ELECTION OF SPEAKER

Sands of Louisa presented the name of the Honorable Kraig Paulsen of Linn County as candidate for Speaker of the House of Representatives of the Eighty-fifth General Assembly.

Grassley of Butler seconded the nomination of Kraig Paulsen for Speaker of the House.

McCarthy of Polk seconded the nomination of Kraig Paulsen for Speaker of the House and moved that the Acting Chief Clerk be authorized to cast the votes of all the members of the House of Representatives of the Eighty-fifth General Assembly.

In accordance with the foregoing motion, the Acting Chief Clerk cast the votes of all the members of the House of Representatives for the Honorable Kraig Paulsen as the Speaker of the House of Representatives of the Eighty-fifth General Assembly, and was declared duly elected to that office.

Sands of Louisa moved that a committee of two be appointed to escort the Speaker to the chair.

The motion prevailed and the following committee was appointed: Sands of Louisa and Dunkel of Dubuque.

PRESENTATION OF SPEAKER

The Honorable Kraig Paulsen was escorted to the Speaker's station and, having been sworn, assumed the chair. Temporary Speaker Windschitl presented Speaker Paulsen with the gavel and congratulated him on his unanimous election.

Speaker Paulsen thanked the House for the honor bestowed upon him and offered the following remarks:

Welcome members of the 85th General Assembly. Friends, family, Iowans – it's good to have you here today as we begin another legislative session.

First of all, thank you. Thank you for the unique honor of being your Speaker. This is an honor I do not take lightly or for granted. This body is a reflection of the great people of Iowa and I will strive every day to uphold the honor of this great institution and all that it represents.

A special welcome to the newly-elected members -- this job brings unique responsibilities and a special trust, one that I know you appreciate. The veteran members of this chamber look forward to your energy and the new ideas you bring to the process.

I want to take a moment to thank my family; especially my wife Cathy and our children Cassandra, Kylere, Kale and Keith. It is because of your love and support that I am able to serve the people of our house district and our state in this role. Thank you for your understanding and sharing in the sacrifice of our time together.

As we walk up the steps to do our work in this historic and beautiful building, we are keenly aware of those that have come before us and the history made within these chambers. As we do the people's business, we should reflect upon the progress that has been made so that we build on these successes and make decisions that move Iowa forward and make Iowa strong.

There is little doubt that we have significant challenges and difficult decisions ahead of us. However if we take the time to listen to Iowans and seek their input, we will do what is right. If we always remember where we come from and who we work for, Iowa will continue on the path to prosperity.

Coming off an election cycle, we have all spent a great deal of time meeting with Iowans in our districts, getting their thoughts and making commitments to them. Two of the most prevalent issues Iowans heard from the campaigns this summer revolve around state spending and comprehensive tax relief. Republicans and Democrats alike ran on these issues and Iowans expect action.

Two years ago, the state faced a \$900 million budget shortfall. Today, we have an ending balance of \$688 million and our budget reserves are full. Plain and simple, we

are in the current budget situation due to the fiscal discipline insisted upon by this chamber and the leadership shown by Governor Branstad over the last two sessions.

This is a fundamental change in legislative decision making, driven not by us, but by Iowans. This is a significant departure from how government operated in the past where every dollar was spent, even some we didn't have.

Our 99 percent expenditure limitation law has served us well. However, this law allows the Legislature and the governor to spend *more* than the state collects. This loophole is one House Republicans will not exploit. The only way to ensure sustainable and responsible state spending is to spend no more than we have – that is to say we must balance ongoing revenue with ongoing expenses.

House Republicans have instilled a fundamental culture change and we must not, we will not, retreat now.

This chamber must stick to the principles used to get our fiscal house in order:

- We will not spend more money than the state takes in;
- We will not use one-time money to pay for on-going expenses;
- We will not intentionally underfund entitlement programs to balance the state's budget;
- We will return unused tax dollars to Iowa's taxpayers.

There are some who see the state's ending balance as a giant pot of money, and they have already begun devising ways to spend it. If we were to spend everything we were allowed to under law, the state would need to see nine percent growth in 2014 revenues just to maintain that level of funding. This is unsustainable and should caution everyone making spending plans.

Let me be very clear – the ending balance is an overpayment by the hardworking taxpayers of Iowa. It is their money and they should get it back. In order to continue on the path of sound budgeting we must not back up from this pledge. We must not use this overpayment to feed government's appetite for growth.

Representative Soderberg –Iowans look forward to your committee bringing us a budget that conforms to these principles.

Most, if not all of us in this chamber have also said we need to go to work on reducing taxes, specifically property taxes. I would say that time is long since overdue.

A while back I received an email from Patty, a small business owner in my hometown of Hiawatha. This business has been locally owned and operated for more than 25 years. Patty stated, "I think your message that Iowa is open for business sounds great, but is questionable. Last year our property taxes went up over 14 percent. This should be illegal. It has become difficult for our small business to continue to compete in such a climate. We need new equipment and more employees."

Our job creators want to hire, they want to invest in our communities. They are being stifled and burdened by our government and their taxes. It's up to us to change this.

Now is the time for action, not more lip service. Iowans grow weary of campaign promises during election summers that turn into roadblocks and partisan bickering during session winters.

Some talk about giving one group of people this credit and another group that credit. This is neither comprehensive nor predictable tax relief and reform. It is arbitrary, restrictive, and unreliable. We need comprehensive reform, reform for ALL Iowans.

Additionally, local governments are projected to collect more in property taxes than ever before. The rollback has turned into the roll up and homeowners are paying the price in a big way. From Fiscal Year 2012 to 2013 alone, local governments will take an ADDITIONAL \$100 million from Iowans. We must act to address this rapid growth in government spending. If we do not, the hardworking taxpayers are again getting the short end of the stick.

During the previous General Assembly, this chamber came together with Governor Branstad and passed four property tax reform bills in a bipartisan manner only to watch them die in the Senate. The 85th General Assembly must do better.

I say again, House Republicans are not dug in on any one plan – we are open to any suggestion, but it must deliver significant and real property tax savings and include all classes of property. The focus cannot be on protecting and maximizing government revenues.

Representative Sands, Iowans look forward to your committee bringing us a property tax reform and relief bill that includes all classifications of property, that moves us away from having the third highest commercial property taxes in the nation and the 16th highest residential property taxes in the nation. Taxpayers need relief they can count on.

All of the proposals we work on must be directed at creating a stronger Iowa – a strong economy, strong budget leadership and strong schools and communities.

House Republicans will:

- Offer meaningful, inclusive, and reliable property tax relief and reforms.
- Eliminate job-killing red tape, burdensome regulations and declare dead any bills that threaten economic growth such as repealing Right to Work.
- Advance education reforms that offer accountability, innovation and choice for parents. We are not interested in simply throwing more money at a system that drives us to mediocrity. We are interested in identifying creative solutions that raise student achievement, empower teachers and better prepare young Iowans to compete in a global marketplace. These ideas must be helpful to teachers – not just another bureaucratic burden.
- Create a one-stop shop for business startups using existing departments to streamline the process and encourage entrepreneurship.

- Allow hardworking Iowa taxpayers to keep more of their money. We will streamline Iowa's income tax system and lower rates and continue to put any overpayment of tax dollars into the Taxpayer Trust Fund and return it directly to the pockets of Iowans.

This is not Washington, D.C. We do not offer ultimatums and push things off until they're about to go over a cliff. We're Iowans. We deal with our issues head on, and in a way that moves our state forward. We must resist any urge to kick the can any further down the road. Iowans chose a Republican House, a Democrat Senate and working with Governor Branstad, we have a real opportunity to achieve these goals.

We must not retreat from the challenges that face us – we must instead offer fundamental changes to government on behalf of the taxpayers of Iowa.

Lastly, and I mentioned this two years ago, but want to reiterate it. Later today we will be choosing the desks that will be assigned to each of us for the next two years. I mention this to make this point: while that is where we will be assigned and where we will work, these are not our desks. They belong to the 30,000 Iowans back home which we represent; they just let us sit in them. We must keep this in mind.

Now – let's get to work.

Thank you and may God bless our work in this chamber and the great state of Iowa.

The motion prevailed and the following committee was appointed: Cownie of Polk and Lykam of Scott.

Representative Steven Olson was escorted to the Speaker's station and, being duly sworn, offered the following remarks:

Mr. Speaker, ladies and gentlemen of the House and guests. First, thank you Representatives Cownie, Hanusa, and Lykam – I am humbled by your kind words. Also, thank you to my fellow legislators. It is an honor to serve as the Speaker Pro Tempore once again.

Today, I am grateful; grateful that my constituents chose to send me back here, back to this building to be their voice in the legislature. It is with tremendous honor and gratitude that I took the oath of office today with my family with me – my wife Eunice, (insert names of all family at the Capitol). I am also grateful that you, my colleagues have chosen me as the Speaker Pro Tempore.

Ladies and gentlemen; today we all begin a journey together; working together for a common goal – working for the good of the fine people of this great state. It has been said many times before “we can do better,” ladies and gentlemen, it is true we can do better and we will do better.

Last fall, together with Governor Branstad and the Senate Republicans, House Republicans presented an action plan. An action plan to promote a durable and prosperous Iowa – that action plan is called Iowa Strong. It is an ambitious agenda – one that is about the big issues and this session must center on the big issues:

- We must continue to work on keeping the Iowa economy moving forward by:
- Promoting job creation through tax relief and reform for Iowa families and businesses
- Ending job-killing red tape and burdensome regulations on Iowa farmers and businesses
- Continuing to adopt a budget that spends less than we take in
- Moving forward education reforms that will strengthen our schools and communities

Last November, Senator Marco Rubio visited our great state. He offered an astute observation on the American people, “The social and moral well-being of people is directly linked to their economic well-being.” These words ring true – so when we begin the people's business here in this chamber and in committee meetings, we must continually keep in mind the most important issue that faces us – our economy.

Today, we have the nation's third highest property tax on businesses – this means all business large and small. We cannot afford to over burden the small businesses are the backbone of our economy and the large-scale job creators. But not just that --- we need to lower income taxes for Iowa families and put more money in their pockets.

After all, the money the state collects is not our money – it comes from our constituents. When we consider spending decisions we must always keep that in

mind. We must continue to spend the people's money wisely – and continue to do what we started – spend less than we take in.

Ladies and gentlemen, we have a lot of work to do. I look forward to working with all of you to make Iowa strong – to make our state a better place, to grow our economy. As we begin the 85th General Assembly let's remember we were elected to serve by the folks back home to make the right decisions for the betterment of this state.

Thank you, now let's get to work.

REMARKS BY MINORITY LEADER

McCarthy of Polk offered the following remarks:

Thank you Mr. Speaker, Mr. Speaker, Ladies and Gentleman of the House.

First, congratulations to all of the newly elected Representatives. Today should be a special day for you and your loved ones. Also, Congratulations to Speaker Paulsen, Majority Leader Upmeyer, and Speaker Pro-Tem Olson. I look forward to working with you once again.

Mr. Speaker, House Democrats are ready to go to work.

Two years ago, I issued a statement during our opening day ceremony. Today, two years later, I'd like to paraphrase that statement now: House Democrats are ready to work with you in a bi-partisan way to move this great state forward. We are ready to focus on the important issues such as education, health care, public safety and a clean environment. Each and every day that House Democrats show up to work and find that the majority party is ready to work with us in a bi-partisan way on these and other important issues, then Mr. Speaker, you will receive a helping hand from us. But be mindful, however, if a day comes when House Democrats show up to work and instead find that the House ship has steered into stormy waters--- then House Democrats will attempt to steer that ship out of those stormy waters, away from the extreme...back to the mainstream.

In my opinion...far too many of those days occurred over the past two years.

Now, today, let's turn the page.

In a legislative publication I was reading yesterday, I learned that Iowa is one of only 3 states that has a legislature that is under divided control. Clearly, Iowans expect us to work together. Does anyone really believe anymore that Iowa is a so-called red state or a blue state? Looking at the results of the last several elections, it is clear that Iowa is the "purplest" of purple states. Iowans expect us to work together. I think most would also agree that while Iowans would not expect us to forsake our principles, they would expect us, when needed, to find common ground and to moderate.

Let's work together this year in a spirit of compromise and common ground.

Next week, on Tuesday, a special election will occur to replace Representative Brian Quirk. After the votes are tallied and a winner is declared, the winner will come to Des Moines to be sworn-in. That swearing-in will occur many days after the pomp and circumstance and lofty speeches of our opening week. As that new legislator begins his

committee work, let's let him be surprised at the level of bi-partisanship and civility he finds. That it is real... and was not merely buzzwords in our opening day speeches. Let's work together this year so that when the session is over we have not stories of partisan red meat to deliver to our political partisans back home, but instead stories of substantive success.

To that end, House Democrats pledge to work in a bipartisan way with the majority party and Governor Branstad to strengthen our educational system. Let us pass something in this regard we can all be proud of. Let us also work together to strengthen our mental health delivery system so that the most vulnerable amongst us are properly cared for and treated. Let us ensure that the transition between our pre-civil war prison to our new maximum security facility is done as smoothly as possible and in a way that ensures public safety. Also, let us work together to ensure clean air and clean water and fully fund the programs that maintain our trails, watersheds, and maintain our state parks.

Congratulations once again to all the legislators and their families. I look forward to working with all of you this year to make Iowa an even better place to live.

Mr. Speaker, as I said at the beginning of my speech, House Democrats are ready to go to work. Now Let's get to work!

Thank you Mr. Speaker.

REMARKS BY THE MAJORITY LEADER

Upmeyer of Cerro Gordo offered the following remarks:

Thank you Mr. Speaker! Mr. Speaker, Ladies and Gentlemen of the House, and guests, welcome to the 85th General Assembly.

It was humbling to walk into the Capitol this morning, walking past so much history, with the realization that I once again have been given the privilege of serving my neighbors and my state.

To the people of my district, thank you for this opportunity. I will humbly work to exceed the oath I have just taken. To the members of my caucus, thank you for entrusting me to once again serve as your majority leader. Our duty is to the people we serve, let the history encased in this building be a reminder of that.

A special thank you to my family. Without your support, and often your own sacrifices, I would not be able to serve.

We have a lot of new faces in the chamber today. I am looking forward to getting to know and work with each of you. In this chamber I see a group of people with diverse experiences and unique paths, which have all led to this place today. It is the convergence of our unique perspectives with which Iowans anticipate we will tackle the tough issues facing our state.

We are all here to do important work on behalf of Iowans. We should not be afraid to share ideas. We should not be afraid to debate. It is healthy for ideas in this building to receive a spirited discussion and vetting. We should embrace a civil and open dialogue.

Each and every one of you should be proud of the responsibility your constituents have entrusted you with. Do not let the hectic nature of session days obscure your purpose.

I am afraid that our leaders in Washington may have lost that focus. People in Iowa and around the country are losing their faith in government. They are losing faith in the ability of good men and women to tackle issues head on.

They see a Congress afraid to debate issues openly or operate transparently by passing a budget. They see runaway spending as the nation's debt burden reaches nearly inconceivable levels. They watch health care costs skyrocket yet no reforms to slow it.

They see lip service paid to the burden of overregulation only to watch onerous rules continue to proliferate under overzealous agencies. Our farmers are busy feeding the world and yet doubt is cast over their industry because of the failure to pass a farm bill.

The so-called "fiscal cliff" epitomized why so many are losing faith. Allegedly, Washington was finally forced to confront its own fiscal crisis. The result? More taxes, MORE debt, and they kicked as many cans down the road as they could.

If you feel anything like me then you are probably ready to tell them to get out of our way and let the states handle it!

It is my hope that the 85th General Assembly of Iowa may serve as an example of the best in public service. Iowans can be proud that we do not have the same problems that plague Washington.

In fact, we have the opportunity to show Washington what happens when we focus not on our differences, but on our common goals. Let's work together to identify the problems we face and focus on solutions.

An area where we should be able to come together is educating our youth. There was a time when the education system in Iowa evoked pride. Today however, it raises mostly concern.

We are concerned about the quality and rigor of the education our children are receiving. We are concerned that students are not graduating with the mastery necessary to succeed in college. We are concerned that our students are not graduating with the skills needed to enter the workforce and that increasingly our students must compete with not just those from other states, but other nations.

We must be resolved to address our education system. We should be open to new approaches and focused on measureable results. If we continue to fall behind, our children will find it difficult to compete and our employers will be left to look elsewhere for a skilled workforce.

Revitalizing our education system is one of the great opportunities of this General Assembly.

The citizens of Iowa have told us they are unhappy with the unsustainable growth of property taxes. If we continue to do nothing, our commercial rates will continue to drive away business, and homeowners will bear the burden of historic increases thanks to the roll up. Most of us in the room recognized that and campaigned on addressing it.

It is time for the campaign rhetoric to become action. As we do so, we must acknowledge our own poor record of funding property tax credits. We must also appreciate concerns that property tax cuts could shift the burden to other classes of property.

Property tax relief and reform can take many forms. We should be open to many ideas. However, as recognition of our own shortcomings we should ensure that it is significant, predictable and avoids any shift while benefitting all classes of property.

President Ronald Reagan is famous for saying “the problem is not that people are taxed too little, the problem is that government spends too much.” I think we can update that for Iowa in 2013. The problem is not that the state spends too little, the problem is that we collect too much!

We worked hard over the last two years to implement some common sense principles into the budgeting process. Thanks to the hard work of Iowans and these sound budgeting practices, we find the state’s finances in a healthy position.

This is tenuous however, so we must be vigilant. This starts by sticking to our budgeting principles of not spending more than we take in, not balancing the budget by intentionally underfunding obligations and not using one time funds to pay for ongoing expenses.

We can build on our success by adding another principle. We should return unused tax dollars back to the taxpayers of Iowa. The state is funding its obligations. Bipartisan budgets over the last two years have ensured that. Yet we have an ending balance.

Rather than looking for ways to spend that money, we should give it back to whom it belongs. It is the hard-working taxpayers of Iowa who earned that money and it is they who can best invest it back into our state. Please resist the urge to grow government with that money, it might not always be there.

At a time when the federal government is fighting over how to take more money, I look forward to spending our time on how to return it. Which is why I think Iowa is positioned to be a leader in the nation and to provide a shining example of the best in public service.

Again, it is truly an honor to be back in this beautiful Capitol building. Welcome back to the people’s House! Let’s get to work!

Thank you, Mr. Speaker.

President Jochum then presented Governor Terry E. Branstad who delivered the following condition of the state address:

Madam Lt. Governor, Madam President, Mr. Speaker, Leaders, justices, judges, legislators, elected officials, distinguished guests, family, friends and fellow Iowans.

It is an honor and a privilege to serve as your governor. I thank God, each and every day, for the opportunity that has been provided to me to serve you and all the people of Iowa.

I stand before you once again to report on the condition of our state and to outline a focused agenda and a biennial budget.

I am pleased to report we have made great progress. Our state's balanced budget is built on the principles of stability and predictability. It is a shining example of the good work we have done together.

And in the areas of job creation and economic development, I would put our efforts to successfully attract new jobs and market our state both at home and abroad up against the efforts of any state.

Yet, in other areas, an honest assessment would suggest we still have much work to do. In particular, I reference our on-going efforts to reduce property taxes and to adopt a truly transformational educational system.

Iowans are entering a period of unprecedented opportunity and we in this chamber have it within our grasp to help foster this state's greatest economic expansion and quality of life improvement in modern history.

Perhaps the heaviest lift over the past two years was restoring proper budgeting practices and insisting on strict fiscal discipline. I insisted on a two year budget and we measured all tax and spending decisions through the lens of a five year budget projection.

And today, I am once again submitting a biennial budget for fiscal years 2014 and 2015 and ask you to commit to join me in making this sound budgeting practice a reality so those most dependent on the vital services we deliver can trust that promises made are promises kept.

As a result of the tough choices we made, Iowa is currently in the best financial position in our state's long and proud history.

This is not about good luck. This didn't just happen. We blazed our own path by making hard choices and we must never return to the irresponsible budgeting practices of the past.

Our successes do not end with the state budget. We also completely redesigned our state's economic development efforts through the creation of the new Iowa Economic Development Authority, the Iowa Innovation Council, and the Iowa Partnership for Economic Progress.

These efforts have paid big dividends leading to the two largest private capital investments in Iowa history with the construction of new fertilizer facilities in Lee and Woodbury counties.

All totaled, in the two years since this administration took office, our efforts have landed more than \$5.3 billion in capital investments in Iowa. These investments translate into jobs for thousands of Iowans and higher incomes for so many Iowa families.

When I stood before you two years ago Iowa's unemployment rate was over six percent.

Today our unemployment rate is at four point nine percent, the lowest it has been in over four years.

In addition, through the efforts of Lt. Governor Reynolds and University of Northern Iowa President Ben Allen, we launched the Governor's science, technology, engineering and math, or STEM, initiative. This initiative is already enhancing learning opportunities for Iowa children by putting outstanding STEM programs in more than 800 sites statewide.

But our work on education reform has not gone far enough.

We were reminded of this yet again last month when a new study showed our students' ranking on vocabulary tests had slipped into mediocrity.

Let me ask you this very hard question: When did we decide that middle of the pack was good enough when it came to our children's education?

Did we really make that decision or did we simply allow it to happen through inaction?

Let's take the same serious approach we took to solving our budget problems and reshaping our economic development efforts to making our schools the best in the world.

The quality of our children's education impacts everything we do to improve our state. Let's focus on our future, *and theirs*.

For too many years our young people have looked to the coasts in search of career opportunities. Be it financial industry prospects in the East or the tech sector in the West, Iowa was relegated to a status some disparagingly called "flyover country."

Today, we are living a different story.

Within the past year Iowa has gotten a serious look from the more than 1.3 billion residents of China—many of whom are now very familiar with our state as a result of our special relationship with their incoming president.

It was just a year ago I invited China's next President, Xi Jinping, to visit our state. As you know, he accepted my invitation and many of you were in attendance at the dinner we hosted in his honor at the state Capitol.

Iowa's emerging role in the world economy really struck home to me at the dinner we hosted for Vice President Xi and his delegation.

He said Iowa was the first place in the United States he had ever visited and then said in reference to the wonderful Iowans he met on that trip: "to me, you are America."

The next day, fittingly, at the World Food Prize building, our state signed an agreement with China to provide more than \$4.3 billion in soybeans.

Iowa no longer merely feeds the world--it feeds the world economy.

Vice President Xi and his delegation's visit made clear: Iowa is "flyover country" no more.

Today, Iowa-produced avionics are installed in aircraft made in Brazil, Iowa tractor technology ploughs the ground in Russia, and Iowa lighting illuminates growth around the world.

Innovation is propelling Iowa forward, both at home and abroad. The coming decades can be ours if we are bold enough to make these incredible opportunities our new Iowa reality.

This year, I bring to you a bold plan of action focusing specifically on three goals:

- First...job creation and expanding opportunity for Iowa's families;
- Second...improving educational opportunities for Iowa's children; and
- Third...improving the health of our citizens.

These are opportunities that not only benefit us, but will reshape the future for our children and grandchildren.

This is our opportunity. This is our Iowa.

In the past two years, Iowa has experienced some success. Family incomes in Iowa have grown at the second highest rate in the nation, at nearly seven percent, and our economy has created 100,000 jobs.

These are nice success stories, but they are only the first chapters in a book of accomplishments that we are still writing. There is more to do because this is our opportunity. This is our Iowa.

When we consider strategies for stimulating our economy to encourage job creation we need to look to find ways to lower the cost of doing business in this state.

This will improve our ability to compete, putting more dollars into the hands of consumers to purchase Iowa goods and services.

Both of these objectives can be accomplished by returning a significant portion of our state's budget surplus to the taxpayers who made that surplus possible in the first place.

In this budget, I am proposing a significant plan to reform our property tax system to make it competitive and provide nearly \$400 million in actual property tax relief to Iowa's hardworking taxpayers.

The principles guiding our property tax plan are simple.

- Permanent property tax relief.
- No shift of the tax burden between classes of property
- And property tax reduction for all classes of property.

Our plan has three significant components.

First, the budget fully funds the Homestead Tax Credit and the Elderly and Disabled Tax Credit in fiscal year 2014 with an additional appropriation of \$33 million.

Last year we made a down payment on this funding gap and this year we will close that gap once and for all.

Second, I will propose legislation to permanently change the school finance formula so that "allowable growth" will be replaced by 100% state aid.

No longer will the school aid formula trigger automatic increases in local property taxes.

Third, I will bring forward legislation designed to stop any future tax shifts between classes of property by tying the classes together in one combined rollback, correcting a mistake made when the original rollback formula was implemented back in the 1970s.

This legislation will take the current four percent cap on valuation growth for residential property and agricultural land, cut it in half to two percent, and apply it to all classes of property.

If left unchecked, current law will allow property taxes to grow by over two billion dollars in the next eight years and half of the increase will fall directly on Iowa homeowners. I find that prospect terrifying and ask you to work with me to ensure property taxpayers are protected from this unprecedented property tax increase.

My plan permanently reduces commercial and industrial property tax values by 20% over a four year period and provides direct funding for local governments to replace 100% of the property tax revenue.

My biennial budget provides the resources to make this possible and my five year budget projection accounts for the nearly 400 million dollars in direct property tax relief.

Small businesses in Iowa have paid some of the highest property tax rates in the nation for far too long. These high taxes mean less money for businesses to hire new employees or provide salary increases to their current employees.

The businesses pay the taxes yes, but it is our middle class families who truly feel the pain.

And it is those same middle class families who will reap the benefits of a competitive property tax structure that makes it easier for us to recruit, retain, and grow those companies that create the new jobs our families need.

Our plan to reform and reduce property taxes is an investment in Iowa families and small businesses, but not at the expense of Iowa's local governments.

In addition to lowering and reforming property taxes, I am committed to enhancing the skills of our state's workforce as a critical investment in meeting the needs of Iowa's job creators over the next decade.

To that end our administration has embarked on an ambitious effort called Skilled Iowa to bring new workforce skills to our unemployed, under-employed, and those simply seeking better long-term careers.

The impetus for the Skilled Iowa initiative came from conversations I had with Iowans like Bill Knapp, Jim Cownie, and Teresa Wahlert on how to best bridge the skills gap so many employers have articulated as an impediment to bringing more high quality jobs to Iowa.

Our Skilled Iowa initiative builds on the STEM program to ensure workers in Iowa get the skills they need to fill the high-paying jobs of today and tomorrow.

It is simply unacceptable for me to hear time and again as I travel throughout Iowa's 99 counties that employers are ready to hire, but our workers aren't prepared with the necessary skillset to fill these jobs.

Skilled Iowa is helping to change this and bring new hope to Iowans. We already have 2,400 Iowa businesses signed up for Skilled Iowa and 18,000 Iowans have used Skilled Iowa resources to certify their skills with a National Career Readiness Certificate.

My hope is to grow this program and work with new employers seeking a skilled workforce while serving more Iowans.

Through lower property taxes and a more highly skilled workforce, in addition to our successful economic development efforts, we have an opportunity to stimulate this state's economy and provide our citizens with the high quality careers they truly deserve.

This is our opportunity. This is our Iowa.

And speaking of our Iowa, today in the balconies of this chamber are school children from around Iowa.

Today they get the opportunity to watch democracy in action. I hope they will leave this building with the knowledge that each of us here shares a commitment to making Iowa a better place for them and their families.

In today's knowledge-based, global economy, youngsters must finish high school ready for college or career training.

This is an economic and moral imperative.

We cannot continue to be complacent:

- Iowa eighth-graders led the nation in math in 1992. Now, we rank 25th—not because our scores have slipped, but because our scores have been stagnant while other states' improved.
- We are shortchanging some of our best students, too. Just eight percent of Iowa eighth-graders scored at the advanced level in math on the national test compared to 15 percent in Massachusetts, which is number one in the nation.
- Among Iowa's high school class of 2012 who went directly to a community college, more than 36 percent had to enroll in a remedial class.

Let me be perfectly clear to the teachers here today and teachers in classrooms across Iowa, you are NOT the problem.

Iowa is fortunate to have many dedicated educators who work incredibly hard. I know this from visiting Iowa's schools, and because my daughter Allison teaches in Waukee and the Lt. Governor's daughter Jessica teaches in Creston.

Unfortunately, our teachers are stuck in a *system* designed for the 20th century. We must work together to transform Iowa's schools for the 21st century.

Let's establish new roles for top teachers who will provide instructional leadership alongside principals to better meet the needs of every student.

That is why elevating the teaching profession is at the heart of our 2013 education plan. It has three key pieces.

The centerpiece of our plan is to revitalize Iowa schools with a new teacher leadership and compensation structure. Relying on teacher leadership is a hallmark of high-performing school systems around the country and around the world.

Iowa has embraced paying teachers in innovative ways before. In 2001, the Iowa legislature passed and Governor Vilsack signed a law establishing a career ladder.

They understood we were losing teachers who found few ways to advance professionally without leaving the classroom. But unfortunately, it was never funded.

Establishing new career pathways promises to do more than raise student achievement. It will offer outstanding teachers new professional opportunities.

Our plan honors teachers by recognizing how vitally important they are and provides five career pathways teachers may pursue.

Educators will be able to advance their careers in the classroom through these numerous pathways. Our plan gives teachers the opportunity to have a meaningful impact as leaders in their schools while also giving our children a better education.

The end result for Iowa children will be better performance in the classroom and better opportunities in their futures.

This kind of reform does come with significant cost, but it is a cost I believe to be a true investment in educational excellence. I am recommending a \$160 million state investment in this new teacher compensation model to keep our best performing teachers in classrooms throughout their entire careers.

And, I believe we should resolve the issue of what we are collectively willing to invest in achievement-driven reform before we spend one minute discussing additional resources to support our existing educational system.

The second piece of our education reform plan – The Teach Iowa Initiative – addresses another key problem: recruiting top students to become teachers. The simple truth is we must attract more of our best students into the teaching profession.

Today, I propose boosting beginning minimum teacher pay from \$28,000 to \$35,000 a year – a 25 percent increase to help reduce the amount of financial sacrifice high-achieving students have to make in order to choose to enter the teaching profession.

Additionally, I propose a significant expansion of a program administered by the Iowa College Student Aid Commission.

Our Teach Iowa initiative attempts to attract more top students into teaching by offering tuition reimbursement for highly talented new graduates who teach in Iowa schools for five years.

Priority will be placed on students majoring in hard-to-hire subjects, like math and science, but awards will also go to future teachers in other majors as well.

And the Teach Iowa Initiative includes a pilot to expand the traditional one-semester of student-teaching to a year-long apprenticeship in partner schools. Stronger clinical experiences stand to better prepare future teachers.

The third key piece of our plan to revitalize education in Iowa is a new college or career ready seal that high school students may earn in addition to their diploma. We want business and education leaders to set high standards for the seals.

Beginning next school year, students will have the option, at the state's expense, of taking a college-entrance or workforce readiness test.

Our program will make it clear what it means to be college or career ready based on the real world expectations of Iowa education and business leaders.

When Iowa can brag about having the best-educated workforce anywhere, more businesses will locate and expand in Iowa. As a result, more young people will stay in Iowa because they can land good jobs that pay well, and allow them to enjoy a great quality of life.

Our children deserve our best efforts because this is our opportunity. This is our Iowa.

Lastly, I wish to speak to you about an issue that stands at the heart of our Iowa quality of life and is so personally important to me.

That issue is the health and well-being of each and every Iowan and my desire to make Iowa the healthiest state in the nation.

As a former President of one of Iowa's medical teaching universities, I marveled at the progress modern medicine has made to save and lengthen lives.

Yet, while we are living longer lives I have to ask are we living better lives?

The obesity epidemic and onset of more and more chronic disease stretches the capacity of our medical system to meet our needs and stretches the ability of taxpayers to support programs such as Medicaid.

This is why we have embarked on the ambitious public-private partnership to make Iowa the healthiest state in the nation.

We have an opportunity to make Iowa communities vibrant by ensuring they have the health care professionals needed to keep their residents healthy. And why shouldn't doctors choose to live and work in Iowa?

Yet, in the past decade Iowa has fallen further and further behind in active physicians per 100,000 residents. Sure, we are behind states like Massachusetts and Michigan.

But we are also trailing neighboring rural states like South Dakota and Nebraska. Iowa is 46th in the nation in internal medicine, 47th in the nation in pediatric, 48th in psychiatry and last in both emergency medicine and obstetrics and gynecology.

We are home to two great medical schools—the University of Iowa and Des Moines University.

In fact, we have over 1,500 medical students currently enrolled in these institutions. But we are not doing enough to keep them here.

Today, I am proposing three initiatives intended to keep Iowa and Iowans healthy by keeping doctors in our communities.

First, my budget proposes two million dollars to support medical residency programs in Iowa.

Last year, we came together and created a public-private partnership to help doctors serving rural areas repay their costly loans. My second proposal provides two million dollars to launch the Rural Physician Loan Repayment Program and expand it to include OB-GYN and emergency medicine doctors as well as primary care physicians.

My third proposal is for us to come together and pass a Certificate of Merit law and a cap on non-economic damages.

Keeping doctors in Iowa requires we make our state a place that is friendly to those who practice medicine.

The first oath taken by a doctor is to do no harm. No group of people is more committed to protecting patients than our Iowa doctors.

Frivolous lawsuits are harming our ability to recruit and retain doctors.

A Certificate of Merit simply requires a medical expert review the facts of a case when a lawsuit is filed and verify that the injuries could have come from substandard care. This lets real claims move forward and takes the weight of bad claims off the health care and judicial systems.

These are sensible reforms. And we know they work because states with these laws have more doctors and lower insurance costs than we do.

It is our responsibility—mine and yours--to work together to offer these generational gifts:

- the best education,

- a thriving marketplace where start-ups are competing to create jobs for all Iowans,
- coupled with responsible and measured leadership from each of us to promote and enhance what is right with Iowa to reach our full potential.

This is our opportunity. This is our Iowa.

It is the promise of a good people, who demand a good government, and expect the men and women serving in that government to put aside their differences and come together to make good public policy.

It is the promise of providing hardworking parents the ability to give their children a world-class education.

It is the promise of a way of life that provides opportunities to thrive in the heartland of America.

The condition of our state is strong and is growing stronger by the day.

We stand at a place in history where many other states are burdened with debt and looming uncertainty while Iowa is well positioned for unprecedented growth.

While some states across this country are choking the opportunities right out of their states through over-taxation and over-regulation, Iowa is like a lighthouse, beaming a bright light of opportunity to those seeking a better life within our borders.

Let us turn the page and write a new chapter in Iowa's history.

A chapter which reflects how a people of good character and a common purpose, who were genuinely committed to working together, provided the dynamic solutions that led to the best times in our state's long and proud history.

- A chapter that will hail the unprecedented growth of job opportunities and rise in family incomes for all Iowans.
- A chapter that celebrates the fact every Iowa child has access to the best education in the world.
- A chapter that affirms how Iowans' quality of life reached new heights, as our citizens became the healthiest in the United States.

This is the chapter in our history that you and I, each and every one of us in this chamber, have the opportunity to write. So let's write it well and write it together.

This is our opportunity. This is our Iowa.

Thank you. God bless you and God bless the people of Iowa.

Governor Terry E. Branstad was escorted from the House chamber by the committee previously appointed.

On motion by Upmeyer of Cerro Gordo, the Joint Convention was dissolved at 10:37 a.m.

Madame President, Mr. Speaker, Members of the General Assembly, Governor Branstad, Lt. Governor Reynolds, state officials, colleagues and family, distinguished guests and friends:

The responsibility of the chief justice to appear before this joint assembly each year to report on the condition of the judiciary was made into law by you in 1978. Chief Justice Ward Reynoldson was the first chief justice to perform this task in response to that law. At the beginning of his speech, he quipped that he would have been just as enthusiastic to appear before you had he merely been invited. While I was invited today, I can assure you that I am just as enthusiastic as Chief Justice Reynoldson. I am excited to talk to you because everyone of us in the Iowa Judicial Branch is poised to make the Iowa court system the best, most advanced, and the most responsive court system in the nation. I look forward with hope and promise to working with you to accomplish this goal. As we have proven in the past, a great vision can become a reality when we work together.

When my son was in grade school, I coached his school football team, along with a few other parents. We practiced on the school grounds after dinner in the same grassy area where the children played at recess during the day. One evening, two games into the season, both of which we had lost, I noticed a man and a girl standing off to the side. I

spoke with the man, and he told me his daughter suffered from a profound hearing loss and could not hear without her hearing aids, one of which she lost on the field during recess that day. The hearing aid was very small and very expensive. We stopped practice, and the coaches had the boys line up shoulder to shoulder, heads down, and begin walking the field. Within a few minutes, the hearing aid lying in a sea of grass was found—and so too was the recipe for success as a team for the rest of the season and beyond. They all learned that, when all players do their jobs and trust others to do their jobs, success can be achieved. The boys went on to win the rest of their regular season games.

As is often the case, the lessons of our children are our lessons as well. We, the three branches of government, are a team poised for great success, and it is incumbent upon us—its leaders—to forge and implement a plan that achieves this success for all Iowans.

We are partners in this venture because our constitution—properly, I might add—has given you control over the purse strings of this state. My responsibility is twofold: first, to share with you a vision for our courts that will meet the expectations of Iowans today and into the future; and, second, to provide you with the information you need to make the best and most informed decisions possible for the funding and operation of our courts. This is the process of responsible government. I promise you that I will do everything I can to provide you the information you need. On behalf of the judicial branch staff, we promise to work as hard as we can to make people's lives better and to enhance our state's economic vitality, so that all Iowans feel a sense of pride in the way their government operates and serves them.

In addition to my remarks today, I will continue to communicate with you by maintaining office hours here at the Capitol to answer your questions and expand upon our vision for the improvement of the judicial branch. Also, immediately following today's speech, we invite all of you to join us for a reception in our historic courtroom downstairs.

Since the last time I was before you, the supreme court has continued, and will continue, to hear supreme court proceedings across the state in the spring and fall of every year. We hear these oral arguments in the evening so as many people as possible may attend. The evening sessions also enable court members to meet with Iowans to answer questions and hear their expectations for our court system. The following morning, the members of the court fan out to nearby schools to talk with students, teachers, and administrators. Through our court-on-the-road efforts during 2012, we visited five communities as a full court, and individual justices visited 40 schools, colleges, and universities. I would like to take this moment to say "thank you" to all the teachers, principals, school districts, college administrators, and community leaders who have welcomed us into their classrooms and communities. To gain an even broader perspective, I have met with many of Iowa's business leaders who rely so much on our system of fair and impartial courts. Likewise, all members of the court have met with civic groups, business organizations, legislators, local leaders, educators, students, and of course, those individuals who work so hard in the judicial branch on a daily basis. We have learned much from these experiences.

These Iowans have described for us what they expect and need from our courts. This list is fairly straightforward:

- Protect Iowa's children;
- Provide full-time access to justice;

- Operate an efficient, full-service court system;
- Provide faster and less costly resolution of legal disputes;
- Be open and transparent; and
- Provide fair and impartial justice for all.

Let me elaborate, starting with our state's most precious resource.

I. Protect Iowa's Children

Iowans expect the courts to be there for the children of this state. You have assigned this responsibility to us, which we embrace with the care and attention it demands. Young Iowans who turn to crime, or who must cope with shattered families, or who suffer from daily abuse, represent a tragic failing of our society. They also represent potential expenditures of millions, no billions, of future taxpayer dollars if they end up incarcerated or must be treated for more serious conditions as adults. We save taxpayer dollars when troubled children receive the full and timely services of the juvenile court system. In this critical area, our courts do not just hold juveniles accountable for their actions, we also construct, implement, and monitor a remedy until our assistance is no longer needed. We are not only the emergency room for these struggling children and their families. We are the recovery room and, importantly, the rehabilitation center that follows. At each stage, we need the full complement of resources to do the job right. We all fail if our courts fail our children.

Today, juvenile court judges across the state have chosen to devote their professional lives to making a real difference in the lives of our troubled children. These men and women are dedicated to putting a stop to the otherwise likely cycle of delinquency and adult criminal behavior. They run innovative and inspiring courtrooms devoted to making positive changes in the lives of our children. A great example is our nationally recognized family drug courts that target families with parents who have substance-related disorders. These courts bring together members from the extended family, counselors, and community service providers to help keep children with their families. In the past five years, family drug courts have served 399 families, and 80% of those families are still together. Family drug courts are funded by a federal grant that was recently renewed. Family drug courts in Iowa have reunited families or prevented foster placement for 576 children. All these efforts have saved taxpayers more than \$2 million dollars in its five years of operation. Our family drug courts are examples of proven court innovations and collaborations that benefit our families and taxpayers.

For children who are themselves in trouble with the law, juvenile court officers work closely with our judges to assist children and their families to transform behaviors and attitudes before it's too late. Your court system helps mend the lives of thousands of young Iowans, helping them become good and productive citizens who will positively contribute to our society. Sadly, however, we are far from reaching all of our children and families in need. Sometimes even in the most fundamental ways.

I have visited with juvenile judges and juvenile court officers and learned firsthand that the most important and proven part of their job is to have an early face-to-face conversation with troubled youth. One conversation, between a child and a devoted and trained juvenile court officer asking the right questions, can often identify the underlying problems and help match the needs of the child with the services available in the community. With enough support, the juvenile court officer can then monitor the child's progress through treatment or therapy. We do not have enough juvenile court officers, however, to reach all of our children in need, and too often our first

contact with a child is through a letter. That is just wrong. Every child deserves a face-to-face meeting with an assigned juvenile court officer. An impersonal letter from a stranger just does not cut it. We know that with early, personal intervention, more troubled children are saved from a life of crime and lifted out of a world of heartache. With your help this can be done. If we are going to accomplish any lasting good in our lives, we must begin by bringing lasting good to the lives of our children in need.

II. Provide Full-Time Access to Justice

Iowans expect and deserve to have full-time access to justice. Whether it's children in need, or you, your business, or your friends and neighbors who must at some time count on access to court services, it is clear that Iowans expect their government to operate a full-time, full-service, and efficient court system. Currently, all clerk of court offices in Iowa are closed every Tuesday and Thursday afternoon. Closures deny access to Iowans, including those seeking commitment of loved ones for mental illness and substance abuse and people seeking protection from domestic violence. We have all heard stories about domestic violence victims having to wait for an order of protection because the clerk of court offices are closed. We also know more families in need of mental health services are turning to the courts every year. The number of adult mental health commitment petitions has grown 45 percent in the last decade, while the number of juvenile commitment petitions has grown 93 percent during the same time. When a mental health crisis strikes a family, our courts must be accessible. In addition, closures slow down the processing of child support checks, liens, garnishments, warrants, and other important matters. These closures should end. Iowans deserve and expect all clerk of court offices to be open every day during business hours.

III. Operate an Efficient, Full-Service Court System

The Iowa Judicial Branch does continuously work to improve access to the courts and make operations more efficient. We have made tremendous progress in these efforts in recent years, including, as you are aware, with EDMS—our electronic document management system. With EDMS, we are creating and implementing an efficient paperless court system. This project is on track to be nearly half done by the end of this year. We still have much work to do, and there are many expert and dedicated judicial branch employees making it happen, but it already has become a national model for other states to follow.

Since the first document was successfully filed electronically in the Plymouth County Clerk of Court Office in January 2010, court users have electronically filed nearly one million documents in 15 Iowa counties. We began with a county-by-county approach to implementing EDMS that included extensive training for all court users. In Woodbury County, our first move into a large county over a year ago, Sioux City Police Chief Doug Young says his officers now use and depend on EDMS every day without complaint. EDMS works and quickly passes critical information between the courts and police. I have heard similar reports from Humboldt County Sheriff Dean Kruger and Fort Dodge Police Chief Tim Carmody, who said that with EDMS, his officers receive search warrants and court orders faster than before and there is less administrative paperwork. Now his officers can spend more time out on patrol.

Many EDMS users are self-represented litigants, who can now file from their homes in the evenings when they are off work, or small business owners who do not have to

interrupt their work day to race to the courthouse to file a lien or other court document. Judges using EDMS are also more efficient and are now able to prepare for court even when they are in a neighboring county. By the end of this year, we expect to bring EDMS to 30 more counties.

IV. Provide Faster and Less Costly Resolution of Legal Disputes

Iowans expect and deserve timely resolution of their legal disputes. The old axiom “justice delayed is justice denied” is more and more true in our increasingly fast-paced world. I hear repeatedly in my conversations with business community leaders across the state about the importance of resolving disputes quickly and inexpensively so the involved parties can move on. Often, the time waiting for a resolution can be time when capital is not invested, new employees are not hired, or economic development is put on hold. While EDMS will help, our court system is still plagued with costly, frustrating, and unnecessary delays. Technology can only do so much for a justice system. We have learned that potential efficiencies in our court system quickly fall out of reach without sufficient personnel. Too many times, a case must be rescheduled because a judge is without some essential staff to allow the case to proceed. I have personally called lawyers to apologize for this unfortunate circumstance and for the additional costs. In peoples’ lives, one courtroom delay is one too many. This is not how a justice system should operate, and it is not what Iowa litigants should endure. We can only have a full-service court system if our judges have the support they need to run an efficient courtroom.

This leads me to a related point. We are trying to operate our branch of government as any efficient, successful business or organization would operate, and we must pay competitive salaries to our judges and magistrates that reward superior performance, sustain committed service, and compete in the marketplace. We all know that adequate employee compensation is essential in any successful operation, including the operation of our courts.

Iowans expect our courts to give users more options to resolve civil disputes in a way that meets the changing needs of the 21st Century and provide better, faster, and less costly court services. Twelve months ago I spoke with you about the importance of a fair and predictable justice system to economic development in Iowa. Since that time, business owners from around the state continue to share their vision for a modern and responsive court system. We are moving forward with two innovations to provide faster and less expensive dispute resolution. First, we are in the process of streamlining the civil justice system by developing another track litigants can select that will reduce the costly and time-consuming discovery disputes that often accompany litigation. This track of litigation will offer users a means to obtain a less costly and more prompt resolution of legal disputes.

Second, we recently approved a pilot project to establish business courts in Iowa. Our Civil Justice Reform Task Force studied this exciting concept, and we have thoroughly discussed the project with many groups of Iowans, including business leaders. Importantly, our business courts will be staffed by judges specially trained in the complex issues facing businesses in our modern economy. These judges will offer commercial litigants the expertise needed and desired when courts are asked to resolve their disputes in a fair, efficient manner. Our business courts will spotlight the integrity and ingenuity of all the courts throughout Iowa as another example of the commitment by our court system to treat all litigants and their claims with respect and

understanding. By relocating these complex litigation cases to a separate docket, other civil cases may proceed more efficiently. Additionally, we expect business courts to help all Iowans by contributing an important piece to the new wave of economic confidence in Iowa as a place to grow and prosper. We all can agree that America's core strength is its innovation, its ideas. Courts are a part of this innovation too.

V. Be Open and Transparent

Iowans demand the courts, as well as all of state government, to be open and transparent. As you know, the strength of our democracy requires well-informed citizens. The strength and effectiveness of our court system depends on public confidence in the courts. To this end, the Iowa Judicial Branch has been a national leader in allowing audio, photographic, and video coverage of the courts. Our rules governing media coverage are carefully designed to prevent disruption of the court hearing and to safeguard the rights of litigants to a fair trial and appeal.

These rules have worked well for many years. However, they have become outdated by smart phones and new ways of communication such as blogging and twitter. In response, the supreme court created a committee of journalists and court users to update the rules to address the new media covering our government. Working together we will be able to allow all Iowans, especially the next generation, to see for themselves how our justice system works for them. As we have in the past, we welcome transparency. It is a critical part of our future success because it enhances public understanding of our courts.

VI. Provide Fair and Impartial Justice for All

Iowans demand our courts provide fair and impartial justice for all. Through the judicial merit selection process, our courts continue to be free from political influence and provide fair and impartial justice to all Iowans. Our judges make decisions based on the facts of a case and the rule of law, not their personal beliefs or popular opinion. Allegiance to the law is the very core of our judicial system, embodied in our oath as judges and our rules of ethics, and it is our pledge to all Iowans. While some may disagree with the court's work from time to time, it is our hope that this pledge will always be visible in all our work. We must be devoted to fair and impartial courts because it is an important component in our future success as a state.

Throughout the last year, I have listened carefully to Iowans across this great state. These thoughtful voices continue to resonate today, and the caring faces of Iowans guide us in our commitment to our system of justice. I pledge to you that we will continue to engage all Iowans in conversations about the needs and expectations for our courts.

I stand before you today as the voice for our judicial branch of government, as the voice of the judicial branch staff who are "all in" to make our court system the best in the country. I am also the voice for the hundreds of thousands of court users in Iowa, including those Iowans suffering from mental illness and drug addiction. I am the voice for a committed and caring profession that relies on our court system in representing Iowans. I am the voice for victims of crime and victims of injustice; the voice for the accused; the voice for families torn apart; the voice for our troubled children who depend on our courts for their safety and success; and the voice for all

those who believe, as I believe, that our courts must have a strong foundation for each generation to build on and flourish.

Together, we are the voice for Iowans. We must work to deliver on the grand vision of our forefathers—that the government they created will be the government operated by each generation to always make the lives of Iowans the healthiest, happiest, and most prosperous possible. It is a vision only today's leaders can deliver. The cause is just. So, today, I stand before you with this vision of a court system reaching its greatest potential, and with the information you need to help make that a reality.

Let today be a beginning when we walk together as my son and his teammates did, shoulder to shoulder. Let us work together to advance a just cause, to reach our greatest potential.

Thank you.

General Orr delivered the following Condition of the Iowa National Guard Message:

Good morning Ladies and gentlemen – thank you for that wonderful welcome.

Speaker Paulsen, President Jochum – thank you for the opportunity to once again address this joint convention of the Eighty-Fifth General Assembly of the Iowa Legislature.

Governor Branstad, Lieutenant Governor Reynolds, members of the General Assembly, distinguished guests and fellow Iowans. Today, I deliver my fourth Condition of the Guard address and it is indeed an honor and a privilege to be here.

Governor Branstad and Lieutenant Governor Reynolds, thank you for being here today. For the past two years you both have done a tremendous job leading our Iowa National Guard. You have demonstrated from the very beginning your strong support for and commitment to the men and women of the Iowa National Guard, our families, and employers.

I would also like to give a special thank you to our citizen-legislators, who have done so much to honor and support the Iowa National Guard over the 175-year history of our organization.

The state of Iowa has one of the strongest traditions of any state for its commitment to their National Guard and veterans. Our success is directly attributed to what you have done for your Iowa National Guard – we humbly thank you.

And I want to especially thank the people of Iowa. Your support of our Soldiers, Airmen, and families has been absolutely incredible.

Today, I am proud to report that the Iowa National Guard continues to be Mission-Focused and Warrior Ready.

Through all the efforts of our Soldiers, Airmen, families, employers, elected leaders, communities, and our citizens, we have demonstrated that Iowa is a state that truly serves together.

This is a story that began in 1838 and has transcended generations of Iowans, and is now carried so proudly by the 9,400 Iowa National Guard Soldiers and Airmen who serve today.

Here in Iowa, we're a vital link between our communities and the military, particularly as the size and the footprint for our active duty forces begin to shrink over the next several years. With a presence in 725 Iowa communities, men and women of the Iowa National Guard have demonstrated to their neighbors a sense of commitment and service that is the very best our state has to offer.

And the performance of these men and women over the past decade, both in combat overseas and emergency response here at home, has written a new chapter in this organization's storied legacy and proven without a doubt that the National Guard is full and equal partner with our active duty counterparts.

Tough, reliable, capable, resilient, adaptable, and above all, ready when called, we have fulfilled our statutory and constitutional responsibilities to help defend the nation and provide the governor with a state emergency response force for approximately one-

third the cost of an active duty Soldier or Airmen, making the National Guard truly the best value for America.

The most logical option for the nation to preserve its military capability, capacity, and depth in times of fiscal constraints is through continued reliance on the National Guard.

The demand for National Guard forces over the past two decades has required almost continuous use of Iowa's Soldiers and Airmen in order to execute our nation's defense and meet the operational requirements of our armed forces, and this year is no exception.

During this past year, the Iowa National Guard played a crucial role in overseas operations. Approximately 180 Iowa National Guard Soldiers and Airmen deployed in support of Operation Enduring Freedom, and I'm happy to report with the exception of that number, the rest of our Soldiers and Airmen were home for the holidays.

Today we have approximately 260 Soldiers and Airmen currently deployed, which is among the lowest number of deployed service members from the Iowa National Guard since the start of Operations Enduring and Iraqi Freedom. Over this last year we mobilized Soldiers and Airmen for overseas contingency operations in Kosovo, Afghanistan, Qatar, Honduras, and Kuwait.

As part of these deployments, approximately 50 Soldiers from Company C, 2-211th (MEDEVAC) General Support Aviation Battalion based in Waterloo were mobilized in July. These Soldiers are supporting Operation Enduring Freedom in Afghanistan with aerial medical capabilities, providing rapid evacuation and medical treatment for wounded and injured coalition personnel.

The 1034th Combat Sustainment Support Battalion from Camp Dodge deployed 60 Soldiers in August to Afghanistan, where they are providing area logistical support for all types of military units.

Recently, the 186th Military Police Company deployed 40 Soldiers to Honduras as part of Joint Task Force Bravo, where they provide security and law enforcement support for Southern Command operations.

The 132nd Fighter Wing, Des Moines experienced a very busy 2012 supporting overseas combat operations on its tenth overseas deployment since 1996. The unit deployed 300 Airmen to Afghanistan last winter in support of an Air Expeditionary Force rotation and returned to Iowa in April.

In Sioux City, 360 Airmen of the 185th Air Refueling Wing deployed around the globe in 2012 in support of Operation Enduring Freedom, executing aerial medical evacuations of our wounded and injured warriors and conducting refueling missions.

And just this past Monday, approximately 100 Soldiers from the 833rd Engineer Company in Ottumwa said goodbye to their families, friends, and communities for a year-long deployment to Afghanistan. This is the 833rd's third combat deployment since 9/11.

While we are grateful that so many of our Iowa National Guard Soldiers and Airmen have returned home after a busy year of deployments, we must not forget about those still recovering from wounds, injuries, or illnesses related to their mobilizations.

Over the past two years, more than 130 of our wounded, injured, or ill warriors have received medical care, either at military treatment facilities across the country or from health care providers in their local communities.

Today, I am proud to say we continue to make progress with only 14 Soldiers still receiving treatment at military facilities. However, for me, those deployments are not truly over until all of our men and women have returned back home to their families.

Last year, President Obama announced his intention that the United States military would be withdrawing out of Afghanistan by the close of 2014, while transitioning the combat mission back over to the Afghanistan government and military. Since this announcement, the demand for forces in the Iowa National Guard has begun to decline. We are now at a point where current and projected demands for Army and Air Force assets for Operation Enduring Freedom will decrease over the next several years. As evidence of this drawdown, we currently have just one Iowa National Guard unit that has received notification for potential deployment to Afghanistan next year.

But regardless of the drawdown in Afghanistan or the global security requirements, U.S. interests will ultimately dictate future force requirements, whether for operational missions, peacekeeping responsibilities, or support to regionally-aligned forces around the world. I would anticipate that the Iowa National Guard will continue some form of limited global engagement for the foreseeable future.

In addition to the drawdown of forces, we are working the looming federal budget challenges and military drawdown associated with a potential sequestration and budget shortfalls. It is anticipated that the budget reductions will significantly impact the military now and for the future. However, with all of these challenges, we are very fortunate to have a voice with the Department of Defense on these matters. Governor Terry Branstad currently serves as the co-chair for the President's Council of Governors in the Department of Defense.

The council provides a forum for governors to discuss matters of mutual interest with the Department of Defense, Department of Homeland Security and other federal agencies, including issues concerning the federal budget, National Guard, homeland defense, and civil support activities.

Through this council, Governor Branstad was able to strengthen the voice of all 50 states and their respective governors on Department of Defense issues that affected the National Guard, and particularly the Iowa Air National Guard's 132nd Fighter Wing in Des Moines.

The Governor, while serving in his Council of Governors capacity, worked tirelessly with the National Governors Association, all governors and their Adjutants General, and our Iowa congressional delegation to minimize the disproportionate 59% cuts placed on the Air National Guard for Fiscal Year 2013.

Through his leadership efforts, we were successful in minimizing the proposed personnel cuts. Significant to these efforts was the opportunity for the 132nd Fighter

Wing to pick up three enduring, replacement missions for the loss of the F-16 fighter mission.

The 132nd Fighter Wing will transition from F-16 fighter aircraft into three new missions: a Reconnaissance Group, which includes a Remotely Piloted Aircraft squadron; an Intelligence Group; and a cyber security mission. Out of the nearly four hundred personnel positions subject to elimination last February at the 132nd, these three new missions will allow us to keep approximately 970 personnel at the Des Moines Airbase, a loss of only 32 personnel, which will be managed through retirements and transfers.

Another way we're supporting and adapting to the changing global and operational environment is through the National Guard's State Partnership Program, or SPP. The Iowa National Guard's State Partnership Program with Kosovo continues to make great progress since its inception in March 2011.

The current focus of the program is on non-commissioned officer and officer development activities, as well as cooperative initiatives in the disaster response and emergency management arena. Partnering with Kosovo is a natural fit for the Iowa National Guard and the state of Iowa.

Last year, Kosovo President Jahjaga made the first-ever visit to Iowa for Kosovo's head of state and met with Iowa leaders from across the public and private sectors.

We have taken on a vision of a "Whole of Iowa/Whole of Kosovo" relationship and have conducted more than 30 engagements between Iowa, the Kosovo Security Force, and Kosovo's Ministries of Defense, Business, Agriculture, Health, and Education over the past two years. One of our near-term goals with our partnership is to establish a sister city relationship with a Kosovo community. Our first sister city effort is between the City of Johnston and Peja, Kosovo. We are in the process of finalizing the agreement and will be signing the proclamation between the two cities in the near future.

Today, I am honored to introduce Kosovo's Ambassador to the United States, Ambassador Ismaili; Kosovo Minister of Defense, Minister Ceku; Kosovo Security Force Land Forces Commander, Maj. Gen. Rama; and the Kosovo Defense Attaché assigned to the United States, Brig. Gen. Gashi, who are with us this morning as my honored guests.

Please join me in giving our guests from Kosovo a warm Iowa welcome.

I asked these gentlemen to join us today to help highlight this critically important relationship between Kosovo and Iowa, observe our legislative process, and meet some of our key leaders. We are honored to partner with Kosovo and we look forward to a strong and productive relationship in the years ahead.

Another critical partnership for the Iowa National Guard is right here in Iowa with our civilian employers. As nearly 80% of our Soldiers and Airmen serve part-time in the Iowa National Guard and full-time with Iowa businesses and governmental entities, finding quality jobs with employers that understand and appreciate military service is key to the continued service and well-being of our men and women, and their families.

Most of our men and women come back from deployment and return to what they were doing before they left or pursue new opportunities. Some members may have been unemployed or underemployed before deploying or returned to find their positions eliminated due to the economic downturn. Others may simply want a new challenge after their deployment experience. However, some find this transition difficult.

Whatever the reason, nearly 28% of our returning Warriors were looking for work at the end of 2011. And we had a solemn obligation to help them.

Through a cooperative effort between the Employer Support of the Guard and Reserve, the Iowa National Guard's Job Connection Education Program, Iowa Work Force Development, Iowa Department of Veterans Affairs, U.S. Department of Labor, Principal Financial Group, and Greater Des Moines Partnership, we actively worked to assist our Soldiers, Airmen and their spouses find gainful employment and reduced the number of unemployed from 28% to less than 6% today.

One of the reasons for this great success in finding quality jobs is through the Job Connection Education Program, or JCEP. Iowa was the second state nationally selected to participate in this National Guard Bureau pilot program. Since November 2011, 150 National Guard members or their spouses have found employment with civilian employers through Iowa's JCEP.

And additional, tangible evidence of Iowa's employer support is the Secretary of Defense Employer Support Freedom award, which is awarded annually to the top 15 employers nationally for their support of National Guard and Reserve members.

This past year, the Nyemaster Goode law firm from Des Moines was selected for this prestigious award. Since 2007, Iowa employers have won this distinguished national award three times, including back-to-back in 2011 and 2012. This is a tremendous testament to the patriotism and support for Reserve Component military members and their families in Iowa.

Another reason we've been able to maintain our position as a national leader in readiness among our fellow states is because of the Iowa National Guard Educational Assistance Program or NGEAP, a program funded in its entirety by the state of Iowa.

This critical recruiting and retention tool helps ensure our readiness and provides an invaluable benefit to our Soldiers and Airmen. This year, more than fourteen hundred of our members received 100% paid tuition at the State Regents' rate to attend Iowa colleges, universities, and community colleges through this program, keeping our young people here in the state and providing them with a high-quality Iowa education.

And the Iowa National Guard is doing our part to stimulate the economy of Iowa. This year, the Iowa National Guard brought in more than \$370 million dollars of federal funding into the state, which is more than 97% of our department's budget. Our Soldiers and Airmen pay more in state property, payroll, and sales taxes than what the state provides in state funding to the Iowa National Guard.

Also this past year, the Iowa Air and Army National Guard executed nearly \$16 million in federal funds for our construction and capital projects program. We completed new construction, renovations or additions in Miller Armory and the United States Property

and Fiscal Office on Camp Dodge, the Davenport Army Aviation Support Facility, Fairfield Field Maintenance Shop, and the Iowa Falls and Shenandoah armories.

We currently have renovation and construction projects underway at the Council Bluffs and Dubuque armories. On Camp Dodge we are consolidating the Iowa Department of Veterans Affairs, Military Records Center, and the State Fiscal Office activities into one updated facility. By arraying these services under one roof, Iowa National Guard members, veterans, and military retirees will see improved veteran services, while Iowa taxpayers receive a greater value through more efficient use of existing infrastructure and resources.

2012 has thankfully been a relatively quiet year for our emergency response operations, particularly after the longest, continuous domestic response operation in Iowa National Guard history on the Missouri River from May to September 2011. We used this additional time to plan, prepare, and exercise for potential disaster response support on a variety of scenarios.

And that training paid off. During the recent December blizzard, we mobilized 80 Guardsmen to conduct Highway Assistance Team missions in partnership with the Iowa Departments of Transportation and Public Safety and provided assistance to motorists stranded by the blizzard. These assistance teams rescued nearly a dozen travelers from extremely hazardous situations and transported them to safety, including responding to and assisting with a two-fatality, 25-car pileup on Interstate 35 south of Dows, Iowa.

And last week, we just finished supporting the 2013 Presidential Inauguration event in Washington, DC, by sending approximately 120 members of the 1133rd Transportation Company, Mason City, the 185th Air Refueling Wing, Sioux City, and various other Iowa units in support of the inaugural operations.

The additional time we gained over the last year from quieter-than-normal combat, peacekeeping, and domestic operations has allowed our organization to re-focus on organizational readiness, which drives everything we do. We'd like to share the results of these efforts with you.

First of all, your Iowa National Guard is a national leader in personnel strength management – recruiting and retention. Both the Iowa Air and Army National Guard began fiscal year 2012 with more than 100 percent of authorized strength. We have been at or above 100 percent strength for more than ten years in a row – a significant accomplishment considering all we have been asked to do since 9-11 with an all-volunteer force.

We are in the top echelon of the National Guard for the quality of recruits coming into the National Guard for 2012. More than 20% of our basic training, advanced individual training, or technical school graduates are either honor or distinguished graduates, on the commandant's list, or in the top 10% at their respective military schools.

These efforts have not gone unnoticed by the U.S. Department of Defense and other military organizations; Iowa units received several significant awards in 2012:

The 132nd Fighter Wing and the 133rd Test Squadron both won the 2012 Air Force Outstanding Unit Award, the tenth time for the 132nd and the sixth time for the 133rd.

The 132nd Fighter Wing received the 2012 National Guard Association of the United States Major General John J. Pesch Flight Safety Trophy, which is awarded annually to the two Air National Guard wings nationally with the highest standards of flight safety. Additionally, the 132nd's Logistics Readiness Squadron won the 2012 Air National Guard Base Logistics Activity of the Year Award.

The 2nd Brigade Combat Team won the Citizen Patriot Unit Award, a national award given by the Reserve Forces Policy Board to only one unit nationally for its substantial contribution to the security posture of the United States.

And Headquarters and Headquarters Company, 1034th Combat Sustainment Support Battalion, which is currently deployed to Afghanistan, won the Eisenhower Trophy, given annually to an Army National Guard unit in each state rated the most outstanding during 2012.

While we're humbled by these prestigious awards presented for excellence across the organization, we're also extremely proud of the way in which we have been able to honor and remember those Iowans who have selflessly served our state and nation.

It is projected that Iowa will lose approximately 6,000 of its veterans in this calendar year. In order to meet the increasing demand for military funeral honors, the Iowa National Guard has partnered with Iowa veterans service organizations to provide each eligible veteran and their family these richly-deserved military funeral honors. Since 2000, the Iowa National Guard's Military Funeral Honors program has been rendering professional military funeral honors, in accordance with service tradition, to all eligible veterans when requested by an authorized family member. This past year, our Military Funeral Honors program supported nearly 1,600 Iowa funerals.

And we have been so fortunate to be able to also honor Iowa's living veterans. Last year, through a partnership with the Iowa Gold Star Military Museum and the U.S. Department of Defense, more than 3,200 of Iowa's Korean War era veterans and their families were recognized and presented certificates of appreciation for their honorable service at a ceremony commemorating the 60th anniversary of the Korean War. What a fitting and long-overdue tribute to these tremendous Iowans.

This year is the continuation of the 150th anniversary of the Civil War and the 50th anniversary of the start of the Vietnam War. The Iowa National Guard will participate in both anniversary events over the next two years.

In an effort to assist a grateful nation in thanking and honoring our Vietnam veterans and their families, the Iowa National Guard has signed on to the National Commemorative Partner Program. Through this program, the Iowa National Guard will plan and conduct events and activities that will recognize the service, valor, and sacrifice of Iowa's Vietnam veterans and their families.

There is another group of great Americans that serve our state and nation every day, but are often forgotten. They are the children of our military members who are affected by the multiple deployments and absence of their parents during a critical time in their lives. For most this includes repetitive separation from parents and other

loved ones, and for many it includes learning to live the “new normal” necessitated by combat wounds, injury, illness and loss. These children reside in nearly every community in Iowa.

A critical tool in reaching out to military children is the Military Child Education Coalition or MCEC, a program funded by the U.S. Department of Defense.

Over the last four years, MCEC has trained 530 Iowa education professionals and military family readiness personnel how to understand and support military-connected children. By virtue of the exceptional participation by Iowans in this program, the Iowa National Guard is a national leader in the MCEC program.

In an effort to elevate awareness of these challenges, Lieutenant Governor Kim Reynolds hosted the Military Child Education Coalition public engagement seminar in October with Iowa education and community leaders.

The goal of the seminar was to bring together different sectors within the education community to identify capabilities, synchronize existing resources and programs, and develop a plan for military children living in these times of uncertainty.

As I come to a close, I hope that I have left you confident that the Iowa National Guard is in good hands and is moving in the spirit of one. We have executed every mission assigned, served our state here at home, and deployed wherever needed in a moment’s notice. And as the challenges of the last ten years fade, we will face new challenges together.

Budget constraints and shifting priorities will impact how we operate, how we are organized, and what we are asked to do in the years ahead, but despite these changes, the Iowa National Guard will remain Mission-Focused and Warrior Ready.

This team will continue to take care of our Soldiers, Airmen, families, and employers as we continue to serve so proudly as your hometown military. And we are so grateful for the continued support we receive from the Iowa General Assembly and the people of Iowa.

On behalf of our men and women and their families, thank you for this opportunity to provide an update and assessment of the Iowa National Guard. Your Iowa National Guard is truly making a difference every day.

Thank you, ladies and gentlemen.

JOURNAL OF THE HOUSE

Twenty-second Calendar Day - Thirteenth Session Day

HOUSE RESOLUTION 5 BY COMMITTEE ON ETHICS

1 A resolution relating to the code of ethics of the
 2 House of Representatives for the Eighty-fifth
 3 General Assembly.
 4 **BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES**, That
 5 the House Code of Ethics shall be as follows:
 6 **HOUSE CODE OF ETHICS**
 7 **PREAMBLE.** Every legislator and legislative employee
 8 has a duty to uphold the integrity and honor of the
 9 general assembly, to encourage respect for the law
 10 and for the general assembly, and to observe the house
 11 code of ethics. The members and employees of the house
 12 have a responsibility to conduct themselves so as to
 13 reflect credit on the general assembly, and to inspire
 14 the confidence, respect, and trust of the public. The
 15 following rules are adopted pursuant to chapter 68B of
 16 the Code, to assist the members and employees in the
 17 conduct of their activities:
 18 1. **DEFINITIONS.** The definitions of terms provided
 19 in chapter 68B of the Code apply to the use of those
 20 terms in these rules.
 21 2. **ECONOMIC INTEREST OF MEMBER OR EMPLOYEE OF**
 22 **HOUSE.**
 23 a. Economic or investment opportunity. A member
 24 or employee of the house shall not solicit or accept
 25 economic or investment opportunity under circumstances
 26 where the member or employee knows, or should know,
 27 that the opportunity is being afforded with the intent

Page 2

1 to influence the member's or employee's conduct in
 2 the performance of official duties. If a member
 3 or employee of the house learns that an economic
 4 or investment opportunity previously accepted was
 5 offered with the intent of influencing the member's or
 6 employee's conduct in the performance of the official
 7 duties, the member or employee shall take steps to
 8 divest that member or employee of that investment or
 9 economic opportunity, and shall report the matter
 10 in writing to the chairperson of the house ethics

11 committee.

12 b. Excessive charges for services, goods, or
13 property interests. A member or employee of the
14 house shall not charge to or accept from a person
15 known to have a legislative interest, a price, fee,
16 compensation, or other consideration for the sale or
17 lease of any property or the furnishing of services
18 which is in excess of that which the member or employee
19 would ordinarily charge another person.

20 c. Use of confidential information. A member or
21 employee of the house, in order to further the member's
22 or employee's own economic interests, or those of any
23 other person, shall not disclose or use confidential
24 information acquired in the course of the member's or
25 employee's official duties. For the purpose of this
26 rule, information disclosed in open session at a public
27 meeting and information that is a public record is not
28 confidential information.

30 shall not accept employment, either directly or

Page 3

1 indirectly, from a political action committee. A
2 member of the house shall not act as a paid lobbyist
3 for any organization. However, this paragraph shall

7 committee which does not expressly advocate the
8 nomination, election, or defeat of a candidate for
9 public office in this state or expressly advocate the
10 passage or defeat of a ballot issue in this state and
11 which is not interested in issues before the general
12 assembly.

13 For the purpose of this rule, a political action
14 committee means a committee, but not a candidate's
15 committee, which accepts contributions, makes
16 expenditures, or incurs indebtedness in the aggregate
17 of more than seven hundred fifty dollars in any one
18 calendar year to expressly advocate the nomination,
19 election, or defeat of a candidate for public office or
20 to expressly advocate the passage or defeat of a ballot
21 issue or for the purpose of influencing legislative
22 action.

23 e. Solicitation of employment as lobbyist. A
24 member or employee of the house shall not solicit
25 employment on behalf of the member or employee, or on
26 behalf of another legislator or employee, as a lobbyist
27 while the general assembly is in session.

28 f. Certain goods or services. A member or employee
29 of the house shall not solicit or obtain goods or

30 services from another person under circumstances where

Page 4

1 the member or employee knows or should know that the
2 goods or services are being offered or sold with the
3 intent to influence the member's or employee's conduct
4 in the performance of official duties. If a member
5 or employee of the house is afforded goods or services
6 by another person at a price that is not available to
7 other members or classes of members of the general
8 public or is afforded goods or services that are not
9 available to other members or classes of members
10 of the general public by another person where the
11 member or employee knows or should know that the other
12 person intends to influence the member's or employee's
13 official conduct, the member or employee shall not take
14 or purchase the goods or services.

15 3. APPEARANCE BEFORE STATE AGENCY. A member or
16 employee of the house may appear before a state agency
17 in any representation case but shall not act as a
18 lobbyist with respect to the passage, defeat, approval,
19 veto, or modification of any legislation, rule, or
20 executive order. Whenever a member or employee of
21 the house appears before a state agency, the member
22 or employee shall carefully avoid all conduct which
23 might in any way lead members of the general public
24 to conclude that the member or employee is using the
25 member's or employee's official position to further the
26 member's or employee's professional success or personal
27 financial interest.

28 4. CONFLICTS OF INTEREST. In order for the general
29 assembly to function effectively, members of the house
30 may be required to vote on bills and participate in

Page 5

1 committee work which will affect their employment and
2 other areas in which they may have a monetary interest.
3 Action on bills and committee work which furthers a
4 member's specific employment, specific investment, or
5 other specific interest, as opposed to the interests of
6 the public in general or the interests of a profession,
7 trade, business, or other class of persons, shall be
8 avoided. In making a decision relative to a member's
9 activity on particular bills or in committee work, the
10 following factors should be considered:

11 a. Whether a substantial threat to the member's
12 independence of judgment has been created by the
13 conflict situation.

14 b. The effect of the member's participation on
15 public confidence in the integrity of the general

16 assembly.

17 c. Whether the member's participation is likely to
18 have any significant effect on the disposition of the
19 matter.

20 d. The need for the member's particular
21 contribution, such as special knowledge of the subject
22 matter, to the effective functioning of the general
23 assembly.

24 If a member decides not to participate in committee
25 work or to abstain from voting because of a possible
26 conflict of interest, the member should disclose
27 this fact to the legislative body. The member shall
28 not vote on any question in which the member has an
29 economic interest that is distinguishable from the
30 interests of the general public or a substantial class

Page 6

1 of persons.

2 5. STATUTORY REQUIREMENTS. Members and employees
3 of the house shall comply with the requirements
4 contained in chapters 68B (Government Ethics and
5 Lobbying), 721 (Official Misconduct), and 722 (Bribery
6 and Corruption), and sections 2.18 (Contempt) and 711.4
7 (Extortion) of the Code.

8 6. CHARGE ACCOUNTS. Members and employees of the
9 house shall not charge any amount or item to a charge
10 account to be paid for by a lobbyist or any client of a
11 lobbyist.

12 7. TRAVEL EXPENSES. A member or employee of the
13 house shall not charge to the state of Iowa amounts
14 for travel and expenses unless the member or employee
15 actually has incurred those mileage and expense costs.
16 Members or employees shall not file the vouchers for
17 weekly mileage reimbursement required by section 2.10,
18 subsection 1 of the Code, unless the travel expense was
19 actually incurred.

20 A member or employee of the house shall not file
21 a claim for per diem compensation for a meeting of
22 an interim study committee or a visitation committee
23 unless the member or employee attended the meeting.
24 However, the speaker may waive this provision and allow
25 a claim to be filed if the member or employee attempted
26 to attend the meeting but was unable to do so because
27 of circumstances beyond the member's or employee's
28 control.

29 8. GIFTS ACCEPTED OR RECEIVED. Members and
30 employees of the house shall comply with the

Page 7

1 restrictions relating to the receipt or acceptance

2 of gifts contained in section 68B.22 of the Code.
3 The sponsor of a function under section 68B.22,
4 subsection 4, paragraph "s", shall electronically
5 file a registration with the chief clerk of the house
6 five days prior to the function disclosing the name of
7 the sponsor, and the date, time, and location of the
8 function. The sponsor shall also electronically file a
9 report of expenditures as required pursuant to section
10 68B.22, subsection 4, paragraph "s".

11 9. HONORARIA RESTRICTIONS. Members and employees
12 of the house shall comply with the restrictions
13 relating to the receipt of honoraria contained in
14 section 68B.23 of the Code.

15 10. DISCLOSURE REQUIRED. Each member of the
16 house and the chief clerk of the house shall file the
17 personal financial disclosure statements required under
18 section 68B.35 of the Code by February 15 of each year
19 for the prior calendar year.

20 11. SEXUAL HARASSMENT. Members and employees of
21 the house shall not engage in conduct which constitutes
22 sexual harassment as defined in section 19B.12 of
23 the Code or pursuant to the sexual harassment policy
24 adopted by the house committee on administration and
25 rules.

26 12. COMPLAINTS.

27 a. Filing of complaint. Complaints may be filed by
28 any person believing that a member or employee of the
29 house, a lobbyist, or a client of a lobbyist is guilty
30 of a violation of the house code of ethics, the ~~house~~

Page 8

1 joint rules governing lobbyists, or chapter 68B of the
2 Code.

3 b. Complaints by committee. The ethics committee
4 may initiate a complaint on its own motion. Committee
5 complaints may be initiated by the committee as a
6 result of a committee investigation or as a result of
7 receipt of any complaint or other information that does
8 not meet the requirements of these rules regarding the
9 form of a complaint but that contains allegations that
10 would form the basis for a valid complaint.

11 c. Form and contents of complaint. A complaint
12 shall be in writing.

13 Complaint forms shall be available from the chief
14 clerk of the house, but a complaint shall not be
15 rejected for failure to use the approved form if it
16 complies with the requirements of these rules. The
17 complaint shall contain a certification made by the
18 complainant, under penalty of perjury, that the facts
19 stated in the complaint are true to the best of the
20 complainant's knowledge.

21 To be valid, a complaint shall allege all of the
22 following:
23 (1) Facts, that if true, establish a violation of
24 a provision of chapter 68B of the Code, the house code
25 of ethics, or ~~house joint~~ rules governing lobbyists for
26 which penalties or other remedies are provided.
27 (2) That the conduct providing the basis for the
28 complaint occurred within three years of the filing of
29 the complaint.
30 (3) That the party charged with a violation is

Page 9

1 a party subject to the jurisdiction of the ethics
2 committee.
3 d. Confidentiality of complaint. The identity of
4 the parties and the contents of the complaint shall
5 be confidential until the time that the committee
6 chairperson and ranking member determine under
7 paragraph "f" that the complaint is sufficient as
8 to form, unless either the complainant or the party
9 charged in the complaint makes the identity of the
10 parties, or the information contained in the complaint,
11 public. The chief clerk of the house and the committee
12 chairperson and ranking member may communicate
13 confidentially with appropriate legislative staff
14 during any stage of the complaint process.
15 e. Notice of complaint. Upon receipt of the
16 complaint, the chief clerk of the house shall promptly
17 notify the chairperson and ranking member of the
18 ethics committee that a complaint has been filed and
19 provide both the chairperson and the ranking member
20 with copies of the complaint and any supporting
21 information. Within two working days, the chief clerk
22 shall send notice, either by personal delivery or by
23 certified mail, return receipt requested, to the person
24 or persons alleged to have committed the violation,
25 along with a copy of the complaint and any supporting
26 information. The notice to the accused person shall
27 contain a request that the person submit a written
28 response to the complaint within ten working days of
29 the date that the notice was sent by the chief clerk.
30 At the request of the accused person, the committee may

Page 10

1 extend the time for the response, not to exceed ten
2 additional calendar days. A response to a complaint
3 shall not be confidential.
4 f. Hearing regarding validity of complaint. The
5 committee chairperson and the ranking member shall
6 review the complaint and supporting information to

7 determine whether the complaint meets the requirements
8 as to form. If the complaint is deficient as to form,
9 the complaint shall be returned to the complainant
10 with instructions indicating the deficiency. If the
11 complaint is in writing, is sufficient as to form,
12 and contains the appropriate certification, as soon
13 as practicable, the chairperson shall call a meeting
14 of the committee to review the complaint to determine
15 whether the complaint meets the requirements for
16 validity and whether the committee should take action
17 on the complaint pursuant to paragraph "g" or whether
18 the committee should request that the chief justice
19 of the supreme court appoint an independent special
20 counsel to conduct an investigation to determine
21 whether probable cause exists to believe that a
22 violation of the house code of ethics, house joint
23 rules governing lobbyists, or chapter 68B of the Code,
24 has occurred. The sufficiency as to form determination
25 and the valid complaint requirements determination
26 shall be based solely upon the original complaint and
27 the response to the complaint. Additional documents
28 or responses shall not be filed by the parties or
29 otherwise considered by the committee prior to a
30 validity determination. The committee shall not

Page 11

1 receive or consider oral testimony in support of or
2 against a validity determination.
3 If the committee finds that a complaint does not
4 meet the content requirements for a valid complaint,
5 the committee shall dismiss the complaint and notify
6 both the complainant and the party alleged to have
7 committed the violation of the dismissal and the
8 reasons for dismissal. A dismissal for failure to meet
9 the formal requirements for the filing of a complaint
10 shall be without prejudice and the complainant may
11 refile the complaint at any time within three years
12 of the date that the alleged violation took place. If
13 the dismissal is based upon a failure to allege facts
14 and circumstances necessary for a valid complaint, the
15 dismissal shall be with prejudice and the party shall
16 not be permitted to file a complaint based upon the
17 same facts and circumstances.
18 g. Action on undisputed complaint. If the committee
19 determines a complaint is valid and determines no
20 dispute exists between the parties regarding the
21 material facts that establish a violation, the
22 committee may take action on the complaint under this
23 paragraph without requesting the appointment of an
24 independent special counsel.
25 The committee may do any of the following:

26 (1) Issue an admonishment to advise against the
27 conduct that formed the basis for the complaint and to
28 exercise care in the future.

29 (2) Issue an order to cease and desist the conduct
30 that formed the basis for the complaint.

Page 12

1 (3) Make a recommendation to the house that
2 the person subject to the complaint be censured or
3 reprimanded.

4 h. Request for appointment of independent special
5 counsel. If, after review of the complaint and any
6 response made by the party alleged to have committed
7 the violation, the committee determines that the
8 complaint meets the requirements for form and content
9 and the committee has not taken action under paragraph
10 "g", the committee shall request that the chief justice
11 of the supreme court appoint independent special
12 counsel to investigate the matter and determine whether
13 probable cause exists to believe that a violation of
14 chapter 68B of the Code, the house code of ethics, or
15 the ~~house joint~~ rules governing lobbyists has occurred.

16 i. Receipt of report of independent special counsel.
17 The report from the independent special counsel
18 regarding probable cause to proceed on a complaint
19 shall be filed with the chief clerk of the house.
20 Upon receipt of the report of the independent special
21 counsel, the chief clerk shall notify the chairperson
22 of the filing of the report and shall send copies of
23 the report to the members of the ethics committee. As
24 soon as practicable after the filing of the report, the
25 chairperson shall schedule a public meeting for review
26 of the report. The purpose of the public meeting
27 shall be to determine whether the complaint should be
28 dismissed, whether a formal hearing should be held on
29 the complaint, or whether other committee action is
30 appropriate. The complainant and the person alleged to

Page 13

1 have committed the violation shall be given notice of
2 the public meeting, shall have the right to be present
3 at the public meeting, and may, at the discretion
4 of the committee, present testimony in support of or
5 against the recommendations contained in the report.

6 If the committee determines that the matter should
7 be dismissed, the committee shall cause an order to
8 be entered dismissing the matter and notice of the
9 dismissal shall be given to the complainant and the
10 party alleged to have committed the violation. If
11 the committee determines that the complaint should be

12 scheduled for formal hearing, the committee shall issue
13 a charging statement which contains the charges and
14 supporting facts that are to be set for formal hearing
15 and notice shall be sent to the complainant and the
16 accused person.

17 The notice shall include a statement of the nature
18 of the charge or charges, a statement of the time and
19 place of hearing, a short and plain statement of the
20 facts asserted, and a statement of the rights of the
21 accused person at the hearing.

22 j. Formal hearing. Formal hearings shall be public
23 and conducted in the manner provided in section 68B.31,
24 subsection 8 of the Code. At a formal hearing the
25 accused shall have the right to be present and to
26 be heard in person and by counsel, to cross-examine
27 witnesses, and to present evidence. Members of
28 the committee shall also have the right to question
29 witnesses.

30 The committee may require, by subpoena or otherwise,

Page 14

1 the attendance and testimony of witnesses and the
2 production of such books, records, correspondence,
3 memoranda, papers, documents, and any other things it
4 deems necessary to the conduct of the inquiry.

5 Evidence at the formal hearing shall be received
6 in accordance with rules and procedures applicable to
7 contested cases under chapter 17A of the Code.

8 The committee chairperson, or the vice chairperson
9 or ranking member in the absence of the chairperson,
10 shall preside at the formal hearing and shall rule on
11 the admissibility of any evidence received. The ruling
12 of the chairperson may be overturned by a majority
13 vote of the committee. Independent special counsel
14 shall present the evidence in support of the charge
15 or charges. The burden shall be on the independent
16 special counsel to prove the charge or charges by
17 a preponderance of clear and convincing evidence.
18 Upon completion of the formal hearing, the committee
19 shall adopt written findings of fact and conclusions
20 concerning the merits of the charges and make its
21 report and recommendation to the house.

22 k. Disqualification of member. Members of the
23 committee may disqualify themselves from participating
24 in any investigation of the conduct of another person
25 upon submission of a written statement that the member
26 cannot render an impartial and unbiased decision
27 in a case. A member may also be disqualified by a
28 unanimous vote of the remaining eligible members of the
29 committee.

30 A member of the committee is ineligible to

Page 15

1 participate in committee meetings, as a member of the
2 committee, in any proceeding relating to the member's
3 own official conduct.

4 If a member of the committee is disqualified or
5 ineligible to act, the majority or minority leader who
6 appointed the member shall appoint a replacement member
7 to serve as a member of the committee during the period
8 of disqualification or ineligibility.

9 1. Recommendations by the committee. The committee
10 shall recommend to the house that the complaint be
11 dismissed, or that one or more of the following be
12 imposed:

13 (1) That the member or employee of the house
14 or lobbyist or client of a lobbyist be censured or
15 reprimanded, and the recommended appropriate form of
16 censure or reprimand be used.

17 (2) That the member of the house be suspended or
18 expelled from membership in the house and required
19 to forfeit the member's salary for that period, the
20 employee of the house be suspended or dismissed from
21 employment, or that the lobbyist's or lobbyist's
22 client's lobbying privileges be suspended.

23 13. COMMUNICATIONS WITH ETHICS COMMITTEE. After a
24 complaint has been filed or an investigation has been
25 initiated, a party to the complaint or investigation
26 shall not communicate, or cause another to communicate,
27 as to the merits of the complaint or investigation with
28 a member of the committee, except under the following
29 circumstances:

30 a. During the course of any meetings or other

Page 16

1 official proceedings of the committee regarding the
2 complaint or investigation.

3 b. In writing, if a copy of the writing is
4 delivered to the adverse party or the designated
5 representative for the adverse party.

6 c. Orally, if adequate prior notice of the
7 communication is given to the adverse party or the
8 designated representative for the adverse party.

9 d. As otherwise authorized by statute, the house
10 code of ethics, house joint rules governing lobbyists,
11 or vote of the committee.

12 14. PERMANENT RECORD. The chief clerk of the house
13 shall maintain a permanent record of all complaints
14 filed and any corresponding committee action. The
15 permanent record shall be prepared by the ethics
16 committee and shall contain the date the complaint was
17 filed, name and address of the complainant, name and

18 address of the accused person, a brief statement of the
 19 charges made, any evidence received by the committee,
 20 any transcripts or recordings of committee action, and
 21 ultimate disposition of the complaint. ~~The~~ Except as
 22 provided in rule 12, paragraph "d", the chief clerk
 23 shall keep each complaint confidential until public
 24 disclosure is made by the ethics committee.
 25 15. MEETING AUTHORIZATION. The house ethics
 26 committee is authorized to meet at the discretion of
 27 the committee chairperson in order to conduct hearings
 28 and other business that properly may come before it.
 29 If the committee submits a report seeking house action
 30 against a member or employee of the house or lobbyist

 2 has adjourned sine die, the report shall be submitted
 3 to and considered by the subsequent general assembly.
 4 16. ADVISORY OPINIONS.
 5 a. Requests for formal opinions. A request for a
 6 formal advisory opinion may be filed by any person who
 7 is subject to the authority of the ethics committee.
 8 The ethics committee may also issue a formal advisory
 9 opinion on its own motion, without having previously
 10 received a formal request for an opinion, on any issue
 11 that is within the jurisdiction of the committee.
 12 Requests shall be filed with either the chief clerk of
 13 the house or the chairperson of the ethics committee.
 14 b. Form and contents of requests. A request for
 15 a formal advisory opinion shall be in writing and
 16 may pertain to any subject matter that is related to
 17 application of the house code of ethics, the ~~house~~
 18 joint rules governing lobbyists, or chapter 68B of the
 19 Code to any person who is subject to the authority of
 20 the ethics committee. Requests shall contain one or
 21 more specific questions and shall relate either to
 22 future conduct or be stated in the hypothetical. A
 23 request for an advisory opinion shall not specifically
 24 name any individual or contain any other specific
 25 identifying information, unless the request relates
 26 to the requester's own conduct. However, any request
 27 may contain information which identifies the kind
 28 of individual who may be affected by the subject
 29 matter of the request. Examples of this latter kind
 30 of identifying information may include references to

Page 18

1 conduct of a category of individuals, such as but not
 2 limited to conduct of legislators, legislative staff,

 9 confidential, shall be in writing, and shall be placed
 10 on file in the office of the chief clerk of the house.

9 at the time of initial committee passage of the bill
10 to the floor for debate or after rereferral to the
11 committee, shall not be incorporated into the bill in
12 the originating house but shall be filed separately.
13 Amendments filed from the floor to strike sections of
14 the bill or the committee amendments shall be in order.

11 in order.
12 It is the intent of the house and the senate that
13 such bills be passed out of committee to the floor for
14 debate within the first four weeks of convening of a
15 legislative session.

16 Rule 12

17 Amendments by Other House

18 1. When a bill which originated in one house is
19 amended in the other house, the house originating
20 the bill may amend the amendment, concur in full in
21 the amendment, or refuse to concur in full in the
22 amendment. Precedence of motions shall be in that

23 order. The amendment of the other house shall not be
 24 ruled out of order based on a question of germaneness.
 25 a. If the house originating the bill concurs in the
 26 amendment, the bill shall then be immediately placed
 27 upon its final passage.
 28 b. If the house originating the bill refuses to
 29 concur in the amendment, the bill shall be returned to
 30 the amending house which shall either:

Page 7

1 (1) Recede, after which the bill shall be read for
 2 the last time and immediately placed upon its final
 3 passage; or
 4 (2) Insist, which will send the bill to a
 5 conference committee.
 6 c. If the house originating the bill amends the
 7 amendment, that house shall concur in the amendment
 8 as amended and the bill shall be immediately placed
 9 on final passage, and shall be returned to the other
 10 house. The other house cannot further amend the bill.
 11 (1) If the amending house which gave second
 12 consideration to the bill concurs in the amendment
 13 to the amendment, the bill shall then be immediately
 14 placed upon its final passage.
 15 (2) If the amending house refuses to concur in the
 16 amendment to the amendment, the bill shall be returned
 17 to the house originating the bill which shall either:
 18 (a) Recede, after which the bill shall be read for
 19 the last time as amended and immediately placed upon
 20 its final passage; or
 21 (b) Insist, which will send the bill to a
 22 conference committee.
 23 2. A motion to recede has precedence over a motion
 24 to insist. Failure to recede means to insist; and
 25 failure to insist means to recede.
 26 3. A motion to lay on the table or to indefinitely
 27 postpone shall be out of order with respect to motions
 28 to recede from or insist upon and to amendments to
 29 bills which have passed both houses.
 30 4. A motion to concur, refuse to concur, recede,

Page 8

1 insist, or adopt a conference committee report is in

 6 1. Within one legislative day after either house
 7 insists upon an amendment to a bill, the presiding
 8 officer of the house, after consultation with the

9 majority leader, shall appoint three majority party
10 members and, after consultation with the minority
11 leader, shall appoint two minority party members
12 to a conference committee. The majority leader of
13 the senate, after consultation with the president,
14 shall appoint three majority party members and,
15 after consultation with and approval by the minority
16 leader, shall appoint two minority party members to a
17 conference committee. The papers shall remain with the
18 house that originated the bill.

24 shall cover only issues related to provisions of the
25 bill and amendments to the bill which were adopted
26 by either the senate or the house of representatives
27 and on which the senate and house of representatives
28 differed. If a conference committee report is not
29 acted upon because such action would violate this
30 subsection of this rule, the inaction on the report

Page 9

1 shall constitute refusal to adopt the conference
2 committee report and shall have the same effect as if
3 the conference committee had disagreed.

4 4. An agreement on recommendations must be approved
5 by a majority of the committee members from each house.
6 The committee shall submit two originals of the report
7 signed by a majority of the committee members of each
8 house with one signed original and three copies to be
9 submitted to each house. The report shall first be
10 acted upon in the house originating the bill. Such
11 action, including all papers, shall be immediately
12 referred by the secretary of the senate or the chief
13 clerk of the house of representatives to the other
14 house.

15 5. The report of agreement is debatable, but
16 cannot be amended. If the report contains recommended
17 amendments to the bill, adoption of the report shall
18 automatically adopt all amendments contained therein.
19 After the report is adopted, there shall be no more
20 debate, and the bill shall immediately be placed upon
21 its final passage.

22 6. Refusal of either house to adopt the conference
23 committee report has the same effect as if the
24 committee had disagreed.

25 7. If the conference committee fails to reach
26 agreement, a report of such failure signed by a
27 majority of the committee members of each house shall

28 be given promptly to each house. The bill shall
 29 be returned to the house that originated the bill,
 30 the members of the committee shall be immediately

Page 10

1 discharged, and a new conference committee appointed in
 2 the same manner as the first conference committee.
 3 8. The authority of a second or subsequent
 4 conference committee shall cover free conference during
 5 which the committee has authority to propose amendments
 6 to any portion of a bill provided the amendment is
 7 within the subject matter content of the bill as passed
 8 by the house of origin or as amended by the second
 9 house.

10 Rule 14

11 Enrollment and Authentication of Bills

12 A bill or resolution which has passed both houses
 13 shall be enrolled in the house of origin under the
 14 direction of either the secretary of the senate or the
 15 chief clerk of the house and its house of origin shall

 24 be presented to the governor for approval shall be
 25 enrolled, signed, and presented in the same manner as
 26 bills.

27 All resolutions and other matters which are not to
 28 be presented to the governor or the secretary of state
 29 shall be enrolled, signed, and retained permanently
 30 by the secretary of the senate or chief clerk of the

Page 11

1 house.

2 Rule 16

3 Transmission of Bills to the Governor

4 After a bill has been signed in each house, it shall
 5 be presented by the house of origin to the governor by
 6 either the secretary of the senate or the chief clerk
 7 of the house. The secretary or the chief clerk shall
 8 report the date of the presentation, which shall be
 9 entered upon the journal of the house of origin.

10 Rule 17

11 Fiscal Notes

12 A fiscal note shall be attached to any bill or joint
 13 resolution which reasonably could have an annual effect

14 of at least one hundred thousand dollars or a combined
15 total effect within five years after enactment of
16 five hundred thousand dollars or more on the aggregate
17 revenues, expenditures, or fiscal liability of the
18 state or its subdivisions. This rule does not apply
19 to appropriation and ways and means measures where the
20 total effect is stated in dollar amounts.

21 Each fiscal note shall state in dollars the
22 estimated effect of the bill on the revenues,
23 expenditures, and fiscal liability of the state or
24 its subdivisions during the first five years after
25 enactment. The information shall specifically note
26 the fiscal impact for the first two years following
27 enactment and the anticipated impact for the succeeding
28 three years. The fiscal note shall specify the source
29 of the information. Sources of funds for expenditures
30 under the bill shall be stated, including federal

Page 12

1 funds. If an accurate estimate cannot be made, the
2 fiscal note shall state the best available estimate or
3 shall state that no dollar estimate can be made and
4 state concisely the reason.

5 The preliminary determination of whether the bill
6 appears to require a fiscal note shall be made by
7 the legal services staff of the legislative services
8 agency. Unless the requestor specifies the request is
9 to be confidential, upon completion of the bill draft,
10 the legal services staff shall immediately send a copy
11 to the fiscal services director for review.

12 When a committee reports a bill to the floor, the
13 committee shall state in the report whether a fiscal
14 note is or is not required.

15 The fiscal services director or the director's
16 designee shall review all bills placed on the senate
17 or house calendars to determine whether the bills are
18 subject to this rule.

19 Additionally, a legislator may request the
20 preparation of a fiscal note by the fiscal services
21 staff for any bill or joint resolution introduced which
22 reasonably could be subject to this rule.

23 The fiscal services director or the director's
24 designee shall cause to be prepared and shall approve
25 a fiscal note within a reasonable time after receiving
26 a request or determining that a bill is subject to
27 this rule. All fiscal notes approved by the fiscal
28 services director shall be transmitted immediately to
29 the secretary of the senate or the chief clerk of the
30 house, after notifying the sponsor of the bill that a

Page 13

1 fiscal note has been prepared, for publication in the
2 daily clip sheet. The secretary of the senate or chief
3 clerk of the house shall attach the fiscal note to the
4 bill as soon as it is available.

5 The fiscal services director may request the
6 cooperation of any state department or agency in
7 preparing a fiscal note.

8 A revised fiscal note may be requested by a
9 legislator if the fiscal effect of the bill has been

23 No person except a member or employee of the house
24 of representatives shall distribute or cause to be
25 distributed any pamphlets, material, or other printed
26 literature, or any other items to the members' desks
27 in the house without authorization. An employee
28 of the house shall generally distribute or cause
29 to be distributed such literature or items only on

10 origin and be distributed through the legislative
11 post office or to the members' desks by completing
12 a form containing a member's or the chief clerk's

22 of the house has been affixed unless the member has
23 purchased the materials or unless the member has
24 affixed the words "Paid for by the citizens of Iowa and
25 distributed by representative (member's name)."

26 DIVISION IV - FORMS AND PROCEDURES FOR BILLS AND OTHER
27 DOCUMENTS

28 Rule 23

Page 14

1 the speaker, and all writs, warrants, and subpoenas
2 issued by order of the house, shall be signed by the
3 speaker and attested by the chief clerk. The speaker
4 shall cause certificates of recognition or condolence
5 to be issued by the house which shall be signed by
6 the speaker and the chief clerk. The chief clerk
7 shall maintain a list of certificates issued including
8 the name of the requesting member of the house, the

9 name of the recipient, the reason for recognition or
10 condolence, and the date of issuance.

11 Rule 24

12 Presentation of Petitions

13 All petitions, memorials, and other papers addressed
14 to the house shall be signed by the member and filed
15 with the chief clerk. The receipt of petitions shall
16 be noted in the journal and such petitions shall be
17 available in the office of the chief clerk.

18 Rule 25

19 Consideration of Simple and Concurrent Resolutions

20 Action on a simple or concurrent resolution, except
21 a memorial resolution, shall not be taken until one day
22 after the resolution has been placed on the members'
23 desks. After the resolution is adopted, the chief
24 clerk shall have the resolution printed in the compiled
25 journal and shall transmit certified copies of the
26 resolution as directed.

27 Rule 26

28 Unanimous Consent Calendar

29 The speaker may, upon the request of three members,
30 place on a unanimous consent calendar any house

Page 15

1 resolution or concurrent resolution which does not
2 contain an appropriation and which has been laid over
3 under Rule 25.

4 If such resolution is placed on the unanimous
5 consent calendar, it may be removed only upon a written
6 request submitted to the speaker by a member of the
7 house.

8 If not removed after five legislative days, the
9 chief clerk shall call up the resolution and without
10 debate the speaker shall pronounce that it has passed
11 by unanimous consent.

12 If the resolution is removed from the unanimous
13 consent calendar, the speaker may again lay the
14 resolution over under Rule 25, place it on a different
15 calendar, or refer the resolution to any of the
16 standing committees of the house.

17 Rule 26A

18 Senate Bills and Resolutions

19 A senate bill or resolution may be referred to a
20 standing committee or passed on file.

21 Rule 27

22 Forms of Bills and Joint Resolutions

23 Every house bill shall be introduced by one or more
24 members or by any standing or specially authorized
25 committee of the house or the administrative rules
26 review committee. All bills and joint resolutions
27 introduced shall be prepared by the legislative

28 services agency with title, enacting clause, text
29 and explanation as directed by the chief clerk of the
30 house. One copy of each bill shall be presented in a

Page 16

1 bill cover with the number of copies of the bill and
2 the title as directed by the chief clerk.
3 Rule 28
4 Joint and Nullification Resolutions
5 Joint resolutions shall be framed and treated as
6 bills.
7 A "nullification resolution" is a joint resolution
8 which nullifies all of an administrative rule, or
9 a severable item of an administrative rule adopted
10 pursuant to chapter 17A of the Code. A nullification
11 resolution shall not amend an administrative rule by
12 adding language or by inserting new language in lieu of
13 existing language.
14 A nullification resolution may be introduced by an
15 individual, a standing committee or the administrative
16 rules review committee, and may be referred to a
17 standing committee. A nullification resolution is
18 debatable, but cannot be amended on the floor of the
19 house.

20 Rule 29
21 Time of Introduction of Bills
22 No bill or joint resolution under individual
23 sponsorship, other than a nullification resolution,
24 shall be read for the first time after 4:30 p.m. on
25 Friday of the fifth week of the first regular session
26 of the general assembly unless a formal request for
27 drafting the bill has been filed with the legislative
28 services agency before that time.
29 After adjournment of the first regular session,
30 bills may be prefiled at any time before the convening

Page 17

1 of the second regular session. No bill or joint
2 resolution under individual sponsorship, other than a
3 nullification resolution, shall be read for the first
4 time after 4:30 p.m. on Friday of the second week of
5 the second regular session of the general assembly
6 unless a formal request for drafting the bill has been
7 filed with the legislative services agency before that
8 time.
9 However, bills or joint resolutions sponsored
10 by standing committees or the administrative rules
11 review committee, co-sponsored by the majority and
12 minority floor leaders, or companion bills sponsored
13 by the house majority leader and the senate majority

14 leader may be drafted and introduced at any time
15 permissible under Joint Rule 20. House, concurrent,
16 and nullification resolutions may be introduced at any
17 time.

18 Rule 30

19 Introduction and Reading of Bills

20 All bills and resolutions to be introduced in the
21 house shall be prepared in proper form and filed
22 with the chief clerk no later than 4:30 p.m. on the
23 legislative day preceding its introduction.

24 Every bill shall receive two readings but no bill
25 shall receive its first and last readings on the same
26 day.

27 A "reading of a bill" as required by these rules
28 shall consist of a reading of the title and enacting
29 clause.

30 Rule 31

Page 18

1 First Reading, Commitment, and Amendment

2 1. A bill is introduced into the house by an
3 initial or "first reading of the bill".

4 2. When the house is in session the first reading
5 shall consist of a "reading" as provided in Rule 30.

6 3. Upon a first reading of the bill, the speaker
7 shall state that it is ready for commitment or
8 amendment; and the speaker shall commit it to the
9 standing or select committee, or to a committee of the
10 whole house. If to a committee of the whole house, the
11 house shall determine on what day.

12 4. On a nonlegislative day the speaker may cause a
13 statement, which shall consist of the title, enacting
14 clause, bill number and committee to which the bill
15 is referred, to be published in the house journal.
16 This publication shall constitute a first reading and
17 commitment and shall contain the notation "read and
18 committed under Rule 31".

19 5. All amendments offered to bills and resolutions
20 shall be accompanied by such copies as the chief clerk
21 shall direct.

22 6. Such amendments shall give the number of
23 the bill sought to amend and the chief clerk shall
24 designate each such amendment thus: Amendment to
25 House File _____, or Senate File _____, by
26 _____.

27 7. A bill reported out by committee shall go to the
28 speaker who shall direct that the bill be placed on the
29 regular calendar unless it covers subject matter more
30 properly within the jurisdiction of some other standing

Page 19

1 committee, in which case the speaker shall refer the
2 bill to the proper standing committee. In order to
3 expedite important business and set a definite time for
4 the bill's consideration, the speaker may direct the
5 bill to be placed on the special order calendar.
6 8. No amendment to the rules of the house, to any
7 resolution or bill, except technical amendments and
8 amendments to bills substituted for by senate files
9 containing substantially identical title, language,
10 subject matter, purpose and intrasectional arrangement,
11 shall be considered by the membership of the house
12 without a copy of the amendment having been filed with
13 the chief clerk by 4:00 p.m. or within one-half hour of
14 adjournment, whichever is later, on the day preceding
15 floor debate on the amendment. If the house adjourns
16 prior to 2:00 p.m. on Friday, the final deadline is two
17 hours after adjournment. However, committee amendments
18 filed pursuant to the submission of the committee
19 report may be accepted after this deadline. This
20 provision shall not apply to any proposal debated on
21 the floor of the house after the thirteenth week of
22 the first session and the twelfth week of the second
23 session. No amendment or amendment to an amendment
24 to a bill, rule of the house, or resolution shall be
25 considered by the membership of the house without
26 a copy of the amendment being on the desks of the
27 entire membership of the house prior to consideration.
28 However, the membership of the house may consider an
29 amendment or an amendment to an amendment to a bill,
30 rule of the house, or resolution without a copy of the

Page 20

1 amendment being on the desks of the entire membership
2 of the house prior to consideration if a copy of the
3 amendment is made available to the entire membership of
4 the house electronically.

5 Rule 32

6 Commitment of Appropriation and Revenue Bills

7 All bills to appropriate money shall be referred to
8 the appropriations committee, and all bills pertaining
9 to the levy, assessment, or collection of taxes or fees
10 shall be referred to the committee on ways and means.

11 Rule 33

12 Regular Calendar

13 Bills, nullification resolutions, and joint
14 resolutions reported out for passage, amendment and
15 passage, or without recommendation by a committee,
16 or passed on file shall be arranged on a regular
17 calendar by the chief clerk each day and electronically

18 distributed to the members at the opening of each
 19 legislative day. The regular calendar shall include
 20 a list of bills, nullification resolutions, and joint
 21 resolutions which have been special ordered, including
 22 the date upon which debate is scheduled to begin
 23 on each of them, which shall be no sooner than five
 24 session days from the first date of publication on the
 25 regular calendar.

26 Rule 34

27 Daily Debate Calendar

28 The majority floor leadership shall cause to
 29 be prepared and distributed to the members at the
 30 opening of each legislative day when floor action is

Page 21

1 scheduled, a daily debate calendar consisting of bills,
 2 nullification resolutions, and joint resolutions from
 3 the regular calendar setting forth the number and
 4 title of bills, nullification resolutions, and joint
 5 resolutions for the next legislative day that floor
 6 action is scheduled.

7 This rule does not apply to bills which have passed
 8 both houses in different forms, reconsiderations, or
 9 veto reconsiderations.

10 Rule 35

11 Substitution of Bills

12 A senate bill or resolution may be substituted
 13 for an identical house bill or resolution which has
 14 been called up for debate. An amendment to a senate
 15 bill or resolution which has been substituted for an
 16 identical house bill or resolution is out of order if
 17 an identical amendment to the house bill or resolution
 18 was considered.

19 Rule 36

20 Consideration of Committee Amendments

21 After a bill has been referred and reported back,
 22 it shall be considered on its first reading after the
 23 amendments of the committee have been read.

24 Rule 37

25 Amendments to Special Order Bills

26 All amendments to bills which have been special
 27 ordered shall be filed at least three session days
 28 prior to the date set for debate. Amendments to an
 29 amendment shall be filed at least two session days
 30 prior to the date set for debate. However, corrective

Page 22

1 amendments and amendments sponsored by either the
 2 majority floor leader or the minority floor leader may
 3 be filed at any time. Rule 31, subsection 8, shall not

4 apply to these amendments.

5 A corrective amendment is an amendment which does
6 not substantively change the amendment or the bill.

7 Rule 38

8 Germane Amendments

9 An amendment must be germane to the subject matter
10 of the bill it seeks to amend. An amendment to an
11 amendment must be germane to both the amendment and the
12 bill it seeks to amend. When a member objects to an
13 amendment on grounds that the amendment is not germane,
14 the speaker may invite members, who shall include the
15 majority and minority leaders, to the speaker's station
16 to discuss the objection.

17 Rule 39

18 Consideration of Bills

19 Bills, including committee bills, joint resolutions,
20 and nullification resolutions, reported out for
21 passage, for amendment and passage, or without
22 recommendation by the committee, are first eligible to
23 be acted upon beginning the third legislative day they
24 appear on the regular calendar.

25 Committee reports shall be printed in the journal
26 immediately after they are filed with the chief clerk.
27 Reports recommending bills, joint resolutions, and
28 nullification resolutions for passage, for amendment
29 and passage, or without recommendation shall stand
30 approved unless written objections are filed during

Page 23

1 the first legislative day following their printing in
2 the journal. If objections are filed, they shall be
3 disposed of as soon as possible.

4 Rule 40

5 Consideration of Bills Upon Last Reading

6 No amendment, unless by way of correcting an error
7 or omission, shall be received to any bill on its last
8 reading, and no debate shall be allowed on it.

9 Rule 41

10 Printing of Bills and Joint Resolutions

11 Bills and joint resolutions shall be printed in form
12 as provided by law and by rule. Each house may direct
13 the printing of an additional number of its own bills.

14 Legalizing bills of a local or private nature shall
15 be printed in bill form and placed in the files of the
16 members, the same as other bills, in the order of their
17 introduction. The cost of printing shall be deposited
18 with the treasurer of state in advance at a rate to be
19 fixed, and the newspaper publication of the bill shall
20 be without cost to the state. No legalizing act may
21 be introduced until all provisions of law have been
22 complied with.

23 Rule 42

24 Certification and Engrossment of Bills

25 The chief clerk shall certify the passage of each
26 bill and note the date of its passage.

27 In engrossing a bill, the chief clerk shall
28 correct all obvious typographical, spelling, or other
29 clerical errors and change section subunit numbers
30 and letters and internal references as required to

Page 24

1 conform the original bill to any amendments which have
2 been adopted. The chief clerk shall report all such
3 corrections or changes in the journal. The engrossed
4 bill shall be placed in the bill file with the original
5 bill and amendments.

6 Rule 43

7 Rereferral

8 A bill may be rereferred by the speaker or, upon
9 motion, by the house at any time before its passage and
10 after the report of its referral to committee.

11 Rule 44

12 Effect of Indefinite Postponement

13 When a question is indefinitely postponed, it shall
14 not be acted upon again during that session.

15 Rule 45

16 Status of Bills Following First Regular Session

17 Except for those bills which have been adopted by
18 both houses in different forms, all bills which have
19 not been withdrawn, defeated or indefinitely postponed,
20 shall be rereferred to committee upon adjournment of
21 the first regular session. Within seven days after
22 the first committee meeting following convening of
23 the second regular session, the committee chair shall
24 submit the bill to the full committee for action or the
25 chair shall reassign the bill to a subcommittee.

26 DIVISION V - COMMITTEE PROCEDURES

9 the house wishes to have considered by a standing

 13 legislative services agency prior to submission.

 22 committee chair may submit a study bill in the name of
 23 that committee.

24 Final committee action on a study bill shall not be
 25 taken until one day following the notation of the study
 26 bill assignment in the house journal.

27 Rule 49

28 Committee Meetings

29 No committee, except a conference committee or the
 30 administrative rules review committee, shall meet

Page 26

1 while the house is in session without special leave.
 2 Committees with overlapping memberships shall not meet
 3 at the same time without special leave.

 11 the bill number of each bill assigned to subcommittee
 12 and the names of the subcommittee members. The report
 13 shall be printed in the journal.

14 All bills, prior to consideration by the committee,
 15 shall be referred by the chair to a subcommittee,
 16 unless acted upon by a committee of the whole.

17 The chair may assign bills to subcommittees without
 18 a meeting of the committee, but the membership of the
 19 subcommittee so appointed shall be reported at the next
 20 meeting of the committee.

21 Rule 52

22 Open Meetings

23 Standing committee meetings shall be open, and
 24 voting by secret ballot is prohibited. The committee
 25 on administration and rules may close its meetings to
 26 evaluate the professional competency of an individual.

27 Rule 53

 29 The committee roll shall be taken at the convening
 30 of each meeting to determine the presence of a quorum.

Page 27

1 A majority of the committee membership shall constitute
 2 a quorum.
 3 An affirmative vote of a majority of the committee
 4 membership is required to report a bill out of
 5 committee or to suspend a committee rule.
 6 A motion to reconsider may be made only by a
 7 committee member who voted on the prevailing side of
 8 the question sought to be reconsidered. A motion to
 9 reconsider may only be made prior to the adjournment of
 10 the committee meeting at which the bill was reported
 11 out.
 12 If a member, who is in the committee room when a
 13 question to report a bill out of committee is put, has
 14 not asked to be excused prior to commencing to take
 15 the vote on the question, the member shall vote aye
 16 or nay unless the committee has excused the member for
 17 special reasons. However, a member may pass on the
 18 first taking of the roll call on the question but shall
 19 vote aye or nay when the member's name is called for a
 20 second time.

7 report.

8 Rule 56

12 shall be drafted in the form of a substitute amendment
13 and shall be considered as such.

14 Rule 57

21 The notice shall contain the committee name, the
22 date, time, and location of the meeting.

23 The agenda shall contain the matters to be

25 resolutions, nullification resolutions, and study
26 bills by number. The agenda should contain the names
27 of individuals who are scheduled to appear before the

29 A bill, joint resolution, nullification resolution,
30 or study bill shall not be reported out of committee if

Page 30

1 the bill was not included in the published notice and
2 agenda unless this rule is suspended by a majority of
3 the total membership of the committee.

4 A committee chair may call a meeting without
5 providing the required notice and agenda upon leave
6 of the house if a notice is either electronically
7 transmitted to committee members or placed on the desks
8 of committee members.

9 Rule 58

10 Clearing of Committee Room

11 The chair of a committee may clear the committee

3 Nullification Resolutions From Committee
4 A bill, joint resolution, or nullification
5 resolution which has been in committee for eighteen
6 legislative days following notation of such referral
7 in the journal may be withdrawn from the committee and

17 committee rules, but no more than one-third of the

18 committee members shall be required.

19 A public hearing shall not be called or requested
20 after final action on the bill, joint resolution,
21 or nullification resolution has been taken by the
22 committee. However, a public hearing called or
23 requested before final action has been taken by the
24 committee may be held after final action on the bill,

2 can be voted to the calendar but cannot be debated
3 until after the public hearing has been held. If a
4 bill, joint resolution, or nullification resolution
5 for which a public hearing has been called is not
6 debated by the house during the session in which it
7 is introduced, the request for the public hearing is
8 deemed to have lapsed upon adjournment sine die of that
9 session.

10 However, public hearings which have been requested
11 during or after the 9th week of the first session and
12 during or after the 7th week of the second session must
13 be held within four legislative days of the date of the
14 request.

18 committee. A claim referred to the appropriations
19 committee in a prior session of the general assembly

10 Bills committed to the committee of the whole house
11 shall first be debated by section. After the report

14 Rule 68

17 in the bill. Amendments to the same place in the bill
18 shall be considered by the lowest amendment number. An

9 when a member is speaking or the house is voting.

10 Rule 71

11 Withdrawal of Motions

12 After a motion is stated by the speaker or read by
13 the chief clerk, it shall be deemed to be in possession
14 of the house, but may be withdrawn by leave of the
15 house.

16 Rule 72

17 Unanimous Consent

18 Unanimous consent of the members may be asked for
19 suspension of any rule of the house. If there is no
20 objection to the request, the rule shall be considered
21 suspended.

25 member who voted on the prevailing side of the question
26 sought to be reconsidered.

27 2. A motion to reconsider may be made not later
28 than adjournment on the legislative day following
29 the legislative day of the action sought to be
30 reconsidered. Where the floor manager voted on

Page 37

1 the prevailing side, the floor manager has the
2 prior right to make the motion, until adjournment
3 on the legislative day of the action sought to be
4 reconsidered. A motion to reconsider a nullification
5 resolution shall be acted upon not later than
6 adjournment on the legislative day following
7 the legislative day of the action sought to be
8 reconsidered.

9 3. A motion to reconsider made beginning the
10 fifteenth week of the first regular session, or the

30 motion shall be determined to have failed.

Page 38

1 DIVISION VIII - VOTING

2 Rule 74

3 Manner of Voting

4 Members present may cast their votes, either by
5 operating the voting mechanism located at their
6 assigned desk or by signaling the speaker from the
7 floor of the house or from the south visitors' gallery
8 if they are unable to vote at their assigned desk.
9 Only a member may operate the voting mechanism at that
10 member's assigned desk. The speaker shall announce the
11 votes of members signaling their votes. Upon direction
12 of the speaker only those members at their desks and
13 voting shall be counted. Members who are not present
14 shall not cast their votes except:

15 1. Members who have not voted may record their
16 votes on any record roll call vote except quorum
17 calls within ten minutes after the outcome of the
18 vote has been announced. Members shall initial their
19 recorded votes on a copy of the record roll call at the
20 speaker's station. However, if the aggregate of votes
21 cast under this rule would change the outcome of the
22 vote on a question, then none of the votes cast on the
23 question under this rule shall be recorded. A member
24 may request announcement of the names of members so
25 recorded after the ten-minute period.

26 2. Members meeting in a conference committee
27 or in administrative rules review committee at the
28 time a vote is taken on a question may have their
29 vote recorded within thirty minutes or adjournment,
30 whichever is first, of that same legislative day,

Page 39

1 provided the aggregate of votes cast does not change
2 the outcome of the vote on a question.

3 Rule 75

4 Voting in the House and Duty of Voting

5 Voting on a question put to members on the floor of
6 the house shall not occur between midnight and 8 a.m.
7 on any legislative day except for voting on a motion to
8 recess, defer, or adjourn. Except as limited in Rule
9 76, every member who is in the house when a question is
10 put shall vote unless the house has excused that member
11 from voting for special reasons; however, such member
12 must have asked to be excused from voting prior to the
13 time the speaker puts the question.

14 Rule 76

15 Limitation on Right to Vote

16 No member shall vote on any question in which
17 the member or the member's immediate family member,
18 as defined in chapter 68B of the Code, has a direct
19 financial interest different from other similarly
20 situated persons or classes of persons of the general
21 public.

22 Rule 77

23 Call of the House

24 Upon written request of five members, the presiding
25 officer shall compel attendance of absent and unexcused
26 members for the consideration of specified bills,
27 resolutions, or amendments.

28 A call of the house shall specify the propositions
29 to which it is to apply and must be put into effect
30 before roll call is taken on the proposition. The

Page 40

1 request may be filed with the chief clerk at any time
2 before final action upon the propositions, who shall
3 notify the house immediately.

4 Rule 78

5 Method of Calling the House

6 Upon a call of the house, the names of the members
7 shall be called by the chief clerk and the absentees
8 noted, after which the names of the absentees shall
9 again be called. The sergeant-at-arms shall be
10 directed by the speaker to compel the attendance of
11 absent members, unless they are previously excused.
12 Any member occupying the member's seat during a call
13 of the house shall be counted by the speaker and that
14 person's name entered in the journal as being present
15 for the purpose of making a quorum.

16 Rule 79

17 Method of Calling the Roll

18 The electrical voting machine shall be used for a
19 call of the house, a quorum call or a roll call vote
20 on any question. If the electrical voting machine is
21 not in operating order when it is necessary to take
22 a record roll call vote, the presiding officer shall
23 order the vote to be taken by calling the roll in
24 alphabetical order, except the name of the presiding
25 officer shall be called last.

26 During the casting of the vote with the voting
27 machine, the individual votes and the vote totals shall
28 be shown on the display boards. Before the voting
29 machine is closed, the presiding officer shall inquire
30 of the house, "Have you all voted?"

Page 41

1 Rule 80

2 Quorum and Record Roll Call Votes

3 A majority of the members shall constitute a quorum.

4 A record roll call vote shall be ordered upon
5 request of any two members. The names of the members
6 requesting the record roll call shall be entered in the
7 journal.

8 Rule 81

9 Previous Question

10 When a member moves for the previous question, the
11 member shall state whether the motion will apply to the
12 main question, to all the amendments, or to particular
13 amendments. The motion requires an affirmative vote of
14 at least a constitutional majority of the members. If
15 the motion for a previous question is not adopted, the
16 house shall proceed in the same manner as before the
17 motion was made.

18 If the motion is adopted, all debate must end and
19 the house will vote upon the question except:

20 1. If the motion applies to the main question, the
21 member in charge of the measure will have ten minutes
22 to speak for the purpose of closing discussion before
23 the vote on the measure is taken.

24 2. If the motion applies to an amendment, the
25 member proposing the amendment will have five minutes
26 to speak for the purpose of closing discussion before
27 the vote on the amendment is taken.

28 3. If a member has filed a written request with
29 the chief clerk of the house indicating the member's
30 desire to speak on a particular question. The request

Page 42

1 must be filed before the motion is made by the movant.
2 The request allows a member to speak on a particular
3 question before the closing discussion by the member
4 who is in charge of the measure or who is proposing the
5 amendment.

6 Rule 82

7 Division of the Question

8 Any member may call for a division of the question,
9 which shall be divided if it comprehends questions so
10 distinct that one being taken away, the remainder may
11 stand separately for discussion by the house. Upon
12 request to divide an amendment, the chief clerk shall
13 restate the division and note the divided amendment in
14 the house journal. An amendment to strike out being
15 lost shall not preclude an amendment to strike out and
16 insert. An amendment to strike out and insert shall be
17 deemed indivisible.

The motion prevailed and the resolution was adopted.

Representative Lykam introduced Kathie Obradovich who addressed the Joint Convention as follows:

Thank you, Rep. Lykam, Mr. Speaker, Madame President and congratulations to the Pioneer lawmakers class of 1993.

You know, I always wondered what it would be like to stand in this spot and speak to all of you people. It's a little scary. After this, I may never sit over there on the west press bench during Condition of the State and make fun of the governor. (Actually, that's probably only half-true. I usually sit on the east side now.)

I'm not much of a historian and my memories of last week are fairly hazy, let alone 20 years ago. So I did some research to refresh my memory and found that the blockbuster

movie in 1993 was “Jurassic Park.” I thought I’d mention that in case we don’t already feel like dinosaurs.

Like many of you, I also came to the Iowa Statehouse for my first session in 1993. Unlike you folks, though, I arrived a month late. The Lee Enterprises newspapers had decided to reconstitute their Des Moines Bureau, which had been dark for a few years. By the time they hired me for the job and I made it to Des Moines, it was February. So much for newspapers being a deadline business.

I was kind of worried about missing so much of the legislative session, so when I arrived I asked Mike Glover, that grizzled veteran from the Associated Press, what I had missed. Nothing, he said. They spent the whole first month arguing about allowable growth. That’s great, I said. Meanwhile, I’m writing down on my to-do list: Find out what allowable growth is.” Rep. Art Ollie explained it to me. He really boiled it down in layman’s terms -- it only took about four hours to explain. It made sense at the time. It’s not his fault that I still don’t understand it.) That year I also learned the meaning of “non-germane” and “GAAP accounting.” I found out that a Pioneer lawmaker didn’t necessarily come to Des Moines in a covered wagon.

There is some good news for current legislators: Back in 1993, they eventually finished the allowable growth debate. I guess there’s still hope for this year. A lot of other things about 1993 may seem familiar. Terry Branstad was governor. The Legislature was divided, with Republicans in control of the House, Democrats in control of the Senate. There was talk of a death penalty debate, but nothing came of it that year. There was a proposal to put spending limits in the constitution. One of the governor’s priorities was cutting property taxes paid by businesses. Medicaid was a concern. The governor referred to the cost of health insurance for poor Iowans as the “Pac-Man of the state budget.” One of the hottest political questions at the start of that year: Will Gov. Branstad run for re-election? Some things never change.

Some things were different. Lawmakers that year came into session about \$400 million in the hole, and much of their work revolved around getting back in the black. Probably the most memorable accomplishment that year was welfare reform – again, done with a divided Legislature. The Capitol building was under renovation, and it still needed a lot of work. Back then, the golden dome was mostly green, and the rest of the place was dingy and shabby. These days, there’s plenty of green in the state treasury and the dome is gold again.

A little story about the regilding of the dome, replacing the gold leaf. In 1998 or 1999, I can’t remember which year, the scaffolding went all the way to the spire on top of the dome. They had a media tour so reporters could climb up there and take pictures. I’m a little afraid of heights, but I climbed up there with Mark Moran, who used to work for WOI public radio. I didn’t tell him, I kind of thinking I’d just go up as far as Mark did, and then get the heck back inside. But Mark didn’t stop, so we ended up all the way at the top. And the view was spectacular. It was totally worth the climb. But when it came time to climb back down, I was a little nervous. I told Mark to go ahead and I’d follow him.

“You go ahead,” he said. “The only reason I climbed all the way up here was because you did.”

Many other things have changed since 1993. Most of the people on press row have changed – although even after all of these years I still get mistaken for Kay Henderson from Radio Iowa. The House and Senate didn't get any bigger during the renovation, but there's room for a lot more people in here today. Iowans don't have to read the newspaper or listen to the radio or show up in person to find out what's going on the Legislature. Debate is carried live on the Internet. Iowans can read the bills online, follow the amendments and send legislators emails at their desks to comment on them. That's a change for the better. I hope legislators today will continue working to make it easier for Iowans to participate in their government.

Over the years, people often have asked me how I could stand to spend so much time with so many politicians. And I admit, there were times over the years when I wished I could be somewhere else. Like during debates on allowable growth. There are only so many times one can listen to a legislator say, "I'll be brief," and then demonstrate that he or she didn't know the meaning of the word. I always liked those accidental speeches that started, "I didn't mean to speak on this bill."

But when people have asked me about it, I usually told them I loved being at the Statehouse, mostly because of the people. To be sure, there have been a lot of characters. I remember one representative who used to sit right over there by the press bench. He was a casual sort of fellow and liked to take his shoes off during debate. I remember another gentleman who was just too honest for his own good. I was sitting here one day next to a reporter for an eastern Iowa paper when one of her local legislators came up to deliver his press release that he was running for re-election. She got out her notebook and started to interview him on the spot: "What's your biggest accomplishment?" He said, "Well, I haven't done much yet." He wasn't re-elected.

For the most part, though, I've found the vast majority of legislators, staff and yes, dear, even the lobbyists are brighter than average, ambitious, hard-working and motivated by an interest in helping people. Who wouldn't want to spend time with people like that?

One of my predecessors at the Register, Jim Flansberg, put it this way back in 1993:

"If you put all 150 Iowa legislators into a blender, the amalgamation that came out would startle you. It would be a person a lot better educated, a lot smarter and more savvy than the average citizen, a person capable of succeeding in virtually any endeavor, but one who's decided to do something about or to or for government."

I think if I had a blender that big, I'd rather make a giant margarita. But to each his own.

In that same column, Flansberg had this to say:

"A Legislature's duty is impossible. It can't achieve the ideal. It convenes in optimism and adjourns in pessimism. That's because its principal job is to accommodate the competing and conflicting interests that it represents.

"If a Legislature does the best possible job, finds a compromise between those competing interests, most members will still find themselves denounced for compromising. We've made a bad word out of the very thing that lawmakers are hired to do."

That was 20 years ago, folks, and I'd submit the problem is far worse today. People tend to get caught up in their differences and forget about the many things they have in common. But as I think back over two decades of legislators, the things that stand out in my memory have nothing to do with whether they were a D or an R. Maybe this isn't true for you, but I'm far more likely to remember kindness, a passion for fairness, the ability to admit mistakes and a really wicked sense of humor.

Ultimately, the people who really make a difference in this beautiful building are the ones who understand how to bring people together. Accomplishing great things in the Legislature is kind of like climbing up the outside of the Capitol dome. We will go far higher together than we'd ever dare to go alone.

Thank you and congratulations to the class of 1993.

On motion by Upmeyer of Cerro Gordo, the Joint Convention was dissolved at 2:33 p.m.

GOVERNOR'S VETO MESSAGES

A copy of the following communications were received and placed on file:

April 26, 2013

The Honorable Kraig Paulsen
Speaker of the House
State Capitol
Des Moines, Iowa 50319

Dear Speaker Paulsen:

House File 569, an Act relating to licensure of professionals practicing substance and addictive disorder counseling or providing substance and addictive disorder prevention services, making penalties applicable, and inducing transition, implementation and effective date provisions is hereby disapproved and transmitted to you in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa.

House File 569 is hereby disapproved on this date.

I am unable to approve House File 569 for the following reasons:

House File 569 mandates licensing for four new professions: substance and addictive disorder counselor (L.S.A.D.C.), master substance and addictive disorder counselor (L.M.S.A.D.C.), independent substance and addictive disorder counselor (L.I.S.A.D.C.) and substance and addictive disorder prevention professional (L.S.A.D.P.P.). This legislation also expands the size and cost of government by adding four new positions to the Board of Behavioral Science. The Board of Behavioral Science would need to increase fees on hardworking Iowans to pay for the increased expenses of the board and hire additional staff because the addition of four new required licenses doubles the size of active licenses.

Professionals who work in the area of substance abuse and addictive disorder counseling and prevention are essential. They provide valuable services to those with substance abuse and other addictions. Currently, these professionals can be certified by the Iowa Board of Certification to establish their credentials. The Iowa Board of Certification has been doing a good job of providing standards and certification. There is no need for an additional layer of government regulation and licensure. Furthermore, many of these certified professionals work in licensed facilities or under the supervision of others with licenses.

It is anticipated that the field of substance abuse and addictive disorder counseling and prevention will grow to meet treatment demand. It is in the best interests of Iowans to ensure that no artificial barriers to entry are created to keep people from the field. Often, counselors decide to enter the field after successfully winning the battle with their own addiction or abuse issues. We want to ensure that qualified people can continue to enter the profession. For example, each of the four licenses in this legislation requires a bachelors or master's degree before someone can work in this field. However, nearly one out of four people working in this field today in Iowa does not have such a degree, but possesses relevant experience equal to the requirements of the field. Although this legislation grandfatheres these people in for now, future Iowans would not have the same path or opportunity to enter this important field.

According to *License to Work*, a study by the Institute for Justice, in the 1950's only one in twenty individuals needed the government's permission to pursue their chosen profession. But today, the number is almost one in three.

Regulations and licenses should only be mandated when necessary to serve public health or safety. An occupational license is governmental permission to work in a particular field. In contrast, certification serves to provide a professional credentialing process for treatment and prevention providers. Licenses serve to increase costs on licensees, increase consumer costs and options, and reduce opportunities for new workers. One of my goals is to grow jobs by eliminating impediments to economic

growth imposed by burdensome administrative rules and regulations. New policies that encourage a job-friendly environment can take Iowa a significant way forward in our effort to compete for new jobs, but much of that work can be undone by overregulation. Given that the certification process for substance abuse and addictive disorder counseling and prevention professionals is well-functioning and serves the interests of protecting health and public safety, there is no need to add an additional mandated layer of regulation and four new licenses.

For the above reasons, I respectfully disapprove of House File 569, in its entirety, in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa.

Sincerely,
TERRY E. BRANSTAD
Governor

April 26, 2013

The Honorable Pam Jochum
President of the Senate
State Capitol
Des Moines, Iowa 50319

Dear President Jochum:

Senate File 204, an Act concerning persons voluntarily excluded from gambling facilities is hereby disapproved and transmitted to you in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa.

Senate File 204 is hereby disapproved on this date.

I am unable to approve Senate File 204 for the following reasons:

Senate File 204 makes it possible for people with gambling addictions who voluntarily banned themselves from gambling to engage in gambling again after five years. The voluntary lifetime ban was instituted in 2004 so that an individual can choose to be banned from all casinos in Iowa for life. In addition, if someone who has voluntarily banned themselves from gaming has gaming winnings, these monies are forfeited to the Iowa Gambling Treatment Program. Treatment experts have found that addictions tend to be life-long, which is why the voluntary lifetime ban serves a valuable public purpose. This voluntary ban option is an important part of Iowa's laws relating to responsible gaming.

For the above reasons, I respectfully disapprove of Senate File 204, in its entirety, in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa.

Sincerely,
TERRY E. BRANSTAD
Governor

REMARKS BY MINORITY LEADER MCCARTHY

McCarthy of Polk offered the following remarks:

Thank you Mr. Speaker, Mr. Speaker and this great body, this may go down as one of the shortest speeches ever given, of course I have no idea if that is correct or not, but it may be. Let me just say "thank you" to our caucus staff and my staff, I want to thank Dave Schrader and Brian Meyer for allowing to look halfway competent on some days. I want to thank the caucus staff with Joe Romano and Mary Braun, Dean, Rachelle, Anna, Freeland, Epley, Zeke and Gilde. I want to thank the Republican Caucus Staff. More often than not I think we worked together this year sharing information, and helping make the trains run on time. I want to thank you, Mr. Speaker and Majority Leader Upmeyer, this session has been our best session working together and trying to do right by Iowans.

My comments will be very brief, unlike the gridlock that has paralyzed Washington, D.C., the unwillingness to compromise, the unwillingness to govern, staking out positions and holding them to the last breath. We had some choices to make this week as an institution, and as a chamber, and we chose to behave like adults; to find common ground, and to govern. All of us today should be very proud to be part of this great body, this great institution, and even more proud to be Iowans. Thank you.

REMARKS BY MAJORITY LEADER UPMEYER

Upmeyer of Cerro Gordo offered the following remarks:

Thank you, Mr. Speaker.

A little over two years ago the House Republican caucus set out on a mission. We wanted to address the fundamental problems in the budget process.

For too long, and at the hands of Democrats and Republicans alike, the state's budget resembled a rollercoaster. One with steep inclines that inevitably led to even steeper declines.

We spent every dollar we had and were only limited by the maximum the law allowed for. This meant we were ill prepared to handle a downturn in the economy.

It meant that government grew, without regard for the income of Iowans. It meant that we had to borrow money. It meant fees had to be increased to raise revenue. It meant that the state made commitments and it did not keep them.

I am proud to serve as the Leader of a caucus who committed to change course. We committed to being limited by common sense, not the minimum standards of the law. We committed to putting the hardworking taxpayers of Iowa first. We committed to retiring debt, not accumulating it.

We have done this by adhering to some common sense budgeting principles.

- We will not spend more than we take in.
- We will not intentionally underfund obligations to balance the budget.
- We will not use one-time funds for ongoing expenses.
- We will return the over collection of taxes to the taxpayers.

Now I know you all have heard those before, but if you subscribe to the "rule of 7" from the advertising world, those principles are just about ready to sink in!

I admire my caucus for sticking to these principles. It certainly is not the easy thing to do. Not when the siren song of "more spending" can be heard coming from all directions inside and outside the Capitol. Like most things in life however, the right thing to do is also difficult.

It is remarkable that we have been able to reach a bipartisan agreement on a budget that grows at a very responsible rate of 3 percent. While the law allows us to spend 99% of all funds available, that would equal 18 percent growth in one year and would unsustainably build ongoing expenses into the baseline. Instead, we are spending 99 percent of ongoing revenue. That amounts to 88 percent of all available funds and ensures a strong financial position for our state.

Two years ago, we came together and established the Taxpayer Trust Fund. This was set up to capture unused revenue and send it back to the taxpayers. Today we move forward by establishing the mechanism by which that money is sent back to the taxpayer.

This is not a one-time deal. This is a permanent mechanism that will kick in anytime the state collects more in taxes than it needs. This is another sign that the mindset is changing when it comes to the budget. We must spend wisely and we must continue to put the hardworking taxpayers of Iowa first.

As a result of a strong economy and sound budgeting practices, we have found ourselves in a position to do things that seemed impossible a few short years ago. Rather than accumulating debt, we are retiring it.

We are using available funds to pay off bonds and shore up our pension systems. This is another example of employing a common sense approach, just like Iowans do at home.

This session is truly historic thanks to the incredible bipartisan work that has been done. When we opened this session, I asked that we set an example of the best in public service. Washington D.C.'s divisive politics have no place here. This session we have shown that there is a better way.

Working together towards common goals means we can achieve great things. It means in one session we can pass education reform, healthcare reform and historic property tax relief. All the while, adhering to sound budgeting principles that started as reforms but are now the new standard practice of the legislature.

Iowans can be proud of the progress that has been made here this year, and confident that the state is in a strong position for the days ahead.

Ladies and gentlemen of the House, thank you for your hard work. Thank you for your contribution on behalf of the good people of your districts. It is truly an honor to serve with you.

To those that keep this building running and always beautiful, thank you.

I want to thank everyone in LSA and the Chief Clerk's office. Your hard work and expertise elevates the work we do here.

Thank you to Minority Leader McCarthy, the House Democrat caucus and your staff for your hard work and dedication.

Thank you to Governor Branstad, Lieutenant Governor Reynolds and your team for your dedication to the great state of Iowa.

Thank you to our staff: Jeff, Brad, Jason, Amanda, Carrie, Colin, Kristi, Lew, Dustin, Louis, Terri, Josie, Doug, Tony and Angie. You guys are the best at what you do!

To my caucus, thank you for your steadfast focus and your hard work. The state is better for it. To the leadership team: Steve, Chris, Matt, Jeff, Joel and Walt, thank you for your support and counsel.

Mr. Speaker, thank you for your friendship and your leadership.

REMARKS BY SPEAKER PAULSEN

Paulsen of Linn offered the following remarks:

A sincere thank you to the members of the eighty-fifth general assembly, and in particular, House Republicans – I appreciate the hard work, commitment and honest debates we had at the state capitol this year. Thanks also to your families who deal with hectic schedules and our absences all so we can serve the good people of this state.

Thank you specifically to my wife, Cathy, and our children for your continued support, understanding and sharing in the sacrifice of our time together.

I want to thank a great leadership team that I am honored to work with – Reps. Windschitl, Hagenow, Rogers, Smith and Fry - I appreciate your leadership and dedication to the Republican caucus. To Speaker Pro Tem Steve Olson, thanks for your input, advice and the guidance you provide.

Majority Leader Linda Upmeyer – I appreciate, and House Republicans value, the work that you do. Your service and vision are vital to our efforts and have not only made our caucus more determined, but made the state better.

I'd also like to recognize Leader McCarthy and the minority party. Thank you for your efforts this year and for continuing to work in a bipartisan manner when you could and keeping your opposition civil when you could not.

Once again, thank you to the leadership staff: Doug, Terri, Josie, Angie, and Tony. And, in my opinion, the best caucus staff in the building – the House Republican Caucus staff: Jeff, Lew, Brad, Jason, Kristi, Carrie, Colin, Amanda, Louis and Dustin. Thank you for your hard work and the timely and reliable information you provide year in and year out.

Chief Clerk Boal, thank you to you and your staff, the work you all do right here in front me and behind the scenes make this chamber operate efficiently.

A special thanks to LSA for all of your hard work, much of what you do is not seen but it does not go unnoticed.

I also want to recognize and thank the gentleman to my right, the Speaker's page, Keith Paulsen. Keith and I go way back. Thanks for taking care of me this year, Keith. Having you by my side these few months has made this one of the most special and memorable sessions I've had serving in the legislature.

And finally, a special thank you to Governor Terry Branstad and Lieutenant Governor Kim Reynolds and their team for their resolve and unwavering leadership.

At the start of the 2013 session, I outlined an action plan to promote a strong Iowa – one that encompasses a strong economy, strong budget leadership and strong schools and communities. As we close the session, I believe we have fulfilled this commitment to Iowans.

Iowa has the third highest commercial property taxes and the 16th highest residential property taxes in the nation. I pointed out at the beginning of session if nothing was done to address this problem, the hardworking taxpayers of Iowa were staring down the barrel of a \$2.6 billion property tax increase over the next 10 years, with the majority of that falling to homeowners. Homeowners have been and would continue to be shouldering much of the burden as the rollback turns into the roll up.

Iowans have been very clear that they want property tax reform and relief and we were able to deliver for them in a way that has never been done before. For over a decade, the legislature has wrestled with this issue without success.

We passed bipartisan tax relief and reform that:

- Includes property tax relief for all classifications of property.
- Is meaningful, inclusive and reliable reform so taxpayers can count on relief from year to year.
- Ensures residential taxpayers receive as much relief as commercial taxpayers.
- Limits assessment growth from 4 percent to 3 percent on ag and residential taxpayers.
- Includes a 10 percent rollback on taxable value for commercial and industrial property.
- Is \$560 million in property tax relief, once fully implemented.
- Additionally, this bill enacts a permanent mechanism for the taxpayer trust fund tax credit, giving any overpayment back to taxpayers.

This absolutely will make a difference for every Iowan.

We also fulfilled our commitment to provide strong budget leadership. Three years ago, Iowa faced a \$900 million budget shortfall, behaving much like they do in Washington, D.C. This was unacceptable and Iowans demanded a change. In response, House Republicans outlined budgeting principles that have guided our decisions for the last three sessions. They are:

- aligning ongoing spending with ongoing revenue.
- resisting spending one-time money on ongoing expenses.
- preventing the intentional underfunding of entitlement programs.
- returning unused tax dollars to Iowa taxpayers.

The bipartisan budget passed this session results in three percent growth over fiscal year 2013 and spends merely 88 percent of what the state is allowed to spend. Culture change in large, entrenched institutions is extremely difficult to accomplish, yet it happened. This is not something to be taken lightly. We have charted a new course for future legislatures, one that puts hardworking Iowa taxpayers first, not the government.

We also took charge in regards to the ending balance. Our debt relief bill pays off \$114 million in commitments earlier than required, fulfills our obligations in regards to pension funds, makes an investment on one-time infrastructure projects at the regents universities and in water quality.

We came together to make Iowa's schools and communities stronger by moving education reform that offers flexibility for school districts, innovation for teachers, accountability for parents and protection for taxpayers. Instead of continually

throwing money at a less-than-perfect system, we met the challenge to bring about real reform that will provide measurable results. We were also able to strengthen the role of Iowa parents, not the government.

And finally, House Republicans crafted a bipartisan health care plan that focuses on making Iowans healthier without bowing to federal pressure to expand Medicaid. The federal government attempted to force Iowa and other states into expanding a broken and outdated system. Instead of taking the easy way out, House Republicans, led by the Majority Leader and Rep. Rogers, knuckled-down and created an Iowa solution to our own health care needs. This solution improves the quality of care, lowers costs and makes Iowans healthier.

This has been a remarkable session—we set very high expectations and the 150 of us, working together, met them all. As I said in my opening day speech, we are not Washington, D.C. We do not offer ultimatums, push things off until they are nearing a cliff, or wait for a crisis to react. We're Iowans and I believe once again this General Assembly has proved that we can come together on behalf of Iowans to accomplish serious and meaningful work. Our leaders in the federal government, Congress and the Administration, both Republicans and Democrats, should take notice of our process and results. If Washington operated more like Iowa, America would be much better off.

Again, thank you for your efforts.

GOVERNOR'S ITEM VETO MESSAGES

A copy of the following communications were received and placed on file:

HOUSE FILE 604

June 20, 2013

The Honorable Matt Schultz
Secretary of State of Iowa
State Capitol
Des Moines, Iowa 50319

Dear Mr. Secretary:

I hereby transmit House File 604, an Act relating to the funding of, the operation of, and appropriation of moneys to the college student aid commission, the department for the blind, the department of education, the economic development authority, the department of workforce development, and the state board of regents, and providing for related matters.

House File 604 is approved on this date with the following exceptions, which I hereby disapprove.

I am unable to approve the designated portion of the item designated as Section 30, subsection 1, lettered paragraph b, subparagraph 4. This item allocates funds for an organization to provide resources and support services for international refugees for fiscal year 2014. This potentially creates a sole-source appropriation. It is important for the State to receive competitive requests for proposals (RFPs) from all qualified organizations in order to protect Iowa taxpayers' interests and best serves the needs of refugees.

I am unable to approve the designated portion of the item designated as Section 54, subsection 1, lettered paragraph b, subparagraph 4. This item allocates funds for an organization to provide resources and support services for international refugees for fiscal year 2015. This potentially creates a sole-source appropriation. It is important for the State to receive competitive requests for proposals (RFPs) from all qualified organizations in order to protect Iowa taxpayers' interests and best serves the needs of refugees.

For the above reasons, I respectfully disapprove the designated items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in House File 604 are hereby approved as of this date.

Sincerely,

TERRY E. BRANSTAD
Governor

HOUSE FILE 638

June 20, 2013

The Honorable Matt Schultz
Secretary of State of Iowa
State Capitol
Des Moines, Iowa 50319

Dear Mr. Secretary:

I hereby transmit House File 638, an Act relating to and making appropriations to state departments and agencies from the Rebuild Iowa Infrastructure Fund and the Technology Reinvestment Fund, providing for related matters, and including effective date provisions.

House File 638 is approved on this date with the following exceptions, which I hereby disapprove.

I am unable to approve the designated portion of the item designated as Section 1, subsection 1, lettered paragraph a. This item allocates funds for the moving of all employees housed in the Wallace Building to a new location, and for the repairs and maintenance of the Wallace Building. I made it clear that my top priority for the State Capitol Complex is the repair and remodeling of the State Historical Building. The \$1.8 million shall revert to the Rebuild Iowa Infrastructure Fund.

I am unable to approve Section 1, subsection 1, lettered paragraph b in its entirety. These items allocate funds in fiscal years 2014 and 2015 for the moving of all employees housed in the Wallace Building to a new location, and for the repairs and maintenance of the Wallace Building. Infrastructure investments must be made pursuant to a long-term strategic plan. I made it clear that my top priority for the State Capitol Complex is the repair and remodeling of the State Historical Building.

I am unable to approve Section 1, subsection 3, lettered paragraph b in its entirety. This item appropriates \$1 million for the River Enhancement Community Attraction and Tourism program. The Iowa Economic Development Authority (IEDA) did not request this item and it was not a part of the budget recommendation I submitted to the General Assembly.

I am unable to approve the item designated as Section 1, subsection 4 in its entirety. This item appropriates \$300,000 for the renovation and construction of certain nursing facilities. Currently, the State of Iowa reimburses nursing facilities for construction and renovation through the current Medicaid cost reporting and reimbursement rates. The Department of Human Services did not request this item. Additionally, nursing facilities are receiving a \$15,268,148 provider rate increase based on the cost reports submitted to the State, \$1 million more than I recommended as part of the budget recommendation I submitted to the General Assembly.

I am unable to approve the item designated as Division VIII in its entirety. This item requires the IEDA to conduct a study to determine the effectiveness of giving priority to projects that attract the highest number of visitors and highest match levels from the Community Attraction and Tourism (CAT) fund. The CAT program has been an important economic development tool for smaller communities throughout our state. This provision suggests a shift in the program's policy focus which I cannot support.

I am unable to approve Section 44 in its entirety. This item allocates \$800,000 for the moving of all employees housed in the Wallace Building to a new location, and for the repairs and maintenance of the Wallace Building. I made it clear that my top priority for the State Capitol Complex is the repair and remodeling of the State Historical Building. The \$800,000 shall revert to the Rebuild Iowa Infrastructure Fund.

For the above reasons, I respectfully disapprove the designated items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in House File 638 are hereby approved as of this date.

Sincerely,

TERRY E. BRANSTAD
Governor

HOUSE FILE 648

June 20, 2013

The Honorable Matt Schultz
Secretary of State of Iowa
State Capitol
Des Moines, Iowa 50319

Dear Mr. Secretary:

I hereby transmit House File 648, an Act relating to state and local finances by making transfers and appropriations and including effective date and applicability provisions.

House File 648 is approved on this date with the following exceptions, which I hereby disapprove.

I am unable to approve the item designated as Division II in its entirety. This item provides supplemental appropriations from the General Fund to the Judicial Retirement and Peace Officer Retirement Funds. While these retirement plans have funding shortfalls, trying to make up for these shortfalls should not be borne only by taxpayers of the State. Iowa needs a comprehensive, long-term, sustainable plan for making up the shortfall in these retirement funds. The plan should include both the State and the participants of the plan as financial partners in bringing these funds to financial balance. The division also eliminates the annual standing appropriation of \$5,000,000 to the Peace Officer Retirement Fund. My disapproval of the division restores \$5,000,000 in funding starting in fiscal year 2014.

I am unable to approve the item designated as Section 9, paragraph 6, subparagraph c in its entirety. This item provides \$1,000,000 in maintenance funding for community colleges. I did not include this spending in my budget recommendation. Community colleges have received other increases and additional funding for the next fiscal year in other areas beyond my recommendations. Therefore, this funding is not approved.

I am unable to approve the item designated as Section 9, paragraph 10, subparagraph b in its entirety. This item provides \$50,000 to fund a new public safety training and facilities task force. This funding is no longer necessary due to the fact that the new task force was disapproved in Senate File 447.

I am unable to approve the item designated as Section 9, paragraph 10, subparagraph c in its entirety. This item provides \$150,000 to regional emergency response training centers, distributed on an equal basis. Providing funding to entities without guidance or oversight is not an efficient use of taxpayer funds.

I am unable to approve the item designated as Section 9, paragraph 11, subparagraph g in its entirety. This item spends \$3,000,000 to plan and design a new project, the University of Iowa Pharmacy Building Renovation. Early estimates reveal an anticipated cost of at least \$67,600,000. Until strategic plans and sustainable financing are secure, it is not appropriate to spend taxpayer money designing and planning the project. The Iowa Board of Regents should continue to engage in a long-term strategic planning process to review infrastructure needs in light of changes in educational technology. Technology and innovation should make it feasible to deliver high-quality education to students at a lower tuition and infrastructure cost, as delivery of educational services will require less physical presence on college campuses in the future.

I am unable to approve the item designated as Section 9, paragraph 11, subparagraph h in its entirety. This item spends \$2,500,000 to plan and design a new project, the Iowa State University Biosciences Building. Early estimates reveal an anticipated cost of at least \$42,500,000. Until strategic plans and sustainable financing are secure, it is not appropriate to spend taxpayer money designing and planning the project. The

Iowa Board of Regents should continue to engage in a long-term strategic planning process to review infrastructure needs in light of changes in educational technology. Technology and innovation should make it feasible to deliver high-quality education to students at a lower tuition and infrastructure cost, as delivery of educational services will require less physical presence on college campuses in the future.

I am unable to approve the item designated as Section 9, paragraph 11, subparagraph i in its entirety. This item spends \$1,500,000 to plan and design a new project, the University of Northern Iowa Schindler Education Center Renovation. Early estimates reveal an anticipated cost of at least \$31,600,000. Until strategic plans and sustainable financing are secure, it is not appropriate to spend taxpayer money designing and planning the project. The Iowa Board of Regents should continue to engage in a long-term strategic planning process to review infrastructure needs in light of changes in educational technology. Technology and innovation should make it feasible to deliver high-quality education to students at a lower tuition and infrastructure cost, as delivery of educational services will require less physical presence on college campuses in the future.

I am unable to approve the item designated as Section 9, paragraph 12 in its entirety. This item provides \$150,000 for the operation of a contract air traffic control tower in Dubuque. Earlier this year, concerns existed that federal sequestration of funds could withhold funds and affect operation of this control tower. However, federal funding was restored. The state funds are no longer needed.

I am unable to approve the item designated as Section 9, paragraph 14 in its entirety. This item provides \$300,000 for an entity to provide education and training for occupations in Iowa's renewable energy production industries and related educational opportunities. While I support renewable energy and the job opportunities associated with it, this spending provides state taxpayer dollars for a program pursuant to a federal grant with no state guidance or oversight. This is not the best use of state taxpayer funds. We have already provided \$15.8 million in fiscal year 2014 for workforce training through the Iowa Skilled Worker and Job Creation Fund, an increase of \$7.8 million over fiscal year 2013.

I am unable to approve the item designated as Section 10 in its entirety. This item transfers \$13,000,000 to the risk pool at the Department of Human Services for payment of mental health costs at the county level. Under the new Iowa Health and Wellness Plan, Iowans will have access to high quality mental health services. These services will be fully funded by federal dollars which greatly reduces the demand on county mental health funds. Counties are already receiving additional funds aiding the redesign of the mental health system, including \$11,628,317 in transition funds and \$29,820,478 in equalization funding, as well as the \$110,656,258 to be collected statewide in property taxes to support mental health services. The additional risk pool funding is not necessary at this time.

For the above reasons, I respectfully disapprove the designated items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in House File 648 are hereby approved as of this date.

Sincerely,

TERRY E. BRANSTAD
Governor

SENATE FILE 396

June 20, 2013

The Honorable Matt Schultz
Secretary of State of Iowa
State Capitol
Des Moines, Iowa 50319

Dear Mr. Secretary:

I hereby transmit Senate File 396, an Act relating to government operations and efficiency and other related matters, and including effective date and applicability provisions.

Senate File 396 is approved on this date with the following exceptions, which I hereby disapprove.

I am unable to approve Sections 40, 42, and 43 in their entirety. These items require the director of the department of administrative services to purchase a new payroll system for the executive branch. From the beginning of my administration, I asked state agencies to work diligently to reduce administrative costs and reduce overhead costs. At my direction, many efficiency and cost-control measures are already being implemented by the executive branch departments. My administration is committed to reducing the size and cost of government by 15% through efficiencies and new technologies that allow for savings. I believe a mandate to purchase a payroll system at this time is inappropriate. The department may review the payroll system and determine the best way to proceed while protecting and serving the taxpayers of Iowa.

I am unable to approve Section 41 in its entirety. This item prohibits non-contract employees from bumping contract employees in the case of a reduction in force. In order to achieve increased efficiencies within state government, my administration is committed to finding areas where we can consolidate duplicative efforts. However, in doing so we must strive to ensure that various classifications of employees are treated fairly. The executive branch will continue to implement policies that will reduce the size and cost of government by 15% and this provision would be an impediment in achieving this goal.

For the above reasons, I respectfully disapprove the designated items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 396 are hereby approved as of this date.

Sincerely,

TERRY E. BRANSTAD
Governor

SENATE FILE 406

June 20, 2013

The Honorable Matt Schultz
Secretary of State of Iowa
State Capitol
Des Moines, Iowa 50319

Dear Mr. Secretary:

I hereby transmit Senate File 406, an Act relating to involuntary commitments for persons with substance-related disorders, mental illness, and intellectual disabilities, and providing for the creation of a mental health advocate division in the department of inspections and appeals and including effective date provisions.

Senate File 406 is approved on this date with the following exception, which I hereby disapprove.

I am unable to approve of the item designated as Divisions I and II in their entirety. This item establishes new positions of mental health advocates within the Iowa Department of Inspections and Appeals. Currently, these advocates work at the county level. In the newly redesigned mental health and disability services system, it is best for these positions to remain at the local level where services will be managed and delivered regionally. I look forward to continuing to work with the House and Senate on implementing Mental Health redesign in a manner that best serves Iowans and fits within my goals for efficient and effective state government.

For the above reasons, I respectfully disapprove the designated item in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 406 are hereby approved as of this date.

Sincerely,

TERRY E. BRANSTAD
Governor

SENATE FILE 430

June 20, 2013

The Honorable Matt Schultz
Secretary of State of Iowa
State Capitol
Des Moines, Iowa 50319

Dear Mr. Secretary:

I hereby transmit Senate File 430, an Act relating to appropriations to the department of cultural affairs, the economic development authority, the department of workforce development, the Iowa finance authority, and the public employment relations board,

providing for other properly related matters, and including effective date and retroactive applicability provisions.

Senate File 430 is approved on this date with the following exceptions, which I hereby disapprove.

I am unable to approve the item designated as Section 1, subsection 2. This item creates carry-forward language which is unnecessary for the Department of Cultural Affairs for fiscal year 2014. The carry-forward language does not advance my goals of returning predictability and sustainability to government budgeting.

I am unable to approve the item designated as Section 16, subsection 2. This item creates carry-forward language which is unnecessary for the Department of Cultural Affairs for fiscal year 2015. The carry-forward language does not advance my goals of returning predictability and sustainability to government budgeting.

I am unable to approve the item designated as Section 43 in its entirety and the designated portion of Section 54. These items create carry-forward language which is unnecessary for the Department of Cultural Affairs for fiscal year 2013. The carry-forward language does not advance my goals of returning predictability and sustainability to government budgeting.

For the above reasons, I respectfully disapprove the designated items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 430 are hereby approved as of this date.

Sincerely,

TERRY E. BRANSTAD
Governor

SENATE FILE 446

June 20, 2013

The Honorable Matt Schultz
Secretary of State of Iowa
State Capitol
Des Moines, Iowa 50319

Dear Mr. Secretary:

I hereby transmit Senate File 446, an Act relating to appropriations for health and human services and including other related provisions and appropriations, providing penalties, and including effective, retroactive, and applicability date provisions.

Senate File 446 contains new language specifying the process for Iowa Medicaid reimbursement of an abortion procedure. This language applies to the remainder of this fiscal year, as well as fiscal year 2014 and 2015. This new legislative language represents a compromise between Democrats and Republicans in the legislature on the issue of whether taxpayer dollars should be used to reimburse hospitals or doctors for

abortions. The new legislative language does not allow or require a governor to approve any procedure in advance. The decision about whether to undergo an abortion procedure continues to remain with the mother and her physician. With this new language, the legislature has asked a governor to approve or disapprove a bill submitted by a provider for taxpayer-funded Medicaid reimbursement after the procedure is performed.

Senate File 446 is approved on this date with the following exceptions, which I hereby disapprove.

I am unable to approve the designated portion of the item designated as Section 2, subsection 1. This item creates two additional long-term care resident's advocates positions. As of today, there are eight long-term care resident's advocates, serving the needs of Iowa's vulnerable seniors. Currently, the Department on Aging is in the process of an aging system redesign and is thoroughly reviewing state services. It is important to ensure that all new positions are consistent with the redesign so that Iowa can best serve the needs of aging Iowans. The effect of this disapproval shall cause the \$200,000 contained in this item to revert to the General Fund.

I am unable to approve the designated portion of the item designated as Section 3, subsection 8, lettered paragraph e. This item provides \$28,644 for the costs of an emergency medical services task force that is disapproved. Due to the fact that the new task force is not created, the money is not needed. Iowa is fortunate to have many dedicated professional and volunteer emergency medical services personnel. These Iowans give their time to provide critical care in emergency situations as first responders. The Iowa Department of Public Health helps provide oversight, assistance and acts as a regulatory body for the profession to ensure Iowans statewide get a high level of care. The Department of Public Health will continue to work to improve our system. An additional task force, growing the size, scope and cost of government is not an effective use of taxpayer dollars at this time. The effect of this disapproval shall cause the \$28,644 contained in this item to revert to the General Fund.

I am unable to approve the designated portion of the item designated as Section 4, subsection 2, lettered paragraph d. This item creates a redundant, overly burdensome mandate requiring the Iowa Veterans' Home to make expenditure reports monthly to the Legislative Services Agency for fiscal year 2014. I strongly support transparency efforts that publicly disclose how departments spend their resources and this information is already available within the State's accounting and budgeting systems.

I am unable to approve the designated portion of the item designated as Section 12, subsection 19, lettered paragraph e. This item requires the Department of Human Services to report on cost containment strategies. The Department of Human Services, Department of Management and the Legislative Services Agency meet on a monthly basis to determine projections for the Medical Assistance appropriation. Information relating to cost containment strategies is shared during these meetings. While I strongly support transparency efforts that publicly disclose how departments spend their resources, this information is already available within the State's accounting and budgeting systems.

I am unable to approve the designated portion of the item designated as Section 12, subsection 20. This item allocates \$8,715,473 for the waiting list for medical assistance home and community based services waivers. The effect of this disapproval shall cause

the \$8,715,473 contained in this item to revert to the General Fund. Past history demonstrates that funding specifically earmarked to buy down the waiting list is not a successful long-term solution. Additionally, the Iowa Health and Wellness Plan will be implemented January 1, 2014. The Iowa Health and Wellness Plan will provide access for Iowans currently on the waiting list to high quality health care, including home and community based services.

I am unable to approve the designated portion of the item designated as Section 26, subsection 1. This item prohibits external approvals that are designed to ensure budget integrity, stability and predictability. Management must have the ability and flexibility to allocate resources where they are most effective and needed. In addition, this item creates a redundant, overly burdensome mandate requiring the department to report to the chairpersons and ranking members of the appropriations committees on a monthly basis. While I strongly support transparency efforts that publicly disclose how departments spend their resources, this information is already available within the State's accounting and budgeting systems.

I am unable to approve the designated portion of the item designated as Section 27, subsection 2. This item requires the Department of Human Services to report operational and program expenditures at least monthly to the Legislative Services Agency. While I strongly support transparency efforts that publicly disclose how departments spend their resources, this information is already available within the State's accounting and budgeting systems.

I am unable to approve the designated portion of the item designated as Section 27, subsection 5. This item transfers \$250,000 to the Department of Inspections and Appeals and creates two new FTEs to implement a new mental health advocate division within the Department of Inspections and Appeals. Currently, these advocates work at the county level. In the newly redesigned mental health and disability services system, it is best for these positions to remain at the local level where the services will be managed and delivered regionally. I look forward to continuing work with the General Assembly to implement the mental health and disability services redesign in a manner that best serves Iowans and serves our goals for an efficient and effective state government. The language creating a new mental health advocate division was an item that was disapproved in Senate File 406. The effect of this disapproval shall cause the \$250,000 contained in this item to revert to the General Fund.

I am unable to approve the designated portion of the item designated as Section 29, subsection 8. This item requires that all provider reimbursement rate increases in this section be used to increase the compensation and costs of employment for non-administrative staff. The Department of Human Services does not have the ability to monitor providers to determine compliance. In addition, it is not appropriate to direct provider increases in this manner. Providers are best equipped to manage their own budgets.

I am unable to approve the item designated as Section 49 in its entirety. This item amends the Iowa Code to require that any penalties imposed by the Director of the Iowa Department on Aging against a long-term care facility are automatically appropriated to the Office of the Long-Term Care Resident's Advocate. Currently, these funds are deposited in the General Fund. The Office of the Long-Term Care Resident's Advocate is funded by the General Fund. I oppose this change which uses

finances to automatically fund Office of the Long-Term Care Resident's Advocate because it sets a dangerous precedent and creates a conflict of interest.

I am unable to approve the designated portion of the item designated as Division X in its entirety. This item creates a new emergency medical services task force and report. Iowa is fortunate to have many dedicated professional and volunteer emergency medical services personnel. These Iowans give their time to provide critical care in emergency situations as first responders. The Iowa Department of Public Health helps provide oversight, assistance and acts as a regulatory body for the profession to ensure Iowans statewide receive a high level of care. The Department of Public Health will continue to work to improve our system. An additional task force, growing the size, scope and cost of government is not an effective use of taxpayer dollars at this time.

I am unable to approve the designated portion of the item designated as Section 83, paragraph 5, subparagraph b. This item causes funds deposited into the Autism Support Program Fund to not revert to the General Fund. It creates new, permanent carry-forward language which does not work to advance my goal of predictability and sustainability for government budgeting.

I am unable to approve the designated portion of the item designated as Section 84, paragraph 2. This item directs the Department of Human Services to enter into a sole-source contract without the benefit of a competitive bidding process. It is important to allow for a full review process and thoroughly plan new initiatives. In addition, competitively bid contracts ensure the best value for taxpayer dollars and that more people are served when this value is maximized.

I am unable to approve of the item designated as Division XIX in its entirety. This item creates a new committee to study how to provide care for people who are sexually aggressive, combative or have unmet psychiatric needs. My administration currently has a work group that is working together to propose constructive recommendations. The work group is open to public input. An additional committee is not needed at this time.

I am unable to approve of the item designated as the portion of Section 128 that amends 2011 Iowa Acts, chapter 63, section 36, subsection 4. This item would require a report to be given to the chairpersons and ranking members of the joint appropriations subcommittee on health and human services relating to changes in law or rules needed to implement telepharmacy on a state-wide basis. This report is not necessary due to the fact that this information is available upon request by the General Assembly.

I am unable to approve the designated portion of the item designated as Section 132, subsection 1. This item creates two new long-term care resident's advocates positions for fiscal year 2015. As of today, there are eight long-term care resident's advocates, serving the needs of Iowa's vulnerable seniors. Currently, the Department on Aging is in the process of an aging system redesign and is thoroughly reviewing state services. It is important to ensure that all new positions are consistent with the redesign so that Iowa can best serve the needs of aging Iowans. The effect of this disapproval shall cause the \$100,000 contained in this item to revert to the General Fund.

I am unable to approve the designated portion of the item designated as Section 134, subsection 2, lettered paragraph d. This item creates a redundant, overly burdensome

mandate requiring the Iowa Veterans' Home to make expenditure reports monthly to the Legislative Services Agency for fiscal year 2015. While I strongly support transparency efforts that publicly disclose how departments spend their resources, this information is already available within the State's accounting and budgeting systems.

I am unable to approve the designated portion of the item designated as Section 142, subsection 18, lettered paragraph d. This item requires the Department of Human Services to report on cost containment strategies for fiscal year 2015. The Department of Human Services, Department of Management and the Legislative Services Agency meet on a monthly basis to determine projections for the Medical Assistance appropriation. Information relating to cost containment strategies is shared during these meetings. While I strongly support transparency efforts that publicly disclose how departments spend their resources, this information is already available within the State's accounting and budgeting systems.

I am unable to approve the designated portion of the item designated as Section 156, subsection 1. This item prohibits external approvals that are designed to ensure budget integrity, stability and predictability. Management must have the ability and flexibility to allocate resources where they are most effective and needed. In addition, this item creates a redundant, overly burdensome mandate requiring the department to report to the chairpersons and ranking members of the appropriations committees on a monthly basis. While I strongly support transparency efforts that publicly disclose how departments spend their resources, this information is already available within the State's accounting and budgeting systems.

I am unable to approve the designated portion of the item designated as Section 157, subsection 2. This item requires the Department of Human Services to report operational and program expenditures at least monthly to the Legislative Services Agency for fiscal year 2015. While I strongly support transparency efforts that publicly disclose how departments spend their resources, this information is already available within the State's accounting and budgeting systems.

I am unable to approve the designated portion of the item designated as Section 157, subsection 5. This item transfers \$125,000 to the Department of Inspections and Appeals for two new FTEs to implement a new mental health advocate division within the Department of Inspections and Appeals. Currently, these advocates work at the county level. In the newly redesigned mental health and disability services system, it is best for these positions to remain at the local level where the services will be managed and delivered regionally. I look forward to continuing work with the General Assembly to implement the mental health and disability services redesign in a manner that best serves Iowans and serves our goals for an efficient and effective state government. The language creating a new mental health advocate division was an item that was disapproved in Senate File 406. The effect of this disapproval shall cause the \$125,000 contained in this item to revert to the General Fund.

For the above reasons, I respectfully disapprove the designated items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 446 are hereby approved as of this date.

Sincerely,

TERRY E. BRANSTAD

SENATE FILE 447

June 20, 2013

The Honorable Matt Schultz
Secretary of State of Iowa
State Capitol
Des Moines, Iowa 50319

Dear Mr. Secretary:

I hereby transmit Senate File 447, an Act relating to appropriations to the justice system and including effective dates.

Senate File 447 is approved on this date with the following exceptions, which I hereby disapprove.

I am unable to approve the designated portion of the item designated as Section 1, subsection 1, lettered paragraph b. This item unduly restricts the Department of Justice from closing facilities and transitioning to new, more effective community-based services for victims. The program must have the flexibility to provide services to victims in the most efficient and effective way possible.

I am unable to approve the designated portion of the item designated as Section 1, subsection 1, lettered paragraph b. This item creates carry-forward language which is unnecessary for the Department of Justice. The carry-forward language does not advance my goals of returning predictability and sustainability to government budgeting.

I am unable to approve the designated portion of the item designated as Section 3, subsection 1, lettered paragraph a. This item requires the Department of Corrections to submit a report to the legislature regarding plans for the Fort Madison Correctional Facility. Although I support transparency efforts, this requirement is redundant as this report was submitted on January 15, 2013 and is already available to the legislature.

I am unable to approve the item designated as Section 4, subsection 1, lettered paragraph a. This item contains policy language pertaining to the Department of Corrections entering into a new contract in excess of \$100,000 for privatized services during fiscal year 2014 without prior notification of the legislature and employee organizations. However, this item allows the department to renew existing contracts without notification. This item would prevent the department from obtaining services for inmates in an effective and efficient manner. This notification unnecessarily impedes on the department's management authority.

I am unable to approve the designated portion of the item designated as Section 19, subsection 1, lettered paragraph b. This item creates carry-forward language which is unnecessary for the Department of Justice. The carry-forward language does not advance my goals of returning predictability and sustainability to government budgeting.

I am unable to approve the designated portion of the item designated as Section 21, subsection 1, lettered paragraph a. This item requires the Department of Corrections to submit a report to the legislature regarding plans for the Fort Madison Correctional Facility. Although I support transparency efforts, this requirement is redundant as this report was submitted on January 15, 2013 and is already available to the legislature.

I am unable to approve the item designated as Division IV in its entirety. This item creates a task force to study the creation of a consolidated fire and police public safety training facility. Iowa is fortunate to have dedicated firefighters and police officers. These Iowans dedicate their lives to protecting the safety and welfare of Iowans. The Department of Public Safety and the Iowa Law Enforcement Academy will continue to work to improve our system. It is my administration's goal to reduce the size and cost of government by 15% and as such, I believe this issue can be reviewed without growing the size and cost of government.

I am unable to approve the item designated as Section 45 in its entirety. This item creates carry-forward language from the balance of the Cigarette Fire Safety Standard fund to the Victim Assistance Grants program. The carry-forward language does not advance my goals of returning predictability and sustainability to government budgeting.

I am unable to approve the item designated as Section 55 in its entirety. This item permanently increases the standing limited appropriation of \$1.2 million for the Consumer Education and Litigation Fund to \$2 million. Currently, any increase over the current standing limited appropriation is reviewed by the legislature and additional funds are provided annually based on need. Before this automatic increase is made permanent, further review by the legislature needs to be conducted.

For the above reasons, I respectfully disapprove the designated items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 447 are hereby approved as of this date.

Sincerely,

TERRY E. BRANSTAD
Governor

SENATE FILE 452

June 20, 2013

The Honorable Matt Schultz
Secretary of State of Iowa
State Capitol
Des Moines, Iowa 50319

Dear Mr. Secretary:

I hereby transmit Senate File 452, an Act relating to state and local finances by making appropriations, providing for fees, providing for legal responsibilities, providing

for certain employee benefits, and providing for properly related matters, and including penalties and effective date and retroactive and other applicability provisions.

Senate File 452 is approved on this date with the following exceptions, which I hereby disapprove.

I am unable to approve the item designated as Section 30 in its entirety. This item allocates \$200,000 for the chronic care consortium. The strategic planning work is duplicative of efforts already taking place within Medicaid. Additionally, the revenue from the Clinical Health Coach training program will eventually allow the Iowa Chronic Care Consortium Board to become a self-sustaining enterprise.

I am unable to approve the item designated as Section 31 in its entirety. This language restricts the Department from fulfilling its mission. It is not appropriate to direct departments to treat employees differently solely based on an employee's classification. Additionally, departments are best equipped to manage their own budgets. This does not affect the \$1.7 million appropriation approved in Senate File 447.

I am unable to approve the item designated as Section 32 in its entirety. This language unnecessarily restricts the Department from fulfilling its mission. It is not appropriate to direct departments to treat employees differently solely based on an employee's classification. Additionally, departments are best equipped to manage their own budgets. This does not affect the \$850,000 appropriation approved in Senate File 447.

I am unable to approve the item designated as Section 33 in its entirety. This language unnecessarily restricts the Department from fulfilling its mission. It is not appropriate to direct departments to treat employees differently solely based on an employee's classification. Additionally, departments are best equipped to manage their own budgets. This does not affect the \$2,571,309 appropriation approved in Senate File 447.

I am unable to approve the item designated as Section 34 in its entirety. This language unnecessarily restricts the Department from fulfilling its mission. It is not appropriate to direct departments to treat employees differently solely based on an employee's classification. Additionally, departments are best equipped to manage their own budgets. This does not affect the \$1,285,655 appropriation approved in Senate File 447.

I am unable to approve the item designated as Division XI in its entirety. This item increases the annual tax credit cap on the Historical Preservation and Cultural and Entertainment District Tax Credits. Currently, there is an Executive Order 80 Stakeholder group reviewing this tax credit program. It is my plan to approach Historical Preservation tax credits in a comprehensive and thoughtful manner. As such, I look forward to continuing to work with members of the House and Senate as this program is reviewed.

I am unable to approve the item designated as Division XXI in its entirety. This language is an attempt to provide financial relief to certain private providers of services to students related to compliance with special and general education billing requirements. The nature of the issue centers on what is and is not allowable as an educational expense in these facilities. This item would legalize what are currently non-permissive expenditures for educational funding to include a long list of expenditures that are non-educational, including expenditures related to administration, facilities, and mental health costs. This would cause an expansion of

allowable expenditures and many of these facilities were complying with current law and therefore not billing for these expenses; therefore, the State would see an increase in spending as a result of these provisions. Due to the fact many school districts already operate at a deficit related to education expenditures, this increase would be directly passed on to local property taxes.

I am unable to approve the designated portion of the item designated as Section 182. Currently, the State passes federal funds through to the counties. This item requires the State to cover any reduction of funds for the counties should the federal government fail to live up to its funding promises. The federal government has not passed a budget in more than four years and has amassed more than \$16 trillion in debt. I believe the federal financial picture is unsustainable in the long-term, and, therefore, obligating State taxpayer funds in such an unpredictable manner is not in the best interest of hardworking Iowa taxpayers.

For the above reasons, I respectfully disapprove the designated items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 452 are hereby approved as of this date.

Sincerely,

TERRY E. BRANSTAD
Governor

6 7. Notwithstanding subsection 5, for the fiscal
 7 years beginning July 1, 2013, and July 1, 2014, county
 8 revenues from taxes levied by the county and credited
 9 to the county services fund shall not exceed the lower
 10 of the following amounts:

11 a. The amount of the county's base year
 12 expenditures for mental health and disabilities
 13 services.

14 b. The amount equal to the product of the statewide
 15 per capita expenditure target for the fiscal year
 16 beginning July 1, 2013, multiplied by the county's
 17 general population for the same fiscal year. However,
 18 if the amount in paragraph "a" is greater than the
 19 amount in this paragraph and the board of supervisors
 20 adopts a resolution declaring that additional funding

 23 specified in the county's approved management plan for

33 increase expenditures of county revenues from taxes
 34 as authorized in section 331.424A, subsection 7, as
 35 enacted in this Act, and recertify taxes to reflect
 36 the increased amount to be credited to the county's
 37 services fund, as provided in section 331.424A,
 38 subsection 7, as enacted in this Act. A budget
 39 amendment and tax recertification undertaken pursuant
 40 to this section is not subject to the provisions of
 41 section 331.435 or 331.436 or any other provision
 42 in law authorizing a county to exceed or increase a
 43 property tax levy limit.>

4 STATEWIDE PRESCHOOL PROGRAM FOR FOUR-YEAR-OLD CHILDREN

5 — PARTICIPATION AND EXPANSION

6 Sec. ____ Section 256C.5, subsection 2, Code 2013,
 7 is amended to read as follows:

8 2. Preschool foundation aid district amount.

9 a. For the initial school year for which a school
 10 district approved to participate in the preschool
 11 program receives that approval and implements the
 12 preschool program, the funding for the preschool
 13 foundation aid payable to that school district shall
 14 be paid from the appropriation made for that school
 15 year in section ~~256C.6, Code 2011~~ 256C.7, or in another
 16 appropriation made for purposes of this chapter. For
 17 that school year, the preschool foundation aid payable
 18 to the school district is the product of the regular
 19 program state cost per pupil for the school year
 20 multiplied by sixty percent of the school district's
 21 eligible student enrollment on the date in the school
 22 year determined by rule.

23 b. For budget years subsequent to the initial
 24 school year for which a school district approved
 25 to participate in the preschool program receives
 26 that initial approval and implements the preschool
 27 program, the funding for the preschool foundation aid
 28 payable to that school district shall be paid from the
 29 appropriation made in section 257.16. Continuation
 30 of a school district's participation in the preschool
 31 program for a second or subsequent budget year is
 32 subject to the approval of the department based upon
 33 the school district's compliance with accountability
 34 provisions and the department's on-site review of the
 35 school district's implementation of the preschool
 36 program.

37 c. (1) For the initial school year for which a
 38 school district previously approved to participate in
 39 the preschool program receives expansion funding, the

40 funding for the expansion funding preschool foundation
41 aid payable to that school district shall be paid
42 from the appropriation made for that school year in
43 section 256C.7, or in another appropriation made for
44 purposes of this chapter. For that school year, the
45 expansion funding preschool foundation aid payable
46 to the school district is the product of the regular
47 program state cost per pupil for the school year
48 multiplied by fifty percent of the school district's
49 enrollment of additional eligible students for whom the
50 school district applied and who were approved by the

Page 2

1 department in accordance with section 256C.7 in the
2 district's approved local program on the date in the
3 school year determined by rule.

4 (2) For budget years subsequent to the initial
5 school year for which a school district approved to
6 participate in the preschool program receives expansion
7 funding, the funding for the preschool foundation aid
8 payable for the number of eligible students initially
9 paid for by the expansion funding provided to that
10 school district shall be paid from the appropriation
11 made in section 257.16.

12 Sec. __. NEW SECTION. 256C.7 Phase-in and
13 expansion — appropriations.

14 1. Phase-in. For the initial fiscal year in
15 which a school district participates in the preschool
16 program pursuant to an appropriation provided in
17 subsection 3, the department shall apply a modified
18 set of the requirements of the provisions of this
19 chapter relating to preschool program implementation,
20 preschool enrollment reporting, and distribution of
21 funding as necessary to begin the distribution in that
22 fiscal year and additional program implementation in
23 the next fiscal year. For each month after September
24 1, in the initial fiscal year that a school district
25 approved to participate in the preschool program
26 begins programming, the department shall reduce the
27 preschool foundation aid payable to the school district
28 by one-tenth of the amount that would otherwise have
29 been payable to the school district for the full school
30 year.

31 2. Expansion funding. If the anticipated
32 enrollment count of the eligible students enrolled in
33 the approved local program implemented by a school
34 district exceeds the enrollment count used to calculate
35 the preschool budget enrollment for the district's
36 approved local program for that budget year, the school
37 district may apply to the department for approval of
38 expansion funding to cover the additional enrollment.

39 If the actual additional enrollment is less than
40 anticipated, the preschool foundation aid payable to
41 the school district in the subsequent budget year shall
42 be offset by the excess amount. The expansion funding
43 shall be paid from the appropriation made in subsection
44 3.

45 3. Appropriations. There is appropriated from
46 the general fund of the state to the department of
47 education for the designated fiscal years the following
48 amounts, or so much thereof as is necessary, to be used
49 for the initial year and expansion funding preschool
50 foundation aid payments to school districts approved

15 4. Insufficient funding. For the fiscal years in
16 the fiscal period beginning July 1, 2013, and ending
17 June 30, 2017, if the number of requests from school
18 districts for initial participation in the preschool
19 program and for expansion funding exceeds the funding
20 made available for the preschool program under this
21 section, the department shall utilize all of the
22 following selection criteria in selecting the school
23 districts that will be approved to participate in the
24 preschool program:

25 a. Priority shall be given to school districts that
26 do not have existing preschool programming within the
27 school district boundaries ahead of applications for
