MESSAGE FROM THE HOUSE

The following message was received from the House:

MR. PRESIDENT: I am directed to inform your honorable body that the House has amended and adopted the following concurrent resolution in which the concurrence of House was asked:

Senate Concurrent Resolution 38, adjournment of the first regular session of the Sixty-fourth General Assembly.

WILLIAM R. KENDRICK, Chief Clerk

ADOPTION OF SENATE CONCURRENT RESOLUTION 38

Senator Lamborn called up for consideration **Senate Concurrent Resolution 38**, amended by the House, and moved that the Senate concur in the following amendment:

Amend Senate Concurrent Resolution 38 by striking all after the resolving clause and inserting in lieu thereof the following:

"That when adjournment is had on Saturday, June 19, 1971, it be the final adjournment of the 1971 session of the Sixty-fourth General Assembly."

The motion prevailed and the Senate concurred in the House amendment.

On motion of Senator Lamborn, the resolution as amended was adopted.

EXPLANATION OF VOTE

We, the undersigned Republican Senators, voted "aye" in favor of Senate File 586 despite our opposition to the House amendment. Given the fact the House adjourned prior to Senate vote on concurrence with the House amendment we had the choice of either voting against the bill and defaulting on bond payments or voting for the bill with the expectation and trust that the Governor would exercise his good judgment in striking the amendment by an item veto. We hereby respectfully request said item veto.

SENATE CONCURRENT RESOLUTION 47

By Walsh

Whereas, House File 654 has passed both houses of the General Assembly and has been delivered to the Governor, *Now Therefore*,

Be It Resolved by the Senate, the House Concurring: That House File 654 be recalled from the Governor for further consideration of the General Assembly.

REPORTS FILED

In accordance with chapter 7A, Code of Iowa, a copy of the first Report on Federal Grants-in-Aid in Iowa, Fiscal Year 1970, has been received from the Office for Planning and Programming and placed on file in the office of the Secretary of the Senate.

The report of the Iowa Interstate Cooperation Commission, submitted to the Sixty-fourth General Assembly, has been received and placed on file in the office of the Secretary of the Senate.

EXPLANATION OF VOTE

MR. PRESIDENT: Due to illness which confined me to my home under doctor's orders, I was unable to be present in the Senate between June 7, 1971, and June 16, 1971, inclusive. I feel the public is entitled to know my position on issues voted on during my illness.

Had I been present, I would have voted "nay" on House Files 654, 573, and Senate File 514. I would have voted "aye" on all of the other roll calls. The reason I would have voted "nay" on House File 654 (the tax bill) is that I conducted research in this regard and found that my constituents would have accepted a one cent sales tax increase and no more at this time. I further felt that the recommendations of the Governor's Economy Committee should be first implemented and waste in state government eliminated before imposing a substantial income tax increase on the people.

The reason for voting "nay" on House File 573 is that I feel our license fee is adequate. If the amendment to give special consideration to the elderly on the cost of fishing license had not ultimately been defeated, I could have supported the bill.

On Senate File 514, which increases the tax on beverages containing alcohol, I feel that the prices on alcoholic beverages are adequate. Higher taxes on beer and liquor will encourage bootlegging especially in border cities. It seems like every time we want extra revenue, we pick in liquor and cigarettes and I feel the people are taxed enough on these items, therefore I would have voted "nay" on this bill.

HAROLD A. THORSEN

BILL ASSIGNED TO COMMITTEE

President Jepsen announced the assignment of the following bill to committee:

H. F. 30 Commerce

REPORT OF COMMITTEE

Senator Mowry submitted the following report:

MR. PRESIDENT: Your committee on commerce, to which was referred **House File 30**, a bill for an act relating to the inspection of pipeline construction over private property, begs leave to report it has had the same under consideration and recommends the same **do pass**.

JOHN L. MOWRY, Chairman

Ordered passed on file.

AMENDMENT FILED

- 1 Amend House File 281, page 2, by striking lines 3 through 16,
- 2 inclusive and by inserting in lieu thereof the following:
- 3 "A member of the Iowa National Guard, below the rank of
- 4 warrant officer, shall not include his income received on or
- 5 after January 1, 1970, for performing active state service as
- 6 defined in section twenty-nine A point one (29A.1), subsection

GOVERNOR'S ITEM VETO MESSAGES

June 19, 1971

The Honorable Roger W. Jepsen
Lieutenant Governor of Iowa
State Capitol
Local

Dear Governor Jepsen:

I have on this date signed and transmitted to the Secretary of State's Office Senate File 545, an appropriation bill, with the exception of Item 3, designated as Section 3 of the said bill which I disapprove.

Pursuant to Amendment 4 of the 1968 Amendments to the Constitution of the State of Iowa, I hereby return to the Senate Item 3, designated as

Section 3 of Senate File 545, being an item of this appropriation bill.

This said item that I am unable to approve reads as follows:

"Sec. 3. Plans and specifications for improvements for which funds are appropriated by this Act shall be submitted by the superintendent of buildings and grounds to the budget and financial control committee except that items commonly known as change orders need not be submitted to the budget and financial control committee unless such change orders actually increase the total cost of that particular project."

I have disapproved this Section because it violates the constitutional separation of the legislative and the executive branches of government. If the Budget and Financial Control Committee performed its duties under this Section and exercised the powers given to it, the committee would be acting in an executive capacity or using delegated legislative powers. In either situation, they would be acting unconstitutionally. (1963 OAG 44, June 14, 1963)

We have been operating under a system whereby the Executive Council approves plans and specifications for improvements for which funds are appropriated by the General Assembly. This is a reasonable and working arrangement with the responsibility resting not only with the departments affected by the appropriation, but also with elected officials in the Executive Branch of Government. These are people whose positions are fulltime and who provide interim safeguards for the system of State Government.

Therefore, I am returning this Item of Senate File 545 to the Senate where this appropriation bill originated pursuant to Amendment 4 of the 1968 Amendments to the Constitution of the State of Iowa.

Sincerely,

ROBERT D. RAY
Governor

OFFICE OF THE GOVERNOR

State Capitol

Des Moines, Iowa 50319

The Honorable Roger W. Jepsen
President of the Senate
Sixty-fourth General Assembly
State Capitol
Des Moines, Iowa

Honorable Members of the General Assembly:

When I delivered to you my Inaugural Message at the beginning of this Legislative Session, January 14, 1971, I told you that we stood at the crossroads of history and that it is an uncomfortable position because it requires us to make difficult—even hazardous—decisions.

As you wrap up the first session of the Sixty-fourth General Assembly, and as we reflect on the decisions and happenings of this session, it behooves all of us to understand the accomplishments and not just the disappointments and failures.

This Legislature was faced with major problems—the likes of which we have not seen in recent times. But as a result, the legislators were given—

as I mentioned in my Inaugural Address—"the thrilling challenge of leadership in making good choices."

It was my firm opinion then that property taxes in our state were increasing so rapidly that the quality of living for our elderly, low income citizens, farmers, many of our businessmen, and most of our Iowans was being materially and adversely affected. Since approximately 60 percent of property taxes have been for the purpose of financing local schools, it was therefore necessary to face the issue of school spending and the necessity of developing a school aid program that would distribute funds for local education more fairly and more equitably.

I have also continued to oppose the raising of any tax to an extent that was unnecessary.

You, as Legislators, responded to these critical needs. While many advocated raising far more new tax money and while the pressure was on you to impose a local income tax and increase the sales tax as well as take the state income tax to its full rate, I applaud you for resisting the temptation to raise more taxes than were necessary to answer these major and serious problems.

No revenue plan or program could be received with complete satisfaction or approval of any individual, whether he be a legislator, governor, or other citizen. After lengthy and exhaustive debate on the subject of how to distribute aid to our Iowa public schools, the majority of you concluded as I did that the foundation program was superior to the alternatives.

This program not only gives immediate relief to the heavily-burdened property taxpayer, but will continue to be of benefit to them into the future. This distribution plan is designed to do the following:

1. Stop further escalation of already burdensome property taxes paid for school support;
2. Provide reasonable spending restrictions on local schools regardless of the source of the funds;
3. Distribute the aid where the students are, reflecting increases and decreases in student enrollment;
4. Insure equalization of educational opportunity;
5. Eliminate the schools' open-ended access to property tax funds;
6. Establish a school-financing process which recognizes an Iowan's ability to pay;
7. Cease rewarding the inefficient or high-spending school district.

For the first time in our history, the state can guarantee property owners that if the school costs in their districts do not exceed the average in the state, and if any increased rate of spending does not exceed the economic growth of the state, their taxes for local school support will not go beyond what they are now paying. In most school districts, the millage levies for school support will actually drop.

Legislative reapportionment and congressional redistricting are never easy or simple. In this Session you were confronted with both of these problems because it is necessary that our legislators and congressmen represent districts that reflect the population shifts in Iowa as revealed by the 1970 census.

I will not attempt in this communication to itemize all the measures that have or will become law or those that disappointingly did not make the grade. I would choose, however, to touch upon a few of your important ac-

complishments and some unfinished business that I consider part of my program and of prime concern, not only to me, but to the citizens of our state.

You enacted two very vital pieces of legislation that were recommended by the Governor's Economy Committee. I commend you for their passage.

The reorganization of the Iowa Liquor Control Commission will change the structure of this agency allowing it to do a more economical and efficient job and at the same time enable it to respond more adequately to the demands of our citizens.

The creation of the Central Services Administration will mandate centralized purchasing and incorporate business-like procedures that will improve the efficiency of state government.

The members of the Governor's Economy Committee have now been assured that the extensive time and effort they contributed to help their government do a better job have **materialized into constructive change**. Studies and reports so often have been shelved only to collect dust.

This is not the case with the Governor's Economy Report—there is now concrete evidence that private citizens can make a substantial contribution to their government. For this effort, I again publicly extend my thanks to the many who participated in the Governor's Economy Committee.

Pollution, environment, and ecology are all emotion-packed words. They are as important as they are emotional. One of the milestones in the history of our state in this area is the soil conservancy law which you enacted. Left unfinished was my request for an Environmental Quality Control Agency bill—the passage which would have been beneficial in our fight against pollution. It remains alive and it is my hope that this will clear the House early in the next session.

In the matter of human pollution, you wisely adopted the Uniform Drug Control Act which for the most part will be of benefit in our Drug Abuse Program.

You promptly ratified the Constitutional Amendment lowering the voting age to 18. I have long been an advocate of allowing our young people to participate in the affairs of government and the society in which they live. It is not enough that we merely allow these young citizens to vote; we must welcome them enthusiastically into the governmental and political processes, not reluctantly accept them.

This Legislature wisely corrected a deficiency in control laws for the storage, sale and use of dynamite. Also enacted was a trespassing law that will afford a means of protection to people who own property.

While I do not agree with a number of your appropriations adopted including those for the Board of Regents and higher education, I am pleased that you followed my recommendation for the Iowa Tuition Grant Program. The latter affords hundreds of our young people the opportunity to attend colleges of their choice, thus benefiting our students, their parents, our excellent colleges and universities. At the same time this worthwhile program serves to lessen the load on the taxpayer that would be greater were all of these students attending state-supported schools. The Tuition Grant Program works.

Cities and towns will gain from this session of the Legislature substantially beyond any assistance they have received before from state government even though the amount of aid allocated to them was slightly less than my recommendations.

If future legislative sessions are as lengthy as the one you are concluding today, the toll on good legislators will be extremely high.

No session ends without disappointments as well as accomplishments. In that regard this session is no exception.

While it is imperative that the next legislative session be nowhere near as time-consuming as this one, it is important in my judgment that it adopt the Uniform Trial Court System which has passed one house. This measure, one I have long urged, is needed to upgrade our archaic court structure and would go far in restoring much needed respect for law.

The people of this state voted a home rule amendment to our Constitution, a great amount of work has been done by an Interim Committee to develop a home rule bill that would bring the Iowa Code into conformity with that Constitutional Amendment. This bill passed one house and remains to be acted upon by the other. I highly recommend that no more time be allowed to elapse and that this bill receive favorable consideration at the beginning of the next session.

I am still of the opinion that there is need for a collective bargaining procedure which did not receive attention during this session.

Despite repeated urging from this office to the leadership, this Legislature did not enact the billboard and junkyard bills which are needed if Iowa is to be in compliance with the Highway Safety Act.

These bills have been set as a special order of business for the second session; they deserve immediate attention.

It was disappointing that the bill which would have authorized regional correctional facilities did not receive favorable passage in the Senate in spite of support from both major political party platforms, our Social Services Department, the State Crime Commission, Governor's Economy Committee, and my recommendation.

Also, both major political party platforms called for the modernization of our abortion law and surveys established that the majority of the people favored such change, yet it, too, was defeated.

Help was given for our non-public schools which is indeed commendable. Fortunately, this action appears to be within the framework of the Supreme Court of the United States which other recommendations advanced would not have been based upon the Court's decisions of yesterday.

You have just finished a very grueling session of legislation. You experienced many agonizing moments as you had to face impending decisions that were, as I said in my Inaugural Address, "difficult—even hazardous." As a result, many worthwhile accomplishments have resulted.

The people of this state are entitled to know about them. Where there were disappointments, then it is up to you as legislators, me as Governor, and the people of this state as interested parties, to work between now and the next session to achieve the goals that remain unmet.

Thank you.

Sincerely,
ROBERT D. RAY
Governor

The report was received and the committee discharged.

GOVERNOR'S ITEM VETO MESSAGES

June 30, 1971

The Honorable Melvin D. Synhorst
Secretary of State
State Capitol
Local

Dear Mr. Synhorst:

I hereby transmit Senate File 555, an act to provide an appropriation from the General Fund of the State for capital improvements for the Iowa Law Enforcement Academy.

Senate File 555 is approved June 30, 1971, with the following exception: I am unable to approve Item 3 designated as Section 3 in the Act which reads as follows:

Sec. 3. Plans and specifications for improvements for which funds are appropriated by this Act shall be submitted to the budget and financial control committee for approval, except that items commonly known as change orders need not be submitted to the budget and financial control committee unless such change orders actually increase the total cost of the project."

I have disapproved this Item because it violates the constitutional separation of the legislative and the executive branches of government. If the Budget Financial Control Committee performed its duties under this Item and exercised the powers given to it, the committee would be acting in an executive capacity or using delegated legislative powers. In either situation, they would be acting unconstitutionally. (1963 OAG 44, June 14, 1963)

I hereby disapprove this Item as provided for in the Amendment to the Constitution of the State of Iowa adopted in 1968. All other Items of Senate File 555 are hereby approved this date.

Sincerely,

ROBERT D. RAY
Governor

Dear Mr. Synhorst:

I hereby transmit Senate File 556, an act creating and making an appropriation to the Executive Council General Contingent Fund.

Senate File 556 is approved June 30, 1971, with the following exception: I am unable to approve that Item designated as the second paragraph of Section 1 which reads as follows:

"Before any of the funds appropriated by this Act shall be allocated, a written recommendation shall first be obtained from the state comptroller and the executive council shall determine that the proposed allocation shall be for the best interest of the state. Any allocation in excess of thirty-five thousand dollars must be approved by the budget and financial control committee. The executive council shall not spend any money out of the contingent fund while the legislature is in session."

I have disapproved this Item because it violates the constitutional separation of the legislative and the executive branches of government. If the Budget Financial Control Committee performed its duties under this part of Section 1 and exercised the powers given to it, the committee would be acting in an executive capacity or using delegated legislative powers. In either situation, they would be acting unconstitutionally. (1963 OAG 44, June 14, 1963)

In addition, the Executive Council is composed of state officials elected by people of the entire State of Iowa; if they are competent to handle a contingent fund when the legislature is not in session, then they are certainly competent to handle the same fund when the legislature is in session.

I hereby disapprove this Item as provided for in the Amendment to the Constitution of the State of Iowa adopted in 1968. All other Items of Senate File 556 are hereby approved this date.

Sincerely,
ROBERT D. RAY

Dear Mr. Synhorst:

I hereby transmit House File 720, an act to appropriate the Fish and Game Protection Fund for use by the State Conservation Commission.

House File 720 is approved June 30, 1971, with the following exception: I am unable to approve Item 7 designated as Section 7 in the Act which reads as follows:

"Sec. 7. When the state conservation commission has approved a capital improvement project to be financed from the state fish

and game protection fund, a description of the project and estimated cost shall be reported to the budget and financial control committee for approval. Upon approval by the budget and financial control committee, the project shall be reported to the governor and state comptroller for allocation of funds."

I have disapproved this section because it violates the constitutional separation of the legislative and executive branches of government. If the Budget Financial Control Committee performed its duties under this section and exercised the powers given to it, the committee would be acting in an executive capacity or using delegated legislative powers. In either situation, they would be acting unconstitutionally. (1963 OAG 44, June 14, 1963)

I hereby disapprove this item as provided for in the Amendment to the Constitution of the State of Iowa adopted in 1968. All other items of House File 720 are hereby approved this date.

Dear Mr. Synhorst:

I hereby transmit House File 723, an act to appropriate from the General Fund of the State of Iowa to the State Conservation Commission for carrying out specific projects.

House File 723 is approved June 30, 1971, with the following exception: I am unable to approve Item 4 designated as Section 4 in the Act which reads as follows:

"Sec. 4. When the state conservation commission has approved a project to be financed with funds appropriated by section one (1) of this Act, a description of the project and estimated cost shall be reported to the budget and financial control committee for approval. Upon approval by the budget and financial control committee the project shall be reported to the governor and state comptroller for allocation of funds."

I have disapproved this section because it violates the constitutional separation of the legislative and the executive branches of government. If the Budget Financial Control Committee performed its duties under this Section and exercised the powers given to it, the committee would be acting in an executive capacity or using delegated legislative powers. In either situation, they would be acting unconstitutionally. (1963, OAG 44, June 14, 1963)

Dear Mr. Synhorst:

I hereby transmit Senate File 544, an act making an appropriation from the general fund of the State to the Commission on Alcoholism.

Senate File 544 is hereby approved July 1, 1971, with the following exception: I am unable to approve the Item designated as subsection 3 of Section 1, which reads as follows:

"No part of the appropriation provided for the treatment of alcoholism in subsection two (2) of this section shall be used for salaries, support and maintenance of the commission on alcoholism, excluding individuals employed by local alcoholism or detoxification units. No local alcoholism or detoxification facility shall be allocated more than fifteen percent of the appropriation provided for the treatment of alcoholism in subsection two (2) of this section."

This subsection imposes a specific limitation on the amount of financial support that the Alcoholism Commission can provide for any alcoholism or detoxification facility regardless of its success in treating and rehabilitating alcoholics, its record of performance, or the need for its existence. This subsection destroys the very concept for which we established a fund in 1969 for the first time to provide state funds to help our citizens who found themselves losing jobs, their families, self-respect and hope because of a drinking problem.

There existed at that time two facilities which were designed and in operation to directly treat and aid the alcoholic. They were the Harrison and Oakdale Treatment Centers. Each was a proven and established success. Neither was exclusively a local center and both were available and, by the law enacted, became treatment centers for alcoholics from any and all counties of our state. The Harrison Treatment Center has been of service to patients from all ninety-nine counties and treats all or nearly all of the patients from a number of counties at the present time. The Harrison Treatment Center is closely oriented to Alcoholics Anonymous, which was a pioneer in the successful rehabilitation of alcoholics and continues to be a prominent factor in helping these people.

Our original program of state participation in fighting alcoholism allowed for sufficient flexibility to permit the Commission to use some of its funds for service centers. There was no intent for the state to be a main source of finances for these centers. They were recognized as being able to perform a very valuable service in local communities. They do not serve in the same capacity or in the same manner as the Harrison and Oakdale Treatment Centers, however. They do call for extensive participation from community-minded people, which is basically their strength. It is imperative that the state recognize the importance of these service centers. It is also, however, important that we not allow the Harrison Treatment Center, which serves our entire state, to deteriorate or go out of business.

This provision of limitation could well cause such a result. This would be tragic. I do not feel I can let this happen.

I hereby disapprove this said subsection as provided for in the Amendment to the Constitution of the State of Iowa adopted in 1968. All other items of Senate File 544 are hereby approved this date.

Sincerely,

ROBERT D. RAY

Dear Mr. Synhorst:

I hereby transmit Senate File 586, an act to appropriate funds from the general fund of the State of Iowa to the State Board of Regents to reimburse state educational institutions for deficiencies in operating revenues resulting from funds pledged to finance academic and administrative buildings and facilities and utilities services.

Senate File 586 is approved July 2, 1971 with the following exception: I am unable to approve Item 5 designated as Section 5 in the Act which reads as follows:

"Sec. 5. Chapter two hundred sixty-two A (262A), Code 1971, is amended by adding the following new section: On and after the taking effect of this Act, the board shall issue no more bonds as provided for in this chapter. The state of Iowa shall be paid with interest on or before maturity date."

I have disapproved this Item because it effectively repeals Chapter 262A, 1971 Code of Iowa, authorizing the Board of Regents to issue and sell revenue bonds for construction of academic and related facilities.

It would also rescind the actions of this very same legislature in its passage of Senate Concurrent Resolution 33, which specifically authorized the issuance of \$18,933,000 in new academic revenue bonding authority as well as reauthorizing \$3,435,000 in bonding authority by the first session of the last General Assembly for the veterinary medicine facility at Iowa State University, Ames.

The first session of the Sixty-Fourth General Assembly, in addition to the passage of Senate Concurrent Resolution 33, passed three other measures declaring its intent to provide that certain academic facilities at our universities be financed by bonding authority as provided in Chapter 262A.

This Item was added in the closing moments of the session, and is in direct conflict with previous measures passed during the same session. Therefore, I can only conclude that many legislators were not fully aware of the consequences of the inclusion of this section. On the other hand, many members of the Senate were concerned enough to vote a resolution requesting that I exercise my right of Item Veto to prevent the repeal of 262A.

This Item would effectively prohibit the Board of Regents from providing matching funds for federal grants for the construction of the \$25.5 million veterinary medicine facility at Iowa State University. I believe this prohibition would be detrimental to the interests, both economic and educationally, of the state of Iowa.

The long-range financing of needed classroom, laboratory and other aca-

demc facilities has been established so that planning at our universities can extend beyond the present and so sound business practices can be used in planning and construction.

I hereby disapprove Item 5, designated as Section 5 in the Act, as provided for in the Amendment to the Constitution of the State of Iowa adopted in 1968. All other Items of Senate File 586 are hereby approved this date.

Dear Mr. Synhorst:

I hereby transmit Senate File 565, an act making an appropriation to the Department of Social Services and divisions thereof, including the Board of Parole, and providing for the administration thereof and providing for a study committee.

Senate File 565 is approved July 17, 1971, with the following exception: I am unable to approve Item 12 designated as Section 12 in the Act which reads as follows:

"No person shall be admitted on a voluntary basis to a mental health institute under the control of the department of social services for the treatment of alcoholism unless he has been admitted to a facility defined in section one hundred twenty-three B point one (123B.1) of the Code, and referred by the facility to the mental health institute."

This vetoed Item, if allowed to stand, could effectively prevent alcoholics from obtaining care and treatment at the time when they need it the most.

While I recognize that this Provision could in some cases lead an alcoholic to a service center where he could be helped, avoiding admittance to a mental health institution, the hardships that this Provision creates could adversely affect care, treatment, rehabilitation and the future of many other alcoholics. The disadvantages outweigh the advantages.

When an alcoholic seeks help, it is imperative that we provide him with the easiest access possible to the treatment services available.

Section 12 of this bill would deny an alcoholic the privilege of voluntarily appearing at one of our mental health hospitals for treatment unless referred. Nearly 75 percent of the alcoholics treated at our mental health hospitals are there voluntarily. Requiring an individual badly in need of immediate treatment, or who is in a frame of mind to accept such treatment, to go to a third party for admittance could greatly hinder alcoholic rehabilitation and could irreparably damage individuals seeking help.

While not all alcoholics are cured by the treatment they receive from our mental health hospitals or from any other facility, it is not only humane to make available voluntary treatment, but it is also economically wise. It

makes good sense to have different types of services available to those who seek and need assistance in overcoming drinking problems.

But if we are serious about helping those who have the problem, then we should provide easy access to the facilities available. We should not discourage the alcoholic from seeking help by making it more complicated and difficult to get into a hospital.

The provision requires that a person be referred by a facility defined in Section 123B.1 of the Code, but such facilities do not exist in every county. As a matter of fact, there exists only eighteen county programs or facilities, including Oakdale and the Harrison Detoxification Center. Section 12 of this bill would require an alcoholic seeking help through one of our mental health hospitals to first obtain permission from one of these facilities—that might be a considerable distance from his home—before he could be admitted into the hospital. By the time approval is obtained, the patient could easily become discouraged and resist any help to overcome his alcoholism.

Many general hospitals in the state discourage the admittance of alcoholic patients since they have no program for this type of health care. We should encourage voluntary commitment where alcoholism treatment programs do exist.

This Item also runs counter to the approach of Alcoholics Anonymous, the largest alcoholic volunteer service in the state of Iowa, which has worked with alcoholics on a person to person basis and has encouraged voluntary commitment to our state hospitals. The requirement in this act making a referral by a third party mandatory would, in many instances, reduce the effectiveness of Alcoholics Anonymous in encouraging and following through on voluntary commitments.

This Section would also eliminate the referrals by the Office of Economic Opportunity's funded alcoholism programs, which are not connected with the State Alcoholism Commission-funded agencies. This Provision also would prevent a patient who wishes to and could pay for the services of a mental hospital, or who could have the services paid for by insurance, without having him first go through the red tape of obtaining approval of a third party facility. In effect, the patient's right to free choice of treatment would be curtailed.

This Provision refers to "a facility" handling the referral, yet does not establish who the person or persons would be to represent that facility and what their requirements would be. Even though alcoholism is generally recognized as a disease, there is no requirement that anyone making the referral have any specialized training, medical or otherwise, in judging to where the referral should be made.

For these reasons, and because this Section would tend to impose undue hardship on the sick alcoholic who requires prompt treatment and asks for it, I hereby disapprove said Item as provided in the amendment to the Constitution of the State of Iowa adopted in 1968. All other Items of Senate File 565 are hereby approved this date.

ROBERT D. RAY

Dear Mr. Synhorst:

I hereby transmit Senate File 572, an act relating to the control and use of state funds, powers and duties of the Budget and Financial Control Committee and providing an appropriation.

Senate File 572 is approved July 17, 1971, with the following exceptions:

I am unable to approve Item 3 designated as Section 3 in the Act which reads as follows:

"Sec. 3. Section two hundred eighteen point ninety-four (218.94), unnumbered paragraph one (1), Code 1971, is amended as follows:

The commissioner of the department of social services shall have full power, subject to the approval of the executive council *and after receiving the recommendation of the budget and financial control committee* to secure options to purchase real estate and to acquire and sell real estate for the proper use of said institutions. Real estate shall be acquired and sold upon such terms and conditions as the commissioner may recommend subject to the approval of the executive council *and after receiving the recommendation of the budget and financial control committee*. Upon sale of such real estate, the proceeds thereof shall be deposited with the treasurer of the state and credited to a *special trust fund to be held in such fund for the department of social services until the general assembly appropriate such funds.*"

I am unable to approve Item 4 designated as Section 4 in the Act which reads as follows:

"Sec. 4. CAPITAL IMPROVEMENTS. Before expending any funds for the construction of new buildings, repairs, improvements, replacements, or alterations, or any other capital expenditures, the contracts, plans and specifications, or plan of operation for improvements, shall be submitted to the budget and financial control committee for its recommendation."

I am unable to approve Item 5 designated as Section 5 in the Act which reads as follows:

"Sec. 5. Section two hundred sixty-two point nine (262.9), subsection five (5), Code 1971, is amended as follows:

5. With the approval of the executive council, acquire real estate for the proper uses of said institutions, and dispose of real estate belonging to said institutions when not necessary for their purposes. A disposal of such real estate shall be made upon such terms, conditions and consideration as the board may recommend and subject to the approval of the executive council *and after receiving the recommendation of the budget and financial control committee*. The proceeds of such sale shall be deposited with the treasurer of the state and credited to a *special trust fund to be held in such fund for the board of regents until the general assembly appropriates such funds*. All transfers shall be by state patent in the manner provided by law."

With these provisions stricken the Commissioner of the Department of Social Services and the Board of Regents are charged with the responsibility to purchase, acquire and sell property subject to the approval of the Executive Council. This provides a safeguard in the spending and use of funds for such purposes. Adding the requirement of a recommendation of the Budget Financial Control Committee not only creates a conflicting situation between the legislative and executive branches of government, but also would add a burden to necessary transactions that could affect the efficiency of the business conducted by the Board of Regents and Department of Social Services.

These Items being vetoed tend to diffuse the responsibility of the Department of Social Services and the Board of Regents, and could well result in delays and uncertainties regarding many projects. They provide no minimum size for improvements or transactions and a project consisting of only a few dollars would have to be submitted to the Budget and Financial Control Committee for its recommendation.

These Provisions also create a distinct time problem inasmuch as there is no limit set for the Budget and Financial Control Committee providing when it must act in making its recommendation. It further fails to provide a course of action in the event the Budget and Financial Control Committee fails to act.

Item 5 which affects the Board of Regents, would require some delay in providing benefits to students or to universities because the funds would be frozen in a special fund in the Office of the State Treasurer until the General Assembly could act.

There could be a reluctance to sell property if there is no assurance that the proceeds of the sale would be deposited in the original fund from which the purchase was made.

This Section would also tend to discourage real estate transaction beneficial to the state wherein a state agency or institution disposes of land of no further benefit to the state in exchange for funds to be used for the purchase of other land of potentially greater use.

For these reasons I hereby disapprove these three Items as provided in the amendment to the Constitution of the State of Iowa adopted in 1968. All other Items of Senate File 572 are hereby approved this date.

Sincerely,

ROBERT D. RAY
Governor
