Some of you were present for these sessions but for those of you who were not, the interests of these two widely separated age groups closely assimilate the concerns we have.

For example, the students introduced bills relating to such things as a study of Iowa's coal resources; both sides of the issue concerning nuclear power plants in Iowa;

minimum competency testing for high school graduation and to pass from one grade to another at the elementary and secondary levels; allowing some discretion for snow days; the long truck controversy (they favored allowing them on some of our highways); increasing the age of moped operators and requiring a course of instruction; ownership of land by nonresident aliens; young farmer loans; abortion; the right to die with dignity; both sides of the mandatory deposit law; and a limitation on state taxes with regard to inflation.

The older Iowans introduced bills relating to a temporary exemption on residential improvements; property tax deferrals to encourage the disabled and low income elderly to remain in their own homes; assistance to the elderly in meeting their heating expenses; and informal probate of estates. The major concern of the older Iowans was contained in their Bill #27, "A bill for an act to provide for medical assistance which includes eyeglasses, dentures, hearing aids, and other orthopedic and prosthetic devices for persons sixty (60) years of age and older not covered by Title XX of the Social Security Act."

As you can see, both ends of the spectrum of Iowa's population are interested in good legislation for all ages and we, who span the years encompassed by these two age groups, are and must be cognizant of their needs and desires, while taking into consideration the ability of Iowa's treasury to provide the necessary dollars.

As to our work since last May, our legislative interim committees studied, among other matters, the income tax issue, property taxes, energy availability, trucks and K-12 curriculum; all areas of interest very closely attuned to those of the students and older Iowans. From just a few of the prefilled bills, I find that members of the House of Representatives are interested in additional property tax relief for the elderly and disabled; the right to die; abortion; requiring instruction permits for the operation of motorcycles and motorized bicycles; and repeal of the mandatory deposit law. Again, ideas put forth by the students and older Iowans.

Last year the majority of us supported the income tax indexing bill in order to assist Iowans in the area of inflation and I am sure that most of us still support this issue. However, we must remember that we now will not have taxflation money to work with so it will be extremely important for everyone to look even more carefully at the instigation or expansion of any and all programs so Iowa's taxpayers get the most for their money. All of us must resist the temptation to push our pet project if we find the money is not there.

Our treasury might be assisted through recommendations found in the Governor's Economy Committee Report, a study conducted by private citizens through funding of private industry. It is our intention to carefully examine this report and enact as many of the recommendations as feasibly possible this session. As to the report itself, I'm sure when you have had an opportunity to study it, you will greatly appreciate the time and effort involved in its compilation.

We have many problems facing us this year, problems that will span partisan politics, rural-urban splits and age differences — problems that are before us today and others which will surface as we work our way through this session — problems that can only be surmounted by our working together as a cohesive unit.

We completed most of our work expeditiously last year, let us learn from that example and continue our job this year with that aura of cooperation and determination.

## REMARKS BY THE MINORITY LEADER

Avenson of Fayette addressed the House as follows:

Mr. Speaker, Ladies and Gentlemen of the House:

I'd like to welcome all of you back for this second session of the Sixty-eighth General Assembly. I hope that all of you have had a successful and rewarding interim.

Last year at this time, I pledged the assistance of the minority party in addressing certain areas of immediate concern to Iowans — declining enrollment, taxation, equal rights and elderly problems. Today, many of these problems remain. During the legislative interim, House Democrats held dozens of task force meetings throughout the state to seek the opinion and advice of Iowans on many of these important issues. We heard the concerns of hundreds of Iowans about the elderly, utility rates, property taxes, railroads, transportation problems and preservation of our natural resources. As a result, our task forces have formulated specific recommendations for legislative action in these areas. We expect that the majority party will recognize the time and thought put into this effort and give our recommendations the consideration they deserve.

We hope to see action on a number of issues which the people of Iowa are demanding and which cannot be ignored, issues such as soil conservation, loans for young farmers, energy incentives, increased elderly services so they can remain in their own homes, land use, government reorganization, credits for renters, railroad assistance, utility rate reform and commercial property taxation.

The year 1980 brings with it a difficult financial situation. Last year the Legislature increased state spending by over 13%, resulting in severe fiscal constraints this year. We want to assure that the dollars still available to us will be used to aid all Iowans, rather than providing advantage for narrow special interests.

And we intend to assure that one of our task force recommendations — income tax indexing — will not be jeopardized by imprudent fiscal decisions.

I pledge the responsible cooperation of the minority party in fulfilling our obligations to the people of Iowa, the type of cooperation which was so evident at the close of the 1979 session. But we will continue to offer alternatives to the solutions which the majority party proposes and will continue to serve as a responsible minority.

While we will not use obstructionists tactics to deliberately delay adjournment, we will not sacrifice our priorities in a stampede to end the session.

We have the responsibility of ushering in a new decade for the state of Iowa. Whether this decade is viewed in the future with pride or shame depends to a great extent upon what we accomplish in the next few months. I know that by working together we can plan a promising future for the state of Iowa.

## REMARKS BY THE MAJORITY LEADER

Halvorson of Clayton addressed the House as follows:

Mr. Speaker, Ladies and Gentlemen of the House:

A little over a year ago, we assembled here in the House chamber — full of desire and expectations — to begin the first session of the Sixty-eighth General Assembly. We had 31 new members; 26 of whom were in the new majority party caucus. Since that time, Cooper Evans has resigned to run for Congress, and we have elected from the 38th District a fine replacement in Robert H. Renken to join us 99 "Veteran" legislators for this the second session of the Sixty-eighth General Assembly.

Reference has already been made, and I reiterate, that last session — like every legislative session before it — was a special interests session. We dealt with the special interest of farmers with 100% productivity — permanent AG land corporate and alien ownership limits, inheritance tax, special interest of the elderly with eldercare, elderly tax credit and mandatory retirement, special interest of cities with urban revitalization and hotel and motel tax revisions, special interest of the home with domestic abuse, guardianship, juvenile justice, certificate of need, foster children and foster parents.

We also dealt with special interests of consumers with higher interest rates on utility refunds, share drafts, solar access, and alternate energy sources.

There were the special interests of home owners with homestead credits and limits on residential property values.

We dealt with the special interest of the environment with the hazardous waste management bill.

There was the special interest of schools with the new declining enrollment school aid formula, special interest for new jobs with incentives for property tax exemptions, industrial training funds, unemployment compensation revisions and industrial development loans.

We also dealt with the special interests for taxpayers with the balance the budget resolution, property tax limits, income tax changes with credits and deductions and indexing of our personal income taxes.

So we combined your special interests, with my special interests, and the special interests of farmers, the elderly, cities, the home, consumers, homeowners, the environment, schools, industry and labor, and the taxpayers — and we had a good session — and adjourned on time!

And now, what's ahead of us for the second session? First, we need to finish what we began last year with the solar rights access bill, inheritance taxes, reapportionment, usury, and incentives for new jobs and new industry to settle in Iowa. Transportation is a key to our economy, and we need to look at longer and heavier trucks with increased license fees, mass transit, gasohol, and our railroad branch lines. We have ignored the problem we have with soil conservation for far too long; most Iowa

farmland has already lost over 40% of its original organic matter. Sixty percent of our Iowa cropland is inadequately protected against soil erosion. We need to begin a long range program to better protect our #1 asset — the time is right! Energy — we need to be aggressive with weatherization and conservation issues, solar, tax incentives, and energy efficient buildings. Taxes — we should make our temporary indexing law permanent and begin this week to make some badly needed changes in the property tax law. We plan to begin this work Thursday. We should put the House on a budget — and we can do that this week too!

The Governor's Economy Committee — we should look at all the 102 legislative suggestions; cutting, consolidating and saving wherever we can.

And finally our fiscal plans. We need to remember that we made the decision last year to budget on a biennial basis. Apparently, not all of the departments of government heard that message. Original departmental askings for supplementals for 1980 and 1981 totaled 148 million dollars. We have some obligations for supplementals for fiscal year 1980 in energy price increases and other emergencies. Remember throughout deliberations that we appropriated for 1981 last year. We need to weigh our spending decisions carefully — spending not one gram more than we absolutely need to.

These items and more will encompass our 1980 session. It will be an important year. It's an election year. But more than anything else, let it be a year that we can look back on "in our older days" and reflect that we began on time and ended on schedule, we cooperated and worked together, we made great accomplishments, and we set the tone and directions for the eighties!!!

Welcome back — and have a good session.

The motion prevailed and the Speaker appointed as such committee Lind of Black, Holt of Clay and Perkins of Greene.

## REPORT OF COMMITTEE TO NOTIFY THE SENATE

Lind of Black Hawk, chair of the committee appointed to notify the Senate that the House was ready to receive it in joint convention, reported that the committee had performed its duty. The report was accepted and the committee discharged.

The Sergeant-at-Arms announced the arrival of the President of the Senate, the Secretary of the Senate and the honorable body of the Senate.

The President was escorted to the Speaker's station, the Secretary to the Chief Clerk's desk and the members of the Senate were seated in the House chamber.

## JOINT CONVENTION

In accordance with House Concurrent Resolution 101, duly adopted, the joint convention was called to order, President Branstad presiding.

Senator Holden of Scott moved that the roll call be dispensed with and that the President of the joint convention be authorized to declare a quorum present.

The motion prevailed.

President Branstad announced a quorum present and the joint convention duly organized.

Senator Murray of Story moved that a committee of six, consisting of three members from the Senate and three members from the House, be appointed to notify Governor Robert D. Ray that the joint convention was ready to receive him.

The motion prevailed and the President appointed as such committee Senators Murray of Story, Baugher of Polk and Calhoun of Woodbury, on the part of the Senate, and Representatives Hoffmann of Muscatine, Hall of Linn and Pope of Polk, on the part of the House.

The Justices of the Supreme Court and the Judges of the Appellate Court were escorted into the House chamber.

President Branstad introduced to the House the Honorable Howard Baker, United States Senator from Tennessee and Senate Minority Leader, as well as the Honorable Harold Stassen, former Governor of Minnesota. Both gentlemen are Republican candidates for President of the United States.

The committee waited upon Governor Robert D. Ray and escorted him to the Speaker's station.

President Branstad then presented Governor Robert D. Ray who delivered the following condition of the state message:

Mr. President, Mr. Speaker, Mr. Chief Justice, Justices And Judges, State Officials, Senators And Representatives, Guests, And Friends:

As I begin this, my eleventh Condition of the State Message, — I can quickly report that we have made some progress from one year ago. This year, the microphone works, and I don't have to hold it in my hand.

I must add that you are, indeed, a special audience. This is the largest group of people I have been among in months where someone hasn't taken a presidential straw poll.

This morning I would like to recognize two special guests who honor us with their presence. One is a former Governor from our neighboring State of Minnesota — the Honorable Harold Stassen. Our other guest is the highest elected Republican official in our nation — and the man who last week was recognized by his colleagues as the most respected person in the United States Senate — the Honorable Howard Baker of Tennessee.

We have been privileged in Iowa to host the presidential candidates. This has certainly been a special experience for all of us.

And this morning I would urge each of you who are legislators to join me in encouraging Iowans of both political parties to attend their neighborhood precinct caucuses next Monday evening, January 21.

The eyes of the whole country — and most of the world — will be on Iowa. Four years ago, less than ten percent of us took part in the caucuses. This year, let's all take part. America needs Iowa's voice.

This morning I am happy to welcome you again. As Governor, I am pleased to visit with you again. And, as a friend, I look forward to working with you again.

We start this new session in a new year, in a new decade. The 1970's are history. The 1980's are here and now. They have begun with unrest abroad — and with uncertainty here at home.

We are a people anguished and frustrated over Iran and the Soviet Union — and the inhumanity shown American hostages and the people of Afghanistan.

We are a people angered and upset about inflation — and its impact on our elderly, farmers, working men and women — on all of us.

We are a people alienated and turned off by intrusions into our lives — and the interference we so often encounter.

These things worry us. Some of them hurt us, and we want very much for them to change — for the better.

We want a country that is strong and respected. We want an economy that is sound and productive. Most of all, we want lives that are enriched and charged with purpose. We want to belong, yet we want also to be individuals — free to make our own choices — in our own way.

These are challenges we face together in the 1980's. All ten years are in front of us. We should do so much — and we can, if we so choose. By survey, seventy-nine percent of American teenagers tell us this country is still the land of opportunity. They believe there is hope here. They believe there is a bright future here. I believe they are right. And I can tell you this morning there is no better place to be in the entire country, the entire world, in the 1980's than right here — between the Mississippi and the Missouri, in this state, this place we call home — Iowa.

The writer, Anthony Harrigan, shared this perception with us last summer: "At a time when American life is full of dislocations and discomforts — gasoline shortages, truckers' strikes, and perilous economic problems, it is cheering to find communities that offer the good life. Iowa has many of these communities." He concluded, "...there is great beauty in this farming region, and a miracle of productivity unequaled elsewhere in the world."

What is so good about Iowa — what makes us so proud of Iowa, is that our people strive for excellence. Iowans don't just go through the motions. Iowans are not satisfied with mediocrity and with a job half done. Iowans want to excel, and they do.

Look at rural Iowans, and you see excellence. Iowa farmers try a little harder — and last year they reaped a billion-and-a-half bushel corn crop, the biggest yield in the history of our state, and we still remain a leader in soybeans and cattle and hog production.

Look at laboring Iowans, and you see excellence. Iowa workers are twenty-five percent more productive than the national average — and last year that fact, along with other incentives, prompted one hundred new companies to locate here, creating more jobs and keeping Iowa's unemployment rate one of the lowest anywhere.

Look at young Iowans, and you see excellence. Iowa students make an effort to learn from skilled teachers — and last year, ninety-four percent of Iowa's schools chalked up test scores at or above the national median, and a task force said, "Iowa students may be the best in the nation."

Look at Iowa events of 1979, and you see excellence. Perfect planning made it possible for Pope John Paul's visit last October 4 to be a successful, colorful, meaningful, memorable day for us all. Remember also the 45,000 Iowans who picked up millions of bottles and cans during last May's "Great Iowa Cleanup" — the biggest one-day environmental effort ever.

Look at Iowa developments during 1979, and you see excellence. Consider Iowa's leadership in gasohol sales. We are number one in America. Think about a record 213 entrants in this state's Community Betterment Program. Again, we are number one in America. Reflect on Iowa's enthusiastic efforts during the International Year of the Child. See cities like Marion using, for the first time, our new Urban Revitalization plan to save our downtown areas. And watch the new Iowa Natural Heritage Foundation which we organized this last year to save our wetlands, prairies and forest areas.

These are all examples of Iowa excellence — of people volunteering for good causes, of people working with each other, and with government, to make this a better state.

We must keep reaching for excellence in the 1980's — in our lives, in our work, in our communities, and yes, in state government. We here today have a duty to excel to give Iowans the very best, responsive service possible and to improve our good condition.

We can excel with action this year to further streamline Iowa's government. And I ask you to endorse at least ten money-saving ideas from the Governor's Economy Committee.

We can excel with action this year to further enhance Iowa's enviable energy record. And I ask you to approve renewed initiatives for gasohol, solar energy and conservation.

We can excel with action this year to further meet Iowa's human needs. And I ask you to adopt improved programs for the elderly, for the mentally ill, and for other Iowans who deserve our help.

We can excel with action this year to further save Iowa's precious soil. And I ask you to support a robust effort for soil conservation.

These and other sound ideas will work — not for the benefit of government, but for the benefit of the people of this state. These ideas are important. They are relevant. They are timely. And they highlight an agenda that stands for excellence in the 1980's.

## GOVERNMENT ECONOMY

There is no greater priority for government than to serve people and to do so efficiently. You don't need a bloated bureaucracy to have a democracy. I recognized that when I first took office and named a blue-ribbon panel of Iowa business captains to a Governor's Economy Committee. Seventy percent of their proposals are no longer just ideas — they are laws, policies and procedures saving Iowans \$50 million in taxes every year.

Last year, in my Inaugural Message, I told you I would recruit a second Governor's Economy Committee. I did that, and under the leadership of Marvin Pomerantz, sixty-one management experts from around this state spent the summer and fall examining the Executive Branch of government.

I received the Economy Committee report three weeks ago, as did you. It cites specific ways to achieve annual savings of up to \$85 million and one-time savings of \$13 million.

Those numbers are significant. This report is significant.

Many of the recommendations I can implement by executive action — and I intend to. Others require more review. But today, I submit ten practical ideas you can and should affirm. The checklist includes:

- \* Realigning the Merit Employment Department, the P.E.R. Board and other units into a Department of Personnel.
- \* Combining Department of Environmental Quality commissions and divisions into a unified structure.
- \* Merging the Spanish Speaking Peoples Commission, the Committee on Employment of the Handicapped, the Council for Children, and the Civil Rights Commission into a Department of Human Rights.
- \* Abolishing the Crime Commission and moving its grant and planning activities to the Department of Public Safety.
- \* Absorbing the Occupational Safety and Health Review Commission into the Industrial Commissioner's Office.
- \* Shifting the Mississippi River Parkway Commission to the Development Commission.
- \* Using a weight/value formula to set truck registration fees.
- \* Consolidating the state's motor pool and highway safety efforts.
- \* Centralizing vehicle theft enforcement in the Department of Public Safety.
- \* And, pooling the administration of licensing boards while establishing biennial licensing.

These are openers. These are cost-cutting ideas you can easily approve this year. There might well be others,

The men and women of the Governor's Economy Committee and Iowans who want more efficient, more effective government join me in urging your action this session, this year.

### ENERGY

Of Iowa's many success stories in the '70's, few can match the progress we have made with energy. We began working long before "energy crisis" entered everyone's vocabulary. We began working with the unsettling knowledge that Iowa is ninety-eight percent dependent on outside energy sources. But, we did begin working. We unleashed some talented people who have helped Iowa to log an outstanding energy record:

- We learned how to mine, clean and burn Iowa coal.
- We rebuilt 830 miles of energy-saving railroad branchlines, more than all other states combined.
- We created America's first fuel set-aside.
- We turned the corner and cut consumption of gasoline and natural gas.
- We pioneered gasohol marketing.
- We built solar collectors on the Capitol complex.
- We began an energy management program for state facilities and reduced travel.
- We provided funding for public transit.
- We weatherized 15,000 homes for low-income Iowans.
- We started energy education in our schools.

And this past year, Iowa implemented the bottle and can deposit law. It is a law that works. It is a law that is saving the equivalent of twenty million gallons of gas a year. It is a law that also has eliminated eighty to ninety percent of the litter in our state parks. And, it is a law that will stay on the books.

On deck in 1980 are several energy initiatives which should become law, including four key solar priorities:

- First, \$1 million for passive solar home demonstration grants.
- Second, new Housing Authority bonding for solar homes and weatherization.
- Third, a property tax exemption for passive solar energy systems.

- Fourth, protection of access to sunlight.

In other areas, I recommend reciprocity with other states for traffic violations, and an increase in speeding fines and truck weights to save more fuel.

I also advocate stockpiling of a state emergency fuel pool, stricter thermal and lighting efficiency standards, energy audits of all public buildings, life-cycle costing in state purchases, additional gasohol marketing, and a mandate to utilities requiring a conservation ethic.

Iowa is an energy leader today. With these 1980 endeavors, and a decade of solar progress, we can remain an energy leader in 1990.

Iowans who think seriously about our nation's energy shortage join me in urging your action this session, this year.

#### HUMAN NEEDS

Iowa's elderly people, Iowa's young people, Iowa's handicapped people, Iowa's poor people, and Iowa's troubled people all warrant special concern from government — not sympathy, but empathy.

In Iowa we have had compassion and understanding. We have begun the Elderly Tax Credit, pushed nutrition programs, and made strides in health care. The list goes on and on.

We are trying to meet one of the great tests of government — the test of whether we truly help the people we are here to serve. I am here this morning to say we cannot back off — we have an obligation to do what we can to see that these people are not wiped out as victims of inflation.

That is why today I outline for you a series of recommendations to meet human needs, including:

- Making available in other locations the model elderly service program working so well in Scott County.
- Continuing Eldercare to keep senior Iowans in their homes.
- Reorganizing Iowa's mental health system with a focus on local control, and strong standards for county care facilities.
- Beginning special services for deaf Iowans, and supporting family planning.
- Emphasizing progressive programs for juvenile offenders.
- Assuming county costs for alcohol and drug abuse treatment.
- Supporting a physical fitness program to have healthier Iowans.
- Eliminating the 24-hour notice on nursing home complaint investigations.

In addition to these items and an ongoing study of foster care, I will appoint a special task force to review long-term care for older Iowans and to give us options for the '80's.

Not everyone favors the same emphasis on meeting human needs. But none of us would favor ignoring them — and we will not ignore them.

The families of Iowans who need help and treatment join me in urging your action this session, this year.

### SOIL CONSERVATION

Next to our people, Iowa's most valuable asset is its good, rich, black soil — the very first link in the long food chain. Our soil is so vital. Listen to what Pope John Paul II told us last fall at Living History Farms, "...the land must be conserved with care since it is intended to be fruitful for generation upon generation."

What a challenge! What a challenge for you and me as we are the stewards of this land.

So let us recognize that if we want to export more grain overseas, we have to stop exporting Iowa soil to the Gulf of Mexico. Topsoil loss not only reduces the productivity of our land, it contributes to the pollution of our water and air.

We acted eight years ago with the Nation's first state cost-share soil conservation program. We have steadily expanded that effort in the years since.

Just last week I announced a major "Plant Iowa Program" to plant tens of thousands of new trees this year. That will help curb erosion — and so will more conservation education, planning, tillage, and terracing.

While we cannot do it all, we can extend our commitment to Iowa's soil, to Iowa's agriculture, and indeed to Iowa's future. Thus, today I propose a solid sixty percent boost in soil conservation funding, and consider this a "must do" priority.

Twenty short years from now, in the year 2000, Iowa will have a different Governor. Maybe! I want that Governor to be able to stand before a legislature, as I stand here today, and say, "The best soil anywhere in the world is here in Iowa." And I want that Governor to say, "Thank goodness Iowans twenty years ago had the wisdom to do something to save the soil."

Iowans who love this land, this priceless resource, and those who consume the food it produces, join me in urging your action this session, this year.

Economy, energy, human needs and soil conservation highlight my program report to you today. But other items also merit your attention.

My agenda looks at the privacy of citizens... usury... air quality standards... fire safety... trespass laws... drunk driving... and a novel way to assist family farmers.

And today I also present proposals concerning... open collective bargaining... bipartisan reapportionment... ethics... an Iowa office in the Nation's Capital... and the

"Fair Play Plan" to protect local governments. You can read the details on these and other items in the written addendum to my message.

### A BALANCED BUDGET

There is a lot more we would like to do for Iowa — but, extra money is scarce. In fact, I received a stack of requests for supplemental funding above and beyond our two-year budget you wisely adopted last session. These requests got a critical examination. And no matter how much we want to do, we cannot do everything.

Iowa's government, like its people, is ravaged by inflation the national administration cannot control. Such drastic and damaging inflation compels us to adjust our earlier budget work. So, when we started to put together this supplemental budget, the first thing we did was set aside an additional \$88 million for increased school aid — a generous slice of the pie for education.

In addition, there are some other worthy needs we can afford, and today I ask for:

- \* Funds to begin shared services at our mental health institutions and to meet fire safety standards.
- \* Construction and renovation at our three universities — Iowa, Iowa State and U.N.I.
- \* A State Medical Examiner.
- \* A new Highway Patrol post in Cedar Rapids.
- \* Support for the European trade office.
- \* Salary adjustments for state employees, and a hike in IPERS for retired workers.

The Fiscal Year 1981 budget totals \$1.9 billion. It ends with a treasury surplus of \$60 million — a responsible minimum to make government work.

The grain embargo, inflation, and other economic hazards complicate precise projections. So I caution you to keep a careful eye on revenue estimates, and a cautious attitude on recurring expenditure.

Iowa's budget is balanced. This state is in the black. And that's where we want it to be!

### TAX FAIRNESS

Your work in 1980 will cover the spectrum of issues and interests, each affecting some Iowans. But what you do, and what you do not do with taxes, affects all Iowans, their pocketbooks and the kind of service they get from their government.

This second session follows some dramatic tax actions taken in 1979. While you didn't accept all of my proposals, you agreed with my plan to rebate \$50 million to the taxpayers — the biggest tax refund in Iowa history. And, I concurred with your plan

to index the income tax and hold down taxflation. The upshot from both: our Iowans were the winners.

In 1979 the personal property tax phase-out was also resumed, representing still more tax relief for Iowans, and it should continue.

In 1980, Iowans hit hard by federally fueled inflation can be inspired by the plan to extend the fifty percent indexing of Iowa tax brackets. And I encourage you to do just that.

There are more tax items you can tackle this year to alter the upward tax trajectory.

I recommend you extend assessment limits now protecting homes and farm lands to other classes of property. Iowa's small Main Street businesses, and others, deserve consideration. Limits on commercial property, along with industrial and utility, will provide it, and save \$19 million in commercial property taxes — real help to renters also. Most of that will be offset by the state increasing school aid, providing additional assistance to cities and counties, and giving larger homestead and ag land tax credits.

I again urge you to repeal the sales tax on machinery and equipment — to give Iowa another incentive, to keep up on the competitive cutting edge, to encourage industrial location and expansion, which will stimulate more jobs for Iowa workers.

Three years ago I advocated the gas tax be set at a percentage of the pump price. While the legislature did not accept that approach, it did increase the tax by three cents. However, that increase has quickly been eclipsed by the rapid fifty percent rise in road building costs.

To address this problem, I ask that you again consider the percentage approach without an immediate increase. This, I believe, is a logical method to maintain Iowa's vital road network.

### CONSTITUTIONAL AMENDMENTS

During your session last year, you displayed some shrewd judgment. You addressed pressing problems, but you also held down taxes. I trust you will do the same this year. That is what representative government is all about. Certainly, I believe your conscientious work is a better answer than the constitutional amendment now being advanced.

So, although it is well intentioned and supported by good people, I urge you to think twice before accepting this amendment.

Later this year, in November, our citizens will vote on another amendment — to assure equal rights for Iowans. Two General Assemblies have now approved this amendment. It has my full backing. And this morning, I call upon Iowans to sustain our state's support for human rights.

Finally, it was once said that "There are no obstacles which human wisdom cannot overcome." Today... this year... this decade, we face obstacles — but they can be overcome.

We have limits on revenue. And yes, we have limits on time. But there is no limit on our imagination. There is no limit on our ingenuity. There is no limit on the "Iowa Way" of solving problems.

Look back at the decade of the 1970's if you will. Look at how much we accomplished. Look at what we created and at the excitement we enjoyed. Look at each other and at yourself. See how much we have progressed. See how far we have come. See how much we have grown.

And now, look back, if you will, just this past month. Look at the Iowa "SHARES" campaign as just one example of what Iowans can do when they put their hearts and minds to a task. Iowans understood the desperate plight of hungry, dying humans halfway around the world. Iowans could have sat back and let others cope with this crisis. They didn't. They clipped their "SHARES" coupons. And, Iowans shared some of their wealth with people we don't even know — people who looked to us as their hope for life itself.

We have discovered again that this is a place with a special spirit. Sensing, feeling, knowing that such a splendid Iowa spirit exists, our mission now is to again act in the very best interests of three million good Iowans. We cannot do any less. We can, if we choose, do a great deal more. Let's do it.

Thank you very much.

## GOVERNOR'S RECOMMENDATIONS

Recommendations submitted to the Sixty-eighth General Assembly, Second Session, in accordance with Article IV, Section 12, of the Constitution of the State of Iowa:

### **Governor's Economy Committee**

In their report the Governor's Economy Committee outlined an ambitious plan to make state government more efficient and economical in its delivery of services to the people. We should take advantage of this important contribution of top management advice by the private sector. Among the important legislative recommendations that should be addressed promptly are:

1. Realigning the Merit Employment Department, the P.E.R. Board and other units into a Department of Personnel.
2. Combining Department of Environmental Quality commissions and divisions into a unified structure.
3. Merging the Spanish Speaking Peoples Commission, the Committee on Employment of the Handicapped, the Council for Children, and the Civil Rights Commission into a Department of Human Rights.
4. Abolishing the Crime Commission and moving its grant and planning activities to the Department of Public Safety.

5. Absorbing the Occupational Safety and Health Review Commission into the Industrial Commissioner's Office.
6. Shifting the Mississippi River Parkway Commission to the Development Commission.
7. Using a weight/value formula to set truck registration fees.
8. Consolidating the state's motor pool and highway safety efforts.
9. Centralizing vehicle theft enforcement in the Department of Public Safety.
10. Pooling the administration of licensing boards while establishing biennial licensing.

### **Solar Energy Demonstration Grants**

The energy conservation value of passive solar construction techniques in homes can be most effectively demonstrated to those who build, finance and buy the estimated 10,000 new homes sold in Iowa annually. The establishment of a grant program of \$1 million will provide a means for builders to substitute passive solar homes for conventional homes in their annual major home shows. Grants of up to \$5,000 on each home to cover the incremental cost of such techniques would be provided. The exposure of energy conservation measures to thousands of attending Iowans will be a large boost to our goal of incorporating passive solar techniques in new homes to achieve a thirty percent savings in nonrenewable energy by 1983 and fifty percent by 1985.

### **Solar Property Tax Exemption**

To further encourage passive solar space conditioning and hot water heating, the property tax exemption for active solar energy systems should be extended to passive solar systems for new or newly reconstructed residences.

### **Solar and Weatherization Home Loan Program**

Legislation should be enacted authorizing the Iowa Housing Finance Authority to issue an additional \$50 million in bonds to provide low interest loans to persons to purchase and install active or passive solar systems and weatherization materials in excess of government loan requirements within new or existing housing. This program would be a major funding source to achieve the 1983 and 1985 energy savings goals in new home construction.

### **Solar Access**

Hopefully, the General Assembly will complete its consideration of solar access legislation by adopting the conference committee report to insure the usefulness of solar energy devices through voluntarily agreed upon solar access easements and covenants.

### **Increased Speeding Fines**

The national 55 mile-per-hour speed limit was enacted as a conservation measure after the 1973 oil embargo. Inflation has reduced the deterrent value of our present schedule of speeding fines. It is recommended those fines be increased to \$2 for each mile an hour over the limit with a minimum fine of \$10 for speeding 1 mph to 10 mph over the limit and \$30 for speeds 11 mph to 20 mph over the limit. Speeds 21 mph over and higher should continue to require court appearances. Both safer roads and more economical travel will be the result.

### **Joining the Nonresident Violator Compact**

The Nonresident Violator Compact between states assures nonresident motorists the same treatment accorded resident motorists receiving citations for traffic violations in a member state. Loss of license will result until the terms of an out-of-state citation are satisfied. Currently, 16 states, including Indiana and Minnesota, have already adopted the Compact and others have the Compact under active consideration.

### **Heavier Trucks**

Maximum allowable (standard) gross vehicle weights for trucks should be increased to be consistent with the designed capacity of our highways and the federally required "modified bridge formula" so long as the cost of increased highway damage due to the heavier loads is covered by additional fees. There is not expected to be an increase in truck traffic, but this does offer a possible savings of 8 million gallons of fuel annually.

### **Thermal and Lighting Efficiency Standards**

Our greatest opportunities for energy conservation are found in space conditioning practices. Those who would choose not to construct efficient buildings deprive others of needed energy resources. The legislature has seen the wisdom of this policy in recent amendments to the building code which now is applicable to a large majority of Iowans. Authority is needed to permit the adoption of realistic thermal and lighting standards for new construction throughout the state.

### **Energy Audits of Public Buildings**

Both for operational efficiency and as an example to others of our determination to be less reliant on uncertain energy resources, we should step up state and federal programs to take careful inventory of our energy usage in the over 6,000 public buildings in Iowa. Through a program of training offered by the Energy Policy Council to institutional and local government personnel, we can readily save \$12 million annually through energy conservation which will by far exceed the initial investment required. We hope all local officials would be anxious to take advantage of this offer of technical, energy-saving assistance.

### **Conservation Ethic for Utilities**

Projected rates of growth in the demand for electricity by consumers and businesses will require the equivalent of one new large generating station each of the next 20 years. We have ten existing plants now. The difficulties in assembling such

large amounts of investment capital, the lead time in construction, and the need for water and fuel all require us to explore alternative avenues to reduce energy demands toward more gradual increases. Incentives for utilities to promote and participate actively in conservation programs should be clearly stated by law. We recommend a conservation ethic be included in the criteria by which the Iowa State Commerce Commission judges the need for increases in utility rates to pay for new generating capacity.

### **Energy Efficient Government Purchasing**

Thousands of dollars can be saved simply by prudent purchasing of more energy efficient materials and products. We will establish an advisory group composed of state and local purchasing officials and private sector experts on procurement and life-cycle cost analysis. By periodic meetings and with staff support from the Energy Policy Council, opportunities to exchange information and methodology and suggest efficiency standards will be greatly enhanced.

### **Emergency Fuel Pool**

Being able to acquire an emergency supply of fuel oil last May was so valuable that we believe we can protect against certain future energy supply emergencies if the state were to own a small reserve of middle distillate fuels. Without involving any risk, trust fund monies could be used to purchase this proposed emergency fuel pool when backed with a guarantee from the general fund. We urge the legislature to explore the possible alternatives for such funding.

### **Direct Appeal of Commerce Commission Rate Decisions**

The advantage of allowing direct appeal of Commerce Commission rate decisions from the Commission to the Supreme Court is as advisable as when it was recommended last year. The costs of this litigation continue to be passed along to rate-payers because of this failure to act.

### **Gasohol**

Iowans have responded so enthusiastically to gasohol that our state is number one in gasohol sales in the nation. We want to help our grain farmers and encourage the investment in grain alcohol distilling plants. This will contribute to self-sufficiency in energy. We should continue the present level of tax exemption with a \$1 million general fund transfer to the road fund plus continued support of Development Commission promotion efforts until next year. At that time the impact of quantity production and federal gasohol policies can be assessed.

### **State Weatherization Program**

We are weatherizing homes with the use of federal money at the rate of 5,000 homes annually. More can be done, and we are awaiting word from the federal government on the elimination of their unrealistic wage restriction. Their action can eliminate the need for a state initiative.

**Mental Health Reorganization**

We are recommending a reorganization of mental health within the Department of Social Services which will be economical, efficient and will permit a sharing of programs between mental health, mental retardation, corrections, and others. This change is designed to provide increased coordination between communities and institutions, more effective transitions from institutions, and increased state funds for mental health. The structure and funding will enhance local control, will strengthen county care facility standards and will provide incentives for communities to provide local services. The new administration will take effect July, 1980, and the new funding structure in July, 1981.

**Mental Health Services for the Deaf**

Our deaf citizens face not only the same mental and emotional stresses as do those who can hear, but additional ones related to their handicap. Assistance can be provided by the State to assist these people and their families to deal with adjustment problems and with other mental health difficulties through professionally trained staff assigned to the Deaf Services Division of the Health Department.

**Substance Abuse Funding**

We recommend the State assume full funding responsibility for the treatment portion of local substance abuse programs as defined by the Substance Abuse Commission. State financing will provide local property tax relief of \$1.7 million, while still retaining a local voice in the administration of alcohol and drug abuse programs. Increased liquor revenue will offset this additional state expense.

**Eldercare**

Continued funding for Eldercare is recommended. The Commission on the Aging will issue a report on the implementation of Eldercare in February at which time program changes can be made if need be.

**Nursing Home Reimbursement**

Inflation and federally mandated minimum-wage increases have put additional stress on Iowa's nursing homes. The current state payment base can be improved and made more current by an annual increase of \$2 million in state funds to assure these providers of important health services to our elderly and handicapped.

**Shared Services**

To address the problems of convicted offenders with mental illness or retardation, we provide funds for the implementation of shared services at the Clarinda Mental Health Institute.

**Physical Fitness**

Health and fitness contribute much to good productivity and an enjoyable lifestyle. Iowa's businesses and industries are keenly interested in fitness programs for their employees. A State Physical Fitness Coordinator could work with Iowa firms and

with schools, communities and retirement centers in designing fitness programs for the benefit of all kinds of Iowans.

### **Indexing**

The indexing portion of the tax relief bill adopted in 1979 will provide \$36 million of tax cuts in FY 81. Our research indicates that because of factors such as the one-hundred percent deduction of federal income taxes on the state income tax and the great fluctuations in Iowa farm income, there may be some unintended results of full indexing. With the State already committed to additional tax relief of \$16 million in the form of extra school aid and the phase-out of the personal property tax during each of the next two years and with research that indicates fifty percent indexing eliminates most taxflation, we recommend extending the indexing bill at its current level of indexing. Two additional years of experience will put us in a much better position to make long-range decisions on indexing.

### **Assessment Limits**

We established important protection for owners of residential and agricultural property with the adoption of limits on the growth of tax valuations in 1977. Because of the property tax shift to other classes of property, we believe it would be timely to place similar assessment limits on commercial, industrial and utility property effective for January 1, 1979, values. We recommend that the State assume the cost of the savings which will result to owners of commercial property and their tenants by additional state aid for schools, increased homestead and ag land tax credits and increased municipal and county assistance. Furthermore, as has always been our belief, people locally should have the authority, if it be their choice, to use optional methods for financing their government services.

### **Repeal of Sales Tax on Machinery and Equipment**

Thirty-three of the forty-five states that impose a sales tax exempt all or part of the sale of machinery and equipment used in manufacturing. To be competitive and able to attract new industry and additional job opportunities for Iowans, the sales tax on machinery and equipment should be phased out over a three-year period. The additional investment we can attract as a result of this tax phase out can be anticipated to compensate for the expected loss of revenue.

### **Salaries**

The state's biennial salary policy was established in 1979 in conformity with the President's seven percent wage guidelines. Subsequently, in the face of an annual inflation rate of thirteen percent, the President has retreated from those guidelines. Many workers, including federal and local government and school district employees, have received pay increases which are nearer the inflation rate. The State must pay competitively if it is to attract and retain highly skilled and motivated employees. We need to recognize the current, extraordinary circumstances by providing an additional two percent salary increase to state and area school employees for the next year. In addition, certain merit classifications have not been increased to reflect changing competitive conditions. A centrally administered reclassification fund is proposed to address these high-priority needs.

**Title XX Supplement**

The local-purchased service component of the State Title XX plan faces a projected deficit for this fiscal year and the next. Since the federal government has not appropriated any additional funds for Iowa's programs, we are proposing state funds to assist in continuation of these services, which are primarily offered to the developmentally disabled.

**Capitals**

Several important capital needs can be met during the next fiscal year within our limited resources. These include:

**Department of Social Services**

- major maintenance projects
- correction of life safety deficiencies
- completion of Glenwood renovations
- shared services improvements at Clarinda

**Board of Regents**

- safety improvements and casualty losses at Iowa State University, the University of Northern Iowa and the Braille and Sight Saving School
- movable equipment for Iowa State University vet medicine remodeling project
- first phase of the speech and dramatic arts classroom building at the University of Iowa.
- road and utility renovations to complement the non-state funded Hawkeye Sports Arena at the University of Iowa

**Other Departments**

- completion of Lucas Building renovation
- completion of Supreme Court renovation

**Soil Conservation**

We must take necessary steps to preserve our soil and to challenge, encourage and assist those who have the present responsibility for the land to establish practices to accomplish this goal. Our budget includes a sixty percent increase in our first-in-the-nation soil conservation program to provide additional cost-sharing monies, additional field services for landowners, digitization of soil survey information, and a program of crop loss payments which would encourage summertime construction and, therefore, better utilization of soil-saving construction equipment and personnel.

Soil conservation is an integral portion of comprehensive land use policy. We continue to advocate a local control approach to land use issues while retaining a state perspective for critical areas.

### **Trespass**

It is desirable to redefine our current trespass law. Legislation should be adopted to prohibit a person from hunting, fishing or trapping without the permission of the owner or occupant of the land with a serious misdemeanor as the penalty for violation. This would improve landowner/hunter relationships.

### **Air Quality**

This past year the Iowa Air Quality Commission approved revisions to the Iowa State Implementation Plan as required by the Federal Clean Air Act. The U.S. Environmental Protection Agency has indicated preliminary approval of most of that plan. We successfully sought a change in EPA's unrealistic fugitive dust policy. The Senate's air quality legislation should be finished with the addition of amendments relating to conditional permits and equipment or performance standards. Passage will secure for Iowa a workable air quality policy which balances concern for the environment and people with the need for social and economic growth.

### **Road Funding**

Inflation, in particular rapidly rising energy and construction costs and reduced gasoline consumption has played havoc with the Department of Transportation's road building program. Our budget supplement recommends an allocation of \$1 million from the general fund to the Road Use Tax Fund to replace partially the revenues lost due to the gasohol tax exemption and adoption of a weight/value registration fee for light trucks such as pickups similar to that used for passenger cars. It is proposed that the damage done to highways by additional truck weights be paid for by those vehicles taking advantage of that extra weight. It is also recommended that the current fuel tax be imposed as a "percentage of the pump price."

### **Washington, D.C. Office**

Many of our budget adjustments this year are due to lost federal funds or shifting federal priorities. The fate of the state portion of federal revenue sharing is precarious. Our financial difficulties are compounded by constant administrative intervention by the federal bureaucracy. The establishment of an Iowa State Office in Washington, D.C., along with the thirty other states that maintain such offices would enhance our position with the federal government.

### **Open Public Collective Bargaining**

The need continues to amend the law governing public access to the public employment collective bargaining process. Voluntary experience has shown the participants and the public benefit from a more comprehensive application of the open meetings law to this vital public sector function.

### **Rights of Privacy and Public Documents**

The recently issued report of the Citizens Privacy Task Force stated that "the concept (of privacy) is vast and evolving, difficult to precisely define and difficult to preserve." Their legislative recommendations will doubtlessly receive your careful consideration. We will, by executive action, implement a number of the standards set forth in that report and urge all state agencies to review their current rules on the handling of government documents with the Administrative Rules Counsel in the Governor's Office.

### **Reapportionment**

The 1980 session will be the last chance to adopt a bipartisan approach for the drawing of congressional and legislative district lines prior to the time the General Assembly must face reapportionment upon completion of the 1980 census. The House has passed reapportionment legislation which will avoid gerrymandering while respecting local political boundaries. Quick action by the Senate can complete this important reform.

### **Fair Play Plan**

With state limits on property assessment growth and local government budgeting, it is only fair for the state to strive to protect local governments from unexpected and unfunded state-imposed budget increases. While drafting of the fair play plan into statute isn't easy, we need to pursue this protection for local governments. In turn we would welcome the same treatment from the federal government.

### **Ethics**

Establishing suitable restrictions and guidelines in the bribery and gift statutes remains undone resulting in uncertainty and doubt among well-intentioned public officials. The current bribery statutes should be revised and the gift statute strengthened and clarified.

### **IPERS Benefits Increase**

Inflation has been especially difficult to bear for those living on pensions and other fixed incomes. With the flexibility the current reserve in the Iowa Public Employees Retirement System (IPERS) trust fund provides, there are several changes in IPERS benefits that can be made to assist future and present retirees as well as remove some current inequities. These are:

- Increase the benefit level for future retirees from forty-six percent to forty-seven percent of the "high-five" average.
- Increase the benefit level for retirees who have retired since January 1, 1976, to forty-seven percent of the "high-five" average.
- Increase the benefits for retirees who retired prior to 1976 by a flat dollar amount based on years in public service (\$.50 per month for each of the first ten years; \$1.00 per month for each of the second ten years; \$1.50 per month for each of the third ten years).

**Drunk Driving**

Our roadways continue to be plagued by drunk drivers, one of the great hazards a driver faces. In recent years, thirty percent of all traffic fatalities have been related to the use of alcohol. Revision of the OMVUI statute is necessary to assure that the mandatory two-day jail sentence for such a violation is really mandatory. In addition, presumption of evidence legislation should be pursued.

**Housing Finance Authority Bonding**

There remains a continued need for low-interest loans to low- and moderate-income families and the elderly on fixed incomes to help meet their housing needs. A \$250 million increase in the bonding authority of the Iowa Housing Finance Authority will fund the construction of 3,000 single family housing units and 4,000 apartment units for the low-income and elderly. Prompt approval should be given to this request.

**Fire Safety**

Smoke detectors have proven to be an effective early warning system, and they have saved countless lives. Legislation to require smoke detectors in new and existing apartment houses, hotels, motels and rooming houses could well save more Iowans from the tragic circumstances of a fire at a minimal cost.

**Family Farm Development Act**

Double-digit inflation has increased the cost of farm land, equipment and livestock causing farm operators, particularly beginning farmers, to require ever-increasing credit to finance their operations. Actions by the federal government have further complicated the problem by tightening the money supply and increasing the cost of credit. The Family Farm Development Act is designed to channel funds at reasonable interest rates into the farm credit market to those who need them most. This program would involve existing banks, the Farmers Home Administration guaranteed loan program and a proposed State Authority to issue tax-free agriculture revenue bonds to the public through the municipal bond market. The Family Farm Development Act offers substantial relief to the agricultural credit problem, both for small and medium size ongoing farm operations, and for those who wish to pursue an agricultural career but do not yet have the initial capital to do so.

**Residency Requirements for Teachers**

We're past the time when public employees should be required to live within the community or district in which they work. The Senate bill eliminating residency requirements for the teaching profession deserves passage by the House.

**Usury**

There perhaps has never been a more unsettled time with interest rates than we have seen during the past six months. Some suggest that when interest rates reach fourteen to fifteen percent on mortgages, people shouldn't borrow. Be that as it may, in a free society individuals who have available advice from realtors and lenders should be free to buy or sell homes as they themselves determine. The federal government has already preempted state usury limits on a temporary basis. That approach seems to be

working. Rather than rely on continued federal preemption, we should eliminate the usury limit for residential mortgage loans.

#### **Mechanic's Liens**

A measure of protection from misunderstandings by innocent property owners arising under Iowa's mechanic's lien law can be afforded if the General Assembly completes consideration of legislation requiring a supplier of material or labor to give notice to consumers in writing of the possibility of a mechanic's lien.

#### **Products Liability**

Last year we called for the creation of an interim joint underwriting authority to provide basic coverage on products liability and to require specific data from insurance carriers. Such legislation was not forthcoming. In the meantime, we note that policy coverage is now much more available and at a competitive price. The Insurance Commissioner has required all Iowa casualty companies to submit certain data relating to products liability risks. That information will be available after May 1.

Governor Robert D. Ray was escorted from the House chamber by the committee previously appointed.

Halvorson of Clayton moved that the joint convention be now dissolved.

The motion prevailed.

The House reconvened, Speaker Millen in the chair.

12 however, other provisions of the Code providing special

32 as provided in section 443.2 as "actual value"

33 Whenever any board of review or other tribunal

11 taxable value, of all the taxable property within  
12 the county and each political subdivision shall be  
13 transcribed from the books and records of assessment  
14 onto the tax list in order that the actual value of  
15 the taxable property within the county or a political

1 Amend House File 2072 as follows:

2 1. Page 2, by inserting after line 22 the following  
3 new section:

4 "Sec. . Section four hundred forty-one point  
5 twenty-one (441.21), subsection five (5), Code 1979,  
6 as amended by Acts of the Sixty-eighth General

7 Assembly, 1979 Session, chapter twenty-five (25),  
8 section five (5), is amended to read as follows:  
9 5. For valuations established as of January 1,  
10 1979, the percentage of actual value at which  
11 agricultural and residential property shall be assessed  
12 shall be the quotient of the dividend and divisor  
13 as defined in this section. The dividend for each  
14 class of property shall be the dividend as determined  
15 for each class of property for valuations established  
16 as of January 1, 1978, adjusted by the product obtained  
17 by multiplying the percentage determined for that  
18 year by the amount of any additions or deletions to  
19 actual value, excluding those resulting from the  
20 revaluation of existing properties, as reported by  
21 the assessors on the abstracts of assessment for 1978,  
22 plus six percent of the amount so determined. However,  
23 if the difference between the dividend so determined  
24 for either class of property and the dividend for  
25 that class of property for valuations established  
26 as of January 1, 1978, adjusted by the product obtained  
27 by multiplying the percentage determined for that  
28 year by the amount of any additions or deletions to  
29 actual value, excluding those resulting from the  
30 revaluation of existing properties, as reported by  
31 the assessors on the abstracts of assessment for 1978,  
32 is less than six percent, the 1979 dividend for the  
33 other class of property shall be the dividend as  
34 determined for that class of property for valuations  
35 established as of January 1, 1978, adjusted by the  
36 product obtained by multiplying the percentage  
37 determined for that year by the amount of any additions  
38 or deletions to actual value, excluding those resulting  
39 from the revaluation of existing properties, as  
40 reported by the assessors on the abstracts of  
41 assessment for 1978, plus a percentage of the amount  
42 so determined which is equal to the percentage by  
43 which the dividend as determined for the other class  
44 of property for valuations established as of January  
45 1, 1978, adjusted by the product obtained by  
46 multiplying the percentage determined for that year  
47 by the amount of any additions or deletions to actual  
48 value, excluding those resulting from the revaluation  
49 of existing properties, as reported by the assessors  
50 on the abstracts of assessment for 1978, is increased

**Page 2**

1 in arriving at the 1979 dividend for the other class  
2 of property. The divisor for each class of property  
3 shall be the total actual value of all such property  
4 in the state in the preceding year, as reported by  
5 the assessors on the abstracts of assessment submitted

6 for 1978, plus the amount of value added to said total  
 7 actual value by the revaluation of existing properties  
 8 in 1979 as equalized by the director of revenue  
 9 pursuant to section 441.49. The director shall utilize  
 10 information reported on abstracts of assessment  
 11 submitted pursuant to section 441.45 in determining  
 12 such percentage. For valuations established as of  
 13 January 1, 1980, and each year thereafter, the  
 14 percentage of actual value as equalized by the director  
 15 of revenue as provided in section 441.49 at which  
 16 agricultural and residential property shall be assessed  
 17 shall be calculated in accordance with the methods  
 18 provided herein including the limitation of increases  
 19 in agricultural and residential assessed values to  
 20 the percentage increase of the other class of property  
 21 if the other class increases less than the allowable  
 22 limit adjusted to include the applicable and current  
 23 values as equalized by the director of revenue, ~~except~~  
 24 that any references to six percent in this subsection  
 25 shall be four percent."

 35 as amended by Acts of the Sixty-eighth General

 37 section five (5), is amended to read as follows:

38 8. For valuations established as of January 1,  
 39 1979, against which taxes will be levied for the  
 40 fiscal year beginning in the 1979 calendar year by  
 41 any special charter city that levies and collects  
 42 its own taxes, the percentage of actual value at which  
 43 agricultural and residential property shall be assessed  
 44 shall be the quotient of the dividend and divisor  
 45 as defined in this section. The dividend for each  
 46 class of property shall be the valuation for each  
 47 class of property for valuations established as of  
 48 January 1, 1978, and upon which any special charter  
 49 city levied its taxes in 1978, adjusted by the product  
 50 obtained by multiplying the percentage determined

1 for that year by the amount of any additions or  
 2 deletions to actual value, excluding those resulting  
 3 from the revaluation of existing properties, as  
 4 reported by the assessor on the abstract of assessment

5 for 1978, plus six percent of the amount so determined.  
6 The divisor for each class of property shall be the  
7 total actual value of all such property in the city  
8 in the preceding year, as reported by the assessor  
9 on the abstract of assessment submitted for 1978,  
10 plus the amount of value added to said total actual  
11 value by the revaluation of existing properties in  
12 1979. However, if the estimated statewide growth  
13 in assessed valuation is less than six percent for  
14 either class of property for 1979, the director shall  
15 estimate the percentages by which the statewide  
16 valuation of residential and agricultural property  
17 will increase in 1979. The lower percentage shall  
18 be used in lieu of six percent for both classes of  
19 property in calculating the percentages at which  
20 agricultural and residential property shall be  
21 assessed. The percentage at which agricultural and  
22 residential property shall be assessed will be  
23 certified by the director on or before May 31, 1979  
24 to the appropriate city official in special charter  
25 cities that levy and collect their own taxes. The  
26 percentage so certified shall be applicable only to  
27 those valuations against which the special charter  
28 city levies its own tax. For valuations established  
29 as of January 1, 1980, and each year thereafter for  
30 any special charter city that levies and collects  
31 its own taxes, the percentage of actual value as  
32 equalized by the director of revenue as provided in  
33 section 441.49 at which agricultural and residential  
34 property shall be assessed shall be calculated in  
35 accordance with the methods provided herein adjusted  
36 to include the applicable and current values as  
37 equalized by the director of revenue, ~~except that~~  
38 ~~any references to six percent in this subsection shall~~  
39 ~~be four percent.~~ The assessor shall provide valuation  
40 information to the director of revenue sufficient  
41 for the computation of the assessment percentage by  
42 May fifteenth of each year on forms prescribed by  
43 the director of revenue."

10 be the total value of such property in the special  
11 charter city as reported by the assessors on the  
12 abstracts of assessment submitted in 1980, plus the

37 rental human habitation. Such certified value for  
38 each property shall be subject to the assessment

39 percentage determined for the class of commercial  
 40 residential property pursuant to the provisions of  
 41 this Act.”

10 auditor to carry upon the tax lists for any year,  
11 an amount of tax for any public purpose in excess  
12 of the amount certified or authorized as provided  
13 by law. The state comptroller shall prescribe and

35 the ratio of its levy to the consolidated levy before  
36 adjustment. For purposes of this subsection, the

 42 actual value of a parcel of real property in a county  
 43 which contains a special charter city which levies  
 44 and collects its own taxes, the rate of levy of that  
 45 special charter city shall be added to the consolidated  
 46 levy. If such a county must reduce its consolidated  
 47 levy, the special charter city shall also reduce its

H — 5028

- 1 Amend House File 2072 as follows:
- 2 1. Page 2, by inserting after line 22 the
- 3 following:
- 4 "Sec. . Section four hundred twenty-seven point
- 5 one (427.1), Code 1979, is amended by adding the
- 6 following new subsection:
- 7 NEW SUBSECTION. Real property assessed as
- 8 commercial property for property tax purposes which
- 9 is primarily used in the operation of a business shall
- 10 be entitled to a property tax exemption upon compliance
- 11 with this subsection of fifteen thousand dollars for
- 12 the 1979 assessment year and an amount to be determined

13 by the director of revenue under this subsection  
14 for succeeding assessment years.

15 Application for this exemption shall be filed with  
16 the assessing authority not later than April 30, 1980,  
17 for the 1979 assessment year and for succeeding  
18 assessment years not later than the first of February  
19 of the year for which the exemption is requested,  
20 on forms prescribed by the department of revenue.  
21 The application shall describe and locate the specific  
22 commercial property to be exempted and list other  
23 joint owners, partners or shareholders as required  
24 by this subsection and contain a signed affidavit  
25 stating that the property is primarily used in the  
26 operation of a business and that the joint owners,  
27 partners or shareholders listed have not been listed  
28 on another application for an exemption under this  
29 subsection for the same year. By March first of each  
30 year, the assessing authority shall certify to the  
31 director of revenue the number of eligible  
32 applications.

33 A person is entitled to receive only one exemption  
34 per year under this subsection. An exemption granted  
35 under this subsection for property jointly owned shall  
36 be deemed granted to all joint owners. An exemption

48 quotient of the dividend and divisor as defined in  
49 this paragraph. The divisor for an assessment year  
50 is the number of eligible applications filed for the

3 excluding properties referred to in section four  
4 hundred twenty-seven A point one (427A.1), subsection  
5 six (6), of the Code as finally computed for the  
6 assessment year minus a percentage of that actual  
7 value which percentage for the assessment year shall  
8 be computed by the director of revenue in the same  
9 manner as the percentage of actual value at which  
10 industrial property is assessed is computed under  
11 section three (3) of this Act.

12 The amount of the exemption computed under the  
13 previous paragraph shall be reported to the assessing  
14 authorities by April first of the assessment year

- 1     *Whereas*, Iowans do not support Russian aggression in  
 2 Afghanistan, and  
 3     *Whereas*, Iowans do support strong action by the President  
 4 showing our displeasure with Russian militarism, and  
 5     *Whereas*, President Carter has chosen to embargo grain  
 6 (primarily corn) as the major retaliatory action to date, and  
 7     *Whereas*, the net effect of such action in America is to  
 8 shift a disproportionate share of the burden onto farmers, and  
 9     *Whereas*, corn is a major commodity in Iowa agriculture and  
 10 a commodity upon which the state depends for its stable economy,  
 11 and  
 12     *Whereas*, all citizens of the country must join together and  
 13 share equally during this time of national need; *Now Therefore*,  
 14     *Be It Resolved by the House of Representatives of the State*  
 15 *of Iowa*, That the Iowa House of Representatives asks the President  
 16 of the United States and the Secretary of Agriculture to do the  
 17 following to bolster grain prices, thereby spreading the effect of

 5            countries other than the Soviet Union.

### HOUSE CONCURRENT RESOLUTION 103

By Pelton of Clinton

- 1 *Whereas*, the state of Iowa presently imports
- 2 approximately 98% of our energy resources; and
- 3 *Whereas*, our nation and state must take all possible
- 4 actions to reduce our dependence upon foreign sources of
- 5 energy; and
- 6 *Whereas*, a transition to renewable sources of energy,

7 as alternatives to petroleum, is very necessary for energy  
8 independence; and

9 *Whereas*, alcohol, produced from Iowa corn and other  
10 biomass, can be utilized as a fuel in intercombustion  
11 engines as gasohol; and

12 *Whereas*, Iowa has been the national leader in the  
13 marketing of gasohol, which has proven itself to be an  
14 effective, efficient and popular fuel; and

15 *Whereas*, the utilization of gasohol in motor vehicles  
16 reduces our dependence on imported petroleum and creates a  
17 demand for an Iowa commodity which aids our economy; and

18 *Whereas*, the state of Iowa should continue to be a  
19 national leader in energy conservation through progressive  
20 state public policy as we begin to leave the Age of

21 Petroleum: *Now Therefore*,

22 *Be It Resolved by the House of Representatives, the*  
23 *Senate Concurring*, That all state owned and operated  
24 vehicles shall henceforth be fueled with gasohol, and

26 in the state of Iowa are urged to adopt policies to utilize  
27 gasohol in their vehicle fleet, and

28 *Be It Further Resolved*, That the Governor of Iowa,  
29 the Honorable Robert D. Ray, is urged to issue an  
30 executive order to effectuate the intent of this resolution.

2 *Concurring, That the joint rules of the senate and house for*  
3 *the 1980 session of the sixty-eighth general assembly be*  
4 *amended as follows:*

5 **Rule 16**  
6 **Fiscal Notes**

7 A fiscal note shall be attached to any bill or joint  
8 resolution which reasonably could have an annual effect of  
9 at least one hundred thousand dollars or a combined total  
10 effect within five years after enactment of five hundred  
11 thousand dollars or more on the aggregate revenues,  
12 expenditures or fiscal liability of the state or its  
13 subdivisions. This rule does not apply to appropriation  
14 measures where the total effect is stated in dollar amounts.

15 The preliminary determination of whether the bill appears  
16 to require a fiscal note shall be made by the legislative  
17 service bureau which shall indicate that a bill requires a  
18 fiscal note by stamping "FISCAL NOTE REQUIRED" prominently  
19 on the bill jacket. Upon completion of the bill draft, the  
20 legislative service bureau shall immediately send a copy to  
21 the legislative fiscal director for his review.

22 When a committee reports a bill to the floor, the committee  
23 shall state in the report whether a fiscal note is or is not  
24 required.

25 The fiscal note shall be printed on the bill before  
26 introduction if practicable; and in any event the secretary  
27 of the senate or chief clerk of the house shall attach the  
28 fiscal note to the bill when the bill is reported out by a  
29 committee.

30 The legislative fiscal director shall prepare the fiscal

**Page 2**

1 note within a reasonable time after receiving the request.  
2 A copy of the fiscal note shall be filed by the legislative  
3 fiscal director, for distribution, with the secretary of the  
4 senate or the chief clerk of the house unless within one  
5 legislative day a request for a revised fiscal note is filed  
6 with the legislative fiscal director. The legislative fiscal  
7 director may request the cooperation of the state comptroller  
8 or any state department or agency. If a fiscal note is  
9 prepared by the comptroller or any state department or agency  
10 at the request of the fiscal director, that fact shall be  
11 stated in the note.

12 Each fiscal note shall state in dollars the estimated  
13 effect of the bill on the revenues, expenditures, and fiscal  
14 liability of the state during each of the first five years  
15 after enactment. Sources of funds for expenditures under  
16 the bill shall be stated, including federal funds. If the

17 fiscal director cannot make an accurate estimate, he shall  
18 state his best available estimate or shall state that no  
19 dollar estimate can be made and state concisely the reason.

20 The fiscal note shall be attached or printed in the bill  
21 following the explanation or shall be printed in the daily  
22 clip sheet.

23 A revised fiscal note may be requested by a committee  
24 chairman or a sponsor of the bill if the fiscal effect of  
25 the bill has been changed by adoption of an amendment.  
26 However, a request for a revised fiscal note shall not delay  
27 action on a bill unless so ordered by the presiding officer  
28 of the house in which the bill is under consideration.

29 If a date for adjournment has been set, then a  
30 constitutional majority of the house in which the bill is

## HOUSE CONCURRENT RESOLUTION 105

By Lloyd-Jones, Anderson of Jasper, Bina, Cochran,  
Connolly, Davitt, Dieleman, Groth, Hibbs, Howell,  
Hullinger, Jay, Norland, Pavich, Walter, Wells and Woods

- 1     *Whereas*, transportation in the midwest is in a  
2 precarious position because of the bankruptcies of  
3 two major railroads and the uncertain financial con-  
4 ditions of others; and  
5     *Whereas*, the production and marketing of grain  
6 is central to the economies of the midwest, as  
7 demonstrated by the fact that twelve midwestern  
8 states accounted for more than 53% of the United  
9 States' agricultural exports in 1975-1976; and  
10    *Whereas*, the export of Iowa farm products in  
11 1977 contributed \$2,042,000 toward offsetting the  
12 national balance of payments deficit; and  
13    *Whereas*, one-third of the cost of the nation's  
14 imported oil was offset by American agricultural  
15 export revenues; and  
16    *Whereas*, the production and export of grain are  
17 expected to play an increasingly important role in  
18 the state and the nation's economy; and  
19    *Whereas*, it frequently takes more than one  
20 month for a train loaded with grain to make its  
21 way to the Gulf of Mexico and back again; *Now*  
22 *Therefore*,  
23    *Be It Resolved by the House of Representatives*,

## Page 2

- 1    *The Senate Concurring*, That the President of the  
2 United States appoint a commission to study and  
3 make recommendations concerning modes of trans-  
4 portation to be used to ship grain to export points  
5 and ways of coordinating transportation of grain to  
6 export points. The plan should allow for smooth  
7 and efficient transportation of increasingly large  
8 quantities of grain to export points with trucks,  
9 barges, and railroads in a coordinated and inex-  
10 pensive fashion.

Laid over under Rule 30.

## HOUSE CONCURRENT RESOLUTION 106

By Lloyd-Jones, Anderson of Jasper, Bina, Cochran,  
Connolly, Davitt, Dieleman, Groth, Hibbs, Hinkhouse,  
Howell, Hullinger, Jay, Norland, Pavich, Walter, Wells  
and Woods

1 *Whereas*, 75% of the railroad trackage in the  
2 state of Iowa is owned by rail companies already in  
3 bankruptcy or in precarious financial condition; and

4 *Whereas*, service on the state's second largest  
5 rail carrier, the Chicago, Rock Island and Pacific,  
6 has been continued only under federal government  
7 order; and service on the state's third largest  
8 carrier, the Chicago, Milwaukee, St. Paul and  
9 Pacific, has continued only with an appropriation  
10 of federal funds; and

11 *Whereas*, rail companies nationwide are sinking  
12 into bankruptcy and the industry's profits are de-  
13 clining; and

14 *Whereas*, agriculture is the cornerstone of the  
15 state's and the nation's economies and the value of  
16 Iowa's agricultural products is dependent on the  
17 transportation needed to get those crops to market;  
18 and

19 *Whereas*, the nation faces a continuing energy  
20 shortage with severe shortages possible, and rail-  
21 roads are more energy-efficient than trucks; *Now*  
22 *Therefore*,

23 *Be It Resolved by the House of Representatives*,

**Page 2**

1 *The Senate Concurring*, That the United States De-  
2 partment of Transportation establish a national  
3 transportation policy which encourages the use of  
4 trucks for short hauls and railroads for long hauls;

5 *Be It Further Resolved*, That the intermodal  
6 policy should clearly identify various modes of  
7 passenger and freight transportation and set a  
8 schedule for improvements of facilities for each  
9 appropriate mode and also set goals for the amount  
10 and type of utilization of each mode of trans-  
11 portation.

Laid over under Rule 30.

**HOUSE CONCURRENT RESOLUTION 107**  
 By Cochran, Lloyd-Jones, Walter, Davitt, Pavich,  
 Groth, Norland, Howell, Perkins, Hullinger, Jay,  
 Binneboese and Cusack

1     *Whereas*, the rail transportation system in this state  
 2 is of utmost importance to the economic well-being of  
 3 this state; and  
 4     *Whereas*, two railroad corporations operating in this  
 5 state are currently in bankruptcy; and  
 6     *Whereas*, the state has in recent years developed and  
 7 implemented a railroad assistance program to assist the  
 8 rail lines in this state in upgrading railroad branch  
 9 lines; and  
 10    *Whereas*, it is necessary for the state to undertake a  
 11 more significant program to assure the continuance of  
 12 rail service which is vitally needed by industry and  
 13 agriculture and necessary for the general well-being of  
 14 all of the citizens of the state; *Now Therefore*,  
 15    *Be It Resolved by the House of Representatives, the*  
 16 *Senate Concurring*, That the legislative council is  
 17 requested to create a study committee composed of members  
 18 of the committees on transportation to study the feasi-  
 19 bility of the state acquiring all railroad right-of-way

1     *Whereas*, the future service level of Iowa's rail trans-  
2 portation system is uncertain as a result of mergers,  
3 bankruptcies and restructuring of midwestern railroads and  
4 the resultant reorganization of financially insolvent  
5 carriers; and

6     *Whereas*, the Chicago, Rock Island and Pacific Railroad  
7 Company and the Chicago, Milwaukee, St. Paul and Pacific  
8 Railroad, which provide about fifty percent of Iowa's  
9 trackage and rail service, are in bankruptcy and facing  
10 liquidation; and

11    *Whereas*, the rail restructuring gives Iowa an opportunity  
12 to give direction to the future of Iowa's rail system to meet  
13 users' rail service needs; and

14    *Whereas*, continued service in Iowa by the Rock Island and  
15 Milwaukee railroads may cease on March 2, 1980; and

16    *Whereas*, discontinued or interrupted service on essential  
17 branchlines and mainlines would create a direct negative  
18 impact upon the industrial and agricultural sectors of Iowa's  
19 economy and its future economic growth; and

20    *Whereas*, the nationally recognized Iowa branchline financial  
21 assistance program created by the sixty-fifth general assembly  
22 has been an effective and successful program for preserving  
23 and rehabilitating hundreds of miles of viable branchlines;  
24 and

**Page 2**

1     *Whereas*, substantial progress is being made in the branchline  
2 rehabilitation program, it is imperative that we immediately  
3 begin addressing the heavy backlog of needs on mainlines,  
4 yards, terminals, and sidings; and

5     *Whereas*, in the restructuring process it is necessary that  
6 a safe and efficient mainline system is developed and preserved  
7 to connect our viable branchlines to market opportunities  
8 in the south, north, east and west; and

9     *Whereas*, the state department of transportation has  
10 demonstrated effective leadership in rail planning and  
11 closely coordinated their activities with the general  
12 assembly, the United States Congress, federal and state  
13 agencies, shipper groups, rail users, other states and the  
14 bankruptcy courts to develop a private sector solution  
15 to the midwest rail crisis; *Now Therefore*,

16     *Be It Resolved by the House of Representatives, the Senate*  
17 *Concurring*, That the general assembly express support of the  
18 state department of transportation and the direction of its  
19 efforts to achieve a sound and rational solution to the midwest  
20 rail crisis, and the general assembly supports the financial  
21 efforts of federal, state and local officials to develop a rail  
22 system capable of providing the service essential to the economic  
23 health of Iowa and its citizens; and

24     *Be It Further Resolved*, That the general assembly pledges  
25 its support through the railroad assistance program to help bring about a  
26 viable private sector solution to the midwest rail crisis; and

27     *Be It Further Resolved*, That the general assembly supports  
28 the state department of transportation's efforts to preserve  
29 service on essential and viable Milwaukee lines and to  
30 assure a prompt and orderly transfer of property and service

**Page 3**

1 to successor railroads, and secure extended directed service  
2 by the Interstate Commerce Commission on essential and viable  
3 Rock Island lines to assure an orderly transfer of property and service to  
4 successor railroads; and

5     *Be It Further Resolved*, That the general assembly calls upon  
6 the President of the United States, the United States Congress  
7 and the Interstate Commerce Commission to provide for a  
8 minimum of a sixty day continuation of directed service on  
9 those parts of the Rock Island railroad for which the  
10 Trustee has, before March first, begun negotiations.

President Branstad then presented Chief Justice W. W. Reynoldson who delivered the following Condition of the Judiciary Message:

MR. PRESIDENT, MADAM SPEAKER, MEMBERS OF THE SIXTY-EIGHTH GENERAL ASSEMBLY, STATE OFFICIALS, AND FELLOW IOWANS:

A year ago, pursuant to your new enactment now found at section 684.22 of the 1979 Code, and for the first time in Iowa's history, we appeared here to report to you about the judicial branch of government. We are gratified that you did not promptly repeal that statute. We welcome the opportunity to reappear this morning to continue our examination of judicial department problems and to ask for your wisdom and continued assistance and support in resolving them.

As we closed our remarks last year, we voiced our concern with the erosion of public confidence in courts, and the implications that held for our ongoing experiment

in self-government. We noted the enormous tensions in our country, and the challenge of foreign ideologies at war with the spirit of the Declaration of Independence.

For several recent weeks Americans were transfixed by televised scenes of violence and chaos in a country in which local law has broken and international law is spurned. The faulty justice system which contributed to that revolution, and the total absence of one which now exacerbates the tragedy, should furnish a somber backdrop, however remote, to the study of any judicial system here.

Swinging our focus northward from Iran, we note that for years millions of Russian political and ethnic prisoners died in what Solzhenitsyn in his book, *The Gulag Archipelago*, described as Russia's "sewage disposal system." During the same time, Article 125 of the Constitution, or "Fundamental Law," of the Union of Soviet Socialist Republics essentially contained those same safeguards of freedom found in our Bill of Rights.

And so one must conclude that it takes more than the force long displayed in Iran, and more than brave words like those in the Russian Constitution, to insure basic freedoms and a stable social structure. We suggest that an independent judiciary whose rulings are respected by the people, and attorneys willing to stand up and defend individual rights, are indispensable in any democratic government.

Although time prohibits going into detail, a national survey and *The Des Moines Register's "Iowa Poll"* both confirm a degree of public dissatisfaction with the courts. One root cause identified is a deep concern with street crime. One also senses that Iowa's citizens, both rural and urban, attuned to the "QuikTrip" philosophy, simply demand faster and cheaper justice.

The national survey additionally disclosed that the general public had little information about our justice system and how it functions. Thirty-seven percent believe an accused must prove his or her innocence; sixty-two percent believe the county attorney's task is to defend the accused at the taxpayer's expense; seventy-one percent believe the United States Supreme Court can overrule any state court decision.

Returning to the public's concerns relating to the judiciary, and without reflection on any other branch of government, we can hardly assume total responsibility for crime in the streets when for every one thousand reported crimes there are only one hundred fifty-three arrests. And we are sure Iowans do not want justice administered with the speed and efficiency of a lynch mob, nor even the efficiency of Justice of Peace Roy Bean, who you will recall was the "law west of the Pecos" at the end of the railroad in Vinegaroon, Texas. His was not the rule of law but the rule of one man, administered ad hoc and sometimes at the business end of a six-shooter.

On the other hand, if our system is to operate with less waste of time and money for litigants, we must study our administrative structure and our personnel requirements. And because no citizen should be expected to value a branch of government he or she does not understand, we should explore methods to furnish that knowledge.

## ADMINISTRATIVE STRUCTURE

Last year we traced some of the judicial reforms you implemented in the '60's and '70's — a unified court system, a modern procedure for judicial selection and tenure, the Iowa Court of Appeals. We requested your study and ultimate support in making that unified state court system viable and responsive by centralized state funding of the state system, with a concomitant consolidated budget procedure, and by bringing the personnel who serve the judicial department under its administration. This concept is not new: Twenty-two state court systems now are totally or substantially state funded.

You reacted with characteristic cooperation and concern to face this issue. On April 17, 1979, responding to the language of nonpartisan Senate Resolution 11, your Legislative Council unanimously voted to create a Court Study Joint Subcommittee comprised of the members of the standing Senate Judiciary Committee and the House Judiciary and Law Enforcement Committee. That joint subcommittee has met several times. As a result of its deliberations it requested the Legislative Council to apply for federal funds available through the National Center for State Courts to finance the necessary study, and to engage a private contractor for that purpose. Your council obtained \$57,260 in federal funds and contracted with the Resource Planning Corporation, a firm experienced in conducting judicial studies in other states. Its report is scheduled to be presented to the council by July 31, 1980.

Several of the itemized goals of the study now under way are themselves an indictment of the present statutory administrative and support structure for Iowa's judicial department. A unified state court system in 1980 should be so organized administratively that it quickly could provide the legislature with "the costs which presently are incurred in the operation of the Iowa court system" and "the number and types of personnel who presently serve the . . . system."

Our current fragmented administrative structure was erected in the nineteenth century. In this century it has been cobbled up and subjected to jerry-built additions without any consideration of its overall design and efficiency. Times does not permit us to read aloud a portion of the introduction to the request for study bids formulated by the joint subcommittee, summarizing some of the bizarre methods by which judicial personnel presently are obtained and paid. We attach it to this message as an appendix, for the insight it furnishes into the existing administrative morass.

There is more involved here than tax relief for local units of government. There is more at stake than the elimination of tensions between the state court system and elements of local government. Above all is the task of preparing Iowa's judicial system for the challenges of the twenty-first century.

Meanwhile, within budgetary constraints and constitutional and statutory parameters, the judiciary has initiated needed reforms through the Iowa Judicial Planning Committee and the Litigation Cost Study Committee.

### • 1. Iowa Judicial Planning Committee

In 1978, using available federal funds, we created and staffed the Iowa Judicial Planning Committee. Its members include lay persons, judges, attorneys, and administrators.

For the first time we are acquiring the capability to make in-depth analyses of current and potential judicial problems and engage in long-range planning to meet them. Such a resource in some form is an accepted adjunct of every well-organized private enterprise of comparable size and budget.

Projects described in the planning committee's 1980 Judicial Action Plan, now being implemented, include a study to devise improved methods of rapidly assembling and disseminating information necessary to administer the department, a study to develop recommendations for improving the structure and organization of the court system, a separate study to recommend improvements for the magistrate system, and experiments with "dispute settlement centers" designed to divert from adversary court proceedings certain controversies which may be resolved by mediation or arbitration.

Our planning committee and staff, and the new studies and experiments now launched, contribute toward an undercurrent of excitement in the judicial department — a sense that our options are not exhausted; that there may be ways to help ease the crushing case loads our trial judges carry; that there may be better conveyances for delivering judicial and related services to Iowa's citizens.

## 2. **Litigation Cost Study Committee**

A year ago we reported the appointment of a blue-ribbon committee to study litigation costs, chaired by former Chief Justice C. Edwin Moore. The judges and the uncompensated lay persons and attorneys on this task force worked long and hard. They reported to the supreme court on September 12, 1979. The court studied the committee's recommendations and on October 15, 1979, issued its report which endorsed most of the task force proposals. We have filed with you the necessary civil and criminal rule amendments, and have forwarded these reports to the chairpersons of your standing judiciary committees, identifying the statutory changes required to implement the approved recommendations.

Generally, the reforms include bringing litigation discovery processes under control, a simplified method of taxing costs, adoption of the Uniform Arbitration Act (except as it would force mandatory arbitration of disputes under contracts generally regarded by courts as adhesion, consumer-type contracts), reduction of jury size, increase in interest rate on judgments, and increase in the small claims jurisdictional amount. Several of these innovations should short-cut administrative procedures and save judicial time in order to serve better your constituents who daily appear in our courtrooms. We urge you to adopt these reforms.

## PERSONNEL REQUIREMENTS

In addition to a modern administrative structure, Iowa's citizens are entitled to qualified judges in sufficient number to process their legal business.

### 1. Quality of Judges

No one can compute how many of Iowa's three million citizens must be affected, directly or indirectly, by the almost one-half million legal matters processed each year by Iowa's judicial system. Too infrequently we pause to reflect on the awesome frontline responsibility carried by less than three hundred judges and magistrates. They daily bear the emotional trauma of adjudicating child custody disputes, balancing the risks in persons' freedom or incarceration, and applying the intricate calculus of adjudicating property rights and damage claims. They seldom grapple with broad policy concepts like legislators, or with cold records and abstract legal philosophy like appellate judges. Each day they just directly face the troubled people, and people in trouble, whose fate and fortune they determine. They operate continually and gallantly in the eye of legal storms.

By June 30th of this year twenty-seven seasoned Iowa judges will be age sixty-five or over. In this year and a few following years they will all be replaced. To perform the role we have described, and to replace those judges, Iowa must recruit persons of the same character, intelligence, judgment, sensitivity, stamina, drive, and emotional maturity required to reach the top in the private sectors of the legal profession, or in any business or profession for that matter.

But we suggest that today an attorney with those qualifications may view a judicial appointment with some reservations. That potential applicant must weigh exchanging some measure of personal control over his or her economic destiny for a career in which the salary from July 1, 1977, to January 1, 1980, increased only 8.8 percent while the cost of living mushroomed 25.9 percent. He or she might consider that the judges and magistrates who rode a 1,046,000 mile circuit in fiscal year 1979 to bring justice to Iowa's rural population, subsidized the state because their car operating expenses exceeded the reimbursement allowed under statutory limits.

We know that as time permits you will address these issues, as you have in the past. But in considering ways and means to recruit the best for Iowans, we also suggest you reexamine the concepts in House File 54, adopted by the House last year, relating to district associate judges and judicial magistrates. Full-time magistrates must be attorneys and give up private practice. They have responsible jurisdic-

tion in civil actions and criminal cases. They are often designated as juvenile court judges — making choices affecting the futures of Iowa's children. An enactment like House File 54 would offer recruits the title of district associate judge. It would provide them a minimal tenure in office while for the first time affording citizens the right to vote whether they should be retained. Retirement benefits of these judges would remain under IPERS. While the proposed changes from the present structure are few, they could make the difference in the quality of persons who might be influenced to choose a bench career.

No judicial system can perform better than the quality of its judges. We are proud of the vast majority of our present judges and magistrates who are hardworking, intelligent, conscientious, and concerned jurists. We know you want to maintain that quality.

## 2. **Judicial Force Quantity**

At the same time, you also determine the quantity of Iowa's judicial force. In 1967 you wisely devised a flexible statutory formula, based on population and case filings, to determine the number of district court judges required to process Iowans' legal matters. Since your 1977 amendment freezing those judgeships at ninety-two, civil case filings have climbed 17.8 percent and criminal filings have risen 7.7 percent, for an overall increase in filings of 13.8 percent.

This significant increase in case load entitles the people of Iowa to fifteen additional judgeships under the statutory formula, or a total of one hundred seven district court judges. Iowa needs this judge power to provide the speedy justice which deters crime. At the same time, the civil litigation of law-abiding Iowans should not be relegated to the back burner, nor can we eliminate the time required to supervise and expedite probate proceedings and for all other judicial department responsibilities.

In 1977, the year of the judgeship freeze amendment, and in the years which have followed, new legislation which you adopted to meet your constituents' needs has become effective. These legislative innovations have resulted, and will result, in burdensome increases in trial court attention and responsibilities. Some new code provisions which come readily to mind are chapter 229, involuntary hospitalization; chapter 232, juvenile justice act; section 321.215 (1), permitting application to district court for temporary restricted driver's license; chapter 455B, department of environmental quality; chapter 553, Iowa competition law; chapter 600, the revised adoption law, and chapter 147, Laws of the Sixty-eighth General Assembly, the domestic abuse act. All of this

legislation ultimately will be challenged, tested, interpreted, and enforced by court actions.

We know you are concerned about taxpayers' dollars and the inherent expense of proposed legislation. Some of those costs may be projected. Others soon appear. But an expense often hidden until it ultimately surfaces in the judgeship formula computation is the cost in terms of additional judge time, and additional judges. That you have been unable to obtain this information from the judicial department in advance, in the form of a time-translated-into-expense impact statement, is our shortfall. We intend to rectify it.

For the first time, in all areas of Iowa, judges and magistrates who have volunteered for the task will keep a record of the myriad of duties performed in their daily activities for a three-month period. Our prior statistical reports have provided no empirical evidence of time spent in juvenile, involuntary hospitalization, domestic abuse, probate, pretrial conference, pretrial motion, sentencing and postconviction matters. When the legislation you have under consideration requires a court hearing, we cannot tell you the average length of a hearing in Iowa district court, much less project the length of the particular hearing you contemplate, or estimate the number which will occur each year. Neither can we tell you how many dollars it will cost the taxpayers to fund the expenses of the judicial department in conducting the hearings or trials involved in the proposed enactment. You should have that information.

The Judicial Council, comprised of the chief judge of the Iowa Court of Appeals and the district chief judges, together with our staff, working with the Judicial Planning Committee and utilizing the evidence generated by our volunteer judges and magistrates, will devise the necessary formulae so that, upon your request, we can provide you with meaningful judicial impact statements. The same information as it relates to judicial work load may be of interest to you in considering revisions of the statutory judgeship formula and your 1977 freeze amendment.

All of us — you, Governor Ray, and the judiciary — anticipated the Senior Judge Act soon would provide some relief for Iowa's judge shortage. The senior judge is available for thirteen weeks of judicial service annually, receives no salary, but his or her retirement compensation will have a limited shelter from inflation by pro rata escalation with any increase in the salary for the position formerly held. Out of twelve eligible judges retiring prior to December 31, 1979, only Justices Moore and Mason, and Judge James E. Hughes elected senior judge status. Anyone who may have con-

sidered the legislation a boondoggle for retired judges should be convinced by this response that retiring judges do not so view it. Nonetheless, those three judges have all either performed a full one-fourth year of trial court judicial services or shortly will complete that annual tour of duty. Their reports of judicial service are on file. They held court in various counties in the second and fifth judicial districts, adjudicating equity actions and hearing and deciding motions and applications. However, while each senior judge performs valuable judicial services one-fourth time, the three cannot substitute for one full-time trial judge.

We closed out 1979 with more cases on file in every judicial district — a total of over 4200 more civil and criminal cases pending than were on our dockets at the end of 1978. In view of this case backlog, and the congestion of hearing and probate matters in your trial courts, we know you will move soon to relieve Iowa's citizens from that frustration of justice which results from unresolved controversies and delay in processing important legal matters.

#### **PUBLIC LACK OF KNOWLEDGE OF JUDICIAL SYSTEM**

We turn now to a concern we expressed earlier, relating to the public's lack of knowledge of its judicial system and the inevitable erosion of public confidence in the law and the administration of justice. It is basic human nature for people to oppose what they do not understand.

But it is the courtroom crucible which distills truth, that imprints lasting impressions, that sends a clear signal about the law's expectations and the penalties which await law violators. The courtroom is government in action. It can function as a classroom, teaching law and its underlying rationale; it can provide a vivid demonstration of time-tested rules which separate fact from fiction; it can serve as a living laboratory, exploring the application of the substantive laws you enact to a given set of circumstances.

In bygone days when life moved more leisurely, people visited the courtroom. In today's hectic race they go only in response to a subpoena or summons, or when they are directly involved in a legal proceeding.

On November 21, 1979, following the lead of twenty-one other states and the recommendations of a hardworking Media Advisory Committee, we instituted an experiment to take the courtroom to the people. For one year, under carefully formulated safeguards, the electronic media — television, radio and cameras — will cover Iowa courts, just as the print media and sketch artists have done throughout our history.

Trials with electronic coverage are now in progress. Our media committee is monitoring the experiment, surveying the participants, and will report to us at the year's close. We hope this experiment will be successful — a demonstration that the judiciary and the news media, cooperating, can help Iowans better understand how the judicial branch of their government functions.

## CONCLUSION

Before closing we direct your attention to Appendix F, attached to this message, reviewing those improvements we recommended last year which are still pending. An old friend and wise senator told us we simply suggested too many reforms for one session. You will note these items are not for the personal benefit of judges, but for the benefit of Iowans who must use the judicial system. The costs are nonexistent or nominal. In any event, it should be observed here that the same national poll which brought us bad news also brought good news: seventy-four percent of the public is more willing to spend tax dollars on improving the judiciary than on any other part of the criminal justice system.

A potential item of future business alarms us more. 1980 is the year of the census, triggering the constitutional mandate to reapportion in 1981. One hundred fifty years ago, the young French political philosopher Alexis de Tocqueville, examining America's democracy while the thunder of her revolution still echoed, wrote, "Scarcely any political question arises in the United States that is not resolved, sooner or later, into a judicial question." In Iowa, by constitutional amendment, an ominous political question is converted to a judicial question if your reapportionment is unsuccessful. We implore you to take now the necessary steps to keep that issue from our bench.

In closing, we salute and commend you for the study you have launched, and pledge our full cooperation. We ask you to support the reforms we propose, and we are ready to aid in implementing them.

In the final analysis, the judicial department has no resources unless you provide them. Iowans will hold each of our departments responsible, in varying degrees

- For deterring crime while preserving those basic human rights which distinguish our democracy from dictatorship,
- For accelerating delivery of even-handed justice without shattering those fragile freedoms so vulnerable to impatient haste,
- For effecting economies in legal processes while retaining and recruiting the necessary number of high-quality judges,
- For testing measures to open court operations to Iowans without disrupting trials.

Let us wish each other success in this challenging joint venture.

## APPENDIX F

THE NEEDS MENTIONED IN THE FOLLOWING QUOTED PORTIONS OF THE CHIEF JUSTICE'S 1979 MESSAGE HAVE NOT BEEN ADDRESSED:

### 1. Judicial Nominating Commissioners

Members of the Judicial Nominating Commission screen

candidates for judgeships and submit nominees for vacancies. This is a vital and often time-consuming duty. We think it simply has been an oversight that you have not provided these commissioners be reimbursed for their mileage, meals and lodging while on state business attending commission meetings. We recommend such reimbursement be provided.

**2. Appellate Rules**

We recently met with majority and minority members of your judiciary committees and suggested several technical amendments to statutes which would enable the supreme court, by rule, to conform appellate rules in civil and criminal cases. We recommend adoption of these amendments.

**5. Commission on Judicial Qualifications**

This commission of four lay persons, two lawyers and one judge investigates complaints about judges and makes disciplinary recommendations to the supreme court. It performs an important function. The commission deserves a permanent staff person who could also follow up on complaints. Its jurisdiction should be extended to include complaints against magistrates."

Chief Justice W. W. Reynoldson was escorted from the House chamber by the committee previously appointed.

Halvorson of Clayton moved that the joint convention be now dissolved.

The motion prevailed.

The House reconvened, Thompson of Polk in the chair.

On motion by Halvorson of Clayton, the House was recessed at 11:55 a.m., until 3:30 p.m.

**AFTERNOON SESSION**

The House reconvened, Thompson of Polk in the chair.

### JOINT CONVENTION LINCOLN'S BIRTHDAY OBSERVANCE

In accordance with House Concurrent Resolution 108 duly adopted, the joint convention was called to order, President Branstad presiding.

Senator Hultman moved that the roll call be dispensed with and that the President of the joint convention be authorized to declare a quorum present.

President Branstad announced a quorum present and the joint convention duly organized.

Senator Carney of Woodbury moved that a committee of six consisting of three members from the Senate and three members from the House be appointed to escort the Honorable Arthur A. Neu to the rostrum to deliver an address in observance of Lincoln's birthday.

The motion prevailed and the President appointed as such committee Senators Carney of Woodbury, Hutchins of Guthrie and Waldstein of Buena Vista, on the part of the Senate, and Representatives Crabb of Crawford, Anderson of Audubon and Perkins of Greene, on the part of the House.

The committee waited upon the Honorable Arthur A. Neu and escorted him to the Speaker's station.

President Branstad introduced the Honorable Arthur A. Neu who addressed the joint convention as follows:

Though I do not purport to be a Lincoln scholar like so many of those who have given these Lincoln Day addresses in the past, still I can't help but have an enduring admiration for Lincoln the President — but perhaps even more for Lincoln the human being. Clearly, the times in which he lived were more dismal than even the greatest pessimist among us would argue that today is. The Union was coming apart. The political process was disintegrating and the war was all about him. He was ridiculed, opposed and in the end assassinated. His army for some time after the war commenced, suffered one defeat after another, and lacked effective leadership until well into the struggle. Lincoln's own people in government were undermining his authority and programs. Foreign governments were seeking to keep the Union apart. Clearly, the period of Lincoln's presidency was a great time of stress for the Union — perhaps its greatest crisis.

It might be well for all of us to re-examine the period of the Lincoln presidency. To do so might give us certain insights into our own era. I have always felt that reading and studying history was more than just a pleasant pasttime. It also gives us a better understanding of history in general so as to enable us to put our own age in perspective. It will also give us a better understanding of what is taking place around us. I don't mean to suggest that answers to the dilemmas we face today will somehow unfold in front of our very eyes, but rather that we can better appreciate that others before us faced difficult circumstances. Hopefully, it will also teach us to be wary of the "quick fix" or "simple solution" that may sound good at the time.

It seems to me at least, that there is an obvious parallel between Lincoln's era and our contemporary sense of crisis. So many commentators see darkness all around us and note the widespread loss of confidence in the vitality of American civilization and in its future. Drift and disillusionment exist; a sense of things going wrong or being out of joint. This really shouldn't be surprising given the events of the sixties and seventies — the assassination of the two Kennedys, of Martin Luther King, Vietnam, Watergate and now the difficult problems of inflation and energy.

We also tend to look back and think that but a few years ago we were invincible and that no nation would dare seize our embassy as did the militants in Iran. Again, it helps to think back to periods still in our lifetime. In the forties we were the undisputed world power with a nuclear monopoly. Yet in the forties Czechoslovakia was subverted by Communists and Chinese Communists were victorious over the Nationalist Chinese. The fifties weren't too much better. In 1952 Nasser triumphed in Egypt; crises in Indochina; the Suez crisis in 1956; the shock of Sputnik in 1957; the toppling of pro-western regimes in Cuba and Iraq in 1958 and Khrushchev's challenges in Berlin. — The truth is that we have never been strong enough, nor will we ever be strong enough, to control the events of the world. America's current foreign policy problems, though serious, are no graver than problems we have experienced in past moments of our history. They are not necessarily symptomatic of America's decline but rather of the troubled times in which we live and of the global interests we now possess.

All public figures seem to be crying out for more military preparedness in the wake of events in Iran and Afghanistan. The tacit assumption seems to be that Khomeini and his followers would not have seized the U.S. Embassy nor would Russia have moved into Afghanistan had we a stronger military force. I doubt that to be true. Nonetheless, I feel confident that the kind of increased military spending that seems to be coming will not be examined carefully and that the military will use the funds on increasingly sophisticated weaponry that only an army of PhDs could operate and a nation of bankers could afford. True leadership would see that the proper expenditure of additional funds on weaponry would be for more practical weaponry that could be produced at modest cost, operated by ordinary mortals and be supplied, when deemed necessary, to our allies.

It is not that the crises today are more difficult than at other times in our history, but rather that we don't seem to have any Lincolns around. In fairness to those leading us today, we must remember that Lincoln's greatness was not discerned by his contemporaries, but only became apparent to most people after his death. Nonetheless, people are crying for leadership but so far at least, no one has clearly assumed the role to the satisfaction of the people. Perhaps a Lincoln isn't possible today. Perhaps we so completely expose all the frailties of any person in our national life that even Lincoln himself would be a pathetic caricature of himself.

One of the things I most admire about Lincoln and which is most lacking in our leaders today is that Lincoln was chastened by presidential power — not intoxicated by it. That while he was the consummate politician, he also had a brooding melancholy and fatalism; a sense of the tragic nature of life and, during the Civil War, a remarkable detachment and lack of malice. We need some of those qualities today.

Thank you.

President Branstad presented Senator Carney of Woodbury who introduced the Abu Bekr Shrine Chanters from Sioux City.

The Sioux City Chanters entertained the joint convention by singing the following: "Where in the World but in America," "This Land is Your Land," "America the Beautiful," "Let There Be Peace on Earth," and "The Battle Hymn of the Republic." They were directed by Shriner Don Kelsey and accompanied by Shriner Mike Hogan.

Halvorson of Clayton moved that the joint convention be now dissolved.

HOUSE CONCURRENT RESOLUTION 111  
By Committee on Appropriations

- 1     *Whereas*, chapter two hundred sixty-three A (263A)
- 2 of the Code, provides that the state board of regents
- 3 after authorization by a constitutional majority of
- 4 the general assembly may carry out any project as
- 5 defined in that chapter of the Code at the state
- 6 university of Iowa; and
- 7     *Whereas*, chapter two hundred sixty-three A (263A)
- 8 of the Code, authorizes the state board of regents
- 9 to borrow money and to issue and sell negotiable bonds
- 10 or notes to pay all or any part of the cost of carrying
- 11 out such projects at the institution payable solely
- 12 and only from and secured by an irrevocable pledge
- 13 of a sufficient portion of the university hospital
- 14 income; and
- 15     *Whereas*, many of the facilities of the hospitals
- 16 at the state university of Iowa were built more than
- 17 fifty years ago and are inadequate to meet present
- 18 and future demands for statewide specialty care and
- 19 teaching services; and

20 *Whereas*, three hundred seventy-six beds of the  
21 hospitals at the state university of Iowa have been  
22 determined by the state department of health to be  
23 "nonconforming" and no longer meet modern hospital  
24 building codes and standards and detailed studies  
25 have shown that upgrading these facilities to modern  
26 standards would be prohibitive because of the cost;  
27 and

28 *Whereas*, ninety-one pediatric beds of the three  
29 hundred seventy-six nonconforming beds are dispersed  
30 throughout the hospital and do not meet present-day

1 standards of a modern tertiary level teaching hospital

3 spatial requirements, including parent rooming-in

5 *Whereas*, the pediatric and surgical outpatient  
6 clinics are located in temporary metal structures  
7 that do not conform to codes and standards for patient  
8 care areas; and

9 *Whereas*, to alleviate these conditions, the state  
10 board of regents requests authorization to construct  
11 an addition to the south of the Roy J. Carver Pavilion  
12 of approximately one hundred sixty-three thousand  
13 gross square feet, to house outpatient clinics and  
14 inpatient facilities for ninety-one beds, and to  
15 construct supporting mechanical facilities at an  
16 estimated total cost of twenty-one million nine hundred  
17 forty-eight thousand (21,948,000) dollars of which  
18 not more than eighteen million (18,000,000) dollars  
19 would be financed by borrowing under the provisions  
20 of chapter two hundred sixty-three A (263A) of the  
21 Code, and the remainder to be financed by other funds;  
22 *Now Therefore*,

23 *Be It Resolved by the House of Representatives,*  
24 *The Senate Concurring*, That the state board of regents  
25 is authorized to construct an addition of one hundred  
26 sixty-three thousand gross square feet of floor space,  
27 more or less, to the south of the Roy J. Carver  
28 Pavilion of the general hospital of the state  
29 university of Iowa to house outpatient clinics and

1 Amend House File 732 as follows:

2 1. Page 1, by striking lines 2 through 27 and  
3 inserting in lieu thereof the words "(372.13),  
4 subsection two (2), Code 1979, is amended by striking  
5 the subsection and inserting in lieu thereof the  
6 following:

7 2. A vacancy in an elective city office during  
8 a term of office shall be filled, at the council's  
9 option, by one of the two following procedures:

10 a. By appointment by the remaining members of  
11 the council, except that if the remaining members  
12 *do not constitute a quorum of the full membership*,  
13 paragraph b of this subsection shall be followed.  
14 The appointment shall be for the period until the  
15 next pending election as defined in section sixty-  
16 nine point twelve (69.12) of the Code, and shall be  
17 made within forty days after the vacancy occurs.  
18 If the council chooses to proceed under this paragraph,  
19 it shall publish notice in the manner prescribed by  
20 section three hundred sixty-two point three (362.3)  
21 of the Code, stating that the council intends to fill  
22 the vacancy by appointment but that the electors of  
23 the city or ward, as the case may be, have the right  
24 to file a petition requiring that the vacancy be  
25 filled by a special election. The council may publish  
26 notice in advance if an elected official submits a  
27 resignation to take effect at a future date. The  
28 council may make an appointment to fill the vacancy  
29 after the notice is published or after the vacancy  
30 occurs, whichever is later. However, if within  
31 fourteen days after publication of the notice or  
32 within fourteen days after the appointment is made,  
33 whichever is later, there is filed with the city clerk  
34 a petition which requests a special election to fill  
35 the vacancy and which is signed by eligible electors

36 who are (or would be, if registered) entitled to vote  
 37 to fill the office in question, equal in number to  
 38 two percent of those who voted for candidates for  
 39 the office at the last preceding regular election  
 40 at which the office was on the ballot, but not less  
 41 than ten persons, an appointment to fill the vacancy  
 42 is temporary and the council shall call a special  
 43 election to fill the vacancy permanently, under  
 44 paragraph b of this subsection.

45 b. By a special election held to fill the office  
 46 for the remaining balance of the unexpired term.  
 47 If the council elects a special election, or a valid  
 48 petition is filed under paragraph a of this subsection,  
 49 the special election may be held concurrently with  
 50 any pending election as provided by section sixty-

**Page 2**

1 nine point twelve (69.12) of the Code if by so doing  
 2 the vacancy will be filled not more than ninety days  
 3 after it occurs. Otherwise, a special election to  
 4 fill the office shall be called at the earliest  
 5 practicable date. If there are concurrent vacancies  
 6 on the council and the remaining council members do  
 7 not constitute a quorum of the full membership, a  
 8 special election shall be called at the earliest  
 9 practicable date. A special election held under this  
 10 subsection is subject to neither a primary nor runoff  
 11 election, even if such an election is required when  
 12 the office in question is filled at a regular city  
 13 election, and the candidate receiving a plurality  
 14 of the vote is elected."

### HOUSE CONCURRENT RESOLUTION 112 By Committee on Appropriations

- 1 *Whereas*, the use of federal funds by state agencies
- 2 has an impact on the state's appropriation process; and
- 3 *Whereas*, experiences in Iowa and other states have
- 4 shown that use of federal funds can result in a level of
- 5 expenditure for programs that is in excess of that autho-
- 6 rized by the legislature, thereby creating a distortion
- 7 or preemption of the legislative prerogative; and
- 8 *Whereas*, the federal government has been shifting and is
- 9 continuing to shift to the state the costs of various
- 10 federally mandated programs; and
- 11 *Whereas*, a comprehensive system for legislative over-
- 12 sight of the use of federal funds does not exist in the
- 13 state; and

14 *Whereas*, the General Assembly may better perform its  
 15 appropriations function if more complete information  
 16 regarding the extent and impact of the state's use of  
 17 federal funds is available; *Now Therefore*,  
 18 *Be It Resolved by the House of Representatives, the*  
 19 *Senate Concurring*, That the Fiscal Committee is authorized  
 20 to conduct a study of the impact on the state and its  
 21 appropriations process of federal funds available to and  
 22 received by state agencies, for the purpose of determining  
 23 an effective method for legislative oversight of federal  
 24 funds. The Legislative Fiscal Bureau shall provide staff  
 25 support for the study.  
 26 *Be It Further Resolved*, That the Legislative Fiscal  
 27 Committee shall prepare a report of its findings and recom-  
 28 mendations for change, if any, and submit it to the Legis-  
 29 lative Council and the members of the Sixty-ninth General

### MESSAGES FROM THE SENATE

The following messages were received from the Senate:

Mr. Speaker: I am directed to inform your honorable body that the Senate has on February 19, 1980, adopted the following concurrent resolution in which the concurrence of the House is asked:

Senate Concurrent Resolution 102, urging Congress to take prompt action to ban in all states the practice of transferring property to relatives to establish eligibility for Medical Assistance benefits.

Also: That the Senate has on February 19, 1980, adopted the following concurrent resolution in which the concurrence of the House is asked:

Senate Concurrent Resolution 103, proclaiming the ten years from 1980 through 1989 to be celebrated in Iowa as the Decade of the Family.

FRANK J. STORK, Secretary

#### SENATE CONCURRENT RESOLUTION 102

By Ramsey, Hultman, Drake, Baugher, Gentleman, Bisenius and Comito

- 1 *Whereas*, federal laws and regulations governing
- 2 the administration of the Title Nineteen (XIX) Medical
- 3 Assistance program do not penalize individuals who
- 4 transfer assets to relatives or other persons for the
- 5 purpose of establishing eligibility for Medical
- 6 Assistance benefits; and
- 7 *Whereas*, this practice is believed to have been
- 8 followed with some regularity by individuals in this
- 9 state who are contemplating entering nursing homes and
- 10 who have real estate or other assets which would make
- 11 them ineligible for public support through the Medical
- 12 Assistance program; and
- 13 *Whereas*, there are indications that this practice is
- 14 presently continuing to be followed, with the result
- 15 that the Medical Assistance program is supporting some
- 16 nursing home patients whose support should be provided
- 17 by assets they formerly held; and

18     *Whereas*, the General Assembly has considered enacting  
 19 a specific statutory penalty for transfers of assets made  
 20 in order to establish eligibility for the Medical Assistance  
 21 program, but has concluded that to do so might be unduly  
 22 disadvantageous to the state of Iowa and Iowa residents  
 23 since other states have not and will likely not adopt  
 24 similar statutes; *Now Therefore*,  
 25     *Be It Resolved by the Senate, the House Concurring*, That  
 26 the Congress of the United States is urged to take prompt  
 27 action to ban in all states the practice of transferring  
 28 property to relatives or other persons in order to establish  
 29 eligibility for Medical Assistance benefits; and  
 30     *Be It Further Resolved*, That a copy of this resolution

**Page 2**

1 be sent to the presiding officers of the Senate of the

## SENATE CONCURRENT RESOLUTION 103

By Brown

1     *Whereas*, the United Nations proclaimed 1979 to be  
 2 the International Year of the Child to promote greater  
 3 recognition, appreciation, and support for the child-  
 4 ren of the world; and  
 5     *Whereas*, children are indeed our most precious and  
 6 indispensable resource for they not only represent our  
 7 future, but they also give us a current reflection of  
 8 valuable traits adults sometimes cover up—honesty,  
 9 playfulness, affection, respect, love, curiosity,  
 10 imagination, humor; and  
 11     *Whereas*, those characteristics are worthy of positive  
 12 development in all children for they are valued in all  
 13 people young and old; and  
 14     *Whereas*, the family is the ideal institution to  
 15 develop positive values and characteristics in all  
 16 children and adults; and  
 17     *Whereas*, a healthily functioning family can provide  
 18 a divided world a sorely needed model for cooperation,  
 19 communication, and contentment; and  
 20     *Whereas*, attention to the family is an essential  
 21 follow-up to concerned and appreciative attention to the  
 22 child; *Now Therefore*,  
 23     *Be It Resolved by the Senate, the House Concurring*,

- 24 That the General Assembly of the State of Iowa,  
25 in its concern and appreciation for children, families,  
26 and the future, proclaims the ten years from 1980 through

Bina of Scott offered the following amendment H—5276 filed by him and Walter of Pottawattamie from the floor:

H—5276

1 Amend House File 2477 as follows:  
 2 1. Page 1, by inserting after line 31 the  
 3 following:  
 4 "Sec. 3. NEW SECTION. Sections three (3) through  
 5 eleven (11) of this Act establish a state urban funding  
 6 formula. For each fiscal year, each city in the state  
 7 is entitled to receive state urban funding which shall  
 8 be an amount per resident of the city equal to the  
 9 difference between the amount per resident of general  
 10 fund property tax in the city and the state urban  
 11 funding base or the city cost per resident, whichever  
 12 difference is less. However, if the amount of  
 13 difference for a city is less than twenty dollars  
 14 per resident, the city is entitled to receive not  
 15 less than twenty dollars per resident unless the total  
 16 amount of aid received plus the amount of the general  
 17 fund property tax exceeds the city cost for the fiscal  
 18 year. In such case, the city shall receive in urban  
 19 funding aid an amount equal to the difference between  
 20 the amount of the general fund property tax and the  
 21 city cost for the fiscal year.

22 Sec. 4. NEW SECTION. As used in sections three  
23 (3) through eleven (11) of this Act:

24 1. "City" means the same as defined in section  
25 three hundred sixty-two point two (362.2) of the Code.

26 2. "Per resident" or "per urban resident" means  
27 for each resident based on the weighted number of  
28 residents.

29 3. "Weighted number of residents" is the number  
30 as computed pursuant to section ten (10) of this Act.

31 Sec. 5. NEW SECTION.

32 1. The general fund property tax for a city shall  
33 be deemed to be the amount of property tax that would  
34 be raised in the fiscal year if the eight dollar and  
35 ten cent per thousand dollars of the taxable value  
36 limit specified in section three hundred eighty-four  
37 point one (384.1) of the Code were levied.

38 2. The amount per resident of general fund property  
39 tax for a city is the amount of general fund property  
40 tax that would be raised in the fiscal year as  
41 determined under subsection one (1) of this section,  
42 regardless of whether that amount is actually raised,  
43 divided by the weighted number of residents of the  
44 city for that fiscal year.

45 Sec. 6. NEW SECTION. The state urban funding  
46 base for the fiscal year beginning on July 1, 1980,  
47 is seventy percent of the state cost per urban  
48 resident. For each succeeding fiscal year, the state  
49 urban funding base shall be increased by the amount  
50 of one percent of the state cost per urban resident

**Page 2**

1 up to a maximum of eighty percent of the state cost  
2 per urban resident. The state cost per urban resident  
3 shall be as computed pursuant to section seven (7)  
4 of this Act.

5 Sec. 7. NEW SECTION.

6 1. The state cost per urban resident for the  
7 fiscal year beginning on July 1, 1980, is the amount  
8 determined by dividing the total amount of general  
9 fund property taxes actually raised by every city  
10 within the state under section three hundred eighty-  
11 four point one (384.1) of the Code, excluding the  
12 levies authorized in section three hundred eighty-  
13 four point twelve (384.12) of the Code, in the previous  
14 fiscal year by the weighted number of residents in  
15 every city within the state as of the beginning of  
16 the previous fiscal year.

17 2. For each succeeding fiscal year, the state  
18 cost per urban resident for that fiscal year, is equal  
19 to the state cost per urban resident for the previous  
20 fiscal year plus the allowable growth for the fiscal

21 year.

22 3. The allowable growth for a fiscal year, for  
23 purposes of the computations in sections seven (7)  
24 and nine (9) of this Act, is equal to the product  
25 of the state cost per urban resident for the previous  
26 fiscal year times the state percent of growth for  
27 the previous fiscal year as determined under section  
28 eight (8) of this Act.

29 Sec. 8. NEW SECTION. The state percent of growth  
30 for the fiscal year beginning July 1, 1980 and for  
31 each succeeding fiscal year shall be computed by the  
32 state comptroller prior to September fifteenth  
33 immediately following that fiscal year. The state  
34 percent of growth shall be the difference between  
35 the percent change in the state general fund revenues  
36 for that fiscal year, adjusted for changes in rates  
37 or basis, and the state general fund revenues for  
38 the previous fiscal year minus the percent change  
39 in the Iowa consumer price index as of the end of  
40 that fiscal year and the Iowa consumer price index  
41 as of the end of the previous fiscal year. If the  
42 difference as computed is negative, then the state  
43 percent of growth for that fiscal year shall be zero.

44 If an Iowa consumer price index is not available  
45 from the bureau of labor statistics of the United  
46 States department of labor or successor agency, the  
47 state comptroller shall compute a consumer price index  
48 based upon a comprehensive sampling of the costs of  
49 goods and services within Iowa.

50 Sec. 9. NEW SECTION.

**Page 3**

1 1. The city cost per resident for the fiscal year  
2 beginning on July 1, 1980, is the amount determined  
3 by dividing the amount of general fund property taxes  
4 actually raised by the city under section three hundred  
5 eighty-four point one (384.1) of the Code, excluding  
6 the amount raised by the levies authorized in section  
7 three hundred eighty-four point twelve (384.12) of  
8 the Code, in the previous fiscal year by the weighted  
9 number of residents of the city as of the beginning  
10 of the previous fiscal year.

11 2. For each succeeding fiscal year, the city cost  
12 per resident for that fiscal year is equal to the  
13 city cost per resident for the previous fiscal year  
14 plus the allowable growth for the fiscal year.

15 3. The city cost for a fiscal year is equal to  
16 the city cost per resident for the fiscal year  
17 multiplied by the weighted number of residents of  
18 the city for the fiscal year.

19 Sec. 10. NEW SECTION. The weighted number of  
 20 residents of a city for a fiscal year is the population  
 21 of the city, as provided under chapter four hundred  
 22 five (405) of the Code, adjusted by the sum of the  
 23 following:

24 1. The population of the city multiplied by the  
 25 percent of unemployed residents of the city in excess  
 26 of the average state percent of unemployed residents  
 27 of all cities in the state during the calendar year  
 28 ending in the previous fiscal year as determined by  
 29 the department of job service.

30 2. The population of the city multiplied by the  
 31 percent of the population of the city in excess of  
 32 the average state percent of the population of all  
 33 cities in the state which have received credit or  
 34 reimbursement under sections four hundred twenty-five  
 35 point sixteen (425.16) to four hundred twenty-five  
 36 point thirty-nine (425.39) of the Code during the  
 37 calendar year ending in the previous fiscal year as  
 38 determined by the department of revenue.

39 3. The population of the city multiplied by the  
 40 percent of the population of the city in excess of  
 41 the average state percent of the population of all  
 42 cities in the state which have received at any time  
 43 during the calendar year ending in the previous fiscal  
 44 year state supplemental assistance pursuant to chapter  
 45 two hundred forty-nine (249) of the Code as determined  
 46 by the department of social services.

47 Sec. 11. NEW SECTION. There is appropriated  
 48 annually from the general fund of the state to the  
 49 treasurer of state to be credited to the state urban  
 50 funding account, which fund is hereby created, from

Page 4

1 funds not otherwise appropriated, an amount sufficient  
 2 to carry out the provisions of sections three (3)  
 3 through eleven (11) of this Act. On or before December  
 4 fifteenth of each fiscal year the state comptroller  
 5 shall distribute the money in this fund to each city  
 6 in the amount to which each city is entitled under  
 7 sections three (3) through eleven (11) of this Act  
 8 as state urban funding aid."

9 2. Title page, line 5, by inserting after the  
 10 figure "1980" the words "and providing appropriations

### HOUSE CONCURRENT RESOLUTION 115 By Lorenzen, Hinkhouse, Bina and Schneklath

- 1     *Whereas*, the current Iowa law requires each school
- 2     district to conduct a biennial school census; and
- 3     *Whereas*, the mobility of the population of Iowa causes
- 4     a school district's population to change greatly during a
- 5     two-year period in many areas; and
- 6     *Whereas*, there is great cost to each school district
- 7     establishing a statistic that is used less often than the
- 8     actual fall enrollment statistic; and
- 9     *Whereas*, the recognition of civil rights including the
- 10    right of privacy leads many citizens to be reluctant to
- 11    participate meaningfully in the formal school census requirement;
- 12    and
- 13    *Whereas*, the actual fall enrollment statistic is more
- 14    accurate than the enrollment projection that may be formulated
- 15    from information received in the school census more than one
- 16    year preceding the beginning of that school year; *Now*
- 17    *Therefore*,
- 18    *Be It Resolved by the House of Representatives, the*
- 19    *Senate Concurring*, That the general assembly of the state
- 20    of Iowa requests the department of public instruction in
- 21    consultation with local school administrators, to determine
- 22    the feasibility of eliminating the requirement that each
- 23    school district conduct a biennial school census.

Laid over under Rule 30.

February 29, 1980

The Honorable William H. Harbor  
Speaker Pro Tempore  
Iowa House of Representatives  
State House

Dear Bill:

Please accept my resignation as Speaker of the Iowa House of Representatives

Speaker

### ELECTION OF SPEAKER

Smalley of Polk moved that the Honorable William H. Harbor be elected as Speaker of the House and that the Chief Clerk be authorized to cast the votes of all the members of the House of Representatives of the Sixty-eighth General Assembly for the Honorable William H. Harbor as speaker.

The motion prevailed and in accordance with the foregoing motion, the Chief Clerk cast the votes of all the members of the House of Representatives for the Honorable William H. Harbor as Speaker of the House of Representatives of the Sixty-eighth General Assembly. The Honorable William H. Harbor of Mills County, having received all of the votes cast for the office of Speaker of the House of Representatives of the Sixty-eighth General Assembly, was declared duly elected to that office.

Danker of Pottawattamie moved that a committee of two be named to escort the Speaker to the chair.

The motion prevailed and the following committee was named: Danker of Pottawattamie and Pavich of Pottawattamie.

### PRESENTATION OF SPEAKER

The Honorable William H. Harbor was escorted to the Speaker's station and, having been sworn, assumed the chair. Hansen of O'Brien presented Speaker Harbor with the gavel and congratulated him on his unanimous election.

Speaker Harbor thanked the House for the honor bestowed upon him and offered the following remarks:

These past few weeks have been filled with emotion and tension. While our purpose for being here was not slowed down, the concerns and inner tightness continued to mount.

All this reminds me of an experience of many years ago when serving as gunnery officer of an AK 77. We were fighting for our very lives in the battle of Okinawa.

After several days and nights of continued harrassment by the enemy kamikaze, the tension and emotions could be cut with a knife. One particular night was even worse than those preceding. As matters went from bad to worse, the ship immediately ahead of us took a kamikaze plane in its #4 starboard hold setting off the ammunition causing a huge fire and numerous casualties.

The ship's skipper, with nerves at a breaking point, asked the flotilla commander for permission to abandon ship. Without hesitating, Admiral Reif Snyder, the flotilla commander, replied in a firm and strong voice, "You will abandon ship under no circumstances, permission denied." That was all that was said, but it was enough because having been denied permission the captain and crew, with help of others and bolstered by those strong words, proceeded to control the fire and the damage, and the ship lived to sail again.

The rumors, the suggestions, the ideas of the past several weeks approached the point of near despair. In effect, they were reaching the point of considering the abandonment of our ship.

To those of this thinking and to those who would make this suggestion, I would paraphrase Admiral Reif Snyder's statement, "We will abandon this ship of state under no circumstances, permission denied."

Our strength will be gained by speaking as one. It is time to unite after one purpose and bring together our collective talents in addressing the opportunities of today. Toward this end I pledge you my hand of cooperation. I give you my hand of strength and firmness. I give you my hand of openness. Of still greater importance, I give you my heart full of love for each of you, with the hope and prayer that God will be our partner in these endeavors.

I would ask that as you seek this same guidance that you will remember both Floyd and Betty Millen who desperately need us now as never before.

Together, with one purpose, we can enlarge the Iowa sign of a place to grow to continue Iowa as a great place to live.

## ELECTION OF SPEAKER PRO TEMPORE

Crawford of Story moved that the Honorable Delwyn Stromer be elected as Speaker pro tempore of the House and that the Chief Clerk be authorized to cast the votes of all the members of the House of Representatives of the Sixty-eighth General Assembly for the Honorable Delwyn Stromer as Speaker pro tempore.

The motion prevailed and in accordance with the foregoing motion, the Chief Clerk cast the votes of all the members of the House of Representatives for the Honorable Delwyn Stromer as Speaker pro tempore of the House of Representatives of the Sixty-eighth General Assembly. The Honorable Delwyn Stromer of Hancock County, having received all of the votes cast for the office of Speaker pro tempore of the House of Representatives of the Sixty-eighth General Assembly, was declared duly elected to that office.

Menke of O'Brien moved that a committee of two be named to escort the Speaker pro tempore to the Speaker's station.

The motion prevailed and the following committee was named: Menke of O'Brien and Cochran of Webster.

The Honorable Delwyn Stromer was escorted to the chair and, being duly sworn, offered the following remarks:

Mr. Speaker, Members of the House:

It is with great humility that I accept the Speaker pro tempore position in the Iowa House.

Historically it has been proper for the person elected to this position to talk about cooperation, trust and expediency. Everyone knows that by the end of the second, third, or for sure by the fourth week, all these fine promises have been forgotten by both sides and it is partisan business as usual.

I'm not naive enough to think that we may not have the same action the remainder of this year. We were elected as individuals to represent our individual districts. I would, however, suggest that for the remainder of the session some issues like the transportation problems caused by bankrupt railroads and the usury problems caused by sixteen and three quarter percent prime rate, are challenges enough for all of us to work together when it is necessary to protect the rights of all states in the nation rather than just allowing the federal government to preempt all our rights. On many of these issues, the Iowa legislature must surely hang together or all the states may fall apart.

I'm very proud to accept the challenge that you have given me and hope I can adequately fulfill the position.

### UNANIMOUS CONSENT

Halvorson of Clayton asked and received unanimous consent that the House of Representatives present to the Honorable Floyd H. Millen a chair similar to the one used in his official capacity as

Speaker and that the Chief Clerk procure a suitable name plate to be properly engraved and attached to the chair.

32 section:

33 **NEW SECTION. FINANCE CHARGE ON ACCOUNTS RECEIVABLE.**

34 1. Except where the parties have agreed in writing  
35 for the payment of a different finance charge or rate  
36 of interest, a creditor may charge a finance charge  
37 on the unpaid balances of an account receivable at  
38 a rate not exceeding that permitted by subsection  
39 three (3) or four (4) of this section if the creditor  
40 gives notice as required by subsection two (2) of  
41 this section.

42 2. As a condition of imposing a finance charge  
43 under this section, the creditor shall give notice  
44 to the debtor as follows:

45 a. In a transaction that is subject to the truth  
46 in lending Act, the creditor shall give all disclosures  
47 as required by that Act and at the time or times  
48 required by that Act.

49 b. In a transaction that is not subject to the  
50 truth in lending Act, the creditor shall give written

1 notice to the debtor at the time the debt arises.  
2 The notice shall be contained on the invoice or bill  
3 of sale evidencing the credit transaction, and shall  
4 disclose the rate of the finance charge and the date  
5 or day of the month before which payment must be  
6 received if the finance charge is to be avoided.  
7 With respect to open accounts, this notice shall be  
8 given at the time credit is initially extended;

9 provided that additional advance notice in writing  
10 shall be given to the debtor not less than ninety  
11 days prior to any change in the terms of the agreement  
12 or of rate of the finance charge or date payment is  
13 due. For purposes of this paragraph, notice is given  
14 if the invoice or bill of sale is delivered with the  
15 goods, whether or not the debtor is present at the  
16 time of delivery.

17 c. As used in this subsection, "truth in lending  
18 Act" means as defined in section five hundred thirty-  
19 seven point one thousand three hundred two (537.1302)  
20 of the Code.

21 3. With respect to an account other than an open  
22 account, the creditor may impose a finance charge  
23 not exceeding that permitted by section five hundred  
24 thirty-seven point two thousand two hundred one  
25 (537.2201), subsections two (2) through five (5) of  
26 the Code.

27 4. With respect to an open account, the creditor  
28 may impose a finance charge not exceeding that  
29 permitted by section five hundred thirty-seven point  
30 two thousand two hundred two (537.2202), subsections  
31 two (2) and three (3) of the Code.

32 5. As used in this section, "finance charge" means  
33 as defined in section five hundred thirty-seven point  
34 one thousand three hundred one (537.1301) of the Code;  
35 and "account receivable" means a debt arising from  
36 the retail sale of goods or services or both on credit;

38 sisting of debt arising from the extension of open-  
39 end credit, as defined in section five hundred thirty-  
40 seven point one thousand three hundred one (537.1301)  
41 of the Code.

42 6. This section does not supersede any of the  
43 provisions of chapter five hundred thirty-seven (537)  
44 of the Code, except that section five hundred thirty-  
45 seven point three thousand two hundred twelve  
46 (537.3212) of the Code does not apply to a consumer  
47 credit transaction in which a finance charge is imposed  
48 under this section. This section does not authorize  
49 the compounding of a finance charge.

50 7. The finance charge authorized by this section

1 is in lieu of interest or a finance charge authorized  
2 under section five hundred thirty-five point two  
3 (535.2), subsection one (1) of the Code or any other

5 pursuant to this section is applicable to a judgment  
6 in an action on the account, notwithstanding section

8 Code.

9 8. If a creditor imposes a finance charge in  
10 violation of this section, the debtor shall have the

By McKean, Daggett, Hansen of O'Brien, Jochum, Holt, Bruner, Lloyd-Jones, Clark of Cerro Gordo, Van Maanen, De Groot, Brandt, Halvorson of Webster, Shimanek, Spear and Cusack

- 1 *Whereas*, the security of the state correctional
- 2 institutions is directly affected by the quality and
- 3 experience of personnel serving the institutions; and
- 4 *Whereas*, current job classifications, salaries, and
- 5 retirement benefits for correctional personnel, includ-
- 6 ing correctional officers and other employees of cor-
- 7 rectional institutions, have not alleviated the problems

8 of high personnel turnover and substantial training  
 9 costs and the consequential security risks which exist  
 10 when inexperienced and untrained personnel are responsible  
 11 for the security of the correctional institutions; and

12 *Whereas*, it is essential that the Iowa merit employ-  
 13 ment commission in cooperation with the division of  
 14 adult corrections of the department of social services  
 15 address and study these critical issues immediately; *Now*  
 16 *Therefore*,

17 *Be It Resolved by the House of Representatives, the*  
 18 *Senate Concurring*, That the Iowa merit employment commission  
 19 be directed to complete a study of the current job  
 20 classifications, salaries, and retirement benefits for  
 21 correctional personnel and consider the establishment of  
 22 separate classifications within the state merit system for  
 23 employees of correction institutions and submit to the  
 24 legislative council by December 1, 1980 a recommended

HOUSE CONCURRENT RESOLUTION 119

By Egenes, Davitt, Pellett, Lageschulte, Anderson of Audubon and Howell

- 1 *Whereas*, the basic economy of the state of Iowa
- 2 is dependent upon railroad transportation; and
- 3 *Whereas*, it is critical that rail shipments both
- 4 inbound and outbound not be interrupted for even a
- 5 short period of time; and
- 6 *Whereas*, a partial disruption or reduction of rail
- 7 service will result in severe economic hardship to
- 8 many individuals and corporations in Iowa; and
- 9 *Whereas*, the economy of the nation will be adversely
- 10 affected by the reduced ability of Iowa to continue
- 11 contributing to the reduction of the deficit level in
- 12 balance of payments; and
- 13 *Whereas*, the directed service carrier (Kansas City
- 14 Terminal Railway) is presently maximizing rail service
- 15 in Iowa and has done a commendable job serving the
- 16 "Heartland Core" as well as providing the flexibility
- 17 required beyond Iowa's borders; and
- 18 *Whereas*, the initiation of temporary service by
- 19 another carrier will result in diminution of service

20 and further complicate operational problems unneces-  
21 sarily; and

22 *Whereas*, labor protection agreements have been signed  
23 covering employees of bankrupt carriers hired by a  
24 successor carrier, and legislation, already passed by  
25 the Senate, is being progressed in the United States  
26 Congress to protect employees of bankrupt carriers not  
27 hired by a successor carrier; and

28 *Whereas*, this legislation will encourage potential  
29 successor carriers to finalize offers to buy Rock Island  
30 trackage; *Now Therefore*,

**Page 2**

1 *Be It Resolved by the House of Representatives, the*  
2 *Senate Concurring*, That the Iowa general assembly urge  
3 the United States Congress to legislate an extension of  
4 directed service operations to be continued by the  
5 current operator (Kansas City Terminal Railway), for a  
6 period of at least forty-five days beyond the expiration  
7 of the presently authorized period, which expires on  
8 March 23, 1980, and to provide the necessary funding  
9 therefor, in order to maintain the present level and  
10 frequency of service keeping the "Heartland Core" in  
11 Iowa and the extensions beyond Iowa to Minneapolis,  
12 St. Paul, Chicago, and Kansas City, intact; and

13 *Be It Further Resolved*, That the Iowa general  
14 assembly urges that the completed legislation be  
15 effected without delay to prevent the service reduc-  
16 tion and economic harm which will result if directed  
17 service operations are not continued; and

18 *Be It Further Resolved*, That the secretary of state  
19 of Iowa is directed to send copies of this resolution  
20 to the speaker and the clerk of the United States  
21 house of representatives, the president and the secre-  
22 tary of the United States senate, and each member of the  
23 Iowa congressional delegation.

Laid over under Rule 30.

### 11 Sec. 3. NEW SECTION. ESTABLISHMENT OF BOARD.

12 1. The Iowa family enterprise development board  
13 is established and constituted a public instrumentality  
14 and agency of the state exercising public and essential  
15 governmental functions to establish and operate the  
16 program. The board shall consist of nine members,  
17 seven members appointed by the governor with the  
18 approval of two-thirds of the members of the senate  
19 and the treasurer and the state secretary of  
20 agriculture who are ex officio voting members. No

21 more than five members shall belong to the same  
22 political party. As far as possible the governor  
23 shall include within the membership persons who  
24 represent financial institutions experienced in  
25 agricultural or business lending, the real estate  
26 sales industry, farmers, beginning farmers,  
27 businesspersons, beginning businesspersons and any  
28 other person specially interested in family enterprise  
29 development.

30 2. The appointed members of the board shall be  
31 appointed by the governor for terms of six years

33 shall be appointed for terms of two years and two  
34 members shall be appointed for a term of four years.  
35 A person appointed to fill a vacancy shall serve only  
36 for the unexpired portion of the term. A member is  
37 eligible for reappointment. An appointed member of  
38 the board may be removed from office by the governor  
39 for misfeasance, malfeasance or willful neglect of  
40 duty or other just cause, after notice and hearing,  
41 unless the notice and hearing is expressly waived  
42 in writing.

43 3. Five members of the board constitute a quorum  
44 and the affirmative vote of a majority of the members  
45 is necessary for any recommendation made by the board.  
46 The majority shall not include any member who has

48 of a conflict of interest is conclusive for this  
49 purpose. A vacancy in the membership does not impair  
50 the right of a quorum to perform the functions and

#### Page 4

1 duties of the board.

2 4. Appointed members of the board are entitled  
3 to receive forty dollars per diem for each day spent  
4 in performance of their functions and duties as members  
5 and reimbursement for all actual and necessary expenses  
6 incurred in the performance of their functions and  
7 duties as members.

8 5. Meetings of the board shall be held at the  
9 call of the chairperson or when two members so request.

10 6. Members shall elect a chairperson and vice  
11 chairperson annually, and other officers as they

13 be the treasurer of the board and shall not serve  
14 as any other officer of the board.

15 7. The appointed members of the board shall give

17 8. The treasurer and staff of the treasurer's  
18 office shall serve as the staff of the board. The

19 treasurer shall advise the board on matters relating  
20 to agricultural or business land and property and  
21 agricultural or business finance, and carry out all  
22 directives from the board, and may hire and supervise  
23 additional staff pursuant to its directions and under  
24 the provisions of chapter nineteen A (19A), of the  
25 Code, except that principal administrative assistants  
26 with responsibilities in beginning farm or business  
27 loan programs, accounting, mortgage loan processing,  
28 and investment portfolio management are exempt from  
29 that chapter.

30 Sec. 4. NEW SECTION. LEGISLATIVE FINDINGS. The  
31 general assembly finds and declares as follows:

32 1. The establishment of the program is in all  
33 respects for the benefit of the people of the state  
34 of Iowa, for the improvement of their health and  
35 welfare and for the promotion of the economy, which  
36 are public purposes.

37 2. The board will be performing an essential  
38 governmental function in the exercise of the powers  
39 and duties conferred by this Act.

40 3. There exists a serious problem in this state  
41 regarding the ability of nonestablished farmers to  
42 acquire agricultural land and improvements and  
43 depreciable agricultural property in order to enter  
44 farming and the ability of nonestablished  
45 businesspersons to acquire business property in order  
46 to start a business.

47 4. This barrier to entry into farming is conducive  
48 to consolidation of acreage of agricultural land with  
49 fewer individuals resulting in a grave threat to the  
50 traditional family farm.

**Page 5**

1 5. This barrier to starting a business is conducive  
2 to the continuing expansion of very large businesses  
3 and the decrease in number of smaller independent  
4 businesses resulting in a grave threat to the  
5 traditional family business.

6 6. These conditions result in a loss in population,  
7 unemployment and a movement of persons from rural  
8 communities to urban areas accompanied by added costs  
9 to communities for creation of new public facilities  
10 and services.

11 7. One major cause of this condition has been  
12 recurrent shortages of funds in private channels and  
13 the high interest cost of borrowing.

14 8. The ordinary operations of private enterprise  
15 and of existing programs of the federal government  
16 have not in the past corrected these conditions.

17 9. A stable supply of adequate funds for  
 18 agricultural and business financing is required to  
 19 encourage beginning farmers and businesspersons in  
 20 an orderly and sustained manner and to reduce the  
 21 problems described in this section.

22 10. Article nine (IX), section three (3), of the  
 23 Constitution of the State of Iowa requires that, "The  
 24 General Assembly shall encourage, by all suitable  
 25 means, the promotion of intellectual, scientific,  
 26 moral, and agricultural improvement", and agricultural  
 27 improvement and the public good are served by a policy  
 28 of facilitating access to capital by beginning farmers  
 29 unable to obtain capital elsewhere in order to  
 30 preserve, encourage and protect the family farm.

31 11. It is necessary to create a family enterprise  
 32 development program to encourage ownership and  
 33 operation of farms by beginning farmers and to  
 34 encourage ownership and operation of businesses by  
 35 beginning businesspersons by providing purchase money  
 36 loans to beginning farmers and businesspersons who  
 37 are not able to obtain adequate capital elsewhere  
 38 and to lower costs through the use of public financing.

39 12. All of the purposes stated in this section  
 40 are public purposes and uses for which public moneys  
 41 may be borrowed, expended, advanced, loaned or granted.

42 Sec. 5. NEW SECTION. GUIDING PRINCIPLES. In  
 43 the performance of the duties, implementation of the  
 44 powers, and selection of specific projects to receive  
 45 assistance under this Act, the board shall be guided  
 46 by the following principles:

47 1. The board shall not become an owner of real  
 48 or depreciable agricultural property or business  
 49 property, except on a temporary basis where necessary  
 50 in order to implement the projects, to protect its

**Page 6**

1 investments by means of foreclosure or other means,  
 2 or to facilitate transfer of real or depreciable  
 3 agricultural property for the use of beginning farmers  
 4 or the transfer of business property for use of  
 5 beginning businesspersons.

6 2. The board shall exercise diligence and care  
 7 in selection of projects to receive assistance and  
 8 shall apply customary and acceptable business and  
 9 lending standards in selection and subsequent  
 10 implementation of the projects. The board may delegate  
 11 primary responsibility for determination and  
 12 implementation of the projects to any federal  
 13 governmental agency or instrumentality or state agency  
 14 which assumes any obligation to repay the loan, either

15 directly or by insurance or guarantee.

16 Sec. 6. NEW SECTION. GENERAL POWERS. The board  
17 has all of the powers needed to carry out the program,  
18 including but not limited to the power to:

19 1. Issue bonds and notes as provided in this Act  
20 in order to finance the program.

21 2. Sue and be sued on behalf of the program.

22 3. Make and execute agreements, contracts and  
23 other instruments, with any public or private entity,  
24 including but not limited to any federal governmental  
25 agency or instrumentality, in furtherance of the  
26 program. The board may make and execute contracts  
27 with mortgage lenders for the servicing of mortgage  
28 and secured loans. All political subdivisions, other  
29 public agencies and state agencies may enter into  
30 contracts and otherwise cooperate with the board.

31 4. Acquire, hold, improve, mortgage, lease and  
32 dispose of real and personal property, including but  
33 not limited to, the power to sell at public or private  
34 sale, with or without public bidding, any property,  
35 mortgage or secured loan or other obligation held  
36 by the board.

37 5. Procure insurance, including pool insurance  
38 on any group of mortgage or secured loans, against  
39 any loss in connection with the operations and property  
40 interests of the program.

41 6. Fix and collect fees and charges for program

8 of its agreement with the board with respect to the  
9 making of new mortgage or secured loans to beginning  
10 farmers or businesspersons may be enforced by decree  
11 of any district court of this state. The board may

21 the penalties shall be recoverable at the suit of  
22 the board.

23 4. The board shall require that each mortgage  
24 lender receiving a loan pursuant to this section shall  
25 issue and deliver to the board evidence of its  
26 indebtedness to the board which shall constitute a  
27 general obligation of the mortgage lender and shall  
28 bear a date, mature at a time, be subject to prepayment  
29 and contain other provisions consistent with this  
30 section and reasonably related to protecting the  
31 security of the program's investment, as the board  
32 determines.

33 5. Notwithstanding any other provision of this  
34 section, the interest rate and other terms of loans  
35 to mortgage lenders made from the proceeds of an issue

40 lenders are additionally secured as to payment of  
41 both principal and interest by a pledge of and lien  
42 upon collateral security by special escrow funds or  
43 other forms of guarantee and in amounts and forms  
44 as the board by resolution determines to be necessary  
45 to assure the payment of the loans and the interest  
46 as they become due. Collateral security shall consist  
47 of direct obligations of or obligations guaranteed  
48 by the United States or one of its agencies,

4 7. The board may require that collateral for loans  
5 be deposited with a bank, trust company or other  
6 financial institution acceptable to the board located

7 in this state and designated by the board as custodian.  
8 In the absence of that requirement, each mortgage  
9 lender shall enter into an agreement with the board  
10 containing provisions the board deems necessary to  
11 adequately identify and maintain the collateral,  
12 service the collateral and require the mortgage lender  
13 to hold the collateral as an agent for the board and  
14 be accountable to the board as the trustee of an  
15 express trust for the application and disposition  
16 of the collateral and the income from it. The board  
17 may also establish additional requirements the board  
18 deems necessary with respect to the pledging,  
19 assigning, setting aside or holding of collateral  
20 and the making of substitutions for it or additions  
21 to it and the disposition of income and receipts from  
22 it.

23 8. The board may require as a condition of loans  
24 to mortgage lenders any representations and warranties  
25 the board determines are necessary to secure the loans  
26 and carry out the purposes of this section.

27 9. If a provision of this section is inconsistent  
28 with a provision of law of this state governing  
29 mortgage lenders, the provision of this section  
30 controls for the purposes of this section.

31 **Sec. 13. NEW SECTION. PURCHASE OF MORTGAGE OR**  
32 **SECURED LOANS.**

33 1. The board may purchase and make advance  
34 commitments to purchase mortgage or secured loans  
35 from mortgage lenders at prices and upon terms and  
36 conditions as the board determines. However, the  
37 total purchase price for all mortgage or secured loans  
38 which the board commits to purchase from a mortgage  
39 lender at any one time shall not exceed the total  
40 of the unpaid principal balances of the loans  
41 purchased. Mortgage lenders are authorized to sell  
42 mortgage or secured loans to the board in accordance  
43 with the provisions of this section and the rules  
44 of the board.

45 2. The board shall require the submission to the  
46 board by each mortgage lender from which the board  
47 has purchased loans of evidence satisfactory to the  
48 board of the making of mortgage or secured loans to  
49 beginning farmers or businesspersons as required by  
50 this section and in that connection may, through the

**Page 13**

1 board's employees or agents, inspect the books and  
2 records of a mortgage lender.

3 3. Compliance by a mortgage lender with the terms  
4 of its agreement with the board with respect to the  
5 making of mortgage or secured loans to beginning

6 farmers or businesspersons may be enforced by decree  
7 of any district court of this state. The board may  
8 require as a condition of purchase of loans from any  
9 national banking association or federally chartered  
10 savings and loan association the consent of the  
11 association to the jurisdiction of courts of this  
12 state over any enforcement proceeding. The board  
13 may also require as a condition of the purchase of  
14 loans from a mortgage lender agreement by the mortgage  
15 lender to the payment of penalties to the board for  
16 violation by the mortgage lender of its agreement  
17 with the board and the penalties shall be recoverable  
18 at the suit of the board.

19 4. The board may require as a condition of purchase  
20 of a loan from a mortgage lender that the mortgage  
21 lender make representations and warranties the board  
22 requires. A mortgage lender is liable to the board  
23 for damages suffered by the board by reason of the  
24 untruth of a representation or the breach of a warranty  
25 and, in the event that a representation proves to  
26 be untrue when made or in the event of a breach of  
27 warranty, the mortgage lender shall, at the option  
28 of the board, repurchase the loan for the original  
29 purchase price adjusted for amounts subsequently paid  
30 on it, as the board determines.

31 5. If a provision of this section is inconsistent  
32 with another provision of law of this state governing  
33 mortgage lenders, the provision of this section  
34 controls for the purposes of this section.

39 default, waive a default or consent to the modification  
40 of the terms of a mortgage or secured loan or a loan  
41 to a mortgage lender, forgive or forbear all or part  
42 of a mortgage or secured loan or a loan to a mortgage  
43 lender and commence, prosecute and enforce a judgment  
44 in any action, including but not limited to a

21 out of the moneys, assets or revenues of the program  
22 and as provided in the agreement with bondholders

25 of this state or any political subdivision of this  
26 state within the meaning of any constitutional or  
27 statutory debt limitations, but are special obligations  
28 payable solely and only from the sources provided  
29 in this Act, and the board shall not pledge the credit  
30 or taxing power of this state or any political  
31 subdivision of this state or make the program's debts  
32 payable out of any moneys except those of the program.

33 3. Bonds and notes must be authorized by a  
34 resolution of the board. However, the resolution  
35 may delegate to an officer of the board the power

18 to the terms, conditions and covenants providing for  
19 the payment of the principal, redemption premiums,  
20 if any, interest and other terms, conditions, covenants  
21 and protective provisions safeguarding payment, not  
22 inconsistent with this Act, as are found to be  
23 necessary by the board for the most advantageous sale,  
24 which may include, but are not limited to, covenants  
25 with the holders of the bonds as to:

26 (1) Pledging or creating a lien, to the extent  
27 provided by the resolution, on moneys or property  
28 of the program or moneys held in trust or otherwise  
29 by others to secure the payment of the bonds.

30 (2) Providing for the custody, collection,

2 holders of bonds in the event of a default. However,

3 rights and remedies shall be consistent with the laws  
4 of this state and other provisions of this Act.

5 (10) Any other matters which affect the security  
6 and protection of the bonds and the rights of the  
7 holders.

8 5. The board may issue bonds for the purpose of  
9 refunding any bonds or notes of the program then  
10 outstanding, including the payment of any redemption  
11 premiums and any interest accrued or to accrue to  
12 the date of redemption of the outstanding bonds or  
13 notes. Until the proceeds of bonds issued for the  
14 purpose of refunding outstanding bonds or notes are  
15 applied to the purchase or retirement of outstanding  
16 bonds or notes or the redemption of outstanding bonds  
17 or notes, the proceeds may be placed in escrow and  
18 be invested and reinvested in accordance with the  
19 provisions of this Act. The interest, income and  
20 profits earned or realized on an investment may also  
21 be applied to the payment of the outstanding bonds  
22 or notes to be refunded by purchase, retirement or  
23 redemption. After the terms of the escrow have been  
24 fully satisfied and carried out, any balance of  
25 proceeds and interest earned or realized on the  
26 investments may be returned to the program for use  
27 in any lawful manner. All refunding bonds shall be  
28 issued and secured and subject to the provisions of  
29 this Act in the same manner and to the same extent  
30 as other bonds.

31 6. The board may issue negotiable bond anticipation  
32 notes and may renew them from time to time but the  
33 maximum maturity of the notes, including renewals,  
34 shall not exceed ten years from the date of issue  
35 of the original notes. Notes are payable from any  
36 available moneys of the program not otherwise pledged  
37 or from the proceeds of the sale of bonds in  
38 anticipation of which the notes were issued. Notes  
39 may be issued for any purpose of the program. Notes  
40 shall be issued in the same manner as bonds and notes  
41 and the resolution authorizing them may contain any  
42 provisions, conditions or limitations, not inconsistent  
43 with the provisions of this subsection, which the  
44 bonds or a bond resolution may contain. Notes may  
45 be sold at public or private sale. In case of default  
46 on notes or violation of any obligations of the board  
47 to the noteholders, the noteholders shall have all  
48 the remedies provided in this Act for bondholders.  
49 Notes shall be as fully negotiable as bonds of the  
50 program.

1 7. A copy of each pledge agreement by or to the  
2 board, including without limitation each bond

15 executing bonds, notes or other obligations are not  
16 liable personally on the bonds, notes or other  
17 obligations or subject to personal liability or  
18 accountability by reason of the issuance of the bonds  
19 or notes.

20 9. The board shall publish a notice of intention  
21 to issue bonds or notes in a newspaper published and  
22 of general circulation in the state. The notice shall  
23 include a statement of the maximum amount of bonds  
24 or notes proposed to be issued, and in general, what  
25 net revenues will be pledged to pay the bonds or notes  
26 and interest thereon. An action shall not be brought  
27 questioning the legality of the bonds or notes or  
28 the power of the board to issue the bonds or notes  
29 or to the legality of any proceedings in connection  
30 with the authorization or issuance of the bonds or  
31 notes after sixty days from the date of publication  
32 of the notice.

33 Sec. 16. NEW SECTION. RESERVE FUNDS AND  
34 APPROPRIATIONS.

35 1. The board may create and establish for the  
36 program one or more special funds, each to be known  
37 as a "bond reserve fund" and shall pay into each bond  
38 reserve fund any moneys appropriated and made available  
39 by the state for the purpose of the fund, any proceeds  
40 of sale of notes or bonds to the extent provided in  
41 the bond resolutions of the board authorizing their  
42 issuance and any other moneys which are available  
43 to the board for the purpose of the fund from any  
44 other sources. Moneys held in a bond reserve fund,  
45 except as otherwise provided in this Act, shall be  
46 used as required solely for the payment of the  
47 principal of bonds secured in whole or in part by  
48 the fund or of the sinking fund payments with respect  
49 to the bonds, the purchase or redemption of the bonds,  
50 the payment of interest on the bonds or the payments

## Page 18

1 of any redemption premium required to be paid when  
2 the bonds are redeemed prior to maturity.

3 2. Moneys in a bond reserve fund shall not be  
4 withdrawn from it in an amount that will reduce the  
5 amount of the fund to less than the bond reserve fund  
6 requirement established for the fund, as provided  
7 in this section, except for the purpose of making  
8 payment when due of principal, interest, redemption  
9 premiums and the sinking fund payments with respect  
10 to the bonds for the payment of which other moneys  
11 of the program are not available. Any income or  
12 interest earned by, or incremental to, a bond reserve  
13 fund due to the investment of it may be transferred  
14 by the board to other funds or accounts of the program  
15 to the extent the transfer does not reduce the amount  
16 of that bond reserve fund below the bond reserve fund  
17 requirement for it.

18 3. The board shall not at any time issue bonds,  
19 secured in whole or in part by a bond reserve fund  
20 if, upon the issuance of the bonds, the amount in  
21 the bond reserve fund will be less than the bond  
22 reserve fund requirement for the fund, unless the  
23 board at the time of issuance of the bonds deposits  
24 in the fund from the proceeds of the bonds issued  
25 or from other sources an amount which, together with  
26 the amount then in the fund will not be less than  
27 the bond reserve fund requirement for the fund. For  
28 the purposes of this section, the term "bond reserve  
29 fund requirement" means, as of any particular date  
30 of computation, an amount of money, as provided in  
31 the bond resolutions of the board authorizing the  
32 bonds with respect to which the fund is established,  
33 equal to not more than ten percent of the outstanding  
34 principal amount of bonds secured by the fund.

35 4. To assure the continued operation and solvency  
36 of the board for the carrying out of its purposes,  
37 provision is made in subsection one (1) of this section  
38 for the accumulation in each bond reserve fund of  
39 an amount equal to the bond reserve fund requirement  
40 for the fund. In order further to assure maintenance  
41 of the bond reserve funds, the board shall, on or  
42 before July first of each calendar year, make and  
43 deliver to the governor a certificate stating the  
44 sum, if any, required to restore each bond reserve  
45 fund to its bond reserve fund requirement. Within  
46 thirty days after the beginning of the session of  
47 the general assembly next following the delivery of  
48 the certificate, the governor may submit to both  
49 houses printed copies of a budget including any sum  
50 required to restore each bond reserve fund to its

## Page 19

1 bond reserve fund requirement. Sums appropriated  
2 by the general assembly and paid to the board pursuant  
3 to this section shall be deposited by the board in  
4 the applicable bond reserve fund.

5 5. Amounts paid over to the board by the state  
6 pursuant to the provisions of this section shall  
7 constitute and be accounted for as advances by the  
8 state to the program and, subject to the rights of  
9 the holders of any bonds or notes of the program,  
10 shall be repaid to the state without interest from  
11 all available operating revenues of the program in  
12 excess of amounts required for the payment of bonds,  
13 notes or obligations of the program, the bond reserve  
14 fund and operating expenses.

15 6. The board shall cause to be delivered to the  
16 legislative fiscal committee within ninety days of  
17 the close of the fiscal year an annual report certified  
18 by an independent certified public accountant, who  
19 may be the accountant or a member of the firm of  
20 accountants who regularly audits the books and accounts  
21 of the program. In the event that the principal  
22 amount of any bonds or notes deposited in a bond  
23 reserve fund is withdrawn for payment of principal  
24 or interest, reducing the amount of that fund to less  
25 than the bond reserve fund requirement, the board  
26 shall immediately notify the general assembly of this  
27 event and shall take steps to restore the fund to  
28 its bond reserve fund requirement from any amounts  
29 available, other than principal of a bond issue, which  
30 are not pledged to the payment of other bonds or  
31 notes.

32 **Sec. 17. NEW SECTION. REMEDIES OF BONDHOLDERS**  
33 **AND NOTEHOLDERS.**

34 1. If the board defaults in the payment of  
35 principal or interest on an issue of bonds or notes  
36 at maturity or upon call for redemption and the default  
37 continues for a period of thirty days or if the board  
38 fails or refuses to comply with the provisions of  
39 this Act, or defaults in an agreement made with the  
40 holders of an issue of bonds or notes, the holders  
41 of twenty-five percent in aggregate principal amount  
42 of bonds or notes of the issue then outstanding, by  
43 instrument filed in the office of the clerk of Polk  
44 county and proved or acknowledged in the same manner  
45 as a deed to be recorded, may appoint a trustee to  
46 represent the holders of the bonds or notes for the  
47 purposes provided in this section.

48 2. The board or any trustee appointed under the  
49 indenture under which the bonds are issued may, but  
50 upon written request of the holders of twenty-five

 2 of bonds or notes then outstanding shall:
- 3 a. Enforce all rights of the bondholders or  
 4 noteholders including the right to require the board  
 5 to carry out the agreements with the holders and to  
 6 perform the duties under this Act.
- 7 b. Bring suit upon the bonds or notes.
- 8 c. By action require the board to account as if  
 9 it were the trustee of an express trust for the  
 10 holders.
- 11 d. By action enjoin any acts or things which are  
 12 unlawful or in violation of the rights of the holders.
- 13 e. Declare all the bonds or notes due and payable  
 14 and if all defaults are made good then with the consent  
 15 of the holders of twenty-five percent of the aggregate  
 16 principal amount of the issue of bonds or notes then  
 17 outstanding, annul the declaration and its  
 18 consequences.
- 19 3. The trustee shall also have all powers necessary  
 20 or appropriate for the exercise of functions  
 21 specifically set forth or incident to the general  
 22 representation of bondholders or noteholders in the  
 23 enforcement and protection of their rights.
- 24 4. Before declaring the principal of bonds or  
 25 notes due and payable, the trustee shall first give  
 26 thirty days notice in writing to the governor, to  
 27 the board and to the attorney general of the state.
- 28 5. The district court has jurisdiction of any  
 29 action by the trustee on behalf of bondholders or  
 30 noteholders. The venue of the action shall be in  
 31 Polk county.

32 **Sec. 18. NEW SECTION. BONDS AND NOTES AS LEGAL**  
 33 **INVESTMENTS.** Bonds and notes are securities in which  
 34 public officers, state departments and agencies,  
 35 political subdivisions, insurance companies and other

 41 and other persons authorized to invest in bonds or  
 42 other obligations of this state may properly and

 44 or belonging to them. The bonds and notes are also  
 45 securities which may be deposited with and may be  
 46 received by public officers, state departments and  
 47 agencies and political subdivisions for any purpose  
 48 for which the deposit of bonds or other obligations  
 49 of this state is authorized.

50 **Sec. 19. NEW SECTION. MONEYS OF THE PROGRAM.**

## Page 21

1 1. Moneys of the program, except as otherwise  
2 provided in this Act, shall be paid to the board and  
3 shall be deposited in a bank or other financial  
4 institution designated by the board. The moneys shall  
5 be withdrawn on the order of the person authorized  
6 by the board. Deposits shall be secured in the manner  
7 determined by the board. The auditor of state or  
8 the auditor's legally authorized representatives may  
9 periodically examine the accounts and books of the  
10 program, including receipts, disbursements, contracts,  
11 leases, sinking funds, investments and any other  
12 records and papers relating to its financial standing,  
13 and the program shall not be required to pay a fee  
14 for the examination.

15 2. The board under the program may contract with  
16 holders of bonds or notes as to the custody,  
17 collection, security, investment and payment of moneys  
18 of the program, of moneys held in trust or otherwise  
19 for the payment of bonds or notes and to carry out  
20 the contract. Moneys held in trust or otherwise for  
21 the payment of bonds or notes or in any way to secure  
22 bonds or notes and deposits of the moneys may be  
23 secured in the same manner as moneys of the program  
24 and banks and trust companies may give security for  
25 the deposits.

26 3. Subject to the provisions of any contract with  
27 bondholders or noteholders and to the approval of  
28 the state comptroller, the board shall prescribe a  
29 system of accounts.

30 4. The board shall submit to the governor, the  
31 auditor of state and the state comptroller, within  
32 thirty days of receipt, a copy of the report of every  
33 external examination of the books and accounts of  
34 the program other than copies of the reports of  
35 examinations made by the auditor of state.

36 **Sec. 20. NEW SECTION. LIMITATION OF LIABILITY.**

37 The members of the board and persons acting in the  
38 board's behalf, while acting within the scope of their  
39 employment or agency, are not subject to personal  
40 liability resulting from carrying out the powers and  
41 duties given in this Act.

42 **Sec. 21. NEW SECTION. ASSISTANCE BY STATE**  
43 **OFFICERS, AGENCIES AND DEPARTMENTS.** State officers  
44 and state departments and agencies may render services  
45 to the board under the program within their respective  
46 functions as requested by the board.

47 **Sec. 22. NEW SECTION. CONFLICTS OF INTEREST.**

48 1. If a member or employee of the board, other  
49 than the treasurer, has an interest, either direct  
50 or indirect, in a contract to which the board is or

Page 22

1 is to be a party or in a mortgage lender requesting  
2 a loan from or offering to sell mortgage or secured  
3 loans to the board, the interest shall be disclosed  
4 to the board in writing and shall be set forth in  
5 the minutes. The member or employee having the  
6 interest shall not participate in action by the board  
7 with respect to that contract or mortgage lender.

8 2. This section does not limit the right of a  
9 member or employee of the board to acquire an interest  
10 in bonds or notes or limit the right of a member or  
11 employee, other than the treasurer, to have an interest  
12 in a bank or other financial institution in which  
13 the funds of the program are deposited or which is  
14 acting as trustee or paying agent under a trust  
15 indenture to which the board is a party.

16 3. The treasurer shall not have an interest in  
17 a bank or other financial institution in which the  
18 funds of the program are deposited or which is acting

21 not receive, in addition to fixed salary or  
22 compensation, any money or valuable thing, either  
23 directly or indirectly, or through any substantial  
24 interest in any other corporation or business unit,  
25 for negotiating, procuring, recommending or aiding  
26 in any purchase or sale of property or loan made under  
27 the program, nor shall the treasurer be pecuniarily  
28 interested, either as principal, co-principal, agent  
29 or beneficiary, either directly or indirectly or  
30 through any substantial interest in any other  
31 corporation or business unit, in any purchase, sale  
32 or loan.

33 Sec. 23. NEW SECTION. EXEMPTION FROM COMPETITIVE  
34 BID LAWS. The board and all contracts made by it  
35 in carrying out the program's purposes under this  
36 Act, are exempt from the laws of the state which

- 14 approved for such land and actually made available
- 15 to the owner or occupant in an amount equal to at
- 16 least seventy-five percent of the cost of any permanent
- 17 soil and water conservation practice, or an amount

18 set by the state soil conservation committee for any  
19 temporary soil and water conservation practice, except  
20 as otherwise provided by law with respect to land  
21 classified as agricultural land under conservation  
22 cover. The state soil conservation committee shall  
23 review these requirements at least once each year,  
24 and may authorize soil conservation district  
25 commissioners to make the mandatory establishment  
26 of any specified soil and water conservation practice  
27 in any particular case conditional on a higher  
28 proportion of public cost-sharing than is required  
29 by this section. When the commissioners have been  
30 so authorized, they shall, in determining the amount  
31 of cost-sharing for establishment of a specified soil  
32 and water conservation practice to comply with an  
33 administrative order issued pursuant to section  
34 467A.47, consider the extent to which the practice  
35 will contribute benefits to the public in relation  
36 to the benefits that will accrue to the individual  
37 owner or occupant of the land on which the practice  
38 is to be established. Evidence that an application  
39 for public or other cost-sharing funds, from a source  
40 or sources having authority to pay a portion of the  
41 cost of work needed to comply with an administrative  
42 order issued pursuant to section 467A.47, has been  
43 submitted to the proper officer or agency shall  
44 constitute commencement of such work within the meaning  
45 of sections 467A.43 to 467A.53. Upon receiving  
46 evidence of the submission of such application, the  
47 commissioners shall forward to the officer or agency  
48 to which the application was made a written request  
49 to receive notification of the disposition of such  
50 application. When notified of the approval of such

1 application, the commissioners shall issue to the  
2 same parties who received the original administrative  
3 order, or their successors in interest, a supplementary  
4 order, to be delivered in the same manner as provided  
5 by sections 467A.43 to 467A.53 for delivery of original  
6 administrative orders. The supplementary order shall  
7 state a time, not more than six months after approval  
8 of the application for public cost-sharing funds,  
9 by which the work needed to comply with the original  
10 administrative order shall actually be commenced,  
11 and a time thereafter when such work is to be  
12 satisfactorily completed. If feasible, that time  
13 shall be within one year after the date of the  
14 supplementary order, but the owner of land on which  
15 a soil and water conservation practice is being  
16 established under this section shall not be required

17 to incur a cost therefor in any one calendar year  
 18 which exceeds ten dollars per acre for each acre of  
 19 land belonging to that owner and located in the county  
 20 containing the land on which the required practice

 27 new section:

28 **NEW SECTION. COST-SHARING FOR CERTAIN LANDS**  
 29 **RESTRICTED.** On January 1, 1981, or as soon thereafter  
 30 as reasonably possible, the commissioners of each  
 31 soil conservation district in the state shall identify  
 32 each tract of agricultural land in the district which  
 33 has not been plowed nor used for growing row crops  
 34 at any time within fifteen years prior to that date,  
 35 and shall classify each such tract of land as  
 36 agricultural land under conservation cover. If any  
 37 tract of land so classified is thereafter plowed or  
 38 used for growing row crops, the commissioners shall  
 39 not approve use of state cost-sharing funds for  
 40 establishing permanent or temporary soil and water  
 41 conservation practices on that tract of land in an  
 42 amount greater than one-half the amount of cost-sharing  
 43 funds which would be available for that land if it  
 44 had not previously been classified as agricultural  
 45 land under conservation cover. The restriction imposed  
 46 by this section shall apply even if an administrative  
 47 order or court order has been issued requiring  
 48 establishment of soil and water conservation practices  
 49 on that land. The commissioners may waive the  
 50 restriction imposed by this section if they determine
