have disapproved this Section because it violates the constitutional separation of the legislative and the executive branches of government. If the Budget and Financial Control Committee performed its duties under this Section and exercised the powers given to it, the Committee would be acting

in an executive capacity or using delegated legislative powers. In either situation, they would be acting unconstitutionally. (1963 OAG 44, June 14, 1963)

I hereby disapprove this Item as provided for in the Amendment to the Constitution of the State of Iowa adopted in 1968. All other Items of Senate File 561 are hereby approved this date.

Sincerely,

ROBERT D. RAY  
Governor

Dear Mr. Synhorst:

I hereby transmit Senate File 545, an act to appropriate from the General Fund of the State for capital improvements for physical plant and facilities and for the discharge of duties by the Superintendent of Public Buildings and Grounds.

Senate File 545 is approved June 19, 1971, with the following exception: I am unable to approve Item 3 designated as Section 3 in the Act which reads as follows:

“Sec. 3. Plans and specifications for improvements for which funds are appropriated by this Act shall be submitted by the superintendent of buildings and grounds to the budget and financial control committee, except that items commonly known as change orders need not be submitted to the budget and financial control committee unless such change orders actually increase the total cost of that particular project.”

I have disapproved this Section because it violates the constitutional separation of the legislative and the executive branches of government. If the Budget and Financial Control Committee performed its duties under this Section and exercised the powers given to it, the Committee would be acting in an executive capacity or using delegated legislative powers. In either situation, they would be acting unconstitutionally. (1963 OAG 44, June 14, 1963)

#### OFFICE OF THE GOVERNOR

State Capitol  
Des Moines, Iowa 50319

June 19, 1971

The Honorable William H. Harbor  
Speaker of the House of Representatives  
State Capitol  
Des Moines, Iowa

Honorable Members of the General Assembly:

When I delivered to you my Inaugural Message at the beginning of this Legislative Session, January 14, 1971, I told you that we stood at the crossroads of history and that it is an uncomfortable position because it requires us to make difficult—even hazardous—decisions.

As you wrap up the first session of the Sixty-fourth General Assembly, and as we reflect on the decisions and happenings of this session, it behooves all of us to understand the accomplishments and not just the disappointments and failures.

This Legislature was faced with major problems—the likes of which we have not seen in recent times. But as a result, the legislators were given—as I mentioned in my Inaugural Address—“the thrilling challenge of leadership in making good choices.”

It was my firm opinion then that property taxes in our state were increasing so rapidly that the quality of living for our elderly, low income citizens, farmers, many of our businessmen, and most of our Iowans was being materially and adversely affected. Since approximately 60 percent of property taxes have been for the purpose of financing local schools, it was therefore necessary to face the issue of school spending and the necessity of developing a school aid program that would distribute funds for local education more fairly and more equitably.

I have also continued to oppose the raising of any tax to an extent that was unnecessary.

You, as Legislators, responded to these critical needs. While many advocated raising far more new tax money and while the pressure was on you to impose a local income tax and increase the sales tax as well as take the state income tax to its full rate, I applaud you for resisting the temptation to raise more taxes than were necessary to answer these major and serious problems.

No revenue plan or program could be received with complete satisfaction or approval of any individual, whether he be a legislator, governor, or other citizen. After lengthy and exhaustive debate on the subject of how to distribute aid to our Iowa public schools, the majority of you concluded as I did that the foundation program was superior to the alternatives.

This program not only gives immediate relief to the heavily-burdened property taxpayer, but will continue to be of benefit to them into the future. This distribution plan is designed to do the following:

1. Stop further escalation of already burdensome property taxes paid for school support;
2. Provide reasonable spending restrictions on local schools regardless of the source of the funds;
3. Distribute the aid where the students are, reflecting increases and decreases in student enrollment;
4. Insure equalization of educational opportunity;
5. Eliminate the schools' open-ended access to property tax funds;
6. Establish a school-financing process which recognizes an Iowan's ability to pay;
7. Cease rewarding the inefficient or high-spending school district.

For the first time in our history, the state can guarantee property owners that if the school costs in their districts do not exceed the average in the state, and if any increased rate of spending does not exceed the economic growth of the state, their taxes for local school support will not go beyond what they are now paying. In most school districts, the millage levies for school support will actually drop.

Legislative reapportionment and congressional redistricting are never easy or simple. In this Session you were confronted with both of these problems because it is necessary that our legislators and congressmen represent dis-

tricts that reflect the population shifts in Iowa as revealed by the 1970 census.

I will not attempt in this communication to itemize all the measures that have or will become law or those that disappointingly did not make the grade. I would choose, however, to touch upon a few of your important accomplishments and some unfinished business that I consider part of my program and of prime concern, not only to me, but to the citizens of our state.

You enacted two very vital pieces of legislation that were recommended by the Governor's Economy Committee. I commend you for their passage.

The reorganization of the Iowa Liquor Control Commission will change the structure of this agency allowing it to do a more economical and efficient job and at the same time enable it to respond more adequately to the demands of our citizens.

The creation of the Central Services Administration will mandate centralized purchasing and incorporate business-like procedures that will improve the efficiency of state government.

The members of the Governor's Economy Committee have now been assured that the extensive time and effort they contributed to help their government do a better job have materialized into constructive change. Studies and reports so often have been shelved only to collect dust.

This is not the case with the Governor's Economy Committee Report—there is now concrete evidence that private citizens can make a substantial contribution to their government. For this effort, I again publicly extend my thanks to the many who participated in the Governor's Economy Committee.

Pollution, environment, and ecology are all emotion-packed words. They are as important as they are emotional. One of the milestones in the history of our state in this area is the soil conservancy law which you enacted. Left unfinished was my request for an Environmental Quality Control Agency bill—the passage which would have been beneficial in our fight against pollution. It remains alive and it is my hope that this will clear the House early in the next session.

In the matter of human pollution, you wisely adopted the Uniform Drug Control Act which for the most part will be of benefit in our Drug Abuse Program.

You promptly ratified the Constitutional Amendment lowering the voting age to 18. I have long been an advocate of allowing our young people to participate in the affairs of government and the society in which they live. It is not enough that we merely allow these young citizens to vote; we must welcome them enthusiastically into the governmental and political processes, not reluctantly accept them.

This Legislature wisely corrected a deficiency in control laws for the storage, sale and use of dynamite. Also enacted was a trespassing law that will afford a means of protection to people who own property.

While I do not agree with a number of your appropriations adopted including those for the Board of Regents and higher education, I am pleased that you followed my recommendation for the Iowa Tuition Grant Program. The latter affords hundreds of our young people the opportunity to attend colleges of their choice, thus benefiting our students, their parents, our excellent colleges and universities. At the same time this worthwhile program serves to lessen the load on the taxpayer that would be greater were all of these students attending state-supported schools. The Tuition Grant Program works.

Cities and towns will gain from this session of the Legislature substantially beyond any assistance they have received before from state government even though the amount of aid allocated to them was slightly less than my recommendations.

No session ends without disappointments as well as accomplishments. In that regard this session is no exception.

While it is imperative that the next legislative session be nowhere near as time-consuming as this one, it is important in my judgment that it adopt the Uniform Trial Court System which has passed one house. This measure, one I have long urged, is needed to upgrade our archaic court structure and would go far in restoring much needed respect for law.

The people of this state voted a home rule amendment to our Constitution, a great amount of work has been done by an Interim Committee to develop a home rule bill that would bring the Iowa Code into conformity with that Constitutional Amendment. This bill passed one house and remains to be acted upon by the other. I highly recommend that no more time be allowed to elapse and that this bill receive favorable consideration at the beginning today, the toll on good legislators will be extremely high.

If future legislative sessions are as lengthy as the one you are concluding of the next session.

I am still of the opinion that there is need for a collective bargaining procedure which did not receive attention during this session.

Despite repeated urging from this office to the leadership, this Legislature did not enact the billboard and junkyard bills which are needed if Iowa is to be in compliance with the Highway Safety Act.

These bills have been set as a special order of business for the second session; they deserve immediate attention.

It was disappointing that the bill which would have authorized regional correctional facilities did not receive favorable passage in the Senate in spite of support from both major political party platforms, our Social Services Department, the State Crime Commission, Governor's Economy Committee, and my recommendation.

Also, both major political party platforms called for the modernization of our abortion law and surveys established that the majority of the people favored such change, yet it, too, was defeated.

Help was given for our non-public schools which is indeed commendable. Fortunately, this action appears to be within the framework of the Supreme Court of the United States which other recommendations advanced would not have been based upon the Court's decisions of yesterday.

You have just finished a very grueling session of legislation. You experienced many agonizing moments as you had to face impending decisions that were, as I said in my Inaugural Address, "difficult—even hazardous." As a result, many worthwhile accomplishments have resulted.

The people of this state are entitled to know about them. Where there were disappointments, then it is up to you as legislators, me as Governor, and the people of this state as interested parties, to work between now and the next session to achieve the goals that remain unmet.

Thank you.

Sincerely,

ROBERT D. RAY  
Governor

The report was received and the committee discharged.

#### REMARKS BY SPEAKER HARBOR

As the First Regular Session of the Sixty-fourth General Assembly stands ready to adjourn, I would like to congratulate you on a job "well done."

This session has been long, hot and difficult. I fully realize that many of you served your state at a considerable personal sacrifice and deep frustration. As legislators you have demonstrated the courage to face up to controversial legislation such as—property tax relief and school aid reform. You have shown a conscientious effort to equalize the tax burden among all the people of Iowa and to reapportion the General Assembly, including congressional districts of the state.

Many other significant bills were enacted into law. However, there remains areas of legislation that time did not permit us to offer the people.

We will not be judged by this session alone. The long range accomplishments initiated by you will meet the test of judgment of the people of this state.

I appreciate the many courtesies and cooperation shown to me on "both sides of the aisle." I give you my heartfelt thanks for the honor and privilege of serving you as Speaker.

GOVERNOR'S ITEM VETO MESSAGE  
(House File 720, Item 7, Section 7)

June 30, 1971

The Honorable Melvin D. Synhorst  
Secretary of State  
State Capitol  
Local

Dear Mr. Synhorst:

I hereby transmit House File 720, an act to appropriate the Fish and Game Protection Fund for use by the State Conservation Commission.

House File 720 is approved June 30, 1971 with the following exception: I am unable to approve Item 7 designated as Section 7 in the Act which reads as follows:

"Sec. 7. When the state conservation commission has approved a capital improvement project to be financed from the state fish and game protection fund, a description of the project and estimated cost shall be reported to the budget and financial control committee for approval. Upon approval by the budget and financial control committee, the project shall be reported to the governor and state comptroller for allocation of funds."

I have disapproved this section because it violates the constitutional separation of the legislative and executive branches of government. If the Budget Financial Control Committee performed its duties under this section and exercised the powers given to it, the committee would be acting in an executive capacity or using delegated legislative powers. In either situation, they would be acting unconstitutionally. (1963 OAG 44, June 14, 1963)

I hereby disapprove this item as provided for in the Amendment to the Constitution of the State of Iowa adopted in 1968. All other items of House File 720 are hereby approved this date.

Sincerely,

ROBERT D. RAY  
Governor

GOVERNOR'S ITEM VETO MESSAGE  
(House File 723, Item 4, Section 4)

June 30, 1971

The Honorable Melvin D. Synhorst  
Secretary of State  
State Capitol  
Local

Dear Mr. Synhorst:

I hereby transmit House File 723, an act to appropriate from the General Fund of the State of Iowa to the State Conservation Commission for carrying out specific projects.

House File 723 is approved June 30, 1971 with the following exception:

I am unable to approve Item 4 designated as Section 4 in the Act which reads as follows:

“Sec. 4. When the state conservation commission has approved a project to be financed with funds appropriated by section one (1) of this Act, a description of the project and estimated cost shall be reported to the budget and financial control committee for approval. Upon approval by the budget and financial control committee the project shall be reported to the governor and state comptroller for allocation of funds.”

I have disapproved this section because it violates the constitutional separation of the legislative and the executive branches of government. If the Budget Financial Control Committee performed its duties under this section and exercised the powers given to it, the committee would be acting in an executive capacity or using delegated legislative powers. In either situation, they would be acting unconstitutionally. (1963, OAG 44, June 14, 1963)

I hereby disapprove this item as provided for in the Amendment to the Constitution of the State of Iowa adopted in 1968. All other items of House File 723 are hereby approved this date.

Sincerely,

ROBERT D. RAY  
Governor

GOVERNOR'S ITEM VETO MESSAGE  
(Senate File 544, Subsection 3, Section 1)

July 1, 1971

The Honorable Melvin D. Synhorst  
Secretary of State  
State Capitol  
Local

Dear Mr. Synhorst:

I hereby transmit Senate File 544, an act making an appropriation from the general fund of the state to the Commission on Alcoholism.

Senate File 544 is hereby approved July 1, 1971, with the following exception: I am unable to approve the Item designated as subsection 3 of Section 1, which reads as follows:

“No part of the appropriation provided for the treatment of alcoholism in subsection two (2) of this section shall be used for salaries, support and maintenance of the commission on alcoholism, excluding individuals employed by local alcoholism or detoxification units. No local alcoholism or detoxification facility shall be allocated more than fifteen percent of the appropriation provided for the treatment of alcoholism in subsection two (2) of this section.”

This subsection imposes a specific limitation on the amount of financial support that the Alcoholism Commission can provide for any alcoholism or detoxification facility regardless of its success in treating and rehabilitating alcoholics, its record of performance, or the need for its existence. This subsection destroys the very concept for which we established a fund in 1969 for the first time to provide state funds to help our citizens who found

themselves losing jobs, their families, self-respect and hope because of a drinking problem.

There existed at that time two facilities which were designed and in operation to directly treat and aid the alcoholic. They were the Harrison and Oakdale Treatment Centers. Each was a proven and established success. Neither was exclusively a local center and both were available and, by the law enacted, became treatment centers for alcoholics from any and all counties of our state. The Harrison Treatment Center has been of service to patients from all ninety-nine counties and treats all or nearly all of the patients from a number of counties at the present time. The Harrison Treatment Center is closely oriented to Alcoholics Anonymous, which was a pioneer in the successful rehabilitation of alcoholics and continues to be a prominent factor in helping these people.

Our original program of state participation in fighting alcoholism allowed for sufficient flexibility to permit the Commission to use some of its funds for service centers. There was no intent for the state to be a main source of finances for these centers. They were recognized as being able to perform a very valuable service in local communities. They do not serve in the same capacity or in the same manner as the Harrison and Oakdale Treatment Centers, however. They do call for extensive participation from community-minded people, which is basically their strength. It is imperative that the state recognize the importance of these service centers. It is also, however, important that we not allow the Harrison Treatment Center, which serves our entire state, to deteriorate or go out of business.

This provision of limitation could well cause such a result. This would be tragic. I do not feel I can let this happen.

I hereby disapprove this subsection as provided for in the Amendment to the Constitution of the State of Iowa adopted in 1968. All other items of Senate File 544 are hereby approved this date.

Sincerely,

ROBERT D. RAY  
Governor

GOVERNOR'S ITEM VETO MESSAGE  
(Senate File 555, Item 3, Section 3)

June 30, 1971

The Honorable Melvin D. Synhorst  
Secretary of State  
State Capitol  
Local

Dear Mr. Synhorst:

I hereby transmit Senate File 555, an act to provide an appropriation from the General Fund of the State for capital improvements for the Iowa Law Enforcement Academy.

Senate File 555 is approved June 30, 1971, with the following exception: I am unable to approve Item 3 designated as Section 3 in the Act which reads as follows:

"Sec. 3. Plans and specifications for improvements for which funds are appropriated by this Act shall be submitted to the budget and financial control committee for approval, except that items

commonly known as change orders need not be submitted to the budget and financial control committee unless such change orders actually increase the total cost of the project."

I have disapproved this Item because it violates the constitutional separation of the legislative and the executive branches of government. If the Budget Financial Control Committee performed its duties under this Item and exercised the powers given to it, the Committee would be acting in an executive capacity or using delegated legislative powers. In either situation, they would be acting unconstitutionally. (1963 OAG 44, June 14, 1963)

I hereby disapprove this Item as provided for in the Amendment to the Constitution of the State of Iowa adopted in 1968. All other Items of Senate File 555 are hereby approved this date.

Sincerely,

ROBERT D. RAY  
Governor

#### GOVERNOR'S ITEM VETO MESSAGE

(Senate File 556, Paragraph 2, Section 1)

June 30, 1971

The Honorable Melvin D. Synhorst  
Secretary of State  
State Capitol  
Local

Dear Mr. Synhorst:

I hereby transmit Senate File 556, an act creating and making an appropriation to the Executive Council General Contingent Fund.

Senate File 556 is approved June 30, 1971, with the following exception: I am unable to approve that Item designated as the second paragraph of Section 1 which reads as follows:

"Before any of the funds appropriated by the Act shall be allocated, a written recommendation shall first be obtained from the state comptroller and the executive council shall determine that the proposed allocation shall be for the best interest of the state. Any allocation in excess of thirty-five thousand dollars must be approved by the budget and financial control committee. The executive council shall not spend any money out of the contingent fund while the legislature is in session."

I have disapproved this Item because it violates the constitutional separation of the legislative and the executive branches of government. If the Budget Financial Control Committee performed its duties under this part of Section 1 and exercised the powers given to it, the Committee would be acting in an executive capacity or using delegated legislative powers. In either situation, they would be acting unconstitutionally. (1963 OAG 44, June 14, 1963)

In addition, the Executive Council is composed of state officials elected by people of the entire State of Iowa; if they are competent to handle a contingent fund when the legislature is not in session, then they are certainly competent to handle the same fund when the legislature is in session.

I hereby disapprove this Item as provided for in the Amendment to the

Constitution of the State of Iowa adopted in 1968. All other Items of Senate File 556 are hereby approved this date.

Sincerely,

ROBERT D. RAY

Dear Mr. Synhorst:

I hereby transmit Senate File 565, an act making an appropriation to the Department of Social Services and divisions thereof, including the Board of Parole, and providing for the administration thereof and providing for a study committee.

Senate File 565 is approved July 17, 1971, with the following exception: I am unable to approve Item 12 designated as Section 12 in the Act which reads as follows:

"No person shall be admitted on a voluntary basis to a mental health institute under the control of the department of social services for the treatment of alcoholism unless he has been admitted to a facility defined in section one hundred twenty-three B point one (123B.1) of the Code, and referred by the facility to the mental health institute."

This vetoed Item, if allowed to stand, could effectively prevent alcoholics from obtaining care and treatment at the time when they need it the most.

While I recognize that this Provision could in some cases lead an alcoholic to a service center where he could be helped, avoiding admittance to a mental health institution, the hardships that this Provision creates could adversely affect care, treatment, rehabilitation and the future of many other alcoholics. The disadvantages outweigh the advantages.

When an alcoholic seeks help, it is imperative that we provide him with the easiest access possible to the treatment services available.

Section 12 of this bill would deny an alcoholic the privilege of voluntarily appearing at one of our mental health hospitals for treatment unless referred. Nearly 75 percent of the alcoholics treated at our mental health hospitals are there voluntarily. Requiring an individual badly in need of immediate treatment, or who is in a frame of mind to accept such treatment, to go to a third party for admittance could greatly hinder alcoholic rehabilitation and could irreparably damage individuals seeking help.

While not all alcoholics are cured by the treatment they receive from our mental health hospitals or from any other facility, it is not only humane to make available voluntary treatment, but it is also economically wise. It makes good sense to have different types of services available to those who seek and need assistance in overcoming drinking problems.

But if we are serious about helping those who have the problem, then we should provide easy access to the facilities available. We should not

discourage the alcoholic from seeking help by making it more complicated and difficult to get into a hospital.

The Provision requires that a person be referred by a facility defined in Section 123B.1 of the Code, but such facilities do not exist in every county. As a matter of fact, there exists only eighteen county programs or facilities, including Oakdale and the Harrison Detoxification Center. Section 12 of this bill would require an alcoholic seeking help through one of our mental health hospitals to first obtain permission from one of these facilities—that might be a considerable distance from his home—before he could be admitted into the hospital. By the time approval is obtained, the patient could easily become discouraged and resist any help to overcome his alcoholism.

Many general hospitals in the state discourage the admittance of alcoholic patients since they have no program for this type of health care. We should encourage voluntary commitment where alcoholism treatment programs do exist.

This Item also runs counter to the approach of Alcoholics Anonymous, the largest alcoholic volunteer service in the State of Iowa, which has worked with alcoholics on a person to person basis and has encouraged voluntary commitment to our state hospitals. The requirement in this act making a referral by a third party mandatory would, in many instances, reduce the effectiveness of Alcoholics Anonymous in encouraging and following through on voluntary commitments.

This Section would also eliminate the referrals by the Office of Economic Opportunity's funded alcoholism programs, which are not connected with the State Alcoholism Commission-funded agencies. This Provision also would prevent a patient who wishes to and could pay for the services of a mental hospital, or who could have the services paid for by insurance, without having him first go through the red tape of obtaining approval of a third party facility. In effect, the patient's right to free choice of treatment would be curtailed.

This Provision refers to "a facility" handling the referral, yet does not establish who the person or persons would be to represent that facility and what their requirements would be. Even though alcoholism is generally recognized as a disease, there is no requirement that anyone making the referral have any specialized training, medical or otherwise, in judging to where the referral should be made.

For these reasons and because this Section would tend to impose undue hardship on the sick alcoholic who requires prompt treatment and asks for it, I hereby disapprove said Item as provided in the amendment to the Constitution of the State of Iowa adopted in 1968. All other Items of Senate File 565 are hereby approved this date.

Sincerely,

ROBERT D. RAY  
Governor

## GOVERNOR'S ITEM VETO MESSAGE

(Senate File 572, Item 3, Section 3; Item 4, Section 4; Item 5, Section 5)

July 17, 1971

The Honorable Melvin D. Synhorst  
Secretary of State  
State Capitol  
Local

Dear Mr. Synhorst:

I hereby transmit Senate File 572, an act relating to the control and use of state funds, powers and duties of the Budget and Financial Control Committee and providing an appropriation.

Senate File 572 is approved July 17, 1971, with the following exceptions:

I am unable to approve Item 3 designated as Section 3 in the Act which reads as follows:

"Sec. 3. Section two hundred eighteen point ninety-four (218.94), unnumbered paragraph one (1), Code 1971, is amended as follows:

The commissioner of the department of social services shall have full power, subject to the approval of the executive council *and after receiving the recommendation of the budget and financial control committee* to secure options to purchase real estate and to acquire and sell real estate for the proper use of said institutions. Real estate shall be acquired and sold upon such terms and conditions as the commissioner may recommend subject to the approval of the executive council *and after receiving the recommendation of the budget and financial control committee*. Upon sale of such real estate, the proceeds thereof shall be deposited with the treasurer of the state and credited to a special trust fund to be held in such fund for the department of social services until the general assembly appropriates such funds."

I am unable to approve Item 4 designated as Section 4 in the Act which reads as follows:

"Sec. 4. CAPITAL IMPROVEMENTS. Before expending any funds for the construction of new buildings, repairs, improvements, replacements, or alterations, or any other capital expenditures, the contracts, plans and specifications, or plan of operation for improvements, shall be submitted to the budget and financial control committee for its recommendation."

I am unable to approve Item 5 designated as Section 5 in the Act which reads as follows:

"Sec. 5. Section two hundred sixty-two point nine (262.9), subsection five (5), Code 1971, is amended as follows:

5. With the approval of the executive council, acquire real estate for the proper uses of said institutions, and dispose of real estate belonging to said institutions when not necessary for their purposes. A disposal of such real estate shall be made upon such terms, conditions and consideration as the board may recommend and subject to the approval of the executive council *and after receiving the recommendation of the budget and financial control committee*. The proceeds of such sale shall be deposited with the treasurer of the state and credited to a special trust fund to be

*held in such fund for the board of regents until the general assembly appropriates such funds. All transfers shall be by state patent in the manner provided by law."*

With these provisions stricken the Commissioner of the Department of Social Services and the Board of Regents are charged with the responsibility to purchase, acquire and sell property subject to the approval of the Executive Council. This provides a safeguard in the spending and use of funds for such purposes. Adding the requirement of a recommendation of the Budget Financial Control Committee not only creates a conflicting situation between the legislative and executive branches of government, but also would add a burden to necessary transactions that could affect the efficiency of the business conducted by the Board of Regents and Department of Social Services.

These Items being vetoed tend to diffuse the responsibility of the Department of Social Services and the Board of Regents, and could well result in delays and uncertainties regarding many projects. They provide no minimum size for improvements or transactions and a project consisting of only a few dollars would have to be submitted to the Budget and Financial Control Committee for its recommendation.

These Provisions also create a distinct time problem inasmuch as there is no limit set for the Budget and Financial Control Committee providing when it must act in making its recommendation. It further fails to provide a course of action in the event the Budget and Financial Control Committee fails to act.

Item 5 which affects the Board of Regents, would require some delay in providing benefits to students or to universities because the funds would be frozen in a special fund in the Office of the State Treasurer until the General Assembly could act.

There could be a reluctance to sell property if there is no assurance that the proceeds of the sale would be deposited in the original fund from which the purchase was made.

This Section would also tend to discourage real estate transaction beneficial to the state wherein a state agency or institution disposes of land of no further benefit to the state in exchange for funds to be used for the purchase of other land of potentially greater use.

For these reasons I hereby disapprove these three Items as provided in the amendment to the Constitution of the State of Iowa adopted in 1968. All other Items of Senate File 572 are hereby approved this date.

Sincerely,

ROBERT D. RAY  
Governor

GOVERNOR'S ITEM VETO MESSAGE  
(Senate File 586, Item 5, Section 5)

July 2, 1971

The Honorable Melvin D. Synhorst  
Secretary of State  
State Capitol  
Local

Dear Mr. Synhorst:

I hereby transmit Senate File 586, an act to appropriate funds from the

general fund of the State of Iowa to the State Board of Regents to reimburse state educational institutions for deficiencies in operation revenues resulting from funds pledged to finance academic and administrative buildings and facilities and utilities services.

Senate File 586 is approved July 2, 1971 with the following exception: I am unable to approve Item 5 designated as Section 5 in the Act which reads as follows:

"Sec. 5. Chapter two hundred sixty-two (262A), Code 1971, is amended by adding the following new section: On and after the taking effect of this Act, the board shall issue no more bonds as provided for in this chapter. The state of Iowa shall be paid with interest on or before maturity date.

I have disapproved this Item because it effectively repeals Chapter 262A, 1971 Code of Iowa, authorizing the Board of Regents to issue and sell bonds for construction of academic and related facilities.

It would also rescind the actions of this very same legislature in its passage of Senate Concurrent Resolution 33, which specifically authorized the issuance of \$18,933,000 in new academic revenue bonding authority as well as reauthorizing \$3,435,000 in bonding authority by the first session of the last General Assembly for the veterinary medicine facility at Iowa State University, Ames.

The first session of the Sixty-Fourth General Assembly, in addition to the passage of Senate Concurrent Resolution 33, passed three other measures declaring its intent to provide that certain academic facilities at our universities be financed by bonding authority as provided in Chapter 262A.

This Item was added in the closing moments of this session, and is in direct conflict with previous measures passed during the same session. Therefore, I can only conclude that many legislators were not fully aware of the consequences of the inclusion of this section. On the other hand, many members of the Senate were concerned enough to vote a resolution requesting that I exercise my right of Item Veto to prevent the repeal of 262A.

This Item would effectively prohibit the Board of Regents from providing matching funds for federal grants for the construction of the \$25.5 million veterinary medicine facility at Iowa State University. I believe this prohibition would be detrimental to the interests, both economic and educationally, of the State of Iowa.

The long-range financing of needed classroom, laboratory and other academic facilities has been established so that planning at our universities can extend beyond the present and so sound business practices can be used in planning and construction.

I hereby disapprove Item 5, designated as Section 5 in the Act, as provided for in the Amendment to the Constitution of the State of Iowa adopted in 1968. All other Items of Senate File 586 are hereby approved this date.

Sincerely,

ROBERT D. RAY  
Governor
