Hall of the House of Representatives
Des Moines, Iowa, Monday, January 10, 1977

Pursuant to chapter two (2), section two point one (2.1), Code of Iowa, the House of Representatives of the Sixty-seventh General Assembly of Iowa, 1977 Regular Session, convened at 10:00 a.m., Monday, January 10, 1977.

The House was called to order by the Honorable Arthur A. Small, Jr. from Johnson County.

The following prayer was offered by the Reverend Vincent James, pastor of the United Methodist Church, Vincent, Iowa:

Eternal God--our Father, we know that it is as if we are held in the hollow of your hand. Our life and our times are in your keeping. The flight of a sparrow--the destiny of a man, the decisions of a state legislature, are all within your concern. You are the source of all that exists--the power beyond all powers and still you come to us in love. How beyond our understanding to care for us, to guide us in each of our human endeavors. Come to us--let us know you are the God of all who have the responsibility of Authority.

To Governor Ray and all state officials especially now on this day, to these 100 legislators who come together to work out the reality of representative democracy in Iowa, touch them with your guiding Spirit so that the endeavors of these people as citizen legislators may be transformed into extraordinary accomplishments on behalf of the state of Iowa.

Inspire and enable them in their consideration of law-making to write these laws with a clarity of language and meaning that will not confuse the spirit and intent of the law or the justice it seeks to establish.

We give thanks for the structure of liberty found in the history of this legislature in which the right use of freedom can be practiced in governing ourselves, that it can truly be a government of, by and for the people.

Show these legislators in each situation to be both representative of the people and their own person, and in all things good stewards and servants of Thine, O Lord.

In thy name we pray, Amen.

LEGISLATIVE PHYSICIAN FOR THE DAY

Dr. Marvin Moles, Newton, Iowa.

LEAVE OF ABSENCE

Leave of absence was granted as follows:

Harper of Davis on request of Cochran of Webster.

ELECTION OF SPEAKER

Miller of Calhoun presented the name of the Honorable Dale M. Cochran of Webster as candidate for Speaker of the House of Representatives of the Sixty-seventh General Assembly, preceding such nomination with the following remarks:

Mr. Speaker, Ladies and Gentlemen of the House:

I consider it an honor to have the distinct privilege of placing in nomination for the office of Speaker of the Iowa House of Representatives.. for the Sixty-seventh General Assembly..the name of The Honorable Dale M. Cochran... the gentleman from Webster...and the Forty-fifth District.

Representative Cochran has served the people of the state for the past twelve years...He was born and educated in Webster County...and graduated in 1950 from Iowa State University. He is married to the former Jeannene Hirsch, and they are the parents of three charming daughters,...Deborah, Cynthia and Tamara.

Before his election to the House, he had served as County Extension Director,...as Farm Editor for the Fort Dodge Messenger, and on the Congressional staff of Merwin Coad.

His energy and organizational ability are demonstrated by the fact that he manages to operate a 400 acre farm near his home town of Vincent...and actively take part in church, community and farm organizations...while fulfilling his legislative duties.

Representative Cochran, began his service to the people of Iowa in 1964, and because of the dedication and leadership he gave to his work,...he was elected and served with distinction as Minority Floor Leader for the Sixty-fourth and Sixty-fifth General Assemblies. Due to the spirit of cooperation shown in this position...and the respect he had gained from his peers...he was elected Speaker of the Iowa House for the Sixty-sixth General Assembly.

His keen knowledge of the legislative processes was recognized by his appointment as Vice Chairman of the Inter-Governmental Relations Committee of the National Conference of State Legislatures,...and he is presently a member of the Executive Committee of this National Organization. He also serves on the Governing Board of the Council of State Governments...and is a Director of the Iowa Rural Development Policy Council.

I am most anxious to assure those new members...who were not privileged to sit in the House under the gavel of Speaker Cochran...that the trust and confidence which we put in his ability...were well deserved. He displays all the qualities which go to make a true leader. He is respectfully courteous and friendly...his energy will amaze you...and when busiest...he will find time to encourage a freshman legislator...he serves with honesty and integrity... has consideration and respect for others...all...while carrying out both the responsibilities and obligations of the Speaker...with dignity.

While recognizing that each of us holds individual dreams for our state, Speaker Cochran realized that...only by expressing those strong and sincere differences of opinion...would we be able to create policy which results in economic stability...and the quality of life we want for all Iowans.

The task ahead is a tremendous one,...but with the fine spirit of cooperation which this colleague has displayed in past years, we can be assured of a productive session, conscientiously representing those people who have put their faith and trust in each of us.

Therefore...I am proud to nominate for Speaker of the House...the gentleman from Webster...THE HONORABLE DALE M. COCHRAN.

Connors of Polk seconded the nomination of Dale M. Cochran for Speaker of the House, preceded by the following remarks:

Mr. Speaker, Ladies and Gentleman:

I rise to second the nomination of Dale Cochran. The book of Matthew Chapter 20, Verses 26-27, says "whosoever will be great among you, let him be your minister; and whosoever will be great among you, let him be your servant." I have had the privilege of knowing our servant Dale Cochran since his 1st election to this House in 1964, and the honor of serving with him as our Minority Leader in the Sixty-fifth General Assembly, and as our Speaker in the Sixty-sixth General Assembly. We have come to know and appreciate his ability, his service and his proven leadership.

I recall two (2) years ago when Speaker Cochran said: "I have only the utmost respect for this chair and for the integrity that is associated with it —

which is in part because of the dedication of fair-minded Speakers who precede me. Beyond that let me take note of the legislative process that placed me here. It is to me the highest honor to have been elected to preside by colleagues — by my fellow legislators, whose confidence and trust in me constitutes the greatest compliment I have ever received in my legislative career."

So now, an even greater honor comes to Dale Cochran - for that compliment of confidence and trust by his fellow Legislators comes to him today -- as it has come to very few -- a second consecutive term as Speaker of the House.

It is an honor, a privilege, and a pleasure for me to second the nomination of my colleague and good friend, the Honorable Dale M. Cochran as Speaker of the Iowa House of Representatives for the Sixty-seventh General Assembly.

Thank you.

Stromer of Hancock seconded the nomination of Dale M. Cochran for Speaker of the House, preceded by the following remarks:

Mr. Speaker, Ladies and Gentlemen of the House:

It is with honor and respect that I rise to second the nomination of Dale M. Cochran of Webster County for the Speaker of the House of Representatives.

We, as a minority party, pledge our utmost cooperation in trying to solve the many problems facing the state of Iowa as fairly and expeditiously as possible. The challenges are many and it will take unity in these chambers to prove to all Iowa citizens that we are here to solve problems, not just to satisfy the petitions of "special interest" groups that may insure our re-election.

Mr. Speaker, even though we pledge our utmost cooperation during the Sixty-seventh General Assembly we are also cognizant of our proper roles as a minority in keeping the majority party "honest." We will be very critical if major decisions are made in "arm twisting" caucuses rather than meaningful debate on the House floor before all the citizens of Iowa.

Having been a member of the General Assembly during the past two sessions when Mr. Cochran served as Speaker, I have seen him demonstrate his capabilities. I feel that he can give us the leadership this House will need the next two years.

I therefore move that the Chief Clerk be authorized to cast a unanimous ballot for the Honorable Dale M. Cochran as Speaker of the House of Representatives for the Sixty-seventh General Assembly.

In accordance with the foregoing motion, the Acting Chief Clerk cast the votes of all the members of the House of Representatives for the Honorable Dale M. Cochran as Speaker of the House of Representatives of the Sixty-seventh General Assembly. The Honorable Dale M. Cochran of Webster, having received all of the votes cast for the office of Speaker of the House of Representatives of the Sixty-seventh General Assembly, was declared duly elected to that office.

Middleswart of Warren moved that a committee of two be named to escort the Speaker to the chair.

The motion prevailed and the following committee was named: Middleswart of Warren and Rinas of Linn.

PRESENTATION OF SPEAKER

The Honorable Dale M. Cochran was escorted to the Speaker's station and, having been sworn, assumed the chair. Temporary Speaker Small of Johnson presented Speaker-elect Cochran with the gavel and congratulated him on his unanimous election.

Speaker Cochran thanked the House for the honor bestowed upon him and offered the following remarks:

On this occasion two years ago I tried to express to the House members my feelings about the honor they had bestowed upon me by electing me to preside over this honorable body.

At that time I pledged that I would keep, as my primary considerations as Speaker, their trust and their confidence uppermost in my mind.

It is no less a moving and humbling experience for me to renew that pledge to you here today, each and every one of you. Indeed, if anything, I want this new House of Representatives to know that re-election by one's colleagues to the position of Speaker is a compliment to me of the highest order. Because it is a moment I not only cherish personally, but your action represents an affirmation I have considered most carefully as I have worked with you in preparation for this Sixty-seventh session.

You know, we begin our daily deliberations in the House by invoking guidance from a superior being. If I may, I'd like to share with you a personal invocation that helps me to stay on the track as I begin a new day--a new week and a new year. There are only three words and they are not magic, just as nothing we can do as human beings is magic--but they help.

These three words are, simply, "Open my eyes."

Open my eyes to the fact that I must begin from where I am, in reality, and so as I try to assess exactly where we are as a legislature, I find a natural, educational, economic, and cultural climate in Iowa that is sound. We all take pride in saying we are Iowans—and in assuming, as public servants, some credit for the relatively stable and good life our citizens enjoy.

As legislators we are first of all mindful that we must maintain the policies and protect the traditions that have resulted in this positive climate in our state.

But we are also aware that it is not enough for 100 men and women in whom the public has placed that public policy trust--to simply maintain the status quo, however satisfying--and tempting politically--that path may appear to be.

When we open our eyes to the significance of this particular beginning, we see that quite frankly, we have some very difficult decisions to make in the next two years. We cannot make those decisions, it seems to me, without exploring new, and perhaps potentially controversial, avenues.

To begin with we can, at the very least, keep our hearts and minds opened to the collective wisdom that is represented among the members of this body. We must be cautious about turning off suggestions of new ways to approach our problems; and we must be equally prepared to stand firmly with tested traditions when we are convinced that those have served us well.

It is a thin line for a legislator to walk whether the legislator is a freshman or a veteran. But this is an open and above all, a democratic body, where the differences in what to do and how to do it has to be fully and fairly debated.

Our Constitution is clear about the legislature's role among the three branches of government. This is a co-equal branch; it is, as we know, the body closest to the people.

Recently, some of the technicalities of our legislative process had begun to hamper our efficiency, so some of these have been changed, so that we might maintain the constitutionally-mandated strength of the legislative department of Iowa government. We will implement some new and innovative procedures this year, as you will see.

For example, this assembly will attempt to involve more of us more directly in a streamlined budget process, in an effort to keep the people's power of the purse firmly within the control of the people's representatives--where our Constitution so wisely has vested it.

And, in addition, because we have found that it is not necessarily in the best interests of considered legislation to be drafting laws under the pressure to interrupt the drafting process to debate complex matters before us--we have taken steps to reorganize the time available to us. The intensive committee work period that we will follow in the next several weeks is a small organizational step toward efficiency, but it could be an important step toward better legislation if we keep our eyes open to the opportunity this new use of time presents.

I've heard many of you say that people you represent expect you to act with wisdom in all matters, with pragmatism in financial matters, compassion in social matters, and with superior knowledge and sometimes superhuman efforts--as you work in Des Moines. In short, people want you to legislate professionally.

We cannot maintain our legislative integrity if we try, on the one hand, to accede to public demands that we legislate professionally, and at the same time become intimidated by the statement that we are "Professional Legislators" as if that title were an accusation to be ashamed of.

I am as proud to aspire to the label of "Iowa Legislator" as I am to be an "Iowa Farmer." To be truly professional as a legislator is a goal toward which we ought to dedicate ourselves, and is not a label from which legislators should shrink.

The quality of our legislative performance on matters such as billion-dollar annual budgets, crucial tax problems, environmental matters, energy conservation, consumer protection, educating our youth and attaining dignity of life for our old, while at the same time we are trying to build and maintain a decent transportation system, keep our air clean, provide recreational outlets, and maintain real justice in our judicial system--are matters that simply cannot be adequately addressed by any other than persons who are dedicated to the highest form of professionalism in carrying out their legislative obligations.

But who are these people, these legislators, who are dealing with other people's lives, wealth and property?

Are these legislators foreign objects from Mars perhaps? Are they merely robots? Are they something that no one ever sees or meets or touches?

Or are they human beings? Yes, they are people just like everyone else who live and breath.

We live in communities throughout Iowa.

These could be your next door neighbor -- very possibly have children who go to school every day with your children.

These legislators, these human beings, may even sit beside you in church on Sunday morning.

They have problems, they pay taxes just like everyone else. They maintain their jobs in their own communities.

They leave their families, their homes and congregate in the State Capitol to do their best to provide under the given circumstances, the best possible quality of life. These people are our Iowa legislators representing the people of Iowa.

Make no mistake about it. We are not dealing in generalities here. We are dealing with specific constitutional requirements of this branch of government -- one of which is that we demand accountability from every corner of the large scope of the Executive Branch of government. To do this adequately could very well require performance auditing and a form of sunset law. Yes, we are making policy in areas that touch the lives, wealth or property of every Iowan every day of their lives.

Let me be specific, as well. I am advocating overt pride in each and every legislator in your business of legislating. That does mean that I advocate the time, the space, the facilities, the technical expertise and the remuneration necessary to carry out our constitutional mandate.

After all, there is one certainty. If this Legislature makes it our business to equip ourselves—and thus to equip the people—with the tools necessary to function in their best interests—and having so equipped ourselves, we should fail to perform as they would have us do, the people have an effective remedy and we all know what it is. It comes about every two years in November.

So -- open our eyes. To what we are, to what we are charged to do, to what the Constitution demands that we do.

Then, in a renewed climate of pride not only in our individual contributions, but of pride in this body, we can debate and resolve the issues of real import to Iowans.

I have the highest regard for the Iowa legislative process. It perseveres and serves us well. I am so very proud to welcome each of you to it today. I thank you again for the honor -- the challenge of your confidence in me as your Speaker.

I would like to leave you with a fuller context of the invocation that has been so helpful to me, and around which I have addressed my remarks today. It seems to be a pretty helpful way to mobilize our thinking at the start of a new legislative session:

We approach the beginning of a new day;
 We pause at the threshold of a new week;
 We stand at the brink of a new year;
 and yet we do so with our same old selves.

We pray, Lord, that by your spirit you will change us,
 making us new creatures in your eyes,
 enabling us to stand at the brink of a new life.

Forgive us if we are preoccupied with the past,
 thinking the old is always best,
 imagining that the new is always the worst,
 or that change is synonymous with evil.
 If we have been deaf and blind to new insights, counting as
 enemies those who are innovative and adventurous,
PARDON US AND OPEN OUR EYES.

Forgive us if we are preoccupied with the present,
 thinking that the pleasurable is always the best,
 imagining that the painful is always the worst,
 that difficulty is synonymous with evil.

If we have been deaf and blind to great principles,
 counting as enemies those who advocate principle and
 restraint,
PARDON US AND OPEN OUR EYES."

And, finally,
 "Forgive us if we are preoccupied with the future,
 thinking that the new is always the best,
 imagining that the old is always the worst,
 that custom is synonymous with evil.

If we have been deaf and blind to ancient truths,
 counting as enemies those who love tradition,
PARDON US AND OPEN OUR EYES."

Thank you very much.

Speaker Cochran in the chair.

ELECTION OF SPEAKER PRO TEMPORE

Byerly of Polk placed in nomination the Honorable Carl Nielsen of Polk County as candidate for Speaker pro tempore of the House of Representatives of the Sixty-seventh General Assembly, preceding his nomination with the following remarks:

Mr. Speaker, Ladies and Gentlemen of the House:

It gives me great pleasure to nominate a close personal and professional friend, Mr. Carl Nielsen, for Speaker pro-tempore of the Iowa House.

While not a native Iowan, Carl has spent most of his adult life in the state. He attended Grand View College where he received an Associate Arts Degree and then went on to Drake University where he received his B.A. Degree and his law degree.

Carl, who resides in Altoona with his wife, Marilyn and three children, will be serving his third term in the Iowa House.

More important than the accolades and plaudits I could give to him from his educational, personal or historical perspective, Carl personifies a type of leadership so necessary at this point of Iowa government. Carl features traits rare in most political leaders today -- intelligent, decisive, and articulate.

Today, more than ever before, the people of Iowa, and particularly urban people, need strong political leaders and a strong voice. Carl Nielsen personifies that need and helps to span a vast chasm that presently exists.

With these comments I place in nomination the name of Carl Nielsen.

Jesse of Polk seconded the nomination of Mr. Nielsen as Speaker pro tempore of the House of Representatives, preceding his nomination with the following remarks:

Mr. Speaker, Ladies and Gentlemen of the House:

It is my pleasure to second the nomination of Carl Nielsen of Polk County to the office of Speaker pro tempore of the Iowa House of Representatives.

Varley of Adair seconded the nomination of Mr. Nielsen as Speaker pro tempore of the House of Representatives, preceding his nomination with the following remarks:

Mr. Speaker, Ladies and Gentlemen of the House:

I wish to second the nomination of Carl Nielsen as Speaker pro-tempore. Mr. Nielsen is well qualified to serve in this capacity in a fair and objective manner. He is a very competent legislator, and very knowledgeable in the area of House rules.

We are all here to serve the best interest of the State of Iowa and I believe this requires fair and open debate. No one has a corner on the "good ideas." We trust that as we consider changes in our procedures and rules in an effort to expedite the session that we will not sacrifice traditional open amendment and debate procedures. Mr. Nielsen has conducted himself in a fair and dignified manner in the past when he has been in the Chair and I feel certain that he will continue the practice in the office of Speaker pro-tempore. I, therefore, move that the Chief Clerk be authorized to cast a unanimous ballot for the Honorable Carl V. Nielsen of Polk County as Speaker pro-tempore of the House of Representatives for the Sixty-seventh General Assembly.

In accordance with the foregoing motion, the Chief Clerk cast the votes of all the members of the House of Representatives for the Honorable Carl V. Nielsen as Speaker pro tempore of the House of Representatives of the Sixty-seventh General Assembly.

The Honorable Carl V. Nielsen of Polk County, having received all the votes cast for the office of Speaker pro tempore of the House of Representatives of the Sixty-seventh General Assembly, was declared duly elected to that office.

Baker of Buena Vista moved that a committee of two be appointed to escort Speaker pro tempore Nielsen to the chair.

The motion prevailed and the following committee was appointed: Baker of Buena Vista and Horn of Linn.

Mr. Nielsen was escorted to the chair and, being duly sworn, made the following remarks:

Mr. Speaker, Ladies and Gentlemen of the House:

I am honored; I accept your vote of confidence and pledge to work to the best of my ability to fulfill the duties of this office.

New approaches and new solutions for old problems may well occupy much of our time in this session. It is my hope that there will be a willingness on the part of this body to work hard so as to give the new work schedules a chance to succeed.

If all of us work constructively, collectively we can and will solve at least some of the problems of this State and thereby make Iowa a better place to live and grow.

REMARKS BY THE MINORITY LEADER

Millen of Van Buren addressed the House as follows:

Mr. Speaker, Ladies and Gentlemen of the House:

As you all know, there are only thirteen freshmen members in the House this year, and most of the incumbents are returning in positions similar to

what they held during the last two years. Keeping those facts in mind, as well as others we have heard this morning, I do have a few, brief remarks to make at this time.

Since so many of us here today are incumbents with the experiences of at least the last General Assembly behind us, I would hope each of us would have learned from our experiences so better cooperation can be established between our two parties this year.

In 1975, and again in 1976, I pledged the cooperation of the Republican Caucus in instituting a constant line of communication and cooperation between the Republican and Democratic Parties. I felt then, and still feel now, that cooperation and communication are of vital importance if we are to provide the people of Iowa with an effective and productive session in the minimum amount of time.

However, I don't feel the Democrats cooperated or communicated sufficiently with the Republicans during the last General Assembly and I certainly hope that during the next two years we can achieve a greater cooperation of input of ideas to benefit the citizens of Iowa who are represented by Republicans as well as Democrats.

I commend the Legislative Procedures Interim Study Committee for its decision to devote the first weeks of this session to committee work. This can be the first of many necessary tools to make the legislature more productive and efficient and yet allow us to retain our citizen legislators. However, we must go further by establishing orderly termination procedures and goals for closing down each session so we don't go on and on and on.

There are many areas we must consider in the next few weeks, problems that necessitate efficient and manageable legislative procedures -- matters such as property taxes, school aid and road funding -- all of which affect every segment of Iowa's population. But again I emphasize the need to keep our lines of communication open in order to deal successfully with these and other priorities. In order to do that, both sides of the political aisle must cooperate with the other.

We in the Republican Party are not here to be obstructionists -- we are here to assist the Democrats in solving the problems of Iowa in the most expedient and meaningful manner possible. We are not here merely to condemn the Democratic Party and to tell you that if we were in the majority we would have done it differently -- but we will tell you what we feel you have done wrong and give you our views and thoughts on the matters. We are not here to use parliamentary procedure to tie up the session -- but we will not let you use parliamentary law to keep us from being heard.

We Republicans want to cooperate, but it must be a two-way street if the people of Iowa are to benefit from favorable legislation from this General Assembly. I again pledge the cooperation and good faith of the Republican Party and hope we can have the same meaningful pledge from the Democratic Party.

On motion by Fitzgerald of Webster, the House was recessed until 1:30 p.m.

AFTERNOON SESSION

The House reconvened, Speaker Cochran in the chair.

Mr. President, Mr. Speaker, Mr. Chief Justice, Senators and Representatives, State Officials, Distinguished Guests, Ladies and Gentlemen:

The high visibility points in the lives of public officials are relatively few. One of these, of course, is election day. That time has come and gone and as I look out into this chamber, I see a number of new legislators. I would ask you to help me recognize these new people. Would those who comprise this freshman class of the General Assembly—you men and women who for the first time proudly hold the office of Representative or Senator—please stand.

Will all of you join me in a warm welcome to these new lawmakers.

Congratulations and welcome to our State Capitol as partners in government.

To you newcomers, let me say we look forward to the fresh ideas, energy, vitality and new insights you bring to this Assembly.

I can say to you that you are in for the time of your lives. The time of your lives. Better still, we are all in the time of our lives.

This is much more than a familiar old phrase—it can be an inspirational theme. It is, in fact, the new theme for a special Iowa:2000 follow-up effort that soon will be launched.

It was Thomas Mann who said, "Time has no divisions to mark its passage, there is never a thunderstorm or blare of trumpets to announce the beginning of a new month or year."

While that is true in a philosophical sense, people find it necessary to measure time with certain benchmarks.

We have several points now to mark a new beginning in this—the time of our lives.

This is the beginning of a new legislature.

This is the beginning of a new year.

This is the beginning of a new century—Century III for America.

A fresh snowfall sparkling in the winter sunshine invigorates the human spirit. It raises optimism because its untracked expanse invites us to make our mark. The sparkling expanse of challenges and opportunities before us invites our tracks on a crisp and clean new era of time fixed as 1977.

In charting clear directions through the uncluttered landscape of a new

year, take care not to litter it with cynicism or pettiness for political gain.

We can make our way with a confidence that comes from experience gained in prior successes—and even failures.

We can proceed with the knowledge we are an especially fortunate community—blessed with resources far greater than most people on this globe, with free and open government, with a resilient economy and an ability to solve problems ourselves.

We can rejoice also in the selection of our political leaders—through the exciting, but orderly process of free elections—a privilege we experienced again in 1976.

And, let me inject that those of you who are followers of the political scene knew my presidential preference. But now the election is behind us.

Our thanks and admiration go out to Gerald Ford for his calm and forthright stewardship. And now, our hopes and prayers go out to Jimmy Carter, who will assume the awesome mantle of the Presidency.

Rarely have solutions to the problems facing a new President appeared more elusive, yet seldom have the people across this country been more united in wishing a new President success. Most certainly we do.

* * *

It is the beginning of a new General Assembly—time for the Governor to report to the people of Iowa on the condition of the state.

I can tell you this morning that the condition of the state is basically sound—our economy is strong—our people have confidence—and our future is bright. Why do I say that?

Look at agriculture. Despite last year's drought, our farmers produced another billion bushel corn crop, a near record yield of soybeans and remained first in the nation in hog production. Unfortunately, our cattlemen sustained serious losses, but cattle production turned up 13 percent.

Despite erratic prices, fluctuating markets and frustrating weather, the fundamental skill and persistence of our farmers kept us foremost in world food production.

Look at industry. Development rebounded in 1976 with new capital investment in Iowa manufacturing plants of nearly \$400 million, second highest ever. More than 12,000 new jobs were created for Iowans last year, up over 170 percent from 1975.

When jobless people can and want to work, any unemployment is too much. However, our unemployment rate is a full 3 points below the national average.

And look at our people. As we begin our 131st year as a state, there is a renaissance of pride among Iowans.

In 1976, some 200,000 Iowans serving on local committees spread the spirit of the Bicentennial. They gave it meaning. They served not just because they liked the hoopla, but because they loved our heritage.

Last year we saw a record number of cities and towns compete in our Iowa Community Betterment Program; and every town that participated was a winner.

Wherever you looked in our state in 1976, a wave of intense involvement among our Iowans produced exciting results—the re-dedication of our Old Capitol in Iowa City, the remodeling of the Five Flags Civic Center in Dubuque, the opening of the UNI-Dome in Cedar Falls, the completion of the community sports complex in Glidden, the development of a handicapped village and elderly housing project in Hartley, and the commitment to construct a civic center in Des Moines are examples that come to mind.

This litany of local achievement will inspire Iowans for future generations.

What you do here in 1977 can do the same. What happens in this legislative session will have downstream effects on the lives of Iowans for years—and even decades.

Remember, programs you start in this legislative session may be deceptively easy to set in motion. Those same programs may later prove to be agonizingly difficult to maintain.

Remember also that problems smothered with money don't necessarily get solved. Consider the corn plant: it thrives with the right amount of moisture, but quickly withers and weakens when flooded.

We are financially solvent because we have shown discipline in money matters.

You are going to find there are times when prudence dictates saying, "no, no, no!"

Avoiding fiscal temptations means keeping a lean and limber government team. It means keeping government's hands out of the people's pockets for every new program or idea. It means keeping steady pressure on the managers of government to develop new answers.

One of the satisfactions a governor experiences is the testing of new ideas, new formulas, and new concepts which do not necessarily carry big price tags. Let me cite a few examples:

Iowa leads the nation in state railroad assistance. We began with a small appropriation which Iowa shippers promptly matched with their own money. Iowa's rail assistance plan proved so successful that 23 other states are now following our leadership. Our soil conservancy and tuition grant programs are also national models.

Visionary legislators who embraced these ideas deserve to share fully in the credit for their success. And our capable government administrators deserve to be recognized for making those ideas work.

During the weeks and months ahead, your work on the state budget will be of critical importance. I will share my budget recommendations with you Friday and obviously, they effect the legislative recommendations I make today.

As you consider what to legislate, you should know that...

—People are challenging us to take decisive action on property taxes to prevent them from being driven off their farms and out of their homes. My proposals, to be outlined in detail Friday, will be designed to avoid the painful financial shocks which hit property owners.

—People are challenging us to protect the limited resource upon which we all depend—our precious soil. That can be done with equitable and effective land—use legislation.

—People are challenging us to assure them of a clean environment. One workable step is to enact legislation encouraging the return and re—use of beverage containers.

—People are challenging us to reflect society's concern for those who are sick, aged and disabled, and for others who justifiably need our help. We must not back off from that responsibility.

—People are challenging us to make certain that Iowa's transportation system adequately meets their needs. Maintaining our roads needs attention.

—People are challenging us to make government more open. One way would be to open our collective bargaining process to the public.

—And, people are challenging us to further streamline government, tightening control over many of its elements. And I propose to do that.

Let me elaborate on what I've just mentioned...

For six years, I have stood before you asking for the protection of our land. After extensive debates and effort, the House did pass a land—use bill. It did not, however, reach my desk for signature.

We have waited long enough. The need is defined. The problem has been thoroughly studied, and we are ready for action this session!

* * *

Our environment gives us good reason to be proud of where we live. Nevertheless, Iowans say it is not enough just to have fresh air and clean water, and I agree with them. Why not conserve energy and clean up our countryside by making sure that bottles and cans are returned and reused?

The plan I submit is based on solid experience elsewhere. It has worked in other places and it will work here. Do not delay this simple, but proven idea for two, three or four years. Take action in 1977.

* * *

Nowhere do solutions come harder than in the area of human needs. Thus, successes are particularly heartening. An example is our intensive infant care program. Since it began, 500 babies who likely would have died are alive and with their families today.

A woman welfare recipient offers another perspective. She wrote: "I happen to be one who receives help, but it is not because I want to. I would rather pay, but my right side is paralyzed and in June I had another stroke that took my voice. If (someone) would like to take my disabilities and get free medical care, I will trade. But I thank God that there are people in this land who care for people who are less fortunate than they."

I am glad we can care for her and others like her.

Programs to meet human needs are as complex as they are encompassing. They can be as promising as special education, for pre—school kids with developmental disabilities and as sensible as finding ways to employ our elderly people. They can be as comforting as providing in—home health care

services for those needing nursing care and as life-sustaining as Aid to Dependent Children.

They can be costly, too. Just to maintain current human resource program levels will require \$52 million in more state money for the biennium. This staggering increase is caused by rising hospital and medical costs, additional eligible recipients and most of all, by a loss in federal funds.

You should resist, as we have, the temptation to abandon the painful struggle for solutions to thorny problems of human services. To those who wonder why we keep struggling, I say, "If we ever stop, you will find out."

As difficult as the answers are, we must seek them, lovingly.

* * *

Our network of roads and highways is basic to the continued health of Iowa business and agriculture and it effects all of us. Note that the typical Iowa farm moves an incredible 600 tons on and off its acreage each year—by road. And we should not let that fine system of roads falter.

I urge the legislature to act this session to resolve the questions of funding levels and funding distribution, which will effect an improved classification of our highway system.

State government has already taken great steps to operate in clear view of the public. Opening the collective bargaining process is another step we can take. Public officials negotiate public payrolls in public places. That is a persuasive argument for the public's right to know what goes on in the collective bargaining process.

* * *

All of us in government know that the public pulse quickens when you discuss the frustrations of bureaucracy. The longer it takes for government to respond, the harder it is to understand.

Past legislatures have worked with the Executive Branch to make government more efficient. There are many examples, but let me mention two recent ones—the Departments of General Services and Transportation. Those who had confidence in these initiatives have been proven right. The centralization of support functions in General Services has strongly improved the management of state facilities and purchases. And the Department of Transportation's payroll has been reduced by 700 people.

And now I have a number of suggestions for further improvements. These include:

- the merger of our Iowa Drug Abuse Authority and the Alcoholism Division.
- the consolidation of four commissions of the Department of Environmental Quality into one; the absorption of the Natural Resources Council into other existing agencies.
- the restructuring of the boards of the Law Enforcement Academy, the State Fair and Department of Banking.
- the coordination of our mental health programs.
- and the abolishment of the Hospital and Other Health Facilities Advisory Council, and the Eugenics Board and the War Surplus Board.

We can seek further efficiencies. We should create a volunteer team to examine the purpose and value of licensing and regulatory boards. This would save both time and money by targeting for extinction and rejecting those boards which we can indeed live without. We don't need a costly, tedious separate review of every single unit of government.

In seeking "sunset" results, let us act responsibly.

* * *

There are a number of legislative recommendations spelled out in the written addendum to my remarks, and some I will discuss with you on Friday. My program includes support for education, the pursuit of energy conservation, continued assistance to our cities and towns and improved criminal justice procedures. Recommendations regarding corrections should be reserved until the citizens' task force reports its findings.

This program also includes ideas which I have suggested before as well as new ones—some which come, not from me, but from the public—and many which don't cost much money.

All of these have merit—and, in my opinion, they deserve your consideration.

* * *

During this session, you will debate and discuss, and I will support, much more than the legislative suggestions I make today. Indeed, I am told over 500 separate bills have already been drafted and are waiting to be filed!

As you begin to think about which bills you will support, I want to remind you what scientist and humanist Buckminster Fuller said: "The possibility of a good life for any man depends upon the possibility of realizing it for all men."

I suggest we ponder that thought in a slightly different context—that the possibility of a good life for any Iowan depends upon the possibility of realizing it for all Iowans.

That is our goal. To achieve it we must do the very best we can for Iowa's citizens with their finite and limited resources.

I have set a course. I have rejected many requests for increased government spending. And this week I am submitting a program and a budget that are both disciplined and prudent.

The power to legislate is now yours. But as the Iowa Constitution clearly points out, the separation of the Executive, Legislative and Judicial powers shall be maintained. It is that respect-filled separation which enables us to have alternate perspectives.

Iowans elected me to do my job. They elected you to do yours. And they expect from each of us the wisdom to know the difference.

Earlier, we recognized the new men and women serving in this General Assembly. I can also tell you that we miss some people who are not here. They are not here because they could not make the sacrifice from their careers and families to serve again in another 298-day General Assembly.

On this, the second day of your new session, I commend you on the initiatives you have already taken to shorten its length—such as an early emphasis on committee work.

* * *

This is not an easy time to be in public life. But you are here because you choose to be—because you have a willingness to lead people, or to serve people, and, hopefully, to do both.

The cynicism and distrust of government that abounds at all levels will often be discouraging. But you can take solace in the knowledge that there remains a residual core of trust in government.

Lest you dispute that statement, consider the last time you refueled your car at a service station. I doubt whether you questioned the accuracy of the pump—accuracy regulated by government.

You purchase fresh meat in a grocery store with assurance that the government says it is fresh and wholesome.

The airplane you ride flies through dense overcast guided by people on the ground—and you literally put your life in a government worker's hands.

That trust—latent for the most part—is a part of our daily fabric of life. With our vigilance, government can continue to succeed where it is succeeding—and it can be made to work where it is not. By this process, we build public confidence in government.

At the recent Time Magazine Leadership Conference, I was reminded of the observations of Dr. David Barber of Duke University. When he spoke of trust in government he said: "Sore as the public is, there is strong evidence that they are American to the core: uninterested in revolution, increasingly concerned for the civil liberties, ready for sacrifice on an equal basis with the privileged and above all, watching and waiting for leadership to express and effect their new sense of the country's commitment to community, humaneness and candor."

So it is, also, that our people, Iowans to the core, will be waiting—and watching—as you begin. You, too, can leave a legacy of commitment to community, humaneness and candor—if you want to.

And I know you do!

Thank you very-much.

GOVERNOR'S RECOMMENDATIONS

Recommendations submitted to the Sixty-seventh General Assembly, 1977 Session, in accordance with Article IV, Section 12 of the Constitution of the State of Iowa:

Child Custody Jurisdiction

We must do all we can to minimize the heart-rending conflict over child custody after divorce or separation. The Uniform Child Custody Act provides a mechanism to resolve child custody disputes between parents and guardians caused by conflicting decrees of courts in different states.

Continuing Education for Western Iowa

Recent studies have underscored the need for continuing education and degree opportunities. We should remove time and geographical barriers for students, especially those in western Iowa, who cannot participate in traditional higher education by implementing a Regents continuing education program.

Criminal Code Revision

No legislative package as massive as the criminal code revision can be undertaken without certain necessary corrections and amendments. You should pay close attention to the fine-tuning required for effective implementation.

Drunk Driver Clarification

Since I asked you to clarify the presumptive evidence rule to help get drunken drivers off the road last year, drunken drivers have killed 277 people in this state. We hardly need more incentive to act.

Energy

We must emphasize energy conservation to reduce our state's energy vulnerability. A way we can help do that is by including mandatory lighting and thermal efficiency standards for the state building code.

Hazardous Substance Spills

When the responsible party is unable or unwilling to take appropriate action which results in a substantial threat to the public health or environment, the Department of Environmental Quality should be authorized to make arrangements to clean up the spillage of hazardous or toxic substances.

Juvenile Justice

Review and change our system of juvenile justice so that we have uniform procedures and standards. Juvenile rights need to be clearly defined and protected.

Land Use

Iowa's most important natural resource—our land—must be protected while recognizing the rights of individual land owners. It is time that final approval be given to land use legislation.

Minority Stockholders Protection

Under present law, it is possible for a majority of the stockholders of an Iowa corporation to treat its minority investors unfairly. Corrective changes in our corporation law should be adopted to protect minority stockholders.

Open Meetings

Iowa's open meeting law benefits the public. Collective bargaining sessions should also be open. The negotiations of public payrolls by public officials in public places is a persuasive argument for the public's right to know what goes on in the collective bargaining process.

Physical Fitness

We can expand and maximize our school and community physical fitness programs by the placement of a director for the Governor's Physical Fitness and Sports Council in the Department of Public Instruction.

Reorganization of State Government

In continuing to make state government more efficient and effective, the following reorganization proposals are advocated. These include:

- The merger of our Iowa Drug Abuse Authority and the Alcoholism Division.
- The consolidation of the four commissions of the Department of Environmental Quality into one.
- The absorption of the Natural Resources Council into other existing agencies.
- The restructuring of the Law Enforcement Academy Board.
- The restructuring of the State Fair Board.
- The restructuring of the Banking Board.
- The coordination of our mental health programs.
- The abolishment of the Hospital and Other Health Facilities Advisory Council.
- And the abolishment of the Eugenics Board and the War Surplus Board.

Returnable Beverage Containers

A law requiring returnable beverage containers would have positive effects for Iowa. Energy can be saved, litter reduced, the environment improved, and consumers benefited, based on the solid experience gained in other states.

Screening of Regulatory Boards

The purpose of regulating professions and occupations is to protect the health, safety and welfare of the public. Unnecessary licensure and regulatory proliferation can be prevented by a screening commission to examine pertinent facts and the value of existing and proposed regulatory efforts.

Unemployment Insurance Benefits Funding

A new permanent funding plan for the Iowa Unemployment Insurance Fund should be enacted to replace the temporary measures adopted during the past two years. We can adopt a system to pay current unemployment benefits plus rebuild the trust fund to a financially adequate level.

Proposals Previously Offered

In earlier sessions of the General Assembly I have recommended the adoption of several innovations and reforms which still warrant your attention. I want to renew my request for these items. They include:

- priority for public use of abandoned railroad right-of-ways
- mobile home tie-downs
- park user fees
- the use of a limited number of private liquor outlets
- uniform bidding for local governments
- Washington, D.C. office

* * *

The above legislative items are in no way intended to cover all my recommendations for your action. The Governor's budget message will contain a number of important and essential recommendations and priorities covering a multitude of areas affected by state government.

Governor Robert D. Ray was escorted from the House Chamber by the committee previously appointed.

Fitzgerald of Webster moved that the joint convention be now dissolved.

The motion prevailed.

The House reconvened, Speaker Cochran in the chair.

The organization and standing committees in each house of the general assembly and action taken by each house shall carry over from the first to the second regular session of the same general assembly. The status of each bill and resolution shall be the same at the beginning of the second regular session as it was immediately before adjournment of the first regular session; however, the rules of either house may provide for re-referral of some or all bills and resolutions to standing committees upon adjournment of the first session or at the beginning of the second regular session, except those which have been adopted by both houses in different forms.

Rule 4

All messages between the two houses shall be sent by the

13 and chief clerk of the house.

14 The legal counsel of each house shall read and approve
15 all bills before introduction.

Rule 6

18 When identical bills are introduced in each house they
19 shall be called companion bills. Each house shall designate
20 the sponsor in the usual way followed in parentheses by the
21 sponsor of the companion bill in the other house. The house
22 where the bill is first introduced shall print the complete
23 text. The printed companion bill shall contain the title,
24 enacting clause, and a statement that the bill is a companion
25 bill. However, if the bill is not more than four pages in

the general assembly.

11

Rule 10

12

Certification of Bills and Other Enrollments

13

14

15

16

When any bill or resolution which has passed one house
is rejected or adopted in the other, notice of such action
and the date thereof shall be given to the house of origin
in writing signed by the secretary or the chief clerk.

17

Rule 11

18

Amendments by Other House

19

20

21

22

23

I. When a bill which originated in one house is amended
in the other house, the house originating the bill may amend
the amendment, concur in full in the amendment, or refuse
to concur in full in the amendment. Precedence of motions
shall be in that order.

24

25

26

27

28

A. If the house originating the bill concurs in the
amendment, the bill shall then be read for the last time as
amended, and placed upon its final passage.

29

30

31

32

B. If the house originating the bill refuses to concur
in the amendment, the bill shall be returned to the amending
house which shall either:

33

34

35

1. Recede, after which the bill shall be read for the
last time and placed upon its final passage; or

32

2. Insist, which will send the bill to a conference
committee.

33

34

35

C. If the house originating the bill amends the amendment,
that house shall concur in the amendment as amended and the
bill shall be read for the last time as amended, shall be

Page 4

1 placed on final passage, and shall be returned to the other
2 house. The other house cannot further amend the bill.

3 1. If the amending house which gave second consideration
4 to the bill concurs in the amendment to the amendment, the
5 bill shall then be read for the last time as finally amended,
6 and placed upon its final passage.

7 2. If the amending house refuses to concur in the amendment
8 to the amendment, the bill shall be returned to the house
9 originating the bill which shall either:

10 a. Recede, after which the bill shall be read for the
11 last time as amended and placed upon its final passage; or

12 b. Insist, which will send the bill to a conference
13 committee.

14 II. A motion to recede has precedence over a motion to
15 insist. Failure to recede means to insist; and failure to
16 insist means to recede.

17 III. A motion to lay on the table or to indefinitely
18 postpone shall be out of order with respect to motions to
19 recede from or insist upon and to amendments to bills which
20 have passed both houses.

21 IV. A motion to concur, refuse to concur, recede, insist,
22 or adopt a conference committee report is in order even though
23 the subject matter has previously been acted upon.

24 Rule 12

25 Conference Committee

26 1. Within one legislative day after either house insists
27 upon an amendment to a bill, the presiding officer of the
28 house shall appoint five members to a conference committee.
29 The majority leader of the senate, the president pro tempore
30 of the senate and the two assistant majority leaders of the
31 senate shall appoint three majority party members to a
32 conference committee and after consultation with the president
33 of the senate shall also appoint two minority party members
34 to a conference committee. The papers shall remain with the
35 house that originated the bill.

Page 5

1 2. The conference committee shall meet before the end
2 of the next legislative day after their appointment, shall
3 select a chair and shall discuss the controversy.

4 3. The authority of the committee shall cover free
5 conference during which the committee has authority to propose

6 amendments to any portion of a bill provided the amendment
7 is within the scope of the title of the bill.

8 4. An agreement on recommendations must be approved by
9 at least three members from each house. The committee shall
10 submit two originals of the report signed by at least three
11 members of each house with one signed original and three
12 copies to be submitted to each house. The report shall first
13 be acted upon in the house originating the bill. Such action,
14 including all papers, shall be immediately referred by the
15 secretary of the senate or the chief clerk of the house of
16 representatives to the other house.

17 5. The report of agreement is debatable, but cannot be
18 amended. If the report contains recommended amendments to
19 the bill, adoption of the report shall automatically adopt
20 all amendments contained therein. After the report is adopted,
21 there shall be no more debate, and the bill shall immediately
22 be placed upon its final passage.

23 6. Refusal of either house to adopt the conference
24 committee report has the same effect as if the committee had
25 disagreed.

26 7. If the conference committee fails to reach agreement,
27 a report of such failure signed by at least three members
28 of each house shall be given promptly to each house. The
29 bill shall be returned to the house that originated the bill
30 and the members of the committee shall be immediately
31 discharged and a new conference committee appointed by the
32 presiding officer of the house from members who have not
33 previously served on a conference committee on the bill under
34 consideration. The majority leader of the senate, the pres-
35 ident pro tempore of the senate and the two assistant majority

Page 6

1 leaders of the senate shall appoint three majority party
2 members and after consultation with the president of the
3 senate shall also appoint two minority party members all of
4 whom shall not have previously served on a conference committee
5 on the bill under consideration.

Rule 13

Enrollment and Authentication of Bills

8 When a bill or resolution has passed both houses, it shall
9 be enrolled in the house of origin under the direction of
10 either the secretary or the chief clerk and its house of
11 origin shall be certified by the endorsement of the secretary
12 or the chief clerk.

13 After enrollment, each bill shall be signed by the president
14 and by the speaker.

15

Rule 14

16

Concerning other Enrollments

17

18

All resolutions and other matters which are to be presented to the governor for his approval shall be enrolled, signed, and presented in the same manner as bills.

20

21

22

23

All resolutions and other matters which are not to be presented to the governor or the secretary of state shall be enrolled, signed and retained permanently by the secretary of the senate or chief clerk of the house.

24

Rule 15

25

Transmission of Bills to the Governor

26

27

28

29

30

After a bill has been signed in each house, it shall be presented to the governor by the secretary or the chief clerk of the house of origin. The secretary or the chief clerk shall report the date of the presentation, which shall be entered upon the journal of the house of origin.

31

Rule 16

32

Fiscal Notes

33

34

35

A fiscal note shall be attached to any bill or joint resolution which reasonably could have an annual effect of at least one hundred thousand dollars or a combined total effect within

Page 7

1

2

3

4

5

five years after enactment of five hundred thousand dollars or more on the aggregate revenues, expenditures or fiscal liability of the state or its subdivisions. This rule does not apply to appropriation measures where the total effect is stated in dollar amounts.

6

7

8

9

10

11

12

The preliminary determination of whether the bill appears to require a fiscal note shall be made by the legislative service bureau which shall indicate that a bill requires a fiscal note by stamping "FISCAL NOTE REQUIRED" prominently on the bill jacket. Upon completion of the bill draft, the legislative service bureau shall immediately send a copy to the legislative fiscal director for his review.

13

14

15

When a committee reports a bill to the floor, the committee shall state in the report whether a fiscal note is or is not required.

16

17

18

19

20

The fiscal note shall be printed on the bill before introduction if practicable; and in any event the secretary of the senate or chief clerk of the house shall attach the fiscal note to the bill when the bill is reported out by a committee.

21

22

23

The legislative fiscal director shall prepare the fiscal note within a reasonable time after receiving the request. A copy of the fiscal note shall be filed by the legislative

24 fiscal director with the secretary of the senate or the chief
25 clerk of the house. The legislative fiscal director may
26 request the cooperation of the state comptroller or any state
27 department or agency. If a fiscal note is prepared by the
28 comptroller or any state department or agency at the request
29 of the fiscal director, that fact shall be stated in the note.

30 Each fiscal note shall state in dollars the estimated
31 effect of the bill on the revenues, expenditures, and fiscal
32 liability of the state during each of the first five years
33 after enactment. Sources of funds for expenditures under
34 the bill shall be stated, including federal funds. If the
35 fiscal director cannot make an accurate estimate, he shall

Page 8

1 state his best available estimate or shall state that no
2 dollar estimate can be made and state concisely the reason.

3 The fiscal note shall be attached or printed in the bill
4 following the explanation or shall be printed in the daily
5 clip sheet.

6 A revised fiscal note may be requested by a committee
7 chairman or a sponsor of the bill if the fiscal effect of
8 the bill has been changed by adoption of an amendment.
9 However, a request for a revised fiscal note shall not delay
10 action on a bill unless so ordered by the presiding officer
11 of the house in which the bill is under consideration.

12 If a date for adjournment has been set, then a
13 constitutional majority of the house in which the bill is
14 under consideration may waive the fiscal note requirement
15 during the three days prior to the date set for adjournment.

16 Rule 17

17 Joint Legislative Intern Committee

18 There shall be a joint legislative intern committee to
19 organize and supervise a legislative intern program for Iowa
20 college and university students. The committee shall consist
21 of fourteen members: two members of the senate, one appointed
22 by the majority leader and one appointed by the minority
23 leader; two members of the house, one appointed by the majority

6 have been duly appointed or selected. The committee shall
7 elect a chairman and vice chairman from its membership. A
8 vacancy shall be filled in the same manner as the original
9 appointment.

11 1) to provide useful staff services to legislators not
12 otherwise provided by the general assembly; 2) to give
13 interested college, graduate, and law school students practical
14 experience in the legislative process as well as providing
15 a meaningful educational experience; and 3) to enrich the
16 curriculum of participating colleges and universities.

17 The joint legislative intern committee shall have the
18 following duties and responsibilities:

- 19 1. Provide procedures for the recruitment, selection,
20 assignment, and supervision of all interns in each house.

30 the legislative intern program.

32 to effectively organize and supervise the legislative intern
33 program.

34 The joint legislative intern committee shall report to
35 the general assembly in January of each year. The report

Page 10

- 1 shall include a description of the results of the legislative
- 2 intern program during the last preceding session and the
- 3 proposed legislative intern program for the session convening
- 4 during the month the report is submitted.

The motion prevailed and the Speaker appointed as such committee the following: Husak of Tama, Gilson of Guthrie and Gentleman of Polk.

ADOPTION OF REPORT OF COMMITTEE ON MILEAGE

Wells of Linn called up for consideration the report of the committee on mileage filed on January 10, 1977, and found on pages 23 through 25 of the House Journal and moved its adoption.

The motion prevailed and the report was adopted.

REPORT OF THE COMMITTEE TO NOTIFY THE SENATE

Husak of Tama, chair of the committee to notify the Senate that the House was ready to receive it in joint convention, reported that the committee had performed its duty.

The report was accepted and the committee discharged.

The Sergeant-at-Arms announced the arrival of the President of the Senate, the Secretary of the Senate and the honorable body of the Senate.

The President was escorted to the Speaker's station, the Secretary to the Chief Clerk's desk and the members of the Senate were seated in the House chamber.

JOINT CONVENTION

In accordance with law and House Concurrent Resolution 2, duly adopted, the joint convention was called to order, President Neu presiding.

President Neu announced a quorum present and the joint convention duly organized.

Senator Kinley of Polk moved that a committee of six, consisting of three members from the Senate and three members from the House, be appointed to notify Governor Robert D. Ray that the joint convention was ready to receive him.

The motion prevailed and the President appointed as such committee Senators Rush of Linn, Bisenius of Dubuque and Slater of Pottawattamie, on the part of the Senate, and Representatives Dunton of Keokuk, Wells of Linn and Varley of Adair, on the part of the House.

The committee waited upon Governor Robert D. Ray and escorted him to the Speaker's station.

President Neu then presented Governor Robert D. Ray who delivered the following budget message:

Mr. President, Mr. Speaker, Senators and Representatives, State Officials, Distinguished Guests, Ladies and Gentlemen:

This is my second message in less than a week. With a longer term for the Governor, there is no inaugural. Something good comes from that. First, it saves the state money, and second, it saves you from listening to a third speech.

On Tuesday, I reported on the condition of the state and submitted my legislative recommendations. A major theme was that of living within our means. This struck a responsive chord with many legislators. I want to thank the people of both parties who expressed their support for my proposals.

I know there are a number of you who relish detail. Today's message should satisfy even the most ravenous appetite.

This is the first time in modern Iowa history the legislature has received the Governor's budget during its first week. I hope this will aid your prompt start with committee work.

To begin, I will discuss the premises used in developing this budget, followed by a review of our financial condition today. I will then present program priorities which will be followed by our anticipated financial condition at the end of the biennium.

I will define a starting point, the rules of the road and a final destination. That destination is a balanced budget, yet one that meets our needs. Like an overland journey, it is likely that if you and I take paths that are too far apart and travel at speeds that are too different, we will end up at different destinations. I doubt that would be to your liking or mine.

The fundamental duty of government is to serve the public — doing neither more nor less than what the public wants, and is willing to pay for.

Like the average homeowner, that means doing the best we can with what we have. A family recognizes its financial limits and often cannot afford that new car, that new TV, or that new toy. These same limits apply to state government.

Accordingly, this budget is based on three premises:

—First, there will be no increase in sales and income taxes.

—Second, we will live within our resources. . . we will have a balanced budget.

—And third, we will get the maximum value for each hard-earned tax dollar.

The notion of no new taxes is a simple one. The public has told us, again and again, they do not want new taxes. In short, it might be said that the one thing the public likes less than new taxes is the politician who raises them.

The concept of living within one's resources is basic to good management. Smart businessmen and women keep a careful watch on their inventories. Astute farmers try to anticipate the weather and changing markets. Government must also look ahead, avoiding unnecessary burdens on our limited resources.

Getting the best for one's money is also easily understood. No one wants to pay for the toaster that doesn't work, the shampoo that doesn't lather, or the suit that doesn't fit.

Consumer value creates consumer confidence. Government value creates citizen confidence.

PROPERTY TAX

Before discussing the budget, I will address a very major issue. The issue affects every property-owner in Iowa. That issue is obviously property taxes.

New stories, opinion polls, and questionnaires you have answered, list property taxes as the single most important topic of this session. That issue is a lightning rod for discussion in main street cafes across Iowa.

The 1975 equalization of property assessments across 99 counties triggered alarms that the tax levies would skyrocket. They did.

And, early indications from Iowa State University and the Department of Revenue indicate that similar large increases in valuations are still ahead for farmers and homeowners.

I addressed the problem one year ago with a five-part package that, among other things, was designed to cap the amount of property taxes collected and thus, curb spending.

The 1976 legislature wrestled with the problem. It finally mustered the

votes to pass legislation which was not only unacceptable to me, but even to some legislators who voted for it! The first year of that tax package was not vetoed because of the approaching deadline for tax collections.

Time was also a problem for our citizens' Task Force that looked at property taxes. I had hoped the Task Force would have sufficient time to do a complete job. It didn't. Nonetheless, its findings were most helpful in defining the problem. And I want to thank the members of the Task Force, especially Lieutenant Governor Art Neu who chaired it.

It is clear that large jolts in property valuations must be mitigated. Property owners deserve better than to be shocked by the abrupt and immense increases in the taxes they have to pay. Both rural and urban Iowans are asking for tax stability.

Even after the increase in agricultural property assessments that ranged up to 78%, and 53% for residential property, there is the very real possibility that large increases are in store for farmers and homeowners again. Something must be done.

State government doesn't collect or spend a dime of property taxes. That is the activity of local government, yet since the state allows property to be taxed, we have a responsibility for affecting the extent that it can be taxed.

Therefore, we must get to the core of this tax problem, which is the rapidly increasing assessments.

I am submitting to you a plan with 15 parts which will address this major issue. Let me mention several key ones.

- We restrict the growth in assessments of agricultural land and residential properties in an assessing district to not more than 5% a year.
- We continue to provide for uniform procedures for assessing property as well as equalizing property to achieve greater equity in assessments within taxing districts. Yet taxes would be levied only against the limited assessed value of property, not against the full market value.
- We retain the \$4500 homestead tax credit and also continue the \$42 million for agricultural land tax credits.
- We allow the property tax spending limitations imposed by the last legislative session to expire.

There are significant advantages to this proposal:

- It blocks sharp increases in property assessments.

- It offers predictability and stability.
- It gives local governments budget freedom and a stable growth rate in their tax base.

Cities, counties, and other local jurisdictions face many heavy demands. It is my belief that if the people of a community so desire, they should have the authority to seek other revenue sources. In the spirit of home rule, I recommend that local governments be allowed to have a local option sales tax if the people vote to have it.

Cities and counties can also benefit by a hotel—motel tax. . . similar to what our Iowans pay when they travel out of state. Local officials should decide if they want that source of new income.

You can read the specific proposals of this plan in the addendum to my remarks that will be handed out to you today. As a package, my plan can help resolve the property tax difficulties that beset Iowans.

I ask that you pass — a good bill — early this session!

* * *

CORPORATE TAX

Another matter of concern is the uncertainty that hangs over Iowa's corporation tax law. The recent district court ruling has confused business and government alike, and has raised the specter of refund claims.

We await final court action. Pending that outcome, we remain convinced there are advantages to our single—factor formula. It has encouraged business to locate and to expand in our state — creating new jobs for Iowa workers and broadening the tax base.

However, we should not disregard the possibility of an adverse court decision. Specifically, to protect against the contingency of refunds — I am advocating a change in corporate tax payment schedules from annual payments to quarterly payments — consistent with federal corporate income tax collection.

As a result of this change, the state will have a "windfall" of approximately \$35 million. Of this amount, it is imperative that the sum of \$25 million be set aside in a special reserve account, designated for the payment of refunds. . . if the court ultimately orders it.

If we have learned anything, it is that caution should be used when a

matter of substantial importance is pending before our courts. I urge you not to take hasty, ill-advised action. We do not need further disruptions in our business climate.

Iowa industry should be allowed to focus on its task—that of being productive and competitive. Iowa jobs are at stake.

* * *

Now, to the current financial condition of the state.

On July 1, 1977, the beginning of the new biennium, we expect a treasury balance of \$106 million. For those who had hoped this surplus might be larger, you should remember the last General Assembly appropriated, on a recurring basis, some \$30 million over and above my budget.

I have just mentioned our beginning point. Now I want to tell you about the projected revenue for the next two years and what I recommend for appropriations. That will bring us to our destination of a positive balance at the end of this biennium. That is what the challenge of budget balancing is all about.

I would like you to know how we assembled this budget — a biennial budget required by law and one which I believe saves time and dollars as we look ahead beyond just one year.

First, we sought the most accurate revenue projections. We pooled many predictions — especially those from the Comptroller's office, the state economist, university computer models, and from the Governor's Economic Advisory Council. And this was important because it gave us the best possible projections available.

Projections are not an absolute science. It is important that you know the origins of our forecast because they are far superior to a "roll of the dice" or poor projections.

Second, we followed "modified-base" program budgeting.

Third, we again held open budget hearings. This time, we specifically expanded our open hearing process to solicit comment from the general public.

When we put the budget together, it totaled \$400 million in appropriation requests over and above revenue estimates. Some suggested their program could be met by adding one little penny to the sales tax. In fact, I've heard that suggestion so many times during the past eight years in which I have served as Governor that we could have easily added one cent each year. . . giving you an eleven cent sales tax, and — a new Governor.

Believe me, we didn't go through the agony of removing taxes on food and drugs just to start adding them back under a different name, when we don't have to.

Since we couldn't print money, my only alternatives were to raise taxes or to slash the requests. I thought of our essential needs that had to be met, and I thought of Iowan's pocketbooks. The choice was clear and I cut \$400 million!

And today, I submit to you a balanced budget.

To keep it in balance you must not spend more than our available resources. And, you must not engage in wild spending schemes.

Still, we must maintain the momentum achieved in so many areas. My budget sets the course. Let me highlight some of our priorities. . .

EDUCATION

It has been said that, "What sculpture is to a block of marble, education is to the human soul." We Iowans are committed to good education, from kindergarten through graduate school. Indeed, over half of our state budget goes for education.

The school foundation plan furnishes funds for local schools and stabilizes local taxes. Begun in 1971, and modified since, this plan is working. It has earned the deserved respect of many early skeptics. And, it is being continued in this budget.

The Regents' institutions have been stunned by the loss of nearly \$2 million in federal funds, this school year alone. This budget will offset some of those losses.

This budget also provides:

- Funds to open \$44 million worth of new campus facilities recently constructed.
- Money for the long-delayed Lindquist Center at the University of Iowa.
- Nearly \$1 million to remove campus barriers so handicapped young Iowans can get the same education as other students.
- And, \$500,000 for an innovative continuing education program in western Iowa.

Rural Iowa communities need family doctors. Last June, we graduated our first full class from the recently established Family Practice program of the University of Iowa. Ten communities have new doctors from this class. One hundred seventy medical students are now enrolled in this program, and my budget gives it strong support.

Programs at the area vocational—technical schools will again receive strong support.

In addition, we will add \$500,000 to our novel tuition grant program which helps young Iowans who could not otherwise afford an education. This welcome assistance to students has steadied enrollments at thirty—one Iowa schools and should be increased to the extent we can.

We all know the financial value of education. What we often overlook is its value to the individual and the contribution he or she makes to society.

Good education remains a top priority in Iowa!

HUMAN RESOURCES

People programs have consistently been a priority during my eight years in office. It is a priority again during this biennium.

We think it is important to continue to provide care, support and assistance for those who truly need our help. We know also that it is becoming more costly to provide that care. And, one big reason is the withdrawal of federal support funds.

We find ourselves with little choice but to shoulder much of that burden — and we will.

My budget recommendations for Human Resource programs include:

- Sufficient funding to support the planned conversion of two of our mental retardation institutions to full intermediate care facilities.
- A reasonable increase in aid to dependent children.
- Additional funds for senior volunteer and employment programs such as RSVP, Green Thumb, and our RICEP program, which you might be interested in knowing, during its first nine months of operation, found jobs for 1000 workers over the age of 55.
- A renewal of funding for the foster care program.
- And, continued support for our Area Educational Agencies which serve our handicapped children.

* * *

Finally, I ask you to extend our community—based corrections system. This is a program which I have steadfastly backed.

Even though this approach will not, nor can it, solve all of our corrections problems, it is a good alternative for many offenders. The Fort Des Moines

facility is a prime example of what can be done, and it is a model for twenty-three other states.

Community-based corrections are relatively new and contemporary, and much remains to be learned by experience. I am, nonetheless, convinced that success or failure will depend heavily upon a commitment on the part of local communities.

We have seen enough success to have hope.

We also await the forthcoming report from the Blue-Ribbon Task Force on Corrections. Their recommendations should be helpful as we look ahead for answers to crowded conditions at our penal institutions.

* * *

You should know that headway is being made in policing the welfare system to keep it honest. Our Child Support Recovery Unit is making collections of about \$6 million per year properly due for the support of children. And, the error rate in welfare payments has been cut in half.

It is easy to talk tough about welfare — and it sounds popular in most circles. But who among you would raise your hand if I were to ask if you would be willing to turn out an elderly patient from a nursing home because she could not make this month's payment on her own and had no other place to go?

Raise your hand if you could leave a fatherless child to fend for herself because her working mother can't be home to care for her.

Raise your hand if you can — I cannot. I don't think you could either.

As we examine human needs and their costs, we find evidence that the problems in Iowa, as difficult as they are, are more manageable than in most states. We are 25th in population yet we rank 38th in overall crime and 37th in the percentage of people on welfare. We can feel good about those numbers, but we can never be satisfied.

To maintain our current pace — and to cover lost federal dollars, inflation and increased caseloads — will cost an additional \$52 million.

The money is in my budget, and I ask that you keep it there.

CONSERVATION AND NATURAL RESOURCES

On Tuesday, I again asked you to approve land use legislation to protect our soil. Today, I ask your continued support for our first-in-the-nation soil conservancy cost-sharing program.

This budget also includes \$1 million to preserve undeveloped Iowa land. And, this budget supports our soil survey and topographic mapping projects, and the statewide water study, slated to be finished in 1979.

Even though it is not currently a budgetary item, I want it to be known that the idea of a Rathbun Lodge offers a unique opportunity for the people of this state and we are hopeful the business community will recognize the potential.

Our soil and our forests and our lakes and rivers are so very valuable. We must protect our natural resources so that future Iowans can share their wonder.

TRANSPORTATION

A bright spot in state government is our Department of Transportation. Our unified approach to air, water, rail and highway transportation has achieved national recognition in just two years.

Successful programs such as railroad branch line assistance are continued in this budget. I am pleased to report that funds are beginning to come back from the railroads, enabling us to pare my request from the last biennium. The program is moving into a configuration where it can, to some extent, become financially self-sustaining.

The Great River Road in eastern Iowa has long been sought and has finally been funded by the federal government. My request and departmental funds will utilize all available federal monies, and allow construction to begin.

Finally, adequate funding of the state's roads is a problem, and so is the distribution of those funds. Substantial inequities exist because that distribution under which we are operating today is based on fifteen-year old needs studies.

The cities deserve a larger share of the Road Use Tax Fund and the counties should not receive less money than at present.

The implementation of functional classification awaits the resolution of both issues.

For two years I have been suggesting a percentage user fee for fuel. I have also urged changes in the distribution formula and those changes still have merit. So far, nothing has happened.

I would be interested in hearing your ideas on this problem. It needs attention, and I will await your recommendations.

Our road system moves food, people, and manufactured goods. It is critical to Iowa's health. We must act this session to preserve that system.

CITIES, TOWNS, COUNTIES

Our local units of government are under pressure. We are offering ways to ease that pressure:

—Adjustment of the Road Use Tax formula just mentioned could make a substantial contribution to cities and towns without adversely affecting counties. Further, we provide for transit assistance which will benefit both.

—Local option taxes, noted earlier in my remarks, could provide both cities and counties with additional flexibility and so could the hotel—motel tax. The extent to which they take advantage of these revenue opportunities will be up to them.

—Even though our federal revenue sharing has been trimmed, this budget continues the local revenue sharing from the state which began in 1969.

—And, this budget provides \$6 million in construction grants to help local governments build adequate sewage treatment facilities. This is an integral part of our state's environmental protection.

The above budgetary items add up to significant assistance for our Iowa cities and counties.

OTHER PRIORITIES

My budget also includes specific requests for other worthwhile programs which are in the best interest of the public. I would like to mention a few:

—Iowans pay over \$1 billion annually in utility bills. Our small Commerce Commission staff ensures that rates are based on legitimate costs. Increased manpower here will be real consumer protection.

—Expanded law enforcement efforts will continue as state administrators scramble to replace lost federal funds. Failure to replace these funds is to invite increases in crime in Iowa.

—Restaurant inspection is important when you consider that one out of three meals is eaten away from home. Additional restaurants, sanitation, and consumer confidence demand that government step up its level of inspection. My budget provides for that.

—The National Guard responds whenever we need them during crises such as floods and tornadoes. Their strength and preparedness are invaluable to the strength and security of this state. The \$150,000 that would provide a small tuition incentive would be money wisely spent so that our Iowa Guard can remain competitive with neighboring states in recruiting volunteers.

—I request that you restore the \$250,000 appropriation for our exciting solar hearing facility project which was reverted. I can't believe you lawmakers wanted to "sunset" our solar initiative.

—\$375,000 is requested to fund the new Appeals Court.

—The special fund that you gave us for volunteer committees, used so effectively by our Council for Children, is still needed. New long-range energy research will begin soon and a temporary Iowa Paperwork Commission will be created. These are two resourceful initiatives.

—Finally, details concerning capital requests, such as the new vocational-rehabilitation building, are contained in a separate appendix to this message.

* * *

If this budget is followed, our financial condition at the end of the biennium will be satisfactory. We will have a balance of \$86 million, less the cost of salary adjustments. And keep in mind, that balance does not include the \$25 million reserve we will have set aside for the corporate tax question.

A positive financial condition should be the goal of all managers of public funds. We in Iowa can achieve this goal if we exercise discipline in our financial planning.

In concluding my remarks, I want to share two brief observations.

First, there is reason for concern over federal-state programs. We often become willing participants, only to later become unwilling victims when funding is halted and programs dumped in our laps.

As much as we might like to, we will not be able to always replace federal funds in the future. A wise course might be to thoroughly explore our entanglements with Washington before they boomerang.

Second, there are sound reasons for a conservative budget. If the dollars become available, it is always easy to spend them. On the other hand, if we

have another dry year, farm income stands to drop. You can be sure if that happens, we will then be thankful for our cautious budgetary approach.

Last year I declared eighteen counties disaster areas because of drought. An over-blown budget could create a financial drought in all ninety-nine.

* * *

In the coming days of this session, should you begin to weaken in your resolve, I would ask you to recall what Winston Churchill said when he spoke about the role of government in people's lives in Great Britain.

"I do not believe in the power of the state to plan and enforce, no matter how numerous are the committees they set up or the ever growing hordes of officials they employ. . . set the people free. Get out of their way and let them make the best of themselves."

That is a sobering thought as you consider the financial conditions of England where the government tried to do everything for everyone and lost.

We cannot let Iowa get caught in that trap. This budget does not try to provide everything for every Iowan.

Recall the three premises I outlined at the beginning of my remarks.

- No increase in sales and income taxes.
- Living within our resources and balancing our budget.
- Getting maximum value for each tax dollar.

I am personally committed to those tenets and so are all members of my administration.

I hope that my two messages this week will encourage you to think about the challenge we share — that of giving Iowans no more government than they need, want, or can afford.

Thank you.

GOVERNOR'S RECOMMENDATIONS

Recommendations on property taxes submitted to the Sixty-seventh General Assembly, 1977 Session:

The recent experience with the reassessments and equalization that occurred in 1975 remains fresh in our memories. Two classes of property —

agricultural and residential — received jolting increases in valuations. The increase in agricultural property assessments ranged up to seventy-eight percent in one county and fifty-three percent for residential property in another county.

There is a very real prospect that large increases in valuations for farmers and home owners are again in store when reassessment and equalization are required for January 1, 1978.

Having just been hit by one large increase in assessments, Iowa home owners and farmers face the prospect of equally unsettling increases a year from now. Large jolts in property valuations must be alleviated. We must cease the shocking of our property owners. At a time when rural and urban Iowans are yearning for stability in their taxes, we need to design a method that will moderate large increases in property valuations.

State government doesn't collect or spend a dime of property taxes. That is the activity of local government. Yet since the state allows property to be taxed, we have a responsibility for affecting the extent to which it is taxed. Within the limited resources available to state government, what can we do?

We can and should direct our attention to the core of the property tax problem — rapidly increasing assessments. We have a workable approach that will provide an answer to this nagging and difficult problem.

The recommendations that follow in the areas of assessment practices, assessment mechanics and local budgets and finances are a comprehensive response to the property tax question. The adoption of these measures will reassure Iowans that they will not be clobbered by staggering increases in valuations as a common occurrence and help insure fair and equitable assessments for farmers and home owners.

* * *

I. Assessment Practices

- A. Implement a regulated assessment method which limits the growth of aggregate assessments of agricultural land and residential properties in an assessing district to no more than five percent a year. This is to be implemented January 1, 1978, to correspond with the required reassessment and equalization.
- B. Continue uniform procedures for assessing property. Values must be equalized on market value and productivity, as used in the case of agricultural property. Yet taxes would be levied only against the assessed value, not the market value.
- C. Retain the present \$4,500 homestead tax credit and establish a standing limited appropriation for the \$42,000,000 currently being spent on agricultural land tax credits.

D. Retain productivity (50%) for agricultural land valuations.

E. Tax buildings on agricultural land in cities at the full city levy rate yet leave the agricultural land itself at the present reduced tax rate.

II. Assessment Mechanics

A. Require the full disclosure, by affidavit, of the terms of sale of all real estate.

B. Establish a state revolving fund to provide loans to counties and cities which are ordered by the Department of Revenue to do a revaluation of real estate.

C. Require assessors to physically reinspect all real estate every four years.

D. Mandate recertification of all assessors.

III. Local Budgets and Finances

A. Let the property tax spending limitations imposed during the 1976 legislative session expire according to law. Make no change in the traditionally established levy limitations of local governments, such as the \$8.10 per \$1,000 assessed valuation for a city's general fund.

B. Enable cities and counties by a vote of the people to extend property taxes beyond the limits.

C. Permit local governments to take advantage of a local option sales tax, if and when the voters approve.

D. Permit local governments to take advantage of a local option transient guest (hotel—motel) tax without a referendum as is done in so many other states where Iowans travel.

IV. Research

A. Continue and intensify the research efforts that were initiated by the Local Government Task Force.

B. Establish a major research effort to explore the needs and requirements of local services and alternative ways of effectively and efficiently meeting the necessary services in cities, counties, and school districts.

HOUSE CONCURRENT RESOLUTION 5

By Crabb and Welden

1 *Whereas*, with each passing year this nation becomes
 2 more deeply in debt as its expenditures grossly and
 3 repeatedly exceed available revenues, so that the
 4 public debt now exceeds hundreds of billions of
 5 dollars; and
 6 *Whereas*, the annual federal budget continually
 7 demonstrates an unwillingness or inability of both
 8 the legislative and executive branches of the federal
 9 government to curtail spending to conform to available
 10 revenues; and
 11 *Whereas*, unified budgets do not reflect actual
 12 spending because of the exclusion of special outlays
 13 which are not included in the budget nor subject to
 14 the legal public debt limit; and
 15 *Whereas*, knowledgeable planning, fiscal prudence,
 16 and plain good sense require that the budget reflect
 17 all federal spending and be in balance; and
 18 *Whereas*, fiscal irresponsibility at the federal
 19 level, with the inflation which results from this
 20 policy, is the greatest threat which faces our nation,
 21 and constitutional restraint is necessary to bring
 22 the fiscal discipline needed to restore financial
 23 responsibility; and
 24 *Whereas*, Article V of the Constitution of the
 25 United States provides that amendments to the
 26 constitution may be proposed by the Congress whenever
 27 two-thirds of both houses deem it necessary, and we
 28 believe such action is vital; *Now Therefore*,
 29 *Be It Resolved by the House of Representatives*,
 30 *the Senate Concurring*, That Congress is urged to adopt

Page 2

1 a resolution proposing an amendment to the Constitution
 2 of the United States to require that, in the-absence

3 of a national emergency, the total of all federal
4 appropriations made by the Congress for any fiscal
5 year may not exceed the total of all federal revenues
6 for the previous fiscal year.

7 *Be It Further Resolved*, That the Chief Clerk of
8 the House is directed to send copies of this resolution
9 to the presiding officer of both houses of the
10 legislature of each of the other states in the union,
11 the Clerk of the United States House of
12 Representatives, the Secretary of the United States
13 Senate, and to all members of Congress from the State
14 of Iowa.

Referred to committee on budget.

HOUSE CONCURRENT RESOLUTION 6
By Patchett, Wyckoff, Small, Junker, Horn,
Newhard, Krewson, Hargrave and Svoboda

1 *Whereas*, chapter six hundred one C (601C) provides
2 that a government agency shall first attempt in good
3 faith to make an agreement with the commission for the
4 blind to operate a food service facility without pay—
5 ment of rent before offering or granting to any other
6 party a contract of concession to operate a food
7 service facility; and

8 *Whereas*, a food service agency, other than one oper—
9 ated by the commission for the blind, cannot be estab—
10 lished until it is determined in good faith that the
11 commission for the blind is not willing to or cannot
12 satisfactorily provide such food services; and

13 *Whereas*, it is determined by the General Assembly
14 that the commission for the blind is not satisfactorily
15 providing food service in the state capitol building,

16 *Now Therefore*,

17 *Be It Resolved by the House of Representatives, the*
18 *Senate Concurring*: That the director of the department
19 of general services is directed to negotiate with food
20 service agencies, including the commission for the blind,
21 to provide a food service facility which will be avail—
22 able to public officials, state employees, and members
23 of the general public and which will provide prompt,
24 courteous, and efficient service and provide diverse
25 menus of appetizing items and proper nourishment; and

26 *Be It Further Resolved*, that the director of the
27 department of general services shall execute a contract
28 with the food service agency which in his opinion sub—

- 29 mits the best bid based upon price, service, and quality
30 of food effective with the termination of the contract
31 with the commission of the blind which provides for food
32 service facilities for members of the general assembly.

- 1 *Whereas*, the general assembly finds that the demands for
2 surface and ground water are increasing rapidly, and
3 *Whereas*, the natural resources council has received an
4 unprecedented number of applications for irrigation permits,
5 and
6 *Whereas*, there is a lack of information available to
7 determine how much ground water may be used without damaging
8 other water users, and
9 *Whereas*, the Iowa Code does not provide adequate guidelines
10 concerning priority uses of water, potential conflicts between
11 water users, and water rights, and
12 *Whereas*, we must assure future generations of Iowans an

LINCOLN'S BIRTHDAY OBSERVANCE

Howell of Floyd escorted to the Speaker's station and presented to the House Dr. John Clinton, Executive Secretary, Friends of Lincoln, who addressed the House as follows:

Mr. Speaker, Ladies and Gentlemen of the House:

Today we meet to honor the Commander in Chief from 1861 to 1865. Abraham Lincoln had a dream. The dream that he had had roots that were about a hundred years old, he talked much about roots. This man Lincoln thought that union and peace were what the country was after, what he was after. He was much disturbed when he walked into an auction in New Orleans. What was on the auction block was a man holding a round, iron ball. That iron ball was fastened to his ankle by a chain. That was not roots of this year, that was roots over a hundred years ago. When the 76,000 Iowans who responded to Abraham Lincoln had finished their tasks in the Civil War and came back, there stands on the south campus here the shaft that honors the memory of those 76,000 Iowans. What did we do for the Commander in Chief of the 76,000 Iowans? We forgot all about him, like the one that introduced me talked about. It was Herschel Loveless, almost a hundred years after the war was over, in 1959, who appointed a committee. He had on his team expert help in the sculptor team that had moved to Des Moines in 1957, two years before.

Fred Torrey had done three monuments to honor Abraham Lincoln. He said, "You know, I'd like to do one more monument. Nobody has honored any President as a family man. The Lincolns had four boys, I'd like to honor a President as a family man." As a worthy assistant he had his wife, a graduate sculptor. She was commissioned to do the boy, a mother of a bronze boy and the other niceties that went about the Lincoln Monument. For instance, on the back of the Monument in Chicago, there is nothing but a

chair, but Mabel Torrey said, "If I just had a shoulder shawl, somebody that had actually worn a shoulder shawl, that could provide what Lincoln wore to put over the back of the chair out here in front of the capitol." My grandfather, twenty years after Iowa was born, was wearing the shoulder shawl that I have. So this shoulder shawl became the symbol on the back of the chair out here with all its glad array of its past. Back of the shoulder shawl you see another significant thing. Most sculptors sign their statues like you would sign a letter with the signature down at the bottom of the right hand corner. This statue was done by a team, so when you go out under the shawl, down in the right hand corner, where you would sign a letter, this Monument is signed by two, Fred Torrey and Mabel Torrey.

Who joined the team? Who furnished the signatures? I did not bring a bomb today, but I bring a capsule. We needed a place to put 5,367 signatures. Elmer Den Herder is about two inches from the bottom. Five thousand, three hundred sixty-seven signatures. Well, how do you get a capsule like this? It's pretty costly. I went down to the plumbers on Court Street and said "I need a capsule to put inside the statue." "Oh, they said, we can give you a sleeve with two caps and as long as it's for the Lincoln statue, let me give them to you for Lincoln's statue." And you talk about these bloody plumbers that rob you. Here, behold the philanthropy of the plumbers of Des Moines, Iowa. So I asked them for a second capsule so I could show you what it looked like inside the statue. What's in there? There's a school teacher in Guthrie County, she couldn't wait. She brought her pupils down here, they had thirty feet of adding machine paper. They had scotch taped ten Lincoln pennies all the way down thirty feet of adding machine paper. They brought it down here and lined up down here in the pit. Jim was elected mayor and Mr. Speaker, at the conclusion of these two jiffies, the Speaker said that was about the most meaningful speech we've had this session.

Signatures -- there was a shoe-shine boy out at the State Fairgrounds, made all his money for school clothes. He said, "I'm not going to stop with ten Lincoln pennies. Here's a half dollar. I'm building the Monument for the State of Iowa."

There's scouts down at Knoxville, they wrote an essay about Lincoln. They said, "It's going to last two minutes, because Lincoln did that in Gettysburg." They had two dollars and sixty-seven cents plus an essay. About that time Al Mensing, about where Bill Griffiee sits back in here, steamed up and asked John Deere for \$1,000 dollars from the John Deere outfit. Judge Glanton, downtown, made it black and white by getting in on the party. Then George O'Malley, Senator over on the other side, all six feet four of him, they called him "Abe" in college when he studied for law, he joined the party to have the Senate in on this party. About that time, around the rotunda there came thirty-nine high school seniors from Oklahoma. They don't have statues of Abraham Lincoln in Oklahoma. Down in Oklahoma these thirty-nine girls heard that they could have a fireside chat with an honest-to-goodness Lincoln sculptor. Oklahoma—they came up, surrounded the rotunda and these halls rang with "Oklahoma". Then they

went out and left \$100 dollars in the circle. That's the farthest south contribution to any Lincoln monument in the world. I do not know, but one of these days there may be some Lincoln monuments in the south. Now there is not one Lincoln monument in the south, but I can see these high school seniors, who now have fifteen years and are talking to their youngsters and saying, "We helped build Iowa's Lincoln monument. Sons and daughters, let's have one in Oklahoma from you people whose moms did the job up there in Iowa. "

Signatures, that's what we're talking about. This capsule, this monument. There's a book that's been written that carries this whole story. I could tell you more, Lincoln did it in Gettysburg. I want to do it in about five minutes here. Page one hundred forty-nine has the complete statue, it's called the "Servant of God". Page one hundred forty-nine:

At the close of the day with the last rays of the sun falling upon it, or on a crisp winter morning when fresh snow highlights the picture, the words from the committee spring to mind. "If just one boy or girl from Iowa-or Oklahoma-or anywhere else, pauses long enough, like the Scouts next Saturday and Sunday, to vow to live the Lincoln life, it will have been worth all the time and money expended on the monument."

So here's the capsule and the shawl. Down in the Treasurer's office there is the original bust. I happen to have the bust of Tad because my grandson was ten years old and he posed for the modeling of the son of Abraham Lincoln. There is one other thing that I leave with you. Those who gave to the statue were made first class "peg drivers". One of the forgotten quotations of Abraham Lincoln that was created and built up for our committee was this, when they questioned him about policies, Lincoln said:

"Policies, I pass my time preventing the storm from blowing down the tent. I drive in the pegs as fast as they are pulled out."

You in the House have plenty of chances to drive pegs and see them pulled up, but in the words of Lincoln, "I pass my life in preventing the storm from blowing down the tent. I drive in the pegs as fast as they are pulled up." This day invites each of us to be in the team of the Commander in Chief from 1861 to 1865 as we stop by a statue and vow to live the Lincoln life for having taken these minutes on this honored day.

Anderson of Jasper offered the following House Memorial Resolution 2 and moved its adoption:

REPORT OF COMMITTEE ON ETHICS

Harper of Davis, chair, submitted the following report from the Committee on Ethics.

1 HOUSE CODE OF ETHICS

2 Members of the House of Representatives

3 Recognizing that members of the General Assembly are
4 honorable citizens who are active in the business, religious
5 and public service affairs of their community, state, and
6 nation, the following rules were adopted pursuant to chapter
7 68B, Code 1975, to assist the members in the conduct of their
8 legislative affairs.

9 1. No member of the House shall accept economic or
10 investment opportunity under circumstances where he/she knows,
11 or should know, that there is a reasonable possibility that
12 the opportunity is being afforded with the intent to influence
13 his/her conduct in the performance of official duties.

14 2. No member of the House may charge to or accept from
15 a person, corporation, partnership, or corporation known to
16 have a legislative interest, a price, fee, compensation, or
17 other consideration for the sale or lease of any property
18 or the furnishing of services which is in excess of that which
19 such member would ordinarily charge another.

20 3. No member of the House, in order to further his/her
21 own economic interests, or those of any other person, may
22 disclose or use confidential information acquired in the
23 course of their official duties.

24 4. A member of the House may appear before a state agency
25 in any representation case, except that the member shall not
26 appear before a state agency if the matter is subject to
27 legislative review. Whenever a member of the House appears
28 before a state agency, the member shall carefully avoid all
29 conduct which might in any way lead members of the general
30 public to conclude that s/he is using his/her official position
31 to further his/her professional success or general interest.

32 5. In order to permit the General Assembly to function
33 effectively, members of the House will, of necessity, be
34 required to vote on bills and participate in committee work
35 which will affect their employment and other areas in which

Page 2

1 they may have a monetary interest. Action on bills and in
2 committee work which specifically deal with a member's specific
3 employment or specific investment, as opposed to a profession,
4 trade, or business in general, should be avoided. In making
5 a decision relating to a member's activity on particular bills

- 6 or in committee work which are subject to this code, the
7 following factors should be considered:
- 8 a. Whether a substantial threat to the member's
9 independence of judgment has been created by the conflict
10 situation.
- 11 b. The effect of the member's participation on public
12 confidence in the integrity of the legislature.
- 13 c. Whether the member's participation is likely to have
14 any significant effect on the disposition of the matter.
- 15 d. The need for the member's particular contribution,
16 such as special knowledge of the subject matter, to the
17 effective functioning of the legislature.
- 18 The member may, however, decide to participate in a manner
19 contrary to the economic interest which creates the conflict
20 situation, but if s/he abstains, s/he should disclose that
21 fact to the legislative body.
- 22 6. Members of the House are urged to familiarize themselves
23 with chapter sixty-eight B (68B) and chapter seven hundred
24 thirty-nine (739) of the Code.
- 25 7. Members of the House shall not charge any amount or
26 item to any charge account to be paid for by any lobbyist
27 or any organization they represent.
- 28 8. Complaints against any member of the House or any
29 lobbyist operating in the House shall be in writing, made
30 under oath and filed with the ethics committee of the House.
31 If the ethics committee determines that the complaint sets
32 out an apparent violation of the law or code of ethics or
33 rules regulating lobbyists, it shall set the matter for
34 hearing, notify the accused of the right to appear in person,
35 to be represented by counsel, to present statements and

Page 3

- 1 evidence and to cross-examine witnesses. The committee shall
2 hold a hearing and consider all relevant evidence and shall
3 make its recommendations to the House.
- 4 9. Advisory opinions may be rendered as set out in section
5 sixty-eight B point ten (68B.10), Code 1975, upon request
6 of a member of the General Assembly.

HOUSE CONCURRENT RESOLUTION 11

By Committee on Energy

- 1 *Whereas*, because of the unusually severe winter,
- 2 natural gas shortages are being experienced in the
- 3 eastern states and have led to the closing of
- 4 schools, businesses, and factories; and
- 5 *Whereas*, the President of the United States has
- 6 requested that all Americans share the responsi-
- 7 bility of conserving energy resources, particularly
- 8 during this recent crisis, by turning temperature

9 controls in homes, schools, and other buildings to
10 65 ° F.; and

11 *Whereas*, the state of Iowa has led the nation in
12 meaningful energy planning, allowing Iowa to avoid
13 the crisis experienced in many other states, and
14 Iowa should set an example for its citizens by
15 lowering temperature controls in state-owned
16 buildings to 65 ° F.; and

17 *Whereas*, Iowa is not immune from a future crisis,
18 particularly with the dwindling availability of
19 natural gas, and with the recent federal
20 legislation which authorizes the President to
21 reallocate natural gas supplies among the states;

22 *Now Therefore*,

23 *Be It Resolved by the House of Representatives,*
24 *the Senate Concurring*, That the General Assembly
25 urges that temperature controls in all buildings
26 owned by the state or a political subdivision of
27 the state, except health care facilities, be modified
28 if necessary for efficient operation and set to
29 maintain a temperature of 65 ° F., and

30 *Be It Further Resolved*, That the General Assembly
31 requests that further energy conservation efforts be
32 instituted in government-owned buildings, such as
33 turning off lights in buildings when not in use,
34 as a further demonstration of our willingness to
35 assist not only our fellow Americans but also our—
36 selves in tailoring our energy demands to meet
37 supplies.

HOUSE RESOLUTION 6
By Committee on Agriculture

- 1 *Whereas*, the continued viability of the owner—
- 2 operated family farm is of crucial economic and social
- 3 value to the state of Iowa; and
- 4 *Whereas*, the separation of ownership and operation
- 5 in farming due to increased investment by non—farm
- 6 persons is a growing national trend; and
- 7 *Whereas*, Continental Illinois Bank and Trust Co.
- 8 of Chicago has recently announced plans to seek tax—
- 9 exempt status for a proposed \$50 million trust fund
- 10 for investment in agricultural land; and
- 11 *Whereas*, such proposed tax—exempt status and
- 12 ability to attract large—scale cash capital supplies
- 13 by this fund and others that might follow would
- 14 surely jeopardize the competitive position, if not the
- 15 very existence, of the family farmer; *Now Therefore*,
- 16 *Be It Resolved by the House of Representatives*,

17 that the Iowa Congressional delegation is to be commended
18 for successfully seeking Congressional hearings on,
19 and full investigation of, the long range implications
20 of large-scale bank investment in agricultural land; and
21 *Be It Further Resolved*, that the Iowa House of
22 Representatives urges the Congressional delegation
23 to act boldly in protecting the legitimate interests,
24 and the continued existence, of the family farm.

HOUSE CONCURRENT RESOLUTION 12

By Cusack

- 1 *Whereas*, the costs of higher education are escalating
2 at a rapid pace; and
3 *Whereas*, Iowa's future will be vitally affected by
4 all segments of higher education, including regent
5 institutions, area community colleges and area vocational
6 schools, and private colleges and universities; and
7 *Whereas*, the Iowa legislature has assumed varying degrees
8 of financial responsibility in all of the above named
9 areas at a time of serious cost elevation; and
10 *Whereas*, the Iowa Code makes no mention of the
11 relationship between regent institutions and area
12 community colleges and area vocational schools, and is
13 entirely silent on the subject of private colleges and
14 universities; and
15 *Whereas*, the consequences of a lack of legislative
16 policy in this area will be financial distress for the
17 taxpayer and, ultimately, a weaker educational program
18 for Iowa's young; and
19 *Whereas*, a higher education policy will both set
20 limits on legislative responsibility, and provide
21 security to institutions knowing that they can depend
22 on legislative support and funding; and
23 *Whereas*, a policy should be adopted which clearly
24 defines the role of each type of institution receiving
25 legislative financial support, with particular attention

Page 2

- 1 to types of program offered, numbers and cost of students
2 served, and entrance and graduation requirements, as
3 well as speaking to overlapping offerings by two-year,
4 four-year and graduate institutions of all types in
5 Iowa, *Now Therefore*,
6 *Be It Resolved by the House of Representatives, The*
7 *Senate Concurring*, That the legislative council is
8 authorized to establish a commission to undertake a
9 comprehensive and detailed study of the roles of the
10 various institutions of higher education in this state,

11 their programs, and overlapping of programs, the
 12 escalating costs of higher education in this state,
 13 and the financial support level of the state for each
 14 of the segments of higher education, and the commission
 15 shall develop both short-range and long-range alternatives
 16 for program and fiscal planning. Members may be either
 17 legislators or lay citizens, or both. The commission
 18 may either employ its own staff or hire a consulting
 19 firm to assist it with its work; and

20 *Be It Further Resolved*, That the commission shall
 21 submit to the legislative council and the Sixty-seventh
 22 General Assembly, 1978 Session, a report of the study
 23 together with legislative bill drafts designed to carry
 24 out the recommendations of the commission.

Laid over under Rule 25.

By Ramsey, Hultman, Shaw, Gallagher

1 *Whereas*, as a result of critical heating fuel short—
2 ages in the eastern states federal legislation has been
3 proposed to give the President of the United States the
4 authority to reallocate natural gas supplies; and
5 *Whereas*, Iowa too currently has a precarious supply
6 demand balance during this unusually cold winter season

8 capacity combined with dedication to energy conserva—
9 tion techniques instituted during previous harsh win—
10 ters have enabled the state to withstand this winter's
11 demands; and
12 *Whereas*, it should be noted that almost thirteen
13 percent of all natural gas consumed in Iowa is used for
14 the production of anhydrous ammonia and without this
15 fertilizer, Iowa farmers could not provide the one point
16 one billion bushels of corn annually which are so vital
17 to the nation and the world; and
18 *Whereas*, the state would not object to the diversion
19 of natural gas allocated to Iowa to aid homes and hos—
20 pitals in those states where the shortage is critical;
21 *Now Therefore*,
22 *Be It Resolved by the Senate, the House Concurring*,
23 That the General Assembly urges the President of the
24 United States to recognize the importance of Iowa's and
25 the midwest's present natural gas allocation in meeting
26 essential residential and agricultural production needs.
27 *Be It Further Resolved*, That the General Assembly
28 urges the President of the United States to not penalize
29 the people of Iowa for their dedication to energy con—
30 servation and energy management foresight by diverting

1 the state's fuel supplies to an extent that might
2 jeopardize the security and well-being of Iowans.
3 *Be It Further Resolved*, That the General Assembly
4 urges the Congress and the President of the United
5 States to formulate a national energy policy, as state
6 efforts to promote energy conservation and management
7 are currently being stalled by uncertainties concern—

3 1. Page 1, by striking lines 3 through 35.

4 2. By striking pages 2 through 5 and inserting
5 in lieu thereof the following:

6 "1. For the purposes of these rules "lobbyist"
7 is defined as a person who:

8 a. Is paid compensation for encouraging the
9 passage, defeat, or modification of legislation; or

10 b. Expends money under paragraph one (1) of rule
11 eleven (11) of these rules in an attempt to encourage
12 the passage, defeat or modification of legislation;

15 which has as one of its purposes the encouragement
16 of the passage, defeat, or modification of legislation;
17 or

19 official or employee representing the official position
20 of his or her department, commission, board, or agency
21 and who attempts to encourage the passage, defeat,
22 or modification of legislation.

23 2. The term "lobbyist" shall not include within
24 its definition:

25 a. Officials and employees of a political party
26 organized in the state of Iowa representing more than
27 two percent of the total votes cast for governor in
28 the last preceding general election, but only when
29 representing the political party in an official
30 capacity.

31 b. Representatives of the news media engaged
32 only in the reporting and dissemination of news and
33 editorials.

35 information to a member of the house or to appear
36 before a house committee and who do not actively
37 encourage the passage, defeat, or modification of
38 legislation.

39 d. The governor and lieutenant governor of the
40 state of Iowa, and all other elected state officials.

41 e. Persons who exclusively represent their own
42 interests (as distinguished from the interests of
43 a group, employer, or organization), provided they
44 are neither compensated by anyone for lobbying nor
45 do they incur any reportable expenditures under
46 paragraph one (1) of rule eleven (11) of these rules.

47 3. For purposes of these rules "organization"

48 is defined as a group of people, corporation,
49 governmental subdivision or agency, business trust,
50 estate, trust, partnership, association, or other

Page 2

1 entity which encourages the passage, defeat, or
2 modification of legislation and is represented by
3 a registered lobbyist.

4 4. These rules are applicable to lobbying
5 activities involving only the Iowa house of
6 representatives.

7 5. All lobbyists who will make reportable
8 expenditures while lobbying shall, on or before the
9 day their lobbying activity begins, register with
10 the clerk of the house by filing a lobbyist
11 registration statement listing:

12 a. Name, permanent business address, temporary
13 residential and business address in Polk County during
14 the legislative session, and telephone numbers. If
15 two or more lobbyists are associated together or
16 consistently work together in all their lobbying,
17 then they may file a joint registration. The name,
18 permanent business address, temporary residential
19 and business address in Polk County during the
20 legislative session, and telephone numbers of all
21 persons included in the joint registration shall be
22 listed. If a joint registration is filed, then all
23 reports filed pursuant to this Resolution, shall
24 include the activities of all the lobbyists in the
25 joint registration but those activities attributable
26 to each joint registrant need not be disclosed on
27 the reports.

3 expenditures while lobbying shall, on or before the
4 day their lobbying activity begins, register with

9 a statement that they have read and understand the
10 rules of the house regarding reportable lobbying
11 expenditures and that they will not incur any such
12 expenditures during the year.

13 If a lobbyist subsequently wishes to make
14 expenditures, the lobbyist may cancel the registration
15 under this rule and refile under rule five (5) of
16 these rules. No monthly reports are required of
17 lobbyists registering under this rule. It is a

22 employees representing the official position of their
23 departments, commissions, boards or agencies shall
24 present to the chief clerk of the house a letter of
25 authorization from their department or agency heads
26 prior to the commencement of their lobbying. The
27 lobbyist registration statement of such officials
28 and employees shall not be deemed complete until the
29 letter of authorization is attached thereto.

30 8. Federal, state, and local officials who wish
31 to lobby in opposition to the official position of
32 their departments, commissions, boards or agencies
33 must indicate such on their lobbyist registration
34 statements.

35 9. No fee or bonus paid any lobbyist shall be
36 contingent wholly or in part upon the action taken
37 or not taken by the house or any member, subcommittee,
38 or committee of the house on any legislative matter.

Page 4

1 house concerning their lobbying activities during
2 the preceding calendar month which includes the
3 following:

4 a. The monthly report shall list the totals of
5 all expenditures, excluding expenditures reported
6 under rule twelve (12) or thirteen (13) of these
7 rules, made or incurred by the lobbyist and his or

9 to the employer or employers are known or readily
10 available) expended directly upon the members of the
11 house, collectively, in the performance of lobbying
12 service during the period covered.

21 immediate family during the preceding month and list
22 such totals.

26 other reports required, also list each employer and
27 state their pro rata share.

28 12. Each month of the year, by the twentieth day
29 of that month, separately or jointly registered
30 lobbyists who have joined with other lobbyists in
31 any lobbying activity or shared or split a lobbying
32 expenditure with another lobbyist or lobbyists shall
33 file a report with the chief clerk of the house
34 concerning such matters during the preceding calendar
35 month. The report shall:

- 36 a. Identify by name, address and phone number
37 all lobbyists joining in any lobbying activity or
38 sharing or splitting a lobbying expenditure.
39 b. List the number of the house members and house
40 candidates, upon whom the expenditure was made.
41 c. State the date and describe the purpose of
42 the expenditure.
43 d. State the total amount expended without dividing
44 it or averaging it either among the lobbyists or their
45 employers who joined in the lobbying activity or
46 shared or split the expenditure.
47 If the total amount expended when divided by the
48 number of house members or house candidates attending
49 exceeds fifteen dollars, the report shall also include
50 the names of the house members and house candidates

Page 5

- 1 upon whom the expenditure was made.
2 e. If a lobbyist represents more than one employer
3 and all employers did not contribute equally to the

5 other reports required, also list each employer and
6 state their pro rata share.
7 f. Be signed by all the lobbyists joining the
8 activity or sharing the expenditure.
9 13. Each month of the year, by the twentieth day
10 of that month, separately or jointly registered
11 lobbyists who have made an expenditure for a gathering
12 at which all members of the general assembly or members
13 of the general assembly in large numbers are invited
14 shall file a report with the chief clerk of the house
15 concerning such gatherings during the preceding
16 calendar month. Lobbyists who join with other
17 lobbyists or share or split a lobbying expenditure
18 for such gathering shall report under rule twelve
19 (12) of these rules and not under this rule. The
20 report shall:
21 a. State the name, business address and phone
22 number of the lobbyist filing the report.
23 b. List the number of the house members or house
24 candidates who attended the gathering.
25 c. State the total amount expended upon the house
26 members, house candidates or their immediate families.
27 d. If the total amount expended when divided by
28 the number of house members or house candidates
29 attending exceeds fifteen dollars, the report shall
30 also include the names of the house members and house
31 candidates upon whom the expenditure was made.
32 e. If a lobbyist represents more than one employer

33 and all employers did not contribute equally to the
34 expenditures, the lobbyist may, in addition to the
35 other reports required, also list each employer and
36 state their pro rata share.

37 14. A lobbyist or lobbyists who can reasonably

21 Sec. Acts of the Sixty-fifth General Assembly,
22 1973 Session, chapter two hundred seventy-four (274),
23 section one (1), unnumbered paragraph one (1), is
24 amended to read as follows:

25 The general assembly determines that health
26 maintenance organizations, when properly regulated,
27 encourage methods of treatment and controls over the

28 quality of care which effectively contain costs and
29 provide for continuous health care by undertaking
30 responsibility for the provision, availability, and
31 accessibility of services. It is the intent of this
32 Act that legal barriers be removed to allow a variety
33 of organizational structures to establish and operate
34 health maintenance organizations in order to provide
35 for experimentation with and improvement in this
36 alternative system of health care delivery. For this
37 reason, and because the primary responsibility of
38 a health maintenance organization lies in providing
39 quality health care services on a prepaid basis without
40 regard to the type and number of services actually
41 rendered, rather than providing indemnification against
42 the cost of such services, the general assembly finds
43 it necessary to provide a statutory framework for
44 the establishment and continuing regulation of health
45 maintenance organizations which is separate from the
46 insurance laws of this state, except as otherwise
47 provided in this Act, and the general assembly further
48 finds it desirable to make a special exception, limited
49 to health maintenance organizations, in order that
50 health maintenance organizations may have the option

Page 2

1 of contracting with or employing providers of health
2 care services notwithstanding the provisions of Title
3 VIII and ~~section one hundred thirty-five B point~~
4 ~~twenty-six (135B.26)~~ of the Code.”
5 2. Page 3, line 6, by inserting after the word
6 “Act” the words “relating to health laws providing
7 for agreements between hospitals and doctors and for”.

Doyle of Woodbury rose on a point of order that amendment H-3122, to amendment H-3052, was not germane.

The Speaker ruled the point well taken and H-3122 not germane.

Brandt of Black Hawk moved that the rules governing germaneness be suspended for the consideration of amendment H-3122.

HOUSE FILE 464, by committee on budget, a bill for an act making an appropriation to the department of social services to fund current programs under the jurisdiction of the department of social services.

Read first time and PLACED ON THE BUDGET CALENDAR.

HOUSE CONCURRENT RESOLUTION 21

By Committee on Agriculture

1 *Whereas*, the United States environmental protection agency,
2 hereinafter referred to as EPA, through its office of air
3 and waste management, by publication in the federal register
4 of Thursday, January 13, 1977, Volume 42, No. 9, has proposed,
5 under authority of section 111 of the U.S. Clean Air Act,
6 to impose new standards of performance for new stationary
7 sources of alleged air pollution for farm elevators, country
8 elevators, terminals and dryers which have a cumulative grain
9 "leg" capacity of ten thousand bushels per hour or more if
10 such installations are modified, reconstructed or built new;
11 and

12 *Whereas*, adoption of such regulations would impose

13 restrictions and regulations of such nature which may result
14 in financial hardship for many farm and country elevators;
15 and

16 *Whereas*, the EPA has woefully underestimated the number
17 of farm and country elevators that would ultimately be affected
18 and has grossly underestimated the size of average country
19 elevators within major grain producing states; and

20 *Whereas*, Iowa is one of the leading grain producing,
21 handling and exporting states; and

22 *Whereas*, the EPA by its admission has not studied nor
23 issued an economic impact statement and has not projected
24 inflationary trends into cost estimates; and

25 *Whereas*, the Iowa department of environmental quality has,
26 under existing regulations, performed an outstanding job of
27 enforcement of common sense pollution standards now existing
28 which has resulted in excellent control of farm and country
29 elevator particulate matter emissions; *Now Therefore*,

30 *Be It Resolved by the House of Representatives, the Senate*

Page 2

1 *Concurring*, That the EPA be informed of the overwhelming
2 concern of the general assembly of the state of Iowa for
3 farmers, consumers and country elevators; and

4 *Be It Further Resolved*, That the EPA is requested to notify,
5 before rules governing grain production or handling are
6 proposed, the Iowa department of environmental quality,
7 department of agriculture and similar departments in other
8 major grain producing or handling states for their review
9 of the proposed rules; and

10 *Be It Further Resolved*, That the EPA is requested to exempt
11 by specific language farm elevators and that such language
12 further specifically include exemption for country elevators
13 who by definition receive the majority of their grain volume
14 direct from the farm producer as the first purchaser in the
15 grain distribution system; and

16 *Be It Further Resolved*, That this Concurrent Resolution
17 being of immediate urgency be dispatched immediately to Mr.
18 John Quarles, acting administrator, EPA, Washington, D.C.,
19 and to the Iowa congressional delegation and that a copy of
20 this Concurrent Resolution be served upon the house and senate
21 agriculture committees of the Congress of the United States.

Laid over under Rule 25.

HOUSE RESOLUTION 15

By Tauke of Dubuque
Jochum of Dubuque

1 *Whereas*, the players, coaches, cheerleaders, student bodies
2 and fans of Dubuque Senior High School and Dubuque Wahlert High
3 School were jointly awarded the Sportsmanship Trophy at the
4 Iowa Boys Class 3—A Basketball Tournament; and
5 *Whereas*, Dubuque Senior High School won the championship
6 runner—up trophy and Dubuque Wahlert High School won the Con—
7 solation Championship Trophy of the state Class 3—A tourney; and
8 *Whereas*, the citizens of Dubuque demonstrated tremendous
9 spirit and strong support for the Dubuque schools and teams
10 participating in the tournament; *Now Therefore*,
11 *Be It Resolved by the House of Representatives*,
12 That the Sixty—seventh General Assembly, 1977 Session, extend
13 its heartiest congratulations to Dubuque Senior High School and
14 Dubuque Wahlert High School, their coaches, cheerleaders, faculty
15 and administration, families and loyal fans who encouraged and
16 supported Dubuque Senior High School and Dubuque Wahlert High
17 School through the regular season and during the tournament; and
18 *Be It Further Resolved*, That the members of the Sixty—seventh
19 General Assembly commend Dubuque Senior High School and Dubuque
20 Wahlert High School for their splendid example of sportsmanship,
21 fair play and athletic prowess; and
22 *Be It Further Resolved*, That a copy of this resolution be
23 sent to Coach Merrill Hyde of Dubuque Senior High School and
24 Coach Ed Colbert of Dubuque Wahlert High School and the Dubuque
25 Senior High School boys basketball team and the Dubuque Wahlert
26 High School boys basketball team.

Laid over under Rule 25.

10 component of the consumer price index by fifty percent
11 or more, the department shall implement rate regulation
12 for all health care facilities in that sub—area.

13 3. The department shall establish by departmental

HOUSE CONCURRENT RESOLUTION 24
By Lipsky, Wells, Brandt, Wulff and Horn

1 *Whereas*, the bicycle provides a practical, energy
2 conserving and healthful alternative to motorized trans-
3 portation; and

4 *Whereas*, since 1970, the popularity of cycling in
5 this state has risen sharply as more and more adults
6 have discovered its value in terms of health, recreation
7 and transportation; and

8 *Whereas*, the number of facilities for cyclists has
9 not expanded commensurate with the rise in popularity
10 of cycling and existing facilities are inadequate; and

11 *Whereas*, traffic safety would be greatly enhanced if
12 more facilities, such as bikeways, were provided for
13 cyclists; and

14 *Whereas*, state and federal funds are presently
15 available for the construction of bikeways; and

16 *Whereas*, abandoned railroad lines may be used for the
17 construction of bikeways to create transportation and
18 recreational facilities and minimize the adverse effects
19 resulting from the abandonment of railroad lines; *Now*
20 *Therefore*,

21 *Be It Resolved by the House of Representatives, The*
22 *Senate Concurring*, That the state department of transpor-
23 tation study the feasibility of acquiring and converting
24 into a bikeway the railroad line owned by the Waterloo
25 railroad company which has applied to the United States
26 interstate commerce commission seeking abandonment and
27 has been granted authority to abandon a section of line
28 from Cedar Rapids in Linn county to Waterloo in Black
29 Hawk county; and

30 *Be It Further Resolved*, That the study shall be sub-

Page 2

1 mitted to the General Assembly thirty days after the
2 convening of the 1978 Session of the Sixty-seventh
3 General Assembly and that the study consider all aspects
4 bearing on the feasibility of such project, including
5 the cost of acquisition of the right-of-way, by either
6 purchase or eminent domain, the cost of converting the
7 right-of-way into a bikeway together with ancillary
8 facilities such as comfort stations and camp grounds,
9 the cost of its continued maintenance and upkeep and an
10 assessment of anticipated benefits of such bikeway to the
11 surrounding communities and the residents of this state.

6 1. The state health facilities council established
7 by this Act shall review and, to the extent required
8 by subsection two (2) of this section, regulate the
9 allowable growth of hospitals' operating budgets.

10 2. Each hospital shall submit to the department,
11 within thirty days after the effective date of this
12 Act, its originally adopted operating budget for its

39 action on such an application may appeal that action
40 pursuant to chapter seventeen A (17A) of the Code.

41 5. If any hospital's proposed operating budget

43 of a substantial service which was included in the
44 last preceding operating budget for that hospital
45 reviewed by the council, the council, in consultation
46 with the appropriate health systems agency, shall
47 consider the need for that service in the community
48 served by that hospital. If it is determined that
49 the service is essential to the community, the
50 proportion of the operating budget allocated to that

1 service shall be removed from the operating budget

The President was escorted to the Speaker's station, the Secretary of the Senate to the Chief Clerk's desk and the members of the Senate were seated in the House chamber.

JOINT CONVENTION

PIONEER LAWMAKERS

(HOUSE CHAMBER — 1:30 p.m.)

In accordance with House Concurrent Resolution 13, duly adopted, the joint convention was called to order, President Neu presiding.

President Neu announced a quorum present and the joint convention duly organized.

Senator Kinley of Polk moved that a committee of four be appointed to escort the Pioneer Lawmakers into the House chamber.

The motion prevailed and the President appointed as such

committee Senator Priebe of Kossuth, Senator Bergman of Osceola, Representative Middleswart of Warren and Representative Crabb of Crawford.

The committee escorted the Pioneer Lawmakers to the well of the House chamber.

President Neu presented Senator C. Joseph Coleman, President pro tempore of the Senate, who welcomed the Pioneer Lawmakers on behalf of the Senate as follows:

Mr. President, Members of the House and Senate, Pioneer Lawmakers, Honored Guests, Ladies and Gentlemen.

It is indeed a rare privilege today for me to welcome the members of the Pioneer Lawmakers Association. What makes it a unique occasion is because in extending a welcome to you, the Pioneer Lawmakers, you extend a welcome to me. In a research of past programs I could find no precedent for such a reciprocal welcome.

In the past twenty years I have seen many changes. Today we have much concern about pollution, the latest being noise pollution. I was initiated into my first session by an airplane buzzing the capitol for four hours but having no contest with the lobbyists sitting on the floor behind the senators. All this amidst the efforts of the senators to be heard without a sound system.

We have progressed from triangular pieces of oleo to multi—angular pieces of olio representation.

Twenty years ago we confirmed gubernatorial appointments in executive session. Ten years later in 1967 we did this in open session. Today we do it with "en bloc" confirmations.

We have progressed from Buster the "Papa Bear" to, in as I look over the members of the House, the "Barely Papas"!

Almost twenty years ago Judge McManus was the first Lieutenant Governor to claim his wings were clipped before he learned to fly. Lieutenant Governor Neu has also complained his plumes were plucked or is the word "plums".

It has been a delightful and eventful twenty years almost like the expression, some of you have heard before, of one former legislator — "It's been the longest convention I ever attended".

So in the manner of the Senate — I say to you — it is a pleasure to welcome you today to the Iowa Legislature and hope that your visit will be both enjoyable and educational and invite you to come back again.

President Neu presented Representative Carl V. Nielsen, Speaker pro tempore of the House of Representatives, who welcomed the Pioneer Lawmakers on behalf of the House as follows:

Mr. President, Mr. Speaker, Members of the Pioneer Lawmakers Association of Iowa, fellow members of the Sixty-seventh General Assembly, Ladies and Gentlemen:

I have been asked on behalf of the members of the House of Representatives to welcome back the Pioneer Lawmakers and believe me—you are very, very welcome and I am honored to express that welcome to you.

In your days here in these chambers and in the Senate, you were a part of making laws, adding to customs and traditions that have been passed down to us. When I was asked to talk to you for a few moments today I looked back over the years via the journals endeavoring to gain guidance as to what others who have addressed you have spoken about.

As in years past, we are today faced with demands that we must do something about; taxes, we must do something about our roads which are deteriorating, our bridges, also our health care costs which are soaring, our prisons are overcrowded, etc., etc. These issues are not new, nor is the degree of difficulty in solving them, and just as you did we will endeavor to do our best to provide solutions, and will probably go home—not totally satisfied with our efforts.

Others may disagree but after considering all which has gone on before it is my opinion that the single greatest legacy which those who served here before have passed on is the unquestioned integrity of the membership of this body. That unquestioned integrity cannot be legislated, it cannot be bought, it does not come about because of news releases, but rather it is earned.

You earned that reputation as our predecessors and I thank you for it and think we are unanimous in that thanks. It is one of the things we inherit that makes this job tolerable. It is certainly one of the things which must be closely guarded so that others may be elected to a body which has such a high standing. We thank you for the work which you did which gave us a base to work from. We thank you for your continued interest in us and the legislative process which you exhibit by your presence today and we invite you to return again.

Again, welcome to the House.

President Neu presented the Honorable Wendell Pendleton who responded to the welcome.

Mr. Pendleton recognized the Honorable George O'Malley and requested he escort to the well of the House for recognition Miss Lillian Leffert and Mrs. Edna Gillespie, who by a unanimous resolution duly adopted, were awarded honorary membership in the Pioneer Lawmakers Association.

Miss Leffert who served as secretary to the judicial committee in 1919, retired as legal counsel of the House of Representatives in 1974, after fifty-five years of service to the State of Iowa.

Mrs. Gillespie began her service to the State of Iowa in the Senate in 1929 retiring as assistant secretary of the Senate and journal clerk in 1967, after thirty-eight years of service.

The joint convention rose and expressed appreciation to Miss Leffert and Mrs. Gillespie for their years of service.

Mr. Pendleton then addressed the joint convention as follows:

Lieutenant Governor, Mr. Speaker, Honorable Senators and Representatives and Ladies and Gentlemen.

On behalf of my Pioneer Colleagues let me say for all of us that it is a most pleasant occasion to be with you in this great chamber where history is made. We warm to your welcome and are thankful that the present and future of our great state is in such good hands.

Senator Coleman, while still a relatively young man, is an esteemed member of our association and we acknowledge additional pleasure because of his words of welcome as well as those of Representative Nielsen.

Every elected official of the State of Iowa automatically becomes a member in our association on the twentieth anniversary of the commencement of his or her service to the State of Iowa. We have a biennial meeting such as this every two years and it affords the legislators of bygone years an opportunity to get together, to reminisce and to enjoy the fellowship of those of you who are the present day stewards of the lawmaking arm of our government.

As members of the Pioneer Lawmakers Association, we look forward to this meeting with anticipation and appreciate your hospitality in affording us the opportunity to share a day with you.

The experience of being a legislator, which seems so frustrating at times, will be looked back upon by you, as it is by all of us who have served in other years, as one of the most rewarding that life can offer. It is a rare opportunity to serve your fellow citizens and to help shape the future progress of your state and the destiny of its people. I remember coming down here for the first time in 1951, four years out of law school and five and a half years out of the Marine Corps. The holdover Senators were paid \$1,000.00 for the session, the rest of us \$2,000.00. Many of the lawmakers were guilty of nepotism by employing their wives as their clerks. I was guilty. It was the only way I could afford to serve and my beautiful wife, Pheraby, proved to be my greatest asset.

This great chamber brings back the nostalgic memories of bills passed and bills lost. Hearing the Speaker recognize the Gentleman from Buena Vista was a source of great pride and challenge to me. We all look back on the good old days and the opportunity of service.

It is customary for the President of the Pioneers to make a short address with the principal address to follow. Two years ago, our colleague, Andrew Frommelt of Dubuque, addressed the general assembly on the desirability of preserving the citizens oriented legislature rather than a professional organization. If you will indulge me, I hope to make a few observations in a general way concerning our great American heritage and the inherent dangers of inroads to our way of life.

From an economic standpoint, we can take great pride in the strength of our country built on free enterprise. We must cherish this accomplishment and not seek extreme changes which endanger our free society. We must reward those who labor and we must not hold out premiums to able-bodied freeloaders.

Our government spending must be carried forward with wisdom and concern for the tax payers. We must strive for efficiency and productivity from our civil employees. Taxes must be structured to fall fairly on the people without destroying incentives and the attractiveness of Iowa for new industries. The test of a good legislative body is not necessarily the number of bills it passes but rather it is the manner in which the body responds to the needs of the people. Someone once suggested that for every new law we put on the books, we should take two old ones off. This observation was frivolous I am sure, but the old saying that "they who govern less, govern best" has some merit to it.

In the arena of criminal law, we should cherish our system which holds a person to be innocent until proven guilty beyond a reasonable doubt. Surely we are not ready for the English system which shifts the burden of proof to the accused and holds that a person is guilty until that person proves his or her innocence. The constitutional guarantees of individual rights protects us from a police state. We must not condemn our courts for upholding these

cherished American rights because the alternative would be abuse of individual liberties and would pave the way to tyranny. Many constitutional safeguards provide a shield for the guilty but we can't disregard our constitution without sacrificing the rights of the innocent as well. The Miranda type decisions are blown up out of proportion. A convicted felon gets a new trial and the hue and cry goes out that the courts are turning loose another rapist or a murderer. The media plays up the gory details of the crime but does not fairly follow the ultimate disposition of the great majority of these cases which result in conviction within the rules of competent evidence on retrial.

Many attacks have been made upon the adversary system which prevails in our courts on civil matters. Many of the critics are members of self-serving pressure groups of one kind or another. The common law, the decisions of the courts, has evolved out of human experience and gains its wisdom from a variety of fountains. One is precedent, another is need, and yet another is common sense. As the needs of people become greater and the complexities of modern civilization increase, the common law must change. It has done so but at a moderate and well-reasoned pace. The ambit of liability has continued to grow in the arena of adversary proceedings. The islands of immunity from responsibility have been largely eliminated and wrongdoers are held to answer in damages or are made to redress others for their wrongs. Doctors, lawyers, accountants, architects, engineers and all professional persons selling services are held to a standard of reasonable care free of negligence as well as hospitals, restaurants, manufacturers or others and a failure to observe the standard of due care exposes one to liability to the injured victim. In automobile crash cases, we heard much about "no fault" and great pressure was brought to bear by the media and the insurance industry. An attempt was made to sell it on the premise that it would cut insurance costs. This has proved to be a false premise and you lawmakers are to be congratulated for saving Iowans from this ill-conceived invasion of their rights for reparations from those who negligently maim them or kill their loved ones.

Our system is working and the recent reforms in our judicial process is paying off. Good salaries attract good judges and good judges provide justice for all the citizens of Iowa.

With regard to products liability, we have seen the emergence of the doctrine of "strict liability". This doctrine in capsule form is that when a manufacturer puts a defective product in the stream of commerce, the manufacturer assumes responsibility for damages caused by the defective product which are reasonably foreseeable. Is this so bad? Critics of the law complain of the high cost of insurance to respond in damages. What can be said on the other side in support of the consumer? First, manufacturers are becoming more responsible and careful of the products they sell and distribute. Faulty designs that are dangerous are corrected. Quality of products is monitored and controlled. Secondly, the crises is not real. In a

forty-eight page memo to the White House, Product Safety Letter reported, the Commerce Department—sponsored task force said there is a lack of facts to assess the nature and degree of the problem. "Our study does not suggest that there is no nationwide multi-industry product liability 'crisis.'" The study did recognize that a number of smaller business are having a difficult choice as to whether to go without product liability insurance or to purchase it at a sharply increased premium. The task force called for avoiding specific legislative recommendations until additional studies are completed and all information is carefully evaluated. Consumer advocate Ralph Nader told a Senate committee that he believes the insurance industry is inflating estimates of products liability because it is "trying to stampede state legislatures into a vast curtailment of product liability rights" of consumers. I trust you will not let this happen in Iowa and that new legislation in this modern field of law will be approached with caution and care and with regard for the public interest and at the same time recognizing that a just solution must be found for the makers of products.

Please accept my remarks as those of a lawyer and a Pioneer Lawmaker who still believes in the public interest and the solid future of our great state. Iowa must and will rise to the challenge of helping to feed a hungry world and to keep a favorable balance of trade for the United States of America.

President Neu then presented the Honorable Edward J. McManus, Chief Judge, Northern District of Iowa and former Lieutenant Governor, who addressed the joint convention, as follows:

Members of the Sixty-seventh General Assembly, fellow Pioneer Lawmakers and friends:

Some time ago when Wendell asked me to say a few words I immediately accepted with pleasure for a number of reasons.

1. Hopefully it would be my first opportunity in some time to hear a lawyer say something nice about a judge.

2. It was a chance to escape briefly from my judicial white tower and mingle with old friends and real people.

3. Finally, for the honor and joy of returning after almost 20 years to these hallowed chambers and visiting with the Iowa legislature that I so dearly revere, admire and love.

Rest assured my affection for this body is not a summer romance — both my grandfather and great grandfather also served in these halls.

Forgive me for staring—after my experience here in the 50's, my old eyes didn't believe they'd ever have the pleasure of seeing what a Democratic majority looked like.

Every session seems to pick up a nickname—we've had the colored oleo session, the mourning dove session—from what I've read recently in the Register and Gazette the Sixty-seventh will be known as the "Fun with Dick and Art" session. Your good humor has been refreshing.

I'd like to leave a thought or two with you this p.m. about this business we're all in together; the law business. You the legislators are in manufacturing, you make the law. The practicing lawyers are in sales—selling their particular versions of the law. My colleagues and I in the judiciary are in purchasing, we buy that version of the law that seems most consonant with a fair and just interpretation of what you intended the law to be.

There is one aspect of our law business perhaps worthy of comment and for which I have no answer. It is the flood of new laws and court decisions with which all citizens must cope.

You have heard the old expression: "We are a government of laws not men". You had better believe it. Our ships of state float on a sea of laws. And we citizens are all swimming (and hopefully not drowning) in that sea of laws.

I don't like statistics any better than most people but a few might illustrate this aspect of our law business. Take the Code of Iowa, for example, - in 1968 there were 2600 pages in the Code of Iowa; in 1975, not quite twenty years later, there are 3600 pages in the Code of Iowa. So you can see, in this brief period, we have added 1,000 pages to the Code of Iowa.

The Federal Supplement in 1932 started with Volume 1; in 1962 the number was 200; and today after fifteen years on the bench, and I don't attribute this all to my activities, the number is 426. This is more than double and beside that the volumes have gotten thicker each year. The Federal 2d Reports started with Volume 1 in 1925; in 1962 they were at Volume 300; today in 1977 they are at Volume 550.

There used to be a little pamphlet around the legislature that was given to freshman legislators and school children called "How a Bill Becomes a Law". When we contemplate the impact of all these laws on our people and their purses, perhaps a second edition might be in order entitled "How a Law Becomes a Bill".

Recently Chief Justice Burger of the Supreme Court in a little different context called on Congress to adopt a "Judicial Impact Statement" prior to passage of legislation to determine its impact on the judiciary as an added workload. Maybe a "Public Impact Statement" might be adopted by all

legislative bodies prior to legislating to determine the impact of new laws on the public. Perhaps fewer and shorter sessions — computers — I have no answer to this problem of our law business, but let's not lose sight of it.

While I have you as a captive audience I thought I'd exercise my right of petition and ask you for a small favor for the federal courts in Iowa. We are confronted with a recurring problem of having to decide novel questions of Iowa law that have not been settled by the Iowa Supreme Court. Federal judges have no special expertise in this area and in truth engage in refined guesswork often at the delay, expense and confusion of the litigants. Since 1961, thirteen states have adopted a procedure called certification of questions of law which helps solve this problem. This procedure enables the federal courts to ask the state supreme courts for final answers to these uncertain questions of state law. In fact in a 1974 case, the U.S. Supreme Court in a unanimous opinion by Justice Douglas (which is quite a feat in itself) warmly endorsed this procedure by saying: "It does, of course, in the long run save time, energy and resources and helps build a cooperative judicial federalism".

If you get the time, we'd greatly appreciate it.

Finally, I want to pass on to you a law that should be invoked more frequently by all of us in the executive, legislative and judicial branches of government and especially by after luncheon speakers. I came across it in a headline in a newspaper in Greece last year while my wife and I were there on a visit. The news article was a dispatch from the United Nations giving an account of the remarks of the presiding officer at the opening of the Third International Conference on the Law of the Sea. He called for an end to long-winded speeches and dreary monologues and to get on with negotiations. The headline in the Athens paper was: "First Sea Law: Cut Out the Bull—".

In deference to this profound legal principle I say thank you and 'till we meet again.

Fitzgerald of Webster moved that the joint convention be now dissolved.

The motion prevailed.

The House reconvened, Speaker Cochran in the chair.

 19 of the hospitals serving the area in question, that
 20 the hospitals are agreed that the proposed new or
 21 changed institutional health service will not be
 22 injurious to any of them."

27 EXPLANATION

28 The appropriations contained in this Act to the
29 department of social services for the 1977-1978 fiscal
30 year are intended to provide for the continuation
31 of current programs with exceptions as indicated by
32 specific provisions contained in this Act.

33 1. The general assembly intends that the department
34 of social services shall prepare and submit to the
35 joint budget subcommittee on social services an
36 analysis of the three juvenile institutions at Eldora,
37 Mitchellville, and Toledo and a proposal to combine
38 these three institutions into two shall be made.
39 It is intended that the department shall consider
40 the report and recommendations of the Advisory
41 Commission on Correctional Relief in preparing its
42 analysis and proposal.

43 2. It is the intent of this bill that during
44 fiscal year 1977-1978 the Clarinda Mental Health
45 Institute shall begin to modify its focus to emphasize

46 the following two goals:

47 a. Provide comprehensive in-patient mental health
48 care for a residential population of approximately
49 200, reflecting an estimated decrease in in-patient
50 population.

Page 9

1 b. Promote development of community-based services
2 through mental health centers in southwest Iowa.

3 There may be changes in personnel requirements
4 and financial arrangements, and it is intended that
5 the department shall submit a cost estimate to the
6 joint budget subcommittee on social services by January
7 15, 1978 on any necessary changes in funding to
8 implement the new goals.

9 3. It is the intent of this bill, in consideration
10 of the Iowa State University ADC study, that payments
11 for persons on the aid to families with dependent
12 children program shall be set as follows:

13 a. 2 person family \$257

14 b. 3 person family \$318

15 c. 4 person family \$369

16 d. All other cash grants are continued at their
17 present levels including special needs.

18 It is provided in this bill that the AFCD program
19 shall no longer include children 18 years of age or
20 older.

21 4. It is the intent of this bill that the
22 department shall increase the maximum allowable
23 reimbursement for ICF services under medicaid from
24 \$19.00 to \$19.50, and that the department shall
25 increase the fee paid to pharmacists under medicaid
26 from \$2.15 to \$2.55.

27 5. It is the intent of this bill that the
28 department shall resist the implementation of the
29 federal government spouse income regulation
30 which would allow spouse income under certain circumstances
31 to be excluded from the determination of income for
32 ICF medicaid eligibility purposes."

33 2. Title page, line 3, by inserting after the
34 word "services" the words "and to fund capital
35 improvement projects including capital improvement
36 projects recommended by the advisory commission on
37 corrections relief".
