## ELECTION OF SPEAKER

Middleswart of Warren presented the name of the Honorable Dale M. Cochran of Webster as candidate for Speaker of the House of Representatives of the Sixty-sixth General Assembly, preceding such nomination with the following remarks:
Mr. Chairman, Ladies and Gentlemen of the House:
I am proud to perform a chore which is long overdue.
I will place a name in nomination for Speaker of the Iowa House of Representatives for the 66th General Assembly.

The man whom I nominate has long been serving the people of this state in several capacities. He was born in Webster County and graduated from High School there. Married to the former Jeannene Hirsch, he is the father of three daughters, Deborah, Cynthia, and Tamara.

A graduate of Iowa. State University in 1950, he served for several years as a County Extension Director and as Farm Editor for the Fort Dodge Messenger.

He is a leader in his home community of Vincent, Iowa, where he is engaged in farming, and is owner of a 400 acre farm there. He served on the Congressional staff of Merwin Coad, prior to his election to this House in 1964, and he now begins his 6th consecutive term as State Representative from the Webster County area.

He has been a member of our Legislative Council since its inception. He has been recognized in the length and breadth of this country for his interests, and expertise in the legislative process and has been honored by being elected vice chairman of the Intergovernmental Relations Committee of The National Legislative Conference.

He has served with distinction as minority floor leader of this Assembly for the last four years.

I think he personifies the kind of person which everyone likes to see in our country today. Friendly to everyone. Pleasing to know. Concern for
people-integrity and honesty-above all reproach-dignified and sincerea willing cooperator, bi-partisan in spirit-a willing worker-and above all a capable legislator.

Ladies and Gentlemen: I nominate for Speaker, from Webster County, THE HONORABLE DALE M. COCHRAN.

Fitzgerald of Webster seconded the nomination of Dale $M$. Cochran for Speaker of the House, preceded by the following remarks:
Mr. Speaker, Ladies and Gentlemen of the House:
I rise to second the nomination of Dale M. Cochran.
We have already heard of Mr. Cochran's life, his family, and his contributions to the State of Iowa. But I think it is important to underscore the quality of political judgment he has demonstrated during his ten years as a member of the House of Representatives. Twice the Democratic minority floor leader, Mr. Cochran has proven his ability to work for sound legislation in a spirit of cooperation. He has consistently exhibited willingness and talent in working to pass priority legislation for the benefit of all Iowans.

When his party was the minority in the House, he conducted himself with a solid sense of fairness for the interests of all Iowan and their elected Representatives without compromising the fundamental integrity of his party's position on critical issues. Now that there is a Democratic majority in the House, Dale M. Cochran is not about to foresake those qualities of political balance, keen insight, and basic concern for the needs of all Iowans that are the hallmarks of his career of leadership.

Viewing his record as a community leader and public servant, it is clearly my great honor and pleasure to second the nomination of the Honorable Dale M. Cochran as Speaker of the House of Representatives for the Sixtysixty General Assembly.

Millen of Van Buren seconded the nomination of Dale M. Cochran for Speaker of the House, preceded by the following remarks:

Mr. Speaker, Ladies and Gentlemen of the House:
It is my privilege and pleasure to second the nomination of my friend and colleague, the Honorable Dale M. Cochran as Speaker of the House. I note that two (2) years ago it seemed quite the fashion of the Democratic Party to take the opportunity to give political speeches during their seconding speeches. You may want to note Page 11 of the House Journal, Sixtyfifth General General Assembly, 1973 Session.

I am not going to give a political speech at this time. I have several reasons, one being-I'm looking forward with great anticipation to a productive and short session; I want to do my part by not delaying the action and, frankly, the State Central Committee didn't write one for me.

I have been a member of this General Assembly during the ten (10) years that Mr. Cochran has served. I know him as a good friend, a trusted, very able, conscientious and dedicated legislator and I am confident that Mr . Cochran will be cooperative and give us good leadership the next two (2) years.

I now move that the Chief Clerk be authorized to cast a unanimous ballot for the Honorable Dale M. Cochran as Speaker of the House of Representatives for the Sixty-sixth General Assembly.

In accordance with the foregoing motion, the Acting Chief Clerk cast the votes of all the members of the House of Representatives for the Honorable Dale M. Cochran as Speaker of the House of Representatives of the Sixty-sixth General Assembly. The Honorable Dale M. Cochran of Webster, having received all of the votes cast for the office of Speaker of the House of Representatives of the Sixty-sixth General Assembly, was declared duly elected to that office.

Wells of Linn moved that a committee of two be named to escort the Speaker to the chair.

The motion prevailed and the following committee was named: Wells of Linn and O'Halloran of Black Hawk.

## PRESENTATION OF SPEAKER

The Honorable Dale M. Cochran was escorted to the Speaker's station and, having been sworn, assumed the chair. Temporary Speaker Doyle of Woodbury presented Speaker-elect Cochran with the gavel and congratulated him on his unanimous election.

Speaker Cochran thanked the House for the honor bestowed upon him and offered the following remarks:

It is at moments such as this that one finds it most difficult to utter words to express the appreciation I have for this honor; while at the same time, giving recognition to the responsibility you have bestowed upon me in the office of Speaker of the House.

The opening day of the Iowa General Assembly is by its very nature, an historic occasion. As legislative ceremonies unfold throughout this week, members-and particularly new members, will feel our roles in the history of the state we serve.

We will be called into joint session with our colleagues in the Senate in the same ceremonies that have called the House and Senate together for most of Iowa's 129 -year history. The pattern by which the legislature invites the executive to address us is the same pattern by which legislatures invited Governor James Grimes, Albert Cummings, and Clyde Herring to address this Assembly.

For my own part, I hope we always retain the ceremonial nature of the opening week of the Iowa Assembly, for it is in these traditions that we find the necessary reminder that we are only temporary stewards of Iowa government. If we are wise, we will relish our opportunity to play vital parts in the legislative history of Iowa-always remembering that it is the quality of our collective work here that will finally be the only lasting testimony to our presence in these chambers.

There are other noteworthy historical qualities attending on this particular opening day. This is but the third time in over a century that both houses of the Assembly have held Democratic party majorities. And it is the FIRST time in history that the legislative branch has been in the hands of Democrats while all the offices of the executive branch are held by Republicans.

Perhaps historians will find it true that, as Dickens wrote of another period in history called the French Revolution, "These were the worst of times; these were the best of times." While I hasten to say I certainly do not foresee the makings of a revolution on any scale as a result of the partisan make-up of Iowa government in 1975, I think it foolhardy to pretend this unique situation doesn't exist.

It will be, however, a time of testing-not so much the testing of individuals, of personalties, of partisan strengths and weaknesses, but of the essence of democratic government itself. Cracks and strains will be here, and as we all know, these will show.

But more significantly, this is a situation in which the inherent strengths of the legislative process can emerge perhaps more clearly than at any time in the state's history. This new climate in Iowa government is clearly the legislative branch's opportunity to demonstrate its role as the policy maker for the people of the state of Iowa.

It is an important role that extends far beyond mere bill drafting and debate. It is a role played out by intelligent men and women who each hold personal and individual hopes and dreams for Iowa. And by persons with strong and, I believe, healthy differences of opinion upon how to achieve the best policy for our people. That disagreement in approach which we label "Democratic," "Republican," "conservative," "liberal," or "moderate," come together in these chambers in a composite that mirrors the political philosophies of ALL Iowans.

So for you and for me especially today, we note that that is the beauty of our system-that the very nature of democracy can truly only be demonstrated in a legislative process. And for Iowa, only in these very chambers. Only in this legislature.

The task of making policy for nearly three million people demands no less than a painstaking, sometimes painful, debate of the ideas of fallible men and women. But it is only after such debate-reflective of the viewpoints of all our citizens-that realistic policy can be formulated.

I am proud to renew our collective pledge that this will truly be a peoples' forum; and that the laws that result here will be responsive to those whom we serve.

We know that creating law that touches every aspect of the lives of human beings is an awesome burden. It is more than raising money to do it-it is more than spending the money to do it-though these will be the focus of our attentions in this, the appropriations season of government. The greater challenge, and our common bond, is to create policy which finally results in a quality of life for Iowans that is unsurpassed anywhere.

Yes, that is awesome, but it needn't be overwhelming, for we are legislators who know that debate does not divide us; it is our debate that makes it possible to write law that results in a single voice from the legislative branch of government.

Now, to preside over the body that is charged with such challenge is at once both an honor and a humbling experience. For me, the office of Speaker of the House of Representatives requires not just the duty of presiding here, though 1 am keenly aware of my constitutional duty. But in addition, I have only the utmost respect for this chair and for the integrity that is associated with it-which is in part because of the dedication of fair-minded Speakers who precede me.

Beyond that, let me take note of the legislative process that placed me here. It is to me the highest honor to have been elected to preside by my colleagues-by my fellow legislators, whose confidence and trust in me constitutes the greatest compliment I have ever received in my legislative career.

It is a trust I shall not jeopardize, for to do so would be to break trust with the people of our state for whom you act.

I pledge to them and to you today that I will act as your presiding officer with your trust and your confidence as my primary and sole considerations, as we labor together for all Iowans.

Speaker Cochran in the chair.

## ELECTION OF SPEAKER PRO TEMPORE

Higgins of Scott placed in nomination the Honorable Norman G. Jesse as candidate for Speaker pro tempore of the House of Representatives of the Sixty-sixth General Assembly, preceding his nomination with the following remarks:
Mr. Speaker, Ladies and Gentlemen:
I deem it a privilege to place the name of Norman Jesse as Speaker pro tempore of the Iowa House of Representatives.

An attorney in Des Moines, a graduate of Iowa State University and Drake University School of Law, he is now serving his fourth term.

Those who are privileged to know Norm recognize his ability as a legislator and his qualities as a friend and colleague. He has served with distinction in many areas critical to this state. Certainly his work with the judiciary committee and the Criminal Code will bring the respect of the citizens of Iowa when the latter is enacted into law.

More than that, though, he has been a conscience among us as legislators. His eloquent voice has challenged the best of us. On more than one occasion he has arrested our interests and, something that rarely happens, he has changed our votes.

We respect and enjoy his wit and sense of humor. We are painfully aware of the need for a sense of humor and Norm Jesse rarely loses that sense of humor.

He has been a good friend-compassionate and dedicated. There can be no doubt that he will not only redeem our faith in our elected leadership, but he will serve the people of Iowa well.

Mr. Speaker, I am happy to nominate Norman Jesse for Speaker pro tempore.

Miller of Buchanan seconded the nomination of Mr. Jesse as Speaker pro tempore of the House of Representatives, preceding his nomination with the following remarks:

I wish to second the nomination of Norman Jesse as Speaker pro tempore of the Sixty-sixth General Assembly. Mr. Higgins has summed up his qualifications very well. I would hope that the storm in western Iowa will not be an indication of what is to come in this session.

Varley of Adair seconded the nomination with the following remarks:
Mr. Speaker, Ladies and Gentlemen of the House:
I rise to second the nomination of Norman G. Jesse as Speaker pro tempore of the House. We are all here for the purpose of passing responsible legislation for the benefit of all the people of Iowa. We in the minority pledge our support to the principles of good government and sound legislation. We are committed to an open legislative process that provides for public scrutiny of our activities and full debate of controversial issues.

I believe Mr. Jesse is well qualified to serve the House as Speaker pro tempore in a fair and objective manner and, therefore, move that the Chief Clerk be authorized to cast a unanimous ballot for the Honorable Norman G. Jesse of Polk County as Speaker pro tempore of the House of Representatives for the Sixty-sixth General Assembly.

In accordance with the foregoing motion, the Chief Clerk cast the votes of all the members of the House of Representatives for the Honorable Norman G. ## ANNOUNCEMENT BY THE CHIEF CLERK

The following communication was received from Serge H. Garrison, director of the Legislative Service Bureau:

Many legislators requested bill drafts to be prepared prior to the convening of the legislative session. The Legislative Service Bureau will be notifying all legislators whose bills are completed of such fact within the mext day or two. It will take a day or two to clear the completed bills from the Bureau offices. If at all possible, legislators are requested to delay inquiries as to the status of bills for a day or two in order that completed bill drafts can be cleared from the offices of the Legislative Service Bureau and to prevent confusion which might result from so many inquiries at one time. Once the completed bills are cleared from the Legislative Service Bureau, it will be much easier to handle inquiries as to the status of other requests. Requests for additional bill drafts will be handled at any time.

SERGE H. GARRISON, Director Legislative Service Bureau

The motion prevailed and the President appointed as such committee Senators Gallagher of Black Hawk, Nolin of Carroll and Briles of Adams, on the part of the Senate, and Representatives Husak of Tama, Brunow of Appanoose and Drake of Muscatine, on the part of the House.

The committee waited upon Governor Robert D. Ray and escorted him to the Speaker's station.

President Neu then presented Governor Robert D. Ray who delivered the following address:
Mr. President, Mr. Speaker, Mr. Chief Justice, Senators and Representatives, State Officials, Distinguished Guests, Ladies and Gentlemen:
I am not going to deliver my budget recommendations to you until next week. But this morning I am going to give you a small preview.

One appropriation I will recommend contains a few dollars to the Iowa Historical Society for a compilation of all the messages and addresses of Iowa's governors over the last seventy years.

I admit I had some reservations about this undertaking only a few weeks ago when Peter Harstad, Director of the Historical Society, proposed it during the Governor's budget hearings.

As I said then, the work will never be a best seller.
But I had a change of heart during the preparation of this message and those that will follow.

For I had an opportunity to look back over the messages Iowa's early governors delivered to Iowa's pioneer legislatures, and their words often have special relevance to today's complex times.

Those early gubernatorial messages mention troubled economies, national unrest, adverse weather conditions, and concern about the leverage of great monopolies against individual people. In short, they deal with the same problems which we face today.

Our predecessors survived the hardships and overcame their many crises -just as we will do.

Those early messages illustrate so well that today's crises are tomorrow's history.

And a careful reading reaffirms the wisdom of approaching problems with perspective and judgment rather than with rhetoric bordering on hysteria.

Reading history made by those early governors and legislatures is good for yet another reason. It quickly inspires humility, something all of us in polities can use.

The names of R. P. Lowe, Buren R. Sherman or Frank D. Jackson are not exactly household words. But they all served as Governor of Iowa for at least four years.

Then again, neither do the names of Samuel L. Bestow or George R. Struble leap at us from the pages of history. But they distinguished themselves as leaders in the Iowa Senate and House of Representatives, respectively.

This would be well for us to consider at a time when the Sixty-sixth General Assembly is only hours old.

Iowans of the future will best remember what is accomplished by this legislature, not necessarily who it was who did it. It will be our deeds and not our names which will make lasting Iowa history.

Our people will look to us for results, not talk or game playing. And for those who might want to use this session for a political forum, remember the effect your actions have on the lives of people. It was Plutarch who reminds us from 2,000 years ago: "Though boys throw stones at frogs in sport, the frogs do not die in sport, but in earnest."

Another common thread runs through the messages of early governorsan appreciation for this place we call Iowa.

We are, yet today, a privileged people in Iowa-privileged in ways not shared by many in other states.

If you read the December 9, 1974, issue of Time Magazine you would have noted that Iowa, in the midst of a national recession, had the lowest unemployment rate in the country.

We know, however, the number of Iowans without jobs is increasingreminding us graphically that for all our advantages, we are an integral part of a national economy.

It tells us there are some people in Iowa today who are out of work, who do not have paychecks, who are living with the fear and uncertainty which can only be understood if you've ever been without a job.

This should remind us all that these are not times for reckless governmental spending on the hope that economic growth will continue to swell the state treasury with surplus funds.

1974 was a year of hardship for many of our farmers-still reeling from adverse weather and depressed livestock prices.

Yet in spite of these trials, Iowa's corn and soybean production in 1974 was the fourth largest crop in our history. Our total foreign exports of farm products amounted to $\$ 1.774$ billion last year, clearly demonstrating we have become a major economic force, not only in the United States, but in the world.

We are blessed with another condition in our state-Iowa is not experiencing the sharp growing pains of population explosion some other regions are. We have seen hopeful signs that our population is stabilizing and becoming more balanced between rural and urban settings.

1974 was a year that saw our energy woes-which had been building for decades-become a factor in the terrible economic toll of double-digit inflation.

And it was a year in which we weathered a change in national leadership under the most traumatic circumstances.

Now as we begin 1975, fraught as it may be with economic problems and threats of material scarcity, we in Iowa can list an inventory that can give us confidence.

We are, as a group, among the best educated of the world's peoples. We have just experienced one of the greatest growths in per capita income. Healthy industrial development, despite the money and energy crunches, has been moving forward.

Our environment is relatively free of pollution in comparison to other regions, and we can preserve it. We are one of the greatest food-producing areas of the world. Our government is open and stable.

These advantages should not be seen as gifts only to be enjoyed, but as opportunities to be used.

In a recent National Geographic magazine, there appeared an article entitled "The Family Farm Ain't What It Used To Be." Featured was Earl Zumbach from Delaware County, an excellent representative of Iowa's modern farming community. He knows running a farm business requires great management skills and careful planning.

In the article, Mr. Zumbach is quoted as saying: "I've always thought a guy should just sit down on a feed sack in the barn every so often and try to set some goals."

Serving in government today is a tough chore, too, requiring a sense of good management and goal-setting.

Every so often we should "sit down on the feed sack" and do some hard thinking about this state and our role in shaping its direction.

First, I think we have to realize we are operating in a period of great uncertainty. While this is no time to be timid or to withdraw, it is a time to exercise judgment and caution, particularly as you get down to the business of lawmaking and budget making.

Essentially, it is a time that will require great balance. I recognize the very human tendency to get caught up in the moment and to react within the confines of the moment-and so it is important that we keep our perspective.

Let me illustrate. There have been many kinds of material shortages recently. We even had a shortfall of carpenters' nails. We had been so successful in our emergency fuel oil pool that one legislator urged us to put the state into the nail business. If one followed his logic, soon government might be merchandising just about every commodity. This is not government's proper role.

Common sense, as well as conditions which will shape us, requires a balanced approach to state government.

Without much effort, you can give Iowans too much government. May I tell you again if government assumes too many functions, individual and private performance deteriorates.

On the other hand, if government assumes too little responsibility, private economic power may be exercised in ways detrimental to society as a whole;
disparities in wealth and income may become too great; and public services worthy of a great people may not be provided.

The most important priority for both the executive and legislative branches of Iowa state government is wise management of what we have . . . to make government work better.

That isn't fancy and it won't get you headlines back home. But if we are successful, there will be enough credit for all the politicians.

To members of both parties seeking to win favor in the eyes of your constituents I would suggest: He serves his party best who best serves Iowa and she serves her party best who best serves Iowa.

There is much within your power to do during this legislative session.
You can be a part of solving the most serious problem that confronts us as a nation. It is not inflation or the energy shortages or dwindling resources, as important as these are. Our most serious problem now is that many people in this country have lost their confidence. They fear the worst. People who fear the worst tend to invite it. Heads lowered in despair cannot scan horizons for new opportunities.

How do you help? You do it with performance, the kind of performance that can restore the confidence of people in their government, in themselves and in their future.

We approach our task with a shared affection for Iowa. And our behavior toward this state should be as J. B. Priestly once describedthat of a "loving wife toward her husband who would do anything on earth for him except stop criticizing him and trying to improve him." Our state deserves that same affectionate treatment, but also the same sharp glance.

I have spoken of Iowa in affectionate terms as I have discussed the Condition of the State. Let me also share with you some recommendations for improvement, derived from a sharp glance at the problems.

In addition to numerous pieces of management legislation which I will spell out in this message, and, in addition to specific measures which I will deliver to you next week in the budget address, I see especially three major areas that demand your attention during this session.

They have a commonality. All deal with the wise use and attention to that which we term our resources.

You should approach each with perspective and that sense of balance which is so necessary.

They deal with our human resources, our natural resources, and the financial resources of our state government.

## 1. HOUSING AUTHORITY

First, in the area of human resources: We in lowa are among the best fed, best clothed, best educated and most affluent of all the world's peoples. Yet there remain among us those who don't have a decent place to live. Shortage of capital for many, high construction costs and tight money have discouraged needed construction of housing. An Iowa Housing Authority would be in a position to attract federal funds and have the ability to encourage housing for low income, elderly and handicapped persons. Our Governor's Task Force has developed much additional information to assist you, and it is within your power now to take this important step by creating an Iowa Housing Authority.

## 2. LAND USE PLANNING

Second, in the area of natural resources: In Iowa, our land has to be one of our most important natural resources. Decisions are made each day that dictate for decades the way in which Iowa land is used. Each year, some 30,000 acres give way to urban demand, and this at a time when the world's needs for food production become ever greater. We must respect the right of individuals to own their land and to make determinations for its use. But it is also imperative that our land not be exploited, destroyed or used in such a way that other landowners are deprived of reasonable use of their property. In 1972, many of you were here when you enacted the nation's first soil conservancy law, pioneering the concept that our land, even though in private ownership, is still a public trust. It is a law working exceedingly well. This session you can again pioneer with solid land-use planning legislation.

## 3. IMPROVING THE INCOME TAX

Third, there is the matter of financial resources. In all your actions here do not forget for a moment that you are spending other people's money. Taxes are never easy to pay; they become even a greater hardship in times of economic downturn, precisely the same time when many turn to government for help.

It is a continual process to assure our people that taxes levied against them are imposed fairly and equitably. Much has been done already in this decade of the seventies to improve the fairness and mixture of Iowa's tax structure.

We have seen a major shift from regressive local property taxes to state revenues for school financing. Much of it has been phased in over the years, as we said it would be when we proposed the plan in 1971. Today, it is now an accomplished fact-more than half of the revenue supporting operations of our elementary and secondary school system comes from sources other than property taxes. When this shift was made, the progressivity of Iowa's income tax was also improved.

In 1973, basic costs of welfare were lifted from property taxes to state taxes. Property taxes on livestock were repealed. A phaseout of all personal property taxes began. A sweeping new elderly tax relief plan was enacted. The minimum income level for paying state income taxes was raised, benefiting low income people.

In 1974, the standard deduction in the income tax was doubled; the basic exemption on the inheritance tax was increased and we took the giant stride of eliminating the sales tax from food and prescription drugs.

The income tax is our most progressive tax. Its very progressivity makes it most reactive to inflation in the economy. We have seen people jump from one tax bracket to a higher one even though they're experiencing a drop in actual purchasing power.

It is apparent that another improvement is in order.
In my budget message next week I will spell out with a specific proposal how we can build greater equity into our state income tax.

I want to now mention other specific recommendations. Hopefully, a number of them will be somewhat familiar to you.
-WASHINGTON OFFICE. Federal actions strongly affect the interests of our state. We would do well to strengthen our relationship with our Congressional delegation in a concerted effort to assure our state of deriving
maximum benefits and protection from the federal government. An excellent way to do this would be to establish an office in the nation's capitol as 22 other states have already done.
-COMPETITIVE BIDDING LAW. In this session you should enact a competitive bidding law for other units of government similar to that which applies to state government.
-EMPLOYMENT SECURITY REORGANIZATION. Iowa state government has experienced broad reorganization in the 1970's. An additional step you can take in this session is to place the administration of our essential Employment Security Commission under a single director, with a review board, in lieu of the archaic three-member commission form.
-CRIMINAL CODE REVISION. Proposals to revise Iowa's criminal code have been under consideration for a long time and much groundwork is already done. Adopt or reject what you will, but do take action.
-LIQUOR OUTLETS. I want to again suggest that the Iowa Liquor Commission be allowed to establish, under its control, franchised outlets in our smaller communities in lieu of establishing state-owned facilities.
-SPEED LIMIT. We cannot permit the present fifty-five miles per hour speed limit to expire on June 30. Slower highway speeds have become a fact of life in a nation which must become increasingly energy conscious. Best of all, we have seen a savings of lives.
-DIVISION FOR THE DEAF. We believe a good way to aid our Iowans handicapped by deafness would be to provide a Division for the Deaf in the Iowa Department of Health.
-WAGE COLLECTION/WAGE PAYMENT LAW. It is shattering enough to lose a job; it is devastating to be denied wages owed. Now is the time to strengthen our law protecting workers.
-ABONDONED RAILROAD RIGHT-OF-WAY. Rail lines now considered for abandonment wind through some of Iowa's most scenic areas. It is in the public interest to preserve these routes for bicycling and hiking trails where feasible, or for other purposes that would otherwise take productive farmland. Units of government should have first option to obtain these routes.
-TAX EXEMPTION FOR HOME IMPROVEMENTS. I have long felt that in the interest of fairness, Iowans should provide a temporary exemption on the taxation of improvements and additions to a person's home.
-CABLE-TV TASK FORCE. Cable television has passed the infancy stage in Iowa and is growing. I would ask that you assist us in developing a special one-year Task Force to examine this important area which holds such great potential for public good.
-IMPROVE CAMPAIGN LAW. We now have a working campaign finance and disclosure commission. In addition to financial matters, we should broaden its scope to include unfair campaign practices.
-MOBILE HOME TIE-DOWN. There is solid evidence that tie-down of mobile homes can prevent loss of lives and reduce property damage in severe wind. Such tie-downs should be required by law.
-AREA SCHOOLS' ROLE DEFINED. Our area schools are the fastest growing segment of Iowa's educational system with a primary mission of providing career training for our people. This role should be strengthened and clarified by legislative expression.
-COUNTY GOVERNMENT. Government closest to the people can be the most efficient government of all, and proposals to unify the 42 funds now identified in county budgets into seven basic funds could provide county officials much more flexibility within workable and controllable limitations.
-UNFAIR TRADE PRACTICES/ANTI-TRUST. Iowa's present antitrust law is vague and antiquated. It should be updated and should cover services as well as products in a modern unfair trade practices law. Also, the possibility of civil sanctions in addition to purely criminal sanctions should be considered as a means to discourage price-fixing schemes.
-PARK USER FEE. A modest fee for use of Iowa's parks is a reasonable and fair way to assure Iowans attractive and well-kept recreational areas. In a related matter, I urge you to repeal the law making it mandatory to license such water craift as inflatable rafts and canoes. This provision went too far and we should correct it.
-NO-FAULT INSURANCE. While you should not curtail a victim's right to recover from a wrongdoer, there is merit in first-party insurance coverage for medical expenses and loss-of-earnings payments regardless of who is at fault in an accident. I recommend you adopt a reasonable no-fault insurance plan.
-CHILDHOOD DEVELOPMENT. I urge you to join us in exploring the potentials of increased efforts in early childhood development through
a funding measure to back up our Governor's Task Force that has already begun work.
-STRENGTHEN ENERGY POLICY COUNCIL. With twenty-five percent of all energy consumed in Iowa used in transportation, it makes sense to include the Director of the Department of Transportation as a member of the new Energy Policy Council.
-FOREIGN INVESTMENTS IN IOWA LAND. Iowa law now limits foreign alien investment in Iowa land to 640 acres. But you should strengthen it to assure there are not loopholes available to those who would circumvent this law for their own personal gain.
-CORPORATE FARMING. Large-scale corporations or conglomerates that take an unfair competitive advantage not only pose a threat to the family farm and the efficiency of our agricultural system, but also threaten the very basic social fiber of our Iowa communities. Legislation requiring curtailment of non-farm corporate involvement should be aimed at the right target and should not deny our farmers the necessary framework for continued efficient operation.

In this message I have not attempted to discuss the need of improving our Iowa Public Employees' Retirement System (IPERS), or how we must approach the important matters of highway financing, conservation, education and social services, or additional help for cities and towns. These, and numerous other matters, directly relate to the state budget and I will be detailing recommendations to you in that message next week.

As this session begins, much has been made of the change in control of this legislature. While it is true that different people must now assume responsibility for leading your two houses, the control has not been relinquished - it is still firmly in the hands of the people.

Each of you has been given a special opportunity to serve. For this privilege much is required of you.

You will be judged at some future date by history, which will take note whether in your brief span of service you fulfilled your responsibilities to your state and its people.

Your success or failure will be measured by the answers to four questions: First, were you people of courage?
Second, were you people of judgment?
Third, were you men and women of dedication?
And finally, were you men and women of integrity?
Though it is true that the quality of a product need not be judged by the length of time it takes to produce it, it is also true that our constituents would welcome a short session.

It is in their interest that you start with a minimum of partisanship and divisiveness, for, as Plato said: "The beginning is the most important part of the work."

Let us begin.
Governor Robert D. Ray was escorted from the House chamber by the committee previously appointed.

## CANVASS OF VOTES

President Neu announced that the time had arrived for the canvass of votes for the offices of Governor and Lieutenant Governor at the General Election held on November 5, 1974, and announced as teller, on the part of the Senate, Senator Rodgers of Dallas, and assistant tellers Senators Sovern of Linn and Schwengels of Jefferson, and as teller, on the part of the House, Representative Woods of Polk, and assistant tellers Representatives Rinas of Linn and Pellett of Cass.

President Neu further announced that, in accordance with statute, the six tellers just named would constitute the judges of said canvass.

The returns were opened in the presence of the joint convention and the tellers then proceeded to canvass the vote for Governor and Lieutenant Governor of the State of Iowa, cast at the General Election held on November 5, 1974.

On motion by Fitzgerald of Webster, the joint convention recessed until 1:00 p.m., Thursday, January 16, 1975.

The House reconvened, Speaker Cochran in the chair.

Lieutenant Governor Arthur A. Neu, President of the Senate, presiding, presented Governor Robert D. Ray, who delivered the following inaugural address:

Mr. President, Madame President Pro Tempore, Mr. Speaker, Mr. Chief Justice, Senators and Representatives, State Officials, Distinguished Guests, Ladies and Gentlemen:
Yesterday, our President gave the state of the nation address and started that message by saying that he had bad news. Today as I start this inaugural message, I want to give you some good news because I want to talk about Iowa.

This is a time when the answers to this country's problems do not come easily.

So I want to begin with a question.
Is there any place in this nation, any place in this world right now where people are any better suited, any better equipped, or any better situated to manage their problems than we are here in Iowa?

As grim as some forecast we in Iowa can have good reason for optimism; we can make a case for hope.
-We can be optimistic in the attitudes of our young people, in their questioning of many of the materialistic values of our society and in their sensitivities to inequities and injustices.
-We can be optimistic about the growing numbers of positive examples of the ways in which we are using our technology, and our political will, to produce a better environment.
-And we can be optimistic about the very nature of our Iowans and
the evidence in our past that Iowans can and will respond to appeals to higher values and larger concepts of enlightened public interest.

There is drift in this country today. There is a wedge of distrust between Americans and their government.

And these conditions give Iowans a special responsibility. We know we are in a favored position. But we must do more than simply enjoy it. As a people we must avoid self-indulgence.

The strength of this country-the strength of our federal system is the strength of the states. The future of the United States depends on the capacity of the states to move forward where there is indecision elsewhere . . . the future depends upon the ability of the people in states which are more fortunate to provide leadership.

There is no greater gift Iowa can give this country as it approaches its third century than the gift of hope.

We can do it with our deeds and with a charted direction.
Iowans have forged ahead in the way we make decisions. We are seeing the great value in finding better ways to determine the full consequences of decisions government makes before they're made.

We are moving in Iowa to face up to the energy problems. Instead of just talking about energy research, we have begun. Instead of just talking about encouraging energy-efficient transportation, we are doing something about it.

We are achieving population stability in Iowa to the envy of other political subdivisions around the globe. We are striking a rural-urban balance.

We have in Iowa a capacity for cooperation. Presently there is a political difference between the General Assembly and the Governor. But this can be an opportunity for us instead of an obstacle. For we have a chance now to show people everywhere that Republicans and Democrats can work constructively together for broad interests of our state.

We have a capacity for openness and candor in this state. The American people are fed up with untruth and lies. We will lead them by telling them the truth and entrusting them with it.

As a piece of side advice to those of you who are elected officials: Re-read the speeches you made during the last campaign and take another look at all the promises you might have made. If you can see now that you promised more than you can deliver, then say so. Our people will appreciate the candor a lot more than unkept promises.

Two days ago I presented to the General Assembly a series of specific legislative recommendations. Next week in another message to the legislature, I will spell out the Governor's budget recommendations.

Those speeches and this one are all a part of the responsibilities of the Governor. But this inaugural speech is particularly a part of the tradition.

So let me say to the newspeople that you can put away your checklists and to the legislators in the audience that you can stop figuring what recommendations the Governor made that you'll want to comment about. I'll give you plenty of specifics in the budget message.

But, I want to use this time to share with you a few observations I have
after being Governor of this state for six years and some thoughts I have about the next four.

First, I see us moving dangerously close to a time when some would have government do everything. More and more frequently people come to my office wanting government to handle their problems. That in itself is all right. We most certainly welcome that. What is distressing is that too of ten they have given little if any thought to how they could be handling those problems themselves.

Government cannot feed everyone, clothe everyone, house everyone, nor shield everyone from every economic fact of life. Yet there are some in our society who think it should. Government's primary role is to motivate, not maintain; to regulate, not control.

Second, states have become willing victims of well-intentioned federal programs. In many cases we have become dependent on them and now are seeing the cruelty of the withdrawal of federal funds. By making sacrifices, state government will be able to absorb some of the cutbacks. In other cases, all we'll be able to absorb will be the shock. State government just cannot afford to take over every single federal program.

Third, of all the enterprises we are involved in there is none that has a greater effect on the future than education. And none costs us more in state tax dollars.

Let me give you an example. In 1967, advocates of expanded state aid to education were saying that in order to fairly finance schools at the elementary and secondary level, state government should support them with an amount equivalent to at least half the money raised by the state income tax. In this coming year-less than a decade later-the equivalent of all the revenue generated by the state's income tax will go to finance elementary and secondary schools. And, many will tell you it still isn't enough.

Even as school enrollments decline, educational financing is still crucial. We have to continue to explore ways to strengthen and improve our educational system within our ability to pay for it.

Fourth, as we reflect upon the successes in state government in the past few years we can see most of them have come where we have taken relatively small amounts of money and large amounts of thought and leadership to encourage people to help themselves.

The tuition grant program has kept life in our private colleges while helping thousands of students. A branch rail line project shows more promise for saving railroads than any other undertaking of its kind in this country. A plan to solve fuel oil emergencies became a model for this nation. A work incentive program to help people get off welfare rolls became one of the most successful in the United States.

It's amazing what people can do with a little assistance and a lot of encouragement. That's how government should work.

Fifth, we must learn to say "no." Cause after cause has been presented to me-each one with a price tag on it. We cannot pay for all the government some would have us have. Legislators here today must continuously ask the question: How much government can people afford?

To pay one $\$ 10,000$ government employee only from sales tax, as an
example, the private enterprise economy must generate $\$ 330,000$ in retail sales at our present three percent rate.

And sixth, consider the modern wisdom in what Iowa Governor Horace Boies said in a speech to the General Assembly in 1892 ( 82 years ago): "I cannot avoid the conclusion that we legislate too much."

You members of this General Assembly have it within your power to prevent edging any closer to a full-time professionalized legislature.

Iowa must preserve the concept of the citizen legislator for it stems from the right of the electorate to self-government. Direct and personal involvement of people in their government-provided by citizen legislators-must not be replaced by preoccupied professionals responding more to a legislative body than to the constituency from which they spring.

Long legislative sessions limit the number of citizens who can or will take the time to serve in them.

Those are a few observations. I would like now to give you some thoughts about where we go from here.

First, listen to the remarks of one native Iowan who moved back to her home state after 18 years in California: Said Mrs. Ruth Jones to a newspaper reporter: "I wouldn't leave Iowa now, not even for a vacation. I'd be afraid they might close the borders while I was away and not let me back in."

We're not going to close lowa's borders, however appealing that might seem sometimes.

But Mrs. Jones makes a point.
We all should be sure what we are talking about when we say: "IowaA Place To Grow."

We don't need a big surge in population. We do have to provide opportunities for the people already here.

We need to know growth is more than smokestacks and freeways and shopping centers and big feedlots, as important as some of these things are in modern society.

We need to know that growth can be measured in opportunities for people, in the willingness to be tolerant of other views, of an appreciation for the kind of life we prize so much in Iowa.

We need to understand that kind of growth cannot be mandated by a Legislature or created by a Governor's executive order. But it is attainable if we work for it.

1975 is the 99th year of America's second century. We will be observing a bicentennial in 1976. But even more significant, we will be starting America's Third Century.

Beginnings can be much more exciting than anniversaries. We are approaching the opportune time for all of us to think about the directions this state of ours should take.

We have to start thinking now about Iowa in America's Third Century.
What do we want from our government?
Where is the trend toward more government leading us?
How should we educate our people?

How can we provide for those who need our help?
How can we most wisely use our resources?
How can we maintain the healthy balance of agriculture and industry?
What will be the role of religious and ethical values?
Fifty thousand Iowans began the thought process with the Iowa:2000 project in 1974. We should enlarge and build upon that effort in 1975.

There appeared very recently in the New York Times these words, written by the late Walter Lippmann.
"What is it that has shaken the nerves of so many? It is the doubt whether there exists among the people that trust in each other which is the first condition of intelligent leadership. It is not the facts of the crisis which we have to fear. They can be endured and dealt with. It is demoralization alone that is dangerous."

Though it is true that statement appeared recently it is also true that it was written some 40 years ago, in the 1930 's. Those were very, very dark times.

Some look ahead and see gloom and darkness today.
But I don't think we have to do that in Iowa.
I say that because we have the ability to live up to our moral capacity.
I say that because we have the brainpower. We have the technology. We have the resources.

I say that because, here in Iowa, we have a confidence in our history, a confidence in the ultimate power of ideas, and most of all, a confidence in ourselves.

I began this speech with a question.
I asked if there were any place in this nation, any place in this world where people are better suited, better equipped or better situated to manage their problems than we are here in Iowa? I think you not only know the answer; you are the answer.

The benediction was offered by Rabbi Albert A. Gordon, D.D., Mount Sinai Temple, Sioux City, and Instructor of Religion, Morningside College, Sioux City.

President Neu then presented Governor Robert D. Ray who delivered the following budget address:
Mr. President, Mr. Speaker, Mr. Chief Justice, Senators and Representatives, State Officials, Distinguished Guests, Ladies and Gentlemen:
First, I want to thank those of you who reacted favorably to the proposals that I made to you in the Condition of the State last week.

Second, some of you expressed interest in specifics. This morning I want to give you specifics.

This is the third in a series of three messages I am charged with presenting to the General Assembly. The first-the Condition of the State-was intended as a perspective on Iowa's position today together with some recommendations for legislative action. The second, the Inaugural Message, was intended to share with you my perspective as I begin the first fouryear gubernatorial term since 1858.

Today's message is specific-though even then there is no way I can cover all the information contained in the five thick documents you will receive next week.

Details not covered in the time it takes to deliver these remarks you will find spelled out in the numerous handouts which will be given to you today and the documents that comprise the official "Governor's Budget for 1975-77."

This material will give you some interesting weekend reading.
Further, I want you to know that along with Comptroller Marvin Selden, members of his exceptional staff and those of my own, I look forward to working with you as you digest this material.

Let me start with the highlights of this budget.
This is a budget that offers special help for cities and towns, provides for improvements in our IPERS, relief for our road program, record financial support for local schools, special education, natural and human resources; more help for elderly Iowans, a means to maintain momentum in our energy
efforts and a plan to build a greater equity into the state's income tax, just to mention a few of the highlights.

This is a budget that requires no general tax increase and this is a budget designed so that with wisdom and restraint we can also avoid loading tax increases on people in the two years after this biennium.

It is a budget that tackles some extraordinary problems.
And, this budget, two years from now, ends with a solid $\$ 53$ million surplus in the state treasury.

As we developed this budget we made several assumptions and a lot of hard decisions.

First, we were confronted with the highest requests ever brought to an Iowa governor-and I want you to know that these askings have been slashed by more than $\$ 300$ million prior to my submitting this budget to you today.

Second, we listened with sympathy to the many pleas from people who look to state government for service, assistance or their livelihoods to let them "keep pace with inflation." We honestly have tried to respond as and when we could. But you should know, as I have concluded, that if it were possible for everyone to keep pace with inflation, inflation would hardly be a problem. We cannot expect the citizens who pay the taxes and who are punished by inflation too, to sacrifice more so that people in government can escape sacrificing at all.

Third, federal revenue sharing has been a boon to state and local governments. The present act expires with the January, 1977, payment, one quarter short of getting us through this biennium. Should the program end, the effect on this budget would be minimal; the effect on future state and local budgets could be devastating. We must, through our Congressional delegations and the organizations of the nation's governors, mayors, state legislators and county officers, press for early extension of the federal Revenue Sharing Act.

Fourth, agency requests to me would have swelled state employment by eight percent in the next two years. We have pruned that increase to only one percent. Nearly all of those have come where the state has had to pick up employees formerly paid with federal dollars, requirements imposed by the Federal Labor Standards Act, positions financed by trust funds in regulatory agencies, and because of legislative mandates. One of the supporting documents you will get today is a detailed listing of these positions.

Fifth, in consulting with state agencies, you will find, as we have, the status of federal funds is more confused and insecure than previously. Rather than react by increasing our state budget unrealistically, we have assumed that most of the federal dollars now considered in jeopardy will still be available to us.

However, it is also likely we will be faced with the possible destruction of some more essential programs. Therefore, this budget includes provision for a "federal contingency fund" of $\$ 3$ million to be available to meet possible cutoffs on a case-by-case basis.

And sixth, though Iowa's economic health remains considerably better than that of the nation, the forces at large in the economy make it imperative that we operate with the best possible information. As we prepared this budget, I asked our newly appointed Economic Advisory Committee to help us as we peered into the future. Our state comptroller can tell you
that revenue forecasting is a very lonely job. It is reassuring to know that our Economic Advisory Committee is in substantial agreement with the economic predictions that form the basis for the revenue projections in this budget.

Nevertheless, the estimation of revenues is far from an exact science, and, because of the uncertainties, we have leaned to the conservative side in our projections of state income for the next two years. I suggest you do likewise.

At the end of this last fiscal year the state surplus was $\$ 207$ million, a figure very familiar to all of you. At the end of this fiscal year, we estimate economic growth will have enlarged that balance to $\$ 221$ million and that is the starting figure for this new budget.

We project that the first year of the next biennium will flatten out as the current national recession pinches Iowans. A four-percent revenue growth is foreseen which is actually less than the rate of inflation expected in the economy and this will have the effect of a negative growth in so-called constant dollars.

Our advisors believe the 1976-77 fiscal year will be a time of some recovery and revenue projections are somewhat more optimistic as a result.

Even though the budgets are tight and the restraints upon you by an uncertain economy are real, there is much you can do to improve the condition of our people as you adopt the recommendations of this budget.

It is one thing to call for improvement; it is another matter to show how you can make improvement happen.

This is the fourth biennial budget I have submitted to an Iowa legislature. Like its predecessors, it does more than propose improvement; it spells out the details, ways, means and methods for financing the proposals and ideas I advance to you.

## INCOME TAX EQUITY

Ten days ago, in the Condition of the State Message, I told you that another improvement in our tax system is in order and that I would submit to you a specific proposal on how we can build greater equity into our state income tax.

The plan I outline would:

1. Exempt all those persons who earn less than $\$ 5,000$ adjusted gross income from having to pay any state income tax at all. This change would benefit some 50,000 low-income Iowans.
2. Increase the standard deduction from the present 10 percent/ $\$ 500$ limit to a 15 percent $/ \$ 750$ limit, an increase of 50 percent. With this change an additional 450,000 Iowans in the low and middle income brackets would experience income tax breaks. This will help offset the automatic tax increase these people experience as inflated earnings trip them into higher brackets.
3. Increase the progressivity of the present tax structure by moving the effective tax rate on higher income tax brackets from the present 7 percent to new rates of $8,9,10$ and 11 percent.

Only those with gross earnings of $\$ 25,000$ or more annually will be asked to absorb this adjustment. And, the impact on those in higher
income brackets will be eased by their ability to deduct their state taxes on their federal income tax returns.

There are three essential points to remember about this improvement in our tax system:
-This plan improves the fairness and equity of our income tax structure, reducing the taxes paid by a majority of those that pay Iowa income tax.
-Under this plan, Iowans now earning less than $\$ 25,000$ gross income a year will not be asked to absorb more in taxes.
-This proposal does not raise more state taxes.

## IMPROVEMENT IN IPERS

Last week I told you I would detail a plan to improve the Iowa Public Employees Retirement System, known as IPERS.

IPERS has not stood still since it was created in the early 1950's. Substantial changes were made in the 60's and 70's. Because of growth of the fund and prudent investments and returns, benefits have been increased at every opportunity. IPERS was designed to supplement, not to exist in lieu of federal social security. And unlike social security, IPERS continues to be actuarially sound.

Yet improvements are needed and-I offer the following plan-one within our means, and one which substantially upgrades the state's retirement program in a systematic manner.

1. This plan increases employer contributions from $31 / 2$ to 5 percent.
2. Employee contributions will go from $31 / 2$ to 4 percent.
3. The ceiling on the salary subject to the contribution will be removed.

With these improvements, the future retirement benefits will be markedly increased.

At the same time, we have found ways to improve benefits for those presently retired.

Only recently, the federal government passed legislation which required that private pensions be sound, employee vesting protected, and funds be available on retirement. We have steadfastly insisted on these principles for IPERS and they must be protected and must continue to be protected.

An IPERS plan which would cost upwards to $\$ 60$ million per year may also be before you this session. Unmistakably it would mean tax increases. It-the cost-would be equivalent to eight mills of property tax statewide per year, or the equivalent of nearly one additional cent of state sales tax.

While well-intentioned, the price tag is too high.

## TRANSPORTATION FINANCING

Perhaps no other subject you will deal with in this session is more fraught with unknowns than the issue of highway financing.

We saw state fuel tax revenues drop when the energy crisis first hit us, then swing upward again. Now, with new federal actions on energy imminent, we just do not know whether we will see another decline in fuel consumption and our state revenues, or to what extent, or of what duration.

The road construction industry suffers from one of the highest inflation rates anywhere, hamstringing efforts to keep pace.

A reduction in federal highway dollars, coupled with federal impoundments of funds that rightfully belong to Iowa, also contribute to the uncertainty.

Other forces are going to affect how we proceed-slower speed limits, lighter cars, the resurgence of alternatives for moving heavy goods and for transporting people, to name a few.

The answers to these problems will come with an overall approach to our transportation needs, not with bits and pieces reaction.

Iowans have not been miserly in their support of our road system. Though 25th among states in population and in area, we rank 9th nationally in per capita support for highways.

Fortunately, we now have a Department of Transportation charged with the responsibility of analyzing the effects of all this on the way we move our people and our products. We must be aware that in time additional sources of revenue may well have to be found for a viable transportation system in this state.

Some of you recall the battles up here over stopping the diversion of a portion of the sales tax into the road fund. The earmarking was poor public policy and at the time the diversion was stopped, additional revenues from user fees more than replaced those funds.

I repeatedly said during those discussions that while I opposed earmarking, I would not hesitate to finance special transportation needs from sources outside the road fund when special needs arose. Special needs exist today.

Therefore, I recommend an appropriation from our surplus be made directly to the new Department of Transportation for wise allocation in the amount of $\$ 20$ million-not a panacea, but a reprieve that we believe makes sense.

## EDUCATIONAL FINANCING

You have heard me say that of all the enterprises we are involved in there is none that has created more of an impact and had a greater effect on the future than education-and none costs us more in state tax dollars.

Before you discuss one appropriation bill, you should know that in the next two-year period, under our present school foundation aid program, state government will send to Iowa's elementary and secondary schools nearly eight-tenths of a billion dollars in direct aid.

Put another way, about 40 percent of the entire state budget is already committed for school aid. In just five years, our annual participation in local school support has nearly tripled-from $\$ 156$ million to $\$ 416$ million!

In this budget we continue to move toward the goal of a full 80 percent foundation plan and the financing of special education mandated last year.

I urge you, as you consider this school aid appropriation, not to lose sight of the concept of putting school aid dollars where the students are.

Financing local schools, as demanding as it is, is by no means all of the state's involvement in the education of our people.

Today more than one out of every four Iowans is a member of Iowa's
learning force. And education not only affects their lives, but touches all of the rest of us.

You are called upon to assure the continued vitality of a wide range of educational opportunities in our state.

This budget provides a 60 percent increase-to $\$ 9.6$ million eaoh yearfor Iowa's tuition grant program, raising the level of tuition grants from a maximum of $\$ 1,000$ to $\$ 1,200$ per student. Is it money well spent? I certainly believe so. Today, one Iowan out of every three attending an Iowa private college is doing so with the assistance of a state tuition grant.

What about our area schools? These schools serve over 24,000 full-time students and thousands of others in continuing educational programs of vocational skills and arts and sciences. My requests continue our strong support for this newest segment of our educational system, with particular emphasis on vocational training.

The influence of our state universities is felt far beyond the communities in which they're located and the lives they touch extend well beyond their enrollments. They give to Iowa a particular vibrancy and growth, often on the cutting edge of change and fresh ideas. This will again be vividly demonstrated in 1976 as we host a World Food Institute on the Ames campus. This budget underscores the importance of higher education, with emphasis on supporting existing faculty, staffs and services.

It is noteworthy that during this biennium several new facilities will open at university campuses-the Industrial Arts and Technology Building at the University of Northern Iowa and the new Veterinary Medicine Building at Iowa State University. These are significant additions to our regents institutions and legislators can take satisfaction in having shown foresight in authorizing them.

One reason for the quality of education in Lowa is its healthy balance. Non-public schools provide a choice and a yardstick. New ground was broken during the last session by offering tangible assistance through transportation to non-public students.

In this budget, we recommend $\$ 1.5$ million to complete the bus-purchase program and $\$ 3$ million annually for transportation assistance.

This budget assures that the Iowa Educational Broadcasting Network which has the potential of being a dynamic educational force will truly become a statewide system during the biennium.

I am quite aware there may be critics who would say we have placed too great an emphasis on education in this budget. It is true that over 55 percent of all our recommended appropriations relate to education.

But it is also true, as Plato said, that "the direction in which education starts a man will determine his future life."

The continued well being of our educational efforts in Iowa will determine Iowa life in the years ahead and I urge your support of the educational priorities we have outlined for you.

## ELDERLY TAX RELIEF

Not only do we have a responsibility to our young people, we also have an obligation to those who played a role in bringing Iowa to where we stand today.

Two years ago we established a sweeping new concept to provide property tax breaks for our elderly Iowans. Details of improvements in that pro-
gram are included in material that will be given you today. In addition to increased benefits for those already covered by the present program these improvements will give relief to some 11,000 more elderly citizens.

## HUMAN RESOURCES

Perhaps there is no area of involvement of state government that does more proportionately to sustain individual people, nor is more misunderstood, than those programs administered or monitored by our human resource agencies, especially the Department of Social Services.

For every "welfare cheater" there are scores of people who desperately want to be able to support themselves-but can't.

This budget funds at increased levels the many worthwhile human assistance programs including aid to dependent children and the service programs such as foster care, day care, homemaker and transportation aids.

Greatly affected by rising costs are the institutions operated by our Department of Social Services, which include facilities for Family and Children, Corrections, and Mental Health. In each area financial support is provided which includes additional staff where needed to handle increased patient load, particularly the Mental Retardation units at Glenwood and Woodward.

Those who operate and those who require the services of nursing homes will be pleased to find in this budget an increase of 15 percent in the daily maximum reimbursement rate.

Other human resource programs so important to their recipients and to the state continue to thrive in this budget request to you-agencies serving the handicapped and the aged and those working in civil rights, drug abuse and alcoholism.

So important also is the childhood diseases immunization program, formerly financed by the federal government but now withdrawn, that this budget provides for taking over the entire effort. We have also boosted our commitment to the renal disease program.

## MORE AID FOR CITIES AND TOWNS

The League of Iowa Municipalities seeks the authority to impose local option taxes. While I have supported the peoples' right to raise additional revenue on the local level if that be their choice, we have also looked for ways we can directly assist our cities and towns.

Therefore, in addition to federal revenue sharing for cities, our budget provides for an increase in state revenue sharing with municipalities-to help defray expenses-from $\$ 5$ million annually to $\$ 9$ million each of the next two years, an increase of 80 percent.

## OTHER PRIORITIES

When I began this morning, I mentioned that I was aware of the comments of some legislators regarding the Governor's proposals. One said he thought the Governor's priorities were acceptable because, as he put it: "they are consistent with my priorities."

While it pleases me to have the support, I also know that in a General

Assembly of 150 men and women, there are likely to be 150 different sets of priorities.

As the Governor, it is my duty to set priorities, too, weigh and develop them, for what I believe to be in the best interest of 2.8 million Iowans.

I hope it is often that our priorities can mesh harmoniously.
So that you may have the benefit of additional items of priority in this budget besides those already outlined, I will move rather quickly over a list I believe merits your support as you examine my budget recommendations.
-If your priority is to ease the doctor shortage, then I ask that you support my recommendation for additional aid to our Division of Family Practice at the University of Iowa and the increased funding of the innovative student aid program at the Osteopathic School in our capital city.
-If energy is your priority, then I ask that you support my recommendation for a $\$ 3$ million appropriation to the Energy Policy Council, an exciting new group that has translated talk of saving railroad service into action while also tackling other energy-related problems. Please support also the funding of a solar heating project on the state capitol complex, a relatively small budget item with enormous implications for the future.
-If protection of our environment and wise use of our natural resources are your priorities, I urge your support of our recommendations for the Conservation Commission, including $\$ 7$ million for acquisition and development of outdoor recreational facilities and open spaces, and for more assistance in soil conservancy-a program that works so very well.

*     *         * 

-If better law enforcement is your priority, then you can help by supporting this budget which strengthens the Bureau of Criminal Investigation and Fire Marshal's Office and provides the resources to operate the expanded Law Enforcement Academy.
-If vitality of our arts is your priority, then you will want to support the generous increase in funding which I have recommended for the Iowa Arts Council.
-If economic development is your priority, I ask your support for the Iowa Development Commission's efforts to enlarge world trade potentials for Iowa industry and agriculture.
-If your priorities-as the legislator said-coincide with those I outlined in the Condition of the State Message, then you'll be pleased to know that this budget anticipates your support of a Task Force for Childhood Development, creation of a land-use planning commission, a state housing authority and other points in that program.

Some suggested priorities could not be included in this budget, even though they may prove to be of merit. I refer especially to the desire of our National Guard to strengthen its appeal through educational incentives. I am one who firmly subscribes to the civilian soldier concept and I
strongly believe in the value of our Iowa National Guard. I will be asking a citizens group to take a hard look at the ways we can best maintain the strength of our Guard and make suggestions on how we can assure its long-range future.

This Governor's budget also meets our obligations to the people we employ and to the physical plant that houses this government.

This budget provides funds to complete the new state office building and the new agricultural building. There are funds for a needed liquor warehouse, for needed changes to meet OSHA standards, and $\$ 6$ million in capitals for Regents Institutions-including a seed lab at Iowa State University.

The summary of the budget which will be placed in your hands in a few minutes reflects more than a collection of numbers. It is a major statement of priorities. It is an ambitious program of work, a blueprint for state government over the next 24 months and even beyond.

While it is clearly labeled the "Governor's Budget," it is really the work of many people. Someone has calculated that the effort and time which have gone into preparing it for you is the equivalent of well over 35 years of work by an individual person.

It is a biennial budget. And, one of the beauties of annual sessions is that adjustments can be made, if need be, in your second session as we have done so effectively in the past. This budget looks ahead and sets a course for two years, a course that people whose lives are affected by it can know and plan for.

With this procedure we avoid the frustration and uncertainty which characterize the annual budgets of Congress-a federal government run by continuing resolution while people look to it, never quite knowing what they can or what they cannot count on.

I have spoken in my two previous messages of the importance of bipartisanship as we go about the business of lawmaking. Republicans and Democrats have their differences. But this should not prevent their working together in the best interests of our people.

There is yet another harmonious relationship that will benefit Iowans. And that is a cooperative spirit between the branches of government.

When a bill that has passed the legislature by majorities of both houses reaches my desk, I begin with a desire to approve it, for I know that it is the product of well-meaning people, striving diligently to represent their state.

There are times when I cannot approve a bill and thus our system of checks and balances comes into play. But the great majority of the time I do.

As you begin your deliberations on this budget, I would hope that you would view the recommendations and proposals of the executive branch with the same consideration your work receives in my office.

I now set before you a document that shows a way to meet needs of our people within our available resources.

I set it before you as a blueprint for educating our people, protecting our environment, feeding and caring for our less fortunate.
$I$ set it before you as a balanced budget, with the strength of prudent planning that extends even beyond this biennium.

I now ask you to analyze it. I now ask you to know it. And most of all, I ask you to support it.

Thank you.
Governor Robert D. Ray was escorted from the House chamber by the committee previously appointed.

Fitzgerald of Webster moved that the joint convention be now dissolved.

The motion prevailed.
The House reconvened, Speaker Cochran in the chair.

The Honorable Dale M. Cochran<br>Speaker of the House<br>State Capitol Building<br>Des Moines, Iowa 50819

Chapter 1080, Laws of the Sixty-fifth General Assembly, 1974 Session,
allows the State Transportation Commission to adopt rules and regulations governing the length of vehicles and combinations of vehicles which may be operated on Iowa's roads.

Therefore, after careful consideration of the facts and testimony presented to us by various groups and individuals, the Transportation Commission has decided to make no changes at this time of the present limitations of Chapter 321, Code 1973, governing the length of vehicles. We expect issues such as this will, however, be considered as part of the multimodal state transportation system during its installation in the coming months.

> Very truly yours, ROBERT R. RIGLER Chairman

Rule 3
Sessions of a General Assembly
The organization and standing committees in each house of the general assembly and action taken by each house shall carry over from the first to the second regular session of
the same general assembly. The status of each bill and resolution shall be the same at the beginning of the second regular session as it was immediately before adjournment of
the first regular session, except that the rules of either house may provide for re-referral of some or all bills and resolutions to standing committees upon adjournment of the first session or at the beginning of the second regular session.

Rule 4

All messages between the two houses shall be sent by the secretary of the senate or the chief clerk of the house of representatives, shall be announced [by the reading clerk] and [shall be] communicated to the chair.

\text { Rule } 11
$$

Amendments by Other House
I. When a bill which originated in one house is amended in the other house, the house originating the bill may amend the amendment, concur in full in the amendment, or refuse to concur in full in the amendment. Precedence of motions shall be in that order.
A. If the house originating the bill concurs in the amendment, the bill shall then be read for the last time as amended, and placed upon its final passage.
B. If the house originating the bill refuses to concur in the amendment, the bill shall be returned to the amending house which shall either:

1. Recede, after which the bill shall be read for the last time and placed upon its final passage; or
2. Insist, which will send the bill to a conference committee.

## Page 5

C. If the house originating the bill amends the amendment, that house shall concur in the amendment as amended and the bill shall be read for the last time as amended, shall be placed on final passage, and shall be returned to the other house. The other house cannot further amend the bill.

1. If the amending house which gave second consideration to the bill concurs in the amendment to the amendment, the bill shall then be read for the last time as finally amended, and placed upon its final passage.
2. If the amending house refuses to concur in the amendment to the amendment, the bill shall be returned to the house originating the bill which shall either:
a. Recede, after which the bill shall be read for the last time as amended and placed upon its final passage; or
b. Insist; which will send the bill to a conference committee.
II. A motion to recede has precedence over a motion to insist. Failure to recede means to insist; and failure to insist means to recede.
III. A motion to lay on the table or to indefinitely postpone shall be out of order with respect to motions to recede from or insist upon and to amendments to bills which have passed both houses.
IV. A motion to concur, refuse to concur, recede, insist, or adopt a conference committee report is in order even though

## Page 6

1 the subject matter has previously been acted upon. Rule 12

The president of the senate shall appoint two members to a conference committee. The papers shall remain with the house that originated the bill.
2. The conference committee shall meet before the end of the next legislative day after their appointment, shall select a chairman and shall discuss the controversy.
3. The authority of the committee shall cover free conference during which the committee has authority to propose any amendments within the scope of the title of the bill.
4. An agreement on recommendations must be approved by at least three members from each house. The committee shall submit two originals of the report signed by at least three members of each house with one signed original and three copies to be submitted to each house. The report shall first be acted upon in the house originating the bill. Such action, including all papers, shall be immediately referred by the secretary of the senate or the chief clerk of the house of representatives to the other house.
5. The report of agreement is debatable, but cannot be amended. If the report contains recommended amendments to

the bill, adoption of the report shall automatically adopt all amendments contained therein. After the report is adopted, there shall be no more debate, and the bill shall immediately be placed upon its final passage.
6. Refusal of either house to adopt the conference committee report has the same effect as if the committee had disagreed.
7. If the conference committee fails to reach agreement, a report of such failure signed by at least three members of each house shall be given promptly to each house. The bill shall be returned to the house that originated the bill and the members of the committee shall be immediately discharged and a new conference committee appointed by the presiding [officers] officer of the house
from members who have not previously served on a conference committee on the bill under consideration. The majority leader of the semate, the president pro-tempore of the senate and the two assistant majority leaders of the senate shall appoint three members and the president of the sonate shall appoint two mombers all of whom shall not have previously served on a conference committee on the bill under consideration.

and its house of origin shall be certified by the endorsement of the secretary or the chief clerk.
[When bills are enrolled, they shall be examined by a joint standing committee of two from each house who shall compare the enrollment with the engrossed bills, correct any errors, and report immediately to their respective houses.]

After enrollment, each bill shall be signed by the president and by the speaker.

Rule 14
Concerning other Enrollments
All resolutions and other matters which are to be presented to the governor for his approval shall be enrolled, examined, signed, and presented in the same manner as bills.

Rule 16
Fiscal Notes
A fiscal note shall be attached to any bill or joint resolution which might have an annual effect or a combined total effect within five years after enactment of fifty thousand dollars or more on the revenues, expenditures or fiscal liability of the state or its subdivisions. This rule does not apply to appropriation measures where the total effect is stated in dollar amounts.

## 9

The preliminary determination of whether the bill appears to require a fiscal note shall be made by the legislative service bureau which shall indicate that a bill requires a fiscal note by stamping "FISCAL NOTE REQUIRED" prominently on the bill jacket. Upon completion of the bill draft, the legislative service bureau shall immediately send a copy to the legislative fiscal director for his review.

The fiscal note shall be printed on the bill before introduction if practicable; and in any event attached to the bill before the bill is reported out by a committee.

The legislative fiscal director shall prepare the fiscal note within a reasonable time after receiving the request. A copy of the fiscal note shall be filed by the legislative fiscal director with the secretary of the senate and the chief clerk of the house. The legislative fiscal director may request the cooperation of the state comptroller or any state department or agency. If a fiscal note is prepared by the
comptroller or any state department or agency at the request of the fiscal director, that fact shall be stated in the note.

Each fiscal note shall state in dollars the estimated effect of the bill on the revenues, expenditures, and fiscal liability of the state during each of the first five years after enactment. Sources of funds for expenditures under the bill shall be stated, including federal funds. If the fiscal director cannot make an accurate estimate, he shall

## Page 10

state his best available estimate or shall state that no dollar estimate can be made and state concisely the reason.

The fiscal note shall be attached or printed in the bill following the explanation or shall be printed in the daily clip sheet.

A revised fiscal note may be requested by a committee chairman or a sponsor of the bill if the fiscal effect of the bill has been changed by adoption of an amendment. However, a request for a revised fiscal note shall not delay action on a bill unless so ordered by the presiding officer of the house in which the bill is under consideration.

If a date for adjournment has been set, then a constitutional majority of the house in which the bill is under consideration may waive the fiscal note requirement during the three days prior to the date set for adjournment. Rule 17

b. The effect of the member's participation on public confidence in the integrity of the legislature.
c. Whether the member's participation is likely to have any significant effect on the disposition of the matter.
d. The need for the member's particular contribution, such as special knowledge of the subject matter, to the effective functioning of the legislature.

The committee shall hold a hearing and consider all relevant evidence and shall make its recommendations to the House.

The motion prevailed and the President appointed as such committee Senators Orr of Poweshiek, Merritt of Mitchell and Taylor of Hardin, on the part of the Senate, and Representatives Spencer of Clay, Scheelhaase of Woodbury and Poncy of Wapello, on the part of the House.

The committee waited upon Representative Griffee and escorted him to the Speaker's station.

President Neu introduced Representative William B. Griffee of Chickasaw County who addressed the joint convention as follows:

Mr. President, Mr. Speaker, Distinguished Members of the General Assembly, Ladies and Gentlemen:
It is of the nature of the human family that we draw from certain rituals and traditions the very spirit of meaning which gives our lives substance.

So it is with a nation that it may pause in the midst of the hurry and rush of its life to return for a moment to an event or a man which has come to symbolize something they wish to remember.

Today, February 12, is such a day, when through some mystery of destiny the child of Nancy Hanks and Tom Lincoln, grew from the wilderness boy to the country lawyer with his bag of jokes to the courthouse politician to become the dark horse candidate, the small town lawyer the powerbrokers thought they could control and finally the sad leader of a nation torn by civil war, the statesman, the martyred president.

Today he is remembered and in remembering something deep is kindled in us as to our own destiny and growth as one people, and one nation.

We might wonder for a moment, why it is that such a man as Abraham Lincoln became the symbol for remembrance. An explanation that may be offered is that fact that he was a martyred president and stood in the midst of a troubled time in the life of this nation.

As Alistair Cooke writes in his America, "The overwhelming aspect of his reputation is that he was assassinated and so he was canonized, because a halo descends on all the martyred presidents and on Lincoln most of all."

Having said this, there is still something there, not quite explained, for there have been other martyred presidents, and other leaders in war time who have not penetrated so deeply into the soul of America.

Perhaps that something we have not quite grasped has to do with power and its use by an individual in a democracy at war internally, when brother fought against brother and the young paid the price more dearly than others.

I think it was the special character that evolved out of this interaction which draws us to Lincoln.

Great power is often callously sought and ruthlessly used, and those who deal in it tend to become hardened to suffering and egotistically selfrighteous as they take on the mantle of a semi-god in steering the ship of state.

For Abraham Lincoln the exercise of power became an agony of soul which brought personal suffering to which few men are exposed. He was shaken by the Presidency, Richard Hofstadter writes of Lincoln "Back in Springfield, politics had been sort of an exhilarating game, but in the White House politics was power, and power was responsibility."

In the end he stood alone, with agonizing decisions which, as he came to know were the sentence of life and death to men he would never know, but felt as a brother and father to. This deciding of life and death for others was immensely sobering to Lincoln for he had enjoyed politics as a pastime back in the Illinois State Legislature. Now he was confronted with grave responsibility which became a working out of the destiny of a nation and its people through the awful travail of war.

The presidency which he had so arduously sought became ashes in his mouth. He was a sensitive man caught in a whirlwind of death, with
diverse counsel urging this way and that, who finally had to rely upon something deep within himself.

When Aeschylus the ancient Greek poet wrote, "In our sleep, pain that cannot forget, falls drop by drop upon the heart and in our own despair, against our will, comes wisdom through the awful grace of God." He was speaking of a man born centuries later, who felt that pain in the marrow of his bones.

The measure of the man's greatness is in Lincoln's response to that wisdom which he came to know drop by drop through four long bloody years of war.

He was moved by the wounded and dying boys as no man in a high position can afford to be moved. Lincoln came to know that for a man of sensitivity and compassion to exercise power in a time of crisis is a grim and agonizing ordeal. Hofstadter says of Lincoln, "As the months passed a deathly weariness settled over him." Once when Noah Brooks suggested that he rest he replied: "I suppose it is good for the body, but the tired part of me is inside and out of reach."

Lincoln was a humbled man, the great prose of the presidential years came from a soul that had been humbled. Lincoln's utter lack of personal malice during these years, his humane detachment, his tragic sense of life, have no parallel in political history.

So it was, that when that small ball of lead, the trajectory of the bullet and the path of a man's life crossed, then as Carl Sandburg wrote, "The pale horse had come. To a deep river, to a far country, to a by and by whence no man returns, had gone the child of Nancy Hanks and Tom Lincoln, the wilderness boy who found far lights and tall rainbows to live by, whose name even before he died had become a legend interwoven with men's struggle for freedom the world over."

He belongs to the ages now, but ever so often as we pause to hear again the familiar words, the meaning is reborn:
. . . Government of the people, by the people, for the people shall not perish from the earth.
. . . I pray that our heavenly Father may assuage the anguish of your bereavement and leave you only the cherished memory of the loved and lost, and the solemn pride that must be yours to have laid so costly a sacrifice upon the altar of freedom.
With malice toward none, with charity for all, with firmness in the right, as God gives us to see the right, let us strive on to finish the work we are in; to bind up the nation's wounds; to care for him who shall have borne the battle, and for his widow and his orphan, to do all which may achieve and cherish a just and lasting peace among ourselves and with all nations.
In these turbulent times it is good to have something upon which we can look and still draw hope. To believe that there is still more to be admired in men than to despise.

This Union has been blessed with some men who at perilous times in her history have come forth and taken the helm to steer, and guide us as a people.

And if in the process we come to cherish the memory of that man who held the Union together, at times making the legend more than life-size, well perhaps we could do worse than to choose such a man as embodying
the best in a free people. For in the final analysis each of us is better for it. Abraham Lincoln was such a man.

Fitzgerald of Webster moved that the joint convention be now dissolved.

The motion prevailed.
The House reconvened, Speaker Cochran in the chair.

## HOUSE CONCURRENT RESOLUTION 15 <br> By Committee on Education

Whereas, Quality health care is a right of every human being; and

Whereas, Health insurance rates have become so high that many of those who have the greatest economic need for this kind of protection can no longer afford its cost; and

Whereas, Many legislative proposals in the respective states will be affected by, and the disposition of these proposals is therefore awaiting Congressional action on, adoption of some form of national health insurance; and

Whereas, Concern has arisen that the economic difficulties presently confronting the United States will be cited as a reason to delay action on the adoption of national health insurance, when in fact these difficulties make the need for such insurance more pressing; Now Therefore

Be It Resolved by the House of Representatives, the Senate Concurring, That the United States Congress is urged to establish a workable national health insurance program at the earliest feasible time; and

Be It Further Resolved, That a copy of this resolution be forwarded to each member of the Iowa Congressional delegation and to the President of the United States.

Whereas, the financial needs of education are subject to influences by dynamic needs of society, and

Whereas, the financial requirements for each school district vary with the number of students in each program by grade level, the type of curriculum and student physical and mental differences, and

Whereas, the Iowa department of public instruction does not have cost figures or procedures that accurately reflect the relative costs in Iowa for each program calculated as a per student cost figure, and

Whereas, these figures are necessary before an equitable funding method can be adopted to allocate funds in proportion to the average cost for each program and the number of students in each district in each program category, Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the department of public instruction, in cooperation with and under the direction of the standing committees on education of the house and senate, shall conduct a study to begin as soon as possible and terminate by January 1, 1976, to evaluate the average state program costs per student, to develop an equitable system of weighting and report to the general assembly the findings of the study. The report shall include a weighting index which means the ratios obtained by comparing the costs for different programs to the average cost for an elementary school student in grades
one through six.
Be It Further Resolved, That in conducting the study the program cost per student shall be determined by dividing the cost of education for each program by the number of students in the program. The program categories include but are not
2
limited to:

1. Basic programs:
a. Early childhood programs.
b. Kindergarten.
c. Elementary.
d. Middle school.
e. High school.
2. Special programs:
a. Low income.
b. Non-English speaking.
c. Migrant.
d. Agriculture.
e. Homemaking.
f. Trades and industry.
g. Office and health.
h. Cooperative.
i. Coordinated vocational-academic education.
j. Gifted.
k. Student and population density.

Additional categories may be selected and studied to assist in illustrating the varying financial demands of different school districts.

Be It Further Resolved, That in determining the average program costs per student, exemplary programs conducted by school districts in the state or by similar schools in other states shall be studied, rather than analyzing the average costs of all similar programs in the state.
Laid over under Rule 25.

HOUSE CONCURRENT RESOLUTION 16<br>By Tauke, Jochum, Junker, Fullerton, Bennett, Brandt, Gilloon, Middleton, Wulff, Egenes, Hennessey, Lageschulte, Harvey and Dyrland

Whereas, proposed highway 520 was previously within the 5-year plan of the state highway commission; and

Whereas, it now appears that highway 520 has been removed from the 5 -year plan of the state highway commission; and

Whereas, highway 520 is used by many persons and all types of vehicles for the transportation of people and goods and is a dangerous and overloaded highway; and

Whereas, because of the conditions relating to existing highway 520 there is a critical need for a safe, efficient, and well-constructed east-west highway across northern Iowa; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the State Department of Transportation is

## 14 requested to direct the State Highway Commission to include

15 proposed highway 520 within the next 5 -year plan and when
16 the Department of Transportation becomes fully operational
17 it continue its efforts to construct highway 520 within the
18 earliest possible time; and
Be It Further Resolved, That the Federal Department of Transportation is urged to release impounded funds or to make available funds for highway construction purposes to the state of Iowa; and
23 Be It Further Resolved, That copies of this resolution
24 be forwarded to the State Department of Transportation, the 25 Federal Department of Transportation, and to each member of 26 the Iowa congressional delegation.

Laid over under Rule 25.

1. By striking sections 8,9 , and 10 and inserting in lieu thereof the following:
2. Each month of the year, by the twentieth day of that month, lobbyists shall file with the chief clerk of the house a report concerning their lobbying activities during the preceding calendar month. The monthly report shall list the totals of all expenditures made or incurred by the lobbyist and his or her employer (if the amounts attributable to the employer are known or readily available) expended directly upon the members of the house, collectively, in the performance of lobbying service during the period covered and shall include subtotals recorded for the following categories:
a. Food and refreshment,
b. Entertainment (including the cost of providing a hospitality room),
c. The provision of travel for house members,
d. Contributions to house members, candidates
for the house, and committees and organizations established to support the campaign of a house member (whether for re-election or other office) or candidate for the house,
e. Recreation expenses,
f. Lodging expenses away from home, and
g. Other expenditures.

The report also shall list, if applicable, the house members, house candidates, or their immediate families, for whom amounts in excess of five dollars were expended directly during the preceding month, shall list such totals, and shall include subtotals recorded for the foregoing seven categories.

In reporting expenditures for gatherings at which
all members of the general assembly or members of the general assembly in large numbers are invited, the report only shall state the average expenses for all the house members who actually attended and are served food and refreshments.

The report also shall list the amounts for other direct expenses incurred in the performance of lobbying service, for the following categories, however, subtotals shall not be reported except as otherwise provided in this rule.
a. Food and refreshments (such as for the lobbyist, lobbyist's client or employer, association members, etc.),
b. Entertainment (including the cost of maintaining 2
a hospitality room),
c. Travel expenses (such as travel to and from Des Moines),
d. Lodging expenses away from home,
e. Telephone (including telephone calls to house members),

g. Printing and copying,
h. Advertising, and
i. Other miscellaneous expenses.

In the event the combined cost of telephone calls and mailings to an individual house member exceeds five dollars in the preceding month, the report also shall list the house members for whom such expenditures were made, as well as the amount thereof.
9. Separate monthly lobbyists activity reports shall be filed for each individual, company, firm, corporation, union, association, cause for which the lobbyist lobbies. However, when no expenses are incurred for one or more clients, the lobbyist may file a joint report for such clients. Monthly lobbyist activity reports shall be filed regardless of whether or not a lobbyist incurred expenses during the preceding calendar month.
10. If a lobbyist's service on behalf of a particular employer, client, or cause is concluded prior to the end of a calendar year, the lobbyist may cancel his or her registration on appropriate forms supplied by the chief clerk of the house. Upon cancellation of registration, a lobbyist is not required to file monthly lobbyist activity reports, but is prohibited from engaging in any lobbying activity on behalf of that particular employer, client, or cause until re-registering and complying with these rules.
11. Any lobbyist who fails to file a monthly lobbyist activity report as required by these rules shall be deemed to have voluntarily canceled his or

```
her registration. The chief clerk of the house shall
notify the lobbyist of such cancellation. Such
lobbyist shall be prohibited from engaging in lobbying
activity for the remainder of that calendar year on
behalf of any employer, client, or cause without re-
registering to lobby and filing all delinquent reports.

# HOUSE CONCURRENT RESOLUTION <br> 17 

By Doyle, Welden, Lipsky, Readinger, Middleton and Newhard

Whereas, the Penal and Correctional Systems Study Committee has recommended that further study be made to determine the advisability and feasibility of establishing a family court system in Iowa; and

Whereas, a family court system has been adopted by other jurisdictions; and

Whereas, a family court system has the potential of providing the citizens of Iowa with a court system which will provide a comprehensive system for addressing the problems of the entire family and therefore permit the courts to render decisions which would more effectively serve the entire family; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council is authorized to create a study committee, as provided by law, composed of members of the House of Representatives and Senate to conduct during the 1975-1976 legislative interim a comprehensive study of the family court concept to determine the feasibility of establishing a family court system in Iowa.

Be It Further Resolved, That the study committee may include nonlegislative members having special knowledge in the fields of the Iowa court system and the family court concept and that periodic reports and a final report, including bill drafts designed to carry out the recommendations of the committee, shall be prepared and submitted to the legislative council. Copies of the final report accepted by the legislative council shall be submitted to the 1976 Session of the Sixty-sixth General Assembly.
Laid over under Rule 25.

## HOUSE CONCURRENT RESOLUTION 18

## By Krause, Drake, Brunow and Hutchins

Whereas, the Chicago, Rock Island and Pacific Railroad Company provides rail transportation services to 64 of Iowa's 99 counties and serves 125 Iowa cities that are not served by any other Class 1 railroad; and

Whereas, the Rock Island Railroad provides an essential transportation service that carries Iowa's agricultural products to national and world market; and

Whereas, the decline in natural gas supplies and in available supplies of petroleum will require that millions of tons of low-sulfur western coal be moved across Iowa to meet the energy needs of the Midwest; and

Whereas, the easing of energy shortages requires that energy-efficient means of hauling bulk goods for long distances be preserved and protected; and

Whereas, the Rock Island's financial problems have been grievously aggravated by the intolerable delay of the Interstate

17 Commerce Commission in deciding the merger application by the Rock

## Island and Union Pacific Railroad Co.; and

Whereas, the Rock Island Railroad has been denied a $\$ 100$ million reconstruction loan requested from the United States Railway Association; and

Whereas, the Congress in passing Iowa Representative Neal Smith's amendment to the Regional Rail Reorganization Act clearly showed its intent that the Rock Island be eligible for federal assistance; and

## 2

Whereas, federal aid and regulatory responsiveness is essential for the Rock Island to continue to provide transportation services in Iowa and elsewhere; Now Thorefore, Be It Resolved by the House of Representatives, the Senate Concurring, That the Sixty-sixth General Assembly of the State of Iowa urges that the United States Railway Association reconsider its decision to deny loan funds to support the operating and capital needs of the Rock Island Railroad; and Be It Further Resolved, That the President and Congress give the highest priority to regulatory reform for the transportation industry (especially railroads) as advocated in the President's message of October 13, 1974, to free the industry from the waste of time and finances which have been a steady drain on the financial resources of railroad companies; and

Be It Further Resolved, That a copy of this resolution be immediately transmitted to the United States Railway Association, the President of the United States, and the members of Iowa's Congressional delegation.
Laid over under Rule 25.

Mr. Speaker: Your committee on agriculture to whom was referred House file 215, a bill for an act relating to farming by corporations, restricting the ownership of farming land by corporations, providing for the disposal of farm land by certain corporations, requiring reports, authorizing farming by certain corporations, providing civil procedures and remedies for enforcement of the provisions of the Act, and providing penalties for violations of the Act, begs leave to report it has had the same under consideration and has instructed me to report the same back to the House with the recommendation that the same be amended as follows, and when so amended the bill do pass:

## H-3241

Amend House File 215 by striking everything after the enacting clause and inserting the following:
"Sec. 1. NEW SECTION. STATEMENT OF LEGISLATIVE
PURPOSE. It is the intent and purpose of this Act
to preserve the traditional, dispersed system of farm
production and marketing in which agricultural
production and marketing is dispersed among a
relatively large number of small firms, prevent
monopoly, protect consumers and promote the economy
of the state of Iowa by maintaining the family farm.
The general assembly finds that the family farm is
an efficient system for the production of food and
fiber and provides the economic and social base for community life in Iowa as well as insuring the continued existence of small business in rural communities. It further finds that the economy of Iowa could be threatened if nonfarm corporate interests and monopolistic entities are able to control food and fiber supplies.

Sec. 2. NEW SECTION. DEFINITIONS. As used in this Act:

1. "Farming" means the cultivation of land for the production of agricultural crops; the raising of livestock or livestock products; the raising of poultry or poultry products; the production of milk; or the production of fruit or other horticultural products. It shall not include the production of timber, forest products, nursery products, or sod. "Farming" shall not include a contract where a processor or distributor of farm products or supplies provides spraying, harvesting or other farm services or a contract whereby a family farm, family farm corporation, or authorized farm corporation agrees to supply agricultural crops, livestock, poultry, dairy products or other horticultural products if the ownership of the materials of that production, other than seed and plants, rests substantially with the family farm, family farm corporation, or authorized farm corporation.
2. "Family farm" means an unincorporated farming unit owned or operated by one or more persons residing on the farm or actively engaged in farming.
3. "Family farm corporation" means a corporation:
a. Founded for the purpose of farming and the ownership of agricultural land in which the majority of the voting stock is held by and the majority of stockholders are members of a family related to each other within the third degree of kindred according to the rules of the civil law or the estate of such a family member;

## Page 2

b. Eighty percent of the gross revenue of the corporation must come from farming averaged over a consecutive three-year period; and
c. At least one of whose majority stockholders is a person residing on or actively operating the farm, and none of whose stockholders are a corporation.
4. "Authorized farm corporation" means a corporation founded for the purpose of farming and the ownership of agricultural land in which sixty percent of the voting stock is held by persons residing on the farms or actively operating the farms owned or leased by the corporation. In addition, an authorized farm corporation must meet the following standards:
a. Its shareholders do not exceed ten in number;
b. All its shareholders, other than an estate,
are natural persons or trusts comprised of natural persons or estates;
c. Does not have more than one class of shares; and
d. Eighty percent of the gross revenues of the corporation must come from farming averaged over a consecutive three-year period.
5. "Agricultural land" means land used for farming or land capable of being used for farming.
6. "Public utility" means a corporation, whether or not subject to regulation by the Iowa state commerce commission, owning or operating either individually or jointly any facilities for:
a. Furnishing gas by piped distribution system or electricity.
b. Furnishing communications services.

Krause of Palo Alto presented to the House the Honorable Gerard Collins and his wife Hillary from County Limerick, Ireland. Mr. Collins is a Speaker of Agriculture, and chairman of the Economy Committee. He is the visiting dignitary for the St. Patrick's Day celebration at Emmetsburg, Iowa.

The House rose and extended its welcome to Mr. Collins who offered the following remarks:

Distinguished and Honorable Members of the Legislature of the State of Iowa:
It is my privilege and pleasure to bring you greetings and good wishes from the people of Ireland-particularly this week when Irish people all over the world prepare to celebrate the occasion of the Feast Day of our National Saint-Saint Patrick.

I am truly delighted to be the Representative of the Parliament of Ireland at these festivities in your state-in particular your town of Emmetsburg which has such strong ties with my country-in particular with its Irish Sister or Twin Town-our Irish Capital, Dublin.

This is my first visit to your great state and for this visit I am thankful for the opportunity to see for myself at first hand the many fine
features that I have read or heard of over the years. I know Lieutenant Albert M. Lea, commander of a company of soldiers who explored this territory in the early 1800 's, wrote and I quote "Iowa country was one grand rolling prairie, along one side of which flows the mightiest river in the world-the river regrets leaving so delightful a region." He further noted that every scene was "gay and beautiful, being clothed in grass, foliage and flowers". . . . All in all, for convenience of navigation, water, fuel and timber, for richness of soil, for beauty of appearance and for pleasantness of climate, it surpasses any part of the United States with which he was acquainted.

Gentlemen, I am so glad the early description of Iowa holds true today. You have tamed your virgin prairies and they are now the most productive lands in your nation. The flowers, the timbers, the rivers and lakes all remain and create a gentle feeling of peace and tranquility. The vast corn, soybean and oatfields create one of the most beautiful sights to be found and so, naturally, does a feeling of satisfaction and pride hover over your land. Your people are neighborly, friendly, helpful and trusting-you have a quality of life which is the envy of many. How proudly you can say your liberties you prize and your rights you will maintain.

SPECIAL ORDER<br>(House File 215)

The hour of 2:00 p.m. having arrived, the Speaker announced the special order of business for the consideration of House File 215, a bill for an act relating to farming by corporations, restricting the ownership of farming land by corporations, providing for the disposal of farm land by certain corporations, requiring reports, authorizing farming by certain corporations, providing civil procedures and remedies for enforcement of the provisions of the act, and providing penalties for violation of the act.

Amend House File 215 by striking everything after the enacting clause and inserting the following:
"Sec. 1. NEW SECTION. STATEMENT OF LEGISLATIVE
PURPOSE. It is the intent and purpose of this Act to preserve the traditional, dispersed system of farm production and marketing in which agricultural production and marketing is dispersed among a relatively large number of small firms, prevent monopoly, protect consumers and promote the economy of the state of Iowa by maintaining the family farm. The general assembly finds that the family farm is an efficient system for the production of food and fiber and provides the economic and social base for community life in Iowa as well as insuring the continued existence of small business in rural communities. It further finds that the economy of Iowa could be threatened if nonfarm corporate interests and monopolistic entities are able to control food and fiber supplies.

## HOUSE CONCURRENT RESOLUTION 25

By Newhard, Doyle, Middleton, and Lipsky
Whereas, a Penal and Correctional Systems Study Committee was established in 1973 and 1974 to study the state adult penal and correctional system and the state juvenile justice system; and

Whereas, the Committee received testimony from probation officers, judges, juvenile law experts, social workers, and other interested persons recommending that the pertinent laws on juveniles be revised; and

Whereas, the Committee discovered several problems concerning the state juvenile justice system which warrant serious legislative study; and

Whereas, the Committee found that the problems and solutions of the state juvenile justice system are too broad and complicated for one committee to thoroughly explore and study, especially in conjunction with a study of the state adult penal and correctional system; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council is urged to appoint a bipartisan interim study committee composed of members of both houses of the general assembly and members of the general public to further investigate any problems existing in the state juvenile system and to subsequently report its findings with appropriate proposed legislation to the legislative council and general assembly.
Laid over under Rule 25.

## HOUSE CONCURRENT RESOLUTION 26

By Krause, Doyle, Drake, Harper, Gilloon, and Rinas
Whereas, the Congress has declared the inspection and replacement of bridges over waterways or other topographical barriers are "in the vital interest of the nation", and

Whereas, the total appropriation of federal funds to assist in replacement of bridges for the years 1972 and 1973 for all national assistance represents less than twenty-five percent of the 1.028 billion dollars estimated by the Iowa county engineers association to be the cost to inspect and replace defective bridges in Iowa, and

Whereas, the detailed inspection of all bridges will require a substantial investment of engineering time and cost; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the Iowa general assembly urges that the Congress of the United States appropriate funds consistent with this priority of national interest in the undertaking of the inspection and replacement of bridges.

Be It Further Resolved, That the chief clerk of the house forward copies of this resolution to the President of the United States, the Vice-President of the United States, the members of the Iowa congressional delegation and to the United States secretary of transportation.
Laid over under Rule 25.

## GOVERNOR'S VETO MESSAGE <br> (Senate File 77)

A copy of the following communication was received and placed on file:

March 18, 1975
The Honorable Arthur A. Neu
Lieutenant Governor and President of the Senate
Sixty-sixth General Assembly
State Capitol Building
Local
Dear Governor Neu:
I am returning herewith Senate File 77, an Act "relating to county contracts requiring bids", disapproved and without my signature to the Senate in accordance with Article III, Section 16, of the Constitution of the State of Iowa.

At the outset, I would say that it would have been more appropriate to entitle this bill an Act "relating to county contracts not requiring bids."

I can readily understand the rationale for the legislature's action which raises the present $\$ 2,000$ maximum exemption on the requirement to take bids to $\$ 5,000$. We are in a period of inflated construction costs.

However, I think it important we also recognize that a bidding procedure provides protection for public officials who are constantly subject to scrutiny by the people as well as to taxpayers who must have assurance that their tax dollars are wisely and honestly used.

This bill would allow substantial sums to be spent in the construction or repair of a building without using any bidding procedures.

Even though I have vetoed this bill, I am not suggesting that at all times a strictly formal bidding procedure must be followed by counties.

Acceptable to me would be provisions for informal bidding under certain conditions, flexibility in accepting the most desirable bids even if not the lowest, and exceptions altogether in cases of emergencies.

For the reasons I have outlined above, I hereby respectfully disapprove of this Senate File 77.

## HOUSE CONCURRENT RESOLUTION 31 <br> By Avenson and Middleswart

Whereas, Agricultural land is Iowa's most important natural resource; and

Whereas, The productivity of this land is important to not only Iowa but to the nation; and

Whereas, As a result of heavy rainfall and additional land being in production, Iowa last year experienced the worst soil loss in its history; and

Whereas, The use of soil conservation practices is necessary to reduce this soil loss and vital to the protection of Iowa land; and

Whereas, The U. S. Secretary of Agriculture, Earl Butz, has called for further increases in production and at the same time reduced the funds available for soil conservation projects; Now

Therefore
Be It Resolved by the House of Representatives, the Senate Concurring, That the Iowa Legislature strongly objects to the contradiction within the USDA of calling for greater productivity from Iowa land while cutting funds necessary to protect that land and urges the Iowa Congressional delegation to support an increase in soil conservation funds; and

Be It Further Resolved, That a copy of this resolution be forwarded to each member of the Iowa Congressional delegation and to the President of the United States.

Laid over under Rule 25.

## HOUSE CONCURRENT RESOLUTION 33 <br> By Middleton

Whereas, the location of community correction facilities should be of benefit to the person who may be placed in such facilities; and

Whereas, one of the prime purposes of community correction facilities is to rehabilitate persons by exposing them to community attitudes and cultures; and

Whereas, the establishment of community correction facilities in areas where citizens may react adversely to such establishment does not accomplish the objective of rehabilitating persons by integrating them into a society which is willing to accept such persons and is willing to share in the rehabilitation of such persons; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the establishment of community correction facilities should not be established by state and local authorities without consultation with residents of neighborhoods where it is proposed that such community correction facilities be established and should not be established without the reception of a favorable response to such establishment; and

Be It Further Resolved, That the General Assembly not fund community correction facilities unless such a policy is established and carried out.

Laid over under Rule 25.

Whereas, W. W. Molsberry, who is currently county superintendent of Keokuk, Jefferson and Mahaska Counties,

```
retires on July 1, 1975, the effective date of the area
education agency law; and
    Whereas, upon retirement, after fifty-eight years of
service in the public school system in Iowa, W. W. Molsberry
will have the longest public school teaching record in the
state of Iowa,
    Be It Resolved, that the members of the House of

If a district receives an advance under this section for a budget year, the state comptroller shall determine the amount of the advance which would have been met by local property tax revenues if the September basic enrollment had been used for that budget year, shall reduce the district's total state school aids available under this chapter for the next following budget year by the amount so determined, and shall increase the district's tax levy computed under section four hundred forty-two point nine (442.9) of the Code, for the next following budget year by the amount necessary to compensate for the reduction in state aid, so that the local property tax for the next following year will be increased only by the amount which it would have been increased in the budget year if the basic September enrollment could have been used to establish the levy.

There is appropriated each year from the general fund of the state the amount required to pay advances authorized under this section, which shall be paid to school districts in the same manner as other state aids are paid under section four hundred forty-two point twenty-six (442.26) of the Code."

The regional agency with the advice of the citizens committee shall also comment on the conformance of the local plans to the state land use goals and objectives and policy. Sec. 13. NEW SECTION. PRIOR PLANS, ORDINANCES AND REGULATIONS. Comprehensive plans and zoning, subdivision, and other ordinances and regulations adopted prior to the effective date of this Act shall remain in effect until revised under this Act. ## Page 12

Sec. 14. NEW SECTION. LOCAL LAND USE ORDINANCE.
To implement local land use decisions and plans, each
local government shall, after the adoption of state
land use plan, adopt a local land use ordinance.
This ordinance shall conform to the state, regional and local land use plan, and shall clearly set forth the actions permissible and nonpermissible under the comprehensive land use plan for the locality.

Sec. 15. NEW SECTION. ENFORCEMENT. In order to enforce local land use ordinances and local comprehensive plans, a local government may:

1. Maintain a civil action to prevent an unlawful land use from occurring, to prevent its continuance, or to restrain, correct or abate a violation of an order or ordinance. The civil action may seek appropriate relief including obtaining an enforcement order to:
a. Prosecute a person who causes a violation of a land use decision.
b. Maintain a civil action to enforce a land use decision.
c. Enter upon the land and structure where the unlawful land use exists and take the necessary action to correct or abate the use.

Sec. 16. NEW SECTION. AREAS OF CRITICAL CONCERN. Local governing bodies, regional agencies, or the state land use commission may recommend that specific areas be designated as areas of critical concern to be approved by the state land use commission. The
recommendation shall specify the boundaries of the proposed area and state the reasons why the particular area proposed is of critical concern, and the dangers that would result from uncontrolled development in the area.

Within forty-five days following receipt of a recommendation, the commission shall either reject the recommendation as tendered or adopt the same with or without modification and, by rule, designate the area as an area of critical concern. Local governing bodies shall in their plans and ordinances designate local areas of critical concern. Establishment of areas of local critical concern shall not have the affect of evading state land use policies, goals and objectives, or plans. Permits for development in local areas of critical concern shall be granted or denied by the local governing body. The state commission may review the actions of local governing bodies in granting or denying permits, and may ask the attorney general to seek an injunction against the local governing body if the commission feels that 13
the local governing body has violated the intent of the state land use policy.

Sec. 17. NEW SECTION. PLANNING AND SITING PERMITS. Planning and siting permits shall be required of any development in areas of critical concern. The initial permit application at the local level is to be made to the local governing body. Local governing bodies shall accept or reject permit applications for development in local areas of critical concern in accordance with the local land use plan. Additional criteria for consideration in acceptance or rejection shall be the same as that used to comment on applications for development permits in areas of state critical concern. All permit applications rejected by local governing bodies shall state the reasons for rejection in writing. If the permit is not for development within local areas of critical concern, comment on the permit application shall consider:

1. Development at the proposed location is or is not essential or especially appropriate in view of the available alternatives within or without the jurisdiction.
2. Development in the manner proposed will have a favorable or unfavorable impact on the environment in comparison to alternative methods.
3. The development will favorably or adversely affect other persons or property and, if so, whether because of circumstances peculiar to the location the effect is likely to be greater than is ordinarily associated with the development of the type proposed.
4. If development of the type proposed imposes immediate cost burdens on the local government, whether
the amount of development of that type which has taken place in the area of the local government is more or less than an equitable share of the development of that type needed in the general area.
5. The development will favorably or adversely affect the ability of people to find adequate housing reasonably accessible to their place of employment.
6. The development will favorably or adversely affect the provision of municipal services and the burden of taxpayers in making provision therefor.
7. The development will efficiently use or unduly burden public or public-aided transportation or other facilities which have been developed or are to be developed within the next five years.
8. The development will further, or will adversely affect, the objectives of development built or aided by governmental agencies within the past five years or to be developed in the next five years.

## 14

9. The development will aid or interfere with the ability of the local government to achieve the objectives of its local comprehensive land use plan.

All comments on permit application must be in writing stating the areas of conflict with the state land use policy plan and the local comprehensive plan.

The commission shall consider the standards set forth in this part in making a decision. The procedures of the Iowa administrative procedures Act shall be followed.

Sec. 18. NEW SECTION. PERMIT PROCEDURE. The developer shall fill out a master permit application form to be submitted to the local governing body having jurisdiction for comment. After comment, the local governing body shall forward the permit application to the regional planning agency. The regional agency after comment shall forward the application to the commission. The commission shall immediately forward the master application form to the affected state agencies. Each state agency shall comment on the permit request within thirty days of receipt or request further information from the developer if it is determined necessary to comment on the permit request. Upon receipt of the additional information, the agency shall comment on the permit within thirty days.

In making comments an agency shall consider:

1. The agency regulations, guidelines, and criteria or standards used in evaluating the application.
2. The reasons for recommended denial or approval and the regulations, guidelines, and criteria or standards the application fails to satisfy or meet.
3. The action that the application would have to take to satisfy the agencies permit requirements if disapproval as recommended.

The failure of a state agency to act on a permit
request within thirty days of this Act shall operate as a waiver of the agencies' right to act on the permit.

Sec. 19. NEW SECTION. INJUNCTION. If any person initiates a project for the development or use of any area of critical concern without obtaining a planning and siting permit as provided in this Act, the attorney general, at the request of the commission, shall initiate civil proceedings in the name of the state of Iowa to enjoin such person from such development or use.

Sec. 20. NEW SECTION. Any person aggrieved by an action of the commission, regional agency, or local governing body taken in accordance with the provisions

1. A written review be prepared to explain the reasons for making the decisions leading to the grievance from the commission, regional agency or local governing body.
2. That the commission, regional agency, or local governing body meeting in official session reconsider the action which brought about the grievances.
3. That the commission, regional agency or local governing body hold a public hearing on the grievances. Such request shall be accompanied by a petition containing the signatures of at least twenty-five electors of the state. Upon receipt of such petition the commission, regional planning agency, or local governing body shall hold a public hearing to consider the grievances of the aggrieved person or persons. The commission, regional agency, or local governing body shall make all reasonable attempts to hold such public hearings in a community facility near the place of residence of the petitioners.

Grievances remaining unsettled after review, action, or public hearing by a regional agency or local governing body may be appealed to the commission. Appeals to the commission shall take the same form prescribed in subsections one (1), two (2), or three (3) of this Act. Should the decision of the commission not remedy the grievances of the person or persons making the appeal, then the aggrieved person may initiate civil proceeding in the district court of the county of primary business location or residence of the aggrieved person.

Sec. 21. NEW SECTION. DETERMINATION OF DISPUTES. When a dispute arises between local governing bodies or regional agencies over planning, designation or control of critical areas, or enforcement of ordinances, any one of the bodies may request that the commission make a determination in the dispute. Such determination shall be binding on all parties involved in the dispute. If a unit of government or agency feels aggrieved by such determination it

41 may initiate a civil proceeding in the district court
42 of Polk county against the commission.
Sec. 22. NEW SECTION. RULES OF THE COMMISSION. All rules adopted by the commission under the provisions of this Act are subject to the provisions of chapter seventeen A (17A) of the Code.

Sec. 23. NEW SECTION. PRIVATE PROPERTY RIGHTS.
Nothing in this Act shall be construed to deprive

## HOUSE CONCURRENT RESOLUTION 32

## By Branstad

Whereas, certain ill-considered bills submitted to the Ninety-fourth Congress of the United States, if enacted into law, would obligate states and their political subdivisions to recognize and bargain with labor unions purporting to represent public employees; and

Whereas, these proposals would authorize the practice of compelling public employees to pay dues or fees to labor organizations as a condition of employment; and

Whereas, the involuntary payment of union dues or fees is incompatible with the fundamental concepts of individual freedom guaranteed by the Bill of Rights in the United States Constitution; and

Whereas, more than half of the states have adopted constitutional provisions or statutes shielding their public employees from compulsory unionism; and

Whereas, some of legislative proposals pending in the United States Congress would sanction intolerable work stoppages by public sector employees and thereby threaten anarchy and chaos; and

Whereas, the constitutional authority of the states would be usurped by passage of a new federal statute mandating collective bargaining at all levels of government; and

Whereas, preserving the integrity and sovereignty of the states and their political subdivisions is essential to the public interest; and

Whereas, because of the monopoly status of governments, it is irrational to equate public sector employment with employment in the nation's competitive section; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the members of the Sixty-sixth General

## Page 2

1 Assembly of the State of Iowa respectfully petition the

2 Congress of the United States to refrain from approving 3 any measure which would require states and their political 4 subdivisions to recognize and bargain with unions purport-
5 ing to represent public employees.
Read first time and referred to the committee on labor and industrial relations.

## HOUSE RESOLUTION 21 <br> By Oakley and Mennenga

Whereas, the St. Mary's High School of Clinton basketball team has won the Iowa Class A High School basketball championship; and

Whereas, that team completed a fine season which included going undefeated against Iowa competition; and

Whereas, the St. Mary's High School student body displayed the utmost in school spirit and sportsmanship; Now Therefore,

Be It Resolved by the House of Representatives, That the Sixty-sixth General Assembly, 1975 Session, extends its heartiest congratulations to the St. Mary's Irish, their coaches, cheerleaders, faculty and administration, families and loyal fans who encouraged and supported the St. Mary's Irish through the regular season and during the tournament; and

Be It Further Resolved, That the members of the Sixtysixth General Assembly commend the Irish for their sportsmanship, tenacity and strength of purpose which has brought to the 225 member student body this statewide recognition; and

Be It Further Resolved, That a copy of this resolution be sent to Coach John Lingle, Father Doyle, Athletic Director Earl Jacobs and the St. Mary's High School basketball team.

Laid over under Rule 25.
