Such dealer or broker shall be accountable and responsible for contracts made by said agent in the course of his employment. The license of an agent whose services are terminated by or with the dealer or broker shall be void on the date such written notice of termination is received by the department. The license of a dealer, broker, or agent, unless revoked, shall expire on the last day of June following the date of issue. The annual fee for the license of a dealer or broker shall be twenty-five (25) dollars. The annual fee for an agent's license shall be ten (10) dollars.

"Sec. 3. Application for a license as a dealer or broker or as an agent shall be made in writing to the department. "The applicant upon satisfying the department of his character and good faith in seeking to engage in such business and upon complying with such other requirements specified in this Act shall be issued by the department a license to conduct

the business of a dealer, broker, or agent at the place named in the application.

- "Sec. 4. No license shall be issued by the department to a dealer or broker until the applicant has furnished proof of financial responsibility. Such proof of financial responsibility shall first be approved by the commissioner or an employee of the department of insurance. The commissioner shall notify the secretary of the names of dealers or brokers who have furnished satisfactory proof of financial responsibility. Such proof may be in the following forms:
- "1. A bond of a surety company authorized to do business in the state of Iowa in the form prescribed by and to the satisfaction of the commissioner, conditioned for the payment of a judgment against the applicant furnishing the bond because of non-payment of obligations in connection with the purchase and sale of animals.

"The amount of such bond for an established dealer or broker shall not be less than the nearest multiple of one thousand (1,000) dollars above twice the average daily value of purchases of livestock, handled by such applicant on the ten (10) largest business days during the preceding twelve (12) months or such parts thereof as such applicant was purchasing livestock.

"In the event of an unestablished dealer or broker applying for a license, the amount of such bond shall be based on an estimated average daily value or purchases of livestock. In no case shall the purchases exceed by more than ten (10) percent the estimated average daily value or purchases of livestock.

"At such time as the daily purchases of livestock by the dealer or broker exceed the estimated average daily value of purchases of livestock by more than five (5) percent of the amount of his bond, the dealer or broker shall adjust the amount of the bond to cover livestock purchases.

"Whenever the amount of the bond as calculated in this sub-section exceeds fifty thousand (50,000) dollars, the amount of the bond shall be fifty thousand (50,000) dollars plus ten (10) percent of the average daily valuation in excess of fifty thousand (50,000) dollars. In no case shall the amount of such bond be less than two thousand (2,000) dollars.

- "Any dealer or broker who by any means of advertising states that he is bonded under the provisions of this Act shall include in such advertising the amount of the bond.
- "2. A deposit with the commissioner of the required amount in money or negotiable bonds of the United States or of the state of Iowa or a political subdivision of the

state of Iowa of that par or face value, for the purpose of securing the payment of a judgment against the applicant furnishing the deposit because of nonpayment of obligations in connection with the purchase and sale of animals, such deposit to be made under a deposit agreement prescribed by the commissioner. The amount of such deposit shall be calculated in the exact manner as the amount of a bond as provided in subsection one (1) of this Act. Such deposit shall not be subject to attachment for any other claim or levy of execution upon a judgment based on any other claims.

"Any person damaged by nonpayment of obligations or by any misrepresentation of fraud on the part of a broker or dealer may maintain an action against such broker or dealer and the sureties on the bonds provided for in this section or for the application of the deposit furnished the department. The aggregate liability of the sureties for all such damage shall not exceed the amount of bond. In the event that the aggregate judgments on the bond or the deposit exceed the total amount of such bond or deposit, the amount payable on account of any judgment shall be in the same proportion to the bond or deposit as the individual judgment bears to the aggregate judgments.

"Unless the person damaged filed his claim with the dealer or broker and the sureties and the department within ninety (90) days from the date of the alleged violation, or within ninety (90) days after the discovery of fraud or misrepresentation on the part of the person complained against, the claimant shall be barred from maintaining an action on said bond or for the application of said deposit.

"Whenever in the judgment of the commissioner the business volume of the applicant or licensee is such as to render the bond or deposit inadequate, the amount of such bond or deposit shall be, upon notice, adjusted. All such bonds or deposit agreements shall contain a provision requiring that at least ten (10) days' prior notice in writing be given to the commissioner by the party terminating such bonds or deposit agreements in order to effect termination.

"The termination of a bond shall not release the parties from any liability arising out of the facts or transactions occurring prior to the termination date.

"The termination of a deposit agreement shall neither release the party furnishing the deposit from any liability arising out of acts or transactions occurring prior to the termination date, nor shall the commissioner permit the withdrawal of the deposit until after ninety (90) days after the termination date, and then only if no claims under such agreement have been filed with the department. If any such claims have been filed with the department, the withdrawal of the deposit shall not be permitted until such claims have been satisfied or released and evidence of the satisfaction or release filed with the commissioner.

"All moneys and securities deposited with the commissioner shall be handled in the following manner:

"a. All securities deposited with the commissioner shall remain in his custody.

'6b. All moneys shall forthwith be delivered to the treasurer of the state of lowa which shall be invested in the manner set forth in section four hundred fifty-two point ten (452.10) of the Code and he shall not relinquish such moneys except upon the written orders of the commissioner.

- "The owner shall be entitled to receive all income from moneys and securities so deposited and the department shall issue a receipt for each deposit setting forth this fact.
- "3. In lieu of a bond or deposit, an annual report in the form prescribed by the commissioner may be furnished as proof of financial responsibility provided the applicant has the bond authorized by the United States department of agriculture under "Packers and Stockyards Act of 1921" as amended, and such bond covers any business of the applicant as a dealer or broker.
- "4. In lieu of a bond or deposit the applicant may file an annual sworn financial statement certified by a registered public accountant or a certified public accountant showing all assets and liabilities and such supporting data as the commissioner may require. Such statement shall show the applicant's current net worth to be not less than five (5) times the amount of the bond or deposit otherwise required by this section. If upon examination of any financial statement the commissioner considers that the applicant has furnished insufficient proof of financial responsibility, a written order may be issued directing such applicant to provide the bond or deposit required by this section. Failure to comply with such an order shall be cause for revocation or suspension of license.
- "Sec. 5. Any dealer or broker licensed under sections one hundred sixty-three point thirty (163.30), one hundred sixty-six A point two (166A.2), or one hundred seventy point two (170.2) of the Code shall be exempt from the licensing provisions of this Act but shall be required to furnish proof of financial responsibility as specified in section four (4) of this Act.
- "Sec. 6. Section one hundred sixty-three point thirty (163,30), subsection two (2), Code 1966, is hereby amended by inserting in line seventeen (17) after the word "Act." the following:
- "The applicant shall further be required to furnish proof of financial responsibility as specified in section four (4) of this Act."

## COMMUNICATION

April 17, 1967

The Honorable Robert Fulton Lieutenant Governor President of the Senate Sixty-second General Assembly State Capitol Des Moines, Iowa

Dear Governor Fulton:

Enclosed is a copy of the report I have received from the Special Committee which I appointed earlier this year to study the question of education of Amish children in Iowa. Attached to the report is a copy of a proposed bill which was unanimously recommended by the Committee as a solution to the problem.

The Committee's report is based primarily on two conclusions: "First, that there should still be a place in American life for nonconformity in educational approach based upon religious principles; and, second, that nonconformity should not be extended to include total absence of educational preparedness for a useful adult life."

As Governor of this State, I endorse the enclosed report and respectfully recommend adoption of the legislation proposed by the Committee as a workable alternative to the proposed solution which I submitted to the General Assembly last January in my Inaugural Address and Budget recommendations.

Very truly yours,

HAROLD E, HUGHES, Governor

# REPORT OF SPECIAL COMMITTEE TO HONORABLE HAROLD E, HUGHES GOVERNOR OF THE STATE OF IOWA

The Special Committee which you appointed to address itself to the question of education of Amish children in Iowa is pleased to submit the following report.

Your committee consisting of its Chairman, Bishop Gordon V. Smith; Bishop James Thomas; Senator George O'Malley; Representative James Klein; Dr. Howard Bowen; Dr. Irwin Lubbers and A. Arthur Davis met first on March 2, 1967. At that meeting you reviewed in detail the history of the Amish educational problem and charged the committee with a search for a solution to the problem which we could recommend to all effected parties, and which would represent a proper viewpoint, compatible with the interests of the people of the State of Iowa and also with the interests of the Amish.

The committee met further on March 10, March 31, April 7 and April 13, with all members participating. In these sessions we met with Attorney William Sidlinger, who represents the Amish; Mr. Arthur Sensor, Superintendent of Schools of the Oelwein School District; Mr. Lou Mulder, President of the Oelwein School Board; Mr. Paul Johnston, State Superintendent of Public Instruction; and Mr. C. W. Antes, President, State Board of Public Instruction.

There was a free exchange of ideas and a discussion of and study of several broad alternatives including forcibly bringing the Amish under school laws, ignoring the violations, recommending legislative appropriation of money to pay for the changes needed, further negotiations among the parties, and various legislative exemptions.

Many central philosophic ideas were considered, including questions of the relationship between governmental units; the relative rights of the state vis-a-vis parents; the protection of the Amish children, both by enforcement or exemption; the merits of certification of teachers; and the merits of the educational standards act.

Essentially the committee reached two conslusions. First that there should still be a place in American life for nonconformity in educational approach based upon religious principles; second, that nonconformity should not be extended to include total absence of educational preparedness for a useful adult life. In the interests of implementing these conslusions your committee unanimously recommends that the Iowa Legislature be urged, through appropriate legislative means to adopt the proposed Bill attached to this report.

We wish to express our appreciation for the confidence you have placed in us in calling us together to consider this problem. It is our hope that the proposed action, if adopted, will stand the tests of action and reaction and will serve well the people of the State of Iowa.

Respectfully submitted for a unanimous committee,

GORDON V. SMITH, Bishop of Iowa Chirman Bishop JAMES THOMAS Senator GEORGE O'MALLEY Representative JAMES KLEIN Dr. HOWARD BOWEN Dr. IRWIN LUBBERS A. ARTHUR DAVIS

## A BILL FOR

An Act relating to compulsory school attendance, and educational standards.

Be It Enacted by the General Assembly of the State of Iowa:

with the compulsory school law and the educational standards law, for two school years. When such exemption has once been granted, renewal for each succeeding school year may be conditioned, by the state superintendent with the approval of the board, upon proof of achievement in the basic skills of arithmetic, the communicative arts of reading, writing, grammar, spelling, and an understanding of United States history, history of Iowa, and the principles of American government, by persons of compulsory school age exempted in the preceding year, which shall be determined on the basis of tests, or other means of evaluation, selected by the state superintendent with the approval of the board. Such testing or evaluation, if required, shall be accomplished prior to submission of the request for renewal of the exemption to the state board for its approval. Renewal applications shall be filed with the state superintendent on or before April 15 of the school year preceding the school year for which the applicants desire exemption.

#### VETO MESSAGE

April 17, 1967

The Honorable Maurice E. Baringer Speaker of the House of Representatives Sixty-second General Assembly State Capitol Des Moines, Iowa

Honorable Members of the House of Representatives:

House File 72, an act relating to open hunting seasons, is hereby disapproved and returned to the House of Representatives in accordance with Article III, Section 16, Constitution of the State of Iowa.

This legislation apparently was intended to provide our State Conservation Officers with an additional enforcement tool to prevent the illegal killing of deer in Iowa. While I am in favor of effective measures to curtail the illegal shooting of our deer population, I do not feel that this bill would accomplish its intended purpose without undesireable side effects that would outweigh its merits.

The use of high-powered rifles in taking deer is illegal at all times in Iowa. There have unquestionably been a number of complaints of hunters illegally shooting deer with such weapons; but it is difficult to obtain convictions unless the hunter is apprehended in the act of killing or shooting a deer illegally. Conservation officers say that when they check hunters using high-powered rifles in the field during the deer season, the hunters usually say they are hunting fox or small game, not deer. Therefore, it is understandable that enforcement-minded persons might see merit in a bill, such as House File 72, which make it illegal for a hunter to "have in his possession in the field during the gun season

for hunting deer any shotgun with slugs or with shot larger than size number two (2), or any rifle other than a twenty-two (22) rimfire caliber, without also having a license or permit for such deer-hunting season."

However, there are three undesirable aspects of this legislation which I feel render it unacceptable. First, it would have the effect of prohibiting anyone from carrying a high-powered rifle in Iowa virtually anywhere during the deer-hunting season. Second, it would not prevent violators from killing deer with small shot or with smaller-bore weapons of high muzzle velocity. Third, it does not take into account that some waterfowl and other hunting seasons overlap the deer season, and hunters who are legally taking other types of wildlife with weapons prohibited under House File 72 could innocently be penalized.

Therefore, I feel it would be inadvisable to permit this measure to become law.

Very truly yours,

# HAROLD E, HUGHES, Governor

In accordance with Senate Rule 37, President Fulton announced the appointment of the following senators as members of the steering committee: Senators Reppert, Chairman; Shirley, ranking member, Murray, Van Gilst, Buren, Kruck, Riley, Lisle, Flatt, and Briles.

## COMMUNICATION FROM THE GOVERNOR

STATE OF IOWA

OFFICE OF THE GOVERNOR

DES MOINES

HAROLD E. HUGHES Governor

April 25, 1967

Honorable Members Sixty-second General Assembly State Capitol Des Moines, Iowa

LIEUTENANT GOVERNOR FULTON, SPEAKER BARINGER, MEMBERS OF THE SIXTY-SECOND GENERAL ASSEMBLY:

As Chairman of the State Executive Council, I am enclosing herewith two bills which supplement my original budget request for the 62nd biennium. These bills are for the purchase and improvement of the Federal Office Building located in downtown Des Moines, known as the Valley Bank Building.

Four existing buildings on the state capitol complex have been condemned or are needed for space to consolidate existing facilities. In addition to this need, we are currently leasing in excess of 80,000 square feet of space in Des Moines: The new State Office Building presently under construction and the second new Office and Laboratory Building included in my budget will not fulfill the state's total needs.

The State Executive Council having recognized this need and voting unanimously, negotiated with the federal government for the purchase of the Valley Bank Building in the amount of \$400,000, subject to Legislative approval and acceptance by the Congress. In addition, the State Architect estimates that the renovation cost to make the building suitable for state use would be \$250,000. This and supplemental data was recently presented to the legislative leadership, and at their request, we are submitting the enclosed bills. The Executive Council has instructed the Comptroller and State Architect to submit supplemental information relating to the details of this purchase and the budgetary effect for the 62nd biennium.

If the General Assembly has any questions regarding this matter, the Executive Council and other state officials who are familiar with the details would be glad to meet with the appropriate legislative committees to answer them.

Very truly yours,

HAROLD HUGHES Governor

#### MOTION TO RECONSIDER

Mr. President: I move to reconsider the vote by which Senate File 120 passed the Senate.

HOWARD C. REPPERT, JR.

## SENATE RESOLUTION 6

# By Reichardt

WHEREAS, local taxing bodies in Iowa presently derive a significant proportion of their revenue from taxation of personal property, and

WHEREAS, the personal property tax dates from the early days of Iowa's statehood when the only concept of taxation at the local level was property taxation, and when taxation of personal property may have been fairly equitable because a high proportion of Iowa's working people were farmers, storeowners, or were engaged in related lines of endeavor which required use of, or maintenance of inventories of, tangible personal property, and

WHEREAS, the personal property tax has become outmoded and inequitable because it is borne primarily by those who must use, or maintain an inventory of, considerable amounts of tangible personal property in earning their livelihood, although a large proportion of Iowa's working people are now engaged in professions, service businesses, skilled work, trades, or other lines of endeavor, such as, for example, abstracting, accounting, advertising, architecture, auctioneering, banking, barbering, bricklaying, carpentering, cosmetology, engineering, surveying, teaching, the practice of chiropractic, dentistry, law, medicine, optometry, physical therapy, psychology, or veterinary medicine; the operation of brokerage, insurance, investment, public relations, or real estate agencies, etc., etc., one of which require use of, or maintenance of inventories of, extensive amounts of tangible personal property subject to taxation, and

WHEREAS, the personal property tax has further become inequitable through enactment from time to time of specific exemptions, so that present statutes:

- --Exempt property of the United States, unless Congress has expressly authorized the taxation of such property, and property of the State of Iowa, its political subdivisions, or any military company of the State of Iowa, when devoted to public use and not held for pecuniary profit.
  - -- Exempt fire engines and all implements for extinguishing fires.
- --Exempt such securities as bonds or certificates issued by political subdivisions of the State of Iowa and shares of capital stock of telegraph, telephone, freight line and equipment, electric transmission line, and express companies, corporations engaged in merchandising or manufacturing in Iowa, and nonprofit corporations.
- --Exempt accounts receivable and noninterest bearing moneys and credits, and provide for taxation of nonexempt moneys and credits at the rate of only one mill levied for the purpose of paying off the Korean Veterans' bonus bonds.

- --Exempt property of any organization composed wholly of veterans of any war, when the property is devoted entirely to the organization's own use and is not held for pecuniary profit; also furniture and household equipment of homes owned and operated by organizations of veterans of any of the wars of the United States when used for a home for disabled veterans and not operated for pecuniary profit.
- --Exempt property of honorably discharged veterans, and certain relatives or survivors of honorably discharged veterans, in amounts ranging from \$3,000 for each veteran of the Mexican War or Civil War to \$500 for each veteran of the various wars and military actions undertaken by the United States subsequent to November 12, 1918, provided the authorized exemption has not already been applied to the veteran's real estate property taxes.
- --Exempt moneys, credits, and tangible personal property belonging exclusively to and used only for the appropriate objectives of cemetery associations and societies, libraries and art galleries owned by the public or kept for public use and not for private profit, and literary, scientific, charitable, benevolent, agricultural, and religious institutions and societies.
- --Exempt agricultural and horticultural crops while growing, except commercial orchards and vineyards, and all agricultural and horticultural produce harvested by or for the person assessed, or wool shorn from sheep owned by the person assessed, all poultry and ten stands of bees, honey, and beeswax, produced within one year previous to assessment and remaining in the possession of the producer; also all swine and sheep under nine months of age, and all cattle, other livestock, and fur-bearing animals under one year of age.
- --Exempt grain received at or in elevators, warehouses, mills, processing plants, or other facilities in Iowa for storage, sale, processing, or any other purpose.
- --Exempt family pictures, household furniture, not to exceed \$300 in taxable value, kitchen furniture, beds and bedding requisite for each family, all wearing apparel in actual use, and all food provided for each family.
- --Exempt private or professional libraries, farming utensils, or mechanics' tools, not to exceed \$300 in taxable value.
- --Exempt accumulations and funds held or possessed by fraternal beneficiary associations for the purposes of paying expenses of the associations or paying benefits which such associations are permitted by law to pay.
- --Exempt money paid or payable under the Iowa Public Employees Retirement System, and all intangible property held pursuant to any pension, profit sharing, unemployment compensation, stock bonus or other retirement, deferred benefit, or employee welfare plan the income from which is exempt from Iowa personal or corporate income taxes.
- --Exempt all personal property stored in a warehouse operated as a public warehouse in the business of storing goods for profit, and intended for ultimate sale or resale, with or without additional processing, manufacturing, fabricating, compounding or servicing, provided such personal property is not offered for sale or sold by the owner at retail directly from such public warehouse.
  - -- Exempt tangible personal property, goods, wares and merchandise moving in in-

terstate commerce through or over the State of Iowa or consigned to a private warehouse within the State of Iowa for storage in transit to a final destination outside the State of Iowa.

--Exempt motor vehicles, on which are paid a registration fee based in part on value, and mobile homes, on which are paid a semiannual tax based on exterior dimensions, from taxation as personal property and this exemption has been extended to dealers although dealers are not required to pay registration fees upon new or used motor vehicles or semiannual taxes on new or used mobile homes held for sale, while by contrast farm implement dealers must pay personal property taxes upon their stocks of new and used tractors and implements, and

WHEREAS, the primary sources of state revenue are taxes on income and sales, that is, taxes on what is produced, and are collected from nearly all businesses, while the personal property tax is a tax judgment on the theoretical ability to produce and is collected only from certain types of businesses without regard to whether productivity is actually achieved, and

WHEREAS, because the personal property tax is essentially an attempt to tax ability to produce, it should logically be levied on the productive potential of the knowledge and skills acquired by professional people and other white-collar workers from their educations, as well as on the inventories of merchants, and

WHEREAS, assessment of merchandise inventories for personal property tax purposes is made on each merchant's average inventory during the year, therefore slow-turnover businessess (jewelry and hardware stores, for example) doing a comparable dollar volume of business usually pay personal property taxes on larger inventories than fast-turnover businesses (grocery stores, for example), and some businesses (newspapers, bakeries, dairies, and restaurants, for example) turn their inventory so rapidly that they pay no personal property tax on the products they sell, and

WHEREAS, the personal property tax in Iowa is characterized by many specific inequities, such as, for example:

- --The assessed value of items manufactured in Iowa and remaining in the hands of the manufacturer is based only upon the value of materials used in manufacturing the item, while the same item is assessed in the hands of a dealer on the basis of the wholesale price paid by the dealer for the item, and if taxable in the hands of the ultimate purchaser the item is assessed on the basis of the retail price of the item.
- --Independent oil dealers are taxed heavily on their stores of fuel; national concerns which are able to connect directly to a pipeline need not store large amounts of fuel which are subject to taxation.
- --Catalog stores operated by out-of-state firms and maintaining no inventory in Iowa are competing for business with Iowa firms maintaining large inventories on which they pay personal property tax, thus creating an unfair competitive situation which handicaps Iowa businessmen, and

WHEREAS, all the foregoing inequities of the personal property tax are compounded by the fact that, although section 441.21 of the Code reads "All property subject to taxation shall be valued at its actual value... and shall be assessed at sixty percent of such actual value," the term "actual value" has never been adequately defined; and further that the assessors in the various taxing jurisdictions in Iowa determine the "actual value" at which property is assessed more by local needs than by equity, so that personal property is assessed at anywhere from 10 to 60 percent of the fair or reasonable market value of the property, and

WHEREAS, in summary, the personal property tax in Iowa is an outmoded, burdensome, regressive, and inequitable levy, tends to penalize efficiency, falls with undue weight upon a small proportion of present day businesses, fails to reflect ability to pay, was imposed in 1851 as a solution to territorial problems and in the succeeding 116 years has become shot through with exemptions, and is particularly subject to administration in an arbitrary manner because far too much is left to the administrator's judgment, NOW THEREFORE

BE IT RESOLVED BY THE SENATE, That the Sixty-second General Assembly should relieve Iowans of the burden of personal property taxation by repealing or initiating a systematic phase-out of personal property taxes, thereby encouraging increased investment in Iowa business, increased productivity and efficiency, higher employment, a higher total amount of salaries and wages received in the state, greater consumer demand, and increased sales, all of which would result in increasing the revenue received from the income and sales taxes.

# AMENDMENTS TO SENATE FILE 430

Amend Senate File 430 as follows:

- 1. Strike all of Section 1, subsection 2, and substitute in lieu thereof the following:
- "2. "Closed end credit" means a credit transaction in which the base amount and the maturity of the debt are determined at the time of the extension of credit and the debt is payable in installments."
  - 2. Amend Section 1 by adding the following additional subsection:
- "15. "Annual finance charge formula" means the method for converting a dollar finance charge into a percentage rate. The formula assumes that (a) all scheduled installments of a credit transaction are equal, payable at equal intervals, and fall on due

dates which are the same day of each month or other payment period as that on which the agreement is entered into and (b) the debtor makes all payments at the times and in the amounts scheduled. Based upon these assumptions, the "annual finance charge formula" is:

R equals the percentage rate. P equals the number of payment periods in one year (always twelve if monthly payments, four if quarterly payments, and fifty-two if weekly payments). C equals the finance charge. A equals the principal balance to be paid by the debtor. N equals the number of installments. Except as otherwise provided, a variance tolerance of one percent per annum in the percentage rate is hereby authorized in computations under this formula."

- 3. Strike all of Section 5, subsection 6, and substitute in lieu thereof the following: "6. The total finance charge or planned finance charge."
- 4. Amend Section 5, subsection 8, by inserting the following after the word "balance" in line 24: "or planned total loan balance."

# SENATE CONCURRENT RESOLUTION NO. 37 By: Main, Heaberlin, Coleman, and Dodds

WHEREAS, while prices paid to livestock producers have declined, retail prices charged for meat have increased; and

WHEREAS, the United States Department of Agriculture Market News Summary of February 15, 1967, shows that the spread between wholesale and retail prices on beef has gone from \$17.76 per one hundred pound carcass weight on February 12, 1966, to \$19.57 on February 11, 1967; on lamb from \$18.29 to \$25.65; and on pork from \$17.86 to \$19.34; and

WHEREAS, one independent survey indicates chain stores are now realizing gross profits in excess of \$31.00 per hundred weight or more than \$180.00 per 600 pound carcass; and

WHEREAS, studies made in independent surveys conducted by men of experience in the production, finishing, processing, distribution, and marketing of beef suggest that chain stores may be making excessive profits from the sale of meats at retail while others in the meat business, including ranchers, farmers, feeders, and packers, are suffering from depressed prices for their production in the face of increased business costs; and

WHEREAS, the number of independent retail outlets for meat has decreased drastically, so that chain stores are now marketing in excess of eighty percent of the meat sold at retail level; and

WHEREAS, prices charged by chain stores for meat are substantially the same in all such chain stores; and

WHEREAS, the similarity of pricing and substantial monopoly of the retail sale of meat seems to result in excessive profits to chain food stores in the sale of meats at retail; NOW THEREFORE

BE IT RESOLVED BY THE SENATE, THE HOUSE CONCURRING; That the Attorney General of the United States is hereby requested to conduct a study of the marketing of meat by chain food stores to determine whether or not there is collusion among the chain food stores in fixing prices, in establishing excessive markups in the retail prices of meat, in establishing a monopoly in the retail sale of meat, and of other practices which restrain trade in violation of the Sherman Anti-Trust Act.

BE IT FURTHER RESOLVED; That copies of this resolution be forwarded to the Attorney General of the United States, the President of the United States Senate, the Speaker of the United States House of Representatives, and to each member of the Iowa delegation of the Senate and the House of Representatives of the United States Congress.

On motion of Senator Frommelt the Senate adjourned until 9:00 a.m., Wednesday, May 3, 1967.

## COMMUNICATION

May 1, 1967

Honorable Robert Fulton Lieutenant Governor of Iowa State Capitol L O C A I

Dear Bob.

Since passage by the General Assembly of Senate File 40, the bill to require a colored photograph on each Iowa drivers' license, I have made a thorough study of the cost of implementing this bill and the advantages that would result from it.

The best estimate I have been able to obtain indicates that it would cost about \$1,100,000 for the first two-year period to put the provisions of the bill into effect, not counting the cost of added space that would be required at drivers' license examining stations. No provisions were made in Senate File 40 for defraying this cost. Advocates of the bill say it will provide better identification to prevent the sale of beer and liquor to minors and the passing of bad checks. In my opinion, these advantages—if they do, in fact, exist—are outweighed by the cost involved at a time when funds available to the Public Safety Department are urgently needed to provide additional men for the Highway Patrol and other vital traffic safety measures.

Therefore, I would urge the General Assembly to either reconsider its passage of Senate File 40 or hold the bill until some source of funds is provided to pay for the cost of implementing it.

Very truly yours, HAROLD E. HUGHES, Governor

Senator Frommelt asked and received unanimous consent that Senate File 766 be taken up out of order.

# COMMUNICATIONS May 5, 1967

The Honorable Robert D. Fulton Lieutenant Governor President of the Senate Sixty-second General Assembly State Capitol Des Moines, Iowa

Honorable Members of the Senate:

Senate File 40, the bill to require a colored photograph on each Iowa driver's license, is hereby disapproved and returned to the Senate in accordance with Article III, Section 16, Constitution of the State of Iowa.

The decision to disapprove this measure was reached only after careful weighing of the potential usefulness of the photo licenses and thorough research into the cost and administrative problems of providing them.

Prior to the time the bill reached my desk, I made known my misgivings about it so the disapproval should come as a surprise to no one.

In the first place, no provision was made by the General Assembly to defray the cost of carrying out this enactment. Presumably, therefore, the funds would have to come out of the operating budget of the Public Safety Department.

Cost estimates vary, but there is no doubt whatsoever that the cost of establishing the photo license system would be substantial.

The most informed estimate I have been able to obtain indicates that it would cost about \$1,100,000 for the first two-year period, not counting the cost of added space that would be required at driver's license examining stations.

At a time when the needs of the state for vital services are compelling and our citizens are pleading for tax relief, I simply cannot justify this expenditure out of funds urgently needed by the Public Safety program for additional Highway Patrol officers and other essential traffic safety requirements.

Proponents of this measure have stated that the photo licenses would cut down the passing of bad checks, would help prevent liquor sales to minors, and would provide more positive identification for law enforcement officers.

But professional law enforcement people with whom I have consulted consider these advantages to be limited. They state that the majority of bad checks are passed by professional criminals from out of the state who carry forged documents anyway. A laminated photo on a driver's license can still be "doctored up" and relaminated in the event that a minor wanted to purchase alcoholic beverages. Moreover, some protection is already provided by the fact that any driver who is not of age has "under 21" marked across his driver's license.

Public safety officials see some advantage to the photo licenses in law enforcement and prevention. Some of them would favor the establishment of the system if it were self-supporting. Under Senate File 40, it would not be. Since that is the case, the conclusion is that there are more vital needs for funds in public safety than for this purpose.

I do not for a moment question the high purpose of the General Assembly in enacting Senate File 40. But for the reasons stated above, I could not in good conscience approve the bill.

Very sincerely,

HAROLD E. HUGHES, Governor

COMMUNICATIONS May 8, 1967

The Honorable Robert D. Fulton Lieutenant Governor of Iowa President of the Senate Sixty-second General Assembly State Capitol Des Moines, Iowa

Dear Sir:

I am enclosing a copy of a letter I have received from Dr. David D. Palmer of Davenport asking that his name be withdrawn from further consideration for confirmation as a member of the State Board of Regents. Also enclosed is a copy of my reply to Dr. Palmer.

It is with a profound sense of regret and loss to the state that I urge the Senate to withdraw Dr. Palmer's name.

However, I feel that Dr. Palmer's feelings should be respected in this matter, and I would earnestly hope that his request can be granted.

Very truly yours, HAROLD E. HUGHES, Governor

May 4, 1967

The Honorable Harold Hughes Governor of Iowa State Capitol Building Des Moines, Iowa

Dear Governor Hughes:

On March 1 you did me the great honor of nominating me for appointment to the Iowa State Board of Regents. I have looked forward with anticipation to the opportunity to serve in that capacity.

Since that date the ensuing controversy engendered by a minority group with vested interests has subjected you, personally, to much embarrassment.

Now, although the nomination is still pending upon a motion for reconsideration, I have concluded to ask you to withdraw my name and spare both of us further involvement.

I see no alternative since your nomination has now become involved in party-line politics and side issues quite apart from my personal qualification. As a prudent citizen and business executive, I do not wish to continue my personal interest in the present legislative session.

I have reached this decision thoughtfully and with much regret, as I have been deeply touched by this evidence of your good will and esteem.

I shall always be appreciative of your consideration and support. I also appreciateand am very grateful for--the many, many letters supporting my nomination.

My warmest and most cordial good wishes.

Sincerely,

DAVID D. PALMER

May 8, 1967

Dr. David D. Palmer Palmer Broadcasting Company 1000 Brady Street Davenport, Iowa 52805

Dear Dr. Palmer:

I have your letter requesting that I withdraw your name, which I placed in nomination for appointment to the State Board of Regents, from further consideration for confirmation by the Iowa Senate.

I accede to your request with the deepest regret and with a profound sense of loss to the state.

As you know, in the Senate debate over your confirmation, there was no point cited by those in opposition that for a moment reflected on your qualifications or integrity. I am happy that the sessions concerning the confirmation of a Governor's appointee are now open to the press and public so that the people may know the grounds on which any appointment is turned down.

I would recall to you that a substantial majority of the Senators voted for your confirmation, with only a few additional votes needed for the necessary two-thirds majority. Whether or not a motion for reconsideration would have turned up the handful of additional votes needed, I can't say. I do know that the mail I have received in recent weeks and the comment of legislators who have spoken to me about this matter has run at least four to one in your favor.

In the meantime, I am well aware of your disinclination to do anything you think might conceivably complicate the problems of my office or in any way retard the important work of the Regents. I am very grateful.

In conclusion, let me say once again that I tendered your appointment to the Board of Regents with pride and confidence on the basis of your character and high qualifications for this important office. I deeply regret that confirmation was denied your appointment, by a small margin, for reasons quite apart from your personal integrity and qualifications.

I sincerely hope that you will not permit this unfortunate chapter of political history to discourage you from future opportunities to serve the state. Considering your distinguished record in public affairs, this would be a greater loss to the state than to you, for the state sorely needs the services of its distinguished sons and daughters. I feel that we as a people have the capacity to grow wiser and to set aside old prejudices, and I have faith that this particular chapter of history is not likely to be repeated in future years.

Cordially,

HAROLD E. HUGHES, Governor

# SENATE CONCURRENT RESOLUTION 43

By: Benda, Lodwick, Flatt, Briles, Cassidy, Lange and Kibbie

WHEREAS, United States Department of Defense statistics for fiscal year 1966 reveal that 873 of the 4,873 servicemen killed in Vietnam fighting for freedom were interred in national cemeteries; and

WHEREAS, many more of the servicemen who have lost their lives would probably also have been buried in a national cemetery had there been space available near the home of the next of kin; and

WHEREAS, there are those in governmental authority who are against expanding the national cemetery system or providing additional space in those national cemeteries already existing; and

WHEREAS, the burial allowances of the Veterans Administration and those allowances provided under Federal Social Security are far too meager in many instances to provide for the last rites of many veterans and servicemen; and

WHEREAS, world unrest is again exposing and committing large numbers of persons to military service and battle; and

WHEREAS, this is not a proper time for limiting or closing the national cemetery system to those presently serving or expecting to serve in the uniform of our country; NOW THEREFORE

BE IT RESOLVED BY THE SENATE, THE HOUSE CONCURRING, that the Congress of the United States is hereby urged to take such action as is necessary to direct the Department of Defense, the Bureau of the Budget, and other appropriate governmental agencies to establish and maintain an adequate and permanent national cemetery system to provide burial space for all United States military servicemen or women so entitled and who wish to be so interred; and

BE IT FURTHER RESOLVED that the Secretary of the Senate forward copies of this resolution to the Honorable Lyndon B. Johnson, President of the United States, the the Honorable Robert S. - "Section 1. Section four hundred forty-one point twenty-one (441.21), Code 1966, is hereby amended by striking all of lines one (1) through nineteen (19), inclusive, and inserting in lieu thereof the following:
- "1. All property subject to taxation shall be valued at its actual value which shall be entered opposite each item, and shall be assessed at twenty-seven (27) percent of such actual value, and such value so assessed shall be taken and considered as the taxable value of such property upon which the levy shall be made.
- "The actual value of all property subject to assessment and taxation shall be the fair and reasonable market value of such property. "Market value" is defined as the reasonable exchange in the assessment year between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and each being familiar with all the facts relating to the particular property. Sale prices of the property or comparable property in normal transactions reflecting market value, and the probable availability or unavailability of persons interested in purchasing the property, shall be taken into consideration in arriving at its market value.
- "The market value of an inventory or goods in bulk shall be their market value as such inventory or goods in bulk, not their retail or unit price. Such market value shall be fair and reasonable based on market value of similar classes of property.
- "In the event market value of the property being assessed cannot be readily established in the foregoing manner, then the assessor may consider its productive and earning capacity if any, industrial conditions, its cost, physical and functional depreciation and obsolesence and replacement cost, and all other factors which would assist in determining the fair and reasonable market value of the property but the actual value shall not be determined by use of only one such factor. The following shall not be taken into consideration: special value or use value of the property to its present owner, and the good will or value of a business which uses the property as distinguished from the value of the

property as property. Upon adoption of uniform rules and regulations by the state tax commission or succeeding authority over state assessments for the valuation of such properties, said valuation on such properties shall be determined in accordance therewith for assessment purposes to assure uniformity, but such rules and regulations shall not be inconsistent with or change the foregoing means of determining the actual, market, taxable and assessed values.

- ""'Actual value", "taxable value", or "assessed value" as used in other sections of the Code shall mean the valuations as determined by this section; however, other provisions of the Code providing special methods or formulas for assessing or valuing specified property shall remain in effect, but this section shall be applicable to the extent consistent with such provisions.
- "The burden of proof shall be upon any complainant attacking such valuation as excessive, inadequate, inequitable or capricious; however, in protest of appeal proceedings when the complainant offers competent evidence by at least two (2) disinterested witnesses that the market value of the property is less than the market value determined by the assessor, the burden of proof thereafter shall be upon the officials or persons seeking to uphold such valuation to be assessed."
- "Sec. 2. Further amend said section four hundred forty-one point twenty-one (441.21) by adding at the end thereof, the following subsection:
- "'2. For the purpose of computing the debt limitations for municipalities, political subdivisions and school districts as provided in sections four hundred seven point one (407.1) and four hundred seven point two (407.2) of the 1966 Code, and the term "actual value" as used in said sections shall mean the "actual value" as determined by this section and entered opposite each item, and as listed on the tax list as provided in section four hundred forty-three point two (443.2) of the Code as "actual value".
- "Sec. 3. Section four hundred twenty-eight point twenty-nine (428.29), Code 1966, is hereby amended by striking all after the comma (,) in line ten (10), all of line eleven (11), and all of line twelve (12) before the period (,), and by adding in lieu thereof the following:

- "Sec. 5. Section four hundred thirty-five point seven (435.7), Code 1966, is hereby amended by striking all of lines twenty-five (25), twenty-six (26) and twenty-seven (27) and adding in lieu thereof the following:

- "Sec. 8. All assessors and assessing bodies, including the state tax commission or succeeding authority over the assessment of property for tax purposes shall certify to the county auditor of each county the actual and assessed values of all the taxable property in such county as finally equalized and determined in the manner otherwise provided, and the same shall be transcribed onto the tax lists as required by section four hundred forty-three point two (443.2) of the Code.

The state tax commission or succeeding authority over such assessments, shall exercise its powers and perform its duties under section four hundred twenty-one point seventeen (421.17) of the Code and other applicable laws so as to require the uniform and consistent application of this Act.

## THIRD READING OF BILLS

On motion of Senator Cassidy, Senate File 772, a bill for an act relating to the valuation and assessment of property for purposes of taxation and determining the rate of assessment, was taken up for consideration.

Senator Cassidy called up the following committee amendment:

Amend Senate File 772 by striking all after the enacting clause and inserting in lieu thereof the following:

- "Section 1. Section four hundred forty-one point twenty-one (441.21), Code 1966, is hereby amended by striking all of line one (1) through nineteen (19), inclusive, and inserting in lieu thereof the following:
- "1. All property subject to taxation shall be valued as its actual value which shall be entered opposite each item, and shall be assessed at twenty-seven (27) percent of such actual value, and such value so assessed shall be taken and considered as the taxable value of such property upon which the levy shall be made.

"The actual value of all property subject to assessment and taxation shall be the fair and reasonable market value of such property. "Market value" is defined as the reasonable exchange in the assessment year between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and each being familiar with all the facts relating to the particular property. Sale prices of the property or comparable property in normal transactions reflecting market value, and the probable availability or unavailability of persons interested in purchasing the property, shall be taken into consideration in arriving at its market value.

"The market value of an inventory or goods in bulk shall be their market value as such inventory or goods in bulk, not their retail or unit price. Such market value shall be fair and reasonable based on market value of similar classes of property.

"In the event market value of the property being assessed cannot be readily established in the foregoing manner, then the assessor may consider its productive and earning capacity if any, industrial conditions, its cost, physical and functional depreciation and obsolesence and replacement cost, and all other factors which would assist in determining the fair and reasonable market value of the property but the actual value shall not be determined by use of only one such factor. The following shall not be taken into consideration: special value or use value of the property to its present owner, and the good will or value of a business which uses the property as distinquished from the value of the property as property. Upon adoption of uniform rules and regulations by the state tax commission or succeeding authority over state assessments for the valuation of such properties, said valuation on such properties shall be determined in accordance therewith for assessment purposes to assure uniformity, but such rules and regulations shall not be inconsistent with or change the foregoing means of determining the actual, market, taxable and assessed values.

""Actual value", "taxable value", or "assessed value" as used in other sections of the Code shall mean the valuations as determined by this section; however, other provisions of the Code providing special methods or formulas for assessing or valuing specified property shall remain in effect, but this section shall be applicable to the extent consistent with such provisions.

- "The burden of proof shall be upon any complainant attacking such valuation as excessive, inadequate, inequitable or capricious; however, in protest or appeal proceedings when the complainant offers competent evidence by at least two (2) disinterested witnesses that the market value of the property is less than the market value determined by the assessor, the burden of proof thereafter shall be upon the officials or persons seeking to uphold such valuation to be assessed."
- "Sec. 2. Further amend said section four hundred forty-one point twenty-one (441.21) by adding at the end thereof, the following subsection:
- "2. For the purpose of computing the debt limitations for municipalities, political subdivisions and school districts as provided in sections four hundred seven point one (407.1) and four hundred seven point two (407.2) of the 1966 Code, and the term "actual value" as used in said sections shall mean the "actual value" as determined by this section and entered opposite each item, and as listed on the tax list as provided in section four hundred forty-three point two (443.2) of the Code as "actual value".
- "Sec. 3. Section four hundred twenty-eight point twenty-nine (428.29), Code 1966, is hereby amended by striking all after the comma (,) in line ten (10), all of line eleven (11), and all of line twelve (12) before the period (.), and by adding in lieu thereof the following:
- $^{\prime\prime\prime}$  as provided by section four hundred forty-one point twenty-one (441.21), Code 1966, as amended.'
- "Sec. 4. Section four hundred thirty-four point fifteen (434.15), Code 1966, is hereby amended by striking all of line six (6), and all of line seven (7), and all before the word 'and' in line eight (8) and inserting in lieu thereof the words 'the actual value so ascertained shall be assessed as provided by section four hundred forty-one point twenty-one (441.21), Code 1966, as amended,'
- "Sec. 5. Section four hundred thirty-five point seven (435.7), Code 1966, is hereby amended by striking all of lines twenty-five (25), twenty-six (26) and twenty-seven (27) and adding in lieu thereof the following:
- "and the residue of actual value so ascertained shall be assessed as provided by section four hundred forty-one point twenty-one (441.21), Code 1966, as amended."
- "Sec. 6. Section four hundred thirty-eight point thirteen (438.13), Code 1966, is hereby amended by striking all of lines five (5), six (6), seven (7) and figures '441.21' before the semicolon in line eight (8), and inserting in lieu thereof the words, 'provided, and the actual and taxable value so ascertained shall be assessed as provided by section four hundred forty-one point twenty-one (441.21), Code 1966, as amended'
- "Sec. 7. Section four hundred twenty point two hundred four (420,204), Code 1966, is hereby amended by striking all after the word 'be' in line eight (8) through line sixteen (16) and inserting in lieu thereof the words 'valued and assessed as provided by section four hundred forty-one point twenty-one (441,21), Code 1966, as amended,'
- "Sec. 8. All assessors and assessing bodies, including the state tax commission or succeeding authority over the assessment of property for tax purposes shall certify to the county auditor of each county the actual and assessed values of all the taxable

property in such county as finally equalized and determined in the manner otherwise provided, and the same shall be transcribed onto the tax lists as required by section four hundred forty-three point two (443.2) of the Code.

- "Sec. 9. All assessors and assessing bodies, including the state tax commission or succeeding authority over the assessment of property for tax purposes, shall comply with the provisions of this Act. The state tax commission or succeeding authority over such assessments, shall exercise its powers and perform its duties under section four hundred twenty-one point seventeen (421.17) of the Code and other applicable laws so as to require the uniform and consistent application of this Act.
- "Sec. 10. The provisions of this Act shall become effective January 1, 1968, and shall apply to all assessments made in the year 1968 and each year thereafter."

## A GREETING TO THE IOWA GENERAL ASSEMBLY

## MAY 17 IN RECOGNITION OF NORWAY'S CONSTITUTION DAY

As Norway's Ambassador to the United States, I am happy to send my most cordial greetings to the Iowa General Assembly May 17 in recognition of our Constitution Day.

Our Fundamental Law was written by the Constituent Assembly that met at Eidsvold in 1814. Their signing of the Constitution marked the end of four hundred years of dependence and the beginning of a new era of national rebirth that reached its climax in 1905 when Norway once again became a fully independent and sovereign nation. Through all the years that preceded this momentous event in our history, Norwegians rallied on the 17th of May to demonstrate their support for the Constitution of 1814.

The 17th of May is still very meaningful to the people of Norway. You can see it in the glowing faces of the nation's school children as they march in Constitution Day parades, singing and waving Norway's red-white-and-blue cross flag.

It is interesting to note that, in drafting the Constitution, the members of the Constituent Assembly of 1814 studied Norway's ancient laws as well as contemporary charters of freedom. A chief inspiration was the United States Declaration of Independence, especially the principles that it laid down for the protection of individual freedom. That is but one of the many bonds between Norway and the United States. Friendship between our two peoples has also been forged by the nearly one million Norwegian immigrants and their descendents.

The Iowa General Assembly's recognition of our Constitution Day will help to cement the friendship between Norway and the United States, and for that I wish to extend my heartfelt thanks.

ARNE GUNNENG Ambassador of Norway

Received by Senator Klefstad.

#### EXPLANATIONS OF VOTES

We voted against Senate File 768 and Senate File 773 for the following reasons:

- 1. We feel strongly that personal property tax relief should be considered as one major tax problem in this state and that a solution to this problem should apply to all personal property.
- 2. It is our or inton that such piecemeal repeal bills as these two are proposed strictly for political purposes, not with a sincere objective of providing a sensible solution to the entire problem.
- 3. We will vote for repeal of the personal property tax on household goods and on livestock when and if the Senate Ways and Means Committee presents us with a bill which will consider the entire question.

# EXPLANATION OF VOTE ON SENATE FILE 536

My negative vote on Senate File 536 was not against the idea of anti-secrecy, but because the amendment specifically exempting peace officers making investigations was defeated.

In my opinion, the war against crime could be seriously handicapped if crime commissions and peace officers would have to give public notice of their investigation meetings.

HOWARD C. REPPERT, JR.

Amend Senate File 773 by striking all after the enacting clause and by inserting in lieu thereof the following:

- "Section 1. Each taxpayer of the state shall receive full credit against the tax on all personal property owned by him unless the assessed value of the personal property owned by the taxpayer exceeds five thousand (5,000) dollars. If the assessed value of all personal property owned by any taxpayer exceeds five thousand (5,000) dollars, the taxpayer shall pay tax on that part of the personal property which exceeds five thousand (5,000) dollars assessed value.
- Sec. 2. The personal property tax credit authorized in section one (1) of this Act shall not excuse the taxpayer from listing all personal property as required in chapter four hundred twenty-eight (428) of the Code. The valuation of such personal property shall be determined as prescribed in chapter four hundred forty-one (441) of the Code, so that the valuations of all personal property in a taxing district shall be known and shall be made a part of the tax list compiled by the county auditor under chapter four hundred forty-three (443) of the Code.
- Sec. 3. No taxpayer in the state shall be allowed a credit on personal property tax in excess of five thousand (5,000) dollars assessed valuation. Any taxpayer who owns personal property subject to taxation in more than one (1) county of the state shall designate in reporting such property as required in section two (2) of this Act in which counties of the state the property is located and shall claim the tax credit only in one (1) county and in no case shall claim more than five thousand (5,000) dollars in such claimed county or the assessed value of all personal property assessed in said county, whichever is the lesser amount. At the time of making such claim, the taxpayer shall state by affidavit that he has not claimed any other personal property tax credit in any other county of the state and shall state in what other county he does have personal property.
- Sec. 4. If personal property is owned jointly, the joint owners may not respectively take a tax credit on such property in excess of the proportionate ownership in said property and said proportionate ownership shall be determined by dividing the total assessed value of the property by the number of joint owners unless the joint owners show their actual interest and ownership by affidavit. Any such proportionate credit from jointly owned property may be applied only against the joint owner's respective credit of five thousand (5,000) dollars of assessed valuation and in no event is an additional credit to be allowed for the joint ownership.
- Sec. 5. WHEREAS, a great volume of this business is transported by trucks duly registered in the state of Minnesota with a special license available only to farmers, and

If the assessed value of all personal property owned by any taxpayer exceeds five thousand (5,000) dollars, the taxpayer shall pay tax on that part of the personal property which exceeds five thousand (5,000) dollars assessed value.
- Sec. 2. The personal property tax credit authorized in section one (1) of this Act shall not excuse the taxpayer from listing all personal property as required in chapter four hundred twenty-eight (428) of the Code. The valuation of such personal property shall be determined as prescribed in chapter four hundred forty-one (441) of the Code, so that the valuations of all personal property in a taxing district shall be known and shall be made a part of the tax list compiled by the county auditor under chapter four hundred forty-three (443) of the Code.
- Sec. 3. No taxpayer in the state shall be allowed a credit on personal property tax in excess of five thousand (5,000) dollars assessed valuation. Any taxpayer who owns personal property subject to taxation in more than one (1) county of the state shall designate in reporting such property as required in section two (2) of this Act in which counties of the state the property is located and shall claim the tax credit only in one (1) county and in no case shall claim more than five thousand (5,000) dollars in such claimed county or the assessed value of all personal property assessed in said county, whichever is the lesser amount. At the time of making such claim, the taxpayer shall state by affidavit that he has not claimed any other personal property tax credit in any other county of the state and shall state in what other county he does have personal property.
- Sec. 4. If personal property is owned jointly, the joint owners may not respectively take a tax credit on such property in excess of the proportionate ownership in said property and said proportionate ownership shall be determined by dividing the total assessed value of the property by the number of joint owners unless the joint owners show their actual interest and ownership by affidavit. Any such proportionate credit from jointly owned property may be applied only against the joint owner's respective credit of five thousand (5,000) dollars of assessed valuation and in no event is an additional credit to be allowed for the joint ownership.
- Sec. 5. The credit allowed by sections one (1) to four (4) inclusive, hereof on personal property taxes up to five thousand (5,000) dollars of assessed valuation shall

not be applicable to the taxation of personal property provided in chapters four hundred twenty-nine (429) to four hundred thirty-eight (438), inclusive, of the Code.

- Sec. 6. On or before January 1 of each year, the auditor of each county shall prepare a statement listing for each taxing district in the county all personal property upon which taxes shall not be collected due to the tax credit granted in this Act. The statement shall show the tax rates of the various taxing districts and the total amount of taxes which shall not be collected in each district because of the tax credit. The auditor shall certify and forward one (1) copy each of the statement to the state comptroller and to the state tax commission on or before January 15 of such year.
- Sec. 7. The amounts due each taxing district certified by the county auditor shall be paid in two (2) equal payments by the state comptroller on or before March 15 and September 15 of each year, drawn upon warrants payable to the respective county treasurers. The county treasurer upon receipt of the warrants from the comptroller shall apportion the proceeds among the taxing districts in the county as certified by the county auditor.

If he finds they conform to the requirements of the law and all rules and regulations promulgated under this Act, he shall approve the articles of incorporation and file them with the secretary of state. Every benevolent association formed and operating before January 1, 1967, and not so incorporated, shall be required to complete their incorporation before January 1, 1968. # EXPLANATION OF VOTE

I changed my vote from "No" to "Aye" on the final passage of House File 686, as did many of my Republican colleagues, when it became obvious that the supporters of this bill did not have sufficient votes for a constitutional majority. I am opposed to the proportionate sharing plan as adopted by the Senate but did not want to see the bill killed as this would have resulted in real property tax relief receiving no further consideration this session. By passing the proportionate sharing plan in House File 686 we kept the issue alive so that it and the Petersen Plan can be considered later by a conference committee.

### SENATE CONCURRENT RESOLUTION 52

By: Lucken, Hagedorn, Briles, Van Gilst, and Stephens.

WHEREAS, millions of federal and state tax dollars are being spent for highway beautification and billboard control programs; and  $\frac{1}{2} \int_{\mathbb{R}^{n}} \left( \frac{1}{2} \int_{\mathbb{R}^{$ 

WHEREAS, federal law requires one of the most obnoxious of all billboards, namely: the erection of "your highway taxes at work" signs on construction projects involving federal funds; and

WHEREAS, the American public has very few illusions as to whose tax dollars are being spent; and

WHEREAS, national, state and local news media very ably and objectively provide the public with all the information required on these billboard signs and detailed information is available to interested citizens in county court houses; and

WHEREAS, the placement of these signs have in some instances contributed to highway accidents and have been used in many states for misleading political advertising in favor of incumbent politicians; and

WHEREAS, we consider the many thousands of dollars spent for these signs a public nuisance and a waste of public funds; NOW THEREFORE,

BE IT RESOLVED BY THE SENATE OF THE SIXTY-SECOND GENERAL ASSEMBLY OF THE STATE OF IOWA; THE HOUSE OF REPRESENTATIVES CONCURRING;

That, we respectfully request the Congress to repeal this requirement by federal legislation and that copies of this resolution be sent to the Honorable members of the U. S. Senate, Bourke B. # SENATE CONCURRENT RESOLUTION 48

Senator Buren called up Senate Concurrent Resolution 48 found on page 1672 of the Senate journal.

Senator Stanley rose on point of order on the grounds the resolution would rescind a ruling by the reciprocity board, such action having a force of law which could not properly be taken by a concurrent resolution.

The Chair ruled that while he agreed, it was not the prerogative of the Chair to rule on the constitutionality of items before the legislature but only to enforce the rules of the Senate and the point was not well taken.

Senator Frommelt offered the following amendment and moved its adoption:

Amend Senate Concurrent Resolution 48, line 18, by striking the word "directed" and inserting in lieu thereof the word "requested".

### SENATE CONCURRENT RESOLUTION 53

By: Nurse

WHEREAS, Senate File 532 enacted by the Sixty-Second General Assembly provides that the state board of regents after authorization by a constitutional majority of the General Assembly may carry out any project as defined in the Act at the state university of Iowa, and

WHEREAS, Senate File 532 authorizes the state board of regents to borrow money and to issue and sell negotiable bonds or notes to pay all or any part of the cost of carrying out such projects at the institution payable solely and only from and shall be secured by an irrevocable pledge of a sufficient portion of the University Hospital Income, and

WHEREAS, many of the facilities of the hospitals at the state university of Iowa were built between forty and fifty years ago and are inadequate to meet present and future demands for statewide medical and teaching services, and

WHEREAS, said inadequacy exists in operating room facilities which are located in several different areas at the university hospitals and are not designed for today's advanced surgical techniques and workload of more than fifteen thousand operations annually, and

WHEREAS, present space available for radiological services, one of the most important fields in modern medicine, is less than that recommended by the U.S. Public Health Services for a prototype hospital of five hundred beds although the university hospitals have eleven hundred ninety-two beds, and

WHEREAS, the out-patient clinical facilities are located in widely separated areas of the hospitals and seriously encumber the ability of the clinical specialists to handle almost one-quarter million patient visits annually and concentration of these services in a single area will greatly facilitate services to patients and training for family practice, and improve efficiency, and

WHEREAS, forty percent or four hundred forty of the beds serving annually more than 33,000 in-patients are located in large sixteen to twenty bed wards and do not meet the standards established for Medicare patients or the demands by private patients and, further, detailed studies have shown that remodeling these existing large wards into smaller units would be prohibitively costly and create insurmountable problems in teaching, and

WHEREAS, to alleviate these conditions, the board of regents requests authorization to construct an eight-story structure of 466,000 gross square feet south of the general hospital, to house an operating room suite and facilities, a diagnostic radiology section, out-patient clinic, and in-patient facilities for four hundred beds, at an estimated total cost of \$17,550,000 of which not more than \$12,000,000 would be financed by borrowing under the provisions of Senate File 532 and the remainder to be financed by federal and other funds; now therefore

BE IT RESOLVED BY THE SENATE, THE HOUSE CONCURRING, That the State Board of Regents be and is hereby authorized to construct an addition of 466,000 gross square feet of floor space, more or less, to the general hospital of state university of

Iowa to house an operating room suite and facilities, a diagnostic radiology section, outpatient clinic, and in-patient facilities at an estimated cost of \$17,550,000 of which not more than \$12,000,000 would be financed by borrowing authorized by the provisions of Senate File 532 enacted by the Sixty-Second General Assembly.
