## GOVERNOR'S ITEM VETO MESSAGE

The Honorable Melvin D. Synhorst
Secretary of State
State Capitol Building
Local
Dear Mr. Synhorst:
I hereby transmit House File 864, An Act providing for and making appropriations for financing state postsecondary education programs including programs under the State Board of Regents, the Higher Education Facilities Commission, and the Department of Public Instruction.

House File 864 is approved June 3, 1975, with the following exception which I hereby disapprove.

I am unable to approve Item 3 designated in the Act as Section 3 which reads as follows:
"Sec. 3. Section two hundred sixty-one point two (261.2), subsection four (4), Code 1975, is amended to read as follows:
4. Prepare and administer a state plan for a state supported and administered scholarship program. Said state plan shall provide for scholarships based on ability [and need] to deserving students of Iowa, matriculating in Iowa universities, colleges, area vocational schools, area community colleges, or schools of professional nursing.

This provisions of this section shall be effective July 1, 1976, however, if a deserving student who receives a scholarship for the 1975-1976 academic year also receives a scholarship for the 1976-1977 academic year, it shall be based on both ability and need."

Heretofore, the Iowa scholarship program administered by the Higher Education Facilities Commission awarded scholarships under this program on ability and need of the applicant. This provision I am deleting eliminates the need factor.

I am sympathetic with the idea of recognizing Iowa high school students for academic achievement, but to reduce the number of scholarships awarded to students on a need basis for this purpose would be unwise.

The primary purpose of this program is to provide financial assistance to high academic achievers who need the assistance to further their education. Section 3 would be counter to this.

The action taken by the General Assembly in Section 3 also has the effect of diluting the present scholarship program by spreading the number of scholarship awards among more students, regardless of need, thereby reducing the size of the scholarships to those who need them most.

The action I take in eliminating this section of House File 864 does not alter the amount of the appropriation made by the General Assembly to the Iowa Scholarship Program. The program can continue to function well without Section 3-with scholarships being distributed to students on the basis of both "need" and "ability" as is done now.

For these reasons, I hereby disapprove this item in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 864 are hereby approved this date.

Sincerely,<br>ROBERT D. RAY<br>Governor

## HOUSE CONCURRENT RESOLUTION 55

By Welden, Kreamer, Millen, Danker, Hansen, Tofte, Schroed $\underset{\sim}{ }$,<br>Pellett, Brunow, Stromer, Bortell, Daggett, Den Herder, Woods,<br>Brockett, Evans, West, Fullerton, Halvorson, Byerly, Nielsen,<br>Menke, Branstad, Perkins, Crawford, Tauke, Nealson,<br>Clark, Wyckoff, Jordan, Crabb, McElroy, Miller of Buchanan and Harper

Whereas, there is growing concern among many citizens of Iowa that annual sessions, their length, and general method of operation that is developing will lead to a full-time professional legislature; and

Whereas, the legislative service bureau is overloaded with bill requests so that many bills are never printed in time to be considered; and

Whereas, many more bills are being developed as study bills originating through the work of interim study committees, state departments, and various other sources and there is adequate procedure for making these bills available to interested members of the public and the complete committee membership before final action of the committee; and

Whereas, the number of amendments filed this session has approximately doubled; and

Whereas, many states including our neighboring states of Kansas, Nebraska, and South Dakota have developed procedures by which their legislation is prepared, considered and passed and sessions adjourned in much less time; and

Whereas, an orderly and timely adjournment of the legislature should be a top priority; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Conourring, That the legislative council establish an interim study committee to study ways and means of improving the handling of bills from introduction to passage, including improving public access to bills prior to final committee action, and procedures for shortening the length and improving the adjournment procedures of our sessions. It should include contacting leaders in other comparable states to determine if their methods might be adopted by Iowa.
Laid over under Rule 25.

# HOUSE CONCURRENT RESOLUTION 56 <br> By Bina and Walter 

Whereas, the State of Iowa has found it necessary for economic and safety reasons to comply with a federal mandate of a fifty-five miles per hour speed limit for our state's interstates and highways; and

Whereas, great concern has developed over the disparity in the speeds traveled by the trucking industry and private citizens; and

Whereas, our law enforcement agencies have found it next to impossible to equitably

11 enforce this provision due to limited equipment
12 and manpower; and
18
Whereas, this problem will be of continuing
importance because of limited energy and growing:
concern for the conservation of energy and
lives, Now Therefore;
Be It Resolved by the House of Representatives,
the Senate Concurring, that the legislative
council be authorized to create a stady committee as
provided by law composed of members of the
House of Representatives and the Senate to
conduct a study during the 1975 legislative
interim on the disparity and inequity of the
fifty-five miles per hour speed limit as applied
to automobiles and semitrucks and the inability
Page 2
1 of the Iowa law enforcement division to enforce
equitably the present speed limits, and that a
final report including bill drafts designed to
carry out recommendations of the committee
prior to commencement of the 1976 Session of
the Sixty-sixth General Assembly.

Laid over under Rule 25.

## HOUSE CONCURRENT RESOLUTION 60 <br> By Brandt

Whereas, the regulation of financial institutions is presently under the jurisdiction of two executive agencies; and

Whereas, the banking department presently regulates credit unions and small loan companies in addition to banks; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council is authorized to create a study committee as provided by law, composed of mem-
bers of the Senate and the House of Representatives representing both political parties, to conduct a study during the 1975 interim relating to the feasibility of creating a separate state agency to regulate all financial institutions in the state; and

## HOUSE CONCURRENT RESOLUTION 61

## By Committee on Energy

Whereas, Iowa and the nation are facing a serious national energy shortage because of the growing demand for energy and the increasing technological, economic, and environmental problems involved in meeting energy needs; and

Whereas, significant levels of conservation of energy and reclamation of valuable resources is possible through the recycling of waste; and

Whereas, nonrefillable beverage containers contribute to problems of unsightly litter and solid waste disposal; and

Whereas, returnable beverage containers use one-third as much energy as nonrefillable bimetal cans, glass bottles, and aluminum cans; and

Whereas, land for landfills has become increasingly difficult to locate and is costly to purchase; and

Whereas, the production of supplementary-fired solid waste boiler fuel appears to be economically attractive for those utilities which have coal burning boilers; Now Therefore,

Be It Resolved by the House, the Senate Concurring, That the legislative council create a study committee, as provided by law, composed of members of both houses of the general assembly, to study the energy-related impacts of nonrefillable beverage containers and the feasibility of resources recovery systems as they relate to the waste disposal problems in this state and to solid waste management, which study shall include consideration of social, political, economic and energy aspects of the problems; and

Be It Further Resolved, That the study committee may include nonlegislative members representing the Department of Environmental Quality, the State Department of Health, the
30 Energy Policy Council, and other citizens who have demonstrated

## Page 2

## MOTION TO RECONSIDER

(House File 880)
I move to reconsider the vote by which House File 880 passed the House on June 10, 1975.

GRIFFEE of Chickasaw

## EXPLANATIONS OF VOTE

I was necessarily absent from the House chamber on Monday, June 9, 1975. Had I been present, I would have voted "aye" on House Files 617, 803, 894, 904 and Senate Files 303, 308, 525, 549, 559, 560, 561; "nay" on Senate File 504; and "aye" on amendment H-4110 to Senate File 525.

HARPER of Davis
(House File 803)
We should not delude ourselves into believing that passage of House File 803, relating to malpractice insurance, will solve this problem. I supported the bill because the creation of a temporary underwriting association will assure availability of this insurance while longer range solutions are developed. However, we should be aware there is general dissatisfaction with the health care delivery system. This is not an issue of doctors versus lawyers. The public is simply more aware of the availability of suit against doctors and hospitals for their negligence. The doctor/patient relationship has probably never been worse than it is now. Part of this is as a result of the technical achievements of medicine. It has created an impersonality to develop, a failure of doctors to communicate information to the patient about the "hows" and "whys" of their treatment. More and more, medical services are prescribed by doctors but delivered by others in the system. There has been a lack of affirmative action on that system to self-police itself. All one has to do is look at the statistics for sanctions imposed on doctors by licensing boards to realize there is little
threat to the practitioner. Steps in that direction will be encouraging to the Iowa legislature.

OAKLEY of Clinton
I was necessarily absent from the House chamber for part of the afternoon on June 9, 1975. Had I been present I would have voted "aye" on the following bills: Senate Files 525, 549, 559, 561, and House Files 894, 803, 904.

## HOUSE CONCURRENT RESOLUTION 62 By O'Halloran

Whereas, it appears there is insufficient time remaining during the 1975 Session of the General Assembly to give careful and detailed consideration to the land use bill, House File 505; and

Whereas, because of limited time and physical facilities available for public hearings and complexity of subject matter all persons representing various viewpoints may not have had an adequate opportunity to study and present their viewpoints to the proposed land use law embodied in House File 505 during the 1975 Session of the General Assembly; and

Whereas, the protection and best use of the natural resources of the state of Iowa is an issue which must be resolved and the state should not be dependent upon federal legislation and existing state laws to provide such protection and use; and

Whereas, it is necessary to provide a proper forum for consideration of all land use considerations and it is not possible to provide such forum during the legislative session; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council appoint members of the general assembly for the purpose of planning a legislatively sponsored public forum for a comprehensive analysis of House File 505 and the issues involved in House File 505 and land use in general and pursuant to such appointment a limited number of hearings or forums with proper advance notice to persons having divergent viewpoints in regard to land use be held and be financed with funds available

## HOUSE CONCURRENT RESOLUTION 63 By Small and Hargrave

Whereas, the use of electronic funds transfer systems by banks, savings and loan associations and other depository institutions has exhibited a substantial growth in various states; and

Whereas, the development and use of electronic funds transfer systems portend a revolutionary change in the traditional methods and practices of such institutions and innumerable questions and problems relating to regulation by the General Assembly and by state agencies of those depository institutions; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council be authorized to create a study committee consisting of members from both political parties and both houses of the General Assembly to undertake a comprehensive and detailed study relating to the enactment of responsible and informed legislation respecting the use of electronic funds transfer systems in Iowa; and

Be It Further Resolved, That considerations of the study committee include, but not be limited to the following: the effects of such systems on the individual banks, savings and loan associations, and credit unions operating in this state; the potential interrelationships between those various types of depository institutions and the resulting interrelationships between the affected regulatory agencies of this state; the problems of security, confidentiality and documentation of transactions engaged in by means of those systems and the potential uses and abuses of the ownership of, and the agreements and practices incident to electronic funds transfer systems or parts of systems; and

"Whereas, the department of social services is the largest single agency of state government and the human services programs and facilities for which it is responsible affect the lives of many Iowans; and

Whereas, there has been continuing concern on the part of legislators and others regarding fragmentation in the delivery of mental health services and related services for alcohol and drug abusers in Iowa, and this concern has recently been heightened by the prospect that federal funds which have in the past been the primary source of support of the Iowa mental health authority will no longer be available; and

Whereas, it is desirable that the general assembly satisfy itself that programs for various groups of elderly, handicapped or developmentally disabled Iowans handicapped or developmentally disabled services, the commission on aging and the governor's committee on employment of the handicapped are adequately coordinated, that duplication of effort and of services is avoided but that no needed service is neglected due to doubt about jurisdiction to offer it; and

Whereas, a number of members of the general assembly-who have received complaints about frequency and seeming duplication of inspections of licensed health care facilities in Iowa by divisions of the department of social services and the department of health, as well as the fire marshal's office-are interested in exploring the possibility of consolidating some or all of these inspection functions; and

Whereas, continuing legislative oversight and evaluation of the state's correctional program is desirable, particularly as regards juvenile offenders; and

Whereas, in recent legislative interims there have at times been as many as four legislative study committees and joint interim subcommittees simultaneously studying programs or facilities administered by the department of social services and, while this is at times appropriate in view of the broad jurisdiction of the department, such

Sec. 9. NEW SECTION. ACQUISITION. Sec. 10. NEW SECTION. PETITION. When a petition is filed, the department shall give notice of the filing of the petition to all known persons and entities with a significant interest in the right-of-way, interested state agencies, affected political subdivisions and the public. The department may grant to an affected political subdivision the right to acquire interests in a railroad right-of-way extending beyond its borders.

A petition shall be approved or disapproved by the department within six months from the date of filing. The department shall also adopt rules to allow the amendment of a petition to permit additional or alternative uses of the abandoned railroad right-of-way.

The department may not approve a petition for a proposed recreational or conservation use through a rural area unless a majority of the adjoining landowers of cultivated agricultural land agree to the proposed use.

Sec. 11. NEW SECTION. APPROVAL OF PETITION. The department's order granting a right shall specify the time within which the acquisition is to be commenced by the petitioner and improvements are to be completed. If improvements are not completed or an extension granted within five years from the time acquisition is to be commenced the right-of-way shall be deemed abandoned. The petitioner may apply to the department for an extension of time to complete the improvements. The extension shall be granted by the department only if the petitioner has shown that the reasons for delay were of an unusual or unforeseeable nature or that the improvements are substantially completed. The department shall provide that upon termination of the proposed use, the right-of-way shall be subject to the conditions of this

Act and for that purpose the right-of-way shall be considered abandoned upon termination of authorized use.

Upon approval of the petition, where there is a duty to pay property taxes on the abandoned right-of-way, that duty shall attach to the petitioner's equitable interest in the property and the taxes
accruing subsequent to the granting of the right to acquire the abandoned right-of-way, shall be considered an element of the fair market value of the property and shall be considered an additional cost of acquisition.

Acquisition of property pursuant to this section by a public agency or person shall be in the manner provided by law. The property interest acquired pursuant to this section shall be prescribed by the department's order and may be a fee simple absolute, a determinable fee, an easement or any other interest less than a fee simple absolute that reasonably meets the requirements of the petitioner's plan. Unless the affected property owner agrees otherwise, any existing access and egress to continguous land shall be unaffected by the petition, as approved.

If the department finds that the petitioner is not exercising its right of eminent domain with due diligence, the department may revoke its order granting the petitioner a right to acquire the abandoned right-of-way and may grant such rights to a subsequent petitioner who is ready, willing and able to acquire the abandoned right-of-way for allocation to a use which is in the public interest.

Sec. 12. NEW SECTION. INTEREST ACQUIRED IN ABANDONED RIGHT-OF-WAY. State agencies and affected political subdivisions of this state may acquire by purchase, gift, or devise any property interest in abandoned railroad rights-of-way and nonpossessory property interests in operating railroad rights-ofway prior to abandonment. Such interests may be transferred to other state agencies, political subdivisions, or persons for public uses, and such transfers shall be subject to conditions requiring public uses and providing for a reversion to the department upon termination of the required public use.

Sec. 13. NEW SECTION. REVERSION. The reversion provisions of chapter four hundred seventy-three (473) of the Code shall not be construed to grant owners of the tract from which the right-of-way was taken any interest in the right-of-way prior to final disposition by the department under the provisions of this Act.

Sec. 14. NEW SECTION. OPTION GRANTED. If a petition is not approved under section ten (10) of

this Act for acquisition for a public use, landowners of adjoining land shall, if the owner of the right-of-way offers for sale, have first option on the purchase of such right-of-way at fair market value. sixty days of the granting of the option.

Sec. 15. NEW SECTION. FENCES, DRAINAGE, WEEDS AND PRIVATE CROSSINGS. A petitioner granted the power of eminent domain for a possessory interest in an abandoned right-of-way under the provisions of this Act shall construct, maintain and keep in repair a fence upon written request of an adjoining landowner who keeps or raises livestock on the adjoining land and has fenced the land except the side adjoining the right-of-way. Where the right-of-way is to be used for railroad the fence shall be constructed in accordance with the provisions of sections four hundred seventy-eight point four (478.4) and four hundred seventy-eight point five (478.5) of the Code. In all other cases the fence shall be constructed and maintained in accordance with the provisions of section one hundred thirteen point eighteen (113.18) of the Code. A petitioner granted the power of eminent domain for the possessory interest in an abandoned right-of-way shall also have the duty to control weeds in accordance with the provisions of sections three hundred seventeen point nine (317.9), three hundred seventeen point twelve (317:12), four hundred seventyseven point fifty-three (477.53) and four hundred seventy-seven point fifty-four (477.54) of the Code and shall have the responsibility for drainage in accordance with sections four hundred fifty-five point one hundred twenty-one (455.21) and four hundred fifty-five point one hundred twenty-four (455.124) of the Code and shall have responsibility for private crossings in accordance with sections four hundred seventy-eight point twelve (478.12) and four hundred seventy-eight point thirteen (478.13) of the Code.

If the offer is not accepted within one year thereafter or if the state acquires title to the land by failure of the person to establish service or by subsequent abandonment, the right-of-way shall then first be offered to the city for a period of ninety days. If the city does not exercise such option the right-of-way shall be offered for a period of sixty days "to the owner of the adjoining property from which the right-of-way was originally taken".

5. For each active member retiring from employment on or after July 1, 1975, with four or more complete years of service a monthly benefit shall be computed. ## HOUSE CONCURRENT RESOLUTION 65

## By House Administration Committee

## 1 Whereas, large numbers of resolutions have been

2 introduced in both the House of Representatives and

Senate calling for interim studies of numerous state functions; and

Whereas, the time period between the First and Second Sessions of the Sixty-sixth General Asembly is not determined and there have been many resolutions submitted calling for studies which resolutions appear to have merit but which resolutions, because of their complexity and number, may call for studies which could not be properly conducted during the next interim period; and

Whereas, there will probably be subcommittees of standing committees which will be studying bills presently before the general assembly which will carry over to the Second Session of the Sixty-sixth General Assembly; and

Whereas, it is impractical to accurately determine during floor debate the amount of hours of staff time required to complete such studies, within the limitations of funds which will be available, and assign precise priorities; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That all resolutions calling for interim studies which have not been adopted in both houses be delivered to the Chief Clerk of the House, on the part of the House, and the Secretary of the Senate, on the part of the Senate, for consideration by the Legislative Council, which shall determine priorities and authorize such studies as may be feasible within the limits of the staff, time and funds available.

Whereas, a serious barrier to ownership of agricultural land to those who wish to enter farming is the difficulty in accumulating needed capital; and

Whereas, the level of capital required to meet the rising cost of farm equipment places the small farmer at an economic disadvantage; and

Whereas, the movement of outside non-farm capital into agricultural production has been increasing; and

Whereas, the number of farms in Iowa has been steadily decreasing at an average annual rate of 1,700 ; and

Whereas, there is increasing concern on the part of family farmers and rural people about who will control agricultural production in the future; and

Whereas, the Iowa legislature desires to preserve and
promote the family farm as a basic economic and social unit in Iowa; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council is authorized to appoint a bipartisan interim study committee composed of members of both houses of the General Assembly to examine innovative legislation designed to make capital available to Iowa family farmers and to those who desire to actively enter farming; and

Be It Further Resolved, That the study committee examine tax incentives designed to preserve the family farm; and

Be It Further Resolved, That a report of the study and efforts of the committee be submitted to the legislative council and to the members of the Sixty-sixth General Assembly meeting the year 1976 and shall be accompanied by legislative bill drafts to carry out the recommendations of the committee.

Whereas, the people of Iowa will soon experience difficulty in securing professional vision care because of the potential shortage of optometrists caused by the high average age of the practicing optometrists and the shortage of optometric colleges in the Midwest, and

Whereas, the State of Iowa will need at least fifteen (15) to twenty (20) graduates of optometry each year to maintain the present doctor-patient ratio considering the expected population trend and the attrition rate of practicing optometrists, and

Whereas, there is a shortage of optometrists throughout the nation but especially so in the Midwest where there is only one educational center, and

Whereas, optometry is the only major health provider not having a professional college in Iowa, and

Whereas, there are at least two (2) of the Iowa educational centers interested in establishing a college of optometry which would solve our vision care needs, Now Therefore

Be It Resolved by the House of Representatives, the Senate Concurring, that the legislative council is authorized to create a study committee as provided by
24 law composed of members of the House of Representatives

Be It Further Resolved: That the General Services Department, in accordance with section eighteen point three (18.3), Code 1975, shall provide all the supplies required for the Sixty-sixth General Assembly, both while in session and during the interim between sessions, upon requisition signed by the Chief Clerk of the House for the House and the Secretary of the Senate for the Senate.

Be It Further Resolved: That the Chief Clerk of the House and the Secretary of the Senate are authorized to reserve for the exclusive use of the General Assembly during the interim the chamber and such rooms now used by said General Assembly as may be necessary for any official use of the Chief Clerk of the House or the Secretary of the Senate.
Be It Further Resolved: That the Chief Clerk of the House and the Secretary of the Senate shall make a complete survey of all equipment for the purpose of determining the advisability of replacing it, particularly the advisability of replacing manual typewriters with electric typewriters. The equipment to be replaced shall be appraised, and placed for sale by the Chief Clerk of the House and the Secretary of the Senate at amounts based on the appraisal. Any funds received shall be deposited in and credited to the Legislative General Fund. All other equipment shall be stored in rooms reserved

Be It Further Resolved: That any officers or employees of the Sixty-sixth General Assembly who shall be engaged for work in connnection with the General Assembly during the interim between sessions, shall be compensated for such services at the same rate as was fixed by House Concurrent Resolution 5, adopted by the Sixty-sixth General Assembly, 1975 session.

## HOUSE CONCURRENT RESOLUTION 70

By Committee on County Government

Whereas, the county is a viable, useful and important political subdivision of the state which provides needed services to the public; and

Whereas, the needs of county residents and services provided by counties have changed during the twentieth century because of shifting population and technological advances; and

Whereas, there is a need to review state statutes which relate to the institutions, powers and duties of county government for the purpose of recommending appropriate revisions to implement home rule for counties and facilitiate the solution of local problems by local initiative; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council is requested to establish a study committee as provided by law, which committee shall be composed of members of both houses of the general assembly, to study county home rule and the delivery of needed county governmental services; and

Be It Further Resolved, That the study committee may include nonlegislative members having special knowledge of the operation of county government; and

Be It Further Resolved, That a report of the study shall be prepared and submitted to the legislative council and the members of the Sixty-sixth General Assembly, 1976 Session, and shall be accompanied by legislative bill drafts designed to carry out the recommendations of the study committee.

Whereas, cities in Iowa are functionally hampered by artificial limitations on allowable levies for general city purposes; and

Whereas, statewide appropriations for aid to cities on
a per capita basis overlook the fact that Iowa's various cities have different needs and each must operate as a unit and not as a reflection of the average Iowa city; and

Whereas, insufficiency in the cities' share of the road use tax fund have increased city reliance on special property tax assessment; and

Whereas, the Iowa General Assembly has declared as one of its objectives the normalization of and possible decrease of property taxation; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the Legislative Council create during the 1975 interim a bipartisan study committee, composed of members of both houses, to explore the area of municipal finance and to subsequently report to the Sixty-sixth General Assembly its recommendations, accompanied by proposed legislation, to allow cities in Iowa the fiscal flexibility to meet their own peculiar problems without placing increased property tax burdens on their citizens.

Whereas, the state of Iowa does not have a state architect although provisions of law provide for the employment of such a person within the department of social services; and

Whereas, the department of transportation, the department of general services, the department of public instruction, the state conservation commission, and the department of social services employ persons who provide either technical or professional architectural and related support services; and

Whereas, because of the many capital improvements, repairs, and construction being undertaken by the state it is necessary to determine if state employees working in the architectural field and related services are being used in such a manner to provide coordinated services which will benefit all of state government; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council is authorized to approve a study for the purpose of reviewing the architectural services provided by the various state agencies for the purpose of determining if such services should be coordinated, consolidated, eliminated or placed within one agency; and

Be It Further Resolved, That the study committee shall consist of members of both houses of the General Assembly representing both political parties and such study committee shall make a report to the legislative council and members of the General Assembly meeting in the year 1976 and such reports shall be accompanied by legislation designed to carry out the recommendations of the study committee.

Whereas, the law regarding payment of tuition for nonresident students is inconsistent; and

Whereas, the mobility of the citizens of Iowa is increasing and many children of parents who move desire to continue to attend school in their former district of resident; and

Whereas, school districts are reimbursed with tax moneys for tuition payments of foster children and children in charitable institutions while these children are counted in the enrollment of the district for state aid purposes; and

Whereas, there is an inequity in the procedure which does not allow the district in which a child resides to count the child in enrollment for state aid purposes, but allows the district in which the child attends school to receive both tuition and state aid for the child; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council is authorized to create a study committee as provided by law, composed of members of the Senate and the House of Representatives representing both political parties, to conduct a study during the 1975 interim relating to the tuition payments for public school districts in this state and the inequities existing in the present payments; and

Sec. 9. NEW SECTION. ACQUISITION. At the hearing, the department shall consider the interests of adjoining landowners, and any claims by law or claims by interest they may have to the abandoned right-of-way in addtion to other facts of testimony. The committee received reports from Mr. Mayer and Mr. Douglas Hart regarding the discharge of Mr. Hart.

Due to the schedules of the Senate and of the House, the Chairmen of the committees attempted to arrange further meetings, but each time a conflict arose causing cancellations of meetings.

The committee of the House finds that employees of the Citizens' Aide
office, the Service Bureau, the Fiscal Director's office, and of the Chief Clerk of the House are not merit employees, and serve at the pleasure of the heads of the said departments and of the General Assembly.

This committee recommends that the policy and matter of discharge of employees of the Citizens' Aide office, Service Bureau, Fiscal Director, and of the Chief Clerk of the House be considered by the Legislative Council during the interim.

The committee further finds that the said offices are now operating under the present policies and that any changes in policies, rules, and directions should be made by the Legislative Council on the Citizens' Aide office, Service Bureau, and Fiscal Director's office; and that matters affecting the Chief Clerk's office should be made by the Speaker of the House and the House Administration Committee.

GOVERNOR'S VETO MESSAGE
(Senate File 285)
June 16, 1975
The Honorable Arthur A. Neu
Lieutenant Governor and President of the Senate
Sixty-sixth General Assembly
State Capitol Building
Local
Dear Governor Neu:
I am returning herewith Senate File 285, an Act relating to the adminis-
tration of state records and providing an appropriation, disapproved and without my signature to the Senate in accordance with Article III, Section 16, of the Constitution of the State of Iowa.

Senate File 285 would transfer the primary administrative responsibility for records management from the State Records Commission to the Director of the Department of General Services. In addition the bill would appropriate funds to the Department of General Services for administration of records management during the remainder of FY75.

The apparent motive behind this bill was to concentrate enough authority in one person, the Director of General Services, so that the implementation of the State Records Managemnt Act could be accomplished in a rapid manner.

While I can appreciate this desire for quick implementation, I think it is important to remember that the proposal for records management in state government has been discussed and considered since 1967. With the passage of the Records Management Act last year, the State Records Commission has moved in an orderly fashion to implement the legislation without disrupting state government operation or destroying any records that might be needed.

Concern has been raised by some that the action to date has not been sufficient or fast enough. After eight years of consideration of this legislation, suddenly some people wanted to see it implemented on an immediate basis. To accomplish this they would charge one person with the responsibility of implementation.

I believe efficient and orderly management of state records is of high importance. Wherever possible, I believe that unnecessary records should be removed from state files. Yet, efficiency should not be solely measured in how fast one can throw things away.

If we are to err on whether to keep records or not keep records, we would be better to be on the side of keeping the records. It is essential that our state departments and agencies retain the records that are needed in the operations of state government.

When the authority to determine what state records should be retained is removed from a department, it is better in this case that it not rest with just one person. The present State Records Commission consists of seven highly qualified and experienced individuals. Three members of the Commission alone have more than 55 years total experience in state government. I have great faith that this Commission can make the wise and orderly decisions needed to implement the State Records Management Act.

For the reasons I have outlined above, I hereby respectfully disapprove of this Senate File 285.

Sincerely,<br>ROBERT D. RAY Governor

## HOUSE CONCURRENT RESOLUTION 81

By Husak, Crabb and Pellett
Whereas, the livestock industry in Iowa is generally acknowledged to be of primary importance in the state; and Whereas, a significant portion of the livestock in Iowa moves through livestock dealers or other market agencies; and

Whereas, livestock disease control methods must be continually reviewed in order to assure the profitability of the production of livestock; and

Whereas, the identification of livestock as it passes through dealers and sales agencies is of great importance to prospective buyers and officials charged with enforcing livestock health regulations; and

Whereas, there is considerable uncertainty regarding the application of implied warranty provisions of the Iowa Code to the marketing of livestock in Iowa; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Conourring, That the legislative council establish an interim study committee to study the problems related 2
to marketing of livestock, including the proper identification of livestock and the disclosure of previous owners, and to the clarification of the implied warranty provisions of the Iowa Code as these provisions apply to livestock sales; and

Be It Further Resolved, That the study committee shall prepare a report of its findings and submit it to the legislative council and the members of the Sixty-sixth General Assembly of the 1976 session.
Laid over under Rule 25.

## HOUSE CONCURRENT RESOLUTION 82 <br> By Crabb, Husak and Pellett

Whereas, there has been an on-going cooperative program between the several states and the United States Department of Agriculture, as a result of which there is hope of eradicating both bovine and swine brucellosis in this country within the
next five years; and
Whereas, to achieve this objective it is necessary that each state have laws that are in harmony with the total program, and efforts have accordingly been made to pass appropriate legislation in Iowa; and

Whereas, House File 870, enacted by the first session of the Sixty-sixth General Assembly, appears more responsive to past misconceptions than to current facts, and should therefore be reviewed; and

Whereas, because the economic impact of bovine and swine brucellosis is of such importance to Iowa and the nation, and because both bovine and swine brucellosis are transmissible to human beings, this review should be undertaken as soon as possible; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the Legislative Council is requested to take action during the 1975-1976 legislative interim to establish a study committee or authorize formation of a joint interim subcommittee to conduct a study of bovine and swine brucellosis. The study committee or subcommittee should be instructed to consider the incidence of this disease in Iowa and its economic and public health aspects, and the advantages and most appropriate methods of eradicating the disease, and to report its findings and recommendations, accompanied by any draft bills necessary to implement the recommendations, to the second session of the Sixty-sixth General Assembly.

## Laid over under Rule 25.

## Speaker Cochran made the following remarks:

For most of us in this legislative body this has been a long hard session; however, it has been one of the most gratifying of my career as an Iowa lawmaker.

I have had the honor of serving as your Speaker. Let me say that it has been an honor to have had this opportunity.

As we leave the House chamber for the interim period, we know the Iowa public will measure legislative performance by widely differing yardsticks.

First, this session's record will be measured against the public's expectation of what should have been done:

Second, the legislature is measured-and rightly so, I believe-against the legislature's individual and collective promises of what would be done:

Third, our record is weighed against the reality of what could be done:
And finally, of course, the quality of the bills that were passed and the work that was done.

Our major task was to adopt a balanced budget-to fund state government for the coming year. We have handled over a billion dollars worth of appropriations bills and have proved that we are responsible to the people of Iowa. We had before us a budget recommendation from the governor, and we had our own recommendations, and we worked against a backdrop of an uncertain economy and against widely differing projections of the economic health of this state. You did what the people of Iowa expected the Iowa legislature to do-you met with care and calmness of purpose the major statutory task of the Sixty-sixth General Assembly, and I congratulate you on the quality of the subcommittee, committee and floor work of the appropriations process.

A second major task emerged when we turned our attentions to the legislative priorities presented by the governor and the majority party. Through debate and compromise much of this has been placed into law. You have wisely chosen further study on some others-with the good possibility of action in the second half of this session.

A third major category of work confronted this legislature-and it was in meeting this task that I believe each representative can and will take a great deal of pride-regardless of party affiliation. This third area is the manner in which this legislature addressed unforseen, urgent issues. The legislative process can and does respond, and it can and does, alleviate problems that suddenly arise. In this category we find your work on such issues as the packer bonding bill, on medical malpractice, on the industrial revenue bonds matter, on gambling laws, the grain inspection issue, and the subject of electronic banking systems, to name several.

I am not going to discuss specific bills, nor attempt to play a numbers game; I am not interested in a quantitative analysis at this hour of the morning nor at this point in the session-and neither are you.

I do want to extend my personal thanks to each of you for the very hard work which has characterized this year's deliberations. I am exceptionally proud of the members of the House this year. The quality of work on legislation has been on a professional level reflecting the ability of the legislators in this body.

I must hastily point out that without the tremendous staff of talented people from the pages and doorkeepers to the clerks and administrative staff to the Chief Clerk this operation would never have gotten off the ground, however.

It is time now to return to our homes and our constituencies-to listen to the people whose assessments are, as we all know, the ones that really count.

We shall return next year, our vigor renewed and our outlook bright for even more accomplishments of the future.

Thank you all.

# HOUSE CONCURRENT RESOLUTION 84 

By Hargrave, Jesse, Krause and Brunow

Whereas, both federal and state laws require that women and members of minority groups be accorded equal treatment in hiring, rate of pay, advancement and other aspects of employment; and

Whereas, available data indicate that, regardless of these laws and of expressed intent to abide by and affirmatively implement them, women and members of minority groups have not in fact advanced into administrative and other higher level positions in public employment in Iowa generally, and in particular in the state's system of area community colleges and vocational schools; and

Whereas, it is desirable that continuing efforts be made to assure that equal opportunity is afforded to women and to members of minority groups in all aspects of public employment; Now Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the Legislative Council is requested to establish a study committee or authorize formation of a joint interim subcommittee to review compliance by public employers in Iowa with the state and federal laws requiring equal opportunity in hiring and advancement, and equal pay for equal work, among men and women and among the members of various minority groups. The study committee or subcommittee shall submit a report to the second session of the Sixtysixth General Assembly, which report shall include any draft legislation needed to implement recommendations which the study committee or subcommittee may see fit to make.
Laid over under Rule 25.

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council is authorized to create a study committee as provided by law, composed of members of the Senate and the House of Representatives representing both political parties, to conduct a study during the 1975 interim relating to the need for developing a new formula for allocating transportation funds and increasing funds needed to meet present and future transportation needs; and

Be It Further Resolved, That the study committee shall prepare a report of its findings and recommendations and submit it to the legislative council and the members of the Sixty-sixth General

Assembly, 1976 Session, accompanied by legislative bill drafts designed to carry out the recommendations of the study committee.
Laid over under Rule 25.

## HOUSE CONCURRENT RESOLUTION 86 <br> By Krause

Whereas, twenty-five million dollars in federal funds will be coming into Iowa in the next year to be used in mass transit, and

Whereas, there has been no attempt made to define the state's role in mass transit, and

Whereas, questions have arisen about a continued funding base for mass transit, and mass transit's availability in smaller communities, Now, Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council is authorized to appoint a study committee or allow meetings of a joint subcommittee of the transportation standing committees of both houses of the general assembly to study the problems of public mass transit in Iowa.

REPORT OF THE COMMITTEE TO NOTIFY THE GOVERNOR
The committee appointed to notify the Governor that the

House was ready to adjourn returned and reported that it had performed its duty and that the Governor had sent the following message:

## OFFICE OF THE GOVERNOR

## The Honorable Dale Cochran

Speaker of the House of Representatives
Sixty-sixth General Assembly
State Capitol
Des Moines, Iowa
Honorable Members of the General Assembly:
When this legislative session began 166 days ago, I presented to you a Condition of the State Message pursuant to my Constitutional responsibility as Governor.

Today I deliver to you another message as you adjourn-one that is not required by either Code or Constitution, but which is a traditional communication between the executive and the legislative branches.

I have held this office long enough to realize that a legislature considers a Governor's messages somewhat differently than does the chief executive. We feel fortunate if some attention is paid to our initial communication and pleased if any attention at all is given to the message presented at the close.

In the Condition of the State Message I told you that Iowans of the future will best remember what is accomplished by this legislature, not necessarily who it was who did it. It will be deeds, not names, which will make lasting Iowa history.

Further, I expressed to you that a successful session would provide enough credit for all the politicians and that those seeking to win favor in the eyes of their constituents would best serve their political parties by best serving Iowa.

This is the seventh time that I, as Governor, have delivered such a closing message to a General Assembly. I hope to continue with this one what has been my practice in earlier messages--to emphasize the positive accomplishments and to avoid undue negativism or blame-placing.

During this lengthy session you confronted some extremely complex issues and resolved several. Others must wait your return.

Hopefully, in your second meeting this unfinished business can be handled without the necessity of a marathon close-down, free of the extreme stress and strain of an all-night session. Solutions come much easier with clearness of mind and in a reasonable working day.

As in earlier meetings, this session began with a flurry of priority lists. The Governor had a program and budget; the Democratic Party had a subject list. The majority leadership of this body had their priorities. While these lists are sometimes used as a template to judge performance, I am more concerned with the substance of bills than with scorecards.

There are several substantive measures in which representatives of both political parties can have a great pride of achievement. One especially stands out-the creation of an Iowa Housing Authority.

This Act is an outstanding example of what can be achieved when a legislature works in bipartisan concert with the executive. You used information
developed by people on our Task Force on Housing who worked hard and long to give you their best thinking on the needs of our people and the ways in which you could best respond.

There are other positive accomplishments of this session. You recognized persons with hearing disabilities by establishing a Division for the Deaf in our Health Department. The new and innovative Energy Policy Council was further strengthened. You broadened the elderly property tax relief program. Unemployment benefits will be increased. Our gambling laws were tightened. Additional state assistance was made available to local units of government. You passed a strong packer-bonding bill, a tougher stripmining act and improved our securities law.

You responded to concerns about corporate farming in lowa, passed a wage collection law, authorized some increased funding for the highly successful tuition grant program and modernized the mental health commitment statutes, to cite some examples.

As is usually the case when legislative bodies meet, this session saw some gubernatorial concepts and recommendations stretched both in scope and dollar amounts.

Another example is the income tax plan that you adopted. When you convened, I submitted a plan to provide greater equity in our state income tax. The bill which evolved from the sharp differences between separate plans in the House and Senate incorporates several good features but goes beyond what we originally proposed in shifting the burden of taxation.

You made some improvements in the school foundation program, though I must note again that you spent more than what was presented to you in the Governor's budget and your action did impose additional burdens upon property taxpayers-the very people that the school foundation plan was originally designed to relieve.

You addressed yourselves to the need to upgrade our Iowa Public Employees Retirement System (IPERS). And while you actually appropriated less money for additional IPERS benefits this year than we recommended, the future obligations which you have locked into the program cause concern about the financing of the increased costs in the years ahead.

Because this was a budget-making session, money matters demanded much of your attention. Our comptroller's analysis of your action indicates that while the total amount appropriated by the General Assembly for the first year of the 1975-77 biennium is less than the amount recommended in the Governor's budget, the amount of recurring expenses actually exceeded our recommendations by some $\$ 8$ million.

Of additional concern is the matter of capital appropriations. We have been fortunate in Iowa to be in a position of surplus. And with that comes a special responsibility to use such a surplus in a way so as to not obligate future legislatures unduly. In times of surplus, one-time expenditures can be made and capital improvements can be accomplished. Delaying capital needs carries with it a double danger. First, costs continue to rise. Second, when it comes time to pay the bills the funds on hand now might well become committed elsewhere.

The desire of this legislature to move towards annual budgeting leaves you with some unfinished business in your next meeting which previous legislatures have not had to confront. I hope this will not lead to the frustration and uncertainty which characterize the annual budgets of the federal Congress.

Also on your agenda when you convene again are the extremely high priority matters of land use and completion of the act to revise the Iowa Criminal Code. These were not completed in this session, but the opportunity for good legislation in these areas will still be open to you.

There are other matters left pending including such items as reorganization of the Iowa Employment Security Commission, enactment of a competitive bidding law and establishment of a Washington Office, just to name a few.

A legislature can serve people well sometimes by not taking action. In this session 1,501 bills were introduced; only 262 won final approval. Iowa citizens can be thankful that not all the bills introduced achieved the status of law.

One disappointing aspect of this session was the refusal to confirm some excellent appointees who were well qualified and competent and who were willing to offer their services to state government in an unselfish way.

It is one thing to attack an elected public official or reject a person because of lack of qualifications. It is an entirely different situation to beat down good, capable people because the majority party did not like their party affiliation. I would urge that in future deliberations you keep uppermost the impact your actions have on the lives and reputations of individuals who seek nothing more than to be considered on their merits, not on their political allegiances.

We can learn from experiences of this session. And we can look ahead now to a second session of this General Assembly, one in which we will have many opportunities for further accomplishments for the people we all have been elected to serve.

It is not an easy task to be a member of the General Assembly. Often the actions and words of a very few frustrate the hard work of the many. Often the lighter moments receive emphasis beyond their importance and it is easy to be left with a feeling that what you do is not fully understood and appreciated.

It is then that perspective is needed, the perspective that comes at a time of adjournment when you can look back with satisfaction over the positive achievements. For the good work that was done I commend you. For that which is still to be done I can tell you that I offer to you my help and cooperation.

Sincerely,
ROBERT D. RAY Governor

The report was received and the committee discharged.

GOVERNOR'S VETO MESSAGE
July 19, 1975
The Honorable Melvin D. Synhorst
Secretary of State
State Capitol Building
Local
Dear Mr. Secretary:
I hereby enclose Senate File 296, an act to establish and regulate the practice of barbering and the practice of cosmetology, and to provide penalties, which in accordance with Article III, Section 16, Constitution of the State of Iowa, I hereby disapprove and transmit to the Secretary of State.

While I fully support the need for health standards, the licensing of persons practicing professions which serve the public, and proper supervision of schools which give training in these areas, I cannot approve this particular legislation which sets up artificial classifications for barbers and cosmetologists and protects certain classes in a manner that has little relationship to the protection of the public.

Our courts have recognized that it is wrong to use licensing statutes to limit competition. Particularly they have advised that a classification that serves the purpose of restricting competition is improper. This legislation tends to set up different standards for the education and practice of barbering and cosmetology both of which basically deal with the same subject, that of providing hair services to the public.

In addition, I specifically question five items contained in this legislation:

1. Training restrictions in the bill provide that a school of cosmetology cannot give more than 210 hours of hair cutting instruction and that a barber school cannot allow more than 300 hours of hair styling instruction. One can find little rationale for either the limitation on the number of hours of training a student may pursue or the difference between the two courses. The restriction on cosmetology training would also appear to be a disadvantage to the cosmetology student. These limitations might hamper students of Iowa schools in obtaining maximum skills in their profession and possibly obtaining a license in other states. Furthermore, these limitations would tend to prohibit or prevent continuing education in these prac-
tices at the same time other professions are instituting mandates and programs for continuing education in their areas of expertise.
2. The advertising restrictions, while calling to the attention of the public the fact that a student would be providing service, will have the effect of limiting competition and the number of persons available for the clinical training of the students. This could also reduce the availability of lower cost service to our less affluent citizens.
3. The procedure provided in this legislation for injunctive relief after an alleged violation report to the Commissioner of Public Health might well tend to restrict trade and competition and give to those who desire it a hunting license against their competitors. There would need to be an overriding threat to the public welfare before this kind of relief should be made available over and above normal channels afforded to a citizen who complains of a violation of a statute. No convincing argument of such overriding need has been advanced in this case.
4. Senate File 296 provides that the owners of licensed schools of cosmetology and barber schools are not authorized to own and/or operate a beauty salon or barber shop except for those owned prior to July 1, 1975. Grandfathering in existing shops or salons and thereby sealing off competition from newcomers is not in the best interest of the public. This bill can be interpreted to go so far as to prevent the owner of a shop from ever relocating to another site. This is not reasonable or realistic.
5. This bill would prevent a person from managing a shop or salon unless he or she were a licensed operator. Such a restriction again is beyond the boundary of fairness and reasonableness. Capable people are not deprived of positions of management in hospitals because they do not qualify as practicing doctors or in drugstores because they are not pharmacists.

A close reading of Senate File 296 reveals a conglomeration of special interest protections for those now practicing the professions with very little relationship to public health. It is improper to give unfair advantage to limited groups of people by authority of state legislation in the name of consumer protection. For this reason and the other reasons listed, I must disapprove this bill.

There remains a legitimate interest in regulating these concerns in a manner consistent with public health and consumer protection interests. I urge the General Assembly to take action during the 1976 session to enact new legislation that is in the best interests of all Iowans.

Sincerely,
ROBERT D. RAY
Governor

## GOVERNOR'S ITEM VETO MESSAGES

July 15, 1975

[^73]making appropriations to state regulatory agencies for the regulation of banking, beer and liquor control, insurance, real estate, and those subjects regulated by the Secretary of State.

House File 431 is approved July 15, 1975, with the following exception which I hereby disapprove:

That portion of Section 14, numbered paragraph one (1) thereof, which reads as follows: "Review the contents of all disclosure reports and organization statements filed under the provisions of this chapter and promptly advise each committee of errors found."
If fully complied with, this item would require that the Campaign Finance Disclosure Commission review the contents of all disclosure reports and organization reports filed at the state and county levels. Because the item makes no distinction between technical and substantive errors, the Commission would be required to advise each reporting committee of all errors found, regardless of how minor or unimportant they might be. After advising the committees of errors found, the Commission would be obligated to follow-up their action to check on compliance.

Although no exact estimate can be made in the number of reports and statements filed in a year, one can get an idea of the immensity of this task by looking at the number of elections to be held during the remainder of 1975 and during 1976. With local, county, state and special elections, the number of individual elections during the next 18 months probably will exceed 3,600 . In most of these elections there will at least two opposing candidates who are required to file a minimum of two reports. In addition approximately 500 additional statutory political committees also will file reports in support of or in opposition to the candidates or ballot issues. The total number of disclosure reports filed during the next 18 months will be enormous.

I have been informed by the Campaign Finance Disclosure Commission that based on past experiences with disclosure reports, at least 40 percent of all disclosure reports show errors of one type or another. These errors are in varying degrees of severity and complexity with a number being relatively inconsequential. A very large staff would be required to find all errors in these reports and to follow them up for compliance.

When one examines the resources in terms of staff personnel, travel and other expense money available to the Campaign Finance Disclosure Commission, it becomes apparent that the Commission would not be able to meet the requirements of this item. The Commission has only three full-time employees with a total budget of $\$ 49,500$, of which less than $\$ 1,200$ is available for travel expenses. Even if the Commission staff were to ignore its other responsibilities and give its sole attention to the requirements of this item, they undoubtedly could not meet this single requirement.

This item was included in House File 431 because of the concern of some legislators that the Commission has not been pursuing adequately errors discovered in past disclosure reports. It was felt that perhaps the best way to respond to this concern was to require the Commission to review the disclosure reports and then follow-up on the mistakes found. Yet, there is reason to believe that the legislators did not intend for the Campaign Finance Disclosure Commission to review all disclosure reports filed at the state and county level and pursue all errors, whether substantive or technical.

The Commission has indicated to me that they are committed to a more thorough review and closer scrutiny of the disclosure reports that are filed at the state level. Within their limitations of budget and staff, I am sure
the Commission will try to improve the quality of the disclosure reports. This is within reason.

For these reasons, I hereby disapprove this item in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 431 are hereby approved this date.

Sincerely,
ROBERT D. RAY

Dear Mr. Secretary:
I hereby transmit House File 848, an act making appropriations to the Iowa Crime Commission and the Department of Public Safety and providing for the administration and use of funds and personnel of such departments.

House File 848 is approved July 15, 1975, with the following exception which I hereby disapprove.

I am unable to approve Item 5 designated in the Act as Section 5 which reads as follows:
"Sec. 5. NEW SECTION. The department of public safety and the state department of transportation shall not make available to persons other than the named driver or a person authorized by the named driver, or a court or a peace officer, an individual's manual or automated traffic record relating to an individual's involvement in a motor vehicle accident unless such involvement resulted in the person's conviction of a violation of a motor vehicle law or ordinance or unless such person failed to comply with the provisions of chapter three hundred twenty-one A (321A) of the Code."
This item would restrict the Departments of Public Safety and Transportation from releasing information on motor vehicle accidents on a driver's record unless that driver first authorized the release of that information.

I am not doubting that this provision was inserted in House File 848 with good intent-that of protecting an individual's right of privacy. I share that same concern. Yet, there are several other concerns in this case which convince me that this is an inappropriate effort and does not accomplish the desired result.

The purpose of this item was to prevent insurance companies from securing information on motor vehicle accidents that do not result in a conviction. Apparently it was felt by some legislators that insurance companies do not need this type of information to write insurance policies. However, this restriction would not accomplish the desired intent.

To properly rate and classify a policyholder, an insurance company needs as complete a record of information as possible. Since this item provides that a driver may authorize another person to secure his complete driving record, the insurance companies would be forced into the position of requiring that before any new policy is issued or an existing policy is renewed,
that the driver authorize the insurance company to secure his or her complete driving record including all motor vehicle accidents.

While this can be accomplished, it will not be done so without cost and delay. In insuring Iowa's 1.9 million drivers, insurance companies will have considerably more paper work. The costs involved in securing authorization from drivers, processing them, and keeping them on file will mean increased expenses for the insurance companies. In all likelihood these increased expenses will be passed on to the consumer in the form of higher premium costs.

Since this section speaks to individual drivers, it is probable that insurance companies would require authorization from each driver who is covered under a specific policy. That would mean that in a family, each spouse and child who drives would have to provide their individual authorization. This might be difficult to secure in some families whose members are away from home. The delays and additional expenses experienced by insurance companies would be similarly passed on to the consumer.

Drivers who enjoy good driving records and are free of accidents should not be placed in the position of subsidizing bad drivers who may have numerous traffic citations and accidents on their record. This restriction on the dissemination of information could help protect the bad drivers at the expense of the good drivers.

I would be more receptive to this approach if I were aware of abuses that have occurred under the present system. Yet we have not learned of any. Rather the present system seems to do an effective job of keeping the Departments of Public Safety and Transportation informed of a person's driving performance. By maintaining complete driving records, departmental personnel continue to improve driver safety habits.

Another concern of mine is the question of whether this item would be effective for only the one-year lifespan of this appropriation bill or be incorporated into the permanent language of the Code. If it were to be effective for only one year, insurance companies would have to go to the expense of printing up new forms at ultimate cost to the consumer that would be used only one year. If it were to be made a permanent part of law, then it raises a constitutional question. The Attorney General has suggested that second subject matters in a bill (including this matter in this bill) make the entire bill unconstitutional. Whether this is so or not, this is a good illustration of what does not belong in an appropriation bill. Section 5 of House File 848 should stand on its own merits in an individual bill.

For these reasons I hereby disapprove this item in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 848 are hereby approved this date.

Sincerely,
ROBERT D. RAY Governor

July 18, 1975
The Honorable Melvin D. Synhorst
Secretary of State
State Capitol Building
Local
Dear Mr. Secretary:
I hereby transmit House File 898, an act making appropriations to vari-
ous state agencies for the purposes of providing for capital improvements, reimbursement of state educational institutions for deficiencies in operating funds from funds pledged to finance academic and administrative buildings and facility services, providing funds to lease data processing equipment, funding the purchase of certain equipment, providing funds for sewage works purposes, creating a hospital schools revolving fund and providing for expenditures from such fund, providing for land acquisition, providing a memorial for medal of honor recipients, restoring flags exhibited in the state capitol, and providing for the reversion of funds.

House File 898 is approved July 18, 1975, with the following exception which I hereby disapprove.

I am unable to approve Item 7 designated in the Act as Section 7 which reads as follows:
"Sec. 7. Chapter one hundred seven (107), Code 1975, is amended by adding the following new section:
$N E W$ SECTION. The state conservation commission shall make annual payments to school districts in such amounts sufficient to pay school taxes on lands acquired under the provisions of the Acts of the Sixty-fifth General Assembly, chapter seventy-four (74), 1973 Session, and under the authority of any other Act of the general assembly which authorizes the acquisition of land which would otherwise be subject to the levy of school taxes. There is appropriated annually from the general fund of the state from funds not otherwise appropriated to the state conservation commission an amount sufficient to make the payments provided for in this section. The state comptroller shall administer the funds appropriated by this Act and shall administer the program established by this section. The state conservation commission shall cooperate with the state comptroller in order to provide information necessary to carry out the provisions of this section.
This item provides a standing unlimited appropriation to the State Conservation Commission to make annual payments to school districts for reimbursement of property taxes lost on lands taken off the property tax rolls under the Open Spaces program and any other Act of the General Assembly. The apparent intent of this is to prevent a change in the property tax rate for the remaining property holders.

Section 7 of House File 898 directs the State Comptroller to administer the reimbursement program. Unfortunately this item goes no further than that. The item does not indicate what evaluation should be used; nor does it affect assessments; no method or direction is provided for computation of the payment to school districts; no instructions are given for what millage rates might be used. In short it is an inoperable section.

Even if one could determine the procedure to be used to administer this program, it seems apparent that the reimbursement of property taxes would not secure any reduction in existing property taxes. Under the school aid formula, this reimbursement would be treated as "miscellaneous income" and would be considered as an addition to all other school income funds. This payment would not replace any property taxes that are already levied, but just provide new dollars in the form of a special bonus to select and favored school districts. No reduction in property taxes would be accomplished.

Section 7 specifically states that the property tax reimbursement is to be provided for lands acquired under the Open Spaces program and "under the
authority of any other Act of the General Assembly which authorizes the acquisition of land which would otherwise be subject to the levy of school taxes." This language carries no past or future limitations. One must assume that it is intended to include all other conservation land, the property of the Regents' universities, our highways, our Social Services institutions, and even the State Capitol. One of the consequences of such an extensive reimbursement program might be that the residents of the school districts where open space land is located would end up paying more than they would receive.

While one can assume that the cost of such a far-ranging reimbursement program would be enormous, it is impossible to provide any accurate cost figure. Data is unavailable as to the number of acres that would be involved, what they would be valued at, or what the total cost of reimbursement would be.

If research were done on this section as to costs, my office, the Department of Revenue, the Comptroller, and the Department of Public Instruction are unaware of it. Neither do I believe that the Legislative Fiscal Director or his staff are aware of the cost, for I find nothing in their budget to reflect the reimbursement program.

Even if Section 7 of House File 898 were designed to be functional and its scope and funding implications understood, I strongly doubt the overall soundness of this type of reimbursement for school districts or any other taxing district. The specter of several deleterious effects is raised by the item.

If schools are to be reimbursed for the property taxes they forego on state land, one must ask why not then reimburse schools for all other gov-ernment-owned lands in the district. That would mean federal, county, and the city governments would reimburse school districts also.

If it is consistent for other government agencies to reimburse schools, then is it not consistent for schools to reimburse other government agencies for the property tax exempt land they own? It actually makes more sense for schools to reimburse city and county government for the basic services they receive (e.g., police and fire protection) than for the state and its other subdivisions to reimburse schools when no direct service is being provided.

To begin a program of property tax reimbursement triggers the related question of how property, ownership, and local services provided ought to relate. The concept of reimbursement for tax exempted land could easily be extended to other than government land. Conceivably, charitable institutions, such as churches and lodges, might be asked to pay taxes for the basic services provided to them by government.

The Iowa Open Spaces program since its inception in 1973, has been a successful effort to preserve scenic Iowa countryside for future generations. One of the key parts of the Open Spaces program is that land is purchased only from willing sellers. Never does the state condemn land to force a sale for this program.

The state has used its money for Open Spaces to purchase the land where local government agencies either could not or would not. With acquisition of land by the state, direct benefits usually accrue to the local community. In additon to preserving and improving the aesthetic value of the countryside, state land purchases in most cases result in more money spent in the surrounding area, other improvements, and a broader tax base.

While the legislators who supported this item were legitimately concerned
with the decline of the property tax base of school districts, it should be pointed out that the state is making a massive effort through the school foundation plan to move the burden of school financing from property taxes to state taxes. Since FY 1971, state aid for local schools has increased from $\$ 226$ million to $\$ 458$ million in FY 1976. The state has increased its share of the funding of school budgets from 38 percent in 1971 to 52 percent for this next school year.

This influx of state aid is reflected at the local level. In one of the school districts that has a large share of the Open Spaces land in it, state aid has increased from $\$ 120,000$ in FY 1971 to $\$ 342,000$ in FY 1976, a 186 percent increase.

House File 898 (in subsection 5 of section 1) also provides for a one-year property tax reimbursement program for school districts. This item, which is estimated to cost up to $\$ 15,000$, could be removed also, but in light of the recent Supreme Court decision limiting my item veto authority, we believe it would necessitate removing the $\$ 3.7$ million capital appropriation to the Conservation Commission as well. It is important that these capital funds be retained to make necessary improvements and acquisitions. Reluctantly, therefore, I am not affecting this one-year reimbursement program.

For these reasons I hereby disapprove this item in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 898 are hereby approved this date. Sincerely,
ROBERT D. RAY Governor

## OSCAR JOHANNES GRAU

Mr. Speakmr: Your committee appointed to prepare a suitable resolution commemorating the life, character, and public service of the late Honorable Oscar Johannes Grau, begs leave to submit the following memorial:

Oscar J. Grau was born on a farm north of Newell on June 19, 1890, the third son in a family of three boys and five girls, to Hans J. and Anna E. Bodholdt Grau.
Mr. Grau's early education took place at the country school located one mile east of the home farm. This was followed by several winter courses at a private school, a commercial course at Grand View College, Des Moines,

Iowa, during 1909-1910 and then completion of the two-year agriculture course at Iowa State University, Ames, Iowa, in 1913.

He was married to Christena Bodholdt of Waterloo, September 15, 1915, and to this union were born three children: Donald B., Robert B. and Doris.

Mr. Grau, a native of Newell, had resided in Buena Vista County all of his lifetime. After completion of his education, he began farming for himself in the Newell area where he developed a herd of polled shorthorn cattle. He was a charter member of the Farm Bureau and served as county president in 1931. While president of the county Farm Bureau, the Farm Service Company was organized. In 1936 he was named temporary chairman of the Farm Bureau Rural Electric Committee. The Buena Vista County REC was incorporated January 18, 1937, and Mr. Grau was one of the original signers. At the board's first meeting he was elected president and served the organization in that position for 12 years. In May, 1937, the REC board voted to become a member of the Central Electric Federated Cooperative and he was named Buena Vista county representative on the board.

From 1948 to 1954 he served as the mayor of Storm Lake. He was past vice president for Development of Buena Vista College as well as serving as a college trustee for several years.

Upon his instigation in 1947, he joined four other men in the organization of a corporation to build a radio station in Storm Lake. Station KAYL went on the air in 1948 with FM being added in 1950. He served as corporation president until the Cornbelt Broadcasting Company was sold in 1972.

Mr. Grau had been a resident of Storm Lake since 1940 when he retired from active farming in Coon Township.

He was a member of Lakeside Presbyterian Church where he had served as an elder, a Scottish Rite Mason, member of the Shrine, longtime member of the Storm Lake Chamber of Commerce, Elks Lodge, Order of Eastern Star and Phi Kappa Delta Honorary Forensics fraternity. For more than twenty-five years he served as president of the Buena Vista County Mutual Insurance Association, beginning in 1944.

A Republican, Mr. Grau was a State Representative for Buena Vista county during the Forty-fifth, Forty-fifth Extra General Assemblies, serving on the committee that wrote the three-point tax law-income, sales and corporation income tax-which has since been the basis of state treasury income. He was chairman of the subcommittee promoting the police radio system and was instrumental in the location of the police broadcast station in Storm Lake.

His wife, Christena, preceded him in death in 1967. In 1969 he married Alma Bodholdt of Newell.

Mr. Grau died at the Buena Vista County Hospital July 28, 1974, after a lengthy illness.

Surviving are his wife, Alma; two sons, Donald B. of Dubuque, and Robert B. of Elkader; a daughter, Doris of San Francisco, California; six grandchildren; three great grandchildren; a brother, Jurgen (J. C.) of Newell; four sisters, Mrs. Laura Bonebrake of Diagonal; Mrs. Emma Six of Oakland, California; Mrs. Sarah Hearst of Cedar Falls. The funeral services were held in Lakeside Presbyterian Church on July 31, 1974.

Therefore, Be It Resolved by the House of Representatives of the Sixtysixth. General Assembly of Iowa: That in the passing of the Honorable

Oscar Johannes Grau, the state has lost an honored citizen and a faithful and useful public servant, and the House by this resolution would express its appreciation of his service, and tender its sympathy to the members of his family.

Be It Further Resolved: That a copy of this resolution be spread upon the Journal of the House, and that the Chief Clerk be directed to forward an enrolled copy to the family of the deceased.
