By Gluba, Lamborn, Kennedy, Schaben, Coleman, Rodgers, Heying, Gallagher, Taylor, Hill, Blouin, Nystrom, Kinley, Miller of Des Moines, Tieden, Scott, Briles, Nolin, Bergman, Robinson, Curtis, Van Gilst and Priebe

Whereas, the United States Supreme Court, in its recent rulings on abortion, *Roe v. Wade* and *Doe v. Bolton*, repudiated the will of the people of Iowa as expressed by a vote of the Iowa House of Representatives in 1971 and by the Iowa Senate in 1969 to retain Iowa's abortion law and to protect the value of human life; and

Whereas, respect for the potentiality of human life should be a hallmark of civilized society; and

Whereas, the United States Supreme Court has denied the right to life of unborn human beings; and

Whereas, the moment of birth represents merely an identifiable point along the course of human development and not the beginning of human life; and

Whereas, a threat against the right to life of any individual member of a society imperils the right to life of every other member of that society; and

Whereas, abortion is a negative, destructive and cruel act, *Now Therefore*,

Be It Resolved by the Senate, That the Congress of the United States should speedily propose to the states for their ratification an amendment to the United States Constitution substantially in the following form:

"Article

"Section 1. With respect to the right to life, the word 'person', as used in this article and in the fifth and fourteenth articles of amendment to the Constitution of the United States applies to all human beings, including their unborn offspring at every stage of their biological development, irrespective of age, health, function, or condition of dependency.

"Sec. 2. This article shall not apply in an emergency when a reasonable medical certainty exists that continuation of the pregnancy will cause the death of the mother.

"Sec. 3. Congress and the several States shall have power to enforce this article by appropriate legislation within their respective jurisdictions."; and

Be It Further Resolved, That the Secretary of State of this state transmit copies of this resolution to the Speaker of the United States House of Representatives, the President of the United States Senate, the Chairman of the Judiciary Committees of the United States House of Representatives and the United States Senate and to Iowa Representatives and Senators in Congress.

SENATE RESOLUTION 11

Whereas, the United States Supreme Court, in its recent rulings on abortion, *Roe v. Wade* and *Doe v. Bolton*, repudiated the will of the people of Iowa as expressed by a vote of the Iowa House of Representatives in 1971 and by the Iowa Senate in 1969 to retain Iowa's abortion law and to protect the value of human life; and

Whereas, respect for the potentiality of human life should be a hallmark of civilized society; and

Whereas, the United States Supreme Court has denied the right to life of unborn human beings; and

Whereas, the moment of birth represents merely an identifiable point along the course of human development and not the beginning of human life; and

Whereas, a threat against the right to life of any individual member of a society imperils the right to life of every other member of that society; and

Whereas, abortion is a negative, destructive and cruel act; and

Whereas, regulation in the area of abortion has historically belonged to state legislature, *Now Therefore*,

Be It Resolved by the Senate, That the Congress of the United States should speedily propose to the states for their ratification an amendment to the United States Constitution delegating exclusive responsibility to the several states of the United States to legislate the rights of a person from conception until birth of that person; and

Be It Further Resolved, That the Secretary of State of this state transmit copies of this resolution to the Speaker of the United States House of Representatives, the President of the United States Senate, the Chairman of the Judiciary Committee of the United States House of Representatives and the United States Senate and to Iowa Representatives and Senators in Congress.

SENATE CONCURRENT RESOLUTION 56

Be It Resolved by the Senate, the House of Representatives Concurring, That the legislative council create a study committee to conduct during the 1973 interim a detailed study of the local budget process, sources available to fund local government operations and the types of expenditures which should be allowed, including any limitations which should be placed on the several funds; and

Be It Resolved by the Senate, the House of Representatives Concurring, That the legislative council create a committee consisting of members of the appropriate standing committees of the house and senate to conduct a study during the 1973 interim of the means by which insurance companies should be required to contribute to the revenues of the state of Iowa and the lawful methods by which said fair share should be collected; and

By Gluba (Cusack and Higgins)

Whereas, the settlement of Spanish-speaking persons in the state of Iowa has created a minority group, the members of which are dispersed through the state and whose special needs have not been recognized; and

Whereas, the problems confronted by Spanish-speaking citizens of the state of Iowa in the fields of education, employment, health, housing, welfare, and recreation are intensified by the special problems of language; and

Whereas, a survey of the needs of Spanish-speaking persons is necessary in order to foster public awareness of the possibilities available to enable such persons to assume an active role in their individual communities

and to obtain the benefits of society offered to English-speaking Iowans; and

Whereas, the state of Iowa has an obligation to assist these most valued citizens in meeting their special problems, *Now Therefore*,

Be It Resolved by the Senate, the House of Representatives Concurring, That the legislative council create a study committee, which shall consist of ten members of the General Assembly and nine nonlegislative members representing the districts drawn in Senate File 424, as introduced during the First Session of the Sixty-fifth Iowa General Assembly, to look into the quality of life of Iowa's Spanish-speaking people in order to evaluate existing programs serving Spanish-speaking people, and to study methods for dealing with the needs of Spanish-speaking people, including but not limited to, the possible establishment of a Chicano information center in the state of Iowa; and

OFFICE OF THE GOVERNOR

State Capitol
Des Moines, Iowa 50319

The Honorable Arthur A. Neu
President of the Senate
Sixty-fifth General Assembly
State Capitol
Des Moines, Iowa

Honorable Members of the General Assembly:

The Associated Press, in a wrap-up story on June 25, the day following

adjournment, reported that you, the Iowa Legislature, "tackled one of the most ambitious legislative programs ever laid out by an Iowa Governor and in the final analysis passed a wide range of important legislation."

For this record I am grateful and time will establish the gratitude of people all over our State.

What kind of a session was this one?

It was a session that saw more than 1,400 bills introduced in both Houses. Some 316 of these bills were enacted of which 124 will reach my office following adjournment. Therefore, even as this message is delivered to you, a portion of your work product remains for my review.

This was a session that produced much pace-setting legislation for the common good of Iowans—and just as important—rejected proposed legislation which would not have advanced the common good. Both kinds of contributions are beneficial.

In my Inaugural Message of January 11, I stated that "your purpose is not to see how you can advance yourselves either as individuals or as a legislative body; your charge is to do what you can to advance our people and the quality of life in our State."

As we total up the results of this session, there is much evidence that an honest effort was made to live up to that charge.

At the beginning of this session, I found strong support for the three principal priorities that I outlined for Iowa. You can point to accomplishment in all three of these basic and important areas: specific and tangible assistance for our elderly people; a noticeable attack on property tax, and support for well-balanced education in Iowa.

Solid achievements in all of these categories—had you done nothing else—were of a magnitude great enough to earn for this Assembly a place of honor in Iowa history.

Already the measure providing property tax relief for low income elderly and disabled homeowners and renters has been hailed by many as one of the most important steps toward government responsiveness. This can be truly said, for with this action you have touched the lives of literally thousands of Iowans who have earned our respect and most certainly deserve our support.

Also important, in my judgment, were the ways in which we have continued to move Iowa from a disproportionate reliance on property tax. By shifting the cost of welfare from local property tax rolls to state financing we have again chipped away at the burden of our property taxpayers. And, by accepting proposals for funding and improving Iowa's innovative and progressive school foundation plan, you have made it possible for us to move closer to having more than half of local school financing derived from sources other than property tax.

You have lightened the income tax load for our low income citizens and you have wisely recognized the benefit to our entire economy as you removed the personal property tax from our important livestock industry.

While we have insisted on the elimination of personal property taxes as the state could afford it, you quickened the cadence by your 10-year phase-out legislative program. This action prompts two concerns, however: One, the impossibility of forecasting, with assured accuracy, the economic future and two, the lack of a precise definition of personal property.

The second point can be corrected directly by future legislation.

You did provide wisely for a safeguard in the event the economic growth rate does not reach 5.5 percent a year. And, you did prevent the amount to be replaced from over-inflating.

Education is a many-faceted field of high priority. It always attracts

controversy and disagreement because everyone has witnessed and experienced some part of it and therefore has an opinion.

In this session, I compliment you for your refusal to slight the importance of education. Education of our people will determine our Iowa of the future.

You have recognized the necessity of providing our young people, regardless of what school they might attend, with what we call auxiliary services. That action is laudatory and I compliment you for it, in spite of the fact that it is being tested in court.

You have provided strong and meaningful help for our students who wish to attend college but would have little choice of schools if it were not for the Tuition Grant program; likewise, you have expressed your approval in a concrete way to our young people who seek vocational and career training to be productive and important citizens of our society.

In addition to keeping faith with our young people in educational funding, you also expressed faith in their ability to respond to adult responsibilities. You promptly went the extra distance with what you had begun a year ago and extended full majority rights to all who are old enough to vote. Already these young adults are demonstrating by their actions that this was the right move.

You also kept faith with those who served their country during the long and painful Vietnam experience. Thanks to a welcome surge in state revenues we are able to fund a Vietnam bonus while assuring taxpayers that no new taxes will fall upon them as a result.

The list goes on with numerous other accomplishments of this session which can honestly be tagged as beneficial to the broad interest of our people.

I think of your action in providing safeguards in TRACIS, the state's new computer system; the Health Maintenance Organization legislation which could have far-reaching impact as we seek to improve the delivery of health services to our people; the consumer protection legislation that regulates the amount charged for credit life insurance, door-to-door sales and the sale of out-of-state land; the improvements in the sweeping court reform of a year ago; election reform and a framework for campaign financing disclosure; the adoption of the Green Belt-Open Spaces concepts and an appropriation to back it up; your willingness to maintain the great strides we have made in Soil Conservancy; the broader coverage under Workman's Compensation; and the enactment of the "bingo bill", a sensible response to a voter mandate when the constitutional amendment was adopted.

You moved also to create an atmosphere of more responsive government, demonstrating your understanding that government is not merely a collection of buildings, it's people. In this session, the Iowa Public Employees Retirement System (IPERS) was upgraded, and you addressed the issue of more equitable compensation for our judiciary and county officers, and state employees.

This session proved once again that it often takes time for new approaches to win acceptance. A measure I have long advocated but which had faltered in earlier sessions—the establishment of regional correctional services—won favor in both Houses this time. Even as this action demonstrates your willingness to improve our penal system, so does it illustrate that even very sound ideas often have a long road to travel through the legislative process.

There are several proposals that we considered of prime importance which failed to gain passage, but by and large they remain alive, thus avoiding

lasting discouragement. I have renewed enthusiasm for their acceptance when you meet again.

Let me reiterate the urgent need we have in Iowa for a unified, coordinated approach to the myriad of problems confronting us in the transportation field. These can best be resolved through a Department of Transportation.

Furthermore, we can no longer ignore the necessity of a sound land use policy with full consideration for protection of our natural resources and the rights of our individuals.

Framework for collective bargaining for public employees on an orderly basis has now made its way through the Senate and you have wisely seen fit to special order this measure for consideration when you meet again.

Although you may not hear from them directly, there will be many young Iowans learning through the process of work as a result of your answering a plea for financing the continuation of our Governor's Youth Opportunity Program when federal funds became no longer available.

Unfortunately, there were not enough of you who also saw the wisdom of giving young people the opportunity to work on the railroads which could have opened a new era of encouragement to maintain branch lines to a number of our smaller Iowa communities.

Also, Iowa cannot afford to overlook the expanding markets for products produced and manufactured in our state. I trust the time will come when there is a firm understanding that jobs, incomes and opportunities are related to the quality of life of our citizens. The wise promotion of Iowa's industry and agriculture abroad can reap tremendous benefits if only we withstand the temptation to submerge ourselves in shortsightedness.

I would be remiss in this message to you if I did not mention to you my concern for the condition of the state budget as a result of actions taken to spend over and above the recommendations made to you in my Governor's budget message of January 24 and my supplemental message of April 11. On both occasions, I submitted to you a balanced budget, based on our best—albeit conservative estimates—of the resources we could expect to safely fund that budget. In most areas you closely followed my recommendations, however, the state comptroller has advised me that there were additional appropriations exceeding my total budget. Fortunately, revenue has continued to increase and because of the safety valve you placed on some of your extra spending, I am hopeful at this time that we will be able to live up to the commitments you have made. However, should the picture change appreciably, I will not hesitate to communicate this information to you along with the appropriate recommendations when you convene in January, 1974.

At the heart of this situation is the factor which has been credited with lengthening the session. I refer to the controversy which swirled over the move to divert \$30 million in general tax funds from the budget to the road use fund.

As is to be expected when controversy is resolved by compromise, there are both pros and cons to the final resolution. On the one hand, your decision to divert \$30 million into the road fund this biennium broke my budget, you nonetheless did cover this action in the second year by providing that the diversion could occur again only in event there was a strong growth in state revenues. Most significant in this final action was the establishment of the principle that after these next two years we will no longer "earmark" these general tax receipts for such special purposes.

This was also a session which marked a debut for many. In the opinion of a number of legislative observers, the Sixty-fifth General Assembly con-

sisted of more energetic, enthusiastic and capable people than any other legislature in history.

The many new people—in both parties—brought a welcome freshness and enthusiasm to your chambers and those who were veteran legislators were treated to the rich experience of watching these new people grow in understanding and ability as the session progressed.

The deliberations—both by those of freshman status and those with prior experience—were marked by much sharp and telling debate, which serves to benefit the democratic process.

As Governor, I admit my tendency to become anxious and impatient for the passage of legislation that I feel would benefit the people of our State.

No matter how true this fact is, it is also true and I am appreciative of the leadership of the legislature and the members of that body who have worked with me and cooperated on a mutually respectful basis to give our people the laws and programs to enhance their living.

So on this day of adjournment, I congratulate you and thank you on behalf of the whole state as well as myself for the many accomplishments made during the first session of the Sixty-fifth General Assembly.

I now look forward to working with you in completing the business that lies ahead for the Sixty-fifth General Assembly.

Sincerely,
ROBERT D. RAY
Governor

The report was received and the committee discharged.

GOVERNOR'S VETO MESSAGE

July 21, 1973

The Honorable Melvin D. Synhorst
Secretary of State
State Capitol

Dear Mr. Synhorst:

Senate File 178, an Act relating to the issuance of trapping licenses to nonresidents and making the provisions of the Act retroactive, is hereby disapproved and in accordance with Article III, Section 16, Constitution of the State of Iowa, is hereby transmitted to the Secretary of State.

It is understandable why Iowans who are trapping enthusiasts and those Iowans who are interested in the elimination of all trapping might support this bill which would arbitrarily abolish trapping privileges in Iowa for any and all nonresidents.

This bill would create a situation that already exists in many of our surrounding states where there is a total prohibition against nonresident trappers, thereby preventing Iowans from trapping in those states. Those states need to be told that neighborliness is a two-way street. Trade, tourism, and friendly cooperation are all dependent upon a fairness on both sides of a state boundary line. It is no wonder, that in this trapping bill, there is expressed a feeling for retaliatory action by Iowans.

But not all surrounding states have such discriminatory laws regarding trapping. And there is some reason to believe that several of the states with nonresident bans might be desirous of being more equitable in their trapping regulations.

Senate File 178, in my opinion, regresses away from cooperation with our neighboring states. A better approach would be with a law that would allow reciprocity for trapping and this I would recommend instead of treating all nonresidents, many of whom are not from states with discriminatory laws, from being welcome in our state. Reciprocity would allow our state to deal with other states on a fair basis rather than in a retaliatory way.

It should be recognized that this veto is based more on principle than on the impact of this law itself. Only 24 nonresidents have actually sought

and obtained trapping licenses in Iowa during the past five years at a fee of \$100 in comparison to the resident license fee which is \$5. It would appear that the differential between the resident and nonresident fee in itself has had the effect of preventing any great invasion of persons into Iowa to take fur-bearing animals from our rivers and streams.

Sincerely,

ROBERT D. RAY

Dear Mr. Synhorst:

I hereby transmit Senate File 539, an Act making an appropriation to the Department of Social Services for use of Institutions under the Bureau of Adult Corrections.

Senate File 539 is approved July 21, 1973, with the following exception which I hereby disapprove.

I am unable to approve that portion of Item 2 designated in the Act as that portion of Section 2, first unnumbered paragraph which reads as follows:

“. . . budget of total expenditures for each institution under the department of social services during the biennium shall not exceed the state appropriation for each institution set forth in this Act, except that the . . .”.

For reference purposes, the first unnumbered paragraph of Section 2 in its entirety reads as follows:

“The budget of total expenditures for each institution under the department of social services during the biennium shall not exceed the state appropriation for each institution set forth in this Act, except that the maintenance recovery shall be available to the institutions”.

Section 8.39, Code 1973, gives the Governor and the State Comptroller authority to approve the transfer of appropriations to meet legitimate expenditures.

This limitation represents an infringement on executive prerogative to utilize appropriated funds most effectively in the administration of service programs approved by the legislature for the benefit of the people of Iowa.

This has been a wise provision in the Code and has enabled the Department of Social Services to respond to extreme fiscal emergencies without seeking additional revenues from sources outside the Department. This privilege has not been abused, but rather has proven to be a very positive administrative procedure.

For example, when unforeseen expenses were incurred at the Iowa State Penitentiary, because of disturbances, funds were transferred in from other

Department sources so that staffing could be increased at Fort Madison to meet emergency needs.

As a general provision, the Department needs the capability for fund transfers to respond to priorities. Some would be of an emergency nature, some would be expected to develop with good planning to better meet critical needs that become more clearly defined with the passage of time. The Department is expected to be action-oriented, capable of responding to change in a positive manner. To do so, it must be able to use appropriated funds with good judgment.

For these reasons I disapprove this Item in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other Items of Senate File 539 are hereby approved this date.

Sincerely,

ROBERT D. RAY

Dear Mr. Synhorst:

I hereby transmit Senate File 540, an Act making an appropriation from the general fund of the State to the Iowa Commission on Alcoholism.

Senate File 540 is hereby approved July 21, 1973, with the following exception: I am unable to approve that portion of Item 1 (2) designated in the Act as that portion of Section 1, subsection 2, which reads as follows:

“. . ., the following amount not more than fifteen percent of which may be allocated to any one local alcoholism unit of facility”.

For reference purposes, Section 1, subsection 2 of the Act reads in its entirety as follows:

“2. For purposes of carrying out the provisions of section one hundred twenty-three A point eight (123A.8) and chapter one hundred twenty-three B (123B) of the Code relating to the treatment of alcoholism, subject to the approval of the governor, the following amount not more than fifteen percent of which may be allocated to any one local alcoholism unit or facility:	1973-1974 Fiscal Year	1974-75 Fiscal Year
	\$500,000	\$500,000

Once again I find before me an attempt to specifically limit “the amount of financial support that the Alcoholism Commission can provide for an alcoholism or detoxification facility regardless of its success in treating and rehabilitating alcoholics, its record of performance, or its need for existence.”

These are words I spoke just two years ago when I item vetoed a part of the Alcoholism Commission appropriation bill.

The Alcoholism Commission appropriation bill which I now sign has the same proviso squeezed into the bill by way of amendment. I find it just as unacceptable now as it was when I felt it necessary to delete it during the last biennium.

There is great variance in the cost of treatment of alcoholics among the various treatment and care facilities. This is as can be expected and should be, because the people treated also vary in physical and mental condition, in background, education and occupation, in social standing and family status and in residence.

Some of our facilities in Iowa offer primarily rehabilitation and counseling while others are involved in management and costly treatment through hospitalization.

These facilities vary in size, depending upon the type of treatment available and the area served.

For the 1973 fiscal year, the number of patients treated ranged from 43 to 1,233 at the Harrison Treatment Center.

While most centers treat mostly patients from their immediate region, serving from one to ten counties, Harrison Treatment Center provided services in 1972 for patients from 73 Iowa counties. During its operation, this center has treated patients from all 99 counties.

Federal funds utilized by the various centers also vary considerably and not necessarily in relation to number of patients or geographic area. Some receive no federal funds at all—others receive a substantial amount.

When we established the statewide alcoholism program for the first time in 1969, our purpose was to make sure that a person from any county, whether it had an alcoholism center in it or not, would have an effective place to go to seek care, relief and treatment for an alcoholic problem.

We are providing that service and I am not willing to allow the limitation that is placed in this bill to jeopardize and make unworkable, without a better alternative, this statewide program that is helping our citizens in distress.

For these reasons, I disapprove this item in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of Senate File 540 are hereby approved this date.

Sincerely,

ROBERT D. RAY

Dear Mr. Synhorst:

I hereby transmit House File 739, an Act making an appropriation to the Department of Social Services relating to certain institutions administered by the Division of Family and Children Services.

House File 739 is approved July 21, 1973, with the following exceptions which I hereby disapprove.

I am unable to approve that portion of Item 1 designated in the Act as that portion of Section 1, second unnumbered paragraph which reads as follows:

"It is the intent of the general assembly in making appropriations pursuant to this area of family and children services that the moneys available for this area be used to pay salaries and other employee expenses for not more than three hundred and seventy-three permanent full-time persons employed during each fiscal year of the sixty-fifth fiscal biennium and that no more than four hundred and six permanent full-time employee positions be created or authorized during any one of such years. A variance of one percent in excess of the above filled positions is considered to be reasonable. However, the figures on the above filled positions do not apply to the appropriations for the operation of the Annie Wittenmyer Home and the establishment of community-based pilot programs authorized under this Act."

I am unable to approve that portion of Item 2 designated in the Act as that portion of Section 2, first unnumbered paragraph which reads as follows:

". . . budget of total expenditures for each institution under the department of social services during the biennium shall not exceed the state appropriation for each institution set forth in this Act except that the . . .".

For reference purposes, the first unnumbered paragraph of Section 2 in its entirety reads as follows:

"The budget of total expenditures for each institution under the department of social services during the biennium shall not exceed the state appropriation for each institution set forth in this Act except that the maintenance recovery shall be available to the institutions".

These limitations represent an infringement on executive prerogative to utilize appropriated funds most effectively in the administration of service programs approved by the legislature for the benefit of the people of Iowa.

Section 217.6, Code of Iowa, 1973 charges the Commissioner of Social Services to organize the Department in an efficient manner to carry out the intent of Chapter 217, and to revise the organization and program procedure when appropriate for the purpose of improvement. Since Department employees represent the primary avenue for delivery of services, it is essential that administration be permitted to use manpower with good judgment and flexibility, and not be tied to such a rigid structure that it is unable to respond to changes that might benefit our citizens. Congressional action often requires structural change to enable states to use federal funding for necessary services. An example is the requirement for the separate administration of assistance payments from services programs. Local needs also change and with the clarification of the state-county-employee situation the Department will be expected to respond promptly and effectively to verify requests for services.

Our institutional programs must be constantly evaluated in light of more humane and effective community services to the elderly, to children, families, adult offenders, mentally ill and mentally disabled. Although staffing needs will decrease in some programs, they very clearly will increase in others.

As one illustration, needs for homemakers will increase significantly if the Department meets its service responsibilities to recipients of Supplemental Security Income after January 1, 1974. A significant proportion of our homemakers work part-time, yet a permanent full-time merit position is required for each. The Department expects to reduce the number of administrative positions currently carried in the field, and will need to use the funds saved for lower-paying direct service positions, but may need additional position slots to do so. In some cases, the funds for one administrator might be used for four part-time positions.

In a service agency such as the Department, the key to successful administration is manpower utilization. With the conversion of the adult categorical assistance programs to federal administration, the established tolerance limits for error in the Aid to Dependent Children program, comprehensive institutional planning, and additional phases anticipated in Department reorganization, it is essential that maximum flexibility in manpower utilization be provided.

Section 8.39, Code 1973, gives the Governor and the State Comptroller authority to approve the transfer of appropriations to meet legitimate expenditures.

This has been a wise provision in the Code and has enabled the Department of Social Services to respond to extreme fiscal emergencies without seeking additional revenues from sources outside the Department. The Department is expected to be action-oriented, capable of responding to change in a positive manner. To do so, it must be able to use appropriated funds with good judgment.

I hereby transmit House File 747, an Act making an appropriation to the Department of Social Services for institutions and program administered by the Divisions of Mental Health Services and Mental Retardation Services.

House File 747 is approved July 21, 1973, with the following exceptions which I hereby disapprove.

I am unable to approve that portion of Item 1 (1) designated in the Act as that portion of Section 1, subsection 1, second unnumbered paragraph which reads as follows:

"It is the intent of the general assembly in making appropriations pursuant to this mental health services area that the monies available shall be used to pay salaries and other employees' expenses for not more than 1,536 permanent full-time persons employed for each fiscal year of the sixty-fifth biennium, and that no more than 1,679 permanent full-time employee positions be created or authorized during any one of such years. A variance of one percent in excess of the number of positions specified is considered to be reasonable."

I am unable to approve that portion of Item 1 (2) designated in the Act as that portion of Section 1, subsection 2, second unnumbered paragraph, which reads as follows:

"It is the intent of the general assembly in making appropriations pursuant to this mental retardation services area that the monies available shall be used to pay salaries and other employee expenses for not more than 1,381 permanent full-time persons employed for each fiscal year of the sixty-fifth biennium, including the Woodward farm operation, and that no more than 1,505 permanent full-time employee positions be created or authorized during any one of such years. A variance of one percent in excess of the number of positions is considered to be reasonable."

I am unable to approve those portions of Item 2 designated in the Act as those portions of Section 2, first unnumbered paragraph which reads as follows:

Dear Mr. Synhorst:

I hereby transmit House File 769, an Act to appropriate from the general fund of the State for capital improvements for institutions under the control of the Department of Social Services, including repairs, improvements, replacements or alterations.

House File 769 is approved July 21, 1973, with the following exception which I hereby disapprove.

I am unable to approve that portion of Item 1 designated in the Act as the final sentence of Section 1 which reads as follows:

“Funds appropriated by this section shall not be used to supplement the construction of new buildings.”

This provision places an unrealistic restriction on the Department of Social Services in using capital funds effectively.

While I understand that this sentence was originally inserted to insure that these funds would not be used for new construction at the Iowa Soldiers Home, for which a separate appropriation was eventually made, the wording applies to all departmental institutions. As a consequence, the Department of Social Services could not move forward as planned on high priority construction items if this restriction remains.

We have enjoyed some pride that Iowa is beginning to realize that big buildings that have the effect of imprisoning our handicapped youngsters are not healthy or encouraging to the patients—people who can often be returned to community living if properly prepared.

The cottage-living plan developed for Glenwood is an answer to this problem. Yet, construction on this cottage-living plan at Glenwood could not be constructed if this part of the Act remains. A maximum of five cottages have been planned for this biennium. These cottages are planned to replace living space that is obsolete and in poor repair. No additional bed capacity is to be realized through this effort.

I do not fault the intent of this provision to prevent the development of traditional outdated institutions. Neither can I look away from the human needs of the young people directly affected adversely by this provision that is so all inclusive that it would completely curtail any new building. If capital expenditures are to be made, the most modern thinking available must be utilized. The cottage program resulted from this kind of planning.

If the cottages are not built, I am advised that it then would be necessary to spend capital funds to maintain old buildings that have outlived their usefulness, and which do not meet many safety inspection requirements. This would be a poor utilization of funds.

For these reasons I hereby disapprove this item in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 769 are hereby approved this date.

Dear Mr. Synhorst:

I hereby transmit House File 780, an Act to make an appropriation from the general fund of the State to the Office for Planning and Programming and Office of Economic Opportunity.

House File 780 is approved July 21, 1973, with the following exceptions which I hereby disapprove.

I am unable to approve that portion of Item 1 (3) designated in the Act as that portion of Section 1, subsection 3 which reads as follows:

“. . . for not to exceed seventy-two permanent full-time positions”.

I am unable to approve that portion of Item 1 (4) designated in the Act as that portion of Section 1, subsection 4 which reads as follows:

“. . . ; however, in no event, shall this include more than three additional employees”.

I am unable to approve that portion of Item 4 designated in the Act as that portion of Section 4, second unnumbered paragraph which reads as follows:

“If any federal financial grant to any program funded under this Act is discontinued, all state matching grants or participation by state employees in such program shall also be discontinued. Any remaining state matching funds for such program shall revert to the fund from which it was appropriated.”

The authorized table of organization for staffing of the Office for Planning and Programming is 88. Presently the staff is at a strength of 72.

There has been continuous discouragement of having any staff members not essential to the operation of our departments. A department, however, should not be penalized for maintaining its staff at the lowest level needed.

While general increases for staffing in this particular office are not anticipated, experience has shown that there must be sufficient flexibility within the budget limitations established by the Legislature to effectively plan and react to changing conditions.

Planning by its very nature is future-oriented. Federal planning grants typically follow passage of federal acts that provide stipulations requiring a state plan to be developed in the period of 60 or 90—or perhaps 180 days. A small nucleus of state planners financed by state appropriation is maintained in order to react quickly to these and other planning requirements.

In 1969, all 25 positions added to this office were in the last six months of the calendar year with 22 of the newly authorized positions directly related to federal programs. Seven positions were added in 1970, three of which were related to a federal program.

During 1971, of the 24 authorized positions added, 16 were transfers of existing positions to effect more efficient centralized planning. Six positions related directly to new federal programs. Three of these six were under the Emergency Employment Act which proved to be an excellent example of reacting quickly to a new federal program. Drawing upon existing resources and reacting swiftly, three planning positions were estab-

lished, filled and a State Plan put together and implemented promptly. It was one of the quickest and yet one of the best planning efforts in the nation under the Emergency Employment Act.

Fourteen authorized positions were added during 1972, eight of which were by direct action of the General Assembly and three existing positions were transferred in from another department.

It can, therefore, be seen that flexibility in staffing is required in the Office for Planning and Programming even more than in most Executive offices.

I am also disapproving the limitation on staffing for the state building code although I do not disagree that staffing should not grow beyond this limit during this biennium. Rather I have disapproved this Item on the principle that staffing should be an executive prerogative within the budget limitations established by the Legislature.

The third item which I am disapproving would make the administration of federal fund grants unworkable. As explained, hereinbefore, the nucleus of the state planning unit is made up of a skeleton unit of planners funded by state appropriation. These individuals may, during a biennium, work on a dozen or more federal programs. The State appropriated funds are used to meet the matching requirements for federal funds.

An individual senior planner may be paid with state appropriated funds which are used as the matching requirement under several different federal programs.

This may mean that he works 40 percent of his time on a housing project, 20 percent of his time supervising a community betterment program, 25 percent reviewing safety projects and 15 percent reviewing possible new projects.

The 40 percent of his salary related to the housing project may be used to match federal funds on a 25-75 basis with an associate planner and a secretary. If the senior planner received \$15,000, 40 percent would be \$6,000 which generates \$18,000 of federal funds which might pay for an associate at \$11,000 and a secretary at \$7,000.

If federal funds were to be cut off for some reason, the associate and the secretary would be let go because of no more federal money. But, the \$6,000 should be available to the office to continue to pay the salary of the senior planner who must be retained and for possible future match on other projects.

It would be unworkable and terribly inefficient for that money to revert to the general fund.

In administration of state appropriations and programs in general, one of the goals is maximum efficiency in usage of the funds. One technique which has been most beneficial to the taxpayer is that which has been developed relative to matching state appropriated funds to federal funds available for a specific program. Typically, a grant may use 5 percent of the Director's salary and 15 percent of a senior planner to match 100 percent of an associate planner on a 25 percent state, 75 percent federal project. That leaves the other 95 percent of the Director's salary and the remaining 85 percent of the senior planner to be assigned to other programs. Use of this technique provides maximum overall benefit to Iowans at a minimum cost through state appropriations.

Section 7A.3, Code of Iowa 1973, calls upon the Office for Planning and Programming to seek "means of avoiding duplication of activity and of increasing efficiency in programs financed by federal or private aid." These two items preclude meeting this requirement of the law.

For these reasons, I disapprove these three Items in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 780 are hereby approved this date.

Sincerely,

ROBERT D. RAY
Governor

The Honorable Melvin D. Synhorst
Secretary of State

Local

Dear Mr. Synhorst:

I hereby transmit House File 802, an Act making an Appropriation to the Department of Social Services and Divisions thereof, for Area Services and for Administration.

House File 802 is approved July 21, 1973, with the following exceptions which I hereby disapprove.

I am unable to approve that portion of Item 1 (1) designated in the Act as that portion of Section 1, subsection 1, second unnumbered paragraph which reads as follows:

“. . . for a total of not to exceed one thousand six hundred sixty-five authorized full-time positions of which not more than one thousand five hundred sixty are to be filled at any one time . . .”.

I am unable to approve that portion of Item 1 (2) designated in the Act as that portion of Section 1, subsection 2, third unnumbered paragraph, which reads as follows:

“. . . for a total of not to exceed five hundred twenty-four authorized full-time positions of which not more than four hundred eighty-one are to be filled at one time . . .”.

I am unable to approve Item 2 designated in the Act as Section 2 which reads as follows:

“Sec 2. A variance of one percent above the number of filled positions specified in subsections one (1) and two (2) of section one (1) of this Act is considered to be reasonable.”

This limitation represents an infringement on executive prerogative to utilize appropriated funds most effectively in the administration of service programs approved by the legislature for the benefit of the people of Iowa.

Section 217.6, Code of Iowa, 1973 charges the Commissioner of Social Services to organize the Department in an efficient manner to carry out the intent of Chapter 217, and to revise the organization and program procedure when appropriate for the purpose of improvement. Since Department employees represent the primary avenue for delivery of services, it is essential that administration be permitted to use manpower with good judgment and flexibility, and not be tied to such a rigid structure that it is unable to respond to changes that might benefit our citizens. Congressional action often requires structural change to enable states to use federal funding for necessary services. An example is the requirement for the separate administration of assistance payments from services programs. Local needs also change and with the clarification of the state-county-employee situation the

Department will be expected to respond promptly and effectively to verify requests for services.

Our institutional programs must be constantly evaluated in light of more humane and effective community services to the elderly, to children, families, adult offenders, mentally ill and mentally disabled. Although staffing needs will decrease in some programs, they will clearly increase in others.

As one illustration, needs for homemakers will increase significantly if the Department meets its service responsibilities to recipients of supplemental Security Income after January 1, 1974. A significant proportion of our homemakers work only part-time, yet a permanent full-time merit position is required for each. The Department expects to reduce the number of administrative positions currently carried in the field, and will need to use the funds saved for lower-paying direct service positions, but may need additional position slots to do so. In some cases, the funds for one administrator might be used for four part-time positions.

In a service agency such as the Department, the key to successful administration is manpower utilization. With the conversion of the adult categorical assistance programs to federal administration, the established tolerance limits for error in the Aid to Dependent Children program, comprehensive institutional planning, and additional phases anticipated in Department reorganization, it is essential that maximum flexibility in manpower utilization be provided.

For these reasons, I disapprove these three items in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 802 are hereby approved this date.

Sincerely,

ROBERT D. RAY
Governor

GILLETTE, GUY MARK Feb. 3, 1879—March 3, 1973

LONG, IRVING D. April 15, 1895—Oct. 26, 1972

NOLAN, D. C. Aug. 29, 1902—April 15, 1973

TURNER, JAMES B. Sept. 2, 1914—Nov. 12, 1972

GUY MARK GILLETTE

MR. PRESIDENT: Your Senate committee, appointed to prepare a suitable resolution commemorating the life, character and public service of the late Honorable Guy Mark Gillette, begs leave to submit the following memorial:

Guy Mark Gillette's lifetime was one of varied pursuits. Always concerned with helping others, he was in turn a soldier, lawyer, legislator, farmer and statesman.

The son of Mark Dennis Gillette and Mary Hull, Mr. Gillette was born in Cherokee County on February 3, 1879. Mr. Gillette attended the Cherokee public schools and graduated from Cherokee High School in 1896. In 1900 he graduated from the Drake Law School and began a practice in Cherokee the following year.

Mr. Gillette's career as a soldier began when he was 14 years old as a member of Company M, Fourth Regiment, Iowa National Guard. In 1898 he was called into federal service during the Spanish-American War and served out the emergency as a sergeant in Georgia.

The company was reactivated in 1910 under the then Captain Guy Mark Gillette. In 1917 Captain Gillette was again called into service to head an infantry company which went overseas in 1918. When discharged in 1919, Mr. Gillette held the rank of Major.

In June of 1907 he married Rose Freeman who preceded him in death in 1956.

Mr. Gillette's political career began in 1906 when he was elected County Attorney. Defeated for reelection in 1908, he was appointed City Attorney for Cherokee. In 1912 he was elected to the Iowa Senate from a district comprising Cherokee, Plymouth and Ida Counties, becoming the first Democratic senator from the district.

Four years later, having determined that America's entry into the war was imminent, he announced he would not seek reelection. However, nominated on a write-in vote, he was narrowly defeated for a post he did not campaign for.

Following the First World War, Mr. Gillette farmed near Cherokee until 1932 when he was elected to the United States House of Representatives. Mr. Gillette served in that position until 1936 when he was elected to fill a vacancy in the United States Senate caused by the death of the Honorable Louis Murphy.

As a member of the Senate Foreign Relations Committee, he worked to chart this nation's conception of the United Nations and introduced the first Senate resolution calling for the creation of the international body.

In 1944 Mr. Gillette was defeated for reelection to the Senate. In the aftermath of the election, President Harry S. Truman offered Mr. Gillette a federal judgeship but Mr. Gillette refused, reasoning that he was not qualified since he had not practiced law for years.

Appointed chairman of the Surplus Property Board, Mr. Gillette served in that capacity until 1945 when he resigned to become president of the American League for a free Palestine.

In 1948, the same year the United Nations authorized the creation of Israel as a nation, Mr. Gillette was reelected to the United States Senate.

In 1954, at 75, Mr. Gillette was defeated in his bid for another Senate term. He returned to Cherokee where he became active in many local

organizations such as the Chamber of Commerce, the Rotary Club, the Red Cross and the Cherokee Library Board.

On March 3, 1973, at the age of 94, Guy Mark Gillette died in his native Cherokee.

He is survived by one son, Mark, now living in Florida.

By his own estimation, Mr. Gillette's most memorable contributions made during his public life were in helping Iowa farmers get electric power and in promoting soybeans as a new cash crop.

Therefore, Be It Resolved by the Senate of the Sixty-fifth General Assembly of Iowa: That in the passing of the Honorable Guy Mark Gillette, Iowa has lost a dedicated statesman, and the Senate by this resolution would express its appreciation of Mr. Gillette's services to his community, state and nation and tender its sympathy and kindest regards to his son.

Be It Further Resolved: That a copy of his resolution be spread upon the Journal of the Senate, and that the Secretary of the Senate be directed to forward an enrolled copy to his son.

WARREN E. CURTIS, Chairman
LUCAS J. DEKOSTER
C. JOSEPH COLEMAN

Committee

The resolution was unanimously adopted.

IRVING D. LONG

MR. PRESIDENT: Your committee, appointed to prepare a suitable resolution commemorating the life, character and public service of the late Irving D. Long, begs leave to submit the following memorial:

Irving D. Long was born in Delaware County, April 15, 1895, and died at the Delaware County Memorial Hospital in Manchester, Iowa, October 26, 1972, after suffering a stroke. Irving D. Long graduated from the Manchester High School, and also graduated in law from the University of South Dakota in 1917. He was admitted to practice law in Iowa in 1919, and had practiced law in Manchester, Iowa from 1921 until shortly before his death. He was Delaware County Attorney from 1923 until 1929.

Irving D. Long was married to Ella Cates in 1916. He was a member of the Christian Church, Masonic Lodge, Knights of Pythias, Lions, and served as secretary-treasurer of the Delaware County Bar Association. He was survived by his wife, Ella, two sisters, Mrs. Ruby Timmons and Gertrude Long, all of Manchester, Iowa.

A Republican, Mr. Long was elected to the Iowa Senate in 1941, and served four terms, 1941 through 1948, and from 1957 through 1964. He was President Pro Tempore of the Senate in 1961 and was a former chairman of the Senate Governmental Affairs Committee. During the Forty-ninth General Assembly in 1941, Senator Long was chairman of the Building and Loan Committee and ranking member of the Highways Committee. In the Fiftieth General Assembly, in 1943, he was chairman of the Board of Control Committee and ranking member on the Judiciary 2 Committee. During the Fifty-first General Assembly in 1945, Senator Long was chairman of the Appropriations Committee, and ranking member of the Private Corporations Committee. In 1947, the Fifty-second General Assembly, Sen-

ator Long was chairman of the Tax Revision Committee and ranking member on the Appropriations Committee. Senator Long returned to the Senate for the Fifty-seventh General Assembly in 1957. He was chairman of the Governmental Affairs Committee, and ranking member on the Judiciary 1 Committee. During the Fifty-eighth General Assembly, Senator Long served as chairman of the Governmental Affairs Committee and ranking member on the Ways and Means Committee. During the Fifty-ninth General Assembly, Senator Long served as chairman of the Rules Committee, and in 1963 during the Sixtieth General Assembly he served as chairman of the Insurance Committee and ranking member on the Judiciary 1 Committee.

Therefore, Be It Resolved by the Senate of the Sixty-fifth General Assembly of the State of Iowa: That, in the passing of Irving D. Long, the state has lost an honored citizen, and the Senate by this resolution would express its appreciation of his services to his community, state and nation and tender its sympathy and kindest regards to the members of his family.

Be It Further Resolved: That a copy of this resolution be spread upon the Journal of the Senate, and that the Secretary of the Senate be directed to forward an enrolled copy to the family of the deceased.

D. C. NOLAN

MR. PRESIDENT: Your committee, appointed to prepare a suitable resolution commemorating the life, character and public service of the late honorable D. C. Nolan, begs leave to submit the following memorial:

D. C. "Cliff" Nolan was born on a farm in Guthrie County, Iowa, August 29, 1902, the son of Martin J. and Anna Hanley Nolan. He attended country school in Guthrie County and was graduated from high school in Perry, Iowa, and from Creighton University. He was married to Margaret Schwertley of Missouri Valley in 1927. They had three sons and five daughters.

Mr. Nolan received his law training at Creighton University and in the office of Judge Tom Guthrie in Des Moines. Upon being admitted to practice he was associated with the firm of Parrish, Cohen, Guthrie, Halloran and Waters from 1926 until 1931, when he moved to Iowa City and continued practicing law until his death.

In 1952, Mr. Nolan was elected to the Iowa Senate from the old Twenty-fifth Senatorial District, Iowa and Johnson Counties, and served during the Fifty-fifth, Fifty-sixth, Fifty-seventh, Fifty-eighth, Fifty-ninth, Sixtieth and Sixtieth Extraordinary General Assemblies. During his twelve years in the Senate, he served as chairman of many important committees, including the Highways and Judiciary 1 committees. He was the majority floor leader during the Fifty-seventh General Assembly.

While a member of the Senate, Mr. Nolan sponsored legislation which created the legislative research bureau, established enforcement of standards in distribution of pharmaceutical products, established maximum and

minimum speed limits on highways, established controlled access facilities, authorized "urban renewal" and the development of recreational areas as well as the transfer of lands for the Coralville and Red Rock Reservoir projects. He authored the uniform gift to minors law and many other important bills.

Mr. Nolan cosponsored a resolution that led to the "asphalt" inquiry into the operations of the Iowa Highway Commission in 1964, was also in the thick of legislative reapportionment battles of the 1960s and headed a Senate committee investigating the old Iowa Liquor Control Commission's "sample room" policies.

Mr. Nolan was the first chairman of the Young Republican League of Iowa. He was a member of the local, state and national bar associations, having served as a member of the board of governors of the Iowa Bar Association, and as a past president of the Johnson County Bar Association. He taught courses in property and equity at the Des Moines College of Law and served as its president.

He was a charter member of the Junior Chamber of Commerce in Des Moines and a past president of the Iowa City Chamber of Commerce.

Mr. Nolan was a former area president and national counselor for the Boy Scouts of America; a fifty-year honorary member of the fourth degree, Knights of Columbus; a member of the Elks Club, the Loyal Order of the Moose, the Izaak Walton League, the Des Moines Club and St. Patrick's Church.

Mr. Nolan suffered a stroke while visiting a daughter in Des Moines and died on April 15, 1973. He is survived by his wife, Margaret; five daughters, Elizabeth Ann, an assistant Attorney General of Iowa; Mrs. Frank Wagner of Iowa City; Mrs. Benjamin Calacci of Wheaton, Illinois; Frances of San Francisco, California, and Mary Margaret of Iowa City; three sons, Daniel of El Paso, Texas, John of Iowa City, and Richard of Washington, D. C.; one sister, Miss Hilda Nolan of Des Moines, and fifteen grandchildren.

Therefore, Be It Resolved by the Senate of the Sixty-fifth General Assembly of the State of Iowa: That, in the passing of the Honorable D. C. Nolan, the state has lost an honored citizen and a faithful and useful public servant, and the Senate by this resolution would express its appreciation of his services to his community, state and nation and tender its sympathy and kindest regards to the members of his family.

Be It Further Resolved: That a copy of this resolution be spread upon the Journal of the Senate, and that the Secretary of the Senate be directed to forward an enrolled copy to the family of the deceased.

JAMES B. TURNER

MR. PRESIDENT: Your Senate committee, appointed to prepare a suitable resolution commemorating the life, character and public service of the late Honorable James B. Turner, begs leave to submit the following memorial:

James B. Turner was born in a coal camp near Eddyville, Iowa on September 2, 1914 and was one of seven children. After the death of his father, Mr. Turner graduated from Woodward High School in Woodward, Iowa and worked in the coal mines for five years to help support his family. He then attended the American Institute of Business in Des Moines for one year and progressed from dockhand to assistant sales manager in his nine years with the Iowa Packing Company of Des Moines. For the next five years he served as the Iowa factory representative for the General Cigar Company. In 1953 he started the Turner Wholesale Company in Centerville and developed it from a two county business to a sixteen county business with a branch office in Oskaloosa, Iowa. He sold this business in 1966 and worked and invested in other area enterprises from time to time.

James B. Turner married Marceline Carter on May 28, 1942 and they had four children: Hal, working on his Ph.D. in microbiology at Iowa State University; David, a pharmacist in Jacksonville, Illinois; Dennis, an employee of the Farmer Wholesale Company in Centerville, and Kathy, a nurse at the Iowa Lutheran Hospital in Des Moines.

Mr. Turner served on the Centerville City Council from 1964 to 1968 and was an active member of the Christian Church, Chamber of Commerce and the Masons, Shriners and Elks organizations.

In 1972, he ran a successful first political race for State Senator from District 47 which encompassed parts of Madison, Union, Clarke, Lucas, Monroe, Appanoose and Ringgold Counties and all of Wayne and Decatur Counties. While recovering from surgery, he suffered a relapse on election day, November 7, 1972 and died on November 12, 1972.

Survivors include his wife, three sons and one daughter, three grandchildren and four brothers and two sisters.

Therefore, Be It Resolved by the Senate of the Sixty-fifth General Assembly of Iowa: That in the passing of the Honorable James B. Turner, the state has lost an honored citizen, and the Senate by this resolution would express its appreciation of his services to his community, state and nation and tender its sympathy and kindest regards to the members of his family.

Be It Further Resolved: That a copy of this resolution be spread upon the Journal of the Senate, and that the Secretary of the Senate be directed to forward an enrolled copy to the family of the deceased.

LUCAS J. DEKOSTER
