#### GOVERNOR'S ITEM VETO MESSAGE

The following item veto message from the Governor to the Secretary of State was presented:

April 22, 1975

The Honorable Melvin D. Synhorst Secretary of State State Capitol Local

Dear Mr. Synhorst:

I hereby transmit House File 455, an Act making appropriations to the Iowa state fair board, agricultural societies, the geological survey and the Iowa natural resources council.

House File 455 is approved April 22, 1975, with the following exception which I hereby disapprove.

I am unable to approve Item 2 designated in the Act as Section 2 which reads as follows:

"Sec. 2. The funds appropriated to the geological survey general office under subparagraph one (1) of paragraph a of subsection three (3) of section one (1) of this Act shall be used to pay salaries for a table of organization of not more than twenty-eight permanent full-time positions. The funds appropriated to the geological survey, Iowa coal research project, for salaries under subparagraph one (1) of paragraph b of subsection three (3) of section one (1) of this Act shall be used to pay salaries for a table of organization of not more than four permanent full-time positions. The funds appropriated to the Iowa natural resources council for salaries under paragraph a of subsection four (4) of section one (1) of this Act shall be used to pay salaries for a table of organization of not more than thirty permanent full-time positions."

I must question this particular section as an unconstitutional infringement of the legislature into an executive function. This section violates the principle that staffing should be an executive prerogative within the budget limitations established by the General Assembly.

By imposing staff limitations on the geological survey and the natural resources council, the General Assembly removes needed administrative flexibility. It is essential that an administration be permitted to use its manpower with good judgment and some flexibility and not be tied to a rigid structure that is unable to respond to changes that might benefit our citizens.

This is not to say I favor increased staff levels. This Administration has constantly discouraged the addition of any staff not essential to departmental operation.

While general increases in staffing for the geological survey and the natural resources council are not anticipated, experience has shown the need for sufficient flexibility within budget limitations to effectively plan and react to changing conditions. The federal government has shown an amazing capacity to launch major new programs, such as the Comprehensive Employment and Training Act, which require new state personnel if Iowans are to benefit. State and local problems can arise suddenly that require staff additions or shifts.

The geological survey and the natural resources council may themselves face increased staff demands during the next fiscal year to respond to changing needs—demands that could not be met by the staffing limitations imposed by this Act.

Should Congress decide to fund phase II of the Dam Safety Act of 1972, the natural resources council will need additional staff to conduct the inspections of Iowa's dams. As more and more Iowa communities join the National Flood Insurance Program (a program which requires communities to adopt flood plan regulations consistent with federal and state guidelines), the natural resources council may require additional staff to fulfill its mandated responsibility of reviewing community guidelines and ordinances. The geological survey faces possible new responsibilities in the areas of remote sensing work for the Soil Conservation Service and the domestic water well survey requested by the General Assembly.

It may be argued that additional employees could be added to be paid exclusively out of non-state funds in spite of the provisions of this legislation. However, I believe this would be both an improper interpretation of this bill and poor procedure.

I believe these considerations indicate why staff limitations as imposed in House File 455 are unwise. One of the keys to successful administration is the best possible manpower utilization. Section 2 of House File 455 could prevent that.

In previous years I have also vetoed similar provisions. I would hope that the General Assembly sees fit not to place similar limitations in future bills.

For these reasons, I hereby disapprove this item in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 455 are hereby approved this date.

Sincerely, ROBERT D. RAY Governor

1 Amend Senate File 485 as follows:

1. By inserting the following before line 1, page 1:

3 "Section 1. Section ninety-six point two (96.2),

4 Code 1975, is amended to read as follows:

5 96.2 GUIDE FOR INTERPRETATION. As a guide to

6 the interpretation and application of this chapter,

7 the public policy of this state is declared to be as

8 follows: Economic insecurity due to unemployment is a

serious menace to the health, morals, and welfare 9

10 of the people of this state. Involuntary unemployment

is therefore a subject of general interest and concern 11

12 which requires appropriate action by the legislature

13 to prevent its spread and to lighten its burden which

14 now so often falls with crushing force upon the unem-

ployed worker and his family. The achievement of 15

16 social security requires protection against this

17 greatest hazard of our economic life. This can be

18 provided by encouraging employers to provide more

19 stable employment and by systematic accumulation of

20

funds during periods of employment to provide benefits

21 for periods of unemployment, thus maintaining purchasing

22 power and limiting the serious social consequences of 23

the poor relief assistance. The legislature, therefore, 24 declares that in its considered judgment the public good,

25 and the general welfare of the citizens of this state require

26 the enactment of this measure, under the police powers of

27 the state, for the compulsory setting aside of unemployment

28 reserves to be used for the benefit of persons unemployed

29 through no fault of their own. Further, to actively seek

30 means of employment in working corps that would materially

31

benefit the state as a whole.

Sec. 2. Section ninety-six point three (96.3), subsection two (2), Code 1975, is amended to read as follows:

2. TOTAL UNEMPLOYMENT. Each eligible individual

who is totally unemployed in any week shall be paid with

respect to such week benefits in an amount which shall be

37 equal to his weekly benefit amount, but only if the state 38 was unable to provide a job opportunity in a service of

39 general welfare to the state.

> Section ninety-six point three (96.3), Code 1975, is amended by adding the following new subsection:

41 42 NEW SUBSECTION. Wherever the state sees a need to

43 maintain, repair, or construct facilities that would

44 serve the general public welfare, the unemployed who have

45 the physical capability must serve in that capacity. Wages

46 shall be paid for such services from funds provided in

47 section ninety-six point thirteen (96.13) of the Code.

48 shall be the equivalent of the wage scale as set forth by

- the department of labor for like services. Should the state fail to provide a job opportunity, then only will 50

## REQUIESCAT DEAR COLLEAGUE By Senator Hilarius L. Heying, West Union

I pause in reverence, and listened For some echo from these hallowed walls Great voices, numbers never mentioned Orated hope and justice in these halls. I wished, then, that these walls would speak, And tell the secret tales of men long gone, Who left memorials we daily seek In the Code of State which still lives on.

It seemed then strange that this should be God's plan to save the neuters and each deed, Instead of vital man. Suddenly I saw the greater gift of man's soul freed.

Whereas representatives of the downtown business area of the City of Davenport, Iowa, have for some time sought to find a means whereby downtown improvements can be made and financed, and

Whereas it has been the desire of the City Government to encourage improvement of said business district as well as any other area of the City desiring so to do the same, and

Whereas the City Council desires to find appropriate means to cooperate in such projects and to engage in proper city improvements in conjunction with private improvements, so that private improvements will be paid for privately, improvements benefiting a particular district will be paid by the district and the normal public improvements will be paid by the general taxpayers, and

Whereas the City's special corporation counsel, Robert Helmick, and its regular corporation counsel have drafted a bill which has been introduced as Senate File No. 356, for consideration by the Sixty-sixth General Assembly of the State of Iowa providing for the creation of special self-improvement districts which will accomplish the foregoing objectives:

Now, Therefore, Be It Resolved that the City Council of the City of Davenport does hereby petition the Sixty-sixth General Assembly of the State of Iowa to enact, and the Honorable Robert D. Passed and approved this 16th day of April, 1975.

# GOVERNOR'S ITEM VETO MESSAGE

The following item veto message from the Governor to the Secretary of State was presented:

April 28, 1975

The Honorable Melvin D. Synhorst Secretary of State State Capitol Building Local

Dear Mr. Synhorst:

I hereby transmit House File 334, an Act appropriating funds to the Iowa state commerce commission and the department of public defense and providing for the deposit of receipts of such departments in the general fund of the state.

House File 334 is approved April 28, 1975, with the following exception which I hereby disapprove.

I am unable to approve Item 2 designated in the Act as Section 2 which reads as follows:

"Sec. 2. Notwithstanding the provisions of section eight point thirty-nine (8.39) of the Code, there shall be no transfer of funds appropriated by this Act between categories or line items provided by this Act."

Chapter 8 of the Code of Iowa directs that the Governor shall have "the efficient and economical administration of all departments and establishments of the government." Chapter 8 also authorizes the Governor and the State Comptroller to transfer funds on an intradepartmental and interdepartmental basis. This authority was provided so that the executive could meet its responsibility of maintaining efficient and economical administration. This administration and its predecessors have found the transfer authority to be an essential management tool. To be denied this authority, the executive branch would be limited in its ability to effectively carry out its responsibilities. This then can be viewed as an unconstitutional restriction by one branch of government on another.

Section 2 of House File 334 would remove the authority to transfer the funds appropriated in this bill. If allowed to remain, this item would remove the flexibility needed to administer these funds in the most efficient and productive manner possible.

In the preparation of an agency budget, one attempts to anticipate the scope and intensity of the demands and problems the agency will face

during the next year or biennium. Yet no one can foresee every changing condition and challenge that may confront an agency. The ability to transfer funds within and between agencies gives an administration the management capability to meet its changing responsibilities. Also, with the transfer authority available, the Governor's budget presented to the General Assembly need not provide for all possible contingencies. It eliminates the need for large contingent funds.

During the past biennium the Department of Public Defense and the Commerce Commission made limited but effective use of the transfer authority. Funds were transferred to the Civil Defense Division of the Department of Public Defense from the Commerce Commission and the Department of Social Services to establish and implement the Emergency Fuel Program in the winter of 1973. Funds were also transferred within the Commerce Commission from the Utilities Division to the Motor Transportation Division to compensate for an unusually low vacancy factor, increased professional services due to complex rate cases, and inflated operating costs. Without the ability to transfer these funds, many Iowa communities might have gone without crucial fuel oil supplies and an important regulation agency might have been hamstrung in its efforts to do its job effectively.

I appreciate the careful analysis and study given to these departments' appropriation requests by the members of the General Assembly. They believe the amounts appropriated are sufficient to meet the needs of the two departments during FY1976. I can also appreciate the concern of some legislators over the transfer of funds. Yet this administration has and will continue to make only the most prudent and careful transfer of funds. If the citizens of Iowa are to benefit from efficient and productive management by state government, the authority to transfer funds between and within these departments as well as departments of state government needs to be retained.

For these reasons, I hereby disapprove this item in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 334 are hereby approved this date.

Sincerely, ROBERT D. RAY Governor

## SENATE CONCURRENT RESOLUTION 35 By Priebe

1 Whereas, Iowa's state mental health institutes are under 2 the jurisdiction of the Department of Social Services, while the community mental health centers in the state have for many years related to the Iowa Mental Health Authority, which has more recently been made responsible for defining standards 6 for and evaluating services provided by community mental 7 health centers; and 8 Whereas, the legislative Mental Health and Juvenile 9 Institutions Study Committee has repeatedly expressed concern 10 about this circumstance, and about the degree of coordination 11 between the two agencies, in recent years; and 12 Whereas, there are also alcoholism and drug abuse programs 13 in Iowa which are supported with public funds, but are not 14 directly related to either the Department of Social Services 15 or the Iowa Mental Health Authority; and 16 Whereas, since its inception the Iowa Mental Health 17 Authority has been largely supported by federal funds allocated 18 to Iowa, but the future availability of those funds is now 19 uncertain, and state funding (in addition to that contemplated 20 for support of the standards and evaluation functions 21 previously referred to) may be necessary if the programs of 22 the Iowa Mental Health Authority are to continue; Now 23 Therefore, 24 Be It Resolved by the Senate, the House Concurring, That 25 the Legislative Council is requested to authorize appointment 26 of a joint interim subcommittee consisting of members of the 27 Human Resources Subcommittees of the respective Committees on Appropriations to consider the present structure by which 28 29 mental health services are administered in Iowa, and the 30 possible need for consolidation or other alteration of the roles or structure of the state agencies involved.

Whereas, there are a significant number of persons in the State of Iowa whose incomes are marginal, low or moderate 3 in scale but who are not eligible for or wish to avoid applying 4 for any of the present federal or state income assistance 5 programs: and 6 Whereas, many if not most of these persons are either 7

presently or potentially threatened by the high cost of care and treatment for severe or lengthy illnesses or injuries; and

9 10 Whereas, at the present time, Iowa's Medical Assistance

program is for all practical purposes limited in scope to 11 those who are receiving cash payments under a federal or state 12 13

income assistance program; and

Whereas, the Study Committee on Problems of the Elderly 14 15 and Handicapped which functioned during the 1974 legislative interim was desirous of studying the possibility of enacting 16 17 a state catastrophic illness program, and received some pertinent information, but was prevented by lack of time and 18 the press of other matters from pursuing this particular 19 20 topic: Now Therefore,

Be It Resolved by the Senate, the House Concurring, That 21 22 the Legislative Council is requested to provide for expansion and completion of the study of the possibility of enacting 23 24 a state catastrophic illness program, by an appropriate 25 legislative committee or subcommittee, during the 1975 26 legislative interim.

Whereas, several of the options available for revision 12 13 of the Iowa juvenile justice system may require additional 14 appropriations or reallocation of funds from existing programs 15 to new programs: and 16

```
Division S-3615A
```

- 2 1. By inserting the following before line 1, page 1:
- 3 "Section 1. Section ninety-six point two (96.2),
- 4 Code 1975, is amended to read as follows:
- 5 96.2 GUIDE FOR INTERPRETATION. As a guide to
- 6 the interpretation and application of this chapter,
- 7 the public policy of this state is declared to be as
- 8 follows: Economic insecurity due to unemployment is a
- 9 serious menace to the health, morals, and welfare
- 10 of the people of this state. Involuntary unemployment
- 11 is therefore a subject of general interest and concern
- 12 which requires appropriate action by the legislature
- 13 to prevent its spread and to lighten its burden which
- 14 now so often falls with crushing force upon the unem-
- 15 ployed worker and his family. The achievement of
- 16 social security requires protection against this
- 17 greatest hazard of our economic life. This can be
- 18 provided by encouraging employers to provide more
- 19 stable employment and by systematic accumulation of
- 20 funds during periods of employment to provide benefits
- 21 for periods of unemployment, thus maintaining purchasing
- 22 power and limiting the serious social consequences of
- 23 the poor relief assistance. The legislature, therefore,
- 24 declares that in its considered judgment the public good
- 25 and the general welfare of the citizens of this state require
- 26 the enactment of this measure, under the police powers of
- 27 the state, for the compulsory setting aside of unemployment
- 28 reserves to be used for the benefit of persons unemployed
- 29 through no fault of their own. Further, to actively seek
- 30 means of employment in working corps that would materially
- 31 benefit the state as a whole.

#### Division S-3615B

- 32 Sec. 2. Section ninety-six point three (96.3), sub-
- 33 section two (2), Code 1975, is amended to read as follows:
- 2. TOTAL UNEMPLOYMENT. Each eligible individual
- 35 who is totally unemployed in any week shall be paid with
- 36 respect to such week benefits in an amount which shall be
- 37 equal to his weekly benefit amount, but only if the state
- 38 was unable to provide a job opportunity in a service of
- 39 general welfare to the state.
- 40 Sec. 3. Section ninety-six point three (96.3), Code
- 41 1975, is amended by adding the following new subsection:
- 42 NEW SUBSECTION. Wherever the state sees a need to
- 43 maintain, repair, or construct facilities that would
- 44 serve the general public welfare, the unemployed who have

- the physical capability must serve in that capacity. Wages
- 46 shall be paid for such services from funds provided in
- section ninety-six point thirteen (96.13) of the Code, 47
- 48 shall be the equivalent of the wage scale as set forth by
- the department of labor for like services. Should the 49
- state fail to provide a job opportunity, then only will 50

## SENATE CONCURRENT RESOLUTION 38 By Andersen and Heying

1 Whereas, the present economic situation in Iowa and the 2 nation is resulting in increased numbers of people drawing 3 unemployment compensation and is also contributing to an increase in the number of welfare recipients; and 5 Whereas, it is desirable as a matter of public policy 6

to pay people for working at productive employment, rather than providing them funds in lieu of wages or salary; and Whereas, there is a lack of information as to the most

unemployment compensation or welfare benefits; and Whereas, it is known that at least one state, California, has had experience with implementation of such a program,

apparently with a high degree of success; Now Therefore, 15 Be It Resolved by the Senate, the House Concurring, That 16 17 the Legislative Council is requested to authorize appointment of a study committee or a joint interim subcommittee 18 of appropriate committees of the Senate and House to study 19 20 the foregoing matters during the 1975 legislative interim, and that a report of the study be prepared and submitted to 21 the Legislative Council and to the members of the General 22 23 Assembly at the conclusion of the interim, accompanied by draft legislation designed to implement the recommendations 24 of the study committee or joint interim subcommittee.

- 14 Be It Resolved by the Senate, the House Concurring, That
- 15 Iowa initiate a comprehensive energy program to inform the
- 16 public of the need and intent to promote energy conservation
- 17 as a state policy with the goal of achieving and maintaining
- 18 a level of zero energy growth; and
- 19 Be It Further Resolved, That the governor, the Iowa Energy
- 20 Policy Council and all other state agencies be instructed
- 21 to evaluate their programs and policies in light of a zero
- 22 energy growth objective and that they immediately initiate
- 23 such measures as are required, within their current authority,

# HOUSE CONCURRENT RESOLUTION 39 By Krause and Small

Whereas, a trend has developed over the years whereby Congress has evaded the basic concept of the interstate 3 commerce clause of the Constitution of the United States by 4 mandating that federal requirements be adopted by state 5 legislatures as a condition to assuring the continued flow 6 of federal dollars granted to the states; and 7 Whereas, many of the requirements attached to dollar grants 8 are mandated by an administrative ruling issued by government departments delegated such authority by Congress; and 9

10 Whereas, the continued mandates attached to dollars that 11 form a large segment of a state's basic budget tend to make it difficult for states to resist the will of the federal 12

13 government resulting in states being forced to act contrary

to the will of their people; and 14

Whereas, with the inception of federal revenue sharing. 15 16 pressures for mandates may build which may cause Congress 17 to further infringe on the rights of the states to control their legislative process and govern their citizens: Now 18 19 Therefore.

20 Be It Resolved by the House of Representatives, the Senate Concurring, That this general assembly respectfully applies 21 22 to the Congress of the United States to call a convention 23 for the purpose of proposing the following article as an 24 amendment to the Constitution of the United States. 25

"Article .....

Section 1. Congress shall make no law which usurps those powers that the states have not expressly delegated to Congress by attaching a requirement to an appropriations measure with which the states must comply as a condition to receiving the appropriation.

29

This article shall be inoperative unless it shall 1 2 have been ratified as an amendment to the Constitution by the legislatures of three-fourths of the several states within 4 seven years from the date of its submission to the states 5 by the Congress."

Be It Further Resolved, That if Congress shall have proposed 6 an amendment to the Constitution identical with that contained 7 8 in this resolution prior to July 1, 1980, this application

for a convention shall no longer be of force or effect. 9 Be It Further Resolved, That a duly attested copy of this 10

11 resolution be immediately transmitted to the Secretary of

the Senate of the United States, the Clerk of the House of 12

Representatives of the United States and to each member of 13 14 the Congress from this state.

#### GOVERNOR'S VETO MESSAGE

The following veto message from the Governor was presented:

May 15, 1975

The Honorable Arthur A. Neu Lieutenant Governor and President of the Senate Sixty-sixth General Assembly State Capitol Building Local

Dear Governor Neu:

I am returning herewith Senate File 338, an Act relating to the membership of the Iowa Natural Resources Council, disapproved and without my signature to the Senate in accordance with Article III, Section 16, of the Constitution of the State of Iowa.

Senate File 338 would prohibit more than five of the Governor's nine appointees to the Natural Resources Council from being members of the same political party. In addition the difficulty with this bill is that it would apply this limitation on a retroactive basis to appointments that have already been made and are awaiting confirmation and to present members.

Iowa law calls for appointments to the Natural Resources Council to be made within sixty days following the organization of each biennial regular session of the General Assembly. On March 12, 1975, I complied with that requirement by submitting to the Iowa Senate four names for confirmation to the Natural Resources Council. Those appointees fully meet the requirements for membership on the Natural Resources Council established in Chapter 455A of the Code of Iowa.

Questions have since been raised by some legislators concerning, not their qualifications, but the fact that they are Republicans. Some have advocated that a balance in the political affiliation of Council members be required. Senate File 338 was introduced following the submission of my appointments to accomplish that balance—unfortunately on a retroactive basis.

I have indicated that I would accept a change should the legislators decide that they want a partisan balance for the Natural Resources Council, and that I would make future appointments in such a manner until such time that the desired partisan balance is achieved. I have also voiced my willingness to cooperate with the legislators in working with them to restructure the Natural Resources Council among several other departments.

While I can support changed requirements for future appointments to the Natural Resources Council, I believe it is eminently unfair to apply this

kind of restriction to persons serving on an existing council on a retroactive basis.

If approved, Senate File 338 would completely nullify the appointments I made to the Council this spring. The appointments were made in full compliance with existing law. The appointments were accepted in good faith by responsible and competent Iowans willing to serve in our state government.

It is interesting to note that we haven't heard any one question the legality of the appointments or the competency of the appointees. Yet the supporters of this measure would arbitrarily prevent the two reappointees and the two new appointees from serving on the Council merely because of their party affiliation. This measure has become nothing less than an attempt to replace competent, legally appointed Republicans with Democrats.

The blatant partisan motive behind Senate File 338 is evident. No concern for political balance among Council members was expressed prior to these appointments. Only after the appointments were made was the bill introduced and passed. In a herculean burst of effort, the Legislature processed this bill out of order to rush it down to me only one day after final passage. In the rush, the Legislature violated its own procedures by not providing sufficient time for motions to reconsider to be filed. As a result the House of Representatives had to request that the bill be withdrawn from the Governor's consideration and then resubmitted.

I urge the Legislature to reconsider Senate File 338 to provide for restrictions only on future appointments—not on those where good Iowans have in good faith accepted their appointments. Until then, I believe I have no alternative except to veto the measure.

For the reasons I have outlined above, I hereby respectfully disapprove of this Senate File 338.

Sincerely ROBERT D. RAY Governor

### GOVERNOR'S ITEM VETO MESSAGE

The following item veto message from the Governor to the Secretary of State was presented:

The Honorable Melvin D. Synhorst Secretary of State State Capitol Building Local

Dear Mr. Synhorst:

I hereby transmit House File 864, an Act providing for and making appropriations for financing state postsecondary education programs including programs under the state board of regents, the higher education facilities commission, and the department of public instruction.

House File 864 is approved June 3, 1975, with the following exception which I hereby disapprove.

I am unable to approve Item 3 designated in the Act as Section 3 which reads as follows:

- "Sec. 3. Section two hundred sixty-one point two (261.2), subsection four (4), Code 1975, is amended to read as follows:
- 4. Prepare and administer a state plan for a state supported and administered scholarship program. Said state plan shall provide for scholarships based on ability [and need] to deserving students of Iowa, matriculating in Iowa universities, colleges, area vocational schools, area community colleges, or schools of professional nursing.

The provisions of this section shall be effective July 1, 1976, however, if a deserving student who receives a scholarship for the 1975-1976 academic year also receives a scholarship for the 1976-1977 academic year, it shall be based on both ability and need."

Heretofore, the Iowa scholarship program administered by the higher education facilities commission awarded scholarships under this program on ability and need of the applicant. This provision I am deleting eliminates the need factor.

I am sympathetic with the idea of recognizing Iowa high school students for academic achievement, but to reduce the number of scholarships awarded to students on a need basis for this purpose would be unwise.

The primary purpose of this program is to provide financial assistance to high academic achievers who need the assistance to further their education. Section 3 would be counter to this.

The action taken by the General Assembly in Section 3 also has the effect of diluting the present scholarship program by spreading the number of scholarship awards among more students, regardless of need, thereby reducing the size of the scholarships to those who need them most.

The action I take in eliminating this section of House File 864 does not alter the amount of the appropriation made by the General Assembly to the Iowa Scholarship Program. The program can continue to function well without Section 3—with scholarships being distributed to students on the basis of both "need" and "ability" as is done now.

For these reasons, I hereby disapprove this item in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 864 are hereby approved this date.

Sincerely, Robert D. Ray Governor

#### 5 Section 1. The general assembly finds that a

  - and impending unavailability of medical malpractice
- 8 insurance. The purposes of sections two (2) through
- 9 thirteen (13) of this Act are to assure that the
- 10 public is adequately protected against losses arising
- 11 out of medical malpractice by providing licensed
- 12 health care providers with medical malpractice
- 13 insurance through the requirement that certain
- 14 liability insurance carriers write medical malpractice
- 15 insurance for a period of two years upon a finding
- 16 of an emergency by the commissioner of insurance that
- 17 either such insurance is not available through normal
- 18 channels or that it is not available on a reasonable
- 19 basis because of lack of competition for such
- 20 insurance, or otherwise; to establish an association

- 22 and to provide for recoupment of losses resulting
- 23 from the operation of the association through a
- 24 stabilization reserve fund contributed to by insureds.
- 25 or a favorable premium tax treatment.
- 26 It is the intent of this Act to provide only an
- 27 interim solution to the impending unavailability of
- medical malpractice insurance. It is not anticipated 28
- 29 that this Act will resolve the underlying causes of
- 30 the unavailability and high cost which extend beyond
- 31 the insurance mechanism. It is anticipated that
- 32 future legislation will be required to deal on a more

- current situation. Sec. 2. NEW SECTION. DEFINITIONS. As used in 35
- 36 this Act, unless the context otherwise requires:
- 37 1. "Association" means the joint underwriting

# ASSOCIATION.

15 1. A temporary joint underwriting association 16 is created, consisting of all insurers authorized 17 to write and engaged in writing on a direct basis 18 within this state liability insurance, including 19 insurers covering such peril in multiple peril poli-20 cies. Every such insurer shall be a member of the 21 association and shall remain a member as a condition 22 of its authority to continue to write liability 23 insurance in this state.

2. The purpose of the association shall be to provide, for a period not exceeding two years, a market for medical malpractice insurance on a selfsupporting basis without subsidy from its members.

27 28 3. The association shall not commence underwriting 29 operations for health care providers until the

30 commissioner, after notice and opportunity for hearing,

31 has determined that medical malpractice insurance is not available at a reasonable cost for a specific

32 33 type of licensed health care provider in the voluntary

34 market. Upon such determination the association shall

35 be authorized to issue policies of medical malpractice 36 insurance for such specific type of health care

37 provider but need not be the exclusive agency through

38 which such insurance may be written on a primary basis

39 in this state.

If the commissioner determines at any time that medical malpractice insurance can be made available in the voluntary market at a reasonable price for any specific type of licensed health care provider, the association shall thereby cease underwriting medical malpractice insurance for that type of licensed health care provider.

4. The association shall, subject to the terms and conditions of sections two (2) through thirteen 49 (13) of this Act, have and exercise the following 50 powers on behalf of its members:

The association shall submit a plan of operation 15 to the commissioner, together with any amendments 16 necessary or suitable to assure the fair, reasonable, 17 and equitable administration of the association 18 consistent with sections two (2) through thirteen 19 (13) of this Act. - 3. All member insurers shall comply with the plan of operation.
- 7 Sec. 5. NEW SECTION. POLICY FORMS AND RATES.
  1. The rates, rating plans, rating classifications.
  - 1. The rates, rating plans, rating classifications, and policy forms and endorsements applicable to insurance written by the association and the

statistical and experience data relating thereto shall

12 be subject to sections two (2) through thirteen (13) 13 of this Act and to the provisions of the general

14 insurance code which are not inconsistent with the purposes and provisions of this Act.

2. All policies issued by the association shall provide for a continuous period of coverage beginning with their respective effective dates and terminating automatically at 12:01 a.m. on July 1, 1977, unless sooner terminated in accordance with sections two (2) through thirteen (13) of this Act, or unless terminated because of failure of the policyholder to pay any premium or stabilization reserve fund charge or portion of either when due. All policies shall be issued subject to the group retrospective

rating plan and the stabilization reserve fund authorized by this Act. No policy form shall be used by the association unless it has been filed with and

approved by the commissioner.

3. The commissioner shall specify whether policy forms and the rate structure shall be on a "claimsmade" or "occurrence" basis and coverage shall be provided by the association only on the basis specified by the commissioner. The commissioner shall specify the "claims-made" basis only if the contract makes provision for residual "occurrence" coverage upon the retirement, death, disability or removal from this state of the insured. Provision may be made for a premium charge allocable to any such residual "occurrence" coverage and such premium charges for such residual coverage shall be segregated and separately maintained for such purpose which may include the reinsurance of all or a part of that

include the reinsurance of portion of the risk.

4. The rates, rating plans, rating rules, and rating classifications applicable to the insurance written by the association shall be on an actuarially sound basis, giving due consideration to the group retrospective rating plan and the stabilization reserve fund, and shall be calculated to be self-supporting.

Page 5

5. All policies issued by the association shall be subject to a nonprofit group retrospective rating plan to be approved by the commissioner under which the final premium for all policyholders of the association, as a group, will be equal to the administrative expenses, loss and loss adjustment expenses and taxes, plus a reasonable allowance for

```
8
    contingencies and servicing. Policyholders shall
    be given full credit for all investment income, net
10
    of expenses and a reasonable management fee, on
    policyholder supplied funds. The standard premium,
11
12
    before retrospective adjustment, for each policy
13
    issued by the association shall be established for
14
    portions of the policy period coinciding with the
15
    association's fiscal year on the basis of the
16
    association's rates, rating plans, rating rules, and
17
    rating classifications then in effect. The maximum
18
    final premium for all policyholders of the associa-
19
    tion, as a group, shall be limited as provided in
20
    subsection five (5) of section six (6) of this Act.
21
    Since the business of the association is subject to
22
    the nonprofit group retrospective rating plan required
23
    by this subsection, there shall be a presumption that
24
    the rates filed and premiums imposed by the association
25
    are not unreasonable or excessive.
26
      6. The association shall certify to the
27
    commissioner the estimated amount of any deficit
28
    remaining after the stabilization reserve fund has
29
    been exhausted in payment of the maximum final premium
30
    for all policyholders of the association. Within
31
    sixty days after that certification the commissioner
32
    shall authorize the members of the association to
33
    commence recoupment of their respective shares of
    the deficit by deducting their share of the deficit
34
35
    from past or future premium taxes due the state of
36
    Iowa. The association shall amend the amount of its
37
    certification of deficit to the commissioner as the
    values of its incurred losses become finalized and
38
39
    the members of the association shall amend their
40
    recoupment procedure accordingly.
41
       In the event that sufficient funds are not
42
    available for the sound financial operation of the
43
    association, all members shall contribute to the
    financial requirements of the association in the
44
45
    manner provided for in section eight (8) of this Act.
    Any contribution shall be reimbursed to the members
46
47
    by recoupment as provided in subsection six (6) of
48
    this section.

Sec. 6. NEW SECTION. STABILIZATION RESERVE FUND.

50 1. There is created a stabilization reserve fund.

### Page 6

49

The fund shall be administered by three directors, 1 one of whom shall be the commissioner. The remaining 3 two directors shall be appointed by the commissioner: One shall be a representative of the association and 4 the other a representative of its policyholders. 5 2. The directors shall act by majority vote with 6 7 two directors constituting a quorum for the transaction of any business or the exercise of any power of the 8 9 fund. The directors shall serve without salary, but each director other than the commissioner shall be 10 11 reimbursed for actual and necessary expenses incurred

26

27

12 in the performance of official duties as a director. 13 The directors shall not be subject to any personal liability with respect to the administration of the 14 15 fund for acts or decisions made in good faith pursuant 16 to the provisions of this Act.

17 3. Each policyholder shall pay to the association 18 a stabilization reserve fund charge determined by the directors which shall not exceed the amount of 19 one annual premium due for insurance through the 20

21 association. Such charge shall be separately stated 22 in the policy. The association shall cancel the

23 policy of any policyholder who fails to pay the 24 stabilization reserve fund charge.

4. The association shall promptly pay to the fund all stabilization reserve fund charges which it collects from its policyholders and any retrospective

28 premium refunds payable under any group retrospective 29 rating plan approved by the commissioner under the

provisions of this Act. 30

31 5. All monies received by the fund shall be held 32 in trust by a corporate trustee selected by the 33 directors. The corporate trustee may invest the 34 monies held in trust, subject to the approval of the 35 directors. All investment income shall be credited 36 to the fund, and all expenses of administration of 37 the fund shall be charged against the fund. The 38 monies held in trust shall be used solely for the 39 purpose of discharging when due any retrospective 40 premium charges payable by policyholders of the 41 association under the group retrospective rating plan 42 approved by the commissioner. Payment of retrospective premium charges shall be made by the directors upon 43 44 certification to them by the association of the amount 45 due. If all monies accruing to the fund are finally 46 exhausted in payment of retrospective premium charges. 47 all liability and obligations of the association's 48 policyholders with respect to the payment of retrospective premium charges shall thereupon terminate 49 and shall be conclusively presumed to have been

Sec. 7. NEW SECTION. PROCEDURES.

1. Upon a finding by the commissioner, after notice and opportunity for hearing, that medical malpractice insurance is not available at a reasonable

9 cost for a specific type of licensed health care 10 provider in the voluntary market and upon notification

11 of that finding to the association, any licensed

12 health care provider of the type specified in the 13 commissioner's finding shall be entitled to apply

    portion thereof as is prescribed in the plan of

31
    written during the preceding calendar year bears to
32
    the aggregate net direct premiums written in this
    state by all members of the association. Each member's
33
34
    proportion shall be determined annually on the basis
    of the annual statements and other reports filed by
35
36
    the insurer with the commissioner.

 5
      The commissioner may, prior to the first meeting
 6
    of the members of the association, appoint an interim
 7
    governing board of the association consisting of eight
 8
    member insurers and three representatives of the
    licensed health care providers. The eight member
 9
    insurers of that interim governing board shall serve
10
    until their successors are elected by the members
11
12
    of the association. In appointing members of the
13
    association to the interim governing board, the
14
    commissioner shall consider among other things whether
15
    all member insurers are fairly represented.

The Chair ruled the point well taken and amendment S-4052 to amendment S-3989 out of order.

Senator Shaff offered amendment S—4042 to amendment S—3989, moved its adoption and requested a record roll call:

Whereas, the Multistate Tax Commission has implemented a joint national audit program which may be of benefit to states and businesses because of providing qualified auditors, reducing the number of audits a business will be subjected to, eliminating costly duplication in tax administration and 18 reducing the cost per dollar or tax compliance; and

Whereas, a state may become an associate member of the Multistate Tax Commission without cost to the state except for costs of attending meetings and conferences by the state's representatives, and such membership entitles a state to attend all meetings of the Multistate Tax Commission, receive information developed by the Multistate Tax Commission, and determine if membership or participation in the Multistate Tax Commission would be beneficial to a particular state. ### SENATE CONCURRENT RESOLUTION 48 By Committee on Energy

Whereas, Iowa and the nation are facing a serious national 1 2 energy shortage because of the growing demand for energy and 3 the increasing technological, economic, and environmental 4 problems involved in meeting energy needs; and 5

Whereas, significant levels of conservation of energy and 6 reclamation of valuable resources is possible through the

7 recycling of waste: and

8 Whereas, nonrefillable beverage containers contribute to 9 problems of unsightly litter and solid waste disposal; and 10

Whereas, returnable beverage containers use one-third as much energy as nonrefillable bimetal cans, glass bottles, and aluminum cans: and

13 Whereas, land for landfills has become increasingly 14

difficult to locate and is costly to purchase; and

Whereas, the production of supplementary-fired solid waste boiler fuel appears to be economically attractive for those utilities which have coal burning boilers: Now Therefore.

18 Be It Resolved by the Senate, the House Concurring. That 19 the legislative council create a study committee, as provided 20 by law, composed of members of both houses of the general 21 assembly, to study the energy-related impacts of nonrefillable 22 beverage containers and the feasibility of resource recovery 23 systems as they relate to the waste disposal problem in this 24 state and to solid waste management, which study shall include 25 consideration of social, political, economic and energy aspects 26 of the problem: and

Be It Further Resolved, That the study committee may include nonlegislative members representing the Department of Environmental Quality, the State Department of Health, the Energy Policy Council, and other citizens who have demonstrated

This study would 5 concern itself with the following points: 7 1. Should Iowa have a college of optometry? 2. What costs are involved? 8 9 3. Where should this college be located?

# SENATE CONCURRENT RESOLUTION 50 By Taylor

Whereas, our nation is extremely dependent upon Iowa's annual agricultural production of adequate grain, and;
 Whereas, many areas of the state are dependent upon a complex system of drainage and levee districts to assure that this production is maintained, and;
 Whereas, many drainage districts were designed, built

and installed as many as fifty or more years ago and no

longer are of a capacity sufficient to adequately serve 8 9 the enlarged drainage areas due to additional lands brought 10 under cultivation, and:

Whereas, the costs of drainage have increased so drastically that funding of new mains or the replacing of older and inadequate mains will be difficult to find; Now Therefore,

Be It Resolved by the Senate, the House Concurring, That the legislative council is authorized to create a study

16 committee as provided by law, composed of members of the 17 Senate and the House of Representatives representing both 18

political parties to conduct a study during the 1975

19 interim relating to updating and making needed corrections 20 in our present law, and

Be It Further Resolved, That the study committee shall 21 22 prepare a report of its findings and recommendations and 23 submit it to the legislative council and the members of the 24 Sixty-sixth General Assembly, 1976 Session, accompanied 25 by legislative bill drafts designed to carry out the recom-26 mendations of the study committee.

# SENATE CONCURRENT RESOLUTION 51 By Priebe

Whereas, it appears there is insufficient time remaining 1 2 during the 1975 Session of the General Assembly to give careful 3 and detailed consideration to the land use bill, House File 4 505: and

Whereas, because of limited time and physical facilities available for public hearings and complexity of subject matter all persons representing various viewpoints may not have had an adequate opportunity to study and present their viewpoints to the proposed land use law embodied in House File 505 during the 1975 Session of the General Assembly; and

Whereas, the protection and best use of the natural 11 resources of the state of Iowa is an issue which must be 12 13 resolved and the state should not be dependent upon federal legislation and existing state laws to provide such protection 14 15 and use: and

Whereas, it is necessary to provide a proper forum for consideration of all land use considerations and it is not possible to provide such forum during the legislative session; Now Therefore,

Be It Resolved by the Senate, the House Concurring, That the legislative council appoint members of the general assembly for the purpose of planning a legislatively sponsored public forum for a comprehensive analysis of House File 505 and the issues involved in House File 505 and land use in general and pursuant to such appointment a limited number of hearings or forums with proper advance notice to persons having divergent viewpoints in regard to land use be held and be

27 financed with funds available for legislative purposes; and 28 29

Be It Further Resolved, the members of the general assembly

30 who are appointed shall represent the various positions and Page 2

1 viewpoints expressed in the general assembly in regard to 2 House File 505, as well as both Houses and political party

3 affiliations in the General Assembly; and

4 Be It Further Resolved, That information be prepared in 5 regard to House File 505 which will provide a detailed and 6 understandable explanation of House File 505 and the reasons

why this legislation was prepared in its final and amended

8 form and that this information be disseminated to persons

9 and organizations having an interest in land use; and

10 Be It Further Resolved, That persons representing the 11 executive and judicial branches of government, the federal,

12 state and local government branches of government, the rederary

13 and private organizations, and interested citizens, be invited

14 to participate in the public hearings or forums authorized
