As used in this Act 'service in the Vietnam area combat zone' means service in a geographical area for which the various armed forces service departments allowed the payment of combat pay at the time of such service. ## EXPLANATION OF VOTE <br> (House File 656)

Had the Harvey amendment, H-364, to House File 656 been adopted, I would have voted in favor of the bill. The Harvey amendment provided the bonus to the persons who actually served in Southeast Asia. Because of the defeat of the Harvey amendment, I voted against the bill. Veterans of the Vietnam conflict who need governmental assistance need more than this
bill provides. The funds should be used to satisfy these needs rather than to pay a minimal cash bonus to each person who served on active duty between two arbitrary dates.

## HOUSE CONCURRENT RESOLUTION 41 <br> By Dunlap and Middleswart (Hultman and Priebe)

Whereas, the Iowa development commission is the agency designated in the Code to acquaint Iowans with agricultural opportunities in the state and the Iowa department of agriculture is the agency designated in the Code to encourage, promote, and advance the interests of agriculture; and

Whereas, the two agencies have overlapping jurisdiction relating to the promotion of agriculture in Lowa; and

Whereas, in recent years the number of agricultural commodity associa-
tions authorized by law to utilize tax assessments on the first sale of agricultural products to promote the agricultural commodity have increased; and

Whereas, clarification is needed to define the authority of state agencies and commodity associations designated to promote agriculture; Now Therefore

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council establish a study committee for the purpose of defining the authority of state agencies and commodity associations designated to promote agriculture in Iowa in order to establish more unified and better promotion of the agricultural industry in Iowa and to establish a state plan for future promotion of agriculture; and

Be It Further Resolved, That the study committee shall consist of legislators representing both the Senate and the House of Representatives and both political parties; and

Be It Further Resolved, That the study committee make periodic reports to the legislative council and submit a final report, along with necessary bill drafts to implement its recommendations, to the legislative council. Copies of the report accepted by the legislative council shall be submitted to the Second Session of the Sixty-fifth General Assembly meeting in 1974.

Laid over under Rule 25.

# REPORT OF HOUSE COMMITTEE ON APPROPRIATIONS (House File 703) 

## Highway Commission

The committee recommendations are based on the itemized figures contained in the Fiscal Director's worksheets on the Highway Commission, and are placed on file in the office of the Legislative Fiscal Director. These worksheets contain an itemized summary of the committee's recommendations, and shall be forwarded to the Highway Commission.

## Section 1.

Subsection 1. Administration
The committee recommendation does not include the one Training Officer I requested by the Commission. The recommendation does include the addition of one Management Analyst II.
Subsection 2. Finance and Support Services
The committee recommendation does not include the two Clerk II requested by the Commission.
Subsection 3. Planning
The committee recommendation includes the addition of four Planning Aides (grades 3 and 4), instead of the Commission's request for nine Planning Aides (grades 1-4). The committee recommended the addition of one Resources and Program Planner II as requested by the Commission. Also, the committee recommended the addition of four Highway Engineers (grades 1-3), instead of the Commission request for five. The committee recommendation does not include the addition of one Statistical Research Analyst III as requested by the Commission.

Subsection 4. Headquarters
The committee recommendation is for a net increase of one employee for this division.
Subsection 5. Development
The committee recommendation is for the addition of four Highway Engineers (grades 2-3), as requested by the Commission. The committee recommendation does not include the addition of one Clerk Stenographer and one Secretary that were requested by the Commission.

The committee recommendation was for an appropriation of $\$ 1,000,000.00$ for 1973-74 and $\$ 1,000,000.00$ for 1974-75 for design consultant fees. This is a decrease from the Governor's recommendation of $\$ 1,250,000.00$ for 197374 and $\$ 1,265,000.00$ for 1974-75, and reflects the committee's intent that the Highway Commission should concentrate on in-house design rather than relying on outside consultants.

The committee recommendation was for an appropriation of $\$ 7,500.00$ for 1973-74 and $\$ 7,500.00$ for 1974-75 for office furniture and equipment. This is a decrease from the Governor's recommendation of $\$ 13,765.00$ for 197374 and $\$ 9,220.00$ for 1974-75 and reflects the committee's judgment that there should be a replacement schedule of longer than three years.
Subsection 6. Field Operations
The committee recommendation includes the addition of seventeen Bridge Inspectors (grades 1, 2, 3 and one Chief Bridge Maintenance Inspector) and three Rest Area Attendants, and the addition of six Highway Maintenance

Men II. The committee recommendation also includes a decrease of fifty Engineering Aide I.

This recommendation represents a net decrease of twenty-four employees for the Field Operations Division.

Subsection 7. Contingency Fund
The committee recommendation is for an appropriation of $\$ 750,000.00$ for $1973-74$ and $\$ 250,000.00$ for $1974-75$ for the contingency fund. The appropriation for $1973-74$ includes $\$ 500,000.00$ for the purpose of implementing OHSA standards and requirements.

Subsection 11. Merit System Administration
The committee recommendation is for an appropriation of $\$ 125,000.00$ for 1973-74 and $\$ 125,000.00$ for 1974-75. This reflects an increase over the Governor's recommendation of $\$ 100,000.00$ for 1973-74 and $\$ 100,000.00$ for 197475 , which was judged by the committee to be an insufficient amount to cover the costs.

## Highway Beautification Fund

The subcommittee recommendation was for no appropriation for 197374 and an appropriation of $\$ 454,300.00$ for 1974-75.

No appropriation was needed for 1973-74 because a 10 percent bonus from the Federal government was received in connection with the Interstate Highway program, and additional funds obtained through fees and permits genrated enough money to implement the program through 1973-74.

The $\$ 454,300.00$ appropriation for $1974-75$ reflects sufficient funds for implementation of the five year plan for acquisition of highway billboards.

By a vote of $17-15$, the committee voted to delete the appropriation for 1974-75 for the Highway Beautification Fund. This action reflected the committee's view that an appropriation is in violation of an Attorney General's opinion of February 16, 1972, stating that primary road funds cannot be used for purchasing billboards or junk yard sites, or for the screening of the latter.

Discussion in the committee indicated dissatisfaction that the Highway Commission has made no effort to remove billboards that can be removed without purchase by the state.

NEW SUBSECTION. "Special distributor" means a person especially designated by the department to dispense alcoholic liquors, subject to the provisions of this chapter, in such cities and towns as in the opinion of the department there is not sufficient demand for a state liquor store.

Sec. ..... Section one hundred twenty-three point sixteen (123.16), subsection two (2), paragraph d, Code 1973, is amended to read as follows:
d. The establishment or discontinuance of state liquor stores and special distributors.

Sec. ..... Section one hundred twenty-three point twenty (123.20), subsection two (2), Code 1973, is amended to read as follows:

However, no liquor store or special distributor shall be established within three hundred feet of any public or private educational institution, except that local authorities may by ordinance reduce such minimum distance.

Sec. ..... Section one hundred twenty-three point twenty-one (123.21), subsections two (2), three (3), and eight (8), Code 1973, are amended to read as follows:
2. Regulating the management, equipment, and merchandise of state liquor stores and special distributors and warehouses in and from which alcoholic liquors are transported, kept, or sold and prescribing the books and records to be kept therein. This subsection shall apply to special distributors insofar as in the opinion of the department it is deemed necessary for proper regulation and control.
3. The department may, from time to time, as determined by the director, fix the prices of the different classes, varieties, or brands of alcoholic liquor to be sold.
2. In cities and towns where the establishment of a state liquor store, under the provisions of this chapter, does not seem advisable, the department may select a special distributor, who shall have been in business in and a resident of such city or town not less than two years immediately prior to such appointment, to sell alcoholic liquors for consumption off the premises; provided, however, that in no case shall such special distributor be the holder of a class " $B$ " beer permit, nor shall such special distributor be granted such beer permit while being such distributor.
3. Special distributors shall purchase alcoholic liquor for resale from the department only, and shall sell such liquor at prices which are established by the department for sales by state liquor stores. Special distributors who operate another business in the same premises in which alcoholic liquor is kept and sold shall maintain a physically separate portion of such premises for use in storing and selling alcoholic liquor, and persons not of legal age shall be prohibited from such area.
4. At any time, if in the judgment of the department it shall appear advisable, the department may establish a state liquor store in such city or town to replace the special distributor.

## hoUse concurrent resolution 42

By Holden and Cochran
Whereas, large numbers of resolutions have been introduced in both the House of Representatives and Senate calling for interim studies of numerous state functions; and

Whereas, the time period between the First and Second Sessions of the Sixty-fifth General Assembly is not determined and there have been many resolutions submitted calling for studies which resolutions appear to have merit but which resolutions, because of their complexity and number, may call for studies which could not be properly conducted during the next interim period; and

Whereas, there will probably be subcommittees of standing committees which will be studying bills presently before the general assembly which will carry over to the Second Session of the Sixty-fifth General Assembly; and

Whereas, it is impractical to accurately determine during floor debate the amount of hours of staff time required to complete such studies, within the limitations of funds which will be available, and assign precise priorities; Now, Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That all resolutions calling for interim studies by the Legislative Council and by the Legislative Service Bureau which have not been adopted in both houses be delivered to the President pro tempore, on the part of the Senate, and the Speaker of the House, on the part of the House, for consideration by the Legislative Council, which shall determine priorities and
authorize such studies as may be feasible within the limits of the staff, time and funds available.

Laid over under Rule 25.

## REPORT OF HOUSE COMMITTEE ON APPROPRIATIONS (House File 720)

## Conservation Commission-Capitals

The Committee recommendation is for an appropriation of $\$ 3,000,000.00$ for capital improvements for the biennium.

A priority list of proposed uses of the $\$ 3,000,000.00$ as provided by the Conservation Commission is on file in the Legislative Fiscal Director's Office and is accepted by the committee as the way the appropriation will be spent.

## REPORT OF HOUSE COMMITTEE ON APPROPRIATIONS

(House File 721)

## Reciprocity Board

The committee recommendation is for a budget of $\$ 223,200.00$ for 1973 74 and $\$ 231,450.00$ for 1974-75.

From this total, $\$ 145,250.00$ for 1973-74 and $\$ 153,550.00$ for 1974-75 is appropriated for salaries. This allows for the addition of two new Auditors for the biennium. (One new Auditor is to be added at the beginning of fiscal year 1973-74, an additional Auditor to be added after six months of that year, with both continuing the following year.)

This budget anticipates the addition of two new Auditors and the deletion of two Clerk-Typists III, resulting in no increase in the total number of Department personnel.
$\$ 77,950.00$ for $1973-74$ and $\$ 77,900.00$ for 1974-75 is appropriated for travel, office supplies and expense, printing and binding, telegraph and telephone, equipment, and data processing.

Whereas, during each session of the Iowa General Assembly bills are submitted that have as their purpose the removal of the state monopoly over the alcoholic beverage industry; and

Whereas, because of inadequate time during a legislative session to thoroughly research such bills in order to determine the exact effect upon state revenues and the enforcement of alcoholic beverage laws, such bills are not seriously considered; and

Whereas, it appears that the necessary research and hearings required, and the time involved in developing a bill designed to remove the state from being in the alcoholic beverage business, can only be carried out during the interim period between sessions of the General Assembly; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council is urged to create a study committee consisting of members of both parties and houses of the General Assembly for the purpose of studying the state's present liquor system, comparing Iowa's system with that of the various surrounding states, considering the possibility and reasonableness of placing the alcoholic beverage business in the hand of free enterprise and removing the state monopoly of the alcoholic beverage business, and studying such related matters as the committee may deem necessary to compile a comprehensive report; and

Be It Further Resolved, That the study committee specifically determine the economic effects upon the State of Iowa, as well as enforcement of alcoholic beverage law problems that may result, and any other problems which may be present in removing the state from the alcoholic beverage business should the committee find that such would be desirable, and the study committee shall make a report of its findings and any recommended legislation to the legislative council and the session of the General Assembly meeting in the year 1974.

Laid over under Rule 25.

## SENATE CONCURRENT RESOLUTION 27

By Murray, Schwieger, Briles, Gluba, Andersen, Schaben, Van Gilst, Bergman and Robinson

Whereas, the provisions of the federal Hatch Act regarding political activity of federal employees also extend to state and local public employees who are paid wholly or in part out of federal funds, either directly or through grants-in-aid; and

Whereas, the increase in members and extent of federally-funded programs in which the states and local units of government participate results in a larger number of public employees becoming subject to the provisions of the Hatch Act; and

Whereas, restrictions in state laws similar to those in the Hatch Act have been held by state and federal courts to be unconstitutional infringements upon the political rights of public employee citizens, and it is desirable to preserve for these citizens the maximum practicable right to participate in the political life of the nation and the states; Now Therefore,

Be It Resolved by the Senate, the House Conourring, That the Congress of the United States be memorialized to amend the federal Hatch Act by removing from it those provisions which prohibit state and local government employees from exercising the full rights and responsibilities of citizenship and taking an active part in the political life of their nation and state; and

Be It Further Resolved, That the Secretary of the Senate shall cause copies of this memorial to be sent to the presiding officer of the Senate, and of the House of Representatives of the United States and to each member of the Iowa Congressional delegation.

## EXPLANATION OF VOTE <br> (House File 739)

I voted "No" on House File 739 because in my judgment we did not face the critical issue with this appropriation; that is, the purpose in making this appropriation. In my judgment, serious questions have been raised by the subcommittee about the type and quality of care, training and rehabilitation provided at these institutions, and serious questions have been raised about the advisability of maintaining three separate institutions. Further study should be made of the whole of juvenile corrections in the state before the next biennium.

## HOUSE CONCURRENT RESOLUTION 48 <br> By Butler

Whereas, the recent emergency fuel crisis serves as a warning to Iowans of the possible exhaustion of energy resources available to this state; and

Whereas, the involvement of state government in the heating oil business during the fuel crisis indicates the necessity for energy management during the 1970's; and

Whereas, any solution to the current energy crisis in Iowa, including but not limited to, methods of extracting Iowa's vast coal reserves and development of new sources of energy, should assure protection of existing resources of critical concern to this state; and

Whereas, a state energy policy would assure that methods to conserve energy in the near and long-range future are developed in conjunction with the environmental concerns of the people of Iowa, Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council establish a study committee for the purpose of developing a state energy policy that would represent a sound and coordinated effort at conserving energy for use by Iowans while preserving an ecological balance in the state; and

Be It Further Resolved, That the study committee shall consist of legislators representing both the Senate and the House of Representatives and both political parties, as well as non-legislative members with technical knowledge and environmental concerns which would prove helpful in researching the utilization of renewable natural resources to offset the increasing use of energy; and

Be It Further Resolved, That the study committee make periodic reports to the legislative council and submit a final report, along with necessary bill drafts to implement its recommendations, to the legislative council. Copies of the report accepted by the legislative council shall be submitted to the Second Session of the Sixty-fifth General Assembly meeting in 1974.

Laid over under Rule 25.

Sec. .... NEW SECTION. RESTITUTION.

1. As used in this section unless the context otherwise requires:
a. "Victim" means any person who has suffered pecuniary damages as a result of the defendant's crime.
b. "Pecuniary damages" includes any damages which a victim could recover against the defendant in a civil action, except damages for pain and suffering. Without limitation, "pecuniary damages" includes damages for wrongful death.
2. If the trial court exercises either of the sentencing options under section two hundred fortyseven point twenty (247.20) of the Code, the court shall, with the consent of the defendant, require as a condition of probation that the defendant shall make reasonable restitution to all victims who suffered pecuniary damages as a result of the defendant's crime, unless the court finds that no person suffered pecuniary damages as a result of the defendant's crime or that the defendant is not able and will not be able to make any restitution.
3. The court shall hold a hearing to determine the facts pertinent to this section. The court shall give
reasonable notice of the hearing, in the manner determined by the court, to the defendant and to all persons who appear to be victims of the defendant's crime. Notice may be waived by the person entitled to notice or his attorney. If the court finds that one or more victims suffered pecuniary damages as a result of the defendant's crime, and that the defendant may or will be able to make some restitution, the conditions of probation shall include: a. A specific amount of restitution to each victim. b. A reasonable schedule of restitution payments by the defendant. c. A provision for the entry of civil judgment against the defendant and in favor of the victims in an amount equal to the pecuniary damages of each victim, or a lesser amount which the court determines to be reasonable under the circumstances. The specified schedule of restitution payments shall not continue beyond the probation period, but any unpaid part of the judgment shall remain in force. If the defendant refuses to consent to these conditions of probation, the court shall not exercise either of the sentencing options under section two hundred forty-seven point twenty (247.20) of the Code as amended by this Act.
4. The preceding subsection shall not apply, and the court may exercise either of the sentencing options under section two hundred forty-seven point twenty (247.20) of the Code as amended by this Act, if the court finds that no person suffered pecuniary damages as a result of the defendant's crime or the defendant is not able and will not be able to make any restitution.
5. This section and proceedings under this section shall not limit or impair the rights of victims to sue and recover damages from the defendant in a civil action. Rights under the civil judgment entered under this section shall not be exclusive of other rights. However, any restitution payment by the defendant, including any payment on the civil judgment entered under this section, shall be set off against any damages awarded to the victim in a civil action arising out of the same facts or event.

Section 1. NEW SECTION. At the time a court suspends or defers a sentence and grants probation under section two hundred forty-seven point twenty (247.20) of the Code, or at the time a person has been found guilty of any crime, except a violation of the provisions of chapter three hundred twenty-one (321) of the Code, and before the convicted person begins the sentence imposed, the court may order the convicted person to make restitution to any victim of the crime, other than the state, or a state subdivision, or an insurance carrier for actual losses or any part thereof and in a manner the court deems reasonable and just. A restitution order may be entered only where the victim has petitioned the court for a restitution order and a hearing before the court without a jury has been held, giving sufficient notice to the defendant and giving both parties and their witness an opportunity to be heard. At the hearing the court shall admit as competent evidence or take judicial notice of all facts and circumstances proven by competent evidence or admitted by the defendant at the trial on the criminal charge, including a finding of guilty, and the defendant is estopped from denying such facts and circumstances, proven or admitted. The hearing shall be for the purpose of proving that the crime for which the defendant was convicted was the proximate cause of actual losses suffered by the victim of the crime and proving the nature and the extent of the victim's actual losses.

Sec. 2. NEW SECTION. Any restitution order entered under this Act may be enforced by execution or garnishment and shall be binding upon the defendant's insurance carrier if the carrier is ultimately liable for the damage caused by the defendant. Restitution from disposable earnings shall not exceed the amount disposable earnings are exempt from garnishment, except that the two hundred
fifty dollar limitation shall not apply to courtordered restitution under this section.

Sec. 3. NEW SECTION. Upon its own motion or the victim's motion, the court may find a defendant in contempt of court for intentional and willful failure to comply with the restitution order.

1. Except as otherwise provided in subsection two (2) of this section, the actual value and taxable value of all real estate shall be determined as if all repairs and maintenance had been performed in accordance with customary standards of prudent property management in this state. The actual value of real estate and of each building shall be equal to and shall not exceed the amount which its market value as defined in section four hundred forty-one point twenty-one (441.21) of the Code would be if all repairs and maintenance had been performed in accordance with such standards. The actual value and taxable value shall not be reduced due to any failure to perform repairs and maintenance, even though such failure reduces the value of the property. The actual value and taxable value of real estate shall not be increased due to repairs and maintenance, if the actual value and taxable value have been determined as provided in this section. It is the intent of this section that property owners shall not be permitted to realize a tax benefit by failing to perform repairs and maintenance, and shall not be penalized because of performing repairs and maintenance. This section shall be applied and administered to carry out this intent.
2. However, subsection one (1) of this section shall not apply for any year to the taxpayer's homestead as defined in section four hundred twenty-five point eleven (425.11) of the Code if the taxpayer is eligible for and properly claims a homestead tax credit for the year. Subsection one (1) of this section shall not apply to agricultural property which is assessed as such under section four hundred forty-one point twenty-one (441.21) of the Code.

## 467B

3. In any year during which subsection one (1) of this section does not apply to a building, the first five hundred dollars of repairs and maintenance to the building performed during that year shall not increase the actual or taxable value of the building. This provision shall continue to apply for each year during which subsection one (1) of this section does not apply to the building. However, if the building becomes subject to subsection one (1) of this section, or if the taxpayer ceases to own the building, this subsection shall no longer apply to repairs and maintenance performed before such event, and the property shall be revalued. Transfer of ownership to the taxpayer's spouse, as a result of death or otherwise, shall be regarded as a continuation of the same ownership and not as a cessation of ownership."

## HOUSE CONCURRENT RESOLUTION 52 <br> By Bortell and Daggett

Whereas, there is an increasing degree of livestock thefts in Iowa and many persons are suffering economic loss because of such thefts; and

Whereas, the use of modern technology by criminals engaged in livestock thefts has made the apprehension of such persons more difficult than in the past and this appears to require a change in methodology in order to apprehend persons stealing livestock or prevent or make it more difficult to commit such thefts or place stolen livestock into commerical channels; and

Whereas, a number of proposals have been made by individuals and groups designed to prevent the theft of livestock or apprehend persons engaged in stealing livestock but no comprehensive coordinated plan has been
suggested because of the inability of concerned persons to meet through formal channels and develop a comprehensive plan, Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council is urged to create a study committee composed of members of both houses of the general assembly representing the two political parties, as well as knowledgeable citizens deemed necessary, to carry out a study for the purpose of making recommendations and drafting legislation designed to prevent the theft of livestock, apprehend persons engaged in the theft of livestock, make it difficult to place stolen livestock in commercial channels, and promote interstate cooperation between states in accomplishing these goals; and

Be It Further Resolved, That the study committee consider, but not necessarily be limited to, a review of penal laws relating to thefts of livestock, branding laws or other laws designed to provide a method for identification of livestock, laws relating to the movement of livestock in intrastate and interstate commerce, laws relating to the sale of livestock and methods for improving commercial procedures relating to the sale of livestock, and such other areas of law which might aid in preventing the sale of or preventing stolen livestock; and

Be It Further Resolved, That the study committee make a report of its findings, accompanied by necessary legislation, to the legislative council and the general assembly in the manner provided by the legislative council.

Laid over under Rule 25.

## ADOPTION OF SENATE CONCURRENT RESOLUTION 12

Kreamer of Polk asked and received unanimous consent to take up for immediate consideration House Concurrent Resolution 16, filed on February 8, 1973, and reported out of committee on appropriations on May 17, 1973, and asked and received unanimous consent that Senate Concurrent Resolution 12 be substituted for House Concurrent Resolution 16 as follows:

## SENATE CONCURRENT RESOLUTION 12 <br> (By Committee on Higher Education)

Whereas, chapter two hundred sixty-three A (263A), Code 1973, provides that the state board of regents after authorization by a constitutional majority of the General Assembly may carry out any project as defined in that chapter of the Code at the state university of Iowa; and

Whereas, chapter two hundred sixty-three A (263A), Code 1973, authorizes the state board of regents to borrow money and to issue and sell negotiable bonds or notes to pay all or any part of the cost of carrying out such projects at the institution payable solely and only from and secured by an irrevocable pledge of a sufficient portion of the University Hospital Income; and

Whereas, many of the facilities of the hospitals at the state university of Iowa were built between forty and fifty years ago and are inadequate to meet present and future demands for statewide medical and teaching services; and

Whereas, said inadequacy exists in operating room facilities which are located in several different areas at the university hospitals and are not designed for today's advanced surgical techniques and workload of more than fifteen thousand operations annually; and

Whereas, present space available for radiological services, one of the most important fields in modern medicine, is less than that recommended by the U. S. Public Health Services for a prototype hospital of five hundred beds although the university hospitals have eleven hundred ninety-two beds; and

Whereas, the out-patient clinical facilities are located in widely separated areas of the hospitals and seriously encumber the ability of the clinical
specialists to handle almost one-quarter million patient visits annually and concentration of these services in a single area will greatly facilitate services to patients and training for family practice, and improve efficiency; and

Whereas, twenty percent or two hundred forty of the beds serving annually more than thirty-three thousand in-patients are located in large sixteento twenty-bed wards and do not meet the standards established for Medicare patients or the demands by private patients and, further, detailed studies have shown that remodeling these existing large wards into smaller units would be prohibitively costly and create insurmountable problems in teaching; and

Whereas, to alleviate these conditions, the state board of regents requests authorization to construct an eight-story addition of one hundred sixtyeight thousand gross square feet north of the general hospital, to house an operating room suite and facilities, a diagnostic radiology section, outpatient clinic and in-patient facilities for eighty beds, at an estimated total cost of thirteen million nine hundred thousand dollars ( $\$ 13,900,000$ ) of which not more than ten million dollars ( $\$ 10,000,000$ ) would be financed by borrowing under the provisions of chapter two hundred sixty-three $A$ (263A), Code 1973, and the remainder to be financed by other funds; Now Therefore

Be It Resolved by the Senate the House Concurring, that the state board of regents be and is hereby authorized to construct an addition of one hundred sixty-eight thousand gross square feet of floor space, more or less, to the general hospital of the state university of Iowa to house an operating room suite and facilities, a diagnostic radiology section, out-patient clinic, and in-patient facilities at an estimated cost of thirteen million nine hundred thousand dollars ( $\$ 13,900,000$ ) of which not more than ten million dollars ( $\$ 10,000,000$ ) would be financed by borrowing authorized by the provisions of chapter two hundred sixty-three A (263A), Code 1973.

## EXPLANATION OF VOTE

(House File 767)
I voted a reluctant "aye" on House File 767. I did because I agree with the need to do something about railroads and not because I agree with the
botched up administrative mess and boondoggle that the Governor and the Office of Programming and Planning presented us in bill form.

In my opinion, this so-called solution is poorly conceived, poorly implemented, and will do nothing but help pull the wool over the eyes of the people of Iowa as to the real inaction of our state in the field of rail transportation.

If this is the best solution that the O.P.P. can come up with, I don't think that they deserve one red cent in future appropriations.

Any election or registration records which may be in the possession of a contractor shall remain the property of the commissioner.

amended by adding the following new section:
NEW SECTION. REGISTRATION THROUGH DRIVER'S
LICENSE
APPLICATION. Every person who applies for an instruc-
tion permit or for an operator's or chauffeur's license or temporary drivers permit in the manner prescribed by section three hundred twenty-one point one hundred eighty-two (321.182) of the Code, shall be deemed to have thereby applied to be registered to vote, if eligible, unless the applicant signs a statement which shall be provided on the application form to the effect that he does not desire to be registered to vote in this manner, in which case the requirements of subsections one (1) through four (4) of this section shall not apply. The method of voter registration established by this section shall be an alternative to other methods of voter registration provided by this chapter.

1. The applicant shall, in addition to supplying the information required by section three hundred twenty-one point one hundred eighty-three (321.183) of the Code, supply on the application form information required by section forty-eight point six (48.6), subsections seven (7) through eleven (11), inclusive, of the Code, of persons registering to vote, and shall be given a written statement acknowledging receipt of his application to be registered to vote which shall show the date the application was made. He shall also receive in writing a statement in substantially the following form: "You are advised that by law the county commissioner of elections is allowed fifteen days to complete your registration to vote after he receives your application. If there is an election in the next thirty days in which you wish to vote, it is suggested that you register by ordinary voter registration procedures." The department of public safety may not maintain for more than thirty days records of the information provided by applicants, other than the information required by section three hundred twenty-one point one hundred eighty-three (321.183) of the Code.
2. A copy of the application, including all information supplied thereon by the applicant which is needed to comply with section forty-eight point six (48.6) of the Code and a copy of the applicant's handwritten signature, shall be promptly provided by the department of public safety to the commissioner of registration of the county in which the applicant resides. The commissioner shall use the information appearing on the application to determine whether the applicant is registered to vote at the residence listed on his application, and if not, to register the applicant.
3. If the applicant is found to be an eligible elector who is not currently registered to vote at
the residence listed on his application, the commissioner of registration shall, not more than fifteen days after he receives the copy of the application, register the applicant and mail to him a receipt of registration as required by section forty-eight point six (48.6) of the Code. If the applicant is found to be an eligible elector in all respects except that he has not attained the age of eighteen, the commissioner of registration shall register him effective upon his eighteenth birthday and shall affix a date to the receipt which date shall be the applicant's eighteenth birthday and the receipt mailed to him shall state on its face that the applicant is registered and qualified to vote in any election held on or after that date.
4. If the commissioner is not satisfied that the applicant is an eligible elector of the precinct in which the residence listed on his application is located, or if for any reason the information supplied on the application is not sufficient to complete the applicant's registration to vote, the commissioner of registration shall, not more than fifteen days after he receives the copy of the application so notify the applicant by restricted certified mail and advise the applicant in the notice where he may appear in person if he wishes to present evidence of his status as an eligible elector, or in order to complete his registration. If the applicant is found to be a currently registered voter, but at a residence other than that listed on his application, the commissioner shall treat the application as a change of address notice and shall, in not less than fifteen days after he receives the copy of the application so notify the applicant by ordinary mail. If the applicant is found to be a currently registered voter at the residence listed on his application, the commissioner shall within fifteen days after he receives the copy of the application so notify the applicant by ordinary mail.

HOUSE CONCURRENT RESOLUTION 53<br>By Krause, Howell, Readinger, Ewing, Branstad, Hutchins, Hennessey, Caffrey, Harvey, Knoke, Rapp, Brinck, Harper, Ferguson and Brunow

Whereas, railroad service is continuing to decline throughout Iowa; and
Whereas, railroads are crucial to the economic well-being of Iowa; and
Whereas, railroads properly utilized in an overall transportation system could greatly reduce the amount of fuel needed to transport grain and freight; and

Whereas, action by a group of businessmen to purchase a branch railroad line from Hills, Iowa to Montezuma, Iowa suggests that new legislation could be useful to encourage additional business activity of this nature; and

Whereas, many sections of the Code of Iowa relating to railroads have been superseded by federal law or are obsolete, and thus cause confusion and misunderstanding; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the Legislative Council is authorized to create a study committee, as provided by law, which committee shall include members of the appropriate standing committees of the House of Representatives and the Senate, to conduct a comprehensive study of Iowa law relating to the regulation of railroads for the purpose of removing obsolete regulations, conforming Iowa law to federal law or regulations, and recommending new legislation to improve railroad service in this state; and

Be It Further Resolved, That the study committeee make periodic reports to the Legislative Council and submit a final report, along with necessary bill drafts to implement its recommendations, to the Legislative Council and the 1974 Session of the Sixty-fifth General Assembly.

Laid over under Rule 25.
REPORTS OF HOUSE COMMITTEE ON APPROPRIATIONS
(Senate File 542)
The committee's recommendation is for an appropriation of $\$ 978,000$ for 1973-74 for school food service assistance.

The appropriation is for the purpose of providing assistance to students enrolled in public school districts for breakfast, lunches, and minimal equipment programs.

An average number of 393,671 lunches per day are served at public schools.

The matching formula is outlined in federal regulation. The federal government contributes approximately eight cents for each lunch served, and the state approximately one-third cent. The average price paid by the student for each lunch is thirty-eight cents.

The committee's recommendation does not fund the program for nonpublic schools.

## (Senate File 558) <br> State Historical Society

## AMENDMENTS FILED

## H-573

1 Amend House File 533 as follows:
2 1. By striking all after the enacting clause and inserting in lieu thereof the following:

Section 1. NEW SECTION. The board of supervisors of any county, when so requested by a petition signed by at least twenty-five percent of the resident owners of real property located in the county and outside the boundaries of any incorporated city, shall call a hearing on the question of providing ambulance service to the unincorporated areas of the county in the manner prescribed by this Act. The hearing shall be set for a date not more than twenty days after presentation of the petition. Notice of the hearing shall be given by publication in two successive issues of any newspaper of general circulation in the county, the last publication to be made not less than one week before the day fixed for the hearing.

Sec. 2. NEW SECTION. On the day fixed for the hearing, the board of supervisors shall afford any resident of the unincorporated portion of the county an opportunity to be heard for or against the proposal to provide ambulance service to the unincorporated
portion of the county in the manner prescribed by this Act. At the conclusion of the hearing, the board shall either direct the county commissioner of elections to hold a special election on the proposal on a date not more than thirty days thereafter, or dismiss the petition. However, the board may for adequate reasons defer action on the petition for not more than ten days after the date first set for the hearing.

Sec. 3. NEW SECTION. A special election on the proposal to provide ambulance service to the unincorporated portions of the county shall be conducted as provided by chapter forty-nine (49) of the Code, insofar as its provisions are applicable to special elections, and may be held concurrently with any other election which is scheduled to be held within the specified time. All qualified electors residing in the unincorporated portion of the county shall be entitled to vote on the question. A simple majority of the votes cast for or against the proposal to provide ambulance service to the unincorporated portions of the county shall be sufficient to approve the proposal.

Sec. 4. NEW SECTION. When the county board has been authorized by a special election to provide ambulance service to the unincorporated areas of a county, it must provide the service for all unincorporated areas in the county. The board shall undertake to do so as soon as reasonably possible after the election by entering into a contract or contracts with one or more cities located in the county, or an adjacent county, for extension of ambulance service maintained by the city or cities to the unincorporated territory of the county. If the board enters into two or more such contracts concurrently each contract shall specify what part of the unincorporated area of the county is to be served under that contract, however the contracts may provide that an ambulance service which is responsible for one part of the county shall respond to a call in another part of the county if the ambulance service responsible for the latter part of the county is for any reason unable to respond to the call or if additional ambulances are needed to respond to any call.

Sec. 5. NEW SECTION. If a county board of supervisors which is authorized to provide ambulance service pursuant to this Act finds it appropriate for ambulance service to be provided for all or a portion of the unincorporated area of the county through a city which obtains ambulance service by contract with a private or other ambulance service not operated by the city, the county board may contract with the city for ambulance service to be provided for the designated unincorporated area by the same service with which the city contracts. The contract between the county board and the city shall require that the cost of the ambulance service provided to the unincorporated area shall be
paid initially by the city and treated as a part of the total cost to the city of ambulance service, for the purpose of section six (6), subsection one (1) of this Act.

Sec. 6. NEW SECTION. A county board which is authorized to provide ambulance service pursuant to this Act may annually levy a tax upon all taxable property in the county which is located outside the boundaries of any incorporated city, in order to pay the cost of providing the service. The levy so made shall not exceed an amount computed as follows:

1. Determine the anticipated total cost of ambulance service to the city, during the budget year for which the county levy is to be made, to each city with which the county board has a contract under section four (4) of this Act. The total cost of ambulance service to the city shall include the cost of answering ambulance calls from the unincorporated area served under the contract with the county, and may include payments made toward retirement of any debt incurred for purchase of an ambulance or ambulance equipment or amortization of the cost of an ambulance or ambulance equipment owned by the city. If a city contracts for ambulance service as contemplated by section five (5) of this Act, the total cost to the city of maintaining ambulance service shall be the total amount which the contracting city is obligated to pay to the ambulance service during the budget year for which the county levy is to be made. In case any city has a contract for ambulance service on a fee per call basis, the amount used shall be that paid by the city under that contract or a comparable one in the most recent complete budget year or the estimated cost for the first year of service under the contract if the city has not had a comparable contract in either of the two most recent previous budget years, plus, for the first year of any contract between the city and the county drawn up under section five (5) of this Act, such additional amount as the board of supervisors and the city council agree fairly represents the added cost likely to be incurred due to calls for ambulance service in the unincorporated area to which service is to be extended.
2. Divide the anticipated total cost of ambulance service to the city, determined as prescribed in subsection one (1) of this section, by the total population of the city and the unincorporated area served under the contract between the county board of supervisors and the city to determine the per capita cost of ambulance service, which shall then be multiplied by the population of the city alone to obtain the anticipated adjusted cost of ambulance service to the city. The difference between the anticipated total cost of ambulance service to the city and the anticipated adjusted cost of ambulance service to the city is the anticipated cost of providing ambulance service to the unincorporated area. If a city has contracted
under this Act with more than one county board of supervisors, the per capita cost of ambulance service determined under this subsection shall be used to establish a separate anticipated cost of providing ambulance service to the respective unincorporated areas of each county involved. If the county has two or more concurrent contracts for ambulance service to be provided to various parts of the county under this Act, each contracting city's anticipated cost of providing ambulance service to the unincorporated area within the county served by that city shall be totaled, and the sum shall constitute the anticipated cost of providing ambulance service to the unincorporated area for the purpose of subsection three (3) of this section.
3. The maximum levy under this section shall be that millage which, when applied to the assessed value of all taxable property in the county which is located outside the boundaries of any incorporated city, will raise an amount equal to the anticipated cost of providing ambulance service to the unincorporated area, determined in the manner prescribed by subsection two (2) of this section.

Sec. 7. NEW SECTION. As used in this Act, "city" has the meaning assigned that term by Acts of the General Assembly, 1972 Session, chapter one thousand eighty-eight (1088), section two (2), subsection one (1).
2. Page 1, by striking all of line 1 after the word "to" and all of line 2 and inserting in lieu thereof the words "providing ambulance service to unincorporated areas, and authorizing a levy therefor."

Whereas, various methods of financing special education programs have been presented during the last several years; and

Whereas, section two hundred eighty-one point eleven (281.11) of the Code provides an open-end appropriation for reimbursement to school districts, county boards of education, and joint county boards for expanded special education programs; and

Whereas, there has been a basic change in school finance from general aid to the foundation program; and

Whereas, it is presently less difficult to identify children who require some form of special education than it has been in the past because of improved educational technology; and

Whereas, it is recognized that education for all children should be provided at a level within their capabilities; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Coneurring, That the legislative council establish a study committee for the purpose of conducting a comprehensive study of the methods of financing special education programs; and

Be It Further Resolved, That the study committee shall consist of legislators representing both the Senate and the House of Representatives and both political parties and may include nonlegislative members knowledgeable in the subject area; and
Be It Further Resolved, That the study committee make periodic reports to the legislative council and submit a final report, along with necessary bill drafts to implement its recommendations, to the legislative council. Copies of the report accepted by the legislative council shall be submitted to the Second Session of the Sixty-fifth General Assembly meeting in 1974.

## HOUSE CONCURRENT ROSOLUTION 55

## By Brunow and Harper

Whereas, the town of Moulton has, since 1922, regularly closed Main Street in order to hold its fall jamboree; and

Whereas, the Iowa State Highway Commission has taken the policy position that towns may not close streets for these types of community activities; and

Whereas, the conflict between the town of Moulton and the Iowa State Highway Commission was taken to district court by the Highway Commission; and

Whereas, the district court has ruled that the town of Moulton may close the street and conduct its celebration; and

Whereas, the Iowa State Highway Commission may appeal the district court ruling to the Iowa Supreme Court, Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the Iowa State Highway Commission refrain from appealing the district court decision in this matter and that the Iowa State Highway Commission amend its policy on the closing of highways to provide that cities and towns which have a long standing local tradition of closing a highway for a local celebration be allowed to continue this practice.

I move to reconsider the vote by which Senate File 144 failed to pass the House on May 30, 1973.

OAKLEY of Clinton

## HOUSE CONCURRENT RESOLUTION 57 <br> By Small, Crabb, Brockett and Clark of Dubuque

Whereas, there is a need for a police-training academy in which law enforcement officers from this state will be adequately trained; and

Whereas, the essentials of a training academy consist primarily of faculty and students and only secondarily of classroom facilities; and

Whereas, there are numerous campus facilities throughout this state which are not used during the summer months; and

Whereas, the enrollment in many of these public and private institutions of higher learning is decreasing and is expected to continue to decrease in the forseeable future; and

Whereas, it is the objective of the state to avoid unnecessary duplication of physical facilities which will result in an unreasonable burden upon Iowa taxpayers; and

Whereas, the current site of the Iowa Law Enforcement Academy at Camp Dodge, Iowa, is isolated from the diverse and healthful influence of general society and from other institutions of learning; and

Whereas, it is not feasible to train sufficient numbers of law enforcement
officers within the present physical facilities of the Iowa Law Enforcement Academy, Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the Legislative Council is authorized to create a study committee from members of the appropriate standing committees of the House of Representatives and the Senate for the purpose of studying the training of law enforcement officers in this state, which study shall include the feasibility of scheduling training courses during the summer months at public or private institutions of higher education throughout the state, the economics of contracting temporary faculty and for housing and other training facilities at such educational institutions for law enforcement training programs in comparison to alternative methods of financing such training programs, and the feasibility of vacating and disposing of the real property of the Iowa Law Enforcement Academy at Camp Dodge, Iowa; and

Be It Further Resolved, That the Study Committee make periodic reports to the Legislative Council and submit a final report, including necessary bill drafts to implement the recommendations, to the Legislative Council and the 1974 Session of the Sixty-fifth General Assembly.

Laid over under Rule 25.

## Area Schools

In making its recommendation, the committee decided to emphasize vocational education, both in existing and new programs. The committee decided not to fund the new category of "career education" programs, and instead allocated the money that had been budgeted by the Governor for "career education" to the general aid and vocational education appropriations. $\$ 2,000,000$ for $1973-74$ and $\$ 2,500,000$ for 1974-75 had been recommended by the Governor for "career education" programs.

The committee recommendation added $\$ 179,000$ to the general aid appropriation for 1973-74 for additional IPERS cost.

The $\$ 2,000,000$ for $1973-74$ that had been recommended by the Governor for "career education" programs was reallocated as follows: $\$ 775,000$ was added to the Governor's general aid recommendation, and $\$ 1,025,000$ was added to the Governor's vocational education recommendation, to maintain existing programs and fund new or expanded programs.

The $\$ 2,500,000$ for 1974-75 that had been recommended by the Governor for "career education" programs was also reallocated as follows: $\$ 819,000$ was added to the Governor's general aid recommendation, and $\$ \mathbf{\$ 1 , 4 8 1 , 0 0 0}$ was added to the Governor's vocational education recommendation, to maintain existing programs and fund new or expanded programs.

## (House File 776)

## Board of Regents

The Governor recommended salary increases of 5 percent for the fiscal year 1973-74 above the salary budget of fiscal year 1972-73. The committee recommendation is the same as the Governor's. The Governor also recommended salary increases of nine-tenths of a percent for fiscal year 1975 over the salary budget of fiscal year 1974. The committee recommendation does not include these funds since the committee intends to make that determination in the 1974 legislative session. The committee intends that salary increases for the second year of the biennium be funded from reversions in the same manner that salary increases for other departments and agencies have been funded.

The committee recommendation lists the category of repairs, replacements, and alterations as a separate item. Again, the committee endorses the Governor's recommendation, but lists it as a separate item to show the committee's concern that the repairs, replacements, and alterations money be spent for that purpose and none other.

The Governor's budget was formulated on the assumption that the number of students would remain constant throughout the biennium. The committee endorses this assumption. However, it feels that if there is a decline in the number of students the universities should have a corresponding retrenchment in their operation, particularly in the number of employees.

The committee recommendation approves all of the Board of Regents "Special Needs" that were recommended by the Governor. By endorsing the Governor's recommendations, the committee also endorsed the deletions made by the Governor from the Regents request for "Special Needs." An itemization of the "Special Needs" that were approved by the committee are on file in the office of the Legislative Fiscal Director.

The general expense, equipment, and library books categories were funded at 100 percent of the Regents request. It is the committee's intent that any unused funds from these categories be reverted for the purpose of salary increases for fiscal year 1975.

Included in the committee's recommendation for the University Hospital is the intent that each county's indigent quota not be reduced during the biennium.

The committee recommendation places a limit on the number of employees. This number is the same as suggested in the Governor's proposed bill, and to this extent the committee endorses the Governor's suggestion.

## INTRODUCTION OF BILL

House File 780, by committee on appropriations, a bill for an act to make an appropriation from the general fund of the state to the office for planning and programming and office for economic opportunity.

Read first time and placed on the appropriations calendar.

EXPLANATION OF VOTE
(House File 776)
We, the undersigned, voted "nay" on final passage of House File 776 solely as a symbolic expression of our strong opposition to any kind of a tuition increase for resident students at our three state universities. Although we do feel that some sort of a reasonable tuition increase for nonresident students may be in order at this time, we very strongly feel
that such a decision is and should remain in the Board of Regents' realm of responsibility, and that the Legislature should not attempt to assume such policy-making roles. We believe in a strong system of higher education in Iowa, and therefore we continue to support adequate funding for the institutions under control of the Board of Regents. House File 776 as it is presently constituted does not represent such an expression, and it is for this reason that we felt it necessary to vote against the bill at this time.

## CONSIDERATION OF BILLS <br> WAYS AND MEANS CALENDAR

House File 772, a bill for an act relating to the effective dates of chapters one thousand twenty (1020) and one thousand eighty-eight (1088), Acts of the Sixty-fourth General Assembly, 1972 Session, was taken up for consideration.

Nielsen of Polk offered the following amendment H-682 filed by him and moved its adoption:
H-682
1 Amend House File 772 by striking all after the enacting clause and inserting in lieu thereof the following:

Sec. ..... Acts of the General Assembly, 1972 Session, chapter one thousand twenty (1020), is repealed.

Sec. 2. It is the intent of the general assembly in repealing this act to repeal all proposed new provisions to the Code of Iowa contained in Acts of the General Assembly, 1972 Session, chapter one thousand twenty (1020), including amendments to existing provisions of the Code of Iowa, prior to the effective date such provisions will go into effect; however the legal doctrine that the repeal of an amendatory act repeals the original act or section shall not apply to this bill, it being the intent of the general assembly that only the amendments to the sections of the Code which are contained in chapter one thousand twenty (1020) shall be repealed, not the Code sections, and that such Code sections shall remain in force as they were prior to the enactment of Acts of the General Assembly, 1972 Session, chapter one thousand twenty (1020), except as they may have been or will be amended or repealed by other Acts of the general assembly.

Stanley of Muscatine rose on a point of order that the amendment was not germane.

Amend Senate File 571, as amended and passed by the Senate, as follows:

1. By striking all after the enacting clause and inserting in lieu thereof the following:
Section 1. NEW SECTION. PERSONAL PROPERTY DEFINED.
For the purpose of this Act, "personal property" means all tangible property other than real property, which is located in the state and subject to taxation, except the following:
2. Machinery described under section four hundred twenty-eight point twenty-two (428.22) of the Code.
3. Property centrally assessed by the department of revenue under the provisions of chapter four hundred twenty-eight (428) and chapters four hundred thirtythree (433) through four hundred thirty-eight (438) of the Code.
Sec. 2. NEW SECTION. BONDING BASE. For purposes of determining the property tax base for bonding purposes only, the value of personal property in each taxing district on January 1, 1974, and all succeeding years, shall be the same as the value of personal property in each taxing district on January 1, 1973.
Sec. 3. NEW SECTION. PERSONAL PROPERTY TAX CREDIT-
COMPUTATION. Commencing in the year 1974, for taxes
payable for the year 1973, each taxpayer is entitled
to a credit based upon one hundred percent of the assessed value of his personal property, and each taxing district in the state is entitled to an annual personal property tax replacement payment from the state, based upon the application of the district's property tax rate to its assessed value of personal property. The assessed value of personal property for the purposes of determining the credit and replacement in each taxing district shall be determined as provided in this section. The actual value of personal property in each taxing district shall be the amount which is in the same ratio to the assessed value as the actual value of real property is to the assessed value of real property, as provided in section four hundred forty-one point twenty-one (441.21) of the Code.
The assessed value of personal property in each taxing district in 1973 shall be determined as otherwise provided by law. As soon as possible in each succeeding year, the director of revenue shall determine and certify to each county auditor and to the state comptroller the assessed value of personal property in each taxing district for that year, pursuant to the following procedure:
4. Determine a percentage which represents the ratio between the assessed value of personal property

52
53
54
and the assessed value of real property in the district in 1973.
2. Multiply the assessed value of real property in the district for the year, as determined under chapter four hundred forty-one (441) of the Code, by the percentage determined under subsection one
(1) of this section. The result is the assessed value of personal property in the district for that year.

Sec. 4. NEW SECTION. ALLOCATION OF REVENUE-PAYMENT OF CREDIT. On or before January 1, 1974, and
each year thereafter, the auditor of each county shall prepare a statement listing for each taxing district in the county the assessed value of personal property as of January first of the previous year as determined under section three (3) of this Act. The statement shall show the tax rates of the various taxing districts and the total amount of taxes which are not to be collected in 1974 for the year 1973 and in each succeeding year by reason of the credit granted in this Act. The auditor shall certify and forward copies of the statement to the state comptroller and the director of revenue not later than January fifteenth of each year. The director of revenue shall compute the applicable tax credit each year and certify to the state comptroller the amount due to each taxing district, which shall be the dollar amount which would be payable if personal property were taxed for the preceding year, based upon the determination of assessed value of personal property for the preceding year, under section three (3) of this Act.

The amounts due each taxing district shall be paid in two equal payments by the state comptroller on March fifteenth and September fifteenth of 1974 and each succeeding year, drawn upon warrants payable to the respective county treasurers. The county treasurer shall pay the proceeds to the various taxing districts in the county.

In the event that the amount appropriated for reimbursement of the taxing districts is insufficient to pay in full the amounts due to each of the taxing districts, then the amount of each payment shall be established by the state comptroller based upon the ratio that the total amount due to each taxing district is to the total amount due to all taxing districts in the state.

Sec. 5. NEW SECTION. PERSONAL PROPERTY TAX
REPLACEMENT FUND. There is created a "personal property tax replacement fund" in the office of the treasurer of state. There is appropriated from the general fund of the state for each year of the biennium commencing July 1, 1973 and ending June 30, 1975, the sum of seventy-seven million ( $77,000,000$ ) dollars to the state comptroller for deposit in the presonal property tax replacement fund, to make the personal

106 property tax replacement payments to taxing districts,
107 as provided for in this Act.
108 Sec. 6. Chapter four hundred twenty-seven A (427A),
109 Code 1973, is repealed.
110 2. Amend the title, page 1 , line 1 , by striking
111 the word "livestock" and inserting in lieu thereof
112 the word "personal property".

7 the following:
321.238 MOTOR VEHICLE INSPECTION.

1. As used in this section, "sale" means the delivery of possession of a motor vehicle to a person who has purchased or contracted to purchase the vehicle.
2. The commissioner shall designate one or more state highway commission maintenance garages in each county as state vehicle inspection stations. If there are several such maintenance garages in a county, the commissioner shall select maintenance garages which are the most centrally located, both in terms of county population centers and population distribution, for use as a state vehicle inspection station. Maintenance garages shall also be selected on the basis of their adaptability into inspection stations.
3. The state highway commission shall supply each state vehicle inspection station with the necessary personnel and equipment to conduct vehicle inspections as prescribed under this section.
4. The commissioner may adopt such rules and regulations, subject to the provisions of chapter seventeen A (17A), as shall be necessary for the efficient operation and maintenance of the state vehicle inspection stations. The commissioner shall also supervise and inspect the operations of each state vehicle inspection station.
5. The fee for inspection, including the issuance of the certificate of inspection, shall be uniform and shall be established by the commissioner. The fee shall be a reasonable and just charge based upon the average cost and time necessary to perform the inspection, and shall be forwarded to the department of public safety. All fees collected by the department under the provisions of this section shall be remitted monthly to the treasurer of state. The moneys remitted shall be placed by the treasurer of state in a special fund to be known as the "motor vehicle inspection fund" and shall be used to defray the cost of administering the provisions of this section, including the payment of state highway commission expense under subsection three (3) of this section. Any balance remaining in the motor vehicle inspection fund at the end of each fiscal year shall revert to the general fund of the state on the thirtieth day of September following the end of the fiscal year.
6. In making a vehicle inspection, the state inspection station shall inspect such of the following equipment as is applicable to the vehicle. Brakes, lights, turning signals, steering, sound devices, glass, mirrors, exhaust system, windshield wipers, seat belts, tires and such other safety equipment as may be prescribed for inspection under rules and regulations adopted by the commissioner. The inspection station shall also inspect each motor vehicle to ascertain that none of the factory installed emission control devices have been removed or rendered inoperable.

Upon completion of inspection of a vehicle and determination that its equipment is in adequate condition
and proper adjustment to warrant issuance of a certificate of inspection, the state inspection station which has made the inspection shall affix an official certificate of inspection to such vehicle in the manner specified by the commissioner. Except as otherwise provided, the certificate shall be valid for the period commencing with the calendar month of issue and ending at midnight on the last day of the twelfth calendar month following the month of issue and shall not be valid thereafter.
7. If an inspection discloses the necessity for repairs, the owner of the vehicle or person having custody thereof shall be so notified and a certificate of rejection shall be affixed to the vehicle. If an official certificate of inspection has been affixed to the vehicle which is valid on the date of rejection, the certificate of inspection shall no longer be valid even though the period for which it was issued has not expired and the inspection station shall remove the certificate. After correction of the stated defects, the state inspection station which made the inspection shall reinspect the vehicle once without additional charge if requested so to do within thirty days after its issuance of the rejection certificate.

The owner or other person having custody of the vehicle shall have such repairs made or defects corrected as are required by the rejection certificate within thirty days from the date of the rejection certificate. A vehicle for which the repairs are not made or defects not corrected, shall not thereafter be operated on the streets or highways until a valid certificate of inspection has been obtained and affixed to the vehicle.

The owner or person having custody of the vehicle to which a certificate of rejection has been affixed may appeal the rejection to the department of public safety. The appeal shall be in writing and shall be filed with the department of public safety within ten days of the rejection. The department of public safety shall hold a hearing on the appeal within ten days of receipt of the appeal and shall issue a decision affirming the rejection or disallowing the rejection, in whole or in part, within seven days of the hearing.
8. Every motor vehicle subject to registration under the laws of this state, except motor vehicles registered under section three hundred twenty-one point one hundred fifteen (321.115), when first registered in this state and each time when sold at retail or otherwise transferred for use within this state, except transfers by operation of law as set out in section three hundred twenty-one point forty-seven (321.47), shall be inspected at a state inspection station unless there is affixed to the motor vehicle a valid certificate of inspection which was issued for such motor vehicle not more than sixty days prior to the date on which such vehicle was sold. However, the certificate of inspection for a new motor vehicle which has not previously been sold
at retail and which is not sold within sixty days after the date the inspection was performed may be revalidated by the state inspection station without another inspection provided the motor vehicle has not been driven more than twenty miles since the inspection was performed. If the motor vehicle is subject to inspection, the state inspection station shall issue and affix a valid certificate of inspection or certificate of rejection, as the case may be, in accordance with the results of the inspection. The applicant shall file with an application for title to the vehicle or for registration thereof under the provisions of section three hundred twenty-one point twenty-three (321.23), subsection two (2) or three (3), with the county treasurer of the county of his residence, a statement on a form provided by the commissioner, signed by a state inspection station certifying the date that a certificate of inspection was issued for and affixed to the vehicle. The county treasurer shall not issue a title to the vehicle to the applicant or register the vehicle unless such statement is filed with the application showing that the inspection of the vehicle was made not more than sixty days prior to the date of sale or transfer, or unless the vehicle was purchased out of this state by a resident of this state who resides outside of this state, but desires to maintain his Iowa residency and he executes a statement to that effect in form and content as prescribed by the commissioner. The county treasurer shall stamp the registration card for such vehicle with the words "NOT INSPECTED". A vehicle so registered shall be inspected at a state inspection station within fifteen days after being brought into this state. The county treasurer shall mail the statement of inspection or statement of out-of-state residency to the department at the time of mailing copies of the registration receipt.
9. No person shall make, issue, or knowingly use any imitation or counterfeit of an official certificate of inspection. No person shall display or cause or permit to be displayed upon any vehicle any certificate of inspection knowing the certificate to be fictitious, or issued for another vehicle, or issued without an inspection having been made. No person shall issue an official certificate of inspection who does not hold a valid permit for the issuance of such certificate.
10. Any peace officer who makes an investigation of an accident may direct that any motor vehicle involved in the accident shall be inspected at a state inspection station within the time fixed by such peace officer.
11. The commissioner may authorize the acceptance in this state of a certificate of inspection issued in another state having an inspection law substantially similar to the provisions of this chapter pertaining to vehicle inspection.
12. The inspection of any vehicle and issuance of a certificate of inspection shall not be construed in any court as a warranty of the mechanical condition of the vehicle, and the failure to discover any defect in any vehicle in the course of an inspection under the provisions of this section shall not be made the basis of an action for damages in any court.
13. It is a misdemeanor for any owner or operator of any vehicle required to be inspected to fail to comply with the provisions of this section.
14. A person shall not sell or transfer any motor vehicle, other than transfers to a dealer licensed under chapter three hundred twenty-two (322), and other than transfers by operation of law as set out in section three hundred twenty-one point forty-seven (321.47) unless there is a valid official certificate of inspection affixed to such vehicle at the time of sale. Any person violating the provisions of this section shall be subject to a fine of one hundred dollars and shall be liable to the purchaser in damages for all costs involved in obtaining a valid certificate of inspection for such vehicle.
15. Any person who believes that an inspection was not properly conducted on a motor vehicle owned by him shall notify the state vehicle inspection station which inspected the vehicle, in writing, within fifteen calendar days from the date of the inspection, or prior to such vehicle having been driven five hundred miles after the inspection, whichever occurs first.

Sec. 2. Section three hundred twenty-two point twenty-five (322.25), Code 1973, is repealed.

# JOURNAL OF THE HOUSE 

One Hundred Fifty-first Calendar Day-One Hundredth Session Day

Des Moines, Lowa, Thursday, June 7, 1973
The House met pursuant to adjournment, Speaker Varley in the chair.

Prayer was offered by Father Michael Metz, Catholic Student Center, Iowa City, Iowa.

The Journal of Wednesday, June 6, 1973, was approved.

## LEAVE OF ABSENCE

## SPECIAL PRESENTATION

Speaker Varley presented to the House Phil Seidl, Jay McGivern and Jim Lilly, who are Governor, Speaker of the House and Counselor of State Government, respectively, of the eight hundred thirty-two boys attending Boys State at Cedar Rapids this week and visiting the State House today. Phil delivered the following speech to the members of the House:

No doubt you have oftentimes heard the age old phrase "The youth is the future of our country." And many of us youth like to hear it. It sounds glorifying and glamorous to know that the day we're eighteen we will just walk right into your offices and take over to change the world overnight into a shining crystal ball with a sunny bright future.

I don't mean to say that the youth aren't a part of the future, but that there is more to the future than just youth. The issues, laws, and legislation being discussed, developed and debated in your sessions are some of the major determinants of our future.

I believe we can be part of our country's future. We are concerned with the problems, the shortcomings, and the merits of our times. We cannot overrule the voices of the past and will not overrule the voices of the present. For we understand that generations of men have come before us
and that generations of men shall come after us and that the voices of these generations have spoken in wisdom and shall speak in wisdom in response to their times.

This is why we ask not to overrule the voices of you in the present. We wish to add your legions and participation. For we have many ideas, many questions, and not enough answers, and you are our only teachers, and someday we wish to join your ranks.

We of Boys' State have spoken a small part of what we think to be the issues today. We are learning the processes of taking action upon these issues.

Issues of today which we feel should affect the legislation in times to come. Legislation such as aid to our farmers through a state sponsored Rural Environmental Assistance Program. Also, legislation to reform our state income tax system into a fairer and more progressive system. Especially legislation to expand our furthered educational funding and educational television. For it is only through our education that we may assure ourselves of great leaders in the future.

We are the youth and we are interested not only in the future but in what happens today, because today has and will determine our future. So I find that it would be wrong to say the youth is the future of our country, but rather the youth that is interested in the future of our country is the youth that is the future of our country.

The copy of the certificate of inspection to be delivered by the inspection station to the owner of the vehicle inspected shall also contain a notice, which shall be printed on the face of the certificate of inspection in eight-point bold faced type, which contains the words "THE SAFETY INSPECTION IS APPLICABLE ONLY TO THE ITEMS CHECKED AND DOES NOT GUARANTEE OR WARRANT THE CONDITION OF THESE ITEMS
OR THE OVERALL CONDITION OF THE VEHICLE"'.
Sec. 4. Section three hundred twenty-one point two hundred thirty-eight (321.238), subsection seven (7), Code 1973, is amended to read as follows:
7. No person shall make, possess, issue, or knowingly use any imitation or counterfeit of an official certificate of inspection. No person shall display or cause or permit to be displayed upon any vehicle any certificate of inspection knowing the certificate to be fictitious, or issued for another vehicle, or issued without an inspection having been made. No person shall possess a blank certificate of inspection nor shall any person issue an official certificate of inspection who does not hold a valid permit for the issuance of such certificate.

Sec. 5. Section three hundred twenty-one point two hundred thirty-eight (321.238), subsection eight (8), Code 1973, is amended to read as follows:
8. The fee for inspection, including the issuance of the certificate of inspection, shall be uniform according to class of vehicle and shall be established by the commissioner. The fee shall be a reasonable and just charge based upon the average cost and time necessary to perform the inspection, and shall be retained by the inspection station. No inspection station shall absorb the inspection fee, or advertise or represent in any manner that the fee or any part of the fee is directly or indirectly absorbed by the station, nor shall any inspection station charge a fee for inspection services under this section in an amount other than the fees herein provided.

Sec. 6. Section three hundred twenty-one point two hundred thirty-eight (321.238), subsection twelve (12), Code 1973, is amended to read as follows:
12. Every motor vehicle subject to registration under the laws of this state, except motor vehicles registered under section 321.115 , when first registered in this state [or] and each time when sold at retail or otherwise transferred for use within [or without] this state, or [otherwise transferred] when registration is changed from a registration as provided in section three hundred twenty-one point one hundred fifteen (321.115) of the Code to a regular registration, except transfers by operation of law as set out in section 321.47 , shall be inspected at an authorized inspection station unless there is affixed to the motor vehicle a valid certificate of inspection which was issued for such motor vehicle not more than sixty days prior to the date on which such vehicle was sold. However, the certificate of inspection for a new motor vehicle which has not previously been sold at retail and which is not sold within sixty days after the date the inspection was performed may be revalidated by the inspection station without another inspection provided the motor vehicle has not been driven more than one hundred miles since the inspection was performed. If the motor vehicle is subject to inspection, the authorized inspection station shall issue and affix a valid certificate of inspection or certificate of rejection, as the case may be, in accordance with the results of the inspection. The applicant shall file with an application for title to the vehicle or for registration thereof under the provisions of section 321.23 , subsection 2 or 3 , with the county treasurer of the county of his residence, a statement on a form provided by the commissioner, signed by an authorized inspection station certifying the date that a certificate of inspection was issued for and affixed to the vehicle. The county treasurer shall not issue a title to the vehicle to the applicant or register the vehicle unless such statement is filed with the application showing that the inspection of the vehicle was made not more than sixty days prior to the date of sale or transfer, or unless the vehicle was purchased out of this state by a resident of this state who resides outside of this state, but desires to maintain his Iowa residency and he executes a statement to that effect in form and content as prescribed by the commissioner. The county treasurer shall stamp the registration card for such vehicle with the words "NOT INSPECTED". A vehicle so registered shall be inspected at an authorized inspection station within fifteen days after being brought into this state. The county treasurer shall mail the statement of inspection or statement of out-of-state residency to the department at the time of mailing copies of the registration receipt. The department may destroy
any forms, certificates or statements after one year from the date they are filed unless they relate to pending appeals.

Sec. 7. Section three hundred twenty-one point two hundred thirty-eight (321.238), Code 1973, is amended by adding the following new subsections:
$N E W$ SUBSECTION. As used in this section, "sale" means the delivery of possession of a vehicle to a person who has purchased or contracted to purchase the vehicle.

NEW SUBSECTION. After an investigation and hearing conducted by a hearing officer designated by the commissioner of public safety held in the county in which the inspection station is located, the commissioner may, if the hearing officer finds that the inspection station is not properly equipped or it is not properly conducting inspections, issue a warning, suspend the vehicle inspection station's permit for a period not to exceed ninety days, or revoke the vehicle inspection station's permit and require the operator of the vehicle inspection station to surrender the permit issued to the operator.
$N E W$ SUBSECTION. Notice of the suspension or revocation shall be by certified mail, return receipt requested, addressed to the operator of the vehicle inspection station for which the permit was issued. The suspension or revocation shall become effective ten days from the date of the mailing of the notice unless the permit holder files a written request for a review hearing of the suspension or revocation order. The review hearing shall be de novo and shall be conducted at the seat of government by a review board composed of the following persons:
a. A senior officer of the Iowa highway safety patrol designated by the commissioner.
b. The state car dispatcher or his designee.
c. An employee of the state highway commission experienced in automotive mechanics designated by the director of highways.

Notwithstanding any other rule or statute to the contrary, the deposition of any witness taken in the manner prescribed by the rules of civil procedure shall be admissible at any hearing conducted by the review board in lieu of the witness appearing in person. Costs of depositions shall be paid from the motor vehicle inspection fund.

After the hearing, the review board may sustain, modify, or reverse the commissioner's order of suspension or revocation. A suspension or revocation sustained or modified by the review board shall take effect ten days from the date of the decision, unless the permit holder files an appeal in the district court of the county in which the vehicle inspection station is located within ten days from the date of the decision of the review board. The order of
suspension or revocation sustained or modified and appealed to the district court shall become effective ten days from the date the appeal is filed unless the suspension or revocation is stayed by the court.

The review board shall have the power to issue subpoenas to compel the attendance of witnesses and the production of documents, papers, books, records and other evidence before it in any hearing conducted by it under this section.

If any person shall refuse to obey any such subpoena, or to give testimony, or to produce evidence as required thereby, any judge of the distriet court of the state in and for Polk County may, upon application and proof of such refusal, make an order awarding process of subpoena, or subpoena duces tecum, out of the said court, for the witness to appear before the review board and to give testimony, and to produce evidence as required thereby. Upon filing such order in the office of the clerk of said court, the clerk shall issue process of subpoena, as directed, under the seal of said court, requiring the person to whom it is directed to appear at the time and place therein designated.

Witnesses shall receive three dollars for each day's attendance and ten cents per mile for each mile actually travelled. Witnesses shall be compensated from the motor vehicle inspection fund. The treasurer of state may make rules setting forth the procedure for such reimbursement.
$N E W$ SUBSECTION. In any proceedings to suspend or revoke a vehicle inspection station's permit, there shall be a presumption that the inspection of a motor vehicle was properly conducted unless a written notice specifying the complaint is given to the operator or an employee of the vehicle inspection station which inspected the vehicle within fifteen calendar days after the date of the inspection or before the vehicle has been driven five hundred miles after the inspection, whichever occurs first, or if the vehicle inspection station sold the motor vehicle, within fifteen calendar days after the date of the sale or before the vehicle has been driven five hundred miles after the sale, whichever occurs first. The written notice may be informal. This presumption may be overcome only by clear and convincing evidence.
$N E W S U B S E C T I O N$. No person shall knowingly deliver possession of a motor vehicle, trailer or semitrailer to a person who has purchased or contracted to purchase at retail such motor vehicle, trailer, or semitrailer which does not contain those parts or is not equipped with such lamps and brakes and other equipment in proper condition and adjustment as

## SENATE MESSAGE CONSIDERED

Senate File 586, a bill for an act making an appropriation from the general fund of the state of Iowa to the department of public instruction.

Read first time and referred to committee on appropriations.

## EXPLANATION OF VOTE

I was out of the House chamber briefly on June 7, 1973. Had I been present, I would have voted "aye" on the House amendment to Senate File 441, "nay" on amendment H-713, "aye" on amendment H-714 and "aye" on House File 784.

KISER of Scott
REPORT OF HOUSE COMMITTEE ON APPROPRIATIONS
(House File 785)
Iowa Civil Rights Commission
The committee's recommendation is for an appropriation of $\$ 187,350$ for 1973-74

From this total, $\$ 141,620$ for $1973-74$ is appropriated for salaries.
$\$ 11,700$ for 1973-74 is appropriated for travel.
$\$ 20,210$ for $1973-74$ is appropriated for office supplies and expense, printing and binding, telephone and telegraph, and equipment.

Other expenses, which include commission per diem and hearing expenses, are appropriated at $\$ 14,000$ for 1973-74.

The committee's recommendation allows for an addition of two Field Representatives, one Accounting Technician, one State Coordinator, one Education Director, and one Information Specialist.

The subcommittee plans to hear the Civil Rights Commission next session to determine the effect on the administration by the addition of these six positions. A recommendation for fiscal year 1975 will be made at that time.

## REPORT OF COMMITTEE

Stanley of Muscatine, from the committee on ways and means, submitted the following report:

Mr. Speaker: Your committee on ways and means to whom was referred Senate File 234, a bill for an act relating to individual income tax, begs leave to report it has had the same under consideration and has instructed me to report the same back to the House with the recommendation that the same do pass.

STANLEY of Muscatine, Chairman

## EXPLANATION OF VOTE <br> (House File 671)

While I have not previously voted to permit wider or longer vehicles on Iowa highways, I had concluded that the transportation needs of Iowa and the economics of the transportation of Iowa products now warrant legalization of the use of 65 foot double-bottom equipment on highways within fowa that are adequate to handle such equipment.

My intention to vote for such limited usage did not, however, extend to Iowa's 18 foot highways (which are actually only $161 / 2$ foot roadways when the curbs are deducted).

The defeat (on a tie vote) of my amendment to limit such vehicles to 24 foot highways, assures that the Highway Commission will be pressured to authorize the use of even $161 / 2$ foot roadways. I had preferred that the pressure be exerted in the direction of updating inadequate highways not the overuse of already unsafe highways.

While I would have voted for the bill if amended, I could not vote to permit even larger vehicles on Iowa's unsafe $16 \frac{1}{2}$ foot cowpaths-regrets.

JESSE of Polk

## EXPLANATION OF VOTE <br> (House File 671)

While I am in favor of allowing limited usage by 65 foot double-bottom trucks on our highways, I felt the defeat of the Jesse amendment (limit to 24 foot highways) left the bill too open.

I recognize the transportation needs of Iowa may well need trucks of this length. Therefore, even though I cast a "no" vote, I am in general favor of limited use by 65 foot trucks.

BYERLY of Polk

Sec. 4. Chapter four hundred twenty-seven (427), Code 1973, is amended by adding the following new section:

NEW SECTION.

1. The personal property tax levied on all livestock assessed for taxation as of January 1, 1973, shall not be collected in 1974, or any subsequent year, from the owners of the livestock or from those having liability for the payment of the tax.
2. A tax credit shall be allowed each taxing district in the state for each head of livestock that was assessed as of January 1, 1973. The tax credit shall commence and be effective for the tax year 1974 and each year thereafter based upon the livestock assessed as of January 1, 1973.
3. On or before January 15, 1974, the county auditor of each county shall prepare a statement listing for each taxing district in the county the assessed or taxable values of all livestock assessed for taxation as of January 1, 1973. The statement shall also show the tax rates of the various taxing districts and the total amount of taxes which in the absence of this Act would have been levied upon livestock assessed as of January 1, 1973. The county auditor shall certify and forward copies of the statement to the director of revenue not later than January 15, 1974. The director of revenue shall compute the applicable tax credit and certify to the state comptroller the amount due to each taxing district, which amount shall be the dollar amount which would be payable if all livestock so assessed were taxed, based upon those assessed as of January 1, 1973.
4. The amounts due each taxing district shall be paid on warrants payable to the respective county treasurers in two equal payments by the state comptroller on March fifteenth and September fifteenth of each year with the first payment starting March 15, 1974. The county treasurer shall apportion the proceeds to the various taxing districts in the county.
5. In the event that the amount appropriated for reimbursement of the taxing districts is insufficient to pay in full the amounts due to each of the taxing districts, then the amount of each payment shall be reduced by the director of revenue according to the ratio that the total amount of funds to be paid to each taxing district bears to the total amount to be paid to all taxing districts in the state.

Sec. 5. Section four hundred forty-two point two (442.2), Code 1973, is amended by adding the following new unnumbered paragraph:
NEW UNNUMBERED PARAGRAPH. The amount paid to each school district for the tax credit for livestock under this Act shall be regarded as property tax. The portion of the payment which is foundation property tax shall be determined by applying the foundation property tax millage rate to the taxable value of livestock assessed for taxation in the district as of January 1, 1973, determined pursuant to this Act.

Sec. 6. NEW SECTION. There is appropriated from the general fund of the state of Iowa to the state comptroller for the fiscal year beginning July 1, 1973, and ending June 30, 1974, the sum of four million $(4,000,000)$ dollars, or so much thereof as may be necessary, and for each succeeding fiscal year the sum of eight million $(8,000,000)$ dollars, or so much thereof as may be necessary, to carry out the provisions of section four (4) of this Act.

> HOUSE CONCURENT RESOLUTION 60
> By Brinck, Kreamer, Grassley, Byerly, Norpel, Dunton, Lippold and Brockett

[^28]Whereas, there are duplications of courses in many lowa post-secondary educational institutions and programs with little effort to coordinate courses and programs within regions of the state or the state as a whole; and

Whereas, information is lacking on the part of legislators as to the total programs relating to post-secondary education in this state and the actual method of funding such programs and yet state funds are being sought in ever-increasing amounts; and

Whereas, there is a need to determine the present state of funding postsecondary education in a detailed manner to plan for future funding of adequate post-secondary education, Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the Legislative Council is urged to create an interim study committee consisting of the House and Senate members of the appropriations joint subcommittee on education to determine the best manner of funding postsecondary education; and

Be It Further Resolved, That the study committee investigate, but not necessarily limit its study, to the relationship between the enrollment of students and cost of operation of a school; the per capita cost of students in various departments; per capita cost of graduate students in graduate schools; relationship between tuition paid by the student versus the cost to the institution for providing said courses of study versus state funding; study of other states' methods of determining financial support for postsecondary education; and

Be It Further Resolved, That the study committee make a report to the legislative council and the General Assembly meeting in the year 1974.

Laid over under Rule 25.

## HOUSE CONCURRENT RESOLUTION 61

## By Cusack

Whereas, many members of the appropriations committee's subcommittee on human resources, while differing in philosophy as regards the implementation of governmental welfare programs, are nevertheless agreed on the importance of moving to correct various problems which are apparent in relation to welfare programs, which problems include rising caseload, rising administrative costs, and the inherent unfairness of statewide uniform assistance grants in view of the variation in cost of living among counties and areas of the state; and

Whereas, because of the impending federal replacement of present statefederal categorical assistance programs for the elderly, blind and disabled with a single federally administered assistance program, there will be changes in federal guidelines and funding for other welfare programs, but final decisions have not been made regarding these changes and the federal guidelines for funding for fiscal 1974 will not be available until after adjournment of the 1973 session of the General Assembly but will nonetheless significantly affect state funding requirements; and

Whereas, this situation provides a unique opportunity, which may not arise again in the foreseeable future, to reexamine the entire structure of state and county-administered welfare and assistance programs in Iowa, with particular reference to consolidation of certain programs, allowing for variance in assistance grants to reflect differences in the cost of living within the state, reduction of administrative overhead, and encouragement and coordination of local volunteer efforts, particularly with respect to programs for youth and the elderly; and

Whereas, in view of the necessity of action by the General Assembly to achieve the positive ends contemplated by this resolution, legislative control or, at a minimum, legislative monitoring of the needed study is highly desirable; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council is urged to establish a study committee consisting of members of both parties and both houses of the General Assembly, and including members of the human resources committees and the appropriations subcommittees on human resources, to conduct a study or, if the legislative council so directs, to participate in and monitor a study conducted by a non-legislative agency, for the purpose of formulating recommendations for the improvement of various welfare programs which are or may be administered by the State of Iowa or its counties, so that these programs will more effectively complement and supplement programs administered by the federal government, will be responsive to the needs of low income and disadvantaged Iowans, and may be administered with reasonable economy and clear lines of authority; and

Be It Further Resolved, That the study committee be requested to make a report of its findings and recommendations to the legislative council and the 1974 session of the General Assembly.

Laid over under Rule 25.

## EXPLANATION OF VOTE <br> (House File 671)

Due to being called out of the House chamber on the afternoon of June 7, 1973, I was unable to cast a vote on the final passage of House File 671, a bill for an act relating to the overall length of combinations of vehicles. Had I been present, I would have voted "nay" on House File 671, since this bill does not serve the best interests of the citizens of Iowa.

## EXPLANATION OF VOTE

While I signed the conference committee report on House File 585, on the Unified Trial Court Act amendments and voted to concur in the report on the floor it was in spite of serious reservations I have about the designation of the full-time, lawyer trained judicial officers with substantial jurisdiction as "magistrates." In my judgment, they should be more closely identified with district court judges by calling them "district associate judges," leaving "magistrates" designation for those who are part-time, not necessarily law trained, and have limited jurisdiction.

Whereas, the Senate and individual members of that honorable body have from time to time during the first session of the Sixty-fifth General Assembly been reported to have cast aspersions on the performance of the House of Representatives in various respects; and

Be It Resolved by the House of Representatives, the Senate Concurring, that the House hereby challenges the Senate to a softball game to be played at a time and place with such ground rules as may be negotiated to the mutual satisfaction of the two houses and to be umpired by one member of the Senate and one member of the House (unless the Governor and Chief Justice can be persuaded to accept this privilege) ; and

Be It Further Resolved, that each player be assessed a fee of fifty cents for the privilege of competing, the proceeds to be donated to a mutually agreed upon worthy cause.

5. Income derived from interest on federal
securities shall be included in taxable income. However, a taxpayer who has such income may credit
against his Iowa income tax computed as otherwise provided in this section, an amount equal to the amount of Iowa income tax which would be applicable to such income if it were the taxpayer's only taxable income, as computed under subsections one (1) through four (4) of this section.

Sec. 4. NEW SECTION. EXEMPTION-ALLOCATION.

1. No tax shall be imposed under this division on any individual taxpayer whose adjusted gross income is four thousand dollars or less, but if the payment of tax under this division would reduce the adjusted gross income to four thousand dollars or less, then the tax shall be reduced to that amount which would result in allowing the taxpayer to retain an adjusted gross income of four thousand dollars. This subsection does not apply to an estate or trust. For the purpose of this subsection, the entire adjusted gross income, including any part not allocated to Iowa, shall be taken into account. If the combined adjusted gross income of a husband and wife exceeds four thousand dollars, neither of them shall receive the benefit of this subsection, whether they file joint or separate returns. An unmarried child under twenty-one years of age who is a dependent of his parent or parents shall not receive the benefit of this subsection if the parent's adjusted gross income exceeds four thousand dollars or if the combined adjusted gross income of the parents exceeds four thousand dollars.
2. The Iowa income tax as determined under section three (3) of this Act is subject to an adjustment for income not allocable to Iowa, as follows:
a. In the case of a nonresident individual, estate, or trust, income derived from sources within this state is allocable to Iowa. Income is derived from sources within this state if it is derived from the ownership, sale, or exchange of property located within this state, if it is received for services performed within this state, or if it is derived from any business or occupation carried on within this state.
b. In the case of an individual, estate, or trust which was a resident for part of the taxable year, income is allocable to Iowa if it is received during the period of Iowa residency, or if it is received during the period of nonresidency and is derived from sources within this state.
c. In the case of a resident individual, estate, or trust, income is allocable to Iowa unless it is not derived from sources within this state, and an income tax has been imposed on it and paid to another state or territory of the United States, or the District of Columbia.
d. The taxpayer shall determine the percentage that income allocable to Iowa is of adjusted gross income.
e. The Iowa income tax as computed under section three (3) of this Act multiplied by the percentage determined in paragraph d of this subsection is the net payable Iowa income tax.

Sec. 5. NEW SECTION. RETURNS. Every individual who receives income allocable to Iowa during a taxable
year, and who is required to file a federal income tax return for that taxable year, shall complete, sign, and file an Iowa individual income tax return.

If an individual is unable to make his own return, the return shall be made by an agent, guardian, or other person charged with the care of the person or property of the indivdual.

Sec. 6. NEW SECTION. FIDUCIARY RETURNS. Every fiduciary shall complete, sign, and file an Iowa fiduciary income tax return for any individual, estate, or trust for which he acts, if the individual, estate, or trust receives income allocable to Iowa during a taxable year and is required to file a federal fiduciary tax return for that taxable year.

Sec. 7. NEW SECTION. FEDERAL RETURNS. Tr? director may require any individual or fiduciary required to file an Iowa individual or fiduciary income tax return for any taxable year, to also furnish a true copy of any federal income tax return filed for that taxable year. Every individual and fiduciary shall notify the director in writing of any modification of his taxable income upon which a computation of Iowa income tax has been based. A statement of the facts shall accompany this notice, which shall be filed within thirty days after the modification, at which time the taxpayer shall pay any additional Iowa income tax resulting from a change in taxable income, or shall be entitled to a refund of any excess Iowa income tax paid.

Sec. 8. $N E W S E C T I O N$. HUSBAND AND WIFE. If the federal income tax liability of husband or wife is determined on separate federal returns, their Iowa tax liabilities imposed by this division shall be separately determined.

If the federal income tax liability of husband and wife is determined on a joint federal return, their Iowa tax liability imposed by this division shall be determined on the basis of their joint federal tax liability.

Sec. 9. NEW SECTION. SIMPLIFIED RETURNS. The director shall provide a simplified return for reporting the Iowa income tax imposed on individuals by this division. In addition to the simplified individual income tax return, the director shall prescribe and supply forms for all necessary state income tax returns. State forms shall conform to federal income tax return forms, so far as practicable. Failure to receive or obtain a form does not relieve any taxpayer from the obligation to make a return and pay the tax imposed by this chapter. The individual income tax return form shall provide space for indicating the county and the school district of the taxpayer's residence, and his adjusted gross income and income allocable to

Iowa. A return which does not include this information is an incomplete return.

A taxpayer may show amounts on his Iowa income tax return in whole dollar amounts in the same manner as permitted under section six thousand one hundred two (6102) of the Internal Revenue Code, and the regulations issued under that section.

Sec. 10. NEW SECTION. PAYMENT-INTEREST PENALTY.
Net payable Iowa income tax due shall be paid in full at the time of filing the return. Iowa income tax returns and the net payable Iowa income tax shall be due and payable and shall become delinquent on or before the last day of the fourth month after the expiration of the taxable year. In case of sickness, absence, or other disability, or whenever good cause exists, the director may allow further time for filing returns.

When a taxpayer is permitted to file a late return, interest at the rate of six percent per annum on the total tax due, from the time when the return became delinquent, shall be added and paid.

Sec. 11. Section one hundred thirty-five D point twenty-two (135D.22), subsection one (1), Code 1973, is amended to read as follows:

1. Multiply the number of square feet of floor space each mobile home contains when parked and in use by ten cents, except that if the owner of a mobile home is sixty-five years of age or older and his [net income as defined in section 422.7] adjusted gross income as determined for federal income tax purposes, plus interest and dividends from federal securities and income from social security and other tax-exempt retirement or pension plans, when included with that of his spouse is less than thirty-five hundred dollars per year, the semiannual tax shall be computed by multiplying the number of square feet of floor space the mobile home contains when parked and in use by seven and one-half cents. In computing floor space of the exterior measurements of the mobile home shall be used as shown on the certificate of registration and title, but not including any area occupied by any hitching device.

Sec. 12. Section one hundred thirty-five D point twenty-eight (135D.28), unnumbered paragraph one (1), Code 1973, is amended to read as follows:

If the owner of a mobile home is sixty-five years of age or older and his [net income as defined in section 422.7] adjusted gross income as determined for federal income tax purposes, plus interest and dividends from federal securities and income from social security and other tax-exempt retirement or pension plans, when included with that of his spouse is less than thirty-five hundred dollars per year, the owner may apply for the lower tax rate.

Sec. 13. Section four hundred point three (400.3),
unnumbered paragraph two (2), Code 1973, is amended to read as follows:

Such plan for group insurance may include insurance coverage for an employee's dependents. The term "dependent" shall have the same meaning as in section [422.12, subsection 3] one hundred fifty-two (152), Internal Revenue Code of 1954.

Sec. 14. Section four hundred twenty-two point sixteen (422.16), subsections eight (8), nine (9), and subsection eleven (11), paragraphs a and e, Code 1973, are amended to read as follows:
8. An employer or withholding agent shall be liable for the payment of the tax required to be deducted and withheld or the amount actually deducted, whichever is greater, under subsections 1 and 12 of this section; and any amount deducted and withheld as tax under subsections 1 and 12 of this section during any calendar year upon the wages of any employee, nonresident, or other person shall be allowed as a credit to the employee, nonresident, or other person against the tax imposed by [section 422.5] this division, irrespective of whether or not such tax has been, or will be, paid over by the employer or withholding agent to the department as provided by this chapter.
9. The amount of any overpayment of the individual income tax liability of the employee taxpayer, nonresident, or other person which may result from the withholding and payment of withheld tax by the employer or withholding agent to the department under subsections 1 and 12 hereof, as compared to the individual income tax liability of the employee taxpayer, nonresident, or other person properly and correctly determined under the provisions of [section 422.4, to and including section 422.25] this division, may be credited against any income tax or installment thereof then due the state of Iowa and any balance of one dollar or more shall be refunded to the employee taxpayer, nonresident or other person with interest at six percent per annum, such interest to begin to accrue forty-five days after the date the return was due to be filed or was filed, whichever is the later date. Amounts less than one dollar shall be refunded to the taxpayer, nonresident, or other person only upon written application, in accordance with section 422.74, only if such application is filed within twelve months after the due date of the return. Refunds in the amount of one dollar or more provided for by this subsection shall be paid by the state treasurer by means of warrants drawn by the comptroller at the direction of the director, or an authorized employee of the department, and the taxpayer's return of income shall constitute a claim for refund for this purpose, except in respect to amounts of less than one dollar.

There is hereby appropriated, out of any funds in the state treasury not otherwise appropriated, a sum sufficient to carry out the provisions of this subsection.
11. a. Every person or married couple filing a joint return shall make a declaration of estimated tax if his or their Iowa income tax attributable to income other than wages subject to withholding can reasonably be expected to amount to fifty dollars or more for the taxable year, except that, in the cases of farmers and fishermen, the exceptions provided in the Internal Revenue Code [of 1954] with respect to such declarations shall apply. The declaration [provided for herein] shall be filed [on or before the last day of the fourth month of the taxpayer's tax year for which such declaration is filed] at the same time as the Iowa income tax return for the same taxable year, in such form as the director may require by regulations. The estimated tax shall be paid in quarterly installments. The first installment shall be paid at the time of filing the declaration. The other installments shall be paid [on or before June 30, September 30, and January 31] at the same time as installments are required to be paid under the Internal Revenue Code. However, at the election of the person or married couple filing jointly, any installment of the estimated tax may be paid prior to the date prescribed for its payment. Whenever a person or married couple filing a joint return have reason to believe that his or their Iowa income tax may increase or decrease, either for purposes of meeting the requirement to file a declaration of estimated tax or for the purpose of increasing or decreasing such declaration, an amended estimate shall be filed by him or them to reflect such increase or decrease in estimated Iowa income tax.
e. Any amount of tax paid on a declaration of estimated tax shall be a credit against the amount of tax found payable on a final, completed return, as provided in subsection 9 hereof, relating to the credit for the tax withheld against the tax found payable on a return properly and correctly prepared under the provisions of [section 422.5 , to and incuding section 422.25] this division, and any overpayment of one dollar or more shall be refunded to the taxpayer and such return shall constitute a claim for refund for this purpose. Amounts less than one dollar shall be refunded to the taxpayer only upon written application in accordance with section 422.74, but only if such application is filed within twelve months after the due date for the return. The civil penalties provided by the Internal Revenue Code [of 1954] for failure to file a declaration or for underpayment of the tax payable shall apply to persons

## HOUSE RESOLUTION 11

By Byerly and Nielsen
Whereas, it appears that more individual voting could be obtained if members of the House of Representatives were unable to see the votes of
their fellow members on the voting machine panel; and
Whereas, it appears that debate in the House of Representatives would become more important and the noise level in the House chamber would be reduced if members of the House of Representatives were unable to see the votes of their fellow members on the voting machine panel; and

Whereas, it appears that attendance of House members during debate would be increased if the members of the House were unable to ascertain the votes of their fellow colleagues in the House; Now Therefore,

Be It Resolved by the House of Representatives, That the Chief Clerk of the House of Representatives is instructed to install a curtain of opaque material which will cover the voting machine panel on all record and nonrecord roll call votes and be opened only after the vote has been announced by the Speaker.

## HOUSE CONCURRENT RESOLUTION 64 By Small (Gluba)

Whereas, cable television is at present not adequately regulated by Iowa laws; and

Whereas, the potential effect of cable television upon local governments and the people of lowa has not been carefully studied and considered and because the potential effect of cable television on existing business entities, its use by schools and law enforcement agencies, and other uses must be considered when granting a cable television franchise; and

Whereas, numerous cities and towns are presently considering granting franchises for cable television without adequate study and are without the benefit of state guidelines relating to the uses of cable television, the legal implications involved in the length of franchise granted, the adequacy of tax revenues, conflicts of interest, and the possible development of monopolies; and

Whereas, it is necessary that guidelines be established for local governments in order that the total concept, potential and impact of cable television may be adequately considered in light of other communications systems and in order that local governments may negotiate cable television franchises which are in the best interests of the public; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council is authorized to create a study committee composed of members of the two houses of the General Assembly representing the two political parties and such citizen members as may be deemed desirable, to study the total concept of cable television; and

Be It Further Resolved, That, in making the study, the committee consider factors such as the length of franchises, tax revenues, concessions in negotiating franchises, their effect on existing businesses including the possible development of monopolies, local applications of cable television, conflicts of interest, uses by schools, law enforcement agencies, and other agencies, state regulation to prevent the invasion of privacy, and any other considerations deemed advisable; and

Be It Further Resolved, That the study committee make periodic reports to the legislative council and submit a final report which shall contain recommendations for suggested guidelines for use by local governments in granting franchises, including necessary bill drafts to implement its recom-
mendations, to the legislative council. Copies of the report approved by the legislative council shall be submitted to the General Assembly meeting i the year 1974.

Laid over under Rule 25.

## HOUSE CONCURRENT RESOLUTION 65 <br> By Freeman and Crabb

Whereas, it is in the public interest of the state of Iowa that a continuous effort be made to provide the people of this state with an effective and efficient government to meet their needs; and

Whereas, the services of the state should be rendered at the minimum possible cost and inconvenience to the citizens of this state; and

Whereas, state government should provide a competent mechanism through which local governments can become involved in policy formulation and execution at the state level; and

Whereas, the division of the state into regions for administrative purposes is an appropriate mechanism for maintaining coordinated state and local governmental activities if the proposed regions are created with regard to appropriate criteria acceptable to the public; and

Whereas, the present regional concept for the state of Iowa which was established by executive order in 1968 has not proven successful because the regions were created using inappropriate criteria and, as a result, citizens are dissatisfied with the designated regions; Now Therefore,

Be It Resolved by the House of Representatives, the Semate Concurring, That the Legislative Council is authorized to create a study committee to study the division of the state into regions for administrative purposes and recommend what criteria should be used as a basis for designating the regions, which committee shall include members of the appropriate standing committees of the House of Representatives and the Senate; and

Be It Further Resolved, That the study committee shall make periodic reports to the Legislative Council during the 1973-74 interim period and submit a final report which shall include necessary bill drafts to implement its recommendations to the Legislative Council and the General Assembly.

Iowa Commission on Alcoholism
(Administration)
The committee's recommendation is for a budget and state appropriation of $\$ 47,720$ for 1973-74 and $\$ 48,630$ for 1974-75.

From this budget total, $\$ 33,600$ for $1973-74$ and $\$ 34,410$ for 1974-75 is budgeted for salaries and wages. This does not allow for any increase in staff and is intended to fund three permanent full time positions for each year of the biennium.

Support and maintenance expenses, which include travel, office supplies and expense, printing and binding, telephone and telegraph, dues, and publications, are budgeted at $\$ 14,120$ for 1973-74 and $\$ 14,220$ for 1974-75.

The committee's recommendation is based on the itemized figures contained in the Legislative Fiscal Director's worksheets and are on file in the office of the Legislative Fiscal Director.

## (Grants for Treatment)

The committee's recommendation for grants for treatment is for an appropriation of $\$ 500,000$ for each year of the biennium.

It is the committee's intent and the bill states that none of the funds appropriated for grants for treatment be used for administration in the general office and that no more than 15 percent of the amount appropriated be granted to any single alcoholism treatment facility.
