GOVERNOR'S BIENNIAL MESSAGE.

Members of the Senate and House of the Thirty-ninth General Assembly:

By constitutional provision, there is a mandate to the Chief Executive of the State on this occasion to direct his remarks to the subject—"The Condition of the State."

By virtue of the place which I have occupied during the past four eventful years I feel that I am somewhat informed on this subject.

In addressing you, a coordinate branch of the government, at this time, I realize and understand the tasks that lie just before you, and also how important your work will be to the future development of the State and to all her people.

Further, I am mindful that personally I pass now from this stage of activity. Henceforth I am citizen and not servant. Fourteen years ago this January I first became a member of the Iowa House of Representatives. Since that time there has been no moment that I have not held some office of trust for the people of the State. These years have been a pleasure and growth to me, and at times I venture the hope that the State may have benefited. This I know, there has been honest purpose to serve and a priceless heritage is ours, which coming in the early forties of our lives gives ample opportunity for yet further service in the ranks.

The State and Nation just now are in a period of reconstruction, following the great world war. Iowa and her people should not be discouraged. In truth, we ought to be very optimistic. I know that of late there has been much singing of the song of discontent, and even in some quarters they sing the song of hate. All this is wrong. The call of the hour is for the grace of good cheer, hope and confidence in our fellow creatures. Opportunity for real living and achievement was never brighter for our people than at this hour.

Iowa is not poor in money, nor are her people in the grip of poverty. There is more wealth now in the State than ever before, and this wealth is, and will increase continually. The moral tone of the people and educational advantages are at their zenith in the State's history. This is the hour for confidence, the extension of the helping hand and a word of good cheer.

The State does not need more government. Rather, it can get along with much less government at the top. It is quite apparent there is need for both the State and Federal powers to realize that localized government is most wholesome, and that the machinery, as first constructed, should be utilized and coordinated to present day conditions and needs.

My views of the tasks which lie before you as legislators in relation to "the condition of the State" can be summarized as follows:

First—Completion of the work of code revision.

Second—Make provision for the Constitutional Convention.

Third—Make the necessary appropriations.

Fourth—Provide an educational program.

Fifth—Make provision to utilize long standing local government agencies and decrease State machinery wherever there is duplication.

Sixth—Assist and encourage the development of State industries, both old and new.

Seventh—Provide for better marketing facilities for the products of the farm.

Eighth—Provide for better transportation facilities for the products of the State to the markets of the world.

Ninth—Provide means for more uniform distribution of labor.

Tenth—Provide for adequate home building and means for families to acquire ownership of their homes.

Eleventh—Make provision to remove whatever industrial handicap the soldier and sailor of the late war was placed under, because of his service to the country.

Twelfth—Revise tax laws so as to increase revenues and more equitably distribute the burdens thereunder.

CODE REVISION.

About 90 per cent of the work of every regular legislative session is code revision. Your task at this time is increased somewhat. However, I am of the opinion that code revision in the regular session will not be insurmountable if you divide the work into say three parts:

First—Appropriations.

Second—New legislative matter.

Third—Code revision.

Appropriations naturally are separate and distinct from the other work and have always been so considered and treated. New legislation should confine itself to subjects upon which the State has not previously spoken in the form of statute. Under code revision opportunity will be offered for all those who desire to propose amendments to the existing or suggested laws. By proceeding first and at once with the substantive law, in which there is, or should be little change proposed, the whole task can be performed with comparative ease. If, on the other hand, you proceed now with the regular session work, as is the custom, amending the laws very largely, the work of the Code Commission will fall for naught, and much of the expense incurred will be wasted. The work of the Code Commission has been quite thorough and ought to assist in expediting the work that is laid before you.

CONSTITUTIONAL CONVENTION

Section 3 of Article 10 of the Constitution of the State provides for the submitting of the question of a Convention to revise or amend the Constitution once every ten years, to the electorate. Such submission was had at the last general election. A majority of the votes cast on the subject was in favor of the holding of the Convention.

This General Assembly is, therefore, charged with the duty of providing ways and means for an election by the people, of such delegate convention. Ample time should be had, after the law for the selection of the delegates is effective, to give the people opportunity to acquaint themselves with the work that will confront the delegates to this Convention.

FEDERAL ACT.

On the third day of September, 1920, I accepted on behalf of the State the Federal Act providing for industrial rehabilitation in the following manner:

"To the Federal Board for Vocational Education, Washington, D. C.:

Since the Legislature of this State does not meet in regular session before December 31st, I, W. L. Harding, Governor of the State of Iowa, in accordance with the authority vested in me by the Federal Act pro-

viding for the promotion of vocational rehabilitation of persons disabled in industry or otherwise, and their return to civil employment, approved June 2, 1920, do hereby accept all the provisions of the said Federal Act for the State of Iowa and do hereby—

1. Empower and direct the State Board of Vocational Education to cooperate as provided in the said Federal Act with the Federal Board for Vocational Education in the administration of the provisions of the said Federal Act.

2. Direct, in order that the State may take advantage of the Federal funds available from the Federal Act, that a plan for cooperation in carrying out the provisions of the Federal Act be formulated between the State Board for Vocational Education and the State Workmen's Compensation Board, the said plan to be effective when approved by me.

3. Authorize, in so far as the legal power rests in me the State Board for Vocational Education to use State funds or other funds available for vocational rehabilitation in matching Federal funds available to the State of Iowa.

4. I hereby appoint as custodian for said Federal appropriations the State Treasurer who shall receive and provide for the proper custody and disbursement of all money paid to the State from the said Federal appropriations.

Dated at Des Moines, Iowa, this third day of September, 1920."

This is a matter which comes before you for further action.

PARDONS, COMMUTATIONS AND REMISSION OF FINES

It is a constitutional provision that I report to you every case of reprieve, commutation and pardon granted and all remissions of fines and forfeitures. Such report is herewith presented, and in a summary way is as follows:

I have referred to the Board of Parole nineteen applications in life cases for investigation and recommendation. In ten cases the Board of Parole recommended commutation of sentence, in seven cases the recommendation was against clemency; all of these recommendations were approved; one recommendation for commutation of sentence was disapproved and one case was withdrawn by the applicant. Prior to 1919 I referred one application for pardon to the Board, in which commutation was recommended and granted in 1919.

I have granted pardons in five cases, in which the sentence was imprisonment in the County jail. I have granted sixty-three suspensions of sentence, on recommendation of the Board of Parole and upon recommendation of the proper County officials, twenty-one from County jails.

I have restored to citizenship twenty-four paroled men, and upon recommendation of the Board of Parole, four hundred sixty-two. There

were also fourteen commutations of sentence upon recommendation of the Board of Parole. I have remitted fines in thirteen cases.

I am submitting herewith and by this reference making a part hereof, a report relative to the improvements which have been made and the future improvements which are proposed in order to build the capitol grounds extension.

Also I am submitting herewith and by this reference making a part hereof, a report of the Temple of Justice committee, which committee was provided for by the Thirty-eighth General Assembly.

TAXATION.

From an examination of the budget report, which is required by statute to be filed, and which is herto attached and made a part of this Biennial Message, you will find that the askings are very much in excess of what has been appropriated in the years gone by. The largest askings come from our State Educational institutions.

The increase, which the Board of Education asks for the succeeding biennial period is \$6,133,097.00. At first this seems to be a staggering amount, and it is large. However, education is worth all it costs, and it is a prime duty of the State to furnish adequate facilities to take care of all who may knock at the door for admission.

The Board of Education of the State and the heads of these educational institutions are conservative men, who have a profound interest in the future of the State, and I can assure you that these askings have not come in a haphazard way, but have been the result of careful and earnest study.

On February 10, 1917, as Governor of the State, I submitted a special message to the then Thirty-eighth General Assembly. At that time I called attention to the state of the Treasury. It showed that there was cash on hand January 1, 1917, in the amount of \$116,247.00 and that the revenues available up to June 30, 1917, including this cash, were \$4,239,447.00.

This report also showed that there had already been appropriated by former legislatures, subject to warrant for the same six months' period, the sum of \$5,724,958.00. This left a deficit, June 30, 1917, of \$1,486,511.00. On December 1, 1920, there was on hand in the Treasury of the State \$7,590,704.24. Of this amount \$4,251,784.52 belonged to the road fund. There was, therefore, on December 1, 1920, in the general fund of the State Treasury, \$3,338,919.72.

On December 1, 1920, the books of the Auditor and Treasurer showed that there had been appropriated and subject to warrant, from that period up to July 1, 1921, the sum of \$14,710,088.89.

It also was disclosed by their records that the money on hand December 1, 1920, and the receipts that will be available, amount to \$15,056,-

254.24, the receipts having been estimated below what, in all probability, will be available to the State Treasury before July 1, 1921. This leaves a balance of \$346,165.35 in the State Treasury July 1, 1921, that has not been appropriated.

In other words, on July 1, 1917, shortly after the United States entered into the war, the Treasury showed a deficit of \$1,486,511.00 and on July 1, 1921, will show a balance of \$346,165.35.

This means that during this four year period, we have paid a deficit and accumulated a balance totaling \$1,832,676.35.

Also, there are three funds in the schedule hereto attached, which have been appropriated but which will not be used, amounting to \$715,000.00. They are:

Military	\$650,000.00
Provisional contingent	\$ 40,000.00
Retrenchment and Reform Committee.....	\$ 25,000.00

With this fund added to the deficit, which was in the Treasury July 1, 1917, and the balance that will be on hand July 1, 1921, there is a total amount of \$2,547,676.00. This amount represents what has been made up and saved during the past three years out of the general levy and taxes that have been collected for all State purposes.

The Legislature in 1917 authorized a One Million Dollar appropriation. This was made available for various war purposes. Of this amount, \$56,000.00 was set aside for secret service work, and \$25,000.00 for aid to returned soldiers. \$309,563.11 of this Million Dollar fund was expended, as by the statute provided, for support, transportation, physical examination, etc., of the men furnished by the State of Iowa to the Federal government. This amount should be paid back to the State by the Federal government. The bill has been filed with the War Department. This leaves a balance in cash of \$609,136.22, that was credited to the Temple of Justice fund, as by the Thirty-eighth General Assembly provided.

I am attaching hereto and making a part of this Message the report of the State Accountant, showing the receipts and disbursements for the period from December 1, 1920, to July 1, 1921.

The information which has been disclosed makes it possible to meet the growing demands and needs of the State in a wholesome way, without increasing the levy above what it has been made during the past three years.

This statement is based upon the belief that the prices the State is required to pay for its commodities, the same as individuals, will be reduced and the further fact that the State will receive added revenues from other sources, which are available, and that there can be savings made in some of the Departments.

REVISION OF TAX LAWS.

The government is supported through taxation. These taxes should be spread equally among all the people. Certain tax changes, in my judgment, would be beneficial in reaching the desired result.

In my last Biennial Message I recommended the following:

"Under the present arrangement the Executive Council sits as an equalizing board. They are clothed with authority now to equalize between Counties, but cannot equalize as between individuals.

"I suggest that you consider the advisability of widening the scope of the power of the Executive Council, as a board of equalization, so that they may have power to equalize as between individuals.

"I further suggest, that you consider the advisability of making the County Auditor also the County Assessor and placing this officer, as such assessor, under the Executive Council when acting as a board of equalization, authorizing conference of all these County Assessors with the Executive Council once each year. With the Executive Council having added power, the Auditor as County Assessor with power over the township assessor, it would be possible to bring about greater equality in taxation matters."

I recommend that the State adopt the policy of a direct inheritance tax, as a further means of equalization—this tax to be on amounts, say of \$25,000.00 and over, the tax being graduated as the amount increases.

I recommend that personal property taxes be abolished and an income tax be levied on incomes of over \$4,000.00—this tax to be graduated as the income increases.

I further recommend that under fair safeguards, vacant, idle, real property should be more heavily impressed by the assessor, for the burden all such property imposes in retarding commercial progress.

GASOLINE INSPECTION.

The neighbor States about us require that gasoline before being sold in the State be tested. Such is not the case in Iowa. For this, it is reported to me, that there is dumped into our State and sold a large amount of this product that is inferior.

I recommend, therefore, that you make it the duty of the Oil Inspector to inspect gasoline. A small charge can be made for this work to the distributor. The people of the State will be benefited in a better grade of gasoline.

STATE INSTITUTIONS.

The Thirty-eighth General Assembly appropriated for the purchase of land and industries under the management of the Board of Control, for the biennial period, \$160,000.00 for the Men's Reformatory at Anamosa, and \$75,000.00 for the State Penitentiary at Fort Madison. Of these amounts appropriated \$158,142.08 was expended for farm land and live stock at the Men's Reformatory, and \$60,239.50 for land at the State Penitentiary.

There is a crying need for more land at several of the institutions under the management of the Board of Control. The land which the State owns at these institutions, which totals eleven thousand, eight hundred twenty-nine acres, and valued at \$3,350,725.00, is all producing revenue for the State.

The State owns eight hundred acres that was purchased near Clive for the purpose of a custodial farm. This farm has not been developed as it was originally intended, and I, therefore, recommend that you authorize that this land be sold and the money used to purchase other lands near our penal institutions. It is not economical or satisfactory to try to transport inmates from either the Reformatory or Penitentiary to this farm and attempt to operate the same.

I want to recommend that the State be liberal in the purchase of farm lands adjacent to these various institutions, for in so doing you increase the holdings of the State, and at the same time make it possible for these institutions to be self-supporting.

The farms of the State, under the management of the Board of Control, earned during the last biennial period \$351,324.66. The total amount of products from the farms, orchards and gardens since the last biennial report is:

Farm products	\$ 602,975.79
Poultry yards	18,070.16
Live stock	217,463.05
Dressed meat	117,535.45
Garden products	187,143.47
Orchards and miscellaneous	110,184.73
Total	\$1,253,372.65

This represents a profit to the State, after all expenses have been cared for, of \$351,324.66, or approximately a return of \$30.00 per acre for the biennium. Besides this profit in money, it furnishes wholesome employment for these people, which, after all, is the best return which the State can receive.

The State has at these institutions two commercial industries—the

chair and furniture industry, located at the State Penitentiary, and the cooperage industry at the Men's Reformatory, both of which during this biennial period have been great revenue producers for the State.

The chair industry has turned out 168,604 chairs and the net sales were \$777,491.22. This industry has earned in profits and reserves, since the last report and for the biennial period, \$375,777.24, which represents over 246 per cent of the invested capital. The chair factory provided employment for over two hundred prisoners. They received for their services, in addition to the cost of their maintenance, \$38,134.32. These wages earned are placed to the individual credit of the prisoner in a local savings bank, to be paid to them upon their release or sent to dependent relatives upon satisfactory proof.

At the cooperage industry, the sales for the biennial period were \$334,652.93. The profits and reserves earned during the period were \$62,818.16. From forty to forty-five prisoners are required for this work. They received in wages \$8,001.84.

The total net profits from these various State institutions amount to \$789,920.06. The average increase of the principal commodities purchased for the various State Institutions for the biennial period ending June 30, 1920, as compared with the biennial period ending June 30, 1918, is 52 per cent. Freight rates since June 25, 1918, have increased 68 per cent.

From these percentages of increase, it, therefore, behooves the State to produce the largest possible amount on the farms adjacent to these institutions, for in doing so freight charges are eliminated, as well as the increased cost that is attached to commodities, and with these facts in mind, it seems but good business for the State to provide amply with land, so that the management can conduct these institutions in an economic way.

TRANSPORTATION.

Under the present economic status of our State, adequate transportation facilities are an absolute necessity, if we are to be as prosperous as our resources and location warrant. During the past year and a half, millions of dollars have been lost by the producers of Iowa, due to the fact that we have had inadequate transportation facilities. There are two phases to this question of transportation that ought to receive the attention of this legislature.

First, you should see to it that the rights of the State, in reference to control over intra-state rail transportation, are not taken away.

Second, you should make an appropriation to the Railroad Commission, or some other authority within the State, with power to spend money within and without the State, to develop natural waterway transportation to the ocean.

The Great Lakes and St. Lawrence and the Mississippi River should

both be opened for water navigation to the ocean. At the present time some of the sister States are making appropriation for the purpose of assisting in a program for the proper development by the United States and Canada of the Great Lakes-St. Lawrence waterway.

This project, engineers estimate, will cost in the neighborhood of three hundred million dollars, one-half of this expense to be borne by the United States government. This water transportation will reduce the freight charge on Iowa products to the Atlantic seaboard and foreign markets from nine cents to fourteen cents per hundredweight, and at the same time afford the Iowa producer ability to compete on an equal freight basis for the market which rightfully belongs to him in this and foreign countries.

I therefore recommend that this legislature appropriate at least \$10,000.00 a year for the next biennium to the Railroad Commission, or some other authority, said money to be used to assist in developing water transportation, which will save the people of the State on out-going and in-coming freight millions of dollars every year. This matter will be presented to you in more detail during the session.

HIGHWAYS.

Heretofore the Legislature has at each session been confronted with the difficult problem of revising the road laws and reorganizing the highway work in order to provide for the very rapidly increasing highway traffic occasioned by the motor vehicle. This problem has now been solved. Iowa now has road laws second to no other State in the Union. These laws are elastic enough to provide for the construction in any County of that type of road necessary to meet the traffic conditions in that County.

Under these laws, roads ranging all the way from well graded and drained earth roads to the higher type pavements can and are being built. Ample means are provided for financing the construction of roads in any County at as rapid a rate as the economic conditions will permit. Thus, in those portions of the State where roads have not been built to finished grade, the law authorizes constructing the roads to finished grade, providing the necessary drainage and the elimination of danger at railroad crossings. In those portions of the State where gravel is readily available and where traffic is such that a gravel surfacing would constitute a substantial improvement, the law authorizes the construction of gravel surfaces. In those portions of the State which desire to proceed with the construction of pavement on the primary system, the law authorizes such work to proceed and provides a ready means of financing.

We have now been operating under the primary road law for two years. Due to the extremely difficult conditions following the war, it has not been possible to proceed with construction work as rapidly as some may have desired, or as the finances available would permit. This

period has, however, been used to good advantage, in that a large amount of preliminary work has been accomplished.

A primary road system consisting of 6500 miles has been designated and established, connecting every County Seat and every important market center of the State. Definite projects have been outlined for the improvement of 3380 miles, or approximately 50 per cent of this system.

Twenty-seven Counties have voted, authorizing the Board of Supervisors to proceed with the hard surfacing of the primary road system. Thirteen Counties have authorized the issuance of bonds, amounting to approximately \$18,500,000. The results in these Counties demonstrate the wisdom of the Legislature in providing a law under the terms of which any County that wishes to do so, can proceed with hard surfacing its primary road system, and can issue bonds for the financing of the work as rapidly as construction can be accomplished.

Detailed surveys have been made for the improvement of 2600 miles, or forty per cent of the primary system. Construction contracts have been let for the improvement of 1,100 miles, or one-sixth of the system. The amount involved in these contracts is \$12,600,000.

During 1920, the following work was constructed:

Paving	47 miles
Graveling	110 miles
Constructing to finished grade.....	410 miles

All Federal Aid funds have been obligated as rapidly as they became available, by signed project agreements between the Secretary of Agriculture and the Highway Commission. Up to December 1, 1920, \$6,293,839.98 of Federal money had been so obligated, which is over one million dollars more than the amount, which must be obligated by July 1, 1921, in order to prevent such funds from reverting to the government. There is not the slightest chance that Iowa will lose any road funds allotted to her by the Federal Government.

Conditions now are such that the State should go ahead confidently with its program of road construction. Industrial conditions are undergoing a readjustment. Many plants have shut down and thousands of men are out of employment. It will take industry some time to adjust itself to the new conditions. In the meantime, the State should proceed with its road improvement as rapidly as possible. This work is financed. The funds are available to carry it forward without straining our credit and without further inflation. By proceeding with the work at this time, employment will be offered to a large number of men now idle, and the general condition of the State will be benefited.

The most important highway legislation that can be undertaken by this General Assembly, is that relating to the elimination of danger at railroad crossings. Almost every day the press carries a notice of some new railroad crossing accident at which the lives of one or more people

have been snuffed out. Unless some means is found to speed up the elimination of danger at railroad crossings, tens of thousands of people will be killed at the railroad grade crossing before there is any material reduction in the number of grade crossings on our highways. In legislation of this nature, provision should be made for a fair and equitable distribution of the cost of the improvements, between the public and the railroad company.

The experience of two years operation under the primary road law indicates that a few changes or amendments should be made. The bonds authorized have a maximum interest rate of five per cent. Under the financial conditions of the past two years, these bonds could not be sold at face value, and it was illegal to sell them at less. It was suggested that the maximum interest rate be increased to six per cent, leaving it to the good judgment of the Board of Supervisors to fix the interest rate at less than that amount, if, under the financial conditions existing at the time the bonds are offered for sale, they can be sold at a lower interest rate.

Due to the fact that in a majority of the Counties the work being done on the primary road system consists of building the roads to finished grade, there will for the next several years be a surplus in the primary road fund. It is suggested that the laws be changed so that this surplus may be made available for expenditure through the purchase by the State of primary road bonds issued by any County. These bonds can later be placed on the market where the funds are required to meet the current expenses for road work. It is possible in this way to finance the bonds that will be offered for sale during the next few years without the creation of a floating bonded indebtedness. The State will get five per cent interest on such bonds, while only two per cent interest is received for funds on deposit.

Under the present law, the support fund of the Commission consists of two and one-half per cent of the motor license fees. The support fund of the Motor Vehicle Department consists of three and one-half per cent of the motor license fees. It has developed that the support fund of the Motor Vehicle Department is in excess of the requirement, and the support fund of the Highway Commission is not sufficient to meet its requirements with the vastly increased amount of work that must be done. It is suggested that these percentages be reversed.

The law requires that contractors give a surety bond for one hundred per cent of the amount of their contracts. Under these requirements, it will cost the State from \$150,000.00 to \$300,000.00 annually for such contract bonds. The interest of the State and of the various Counties can be amply protected at much less expense.

More ample provisions should be made for financing the bridge and culvert work on the primary road system. Under the present law, this work is payable by the counties from the county bridge funds. In building portions of the primary system to finished grade, the bridge and culvert work

is quite expensive, often running considerably in excess of the cost of the grading and drainage work. As a general rule, it is not possible for the Counties to finance this work from current funds, the result being that they must issue bonds. This would not be a hardship were it not due to the fact that a number of the Counties have already reached their limit of bonded indebtedness.

The statute provides that a County cannot go in debt in excess of one and one-fourth per cent of its assessed valuation. Under the primary road law, it is provided that any County may incur an indebtedness through the issuance of bonds for road work, up to three per cent of its assessed valuation. It is recommended that the Counties be authorized to incur an indebtedness for bridge and culvert work on the primary road system up to three per cent of their assessed valuation. Such a provision would release the annual county bridge funds for the ordinary bridge and culvert work on the county and township road systems, and would at the same time permit the grading and draining of the primary system to proceed without interruption.

The primary road system, as now constituted, does not extend within the limits of a city. Within a town, any road or street which is an extension of the primary road system, may be hard surfaced, under the primary road law. It is suggested that this provision be extended to apply to extensions of the primary road system through the outlying districts of cities. It is often impractical for a city or town to finance the construction of a pavement in outlying portions of the municipality where property values will not stand the assessment. Such roads invariably carry very heavy traffic, the result being that they are usually in bad condition. This suggestion for the hard surfacing of extensions of the primary road system in the outlying districts of cities will provide a means for relieving a difficult situation.

I have been in quite close contact with the Highway Commission and their efficient corps of Engineers and helpers, in the many difficult problems they have had to meet during the past two years. The work has been well and carefully performed. Under the system, as now arranged, the State will get good honest roads at reasonable cost.

INDUSTRIES

One of the prime duties of government is to see to it that advantages and opportunities are available in largest possible measure to its citizens. If we, as a State, are to keep pace industrially with our sister States, it becomes our obligation to develop constantly already existing industries and be on the alert for new ones.

The State's primary industry is farming. From this source we produce original wealth, and so long as this is the fact, we hold the key of prosperity.

We must keep in mind, however, that we cannot afford to allow the soil to be robbed of its fertility. In this connection let me remind you, the

State as a whole is vitally interested, and I am persuaded that the time has arrived when the land tenancy problems should be considered by the legislature of the State.

Improvement of live stock should be fostered and helped, for this industry is truly correlated to that of farming. New manufacturing industries should be encouraged in the State, for I believe the ideal situation is to have the factory alongside the farm. Every unnecessary hauling of freight, is an economic waste and must be paid for either by the producer or consumer.

The canning industry has been neglected as one of the industries of the State, and is capable of great revenue to our people.

Geologists of standing, inform me that there are possibilities of oil in certain localities in the State. Nebraska has offered a bonus to the one who discovers a commercial well. I suggest that you give this matter attention.

MARKETING

The place of importance in our industrial and economic life occupied by the farmer, is well known and generally conceded. Unstable and fluctuating prices for farm products are not only harmful to the farmer, but to all the people of the country.

If we, somehow, can stabilize farm product prices and assure the farmer that he can have a market, where the law of supply and demand will be in operation all the time, we will have accomplished a permanent advancement for the country.

The first requirement, as I view the matter, in the solution of the marketing problem of the country, is definite information about supply and demand. So far Iowa has done little or nothing along this line. We ought to know more about where there is demand for our products; when this demand is at its height, and how best to get the products to this market. This information ought to be gathered by the State and disseminated among the people.

Second, there ought to be a marketing bureau, whose business it would be to find new markets and assist in bringing the producer and consumer closer together.

Third, the law of the State ought to be amended to allow and regulate cooperative marketing by the producers.

I feel that there are grave national problems awaiting solution, depending very largely upon what is done to maintain and increase the efficient production of our farmers, and to distribute these products so that the farmer will be assured, without too much hazard, of a reasonable profit.

This nation is young in years, but even so, considerably more than a

majority of the people live in cities and towns. In the eastern part of the United States, there are literally thousands of abandoned farms. These farms have been worn out and discarded.

This nation can ill afford to get in a situation where it will not produce enough food for the people within the country, nor can it afford to get to the place where it will not have a surplus for export trade.

At the present time, manufacturing is being done largely in the east. The farmers of foreign countries are closer in freight charges to our market, than are the people of Iowa. The Iowa farmer sells independent and alone in competition with those who are thoroughly organized.

Under this condition the State, as well as the individual, suffers. Iowa cannot afford to allow her agricultural interests to go down, or even to decrease.

You, as legislators, can afford to spend time and study on this great problem of production, marketing and distribution, and at least, you should make a start toward solution.

LABOR DISTRIBUTION

Iowa is not only the greatest agricultural State in the Union but is fast assuming magnificent proportions in manufactures. During 1914 the output of our factories amounted to three hundred ten millions of dollars; for the year 1919, these products exceeded seven hundred millions of dollars. While a part of this value of production increase can undoubtedly be attributed to general price changes, however, that there was a most remarkable actual increase, is proven by the number of persons employed in production. This average number of persons so employed increased by approximately 17,000 for the same period.

It is well known that employment in Agriculture is seasonable, but it is not so generally recognized that nearly all lines of manufacture have their busy and dull seasons, thus bringing a continual change in the number of persons employed. This means that while during practically the entire year a number of employees are engaged regularly, a considerable number must drift from job to job, according to the class of industry. For instance, for 1919 fifty-five canning and preserving plants employed 409 persons during February and 5,341 in September. Ninety-five brick and clay plants had 937 employees in January, and 2,796 in September. Six hundred thirty printing plants employed 700 more persons in December than in January. The Confectioners employed 400 more persons in September, October and November than in January and February. Thirteen food preparation plants employed over 4,000 persons during January, September and October, but only 2,740 during March. Three thousand two hundred and six manufacturing establishments of all kinds report 55,080 persons employed in actual production during their week of smallest employment, and 100,048 during their week of largest em-

ployment, showing a drift for all reasons, and of which reasonable employment is by far the largest, of 43.8 per cent of the maximum employment. This drift is about 5 per cent greater than the average year, the difference being undoubtedly due to readjustments, both of industry and of wage earners following the war.

In this drifting, the worker must hunt for the next job, while an employer in need of this particular skill, is hunting for someone to fill the job. This means economic loss to both employer and employee and means to the State a lessened production.

Not all loss can be avoided but by a proper functioning on the part of the State, in a well organized employment service, there can be a direction and distribution of labor that will eliminate the greater part of it. No private agency can ever succeed. Employers' agencies must always be more or less restricted to their own needs. Trade Union agencies are restricted to the needs of their own membership, while the fee agency is benefited by frequent changes of employees from job to job, which in the end cultivates drifting habits of workers rather than regularity of service—the goal of State welfare. Nor can they ever be an effective inter-community exchange that will direct a surplus of labor from locality to locality, or industry to industry, according to needs and requirements.

What the State can do in this work, is made plain by the record of the State Free Employment Bureau, which directed for the biennial period, July 1, 1918, to July 1, 1920, a total of 157,109 men and women to jobs and of which 120,405 were actually placed. That this number is not wholly due to the activities during the war, is indicated by the figures for the last year of 49,001 directed and 35,561 placed.

That this class of service reaches all needs, is shown by the farm placements, which were 25.1 per cent of all actual placements, while at the same time it has rendered service to practically every industry and vocation of the State.

If this service is to continue, some definite provisions must be made. At the close of the war, fourteen offices were in operation under a cooperative arrangement with the United States Free Employment Service. The State's end of the finances were driven from the regular statutory provision designating one chief clerk and the regular provisions for printing and incidental expenses, as provided for other State Departments.

In addition, under the recommendations of the State Council of Defense, practically \$19,000.00 was used out of the war emergency funds, placed at the disposal of the Governor. In addition, the Thirty-eighth General Assembly appropriated \$6,000.00 to continue the State's end of the expense until July 1, 1919. No provision having been made for the continuance of this service by the State, beyond July 1st, except the employment of a chief clerk with incidental expenses, and the appropriations of the United States Employment Service having dropped to a minimum, all of the employment service was at that date centered in the Des Moines State office, with several cities of the State cooperating

through organizations of employers and employees, who were not willing to permit the service to cease.

These arrangements continued in some of the localities until the early part of the year, 1920, when there was no apparent relief coming from either the State or Federal government. In consequence of which, all of the offices were discontinued, except the one at Des Moines, which is now being maintained by the chief clerk of the employment service, one placement officer furnished through the Governor's office, and two women placement officers provided for by the United States Employment Service, the Federal Department furnishing the major part of office supplies and franking privilege, the State providing the telephone service.

Under this arrangement, as an indication of the further value of the service, from July 1, 1920, to January 1, 1921, 1,479 men on a monthly basis were actually placed on farms; 2,592 harvest hands, corn huskers and like labor were placed. In addition to this, forty-eight boys were placed, making a total placement on the farms of the State, since July 1st, of men and boys of 4,119, this being approximately 50 per cent of the business of the office for the period.

With proper provisions for a systematic organization of this service, the work that has been done is only a minimum of what can be accomplished in the interest of every element of society in Iowa. Just at this time, there is a considerable surplus of labor, but as international monetary exchange improves and all of our industrial interests come to a reasonable, normal basis, there must inevitably be a great shortage of labor. This shortage cannot be avoided because there has been permanently withdrawn from the productive industries of the world, some twenty to twenty-five million people.

Besides, the conditions as indicated from all reports from continental countries, is that millions of the children growing up, because of famine and disease, incident to the war, can never grow into fully developed men and women either mentally or physically, thus meaning less productive power on their part.

Under these circumstances, every ounce of available labor should be used. There should be no opportunity for loss because of a willing man being compelled to spend time in the hunting of a job, nor an employer having a job being compelled to wait until someone appears for it. Nor should either of these factors in industry be compelled to pay a tribute to any source for a service of such vital importance to the State in maintaining its industries at the peak of production.

This Bureau, properly functioning, even with some assistance that may within the next several years be secured through the Federal service under any form of cooperative arrangement, will require from the State a sum equal to at least \$25,000.00 for salaries, rentals and other incidental expenses.

LAW ENFORCEMENT

Article 4, Section 9, of the Constitution of the State, provides—"The Governor shall take care that the laws of the State are faithfully executed."

It is proper that this power be vested in the Governor, for it was originally intended that he be the Chief Executive of the State. Further, by the Constitution he is made the Commander-in-chief of the army and navy. He has granted to him the power to call in every Peace Officer and to deputize citizens when necessity demands.

During these past years, we have wandered far from the Constitution, and if its provisions have not been violated, they have been ignored.

There has been an effort made to transfer the constitutional provision—"to see to it that the laws are faithfully executed"—from the office of Governor to that of Attorney-General. The net result of this effort has been chaos and failure. The "lawyer" for the State has been converted into a detective, and at great expense to the taxpayers.

I say this without disparagement to any individual, but suggest that the State is an area too large for one man to successfully cover.

I suggest that we take invoice of law-enforcing machinery, now and for a long time past existing in this State, and see if this cannot be coordinated and used by the State as the Constitution contemplated and provides.

In every County within our State, there is a sheriff elected by the people and Deputies, one or more, appointed, the duties of which are well defined by the statute. Cities of certain size have police officers, towns have one or more marshals, and the townships have constables.

Crime is well and thoroughly organized. There is a certain class of men, who keep their existence through crime and consorting with criminals. The business of these men is to steal, plunder and murder. They know their kind and are acquainted with the abode of each other. They have a language of their own, and secret means of communication. Theirs is a close corporation and for private gain.

Law enforcement is largely an incident pursued with vigor only when crime becomes rampant. The State has no adequate organization, nor has it made provisions for any. Each of the officers named herein is left unto himself, and in his isolated place, works as best he can in his small way. Through no fault of his own, he is bounded and limited to a certain territory. He has no connection with his neighbor officer, nor authority, nor responsibility. His adversary, the criminal, possesses a high powered machine, capable of great speed, but the officer must overcome space with only the fittings with which nature equipped him.

The average citizen has come to believe that violation of law is little of his concern, unless, perchance, his own property or life is endangered, and then he is sorely peeved because the handicapped, isolated, underpaid

officer has not been able to successfully cope with organized, cunning high trained criminals.

With the advent of the automobile as a means of travel on the highways and with great speed, the work of the police in the city, in regulating the traffic, has been more than doubled.

The auto, owned in great numbers by the citizens of the State, and the great difficulty of identification, has furnished a new and profitable field for the thief. Unquenched thirsts of citizens, though contrary to the Constitution and the statutes, and the scarcity of certain beverages, has made bootlegging very profitable.

All these and more changes have come in these last few years, and been laid as a task to the Peace Officer, so that his work has been greatly increased.

Is it any wonder then, that without additional help and unorganized, there should be a lagging in efficiency? The remedy, I suggest, grows out of the experiences of the past four years as your Chief Executive. Your Governor has been limited by statutes and handicapped by divided authority. However, a sufficient showing has been made, which points the way to greater success.

With but few State men cooperating with local officials, some \$740,000.00 past due auto license fees were collected for the State during the past year, in a very short time. With two men and cooperation with local officers, some hundreds of stolen cars have been recovered, and seventeen men sent to the penitentiaries to serve sentences. With three or four men and cooperation with the local officers and the Bankers Association, some forty bank burglars have been sent, or are on the way, to the penitentiary to serve time.

I, therefore, submit that to accomplish law enforcement and eliminate crime, you do the following things:

1st. Authorize the Governor, with the force already provided, to create a State photograph and finger print system.

2d. Authorize and make it the duty of every Sheriff and Chief of Police in the State to "mug" and finger print every criminal of certain class or type that is arrested.

3d. Provide for the State to furnish copies of these, with proper information for identification, to every Sheriff and Chief of Police in the State.

4th. Authorize the Governor, with the force under him, to organize and coordinate all the Peace Officers of the State into a unit, to battle against crime and criminals.

5th. Authorize the Governor, at his discretion, to extend the authority of any or all Peace Officers to any of the limits within the State.

6th. Authorize the Governor to mobilize these officers in crime emergencies.

7th. Extend the authority of the Governor in the offering of rewards, and permit Peace Officers to receive rewards.

8th. Specifically authorize the Governor to organize local voluntary vigilant committees to cooperate with local officials—first, to prevent crime, and second, to catch criminals.

9th. Add a license fee of, say \$1.00 per car throughout the State, three-fourths of this amount to go to cities where the car owner resides, and the balance to go into a State fund to regulate traffic and capture auto thieves.

This plan, if followed, will spur the local officers to action in an effective way; will create an efficient organization; will make it more difficult for criminals to escape; will lessen crime; will arouse local interest, and with all, will be a great money saver to the people.

HOME FINANCING

There is, in the books somewhere, an ancient axiom—"A man's home is his castle."

The latest statistics inform us that only forty per cent of the families of America own their own castle (home). Sixty per cent of the families of this new country, carved out of a wilderness covered with virgin timber, are scarcely more permanently domiciled than the Arab of old.

We spend billions for armies and navies to frighten and beat back foreign foes. We requisition equal billions to dredge rivers and harbors; build public highways and public buildings, but it seems there is no dollar available to the humble citizens, male and female, who mate in response to nature's call within their breast, to build a home and reproduce their kind.

The sacred institutions of America will never go down to defeat from an outside foe, but unless some legislative body in this country arouses from its lethargy, to the importance of the family being anchored in its own home, there is possibility of an internal foe with power to haul down the flag.

I have written in former messages on this housing subject quite fully, and by this reference, make these former statements a part of this message.

Many schemes are being proposed to take care of the general housing shortage that exists at this time. Some suggest exemption from taxation for a period of years as a means to encourage the building of homes. This, in my judgment, falls far short of the purpose to be desired, and at best is only a makeshift.

As I view the matter, the thing to be desired is to encourage and actually help families to own their own homes.

The gap the average family in the State is unable to bridge, is between the modest amount they can accumulate and what can be carried by a first mortgage. Or in other words, the amount that is represented by the second mortgage.

What the State could well afford to do, is to make certain funds available for this purpose—say, a small percentage of savings bank deposits and insurance company reserves. Other securities, the investment over which the State has placed restrictions, will, no doubt, suggest themselves to your minds.

The State could, to the great advantage of all the people, create a fund by a millage tax to be loaned for this purpose, or the credit of the State could be used and bonds sold, and the whole matter be made self supporting.

If you say this requires a Constitutional amendment, then I say, propose an amendment to the Constitution and submit it to a vote of the people.

It is estimated by those in a position to know, that there is a shortage of from 35,000 to 50,000 homes in the State. This means that at least that number of families are poorly housed, crowded in dark, unsanitary places, and further, paying exorbitant rents.

The State is paying much of this in prisons or jails, or asylums, or hospital expense. More of the bill is paid in depleted man power, and still more in depleted motherhood efficiency.

After the harm occurs, the State pays in money the part of the bill that can be settled in dollars, and the balance the State pays in retarded progress.

"The condition of the State" is such that this problem should find solution at your hands at this time. Every time you encourage a family to proceed toward owning a home, you have increased the wealth of the State; increased the income of the State; stabilized the people of the State, and written an insurance policy for the security of the flag.

The home is one of the four cornerstones on which our government was founded. If the home dwelling is owned by the family occupying it, it will be defended. Your duty and opportunity is to preserve to America this cornerstone.

EDUCATIONAL PROGRAM

The largest, the most important, the most potential public institution in the State is that of education. The attitude which the men and women

of the State, ten and fifteen years from this date, are going to assume toward life, is being shaped very largely today by the twenty-five thousand and more teachers in the public schools. We no longer boast in this State that education is free. It is the law now that education is compulsory.

Recently there has been throughout the nation a great awakening on the subject of education for the masses. In this awakening, Iowa now leads all the States of the Union. This leadership is due largely to men and women in the teaching profession in the State, who, although underpaid, have dedicated their lives to the cause of the State and nation. Iowa's school situation is approximately as follows:

Enrollment in colleges.....	15,644
High Schools	63,217
Rural Schools	194,854
Grade Schools	271,854

Total.....545,569

The population of the State, according to the last census, is 2,403,630. School population is estimated at five to twenty-one, so that the school population of the State is 683,188. 80% of the school population of the State is enrolled in some educational institution. Of this 80% of the school population, 2% is enrolled in colleges, 9% in High Schools, 29% in rural schools, and 40% in grade schools. 23% of the total population of the State is enrolled in some one of the schools of the State. The best conception of an educated person today, is one whose mind is trained to enjoy and appreciate the best things of life, whose hands are trained to do some useful labor well, whose body is symmetrically developed, whose heart is attuned to the noblest impulses and whose patriotism is grounded on the fundamentals of our form of government.

The Iowa educational program should strive to bring this standard to every citizen of the State.

The first and most vital factor in an educational system, is a trained teacher. Janitors, buildings, grounds and equipment are necessary, but without the teacher, there can be no school and no education. There is, and will be, a shortage of trained teachers for the rural schools, unless you, as legislators, make provision.

You ought to provide for at least three normal schools in the State, and limit them to the training of teachers for the rural schools. One such school would help, if it shall be your judgment that three at one time is too large an undertaking. This legislature, in my judgment, ought not to adjourn without launching this program for the State.

Makeshifts for this prime necessity for trained teachers for the rural schools would be to develop junior colleges in centers and encourage them to offer special teacher's training courses for rural teachers, and further, to encourage the teacher training departments in colleges that already

have departments of education. Additional helps to remedy the teacher shortage will be:

Adequate compensation for the teacher and County Superintendent.

Make teaching a profession.

Encourage and authorize the district, wherever possible, to provide housing for the teacher.

Hire the teacher for a twelve months' period and pay them accordingly.

Permit and encourage the hiring of the teacher for a period longer than one year.

And further, it should be the law of the State, that whoever teaches in school or college, of whatever kind or character, be certificated, and that before any person can teach within the confines of the State, that they be an American citizen.

There is room for economy in school construction in the State. Last year there was voted, one consolidated High School for each day of the school year. For this there were millions of dollars spent. A State architect, trained in modern school construction, could save thousands of dollars and produce more efficient buildings.

The Department of Education has been a powerful factor in the wonderful advancement that has been made by the State educationally. The present incumbent of the office and his predecessor are nationally recognized leaders. The Department of Education has been handicapped in the past by small appropriations. I plead with you to provide help and means so that the Department can lead for all the nation. It means much to a State to be able to boast the least illiteracy in the country and to be known as leader in education.

Permit me to suggest that economy and efficiency will be brought into play, by making it possible for the Superintendent of Public Instruction to co-ordinate the local School Board activities of the State by conference in district meetings. Commercial bodies recognize the advantage of conference—why not then convene School Boards so that they may get a larger view and have touch with the outside world?

I submit to you that in your dealing with public education, in your capacity as legislators, you touch more vitally the future of the State and the happiness and contentment of the people, than in any other single way. The competition for leadership among the States is keen. However, we have the men and women and the means to maintain our honorable place and you are to say whether or not this place is to be maintained.

The National Educational Association has chosen Iowa as their place of meeting for July this year. This is a big undertaking for the teachers of the State. I suggest that you make an appropriation of \$25,000.00 to assist in this work.

SOLDIER'S RELIEF

In my last Biennial Message, I called the attention of the legislature to the returned soldier and sailor, and recommended that—"Primarily, the State should see to it that the returned men, so far as it is humanly possible, re-enter the activities of life without handicap because of the war. By this I mean, he should be reinstated in society, equipped to take the place he would have occupied, had he not been called to the colors."

I desire now to reiterate this recommendation. These soldiers and sailors went freely. They fought, they won, and saved the cause of civilization. As a citizen of Iowa, I am indebted to these men, and I want a chance, through the State, to pay. Money will not pay the debt, but it will, in a measure, remove the handicap these men were placed under in the economic world. The "stay at homes" made millions out of the war, and out of these profits they should make division with those who risked their all.

It is an honor debt, and you legislators are the arbiters. If you feel that you should not meet this question, in this capacity, at least pass it on to the people for vote.

STATE PARKS.

No State can be great or permanent, that does not give heed to the play of its people. No State can long endure, that does not cultivate in its people a love for nature in plant, tree, rock, stream, and all the great outdoors.

Our people throughout the State, are alive with interest and enthusiasm for the establishment of parks, so that they can play about and worship at nature's shrine.

The policy has been established to create these parks throughout the State. Already much progress has been made. I urge upon you, that this policy be continued and supported by liberal appropriations.

GOVERNMENT ECONOMY

Of late there has been much loose talk about changes in the administration of the State government. Agents, with a patent cure-all, appear in the State, at least biennially, with a new scheme, or schemes, to build over the State and practically run the government without either cost or friction. The only thing lacking usually with this type of "doctor" is votes enough to get into office.

It would be idle to say that there could not be improvement in the condition of the State's business, for in fact, there is scarcely an administration that does not bring about improvement somewhere.

Let me remind you, however, that during all the history of this State, the best men in the State in all lines have devoted their time, their energy, their ability and their patriotic devotion to building the system and form of government we now have. If you will look back over the list of the men who have served Iowa, you will find a galaxy of names of which every son and daughter of the State can well be proud.

This government is the result of the earnest study and devotion of the best citizens that the people could find in the various communities to elect to office. Men, who are big enough and good enough to gain the confidence of the electorate and be chosen to office, do not, as a rule, figure all of government from the standpoint of seeing how few dollars they can possibly collect and spend. They, rather, are actuated by a desire to make government efficient, and at the same time convenient for those whom it serves.

The financial problems of the government are not dissimilar to those of the household. Most of us have had some experience with our own reforms in household economy. Who of you has not listened, with rising enthusiasm, to the boarding house spinster or bachelor, glowingly lecture on the budget system for the home affairs? Put into actual practice what you save by not buying wool, is more than exceeded by what you buy in cotton.

If in due humility a confession can be made, permit me to say, that four years ago, when I came into this place, I was confident that great saving could be accomplished by changes and consolidations in Departments, and I purposed then to do that very thing.

I have been in close contact almost daily with every Department in and for the State government, and I say to you frankly now many changes could be made; much re-arranging can be done, but if the activities that are being carried on are to be continued and as efficient as now, you will find that the savings from all the changes will be but negligible.

True, there are some overlappings in the activities, but when the real facts are understood, you will do as have your predecessors, continue the work.

I do not advocate that you create more positions or commissions, for I am persuaded that there are few, if any new activities, that the State can enter wherein there is not already a government agency that can be utilized.

For illustration, there is the activity to be performed by the so-called "Industrial Court." If you should decide to adopt this as a State policy, you can, with great saving to the State, use the already established and long standing courts.

The thing I do wish to emphasize, is that this government, which you find here and the various agencies thereof, did not accidentally happen.

They are the product of brain, and character, and patriotism, equal with that which you bring to the service of the State.

Always there are those, who while seeking office, slur the employees of the State and make the charge that they loaf on the job and fatten off the public. I shall not discuss this matter further than to suggest that if you have doubt of the work performed by the State employees, you first make careful investigation, as I have, and second, that you visit the homes or places of abode of these same employees and see if you find evidence of opulence.

You will ascertain, as you tarry here and become acquainted, that the men and women who do the work and keep the wheels of government going, are ordinary, honest, conscientious folks, always on the lookout for the best interests of the State.

I grant you that there may be in some of our sister States, need for change, but let me remind you that when these sister States have made all their changes, they will not have reduced in comparison with Iowa, for they but attempt what we did years ago when the Board of Control, the Executive Council and Board of Education were adopted. Through these three Departments, most of the State's taxes are expended, and they are expended in an economical and businesslike way.

Changes will be made by this Legislature. You will make some reductions—you will make some additions. The sum total of it all will be, when you have finished, that a little progress will be made, and you will have discovered that what is, in government in Iowa, is the result of the best brain and the best heart that Iowa has been able to produce.

CONCLUSION

In closing let me make acknowledgment of confidence bestowed by a gracious and good people.

These legislative halls and every office and corridor in this building, are filled with echoing memories that will sweeten as the years come and go.

The electorate of this great State permitted me to occupy the highest office in their gift, during the stirring and dramatic hours of the world's greatest conflict in bloody warfare. The matchless record of this State, in service and leadership, is a monument, more enduring than granite or bronze.

I crave only that hereon, in humble place, somewhere among the names of those who rendered service, my name may be carved.

I am submitting herewith, and by this reference making a part hereof, a report relative to the improvements which have been made, and the future improvements which are proposed in order to complete the capitol grounds extension.

"All of the pavement, with the exception of one or two small patches now under contract, and that on two boundary streets, East 12th street and East 13th street, has been completed. All of the grounds, with the exception of approximately eight acres, have been graded, finished to the landscape architect's plans, prepared, and sodded or planted to permanent lawn.

Concrete curbing and pavement sidewalks, either concrete or penetration macadam, have been completed on all of the grounds north of Court avenue, with the exception of those along Grand avenue. These improvements on Grand avenue have been delayed by the construction of the heating tunnel.

Electroliers and an underground system of conduits and cables have been installed on all of the main streets and drives within the capitol extension zone with the exception of Court avenue and Grand avenue, which are now lighted by the city of Des Moines.

A water system for watering the lawn, trees and shrubs connecting with the city water mains, has been installed on practically the entire grounds.

Provision has been made on the areas which are permanently graded, for both surface and underground drainage. This drainage connects with the city sewer system.

Ten hundred forty-four trees and seventy-eight hundred square yards of shrub beds have been planted on the grounds. Wherever it was possible, the trees which existed on the original grounds were saved or transplanted, but the greater portion of these trees have been furnished by Iowa nurserymen, shipped to Des Moines and planted by experienced men.

A new heating tunnel, eight feet in width by nine and one-half feet in height has been constructed from the location of the proposed new power plant to the old heating tunnel, which connects the present power plant with the capitol building. In this new tunnel, provision has been made for connection with present and future buildings. The construction of the tunnel is one of the largest and most important features of the entire development. Provision has been made for carrying conduit and pipe lines along the roof of this structure, leaving ample room for the transportation of freight and express through the tunnel to the various buildings.

I believe that provision should be made for the completion of the above mentioned improvements as rapidly as possible. It is vitally important that the grading be completed and the planting continued, since it requires years for the lawn, trees and other plant life to become properly established. It is also essential that suitable walks be provided along the streets leading to the various points of interest on the grounds. In

this connection, it will be necessary to construct several sets of steps on the terraces to connect existing walks.

At the present time Grand avenue, through the capitol grounds, is not sufficiently illuminated. Provision should be made by the state for the proper lighting of this street as well as for the area south of Court avenue.

In 1919 a site adjacent to the railroad was purchased for the proposed new power plant, general and detailed plans for the building prepared, and the greater part of the excavating for the foundations completed. In making the excavation, we encountered a vein of good coal, varying in depth from three to six feet, and from this source we have furnished the power plant with the greater portion of fuel since last April.

The plans for this building contemplate the construction of a large storage house in connection with the plant. At the present time, all supplies must be delivered either to the capitol building, to be unpacked in the corridors, or to the present storage house, which is inadequate to meet present needs. In addition to this, every pound of coal used must be transported from the tracks to the plant, which is not equipped to handle the heating and lighting of any additional buildings, or to provide for the storage of a sufficient quantity of coal.

I therefore recommend that an appropriation be made for the construction of this building.

In the development of the grounds, we have adhered as closely as possible to the original Masqueray plan. However, at the direction of the executive council, we have prepared a plan, showing their ideas as to the future development of these grounds. Upon the advice of their landscape architect and engineer, and their four years' experience in the past development of the original plan, the executive council suggests that in case of future development, this plan be considered. Among other things that this plan contemplates is the construction of a greenhouse, a suitable governor's mansion, a re-design of the original capitol grounds to conform with the new, the purchase of some additional property, and a revision in the design at the south end of the grounds, due to the enormous slide which took place at this point during the past year.

This slide progressed to such a point as to block traffic on the Ft. Dodge, Des Moines & Southern Railroad, in spite of the fact that this company had for several days been operating a ditcher at this point in an effort to keep the track open. At the direction of the executive council, a conference of engineers was called to determine, if possible, the course of the slide, and to make recommendations to provide relief. It was the opinion of this conference that the slide was caused by the collection of water on an impervious clay or shale until a sufficient quantity had collected to thoroughly saturate the overlying material and lubricate the surface of this impervious material sufficiently for sliding to take place. This conference recommended the immediate removal of the sliding earth

and the council proceeded in accordance with their recommendations, a copy of which is on file with the secretary of the executive council.

Due to the fact that there has been such an enormous increase in both the price of material and labor within the past two years, the remaining funds will not be sufficient to complete the development as originally planned. If the cost of the tunnel, the excavation at the power plant, and the excavation to relieve the condition of the above mentioned slide, had not been paid out of the capitol extension funds, we would have been in position to very nearly complete the improvements contemplated, with the original appropriation, in spite of the increased cost. Plans and estimates for the completion of these improvements are on file in this office, and I believe that further appropriations should be made to continue the development.

Some of the improvements on the grounds have been completed to such an extent that the state is now confronted with the question of adequate maintenance. Not only will the electric and water system require attention, but the lawn, the trees, shrubs and flowers will demand constant care. This work, together with the proper policing of the grounds, will require a permanent force of men. In this connection, I believe that since the duties of the custodian are so greatly different from those of the adjutant general, it would be advisable to separate the two.

I wish to recommend that the present duties of the custodian be transferred to the executive council, authorizing them to employ a superintendent of grounds and buildings, whose duties would include not only those of the present custodian, but also the maintenance of the completed work on the extended grounds."

REPORT OF THE TEMPLE OF JUSTICE COMMITTEE

To the Members of the Thirty-ninth General Assembly:

The temple of justice committee herewith submits the following report:

The temple of justice committee created by chapter 349, laws of the Thirty-eighth General Assembly, first met soon after the legislature adjourned and before the law creating the commission went into effect. This meeting was without expense to the state and was held for the purpose of being ready to go on with the work as soon as the law went into effect creating the commission.

The committee was called together by Chief Justice Ladd on July 9, 1919, in the consultation room of the supreme court. The committee was composed of the following members: Chief Justice Ladd, Governor W. L. Harding, Secretary of State W. C. Ramsay, Auditor of State F. S. Shaw, Treasurer of State E. H. Hoyt, Senators W. G. Haskell and Clem F. Kimball and Representatives A. O. Hauge and W. F. Moore. Mr. W. C. Ramsay was appointed permanent secretary of the committee.

The matter of the selection of architects for the erection of the temple

of justice was first taken up. Chief Justice Ladd explained his interviews and correspondence with various architects and the committee then decided to select a board of architects consisting of five architects or firms of architects. A canvass of the ballots cast disclosed the following selections:

Temple and Burrows, Davenport, Iowa.

Boyd and Moore, Des Moines, Iowa.

Wm. L. Steele, Sioux City, Iowa.

Proudfoot, Bird & Rawson, Des Moines, Iowa.

W. J. Brown, Cedar Rapids, Iowa.

Power to select the chief architect remained with the committee.

The chairman was instructed to notify the various architects of their selection, and a sub-committee, consisting of Messrs. Harding, Hoyt and Ramsay, was appointed to confer with these architects to make the preliminary arrangements.

All of the state house officials and the various departments that under the law are in the future to be housed in the temple of justice were called before the committee and their needs presented as to room in the new building. A full report of the needs of each department and officers was given the board of architects somewhat modified as recommended.

On July 17, 1919, the sub-committee named above met in the governor's rooms to confer with the board of architects. The general plan or program was presented to the architects by Governor Harding.

Mr. W. J. Brown reported that the several firms of architects had agreed to recommend that Temple & Burrows be designated to prepare plans and specifications and that the remaining four firms act as associate architects. Mr. Rawson of the firm of Proudfoot, Bird & Rawson stated that the architects had agreed upon a division of the remuneration and recommended that such remuneration be 6% of the cost of the building. The sub-committee then adjourned.

The next meeting of the whole committee was held on September 3, 1919, at which time the report of the sub-committee was received and placed on file.

The question of the selection of the architect in chief was then taken up. A misunderstanding had grown up among the firms of architects that they had authority to choose the architects in chief from among their number and had taken action in accordance with this belief, as shown by the minutes of the sub-committee above referred to. It was again moved by the committee that the selection of the architect in chief was of such importance that it should not be delegated and that selection should be made by the committee as a whole. This motion was carried unanimously and the committee then proceeded to the selection of the architect in chief. The result of the balloting disclosed the selection of the firm of Proudfoot, Bird & Rawson of Des Moines, Iowa.

A committee composed of Messrs. Ladd, Haskell and Moore was named to confer with the Des Moines architects.

The manner of payment of expenses incurred by members of the committee was discussed and a finance and audit committee, consisting of Messrs. Shaw, Hoyt and Hauge, was appointed to pass upon all bills and if authorized by the full committee and approved by this committee of three then said bills to be turned over to the regular auditing committee of the state and paid as other expenditures of the state. At a later meeting the expense of out of town members was included in the bills authorized and allowed by the full committee.

The next meeting of the committee was held on October 8, 1919. A committee consisting of Messrs. Kimball and Moore was appointed to confer with the attorney general for the purpose of drafting a contract for the architectural work on the temple of justice, same to be submitted to the whole committee for approval.

The committee decided to have a conference with the various architects severally on the proposition of paying 4% on the cost of construction to the chief architect and $\frac{1}{4}$ of 1% to each of the associate architects. Mr. Burrows and Mr. Steele were then called and the above proposition was then submitted to them. They withdrew and, after a conference, submitted a counter proposition providing for a flat fee to each of the consulting firms of \$5,000.00 or, if the fee remained 5% of the cost of construction, then the division of fees as originally agreed to by the architects, be as follows: 2-3 of the total fee to the chief architect and 1-3 to be divided equally among the four consulting firms. After this counter proposal was received it was agreed that Steele and Burrows enter into a conference with the other architects to ascertain if a satisfactory agreement could be reached. They were unable to do this and the counter proposal was rejected.

The committee then agreed that the architects in chief should be allowed for their work as architects in chief and as superintendent of construction the sum of 4% on the actual cost of the building and that each of the consulting architects should receive $\frac{1}{4}$ of 1% of the actual cost of the building, and the chairman and secretary of the committee were authorized to execute, in accordance with this agreement, the contracts with the various architects.

Senator Kimball, from the committee appointed to confer with the attorney general upon a contract for the architectural work, submitted a tentative draft of such contract, which was discussed, section by section, and approved, subject to minor corrections by the chairman and the attorney general.

Mr. Proudfoot stated that he contemplated a trip east to inspect public buildings relative to exterior and interior finishing and different styles of architecture, and requested as many members of the committee to

accompany him as possible. The suggestion of the architect in chief was approved.

The next meeting was held on January 8, 1920, Messrs. Kimball, Hauge and Hoyt, who had accompanied Mr. Proudfoot on his trip, made a detailed verbal report of this trip, and the various types of public buildings they had inspected.

Messrs. Proudfoot and Rawson were then called and reported that the architects had had a meeting on January 5th and several recommendations on the part of the architects were submitted as follows:

(1) That the site assigned to the building be enlarged in order to give the building a proper architectural setting.

(2) That the building be located to front west, with the east and west axis on the east and west axis of the capitol, the front of the building to be approximately 90 feet from the east line of 12th street, leaving approximately 450 feet between the two buildings.

(3) If the above recommendations be adopted, that a sketch known as No. 5, submitted herewith, be adopted as the provisional plan for the building, subject to necessary revision from time to time.

(4) That the first contract for construction provide for enclosing the building only, and that bids be taken for the exterior done in marble, granite and Bedford stone, the architects' preference for materials being in the order named.

Recommendations 1 and 2 were taken up and Messrs. Moore and Kimball were appointed to draw up a resolution relative to the adoption of same.

Recommendation 3 was adopted and blue print No. 5 was accepted as the provisional plan for the building, subject to necessary revision from time to time.

Recommendation 4 was also adopted.

Mr. Kimball, from the committee appointed to draw up a resolution relative to recommendations 1 and 2, presented a resolution in form similar to one that had already been adopted by the executive council, in substance briefly as follows:

Whereas, Section 1400-t2, supplement to the code, 1913, contemplated the erection of two buildings on the ground between Grand avenue on the north, 13th street on the east, Walnut street on the south and 12th street on the west; and chapter 349, laws of the Thirty-eighth General Assembly, contemplates the building of a temple of justice to take the place of the two buildings above referred to, the exact location of which was not designated in this chapter; and

Whereas, The ground designated for the supreme court building and

the office building is required for the temple of justice provided for by the Thirty-eighth General Assembly; and

Whereas, There is no specific designation existing in the plans adopted by the Thirty-fifth General Assembly for such a building as is provided for by the Thirty-eighth General Assembly; and

Whereas, The location suggested for the supreme court building is not adequate in size for the temple of justice provided for by the Thirty-eighth General Assembly; and

Whereas, the architects have recommended the utilization of these two sites; therefore,

Resolved, That recommendations (1) and (2) of the architects relative to the location of the proposed building on this site be adopted.

The blue prints submitted by the architects were taken up for further discussion and it was decided to alter the light courts, making them 38 feet wide instead of 46 feet, thus adding 8 feet to the stacks.

A committee was appointed, consisting of Messrs. Harding, Hoyt, Ramsay and Shaw, with authority to employ O. W. Crowley as secretary of this committee and to render services as construction engineer.

This committee was also instructed to request the executive council to provide a room for the use of the temple of justice committee.

Payment of the expenses of the members of the committee who made the trip to the East was authorized.

The next meeting was held on March 30, 1920. The following members of the firms of architects appeared before the committee: Harry D. Rawson, S. J. Temple, B. B. Boyd and W. J. Brown. They presented a sketch of the proposed building, showing the west frontage. The general architectural design as presented was approved.

Drawings of the stacks for the library were then presented and informally discussed.

The architects were then informed that it was the wish of the committee that they proceed with the plans as directed and that they prepare plans for the finishing of the building, reporting the same to the whole committee within 60 days.

The next meeting was held on June 14, 1920. Messrs. Proudfoot and Boyd presented the completed plans, also a plaster miniature model of the proposed building. Objection was made by Senator Haskell to the entrance on the east side. A general discussion of the plans followed.

Mr. Proudfoot was then asked to present sketches illustrating the different ideas of the committee, but that he present, to be attached to this miniature model, what he and the other architects thought to be the practical design.

The tentative plans and the design, as illustrated by the miniature, except the matter of the east entrance, were approved.

The next meeting was held on July 14, 1920. Messrs. Proudfoot and Rawson presented the miniature model, with alterations in the east entrance as per the suggestions made at the last meeting. The plan for the east entrance was adopted. It was then moved that the plans as presented by the architects and as having been adopted heretofore by virtue of the tentative approval of the main structure and then by the approval of the east entrance, be adopted as the plans for the temple of justice. The motion was carried.

A resolution was then adopted calling for bids on the work so far as outlined. A committee was appointed, consisting of Messrs. Ladd, Hoyt and Hauge, with authority to proceed, in conjunction with the architects, in the securing of bids. The advertising for bids to be taken care of by the architects.

The next meeting was held on September 29, 1920, in the office of the treasurer of state. Bids submitted on the proposed building were opened and read. Bids were received for all or a part of the items covered in the advertisement for bids from the following:

Charles Weitz' Sons, Des Moines, Iowa.
Arthur H. Neumann & Co., Des Moines, Iowa.
W. F. Kucharo & Co., Des Moines, Iowa.
J. E. Tusant & Son Co., Des Moines, Iowa.
John A. Benson Construction Co., Des Moines, Iowa.

Vermont Marble Co., Proctor, Vt.
Ingalls Stone Co., Bedford, Ind.
The Consolidated Stone Co., Bedford, Ind.
Backman Sheet Metal Works, Des Moines, Iowa.
Des Moines Sheet Metal Co., Des Moines, Iowa.

On October 6, 1920, the committee reconvened in adjourned session.

Representatives of the various firms which had submitted bids were called before the committee to explain their bids or to display samples of stone from their quarries.

The committee adopted a resolution providing that it was the opinion of the committee that the temple of justice should be constructed of Mt. Airy granite from foundation work to the base line of the superstructure, and Vermont marble be used for the superstructure of the building.

Owing to the rising cost of building construction, which steadily advanced from the time the appropriation was made until the peak of high prices was reached in 1920, your committee has deferred letting contracts for construction hoping that without seriously delaying progress the contracts for construction might be let on a falling market. The advance in building cost from January, 1919, to the peak in 1920, was about 60%.

From the bids submitted it was found that the temple of justice could not be built of the materials adopted by the committee or of any suitable materials, within the appropriations for the purpose evidently contemplated by the legislature, and a resolution was adopted providing that all bids be rejected and that a committee be appointed to co-operate with the architects and present to the next General Assembly the proposition that the building shall be constructed of Mt. Airy granite base, and Vermont marble superstructure on the plans as prepared and adopted, and that additional appropriation sufficient to complete the building according to the plans and specifications be requested from the next General Assembly.

A sub-committee consisting of Senator Haskell, chairman, Mr. Hauge and Mr. Ramsay was appointed to co-operate with the architects and present these matters to the Thirty-ninth General Assembly.

A detailed statement of expenditures by the committee is hereto appended.

Respectfully submitted,

IOWA STATE BUDGET

Governor Harding also presented to the General Assembly, as a part of his message, the following budget and statement:

Herewith I submit budget report as provided by Chapter 9, Title II, Supplemental Supplement to the Code. This chapter provides (1) that every officer, board, commission or committee having charge of any department or institution or undertaking, which receive an annual appropriation of money from the Treasury of the State, shall biennially submit to the Governor statement showing in detail the amount appropriated for the current biennial period, estimates of the amounts required for the ensuing biennial period with an explanation of the reason for any increased appropriation, and all receipts and expenditures for the current biennial period tabulated; (2) that the Governor, on the date fixed by law for presenting to the General Assembly his message shall, at the same time, submit the budget.

The tables herein have been made as concise as possible with a view to giving the main facts regarding the finances, transactions and needs of all the different departments of the state government.

The columns of appropriations for the biennial period gives the amounts available for each department for each specific purpose as provided in the Code or by the Thirty-seventh General Assembly for the biennium ending June 30, 1921. The authority for each appropriation is indicated.

The next column gives the expenditures actually made for each department, divided as to specific purposes, so far as possible, for the first year or the biennial period under this appropriation. The succeeding column gives that which will be expended or which is available for use in the second year of the period. Where there has been expenditure and where further expenditures are possible, but no specific sum indicated as an appropriation, it is because of a continuing or indefinite appropriation dependent entirely on the needs of the department for this particular item.

Under the head of estimated expenditures is given two columns in which is set forth the estimate of the department or office or board as to that which is needed or will be used or should be made available for the specific items indicated for the biennial period which the Thirty-ninth General Assembly will provide for. It will be borne in mind that these estimates are from the heads of departments made to the Governor or recommended to the legislature. They are given to indicate what the department estimates as actually necessary for the work to be done.

It will be noted that the statement of appropriations and expenditures given by these departments does not in all cases correspond to the books of the State Auditor or State Treasurer, but the discrepancies are of minor importance and indicate only a difference in keeping the accounts.

The increase in compensation indicated for the Adjutant General and the Assistant Adjutant General is felt to be justified, not only because of the great increase in the volume of work, and additional responsibility placed on this department, but also by the fact that living expenses have increased beyond the compensation allowed, and for which no consideration has been given in the past two years.

The increase in compensation indicated for the Q. M. and U. S. Property and Disbursing Officer cannot be considered as an increase, but it is so indicated as to comply with the provisions of the Iowa Code in reference to a State employee drawing two salaries. This officer is to be paid by the State only such part of the salary asked as is not paid by the Federal Government, but he cannot draw over \$2,700 from the State.

Department estimates for next biennium are not entered in reference to general office employees, owing to the fact that they come under and are paid from the regular appropriation for the support of the National Guard, and consequently should be under the direct control of the Governor as Commander-in-Chief, thus permitting the employment of efficient help as needed by the department to keep pace with the increase of troops organized under the requirements of Federal law.

The placing the National Guard under the provisions of Chapter 272, Laws of the 38th G. A., creates a condition which makes impossible the efficient administration and conduct of this department, in that the employment of sufficient and efficient help is curtailed and cannot keep pace with the increase of troops organized under the requirements of the Federal law. It is recommended that this department be restored to its original status provided for in the Military Code of Iowa.

The items of expenses include all activities of the Adjutant General's Department, including the salary of the Adjutant General, Assistant Adjutant General and Record Clerk, which in the past has not been paid from the regular appropriation for the support of the National Guard.

Note.—The appropriation of \$20,000 for the biennial period ending June 30, 1921, was an estimate, its only basis being similar but not so extensive work for the old Iowa War Roster Commission, which compiled similar records of the Civil, Spanish-American war, etc. There has been delay in the work, caused by the failure of the Adjutant General of the Army to deliver individual soldier records promptly as directed by the Congress. Attention is invited to the expenditure for moving pictures of Iowa soldiers, directed by Chapter 331, Acts of the 38th G. A., the second largest item, and printing of form cards, the third largest item, which have been completed and will not have to be met again. The Commission will have on hand June 30, 1921, about \$5,000.

ATTORNEY GENERAL.

During the past two years this department has experienced many difficulties in securing and retaining competent and efficient employees. This is due to the fact that other departments in the State House and business houses in the city have been paying from \$25 to \$30 a month more for persons doing clerical work and stenographers than we are allowed to pay under the present wage schedule for this department. We feel that we should, at least, be allowed to pay our employees salaries equal to those paid elsewhere for the same services.

BOARD OF PAROLE.

Secretary's salary -----	Code S. 5718-a25 Ch. 272-38G. A. S. 5718-a25	\$ 5,400.00	\$ 2,700.00	\$ 2,700.00	\$ 2,700	\$ 2,700

		\$ 5,400.00	\$ 27,759.32	\$ 2,700.00	\$ 32,700	\$ 32,700

Included in the total of expenses of assistants is the allowance of \$200 per annum made by the Committee on Retrenchment and Reform as additional compensation to the File Clerk, whose salary is \$1,300. The important duty performed by that assistant merits a salary of \$1,800 per annum, and our estimate covers that increase. An additional parole agent is needed to keep proper supervision of men on parole, and the increase in estimate above made is to cover that necessary expenditure also.

The office of custodian has been filled by the Adjutant General, but it is not a satisfactory arrangement from the standpoint of efficiency. His regular duties as Adjutant General have increased to such an extent it is impossible for him to give the time and attention to proper supervision of the State property, so essential for its care and maintenance. It is recommended that a custodian be provided for as indicated hereon, or the administration of this department be transferred to the Executive Council. The assistant carpenter, painter and additional yard men are absolutely necessary to care for the great amount of work necessary to the maintenance of the buildings and grounds.

I have found it difficult to retain competent persons in the different departments of this office at the salary provided. The personnel of my force has entirely changed since the Thirty-eighth General Assembly adjourned. Better wages are paid in other employment. The work of this office is largely technical and it is a loss to the State to have frequent changes.

The 38th General Assembly allowed us an appropriation of \$38,000, which, at that time, the former Chief Oil Inspector, Mr. J. P. Risley, thought would be adequate to meet our expenses. This sum has proven insufficient for our needs as will be shown by the following statement:

Net receipts, year 1919-20.....	\$57,389.95	
Expenses, year 1919-20.....	42,839.85	
Net balance	\$14,550.10	
Total appropriation, 38th G. A.....		\$38,000.00
Total expense, year 1919-20.....		42,839.85
Deficit at end of year.....		\$ 4,839.85

On March 9, 1920, we petitioned the Retrenchment and Reform Committee for (a) a blanket increase in salaries of \$25 per month each; (b) the employment of a stenographer at \$100 per month; (c) an emergency increased appropriation of \$4,000.

On March 16, 1920, the Retrenchment and Reform Committee by resolution of vote granted our petition.

Under the statement as herein made the showing of our biennial report and the following arguments and reasons advanced, we earnestly petition your recommendation to the coming legislature for—

- (a) An emergency appropriation of \$17,000.
- (b) An annual appropriation of \$55,000.

WHY INCREASED SALARIES WERE REQUESTED. Our business has increased to such large proportions within the past year that it necessitates our men employing all their time in the discharge of their duties, and in many instances their time is crowded, to the utmost, and we are having a great deal of difficulty to keep good men on the force on account of the wages being inadequate to meet the high cost of living. Since the organization of the Oil Inspection Department, there has been no increase in the salaries of the inspectors, and, as we have been at all times a self-sustaining department, we feel justified in asking your support and an increased appropriation.

The Legislative body has been laboring under the impression that the inspectors of this department, being old soldiers with pensions, were receiving ample compensation from the state, but we are now at a place wherein approximately half our men are young soldiers of the World War who rely upon their salaries as their only means of support. In view of the fact that these inspectors are placed in positions of honor and trust (each furnishing a bond of \$5,000), we think they are entitled to wages equivalent to those in less responsible positions who are employed by the State of Iowa.

Owing to the growth of our department, we were compelled to ask for additional help in the office. Our clerk, for the past five years, has had to assume the entire detail work of the office and perform the duties of file clerk, stenographer, clerk and bookkeeper, which is far too strenuous for any one person. You will readily see the necessity of this additional help.

*Owing to a deputy not having qualified, \$152.86 in salary was unpaid.

†Fees are paid to chiefs of fire departments, mayors and township clerks for reporting fires, and to township clerks mileage is paid.

The balance remaining in "general" appropriation must be charged off at end of fiscal year. The balance therein June 30, 1920, was \$1.77.

The "contingent" fund balance is not charged off until end of biennial year but the balance in this fund June 30, 1920, was \$238.48.

In presenting my estimate for appropriation for the next biennial period I desire to call your attention to the needs of this department.

In the first place the salaries are inadequate for the services rendered.

The fire marshal not only has charge of the office but does both investigation and inspection work in order to keep the work up.

My deputy has had more than seven years of experience and is a valuable asset to the office.

The first assistant is a man of many years' experience as an investigator.

The second assistant is not only an experienced man as an electrician but as an investigator and inspector.

My secretary is a most capable person and does all of the book work and stenographic work, and is capable of earning more than the amount asked for.

As a matter of fact, the efficiency of the entire office force is one hundred per cent and they should be paid a reasonable salary for the services rendered.

It is also necessary to increase the amount for traveling expense and subsistence in order to keep the men in the field making inspections in addition to the investigation of suspicious fires.

The contingent fund asked for is very small for the purposes intended.

The mileage of ten cents per mile, one way, for township clerks is entirely too small. This should be increased to at least ten cents per mile for every mile actually traveled in investigating rural fires, and from the complaints received from the township clerks there will no doubt be an effort made to have the mileage fee increased, which, if allowed, will increase the mileage fees about \$350 per year.

It is furthermore requested that in all cases the head of the department shall not be obliged to pay the high salary to new help, but shall place such help on a graduated scale commensurate with ability and length of service, making the salaries asked for as a maximum and the salaries now effective as a minimum.

The records of this office will show for themselves that we are doing more work with less expense than any other state in the Union.

During the past year we have had to have help a number of times from the Retrenchment and Reform Committee. We found it impossible to replace those who left at the salary which we were permitted to pay.

The number of Consolidated Schools has almost doubled during the past year, and it makes it very necessary to have more funds in order to be of any benefit whatever to these schools.

The State Aid for Standard Schools will be consumed at the end of the present year. The estimate for the Mining Camp Schools has been made after a conference with both the operators and the union organization.

I suggest the following: State School Architect, Psychologist and Health Supervisor, Statistician and Editor. Last year we spent several millions for new buildings, and thousands of dollars might have been saved for the State, had there been someone who could help make plans for the work.

I most heartily recommend an appropriation of \$50,000 to cover the administration of the office. I can see no reason why the details of expense should be fixed in this office any more than they are in any of the state institutions.

This budget does not include the budget for vocational education.

*Expended in year 1919.

†Expended in year 1920.

During the year 1919 there was paid out of the appropriation for incidental expenses of the Supreme Court, under the direction of the Chief Justice, \$1,044.85, and out of such appropriation there has been paid, in 1920 up to this time, \$673.55. This leaves \$526.45 yet available.

Many of the law books made use of by the judges are out of repair and need repairing, and an additional amount should be appropriated to enable the court to have these valuable books put in order. For this reason we are recommending that the appropriation for incidental expenses be increased to \$2,000 per annum, or \$4,000 for the next biennial period. Of course, any part of this appropriation not economically used will revert to the treasurer.

The bailiff's salary was but \$1,500 per year during the two years last past. This should be increased to at least \$1,800 or \$2,000 per annum. The stenographers for the judges were not all paid \$125 a month during the entire year of 1919, but have been paid that amount during the latter part of 1919 and in 1920. The appropriation for such stenographers should continue as heretofore, that is, for the seven clerks \$10,500 a year, at the lowest, and the legislature might well increase the allowance to \$150 per month and leave the increase of salary optional to the judges. This would make \$12,600 per annum.

*The additional \$300,000 asked for was decided on at a conference of the Commission of Animal Health, live stock raisers and the officials of cities and towns who are interested in the eradication of tuberculosis in the State of Iowa, due to the fact that the present appropriation of \$100,000 is inadequate to carry on the work as rapidly as the citizens demand. At the present time we are compelled to slow up in the work on account of shortage of funds. In taking over the office of State Veterinarian July 1, 1920, I was confronted with these conditions; there were unpaid claims by owners who had animals condemned and slaughtered on account of being affected with tuberculosis amounting to \$29,736.32, also bills of assistant state veterinarians for per diem and expense amounting to \$3,077.57 together with minor accounts amounting to \$535.18, all of which should have been paid out of the appropriation for the fiscal year 1919-1920, making a total of \$33,349.07. This amount naturally reduced the appropriation for the fiscal year 1920-1921.

APPROPRIATIONS.—(a) General Maintenance Fund. The support fund of the Highway Commission as provided in Section 45, Chapter 237, Acts of the 38th General Assembly, consists of 2½% of the licenses collected for registering motor vehicles with the provision that the unexpended balance remaining at the end of the biennial period shall be placed to the credit of the Primary Road Fund and shall be prorated among the several counties as are other moneys accruing to said fund.

The following is a statement showing the income from the above-named source during the past four years, the receipts for the fiscal year ending June 30, 1920, being set out by months. In noting these amounts it should be born in mind that the percentage of license fees set aside for the maintenance of the Highway Commission prior to January 1, 1920, was 5% and that after said date the amount so set aside was 2½%.

(b) Federal Aid Engineering Fund. Section 42, Chapter 237, Acts of the 38th General Assembly, charges the State Highway Commission with carrying out the provisions of said act and provides for defraying the expense of such service, as follows:

The Treasurer of State is directed to set aside from the Primary Road Fund (motor vehicle licenses) such sum as the Highway Commission shall estimate is needed to defray the cost of preparing plans and specifications for federal aid road projects during the ensuing year. The sum thus set aside shall be known as the Federal Aid Engineering Fund.

The Highway Commission shall pay the expense of preparing such plans and specifications from its regular Maintenance Fund, but at the end of each month an itemized statement of such expenses shall be filed with the Auditor of State who shall draw a warrant transferring the amount of said statement from the Federal Aid Engineering Fund to the general Maintenance Fund of the Highway Commission.

Estimated Requirements for Biennial Period 1921-1923.

A detailed estimate of expenditures for the next biennial period is attached hereto. This statement shows separately the expense attached to the administering of the duties of the State Highway Commission under the provisions of Section 1571-m32 S. S. and that attached to the administering of the Federal Aid Law as provided in Chapter 249, Acts of the 38th General Assembly, and Chapter 237, Acts of the 38th General Assembly.

As the progress of road construction outlined for the next several years is greater than that which has been handled during the last year, some increase in the estimated cost of carrying on the work has been shown.

REPORT FROM STATE BOARD OF CONTROL AND STATE BOARD OF EDUCATION

The State Board of Control and State Board of Education submitted the following reports:

DES MOINES, IOWA, JANUARY 11, 1921.

To the Senate and the House of Representatives of the Thirty-ninth General Assembly:

Complying with the provisions of Section 5, Chapter 366, Session Laws of the Thirty-eighth General Assembly, "Disposition of Property, Etc.," owned by the state and known as the State Hospital for Inebriates, located at Knoxville, Iowa, the State Board of Education and the Board of Control of State Institutions met in joint conference and, after mature deliberation and discussion of the subject, decided that the buildings of said state institution and the land upon which same are erected be leased to the United States Public Health Service to be used by the federal government as a hospital for the care and treatment of soldiers of the world war.

Thereupon the Board of Control of State Institutions entered into a lease with the United States Public Health Service, said lease running to July 1, 1924. We ask that said lease be confirmed by your Honorable Body.

Since entering into the before-mentioned contract the United States government has expressed a desire to purchase the property.

We recommend that the State Executive Council be authorized to sell said lands and buildings, and that the monies derived from such sale be placed to the credit of the general fund of the state.

Respectfully submitted,

Inaugural Address—Governor N. E. Kendall.

GOVERNOR'S INAUGURAL ADDRESS

Members of the Senate and House of the Thirty-ninth General Assembly:

It is impossible for me adequately to acknowledge my indebtedness to the generous people of Iowa for the great distinction they have conferred upon me. I am profoundly impressed by the tremendous obligations which I assume at this hour, and in all humility of spirit I look for light and leading to the great Governor of the Universe.

I cannot be indifferent to the fact that I am inducted to this station after a political contest of unexampled asperity, in which personal antagonism and partisan rancor were acutely aroused. This was regrettable, of course, but a tranquil philosophy enables one to forgive the aim and to forget the wound. As I undertake the exacting labors of this exalted office not a single sentiment of animosity actuates me toward anybody who may have assailed me in the campaign just concluded. Is it not permissible, therefore, that I invite those who have opposed me to unite with those who have sustained me in magnanimous rivalry to fortify the welfare of our beloved commonwealth, to whose fortunes we are all so devotedly attached? Iowa is a grand State, and deserves to be grandly governed. Her citizenship is the most enlightened, the most patriotic, the most progressive, beneath the stars and stripes. It is fairly entitled to every blessing that can be attained through the manifold agencies of organized society. I enter upon the weighty responsibilities of the Governorship without pledge or promise of any description to any individual or group of individuals upon any subject whatsoever. I confess allegiance only to my solemn covenant with the whole electorate to render in return

for the preferment bestowed upon me the uttermost that in me lies toward an honest, efficient and economical administration of their affairs. I know where attention will be focused in the months immediately to come, and I expect to be subjected to a high degree of accountability. I shall abide the severest scrutiny of my public conduct, for I shall be merely the temporary servant of the sovereign people, amenable to them for every official act. I shall accept with hospitality always their advice and counsel, for I am deeply persuaded that no man has been sufficiently endowed by the Creator to perform alone the difficult duties of this position. Therefore, the Executive office will, while I occupy it, belong to the men and women of Iowa, irrespective of race, creed or color. With an assured reliance upon the beneficent favor of Almighty God, I invoke the helpful co-operation of my fellow citizens.

It is not the legitimate function of an inaugural address, as I conceive its true character, to indicate a definite legislative program to be pursued by the General Assembly. Without offending the occasion, however, I may present some general observations, to be followed later by specific recommendations as their propriety may be manifest.

This Legislature has inherited from its predecessor the revision of the code—a task of immense magnitude and incalculable importance which cannot longer be deferred. The way to revise the code is to revise it, as expeditiously as may be, with a maximum of care, at a minimum of cost. The work cannot be unduly hurried, but it should be entered upon at as early a date as practicable, and prosecuted with all possible diligence to its early consummation. It is doubtful if it can be entirely accomplished within the limits usually assigned to a regular session, but such progress may be made that a subsequent session, if necessary to complete it, will be of comparatively brief duration. When it is remembered that there is involved not merely the verification of the compiled code with its 9,589 sections, but a most searching inspection of every phrase embodied in the 253 bills submitted by the code commission, the labor entailed upon you may be partially appreciated. The procedure now in contemplation has been formulated by your committee after the maturest deliberation by those best qualified to consider the subject, and I believe it is the most feasible one that can be adopted in the circumstances.

You as the General Assembly and I as the Executive will grievously disappoint the just expectations of the State if we fail to institute the most rigid economy in all expenditures of every character. The people are staggering under burdens almost too oppressive for them to support, and while they are compelled to practice a judicious frugality themselves, they are in no mood to tolerate a prodigal extravagance in those they have selected to represent them. The period of our convening is a critical one, in which retrenchment rather than expansion must be our unvarying policy. We have not yet entirely sobered from the intoxication engendered by the war, during which feverish time we became accustomed to calculate in billions, and it is humiliating to condescend to compute in thou-

sands. We shall be solicited for appropriations aggregating a stupendous total and every asking must be sharply investigated. Concerning each appropriation requested at our hands certain fundamental tests may well be applied: (1) Is it necessary that it be granted at all? (2) Is it necessary that it be granted to this extent? And (3) Is it necessary that it be granted now? If, without impairment of the public interest, it can be denied altogether, or diminished in amount, or postponed to a more prosperous season, the alternative should be embraced as the case may be. We are the disbursers of the funds of the State, and it has no revenues whatever except those extracted directly or indirectly from the pockets of the taxpayers. We must not allow the current levy to be increased while the cost of everything the people have to buy remains abnormal, and the price of everything they have to sell continues to decline. We are the trustees of a sacred trust, and we owe it to the voters whose agents we are to transact the business to which they have commissioned us as carefully and as prudently as we would transact our own.

I believe that some reforms can be initiated whereby the expenses of government may be materially reduced, and I intend to suggest one or two topics for consideration.

I start with the various boards, bureaus and commissions which have been created by law, and in respect of them I have to say that in my judgment they are altogether more numerous than is warranted by good administration. They have been created from time to time as in recent years the activities of the State have multiplied, and because those activities have not been properly systematized and co-ordinated. The result, as might have been apprehended, is overlapping of duties, duplication of powers, confusion of authority, and the waste which unavoidably accompanies such disorder. My study of conditions has confirmed me in the opinion that some of these agencies could be suitably consolidated with others, and thereby a saving effected of several hundred thousand dollars annually. I enjoin upon the General Assembly a thorough and complete analysis, either by itself or through a competent committee, of the State's revenues and disbursements; of the departmental organization now existing; and of all matters incident to the fiscal management of the commonwealth, to the end that a more improved business system may be introduced into the administration of our financial affairs. In the meantime I offer the following for your earnest reflection:

1. The reorganization of the Board of Agriculture and the enlargement of its functions to include those now exercised by:

The Iowa State Poultry Association
The Horticultural Society
The Weather and Crop Service
The State Apiarist
The Commission of Animal Health
The State Entomologist

The State Dairy Association
 The Beef Cattle Breeders' Association
 The State Veterinarian
 The Corn and Small Grain Producers' Association.

2. The reorganization of the State Board of Health and the enlargement of its functions to include those now exercised by:

The State Food and Dairy Commission
 The Commission of Pharmacy
 The State Oil Inspector
 The State Board of Dental Examiners
 The State Mine Inspectors
 The State Board of Optometry Examiners
 The State Fire Marshal
 The State Boat Inspectors

3. The reorganization of the State Library and the enlargement of its functions to include those now exercised by:

The State Historical Department
 The State Library
 The Library Commission
 The Bureau of Public Archives
 The Academy of Sciences
 The State Conservation Commission

4. The reorganization of the Board of Control and the enlargement of its functions to include those now exercised by:

The Board of Parole.

5. The revision of chapter I, title XXXIV of the compiled code in such fashion that the designation of special officers as authorized by section 9055 and 9059 shall be made exclusively by the attorney general, upon whom is devolved the primary duty of law enforcement.

It is altogether probable that some of the consolidations I have indicated may not be the most desirable that can be achieved, and that others more feasible may be devised. I dismiss the discussion with the reminder that on April 25, 1914, the committee on retrenchment and reform filed with the secretary of State a "consolidated report on the investigation of existing procedure incident to the transaction of the business of the State." It is an elaborate treatise with somewhat extended recommendations and it is available for examination by the Legislature. The subject is one of infinite complexity, but we must grapple with it fearlessly and without delay. It is incumbent upon us to answer the imperative demand for a scientific systematization of the business of the State, for a reduction in the number of those managing its activities, and for a curtailment of the expenses incident to its operations.

I advert next to the legislative department itself. From my observation and experience in the past I am perfectly convinced that as compared to previous General Assemblies, at least thirty-five thousand dollars can be saved at this session if it shall be determined to engage only such assistants to attend upon the Senate and House as are absolutely essential to their efficient operation. The situation respecting the matter is thoroughly understood, and the mischief inherent in it cannot be extenuated. At the hazard of incurring the displeasure of some who hope through your indulgence to arrange comfortable connections with the treasury, I venture the assertion that the employment of a sizable army of superfluous committee clerks, stenographers, messengers, and janitors, is a scandalous squandering of the public money which should not be further countenanced. This appeal may be ridiculed in some quarters as attacking an abuse negligible because insignificant, but I know that the consistent application of sensible business principles to the machinery of legislation will encounter the unqualified sanction of the folks at home. The ancient motto was: "He serves his party best, who serves his country best." The instant maxim is: "He serves his State best, who saves her people most."

The law authorizing the exemption of property from taxation is, in my opinion, too liberal in its provisions, and in many instances operates to relieve from the expenses of government those best able to bear them. A searching examination of the subject should be instituted at once, to the end that all shall be required fairly to contribute to the burdens imposed upon the entire community. An illustration of the inequity which now exists may be discovered in the statute which recites:

"That in determining the assessed value of bank stock the amount of obligations issued by the United States Government . . . actually owned by a bank or trust company, shall be deducted."

This exemption has been the subject of general discussion throughout the State during the past year, and its injustice is almost uniformly conceded. I believe it to be entirely indefensible in morals, and I trust that its repeal may be speedily effected by the General Assembly. In this connection I submit that if any property heretofore liable to taxation is to be allowed immunity from assessment, the modest dwelling house of the man of limited resources should be favored as an encouragement to the more universal ownership of family homesteads in the State. While I am on this subject I may say that our laws governing the levy and collection of taxes are archaic and unworkable. They ought to be rewritten and modernized, and one forward step in that direction would be to declare all property assessable at its actual value. The revision should be radical enough and far reaching enough that equality of the sacrifice involved in the payment of taxes may be reasonably approximated.

The present law governing corporations organized for pecuniary profit should be visited with drastic amendments. The past three years in Iowa have witnessed a saturnalia of stock jobbery which has plundered

the people and disgraced the State. It perplexes the ordinary imagination to comprehend the magnitude of the spoliation which has been brazenly practiced upon unsuspecting investors. The vast sums which have been enticed from confiding citizens through various schemes represented to supply an industrial necessity and guaranteed to produce fabulous dividends, are appalling. In some instances the corporations fostered were conceived for legitimate purposes under reputable management, and almost without exception they have succeeded. But more often they were concocted not to establish industries or to benefit stockholders, but to enrich the conscienceless promotor who frequently divided the loot with some local abettor who furnished respectability for the vicious enterprise. By the enactment of the Peterson law we were a pioneer in prohibiting the issuance of stock except for cash or its equivalent; but expert cunning is ever ingenious and as we omitted to appoint a maximum amount which might be absorbed in promotion outlay, our Staté has become a rendezvous for every crooked exploiter in the Mississippi Valley. In any remedial legislation which may be contemplated the difficulty will be to abolish the fraudulent traffic of the professional swindler without interfering with untrammelled opportunity for meritorious development. I believe we can accomplish substantial reform by extending our statute to cover domestic as well as foreign corporations, and by

- (1) Requiring every corporation and individual stock salesman to procure a license from the secretary of State.
- (2) Exacting an ample bond from corporation and salesman alike, to be available to any injured party for civil recoupment.
- (3) Denouncing false representations as a felony, punishable by imprisonment in the penitentiary.
- (4) Providing that every note taken for stock or bonds shall recite the fact plainly on its face.
- (5) Limiting to a settled per cent the amount that may be diverted to expense of promotion.

Other expedient amendments will doubtless occur to you as the territory to be examined is thoughtfully surveyed.

The authority now enjoyed by the insurance department over organizations nominally under its jurisdiction is so limited as to be almost farcical. It may approve the articles of incorporation of insurance societies when they have been certified by the attorney general as formally prepared, but thereafter it has no further control over the company until after its stock is negotiated, its assets converted into securities for deposit, and application made for the statutory license to transact business. This supervision is wholly incompetent. The powers of the department should be augmented to constitute complete authority over the company from its inception throughout its entire career: with discretion to restrict promotion expenses, condemn improper promotion literature, and exclude

companies from the State unless organized and conducted in compliance with its regulations. The whole field of insurance law should be closely explored, and such changes made as will more completely protect the people of the State both in investment and in indemnity.

The act of congress of June 2, 1920, providing for the rehabilitation of persons disabled in productive industry, their return to civil employment, and allotting federal funds in amounts equal to those appropriated for the purpose by the respective States, should have our immediate attention. No phase of vocational education is more directly occupied with the conservation of social and individual welfare. Vocational rehabilitation embraces all the ideals of vocational education in general, which are summarized in the one word "efficiency." Some definite action toward the rehabilitation of injured persons has been entered upon in twenty-four States, and seventeen have already availed of the legislation enacted by Congress. My predecessor has accepted the law provisionally, as contemplated in the act, and the State board of vocational education has proceeded properly to the preliminaries necessary to avail of the money tendered by the government for the fiscal period of 1920-1921. Everything has been done that can be done without your action. The money has been certified to the State for this very admirable educational work, and we ought to make it possible to begin the retraining at once of the unfortunates who are to be benefited. Society, through the instrumentality of the State, must make every possible provision for those of its individual members who are handicapped by disability, in order that they may be readjusted to another occupation in which they may be self-respecting and self-supporting citizens rather than the recipients of public or private charity. Such provision for the re-education of injured persons is the most economical form of industrial insurance, and withal so humanitarian in its nature as to evoke the approval of the best conscience of the age. I recommend the subject as one worthy your early action.

The condition of agriculture, our dominant industry and the fountain from which flows our surest prosperity, is at this time a matter of genuine anxiety. We deservedly rank as the leading food-producing state in the Union, the average value of our farm land is greater than elsewhere, and we have a smaller percentage that is untillable. Here is resident the highest type of rural citizenship, and here is evinced the finest sort of rustic life. The intelligence of our farmers, the relatively large farm units, the use of labor-saving machinery, the richness of our soil, and the unflinching sunshine and rainfall, all enable us to obtain prodigious crops both per man and per acre. We are to be felicitated upon these enviable advantages which are peculiar to us over less favored sections of the country. Notwithstanding all this, our farmers in common with those of the Nation are distressed by economic conditions which, if not corrected, will entail widespread agricultural depression from which our industrial and commercial interests cannot hope to escape. Practically all our crops are retailing now at prices far below the actual cost of production. In the case of corn, our staple cereal, the record is that the production cost last year was ninety-five cents per bushel, while the selling

price is now fifty-five cents per bushel. As a consequence, many of our farmers, especially those who rented on a basis of land and crop values prevailing a year ago, are in financial extremities, and not a few of them are confronted with the total loss of their patient accumulations. What can be done to alleviate their unfortunate predicament is a matter for the most earnest consideration. The disagreeable truth must be frankly recognized that their deplorable plight is largely due to the sweep of world-wide forces that are independent of any decree of ours. But we must not ignore the fact that the situation is serious, that our principal industry is jeopardized, and that enlightened self-interest bespeaks our utmost effort to avert the calamity which threatens. The future of our agriculture must be placed upon a securer foundation, so that our people may not again be imperiled by a recurrence of the adverse conditions which now prostrate their occupation.

More than one-half of our land is now cultivated by tenants. The increase in tenancy always has been co-incident with the increase in land values, and it is attended by certain evils which react detrimentally both upon the producing and the consuming public. I believe we should order a most careful inquiry into the tenancy problem with a view of contriving some system which, while doing justice both to landlord and lessee, will conserve insofar as possible the virgin fertility of the soil. Intimately connected with this subject is the proposal for personal credit for tenant farmers. A considerable proportion of them are unable to utilize the most approved methods of grain and live-stock farming because of insufficient working capital. Whether the State should endeavor to provide aid for their relief is open to grave doubt, especially at the present time. But the enactment of such legislation as may be necessary to permit them to form credit associations of their own would be wise as well as useful, and both parties are committed to such action. The unquestioned right of farmers to co-operate for collective bargaining and marketing should be not only freely and promptly granted, but encouraged to its fullest development. It is understood that many co-operative associations in the State have been arbitrarily hampered in securing sites and trackage for elevators, warehouses and stockyards. I believe that common carriers should be required, under proper safeguards, to furnish all such requisites when fair remuneration therefor is proffered.

There will be vigorous insistence for the unconditional abandonment of the State-wide primary. I think it should be denied. The present statute was enacted to rectify abuses which disfigured the caucus system it superseded, and to invest the individual voter with enhanced power in the selection of all his party candidates. The departure was excellent in theory, but experience has disclosed that it is not entirely satisfactory in practice. The criticism most urgently interposed against its retention is that as to many positions to be filled the electors cannot familiarize themselves with the respective qualifications of all those who aspire to nomination, and that particularly with regard to the secondary offices they are compelled to choose almost without information. That there is some

validity in this complaint cannot be controverted, but the objection may be readily obviated by transferring these offices to a convention composed of delegates chosen at the legalized primary. In another respect I believe the law could be improved by requiring a change of party affiliation to be announced at least six months antecedent to the primary. I trust we are all in accord that such modifications should be adopted as will remove the defects which have become apparent, and at the same time secure to the citizen unshackled opportunity to register his personal choice. The principle of the primary should not be surrendered, but the law should be so amended as to render less difficult and more effective the expression of the popular will.

Our election laws, both primary and general, should fix a reasonable limitation upon the amount of money any candidate may expend in the pursuit of a public office. Congress has provided that a congressional expenditure may not exceed the salary of the office for one year, and this standard might well be accepted as a just criterion in Iowa.

As I have remarked, the physical resources of Iowa are inexhaustible, and they prefigure a material prosperity unparalleled in any similar area in the world. In agriculture, in manufacturing, in mining, we have in profusion all the elementary sources of incomputable wealth. But our boys and girls are the most valuable asset of the commonwealth, and their intellectual training as well as moral discipline is the paramount solicitude of our people. In this behalf we have done something in the past, we are doing much in the present, we must do more in the future. Our schools are unequalled anywhere the country round, and the ascendancy they now exemplify must never be forfeited by niggardly parsimony where their vital interests are concerned. Their equipment must be so ample that the best facilities will be furnished, and the salaries must be so adjusted that teaching will become a profitable profession. If we apprehend that the modern methods of instruction are too progressive, perhaps it may be retorted that our prejudices are too reactionary. We must not become so conservative that we decline to look at the new moon out of reverence for the old. We had good schools forty years ago—we have better schools now. We are proud of the educational institutions of Iowa, and we rejoice exceedingly at the flattering results which they annually exhibit at the expiration of each recurring year; we applaud the unselfish consecration of those who so capably administer them; and we celebrate their surpassing service in that wide diffusion of intelligence which enables Iowa to outrank all other states in the literacy of her population. We know that if our schools should be obliterated for a single cycle, happiness would disappear within our borders, and our superb civilization would revert to savage barbarism. From the kindergarten to the university we venerate them all as the last and best bulwarks of our republican democracy, and from the isolated desk in the rural community all along the luminous avenue to the highest seat of classic learning they must be supported with a generosity which shall vindicate their primacy unchallenged. "Of all that is good, Iowa affords the best."

In the colossal war which but yesterday convulsed a continent, 105,000 of the bravest and best of our gallant boys were enrolled. They enlisted from every city, town and hamlet throughout the State, and every profession, business and avocation was represented in the grand army of freedom. The struggle into which they were precipitated was the most enormous in all recorded history. We engaged reluctantly, and only when it was demonstrated that our engagement was indispensable if the civilization of the centuries was to be preserved. The monstrous carnival of criminal outlawry which had paralyzed an impotent world for three years had to be stopped. They went "over there," and it stopped. The adventure was no holiday escapade, but they finished it famously, for they battled for the elimination of despotisms, and the establishment of democracies; for the extirpation of monarchs, and the enfranchisement of men. Let it never be forgotten now and henceforth throughout all the oncoming time that they who *went*, and not we who *stayed*, won the war; they by the hard article of deathless deeds, and not we by soft argument of easy speech. Of course all of us contributed the full measure of our meager abilities, but *they* met the major danger, and *they* wrought the supreme decision; met and wrought with muscles of iron and nerves of steel and hearts of pure gold. Without regard to nationality, without respect to religion, without reference to politics, they went forth to war for us, to war for humanity, to war for all the near and distant generations of the future. They left all, chanced all, in the holiest crusade ever chronicled in the annals of mankind, and they did not furl their flags nor sheathe their swords nor stack their guns until the malignant menace of medieval militarism was utterly eradicated from the earth. And then having rescued the world from the thralldom of tyranny which impeded they modestly discarded the uniform they had rendered immortal and quietly resumed the employments of civil citizenship. Heaven bless them every one, now and evermore! They may be depended upon to safeguard in peace what they wrested from war. Listen, if you please, to the noble and enduring aspirations which animate their hearts, as revealed by their own expression:

"To uphold and defend the constitution of the United States; to maintain law and order; to perpetuate a one hundred per cent Americanism; to combat the autocracy of the classes and of the masses; to promote peace and good will on earth; to transmit to posterity the principles of justice, freedom and democracy."

Those incomparable postulates command the unqualified endorsement of every patriotic American, and in my opinion they will live in the literature of liberty with the Gettysburg Address and the Second Inaugural. Dedicated as these heroic men are to this sublime program, I venture the prophecy that in the distracted time to come they will be an impregnable barrier against all of the insidious forces of communism, anarchy and bolshevism which may challenge the permanency of our national institutions. How shall we requite their inestimable service? We cannot

hope that whatever we may do will even partially liquidate our immeasurable debt to them, but surely it is obligatory upon a grateful people to restore, insofar as is humanly possible, every returned veteran to the favorable status he relinquished when he was summoned to the colors. The least we can do is to compensate him by bonus or otherwise for the economic disadvantages he suffered by reason of his enlistment. The privilege is one primarily belonging to the general government, but congress has accomplished no progress in that direction. Other states are in advance of Iowa in the discharge of this peremptory duty, and we must not be derelict in embarking upon its performance. I commend the subject to the early and sympathetic consideration of the General Assembly.

I earnestly hope that among the earliest measures transmitted to me for approval will be one completely removing any discrimination that may at present encumber the statute against the unrestricted exercise by women of every prerogative now enjoyed by men. A new and notable epoch has opened, and he is without prevision indeed who is unable or unwilling to perceive its salutary significance. The nineteenth amendment to the constitution of the United States has been ratified, and we are all to be fervently congratulated upon the transcendent reform which is thus realized. Justice long delayed has been tardily awarded, and the women of America have been finally admitted to equal suffrage rights with men. From the beginning of authentic history they have ornamented the home, vitalized the school, and sanctified the church. We entertain implicit confidence that their refining influence exerted at the primary, the caucus, and the convention, will elevate our politics to a loftier level than any it has heretofore attained: and where is the skeptic who can doubt that the feminine conscience supplementing the masculine judgment will accelerate the triumph of every righteous cause. We welcome our sisters not only to unembarrassed fellowship in party organization, but to unabridged participation in public affairs. Beyond all peradventure their enthusiasm, their fidelity, and their idealism, will impart a stimulating incitement toward better and higher and purer government. In the administration which is inaugurated today the unrivaled women of Iowa will be accorded abundant recognition by appointment to positions of importance and responsibility.

We are here to serve all the people—the white and the black, the high and the low, the rich and the poor, the strong and the weak, the great and the humble, the renowned and the obscure—all that mighty multitude which is the constituency of a commonwealth. They are the State which is the object of our undivided affection.

“You ask what land we love the best?
Iowa, 'tis Iowa.

The fairest land in all the west,
Iowa, 'tis Iowa.”

The Senate returned to the Senate chamber and resumed its sitting, president pro-tempore Byron W. Newberry presiding.

Senator Wichman moved that a committee of three be appointed to escort lieutenant governor Hammill to the chair. Carried.

The president pro-tempore appointed as such committee Senators Wichman, Thurston and White.

President pro-tempore Newberry presented lieutenant governor Hammill to the Senate. Upon assuming the chair president Hammill addressed the Senate as follows:

SENATORS—I am not going to make an extended speech this afternoon. Before this session closes no doubt you will have heard from me as much as you care to hear; but I want to take this opportunity of stating to you gentlemen that I have gone into the question of the appointment of committees with an absolute spirit of fairness. I am endeavoring to find out the matters in which you men are interested, the subjects with which you are conversant, and the committees on which you can render the best service; as I have only one thought in mind and that is to so organize the Senate that the best interests of the state of Iowa will be advanced in each detail. We have a number of problems that are going to come before the Senate that will make it a busy session. We have not only the regular session, but we have added to that the code revision, and in addition to that fact we must provide for a constitutional convention; and it seems to me that one of the most important things that we are going to be compelled to pass upon and to arrange for is this constitutional convention. Now I do not expect to be without error. I appreciate the fact that we all are human, but I want to be fair and do justice to all. I thank you.

REPORT OF THE RETRENCHMENT AND REFORM COMMITTEE

The following report was submitted by the retrenchment and reform committee:

To the Senate and House of Representatives of the Thirty-ninth General Assembly:

Your committee on retrenchment and reform beg leave to submit the following report:

Pursuant to the report of this committee to the Thirty-eighth General Assembly your committee prepared a bill along the line of the recommendations in regard to the collateral inheritance tax law, and requiring administration of estates or some judicial proceeding to exempt them from administration, but the legislature did not enact the same into law.

Your committee also prepared an automobile license tax law, involving principles referred to in the former report of this committee, but the bill was not introduced by this committee as the members failed to agree upon the same, but was presented by the ways and means committee of the Senate and passed by the Senate. It was not agreed to by the House, and was much changed by the conference committee, so that there was left out of the law, four important provisions as formerly recommended by this committee.

1. Permanent license plates.
2. License tax payable in one year from the time of first registration, instead of making the license tax on all cars due and payable at the same time.
3. The transmission of the funds from the counties where paid to the state treasury, resulting in an immense deposit of state money in Des Moines banks instead of the banks of the respective counties.
4. The use of the tax warrant to follow up the collection of unpaid taxes.

The committee has refused to authorize your chairman to make any recommendation in the matter of the automobile tax law, as no action has been taken by your committee since the beginning of the Thirty-eighth General Assembly on this important matter.

Your committee held many meetings during the session of the Thirty-eighth General Assembly and has held meetings on the 13th and 14th of June and the 23d, 24th and 25th of June; on the 8th, 9th, 10th and 11th of July; on the 16th and 17th of December, all in the year 1919, and held meetings on March 16th and 17th, April 15th and 16th, June 25th, October 7th in the year 1920, and its last meeting on January 8, 1921.

The committee had a long hearing on the Panama-Pacific International Exposition investigation, which necessitated some of the numerous meet-

ings in 1919 and it had two appeals from the superintendent of banking, in which hearing before the committee was granted, which occupied the attention of the committee at some of the other meetings above reported. The increase of salaries and wages paid in all industrial and business lines, attracted many of the employees of the state into other lines of employment and made it impossible for the heads of departments to retain the necessary state employees in their departments, and made it absolutely necessary for this committee to change the compensation from time to time, or seriously handicap the work of the state in its various departments, particularly at the state house. The adjustment of salaries and compensaion of employees took a great deal of the time of the committee and the members of the committee gave it their very careful attention and endeavored to handle the matter in a business-like way for the best interests of the state and with a view to saving as much as possible.

A detailed report of all expenditures made on order of your committee, including the amounts paid to the various members for their expense in attending committee meetings, is attached hereto and marked Appendix A.

Pursuant to the recommendation made by your committee at the last General Assembly that the retrenchment and reform committee prepare a budget of all salaries for officers and employoes of the state excepting the institutions under the board of control and the board of education, your committee obtained a report from all the officers of the state and their departments, so as to prepare the budget as recommended. It also thoroughly examined the reports of the various departments to the executive council, as checked by the state accountant, and returned them to the accountant with its recommendations. A new committee, however, was appointed in the Senate, known as departmental affairs. This committee, with a similar committee in the House, conferred together and took over the work of preparing the budget of salaries recommended by the retrenchment and reform committee. These two committees were not joint committees and had no experience, except as its membership was on other committees, in dealing with the salary situation, and had nothing to do with the previous fixing of salaries, or of the consideration of the relative salaries, that matter having come under the work of this committee. The two committees, thus working together, were not a joint committee and were not intended to be a permanent body, as is provided by statute for this committee and the two committees could not know of the needs with respect to salaries that was derived from the experience of his committee. This committee was, therefore, called upon to make many changes in adjusting the various salaries and found many discrepancies in the salaries as fixed.

It is provided by law, that the retrenchment and reform committee shall report to the General Assembly a joint resolution, fixing the number of employees and the salary of each for the several offices, boards, commissions and departments for the ensuing biennial period, and rec-

commend such appropriations and legislation as shall promote public interest and an efficient and economical administration of the affairs of the state.

The committee on departmental affairs, in violation of this statute, took over this work and prepared Senate File 541, which is chapter 272 of the acts of the 38th General Assembly. The chairman of your committee, not desiring to have any conflict in the work in the General Assembly, and finding that the other committee were taking over the work of this committee, did not interfere with the same, but handed in his resignation as chairman of the committee on retrenchment and reform to the lieutenant governor, which was not accepted and your chairman continued with the committee and acquiesced in the work of the other committees.

The present chairman of your committee has finished his term of office in the Senate and is not further personally interested but here unqualifiedly expresses his opinion that in the matter of reporting the act and resolution fixing the number of employees and the salary of each, should be left to the continuous joint committee of the legislature, some of the members of which are continued from one session to another of the legislature, and this committee being the only standing joint committee of the legislature provided by statute, it is the committee that should handle this matter and the law should not continue to be violated by allowing other committees to prepare this salary budget.

At the last meeting of this committee, held on the 8th of January, 1921, the following resolution was adopted:

That it is the sense of this committee that the salaries of all janitors, clerks and employees of every department of the state of Iowa, including the motor vehicle department, the banking department, the insurance department, the state highway commission, excepting the state educational institutions and those institutions under the board of control, be fixed by the same body, and that this suggestion be contained in the report of this committee and be in the form of a recommendation by this committee.

In a former report of this committee found on page 150 of the Senate Journal of January 22d, this committee recommended that all salaries of all state officials and employees at the state house at Des Moines, and including all employees residing or working elsewhere, but directly under the department of the state at Des Moines, be presented by the retrenchment and reform committee in a budget at each session of the legislature and the legislature by resolution, fix the salaries for the succeeding biennium.

The committee again makes the recommendation contained in its former report and as expressed in the resolution above referred to.

Under the provisions of chapter 236 of the acts of the Thirty-eighth General Assembly this committee was appointed as an appellate body to which appeals from the action of the superintendent of banking on applications for certificate of authority to do banking business might be taken. Two such appeals were entertained by your committee. One of these

was taken on the petition of A. R. Crowley, for the organization of the Farmers' and Merchants' Savings Bank of Unionville, Iowa, and hearing had on the 14th and 23d days of June, 1919, and the decision of the superintendent of banking, denying the authority, was sustained.

The other appeal was taken on the petition of John Greteman for the establishment of the Citizens State Bank of West Union, Iowa, and hearing was had thereon on the 16th day of March and the decision of the superintendent of banking, denying the application, was reversed.

Your committee reported to the last General Assembly its action in regard to the investigations of the acts of the Panama-Pacific International Exposition commission and set forth in appendix "A," a resolution adopted by the committee, recommending that the state executive council further investigate the accounts of the commission and make an accounting and report of the funds drawn and expended by said commission, so far as the same had not been fully audited. A copy of that resolution was also transmitted to the executive council. On the 7th of April, 1919, Senator Pitt called the attention of the Senate to certain charges made by the Iowa Homestead, regarding the accounts of the commission and acts of its secretary, which communication appears on page 660 of the journal of the Senate for April 7, 1919. A special committee of the Senate was appointed to examine into the charges and make report. On the 19th day of April, 1919, the committee reported and the report of the committee was adopted, referring all matters connected with the investigation of the expenditure of funds by the Panama-Pacific Exposition back to this committee.

On the 16th of April, 1919, a concurrent resolution was offered in the House, which appears on page 2041 of the Journal and which was adopted by both houses of the General Assembly. This concurrent resolution directed this committee to publicly investigate the entire acts of the Panama-Pacific Exposition commission and all charges connected therewith and make a public report within ninety days after the passage of the resolution.

Pursuant to said concurrent resolution and direction of the Senate, your committee on the 13th of June, 1919, arranged for a public hearing, as directed in the said resolution. Mr. James M. Pierce of the Iowa Homestead was subpoenaed, together with all persons demanded by him or by the Exposition commissioners, or Mr. Woodworth Clum, who could testify with reference to the matters to be investigated. Sessions were held on June 13th and 14th and adjournment was taken to June 23d, and sessions of the committee continued on June 23d, 24th, 25th and 26th. Adjournment again was taken until July 8, 1919, and the sessions continued on July 8th, 9th, 10th and 11th, 1919. Opportunity was duly given to all persons to be present at the said hearing, which was held in the state house. The investigation was conducted as a trial in court, the members of the committee hearing the testimony. Each side was represented by attorneys and all material and relevant testimony presented

by either side, was taken. The full proceedings were reported and appear in the minutes of the meetings of this committee on file in the office of the secretary of state. On the 11th of July, at the close of the hearing, your committee made a public finding, a copy of which finding is hereto attached and marked appendix "B."

Your committee was authorized by a resolution introduced by Representative Miller of Boone, on March 31st, as appears on page 1478 of the Journal of the House, to make an investigation of the plan of maintenance and operation of a state printing plant for the production of printing for state purposes, and to report to the next General Assembly their findings and such information and recommendations as will show the advisability of erection of a state printing plant for Iowa.

Pursuant to the said resolution, the chairman of this committee appointed a sub-committee, composed of Messrs. T. P. Harrington, chairman, and Douglas Rogers, and Senators J. M. Wilson and H. C. White. The sub-committee met on November 8, 1920, and took evidence of numerous persons, including the state document editor and his assistant, the secretary of state and heads of some of leading printing and binding plants in the city of Des Moines. This evidence was duly reported and with the exhibits is on file in the office of the secretary of state. Two members of the sub-committee, Senators Wilson and White, also visited the state of Kansas and made a thorough investigation of the work being done by that state in the operation of their state printing plant and made a detailed report of their findings to the sub-committee. The sub-committee made its detailed report to the committee on retrenchment and reform, and this committee adopted a resolution, ordering a report to the General Assembly, embodying the findings contained in the report of the sub-committee.

Your committee, in regard to the matter of a state printing plant, therefore, hereby makes the following recommendations:

FIRST--The printing of the state is not being done in such a way that the total cost can be correctly computed, for the reason that a great deal of the printing is being done independently by various boards and institutions, which work is not being audited by the printing board and, therefore, is not included within the gross amount paid for state printing as shown by the official reports; that small printing plants are being operated at the reformatory at Anamosa and at the state industrial school at Eldora; and at some of the other institutions, particularly some of the educational institutions are having the printing done out of their several funds, which is not being audited by the state printing board.

SECOND--The printing, which passes through the hands of the state printing board, and which includes the larger volume of the state printing for the year 1919 and for a few years prior thereto, was costing approximately \$75,000.00 per year, exclusive of stock, and a fair estimate of the total amount of printing and binding for the state and all its insti-

tutions is \$140,000.00 per annum. For the printing of 1920 the printing board found that it was impossible to award contracts within the maximum provided by law and as shown by the statement of the officials in charge, the bids for such work ranged from 25% to 35% above the maximum provided by law and for that reason very little of the printing for the year 1920 has been in fact done, while for the printing of 1919 the contracts for the work ranged from 10% to 15% below the maximum fixed by law.

THIRD—We have investigated the question as to whether or not it would be feasible to establish a printing plant at one of the state institutions and we have reached the conclusion that this would not be feasible for the following reasons:

1. The major portion of the printing must necessarily come from the capitol at Des Moines and there would be an inconvenience and delay in shipping matter to any of the state institutions and having the same returned and this would be especially inconvenient during the Legislative session and other times when work must be done promptly.

2. The only institution where it has been thought such a plant might be established would be one of the penal institutions and we have reached the conclusion that competent labor cannot be found at such an institution and we are therefore, dismissing from our calculations the thought of establishing such a plant at any of the state institutions, and if a plant were established, it should be at the city of Des Moines, located conveniently to the capitol.

3. As to the advisability of establishing a state printing plant as suggested we wish to submit the following:

From the best authority we can find, it would cost approximately \$175,000.00 to purchase and install the necessary machinery and equipment to do the work, basing our estimate on the maximum amount of work that the plant would be called upon to do, including printing and binding, exclusive of the cost of building. If the plant were to be established in a separate building then the cost of such building would have to be added. The committee has considered possible the installing of such a plant in the basement of the capitol building, if such space is eventually vacated upon the completion of the new temple of justice, or the establishment of the printing plant in the basement of the new building. If the latter plan was to be followed, then the plans for the new building would have to be adopted with reference to the installation of such a plant. In any event, it would take from twenty-five to thirty-five skilled workmen, continuously employed, to operate the plant.

The experience of the operation of a state owned plant in the state of Kansas shows a saving in the cost of doing the printing; in that state, however, the elementary school books are published by the state and it is in evidence that about 40% is saved on the cost of these books.

It is therefore the recommendation of the committee:

1. That unless the state is to enter upon the publication and sale or distribution of the school books for the schools of the state, it would not be practicable, under present conditions, to establish and equip a printing plant for the state printing and binding alone. As to the wisdom of this state engaging in the printing and sale or distribution of the school books for the schools of the state, this committee has not yet had opportunity or time to make such an investigation as would justify us in making a specific recommendation. We have, however, investigated that work in other states to such an extent as to lead us to the conclusion that it should receive further investigation and serious consideration by such an agency as the Legislature might direct.

2. It is our judgment further, that the committee charged with the supervision of the erection of the temple of justice should investigate the practicability of establishing a state printing and binding plant in the basement of the proposed temple of justice.

3. It is the opinion of this sub-committee, that a large amount of useless printing is being done by the state of Iowa at the present time and it is our judgment the Legislature should take such steps as are necessary to eliminate a large part of this useless printing.

The detailed report of the sub-committee upon which the foregoing recommendations are made is on file with the secretary of state.

Respectfully submitted,

CLEM F. KIMBALL,
Chairman, Retrenchment and Reform Committee.

APPENDIX "B"

To the Executive Council of the State of Iowa:

Gentlemen: The committee on retrenchment and reform, of the Thirty-eighth General Assembly, was authorized by House concurrent resolution, passed and adopted on the 16th day of April, 1919, as appears in Senate Journal, page 2040, to publicly investigate the entire acts of the Iowa Commission to the Panama Pacific International Exposition, its expenditures and all charges connected therewith and make a public report and audit of said acts and expenditures to your honorable body within ninety days from and after the passage of said resolution.

Pursuant to said resolution the said committee did meet at Des Moines, Iowa, at the State House, on the 13th day of June, A. D., 1919, and continued said hearing from time to time and finished said investigation on the 11th day of July, 1919; that pursuant to the summons and request of this committee the said exposition commission appeared in person by its president, W. W. Marsh, its secretary, Woodworth Clum, Ralph Bolton, Emmet Tinley and other members of said commission appearing from time to time before this committee and also appeared by council Emmet Tinley, Judge James W. Bollinger, and Benjamin F. Swisher; that J. M. Pierce and Austin Haines of the Iowa Homestead also appeared in person before this committee and also by their counsel Robert Haines; that at the request of the said parties represented before the committee, and at the request of the committee, a large number of witnesses were called to testify relative to matters under investigation pursuant to the said resolution; that all witnesses requested by any of the said parties appearing before the committee, were called, together with all witnesses requested by any member of the committee; that testimony was taken for a period covering seven days and the matter was fully argued before said committee by the said parties present and represented.

That, in addition to the taking of said testimony the said committee did employ two competent persons to make an independent examination of the report of the said commission and of the vouchers on file in the office of the secretary of the executive council, together with such other vouchers as could be procured, and did require said accountants to make a report of the following matters:

1. Showing the amount of all funds used to reimburse the guarantee fund created by said exposition commission before the appropriation to aid the exposition was made.

2. A statement of all expenditures for which no proper vouchers are now on file with the secretary of the executive council.

3. Also a statement giving in detail the expenditures for all purposes by said commission out of the \$75,000.00 appropriated by the 36th General Assembly.

4. Also to procure and produce all the vouchers from whatever source obtainable for such expenditures.

5. To indicate to the committee such expenditures itemized as afore-said for which there were no proper vouchers on file with the secretary of the executive council or otherwise obtainable; that the report of said accountants was made a part of the record as exhibit No. 48 and is filed with other exhibits in this investigation.

And after full, fair and complete public investigation of all of the matters submitted to the committee, we make the following findings and recommendations:

That in April, 1914, at the suggestion of the Greater Iowa Association,

Governor George W. Clarke appointed a commission consisting of the following members: W. W. Marsh, Waterloo; G. Watson French, Davenport; C. F. Curtiss, Ames; T. D. Steen, West Liberty; W. G. Haskell, Cedar Rapids; George Haw, Ottumwa; George Wilson, Sr., Clinton; C. D. Cass, Waterloo; T. A. Black, Sioux City; Emmet Tinley, Council Bluffs, and Ralph Bolton, Des Moines; said commission to be known as the Panama-Pacific International Exposition Commission with full power to conduct an exhibit for the state of Iowa at said exposition; that the said commission did raise, by a guaranty subscription, voluntarily made by various citizens of the state, the sum of about \$106,000.00 for the use of said commission in participating in said exposition; that such fund is known as the guaranty fund of said commission. That said commission organized with W. W. Marsh as president and Woodworth Clum as secretary, E. W. Miller as treasurer; that said commission proceeded to carry out the purpose for which they were appointed and did prepare to take exhibits to said exposition; that they erected, at a suitable place on the exposition grounds, a substantial building, known as the Iowa Building, at a cost of approximately \$32,000.00 and did expend up to the 17th day of February, 1915, about \$40,000.00 out of said guaranty fund for the purposes of said exposition; that said money expended from said guaranty fund was used for said building, furnishings, historical exhibits, salaries of employees and general expenses connected with said exhibit.

That on the 17th day of February, 1915, the 36th General Assembly passed and adopted chapter six of the laws of the 36th General Assembly appropriating \$75,000.00 for the purpose of aiding the said commission in conducting said exhibit; that said appropriation of \$75,000.00 was divided into fixed amounts for the various purposes set forth in the act and that said act confirmed the appointment of said Panama-Pacific International Exposition Commission as appointed by the governor in April, 1914.

That the commission continued to prepare and conduct an exhibit for the state of Iowa at said exposition; that the members of said commission all served without compensation and some of them expended large sums of money out of their own private funds in the furtherance of the objects of the exposition; that as a result of said exhibit, out of two hundred and eighty-nine exhibitors at the said exposition from Iowa, two hundred eighty-four prize medals were awarded to citizens of the state, which award of prizes was never hitherto equalled by exhibitors of the state of Iowa at any international exposition.

That the said appropriation was issued to the commission in installments of \$15,000.00 until the total amount of \$60,000.00 was drawn. A report of the expenditures from the \$15,000.00 allowance was made to the executive council before the next allowance was made; that the last \$15,000.00 of the total appropriation of \$75,000.00 was never drawn or asked for by the commission; that sometime in January of 1917 the commission made its fifth and last report to the executive council; that said report showed a total amount of \$60,000.00 drawn from the treasury of Iowa and the sum of \$379.35 received from the sale of property used in

making said exhibit and of the said sum drawn from the treasury, together with the proceeds of the sale of said property, the commission returned to the state of Iowa the sum of \$2256.64; that when said appropriation was made available the exhibit conducted by said commission was in process of installation and a considerable amount had been expended for the object of said appropriation out of the said guaranty fund; that the said commission paid out of the proper funds of said appropriation, a total sum of \$5753.31 reimbursing the guaranty fund for the amount thus expended; that among the amounts reimbursed from the appropriation to the said guaranty fund was a salary item to Woodworth Clum amounting to \$1562.54, together with salaries for other employes.

That the said commission made a full, detailed and itemized report of all expenditures made by it, pursuant to the provision of the act, but that the act nowhere provides for other vouchers than said reports; that in the examination of every item of all said reports of said commission, your committee finds that there are now lacking proper vouchers for sums aggregating \$4087.81; that the said items making up said total sum are contained in the five reports of the commission; that of said unvouched items \$3405.96 are contained in the first four reports; that the said first four reports were successively presented to the executive council and that the successive installments of the said appropriation were issued upon the filing of said reports; that your committee finds that at the time the said reports were embodied in the state expense report of 1916, the items of said reports were all supported by proper vouchers. That sometime in January, 1917, the commission filed with the executive council its fifth and last itemized report provided for in the act making the appropriation; that in said fifth report there were items aggregating \$681.85 for which, at this time, the committee finds no proper vouchers on file, but that at the time of the filing of said report or subsequent thereto, proper vouchers were filed covering all of said items.

That in the filing of the said fifth report, there was some irregularity, the filing mark not having been made upon the same and no record of the filing having been made in the office of the secretary of the executive council, that by reason of said irregularity, misapprehension was occasioned as to whether said commission had ever made complete report of its expenditures and it was out of this irregularity and misapprehension that most of this controversy has arisen.

That the office of the secretary of the executive council was negligent in not keeping the reports and vouchers filed by the said commission and in auditing said accounts; also in not showing all of said reports to those who inquired for them and had a right to see them.

That on or about the 20th day of January, 1915, Woodworth Clum acting as secretary of the Panama-Pacific Exposition commission, made a contract with one R. E. Bales, by the terms of which the said R. E. Bales was to receive \$1.00 per day and furnish to the Clinton Advertiser a daily letter; that the said Woodworth Clum, in the making of said contract, act-

ed under the authority given him by the executive committee of the Panama-Pacific Exposition Commission. We find that said contract was afterwards ratified by the commission and the expenditure thereunder approved; and that the said R. E. Bales was paid from the fund of the Panama-Pacific Exposition Commission the sum of \$45.00 from the amount appropriated by the state for such commission. That the said item of \$45.00 so paid to the said R. E. Bales, was duly approved by the executive council of the state of Iowa. Such contract and expenditure thereunder, in the judgment of some members of this committee, should not have been made or incurred, but in view of all the evidence in the case, including the facts that said expenditure was ratified by the commission in good faith and afterwards approved by the executive council, we feel that this expenditure should not be disapproved.

A Remington typewriter was purchased by said commission soon after its appointment in June 1914, for which the sum of \$100.00 was paid, which typewriter was new and not second hand, and was purchased through one B. G. Oates manager of the Clinton Advertiser but that the same was at once turned over to said commission and it paid for the same out of the guaranty fund and after the appropriation was made it reimbursed the guaranty funds out of state funds. Such typewriter was in use in the Clinton office of the commission until the office was removed to Davenport and is now in the possession of the secretary of said commission at Davenport, Iowa.

That there is in the possession of the secretary of the commission a filing case which was purchased out of state funds.

As to the charge that Woodworth Clum paid to himself out of the state fund, \$1562.54 as salary for seven months prior to the time that the bill was passed making the appropriation, we find that Woodworth Clum, as secretary, was paid a salary from the time of the appointment of the commission until after the exposition closed; that for seven months of said period, his salary was paid out of the guaranty fund in regular monthly installments as the same came due; that he was not paid the seven months' salary out of the appropriation made by the state, but that after the appropriation was made, certain expenditures made from the guaranty fund were reimbursed out of the appropriation and these expenditures covered seven months' salary of Woodworth Clum above referred to.

The evidence fails to sustain the charge that the secretary of the commission paid himself a salary out of the fund of the state, while lobbying for the enactment of the appropriation bill.

The evidence does not sustain the charge that the Iowa commission to the Panama-Pacific International Exposition has failed to comply with the law, requiring it to make full, detailed and itemized accounts of the state fund it handled.

We find that no money was received by the Iowa commission from

the sale of concessions or that there were any other sources of income to the commission, and that the said commission had accounted for all of the property purchased with the money appropriated by the state, except a typewriter and a filing case hereinbefore referred to, which the commission assured this committee it has in its possession and is ready and willing to return to the state.

That all expenditures of said funds made by the commission were made in good faith and there was no misappropriation or misuse of any of the funds appropriated by the legislature of the state.

The commission should be charged with the sum of \$60,000.00 drawn out of said appropriation, \$181.00 from sale of exhibits; \$198.35 from the sale of furniture, making a total of \$60,379.35 and should be credited with the following amounts: Expenditures itemized in the five reports filed by the commission, \$58,122.71; cash returned to the treasury February 8, 1917, \$2256.64, making a total of \$60,379.35; that when the typewriter and filing case herein above mentioned are returned to the state the final report of the commission should be approved.

Respectfully submitted,

COMMITTEE ON RETRENCHMENT AND REFORM.

By CLEM F. KIMBALL, *Chairman.*

Senator Adams, from the conference committee on Senate joint resolution No. 1, submitted the following report:

MR. PRESIDENT—We, your conference committee on Senate joint resolution number 1, beg leave to report that we have had the same under consideration, and it is our opinion that the matter of employment of House employees and the salary paid them is wholly a matter that is within the province of the House itself, and one over which the House should have complete control and supervision, and that the House is responsible for its own actions and deliberations.

We therefore recommend that the Senate concur in the House amendment to Senate joint resolution number 1.

H. C. ADAMS, *Chairman*,
H. I. FOSKETT,
J. R. FRAILEY,
W. G. HASKELL,
FRANK C. LAKE,
C. E. NAREY,
C. B. SANTEE,
R. O. GARBER.

Senator Price raised the point of order that no motion had been made to approve or adopt the report, and that until such motion was made, there was nothing before the Senate for debate. Sustained.

Senator Adams then moved that the report of the committee be adopted.

Senator Brookhart raised the point of order that this committee had no authority. A conference committee was appointed, regularly reported, and its report was rejected, and the committee discharged. He held that when a committee is appointed, and the committee fails to agree, a new conference committee can be appointed, but questioned the authority by which a second committee can be appointed after one has done its duty, reported, and been discharged.

Senator Whitmore raised the point of order that the point of order made by the Senator from Washington was out of order for the reason that the matter came up for consideration on a motion addressed to the Senate for the appointment of a second conference committee on this subject. He held that the point of order now invoked by the Senator from Washington might have been in order at that time, but it was not at this time.

Senator Pitt raised the point of order that a point of order is not debatable. Sustained.

The chair gave the following ruling:

I am of the opinion, and I am sustained by Cushing, that a second conference committee under the rules could be appointed, because there was a possibility of their yet getting together. I am also of the opinion that the adoption of the report of the committee, and the question as to whether or not we will adopt the amendment, are separate and distinct questions, and they will be put to the Senate in that form, so there can be no misunderstanding. I am of the opinion that the point of order made by the senator from Washington on his first proposition is not well taken. I will state also that in my judgment the adoption of this report can be done by a viva voce vote, and that to adopt the amendment there should be a separate and distinct motion, and being on a joint resolution it would be one on which a roll call would be had.

The motion of Senator Adams carried, and the report of the committee was adopted.

Senator Price raised the point of order, that, as no motion had been made, the question of the adoption of the amendment as recommended by the committee, was not before the Senate. Sustained.

Senator Parker moved that the Senate do now concur in the House amendment.

Senator Price raised the point of order that the motion of Senator Parker was out of order as this was a matter on which there had been a motion to reconsider, which motion to reconsider was defeated.

Senator Whitmore raised the point of order that Senator Price was out of order, because the chair had already ruled on that point of order. Overruled.

Senator Price raised the point of order that this matter could not now be presented until the original action of the Senate on the matter had been reconsidered, and that there could not be a second reconsideration by the Senate on any question.

The chair made the following ruling:

I want to state for the information of the senators that I have looked up this question very thoroughly, and feel, if I am not out of place, that this question has been sufficiently debated in this Senate, that we have spent time enough on the question. I take no stock in the proposition that just because one House or the other does not adopt a proposition submitted by the other, that it is going to cause any hostility between the two houses. The members of those branches of government are going to ask the question finally, Is a proposition right?—and that is going to be the controlling question.

The chair is of the opinion that this question has been thoroughly before the Senate, and by looking up the record and the various points it will be clearly shown that this question has been fully and finally decided by you; that the matter has been before the Senate on the question of the adoption of the amendment, which has been defeated; a motion to reconsider has been made, and the Senate refused to reconsider; and the chair is of the opinion that the point of order raised by Senator Price is well taken and should be sustained; and is also of the opinion that this is a matter in which the Senate and House members should get together and decide this question without further debate or further time of this legislative body.

Senator Price desired to make a motion relative to salary of the enrolling clerk of the House.

Senator Frailey raised the point of order that under the ruling of the chair the entire subject was settled.

The chair sustained the point of order raised by Senator Frailey.

Senator Price moved that as to the compensation of the enrolling clerk of the House, only, the motion to reconsider be laid on the table.

Senator Frailey raised the point of order that there was no motion before Senate.

The chair held the point of order raised by Senator Frailey well taken, and ruled that the motion of Senator Price was out of order, as the matter had been finally determined, and there was nothing at this time before the Senate for consideration.

REPORT OF JOINT CODE REVISION COMMITTEE

Senator Dutcher submitted the following report from the joint code revision committee:

To the Honorable President of the Senate and Speaker of the House of Representatives:

The joint code revision committee, pursuant to the concurrent resolution heretofore adopted, have had under consideration the verification of the compiled code and the allotment of portions thereof to the standing committees of each House for verification, and beg leave to present the following report and recommendation, to-wit:

In the progress of work assigned to your committee, it became necessary to consider not only the matter of the division of the work, but to go in detail into the question of how the important and involved matter of the verification could be accomplished with greatest safety and reasonable dispatch.

Conference was had with the code editor, Mr. Whitney, careful examination made of the tables of corresponding sections, and full discussion had of the detail involved.

As a result, your committee is convinced that the work can only be effectively done by committees of not exceeding seven members, whose membership does not overlap and who can work together until the part allotted to each committee has been finished. In our opinion, therefore, any attempt to do this work through the medium of the standing committees with their overlapping membership would prove wholly impracticable.

Your committee, by unanimous action, hereby recommends the following:

PLAN OF PROCEDURE FOR VERIFICATION OF THE COMPILED CODE

1st. That eight special committees be named by the presiding officer in each house. In the House each committee will have seven members, and in the Senate there will be six committees of six members each and two of seven members. Said committees in each house will be designated by numbers one to eight respectively.

2d. That the code of 1897 by titles, (including the corresponding portions of the supplement of 1913, the supplemental supplement of 1915 and the laws of the Thirty-seventh and Thirty-eighth General Assemblies), be allotted for verification among said special committees, as follows:

HOUSE COMPILED CODE COMMITTEES

House committee number 1—titles I, III and VI.

House committee number 2—chapters 1 to 10 inclusive, in title V.

House committee number 3—title VII and chapters 11 to 14 inclusive, of title V.

House committee number 4—titles IX and XI.

House committee number 5—title XIII.

House committee number 6—titles XV and XVII.

House committee number 7—titles XIX and XXI.

House committee number 8—titles XXIII and XXV.

SENATE COMPILED CODE COMMITTEES

Senate committee number 1—titles II, IV, VIII.

Senate committee number 2—title X.

Senate committee number 3—chapters 1 to 6 of title XII.

Senate committee number 4—chapters 7 to 21 of title XII.

Senate committee number 5—titles XIV and XVI.

Senate committee number 6—title XVIII.

Senate committee number 7—titles XX and XXII.

Senate committee number 8—titles XXIV and XXVI.

3d. That said committees proceed promptly with the comparison of existing law as contained in the code, code supplements, and laws of the Thirty-seventh and Thirty-eighth General Assemblies with the compiled code, preserving a careful record of any variations or omissions and that each committee make report to the revision committee as the work is completed.

4th. That every member of each committee be asked to thoroughly familiarize himself with the tables of corresponding sections contained in the compiled code and with the explanatory statement which will be prepared by the committee, with the assistance of the code editor, and a copy delivered to each member of the several committees. This statement will, if carefully studied, aid greatly in facilitating the work of comparison.

Respectfully submitted,

CHAS. M. DUTCHER,

Chairman.

The report was passed on file.

On motion of Senator Caldwell, the Senate adjourned until 10 a. m. Friday.

The bill having received a constitutional majority was declared to have passed the Senate and the title was agreed to.

JOINT RESOLUTION NO. 1 CONSIDERED

Senator Whitmore offered the following motion:

As to joint resolution No. 1, relating to compensation of legislative officers and employees, I move that the rules be suspended, and the president appoint a third conference committee, four senators on behalf of the Senate, with request upon the House to join in like action.

Senator Stoddard moved the previous question.

Senator Pitt arose on a question of personal privilege.

Senator Parker raised the point of order that Senator Pitt was not stating any matter which related to personal privilege. Sustained.

Senator Price demanded a roll call.

On the question, "Shall the main question be now put?" the vote was:

Ayes, 26

Abben	Fulton	Reed
Adams	Greenell	Schaffter
Anderson	Hale	Scott of Chickasaw

Carried.

Senator Price raised the point of order that the proposition now was to bring up a matter which had already been passed on

finally and definitely by the Senate, and was in effect another motion to reconsider a motion which had been reconsidered and defeated.

The President gave the following ruling:

The chair is of the opinion that the subject matter of a conference committee is disposed of on page 94 of the Iowa Manual of Legislative Procedure:

"A conference committee may recommend in its report that the house insisting do recede, or that the house refusing to concur do concur. Furthermore, it may propose new amendments or that old ones be stricken out. Indeed, it may even report a substitute bill. Since the whole object of a conference is to reach an agreement and thus prevent the defeat of the legislation under consideration and since both branches of the legislature are equally represented, a conference committee may go very far in considering the merits of the bill and in recommending changes and alterations that are likely to be acceptable to both houses."

Senator Whitmore raised the point of order that the matter was now before the chair on a point of order and was not debatable. Sustained.

Senator Price raised the point of order that following the report of a conference committee on this particular subject, the second legislative day had passed in which a motion to reconsider could be filed and considered, and that had not been done, and applied the point of order to that proposition and that alone.

The chair made the following ruling:

The chair desires to say in this connection that he is of the opinion unqualifiedly that this legislative body, both the House and the Senate, should not occupy any more time in the consideration of this matter, but the matter ought to be thrashed out in behalf of both branches of the house finally and honestly and constructively; and in order that that might be done, the chair is of the opinion that this conference committee ought to be appointed, and that the point ought to be overruled, in the interests of proper legislative consideration of this matter, and getting it out of the way without any further delay or expense to the state. The point is overruled.

Senator Whitmore demanded a roll call on the motion for the appointment of a conference committee.

Senator Buser raised the point of order that inasmuch as the motion of Senator Whitmore for the appointment of a conference committee also called for a suspension of the rules, it required a two-thirds majority.

Senator Whitmore raised the point of order that the point of order made by Senator Buser was out of order, inasmuch as while the motion read "that the rules be suspended," the words quoted were surplusage; and that the motion being merely a motion for the appointment of a conference committee, it did not require a two-thirds vote.

The President sustained the point of order and said that in his opinion the provision for suspending the rule should not have been in the motion.

On the question, "Shall the motion for the appointment of a third conference committee prevail?" the vote was:

Ayes, 29

Abben	Greenell	Reed
Adams	Hale	Schaffter
Anderson	Haskell	Scott of Chickasaw

McKINLEY ADDRESS

Senator Greenell moved that the remarks of Senator Pitt made during Saturday's session, in connection with the birthday of William McKinley, be printed in the Journal. Carried.

ADDRESS OF SENATOR M. B. PITT, IN THE SENATE OF IOWA IN TRIBUTE TO THE MEMORY OF WILLIAM McKINLEY

Seventy-eight years ago today in Niles, Ohio, a child was born. It is the custom of the Senate of Iowa, on the natal day of the country's great men, to pause for a moment and pay tribute to their memory. The honor of crystalizing the thoughts of the Senate on this occasion has been placed upon me. This is very fitting for my first vote for president was cast for him to whose memory I pay this tribute.

It was in the darkest financial hour our nation had ever seen; labor everywhere was idle. The toilers of the fields and factories had gathered in groups and were marching across the country to Washington besieging the government for relief. The statesmen of our country had attempted to answer the question which was on the lips of everyone, "Why are we in this trouble and what is the cause of our distress?" The withered hand of want was everywhere extended. Some there were who believed that the cause was what they termed the "Crime of '73" and earnestly contended that the government, by congressional edict had destroyed half the money of the land, thereby doubling the value of money and proportionately decreasing the value of property and products, and in that dark hour there stepped forth from the shadows of the centuries the matchless and majestic McKinley, and in one sentence answered for all time the question. He said, "I do not know what you think about it but I think it would be better to open the mills of America to the labor of America than to open the mints of America to the free coinage of silver of the world."

No other sentence ever spoken by an American statesman contains more of sound political economy; and time, which always stands unbiased at the balance, has abundantly proven this assertion, and on account of his services in the hour of calamity, on account of his high character as a Christian gentleman, on account of his superior statesmanship, and in memory of his having guided the ship of state with a master hand, I propose this tribute to the name of the martyred McKinley of Ohio.

EATON MEMORIAL RESOLUTION

Senator Foskett offered the following resolution, and moved its adoption:

Whereas, Honorable William Eaton of Sidney, Fremont county, Iowa, who was a member of the Senate in the Twenty-fifth, Twenty-sixth, Twenty-seventh, and Twenty-eighth General Assemblies of Iowa, died December 3, 1920,

Therefore, be it Resolved, That a committee of three be appointed to prepare a memorial fittingly to commemorate his life and services to his state and nation.

The resolution was adopted.

The chair appointed as such committee Senators Foskett, Mantz, and Thurston.

RESOLUTION FOR MEETING OF CODE COMMITTEES

Senator Schaffter offered the following resolution:

Be it Resolved, That the joint committee on code revision be and is hereby directed to fix the certain days and hours for the work of the

special code committees of the Senate in checking and comparing the compiled code, and that the work of said special code committees be so assigned that all of said committees shall be so employed at the same time, in order to avoid conflict with other regular committees.

BALL MEMORIAL RESOLUTION

Senator Fulton offered the following resolution:

Whereas, The Honorable George W. Ball of Fairfield, Jefferson county, Iowa, a member of the House of Representatives in the Twenty-second, Twenty-third and Twenty-sixth General Assemblies, and a member of the Senate in the Thirty-seventh and Thirty-eighth General Assemblies, died at his home in Fairfield on March 14, 1920, therefore,

Be It Resolved, That a committee of three be appointed to prepare a memorial fittingly to commemorate his service to state and nation.

By unanimous consent the resolution was taken up, considered and adopted.

The President appointed as such committee Senators Fulton, Whitmore and Buser.

CONCURRENT RESOLUTION FOR PETITIONING CONGRESS

Senator Cessna offered the following resolution :

Whereas, The recent decision of the Interstate Commerce Commission in the Illinois Rate Case interprets the Esch-Cummins act as giving them complete authority over the railways, the entire field of transportation, the traffic itself and all the instrumentalities and means of carrying it on; and whereas, it means that the law of the states and their officers are defied and that the interstate commerce commission has assumed exclusive authority over the railways;

And whereas, wheat, corn, live stock and all farm products are being marketed at a heavy loss to the farmer;

And Whereas, the freight and passenger rates are already burdensome to the producers and consumers, with the likelihood that the railroads will ask for further increase in rates, with no consideration apparently having been given in the recent raise in rates as to the low cost of construction and operation in the prairie states, with no completed valuation of the railways or as to the fact that the railways in these states have not millions invested in depots and terminals, we consider it unwise to confer upon the interstate commerce commission the greatest power ever given to a body of men in peace times;

Therefore, Be It Resolved by the Senate, the House concurring, of the Thirty-ninth General Assembly, that we call upon congress to so amend the transportation act and in such plain language that the authority of the states over intra-state traffic in their respective territories will be maintained without an opportunity for misinterpretation.

The resolution was read for information and passed on file.

SUBSTITUTE RESOLUTION FOR CODE COMMITTEE MEETINGS

Senator Schaffter called up the resolution relative to the meeting of code committees and offered the following substitute:

By unanimous consent the substitute was taken up, considered and adopted.

GEORGE S. BANTA,
Chairman Senate Committee

Adopted.

The President announced that as President of the Senate and

in the presence of the Senate he had signed House File No. 330, and Senate File No. 329.

SPECIAL ORDER CONSIDERED

The time having arrived for the consideration of special order No. 1, Senate File No. 280, a bill for an act to amend the law as it appears in section twenty-eight hundred twelve-e (2812-e) supplemental supplement to the code, (section twenty-six hundred sixty-one (2661) of the compiled code), relating to school funding, refunding, and building bonds, Senator Whitmore moved the adoption of the following amendment:

Amend Senate file number 280 by striking out in lines five, six, and seven of section one the following: "striking out the word 'five' in the sixth line thereof and substituting therefor the word 'six'."

And substituting therefor the following:

"adding the following to said section:

"Provided that as to such school bonds heretofore voted, and not yet issued; and as to such school bonds as may be voted hereafter and prior to January 1, 1923, same may bear a rate of interest not exceeding six (6) per centum per annum."

By unanimous consent Senator Smith withdrew his amendment to Senate File No. 280, found on page 266 of the Senate Journal.

Senator Schaffter offered the following amendment to the amendment of Senator Whitmore:

Amend the pending amendment by inserting therein after the word "issued" the following: "school funding or refunding bonds".

Adopted.

Senator Meredith offered the following amendment to the amendment of Senator Whitmore:

Amend by striking out the following: "Provided that as to such school bonds heretofore voted, and not yet issued;".

Senator Smith offered the following amendment in lieu of all pending amendments:

Amend Senate file number 280 by striking out all after the enacting clause and substituting therefor:

"That the law as it appears in section twenty-eight hundred twelve-e (2812-e) supplemental supplement to the code, 1915, (compiled code section 2661) be amended by adding thereto the following:

Provided that such bonds, where they have been voted but not sold, or as to such funding or refunding bonds maturing within the period here-in limited, or as to such bonds required to rebuild school property destroyed by fire or natural elements, may, prior to January 1, 1923, be sold at such a price less than par as may be necessary to negotiate them, but such bonds shall not be sold at a price of less than ninety-seven cents (97c) on the dollar.

'Sec. 2. This act being deemed of immediate importance shall take effect and be in force from and after its publication in The Iowa Forum and The Des Moines Capital, newspapers published in Des Moines, Iowa.' "

Senator Whitmore raised the point of order that the matter stood before the House on the amendment offered by him, on which Senator Meredith had offered a second amendment; and therefore it had reached that stage that a second amendment to the amendment was out of order. Sustained.

Senator Smith moved that the amendment filed by him be a substitute for all amendments pending.

Senator Whitmore raised the same point of order; and further stated that that would result in parliamentary confusion.

On motion of Senator Brookhart, the Senate adjourned until 1:30 p. m.

AFTERNOON SESSION

Senate met pursuant to adjournment, President Hammill presiding.

Senate resumed consideration of Senate File No. 280.

The President ruled as follows:

On the point of order raised by Senator Whitmore just before adjournment the chair is of the opinion that this point is well taken and should be sustained. The chair, however, desires to state in this connection that after the disposition of this amendment, whether it be adopted or not, any substitute for the

whole could be considered at that time; but at present the question is on the amendment offered by Senator Meredith.

Senator Whitmore demanded a roll call.

On the question, "Shall the amendment to the amendment be adopted?" the vote was:

Ayes, 10

The amendment to the amendment was lost.

The substitute amendment offered by Senator Smith was read for information.

Senator Thurston offered the following amendment:

Add: "Provided, that all bonds issued under the provisions of this act shall contain the option or privilege to refund same after three (3) years from date of issue."

Senator Whitmore raised the point of order that the amendment was inopportune at this time. Sustained.

Senator Foskett offered the following amendment:

Strike the figures "97" in the amendment offered by Senator Smith, and insert in lieu thereof "95."

The amendment was read for information.

Senator Whitmore raised the point of order that the matter stood upon his amendment; that Senator Smith had offered a substitute, which made a second amendment; that the Senate was now to vote on that amendment; and that no further amendment would be in order until the Senate had voted on the second amendment.

The President made the following ruling:

The chair is of the opinion that this particular motion as offered by Senator Smith, comes within rule 61 of Cushing. The Senate will note that this is offered as a substitute for the amendment offered by Senator Whitmore. The rule is as follows:

"When both the original proposition and the substitute had been amended so far as was deemed desirable, the substitute would first be put to vote, and if carried would take the place of the original proposition; it would then be necessary to put the final question on adopting the resolution, as amended by accepting the substitute. But if the motion to amend by accepting the substitute was not carried, the final question would then be put on the original resolution as previously amended in detail."

The chair is of the opinion that this particular amendment is an amendment to this particular substitute, and can be considered at this time under this rule.

Senator Foskett asked for a rising vote.

The amendment to the substitute amendment was lost.

Senator Smith asked for a roll call on the substitute amendment.

On the question, "Shall the substitute amendment be adopted?" the vote was:

COMMUNICATION FROM THE GOVERNOR

To the Senate and House of Representatives of the Thirty-ninth General Assembly:

A situation has arisen recently in Iowa which demands immediate consideration. From private correspondence, personal conversation and newspaper expression, I am altogether convinced that a vast majority of the electors of the state earnestly desire the appointment of a woman to the board of control. Under existing law that desire may be completely defeated by a minority of one branch of the legislature acting under the secrecy of executive session. It is obvious that a condition is thus created which challenges the elementary right of the people to enforce their sovereign will in their own General Assembly. I recommend, therefore, that section 2727-a1, supplement to the code, 1913 (C. C. 1852) be amended by inserting between the words "party" and "and" in the fifth line thereof the following:

"nor of the same sex".

In the same connection I venture to submit that the people are entitled to know how the agents they have commissioned to represent them vote on every matter connected with their agency. I recommend, therefore, that the section above referred to be further amended by striking from the sixteenth line thereof the words "in executive session."

I further recommend that legislation be enacted, subjecting the receipts and expenditures of the board of control and of the board of education to the same system of audit and accounting which is now applied to the other departments of the state government.

Respectfully submitted,

N. E. KENDALL, *Governor.*

Whereas, The people of the states of Missouri, Iowa, Illinois, Wisconsin, and Minnesota, have long suffered and are now suffering great inconvenience and financial loss by reason of the inability of the railroad companies to provide sufficient rolling stock to move the agricultural and other products of said states and especially of the state of Iowa, and

Whereas, The increase of over 100% in freight rates and the shortage of transportation facilities in the state of Iowa during the past year, has cost the producers and consumers of the state many millions of dollars in cash on account of freight rates actually paid, and many millions in loss by shrinkage in value because there were not sufficient cars in which to haul the products of farm and factory to the markets, and

Whereas, Because of the shortage of cars and other transportation facilities above outlined, the great problem confronting all the people of Iowa is the problem of how to secure more transportation, and

Whereas, The use of the upper Mississippi river as a transportation highway by the establishment of modern navigation thereon, is practical, economical, and most desirable, and

Whereas, With modern barge service established on the upper Mississippi river, and modern freight handling river terminals established at the principal railway distributing centers on the river, equipped to expeditiously and economically handle all kinds of freight from car or truck to barge, and from barge to car or truck, thereby giving to the producers and consumers of Iowa more transportation and at the same time, cheaper transportation, and

Whereas, Keokuk, Fort Madison, Burlington, Muscatine, Davenport, Clinton, and Dubuque, and many smaller cities of Iowa, are located on the upper Mississippi river and will provide adequate terminals through which the products of Iowa farms and factories could be shipped out, and other products brought in by water and rail on through bills of lading, thereby giving to the shippers of Iowa the benefit of at least seven principal river ports on the upper Mississippi river through which to ship at reduced rates, the products of farm and factory, thereby giving to all parts of Iowa the benefit of water transportation, thus rendering the producers immune from signal losses, heretofore sustained by reason of insufficient transportation, and

Whereas, The congress of the United States in 1910 adopted the project of improving the upper Mississippi river with a minimum depth of six feet at the cost of \$20,000,000 to be expended in ten years, or at the rate of \$2,000,000 a year, and

Whereas, Congress has not carried out the policy as above outlined, having expended on the improvement of the upper Mississippi river only the total sum of \$11,637,415.65, leaving a balance of over \$8,000,000 necessary to the completion of the project, and

Whereas, The best interests of the agricultural, industrial, and commercial interests of Iowa demand that the balance of \$8,000,000 necessary to the completion of the improvement of the upper Mississippi river be made available at once in order that the improvement of the upper Mississippi river may be completed without delay;

Therefore, Be It Resolved by the Senate and the House of Representatives concurring therein, That we do most respectfully and earnestly petition the congress of the United States to appropriate for the improvement of the upper Mississippi river \$2,000,000, the amount recommended by the engineers of U. S. A. as necessary for efficient work, and to immediately pass the Newton bill, now pending in congress, and known as H. R. 5030, 66th Congress, 1st Session, which provides for the completion of the improvement of the upper Mississippi river within three years by placing it under the continuing contract system, and

Resolved, That the legislatures of Missouri, Illinois, Wisconsin, and Minnesota are hereby respectfully requested to join in this petition to congress in such a manner as they may deem appropriate, and

Resolved, That the secretary of state be and is hereby directed to transmit copies of this resolution to the Senate and House of Representatives of the United States and to the several members of said bodies representing this state therein, also to transmit copies hereof to the legislatures of the states herein named.

THIRD READING OF BILLS

The time having arrived for the consideration of Special Order No. 1, on motion of Senator Price Senate File No. 306, a bill for an act to regulate the practice of chiropractic and to provide for the examination and license of chiropractors and to provide for the appointment and maintenance of a board of examiners, was taken up, and considered.

Senator Abben offered the following amendment and moved its adoption:

Amend by striking out all of section three (3) and substituting therefor the following: "For the purpose of examining applicants for license as chiropractors there shall be appointed by the governor, a board of three (3), one of whom shall be a chiropractor a graduate of a college or school of chiropractic recognized by the State Association of Chiropractors as of good standing; one physician, a member of the State Board of Medical Examiners, and the secretary of the State Board of Health, who shall be the secretary of the examining board."

Senator Scott moved that the Senate adjourn until 1:30 p. m. today. The motion lost.

Senator Pitt moved that the Senate adjourn until 1:30 p. m. today, and asked for a roll call.

Senator Price raised the point of order that a motion to adjourn had just been made and defeated, and that a second motion to adjourn could not be made until some business had been transacted, and that since no business had been transacted between the two motions, this motion was out of order.

The President ruled that although the point raised by Senator Price would be true upon the general proposition, yet there had been further debate on the amendment under consideration, which would constitute intervening business, and would make the motion of Senator Pitt in order at that time.

On the question, "Shall the Senate stand adjourned until 1:30 p. m. today?" the vote was:

MR. PRESIDENT—I move to amend Senate File No. 370 by substituting for the amendment as substituted by the committee report as follows: Strike out all after the enacting clause and insert in lieu thereof the following:

An act relating to disputed boundaries between adjoining land owners and the admissibility of evidence to establish the same and providing particular cases in which it shall apply.

J. D. BUSER

SENATE FILE NO. 370 RE-REFERRED

Senator Holdoegel moved that Senate File No. 370 be re-referred to the committee on agriculture, together with all amendments under consideration or filed.

Senator Buser raised the point of order that discussion was being made on the merits of the bill, rather than on the motion before the Senate.

By unanimous consent Senator Holdoegel changed his motion to refer the bill to the committee on judiciary instead of the committee on agriculture.

On the point of order raised by Senator Buser, the President held that discussion should be confined to the motion under consideration, and the main question should not be debated except insofar as it was necessarily involved in the question of commitment.

Senator Brookhart raised the point of order that the action and record of the committee was not under discussion. Sustained.

The motion of Senator Holdoegel prevailed, and Senate File No. 370 was referred to the committee on judiciary.

LINCOLN MEMORIAL

Senator Newberry moved that Senator Whitmore read Lincoln's Gettysburg address, and also that he be asked to make a few remarks commemorative of the martyred President. The motion prevailed.

"Four score and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty, and dedicated to the proposition

that all men are created free and equal. Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure.

We are met on a great battle-field of that war. We have come to dedicate a portion of that field as a final resting place for those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this.

But, in a larger sense, we can not dedicate, we can not consecrate, we can not hallow this ground. The brave men, living and dead, who struggled here have consecrated it far above our poor power to add or detract. The world will little note nor long remember what we say here, but it can never forget what they did here.

It is for us, the living rather, to be dedicated here to the unfinished work which they who fought here have so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us; that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion; that we here highly resolve that these dead shall not have died in vain; that this nation, under God, shall have a new birth of freedom; and that government of the people, by the people, and for the people shall not perish from the earth."

By unanimous consent Senator Wichman withdrew his amendment to Senate File No. 275, appearing on page 416 of the Senate journal.

By unanimous consent Senator Mantz withdrew his amendment, appearing on page 416 of the Senate journal.

By unanimous consent Senator Brookhart withdrew his amendment appearing on page 416 of the Senate journal.

By unanimous consent Senate File No. 275 was amended by inserting after "Iowa" in the second line "(C. C. 4482)."

Senator Brookhart moved the bill be read a third time now, which motion prevailed, and the bill was read a third time.

On the question, "Shall the bill pass?" the vote was:

The bill having received a constitutional majority was declared to have passed the Senate and the title was agreed to.

On motion of Senator Fulton, Senate File No. 330, a bill for an act to repeal section one hundred eighty-one (181) of the supplement to the code, 1913, (C. C. Sec. 39), relating to the committee on retrenchment and reform, and enacting a substitute therefor, with report of committee recommending amendments and passage, was taken up, considered, and the report of the committee adopted.

The following committee amendments were adopted:

Amend by striking all of section three (3) from said bill, and substitute the following in lieu thereof: "Section 3. One of the appointive members in the Senate and House, respectively, shall be named from the representatives of the minority parties, if there be such, but two of the appointive members in the Senate and in the House, respectively, shall be named from representatives of the minority parties when they constitute twenty-five per centum (25%), or more, of the membership of such body."

Senator Fulton moved that the bill be read a third time now, which motion prevailed, and the bill was read a third time.

Senator Fulton invoked rule 8.

Senator Whitmore asked to be recorded as present and not voting, and asked to be excused from voting, since he was a member of the committee to be affected.

Senator Price raised the point of order that Senator Whitmore had no right to be so recorded under rule 8; since the proposed rule allowing a senator to be recorded as "present and not voting" had not been adopted by the Senate.

The President ruled that in as much as the rule allowing a Senator to be recorded as "present and not voting" was not adopted by the Senate, that Senator Whitmore under the rules would be required to vote "yes" or "no;" and also stated that he was of the opinion that Senator Whitmore's interest in this bill was not such that he could refuse to vote.

Senator Whitmore stated that as a member of the committee he did not wish to vote on this question, and that he declined to vote.

The President stated that in his opinion Senator Whitmore should vote, under rule 8.

Senator Schaffter moved that Senator Whitmore be excused from voting.

Senator Frailey raised the point of order that rule 8 is unconstitutional; that no Senator has to vote if he does not want to; that every Senator under the constitution has a right not to vote, regardless of rule 8.

Senator Price asked a roll call.

Senator Schaffter invoked rule 8.

Senator Thurston asked to be excused from voting.

SENATOR WHITMORE—I challenge the right of this Senate to compel me to vote “yes” or “no” on any measure, and I now invoke the privileges of article 3, section 10, of the constitution, which provides, “Every member of the General Assembly shall have the liberty to dissent from or protest against any act or resolution which he may think injurious to the public, or any individual, and have the reasons for his dissent entered on the journals; and the yeas and nays of the members of either house on any question shall, at the desire of any two members present, be entered on the journals.” There are two propositions; that every member of the assembly has the right to have entered on the journal his position with reference to any matter as to which there is a vote called. This act has not been amended, and it goes into effect July 4th, and would require the elimination of one of the two democratic members of the committee, and as chairman of that committee I feel that I am privileged under the circumstances of having the record show that I am present but decline to vote. In-as-much as this committee has been named and it was contemplated that it should act until the next General Assembly, I do not care to discuss its provisions further than to say that the membership having been named with two democratic members on it, with the idea that that membership should prevail until the next general assembly, it would not be just to those two democratic members to pass a measure at this time which would in effect take one of them from the committee.

Senator Frailey raised the point of order that Senator Whitmore had a constitutional right not to vote if he so saw fit, notwithstanding rule 8; that the Senate could not pass a rule that would force any member of the Senate to vote if he did not want to vote.

Senator Price raised the point of order that rule 8 only gives

to the Senator the right to vote "yes" or "no," if he wants to; if he does not want to exercise that right, he has a right not to vote at all.

SENATOR FRAILEY—"I refer to the legislative department of the constitution of Iowa. The constitution does not say anything about passing any rules which limit or restrict the constitutional rights of persons here, and the Senate can not pass rules governing the constitutional or fundamental rights of a member elected by the people; that is settled in sections 3, 4 and 5; and in-as-much as these sections say nothing about any way to make voting mandatory, my contention is that it is our constitutional right to refrain from voting as long as the constitution is silent on this matter."

The President made the following ruling:

"I have grave doubts about the right of a member to be excused from voting on any question when rule 8 is invoked unless excused by the Senate, which has been denied in this case, and if I were asked to make a ruling at this time, it would be that the senator from Wapello is compelled to vote, under the rules of this Senate. If the Senate so desires, however, I should like to have until tomorrow to make a positive ruling on this question, as the same will establish a precedent for future action; however, if the matter is to be decided at the present time, the president is of the opinion that the senator will have to vote."

Senator Price moved that further proceedings on this motion and the questions involved therein be postponed until 10:30 tomorrow morning. Carried.

On motion of Senator Foskett the Senate adjourned until 1:30 this afternoon.

AFTERNOON SESSION

Senate met pursuant to adjournment, President John Ham-mill presiding.

HOUSE MESSAGES CONSIDERED

House File No. 348, a bill for an act to amend chapter twenty-three (23) acts of the Thirty-seventh General Assembly (C. C. 4101), relating to pension for disabled and retired policemen and regulating the amount of tax which may be levied for such purpose and the amount which shall be paid to the surviving widow or minor children of a deceased policeman.

Read first and second time and referred to committee on cities and towns.

House File No. 454, a bill for an act to amend section twenty-seven hundred fifty-two (2752) supplement to the code, 1913 (C. C. Sec. 2541), relating to the election of directors in a school township not divided into sub-districts.

Read first and second time and referred to committee on elections.

EXPLANATION BY SENATOR WHITMORE

MR. PRESIDENT—Under section 10 of article 3 of the constitution, I make the following record on Senate File 330:

Of the fifty members in the Senate at the present time two are democratic, or only four per cent.

The retrenchment and reform committee consists of five members of the Senate and five members of the House. The law now in effect requires that of the five from each house two members must be democrats. This gives the democratic party 40 per cent of the representation on the committee, a much larger proportion of representation than their membership in the Senate or House would justly warrant.

If this Senate File 330 were passed, it would mean that after July 4 and when a new retrenchment and reform committee would be named for the next legislature, general or special, the democratic party would only be entitled to one instead of two members from each house on that committee.

The law now makes it the duty of the retrenchment and reform committee to examine into the reports and official acts of the executive council and of each officer, board, commission and department of state at the seat of government, in respect to the condition and expenditures thereof, and the receipts and disbursements of public funds thereby.

In the face of the pending wholesale rumors of corruption in the administration of public duties by state officials, were not the legislature in session and carrying on investigation of these rumors, it would be the duty of the retrenchment and reform committee to carry on such investigation. In the face of these unsupported claims, I therefore feel that it would be very unwise at this time by 50 per cent to cut down the representation of the democratic party on that committee.

Ours is a government by party, and it is the function of the party not in power to point out, if they can, any weakness or wrong-doing of the party in power. And if the democratic party through its two Senate

members and two House members on the committee on retrenchment and reform can point any wrong-doing in the government of the state of Iowa, I feel we should court the fullest investigation and not at this time cut off 50 per cent of their power so to do. I therefore feel that I can not conscientiously vote either aye or no on the bill. Under ordinary conditions I would feel that the Democratic representation should be reduced; but not at this time.

Section 10 of article 3 of the constitution confers the right upon every member of the assembly to dissent from, or protest against any act which he may think injurious to the public, and have the reasons therefor entered on the journal. I therefore dissent from this legislation and would respectfully ask to be excused from voting aye or no upon it. This I do only as a matter of conscience, and this position is not taken through any want of respect for your honorable body or its rules.

I challenge it to be shown on any page of parliamentary history, dating back for hundreds of years, a single instance where the English Parliament, or the United States congress, or the legislature of Iowa has undertaken to force a member against his conscience to vote aye or no.

I am not unmindful of rule 8 of the Senate requiring every member present when a question is put to vote, unless he shall, for special cause, be excused by vote of the Senate.

Notwithstanding such a rule, Cushing on the Elements of the Law and Practice of Legislative Assemblies in the United States of America, section 1789, page 693, of the edition of 1866, says that "notwithstanding such a rule members may vote or not as they please".

History has shown that neither church nor state can force a man's conscience.

The Senate record of the vote on this bill showed that it has received twenty-eight ayes and therefore public welfare is not involved by my refusal to vote on it.

Should your honorable body in its wisdom and justice feel that notwithstanding my conscientious refusal and my constitutional rights you have the power to compel me to vote, I would not desire to stand in contempt of your good judgment and in such contingency would vote no on the bill, and in such contingency the record may so show.

CHESTER W. WHITMORE, *State Senator.*

THIRD READING OF BILLS

The time having arrived for consideration of Special Order No. 1, Senate File 330, a bill for an act to repeal section one hundred eighty-one (181) of the supplement to the code, 1913, (C. C. Sec. 39), relating to the committee on retrenchment and reform, and enacting a substitute therefor, the president ruled as follows:

Further ruling on the point of order raised by the Senator from Lee and the Senator from Wapello.

The President is of the opinion that the Senator from Lee is not sustained by the constitutional provision to which he refers, neither is the Senator from Wapello sustained by the section from Cushing to which he refers.

The full reading of section 10, article 3, does not give a Senator the right to refuse to vote; but by proper construction of the entire section, a Senator is compelled to vote, on the desire of any two members present.

The Senate is given a right, in section 9, article 3, of the constitution to determine its own rules of proceeding and under rule 8 of the Senate, it is provided that each Senator must vote, unless he is excused by a vote of the Senate or interested directly or personally in the question before the Senate.

In the citation given in Cushing and on which the Senator from Wapello relies, it will be found that the House had a rule which required every member present to vote and that the position of the Senator from Wapello is not sustained by the authority cited by him; and that the member was subject to censure for refusing to vote as per rule of the House. (See Congressional Globe 20, page 84).

The President is of the opinion that under rule 8 and the rulings of Cushing, the Senator from Wapello has not an interest in this question, either directly or personally, which would preclude him from voting and furthermore, the Senate has refused to allow him to refrain from voting.

The President is further of the opinion that the Senator from Wapello should either vote "aye" or "no" on the question before the Senate. (See chapter 1 of Cushing, on the subject of "The Right and Duty of Members to Vote.")

Senator Brookhart moved that the Senate reconsider the vote by which it declined to excuse Senator Whitmore from voting. Carried.

On the question, "Shall Senator Whitmore be excused from voting?" the vote was:

By unanimous consent, on request of Senator Whitmore, the following letter was ordered printed, relative to Senate File No. 280:

Ottumwa, Iowa, February 14, 1921.

Senator C. W. Whitmore,

Des Moines, Iowa.

Dear Sir:

We have been informed of the report made in the Senate that the Ottumwa High school bonds had been sold. Some one surely made a mistake. We have not sold these bonds, and have not made any bargain for their sale. We have not heard of any way to sell 5 per cent bonds at par without compensating the purchaser in some way for the discount which the present market demands.

Very truly yours,

C. D. Evans,
President Board of Education.

J. A. Wagner,
Secretary Board of Education.

VICKSBURG MONUMENT RESOLUTION

Senator Whitmore introduced the following concurrent resolution and moved its adoption:

Whereas, The United States Congress, by act H. R. 17645, approved September 8, 1916, granted an appropriation for the national memorial reunion and peace jubilee of the Union and Confederate Civil War veterans, held in Vicksburg National Military Park October, 1917, of which said appropriation an unexpended surplus remained which was by act H. R. 5227, approved July 11, 1919, reappropriated to be used in the erection of a memorial archway at the intersection of Clay street, extended, in the city of Vicksburg, within the bounds of Vicksburg National Military Park, in commemoration of the participators and defenders in the siege of Vicksburg fortifications, who sacrificed their lives there; and, especially, memorializing the remarkable success and sacred incidents of that reunion and peace jubilee of October, 1917, and

Whereas, the said archway is now completed in imperishable granite on its chosen site, though without any knowledge of prearranged plans that, if carried out, will seriously militate against the sacred purposes of the arch. The rich perspective of surrounding vistas emphasizes the simplicity with hallowed dignity of honor; and patriotism sanctifies the purposes of the reunion of the Union and Confederate Civil War veterans. To maintain this standard, no other monuments, statues, or portrait tablets should be permitted within a certain radius that may in any way obstruct or detract from the free and open perspective of this arch.

Therefore, Be It Resolved by the Senate, the House concurring, That the secretary of war of the United States be and is hereby requested to grant no privileges to erect any monuments, statues or portrait tablets within a radius of two hundred feet of the National Memorial Arch now standing at the intersection of Clay street of the city of Vicksburg, Mississippi, within the boundary of the Vicksburg National Military Park.

CORRECTION OF JOURNAL

The journal of February 18th was corrected and approved.

PRINTING OF RESOLUTIONS AUTHORIZED

By unanimous consent on request of Senator Stoddard the resolutions of the state association of supervisors and the recommendations of the legislative committee of the state association of supervisors, were ordered printed in the journal.

RESOLUTIONS ADOPTED AT THE 25TH ANNUAL CONVENTION OF
THE STATE ASSOCIATION OF COUNTY SUPERVISORS
AUGUST 18, 1920

We recommend that the law enacted in regard to widows' pensions be modified or repealed and the matter of relief be left in the hands of the board of supervisors.

We further recommend that the law in regard to the domestic animal loss by dogs and wolves be modified or repealed and the claimant be required to notify the supervisor of his district immediately upon meeting with a loss for investigation and that the tax on dogs be increased to male \$2.50 and female \$5.00.

Whereas, The present price of cement is excessively high and the present system of basing and purchase is unfair and unjust,

Therefore, Be It Resolved, That the next General Assembly be requested to enact suitable legislation providing—First, that it shall be unlawful for any cement company to sell cement to the counties at a price in excess of that given to the most favored dealer at the same point, and to provide a suitable penalty by imprisonment for violations of this requirement. Second, to make it unlawful for a cement company to use any other base point than the point of origin or manufacture of the cement in quoting prices to the counties or the state.

We favor a revision of the law, relating to the improvement of railroad crossings, to the end that such improvements will be made in an expeditious manner, and that an equitable division of the cost between the public and the railroad company will be promptly made.

Resolved, That all public highways be under the control of the board of supervisors, they to levy a county assessment and have full charge of all grading, fills, drainage, dragging and repairs.

We favor amending the law relating to the condemnation of land for license bus whereby such fees will remain in the county in which collected until such time as they are needed for road work. Such amendment should be so drawn that the fees will not lose their identity as state funds. Bills should be payable by the state treasurer as at present. He should have in his hands in the state treasury a reserve fund of sufficient size to meet current bills and should draw on the county treasurer only when

necessary, to keep such reserve fund of sufficient size to meet current bills. He should then draw an equal percentage of the fees in the hands of each county treasurer.

We favor amending the law relating to the maintenance of the primary roads to the end that payments from the primary fund may be made promptly and the counties will be relieved of the necessity of advancing county funds in payment for such work.

We favor amending the law relating to the condemnation of land for road purposes so that the board of supervisors will have power to condemn right of way through suburbs or ornamental grounds surrounding dwellings.

We favor amending the primary road law so that where any bridge or culvert located on the primary system costs in excess of \$10,000 such excess cost may be paid from the primary road fund.

Respectfully submitted

Resolution Committee.

RECOMMENDATIONS OF LEGISLATIVE COMMITTEE OF STATE ASSOCIATION OF COUNTY SUPERVISORS

1. Purchase of land for gravel pits. Under the present law, the county board of supervisors is authorized to purchase or condemn land for the purpose of securing gravel for road purposes. The amount of land that can be purchased in any one place is limited to five acres. It is recommended that this limitation be removed.

2. Notice of special assessment for hard surfacing. Section 2922 of the compiled code apparently requires personal notices of hearings to be served on the owner and also on the occupant of land included in an assessment district, and in addition it requires a published notice. It is recommended that the law be changed so that only the published notice will be required, the same as in drainage work.

3. Publication of description of land included in assessment districts. Section 2917 of the compiled code provides that upon the final establishment of a road assessment district, the board of supervisors shall cause to be entered and published in the minutes of its proceedings, a description of the real estate embraced within the district. The publication of a description of these lands results in a considerable cost to the counties. It is a duplication of the data which must be published when the notice of hearing on the assessment is published. It is recommended that the law be changed so that the first publication is omitted.

4. Lands included within assessment districts. The law relating to the levying and collecting of assessment for hard surfacing on primary

roads is not clear with reference to lands located on the outside of an angle in the road. It is recommended that this point be clarified so that there is no question about the legality of assessing a portion of the cost of road improvements to land located on the outside of such angles, and within one and one-half miles of the road being paved.

5. Primary road funds. The interest on primary road bonds is limited to five per cent. Such bonds cannot be sold for less than face value. At the present time it is not possible to sell such bonds under these limitations. Also, bonding attorneys hold that primary road bonds are a good security only up to such an amount as the tax levy authorized will pay the interest and retire the principal. In other words, the bond attorneys will take no account of the estimated receipts from the primary road fund in determining the value of primary road bonds as securities. Bond houses object to that feature of the law which makes the retirement of any bond optional with the county after five years, and which makes the interest payable annually. In order to meet these conditions and make the primary road bonds more salable, we would recommend the following amendments:

(a) Make the interest payable semi-annually.

The tax for paying this interest is collected semi-annually and it would be no hardship on the counties to pay the interest semi-annually.

(b) Strike out the optional retirement feature as contained in section 2934 of the compiled code.

(c) Make the bonds a general obligation of the county and provide that if, when any of the bonds become due, the receipts from the primary road fund or from tax levies authorized are not sufficient to pay the interest, and retire the principal, the bonds may be refunded through the issuance of county funding bonds.

(d) Increase the maximum interest rate to six per cent. This will make the bonds salable at this time and enable those counties which have voted bonds to proceed to the improvement of the primary road system and make payment thereof. As financial conditions improve, the boards of supervisors can be depended upon to reduce the interest rate on bonds being issued in accordance with the condition of the bond market.

6. Contract Bonds. The law requires a surety bond on all contracts over one thousand dollars. Surety companies charge $1\frac{1}{2}$ per cent of the contract price as the premium on such bonds. This law is costing the state hundreds of thousands of dollars annually and with very little benefit in return, as it is very seldom that any recovery is made from a surety company.

It is recommended that the law be modified so as to require such bond as the board of supervisors shall determine. In this way a personal bond may be accepted, or a contractor may deposit securities such as liberty bonds or other negotiable paper with the county, in lieu of a surety bond.

7. Limitation on appropriations for bridges. Section 2894 of the compiled code limits the amount which any county can appropriate for any one bridge as follows:

(a) Population of county, 15,000 or less, not more than \$25,000 for a bridge wholly within the county and not more than \$15,000 for a county line bridge.

(b) Population of county 15,000 or more. Not more than \$35,000 for a bridge wholly within the county and not more than \$25,000 for a county line bridge.

It is recommended that these limitations be removed. The board of supervisors is entrusted with the spending of hundreds of thousands and even millions of dollars annually. Certainly if a board is competent to spend such a large sum efficiently, it is competent to determine how much money the county is justified in spending on any one bridge.

Since the above law was enacted, the laws governing the administration of bridge work have been modified, providing for the highway commission and the county engineers, requiring that bridge work must be done in accordance with the standard plans and specifications of the state highway commission, and that the contract for any bridge or culvert costing in excess of two thousand dollars shall be approved by the state highway commission. Thus ample safeguards have been thrown around the expenditure of funds for bridgework, so that there is no necessity for such limitation.

8. Storage of government equipment. At present some of the trucks and other equipment assigned to this state by the government are standing out in the weather. The state highway commission has leased ground and constructed four storage buildings. It is recommended that the state purchase the ground at Ames where this equipment is located and that additional storage buildings be constructed sufficient to house the government equipment. These buildings and grounds are necessary in order to protect the equipment from the weather and secure to the state the greatest benefit therefrom. The necessary expenditure is only a very small percentage of the value of the equipment. The funds should be provided from the motor license fees.

9. The Anderson bill. House File No. 452.

We are opposed to the passage of the Anderson bill, House File No. 452, for the following reason:

1. The bill would prevent the Highway Commission from investigating conditions in any county. We feel that the commission should have power to make such investigations and if conditions are not right they should be reported to the attorney general.

2. The bill would take away the commission's supervisory power over county and township road officers. We feel that better and more uniform work is secured due to the fact that the commission exercises a general supervisory control.

3. The bill would repeal the commission's power to remove county engineers for incompetency. If a county engineer is not competent he should be subject to removal, and the commission is in good position to judge his competency.

4. The bill would require the commission to furnish standard specifications for bridges and culverts on ordinary roads (which constitute 95% of all bridges and culverts) but does not require that the work shall be done in accordance therewith. We see no good reason why the bridges and culverts on secondary roads should not be built in accordance with the standard specifications.

5. The bill would exempt all contractors for bridges costing \$5,000.00 or less each from being checked and approved by the commission. At present bridges costing less than \$2,000.00 are so exempt. We see no good reason for raising this limit. It is a good thing to have these contracts checked and approved. This checking has saved many thousand of dollars to the counties.

6. The bill would permit changes in the county roads without the commission's approval. We prefer to have the commission share this responsibility.

7. The bill would reduce the commission's maintenance fund to one per cent of the motor license fees. Each year the commission prepares plans for hundreds of bridges and culverts on the secondary roads. This work is done without cost to the counties. If the maintenance fund is reduced to one per cent of the motor license fees the commission will have to charge the counties for these plans.

8. One per cent of the motor license fees will not permit the commission to carry on the federal aid work. This work will have to stop if this bill becomes a law and the state will lose its federal aid.

Each of us have had dealings with the highway commission extending over several years. We feel that the work of the commission is good, and that the connection with the county and township road work has resulted in better and more uniform work at more favorable prices. There is no necessity for legislation such as is proposed in this bill. It would result in damage to the road work.

It is recommended that authority be given to pay from the primary

road fund for bridges and culverts on approved projects for the improvement of the primary road system.

RESOLUTION FOR INVESTIGATION OF FISH AND GAME DEPARTMENT

Senator Holdoegel introduced the following resolution:

Concurrent resolution of the Thirty-ninth General Assembly of the state of Iowa, providing for an investigation of the administration of the state fish and game department during the incumbency of E. C. Hinshaw as state fish and game warden, particularly with reference to his alleged receipt of large sums of money from the sale of fish belonging to the state of Iowa and unaccounted for, and directing the executive council to make the investigation and report to the attorney general for such action as the facts disclosed may warrant:

Whereas, facts have come to the knowledge of the General Assembly of the state of Iowa which tend to show that irregularities existed in the accounts of E. C. Hinshaw, former state fish and game warden, during his incumbency in office, particularly with reference to large sums of money received by said E. C. Hinshaw from the sale of fish owned by the state of Iowa and unaccounted for; and

Whereas, an investigation of his said office was instituted by the committee on departmental affairs of the Thirty-eighth General Assembly of Iowa, which investigation was incompleated owing to the adjournment of the Thirty-eighth General Assembly; now, therefore,

Be It Resolved by the Senate, the House concurring:

Par. 1. That the executive council of the state of Iowa be and is hereby authorized and instructed to thoroughly investigate the ac-

counts of E. C. Now, Therefore, Be It Resolved by the Senate, the House Concurring, That we recognize in agriculture the fundamental industry of the nation upon which rests the prosperity and contentment of the entire people and that as such the cause of agriculture demands in the cabinet a man who possesses both the requisite special knowledge and training and absolute and proved fidelity to the great cause which he represents.

That effective agriculture has become a science highly organized and having its vital connection with the whole range of the nation's activities and that it is a source of pride to the people of Iowa that for the last quarter of a century the portfolio of agriculture has been held by an Iowan, with one exception covering a period of about seven years.

That we hereby express our absolute confidence in our distinguished fellow citizen Henry C. Wallace, and his unusual fitness for the great post now assigned him. We congratulate him and the state on this continuance of Iowa's noted relation to the department and we congratulate the nation, and especially all within its borders who till the soil, upon this most fitting appointment.

No assignment of any right or claim to benefits hereunder made prior to the issuance of the state auditor's warrant herein provided for, shall be valid, and any transfer or attempt to transfer any such right or claim, or any part thereof, by any beneficiary prior to the issuance of such warrant, and the acquiring or attempting to acquire by any other person of any interest in or title to such claim prior to the issuance of such warrant, shall be a misdemeanor and punishable as such.

Sec. 10. All payments and allowances made under this act shall be exempt from all taxation, and from levy and sale on execution, and all bonds issued hereunder shall be exempt from taxation.

MINORITY REPORT OF THE SENATE COMMITTEE ON DEPARTMENTAL AFFAIRS

MR. PRESIDENT—The undersigned members of your committee on departmental affairs beg leave to say that they have had under investigation, the department of public instruction.

We find:

(1) That the superintendent of public instruction, P. E. McClenahan, has charged and collected from the county institute fund of certain counties in Iowa, as shown by the record in the hearing, a fee of fifty dollars (\$50.00), for giving a lecture or lectures to the teachers attending the county institute in such counties.

(2) That the said P. E. McClenahan acknowledges that he has made such charge and collected such fees in the total sum of five hundred seventy-five dollars (\$575.00) since he took his office.

(3) That during the month of April, 1920, Attorney General H. M. Havner and his assistant, W. R. C. Kendrick, orally advised Mr. McClenahan that it was illegal for him to make such charges for lectures at teachers' institutes, and advised him to discontinue the practice.

(4) That Mr. McClenahan, notwithstanding the advice of the attorney general, thereafter, in at least two instances, received pay from the county institute funds, in the sum of fifty dollars (\$50.00) in one case and \$25.00 in the other, for the giving of his lectures to the teachers attending such county institutes.

(5) That Mr. McClenahan has, at all times heretofore, claimed and now claims, that he has a legal right to make such charges for his services in giving lectures to teachers at county institutes.

(6) That Attorney General Havner appeared before your committee and testified that he had advised the superintendent of public instruction, that it was illegal for him to charge or collect such fees, and Attorney General B. J. Gibson issued a written opinion since the commencement of this investigation to the effect that the making of such charges and the collecting of such fees by the superintendent of public instruction was illegal and contrary to the provisions of the statute.

Conclusions:

(1) In view of the foregoing facts and under the record as it now stands, the undersigned members of your committee are of the opinion that the making of a charge or collecting of a fee by the superintendent of public instruction from the county institute funds, or public funds, for his lectures before the teachers of county institutes, is in fact illegal, unauthorized and contrary to the express provisions of the statute.

(2) We are also of the opinion that by reason of the conduct of the superintendent of public instruction in making such charges, or receiving such fees, and continuing the practice after he was advised of its illegality by the attorney general, that he is no longer able to command the respect and confidence of educators and teachers, or of the people of the state of Iowa, in carrying out the duties of his office, and his continuance in office will not be for the best interest of the department of education.

Recommendation:

We, therefore, recommend that the House of Representatives take such further action in this matter as, in their judgment, the facts and the law should warrant.

EXPLANATION OF VOTE

The motion carried and the Senate reconsidered the vote by which it refused to adopt the amendment offered by Senator Campbell.

Senator Parker raised the point of order that the amendment offered by Senator Campbell to the amendment of Senator Whitmore, was out of order, since the original amendment having been adopted, was then a part of the bill.

The chair held that Senator Campbell was at that time offering an amendment to the original bill, and the point of order was therefore overruled.

Senator Parker raised the point of order that since the Senate had already acted upon a similar amendment offered by Senator Campbell the present amendment could not be acted upon at that time. Overruled.

BILLS SIGNED BY THE PRESIDENT

The president of the Senate announced that, as President of the Senate, he had signed in the presence of the Senate, Senate Files Nos. 295, 298, 368, 398, 481, 610 and Senate Joint Resolution No. 6.

CONSIDERATION OF TABLED MOTION

Senator Price moved that the Senate take from the table the motion to reconsider the vote by which House File No. 470 passed the Senate.

Senator Holdoegel raised the point of order that a motion to reconsider which had been laid upon the table, disposed of the matter permanently, under the rules of the Senate.

Senator Smith differed with Senator Holdoegel, stating that although a motion had been made to reconsider, the question itself had not been reconsidered, so that a motion to take from the table the motion to reconsider was not out of order. The motion to reconsider was laid on the table, but coupled with the motion to lay upon the table was the motion to reconsider, so that the motion to reconsider was not finally acted upon.

Senator Foskett raised the point of order that when a motion had been made that the vote by which a bill had been passed be reconsidered, and that motion be laid upon the table, the question was thereby settled. He stated that that was the well-established precedent of the Senate; and raised the further point of order that the bill was out of the hands of the Senate and could not be recalled.

Senator Price raised the point of order that the only question involved was as to the time within which the Senate must take the motion from the table. He stated that the assumption of the Senate that, when a motion to reconsider had been made and that motion laid on the table, the question was settled, was wrong; because whenever a two-thirds vote was given to take from the table a motion to reconsider a question, that question was off the table, and the question then before the Senate would be for consideration of the motion to reconsider.

Senator Holdoegel raised the point of order that it had been the practice of the legislature from time immemorial that after a bill had passed the Senate, followed by a motion to reconsider the vote and lay the motion on the table, the bill passed beyond the recall of the Senate and was immediately messaged to the House. He made the further point that if the point of Senator Price were sustained, all bills must stay in the Senate until by the expiration of time they might be released, and that it would upset the precedent of the Senate for a long time back.

The President made the following ruling :

Regardless of the precedents which may have been established in the Senate, the chair desires to call your attention to section 235 of Cushing's Manual of Parliamentary Practice, which is as follows:

"When it is desired to resume the consideration of a subject which has been laid on the table, the proper procedure is to move 'to take the question (specifying it) from the table.' If such a motion is adopted, the question is again brought before the assembly at precisely the same stage as when it was laid on the table. If the question is never taken from the table, it remains removed from consideration, and the effect is the same as if it had been indefinitely postponed."

Section 88 is as follows:

"This motion is in order only when no other question is before the assembly. It is undebatable; it does not permit of amendment, and no other subsidiary motion can be applied to it. If decided in the af-

firmative, it brings the question again before the assembly at exactly the same position as when laid on the table, with any motions then adhering to it still pending."

Senator Holdoegel raised the point of order that a motion to reconsider could be considered but once, and that when a motion to reconsider had been presented, the very fact that it had been laid on the table would preclude the possibility of its further consideration; that such a motion could not be made again, and could not be considered.

Senator Price raised the point of order that there had been no action taken upon the motion to reconsider, since the vote to lay the motion to reconsider on the table had prevented any action upon the motion to reconsider.

Senator Holdoegel raised the point of order that the motion to lay the motion to reconsider upon the table was evidence that such a motion had been before the Senate, and that such a motion could not be acted upon twice by the Senate.

Senator Pitt raised the point of order that the only thing that had been voted upon was to lay the motion to reconsider upon the table, that the motion to reconsider had not been voted upon, and that it could be removed from the table by a two-thirds vote, without debate.

Senator Holdoegel raised the point of order that the question before the Senate would be as to whether or not the Senate should suspend the rule requiring that a motion to reconsider be made but once.

Senator Pitt raised the point of order that the motion to reconsider had never been voted on; that although a motion to reconsider had been made, coupled with that motion was the motion that the motion to reconsider be laid upon the table; that the latter clause was voted on. He further stated that the present condition of the bill was that the motion to reconsider was laid on the table, and that consequently it could be removed from the table and again considered by a two-thirds vote of the Senate without debate.

The President made the following ruling:

The chair is of the opinion that on this proposition the real question that was submitted to the Senate was the question of lay-

ing the motion to reconsider on the table, and that the question now before the Senate, which will require a two-thirds vote, is whether or not you will take this matter from the table at this time.

Senator Price asked for a roll call.

Senator Anderson from the committee on departmental affairs submitted the following report:

MR. PRESIDENT—Your committee on departmental affairs, who have been investigating the office of the superintendent of banking in the state of Iowa, beg leave to report that we have procured the evidence of all witnesses, so far as we were able, who had knowledge of any part of the transaction concerning the granting of a bank charter to the Farmington State Bank, at Farmington, Iowa.

Your committee finds, and the evidence in the record indicates, that when the application was made for the charter before mentioned that there was some question as to whether the town of Farmington and the community thereabouts was not amply served with banking facilities, and that there was some question as to whether public necessity, convenience and advantage would be promoted by the proposed new bank and whether the charter and general fitness of the persons named as of-

ficers and stockholders were such as to command the confidence of the community in which the new bank was to be located; and because of those facts, the superintendent at that time refused to issue a charter.

That, thereafter, in another case, which was appealed from the bank superintendent to the committee on retrenchment and reform, the committee held that the only grounds on which the bank superintendent could refuse to issue the charter was that the bank was what is known as a "spite bank," meaning that it was organized and promoted by pro-German sympathizers to punish competing banks for their activities during the war. It does not appear, that under that definition, the bank above referred to, was a "spite bank," and the superintendent of banking, after that ruling by the retrenchment and reform committee, came to the conclusion that he could not legally refuse to grant the charter in question.

Your committee further finds from the testimony that fees in the sum of five thousand (\$5000.00) dollars were paid to attorneys who prosecuted the application for the aforementioned charter, but that there is no showing whatever of any collusion between the superintendent of banking and the said attorneys.

It is not within the province of this inquiry for us to determine the value of the service or the reasonableness of the charges.

Your committee further finds that the superintendent of banking should be entirely exonerated from any misconduct in connection with the granting of the charter to the bank above referred to.

We further believe that similar publicity should be given to the public through the press of the state, showing the exoneration of the bank superintendent as has been given through the same press in making charges against him, or his department.

The administration of the provisions of this act and the issuance of all licenses specified in the act, shall be done by a body of three, who shall constitute the state board of osteopathy, hereinafter referred to as "the board". The members of the board shall be the examiners of all applicants under this act. Within thirty days after this act shall take effect the governor shall appoint three members of said board who shall each be regularly licensed osteopathic physicians or osteopathic physicians and surgeons, in good standing and recommended by the regular osteopathic organization in this state. Neither shall be an officer or member of any faculty of any osteopathic or medical college. Each shall have been engaged in the practice of osteopathy for a period of at least five years immediately preceding the appointment. One shall be appointed for a term of one year, one for a term of two years and one for a term of three years, and thereafter it shall be the duty of the governor to appoint or reappoint one examiner each year and for a term of three years, the three year appointments being made as the ones heretofore specified lapse. Each examiner shall continue in office until his successor has been appointed and has qualified."

"The board shall have and use a common seal and may make and adopt the necessary rules and regulations and by-laws relating to the

The average required to pass shall be fixed by the board prior to each examination."

EXPLANATION OF VOTE

I voted "no" on S. F. No. 556, not for the reason that I am opposed to the purpose of the bill, but because I do not believe the bill is drawn in proper shape to bring about the desired result. It does not authorize the executive council to issue the certificate of authority which must

be filed with the auditor of state before warrant in payment of expenses can be issued.

Be It Resolved by the Senate, the House concurring, That the secretary of the Senate and the chief clerk of the House be required to remain at the capitol and perform their respective duties as such for a period of six days after the close of the session of the Thirty-ninth General Assembly; that they be permitted to select four each of their respective assistants who shall remain for a period of four days, for the purpose of reading, correcting, arranging, preserving and certifying the records of the session and closing up the business of their respective offices; and the secretary of the Senate and the chief clerk of the House are hereby authorized to correct the journals of the Senate and the House, respectively, of the last day of the session; the postmistress shall perform her duties for three days following adjournment; all of whom shall receive the same compensation per day for such extra time as they now receive.

The resolution was taken up, considered, and adopted.

HOUSE RESOLUTION CONCURRED IN

Senator Whitmore called up the following resolution and moved its adoption:

CONCURRENT RESOLUTION

Memorializing the federal trade commission to issue a complaint against the trade practice of the steel industry known as "Pittsburgh Plus", and to expedite the proceedings now pending before said commission with reference to said practice.

Whereas, The large number of steel plants producing rolled steel products, located in the middle west, manufacturing enormous quantities of rolled steel sufficient to supply the western demand, derive practically all of their iron ore from the western mines and the major portion of other raw material for the manufacture of steel from sources within the western states, and produce their rolled steel at costs which compare favorably with the cost of similar products produced in the east, and;

Whereas, By reason of such facts there is no sound economic reason why the price of rolled steel products should be greater in the middle west and western states than in the territory immediately adjacent to Pittsburgh, Pennsylvania, and;

Whereas, There is in vogue and general use in the steel industry a practice known as "Pittsburgh Plus", in pursuance of which all producers

of rolled steel, irrespective of their location, charge for their products the price at Pittsburgh plus the freight from Pittsburgh to destination, resulting in inordinately high prices for such rolled steel products in the west and middle west, and;

Whereas, By reason of this practice all of the numerous manufacturers in the west and the middle west using rolled steel as raw material, such as manufacturers of structural steel, road machinery, farm machinery, reinforcing bars and other products too numerous to mention, are compelled to pay exorbitant prices for such raw material which deprives them of the right of free and unrestrained competition, not only in the territory normally adjacent to their plants but operates also as a discrimination against them in any market in the United States as compared with eastern manufacturers, and;

Whereas, Such practice results in the maintenance of unjust and uneconomically high levels of prices for rolled steel products which is necessarily directly reflected in the cost of manufactured products to the consumers and results in an unjust tax upon the public, paid in the form of higher prices for all articles and commodities manufactured from rolled steel, and;

Whereas, Such economic practice operates to restrict the natural and normal development of western and middle western states, cities and communities, and;

Whereas, An application for a complaint against the several producers of rolled steel having for its purpose the abolition of such trade practice, has been pending before the federal trade commission since on or about the first day of August, 1919, based upon the Clayton Act, and;

Whereas, The interest of this state as a purchaser of such high priced products and the interests of the people of this state require a speedy correction of the practice complained of;

Be It Resolved by the House, the Senate concurring, That the facts and conditions respecting such trade practice warrant and require the issuance of the complaint prayed for, and the federal trade commission is hereby respectfully requested and urged to issue such complaint with as much expedition as is reasonably practicable, and upon final hearing thereon to grant to the public so discriminated against the utmost relief.

Be It Further Resolved, That a duly authenticated copy of this resolution be transmitted to the federal trade commission, and to our Senators and Representatives in the congress of the United States.

The resolution was taken up, considered, and adopted.

TRANSFER OF FUNDS

Senator Foskett offered the following resolution:

Whereas, The per capita fund authorized by the Thirty-eighth General Assembly for the support of certain institutions under the board of control was not sufficient to pay the expenses of said institutions owing to the high cost of all commodities bought by said institutions, and

Whereas, Under the authority of the executive council the auditor was authorized to issue warrants on the state treasurer which have overdrawn the support fund of these institutions in the hands of the treasurer, which, together with the amount of the deficit for the present month will amount to the sum of approximately one hundred ninety-nine thousand eight hundred thirty-nine dollars and thirty-nine cents (\$199,839.39).

Therefore, Be It Resolved by the Senate, the House concurring, That the auditor and the treasurer of state are hereby instructed to transfer from the general revenue fund of the state to the support fund of the institutions specified herein the sum of one hundred ninety-nine thousand eight hundred thirty-nine dollars and thirty-nine cents (\$199,839.39) or so much thereof as shall be necessary to make up the deficiency in these funds; the amount of deficiency in each institution being as follows:

Institution	Location	Deficit
Soldiers' Orphans' Home, Davenport		\$18,561.95
Training School for Boys, Eldora		6,165.84
Institution for Feeble-minded Children, Glenwood		73,780.76

State Hospital and Colony for Epileptics, Woodward		33,132.26
<hr/>		
Total		\$199,839.39

The resolution was laid over under the rule.

The bill having received a constitutional majority was declared to have passed the Senate and the title was agreed to.

Senator Newberry moved that the vote by which the bill passed the Senate be reconsidered and that the motion to reconsider be laid on the table, which motion prevailed.

EXPLANATION OF VOTE

I have protested and voted against House File #21 because we passed a House bill, February 21st, fixing the salary of county officers for another two years, at the same salary they received the last two years, this includes the county superintendent of schools.

I think we are not keeping faith with our constituents when we give the board of supervisors the power to raise salaries and no power to reduce them.

DAVID MEREDITH.

By unanimous consent Senator Dutcher withdrew the motion filed by him to reconsider the vote by which Senate File No. 607 passed the Senate.

THIRD READING OF BILLS

On motion of Senator Wichman, House File No. 307, a bill for an act making provision for a convention to revise and amend the constitution, naming the number of delegates and districts; fixing the compensation of such delegates and the time of convening of the convention; making an appropriation to pay the expenses of such convention; and making a provision for submitting the amendments and additions to the constitution to a referendum, returned by the committee without recommendation, was taken up and considered.

Senator Wichman offered the following amendment and moved its adoption:

Amend by striking out all after the enacting clause and inserting in lieu thereof the following:

Section 1. That in pursuance to the mandate of the voters of the state of Iowa, given at the general election in November, nineteen hundred twenty, a convention to revise and amend the constitution is hereby called to assemble on the second Monday in May, nineteen hundred twenty-three at twelve o'clock noon, in the capitol building in the city of Des Moines.

Sec. 2. The convention shall consist of one hundred eight (108) delegates and they shall be chosen from the same districts as the present representatives in the General Assembly.

Sec. 3. Delegates shall be residents of the district from which elected and possess the same qualifications as state representatives, excepting that they shall be not less than thirty years of age, and sex shall not disqualify any one from being such delegate. Any citizen having the qualifications herein prescribed and desiring to be a candidate, and residing in the district he desires to represent, shall

file, or cause to be filed, with the secretary of state at least forty days before the date of said primary a petition signed by at least two per cent of the voters in said district, as determined by the total vote cast for governor in said district at the last preceding general election. Said petition shall be similar in form, so far as applicable, as that required for representatives in the regular primaries, excepting that no party shall be referred to therein and no party qualifications required. The secretary of state shall prepare blank petitions, which shall be sent to any citizen on demand.

The names of persons so petitioned for shall be certified to the proper county auditors in the same time and manner as other district officers, and shall be printed on the official ballot as herein provided.

A separate ballot shall be prepared by the county auditors with the names alternated by precincts in the usual manner for the nomination of such candidates for delegates to said convention and same shall be substantially in the following form:

(Place a cross in the square preceding the names of the parties you favor as candidates.)

Which ballots shall be certified in the usual manner by the county auditor and have the usual blanks for certificate by the judges of election. Each person qualified to vote in said primary shall be entitled to vote for two persons in a district where one delegate is to be elected and for four persons in a district where two delegates are to be elected, and the returns shall be canvassed and certified to the county auditor by the judges of election in the usual manner and shall be canvassed by the board of supervisors at the same time as that for other officers voted for at said primaries, and an abstract of such canvass certified to the secretary of state and said abstract returns shall be canvassed by the executive council at the same time and in the same manner as other returns and they shall certify the two persons receiving the highest number of votes

in districts entitled to one delegate as the nominees for said districts and the four persons receiving the highest number of votes in districts entitled to two delegates as nominees in such districts. Results of such canvass shall be certified to the respective county auditors in the same time and same manner as other officers and said county auditors shall prepare a separate ballot for the general election with the names of such nominees thereon in substantially the same form so far as applicable, as the primary ballot herein referred to, no reference being made to party therein.

The vote on such ballots at the general election shall be canvassed in the same manner and by the same officers as those for state representatives and the results certified in the same manner to the secretary of state, who shall issue certificate of election to the person having the highest number of votes in districts entitled to one delegate, and to the persons having the highest number of votes in districts entitled to two delegates.

The laws then in force in reference to primary and general elections so far as applicable shall apply to the nomination and election of such delegates.

Sec. 5. The delegates shall be chosen at the regular election in nineteen hundred twenty-two, and all votes cast for delegates at said election shall be tabulated, returned and canvassed in the manner then provided by the law for the tabulation, return and canvass of votes cast in elections for state representative so far as they be applicable. In going to and returning from the convention and during the sessions thereof the delegates shall, in all cases, except treason, felony or breach of peace, be privileged from arrest; and they shall not be questioned in any other place for any speech or debate in the convention.

Sec. 7. Each delegate shall receive ten (10) dollars per day for the time between the convening and final adjournment of said convention, and the further sum of ten cents per mile for the distance between the home of said delegate, and the place where said convention is held, but in no case shall any delegate be paid more than one thousand dollars (\$1000.00) for his said per diem compensation. Said per diem shall be paid at the end of each thirty days and the balance at final adjournment. The pay and mileage allowed to each delegate shall be certified to by the president of the convention and entered in the journal, and warrants shall be issued therefor in the usual manner.

Sec. 8. A majority of the delegates elected shall constitute a quorum for the transaction of business. The convention shall choose

its own officers, determine the rules of its proceedings, and judge of the qualifications, elections and returns of its members, and shall have power to appoint such officers, employees, and assistants as it may deem necessary and to fix their compensation. The governor, or in his absence the lieutenant governor, shall call the session to order at its opening session and shall preside over it until a temporary or permanent presiding officer shall have been chosen by the delegates.

Sec. 9. A complete record of the proceedings of the convention, not including speeches in debates, shall be kept and the journal containing the same filed with the secretary of state. The revision or alteration or amendments to the constitution agreed to and adopted by the convention shall be recorded in the office of the secretary of state.

Sec. 10. The revision of or amendments to the constitution adopted by the convention shall be submitted to the qualified voters of this state for ratification or rejection, in such form and at such time as the convention may prescribe, not later however than the next general election after the adjournment of such convention. No such revision, alteration, or amendments shall take effect unless approved by a majority of the electors voting at such election. The convention shall fix the day, or days, upon which such revision, alterations, or amendments shall become effective.

Sec. 11. All laws applicable to general elections then in force and not inconsistent with this act shall be applicable to such election held to ratify or reject the recommendations of said convention, and the convention shall prescribe the notices to be given thereof and the style or form of ballot to be used thereat and all such directions shall be carried out by the officials then required to look after and carry out the provisions in reference to elections. All laws in force governing elections and not inconsistent with the provisions of this act, or with powers exercised under the terms thereof, shall apply to and govern elections held under the terms hereof.

Sec. 12. The convention shall have power to punish, by imprisonment, any person, not a member, who shall be guilty of disrespect to the convention, by disorderly or contemptuous behavior in its presence. But no such imprisonment shall extend beyond twenty-four hours at any time, unless such person shall persist in such disorderly or contemptuous behavior. Commitments for disorderly or contemptuous behavior in the presence of the convention shall be made in the manner now provided by law for the commitment of persons guilty of disrespect to the General Assembly.

Sec. 13. It shall be the duty of all public officers to furnish the convention with any and all statements, papers, books, records and public documents that the convention shall require. The convention, and its committees, shall have the same power to compel the attendance of witnesses, or the production of papers, books, records and public documents, as is now exercised by the General Assembly.

Sec. 14. It shall be the duty of the law librarian of this state to collect and compile such information and data as he may deem necessary and convenient for the use of the delegates to said convention and to have the same ready for their inspection and use at the time the convention meets. He shall also compile and transmit to such delegates such information and data as they may call for and as he may be able to obtain between the time of their election and the assembly of such convention.

Sec. 15. Sufficient funds are hereby appropriated from the state treasury to pay the compensation and expenses authorized by this act, which shall be paid upon properly certified statement from the presiding officer and secretary of said convention. Such certified statement shall be directed to the state auditor, who is authorized and directed to issue warrants upon the state treasury in accordance therewith, and the state treasurer is authorized and directed to pay such warrants from funds in the state treasury not otherwise appropriated.

Sec. 16. The convention shall after their deliberations have been completed, by committees or otherwise, prepare and issue an address to the people of this state, setting out in full the alterations, revisions and amendments which they recommend and fully explaining the same and their reasons for such revisions and amendments and arrange for its publication and distribution.

C. section 3059) be and the same is hereby amended by striking that part of said section beginning with line number 38 as follows: "He shall in all cases collect and remit to the department the correct license fee on each motor vehicle registered by him and shall be responsible on his bond for such amount. All fees and penalties collected by the county treasurer shall be remitted to the department on or before the 15th day of each month following their

collection in the same manner as provided by section 1459 of the code," and by substituting in lieu thereof the following: "He shall collect the license fee and penalties on each motor vehicle registered by him and shall be responsible on his bond for such amount. He shall remit such amount to the treasurer of state as herein provided."

"The county treasurer shall on or before the 15th of each month report under oath to the department on forms furnished by it, giving a full and complete statement of all fees and penalties so received by him during the preceding calendar month. The department shall immediately upon receiving the same, report to the treasurer of state the amount so collected by such county treasurer. The treasurer of state shall keep proper books of account for the purposes specified herein, and shall report to the department each remittance from the county treasurer, when said remittance is received."

The treasurer of state shall maintain in the state treasury of the money collected as in this chapter provided, a cash balance of not to exceed \$500,000.00. He shall draw upon the treasurer of a debtor county to reimburse the working balance hereby created a sum equal to the amount paid by the state treasurer on behalf of said county upon warrants issued by the state auditor in payment of indebtedness created from all road improvements properly chargeable to motor vehicle fund of said debtor county, and for which warrants were properly issued by the auditor of state. In addition he shall draw upon the treasurer of each county of the state in proportion to their apportionment of motor vehicle fund as made according to the provisions of section 35 of chapter 275 of the acts of the 38th General Assembly (C. C. 2078) a sum in the aggregate including the amounts to be drawn from the debtor counties as above provided, to restore said working balance to an amount not exceeding said maximum. Such drafts shall be honored by the treasurer of each county upon presentation.

The county treasurer shall on or before the 15th day of each month remit to the treasurer of state six per cent of all fees and penalties collected by him according to the provisions of the act for the registration of motor vehicles by him during the preceding calendar month. The treasurer of state shall divide the maintenance fund above provided for as follows: Two and one-half per cent to the maintenance fund of the highway commission for the purpose of paying salaries and defraying the necessary expense thereof, the three and one-half per cent to the maintenance fund of the motor vehicles department for the purpose of paying the salaries and defraying the necessary expense thereof, the three and one-half per cent to the maintenance fund of the motor vehicle department for the purpose of paying the salaries and defraying the necessary expense thereof as provided by section 35 of chapter 275, acts of the 38th General Assembly (C. C. 3078).

When the treasurer of state makes the apportionment of the motor vehicle fund to the various counties of the state as provided by the law as it appears in section 35 of chapter 275, acts of the 38th General Assem-

bly (C. C. 3078) he shall require the county treasurer of all the various counties which have collected a greater amount of the motor vehicle fees and penalties than is apportioned to said county or counties, to remit to the treasurer of state such excess amounts. The treasurer of state shall immediately upon the receipt of the excess amounts above provided for, redistribute them to the county treasurers of the counties which have collected of the motor vehicle fees and penalties a less amount than that apportioned to said counties by the apportionment of the motor vehicle fund, according to the amounts shown to be due said counties.

The funds shall be paid to the several counties by the treasurer of state, upon a warrant properly issued by the auditor of state, who shall issue said warrant upon an authorization made by the highway commission stating how much and to what counties the first, second and third installments shall be paid.

Section 2. The motor vehicle department is hereby authorized to require the county treasurers of the various counties of the state of Iowa to remit to the treasurer of state such additional amounts estimated by a uniform per cent basis upon the total amount of motor vehicle funds apportioned to the individual counties of the state as may be necessary in addition to the three and one-half per cent provided in section 1 hereof, to provide for a deficiency caused by an expenditure of an amount greater than that created by the three and one-half per cent of said fund by the motor vehicle department.

Section 3. Individual counties that have a surplus of primary road funds may by resolution of the county board of supervisors authorize the treasurer of state to purchase in the name of the county road certificate or road bonds of other counties of the state of Iowa and there is hereby vested in the treasurer of state authority to make such purchases when so authorized by resolution. Individual counties having by resolution authorized the treasurer of state to purchase road certificates or road bonds may at any time by resolution of the county board of supervisors authorize and direct the treasurer of state to dispose of the same and the treasurer of state is hereby authorized so to do when so directed by resolution of the county board of supervisors and the proceeds of such sale of certificates or bonds shall be remitted to the county treasurer of the county entitled to receive the same by the treasurer of state.

Section 4. That the law as it appears in section 35 of chapter 275 acts of the 38th G. A. (C. C. 3078) be and the same is hereby

amended by striking out of line two of said section, the following words: "Paid into the state treasury", and by substituting in lieu thereof the following: "collected"; also by striking out that part of said section beginning with line seven as follows: "paid into the state treasury on and after the taking effect of this act pursuant to its provisions," and by substituting in lieu thereof the following: "collected pursuant to the provisions of this act"; also by striking out that part of said section beginning with line 11 as follows: "paid to the treasurer of state" and by substituting in lieu thereof the following: "collected pursuant to the provisions of this act."

Section 5. The provisions of section 1459 of the code (C. C. 4769) relating to the payment of money into the state treasury shall not be applicable to money collected under the provisions of this act.

Section 6. Publication clause.

Senator Holdoegel raised the point of order that he already had an amendment on file, which should be considered first.

Senator Frailey raised the point of order that Senator Buser was offering a substitute; that the substitute should be acted upon first, for the reason that, if the substitute should be adopted, the amendment of Senator Holdoegel would not be pertinent.

Senator Buser raised the point of order that he had the floor, and that therefor the amendment offered by him should take precedence over the amendment offered by Senator Holdoegel.

Senator Holdoegel raised the point of order that amendments should be taken up for consideration in the order of their filing; and that before a substitute bill should be considered, the author of the original bill should have the privilege of having his bill perfected; that he should have the right to have the amendments placed upon the bill for consideration; and further stated that that was the precedent of all legislative bodies. He raised the further point of order that his amendment was on file before the substitute was offered.

The President made the following ruling:

The chair is of the opinion, under the rules of the Senate, the Holdoegel amendment being on the desk and having been filed in connection with his bill before the substitute amendment of Senator Buser was offered, Senator Holdoegel would have the right to present his amendment; and then Senator Buser would have the privilege and right of offering his substitute bill in lieu of the amended bill, or in lieu of the bill in case the amendment is not adopted.

Senator Holdoegel moved the adoption of the following amendment, previously filed:

Amend by inserting at the end of section two (2) the following:

"This act shall not in any manner affect the existing law regarding the apportionment of the primary road fund to the various counties nor shall it affect the manner of paying bills nor the amount that may be paid from the primary road fund for work in each county."

The amendment was adopted.

BILLS SIGNED BY THE GOVERNOR

A communication was received from the Governor announcing that he had signed Senate Files Nos. 637, 429, 528, 630, 652, 653, 719, 738, 318, 409, 420, 457, 627, 661, 662, 770, and 579.

ADDRESS OF MRS. LARRABEE DELIVERED BEFORE THE SENATE MARCH 24, 1921

MR. PRESIDENT AND SENATORS—I appreciate the honor of being invited to this platform and of standing beside your president, for I know the mantle of lieutenant governor has fallen on worthy shoulders. First voters are allowed a little egotism and I am proud to say my first vote was cast for Governor Hammill. I am perfectly willing that men should make the laws and enforce them while we keep the home fires burning. I thank the senator from Clayton for his kind tribute. There is an element as valuable as law-making that enters the gatherings here—that of friendship which lasts as long as life itself. It was my privilege to attend the first session of the Senate held in this chamber, when the members of the General Assembly marched from the historic old capitol to the new, and I could people these seats with men of another generation who worked conscientiously for their state; but like the men of Flanders Field, "You caught the torch that they threw down" and are working just as conscientiously for the welfare of our people. I realize that the honor shown me today is an honor reflected from the life of one who did his duty as he saw it and who was repaid by the unflinching kindness of friends, many of whom he first met when connected with the Iowa Legislature.

"Let fate do her worst; there are relics of joy,
Bright dreams of the past, which she cannot destroy;
Which come in the night-time of sorrow and care,
And bring back the features that joy used to wear.
Long, long be my heart with such memories fill'd
Like the vase, in which roses have once been distill'd—
You may break, you may shatter the vase if you will,
But the scent of the roses will hang 'round it still."

I trust the remainder of the session will prove pleasant, and that no serious illness will enter your homes. I thank you.

On motion of Senator Newberry the Senate adjourned until
1:30 p. m.

House concurrent resolution memorializing congress of the United States to enact such legislation as may be necessary to construct, erect, build and maintain a bridge across the Mississippi river between the cities of McGregor and Marquette (North McGregor) in the state of Iowa, and the city of Prairie du Chien, in the state of Wisconsin.

Whereas, the Mississippi river is a navigable stream, constituting the boundary between the states of Iowa and Wisconsin, and there being no highway bridge of any description between the cities of Dubuque, in the state of Iowa, and LaCrosse, in the state of Wisconsin, a distance of more than one hundred twenty miles; and

Whereas, the cities of McGregor and Marquette (formerly North McGregor) and Prairie du Chien, are just half way between the cities of Dubuque, in the state of Iowa, and LaCrosse, in the state of Wisconsin, and are situated approximately sixty miles north of Dubuque, Iowa, and sixty miles south of LaCrosse, Wisconsin; and

Whereas, state highway nineteen of the state of Iowa has its eastern terminus at McGregor and Marquette (North McGregor) in the state of Iowa, and state highways number nineteen, twenty-seven and sixty of the state of Wisconsin have western termini at the city of Prairie du Chien, in the state of Wisconsin, and there being no bridge connecting such highways; and

Whereas, there are thousands of automobilists, tourists and interstate travelers, annually going and coming from the western part of Iowa and other states to the west of Iowa, traveling easterly upon the above designated highways across Iowa and Wisconsin and other states to the east of Wisconsin, and vice versa; and

Whereas, public necessity demands a highway bridge at these points to serve the interests of the public in traveling from one state to the other; therefore, be it

Resolved by the House, the Senate concurring, that the members of the legislature of the state of Iowa do hereby petition and earnestly pray the congress of the United States to enact legislation as may be necessary to construct, erect, build and maintain a bridge across the navigable waters of the Mississippi river between McGregor and Marquette (North McGregor), in the state of Iowa, and the city of Prairie du Chien, in the state of Wisconsin.

Resolved further, that a copy of this memorial, properly attested, by the presiding officers and chief clerks of both houses be forwarded by the secretary of state of Iowa, to the Senate and House of Representatives of the United States, and to our senators and representatives in congress.

RESOLUTION RELATIVE TO INVESTIGATIONS

Senator Anderson offered the following resolution and moved its adoption:

Whereas, The Joint Committee on Departmental Affairs has been in session almost daily during the Thirty-ninth General Assembly in conducting investigations of the affairs of certain departments of the State of Iowa, and

Whereas, This Committee has not been able to finish the work of investigating such departments, and

Whereas, It is now apparent that this Committee cannot possibly finish investigation of the departments that have demanded such investigation, or to take up or complete the investigation of other departments that may be under consideration.

Therefore, Be It Resolved, That it is the judgment of the Senate that the Executive Council should continue the investigations under the authority provided by law, upon the adjournment of the Thirty-ninth General Assembly.

By unanimous consent the resolution was taken up, considered and adopted.

REPORT OF COMMITTEE ON DEPARTMENTAL AFFAIRS

MR. PRESIDENT—Your committee on departmental affairs beg leave to report that they have had under consideration the investigating of the Insurance Department of the State of Iowa, and beg leave to state that we have investigated each and every claim and called before us every witness who, we were informed, could give us evidence with regard to any complaints or irregularities.

We find that at least part of the complaints made against this department arose by reason of the fact that the Commissioner of Insurance did not have, under the law, sufficient authority to properly supervise insurance matters in general, a part of which faults, we believe, will be eliminated by certain legislation, which is now before the Thirty-ninth General Assembly.

We further find that the commissioner of insurance is clothed, under part of the law, with a very wide discretion in certain matters and we have found no conduct on the part of the superintendent which amounts to an abuse of that discretion.

We, therefore, have come to the conclusion that the commissioner of insurance should be exonerated from all of the charges which have been preferred against him.

Report adopted.

The motion to reconsider the vote by which House File No. 678 failed to pass the Senate prevailed.

Senator Buser moved that the vote by which House File No. 678 went to its third reading, be reconsidered.

Senator Frailey raised the point of order that since Senator Buser had filed no motion to reconsider within two days after the passage of the bill, he had therefore lost his right to make such a motion.

The President made the following ruling:

The Chair wishes to state on the point of order raised by Senator Frailey, that technically the point he raises is correct. However, the other rule has been the practice of the Senate during this session.

Senator Price raised the point of order, that although that practice had been indulged in, a mere indulgence would not establish a rule, that indulgence would not establish a precedent; and insisted that the chair rule that inasmuch as this point had not been raised before in this session, the motion at present was out of order.

The President stated that he had already ruled that technically speaking, the point was well taken.

The bill having received a constitutional majority was declared to have passed the Senate and the title was agreed to.

By unanimous consent Senator Whitmore withdrew Senate File No. 535 from further consideration.

Senator Holdoegel raised the following point of order:

Senate File No. 330 was passed by the Senate. It went over to the House and was amended in the House. It was returned to the Senate, and the author of the bill moved that the bill be indefinitely postponed, which motion was carried. The House is asking that the amendments be considered, and I raise the point of order on the indefinite postponement of a bill that has been passed by the Senate and amended by the House, and would like to call up the Senate file for action upon the House amendment.

The President made the following ruling:

The House has a right to insist that the Senate act upon its amendments, and if the House insists on the proposition, it will be necessary for the Senate to act upon its amendments.

Senator Fulton moved that the Senate concur in the following House amendments but asked for a negative vote:

Amend by striking out all of section three (3) and substituting in lieu thereof the following:

Sec. 3. Both of the appointive members in the Senate and the House, respectively, shall be named from the representatives of the minority parties, if there be such provided, however, that if there be but one member of the minority party in either the Senate or the House, the representation on said committee in such House shall be one member from the minority parties."

Also amend by striking out all of section seven (7) and substituting in lieu thereof the following:

"Sec. 7. For meetings of the committee other than those held during the time the legislature is in session, each member of the committee shall receive his actual traveling expenses and a per diem of ten dollars (\$10) per day for each day in attendance; itemized statements for such expenses and per diem shall be presented to and audited by the state board of audit, and paid from any funds in the state treasury not otherwise appropriated."

MR. PRESIDENT AND SENATORS:

Nothing that has ever occurred during the session of the Thirty-ninth General Assembly has given me more pleasure than the duty I am about to perform at this moment in presenting to our presiding officer this traveling bag as a token of the respect and friendship of every member of this Senate. We believe that your purpose has been to be fair at all times, and we wish to express our appreciation of such service with this gift. We also extend the hope that there will be given to you many years of usefulness and service.

The President said in reply:

SENATORS:

I can assure you that your expression of confidence is very much appreciated. I have endeavored during the last three months to do as I promised to on my inauguration and on assuming the chair. I promised that I would endeavor to preside fairly and endeavor if possible to see that exact justice was done, and that each senator was given a square deal. I can assure you that that has been my purpose during the entire Thirty-ninth General Assembly. If I have made mistakes, I ask that you be charitable with me of those matters, because I can assure you that if there has been any injustice done, it was not intentional. I want to

express to you men my sincere appreciation not only for this splendid material recognition, but also my appreciation of the kindness and courtesies which you men have extended to me. I also take this opportunity of expressing to the desk force and other employees of the Senate my appreciation for the splendid courtesy which they have extended to me, and the manner in which they have co-operated in doing this work. Senators, I thank you. JOURNAL OF THE SENATE

MEMORIALS

SENATE CHAMBER,
DES MOINES, IOWA, APRIL 5, 1921.

The Senate met in memorial session at 7:30 p. m., President pro tem Newberry presiding.

GEORGE W. BALL

Senator Fulton, from a special committee, submitted the following report and moved its adoption:

MR. PRESIDENT—Your committee named to prepare a memorial to commemorate the life and service of George W. Ball, submit the following report:

George Washington Ball, son of Joseph and Margaret Langfit Ball, was born March 6, 1848, in Brooks county, Virginia. On his father's side he descended from the same family as Mary Ball, mother of George Washington, and on his mother's side from the same family as President James K. Polk.

His father, to escape from the contaminating and evil influence of slavery, in 1854, brought his family to Jefferson county, Iowa. Here the son George grew to manhood, and here lived an active and useful life. His education, obtained in the district school and Fairfield University, was substantial and practical. On October 31, 1872, he married Miss Margaret Laughlin, who bore him five sons and one daughter. In his earlier years he was engaged principally in farming and in the raising of stock, but in his later years he became interested in banking and in manufacturing enterprises. He belonged to the Independent Order of Odd Fellows and was a communicant of the Christian church. In politics, he was Republican. He served his district as a member of the House of Representatives in the Twenty-second, Twenty-third and Thirty-sixth General Assemblies, and as senator in the Thirty-seventh and Thirty-eighth General Assemblies.

He was devoted to his family, loyal to his friends, helpful to his community. In business, he was found a wise counselor. No worthy cause

but received his support. Once enlisted, he put his heart in the work and was indefatigable in his efforts. He gave freely of his time and his means. On moral issues, he held to a high standard. He was firm in his beliefs and defended them against every foe with vigor and intelligence.

Therefore, Be It Resolved, That in the death of George W. Ball, the Senate recognizes the loss of a valuable citizen who desired and labored to improve and upbuild his community and state, and takes this occasion to express its appreciation of his character and public services, and to extend its sympathy to his family in their bereavement; and

Be It Further Resolved, That these resolutions be spread upon the journal and a copy of them transmitted by the secretary to the family of the deceased.

C. J. FULTON,
CHESTER W. WHITMORE,
J. D. BUSER.

The resolution was adopted unanimously by a rising vote.

Senator Buser spoke as follows:

It seems to me fitting that the memory of George W. Ball be commemorated by this body upon this occasion. While I did not have the pleasure of an extended acquaintance with Senator George Ball, my acquaintance only having extended over the period of two years during the session of the Thirty-eighth General Assembly, I found much, and I know the other members of that Assembly and of previous assemblies in which the Senator was a member, have found much to love and respect in the character of George W. Ball. I can not forget the last night of the session of the Thirty-eighth General Assembly, when at periods during the evening session we had interims in which we were not busy with the usual work of the session, and we resorted to the pastime of making short speeches and singing songs. Among others that responded, I may say rather reluctantly, was Senator Ball; and I say without fear of successful disputation that the Senator made one of the finest short addresses made at that time, and that there were few others that appealed as much to those present; that it was one of the best addresses that I have ever heard given in the Senate.

The one outstanding characteristic of Senator Ball was his great character and his wonderful personality, that every one who knew him surely understood and appreciated.

Senator Stoddard spoke as follows:

It is my privilege to have known Senator Ball only during the session of the Thirty-eighth General Assembly. I was just thinking as we began this evening session and his name was mentioned, that I remember very well the first time that I met him, and his kindly attitude to me at

that time, coming as I did for my first session of the Legislature. I think that we all enjoyed the good fellowship with Senator Ball, and his kindly humor. I remember very well a great many of his talks which he gave. I think we all appreciated his steady manner. Honest in his convictions, although we did not always agree with his ideas, we gave him credit always for being honest in what he did.

Senator Horehem spoke as follows:

I first met Senator Ball in the House. Everybody in the House had great respect for him. The next time I met him was in here, and as Senator Stoddard says, he was very conservative, exact, and precise. He said things with very much force, and had character in everything he did. He was economical, but he was kindly and considerate. He knew that we had chairs here that were not so convenient as they should be, and he was the one who moved to buy new chairs for the clerks, to the surprise of everybody, because the Senators knew him to be careful and exacting, but it was because he saw the necessity and the right to have them. I can say that one of the best compliments I have ever received was after he had made a speech denouncing the increase of salaries of probation officers, and after I replied to him, showing the importance of the office and the influence the probation officer had on the life of the boy and girl, and after I showed the necessity and importance of promoting that office, he got up and apologized for making the remarks he had, and assured the Senate he would vote for my bill. There were four speakers against that bill of mine, of whom he was the last, and after I made my speech he got up and apologized, suggesting that everybody vote for the bill, and every Senator voted for the bill. He had the character of Washington and Polk, as has been said. He was sincere; he was a man of whom we all may be proud. I know I am proud that I had the honor of serving with him in this Senate.

Senator Newberry spoke as follows:

It was my pleasure to have served for two sessions with Senator Ball. It is a great pleasure to recall Senator Ball's memory. He was kindly and considerate and resolute, and he had the courage of his convictions. There was a vein of humor about him that was very pleasant.

HENRY FRANKLIN ANDREWS

Senator Mantz, from a special committee, submitted the following report and moved its adoption:

MR. PRESIDENT—Your committee appointed to prepare resolutions commemorative of the life, character and public service of the Hon. Henry Franklin Andrews, late of Audubon county, Iowa, beg leave to report the following memorial:

Hon. Henry Franklin Andrews was born at Lovell, Maine, June 27, 1844, and died at his home at Exira, Iowa, May 20, 1919.

His family was of English origin and could be traced directly back to the Saxon ancestors living in Great Britain at a remote period. His ancestors came to New England at an early date and settled in the state of Maine, among a part of the pioneers of that section of the country.

Mr. Andrews had not the advantage of a college education, yet he was a man of wide reading and thoroughly informed and during his entire life was very active in all public affairs.

In 1862, when but a boy of 18, he enlisted as a volunteer in the Union cause and served under the flag until the end of the war, taking part in many of the important battles of the east.

During the war, the parents of Mr. Andrews moved to Audubon county, Iowa, where Mr. Andrews joined them in October, 1865. Soon after his arrival there, he began teaching school and served Audubon county during the years of 1867-8 as county recorder and in 1868 as county judge. He was admitted to the practice of law in 1870 and continued a member of the Audubon county bar down to the time of his death.

During his later life, he became afflicted with deafness and to such an extent that it seriously interfered with his active trial work. He then turned his attention largely to the compiling and writing of genealogies and family histories and was an author of a number of volumes of that nature. A few years before his death, he compiled a history of Audubon county. This work is especially valuable because it deals with the early pioneer days of that county.

In politics, Mr. Andrews was a Republican, but in the matter of public affairs, he placed his state above his party. He held a number of public offices and during the years from 1892 to 1895 was state senator from the district comprised of Audubon, Dallas and Guthrie counties. He was active in legislation having for its purpose the advancement of the interest of the G. A. R. He held a number of important positions in that organization.

As a lawyer, he was able, industrious and was always faithful to the interest of his clients and his word was as good as his bond. He never swerved in his loyalty to them who trusted him with their business.

Mr. Andrews was married in 1871 to Jennie M. Norton of Oakfield, Iowa. Her death took place a few years prior to the death of her husband. Four children to this union survive, Charles F., Wallace P., John H., and Phillip S., all of Shoshoni, Wyoming.

As stated above, Mr. Andrews died on May 20, 1919 and on the 15th day of January, 1920, the Bar Association of Audubon county, Iowa,

adopted a resolution, which, after reciting the family and public history of the life of Senator Andrews, concludes as follows:

"Now, be it resolved, by the members of the bar of Audubon county, Iowa, assembled in memory of our deceased friend and colleague, Henry Franklin Andrews, that we deem it proper to publicly express our appreciation of his admirable qualities as a lawyer and as a citizen and that it is but a just tribute to the memory of the departed to say, that in regretting his removal from our midst, we mourn for one who was, in every way, worthy of our respect and regard, and

Be it further resolved that, the court so ordering, this obituary and resolution be spread upon the records of this court."

Now Therefore, Be It Resolved by the Senate of the Thirty-ninth General Assembly of Iowa, that in the death of the Honorable Henry Franklin Andrews, the state and community where he lived, have suffered the loss of an influential and honorable citizen; and

Be It Further Resolved, That a copy of these resolutions be spread upon the journal of the Senate and that the secretary be directed to send an engrossed copy thereof to the sons of the deceased.

H. J. MANTZ,
J. A. NELSON,
B. W. NEWBERRY.

The resolution was adopted unanimously by a rising vote.

Senator Mantz spoke as follows:

In moving the adoption of this report I would say that I do not suppose that any of the members of this legislature knew Senator Andrews. He served in this body during the sessions of the Twenty-fourth and Twenty-fifth General Assembly, nearly thirty years ago. It was my privilege to know him intimately. I have known him ever since I was a boy. He came to that part of the state when it was a part of the Wild West, following the close of the Civil War, where he served with honorable record. He came out there into that country when possibly there were not five hundred people in the county, and settled at Exira, which was then the county seat, and remained there during the rest of his life. As has been recited in the resolution, he first took up and followed the profession of teacher; later on he held the office of county recorder. He was admitted to the bar, and from the date of his admission to the bar he practiced in the courts of western Iowa down to within a few years of his death. At one time he served as county judge. The last few years he became afflicted with a difficulty in hearing, which barred him from the active practice of his profession. He then turned his attention to writing genealogies, and he became quite expert in that line. He had a penchant for doing that kind of work. He was a relative of Hannibal Hamblin, vice president under Lincoln, and he wrote the genealogy of the Hamblin family. I recall on one occasion I dropped into

his office to see him, because I enjoyed visiting with him—he had gone through the experiences of an early day, and it was a weakness of mine to want to sit at the feet of those men and listen to their narratives of the past—I remember on this occasion going into his little office, and he was showing me some of the work that he was doing. He had some works there on genealogy as large as our compiled code. I asked him when he expected to get through with that work; and he said he never expected to get through with it. I suggested that I thought I would never start anything that I could never get through with; and he said, "Young man, when you get to my age you will find that there are a lot of loose ends hanging around." And the older I get the more I realize that there are a lot of loose ends hanging around.

He was one of the pioneers of that period; he saw the change, the marked change, since those years of development. Coming to the county when there was not five per cent of the land under cultivation, staying through all that period of development down to the date of his death, when practically every acre was under cultivation,—it is marvelous when we think of it, that a man could pass through all the stages of those years and see that great change in the county; and coming in, as he did, as a sort of public personage, taking a part in the public affairs, a leader as he was, it is hard for us to estimate the influence a character like that had upon the community. He entered into the profession of the practice of law, and while he was a busy man all his life, he died poor, as we speak of men. As a lawyer, however, he was not inclined to push litigation; he was not what we commonly call the ambulance chaser; but rather he was a lawyer of the old school. Usually when men came to him with their tales of their grievances and wrongs, he would get up, put on his hat, and go out to see the other fellow, to get the other side of the case, and try to effect a reconciliation. Up in his office when people would come to him with a complaint, reciting their grievances and difficulties, he would try to see the other fellow; and he had a wonderful faculty of bringing the parties together and harmonizing and reconciling their difficulties. I have often thought that many a lawyer of today could emulate the example of that lawyer of the old school, and if instead of rushing into court and starting the legal processes, they would get the parties together behind closed doors, and act the part of a citizen to settle their difficulties out of court, it would be a great deal better. For this reason, the reason that he did not encourage litigation, he never became a wealthy man. He simply did it as a public service, and I know as a matter of fact that many a time he has acted as an attorney where he knew when he took the case that he would never receive any compensation. He did it as a public service, having regard for his oath that he was an officer of the court, and that he would do his duty irrespective of fee or reward.

As I have stated before, he was an old soldier, a member of the G. A. R. and held a number of positions in the state organization. Very active, very loyal, there was nothing that he would not do for an old soldier. He served as a member of the Soldiers' Relief Commission for

a number of years, always active and interested in the welfare of the boys in blue. While I know nothing about his work as a legislator, knowing the man, I feel and know that he took an active interest in all legislation which would interest the whole people and be for their welfare. In his departure the state lost a good citizen and the community lost a good neighbor and a good friend.

BENJAMIN MCCOY

Senator Caldwell, from a special committee, offered the following report and moved its adoption:

MR. PRESIDENT—Your committee appointed to prepare resolutions commemorating the life, character and public services of Benjamin McCoy, beg leave to submit the following report:

Benjamin McCoy, a member of the Twentieth, Twenty-first, Twenty-second and Twenty-third General Assemblies, was born in Jefferson county, Ind., March 22, 1846. He received his higher education at Cornell College, Mt. Vernon, Iowa, and after leaving school was employed for some time as a surveyor and teacher. During the Civil War he served as a private in Company H, Forty-seventh regiment, Iowa infantry.

Judge McCoy was admitted to the bar in 1871, and located at Oskaloosa in 1874. He was a member of the law firm of Bolton, McCoy & McCoy, later of the firm of McCoy & McCoy. While acting as one of the judges of the district court of the sixth district, he was appointed as one of the code commissioners to revise the code, and was also appointed a railroad commissioner by Governor Frank Jackson, both of which latter positions he declined.

In 1920 he underwent a serious operation in Chicago, from which operation he never fully recovered and he died August 24, 1920, at his home in Oskaloosa, Iowa.

Hon. G. S. Robinson, judge of the state supreme court, who has been quite intimate with him, professionally and politically, for eighteen years, gives the following estimate of Mr. McCoy's character:

"He is a man of absolute integrity, of fine ability, whose inclinations lead him to seek for and to do justice in all cases, even though matters of mere form have to be disregarded to attain that end. As a practicing lawyer, judge and legislator, he has attained high rank and achieved distinction. He is an exceedingly companionable gentleman of many excellent personal qualities, who deservedly stands high in the state."

Whereas, The Honorable Benjamin McCoy, a member of the Twentieth, Twenty-first, Twenty-second and Twenty-third General Assemblies, has been called from this life, therefore,

Be It Resolved, That the Senate has heard with deep sorrow and regret of his death and that it recognizes the high character of his service to his state and in his death the state has lost a worthy and noble citizen, and,

Be It Resolved, further, that these resolutions be spread upon the journal, that an engrossed copy of the same be sent to the family of the deceased.

W. A. CALDWELL,
T. C. CESSNA,
JNO. R. PRICE,

The resolution was adopted unanimously by a rising vote.

In moving the adoption of the resolution Senator Caldwell spoke as follows:

Judge McCoy was a man who took deep interest in every movement for the advancement of the community in which he lived and his assistance was rendered in every cause that promoted good citizenship. His interest in public affairs was helpful, and in the community in which he lived for so many years, his memory is held in deep regard by the multitude of friends who knew him and appreciated his worth as a man, soldier, legislator, lawyer and public-spirited citizen.

T. W. BENNETT

Senator Tuck, from a special committee, offered the following report and moved its adoption:

MR. PRESIDENT—Your committee appointed to draft resolutions commemorative of the life, character and services of Doctor T. W. Bennett, beg leave to submit the following report:

Doctor T. W. Bennett, a member of the Thirty-third and Thirty-fourth General Assemblies, 1909-1911, died in Long Beach, California, February 2, 1920, age sixty-seven, the funeral services taking place on Thursday, February 7th, in Lenox, Iowa, in which place he practiced medicine for thirty-five years.

Doctor T. W. Bennett was born December 1, 1852, near the town of Crawfordsville, Washington county, Iowa; was educated at the university of Iowa, where he studied medicine. Also at the Rush medical college, Chicago. While a resident of Lenox, Iowa, he was president of the First National Bank and was prominent in civic activities. He served in two sessions in the Iowa state legislature. Dr. Bennett was a Mason, Knight Templar, and Shriner. He also was a member of the Methodist Episcopal church of which he was an active member.

Besides a widow, Mrs. Emma Bennett, the decedent is survived by a son, Floyd, who resides in Long Beach, Cal.

Doctor Bennett was a man of a character than which there was none more beautiful or lovable to be found and he leaves a host of friends to mourn his loss and extend to the family in their great loss their sincerest sympathy.

Whereas, The Honorable Doctor T. W. Bennett, a member of this body in the Thirty-third and Thirty-fourth General Assemblies, has been called from this life, therefore,

Be It Resolved, That the Senate has heard with deep sorrow and regret of his death and that it recognizes the high character of his service to his state and in his death the state has lost a worthy and noble citizen, and,

Be It Further Resolved, That a copy of these resolutions be spread upon the journal of the Senate and an engrossed copy of the same be sent to the members of his family.

J. C. TUCK,
ED. H. CAMPBELL,
C. J. FULTON.

The resolution was adopted unanimously by a rising vote.

In moving the adoption of the resolution, Senator Tuck spoke as follows:

It was my misfortune not to be acquainted with Doctor Bennett, although he lived but a short way from me. He was one of the pioneers of the town of Lenox, and assisted a great deal in its development. I have heard from some gentlemen who knew him well, that he was a very much respected gentleman, and that he gave a good deal of his time for the development of that beautiful little town of Lenox. I was told by a gentleman from Lenox a short time ago that he was a character that everyone loved, and has left a host of friends in and around Lenox to mourn his loss.

Senator Wichman spoke as follows:

I had the pleasure of an acquaintance with Doctor Bennett, although I did not know him while he was a member of the legislature. A few years after he retired from the Senate, his health failed, and he went to California, while I was there spending two or three months. I was living in the same apartment with him, and got very well acquainted. I think his outstanding characteristic was his love of humanity, and he desired at all times to try to help somebody else. We were together a good deal, both of us were there with nothing in particular to do, and we went around places together, trips to adjoining towns, and he was always thinking of somebody else instead of himself. I learned from others that where he lived, his ability as a physician and his desire to help others was such, that he simply had to move away in order to get away from his practice. His health was failing, and as long as he

stayed there he could not get away from doing for others more than he had the physical strength and power to do; and it was for that reason that he had to go to California. I am sure that the man, from his character, and from his ability must have been a most excellent member of the Senate.

JOHN A. GREEN

Senator Hale, from a special committee, submitted the following report and moved its adoption:

MR. PRESIDENT—Your committee appointed to prepare resolutions commemorative of the life, character and public service of Senator John A. Green, late of Jones county, Iowa, beg leave to report the following memorial:

John A. Green was a remarkable man. He was of striking personality, diplomatic, suave and self confident. For years he was identified with the various activities in Jones county, taking part in its politics and the current moves of public importance. He headed a large quarry industry at Stone City, built up under his shrewd management and clear vision. At the time the quarry industry was at its height and cut stone was used to large extent in building operations, his plant at that place was a hive of industry and he employed a large force of men. He was a staunch democrat and during his active years was counsellor in the conventions and gatherings of that party. In 1892 he was selected state senator from the Jones-Cedar district and served one term. In 1904 he was a democratic congressional candidate in the fifth Iowa district.

Mr. Green was born in County Roscommon, Ireland, December 10, 1844. He came to America and settled at Boston where he attended school, in 1852. He learned the trade of a stone cutter and letterer and worked at the monumental line for ten years. He came west in 1865 and lived for a time at Joliet, Illinois. March 7, 1868, he landed among the hills west of Anamosa, now known as Stone City, there he opened the Champion Quarries and developed a business which grew and thrived until a few years ago with extension of the cement industry and the use of other grades of stone, the limestone product was no longer in demand.

Mr. Green was a man of generous nature. Mercy hospital at Anamosa was cherished among his thoughts. It was due largely to his liberality that it was first built, and he never lost his interest in the institution or his desire to do for it.

The new Catholic church built a few years ago at Stone City received his help and his encouragement in the work necessary to plan and make its erection possible.

Mr. Green was married to Ellen Kane at Joliet in 1875. The wife together with the following survive: John A. Green, Jr., of Sioux Falls, South Dakota; Robert Green of San Francisco; Mrs. C. M. Cruikshank, Montana; Josephine and Agnes Green of Cedar Rapids.

Now Therefore, Be It Resolved By the Senate of the Thirty-ninth General Assembly of Iowa, that in the death of Senator John A. Green, the state and community where he lived have suffered the loss of an influential and honorable citizen; and

Be It Further Resolved, That a copy of these resolutions be spread upon the journal of the Senate and that the secretary be directed to send an engrossed copy thereof to the family of the deceased.

J. K. HALE,
BYRON W. NEWBERRY,
W. G. HASKELL,

What one of you that ever knew a friend
Or felt his being thrill to friendship's token
But would preserve that friendship to the end
Unbroken

I sing of one whose brave but kindly heart
Met fortune good or fortune ill, a-smiling
The weary way by virtue of that art
Beguiling

A Senator so helpful wise and just
A neighbor kind, his neighbor's love commanding
A friend but full response to every trust
Demanding

What cared we that his outer husk was rough
Of fabric fit to fend the world's crude banter
When friendship's fire could melt his sternest stuff
Instanter

We are the better that this life was passed
Within our sphere he has not lost in dying
On the firm faith that we shall meet at last
Relying

We questioned why the bonds grew firm and strong
With which the fates our hearts to his did tether
If through to world we might not pass along
Together

We're answered for each severed bond may prove
A tendril without which our souls might never
Attain the fullness of that broader love
Forever.

The resolution was adopted unanimously by a rising vote.

LAURITZ M. ENGER

Senator Reed, from a special committee, submitted the following report and moved its adoption:

MR. PRESIDENT—Your committee, which was appointed to report resolutions commemorating the life, character and services of Lauritz M. Enger, beg leave to submit the following report, and move its adoption:

Lauritz M. Enger was born on November 3, 1856, in Norway. At the age of fifteen he borrowed enough money to pay his passage to the United States and afterward worked upon a farm in order to pay his debt. He enjoyed a varied experience as a farm laborer, a clerk, as a shoe merchant, and also as a mail clerk in the Decorah post office. It was this position that fitted him to enter the employment of the Decorah-Posten in their mailing division, where he advanced until he was put in charge of it. Subsequently he was employed as an assistant in the editorial and business department. While so employed he established an insurance business which grew to proportions that demanded all of his time.

In 1910 Mr. Enger aspired to political honors, received the Republican nomination for representative from his county in the legislature and was elected. He was re-elected in 1912; in 1914 was chosen senator from the Winneshiek-Howard district, and served with distinction in the 34th, 35th, 36th and 37th General Assemblies. For several years he was secretary of the Winneshiek County Agricultural Society and more recently had been secretary of the city school board and treasurer and manager of Decorah hospital. He was an active and earnest member of the Lutheran church, and also belonged to Det Norske Selskab and Symra.

On February 10, 1880, Mr. Enger was united in marriage with Bertha Myran. Mrs. Enger passed away on February 3d last. The deceased is survived by his sons, Melvin, a professor in the University of Illinois, Norval, of Ephrata, Washington, and Arthur, of El Paso, Texas. Mr. Enger died at his home in Decorah, August 2, 1920.

Your committee recommends that as a fitting recognition of his life, the following resolution be adopted:

Be It Resolved by the Senate of the Thirty-Ninth General Assembly of Iowa, That in the death of Lauritz M. Enger, the state of Iowa has lost a faithful and conscientious citizen; a man whose desire was to so live that the world might be better for his having lived; and a man whose relations in his home and to his family were such that they will be adopted as an ideal for others to follow.

Be It Further Resolved, That a copy of these resolutions be spread in the journal of the Senate and an engrossed copy of same be sent to the members of the family.

Respectfully submitted,

CARL M. REED,
JOHN R. PRICE,
H. S. VAN ALSTINE.

The resolution was adopted unanimously by a rising vote.

Senator Holdoegel spoke as follows:

The president has just extended to me, the opportunity of speaking a few words in memory of this distinguished senator, this friend whom we remember as one who was always directed by the best of motives while serving here. We who served with him in the Senate, those of us who were in the Thirty-seventh General Assembly as beginners, were very much benefited by his friendship and his advice. Senator Enger was a man of clean life, a man of strong personality, a man of self-sacrificing disposition, one who put the interests of the state above his own private interests, one who did not hesitate to take his own time and expense to go into other states to investigate the workings of state institutions and manufacturers there, one who was particularly interested that Iowa government should be a particularly clean government, one which should be divested of all of the things that go to make up questionable features of government, one who was always interested in the economical and just administration of our laws. In fact, we knew Senator Enger to be a very fine Christian gentleman, of a sympathetic nature, always able to assist new men, always able to devote his energies for the benefit of the state.

Senator Van Alstine spoke as follows:

I was one of the committee on that report, and I want to say that I believe I met Senator Enger at the time he was a member of the Thirty-third or Thirty-fourth General Assembly, when I came down here with reference to some matter before the legislature, and I was greatly impressed when I met Senator Enger with the cordial sympathy which he gave to me always, and the conscientious interest which he displayed in everything pertaining to everything that he conceived to be for the welfare of the state. Then when I came into this body as a novice, it was my good fortune to be seated next to Senator Enger, and as suggested by the Senator from Calhoun, his experience in legislative matters and his kindly attitude and sympathy was a wonderful help to me, and a help which came at a time when I needed it. I shall never forget the kindly soul that went when Senator Enger took the long journey.

JOHN HENRY SMITH

Senator Greenell, from a special committee, submitted the following report and moved its adoption:

MR. PRESIDENT—Your committee appointed to prepare resolutions commemorative of the life, character and public service of Col. John Henry Smith, late of Clinton county, Iowa, beg leave to report the following memorial:

Col. John Henry Smith was born in Albany county, New York, March 19, 1827, and died at his home at Camanche, Iowa, August 26, 1919.

He was of German ancestry, his grandparents having emigrated to America from Germany. His father died when he was a lad, and in his early manhood, after completing his education, which he procured through his own efforts, he removed to Michigan, then west to Illinois, where he learned the trade of a machinist.

Col. Smith entered the employ of what is now the Chicago & Northwestern, and was a locomotive engineer on that line when Dixon, Illinois, was its western terminus.

In 1851, in the state of Illinois, he was united in marriage with Emily P. Cooley, daughter of Thomas and Ann Cooley, natives of Connecticut. A year after his marriage he quit railroading, and with his wife came to Clinton county and settled on a farm in Center township.

The death of Col. Smith marks the passing of the last line officer of Crocker's famous fighting brigade, which helped to make history during the Civil War.

It is said of Col. Smith that he literally left his plow in the field when Fort Sumpter was fired upon. He recruited a company which became Company A of the Sixteenth Iowa Volunteer Infantry, and was commissioned as its captain. Later he was promoted to the rank of major, and in the course of time became colonel of the regiment, which was mustered out after the grand review in Washington at the close of the war at which time he commanded the famous regiment of Iowa fighting men.

Col. Smith was captured by the confederates at the battle of Atlanta, and confined in several Southern prisons, where he endured great hardships before making his escape with a few of his comrades and rejoining his command. He was voted a medal by congress for gallant action and meritorious services.

In politics, Col. Smith was a Republican and held several offices of trust in his local community. He served as a state senator from the Twenty-second Senatorial District, comprised of Clinton county, in the Eleventh and Twelfth General Assemblies.

Now Therefore, Be It Resolved By the Senate of the Thirty-ninth General Assembly of Iowa, that in the death of Col. John Henry Smith, the state and community where he lived, have suffered the loss of an influential and honorable citizen; and

Be It Further Resolved, That a copy of these resolutions be spread upon the journal of the Senate and that the secretary be directed to send an engrossed copy thereof to the son of the deceased.

WILLIAM EATON

Senator Föskett, from a special committee, submitted the following report and moved its adoption:

MR. PRESIDENT—Your committee which was appointed to report resolutions commemorating the life, character and services of William Eaton of Fremont county, beg leave to submit the following report:

Senator Eaton was an Iowa product. He was born in Lee county, October 9, 1849, and died at his home in Sidney, Fremont county, Iowa, on December 3, 1920, aged 71 years.

The early years of his life were spent in Lee county. He was one of seven children; and, as his mother was left a widow while he was quite young, he early had heavy responsibilities to assume and some quite heavy burdens to bear. Nevertheless, he had the desire and found the time to attend the public schools of his day and generation and later the Denmark academy, from which he graduated in due time. Later he taught school and then yielded to the lure of the law profession, graduating from the law school of Iowa state university after taking a full course there in 1874.

He was married to Miss Annie E. Grundy of Morrisonville, Ill., August 4, 1874. To this union three children were born: Edgar, who died in infancy, Elmer E. and Mrs. Lillian Gore, both of whom reside in Sidney, and who with the widowed wife and mother survive to mourn the loss.

Immediately after his marriage, Senator Eaton came with his wife to Sidney in Fremont county, where he has resided ever since. He at once directed his attention to the practice of law and continued in the same without intermission until the spring of 1917 when failing health made it imperative that he should go to the hospital where he underwent a critical operation from which he never fully recovered. His law business was one of the most extensive in that part of the state; nevertheless, he found time to combine with it the pursuit of farming and the fortunes

of politics. In the latter venture he served as district attorney, two terms as county attorney for Fremont county and he represented Page and Fremont counties in the 25th, 26th, 26th Extra, 27th and 28th General Assemblies.

Senator Eaton was a man of pronounced convictions and the moral courage to make them known. With him there was no middle ground. If an issue were worthy of consideration at all, he was either for or against it—for it whole-heartedly, against it the same way. With an eloquence possessed by few, he could plead the cause of right and justice in words that displayed the very soul of the man, and yet the selfsame tongue was capable of flaying wrongdoing with the most withering of sarcasm. In the espousal of any cause he threw into it his utmost energy, never lagging for a moment until he had seen his efforts bring success. Because of these traits his friends were many and they loved the man; his enemies were few and even these admired and respected him for the fact was traditional that William Eaton always carried his fight to fair ground. Fight he would and vigorously for what he believed to be right, but always in the open. There was no stabbing in the back, no thrust in the dark.

After serving his state in the Senate, he returned to the practice of law and to the care of his farm, in both of which vocations he was eminently successful.

A man among men has departed from the scenes of earth and in his going is left a void which will be long, very long, in filling.

Be It Resolved, By the Senate of the 38th General Assembly, that in the death of Senator William Eaton the state and county in which he resided lost a worthy and upright citizen and an honored statesman, and we hereby extend to the bereaved family and friends our sincere sympathy.

Be It Further Resolved, That these resolutions be entered upon the Senate journal and a copy sent to his family.

SAMUEL A. CONVERSE

Senator Slosson, from a special committee, submitted the following report and moved its adoption:

MR. PRESIDENT—Your committee which was appointed to report resolutions commemorating the life, character and services of Samuel A. Converse, beg leave to submit the following report and move its adoption:

Samuel A. Converse, second son of Willard and Hannah White Converse, was born in Marlborough, New Hampshire, January 3, 1843. When five years of age he moved with the family to Rock Prairie, Wis., and at thirteen to Sumner township, Winneshiek county, Iowa, where his father took up government land and the family experienced the varied adventures of pioneer life. In his youth he taught school in the district where the family lived.

In 1867 Mr. Converse was united in marriage with Ellen Munson, who survives him. To this union nine children were born, two of them dying in infancy. Those living are: Abbie Jane, who remains at home, Judge Willard L. of South St. Paul, Myron of Minneapolis, Charles C. of Williston, N. D., Mrs. C. E. Blackorby of Hansboro, N. D., Arthur B. of Cresco and Mrs. C. R. Coon of Monticello, Iowa. There are fourteen grandchildren and one great grandchild. Also two sisters survive him, Mrs. Lucretia Batchelor of Worcester, Mass., and Mrs. Cynthia Blackburn of Cresco.

In 1880 Mr. Converse moved from his father's homestead in Winneshiek county, building a home two miles farther west in New Oregon township, Howard county. Nine years later he bought and moved to the farm one mile south of Cresco which was the family home for about twelve years, when he built the present home in Cresco, where after a brief illness of three days he passed away May 29, 1919, aged 76 years and nearly five months.

Mr. Converse was a close student of public affairs and in an early day took a deep interest in the welfare of the agriculturist. In the early 70's when the farmers were struggling under the excessive burdens imposed by the railroads and other large corporations he was instrumental in organizing the Patrons of Husbandry, popularly known as the Grange, an organization which was largely responsible for the reform legislation of that period designed to curb the power of the railroads and consign them to their proper place as servants of the people. One of the notable accomplishments of the Grange was the fight waged against the barbed-wire trust which brought suit against farmers all over the state of Iowa for alleged infringement of patents, the damages claimed amounting to thousands of dollars. The Grange employed Albert B. Cummins, then a young lawyer of Des Moines, who won a complete victory in the courts for the farmers.

In 1883 Mr. Converse was elected to the House of the General Assembly of Iowa to represent Howard county after a campaign marked by intense bitterness, the issue being prohibition and Mr. Converse was an ardent advocate of this reform. In the following session of the legislature he was one of the leaders in the enactment of the prohibitory law. He was re-elected in 1885 and during the following session served as chairman of the important committee of ways and means. In 1887 he was elected to the state Senate to represent the Howard-Winneshiek district. During his term in the Senate the railroad question was forced to the front by Governor Larrabee and Mr. Converse was the governor's champion for reform legislation.

In about the year 1891 he helped organize the Alliance Mercantile association of Cresco and has been on the board of directors continuously ever since, a large part of the time being president of the board.

In 1893 the First National Bank was established. He was elected its first president and served continuously in that position till his death.

He was a charter member of the Farmers' Mutual Insurance Association of Cresco and served on the board of directors. He also was a director of the Iowa Mutual Tornado Insurance Association of Des Moines.

Immediately following the wheat failures in the late 70's Mr. Converse perceived the necessity for a change of farming methods and he began to work into the live stock industry. In 1883 he shipped from New York state a couple of red polled calves and this was the foundation of his great herd which became the largest in America of that breed. In 1887 he made a trip to England to make purchase of red polled stock which he brought to his Howard county farm. He made one other trip across the water and made three importations in all. His show herd was exhibited at the various state fairs in the middle west and several times at the fat stock show in Chicago, always winning prizes. He served as treasurer of the Red Polled Cattle Club of America.

In addition to the various private activities in which he was engaged he was repeatedly called upon for public service. As chairman of the liberty loan committee for Howard county he directed the campaign for the five loans.

In an early day he acted as justice of the peace and the community being almost entirely Bohemian, he mastered that language in order to better serve those who had business with his office. He came finally to be regarded as a peacemaker in the neighborhood and many and varied were the troubles presented to him for adjudication.

During the past 50 years there was scarcely a time when he did not have one or more estates to administer and these matters were always handled with the same care and fidelity which he gave to his own affairs. At the recent term of the district court the last estate with which he was connected was settled up and a final report made.

His keen foresight, sound judgment and strict integrity made him a wise and safe counselor and his advice was sought frequently by friends and business associates. He was always ready to render assistance to the needy and to comfort those in distress, thus exemplifying the principles of the Odd Fellows' lodge of which he was a faithful member. His infinite patience, kindly manner and even temper endeared him to his family and friends.

He always looked forward because he had faith in the future; and this kept him in touch with the new issues continually arising and explains the quite remarkable fact that while he was considerably past the age of three score and ten he still had a clear grasp of present-day prob-

lems and was an active participant in public affairs up to the last. He occupied a large place in the community life; one that will be hard to fill.

Samuel A. Converse was a man whose great interest was in his family and in the community of which he was a part; a man whose great desire was that his efforts should result in the improvement of the conditions in both his local community and in the state; he was not interested in making a name that should be heralded from the house-tops; but did his work in an unostentatious manner and without playing to the galleries.

Be It Resolved, By the Senate of the Thirty-ninth General Assembly of Iowa, that in the death of Samuel A. Converse his family has lost a kind and loving husband; the community in which he lived has lost a kind neighbor and good citizen; and the state has lost one of its valuable men.

Be It Also Resolved, That a copy of these resolutions be spread in the journal of the Senate, and an engrossed copy of the same be sent to the members of the family.

Respectfully submitted,

CARL W. REED,
B. W. NEWBERRY,
JOHN R. PRICE.

The resolution was adopted unanimously by a rising vote.

JOHN L. BLEAKLY

Senator Stoddard, from a special committee, submitted the following report and moved its adoption:

MR. PRESIDENT—Your committee appointed to draft resolutions commemorative of the life, character and services of John L. Bleakly, beg leave to submit the following report:

John L. Bleakly, a member of the Thirtieth, Thirty-first and Thirty-second General Assemblies, also the special session of the Thirty-second General Assembly, died in Des Moines, Iowa, on June 17, 1920, at the age of sixty-three years.

Mr. Bleakly was born in Fermanagh county, Ireland, on February 17, 1857, and came with his parents to America in 1863. His boyhood days were spent on a farm in Illinois. In 1873 he came with his parents to Linn county, Iowa, where he grew to manhood. He attended school in Linn county, and at the Cedar Rapids Business college, and engaged in teaching for several years after his graduation from the latter institution. He moved to Ida Grove, Iowa, in 1882, and was a clerk in a bank there for three years. He then entered the mercantile business, retiring in 1900.

He was elected state senator and served in three General Assemblies and was elected to the office of state auditor in 1909, and after completing three terms in this office, he retired, and organized the Iowa National Fire Insurance Company, at whose head he remained until his death. He was also president of the Des Moines Building & Loan Association, and president of the Pyramid Portland Cement company. He was a member of the Baltimore General Conference, as a member of the Methodist church, in 1908.

Mr. Bleakly is survived by his wife, and his four children: Homer Leslie, John Jr., Madge and Bessie, and four brothers and one sister, namely: Christie Bleakly of Ida county; Louis and Andrew Bleakly of Long Beach, Cal. Robert Bleakly of Storm Lake, and Mrs. La Grange of Marion, Iowa.

Mr. Bleakly was a man who accomplished much in his lifetime. His transactions were the soul of honor and he was unreservedly trusted and loved by all. He was a pillar of influence in the church, not only locally, but over the state of Iowa.

Whereas, the Honorable John L. Bleakly, a member of this body in the Thirtieth, Thirty-first and Thirty-second General Assemblies, has been called from this life, therefore,

Be It Resolved, That the Senate has heard with deep sorrow and regret of his death and that it recognizes the high character of his service to this state and in his death the state has lost a worthy and noble citizen, and,

Be It Further Resolved, That a copy of these resolutions be spread upon the journal of the Senate and an engrossed copy of the same be sent to the members of his family.

ED. H. CAMPBELL,
M. B. PITT,
B. M. STODDARD.

The resolution was adopted unanimously by a rising vote.

Senator Newberry spoke as follows:

I am perhaps the only one of the members of this Senate who was acquainted with Senator Bleakly. He and I entered the Senate the same day, in the Thirtieth General Assembly. I have occupied the same seat the six sessions I have been in the Senate and Senator Bleakly occupied the seat now occupied by Senator Browne, just in front of my seat. We became very intimately acquainted. He was a splendid man, of high and active nature. After serving in the Senate, he became a candidate for state auditor, was elected and served in this capacity for six years. He made a splendid record as auditor, then engaged in the insurance business and was in the harness at the time of his death. It was certainly a great pleasure to me to have known him, and to have served with him in this Senate. He was a splendid man in every respect.

HON. JOHN EVERALL

Senator Newberry, from a special committee, submitted the following report and moved its adoption:

MR. PRESIDENT--Your committee which was appointed to report resolutions commemorating the life, character and services of the Honorable John Everall of Clayton county, deceased, beg leave to report the following and hereby move the adoption of the report:

John Everall, son of Richard and Elizabeth (Liversage) Everall, was born in Shropshire, England, on April 20, 1839, and died at his home in Monona, Iowa, May 17, 1920.

Mr. Everall came with his father's family from England and settled on a farm in Farmersburg township, Clayton county, Iowa, in the year 1851, which county was his residence continuously up to the time of his death.

John Everall gained his rudimentary education in his native land and supplemented this by attending the pioneer schools of Clayton county as well as by individual application, which with his natural studious tendencies, effectively broadened his intellectual horizon. He gained in his youth a close fellowship with the work of the pioneer farm of his father and during the many years of his active career he continued a close allegiance to the basic industry of agriculture, through the medium of which he gained substantial success.

He was one of the prominent and influential citizens of Clayton county. In 1858 to 1862 he was a successful teacher in the schools of the county.

In August 1862 he enlisted as a private in Company E, 27th Iowa Volunteers Infantry, with which he participated in the many engagements that marked the record of this gallant Iowa regiment. He was wounded in action in 1864 but was not long incapacitated for service. He rose from private to first lieutenant, in which rank he received an honorable discharge in June, 1865.

After the war, Mr. Everall resumed his association with farming in Clayton county and on October 25, 1865 at Farmersburg he was married to Miss Vallonia Renshaw. To this union seven children were born. Richard, the first born, died in early childhood. John Jr., who was a successful lawyer at St. Paul, died at the home of his parents in December, 1919. Dr. George L., a representative physician and surgeon at Clinton, Iowa, died at the home of his parents in December, 1910. Dr. Bruce B. is a practicing physician at Monona, Iowa. Dr. Benton C. is a practicing physician at Waterloo, Iowa. Miss Martha and Miss Bessie, who are prominent in educational work, reside at Monona, Iowa, caring for their mother who has long been an invalid.

Retiring from the farm in 1906, Mr. Everall and family took up their residence in the village of Farmersburg, where Mr. Everall became the president of the Farmersburg Savings Bank, which position he held at the time of his death. In 1919, he with his family moved to Monona where they made their home.

Mr. Everall was a prominent member of the G. A. R. and for fifty years affiliated with the Masonic fraternity. Mr. Everall was politically a democrat of the conservative order. He filled by election nearly all the township offices; four years county superintendent of schools; six years county auditor; and eight years state senator from the 36th District in the 24th, 25th, 26th and 27th General Assemblies. In every public position to which he had been called, he proved a faithful, loyal and efficient incumbent, filling the same in an able and satisfactory manner.

John Everall was a good man, an honest upright citizen, neighbor and friend. He was one of God's noblemen, the very type of true manhood, he aimed to be just to his fellowmen, to treat all with whom he came in contact with due consideration. He never once entertained a feeling of animosity against a friend or a neighbor. On the contrary, his hand always reached out in recognition of worth, surely there was goodness in the heart beat of every man. His geniality and kindly sympathetic nature made him a beloved companion everywhere. A true man and a noble citizen of our state has gone to his reward.

Therefore, Be It Resolved, That in the death of John Everall, the state and the county, in which he resided, have lost a true, upright citizen, a valiant soldier, an honest, able, fearless man, whose life was one of worthy service.

Be It Resolved, That this Senate extend to his family its sincere sympathy in their great bereavement, and

Be It Further Resolved, That these resolutions be printed in the Senate journal and the secretary of the Senate be directed to forward an engrossed copy to his bereaved wife, Mrs. Vallonia Everall, and family at Monona, Iowa.

The resolution was adopted unanimously, by rising vote.

HON. FRANK D. BAYLESS

Senator Newberry from a special committee, submitted the following report and moved its adoption:

Mr. PRESIDENT—Your committee appointed to draft resolutions commemorative of the life and services of Honorable Frank D. Bayless, deceased, beg leave to submit the following report:

Frank Davis Bayless, son of Mills S. and Elizabeth A. (Reed) Bayless, was born in Pendleton, Madison county, Indiana, October 9, 1840, and died in California, March 6, 1920, in his eightieth year.

He came west with his mother, a younger brother and two younger sisters in 1853, and in 1855 moved with the family to Dodge county, Minnesota, where he assisted on the farm until the fall of 1856, when he returned to Indiana and attended high school for two years. In 1858, he returned to Minnesota, where he was occupied with farming, teaching and the study of medicine until the breaking out of the Civil War. He promptly enlisted at the call of his country in the Second Minnesota Infantry in 1861, and served creditably in the Kentucky and Tennessee campaigns, but his health becoming impaired, he received an honorable discharge and returned to Minnesota.

On February 5, 1863, he was married to Miss Harriet Dresser at Concord, Minnesota. Four children were born to Mr. and Mrs. Bayless, of whom his sons, John R. Bayless and Fred Bayless survive.

With returning health Mr. Bayless was not content to remain at home while his country was still in danger, so in the winter of 1864, he reenlisted in the Third Minnesota Infantry. For a time he was assigned to the recruiting service and in April, 1864, joined his regiment in Arkansas with over two hundred recruits. Soon afterwards his knowledge of medicine and drugs caused his assignment to the medical department where he served faithfully until the close of the war, receiving his final discharge September 21, 1865.

During the winter of 1865-1866, he was employed as a clerk in a drug store in Manterville, Minn. In 1866, he moved to Elkader, Iowa, and engaged in the business of druggist and conducted a drug store at that place for many years where he built up a large and profitable business.

Mr. Bayless was always a man of constructive ideas and used his efforts and means for the permanent growth and improvement of the localities where he was interested. In 1897, he built the Hotel Bayless in Elkader, one of the best hotels in northeastern Iowa, which remains a monument to his memory. He helped to finance and build the Congregational church in his home town and later presented it with a pipe organ. He was one of the organizers of the present State Bank of Elkader. He helped to finance and start the Elkader Register in 1878, one of the leading papers in the county. About the last of his business ventures was the taking over of a small sanitarium at Prairie du Chien, Wisconsin, and the starting of the new sanitarium at that place, and the vision of its future possibilities has been fully justified by the successful realization of later years.

Always active for the welfare and advancement of the community he gave freely of his time and means to its interests. He was a member of the school board continuously for twenty-four years, and of the town council for a long time.

Mr. Bayless was a staunch democrat and intensely interested in political affairs, wielding a large influence in county and state politics.

He served as senator from the 36th district in the 20th, 21st, 22d, and 23d General Assemblies, and was one of the leading members of the Senate.

Mr. Bayless retired from active business some years ago and has since lived in Chicago and for some time in a sanitarium in southern California, where he died. His remains were brought to his old home and interred in the family lot in the Elkader cemetery.

Therefore, Be It Resolved, That the Senate has heard with sorrow and regret of the death of the Honorable Frank D. Bayless, and it recognizes the worthy services he rendered the state during the four sessions he was a member of this body, and hereby extends to the bereaved relatives and friends its sincere sympathy.

Be It Further Resolved, That these resolutions be spread upon the records of this Senate and that the same be engrossed and a copy sent to his surviving son, John R. Bayless, at Elkader, Iowa.
