SENATE CONCURRENT RESOLUTION 20

By: Gallagher

1 *Whereas*, the United States is facing a serious short-
2 age of fossil fuel energy supplies as demand continues
3 to grow while supplies diminish; and
4 *Whereas*, the national energy program submitted to
5 Congress by the President includes incentives to encour-
6 age the development and use of renewable energy resources
7 such as solar, wind and methane energy systems; and
8 *Whereas*, complaints have been voiced by Iowans who have
9 tried to conserve fossil fuels by installing a solar, wind
10 or methane system to meet a portion of their energy needs and
11 who have experienced a change in conditions or availability of
12 electric or natural gas service as a result of the utiliza-
13 tion of a renewable energy system; and
14 *Whereas*, such policies of electric and natural gas
15 utilities may discourage Iowans from using renewable
16 energy systems at a time when such efforts should be
17 strongly encouraged; and
18 *Whereas*, Senate Study Bill 251 attempts to address
19 this problem by prohibiting municipalities, corporations
20 and cooperative associations which furnish gas and
21 electricity from discriminating among users of solar,
22 wind or methane energy systems in terms of availability
23 and conditions of services and rates and charges;
24 *Now Therefore*,
25 *Be It Resolved by the Senate, the House Concurring, That*
26 the Legislative Council is requested to appoint an interim
27 study committee to examine Senate Study Bill 251 and the
28 situation which prompted the development of this proposed
29 legislation, including the need for such legislation
30 given present provisions of law which prohibit a public

Page 2

1 utility from discriminating among its customers and the
2 economic impact of a trend toward renewable energy
3 resources on the electric and natural gas utilities. The
4 study may also examine other problems faced by potential
5 users of renewable energy systems and the utilities which
6 may result from the increased development and utilization
7 of such systems; and

8 *Be It Further Resolved*, That the Study Committee submit
 9 a report of its findings including legislation necessary
 10 to implement any recommendations to the Legislative Council
 11 and members of the Sixty-seventh General Assembly meeting
 12 the year 1978.

1 *Whereas*, many of the smaller rural communities
 2 in Iowa are dying because of increased governmental
 3 costs, lack of development and community pride, and
 4 the exodus of young people to larger cities; and
 5 *Whereas*, rural Iowa communities, with lower overall
 6 costs of living and fewer social ills, can be attractive
 7 alternatives to living in large cities; and
 8 *Whereas*, smaller rural communities tend to receive
 9 little federal financial assistance to assist in
 10 development or redevelopment projects; and
 11 *Whereas*, rural communities should be encouraged to
 12 initiate and implement self-help development projects
 13 with the support and direction of its own citizenry;
 14 *Now Therefore*,
 15 *Be It Resolved by the Senate, the House Concurring*,
 16 That the legislative council authorize the creation of
 17 a subcommittee of the house and senate committees on
 18 county government or the house and senate committees
 19 on cities, or both house and senate standing committees
 20 for the purpose of studying the feasibility of establish-
 21 ing a rural community development program in this state.
 22 The study should include House File 557 and the financial
 23 requirements of implementing a rural community develop-
 24 ment program; and
 25 *Be It Further Resolved*, That a report of the subcom-
 26 mittee's recommendations including any necessary bill
 27 drafts be submitted to the legislative council, the
 28 members of the appropriate standing committees, and
 29 the other members of the Second Session of the Sixty-

6 Joint Resolution 9, proposing the same amendment, has
7 been reported by the house committee on county govern-
8 ment for consideration of the Sixty-seventh General
9 Assembly; and

10 *Whereas*, if House Joint Resolution 9 is subsequently
11 adopted by the Sixty-seventh General Assembly and
12 approved by the state electorate at the 1978 general
13 election, implementation of joint county-municipal
14 corporation governments will require the enactment of
15 legislation by the general assembly; and

16 *Whereas*, it is desirable that current state law

4 bills which, under the rules of each house, remain on their

9 4. The Legislative Council shall consider the Plan of

1 are authorized to receive, number, print and distribute
2 amendments to any introduced bill. Nothing herein shall
3 require immediate distribution of any bill, resolution or
4 amendments if, the Secretary of the Senate and Chief Clerk
5 of the House of Representatives determine that it is more
6 efficient or economical to delay or consolidate distributions.

7 EXPLANATION

8 Division I of the resolution provides for the adjournment
9 of the General Assembly on the calendar day it actually occurs.
10 It eliminates the two or three week "clock stopping" at the
11 end of the session to permit the enrollment of bills to be
12 sent to the Governor. The definite date should remove any
13 doubt as to when the Governor's time begins to run for him
14 to approve or veto legislation. The matter of when interim
15 pay begins under the new system is provided for.

16 Division II provides for each standing and budget

17 subcommittee to initially determine its own agenda of interim
18 work. The Legislative Council must approve the plan of each
19 committee before it is effective.

20 A plan for the pre-filing of legislative bills, pursuant
21 to statutory authorization, is provided for.

22 A calendar would be created during the interim which would
23 show bills reported by committees during the interim and bills
24 remaining on the calendar at the end of the first session.

25 The interim calendar is intended to permit early debate on
26 the measures in the 1978 Session.

COMMUNICATION FROM THE GOVERNOR

The Honorable Arthur A. Neu
President of the Senate
Sixty-seventh General Assembly
State Capitol
Des Moines, Iowa 50319

Honorable Members of the General Assembly:

For the first time in 13 years this day does not mark the official end of legislative business for the year. Sine die adjournment normally suggests that action on priority legislative items and appropriations is concluded. 1977 is different.

Iowa's first experience with collective bargaining negotiations has necessitated the special legislative session which I have called for June 21 to conclude appropriations.

You began the appropriations process this year by utilizing a new committee approach to budget-making, concentrating almost exclusively on appropriations work during the first half-dozen weeks of this assembly.

In the spirit of that approach, and to help your efforts, my budget recommendations were delivered during the first week of the session. While the merits of the committee budgeting technique have been disputed, the net result—the number of dollars so far appropriated—is known. After much talk of cutting my budget, this legislature followed the familiar pattern and exceeded my recommendations by \$13 million. While we can appreciate some of these increases, the total added burden will strain the state's resources.

This year's session also saw activity on other fronts—and I welcome this opportunity to share my observations.

This General Assembly did not lack advice as to what should be debated and passed. The session began with several priority lists, varying from a recitation of lofty goals and platitudes . . . often easy to support, difficult to implement, and awesome to finance, to, if you will, the detailed researched list of proposals I sent you on January 11. I believed then, as I do now, that affordable and workable solutions are difficult to find. I think you, too, have discovered that to be true.

The most visible issue during last year's campaign and the beginning of this legislative session was PROPERTY TAXES. Most legislators cited it as a primary concern. I detailed a 15-point plan to halt the unchecked growth in property assessments and to improve local government financing procedures. Unfortunately, much of that package was not adopted. Local option taxation was left undone as well as such items as recertification of assessors and full disclosure on the sale of property. These proposals are simply too important to Iowans to file away in the "Almost Got Done" archives. They deserve your attention next year.

You did send me a bill that will limit property assessments and avoid a predictably dramatic increase at the next equalization order. You have been severely and sometimes unfairly criticized for the complexity and scope of your actions on property taxes. Yet it is important to note that without some form of relief Iowa homeowners and farmers would experience another round of startling valuation increases this fall.

One of your greatest accomplishments this year could have been the LAND USE bill. The House invested long hours developing a land use bill emphasizing local control, recognizing the need for state guidelines and immediately protecting critical land areas. The final version does not measure up to the quality, effectiveness or impact of the original House bill.

You forfeited an opportunity to assure the protection of our land. Nevertheless, you did respond to several initiatives I had in my January 11 Message, and for that I thank you.

You adopted the uniform CHILD CUSTODY statute, thus offering some protection to youngsters and parents from the trauma of uncertain jurisdictional outcomes. After this winter's severe energy crisis, the obvious benefits of including energy and thermal efficiency standards in the STATE BUILDING CODE became apparent, and you took action in that area. Prompted by a close call, you quickly moved to protect our people and land by passing a HAZARDOUS SUBSTANCE SPILLS CONTROL bill. Years of repeated requests were finally heeded as you adopted a MOBILE HOME TIEDOWN requirement. Assisting the disadvantaged, you provided INCREASED ADC BENEFITS to help keep pace with inflation. An improved public health nursing program will encourage IN-HOME HEALTH CARE for Iowa's aged. And, the funding mechanism for our UNEMPLOYMENT INSURANCE TRUST FUND was replaced with one which will keep the fund solvent and provide more reliable flow of revenue.

Other measures could have been adopted to enhance the legislature's record of achievement. The public demand for full access to government activities warranted inclusion of collective bargaining negotiations in the OPEN MEETINGS LAW. Bipartisan support from the League of Iowa Municipalities should again remind you of the need for a WASHINGTON OFFICE for the State of Iowa . . . and that need is still with us.

The tragedy of highway accidents should compel action on my proposal to strengthen DRUNK DRIVING statutes. UNIFORM BIDDING REQUIREMENTS for local governments, consolidation of the DEPARTMENT OF ENVIRONMENTAL QUALITY, and the systematic screening of LICENSING BOARDS are other proposals which should have been considered, modified if necessary, but certainly passed during 1977. They were never brought up. You can give them consideration in the 1978 session.

Two very visible issues remain with us. The first is that of HIGHWAY FUNDING. The House moved ambitiously and sent a bill to the Senate. Although the distribution formula is in question, House members should be recognized for their willingness to address this problem area. The Senate needs to match their resolve. The returnable BOTTLE AND CAN bill is another story. Seldom is an issue more clear cut with a definable answer based on experience. We know the results of the bill I originally recommended—the Oregon version. Unfortunately that simple and effective bill was cobbled up. The Senate will have a chance to correct it.

In addition, you approved several other priority items in one house only. Half of a bill is not half of a solution—but it is an investment of half the legislative resources necessary to address the problem. This investment should not be wasted by failure to complete action in both houses. We look forward to completed work to revise our JUVENILE JUSTICE laws, RESTRUCTURE THE STATE FAIR AND LAW ENFORCEMENT ACADEMY BOARDS, and strengthen the protection of MINORITY STOCKHOLDERS.

Others have joined in judging the record of this first session—editorial

writers, representatives of special interest groups and those to whom you are ultimately accountable—the people of Iowa.

You have asked all of these people to refrain from hasty conclusions. You have asked for time. You have asked them to postpone their judgments until the gavel falls on the second session next year.

This request obviously points to opportunities and obligations to act in 1978. Cynics tell us that election year legislatures rarely accomplish much of significance. They say that campaigning triumphs over courage, rhetoric over reason and ballots over boldness. You can prove them wrong.

In many instances, your agenda for next year is already set. Much of your time is needed to complete partially finished legislation, unmet priorities and another round of appropriations.

As you adjourn this session, you have my appreciation and thanks for the constructive efforts you have made. You know that the issues you will face in the special session and in the next regular session demand timely consideration and responsible action.

As you accept the challenge, you can be poised to step forward and build upon this year's beginning—to forge a record of achievement for which you can all be proud.

Thank you and best regards.

Sincerely,
ROBERT D. RAY
Governor

1 Amend Senate File 289 as follows:
2 1. Page 1, by inserting after line 7 the following:
3 “Sec. ____ . Rule one (1), subsection one (1):
4 Rule 1. SCOPE OF RULES AND DEFINITIONS.
5 1. SCOPE. The rules in this section provide
6 procedures [for indictable criminal cases] *applicable*
7 *to indictable offenses*.”
8 2. Page 2, by inserting after line 25 the
9 following:
10 “Sec. ____ . Rule three (3), subsection two (2),
11 paragraph b, subparagraph three (3), part (b);

13 four (4), paragraph j, unnumbered paragraph one (1):
14 (b) The juror has formed or expressed such an
15 opinion as to the guilt or innocence of the defendant
16 as would prevent the juror from rendering a true
17 [verdict] *indictment* upon the evidence submitted.
18 h. REFUSAL OF WITNESS TO TESTIFY. When a witness
19 under examination before the grand jury refuses to
20 testify or to answer a question [put to him or her],
21 it shall proceed with the witness before a district
22 [court] judge, and the foreman shall then distinctly
23 state before a district [court] judge the question and
24 the refusal of the witness, and if upon hearing the
25 witness the court [shall decide] *decides* that the witness
26 is bound to testify or answer the question propounded,
27 the judge shall inquire of the witness if he or she
28 persists in his or her refusal, and, if he or she
29 does, shall proceed with the witness as in cases of
30 similar refusal in open court.

31 i. EFFECT OF REFUSAL TO INDICT. If, upon
 32 investigation, the grand jury refuses to find an
 33 indictment against one charged with a public offense,
 34 it shall return all papers to the clerk, with an
 35 endorsement thereon, signed by the foreman, to the
 36 effect that the charge is ignored. Thereupon, the
 37 district [court] judge must order the discharge of the
 38 defendant from custody if in jail, and the exoneration
 39 of bail if bail be given. Upon good cause shown,
 40 the district [court] judge may direct that the charge
 41 again be submitted to the grand jury. Such ignoring
 42 of the charge does not prevent the cause from being
 43 submitted to another grand jury as the court may
 44 direct; but without such direction, it cannot [be] again
 45 be submitted.

46 The grand jury shall inquire into all indictable
 47 offenses *brought before it* which may be tried within
 48 the county, and present them to the court by
 49 indictment. The grand jury shall meet at times

 24 If the defendant gives no other name or gives his
 25 or her true name, the defendant is thereafter precluded
 26 from objecting to the indictment or information upon

EXPLANATION

Page 5

1 The appropriations contained in this Act to the
2 department of social services for the 1977-1978 fiscal
3 year are intended to provide for the continuation
4 of current programs with exceptions as indicated by
5 specific provisions contained in this Act.

6 1. The general assembly intends that the department
 7 of social services shall prepare and submit to the
 8 joint budget subcommittee on social services an
 9 analysis of the three juvenile institutions at Eldora,
 10 Mitchellville, and Toledo and a proposal to combine
 11 these three institutions into two shall be made.
 12 It is intended that the department shall consider
 13 the report and recommendations of the Advisory
 14 Commission on Correctional Relief in preparing its
 15 analysis and proposal.

16 2. It is the intent of this bill that during
 17 fiscal year 1977-1978 the Clarinda Mental Health
 18 Institute shall begin to modify its focus to emphasize
 19 the following two goals:

20 a. Provide comprehensive in-patient mental health
 21 care for a residential population of approximately
 22 200, reflecting an estimated decrease in in-patient
 23 population.

24 b. Promote development of community-based services
 25 through mental health centers in southwest Iowa.

26 There may be changes in personnel requirements
 27 and financial arrangements, and it is intended that
 28 the department shall submit a cost estimate to the
 29 joint budget subcommittee on social services by January
 30 15, 1978 on any necessary changes in funding to
 31 implement the new goals.

32 3. It is the intent of this bill, in consideration
 33 of the Iowa State University ADC study, that payments
 34 for persons on the aid to families with dependent
 35 children program shall be set as follows:

- 36 a. 2 person family \$257
- 37 b. 3 person family \$318
- 38 c. 4 person family \$369

39 d. All other cash grants are continued at
 40 their present levels including special needs.

41 It is provided in this bill that the AFCD program
 42 shall no longer include children 18 years of age or
 43 older.

44 4. It is the intent of this bill that the
 45 department shall increase the maximum allowable
 46 reimbursement for ICF services under medicaid from
 47 \$19.00 to \$19.50, and that the department shall
 48 increase the fee paid to pharmacists under medicaid
 49 from \$2.15 to \$2.55.

50 5. It is the intent of this bill that the

Page 6

- 1 department shall resist the implementation of the
- 2 federal government spouse income regulation which
- 3 would allow spouse income under certain circumstances
- 4 to be excluded from the determination of income for
- 5 ICF medicaid eligibility purposes.”

 3 *permit as provided in sections seven (7) and eight*

17 2. ACTION BY LOCAL AUTHORITIES. The local
 18 authority shall either approve or disapprove the
 19 issuance of a liquor control license or retail beer
 20 permit *or retail wine permit*, and shall endorse such
 21 approval or disapproval on the application and forward
 22 same along with the required fee and bond to the

 24 control] license or [retail beer] permit, the fact that
 25 the local authority determines that no [liquor control]
 26 license or [retail beer] permit shall be issued shall

31 authorities.

32 3. ACTION BY DIRECTOR. Upon receipt of an

46 and the same shall become a part of the application.
47 If the application is approved by the director, the

9 [such] appeal the hearing board shall determine that
10 [the] a local authority acted arbitrarily, capriciously,
11 or without reasonable cause in disapproving [the] an
12 application, or that, where the local authority
13 approved the application, the director's own
14 disapproval should be reversed, it shall order issuance
15 of a license or permit. The same right of appeal
16 to the hearing board shall be afforded a [liquor control]
17 licensee or [beer] permittee whose license or permit
18 has been suspended or revoked under this chapter,
19 and the hearing board shall reduce the period of
20 suspension or order reinstatement of such license
21 or permit for good cause shown.

 31 director may issue six-month or eight-month seasonal
 32 licenses or class "B" beer permits or class "B" wine

 43 chapter, which may be filed by licensees and permittees
 44 in lieu of a detailed renewal application form when
 45 qualifications and qualification information have
 46 not changed since the original issuance of the license
 47 or permit. Such simplified form shall require the
 48 licensee or permittee to verify under oath that the
 49 information contained in the original application
 50 remains current, and that no reason exists for the

Page 20

 15 permit the consumption of alcoholic beverages [or beer]
 16 on the premises more than one day in any week, and

17 if the application for a license states that such
18 club does not and will not sell or permit the

 6 (496A), Code 1977, is amended by adding the following
 7 new section:

8 **NEW SECTION. OFFER TO PURCHASE STOCK—CONDITIONS**
 9 **—PENALTY.**

10 1. A person shall not offer to purchase or acquire,
 11 directly or indirectly, equity securities as defined in
 12 section seven (7) of this Act of a corporation organized
 13 under this chapter for consideration which exceeds the
 14 aggregate market values of those securities with the
 15 intent to acquire control of the corporation unless the
 16 person extends the same offer to all owners of such
 17 securities not owned or controlled by the person making
 18 the offer. The person making the offer shall do so in a
 19 writing which complies with subsection three (3) of this
 20 section.

21 2. A person who is required by subsection one (1)
 22 of this section to give notice of an offer to purchase

 38 by all shareholders to whom the written offer was made.
 39 For purposes of this subsection 'tendered in acceptance'
 40 means stated in writing by the shareholder as the number of
 41 shares which the shareholder agrees to sell in response to
 42 the offer, and does not require actual delivery of the
 43 shares.

44 3. The written offer required by subsection one (1)
 45 of this section must state the price which will be paid for
 46 each share and the maximum number of shares which the
 47 person making the offer will purchase in the aggregate,

 49 writing which states the number of shares the shareholder
 50 agrees to sell and (b) the acceptance must be received by

Page 2

1 the person making the offer not later than sixty days
 2 after delivery to the shareholder of the written offer.

3 4. For purposes of this section, a written offer
 4 to a shareholder shall be deemed delivered on the date

36 Sec. ____ . Section four hundred forty-one point
37 twenty-one (441.21), subsection one (1), Code 1977,
38 is amended by inserting after unnumbered paragraph
39 five (5) the following new unnumbered paragraph:

40 *NEW UNNUMBERED PARAGRAPH.* Beginning with valuations
41 established as of January 1, 1980, the actual value
42 of agricultural land shall be computed on the basis
43 of the productivity and net earning capacity of the
44 land determined on the basis of its use for
45 agricultural purposes capitalized at a rate of seven
46 percent and applied uniformly among counties and among
47 classes of property. Structures located on
48 agricultural land shall be valued at their market
49 value as defined in this subsection.

50 Sec. ____ . Section four hundred forty-one point

Page 5

1 twenty-one (441.21), subsection one (1), Code 1977,
2 is amended by adding the following new unnumbered
3 paragraphs:

4 *NEW UNNUMBERED PARAGRAPH.* For valuations
5 established as of January 1, 1978, agricultural and
6 residential property shall be assessed at a percentage
7 of the actual value of such property. The percentage
8 shall be determined by the director of revenue for
9 each assessing jurisdiction in the state in accordance
10 with the provisions of this section. For valuations
11 established as of January 1, 1978, the percentage
12 shall be the quotient of the dividend and divisor
13 as defined in this section. The dividend shall be
14 the total equalized value of such property in the
15 assessing jurisdiction in 1975, adjusted for additions
16 or deletions to said value, excluding those resulting
17 from the revaluation of existing properties, as
18 reported by the assessor on the abstracts of assessment
19 submitted in 1976 and 1977, plus seven and one-half
20 percent of the 1975 equalized value of such property
21 or the amount of value added by the revaluation of

22 existing properties in 1976, 1977 and 1978 whichever
 23 is less. The divisor shall be the total value of
 24 such property in the assessing jurisdiction as reported
 25 by the assessor on the abstract of assessment submitted
 26 in 1977, plus the amount of value added in 1978 by
 27 the revaluation of existing properties.

28 *NEW UNNUMBERED PARAGRAPH.* For valuations
 29 established as of January 1, 1979, and each succeeding
 30 year, the percentage of actual value at which
 31 agricultural and residential property shall be assessed
 32 shall be the quotient of the dividend and divisor
 33 as defined in this section. The dividend shall be
 34 the dividend as determined for valuations established
 35 as of January first of the preceding year, adjusted
 36 by the product obtained by multiplying the percentage
 37 determined for the preceding year by the amount of
 38 any additions or deletions to actual value, excluding
 39 those resulting from the revaluation of existing
 40 properties, as reported by the assessor on the abstract
 41 of assessment for the preceding year, plus seven and
 42 one-half percent of the amount so determined. The
 43 divisor shall be the total actual value of all such
 44 property in the assessing jurisdiction in the preceding
 45 year, as reported by the assessor on the abstract
 46 of assessment submitted for the preceding year, plus
 47 the amount of value added to said total actual value
 48 by the revaluation of existing properties in the
 49 current year. The director shall utilize information
 50 reported on abstracts of assessment submitted pursuant

Page 6

1 to section four hundred forty-one point forty-five
 2 (441.45) of the Code in determining such percentage.

3 *NEW UNNUMBERED PARAGRAPH.* For valuations estab-
 4 lished as of January 1, 1980 and succeeding years,
 5 the percentage of actual value at which agricultural
 6 structures shall be assessed shall be the same
 7 percentage applied to compute the assessed value of
 8 residential property.

9 *NEW UNNUMBERED PARAGRAPH.* Not later than November
 10 1, 1978, and November first of each succeeding year,
 11 the director shall certify to the county auditor of
 12 each county the percentages of actual value at which
 13 residential and agricultural property in each assessing
 14 jurisdiction in the county shall be assessed for
 15 taxation. The county auditor shall proceed to

16 determine the assessed values of agricultural and
17 residential property by applying such percentages
18 to the current actual value of such property, as
19 reported to the county auditor by the assessor, and
20 the assessed values so determined shall be the taxable
21 values of such properties upon which the levy shall
22 be made.

23 Sec. ____ . Section four hundred forty-one point
24 twenty-six (441.26), Code 1977, is amended by adding
25 the following new unnumbered paragraph:

26 *NEW UNNUMBERED PARAGRAPH.* Beginning with valuations
27 for January 1, 1977 and each succeeding year, for
28 each parcel of property entered in the assessment
29 book, the assessor shall list the classification of
30 the property.

31 Sec. ____ . Section four hundred forty-two point
32 two (442.2), unnumbered paragraph one (1), Code 1977,
33 is amended to read as follows:

34 Each school district shall cause to be levied each
35 year, for the school general fund, a foundation prop-
36 erty tax of five dollars and forty cents per thousand
37 dollars of assessed valuation on all taxable property
38 in the district. For the purpose of this chapter,
39 a school district is defined as a school corporation
40 organized under chapter 274. [Each county auditor
41 shall certify to each school district within the
42 county and to the state comptroller, not later than
43 January 1 each year, the assessed valuation of taxable
44 property for the current year in each school district
45 within the county.]

46 Sec. ____ . *TASK FORCE CREATED.* There is established
47 a task force on taxation composed of six members.
48 Of the six members, three shall be appointed by the
49 governor and three shall be appointed by the
50 legislative council. All members shall be appointed

Page 7

1 not later than June 30, 1977. Any vacancy in the
2 membership of the task force shall be filled by
3 appointment in the same manner as the original
4 appointments.

5 Members of the task force shall receive a per diem
6 of forty dollars and their actual and necessary
7 expenses.

8 Sec. ____ . *DUTIES.* The task force on taxation
9 shall conduct a study of the present taxing system

10 in this state. The study shall include, but not be
 11 limited to, the following:

12 1. The present system of state and local taxes
 13 to determine the relative burden of the present tax
 14 structure on the various segments of the state's
 15 populace.

16 2. How different types and classes of property
 17 should be valued and equalized for property tax
 18 assessment purposes.

19 3. Whether budget limitations should be imposed
 20 permanently on the political subdivisions of this
 21 state.

22 4. Which taxes may presently bear too great a
 23 burden of the taxes and which taxes may bear too small
 24 a burden.

25 Sec. ____ . STAFF. The task force on taxation shall
 26 employ a consultant to assist it in carrying out its
 27 duties and may request the assistance of any state
 28 agency to obtain such data and other information which
 29 the task force deems necessary to carry out its duties.

30 Sec. ____ . REPORT. The task force shall transmit
 31 copies of its final report to the governor and the
 32 members of the Sixty-seventh General Assembly not
 33 later than June 30, 1978. The final report shall
 34 include findings of fact and its recommendations.

35 Sec. ____ . APPROPRIATION. There is appropriated
 36 from the general fund of the state to the office of
 37 the state comptroller the sum of two hundred thousand
 38 (200,000) dollars, or so much thereof as may be
 39 necessary, for the fiscal year beginning July 1, 1977
 40 and ending June 30, 1978, for the purpose of the
 41 employment of such professional, technical and
 42 administrative staff and assistance on such basis
 43 as shall be determined by the task force and for such
 44 other expenses as shall be necessary to accomplish
 45 the purpose of this Act, including per diem and actual
 46 expenses incurred by task force members."

47 4. Amend the title, line 1, by striking everything
 48 after the word "Act" and inserting in lieu thereof
 49 the words "relating to property taxation by providing
 50 additional property tax credits for property owners

 10 the age of [sixty-five] *eighteen* years on or before
 11 December [31] *thirty-first* of the base year [or who is

 19 *entire base year and is domiciled in this state at*
 20 *the time the claim is filed. 'Claimant' includes*
 21 *a vendee in possession under a contract for deed and*
 22 *may include one or more joint tenants or tenants in*
 23 *common. In the case of a claim for rent constituting*
 24 *property taxes paid, the claimant shall have rented*
 25 *the property during any part of the base year. When*

32 If a homestead is occupied by two or more persons,
33 and more than one person is able to qualify as a
34 claimant, and some or all of the qualified persons
35 are not related, the persons may determine among them
36 who will be the claimant. If they are unable to
37 agree, the matter shall be referred to the director
38 of revenue not later than July [31] *thirty-first* of
39 each year and his decision shall be final.
40 9. 'Property taxes paid' means property taxes
41 including one-half of any special assessments, but
42 exclusive of delinquent interest and charges for
43 services, paid on a claimant's homestead in this
44 state, but includes only property taxes for which
45 the claimant was liable and which were actually paid
46 by the claimant. If the property taxes have actually
47 been paid, they shall be deemed to have been paid
48 when due, regardless of the date of actual payment.
49 'Property taxes paid' shall be computed with no
50 deduction for any credit under this division or for

Page 2

1 any homestead credit allowed under section 425.1.
2 Claims for property tax reimbursement filed in 1974
3 shall be based upon the property taxes paid in 1973.
4 Claims for property tax reimbursement filed in 1975
5 shall be limited to two-thirds of the property taxes
6 paid in 1974 and the first one-half of 1975. Each
7 year thereafter, each claim shall be based upon the
8 taxes paid during the base year. If a homestead is
9 owned by two or more persons as joint tenants or
10 tenants in common, and one or more persons are not
11 a member of claimant's household, 'property taxes
12 paid' is that part of property taxes paid on the
13 homestead which equals the ownership percentage of
14 the claimant and his household. The county treasurer
15 shall include with the tax receipt a statement that
16 if the owner of the property is [sixty-five] *eighteen*
17 years of age or over [or is totally disabled, or is
18 a surviving spouse of such person who is over the
19 age of fifty-five years of age] *and has not been claimed*
20 *as a dependent by another person on a state income*
21 *tax return filed in the preceding calendar year, the*
22 person may be eligible for the credit allowed under
23 this division. If a claimant changes his homestead,
24 this shall not prevent him from filing a claim based

25 on property taxes for which the claimant was liable
 26 and which were actually paid by the claimant, but
 27 duplication of claims shall not be allowed. If a
 28 homestead is an integral part of a farm, the claimant
 29 may use the total property taxes paid for the larger
 30 unit, but not exceeding forty acres of land. If a
 31 homestead is an integral part of a multidwelling or
 32 multipurpose building the property taxes paid for
 33 the purpose of this subsection shall be prorated to
 34 reflect the portion which the value of the property
 35 that the household occupies as its homestead is to
 36 the value of the entire structure. For purposes of
 37 this subsection, 'unit' refers to that parcel of
 38 property covered by a single tax statement of which
 39 the homestead is a part.

40 Sec. ____ . Section four hundred twenty-five point
 41 seventeen (425.17), Code 1977, is amended by adding
 42 the following new subsection:

43 *NEW SUBSECTION.* 'Investment income' means that

GOVERNOR'S VETO MESSAGES

July 10, 1977

The Honorable Melvin D. Synhorst

Dear Mr. Secretary:

I hereby enclose Senate File 7, an Act relating to contract and bidding procedures for the repair or construction of county buildings which, in accordance with Article III, Section 16, Constitution of the State of Iowa, I hereby disapprove and transmit to the Secretary of State.

The purpose of this bill appears to be to grant counties an exemption from bidding requirements when emergencies or very minor repairs are necessary for county buildings.

I agree that there should be provisions for an exception to bidding procedures in cases of emergency. When repairs are urgently necessary to prevent further damage to a building and which reasonably cannot be delayed to comply with either formal or informal bidding procedures, county governments should be given the flexibility to move swiftly.

Unfortunately in writing Senate File 7, the legislature struck current language which requires counties to accept the lowest responsible bid. The purpose of public bidding is to ensure that contracts are let for the lowest responsible price. To delete this requirement abrogates the intent of bidding.

I would accept similar legislation next year if it maintained the current requirement for accepting the lowest responsible bid. I would also support enthusiastically an effort to bring all local governments under a uniform bidding procedure as I have proposed during the past several years. Such a uniform bidding procedure could assure open and honest bidding and provide for emergencies that confront local governments.

For the reasons I have outlined above, I hereby respectfully disapprove of Senate File 7.

Sincerely,
ROBERT D. RAY

Dear Mr. Secretary:

Senate File 31, an Act to create a substance abuse rehabilitation and prevention fund financed by taxes on consumers of beer and alcoholic beverages and to provide for the use of the fund for the rehabilitation of substance abusers, is hereby disapproved and in accordance with Article III, Section 16, Constitution of the State of Iowa, is hereby transmitted to the Secretary of State.

Senate File 31 imposes new liquor taxes on Iowans. While one can understand the motives behind the bill, the consequences of the liquor tax hikes warrant my veto.

Senate File 31 creates a "substance abuse rehabilitation and prevention fund" which is to be supported by revenues derived from an across-the-board tax increase of two percent on the purchase of alcoholic beverages and new taxes on beer of \$1.00 per barrel. The revenue from the new taxes would be *earmarked* exclusively for the rehabilitation and treatment of alcoholics and drug abusers, with one-half of the revenue to be remitted to counties on a per capita basis and the remaining funds to be made available to the new State Department of Substance Abuse. In addition, Senate File 31 repeals the 15 percent surtax liquor licensees currently pay on purchases of liquor at state stores and directs the Beer and Liquor Control Department to increase prices on all purchases to make up for the lost revenue.

The deficiencies in the present funding system for local alcoholism programs have moved county governments to press for major changes. Insufficient budget and program controls over local alcoholism programs have left the state and its counties with the responsibility of financing the programs regardless of how costly or ineffective they are. When state funding has proved to be inadequate, counties have sometimes chosen to pay more than their intended 25 percent share.

House File 594, which merges the alcoholism and drug abuse treatment programs on a statewide basis, should help to alleviate some of this problem. That bill imposes much stricter financial and program controls and review

procedures over local treatment programs. Funds can be withheld from programs which do not meet licensing standards or provide unnecessary, duplicative or overlapping services.

In addition to the merger bill, county governments worked successfully for the passage of Senate File 31 and its provision for an earmarked liquor tax increase to finance treatment programs.

I have long believed that for most purposes earmarking tax funds for a specific use is poor public policy. When a government program is financed from earmarked revenues, it is removed from the regular budget process. It becomes shielded from the essential scrutiny the executive and legislative branches employ to ensure that public funds are spent in the most productive and cost-efficient manner. Since the earmarked funding source is assured year in and year out, the recipient program has a tendency to become less responsive to the elected representatives of the people. The audit reports on local alcoholism programs from the past several years indicate that this appropriation warrants careful review.

Senate File 31 provides no reversion clause for the funds which will be distributed to the counties from the earmarked tax receipts. Since the money can only be used for treatment and rehabilitation expenses, it can be assumed that existing programs will expand to sop up the extra funds made available by the bill. Thus we will experience one of the pitfalls of earmarking, that of program activity in some cases being determined not by the public need for it but by the availability of funds.

In the case of alcoholism programs, some experts express a special concern about earmarking. The Funding Task Force of the North American Congress on Alcohol and Drug Problems reported that earmarking taxes for alcoholism effectively removes the illness from the general health area and establishes it in the public mind as a condition that is somehow different than other health problems. They believe that alcoholism is a multi-faceted disease which is the responsibility of society in general to provide treatment programs for alcoholics.

I appreciate the present difficulties counties experience in funding alcoholism treatment programs. We must work to develop a better financing method. Nonetheless, I cannot support the funding approach contained in Senate File 31. When I first became Governor, we instituted and funded an alcoholism program that didn't exist before. I continue to support responsible and adequate treatment programs for those who suffer from the disease of alcoholism.

The earmarking alone will raise \$4.4 million to defray the counties and state's cost of the treatment of individuals. Little planning has been incorporated into the state or county budgets on how these new monies will be used during FY 78, the year in which the funds would first become available. The impact of the lack of planning is compounded by Blue

Cross/Blue Shield's decision to select Iowa as a pilot state where they will pay the total cost of an individual's treatment, relieving government of that obligation. At the same time, other factors, such as pending federal legislation and regulations, may have additional impact on alcoholism funding. We should not launch a major funding program when the agencies involved haven't even planned for the use of those funds.

The merger of the funding provisions for alcoholism and drug abuse treatment programs contained in House File 594 will mark a departure from the present financing system. Counties will be responsible for the first time to pay 25 percent of the cost of drug abuse programs in addition to alcoholism treatment programs. Before this new funding mechanism becomes effective—which I intend to delay by Executive Order—state and county governments should work cooperatively to determine what is the most appropriate funding method to sufficiently and equitably finance treatment programs. We should move promptly during this interim so that a precise recommendation can be made in time for consideration by the 1978 session of the legislature.

During the legislative session, I repeatedly voiced my opposition to the earmarking of liquor funds. I hope no one will now be surprised to learn that I meant it.

Originally the earmarked liquor tax increase was the only tax increase contained in Senate File 31. However, in the waning moments of the legislative session a provision was added which will increase the retail price of liquor by approximately five percent. This additional increase is necessitated to replace the loss of revenue caused by the legislature's repeal of the 15 percent markup liquor licensees pay for the purchase of their liquor.

The 15 percent surtax originated as a replacement for the 10 percent sales tax liquor licensees were required to collect when liquor by the drink first became legal in Iowa in 1963.

The obvious impact of the repeal of the 15 percent markup will be to lower the price of liquor for a few—the liquor licensees—and to increase the price of liquor for all purchasers. The five percent increase in price comes on the heels of the two percent earmarked tax and an earlier five percent increase in price. There is no indication that liquor licensees would necessarily pass their savings from the repeal of the 15 percent surtax on to their customers.

Senate File 31 does not coordinate the timing of the repeal of the surtax and the general price increase. The repeal is to take effect immediately, while the Beer and Liquor Control Department is directed to increase prices not until January 1, 1978. During this interim the state might have to do without the revenues from either the 15 percent surtax or the general price increase. That would cause a loss of up to \$3 million in the general fund.

Because they buy in volume, liquor licensees believe they should not be subject to higher prices than the general public must pay for liquor. Especially in border areas, the pricing differential has led to enforcement problems as some licensees attempt to evade the higher prices. Liquor licensees should keep in mind that liquor prices in Iowa are marked up less than the national average for control states. If liquor licensees want to pursue the effort to repeal the 15 percent surtax, it can be debated before the legislature under the bright lights of public visibility.

For the above reasons, I hereby veto all the provisions of Senate File 31.

Sincerely,
ROBERT D. RAY
Governor

Dear Mr. Secretary:

I hereby enclose House File 64, an Act relating to flexible full-time employment for state employees which, in accordance with Article III, Section 16, Constitution of the State of Iowa, I hereby disapprove and transmit to the Secretary of State.

House File 64 directs state agencies to make available up to 10 percent of the positions in each class of employment for flexible full-time employment. It defines flexible full-time employment as "full-time employment of at least forty hours a week where the employee works either a compressed work week or a flexible time schedule . . ."

In a spirit that is unbecoming the concept, House File 64 moves to implement flex time for state employees in an inflexible and arbitrary manner. The intent of the bill's authors was to provide flex time opportunities for employees wherever possible if it were appropriate. To accomplish this end, the bill requires that positions in each class of employment in every agency shall be made available for flex time. It does not state that the use of flex time should provide for improved service to the public or greater efficiencies for the agencies. In fact, the only waiver that can be granted from the minimum requirement is if the Merit Commission Director determines that "compliance would be substantially disruptive of the ability of the agencies to discharge its duties."

As in private business, flex time lends itself better to some government operations than to others. Whereas a particular agency or department might be able to place more than one-half of its staff on flex time, another agency,

because of its size or nature of its business, might be able to provide very limited opportunities for flex time. Management prerogatives should be maintained so flex time can be adopted in the most productive manner for not only employees but also state government and the public as well.

The concept of flex time has merit. In addition to providing flexibility and convenience to employees, it can provide improved service to the public by keeping offices open longer and enabling agencies to achieve greater efficiency in utilization of staff.

State government is no newcomer to flex time for several state agencies have already experimented with this concept. The Geological Survey and the Department of Job Service had mixed success with the results of their experiments with flex time. Additional agencies are planning to adopt the use of flex time at this time and intend to implement it on an orderly and systematic basis.

We should determine in what manner flex time can best be utilized in state government. Rather than implement it arbitrarily, good management principles dictate that we should approach it in a logical manner. We find there are other methods more compatible with this approach than House File 64. Therefore, I have decided to veto this bill.

At the same time, I am issuing an Executive Order requiring each agency of the Executive Branch of government to submit to me by September 15, 1977, a plan outlining the use of flex time for the department and a schedule for the implementation of flex time for its employees within the following six months. Lest this action be underestimated, the impact of the Executive Order will be substantially greater than had we relied on House File 64. As an example, the Department of Transportation is moving today to initiate flex time opportunities for the 1,000 of its employees who work at the Ames headquarters. This alone is almost three times more than the bill sets as a minimum to be achieved as of July 1, 1978. I am enclosing a copy of my Executive Order.

Those who support House File 64 should recognize that despite the veto of the bill, the action I have taken today will insure far greater opportunities for flex time.

Sincerely,
ROBERT D. RAY

In the Name and by the Authority of the State of Iowa

EXECUTIVE ORDER NUMBER 25

WHEREAS, Iowa State Government has endeavored to establish progressive and innovative programs to provide more efficient service for its citizens and improved working conditions for its employees; and

WHEREAS, in this effort the State has experimented with flexible time, a concept which departs from the traditional five days per week and eight hours per day job schedule to provide employees with alternative work schedules; and,

WHEREAS, the Iowa Legislature expressed its interest in greater utilization of flex time for state employees by passing House File 64; and,

WHEREAS, House File 64 is a mandatory and arbitrary approach to the implementation of flexible time; it sets quotas whether achievable or not; it is not in all cases workable nor does it necessarily make the best use of the potential of employees; and,

WHEREAS, state government is no newcomer to this concept for several state agencies have already experimented with flex time and other agencies have initiated plans to adopt the use of flex time, and will implement them on an orderly and systematic basis; and,

WHEREAS, each state agency should review carefully flex time to determine how it can best be utilized;

NOW,

THEREFORE, I, Robert D. Ray, Governor of the State of Iowa, do hereby require each state agency in the Executive Branch of Iowa government to submit to me by September 15, 1977, a plan outlining the use of flex time for the department and a schedule for the implementation of flex time for its employees. The plan shall include the number of employees to be offered flex time and those who will be exempt; how the plan will benefit the agency's employees; a description of how flex time will achieve greater efficiencies for the agency as well as improved service to the public; any alternative suggestions for work arrangements in addition to flex time; and the specific time schedule for the implementation of an approved departmental flex time proposal.

An agency director, who, because of the size or nature of the business of the agency, believes that there might be valid reasons for not engaging in the use of flex time, shall submit an alternative report outlining those reasons and

any alternative approaches as possible substitutes. Employees who are members of certified public bargaining units shall not be covered by flex time arrangements without the consent of their unions. Employees who are not subject to regularly scheduled work weeks throughout the year will be exempted from coverage as well as managerial and confidential employees.

Subsequent to the review of its submitted report, each agency, in consultation with the Merit Commission and the Comptroller's Office, shall proceed to implement its approved flex time schedule on an orderly basis within six months of September 15, 1977.

GOVERNOR'S ITEM VETO MESSAGES

July 10, 1977

The Honorable Melvin D. Synhorst
Secretary of State
State Capitol Building
Local

Dear Mr. Secretary:

I hereby transmit House File 327, an Act making appropriations to and relating to the financing of agencies who responsibilities relate to transportation, public safety, and public defense.

House File 327 is approved July 10, 1977, with the following exceptions which I hereby disapprove.

I am unable to approve the item designated as Subsection 5 of Section 4 which reads as follows:

"5. It is the intent of the general assembly that the state participation in renting telecommunication terminals which are located in local criminal justice agencies be reduced from the current seventy-five-twenty-five percent state-to-local match, to a fifty-fifty percent state-local match effective July 1, 1977, and to a twenty-five-seventy-five state-to-local match effective July 1, 1978."

I am also unable to approve the item designated as Subsection 7 of Section 4 which reads as follows:

"7. The department of public safety to regulate and enforce motor vehicle laws governing traffic control and laws designed to maintain the public peace, pursuant to duties as provided in section eighty point nine (80.9), of the Code, may seek the cooperation of the Iowa national guard to enforce motor vehicle traffic control and safety laws at large public gatherings where traffic control and safety may require additional enforcement facilities. Under this provision the Iowa national guard may provide assistance only with 'on duty' members assigned by the adjutant general of the guard who will be subject to the direction of the department of public safety while enforcing the motor vehicle traffic control laws."

The first item lowers the current 75%-25% state-to-local match for the renting of TRACIS terminals to 50%-50% match effective July 1, 1977, and to 25%-75% match effective July 1, 1978. County and city law enforcement agencies which currently operate 80 of the telecommunication terminals pay \$100.00 a month in rental charges. The fee would increase to \$198.00 per month this year and \$297.00 next year under this item. The increase—a total of \$100,000—for local governments enabled the legislature to shave the same amount from our recommendations for the Department of Public Safety.

Local budgets for the next fiscal year were finalized long before this bill reached final passage. Assuming the match provision for TRACIS terminals would remain the same as it had for the previous five years, law enforcement officials had asked their governing boards for no increase in funds. The shift in the rental charges from the state to the local level comes too late for the local law enforcement agencies to adjust their budget askings. Now they will either have to squeeze funds from other programs or drop their TRACIS terminals altogether, as two agencies did in the past month.

At a time when the state is limiting the growth of property taxes, it is undesirable to shift costs to local governments, especially when they cannot adjust for the extra burden. While a case may be made for a different sharing of the TRACIS costs than presently exists, the legislature should not embark on such a course without adequate notice to and cooperation with local governments.

By item vetoing this provision, a greater financial responsibility is placed on the Department of Public Safety. I intend to ask for a deficiency appropriation at the beginning of the next session to cover the difference.

The second item, which is permissive in nature, provides that the Department of Public Safety may seek the cooperation of the Iowa National Guard to enforce traffic control and safety laws at large public gatherings which may require additional enforcement facilities.

The Department of Public Safety is not anxious for this authority. In asking for an item veto of the provision, the Commissioner noted that there is an on-going excellent working relationship between the Department and the Guard in response to various natural and man-made disasters. The authority of the Governor to call out the Guard at any time makes the provision unnecessary.

The item was offered with understandable motives. Its author saw it as a means to promote the Guard before large groups and encourage training in crowd control. I share his belief that we need to encourage recruitment in the Iowa National Guard. However, there are better ways to accomplish increased recruitment than this provision.

We should retain the present system for calling out the National Guard. People enter the Guard with the understanding they won't be called away from their jobs and homes for just any reason. It would be unwise to diffuse the authority to call out the Guard.

For the above reasons, I hereby disapprove these items in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 327 are hereby approved this date.

Sincerely,
ROBERT D. RAY

The Honorable Melvin D. Synhorst
Secretary of State
State Capitol Building
Local

Dear Mr. Secretary:

I hereby transmit House File 464, an Act relating to the administration and financing of current programs under the jurisdiction of the Department of Social Services and to funding of capital improvement projects including capital improvement projects recommended by the Advisory Commission on Corrections Relief.

House File 464 is approved July 11, 1977, with the following exceptions which I hereby disapprove.

I am unable to approve the item designated in the Act as Subsection 1 of Section 13 which reads as follows:

"1. It is the intent of the general assembly that the activities and services provided by the department of social services at the Riverview release center at Newton shall be phased out during the 1977-1978 fiscal year. The budget for the work release halfway houses funded through the Riverview release center shall not be reduced and shall be transferred to community based corrections for administrative purposes at such time as is appropriate. However, the physical structure and fixtures of the Riverview release center shall not be altered except for normal repair and maintenance until such time as the general assembly shall otherwise provide."

I am unable to approve the item designated in the Act as Section 17 which reads as follows:

"Sec. 17. The department of health shall delay implementation of the department of health licensure rules for intermediate care facilities as published in the Iowa Administrative Code 'Health (470) chapter 58'. The department, upon consultation with the health facilities advisory committee, shall review these rules which exceed the federal Title XIX guidelines for intermediate care facilities. All such modified rules approved by the department of health shall be resubmitted to the administrative rules review committee. The department of health may promulgate rules in areas not addressed by federal regulations."

I am unable to approve the item designated in the Act as Subsection 2 of Section 25 which reads as follows:

"2. Notwithstanding the provisions of chapter one thousand forty-three (1043) of the Acts of the Sixty-sixth General Assembly, 1976 Session, funds appropriated by section one (1), subsection four (4) of such chapter remaining unexpended on the effective date of this Act shall be used for the conversion of the existing minimum security dormitory located outside the walls of the Fort Madison penitentiary to a minimum security facility. The conversion shall provide for making necessary repairs and separating the upper floor of this minimum security dormitory into rooms."

Section 13, Subsection 1 requires the Department of Social Services to phase out the operations of the Riverview Release Center at Newton during

FY 78. The Advisory Commission on Corrections Relief recommended that the center as a prerelease facility be phased out in the belief that the traditional way station between prison and community has become less necessary with the establishment of our community corrections program.

However, subsequent to the offering of the proposal to phase out Riverview, the legislature also added a provision to Senate File 112, the community corrections bill, calling for the creation of an inmate employment program at Riverview which would be consistent with the Commission's advice on training. Through a cooperative arrangement between the Departments of Transportation and Social Services, men and women inmates will be trained by Transportation, become employees of the Department for no more than one year, and then move from there to other employment in private industry.

We favor more vocational training and job opportunities for inmates so they will be more adequately prepared to reenter society. If the inmate employment program at Newton is to be the success hoped for, it must be allowed to operate under favorable conditions. Under the phase out provision of this bill, the Riverview administrators would be hard pressed to know whether to proceed full speed ahead on the employment program or hold back in preparation for the shutdown mandated at the end of the year. We believe that this employment program should be supported and in order to do that Riverview should not be phased out at this time.

The major thrust of Riverview during FY 78 will be the inmate employment program. Three quarters of the population of the institution will be participating in the job training endeavor. A report on the initial operation of the program is to be submitted by February, 1978. If at that time the legislature decides to phase out Riverview, they will have ample time to affect the appropriation for FY 79. That action need not be forced now.

Section 17 requires the Department of Health to delay implementation of its revised health licensure rules for intermediate care facilities and in consultation with the Health Facilities Advisory Committee to determine if any exceed federal guidelines. Any rules modified under this review shall be submitted to the Administrative Rules Review Committee.

The Department of Health and the Health Facilities Advisory Committee completed a review and revision of the Department's licensure rules in December, 1976, after a two-year process. These new rules have been in operation since that time. A delay in implementation would leave the Department with no valid licensure rules for an indefinite period.

It was the consensus opinion of that group that these revised rules were efficient, workable, reasonable, and well-thought out. Mr. Larry Breeding, Executive Vice President of the Health Facilities Association of Iowa, wrote to me in December, saying:

"I do not believe I have ever seen a more hardworking, efficient, and industrious a group . . . The spirit of cooperation that existed between all facets of the committee was exemplary . . . I believe the work of this committee exemplified democracy at work (in reaching) reasonable and rational conclusions without a feeling of oppression."

Agreement still exists that the rules are exemplary and that they adequately set forth minimum requirements for intermediate care facilities. A point of contention has arisen, however, over the cost impact of the new rules. Such a cost impact statement was not included in the work of the Health Facilities Advisory Committee. There seems to be some fear that implementation of the new rules will result in costs that will strain the resources of the nursing homes.

At my request the Department of Health has conducted a rule-by-rule financial survey with the following summary results:

1. Requirements for construction will likely result in a net reduction in cost from the previous rules.
2. In the area of staffing requirements, particularly nursing care which has been of major concern, this survey indicates that any increase in the cost of licensed nursing care will be more than counter-balanced by a decrease in the requirement for nursing aide care, resulting in an overall decrease in the cost of minimum nursing care standards.

Section 17 does not address the pertinent issue—that of cost impact—but rather the adequacy of the rules as minimum standards. Further review of these licensure rules in terms of their fitness as minimum standards could be a costly and repetitive exercise. It also seems that the cost impact of the new rules will probably reduce the cost of minimum acceptable standards in each facility. The cost problems generated by the placement of patients requiring skilled care in intermediate care facilities is of concern also, and will be reviewed by the Department.

Nursing homes are not immune to increased costs as they provide quality care to their patients, but I do not presently see reduction of minimum care standards as one of the alternative solutions to that problem.

Further, a delay in implementation in the new rules will prevent the Department of Health from using the fining and citation powers granted last December and will allow inadequate and poor quality care, which was scheduled to be dealt with under this process, to continue for an indefinite period.

I believe it would be better not to halt the new rules but to monitor them

carefully with an eye toward modification any time cost savings could be implemented without jeopardizing minimum standards of care.

For these reasons, I thereby do not approve Section 17.

Section 25, Subsection 2 requires the conversion of the outside dormitory at Fort Madison to rooms for minimum security at a cost of approximately \$235,000. This increase would come at a time when the eligible population is decreasing due to wider use of probation, community-based corrections and work release programs. Currently, more than half the population at Fort Madison is serving sentences for crimes of violence, and one-third is serving sentences of more than twenty years. Both the percentage of the population committing violent crimes and the number of acts of violence by each individual have increased significantly in the last five years.

As of July 9, 1977, the Warden's office reported there were 864 men being housed at Fort Madison. One hundred fifteen of these were in minimum security, with an average six-month stay. These men generally move on to discharge, parole, work release, or through some violation of rules, including escape, are sent back inside the penitentiary. Thus, approximately 200-260 men are moved into minimum security during a year's time.

An examination of the files of the men at the penitentiary indicates that 206 are eligible for minimum security, meeting at least the following criteria:

1. No life sentence.
2. No sentence for violent offense or exhibition of violent behavior while incarcerated.
3. No escape history within one year of review.
4. No report greater than a reprimand in the past two months.
5. No loss of good time or removal from honor roll in last six months.

These minimum standards were established in April, 1977, and are considerably more lenient than earlier criteria. A summary of file information of the 206 who could possibly be eligible indicates that 115 are already in minimum security, leaving 91, of whom another 50 are not currently being considered for the following reasons:

1. New men in orientation.
2. In protective custody.
3. Medical problems requiring daily care.
4. Mental problems.
5. Escape histories.

6. Don't want minimum security.
7. Too elderly.

This leaves 41 eligible for consideration. At current turnover rates, these men, if they are approved during review, will be placed in minimum security within six months or less.

It seems, therefore, based on the current population that minimum security candidates are being placed expeditiously and that a sufficient roster of available candidates would not be found to fill another facility and keep it filled. In addition, the escape rate from minimum security has increased since the opening of the farm dorms, thus increasing security risks.

Finally, the conversion of the outside dormitory to minimum security poses three other problems:

1. There will be a significant increase in staffing costs for security, counselors, and cooks for the new facility, since separate services will have to be provided.
2. The proximity of this building to the main compound increases significantly the danger of contraband passing between the inmates outside the walls and those inside.
3. Other facilities will have to be found for part of the vocational training program now housed there.

I am, therefore, unable to approve the use of this appropriation contained in Section 25, Subsection 2.

I do, however, feel that the dormitory, being a building less than 15 years old and in good condition, should be fully utilized and am directing the Department of Social Services to plan for its appropriate use considering some of the following alternatives:

1. Housing for correctional officers recruited from outside the local area.
2. Expansion of vocational programs.
3. Division of open spaces into classroom units.

For the above reasons, I hereby disapprove these items in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of House File 464 are hereby approved as of this date.

Sincerely,
ROBERT D. RAY
Governor

Mr. Van Drie served in the infantry during the Korean Conflict and returned to complete his Bachelor of Arts degree at the University of Iowa in 1955. He moved to Ames and was associated for several years in clothing store enterprises.

On August 1, 1958, Mr. Van Drie married Gladys VanderWolde of Amherst, South Dakota. They had two daughters, Karen and Karla.

Mr. Van Drie established the Ames Advertiser in 1958 and was owner and publisher for the past 18 years. During those years, Mr. Van Drie expanded his business operations to include ownership and publishing of the Boone County Flyer and was a partner in the Knoxville Reminder. He served as

president of the Iowa Shoppers Association and was, at the time of his death, president-elect of the Ames Chamber of Commerce and national president of the National Association of Advertising Publications.

Mr. Van Drie was elected to the Iowa House of Representatives from Story County and served from 1966 to 1968 during the Sixty-second and the Sixty-third General Assemblies. He was Assistant Majority Leader in 1969 and 1970. In 1970 Mr. Van Drie was elected to the Iowa Senate from the 17th Senatorial District, including portions of Story, Jasper and Polk Counties, and served during the Sixty-fourth General Assembly.

While Mr. Van Drie served as State Senator, he was actively involved in supporting the parents responsibility bill and in securing the line-item appropriation for the Veterinary Medicine Building at Iowa State University. During his tenure in the Legislature, Mr. Van Drie earned the reputation as an energetic and dedicated friend of the employees of the Iowa Highway Commission.

Mr. Van Drie died at Ames on October 13, 1976, at the age of 45. He is survived by his wife, two daughters, his mother, three brothers and two sisters.

Therefore, Be It Resolved by the Senate of the Sixty-seventh General Assembly of Iowa: That in the passing of the Honorable Rudy Van Drie, the state has lost an honored citizen and a faithful and useful public servant, and the Senate by this resolution would express its appreciation of his service to his community, state and nation and tender its sympathy and kindest regards to the members of his family.

Be It Further Resolved: That a copy of this resolution be spread upon the Journal of the Senate, and that the Secretary of the Senate be directed to forward an enrolled copy to the family of the deceased.
