**BILL SIGNED BY THE GOVERNOR**

A communication was received from the Governor announcing that on March 28, 1980 he approved and transmitted to the Secretary of State the following bill:

Senate File 500, an act relating to the franchise tax on financial institutions, its imposition and rates, the definition of net income, providing a corresponding adjustment in interest rates for government bonds and making certain provisions of the Act retroactive.

**GOVERNOR'S ITEM VETO MESSAGE**  
(Senate File 2241)

March 28, 1980

The Honorable Melvin D. Synhorst  
Secretary of State  
State Capitol Building  
L O C A L

Dear Mr. Secretary:

I hereby transmit Senate File 2241, an act relating to appropriations for the fiscal years beginning July 1, 1979 and 1980, by supplementing and adjusting appropriations and amending restrictions contained in the Acts of the Sixty-eighth General Assembly, 1979 Session, and making additional appropriations.

Senate File 2241 is approved March 28, 1980, with the following exceptions which I hereby disapprove.

I am unable to approve the item designated as Section 19 which reads as follows:

Sec. 19. The appropriation from the general fund of the state to the department of social services made for the fiscal year beginning July 1, 1979 and ending June 30, 1980 by the Acts of the Sixty-eighth General Assembly, 1979 Session, chapter eight (8), section eight (8), subsection four (4), is reduced by six hundred ten thousand (610,000) dollars.

I am unable to approve the item designated as Section 30 which reads as follows:

Sec. 30. Notwithstanding the provisions of section eight point thirty-nine (8.39) of the Code, funds appropriated under sections eighteen (18) and twenty (20) of this Act shall not be subject to transfer to any other department, institution or agency. Any unencumbered or unobligated balance of any appropriation made under sections eighteen (18) or twenty (20) of this Act which exists on June 30, 1980 shall revert to the fund from which it was appropriated.

As reasons for this disapproval I submit the following:

The purpose of Section 19 of this bill is to reduce the FY 1980 medical assistance (Title XIX) appropriation by \$610,000. The Department of Social Services believes that such a reduction can be made without adversely affecting this medical assistance program.

On the other hand, this bill does not appropriate sufficient funds to cover the anticipated increase in the Aid to Dependent Children caseload. This deficiency can be partially met by retaining the \$610,000 in this bill and making a fund transfer under Section 8.39 of the Iowa Code. The Chairmen of the Social Services Appropriations Subcommittees concur in this course of action.

While as Governor I have used this transfer authority sparingly and have not used it at all during this fiscal year, I do believe it should be employed on occasion when a mandated program must be funded and the appropriation is insufficient. This option needs to be available in this case.

It is difficult to estimate accurately the costs of the medical assistance and the Aid to Dependent Children programs. The legislature has tended to regard these two appropriations as though they were standing unlimited appropriations due to the difficulty in estimating their final costs. While it is always hoped that adjustments at the end of the year will not be necessary for the ADC and medical assistance programs, it seldom happens.

Since the time I submitted our budget recommendations to the General Assembly and the Social Services Appropriations Subcommittees acted upon the requests, the Department of Social Services has reported that the current caseload is 102,300, which is 4,000 persons more on a per-month average than was estimated in January. In addition to the \$4,570,000 contained in this bill, the Department of Social Services estimates that slightly more than \$1,000,000 will be necessary to maintain current benefit levels for the remainder of this fiscal year.

The under-funding in ADC and the surplus in medical assistance just discussed underscores the need for flexibility in the executive branch once legislative appropriations have been made. Section 30 of this bill restricts the Governor and State Comptroller's authority to transfer funds from one agency to another when the original appropriation has proven to be insufficient to meet the legitimate expenses of the receiving agency. The transfer authority provides flexibility to make necessary adjustments when unforeseen or changing circumstances arise.

Previously, I have vetoed limitations on the transfer authority. The law contains safeguards giving the legislature an opportunity to review and comment on any proposed transfer. We have accepted and respected such comments, and, indeed, several transfers have been modified or eliminated following receipt of recommendations from legislators.

In 1969 the people of this State voted to amend the Constitution of the State of Iowa to allow the Governor to "disapprove any item" of an appropriation bill. Since then there have been several court cases and a number of Attorney General opinions which have attempted to demarcate this gubernatorial authority. Throughout those discussions runs the thread of separability, that is, will the vetoed item alter positively or negatively the function of the appropriation to which it is purportably attached? If there remains no "scar tissue" from excising such a provision, then assuredly it is an item within the meaning of the Iowa Constitution.

In this bill, Section 30 is totally unrelated to Sections 18 and 20. Its deletion will not in any manner effect the purposes of those appropriations. While we do not anticipate making transfers from the appropriations affected by Section 30, nonetheless, the restriction violates the transfer authority established by law and sets a bad precedent. I would hope that the legislative branch would want to work with the executive branch in determining budget policy without circumventing a statutory authority allowing limited flexibility which is indeed desirable to implement the budget effectively.

For these reasons, I hereby disapprove these items in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of Senate File 2241 are hereby approved this date.

Sincerely,

Robert D. Ray  
Governor

4 "Sec. 3. Chapter eighteen (18), Code 1979, is  
5 amended by adding sections four (4) through seven  
6 (7) of this Act.

7 Sec. 4. NEW SECTION. PURPOSE. The general  
8 assembly declares that it is the policy of the state  
9 wherever practical to conserve and protect natural  
10 resources and to encourage the use of recycled  
11 materials. It is the purpose of this Act to increase  
12 the use of recovered materials by providing a market  
13 for them and by setting an example for industry and  
14 local governments to follow. Mandated purchases of  
15 recycled materials on the state level are an extension  
16 of procurement policies outlined in the federal  
17 Resource Conservation and Recovery Act of 1976.

18 Sec. 5. NEW SECTION. DEFINITIONS. As used in  
19 this Act unless the context otherwise requires:

20 1. "Paper products" means paper and woodpulp  
21 products.

22 2. "Recycled paper products" means paper products  
23 composed by weight of at least fifty percent secondary  
24 waste and ten percent postconsumer waste.

25 3. "Postconsumer waste" means a finished item  
26 that would normally be disposed of as a solid waste  
27 having completed its life cycle as a consumer item.

28 4. "Secondary waste" means fragments of products  
29 or finished products of a manufacturing process that  
30 has converted a virgin resource into a commodity of  
31 real economic value. "Secondary waste" includes  
32 postconsumer waste, but does not include mill broke,  
33 wood slabs, chips, sawdust or other wood residue from  
34 a manufacturing process.

35 Sec. 6. NEW SECTION. PURCHASE OF RECYCLED  
36 MATERIALS.

37 1. The department shall establish procedures and  
38 bid specifications for state purchases of paper  
39 products to give preference, when feasible, to the  
40 purchase of recycled paper products.

41 2. Notwithstanding the provisions of section  
42 eighteen point six (18.6), subsection one (1) of the  
43 Code, the department shall give preference to the  
44 suppliers of recycled paper products if the bids of  
45 the suppliers do not exceed by more than five percent  
46 the lowest bid or price quoted by suppliers offering  
47 nonrecycled paper products. This preference require-  
48 ment applies for five years beginning on the effective  
49 date of this Act.

50 3. The director shall review the bid specifications

HOUSE CONCURRENT RESOLUTION 125  
By Committee on Judiciary and Law Enforcement

1     *Whereas*, there is growing public concern that con-  
2 victed criminals receive more assistance and care than  
3 do their victims; and

4     *Whereas*, a program of restitution and victim com-  
5 pensation would be of benefit both to the victims of  
6 crimes and in the rehabilitation of the criminal; and

7     *Whereas*, the development of a program of restitution  
8 and victim compensation requires study and the input  
9 of various public and private sources; *Now Therefore*,

10    *Be It Resolved by the House of Representatives*,  
11 *the Senate Concurring*, That the legislative council  
12 is urged to appoint an interim joint subcommittee  
13 composed of members representing both political parties  
14 of the judiciary committees of both houses of the general  
15 assembly to study the need for a state program of restitu-  
16 tion and victim compensation and to report its findings  
17 with appropriate legislation to the judiciary committees,  
18 the legislative council and to the general assembly.

Laid over under Rule 30.

HOUSE RESOLUTION 108  
By Van Maanen, Dieleman, Jay, Larsen and Davitt

1     *Whereas*, ninety-five percent of the energy used in  
2 Iowa is imported; and coal is Iowa's most abundant energy  
3 resource and is estimated at over three billion tons of  
4 recoverable coal, enough to last the state for hundreds  
5 of years; and

6     *Whereas*, the past seventy years have seen a ninety  
7 percent reduction in the production of Iowa coal result-  
8 ing in the decline of Iowa's coal industry to the point  
9 of extinction; and

10    *Whereas*, thirteen million tons of coal were used in  
11 Iowa in 1979, but only seven percent was Iowa coal; and

12    *Whereas*, the current energy crisis necessitates the  
13 establishment of efficient energy production priorities  
14 which emphasize the utilization of local energy sources  
15 instead of furthering the reliance on unstable energy  
16 sources from unfriendly nations; and

17    *Whereas*, the application of federal air quality standards  
18 threaten further economic disruption and unemployment to  
19 significant portions of Iowa; and

20    *Whereas*, the importance of air quality for Iowa's  
21 citizens is well recognized, it should also be recognized  
22 that data indicates that previous federal scientific  
23 studies upon which air quality standards were set have

24 proved to be vague; *Now Therefore,*

25 *Be It Resolved by the House of Representatives, That*  
26 the United States Environmental Protection Agency  
27 be urged to take prompt action to reevaluate all sulfur  
28 air quality studies and standards affecting Iowa; and  
29 *Be It Further Resolved, That the state of Iowa through*  
30 the Iowa Department of Environmental Quality, working

**Page 2**

1 with the United States Environmental Protection Agency,  
2 a representative from the governor's office, and other  
3 interested parties, reevaluate by September 1, 1980  
4 Iowa's air quality regulations to allow for the burning  
5 of considerably more Iowa coal in an environmentally  
6 acceptable manner; and  
7 *Be It Further Resolved, That a copy of this resolu-*  
8 *tion be forwarded to the President of the United States,*  
9 *to the United States Environmental Protection Agency,*  
10 *to the President of the United States Senate, to the*  
11 *Speaker of the United States House of Representatives,*  
12 *and to each member of Congress from Iowa.*

Laid over under Rule 30.

SENATE CONCURRENT RESOLUTION 113

By Schwengels, Bergman, Gallagher, Hester,  
Hulse, Miller of Cerro Gordo, Miller of  
Marshall, Priebe, Van Gilst and Waldstein

- 1 *Whereas*, erosion of soil from cropland in Iowa is
- 2 occurring at an estimated annual rate of nearly ten

3 tons per acre, and continuation at this rate of soil  
4 loss will ultimately be economically disastrous to  
5 Iowa agriculture; and

6 *Whereas*, hearings held around the state during the  
7 fall of 1979, by the Soil Conservation Laws Joint Sub-  
8 committee of the Agriculture and the Natural Resources  
9 Committees of the Senate and House of Representatives,  
10 demonstrated considerable support among farmers and  
11 others for greater efforts to end excessive soil erosion,  
12 both to preserve the fertility of Iowa cropland and to  
13 reduce pollution of the state's rivers and lakes; and

14 *Whereas*, it should be the policy of the State of Iowa  
15 to provide soil conservation education at all levels, to  
16 provide incentives for good soil management, and to pro-  
17 vide needed technical assistance, all with the objective  
18 of bringing erosion of topsoil from all land within non-  
19 depleting levels by the year 2000; and

20 *Whereas*, the objective just described may be referred  
21 to as the "Iowa Soil 2000" goal; *Now Therefore*,

22 *Be It Resolved by the Senate, the House Concurring*,  
23 That the General Assembly endorses the Iowa Soil 2000  
24 goal and adopts, as guidelines against which pertinent  
25 legislation should be evaluated, the following series  
26 of intermediate objectives as steps toward achievement  
27 of the Iowa Soil 2000 goal:

28 A. Five-year objectives

29 1. To accelerate the availability of soil survey  
30 mapping data.

**Page 2**

1 2. To provide each farm unit with a conservation  
2 folder by 1985.

3 3. To control erosion of the most fragile soils,  
4 which under present agricultural use and management  
5 will be depleted in 20 years.

6 4. To reduce excessive soil erosion on all agri-  
7 cultural lands by 40%.

8 5. To control nonpoint source pollution in at least  
9 twelve high priority watersheds, based on the Iowa  
10 agricultural nonpoint source pollution plan.

11 B. Ten-year objectives

12 1. To require each landowner or operator to keep his  
13 or her conservation folder current with computed soil  
14 loss rates provided by the local soil conservation  
15 district.

16 2. To control erosion on soil which under present  
17 agricultural use and management will be depleted in 40  
18 years.

25 1. To control erosion on all agricultural land at a  
26 nondepleting level.

27 2. To control nonpoint source pollution in at least an  
28 additional fifty high priority watersheds, based on the  
29 Iowa agricultural nonpoint source pollution plan.

30 D. Twenty-year objectives

**Page 3**

1 1. To maintain a nondepleting level of soil loss  
2 on agricultural land and control sediment production  
3 on all Iowa land.

4 2. To continue to develop and install cost effective  
5 soil conservation practices so that soil erosion is held  
6 at a nondepleting level.

9 plan.

President Branstad presented Governor Robert D. Ray who delivered the following special budget message:

Mr. President, Mr. Speaker, Mr. Chief Justice, Justices of the Supreme Court and members of the Appellate Court, State Officials, Senators and Representatives, Distinguished Guests, and Friends:

For the record, today is Wednesday, not Thursday, which means this is not the day of the annual Governor's Prayer Breakfast.

Scheduling this speech one day before the Prayer Breakfast was not deliberate, although it may be appropriate!

On the second day of this Second Session of the Sixty-eighth General Assembly, I presented to you and to our Iowans my report on the Condition of the State for 1980. I emphasized in my remarks that Americans, and Iowans, "...are a people angered and upset about inflation — and its impact on our elderly, farmers, working men and women — on all of us." That feeling is even more true today.

Since January, the national economy has moved from bad to worse. Today we have nearly twenty percent inflation, and no comfort. Today we have twenty percent interest rates, and little credit. And today, thanks to the federal administration and Congress, we have one hundred percent frustration and a lot of confusion.

We balance our budgets here in Iowa, but we do not live in a vacuum. We have been hurt by the grain embargo. We have been hurt by disastrous federal farm policies. We have been hurt by hyper-inflation — the highest since the end of World War II.

Our present economy was "made in Washington." And it is now being "broken" in Washington, and is spinning into a recession — with resulting ravages rippling all the way from the Potomac to the Mississippi and Missouri, and the land in between, our home, Iowa.

Our Governor's Economic Advisory Council met one week ago today and shared some gloomy news. They noted the embargo, depressed grain markets, and a twenty-eight percent drop in hog prices. They cited skyrocketing prices for fuel, fertilizers, and other farm supplies. They learned that tax receipts from farmers are already down some sixteen point five percent. They forecast an unprofitable year and even some farm bankruptcies. And, it's painful to watch an Iowa farm family forced to sell their equipment, livestock and land and leave their lifestyles.

Our experts saw slower growth in corporate income, higher unemployment, and less construction.

The bottom line is predictable, though indeed not very pleasant. Because of federal government decisions, Iowans will have a tougher time making ends meet in the months ahead — and so will state government. State revenues were up fourteen point one percent during fiscal year 1979. This fiscal year, it is estimated they will increase less — down to nine point nine percent. Next fiscal year, six point one percent.

Iowa's budget is being further squeezed by the unfortunate loss of federal revenue sharing. This program worked. This program cost virtually nothing to run. This program helped provide tax relief here in Iowa. Yet now, it is being dropped. At long last, there is serious talk about balancing the national budget. But, the burden is being shifted to the states. Iowa's budget will lose \$14 million during fiscal year 1981, and \$28 million each year after that.

Some suggest the end of federal revenue sharing should cause the demise of state revenue sharing. I reject this notion. We will not merely pass this loss on. Local units of government are also hard-pressed today, and funds for county and municipal assistance will be forthcoming next year, and I trust, in the future.

At the state level, the loss of revenue and of revenue sharing will have a significant impact. We project that total revenues will be down \$33 million from earlier estimates for the current fiscal year and \$62 million during fiscal year 1981 — a drop in anticipated income for the entire biennial of \$95 million. Because of these numbers, we are revamping our biennial budget.

My legislative program identified several important priorities in January. They are no less important today. But what is absolutely imperative is that we preserve a

budget that is balanced, a budget with a workable balance, and a budget which still considers the taxpayer with some tax relief.

Obviously, our work this past week has not been easy. We have seen the problem and made the tough choices. I am here this morning to outline them for you:

1. We will immediately halt the construction of capital projects totaling \$22 million. Needed building and remodeling will continue only when we can pay the bills.
2. As of today, I am ordering a freeze in state hiring. Even though the latest EEO report shows that the number of full-time, permanent employees on the central payroll is down, we will place a lid on employment. And filling a vacancy will have to be reviewed by the Comptroller and the Governor's Office. Additionally, I am directing all departments and agencies to further restrain purchasing and discretionary spending. And I would expect the other two branches of government to follow this practice.
3. I ask the legislature to provide a more realistic measurement of the cost of living for the School Foundation Plan and for income tax indexing. The GNP deflator should replace the CPI for these purposes.
4. We need to postpone for one year any increase in the personal property tax phaseout.
5. We will defer or drop two-thirds of the supplemental appropriations advanced in January. These cuts total some \$40 million, and are detailed in the information you will receive. These cuts are shared across-the-board. No part of the executive branch was exempt.

The supplementals that remain are not only relevant, they are urgent. They include funding for some vital human services such as Aid for Dependent Children and Medicaid. They include funding for programs where a second-year appropriation was not passed in 1979. For example, this revision continues the \$800,000 requested earlier for Eldercare, to give essential services to senior Iowans who are trying to live on fixed or retirement incomes. And, some remaining supplementals include funding for services which are needed more during strained, tough economic times.

In January, I identified soil conservation as a key priority and recommended a sixty percent increase in funding. I remain convinced this is a priority. Even though we cannot provide as much as I originally hoped, I continue to press for more dollars for Iowa's soil and Iowa's future.

My efforts to obtain a two percent salary increase for state employees were based on my belief this was reasonable and fair. I must, however, recognize that if money is not available, this cannot be realized. I regret this move because state workers, just like their neighbors, are victims of inflation.

6. By not giving extra property tax relief and moving to the seventy-eight percent School Foundation level, it will be possible to continue income tax indexing. The alternative would be to forego indexing, but we would then lose the safety valve in the event of a deeper recession. It is also essential that the school aid formula be modified for future planning.

The state has furnished substantial property tax relief in recent years through the School Foundation Plan. And, during this session, further property tax relief has been provided for commercial, industrial and utility property by placing assessment limits similar to those on farm land and residential property.

There was good reason to provide this tax relief, and other kinds of tax relief already offered to Iowans, but there is a limit to what we can afford and what we can do.

Some of you are discussing changing the inheritance tax. There is merit to this idea, but if we don't have the money, we cannot do it.

You will recall I suggested removing the sales tax on machinery and equipment to stimulate new jobs. But again, as valuable an idea as it is, if we don't have the money, we cannot do it.

We can give additional benefits to workers covered under IPERS, but the increase must come from the pension fund itself, as I earlier recommended.

The revisions to the budget I submit today should leave the General Fund with an unobligated balance of \$71.8 million as of June 30, 1980, and \$63.7 million on June 30, 1981, just slightly above the minimum of \$60 million.

This budget is tight. As I said in January, "There is a lot more we would like to do for Iowa — but, extra money is scarce." And that is especially so today.

I ask you to study these budget changes carefully. And I implore you to act with insight and not by impulse.

We have shown some good judgment in the past. We suffered an economic downturn ten years ago and we endured. Indeed, we were able to move Iowa into the forefront as a national leader in so many ways during the 1970's.

Today, in the fourth month of the new decade, Iowa remains resilient, progressive and poised for the 1980's. And we have talented people working on challenging issues such as energy, transportation, and so many more.

We must always look for ways to keep giving Iowans the good government they want and deserve — efficiently and effectively. The men and women who served on the Governor's Economy Committee '79 showed us a number of ways to do just that. Worthy ideas are being implemented in the executive branch. Others require your approval, and I ask that you review these ideas this session, this summer and this fall.

It was Anatole France who said, "The future is hidden even from the men who make it."

What you have been doing this session, and what you will be doing in these closing weeks is helping to shape the future of Iowa. And, just as we could not foresee in January all that is happening in April, neither can we now foresee with certainty everything that will happen in September, or next year, or the year after that. The economy could become worse. Hopefully it will get better.

The future is hidden, nonetheless we must go about our work — knowing we often have to be flexible, and appreciating we sometimes have to be patient.

Fortunately, we live in Iowa — a place where people cooperate to solve problems. That is our tradition — and that is the task we now face.

Let us show our Iowans, and ourselves, that we can still seize opportunities. If we do, our time this session will truly have been well spent.

Thank you very much.

Governor Robert D. Ray was escorted from the House chamber by the committee previously appointed.

Halvorson of Clayton moved that the joint convention be now dissolved.

The motion prevailed.

The House reconvened, Speaker Harbor in the chair.

The House stood at ease at 10:58 a.m., until the fall of the gavel.

The House resumed session at 11:59 a.m., Speaker Harbor in the chair.

On motion by Clark of Lee, the House was recessed at 12:01 p.m., until 1:30 p.m.

- 1     *Whereas*, the implementation of functional classi-  
 2 fication has taken place as of July 1, 1979 as directed  
 3 by Chapter 1108 of the Acts of the sixty-seventh general  
 4 assembly; and  
 5     *Whereas*, such implementation involves the transfer of  
 6 various highways and streets among the three jurisdictions;  
 7 and  
 8     *Whereas*, fuel tax increases and jurisdictional per-  
 9 centage allocations from the road use tax fund as provided  
 10 in Chapter 1108 of the Acts of the sixty-seventh general  
 11 assembly were based, in part, on the functional classifi-  
 12 cation in effect on January 1, 1973, on the number of  
 13 miles of highways and streets which were candidates for  
 14 transfer under that classification and on the highway and  
 15 street needs assigned to those transfers for each juris-  
 16 diction, as for example, effective January 1, 1973 the  
 17 counties would have a net gain of 431 miles of former  
 18 primary highways at an assigned annual increase in needs  
 19 of \$10.9 million; and  
 20     *Whereas*, since the passage of Chapter 1108 of the  
 21 Acts of the sixty-seventh general assembly, the diminution  
 22 in the road use tax fund has resulted in increased revenues  
 23 to the three jurisdictions of only about 50% of the amount  
 24 anticipated and, at the same time, the dollar needs'  
 25 amounts assigned to the transferred highways and streets  
 26 has increased dramatically due to inflation; while appeals  
 27 of the 1973 functional classifications that have already  
 28 been filed and are proposed to be filed could more than  
 29 double the net mileage of primary roads for which the  
 30 counties would be benefitted than was envisioned during  
 31 consideration of Chapter 1108 of the Acts of the sixty-  
 32 seventh general assembly; and  
 33     *Whereas*, the financial circumstances and the mileages

## Page 2

- 1 involved have changed substantially since Chapter  
 2 1108 of the Acts of the sixty-seventh general assem-  
 3 bly was passed to the point that those jurisdictions  
 4 receiving a net increase in mileage will find it  
 5 very difficult to provide necessary and desired ser-  
 6 vices to their respective systems of highways and  
 7 streets; *Now Therefore*,

8 *Be It Resolved by the House of Representatives,*  
9 *The Senate Concurring,* That jurisdictional transfers  
10 of roads or streets as required by Chapter 1108 of  
11 the Acts of the sixty-seventh general assembly be  
12 restricted to classifications of record as of January 1,  
13 1973 until the enactment of legislation which compen-  
14 sates state, county and municipal jurisdictions for  
15 additional highway, road or street needs resulting  
16 from such transfers; and  
17 *Be It Further Resolved,* That notwithstanding the  
18 foregoing, future transfers of jurisdiction should take  
19 place if agreements are entered into by the jurisdic-  
20 tional divisions of government involved in the transfer  
21 of such roads and streets.

Laid over under Rule 30.

HOUSE CONCURRENT RESOLUTION 129

By Egenes, Clark of Lee and Avenson

1 *Whereas,* the federal reserve board of governors  
2 through the authority granted to it by Congress has  
3 limited the interest rates that may be paid by member  
4 financial institutions on savings deposits through the  
5 passage of what is known as "Regulation Q"; and  
6 *Whereas,* the federal deposit insurance corporation  
7 through authority granted to it by Congress also limits  
8 the interest rates that may be paid by financial institu-  
9 tions which are not members of the federal reserve  
10 system; and  
11 *Whereas,* such action arbitrarily takes from the states  
12 the authority to establish rates to be paid on savings  
13 which would better respond to economic conditions within  
14 the individual states; and  
15 *Whereas,* action by the federal government has resulted  
16 in extremely high interest rates being charged to the  
17 public in order to borrow money, which is causing severe  
18 hardship to young families, the construction industry, and  
19 other business segments which depend upon the normal flow  
20 of consumer credit; and  
21 *Whereas,* if reasonable rates of return on savings within  
22 local financial institutions were authorized more deposits  
23 might be made within such financial institutions, which would  
24 then make available more funds to consumers and industrial  
25 segments and help alleviate the adverse financial conditions  
26 that presently exist; *Now Therefore,*  
27 *Be It Resolved by the House of Representatives, the*  
28 *Senate Concurring,* That the federal government is strongly  
29 urged to provide the necessary authority to the states to  
30 set their own interest rates that may be paid on savings

**Page 2**

1 deposited with financial institutions in order that  
2 the economic conditions within the individual states  
3 might be improved and better regulated; and  
4 *Be It Further Resolved*, That copies of this resolution  
5 be sent to the chairpersons of the United States Congress-  
6 sional Committees on Commerce, the board of governors  
7 of the federal reserve system, the federal deposit  
8 insurance corporation, and the members of the Iowa  
9 congressional delegation.

H—6072

1 Amend House File 2578 as follows:

2 1. Page 1, by inserting before line 1 the follow-  
3 ing:

4 "Section 1. Chapter four hundred twenty-two (422),  
5 Code 1979, is amended by adding sections two (2)  
6 through thirteen (13) of this Act as a new division.

7 Sec. 2. **NEW SECTION. DEFINITIONS.** As used in  
8 this division unless the context otherwise requires:

9 1. "Claimant" means an individual filing for  
10 credit under this division.

11 2. "Calendar year" means the calendar year  
12 immediately preceding the year in which the claim  
13 for credit under this division is filed.

14 3. "Family" means the claimant's spouse and any  
15 person related to the claimant or claimant's spouse  
16 by blood, marriage or adoption who is eligible to  
17 be claimed by the claimant as a dependent for the  
18 tax year.

19 4. "Tax year" means the tax year as defined in  
20 section four hundred twenty-two point four (422.4)  
21 of the Code beginning in the calendar year.

22 Sec. 3. **NEW SECTION. CREDIT AND REIMBURSEMENT.**

23 Subject to the limitations provided in this division,  
24 a claimant may file a claim for a renter's credit  
25 under this division if the claimant has rented the  
26 same residential dwelling unit in the state for use  
27 as the principal residence of the claimant or the  
28 claimant's family for six months or more during the  
29 calendar year. However, a claimant shall not file  
30 for or be entitled to receive a renter's credit for  
31 the renting of a residential dwelling unit if the  
32 claimant or a member of the claimant's family has  
33 received or has filed for that unit a claim for  
34 reimbursement for rent constituting property taxes  
35 paid under sections four hundred twenty-five point  
36 sixteen (425.16) through four hundred twenty-five  
37 point thirty-nine (425.39) of the Code. After audit

38 or certification by the director, the credit shall  
39 be deducted from the claimant's income tax liability  
40 for that tax year if any. If the credit allowed  
41 exceeds the claimant's tax liability or there is no  
42 liability, any excess shall be paid to the claimant  
43 in the same manner as individual income tax refunds  
44 are paid under this chapter.

45 **Sec. 4. NEW SECTION. FILING DATE.** A claim for  
46 a renter's credit for the renting of the claimant's  
47 principal residence shall not be allowed unless the  
48 claim is filed with the claimant's income tax return

3 to be filed, the claim shall be filed within the time  
4 required for the filing of income tax returns for  
5 the tax year as provided in section four hundred  
6 twenty-two point twenty-one (422.21) of the Code.

7 **Sec. 5. NEW SECTION. ONE CLAIMANT PER RESIDENTIAL**  
8 **DWELLING UNIT.** Only one claimant per residential  
9 dwelling unit per calendar year is entitled to a  
10 credit under sections two (2) through thirteen (13)  
11 of this Act. When two persons are able to meet the  
12 qualifications for a claimant for the same residential  
13 dwelling unit, they may determine between them who  
14 will be the claimant. If they are unable to agree,  
15 the matter shall be referred to the director of revenue  
16 not later than the time required for filing a claim  
17 for credit under this division and the director's  
18 decision shall be final.

19 **Sec. 6. NEW SECTION. DETERMINATION OF THE AMOUNT**  
20 **OF CREDIT.** The amount of the renter's credit is equal  
21 to the greater of fifty dollars or three percent of  
22 the total amount of rent paid during the calendar  
23 year by the claimant for all residential dwelling  
24 units within the state which were used as the prin-  
25 cipal residence of the claimant or the claimant's  
26 family. However, the credit granted shall not exceed  
27 one hundred dollars.

28 **Sec. 7. NEW SECTION. ADMINISTRATION.** The director  
29 shall make available suitable forms with instructions  
30 for claimants or provide on regular individual income  
31 tax returns for the filing of a claim under this  
32 division.

33 **Sec. 8. NEW SECTION. AUDIT OF CLAIM.** If on the  
34 audit of any claim for credit under this division,  
35 the director determines the amount of the claim to  
36 have been incorrectly calculated or that the claim

37 is not allowable, the director shall recalculate the  
38 claim and notify the claimant of the recalculation  
39 or denial and the reasons for it. The director shall  
40 not adjust any claim after the period provided in  
41 section four hundred twenty-two point twenty-five  
42 (422.25) of the Code. If the claim for credit has  
43 resulted in a payment to the claimant, the amount  
44 so paid may be recovered in the same manner that  
45 income taxes are assessed and collected under sections  
46 four hundred twenty-two point twenty-five (422.25),  
47 four hundred twenty-two point twenty-six (422.26)  
48 and four hundred twenty-two point thirty (422.30)  
49 of the Code. The recalculation of the claim is final  
50 unless appealed as provided in section eleven (11)

5 person making a false claim for the purpose of  
6 obtaining the credit provided for in this division  
7 or who knowingly receives a payment under this division  
8 without being legally entitled to it is guilty of  
9 a simple misdemeanor. The claim for credit shall  
10 be disallowed in full and if the claim for credit  
11 has resulted in a payment to the claimant, the amount  
12 so paid may be recovered by assessment in the manner  
13 that income taxes are assessed pursuant to sections  
14 four hundred twenty-two point twenty-six (422.26)  
15 and four hundred twenty-two point thirty (422.30)  
16 of the Code. The director of revenue shall send a  
17 notice of disallowance of the claim.

18 **Sec. 10. NEW SECTION. NOTICES.** Section four  
19 hundred twenty-two point twenty-five (422.25),  
20 subsection one (1) of the Code applies to all notices  
21 under this division.

22 **Sec. 11. NEW SECTION. APPEALS.** A person aggrieved  
23 by an act or decision of the director or the department  
24 under this division has the same rights of appeal  
25 and review as provided in sections four hundred twenty-  
26 one point one (421.1) and four hundred twenty-two

1 Amend House File 2580 as follows:

2 1. Page 1, by inserting after the enacting clause  
3 the following:

4 "Section 1. There is appropriated from the general  
5 fund of the state to the salary adjustment fund created  
6 in section eight point forty-three (8.43) of the Code,  
7 the following amount\*or so much thereof as is  
8 necessary, to be used and distributed to the various  
9 departments and agencies in the manner provided in  
10 this Act:

11 For the fiscal year  
12 beginning July 1, 1980 . . . . . \$ 8,926,000

13 Sec. 2. The funds appropriated in section one  
14 (1) of this Act are in addition to the funds  
15 appropriated in the Acts of the Sixty-eighth General  
16 Assembly, 1979 Session, chapter two (2), section  
17 twenty-two (22), subsection one (1), and shall be  
18 used to fund the following and section six (6) of

30 section twenty-two (22), subsections one (1) and two

32 employees covered under section six (6) of this Act.  
33 Funds appropriated by this Act shall not be added  
34 to the funds appropriated by the Acts of the Sixty-

2 areas as defined in section two hundred eighty A point  
3 two (280A.2) of the Code, the sum of one million three  
4 hundred sixty thousand (1,360,000) dollars, or so  
5 much thereof as is necessary.

6 Sec. 4. Funds appropriated from the general fund  
7 of the state in this Act shall relate to salaries  
8 supported from general fund appropriations and shall  
9 not be used to replace revolving, federal, trust,  
10 or special funds where applicable.

11 Sec. 5. To departmental revolving, trust, or  
12 special funds, except for the primary road fund or  
13 the road use tax fund, for which the general assembly  
14 has established an operating budget, a supplemental  
15 authorization is provided to use the funds in an  
16 amount necessary to fund salary adjustments at the  
17 level authorized in subsection one (1) of section  
18 two (2) of this Act.

19 Sec. 6. Acts of the Sixty-eighth General Assembly,  
20 1979 Session, chapter two (2), section twenty-eight  
21 (28), is amended by striking the section and inserting  
22 in lieu thereof the following:

23 SEC. 28. For the fiscal year beginning July 1,  
24 1980 and ending June 30, 1981, the funds allocated  
25 to the state board of regents by chapter two (2) of  
26 Acts of the Sixty-eighth General Assembly, 1979  
27 Session, this Act, and other funds which may be  
28 available for the purpose of providing increases for

29 employees not covered by a collective bargaining  
30 agreement and employees in the university of northern  
31 Iowa faculty bargaining unit, shall be used as follows:

32 1. Employees in the university of northern Iowa  
33 faculty bargaining unit shall receive a one percent  
34 increase in salary as their salaries exist for the  
35 fiscal year ending June 30, 1980, and an additional  
36 one percent of such salaries shall be available for  
37 salary increases for such persons at the discretion  
38 of the state board of regents. These increases shall  
39 be in addition to salary increases otherwise authorized  
40 by Acts of the Sixty-eighth General Assembly, 1979  
41 Session, chapter two (2), section twenty-two (22),  
42 subsection two (2), paragraph g, and shall be paid  
43 at the same time and administered in the same manner  
44 as other salary adjustments provided for in section  
45 two (2) of this Act. This subsection shall not be  
46 construed as a violation of a collective bargaining  
47 agreement negotiated pursuant to chapter twenty (20)  
48 of the Code.

49 2. The amount necessary to fund for the fiscal  
50 year an average base salary increase of nine percent

### Page 3

1 of base salaries for faculty members paid during the  
2 preceding fiscal year, to be allocated to faculty  
3 members at the discretion of the state board of  
4 regents.

5 3. The amount necessary to fund for the fiscal  
6 year a salary increase of five percent of the base  
7 salary, plus an additional one percent to be allocated  
8 at the discretion of the state board of regents, of  
9 each professional and scientific staff member, except  
10 board office employees, paid during the preceding  
11 fiscal year. The percentage increases authorized  
12 for salaries under this subsection do not preclude  
13 a professional and scientific staff member from  
14 receiving an additional salary increase authorized  
15 by the state board of regents consistent with chapter  
16 two (2) of Acts of the Sixty-eighth General Assembly,  
17 1979 Session, and this Act and appropriations made  
18 by the general assembly.

19 4. For employees under the state board of regents'  
20 merit system who are not included in the collective  
21 bargaining agreement made final under chapter twenty  
22 (20) of the Code, except board office employees, the  
23 amount necessary to increase the state board of  
24 regents' merit pay plan as it exists for the fiscal  
25 year ending June 30, 1980, an average amount equal  
26 to seven and four-tenths percent. The percentage  
27 increase authorized for the pay plan in this subsection

28 does not preclude an employee under the state board  
29 of regents' merit system who is not under a collective  
30 bargaining agreement and not a board office employee,  
31 from receiving any additional salary increase  
32 authorized under the state board of regents' merit  
33 rules. The merit pay plan adjustment shall be rounded  
34 to the nearest whole dollar for the fiscal year.

35 Sec. 7.

36 1. The state comptroller shall determine the  
37 actual authorized employee positions in state  
38 government payable in whole or in part from the general  
39 fund or trust funds of the state, on July 1, 1980,  
40 as authorized by the executive council or the board  
41 of regents for the executive branch, by the chief  
42 justice of the supreme court for the judicial branch,  
43 or by the legislative council for the legislative  
44 branch. The positions shall be categorized as full-  
45 time, intermittent, or part-time positions. During  
46 the fiscal year beginning on July 1, 1980, the state  
47 comptroller shall monitor the positions and shall  
48 report to the governor, the chief justice of the  
49 supreme court, and the legislative council, the ap-  
50 plicable number of positions in each category

**Page 4**

1 authorized and filled on the last day of each quarter.

2 2. a. As used in this section, "appropriate  
3 official or agency" means the governor, for a position  
4 in the executive branch of state government other  
5 than a position which is at an institution governed  
6 by the state board of regents and is not on the  
7 centralized payroll system; the president or super-  
8 intendent of an institution governed by the state  
9 board of regents for a position in that institution  
10 which is not on the centralized payroll system; the  
11 chief justice of the supreme court for a position  
12 in the judicial branch of state government; or the  
13 legislative council for a position in the legislative  
14 branch of state government.

15 b. During the fiscal year beginning July 1, 1980,  
16 a vacancy in an employee position in state government,  
17 other than a position which is independent of state  
18 funding, shall not be filled unless the appropriate  
19 official or agency reviews the need for filling the  
20 vacancy and gives written authorization for it to  
21 be filled.

22 3. In reviewing need and authorizing the filling  
23 of vacancies, the appropriate official or agency shall  
24 consider, to the extent practicable, the following  
25 criteria among others:

26 a. Recommendations of the governor's economy

27 committee '79.

28 b. Economic predictions for the economy of the  
29 nation, this state, the general fund of the state  
30 and other funds applicable to the agency or position  
31 reviewed.

32 c. Work loads and job descriptions of other  
33 positions in the agency.

34 d. Efficiency measures adopted by or recommended  
35 for the agency.

36 e. Special skills or training required for the  
37 position.

38 f. An increase or decrease in employees of the  
39 agency during the preceding three fiscal years.

40 g. An increase or decrease in duties delegated  
41 to the agency during the preceding three fiscal years.

42 h. An increase or decrease in the number of persons  
43 served by the agency during the preceding three fiscal  
44 years.

45 As used in this subsection, "agency" may mean a  
46 commission, department or other division of the  
47 executive branch, an institution governed by the state  
48 board of regents, a department or portion of the  
49 judicial branch, either house of the legislature,  
50 or a legislative agency, as applicable.

**Page 5**

1 4. Subsections one (1), two (2), and three (3)  
2 of this section do not apply to positions held by  
3 inmates, patients or students at state institutions.

4 5. The general assembly intends that the  
5 implementation of this section will reduce the number  
6 of actual authorized employee positions in state  
7 government payable in whole or in part from the general  
8 fund or trust funds of the state, in each category  
9 of full-time, intermittent, or part-time positions,  
10 on June 30, 1981, by at least two percent below the  
11 number of such positions on July 1, 1980.

12 Sec. 8. Acts of the Sixty-eighth General Assembly,  
13 1979 Session, Chapter ninety-three (93), section one  
14 (1), paragraph a of the new subsection is amended  
15 to read as follows:

16 a. "Annual inflation factor" means an index,  
17 expressed as a percentage, determined by the department  
18 each year to reflect the purchasing power of the  
19 dollar as a result of inflation or deflation during  
20 the preceding calendar year. In determining the  
21 annual inflation factor, the department shall use  
22 the annual percent change in the consumer price index  
23 produced by the bureau of labor statistics of the  
24 United States department of labor and shall add one-  
25 fourth for the 1979 calendar year and ~~two-fourths~~

26 thirty-five percent for the 1980 calendar year of  
 27 that percent change to one hundred percent, except  
 28 that the amount of the percent change added to the  
 29 one hundred percent shall not exceed the greater of  
 30 zero or the difference between the percent change  
 31 and three percent. The annual inflation factor and  
 32 the cumulative inflation factor shall each be expressed  
 33 as a percentage rounded to the nearest one-tenth of  
 34 one percent.

35 Sec. 9. Funds appropriated for the fiscal year  
 36 beginning July 1, 1980 and ending June 30, 1981 by  
 37 sections one (1) through seven (7) of this Act are  
 38 not obligated funds for the purpose of determining  
 39 the unobligated state general fund balance under Acts  
 40 of the Sixty-eighth General Assembly, 1979 Session,  
 41 chapter ninety-three (93), section one (1), paragraph  
 42 e of the new subsection, with respect to the  
 43 computation of the annual inflation factor for the  
 44 1980 calendar year.

45 Sec. 10. Section eight (8) of this Act is  
 46 retroactive to January 1, 1980 for tax years beginning  
 47 on or after January 1, 1980 and to this extent is  
 48 retroactive.

49 Sec. 11. The intent of section eight (8) of this  
 50 Act is to provide the funding for sections one (1)

**Page 6**

1 through seven (7) of this Act."

### EXPLANATIONS OF VOTE

I inadvertently pushed the "aye" button when the vote was taken on amendment H-6182 to House File 2580. I meant to vote "nay."

O'KANE of Woodbury

I was necessarily absent from the House chamber on Tuesday morning, April 15, 1980. Had I been present, I would have voted "aye" on amendment H-6057 to House File 2492 and "nay" on amendments H-6032A and H-6073 to House File 2492.

5 more series, bear such dates, mature at times not  
6 exceeding thirty years from their respective dates,  
7 be payable at places within or without the state,

22 the signer has ceased to hold the office. Each bond  
23 shall state on its face that it is payable solely  
24 from the revenues pledged thereto and that it does  
25 not constitute a debt or charge against the state  
26 of Iowa within the meaning or application of any  
27 constitutional or statutory limitation or provision.

28 The proceedings authorizing the issuance of the  
29 bonds may provide for the establishment of reserve  
30 funds or sinking funds as deemed necessary for the  
31 application of surplus net revenues, and for the  
32 continuation of liquor sale activities on a revenue  
33 producing basis and the maintenance of net revenues  
34 at levels at least sufficient to pay principal of

41 appropriations shall not be pledged for the payment  
42 of the revenue bonds. The sole remedy for any breach  
43 or default of the terms of any revenue bonds or  
44 proceedings authorizing the bonds shall be a proceeding  
45 in law or equity, to which consent is given, to en-  
46 force and compel performance of the duties required  
47 by this division and the terms of the resolutions  
48 under which the bonds are issued.

49 **NEW SECTION. 123.157 ANTICIPATORY NOTES.** The  
50 council may borrow money and issue notes in

**Page 3**

1 anticipation of the receipt of proceeds of the sale  
2 of revenue bonds. Any such loan shall be paid within  
3 three years. Notes issued for moneys so borrowed  
4 may be renewed from time to time within the three-  
5 year limitation. Notes shall be issued and sold in  
6 the same manner as provided for the issuance of bonds.

7 **NEW SECTION. 123.158 NOTICE.** The council may  
8 publish a notice of its intention to issue revenue

9 bonds in a newspaper published in and with general  
10 circulation in the state. The notice shall include  
11 a statement of the maximum amount of bonds proposed  
12 to be issued, and in general, what net revenues will  
13 be pledged to pay the revenue bonds and interest  
14 thereon. An action which questions the legality of  
15 revenue bonds or the power of the council to issue  
16 the bonds or the effectiveness of any proceedings  
17 adopted for the authorization or issuance of the bonds  
18 shall not be brought after sixty days from the date  
19 of publication of the notice.

20 **NEW SECTION. 123.159 EXEMPTION FROM TAXATION.**

21 Bonds or notes issued under this division are exempt  
22 from taxation by the state of Iowa and the interest  
23 thereon is exempt from state income tax.

24 **NEW SECTION. 123.160 BONDS AS INVESTMENTS. All**

25 banks, trust companies, savings and loan associations,  
26 investment companies and other persons carrying on  
27 a banking or investment business, all insurance  
28 companies, insurance associations, and other persons  
29 carrying on an insurance business and all executors,  
30 administrators, guardians, trustees, and other  
31 fiduciaries may legally invest any sinking funds,  
32 moneys, or other funds belonging to them or within  
33 their control in bonds issued pursuant to this  
34 division. However, this section does not relieve  
35 any persons from a duty of exercising reasonable care  
36 in selecting securities for purchase or investment.

37 **NEW SECTION. 123.161 INDEPENDENT AUTHORIZATION.**

38 This division provides an independent method for the  
39 carrying out of a project and for the sale and issuance  
40 of revenue bonds and notes without reference to any  
41 other statute and is not subject to the provisions  
42 of any other law relating to the issuance of bonds.

7 subsection:

8 **NEW SUBSECTION.**

9 a. It is the intent of the general assembly that

25 beds and which is accredited by the joint commission  
26 on accreditation of hospitals, is entitled to  
27 reimbursement from the state for a portion of daily  
28 cost so incurred by the county. However, a county

30 for any cost incurred in connection with the

31 hospitalization of a person who is eligible for medical

43 the average daily patient costs in the most recent  
44 calendar quarter for the program in which the local  
45 inpatient would have been served if he or she had  
46 been admitted to a state mental health institute.

48 for by paragraph a of this subsection by filing with  
49 the department a claim in a form prescribed by the

1 administrative rule. Claims may be filed on a  
2 quarterly basis, and when received shall be verified  
3 expeditiously by the director. The director shall

5 each county claiming reimbursement under this section  
6 is entitled, and the comptroller shall issue warrants  
7 to the respective counties drawn upon funds  
8 appropriated by the general assembly for the purpose  
9 of this subsection. Each county shall place funds  
10 received under this subsection in the county mental  
11 health and institutions fund. If the appropriation  
12 for any fiscal year is insufficient to pay all claims  
13 arising under this subsection, the comptroller shall  
14 prorate the funds appropriated for that year among  
15 the claimant counties so that an equal proportion  
16 of each county's claim is paid in each quarter for  
17 which proration is necessary."

#### HOUSE RESOLUTION 112

By Crabb, Tofte, Holt, Johnson of Woodbury, Woods,  
Chiodo, Byerly, Johnson of Linn and Schroeder

- 1     *Whereas*, over the past five years appropriations from
- 2 the Iowa legislature to the Iowa state fair have averaged
- 3 \$500,000 per year; and
- 4     *Whereas*, recent economic developments have led to
- 5 substantial decreases in state revenue estimates for the
- 6 current biennium; and
- 7     *Whereas*, an in-depth economic study of the Iowa state
- 8 fair conducted at the behest of the Iowa legislature has
- 9 recommended a \$32.5 million redevelopment program to make
- 10 the Iowa state fair self-supporting on an operating basis;
- 11 and
- 12     *Whereas*, that same economic study concludes that a
- 13 complete redevelopment program for the Iowa state fairgrounds
- 14 can be at least partially financed by the operation of the
- 15 Iowa state fair with a major horse racing program; and
- 16     *Whereas*, many recent opinion polls have shown Iowans
- 17 to be in favor of pari-mutuel betting; and
- 18     *Whereas*, there are many important ancillary issues
- 19 involved in this pari-mutuel issue, including but not limited
- 20 to the advisability of using revenue bonds to start a racing
- 21 program at the Iowa state fair, the location of racetracks,
- 22 the best forms of ownership for such racetracks, the impact
- 23 of pari-mutuel betting on crime within the state, and the
- 24 desirability of conducting various types of racing; *Now*
- 25 *Therefore*,

26 *Be It Resolved by the House of Representatives, That*  
27 the legislative council is requested to authorize an interim  
28 study by a subcommittee composed of members of the House  
29 ways and means committee and the House committee on state  
30 government, to examine the feasibility of pari-mutuel betting

**Page 2**

1 as a means of implementing the redevelopment plan of the  
2 Iowa state fair.  
3 *Be It Further Resolved, That* the study committee shall  
4 submit a report of its findings and recommendations, together  
5 with any bill drafts necessary to implement the recommendations,  
6 to the legislative council and the appropriate committees  
7 of the House.

Laid over under Rule 30.

 By Hultman and Junkins

1 *Whereas*, many resolutions have been introduced in  
 2 both the Senate and House of Representatives calling  
 3 for interim studies; and  
 4 *Whereas*, additional interim studies may be proposed;

5 and

6 *Whereas*, the time period between the 1980 session  
7 and the 1981 session of the General Assembly is  
8 limited and there have been proposals for studies  
9 which appear to have merit but, because of their  
10 complexity and number, cannot all be properly conducted  
11 during the next interim period; and

12 *Whereas*, subcommittees of standing committees and  
13 special interim committees may desire to study bills  
14 prior to the 1981 session of the General Assembly; and

15 *Whereas*, it is impractical to debate the relative  
16 merit of all proposals; *Now Therefore*,

17 *Be It Resolved by the Senate, the House Concurring*,  
18 That all resolutions calling for interim studies which  
19 have not been adopted by both houses be delivered by  
20 the Secretary of the Senate, on the part of the Senate,  
21 and the Chief Clerk of the House, on the part of the  
22 House, to the Legislative Council, which shall determine  
23 priorities and shall authorize such studies as may be  
24 feasible within the limits of the staff, time and funds  
25 available; and

26 *Be It Further Resolved*, That any legislator desiring  
27 to propose any interim study not already contained in a  
28 resolution already filed shall submit a letter to the  
29 Secretary of the Senate or the Chief Clerk of the House  
30 describing the study; and

**Page 2**

1 *Be It Further Resolved*, That the Secretary of the  
2 Senate and Chief Clerk of the House shall deliver such  
3 letters to the Legislative Council with any resolu-  
4 tions already filed. The Legislative Council shall

HOUSE CONCURRENT RESOLUTION 136

By Daggett, Doyle, McKean and Spear

1 *Whereas*, the operation of community-based correc-  
2 tional facilities is of ever increasing importance  
3 to the overall operation of the state correctional  
4 system; and

5 *Whereas*, the community-based program continues to  
6 face hardships due to the decentralized nature of the  
7 system and the cuts in federal funding; and

8 *Whereas*, the seven state correctional facilities  
9 operated by the department of social services continue  
10 to be one of the most challenging assignments given  
11 to the department; and

12     *Whereas*, the areas of obtaining, training and re-  
 13     taining qualified correctional staff have improved  
 14     over the last year, but problems remain; and

15     *Whereas*, the problems of identifying and meeting  
 16     the various specialized needs of subpopulations within  
 17     the correctional system for treatment and education  
 18     need attention; and

19     *Whereas*, the use of the farmland surrounding the  
 20     state institutions has received considerable attention  
 21     resulting in the report from the commissioner of social  
 22     services blue ribbon task force, which remains to be  
 23     implemented; and

24     *Whereas*, certain county jails may be inadequate in  
 25     meeting federally imposed requirements and standards  
 26     and state inspection and state jail standards; and

27     *Whereas*, the safe and effective operation of the  
 28     correctional system is important for both the physical  
 29     well-being and economic security of all citizens; and

30     *Whereas*, over the years, the legislature has expressed

**Page 2**

1     its collective and individual interest in the operation  
 2     of the Iowa correctional system; *Now Therefore*,

3     *Be It Resolved by the House of Representatives, the*  
 4     *Senate Concurring*, That the legislative council is  
 5     requested to authorize an interim study by a joint sub-  
 6     committee composed of the members of the House and  
 7     Senate standing committees on human resources and  
 8     judiciary and the joint social services appropriations  
 9     budget subcommittee, to examine the wide range of  
 10    problems facing the Iowa correctional system; and

11    *Be It Further Resolved*, That the study committee  
 12    shall prepare a report of its findings and submit it

 3     with issue shall go to the surviving spouse; and

4     *Whereas*, Chapter 635 of the Code, providing for the  
 5     informal administration of small estates has been found  
 6     to be little used by Iowans; and

7     *Whereas*, the National Conference of Commissioners on  
 8     Uniform State Laws has recommended that states adopt a  
 9     Uniform Probate Code in order to facilitate the informal

10 administration of estates; *Now Therefore,*  
11 *Be It Resolved by the House of Representatives, the*  
12 *Senate Concurring,* That the legislative council is requested  
13 to authorize an interim study by a joint subcommittee composed

 7 order shall be binding upon the employer only for  
 8 those amounts that represent child support and only  
 9 upon receipt by the employer of a copy of the order,  
 10 signed by the employee. For each payment deducted  
 11 in compliance with such request, the employer shall  
 12 receive one dollar to cover the expense created by  
 13 the deduction, which amount shall be deducted from  
 14 the money due the employee payor may deduct a sum  
 15 not exceeding one dollar as a reimbursement for costs.  
 16 Compliance by an employer a payor with the court's  
 17 request order shall operate as a discharge of his  
 18 or her liability to the employee payee as to the  
 19 affected portion of the employee's payee's wages,

FRANK J. STORK, Secretary

SENATE CONCURRENT RESOLUTION 140  
By Committee on Appropriations

- 1     *Whereas*, the general assembly appropriates funds  
2 from the general fund of the state annually for the  
3 operation of the area schools, and for the fiscal  
4 year commencing July 1, 1980 the appropriated amount  
5 exceeded fifty million dollars; and  
6     *Whereas*, the department of public instruction is  
7 given the responsibility of allocating the state  
8 funds to the various area schools; and  
9     *Whereas*, the formula by which state funds are  
10 allocated to the fifteen merged area schools does  
11 not adequately reflect the actual financial pressures  
12 faced by the individual area schools; *Now Therefore*,  
13     *Be It Resolved by the Senate, the House Concurring*,  
14 That the department of public instruction is directed to  
15 review the existing formula along with various alterna-  
16 tive methods of allocation, and shall report its findings  
17 and recommendations to the appropriate joint legislative  
18 subcommittees of the committees on appropriations not later  
19 than January 15, 1981. Additional factors which the  
20 department shall consider in reviewing the formula are:  
21     1. The differences between the base year enrollment  
22 figure as used in the formula and the current year actual  
23 enrollment figure.  
24     2. The use of actual full-time equivalent enrollment  
25 cost per program at each of the merged area schools  
26 rather than a statewide average.  
27     3. The allowance for program costs for programs  
28 unique to one or a small number of merged area schools.  
29     4. Any inconsistency in allowable growth rates for the  
30 various levels of education (K-12, merged area, university).

REMARKS BY SPEAKER HARBOR.

Speaker Harbor offered the following remarks:

As we draw the Sixty-eighth General Assembly to a close and go our individual ways, it seems appropriate to momentarily reflect on the 1980 Session.

From its beginning, we were beset with problems and concerns. In January the glow of prosperity still embraced Iowa, but there was an undercurrent of uncertainty. Inflation was escalating like a volcanic eruption, costs of doing business were back breaking and confidence in all government was being lost because of the lack of responsible legislation.

However, you, on both sides of the political aisle, after seeking to make political hay, did settle down to meet the challenges with candor and dispatch. Many were the needed concerns whose answers called for an unpopular choice. In fact, it was necessary to change course in the middle of the appropriation stream. However, you cast aside the politically popular solutions and acted as sound and economically prudent people in meeting these needs.

There are those who will be critical of some of our solutions, but the silent majority will approve and will show thanks in their own way and with a grateful heart.

Not everyone will be entirely happy with what we have done, but good legislation is the art of compromise and responsible actions for all of Iowa. This you have done.

As your Speaker, you have my heartfelt thanks for your cooperation and personal discipline through some emotionally trying times and for working for the good of the State instead of your personal gain. It is my hope and prayer that I have lived up to what you expected. I have given you my best.

It is an honor to call all of you — pages, clerks, colleagues, staff and everyone associated with the legislature — my friends. Thank you, everyone, for a job well done. It has been a pleasure working with you.

What the future will bring is known only to a power higher than us, but of this I am sure — Iowa will be a much better place by virtue of your having served in her behalf.

Some of us will return to this House, while others will find new endeavors; however, the important thing for all of us to remember is that wherever we want to go in life, we won't get there unless we bend our efforts — mental, physical and spiritual — toward that end. Having set our sights, we must set out, knowing that the longest journey always begins with a single step. These elements have brought us to this moment of adjournment, together and with one purpose, that of making the State we all love the star in the union.

To paraphrase the closing of my 1972 Speakership, I give you my version of an old Irish prayer. It goes like this:

"May the soft breezes ever fill your sails,

"May the wind always be at your back;

"May God hold you always in the palm of his hand; and,

"May you be in Heaven fifteen minutes before the devil knows you are dead."

So, until we meet again, may God bless you all.

**REPORT OF THE COMMITTEE TO NOTIFY THE GOVERNOR**

The committee appointed to notify the Governor that the House was ready to adjourn returned and reported it had performed its duty and the Governor had sent the following message:

OFFICE OF THE GOVERNOR  
State Capitol  
Des Moines, Iowa 50319

The Honorable Bill Harbor  
Speaker of the House  
Sixty-eighth General Assembly  
State Capitol  
Des Moines, Iowa 50319

Honorable Members of the General Assembly:

As you return today to adjourn the Second Session of the Sixty-eighth General Assembly, it is apparent that the attention of our Iowans is centered on both Washington, D. C. and Tehran — with growing and anxious concerns for a worsening, national recession and an anguishing international crisis.

At the same time, Iowa, a state with a tradition of deciding, not ducking, tough issues, met several problems of real concern to our people. The 1980 legislature, to its credit, extended that tradition. This legislature confronted, coped with, and concluded a number of current issues in a constructive way.

Each legislature has its own set of obstacles to overcome, and legislators meeting in this first year of the new decade had more than their share. The predictable partisan differences in a political year paled in comparison to the unpredictable and sudden drop experienced in state revenues. Iowa, like our neighbors, is a state buffeted by a volatile, uncertain economy. Interest rates, inflation, and job layoffs are running far beyond anyone's expectations just a few short months ago. Farmers, business people, families — and yes, state government, are all scrambling to make ends meet. This legislature also faced the unanticipated elimination of federal revenue sharing and reductions in other federal assistance.

I want to give credit to legislators who responded quickly to changing economic conditions and positively to my Special Message of April 9. You followed my requests to keep a balanced budget, provide support for important government services to people, continue tax relief, and ensure a treasury balance for needed cash flow.

In addition to the difficult decisions to limit state expenditures, this legislature successfully adopted a number of key measures which will benefit Iowans now and in the future. Some significant accomplishments include:

— Tax relief to owners of commercial property with additional homestead and ag land tax credits, with indexing of the Iowa income tax strengthened.

- Additional energy-saving measures, such as increased speeding fines, heavier trucks, and a conservation ethic for public utilities.
- An innovative bonding plan with the potential to rebuild critical railroad mainlines.
- Stepped up state support for deaf services, assistance to cities and counties, and maintenance of vital human services programs such as Medicaid, ADC, Title XX, and eldercare.
- Several priority items to improve state government: reorganization of the Department of Environmental Quality, bipartisan reapportionment, and multi-year professional licensing.
- Adjusted interest limitations to reflect the rapidly changing business climate and to assure Iowans continued access to credit.
- Increased bonding for the Iowa Housing Finance Authority to assist low-income Iowans and stimulate the home construction industry, and to make funds available for solar energy improvements.
- Increased IPERS benefits for present and future public employee retirees.

At a time when the federal government seems to have turned its back on the American farmer, you took positive steps to assist Iowa agriculture. The Family Farm Development Authority holds the promise of aiding beginning farmers. You wisely boosted state funding for soil conservation cost-share efforts and implemented the innovative Iowa Soil 2000 program. Producers, buyers and sellers of livestock will benefit from revisions of the implied warranty law. These actions, coupled with last year's legislation to make 100 percent productivity permanent and to restrict the purchase of farm land by aliens, mark a legislature and state government concerned with the advancement of agriculture.

Other measures that I had hoped would cross my desk for signature were not successful. At the beginning of the session, some legislators said I had given them an extremely ambitious program, so it does not come as a surprise that certain decisions remain to be made. We were unable to agree upon mental health reorganization. The road fund remains underfinanced. "Fair Play" for local governments has not yet been adopted although the purpose of the bill is being served by its promotion. And, better enforcement of Iowa's drunk driving laws was not secured.

Several important and cost-cutting Governor's Economy Committee '79 recommendations met the resistance and inertia that often greet new proposals when first introduced. While I regret that more of these thoughtful approaches were not adopted, I hope they will be achievements one year from now. I expect the legislature to pursue these proposals during the interim, just as we will continue to implement many practical suggestions to save tax dollars in the executive branch.

The work of this Sixty-eighth General Assembly in my estimation was made less difficult and hectic by your willingness to employ the new rules designed to limit the length of the legislative session. I have been impressed by the orderly fashion you have concluded your business this year and last, especially in contrast to the all-night,

marathon sessions used to wind down previous legislatures. Your new procedures have proved effective and give hope that we can retain a citizens legislature."

Many of you will be facing the electorate this fall. In addition to legislative races, our Iowa voters will be deciding the fate of the proposed State Equal Rights Amendment, a measure the large majority of you favored. In the campaign season ahead, you will have the opportunity to provide the voters with good and accurate information on the issues so that they, too, can make wise decisions.

Challenges and problems lie ahead. But so do opportunities and ideas. On balance, the work of this Second Session of the General Assembly, coupled with the productive efforts of the First Session, deserves to be judged well by our Iowans, as it is by me.

Best regards.

Sincerely,  
Robert D. Ray  
Governor

The report was received and the committee discharged.

3 following:

4 "Sec. 8. NEW SECTION. Sections eight (8) through  
5 sixteen (16) of this Act establishes a state urban  
6 funding formula. For each fiscal year, each city  
7 in the state is entitled to receive state urban funding  
8 which shall be an amount per resident of the city  
9 equal to the difference between the amount per resident  
10 of general fund property tax in the city and the state  
11 urban funding base or the city cost per resident,  
12 whichever difference is less. However, if the amount  
13 of difference for a city is less than twenty dollars  
14 per resident, the city is entitled to receive not  
15 less than twenty dollars per resident unless the total  
16 amount of aid received plus the amount of the general  
17 fund property tax exceeds the city cost for the fiscal  
18 year. In such case, the city shall receive in urban  
19 funding aid an amount equal to the difference between  
20 the amount of the general fund property tax and the  
21 city cost for the fiscal year.

22 Sec. 9. NEW SECTION. As used in sections eight  
23 (8) through sixteen (16) of this Act:

24 1. "City" means the same as defined in section  
25 three hundred sixty-two point two (362.2) of the Code.

26 2. "Per resident" or "per urban resident" means  
27 for each resident based on the weighted number of  
28 residents.

29 3. "Weighted number of residents" is the number  
30 as computed pursuant to section fifteen (15) of this  
31 Act.

32 Sec. 10. NEW SECTION.

33 1. The general fund property tax for a city shall  
34 be deemed to be the amount of property tax that would  
35 be raised in the fiscal year if the eight dollar and  
36 ten cent per thousand dollars of the taxable value  
37 limit specified in section three hundred eighty-four  
38 point one (384.1) of the Code were levied.

39 2. The amount per resident of general fund property  
40 tax for a city is the amount of general fund property  
41 tax that would be raised in the fiscal year as  
42 determined under subsection one (1) of this section,  
43 regardless of whether that amount is actually raised,  
44 divided by the weighted number of residents of the  
45 city for that fiscal year.

46 Sec. 11. NEW SECTION. The state urban funding  
47 base for the fiscal year beginning on July 1, 1980,  
48 is seventy percent of the state cost per urban  
49 resident. For each succeeding fiscal year, the state  
50 urban funding base shall be increased by the amount

Page 2

1 of one percent of the state cost per urban resident  
2 up to a maximum of eighty percent of the state cost  
3 per urban resident. The state cost per urban resident  
4 shall be as computed pursuant to section twelve (12)  
5 of this Act.

6 Sec. 12. NEW SECTION.

7 1. The state cost per urban resident for the  
8 fiscal year beginning on July 1, 1980, is the amount  
9 determined by dividing the total amount of general  
10 fund property taxes actually raised by every city  
11 within the state under section three hundred eighty-  
12 four point one (384.1) of the Code, excluding the  
13 levies authorized in section three hundred eighty-  
14 four point twelve (384.12) of the Code, in the previous  
15 fiscal year by the weighted number of residents in  
16 every city within the state as of the beginning of  
17 the previous fiscal year.

18 2. For each succeeding fiscal year, the state  
19 cost per urban resident for that fiscal year, is equal  
20 to the state cost per urban resident for the previous  
21 fiscal year plus the allowable growth for the fiscal  
22 year.

23 3. The allowable growth for a fiscal year, for  
24 purposes of the computations in sections twelve (12)  
25 and fourteen (14) of this Act, is equal to the product  
26 of the state cost per urban resident for the previous  
27 fiscal year times the state percent of growth for  
28 the previous fiscal year as determined under section  
29 thirteen (13) of this Act.

30 Sec. 13. NEW SECTION. The state percent of growth  
31 for the fiscal year beginning July 1, 1980 and for  
32 each succeeding fiscal year shall be computed by the  
33 state comptroller prior to September fifteenth  
34 immediately following that fiscal year. The state  
35 percent of growth shall be the difference between  
36 the percent change in the state general fund revenues  
37 for that fiscal year, adjusted for changes in rates  
38 or basis, and the state general fund revenues for  
39 the previous fiscal year minus the percent change  
40 in the Iowa consumer price index as of the end of  
41 that fiscal year and the Iowa consumer price index  
42 as of the end of the previous fiscal year. If the  
43 difference as computed is negative, then the state  
44 percent of growth for that fiscal year shall be zero.

45 If an Iowa consumer price index is not available  
46 from the bureau of labor statistics of the United  
47 States department of labor or successor agency, the  
48 state comptroller shall compute a consumer price index  
49 based upon a comprehensive sampling of the costs of  
50 goods and services within Iowa.

Page 3

1     Sec. 14. NEW SECTION.

2     1. The city cost per resident for the fiscal year  
3 beginning on July 1, 1980, is the amount determined  
4 by dividing the amount of general fund property taxes  
5 actually raised by the city under section three hundred  
6 eighty-four point one (384.1) of the Code, excluding  
7 the amount raised by the levies authorized in section  
8 three hundred eighty-four point twelve (384.12) of  
9 the Code, in the previous fiscal year by the weighted  
10 number of residents of the city as of the beginning  
11 of the previous fiscal year.

12    2. For each succeeding fiscal year, the city cost  
13 per resident for that fiscal year is equal to the  
14 city cost per resident for the previous fiscal year  
15 plus the allowable growth for the fiscal year.

16    3. The city cost for a fiscal year is equal to  
17 the city cost per resident for the fiscal year  
18 multiplied by the weighted number of residents of  
19 the city for the fiscal year.

20     Sec. 15. NEW SECTION. The weighted number of  
21 residents of a city for a fiscal year is the population  
22 of the city, as provided under chapter four hundred  
23 five (405) of the Code, adjusted by the sum of the  
24 following:

25     1. The population of the city multiplied by the  
26 percent of unemployed residents of the city in excess  
27 of the average state percent of unemployed residents  
28 of all cities in the state during the calendar year  
29 ending in the previous fiscal year as determined by  
30 the department of job service.

31     2. The population of the city multiplied by the  
32 percent of the population of the city in excess of  
33 the average state percent of the population of all  
34 cities in the state which have received credit or  
35 reimbursement under sections four hundred twenty-five  
36 point sixteen (425.16) to four hundred twenty-five  
37 point thirty-nine (425.39) of the Code during the  
38 calendar year ending in the previous fiscal year as  
39 determined by the department of revenue.

40     3. The population of the city multiplied by the  
41 percent of the population of the city in excess of  
42 the average state percent of the population of all  
43 cities in the state which have received at any time  
44 during the calendar year ending in the previous fiscal  
45 year state supplemental assistance pursuant to chapter  
46 two hundred forty-nine (249) of the Code as determined  
47 by the department of social services.

48     Sec. 16. NEW SECTION. There is appropriated

 7 as amended by Acts of the Sixty-eighth General  
 8 Assembly, 1979 Session, chapter twenty-five (25),  
 9 section five (5), is amended to read as follows:
- 10 8. For valuations established as of January 1,  
 11 1979, and each succeeding odd-numbered year, against  
 12 which taxes will be levied for the fiscal year  
 13 beginning in the 1979 calendar year, and each  
 14 succeeding odd-numbered calendar year, by any special  
 15 charter city that levies and collects its own taxes,  
 16 the percentage of actual value at which agricultural  
 17 and residential property shall be assessed shall be  
 18 the quotient of the dividend and divisor as defined  
 19 in this section. The dividend for each class of  
 20 property shall be the valuation for each class of  
 21 property for valuations established as of January  
 22 1, 1978 first of the preceding year, and upon which  
 23 any special charter city levied its taxes in 1978  
 24 that year, adjusted by the product obtained by

25 multiplying the percentage determined for that year  
26 by the amount of any additions or deletions to actual  
27 value, excluding those resulting from the revaluation  
28 of existing properties, as reported by the assessor  
29 on the abstract of assessment for 1978 that year,  
30 plus six percent of the amount so determined. The  
31 divisor for each class of property shall be the total  
32 actual value of all such property in the city in the  
33 preceding year, as reported by the assessor on the  
34 abstract of assessment submitted for 1978 that year,  
35 plus the amount of value added to said total actual  
36 value by the revaluation of existing properties in  
37 1979 the current year. However, if the estimated  
38 statewide growth in assessed valuation is less than  
39 six percent for either class of property for 1979  
40 any year, the director shall estimate the percentages  
41 by which the statewide valuation of residential and  
42 agricultural property will increase in 1979 that year.  
43 The lower percentage shall be used in lieu of six  
44 percent for both classes of property in calculating  
45 the percentages at which agricultural and residential  
46 property shall be assessed. The percentage at which  
47 agricultural and residential property shall be assessed  
48 will be certified by the director on or before May  
49 31, 1979 thirty-first of each year to the appropriate  
50 city official in special charter cities that levy

Page 5

1 and collect their own taxes. The percentage so  
2 certified shall be applicable only to those valuations  
3 against which the special charter city levies its  
4 own tax. For valuations established as of January  
5 1, 1980, and each even-numbered year thereafter for  
6 any special charter city that levies and collects  
7 its own taxes, the percentage of actual value as  
8 equalized by the director of revenue as provided in  
9 section 441.49 at which agricultural and residential  
10 property shall be assessed shall be calculated in  
11 accordance with the methods provided herein adjusted  
12 to include the applicable and current values as  
13 equalized by the director of revenue, except that  
14 any references to six percent in this subsection shall  
15 be four percent plus four percent of the amount so  
16 determined. The assessor shall provide valuation  
17 information to the director of revenue sufficient  
18 for the computation of the assessment percentage by  
19 May fifteenth of each year on forms prescribed by  
20 the director of revenue.

 16 general assembly finds and declares that the

 18 and efficient functioning of a free market economy  
 19 within the petroleum industry.  
 20 "Sec. 2. Chapter three hundred twenty-three (323),  
 21 Code 1979, is amended by adding the following new  
 22 section:  
 23 **NEW SECTION. DEATH OF FRANCHISEE—SUCCESSOR.**  
 24 1. It is unlawful to include in any distributor  
 25 franchise or dealer franchise agreement any term which  
 26 provides for the termination of the franchise by the  
 27 franchisor upon the death of the franchisee if the  
 28 franchisee, prior to his or her demise, designates  
 29 a successor-in-interest in a form prescribed by and  
 30 delivered to the franchisor. For the purposes of  
 31 this section, "successor-in-interest" is restricted  
 32 to either a surviving spouse or adult child of the  
 33 franchisee; provided that the spouse or child, at  
 34 the time of the franchisee's death, must be able to  
 35 meet the reasonable qualifications then being required  
 36 of distributors or dealers by the franchisor.  
 37 2. The successor-in-interest designated as provided  
 38 in subsection one (1) of this section shall be allowed

39 twenty-one days after the death of the franchisee  
40 to give written notice of his or her election to  
41 assume and operate the franchise. The notification  
42 shall contain information regarding business experience  
43 and credit worthiness as is reasonably required by  
44 the franchisor. The successor-in-interest must offer  
45 to assume and commence operation of the franchise  
46 within ten days after the franchisor approves the  
47 assumption.

48 3. A franchisor may require that a franchisee  
49 desiring to designate a successor-in-interest pursuant  
50 to this section deposit with the franchisor at the

**Page 2**

1 time of making the designation such sum as would be  
2 reasonably estimated to be necessary to compensate  
3 the franchisor for income under the franchise for  
4 a period of twenty-one days. This deposit is intended  
5 to compensate the franchisor in the event the  
6 designated successor-in-interest fails to assume the  
7 franchise obligation. Any unearned portion of the  
8 deposit resulting from the successor-in-interest  
9 assuming responsibility for the franchise sooner than  
10 twenty-one days after the date of the franchisee's  
11 death, or from the temporary operation of the facility  
12 by the franchisor during that period, shall be refunded  
13 by the franchisor to the estate or legal representative  
14 of the deceased franchisee. In addition to this  
15 deposit, the franchisor may require a franchisee  
16 desiring to qualify under this section to arrange  
17 for the discharge or performance of other franchise  
18 obligations including but not limited to the  
19 maintenance of a policy of insurance, but excluding  
20 any obligation to customers of the franchise, for  
21 a period of up to twenty-one days after the death  
22 of the franchisee.

23 4. The franchise available to the successor-in-  
24 interest pursuant to this section shall be no greater  
25 or less than the franchise as it existed in the name  
26 of the deceased franchisee at the time of the  
27 franchisee's death.

28 5. A franchisee may designate a primary and one  
29 alternate successor-in-interest. The alternate, if  
30 one is designated, shall not have rights under this  
31 section in the event of any exercise of rights by  
32 the primary successor-in-interest. If an alternate  
33 desires to assume and operate the franchise in the  
34 event the primary successor-in-interest fails to do  
35 so, the alternate must give notice of such election  
36 and otherwise comply with subsection two (2) of this  
37 section.

38 6. Unless otherwise specifically provided in this  
39 section, actions to be performed by the franchisor  
40 or by the successor-in-interest under this section  
41 shall be performed within a reasonable time.  
42 7. Unless the franchisor otherwise agrees in  
43 writing, there shall be no operation of the franchise  
44 following the death of the franchisee by any person  
45 other than the franchisor for its own account until  
46 all parts of the franchise have been expressly assumed  
47 as provided in this section, including, but not limited  
48 to, such items as lease or leases, products agree-  
49 ment, loaned equipment agreement, federal and state  
50 law compliance agreements, licensing, and tax permits.

Page 3

1 8. Following the death of a franchisee, and prior  
2 to the operation of the franchise by the successor-  
3 in-interest as provided in this section, the franchisor  
4 shall have the option to operate the franchise by  
5 contract or otherwise for its own account without  
6 obligation or duty to the heirs or estate of the  
7 deceased franchisee or to the successor-in-interest  
8 except for the obligation to account to the heirs  
9 or the estate of the deceased franchisee for the  
10 inapplicable portion of any prepaid rent or other  
11 sums prepaid to the franchisor, and for any physical  
12 inventory salvaged from the franchise and used or  
13 sold by the franchisor.

14 9. If the successor-in-interest assumes the  
15 franchise and there has been no intervening operation  
16 of the franchise by the franchisor, the successor-  
17 in-interest shall account to the heirs or estate of  
18 the deceased franchisee for the value or other  
19 disposition of personal property of the franchisee  
20 located at or related to the franchise.

21 10. Violation of this section by a franchisor  
22 is a serious misdemeanor.

23 11. A franchisee or successor-in-interest may  
24 commence a civil action to compel compliance by a  
25 franchisor with this section, or to obtain damages  
26 caused by a violation of this section, or both."

46 The commission shall consider relevant factors,

Page 3

1     b. Each interest rate limitation shall bear a

13 interest rate limitaions for the purpose of diverting  
14 funds from one sector of the economy to another.

18 of terms of office. Rules in effect upon the ex-  
19 piration of the terms of office of members of the  
20 commission shall continue to have effect until

22 repealed by subsequent legislation.

23     Sec. 4. NEW SECTION. LIMITATION. The authority  
24 of the interest rate commission under section three  
25 (3) of this Act is limited to the establishment of  
26 numerical interest rate limitations. The commis-  
27 sion shall not adopt any rule which purports to exempt  
28 a transaction from a section of the Code limiting  
29 the rate of interest in that transaction, or which  
30 purports to establish classifications of transactions

 37 or interest rate limitation where by law the rate  
 38 of interest payable on an obligation is within the

19 activities, and to minimize interest costs to  
20 governmental bodies while permitting a fair return  
21 to persons whose funds are used to finance governmental

49 the governmental body or agency, upon compliance with  
50 the requirements of subsection two (2) of this section,

26 d. The governmental body or agency receives and  
27 considers oral or written objections which may be  
28 presented by affected taxpayers at the meeting as  
29 scheduled or at any adjournment thereof.

30 3. The notice specified in subsection two (2)  
31 of this section shall be published in the manner  
32 provided by law for the publication by the governing  
33 body of a notice of intent to institute original

30 to pay not to exceed ninety percent of the engineer's  
31 estimated value of the acceptable work completed  
32 during the month to the contractor at the end of each  
33 month. Payment may be made in warrants drawn on any  
34 fund or funds from which payment for the work may  
35 be made. The warrants, unless paid upon presentation,  
36 draw interest at a rate not to exceed seven percent  
37 per annum from and after the date of presentation  
38 for payment. If such funds are depleted, anticipatory  
39 warrants may be issued bearing a rate of interest  
40 not exceeding that permitted by chapter seventy-four  
41 A (74A) of the Code, which do not constitute a  
42 violation of section 384.10, even if the collection  
43 of taxes or special assessments or income from the  
44 sale of bonds applicable to the public improvement  
45 is after the end of the fiscal year in which the

47 private sale of anticipatory warrants, they may be  
48 sold and the proceeds used to pay the contractor.  
49 Such warrants may also be used to pay other persons  
50 furnishing services constituting a part of the cost

8 (74A) of the Code.

9 5. Direct the clerk to certify the final schedule  
10 to the auditor of the county or counties in which  
11 the assessed property is located, and to publish  
12 notice thereof once each week for two consecutive  
13 weeks in the manner provided in section 362.3, the  
14 first publication of which shall be not more than  
15 fifteen days from the date of filing of the final  
16 schedule. On or before the second publication of  
17 the notice, the clerk shall send by certified mail  
18 to each property owner whose property is subject to  
19 assessment for the improvement, as shown by the records  
20 in the office of the county auditor, a copy of the  
21 notice. Such notice shall also include a statement  
22 in substance that assessments may be paid in full  
23 or in part without interest within thirty days after  
24 the date of certification, and thereafter all unpaid  
25 special assessments will draw annual interest at seven  
26 percent bear interest at the rate specified by the  
27 board, but not exceeding that permitted by chapter  
28 seventy-four A (74A) of the Code, computed to the  
29 December 1 next following the due dates of the  
30 respective installments, and each installment will  
31 be delinquent on September 30 following its due date,  
32 and will draw additionally the same delinquent interest  
33 and the same penalties as ordinary taxes. Such notice  
34 shall also state substantially that property owners  
35 may elect to pay any installment semiannually in  
36 advance. If a property is shown by the records to  
37 be in the name of more than one owner at the same  
38 mailing address, a single notice may be mailed to  
39 all owners at that address. Failure to receive a  
40 mailed notice is not a defense to the special  
41 assessment.

42 The county auditor shall place on the tax list  
43 the amounts to be assessed against each lot within  
44 the assessment district, as certified.

45 Sec. 83. Section three hundred eighty-four point

1 to both principal and interest from the proceeds of  
2 the special assessments levied for the public  
3 improvement. Such bonds may bear interest at a rate  
4 not exceeding seven percent per annum that permitted  
5 by chapter seventy-four A (74A) of the Code payable  
6 annually or semiannually, must mature serially on  
7 December 1 of the years in which any of the principal  
8 is scheduled to become due, and may contain a provision  
9 that the city reserves the right and option of calling  
10 and redeeming any or all of the bonds prior to maturity  
11 on any interest payment date or within forty-five  
12 days thereafter upon the terms specified therein.  
13 Such bonds must be called "improvement bonds", must  
14 designate the general type of improvement or  
15 improvements for which issued, and may be issued in  
16 any denomination, not exceeding ten thousand dollars.  
17 Bonds issued for a public improvement authorized in  
18 section 384.38, subsection 2, must be named in a way  
19 to distinguish them from other improvement bonds of  
20 the city, and to designate the property specially  
21 assessed for the improvement. Improvement bonds  
22 issued for any one levy must bear the same date and  
23 be divided into as many series as there are years  
24 in which installments of the special assessment mature,  
25 and each series must be as nearly equal in amount  
26 as practicable.

27 4. Special assessment bonds must be sold at public  
28 or private sale in the manner provided by chapter  
29 75, and may not be sold for less than par value with  
30 accrued interest from date to the time of delivery,  
31 or if no bids are received at public sale, bonds  
32 bearing the same rate of interest as the special  
33 assessment may be delivered to the contractor in  
34 payment of the cost of the public improvement. The  
35 proceeds of the sale must be applied to the payment  
36 of the cost of the public improvement.

37 Sec. 84. Section three hundred eighty-four point

46 payable as to principal and interest at times and  
47 places, be subject to terms of redemption prior to  
48 maturity with or without premium, and be in one or  
49 more denominations, all as provided by the resolution  
50 of the governing body authorizing their issuance.

Page 38

1 The resolution may also prescribe additional  
2 provisions, terms, conditions, and covenants which  
3 the governing body deems advisable, consistent with  
4 the provisions of the city code, including provisions  
5 for creating and maintaining reserve funds, the  
6 issuance of additional revenue bonds ranking on a  
7 parity with such revenue bonds and additional revenue  
8 bonds junior and subordinate to such revenue bonds,  
9 and that such revenue bonds shall rank on a parity  
10 with or be junior and subordinate to any revenue bonds  
11 which may be then outstanding. Revenue bonds are  
12 a contract between the city and holders and the  
13 resolution is a part of the contract.

14 6. A city may issue pledge orders pursuant to  
15 a resolution of the governing body of the city utility,  
16 combined utility system, city enterprise, or combined  
17 city enterprise, adopted by a majority of the total  
18 number of members to which the governing body is  
19 entitled, at a regular or special meeting, ordering  
20 their issuance and delivery in payment for all or  
21 part of the cost of a project. Pledge orders may  
22 bear interest at rates not exceeding eight percent  
23 per annum that permitted by chapter seventy-four A  
24 (74A) of the Code:

25 Sec. 85. Section three hundred eighty-six point  
26 twelve (386.12), subsection four (4), Code 1979, is  
27 amended to read as follows:

29 also be made in warrants drawn on any fund from which  
30 payment for the improvement may be made. ~~The warrants,~~  
31 ~~unless paid upon presentation, draw interest at a~~  
32 ~~rate not to exceed seven percent per annum from the~~  
33 ~~date of presentation for payment.~~ If such funds are  
34 depleted, anticipatory warrants may be issued bearing  
35 a rate of interest not exceeding that permitted by  
36 chapter seventy-four A (74A) of the Code, which do  
37 not constitute a violation of section 384.10, even  
38 if the collection of taxes or income from the sale  
39 of bonds applicable to the improvement is after the  
40 end of the fiscal year in which the warrants are  
41 issued. If the city arranges for the private sale  
42 of anticipatory warrants, they may be sold and the  
43 proceeds used to pay the costs of the improvement.  
44 Such warrants may be used to pay other persons  
45 furnishing services constituting a part of the cost  
46 of the improvement.

4 exceeding seven percent per annum that permitted by  
5 chapter seventy-four A (74A) of the Code, and shall  
6 be of such form as the city council shall by resolution  
7 provide, but no city shall become indebted in excess  
8 of five percent of the actual value of the taxable  
9 property within said city, as shown by the last  
10 preceding state and county tax lists. The indebtedness  
11 incurred for the purpose provided in this section  
12 shall not be considered an indebtedness incurred for  
13 general or ordinary purposes.

29 be imposed under this section is one and one-fourth  
30 percent per month on the unpaid balance.

31 b. This subsection does not limit or restrict  
32 the manner of calculating the finance charge whether  
33 by way of add-on, discount, or otherwise, so long  
34 as the rate of the finance charge does not exceed  
35 that permitted by this subsection.

36 c. For the purposes of this subsection, an account  
37 balance arises on the date credit is granted or, if  
38 goods are delivered or services performed ten days  
39 or more after that date, with the date of commencement  
40 of delivery or performance. Any month may be counted  
41 as one-twelfth of a year, but a day is counted as  
42 one-three hundred sixty-fifth of a year. Subject  
43 to classifications and differentiations the seller  
44 may reasonably establish, a part of a month in excess  
45 of fifteen days may be treated as a full month if  
46 periods of fifteen days or less are disregarded and  
47 that procedure is not consistently used to obtain  
48 a greater yield than would otherwise be permitted.

49 d. Subject to classifications and differentiations  
50 the creditor may reasonably establish, the creditor

**Page 2**

1 may make the same finance charge on all amounts  
2 financed within a specified range. A finance charge  
3 so made does not violate this subsection if both of  
4 the following are applicable:

5 (1) When applied to the median amount within each  
6 range, the finance charge does not exceed the maximum  
7 rate permitted by this subsection.

8 (2) When applied to the lowest amount within each  
9 range, the finance charge does not produce a rate  
10 exceeding the rate calculated according to subparagraph  
11 one (1) of this paragraph by more than eight percent  
12 of the rate calculated according to subparagraph one  
13 (1) of this paragraph.

14 4. a. With respect to an open account, a creditor  
15 may contract for and receive a finance charge not  
16 exceeding that permitted in this subsection.

17 b. For each billing cycle, a charge may be made  
18 which is a percentage of an amount not exceeding the  
19 greatest of the following:

20 (1) The average daily balance of the open account  
21 in the billing cycle for which the charge is made,  
22 which is the sum of the amount unpaid each day during  
23 that cycle, divided by the number of days in that  
24 cycle. The amount unpaid on a day is determined by  
25 adding to the balance, if any, unpaid as of the  
26 beginning of that day all debits and deducting all  
27 credits received as of that day.

28 (2) The balance of the open account at the  
29 beginning of the first day of the billing cycle, after  
30 deducting all credits made in the cycle except credits  
31 attributable to additional debt charged to the account  
32 during the cycle.

33 (3) The median amount within a specified range  
34 including the balance of the open account not exceeding  
35 that permitted by subparagraphs one (1) or two (2)  
36 of this paragraph. A charge may be made pursuant  
37 to this paragraph only if the creditor, subject to  
38 classifications and differentiations the creditor  
39 may reasonably establish, makes the same charge on  
40 all balances within the specified range and if the  
41 percentage when applied to the median amount within  
42 the range does not produce a charge exceeding the  
43 charge resulting from applying that percentage to  
44 the lowest amount within the range by more than eight  
45 percent of the charge on the median amount.

46 c. If the billing cycle is monthly, the charge  
47 may not exceed an amount equal to one and one-half  
48 percent of that part of the maximum amount pursuant  
49 to paragraph b of this section which is five hundred  
50 dollars or less and one and one-fourth percent of

**Page 3**

1 that part of the maximum amount which is more than  
2 five hundred dollars. If the billing cycle is not  
3 monthly, the maximum charge for the billing cycle  
4 shall bear the same relation to the applicable monthly  
5 maximum charge as the number of days in the billing  
6 cycle bears to three hundred sixty-five divided by  
7 twelve. A billing cycle is monthly if the closing  
8 date of the cycle is the same date each month or does  
9 not vary by more than four days from the regular date.

10 5. As used in this section, open account means  
11 an account arrangement under which credit is extended  
12 from time to time and the debtor is authorized to  
13 make either partial or full payment when billed.

14 6. This section does not supersede any of the  
 15 provisions of chapter five hundred thirty-seven (537)  
 16 of the Code except sections five hundred thirty-seven  
 17 point three thousand two hundred one (537.3201) and  
 18 five hundred thirty-seven point three thousand two  
 19 hundred twelve (537.3212) of the Code, and a finance  
 20 charge imposed under this section is a finance charge  
 21 as defined and used in chapter five hundred thirty-  
 22 seven (537) of the Code. This section does not  
 23 authorize the compounding of a finance charge.

24 7. The finance charge authorized by this section  
 25 is in lieu of interest or a finance charge which may  
 26 be authorized under section five hundred thirty-five\*  
 27 point two (535.2), subsection one (1) of the Code  
 28 or any other provision of law. The rate of a finance  
 29 charge lawfully imposed under this section shall be  
 30 the rate applicable to a judgment rendered in an  
 31 action on the account, notwithstanding section five  
 32 hundred thirty-five point three (535.3) of the Code.

33 8. Imposing or receiving a finance charge which  
 34 is greater than that authorized by this section shall  
 35 subject the creditor to the civil and criminal  
 36 penalties provided in this chapter relating to unlawful  
 37 interest."

10 of the senate. Not more than three of the members  
11 shall be affiliated with the same political party.

12 2. Members of the commission shall serve terms  
13 ending June 30, 1984, and June thirtieth of each

18 3. The membership of the commission shall contain

15 2. Interest rates to be established by the  
16 commission under section one (1) of this Act shall  
17 be promulgated by administrative rule under chapter  
18 seventeen A (17A) of the Code. Notwithstanding section  
19 seventeen A point four (17A.4) of the Code, notice

25 circulation of not less than ten thousand subscribers  
26 in this state.

27 3. The commission shall meet as often as necessary  
28 to accomplish its duties, and shall select one of  
29 its members to serve as chairperson of the commission.

30 4. The commission may promulgate new interest  
31 rate limitations for any one or more of the sections  
32 referred to in subsection one (1) of this section  
33 from time to time as appropriate in the discretion  
34 of the commission, according to the standards con-  
35 tained in subsection five (5) of this section. Each  
36 rate established by the commission shall be in effect  
37 as of the date provided in the rule by which it is  
38 established and until superseded by a subsequent rule.

39 5. When establishing interest rate limitations  
40 under this section the commission shall comply with  
41 the following standards:

42 a. Each interest rate limitation shall be designed  
43 to encourage the free flow of funds into the lending  
44 or credit activities to which it applies, while  
45 preventing the extraction of rates of interest which  
46 in the opinion of the commission are unconscionable.  
47 The commission shall consider relevant factors,  
48 including but not limited to the costs to the  
49 industries of the lending or credit activities  
50 involved, and the risks inherent in the types of loans

Page 3

1 or credit involved.  
 2 b. Each interest rate limitation shall bear a  
 3 reasonable relationship, as determined by the  
 4 commission, to actual interest rates which prevail  
 5 in the relevant money markets, including but not  
 6 limited to interest rates payable on obligations of  
 7 the United States government, nationwide averages  
 8 for interest rates payable on mortgage loans bought  
 9 by the federal national mortgage association and  
 10 similar instrumentalities, and interest rates paid  
 11 by member banks on funds borrowed from federal reserve  
 12 banks.

13 c. The commission shall not, at any time, establish  
 14 interest rate limitations for the purpose of diverting  
 15 funds from one sector of the economy to another.

16 6. Rules adopted by the commission under this  
 17 section do not expire by reason of the failure to  
 18 reappoint or confirm new members at the expiration  
 19 of terms of office. Rules in effect upon the ex-  
 20 piration of the terms of office of members of the  
 21 commission shall continue to have effect until  
 22 superseded by rules subsequently adopted or until  
 23 repealed by subsequent legislation.

24 Sec. 3. NEW SECTION. LIMITATION. The authority  
 25 of the interest rate commission under section two  
 26 (2) of this Act is limited to the establishment of  
 27 numerical interest rate limitations. The commis-  
 28 sion shall not adopt any rule which purports to exempt  
 29 a transaction from a section of the Code limiting  
 30 the rate of interest in that transaction, or which  
 31 purports to establish classifications of transactions  
 32 other than those classifications which exist by  
 33 statute.

34 Sec. 4. NEW SECTION. JUDICIAL REVIEW. The Iowa  
 35 supreme court has exclusive original jurisdiction  
 36 under section seventeen A point nineteen (17A.19)  
 37 of the Code with respect to judicial review of rules  
 38 adopted by the commission. Pertinent provisions of  
 39 chapter seventeen A (17A) of the Code apply to those

1 Amend amendment H-5437 to House File 2492 as  
2 follows:

3 1. Page 4, by inserting after line 34 the  
4 following:

5 "Sec. Chapter five hundred thirty-five (535),  
6 Code 1979, is amended by adding the following new  
7 section:

8 **NEW SECTION. FINANCE CHARGE ON ACCOUNTS RECEIVABLE.**

9 1. Except where the parties have agreed in writing  
10 for the payment of a different finance charge or rate  
11 of interest, a creditor may charge a finance charge  
12 on the unpaid balance of an account receivable at  
13 a rate not exceeding that permitted by this section  
14 if at the time the debt arises the creditor gives  
15 the notice required by subsection two (2) of this  
16 section.

17 2. As a condition of imposing a finance charge  
18 under subsection one (1) of this section the creditor  
19 must give written notice to the debtor at the time  
20 the debt arises. The notice shall be contained on  
21 the invoice or bill of sale evidencing the transaction,  
22 and shall disclose the rate of the finance charge,  
23 and the date or day of the month before which payment  
24 must be received if the finance charge is to be  
25 avoided. With respect to open accounts, this notice  
26 must be given each time credit is extended.

27 3. a. With respect to an account other than an  
28 open account the maximum finance charge which may  
29 be imposed under this section is one and one-fourth  
30 percent per month on the unpaid balance.

31 b. This subsection does not limit or restrict  
32 the manner of calculating the finance charge whether  
33 by way of add-on, discount, or otherwise, so long  
34 as the rate of the finance charge does not exceed  
35 that permitted by this subsection.

36 c. For the purposes of this subsection, an account  
37 balance arises on the date credit is granted or, if  
38 goods are delivered or services performed ten days  
39 or more after that date, with the date of commencement  
40 of delivery or performance. Any month may be counted  
41 as one-twelfth of a year, but a day is counted as  
42 one-three hundred sixty-fifth of a year. Subject  
43 to classifications and differentiations the seller  
44 may reasonably establish, a part of a month in excess  
45 of fifteen days may be treated as a full month if  
46 periods of fifteen days or less are disregarded and  
47 that procedure is not consistently used to obtain  
48 a greater yield than would otherwise be permitted.

49 d. Subject to classifications and differentiations  
50 the creditor may reasonably establish, the creditor

## Page 2

1 may make the same finance charge on all amounts  
2 financed within a specified range. A finance charge  
3 so made does not violate this subsection if both of  
4 the following are applicable:

5 (1) When applied to the median amount within each  
6 range, the finance charge does not exceed the maximum  
7 rate permitted by this subsection.

8 (2) When applied to the lowest amount within each  
9 range, the finance charge does not produce a rate  
10 exceeding the rate calculated according to subparagraph  
11 one (1) of this paragraph by more than eight percent  
12 of the rate calculated according to subparagraph one  
13 (1) of this paragraph.

14 4. a. With respect to an open account, a creditor  
15 may contract for and receive a finance charge not  
16 exceeding that permitted in this subsection.

17 b. For each billing cycle, a charge may be made  
18 which is a percentage of an amount not exceeding the  
19 greatest of the following:

20 (1) The average daily balance of the open account  
21 in the billing cycle for which the charge is made,  
22 which is the sum of the amount unpaid each day during  
23 that cycle, divided by the number of days in that  
24 cycle. The amount unpaid on a day is determined by  
25 adding to the balance, if any, unpaid as of the  
26 beginning of that day all debits and deducting all  
27 credits received as of that day.

28 (2) The balance of the open account at the  
29 beginning of the first day of the billing cycle, after  
30 deducting all credits made in the cycle except credits  
31 attributable to additional debt charged to the account  
32 during the cycle.

33 (3) The median amount within a specified range  
34 including the balance of the open account not exceeding  
35 that permitted by subparagraphs one (1) or two (2)  
36 of this paragraph. A charge may be made pursuant  
37 to this paragraph only if the creditor, subject to  
38 classifications and differentiations the creditor  
39 may reasonably establish, makes the same charge on  
40 all balances within the specified range and if the  
41 percentage when applied to the median amount within  
42 the range does not produce a charge exceeding the  
43 charge resulting from applying that percentage to  
44 the lowest amount within the range by more than eight  
45 percent of the charge on the median amount.

46 c. If the billing cycle is monthly, the charge  
47 may not exceed an amount equal to one and one-half  
48 percent of that part of the maximum amount pursuant  
49 to paragraph b of this section which is five hundred  
50 dollars or less and one and one-fourth percent of

## Page 3

1 that part of the maximum amount which is more than  
2 five hundred dollars. If the billing cycle is not  
3 monthly, the maximum charge for the billing cycle  
4 shall bear the same relation to the applicable monthly  
5 maximum charge as the number of days in the billing  
6 cycle bears to three hundred sixty-five divided by  
7 twelve. A billing cycle is monthly if the closing  
8 date of the cycle is the same date each month or does  
9 not vary by more than four days from the regular date.

10 5. As used in this section, open account means  
11 an account arrangement under which credit is extended  
12 from time to time and the debtor is authorized to  
13 make either partial or full payment when billed.

14 6. This section does not supersede any of the  
15 provisions of chapter five hundred thirty-seven (537)  
16 of the Code except sections five hundred thirty-seven  
17 point three thousand two hundred one (537.3201) and  
18 five hundred thirty-seven point three thousand two  
19 hundred twelve (537.3212) of the Code, and a finance  
20 charge imposed under this section is a finance charge  
21 as defined and used in chapter five hundred thirty-  
22 seven (537) of the Code. This section does not  
23 authorize the compounding of a finance charge.

24 7. The finance charge authorized by this section  
25 is in lieu of interest or a finance charge which may  
26 be authorized under section five hundred thirty-five  
27 point two (535.2), subsection one (1) of the Code  
28 or any other provision of law. The rate of a finance  
29 charge lawfully imposed under this section shall be  
30 the rate applicable to a judgment rendered in an  
31 action on the account, notwithstanding section five  
32 hundred thirty-five point three (535.3) of the Code.

33 8. Imposing or receiving a finance charge which  
34 is greater than that authorized by this section shall  
35 subject the creditor to the civil and criminal  
36 penalties provided in this chapter relating to unlawful  
37 interest."

38 2. By renumbering sections and correcting internal  
39 references.

8 However upon a suspension by the commission, a

10 1. Subject to the provisions of subsection two  
11 (2) of this section, a public utility may, at any  
12 time after rates, charges, schedules or regulations  
13 have been suspended for ninety days, place in effect

26 percent per annum, and the interest shall be compounded  
27 annually.

28 2. a. The public utility shall not place into

32 more than ten percent unless the public utility

19 unit shall upon application grant a hearing pursuant  
20 to chapter seventeen A (17A) of the Code. Any appeal

37 practicable. In the proceeding, additional evidence

23 to a jury, returns an affirmative finding on both  
24 issues, the court shall sentence the defendant to  
25 death. If the jury or the court returns a negative  
26 finding on any issue, the court shall sentence the  
27 defendant to the custody of the division of adult

46 is stayed as a matter of law from the time of its

50 the conviction and sentence, the stay of the judgment

8 death. The warrant shall specifically set forth the  
9 offense and the fact of conviction, shall state the  
10 judgment and sentence of the court, shall state that

18 sentence of death. The warrant shall be directed  
19 to the director of the division of adult corrections  
20 commanding the director to cause the warrant to be  
21 executed on the date specified. The district court  
22 shall deliver the warrant to the sheriff of the county  
23 in which judgment of conviction was entered and the  
24 sheriff shall deliver the warrant and the defendant  
25 to the custody of the division of adult corrections  
26 for confinement in the state penitentiary. The  
27 director of the division of adult corrections shall  
28 acknowledge receipt of the warrant and the defendant,  
29 and the sheriff shall return the acknowledgement to  
30 the office of the clerk of court from which the warrant  
31 was issued.

32 2. Immediately after issuance of a warrant ordering  
 33 a sentence of death, the clerk of the court issuing  
 34 the warrant shall transmit by mail to the governor  
 35 a copy of the indictment, the plea, the verdict and  
 36 special findings, the judgment of the supreme court,  
 37 and the complete transcript.

38 Sec. 15. NEW RULE. EVIDENCE AT SENTENCING IN  
 39 CAPITAL MURDER CASES.

 41 sentence shall be death or life imprisonment, evidence  
 42 may be presented as to any matter which the court  
 43 deems relevant to sentence, including but not limited  
 44 to the nature, circumstances and manner of completion  
 45 of the murder, and the defendant's character,

47 2. When offered by the defendant, the court shall

31 In its review of the sentencing proceeding the supreme  
32 court shall determine all of the following:

22 penalty is delayed beyond the date specified in the  
23 warrant of execution, the court which originally  
24 sentenced the defendant shall establish a later date  
25 for execution, which shall not be more than thirty

 8 Sec. 9. NEW SECTION. DECLARATION OF NECESSITY  
 9 AND PURPOSE - LIBERAL CONSTRUCTION. The purpose of  
 10 sections eight (8) through twenty-two (22) of this  
 11 Act is to benefit the people of the state of Iowa

 14 of the state. It is essential that the people and

24 Sec. 11. NEW RULE. CAPITAL MURDER - PROCEDURE.

25 1. Upon a finding that the defendant is guilty  
26 of capital murder, the court shall conduct a separate  
27 sentencing proceeding to determine whether the  
28 defendant shall be sentenced to death or to life  
29 imprisonment. The proceeding shall be conducted in  
30 the trial court before the trial jury as soon as  
31 practicable. In the proceeding, additional evidence  
32 may be presented as to any matter which is relevant  
33 to sentence. The court shall receive when offered  
34 any evidence that is required by the rules of criminal  
35 procedure. This subsection does not authorize the  
36 introduction of any evidence secured in violation  
37 of the Constitution of the United States or of the  
38 state of Iowa. The state and the defendant or the  
39 defendant's counsel shall be permitted to cross-examine  
40 witnesses and to present argument for or against a  
41 sentence of death.

42 2. On conclusion of the presentation of the  
43 evidence, the court shall submit each of the following  
44 issues to the jury:

45 a. Whether the actual conduct of the defendant  
46 was committed with the reasonable expectation that  
47 the death of the deceased or another would result.

48 b. Whether there is a probability that in the  
49 future the defendant would commit criminal acts of  
50 violence that would constitute a continuing threat

**Page 4**

1 to society.

2 In the event the case is not tried to a jury, the  
3 court shall determine the issues.

4 3. The state must prove each issue beyond a  
5 reasonable doubt, and the jury, or the court if there  
6 is no jury, shall return a special verdict of "yes"  
7 or "no" on each issue.

8 4. If the case is tried to a jury, the court shall  
9 charge the jury that:

10 a. It shall answer any issue "yes" if it agrees  
11 unanimously.

12 b. It must answer any issue "no" if the jurors  
13 unanimously agree that the answer is "no" or if the  
14 jurors do not unanimously agree that the answer is  
15 "yes".

16 5. If the jury, or the court in actions not tried  
17 to a jury, returns an affirmative finding on both  
18 issues, the court shall sentence the defendant to  
19 death. If the jury or the court returns a negative  
20 finding on any issue, the court shall sentence the  
21 defendant to the custody of the division of adult  
22 corrections for confinement in the state penitentiary  
23 for life.

24 6. The provisions of chapters nine hundred one  
 25 (901) through nine hundred nine (909) of the Code  
 26 do not apply to a conviction of capital murder when  
 27 the defendant is sentenced to death.

28 Sec. 12. NEW RULE. AUTOMATIC REVIEW—STAY OF  
 29 JUDGMENT.

30 1. A judgment of conviction and sentence of death  
 31 shall be reviewed automatically in the manner provided  
 32 in section sixteen (16) of this Act, and the Iowa  
 33 supreme court has exclusive jurisdiction of the review.

34 2. Upon entry of judgment and sentence of death,  
 35 the sentencing court shall prepare a complete record  
 36 and transcript of the action in the manner provided  
 37 in the rules of criminal procedure and shall docket  
 38 the same with the clerk of the supreme court.

39 3. The judgment and sentence of the trial court  
 40 is stayed as a matter of law from the time of its  
 41 entry until the judgment of the supreme court is  
 42 certified to and entered by the trial court. Upon  
 43 entry of a judgment of the supreme court which affirms  
 44 the conviction and sentence, the stay of the judgment  
 45 and sentence terminates as a matter of law.

46 Sec. 13. NEW RULE. ISSUANCE OF WARRANT.

47 1. Upon entry by the district court of the judgment  
 48 of the supreme court affirming a judgment and sentence  
 49 of death, a judge of the district court shall within  
 50 five days thereafter issue a warrant under the seal

**Page 5**

1 of the court for the execution of the sentence of  
 2 death. The warrant shall specifically set forth the  
 3 offense and the fact of conviction, shall state the  
 4 judgment and sentence of the court, shall state that  
 5 the judgment and sentence was affirmed by the supreme  
 6 court and the date of entry of judgment of the supreme  
 7 court in the district court, and shall specify the  
 8 date fixed for execution of the defendant which shall  
 9 be not less than fifty nor more than sixty days after  
 10 the date of entry in the district court of the judgment  
 11 of the supreme court affirming the judgment and  
 12 sentence of death. The warrant shall be directed  
 13 to the director of the division of adult corrections  
 14 commanding the director to cause the warrant to be  
 15 executed on the date specified. The district court  
 16 shall deliver the warrant to the sheriff of the county  
 17 in which judgment of conviction was entered and the  
 18 sheriff shall deliver the warrant and the defendant  
 19 to the custody of the division of adult corrections  
 20 for confinement in the state penitentiary. The  
 21 director of the division of adult corrections shall

22 acknowledge receipt of the warrant and the defendant,  
 23 and the sheriff shall return the acknowledgement to  
 24 the office of the clerk of court from which the warrant  
 25 was issued.

26 2. Immediately after issuance of a warrant ordering  
 27 a sentence of death, the clerk of the court issuing  
 28 the warrant shall transmit by mail to the governor  
 29 a copy of the indictment, the plea, the verdict and  
 30 special findings, the judgment of the supreme court,  
 31 and the complete transcript.

32 Sec. 14. NEW RULE. EVIDENCE AT SENTENCING IN  
 33 CAPITAL MURDER CASES.

34 1. In a proceeding to determine whether the  
 35 sentence shall be death or life imprisonment, evidence  
 36 may be presented as to any matter which the court  
 37 deems relevant to sentence, including but not limited  
 38 to the nature, circumstances and manner of completion  
 39 of the murder, and the defendant's character,  
 40 background, history, mental and physical condition.

41 2. When offered by the defendant, the court shall  
 42 admit any relevant evidence respecting any of the  
 43 following mitigating circumstances:

44 a. The defendant has no significant history of  
 45 prior criminal activity.

46 b. The victim was a participant in the defendant's  
 47 homicidal conduct or consented to the homicidal act.

48 c. The murder was committed under circumstances  
 49 which the defendant believed provided a moral  
 50 justification or extenuation for the defendant's

**Page 6**

1 conduct.

2 d. The defendant was an accomplice in a murder  
 3 committed by another person and the defendant's  
 4 participation in the homicidal act was relatively  
 5 minor.

6 e. The youth of the defendant at the time of the  
 7 crime.

8 Sec. 15. Chapter eight hundred fourteen (814),  
 9 Code 1979, is amended by adding the following new  
 10 section:

11 NEW SECTION. REVIEW OF DEATH SENTENCE.

12 1. In a case in which a sentence of death is  
 13 imposed, the supreme court shall review the judgment  
 14 and sentence.

15 2. A review by the supreme court of a judgment  
 16 and sentence imposing the punishment of death has  
 17 priority over all other criminal and other actions  
 18 pending before the supreme court.

19 3. The supreme court shall review the trial and  
20 judgment, and separately shall review the sentencing  
21 proceeding. Upon determining that errors did not  
22 occur at the trial requiring reversal or modification  
23 of the judgment, the supreme court shall proceed to  
24 determine if the sentence of death is lawfully imposed.  
25 In its review of the sentencing proceeding the supreme  
26 court shall determine all of the following:

27 a. Whether the trial court committed prejudicial  
28 error in admitting or refusing to admit evidence  
29 relevant to the issue of whether or not punishment  
30 of death should be imposed.

31 b. Whether the special findings returned under  
32 subsection five (5) of section twelve (12) of this  
33 Act are supported by the evidence.

34 c. Whether the sentence of death was imposed  
35 capriciously or under the influence of prejudice or  
36 other arbitrary factor, considering both the  
37 circumstances of the crime and the defendant.

38 4. If the supreme court determines that the  
39 sentence of death was not lawfully imposed the court  
40 shall set aside the sentence and shall remand the  
41 case to the trial court for imposition of a sentence  
42 of life imprisonment.

43 5. If the supreme court affirms the judgment and  
44 sentence of death, the supreme court clerk shall  
45 certify the judgment of the supreme court under the  
46 seal of the court to the clerk of the trial court.

47 Sec. 16. The Code editor is directed to codify  
48 sections eighteen (18) through twenty-one (21) of  
49 this Act as a new chapter of the Code entitled  
50 "Execution of Death Sentence".

**Page 7**

1 Sec. 17. NEW SECTION. TIME AND MANNER OF  
2 EXECUTION.

3 1. A sentence of death shall be executed pursuant  
4 to warrant therefor at any time before the time of  
5 sunrise on the day set for the execution by causing  
6 to pass through the body of the person a current of  
7 electricity of sufficient intensity to cause death,  
8 and by the application and continuance of such current  
9 through the body of the person until dead.

10 2. The director of the division of adult  
11 corrections shall cause the execution. The executioner  
12 shall be the person appointed by the division of adult  
13 corrections for that purpose.

14 3. The execution shall take place within the  
15 confines of the state penitentiary in a room arranged  
16 for that purpose.

17 4. The following persons may be present at the  
18 execution: The director of the division or a deputy,  
19 the warden of the state penitentiary or a deputy,  
20 the executioner and persons necessary to assist the  
21 executioner in conducting the execution, two physicians  
22 including the prison physician, the spiritual advisor,  
23 if any, of the condemned, the chaplains of the division  
24 of adult corrections, a district judge, the sheriff  
25 or a deputy sheriff of the county in which the state  
26 penitentiary is situated, and any of the relatives  
27 or friends of the condemned person that the condemned  
28 person requests, not exceeding five in number.

29 5. Persons other than those specifically designated  
30 in subsection four (4) of this section, or those  
31 specifically requested by the defendant under the  
32 authority of subsection four (4) of this section,  
33 shall not be present at the execution. Notwithstanding  
34 subsection four (4) of this section, a person shall  
35 not be present at an execution if the person is less  
36 than eighteen years of age, or if the person is in  
37 possession of any device for receiving, transmitting

39 Sec. 18. NEW SECTION. DELAY OF EXECUTION - NEW  
40 WARRANT.

41 1. If the condemned person escapes after sentence  
42 and before delivery to the division of adult  
43 corrections and is not rearrested until after the  
44 time fixed for execution, any person may arrest and  
45 commit the person to the jail of the county in which  
46 he or she was sentenced. The court by whom the  
47 condemned was sentenced, on notice of such arrest  
48 being given by the sheriff, shall again appoint a  
49 time for the execution, not less than thirty days  
50 thereafter, and shall issue its warrant and the

**Page 8**

1 applicable procedures specified in sections fourteen  
2 (14) and eighteen (18) of this Act shall apply.

3 2. If the condemned person escapes after delivery  
4 to the division of adult corrections, and is not  
5 retaken before the time appointed for execution, any  
6 person may arrest and commit the person to the  
7 division. The director shall certify the fact of  
8 escape and recapture to the court in which sentence  
9 was passed and the court shall appoint a time for  
10 the execution which shall not be less than thirty  
11 days thereafter, and shall issue its warrant, and  
12 the applicable procedures specified in sections  
13 fourteen (14) and eighteen (18) of this Act shall  
14 apply.

15 3. If for any other reason execution of the death  
 16 penalty is delayed beyond the date specified in the  
 17 warrant of execution, the court which originally  
 18 sentenced the defendant shall establish a later date  
 19 for execution, which shall not be more than thirty  
 20 days after issuance of the warrant.

21 Sec. 19. NEW SECTION. RETURN OF WARRANT. On  
 22 the arrival of the date set for execution the division  
 23 shall cause the execution. In case of the death of  
 24 any condemned person before the time for execution  
 25 arrives, or if the person is pardoned or his or her  
 26 sentence is commuted by the governor, no execution  
 27 shall be held. In all cases, the director of the  
 28 division of adult corrections shall return the warrant  
 29 and certificate with a statement of any such act and  
 30 the proceedings endorsed thereon. In the event of  
 31 execution the return shall be accompanied by a  
 32 statement showing what disposition was made of the  
 33 body. Return shall be made to the clerk of the court  
 34 in which the sentence was passed, who shall record  
 35 the warrant and return in the docket of the court.

36 Sec. 20. NEW SECTION. DISPOSITION OF BODY. The  
 37 body of a person who has been executed shall be  
 38 embalmed immediately at the direction of the director  
 39 of the division of adult corrections. If the body  
 40 is demanded or requested by a relative or bona fide  
 41 friend within forty-eight hours after execution, it  
 42 shall be delivered to the relative or bona fide friend.  
 43 The recipient of the body shall pay a fee of not to  
 44 exceed twenty-five dollars to the mortician for his  
 45 or her services in embalming the body and the mortician  
 46 shall issue a written receipt to the recipient. If  
 47 the body is not delivered to a relative or bona fide  
 48 friend, the director shall cause the body to be buried,  
 49 and the fee for embalming and burial shall be paid  
 50 by the county where the condemned person was indicted."

2 759 as follows:

3 1. Page 1, by striking lines 4 through 28 and  
4 inserting in lieu thereof the following:

5 "Section 1. Section four hundred twenty-two point  
6 forty-five (422.45), Code 1979, is amended by adding  
7 the following new subsection:

8 **NEW SUBSECTION.** Sales and use taxes paid on  
9 purchases of industrial machinery and equipment,  
10 including replacement parts which are depreciable  
11 for state and federal income tax purposes, and on  
12 purchases of agricultural buildings as tangible  
13 personal property or building materials becoming an  
14 integral part of agricultural buildings which are  
15 used for agricultural purposes, shall be refunded  
16 to the purchaser provided all of the following  
17 conditions are met:

18 a. The tax shall have been collected by the  
19 retailer or timely paid to the department if section  
20 four hundred twenty-three point fourteen (423.14)  
21 of the Code is applicable.

22 b. Any industrial machinery and equipment shall  
23 be directly and primarily used in processing tangible  
24 personal property in the manner described in section  
25 four hundred twenty-eight point twenty (428.20) of  
26 the Code.

27 c. The industrial machinery and equipment shall  
28 be real property within the scope of section four  
29 hundred twenty-seven A point one (427A.1), subsection  
30 one (1), paragraph e, of the Code and shall be subject  
31 to taxation as real property.

32 d. The agricultural buildings must be assessed  
33 as agricultural property for property tax purposes  
34 and subject to taxation as real property.

35 e. Agricultural buildings, once erected, are  
36 directly and primarily used in the processing or  
37 storage of grain, hay or silage or are directly and  
38 primarily used in the production of livestock or  
39 primarily used for the storage and shelter of farm

41 However, the provisions of Acts of the Sixty-eighth  
42 General Assembly, 1979 Session, chapters eighty-four  
43 (84) and one hundred three (103) which result in the  
44 exemption from taxation of property otherwise  
45 qualifying for this exemption shall not preclude the  
46 property from receiving the benefits of this section.

47 Any sales and use tax paid on hand tools shall  
48 not be eligible for a refund. Any sales and use tax  
49 paid on pollution control equipment qualifying under  
50 paragraphs a and b of this subsection shall be eligible

1 for a refund. Any sales and use tax paid on industrial  
2 machinery and equipment, including pollution control  
3 equipment, within the scope of section four hundred  
4 twenty-seven A point one (427A.1), subsection one  
5 (1), paragraphs h and i, of the Code shall not be  
6 eligible for refund.

7 Where sales or use taxes have been paid on purchases  
8 of tangible personal property qualifying for refund  
9 under this subsection by any contractor who is  
10 obligated to pay the tax under section four hundred  
11 twenty-two point forty-two (422.42), subsection nine  
12 (9), of the Code or chapter four hundred twenty-three  
13 (423) of the Code, and upon which sales or use tax  
14 has been paid, in the fulfillment of a contract, the  
15 contractor shall state under oath on forms provided  
16 by the department or on forms approved by the  
17 department, a description of the tangible personal  
18 property and the amount of sales or use tax which  
19 has been paid on the tangible personal property.  
20 The forms shall be filed by the contractor with the  
21 person for whom the contract was performed by the  
22 contractor prior to final settlement on the contract.  
23 The person for whom the contract was performed shall  
24 be entitled to the refund of any sales and use taxes  
25 paid by the contractor and shall file the forms,  
26 accompanied by an application for refund, with the  
27 department to claim the refund. Any contractor who  
28 willfully files a false report of sales and use taxes  
29 paid shall, upon conviction, be guilty of a simple  
30 misdemeanor and shall also be liable for the payment  
31 of any taxes due, including penalty and interest.

32 Annual claims for refund of taxes shall be filed  
33 with the department of revenue within six months  
34 following the end of the prior fiscal year. The claim  
35 is limited to tax collected during the prior fiscal  
36 year by the retailer, or if the provisions of section  
37 four hundred twenty-three point fourteen (423.14)  
38 of the Code are applicable, to tax timely paid during

41 applicable sales and use tax statutes relating to  
42 assessments, audits, collections, liens, administrative  
43 review, and judicial review.

44 For the fiscal year beginning July 1, 1980 and  
45 ending June 30, 1981, a refund of one-third of the  
46 sales or use tax paid on qualifying machinery and  
47 equipment and qualifying tangible personal property  
48 used for agricultural purposes shall be allowed.  
49 For the fiscal year beginning July 1, 1981 and ending  
50 June 30, 1982, a refund of two-thirds of the sales

1 or use tax paid on qualifying machinery and equipment  
2 and qualifying tangible personal property used for  
3 agricultural purposes shall be allowed. Beginning  
4 July 1, 1982 and each year thereafter, a refund of  
5 the total amount of sales and use tax paid on  
6 qualifying machinery and equipment and qualifying  
7 tangible personal property used for agricultural  
8 purposes shall be allowed.

9 There is appropriated from the general fund of  
10 the state for the fiscal year beginning July 1, 1980

12 comptroller the sum of six million (6,000,000) dollars  
13 to carry out the purposes of this Act. There is  
14 appropriated from the general fund of the state for  
15 the fiscal year beginning July 1, 1981 and ending  
16 June 30, 1982 to the office of the state comptroller  
17 the sum of twelve million (12,000,000) dollars to  
18 carry out the provisions of this Act. There is  
19 appropriated from the general fund of the state for  
20 the fiscal year beginning July 1, 1982 and ending  
21 June 30, 1983, and for each succeeding fiscal year,  
22 to the office of the state comptroller the sum of  
23 eighteen million (18,000,000) dollars to carry out  
24 the provisions of this Act. If, for any fiscal year  
25 the amount appropriated under this Act is insufficient  
26 to pay in full the amounts due on all claims filed  
27 for refund of sales and use taxes paid during a fiscal  
28 year, then the amount of each claim for refund shall  
29 be reduced by the same percentage, so that the  
30 aggregate payments on all claims for refund shall  
31 be equal to the amount appropriated for the payments.

32 Annually, the director of revenue shall certify  
33 and forward to the state comptroller the amount of  
34 refund which each taxpayer is entitled to receive  
35 under this section.

36 Sec. 2. The provisions of this Act shall be  
37 effective July first following enactment for refund  
38 of taxes on qualifying industrial machinery and  
39 equipment and qualifying tangible personal property

23 (135C), Code 1979, is amended by adding the following  
24 new section:

25 NEW SECTION. OPERATION OF FACILITY UNDER  
26 RECEIVERSHIP. When so authorized by section one  
27 hundred thirty-five C point eleven (135C.11),  
28 subsection two (2), or section one hundred thirty-  
29 five C point twelve (135C.12), subsection one (1),  
30 of the Code, the commissioner may file a verified  
31 application in the district court of the county where  
32 a health care facility licensed under this chapter  
33 is located, requesting that an individual nominated  
34 by the commissioner be appointed as receiver for the  
35 facility with responsibility to bring the operation  
36 and condition of the facility into conformity with  
37 this chapter and the rules or minimum standards  
38 promulgated under this chapter.

39 1. The court shall expeditiously hold a hearing  
40 on the application, at which the commissioner shall  
41 present evidence in support of the application. The  
42 licensee against whose facility the petition is filed  
43 may also present evidence, and both parties may  
44 subpoena witnesses. The court may appoint a receiver  
45 for the health care facility in advance of the hearing  
46 if the commissioner's verified application states  
47 that an emergency exists which presents an imminent  
48 danger of resultant death or physical harm to the  
49 residents of the facility. If the licensee against  
50 whose facility the receivership petition is filed

**Page 3**

1 informs the court at or before the time set for the  
2 hearing that the licensee does not object to the  
3 application, the court shall waive the hearing and  
4 at once appoint a receiver for the facility,

5 2. The court, on the basis of the verified  
6 application and evidence presented at the hearing,  
7 if one is held, shall direct in its order either that  
8 the receiver assume the duties of administrator of  
9 the health care facility or that the receiver supervise  
10 the facility's administrator in conducting the day-  
11 to-day business of the facility. The receiver shall  
12 be empowered to control the facility's financial  
13 resources and to apply its revenues as the receiver  
14 deems necessary to the operation of the facility in  
15 compliance with this chapter and the rules or minimum  
16 standards promulgated under this chapter, but shall  
17 be accountable to the court for management of the  
18 facility's financial resources.

19 3. A receivership established under this section  
 20 may be terminated by the district court which  
 21 established it, after a hearing upon an application  
 22 for termination. The application may be filed:  
 23 a. Jointly by the receiver and the current licensee  
 24 of the health care facility which is in receivership,  
 25 stating that the deficiencies in the operation,  
 26 maintenance or other circumstances which were the  
 27 grounds for establishment of the receivership have  
 28 been corrected and that there are reasonable grounds  
 29 to believe that the facility will be operated in com-  
 30 pliance with this chapter and the rules or minimum  
 31 standards promulgated under this chapter.  
 32 b. By the current licensee of the facility,  
 33 alleging that termination of the receivership is  
 34 merited for the reasons set forth in paragraph a of  
 35 this subsection, but that the receiver has declined  
 36 to join in the petition for termination of the  
 37 receivership.  
 38 c. By the receiver, stating that all residents  
 39 of the facility have been relocated elsewhere and  
 40 that there are reasonable grounds to believe it will  
 41 not be feasible to again operate the facility on a  
 42 sound financial basis and in compliance with this  
 43 chapter and the rules or minimum standards promulgated  
 44 under this chapter, and asking that the court approve  
 45 surrender of the facility's license to the department  
 46 and subsequent return of control of the facility's  
 47 premises to the owners of the premises.  
 48 4. Payment of the expenses of a receivership  
 49 established under this section shall be the  
 50 responsibility of the facility for which the receiver

**Page 4**

1 is appointed, unless the court directs otherwise.  
 2 5. This section does not:  
 3 a. Preclude the sale or lease of a health care  
 4 facility, and the transfer or assignment of the  
 5 facility's license in the manner prescribed by section  
 6 one hundred thirty-five C point eight (135C.8) of  
 7 the Code, while the facility is in receivership,  
 8 provided these actions are not taken without approval  
 9 of the receiver.  
 10 b. Affect the civil or criminal liability of the  
 11 licensee of the facility placed in receivership, for  
 12 any acts or omissions of the licensee which occurred  
 13 before the receiver was appointed."

 10 eight (535.8), subsection two (2), Code 1979, is  
 11 amended by adding the following new lettered  
 12 paragraphs:  
 13 NEW LETTERED PARAGRAPH. If the purpose of the  
 14 loan is to enable the borrower to purchase real estate,  
 15 any provision of a loan agreement which prohibits  
 16 the borrower from transferring his or her interest  
 17 in the real estate to a third party, or any provision  
 18 which requires or permits the lender to make a change  
 19 in the interest rate, the repayment schedule or the  
 20 term of the loan as a result of a transfer by the  
 21 borrower of his or her interest in the real estate  
 22 to a third party shall not be enforceable if at the  
 23 time the borrower transfers his or her interest in  
 24 the real property, the borrower maintains all of his  
 25 or her personal liability to the lender with respect  
 26 to the loan.

27 NEW LETTERED PARAGRAPH. Notwithstanding section  
 28 six hundred twenty-eight point three (628.3) of the  
 29 Code, when a foreclosure of a mortgage on real property  
 30 results from the enforcement of a due-on-sale clause,  
 31 the mortgagor may redeem the real property at any  
 32 time within three years from the day of sale under  
 33 the levy, and the mortgagor shall, in the meantime,  
 34 be entitled to the possession thereof; and for the  
 35 first thirty months thereafter such right of redemption  
 36 is exclusive. Any real property redeemed by the  
 37 debtor shall thereafter be free and clear from any  
 38 liability for any unpaid portion of the judgment under  
 39 which the real property was sold. The right of  
 40 redemption established by this paragraph is not subject  
 41 to waiver by the mortgagor and the period of redemption  
 42 established by this paragraph shall not be reduced.  
 43 The times for redemption by creditors provided in  
 44 sections six hundred twenty-eight point five (628.5),  
 45 six hundred twenty-eight point fifteen (628.15) and  
 46 six hundred twenty-eight point sixteen (628.16) of  
 47 the Code shall be extended to thirty-three months  
 48 in any case in which the mortgagor's period for  
 49 redemption is extended by this paragraph. This  
 50 paragraph does not apply to foreclosure of a mortgage

1 if for any reason other than enforcement of a due-

 5 outstanding balance or a major part thereof upon a  
 6 transfer by the mortgagor to a third party of an  
 7 interest of the mortgagor in property covered by the  
 8 mortgage. This paragraph applies to any foreclosure  
 9 occurring on or after the effective date of this Act.  
 10 However, this paragraph does not apply if the lender

 12 NEW SUBSECTION.  
 13 a. "Annual inflation factor" means an index,  
 14 expressed as a percentage, determined by the department  
 15 each year to reflect the purchasing power of the  
 16 dollar as a result of inflation or deflation during  
 17 the preceding calendar year. In determining the

 21 United States department of labor and shall add one-  
 22 fourth for the 1979 calendar year and two-fourths

 27 between the percent change and three percent. The  
 28 annual inflation factor and the cumulative inflation  
 29 factor shall each be expressed as a percentage rounded  
 30 to the nearest one-tenth of one percent.  
 31 b. "Cumulative inflation factor" means the product  
 32 of the annual inflation factor for the 1978 calendar  
 33 year and all annual inflation factors for subsequent  
 34 calendar years as determined pursuant to this  
 35 subsection. The cumulative inflation factor shall  
 36 apply to all tax years beginning on or after January  
 37 first of the calendar year in which the latest annual

 40 calendar year is one hundred percent.

41 d. The annual inflation factor and the cumulative  
42 inflation factor shall only be computed for the 1979  
43 and 1980 calendar years.

44 e. Notwithstanding the computation of the annual  
45 inflation factor under paragraph a of this subsection,  
46 the annual inflation factor is one hundred percent  
47 for any calendar year in which the unobligated state  
48 general fund balance on June thirtieth as certified  
49 by the state comptroller by September tenth of the  
50 fiscal year beginning in that calendar year is less

## GOVERNOR'S VETO MESSAGES

May 22, 1980

The Honorable Melvin D. Synhorst  
Secretary of State  
State Capitol Building  
L O C A L

Dear Mr. Secretary:

I am enclosing House File 700, an act relating to the use of a license for the taking of fish and animals and providing penalties which, in accordance with Article III, Section 16, Constitution of the State of Iowa, I hereby disapprove and transmit to the Secretary of State.

In addressing the several hunting and fishing license issues contained in the bill, the legislature adopted language which may not accomplish the purposes it had in mind.

One provision of the bill requires other states to extend hunting, fishing and trapping rights to Iowans if they expect Iowa to grant similar privileges to their residents. The reciprocity requirement, however, applies only to bordering states. Reciprocity requirements, which are understandable and appropriate, should extend to all other states, not just Iowa's six immediate neighbors. In its limited form, this provision is discriminatory and could be challenged on constitutional grounds.

This bill is technically defective in another regard. Section 4 makes an incorrect internal reference [106.1 of the Code instead of 106.2(4)] to a portion of existing law.

Perhaps most importantly, the bill errs in its restrictions on fisherman who are required to have trout stamps. Legislative authors apparently intended to require youngsters, who otherwise are not required to have a fishing license or trout stamp, to be accompanied in their trout fishing by an adult who does have a stamp and to include a youngster's catch within the limit of that adult. However, the language finally adopted goes far beyond that. All persons presently exempted from the fishing license and trout stamp requirements would now be covered — not just the targeted youngsters. The group most obviously affected would be Iowa landowners and their children who have never previously been required to have licenses and stamps. Since 243 of the 284 miles of trout streams in the state are privately owned, this new, unintended requirement would be a substantial departure from our treatment of farmers and other landowners on their own land. The Conservation Commission doesn't need the chore of enforcing this public relations disaster.

Because of these flaws, I cannot sign this bill. However, I am mindful of the fact that this measure covered an additional subject of sensitivity, steel shot requirements for hunting waterfowl.

The Conservation Commission adopted rules this spring greatly restricting the use of lead shot and requiring steel shot. These rules have been delayed for further study by the Administrative Rules Review Committee. The legislature itself has in this bill concluded the proposed restrictions are too extensive. This legislation limits the Commission's lead shot restrictions to certain areas, a compromise which appears reasonable until the steel shot versus lead shot controversy is resolved nationally. We have urged the Conservation Commission to accept the legislature's decision on steel shot and promulgate rules as if the bill had become law. This will avoid unnecessary disputes over the rulemaking process in the upcoming months.

With this consideration in mind and for the reasons mentioned earlier, I hereby respectfully disapprove this House File 700.

Sincerely,  
Robert D. Ray  
Governor

Dear Mr. Secretary:

I am enclosing House File 315, an act to provide a maximum statute of limitations for actions arising out of improvements to real property which, in accordance with Article III, Section 16, Constitution of the State of Iowa, I hereby disapprove and transmit to the Secretary of State.

This bill provides a 15-year time limit on the bringing of suits based on tort and implied warranty and for contribution and indemnity against any person whose act or omission is alleged to have caused injury arising out of the unsafe or defective condition of an improvement to real property. The purpose behind this statute of limitation is that, after the passage of the statutory period, no recovery for injury or damage that might occur can be obtained from the parties who designed and built the project.

Technically, a statute of limitation, such a law is usually called a statute of repose. These are rare in the law as they begin to run against the bringing of a suit before an injury to a person or damage to property even occurs.

It is the potential and actual harm to an innocent victim which I must judge against the arguments of the professional persons who would like to be protected against law suits after a limited period of time.

Essentially two arguments are made in support of this bill:

— basic fairness; records are difficult to maintain and assemble after 15 years to defend adequately suits involving projects designed and built many years earlier.

— when persons who have designed or constructed improvements to real property retire they could avoid carrying "tail" insurance coverage after 15 years of retirement and be relieved of annual insurance premiums.

People familiar with this kind of litigation know the formidable hurdles an injured party has in supporting a cause of action at any time, let alone more than 15 years following a negligent act or breach of an implied warranty. The records and other information relating to the alleged defective property are not in the hands of the injured party but of the designer or builder. The test of basic fairness is not met by cutting off the right to sue with no opportunity to determine if that builder or designer may be liable.

The proponents of this bill admit there would be no reduction in insurance premiums if this bill becomes law, nor do we find evidence that coverage is not available.

The burden of persuasion rests with advocates of change and in this case it is not met.

The second argument in support of this bill deserves thoughtful attention. As I understand the problem, architects or engineers may retire, say at age 65, and must still carry for the rest of their life "claims made" errors and omissions insurance for any negligence committed or warranties made during their practice. They contend if this bill becomes law, they could discontinue coverage at 80 because 15 years would have elapsed since the last improvement was designed or built. This "tail" coverage evidently costs in excess of \$1,000 per year and carries a substantial deductible.

Supporters of this bill further contend there are very few, if any, claims filed after 15 years and back this up with statistics compiled by a leading underwriting and liability research firm and submitted to the Iowa Engineering Society in 1976.

If there are no claims then the coverage ought to be very inexpensive after 15 years. As this statute of repose does not stop law suits based on express warranty or continuing negligence, a responsible professional will be carrying "claims made" coverage for life anyway.

Further, no statistics have been advanced to show that carving noncontinuing tort duties and implied warranty coverages out of the professional insurance package will reduce the premiums for retired persons.

Nevertheless, I will be asking the Commissioner of Insurance to study and recommend alternatives which might be available to permit lower cost "tail" insurance coverage for those who retire from active practice.

Other aspects of this bill also raise questions:

— it is difficult to determine when an act or omission occurred. Litigation and evidentiary discovery measures will almost always be required to determine if there is a valid claim based upon expressed warranty or continuing negligence. It is questionable this bill will reduce litigation.

— it cuts off rights of recovery before injury occurs. Already we require injured persons to file their claims within a two-year statutory period in personal injury cases and within five years for property damage cases from when they knew or should have known of the injury or damage.

— there is no definition of "improvement to real property". Does it include highways? Elevators? Business fixtures?

— this bill would cut off rights of recovery for structures designed and built to last 25, 40, even 50 years. The contractor, engineer or architect would be immune from suit even before the structure could be depreciated for tax purposes or the mortgage paid off. The owner couldn't even get insurance to protect the victim from the negligence of the builder or designer because he has no insurable interest.

It is for these reasons and with these doubts that I must veto this bill. The balancing of individual rights and the interests of the general public lies at the heart of the legislative process. Assuredly, we have an interest in enabling highly trained people, be they professional or craftsmen, to practice their trade with certainty as to their liability. On the other hand, I must think of those to whom circumstances has not yet brought loss of property, health or even life and who, if that loss occurs, would seek and yet find no avenue of recovery because of this bill.

I conclude the ingenuity of intelligent people can devise better mechanisms with which to protect victim and society alike.

For the reasons enumerated in this letter, I hereby respectfully disapprove this House File 315.

Sincerely,  
Robert D. Ray  
Governor

#### GOVERNOR'S ITEM VETO MESSAGES

May 20, 1980

The Honorable Melvin D. Synhorst  
Secretary of State  
State Capitol Building  
L O C A L

Dear Mr. Secretary:

I hereby transmit House File 2598, an act relating to administration, benefits, and funding of certain public retirement systems, and to make appropriations.

House File 2598 is approved May 20, 1980, with the following exceptions which I hereby disapprove.

I am unable to approve the item designated in the Act as Section 25 which reads as follows:

Sec. 25. Section ninety-seven B point fifty-nine (97B.59), Code 1979, is amended to read as follows:

97B.59 ACTUARY EMPLOYED. The department legislative council shall employ an actuary for the department to serve as its technical advisor. The compensation of the actuary and of other employees shall be fixed by the department within the appropriations made therefor and subject to the approval of the legislative council.

I am unable to approve the item designated in the Act as Section 26 which reads as follows:

Sec. 26. Section ninety-seven B point sixty-seven (97B.67), Code 1979, is amended by adding the following new subsection:

NEW SUBSECTION. It is the intent of the general assembly that the general assembly meeting in 1982 review whether there is sufficient unobligated revenue in the general fund of the state to appropriate funds to pay the benefit increases provided in sections three (3), fourteen (14) and twenty-one (21) of this Act from the general fund of the state, and if sufficient revenue is available, the general assembly shall appropriate the funds necessary.

Currently the law authorizes the Department of Job Service, which administers the IPERS system, to hire an actuary for the pension plan. Section 25 would transfer that authority to the Legislative Council and further provides that the Legislative Council must approve the compensation to be paid not only to the actuary, but all the other IPERS employees as well.

This is clearly a very blatant attempt by the legislature to assume executive authority contrary to the Constitution. The administration of IPERS requires the ability for the Executive Branch to evaluate the soundness of the system and protect its long-standing, financial integrity. An actuary is needed to do the actuarial investigations and annual actuarial valuations required by law. The actuary employed for these purposes must be free from political pressure, which employment by the legislature could jeopardize.

The legislature obviously has need for expert advice when it considers complex and technical pension legislation. It has that through the IPERS actuary. If it believes that yet another view apart from the IPERS actuary is needed, the legislature could hire its own expert. Although it does not seem needed, such an arrangement would provide for an independent analysis of reports from the IPERS office and their actuary, much like the current arrangement between the State Comptroller and the Legislative Fiscal Director.

Beyond the issue of separate actuaries, I am also concerned with the provision for determining the compensation for all employees in the IPERS office by the Legislative Council. The legislature has complete power today to review, revise and approve the budget for the IPERS office. However, the power of the purse does not provide the legislature with the right to invade the administration of an executive agency, hire its employees and determine the salaries of all its employees. As legislators are quick to

point out apparent intrusions by agencies into the legislative arena through rule-making, they should also be mindful of their tendencies to encroach into the Executive Branch of government. The setting of salaries is basic to any administration and should not be delegated to another branch of government.

Section 26 of the bill provides legislative intent to reconsider in 1982 the question of funding certain benefits this bill authorizes from the state's general fund rather than from the IPERS trust fund. The latter arrangement was finally agreed to this year after long debate and was influenced by the decline in state general fund revenues experienced late in the session.

Since the question of which source of funds should be used can always be raised with or without this section and the fact that we must continue to be cautious about incurring future obligations to the general fund, I believe it is inappropriate to keep this language in the bill. We may be hard pressed in the next biennium to meet the needs of existing state programs and responsibilities already financed from the general fund. Since actuaries have assured us that the IPERS trust fund has sufficient funds to finance all the IPERS improvements included in the bill, it appears that we can accept the arrangement approved this year. It would be unfair to mislead people into believing the source of funding will be easily changed, especially when there are so many other pressing, unmet needs.

For the above reasons, I hereby disapprove these items in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 2598 are hereby approved as of this date.

Sincerely,  
Robert D. Ray

Dear Mr. Secretary:

I hereby transmit House File 2595, an act relating to capital appropriations by reducing appropriations previously made by the general assembly, making additional appropriations for fiscal year 1980-1981, and restoring funds for the fiscal year 1981-1982 for capital improvements reduced by this act and to authorize the fair board to accept gifts and to authorize a study committee to be appointed by the legislative council.

House File 2595 is approved May 22, 1980, with the following exception which I hereby disapprove.

I am unable to approve the item designated in the act as Section 5 which reads as follows:

Sec. 5. Acts of the Sixty-eighth General Assembly, 1979 Session, chapter fourteen (14), section fifteen (15), subsection one (1), paragraph a, subparagraph one (1), is amended to read as follows:

Vetoing Section 5 has the effect of restoring the full \$3 million appropriation for the Lucas Building renovation. In light of our continued decline of state revenues which prompted the other reductions to capital projects contained in the bill, I have indicated to the Director of the Department of General Services that he should proceed with the renovation project as if only \$2 were available. This will accomplish basically the same purpose as the reduction called for in the bill but the Auditor will not be forced out of his offices.

For the above reasons, I hereby disapprove this item in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 2595 are hereby approved as of this date.

Sincerely,  
Robert D. Ray

Dear Mr. Secretary:

I hereby transmit House File 2580, an act appropriating funds to finance designated state programs and adding procedures and criteria for administering designated programs of the State Educational Radio and Television Facility Board; the School for the Deaf; the Iowa College Aid Commission; merged Area V; the State Board of Regents for capitation grants; the Commission on the Aging; the Iowa State Civil Rights Commission; the Spanish-speaking Peoples Commission; the Commission on the Status of Women; the Board of Medical Examiners; the Iowa Mental Health Authority; the Mental Health Advisory Council; the health planning agency, personal and family health services, the Community Health Division, and in-home health care grants of the State Department of Health; the elderly care program; the Iowa Department of Substance Abuse; the European Office of the Iowa Development Commission; the Energy Policy Council; the Department of Soil Conservation; the Governor's Economy Committee recommendations; the State Board of Engineering Examiners; the Iowa Beer and Liquor Control Department; the Department of Revenue; the Iowa Public Employees' Retirement System; judicial salaries and the judicial retirement system; Terrace Hill; the census data center coordinating unit; the Communications Division of the Department of General Services; the Legislative Fiscal Bureau; the Iowa Crime Commission; the road use tax fund; the State Department of Transportation; governmental subdivisions and agencies required to record instruments; the department of public safety; and the general administration, correctional personnel, community-based corrections, legal assistance program, substance abuse screening, mental health institutes, Division of Mental Health Resources, patients' personal deposit funds, Aid to Dependent Children, medical assistance, contractual services-medical carrier, children's services, state supplementary assistance, child support recoveries, Title XX, foster residential care, subsidized adoption, the Glenwood State Hospital-School, cost reimbursement for skilled, residential, and intermediate care facilities, the community integrated youth services project, support for the poor for Indians residing on the Tama county settlement, and various rules of the department of social services, prohibiting group policies of life, accident or health insurance from excluding from coverage employees and employees' spouses and dependents on the basis of their eligibility for medical assistance under Chapter Two Hundred Forty-nine A (249A) of the Code, and appropriating funds for the Merit Employment Commission and the Older Iowans' Legislature.

House File 2580 is approved May 26, 1980, with the following exceptions which I hereby disapprove.

I am unable to approve the item designated in the Act as Section 36 which reads as follows:

Sec. 36. Acts of the Sixty-eighth General Assembly, 1979 Session, chapter three (3), section four (4), subsection three (3), unnumbered paragraph two (2), is amended to read as follows:

There is established a census data center coordinating unit composed of the state librarian, a representative of the office for planning and programming, and three representatives each representing one of the state universities. The census data center coordinating unit shall provide for not less than fifty census data training sessions throughout the state, and shall negotiate a joint statistical agreement with the United States bureau of the census. The census data center coordinating unit shall be the agency designated in Iowa to approve all such agreements with the bureau of the census.

I am unable to approve that portion of Section 53 which reads as follows:

11. For a legal assistance program to provide civil legal assistance to inmates of the Iowa correctional system in matters of child custody, bankruptcy and dissolution of marriage . . . \$ 25,000 \$ 25,000

Expenditures shall be authorized by the citizens' aide office, and may include the costs of transporting prisoners, secretarial support and administrative oversight.

It was and is the intent of the general assembly that this program was established for and be continued for expenditure for civil matters of inmates, which matters occurred outside the state's institutions. Thus it is the intent of the general assembly that funds from the appropriation shall not be used for civil matters in which the inmate and the state of Iowa are adverse parties.

I am unable to approve the item designated in the Act as Section 54 which reads as follows:

Sec. 54. Acts of the Sixty-eighth General Assembly, 1979 Session, chapter eight (8), section five (5), subsection six (6), is amended by adding the following new unnumbered paragraph:

NEW UNNUMBERED PARAGRAPH. The division of adult corrections, in conjunction with other appropriate state agencies, shall continue its study of alternative means of making further improvements in the salaries and retirement benefits of corrections officers and supporting personnel, and any job reclassifications necessary to implement such improvements. The department of social services shall include recommendations necessary to implement these improvements in its 1982-1983 budget requests.

I am unable to approve that portion of Section 59 which reads as follows:

Notwithstanding the provisions of section eight point thirty-nine (8.39) of the Code, funds appropriated under this section are not subject to transfer to any other department, institution or agency. Any unencumbered or unobligated balance of any appropriation made under this section which exists on June 30, 1981 shall revert to the fund from which it was appropriated.

I am unable to approve the item designated in the Act as Section 66 which reads as follows:

Sec. 66. Acts of the Sixty-eighth General Assembly, 1979 Session, chapter eight (8), section sixteen (16), is amended to read as follows:

SEC. 16. It is the intent of the general assembly that, for the fiscal year beginning July 1, 1979, foster parent payments be increased by ten percent. It is further the intent of the general assembly that, for the fiscal year beginning July 1, 1980, foster residential care payments shall increase from fifty-five to fifty-eight dollars per day and foster group home payments shall increase from forty-four to forty-six dollars per day. It is also the intent of the general assembly that subsidized adoption rates shall be increased to the same level as the foster family home rates for the fiscal year beginning July 1, 1980.

Section 36 purports to grant to the census data center coordinating unit created last year the right to negotiate a joint federal/state statistical agreement in conjunction with the current census. This provision is both illegal and moot. Federal law provides that these agreements must be approved by the Governor — and state law cannot grant that authority to other officials. The issue is moot since such an agreement was executed by me on behalf of the State of Iowa and Daniel B. Levine, Acting Director, Bureau of the Census, U.S. Department of Commerce, on January 9, 1980. That agreement, which designated the Office of Planning and Programming as the agency to receive census information for public distribution in Iowa, cannot now be substituted with a new arrangement.

Section 53 revises several appropriations approved last year for adult corrections. One of these revisions would transfer certain administrative authority of an executive agency, the Department of Social Services, to a legislative agency, the Citizens' Aide Office, for the legal assistance program for inmates. Article III of the Iowa Constitution clearly sets forth the powers of each branch of state government. Granting administrative authority for the legal assistance program to a legislative agency would violate that separation. This item would remove from the Department of Social Services and its prison wardens a substantial amount of control over residents of their institutions.

In pursuing the civil legal assistance this section provides to inmates, the Citizens' Aide Office would be empowered to authorize expenditures for transporting prisoners, secretarial support and administrative oversight. An executive agency cannot operate effectively if it must first secure the approval of a legislative agency to carry out its day-to-day operations any more than the legislature could operate if an executive agency could step in daily to amend unilaterally bills that are being debated.

As the initiator of the Citizens' Aide Office, I support and encourage its work. However, I do not believe that its duties include administration of the executive agencies. The administrators of the Department of Social Services indicate that they will be amenable to recommendations from the Citizens' Aide Office for the use of the legal assistance fund. The item veto leaves the original appropriation for the legal assistance program intact. With cooperation between the agencies, hopefully we will have the results desired without violating the separation of power.

Section 54 would require the Division of Adult Corrections in the Department of Social Services to conduct a study on improving salaries and retirement benefits for corrections officers and supporting personnel. Furthermore, the section would mandate the Department to include the recommendations of the study in their upcoming biennial budget request to the Governor and the General Assembly. This study would directly concern mandatory subjects of collective bargaining under Iowa law. Corrections employees, whose salaries and pension benefits would be reviewed, are members of a certified bargaining unit and are represented at the bargaining table by the American Federation of State, County and Municipal Employees, Council 61. In the upcoming months, the State will be actively negotiating with that union for a collective bargaining agreement to become effective July 1, 1981. Since there is little doubt the union will demand that the State bargain on salaries, it would be inappropriate to conduct a study which concludes with an automatic request for an appropriation of funds totally outside the bargaining process. With the adoption of collective bargaining, our lawmakers must be sensitive to the fact that they cannot selectively intervene in the process without disrupting and possibly harming the negotiations. This could be the case unless the legislature exempted corrections personnel from collective bargaining — which it hasn't done, and I don't think it wants to.

In recognition of the important work corrections personnel do and the need to retain a high level of staff morale and because I do appreciate the concerns of the legislators, I am directing a study to be made relative to these items. I will ask the Office of Employment Relations in the Comptroller's Office to conduct the review with the assistance of the Department of Social Services and the Merit Employment Department.

Section 59 would restrict the authority to transfer funds appropriated for Title XIX (medicaid). I have vetoed similar transfer limitations in previous appropriation bills, including the supplemental fiscal year 1979-80 appropriation bill for Title XIX.

As I have pointed out in other veto messages, current law contains safeguards giving the legislature the opportunity to review and comment on proposed transfers. We have been responsive to these comments — indeed, several transfers have been modified or eliminated following the receipt of recommendations from legislators.

As with the earlier item veto on Title XIX funds, we believe this provision to be severable from the appropriation. Its deletion will not in any manner alter the purposes of the original appropriation, the test suggested by the Supreme Court in reviewing the legality of item vetoes. We do not anticipate making transfers from the Title XIX appropriation. As a matter of fact, there are strong indications that, if anything, Title XIX has been underfunded by the legislature and will either require a transfer to the appropriation or a supplemental appropriation next year. Section 8.39 of the Code provides for the transfer authority by the Governor and the State Comptroller. This item's restriction is an attempt to circumvent the transfer law without following the proper legislative procedure.

Section 66 contains intent language to raise the maximum payments for foster residential care and foster group homes and to increase the rates paid for subsidized adoption. The Department of Social Services received from the General Assembly funds with the intent language to raise the rates to a maximum of \$58 per day for foster residential care, \$46 per day for foster group homes and by 10 percent for subsidized adoption.

However, the wording in this section is ambiguous and probably would not accomplish the legislative intent. The language seems to establish uniform rates for the two foster care payments rather than maximum rates. These services currently have widely varying per diem rates based on their individual costs and charges. This cost-related reimbursement is appropriate and should continue. By deleting this provision, the Department, under existing authority, will follow the desired intent of the legislature and set the new maximum reimbursement rates effective July 1, 1980.

The language which was intended to raise the subsidized adoption rates by a percentage actually raises the rates to equal foster parent payments. The adoptive family's income is taken into consideration when determining the amount of subsidy payment, thus these payments do not and should not equal foster family payment rates, which are based on the needs of the child rather than on foster family income. Since it has the funds to raise subsidized adoption rates by 10 percent and has the authority to do so, the Department will establish rules implementing the increase effective July 1, 1980.

For these reasons, I hereby disapprove these items in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 2580 are hereby approved this date.

Sincerely,  
Robert D. Ray  
Governor
