## REPORT OF THE CONFERENCE COMMITTEE ON SENATE FILE 26

To the President of the Senate and the Speaker of the House of Representatives:
We, the undersigned members of the conference committee appointed to consider the differences between the Senate and House of Representatives on Senate File 26, a bill for an act to provide for deferred sentences, respectfully make the following recommendations:

1. That the House recede from its amendment and that Senate File 26, as amended, passed, and reprinted by the Senate, be amended as follows:
2. By striking everything after the enacting clause and inserting in lieu thereof the following:

Section 1. NEW SECTION. DEFERRED JUDGMENT OR SUSPENDED
SENTENCE-PROBATION. The trial court may, upon a plea of quilty, verdict of guilty, or a special verdict upon which a judgment of conviction may be rendered, exercise either of the options contained in subsections one (1) and two (2) of this section. However, this section shall not apply to the crimes of treason, murder, or violation of section two
hundred four point four hundred one (204.401), subsection one (1) or two (2) of the Code, to which section two hundred four point four hundred nine (204.409), subsection two (2) of the Code is not applicable and which is not proved to be an accommodation offense under section two hundred four point four hundred ten (204.410) of the Code.

1. With the consent of the defendant, the court may defer judgment and place the defendant on probation upon such terms and conditions as it may require. Upon fulfillment of the terms of probation the defendant shall be discharged without entry of judgment. Upon violation of the terms, the court may enter an adjudication of guilt and proceed as otherwise provided.

However, this subsection shall not be available if any of the following is true:
a. The defendant attempted to kill anyone during the commission of the offense.
b. The defendant purposefully inflicted or attempted to inflict a serious injury upon anyone during the commission of the offense. "Serious injury" means death, permanent disability or disfigurement, protracted loss or impairment of the function of any body member or organ, an injury requiring extended treatment or a prolonged healing period, a disabling mental illness requiring extended treatment or prolonged care, or an injury which at the time of deferment of judgment appears likely to result in any of the foregoing.
c. The defendant used, threatened to use or displayed in a threatening manner a dangerous weapon during the commission of the offense. "Dangerous weapon" means any instrument or device designed primarily for use in inflicting death or injury upon a human being or other living creature, and which is capable of inflicting death upon a human being when used in the manner for which it was designed. "Dangerous weapon" also includes any instrument or device of any sort whatsoever which is actually used in such a manner as to indicate that the defendant intends to inflict death or serious injury upon anyone and which, when so used, is capable of inflicting death upon a human being.
d. The defendant kidnaped any person for ransom during the commission of the offense.
e. During the commission of the offense the defendant committed rape or sodomy by force or threat of force, committed assault with intent to commit rape by force or threat of force, committed or attempted to commit rape or of sodomy with a child twelve years of age or under, or committed a violation of section seven hundred twenty-five point two (725.2) of the Code with respect to a child twelve years of age or under and which included any of the following: force or threat of force, fondling or touching the child in a lewd manner, or soliciting a sexual act with the child.
f. The defendant has been previously convicted of a felony. "Felony" means a conviction in a court of this or any other state or of the United States, of an offense classified as
a felony by the law under which he was convicted at the time of his conviction.
g. Prior to the commission of the offense the defendant had been granted a deferred judgment or similar relief, two or more times anywhere in the United States.
h. Prior to the commission of the offense the defendant had been granted a deferred judgment or similar relief in a felony prosecution anywhere in the United States within the preceding five years, measured from the date of granting of deferment of judgment to the date of commission of the offense.

Any deferment of judgment under this subsection shall be promptly reported to the supreme court administrator who shall maintain a permanent record thereof including the name of the defendant, the district court docket number, the nature of the offense, and the date of the deferment. Before granting deferment in any case, the court shall request of the supreme court administrator a search of the deferred judgment docket and shall consider any prior record of a deferment of judgment against the defendant. The permanent record provided for in this subsection shall constitute a confidential record exempted from public access under section sixty-eight A point seven (68A.7) of the Code and shall be available only to justices of the supreme court, district judges, district associate judges, and judicial magistrates requesting information pursuant to this subsection.
2. By record entry at time of or after sentencing, the court may suspend the sentence and place the defendant on probation upon such terms and conditions as it may require.

Before exercising either of the options contained in subsections one (1) and two (2) of this section, the court shall first determine which of them will provide maximum opportunity for the rehabilitation of the defendant and protection of the community from further offenses by the defendant and others. In making this determination the court shall consider the age of the defendant, his prior record of convictions, if any, his employment circumstances, his family circumstances, the nature of the offense committed, whether a dangerous weapon or force was used in the commission of such offense, and such other factors as shall be appropriate. The court shall file a specific written statement of its reasons for and the facts supporting its decision to defer judgment or to suspend sentence and its decision on the length of probation.

Sec. 2. NEW SECTION. LENGTH OF PROBATION. The length of the probation shall be for such term as the court may fix but not to exceed five years if the offense is a felony or not to exceed two years if the offense is a misdemeanor, unless the person is ordered placed under the supervision of the chief parole officer, in which case the term of probation shall be determined by the board of parole and the probation of the defendant shall be supervised by the chief parole officer.

The length of the probation shall not be less than one year and shall not be less than two years if the offense is a felony. However, the court may subsequently reduce the length of the probation if the court determines that the purposes of probation have been fulfilled, as provided in section six (6) of this Act.

In determining the length of the probation, the court shall first determine what period is most likely to provide maximum opportunity for the rehabilitation of the defendant, to allow enough time to determine whether or not rehabilitation has been successful, and to protect the community from further offenses by the defendant and others.

Sec. 3. NEW SECTION. PRESENTENCE INVESTIGATION. Upon a plea of guilty, verdict of guilty, or special verdict upon which a judgment of conviction of any public offense may be rendered, the court shall receive from the state and from the defendant any information which may be offered which is relevant to the question of sentencing. The court may consider information from other sources, and may, if the offense is a felony, order a presentence investigation to be made.

The court may withhold execution of any judgment or sentence for such time as shall be reasonably necessary for an investigation with respect to deferment of judgment or suspension of sentence and probation. The investigation shall be made by a probation officer, by the agency in charge of parole agents, or by another appropriate agency, as determined by this court.

Sec. 4. NEW SECTION. PRESENTENCE INVESTIGATION AND REPORT
Whenever a presentence investigation is ordered by the court, the investigator shall promptly inquire into the defendant's characteristics, family and financial circumstances, needs and potentialities; his criminal record and social history; the circumstances of the offense; the time the defendant has been in detention; and the harm to the victim, his immediate family, and the community. All local and state mental and correctional institutions, courts, and police agencies shall furnish to the investigator on request the defendant's criminal record and other relevant information. With the approval of the court, a physical examination of the defendant may be ordered, or the defendant may be committed to a psychiatric facility for an evaluation of his personality and mental health. The results of any such examination shall be included in the report of the investigator.

Sec. 5. NEW SECTION. REPORT CONFIDENTIAL. The court may, in its discretion, make the presentence investigation report or parts of it available to the defendant, or the court may make the report or parts of it available while concealing the identity of the person who provided confidential information. The report of any medical examination or psychiatric evaluation shall be made available to the attorney for the state and to the defendant upon request. Such reports shall be part of the record but shall be sealed and opened
only on order of the court. In any case where the defendant is committed to the custody of the department of social services, a copy of the presentence investigation report shall be sent to the department at the time of commitment.

Sec. 6. NEW SECTION. DISCHARGE FROM PROBATION. At any time that the court determines that the purposes of probation have been fulfilled, the court may order the discharge of any person from probation. At the expiration of the period of probation, in cases where the court fixes the term of probation, the court shall order the discharge of such person from probation, and the court shall forward to the governor a recommendation for or against restoration of citizenship rights to such person. A person who has been discharged from probation shall no longer be held to answer for his offense. Upon discharge from probation, if judgment has been deferred under section one (1) of this Act, the court's criminal record with reference to the deferred judgment shall be expunged. The record maintained by the supreme court administrator required by section one (1) of this Act shall not be expunged. The court's record shall never be expunged in any other circumstances except as provided in section six hundred two point fifteen (602.15) of the Code.

## Sec. 7. NEW SECTION. CUSTODY OF COURT PROBATIONERRECORD

TO CHIEF PAROLE OFFICER. When probation is granted under section one (1) of this Act, the court shall order said person committed to the custody, care, and supervision:

1. Of any suitable resident of this state; or
2. Of the chief parole officer. The chief parole officer shall not, however, accept the custody, care and supervision of any person granted probation from a sentence to a term in a county jail or any other person who is the judgment of the chief parole officer could not be properly supervised.

In each case wherein the court shall order said person committed to the custody, care, and supervision of the chief parole officer, the clerk of the district court shall at once furnish the chief parole officer with certified copies of the indictment or information, the minutes of testimony attached thereto, the judgment entry if judgment is not deferred, and the original mittimus. The county attorney shall at once advise the chief parole officer, by letter, that the defendant has been placed under the chief parole officer's supervision and give to the chief parole officer a detailed statement of the facts and circumstances surrounding the crime committed and the record and history of the defendant as may be known to him. If the defendant is confined in the county jail at the time of sentence, the court may order him held until arrangements are made by the chief parole officer for his employment and he has signed the necessary probation papers. If the defendant is not confined in the county jail at the time of sentence, the court may order him to remain in the county wherein he has been convicted and sentenced and report to the sheriff as to his whereabouts.

Sec. 8. NEW SECTION. RESTITUTION.

1. As used in this section, unless the context otherwise requires:
a. "Victim" means any person who has suffered pecuniary damages as a result of the defendant's criminal activities. However, with respect to any part of a victim's pecuniary damages paid by an insurer, the insurer shall be regarded as the victim only if the insurer has no right of subrogation and the insured has no duty to pay the proceeds of restitution to the insurer.
b. "Pecuniary damages" means all damages which a victim could recover against the defendant in a civil action arising out of the same facts or event, except punitive damages and damages for pain, suffering, mental anguish, and loss of consortium. Without limitation, "pecuniary damages" includes damages for wrongful death.
c. "Criminal activities" includes any crime for which there is a plea of guilty, verdict of guilty, or special verdict upon which a judgment of conviction may be rendered and any other crime committed after July 1, 1972 which is admitted or not contested by the defendant, whether or not prosecuted. However, "criminal activities" does not include misdemeanors under chapter three hundred twenty-one (321) of the Code.
d. "Restitution" means full or partial payment of pecuniary damages to a victim.
2. It is the policy of this state that restitution be made by each violator of the criminal laws to the victims of his criminal activities to the extent that the violator is reasonably able to do so. This section shall be interpreted and administered to effectuate this policy.
3. If the trial court exercises either of the sentencing options under section one (1) of this Act, the court shall require as a condition of probation that the defendant, in cooperation with the probation officer assigned to the defendant, promptly prepare a plan of restitution, including a specific amount of restitution to each victim and a schedule of restitution payments. If the defendant is presently unable to make any restitution but there is a reasonable possibility that the defendant may be able to do so at some time during his probation period, the plan of restitution shall also state the conditions under which or the event after which the defendant will make restitution. If the defendant believes that he will not be able to make any restitution, he shall so state and shall specify the reasons. If the defendant believes that no person suffered pecuniary damages as a result of the defendant's criminal activities, he shall so state.
4. The defendant's plan of restitution and the comments of his probation officer shall be submitted promptly to the court. The court shall promptly enter an order approving the plan or modifying it and providing for restitution payments to the extent that the defendant is or may become reasonably able to make restitution, taking into account the factors enumerated in subsection five (5) of this section. Compli-
ance with the plan of restitution as approved or modified by the court shall be a condition of the defendant's probation. Restitution payments shall be made to the clerk unless otherwise directed by the court. The court thereafter may modify the plan at any time upon the defendant's request or upon the court's own motion. If the plan as approved or modified does not require full payment of pecuniary damages to all victims, or if the court determines that the defendant is not able and will not be able to make any restitution at any time during his probation period or that no person suffered pecuniary damages as a result of the defendant's criminal activities, the court shall file a specific written statement of its reasons for and the facts supporting its action or determination.
5. The probation officer when assisting the defendant in preparing the plan of restitution, and the court before approving or modifying the plan of restitution, shall consider the physical and mental health and condition of the defendant, his age, his education, his employment circumstances, his potential for employment and vocational training, his family circumstances, his financial condition, the number of victims, the pecuniary damages of each victim, what plan of restitution will most effectively aid the rehabilitation of the defendant, and such other factors as shall be appropriate. The probation officer shall attempt to determine the name and address of each victim and the amount of his pecuniary damages.
6. The clerk shall mail to each known victim a copy of the court's order approving or modifying the plan of restitution, including the court's statement, if any, under subsection four (4) of this section.
7. At any time during the probation period the defendant may request and the court shall grant a hearing on any matter related to the plan of restitution.
8. Failure of the defendant to comply with subsection three (3) of this section or to comply with the plan of restitution as approved or modified by the court shall constitute a violation of the conditions of probation. Without limitation, the court may modify the plan of restitution or extend the period of time for restitution, but not beyond the maximum probation period specified in section two (2) of this Act.
9. This section and proceedings under this section shall not limit or impair the rights of victims to sue and recover damages from the defendant in a civil action. However, any restitution payment by the defendant to a victim shall be set off against any judgment in favor of the victim in a civil action arising out of the same facts or event. The fact that restitution was required or made shall not be admissible as evidence in a civil action unless offered by such defendant.

Sec. 9. Section two hundred forty-seven point six (247.6), Code 1973, is amended by adding the following new unnumbered paragraph:

NEW UNNUMBERED PARAGRAPH. The rules and conditions of
parole may require that restitution be made by the parolee to the victims who suffered pecuniary damages as a result of the parolee's criminal activities. Words defined in section eight (8) of this Act shall have the same meaning in this paragraph.

Sec. 10. Section three hundred twenty-one point two hundred eighteen (321.218), Code 1973, is amended to read as follows:
321.218 DRIVING WHILE LICENSE DENIED, SUSPENDED, OR REVOKED. Any person whose operator's or chauffeur's license, or driving privilege, has been denied, canceled, suspended or revoked as provided in this chapter, and who drives any motor vehicle upon the highways of this state while such license or privilege is denied, canceled, suspended, or revoked, is guilty of a misdemeanor and upon conviction shall be punished by imprisonment for not less than two days or more than thirty days. The sentence imposed under this section shall not be suspended by the court, notwithstanding the provisions of section [247.20] one (1) of this Act or any other provision of statute. The department, upon receiving the record of the conviction of any person under this section upon a charge of driving a motor vehicle while the license of such person was suspended or revoked, shall extend the period of suspension or revocation for an additional like period, and the department shall not issue a new license during such additional period.

Sec. 11. Section six hundred two point fifteen (602.15) Code 1973, is amended to read as follows:
602.15 AMENDING OR EXPUNGING ENTRY. The record of any court proceedings is under the control of the court and, except as provided in section six (6) of this Act, may be amended or any entry therein expunged before it has been signed by the judge or within sixty days thereafter.

Sec. 12. Section seven hundred eighty-nine point two (789.2), Code 1973, is amended to read as follows:
789.2 JUDGMENT OF CONVICTION-TIME FOR. Upon a plea of guilty, verdict of guilty, or a special verdict upon which a judgment of conviction [must] may be rendered, the court must fix a time for pronouncing judgment, which must be [at least three days after the verdict is rendered, if the court remains in session so long, or, if not, as remote a time as can reasonably be allowed; but in no case can it be pronounced in less than six hours after verdict is rendered, unless defendant consent thereto] within a reasonable time but not less than eight days after the plea is entered or the verdict is rendered, unless the defendant consents thereto.

Sec. 13. Section seven hundred eighty-nine point eleven (789.11), Code 1973, is amended to read as follows:
789.11 JUDGMENT ENTERED. If judgment is not deferred, and no sufficient cause is shown why judgment should not be pronounced, and none appears to the court upon the record, judgment shall be rendered. In every case in which judgment is entered, the court shall include in the judgment entry
the number of the particular section of the Code under which the defendant is sentenced.

Sec. 14. PROSECUTION PROHIBITED. The action of any court in deferring judgment or conviction in a criminal case prior to the effective date of this Act is valid. No person previously prosecuted shall be tried, sentenced, or convicted based on the same facts as in a prior prosecution on the grounds that a sentence, conviction, or judgment as a result of that prosecution was deferred, and the defendant was later declared by the supreme court of this state to be unauthorized by law. This section shall not apply to any case in which an appeal was pending on June 1, 1973.

Sec. 15. This section shall take effect July 1, 1974. Section three (3) of this Act is amended to read as follows:

PRESENTENCE INVESTIGATION. Upon a plea of guilty, verdict of guilty, or special verdict upon which a judgment of conviction of any public offense may be rendered, the court shall receive, from the state and from the defendant any information which may be offered which is relevant to the question of sentencing. The court may consider information from other sources, and [may] shall, if the offense is a felony, other a presentence investigation to be made.

The court may withhold execution of any judgment or sentence for such time as shall be reasonably necessary for an investigation with respect to deferment of judgment or suspension of sentence and probation. The investigation shall be made by a probation officer, by the agency in charge of parole agents, or by another appropriate agency, as determined by the court.

Sec. 16. Sections two hundred forty-seven point twenty (247.20) and two hundred forty-seven point twenty-one (247.20), Code 1973, are repealed.
2. By amending the title, page 1 , line 1 , by striking everything after the word "Act" and inserting in lieu thereof the words "relating to sentencing in criminal cases; relating to probation and the conditions thereof; providing a procedure for restitution as a condition of probation; providing a procedure for deferring judgment in particular cases; relating to the conditions of parole; and providing procedures necessary thereto."

## EXPLANATION OF VOTE

I am in favor of Senate File 557. However, package deals by some unknown leaders where the majority of the members have no voice are just not acceptable. I am of the opinion that when a package deal is given, it is in everyone's best interest to open the package.

BYERLY of Polk

## HOUSE CONCURRENT RESOLUTION 67

By Carr, Krause, Caffrey, Byerly, Patchett, Higgins, McCormick, Wells, Cusack, Jordan, Miller of Cerro Gordo, Avenson, Fitzgerald, Monroe, Newhard, Horn and O'Halloran

Whereas, the development of a sound wage collection bill with provision for strict enforcement is essential for the State of Iowa; and

Whereas, when Hilton Homes closed its Guttenberg, Iowa plant last February 23, soon after filing bankruptcy and causing some 200 employees to suffer serious frustration and financial hardship; and

Whereas, at 3 p.m. on payday were told that the company was closing their plant and there would be no paychecks, and the check held back the previous week also would not be good; and

Whereas, the paychecks the employees cashed one week before, began bouncing and these people must make them good wherever they cashed them; and

Whereas, the employees had earned from one to three weeks vacation and may have lost this; and

Whereas, employees learned that their insurance premium, their state and federal taxes, and their union dues had not been paid although all of them had been deducted from their pay; and

Whereas, the plight of the Hilton employee is not unique, as the situation is becoming common as huge industrial conglomerates buy up more and more small firms, Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the Legislative Council be authorized to create a study committee, consisting of six legislative members, three from the House commerce committee, three from Senate commerce committee, and three nonlegislative, nonvoting advisory members to be appointed by the legislative members of the committee with the approval of the Legislative Council. This committee shall determine the necessity for legislation to insure that employees receive proper consideration in the payment of any and all debts of their employer.

Be It Further Resolved, That the study committee shall submit a final report, including necessary bill drafts to implement its recommendations, to the Legislative Council. Copies of the report approved by the Legislative Council shall be submitted to the General Assembly meeting in the year 1974.

Laid over under Rule 25.

## HOUSE CONCURRENT RESOLUTION 68

By Peterson, Schroeder, Stromer, Doyle, and Husak
Whereas, the compensation of county officers is based on hasty surveys and estimates made prior to legislative session, and such surveys usually include only direct compensation without adequate attention to other forms of fringe benefits or increases in the costs of living; and

Whereas, the compensation of county officers is reconsidered only at periodic intervals, and such intervals have not always been related to the need for reconsideration; and

Whereas, the compensation of county officers ranges from thirty to eighty-five percent below the compensation level of other local, state and federal employees who have similar responsibilities and doing the same type of work, Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the Legislative Council appoint a study committee to study all aspects of compensation system for county officers including comparisons with other government employees and private employees having the same or similar responsibilities and alternative methods of establishing compensation levels other than by direct action of the General Assembly. The Legislative Council shall appoint a study committee consisting of ten members, six of whom shall be legislators, three of whom shall be county officers appointed from a list of nominees provided by the Iowa State Association of Counties, and the director of the Iowa Merit Employment Department. Each member of the study committee shall be a voting member.

Be It Further Resolved, That the study committee make periodic reports to the Legislative Council and submit a final report, including necessary bill drafts to implement the recommendations, to the Legislative Council and to the members of the 1974 Session of the Sixty-fifth General Assembly.

Laid over under Rule 25.

CUSACK of Scott

## EXPLANATION OF VOTE

Due to medical appointments, I was absent Friday, June 14. Had I been present, I would have voted "aye" on the following bills: House Files 789, 703, Senate Files 557, 539, 595, 598, 523, and 540. I would have voted "nay" on Senate File 516.

## EXPLANATION OF VOTE

Because of a previous appointment on Friday afternoon, June 15, I was unable to attend the legislative session during that time. Had I been present, I would have voted "nay" on the following amendments: H-784, $\mathrm{H}-809, \mathrm{H}-775$. I would have voted "nay" on Senate File 516 and "aye" on amendment H-776, Senate Files 539, 595, 598, 523, 540, and House File 703.

## MENNENGA of Clinton

## EXPLANATION OF VOTE

I was absent on June 14 and 15 because I attended a meeting of the inter-governmental relations committee of the National Legislative Conference where I had been asked to explain Iowa's position on the new rules relating to Public Law 92-603. Had I been present, I would have voted "aye" on House Files 166, 703, 798, 797 and 801, and Senate Files 570, 414, 476, $516,539,540,595,598$ and 523. I would have voted "nay" on Senate File 557.

Since all but House File 166 and Senate Files 516 and 557 had been through committees of which I am a member, I had an opportunity to act on them. House File 798 and Senate Files 476 and 570 were bills in which I had significant input.

In order to make travel connections, I left the chamber before final action was taken on June 13. I was unable to vote on final passage of Senate File 571 and House File 796. Since I would have voted "nay" on both, my absence reflected my negative vote on each.

LIPSKY of Linn

## EXPLANATION OF VOTE

(Senate File 516)
I voted against Senate File 516 because the ways and means committee amendment was defeated, and because some of the organizations or persons (outside the Legislature) who had agreed to this amendment broke their agreement.

Senate File 516 represents a major concession by the municipal utilities of Iowa in order to aid the passage of House File 609, a bill which is essential to meet lowa's energy needs and provide electric power to Iowa consumers at reasonable rates. The ways and means committee amendment was the final compromise which made it possible to put together a realistic package including House File 609, Senate File 557, and Senate File 516.

The amendment was approved by the ways and means committee with no visible opposition, but opposition suddenly appeared when the bill reached the floor. I would not have voted for Senate File 516 in committee if there had not been general agreement on the ways and means committee amendment, and I believe many other committee members were of the same opinion. After the bill was reported out of committee, some persons outside the Legislature who had agreed to the committee amendment made statements which violated their agreement. It appears that false representations were used to induce the ways and means committee to bring out Senate File 516.

There is a saying, "Fool me once, shame on you; fool me twice, shame on me." I don't intend to be fooled again.

HOUSE CONCURRENT RESOLUTION 69
By Hargrave, Stanley, Logue, Small and Patchett
Whereas, many farmers and landowners in the vicinity of the Iowa River, both above and below the Coralville Dam, have suffered severe and repeated
flooding and serious losses because of changes in the natural river flow caused by the operation of the Coralville Reservoir; and

Whereas, it appears that the federal government has taken or damaged the property of these persons without just compensation; and

Whereas, for ten or more years many of these persons have unsuccessfully attempted to obtain relief, and further delay would be inexcusable; and

Whereas, representatives of the United States Army Corps of Engineers have admitted that many of these persons are entitled to compensation but have stated that the complicated process of studies and reports leading to an eventual appropriation by the United States Congress may take several years; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the Congress of the United States and the United States Army Corps of Engineers are urged to provide without delay just compensation for farmers and property owners in the vicinity of the Iowa River, both above and below the Coralville Dam, who have suffered flooding and damage as a result of the operation of the Coralville Reservoir; and

Be It Further Resolved, That all appropriate officials and agencies of this state are urged to cooperate in supporting and expediting this request for just compensation; and

Be It Further Resolved, That copies of this resolution shall be sent to all members of the United States Congress from Iowa, the United States Secretary of Defense, the United States Secretary of Agriculture, the Secretary of the Army, the commanding officer of the United States Army Corps of Engineers, the Governor of the state of Iowa, and all state officials having responsibilities in the fields of flood protection, land use, natural resources management, and agriculture.

Laid over under Rule 25.

> HOUSE CONCURRENT RESOLUTION 70
> By Mennenga, Brunow, Hutchins, Miller of Calhoun,
> Krause, Rapp, Cochran, Branstad, West, Howell, Middleswart, Butler, Fitzgerald, Crawford, Wulff and Tofte

Whereas, the present property tax system is considered unfair by most people in Iowa because it is a regressive system and the tax rates are too high; and

Whereas, persons owning intangible assets are not taxed, while persons owning tangible assets are taxed at too high a rate; and

Whereas, it has been estimated that over one-half of the total tangible and intangible assets in the categories of agricultural, mercantile, residential, financial and industrial assets are not subject to taxation under the present system; and

Whereas, a person's equity in owned assets, or his net worth determined by substracting liabilities from assets, is a better measure of wealth than the present property tax system; and

Whereas, the recent United States supreme court decision on school financing gives the state legislatures the responsibility to create a more equitable system of financing public schools; and

Whereas, the total tax base would be greatly expanded by including intangible as well as tangible assets, thereby reducing the tax rates; and

Whereas, many economists agree that the main obstacle to a personal or corporation net worth tax is how to audit the records; and

Whereas, because of the above reasons, a net worth tax is a concept worthy of further investigation; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council establish a study committee for the purpose of researching the advisability of implementing a net worth tax, including the advantages offered by modern means of auditing and administering such a tax.

Be It Further Resolved, That the study committee shall consist of legislators representing both houses of the general assembly and both political parties, and nonlegislative members with technical knowledge in the areas of tax research and assessment.
Be It Further Resolved, That the study committee shall make periodic reports to the legislative council and submit a final report, including necessary bill drafts to implement its recommendations, to the legislative council. Copies of the final report approved by the legislative council shall be submitted to the 1974 Session of the Sixty-fifth General Assembly.

Laid over under Rule 25.

Amend the Senate amendment to House File 740 by striking everything after line 3 and inserting in lieu thereof the following:

Sec. 1. Chapter four hundred twenty-seven A (427A), Code 1973, is amended by adding the following new sections:
NEW SECTION. Each taxpayer entitled to the personal property tax credit granted pursuant to sec-
tions four hundred twenty-seven A point one (427A.1)
through four hundred twenty-seven A point five
(427A.5) of this chapter is granted an additional per-
sonal property tax credit against the taxpayer's
assessed value of personal property which would otherwise be taxable in the tax year.

The amount of the credit under this section shall be a fixed amount for each tax year and shall increase
annually through the tax year ending June 30, 1982.
The director of revenue and the state comptroller, jointly, shall determine the amount of the credit for each such tax year. Such amount shall be the maximum amount, rounded to the nearest ten dollars, which will permit complete funding of the replacement obligation under this Act, including the replacement obligation for the tax credit granted pursuant to sections four hundred twenty-seven A point one (427A.1) through four hundred twenty-seven A point five (427A.5) of this chapter, out of the appropriation provided in this chapter.

As used in this Act "tax year" means the year in which taxes are payable.

No application shall be required for the additional personal property tax credit granted by this section. The assessor and county auditor shall take all necessary action to assure that each taxpayer receives the credit.
$N E W$ SECTION. Personal property shall not be listed or assessed after the assessment made as of January 1, 1980. Effective July 1, 1982, all taxes on personal property as defined in section four hundred twentyseven A point one (427A.1) of the Code are repealed. This section shall prevail over all inconsistent statutes.
$N E W$ SECTION. For each annual assessment of personal property through the final assessment as of January 1, 1980, the total assessed value of all personal property in each assessing jurisdiction shall not exceed the total assessed value of all personal property in the assessing jurisdiction as of January 1, 1973, excluding livestock. The assessor shall determine the tentative assessed value of all taxable personal property in accordance with chapter four hundred forty-one (441) of the Code. If the total tentative assessed value exceeds the limitation established by this section, the assessor shall reduce the tentative assessed value of each taxpayer's personal property by the same percentage, so that the total assessed value of all personal property in the assessing jurisdiction shall be equal to the total assessed value of all personal property in the assessing jurisdiction as of January 1, 1973, excluding livestock. This section shall prevail over all inconsistent statutes.

NEW SECTION.

1. A personal property tax replacement fund is established as a permanent fund in the office of the treasurer of state, for the purpose of reimbursing the taxing districts for their loss of revenue from personal property taxes due to the provisions of this chapter, determined as provided in this section.
2. On or before January 15, 1974, the county auditor of each county shall prepare a statement listing for each taxing district in the county:
a. The total assessed value of all personal property assessed for taxation as of January 1, 1973, excluding livestock but including other personal property eligible for tax credits granted by this chapter.
b. The millage rate of each taxing district levied in 1972 and payable in 1973.
c. The personal property tax replacement base for each taxing district, which shall be equal to the amount determined pursuant to paragraph a of this subsection multiplied by the millage rate specified in paragraph b of this subsection.
3. The county auditor shall certify and forward one copy each of the statement to the state comptroller and to the director of revenue not later than January 15, 1974. The director of revenue shall make any necessary corrections and certify to the state comptroller the amount of the personal property tax replacement base for each taxing district in the state, determined pursuant to subsection two (2) of this section.
4. The personal property tax replacement base for each taxing district shall be permanent and shall not be adjusted, except that the state comptroller shall make any necessary corrections and shall make appropriate adjustments to reflect mergers, annexations, and other changes in taxing districts or their boundaries.
5. For each state fiscal year ending on or before June 30, 1982, each taxing district shall be reimbursed from the personal property tax replacement fund in an amount equal to its personal property tax replacement base multiplied by a fraction the numerator of which is the total assessed value of all personal property, excluding livestock, in the taxing district on which taxes are not payable during such fiscal year because of the various tax credits granted by this chapter, and the denominator of which is the total assessed value of all personal property in the taxing district, excluding livestock but including other personal property eligible for tax credits granted by this chapter. For the half year beginning January 1, 1974 and ending June 30,1974 , the amount of reimbursement shall be half the amount determined pursuant to this subsection. The county auditor shall certify and forward to the state comptroller and the director of revenue, at the times and in the form directed by the director of revenue, any information needed for the purposes of this paragraph. The director of revenue shall make any necessary corrections and certify the appropriate information to the state comptroller.
6. For each state fiscal year beginning on or after July 1, 1982, each taxing district shall be reimbursed from the personal property tax replacement fund in an amount equal to its personal property tax replacement base.
7. The amount due each taxing district shall be paid in the form of warrants payable to the respective county treasurers by the state comptroller in two equal
payments on September fifteenth and March fifteenth of each fiscal year. The first payment shall be made on March 15, 1974. The county treasurer shall pay the proceeds to the various taxing districts in the county.
8. It is the intent of the general assembly that the amounts appropriated by this Act shall be sufficient to pay in full the amounts due to all taxing districts. If, for any fiscal year the amount appropriated to the personal property tax replacement fund is insufficient to pay in full the amounts due to all taxing districts, then the amount of each payment shall be reduced by the same percentage, so that the aggregate payments to all taxing districts shall be equal to the amount appropriated for such payments.
$N E W$ SECTION. There is hereby appropriated from the general fund of the state of Iowa to the personal property tax replacement fund the following sums, or so much thereof as may be necessary, to carry out the provisions of this chapter as amended by this Act:

For Fiscal Year 1973-74 1974-75 1975-76

The auditor shall certify and forward one copy each of the statement to the state comptroller and to the department of revenue on or before January 15 of such year. The department of revenue shall have the responsibility of auditing credits allowed in all counties in the state and the assessed values and assessment practices which affect the amounts of credits, and such audit shall be completed within eighteen months from July 1 of the year the claims were filed. A copy of the audit containing disallowed credits shall be sent to

Hargrave of Johnson asked and received unanimous consent to take up for immediate consideration Senate Concurrent Resolution 52 as follows and moved its adoption:

# SENATE CONCURRENT RESOLUTION 52 

By Doderer, Lamborn, Rabedeaux, Riley, Orr and Miller of Des Moines

Whereas, many farmers and landowners in the vicinity of the Iowa River, both above and below the Coralville Dam, have suffered severe and repeated flooding and serious losses because of changes in the natural river flow caused by the operation of the Coralville Reservoir; and

Whereas, it appears that the federal government has taken or damaged the property of these persons without just compensation; and

Whereas, for ten or more years many of these persons have unsuccessfully attempted to obtain relief, and further delay would be inexcusable; and

Whereas, representatives of the United States Army Corps of Engineers have admitted that many of these persons are entitled to compensation but have stated that the complicated process of studies and reports leading to an eventual appropriation by the United States Congress may take several years; Now Therefore,

Be It Resolved by the Senate, the House Concurring, That the Congress of the United States and the United States Army Corps of Engineers are urged to provide without delay just compensation for farmers and property owners in the vicinity of the Iowa River, both above and below the Coralville Dam, who have suffered flooding and damage as a result of the operation of the Coralville Reservoir; and

Be It Further Resolved, That all appropriate officials and agencies of this state are urged to cooperate in supporting and expediting this request for just compensation; and

Be It Further Resolved, That copies of this resolution shall be sent to all members of the United States Congress from Iowa, the United States Secretary of Defense, the United States Secretary of Agriculture, the Secretary of the Army, the commanding officer of the United States Army Corps of Engineers, the Governor of the state of Iowa, and all state officials having responsibilities in the fields of flood protection, land use, natural resources management, and agriculture.

Sec. 1. Chapter four hundred twenty-seven A (427A), Code 1973, is amended by adding the following new sections:

NEW SECTION. Each taxpayer entitled to the personal property tax credit granted pursuant to sections four hundred twenty-seven A point one (427A.1) through four hundred twenty-seven A point five (427A.5) of this chapter is granted an additional personal property tax credit against the taxpayer's assessed value of personal property which would otherwise be taxable in the tax year.

The amount of the additional personal property tax credit shall be a fixed amount for each tax year. The amount of the additional personal property tax credit shall be increased for the extended tax year beginning January 1, 1974 and ending June 30, 1975 and shall be increased for each tax year immediately following a tax year in which the growth of state general fund revenues, adjusted for changes in rate or basis, exceeds five and one-half percent. An increase in the additional
personal property tax credit, once granted, shall continue for each succeeding tax year. For the purposes of this chapter the state comptroller may estimate the state percent of growth if necessary to avoid delay in the collection of taxes. After nine such increases have been made, all taxes on personal property shall be repealed as provided in the following section. The director of revenue and the state comptroller, jointly, shall determine the amount of the credit for each such tax year. Such amount shall be the maximum amount, rounded to the nearest ten dollars, which will permit complete funding of the replacement obligation under this Act, including the replacement obligation for the tax credit
granted pursuant to sections four hundred twenty-seven
A point one (427A.1) through four hundred twenty-seven A point five (427A.5) of this chapter, out of the appropriation provided in this chapter.

As used in this Act "additional personal property tax credit" means the additional personal property tax credit granted pursuant to this section.

As used in this Act "tax year" means the year in which taxes are payable.

No application shall be required for the additional personal property tax credit. The assessor and county auditor shall take all necessary action to assure that each taxpayer receives the credit.
$N E W$ SECTION. Effective on July first after the tax year in which the ninth increase in the additional personal property tax credit becomes effective, all taxes on personal property as defined in section four hundred twenty-seven A point one (427A.1) of the Code are repealed, and personal property shall not thereafter be listed or assessed. This section shall prevail over all inconsistent statutes.
$N E W$ SECTION. For each annual assessment of personal property through the final assessment, the total assessed value of all personal property in each assessing jurisdiction shall not exceed the total assessed value of all personal property in the assessing jurisdiction as of January 1, 1973, excluding livestock. The assessor shall determine the tentative assessed value of all taxable personal property in accordance with chapter four hundred forty-one (441) of the Code. If the total tentative assessed value exceeds the limitation established by this section, the assessor shall reduce the tentative assessed value of each taxpayer's personal property by the same percentage, so that the total assessed value of all personal property in the assessing jurisdiction shall be equal to the total assessed value of all personal property in the assessing jurisdiction as of January 1, 1973, excluding livestock. This section shall prevail over all inconsistent statutes.

NEW SECTION.

1. A personal property tax replacement fund is established as a permanent fund in the office of the
treasurer of state, for the purpose of reimbursing the taxing districts for their loss of revenue from personal property taxes due to the provisions of this chapter, determined as provided in this section.
2. On or before January 15, 1974, the county auditor of each county shall prepare a statement listing for each taxing district in the county:
a. The total assessed value of all personal property assessed for taxation as of January 1, 1973, excluding livestock but including other personal property eligible for tax credits granted by this chapter.
b. The millage rate of each taxing district levied in 1972 and payable in 1973.
c. The personal property tax replacement base for each taxiing district, which shall be equal to the amount determined pursuant to paragraph a of this subsection multiplied by the millage rate specified in paragragh b of this subsection.
3. The county auditor shall certify and forward one copy each of the statement to the state comptroller and to the director of revenue not later than January 15, 1974. The director of revenue shall make any necessary corrections and certify to the state comptroller the amount of the personal property tax replacement base for each taxing district in the state, determined pursuant to subsection two (2) of this section.
4. The personal property tax replacement base for each taxing district shall be permanent and shall not be adjusted, except that the state comptroller shall make any necessary corrections and shall make appropriate adjustments to reflect mergers, annexations, and other changes in taxing districts or their boundaries.
5. For each state fiscal year ending with or before the year in which the ninth increase in the additional personal property tax credit under this Act becomes effective, each taxing district shall be reimbursed from the personal property tax replacement fund in an amount equal to its personal property tax replacement base multiplied by a fraction the numerator of which is the total assessed value of all personal property, excluding livestock, in the taxing district on which taxes are not payable during such fiscal year because of the various tax credits granted by this chapter, and the denominator of which is the total assessed value of all personal property on the taxing district, excluding livestock but including other personal property eligible for tax credits granted by this chapter. For the half year beginning January 1, 1974 and ending June 30, 1974, the amount of reimbursement shall be half the amount determined pursuant to this subsection. The county auditor shall certify and forward to the state comptroller and the director of revenue, at the times and in the form directed by the director of revenue, any information needed for the purposes of this paragraph. The director of revenue shall make any necessary corrections and certify the
appropriate information to the state comptroller.
6. For each state fiscal year beginning after the year in which the ninth increase in the additional personal property tax credit under this Act becomes effective, each taxinig district shall be reimbursed from the personal property tax replacement fund in an amount equal to its personal property tax replacement base.
7. The amount due each taxing district shall be paid in the form of warrants payable to the respective county treasurers by the state comptroller in two equal payments on September fifteenth and March fifteenth of each fiscal year. The first payment shall be made on March 15, 1974. The county treasurer shall pay the proceeds to the various taxing districts in the county.
8. It is the intent of the general assembly that the amounts appropriated by this Act shall be sufficient to pay in full the amounts due to all taxing districts. If, for any fiscal year the amount appropriated to the personal property tax replacement fund is insufficient to pay in full the amounts due to all taxing districts, then the amount of each payment shall be reduced by the same percentage, so that the aggregate payments to all taxing districts shall be equal to the amount appropriated for such payments.
$N E W$ SECTION. There is hereby appropriated from the general fund of the state of Iowa to the personal property tax replacement fund the following sums, or so much thereof as may be necessary, to carry out the provisions of this chapter as amended by this Act. For the fiscal year beginning July 1, 1973 and ending June 30,1974 , there is appropriated the sum of thirtyone million nine hundred thousand $(31,900,000)$ dollars. For the fiscal year beginning July 1, 1974 and ending June 30, 1975, and each succeeding fiscal year, there is appropriated the sum of thirty-five million seven hundred thousand $(35,700,000)$ dollars. For each fiscal year for which an increase in the additional personal property tax credit becomes effective as provided in this Act, the appropriation under this section shall be increased by three million eight hundred thousand $(3,800,000)$ dollars, and such increased appropriation shall continue for each succeeding fiscal year. For the fiscal year for which the ninth increase in the additional personal property tax credit becomes effective as provided in this Act, and for each succeeding fiscal year, the total appropriation shall be sixty-eight million ( $68,000,000$ ) dollars per year.

Sec. 2. Section four hundred twenty-seven A point three (427A.3), Code 1973, is amended by striking everything after unnumbered paragraph one (1).

Sec. 3. Section four hundred twenty-seven A point six (427A.6), Code 1973, is amended to read as follows:

427A. 6 LISTING BY AUDITOR. On or before January 1 of each year, the auditor of each county shall prepare
a statement listing for each taxing district in the county all personal property upon which taxes shall not be collected due to the tax credit granted in this chapter. The statement shall show the tax rates of the various taxing districts and the total amount of taxes which shall not be collected in each district because of the tax credit. The auditor shall certify and forward one copy each of the statement to the state comptroller and to the department of revenue on or before January 15 of such year. The department of revenue shall have the responsibility of auditing credits allowed in all counties in the state[,] and the assessed values and assessment practices which affect the amounts of credits and such audit shall be completed within eighteen months from July 1 of the year the claims were filed. A copy of the audit containing disallowed credits shall be sent to the county auditor, the county treasurer and state comptroller, and such individuals shall be directed to correct their books and records accordingly. The amount of such erroneous credit shall be charged to the county by the state comptroller. The director of revenue shall be authorized and directed to disallow any claim where the audit or investigation revealed that the claimant was not entitled to the credit claimed. Persons and business enterprises may appeal any disallowed personal property credit to the state board of tax review.

Sec. 4. Effective January 1, 1974, sections four hundred twenty-seven A point seven (427A.7) and four hundred twenty-seven A point eight (427A.8), Code 1973, are repealed.

Sec. 5. Section four hundred forty-two point two (442.2), Code 1973, is amended by adding the following new paragraph:

NEW PARAGRAPH. The amount paid to each school district from the personal property tax replacement fund established by this Act shall be regarded as property tax. For budget years beginning after the year in which the ninth increase in the additional personal property tax credit becomes effective as provided in this Act, the portion of the payment which is foundation property tax shall be determined by applying the foundation property tax millage rate to the total assessed value of all personal property assessed for taxation in the district as of January 1, 1973, excluding livestock, but including other personal property eligible for tax credits granted by chapter four hundred twenty-seven A (427A) of the Code as amended by this Act. For budget years to and including the year in which the ninth increase in the additional personal property tax credit becomes effective as provided in this Act, the portion of the payment which is foundation property tax shall be determined by the state comptroller pursuant to uniform methods established by him.

Sec. 6. NEW SECTION. For the purposes of comput-
ing all debt limitations for municipalities, political subdivisions, school districts and taxing districts with respect to any debt incurred or proposed to be incurred after July 1, 1973, the actual value of all personal property as defined in section four hundred twenty-seven A point one (427A.1) of the Code shall not exceed its actual value as of January 1, 1973.

Sec. 6. $N E W$ SECTION. ALLOCATION OF VALUE ADDED INCOME.

1. If the business activities of a taxpayer take place entirely within the state of Iowa, the entire value added income of the taxpayer is subject to the tax imposed by this Act.
2. If the business activities of a taxpayer take place partially within and partially without this state, the value added income derived from or attributable to Iowa sources shall be determined by allocation as provided in this subsection, or by one of the methods provided in subsection three (3) of this section.
a. Rents and royalties from real property located in this state are allocable to this state.
b. Rents and royalties from tangible personal property are allocated to this state to the extent that the property is utilized in this state, or in their entirety if the taxpayer's commercial domicile is in this state.
c. The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payer obtained possession.
d. Interest and dividends otherwise includable in gross income are allocable to this state if the taxpayer's commercial domicile is in this state.
e. Patent and copyright royalties are allocable to this state to the extent that the patent or copyright is utilized by the payer in this state, or to the extent that the taxpayer's commercial domicile is in this state.
f. A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing or other processing in the state or to the extent that a patented product is produced in the state. If the basis of receipts from patent royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent is utilized in the state in which the taxpayer's commercial domicile is located.
g. A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from copyright royalties does not permit allocation to states or, if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the taxpayer's commercial domicile is located.
h. The entire value added income, other than those items specifically allocated under paragraphs a through $g$ of this subsection or by one of the methods provided in subsection three (3) of this section, shall be apportioned to this state by multiplying such value added income by a fraction, the numerator of which is the property factor plus the payroll factor, and the denominator of which is two.
(1) The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned, or rented and used in this state during the taxable year and the denominator of which is the average value of all the taxpayer's real and tangible personal property owned, or rented and used during the taxable year.
(2) Property owned by the taxpayer is valued at its original cost. However, if records of original cost are unavailable or cannot be obtained without unreasonable expense, property shall be valued at original cost as determined under regulations of the director. Property rented by the taxpayer from others is valued at eight times the annual rental rate.
(3) The average value of property shall be determined by averaging the values at the beginning and ending of the taxable year but the director may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property.
(4) The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the taxable year by the taxpayer for compensation, and the denominator of which is the total compensation paid everywhere during the taxable year.
(5) Compensation is paid in this state if the compensable service is performed entirely within the state, the compensable service is performed both within and without the state, but the service performed without the state is incidental to the service within the state or some of the service is
performed in the state and the base of operations or if there is no base of operations, the place from which the service is directed or controlled is in the state, or the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the residence of the person receiving compensation is in this state.
3. If the allocation provisions of subsection two (2) of this section do not fairly represent the extent of the taxpayer's business activities in this state, the taxpayer may petition for or the director may require, in respect to all or any part of the taxpayer's business activities, if reasonable, separate accounting, the exclusion of one of the factors, the inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state, or the employment of any other method to effectuate an equitable allocation or apportionment of the taxpayer's income. The burden of proof that the allocation provisions of subsection two (2) of this section do not fairly represent the extent of the taxpayer's business activities in this state is on the taxpayer if he petitions for a different method, or on the director if he requires a different method.

Sec. 7. NEW SECTION. ACCOUNTING METHOD. A taxpayer's
method of accounting under this Act shall be the same as the taxpayer's method of accounting for federal income tax purposes. In the absence of any method of accounting for federal income tax purposes, taxable value added income for purposes of this Act shall be computed under a method that in the opinion of the director clearly reflects the income. In computing a taxpayer's taxable value added income for any taxable year under a method of accounting different from the method under which the taxpayer's taxable value added income for the previous year was computed, there shall be taken into account those adjustments which are determined, under regulations prescribed by the director, to be necessary solely by reason of the change in order to prevent amounts from being duplicated or omitted.

Sec. 8. NEW SECTION. FILING-ADMINISTRATION-

PENALTIES.

Each taxpayer subject to this division shall file a business activities tax return as prescribed by the director, and shall pay the business activities tax, on or before the last day of the fourth month following the end of the taxpayer's taxable year. However, for taxable years ending before June 30, 1973, the return and tax is not delinquent until November 1, 1973.
A taxpayer shall file the business activities tax return with any return required under divisions two (II), three (III), or five (V) of this chapter, as far as practicable.

As far as applicable, the requirements, penalties, and administrative provisions of sections four hundred twentytwo point twenty (422.20), four hundred twenty-two point twenty-two (422.22) through four hundred twenty-two point thirty-one (422.31), four hundred twenty-two point thirty-
six (422.36), four hundred twenty-two point thirty-seven
(422.37), and four hundred twenty-two point forty (422.40)
of the Code, are adopted and made a part of this division.
Sec. 9. NEW SECTION. DEPOSIT OF FUNDS. The treasurer
of state shall deposit all moneys received from the business activities tax imposed under this division in the personal property tax replacement fund created in section fifteen (15) of division two (II) of this Act.

Sec. 10. NEW SECTION. EFFECTIVE DATE. For taxable years
ending during 1973, this division applies only to that part of the taxable year within 1973. This division applies to all taxable years ending after December 31, 1973.

## DIVISION II.

Sec. 11. NEW SECTION. PERSONAL PROPERTY DEFINED. For
the purposes of this Act, "personal property" means all tangible property other than real property, which is located in the state and subject to taxation, except the following:

1. Machinery described under section four hundred twentyeight point twenty-two (428.22) of the Code.
2. Property centrally assessed by the department of revenue under the provisions of chapter four hundred twenty-eight (428) and chapters four hundred thirty-three (433) through four hundred thirty-eight (438) of the Code.

Sec. 12. NEW SECTION. BONDING BASE. For purposes of determining the property tax base for bonding purposes only. the market valuation of personal property in each taxing district on January 1, 1974, and all succeeding years, shall be the market valuation of personal property in each taxing district on January 1, 1973.

Sec. 13. NEW SECTION. PERSONAL PROPERTY TAX
CREDIT COM-

PUTATION. Commencing in the year 1974, for taxes payable in 1975, each taxpayer is entitled to a credit based upon one hundred percent of the assessed value of his personal property, and each taxing district in the state is entitled to an annual personal property tax replacement payment from the state, based upon the application of the district's property tax rate to its assessed value of personal property. The assessed value of personal property, for the purposes of determining the credit and replacement, in each taxing district shall be determined as provided in this section. The actual value of personal property in each taxing district shall be the amount which is in the same ratio to the assessed value as the actual value of real property is to the assessed value of real property, as provided in section four hundred forty-one point twenty-one (441.21) of the Code.

The assessed value of personal property in each taxing district in 1973 shall be determined as otherwise provided by law. As soon as possible in each succeeding year, the director of revenue shall determine and certify to each county auditor and to the state comptroller the assessed value of personal property in each taxing district, pursuant to the following procedure:

1. Determine a percentage which represents the ratio between the assessed value of personal property and the assessed value of real property in the district in 1973.
2. Multiply the adjusted assessed value of real property in the district for the current year, as determined under chapter four hundred forty-one (441) of the Code, by percentage determined under subsection one (1) of this section. The result is the assessed value of personal property in the district for the current year.

Sec. 14. NEW SECTION. ALLOCATION OF REVENUE-
PAYMENT
OF CREDIT. On or before January 1, 1975, and each year thereafter, the auditor of each county shall prepare a statement listing for each taxing district in the county personal property assessed as of January first of the previous year. The statement shall show the tax rates of the various taxing districts and the total amount of taxes which were not collected for the year 1974 and each year thereafter by reason of the exemption herein granted based upon personal property assessed as of January first of the previous year. The auditor shall certify and forward copies of the statement to the state comptroller and the director of revenue not later than January fifteenth of each year. The director of revenue shall compute the applicable tax credit each year and certify to the state comptroller the amount due to each taxing district, which amount shall be the dollar amount which would be payable if such personal property were taxed, based upon personal property assessed as of January first of the previous year.

The amounts due each taxing district shall be paid in two equal payments by the state comptroller on March fifteenth and September fifteenth of 1975 and each succeeding year, drawn upon warrants payable to the respective county treasurers. The county treasurer shall pay the proceeds to the various taxing districts in the county.

In the event that the amount appropriated for reimbursement of the taxing districts is insufficient to pay in full the amounts due to each of the taxing districts, then the amount of each payment shall be reduced by the state comptroller according to the ratio that the total amount of funds to be paid to each taxing district bears to the total amount to be paid to all taxing districts in the state.

Sec. 15. NEW SECTION. PERSONAL PROPERTY TAX REPLACEMENT
FUND. There is created a "personal property tax replacement fund" in the office of the treasurer of state. The revenues collected from the tax imposed under division one (I) of this Act shall be deposited in the personal property tax replacement fund. In addition, there is appropriated from the general fund of the state for the fiscal year commencing July 1, 1974 and ending June 30, 1975, and each succeeding year, the sum of thirty-eight million $(38,000,000)$ dollars to the personal property tax replacement fund, provided that in all succeeding years, the amount of the appropriation shall be increased in the same ratio that the revenues from the tax imposed under division one (I) of this Act increases over
the previous year.

## DIVISION III.

Sec. 16. Section four hundred four point fifteen (404.15), Code 1973, is amended to read as follows:
404.15 AGRICULTURAL LANDS. No land included within the limits of any municipal corporation which is not laid off into lots of ten acres or less, and which is also in good faith occupied and used for agricultural or horticultural purposes [nor the personal property used in connection therewith] shall be taxable for any city or town purpose, except that said lands [and all personal property necessary to the use and cultivation of said agricultural or horticultural lands,] shall be liable to taxation, not to exceed one and one-fourth mills in any year, for municipal street purposes.

Sec. 17. Section four hundred twenty-seven point three (427.3), subsection five (5), Code 1973, is amended to read as follows:

(435.8), Code 1973, is amended to read as follows:
435.8 RATE OF TAX-PAYMENT-DISTRESS AND SALE. The direc-
tor of revenue shall at the time of assessment determine the rate of tax to be levied and collected upon said assessments, which shall be equal, as nearly as may be, to the average rate of taxes, state, county, municipal, and local, levied throughout the state during the previous year, which rate shall be ascertained from the records and files of the auditor's office, and said tax shall be in full of all taxes except on [real estate, personal] property locally assessed, and special assessments, and shall become due and payable to the department of revenue on the first day of February, following the levy thereof, and if not so paid, the director shall collect the same by distress and sale of any property belonging to such company in the state in the same manner as is required of county treasurers in like cases; and the order of the director in such cases shall be sufficient authority therefor. The director may also bring garnishment proceedings for the collection of such delinquent taxes as provided by section 626.29.

Sec. 27. Section four hundred thirty-six point three (436.3), subsection six (6), Code 1973, is amended to read as follows:

436.7 ACTUAL VALUE-HOW ASCERTAINED. The director
revenue shall first ascertain the actual value of the entire property owned by said company, from said statements or otherwise, for that purpose taking the aggregate market value of all shares of capital stock, in case said shares have a market value, and, in case they have none, taking the actual value thereof or of the capital of said company, in whatever manner the same is divided, in case no shares of capital stock have been issued; provided, however, that in case the whole or any portion of the property of said company shall be encumbered by a mortgage or mortgages, the director shall ascertain the actual value of such property by adding to the market value or the aggregate shares of stock or to the value of the capital, in case there shall be no such shares, the aggregate amount of the market or cash value of such mortgage or mortgages, and the result shall be deemed and treated as the actual value of the property of such company. The director shall, for the purpose of ascertaining the actual value of the property within the state, next ascertain from such statements or otherwise the actual value of the property, both real and personal, owned by the company; and which is used exclusively outside the general business of the company, and also the actual value of that part of its property, if any, without the state which cannot lawfully be considered in determining the mileage value of its route; and the aggregate of such values shall be deducted from the entire
actual value of the property as above ascertained. The director shall next ascertain and deduct the actual value of the sea or ocean routes of any such company, and in ascertaining the same may take into consideration the earnings, both gross and net per mile, of such sea or ocean routes, as compared with the earnings, gross and net, of the land routes of such company, or may ascertain their value in any other practicable manner, and may require that the reports heretofore provided for shall show such earnings. Thereupon the director shall ascertain the actual value of the property of such company within the state, and for that purpose may take into consideration the proportional value of the company's property without and within the state, and shall take as a basis of valuation of the company's property in this state the proportion of the whole aggregate value of the property of said company, as above ascertained, after making the deductions above provided for which the length of the routes within the state bears to the whole length of the routes of such company other than sea or ocean routes, and such amount so ascertained shall be considered and taken to be the entire actual value of the property of such company within the state. From the entire actual value of the property within the state so ascertained, there shall be deducted by the director the actual value of all [real estate, buildings, machinery, appliances, and personal] property not used exclusively in the conduct of the business within the state that [are] is subject to local taxation within the counties, townships, and other assessment districts as hereinbefore described in the sixth subsection of section 436.3.

The county auditor shall immediately thereafter transmit a copy of said order to the councils of cities, or towns, and to the trustees of each township in the county, and shall also add to the value so apportioned the assessed value of the [real estate, buildings, machinery, fixtures, appliances, and personal] property not used exclusively in the conduct of the business situated in any township or taxing district as returned by the assessor thereof, and extend the taxes thereon upon the tax list as in other cases. All such property shall be taxable upon said assessment at the same rates, by the same officers, and for the same purposes as the property of individuals within such counties, townships, or taxing districts. The property so included in said assessment shall not be otherwise taxed.

Sec. 30. Section four hundred forty-one point five (441.5), Code 1973, is amended by striking subsection four (4).

Sec. 31. Section four hundred forty-one point ten (441.10), unnumbered paragraph one (1), Code 1973, is amended to read as follows:

Immediately after the appointment of the assessor, and as such other times as the conference board may direct, the examining board shall cause to be given an examination for the position of deputy assessor in accordance with the procedure used for conducting the examination for the office
of assessor. The director of revenue shall prepare an
examination relating to the qualifications for the duties of the position of deputy assessor. [The director may prepare separate examinations relating to the assessing of real and personal property. The examining board shall indicate to the director whether the examination to be given shall relate to the assessing of real property or personal property or both.]

Sec. 32. Section four hundred forty-one point seventeen (441.17), subsection two (2), Code 1973, is amended to read as follows:
2. Cause to be assessed, in accordance with section 441.21, all the property[, personal and real,] in his county or city as the case may be, except such as is exempt from taxation, or the assessment of which is otherwise provided for by law.

Sec. 33. Section four hundred forty-one point nineteen (441.19), subsection one (1), Code 1973, is amended to read as follows:

1. Supplemental and optional to the procedure for the assessment of property by the assessor as provided in this chapter, the assessor is hereby authorized to require from all persons required to list their property for taxation as provided by sections 428.1, 428.2 and 428.3, a supplemental return to be prescribed by the director of revenue upon which such person shall list his property. Such supplemental return shall be in substantially the same form as now prescribed by law for the assessment rolls used in the listing of property by the assessors[, and the director of revenue may prescribe separate supplemental forms for the listing of personal property, both tangible and intangible.] It shall be the duty of every person required to list property for taxation to make a complete listing of such property upon such supplemental forms and to return the same to the assessor as promptly as possible. Such return shall be verified over the signature of the person making the return and the provisions of section 441.25 shall apply to any person making such return. The assessor shall make such supplemental return forms available as soon as practicable after the first day of January of each year. The assessor shall make such supplemental return forms available to the taxpayer by mail, or at a designated place within the taxing district.

Sec. 34 Section four hundred forty-one point twenty-one (441.21), subsection one (1), unnumbered paragraphs one (1), six (6), seven (7), and eight (8), Code 1973, are amended to read as follows:

All [real and tangible personal] property subject to taxation shall be valued at its actual value which shall be entered opposite each item, and shall be assessed at twenty-seven percent of such actual value, and such value so assessed shall be taken and considered as the taxable value of such property upon which the levy shall be made.

Notwithstanding any other provision of this section, the actual value of any property shall not exceed its fair and reasonable market value.
[The market value of an inventory or goods in bulk shall
be their market value as such inventory or goods in bulk, not their retail or unit price. Such market value shall be fair and reasonable based on market value of similar classes of property.]

In the event market value of the property being assessed cannot be readily established in the foregoing manner, then the assessor may consider its productive and earning capacity, if any, industrial conditions, its cost, physical and functional depreciation and obsolescence and replacement cost, and all other factors which would assist in determining the fair and reasonable market value of the property but the actual value shall not be determined by use of only one such factor. The following shall not be taken into consideration: Special value or use value of the property to its present owner, and the good will or value of a business which uses the property as distinguished from the value of the property as property. Upon adoption of uniform rules and regulations by the state tax commission or succeeding authority covering assessments and valuations of such properties, said valuation on such properties shall be determined in accordance therewith for assessment purposes to assure uniformity, but such rules and regulations shall not be inconsistent with or change the foregoing means of determining the actual, market, taxable and assessed values.

Sec. 35. Section four hundred forty-one point twenty-six (441.26), Code 1973, is amended to read as follows:
441.26 ASSESSMENT ROLLS AND BOOKS. The director of revenue shall each year prescribe the form of assessment roll to be used by all assessors in assessing [real and personal] property [, including moneys and credits,] in this state, also the form of pages of the assessor's assessment book. Such assessment rolls shall be in such form as will permit entering thereon, separately, the names of all persons, partnerships, corporations, or associations assessed; shall contain a form of oath or affirmation to be administered to each person assessed, and shall also contain a notice in the following form:
"If you are not satisfied that the foregoing assessment is correct, you may file a protest against such assessment with the board of review on or after April 16, to and including May 5, of the year of the assessment, such protest to be confined to the grounds specified in section 441.37. Dated day of 19
County/City Assessor."
Such assessment rolls shall be used in listing the property and showing the values affixed to such property of all persons, partnerships, corporations, or associations assessed, which rolls shall be made in duplicate. Said duplicate roll shall be signed by the assessor, detached from the original and delivered to the person assessed if there has been an increase or decrease in the valuation of the property, or upon the written request of the person assessed. [It shall be lawful to combine the affidavit or form of oath or affirmation with reference to real and personal property, and the affidavit or form of oath or affirmation as to moneys and credits, into
one affidavit or form of oath or a affirmation, and only the one such affidavit or form of oath or affirmation shall be sufficient on the assessment roll.] The pages of the assessor's assessment book shall contain columns ruled and headed for the information required by this chapter and that which the director of revenue may deem essential in the equalization work of the director. The assessor shall return all assessment rolls and any schedules therewith to the county auditor, along with the completed assessment book, as provided in this chapter, and the county auditor shall carefully keep and preserve all such rolls, schedules and books for a period of five years from the time of filing [of the same] in his office.

Sec. 36. Section four hundred forty-one point thirty-five (441.35), subsection one (1), Code 1973, is amended to read as follows:

1. To equalize assessments by raising or lowering the individual assessments of [real] property[, including new buildings, personal property or moneys and credits] made by the assessor.

Sec. 37. Section four hundred forty-one point forty-five (441.45), Code 1973, is amended to read as follows:
441.45 ABSTRACT TO STATE DEPARTMENT OF REVENUE.

## The

county assessor of each county and each city assessor shall, on or before the first Monday in July, make out and transmit to the department of revenue an abstract of the real and personal property in his county or city, as the case may be, and file a copy thereof with the county auditor, in which he shall set forth:

1. The number of acres of land and the aggregate actual and taxable values of the same, exclusive of town lots, returned by the assessors, as corrected by the board of review.
2. The aggregate actual and taxable values of real estate in each township, city, and town in the county, returned as corrected by the board of review.
[3. The aggregate actual and taxable values of personal property.
[4. An abstract as to the number and value of all animals as the same are returned by the assessor, showing the aggregate actual and taxable values and number of each kind or class, and such other facts as may be required by the director of revenue.
[5. The aggregate taxable value of the property described in and subject to taxation under section 429.2* owned or held by individuals, administrators, executors, guardians, conservators, trustees or an agent or nominee thereof which was assessed by any such assessor for the year 1965.]

In any case where a board of review continues in session beyond June 1, in any year, under provisions of sections 441.33 and 441.37 the abstract of the [real and personal] property shall be made out and transmitted to the department of revenue within thirty days after the date of final adjournment by said board.

Sec. 38. Section four hundred forty-three point two
(443.2), Code 1973, is amended to read as follows:
443.2 TAX LIST. Before the first day of January in each year, the county auditor shall transcribe the assessments of the several townships, towns, or cities into a book or record, to be known as the tax list, properly ruled and headed, with separate columns, in which shall be entered the names of the taxpayers, descriptions of lands, number of acres and value, numbers of town lots and value, [value of personal property] and each description of tax, with a column for polls and one for payments, and shall complete the same by entering the amount due on each installment, separately, and carrying out the total of both installments. The total of all columns of each page of each book or other record shall balance with the tax totals. The aggregate value of personal property as determined under section twelve (12) of this Act shall be added to the tax list. In any case where in transcribing such assessments any county auditor has heretofore failed or hereafter fails to enter the actual value opposite each item of taxable property on the tax list, then the aggregate actual value, as well as the aggregate taxable value, of all such taxable property within such county and each political or municipal corporation therein shall be transcribed from such books and records of assessment onto such tax list in order that the actual value of the taxable property within each county or other political or municipal corporation therein may be ascertained and shown by the tax list for the purpose of computing the debt-incurring capacity of such county or other political or municipal corporation therein.

Sec. 39. Section four hundred forty-three point five (443.5), Code 1973, is amended to read as follows:
443.5 AGGREGATE VALUATIONS CERTIFIED. At the time
delivering the list to the treasurer, the auditor shall furnish to the director of revenue a certified statement showing separately the aggregate actual and taxable valuations of the [real and personal] property in the county, and also the aggregate amount of each separate tax as shown by the tax list.

Sec. 40. Section four hundred forty-four point two (444.2), Code 1973, is amended to read as follows:

the county auditor and board of supervisors.
Sec. 41. Section four hundred forty-four point three (444.3), unnumbered paragraphs two (2) and three (3), Code 1973, are amended to read as follows:

Provided that the county auditor shall, in computing the tax rate for any taxing district, deduct from the total budget requirements certified by any such district all of the [tax] moneys to be derived from the [moneys and credits and other moneyed capital taxed at a flat rate as provided in section 429.2 and for years commencing with the year 1966 from the] moneys and credits tax replacement fund, as determined by the state comptroller, and shall then apply such rate to the adjusted taxable value of the property in the district, necessary to raise the amount required after the deductions herein provided have been made.
[For years commencing with the year 1966, in computing the amount to be derived from the moneys and credits tax replacement fund the county auditor shall use the amount of the tax to be derived from the property described in and subject to taxation under section 429.2 owned or held by individuals, administrators, executors, guardians, conservators, trustees or an agent or nominee thereof which was used in computing the tax rate in such district for the year 1965, and shall also use the amount of the tax to be derived from the property described in and subject to taxation under section 431.1 for the year 1965 but not subject to taxation under said section for the year 1966, which was used in computing the tax rate in such district for the year 1965.]

A city's tax levy for the general fund may not exceed thirty mills on the dollar of taxable value in any tax year, except for the levies authorized in section ninety-

Amendment $\mathrm{H}-862$ adopted as amended.
The following amendment H-879 was offered by Rapp of Black Hawk and withdrawn:
H-879
1 Amend the Stanley amendment, $\mathbf{H}-862$, to House File
2740 by striking everything after line 3 and inserting in lieu thereof the following:

Sec. 1. Chapter four hundred twenty-seven A (427A), Code 1973, is amended by adding the following new sections:
$N E W S E C T I O N$. Each taxpayer entitled to the personal property tax credit granted pursuant to sections four hundred twenty-seven A point one (427A.1) through four hundred twenty-seven A point five (427A.5) of this chapter is granted an additional personal property tax credit against the taxpayer's assessed value of personal property which would otherwise be taxable in the tax year and each taxpayer is entitled to an additional homestead tax credit which shall be in addition to the homestead tax credit granted under section four hundred twenty-five point one (425.1), subsection four (4) of the Code.

The amount of the additional personal property tax credit and additional homestead tax credit shall be a fixed amount for each tax year. The amount of the additional personal property tax credit and additional homestead tax credit shall be increased for the extended tax year beginning January 1, 1974 and ending June 30, 1975 and shall be increased for each tax year immediately following a tax year in which the growth of state general fund revenues, adjusted for changes in rate or basis, exceeds five and one-half percent. An increase in
the additional personal property tax credit and the additional homestead tax credit, once granted, shall continue for each succeeding tax year. For the purposes of this chapter the state comptroller may estimate the state percent of growth if necessary to avoid delay in the collection of taxes. The director of revenue and the state comptroller, jointly, shall determine the amount of the additional credits for each such tax year. Such amount shall be the maximum amount, rounded to the nearest ten dollars, which will permit complete funding of the replacement obligation under this Act, including the replacement obligation for the tax credit granted pursuant to sections four hundred twenty-seven A point one (427A.1) through four hundred twenty-seven A point five (427A.5) of this chapter, and the additional homestead tax credit out of the appropriation provided in this chapter.

As used in this Act "additional personal property tax credit" means the additional personal property tax credit granted pursuant to this section.

As used in this Act "tax year" means the year in which taxes are payable.

No application shall be required for the additional personal property tax credit. The assessor and county auditor shall take all necessary action to assure that each taxpayer receives the credit.

NEW SECTION. For each annual assessment of personal property through the ninth assessment, the total assessed value of all personal property in each assessing jurisdiction shall not exceed the total assessed value of all personal property in the assessing jurisdiction as of January 1, 1973, excluded livestock. The assessor shall determine the tentative assessed value of all taxable personal property in accordance with chapter four hundred forty-one (441) of the Code. If the total tentative assessed value exceeds the limitation established by this section, the assessor shall reduce the tentative assessed value of each taxpayer's personal property by the same percentage, so that the total assessed value of all personal property in the assessing jurisdiction shall be equal to the total assessed value of all personal property in the assessing jurisdiction as of January 1, 1973, excluding livestock. This section shall prevail over all inconsistent statutes.

NEW SECTION.

1. A personal property tax replacement fund is established as a permanent fund in the office of the treasurer of state, for the purpose of reimbursing the taxing districts for their loss of revenue from personal property taxes due to the provisions of this chapter, determined as provided in this section.
2. On or before January 15,1974 , the county auditor of each county shall prepare a statement listing for each taxing district in the county:
a. The total assessed value of all personal property assessed for taxation as of January 1, 1973, excluding
livestock but including other personal property eligible for tax credits granted by this chapter.
b. The millage rate of each taxing district levied in 1972 and payable in 1973.
c. The personal property tax replacement base for each taxing district, which shall be equal to the amount determined pursuant to paragraph a of this subsection multiplied by the millage rate specified in paragraph $b$ of this subsection.
3. The county auditor shall certify and forward one copy each of the statement to the state comptroller and to the director of revenue not later than January 15, 1974. The director of revenue shall make any necessary corrections and certify to the state comptroller the amunt of the personal property tax replacement base for each taxing district in the state, determined pursuant to subsection two (2) of this section.
4. The personal property tax replacement base for each taxing district shall be permanent and shall not be adjusted, except that the state comptroller shall make any necessary corrections and shall make appropriate adjustments to reflect mergers, annexations, and other changes in taxing districts or their boundaries.
5. For each state fiscal year ending with or before the year in which the ninth increase in the additional personal property tax credit under this Act becomes effective, each taxing district shall be reimbursed from the personal property tax replacement fund in an amount equal to its personal property tax replacement base multiplied by a fraction the numerator of which is the total assessed value of all personal property, excluding livestock, in the taxing district on which taxes are not payable during such fiscal year because of the various tax credits granted by this chapter, and the denominator of which is the total assessed value of all personal property in the taxing district, excluding livestock, but including other personal property eligible for tax credits granted by this chapter. For the half year beginning January 1, 1974 and ending June 30,1974 , the amount of reimbursement shall be half the amount determined pursuant to this subsection. The county auditor shall certify and forward to the state comptroller and the director of revenue, at the times and in the form directed by the director of revenue, any information needed for the purposes of this paragraph. The director of revenue shall make any necessary corrections and certify the appropriate information to the state comptroller.
6. For each state fiscal year beginning after the year in which the ninth increase in the additional personal property tax credit under this Act becomes effective, each taxing district shall be reimbursed
from the personal property tax replacement fund in an amount equal to its personal property tax replacement base.
7. The amount due each taxing district shall be
paid in the form of warrants payable to the respective county treasurers by the state comptroller in two equal payments on September fifteenth and March fifteenth of each fiscal year. The first payment shall be made on March 15, 1974. The county treasurer shall pay the proceeds to the various taxing districts in the county.
8. It is the intent of the general assembly that the amounts appropriated by this Act shall be sufficient to pay in full the amounts due to all taxing districts. If, for any fiscal year the amount appropriated to the personal property tax replacement fund is insufficient to pay in full the amounts due to all taxing districts, then the amount of each payment shall be reduced by the same percentage, so that the aggregate payments to all taxing districts shall be equal to the amount appropriated for such payments.
$N E W S E C T I O N$. There is hereby appropriated from the general fund of the state of Iowa to the personal property tax replacement fund the following sums, or so much thereof as may be necessary, to carry out the provisions of this chapter as amended by this Act. For the fiscal year beginning July 1, 1973 and ending June 30,1974 , there is appropriated the sum of thirty million nine hundred fifty thousand $(30,950,000)$ dollars. For the fiscal year beginning July 1, 1974 and ending June 30, 1975, and each succeeding fiscal year, there is appropriated the sum of thirty-three million eight hundred thousand $(33,800,000)$ dollars. For each fiscal year for which an increase in the additional personal property tax credit becomes effective as provided in this Act, the appropriation under this section shall be increased by one million nine hundred thousand $(1,900,000)$ dollars, and such increased appropriation shall continue for each succeeding fiscal year. For the fiscal year for which the ninth increase in the additional personal property tax credit becomes effective as provided in this Act, and for each succeeding fiscal year, the total appropriation shall be forty-nine million ( $49,000,000$ ) dollars per year.

There is appropriated from the general fund of the state of Iowa to the homestead tax credit fund the following sums, or so much thereof as may be necessary, to provide for an additional homestead tax credit. For the fiscal year beginning July 1, 1974 and ending June 30, 1975, and each succeeding year, there is appropriated the sum of one million nine hundred thousand ( $1,900,000$ ) dollars over and above the amount appropriated under section four hundred twenty-five point one (425.1), subsection one (1), of the Code. For each fiscal year for which an increase in the additional homestead tax credit becomes effective, as provided in this Act, the appropriation under this section shall be increased by one million nine hundred thousand $(1,900,000)$ dollars, and each such increased appropriation shall continue for each
succeeding fiscal year. For the fiscal year for which the ninth increase in the additional homestead tax credit becomes effective, and for each succeeding fiscal year, the total appropriation shall be fifty-nine million (59,000,000) dollars per year. The additional increase in the homestead shall be computed by the state comptroller and the director of revenue in the same manner as the additional personal property tax credit is determined.

Sec. 2. Section four hundred twenty-seven A point three (427A.3), Code 1973, is amended by striking everything after unnumbered paragraph one (1).

Sec. 3. Section four hundred twenty-seven A point six (427A.6), Code 1973, is amended to read as follows:

427A. 6 LISTING BY AUDITOR. On or before January 1
of each year, the auditor of each county shall prepare
a statement listing for each taxing district in the county
all personal property upon which taxes shall not be collected due to the tax credit granted in this chapter. The statement shall show the tax rates of the various taxing districts and the total amount of taxes which shall not be collected in each district because of the tax credit. The auditor shall certify and forward one copy each of the statement to the state comptroller and to the department of revenue on or before January 15 of such year. The department of revenue shall have the responsibility of auditing credits allowed in all counties in the state[,] and the assessed values and assessment practices which affect the amounts of credits and such audit shall be completed within eighteen months from July 1 of the year the claims were filed. A copy of the audit containing disallowed credits shall be sent to the county auditor, the county treasurer and state comptroller, and such individuals shall be directed to correct their books and records accordingly. The amount of such erroneous credit shall be charged to the county by the state comptroller. The director of revenue shall be authorized and directed to disallow any claim where the audit or investigation revealed that the claimant was not entitled to the credit claimed. Persons and business enterprises may appeal any disallowed personal property credit to the state board of tax review.

Sec. 4. Effective January 1, 1974, sections four hundred twenty-seven A point seven (427A.7) and four hundred twenty-seven A point eight (427A.8), Code 1973, are repealed.

Sec. 5. Section four hundred forty-two point two (442.2), Code 1973, is amended by adding the following new paragraph:
$N E W$ PARAGRAPH. The amount paid to each school district from the personal property tax replacement fund established by this Act shall be regarded as property tax. For budget years beginning after the year in which the ninth increase in the additional personal property
tax credit becomes effective as provided in this act, the portion of the payment which is foundation property tax shall be determined by applying the foundation property tax millage rate to the total assessed value of all personal property assessed for taxation in the district as of January 1, 1973, excluding livestock, but including other personal property eligible for tax credits granted by chapter four hundred twenty-seven A. (427A) of the Code as amended by this Act. For budget years to and including the year in which the ninth increase in the additional personal property tax credit becomes effective as provided in this Act, the portion of the payment which is foundation property tax shall be determined by the state comptroller pursuant to uniform methods established by him.

Sec. 6. NEW SECTION. For the purposes of computing all debt limitations for municipalities, political subdivisions, school districts and taxing districts with respect to any debt incurred or proposed to be incurred after July 1, 1973, the actual value of all personal property as defined in section four hundred twenty-seven A point one (427A.1) of the Code shall not exceed its actual value as of January 1, 1973.

EXPLANATION OF VOTE<br>(House File 740)

I was absent from the House chamber when the vote was taken on House File 740. Had I been present, I would have voted "aye."

STEPHENS of Plymouth

## EXPLANATION OF VOTE <br> (House File 775)

Obviously, we are in favor of community colleges. However, this bill is riddled with conflicting languages. It limits "growth" in arts and sciences to five percent (a stay-even provision) yet says in the next section that all programs and campuses must be kept open. There are other sections equally ludicrous. (1) There are no weighted funding provisions. (2) Rather than a calibrated scale, salary increases are now extended for superintendents regardless of the size of the operation. (3) The Senate put in a provision to contract for services. This was already in the Code. (4) etc., etc., etc. Frankly, the bill is a mess!

BYERLY of Polk NIELSEN of Polk

## EXPLANATION OF VOTE

I was absent on June 21, 1973, due to a previously arranged meeting in Marion, Iowa. Had I been present, I would have voted "aye" on the following bills: House Files 156, 703, 740, 776, 782, 792 and 802, and Senate Files 112, 271 and 609; and would have voted "nay" on Senate Files 26 and 578.

JORDAN of Linn

## EXPLANATION OF VOTE

I voted for House File 740 as amended, but with reservations. I dislike this taxing system because of the inequities of tax assessments and because it often does not relate to ability to pay. I also felt the exemption level should be increased to compensate for the declining value of the dollar. Of the amendments offered, those by Representative Rapp which would have increased the exemption on both personal and real property and that by Representative Egenes that would have increased the exemption by $\$ 500$ each year were the concepts I felt would have brought about property tax relief to those taxpayers who carry more than their fair share of the total tax burden.

## HOWELL of Floyd

## EXPLANATION OF VOTE

I voted "Nay" on House File 740, although I favor property tax relief. This bill in my opinion is inequitable since it gives no real relief to small business men, nor does it give any tax relief to the wage earners, elderly or people on fixed income. The refusal of the House to pass legislation that would provide relief to the wage earners, elderly, or people on fixed income is indictment enough for this bill.

This bill also could cause an increase in county taxes.

HOUSE CONCURRENT RESOLUTION 72<br>By Stanley, Holden, Cochran, Hill, Jesse, Knoke and Doyle

Whereas, the Uniform Commercial Code has been in effect in Iowa since July 4, 1966 and has not been extensively reviewed by the Legislature since its adoption by the Sixty-first General Assembly in 1965; and

Whereas, there are a number of variations in the Iowa law from the 1962 Official Text of the Uniform Commercial Code; and

Whereas, there have been a large number of cases decided by the Supreme Court of Iowa and the Courts of other states since the adoption of the Code in 49 of the states; and

Whereas, a 1972 Official Text of the Uniform Commercial Code has been published by the National Conference of Commissioners on Uniform State Laws which contains numerous Official Amendments, particularly to Article 9 dealing with secured transactions; and

Whereas, the Uniform Commercial Code as embodied in chapter 554 of the Code is complex legislation, and the proposed amendments are extensive; and

Whereas, the amendments in question have been adopted in Illinois and are reported to be under consideration in many other states; and

Whereas, uniformity in the law of commercial transactions between the states is highly desirable; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the Legislative Council is authorized to create a study committee, as provided by law, which committee shall include members of the appropriate standing committees of the House of Representatives and the Senate, and shall conduct during the 1973-74 legislative interim a comprehensive study of the desirability of suggested amendments to the Uniform Commercial Code; and

Be It Further Resolved, That the study committee shall include nonlegislative members having special knowledge of the Uniform Commercial Code and that the committee be authorized to retain, if necessary, consultants and assistants, and that a report of the study shall be prepared and submitted to the Legislative Council and members of the General Assembly at the conclusion of the interim and shall be accompanied by legislative bill drafts designed to carry out the recommendations of the committee.

Laid over under Rule 25.

## HOUSE RESOLUTION 12

## By Byerly, Jesse and Nielsen

Whereas, the Iowa statutory procedure for the commitment of persons to mental health institutions has long been in need of revision and modernization; and

Whereas, serious doubts have been raised as to the constitutionality of the present Iowa mental health commitment procedures both in the form of lawsuits challenging their validity and in various legai publications; Now Therefore,

Be It Resolved by the House of Representatives, that the House Committee on Judiciary and Law Enforcement be strongly urged to undertake a study of the Iowa statutory procedure for the commitment of persons to mental health institutions, such study to be conducted during the 1973-

1974 legislative interim, and that the Committee submit a report of their findings to the General Assembly in 1974, which report shall be accompanied by bill drafts designed to carry out the findings of the Committee.

Laid over under Rule 25.

## EXPLANATION OF VOTE

I voted against House File 740, a bill repealing the personal property tax, late in the evening of June 21 for the following reasons:

1. While I strongly favor correcting existing inequities in our tax system, it seems to me that acting on personal property tax alone is to choose a tax the repeal of which will benefit primarily the large manufacturers and not the smaller merchants (not to mention home owners and the working men and women) of my district.
2. I think it highly irresponsible for us to repeal a major source of revenue without finding a suitable, equitable replacement source. At a time of rising costs and increased public demands on governmental services we have taken a step that will cost the state tens of millions within the next few years. We do the taxpayers, future legislatures, and future governors a great disservice by not finding an equitable alternate source of income.
3. We have passed up the perfect opportunity and the perfect handle to press for substantial tax reform measures. The time to help ourselves and the public to see the whole tax reform issue in proper perspective is when a substantial tax repeal measure is before us. Tax repeal is not tax reform. The long range price of last night's action is genuine tax reform which would aid all the people.

## EXPLANATION OF VOTE

Senate File 459 came up rather rapidly at the end of the session. Because of this I did not give it the inspection that I otherwise would have.

Although the intent of the bill is admirable, I am as yet unsure of the tax implication of the bill. For that reason I voted "nay".

OFFICE OF THE GOVERNOR<br>State Capitol<br>Des Moines, Iowa 50319

## The Honorable Andrew Varley

Speaker of the House of Representatives
Sixty-fffth General Assembly
State Capitol
Des Moines, Iowa
Honorable Members of the General Assembly:
The Associated Press, in a wrap-up story on June 25, the day following adjournment, reported that you, the Iowa Legislature, "tackled one of the most ambitious legislative programs ever laid out by an Iowa Governor and in the final analysis passed a wide range of important legislation."

For this record I am grateful and time will establish the gratitude of people all over our State.

What kind of a session was this one?
It was a session that saw more than 1,400 bills introduced in both Houses. Some 316 of these bills were enacted of which 124 will reach my office following adjournment. Therefore, even as this message is delivered to you, a portion of your work product remains for my review.

This was a session that produced much pace-setting legislation for the common good of Iowans-and just as important-rejected proposed legislation which would not have advanced the common good. Both kinds of contributions are beneficial.

In my Inaugural Message of January 11, I stated that "your purpose is not to see how you can advance yourselves either as individuals or as a legislative body; your charge is to do what you can to advance our people and the quality of life in our State."

As we total up the results of this session, there is much evidence that an honest effort was made to live up to that charge.

At the beginning of this session, I found strong support for the three principal priorities that I outlined for Iowa. You can point to accomplishment in all three of these basic and important areas: specific and tangible assistance for our elderly people; a noticeable attack on property tax, and support for well-balanced education in Iowa.

Solid achievements in all of these categories-had you done nothing elsewere of a magnitude great enough to earn for this Assembly a place of honor in Iowa history.

Already the measure providing property tax relief for low income elderly and disabled homeowners and renters has been hailed by many as one of the most important steps toward government responsiveness. This can be truly said, for with this action you have touched the lives of literally thousands of Iowans who have earned our respect and most certainly deserve our support.

Also important, in my judgment, were the ways in which we have continued to move Iowa from a disproportionate reliance on property tax. By shifting the cost of welfare from local property tax rolls to state financing we have again chipped away at the burden of our property taxpayers. And, by accepting proposals for funding and improving Iowa's innovative and progressive school foundation plan, you have made it possible for us to move closer to having more than half of local school financing derived from sources other than property tax.

You have lightened the income tax load for our low income citizens and
you have wisely recognized the benefit to our entire economy as you removed the personal property tax from our important livestock industry.

While we have insisted on the elimination of personal property taxes as the state could afford it, you quickened the cadence by your 10 -year phase-out legislative program. This action prompts two concerns, however: One, the impossibility of forecasting, with assured accuracy, the economic future and two, the lack of a precise definition of personal property.

The second point can be corrected directly by future legislation.
You did provide wisely for a safeguard in the event the economic growth rate does not reach 5.5 percent a year. And, you did prevent the amount to be replaced from over-inflating.

Education is a many-faceted field of high priority. It always attracts controversy and disagreement because everyone has witnessed and experienced some part of it and therefore has an opinion.

In this session, I compliment you for your refusal to slight the importance of education. Education of our people will determine our Iowa of the future.

You have recognized the necessity of providing our young people, regardless of what school they might attend, with what we call auxiliary services. That action is laudatory and I compliment you for it, in spite of the fact that it is being tested in court.

You have provided strong and meaningful help for our students who wish to attend college but would have little choice of schools if it were not for the Tuition Grant program; likewise, you have expressed your approval in a concrete way to our young people who seek vocational and career training to be productive and important citizens of our society.

In addition to keeping faith with our young people in educational funding, you also expressed faith in their ability to respond to adult responsibilities. You promptly went the extra distance with what you had begun a year ago and extended full majority rights to all who are old enough to vote. Already these young adults are demonstrating by their actions that this was the right move.

You also kept faith with those who served their country during the long and painful Vietnam experience. Thanks to a welcome surge in state revenues we are able to fund a Vietnam bonus while assuring taxpayers that no new taxes will fall upon them as a result.

The list goes on with numerous other accomplishments of this session which can honestly be tagged as beneficial to the broad interest of our people.

I think of your action in providing safeguards in TRACIS, the state's new computer system; the Health Maintenance Organization legislation which could have far-reaching impact as we seek to improve the delivery of health services to our people; the consumer protection legislation that regulates the amount charged for credit life insurance, door-to-door sales and the sale of out-of-state land; the improvements in the sweeping court reform of a year ago; election reform and a framework for campaign financing disclosure; the adoption of the Green Belt-Open Spaces concepts and an appropriation to back it up; your willingness to maintain the great strides we have made in Soil Conservancy; the broader coverage under Workman's Compensation; and the enactment of the "bingo bill", a sensible response to a voter mandate when the constitutional amendment was adopted.

You moved also to create an atmosphere of more responsive government, demonstrating your understanding that government is not merely a collection of buildings, it's people. In this session, the Iowa Public Employees

Retirement System (IPERS) was upgraded, and you addressed the issue of more equitable compensation for our judiciary and county officers, and state employees.

This session proved once again that it often takes time for new approaches to win acceptance. A measure I have long advocated but which had faltered in earlier sessions-the establishment of regional correctional services-won favor in both Houses this time. Even as this action demonstrates your willingness to improve our penal system, so does it illustrate that even very sound ideas often have a long road to travel through the legislative process.

There are several proposals that we considered of prime importance which failed to gain passage, but by and large they remain alive, thus avoiding lasting discouragement. I have renewed enthusiasm for their acceptance when you meet again.

Let me reiterate the urgent need we have in Iowa for a unified, coordinated approach to the myriad of problems confronting us in the transportation field. These can best be resolved through a Department of Transportation.

Furthermore, we can no longer ignore the necessity of a sound land use policy with full consideration for protection of our natural resources and the rights of our individuals.

Framework for collective bargaining for public employees on an orderly basis has now made its way through the Senate and you have wisely seen fit to special order this measure for consideration when you meet again.

Although you may not hear from them directly, there will be many young Iowans learning through the process of work as a result of your answering a plea for financing the continuation of our Governor's Youth Opportunity Program when federal funds became no longer available.

Unfortunately, there were not enough of you who also saw the wisdom of giving young people the opportunity to work on the railroads which could have opened a new era of encouragement to maintain branch lines to a number of our smaller Iowa communities.

Also, Iowa cannot afford to overlook the expanding markets for products produced and manufactured in our state. I trust the time will come when there is a firm understanding that jobs, incomes and opportunities are related to the quality of life of our citizens. The wise promotion of Iowa's industry and agriculture abroad can reap tremendous benefits if only we withstand the temptation to submerge ourselves in shortsightedness.

I would be remiss in this message to you if I did not mention to you my concern for the condition of the state budget as a result of actions taken to spend over and above the recommendations made to you in my Governor's budget mesage of January 24 and my supplemental message of April 11. On both occasions, I submitted to you a balanced budget, based on our bestalbeit conservative estimates-of the resources we could expect to safely fund that budget. In most areas you closely followed my recommendations, however, the state comptroller has advised me that there were additional appropriations exceeding my total budget. Fortunately, revenue has continued to increase and because of the safety valve you placed on some of your extra spending, I am hopeful at this time that we will be able to live up to the commitments you have made. However, should the picture change appreciably, I will not hesitate to communicate this information to you along with the appropriate recommendations when you convene in January, 1974.

At the heart of this situation is the factor which has been credited with lengthening the session. I refer to the controversy which svirled over the
move to divert $\$ 30$ million in general tax funds from the budget to the road use fund.

As is to be expected when controversy is resolved by compromise, there are both pros and cons to the final resolution. On the one hand, your decision to divert $\$ 30$ million into the road fund this biennium broke my budget, you nonetheless did cover this action in the second year by providing that the diversion could occur again only in event there was a strong growth in state revenues. Most significant in this final action was the establishment of the principle that after these next two years we will no longer "earmark" these general tax receipts for such special purposes.

This was also a session which marked a debut for many. In the opinion of a number of legislative observers, the Sixty-fifth General Assembly consisted of more energetic, enthusiastic and capable people than any other legislature in history.

The many new people-in both parties-brought a welcome freshness and enthusiasm to your chambers and those who were veteran legislators were treated to the rich experience of watching these new people grow in understanding and ability as the session progressed.

The deliberations-both by those of freshman status and those with prior experience-were marked by much sharp and telling debate, which serves to benefit the democratic process.

As Governor, I admit my tendency to become anxious and impatient for the passage of legislation that I feel would benefit the people of our State.

No matter how true this fact is, it is also true that I am appreciative of the leadership of the legislature and the members of that body who have worked with me and cooperated on a mutually respectful basis to give our people the laws and programs to enhance their living.

So on this day of adjournment, I congratulate you and thank you on behalf of the whole state as well as myself for the many accomplishments made during the first session of the Sixty-fifth General Assembly.

I now look forward to working with you in completing the business that lies ahead for the Sixty-fifth General Assembly.

Sincerely, ROBERT D. RAY Governor

The report was received and the committee discharged.

## REMARKS BY SPEAKER VARLEY

## Speaker Varley made the following remarks:

Six months ago we started the Sixty-fifth General Assembly with the youngest and one of the most inexperienced group of Representatives in recent history. While the session ran longer than any of us anticipated, I believe we can be very proud of our accomplishments during this first session.

You are all aware of the specific bills passed that you feel are most significant. In addition, I believe we are embarking upon a new era of providing ourselves with more adequate and meaningful information for the appropriation's process. During this session, the appropriations committee went into great detail investigating budgets of various departments. Decisions were made on a solid background of information. We are now attempting to establish new tools through the fiscal committee of the Legis-
lative Council to provide a better overview of State Government. The resulting information will help us make better decisions and hopefully to do it in a shorter period of time.

In approximately six months we will be returning for the Second Session of the Sixty-fifth General Assembly as 100 experienced, seasoned legislators. We will return to face many complex and controversial issues. But, we will do it with the knowledge that we have faced controversial issues in the past and come up with solutions that are good for the people of the State of Iowa.

I want to thank you for the opportunity and challenge of serving as Speaker of the House and I especially want to thank you for your help and cooperation. We will all look forward to a productive interim and a successful Second Session.

GOVERNOR'S VETO MESSAGE
July 21, 1973
The Honorable Melvin D. Synhorst
Secretary of State
State Capitol
Local
Dear Mr. Synhorst:
Senate File 178, an Act relating to the issuance of trapping licenses to nonresidents and making the provisions of the Act retroactive, is hereby disapproved and in accordance with Article III, Section 16, Constitution of the State of Iowa, is hereby transmitted to the Secretary of State.

It is understandable why Iowans who are trapping enthusiasts and those Iowans who are interested in the elimination of all trapping might support this bill which would arbitrarily abolish trapping privileges in Iowa for any and all nonresidents.

This bill would create a situation that already exists in many of our surrounding states where there is a total prohibition against nonresident trappers, thereby preventing Iowans from trapping in those states. Those states need to be told that neighborliness is a two-way street. Trade, tourism, and friendly cooperation are all dependent upon a fairness on both sides of a state boundary line. It is no wonder, that in this trapping bill, there is expressed a feeling for retaliatory action by Iowans.

But not all surrounding states have such discriminatory laws regarding trapping. And there is some reason to believe that several of the states with nonresident bans might be desirous of being more equitable in their trapping regulations.

Senate File 178, in my opinion, regresses away from cooperation with our neighboring states. A better approach would be a law that would allow reciprocity for trapping and this I would recommend instead of treating all nonresidents, many of whom are not from states with discriminatory laws, from being welcome in our state.

Reciprocity would allow our state to deal with other states on a fair basis rather than in a retaliatory way.

It should be recognized that this veto is based more on principle than on the impact of this law itself. Only 24 nonresidents have actually sought and obtained trapping licenses in Iowa during the past five years at a fee of $\$ 100$ in comparison to the resident license fee which is $\$ 5$. It would appear that the differential between the resident and nonresident fee in itself has had the effect of preventing any great invasion of persons into lowa to take fur-bearing animals from our rivers and streams.

Dear Mr. Synhorst:
I hereby transmit House File 739, an Act making an appropriation to the Department of Social Services relating to certain institutions administered by the Division of Family and Children Services.

House File 739 is approved July 21, 1973, with the following exceptions which I hereby disapprove.

I am unable to approve that portion of Item 1 designated in the Act as that portion of Section 1, second unnumbered paragraph which reads as follows:
"It is the intent of the general assembly in making appropriations pursuant to this area of family and children services that the moneys available for this area be used to pay salaries and other employee expenses for not more than three hundred and seventythree permanent full-time persons employed during each fiscal year of the sixty-fifth fiscal biennium and that no more than four hundred and six permanent full-time employee positions be created or authorized during any one of such years. A variance of one percent in excess of the above filled positions is considered to be reasonable. However, the figures on the above filled positions do not apply to the appropriations for the operation of the Annie Wittenmyer Home and the establishment of community-based pilot programs authorized under this Act."
I am unable to approve that portion of Item 2 designated in the Act as that portion of Section 2, first unnumbered paragraph which reads as follows:
". . . budget of total expenditures for each institution under the department of social services during the biennium shall not exceed the state appropriation for each institution set forth in this Act, except that the . . .".
For reference purposes, the first unnumbered paragraph of Section 2 in its entirety reads as follows:
"The budget of total expenditures for each institution under the department of social services during the biennium shall not exceed the state appropriation for each institution set forth in this Act, except that the maintenance recovery shall be available to the institutions."
These limitations represent an infringement on executive prerogative to utilize appropriated funds most effectively in the administration of service programs approved by the legislature for the benefit of the people of Iowa.

Section 217.6, Code of Iowa, 1973 charges the Commissioner of Social Services to organize the Department in an efficient manner to carry out the intent of Chapter 217, and to revise the organization and program procedure when appropriate for the purpose of improvement. Since Department employees represent the primary avenue for delivery of services, it is essential that administration be permitted to use manpower with geod
judgment and flexibility, and not be tied to such a rigid structure that it is unable to respond to changes that might benefit our citizens. Congressional action often requires structural change to enable states to use federal funding for necessary services. An example is the requirement for the separate administration of assistance payments from services programs. Locad needs also change and with the clarification of the state-county-employee situation the Department will be expected to respond promptly and effectively to verify requests for services.

Our institutional programs must be constantly evaluated in light of more humane and effective community services to the elderly, to children, families, adult offenders, mentally ill and mentally disabled. Although staffing needs will decrease in some programs, they very clearly will increase in others.

As one illustration, needs for homemakers will increase significantly if the Department meets its service responsibilities to recipients of Supplemental Security Income after January 1, 1974. A significant proportion of our homemakers work part-time, yet a permanent full-time merit position is required for each. The Department expects to reduce the number of administrative positions currently carried in the field, and will need to use the funds saved for lower-paying direct service positions, but may need additional position slots to do so. In some cases, the funds for one administrator might be used for four part-time positions.

In a service agency such as the Department, the key to successful administration is manpower utilization. With the conversion of the adult categorical assistance programs to federal administration, the established tolerance limits for error in the Aid to Dependent Children program, comprehensive institutional planning, and additional phases anticipated in Department reorganization, it is essential that maximum flexibility in manpower utilization be provided.

Section 8.39, Code 1973, gives the Governor and the State Comptroller authority to approve the transfer of appropriations to meet legitimate expenditures.
This has been a wise provision in the Code and has enabled the Department of Social Services to respond to extreme fiscal emergencies without seeking additional revenues from sources outside the Department. This privilege has not been abused, but rather has proven to be a very positive administrative procedure.

For example, when unforeseen expenses were incurred at the Iowa State Penitentiary, because of disturbances, funds were transferred in from other Department sources so that staffing could be increased at Fort Madison to meet emergency needs.

As a general provision, the Department needs the capability for fund transfers to respond to priorities. Some would be of an emergency nature, some would be expected to develop with good planning to better meet critical needs that become more clearly defined with the passage of time. The Department is expected to be action-oriented, capable of responding to change in a positive manner. To do so, it must be able to use appropriated funds with good judgment.

For these reasons, I disapprove these two items in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other Items of House File 739 are hereby approved this date.

Sincerely,
ROBERT D. RAY
Governor

Dear Mr. Synhorst:
I hereby transmit House File 747, an Act making an appropriation to the Department of Social Services for institutions and program administered by the Divisions of Mental Health Services and Mental Retardation Services.

House File 747 is approved July 21, 1973 with the following exceptions which I hereby disapprove.

I am unable to approve that portion of Item 1 (1) designated in the Act as that portion of Section 1, subsection 1, second unnumbered paragraph which reads as follows:
"It is the intent of the general assembly in making appropriations pursuant to this mental health services area that the monies available shall be used to pay salaries and other employees' expenses for not more than 1,536 permanent full-time persons employed for each fiscal year of the sixty-fifth biennium, and that no more than 1,679 permanent full-time employee positions be created or authorized during any one of such years. A variance of one percent in excess of the number of positions specified is considered to be reasonable."
I am unable to approve that portion of Item 1 (2) designated in the Act as that portion of Section 1, subsection 2, second unnumbered paragraph, which reads as follows:
"It is the intent of the general assembly in making appropriations pursuant to this mental retardation services area that the monies available shall be used to pay salaries and other employee expenses for not more than 1,381 permanent full-time persons employed for each fiscal year of the sixty-fifth biennium, including the Woodward farm operation, and that no more than 1,505 permanent full-time employee positions be created or authorized during any one of such years. A variance of one percent in excess of the number of positions is considered to be reasonable."
I am unable to approve those portions of Item 2 designated in the Act as those portions of Section 2, first unnumbered paragraph which read as follows:
". . . budget of total expenditures for each institution under the department of social services during the biennium shall not exceed the state appropriation for each institution set forth in this Act, except that the . . . "and" . . . and the department may transfer funds pursuant to section eight point thirty-nine (8.39) of the Code among the four mental health institutes . . .".
For reference purposes, the first paragraph of Section 2 in its entirety reads as follows:
"The budget of total expenditures for each institution under the department of social services during the biennium shall not exceed the state appropriation for each institution set forth in this Act, except that the maintenance recovery shall be available to the insti-
tutions, and the department may transfer funds pursuant to section eight point thirty-nine (8.39) of the Code among the four mental health institutes."

Dear Mr. Synhorst:
I hereby transmit House File 769, an Act to appropriate from the general fund of the State for capital improvements for institutions under the control of the Department of Social Services, including repairs, improvements, replacements or alterations.

House File 769 is approved July 21, 1973 with the following exception which I hereby disapprove.

I am unable to approve that portion of Item 1 designated in the Act as the final sentence of Section 1 which reads as follows:
"Funds appropriated by this section shall not be used to supplement the construction of new buildings."
This provision places an unrealistic restriction on the Department of Social Services in using capital funds effectively.

While I understand that this sentence was originally inserted to insure that these funds would not be used for new construction at the Iowa Soldiers Home, for which a separate appropriation was eventually made, the wording applies to all departmental institutions. As a consequence, the Department of Social Services could not move forward as planned on high priority construction items if this restriction remains.

We have enjoyed some pride that Iowa is beginning to realize that big buildings that have the effect of imprisoning our handicapped youngsters are not healthy or encouraging to the patients-people who can often be returned to community living if properly prepared.

The cottage-living plan developed for Glenwood is an answer to this problem. Yet, construction on this cottage-living plan at Glenwood could not be constructed if this part of the Act remains. A maximum of five cottages have been planned for this biennium. These cottages are planned to replace living space that is obsolete and in poor repair. No additional bed capacity is to be realized through this effort.

I do not fault the intent of this provision to prevent the development of traditional outdated institutions. Neither can I look away from the human needs of the young people directly affected adversely by this provision
that is so all inclusive that it would completely curtail any new building. If capital expenditures are to be made, the most modern thinking available must be utilized. The cottage program resulted from this kind of planning.

If the cottages are not built, I am advised that it then would be necessary to spend capital funds to maintain old buildings that have outlived their usefulness, and which do not meet many safety inspection requirements. This would be a poor utilization of funds.

For these reasons I hereby disapprove this item in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 769 are hereby approved this date.

Dear Mr. Synhorst:
I hereby transmit House File 780, an Act to make an appropriation from the general fund of the State to the Office for Planning and Programming and Office of Economic Opportunity.

House File 780 is approved July 21, 1973, with the following exceptions which I hereby disapprove.

I am unable to approve that portion of Item 1 (3) designated in the Act as that portion of Section 1, subsection 3 which reads as follows:
". .. for not to exceed seventy-two permanent full-time positions".
I am unable to approve that portion of Item 1 (4) designated in the Act as that portion of Section 1, subsection 4 which reads as follows:
". . .; however, in no event, shall this include more than three additional employees".
I am unable to approve that portion of Item 4 designated in the Act as that portion of Section 4, second unnumbered paragraph which reads as follows:
"If any federal financial grant to any program funded under this Act is discontinued, all state matching grants or participation by state employees in such program shall also be discontinued. Any remaining state matching funds for such program shall revert to the fund from which it was appropriated."
The authorized table of organization for staffing of the Office for Planning and Programming is 88 . Presently the staff is at a strength of 72.

There has been continuous discouragement of having any staff members not essential to the operation of our departments. A department, however, should not be penalized for maintaining its staff at the lowest level needed.

While general increases for staffing in this particular office are not anticipated, experience has shown that there must be sufficient flexibility within
the budget limitations established by the Legislature to effectively plan and react to changing conditions.

Planning by its very nature is future-oriented. Federal planning grants typically follow passage of federal acts that provide stipulations requiring a state plan to be developed in the period of 60 or 90 -or perhaps 180 days. A small nucleus of state planners financed by state appropriation is mainmained in order to react quickly to these and other planning requirements.

In 1969, all 25 positions added to this office were in the last six months of the calendar year with 22 of the newly authorized positions directly related to federal programs. Seven positions were added in 1970, three of which are related to a federal program.

During 1971, of the 24 authorized positions added, 16 were transfers of existing positions to effect more efficient centralized planning. Six positions related directly to new federal programs. Three of these six were under the Emergency Employment Act which proved to be an excellent example of reacting quickly to a new federal program. Drawing upon existing resources and reacting swiftly, three planning positions were established, filled and a State plan put together and implemented promptly. It was one of the quickest and yet one of the best planning efforts in the nation under the Emergency Employment Act.

Fourteen authorized positions were added during 1972, eight of which were by direct action of the General Assembly and three existing positions were transferred in from another department.

It can, therefore, be seen that flexibility in staffing is required in the Office for Planning and Programming even more than in most Executive offices.

I am also disapproving the limitation on staffing for the state building code although I do not disagree that staffing should not grow beyond this limit during this biennium. Rather I have disapproved this Item on the principle that staffing should be an executive prerogative within the budget limitations established by the Legislature.

The third item which $I$ am disapproving would make the administration of federal fund grants unworkable. As explained, hereinbefore, the nucleus of the state planning unit is made up of a skeleton unit of planners funded by state appropriation. These individuals may, during a biennium, work on a dozen or more federal programs. The State appropriated funds are used to meet the matching requirements for federal funds.

An individual senior planner may be paid with state appropriated funds which are used as the matching requirements under several different federal programs.

This may mean that he works 40 percent of his time on a housing project, 20 percent of his time supervising a community betterment program, 25 percent reviewing safety projects and 15 percent reviewing possible new projects.

The 40 percent of his salary related to the housing project may be used to match federal funds on a 25-75 basis with an associate planner and a secretary. If the senior planner received $\$ 15,000$, 40 percent would be $\$ 6,000$ which generates $\$ 18,000$ of federal funds which might pay for an associate at $\$ 11,000$ and a secretary at $\$ 7,000$.

If federal funds were to be cut off for some reason, the associate and the secretary would be let go because of no more federal money. But, the $\$ 6,000$ should be available to the office to continue to pay the salary of the senior planner who must be retained and for possible future match on other projects.

It would be unworkable and terribly inefficient for that money to revert to the general fund.

In administration of state appropriations and programs in general, one of the goals is maximum efficiency in usage of the funds. One technique which has been most beneficial to the taxpayer is that which has been developed relative to matching state appropriated funds to federal funds available for a specific program. Typically, a grant may use 5 percent of the Director's salary and 15 percent of a senior planner to match 100 percent of an associate planner on a 25 percent state, 75 percent federal project. That leaves the other 95 percent of the Director's salary and the remaining 85 percent of the senior planner to be assigned to other programs. Use of this technique provides maximum overall benefit to Iowans at a minimum cost through state appropriations.

Section 7A.3, Code of Iowa 1973, calls upon the Office for Planning and Programming to seek "means of avoiding duplication of activity and of increasing efficiency in programs financed by federal or private aid". These two Items preclude meeting this requirement of the law.
For these reasons, I disapprove these three Items in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 780 are hereby approved this date.

Sincerely,<br>ROBERT D. RAY<br>Governor

Dear Mr. Synhorst:
I hereby transmit House File 802, an Act making an Appropriation to the Department of Social Services and Divisions thereof, for Area Services and for Administration.

House File 802 is approved July 21, 1973, with the following exceptions which I hereby disapprove.

I am unable to approve that portion of Item 1 (1) designated in the Act as that portion of Section 1, subsection 1, second unnumbered paragraph which reads as follows:
". . . for a total of not to exceed one thousand six hundred sixty-five authorized full-time positions of which not more than one thousand five hundred sixty are to be filled at any one time . . .".
I am unable to approve that portion of Item 1 (2) designated in the Act as that portion of Section 1, subsection 2, third unnumbered paragraph, which reads as follows:
". . . for a total of not to exceed five hundred twenty-four authorized full-time positions of which not more than four hundred eighty-one are to be filled at one time . . .".
I am unable to approve Item 2 designated in the Act as Section 2 which reads as follows:
"Sec. 2. A Variance of one percent above the number of filled positions specified in subsections one (1) and two (2) of section one
(1) of this Act is considered to be reasonable."

This limitation represents an infringement on executive prerogative to utilize appropriated funds most effectively in the administration of service programs approved by the legislature for the benefit of the people of Iowa.

Section 217.6, Code of Iowa, 1973, charges the Commissioner of Social Services to organize the Department in an efficient manner to carry out the intent of Chapter 217, and to revise the organization and program procedure when appropriate for the purpose of improvement. Since Department employees represent the primary avenue for delivery of services, it is essential that administration be permitted to use manpower with good judgment and flexibility, and not be tied to such a rigid structure that it is unable to respond to changes that might benefit our citizens. Congressional action often requires structural change to enable states to use federal funding for necessary services. An example is the requirement for the separate administration of assistance payments from services programs. Local needs also change and with the clarification of the state-county-employee situation the Department will be expected to respond promptly and effectively to verify requests for services.

Our institutional programs must be constantly evaluated in light of more humane and effective community services to the elderly, to children, families, adult offenders, mentally ill and mentally disabled. Although staffing needs will decrease in some programs, they will clearly increase in o.thers.

As one illustration, needs for homemakers will increase significantly if the Department meets service responsibilities to recipients of Supplemental Security Income after January 1, 1974. A significant proportion of our homemakers work only part-time, yet a permanent full-time merit position is required for each. The Department expects to reduce the number of administrative positions currently carried in the field, and will need to use the funds for lower-paying direct service positions, but may need additional position slots to do so. In some cases, the funds for one administrator might be used for four part-time positions.

In a service agency such as the Department, the key to successful administration is manpower utilization. With the conversion of the adult categorical assistance programs to federal administration, the established tolerance limits for error in the Aid to Dependent Children program, comprehensive institutional planning, and additional phases anticipated in Department reorganization, it is essential that maximum flexibility in manpower utilization be provided.

For these reasons, I disapproved these three items in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 802 are hereby approved this date.

Sincerely,
ROBERT D. RAY

## Dear Mr. Synhorst:

I hereby transmit Senate File 539, an Act making an appropriation to the Department of Social Services for use of Institutions under the Bureau of Adult Corrections.

Senate File 539 is approved July 21, 1973, with the following exception which I hereby disapprove.

I am unable to approve that portion of Item 2 designated in the Act as that portion of Section 2, first unnumbered paragraph which reads as follows:
". . . budget of total expenditures for each institution under the department of social services during the biennium shall not exceed the state appropriation for each institution set forth in this Act, except that the . . ".
For reference purposes, the first unnumbered paragraph of Section 2 in its entirety reads as follows:
"The budget of total expenditures for each institution under the department of social services during the biennium shall not exceed the state appropriation for each institution set forth in this Act, except that the maintenance recovery shall be available to the institutions".
Section 8.39, Code 1973, gives the Governor and the State Comptroller authority to approve the transfer of appropriations to meet legitimate expenditures.

This limitation represents an infringement on executive prerogative to utilize appropriated funds most effectively in the administration of service programs approved by the legislature for the benefit of the people of Iowa.

This has been a wise provision in the Code and has enabled the Department of Social Services to respond to extreme fiscal emergencies without seeking additional revenues from sources outside the Department. This privilege has not been abused, but rather has proven to be a very positive administrative procedure.

For example, when unforeseen expenses were incurred at the Iowa State Penitentiary, because of disturbances, funds were transferred in from other Department sources so that staffing could be increased at Fort Madison to meet emergency needs.

As a general provision, the Department needs the capability for fund transfers to respond to priorities. Some would be of an emergency nature, some would be expected to develop with good planning to better meet critical needs that become more clearly defined with the passage of time. The Department is expected to be action-oriented, capable of responding to change in a positive manner. To do so, it must be able to use appropriated funds with good judgment.

For these reasons, I disapprove this Item in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other Items of Senate File 539 are hereby approved this date.

Sincerely,
ROBERT D. RAY

Dear Mr. Synhorst:
I hereby transmit Senate File 540, an Act making an appropriation from the general fund of the State to the Iowa Commission on Alcoholism.

Senate File 540 is hereby approved July 21, 1973, with the following exception: I am unable to approve that portion of Item 1 (2) designated in the Act as that portion of Section 1, subsection 2 which reads as follows:
". . ., the following amount not more than fifteen percent of which may be allocated to any one local alcoholism unit or facility".
For reference purposes, Section 1, subsection 2 of the Act reads in its entirety as follows:
"2. For purposes of carrying out the provisions of section one hundred twenty-three $A$ point eight (123A.8) and chapter one hundred twenty-three $B$ (123B) of the Code relating to the treatment of alcoholism, subject to the approval of the governor, the following amount not more than fifteen percent of which may be allocated to any one local alcoholism unit or facility:

1973-74
Fiscal Year
1974-75
Fiscal Year

Once again I find before me an attempt to specifically limit "the amount of financial support that the Alcoholism Commission can provide for an alcoholism or detoxification facility regardless of its success in treating and rehabilitating alcoholics, its record of performance, or its need for existence."

These are words I spoke just two years ago when I item vetoed a part of the Alcoholism Commission appropriation bill.

The Alcoholism Commission appropriation bill which I now sign has the same proviso squeezed into the bill by way of amendment. I find it just as unacceptable now as it was when I felt it necessary to delete it during the last biennium.

There is great variance in the cost of treatment of alcoholics among the various treatment and care facilities. This is as can be expected and should be, because the people treated also vary in physical and mental condition, in background, education and occupation, in social standing and family status and in residence.

Some of our facilities in Iowa offer primarily rehabilitation and counselling while others are involved in management and costly treatment through hospitalization.

These facilities vary in size, depending upon the type of treatment available and the area served.

For the 1973 fiscal year, the number of patients treated ranged from 43 to 1,233 at the Harrison Treatment Center.

While most centers treat mostly patients from their immediate region, serving from one to ten counties, Harrison Treatment Center provided services in 1972 for patients from 73 Iowa counties. During its operation, this center has treated patients from all 99 counties.

Federal funds utilized by the various centers also vary considerably and not necessarily in relation to number of patients or geographic area. Some receive no federal funds at all-others receive a substantial amount.

When we established the statewide alcoholism program for the first time in 1969, our purpose was to make sure that a person from any county, whether it had an alcoholism center in it or not, would have an effective place to go to seek care, relief and treatment for an alcoholic problem.

We are providing that service and I am not willing to allow the limitation that is placed in this bill to jeopardize and make unworkable, without a better alternative, this statewide program that is helping our citizens in distress.

For these reasons, I disapprove this item in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of Senate File 540 are hereby approved this date.

Sincerely,
ROBERT D. RAY
Governor
