## Introduction

The Iowa Educational Directory (Directory), a guide to Iowa's schools, is compiled from information submitted to the Iowa Department of Education (Department) by school administrators. Information for the 2022-2023 edition was verified in September 2022.

The Directory includes names, addresses and telephone numbers of each school; code numbers for each district and individual school; enrollment for each district and grade-span for each school; web and email addresses (where available); and names of chief administrators. District population figures are taken from the 2020 census and district enrollments refer to the prior school year. The Directory can be found on the web at <https://educateiowa.gov/resources/directories>.

# Public School Districts

(in alphabetical order by district name)

Iowa has 327 public school districts. The code number assigned by the Department of Education appears opposite the district name and physical location. The first two digits of the code indicate the county where the school is located; the next four digits identify the school district; and the last four digits identify the building. If the last four digits read 0000, this indicates the administrative office of the district.

## State Accredited Nonpublic Schools

Iowa has 118 state accredited nonpublic schools. The code number assigned by the Department of Education appears opposite the school address. The first two digits of the code indicate the county where the school is located, the next four digits the public school district where the school is located, and the last four digits are the school building number.

## Independent Accredited Nonpublic Schools

Iowa has 64 schools accredited by independent agencies. The code number assigned by the Department of Education appears opposite the school physical location address. The first two digits of the code indicate the county where the school is located, the next four digits the public school district where the school is located, and the last four digits are the school building number.

## District Name Changes

Iowa has 327 public school districts. At the turn of the century, there were 4,873 local districts. It was the intent of the Consolidated School Law of 1906 that a statewide pattern of consolidation be realized, but the movement was very slow in developing. By 1910, only 10 consolidated districts had been created. In 1922 there were 4,839 legally organized districts, and in 1953, 4,558 were still in existence. In that year legislation specified that it be “the policy of the state to encourage the reorganization of school districts into such units as are necessary, economical and efficient and which will insure an equal educational opportunity to all children in the state.” The final phase of the community school movement came in 1965, when the 61st General Assembly passed legislation requiring all areas of the state to become part of a legally constituted school district maintaining a high school by July 1, 1966.

Following are the names of closed or reorganized Iowa districts. The name in parentheses indicates the name of the reorganized district. This is a historical file. Many districts have reorganized more than once. Each of those reorganizations are recorded in this list. It may be necessary to follow the district through all reorganizations in this list before the present district name is found.
