SENATE CONCURRENT RESOLUTION 39

By Committee on Schools

Whereas, the General Assembly desires to offer an equal educational opportunity to all residents of our state; and

Whereas, the citizens of Iowa have displayed considerable concern over the increasing cost of operating our secondary and elementary schools, county schools, and joint county and merged county school systems; and

Whereas, the county school systems and the joint county school systems and merged county school systems in many instances are having difficulty justifying their budgets, and it appears that the programs of these systems are in many cases a duplication of programs provided by elementary and secondary school systems; and

Whereas, school districts in Iowa are located in areas where enrollment is decreasing and are continuing to face salary disparity, high per pupil costs, limited vocational programs, lack of student exposure to work-study situations, multiple assignment for teachers, and limited course offering; and

Whereas, many areas in Iowa are experiencing population shifts, *Now Therefore*,

Be It Resolved by the Senate, the House Concurring, That a study committee be established to review, study, and obtain as much information as possible concerning the present organization of the various school districts and county school systems and joint county school systems, and also the financing of these districts and systems; and

Be It Further Resolved, That the study committee shall study, investigate, and make suggestions and recommendations concerning a reduction in the present elementary and secondary school systems and the creation of a new or modified organizational structure such as county-like administrative units, except where populations or geographic conditions would otherwise dictate, and that consideration may be given to abolishing, modifying, or replacing the county, joint county, and merged school systems. The number of schools where children attend should, if possible, remain the same in any recommendations to be made by the committee in order that students within their respective school districts will receive a quality education in an efficient manner; and

Be It Further Resolved, That the membership of the study committee shall include two members of the Senate, appointed by the President of the Senate; two members of the House of Representatives, appointed by the Speaker of the House; five Iowa citizens interested in education but not actively engaged as a member or employee of the educational system, to be appointed by the Governor of the State of Iowa; and six members, one each

representing the State Board of Public Instruction, the Iowa State Education Association, the State School Board Association, the Iowa School Administrators Association, the American Federation of Teachers, and the Governor's educational advisory committee, such persons to be selected by the organizations they represent and the names thereof to be forwarded to the legislative council; these six members to serve as advisory members; and

Be It Further Resolved, That the study committee make periodic reports to the legislative council and shall submit a final report, including necessary bill drafts to implement its recommendations, to the legislative council. Copies of the report approved by the legislative council shall be submitted by the opening day of the Sixty-fifth General Assembly.

SENATE CONCURRENT RESOLUTION 40

By Arbuckle

Whereas, the Governor's Economy Committee Report recommends that the Iowa Highway Commission undertake to accomplish, with its own staff, a greater share of the design work required to develop the desired highway system for the State of Iowa, and

Whereas, the lack of trained technical and professional personnel, caused by physical limitations, unrealistic job classifications and low competitive salary structure, necessitates that the Iowa Highway Commission spend 2.43 times more than the "in-house" rate of performing the same work, and

Whereas, the aforesaid report documents a savings to the State of Iowa, in only one department of the Highway Commission, of \$300,000 annually if the Iowa Highway Commission could perform 90 percent of its design responsibility,

Now Therefore, Be It Resolved, that it is the sense of the members of the Sixty-fourth General Assembly that the Iowa Highway Commission be encouraged to augment its "in-house" capability in order to realize the aforesaid immediate and direct savings to the State of Iowa.

Be It Further Resolved, that copies of this concurrent resolution be transmitted to the Iowa State Highway Commission, the Executive Council, and the Merit Employment Department.

BILL ASSIGNED TO COMMITTEE

President Jepsen announced the assignment of the following bill to committee:

14 sales and use tax. If a majority of those voting favors

16 tax by ordinance, and shall continue to impose the tax
17 for a minimum of four years. After the four-year
18 period, the tax may be discontinued by the council
19 or by petition and election in the same manner as it
20 was imposed.
21 If a majority of those voting does not favor the
22 imposition of a local sales and use tax, the council shall

2 election, the city council shall publish notice of the
3 election as provided in section three (3) of this Act,
4 except that the notice shall be published twice.
5 A local sales and use tax shall be imposed on the
6 same basis as the state sales and use tax and may not be
7 imposed on the sale or use of any tangible personal
8 property or services not taxed by the state. A local
9 sales and use tax is applicable only within the territori-

10 al limits of the city imposing it and shall be collected
11 by all persons required to collect state sales and use
12 taxes. The amount of the sale, for purposes of determin-
13 ing the amount of the local sales and use tax, does not
14 include the amount of the state sales and use tax. No
15 sales and use tax permit, other than the state sales and
16 use tax permits, may be required. A local sales and use
17 tax may be imposed either January first or July first
18 following a favorable election.

19 The director of revenue shall administer the pro-
20 visions of a local sales and use tax as nearly as possi-
21 ble in conjunction with the administration of state tax
22 laws. He shall provide appropriate forms, or provide on
23 the regular state tax forms, for reporting local sales
24 and use tax liability.

25 An ordinance imposing a local sales and use tax shall

Page 3

1 adopt by reference the applicable provisions of the
2 appropriate sections of chapters four hundred twenty-two
3 (422) and four hundred twenty-three (423) of the Code,
4 and all powers of the director to administer the state
5 sales and use tax law are applicable to his administra-
6 tion of a local sales and use tax ordinance. Local
7 officials shall confer with the director of revenue and
8 obtain his assistance in drafting the ordinance imposing
9 a local sales and use tax. A certified copy of the
10 ordinance shall be filed with the director as soon as
11 possible after passage.

12 The director, in consultation with local officials,
13 shall collect and account for a local sales and use tax.
14 The director shall retain for the use of the department
15 one percent of all local sales and use tax receipts, to
16 cover administrative expense, and shall credit remaining
17 local sales and use tax receipts to a local sales and
18 use tax fund hereby established in the office of the
19 treasurer of state.

20 The treasurer of state shall remit quarterly to the
21 cities which have imposed a local sales and use tax their
22 share of the balance in the local sales and use tax fund.
23 Local sales and use tax moneys received by a city may be

4 (2) If and to the extent that the patent or copyright
5 is utilized by the taxpayer in a state in which the
6 taxpayer is not taxable and the taxpayer's commercial
7 domicile is in this state.

8 b. A patent is utilized in a state to the extent
9 that it is employed in production, fabrication,
10 manufacturing, or other processing in the state or to
11 the extent that a patented product is produced in the
12 state. If the basis of receipts from patent royalties

17 12. AVERAGE VALUE OF PROPERTY. The average value
18 of property shall be determined by averaging the values
19 at the beginning and ending of the tax period but the

21 values during the tax period if reasonably required
22 to reflect properly the average value of the taxpayer's
23 property.

20 but the individual's residence is in this state.

21 15. SALES FACTOR. The sales factor is a fraction,
22 the numerator of which is the total sales of the taxpayer
23 in this state during the tax period, and the denominator
24 of which is the total sales of the taxpayer everywhere
25 during the tax period.

Page 8

1 16. LOCAL SALES OF TANGIBLE PERSONAL PROPERTY.

2 Sales of tangible personal property are in this state
3 if:

22 than in any other state, based on costs of performance.

23 18. ADDITIONAL METHODS OF DETERMINING BUSINESS
SITUS.

24 The allocation and apportionment provisions of this
25 section do not fairly represent the extent of the

Page 9

1 taxpayer's business activity in this state, the taxpayer
2 may petition for or the director of revenue may require,
3 in respect to all or any part of the taxpayer's business
4 activity, if reasonable:

5 (a) Separate accounting except to a unitary business;

6 (b) The exclusion of any one or more of the factors;

7 (c) The inclusion of one or more additional factors
8 which will fairly represent the taxpayer's business
9 activity in this state; or

10 (d) The employment of any other method to effectuate
11 an equitable allocation and apportionment of the
12 taxpayer's income.

13 2. Amend the title, page 1, by striking lines 3
14 and 4 and inserting in lieu thereof the words "and

20 determined according to a schedule established by
21 the commission not to exceed three hundred dollars;
22 and a dislocation allowance of two hundred dollars.

23 3. Any displaced person eligible for payments
24 under subsection one (1) of this section who is
25 displaced from his place of business or from his farm

Page 6

1 operation and who elects to accept the payment
2 authorized by this subsection in lieu of the payment
3 authorized by subsection one (1) of this section,
4 may receive a fixed payment in an amount equal to
5 the average annual net earnings of the business or
6 farm operation, except that such payment shall be
7 not less than two thousand five hundred dollars nor
8 more than ten thousand dollars. In the case of a
9 business no payment shall be made under this subsection
10 unless the director is satisfied that the business
11 cannot be relocated without a substantial loss of
12 its existing patronage, and is not a part of a
13 commercial enterprise having at least one other
14 establishment not being acquired for a highway project
15 which is engaged in the same or similar business.
16 For purposes of this subsection, the term "average

17 annual net earnings" means one-half of any net earnings
18 of the business or farm operation, before federal,
19 state, and local income taxes, during the two taxable
20 years immediately preceding the taxable year in which
21 such business or farm operation moves from the real
22 property acquired for such project, or during such
23 other period as the director determines to be more
24 equitable for establishing such earnings, and includes
25 any compensation paid by the business or farm operation

3 **Sec. 6. REPLACEMENT HOUSING FOR HOMEOWNER.**

4 1. In addition to payments otherwise authorized
5 by sections two (2) through twenty (20) of this Act,
6 the commission shall make an additional payment not
7 in excess of fifteen thousand dollars to any displaced
8 person who is displaced from a dwelling actually owned
9 and occupied by such displaced person for not less
10 than one hundred and eighty days prior to the
11 initiation of negotiations for the acquisition of
12 the property. Such additional payment shall include
13 the following elements:

14 a. The amount, if any, which when added to the
15 acquisition cost of the dwelling acquired by the com-
16 mission, equals the reasonable cost of a comparable
17 replacement dwelling which is a decent, safe, and
18 sanitary dwelling adequate to accommodate such dis-
19 placed person, reasonably accessible to public ser-
20 vices and places of employment and available on the
21 private market. All determinations required to carry
22 out this paragraph shall be made in accordance with
23 departmental rules established by the commission in
24 making these additional payments.

25 b. The amount, if any, which will compensate such

Page 8

1 displaced person for any increased interest costs
2 which such person is required to pay for financing
3 the acquisition of any such comparable replacement
4 dwelling. Such amount shall be paid only if the
5 dwelling acquired by the commission was encumbered
6 by a bona fide mortgage which was a valid lien on
7 such dwelling for not less than one hundred and eighty
8 days prior to the initiation of negotiations for the
9 acquisition of such dwelling. Such amount shall be
10 equal to the excess in the aggregate interest and
11 other debt service costs of that amount of the
12 principal of the mortgage on the replacement dwelling
13 which is equal to the unpaid balance of the mortgage
14 on the acquired dwelling, over the remainder term
15 of the mortgage on the acquired dwelling, reduced
16 to discounted present value. The discount rate shall
17 be the prevailing interest rate paid on savings

18 deposits by commercial banks in the general area in
19 which the replacement dwelling is located.
20 c. Reasonable expenses incurred by such displaced
21 person for evidence of title, recording fees, and
22 other closing costs incident to the purchase of the
23 replacement dwelling, but not including prepaid
24 expenses.
25 2. The additional payment authorized by this

Page 9

1 section shall be made only to such a displaced person
2 who purchases and occupies a replacement dwelling
3 which is decent, safe, and sanitary not later than
4 the end of the one-year period beginning on the date
5 on which he receives from the commission final payment
6 of all costs of the acquired dwelling, or on the date
7 on which he moves from the acquired dwelling, whichever
8 is the later date.

9 Sec. 7. REPLACEMENT HOUSING FOR TENANTS AND CER-
TAIN

10 OTHERS. In addition to amounts otherwise authorized
11 by sections two (2) through fifteen (15) of this Act,
12 the commission shall make a payment to or for any
13 displaced person displaced from any dwelling not
14 eligible to receive a payment under section six (6)
15 which dwelling was actually and lawfully occupied
16 by such displaced person for not less than ninety
17 days prior to the initiation of negotiations for
18 acquisition of such dwelling. Such payment shall
19 be either:

20 1. The amount necessary to enable such displaced
21 person to lease or rent for a period not to exceed
22 four years, a decent, safe, and sanitary dwelling
23 of standards adequate to accommodate such person in
24 areas not generally less desirable in regard to public
25 utilities and public and commercial facilities, and

Page 10

1 reasonably accessible to his place of employment,
2 but not to exceed four thousand dollars, or

3 2. The amount necessary to enable such person
4 to make a down payment, including incidental expenses
5 described in section six (6), subsection one (1),
6 paragraph c, of this Act, on the purchase of a decent,
7 safe, and sanitary dwelling of standards adequate
8 to accommodate such person in areas not generally
9 less desirable in regard to public utilities and
10 public and commercial facilities, but not to exceed
11 four thousand dollars, except that if such amount
12 exceeds two thousand dollars, such person must equally
13 match any such amount in excess of two thousand
14 dollars, in making the down payment.

15 Sec. 8. RELOCATION ASSISTANCE ADVISORY SERVICES.

16 1. Whenever the acquisition of real property for
17 a highway project undertaken by the commission will

18 result in the displacement of any person, the
19 commission shall provide a relocation assistance
20 advisory program for displaced persons which shall
21 offer the services described in subsection three (3)
22 of this section. If the director determines that
23 any person occupying property immediately adjacent
24 to the real property acquired is caused substantial
25 economic injury because of the acquisition, he may

Page 11

1 offer such person relocation advisory services under
2 such program.
3 2. The commission shall cooperate to the maximum
4 extent feasible with federal, state or local agencies
5 to assure that such displaced persons receive the
6 maximum assistance available to them.
7 3. Each relocation assistance advisory program
8 required by subsection one (1) of this section shall
9 include such measures, facilities, or services as
10 may be necessary or appropriate in order to:
11 a. Determine the need, if any, of displaced per-
12 sons, for relocation assistance;
13 b. Provide current and continuing information
14 on the availability, prices, and rentals, of comparable
15 decent, safe, and sanitary sales and rental housing,
16 and of comparable commercial properties and locations
17 for displaced businesses;
18 c. Assure that, within a reasonable period of
19 time, prior to displacement there will be available
20 in areas not generally less desirable in regard to
21 public utilities and public and commercial facilities
22 and at rents or prices within the financial means
23 of the families and individuals displaced, decent,
24 safe, and sanitary dwellings, as defined by the
25 commission, equal in number to the number of and

Page 12

1 available to such displaced persons who require such
2 dwellings and reasonably accessible to their places
3 of employment, except that the commission may prescribe
4 by departmental rules situations when such assurances
5 may be waived;
6 d. Assist a displaced person displaced from his
7 business or farm operation in obtaining and becoming
8 established in a suitable replacement location;
9 e. Supply information concerning federal and state
10 housing programs, and other federal or state programs
11 offering assistance to displaced persons; and
12 f. Provide other advisory services to displaced
13 persons in order to minimize hardships to such persons
14 in adjusting to relocation.
15 4. The commission shall coordinate relocation
16 activities with project work, and other planned or
17 proposed governmental actions in the community or
18 nearby areas which may affect the carrying out of

19 relocation assistance programs.

20 Sec. 9. HOUSING REPLACEMENT BY COMMISSION AS LAST
21 RESORT.

22 1. If a highway project cannot proceed to actual
23 construction because comparable replacement sale or
24 rental housing is not available, and the commission
25 determines that such housing cannot otherwise be made

Page 13

1 available, the commission may take such action as
2 is necessary or appropriate to provide such housing
3 by use of funds authorized for such project. The
4 commission may let contracts for the construction
5 of said housing to approve plans and specifications
6 for the building thereof, and to supervise, inspect
7 and approve the housing once constructed in order
8 that the housing so constructed complies with the
9 terms and conditions of section two (2) through
10 fifteen (15) of this Act.

11 2. No person shall be required to move from his
12 dwelling on or after July 1, 1971, on account of any
13 highway project, unless the director is satisfied
14 that replacement housing, in accordance with section
15 eight (8), subsection three (3), paragraph c, of this
16 Act, is available to such person.

17 Sec. 10. RULES ADOPTED. The commission shall
18 make departmental rules and regulations necessary
19 to effect the provisions of sections two (2) through
20 fifteen (15) of this Act and to assure:

21 1. Compliance with the Uniform Relocation
22 Assistance and Real Property Acquisition Policies
23 Act of 1970, Public Law 91-646.

24 2. The payments authorized by sections two (2)
25 through fifteen (15) of this Act are fair and reason-

Page 14

1 able and as uniform as practicable.

2 3. A displaced person who makes proper application
3 for a payment authorized by sections two (2) through
4 fifteen (15) of this Act is paid promptly after a
5 move or, in hardship cases, is paid in advance.

6 4. Any person aggrieved by a determination as
7 to eligibility for a payment authorized by sections
8 two (2) through fifteen (15) of this Act, or the
9 amount of a payment, may have his application reviewed
10 by the director.

11 All rules shall be subject to the provisions of
12 chapter seventeen A (17A) of the Code.

13 Sec. 11. APPLICABLE TO OTHER THAN FEDERAL AID
14 HIGHWAYS. The commission or any political subdivision
15 may provide all or a part of the programs and payments
16 authorized under sections two (2) through fifteen
17 (15) of this Act to persons displaced by any street
18 or highway project which is financed in whole or in
19 part by the state or a political subdivision, which

20 is not a federal-aid project, and which requires the
21 purchase or condemnation of private property for
22 public use. To the extent that a program or payment
23 is provided under this section, it shall be provided
24 on a uniform basis to all persons so displaced. The
25 commission shall make departmental rules and

Page 15

1 regulations to assure reasonable standards, which
2 need not conform to federal rules and guidelines,
3 for programs and payments provided under this section.
4 Sec. 12. ACQUISITIONS BY OTHER STATE AGENCIES
5 AND POLITICAL SUBDIVISIONS. Whenever real property
6 is acquired by a state agency or a political
7 subdivision of the state incident to a federal project
8 or program, the state agency or political subdivision
9 is hereby authorized and shall make all payments and
10 provide all services required by sections two (2)
11 through fifteen (15) of this Act of the commission
12 in order to secure the federal funds available for
13 such project or program.

14 Sec. 13. PAYMENTS NOT TO BE CONSIDERED AS INCOME.
15 No payment received under sections two (2) through
16 fifteen (15) of this Act shall be considered as in-
17 come for the purposes of chapter four hundred twenty-
18 two (422) of the Code.

19 Sec. 14. ADMINISTRATION. In order to prevent
20 unnecessary expenses and duplications of functions,
21 and to promote uniform and effective administration
22 of relocation assistance programs for displaced
23 persons, the commission may enter into contracts with
24 any individual, firm, association, or corporation
25 for services in connection with such programs, or

Page 16

1 may carry out its functions through any governmental
2 agency, political subdivision, or instrumentality
3 having an established organization for conducting
4 relocation assistance programs. The commission shall,
5 in carrying out the relocation assistance activities
6 described in section nine (9) whenever practicable,
7 utilize the services of state or local housing
8 agencies, or other agencies having experience in the
9 administration or conduct of similar housing assistance
10 activities.

11 Sec. 15. FUNDING. Payments and expenditures under
12 the provisions of sections two (2) through fourteen
13 (14) of this Act are incident to and arise out of
14 the construction, maintenance, and supervision of
15 public highways and streets, and, in the case of any
16 federal-aid highway project, may be made by the
17 commission from the primary road fund and funds made
18 available by the federal government for the purpose
19 of carrying out the provisions of sections two (2)
20 through (14) of this Act. Payments made under

21 authority of section eleven (11) of this Act may be
22 made from the primary road fund in case of a primary
23 road project only, and in other cases may be made
24 from the secondary road fund or from appropriate funds
25 under control of a political subdivision.

Page 17

1 Sec. 16. **FEDERAL GRANTS.** The commission may do
2 all things necessary to carry out the provisions of
3 this Act and to secure federal grants to make the
4 payments required by this Act, but the absence of
5 federal aid to make such payments shall not discharge
6 the obligation to make the payments.

7 Sec. 17. Chapter three hundred sixteen (316),
8 Code 1971, is repealed.

9 Sec. 18. Section four hundred seventy-two point
10 forty-two (472.42), Code 1971, is amended as follows:

11 **472.42 EMINENT DOMAIN—PAYMENT TO DISPLACED**

16 thereby after July 1, [1970] 1971, shall pay to such
17 person in addition to all other sums of money required
18 by law a displacement allowance in accordance with
19 and in the same manner as provided for acquisition
20 for highway projects in sections [316.3, 316.4 and
21 316.5] 5, 6, 7 and 9 of this Act. In the application
22 of said sections to utilities and railroads the term
23 "commission" shall mean the Iowa state commerce
24 commission. The displacement allowance shall be paid
25 in the manner provided in that chapter and pursuant

Page 18

1 to the rules and regulations promulgated by the
2 commission. Any person aggrieved by a determination
3 as to eligibility for a payment or the amount of such
4 payment may, upon application, have the matter reviewed
5 by the commission. The decision of the commission
6 upon review shall be final as to all parties. Any
7 utility or railroad subject to this section that
8 proposes to acquire the property of any person who
9 will be displaced by such acquisition shall inform
10 such person of his right to receive a displacement
11 allowance and, if his entitlement thereto or the
12 amount thereof is in dispute, his right of appeal to
13 the commission.

5 DIVISION 1

- 6 Section 1. FOUNDATION PROPERTY TAX. Each school
- 7 district shall cause to be levied each year beginning

8 in 1972 for the school general fund a foundation property
9 tax of twenty mills per dollar of assessed valuation
10 on all taxable property in the district. However, a
11 school district which can meet its general fund budget
12 by a levy of less than twenty mills per dollar of
13 assessed valuation on all taxable property in the
14 district, shall levy only the lesser amount needed.
15 Each county auditor shall certify to each school district
16 within the county and to the state comptroller not later
17 than June first each year the assessed valuation of
18 taxable property in each school district within the
19 county.

20 **Sec. 2. FOUNDATION FORMULA.** The foundation formula
21 is a method of determining the amount of per pupil state
22 aid to be paid to public school districts in the state,
23 based upon the relative wealth of each school district.
24 The formula consists of multiplying a school district's
25 relative wealth factor by the average per pupil state

Page 2

1 aid factor.

2 A school district's relative wealth factor is
3 determined for each school year by dividing the state
4 average per pupil wealth by the school district's per
5 pupil wealth. The state average per pupil wealth is
6 determined by adding together the total assessed
7 valuation of taxable property in the state and the total
8 adjusted gross income in the state, and dividing the
9 sum by the total per pupil enrollment in the state.
10 The school district's per pupil wealth is determined
11 by adding together the total assessed valuation of
12 taxable property in the school district and the total
13 adjusted gross income in the district, and dividing
14 the sum by the total per pupil enrollment in the
15 district.

16 The average per pupil state aid factor is determined
17 for each school year by dividing the total amount of
18 money appropriated for state aid by the total per pupil
19 enrollment in the state.

20 Each public school district in the state which cannot
21 meet its general fund budget by the levy of the
22 foundation property tax is entitled to state aid equal
23 to the amount of its per pupil state aid as determined
24 by the foundation formula multiplied by its per pupil
25 enrollment. However, no district shall receive during

Page 3

1 a school year an amount of state aid per pupil which,
2 added to the amount receivable per pupil from the
3 foundation property tax, exceeds eighty-five percent
4 of the district's general fund budget per pupil, or
5 eighty-five percent of the state average general fund
6 budget per pupil, whichever is smaller.

7 Prior to July fifteenth each year, the state
8 comptroller shall determine an accurate approximation
9 of the amount of state aid to be paid to each school

10 district in the state under this section, and shall
11 certify the estimated amount to each school district
12 for use in preparing budgets.

13 As soon as possible each year, the state comptroller
14 shall compute the actual amount due to each school district
15 in the state under the provisions of this section, and
16 shall pay the amount due to each school district in
17 three installments to be paid on approximately the first
18 days of November, February, and May of each school year.
19 The installments shall be as nearly equal as possible
20 as determined by the state comptroller, taking into
21 consideration the relative budget and cash position
22 of the state resources.

23 Sec. 3. GENERAL FUND BUDGET. Subject to limitations
24 imposed by the school budget review committee or by
25 state law, the general fund budget of a school district

Page 4

1 shall be determined as follows:

2 1. Determine estimated general fund expenditures
3 exclusive of gifts, and federal grants and aids, except
4 federal aids paid in anticipation of or reimbursement
5 for expenses caused by a federal activity in or near
6 a school district which would otherwise need to be paid
7 from local sources, by adding together the estimated
8 amounts to be expended for the school year, for
9 administration, instruction, attendance services, health
10 services, pupil transportation services, fixed charges,
11 operation and maintenance, community services, capital
12 outlay, debt service, and tuition paid other districts.
13 The cost of food services and student body activities
14 shall not be included in general fund costs.

15 2. From the total of the sums determined under
16 subsection one (1) of this section deduct the following:

17 a. Estimated receipts from state appropriations
18 for handicapped children aid, vocational aid, driver
19 education aid, and junior college aid.

20 b. Estimated general fund receipts from the
21 following: Tuition paid by individuals or by the state;
22 transportation; services; rents; income on investment
23 securities; other general fund revenue receipts; general
24 fund nonrevenue receipts; and transfers to the general
25 fund other than those resulting from clearing accounts,

Page 5

1 reorganization, and the return of principal of invested
2 securities.

3 c. An estimate of the total amount determined on
4 the per pupil cost basis for children transported who
5 live within statutory walking distance from school.

6 Sec. 4. DETERMINATION OF PER PUPIL ENROLLMENT.

7 The total amount of state aid allocated to public schools
8 shall be paid to each school district, on a per pupil
9 basis, based on the number of students in each school
10 district. The number of students in each school district
11 including special education students shall be determined

12 by a count of actual enrollment on the second Friday
13 in September. Shared-time students shall be counted
14 in the enrollment on the basis of number of hours of
15 instruction in a public school, proportionate to a full-
16 time student enrolled in the district. A school district
17 may appear before the school budget review committee
18 to apply for additional state aid providing it can
19 substantiate that the second semester increased
20 enrollment, based upon a recount of actual enrollment
21 on the second Friday in February, shows an increase
22 over active enrollment on the second Friday in Septem-
23 ber of more than five percent, and that the increased
24 enrollment has caused increased costs over the initial
25 program presented in the proposed budget for the year.

Page 6

1 The school budget review committee may distribute
2 additional state aid per pupil allocated for this purpose
3 equally to those schools qualifying. However, the
4 amount per pupil distributed shall not exceed one half
5 of the amount distributed per pupil in fall enroll-
6 ment.

7 Sec. 5. PERCENTAGE GROWTH FACTOR.

8 1. It is the intent of the legislature that the
9 total amount of state aid appropriated for use in
10 determining the amount to be paid to each school district
11 under the school foundation formula provided in section
12 two (2) of this Act, will be increased annually by the
13 amount of the percentage growth factor for the state,
14 which will be computed by the state comptroller each
15 year as follows:

16 a. Determine the percent of increase or decrease
17 in state revenue from taxes other than any school
18 district income surtax, adjusted for changes in rates
19 or basis, for each year of the last three calendar years
20 for which accurate figures are available, and divide
21 the total by three.

22 b. The total state aid for the last preceding school
23 year multiplied by the percentage growth factor gives
24 the additional amount of state aid which should be added
25 to the appropriation for the current school year.

Page 7

1 Sec. 6 ADDITIONAL SCHOOL PROPERTY TAX AND BUDGET
2 LIMITATION. The remainder of a school district's general
3 fund budget for the 1972-1973 school year, after
4 allowance for expected receipts from the foundation
5 property tax and from state aid based upon the foundation
6 formula as determined under sections one (1) and two
7 (2) of this Act, shall be provided by a tax which the
8 school board shall cause to be levied on all taxable
9 property within the district. However, a district's
10 general fund budget for the 1972-1973 school year may
11 not exceed one hundred three percent of its general
12 fund budget for the 1971-1972 school year.

13 Sec. 7. MAXIMUM MILLAGE. The total tax caused to

14 be levied by a school district in 1972 for the foundation
15 property tax and the additional school property tax
16 shall be the maximum millage which the school board
17 may cause to be levied for school general fund purposes
18 in subsequent years. If a school district cannot meet
19 its general fund budget by a combination of state aid
20 based upon the foundation formula, and the maximum
21 property tax millage permitted under this section, the
22 school board may apply to the school budget review
23 committee for an allotment of any special funds
24 appropriated for this purpose, or may hold a special
25 election on the question of whether to adopt a school

Page 8

1 district income surtax.
2 Sec. 8. SCHOOL BUDGET REVIEW COMMITTEE. A school
3 budget review committee is established, which consists
4 of the superintendent of public instruction, the state
5 comptroller, and three members appointed by the governor
6 to represent the public and to serve three-year staggered
7 terms. Those serving as public members on the effective
8 date of this Act shall continue to serve out their
9 unexpired terms. The superintendent of public
10 instruction and the state comptroller may each appoint
11 a member of his staff to serve as his permanent
12 representative on the committee. The school budget
13 review committee shall meet and hold hearings each year
14 in Des Moines in May, and shall continue in session
15 until it has reviewed budgets of school districts, as
16 provided in section nine (9) of this Act. It may call
17 in school board members and employees as necessary for
18 the hearings. Legislators shall be notified of hearings
19 concerning school districts in their constituencies.
20 The committee shall adopt its own rules of procedure.
21 The superintendent of public instruction or his
22 representative shall serve as chairman, and the state
23 comptroller or his representative shall serve as
24 secretary. The committee members representing the
25 public are entitled to receive a per diem equal to the

Page 9

1 per diem of members of the board of public instruction,
2 and their necessary travel and other expenses while
3 engaged in their official duties. Expense payments
4 shall be made from appropriations to the department
5 of public instruction.
6 Not later than December first for the following
7 school year, the board of directors of each school
8 district shall set a tentative limitation in dollars
9 of the amount the district may spend on each program
10 in the system as defined by the school budget review
11 committee and in the form which the committee prescribes.
12 This prospectus of program and allocated dollars as
13 approved by the board of directors shall guide the
14 superintendent when preparing the proposed budget for

15 the following school year. These limitations submitted
16 by the board of directors to the superintendent of
17 schools for the district shall be promptly forwarded
18 to the school budget review committee.

19 Sec. 9. DUTIES OF COMMITTEE. The school budget
20 review committee may recommend to the state board of
21 public instruction the revision of any rules,
22 regulations, directives, or forms relating to school
23 district budgeting and accounting, confer with local
24 school boards or their representatives and make
25 recommendations relating to any budgeting or accounting

Page 10

1 matters, and may direct the superintendent of public
2 instruction or the state comptroller to make studies
3 and investigations of school costs in any school district
4 whose budget has been submitted to the committee. The
5 committee shall report to each session of the general
6 assembly, which report shall include any recommended
7 changes in laws relating to school districts, and shall
8 set out the number of hearings held pursuant to this
9 Act, the reasons for any authorized increases in school
10 costs, and other information as the committee deems
11 advisable.

12 If a school board applies to the school budget review
13 committee for an allotment of special funds the committee
14 may make an allotment from any funds appropriated
15 specifically for this purpose, making allowance for
16 prorating the appropriated funds among the districts
17 who apply, in proportion to their needs. The committee
18 in determining whether to grant special funds, shall
19 consider unique and unusual circumstances including,
20 but not limited to, unusual increases or decreases in
21 enrollments, natural disasters, unusual transportation
22 problems, and initial staffing problems, and shall grant
23 permission for the election only if unique and unusual
24 circumstances exist in the district.

25 The school budget review committee may call in any

Page 11

1 county board of education or joint county board of
2 education for the purpose of reviewing its budget as
3 it relates to the individual districts within the county.

4 Sec. 10. SPECIAL ELECTION. A school board may
5 submit the question of whether to adopt a school district
6 income surtax at a special election as provided in
7 chapter two hundred seventy-seven (277) of the Code.

8 The question submitted to the voters shall state
9 the specific rate of school district income surtax which
10 will be imposed upon individuals residing in the school
11 district on December thirty-first of that year, or on
12 the last day of a tax year falling within that calendar
13 year, in order to meet the school district's general
14 fund budget as proposed. The surtax rate is determined
15 by dividing the additional amount needed to meet the

16 district's general fund budget by the amount of state
17 individual income tax paid by individuals residing in
18 the school district on December thirty-first of the
19 last preceding year for which accurate figures are
20 available, or on the last day of a taxpayer's tax year
21 ending within that calendar year.

22 If a majority of those voting favors adoption of
23 the proposed budget and the specified school district
24 income surtax, the tax shall be imposed as provided
25 in section eleven (11) of this Act.

Page 12

1 If a majority of those voting does not favor adoption
2 of the proposed budget and the specified school district
3 income surtax, the school board shall reduce its general
4 fund budget to the amount which can be met by its maximum
5 property tax millage and its state aid.

6 The school board shall certify the result of an
7 election required under this section to the school
8 budget review committee, to the county auditor, to the
9 director of revenue, and to the state comptroller,
10 within ten days following the election.

11 Sec. 11. SCHOOL DISTRICT INCOME TAX. If the voters
12 of a school district approve the imposition of a school
13 district income surtax of a specified rate, the school
14 board shall impose the tax by resolution, as a surtax
15 on the state individual income tax paid on incomes
16 received during the current calendar year by taxpayers
17 residing in the school district on December thirty-first
18 of the current year, or on the last day of a taxpayer's
19 tax year ending during the current calendar year.

20 A local school district income surtax imposed after
21 approval by the voters shall continue to be in effect
22 in that school district until altered by another
23 election. If a school board increases its general fund
24 budget so that it cannot be met by the combination of
25 its maximum property tax, state aid based on the

Page 13

1 foundation formula, and the approved school district
2 income surtax, the school board may hold another election
3 as provided in section ten (10) of this Act, to submit
4 the question of whether to increase the surtax rate
5 for the district.

6 At least once every five years, the school board
7 shall submit to the voters of the school district, at
8 the regular school election or at a special election,
9 the question of whether to continue imposition of the
10 established school district income surtax. If a majority
11 of those voting does not approve continuation of the
12 school district income surtax, the school board may
13 reduce its general fund budget to the amount which can
14 be met by its maximum property tax millage and state
15 aid, or may reduce the budget and submit to the voters
16 the question of imposition of a lesser rate of school

17 district income surtax, as provided in section ten (10)
18 of this Act. If the voters refuse to approve any school
19 district income surtax, the school board shall reduce
20 its budget accordingly.

21 Sec. 12. STATUTES APPLICABLE. The director of
22 revenue shall administer any school district income
23 tax imposed under section eleven (11) of this Act, and
24 all the provisions of sections four hundred twenty-two
25 point twenty-two (422.22) through four hundred twenty-

Page 14

1 two point thirty-one (422.31), inclusive, and four
2 hundred twenty-two point seventy-three (422.73) of the
3 Code, shall apply in respect to administration of the
4 school district income tax.

5 Sec. 13. FORM AND TIME OF RETURN. The school
6 district income tax return shall be made a part of the
7 Iowa individual income tax return subject to the
8 conditions and restrictions set forth in section four
9 hundred twenty-two point twenty-one (422.21) of the
10 Code.

11 Sec. 14. DEPOSIT OF SCHOOL DISTRICT INCOME TAX.

12 The director of revenue shall deposit all moneys received
13 as school district income tax to the credit of each
14 district from which the moneys are received, in a "school
15 district income tax fund" which is established in the
16 office of the treasurer of state.

17 Sec. 15. SCHOOL DISTRICT INCOME TAX CERTIFICATION.

18 On or before October twentieth each year, the direc-
19 tor of revenue shall make an accounting of the school
20 district income tax collected under this Act applicable
21 to tax returns for the last preceding calendar year
22 or a taxpayer's tax year ending within that calendar
23 year, from taxpayers in each of the various school
24 districts in the state and certify to the state
25 comptroller and the state department of public

Page 15

1 instruction the amount of the total school district income
2 tax credited from the taxpayers of each school district.
3 Additional returns in process, if any, at the time of
4 certification shall be completed and the additional
5 amount of school district income tax reported to the
6 state comptroller for distribution back to the school
7 district with the first installment of the following
8 school year.

9 Sec. 16. SCHOOL DISTRICT INCOME TAX DISTRIBUTION.

10 The state comptroller shall draw warrants in payment
11 of the amount of tax payable to each of the school
12 districts in two installments to be paid on approximately
13 the first day of December and the first day of February,
14 and cause the same to be delivered to the respective
15 school districts.

16 Sec. 17. DEPOSIT IN GENERAL FUND. All amounts
17 received by a school district under the provisions of
18 sections two (2), four (4), nine (9), and sixteen (16)

19 of this Act shall be deposited in the school general
20 fund, and may be used for any school general fund
21 purpose.

22 Sec. 18. Section two hundred ninety-eight point
23 one (298.1), Code 1971, is amended as follows:

24 298.1 SCHOOL TAXES. The board of each school
25 corporation shall estimate the amount of the proposed

Page 16

1 expenditures and proposed receipts for the general
2 school purposes at a time and in a manner to effectuate
3 the provisions of [chapter 442] *sections 1 through 17,*
4 *inclusive, of this Act.* Compliance with chapter 24
5 shall be observed.

6 [Prior to compliance with section 24.9, the
7 superintendent of the county school systems shall call
8 a joint meeting of school superintendents and school
9 board members for all of the local districts within
10 the county basic school tax unit. The time and place
11 for such joint meetings shall be set by the
12 superintendent of the county school systems.]

13 [The purpose of the joint meeting shall be for a
14 review of the budgets of the several school districts
15 within the county basic school tax units, and for the
16 discussion of common problems within the county basic
17 unit.]

18 Sec. 19. Section four hundred twenty-two point
19 sixty-five (422.65), Code 1971, is amended as follows:

20 422.65 ALLOCATION OF REVENUE. [Ten] *Fifty-five* percent
21 of the total moneys received from the franchise tax
22 shall be deposited in the state general fund. The
23 remaining moneys received from the franchise tax shall
24 be deposited in a franchise tax fund hereby established
25 in the office of the treasurer of state, and shall be

Page 17

1 paid quarterly on warrants by the state comptroller,
2 after certification by the director of revenue, as
3 follows:

4 [1. Fifty percent to the basic school tax equalization
5 fund of the basic school tax unit from which the tax
6 is collected, to be distributed in the same manner as
7 other funds in the basic school tax equalization fund.]

9 of the city or town from which the tax is collected.

10 [3. Twenty] 2. *Forty* percent to the general fund
11 of the county from which the tax is collected.

12 If the financial institution maintains one or more
13 offices for the transaction of business, other than
14 its principal office, a portion of its franchise tax
15 shall be allocated to each office, based upon a
16 reasonable measure of the business activity of each
17 office. The director of revenue shall prescribe, for
18 each type of financial institution, a method of measuring
19 the business activity of each office. Financial
20 institutions shall furnish all necessary information

21 for this purpose at the request of the director.
22 Quarterly, the director of revenue shall certify
23 to the treasurer of state the amounts to be paid to
24 each [basic school tax unit,] city, town, and county from
25 the franchise tax fund. All moneys received from the

Page 18

1 franchise tax are hereby appropriated according to the
2 provisions of this section.
3 Sec. 20. Section four hundred thirty A point three
4 (430A.3), Code 1971, is amended as follows:
5 430A.3 LEVY. There is hereby imposed upon capital
6 employed in the business of making loans or investments
7 within the state of Iowa, as determined under the

10 tax upon moneys and credits of such corporations which
11 shall be levied by the board of supervisors, and placed
12 upon the tax list and collected by the county treasurer.
13 The amount collected in each taxing district in cities
14 and towns shall be apportioned twenty percent to the
15 county general fund, thirty percent to the city or town
16 general fund, and fifty percent to the [basic school
17 tax equalization fund] *general fund of the school district*
18 *where collected*, and the amount collected in each taxing

6 general public in the state of Iowa or in the courts
7 of any operations having as their effect the financing
8 of business transactions within the state of Iowa
9 resulting in the incurring of any indebtedness based
10 upon security other than real estate security.

12 1971, is repealed.

15 "Section 1. SHORT TITLE. This Act may be cited as
16 the 'Tax Relief Act for Elderly and Totally Disabled Homeowners'.
17 Sec. 2. PURPOSE. The purpose of this Act is to
18 provide relief, through a system of income tax credits
19 and refunds and appropriations from the general fund,
20 to certain persons who own their homestead.
21 Sec. 3. DEFINITIONS. As used in this Act:
22 1. 'Income' means the sum of federal adjusted gross
23 income as defined in the Internal Revenue Code of the
24 United States (1954), the amount of capital gains
25 excluded from adjusted gross income, alimony, support

Page 2

1 money, nontaxable strike benefits, cash public assistance
2 and relief (not including relief granted under this
3 Act), the gross amount of any pension or annuity
4 (including railroad retirement benefits, all payments
5 received under the federal social security act, state
6 unemployment insurance laws, and veteran's disability
7 pensions), nontaxable interest received from the federal
8 government or any of its instrumentalities, workman's
9 compensation, and the gross amount of 'loss of time'
10 insurance. It does not include gifts from nongovern-
11 mental sources, or surplus foods or other relief in
12 kind supplied by a governmental agency.

13 2. 'Household' means a claimant and spouse.

14 3. 'Household income' means all income received
15 by all persons of a household in a calendar year while
16 members of the household.

17 4. 'Homestead' means the dwelling, whether owned
18 or rented, and so much of the land surrounding it, not
19 exceeding one acre, as is reasonably necessary for use
20 of the dwelling as a home, and may consist of a part
21 of a multi-dwelling or multi-purpose building and a
22 part of the land upon which it is built. ('Owned'
23 includes a vendee in possession under a land contract
24 and of one or more joint tenants or tenants in common.)
25 It does not include personal property such as furniture,

Page 3

1 furnishings or appliances, but a mobile home may be
2 a homestead.

3 5. 'Claimant' means a person who is sixty-five years
4 of age or older or is totally disabled and has filed
5 a claim under this Act and was domiciled in this state
6 during the entire calendar year preceding the year in
7 which he files claim for relief under this Act. When
8 two individuals of a household are able to meet the
9 qualifications for a claimant, they may determine between
10 them as to whom the claimant shall be. If they are
11 unable to agree, the matter shall be referred to the
12 director of the department of revenue and his decision
13 shall be final. If a homestead is occupied by two or
14 more individuals, and more than one individual is able
15 to qualify as a claimant, and some or all the qualified
16 individuals are not related, the individuals may
17 determine among them as to whom the claimant shall be.
18 If they are unable to agree, the matter shall be referred
19 to the director of the department of revenue, and his
20 decision shall be final.

21 6. 'Property taxes accrued' means property taxes
22 (exclusive of special assessments, penalties and
23 interest) levied on a claimant's homestead in this state
24 in 1971 or any calendar year thereafter. If a homestead
25 is owned by two or more persons or entities as joint

Page 4

1 tenants or tenants in common, and one or more persons
2 or entities are not a member of claimant's household,
3 'property taxes accrued' is that part of property taxes
4 levied on the homestead which reflects the ownership
5 percentage of the claimant and his household. If a
6 claimant and spouse own their homestead part of the
7 preceding calendar year and rent it or a different
8 homestead for part of the same year, 'property taxes
9 accrued' means only taxes levied on the homestead when
10 both owned and occupied by the claimant at the time
11 of the levy, multiplied by the percentage of twelve
12 months that such property was owned and occupied by
13 the household as its homestead during the preceding
14 year. When a household owns and occupies two or more
15 different homesteads in this state in the same cal-
16 endar year, 'property taxes accrued' shall relate only
17 to that property occupied by the household as a homestead
18 on the levy date. If a homestead is an integral part
19 of a larger unit such as a farm, or a multi-purpose
20 or multi-dwelling building, property taxes accrued shall
21 be that percentage of the total property taxes accrued
22 as the value of the homestead is of the total value.
23 For purposes of this subsection 'unit' refers to the
24 parcel of property covered by a single tax statement
25 of which the homestead is a part.

Page 5

1 Sec. 4. CLAIM IN PERSONAL. The right to file claim
2 under this Act shall be personal to the claimant and
3 shall not survive his death, but such right may be
4 exercised on behalf of a claimant by his conservator
5 or attorney-in-fact. If a claimant dies after having
6 filed a timely claim, the amount thereof shall be
7 disbursed to another member of the household as
8 determined by the director of the department of revenue.
9 If the claimant was the only member of his household,
10 the claim may be paid to his executor or administrator,
11 but if neither is appointed and qualified within two
12 years of the filing of the claim, the amount of the
13 claim shall escheat to the state.

14 Sec. 5. CLAIM AS INCOME TAX CREDIT OR REBATE.
15 Subject to the limitations provided in this Act, a
16 claimant may claim in any year as a credit against Iowa
17 income taxes otherwise due on his income, property taxes
18 accrued. If the allowable amount of such claim ex-
19 ceeds the income taxes otherwise due on claimant's
20 income, or if there are no Iowa income taxes due on
21 claimant's income, the amount of the claim not used
22 as an offset against income taxes, after certification
23 by the director of the department of revenue, shall
24 be paid to claimant from the general fund. No interest
25 shall be allowed on any payment made to a claimant

Page 6

1 pursuant to this Act.

2 Sec. 6. FILING DATE. A claim shall be filed with
3 the director of revenue no later than April thirtieth
4 of the year property taxes accrued are due and payable.

5 Sec. 7. SATISFACTION OF OUTSTANDING TAX LIABILITIES.

6 The amount of any claim otherwise payable under this
7 Act may be applied by the department of revenue against
8 any debt owing the state of Iowa by the claimant, or
9 his or her spouse who was a member of the claimant's
10 household in the year to which the claim relates.

11 Sec. 8. ONE CLAIM PER HOUSEHOLD. Only one claimant
12 per household per year shall be entitled to relief under
13 this Act.

14 Sec. 9. LIMITS. The amount of any claim pursuant
15 to this Act shall be determined to the nearest dollar
16 amount in accordance with the following schedule:

Household Income Range	Percent of Tax	(Property Tax Accrued)
0-1,000	(75) percent	
1,001-2,000	(60) percent	
2,001-3,000	(45) percent

25 Sec. 10. ADMINISTRATION. The director of the

Page 7

1 department of revenue shall make available suitable
2 forms with instructions for claimants, including a form
3 which may be included with or as a part of the individual
4 income tax blank. The claim shall be in such form as
5 the director of the department of revenue may prescribe.

6 Sec. 11. PROOF OF CLAIM. Every claimant under this
7 Act shall supply to the department of revenue, in support
8 of his claim, a verified statement showing that he was

Division 1

- 1 Amend the Senate committee on ways and means amendment
- 2 to House File 654, as amended, passed, and reprinted,
- 3 filed May 13, 1971, commencing on page 1258 of the
- 4 Senate Journal, as follows:

1. Page 22, by inserting after line 4 the following new section:

"After approval by the voters, a local sales and use tax at a rate of not more than one percent may be imposed by a city on the gross receipts from the sale or use of tangible personal property or services subject to the state sales and use tax.

Upon its own motion, or upon receipt of a valid petition signed by voters of the city equal in number to ten percent of the persons who voted at the last preceding regular city election, but no less than ten persons, requesting that an election be held, the city council shall submit to the voters of the city, at a special election called for that purpose, the question of imposing a local sales and use tax at a specified rate of not more than one percent. If a majority of those voting favors the imposition of the tax, the council shall impose the tax by ordinance, and shall continue to impose the tax for a minimum of four years. After the four-year period, the tax may be discontinued by the council or by petition and election in the same

Page 2

manner as it was imposed.

If a majority of those voting does not favor the imposition of a local sales and use tax, the council shall not submit the question of imposition of the same rate of tax within one year following the election.

The special election may not be held within thirty days of a general election. Prior to the special election, the city council shall publish notice of the election in a newspaper published at least once a week and having general circulation in the city, except that the notice shall be published twice. If the city has a population of two hundred or less, a publication may be made by posting notice in three public places in the city which have been permanently designated by ordinance.

A local sales and use tax shall be imposed on the same basis as the state sales and use tax and may not be imposed on the sale or use of any tangible personal property or services not taxed by the state. A local sales and use tax is applicable only within the territorial limits of the city imposing it and shall be collected by all persons required to collect state sales and use taxes. The amount of the sale, for purposes of determining the amount of the local sales and use tax, does not include the amount of the state sales

Page 3

1 and use tax. No sales and use tax permit, other than
2 the state sales and use tax permits, may be required.
3 A local sales and use tax may be imposed either January
4 first or July first following a favorable election.
5 The director of revenue shall administer the provi-
6 sions of a local sales and use tax as nearly as possible
7 in conjunction with the administration of state tax
8 laws. He shall provide appropriate forms, or provide
9 on the regular state tax forms, for reporting local
10 sales and use tax liability.
11 An ordinance imposing a local sales and use tax shall
12 adopt by reference the applicable provisions of the
13 appropriate sections of chapters four hundred twenty-
14 two (422) and four hundred twenty-three (423) of the
15 Code, and all powers of the director to administer the
16 state sales and use tax law are applicable to his
17 administration of a local sales and use tax ordinance.
18 Local officials shall confer with the director of revenue
19 and obtain his assistance in drafting the ordinance
20 imposing a local sales and use tax. A certified copy
21 of the ordinance shall be filed with the director as
22 soon as possible after passage.
23 The director, in consultation with local officials,
24 shall collect and account for a local sales and use
25 tax. The director shall retain for the use of the

Page 4

1 department one percent of all local sales and use tax
2 receipts, to cover administrative expense, and shall
3 credit remaining local sales and use tax receipts to
4 a local sales and use tax fund hereby established in
5 the office of the treasurer of state.
6 The treasurer of state shall remit quarterly to the
7 cities which have imposed a local sales and use tax
8 their share of the balance in the local sales and use
9 tax fund. Local sales and use tax moneys received by
10 a city may be expended for any lawful city purpose."
11 2. Renumber sections and correct internal references
12 as necessary in accordance with this amendment.

13 3. Amend the title, page 30, line 22, by inserting

5 for rendering educational services in the public
6 schools.

7 d. "Approved nonpublic school" means a nonprofit
8 elementary or secondary school within the state other

1 Amend the Senate committee on ways and means amendment
2 to House File 654, filed May 13, 1971, as follows:

3 1. By striking from page 19, lines 13 through 25.

4 2. By striking pages 20 and 21.

5 3. By striking from page 22, lines 1 through 4 and
6 inserting in lieu thereof the following:

7 "After approval by the voters, a local sales and
8 use tax at a rate of not more than one percent may be
9 imposed by a city on the gross receipts from the sale
10 or use of tangible personal property or services subject
11 to the state sales and use tax.

12 Upon its own motion, or upon receipt of a valid peti-
13 tion signed by voters of the city equal in number to
14 ten percent of the persons who voted at the last
15 preceding regular city election, but no less than ten

16 persons, requesting that an election be held, the city
17 council shall submit to the voters of the city, at a
18 special election called for that purpose, the question
19 of imposing a local sales and use tax at a specified
20 rate of not more than one percent. If a majority of
21 those voting favors the imposition of the tax, the
22 council shall impose the tax by ordinance, and shall
23 continue to impose the tax for a minimum of four years.
24 After the four-year period, the tax may be discontinued
25 by the council or by petition and election in the same

Page 2

1 manner as it was imposed.
2 If a majority of those voting does not favor the
3 imposition of a local sales and use tax, the council
4 shall not submit the question of imposition of the same
5 rate of tax within one year following the election.
6 The special election may not be held within thirty
7 days of a general election. Prior to the special elec-
8 tion, the city council shall publish notice of the elec-
9 tion in a newspaper published at least once a week and
10 having general circulation in the city, except that
11 the notice shall be published twice. If the city has
12 a population of two hundred or less, a publication may
13 be made by posting notice in three public places in
14 the city which have been permanently designated by
15 ordinance.
16 A local sales and use tax shall be imposed on the
17 same basis as the state sales and use tax and may not
18 be imposed on the sale or use of any tangible personal
19 property or services not taxed by the state. A local
20 sales and use tax is applicable only within the terri-
21 torial limits of the city imposing it and shall be col-
22 lected by all persons required to collect state sales
23 and use taxes. The amount of the sale, for purposes
24 of determining the amount of the local sales and use
25 tax, does not include the amount of the state sales

Page 3

1 and use tax. No sales and use tax permit, other than
2 the state sales and use tax permits, may be required.
3 A local sales and use tax may be imposed either January
4 first or July first following a favorable election.
5 The director of revenue shall administer the provi-
6 sions of a local sales and use tax as nearly as possible
7 in conjunction with the administration of state tax
8 laws. He shall provide appropriate forms, or provide
9 on the regular state tax forms, for reporting local
10 sales and use tax liability.
11 An ordinance imposing a local sales and use tax shall
12 adopt by reference the applicable provisions of the
13 appropriate sections of chapters four hundred twenty-
14 two (422) and four hundred twenty-three (423) of the
15 Code, and all powers of the director to administer the
16 state sales and use tax law are applicable to his
17 administration of a local sales and use tax ordinance.
18 Local officials shall confer with the director of revenue
19 and obtain his assistance in drafting the ordinance

20 imposing a local sales and use tax. A certified copy
21 of the ordinance shall be filed with the director as
22 soon as possible after passage.

23 The director, in consultation with local officials,
24 shall collect and account for a local sales and use
25 tax. The director shall retain for the use of the

Page 4

1 department one percent of all local sales and use tax
2 receipts, to cover administrative expense, and shall
3 credit remaining local sales and use tax receipts to
4 a local sales and use tax fund hereby established in
5 the office of the treasurer of state.

6 The treasurer of state shall remit quarterly to the
7 cities which have imposed a local sales and use tax
8 their share of the balance in the local sales and use
9 tax fund. Local sales and use tax moneys received by
10 a city may be expended for any lawful city purpose."

11 4. By striking from page 24, lines 9 through 25.

12 5. By striking from page 25, lines 1 and 2.

5 therein to be later effective.

6 Sec. 3. Section four hundred twenty-two point
7 five (422.5), Code 1971, is amended by striking the
8 section and inserting in lieu thereof the following:

9 422.5 TAX IMPOSED. A tax is imposed upon every
10 resident of this state, and upon that part of the
11 net income of any nonresident which is derived from
12 any property, trust, or other source within this
13 state, including any business, trade, profession,
14 or occupation carried on within this state, which
15 tax shall be levied, collected, and paid annually
16 upon and with respect to the taxpayer's entire net
17 income at rates as follows:

18 1. On the first one thousand dollars of net income,
19 or any part thereof, one percent.

20 2. On the second thousand dollars of net income,
21 or any part thereof, two percent.

22 3. On the third thousand dollars of net income,
23 or any part thereof, three percent.

24 4. On the fourth and fifth thousand dollars of
25 net income, or any part thereof, four percent.

Page 4

1 5. On the sixth and seventh thousand dollars of
2 net income, or any part thereof, five percent.
3 6. On the eighth and ninth thousand dollars of
4 net income, or any part thereof, six percent.
5 7. On the tenth, eleventh, and twelfth thousand
6 dollars of net income, or any part thereof, seven
7 percent.
8 8. On the thirteenth, fourteenth, and fifteenth
9 thousand dollars of net income, or any part thereof,
10 eight percent.
11 9. On the sixteenth, seventeenth, and eighteenth

21 However, no tax shall be imposed on any resident
22 or nonresident whose base income, as defined in section
23 four hundred twenty-two point seven (422.7) of the
24 Code, is three thousand dollars or less; but in the
25 event that the payment of tax under this division

Page 5

1 would reduce the base income to less than three
2 thousand dollars, then the tax shall be reduced to
3 that amount which would result in allowing the tax-
4 payer to retain a base income of three thousand
5 dollars. The preceding sentence does not apply to
6 estates or trusts. For the purpose of this paragraph,
7 the entire base income, including any part not
8 allocated to Iowa, shall be taken into account. If
9 the combined base income of a husband and wife exceeds
10 three thousand dollars, neither of them shall receive
11 the benefit of this paragraph, whether they file a

17 parents exceeds three thousand dollars.

18 The provisions of this division apply to all
19 salaries received by federal officials or employees
20 of the United States government.

21 Sec. 4. Section four hundred twenty-two point
22 six (422.6), Code 1971, is amended as follows:

23 422.6 INCOME FROM ESTATES OR TRUSTS. The tax
24 imposed by section 422.5 shall apply to and become
25 a charge against estates and trusts with respect to

Page 6

1 their [taxable] *net* income, and the rates shall be the
2 same as those applicable to individuals. The fiduciary
3 shall be responsible for making the return of income
4 for the estate or trust for which he acts, whether
5 such income be taxable to the estate or trust or to
6 the beneficiaries thereon.

7 Sec. 5. Section four hundred twenty-two point

24 imposed by this chapter to the extent deducted from
25 gross income in the computation of adjusted gross

3 the armed forces of the United States, as defined
4 in the United States Code, title ten (10), section
5 one hundred one (101), for more than six continuous
6 months, shall not include any income received for
7 such service performed after the effective date of
8 this Act, in computing base income."

9 4. "Subtract an amount equal to all amounts
10 included in adjusted gross income which are exempt
11 from taxation by this state, either by reason of its
12 constitution or by reason of the constitution,
13 treaties, or statutes of the United States."

14 Sec. 7. Section four hundred twenty-two point
15 eight (422.8), unnumbered paragraph one (1) and
16 subsections two (2) and three (3), Code 1971, are
17 amended as follows:

18 422.8 ALLOCATION OF INCOME EARNED IN IOWA AND
19 OTHER STATES. Under rules and regulations prescribed
20 by the director, [net] *base income* of individuals,
21 estates and trusts shall be allocated as follows:

22 2. In the case of nonresident taxpayers, if any

9 Sec. 30. Section four hundred twenty-two point thirty-
10 three (422.33), Code 1971, is amended by striking
11 subsections one (1) and two (2) and inserting in lieu
12 thereof the following new subsections:

13 1. ALLOCATION OF BUSINESS INCOME. If the trade
14 or business of the taxpayer is carried on entirely
15 within the state, the tax shall be imposed on the entire
16 net income. Any taxpayer having income from business
17 activity which is taxable both within and without this
18 state, other than the rendering of purely personal
19 services by an individual, shall allocate and apportion
20 his net income as provided in this section.

21 2. DEFINITIONS. As used in this section, unless
22 the context otherwise requires:

23 a. "Business income" means income arising from
24 transactions and activity in the regular course of the
25 taxpayer's trade or business and includes income from

Page 2

- 1 tangible and intangible property if the acquisition,
- 2 management, and disposition of the property constitute
- 3 integral parts of the taxpayer's regular trade or
- 4 business operations.
- 5 b. "Commercial domicile" means the principal place
- 6 from which the trade or business of the taxpayer is
- 7 directed or managed.
- 8 c. "Compensation" means wages, salaries, commissions,
- 9 and any other form of remuneration paid to employees
- 10 for personal services.
- 11 d. "Nonbusiness income" means all income other than

- 16 f. "State" means any state of the United States,
- 17 the District of Columbia, the Commonwealth of Puerto
- 18 Rico, any territory or possession of the United States,
- 19 and any foreign country or political subdivision thereof.

- 21 and apportionment of income under this chapter, a
- 22 taxpayer is taxable in another state if:
- 23 a. In that state he is subject to a net income tax,
- 24 a franchise tax measured by net income, a franchise
- 25 tax for the privilege of doing business, or a corporate

Page 3

- 1 stock tax; or
- 2 b. That state has jurisdiction to subject the
- 3 taxpayer to a net income tax regardless of whether,
- 4 in fact, the state does or does not.
- 5 4. ALLOCATION OF CERTAIN ITEMS. Rents and royalties
- 6 from real or tangible personal property, capital gains,
- 7 interest, dividends, or patents or copyright royalties,
- 8 to the extent that they constitute nonbusiness income,
- 9 shall be allocated as provided in subsections five (5)
- 10 through eight (8) of this section.
- 11 5. RENTS AND ROYALTIES.
- 12 a. Net rents and royalties from real property located
- 13 in this state are allocable to this state.
- 14 b. Net rents and royalties from tangible personal
- 15 property are allocable to this state:
- 16 (1) If and to the extent that the property is
- 17 utilized in this state; or
- 18 (2) In their entirety if the taxpayer's commercial
- 19 domicile is in this state and the taxpayer is not
- 20 organized under the laws of or taxable in the state
- 21 in which the property is utilized.
- 22 c. The extent of utilization of tangible personal
- 23 property in a state is determined by multiplying the
- 24 rents and royalties by a fraction, the numerator of
- 25 which is the number of days of physical location of

Page 4

1 the property in the state during the rental or royalty
2 period in the taxable year and the denominator of which
3 is the number of days of physical location of the
4 property everywhere during all rental or royalty periods
5 in the taxable year. If the physical location of the
6 property during the rental or royalty period is unknown
7 or unascertainable by the taxpayer tangible personal
8 property is utilized in the state in which the property
9 was located at the time the rental or royalty payer
10 obtained possession.

12 a. Capital gains and losses from sales of real
13 property located in this state are allocable to this
14 state.

2 domicile is in this state.

3 8. PATENTS AND COPYRIGHTS.

4 a. Patent and copyright royalties are allocable
5 to this state:

6 (1) If and to the extent that the patent or copyright
7 is utilized by the taxpayer in this state; or

8 (2) If and to the extent that the patent or copyright
9 is utilized by the taxpayer in a state in which the
10 taxpayer is not taxable and the taxpayer's commercial
11 domicile is in this state.

12 b. A patent is utilized in a state to the extent
13 that it is employed in production, fabrication,
14 manufacturing, or other processing in the state or to
15 the extent that a patented product is produced in the
16 state. If the basis of receipts from patent royalties
17 does not permit allocation to states or if the accounting
18 procedures do not reflect states of utilization, the
19 patent is utilized in the state in which the taxpayer's
20 commercial domicile is located.

21 c. A copyright is utilized in a state to the extent
22 that printing or other publication originates in the
23 state. If the basis of receipts from copyright royalties

14 owned or rented and used during the tax period.

15 11. PROPERTY OWNED AND RENTED. Property owned by
16 the taxpayer is valued at its original cost. Property
17 rented by the taxpayer is valued at eight times the
18 net annual rental rate. Net annual rental rate is the
19 annual rental rate paid by the taxpayer less any annual
20 rental rate received by the taxpayer from subrentals.

21 12. AVERAGE VALUE OF PROPERTY. The average value
22 of property shall be determined by averaging the values
23 at the beginning and ending of the tax period but the
24 director of revenue may require the averaging of monthly
25 values during the tax period if reasonably required

Page 7

1 to reflect properly the average value of the taxpayer's
2 property.

3 13. PAYROLL FACTOR. The payroll factor is a
4 fraction, the numerator of which is the total amount
5 paid in this state during the tax period by the taxpayer
6 for compensation, and the denominator of which is the

22 the service is directly or controlled is not in any
23 state in which some part of the service is performed,
24 but the individual's residence is in this state.

25 15. SALES FACTOR. The sales factor is a fraction,

Page 8

1 the numerator of which is the total sales of the taxpayer
2 in this state during the tax period, and the denominator
3 of which is the total sales of the taxpayer everywhere
4 during the tax period.

5 **16. LOCAL SALES OF TANGIBLE PERSONAL PROPERTY.**

6 Sales of tangible personal property are in this state
7 if:

8 a. The property is delivered or shipped to a
9 purchaser, other than the United States government,
10 within this state regardless of the f.o.b. point or
11 other conditions of the sale; or

12 b. The property is shipped from an office, store,
13 warehouse, factory, or other place of storage in this
14 state and:

15 (1) The purchaser is the United States government;
16 or

17 (2) The taxpayer is not taxable in the state of
18 the purchaser.

19 **17. OTHER SALES.** Sales, other than sales of tangible
20 personal property, are in this state if:

21 (a) The income-producing activity is performed in
22 this state; or

23 (b) The income-producing activity is performed both
24 in and outside this state and a greater proportion of
25 the income-producing activity is performed in this state

Page 9

1 than in any other state, based on costs of performance.

2 **18. ADDITIONAL METHODS OF DETERMINING BUSINESS
SITUS.**

3 If the allocation and apportionment provisions of this
4 section do not fairly represent the extent of the
5 taxpayer's business activity in this state, the taxpayer
6 may petition for or the director of revenue may require,
7 in respect to all or any part of the taxpayer's business
8 activity, if reasonable:

9 (a) Separate accounting except to a unitary business;

10 (b) The exclusion of any one or more of the factors;

11 (c) The inclusion of one or more additional factors

12 which will fairly represent the taxpayer's business
13 activity in this state; or

14 (d) The employment of any other method to effectuate
15 an equitable allocation and apportionment of the
16 taxpayer's income.

1 filed indicating the corrected Iowa income tax liability.
2 If additional Iowa income tax is due, it shall be paid
3 or, if the Iowa income tax is reduced, a refund may

14 sive, and inserting in lieu thereof the following:

15 "Sec. 35. SHORT TITLE. This Division may be cited
16 as the 'Tax Relief Act for Elderly and Totally Disabled
17 Homeowners'.

18 Sec. 36. PURPOSE. The purpose of this Division
19 is to provide relief, through a system of income tax
20 credits and refunds and appropriations from the general
21 fund, to certain persons who own their homestead.

22 Sec. 37. DEFINITIONS. As used in this Division:

23 1. 'Income' means the sum of federal adjusted gross
24 income as defined in the Internal Revenue Code of the
25 United States (1954), the amount of capital gains

Page 2

1 excluded from adjusted gross income, alimony, support
2 money, nontaxable strike benefits, cash public assistance
3 and relief (not including relief granted under this
4 Division), the gross amount of any pension or annuity
5 (including railroad retirement benefits, all payments
6 received under the federal social security act, state
7 unemployment insurance laws, and veteran's disability
8 pensions), nontaxable interest received from the federal
9 government or any of its instrumentalities, workmen's
10 compensation, and the gross amount of 'loss of time'
11 insurance. It does not include gifts from nongovern-
12 mental sources, or surplus foods or other relief in
13 kind supplied by a governmental agency.

14 2. 'Household' means a claimant and spouse.

15 3. 'Household income' means all income received
16 by all persons of a household in a calendar year while
17 members of the household.

18 4. 'Homestead' means the dwelling, owned by the
19 claimant, and so much of the land surrounding it, not
20 exceeding one acre, as is reasonably necessary for use
21 of the dwelling as a home, and may consist of a part
22 of a multi-dwelling or multi-purpose building and a
23 part of the land upon which it is built. ('Owned'
24 includes a vendee in possession under a land contract
25 and of one or more joint tenants or tenants in common.)

Page 3

1 It does not include personal property such as furniture,
2 furnishings or appliances.

3 5. 'Claimant' means a person who is sixty-five years
4 of age or older or is totally disabled and has filed
5 a claim under this Division and was domiciled in this
6 state during the entire calendar year preceding the
7 year in which he files claim for relief under this
8 Division. When two individuals of a household are able
9 to meet the qualifications for a claimant, they may
10 determine between them as to whom the claimant shall
11 be. If they are unable to agree, the matter shall be
12 referred to the director of the department of revenue
13 and his decision shall be final. If a homestead is
14 occupied by two or more individuals, and more than one
15 individual is able to qualify as a claimant, and some
16 or all the qualified individuals are not related, the
17 individuals may determine among them as to whom the
18 claimant shall be. If they are unable to agree, the
19 matter shall be referred to the director of the
20 department of revenue, and his decision shall be final.

21 6. 'Property taxes accrued' means property taxes
22 (exclusive of special assessments, penalties and
23 interest) levied on a claimant's homestead in this state
24 in 1971 or any calendar year thereafter, less any credits
25 allowed under chapter four hundred twenty-five (425)

Page 4

1 of the Code. If a homestead is owned by two or more
2 persons or entities as joint tenants or tenants in com-
3 mon, and one or more persons or entities are not a
4 member of claimant's household, 'property taxes accrued'
5 is that part of property taxes levied on the homestead
6 which reflects the ownership percentage of the claimant
7 and his household. If a claimant and spouse own their
8 homestead part of the preceding calendar year and rent
9 it or a different homestead for part of the same year,
10 'property taxes accrued' means only taxes levied on
11 the homestead when both owned and occupied by the
12 claimant at the time of the levy, multiplied by the
13 percentage of twelve months that such property was owned
14 and occupied by the household as its homestead during
15 the preceding year. When a household owns and occupies
16 two or more different homesteads in this state in the
17 same calendar year, 'property taxes accrued' shall
18 relate only to that property occupied by the household
19 as a homestead on the levy date. If a homestead is
20 an integral part of a larger unit such as a farm, or
21 a multi-purpose or multi-dwelling building, property
22 taxes accrued shall be that percentage of the total
23 property taxes accrued as the value of the homestead
24 is of the total value. For purposes of this subsection
25 'unit' refers to the parcel of property covered by a

Page 5

1 single tax statement of which the homestead is a part.
2 Sec. 38. CLAIM IN PERSONAL. The right to file claim
3 under this Division shall be personal to the claimant
4 and shall not survive his death, but such right may
5 be exercised on behalf of a claimant by his conservator
6 or attorney-in-fact. If a claimant dies after having
7 filed a timely claim, the amount thereof shall be
8 disbursed to another member of the household as
9 determined by the director of the department of revenue.
10 If the claimant was the only member of his household,
11 the claim may be paid to his executor or administrator,
12 but if neither is appointed and qualified within two
13 years of the filing of the claim, the amount of the
14 claim shall escheat to the state.

15 Sec. 39. CLAIM AS INCOME TAX CREDIT OR REBATE.
16 Subject to the limitations provided in this Division,
17 a claimant may claim in any year as a credit against
18 Iowa income taxes otherwise due on his income, property
19 taxes accrued. If the allowable amount of such claim
20 exceeds the income taxes otherwise due on claimant's
21 income, or if there are no Iowa income taxes due on
22 claimant's income, the amount of the claim not used
23 as an offset against income taxes, after certification
24 by the director of the department of revenue, shall
25 be paid to claimant from the general fund. No interest

Page 6

1 shall be allowed on any payment made to a claimant
2 pursuant to this Division.

3 Sec. 40. FILING DATE. A claim shall be filed with
4 the director of revenue no later than April thirtieth
5 of the year property taxes accrued are due and payable.

6 Sec. 41. SATISFACTION OF OUTSTANDING TAX LIABILITIES.
7 The amount of any claim otherwise payable under this
8 Division may be applied by the department of revenue
9 against any debt owing the state of Iowa by the claimant,
10 or his or her spouse who was a member of the claimant's
11 household in the year to which the claim relates.

12 Sec. 42. ONE CLAIM PER HOUSEHOLD. Only one claimant
13 per household per year shall be entitled to relief under
14 this Division.

15 Sec. 43. LIMITS. The amount of any claim pursuant
16 to this Division shall be determined to the nearest
17 dollar amount in accordance with the following schedule:

18	Household	Percent
19	Income Range	of Tax
20	0 - 1,000	(75) percent of property
21		taxes accrued
22	1,001- 2,000	(60) percent of property
23		taxes accrued
24	2,001 - 3,000	(45) percent of property
25		taxes accrued

Page 7

1	3,001 - 4,000	(30) percent of property
2		taxes accrued
3	4,001 - 5,000	(15) percent of property
4		taxes accrued
5	Over 5,000	not eligible

6 Sec. 44. ADMINISTRATION. The director of the
7 department of revenue shall make available suitable
8 forms with instructions for claimants, including a form
9 which may be included with or as a part of the individual
10 income tax blank. The claim shall be in such form as
11 the director of the department of revenue may prescribe.

12 Sec. 45. PROOF OF CLAIM. Every claimant under this
13 Division shall supply to the department of revenue,
14 in support of his claim, a verified statement showing
15 that he was sixty-five years of age or totally disabled
16 on or before the date of filing the claim, property
17 taxes accrued, changes of homestead, household
18 membership, household income, size and nature of property
19 claimed as the homestead and a statement that the
20 property taxes accrued and used for purposes of this
21 Division have been or will be paid by him and that there
22 are no delinquent property taxes on the homestead.
23 All persons living in the household who have attained
24 their majority shall join in the signing and verification
25 of said statement or the claim shall be denied.

Page 8

1 Sec. 46. AUDIT OF CLAIM. If on the audit of any
2 claim filed under this Division the director of the
3 department of revenue determines the amount to have
4 been incorrectly determined, he shall redetermine the
5 claim and notify the claimant of the redetermination
6 and his reasons for it. The redetermination shall be
7 final unless appealed within thirty days of notice to
8 the district court of the county wherein the property
9 was situated on which property taxes accrued or rent
10 constituting property taxes was paid.

11 Sec. 47. DENIAL OF CLAIM. If it is determined that
12 a claim is excessive and was filed with fraudulent
13 intent, the claim shall be disallowed in full, and,
14 if the claim has been paid or a credit has been allowed
15 against income taxes otherwise payable, the credit shall
16 be canceled and the amount paid may be recovered by
17 assessment (as income taxes are assessed), and the
18 assessment shall bear interest from the date of payment
19 or credit of the claim, until refunded or paid, at the
20 rate of one percent per month. The claimant in such
21 case, and any person who assisted in the preparation
22 or filing of such excessive claim or supplied information
23 upon which such excessive claim was prepared, with
24 fraudulent intent, is guilty of a misdemeanor. If it
25 is determined that a claim is excessive and was

Page 9

1 negligently prepared, ten percent of the corrected claim
2 shall be disallowed, and if the claim has been paid
3 or credited against income taxes otherwise payable,
4 the credit shall be reduced or canceled, and the proper
5 portion of any amount paid shall be similarly recovered
6 by assessment as provided in section four hundred twenty-
7 two point thirty (422.30) of the Code, and the assess-
8 ment shall bear interest at one percent per month from
9 the date of payment until refunded or paid.

10 Sec. 48. APPEALS. Any person aggrieved by the
11 denial in whole or in part of relief claimed under this
12 Division, may appeal by filing a petition within thirty
13 days after such denial to the district court as provided
14 in section twelve (12) of this Division.

15 Sec. 49. PUBLIC WELFARE RECIPIENTS EXCLUDED. No
16 claim for relief under this Division shall be allowed
17 to any person who is a recipient of public funds for
18 the payment of the taxes during the period for which
19 the claim is filed.

20 Sec. 50. DISALLOWANCE OF CERTAIN CLAIMS. A claim
21 shall be disallowed, if the department finds that the
22 claimant received title to his homestead primarily for
23 the purpose of receiving benefits under this Division.

24 Sec. 51. EXTENSION OF TIME FOR FILING CLAIMS. In
25 case of sickness, absence, or other disability, or if,

Page 10

1 in his judgment, good cause exists, the director of
2 the department of revenue may extend for a period not
3 to exceed six months the time for filing a claim."

4 Sec. 52. Section four hundred twenty-five point
5 one (425.1), Code 1971, is amended by striking subsec-
6 tion five (5).

7 6. Renumber sections and correct internal references

15 b. In any case where an incorporated city or town
16 has been incorporated since the latest available

1 Amend the Senate committee on ways and means amend-
2 ment to House File 654, as amended, passed, and re-
3 printed by the House, filed May 13, 1971, commencing
4 on page 1258 of the Senate Journal, as follows:

5 1. Page 28, by striking lines 1 through 25, inclu-
6 sive, and inserting in lieu thereof the following:

7 Sec. 35. DEFINITIONS. For the purposes of this
8 Division, unless the context otherwise requires:

9 1. "Income" means the net income as defined in sec-
10 tion four hundred twenty-two point seven (422.7) of
11 the Code of the person claiming the credit, plus the
12 amount of capital gains excluded from the adjusted gross
13 income, interest and dividends from federal securities,
14 social security benefits, and income from other tax-
15 exempt retirement or pension plans and includes any
16 income of the spouse, brother, sister, son, and daughter

18 person claiming the credit.

22 part of a multi-dwelling which is owned or rented and
23 in which the person claiming the credit actually resides
24 and a mobile home which is owned or rented by the person
25 claiming the credit and in which the person claiming

Page 2

1 the credit actually resides.

2 3. "Property taxes accrued" means property taxes
3 levied on the homestead in the preceding year, exclusive
4 of special assessments, delinquent interest and charges,

5 and collectible during the same year in which the credit
6 is claimed.

7 4. "Gross rent" means rental paid solely for the
8 right of occupancy of a homestead, exclusive of charges
9 for any utilities, services, furnishings, or personal
10 property appliances furnished by the landlord as a part
11 of the rental agreement.

12 5. "Rent constituting property taxes accrued" means
13 twenty percent of the gross rent actually paid on the
14 homestead during the preceding calendar year by the
15 person claiming the credit.

16 Sec. 36. CLAIM FOR PROPERTY TAXES ACCRUED. Any
17 person sixty-five years of age or older or totally
18 disabled shall be entitled to a credit against his state
19 income taxes for property taxes accrued based upon his
20 income. The amount of any credit shall be computed
21 in accordance with the following table:

22	He shall be entitled to a
23	credit against his state
24	income taxes equal to the
25	amount by which the prop-

Page 3

1	erty taxes accrued on his	
2	homestead exceeds the fol-	
3	lowing percentage of his	
4	income:	
5	Less than \$1,000	2%
6	\$1,000 or over and less than \$2,000	3%
7	\$2,000 or over and less than \$3,000	4%
8	\$3,000 or over and less than \$4,000	5%
9	\$4,000 or over and less than \$5,000	6%

10 Any person sixty-five years of age or older or to-
11 tally disabled with an income of five thousand dollars
12 or more shall receive no credit against his income taxes
13 for property taxes accrued.

14 When a homestead is owned by two or more persons
15 as joint tenants or tenants in common and one or more
16 of these persons does not reside in the homestead, the
17 property tax is the same proportion of the property
18 tax levied as the proportion of ownership of the home-
19 stead by the person claiming the credit.

20 When a person owns his homestead for part of the
21 preceding year and rents it or a different homestead
22 for a part of that year, property tax means only the
23 property tax on the homestead multiplied by the
24 percentage of twelve months that the property was owned
25 and occupied by the person claiming the credit.

Page 4

1 In no event shall the credit exceed the amount of
2 the property tax accrued.

3 Sec. 37. CLAIM FOR RENT CONSTITUTING PROPERTY TAXES
4 ACCRUED. Any person who is not eligible for the credit
5 provided in section thirty-six (36) of this Division

6 and who is sixty-five years of age or older or is totally
7 disabled shall be entitled to a credit against his state
8 income taxes for rent constituting property taxes ac-
9 crued based upon his income. The amount of any credit
10 shall be computed in accordance with the following table:

11 He shall be entitled to
12 a credit against his state
13 income taxes equal to the
14 amount by which the rent
15 constituting property taxes
16 accrued on his homestead
17 exceeds the following per-
18 centage of his income:

19 Less than \$1,000	2%
20 \$1,000 or over and less than \$2,000	3%
21 \$2,000 or over and less than \$3,000	4%
22 \$3,000 or over and less than \$4,000	5%
23 \$4,000 or over and less than \$5,000	6%

24 Any person sixty-five years of age or older or to-
25 tally disabled with an income of five thousand dollars

Page 5

1 or more shall receive no credit against his income taxes
2 for rent constituting property taxes accrued.

3 If a claim is based on rent constituting property
4 taxes accrued, the person filing the claim shall have
5 rented property during the entire preceding calendar
6 year for which he has filed a claim.

DIVISION 1

6 Section 1. STATE SCHOOL FOUNDATION PROGRAM. This
7 Act establishes a state school foundation program.

8 Each school district in the state is entitled to receive
9 during each school year as state school foundation aid,
10 an amount per pupil in fall enrollment equal to the
11 amount by which the state foundation base for that
12 school year exceeds the amount per pupil in fall
13 enrollment in the district which will be raised by the
14 foundation property tax to be levied in the district
15 during that school year.

16 Sec. 2. STATE FOUNDATION BASE. The state founda-
17 tion base is approximately eighty percent of the state
18 average general fund per pupil expenditure and is

19 determined as follows:

- 20 1. Eighty percent of the state average per pupil
21 expenditure for the school year beginning July 1, 1969,
22 is determined to be six hundred forty dollars.
23 2. Prior to July first each year commencing in 1972,
24 the state comptroller shall compute a percentage growth
25 factor for the following school year. In 1972 he shall

Page 2

- 1 also compute the percentage growth factors for the
2 school years beginning July 1, 1970, and July 1, 1971.
3 To compute the percentage growth factor for each school
4 year, the state comptroller shall determine the percent
5 of increase or decrease in revenue computed on a state-
6 wide basis, for the total of the state sales and use
7 taxes and the individual and corporate income taxes;
8 and the percent of increase or decrease in the assessed
9 valuation of taxable property; both percentages to be
10 determined for each year of the last three preceding
11 calendar years for which accurate figures are available.
12 The sum of the percentages obtained shall be divided
13 by six to arrive at the percentage growth factor for
14 the following school fiscal year. If there is a decrease
15 in state revenue or assessed valuation, there may be
16 a negative growth factor. In making computations, the
17 comptroller shall adjust for changes in rates or basis
18 of the sales and use or income taxes and for statewide
19 changes in assessment practices.
20 3. For the school year beginning July 1, 1970, the
21 state comptroller shall multiply six hundred forty
22 dollars by the applicable percentage growth factor,
23 and add the product to six hundred forty dollars to
24 determine the state foundation base for that year.
25 4. For the school year beginning July 1, 1971, the

Page 3

- 1 state comptroller shall multiply the state foundation
2 base for the school year beginning July 1, 1970, by
3 the applicable percentage growth factor, and add the
4 product to the state foundation base for the school
5 year beginning July 1, 1970, to determine the state
6 foundation base for the school year beginning July 1,
7 1971.
8 5. For each subsequent school year, the state
9 comptroller shall multiply the current state founda-
10 tion base by the applicable percentage growth factor,
11 and add the product to the current state foundation
12 base, to determine the state foundation base for the
13 subsequent year.
14 Sec. 3. FOUNDATION PROPERTY TAX. Each school dis-
15 trict shall cause to be levied each year beginning in
16 1972 for the school general fund a foundation property
17 tax of twenty mills per dollar of assessed valuation
18 on all taxable property in the district. However, a
19 school district which can meet its general fund budget

20 by a levy of less than twenty mills per dollar of as-
21 sessed valuation on all taxable property in the dis-
22 trict, shall levy only the lesser amount needed. Each
23 county auditor shall certify to each school district
24 within the county and to the state comptroller not later
25 than June first each year the assessed valuation of

Page 4

1 taxable property in each school district within the
2 county.
3 Sec. 4. GENERAL FUND BUDGET. Subject to limitations
4 imposed by the school budget review committee or by
5 state law, the general fund budget of a school dis-
6 trict shall be determined as follows:
7 1. Determine estimated general fund expenditures
8 exclusive of gifts, and federal grants and aids, except
9 federal aids paid in anticipation of or reimbursement
10 for expenses caused by a federal activity in or near
11 a school district which would otherwise need to be paid
12 from local sources, by adding together the estimated
13 amounts to be expended for the school year, for
14 administration, instruction, attendance services, health
15 services, pupil transportation services, fixed charges,
16 operation and maintenance, community services, capital
17 outlay, debt service, and tuition paid other districts.
18 The cost of food services and student body activities
19 shall not be included in general fund costs.
20 2. From the total of the sums determined under
21 subsection one (1) of this section deduct the follow-
22 ing:
23 a. Estimated receipts from state appropriations
24 for handicapped children aid, vocational aid, driver
25 education aid, and junior college aid.

Page 5

1 b. Estimated general fund receipts from the fol-
2 lowing: Tuition paid by individuals or by the state;
3 transportation; services; rents; income on investment
4 securities; other general fund revenue receipts; gen-
5 eral fund nonrevenue receipts; and transfers to the
6 general fund other than those resulting from clearing
7 **accounts, reorganization and the return of principal**
8 of invested securities.
9 c. An estimate of the total amount determined on
10 the per pupil cost basis for children transported who
11 live within statutory walking distance from school.
12 Sec. 5. FALL ENROLLMENT. Fall enrollment shall
13 be determined by adding the resident pupils who are
14 enrolled on the second Friday of September of each year
15 in public elementary and secondary schools of the
16 district, and in special education schools for which
17 tuition is paid by the district whether the special
18 education school is conducted by a county board of
19 education or another school district.
20 Each school district shall certify its fall enroll-

21 ment to the state department of public instruction by
22 September twenty-fifth of each year, and the informa-
23 tion shall be promptly forwarded to the state comp-
24 troller.

25 Sec. 6. PAYMENT OF STATE SCHOOL FOUNDATION AID.

Page 6

1 Prior to July first each year beginning in 1972, the
2 department of public instruction shall certify to the
3 state comptroller each school district's estimated fall
4 enrollment, and other information necessary for
5 computation of state school foundation aid. The state
6 comptroller shall compute the estimated amount of state
7 school foundation aid to be paid to each school district,
8 and certify the amount to each school district for use
9 in preparing budgets. He shall compute the actual
10 amount and draw warrants in payment of the state school
11 foundation aid in three approximately equal installments
12 to be paid on approximately the first day of November,
13 February, and May of each school year.

14 Sec. 7. LOCAL BUSINESS PRIVILEGE TAX ON INDUSTRIAL
15 AND UTILITY PROPERTY. A local business privilege tax
16 on industries and utilities, measured by the value of
17 industrial and utility property, is hereby imposed,
18 to be determined each year by the state comptroller
19 as follows:

20 1. Determine for each school district the amount
21 needed to meet its general fund budget, after subtract-
22 ing the amounts which will be received by the district
23 from the school foundation property tax levied that
24 year, and from state school foundation aid for that
25 year.

Page 7

1 2. Add together the amounts determined under sub-
2 section one (1) of this section, for each school dis-
3 trict within a county school system.

4 3. Determine the millage rate necessary for each
5 county system, to raise the sum obtained under sub-
6 section two (2) of this section, if spread at a uni-
7 form rate over all taxable property within the county
8 school system, and certify the rates to each county
9 auditor.

10 4. The local business privilege tax due from each
11 industry and utility with property within the county
12 is determined by applying the millage rate determined
13 under subsection three (3) of this section to the as-
14 sessed valuation of taxable property of the industry
15 or utility within the county.

16 Sec. 8. COUNTY LEVY AND DISTRIBUTION. The county
17 board of supervisors shall impose the local business
18 privilege tax on all industries and utilities having
19 property within the county, by applying the rate de-
20 termined by the comptroller under section seven (7)
21 of this Act against all industrial and utility property
22 in the county. In the case of joint districts the tax
23 shall be apportioned in the same manner as previously

24 employed for the purpose of making school property tax
25 levies in such circumstances. The local business

Page 8

1 privilege tax on industries and utilities shall be im-
2 posed and collected in the same manner as property taxes
3 are levied and collected, and is subject to all laws
4 relating to general property taxes.

5 As used in this Act, "industrial property" means
6 property assessed under the provisions of sections four
7 hundred twenty-eight point twenty (428.20) through four
8 hundred twenty-eight point twenty-three (428.23),
9 inclusive, of the Code, and "utility property" means
10 property assessed by the director of revenue under the
11 provisions of sections four hundred twenty-eight point
12 twenty-four (428.24) through four hundred twenty-eight
13 point twenty-nine (428.29), inclusive, and chapters
14 four hundred thirty-three (433) through four hundred
15 forty (440), inclusive, of the Code.

16 On the tenth day of the month following the month
17 of collection, the county treasurer shall distribute
18 the moneys received from the business privilege tax
19 on industries and utilities to each school district
20 within the county school system on a per pupil basis
21 determined by dividing the amount of moneys received
22 by the total fall enrollment in the county.

23 Sec. 9. ADDITIONAL SCHOOL DISTRICT PROPERTY TAX
24 AND INCOME TAX—OTHER THAN INDUSTRIAL AND UTILITY
25 PROPERTY. The state comptroller shall determine the

Page 9

1 remaining additional school district property tax and
2 the school district income tax for each school dis-
3 trict in the state for each school year as follows:

4 1. Determine the total amount needed for the school
5 district's general fund budget for the 1970-1971 school
6 year, and subtract from that amount the receipts that
7 would have been brought in by the school foundation
8 property tax, the state school foundation aid, the local
9 business privilege tax on industries and utilities,
10 and all other receipts that would have been anticipated
11 except the additional school district property tax on
12 other than industrial and utility property and the
13 school district income tax provided in this section.
14 2. Determine the total assessed valuation of tax-
15 able property in the school district for the 1970
16 calendar year, the total Iowa net income as defined
17 in section four hundred twenty-two point seven (422.7)
18 of the Code, and the total amount of state individual
19 income tax, both as shown on the tax returns of in-
20 dividuals residing in the school district on December
21 31, 1969, or on the last day of their fiscal year end-
22 ing within 1969 and included in the department of revenue
23 1969 income tax annual statistical report. The director
24 of revenue shall certify these amounts to the state
25 comptroller on or before June 1, 1971.

Page 10

1 3. Add the total amounts of Iowa net income in a
2 district and the total assessed valuation of taxable
3 property in a district as determined in subsection two
4 (2) of this section, and divide the sum into the amount
5 obtained in subsection one (1) of this section. The
6 quotient is the surtax base rate. The base rate
7 multiplied by the total amount of Iowa net income and
8 the product divided by the total amount of state
9 individual income tax for the district as determined
10 in subsection two (2) of this section is the rate of
11 school district income tax and is hereby imposed as
12 a surtax on the amount of state individual income tax
13 paid on 1971 incomes for the 1972-1973 school year and
14 on state individual income tax paid on 1972 incomes
15 for the 1973-1974 school year. The surtax is imposed
16 on the state income tax paid for the calendar year or
17 a taxpayer's fiscal year ending within the calendar
18 year, by individuals residing in the school district
19 on December thirty-first of that calendar year or on
20 the last day of their fiscal year. The surtax on 1973
21 incomes for the 1974-1975 school year and every
22 succeeding school year, and the additional school
23 district property tax on other than industrial and
24 utility property for the 1972-1973 school year and every
25 succeeding school year shall be determined by the state

Page 11

1 comptroller in the manner provided in subsection four
2 (4) of this section.
3 4. a. Determine the total amount needed for the
4 school district's general fund budget for the current
5 year and subtract anticipated receipts from all sources
6 except the additional school district property tax on
7 other than industrial and utility property and the
8 school district income tax.
9 b. Determine the total assessed valuation of tax-
10 able property in the school district for the current
11 calendar year, and the total amount of Iowa net income,
12 state individual income tax, and school district in-
13 come tax as shown on the returns of individuals resid-
14 ing in the school district on December thirty-first
15 of the last preceding calendar year or on the last day
16 of their fiscal year ending within the last preceding
17 calendar year. The director of revenue shall report
18 these amounts to the state comptroller as estimates
19 in time for school budget preparation, and as actual
20 amounts according to the figures available on October
21 twentieth each year, to permit final computation and
22 certification of taxes.
23 c. Subtract the school district income tax from
24 the amount obtained in paragraph a of this subsection
25 and divide the result by the total assessed valuation

Page 12

1 of taxable property for the current calendar year.
2 The quotient is the surtax and millage base rate. The
3 base rate multiplied by one thousand is the millage
4 rate to be certified and levied on the assessed valua-
5 tion of taxable property in the district, other than
6 industrial and utility property, in addition to the
7 school foundation property tax, for school general fund
8 purposes for the current school year. Beginning in
9 1973, the base rate multiplied by the total amount of
10 Iowa net income and the product divided by the total
11 amount of state individual income tax is the rate of
12 school district income tax and is hereby imposed as
13 a surtax on the amount of state individual income tax
14 paid for the current calendar year during which the
15 determination is made or a taxpayer's fiscal year ending
16 within that calendar year, by individuals residing in
17 the school district on December thirty-first of that
18 calendar year or on the last day of their fiscal year.

19 **Sec. 10. FORM AND TIME OF RETURN.** The school
20 district income tax return shall be a part of the Iowa
21 individual income tax return subject to the conditions
22 and restrictions set forth in section four hundred
23 twenty-two point twenty-one (422.21) of the Code.

24 **Sec. 11. DEPOSIT OF SCHOOL DISTRICT INCOME TAX.**
25 The director of revenue shall deposit all moneys received

Page 13

1 as school district income tax to the credit of each
2 district from which the moneys are received, in a "school
3 district income tax fund" which is established in the
4 office of the treasurer of state.

5 **Sec. 12. SCHOOL DISTRICT INCOME TAX CERTIFICATION.**

6 On or before October 20, 1972, and each year thereafter
7 the director of revenue shall make an accounting of
8 the school district income tax collected under this
9 Act applicable to tax returns for the last preceding
10 calendar year or a taxpayer's fiscal year ending within
11 that calendar year, from taxpayers in each of the various
12 school districts in the state and certify to the state
13 comptroller and the state department of public
14 instruction the amount of total school district income
15 tax credited from the taxpayers of each school district.
16 Additional returns in process, if any, at the time of
17 certification shall be completed and the additional
18 amount of school district income tax reported to the
19 state comptroller for distribution back to the school
20 district with the February first installment.

21 **Sec. 13. SCHOOL DISTRICT INCOME TAX DISTRIBUTION.**
22 The state comptroller shall certify to the state
23 department of public instruction the amount of school
24 district income tax payable to each school district,
25 and the state comptroller shall draw warrants in payment

Page 14

1 of the amount of tax payable to each of the school
2 districts in two installments to be paid on approximately
3 the first day of December and the first day of February,
4 and cause the same to be delivered to the respective
5 school districts.

6 Sec. 14. DEPOSIT IN GENERAL FUND. All amounts
7 received by a school district under the provisions of
8 sections one (1) through thirteen (13), inclusive,
9 of this Act shall be deposited in the school general
10 fund, and may be used for any school general fund
11 purpose.

12 Sec. 15. WITHHOLDING OF SCHOOL DISTRICT INCOME TAX
13 AT SOURCE. The director of revenue shall provide by
14 rule for the withholding of revenues which may be due,
15 based upon the school district income tax imposed under
16 section nine (9) of this Act. The school district tax
17 withholding shall begin July 1, 1971, and the rate
18 withheld for the period beginning July 1, 1971, and
19 ending December 31, 1971, shall be based upon the
20 approximate average of all the school district income
21 tax rates imposed by all school districts in the state
22 on incomes earned in 1971, or in a taxpayer's tax year
23 ending during 1971. The school district tax withholding
24 rate for each subsequent calendar year beginning January
25 1, 1972, shall be based upon the average of all the

Page 15

1 school district income tax rates imposed by all school
2 districts in the state on incomes earned in the last
3 preceding calendar year, or in a taxpayer's tax year
4 ending during that calendar year. The director of
5 revenue shall determine the annual rate based upon the
6 average of the most recent school district income tax
7 rate figures available to him at the time of
8 determination.

9 Every withholding agent as defined in section four
10 hundred twenty-two point sixteen (422.16), subsection
11 one (1), of the Code, making payment of wages as defined
12 in section four hundred twenty-two point sixteen (422.16)
13 of the Code to a resident employee or employees shall
14 deduct and withhold from the wages an amount which will
15 approximate the employee's annual school district income
16 tax liability if computed according to the average as
17 provided in this section on a calendar year basis,
18 calculated on the basis of tables to be prepared by
19 the department of revenue, and schedules or percentage
20 rates based on the wages, to be prescribed by the
21 department.

22 All requirements, restrictions, and penalties imposed
23 on withholding agents under section four hundred twenty-
24 two point sixteen (422.16) of the Code are applicable
25 to withholding agents under the provisions of this

Page 16

1 section.

2 Sec. 16. STATUTES APPLICABLE. The director of
3 revenue shall administer the school district income
4 tax, and the school district withholding tax, and all
5 the provisions of sections four hundred twenty-two point
6 twenty-two (422.22) through four hundred twenty-two
7 point thirty-one (422.31), inclusive, and four hundred
8 twenty-two point seventy-three (422.73) of the Code,
9 including interest and penalties, shall apply in respect
10 to administration of the school district tax.

11 Sec. 17. SCHOOL BUDGET REVIEW COMMITTEE. A school
12 budget review committee is established, which consists
13 of the superintendent of public instruction, the state
14 comptroller, and three members appointed by the governor
15 to represent the public and to serve three-year staggered
16 terms. Those serving immediately prior to the effective
17 date of this Act as public members of the school budget
18 review committee established under prior law shall
19 continue to serve out their unexpired terms. The
20 superintendent of public instruction and the state
21 comptroller may each appoint a member of their staffs
22 to serve as their regular representative on the
23 committee. The school budget review committee shall
24 meet and hold hearings each year in Des Moines in May,
25 and shall continue in session until it has reviewed

Page 17

1 budgets of school districts, as provided in section
2 eighteen (18) of this Act. It may call in school board
3 members and employees as necessary for the hearings.
4 Legislators shall be notified of hearings concerning
5 school districts in their constituencies.

6 The committee shall adopt its own rules of procedure.
7 The superintendent of public instruction or his
8 representative shall serve as chairman, and the state
9 comptroller or his representative shall serve as
10 secretary. The committee members representing the
11 public are entitled to receive a per diem equal to the
12 per diem of members of the board of public instruction,
13 and their necessary travel and other expenses while
14 engaged in their official duties. Expense payments
15 shall be made from appropriations to the department
16 of public instruction.

17 Sec. 18. DUTIES OF COMMITTEE. The school budget
18 review committee may recommend to the state board of
19 public instruction the revision of any rules,
20 regulations, directives, or forms relating to school
21 district budgeting and accounting, confer with local
22 school boards or their representatives and make
23 recommendations relating to any budgeting or accounting
24 matters, and may direct the superintendent of public
25 instruction or the state comptroller to make studies

Page 18

1 and investigations of school costs in any school district
2 whose budget has been submitted to the committee. The
3 committee shall report to each session of the general
4 assembly, which report shall include any recommended
5 changes in laws relating to school districts, and shall
6 set out the number of hearings held pursuant to this
7 Act, the reasons for any authorized increases in school
8 costs, and other information as the committee deems
9 advisable.

10 The school budget review committee may review the
11 budgets of any school district as follows:

12 1. If the budget shows general fund expenditures

14 the same to the county board of supervisors which shall
15 then order paid from the county poor fund a sum
16 representing the county's share thereof determined in
17 the manner heretofore provided, which payment shall
18 be credited to the fund for aid to the blind.

19 Any unexpended balance of the funds appropriated
20 or allocated by the state which remains in the fund
21 for aid to the blind at the end of each biennium shall
22 not revert to the general fund of the state, any law

2 The county board of supervisors in each county of this
3 state shall appropriate annually [and pay in the manner
4 hereinafter specified] from the county poor fund, such
5 sum as shall result in the payment by such county of
6 that portion of all assistance and benefits, payable
7 with respect to disabled persons chargeable to the
8 county under this chapter, which shall [equal] *not exceed*
9 one-half of all [such] assistance and benefits chargeable

14 and shall include in the tax levy for such county, the
15 sum or sums so appropriated, for that purpose. The
16 sums necessary, as above provided, shall be originally
17 determined upon the basis of an annual budget prepared
18 by the county board. [Should the sum so appropriated,
19 however, be expended or exhausted during the year for
20 which it was appropriated, such additional sum shall
21 be appropriated by the board of supervisors from the
22 county poor fund, as shall be sufficient to meet the
23 obligation of the county to pay its share, as heretofore
24 provided, of all assistance and benefits with respect
25 to disabled persons chargeable to the county.] The

Page 41

1 appropriation provided for in this section shall not
2 exceed the statutory tax limitations now or hereinafter
3 provided[, except that in counties having a population
4 of sixty thousand or more, the board of supervisors
5 may levy annually an additional tax not to exceed one
6 fourth mill to carry out the provisions of this chapter,
7 and in counties having a population of over thirty-five
8 thousand and less than sixty thousand, the board of
9 supervisors may levy annually an additional tax not
10 to exceed one-eighth mill to carry out the provision
11 of this chapter]. Funds appropriated under this section
12 shall be used exclusively for the purpose stated above.

13 The share of any county for assistance and benefits
14 payable to the dependent Indian who is disabled, and
15 living on an Indian reservation in said county, shall
16 be paid by the state from the fund for the disabled.

17 Sec. 39. Section two hundred forty-one A point
18 fourteen (241A.14), Code 1971, is amended as follows:

19 241A.14 DISABLED AID FUND. There is hereby
20 established in the state treasury a fund to be known
21 as the "Fund for Aid to the Disabled" to which shall
22 be credited all funds appropriated by the state for
23 the payment of administration expenses, assistance and
24 benefits under this chapter, all moneys received from
25 the federal government for such purposes, and all funds

Page 42

1 paid by the counties to the state director as provided
2 by [this chapter] section 252.43. All assistance, benefits,
3 and administration expense shall be paid from said fund
4 by the state director. The state division shall report
5 to the county board each month the total amount of
6 assistance and benefits paid during the preceding month
7 with respect to recipients chargeable to the county.
8 The county board shall promptly report the same to the
9 county board of supervisors which shall then order paid
10 to the state director from the county poor fund, a sum
11 representing the county's share thereof, determined

12 in the manner heretofore provided, which payment shall
13 be credited to the fund for the disabled.
14 Sec. 40. Section two hundred fifty-two point forty-
15 three (252.43), Code 1971, is amended by striking the
16 section and inserting in lieu thereof the following:
17 252.43 POOR TAX. The expense of supporting the
18 poor shall be paid out of the county treasury in the
19 same manner as other disbursements for county purposes,
20 and in case the ordinary revenue of the county proves
21 insufficient for the support of the poor, the board
22 may levy a poor tax, not to exceed one and one-half
23 mills, to be entered on the tax list and collected as
24 the ordinary county tax.
25 Of the one and one-half mill levy, an amount in

Page 43

1 dollars not to exceed the amount raised by a one mill
2 levy shall be expended for the county's share of support
3 for aid to the disabled, aid to the blind, and aid to
4 dependent children. However, if the amount in dollars
5 equal to the amount raised by a one mill levy is more
6 than sufficient to pay the county share of aid to the
7 disabled, aid to the blind, and aid to dependent
8 children, the county shall pay only an amount in dollars
9 equal to the amount raised by a one mill levy for its
10 share of aid to the disabled, aid to the blind, and
11 aid to dependent children.

12 If the amount in dollars equal to the amount raised
13 by a one mill levy is insufficient to pay the county's
14 share of aid to the disabled, aid to the blind, and
15 aid to dependent children, the county shall pay each
16 month to the director of social welfare, the amount
17 in dollars equal to the amount raised by a one mill
18 levy for the county's share of aid to the disabled,
19 aid to the blind, and aid to dependent children. When
20 a county has paid to the director of social welfare
21 an amount in dollars equal to the amount raised by a
22 one mill levy, the board of supervisors shall give
23 written notice of such fact to the director of social
24 welfare and the state shall assume the liability of
25 the county for the remainder of the year.

Page 44

1 Should the one and one-half mill levy fail to provide
2 adequate funds to take care of the poor, then the board
3 of supervisors, with the approval of the state
4 comptroller, shall levy an additional tax of not to
5 exceed two mills, to be entered on the tax list and
6 collected as the ordinary county tax. Before any
7 additional levy is made, a showing of necessity for
8 the additional levy shall be made to the state
9 comptroller and no additional levy shall be made unless
10 it shall be approved in writing by the comptroller.
11 No moneys received from the levy of an additional two
12 mills shall be expended for aid to the disabled, aid

13 to the blind, or aid to dependent children.

14 The expense of support for the poor for Indians
15 residing on a reservation in this state shall be paid
16 from funds of the state division of child and family
17 services of the department of social services. To
18 administer such support for Indians residing on a
19 reservation, such state division shall have the powers
20 and duties assigned to county officials by this chapter,
21 or the state division or director of same may designate
22 the director of social welfare in the county where such
23 Indians reside to administer such relief.

Page 45

1 forty (40) through fifty-three (53), inclusive, of this
2 Act, unless the context otherwise requires:

6 shall audit each claim and if the director of revenue
7 determines that the amount of the credit has been
8 incorrectly determined, he shall redetermine the claim
9 and give notice, in writing, to the person filing the
10 claim of the redetermination and his reasons for it.

Division 1

1 Amend the Senate committee on ways and means amendment
2 to House File 654, as amended, passed, and reprinted
3 by the House, filed May 13, 1971, commencing on page
4 1258 of the Journal of the Senate, as follows:

5 1. Page 1, strike lines 6 through 25, inclusive,
6 strike all of pages 2 through 14, inclusive, and strike
7 lines 1 through 21 of page 15, and insert in lieu thereof
8 the following:

9 Section 1. STATE SCHOOL FOUNDATION PROGRAM. This
10 division establishes a state school foundation program.

11 Each school district in the state is entitled to receive
12 state school foundation aid, which shall be an amount
13 per pupil in fall enrollment equal to the difference
14 between the per pupil amount of foundation property
15 tax plus miscellaneous income in the district, and the
16 state foundation base.

17 Sec. 2. STATE FOUNDATION BASE. The state foundation
18 base for school years beginning after July 1, 1972,
19 shall be as follows:

20 1. For the school year beginning July 1, 1972,
21 seventy percent of the state cost per pupil.

22 2. For the school year beginning July 1, 1973,
23 seventy-five percent of the state cost per pupil.

24 3. For the school year beginning July 1, 1974, and
25 all subsequent school years, eighty percent of the

Page 2

1 state cost per pupil.

2 Sec. 3. STATE COST PER PUPIL. The state cost per
3 pupil for the school year beginning July 1, 1971, shall
4 be nine hundred twenty dollars. The state cost per
5 pupil for the school year beginning on July 1, 1972,
6 and for each succeeding school year shall be the previous
7 year's state cost per pupil plus the dollar equivalent
8 of the state percent of allowable growth, but this
9 dollar equivalent is limited to a maximum amount of
10 forty-six dollars for the school year beginning on July
11 1, 1972, forty-eight dollars for the school year
12 beginning on July 1, 1973, and fifty-one dollars for
13 the school year beginning on July 1, 1974.

14 The state percent of allowable growth is the percent
15 of increase in state revenues, including the sales and
16 use taxes and the individual and corporate income taxes,
17 and the percent of increase in assessed valuation of
18 taxable property in the state, for each year of the
19 last three years. The sum of the individual percen-
20 tages thus obtained shall be divided by six to arrive
21 at the percent of allowable growth for the state. In
22 making such computations the comptroller shall adjust
23 for changes in rates or basis of the income tax or
24 sales and use tax and for statewide changes in assess-
25 ment practices. He shall thereupon certify the percent

Page 3

1 of allowable growth per pupil to the school districts
2 of the state on or before February fifteenth of each
3 year. For the purpose of this computation, "year" means
4 calendar year.

5 If the percent of allowable growth of the state is
6 less than zero, the state cost per student shall be
7 the same as the previous year's state cost per student.

8 Sec. 4. FOUNDATION PROPERTY TAX. The maximum state
9 foundation property tax levy, which shall be levied
10 by every school district in the state except as otherwise
11 provided in this division, shall be:

12 1. For the school year beginning July 1, 1972, and
13 for the school year beginning July 1, 1973, twenty-seven
14 and one-half mills per dollar of assessed valuation
15 on all taxable property in the district as of January
16 1, 1972, and as of January 1, 1973, respectively.

17 2. For the school year beginning July 1, 1974, and
18 all subsequent school years, thirty mills per dollar
19 of assessed valuation on all taxable property in the
20 district as of January 1, 1974, and on each subsequent
21 January thereafter.

22 If a school district can meet its general fund budget
23 or the state foundation base by a levy on the assessed
24 valuation on all taxable property in the district less
25 than specified in this section, it shall levy only the

Page 4

1 lesser amount needed.

2 No later than December first of each year the state
3 comptroller shall notify the county auditor of each
4 county the amount, both in dollars and mills, of the
5 foundation property tax levy. The county auditor or
6 auditors shall spread the foundation property tax over
7 all the taxable property in the school district.

8 Sec. 5. FALL ENROLLMENT. Fall enrollment shall
9 be determined by adding the resident pupils who are
10 enrolled on the second Friday of September of each year
11 in public elementary and secondary schools of the
12 district, and in special education schools for which
13 tuition is paid by the district whether the special
14 education school is conducted by a county board of
15 education or another school district. Shared-time
16 pupils shall be counted on the basis of number of hours
17 of instruction in a public school proportionate to a
18 full-time pupil enrolled in the district. Each school
19 district shall certify to the state department of public
20 instruction by September twenty-fifth of each year the
21 fall enrollment in the school district, and the fall
22 enrollment information shall be promptly forwarded to
23 the state comptroller.

24 Sec. 6. ADDITIONAL SCHOOL DISTRICT PROPERTY TAX
25 LEVY. The state comptroller shall determine the addi-

Page 5

1 tional school district property tax levy, which is in
2 addition to the foundation tax levy, as follows:

- 3 1. The district cost per student for the current
4 school year ending June thirtieth each year, plus the
5 state percent of allowable growth in dollars limited
6 to the maximum amounts defined in section three (3)
7 of this division, determines the district cost per pupil
8 for the school year beginning July first each year.
- 9 2. The district cost per student multiplied by the
10 estimated fall enrollment for the school year beginning
11 July first each year, determines the maximum general
12 fund budget for the district, unless the school budget
13 review committee authorizes an increase as provided
14 in section thirteen (13) of this division.
- 15 3. The state foundation base multiplied by the
16 number of pupils in fall enrollment, and the product
17 subtracted from the general fund budget of the district
18 for the school year beginning July first each year,
19 determines the amount to be raised by the additional
20 school district property tax levy.
- 21 No later than December first of each year, the state
22 comptroller shall notify the county auditor of each
23 county the amount, both in dollars and mills, of the
24 additional property tax levy. Each county auditor shall
25 spread the additional property tax levy over all taxable

Page 6

- 1 property in the school district.
- 2 Sec. 7. MAXIMUM MILLAGE LEVY. For the purpose of
3 determining the maximum millage levy in a school dis-
4 trict, the state comptroller shall determine the sum
5 of the foundation property tax levy and the additional
6 property tax levy, in mills. When this total millage
7 rate exceeds the district general fund levy in mills
8 for the school year which began July 1, 1970, he shall
9 adjust the district general fund millage levy to a rate
10 equal to the millage levy for the school year beginning
11 July 1, 1970, unless the additional millage is approved
12 by the school budget review committee or by the voters
13 as provided in section eleven (11) of this division.
- 14 Sec. 8. GUARANTEED STATE AID. For the school year
15 beginning July 1, 1972, and for that year only, the
16 state will provide specific funds, called guaranteed
17 state aid, to any school district to insure that its
18 total general fund millage excluding the millage that
19 could be raised under section eleven (11) of this division
20 will not exceed that of the school year beginning July
21 1, 1970.
- 22 There is hereby appropriated from the general fund
23 of the state to the department of public instruction
24 funds sufficient to pay the guaranteed state aid. The
25 state comptroller shall pay this aid no later than May

Page 7

- 1 15, 1973.
- 2 Sec. 9. MISCELLANEOUS INCOME. Miscellaneous income
3 is all revenues of a school district general fund budget,

4 exclusive of the state foundation property tax, the
5 state foundation aid, guaranteed state aid, and the
6 additional school district property tax levy.
7 Sec. 10. SCHOOL BUDGET REVIEW COMMITTEE. There
8 is hereby established a school budget review committee,
9 which consists of the superintendent of public
10 instruction, the state comptroller, and three members
11 appointed by the governor to represent the public and
12 to serve three-year staggered terms. Those serving
13 on the effective date of this division as public members
14 of the school budget review committee established under
15 prior law shall continue to serve out their unexpired
16 terms. The committee shall meet and hold hearings each
17 year in May in Des Moines for purposes of authorizing
18 a school district to propose a budget exceeding the
19 limitations of sections six (6) and seven (7) of this
20 division, and shall continue in session until it has
21 reviewed budgets of school districts, as provided in
22 section eleven (11) of this division. It may call in
23 school board members and employees as necessary for
24 the hearings. Legislators shall be notified of hearings
25 concerning school districts in their constituencies.

Page 8

1 The committee shall adopt its own rules of procedure.
2 The superintendent of public instruction shall serve
3 as chairman, and the state comptroller shall serve as
4 secretary. The committee members representing the
5 public shall be entitled to receive a per diem equal
6 to the per diem of members of the board of public
7 instruction and their necessary travel and other expenses
8 while engaged in their official duties. Expense payments
9 shall be made from appropriations to the department
10 of public instruction.

Sec. 11. DUTIES OF THE COMMITTEE.

12 1. The school budget review committee may recommend
13 the revision of any rules, regulations, directives,
14 or forms relating to school district budgeting and
15 accounting, confer with local school boards or their
16 representatives and make recommendations relating to
17 any budgeting or accounting matters, and may direct
18 the superintendent of public instruction or the state
19 comptroller to make studies and investigations of school
20 costs in any school district whose budget has been
21 submitted to the committee. The committee shall report
22 to each session of the general assembly, which report
23 shall include any recommended changes in laws relating
24 to school districts, and shall set out the number of
25 hearings held pursuant to this division, the reasons for

Page 9

1 any authorized increases in school costs, and other
2 information as the committee deems advisable.
3 2. The committee may review the budget of any school
4 district as follows:

- 5 a. If the budget or proposed budget shows district
6 costs per pupil in fall enrollment of more than the
7 state cost per pupil.
- 8 b. If the total general fund budget or proposed
9 budget has increased over the previous year by a percent
10 greater than the percentage growth factor computed by
11 the state comptroller as provided in section three (3)
12 of this division.
- 13 c. If in the judgment of the committee, the proposed
14 budget shows total general fund expenditures to be
15 unreasonably high in relation to the comparative cost
16 factors of the school district, even if the expenditures
17 do not exceed the state cost per pupil for the year.
- 18 3. The committee may authorize for the local school
19 board a school budget in excess of limitations provided
20 for in sections six (6) and seven (7) of this division as
21 follows:
- 22 a. The additional school district property tax levy
23 may be increased up to three mills for general fund
24 purposes over the limitation provided in section seven
25 (7) of this division.

Page 10

- 1 b. Additional supplemental state aid may be paid
2 to any district from any discretionary funds appropri-
3 ated specifically to the committee for this purpose.
- 4 If the committee does not authorize for a local
5 school board the school district's budget, it shall
6 state its recommendations in terms of a specific reduc-
7 tion in the general fund expenditures included in the
8 budget, and in terms of the projected reduction in the
9 tax rate of the school district, as determined under
10 section seven (7) of this division, and shall notify the
11 local school board of its recommendations through the
12 state comptroller.
- 13 If the school budget review committee makes a recom-
14 mendation, the school board shall follow the recommen-
15 dation or shall submit to the voters of the school dis-
16 trict, at the regular school election or at a special
17 election called for that purpose, the question of whether
18 the board shall adopt the recommendations of the school
19 budget review committee, or shall approve the budget
20 as proposed. The question submitted to the voters shall
21 state clearly the projected difference in the tax rate
22 of the school district which will result if the board
23 adopts the recommendations of the school budget review
24 committee, or if the proposed budget is adopted.
- 25 If a majority of those voting favors adoption of

Page 11

- 1 the recommendation of the school budget review committee,
2 the board of directors of the school district shall
3 revise its budget and records as recommended.
- 4 If a majority of those voting favors adoption of
5 the proposed budget, the district may exceed the
6 limitations provided in sections six (6) and seven (7)

7 of this division.

8 The school board shall certify the result of an
9 election required under this section to the school
10 budget review committee, to the county auditor, and
11 to the state comptroller, within ten days following
12 the election.

13 The committee, when authorizing school budgets in
14 excess of limitations provided in this division, shall
15 consider each district's circumstances and facts which
16 are unique and unusual, including but not limited to
17 any unusual increases or decreases in enrollments,
18 natural disasters, unusual transportation problems,
19 and initial staffing problems.

20 Failure by any school district to provide information
21 or appear before the committee as requested for the
22 accomplishment of review or hearing shall constitute
23 justification for the committee to instruct the state
24 comptroller to withhold any state aid to that district
25 until the committee's inquiries are satisfied completely.

Page 12

1 Sec. 12. COUNTY BOARD REVIEW. The school budget
2 review committee may call in any county board of edu-

6 priated each year from the general fund of the state

12 ber fifteenth, December fifteenth, March fifteenth,
13 and May fifteenth of each year, and the installments
14 shall be as nearly equal as possible as determined by
15 the state comptroller, taking into consideration the
16 relative budget and cash position of the state resources.

17 All moneys received by a school district from the
18 state under the provisions of this division, including the
19 guaranteed state aid, shall be deposited in the general
20 fund of the school district.

21 Sec. 14. GENERAL FUND BUDGET. Subject to limitations
22 imposed by the school budget review committee or by
23 state law, the general fund budget of a school district
24 shall be determined as follows:

Page 13

1 exclusive of gifts, and federal grants and aids, except
2 federal aids paid in anticipation of or reimbursement
3 for expenses caused by a federal activity in or near

5 from local sources, by adding together the estimated
6 amounts to be expended for the school year, for adminis-
7 tration, instruction, attendance services, health
8 services, pupil transportation services, fixed charges,

9 operation and maintenance, community services, capital
10 outlay, debt service, and tuition paid other districts.

7 tors of each school district shall set a tentative bud-
8 get in dollars of the amount the district may spend
9 on each program in the system as defined by the school
10 budget review committee and in the forms prescribed
11 by the committee. This prospectus of program and
12 allotted dollars as approved by the board shall guide
13 the superintendent when preparing the proposed budget
14 for that year. These limitations submitted by the board
15 of directors to the superintendent of schools for the
16 district shall be promptly forwarded to the committee.

17 Sec. 16. ESTIMATES OF MISCELLANEOUS AIDS. No later

9 Section 1. STATE SCHOOL FOUNDATION PROGRAM. This
10 Act establishes a state school foundation program.
11 Each school district in the state is entitled to receive
12 state school foundation aid, which shall be an amount
13 per pupil in fall enrollment equal to the difference
14 between the per pupil amount of foundation property
15 tax plus miscellaneous income in the district, and the
16 state foundation base.
17 Sec. 2. STATE FOUNDATION BASE. The state foundation
18 base for school years beginning after July 1, 1972,
19 shall be as follows:
20 1. For the school year beginning July 1, 1972,
21 seventy percent of the state cost per pupil.
22 2. For the school year beginning July 1, 1973,
23 seventy-five percent of the state cost per pupil.
24 3. For the school year beginning July 1, 1974, and
25 all subsequent school years, eighty percent of the

Page 2

1 state cost per pupil.
2 Sec. 3. STATE COST PER PUPIL. The state cost per
3 pupil for the school year beginning July 1, 1971, shall
4 be nine hundred twenty dollars. The state cost per
5 pupil for the school year beginning on July 1, 1972,
6 and for each succeeding school year shall be the previous
7 year's state cost per pupil plus the dollar equivalent
8 of the state percent of allowable growth, but this
9 dollar equivalent is limited to a maximum amount of
10 forty-six dollars for the school year beginning on July
11 1, 1972, forty-eight dollars for the school year
12 beginning on July 1, 1973, and fifty-one dollars for
13 the school year beginning on July 1, 1974.
14 The state percent of allowable growth is the percent
15 of increase in state revenues, including the sales and
16 use taxes and the individual and corporate income taxes,
17 and the percent of increase in assessed valuation of
18 taxable property in the state, for each year of the
19 last three years. The sum of the individual percents
20 thus obtained shall be divided by six to arrive
21 at the percent of allowable growth for the state. In
22 making such computations the comptroller shall adjust
23 for changes in rates or basis of the income tax or
24 sales and use tax and for statewide changes in assessment
25 practices. He shall thereupon certify the percent

Page 3

1 of allowable growth per pupil to the school districts
2 of the state on or before February fifteenth of each
3 year. For the purpose of this computation, "year" means
4 calendar year.
5 If the percent of allowable growth of the state is
6 less than zero, the state cost per student shall be
7 the same as the previous year's state cost per student.
8 Sec. 4. FOUNDATION PROPERTY TAX. The maximum state
9 foundation property tax levy, which shall be levied

10 by every school district in the state except as otherwise
11 provided in this Act, shall be:

12 1. For the school year beginning July 1, 1972, and
13 for the school year beginning July 1, 1973, twenty-seven
14 and one-half mills per dollar of assessed valuation
15 on all taxable property in the district as of January
16 1, 1972, and as of January 1, 1973, respectively.

17 2. For the school year beginning July 1, 1974, and
18 all subsequent school years, thirty mills per dollar
19 of assessed valuation on all taxable property in the
20 district as of January 1, 1974, and on each subsequent
21 January thereafter.

22 If a school district can meet its general fund budget
23 or the state foundation base by a levy on the assessed
24 valuation on all taxable property in the district less
25 than as specified in this section, it shall levy only the

Page 4

1 lesser amount needed.

2 No later than December first of each year the state
3 comptroller shall notify the county auditor of each
4 county the amount, both in dollars and mills, of the
5 foundation property tax levy. The county auditor or
6 auditors shall spread the foundation property tax over
7 all the taxable property in the school district.

8 Sec. 5. FALL ENROLLMENT. Fall enrollment shall
9 be determined by adding the resident pupils who are
10 enrolled on the second Friday of September of each year
11 in public elementary and secondary schools of the
12 district, and in special education schools for which
13 tuition is paid by the district whether the special
14 education school is conducted by a county board of
15 education or another school district. Shared-time
16 pupils shall be counted on the basis of number of hours
17 of instruction in a public school proportionate to a
18 full-time pupil enrolled in the district. Each school
19 district shall certify to the state department of public
20 instruction by September twenty-fifth of each year the
21 fall enrollment in the school district, and the fall
22 enrollment information shall be promptly forwarded to
23 the state comptroller.

24 Sec. 6. ADDITIONAL SCHOOL DISTRICT PROPERTY TAX
25 LEVY. The state comptroller shall determine the addi-

Page 5

1 tional school district property tax levy, which is in
2 addition to the foundation property tax levy, as follows:

3 1. The district cost per student for the current
4 school year ending June thirtieth each year, plus the
5 state percent of allowable growth in dollars limited
6 to the maximum amounts defined in section three (3)
7 of this Act, determines the district cost per pupil
8 for the school year beginning July first each year.

9 2. The district cost per student multiplied by the
10 estimated fall enrollment for the school year beginning

11 July first each year, determines the maximum general
12 fund budget for the district, unless the school budget
13 review committee authorizes an increase as provided
14 in section thirteen (13) of this Act.

15 3. The state foundation base multiplied by the
16 number of pupils in fall enrollment, and the product
17 subtracted from the general fund budget of the district
18 for the school year beginning July first each year,
19 determines the amount to be raised by the additional
20 school district property tax levy.

21 No later than December first of each year, the state
22 comptroller shall notify the county auditor of each
23 county the amount, both in dollars and mills, of the
24 additional property tax levy. Each county auditor shall
25 spread the additional property tax levy over all taxable

Page 6

1 property in the school district.

2 Sec. 7. MAXIMUM MILLAGE LEVY. For the purpose of
3 determining the maximum millage levy in a school dis-
4 trict, the state comptroller shall determine the sum
5 of the foundation property tax levy and the additional
6 property tax levy, in mills. When this total millage
7 rate exceeds the district general fund levy in mills
8 for the school year which began July 1, 1970, he shall
9 adjust the district general fund millage levy to a rate
10 equal to the millage levy for the school year beginning
11 July 1, 1970, unless the additional millage is approved
12 by the school budget review committee or by the voters
13 as provided in section eleven (11) of this Act.

14 Sec. 8. GUARANTEED STATE AID. For the school year
15 beginning July 1, 1972, and for that year only, the
16 state will provide specific funds, called guaranteed
17 state aid, to any school district to insure that its
18 total general fund millage excluding the millage that
19 could be raised under section eleven (11) of this Act
20 will not exceed that of the school year beginning July
21 1, 1970.

22 There is hereby appropriated from the general fund
23 of the state to the department of public instruction
24 funds sufficient to pay the guaranteed state aid. The

2 Sec. 9. MISCELLANEOUS INCOME. Miscellaneous income
3 is all revenues of a school district general fund budget,
4 exclusive of the state foundation property tax, the
5 state foundation aid, guaranteed state aid, the
6 additional school district property tax levy, and state
7 individual income tax returned to the district.

8 Sec. 10. SCHOOL BUDGET REVIEW COMMITTEE. There
9 is hereby established a school budget review committee,
10 which consists of the superintendent of public
11 instruction, the state comptroller, and three members
12 state comptroller shall pay this aid no later than May

12 appointed by the governor to represent the public and
13 to serve three-year staggered terms. Those serving
14 on the effective date of this Act as public members
15 of the school budget review committee established under
16 prior law shall continue to serve out their unexpired
17 terms. The committee shall meet and hold hearings each
18 year in May in Des Moines for purposes of authorizing
19 a school district to propose a budget exceeding the
20 limitations of sections six (6) and seven (7) of this
21 Act, and shall continue in session until it has reviewed
22 budgets of school districts, as provided in section
23 eleven (11) of this Act. It may call in school board
24 members and employees as necessary for the hearings.
25 Legislators shall be notified of hearings concerning

Page 8

1 school districts in their constituencies.
2 The committee shall adopt its own rules of procedure.
3 The superintendent of public instruction shall serve
4 as chairman, and the state comptroller shall serve as
5 secretary. The committee members representing the
6 public shall be entitled to receive a per diem equal
7 to the per diem of members of the board of public
8 instruction and their necessary travel and other expenses
9 while engaged in their official duties. Expense payments
10 shall be made from appropriations to the department
11 of public instruction.

Sec. 11. DUTIES OF THE COMMITTEE.

13 1. The school budget review committee may recommend
14 the revision of any rules, regulations, directives,
15 or forms relating to school district budgeting and
16 accounting, confer with local school boards or their
17 representatives and make recommendations relating to
18 any budgeting or accounting matters, and may direct
19 the superintendent of public instruction or the state
20 comptroller to make studies and investigations of school
21 costs in any school district whose budget has been
22 submitted to the committee. The committee shall report
23 to each session of the general assembly, which report
24 shall include any recommended changes in laws relating
25 to school districts, and shall set out the number of

Page 9

1 hearings held pursuant to this Act, the reasons for
2 any authorized increases in school costs, and other
3 information as the committee deems advisable.
4 2. The committee may review the budget of any school
5 district as follows:
6 a. If the budget or proposed budget shows district
7 costs per pupil in fall enrollment of more than the
8 state cost per pupil.
9 b. If the total general fund budget or proposed
10 budget has increased over the previous year by a percent
11 greater than the percentage growth factor computed by
12 the state comptroller as provided in section three (3)

13 of this Act.

14 c. If in the judgment of the committee, the proposed
15 budget shows total general fund expenditures to be
16 unreasonably high in relation to the comparative cost
17 factors of the school district, even if the expenditures
18 do not exceed the state cost per pupil for the year.

19 3. The committee may authorize for the local school
20 board a school budget in excess of limitations provided
21 for in sections six (6) and seven (7) of this Act as
22 follows:

23 a. The additional school district property tax levy
24 may be increased up to three mills for general fund
25 purposes over the limitations provided in section seven

Page 10

1 (7) of this Act.

2 b. Additional supplemental state aid may be paid
3 to any district from any discretionary funds appropri-
4 ated specifically to the committee for this purpose.

5 If the committee does not authorize for a local
6 school board the school district's budget, it shall
7 state its recommendations in terms of a specific reduc-
8 tion in the general fund expenditures included in the
9 budget, and in terms of the projected reduction in the
10 tax rate of the school district, as determined under
11 section seven (7) of this Act, and shall notify the
12 local school board of its recommendations through the
13 state comptroller.

14 If the school budget review committee makes a recom-
15 mendation, the school board shall follow the recommen-
16 dation or shall submit to the voters of the school dis-
17 trict, at the regular school election or at a special
18 election called for that purpose, the question of whether
19 the board shall adopt the recommendations of the school
20 budget review committee, or shall approve the budget
21 as proposed. The question submitted to the voters shall
22 state clearly the projected difference in the tax rate
23 of the school district which will result if the board
24 adopts the recommendations of the school budget review
25 committee, or if the proposed budget is adopted.

Page 11

1 If a majority of those voting favors adoption of
2 the recommendations of the school budget review committee,
3 the board of directors of the school district shall
4 revise its budget and records as recommended.

5 If a majority of those voting favors adoption of
6 the proposed budget, the district may exceed the
7 limitations provided in sections six (6) and seven (7)
8 of this Act.

9 The school board shall certify the result of an
10 election required under this section to the school
11 budget review committee, to the county auditor, and
12 to the state comptroller, within ten days following
13 the election.

14 The committee, when authorizing school budgets in
15 excess of limitations provided in this Act, shall con-
16 sider each district's circumstances and facts which
17 are unique and unusual, including but not limited to
18 any unusual increases or decreases in enrollments,
19 natural disasters, unusual transportation problems,
20 and initial staffing problems.

21 Failure by any school district to provide information
22 or appear before the committee as requested for the
23 accomplishment of review or hearing shall constitute
24 justification for the committee to instruct the state
25 comptroller to withhold any state aid to that district

Page 12

1 until the committee's inquiries are satisfied completely.

2 Sec. 12. COUNTY BOARD REVIEW. The school budget
3 review committee may call in any county board of edu-
4 cation for the purpose of reviewing its budget as it
5 relates to the individual districts within the county.

6 Sec. 13. APPROPRIATIONS. There is hereby appro-
7 priated each year from the general fund of the state
8 an amount necessary to pay the state school foundation
9 aid.

10 All state aids paid under sections one (1) through
11 twenty (20), inclusive, of this Act, unless otherwise
12 stated shall be in installments due on or about Septem-
13 ber fifteenth, December fifteenth, March fifteenth,
14 and May fifteenth of each year, and the installments
15 shall be as nearly equal as possible as determined by
16 the state comptroller, taking into consideration the
17 relative budget and cash position of the state resources.

18 All moneys received by a school district from the
19 state under the provisions of this Act, including the
20 guaranteed state aid, shall be deposited in the general
21 fund of the school district.

22 Sec. 14. GENERAL FUND BUDGET. Subject to limitations
23 imposed by the school budget review committee or by
24 state law, the general fund budget of a school district
25 shall be determined as follows:

Page 13

1 1. Determine estimated general fund expenditures
2 exclusive of gifts, and federal grants and aids, except
3 federal aids paid in anticipation of or reimbursement
4 for expenses caused by a federal activity in or near
5 a school district which would otherwise need to be paid
6 from local sources, by adding together the estimated
7 amounts to be expended for the school year, for adminis-
8 tration, instruction, attendance services, health
9 services, pupil transportation services, fixed charges,
10 operation and maintenance, community services, capital
11 outlay, debt service, and tuition paid other districts.
12 The cost of food services and student body activities
13 shall not be included in general fund costs.

14 2. From the total of the sums determined under sub-

- 15 section one (1) of this section deduct the following:
16 a. Estimated receipts from state appropriations
17 for handicapped children aid, vocational aid, driver
18 education aid, and junior college aid.
19 b. Estimated general fund receipts from the
20 following:
21 Tuition paid by individuals or by the state; transpor-
22 tation; services; rents; income on investment securities;
23 other general fund revenue receipts; general fund non-
24 revenue receipts; and transfers to the general fund
25 other than those resulting from clearing accounts,

Page 14

- 1 reorganization, and the return of principal of invested
2 securities.
3 c. An estimate of the total amount determined on
4 the per pupil cost basis for children transported who
5 live within statutory walking distance from school.
6 Sec. 15. TENTATIVE BUDGET. Not later than December
7 first for each ensuing fiscal year, the board of direc-
8 tors of each school district shall set a tentative bud-
9 get in dollars of the amount the district may spend
10 on each program in the system as defined by the school
11 budget review committee and in the forms prescribed
12 by the committee. This prospectus of program and
13 allotted dollars as approved by the board shall guide
14 the superintendent when preparing the proposed budget
15 for that year. These limitations submitted by the board
16 of directors to the superintendent of schools for the
17 district shall be promptly forwarded to the committee.
18 Sec. 16. PROPERTY TAX RELIEF. In addition to the
19 state school foundation aid provided in section one
20 (1) of this Act, and the additional state aids provided
21 under this Act or other provisions of law, fifteen
22 percent of the state individual income tax imposed under
23 section four hundred twenty-two point five (422.5) of
24 the Code and collected from each district in the state
25 shall be returned to the district where collected, as

Page 15

- 1 direct property tax relief. Not later than October
2 fifteenth each year the director of revenue shall certify
3 to the state comptroller the amount equal to fifteen
4 percent of the state individual income tax collected
5 from each school district for the last preceding calendar
6 year, and the state comptroller shall notify each school
7 district the amount it is entitled to receive and shall
8 draw warrants in payment of the amount due each district
9 in two equal payments due December fifteenth and May
10 fifteenth. The state comptroller shall reduce each
11 district's total property tax levy for general fund
12 purposes by an amount equal to the amount due each
13 district under this section, and shall certify the
14 corrected property tax levy to the school district,
15 and to the county board of supervisors and the county

16 auditor of the county where the school district is
17 located. The property tax reduction provided in this
18 section shall not affect the prior computation of
19 foundation property tax or additional school district
20 property tax, or the application of the limitations
21 provided by this Act, but shall provide property tax
22 relief in addition to all other provisions of this Act.

23 Sec. 17. ESTIMATES OF MISCELLANEOUS AIDS. No later
24 than September first of each year, the department of
25 public instruction shall certify to the state comp-

Page 16

1 troller the amounts of any state aids other than the
2 amount provided in this Act that will be received by
3 each school district in the state. In the event any
4 estimate of state aids in any school budget certified
5 to the auditor as provided by section twenty-four point
6 seventeen (24.17) of the Code is more or less than the
7 amount of state aids certified to the state comptroller
8 by the department of public instruction as provided
9 by this section, the state comptroller shall certify
10 to the county auditors the final millage for each school
11 district.

12 Sec. 18. RULES AND REGULATIONS. The superintendent
13 of public instruction, after consultation with the state
14 comptroller, may adopt rules and regulations and defini-
15 tions of terms as necessary and proper for the adminis-
16 tration of sections one (1) through twenty (20), inclu-
17 sive, of this Act.

18 Sec. 19. LOCAL BUDGET LAW. Provisions of chapter
19 twenty-four (24) of the Code shall apply to this Act.

20 Sec. 20. EFFECTIVE DATE. The effective date of
21 sections one (1) through twenty (20), inclusive, of
22 this Act is July 1, 1972, unless otherwise provided.

9 the state will provide specific funds, called guaranteed
10 state aid, to any school district which, under the provi-
11 sions of this division, would otherwise have a general
12 fund millage rate increase for the 1972-1973 school year
13 over its rate for the 1971-1972 school year, and the
14 amount of guaranteed state aid to be paid to each district
15 each year will be the amount necessary to insure that each
16 district's general fund millage rate, as determined under
17 the provisions and limitations of this division, will not
18 exceed its general fund millage rate for the 1971-1972
19 school year. However, the amount of guaranteed state aid
20 paid to a school district in each of the three years shall
21 not be reduced if a millage rate reduction results from the

REPORT OF CONFERENCE COMMITTEE ON HOUSE FILE 654

We, the undersigned members of the conference committee appointed to consider the difference between the Senate and the House of Representatives on House File 654, a bill for an act relating to state aid for schools, school district property taxes, imposing a school district income tax, providing administration by the director of revenue, adopting provisions relating to the state individual income tax, relating to the corporate income tax, and providing aid to cities, towns and counties from sales tax receipts, respectfully submit the following recommendations:

1. That the Senate recede from its amendment to the bill as amended and passed by the House.

2. That House File 654, as amended, passed, and reprinted by the House, be amended by striking everything after the enacting clause and inserting in lieu thereof the following:

DIVISION I

Section 1. STATE SCHOOL FOUNDATION PROGRAM. This division establishes a state school foundation program. Each school district in the state is entitled to receive state school foundation aid, which shall be an amount per pupil in fall enrollment equal to the difference between the amount per pupil in fall enrollment of foundation property tax plus miscellaneous income in the district, and the state foundation base or the district cost per pupil, whichever is less.

Sec. 2. FOUNDATION PROPERTY TAX. Each school district shall cause to be levied each year beginning in 1972, for the school general fund, a foundation property tax of twenty mills per dollar of assessed valuation on all taxable property in the district. For the purpose of this division, a school district is defined as a school corporation organized under chapter two hundred seventy-four (274) of the Code. Each county auditor shall certify to each school district within the county and to the state comptroller, not later than October first each year, the assessed valuation of taxable property for the current year in each school district within the county.

Sec. 3. STATE FOUNDATION BASE. The state foundation base for the school year beginning July 1, 1972, is seventy percent of the state cost per pupil. For each succeeding school year the state foundation base shall be increased by the amount of one percent of the state cost per pupil, up to a maximum of eighty percent of the state cost per pupil.

Sec. 4. FALL ENROLLMENT. Fall enrollment shall be determined by adding the resident pupils who are enrolled on the second Friday of September of each year in public elementary and secondary schools of the district, and in special education classes for which tuition is paid by the district whether the special education class is conducted by a county board of education or another school district.

Shared-time and part-time pupils of school age shall be counted in the proportion that the time for which they are enrolled or receive instruction for the school year bears to the time that full-time pupils carrying a normal course schedule, at the same grade level, in the same school district, for the same school year, are enrolled and receive instruction.

Each school district shall certify its fall enrollment to the state department of public instruction by September twenty-fifth of each year, and the information shall be promptly forwarded to the state comptroller.

Sec. 5. MISCELLANEOUS INCOME. Miscellaneous income is all revenues of a school district general fund budget, exclusive of federal aid provided under title twenty (20), chapter thirteen (13), of the United State Code, the state foundation property tax, the state school foundation aid, guaranteed state aid, the additional school district property tax levy, any supplemental aid distributed by the school budget review committee, and any school district income surtax imposed in the district.

Sec. 6. DISTRICT COST. As used in this division, "district cost" means the total expenditures or anticipated expenditures of a district which are payable from the school general fund, exclusive of federal aid provided under title twenty (20), chapter thirteen (13), of the United States Code.

Sec. 7. ALLOWABLE GROWTH. Each year the state comptroller shall compute the state percent of growth by adding the percents of increase for the second and third years of the most recent three-year period for which accurate figures are available, for each of the following sources of revenue, and dividing the total by four:

1. State general fund revenues, adjusted for changes in rates or basis.

2. Statewide assessed valuation of taxable property, adjusted for statewide changes in assessment practices.

Each year the state comptroller shall compute the dollar equivalent of the state percent of growth by multiplying the state cost per pupil for the preceding school year by the current state percent of allowable growth, except that this dollar equivalent is limited to a maximum amount of forty-six dollars for the school year beginning on July 1, 1972, forty-eight dollars for the school year beginning on July 1, 1973, and fifty-one dollars for the school year beginning on July 1, 1974. As used in this division, "allowable growth" means the dollar equivalent of the state percent of allowable growth.

Sec. 8. STATE COST PER PUPIL. The state cost per pupil for the school year beginning July 1, 1971, is nine hundred twenty dollars. The state cost per pupil for the school year beginning on July 1, 1972, and for each succeeding school year is the previous year's state cost per pupil plus the allowable growth. If the state percent of allowable growth is zero or less, the state cost per pupil shall be the same as the previous year's state cost per pupil.

Sec. 9. MAXIMUM GENERAL FUND BUDGET AND ADDITIONAL SCHOOL DISTRICT PROPERTY TAX LEVY.

1. The state comptroller shall determine the additional school district property tax levy for each school district, which is in addition to the foundation property tax levy, as follows:

- a. The district cost per pupil in fall enrollment

for the current school year ending June thirtieth each year, plus the allowable growth, determines the district cost per pupil for the school year beginning July first each year. However, if the district cost per pupil in fall enrollment for the current school year ending June thirtieth each year exceeds one hundred ten percent of the state cost per pupil, the school budget review committee shall review the proposed budget and establish the amount of allowable growth for that district, not to exceed the limitations in section seven (7) of this division.

b. The district cost per pupil multiplied by the estimated fall enrollment for the school year beginning July first each year, determines the maximum district cost for each district. A school district may not exceed its maximum district cost unless additional millage is authorized or supplemental state aid is distributed to the district by the school budget review committee as provided in section thirteen (13), subsection five (5), of this division, or unless an additional amount is raised by a school district income surtax approved by the voters.

c. The state foundation base multiplied by the number of pupils in fall enrollment, and the product subtracted from the lesser of the actual or maximum district cost for the school year beginning July first each year, determines the amount to be raised by the additional school district property tax levy, subject to the maximum millage provided in section ten (10) of this division, any additional millage authorized by the school budget review committee under section thirteen (13) of this division, or the maximum millage reduction provided in section twenty-one (21) of this division.

2. No later than December first of each year, the state comptroller shall notify the county auditor of each county the amount, both in dollars and mills, of the additional property tax levy in each school district in the county. Each county auditor shall spread the additional property tax levy for each school district over all taxable property in the district.

3. a. A county board of education or joint county board of education shall not certify for the fiscal year commencing July 1, 1972, or the fiscal year commencing January 1, 1973, or any succeeding fiscal year, an amount of money to be raised by property taxes for the general fund budget in excess of the amount of money raised by property taxes for general fund expenditures for its last preceding fiscal year, plus an amount determined by multiplying the state percent of growth determined under section seven (7) of this division by the amount raised by property taxes for the general fund budget for its last preceding fiscal year.

b. In addition to the amounts provided in paragraph a of this subsection, a county board of education or

joint county board of education may certify and receive moneys to expand special education programs for the fiscal year commencing July 1, 1972, or January 1, 1973, or any succeeding year. However, this exception applies only to those special education programs or courses which would have qualified for state reimbursement pursuant to chapter two hundred eighty-one (281) of the Code, as interpreted by the rules and regulations of the state department of public instruction effective on July 1, 1970.

c. If, for any school year, responsibility for a special education pupil is transferred from a school district to a county or joint county board of education, or from a county or joint county board of education to a school district, the moneys budgeted for that pupil shall be transferred to the district or board which accepts responsibility for the pupil, or a proportionate amount shall be transferred if the change is made during the school year.

Sec. 10. **MAXIMUM MILLAGE LEVY.** For the purpose of determining the maximum millage levy in a school district, the state comptroller shall determine the sum of the foundation property tax levy and the additional property tax levy, in mills. When this total millage rate exceeds the district general fund levy in mills for the school year which began July 1, 1970, he shall adjust the district general fund millage levy to a rate equal to the millage levy for the school year beginning July 1, 1970, unless additional millage is approved by the school budget review committee, as provided in section thirteen (13), subsection five (5), paragraph a, of this division.

Sec. 11. **GUARANTEED STATE AID.** For the school year beginning July 1, 1972, and for the next four succeeding school years, the state shall provide specific funds, called guaranteed state aid, to any school district in which the maximum millage, excluding any additional millage approved by the school budget review committee, plus the district's miscellaneous income and state school foundation aid, does not meet the actual or maximum district cost, whichever is less.

There is hereby appropriated from the general fund of the state to the department of public instruction moneys sufficient to pay the guaranteed state aid provided in this section. The state comptroller shall pay this aid no later than May fifteenth of each year, beginning in 1973 for the school year beginning July 1, 1972.

Sec. 12. **SCHOOL BUDGET REVIEW COMMITTEE.** A school budget review committee is established, consisting of the superintendent of public instruction, the state comptroller, and three members appointed by the governor to represent the public and to serve three-year staggered terms. Those serving on the effective date of this division as public members of the school budget review committee established under prior law shall continue

to serve out their unexpired terms as members of the committee established under this section. The committee shall meet and hold hearings each year and shall continue in session until it has reviewed budgets of school districts, as provided in section thirteen (13) of this division. It may call in school board members and employees as necessary for the hearings. Legislators shall be notified of hearings concerning school districts in their constituencies.

The committee shall adopt its own rules of procedure. The superintendent of public instruction shall serve as chairman, and the state comptroller shall serve as secretary. The committee members representing the public are entitled to receive a per diem equal to the per diem of members of the board of public instruction, and their necessary travel and other expenses while engaged in their official duties. Expense payments shall be made from appropriations to the department of public instruction.

Sec. 13. DUTIES OF THE COMMITTEE.

1. The school budget review committee may recommend the revision of any rules, regulations, directives, or forms relating to school district budgeting and accounting, confer with local school boards or their representatives and make recommendations relating to any budgeting or accounting matters, and may direct the superintendent of public instruction or the state comptroller to make studies and investigations of school costs in any school district.

2. The committee shall report to each session of the general assembly, which report shall include any recommended changes in laws relating to school districts, and shall specify the number of hearings held annually, the reasons for the committee's recommendations, and other information as the committee deems advisable.

3. The committee shall review the proposed or certified budget of any school district if the district cost per pupil in estimated fall enrollment has increased over the district cost per pupil in fall enrollment for the previous year by more than the allowable growth of the district.

4. The committee may review the proposed or certified budget of any school district as follows:

a. If the budget shows district costs per pupil in estimated fall enrollment of more than the state cost per pupil.

b. If in the judgment of the committee, the budget shows the district cost to be unreasonably high in relation to the comparative cost factors of similar districts, even if the district cost per pupil in estimated fall enrollment does not exceed the state cost per pupil.

5. The committee may authorize a school budget in excess of limitations provided in sections nine (9) and ten (10) of this division as follows:

a. If a nonpublic school within a district closes wholly or in part, the committee may authorize an increase in the school general fund millage beyond the maximum permitted under section ten (10) of this division, but only to the extent necessary to cover the cost of absorbing the former nonpublic school pupils into the public school system. The school board shall establish the amount of necessary increased cost to the satisfaction of the school budget review committee before an increase in millage is authorized.

b. Additional supplemental state aid may be paid to any district from any discretionary funds appropriated specifically to the committee for this purpose.

6. If the committee does not authorize a school district's budget, it shall state its recommendations in terms of a specific reduction in the district cost, and in terms of a projected reduction in the millage rate of the school district, and shall notify the school board of its recommendations through the state comptroller.

7. The committee, when making recommendations relating to school budgets, shall consider each district's circumstances and facts which are unique and unusual, including but not limited to any unusual increases or decreases in enrollments, natural disasters, unusual transportation problems, and initial staffing problems.

8. Failure by any school district to provide information or appear before the committee as requested for the accomplishment of review or hearing shall constitute justification for the committee to instruct the state comptroller to withhold any state aid to that district until the committee's inquiries are satisfied completely.

9. The school budget review committee may call in any county board of education for the purpose of reviewing its budget as it relates to the individual districts within the county.

Sec. 14. ELECTION TO EXCEED MAXIMUM DISTRICT COST.

If a school board wishes to exceed its maximum district cost, as determined under section nine (9) of this division, it shall first submit its proposed budget to the school budget review committee. The committee may approve the proposed budget or may make other recommendations, but if the board decides that the district should exceed its maximum district cost, and the committee has not authorized an additional millage or supplemental state aid as provided in section thirteen (13), subsection five (5), of this division, the board shall submit to the voters of the school district, at a regular or special school election held not later than September fifteenth, the question of whether the proposed budget shall be approved, and financed by a school district income surtax of a specified rate, or whether the district shall be limited to its maximum

district cost.

If a majority of those voting approves the proposed budget and the specified school district income surtax rate, the surtax, determined as provided in section fifteen (15) of this division, may be imposed by resolution of the school board.

If the proposed budget and surtax does not receive approval by a majority of those voting, the school board shall reduce its general fund budget to an amount which does not exceed its maximum district cost.

The school board shall certify the result of an election required under this section to the county auditor, the school budget review committee, and the director of revenue, within ten days following the election. If a school district income surtax is approved, the school board shall publish notice of the surtax rate, as provided in chapter six hundred eighteen (618) of the Code.

Sec. 15. SCHOOL DISTRICT INCOME SURTAX.

1. If a school district income surtax is proposed by a school board, the state comptroller shall determine the rate of school district income surtax as follows:

- a. Determine the excess amount needed.
- b. Determine the total amount of state individual income tax as shown on the individual tax returns of persons residing in the school district on December thirty-first of the last preceding calendar year for which accurate figures are available or on the last day of a taxpayer's fiscal year ending within that calendar year. The director of revenue shall report this amount to the state comptroller as requested.
- c. Divide the total amount of state individual income tax determined into the excess amount needed. The quotient is the school district income surtax rate which shall be imposed on the state individual income tax for the calendar year during which the school year begins, or for a taxpayer's fiscal year ending during that calendar year but after the date of the election approving the budget, and for subsequent years as provided in subsections two (2) and three (3) of this section, and shall be imposed on all individuals residing in the school district on December thirty-first of each calendar year, or on the last day of their fiscal year. As used in this section, "state individual tax" means the tax computed under section four hundred twenty-two point five (422.5) of the Code, less the deductions allowed in section four hundred twenty-two point twelve (422.12) of the Code.

2. A school district income surtax rate approved by the voters, or as much of it as may be necessary, shall continue to be in effect in that school district until the school board finds that the surtax or a part of it is unnecessary, or until the amount of the surtax is altered by another election. If a school board wishes to increase the district costs so that they cannot be met by the combination of maximum millage,

state aid, miscellaneous income, and the approved school district income surtax, the school board may hold another election to submit the question of whether to increase the surtax rate for the district, and may increase the rate only if an increase is approved by a majority of those voting.

3. At least once every five years, if a school district income surtax is found to be necessary, the school board shall submit to the voters of the school district, at a regular or special school election held not later than September fifteenth, the question of whether to continue imposition of the established rate of school district income surtax or of a lesser rate as necessary. If a majority of those voting does not approve the proposed school district income surtax rate, the school board shall reduce its general fund budget to an amount which does not exceed its maximum district cost.

Sec. 16. **STATUTES APPLICABLE.** The director of revenue shall administer any school district income surtax imposed under this division, and all the provisions of sections four hundred twenty-two point twenty (422.20), four hundred twenty-two point twenty-two (422.22) through four hundred twenty-two point thirty-one (422.31), inclusive, four hundred twenty-two point sixty-eight (422.68), and four hundred twenty-two point seventy-two (422.72) through four hundred twenty-two point seventy-five (422.75), inclusive, of the Code, shall apply in respect to administration of the school district income surtax.

Sec. 17. **FORM AND TIME OF RETURN.** The school district income surtax shall be made a part of the Iowa individual income tax return subject to the conditions and restrictions set forth in section four hundred twenty-two point twenty-one (422.21) of the Code.

Sec. 18. **DEPOSIT OF SCHOOL DISTRICT INCOME SURTAX.** The director of revenue shall deposit all moneys received as school district income surtax to the credit of each district from which the moneys are received, in a "school district income surtax fund" which is established in the office of the treasurer of state.

Sec. 19. **SCHOOL DISTRICT INCOME SURTAX CERTIFICATION.** On or before October twentieth each year, the director of revenue shall make an accounting of the school district income surtax collected under this division applicable to tax returns for the last preceding calendar year, or for fiscal year taxpayers, on the last day of their tax year ending during that calendar year and after the date of the election approving the surtax, from taxpayers in each school district in the state which has imposed a surtax, and shall certify to the state comptroller and the state department of public instruction the amount of total school district income surtax credited from the taxpayers of each school district. Additional returns in process, if any, at the time of certification shall be completed and the

additional amount of school district income surtax reported to the state comptroller for distribution back to the school district with the first installment of the following school year.

Sec. 20. SCHOOL DISTRICT INCOME SURTAX DISTRIBUTION. The state comptroller shall draw warrants in payment of the amount of surtax payable to each of the school districts in two installments to be paid on approximately the first day of December and the first day of February, and shall cause the warrants to be delivered to the respective school districts.

Sec. 21. MAXIMUM MILLAGE REDUCTION. If the functioning of the state school foundation program established by this division causes a reduction in any school district, for the school year beginning July 1, 1972, of more than ten percent of the district's total general fund millage for the school year beginning July 1, 1970, the reduction for the school year beginning July 1, 1972 is limited to that ten percent, and the reduction for each of the school years beginning July 1, 1973, and July 1, 1974, is limited to ten percent of the preceding year's millage. However, if this limitation results in a district millage levy which raises more than the district needs to meet the lesser of its actual or maximum district cost, the ten percent limitation does not apply, and the district may reduce its millage as much as can be done without entitling the district to state school foundation aid. The state comptroller shall compute any maximum millage reduction required by this section, and shall notify the school boards accordingly.

Sec. 22. TENTATIVE BUDGET. Not later than December first for each ensuing fiscal year, the board of directors of each school district shall set a tentative budget in dollars of the amount the district may spend on each program in the system as defined by the school budget review committee and in the forms prescribed by the committee. This prospectus of program and allotted dollars as approved by the board shall guide the superintendent when preparing the proposed budget for that year. These limitations submitted by the board of directors to the superintendent of schools for the district shall be promptly forwarded to the committee.

Sec. 23. RULES AND REGULATIONS. The superintendent of public instruction, after consultation with the state comptroller, may adopt rules and regulations and definitions of terms as necessary and proper for the administration of this division.

Sec. 24. LOCAL BUDGET LAW. Provisions of chapter twenty-four (24) of the Code remain applicable to school budgets.

Sec. 25. ESTIMATES OF MISCELLANEOUS AIDS. No later than September first of each year, the department of public instruction shall certify to the state comptroller the amounts of any state aids other than the amounts

provided in this division that will be received by each school district in the state. In the event any estimate of state aids in any school budget certified to the auditor as provided by section twenty-four point seventeen (24.17) of the Code is more or less than the amount of state aids certified to the state comptroller by the department of public instruction as provided by this section, the state comptroller shall certify to the county auditors the final millage for each school district.

Sec. 26. APPROPRIATIONS. There is hereby appropriated each year from the general fund of the state an amount necessary to pay the state school foundation aid.

All state aids paid under this division, unless otherwise stated, shall be paid in installments due on or about September fifteenth, December fifteenth, March fifteenth, and May fifteenth of each year, and the installments shall be as nearly equal as possible as determined by the state comptroller, taking into consideration the relative budget and cash position of the state resources.

All moneys received by a school district from the state under the provisions of this division shall be deposited in the general fund of the school district, and may be used for any school general fund purpose.

Sec. 27. There is hereby appropriated from the general fund of the state to the department of public instruction for the year beginning July 1, 1972, and ending June 30, 1973, one million six hundred thousand (1,600,000) dollars, or so much thereof as may be necessary for reimbursing public school districts and county or joint county school systems for expenditures incurred in accordance with the provisions of section two hundred fifty-seven point twenty-six (257.26) of the Code.

Claims for reimbursement for the period beginning July 1, 1971, and ending June 30, 1972, shall be made by July 30, 1972, to the department of public instruction, clearly detailing the expenditures incurred, and in a form prescribed by the department.

As a condition to receiving reimbursement under this section, a school district shall show by affidavit of an officer of the school board that the amount of reimbursement claimed by the school district does not exceed one-half of the actual costs incurred by the district under section two hundred fifty-seven point twenty-six (257.26) of the Code, and does not include the portion of those costs for which the district received state school foundation aid. The claims for reimbursement shall be certified by the department of public instruction to the state comptroller on or before August 31, 1972. On or before September 15, 1972, the state comptroller shall draw warrants on the fund created by this section, payable to the school districts which

have established claims. In the event that the amount appropriated is insufficient to pay in full the total amounts certified to the state comptroller, he shall prorate the fund and notify each school district of its pro rata percentage on or before September 15, 1972.

Sec. 28. Section two hundred eighty-one point nine (281.9), Code 1971, is amended by adding the following new paragraph:

"This section applies to all existing programs to July 1, 1973, and to the continuation of such existing programs after July 1, 1973."

Sec. 29. Chapter two hundred eighty-one (281), Code 1971, is amended by adding the following new section:

"A school district, county board of education, or joint county board of education that provides special education as required by this chapter shall, prior to March 1, 1972, and each March first thereafter, apply to the department of public instruction, upon forms prescribed by the department, for qualification to receive reimbursement pursuant to this chapter. During the following fiscal year the department shall approve each application and qualification if the district, county board of education, or joint county board establishes all of the following:

1. That there are sufficient students within the area who are in need of the instruction.
2. That the applying unit is the unit that can best and most efficiently provide for the instruction without duplicating services otherwise provided, as opposed to another available educational unit.
3. That the unit has qualified teachers available.
4. That the instruction is a natural and normal progression of a planned course or courses of instruction, and that this progressive growth factor is not out of proportion to the ability of the educational unit to pay for the courses of instruction.
5. That all reimbursement sought is for actual delivery of special education services and not for administrative costs.
6. Other factors as the department may require.

There is hereby appropriated out of the general fund of the state to the department of public instruction beginning July 1, 1973, a sum sufficient to pay all approved applications for reimbursement pursuant to this chapter and this section, to the extent that the approved applications are for expanded special education programs beyond those programs provided for the fiscal year commencing July 1, 1971, or January 1, 1972, but only to the extent that the expanded programs would have qualified for state reimbursement pursuant to this chapter, as interpreted by the rules and regulations of the state department of public instruction effective on July 1, 1970."

Sec. 30. Section two hundred ninety-eight point one (298.1), Code 1971, is amended as follows:

298.1 SCHOOL TAXES. The board of each school

corporation shall estimate the amount of the proposed expenditures and proposed receipts for the general school purposes at a time and in a manner to effectuate the provisions of [chapter 442] *sections 1 through 29, inclusive, of this Act*. Compliance with chapter 24 shall be observed.

[Prior to compliance with section 24.9, the superintendent of the county school systems shall call a joint meeting of school superintendents and school board members for all of the local districts within the county basic school tax unit. The time and place for such joint meetings shall be set by the superintendent of the county school system.]

[The purpose of the joint meeting shall be for a review of the budgets of the several school districts within the county basic school tax units, and for the discussion of common problems within the county basic unit.]

Sec. 31. Section four hundred twenty-two point sixty-five (422.65), Code 1971, is amended as follows:

422.65 ALLOCATION OF REVENUE. [Ten] *Fifty-five percent* of the total moneys received from the franchise tax shall be deposited in the state general fund. The remaining moneys received from the franchise tax shall be deposited in a franchise tax fund hereby established in the office of the treasurer of state, and shall be paid quarterly on warrants by the state comptroller, after certification by the director of revenue, as follows:

[1. Fifty percent to the basic school tax equalization fund of the basic school tax unit from which the tax is collected, to be distributed in the same manner as other funds in the basic school tax equalization fund.]

[2. Thirty] 1. *Sixty* percent to the general fund of the city or town from which the tax is collected.

[3. Twenty] 2. *Forty* percent to the general fund of the county from which the tax is collected.

If the financial institution maintains one or more offices for the transaction of business, other than its principal office, a portion of its franchise tax shall be allocated to each office, based upon a reasonable measure of the business activity of each office. The director of revenue shall prescribe, for each type of financial institution, a method of measuring the business activity of each office. Financial institutions shall furnish all necessary information for this purpose at the request of the director.

Quarterly, the director of revenue shall certify to the treasurer of state the amounts to be paid to each [basic school tax unit,] city, town, and county from the franchise tax fund. All moneys received from the franchise tax are hereby appropriated according to the provisions of this section.

Sec. 32. Section four hundred thirty A point three (430A.3), Code 1971, is amended as follows:

430A.3 LEVY. There is hereby imposed upon capital employed in the business of making loans or investments within the state of Iowa, as determined under the provisions of this chapter, a tax of five mills on each dollar of such capital; such tax to be considered a tax upon moneys and credits of such corporations which shall be levied by the board of supervisors, and placed upon the tax list and collected by the county treasurer. The amount collected in each taxing district in cities and towns shall be apportioned twenty percent to the county general fund, thirty percent to the city or town general fund, and fifty percent to the [basic school tax equalization fund] *general fund of the state*, and the amount collected in each taxing district outside of cities and towns shall be apportioned fifty percent to the county general fund and fifty percent to the [basic school tax equalization fund] *general fund of the state*. The term "loans" as used herein shall mean the lending of money to members of the general public upon other than real estate security. The term "investments" as used herein shall mean the discounting, purchasing, or otherwise acquiring notes, mortgages, sales contracts, debentures, or any other evidences of indebtedness, based upon other than real estate security when such investments are made in connection with loans made to members of the general public in the state of Iowa or in the courts of any operations having as their effect the financing of business transactions within the state of Iowa resulting in the incurring of any indebtedness based upon security other than real estate security.

Sec. 45. Section twenty-six point six (26.6), Code 1971, is amended as follows:

However, the population figure disclosed for any city or town as the result of a special federal census as modified as the result of consolidation or annexation in the manner provided in sections 312.3, and 123.50, shall be considered for no other purposes than the application of sections 123.50 [and], 312.3 and *the provisions of section 43 of this division*. Whenever a special federal census is hereafter taken by any city or town, the mayor and council shall certify the said census as soon as possible to the secretary of state and to the treasurer of state as otherwise herein provided, and failing to do so, the treasurer of state shall, after six months from the date of said special census, turn over such moneys as authorized by sections 123.50 and 312.3 to the general fund of the state, and continue to do so until such time as certification by said mayor and council is made, or until the next decennial federal census. 3 1. Page 47, by inserting the following new sections
4 after line 17:

5 1. "Sections two (2) through nine (9) of this
6 amendment may be cited as the 'Uniform Local Sales
7 Tax Law'."

8 2. "Any city or town may impose a sales, services
9 and use tax, hereinafter referred to as a "local sales
10 tax", in accordance with the provisions of this Act
11 by adoption of any ordinance by its council after
12 publisher notice not less than ten days nor more than
13 twenty-five days before the date of hearing thereon.
14 The collection of a local sales tax so imposed shall
15 commence on January first following passage of the
16 ordinance imposing it."

17 3. "The council of a city or town may agree with
18 the council of one or more cities or towns to jointly
19 impose a local sales tax as authorized for cities
20 and towns."

21 4. "A county may levy a local sales tax by
22 resolution of the board of supervisors, if passed
23 not later than July first of the year prior to the
24 commencement of collection of the tax following notice
25 and hearing as required for cities. If a county levy

Page 2

1 is made, cities and towns within the county shall
2 not levy the tax, or if the county levies the tax
3 in a year subsequent to the levy by a city or town
4 in that county, the city or town levies shall be
5 suspended for the period of the county levy. Also,
6 if a city or town imposes a local sales tax after
7 July first, the board of supervisors of any county
8 in which a part of the city is located may, within
9 ten days of passage of the ordinance imposing the
10 tax, impose by resolution a county tax which supersedes
11 the city tax. The collection of a local sales tax
12 so imposed by a county shall commence on January first
13 following passage of the resolution imposing it."

14 5. "A local sales tax at a rate of not more than one
15 one percent may be imposed by a city or town on the
16 gross receipts from the sale or use of tangible
17 personal property subject to the state sales tax and
18 from the services subject to the state tax. A local
19 sales tax shall be imposed on the same basis as the
20 state sales, services and use tax and may not be
21 imposed on the sale or use of any tangible personal
22 property not taxed by the state. A local sales tax
23 is applicable only within the territorial limits of

24 the city or town imposing it and shall be collected
25 by all persons required to collect state sales,

Page 3

1 services and use taxes.

2 The amount of the sale, for purposes of determining
3 the amount of the local sales and use tax, does not
4 include the amount of the state sales and use tax.

5 No sales and use tax permit, other than the state
6 sales and use tax permits, may be required."

7 6. "The director of revenue shall administer the
8 provisions of a local sales tax as nearly as possible
9 in conjunction with the administration of state tax
10 laws. He shall provide appropriate forms, or provide
11 on the regular state tax forms, for reporting local
12 sales tax liability.

13 An ordinance or resolution imposing a local sales
14 tax shall adopt by reference the applicable provisions
15 of the appropriate sections of chapters four hundred
16 twenty-two (422) and four hundred twenty-three (423)
17 of the Code, and all powers of the director to admin-
18 ister the state sales and use tax law are applicable
19 to his administration of a local sales tax ordinance
20 or resolution. Local officials shall confer with
21 the director of revenue and obtain his assistance
22 in drafting the ordinance or resolution imposing a
23 local sales tax. A certified copy of the ordinance
24 or resolution imposing a local sales tax shall be
25 filed with the director as soon as possible after

Page 4

1 passage.

2 The director, in consultation with local officials,
3 shall collect and account for a local sales tax.
4 The director shall retain for the use of the department
5 one percent of all local sales tax receipts, to cover
6 administrative expense, and shall credit remaining
7 net local sales tax receipts to a local sales tax
8 fund hereby established in the office of the treasurer
9 of state."

10 7. "The treasurer of state shall remit quarterly
11 to the qualified cities and towns which have imposed
12 a local sales tax their share of the balance in the
13 local sales tax fund.

14 The city or town treasurer, or another city official
15 designated by the council, shall apply three-fourths
16 of all local sales tax money estimated to be received
17 for property tax relief. Before the levies authorized
18 under section four hundred four point two (404.2)
19 of the Code are certified to the county auditor, they
20 shall comply with legal mill limits and the certifying
21 official shall subtract from the total amount computed
22 in dollars, as provided in section four hundred forty-
23 four point two (444.2) of the Code, an amount equal
24 to the amount estimated for property tax relief during
25 the next twelve month period, and shall certify only

Page 5

1 the net amount to the county auditor and board of
2 supervisors. The county auditor shall base the millage
3 levies authorized under section four hundred forty-
4 four point three (444.3) of the Code upon the net
5 amount so computed. In order for a city or town to
6 be qualified to receive remittances from the treasurer
7 of state the city or town clerk shall certify to the
8 treasurer of state before January first of each year
9 that the required reduction in the amount certified
10 to the county auditor and board of supervisors for
11 city or town taxes has been made. All local sales
12 and use tax moneys received by a city or town may
13 be expended for any lawful municipal purpose."

14 8. "If two or more cities and towns impose an
15 authorized local tax jointly, the treasurer of state
16 shall credit the receipts to a joint account, and
17 shall remit to each qualified city or town a pro rata
18 share of the joint account, according to population
19 figures determined by the last federal census. The
20 share remitted to each city and town shall be applied
21 and expended as provided for local taxes imposed by
22 a single city or town.

23 If an authorized local tax is imposed countywide,
24 the treasurer of state shall credit the receipts to
25 a joint account, and shall remit to each qualified

Page 6

1 city or town in the county a pro rata share of the
2 joint account, based upon the percentage of its popula-
3 tion to the total population of the county, and to
4 the board of supervisors, when the county is qualified,
5 a pro rata share of the joint account based upon the
6 percentage of population in the county outside of
7 cities and towns, the rural portion according to the
8 population determined by the last federal decennial
9 census. The share remitted to each city and town
10 shall be applied and expended as provided for local
11 taxes imposed by a single city or town.

12 The share remitted to the board of supervisors
13 may be used for any lawful county government purpose.
14 However, the county treasurer shall credit one-half
15 of all local sales tax moneys estimated to be received
16 for property tax relief. Before the levies authorized
17 under section four hundred forty-four point nine
18 (444.9) of the Code are made, they shall comply with
19 legal mill limits and the board of supervisors shall
20 subtract from the total amount computed in dollars,
21 as provided in section four hundred forty-four point
22 two (444.2) of the Code, an amount equal to the amount
23 estimated for property tax relief during the next
25 twelve month period, and shall base the millage levies
26 authorized under section four hundred forty-four point

Page 7

1 nine (144.9) of the Code upon the net amount so
2 computed. In order for a county to be qualified to
3 receive remittances from the treasurer of state, the
4 board of supervisors shall certify to the treasurer
5 of state before January first of each year, that the
6 required reduction has been made.”
7 9. “Upon receipt of a petition signed by voters
8 within the city or town, or county in case of a county
9 tax, equal in number to at least ten percent of the
10 number of votes cast for governor at the last preced-
11 ing general election within the local taxing jurisdic-
12 tion, requesting that an election be held, the city
13 or town council, or board of supervisors in the case
14 of a county tax, shall not less than twenty nor more
15 than forty-five days after receipt of the petition
16 submit to the voters of the city or town or of the
17 county at a special election called for that purpose,
18 the question of approval or disapproval of the tax.
19 Such a petition may be received only during the sixty
20 days prior to the last certifying date of a budget
21 in the second or any subsequent year following the
22 beginning of collection of the tax. Prior to the
23 special election the governing body shall publish
24 notice of the election once each week for two
25 consecutive weeks in a newspaper of general circulation

Page 8

1 serving the city or town, or in two newspapers of
2 general circulation in the county in the case of a
3 county tax.
4 If a majority of those voting favors the tax, the
5 governing body may continue to impose the tax. If
6 a majority of those voting thereon vote to discontinue
7 the tax, it shall cease to be collected at the end
8 of the calendar year in which the election is held,
9 the ordinance or resolution shall stand repealed as
10 of December thirty-first following the election, and
11 the governing body may not impose the tax under the
12 authority of this Act for collection within one year
13 following discontinuance of collection caused by the
14 election, and then only if a new resolution or ordi-
15 nance is passed. The governing body at any time may
16 discontinue the tax, but an election may not be held
17 oftener than once a year.”

19 following new section:

9 312.3.] Whenever a special federal census is hereafter
10 taken by any city or town, the mayor and council shall
11 certify the said census as soon as possible to the
12 secretary of state and to the treasurer of state as
13 otherwise herein provided, and failing to do so, the

INTRODUCTION OF BILL

Senate File 571, by committee on law enforcement, a bill for an act relating to the effective date of the act regulating motor vehicle odometers.

Read first time and placed on calendar.

EXPLANATION OF VOTE

I voted against the final passage of Senate File 565 because of the failure of the amendment enabling the department of social services to hire and discharge county office employees; these employees are supervised by the state, their jobs are defined by the state, and they are paid by the state. Since the department has the responsibility to fairly administer and account for over \$184,000,000 in funds it should also have the authority to manage the use of these funds. We must fix responsibility and authority at all levels of state government and demand accountability in the management of the state's economic resources.

ADOPTION OF SECOND CONFERENCE COMMITTEE REPORT**House File 654**

Senator Rhodes called up for consideration the following report:

REPORT OF SECOND CONFERENCE COMMITTEE

We, the undersigned members of the second conference committee appointed to consider the difference between the Senate and the House of Representatives on House File 654, a bill for an act relating to state aid for schools, school district property taxes, imposing a school district income tax, providing administration by the director of revenue, adopting provisions relating to the state individual income tax, relating to the corporate income tax, and providing aid to cities, towns and counties from sales tax receipts, respectfully submit the following recommendations:

1. That the Senate recede from its amendment to the bill as amended and passed by the House.
2. That House File 654, as amended, passed, and reprinted by the House, be amended by striking everything after the enacting clause and inserting in lieu thereof the following:

DIVISION I

Section 1. **STATE SCHOOL FOUNDATION PROGRAM.** This division establishes a state school foundation program. For the school year beginning July 1, 1972, and each succeeding school year, each school district in the state is entitled to receive state school foundation aid, which shall be an amount per pupil in fall enrollment equal to the difference between the amount per pupil in fall enrollment of foundation property tax plus miscellaneous income in the district, and the state foundation base or the district cost per pupil, whichever is less. However, if the amount so determined for any district is less than two hundred dollars per pupil in fall enrollment, the district is entitled to receive not

less than two hundred dollars per pupil in fall enrollment except when a district's total general fund millage rate for the school year beginning July 1, 1972, or any succeeding school year, is reduced to ninety percent of the district's total general fund millage rate for the school year beginning July 1, 1970. In this case the district is entitled to receive only that portion of the two hundred dollars per pupil necessary to retain that ten percent reduction.

Sec. 2. FOUNDATION PROPERTY TAX. Each school district shall cause to be levied each year beginning in 1972, for the school general fund, a foundation property tax of twenty mills per dollar of assessed valuation on all taxable property in the district. For the purpose of this division, a school district is defined as a school corporation organized under chapter two hundred seventy-four (274) of the Code. Each county auditor shall certify to each school district within the county and to the state comptroller, not later than October first each year, the assessed valuation of taxable property for the current year in each school district within the county.

Sec. 3. STATE FOUNDATION BASE. The state foundation base for the school year beginning July 1, 1972, is seventy percent of the state cost per pupil. For each succeeding school year the state foundation base shall be increased by the amount of one percent of the state cost per pupil, up to a maximum of eighty percent of the state cost per pupil. The district foundation base is the larger of the state foundation base or the amount per pupil in fall enrollment which the district will receive from foundation property tax, miscellaneous income, and state school foundation aid.

Sec. 4. FALL ENROLLMENT. Fall enrollment shall be determined by adding the resident pupils who are enrolled on the second Friday of September of each year in public elementary and secondary schools of the district, and in special education classes for which tuition is paid by the district whether the special education class is conducted by a county board of education or another school district.

Shared-time and part-time pupils of school age shall be counted in the proportion that the time for which they are enrolled or receive instruction for the school year bears to the time that full-time pupils carrying a normal course schedule, at the same grade level, in the same school district, for the same school year, are enrolled and receive instruction.

Each school district shall certify its fall enrollment to the state department of public instruction by September twenty-fifth of each year, and the information shall be promptly forwarded to the state comptroller.

Sec. 5. MISCELLANEOUS INCOME. Miscellaneous income is all revenues of a school district general fund budget, exclusive of federal aid provided under title twenty (20), chapter thirteen (13), of the United States Code,

the foundation property tax, the state school foundation aid, guaranteed state aid, the additional school district property tax levy, any supplemental aid distributed by the school budget review committee and any school district income surtax imposed in the district.

Sec. 6. DISTRICT COST. As used in this division, "district cost" means the total expenditures or anticipated expenditures of a district which are payable from the school general fund, exclusive of federal aid provided under title twenty (20), chapter thirteen (13), of the United States Code.

Sec. 7. ALLOWABLE GROWTH. Each year the state comptroller shall compute the state percent of growth by adding the percents of increase for the second and third years of the most recent three-year period for which accurate figures are available, for each of the following sources of revenue, and dividing the total by four:

1. State general fund revenues, adjusted for changes in rates or basis.

2. Statewide assessed valuation of taxable property, adjusted for statewide changes in assessment practices.

Each year the state comptroller shall compute the dollar equivalent of the state percent of growth by multiplying the state cost per pupil for the preceding school year by the current state percent of growth, except that this dollar equivalent is limited to a maximum amount of forty-six dollars for the school year beginning on July 1, 1972, forty-eight dollars for the school year beginning on July 1, 1973, and fifty-one dollars for the school year beginning on July 1, 1974. As used in this division, "allowable growth" means the dollar equivalent of the state percent of growth.

Sec. 8. STATE COST PER PUPIL. The state cost per pupil for the school year beginning July 1, 1971, is nine hundred twenty dollars. The state cost per pupil for the school year beginning on July 1, 1972, and for each succeeding school year is the previous year's state cost per pupil plus the allowable growth. If the state percent of growth is zero or less, the state cost per pupil shall be the same as the previous year's state cost per pupil.

Sec. 9. MAXIMUM GENERAL FUND BUDGET AND ADDITIONAL SCHOOL DISTRICT PROPERTY TAX LEVY.

1. The state comptroller shall determine the additional school district property tax levy for each school district, which is in addition to the foundation property tax levy, as follows:

- a. The district cost per pupil in fall enrollment for the current school year ending June thirtieth each year, plus the allowable growth, determines the district cost per pupil for the school year beginning July first each year. However, if the district cost per pupil

in fall enrollment for the current school year ending June thirtieth each year exceeds one hundred ten percent of the state cost per pupil, the school budget review committee shall review the proposed budget and establish the amount of allowable growth for that district, not to exceed the limitations in section seven (7) of this division.

b. The district cost per pupil multiplied by the estimated fall enrollment for the school year beginning July first each year, determines the maximum district cost for each district. A school district may not exceed its maximum district cost unless additional millage is authorized or supplemental state aid is distributed to the district by the school budget review committee as provided in section thirteen (13), subsection five (5), of this division, or unless an additional amount is raised by a school district income surtax approved by the voters.

c. The district foundation base multiplied by the number of pupils in fall enrollment, and the product subtracted from the lesser of the actual or maximum district cost for the school year beginning July first each year, determines the amount to be raised by the additional school district property tax levy, subject to the maximum millage provided in section ten (10) of this division, any additional millage authorized by the school budget review committee under section thirteen (13), subsection five (5), paragraph a, of this division, or the maximum millage reduction provided in section twenty-one (21) of this division.

2. No later than December first of each year, the state comptroller shall notify the county auditor of each county the amount, both in dollars and mills, of the additional property tax levy in each school district in the county. Each county auditor shall spread the additional property tax levy for each school district over all taxable property in the district.

3. a. A county board of education or joint county board of education shall not certify for the fiscal year commencing July 1, 1972, or the fiscal year commencing January 1, 1973, or any succeeding fiscal year, an amount of money to be raised by property taxes for the general fund budget in excess of the amount of money raised by property taxes for general fund expenditures for its last preceding fiscal year, plus an amount determined by multiplying the state percent of growth determined under section seven (7) of this division by the amount raised by property taxes for the general fund budget for its last preceding fiscal year.

b. In addition to the amounts provided in paragraph a of this subsection, a county board of education or joint county board of education may certify and receive moneys to expand special education programs for the

fiscal year commencing July 1, 1972, or January 1, 1973 or any succeeding year. However, this exception applies only to those special education programs or courses which would have qualified for state reimbursement pursuant to chapter two hundred eighty-one (281) of the Code, as interpreted by the rules and regulations of the state department of public instruction effective on July 1, 1970.

c. If, for any school year, responsibility for a special education pupil is transferred from a school district to a county or joint county board of education, or from a county or joint county board of education to a school district, the moneys budgeted for that pupil shall be transferred to the district or board which accepts responsibility for the pupil, or a proportionate amount shall be transferred if the change is made during the school year.

Sec. 10. MAXIMUM MILLAGE LEVY. For the purpose of determining the maximum millage levy in a school district, the state comptroller shall determine the sum of the foundation property tax levy and the additional property tax levy, in mills. When this total millage rate exceeds the district general fund levy in mills for the school year which began July 1, 1970, he shall adjust the district general fund millage levy to a rate equal to the millage levy for the school year beginning July 1, 1970, unless additional millage is approved by the school budget review committee, as provided in section thirteen (13), subsection five (5), paragraph a, of this division.

Sec. 11. GUARANTEED STATE AID. For the school year beginning July 1, 1972, and for the next four succeeding school years, the state shall provide specific funds, called guaranteed state aid, to any school district in which the maximum millage, excluding any additional millage approved by the school budget review committee, plus the district's miscellaneous income and state school foundation aid, does not meet the actual or maximum district cost, whichever is less.

There is hereby appropriated from the general fund of the state to the department of public instruction moneys sufficient to pay the guaranteed state aid provided in this section. The state comptroller shall pay this aid no later than May fifteenth of each year, beginning in 1973 for the school year beginning July 1, 1972.

Sec. 12. SCHOOL BUDGET REVIEW COMMITTEE. A school budget review committee is established, consisting of the superintendent of public instruction, the state comptroller, and three members appointed by the governor to represent the public and to serve three-year staggered terms. Those serving on the effective date of this division as public members of the school budget review committee established under prior law shall continue to serve out their unexpired terms as members of the

committee established under this section. The committee shall meet and hold hearings each year and shall continue in session until it has reviewed budgets of school districts, as provided in section thirteen (13) of this division. It may call in school board members and employees as necessary for the hearings. Legislators shall be notified of hearings concerning school districts in their constituencies.

The committee shall adopt its own rules of procedure. The superintendent of public instruction shall serve as chairman, and the state comptroller shall serve as secretary. The committee members representing the public are entitled to receive a per diem equal to the per diem of members of the board of public instruction, and their necessary travel and other expenses while engaged in their official duties. Expense payments shall be made from appropriations to the department of public instruction.

Sec. 13. DUTIES OF THE COMMITTEE.

1. The school budget review committee may recommend the revision of any rules, regulations, directives, or forms relating to school district budgeting and accounting, confer with local school boards or their representatives and make recommendations relating to any budgeting or accounting matters, and may direct the superintendent of public instruction or the state comptroller to make studies and investigations of school costs in any school district.

2. The committee shall report to each session of the general assembly, which report shall include any recommended changes in laws relating to school districts, and shall specify the number of hearings held annually, the reasons for the committee's recommendations, and other information as the committee deems advisable.

3. The committee shall review the proposed or certified budget of any school district if the district cost per pupil in estimated fall enrollment has increased over the district cost per pupil in fall enrollment for the previous year by more than the allowable growth of the district.

4. The committee may review the proposed or certified budget of any school district as follows:

a. If the budget shows district costs per pupil in estimated fall enrollment of more than the state cost per pupil.

b. If in the judgment of the committee, the budget shows the district cost to be unreasonably high in relation to the comparative cost factors of similar districts, even if the district cost per pupil in estimated fall enrollment does not exceed the state cost per pupil.

5. The committee may authorize a school budget in excess of limitations provided in sections nine (9) and ten (10) of this division as follows:

a. If a nonpublic school within a district closes wholly or in part, the committee may authorize an

increase in the school general fund millage beyond the maximum permitted under section ten (10) of this division, but only to the extent necessary to cover the cost of absorbing the former nonpublic school pupils into the public school system. The school board shall establish the amount of necessary increased cost to the satisfaction of the school budget review committee before an increase in millage is authorized.

b. Additional supplemental state aid may be paid to any district from any discretionary funds appropriated specifically to the committee for this purpose.

6. If the committee does not authorize a school district's budget, it shall state its recommendations in terms of a specific reduction in the district cost, and in terms of a projected reduction in the millage rate of the school district, and shall notify the school board of its recommendations through the state comptroller.

7. The committee, when making recommendations relating to school budgets, shall consider each district's circumstances and facts which are unique and unusual, including but not limited to any unusual increases or decreases in enrollments, natural disasters, unusual transportation problems, and initial staffing problems.

8. Failure by any school district to provide information or appear before the committee as requested for the accomplishment of review or hearing shall constitute justification for the committee to instruct the state comptroller to withhold any state aid to that district until the committee's inquiries are satisfied completely.

9. The school budget review committee may call in any county board of education for the purpose of reviewing its budget as it relates to the individual districts within the county.

Sec. 14. ELECTION TO EXCEED MAXIMUM DISTRICT COST.

If a school board wishes to exceed its maximum district cost, as determined under section nine (9) of this division, it shall first submit its proposed budget to the school budget review committee. The committee may approve the proposed budget or may make other recommendations, but if the board decides that the district should exceed its maximum district cost, and the committee has not authorized an additional millage or supplemental state aid as provided in section thirteen (13), subsection five (5), of this division, the board shall submit to the voters of the school district, at a regular or special school election held not later than September fifteenth, the question of whether the proposed budget shall be approved, and financed by a school district income surtax of a specified rate, or whether the district shall be limited to its maximum district cost.

If a majority of those voting approves the proposed budget and the specified school district income surtax rate, the surtax, determined as provided in section fifteen (15) of this division, may be imposed by resolution of the school board.

If the proposed budget and surtax does not receive approval by a majority of those voting, the school board shall reduce its general fund budget to an amount which does not exceed its maximum district cost.

The school board shall certify the result of an election required under this section to the county auditor, the school budget review committee, and the director of revenue, within ten days following the election. If a school district income surtax is approved, the school board shall publish notice of the surtax rate, as provided in chapter six hundred eighteen (618) of the Code.

Sec. 15. SCHOOL DISTRICT INCOME SURTAX.

1. If a school district income surtax is proposed by a school board, the state comptroller shall determine the rate of school district income surtax as follows:

a. Determine the excess amount needed.

b. Determine the total amount of state individual income tax as shown on the individual tax returns of persons residing in the school district on December thirty-first of the last preceding calendar year for which accurate figures are available or on the last day of a taxpayer's fiscal year ending within that calendar year. The director of revenue shall report this amount to the state comptroller as requested.

c. Divide the total amount of state individual income tax determined into the excess amount needed. The quotient is the school district income surtax rate which shall be imposed on the state individual income tax for the calendar year during which the school year begins, or for a taxpayer's fiscal year ending during that calendar year but after the date of the election approving the budget, and for subsequent years as provided in subsections two (2) and three (3) of this section, and shall be imposed on all individuals residing in the school district on December thirty-first of each calendar year, or on the last day of their fiscal year. As used in this section, "state individual tax" means the tax computed under section four hundred twenty-two point five (422.5) of the Code, less the deductions allowed in section four hundred twenty-two point twelve (422.12) of the Code.

2. A school district income surtax rate approved by the voters, or as much of it as may be necessary, shall continue to be in effect in that school district until the school board finds that the surtax or a part of it is unnecessary, or until the amount of the surtax is altered by another election. If a school board wishes to increase the district costs so that they cannot be met by the combination of maximum millage, state aid, miscellaneous income, and the approved school

district income surtax, the school board may hold another election to submit the question of whether to increase the surtax rate for the district, and may increase the rate only if an increase is approved by a majority of those voting.

3. At least once every five years, if a school district income surtax is found to be necessary, the school board shall submit to the voters of the school district, at a regular or special school election held not later than September fifteenth, the question of whether to continue imposition of the established rate of school district income surtax or of a lesser rate as necessary. If a majority of those voting does not approve the proposed school district income surtax rate, the school board shall reduce its general fund budget to an amount which does not exceed its maximum district cost.

Sec. 16. STATUTES APPLICABLE. The director of revenue shall administer any school district income surtax imposed under this division, and all the provisions of sections four hundred twenty-two point twenty (422.20), four hundred twenty-two point twenty-two (422.22) through four hundred twenty-two point thirty-one (422.31), inclusive, four hundred twenty-two point sixty-eight (422.68), and four hundred twenty-two point seventy-two (422.72) through four hundred twenty-two point seventy-five (422.75), inclusive, of the Code, shall apply in respect to administration of the school district income surtax.

Sec. 17. FORM AND TIME OF RETURN. The school district income surtax shall be made a part of the Iowa individual income tax return subject to the conditions and restrictions set forth in section four hundred twenty-two point twenty-one (422.21) of the Code.

Sec. 18. DEPOSIT OF SCHOOL DISTRICT INCOME SURTAX. The director of revenue shall deposit all moneys received as school district income surtax to the credit of each district from which the moneys are received, in a "school district income surtax fund" which is established in the office of the treasurer of state.

Sec. 19. SCHOOL DISTRICT INCOME SURTAX CERTIFICATION. On or before October twentieth each year, the director of revenue shall make an accounting of the school district income surtax collected under this division applicable to tax returns for the last preceding calendar year, or for fiscal year taxpayers, on the last day of their tax year ending during that calendar year and after the date of the election approving the surtax, from taxpayers in each school district in the state which has imposed a surtax, and shall certify to the state comptroller and the state department of public instruction the amount of total school district income surtax credited from the taxpayers of each school district. Additional returns in process, if any, at

the time of certification shall be completed and the additional amount of school district income surtax reported to the state comptroller for distribution back to the school district with the first installation of the following school year.

Sec. 20. SCHOOL DISTRICT INCOME SURTAX DISTRIBUTION.

The state comptroller shall draw warrants in payment of the amount of surtax payable to each of the school districts in two installments to be paid on approximately the first day of December and the first day of February, and shall cause the warrants to be delivered to the respective school districts.

Sec. 21. MAXIMUM MILLAGE REDUCTION. If the functioning of the state school foundation program established by this division causes a reduction in any school district, for the school year beginning July 1, 1972, of more than ten percent of the district's total general fund millage for the school year beginning July 1, 1970, the reduction for the school year beginning July 1, 1972 is limited to that ten percent, and the reduction for each of the school years beginning July 1, 1973, and July 1, 1974, is limited to ten percent of the preceding year's millage. However, if this limitation results in a district millage levy which raises more than the district needs to meet the lesser of its actual or maximum district cost, the ten percent limitation does not apply, and the district may reduce its millage as much as can be done without entitling the district to state school foundation aid. The state comptroller shall compute any maximum millage reduction required by this section, and shall notify the school boards accordingly.

Sec. 22. TENTATIVE BUDGET. Not later than December first for each ensuing fiscal year, the board of directors of each school district shall set a tentative budget in dollars of the amount the district may spend on each program in the system as defined by the school budget review committee and in the forms prescribed by the committee. This prospectus of program and allotted dollars as approved by the board shall guide the superintendent when preparing the proposed budget for that year. These limitations submitted by the board of directors to the superintendent of schools for the district shall be promptly forwarded to the committee.

Sec. 23. RULES AND REGULATIONS. The superintendent of public instruction, after consultation with the state comptroller, may adopt rules and regulations and definitions of terms as necessary and proper for the administration of this division.

Sec. 24. LOCAL BUDGET LAW. Provisions of chapter twenty-four (24) of the Code remain applicable to school budgets.

Sec. 25. ESTIMATES OF MISCELLANEOUS AIDS. No later than September first of each year, the department of

public instruction shall certify to the state comptroller the amounts of any state aids other than the amounts provided in this division that will be received by each school district in the state. In the event any estimate of state aids in any school budget certified to the auditor as provided by section twenty-four point seventeen (24.17) of the Code is more or less than the amount of state aids certified to the state comptroller by the department of public instruction as provided by this section, the state comptroller shall certify to the county auditors the final millage for each school district.

Sec. 26. APPROPRIATIONS. There is hereby appropriated each year from the general fund of the state an amount necessary to pay the state school foundation aid.

All state aids paid under this division, unless otherwise stated, shall be paid in installments due on or about September fifteenth, December fifteenth, March fifteenth, and May fifteenth of each year, and the installments shall be as nearly equal as possible as determined by the state comptroller, taking into consideration the relative budget and cash position of the state resources.

All moneys received by a school district from the state under the provisions of this division shall be deposited in the general fund of the school district, and may be used for any school general fund purpose.

Sec. 27. There is hereby appropriated from the general fund of the state to the department of public instruction for the year beginning July 1, 1972, and ending June 30, 1973, one million six hundred thousand (1,600,000) dollars, or so much thereof as may be necessary for reimbursing public school districts and county or joint county school systems for expenditures incurred in accordance with the provisions of section two hundred fifty-seven point twenty-six (257.26) of the Code.

Claims for reimbursement for the period beginning July 1, 1971, and ending June 30, 1972, shall be made by July 30, 1972, to the department of public instruction, clearly detailing the expenditures incurred, and in a form prescribed by the department.

As a condition to receiving reimbursement under this section, a school district shall show by affidavit of an officer of the school board that the amount of reimbursement claimed by the school district does not exceed one-half of the actual costs incurred by the district under section two hundred fifty-seven point twenty-six (257.26) of the Code, and does not include the portion of those costs for which the district received state school foundation aid. The claims for reimbursement shall be certified by the department of public instruction to the state comptroller on or before August 31, 1972. On or before September 15, 1972, the state comptroller shall draw warrants on the fund created

by this section, payable to the school districts which have established claims. In the event that the amount appropriated is insufficient to pay in full the total amounts certified to the state comptroller, he shall prorate the fund and notify each school district of its pro rata percentage on or before September 15, 1972.

Sec. 28. Section two hundred eighty-one point nine (281.9), Code 1971, is amended by adding the following new paragraph:

"This section applies to all existing programs to July 1, 1973, and to the continuation of such existing programs after July 1, 1973."

Sec. 29. Chapter two hundred eighty-one (281), Code 1971, is amended by adding the following new section:

"A school district, county board of education, or joint county board of education that provides special education as required by this chapter shall, prior to March 1, 1972, and each March first thereafter, apply to the department of public instruction, upon forms prescribed by the department, for qualification to receive reimbursement pursuant to this chapter. During the following fiscal year the department shall approve each application and qualification if the district, county board of education, or joint county board establishes all of the following:

1. That there are sufficient students within the area who are in need of the instruction.
2. That the applying unit is the unit that can best and most efficiently provide for the instruction without duplicating services otherwise provided, as opposed to another available educational unit.
3. That the unit has qualified teachers available.
4. That the instruction is a natural and normal progression of a planned course or courses of instruction, and that this progressive growth factor is not out of proportion to the ability of the educational unit to pay for the courses of instruction.
5. That all reimbursement sought is for actual delivery of special education services and not for administrative costs.
6. Other factors as the department may require.

There is hereby appropriated out of the general fund of the state to the department of public instruction beginning July 1, 1973, a sum sufficient to pay all approved applications for reimbursement pursuant to this chapter and this section, to the extent that the approved applications are for expanded special education programs beyond those programs provided for the fiscal year commencing July 1, 1971, or January 1, 1972, but only to the extent that the expanded programs would have qualified for state reimbursement pursuant to this chapter, as interpreted by the rules and regulations of the state department of public instruction effective on July 1, 1970."

Sec. 30. Section two hundred ninety-eight point one (298.1), Code 1971, is amended as follows:

298.1 SCHOOL TAXES. The board of each school corporation shall estimate the amount of the proposed expenditures and proposed receipts for the general school purposes at a time and in a manner to effectuate the provisions of [chapter 442] *sections 1 through 29, inclusive, of this Act*. Compliance with chapter 24 shall be observed.

[Prior to compliance with section 24.9, the superintendent of the county school systems shall call a joint meeting of school superintendents and school board members for all of the local districts within the county basic school tax unit. The time and place for such joint meetings shall be set by the superintendent of the county school system.]

[The purpose of the joint meeting shall be for a review of the budgets of the several school districts within the county basic school tax units, and for the discussion of common problems within the county basic unit.]

Sec. 31. Section four hundred twenty-two point thirty-five (422.65), Code 1971, is amended as follows:

422.65 ALLOCATION OF REVENUE. [Ten] *Fifty-five* percent of the total moneys received from the franchise tax shall be deposited in the state general fund. The remaining moneys received from the franchise tax shall be deposited in a franchise tax fund hereby established in the office of the treasurer of state, and shall be paid quarterly on warrants by the state comptroller, after certification by the director of revenue, as follows:

[1. Fifty percent to the basic school tax equalization fund of the basic school tax unit from which the tax is collected, to be distributed in the same manner as other funds in the basic school tax equalization fund.]

[2. Thirty] 1. *Sixty* percent to the general fund of the city or town from which the tax is collected.

[3. Twenty] 2. *Forty* percent to the general fund of the county from which the tax is collected.

If the financial institution maintains one or more offices for the transaction of business, other than its principal office, a portion of its franchise tax shall be allocated to each office, based upon a reasonable measure of the business activity of each office. The director of revenue shall prescribe, for each type of financial institution, a method of measuring the business activity of each office. Financial institutions shall furnish all necessary information for this purpose at the request of the director.

Quarterly, the director of revenue shall certify to the treasurer of state the amounts to be paid to each [basic school tax unit,] city, town, and county from the franchise tax fund. All moneys received from the franchise tax are hereby appropriated according to the provisions of this section. *This section is applicable*

to all funds collected on or after July 1, 1970.

Sec. 32. Effective January 1, 1972, section four hundred thirty A point three (430A.33), Code 1971, is amended as follows:

430A.3 LEVY. There is hereby imposed upon capital employed in the business of making loans or investments within the state of Iowa, as determined under the provisions of this chapter, a tax of five mills on each dollar of such capital; such tax to be considered a tax upon moneys and credits of such corporations which shall be levied by the board of supervisors, and placed upon the tax list and collected by the county treasurer. The amount collected in each taxing district in cities and towns shall be apportioned twenty percent to the county general fund, thirty percent to the city or town general fund, and fifty percent to the [basic school tax equalization fund] *general fund of the state*, and the amount collected in each taxing district outside of cities and towns shall be apportioned fifty percent to the county general fund and fifty percent to the [basic school tax equalization fund] *general fund of the state*. The term "loans" as used herein shall mean the lending of money to members of the general public upon other than real estate security. The term "investments" as used herein shall mean the discounting, purchasing, or otherwise acquiring notes, mortgages, sales contracts, debentures, or any other evidences of indebtedness, based upon other than real estate security when such investments are made in connection with loans made to members of the general public in the state of Iowa or in the courts of any operations having as their effect the financing of business transactions within the state of Iowa resulting in the incurring of any indebtedness based upon security other than real estate security.

Sec. 33. Effective July 1, 1972, chapter four hundred forty-two (442), Code 1971, is repealed. The provisions of this division shall control school general fund budgets for the school year beginning July 1, 1972, and the provisions of chapter four hundred forty-two (442) of the Code, as limited by House File one hundred twenty-one (121), Acts of the Sixty-fourth General Assembly, First Session, shall control school general fund budgets and the levy and distribution of school funds for the school year beginning July 1, 1971.

Sec. 34. Effective January 1, 1972, chapter five hundred thirty-three point twenty-two (533.22), Code 1971, is amended as follows:

533.22 TAXATION. A credit union shall be deemed an institution for savings and shall be subject to taxation only as to its real estate, tangible personal property, moneys and credits. The shares shall not be taxed.

The moneys and credits tax on credit unions is hereby imposed at a rate of five mills on each dollar of legal

Senator Walsh raised a point of order under Joint Rule 12, section 3, that the conference committee report did not confine itself to the amendments in question.

The Chair ruled the point not well taken and the report in order because it did limit itself to the same subject matter.

Senator Glenn raised a point of order that the conference committee report did not confine itself to the differences of opinion between the two houses and was, therefore, out of order pursuant to the joint rules of the House and Senate as interpreted further by Mason's Manual of Legislative Procedure, Sec. 770, Paragraph 2.

The Chair ruled the point not well taken, for the reason that the key word, "objectionable", of this section does not give specific direction on the subject in question. Objectionable is the descriptive form of the noun objection. Webster's dictionary defines objection as a reason or argument presented in opposition: a feeling of disapproval. Legislative action usually includes reasoning, debating and sometimes arguing. Furthermore, a legislator may express his "feeling of disapproval" on any issue by reasoning, debating or arguing and finally recording his disapproval by registering a "No" vote. The Chair rules that Paragraph 2, Sec. 770, of Mason's Legislative Manual does not substantiate nor justify the request that the second conference committee report on House File 654 be ruled out of order. In addition, the Chair called the attention of the Senate to the remainder of Paragraph 2 which says: "Objection to form must be made at the time the report is introduced, and if not made at that time is not in order at a later period." The objection in this instance was made after over forty minutes of debate.

Senator Glenn appealed from the ruling of the Chair.

The Chair put the question: "Shall the ruling of the Chair stand as the judgment of the Senate?"

A communication was received announcing that on June 11, 1971, the Governor approved and transmitted to the Secretary of State the following bill:

H. F. 347—Relating to the dispossession of a landowner under condemnation proceedings for highway purposes.

EXPLANATION OF VOTE

The following Democratic members of the Iowa Senate voted against the appropriations to the board of regents as a protest since it was our feeling that the appropriation as passed was totally inadequate for continuing a high level of educational progress in Iowa established in the past several years. Under this appropriation the universities will be in serious difficulty. The 50,000 young people in our state schools will be shortchanged. The lack of a salary increase for the thousands of conscientious regents employees forces them to subsidize the State of Iowa. We protest this miserly treatment. For these reasons, we voted "no" on this regressive measure.

EXPLANATION OF VOTE

I voted "no" on the Glenn appeal from the ruling of the Chair found on page 1803 of the Senate Journal. This motion is never made in the Iowa Senate and in my time has never been voted upon in the Senate. It violates all precedence and tradition which has been so carefully guarded and nourished through the years. Republicans and Democrats, though not always agreeing, have always respected all rulings of the Chair whether made by a Democrat or Republican Lieutenant Governor.

This is as it should be because if we do not have respect for our presiding officer, we have nothing. It was possible that the Senator from Wapello was not fully aware of this Senate tradition, however, he was informed of it and urged to withdraw his motion. He did not do so and it was overwhelmingly defeated by a vote which included Senators of both political parties. This was especially gratifying to me and I am hopeful that this nonpartisan vote will help remove somewhat the tarnishment of the image of the Iowa Senate by the placing of this motion.

RICHARD L. STEPHENS

SENATE CONCURRENT RESOLUTION 45

By Keith, Shaff, Potter, Nicholson and Van Gilst

Whereas, the educational standards, which prescribe a minimum curricula for all public, parochial, and private nursery, kindergarten, elementary, junior high, and senior high schools, were enacted in 1965 and have remained relatively unchanged for six years; and

Whereas, a new school aid plan has recently been enacted which places limitations on spending by individual school districts; and

Whereas, compliance with educational standards by individual school districts is mandatory, and providing the minimum curricula requirements by statute may require school districts to increase their budgets, *Now Therefore*,

Be It Resolved by the Senate, the House of Representative Concurring, That the legislative council be authorized to create a study committee consisting of legislative members from both political parties and both houses of the General Assembly for the purpose of studying the statutory educational standards and proposing any changes that appear to be necessary in order to provide for a meaningful minimum curriculum for the students of Iowa; and

Be It Further Resolved, That the study committee make periodic reports to the legislative council and shall submit a final report, including necessary bill drafts to implement its recommendations, to the legislative council. Copies of the report approved by the legislative council shall be submitted to the General Assembly meeting in the year 1972.

SENATE CONCURRENT RESOLUTION 46

By Lamborn and Gaudineer

Whereas, large numbers of resolutions have been introduced in both the Senate and the House of Representatives calling for interim studies of numerous state functions; and

Whereas, in the waning hours of the First Session of the Sixty-fourth General Assembly it is impractical to accurately determine during floor debate the amount of hours of staff time required to complete such studies, within the limitations of funds which will be available, and assign precise priorities;

Now, Therefore, Be It Resolved by the Senate, the House Concurring: That all resolutions calling for interim studies by the Legislative Council and by the Legislative Service Bureau which have not been adopted in both houses be delivered to the President pro tempore, on the part of the Senate, and the Speaker of the House, on the part of the House, for consideration by the Legislative Council, which shall determine priorities and authorize such studies as may be feasible within the limits of the staff, time and funds available.

EXPLANATION OF VOTE

I voted "nay" on the conference committee report on House File 654 on June 11, 1971, for several reasons. First, I believe the General Assembly should have introduced economy in government by implementing the Governor's Economy Committee recommendations before imposing a substantial tax increase on the citizenry; second, some six hundred high income Iowans will pay no state income tax this year because of loopholes (which Senate File 505 would close) while the low and average wage earner will feel the brunt of the income tax increase; third, House File 654 falls far short of providing needed financial aid for cities or meaningful property tax relief for low income elderly. While the members of both conference committees deserve commendation for their conscientious labors to produce a plan, which plan is not without merit, I could not vote for the report for the foregoing reasons.

MOTION TO RECONSIDER

MR. PRESIDENT: I move to reconsider the vote by which House File 537 passed the Senate.

JAMES A. POTGETER

EXPLANATION OF VOTE

I voted "yes" on the appeal from the ruling of the Chair found on page 1803 of the Senate Journal.

Mason's Manual of Legislative Procedure, Sec. 230, Paragraph 1, provides that the proper method of taking exception to a ruling of a presiding officer is by appeal. It is a motion of right available to all members, as inherent authority to interpret and apply its rules must lie with the entire parliamentary body. An individual Senator's respect for the presiding officer is in no way diminished by an exception to his ruling; reasonable men may disagree within the framework of democratic government. An apparent tradition of many-years standing should not be urged to intimidate members from exercising the full panoply of prerogatives vested in the body.

The Conference Committee on the school aid and tax measure failed to limit its recommendations to the differences between the two houses. Arbitrarily, it eliminated the "census child" provision—concurred in by both the House and Senate—from its report. Rule 12, Joint Rules of the House and Senate, provides that the authority of the committee shall be *limited to* recommendations regarding the subject matter of the amendment or amendments which were insisted upon by the house requesting the conference committee. By way of further interpretation Mason's provides that a report of a conference committee is objectionable in form if the committee has not confined itself to differences of opinion between the two houses. The word "objectionable", in the context of Mason's, would appear to constitute a bar to further proceeding unless overcome by appropriate motion and vote to suspend the rules.

The timeliness of the objection was also placed in issue, as Mason's provides such objection must be made at the time the report is introduced. The Senate Journal of June 11 indicates that Senator Walsh had previously raised a similar point of order, with the presiding officer holding the point not well taken because "it did limit itself to the same subject matter."

My further research supported a contrary conclusion, so the point of order was renewed at the earliest opportunity with the additional reliance upon Mason's Manual of Legislative Procedure.

The appeal was made in the interests of principle, not partisanship, and should be considered as adding a new dimension to the finest traditions of the Iowa Senate.

GOVERNOR'S ITEM VETO MESSAGE

June 16, 1971

The Honorable Roger W. Jepsen
Lieutenant Governor of Iowa
State Capitol
Local

Dear Governor Jepsen:

I have on this date signed and transmitted to the Secretary of State's Office Senate File 543, an appropriation bill, with the exception of item 2, designated as section 2 of the said bill which I disapprove.

Pursuant to Amendment 4 of the 1968 Amendments to the Constitution of the State of Iowa, I hereby return to the Senate item 2, designated as section 2 of Senate File 543, being an item of this appropriation bill.

This said item that I am unable to approve reads as follows:

"Sec. 2. Plans and specifications for improvements for which funds are appropriated by this Act or previous Acts of the general assembly shall be submitted by the department of social services to the budget and financial control committee for approval, except that items commonly known as change orders need not be submitted to the budget and financial control committee unless such change orders increase the total cost of that particular project."

I have disapproved this section because it violates the constitutional separation of the legislative and the executive branches of government. If the budget and financial control committee performed its duties under this section and exercised the powers given to it, the committee would be acting in an executive capacity or using delegated legislative powers. In either situation, they would be acting unconstitutionally. (1963 OAG 44, June 14, 1963)

We have been operating under a system whereby the executive council approves plans and specifications for improvements for which funds are appropriated by the General Assembly. This is a reasonable and working arrangement with the responsibility resting not only with the departments affected by the appropriation, but also with elected officials in the executive branch of government. These are people whose positions are fulltime and who provide interim safeguards for the system of state government.

Therefore, I am returning this item of Senate File 543 to the Senate

where this appropriation bill originated pursuant to Amendment 4 of the 1968 Amendments to the Constitution of the State of Iowa.

Very truly yours,
ROBERT D. RAY
Governor

22 Nor shall anything in sections ten (10) through twenty-

1 imposing controls stricter than those required by
2 sections ten (10) through twenty-three (23), inclusive,
3 of this Act.

6 date the nonconformity occurs. However, no sign shall
7 be acquired or be required to be removed pursuant to
8 sections ten (10) through twenty-three (23), inclusive,
9 of this Act unless the commission has received
10 notification from the federal government that the federal
11 share of "just compensation" to be paid is immediately
12 available to contribute to the cost of acquisition or
13 removal. This section shall not apply to the acquisition
14 or removal of signs for which no federal share is

20 may deem necessary. Upon receipt of an application
21 containing all required information in due form and
22 properly executed, together with a permit fee of five

17 three (23), inclusive, of this Act or rules and
18 regulations promulgated by the commission if it is not
19 prohibited.

20 1. If the landowner or owner of the sign fails to
21 act within thirty days as required in the notice, the
22 commission may enter upon the land and remove the sign.
23 Such entry after notice, shall not be deemed a trespass
24 and the commission may be aided by injunction to abate
25 the nuisance and to insure peaceful entry.

Page 20

1 2. The cost of removal, including any fees and costs
2 or expenses as may arise out of any action brought by

4 shall be assessed against the owner of the sign. Should
5 the owner of the sign fail to promptly pay such fees,
6 costs, or expenses, the commission shall proceed to

8 the same. Any balance from the total receipts of the
9 sale after deducting all fees, costs, and expenses,
10 including those of the sale, shall be paid to the owner
11 of the sign; however, if in the opinion of the commis-

1 and appropriations to the state and to avoid loss or
2 reduction, under Title twenty-three (23), section one
3 hundred thirty-one (131), of the United States Code,

12 States Code. The commission shall take such steps as
13 may be necessary to obtain from the United States or
